Guidelines

2018–19 Texas Academic Performance Report

December 2019

The intent of these guidelines is to help districts fulfill their legal responsibilities regarding the annual report of their educational performance and the Texas Academic Performance Report (TAPR). Please read these guidelines carefully.

These guidelines are not a substitute for districts’ knowledge and full understanding of Texas Education Code (TEC), §39.306 and §39.362, or 19 Texas Administrative Code, §61.1022.

TEC, §39.306, requires each district’s board of trustees to publish an annual report that includes the PDF TAPR as well as the information summarized below under “Annual Report.”

Statute requires that each district’s board of trustees hold a public hearing to discuss the district’s annual report within 90 days of receiving the PDF TAPR; however, because this year’s release date coincides with the start of winter break for many districts, the 90 day count will begin on the first day the district returns from winter break. Within two weeks following the public meeting, each district must widely publish its annual report, including posting it on the district website and other public places.

1. Annual Report The PDF TAPR comprises the main part of the district’s annual report, and it must be published in the same format as provided by TEA. Districts may promote the online TAPR system as well, but the annual report must use the PDF TAPR. In addition to the PDF TAPR, a district’s annual report must include the campus performance objectives and the progress toward those objectives, district accreditation status, each campus awarded a distinction designation or rated *F*, the district’s current special education compliance status (included in the district PDF TAPR cover page), information on violent or criminal incidents and prevention and intervention policies, findings that resulted from evaluations conducted under the Safe and Drug-Free Schools and Communities Act of 1994, and information on the performance of the previous year’s graduates in their first year of college as reported by the Texas Higher Education Coordinating Board (THECB). Districts may include supplemental information, such as a narrative describing their schools; additional data, charts, and diagrams; or an explanation of the data prepared by TEA.

Districts are encouraged to provide a copy of the *TAPR Glossary*. The glossary provides definitions, describes methodologies, and lists sources for each data point in the TAPR. The Spanish version of the glossary is scheduled for release in late spring. Other materials provided by TEA, such as these guidelines, are intended for district or campus use but may be shared with the public.

2. PEIMS Financial Standard Reports (2017–18 Financial Actual Reports) The financial section of the TAPR is provided by the State Funding Division. These reports can be accessed from a link on the last page of the TAPR or at <http://tea.texas.gov/financialstandardreports/>.

For more information on the financial reports, please contact the State Funding Division at (512) 463-9238.

Guidelines

2018–19 Texas Academic Performance Report

December 2019

3. **District Accreditation Status** Each district’s annual report must include the 2018–19 accreditation status. Information on accreditation status is available online at <http://tea.texas.gov/accredstatus/>. The report must also include any campuses that earned a distinction designation or was rated *F*.
4. **Campus Performance Objectives** TEC, §11.253, requires each campus to have an improvement plan with performance objectives and to measure progress toward meeting these objectives. Both the objectives of each campus and each campus’s progress toward meeting those objectives must be included in the district’s annual report.
5. **Special Education Determination Status** (*district PDF TAPR only*) The annual report must include the district’s special education determination status. The special education integrated intervention stage/determination status for each district is on the cover page of the report.
6. **Report on Violent or Criminal Incidents** The annual report must include information about violent or criminal incidents that occur on each campus. Each district determines the format of its report but must include the following:
 - The number, rate, and type of violent or criminal incidents that occurred on each campus, to the extent permitted under the Family Educational Rights and Privacy Act
 - Descriptions of school violence prevention and violence intervention policies and procedures used to protect students
 - Findings from evaluations conducted under the Safe and Drug-Free Schools and Communities Act

For more information about the report of violent or criminal incidents, please see the Safe and Healthy Schools website at http://tea.texas.gov/Texas_Schools/Safe_and_Healthy_Schools/.

7. **Student Performance in Postsecondary Institutions** TEC, §51.403(e), requires postsecondary institutions in Texas to report student performance during the first year of enrollment after high school graduation to the high school from which students graduated. Districts must include this information in the annual report.

