

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: **Ánimo Jackie Robinson Charter High School**

CDS Code: 19-64733-0111583

School Year: 2023-24

LEA contact information:

Annette Gonzalez

Chief Academic Officer

angonzalez@greendot.org

323-565-1600

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue **Ánimo Jackie Robinson Charter High School** expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for **Ánimo Jackie Robinson Charter High School** is \$, of which \$4,105,590 is Local Control Funding Formula (LCFF), \$1,734,658 is other

state funds, \$23,016 is local funds, and \$384,989 is federal funds. Of the \$4,105,590 in LCFF Funds, \$1,160,742 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much **Ánimo Jackie Robinson Charter High School** plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: **Ánimo Jackie Robinson Charter High School** plans to spend \$6,744,042 for the 2023-24 school year. Of that amount, \$6,002,164 is tied to actions/services in the LCAP and \$ is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

All other funds that are not identified in the Local Control and Accountability Plan are allocated to personnel salaries and benefits and operational expenses such as rent, maintenance costs, debt service, material and supplies, furniture and fixtures, technology, legal services, janitorial services, security services, authorizer fees and other miscellaneous professional services.

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, **Ánimo Jackie Robinson Charter High School** is projecting it will receive \$1,160,742 based on the enrollment of foster youth, English learner, and low-income students. **Ánimo Jackie Robinson Charter High School** must describe how it intends to increase or improve services for high needs students in the LCAP. **Ánimo Jackie Robinson Charter High School** plans to spend \$1,160,742 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what [Ánimo Jackie Robinson Charter High School](#) budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what [Ánimo Jackie Robinson Charter High School](#) estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, [Ánimo Jackie Robinson Charter High School](#)'s LCAP budgeted \$1,162,981 for planned actions to increase or improve services for high needs students. [Ánimo Jackie Robinson Charter High School](#) actually spent \$1,162,981 for actions to increase or improve services for high needs students in 2022-23.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Ánimo Jackie Robinson Charter High School (AJR) is a member of the Green Dot Public Schools California network. We founded our school in July 2006 with a mission of transforming the way young adults are educated in the inner city of South Los Angeles. Green Dot Public Schools is a Charter Management Organization (CMO) that operates twenty-seven public secondary schools in Los Angeles, Memphis, and Tacoma, serving over 12,000 students across the nation. Green Dot is a non-profit organization that seeks to transform public education in historically-underserved urban communities in order to provide students with increased access to a rigorous college-prep education. In doing this, Green Dot’s mission is to ensure that all students graduate prepared for college, leadership and life.

Our school community is situated just east of the University of Southern California. To date, we have had twelve graduating classes of approximately 150 students each. Our current enrollment is approximately 604 students in grades 9-12. Demographically, we serve a population of low income minority students, most of whom will become first generation college students. Our population is 91.4% Latinx and 5.9% African American, with over 95% of students qualifying for free and reduced lunch. We have one student who identifies himself and part Causian and part Thai and one Native American student. This school year, 14.5% of our student body has special needs, and 13.8% are English Learners.

Our school is a Proposition 39 school, co-located on the campus of William J. Clinton Middle School, a Los Angeles Unified school. Throughout various staffing changes, we continue to work to establish a positive, cohesive relationship with the staff and students at Clinton MS. Collaboration between Clinton MS and our school continues to grow. Through Prop 39 meetings and creative PD we focus on developing our relationships and furthering our collaboration and consistency in an effort to support our community on a united front. Together both Clinton and AJR put our students first because a majority of AJR students attended Clinton during grades six, seven, and eight, and we serve the same families.

AJR offers a comprehensive college-preparatory academic program. All students are enrolled in courses that meet the A-G requirements for the California State University/University of California college systems. In the 2020-21 school year 89% of our students graduated A-G ready. In the 2021-22 year we had 81% of our students graduate A-G ready. We offer a significant number of Honors and AP courses to our advanced students in an effort to increase their college-readiness, as well as increasing our summer enrichment courses for underclass students. We also offer a comprehensive Special Education program and a substantial intervention program for struggling learners, including a comprehensive EL program of designated and integrated EL courses for our English Language Learners. We pride ourselves in the fact that we have established a safe, nurturing yet challenging academic environment for all students.

Ánimo Jackie Robinson's intention is to continue to carry out our school mission to ensure that all students graduate prepared for college, leadership and life and to provide an education for our community that will equip our resilient, self-reliant, and compassionate students with the skills necessary for success in their lives. Ultimately, we want to inspire our students to become agents of change, empowered with a unique voice, critical thinking skills, and the knowledge necessary to improve the world and transform the cultural landscape.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

According to the 2022 California Dashboard, AJR received a status level of "high" for graduation and status level of "low" for suspension, and a status level of "medium" for ELA. In each of these areas, the school out-performed the state status levels. We have maintained a high percentage of at least 92% of students graduating from high school. 1% of students were suspended and 0% were expelled. Two years ago in 2020-21 we added new AP courses, and we are more effectively placing students into those courses in an effort to widen our net of college readiness for all. Last year in 2021-22 we added two more AP classes. This year we are supporting more students in AP classes, and our students are doing better overall in terms of their social-emotional health. In the 2020-21 school year AJR improved our cohort dropout rate by taking it down to 0%. In the 2021-22 school year we saw an increase to 5%. In 2020-21 we increased our A-G readiness percentages to 89% and, though it dropped to 81% last year, we are already seeing A-G growth again this year.

Our overall attendance rate is at least 93%, our overall retention rate of both students and teachers is extremely high. Overwhelmingly, families indicate satisfaction with the school and rate they would recommend the school, year after year. In terms of students recommending the school, we achieved 98% on the satisfaction survey. Teachers also stay at AJR, indicating that they appreciate and contribute to the positive school culture we have created at our school. We achieved a 100% in teacher satisfaction on their survey last year. These highlights indicate that we are building a learning community that is both challenging and nurturing to all our students. We acknowledge that our students and families are happy to attend our school, and our data demonstrates this with 98% of families indicating that they would recommend our school to a friend.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

AJR's 2022 California School Dashboard report on the school's performance in Math indicates that the school has earned a status level of "Low" for All Students which is similar to the state's status level of "Low." The report shows AJR 99.3 points below standard in Math for the All Students group, which is greater than the state's average of 51.7 points below standard. We acknowledge that the effects of the pandemic will be significant and long-lasting. We have enjoyed a significant increase in our SBAC Math scores overall in recent years, but our performance rate, although higher than local LAUSD schools, have declined for four straight years, and we know that our scores need to improve. To address this, we are continuing to use the i-Ready assessment to help teachers monitor the growth of our students at all grade levels in math and to cater the math program to meet the needs of students, who are struggling in math in their classes. Additionally, teachers are working with the Illustrative Math (IM) curriculum and continue to receive professional development and coaching from Green Dot's curriculum specialists who work one on one with math teachers to develop skills appropriate for 9-12 grade math. Teachers continue to receive ongoing professional development to support from our local CS's and our admin team, as they roll out the new curriculum.

