II. Facility

A. Playground Costs and Planning

Got two quotes so far

- Need \$1,000 to install the existing equipment
- From vendors, labor can be expected between 25-40% of equipment cost on top
- Matt wants to get to about \$15,000 in fund raising to support equipment

- Clay asked if it's possible to provide recreational equipment within budget that doesn't require installation
- Cabbell suggested contacting the insurance company to assess liability against building our own equipment
- Cabbell pointed out that two of the local charters schools are replacing their playgrounds and that may result in surplus equipment
- John supported a hard look at the building internally if liability doesn't out way
- Matt to work with Amy to fit equipment installation into existing budget and come back to committee if unable to fit

B. Gymnasium Meeting with Builder

- Matt presented some concerns found during the meeting and some pictures/ideas that could be worked with
- Clay suggested a work session in February to develop an overall plan
- Matt is just still waiting on steel costs in order to give fund raising the budgetary numbers

III. Other Business

A. Traffic Study

- Matt presented a study conducted by SC DOT to adjust the traffic pattern for LMS drop-off/pick and indicated that DOT was looking for input from LMS
 - The committee doesn't see any potential issues for the school with the proposals but the proposals don't match property lines and the committee doesn't see any benefit

B. 1 Year Walk-Through with Updates

Tabled.
