Key Considerations for PD

Adjustments for Plans A,B,C,D

- Build teacher capacity in the area of student engagement within the backdrop of reinventing school and a focus on students interacting with their content/peers.
- Plan out “Practice Perfect” professional development for teacher and students regarding social distancing in key areas.
- Addressing (in our curriculum guides/PLC work) “COVID Gaps” and subsequent curriculum compacting.
- Building capacity in the area of trauma informed care/teaching and helping our teachers lead students through issues of race equity and social justice.