The Texas Higher Education Coordinating Board (THECB) publishes a report listing this information for each high school in Texas (sorted by county and district) on its website at <http://www.txhighereddata.org/index.cfm?objectid=B299B000-3F79-11E9-B09D0050560100A9>. The report is titled *Report of 2016–2017 High School Graduates’ Enrollment and Academic Performance in Texas Public Higher Education in FY 2018*. The first page explains the purpose of the report and data calculation methods.

Guidelines

2018–19 Texas Academic Performance Report

December 2019

If data for a district are masked due to small numbers of students, that district should still publish its section of the report, showing the masked data, just as it would publish any data that are masked in the TAPR. Questions about accessing these reports should be directed to the THECB at (512) 427-6153.

8. **Public Hearings** Statute requires that districts hold a hearing for public discussion of the annual report within 90 calendar days of the date of the release of the PDF TAPR; however, because this year’s release date coincides with the start of winter break for many districts, the 90 day count will begin on the first day the district returns from winter break. Districts may combine the hearing with a regularly scheduled meeting of the local board of trustees. Districts must notify property owners, parents, and others in a parental relationship to students of the hearing. This notification, which can be in the form of a press release, must be made available to local print and electronic media (i.e., newspaper, radio, and television). It must clearly state the date, time, and place of the hearing and explain the nature of the hearing.
9. **Accessing the PDF TAPR** The TAPR is available through TEAL Accountability (<https://tealprod.tea.state.tx.us/TSP/TEASecurePortal/Access/LogonServlet>) or the TEA public website (<https://tea.texas.gov/perfreport/tapr/index.html>). The PDF TAPR is designed to allow for two-sided printing. Blank pages have been added after the cover page and where needed to ensure that each report is an even number of pages.

TEAL Accountability is for district use only and provides basic materials districts need to meet the legal requirements related to TAPR.

10. **Publishing the Report** A district can upload its PDF TAPR to the district website or direct others to the TAPR on the TEA website. To accommodate those without internet access, a copy of the annual report should be made available in public places, such as school offices, local businesses, or public libraries. Districts may also distribute copies through email, standard mail, or by sending the reports home with students. Each district is responsible for finding the most efficient method of making the annual reports widely available to the public.
11. **Requirement for Notice on District Website** TEC, §39.362, requires each district to post the most recent PDF TAPR on its website by the 10th instructional day of the school year. This responsibility is separate from widely releasing the annual report to the public. While statute does not require a district to update its website with the latest TAPR after the 10th instructional day, TEA strongly encourages districts to update their websites with the 2018–19 TAPR.

Guidelines

2018–19 Texas Academic Performance Report

December 2019

- 12. Data Modification** By the time the TAPR is published, the window to correct inaccurate data submitted by a district has already closed. Districts must correct TSDS PEIMS data used in the TAPR per the procedures described in the *Texas Education Data Standards*. Districts must submit corrections for STAAR results, college admissions test data, Advanced Placement tests, or International Baccalaureate tests to the appropriate testing contractor. A district may include in its annual report an explanation of any discrepancies between the TAPR and locally computed data.
- 13. Summary Report** In addition to publishing the complete PDF TAPR in its annual report, a district can develop and release a summarized report showing performance on key indicators. This summary must clearly indicate where and how to obtain a copy of the full report.
- 14. Common Questions** Districts are encouraged to make a copy of the *TAPR Glossary* available locally. The glossary provides definitions, describes methodologies, lists sources for data in the TAPR, and answers many of the most commonly asked questions. Following are some of the most common causes of perceived inaccuracies in the TAPR or discrepancies between state and local data.
- **Time Frame** The time of data collection varies from indicator to indicator. For example, test scores for the ACT and SAT may be from tests taken when graduating seniors were juniors, or even sophomores. The *TAPR Glossary* provides additional information on data sources.
 - **PDF and System Data Sources** Although the online TAPR system will be updated as new data become available, the TAPR compiles data sets at a specific point in time to create an annual statistic. Districts that maintain cumulative or dynamic sets of similar information, such as student enrollment, may show different results.
 - **The Accountability Subset** The PDF TAPR includes the STAAR results of only those students enrolled in the campus or district as of October 26, 2018 (for the spring 2019 test). See the *TAPR Glossary* or the [2019 Accountability Manual](#) for a more complete explanation of the accountability subset criteria.
 - **Masking** The TAPR applies masking rules to STAAR assessment results and other performance indicators when needed to comply with the federal Family Educational Rights and Privacy Act. For more information on masking rules and symbols, please see the explanation of masking on the TEA website at <https://rptsvr1.tea.texas.gov/perfreport/tapr/2019/masking.html>.
- 15. Recommended Meetings** Beyond the requirement to widely publish the district annual report and PDF TAPR, a superintendent may encourage principals to meet with staff to discuss their campus report and, following public discussion, schedule presentations of the information at meetings of local parent-teacher organizations.