AJR received a status level of "Medium" for the ELPI rating, which is to par with the state's status level of "medium." Although AJR's ELA rating was a "Medium" on the CA Dashboard, which is higher than the state's rating of "Low", AJR is working to improve this status level. In 2019-20 our reclassification rate was 9.6%. In the 2020-21 school year we decreased further, achieving a 5.3% reclassification rate. This is a problem we need to continue to address. In 2021-2022, we were able to bring our reclassification rate to 9.2%. We have established our own site-based EL Lead Teacher to help ensure that all our teachers are better equipped to meet the needs of our EL students and that each of our students has a specialized plan to receive support in core subject areas. Additionally, teachers will continue working with Reading Inventory, a nationally recognized program, to support English Learners in gaining literacy skills. Still, our EL students are performing at a significantly lower rate on the SBAC and in other measures of the LCAP. We are continuing to address this important issue in several ways, including professional development for our teachers to support them with integrating EL standards, language criteria and instructional strategies into their daily practice. We intend to continue this very intentional professional development in the coming years, and to integrate it with our PD that supports our teachers in rolling out their two new curricula. Our math teachers attended Illustrative Math Professional Development to incorporate language development in their courses more explicitly. Additionally, we have added 11th and 12th grade courses, ELD Curriculum Skills 11 and 12, specifically for our LTELs, in an effort to support them in their English language development, as well as in their overall academic progress. We are also implementing ELCAP supports, so that our EL students will receive more intentional support, as they prepare for this rigorous exam.

On the 2022 CA Dashboard, the school received a status of "Not Met" for all 5 local indicators. The school presented its findings regarding the local indicators to the public and Green Dot's governing board. The local indicators were approved, along with the LCAP, by the Green Dot board on June 24, 2022. The school did not submit the local indicators by CDE deadline, therefore receiving a status level of "Not Met." The school is continuously working to meet the local indicators of basic: teachers, instructional, materials facilities; implementation of academic standards; parent and family engagement; local climate survey; and access to broad course of study.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

Each year we review the LCAP through SAC, DELAC and other parent meetings, as well as in teacher PD sessions. We work to align our work on the LCAP with our annual strategic planning, LAUSD Oversight planning, WASC writing and monitoring, etc. so that all our goals are in sync and we address them every year. The pandemic not only set us back in terms of our data monitoring and academic progress, but it also added new facets to our work in the form of health and safety planning and monitoring. We are confident that as we move forward into the new LCAP window, we will continue to progress toward reaching our goals.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

This school has not been identified as being eligible for Comprehensive Support and Improvement. Section is not applicable.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

This school has not been identified as being eligible for Comprehensive Support and Improvement. Section is not applicable.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

This school has not been identified as being eligible for Comprehensive Support and Improvement. Section is not applicable.

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

During the 2022-2023 school year, Ánimo Jackie Robinson Charter High School used several outreach strategies to engage with educational partners on the LCAP. Ms. Botello, our principal, reviewed the 2023-24 LCAP with the School Advisory Council (SAC). Since the first SAC meeting, Ms. Botello has referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP is kept top of mind. The SAC is composed of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot's certificated staff.

The Green Dot Public Schools Home Office, including members of the Education, Knowledge Management, Policy & Public Affairs, Finance & Accounting and Operations teams, provided the School with updated data for each goal to help monitor and track progress each year. Ms. Botello reviews the updated data with the SAC and reflects on changes from the previous year at each meeting.

The school also utilizes other meetings, including Coffee with the Principal (CWTP), which occurs during the first Friday of every month in Spanish. We hold our Black Parent Advisory Committee (BPAC) meetings quarterly. At the CWTP and BPAC meetings Ms. Botello provides parents the opportunity to provide feedback and recommendations on items directly related to our LCAP goals. We also facilitate regular parent workshops, whose content is established directly from input from parents at both the CWTP and SAC meetings, which are driven by our LCAP goals.

In conjunction with the different educational partner groups, the Green Dot Home Office worked with School Leadership to update this LCAP, taking into account the progress identified in the Goal Analysis sections, revisions to actions/services, and updates to future expenditures. The Green Dot Home Office reviewed the SAC and DELAC feedback across all Green Dot schools to identify trends, achievements, and areas for improvement. This information was also shared with the Green Dot's Board of Directors Executive Committee on May 25, 2023, which includes the President of the Asociación de Maestros Unidos. The school's LCAP was presented to the Green Dot Governing Board on June 30, 2023 for final approval. The LCAP was submitted to the Authorizing School District and the Los Angeles County Office of Education before July 1, 2023. The Green Dot Home Office, School Leadership, SAC, and DELAC will regularly monitor and evaluate progress made towards the School's LCAP goals.

Below are a list of meeting types and dates that educational partners were able to engage in the LCAP development process

School Advisory Council (SAC)--total of 7 meetings

2022-23 Dates: 8/31/22, 9/28/22, 10/26/22, 11/30/22, 1/25/23, 2/22/23, 3/29/23, 5/31/23

District English Language Advisory Council (DELAC)-- total of 6 meetings

2022-23 Dates: 9/27/22, 10/25/23, 12/6/22 (3 more coming this semester)

Coffees with Principal-- total of 15 meetings (Spanish and English meetings)

2022-23 Dates: total of 13 meetings: CWTP/CCEJ: 9/2/22, 10/14/22, 11/18/22, 2/24/23, 3/24/23 (two more to come)

BPAC/CCEJ: 10/5/22, 11/2/22, 11/17/22, 2/23/23 (two more to come)

Majority of sessions involved classroom visits

We did some CCEJ workshops with parents in both languages and also some parent meetings

Other Parent Workshops/supports:

Chronic Absence update: Information shared research around the number of absences and the impact on learning, and the impact on the budget to the school. We explained the differences between excused and unexcused absences and we gave parents some strategies for changes to routines, and helped them with logging on to PowerSchool to better monitor their child's attendance.

East Coast, Nor Cal and HBCU Junior College Trip parent information meetings: We met with parents and students to prepare them for the various weeklong college visits.

PIQE:

In past years we focused on helping parents understand A-G readiness, financial preparation for college, talking to a counselor, school-site specific questions. We were not able to have PIQE at school during the 2020-21 or during the 2021-22 school year, but we are going to bring it back as soon as parents can return to our school campus.

Back to School Nights/Open House/Parent Conferences:

2021-22 Dates: 9/2/21 (Back to School Night), Parent Conferences: 3/24/2022

2022-23 Dates: 9/1/22 (Back to School Night), Parent Conferences: 3/16/2023

Senior Parent Meetings:

2021-22 Dates: 8/20, 10/14 (financial aid workshop), 2/24 (College Knowledge/FAFSA workshop), 4/26/21/(senior reopening parent meeting)

2022-23 Dates: 9/7/2022

A summary of the feedback provided by specific educational partners.

