Teacher Recruitment & Prospective Parent Outreach

CONSISTENT - EVEN THROUGH COVID

On average, our students' academic achievement has stayed consistently strong - even through the school closures of 2020 and 2021.

ACADEMIC ATTAINMENT REMAINS CONSISTENT

The negative impact of COVID-driven remote learning has been a recurring theme in education. We administer the Measure of Academic Progress (MAP), a national standardized test, three times each year (winter, spring and fall). The chart of fall MAP scores on the front of this mailer emphasizes the resilience demonstrated by our students through remote learning, along with our teachers' ability to adapt

to the virtual environment. It also supports the power of our constructivist approach, with targeted, data-based intervention for specific learners. On average, our students' national percentile ranking tops the 66 percent mark - a high level of achievement that has remained consistent even over the years.