Comprehensive Glossary

2018–19 Texas Academic Performance Report

Cover Page

2019 Accountability Rating: The overall rating earned by the district or campus for 2019.

2019 Special Education Determination Status (*district TAPR only*): This label represents an integrated determination status based on an evaluation of each district’s Results Driven Accountability (RDA) indicators (formerly Performance Based Monitoring Analysis indicators) in the special education program area; the State Performance Plan (SPP) compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected noncompliance; and audit findings. Districts receive one of four special education determination statuses:

Meets Requirements

Needs Assistance

Needs Intervention

Needs Substantial Intervention

For more information, see the special education intervention guidance and resources documents at the following link: <https://tea.texas.gov/si/SPEDmonitoring/>

Additional resources include the RDA Manual and the State Performance Plan at the following links: <https://tea.texas.gov/academics/special-student-populations/review-and-support/results-driven-accountability-rda>

2019 Armed Services Vocational Aptitude Battery (ASVAB) Test (Career Exploration) (*district TAPR only*): Senate Bill 1843 requires that each school year, each school district and open-enrollment charter school provide students in grades 10–12 the opportunity to take the ASVAB and consult with a military recruiter. There are two types of ASVAB tests; only the ASVAB Career Exploration Program (CEP) was evaluated.

Not Given: The district completed the reporting requirement but did not offer the ASVAB CEP.

Alternate Test Given: The district completed the reporting requirement and did not offer the ASVAB CEP but did offer an alternate test.

Performance

STAAR (State of Texas Assessments of Academic Readiness): A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at <http://tea.texas.gov/curriculum/teks/>.

Prior Year and SSI

Progress of Prior-Year Non-Proficient Students: The percentage of students in grades 4–8 who did not reach the satisfactory standard on STAAR (including STAAR Alternate 2) in the prior year but passed the corresponding assessment in the current year. For 2018–19, rates for ELA/reading and mathematics are calculated as follows:

number of matched grades 4–8 students who did not reach the satisfactory standard in 2018

Comprehensive Glossary

2018–19 Texas Academic Performance Report

For 2018–19, students in grades 4–8 included in these measures are those who

- took the spring 2018–19 STAAR (with or without accommodations) or STAAR Alternate 2 in ELA/reading and/or mathematics. This indicator does not include grade 3 assessment takers because that is the first STAAR assessment;
- are part of the 2018–19 accountability subset;
- can be matched to the spring 2017–18 STAAR administration—anywhere in the state—to find their prior year score for ELA/reading and/or mathematics; and
- did not reach the satisfactory standard on the 2017–18 STAAR administration of ELA/reading and/or mathematics.

Student Success Initiative (SSI): Grade-advancement requirements enacted by the 76th Legislature in 1999 that require students to demonstrate proficiency on the reading and mathematics assessments in grades 5 and 8.

For 2019, the TAPR shows the following for each SSI grade:

- (1) *Students Meeting Approaches Grade Level Standard on First STAAR Administration:* The percentage of students who met the Approaches Grade Level standard during the first administration. It is calculated as follows:

**number of students who met the Approaches Grade Level standard
in the first administration**

**number of students who took the assessment in the first
administration**

- (2) *Students Requiring Accelerated Instruction:* The percentage of students who did not pass the first administration of the STAAR. It is calculated as follows:

**number of students who did not meet the standard in the first
administration**

number of students who took the assessment in the first administration

- (3) *STAAR Cumulative Met Standard:* The cumulative (and unduplicated) percentage of students who took and passed the assessments in the first and second administrations combined. It is calculated as follows:

