A. Year Closing

It seems like we ended the year with about **\$290K** of *deficit*, which is about **\$130K** *lesser* than what we had projected (projected *deficit*: **\$424K**).

The final amount may change mainly due to the following reasons:

- DOE Year-end recon: we adjusted the revenue based on the year-end recon (pending approval).
- Retirement Match: We estimated about \$40K match for FY 2024-25. Last year it was about \$38K. I believe the amount is finalized by September 2025. We will update the amount once we know more details.

Ended the year with 102 days of cash on hand

- SACS met all benchmarks in regards to risk or potential liabilities
- More than \$1.7 million in the interest-bearing account
- We will owe \$23,000 for DOE reconciliation for the previous school year
- Received \$24,000 for Summer Boost Program
 - Will be recognized once all expenditures are entered

Cash Flow Projections

- 2 deposits from DOE in July and August were received
 - Invoices updated in September when school opens fully
