Budget 2023-2024

Dear IHSNO Community,

I am pleased to share with you the first draft of the proposed budget for the 2023-24 school year. This budget reflects our commitment to providing a high-quality education for our students through the International Baccalaureate (IB) programme, which prepares them for success in college and beyond.

The budget supports our overarching goals of:

- Keeping IHSNO actions and activities focused on educating students through the IB programme, which fosters critical thinking, intercultural understanding, and global citizenship.
- Improving student academic achievement by investing in professional development for our teachers, enhancing our curriculum and instruction, and providing academic support and enrichment opportunities for our students.
- Ensuring a safe and nurturing educational environment by maintaining our facilities and equipment, implementing health and safety protocols, and promoting a positive school culture and climate.
- Long-range planning for sustainability by aligning our resources with our strategic plan, seeking alternative sources of funding, and managing our expenses prudently.

The budget process involved input from various stakeholders, including staff, parents, students, board members, and community partners. I appreciate your feedback and suggestions throughout this process and believe that this budget reflects our shared vision and values for IHSNO.

I appreciate your support and collaboration in ensuring that IHSNO continues to provide an excellent education for our students. Thank you for your continued support of IHSNO and our students.

Sincerely,
Dr. Adierah Berger
CEO and Head of School.

Budget 2023-2024

Today NOLA, Tomorrow the World: International High School of New Orleans (IHSNO) is a Louisiana's open enrollment, open-access International Baccalaureate Programme school. IHSNO is the one of the only high schools to offer students the opportunity to participate in the International Baccalaureate Diploma Programme (IBDP).

The world-class program develops and sustains a worldwide community of students, educators, and schools with shared mission to offer the best possible international education combined with an emphasis on human values.

International Baccalaureate Diploma Programme (IBDP):

Through IBDP, students undertake an intensive and rewarding two-year course of study in their Junior and Senior years. Students complete prerequisites in grades 9 and 10 to prepare them to pursue an IB diploma in grades 11 and 12 that prepares for success in college and their career.

IBDP Qualifications:

1. Two-year full IB course schedule
2. Creativity, Activity, and Service extracurricular project
3. Theory of Knowledge course
4. The Extended Essay (4,000 word research paper)

Mission: To educate and nurture a diverse learning community through the international baccalaureate programme, world languages, and intercultural appreciation to succeed in the global economy.

Vision: International high school students are compassionate, productive, global citizens who positively impact the world.

Budget 2023-2024

The Process

To plan out the FY24 budget, we have engaged in a series of weekly meetings with the school leadership and other key stakeholders. This process has allowed us to take a deep dive into projected enrollment, staffing and vendor-by-vendor analysis. We have prioritized a conservative approach across all revenue and expense categories. We understand the significance of careful financial management, especially when dealing with major areas of expenditure like student enrollments, private revenues, and contracts of utmost importance. By adhering to this cautious mindset, we aim to ensure stability and financial sustainability for the school while effectively addressing the evolving needs and demands of our educational community.

Key Assumptions

Enrollment:

In sharp contrast to the pre-COVID years, where we held optimistic expectations of a significant surge in student enrollment, our approach for the upcoming year reflects a deliberate shift towards a more conservative outlook. As of now, our student count stands at 389, and for the upcoming FY24, we have chosen to adopt a cautious stance by assuming a modest student growth factor of 2.8%. Consequently, we anticipate a total of 400 students for the next academic year.

By taking this more measured approach, we aim to ensure that our projections align closely with realistic expectations, considering the current circumstances and any potential uncertainties. This prudent strategy allows us to maintain a balanced perspective while effectively managing resources, ensuring quality education, and providing adequate support for our students' evolving needs.

Staffing:

In order to effectively accommodate the anticipated increase in student enrollment, our focus will be on maintaining a staffing model that closely aligns with the successful framework implemented during the current year. To bolster our capabilities, we have made the strategic decision to introduce several new positions, including Quest for Success and Computer Science roles, alongside other vital positions such as remediation specialists and in-house substitutes.

Moreover, it is important to note that salary projections reflect our commitment to recognizing the value and dedication of our staff. Salaries are expected to increase in accordance with the school's comprehensive salary schedule, which takes into account various essential factors, such as the department within the school, specific positions, level of education, and years of professional experience.

