## II. Executive Director Updates

### A. MAP Data up to this point

Fall MAP 2018 - Preliminary Results - Dr. Mason, Mrs. Satterfield, Ms. Johnson and Dr. Pullen.

MAP is a good predictor of Milestones results - we saw that in the previous school year. Used to work with teachers on skills that our students needs - allows us to look at strengths and weaknesses.

Projected Students Meeting Growth from Fall 17- Fall 18 (percentage)

Third grade is an area of focus. Would like to see where these children were in the previous two years. Also, because third grade is such a transition for students, can the dip be associated with the transition in any way?

MAP completed at the beginning of the year, January, and end of the year. Not uncommon to see lower scores in the beginning of the year, as there's been a learning gap over the summer. The key with MAP is to allow us to know where our areas of concerns are and where to put our focus.

School Improvement plan to communicate with the board will be presented at the next board meeting.

S. Burnes arrived.

## **B. School Climate Score Update**

Tomiko Thompson:

Based off of a 5-star rating system.

Surveys - the perception of our students, parents, and teachers.

Student Discipline - looking at types and the number of incidences that are reported

Safe and Substance Free Learning Environment - based on student perception

Attendance - the number of students that have 6 or more unexcused absences. Also includes attendance of our teachers and administrators.

We fall under the Elementary School ranking system as a K-8 with no stand alone middle school.

Historical:

2014 - 99.1 - Five Star (we submitted 7 out of 14 components)

2015 - 77.3 - 1 Star (we only submitted data for 10 of the 14 components)

2016 - 86.8 - 2 Star - This was the first year we submitted all requested components

2017 - 85.5 - 2 Star
