Overview of the two month

closed our first quarter

Few challenges with transportation

bringing everyone in with our cultural initiatives and our Houses program

working- on a need for a change in our academics- retrain our staff on daily objectives and get data to make plans for our students to have better academics plan.

Academics

diagnostic- testing on performance matters in December to have all the data in place.

The need for Data- this will help us get a better understanding of reaching the goals we set for our lesson plans. We use the exit tickets, to reteach the students that need more assistance.

synchronize day to make necessary changes to our academic plan.

The purpose of this synchronized day is to see what plan we need and learn how to implement it.

What we see when we check lesson plans, or when we visit the classroom.

more proficient in the lesson plan, long-term changes, and analysis of the student's performance.

Communication clearly with our students and proficiently tells me you understand what we are teaching.

How are you showing it to the students?

Set goals and understand how to get there to better understand where your students are to better prepared for your next class.

Build the teacher's efficiency

Results in the data

Assignment in b/w to catch where you need to be better prepared

Use this small assessment analysis to prepare

Hope, is to catch a student that needs more assistance

Karen: What point can you tell - failure in the process, if the student is not performing to the best of their ability or whether is a teacher that needs resources and coaching to better their techniques?

Our job is to make sure the students/teachers get whatever support they need and have continued discussions to implement our plan effectively.

How long is the process? We need 6/8 weeks of data in order to put a student in Tier to receive and a plan in place.

This intervention required a lot of teachers training and good teaching.

Teacher of the quarter: for our teachers

10th- This cohort remains our largest cohort in history. We are retaining the majority of students in this cohort and they continue to meet high expectations.

11th- The majority of the 11th grade cohort is made up of students that began at IHSNO in 9th grade. The other part of this cohort are students that arrived to the country with foreign transcripts that made them eligible for 11th grade placement. One other student will be promoted from 9th to 11th based on her foreign transcript.

12th- The 12th grade cohort remains around 10 students. Our most recent priority with these students is LEAP remediation so that we can reach our goal of 100% graduation.