By thoughtfully considering these factors, we aim to provide fair and competitive compensation that appropriately rewards the expertise and contributions of our talented educators. This comprehensive approach not only ensures that our students receive exceptional support but also fosters a nurturing environment that promotes professional growth and development within our educational community.

Expenses:

Expenses directly linked to students such as purchased educational services, transportation, meal services, will be impacted by the student growth factor. Furthermore, current staff members will receive a pay raise

Budget 2023-2024

based on the school's salary schedule. Other related expenses such as human resources, recruitment services, background checks, staff material, supplies, and technologies, will increase based on the staff growth and inflation factor.

Furthermore, we have factored in a 5% inflationary increase across all major expense categories. This projection is based on economic insights and deliberations from the Federal Open Market Committee (FOMC) meeting. Our aim is to carefully navigate the anticipated inflationary landscape while maintaining financial stability and sustainability. We project that inflation will gradually return to a target level of approximately 2% within a three-year timeframe.

Budget 2023-2024

SY24 BUDGETED REVENUE %

Revenue Overview

We have budgeted \$6,974,975 in revenue based upon 400 students. The largest components of revenue are \$4.8m (69.3%) in State and Local Revenue and \$1.9m (27.4%) in Federal Revenue.

Local Sources of Revenue:

IHSNO currently maintains its banking relationship with Hancock Whitney, ensuring efficient financial operations. We anticipate interest revenue of approximately \$640, contributing to our overall financial position.

When it comes to student fees, we have established the following structure: seniors pay \$300, juniors pay \$100, sophomores pay \$100, and freshmen pay \$100. Based on our estimations, we anticipate collecting approximately 95% of the senior fees and approximately 70% of fees from students in all other grades.

Our Other Activity Income encompasses a diverse range of student-related payments, including those for field trips, fundraisers, yearbooks, sports participation fees, PTO dues, and other miscellaneous items. To estimate this income, we refer to the amounts recorded during the 2022-2023 academic year and project it based on the expected student count, making adjustments considering the student growth factor.

Contributions and Donations play a vital role in supporting our institution's mission, and we anticipate a total of \$94,000 in such contributions. This includes donations from the board, private grants, and other funds raised by the Director of Development.

Budget 2023-2024

The Local Minimum Foundation Program (MFP) is a significant component of our funding. For the upcoming year, we estimate that our MFP allocation will amount to \$2,780,744, based on the March 2023 MFP figures.

Revenue from Federal Sources:

Title and IDEA Funds are estimated to be increased slightly, based on the grant allocations in EGMS for the FY year 2023 - 2024. However, it's important to note that certain COVID-related grants, such as ESSER 2 and ESSER 3, will begin to phase out starting next fiscal year. As a result, we do not anticipate receiving additional ESSER 2 funds in the upcoming year.

Additionally, we are currently in the fourth year of a five-year School Climate Transformation Grant, which continues to provide valuable resources and support for our institution.

In terms of Food Service revenue, we estimate an amount of \$255,254. This projection is based on fiscal year 2023-2024 projections, taking into account the student growth and inflation factor. By considering these factors, we aim to ensure that our Food Service program continues to provide quality meals while effectively managing costs.

Revenue from State Sources:

Revenue from the state primarily consists of the state portion of the Minimum Foundation Program (MFP), projected at \$3,978 per student for the 2023-2024 school year. Additionally, other state revenue sources contribute to funding for economically disadvantaged students, special education, and gifted and talented programs. These allocations support specific segments of our student population. The total MFP revenue from the state is estimated to amount to \$1,900,000, considering a student count of 400.

Budget 2023-2024

SY24 BUDGETED EXPENSE %

Expense Overview

We have budgeted **\$6,973,144** in expenses based on 53 staff, a 7.5 student to teacher ratio. The largest components of expense are \$3,120,015 (44.7%) in Salaries and \$1,136,415 (16.3%) in Other Purchased Services.

Account 100 Salaries

Salaries for our dedicated staff members are projected to increase in alignment with the school's comprehensive salary schedule. This schedule takes into account various factors that contribute to fair and equitable compensation, including the specific school department, positions held, level of education attained, and years of experience accumulated.

