A.	Grizzly Field Completion Budget			5 m

Two years ago, when the budget for a Grizzly field construction was done, it was unknown if government would even allow to build a field there. The regulatory and design expenses ended up much higher than originally anticipated. In addition, the prices over the last two years went up significantly. In addition, the school asked for field features that were not originally supposed to be, which brought the cost of construction higher. As a result, the school will need to invest additional approximately $700,000. See attached budget.
