

Book	BYLAWS AND POLICIES
Section	5000 STUDENTS
Title	PARENTAL-MARRIED STATUS OF STUDENTS
Code	5751
Status	Active
Adopted	November 17, 2020

The Board is committed and dedicated to the task of providing the best education possible for every student in the school for as long as the student can profit from attendance and the student's conduct is compatible with the standards of conduct expected of all students.

Pregnant students have the same educational rights as other students, including the right to remain in the regular classroom setting as long as the condition permits. However, in view of the special needs of students who become pregnant, it is the desire of the Board to provide an optional setting that may be more conducive to meeting these special needs which cannot be provided in the normal classroom setting.

In the interest of the student, when it becomes known by the principal that a student is pregnant, the principal shall immediately inform the parent of the availability of the Learning Center and its unique program.

Regardless of the parent's/student's decision concerning the student's school assignment, a statement from the student's physician must be presented to the principal. The statement must describe any restrictions in the student's program necessary to protect the student's physical condition.

The Executive Director, CEO shall initiate the necessary administrative regulation and guidelines to implement this policy to include involvement of all appropriate disciplines necessary to provide for the special needs of students enrolled in the Learning Center for pregnant students.
