

ELECTRONIC RESOURCES AND INTERNET SAFETY

K-20 Network Acceptable Use Guidelines/Internet Safety Requirements

These procedures are written to support the Electronic Resources and Internet Safety Policy of the board of directors and to promote positive and effective digital citizenship among students and staff. Digital citizenship includes the norms of appropriate, responsible, and healthy behavior related to current technology use.

Successful, technologically-fluent digital citizens recognize and value the rights, responsibilities, and opportunities of living, learning, and working in an interconnected digital world. They recognize that information posted on the Internet is public and permanent and can have a long-term impact on an individual's life and career. Expectations for student and staff behavior online are no different from face-to-face interactions.

Use of Personal Electronic Devices

In accordance with all district policies and procedures, students and staff may use personal electronic devices (e.g. laptops, mobile devices and e-readers) to further the educational and research mission of the district. School staff will retain the final authority in deciding when and how students may use personal electronic devices on school grounds and during the school day. Absent a specific and articulated need (e.g. assistive technology), students do not have an absolute right to possess or use personal electronic devices at school.

Network

The district network includes wired and wireless devices and peripheral equipment, files and storage, e-mail and Internet content (blogs, websites, collaboration software, social networking sites, wikis, etc.). The district reserves the right to prioritize the use of, and access to, the network.

All use of the network, as well as any materials stored, transmitted, or published on the system, must be in conformity to state and federal law-including FERPA and CIPA, network provider policies and district policy. All use of the network must support education and research and be consistent with the mission of the district. The district reserves the right to prioritize use and access to the system.

From time to time, the district may determine whether specific uses of the network are consistent with the regulations stated in this procedure. Under prescribed circumstances, non-student or staff use may be permitted, provided such individuals demonstrate that their use furthers the purpose and goals of the district.

For security and administrative purposes, the district reserves the right for authorized personnel to review system use and file content including, without limitation, the contents of district-provided personal and shared file storage, web browsing history on a district device and/or the district network, and district email. Email is archived as per Public Disclosure Laws.

Acceptable network use by district students and staff include:

- A. Creation of files, digital projects, videos, web pages and podcasts using network resources in support of education and research;
- B. Participation in blogs, wikis, bulletin boards, social networking sites and groups as permitted under district filtering limitations, and the creation of content for podcasts, e-mail and webpages that support education and research;
- C. With parental permission, the online publication of original educational material, curriculum related materials and student work. Sources outside the classroom or school must be cited appropriately;
- D. Staff use of the network for incidental personal use in accordance with all district policies and procedures; or
- E. Connection of personal electronic devices (wired or wireless), when authorized including portable devices with network capabilities to the district network after checking with the district IT director or building technology lead to confirm that the device is equipped with up-to-date virus software, compatible network card and is configured properly. Connection of any personal electronic device is subject to all procedures in this document and district policy.

Unacceptable network use by district students and staff includes but is not limited to:

- A. Personal gain, commercial solicitation and compensation of any kind;
- B. Actions that result in liability or cost incurred by the district;
- C. Downloading, installing and use of games, audio files, video files, games or other applications (including shareware or freeware) without permission or approval from the IT department or out of compliance with district policies and procedures.
- D. Support for or opposition to ballot measures, candidates and any other political activity;
- E. Hacking, cracking, vandalizing, the introduction of malware, including viruses, worms, Trojan horses, time bombs and changes to hardware, software and monitoring tools;
- F. Making use of the electronic resources in a manner that serves to disrupt the operation of the system by others, including modifying, abusing, or destroying system hardware, software, or other components
- G. Attempting to gain unauthorized access to other district computers, networks and information systems;
- H. Action constituting or contributing to harassment, intimidation, or bullying, including cyberbullying, hate mail, defamation, harassment of any kind, discriminatory jokes and remarks. This may also include the manufacture, distribution, or possession of inappropriate digital images;
- I. Information posted, sent or stored online that could endanger others (e.g., bomb construction, drug manufacturing);
- J. Accessing, uploading, downloading, storage and distribution of obscene, pornographic or sexually explicit material;
- K. Attaching unauthorized devices to the district network. Any such device will be confiscated and additional disciplinary action may be taken; or
- L. Any unlawful use of the district network, including but not limited to stalking, blackmail, violation of copyright laws, and fraud.

