## **IV. Communications**

### **A. Communications - Comments from the CEO**

CEO comments

Expresses sincere gratitude for the dedication and hard work of everyone. As we move forward with two separate authorizers, continuing to foster open communication and collaboration will be paramount. We recognize the complexity of the regulatory landscape and understand the importance of consistent and transparent communication with our authorizers as we each interpret and effectively implement policies and procedures that align with each authorizer's expectations.

### **B. Communications - Comments from the Board of Directors**

S. Bhojani - Thank you everyone! We are now in the second semester. It was a pleasure to witness the student celebrations tonight. I especially appreciate the community's outpouring of support for those impacted by the fires. Looking forward to the mid-year focus review.

M. Jones - Thank you to the students who shared their Mission projects tonight. I'm excited for the upcoming 100 Days of School celebration. I attended the Chino PACK meeting last week. Several parents expressed interest in virtual PACK meetings. Would like to look into online platforms to support this. The recent fires have been a difficult time for our community. My thoughts are with those affected. We are committed to supporting our students and families during this challenging period. Martin Luther King Jr. Day is approaching soon, a favorite. The added bonus of a day off is certainly welcome.

T. Stevens - Our thoughts and prayers are with all those impacted by the recent fires. We extend our deepest sympathies to those who have suffered losses, not only of property but also the profound impact on their lives. Thank you to the students who shared their Mission projects tonight. I appreciate everyone's dedication to transparency and their hard work in seeking answers and finding solutions. I'd like to address technological initiatives: recording all school meetings, including Coffee with Community, Board Meetings, and PACK meetings, and posting them on our website. This will enhance

information sharing and encourage greater community participation. We also need to prioritize enhanced technology support. I believe we can leverage the existing technology we've already invested in to effectively showcase student successes and the incredible work happening at ASA. We should explore ways to utilize this equipment or find creative solutions to achieve this goal.
