		<p>interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above such as myON, Quizizz, BrainPOP): Resource: Title I, Part A; Amount: \$16,993</li> <li>Evidence-based supplemental intervention/enrichment program fees (IXL): Resource: Title IV, Part A; Amount: \$5,000</li> </ul>		
4	Designated and integrated ELD programs	Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor	\$93,812.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and the CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• EL Coordinator salary and benefits: Resource: Title I, Part A; Amount: \$4,705</li> </ul>		
5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out	\$163,176.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>

## Goals and Actions

### Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 2%				2023-24: 10%
Percentage of students in the current graduating class who have taken a	2020-21: (As of 4/16/21) 100%				2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 95%				2023-24: 100%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college-related activities.</p> <p>Expenditures associated with this action include the following: college/career-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:N/A</p>		Yes
2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math courses and clubs. Students will be provided opportunities during the day and after school to create or		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>demonstrate a STEAM-focused project, experiment, model, or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, using problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p>	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Digital literacy and citizenship program fees (Pear Deck): Resource: Title IV, Part A; Amount: \$2,000</li> </ul>		
4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals, or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Physical activity, fitness, and equipment expenses: Resource: Title IV, Part A; Amount: \$1,000</li> </ul>	\$120,105.00	Yes

Action #	Title	Description	Total Funds	Contributing
5	Additional programs and activities that support well-rounded education	<p>In an effort to provide a well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline, and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after-school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support a well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Afterschool/Club (Arts and music) expenses: Resource: Title IV, Part A; Amount: \$2,000</li> </ul>	\$3,000.00	Yes

# Goals and Actions

## Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3				2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3				2023-24: 4

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities, and budgets, UCP, parent involvement policy, and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop-off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We</p>	\$114,369.00	

Action #	Title	Description	Total Funds	Contributing
		<p>will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office Manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Stipends for home visits: Resource: Title I, Part A; Amount: \$2,000</li> </ul>		
3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis, or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention, and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and</p>	\$9,906.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify the greatest progress, and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Additional services for homeless students: Resource: Title I, Part A; Amount: \$1,000</li> </ul>		
4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p>	\$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Panorama Education survey fees: Resource: Title I, Part A; Amount: \$1,000</li> </ul>		
5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,500.00	Yes

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
32.48%	\$208,968

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other

support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of

them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and

improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home

visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English

learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students

and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in

increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for

improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

**Total Expenditures Table**

LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds
\$729,841.00	\$262,510.00		\$681,535.00	\$1,673,886.00

# Instructions

[Plan Summary](#)

[Stakeholder Engagement](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

# Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC 52064(b)(7)*).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# Stakeholder Engagement

## Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC 52064(e)(1)*). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

### Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

**Prompt 2:** “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### **Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### ***Broad Goal***

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### ***Maintenance of Progress Goal***

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### ***Measuring and Reporting Results:***

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> . Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations, Title 5 [5 CCR] Section 15496(b)* in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

### Goal Analysis:

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55%:** For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55%:** For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40% or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

## Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
  - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

## 2021-22 LCFF Budget Overview for Parents Data Input Sheet

<b>Local Educational Agency (LEA) Name:</b>	Magnolia Science Academy-7
<b>CDS Code:</b>	19-64733-0117655
<b>LEA Contact Information:</b>	Name: Meagan Wittek Position: Principal Email: mwittek@magnoliapublicschools.org Phone: (818) 886-0585
<b>Coming School Year:</b>	2021-22
<b>Current School Year:</b>	2020-21

\*NOTE: The "High Needs Students" referred to in the tables below are Unduplicated Students for LCFF funding purposes.

<b>Projected General Fund Revenue for the 2021-22 School Year</b>	<b>Amount</b>
<b>Total LCFF Funds</b>	\$3,089,032
<b>LCFF Supplemental &amp; Concentration Grants</b>	\$674,066
<b>All Other State Funds</b>	\$834,096
<b>All Local Funds</b>	\$20,000
<b>All federal funds</b>	\$390,244
<b>Total Projected Revenue</b>	\$4,333,372

<b>Total Budgeted Expenditures for the 2021-22 School Year</b>	<b>Amount</b>
<b>Total Budgeted General Fund Expenditures</b>	\$4,241,406
<b>Total Budgeted Expenditures in the LCAP</b>	\$4,241,406
<b>Total Budgeted Expenditures for High Needs Students in the LCAP</b>	\$1,161,521
<b>Expenditures not in the LCAP</b>	\$0

<b>Expenditures for High Needs Students in the 2020-21 School Year</b>	<b>Amount</b>
<b>Total Budgeted Expenditures for High Needs Students in the Learning Continuity Plan</b>	\$180,200
<b>Actual Expenditures for High Needs Students in Learning Continuity Plan</b>	\$157,800

<b>Funds for High Needs Students</b>	<b>Amount</b>
<b>2021-22 Difference in Projected Funds and Budgeted Expenditures</b>	\$487,455
<b>2020-21 Difference in Budgeted and Actual Expenditures</b>	\$-22,400

<b>Required Prompts(s)</b>	<b>Response(s)</b>
<b>Briefly describe any of the General Fund Budget Expenditures for the school year not included in the Local Control and Accountability Plan (LCAP).</b>	All general fund budget expenditures have been included in the LCAP.
<b>The total actual expenditures for actions and services to increase or improve services for high needs students in 2020-21 is less than the total budgeted</b>	As explained in the LCP analysis, the main difference was due to the school being in distance learning most of the year and not having the need for a CNA in person at the school site. The planned actions and services were fully provided to high needs students.

**expenditures for those planned actions and services. Briefly describe how this difference impacted the actions and services and the overall increased or improved services for high needs students in 2020-21.**

--

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy-7

CDS Code: 19-64733-0117655

School Year: 2021-22

LEA contact information:

Meagan Wittek

Principal

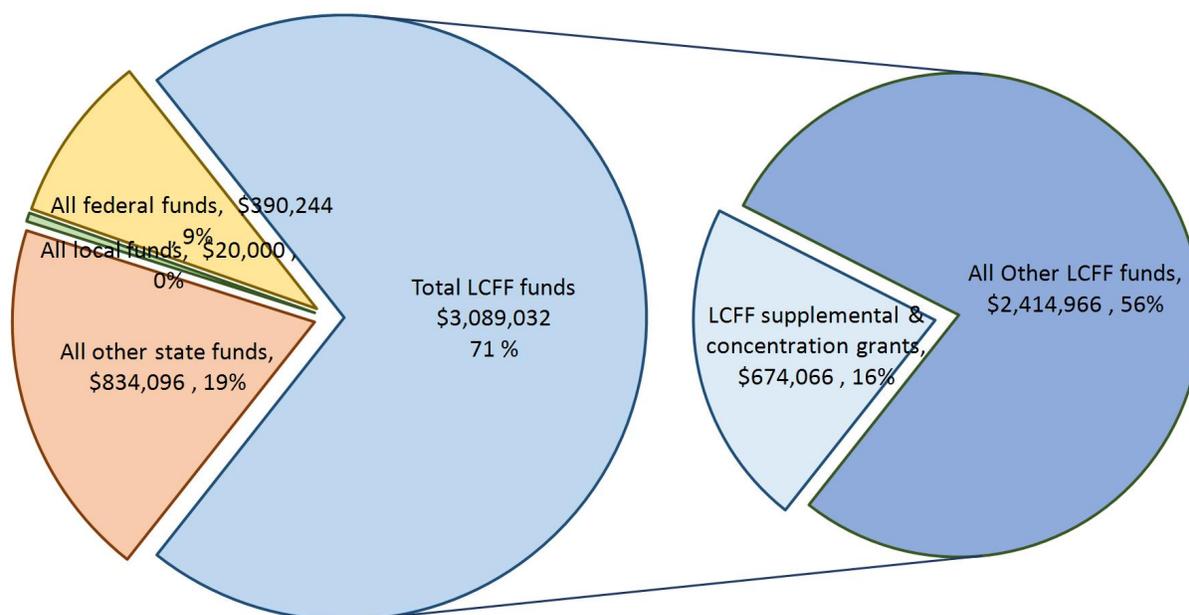

[mwittek@magnoliapublicschools.org](mailto:mwittek@magnoliapublicschools.org)

(818) 886-0585

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2021-22 School Year

#### Projected Revenue by Fund Source

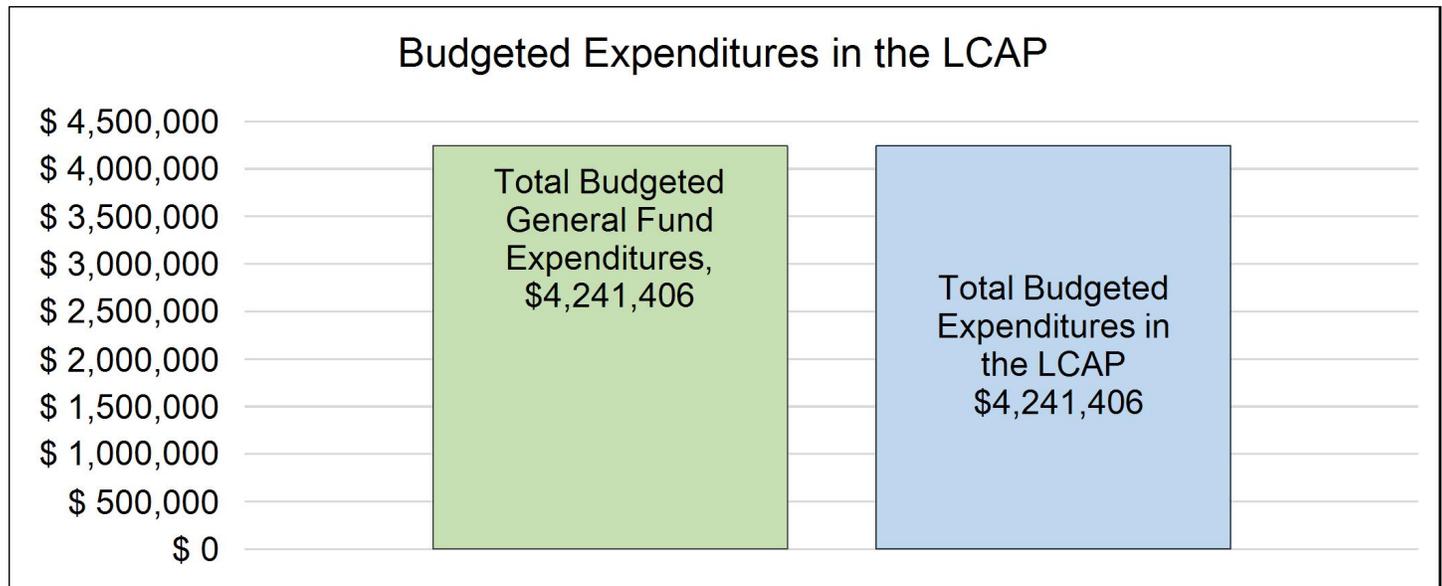

This chart shows the total general purpose revenue Magnolia Science Academy-7 expects to receive in the coming year from all sources.

The total revenue projected for Magnolia Science Academy-7 is \$4,333,372, of which \$3,089,032 is Local Control Funding Formula (LCFF), \$834,096 is other state funds, \$20,000 is local funds, and \$390,244 is

federal funds. Of the \$3,089,032 in LCFF Funds, \$674,066 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

## LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Magnolia Science Academy-7 plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

Magnolia Science Academy-7 plans to spend \$4,241,406 for the 2021-22 school year. Of that amount, \$4,241,406 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

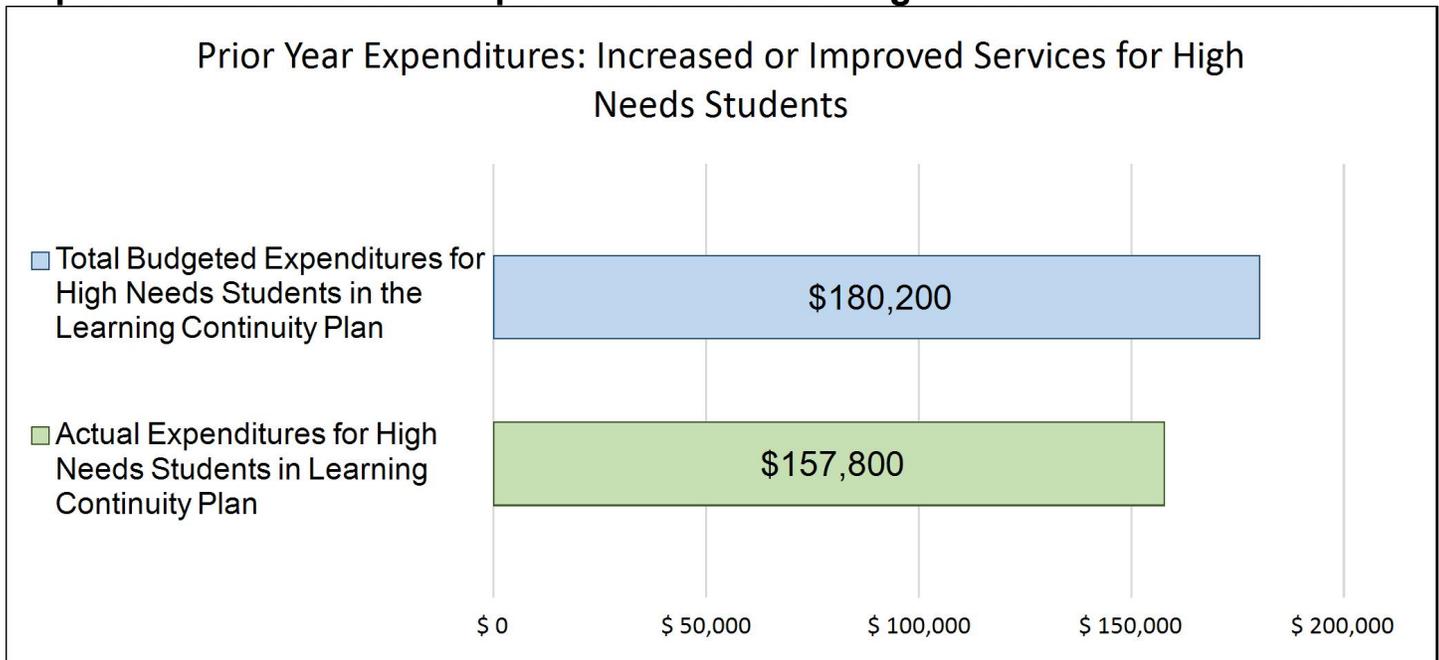

All general fund budget expenditures have been included in the LCAP.

### Increased or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, Magnolia Science Academy-7 is projecting it will receive \$674,066 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy-7 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-7 plans to spend \$1,161,521 towards meeting this requirement, as described in the LCAP.

## LCFF Budget Overview for Parents

### Update on Increased or Improved Services for High Needs Students in 2020-21

This chart compares what Magnolia Science Academy-7 budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-7 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, Magnolia Science Academy-7's Learning Continuity Plan budgeted \$180,200 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-7 actually spent \$157,800 for actions to increase or improve services for high needs students in 2020-21.

As explained in the LCP analysis, the main difference was due to the school being in distance learning most of the year and not having the need for a CNA in person at the school site. The planned actions and services were fully provided to high needs students.

# Annual Update for Developing the 2021-22 Local Control and Accountability Plan

## Annual Update for the 2019–20 Local Control and Accountability Plan Year

LEA Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-7	Meagan Wittek Principal	mwittek@magnoliapublicschools.org (818) 886-0585

The following is the local educational agency's (LEA's) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

# Goal 1

EXCELLENCE: All students will pursue academic excellence and be college/career ready.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 1: Basic (Conditions of Learning)  
                           Priority 2: State Standards (Conditions of Learning)  
                           Priority 4: Pupil Achievement (Pupil Outcomes)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

## Annual Measurable Outcomes

Expected	Actual
<b>Metric/Indicator</b> Percentage of teachers who will be appropriately assigned and fully credentialed as required by law and the charter  <b>19-20</b> 100%  <b>Baseline</b> 100%	2019-20: 100%
<b>Metric/Indicator</b> Percentage of students who will have sufficient access to standards-aligned instructional materials  <b>19-20</b> 100%  <b>Baseline</b> 100%	2019-20: 100%
<b>Metric/Indicator</b> Percentage of items on facility inspection checklists in compliance/good standing  <b>19-20</b>	2019-20: 90%

Expected	Actual
<p>90%</p> <p><b>Baseline</b> 90%</p>	
<p><b>Metric/Indicator</b> Percentage of students performing proficient on the CAASPP ELA/Literacy assessments (Grades 3-8):</p> <p><b>19-20</b> 2019-20 (Expected): All Students: 3 percentage points up from the prior year English Learners: 3 percentage points up from the prior year Socioeconomically Disadvantaged: 3 percentage points up from the prior year Students with Disabilities: 3 percentage points up from the prior year Hispanic: 3 percentage points up from the prior year White: 3 percentage points up from the prior year</p> <p><b>Baseline</b> 2016-17 (Baseline): All Students: 48 % English Learners: 5% Socioeconomically Disadvantaged: 41% Students with Disabilities: 27% Hispanic: 44% White: 51%</p>	<p>2018-19: All Students: 44.78% English Learners: 0.00% Socioeconomically Disadvantaged: 37.50% Students with Disabilities: 25.00% Hispanic: 34.57% White: 85.71%</p>

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The funds budgeted for Actions/Services that were not implemented were used to support students, families, and staff with the needs and requirements of transitioning to Distance Learning due to school closures caused by the COVID-19 pandemic. This included additional technology, curriculum and staffing needs.

Goal 1: Action 1: Planned: \$8,000 for BTSA Support; Actual: \$3,000

The reason for the difference is that we were planning to support two teachers with their BTSA needs but ended up supporting only one teacher.

Goal 1: Action 1: Planned: \$3,000 for EL authorization expenses; Actual: \$1,000

The reason for the difference is that we thought the teacher's program to complete their EL Authorization would cost more than it actually did

Goal 1: Action 2: Planned: \$30,000 for Textbooks and Instructional Materials; Actual: \$30,000

No difference between planned and actual

Goal 1: Action 3: Planned: \$69,000 for Janitor Salary & Benefits; Actual: \$58,000

The school was not open daily due to COVID-19 and hours were adjusted.

Goal 1: Action 3: Planned: \$8,240 for Janitorial Supplies; Actual: \$5,000

The school was not open daily due to COVID-19 and we saved on cleaning costs.

Goal 1: Action 3: Planned: \$15,000 for Gardening, Pest Control, and Maintenance; Actual: \$8,000

The school was not open daily due to COVID-19 so services did not occur as regularly.

Goal 1: Action 4: Planned: \$5,000 for Professional Development; Actual: \$5,000

No difference between planned and actual

Goal 1: Action 4: Planned \$1,800 for Teach Boost Fees; Actual: \$1,800

No difference between planned and actual

Goal 1: Action 5: Planned \$82,418 for EL Coordinator Salary & Benefits; Actual: \$82,418

No difference between planned and actual

Goal 1: Action 6: Planned: \$4,000 for Professional Development for ELD; Actual: \$1,000

Due to COVID-19, most PDs were cancelled or became virtual which cost less to attend.

Goal 1: Action 7: Planned \$15,000 for Part-time Math Intervention Teacher; Actual: \$0

Due to the transition to Distance Learning as a result of the Pandemic, we made the decision to hold off on this position.

Goal 1: Action 7: Planned \$97,000 for Teacher Aide Salaries & Benefits; Actual: \$97,000

No difference between planned and actual

Goal 1: Action 8: Planned \$10,000 for Saturday School; Actual: \$6,750

Due to low enrollment in Saturday School, less teachers were needed.

Goal 1, Action 9: Planned \$104,000 for Dean of Academics Salary & Benefits; Actual: \$112,647

Current Dean of Academics years of experience qualified him for a higher salary.

Goal 1, Action 9: Planned \$3,900 for Illuminate SIS Fees; Actual: \$3,300

Insignificant difference between planned and actual

Goal 1, Action 9: Planned \$2,100 for MAP Testing Fees; Actual: \$2,100

No difference between planned and actual

Goal 1, Action 9: Planned \$5,000 for Data Manager Add-on; Actual: \$5,000

No difference between planned and actual

Goal 1, Action 9: Planned \$2,500 for Testing Coordinator Add-on; Actual: \$0

Decided to have the Computer Teacher serve as the Testing Coordinator so this add on duty was no longer needed.

Goal 1, Action 10: Planned \$8,000 for Field Trips & College, Career Week Fees; Actual: \$4,300

Due to school closures caused by the Pandemic, field trips and in-person activities were cancelled.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

**Challenges:**

During the 2019-20 school year, we had to close in March of second semester and go into Distance Learning because of the COVID-19 Pandemic. As a result of this, many of the usual things we do annually, did not occur. This included not administering the CAASPP standardized assessments in English and Math, or our internal assessment (NWEA MAP) in both areas to see growth from fall to spring.

We were also not able to complete the Summative ELPAC assessment during the spring semester, so our reclassification rates were not indicative of the instruction the students received over the course of the year.

We were also not able to attend or provide professional development at the same level and frequency due to the cancellations of most.

**Successes:**

Able to ensure all students had access to their curriculum and textbooks during Distance Learning.

Students continued to receive their ELD and SPED services despite the challenging Distance Learning setting.

## Goal 2

INNOVATION: All students will become independent, innovative scholars.