**number of students who passed the assessment in either of the first two
administrations**

**cumulative number of students who took the assessment in either of the first
two administrations**

number of students promoted by their GPC who passed grade 6 reading STAAR in 2019

number of students who were promoted by their GPC and took grade 6 reading STAAR in 2019

Retained in Grade 5 or 8: The percentage of students who passed the STAAR in 2019 who were retained in grade 5 or 8. Using grade 5 reading as an example, the calculation is as follows:

number of students retained who passed grade 5 reading STAAR in 2019

number of students retained and took grade 5 reading STAAR in 2019

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables English learners to become competent in listening, speaking, reading, and writing in English through the development of literacy and academic skills in both the primary language and English. This category includes the following:

BE-Trans Early Exit. Bilingual program model that serves students of limited English proficiency. The transitional bilingual/early exit model transfers a student to English-only instruction between two and five years after the student enrolls in school.

BE-Trans Late Exit. Bilingual program model that serves students of limited English proficiency. The transitional bilingual/late exit model transfers a student to English-only instruction between six and seven years after the student enrolls in school.

BE-Dual Two-Way. Biliteracy program model designed to develop fluency and literacy in English and another language. The dual language immersion/two-way model integrates students of limited English proficiency with students proficient in English and transfers a student of limited English proficiency to English-only instruction between six and seven years after the student enrolls in school.

Comprehensive Glossary

2018–19 Texas Academic Performance Report

BE-Dual One-Way. Bilingual program model designed to develop fluency and literacy in English. The dual language immersion/one-way model serves only students of limited English proficiency and transfers a student to English-only instruction between six and seven years after the student enrolls in school.

English as a Second Language (ESL): An intensive program designed to develop proficiency in listening, speaking, reading, and writing in the English language. This category includes the following:

ESL Content. An English program that serves students of limited English proficiency. The English as a second language/content-based model provides a full-time teacher that gives supplementary instruction for all content areas.

ESL Pull-Out. An English program that serves students of limited English proficiency. The English as a second language/pull-out model provides a part-time teacher to give instruction in English language arts only. A student in an ESL Pull-Out program remains in mainstream instructional arrangements for all other content areas.

Limited English Proficient (LEP): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English language learner,” “English learner,” and “Limited English Proficient” (LEP) are used interchangeably. This category includes:

LEP No Services. A student identified as limited English proficient who does not receive any bilingual education or English as a second language services.

LEP with Services. A student identified as limited English proficient who receives bilingual education services or English as a second language services.

School Progress Domain—Academic Growth Score: Points earned for results that either maintained performance or earned *Expected/Accelerated* on the STAAR progress measure. Only includes assessments eligible for a STAAR progress measure.

STAAR Progress Measure Percent at Expected or Accelerated Growth: The percentage of assessments that met or exceeded the STAAR progress measure expectations. See Chapter 3 of the [2019 Accountability Manual](#) for more information.

Participation

STAAR Participation

The percentage of students who were administered a STAAR assessment, STAAR Alternate 2, Texas English Language Proficiency Assessment System (TELPAS), and/or TELPAS Alternate. The details on the participation categories are as follows:

Assessment Participant: 1) number of answer documents with a score code of S, 2) number of STAAR Alternate 2 testers with a score code of N, 3) number of substitute assessments, 4) number of A or O reading answer documents with a scored TELPAS or TELPAS Alternate assessment, and 5) number of A or O mathematics answer documents with a scored TELPAS or TELPAS alternate assessment for year 1–5 asylee/refugees and students with interrupted formal education (SIFEs)

- *Included in Accountability:* scored answer documents used in determining the district or campus accountability rating, including substitute assessments with a score code of O

Comprehensive Glossary

2018–19 Texas Academic Performance Report

- *Not included in Accountability:* answer documents counted as participants but not used in determining the district or campus accountability rating
 - ◆ *Mobile:* answer documents were excluded because the students enrolled in the district or campus after the fall TSDS PEIMS submission dates (October 26, 2018, or October 27, 2017, for summer 2018 EOCs)
 - ◆ *Other Exclusions.* The following answer documents were excluded from the rating determination:
 - ❖ Answer documents for students who were tested only on the TELPAS/TELPAS Alternate or TELPAS/TELPAS Alternate plus STAAR assessments with score codes of A or O.
 - ❖ Answer documents of students who are either an English learner who has been in school in the U.S. for one year or an unschooled asylee, unschooled refugee, or SIFE student who has been in school in the U.S. for less than six years.
 - ❖ Answer documents of STAAR Alternate 2 testers with a score code of N.