The schools used several methods to allow for educational partners to provide feedback in the LCAP process. After conducting 7 SAC meetings and 6 DELAC meetings and 15 Coffee with the Principal meetings (in Spanish and English), AJR has identified the following recurring themes to support the educational achievement of students. These themes are reflected in the sustaining goals, services, and investments of the LCAP

Themes include:

Increasing support for lower performing students

Provide appropriate interventions for English Learners and Students with Disabilities, especially for ELPAC passing and reclassification

Addressing the dangers of vaping on campus and across the community
Addressing chronic absenteeism
Intentional support programs for AA students with regards to the benefits of regular attendance; building developmental relationships with our students and leveraging them
Improving supports for EL students; providing ESL courses for parents
Improving college-readiness for our students by educating our parents on the college application process, financial aid programs and application processes, the significance of A-G completion, SAT preparation, etc.; bringing PIQUE and other parent education programs back to in-person
Making sure to bump AP passing rates back up to what our school community considers to be our average performance
Maintaining our A-G class completion rates, our graduation rates and our low drop-out rates
Maintaining the safety of our school, both physically and emotionally and continuing to provide social emotional wellness supports

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

There are several ways that parents, teachers, and students at AJR influenced the LCAP. The LCAP was included as a discussion/review point of all monthly SAC meetings so educational partners have time to understand, reflect, prioritize, and determine school-wide strategic planning goals for the upcoming year. They also monitor progress on current year strategic plans. In addition, the LCAP is included in our agendas for both Coffee With the Principal and in our Parent Workshops, so that parents are able to understand and provide our admin. team with input, feedback, and suggestions for improvement that meets the needs of their children. Teachers also give input by department and through grade level teams on instructional priorities. Our School Culture team provides oversight for the "Focus on School Culture" goals. The Instructional Leadership Team reviews the "Proficiency for All" and the "Preparation for College, Leadership, & Life" goals. In each DELAC meeting, we provided an academic update for all parents on their students' progress. We reviewed ways to support development of literacy skills and math skills at home through group readings and presentations by guest teachers. Parents helped to create and monitor our Title III budget in order to best support the needs of English Learners.

As a result of the educational partner engagement, the school also made the following changes:

Updated Anticipated Measurable Outcomes to better align with available data

Supplemented the "Proficiency for All" goal with new activities, services and expenditures to support AJR in meeting all LCAP goals and targets, especially in the area of student performance on the SBAC and ELPAC.

Prioritized emphasis on student growth by adding growth measures to "Proficiency for All" goal.

Made sure to add chronic absenteeism, especially among the Students with Special Needs, African American students and EL subgroups, to our school culture goals.

Added health concerns regarding vaping to our monthly strategic planning and goal setting/monitoring discussions.

Added Covid priorities and action steps to our school wide priorities.

Added a revisit to school lunch program

Goals and Actions

Goal

Goal #	Description
1	Provide Basic Services by: <ul style="list-style-type: none"> Maintaining the appropriate assignment of teachers, appropriately credentialed in the subject areas and for the pupils they are teaching Providing students will have access to and be enrolled in a broad course of study (i.e., science, social science, VAPA, PE for high school students), and have access to standards-aligned instructional materials and the educational program as outlined in the school’s charter petition Maintaining school facilities are maintained in good repair

An explanation of why the LEA has developed this goal.

To provide and maintain Basic Services for students and schools.
 To ensure students have access to a broad course of study and pupil outcomes are measured in applicable subject areas.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 1A: 100% of teachers will be appropriately credentialed in the subject areas and for the pupils they teach.	100	100	100.0%		100
Goal 1B: Students will have access and be enrolled in a broad course of study (i.e.,	100	100	100.0%		100

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
science, social science, VAPA, PE for high school students), standards-aligned materials, and additional instructional materials and to the educational program as outlined in the school’s charter petition.					
Goal 1C: The school will receive an average score of 90% or higher on the facilities survey, indicating that the school is in good or exemplar repair.	99.9	The facilities survey was not collected in 2020-21 due to being in distance learning. Walk through inspections have been performed in the 2021-22 school year.	100.0%		Greater than 90%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher Credentialing	Human Resources: <ul style="list-style-type: none"> The principal reviews teacher, counselor and administrator credentials during the master scheduling process and throughout the year to ensure all credentials are properly maintained Green Dot implemented an improved system to maintain the employee lifecycle process (HRIS) 	\$64,583.00	No

Action #	Title	Description	Total Funds	Contributing
1.2	Academic - Curriculum Design:	<ul style="list-style-type: none"> • District-wide curriculum has been adopted district-wide for grades 6-12 in English and Math. • All students have access to published standards-aligned curricular materials. Additional curricular resources available online include sample unit plans, lesson plans and summative assessments • Professional Development is provided to all teachers and administrators on the effective use of aligned curricular materials. • Textbooks and classroom materials are tracked using online system to ensure access for all students • Students have access to technology and electronic materials which support student-aligned curriculum 	\$1,085,383.00	Yes
1.3	Academic – Master Scheduling & Staffing	<ul style="list-style-type: none"> • Administrators utilize data to assess student course progress and place students in appropriate classes for the upcoming year • Master schedule reflects an emphasis on Common Core and Next Generation Science Standard curriculum and provides appropriate interventions for ELA and Math • Advisory provides a venue for students to receive one-on-one academic consulting and additional support for core classes • The school will be appropriately staffed to implement the school master schedule, including elective courses (e.g., PE teacher, VAPA teacher) 	\$1,129,088.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.4	Facility inspections	<ul style="list-style-type: none"> Regular facility inspections and audits will be conducted by Green Dot Operations and Facilities staff School maintenance and repairs will be provided by Green Dot Operations staff and external vendors Actions/services include expenses such as rent, building maintenance and supplies as the charter school must lease or purchase facilities School buildings will be supplied with sufficient furniture, utilities, and developments in order to support a safe and effective learning environment, including upgrades to infrastructure which support student use of educational technology 	\$386,756.00	No

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 1: Provide for Basic Services

Overall implementation:

AJR did not experience any significant challenges in meeting this goal during the 2021-22 school year or the 2022-23 school year. We were able to meet all the criteria of our goal with a 100% performance rate. We are a co-location school with LAUSD, so we were also able to address any facilities issues with the District.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and estimated actual expenditures for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 1: Provide for Basic Services

Overall Effectiveness:

Maintained credentialed teachers--AJR met this goal with 100% performance rate. All our teachers are credentialed.

Access to standards aligned materials--AJR met this goal with 100% performance rate, as all of our teachers in our core classes use standards-based curriculum and materials.

Access to the educational program--at AJR 100% of our courses are in the high school course catalog. All our students have access to the educational program as outlined in our charter petition.

Participation in PE, VAPA and other electives offered--AJR met this goal with 100% performance rate. All our students take at least one visual and performing arts elective class, as well as Physical Education.

Keeping facilities in good repair--AJR met this goal with 100% performance rate. Our facilities are in good repair.

The supports AJR provided to meet Goal 1 were effective. By following the systems we have in place for personnel hiring, reviewing and maintaining high standards in curricular offerings, and maintaining expectations for all students to enroll in A-G courses and pass them with a C or better, we were able to meet these goals at 100%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

With regards to Goal 1, we are not intending to make any changes to our programs and supports to meet this goal. We are experiencing success in these areas and intend to continue our work in order to maintain our 100% success rate.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	<p>Proficiency for All:</p> <ul style="list-style-type: none"> • Increase the percent of students scoring Met Standard and above on SBAC ELA, SBAC Math and CAST assessments annually or outperform the district average. • Increase percent of EL students who reclassify as Fully English Proficient. • Increase percent of EL students scoring “Level 3” and “Level 4” on the English Language Proficiency Assessments for California (“ELPAC”) annual assessment. • Increase or maintain growth on CORE ELA and Math

An explanation of why the LEA has developed this goal.