State and/or Local Priorities addressed by this goal:

State Priorities:     Priority 7: Course Access (Conditions of Learning)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

### Annual Measurable Outcomes

Expected	Actual
<p><b>Metric/Indicator</b>            Percentage of the programs and services outlined in the charter petition that will be provided as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters</p> <p><b>19-20</b>            100%</p> <p><b>Baseline</b>            100%</p>	<p>2019-20:            100%</p>
<p><b>Metric/Indicator</b>            Percentage of students who will have sufficient access to all academic and educational programs provided by the Charter School as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters</p> <p><b>19-20</b>            100%</p> <p><b>Baseline</b>            100%</p>	<p>2019-20:            100%</p>
<p><b>Metric/Indicator</b></p>	<p>2019-20:            100%</p>

Expected	Actual
<p>Percentage of our graduates who will have taken a Computer/Technology class and/or experienced blended learning in their program of study</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	
<p><b>Metric/Indicator</b> Percentage of students enrolled in the Charter School's grades K-5 who will take the GATE/enrichment program</p> <p><b>19-20</b> 15%</p> <p><b>Baseline</b> 5%</p>	<p>2019-20: 7%</p>
<p><b>Metric/Indicator</b> Percentage of students who will have created or demonstrated a STEAM focused project, experiment, model or demo</p> <p><b>19-20</b> 90%</p> <p><b>Baseline</b> 80%</p>	<p>2019-20: 100%</p>

## Actions / Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives as outlined in its charter petition. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.</p>	<p>\$802 K salaries, 200K benefits 1100, 3100, 3400 Teacher Salaries And Benefits 1000-1999: Certificated Personnel Salaries LCFF \$802,000</p>	<p>\$802 K salaries, 200K benefits 1100, 3100, 3400 Teacher Salaries And Benefits 1000-1999: Certificated Personnel Salaries LCFF \$902,059</p>

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p><b>For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b> All</p> <p><b>Location(s)</b> All Schools</p>	<p>\$802 K salaries, 200K benefits 1100, 3100, 3400 Teacher Salaries And Benefits 3000-3999: Employee Benefits LCFF \$200,000</p>	<p>\$802 K salaries, 200K benefits 1100, 3100, 3400 Teacher Salaries And Benefits 3000-3999: Employee Benefits LCFF \$302,252</p>

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The funds budgeted for Actions/Services that were not implemented were used to support students, families, and staff with the needs and requirements of transitioning to Distance Learning due to school closures caused by the COVID-19 pandemic. This included additional technology, curriculum and staffing needs.

Goal 2: Action 1: Planned: \$1,002,000 for Certificated Personnel Salaries & Benefits; Actual: \$1,204,311  
Additional staff members were hired to help meet the needs of the distance learning, hybrid learning and to address learning loss mitigation.

Goal 2: Action 2: Planned: \$250,000 for Principal & Dean of Academics Salaries & Benefits; Actual: \$123,760

Dean of Academics salary and benefits was removed from Goal 2 and moved to Goal 1.

Goal 2: Action 3: Planned: \$2,000 for Saturday School Funds for Gifted Students; Actual: \$0  
No GATE identified students were attending Saturday School this year.

Goal 2, Action 4: Planned \$90,140 for Technology Services, Computer Teacher Salary & Benefits; Actual: \$100,000  
More technology services were needed to address the needs of Distance Learning.

Goal 2, Action 5: Planned \$4,000 for Science Materials; Actual: \$1,000  
Due to school closures caused by the Pandemic, there wasn't a much of a need for science materials for hands-on activities and lessons

A description of the successes and challenges in implementing the actions/services to achieve the goal.

**Challenges:**

Not able to complete the GATE testing process and identify students, therefore specific Saturday School funds for GATE students were not used.

Science instruction was not delivered at the same level and with as much hands-on experience due to students being in a Distance Learning setting for over a year.

**Successes:**

Provide access to technology and internet to 100% of our students to help with the transition to Distance Learning.

Hire additional staff members to help support students and staff with the transition to Distance Learning and then back to Hybrid. This included an additional SPED teacher, an additional ELD aide, and an additional custodian.

## Goal 3

CONNECTION: All students, families, staff, and other stakeholders will feel a sense of community and connectedness.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 3: Parental Involvement (Engagement)  
                           Priority 5: Pupil Engagement (Engagement)  
                           Priority 6: School Climate (Engagement)

Local Priorities:

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The funds budgeted for Actions/Services that were not implemented were used to support students, families, and staff with the needs and requirements of transitioning to Distance Learning due to school closures caused by the COVID-19 pandemic. This included additional technology, curriculum and staffing needs.

Goal 3: Action 1: Planned: \$2,000 for Motivational Expenses; Actual: \$2,000  
No difference between planned and actual.

Goal 3: Action 2: Planned \$3,000 for Books & Supplies; Actual: \$3,000  
No difference between planned and actual.

Goal 3: Action 3: Planned \$15,000 for Communication Tools; Actual: \$7,800  
Due to transition to remote learning and working in response to the COVID-19 Pandemic, less communication tools were needed.

Goal 3: Action 4: Planned \$5,000 for Home Visits; Actual: \$5,000  
No difference between planned and actual.

Goal 3: Action 5: Planned \$13,500 for CSUN Counseling; Actual: \$10,000  
Not as many parents and students used the counseling services because they were virtual.

Goal 3: Action 6: Planned \$120,000 for Office Staff Salaries & Benefits; Actual: \$125,000  
Increase in the office managers salary due to an increase in the state minimum wage amount.

Goal 3: Action 10: Planned \$1,050 for Panorama Stakeholder Surveys; Actual: \$400  
Not as many parents participate in the stakeholder surveys due to them being completely online with not paper option.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

**Challenges:**

Due to the fact that counseling has only been delivered to students in a virtual format since March 2020, not as many parents and students wanted to participate in the services and programs.  
Participation rates on the parent surveys were lower than usual due to them not having access to the surveys in a paper format, they were only able to complete them online.

**Successes:**

We were still able to provided motivational items to our students to encourage engagement and appropriate behaviors.  
All necessary books, supplies, and curricular items that students and staff needed in order to complete standards based work, were purchased and provided to them.

## Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency's (LEA's) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

### In-Person Instructional Offerings

#### Actions Related to In-Person Instructional Offerings

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Addition of a Certified Nurses Assistant on-site 6 hours/day to provide health screenings and temperature checks for staff, students and parents/visitors	\$34,000	27,000	No
Deep Cleaning and Disinfecting of Campus	\$6,000	5,500	No
Purchase of necessary Personal Protective Equipment for students and staff	\$15,000	15,000	No

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

The only substantive difference between the planned actions and/or budgeted expenditures for in-person instruction and what was actually implemented and/or expended is a \$7,000 difference in pay for the Certified Nurse Assistant that was brought on to support health and safety measures. We originally budgeted for \$34,000 and only \$27,000 will be used. This difference was due to the nurse not working as many days as originally anticipated because of school closures that occurred in December when there was a rise in COVID cases.

#### Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

##### Challenges:

Student attendance was low and inconsistent during small group cohorts (September-April)

Inconsistent internet problems causing connection and discussion difficulties for students/teachers who are in-person and students who are online

Home environment causing distractions for students who remained in Distance Learning

Low engagement/participation for some students

Students logging on late due to no tardy policy to reinforce  
Keeping Zoom students engaged while teaching in-person students in a hybrid setting

Successes:

Special population groups were able to get the needed in person support

Individualized assistance for any struggling students

Seamless reopening into a hybrid model

Reconnection with students withdrawn in online setting

Student and teacher emotional and social reconnections

Higher student engagement for in-person students

More student academic progress

## Distance Learning Program

### Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Purchase of 115 additional Chromebooks	\$23,000	23,000	Yes
Online learning programs for effective remote Math and ELA instruction: Accelerated Reader, Spelling City and NextGen Math	\$9,500	9,500	Yes
40 WiFi Hotspots to ensure connectivity for all students	\$8,000	8,000	Yes
Annual Subscription for Zoom	\$1,700	1,700	No
Hiring of additional part-time SPED teacher and promoting part-time SPED aide to full-time	\$50,000	50,000	No
SPED Program Staff and Services	\$180,000	160,000	No
ELD Program Staff and Services	\$88,000	88,000	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

The only substantive difference between the planned actions and/or budgeted expenditures for in-person instruction and what was actually implemented and/or expended is a \$20,000 difference for SPED Program Staff and Services. We originally budgeted for \$180,000 and only \$160,000 will be used. This difference was due to a few different reasons. One being that the cost of Speech services we receive through our vendor, decreased due to the fact that they were 100% virtual. In addition, we had one parent refuse virtual APE services and another refuse virtual Speech services for most of the school year.

### Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

#### Challenges:

Home environment causing distractions for students

Inconsistent internet problems causing connection and discussion difficulties for students

Older Chromebooks needed to be upgraded/had issues during the initial transition to Distance Learning  
Zoom students show lower participation and have less academic progress  
Hybrid students have high participation and show more academic progress  
Reaching students on Zoom who are non-responsive or not logging onto Zoom  
Adults at home helping excessively with work which makes it difficult to know how students are really doing

Successes:

Students able to continue receiving ELD and SPED support & services  
Teachers and staff continued to provide tutoring and SEL support to students  
Quick transition to online learning and curriculum  
Chromebooks and hotspots distributed to students in need  
Hybrid students have high participation and show more academic progress  
Roles and responsibilities are clearly defined  
Support provided to students in person and online

## Pupil Learning Loss

### Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Saturday School program to support students with learning loss and intervention	\$31,000	19,000	Yes
NWEA MAP Online Assessment Program to monitor student's performance in ELA and Math	\$2,500	2,100	Yes
Participation in the Latino Literacy Program, including parent training classes	\$2,000	2,000	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

The only substantive difference between the planned actions and/or budgeted expenditures for in-person instruction and what was actually implemented and/or expended is a \$12,000 difference for Saturday School. We originally budgeted for \$31,000 and only \$19,000 will be used. This difference was due to low enrollment so not as many teachers were needed.

### Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

#### Challenges:

- Students not showing up to tutoring, intervention, or Saturday Learning Academy (especially in the 3-5 grade)
- Of the students that were identified as needing Tier 2 and Tier 3 intervention and support, 0% made any progress or moved down a tier that did not attend tutoring, intervention, and/or Saturday Learning Academy.
- Students not attending class consistently and/or logging in late or leaving early
- Finding creative ways to motivate and engage students
- Lack of work completion and students not taking their assessments
- Lack of hands-on support for students that really needed it and benefited from it
- By the Spring, we had an increase of 10 new students in Math and 12 new students in ELA that fell in the Tier 2 or 3 in the Spring in grades 3rd-5th.

#### Successes:

- On campus small group instruction for SPED population
- Tutoring and intervention weekly
- Saturday Learning Academy for Tier 2 and 3 students
- Office Hours for extra support
- Using assessments and benchmarks to identify tier 3 and 2 students
- Breakout rooms in Zoom to work with teacher and/or aides and paraprofessionals
- 22% of our students who were a Tier 2 or 3 in the Fall dropped 1 tier or is no longer in Tier 2 or 3 in the Spring (ELA)
- 20% of our students who were a Tier 2 or 3 in the Fall dropped 1 tier or is not longer in Tier 2 or 3 in the Spring (Math)
- Of the students that did make progress, were the ones that were consistently attending and participating in tutoring and attending our Saturday Learning Academy
- Able to provide a second adult to all teachers upon returning to campus in order to better support students

## Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

### Challenges:

Lack of socialization between students on Zoom (students say they miss their friends)

Students who are new to the school mention that they don't have any friends since they couldn't socialize with other students as much while in Distance Learning

Not being able to engage or access students who were exhibiting poor attendance

Students not attending their counseling or other support service sessions

### Successes:

Adoption and implementation of Zones of Regulation SEL program

Zones of Regulation daily check-in with students

Socialization between students in person (students seem happier)

Implementation of Care Solace program for students, families, and staff providing access to mental health and other community resources

Continued offering counseling services to students and families

Provided Winter Care Packages to all students

Assigned staff members groups of students to check in with daily/weekly

Transitioned the Home Visit program to a virtual format, high participation rate

## Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

### Challenges:

Lower family engagement as the year went on

Low attendance at parent workshops provided by school staff

Student engagement on Zoom dropped as the year went on and as some students started to return to in-person learning

Low parent participation in parent/teacher conferences

Parent survey participation rates dropped drastically

### Successes:

Higher family engagement at the beginning of the year

High participation in drive-through events

High participation for Town Hall meetings and reopening surveys

Teachers and staff members assigned groups of students to check in with regularly  
Transitioned the Home Visit program to a virtual format, high participation rate

## **Analysis of School Nutrition**

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

### **Challenges:**

Participation was low during school closure so we combined with another local MSA rather than us both supplying meals to the same are

### **Successes:**

Able to provide meals to all students through the entire school closure period and currently

Students were given breakfast and lunch for 5-7 days at a time

Families provided meal kits during the school holiday breaks

No cost and meals provided to anyone under the age of 18 helped with food security during a stressful time for our families and community

## Additional Actions and Plan Requirements

### Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Mental Health and Social and Emotional Well-Being	Purchase and training for Zones of Regulation SEL curriculum	\$700	700	Yes
Mental Health and Social and Emotional Well-Being	Participation in LACOE's PBIS Program 2020-21	\$2,500	2,500	Yes
Mental Health and Social and Emotional Well-Being	School Psychologist Salary (shared with another school-site)	\$28,800	28,800	No
Mental Health and Social and Emotional Well-Being	Counseling for students & families through Mitchell Family Clinic	\$13,000	3,000	Yes

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

The only substantive difference between the planned actions and/or budgeted expenditures for in-person instruction and what was actually implemented and/or expended is a \$10,000 difference for Counseling Services through Mitchell Family Clinic. We originally budgeted for \$13,000 and only \$3,000 will be used. This difference was due to the school closure and all services being held virtually, students and parents were not as willing to participate.

### Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

At MSA-7, our in-person instruction has been strengthened with incorporating more technology use into the classroom and daily instruction. For example, purchasing chrome books for students, hotspots for internet, and interactive panels for teaching. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Distance

Learning program has been made easy with the purchases of chrome books, hotspots, and extra teaching devices like iPads, cameras, and accessing our online curriculum with more ease. To support the learning loss of students, we have increased interventions from weekly after school tutoring to including Saturday Learning Academy opportunities, small groups and parent, teacher, student office hours. We have increased the number of Saturday Learning Academy sessions and purchased an additional supplemental curriculum supporting math and ELA. In supporting our student's and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL curriculum and mindfulness activities for all stakeholders.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

- Continually to use informal and formal assessments (benchmarks, MAP, IAB, IXL, teacher observations, curriculum assessments, online program assessments)
- student meeting growth targets
- using data to measure growth by various subgroups (school-wide, ELD, SPED, SED, Hispanic, )
- Provide intervention and enrichment programs and hire of paraprofessionals to support student needs.
- Push in and Pull out support for our students specific needs
- Focus on student engagement and social emotional well-being

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

The only substantive differences between the planned actions and services and what was actually implemented and/or expended are as follows:

- A \$12,000 difference for Saturday School. We originally budgeted for \$31,000 and only \$19,000 will be used. This difference was due to low enrollment so not as many teachers were needed.
- A \$20,000 difference for SPED Program Staff and Services. We originally budgeted for \$180,000 and only \$160,000 will be used. This difference was due to a few different reasons. One being that the cost of Speech services we receive through our vendor, decreased due to the fact that they were 100% virtual. In addition, we had one parent refuse virtual APE services and another refuse virtual Speech services for most of the school year.
- A \$7,000 difference in pay for the Certified Nurse Assistant that was brought on to support health and safety measures. We originally budgeted for \$34,000 and only \$27,000 will be used. This difference was due to the nurse not working as many days as originally anticipated because of school closures that occurred in December when there was a rise in COVID cases.

## Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

At MSA-7, our in-person instruction has been strengthened with incorporating more technology use into the classroom and daily instruction. For example, purchasing chrome books for students, hotspots for internet, and interactive panels for teaching. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Distance Learning program has been made easy with the purchases of chrome books, hotspots, and extra teaching devices like iPads, cameras, and accessing our online curriculum with more ease. To support the learning loss of students, we have increased interventions from weekly after school tutoring to including Saturday Learning Academy opportunities, small groups and parent, teacher, student office hours. We have increased the number of Saturday Learning Academy sessions and purchased an additional supplemental curriculum supporting math and ELA. In supporting our student's and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL curriculum and mindfulness activities for all stakeholders.

Looking ahead to our 2021-22 through 2023-24 LCAP, we have made several decisions based on the needs assessments, survey reflections and student data. To help address learning loss we are creating two part-time intervention teacher positions, one for ELA and one for Math, increasing our part-time ELD aide to full-time, and adopting more supplemental and intervention programs. In order to increase pupil and family engagement and outreach as we transition back to a more normal school setting, we will be hiring a PACE coordinator to increase meeting frequency with all our stakeholders. We will also be hiring a part-time IT Coordinator to assist with all the new blended learning needs such as devices and programs that we are planning on continuing to use as we return to campus. These are some of the ways our analysis and reflection of 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan informed the development of our upcoming LCAP.

## Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

*For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year

### Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

#### Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.

- If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

- Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

## **Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan**

### **Annual Update**

The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

### **Actions Related to In-Person Instructional Offerings**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

### **Actions Related to the Distance Learning Program**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
  - Continuity of Instruction,
  - Access to Devices and Connectivity,

- Pupil Participation and Progress,
- Distance Learning Professional Development,
- Staff Roles and Responsibilities, and
- Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

## **Actions Related to Pupil Learning Loss**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.

## **Analysis of Mental Health and Social and Emotional Well-Being**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

## **Analysis of Pupil and Family Engagement and Outreach**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

## **Analysis of School Nutrition**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

## **Analysis of Additional Actions to Implement the Learning Continuity Plan**

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

## **Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
  - As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.
- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).
- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

## **Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

California Department of Education  
January 2021

## Annual Update for the 2019–20 Local Control and Accountability Plan Year Expenditure Summary

<b>Total Expenditures by Funding Source</b>		
<b>Funding Source</b>	<b>2019-20 Annual Update Budgeted</b>	<b>2019-20 Annual Update Actual</b>
All Funding Sources	1,981,648.00	2,008,586.50
	13,240.00	10,000.00
LCFF	1,686,990.00	1,739,718.50
LCFF Base	68,900.00	58,300.00
LCFF Supplemental and Concentration	96,418.00	89,718.00
Title I	116,100.00	110,850.00

\* Totals based on expenditure amounts in goal and annual update sections.

<b>Total Expenditures by Object Type</b>		
<b>Object Type</b>	<b>2019-20 Annual Update Budgeted</b>	<b>2019-20 Annual Update Actual</b>
All Expenditure Types	1,981,648.00	2,008,586.50

# Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-7	Meagan Wittek Principal	mwwittek@magnoliapublicschools.org (818) 886-0585

## Plan Summary [2021-22]

### General Information

A description of the LEA, its schools, and its students.

Magnolia Science Academy 7, is a classroom-based charter school serving grades TK-5 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2009, MSA-7's mission is to provide a college motivating educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-7 currently has 292 students in grades TK-5, and mainly draws enrollment from Northridge, Reseda, CA and neighboring communities. The neighborhoods that MSA-7 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-7 serves face economic challenges. MSA-7 has a diverse enrollment, including 67.4% Hispanic/Latino, 16% White, 76.3% Socioeconomically Disadvantaged, 11.6% Special Education, and 32.5% English Learner population.

MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-7 is supplemented by tutoring, after-school programs, and school-to-out of school resources links.

### Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

MSA-7 data manager, administration team, survey results and annual site visit auditors from LAUSD provided data and information available.

Due to school closures and pauses on state testing enforced in response to the COVID-10 Pandemic, there is no updated California Dashboard data. The data below is from the most recent Dashboard data available and identified areas of strength:

- Suspension Indicator on the California Dashboard is at a blue or very low rate and continues to maintain this measure
- English Language Progress Indicator on the California Dashboard is at a blue or very high level and continues to maintain this measure
- English Language Arts indicator on the California Dashboard is orange and all students made improvement from the spring of 2018 to fall of 2018.
- Mathematics indicators on the California Dashboard is also orange, LAUSD Site Visitors (Charter School Department Auditors) shared the comparison table of similar schools and according to it MSA-7 is higher than all shared (neighborhood) similar schools in ELA and MATH according to the 2018 SBAC results.

In terms of organizational, management, and programs area, LAUSD Charter School Department Site visitors gave MSA-7 a score of 4 and a 3 for Student Achievement and Educational Performance.

Some additional successes our school accomplished this year include:

- 100% of our students had access to all curricular and technology items needed to access their academic program during distance learning and hybrid learning
- 100% of our students have created and/or demonstrated a STEAM focused project this year as well as completed a Computer/Technology class.
- Maintained an ADA rate above 95%, with it most recently as high as 97% and a chronic absenteeism rate of 7.8%
- Stakeholder approval rates of 81% for students, 99% for families, and 97% for staff

MSA-7 seeks to continually develop professional learning opportunities for all stakeholders in the areas of academic and socioemotional development. Potential trainings include development in growth mindset, culturally responsive teaching, trauma informed instruction, PBIS, addressing learning loss, and more. MSA-7 continues to be proud of their efforts to develop the capacity of special populations such as English Language Learners and SPED students. Continual support and compliance is provided to the staff in the form of professional learning opportunities, grade level meetings, webinars, and other trainings. In the classroom, students are introduced to all components of common core education model.

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

MSA-7 data manager, administration team, survey results and annual site visit auditors from LAUSD provided data and information available.

Due to school closures and pauses on state testing enforced in response to the COVID-10 Pandemic, there is no updated California Dashboard data. The data below is from the most recent Dashboard data available and identified areas of need in order to close the achievement gap:

- Mathematics indicator on the California Dashboard is at orange or low for all student groups. Socioeconomically disadvantaged, Latino and EL students are on the color indicator of red.
- English Language Arts indicator on the California Dashboard is at orange or low for all students. Again, Socioeconomically disadvantaged, Latino and EL students are on the color indicator of red.

