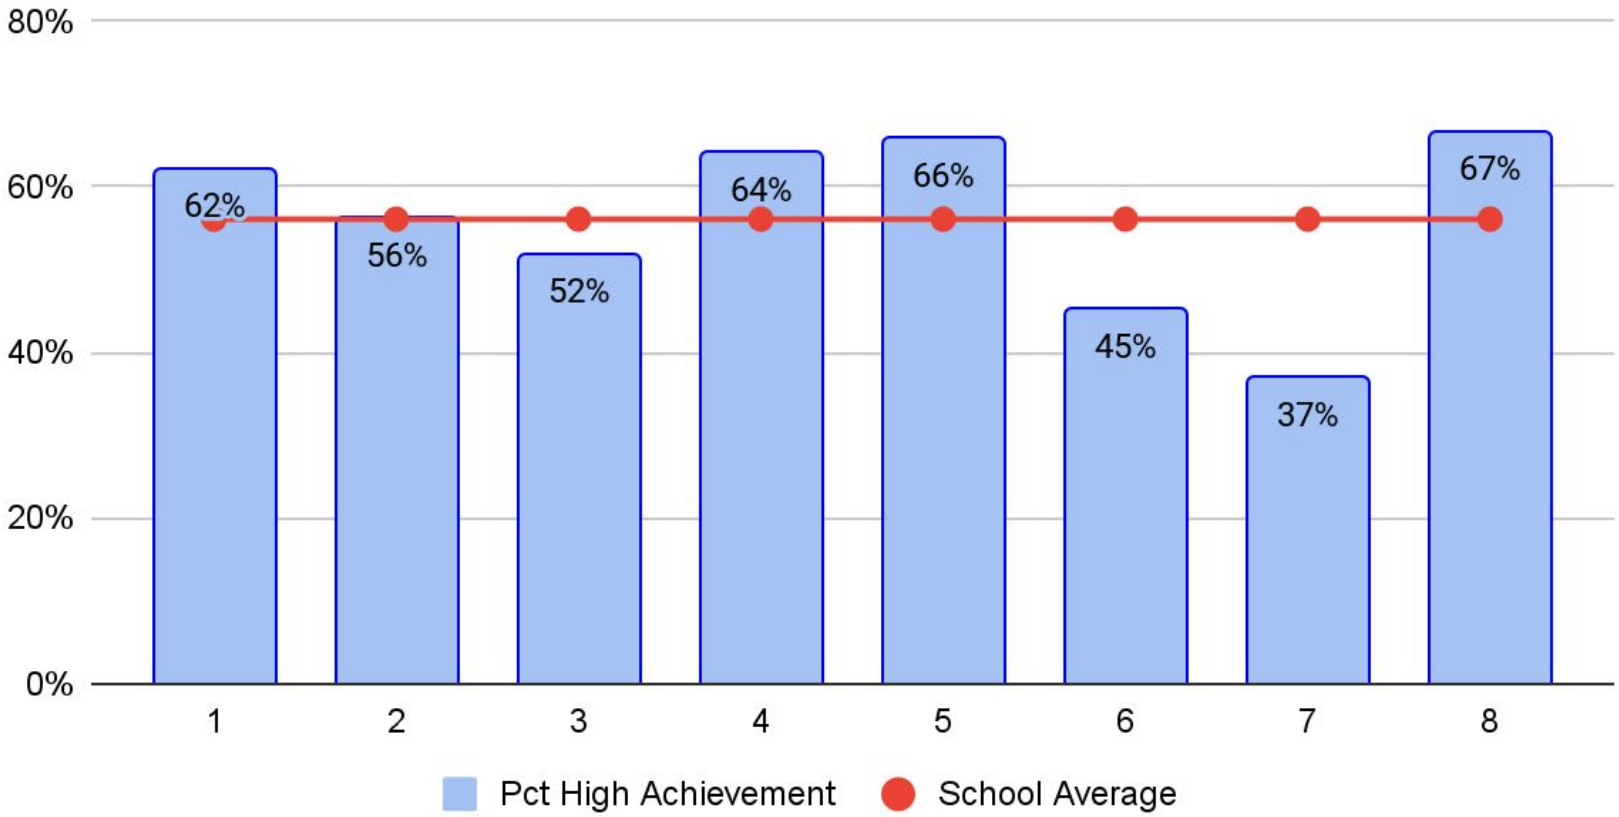
Fall NWEA

Percent High Achievement Slides

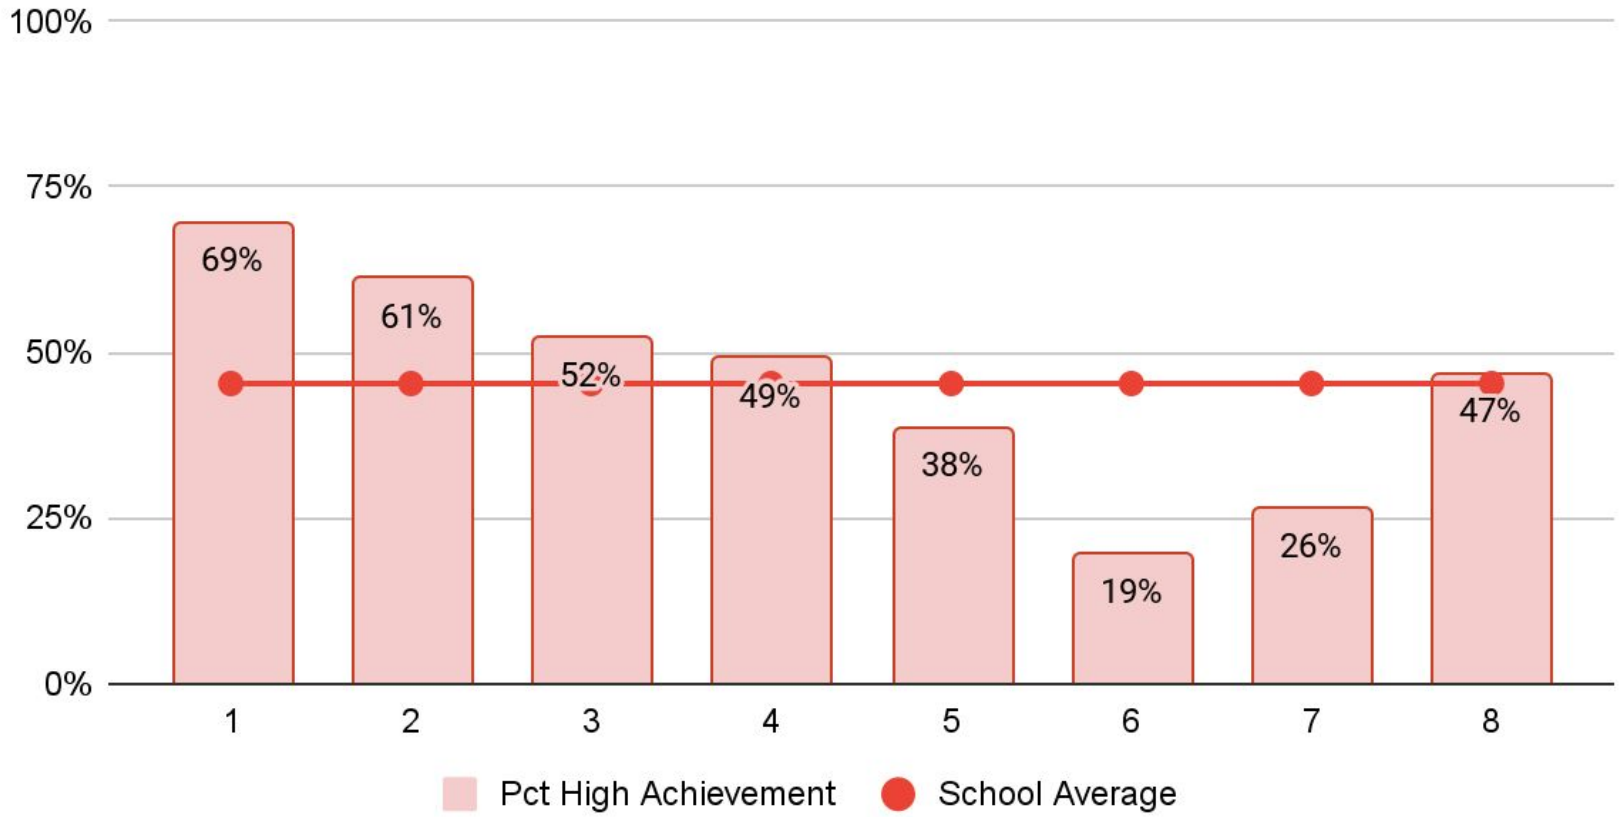
These two slides show the percentage of student in each grade the performed at high achievement during Fall 2022 testing. (High achievement is defined as 50th percentile in achievement or higher).

The solid red line across the middle is the entire school average.

