III. Executive Director Updates

A. General Update

A. Hunter arrived.

B. Apply APS Charter Agreement 2020

Wesley operated its own independent lottery since its inception.

Last year WIA along with several of the other charters here in Atlanta became part of the 83 APS charter program that allows to take a more direct approach into engaging students. The lottery application is a lot smoother now.

The lottery is an event that occurs in March but in addition to the lottery we do have just a typical enrollment that takes place throughout the year and so being a part of this pilot has really helped us be more efficient but it also increased collaborative efforts between Wesley and other participating charter schools.

We've had a lot of positive feedback from others and through our participation also we have access to a lot more data than we had before. The process was pretty labor intensive and now with the special platform that we're using we have access to a lot more data for our school which is the click of a button so it really was very good prospects for us this year we're looking forward to using it again this year.

Board Comments:

Recommend that the information is available to the board ahead of time to allow for a thoughtful recommendation about the weighted lottery.

C. Reopening Options

A. Hunter arrived.

The administration got a chance to talk to the staff and teachers about students coming back into the building overtime, including the parent survey that went out recently. We received **480** responses to the survey from the parents.

We continue to be proud of our teaching staff. That said we have a unique task in front of us in terms of putting a plan together, passing through options for bringing our wonderful students back to school. There are no good answers for something like this. There isn't a fail safe option and there isn't a perfect plan.

What we are presenting tonight is a proposed options for bringing our your people back to school. We read the APS plan, and talked to other charter schools about their plan. We've heard about the goings on at other schools in and around the Metro area and school districts and we tried to wait as long as we could to bring something to the community because we wanted to make sure that we were able to take into account all of the successes and all of the struggles that are going on around us. I'm sure that as we enter 211 Memorial Drive, we will struggle through some of those things, and hopefully the pain wont be as great because we learn from those lessons.

We know that virtual learning is most difficult on our younger students that does not mean it's not challenging in middle school but for the younger student typically the more difficult virtual learning can be to try to focus to ensure that all students have equitable learning and that their needs are met.

We've also focused on the staff comfortability and safety. It is paramount that our staff members feel comfortable and safe as part of our reentry plan.

We are offering parent choice in our proposed instructional models. Parents who wish to stay in a virtual learning environment will have the opportunity to do so. However, please note that teacher assignments may change based on staff availability.

All Wesley families will be asked to submit a declaration of intent to return. Survey is scheduled to go out **October 12**