Not Tested: answer documents with score codes A or O

- *Absent:* answer documents with score code A
- *Other:* answer documents with score code O, except for substitute assessments.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). STAAR Participation Rate is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%. (Data source: STAAR and TELPAS File)

Attendance and Graduation

Attendance, Graduation, and Dropout Rates

Attendance Rate: The percentage of days that students were present in 2017–18 based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation. Attendance is calculated as follows:

total number of days that students in grades 1–12 were present in 2017–18

total number of days that students in grades 1–12 were in membership in 2017–18

This indicator was used in awarding distinction designations in 2019. For a detailed explanation of distinction designations, see Chapter 6 of the [2019 Accountability Manual](#). (Data source: TSDS PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout

Comprehensive Glossary

2018–19 Texas Academic Performance Report

- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by [TEC §39.027\(a-1\)](#)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services

Annual Dropout Rate (Gr 7–8). This includes only grades 7 and 8. It is calculated as follows:

number of dropouts in grades 7 and 8 during the 2017–18 school year

number of students in grades 7 and 8 in attendance at any time during the 2017–18 school year

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

number of dropouts in grades 9–12 during the 2017–18 school year

number of students in grades 9–12 in attendance at any time during the 2017–18 school year

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the [Secondary School Completion and Dropouts in Texas Public Schools, 2017–18](#) reports, available on the TEA website at http://tea.texas.gov/acctres/dropcomp_index.html.

For detailed information on data sources, see Appendix H in the [2019 Accountability Manual](#) (Data source: TSDS PEIMS 40203, 40110, 42400, and 42500)

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

Comprehensive Glossary

2018–19 Texas Academic Performance Report

For the *4-Year Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2014–15. They are followed through their expected graduation with the Class of 2018.

For the *5-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2013–14. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2017.

For the *6-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2012–13. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2016.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2014–15 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2014–15 but takes 5 years to graduate (i.e., graduates in May 2019) is still part of the 2018 cohort; he or she is not switched to the 2019 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2018. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

4-Year Longitudinal Rate

- (1) *Graduated*: The percentage who received their high school diploma in four years or fewer by August 31, 2018 for the 2018 cohort.

- (2) *Received TxCHSE*: For the 2018 cohort, the percentage who received a Texas high school equivalency certificate by August 31, 2018. It is calculated as follows:

number of students from the cohort who received a TxCHSE by August 31, 2018

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus TAPRs show federal graduation rates for the following:

- (1) *4-Year Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2014–15. They are followed through their expected graduation with the Class of 2018. It is calculated as follows:

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

Profile

Student Information

Total Students: The total number of public school students who were reported in membership on October 26, 2018, at any grade from early childhood education through grade 12. Membership differs from enrollment as it does not include those students who are served in the district for less than two hours per day. For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district. *(Data source: TSDS PEIMS 40110)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: TSDS PEIMS 40110)*

Ethnic Distribution: The number and percentage of students and staff who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: TSDS PEIMS 40100, 30040, 30050, 30090)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

$$\frac{\text{number of students eligible for free or reduced-price lunch or other public assistance}}{\text{total number of students}}$$

(Data source: TSDS PEIMS 40100 and TEA Student Assessment Division)

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services.

English Learners (ELs): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English Learner” and “Limited English Proficient” (LEP) are used interchangeably.

Inclusion and exclusion of EL performance varies by indicator:

- EL performance of students who are in year one in U.S. schools is excluded from all STAAR indicators. Exclusion of other EL performance varies, depending on the indicator. For detailed information on the inclusion and exclusion of EL performance, see the [2019 Accountability Manual](#).
- EL performance is included in all other non-STAAR indicators, regardless of years in U.S. schools.