The district will not be responsible for any damages suffered by any user, including but not limited to, loss of data resulting from delays, non-deliveries, mis-deliveries or service interruptions caused by his/her own negligence or any other errors or omissions. The district will not be responsible for unauthorized financial obligations resulting from the use of, or access to, the district's computer network or the Internet.

Internet Safety

Lessons on online safety issues and cyberbullying awareness/response will be provided and updated regularly. All students will receive a short, age-differentiated lesson on the meaning of the contents of the Acceptable Use Agreement before being asked to sign the agreement. The purpose of obtaining student signatures is to indicate (1) their understanding of and (2) agreement to the provisions therein. Students will be educated regarding appropriate digital citizenship according to 2023 – Digital Citizenship

Staff will be educated regarding cybersecurity, including regular cybersecurity training as well as ongoing phishing simulations.

Personal Information and Inappropriate Content:

- A. Students and staff should not reveal personal information, including a home address and phone number on web sites, blogs, podcasts, videos, social networking sites, wikis, e-mail or as content on any other electronic medium;
- B. Students and staff should not reveal personal information about another individual on any electronic medium without first obtaining permission;
- C. No student pictures or names can be published on any public class, school or district website unless the appropriate permission has been obtained according to district policy; and
- D. If students encounter dangerous or inappropriate information or messages, they should notify the appropriate school authority.
- E. No user may use, disclose, or disseminate personally identifiable information of a minor without explicit parent/guardian permission;
- F. Staff must follow district data-handling procedures, including 3231 – Student records, when handling any student's personally identifiable information; and
- E. Students should be aware of the persistence of their digital information, including images and social media activity, which may remain on the Internet indefinitely.

Filtering and Monitoring

Filtering software is used to block or filter access to visual depictions that are obscene and all child pornography in accordance with the [Children's Internet Protection Act \(CIPA\)](#). Other objectionable material could be filtered. The determination of what constitutes "other objectionable" material is a local decision. Request and authorization to unblock a specific website or internet domain must come from a building or district administrator. The district has the capabilities for auditing users' email and web use.

- A. Filtering software is not 100 percent effective. While filters make it more difficult for objectionable material to be received or accessed, filters are not a solution in themselves. Every user must take responsibility for his/her use of the network and Internet and avoid objectionable sites;
- B. Any attempts to defeat or bypass the district's Internet filter or conceal Internet activity are prohibited (e.g., proxies, https, special ports, modifications to district browser settings and any other techniques designed to evade filtering or enable the publication of inappropriate content);
- C. E-mail inconsistent with the educational and research mission of the district will be considered SPAM and blocked from entering district e-mail boxes;
- D. The district will provide appropriate adult supervision of Internet use. The first line of defense in controlling access by minors to inappropriate material on the Internet is deliberate and consistent monitoring of student access to district devices;
- E. Staff members who supervise students, control electronic equipment or have occasion to observe student use of said equipment online, must make a reasonable effort to monitor the use of this equipment to assure that student use conforms to the mission and goals of the district;
- F. Staff must make a reasonable effort to become familiar with the Internet and to monitor, instruct and assist effectively;
- G. The district may monitor student use of the district network, including when accessed on students' personal electronic devices and devices provided by the district, such as laptops, netbooks, and tablets;
- H. The district may block or delete any malicious content detected, and
- I. The district will provide a procedure for staff members to request access to internet websites blocked by the district's filtering software. The procedure will indicate a timeframe for a designated school official to respond to the request. The requirements of the Children's Internet Protection Act (CIPA) will be considered in evaluation of the request. The district will provide an appeal process for requests that are denied.

The use of anonymous proxies to get around content filtering is strictly prohibited and is a direct violation of this agreement.

