Mrs. Melissa Cross-Arnold is reviewing the Bond Agreement document.

- Capitalized interest built into transaction so the money doesn't come out of pockets.
- Approx total amount on data provided are basically final, looking to close November 13th.
- Loan with Sunflower will be modified, from collateral to released to schools balance sheet.

- Sunflower will be lender on \$2 Million loan already and will be holder of bonds, and will be the primary lender.

-What is being approved today is the amount that will not have to be paid until construction is fully completed and issuance of occupancy is granted.

-2.25 million is requested to correct the amount for the resolution

-The original loan taken out last year was a little over 2 Million.

Victoria: Do we owe anyone anything at this point? Last time the construction was a bit behind.

Anna:

-Latest updates: almost done painting, floors will be installed, scheduling inspections, nearing completion inside

-Minor landscaping outside

-3 weeks out

-It was correct that the amount was 2.25 million in cash collateral, there was an additional amount in cost of issuance that will be used in the closing and the rest is capitalized interest

## **B. Student Admissions Procedure: Updated Policy**

Anna Korchuk speaking:

-Changes to the admission procedures, how our lottery is used to pick students on the waiting list are asked to match to what it currently states in the Admission Policy. We have a current lottery procedure document, but it did not match the information in the Admission Policy documents.

-Asking for permission to make changes to the documents in the Admission Policy to match the current Lottery procedures, that are listed separately in the Lottery Procedure Document.

-Requesting to take out that CO needs to be present at the lottery

-Changed contact email address to reflect across all campuses

### **C. Principal Presentation: SIP / School Data for 1st Quarter Diagnostic Test**

Liliya Soroka speaking:

- We will be discussing the first window for the iReady diagnostics
- ELA diagnostics first window is 24%
- Math diagnostic is 18% of students that stay on the grade level

Hearn:

- Start the grade level motivation now, state incentives to achieve better grades

Victoria:

- Is there still going to be testing this year since we are facing the same problems or are they going to dismiss that and ignore the school grade?
- No information has been released on that subject

Liliya Soroka Speaking:

- We are continually evaluating the Schoolwide Improvement Plan, and and making improvements as needed for continued progress.
- The plan is to help ensure a continual improvement in academic assessments and student growth overall.

### **D. Financial Control Policy - Revised**

Anna Korchuk is speaking:

- CPA recommended that due to the school growing there must be changes made to the financial control policy
- The change that is requested is for any purchase that is between 15k-30k to be approved by the board. Currently any purchase 5k or above needs to be approved by the board. It is suggested to change those purchase approvals from 5K to 15k.
- The board agrees that it will be best practice and smooth operations of the school if purchases beyond 15k go thru board approval first, and anything less can be determined by the current budget availability.
- Everything over 30k will be placed under sealed bids to move forward with approval once a bid is voted as the school choice.
- CO will be raised to 10k