In the *Profile* section of the reports, the percentage of ELs is calculated by dividing the number of ELs by the total number of students in the district or campus. Not all students identified as ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under [Chapter 37 of the Texas Education Code](#) (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\text{number of students with one or more disciplinary placements}}{\text{number of students who were in attendance at any time during the school year}}$$

For 2018–19, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: TSDS PEIMS 44425)*

Students with Dyslexia: The count and percentage of students identified with Dyslexia.

At-Risk: The count and percentage of students identified as being at risk of dropping out of school as defined by [TEC §29.081\(d\) and \(d-1\)](#).

$$\frac{\text{number of students in the 2018–19 school year considered as at risk}}{\text{total number of students}}$$

(Data source: TSDS PEIMS 40110)

Students with Disabilities by Type of Primary Disability: The count of students disaggregated by primary disability. Mobility (*campus profile only*): The count and percentage of students who have been in membership at a campus for less than 83 percent of the school year (i.e., missed six or more weeks).

number of mobile students in 2017–18

**number of students who were in membership at any time during the
2017–18 school year**

This rate is calculated at the campus level and disaggregated by race/ethnicity. The mobility rate shown in the “district” column is based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. *(Data source: TSDS PEIMS 42400)*

Retention Rates by Grade (*not on campus profile*): The percentage of students in Texas public schools who enrolled in fall 2018 in the same grade in which they were reported for the last six-week period of the prior school year (2017–18).

the number of students enrolled in the same grade from one school year to the next

the number of students enrolled from one school year who return the next year or who graduate

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR shows retention rates only for grades K–9. Retention rates for all grades can be found in *Grade-Level Retention in Texas Public Schools, 2017–18*, available from TEA. *(Data source: TSDS PEIMS 40110)*

Data Quality (*not on campus profile*): The percentage of errors made by district in the TSDS PEIMS Student Leaver Data.

Percent of Underreported Students. Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, how the average is determined depends on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- Subjects in the areas of English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Comprehensive Glossary

2018–19 Texas Academic Performance Report

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in TSDS PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix A for all TSDS PEIMS Role IDs. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix A for all TSDS PEIMS Role IDs. *(Data source: TSDS PEIMS 30090)*

Auxiliary Staff (not on campus profile): The count of full-time equivalent (FTE) staff reported in TSDS PEIMS employment and payroll records who are not reported in the TSDS PEIMS 30090 Staff – Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: TSDS PEIMS 30060 and 30090)*

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, FTE count less than or equal to .85, the part-time headcount is equal to 1).

Librarians and counselors are headcount not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 Part-time Counselor. On the district report the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix A for TSDS PEIMS Role IDs (Professional Support Staff). *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor’s degree, a master’s degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the reporting district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, and over 20 years. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Comprehensive Glossary

2018–19 Texas Academic Performance Report

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: TSDS PEIMS 30050)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: TSDS PEIMS 30050)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, and over 20 years. *(Data source: TSDS PEIMS 30060)*

Comprehensive Glossary

2018–19 Texas Academic Performance Report

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix A for lists of the TSDS PEIMS role IDs included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Central Administration. (not on campus profile) Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent (district profile only): The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2017–18 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\text{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\text{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Turnover Rate for Teachers (not on campus profile): The percentage of teachers from the fall of 2017–18 who were not employed in the district in the fall of 2018–19. It is calculated as the total FTE count of teachers from the fall of 2017–18 who were not employed in the district in the fall of 2018–19, divided by the total teacher FTE count for the fall of 2017–18. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: TSDS PEIMS 30050 and 30090)*

Staff Exclusions (not on campus profile): The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services. *Shared Services Arrangement (SSA) Staff* are staff who work in schools located in districts other than their employing district or whose assigned organization (in TSDS PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note

Comprehensive Glossary

2018–19 Texas Academic Performance Report

that SSA Auxiliary Staff are identified by the type of fund from which they are paid. *Contracted Instructional Staff (District and Campus Profiles)* refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. (Data source: TSDS PEIMS 30055 and 30060)

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis.