We know that all of our students are going to need additional support and interventions as we return to school next year to mitigate the learning loss caused by the school closures. However, looking at data including MAP assessments, benchmarks, reading levels, and classroom grades, we know that our students identified as English Language Learners, Socioeconomically disadvantaged students, SPED students and Latino students present a higher level of need. Some plans to address these needs include:

- Summer Learning Academy
- Saturday Learning Academy
- Hiring an intervention teacher to support students and teachers in ELA and Math
- Adopting the supplemental program, IXL for data monitoring and basic skills practice
- Adopting a benchmark program for TK-2nd
- Making a part-time ELD paraprofessional full time
- Making a part-time SPED teacher full time
- Extending the school year by 5 days
- Partnering with an outside tutoring agency to provide extra support to students and parents
- Providing parent workshops in SEL and academics

Some additional identified areas of need include:

- Per student and staff surveys, there is a need more enrichment programs such as sports and art
- Per staff and parent surveys, facility and playground upgrades are needed
- Providing students with the opportunity to participate in accelerated/advanced math programs
- More informal observations and coaching sessions for staff as conducted by administration

MSA-7 seeks to continually develop professional learning opportunities in both the areas of ELA and Mathematics and to further understand the needs of the teaching community and identify the factors that will empower teachers to develop their craft in the community of service. Strategies include providing home office orientation, site based orientation that addresses school and individual needs, mentorship program with a seasoned staff members on site, and other factors that are currently being developed to support teachers as they transition themselves and students back to campus.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- An emphasis on adopting and implementing instructional, curricular, and technology items and programs that will continue to deliver a standards-based education to all students but with an emphasis on addressing learning loss and gaps in student learning. (Goal 1, Action 2)
- Continuing to provide clean and safe facilities that support learning, with an additional emphasis on health and safety as students return to campus, including the hiring of an additional custodian and CNA as well as prioritizing facility and playground upgrades and improvements. (Goal 1, Action 2)
- Prioritizing MTSS Academic support through enrichment, intervention, and student support by hiring an ELA & Math Intervention Teacher and expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs (Goal 2, Action 3)
- Increasing the level of support for students with IEPs and the school's SPED program including the hiring of another full time RSP teacher. (Goal 2, Action 5)
- The need to continue to improve our designated/integrated English Learner services by adding a full-time ELD paraprofessional to support EL students. (Goal 2, Action 4)
- Expanding STEAM and GATE programs for students to participate in. (Goal 3, Action 2)
- Expanding our PE & Health and sports activity programs for students based on stakeholder feedback. (Goal 3, Action 4)
- Creating additional programs and activities that support a comprehensive educational program for all students we serve. (Goal 3, Action 5)
- Hiring a PACE Coordinator to better assist us with building partnerships with families for student outcomes. (Goal 4, Action 2)
- Focusing on MTSS in relation to PBIS and SEL support for students by providing counseling and positive behavior intervention support services to our students. (Goal 4, Action 3)

Other highlights include:

- Improving internet infrastructure to support teacher and student technology needs
- Adopting a new TK-2nd benchmark program to collect accurate data
- Partnering with an outside tutoring service to provide extra support to students
- Extending the school year 5 additional days
- Providing staff with necessary professional development opportunities in the areas of academics, behavior, and SEL, including training in Culturally Responsive Teaching and Implicit Bias
- Playground and facility improvements and upgrades
- Increased opportunities for parent workshops in academics and mental health support

# Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

## Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

## Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

## Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

# Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-7 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include ten PTF/PAC meetings, four SSC meetings, three ELAC meetings, several parent activities/events, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 30 virtual home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific stakeholder groups.

School Site Council & ELAC Feedback:

11/17/20

- Parents like to see Saturday school to support student learning and setbacks
- Parents are excited about the new MyOn reading resource to help students get access to free books online to encourage reading growth

2/24/21

- Parents are thankful and grateful for the options of how their students will learn and that they are not feeling forced in any way.

5/14/21 - discussion on ELOG funds

- Parents would like the additional funding to go towards additional support and aides for the students.
- Parents are grateful for the hard work and support of the staff and teachers

- Parents would like if possible funds to be used for campus maintenance
- Parents would like to increase parent academy funding and resources

#### Stakeholder Survey Feedback Summary:

- Strengths/Successes

1. Students approval rating for Safety increased 12 points since last year
2. Family approval rating for Climate of Support for Academic Learning is 100%, up 2 points since last year
3. Staff approval rating for both Safety and Sense of Belonging (School Connectedness) increased by 7 points

- Highest Approval Rates

The topics with the highest approval rates were Climate of Support for Academic Learning and Knowledge and Fairness of Discipline, Rules and Norms by all three stakeholder groups. We were proud to see this since we worked hard through our LACOE PBIS program to improve our Discipline systems based on lower approval ratings in this area from last year's responses. We were also relieved to see that all stakeholders had high approval ratings for Climate of Support, knowing what a challenging year this was for all. We are glad to see that they felt supported throughout the school year.

- Most Proud

We are most proud that all our stakeholders approve positively of our Climate of Support for Academic Learning. We take great pride in the amount of academic and SEL support that is given to all of our students and have worked hard during this unprecedented year to transition our programs to an online setting. We were also very proud to see the large increase in approval ratings from students regarding Safety and from staff for School Connectedness.

- Maintain or Build Upon

We will continue to build upon this climate of support by having meaningful reflection conversations with staff in order to get a clear and true understanding of how we can best support our students with learning loss and their transition back to in person learning. We'd like to maintain the feeling of connectedness and belonging that all of our stakeholder groups feel.

- Identified Needs

#### 1. Climate of Support for Academic Learning-

Although the student approval rating for this topic increased by 2 points, it was the lowest of the three stakeholder groups (80%). We were pleased to see an increase but feel the rating would have been higher if we had been in person this year and able to provide the full level of support our students are used to. We also feel they struggled with understanding what some of the questions were asking.

#### 2. Knowledge and Fairness of Discipline, Rules and Norms-

Although this was an area of concern for the free responses comments, the approval ratings were still rather high for all stakeholder groups for this topic. There was even an increase for all stakeholder groups this year. There was a 4 point increase for students, a 1 point increase for families, and a 2 point increase for staff. We are also aware that this area looked very different this year in the Distance Learning setting.

#### 3. Safety-

Last year, the low ratings for Safety by students and staff was alarming for us and something we wanted to prioritize this school year. With the school closures due to COVID-19, it became even more of a priority to ensure all health and safety guidelines were in place for all stakeholders. We were appreciative of the increase we saw in approval ratings for Safety by all except families, which decreased by 2 points. We do think that once they return and see the protocols that have been put into place, this will change. Students increased their approval rating for Safety by 12 points and staff by 7 points.

#### 4. Sense of Belonging (School Connectedness)-

Although we saw a rather large increase in approval ratings for this topic this year, it was still our second lowest area with students, 77% and staff, 96%. We were very grateful to see a 7 point increase in this area from our staff as we were worried they may feel even more disconnected in this Distance Learning setting. Our team worked hard all year to engage and connect with one another, our students, families, and each other and I believe these rates attest to that. We're not surprised that the students were the lowest of the three groups since they have been apart from their school community for over a year.

#### SELPA Feedback:

Our SELPA recommended that we include an action in our LCAP specific to students with disabilities to describe how academic and social-emotional supports would be provided. They also recommended that we include the students with disabilities group in our LCAP metrics and provide specific data. Based on feedback from the LAUSD SELPA, we included a new action in our LCAP specific to students with disabilities. See Goal 2: Action 5. This action summarizes support and services for students with disabilities.

#### Next Steps Based on Survey Feedback:

Although it is important to acknowledge and take all suggestions into consideration, we have chosen five that we would like to put the most focus and attention into. These five were selected due to the number of times they were mentioned in the surveys, them being a concern for us as well, and our ability to actually implement change. For example, a student requested we make the playground floor into a large trampoline, we know this is not a possibility. Below are the five we have selected and the steps we will take to address them.

1. Bullying - work with PBIS team, LACOE, and Dr. Lopez to continue to develop systems and programs for reporting bullying and helping students identify acts of bullying vs. peer conflict
2. Playground and facility upgrades - a lot of progress has already been made in this area this school year such as painting and repairing the playground equipment and benches, painting the school cafeteria, and replacing the office and computer lab doors. Next is to gather quotes and start work for replacing classroom doors and windows as needed, working with parents to raise funds for playground shading and upgrade the internet system. In addition to facility improvement projects, we will continue to hold conversations with all required stakeholders on possible growth opportunities for our campus
3. Lack of resources for non-IEP students - we will look into the possibility of hiring more staff to focus on intervention and enrichment for general education students including plans for hiring an instructional coach
4. Drop-off procedures - we have revised our procedures for reopening and return to campus and will work with Valet Committee to revise long term plans based on feedback of these temporary changes
5. More enrichment programs needed (art, science, sports) - continue to build enrichment programs and create opportunities for students to participate in (math/science olympiads, spelling bees, etc.); we will work with the PE teacher to create sports focused clubs, and work with art coordinator to develop more VAPA clubs/activities

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- An emphasis on adopting and implementing instructional, curricular, and technology items and programs that will continue to deliver a standards-based education to all students but with an emphasis on addressing learning loss and gaps in student learning. (Goal 1, Action 2)
- Continuing to provide clean and safe facilities that support learning, with an additional emphasis on health and safety as students return to campus, including the hiring of an additional custodian and CNA as well as prioritizing facility and playground upgrades and improvements. (Goal 1, Action 2)
- Prioritizing MTSS Academic support through enrichment, intervention, and student support by hiring an ELA & Math Intervention Teacher and expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs (Goal 2, Action 3)
- The need to continue to improve our designated/integrated English Learner services by adding a full-time ELD paraprofessional to support EL students. (Goal 2, Action 4)
- Expanding STEAM and GATE programs for students to participate in. (Goal 3, Action 2)
- Expanding our PE & Health and sports activity programs for students based on stakeholder feedback. (Goal 3, Action 4)
- Creating additional programs and activities that support a comprehensive educational program for all students we serve. (Goal 3, Action 5)
- Focusing on MTSS in relation to PBIS and SEL support for students by providing counseling and positive behavior intervention support services to our students. (Goal 4, Action 3)

Other areas include:

- Improving internet infrastructure to support teacher and student technology needs
- Partnering with an outside tutoring service to provide extra support to students
- Extending the school year 5 additional days
- Playground and facility improvements and upgrades
- Increased opportunities for parent workshops in academics, attendance and mental health support

# Goals and Actions

## Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0				2023-24: 0
Percentage of students without access to their own copies of standards-aligned instructional	2020-21: 0%				2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 1				2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 93.0%				2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.0%				2023-24: 97.0%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee	\$19,500.00	No

		<p>documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall,</p>	\$209,804.00	No

		<p>Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$582,321.00	No

Action #	Title	Description	Total Funds	Contributing
4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$11,000.00	Yes
5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&amp;C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p>	\$495,371.00	No

# Goals and Actions

## Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest (Source: Local	2020-21: 90%				2023-24: 100%

# Actions

Action #	Title	Description	Total Funds	Contributing
1	Broad course of study and standards-based curriculum	<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,196,490.00	No
2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and</p>	\$28,241.00	Yes

		<p>students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Tuition reimbursement for professional development: Resource: Title II Amount: \$11,741</li> </ul>		
3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p>	\$506,704.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Standards Plus, Quizizz, BrainPOP, NextGen Math, Spelling City, Seesaw, Cambium Learning, Learning A-Z, Alexandria Library, Mystery Science and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Certificated Admins: Resource: Title I; Amount: \$12,700</li> <li>• Instructional Aide salary and benefits: Resource: Title I; Amount: \$30,732</li> <li>• Benefits: Resource: Title I; Amount: \$17,798</li> <li>• Educational Software: Resource: Title I; Amount: \$16,700</li> </ul>		
4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely</p>	\$103,411.00	Yes

5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p>	\$503,484.00	No

# Goals and Actions

## Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

## Measuring and Reporting Results

		<p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
<b>4</b>	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$92,934.00	Yes
<b>5</b>	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity,</p>	\$199,759.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Goals and Actions

### Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3				2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 2				2023-24: 4
Number of Parent Advisory Committee	2020-21: (As of 5/16/21)				2023-24: 7

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(PAC) meetings per year (Source: Local Indicator Priority 3)	10				
Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 15				2023-24: 10
Number of progress reports sent to parents per year (Source: Local Indicator Priority 3)	2020-21: 4				2023-24: 4
Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS)	2020-21: (As of 4/16/21) 13.7%				2023-24: 20%
Average Daily Attendance (ADA) Rate (Source: SIS)	2020-21: (P-2 ADA) 97.09%				2023-24: 97.00%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite</p>	\$139,391.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Professional Services: Resource: Title I, Part A; Amount: \$1,500</li> </ul>		
3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership,</p>	\$72,992.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Additional services for homeless students: Resource: Title I, Part A; Amount: \$3,000</li> <li>• Certificated Pupil Support Salaries and Benefits; School Psychologist: Resource: Title IV, Part A ESEA; Amount: \$10,109</li> </ul>		
4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p>	\$1,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$10,500.00	Yes

## Goal Analysis [2021-22]

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
27.91%	\$674,066

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other

support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of

them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and

improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home

visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English

learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students

and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in

increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for

improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

# Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC 52064(b)(7)*).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# Stakeholder Engagement

## Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC 52064(e)(1)*). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

### Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

**Prompt 2:** “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### ***Focus Goal(s)***

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### ***Broad Goal***

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### ***Maintenance of Progress Goal***

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### ***Measuring and Reporting Results:***

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations, Title 5 [5 CCR] Section 15496(b)* in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

### **Goal Analysis:**

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55%:** For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55%:** For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40% or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

## Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
  - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

## 2021-22 LCFF Budget Overview for Parents Data Input Sheet

<b>Local Educational Agency (LEA) Name:</b>	Magnolia Science Academy-Bell
<b>CDS Code:</b>	19-64733-0122747
<b>LEA Contact Information:</b>	Name: Jason Hernandez Position: Principal Email: jhernandez@magnoliapublicschools.org Phone: (323) 826-3925
<b>Coming School Year:</b>	2021-22
<b>Current School Year:</b>	2020-21

\*NOTE: The "High Needs Students" referred to in the tables below are Unduplicated Students for LCFF funding purposes.

<b>Projected General Fund Revenue for the 2021-22 School Year</b>	<b>Amount</b>
<b>Total LCFF Funds</b>	\$4,536,254
<b>LCFF Supplemental &amp; Concentration Grants</b>	\$1,050,153
<b>All Other State Funds</b>	\$852,289
<b>All Local Funds</b>	\$20,000
<b>All federal funds</b>	\$741,224
<b>Total Projected Revenue</b>	\$6,149,767

<b>Total Budgeted Expenditures for the 2021-22 School Year</b>	<b>Amount</b>

<b>Total Budgeted Expenditures in the LCAP</b>	\$6,131,448
<b>Total Budgeted Expenditures for High Needs Students in the LCAP</b>	\$1,722,395
<b>Expenditures not in the LCAP</b>	\$0

<b>Expenditures for High Needs Students in the 2020-21 School Year</b>	<b>Amount</b>
<b>Total Budgeted Expenditures for High Needs Students in the Learning Continuity Plan</b>	\$1,437,940
<b>Actual Expenditures for High Needs Students in Learning Continuity Plan</b>	\$1,110,283

<b>Funds for High Needs Students</b>	<b>Amount</b>
<b>2021-22 Difference in Projected Funds and Budgeted Expenditures</b>	\$672,242
<b>2020-21 Difference in Budgeted and Actual Expenditures</b>	\$-327,657

<b>Required Prompts(s)</b>	<b>Response(s)</b>
<b>Briefly describe any of the General Fund Budget Expenditures for the school year not included in the Local Control and Accountability Plan (LCAP).</b>	All general fund budget expenditures have been included in the LCAP.
<b>The total actual expenditures for actions and services to increase or improve services for high needs students in 2020-21 is less than the total budgeted</b>	As explained in the LCP analysis, the main difference is due to the number of projected distance learning staff and their salaries. It was determined that additional salary increases were not necessary and savings were used to support actions and services that contribute to unduplicated

**expenditures for those planned actions and services. Briefly describe how this difference impacted the actions and services and the overall increased or improved services for high needs students in 2020-21.**

students. The planned actions and services were fully provided to high needs students.

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy-Bell

CDS Code: 19-64733-0122747

School Year: 2021-22

LEA contact information:

Jason Hernandez

Principal

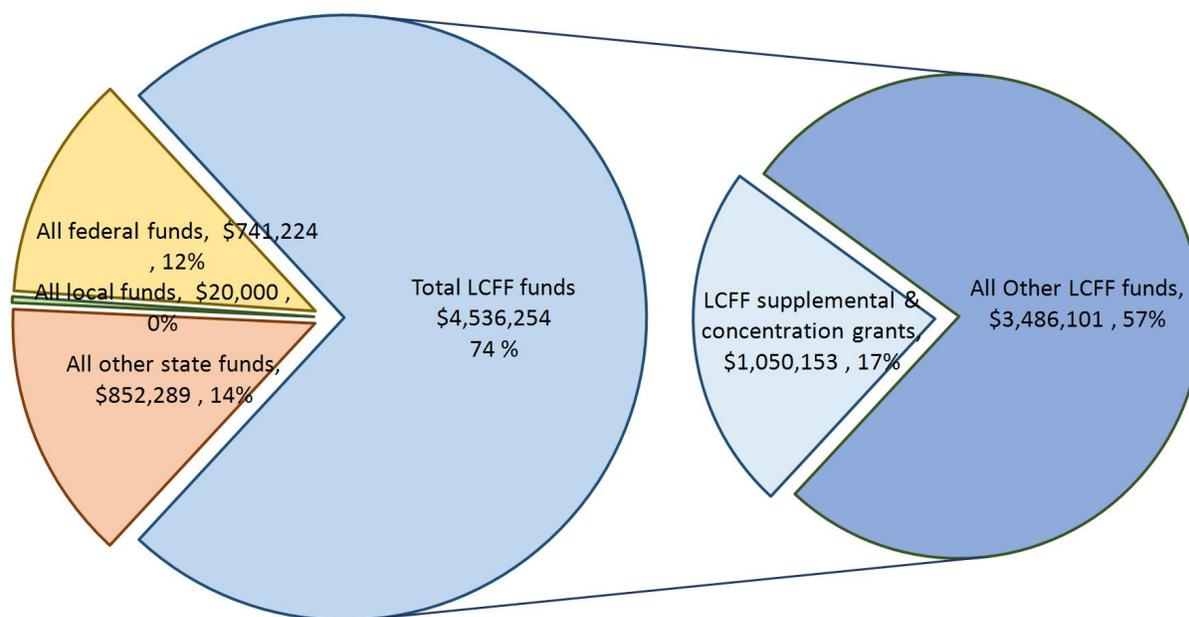

jhernandez@magnoliapublicschools.org

(323) 826-3925

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2021-22 School Year

#### Projected Revenue by Fund Source

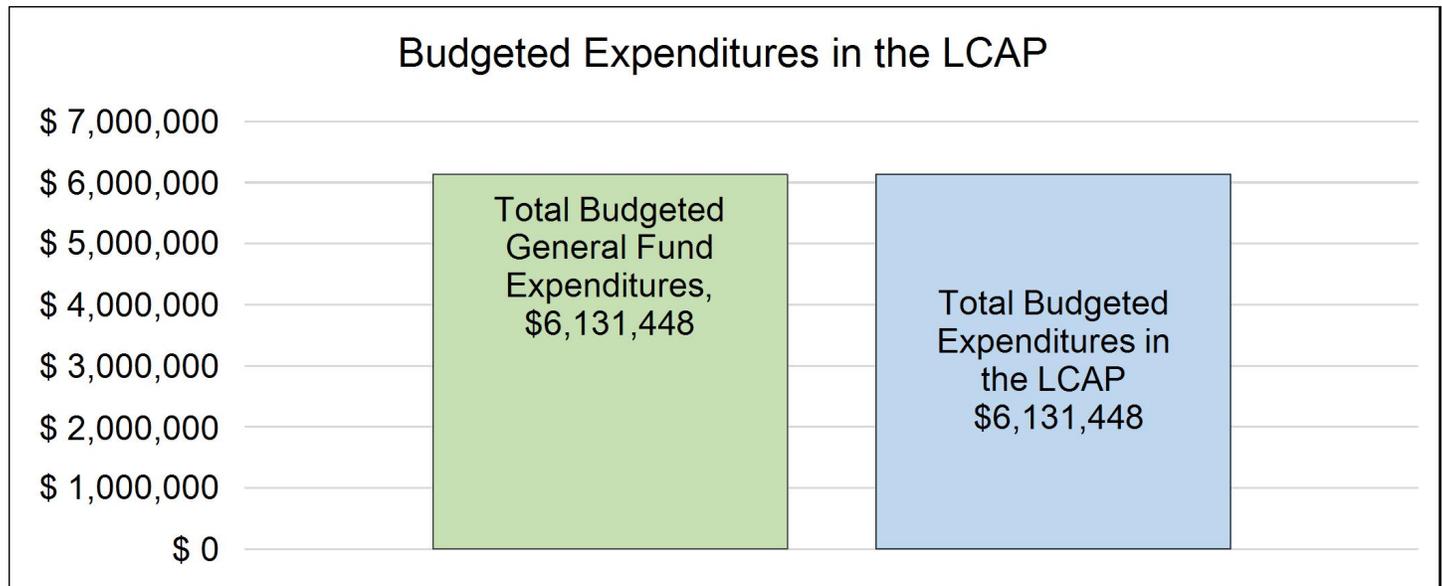

This chart shows the total general purpose revenue Magnolia Science Academy-Bell expects to receive in the coming year from all sources.

The total revenue projected for Magnolia Science Academy-Bell is \$6,149,767, of which \$4,536,254 is Local Control Funding Formula (LCFF), \$852,289 is other state funds, \$20,000 is local funds, and

\$741,224 is federal funds. Of the \$4,536,254 in LCFF Funds, \$1,050,153 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

## LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Magnolia Science Academy-Bell plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

Magnolia Science Academy-Bell plans to spend \$6,131,448 for the 2021-22 school year. Of that amount, \$6,131,448 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

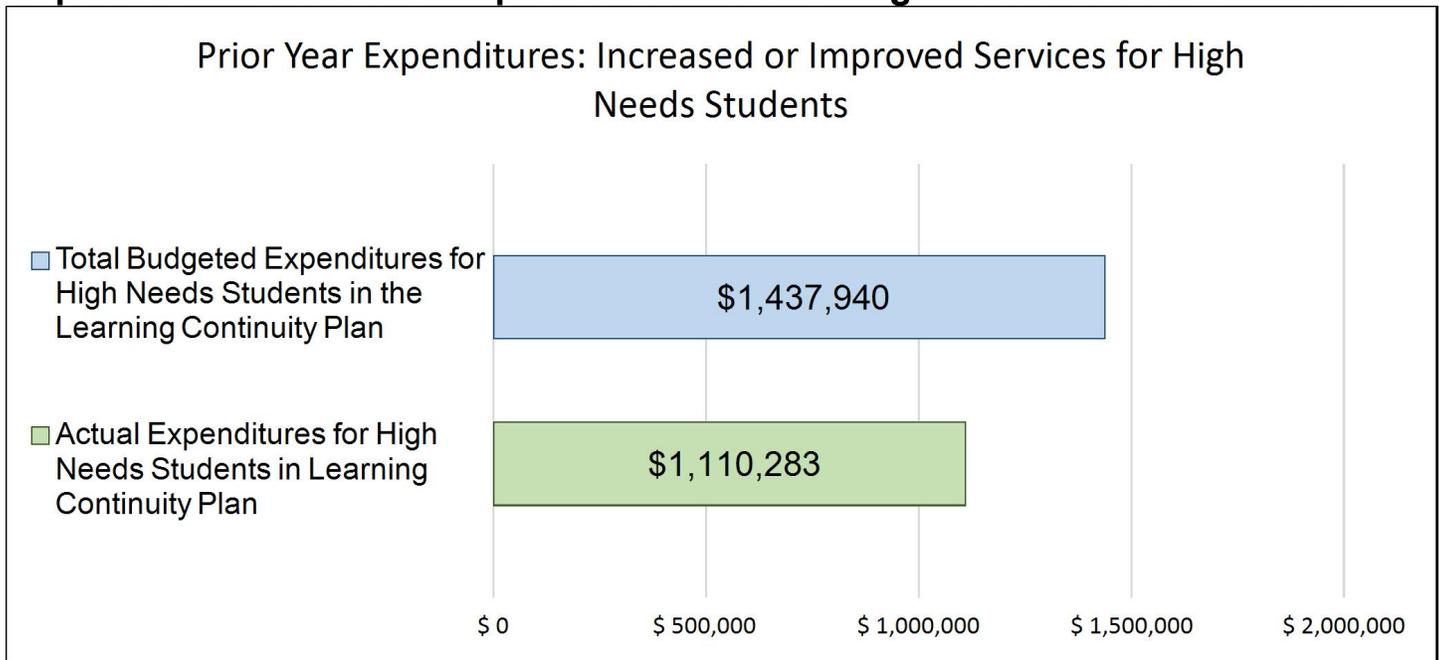

All general fund budget expenditures have been included in the LCAP.