Internet Safety Instruction

All students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response:

- A. All students will receive a short, age-differentiated lesson on the meaning of the contents of the Acceptable Use Agreement before being asked to sign the agreement. The purpose of obtaining student signatures is to indicate (1) their understanding of and (2) agreement to the provisions therein. Students will be educated regarding appropriate digital citizenship according to 2023 – Digital Citizenship;
- B. Staff will be educated and trained as appropriate for their roles regarding cybersecurity; and
- C. Information about online safety issues will be made available for students and families.

Copyright

Downloading, copying, duplicating and distributing software, music, sound files, movies, images or other copyrighted materials without the specific written permission of the copyright owner is generally prohibited. However, the duplication and distribution of materials for educational purposes is permitted when such duplication and distribution falls within the [Fair Use Doctrine](#) of the United States Copyright Law ([Title 17, USC](#)) and content is cited appropriately.

Ownership of Work

All work completed by employees as part of their employment will be considered property of the district. The District will own any and all rights to such work including any and all derivative works, unless there is a written agreement to the contrary.

All work completed by students as part of the regular instructional program is owned by the student as soon as it is created, unless such work is created while the student is acting as an employee of the school system or unless such work has been paid for under a written agreement with the school system. If under an agreement with the district, the work will be considered the property of the District. Staff members must obtain a student's permission prior to distributing his/her work to parties outside the school.

Network Security and Privacy

Network Security

Passwords are the first level of security for a user account. System logins and accounts are to be used only by the authorized owner of the account for authorized district purposes. Students and staff are responsible for all activity on their account and must not share their account password. The following procedures are designed to safeguard network user accounts:

- A. Change passwords according to district policy;
- B. Do not use another user's account;
- C. Keep account passwords confidential and safe, including not inserting passwords into e-mail or other communications;
- D.
- E. Do not store passwords in a file without encryption;
- F. Do not use the "remember password" feature of Internet browsers; and
- G. Lock the screen or log off if leaving the computer.

Student Data is Confidential

District staff must maintain the confidentiality of student data in accordance with the [Family Educational Rights and Privacy Act \(FERPA\)](#).

No Expectation of Privacy

The district provides the network system, e-mail and Internet access as a tool for education and research in support of the district's mission. The district reserves the right to monitor, inspect, copy, review and store without prior notice information about the content and usage of:

- A. The district network regardless of how it is accessed;
- B. User files and disk space utilization;

- C. User applications and bandwidth utilization;
- D. User document files, folders and electronic communications;
- E. E-mail;
- F. Internet access; and
- G. Any and all information transmitted or received in connection with network and e-mail use.

No student or staff user should have any expectation of privacy when using the district's network. The district reserves the right to disclose any electronic messages to law enforcement officials or third parties as appropriate. All documents are subject to the public records disclosure laws of the State of Washington.

Social Networking/Web 2.0

Staff may incorporate: email, blogs, podcasts, video conferencing, online collaborations, PDAs, IMing, texting, Virtual Learning Environments and other forms of direct electronic communications (i.e. cell phones, PDAs, cameras) or Web 2.0 applications for educational purposes. It is the direct responsibility of the user to comply with this electronic resources policy, guidelines and agreement. Uses of blogs, podcasts or other Web 2.0 tools are considered an extension of the classroom. Whether at home or in school, any speech that is considered inappropriate in the classroom is also inappropriate in all uses of blogs, podcasts, or other Web 2.0 tools. Students using blogs, podcasts or other Web 2.0 tools are expected to act safely by keeping ALL personal information out of their posts. Comments made on school related blogs should follow the rules of online etiquette detailed above and will be monitored by school personnel.

Requirements for use of Social Media and Technology for School, District and Program Purposes

Use of social media under the name of the district, its schools, or programs constitutes action by the individual as an employee of the district, and is subject to all district policies and procedures. Before using social media (other than the district's own website or e-mail system) employees should inform and seek written approval from their direct supervisor and Public Information Officer utilizing the Outside Website/Media Request Form.

Social media sites in the name of the district, its schools, or programs is property of the school district and is subject to review, modification, or removal by supervisory personnel.

Passwords for social media sites shall be maintained by the employee's supervisor, in confidence. If passwords are changed or modified by the "host" employee, the supervisor shall be informed immediately.