Student Enrollment by Program: The count and percentage of students served in programs and/or courses for special education, career and technical education, bilingual/ESL education, or gifted and talented education. The percentages do not total to 100 because students may participate in more than one of these programs. (Data source: TSDS PEIMS 40110, 41163 and 41169)

Teachers by Program (population served): The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, career and technical, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. (Data source: TSDS PEIMS 30040, 30050 and 30090)

Kindergarten Readiness

Kindergarten (KG) Ready: Assessed kindergarten students who met or exceeded the cut-off score for a particular assessment on the [Commissioner’s List of Reading Instruments](#). Kindergarten readiness for each assessment is assessed differently across multiple assessment domains with varying benchmarks/cut-off scores of readiness. A student must pass all required assessment domains to be considered kindergarten ready. For school years 2013–14 through 2018–19, readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Assessed Students in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the [Commissioner’s List of Reading Instruments](#). Students may take multiple assessments.

Eligible Students: Kindergarten students who met at least one of the public prekindergarten (PK) eligibility criteria during the kindergarten year—economically disadvantaged, English learner (EL), homeless, is or ever has been in foster care, is the child of an active duty member of the armed forces of the United States, or is the child of a member of the armed forces who was injured or killed while on active duty—not the actual eligibility as of the PK year. PK eligibility is based on a student’s status as of his/her kindergarten year as there are no comprehensive data concerning PK eligibility for children who did not attend public PK.

Eligible Students Who Attended PK: Kindergarten students determined to be kindergarten ready based on assessment results, who were eligible to attend PK and did attend public PK the prior school year.

Eligible Students Who Did Not Attend PK: Kindergarten students who were eligible to attend public PK but did not attend public PK the prior school year.

Students Who Were Not Eligible for PK: Kindergarten students who were assessed for kindergarten readiness and were not eligible for public PK.

Students Ready for KG: Count of all assessed kindergarten students who were determined to be kindergarten ready based on assessment results.

Student Assessed in KG: Count of all kindergarten students who were assessed for kindergarten readiness.

Percent Ready: Percentage of all assessed kindergarten students who were determined to be kindergarten ready based on assessment results.

**RE: REQUEST FOR PROPOSAL #20200108
DESIGN AND INSTALLATION OF DEDICATED
OUTSIDE AIR SYSTEM FOR ILTEXAS SAGINAW K-8 AND
ILTEXAS EAST FORT WORTH K-8**

Dear Selection Committee:

Waltz is Texas' premier charter-school construction company largely due to our personal attention to clients, effective communication, ease of doing business, flexibility, and collaborative approach. These strengths are highly requested by school officials when interacting with a construction company. Our organization is consistently recognized for these strengths, and we take pride in the fact that our growing firm remains reliably capable of demonstrating these attributes on each of our projects.

The IL of Texas project will require a team familiar with charter school expectations, policy, and the community. Our recent experience working together on previous occupied campus projects for charter school clients and our planning and team building with Pivot North Architecture on current IL of Texas projects demonstrates this knowledge and understanding.

The subsequent proposal will offer evidence to support your decision to choose Waltz and Pivot North as your partner based on our qualifications and the fact that only our organization can provide the customer-focused experience IL of Texas deserves.

We look forward to meeting with you in person to further demonstrate how the Waltz/Pivot North Team is best positioned to meet your needs.

Sincerely,

Matt Waltz, President

ROCK CREEK AND PILLAR FALLS ELEMENTARY SCHOOL

DESCRIPTION

Pillar Falls and Rock Creek elementary schools were programmed at the same time and designed with similar floor plans to gain the District efficiency in construction document and construction schedules. It was a preference to have the exteriors look different so each school had its own identity. Brick was used at the front entry and administration space. Fiber cement siding and metal panels were used as cost effective exterior wall treatment.

The entries were designed to force building visitors into the administration office before circulating the rest of the building. Windows were implemented for administrative supervision of the parking lot and walkways.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

- The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
- The treaty article addressing the income.
- The article number (or location) in the tax treaty that contains the saving clause and its exceptions.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

- (A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;
- (B) a transaction conducted at a price and subject to terms available to the public; or
- (C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds \$2,500 during the 12-month period preceding the date that the officer becomes aware that

- (i) a contract between the local governmental entity and vendor has been executed; or
- (ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than \$100 in the 12-month period preceding the date the officer becomes aware that:

Memo To: Josh Hill
 Waltz Construction

Project: ILTX Saginaw K-8
 DOAS unit selections (DOAS-1 thru 4 and DOAS-5 & 6)

ESA Project #: 192056

Josh,

As you know, you sent me some preliminary submittal data on Aeon DOAS units for a quick check to see if they would meet the requirements for this project. Rather than a simple answer, I want to give you a bit more detail regarding what I see here; noting that this is not a full submittal and also that I am not privy to the design intent of the author of the submittal data. I can tell you that the scheme shown on the submittal sheets does not match what I had in mind when I wrote the performance criteria.