Account 200 Benefits

Employee benefits are projected to experience an overall increase of 6.34% in the upcoming year. Specifically, health insurance expenses are estimated to undergo a 10% increase, taking into account the rising costs and evolving healthcare landscape. Additionally, other benefits, including but not limited to retirement plans, social security, Medicare, and workers compensation, will be adjusted based on the staff growth factor and inflation factor.

Account 300 Professional Services

Other professional services encompass vendors who offer contract services to the school. In order to ensure that these services align with our previous year's expenses and effectively support the needs of our

Budget 2023-2024

students and staff, we have conducted a thorough review of our prior year's expenses, analyzing each line item meticulously. As a result, we have adjusted this year's expenses based on contractual agreements or inflation factors to maintain a consistent and reliable level of service provision.

Account 400 Purchased Property Services

In comparison to the previous school year (2022-2023), our budget for repair and maintenance costs in the upcoming school year (2023-2024) reflects a significant increase. This increase is primarily attributed to the school's planned relocation, which presents an opportunity for us to thoroughly assess and address any necessary repairs and anticipate ongoing maintenance needs.

Recognizing the importance of providing a safe and conducive learning environment for our students, we have taken a proactive approach in considering all possible repairs and maintenance requirements associated with the relocation. By carefully planning and budgeting for these anticipated expenses, we aim to ensure that the new school location is fully prepared to meet the needs of our students, faculty, and staff.

Account 500 Other Purchased Services

Tuition to other LEAs encompasses payments made to other career development institutions and various OPSB-related fees. This allocation reflects our commitment to providing diverse educational opportunities and accessing specialized services for our students.

For student transportation, we have estimated the cost of \$350 per bus per day for a total of five school buses, along with one special education van, to cover 170 days of instruction. In addition, we have budgeted \$52.50 per month for bus passes for 45 students who are not using the school bus. The total transportation cost also includes \$10,450 allocated for extracurricular activities, sports, and field trips.

Under Miscellaneous Purchased Services, we have accounted for the purchase of online curriculum platforms such as Edgenuity, Mastery Prep, Edmentum, as well as services provided by The Policy Research Group. This category encompasses the expenses associated with online software, including Board on Track, as well as costs related to background checks and testing fees.

Account 600 Supplies

The Technology Supplies expenses primarily encompass computers, printers, and other technological equipment necessary for the school's operations. For the upcoming school year (2023-2024), we anticipate a projected decrease in this category as there are no plans for significant technology purchases or upgrades.

Textbooks/Workbooks expenses are projected to amount to \$50,000, which includes the provision of summer supplies. This allocation allows us to ensure that our students have access to essential learning materials throughout the academic year.

In terms of electricity, we have estimated the costs to remain consistent with the previous school year (2022-2023). By closely monitoring energy usage and implementing energy-efficient practices, we strive to maintain a sustainable approach to managing our electricity expenses.

Budget 2023-2024

Materials and Supplies are budgeted at \$160,000, with each department having its own allocated budget for necessary supplies. This approach ensures that every department within the school has the resources needed to facilitate effective teaching and learning.

Account 800 Other Objects

The Dues and Fees expense category encompasses fees such as the International Baccalaureate (IB) fee, Greater New Orleans Collaborative of Charter Schools (GNOCCS) dues, and Louisiana Association of Public Charter Schools (LAPCS) dues. For the school year 2023-2024, we anticipate these expenses to be higher compared to the previous year (2022-2023). This increase reflects our commitment to maintaining active memberships and affiliations with these organizations, which provide valuable resources and support to our school community.

Insurance per Child is the property insurance coverage specifically for the school building. This insurance is directly acquired from NOLA Public School facilities. By ensuring adequate coverage, we prioritize the safety and protection of our school property.

Miscellaneous non-public expenses are estimated to remain consistent for the school year 2023-2024. This expense category includes all meals not associated with travel and all entertainment costs. It encompasses various expenditures such as student celebrations, field trips, and extracurricular activities. It's important to note that this account is funded solely through fundraised and donated funds, as well as student payments.