To increase the percent of students who score Met Standard and above on the SBAC and CAST assessments.
 To increase the percent of English Learners who achieve full English language proficiency.
 To increase the percent of English Learners who make progress towards English proficiency.
 To increase student growth percentile on the CORE assessment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 2A: Increase the percent of students scoring Met Standard and above on SBAC ELA assessment annually by 3% or outperform the local school district average.	All Students: 51.7% Low Income: 51.3% Latinx: 52.4% African American: Data not available, contains less than 30 students. English Learners: Data not available, contains less than 30 students.	All Students: N/A - No Testing Low Income: N/A - No Testing Latinx: N/A - No Testing African American: N/A - No Testing English Learners: N/A - No Testing	All Students: 50.4% Homeless Students: 20.0% Latinx: 51.5% Low Income: 51.2% Students with Disabilities: 5.0%		For all subgroups, increased by 3% annually or greater than the District Average (below) All Students: 51.7% Low Income: 49.6% Latinx: 49.8% African American: 36.0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	Students with Disabilities: Data not available, contains less than 30 students. Foster Youth: Data not available, contains less than 30 students.	Students with Disabilities: N/A - No Testing Foster Youth: N/A - No Testing			English Learners: 5.1% Students with Disabilities: 13.5% Foster Youth: 0.0%
Goal 2B: Increase the percent of students scoring Met Standard and above on SBAC Math assessment annually by 3% or outperform the local school district average. Master schedule is developed to create multiple pathways for students to meet the A-G requirements, which align to the minimum requirements for a Green Dot HS diploma. School has two counselors who provide academic and college counseling. All students take an Advisory course (9-12) which provides individualized academic consultancy and a review of graduation progress. Students in the 11th and 12th grades have individual meetings with their counselors to track graduation progress and develop plans for credit recovery as needed Credit recovery and/or summer school is offered to support students in need of recouping credit Counselors receive professional development and coaching from Counselor Support Specialist as needed 	\$117,739.00	Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

This is the most challenging goal to meet in the LCAP, but we have remained diligent and persistent in our efforts to meet all the criteria of this goal. Prior to the pandemic, we were not able to meet the SBAC ELA and Math criteria, nor the EL Reclassification criteria. The ELA pass rate was 52% and the Math pass rate was 24%. Since returning to in person learning, the 21-22 pass rates remained within range of the prior year, with the ELA pass rate of 50% (2% decline) and a Math pass rate of 22% (2% decline). We fell significantly behind in the reclassification data metric. During the 2021-22 year, we made some growth in our reclassification rate, from a 5.3% passage rate to a 9.2% reclassification rate, reflecting a growth just shy of 4%. This data creates an urgency in us to support our students as they recover from the Distance Learning experience and the difficult return experience of last year. It is critical that we continue the work we have done in terms of intentional, well-planned and aligned professional development for teachers in the areas of standards-based instruction and addressing the needs of ELL students and students with special needs. We must also be diligent in supporting teachers in the implementation of our new curricula and in supporting our new teachers. We must also strategically plan and implement plans to support students directly, as they prepare for these exams in both the academic areas and in the area of motivation. In terms of the SBAC, the three year gap in testing data, from 18-19 to 21-22, showed a 2% decrease in English, and a 2% decrease in Math, dropping from 52% to 50% and 24% to 22% respectively. We need to refocus our efforts on supporting our students and teachers as they prepare for these high stakes tests, while we simultaneously focus on their physical and mental health.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and estimated actual expenditures for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 2: Proficiency for All

Overall Effectiveness:

Increase SBAC proficiency (ELA and Math)--At AJR we are focusing on meeting this goal this year. Although we came up short in the 21-22 school year, and we did not meet our LCAP goal of increasing the percentage of students who score meet/exceeded, we did meet the component of our LCAP goal that calls for us to outperform the district average. Improving our overall and subgroup SBAC performance in both ELA and Math continues to be an identified area of need for us.

Increase CAST proficiency--In 2018-19 23.8% of our students met standard and 1% exceeded standard. On average compared to the state of California that year that had 20.54% meets standard, we outperformed the state average. Additionally, the state had 18% of students not meet standard, and we had 15% of students not meet standard. Last year, 19.72% met standard and 1.41% exceeded standard. Although we declined and our data was lower than the state average, our percentage of met standard was within 1% of the state (state data 20.86%

met standard). Our science teachers are continuing to help students better understand the concepts in science, through our district curriculum as well as embedding elements of the Open Sci Ed field test, we are preparing for the upcoming exam this Spring.

Increase EL proficiency on ELPAC--this will remain an important goal for us at AJR, since the test is fairly new and challenging for our students. In the Spring of 2021 it was extremely challenging to administer this exam with the students who were still in Distance Learning. We had trouble helping them prepare for this test, determining which students could come to school to take the test in person and then administering the test online to those students who were not able to come in person. I assume that our significant decrease in scores is a direct result of these significant challenges. Last year, our ELD team was able to do more prep in their classes. Students analyzed their previous year ELPAC scores to set goals for themselves. The teachers used release material to review the writing and reading sections, two of our lower performing bands.

Reclassify EL students--due to the switch from CELDT to ELPAC, AJR experienced a significant decrease in our reclassification rates in 2018-2019. We dipped from 26% to 8%. We then decreased even further in the 2020-21 school year to 5.3%. Still, we have every intention of increasing our reclassification numbers this year and in future years, as students adjust to the demands of the new ELPAC test and as we recover from the learning loss of the pandemic. In the 2021-22 school year our reclassification rate was 9.2%. We hope to exceed our goal of increasing by 3% for next school year, so we can build back up to our CELDT numbers.

One new indicator of our ELs is the ELPI, which measures growth on the ELPAC exam. Last year 51% of our students were making progress towards English language proficiency. We shared this data with our students and had one-on-one conversations with students who did not grow or decreased last year. We hope to increase this indicator with each coming year, especially now that we have more newcomers enrolling in our school.

Increase or maintain CORE SGP (ELA and Math)--At AJR in 2018-19 we scored 81% on our CORE SGP for Math and 79% on our CORE SGP for English. This represents a dip in our scores from the year prior, where we were 99% for math and 89% for English. This performance correlates with our dip in SBAC performance. Nevertheless, these scores still represent "strong growth", which is more than an average year of growth. For the 2020-21 we have no SGP data since the students did not take the SBAC and this year's hasn't been released yet. Our goal is to increase our SBAC scores and our CORE SGP in the coming years.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

This year we are implementing in-person support for SBAC administration in several areas including: training for proctors, SBAC preparation with regards to curriculum and instruction, CAST preparation for science teachers, ELPAC preparation for teachers and students and support in terms of motivation and incentives for all students for all tests. In our professional development plan we are focusing on intentional, standards-based instruction and planning for rigor and productive struggle. We are focusing on the three R's of rigor, relevance and relationships, especially through the lens of our two focus areas- academic rigor and academic monitoring. We are implementing this plan

this year as we return to in-person schooling, and we will continue this professional development in the next few years. We are confident that this will result in - at the very least - meeting our LCAP Goal #2 and hopefully increasing our scores each year moving forward.

There was a change made to Action 2.3 – Special Education. During the pandemic, students with disabilities had access to transportation in order to provide services per their Individualized Education Plan (IEP). Transportation was provided for students with disabilities because in SY 2020-21, distance learning was in full effect, and these students needed access to IEP services. Since the pandemic, SY2021-22 was the first full year of in-person instruction and IEP services were provided on campus.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	<p>Prepared for college, leadership and life</p> <ul style="list-style-type: none"> • Increase the percent of graduates that successfully complete A-G course requirements to greater than previous year or greater than 70% • Increase the percent of students earning passing scores (3 or above) on Advanced Placement (“AP”) exams by 3% per year • Increase progress on California Dashboard College and Career Indicator • Maintain low cohort dropout rates at lower than previous year or less than 8% • Increase graduation rates to 85% or higher

An explanation of why the LEA has developed this goal.

