Inquiry: where should our Board stand in acknowledging the science, especially as an educational institution?

- Governance discussion was not focused on science aspect. It focused more on the spirit of the law being open and ready access to public meetings and reality that meeting attendance and participation has increased during virtual meeting. Return to offering virtual education model for students diminishes some of the concern previously expressed about asking students to meet in-person while Board meets virtually.
- Will likely have on-going discussions on this topic.

G. Burnett seconded the motion.

The board **VOTED** unanimously to approve the motion.
