

2.11 POLICY REGARDING THE REPORT OF CHILD ABUSE

The Scholars Academy Board of Directors recognizes the serious problem of child abuse, neglect and dependency and the crucial role of school personnel in regard to this problem. Therefore, any school employee who has cause to suspect that any child is an abused, neglected, or dependent child must report the case of such child to the Director of the Mecklenburg County Department of Social Services (or his authorized representative), as is required by North Carolina law, and to the Executive Director of Scholars Academy.
