CHARTER SCHOOL**

helping students learn to use their minds well

---

## **2018 ANCS CCRPI SCORES - Information & Comparisons**

*Prepared by Matt Underwood, Executive Director - December 2018*

# CCRPI - *What is it?*

---

- Beginning in 2012, GaDOE started new “school improvement, accountability, and communication platform”: College & Career Readiness and Performance Index (CCRPI)
- CCRPI used to report performance across range of measures for all Georgia public schools serving students in grades K-12
- All Georgia public schools given a CCRPI score on 100-point scale based on data from measures from prior school year; most data points tied to GA Milestones scores
- Calculation formula for CCRPI has changed several times--including [last year](#)--making year-to-year comparisons challenging
- Many more details can be found on [GaDOE website](#)

# CCRPI - *How is it used?*

---

- Two direct accountability uses of CCRPI scores for all charter schools in Georgia
  - CCRPI score of charter school must be better than CCRPI score of local district and state in years 3-5 of charter term
  - Charter school must “beat the odds” by having CCRPI data that is equal to or better than expected student growth data from students of similar demographics

# CCRPI - 2018 ANCS Results

---

## ■ **Elementary**

- CCRPI score of 88.6 was *higher* than district (76.8) and state (77.8)
- *Within expected performance range* on “Beating the Odds”

## ■ **Middle**

- CCRPI score of 71.1 was *lower* than district (72.8) and state (76.2)
- *Below expected performance range* on “Beating the Odds”

# CCRPI - 2018 ANCS Results

---

- Next slides show ANCS CCRPI data as compared to other schools in APS (comparisons provided by [APS Insights](#))
  - **CCRPI Score:** Total CCRPI score by year and three-year average
  - **CCRPI Score Percentile:** This year's scores are not directly comparable to the previous year's scores because the formula has changed. To better understand school CCRPI performance over time, the visual shows each the state percentile rank of each school's CCRPI score.
  - **CCRPI Results by Category Percentile:** Each category score is converted to a state percentile rank to better demonstrate relative strengths and weaknesses.
