II. Finance

A. Financial Reports

Everything is looking good. We are at 92% of total budget. Most of the expenditure categories are trending low. Certificated salaries are trending higher than classified salaries. I misclassified one employee for the year so the correction moves her from classified to certificated. I will move the remaining amount for her before the end of the year. This will cause us to be over budget in certificated salaries but also under budget in classified salaries. It does not affect our overall performance.
