Section	5000 STUDENTS
Title	FLEXIBLE CREDIT FOR PHYSICAL EDUCATION
Code	5460.01
Status	Active
Adopted	November 17, 2020

In 2009, the State Board of Education made several rule changes, including the definition of credit. In March of 2013, the Indiana Department of Education created guidelines for issuing flexible credits in physical education. Edison School of the Arts approves for credit to be issued to students who participate in IHSA sanctioned athletics, Dance, Marching Band, Drill/Dance Team, and Show Choir.

For credit to be issued, it must be issued by a licensed physical education teacher. Students must participate in at least four of the following activities during the activity: team sports; dual sport activities; individual physical activities; outdoor pursuits; self- defense or martial arts; aquatics; gymnastics; or dance. If credit for Physical Education I is granted for one sport or activity, Physical Education II cannot be granted for the same sport or activity. The activity must follow the guidelines and process established by the school and district.
