Tested Fall 2024-2025

Causes & Solutions

Causes

- Campus Testing Coordinators created effective testing plans.
- Testing environment for MAP and EOC testing
- Clearly defined roles and duties
- Additional support from Admin and NDL teams
- Communication about testing dates

- Shortage of carts, Chromebooks, and chargers on testing day.
- Poorly planned systems to distribute Chromebooks
- Data reporting inaccurately
- 6th and 7th math long-term subs
- Not all teachers were teaching using the curriculum with fidelity
- Students did not have access to course materials
- Inconsistent quality of instructions

Solutions

Tech

- Confirm with IT the number of carts and Chromebooks in the building by 12.06.2024
- Confirm with CTC all classes have carts, class sets of Chromebooks, and working chargers by 12.06.2024
- Ensure CTCs have IT tickets submitted for Chromebooks and chargers that need repair by 12.06.2024

Data reporting

- Run operational report for missing attributes by 12.06.2024 and report to SIS coordinator
- Verify rosters in NWEA match PS rosters by 12.06.2024

Achievement

- Share and review data with all staff by 09.20.2027
- Identify CSI student and implement monitoring system by 10.07.2024
- Ensure School Leaders have a re-teach and remediation plan by 10.07.2024
- Implement Data monitoring system by 10.27.2024

Breakdown of Observation Patterns (Coaching Report)

By Observee:

- Imani Combs and Carlos Weeden were observed the most frequently, each with 3 observations.
- Allyson Anthony and **Amy Gangloff were observed twice.
- Others such as Donte Hopkins, Kathy Franjic, Kayla Reed**, Nick Guadiana, and Jason Kennedy had 1 observation each.

By Observer:

- Allyson Anthony conducted the majority of observations, accounting for 10 of them.
- Other observers like Tamara Jackson, Jonathan Tyrrell, Peter Schroeder, and Sherman Logan conducted far fewer (ranging from 1 to 2 observations each).

Score Distribution:

- The most common score is 1, which appeared 4 times, suggesting room for improvement.
- There are also 3 cases where no score was recorded (represented by "-").
- Other scores such as 1.5, 1.33, 1.75**, and 2 occurred with less frequency, indicating varying evaluation outcomes.

Insights:

- Imani Combs and Carlos Weeden appear to be the primary focus for observations so far, with multiple reviews.
- Allyson Anthony is playing a key role as the main observer, which suggests her perspective is driving much of the evaluation data.
- The higher frequency of 1 scores indicates that a significant number of individuals are underperforming based on the criteria used

Developing my Knowledge set

(what did I not know enough of?)

- Clarity on ADA matrix

Ask for clarity on the ADA matrix,
Include ADA Matrix Tracker in
Check-In docs with leaders.
Assigned students should be on
their priority student list.

- How are we to track Proficiency if
we are prioritizing GBF?

Developing my Skill Set

(what did I not have enough skill for?)

- Ensuring my calendar aligns to my
cyclical priorities and overall driver
goals. If cyclical goals do not seem to
align on the onset - speak up; advocate
for review.

Developing my Mind Set

(What did I not have the right mind
about?)

-If other systems are not working; it is
not fair to give teachers feedback early
on

Developing my Action Set

(What did I just not do?)

- Input my feedback in GROW early on

- Create systems to track MLS mastery
in EOC classes

- Document parent contacts on ADA
matrix
Collab with Jasmine / KB to be flagged
when students have reached 12
absences

- Closely monitor Leaders activity on
GROW on time