Percent High Achieving By Grade: Reading



Percent High Achieving By Grade: Math

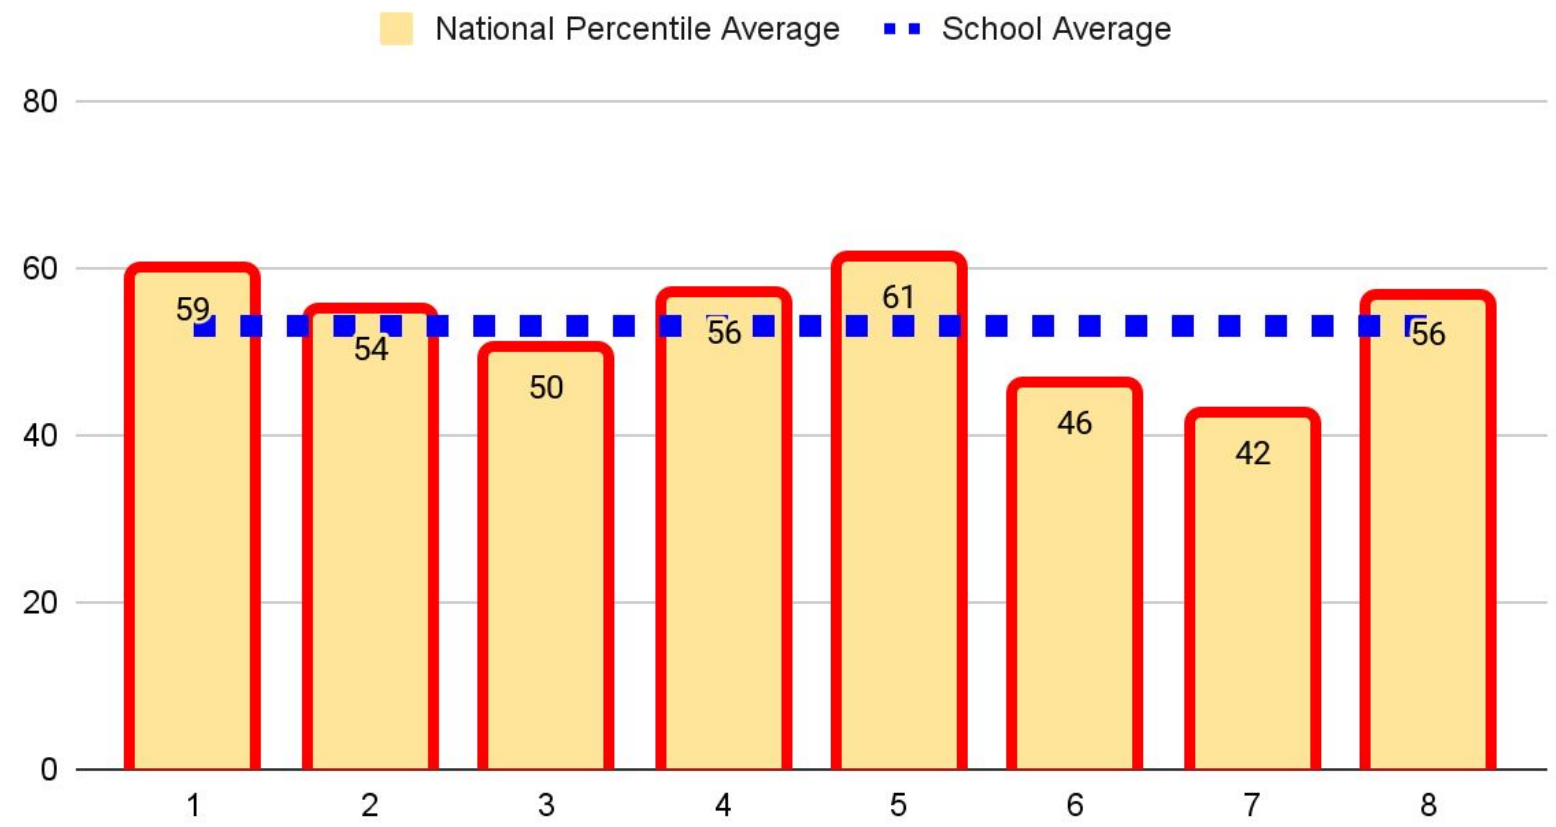


Average National Percentile

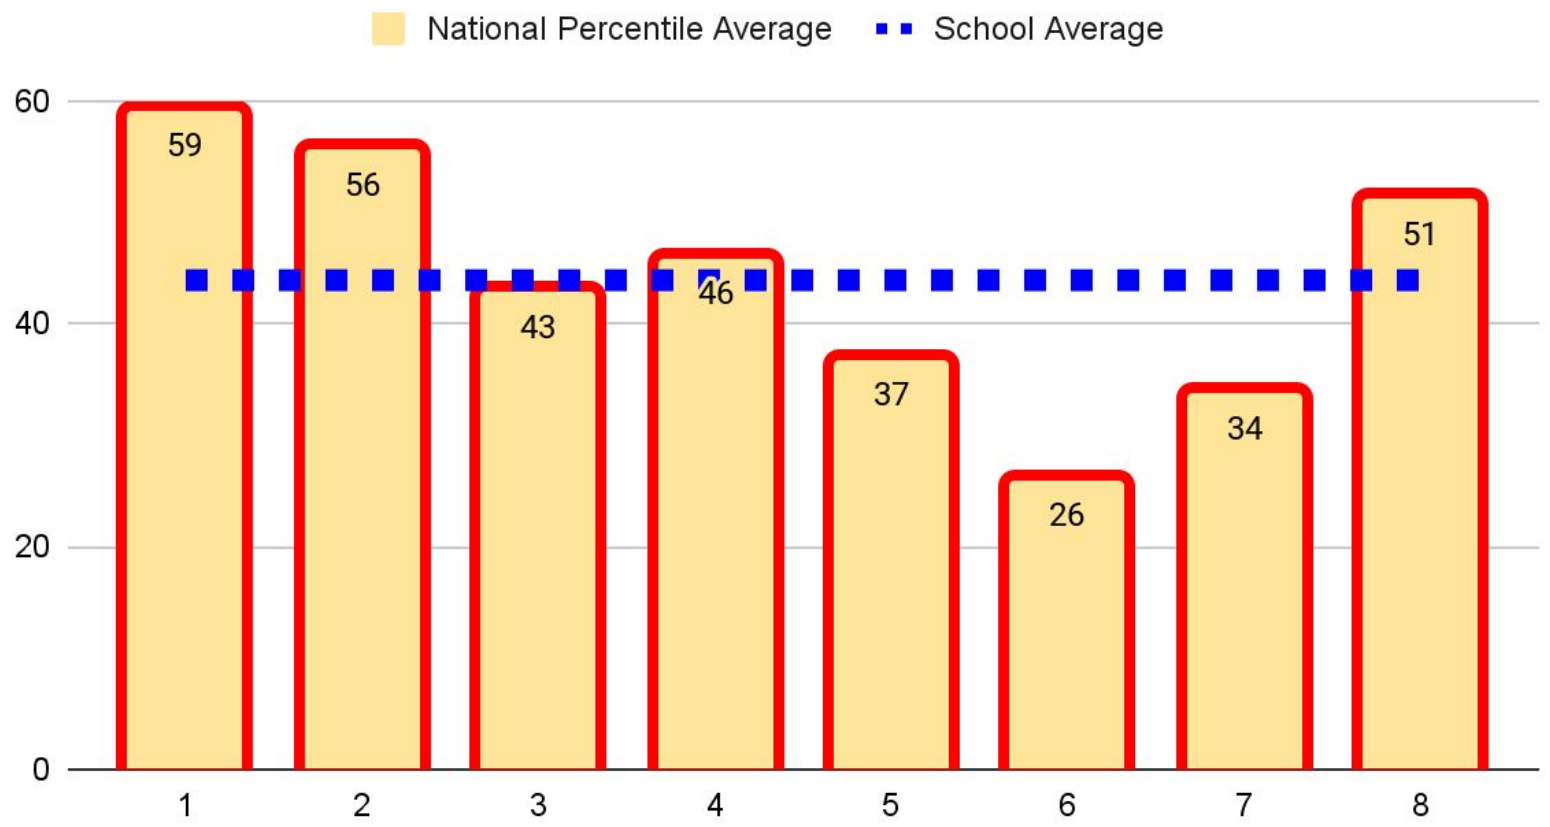
The average national percentile is an achievement metric from 1 (lowest) to 99 (highest). 50th percentile is considered high achievement. The blue dot line is the school average.

As with the previous slides, reading scores were relatively consistent throughout the school. Math scores were skewed more positively at the earlier grades in the school.

Average National Percentile by Grade: Reading



Average National Percentile by Grade: Math



Growth Data: Fall to Fall

Three groups are captured:

Yes = Student met growth status from Fall 2022 to Fall 2023

Progress = Student score was inside the margin of error; thus, the status is different than yes or no.

No = Student did not meet growth status from Fall 2022 to Fall 2023 and the performance was outside the margin of error.
