

MAP Data - Winter 21-22

First some reminders.....

And now the data....

Math Growth - Fall to Winter

Math: Math K-12

What this data can hide:

7th Grade Math	Number of Students	Mean RIT Fall	Mean RIT Winter	# of students who met growth	% of students who met growth
Overall	76	222.7	226.1	38	50%
White	46	225.9	229.3	23	50%
Black	23	215.5	218.9	11	48%

Speaking of our subgroups....

Grade Math	Number of Students	Mean RIT Fall	Mean RIT Winter	# of students who met growth	% of students who met growth
Overall	63	201.8	210.6	42	67%
White	46	202.8	212.6	34	74%
Black	6	194.8	199.2	2	33%
Special Ed	7	188.1	196.4	3	43%

Bright Spots....

Grade Math	Number of Students	Mean RIT Fall	Mean RIT Winter	# of students who met growth	% of students who met growth
Overall	66	175.1	185.5	38	58%
White	44	177.4	187.6	24	55%
Black	8	161.8	174.1	5	63%
Special Ed	4	165.8	175.3	2	50

Math	Number of Students	Mean RIT Fall	Mean RIT Winter	# of students who met growth	% of students who met growth
Overall	64	194.1	202.7	41	64%
White	44	196.6	205.1	28	64%
Black	10	185.5	193.9	6	60%
Special Ed	3	183	193.7	2	67%

Math Milestones Projections:

Grouping: School
None

Math: Math K-12

Projected to: Georgia Milestones taken in spring.

8	76	4	5.3%	15	19.7%	37	48.7%	20	26.3%
Total	490	41	8.4%	122	24.9%	201	41.0%	126	25.7%

Overall Summary:

- More than expected growth across the majority of grade levels in math
- Significant portion (plus 40%) of K-5 students are above the 80th percentile in Reading
- Strong Milestones projection scores
- Need for continued work with subgroups (race and disability) in Mean RIT and Growth across subjects
- Continue to monitor Reading/ELA growth