To increase the percent of graduates that successfully complete A-G course requirements
 To increase the percent of students scoring passing scores on AP exams
 To increase progress on the CA College and Career Indicator
 To maintain a low cohort dropout rate.
 To increase graduation rates

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

In terms of Goal 3, AJR met nearly all the metrics of our goal. We have a strong graduation rate, a strong A-G completion rate, and a low cohort dropout rate. In the 2020-21 school year our cohort dropout rate was 0%. In the 2021-22 school year, our cohort dropout rate was 5%. We have a robust set of AP course offerings as well, and we have added two new AP courses (AP Psychology and AP Drawing) in the last two years. This coming year we are adding AP Pre-Calculus. In the last two years we dipped in AP passage rate. We assume that this dip was a direct result of both teaching AP courses and administering AP testing online via Distance Learning in 2021 and also on teacher turn-over. Last year we changed AP teachers in AP Language and we lost our AP government teacher. We need to replace that teacher and train new folks in the coming summer for AP Government and APUSH.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and estimated actual expenditures for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 3: College, Leadership and Life

Overall Effectiveness:

A-G completion--Our graduation rates have remained steady at over the 90% range for the last three years; in the 2020-21 school year our cohort graduation rate was 95% for all students and higher for African American students (100%) and Students with Disabilities (96%). This year also reflected our highest A-G graduation rate with 89% of all students graduating A-G ready. In the 2021-22 year our graduation rate was 92% for all students. For EL students our graduation rate was 75%.

AP passage rate--At AJR in 2019-20 we met our goal of increasing our passing scores on AP tests from the year before. Several Advanced Placement (AP) classes are available for students at Ánimo Jackie Robinson Charter High School. In 2019-20 we offered our highest number of AP courses with eight offerings, spanning five different departments.

English Language and Composition

English Literature and Composition

Calculus AB

World History

United States History

Government

Spanish Language and Culture

Environmental Science

Psychology

The 2018-2019 school year represented our highest percentage of passed AP exams, which correlates with the increase in AP courses offered.

In 2019-20 and 2020-21 we had to teach AP classes online via zoom, which impacted us tremendously, although some students did pass their AP exams, which they also took online.

In 2021-22 we returned to in-person learning, which improved our instruction and impact on students, but we also had some changes in our teaching staff, so we were dealing with teachers who had never taught AP at our school before or at all. We also dealt with the tremendous challenges of returning to in-person schooling during Covid and teaching students who had been taught for a year and a half online. Our scores overall decreased.

Our AP passing rate decreased significantly last year. In 2021-22, students had a passing rate of 53%. We attribute this drop to the challenges of both teaching and learning, as well as assessing online. We plan to recover from this drop and bounce back with in-person learning. We have retained most of the teachers and been very intentional about upping the rigor and effectively preparing our students for the AP exams, as well as testing them in person in the best testing environment possible.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As described above, we intend to implement all the necessary in-person teaching strategies, programs, interventions and supports to increase our AP scores and to maintain the success we have achieved in A-G readiness, cohort graduation rates and low drop-out rates.

Metrics 3F – CTE, 3G– CTE & A-G, and 3H – EAP, were added to be aligned with state requirements. The metrics were not added the year before because there is no data available for Metrics 3F and 3G. Currently, there is no data available because the school does not offer an approved CTE pathway. As for Metric 3H – EAP, there is no data available for SY20-21 and SY21-22 because the graduating classes of 2021 and 2022 did not test in the 11th grade due to the COVID-19 pandemic. The class of 2020 was the last class to have tested in the 11th grade. The data for the 2020 class was used as the baseline for the metric 3H – EAP.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	Focus on school culture: <ul style="list-style-type: none"> School will maintain a high Average Daily Attendance (“ADA”) rate greater than 90% School will decrease student chronic absenteeism rate by 3% per year or to a rate at or below 10% School will decrease suspension rate by 3% per year or to a rate at or below 5% School will maintain an expulsion rate of 0.5% or less

An explanation of why the LEA has developed this goal.

To maintain a high attendance rate.
 To maintain a low chronic absenteeism rate.
 To decrease the number of pupil suspensions.
 To decrease the number of pupil expulsions.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 4A: School will maintain a high Average Daily Attendance (“ADA”) rate at 90%	All Students: 96.7% Low Income: 96.7% Latinx: 96.9% African American: 94.2% English Learners: 96.7% Students with Disabilities: 95.8% Foster Youth: 96.3%	All Students: 95.7% Low Income: 95.8% Latinx: 96.3% African American: 88.3% English Learners: 94.0% Students with Disabilities: 92.9% Foster Youth: 97.3%	African American: 89.2% All Students: 92.6% English Learners: 92.4% Homeless Students: 93.4% Latinx: 93.1% Low Income: 92.6% Students with Disabilities: 91.0%		90% or higher ADA for each subgroup

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 4B: School will decrease student chronic absenteeism rate by 3% per year or to a rate at or below 10%.	All Students: 7.5% Low Income: 7.3% Latinx: 6.7% African American: 24.1% English Learners: 4.3% Students with Disabilities: 9.8% Foster Youth: Data not available, contains less than 30 students.	All Students: 11.2% Low Income: 11.0% Latinx: 8.8% African American: 34.9% English Learners: 15.9% Students with Disabilities: 19.0% Foster Youth:	African American: 41.3% All Students: 18.2% English Learners: 21.8% Foster 0.0% Homeless Students: 11.6% Latinx: 15.9% Low Income: 17.9% Students with Disabilities: 22.6%		For all subgroups, less than 10% or decreased by 3% annually
Goal 4C: School will decrease suspension rate by 3% per year or to a rate at or below 5%.	All Students: 1.7% Low Income: 1.5% Latinx: 1.3% African American: 6.7% English Learners: 1.4% Students with Disabilities: 5.3% Foster Youth: Data not available, contains less than 30 students. 		<p>emotional needs using positive behavior interventions and supports.</p> <ul style="list-style-type: none"> • School has a School Culture and Advisory Team (designated group of teachers, counselors, classified staff and admin) who analyze data, create professional development and support school-wide policies to maintain a positive and safe environment for staff and students • The School Culture Team meets bi-monthly and attends three to four trainings per year provided by the Advisory and Culture Team. Topics include MTSS, including creating effective Tier 1 practices on campus, and bullying prevention. • Several data dashboards provide schools with timely data that is used to inform professional development on campus • School leaders and teachers receive professional development to develop and implement MTSS • Green Dot Education Team supports in implementing alternatives to suspension and mental health services to reduce the suspension rate on all campuses • Green Dot has a comprehensive 3-tiered discipline matrix that prohibits suspension for willful defiance and actively supports schools in establishing alternatives to suspension, response to intervention practices and mental health services to reduce the suspension rate • Green Dot has established a Discipline Review Board at the campus level and a Discipline Review Panel district-wide to ensure all students receive due process pending expulsion 		

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

At AJR our school culture has been one of our strongest areas since our inception as a school. We performed above the targeted goal in every criteria, except chronic absenteeism, which we attribute to Distance Learning during the pandemic and recovery when we returned to

in-person learning. Although we are working to get back to our “normal” attendance rates for all students this year and in the years to come, we continue to see the effects of the pandemic on our students’ attendance and overall attitudes toward school.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and estimated actual expenditures for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 4: Focus on School Culture

Overall Effectiveness:

Maintaining high ADA--AJR maintained an ADA of 93% for most students, which exceeds our goal of maintaining a 90% ADA. For our African American students (AA), Distance Learning was not very effective. Our ADA average was 89% for that subgroup. When we returned to school last year our overall ADA was 93% and our AA ADA average was 89%. Our EL ADA average was 92%, and our Students with Disabilities ADA average was 91%.

