INTERNATIONAL LEADERSHIP OF TEXAS (ILTEXAS) (057848)

Status		Indicator Num	Indicator Description	Score
Р	†1	1	Was the complete annual financial report (AFR) and charter school financial data submitted to TEA within 30 days of the November 27 or January 28 deadline depending on the charter school's fiscal year end date of June 30 or August 31, respectively?	YES
Р	†1	2	Was there an unmodified opinion in the AFR on the financial statements as a whole? (The American Institute of Certified Public Accountants (AICPA) defines unmodified opinion. The external independent auditor determines if there was an unmodified opinion.)	YES
Р	†1	3	Was the charter school in compliance with the payment terms of all debt agreements at fiscal year end? (If the charter school was in default in a prior fiscal year, an exemption applies in following years if the charter school is current on its forbearance or payment plan with the lender and the payments are made on schedule for the fiscal year being rated. Also exempted are technical defaults that are not related to monetary defaults. A technical default is a failure to uphold the terms of a debt covenant, contract, or master promissory note even though payments to the lender, trust, or sinking fund are current. A debt agreement is a legal agreement between a debtor (person, company, etc. that owes money) and their creditors, which includes a plan for paying back the debt.)	YES
Р	†1 †2	4	Did the charter school make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	YES, Ceiling Not Activated
Р	†1 †2	5	Was the total net asset balance in the Statement of Financial Position for the charter school greater than zero? (If the charter school's change of students in membership over 5 years was 7 percent or more, then the charter school passes this indicator.) (New charter schools that have a negative net asset balance will pass this indicator if they have an average of 7 percent growth in students year over year until it completes its fifth year of operations. After the fifth year of operations, the calculation changes to the 7 percent increase in 5 years.)	YES, Ceiling Not Activated

12 6 Was the average change in total net assets over 3 years less than a 25 percent decrease or did the current year total net asset balance exceed 75 days of operational expenditures (Itotal expenditures) less depreciation) /3651*75 days? 7 Was the number of days of cash on hand and current investments for the charter school sufficient to cover operating expenses? The calculation will use expenses, excluding depreciation. 8 Was the measure of current assets to current liabilities ratio for the charter school sufficient to cover short-term debt? 9 Did the charter school's revenues equal or exceed expenses, excluding depreciation? If not, was the charter school's number of days of cash on hand greater than or equal to 40 days? The calculation will use expenses, excluding depreciation? If not, was the charter school's number of days of cash on hand greater than or equal to 40 days? The calculation will use expenses, excluding depreciation. 10 Did the charter school average less than a 10 percent variance (90%-110%) when comparing budgeted revenues to actual revenues for the last 3 fiscal years? 11 Was the ratio of long-term liabilities to total assets for the charter school's change of students in membership over 5 years was 7 percent or more, then the charter school sufficient to support long-term solvency? (If the charter school's change of students in membership over 5 years was 7 percent or more, then the charter school passes this indicator; I(New charter schools that have a negative net asset balance will pass this indicator; If they have an average of 7 percent growth in students year over year until it completes its fifth year of operations. After the fifth year of operations, the calculation changes to the 7 percent increase in 5 years.) 12 Was the debt service coverage ratio sufficient to meet the required debt service? 10 13 Did the charter school have a debt-to-capitalization percentage that was reasonable for the charter school in duromatically yass this indicator.
