II. Project Hoot Status

A. Project Hoot Overview

Lillian provided an overall update of the purchase of the new campus and where GLOBE stands time-wise regarding permitting, timeline, needs assessment, and traffic study. We do not know how long the construction will take as we are still working to get the General Contractor.

B. Listening Sessions

David reported that CEE (ED) led the discussion with the teachers and how the teachers collaborated to prioritize the children's needs. Use of space was a major priority to ensure the spaces had the tools that are most needed.

Next steps - look again at the list to ensure that the needs are being considered for the new facility

PTCC - outdoor spaces that are presently used for elementary kids can be used for the middle school aged students

We can start to plan to have some planning sessions for the future regarding upper campus.

III. Transportation Updates

A. Discuss Transportation Updates

Currently not getting responses from DCSD.

There are some opportunities with contracting and owning buses. There is a possibility that there is a severe time delay to own buses. This is being researched.

Outstanding question: Who would most likely utilize the buses?

There could be a huge demand for shuttles and perhaps a sports shuttle.

IV. Team Tasks

A. Monday.com Overview

B. Subcommittee Signup

Survey - Kofi

Satellite Hub - Kofi, Jabari,

Upper Campus Facility Plan - Lois

V. Ridership Survey

A. Ridership Exercise

Reviewed the initial questions for the ridership survey. Very spirited conversation around the many options.

Outstanding questions:

- Would we want to consider van pools for families?
- Middle school and elementary school families

There being no further business to be transacted, and upon motion duly made, seconded and approved, the meeting was adjourned at 8:00 PM.