Decrease chronic absenteeism--In the 2020-21 school year AJR did not meet our goal of having 10% or less chronic absenteeism, except with Latinx (8.8%) and Homeless Youth (8.5%). The chronic absenteeism rate increased to 11% for All Students, 34.9% for African American students, 15.9% for EL students and 19% for Students with Disabilities. We acknowledge that this increase was due to online learning and the pandemic. Last school year indicates that we were still recovering from the stresses and strains of the pandemic. In the 2021-22 school year, our chronic absenteeism rates were: 18% for SED, 23% for SPED, 41% for AA and 16% for Latinx and 18% overall. We are working to make sure that our overall chronic absenteeism rate decreases back to under 10% and that each subgroup’s chronic absenteeism rate decreases as well.

Decrease suspension rate--Our suspension rate in 2020-21 decreased from 2.2% to 0%, which met our goal. Our suspension rate in 2021-22 was 1%.

Maintaining a low expulsion rate--AJR met our goal of having an expulsion rate of less than 0.5%. During our 2020-21 school year, our expulsion rate was 0%. During the 2021-22 year our expulsion rate was 0%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The most significant change that we are implementing this year is in-person schooling, with all the incentives and benefits that it provides. Last year we also implemented an additional support program for our African American students, as a way to target specific students with high absences. This program is called Intensified Supports for Chronic Absenteeism. An attendance case manager meets weekly via zoom with students “on the cusp” of being chronically absent, to help them navigate the factors which hinder them from maintaining a healthy attendance. We implemented this program from the beginning of February of 2022 to June of 2022, and we saw positive results from it. It enabled us to reach our goal of decreasing the chronic absenteeism rate for our African American students. That program was cut for us, but we continue to work closely with our AASA lead teacher and others to improve AA student attendance.

In the current school year, some programs we are implementing to decrease chronic absenteeism are Attendance Works and the LEAP program. Attendance Works coordinates ongoing messaging through targeted outreach calls and mailers, a calendar of pre-programmed messages reminding parents of holidays, school days, as well as other dates that may impact attendance, and we share our attendance progress in our monthly parent meetings. The Learner Engagement and Attendance Program (LEAP) is a program that fully aligns with our focus on relationships and restorative practice and in fact focuses on building relationships with families and assessing needs and is less about addressing absences. Nine weeks into the program we have seen an increase in the attendance of 54% of the targeted students. We will continue with the program and continue to monitor the attendance of our targeted students.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
5	Parent, Student and Community Engagement: <ul style="list-style-type: none"> School will have at least 4 School Advisory Council (“SAC”) meetings. The school will host at least 2 District English Learner School Advisory Council (“DELAC”) meetings. Students, families and the school community will feel a sense of connectedness.

An explanation of why the LEA has developed this goal.

To provide opportunities for parental input in school site decisions.
 To provide opportunities for parental participation in school events and programs.
 To increase the sense of safety and school connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 5A: The school will host at least 4 SAC Meetings each school year	4 or more SAC meetings were held	At least 4 SACs were held	Met Target		At least 4 SACs are held
Goal 5B: The school will host at least 2 DELAC meetings each school year	2 or more DELAC meetings were held	At least 2 DELACs were held	Met Target		At least 2 DELACs are held

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Goal 5C: At least 80% of parents would recommend the school to a friend per annual parent survey	96.1% of parents recommend the school to a friend	97.27%	98.5%		At least 80% of families will recommend the school to a friend based on an internal survey
Goal 5D: At least 80% of staff will report feeling successful based on an internal survey	96.0% of teachers report feeling successful	96%	100.0%		At least 80% of staff will report feeling successful based on an internal survey
Goal 5E: 30% of parents/guardians participate in two or more events a year or increase by 3% from prior year			0.0%		At least 30% of parents/guardians participate in two or more events a year or increase by 3% from prior year

Actions

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation: At AJR we have been very successful at maintaining our parent, student and community engagement. We have maintained very positive relationships with all our educational partners and enjoy support and positive feedback from them.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and estimated actual expenditures for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 5: Parent, Student and Community Engagement
Overall Effectiveness:

At least 4 SAC meetings are held each school year--We met this goal, because we had a total of 7 SAC meetings in the 2020-21 school year. We had a total of 8 SAC meetings in 2021-22. We are scheduled to have 8 SAC meetings in the current 2022-23 school year.

At least 2 DELAC meetings--We met this goal, because we had a total of 6 DELAC meetings in the 2020-21 year. We had 5 DELAC meetings in the 2021-22 school year. We are scheduled to have 6 DELAC meetings this year.

Student/family sense of connectedness-- Overwhelmingly, families indicate satisfaction with the school and rate they would recommend the school, year after year. In the 2019-20 school year, we earned a 96% satisfaction rate, answering the question, "would you recommend this school to a friend?" In the 2020-21 school year, that rate increased to 97.3%. In the 2021-22 school year our satisfaction rate, based on the question, "would you recommend this school to a friend?" increased to 98%. In terms of students recommending the school, we scored 95% in 2020-2021 and 91% in the 2021-2022 internal student survey. Overwhelmingly, students feel safe at school.

Staff sense of support--AJR hires and retains highly qualified staff members. Several staff members have been at AJR for many years, with three teachers on staff who attended AJR as students and have returned to their community to serve our students. Our school is a family and we work to embed that in all aspects of the school community. AJR currently has three administrators, two of which were previously teachers within GDPS. At AJR we take pride in our excellent Professional Development Program, which incorporates teacher voice and talent and includes differentiated sessions led by AJR faculty members. At AJR each summer the Instructional Leadership Team (ILT) creates a unit-based PD program, based on annual department PD goals, where we develop our teachers' expertise in instructional strategies, which include planning, incorporating rituals and routines and refining EL strategies, as well as accommodations and modifications for students with special needs. We also respond to teacher feedback. It has been our experience over the last several years that this PD model fosters sustained implementation and real growth among our teachers. On our staff survey in 2019-20, we earned a 96% satisfaction rate among our staff and in the 2020-21 school year we also earned a 96% satisfaction rating on the questions, "I feel successful in my role", "I am developing my professional practice" and "I enjoy my work in this community." In 2021-22 our satisfaction rating among teachers was 100%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We added metric 5E-Parent Participation to capture the participation of all parents, including parents of our unduplicated students. Parents are engaged through various activities such as SAC, DELAC, Coffee with the Principal, Back to School Nights, Open House, Parent Conferences, Professional Developments and other school activities. For this metric, the school did not meet the goal. COVID-19 had a tremendous impact on social gatherings. Since our return to in-person instruction and meetings, parents have been hesitant to participate in meetings due to the fear of COVID. The school is currently exploring hybrid avenues for parent meetings. The school wants to provide parents with the opportunity to join meetings in-person and online. Also, the school is exploring tools to centralize parent sign-in for meetings. The school currently uses a mixture of online forms and paper-forms to capture parent sign-in. The school will continue to explore tools and

programs that can centralize parent participation data. The school is committed to improving and capturing its parent participation in school activities.