Social media for district use is a public record, and is subject to public review under the Public Records Act. Before using social media (other than the district's own website or e-mail system) employees must work with the Technology Department to ensure that the contents are regularly retained in accordance with records retention policies and procedures.

When using social media or technology, an employee shall only communicate with students regarding educational, program, or official business related topics.

When using social media, the employee shall never "direct message" a student.

Communications shall be public, not private.

Technology Planning and Purchases

Any task requests of the technology department must be initiated by the submittal of a trouble ticket through the Technology Help Desk. Prior planning of any technology use is a necessity. There is no guarantee that a technology staff member can address issues of short notice needs or poorly planned technology usage. Any modification of district equipment or its configuration by anyone other than district technology personnel is strictly forbidden. There is no guarantee that items purchased without the planning or input of the technology department can or will be supported by the technology department.

Additionally, hardware and all applications, software, and operating systems must be:

- A. Currently supported by the manufacturer.
- B. Periodically reviewed to ensure they are still in use, supported by the manufacturer, and patched for vulnerabilities.

Archive and Backup

Backup is made of all district e-mail correspondence for purposes of public disclosure and disaster recovery. Barring power outage or intermittent technical issues, staff and student files are backed up on district servers regularly. Refer to the district retention policy for specific records retention requirements.

Artificial Intelligence

Artificial Intelligence is a rapidly advancing set of technologies for capturing data to detect patterns and automate decisions. Artificial Intelligence (AI) has become an increasingly important part of our lives, and it is essential for students to understand when and how to use it effectively and ethically. AI tools can enhance classroom learning, and their implementation should be guided with proper training, ethical considerations, and responsible oversight. When utilizing generative AI tools to create or support the creation of texts or creative works, students are expected to adhere to these guidelines and any additional guidance provided by their classroom teacher.

A. Purpose

The district will seek to maintain staff and student access to generative Artificial Intelligence tools for the following purposes:

- Ensuring all students have equitable access to leverage these technologies, regardless of what learning technology devices may be available to them.
- Providing all students with an opportunity to engage in current technologies in a learning environment, to better prepare them for the world they will live and work in.
- Extending the benefits of these tools to the workplace, where appropriate, to leverage efficiencies and productivity.

B. Appropriate Use

Student and staff use of generative Artificial Intelligence technologies should be used to support and extend student learning and workplace productivity. Student and staff use of AI will be in accordance with the expectations outlined in Policy 2022 and this document (2022P).

C. Inappropriate Use

In addition to those uses that violate this procedure the following are prohibited uses of Artificial Intelligence:

- Any use of Artificial Intelligence that does not align with expectations outlined by a classroom instructor or building administrator. It is ultimately the teacher's responsibility to determine the appropriate level of use of Artificial Intelligence in each classroom, and for each assignment or project.
- Use of Artificial Intelligence to complete an assignment in a way that represents the assignment as one's own work.
- Use of Artificial Intelligence to purposefully create misinformation or to misrepresent others for the purpose of harming or bullying groups or individuals.
- Use of Artificial Intelligence with confidential student or staff personal information.

Disciplinary Action

All users of the district's electronic resources are required to comply with the district's policy and procedures (and agree to abide by the provisions set forth in the district's Acceptable Use Agreement. Violation of any of the conditions of use explained in the Acceptable Use Agreement, Electronic Resources policy or in these procedures or other district documents could be cause for civil or criminal actions as applicable, termination of employment, disciplinary action, including suspension or expulsion from school and suspension or revocation of network and computer access privileges, or other electronic resources privileges.

Accessibility of Electronic Resources

In compliance with federal and state law, all District-sponsored programs, activities, meetings, and services will be accessible to individuals with disabilities, including persons with hearing, vision, and/or speech disabilities. To ensure such, the content and functionality of websites associated with the district should be accessible. Such websites may include, but are not limited to, the district's homepage, teacher websites, district-operated social media pages, and online class lectures.

District staff with authority to create or modify website content or functionality associated with the district will take reasonable measures to ensure that such content or functionality is accessible to individuals with disabilities.

Adoption Date: 08.26.09

Steilacoom Historical School District No. 1
