

CRCS ADF

SCHOOL DISTRICT COMMITMENT TO LEARNING RESULTS

The Board hereby adopts [Maine's system of Learning Results](#), including the Guiding Principles. The system of Learning Results was updated in 2011 to include the [Common Core](#), and is intended to serve as a foundation for education reform and to promote and provide assessment of student learning, accountability and equitable opportunities for all students to access the content standards. The Board recognizes that the legislative intent of the Learning Results is to provide children with schools that reflect high expectations and create conditions where these expectations can be met.

The Board understands that implementation of the Learning Results, and the mandate to provide all students with equitable opportunities to meet the content standards of the system of Learning Results, have broad implications for the school unit, including curriculum, budget, professional development, student assessment, professional evaluation, and graduation requirements. Therefore, the Board is committed to examining its policies and school system practices to ensure that they are consistent with the intent and goals of the system of Learning Results. This will require a concerted and coordinated effort involving the Board, the Executive Director, administrators, teachers, parents, students and the community.

The Board directs the Executive Director, administrator, and teachers with the responsibility for implementing the system of Learning Results, including appropriate administrative procedures. The Board further directs the Executive Director to report to the Board at least annually in regard to student achievement and progress toward implementing the Learning Results.