### Increased or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, Magnolia Science Academy-Bell is projecting it will receive \$1,050,153 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy-Bell must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-Bell plans to spend \$1,722,395 towards meeting this requirement, as described in the LCAP.

## LCFF Budget Overview for Parents

### Update on Increased or Improved Services for High Needs Students in 2020-21

This chart compares what Magnolia Science Academy-Bell budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-Bell estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, Magnolia Science Academy-Bell's Learning Continuity Plan budgeted \$1,437,940 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-Bell actually spent \$1,110,283 for actions to increase or improve services for high needs students in 2020-21.

As explained in the LCP analysis, the main difference is due to the number of projected distance learning staff and their salaries. It was determined that additional salary increases were not necessary and savings were used to support actions and services that contribute to unduplicated students. The planned actions and services were fully provided to high needs students.

# Annual Update for Developing the 2021-22 Local Control and Accountability Plan

## Annual Update for the 2019–20 Local Control and Accountability Plan Year

LEA Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Jason Hernandez Principal	jhernandez@magnoliapublicschools.org 323-826-3925

The following is the local educational agency's (LEA's) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

# Goal 1

EXCELLENCE: All students will pursue academic excellence and be college/career ready.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 1: Basic (Conditions of Learning)  
                           Priority 2: State Standards (Conditions of Learning)  
                           Priority 4: Pupil Achievement (Pupil Outcomes)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:    Priorities 1: Teachers will be appropriately assigned and fully credentialed as required by law and the charter.

## Annual Measurable Outcomes

Expected	Actual
<p><b>Metric/Indicator</b>            Percentage of teachers who will be appropriately assigned and fully credentialed as required by law and the charter</p> <p><b>19-20</b>            100%</p> <p><b>Baseline</b>            100%</p>	<p>2019-20:            91%</p>
<p><b>Metric/Indicator</b>            Percentage of students who will have sufficient access to standards-aligned instructional materials</p> <p><b>19-20</b>            100%</p> <p><b>Baseline</b>            100%</p>	<p>2019-20:            100%</p>
<p><b>Metric/Indicator</b>            Percentage of items on facility inspection checklists in compliance/good standing</p> <p><b>19-20</b></p>	<p>2019-20:            90%</p>

Expected	Actual

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Base Program Actions include the following: Action A: Appropriately credentialed and assigned certificated staff and classified staff providing instruction and support to all students, including ELs.; Action B: Provide CCSS aligned materials and instruction to all students; Action C: Provide targeted teacher professional development to increase CCSS rigor and alignment.

As an organization, the effort to document all expenditures has evolved to specific details for increased accountability to stakeholders. General funds were documented for staff salaries. However, staffing salaries come from various funds.

Example 1: Title 1 is used to fund 2 positions that support learning and family outreach such as the ELD Coordinator and Director of Outreach & Community Engagement. This is vital for ensuring services to our neediest population of students (EL) and educating/informing families of programs and resources that are available to students and families.

Example 2: Title 4 is used to fund 20% of the school psychologist to assist with student SEL/mental health and provide professional development to staff and families. The pandemic has made this service vital and essential to ensure everyone has the tools necessary to produce continual positive educational outcomes.

Example 3: ASES funds are the after-school program used to support and enhance the academic school program during after hours. Funding provides a human workforce to provide enriching activities, this transitions to remote due to the pandemic. The staff transitions to provide outreach and technical support to ensure connectivity and develop a virtual after-school program that is engaging and enriching for students.

Due to the pandemic, more materials were purchased to enhance learning remoting and support instruction. Several resources such as Spanish workbooks were purchased for all participating students to enhance their learning of a foreign language. Professional Development in the form of teacher development continues to be used to support our newest teachers with credentialing. Several staff members were encouraged to continue their professional development through college programs for master's degrees in the field of education. These are vital and incurred an additional expense during this time.

Supplemental Program Actions include the following: A. After-Hour Intervention is made available to all students: Office Hours, ASES Academic Support, and Saturday School; B. Cloud-Based Programs to Support and Enrichment academics for Math and ELA: MyOn, ST Math, GradeSlam; C. Systematic improvements in the delivery of Tier 1 PBIS supports. Includes: Restructure of Advisory, Addition of Learning Zone for targeted intervention, Development of Schoolwide and Classroom Expectation Matrix

Educational software is vital for monitoring, enhancing instruction, and providing learning resources: Programs such as Paper, online 24/7 tutoring service; MyOn, virtual library of books for students; etc. Other programs that were not planned, were utilized during the Pandemic to enhance and making learning accessible such as KAMI, easyCBM, SoundTrap, Vocabulary.com, etc.

Additionally, teacher stipends were created through the usage of ASES and other additional funding sources to allow staff members to be more accessible to the learning community such as Saturday School, Extra Tutoring Sessions, or After-School program activities. These additional services and resources are intended to provide continual support to ensure that MSA Bell produces high-quality instruction, even though the pandemic has made it a challenge.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Areas of Strength:

- Academic/After-School Program shifted remotely to continue to offer similar learning opportunities as in-person instruction.
- Support Staff shifted their duties to provide outreach to follows to ensure connectivity and access to resources; deliver technical support to ensure connectivity to learning; assist with the transition to COVID protocols to open safely for families; etc.
- MTSS and PBIS training continued and teacher leaders expanded their roles and capacity to analyze and monitor student data to guide grade level team instructional practices.
- Saturday School and Additional Tutoring sessions have provided multiple points of positive interaction between teacher to student. Per survey analysis, students are aware of the supports provided and are appreciative of the work that is being done.
- Students and Instructional Staff were nimble and adaptive to the various resources that are available to enhance instruction. Students have learned to utilize several platforms such as Zoom, KAMI, Paper, SoundTrap. These are very popular among the student body.

Areas of Opportunity:

- Although students are aware of the many facets of support available, few take full advantage of the resources are opportunities. Plans are being investigated to bring awareness to families of available resources.
- Certain platforms rolled out slowly, this delayed implementation with fidelity. For example, Paper (24/7 online tutoring service) was initiated towards the end of the first semester. This was a challenge because it leads to the closing of the semester with academic projects and NWEA MAP assessments.
- ASES program has seen a drop in student interest. This might be due to the fact that students are exhausted with zoom meetings. Per stakeholder survey, students did mention frustration with online learning style.

## Goal 2

INNOVATION. All students will become independent, innovative scholars.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 7: Course Access (Conditions of Learning)

Local Priorities: Priority 7: MSA Bell will provide programs and services outlined in its charter petition, certain programs and

### Annual Measurable Outcomes

Expected	Actual
<p><b>Metric/Indicator</b> Percentage of the programs and services outlined in the charter petition that will be provided as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters.</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b> Percentage of students who will have sufficient access to all academic and educational programs provided by the Charter School as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters.</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b></p>	<p>2019-20: 18%</p>

Expected	Actual
<p>Percentage of students enrolled in the Charter School's grades 6-8 who take the Accelerated and/or Advanced Math class and/or Advanced Math club.</p> <p><b>19-20</b> &gt;20%</p> <p><b>Baseline</b> 20%</p>	
<p><b>Metric/Indicator</b> Percentage of our graduates will receive a blended learning educational experience in their program of study.</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b> Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo.</p> <p><b>19-20</b> &gt;80%</p> <p><b>Baseline</b> 80%</p>	<p>2019-20: 100%</p>

## Actions / Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>A. Provide an educational program that allows students to enhance their learning experience through STEAM.</p>	<p>Student Instructional Materials 4000-4999: Books And Supplies LCFF \$15,000</p>	<p>Student Instructional Materials 4000-4999: Books And Supplies LCFF \$7,963.81</p>
<p>B. Provide resources to access a safe and rich blended learning curriculum. This includes equipment necessary for accessing the Internet and monitoring.</p>	<p>Student Instructional Materials (Electives) 4000-4999: Books And Supplies LCFF \$5,000</p>	<p>Student Instructional Materials (Electives) 4000-4999: Books And Supplies LCFF \$2,263.78</p>

<b>Planned Actions/Services</b>	<b>Budgeted Expenditures</b>	<b>Actual Expenditures</b>
<p>C. Provide access to technology that extends beyond the school walls. (Ex. Chromebooks for 6th grade)</p> <p><b>For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b> All</p> <p><b>Location(s)</b> Specific Schools: MSA Bell, All Schools</p>	<p>Technology Services 5000-5999: Services And Other Operating Expenditures LCFF \$7,000</p> <p>Telecommunication (Internet and Phone System) 5000-5999: Services And Other Operating Expenditures LCFF \$45,000</p> <p>Chromebooks 4000-4999: Books And Supplies LCFF \$25,000</p>	<p>Technology: iTV's 4000-4999: Books And Supplies Title IV \$14,351.67</p> <p>Technology Services 5000-5999: Services And Other Operating Expenditures LCFF \$22,440</p> <p>Telecommunication (Internet and Phone System) 5000-5999: Services And Other Operating Expenditures LCFF \$30,439.33</p> <p>Chromebooks 4000-4999: Books And Supplies LCFF \$22,477.90</p>
<p>Supplemental Services</p> <p>A. Provide counseling services to work with English Language Learners, homeless, foster youth students and parents on both social/emotional needs to build the path for college and career readiness.</p> <p>B. Provide training and regular updates to all staff in trauma informed practices.</p> <p>C. Provide essentials nourishment for all students to successful function in the learning environment by providing breakfast and lunch, through LA Café (LAUSD) services.</p> <p><b>For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b> All</p> <p><b>Location(s)</b></p>	<p>Student Nutrition 4000-4999: Books And Supplies LCFF \$123,000.00</p> <p>Student Services (Counseling: CSUN &amp; USC) 5000-5999: Services And Other Operating Expenditures Title I \$11,000</p>	<p>Student Nutrition 4000-4999: Books And Supplies LCFF \$69,961.02</p> <p>Student Services (Counseling: CSUN &amp; USC) 5000-5999: Services And Other Operating Expenditures Title I \$3,415</p>

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p><b>For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b>  English Learners  Foster Youth  Low Income</p> <p><b>Scope of Services</b>  LEA-wide</p> <p><b>Locations</b>  Specific Schools: MSA Bell – all schools</p>		

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The following narrative explains the financial differences and how the learning community was able to shift to support all stakeholders given the challenges of the pandemic.

- Student instructional materials shifted to virtual. Although, textbooks and other resources were distributed to students. The Learning Management System and Google Suite allowed for the transition to virtual learning. Furthermore, this transition is essential as students transition to hybrid learning, and state/local guidance discourages sharing of student supplies in the classroom.
- Technology expenditure increased to accommodate the return of students into the classroom tools such as interactive televisions, document cameras (ELMO), and web cameras (PolyStudio) were purchased to support simultaneous learning when hybrid begins.
- Other Technology expenditures increased to accommodate student connectivity. Chromebook was budgeted to replace devices that are aging, which became useful as the need for students to have a laptop increased due to the pandemic. The budget was accurate, only the intended usage shifted. The pandemic and remote learning increased the parent's need for connectivity through the Internet. MSA Bell provided hot stops to families based on the needs assessment conducted through outreach, and the growing or fluctuating needs at home.

- Student nutrition services transition to feeding pods. Since no food services were provided on campus through LAUSD, billing has been suspended at the moment. Instead, students/families were guided to various Grab N' Go locations around the neighborhood to support families.
- Student Services has also shifted due to the strict requirements of the pandemic. Through partnerships, MSA Bell was able to acquire university interns and the services of CareSolice to assist families with the growing need for mental health.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

#### Areas of Strength:

- Strong technology background supported the transition from in-person to remote learning during the pandemic. MSA Bell had better than the 1:1 computer ratio.
- Ability to research and communicate with approved vendors lead to the acquisition of technology to continue remote learning and transition to hybrid. This included the purchases of technological tools such as Chromebooks, interactive televisions, document cameras, web cameras, hot spots, as well as cloud-based learning platforms to support and enhance learning.
- The learning community's ability to support student services increased with the engaged robust dialogue and action plans with administration and teacher leaders to analyze and monitor data to ensure student support. Additionally, a social worker intern was added to the team to support staff training and services to students. This addition will be examined further for next year to ensure an extensive team to support student's SEL, as they return to school.

#### Areas of Opportunity:

- Student Services and supports will need to be expanded as the need is expected to grow as students return to school. Partnerships with CareSolice, Community Family Guidance Center, and University interns will be pivotal to support students and families with the transition.
- Internet Connectivity. Although students were provided Hot Spot, this device is not a full replacement for Internet service at home. Some Hot Spot services were inconsistent based on the area of service and the number of devices connected with the student. Finding local city opportunities to provide families with home Internet will be a more viable option in the near future.

## Goal 3

CONNECTION. All students, families, staff, and other stakeholders will feel a sense of community and connection.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 3: Parental Involvement (Engagement)  
                           Priority 5: Pupil Engagement (Engagement)  
                           Priority 6: School Climate (Engagement)

Local Priorities:    Priority 3: MSA Bell will hold quarterly School Site Council (SSC) meetings.

### Annual Measurable Outcomes

Expected	Actual
<b>Metric/Indicator</b> Number of SSC meetings per year <b>19-20</b> >4 <b>Baseline</b> 4	2019-20: 5 (in progress)
<b>Metric/Indicator</b> Number of ELAC meetings per year <b>19-20</b> >4 <b>Baseline</b> 4	2019-20: 4 (in progress)
<b>Metric/Indicator</b> Number of PTF meetings per year <b>19-20</b> >5 <b>Baseline</b> 5	2019-20: 5 (in progress)

Expected	Actual
<p><b>Metric/Indicator</b> Number of activities/events for parent involvement per year</p> <p><b>19-20</b> &gt;5</p> <p><b>Baseline</b> 5</p>	<p>2019-20: 5 (in progress)</p>
<p><b>Metric/Indicator</b> Frequency of SIS record update</p> <p><b>19-20</b> Daily/Weekly</p> <p><b>Baseline</b> Daily/Weekly</p>	<p>2019-20: Daily</p>
<p><b>Metric/Indicator</b> Number of progress reports sent to families per year.</p> <p><b>19-20</b> 4</p> <p><b>Baseline</b> 4</p>	<p>2019-20: 3 (in progress)</p>
<p><b>Metric/Indicator</b> Percentage of students who have been –visited by the staff per year</p> <p><b>19-20</b> &gt;25%</p> <p><b>Baseline</b> 20%</p>	<p>2019-20: 15% (in progress)</p>
<p><b>Metric/Indicator</b> ADA Rate</p> <p><b>19-20</b> &gt;96%</p> <p><b>Baseline</b></p>	<p>2019-20: 96.93%</p>

Expected	Actual
97%	
<b>Metric/Indicator</b> Chronic Absenteeism Rate  <b>19-20</b> <4%  <b>Baseline</b> 4.4%	2019-20: 3.3%
<b>Metric/Indicator</b> Middle School Dropout Rate  <b>19-20</b> <1%  <b>Baseline</b> 0%	2019-20: 0 (in progress)
<b>Metric/Indicator</b> Student Suspension Rate  <b>19-20</b> <1%  <b>Baseline</b> .1%	2019-20: 0% (in progress)
<b>Metric/Indicator</b> Student expulsion rate  <b>19-20</b> <1%  <b>Baseline</b> 0%	2019-20: 0% (in progress)
<b>Metric/Indicator</b> School experience survey participation rates  <b>19-20</b> Students: >90% Families: >90%	2019-20 Survey Participation Rates: Students: 97% Families: 87.3% Staff: 100%

Expected	Actual
<p>Staff: &gt;90%</p> <p><b>Baseline</b>                      Students: 94%                      Families: 100%                      Staff: 100%</p>	
<p><b>Metric/Indicator</b>                      School experience survey average approval rates</p> <p><b>19-20</b>                      Students: &gt;80%                      Families: &gt;90%                      Staff: &gt;85%</p> <p><b>Baseline</b>                      Students: 83%                      Families: 96%                      Staff: 89%</p>	<p>2019-20 Survey Average Approval Rates:                      Students: 70%                      Families: 96%                      Staff: 88%</p>

**Actions / Services**

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>A. PBIS – develop a strategy to encourage good behavior</p> <p>B. Continue to develop various methods of communication with all stakeholders</p> <p>C. Transition to installation of cloud services used on our campus (Illuminate, Parent Square, Summit Learning Platform)</p>		

<b>Planned Actions/Services</b>	<b>Budgeted Expenditures</b>	<b>Actual Expenditures</b>
<p>D. Restructure after-school program, Magnolia Scholar's Club, to better align with CASEL framework.</p> <p><b>For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b> All</p> <p><b>Location(s)</b> Specific Schools: MSA Bell, All Schools</p>		
<p>Supplemental Services</p> <p>A. In order to engage families and connected with all the academic aspects of our school, staff will conduct home visits.</p> <p>B. Family workshops will be created to support various aspects of adolescent and career/college readiness.</p> <p>C. Provide snacks and beverages for various family engagement educational meetings.</p> <p><b>For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b> All</p> <p><b>Location(s)</b></p>	<p>Home Visits 1000-3000: Salary and Benefits Title I \$7,700</p> <p>Other Food/Professional Development and ASES 4000-4999: Books And Supplies LCFF \$3,000</p>	<p>Home Visits 1000-3000: Salary and Benefits Title I \$7,700</p> <p>Other Food/Professional Development and ASES 4000-4999: Books And Supplies LCFF \$4,238.89</p>

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p><b>For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:</b></p> <p><b>Students to be Served</b>  English Learners  Foster Youth  Low Income</p> <p><b>Scope of Services</b>  LEA-wide</p> <p><b>Locations</b>  Specific Schools: MSA Bell – all schools</p>		

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The following narrative explains the financial differences and how the learning community was able to shift to support all stakeholders given the challenges of the pandemic.

- Home Visits is the innovative practice of the charter to connect families to the learning community. This has helped staff build better connections to their students and families and best plan the necessary supports to ensure whole child success. This was suspended for the remainder of the year and transitioned to virtual home visits.
- Due to the pandemic, in-person meetings were suspended. All meetings were conducted through zoom. Since families' ability to connect or be available for meetings was a challenge, short informational sessions were recorded and made accessible to families to watch and re-watch when it was most appropriate to them. Analytics monitor stakeholder engagement. This practice demonstrated success and be explored further in the following school year.
- Professional Development opportunity was expanded for the teaching staff through Kagan training. Kagan produced training to increase student engagement in the remote setting, which was most appropriate given the current circumstances.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Areas of Strength:

- Leadership distance to student homes. This leads to home visits to provide connectivity with technology or parental support.

- Provide professional development immediately based on the learning community's needs. Kagan training supported staff with professional development to support student engagement in a remote setting.
- Adaptive strategies to engage families with resources and supports through various communication means. Support staff leads an effort to ensure all families had access to some of the major platforms to engage with their child academically and communicate with the school, Illuminate, and ParentSquare. Furthermore, short informational video postings were generated for families to access at their convenience.

Areas of Opportunity:

- ASES enrollment has been a challenge to maintain and increase. Student surveys and transition to e-sports was made this year to increase enrollment. However, due to the increase of zoom time, many students have been zoom fatigue.
- Student engagement has been a challenge. Although the hybrid option has been introduced, only 18% of the student body is present in-person and a majority of students that need the in-person support has opted out.

# Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency's (LEA's) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

## In-Person Instructional Offerings

### Actions Related to In-Person Instructional Offerings

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
PPE	47,820	72,000	Yes
High Quality Instruction: Teacher Credentialing Professional Development	21,999	32,041	Yes
Instructional Materials and Technology: Textbooks	26,244	10,858	No
Clean and Safe facilities that support learning: Facility	385,000	385,000	No
Healthy and nutritious needs: Student Meals	123,000	0	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

The following narrative explains the financial differences and reason for the financial adjustment

- Personal Protective Equipment was increased to include air purifiers, desk barriers, cleaning equipment, and other supplies to ensure the safety of all students and staff as they return to school for a hybrid.
- HQI. This expense is a combination of teachers completing their credential clearance program and allowance for continued education. The budget was adjusted to allow for tuition reimbursement. The investment in educational staff is crucial to ensure high-quality instruction as staff members continue in an educational-approved field.
- Textbook purchases. Due to the pandemic, it was necessary to transition to an electronic version of instruction materials. This includes fully utilizing the resources of the Learning Management System and the Google Educational Suite. Therefore the need for textbook materials and resources was limited.
- Facility. As of right now, this is the anticipated expense. It is expected to climb due to the workforce works required to ensure the campus is cleaned per state and local guidelines during this pandemic.
- Nutrition. Since the pandemic, LAUSD transitioned to Grab N' Go pods across various communities. Food services were closed on campus to shift support to distribution pods. As of right now, there is no further anticipate the cost for food.

## Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

### Areas of Strength:

- Personal Protective Equipment has been purchased and is adequate to ensure the safety of all on campus.
- Professional Development and continued education for staff were re-emphasized. This is crucial to ensure the support and growth of all teaching staff members.
- Grab N' Go transition to campus for hybrid students has been smooth. It appears that more of the student body is taking advantage of the opportunity, which also highlights the community need.

### Areas of Opportunity:

- Personal Protective Equipment that was purchased will be more than sufficient beyond the summertime. It is anticipated that much equipment will be remaining at the end of the pandemic.
- Students that are not present in person might not be fully utilizing the food services that have been made available. Having the student body on campus demonstrates that the need is high in the community.

