- Recommend updating document and call special meeting

The motion did not carry.

J. Nickerson made a motion to Motion to approve the updated Complaint Policy.

The Board discussed revisions to the school's complaint and grievance processes to improve clarity, alignment, and proportional response. Key points raised included:

- **Definition clarity:** Update the definition of "complaint" to remove the inclusion of "grievance," and ensure that complaints and grievances are clearly distinguished.
- **Process structure:** Consider reverting to the prior version of the complaint process to provide greater granularity and clarity around procedural steps.
- **School-level handling:** Assess whether a complaint committee should be established at the school level, as needed, before escalation to the Board.
- **Mediation language:** Remove references to mediation as a required or default step.
- **Policy placement:** Discussed whether the complaint process should be included in the school handbook rather than maintained as a standalone Board policy.
- **Grievance definition:** Ensure that "grievance" is clearly defined within the handbook and aligned with appropriate escalation thresholds.
- **Proportional response:** Noted the need for an off-ramp between later procedural steps to allow for resolution before initiating more serious or formal action.
- **External escalation:** Observed that language referencing the Commissioner of Education appears more applicable to grievances than complaints and should be reviewed accordingly.
- **Recusal:** Add an explicit option for recusal where conflicts of interest may exist.
- **Glossary:** Develop a glossary of terms to support consistent understanding and application of the process.

The motion did not carry.

J. Nickerson made a motion to Motion to approve the Public Access to Records Policy.

The Board reviewed the Public Access to Records policy and discussed updates to improve clarity, feasibility, and alignment with related policies. Key points raised included:

- **Policy alignment:** Noted the need to ensure alignment between the Public Access to Records policy and the CORI policy.
- **Denial language:** Suggested adding explicit language clarifying that records requests may be denied when permitted under applicable law.
- **Response timeline:** Discussed revising the response period to **10 days** to align with legal requirements and operational feasibility.
- **Public information:** Identified the need to update contact information for records requests on the school website (assigned to the Executive Director).
- **Search standards:** Raised the need to define what constitutes a “reasonable search” for records to ensure consistency and manage expectations.

The Board agreed that these items require further refinement and that proposed updates will be brought back for review.

The motion did not carry.

J. Nickerson made a motion to Motion to approve the Whistleblower Policy.

The Board reviewed the Whistleblower policy and discussed revisions to ensure clarity, appropriate scope, and effective handling of reports. Key points raised included:

- **Process clarity:** Confirm the policy clearly outlines how whistleblower reports are received, triaged, and addressed.
- **HR involvement:** Noted the need to clarify when and how Human Resources is involved in whistleblower matters.
- **Acknowledgment timing:** Suggested that initial acknowledgment of a whistleblower report should occur more quickly than the current 10-day timeframe.
- **Scope alignment:** Reviewed the scope of the policy, including references to “caregivers,” and emphasized the need for consistent terminology across all related policies.
- **Policy placement:** Discussed aligning the Whistleblower process with the school handbook rather than maintaining it solely as a standalone policy, consistent with pre-COVID practice.
- **Trend data:** Raised concern that references to trend analysis may not be appropriate given the size of the school and suggested removing this language.
- **Complaint committee:** Discussed clarifying whether and when a complaint committee is involved in whistleblower matters.
- **Definitions:** Identified the need to clearly define and distinguish **complaint**, **grievance**, and **whistleblower** within the policy framework.
- **Decision framework:** Recommended developing a decision tree to clarify how complaints, grievances, and whistleblower reports are routed and addressed.
- **Third-party review:** Suggested that substantiated whistleblower reports may require initial review or adjudication by an independent third party.
- **Anonymity:** Confirmed the importance of allowing whistleblower reports to be submitted anonymously.

- **Misrouted reports:** Emphasized that if a concern is submitted through the incorrect process, it should be redirected to the appropriate pathway rather than dismissed.

The Board agreed that revisions are needed and that proposed updates will be brought back for further review.

The motion did not carry.