In the next school year we will be transitioning to a new parent communication platform, “ParentSquare” which has increased functionality to better meet the needs of parents and the school.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$2,297,182	\$250,335

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
39.07%	0.00%	\$0.00	39.07%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Given the high percentage of unduplicated pupils at the school, the funds will be spent on improving the charter-wide educational program and meeting the academic goals specified earlier in the LCAP. The needs of low-income students are largely met based on the charter-wide educational model, with additional services provided for foster youth and Emergent Bilinguals. In order to meet the needs of its diverse student population the school will implement Green Dot’s academic model with fidelity.

The model outlines the framework that allows Green Dot teachers and administrators to be successful and focuses on four key elements: 1) Ensuring Quality Teaching and Instruction, 2) Cultivating a College-going Culture, 3) Eliminating Barriers to Learning, and 4) Promoting Leadership and Life Skills. Implementation strategies are provided in the areas of curriculum, student intervention, professional development, parent participation and school operations to help principals and teachers make the most informed decisions for their schools.

1. Ensuring Quality Teaching & Instruction: Dedicated, effective teachers with a passion for their work and their students are at the heart of the Green Dot model. Green Dot ensures high quality teaching and instruction in every classroom through its research-based methods of instruction, teacher effectiveness initiatives and robust professional development and support. The College-Ready Teaching Framework

("CRTF") – a rubric that defines the core competencies expected of all Green Dot teachers is the foundation of the evaluation system. In addition, teachers will be able to pursue professional development and coaching support from the Instructional Coaches as well as from the Green Dot Home Office Education Team.

2. Cultivating a College-going Culture: Green Dot strives to attain high college acceptance rates by creating a culture of college-for-certain. School leaders create systems for ongoing academic counseling with counselors and advisors and offering college tours at every grade level. In addition, the school master schedule offers elective courses that support core content development (i.e., drama), as well as pre-AP pathways (i.e., honors courses in high school). Courses are structured to build students' key cognitive strategies: intellectual openness, analysis, reasoning, accuracy and precision, and interpretation. School classrooms demonstrate the successful implementation of behavior management strategies. Support is provided to build key behaviors necessary for success in high school and college, such as self-monitoring, persistence, independent preparation abilities, and college-level study skills. Lastly, all Green Dot schools provide support to build students' contextual awareness of college systems and culture.

3. Eliminating Barriers to Learning: Students come to Green Dot from a variety of backgrounds. Academically, many are far behind grade-level. Socially and emotionally, many require emotional guidance in order to be able to succeed academically. Green Dot strives to provide the academic intervention, counseling and clinical services necessary to break down these barriers. Green Dot school leaders successfully implement all three tiers of the Multi-Tiered System of Supports by appropriately providing intervention in Literacy, Math, English Language Development and Special Education. Green Dot schools offer an Advisory program that provides academic guidance, school culture & safety; college and career; and personal development. Additionally, each school provides a menu of wrap-around services: mental health supports and psychological services; counseling groups; mentoring programs; supports for foster youth and students experiencing homelessness; and links to community partners for health and wellness programs.

4. Promoting Leadership & Life Skills: Green Dot aims to provide students with a broad set of tools, behaviors and skills to prepare them for college and beyond. Systems for student leadership such as student government, student ambassador program, student mentorship, and the Principal's Advisory Committee give students internal leadership experience. External experience is available through partnerships with community programs, including public speaking opportunities, job shadowing, volunteer work, mentorships, and summer internships. Advisory programs teach and promote life skills and help to reduce dropouts, foster youth development, enhance academic achievement, and promote whole-being development.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

"The schools' educational program will successfully meet the needs of its foster youth, Emergent Bilinguals and low-income student population. Examples of these supports include:

- Implementation of all three tiers of the Multi-Tiered System of Supports in Literacy, Math, English Language Development and Special Education
- Intensive interventions for students requiring additional enrichment and support, including Literacy Enrichment, Math Foundations, individualized tutoring, classroom push-in and co-teaching models and small strategic groupings
- An Advisory program for all students to prepare them with the tools and behaviors to succeed in high school, college, leadership and life – covering topics such as: academic preparation, promotion of college awareness, developing strong peer relationships, developing life skills in areas such as resilience/grit, growth mindset, organization, communication, health/nutrition and personal finance
- Integrated wraparound services to help address social and non-academic barriers to student learning including small group counseling and individual student counseling. Foster youth and students experiencing homelessness are provided services and supports tailored to their individualized needs including uniform and transportation assistance and navigation to community resources such as housing, food, and mental health services.
- Proactive and positive student behavior management, including various alternatives to suspension
- Opportunities for students to explore student leadership and other interests through participation in elective courses, student government, after-school programs and clubs
- Special education programs that cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.

The school has developed a research-based curriculum appropriate to the student demographics it serves that includes the following: course offerings, textbooks, curriculum maps, pacing guides, sample lesson plans, interim assessments and intervention programs. The model is derived from the following continuum of research-based practices:

- Planning and Preparation: Based on Essential Elements of Effective Instruction by Madeline Hunter. Madeline Hunter developed the teacher "decision-making model" for planning instruction known as Instructional Theory in Practice ("ITIP"). This approach to

teaching uses Direct Instruction (“DI”) as the framework for planning. DI refers to a rigorously developed, highly scripted method that is fast-paced and provides constant interaction with students.

- **Assessment and Learning:** Based on *Understanding by Design: Backwards Design* by Jay McTighe and Grant Wiggins. The emphasis of Understanding by Design (“UbD”) is on “backward design,” the practice of identifying the desired outcomes in order to design curriculum units, performance assessments and classroom instruction that will enable students to achieve these outcomes. The backward design approach is developed in three stages. Stage 1 starts with educators identifying the desired results of their students by establishing the overall goal of the lessons by using content standards, common core or state standards. Stage 2 focuses on evidence of learning by assessment. Teachers plan performance tasks and evidence of understanding. Performance tasks determine what the students will demonstrate in the unit and what evidence will prove their understanding. This can include self-reflections and self-assessments on learning. Lastly, Stage 3 lists the learning activities that will lead students to the desired results.
- **Instructional Techniques:** Based on *Teach Like a Champion* by Doug Lemov. *Teach Like a Champion* offers effective teaching techniques to help teachers become champions in the classroom. Additional details provided in the section entitled “Instructional Design, Methods and Strategies.”
- **Classroom Environment:** Based on “*Safe and Civil Schools*” by Randy Sprick. *Safe & Civil* provides high-quality programs and staff development services to help educators create proactive and positive behavior management strategies in schools. In addition, a focus on Restorative Practices provides schools with the resources to build community amongst staff and students. School site walk-throughs with administrators, teacher - leaders and members of the Green Dot Home Office Education Team are scheduled regularly to observe discipline and school culture. Findings from these sessions are compiled to create school-specific professional development for teachers and the necessary support to create an environment where students can learn and where teachers can teach.
- **Culturally Responsive Pedagogy:** Green Dot Public Schools believes that culturally responsive pedagogy can increase student engagement, provide access to content, and as a result, bolster feelings of confidence and understanding in students. School leaders and teachers have read Zaretta Hammond’s *Culturally Responsive Teaching and the Brain* and use her Ready for Rigor framework to work towards a culturally responsive classroom experience for all students.