# Distance Learning Program

## Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Equipment to ensure connectivity for students such as the additional purchase of Chromebooks and Hot Spots and other associated materials	89,523	148,500	Yes
Online learning platforms to enhance learning and assist with mitigating learning loss through remote/distance learning that includes: [Zoom, Papers, easyCBM, GoalBooks, BrainPop, MyOn - \$42,000], NWEA MAP \$6,000, Illuminate SIS \$2,500) change Illuminate \$5,000	50,500	54,258	Yes
Purchase of equipment to ensure teachers deliver high-quality instruction through remote/distance learning	27,000	50,618	Yes
Instructional Materials and Technology: Basic Software: Zendesk, AssetWorks, etc.	2,700	1,300	Yes
Digital Literacy and Citizenship Programs: Internet Security Program	34,790	25,000	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

The following narrative explains the financial differences and reason for the financial adjustment:

- Technological equipment purchases has increased due to the immediate need to support continued education remotely and the need to support hybrid instruction. This includes purchases of additional chrome books, hot spots, educational cloud based programs, interactive televisions, web cameras, document cameras, teacher computers, and student instructional materials.
- Other expenses such as instructional materials and technology and digital literacy and citizenship programs are still ongoing until the end of the school year. It is anticipates that the budgeted amount will be used by the end of the fiscal year.

## Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

### Areas of Strength:

- Personal Protective Equipment has been purchased and is adequate to ensure the safety of all on campus.
- Staff ability to resource and utilize resources to ensure the best equipment is purchased for simultaneous instruction.
- Ability to assess the needs of the student body and accommodate to ensure connectivity to learning. This includes conduction of a needs access to determine students that will need Chromebooks and Hot Spots, as well as provide technical support remotely and in-person.
- Administration team and teacher leaders meet for MTSS meetings to monitor and analyze student academic progress. This process has been developed and expanded during the pandemic. This practice will continue for the 2021-22 school year.
- Utilizing several data points to monitor student's academic progress and share with faculty in order to support instructional practices and make adjustments.

### Areas of Opportunity:

- Internet is a challenge for families. Although Hot Spots are provided, this is not a replacement for home Internet Services. The future plan includes identifying low-cost opportunities that families can take advantage of for this growing need.
- Student accountability at home vs. in-person. Student engagement has been a challenge and family have been frustrated with other challenges due to the pandemic. This has been a difficult year for learning and much SEL support will be needed to ensure students are able to return back to school in 2021-22.
- Building student capacity in certain skills will be re-emphasized for 2021-22. This includes essential skills such as email, calendar, etc. Per phone volumes, this has been identified as an area of opportunity.
- Student engagement has been identified as an area of opportunity. Per student surveys, it is noted that the remote setting for learning is a challenge and difficult to engage. Several teachers have expressed the same challenge, as some students are reluctant to interact through zoom sessions.

## Pupil Learning Loss

### Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
ASES program aligned to meet the needs of students during distance learning, this includes additional academic and mentoring support, extracurricular activities to expand learning and engage students and provide additional teacher stipends to support and enrich the academic program.	148,040	148,040	No
Summer Enrichment Program was provided virtually in July 2020 to provide additional educational opportunities in order to mitigate summer learning loss and prepare students for their transition to middle school.	43,072	36,012	Yes
Saturday school and additional office hours will be provided to all students during the 2020-21 school year to support student learning and mitigate learning loss. Great emphasis will be made to support students within the Tier 2 and 3 intervention groups with the extended learning opportunities to close the achievement gaps.	\$30,000	27,500	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

The following narrative explains the financial differences and reason for the financial adjustment:

- Expenditures are on par as expected. Summer School was less due to the remote setting and high usage of cloud based programs.

### Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

Areas of Strength:

- Staff ability to resource and utilize resources to ensure the best equipment is purchased for simultaneous instruction.

- Ability to assess the needs of the student body and accommodate to ensure connectivity to learning. This includes conduction of a needs access to determine students that will need Chromebooks and Hot Spots, as well as provide technical support remotely and in-person.
- Administration team and teacher leaders meet for MTSS meetings to monitor and analyze student academic progress. This process has been developed and expanded during the pandemic. This practice will continue for the 2021-22 school year.
- Utilizing several data points to monitor student's academic progress and share with faculty in order to support instructional practices and make adjustments. A schoolwide calendar for IAB and MAP assessments has been developed and followed with fidelity.
- Creating instances such as Saturday School and Extra Tutoring Sessions have created opportunities for students to interact with adults on campus. Per the stakeholder survey, students valued this effort from the faculty.

#### Areas of Opportunity:

- Internet is a challenge for families. Although Hot Spots are provided, this is not a replacement for home Internet Services. Effectively monitoring data sets through state platforms such as IABs, and district platforms such as MAP assessment can be a challenge when the internet is not running to full capacity. The future plan includes identifying low-cost opportunities that families can take advantage of for this growing need.
- Student accountability at home vs. in-person. Student engagement has been a challenge and family have been frustrated with other challenges due to the pandemic. The school's struggle has been to engage all students, 100%, to develop a clear picture of learning loss and the adjustments that will need to be made schoolwide.
- Student engagement has been identified as an area of opportunity. Per student surveys, it is noted that the remote setting for learning is a challenge and difficult to engage. Several teachers have expressed the same challenge, as some students are reluctant to interact through zoom sessions and the volume of student participation has decreased in these additional opportunities.
- Small Group Support was created as an opportunity to provide dedicated individualized support with the content teacher. Although arrangements were made with families and students, many students were reluctant to participate. Several staff members made these sessions to include all students and some did take advantage of the opportunity.

## Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

### Areas of Strength:

- Support Staff conducted a needs assessment to ensure connectivity to learning. Part of this needs assessment included the identification of socio-emotional support for the student and families.
- Adoption and partnership with CareSolice, Community Family Guidance Center (CFGC), and social worker (university intern) has provided many avenues of support for students and families. The goal is to capitalize on these resources and expand for the continual increase of needs.
- MTSS meetings with administration and teacher leaders have demonstrated great growth to develop monitoring data points and robust dialogue on how to support students and families.
- Wellness Surveys throughout to year to best assess the needs of students and families. This has provided follow-up opportunities.

### Areas of Opportunity/Challenges:

- Due to the pandemic, it has been difficult to connect with several students to identify immediate needs.
- Due to data monitoring, site leadership has been able to identify needs and develop plans. However, this has been a challenge for implementation since most students are in a remote setting.
- Due to the increased needs and support in the area of mental health, service providers have been having a difficult challenge finding sufficient counselors to support students and families. More research will be needed to expand to additional resources within the community.

## Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

### Areas of Strength:

- School Platforms have allowed a smooth transition from paper-based to electronic-based forms.
- Stakeholder meetings continue during the pandemic. However, a shift has been made to create short informational videos for families to access at their convenience.
- Support Staff role adjusted to family outreach to ensure connectivity and assess needs. Per stakeholder survey, families are appreciative of the supportive staff during the pandemic.

### Areas of Opportunity:

- Stakeholder Survey participation rates were low, 41.5%. It is evident that electronic-based forms are still a challenge for our community.

- Follow-up with mental health services has been a challenge due to various unknown factors. For example, families can have challenges coordinating appointments with service providers. This is often due to the community's high need at the moment.
- Outreach challenging as the pandemic has stressed families to continue engaging with school follow-ups.

## Analysis of School Nutrition

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

### Areas of Strength:

- MSA Bell partners with LAUSD (LA Cafe) Food Services to ensure services to the student body. Due to the pandemic, services shifted to Grab N' Go distribution centers. Distribution centers were shared with families to encourage participation and provide valuable resources.
- Partnership with LAUSD Food Services has transitioned to Grab N' Go services during the hybrid model. Food provided includes lunch, supper, and next-day breakfast.

### Areas of Opportunity:

- Unable to track the number of families engaged with food services. It is difficult to evaluate this need outside of the stakeholder survey.
- With the transition to hybrid, distribution pods transitioned to school site services. As of 5/17/21, only 18% of the student body participates in-person/hybrid model.

## Additional Actions and Plan Requirements

### Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Distance Learning Program (Staff Roles and Responsibilities)	Distance Learning Schedule adjusted to provided small group support to the neediest students as identified through internal data measuring tools. All teachers will provide essential academic support for foundational skill building.	888,655.00	606,953.60	Yes
Distance Learning Program (Staff Roles and Responsibilities)	Distance Learning Schedule adjusted to provided small group support for students with disabilities. Main focus will be on foundational skills.	533,900.00	437,920.40	No
Distance Learning Program (Staff Roles and Responsibilities)	Distance Learning Schedule adjusted to provided small group support for students with Language Acquisition Needs. Main focus will be on foundational skills.	78,881.00	56,100.00	Yes

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

In the early developments and exploration of the Learning Loss Mitigation funding, the initial plan considered the additional funding for salaries to account for the extensive work to ensure that student learning continuum, and extensive academic supports. Especially in the academic areas of mathematics and English Language Arts and the neediest student population of English Language Learners and Students with Disabilities.

- Section 1 considered the extensive usage of English Language Arts and Mathematic teachers, as well as additional teachers that demonstrated strength and ability to support in these content areas.
- Section 2 considered the extensive support of the SPED team which includes resources specialists, psychologists, and instructional aides. The plan provided ongoing small group instruction throughout the week, and assessments/services that were deemed to be safe during the pandemic.
- Section 3 considered the extensive support of the ELD Coordinator. The instructional plan includes extended hours of training for ELPAC, small group instruction throughout the week, push-in support in the virtual setting, professional development for staff.

Upon further investigation and research, it was determined that the additional salary increase was not necessary and the funding was used to support the following:

- Programs to enhance instruction this includes program platforms and additional supports through tutoring, Saturday sessions, Summer sessions, and recovery sessions
- Purchase of supplies and equipment to ensure the health and safety protocols are in place for mitigating COVID spread in the learning community
- Technological equipment to support connectivity for students and staff
- Support of other learning mitigating loss measures

## Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

Upon reflection and analysis of several data sets, the following includes lessons learned from the transition of in-person to distance learning to hybrid:

- The Learning Management System, Summit, was crucial to a smooth transition as it provided an online platform for curriculum and instruction, and data points related to academic progress; engagement; mentorship (SEL); and other monitoring tools to ensure continuity of instruction. The LMS will be explored further to ensure systems are in place for complete curriculum fidelity to address instructional equities.
- The importance of 'soft skills' to complement 'hard skills.' These are essential characteristics that are non-technical but relates to how the individual works and interact with others, such as communication, teamwork, and other interpersonal skills. Emphasis on these 'soft skills' will be prioritized.
- Social-Emotional Learning/Development is crucial for students returning to campus. Partnerships with Family Community Guidance Center, CareSolice, and University Interns provided need support. Based on overwhelming demand, it will be essential to explore other potential options which include expanding partnerships, utilizing social workers, and training faculty. The ability to connect students to adults is vital and the need for mentorship will be re-emphasized.
- Consider various options or opportunities to engage students through Total Participation Strategies. This is essential for social development and supporting English Language Domains.
- Review and adjust behavior expectation matrix. As students return back to campus, there will be a need to train and educate students on schoolwide expectations.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

Learning loss is assessed through the various systems already in place at the school site and across the organization.

1. Learning Management System monitors student's various academic outcomes, which is used to inform instruction. Data measurements include: Power Focus Area; Overdue Projects; Cognitive Skills; Math Unit Progress; Project-Based Learning; Mentorship; and Self-Directed Learning Implementation
2. MyOn Lexile assessment. The cloud-based program provides students with access to a digital library of books for students to read. Furthermore, the platform has the ability to assess students on their Lexile levels and monitor progress schoolwide and per individual student. Therefore, adding another opportunity to monitor student academic progress.
3. Interim Assessment Blocks (IABs) are strategically placed within the course curriculum map and utilized as a unit assessment to measure student academic progress in specific domains. The school site has an internal process to assist teachers with backward planning to ensure preparation and the neediest student populations are emphasized.
4. NWEA MAP is a staple across MPS. The assessment is used 3 times throughout the school year, Fall, Winter, and Spring. MAP assessment monitors student's academic progress and informs instruction by identifying areas of strength and need. Furthermore, iXL will be implemented the following school year to provide intervention in areas of academic gaps for students. iXL integrates with NWEA MAP assessment, allowing a streamline of resources to support student learning.
5. Stakeholder Surveys and Health & Wellness Surveys. These survey tools are used to measure the school climate and assess the SEL of the learning community. The data is reviewed by leadership to inform instruction and adopt necessary changes to ensure student growth in academic and social areas.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

The major difference in funding in this section is associated with the early understanding of the usage of the first round of Learning Loss Mitigating Funds. The school-site workforce was shifted to adjust to the pandemic. Staff was expected to perform duties above and beyond during this time period to ensure our families and students remain connected to the school through family education of resources, connectivity to learning, and other resources necessary to continue learning and supporting the mental well-being of all.

Funding re-shifted to support re-opening of the campus for employee office personnel and to transition to hybrid learning. The school site incurred costs for this undertaking. Below are a few examples and further details/evidence can be found throughout the LCP:

- Personal Protective Equipment such as face coverings, barriers, cleaning supplies and equipment, etc.
- Technology purchases to support learning in the classroom virtually and remotely such as interactive televisions, web cameras, document cameras, upgrade faculty computers
- Connectivity technology for students such as Chromebook, Hot Spots, and other learning tools to support remote

## Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

Although the 2019-20 school year shifted abruptly from in-person to remote, MSA Bell continued internal assessments and monitor student progress through the LMS to determine student needs and inform instruction. This included:

- NWEA Measures of Academic Progress (MAP) assessments
- Interim Assessment Blocks (IABs)
- MyOn Lexile assessment
- Learning Management System Data Monitoring of Academic Outcomes, Project-Based Learning Implementation, Mentorship Implementation, and Self-Directed Implementation

The data provided valuable insight on student learning and demonstrated their resilience to performance to the best of their ability. Below are some data notables:

- Effective usage of the LMS for learning provides student data to create academic support plans. Leadership is working to ensure the LMS is capturing all lesson plans and assignments so that monitoring can be effective and efficient.
- 90% of students were able to complete assessments remotely. This data is essential to determine student readiness for assessments. The data also presented the need to ensure all students have a school-sponsored device so that it can be programmed to ensure students have access to assessments. Lastly, the data determine that certain students are not connecting and a more intensive plan will need to be formulated to ensure connectivity and accountability.
- MAP Assessments: School-wide gains were noted in all grade levels in ELA and Math. 6th Grade Math and 7th Grade ELA slightly below the expected marks. These are still remarkable figures considering the shift that students and teachers had to make to ensure learning continues.
- Per MAP data: Free- and Reduced, English language Learners, and Students with Disabilities continue to be our neediest group of students. Plans are in place to continue with SPED support and build capacity. The SPED model will be replicated with ELs and monitored for academic progress.
- Per Stakeholder Survey, students and families are appreciative of the supports and resources that are made available. However, stakeholders long for the social interaction that is associated with in-person instruction. At the present moment, the learning community has a hybrid academic schedule providing families with the option of hybrid or remote. 18% have elected to be in hybrid and 88% elected remote learning.

Below are actions that are being formulated into the 2021-22 LCAP

- Supplemental instruction and supports through Summer School, Saturday School, Winter Session, and additional tutoring sessions by teaching faculty

- Enhancements to support learning and close the achievement gap through providing bilingual paraprofessionals to support learning and providing 24/7 online tutoring through Paper
- Integrating services to address student/family mental health and well-being through mental health partnerships, hiring a social worker, supporting and developing character education for students, and mentorships
- Creating community learning hubs through the increase of technological devices for students, increase the Internet Broadband to meet usage demand, and developing partnerships in the community to provide families with access to resources
- Increase grade promotion through the development of various learning pathways and exposure to higher education and career options
- Training for school staff with strategies to enhance learning and support social-emotional health

## Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

*For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year

### Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

#### Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.

- If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

- Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

## **Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan**

### **Annual Update**

The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

### **Actions Related to In-Person Instructional Offerings**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

### **Actions Related to the Distance Learning Program**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
  - Continuity of Instruction,
  - Access to Devices and Connectivity,

- Pupil Participation and Progress,
- Distance Learning Professional Development,
- Staff Roles and Responsibilities, and
- Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

## **Actions Related to Pupil Learning Loss**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.

## **Analysis of Mental Health and Social and Emotional Well-Being**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

## **Analysis of Pupil and Family Engagement and Outreach**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

## **Analysis of School Nutrition**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

## **Analysis of Additional Actions to Implement the Learning Continuity Plan**

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

## **Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
  - As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.
- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).
- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

## **Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

California Department of Education  
January 2021

## Annual Update for the 2019–20 Local Control and Accountability Plan Year Expenditure Summary

Total Expenditures by Funding Source		
Funding Source	2019-20 Annual Update Budgeted	2019-20 Annual Update Actual
All Funding Sources	3,656,447.00	4,078,264.26

# Annual Update for the 2020–21 Learning Continuity and Attendance Plan Expenditure Summary

<b>Total Expenditures by Offering/Program</b>		
<b>Offering/Program</b>	<b>2020-21 Budgeted</b>	<b>2020-21 Actual</b>
<b>In-Person Instructional Offerings</b>	\$604,063.00	\$499,899.00
<b>Distance Learning Program</b>	\$204,513.00	\$279,676.00
<b>Pupil Learning Loss</b>	\$221,112.00	\$211,552.00
<b>Additional Actions and Plan Requirements</b>	\$1,501,436.00	\$1,100,974.00
<b>All Expenditures in Learning Continuity and Attendance Plan</b>	<b>\$2,531,124.00</b>	<b>\$2,092,101.00</b>

<b>Expenditures by Offering/Program (Not Contributing to Increased/Improved requirement)</b>		
<b>Offering/Program</b>	<b>2020-21 Budgeted</b>	<b>2020-21 Actual</b>
<b>In-Person Instructional Offerings</b>	\$411,244.00	\$395,858.00
<b>Distance Learning Program</b>		
<b>Pupil Learning Loss</b>	\$148,040.00	\$148,040.00
<b>Additional Actions and Plan Requirements</b>	\$533,900.00	\$437,920.40
<b>All Expenditures in Learning Continuity and Attendance Plan</b>	<b>\$1,093,184.00</b>	<b>\$981,818.40</b>

<b>Expenditures by Offering/Program (Contributing to Increased/Improved requirement)</b>		
<b>Offering/Program</b>	<b>2020-21 Budgeted</b>	<b>2020-21 Actual</b>
<b>In-Person Instructional Offerings</b>	\$192,819.00	\$104,041.00
<b>Distance Learning Program</b>	\$204,513.00	\$279,676.00
<b>Pupil Learning Loss</b>	\$73,072.00	\$63,512.00
<b>Additional Actions and Plan Requirements</b>	\$967,536.00	\$663,053.60
<b>All Expenditures in Learning Continuity and Attendance Plan</b>	<b>\$1,437,940.00</b>	<b>\$1,110,282.60</b>

# Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Jason Hernandez Principal	jhernandez@magnoliapublicschools.org (323) 826-3925

## Plan Summary [2021-22]

### General Information

A description of the LEA, its schools, and its students.

Magnolia Science Academy-Bell (MSA-Bell) is a classroom-based charter school serving grades 6th-8th with a curriculum emphasis on science, technology, engineering, arts, and math (STEAM).

Our mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

MSA Bell currently has 440 students in grades 6th-8th, and mainly draws enrollment from the neighboring communities of the southeast Los Angeles area. MSA Bell has a diverse student population of 90.45% Hispanic/Latino and 7.95% White (Arabic), 84.5% socioeconomically disadvantaged, 10.2% special education, and 12.5% English language learner population.

We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA Bell is supplemented by tutoring, after-school programs, and family training.

### Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Due to the COVID-19 pandemic, California has suspended the reporting of state and local indicators in the 2020 Dashboard. However, the strengths and needs are listed below based on the 2019 Dashboard Data. MSA Bell has developed various monitoring points to ensure the

'whole child.' References to these data sets will be made available and shared with stakeholders to solicit feedback and conduct an assessment of strengths and opportunities.

### Strengths

1. English Language Arts for all students increased by 14.7 points, 17.7 points below, and neediest student groups (EL & SPED) showed growth. In comparison with the state, all students increased by 3.7 points, 2.5 points below standard.
2. Mathematics for all students increased by 7 points, 74 points below, and neediest student groups (EL & SPED) showed growth. In comparison with the state, all students maintained by 2.9 points, 33.5 points below standard.
3. English Learner Progress shows 52.7% of all EL students making progress towards English language proficiency. In comparison with the state of 48.3% making progress towards English language proficiency.

Due to the pandemic, MSA Bell will seek opportunities to further build capacity at the school site to support the socio-emotional needs of students as they return to campus. This includes ongoing professional development and curriculum for faculty and exploring partnerships with local health & wellness agencies. In regards to academic progress in the areas of mathematics and English Language Arts, systems and procedures have been developed and refined to monitor and assess students for academic progress. For the 2021-22 school year, iXL will be utilized to provide intervention to address learning gaps. iXL integrates with NWEA MAP assessment, therefore providing necessary information to inform instruction and develop school-wide strategies to address the learning needs of all students, especially ELs and SWDs.

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Due to the COVID-19 pandemic, California has suspended the reporting of state and local indicators in the 2020 Dashboard. However, the strengths and needs are listed below based on the 2019 Dashboard Data. MSA Bell has developed various monitoring points to ensure the 'whole child.' References to these data sets will be made available and shared with stakeholders to solicit feedback and conduct an assessment of strengths and opportunities.

### Opportunities

1. Chronic Absences are at 5% and increased by 1.8%. In comparison with the state, all students increased by 1.1 points, 10.1% chronically absent.
2. Suspension rate 1.4% increased by 1.4%. The rate is lower than the state rate of 3.4%

Due to the pandemic, school conditions and climate will be an area of focus as students get re-acclimated to the school setting. This will include reinstating the PBIS program and conducting a needs assessment to ensure the program is effective for student positive development. Furthermore, leadership will review the LMS to ensure curriculum and instruction fidelity. Assessment plans will continue through NWEA MAP and IABs, these are added to the instructional curriculum calendar with an emphasis on instructional supports for ELs and SWDs. Additionally, iXL will be utilized as the interventional tool for student learning gaps and will be embedded into daily instruction.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The LCAP goals started through a collaborative effort of gathering input from all stakeholders and available data from surveys and student academic performance. Based on input and data, we have revised our existing actions/services, measurable outcomes, and planned for new ones. Some of the highlights include:

1. Stakeholder engagement in the shared decision making, especially in the area of blending learning and academic area of mathematics for all students and support of student groups (ELLs and SWD) in ELA and math.
2. Opportunities for professional learning for all stakeholders through workshops and supports, in socioemotional development and academic support in areas like mathematics and blending learning.
3. School community that provides programs to support the socioemotional development and academic learning of all students.

Our learning community has worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups.