Please note that there are two submittals for 6 DOAS units as there are only two models being specified. In other words, one model is replicated 4 times and one is replicated 2 times.

The DOAS units are intended to mitigate several existing and on-going issues at the project. These issues include, but are not necessarily limited to:

- Pre-treat and dehumidify the code required ventilation air for the occupants
- Provide make-up air for the various exhaust fans throughout the project
- Maintain a suitable and stable relative humidity within the building at all times
- Dry out the building and its contents
- Positively pressurize the building and offset losses through air barrier breeches in the envelope (these breeches are scheduled for repair but construction sequence and/or repair effectiveness is not known at this time)

I also want to point out that there are a few, what appear to be, clerical errors in the submittal. Thus, my comments are based upon what I can determine and may not be spot on target. Specifically, the airflow diagram (on both submittals) indicates no cooling or dehumidification as the airstream moves through the evaporator section, while the tabular data (on both units) clearly shows that cooling and dehumidification is intended to happen at that point. I have based my analysis on the tabular data but I do not know any

design engineers (myself included) who would consider approving any units where the data is not all consistent within the submittal.

The Aaon units go about the dehumidification process entirely differently than the desiccant style units I had intended to be used. It appears to me that the Aaon representative (or whoever put this submittal together) attempted to meet the desiccant dehumidification note by inserting an energy recovery wheel that is desiccant impregnated into the air stream. This wheel essentially has the incoming outside air pass through about $\frac{1}{2}$ the wheel and (in this case) an equal amount of building air pass through the other $\frac{1}{2}$ the wheel; energy is transferred from the incoming outside air into the outgoing building air (which is then exhausted to the outdoors). This concept reduced the necessary capacity of compression refrigeration and the energy used by the unit. My issue with these energy recovery units is that they transfer no energy at all when the outside air is at the same conditions as the indoor air; in other words the energy recovery degrades pretty quickly as the outdoor air temperature approaches the indoor air temperature. It has been my experience that when these devices are looked at across an operating year, they are not very cost effective. However, in this case they may be, I have not done the analysis and cannot say for sure; that would be the job of your design engineer of record.

I am concerned though about the concept and performance of the energy recovery wheels in question. My greatest concern is two-fold: First, the wheels require an amount of building air to be wasted through them that is equal to the amount of outside air (OSA) being brought in through the unit; Second, the entering air conditions for the wheels are not as required.

If all of the air put into the building is then required by the unit to pre-cool the incoming air through the wheel, then there is no air to offset or make up for building exhaust, to pressurize the building or to offset any remaining air barrier leaks. Conceivably, a contractor (you) could gather up all of the various exhausts from the building and duct it to these units, but even that could not be equal to all of the air being processed by the DOAS. In order for this scheme to work, the DOAS units would have to process more air or the performance of the energy recovery wheels would have to be degraded and the cooling capacity of the compressors upgraded.

The energy recovery wheels have been selected at the Dallas dry bulb design conditions (you can think of this as the hottest likely conditions in Dallas). These are the conditions at which the wheels can do the most work. However, the DOAS units (and thus the wheels) need to be selected at the Dallas dehumidification design conditions; while the dehumidification conditions are somewhat cooler than the dry bulb cooling conditions, the incoming OSA contains substantially more heat at the dehumidification conditions. Thus, the units will have to do more work than these submittals have allowed for.

These units are indicated to have air conditions leaving the units at 50.89 dry bulb and 49.89 wet bulb; at these conditions, the leaving dew point temperature is just over 49 degrees whereas I had asked for a leaving dew point of 46 degrees.

So, these units do not meet the requirements of the project. They would need substantially more capacity and someone would need to re-figure the building air balance with the wheel recharge air exhaust figured in.

Feel free to call me if you have further questions.
