Board of Directors
East Bay Innovation Academy
San Jose, CA

We have audited the financial statements of East Bay Innovation Academy (the Academy) for the year ended June 30, 2017, and have issued our reports thereon dated November 13, 2017, respectively. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards*, and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 4, 2017. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Academy are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies has not changed during the year ended June 30, 2017. We noted no transactions entered into by the Academy during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We evaluated the key factors and assumptions used to develop estimates in determining that they are reasonable in relation to the financial statements taken as a whole. A schedule of the major accounting estimates is attached to this letter.

The financial statement disclosures are neutral, consistent, and clear. There are no particularly sensitive disclosures.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 13, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Academy's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Academy's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition of our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with U.S. generally accepted accounting principles, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Our auditors' opinion, the audited financial statements, and the notes to financial statements should only be used in their entirety. Inclusion of the audited financial statements in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.

Closing

We will be pleased to respond to any questions you have about the foregoing. We appreciate the opportunity to continue to be of service to the Academy.

This information is intended solely for the use of the Board of Directors, management and others within the Academy and is not intended to be and should not be used by anyone other than these specified parties.

Summary of Significant Accounting Estimates

Accounting estimates are an integral part of the preparation of the financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the Academy's June 30, 2017 financial statements:

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Valuation of receivables	The Academy does not record an allowance for doubtful accounts.	Management believes receivables are collectible since most are from governmental units. However, management reviews individual receivable balances at year end to evaluate the appropriate allowance, if any.	We reviewed management's estimate noting the method and assumptions were reasonable and in accordance with generally accepted accounting principles (GAAP) requirements.
Allocation of functional expenses	The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities. Accordingly, certain costs have been allocated among the programs and supporting services based on management's estimates.	Throughout the year management codes certain expenses based on a functional classification. For other expenses, management prepares an analysis of the expense recognized to data and calculates the allocation.	We reviewed management's estimate noting the method and assumptions were reasonable, consistent with prior years, and in accordance with applicable GAAP requirements.