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

# Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

In order to promote a positive learning experience for our students, MSA Bell has established a culture of partnership with families, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Public School Choice (PSC) review, Charter School Division (CSD) review, Coffee Chat meetings, Board of Directors meetings, Principal meetings, and staff meetings. Feedback from our committees and meetings provide valuable input for the new LCAP. In addition, the MSA Bell conducts surveys for families, students, and staff, and the school staff conducts home visits. These all serve as a way to inform, educate, and gather input and feedback from all critical stakeholders.

MSA Bell has an approved charter petition with measurable student outcomes and methods to assess student progress. WASC accreditation provides a reflective opportunity to gather stakeholder feedback and input with action plans for continuous school improvement. The collaborative process monitors performance data, student needs, identifies goals, implements appropriate interventions/preventions. The PSC process allows stakeholders the opportunity to review school data, understand elements of a high quality school and review the school proposals and offer their feedback. The various opportunities provide stakeholder engagement to address the needs of the student. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

MSA Bell has held its periodical meetings this year to gather input from our stakeholders. These include 10 PAC/PTF meetings, 6 SSC meetings, 4 ELAC meetings, several parent activities/events including Coffee Chat meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. Majority of our stakeholders participated in this survey. The staff has completed 25% of its home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific stakeholder groups.

MSA Bell throughout the school year held various meetings through PAC, SSC, ELAC, and informational sessions, as well as stakeholder surveys, to gather input to support the direction and funding essential to meet the needs of the learning community. Below are a few trends that have influenced the development of the goals and expense:

1. Safety for students, staff, and families in the form of environmental climate and socio-emotional support. This includes hiring and training of staff members and supplemental support from organizations and cloud-based platforms.

2. Academic Growth outcomes for ELs and SWD. This includes the hiring and ongoing support of staff members to support student's academic endeavor, usage of programs to identify and intervene in academic areas of need and provide additional resources in the form of programs or additional support through Summer School, Winter Session, Additional Tutoring Sessions, and Home Visits.

3. Stakeholders recognize the mission, vision, and core values of the organization. Stakeholders are pleased and continue to support the learning community to provide a program centered around Excellence, Innovation, and Connection. MSA Bell will continue to offer a project-based learning experience that provides students with the tools and skills necessary to advance their academic pursuits and societal contributions. MSA Bell will continue to provide students with individualized support and a program that identifies their learning styles, personalities, interest, and career plans to make every learner college- and career-ready. MSA Bell will continue to create and expand a climate that provides a sense of connection and belonging to support students' development of personal and academic networks for long-term resilience and connection.

#### SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

These elements continue to be vital for our stakeholders and the learning community is committed to adapt and equip all stakeholders to meet their fullest potential and endeavors. Based on surveys and organized meetings with stakeholders, many are pleased with the program and direction. MSA Bell will continue to strive for excellence to provide students with opportunities for growth and social mobility.

#### A description of the aspects of the LCAP that were influenced by specific stakeholder input.

Stakeholders have reviewed input in order to adjust all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

1. Implement instructional practices and strategies as identified through the Performance Indicator Review (PIR), especially for our dually identified students (SWD & ELs)
2. Instructional practices that focus on sustaining promising practices of Tier 1 MTSS support (This includes schoolwide expectation matrix, grade level team classroom expectation matrix, practices of restorative circles, solidifying mentorships in advisory courses)
3. An 'advance pathway' course selection (Honors) will be programmed to provide opportunities for higher-level classes that proceed at a faster pace and cover more materials than regular mainstream courses.
4. Professional Development sessions to support families with various aspects relating to the development of the 'whole child.'

# Goals and Actions

## Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in the provision of basic services to maintain a high-quality learning environment.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0				2023-24: 0
Percentage of students without access to their own copies of standards-aligned instructional	2020-21: 0%				2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0				2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 92.0%				2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.0%				2023-24: 97.0%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee	\$20,500.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall,</p>	\$363,310.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$544,848.00	No

Action #	Title	Description	Total Funds	Contributing
4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, and water.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$124,000.00	Yes
5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&amp;C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p>	\$877,325.00	No

# Goals and Actions

## Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Broad course of study and standards-based curriculum	<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,334,083.00	No

Action #	Title	Description	Total Funds	Contributing
2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Services &amp; Other Operating Expenses - Professional Development: Resource: Title II, Part A; Amount: \$18,382</li> </ul>	\$61,768.00	Yes
3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into	\$558,498.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I/ELD coordinator salary and benefits, instructional aide salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Paper, BrainPOP, Cityspan, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Educational Software: Resource: Title IV; Amount: \$11,788</li> </ul>		
4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will</p>		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: MPS ELD Coordinator salary and benefits, EL instructional aide salary and benefits</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to</p>	\$1,044,081.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

# Goals and Actions

## Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 19%				2023-24: 20%
Percentage of students in the current graduating class who have taken a	2020-21: (As of 4/16/21) 100%				2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%				2023-24: 100%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college related activities.</p> <p>Expenditures associated with this action include the following: college/career related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or	\$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science and math competition/program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following:</p>	\$10,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>computer teacher salary and benefits, and internet security program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Educational Software: Resource: Title IV, Part A, Amount: \$3,000</li> </ul>		
<b>4</b>	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$226,159.00	Yes
<b>5</b>	Additional programs and activities that	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc.</p>	\$377,946.00	Yes

## Goals and Actions

### Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees and stipends for staff participation/service to SSC, ELAC, and Board Meetings.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and</p>	\$184,042.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Director of Outreach &amp; Community Engagement salary and benefits, and Office Manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• 1100 Teacher Salaries - Home Visits: Resource: Title I, Part A; Amount: \$11,010</li> <li>• 5800 Professional Services: Resource: Title 1, Part 1: \$2,500</li> </ul>		
3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize</p>	\$248,810.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Additional services for homeless students: Resource: Title I, Part A; Amount: \$5,000</li> </ul>		
4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will</p>	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$152,580.00	Yes

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
30.12%	\$1,050,153

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other

support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of

them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and

improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home

visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English

learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students

and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in

increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for

improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

**Total Expenditures Table**

LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds
\$4,308,390.00	\$1,040,641.00	\$113,850.00	\$668,569.00	\$6,131,450.00

# Instructions

[Plan Summary](#)

[Stakeholder Engagement](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

# Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC 52064(b)(7)*).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# Stakeholder Engagement

## Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

### Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

**Prompt 2:** “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### ***Focus Goal(s)***

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### ***Broad Goal***

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### ***Maintenance of Progress Goal***

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### ***Measuring and Reporting Results:***

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations, Title 5 [5 CCR] Section 15496(b)* in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55%:** For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55%:** For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40% or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

## Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
  - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

## 2021-22 LCFF Budget Overview for Parents Data Input Sheet

<b>Local Educational Agency (LEA) Name:</b>	Magnolia Science Academy - Santa Ana

<b>2021-22 Difference in Projected Funds and Budgeted Expenditures</b>	\$505,818
<b>2020-21 Difference in Budgeted and Actual Expenditures</b>	\$9,294

<b>Required Prompts(s)</b>	<b>Response(s)</b>
<b>Briefly describe any of the General Fund Budget Expenditures for the school year not included in the Local Control and Accountability Plan (LCAP).</b>	All general fund budget expenditures have been included in the LCAP.

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy - Santa Ana

CDS Code: 30-76893-0130765

School Year: 2021-22

LEA contact information:

Steven Keskinturk

Principal

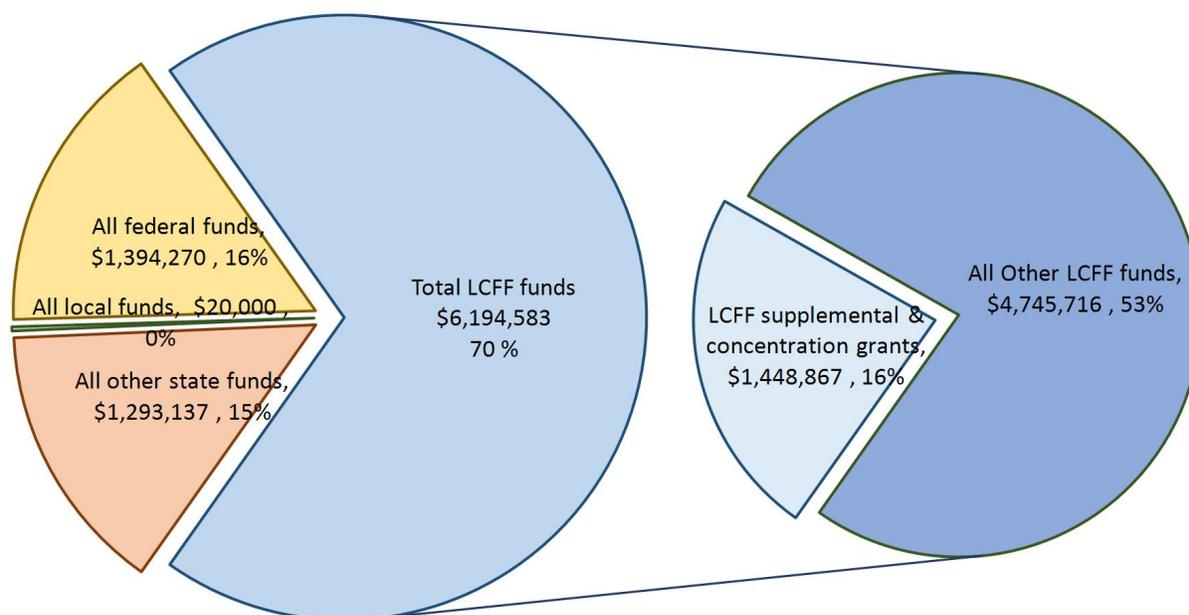

skeskinturk@magnoliapublicschools.org

(714) 479-0115

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2021-22 School Year

#### Projected Revenue by Fund Source

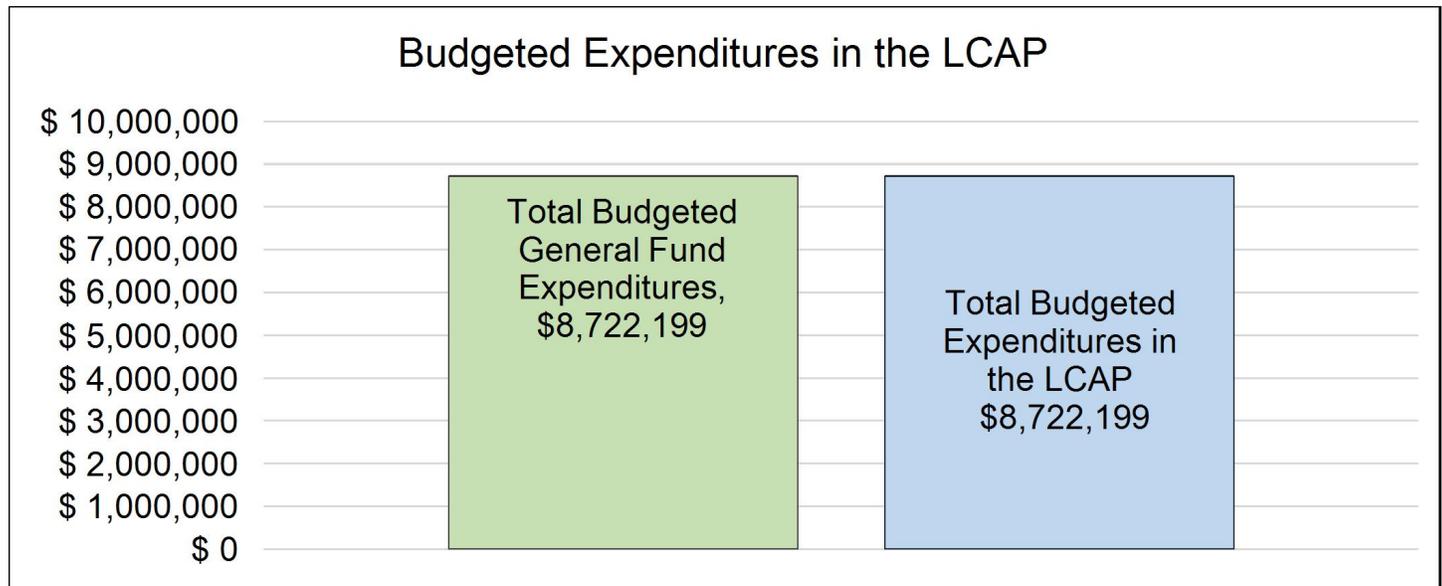

This chart shows the total general purpose revenue Magnolia Science Academy - Santa Ana expects to receive in the coming year from all sources.

The total revenue projected for Magnolia Science Academy - Santa Ana is \$8,901,990, of which \$6,194,583 is Local Control Funding Formula (LCFF), \$1,293,137 is other state funds, \$20,000 is local

funds, and \$1,394,270 is federal funds. Of the \$6,194,583 in LCFF Funds, \$1,448,867 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

## LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Magnolia Science Academy - Santa Ana plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

Magnolia Science Academy - Santa Ana plans to spend \$8,722,199 for the 2021-22 school year. Of that amount, \$8,722,199 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

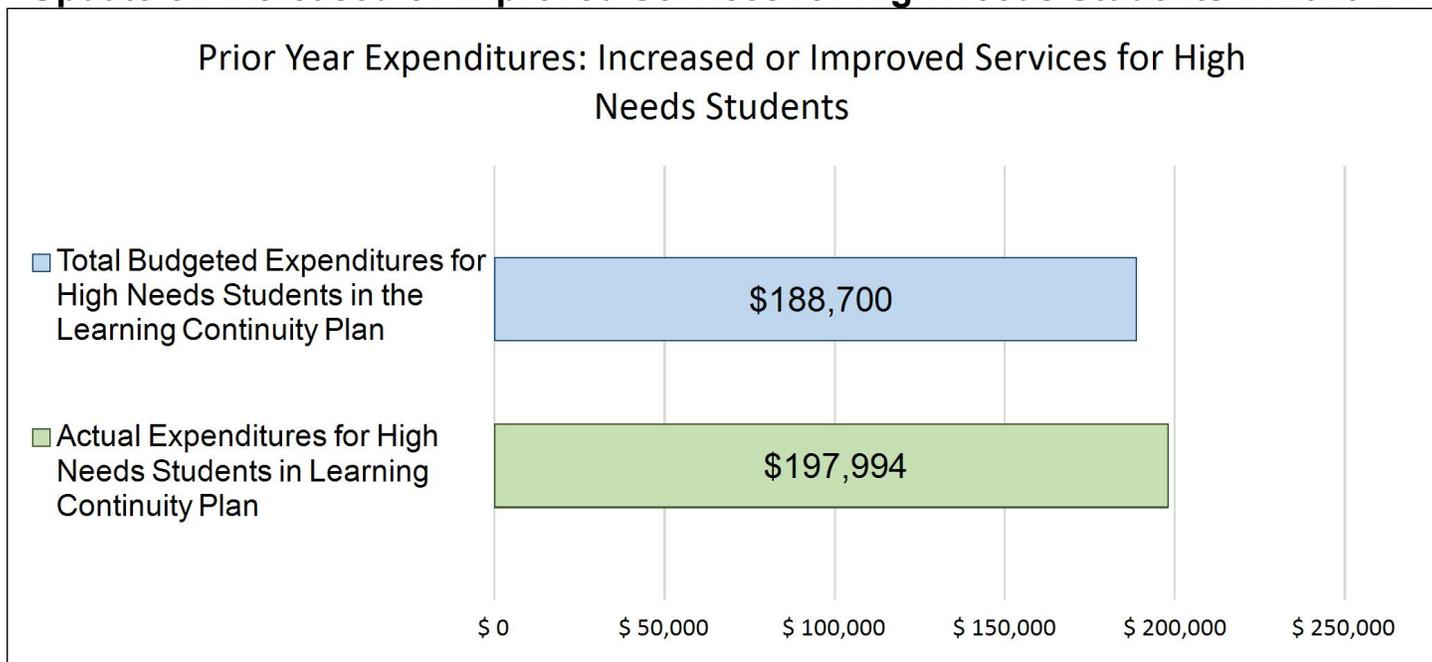

All general fund budget expenditures have been included in the LCAP.

### Increased or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, Magnolia Science Academy - Santa Ana is projecting it will receive \$1,448,867 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy - Santa Ana must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy - Santa Ana plans to spend \$1,954,685 towards meeting this requirement, as described in the LCAP.

## LCFF Budget Overview for Parents

### Update on Increased or Improved Services for High Needs Students in 2020-21

This chart compares what Magnolia Science Academy - Santa Ana budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy - Santa Ana estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, Magnolia Science Academy - Santa Ana's Learning Continuity Plan budgeted \$188,700 for planned actions to increase or improve services for high needs students. Magnolia Science Academy - Santa Ana actually spent \$197,994 for actions to increase or improve services for high needs students in 2020-21.

# Annual Update for Developing the 2021-22 Local Control and Accountability Plan

## Annual Update for the 2019–20 Local Control and Accountability Plan Year

LEA Name	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskindurk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

The following is the local educational agency's (LEA's) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

# Goal 1

EXCELLENCE: All students will pursue academic excellence and be college/career ready.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 1: Basic (Conditions of Learning)  
                           Priority 2: State Standards (Conditions of Learning)  
                           Priority 4: Pupil Achievement (Pupil Outcomes)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:    N/A

## Annual Measurable Outcomes

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 1: Action 1: Planned: \$20,000 Actual: \$14,000 The reason for the difference is that we were planning to support four teachers with their BTSA needs but ended up with three teachers needing it.

Goal 1: Action 2: Planned: \$30,000 Actual: \$18,000 The difference is due to the decrease in student enrollment and needs for student books.

Goal 1: Action 3: Planned: \$145,000 Actual: \$135,000 The school was closed for about three months due COVID-19 and saved on cleaning costs.

Goal 1: Action 4: Planned: \$34,000 Actual: \$25,000 The school was closed for about three months due COVID-19 and teachers attended virtual PDs instead.

Goal 1: Action 6: Planned: \$4,000 Actual: \$0 The school was closed for about three months due COVID-19 and teachers attended virtual PDs instead.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

During the 2019-20 school year, we had to close in March of second semester and go to Distance Learning because of the COVID pandemic. As a result of this, we did not give the students in 3-8 and 11 the CAASPP standardized assessments in English and Math, or our internal assessment (NWEA MAP) both areas to see growth from fall to spring. We did give the MAP assessment in Fall 2020 and the results were similar to the CAASPP results from 2018-19. Our highest was 10th grade Reading at 46% proficient and advanced. We were also not able to give the Summative ELPAC assessment during the spring semester, so our reclassification rates were not indicative of the instruction the students received over the course of the year. After school clubs and tutoring continued throughout second semester with students joining through Zoom.

## Goal 2

INNOVATION: All students will become independent, innovative scholars.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 7: Course Access (Conditions of Learning)  
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities: N/A

### Annual Measurable Outcomes

Expected	Actual
<p><b>Metric/Indicator</b> Percentage of the programs and services outlined in the charter petition that will be provided as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b> Percentage of students who will have sufficient access to all academic and educational programs provided by the Charter School as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b></p>	<p>2019-20: 5%</p>

Expected	Actual
<p>Percentage of students enrolled in the Charter School's grades 6-8 who take the Accelerated and/or Advanced Math class and/or Advanced Math club</p> <p><b>19-20</b> 10%</p> <p><b>Baseline</b> 3%</p>	
<p><b>Metric/Indicator</b> Percentage of our graduates who will have taken a Computer/Technology class and/or experienced blended learning in their program of study</p> <p><b>19-20</b> 100%</p> <p><b>Baseline</b> 100%</p>	<p>2019-20: 100%</p>
<p><b>Metric/Indicator</b> Percentage of students who will have created or demonstrated a STEAM focused project, experiment, model or demo</p> <p><b>19-20</b> &gt;90%</p> <p><b>Baseline</b> 80%</p>	<p>2019-20: 100%</p>

## Actions / Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives as outlined in its charter petition. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.</p>	<p>Teacher salaries 1000-1999: Certificated Personnel Salaries Base \$2,065,000</p> <p>Benefits 3000-3999: Employee Benefits Base \$592,000</p>	<p>Teacher salaries 1000-1999: Certificated Personnel Salaries Base \$2,065,000</p> <p>Benefits 3000-3999: Employee Benefits Base \$592,000</p>

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 2: Action 1: Planned: \$20,000 Actual: \$15,000 The school was closed for about three months due COVID-19 and field trips planned during this timeline were canceled.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

We provide courses, electives, programs, and services outlined in our charter petition; specific programs and services are dependent on student need and interest. Our master schedule is designed to meet the needs of all students. We sent surveys home to our high

school students to gauge their interests when we started making the master schedule and were able to use student and teacher feedback. MSA SA seniors will graduate with a-g requirements being met, making them eligible for admittance to UCs and CSUs. Currently, our graduation requirements for 12th graders require that they take one year of computer class in the 9th grade, and we do provide this for every student. We offer opportunities for dual enrollment with the local community college. In this year of Distance Learning, competing in different competitions was put on hold. Still, we were able to participate in Academic Pentathlon and Academic Decathlon virtually, where our students brought home various medals. We could not have a school-wide or MPS-wide STEAM EXPO because of the restrictions placed upon California because of the pandemic, but students were encouraged to create science projects in their classes. Graduation for our 12th grade students was virtual and streamed live and on You Tube. The next day we held a drive-through diploma pickup with decorations, music, staff/teachers, and a lot of energy. We even had a car decorating contest for the parents, with a prize for the winner. Parents were able to take a picture of their graduate with the decorations.

## Goal 3

CONNECTION: All students, families, staff, and other stakeholders will feel a sense of community and connectedness.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 3: Parental Involvement (Engagement)  
                           Priority 5: Pupil Engagement (Engagement)  
                           Priority 6: School Climate (Engagement)

Local Priorities:    N/A

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 3: Action 4: Planned: \$14,000 Actual: \$8,250 The school was closed for about three months due COVID-19 and teachers were not able to do more home visits.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

We held SSC, ELAC, and PTF meetings every two months over the course of the school year, even holding them virtually during the second semester. We provided parents with access to our SIS and additionally sending home four Progress Reports and two Report Cards over the year, as well as offering Parent/Teacher Conferences. Home Visits were conducted by our teachers and admin - during the first semester they were in person, but we continued second semester with online Home Visits through Zoom. Our ADA is 96-97%, even holding during Distance Learning. Our middle school and high school drop out rate is 0%, suspension rate is below 1%, and expulsion rate is 0% because of the implementation of alternatives to suspension/expulsion including restorative practices. Our staff and admin acknowledged and encouraged positive student behavior and improvements. We administered school experience surveys to all our stakeholders, students, parents, and staff. These surveys play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great, what we should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. Our satisfaction rates for the families, staff, and students was at an all time high, with our stakeholders happy about how we conducted Distance Learning during the pandemic.

## Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency's (LEA's) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

### In-Person Instructional Offerings

#### Actions Related to In-Person Instructional Offerings

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Addition of a Certified Nurses Assistant on-site 6 hours/day to provide health screenings and temperature checks for staff, students and parents/visitor	\$44,000	30,000	No
Deep Cleaning and Disinfecting of Campus	\$20,000	20,000	No
Purchase of necessary Personal Protective Equipment for students and staff	\$30,000	38,000	No
Learning Platforms to Enhance Learning (NextGen Math, IXL, BrainPop, Albert, NWEA MAP, Aleks etc.)	\$20,000	39,744	Yes
Hiring of additional custodian for Deep Cleaning	\$35,000	15,000	No
Substitute coverage by core teachers	\$3,000	4,000	Yes
Additional SPED professional services including Edlogical, eLuma, Direct Ed, etc.	\$70,000	90,000	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

Addition of a Certified Nurses Assistant: Planned: \$44,000 Actual: \$30,000

Hiring of additional custodian for Deep Cleaning: \$35,000 Actual: \$15,000

Description: The school was closed during some time of the year and all students were in Distance Learning. Because of this there was no need to have a CNA at the school site the whole year as budgeted.

## Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

One addition we have made this school year is the addition of a Certified Nurse's Assistant to conduct all the health screenings and temperature checks of all stakeholders who enter the school. Deep cleaning and disinfecting the offices, classrooms, bathrooms, and all public areas, as well as the purchase of Personal Protective Equipment has been ongoing this school year. We bought plexiglass dividers for the main office and all teachers' and students' desks, as well as all desks in offices. We have hand sanitizing stations, cones and arrows in hallways and staircases, signage posted all around the school, and mask wearing for everyone, as well as hiring two additional part-time custodians to help with deep cleaning. We had in-person COVID testing for all staff and students on our campus before starting Hybrid Learning. Our learning platforms include NWEA MAP for internal assessments twice a year, as well as other programs to assist teachers in the classroom. We are also supporting our Sped students with OT, speech, adapted PE, etc. with outside Sped professional services.

## Distance Learning Program

### Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Summer Enrichment Program was provided virtually in July 2020 to provide additional educational opportunities in order to mitigate summer learning loss and prepare students for their transition to middle school.	\$35,000	26,000	Yes
Saturday school and additional office hours will be provided to all students during the 2020-21 school year to support student learning and mitigate learning loss. Great emphasis will be made to support students within the Tier 2 and 3 intervention groups with the extended learning opportunities to close the achievement gaps	\$30,000	7,300	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

Summer Enrichment Program: \$35,000 Actual: \$26,000

Saturday School Program: \$30,000 Actual: \$7,300

Description: Due to the unexpected distance learning, there was less interest in Summer School and Saturday School. Also, since the Summer School ended up being in Distance Learning, we had fewer expenses than planned.

### Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

Online Summer School was offered during the month of July for all grades to mitigate the summer learning loss. Teachers started the beginning of August with Professional Development by admin, expert/lead teachers, and Home Office staff. During our weekly Staff Meetings and collaboration meetings with the different grade levels, Professional Development on Distance Learning strategies, attendance policies, PBIS strategies, and student engagement was continued. When school started, teachers enrolled all students in Google Classroom and school staff passed out chromebooks to all students, and hotspots where needed. Textbooks were gathered and put in bags for all students to pick up. They were also able to have digital versions through McGraw Hill. We monitored student attendance and engagement and all staff stepped up to call families of students who were not attending and/or engaged. Our SPED

teachers and paraprofessionals continued support of the SPED students by entering Breakout Rooms and working with the students one on one. They continued annual IEP meetings on Zoom and included Powerpoint presentations so the parents had a visual on screen. EL students were supported by teachers during their designated ELD time and EL standards were integrated in the lessons of all teachers TK-12th grade. Teachers continued to hold tutoring for their students as well as extra office hours for students to get help on assignments and projects. Saturday School was offered monthly for students to mitigate learning loss.

## Pupil Learning Loss

### Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
After school program aligned to meet the needs of students during distance learning, this includes additional academic and mentoring support, extracurricular activities to expand learning and engage students and provide additional teacher stipends to support and enrich the academic program.	\$30,000	\$30,000	Yes
Mental Health and Social and Emotional Well-Being	\$700	\$950	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

We were able to spend all budgeted funds.

### Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

With this new normal of Distance Learning, students had to acclimatize to being on the chromebooks all day, and we noticed this was something we had to help manage. Secondary teachers offered after-school tutoring on a daily basis for the different subjects - for example, Science tutoring is on Mondays, Math tutoring is on Tuesdays, etc. In elementary, teachers offered after-school tutoring in small groups to their students twice a week. All Tk-12 Teachers held daily Office Hours where students were also able to talk to their teachers about assignments, projects, etc. Teachers also had an asynchronous period of time after every live teaching session where they stayed and helped/retaught the students who needed it. Paraprofessionals also stayed to offer support to the SPED and EL students on a one-on-one basis. Teachers were able to use our additional learning platforms like Razz Kids and Brainpop with more fidelity because of this online platform. Additional technology was purchased for the teachers including computer systems to use at home, cameras, headphones, and tech support whenever they needed it. For the first 10 weeks of school, an SEL program was taught to all TK-12th grade students, where they learned how to deal with their anxiety, depression, and stress. Our School Psychologist and her interns stepped up to offer and conduct counseling sessions to all students who needed extra SEL support. Saturday tutoring and interventions offered at the elementary level by teachers as well.

## Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

For the first ten weeks of school, an SEL program was taught to all TK-12th grade students. Our students learned strategies on how to deal with anxiety and stress through Zones of Regulation. Every week the students had a new lesson, and this was very successful. Our School Psychologist and her interns stepped up to offer and conduct counseling sessions to all students who needed extra SEL support. The SPED students were also given additional counseling sessions based on need. During weekly staff meetings, all staff participated in mindfulness activities. We also are offering a referral service called CareSolace, which is open to all of our stakeholders. This program offers a referral service to parents, students, and students who need mental health services. We have also conducted two SEL-based surveys to our parents and staff, which have given us valuable information to plan SEL activities and professional development. We also encourage teachers to attend outside of school Professional Development on SEL strategies and then ask that they report back to the staff on what they learn.

## Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

At MSASA we utilize surveys with fidelity and use these results to fuel changes that need to be made. Our survey results satisfaction rates decreased a little from last year because of the challenges of navigating Distance Learning for all stakeholders. This led to the supports we have put into place for SEL and mindfulness activities. We have increased our pupil and family engagement and outreach through our weekly Hook newsletter, Coffee with the Principal sessions every Friday, virtual assemblies, School Site Council and ELAC meetings, and multiple Town Hall meetings. It is through these avenues that our pupils and families can connect, participate, and engage with staff and home office members to voice any opinions and concerns. Over the course of this year we have been fully transparent in our learning modalities. We have presented dates and options for our pupils and families to feel comfortable in transitions back onto campus for Hybrid Learning. Our PACE coordinator is the main liaison between school and home and also serves in translating for our community. The PACE coordinator leads our Second Cup of Coffee meetings and outlines what events, and other happening are forthcoming. Challenges have been a lower participation rate from previous years as they have been held virtually and not in person.

## Analysis of School Nutrition

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

School meals are essential to student health and academic success, and they are critical as families may continue to struggle financially due to the coronavirus pandemic. Magnolia Science Academy continued to reach students during the COVID-19 pandemic by collaborating with families and the entire staff and serving meals that kids love. One of the successes was that school meals are essential to student health and academic success. They support the local economy. They are critical in the new school year as families may struggle financially due to the coronavirus pandemic. Another win was that schools served free meals to all students with

the Community Eligibility Provision, regardless of income. The challenge was to make sure that students received the meals since it was hard to reach them out because they were not coming to school while in Distance Learning.

## Additional Actions and Plan Requirements

### Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

N/A

### Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

At MSA SA, our in-person instruction has strengthened with incorporating more technologies into the classroom. For example, purchasing chrome books for students, hotspots for internet, and interactive panels for teaching. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Distance Learning program has been made easy with the purchases of chrome books, hotspots, and extra teaching devices like a touch screen interactive TV, iPads, cameras, and accessing our online curriculum with fidelity. Our Hybrid Learning model started in April, 2021, with elementary coming to school on Mondays and Tuesdays and secondary on Thursdays and Fridays - the rest of the days are asynchronous Distance Learning.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

To support the learning loss of students, we at MSASA have increased interventions from twice weekly after school to including Saturday invention/ tutoring opportunities. We have increased the length of our hours during summer school and purchased an additional supplemental curriculum supporting math, ELA, science, and social studies.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

In supporting our students' and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL

curriculum and mindfulness activities for all stakeholders. Under Pupil and Family engagement outreach, we have used our PACE coordinator and increased the meeting frequency with all our stakeholders. Ensuring that their voices and school transparency are expressed. School nutrition has increased as we have been able to provide breakfast and lunches to all students. We have also used partnerships in our community to increase our monthly food bank to weekly and allowing the entire community to participate.

## Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

At MSA SA, our in-person instruction has strengthened with incorporating more technologies into the classroom. For example, purchasing chrome books for students, hotspots for internet, and interactive panels for teaching. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Distance Learning program has been made easy with the purchases of chrome books, hotspots, and extra teaching devices like a touch screen interactive TV, iPads, cameras, and accessing our online curriculum with fidelity. To support the learning loss of students, we at MSASA have increased interventions from twice weekly after school to including Saturday invention/ tutoring opportunities. We have increased the length of our hours during summer school and purchased an additional supplemental curriculum supporting math, ELA, science, and social studies. In supporting our student's and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL curriculum and mindfulness activities for all stakeholders. Under Pupil and Family engagement outreach, we have used our PACE coordinator and increased the meeting frequency with all our stakeholders. Ensuring that their voices and school transparency is expressed. School nutrition has increased as we have been able to provide breakfast and lunches to all students. We have also used partnerships in our community to increase our monthly food bank to weekly and allowing the entire community to participate.

## Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

*For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year

### Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

#### Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.

- If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

- Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

## **Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan**

### **Annual Update**

The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

### **Actions Related to In-Person Instructional Offerings**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

### **Actions Related to the Distance Learning Program**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
  - Continuity of Instruction,
  - Access to Devices and Connectivity,

- Pupil Participation and Progress,
- Distance Learning Professional Development,
- Staff Roles and Responsibilities, and
- Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

## **Actions Related to Pupil Learning Loss**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.

## **Analysis of Mental Health and Social and Emotional Well-Being**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

## **Analysis of Pupil and Family Engagement and Outreach**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

## **Analysis of School Nutrition**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

## Analysis of Additional Actions to Implement the Learning Continuity Plan

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

## Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
  - As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.
- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).
- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

## Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

California Department of Education  
January 2021

<b>Expenditures by Offering/Program (Contributing to Increased/Improved requirement)</b>		
<b>Offering/Program</b>	<b>2020-21 Budgeted</b>	<b>2020-21 Actual</b>
<b>In-Person Instructional Offerings</b>	\$93,000.00	\$133,744.00
<b>Distance Learning Program</b>	\$65,000.00	\$33,300.00
<b>Pupil Learning Loss</b>	\$30,700.00	\$30,950.00
<b>Additional Actions and Plan Requirements</b>		
<b>All Expenditures in Learning Continuity and Attendance Plan</b>	\$188,700.00	\$197,994.00

# Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskinturk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

## Plan Summary [2021-22]

### General Information

A description of the LEA, its schools, and its students.

The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS)  
The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS) is a 501(c)(3) non-profit public charter school management organization dedicated to establishing and managing high-quality public charter schools in California. MPS' vision is to graduate students who are scientific thinkers that contribute to the global community as socially responsible and educated members of our society. MPS' educational approach is based on the conviction that science, technology, engineering, and math (STEM) education is essential in improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. MPS operates 10 charter school sites throughout California with an increasing trend of academic success, organizational, and financial stability.

Magnolia Science Academy Santa Ana (MSA-SA)

Magnolia Science Academy-Santa Ana (MSA-SA) is the home of the PIRATES! MSA-SA is authorized and monitored by the State Board of Education. MSA-SA is a public charter school for grades TK–12 with a mission to provide a college preparatory educational program emphasizing STEAM education in a safe environment that cultivates respect for self and others. MSA-SA offers a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and strong core knowledge presented in ways that are relevant and inspiring for our students. Tutoring, morning intervention, after-school program, Saturday Academy, and school-to-university partnerships (e.g. dual enrollment partnerships with local community colleges) supplement classroom instruction at MSA-SA. MSA-SA creates a supportive and caring environment with small class sizes and strong student-parent-teacher communication, and improves students' knowledge and skills in core subjects, thereby increasing their 21st century skills as well as their chances of success in higher education and beyond. MSA SA provides students with a comprehensive education program that creates multiple opportunities for them to develop into successful contributing members of society, and therefore, fulfill the intent of the California Charter Schools Act.

In 2018-19 academic year, Magnolia Science Academy-Santa Ana continued its third school year in our new campus at 2840 West 1st Street, Santa Ana. The new facility was funded by the State of California Prop 1D funding. The new building has 34 classrooms with state of the art science and computer labs, library and learning centers. Phase II construction is completed and includes a gym, playgrounds and an outside cafeteria to serve several functions. MSA-SA has adopted McGraw-Hill digital and in print curriculum across all four core subjects (Math, History, Science, and English). We have a 1:1 technology to student ratio and all classrooms with state of the art technology.

In March 2019, The State Board of Education(SBE) renewed Magnolia Science Academy-Santa Ana for 5 years.

## Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

According to the Fall 2018 California accountability dashboard data, we continue to have a very low suspension rate and 92% graduation rate as part of our Positive Behavior Interventions and Supports (PBIS). Additionally, we have many embedded Positive Behavior Interventions and Supports (PBIS) in our school system to ensure that our Tier I interventions are effective and create a positive, safe and enriching school environment. We attribute our high graduation rate to high parental involvement through Parent College, our School Site Council, Parent Task Force, and English Learner Advisory Committee (ELAC) and after-school workshops. During the Parent College events, parents and students receive education pertaining to the A-G requirements, which are aligned to our graduation requirements and for 4-year colleges. All students have a four-year plan and meet once a year with our college counselor. MSA-SA continues to have a high acceptance rate to four-year universities. Our seniors gain admission to a variety of colleges across the nation (e.g. UC Berkeley, UCI, Cornell, USC, CSUF, etc.). This year was a year in which we developed targeted intervention groups both academically and behaviorally appropriate to address the specific needs of our students.

We continued to use internal data to measure growth throughout the year (NWEA MAPs and SBAC IABs). The effectiveness of intervention programs during school and after school has increased this year. Our Deans of Academics work diligently to update and analyze student performance with MAP, IAB, and SBAC prep. Staff utilizes our student data/ growth to drive the instruction as well as formulate intervention grouping. Lastly, reviewing our staff, parent, and student surveys through Panorama allows for an open dialog among all stakeholders so that our action plans continue to allow us to reach our greatest potential and foster a community of lifelong learners.

According to the state CAASSP data that reflects our student growth in the change over time data distribution of students meeting and exceeding standards in English Language Arts Literacy from 2016 through the 2019 academic school years in grades third through eighth as shown in the table below:

- Reading Lexile Increased in all grade levels (except for 4th grade). We are in our second year reading program this year, MyOn that is used in elementary classrooms, during Sustained Silent Reading (SSR) in Middle School, and during Advisory for grades 9-10th.
- Our school continues to stay true to our mission to prepare our students for higher education, as such, we are proud to report that we will have another year with a goal of 100% graduation rate and 100% college pathway with our students.

- According to our 2019-20 Dashboard data, our College/Career Indicator (CCI) 77.8% prepared and 18.5% approaching prepared, in a total of 96.3% college readiness.

Here is a summary of what our stakeholders “like the most about our school  
“WHAT DO YOU LIKE BEST ABOUT YOUR SCHOOL?”

**Students:** Students in Elementary like their teachers and all the STEAM-related activities that take place in their school. Students in Secondary also like their teachers and their college culture services. The student enjoys their AP. Additionally, students in secondary like having a small class size, and the friends that they’ve made!

**Family:** Similar to our students, our families like the teachers and the college readiness program that we offer to students. The parents also like the “family feel” environment, the student information system that facilitates communication. Additionally, the parents like having a K-12 school model in order to drop off all of their school-aged students in one location.

**Staff:** The staff enjoys working with each other and really enjoys their colleagues. Staff feels that their colleagues are professional, supportive; collaborative and that everyone genuinely wants to improve the school.

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Our socioeconomically disadvantaged and Hispanic populations are our greatest need. This has become our focus area, specifically for third through eighth-grade students. Intervention groups were formed at the beginning of the year using the SBAC Spring 2018 results and our internal MAP data. Our students took our internal MAP assessment (NWEA) in the fall. Our Spring MAP assessment was administered at the end of May to measure growth.

Such targeted intervention groups include Study Skills for our SPED students (Tier III), our Power English/Math course for Tier II students, our SSR Math/Writing group for Tier II students, and our Designated and Integrated ELD courses additional supports for English Learner student population. Our elementary intervention grouping is based on the Spring SBAC and Fall. We grouped our ELA and Math interventions in the afternoon. After school, focusing on our Tier II students, students at the CAASPP standards nearly met and not met, and our Tier III students. They are struggling in English Language Arts and Mathematics. These interventions are revisited quarterly, and changes are made depending on student progress. Students are identified for the SSPT process based on intervention and classroom assessment, and progress.

Our students are coming from different curriculum backgrounds. Our goal is to close this performance gap to ensure their ready and successful for the next grade level.

We continue to provide social-emotional support for our students. This year we received an MTSS grant which allowed us to partner with Western Youth Services so that our families can have access to free/affordable counseling and Help Me Grow for elementary students. Our goal is for these partnerships.

We conducted our annual panorama surveys and reflected on our stakeholders' greatest areas of need.

#### WHAT DO YOU LIKE LEAST ABOUT YOUR SCHOOL?

Students: The Elementary students like least the food and not having enough area to play or a permanent playground. The students also reported that there are mean comments/name-calling/bad words happening in school. The Secondary students strongly dislike the school food, the crowded hallways, and the restrictions to bathroom usage.

Families: Our parents have concerns about our limited parking space and the drop-off/pick-up system in place.

Staff: Our staff indicated that student discipline isn't consistently being enforced and that the number of student behavior issues hasn't decreased.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

MSA-SA has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups. Our Pillars: Excellence, Innovation and Connection (EIC) guide our action plan. MSA-SA wants to continue to work towards promoting and developing academic excellence for all of our students. This year we focused on ten school goals in which incorporated academic, MTSS, and college going culture, such as all student groups will show a three-point growth on the CAASPP ELA and Math assessments. We will develop, align, and improve academic and behavioral resources, programs, supports, and services and address the needs of the whole child by utilizing a coherent MTSS framework. An additional goal is a 100% four year graduation rate and a 100% UC/CSU A-G course completion rate.

MSA-SA Parent Advisory Committee (PAC) committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College
- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs

- Providing counseling and positive behavior intervention support services to our students
- Keeping affective teachers and improving teacher observation and evaluation systems
- School Site Council (SSC) involvement and engagement in the LCAP and school decisions

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

## Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-1 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include four PAC/PTF meetings, four SSC meetings, four ELAC meetings, at least five parent activities/events including two Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made 45 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific stakeholder groups.

MSASA throughout the school year held various meetings through PAC, SSC, ELAC, and informational sessions, as well as stakeholder surveys, to gather input to support the direction and funding essential to meet the needs of the learning community. Below are a few trends that have influenced the development of the goals and expense:

1. Safety for students, staff, and families in the form of environmental climate and socio-emotional support. This includes hiring and training of staff members and supplemental support from organizations and cloud-based platforms.
2. Academic Growth outcomes for ELs and SWD. This includes the hiring and ongoing support of staff members to support student's academic endeavor, usage of programs to identify and intervene in academic areas of need and provide additional resources in the form of programs or additional support through Summer School, Winter Session, Additional Tutoring Sessions, and Home Visits.

3. Stakeholders recognize the mission, vision, and core values of the organization. Stakeholders are pleased and continue to support the learning community to provide a program centered around Excellence, Innovation, and Connection. MSASA will continue to provide students with individualized support and a program that identifies their learning styles, personalities, interests, and career plans to make every learner college- and career-ready. MSASA will continue to create and expand a climate that provides a sense of connection and belonging to support students' development of personal and academic networks for long-term resilience and connection.

#### SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

These elements continue to be vital for our stakeholders and the learning community is committed to adapt and equip all stakeholders to meet their fullest potential and endeavors. Based on surveys and organized meetings with stakeholders, many are pleased with the program and direction. MSASA will continue to strive for excellence to provide students with opportunities for growth and social mobility.

#### A description of the aspects of the LCAP that were influenced by specific stakeholder input.

MSA-SA's LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Morning Interventions, Tutoring Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Increasing college preparedness by offering a college planning and career exploration program for students early on, strengthening existing "Advisory" programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Other input includes improving school facilities and the lunch program.

