III. Discussion Items/Updates

A. Facility project updates for each site

ECHS update:

- ECHS Prop 39 energy efficiency project: lighting, insulation, cool roof. Before these installations take place, a hazardous materials survey is required to be conducted and this is going to take place this weekend.
- ECHS furniture: there is a need for new desks for students. Not currently in compliance with testing policy. Not allowing for as much collaboration as we would like. Will bid out for new classroom furniture.
- Long term facility plan at ECHS: The ECHS campus has been dealing with a chronic lack of space.

- Conducted audit of ECHS special education program and space was determined to be insufficient.
- In addition to needing space, there are concerns for adequate ventilation and school security.
- Lack of parking and traffic buildup are challenges that would be addressed with the long-term facility plan.
- During the school day, every teacher shares classrooms. There is only one extra classroom that is often available throughout the day and this is not enough to meet student demands for elective classes and other student uses.
- Lack of field practice space and gymnasium space, which prevent teams from making the most of their athletic training.
- Final approval on DSA portables was received from Lawndale Elementary School District.

ECMS-G update:

- Property that Menlo 165th LLC owns. Prop K grant has been completed, there are additional play structures, gardens, and special green features.
- SB 740 appeal for ECMS-G. Farnaz took ECS' appeal to the CSFA board in Sacramento and successfully had the initial ruling overturned which resulted in about 75k in revenues being restored to ECMS-G's budget.
- Solar panels installed on ECMS-Gardena campus. All energy upgrades were completed.
- New Market Tax Credit loan matures in December 2020. ECS has the ability to refinance this loan as soon as January 2020.
- Community safety has been a challenge. Although cleanup efforts have helped and there is a reduction in crime, there are still challenges.

ECMS-I update:

- This site is leased to ECMS-I by Yukon LLC. In addition, there is existing space that is being leased to ECMS-I by Concordia Lutheran Church.
- Prop K energy projects have been completed: a cool roof and solar panels.
- There is a new greenhouse project underway and other projects being planned.
- Concordia Lutheran Church also has several projects that they are planning to undertake. Challenges are long term facility needs.
- Bathrooms are in a state of disrepair and need to be renovated. Additional space for small group testing.
- There is currently a grant request in process with Ahmanson and it is quite possible that this grant will be awarded

ECHS 2 update:

- Seeking to open up new high school. The ECS board has been updated on the search for a new site, also collected new data from students on their needs for this new high school. Location and what the school looks like matters a lot to the parents and students. Also, there is a challenge in identifying which charter authorizer will be used for the new high school.
- Possibilities on types of sites and selection of partners to coordinate were then shared. It was then recommended by Alison Diaz that Daniel Murrillo and Ryan Bushore be selected as partners with September 30, 2019 being the deadline for these partners to procure the ECHS site option.
- InSiteEFS and other partners would then be contracted if no site is identified and procured.
- Committee member Jenina Ramirez asked what the significance is of the first September 30, 2019 deadline. Farnaz Flechner responded that there is anti-charter legislation that is holding up the procurement of a site that LACOE owns and the ECS staff believes that it will be known by then what the outcome will be.

Action Item: Alison Diaz and Jenina Ramirez will flesh out a timeline of next steps for the procurement of a site.

B. Discuss refinancing plans for NMTC loan (Menlo 165th PI)/Yukon LLC loan, financing future facilities

Consultant Tracy Bondi presented the facilities financing options for renovating ECHS, securing the ECHS 2 site, and refinancing the 165th NMTC (ECMS-G) and the Yukon Loan (ECMS-I).

- Facilities financing options were presented: bonds/tax exempt loans, bank loans, CDFIS/donor funds.
- Bank loans: simpler, but shorter-term, therefore higher payments and interest rates.
- CDFIS/donor funds: community organizations that provide bonds and loans. However, these are usually geared toward entities with lower credit ratings that ECS.
- Bonds/tax-exempt loans:
 - Pros: spread out over long terms, such as over 30 years. This makes monthly payments more affordable and allow for greater flexibility for future underwriting. Also, can be guaranteed only with MCP. ECS can potentially borrow up to \$15M in additional funds through this bond financing.

- Cons: complex, expensive upfront costs, likely require renegotiation with landlords

- Bank loans:
 - Pros: less expensive up-front costs, may not require renegotiation with landlords, less complex
 - Cons: higher rates, shorter terms, may need to be guaranteed by ECS, more risk-averse

- CDFIS/donor funds:
 - Pros: A lot of handholding, more accessible to organizations with less credit history
 - Cons: higher rates, shorter terms, may need to be guaranteed by ECS, can be strict covenants

- Current staff plan is to 1) pursue long term lease between MCP and LESD for ECHS #1 site. 2) Wait to refinance until NMTC deal is in the window to avoid additional fees for refinancing + know more. 3) Consider municipal advisor when ECS has more clarity about the need for / option of a bond / tax-exempt loan.
- There is currently a lot of uncertainty for refinancing options. ECS will continue to keep the committee apprised.
