To whom it may concern,

My name is Jessica. We have two young students enrolled for the second year now at Inspire Charter School North. We are a military family and are looking forward to retiring from the Coast Guard next summer here in Northern California where my husband and I are both from originally. We presently reside in West Roseville.

In the past I have worked as an executive secretary to the president of Alan Shintani, a construction company in Honolulu. More recently, I enjoyed serving as Secretary on the Booster Club for the Rocklin 80 EA this past school year.

We recently visited our State Capitol lobbying to save our precious Charter Schools in California. The financial and community support of the Charter has been vital in allowing us to home-school. I am passionate about supporting our rights to choose Charter schools in California and would like to get involved any way I can help. While I do not have much relevant experience, I am eager and willing to learn.

Thank you for your time and consideration.

Best regards,

Jessica Albrecht

Re: Board of Directors Position

My name is Michelle Hollis, I am 46 years old, and have resided in Placer County for over 21 years. I am currently self-employed and a caregiver for my sister with Down Syndrome. I am a mother of two, foster mother of three and step mother of one. All ranging from 9 - 35 years old. Two of which are disabled. One with Asperger's and the other with Down Syndrome. Each one having all had their own unique experiences matriculating within the California education system. At this time, I am homeschooling my youngest child, who has severe dyslexia and dysgraphia. I believe my vast amount of experiences having served the community, on other boards and committees, and in other capacities. Enables me to bring a unique perspective to the board.

I served in the California Army National Guard and was generally discharged under honorable conditions. The highest rank held was Sergeant and I worked full time for the State Head Quarters. During that time, not only was I trained in effective communication and leadership, I held several leadership positions that required the knowledge and application of policies and procedures.

Aside from working full time, I became a foster mother for my two sisters, and my son's childhood friend. Having worked closely with Child Protective Services, Alta Regional, the Victims Witness Program, and Placer County's Education Services for Foster Youth and Special Education. I became acquainted with the services provided by the State of California to support the K-12 and collegiate educational process. In addition to being well versed in main stream general education through the public school, I was given opportunity to begin investigating alternative avenues for successful education. Within this arena, I have been a part of and held several positions within the community, including president, treasurer and secretary on various boards or committees.

As stated, in one capacity or another. All of my children have been through or currently in the California education system. This perspective uniquely qualifies me to speak to importance of offering educational opportunities to all families. Whether it be in a mains stream classroom or alternative in nature. Experience and statics prove where quality education is concerned, there is no "one size fits all solution". However, working within the parameters given by the state of California, it will be an honor and privilege to support families in their quest for quality education to be and remain a possibility.

With Gratitude,

Michelle Hollis
