III. Academic Update

A. Academic Update

Deb Merriam delivered the annual academic update as required by DESE.

Deb presented MCAS performance using disaggregated 2022 data for all students and reportable subgroups: high needs, low income, and students with disabilities. Deb said comparatively, Parker 7th and 8th grade students are doing better than the overall State numbers in both ELA and math.

Deb said MCAS is slowly raising the standards for passing. Deb presented MCAS data for Parker 10th grade students. Deb showed that in 2022 there were slightly more students not meeting standards - due partially to increase in the rise in standards and partially due to Covid learning loss. Deb said there is no cause for worry that students will not be diploma eligible, some students may need to retake the test to meet standards.

Steph Reinhorn commented that the Parker approach of going deep on some subjects can feel like a disadvantage when approaching the MCAS science exam but that Parker students are well prepared in other ways.

Deb said MCAS is one data point used to assess student performance and Parker's assessment system is another. Deb reviewed Parker's assessment tools.

A. Strategic Plan update

Brian Harrigan said the Strategic Plan RFP was issued on April 18th. Brian said it was sent to 40 organizations and there have been conversations and expressed interest by potential vendors. Mara Edgar said Parker is a fascinating, complex problem to some of these firms because it is not a run-of-the-mill educational institution. Mara said Parker would be an interesting case study for the right thought partner, .

Glenn asked the Board if the current Strategic Plan timeline and the plan for evaluating vendors was agreeable to Board members.

Board members discussed the proposed timeline and what can be learned through the process of exploring options.

Mara said there is inherent value in Board members seeing final vendor presentations and being part of vendor selection.
