### **III. Public Comments**

Training hours must be completed by June 30th.

#### **B. Dashboard Highlights**

Please make sure all board members give by June 30th.

ED Evaluation - retention is high so far for this year; anticipating some departures next month.

#### **C. Unified Lottery Information Session**

Information session hosted by APS.

Matt Underwood from APS:

Some slight changes since the informational session a few weeks ago.

APS has continued to get feedback from the working group of school leaders and administrators they've been working with the last 7 or 8 months.

APS plans to proceed forward with a school finder tool. This would have information on all APS charter schools in one place (will also include all district schools). Will serve as an additional marketing tool for WIA. Anticipated to be built over the summer into the beginning of the school year with a launch in early fall.

Wants to collaborate with student assignment office to have the application management system and administrative transfers within the district be provided by the same vendor and housed in one system.

Lottery - anticipating waiting a year on the unified lottery pilot. Hoping for this year is to get charter schools to be part of a common application process for the next enrollment cycle with each lottery being managed by the individual charter schools. Data would be collected by APS through their system and then fed back to the schools to actually manage their lotteries.

Currently evaluating proposals for application management systems next week. Goal is to have a selection by the end of this month. Seeking commitment from schools by August/September for those that wish to be a part of the common application process for SY20-21.

Put on July agenda to discuss in more detail with the new board members.

## **V. Academic Excellence**

### **A. Committee Report**

Discussed benchmarks - The tests are not on continuous information. When you see a dip, that is new information - not the same information as tested before.

Frequency of testing

3 MAPPS

4 Write Score

6 Benchmarks

Discussed going down to

4 Benchmarks

4 Write Score

3 MAPPS

This would help alleviate some of the testing fatigue that students may be experiencing and at the same time would limit the data teachers have. At the same time, this would increase the instructional time provided to the students.