Academic Support and Intervention is based on incoming student need and a schedule of intervention and acceleration courses will be available to students so that all students can complete the required courses:

- Summer Bridge: Summer Bridge is a recommended multi-week summer program that acclimates students to the culture of the school, high expectations and the development of a trusting community. During the Summer Bridge program, students will also be identified for special needs, English Learner levels, non-proficiency in standards and social-emotional supports, and staff will make the necessary adjustments to the master schedule to better accommodate them. Students receive standards-based instruction in Math and English Language Arts and are acclimated to the culture and expectations of the school. Students will engage in culture-building exercises that promote a positive community of trust and respect. Social and personal issues will also be surfaced in small group settings complemented with educational field trips.
- Literacy Intervention/Enrichment (Read 180): Literacy Intervention/Enrichment is a standards-aligned program for reading that is provided to students that test low in reading. Typically, this course is given to students through an elective class.
- Math Foundations: Students who are struggling in Math (not proficient and/or recommended by their Math teachers) will receive an additional period of Math support, where their teacher and tutors will work on skill building through their current curriculum, as well as remediation strategies to strengthen skills in group tutorial and one-on-one formats.
- Designated and Integrated English Language Development (ELD): Designated ELD classes are provided for all English Learner students and Integrated ELD is provided in all other content classes throughout the school day for Emergent Bilinguals. Designated ELD focuses on listening, speaking, reading and writing skills in English with the CA ELD Standards and Features of Designated ELD driving instruction. Integrated ELD focuses on academic content and English language skills in tandem so that Emergent Bilinguals practice English language skills with academic content in all classes.
- Special Needs/Academic Success: Designated SPED students will be provided extra support to reflect the needs outlined in the Individualized Education Plan (IEP) and in all of their academic courses through one-on-one instruction, group support and guided instruction.
- Homework Club: Students who are struggling with a particular class or want more support in a subject can attend Homework Club, which is offered an hour every day after school and run by a credentialed teacher and/or college interns.
- Office Hours: Teachers hold office hours twice a week before and after school to provide additional support.
- After School Program: Students who are not achieving a satisfactory grade within a particular class or simply want more support in a subject can attend tutoring, which is offered for an hour every day after school.

Social and Life Skills Development is a key component of the school meeting the diverse needs of its student population including the establishment of an advisory course and clinical services available to all students.

Students will participate in an Advisory class with the same group of students for their school career to maintain a tighter sense of community. Advisory serves as a structured time and space for students to reflect on their learning and to discuss the connection between learning and life-long success. Advisory activities are organized around four pillars: 1) school culture and safety, 2) academics, 3) social life skills and 4) civic engagement. During Advisory, students will:

- Discuss issues related to the pressures of being a young adult including but not limited to puberty, relationships, mental health, family, substance abuse, etc.
- Acquire different study skill strategies, test-taking strategies and communication tools that will enable them to succeed in their academic career.
- Learn about the college process as they are encouraged to think beyond middle and high school in an effort to realize that the tools they gain today will be beneficial in the near future
- Gain self-efficacy skills that will allow them to address the barriers of learning with resiliency

We have built an Advisory course into the master schedule to serve as a level 1 intervention using the Multi-Tiered System of Supports(MTSS). Using the MTSS, all students receive the core literacy and math courses as their Tier 1 instruction. In addition to the core courses, students who need more intensive intervention (Tier 2) and support with a lower student-to-teacher ratio are provided with math and literacy interventions classes. If the student continues to struggle, the Grade Level team will determine if there are specific individual interventions (Tier 3) necessary to address the student's needs or if a referral to the Student Success Team is required.

Our Clinical Services team provides individual, group and family therapy to the students and families, and serves as a Tier 2 and 3 intervention within the MTSS Framework. The main purpose of our clinical services program is to address the barriers to learning from the mental health perspective. In addition, we provide crisis intervention, parent consultation, teacher consultation, and case management which include providing resources and referrals to outside agencies.

In order to ensure services are provided free of charge, services are provided by pre- and post- graduate Marriage and Family Therapy, Psychology and Social Work interns who receive extensive training and supervision in exchange for their work. All services are supervised by one of our licensed Marriage and Family Therapists or Licensed Clinical Social Workers. Interns provide social and emotional counseling including small group and individual therapy.

The School Mental Health Services team uses a referral process for students to receive services. Once students and parents have consented to services, students will work with a School Mental Health Therapist or School Mental Health Intern (under the supervision of a Licensed Mental Health provider) that follows them through the process of services, and provides mental health services. Students are provided with assessments that measure symptoms of depression, anxiety, & trauma, along with other evidenced-based interventions during clinical psychotherapy. The School Mental Health Services team works with parents, staff, and students throughout the referral process to ensure they are aware of their options. School Mental Health Services provides a proactive approach to addressing the barriers of learning by utilizing prevention and wellness to enable our students to possess the necessary skills to navigate their academic and social skills.

The school will improve its entire educational program by investing in additional technology to increase its ratio of students to computers, additional special education services to support high needs students, and instructional material to increase support for classroom learning experience.

- The school will offer a spectrum of special education services that may include a resource program and special day program. The programs are designed to foster a high-quality program for students with special education needs. Additionally, our special education programs cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.
- The school will offer ELD courses to prepare Emergent Bilinguals recently arrived in the U.S. for success in English-medium instruction, including English Language Arts. Skills in all four strands of language – listening, speaking, reading and writing – are systematically developed. Students of mixed grade levels are grouped according to proficiency in English. Cultural knowledge needed for success in U.S. schools is integrated throughout. The Green Dot EL Master Plan includes the new CA ELD standards and a five step process for the identification of Emergent Bilinguals including: 1) Initial Identification, 2) EL Proficiency Assessment, 3) Primary Language Assessment, 4) Parent Notification, and 5) Program Placement. Green Dot schools provide on-going training for administrators and teachers on the identification process.
- All Emergent Bilinguals students are served in both Designated and Integrated ELD designed to meet their needs. Instruction is based on the CA ELD Standards and the Features of Designated and Integrated ELD. These programs are built into the school's

master schedule and take place within the school day. The school will work with the Human Resources (HR) Department to ensure appropriate staffing and authorizations for teachers in these courses.

- Technology is widely used at the school to drive higher levels of achievement and prepare students for the information driven economy of the 21st century. It is also used as a critical tool for gathering data for school management.

Technology investments will be made in the following areas:

- Increased computing devices (e.g., desktops, laptops, Chromebooks) that are available for student use;
- Each teacher is provided with a laptop and given training on effectively using technology in the classroom;
- Courses often include web-based research projects and assignments;
- Technology elective classes are included in the recommended curriculum to train students on computers and different software programs; and
- A web-based student information and school management system is implemented at the school and used by parents, students and school staff "

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The LEA received additional concentration grant funding due to its high percentage of unduplicated pupils, which is well above the 55% threshold for receiving these funds. The LEA has utilized the additional concentration grant add-on funding to hire and maintain staff at the school who provide direct services to students. We have used these funds to provide high impact tutoring services through the hiring of instructional aides, as well as to hire additional staff such as clinical supervisors, a homeless youth coordinator, attendance case managers, African American Support Specialists, push-in substitutes, and additional support staff to address the ongoing impact of COVID-19. Retention efforts for existing staff include increased mental health supports and additional professional development opportunities.

Goal 2, Actions 2.1, 2.2, 2.5 and 2.8 address this requirement, as well as Goal 3, Action 3.1, and Goal 4, Actions 4.1 and 4.2.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		7:589
Staff-to-student ratio of certificated staff providing direct services to students		30:589

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
