RE:	ASES Grant Application for MSA-2,4, 6, and Santa Ana

Proposed Board Recommendation

I move that the Board of Directors authorize the CFO or a designee to submit the application to apply for the After School Education and Safety (ASES) grant program for Magnolia Science Academy 2, 4, 6 and Santa Ana.

Background

This additional funding will allow Magnolia Science Academy 2, 4, 6 and Santa Ana to improve assistance to students and broaden the base of support for education in a safe, constructive environment through a high-quality after school program that will operate every school day between 3:00 pm to 6:00 pm

The ASES program provides an opportunity to merge school reform strategies with community resources. The goal is to support local efforts to improve assistance to students and broaden the base of support for education in a safe, constructive environment. It is the intent of ASES program legislation to encourage schools and school districts to provide safe and educationally enriching alternatives for children and youth during non-school hours. The program creates incentives for establishing locally driven before and after school education and enrichment programs.

The ASES program involves collaboration among parents, youth, representatives from schools and governmental agencies, such as local law enforcement and local parks and recreation departments, and individuals from community-based organizations and the private sector. Programs are created through partnerships between schools and local community resources to provide literacy, academic enrichment, and safe, constructive alternatives for students in grades K-9.
