B. Approve the resolution authorizing an intraorganizational loan from Scholarship Prep - Orange County to Scholarship Prep - Riverside County

C. Friedrichs made a motion to approve.

P. Watson seconded the motion.

Jason Sitomer from Charter Impact provided an overview of state funding for new schools. He explained that the state pays on a lag, with no first apportionment until October (PENSEC advance apportionment), followed by another in December. Existing schools receive their first 7 months of funding based on prior-year attendance, but new schools do not have prior-year data, resulting in uneven funding.

To address this gap for Riverside, a loan is being proposed from Orange County, which has available cash reserves.

The loan would be structured with a fair return rate for Orange County and a favorable interest rate for Riverside. Board president, Charles Friedrichs, asked about how we have been able to pay loans back a lot faster than three or four years. Jason noted that if Riverside grows enrollment from 200 students this year to 300 next year and 400 the following year, funding for the first 7 months of each year will always be based on the prior year's lower attendance, creating temporary underfunding. This underfunding may last until enrollment reaches a sustainable scale (target of 500 students). Depending on how quickly you get up to scale, it may take several years before the school's in a place to be able to pay this back.

The board **VOTED** unanimously to approve the motion.
