The Board encourages the enrollment of all school-age children resident in this school in public schools or in approved parochial or private schools so that they may enjoy the benefits of a well-planned, educational program and the socialization possible in a group environment.

All requests to educate a child in an equivalent education (home-schooling) program are to be submitted to the Indiana Department of Education.

PLACEMENT AND AWARDING OF CREDIT FOR STUDENTS TRANSFERRING FROM NON-COMMISSIONED SCHOOLS

In order to maintain some degree of uniformity in the placement of students and awarding of credit at the time of transfer from a non-commissioned school to Edison School of the Arts the following policy is issued for the guidance of elementary and secondary school principals.

Elementary Students

Elementary students who desire to transfer from a non-commissioned school to Edison School of the Arts shall be placed in the grade which follows the last full grade completed by the student in the school from which s/he is transferring. Thus, a student who has completed Grade 4 would be placed in Grade 5. The student's performance at this grade level will determine his/her future grade level assignment in the same manner used to determine grade placement for any student enrolled in Edison School of the Arts.

The CEO, Executive Director shall issue the necessary regulations and procedures for awarding credits in the various subject areas and distribute them to the school principal.
