D. ballot question 2

Todd Sumner discussed what activities each Trustee of the Board could engage in related to the November ballot question #2, which would authorize the approval of up to 12 new charter schools or enrollment expansions in existing charter schools by the state Board of Elementary and Secondary Education per year. He recommended that the BOT not take an overall position on this ballot question.

Board of Trustees as a body may take a position, are allowed to publicize that position through normal channels however may not create new vehicles to publicize. Individual trustees may take a position however may not use any school resources to communicate that position and are allowed to fundraise as long as they do not use public resources to do so.