# Goals and Actions

## Goal

Goal #	Description
1	<b>BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT:</b> All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0				2023-24: 0
Percentage of students without access to their own copies of standards-aligned instructional	2020-21: 0%				2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0				2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 94.0%				2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.1%				2023-24: 97.0%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee	\$33,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall,</p>	\$1,035,721.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$563,491.00	No

Action #	Title	Description	Total Funds	Contributing
4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,000.00	Yes
5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&amp;C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p>	\$1,538,903.00	No

		The following expenditures will be funded by federal Title funds: N/A		

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

# Goals and Actions

## Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest (Source: Local	2020-21: 100%				2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%				2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%				2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 45%				2023-24: 100%
Percentage of students who have received a grade of “C” or better (or	2020-21: (First semester) 69%				2023-24: 80%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Broad course of study and standards-based curriculum	<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p>	\$2,477,676.00	No

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Professional development expenses: Resource: Title II, Part A; Amount: \$45,000</li> </ul>	\$57,200.00	Yes

Action #	Title	Description	Total Funds	Contributing
3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Educational Software: Resource: Title I, Part A; Amount: \$30,234</li> <li>• Educational Software: Resource: Title IV, Part A; Amount: \$14,000</li> </ul>	\$630,296.00	Yes

Action #	Title	Description	Total Funds	Contributing
4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services	\$1,147,597.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• 2100 Instructional Aide Salaries: Resource: Title I, Part A; Amount: \$155,796</li> <li>• 3100 STRS: Resource: Title I, Part A; Amount: \$6,449</li> <li>• 3200 PERS: Resource: Title I, Part A; Amount: \$26,959</li> <li>• 3300 OASDI/Medicare: Resource: Title I, Part A; Amount: \$9,555</li> <li>• 3400 Health &amp; Welfare Benefits: Resource: Title I, Part A; Amount: \$15,541</li> <li>• 3500 Unemployment Insurance: Resource: Title I, Part A; Amount: \$588</li> </ul>

# Goals and Actions

## Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard)	2018-19: 77.8%				2021-22: 70.0%
Percentage of students in Grade 11 meeting or exceeding standard on the CAASPP-ELA/Literacy	2018-19: 50.0%				2021-22: 53.0%

assessments (Source: CDE DataQuest)					
Percentage of students in Grade 11 meeting or exceeding standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest)	2018-19: 55.56%				2021-22: 60.0%
Percentage of all AP exam takers in the current year with a score of 3 or higher (Source: College Board)	2019-20: 47.8%				2022-23: 45.0%
Percentage of seniors who have passed an AP exam with a score of 3 or higher during their high school years (Source: College Board)	2019-20: 48.1%				2022-23: 45.0%
Percentage of seniors who completed at least one semester of college coursework with a grade of C minus or better in academic/CTE subjects where college credit is awarded (Source: SIS)	2020-21: (As of 5/16/21) 28.6%				2023-24: 40.0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of cohort graduates meeting UC/CSU requirements (Source: CALPADS, CDE DataQuest)	2019-20: 100%				2022-23: 85.0%
Percentage of cohort graduates earning a Seal of Biliteracy (Source: CDE DataQuest)	2020-21: (As of 5/16/21) 45.0%				2023-24: 30.0%
Percentage of cohort graduates earning a Golden State Seal Merit Diploma (Source: CDE DataQuest)	2020-21: (As of 5/16/21) 40.0%				2023-24: 30.0%
Percentage of cohort graduates earning an Advanced or Honors MPS Diploma (Source: SIS)	2020-21: (As of 5/16/21) 60.0%				2023-24: 30.0%
Percentage of high school completers accepted to a 4-year or 2-year college (Source: Naviance)	2020-21: (As of 5/16/21) 65.0%				2023-24: 80.0%
Percentage of high school completers accepted to a 4-year college (Source: Naviance)	2020-21: (As of 5/16/21) 60.0%				2023-24: 50.0%
College-Going Rate (Source: CDE DataQuest)	Class of 2018: 57.1%				Class of 2021: 60.0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 5%				2023-24: 10%
Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%				2023-24: 100%
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 90%				2023-24: 90%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	College/Career readiness programs and activities	<p>Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies.</p> <p>Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Educational Software: Resource: Title IV, Part A; Amount: \$4,866</li> </ul>	\$98,331.00	Yes
2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science</p>	\$500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Educational Software: Resource: Title IV, Part A; Amount: \$500</li> </ul>		
3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$105,765.00	Yes

Action #	Title	Description	Total Funds	Contributing
4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Educational Software: Resource: Title IV, Part A; Amount: \$400</li> </ul>	\$185,694.00	Yes
5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities,</p>	\$538,529.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>

## Goals and Actions

### Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3				2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3				2023-24: 4

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be</p>	\$224,715.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Teacher Salaries: Resource: Title I, Part A; Amount: \$12,000</li> <li>• Professional Services: Resource: Title I, Part A; Amount: \$25,000</li> </ul>		
3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and</p>	\$269,521.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Additional services for homeless students: Resource: Title I, Part A; Amount: \$2,000</li> </ul>		
4	Annual stakeholder surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school	\$2,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$10,000.00	Yes

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
30.53%	\$1,448,867

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other

support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of

them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced

Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education,

activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will

hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These

activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional

supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal

programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory

and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved

services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared

for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

# Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC 52064(b)(7)*).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# Stakeholder Engagement

## Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

### Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

**Prompt 2:** “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### ***Focus Goal(s)***

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### ***Broad Goal***

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### ***Maintenance of Progress Goal***

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### ***Measuring and Reporting Results:***

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

### **Goal Analysis:**

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55%:** For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55%:** For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40% or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

## Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
  - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

## 2021-22 LCFF Budget Overview for Parents Data Input Sheet

<b>Local Educational Agency (LEA) Name:</b>	Magnolia Science Academy San Diego
<b>CDS Code:</b>	37-68338-0109157
<b>LEA Contact Information:</b>	Name: Gokhan Serce Position: Principal Email: gserce@magnoliapublicschools.org Phone: (619) 644-1300
<b>Coming School Year:</b>	2021-22
<b>Current School Year:</b>	2020-21

\*NOTE: The "High Needs Students" referred to in the tables below are Unduplicated Students for LCFF funding purposes.

<b>Projected General Fund Revenue for the 2021-22 School Year</b>	<b>Amount</b>
<b>Total LCFF Funds</b>	\$3,660,985
<b>LCFF Supplemental &amp; Concentration Grants</b>	\$263,760
<b>All Other State Funds</b>	\$706,901
<b>All Local Funds</b>	\$55,000
<b>All federal funds</b>	\$356,464

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy San Diego

CDS Code: 37-68338-0109157

School Year: 2021-22

LEA contact information:

Gokhan Serce

Principal

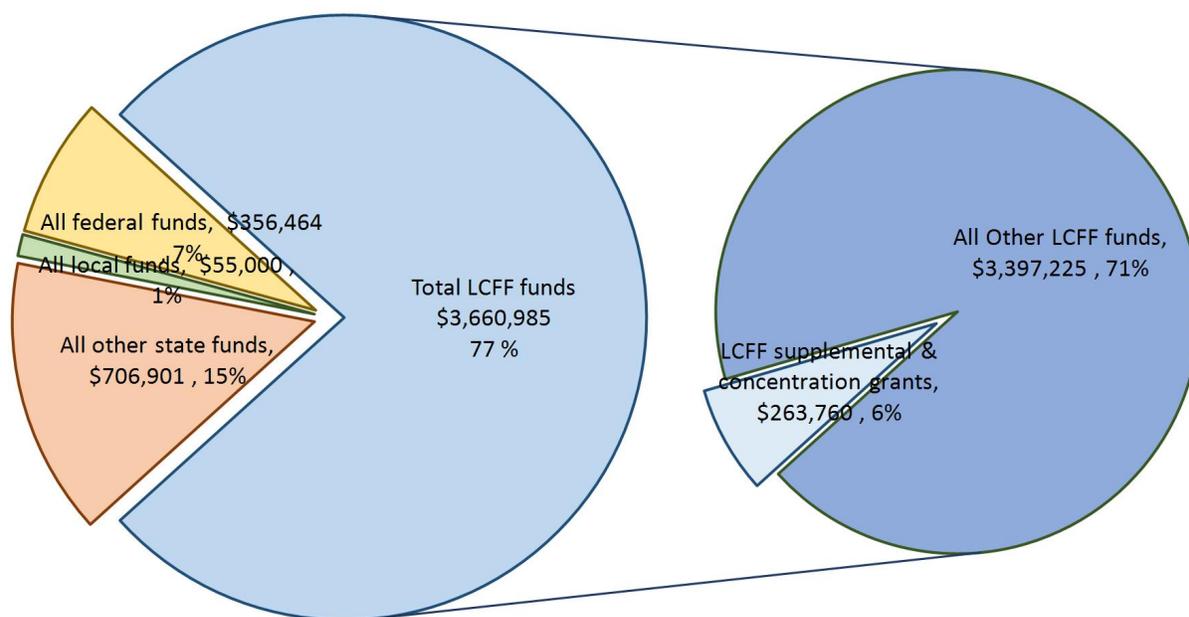

[gserce@magnoliapublicschools.org](mailto:gserce@magnoliapublicschools.org)

(619) 644-1300

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2021-22 School Year

#### Projected Revenue by Fund Source

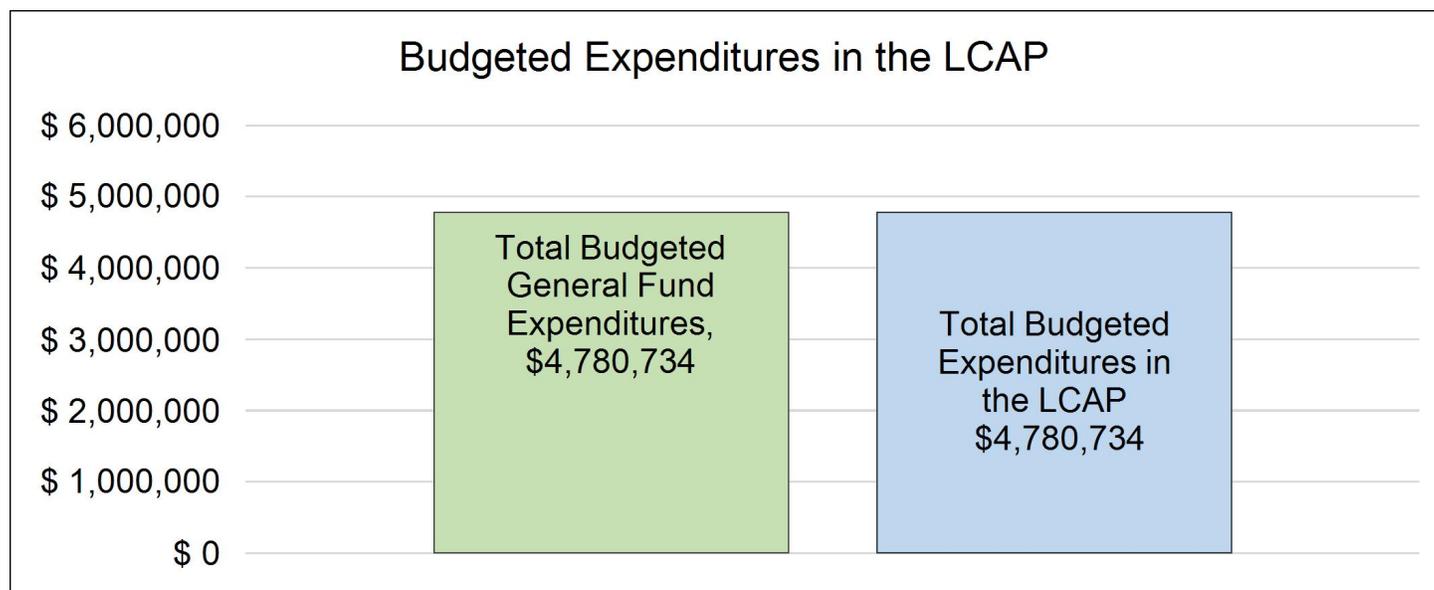

This chart shows the total general purpose revenue Magnolia Science Academy San Diego expects to receive in the coming year from all sources.

The total revenue projected for Magnolia Science Academy San Diego is \$4,779,350, of which \$3,660,985 is Local Control Funding Formula (LCFF), \$706,901 is other state funds, \$55,000 is local

funds, and \$356,464 is federal funds. Of the \$3,660,985 in LCFF Funds, \$263,760 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

## LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Magnolia Science Academy San Diego plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

Magnolia Science Academy San Diego plans to spend \$4,780,734 for the 2021-22 school year. Of that amount, \$4,780,734 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

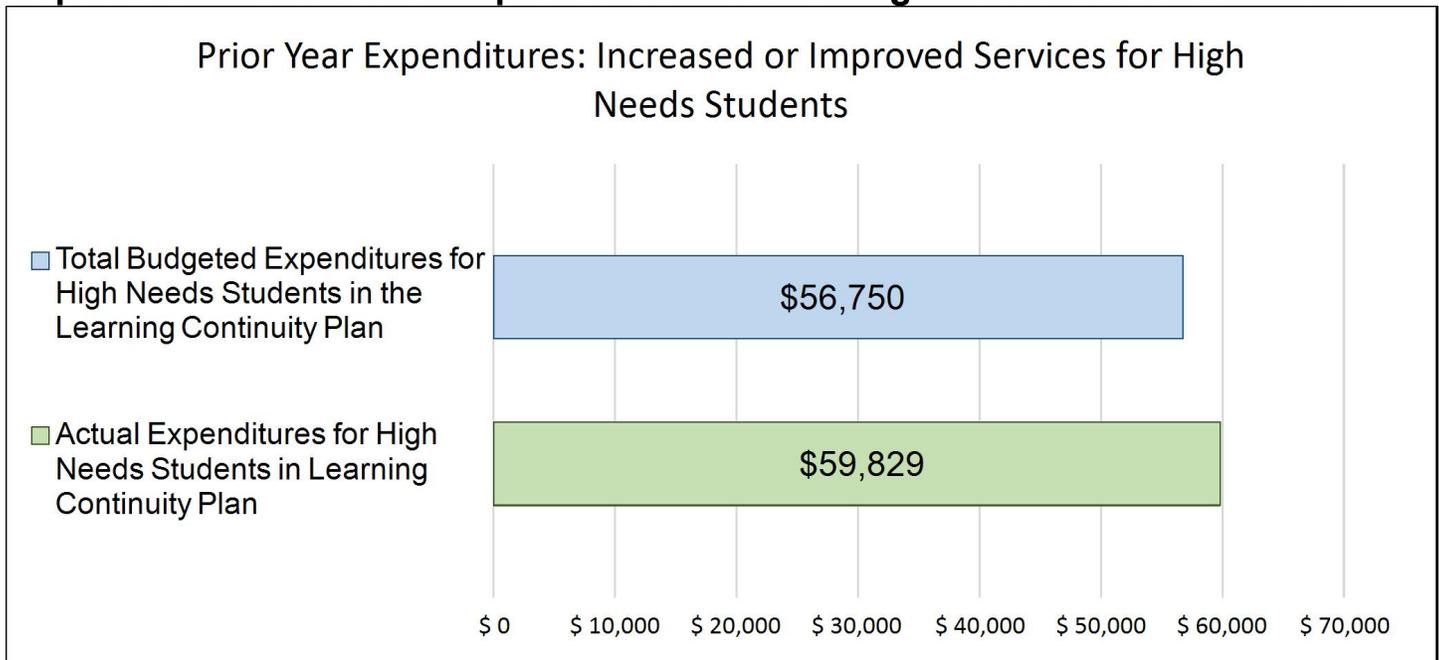

All general fund budget expenditures have been included in the LCAP.

### Increased or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, Magnolia Science Academy San Diego is projecting it will receive \$263,760 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy San Diego must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy San Diego plans to spend \$1,023,536 towards meeting this requirement, as described in the LCAP.

## LCFF Budget Overview for Parents

### Update on Increased or Improved Services for High Needs Students in 2020-21

This chart compares what Magnolia Science Academy San Diego budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy San Diego estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, Magnolia Science Academy San Diego's Learning Continuity Plan budgeted \$56,750 for planned actions to increase or improve services for high needs students. Magnolia Science Academy San Diego actually spent \$59,829 for actions to increase or improve services for high needs students in 2020-21.

# Annual Update for Developing the 2021-22 Local Control and Accountability Plan

## Annual Update for the 2019–20 Local Control and Accountability Plan Year

LEA Name	Contact Name and Title	Email and Phone
Magnolia Science Academy San Diego	Gokhan Serce Principal	gserce@magnoliapublicschools.org 6196441300

The following is the local educational agency's (LEA's) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

# Goal 1

EXCELLENCE: All students will pursue academic excellence and be college/career ready.

State and/or Local Priorities addressed by this goal:

State Priorities:    Priority 1: Basic (Conditions of Learning)  
                           Priority 2: State Standards (Conditions of Learning)  
                           Priority 4: Pupil Achievement (Pupil Outcomes)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

## Annual Measurable Outcomes

Expected	Actual
<p><b>Metric/Indicator</b>            Percentage of teachers who will be appropriately assigned and fully credentialed as required by law and the charter</p> <p><b>19-20</b>            100%</p> <p><b>Baseline</b>            100%</p>	<p>2019-20:            100%</p>

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 1: Action 1: Planned: \$7,000 Actual: \$0 .Due to credentialed teachers there was no need for a BTSA and EL Authorization Expenditure.

Goal 1: Action 2: Planned: \$56,000 Actual: \$45,153 The difference is due to not meeting the expected enrollment increase. As a result we didn't purchase extra books and supplies.

Goal 1: Action 3: Planned: \$129,861 Actual: \$88,600. We were planning to add additional custodial service and also to retrofit the restrooms. Although the regular custodial and facility expenditures took place the additional plans didn't take place due to not meeting enrollment target.

Goal 1: Action 4: Planned: \$6,800 Actual: \$4,300 The school was closed for about three months due COVID-19 and teachers attended virtual and free PDs instead.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

During the 2019-20 school year, we had to close the school for in person learning in March 2020 and go to Distance Learning because of the COVID pandemic. As a result of this, we didn't administer CAASPP standardized assessments in English and Math, or our internal spring assessment (NWEA MAP) both areas to see growth from fall to spring. We did give the MAP assessment in Fall 2020. We were also not able to give the Summative ELPAC assessment during the spring semester, so our reclassification rates were not indicative of the instruction the students received over the course of the year. After school clubs and tutoring continued virtually throughout second semester.

## Goal 2

INNOVATION: All students will become independent, innovative scholars.

State and/or Local Priorities addressed by this goal:

State Priorities:     Priority 7: Course Access (Conditions of Learning)  
                           Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 2: Action 1- Planned expenditures for field trips: \$36000 Actual: 26,135. Due to the Covid-19 School closures we were not able to do the end of year field trips.

Goal 2: Action 5- Planned expenditures for Academic Competitions and STEA Expos: \$4,500 Actual: \$500. Due to the Covid-19 School closures we were not able to attend most of the competitions and host the annual San Diego STEAM Expo.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

We provided all courses, electives, programs, and services outlined in our charter petition; specific programs and services are dependent on student need and interest. Our master schedule is designed to meet the needs of all students. We sent surveys to our students to gauge their interests when we started making the master schedule and were able to use student and teacher feedback. In this year of Distance Learning, competing in different competitions was put on hold. Still, we were able to participate in Robotics competition and won the 1st place. Although we were able to do Holiday STEAM Expo event and attended San Diego Festival of Science and Engineering we could not have a school-wide or MPS-wide STEAM EXPO because of the restrictions placed upon California due to the pandemic. 8th grade promotion was done as a drive through event and streamed live on Instagram.

## Goal 3

CONNECTION: All students, families, staff, and other stakeholders will feel a sense of community and connectedness.

State and/or Local Priorities addressed by this goal:

State Priorities:     Priority 3: Parental Involvement (Engagement)  
                           Priority 5: Pupil Engagement (Engagement)  
                           Priority 6: School Climate (Engagement)

Local Priorities:

### Annual Measurable Outcomes

## Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Goal 3: Action 2: Planned: \$2,000 Actual: \$0 All the supplies for the parent activities were provided by PTF and parents.  
 Goal 3: Action 4: Planned: \$10,000 Actual: \$3,000 The school was closed for about three months due COVID-19 and teachers were not able to do more home visits.  
 Goal 3: Action 8: Planned: \$2,800 Actual: \$0. All the staff PDs took place through SDCOE and they were free. Also we used the PBIS Software "Kickboard" but it was purchased through MTSS funds under our consortium lead MSA-Santa Ana's budget.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

We held SSC, ELAC, and PTF meetings through out the the school year, we continued with virtual meetings after the pandemic. We provided parents with access to our SIS and additionally sending home four Progress Reports and two Report Cards over the year, as well as offering Parent/Teacher Conferences. Home Visits were conducted by our teachers and admin - during the first semester they were in person, but we continued second semester with online Home Visits through Zoom. Our staff and admin acknowledged and encouraged positive student behavior and improvements. We administered school experience surveys to all our stakeholders, students, parents, and staff. These surveys play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great, what we should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. Our satisfaction rates for the families, staff, and students was at an all time high, with our stakeholders happy about how we conducted Distance Learning during the pandemic. Finally Principal Serce offered weekly coffee with principal meetings to give updates, answer parent questions and to provide work shops to help parents adjust to the new normal.

## Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency's (LEA's) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

### In-Person Instructional Offerings

#### Actions Related to In-Person Instructional Offerings

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Addition of a Certified Nurses Assistant on-site 6 hours/day to provide health screenings and temperature checks for staff, students and parents/visitor	\$44,000	12,000	No
Deep Cleaning and Disinfecting of Campus	\$10,000	20,000	No
Purchase of necessary Personal Protective Equipment for students and staff	\$15,000	30,000	No
Learning Platforms to Enhance Learning (Membean, BrainPop, NWEA MAP, etc.)	\$10,000	16,650	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

- 1- In order to provide instructional services in person we hired CNA to provide health screenings and temperature checks in the beginning of the year. Since we had hard time finding CNAs, we had 4 CNAs, all for short periods of time, an RN trained our essential staff to do screening. Due to our county tier we were not able to open in person until April 12 and as a result we ended up only spending 12k of the 44k Planned.
- 2- Initially we were planning to utilize only one custodian but due to stable groups guidance and need for additional disinfection we hired a company to do additional disinfection after school.
- 3- We initially planned only purchasing basic PPE such as masks, hand sanitizers etc. We ended up spending funds on hand washing stations, Isolation tents, air purifiers, sneeze guards, signage and more PPE to provide a safe environment for our students and staff.
- 4- Due to extended Distance learning we purchased more online tools to enhance learning.

## Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

One addition we have made this school year is the addition of a Certified Nurse's Assistant to conduct all the health screenings and temperature checks of all stakeholders who enter the school. Since we had hard time finding CNAs, we had 4 CNAs, all for short periods of time, an RN trained our essential staff to do screening. Deep cleaning and disinfecting the offices, classrooms, bathrooms, and all public areas, as well as the purchase of Personal Protective Equipment has been ongoing this school year. We bought plexiglass dividers for the main office and all teachers' and students' desks, as well as all desks in offices. We purchased hand sanitizing stations, cones and arrow signs to direct drop off and pick up traffic, signage posted all around the school, and mask wearing for everyone, as well as hiring a day and night service from a vendor to help with deep cleaning and daily disinfecting. We had in-person COVID testing for all staff and students on our campus before starting Hybrid Learning. Our learning platforms include NWEA MAP for internal assessments twice a year, as well as other programs to assist teachers in the classroom. We also continued providing support for our students with disabilities with OT, speech, adapted PE, counseling , etc. services through our service providers.

## Distance Learning Program

### Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Purchase of Internet hot spots	\$9,000	15,000	Yes
Purchase of Chromebooks	\$10,000	\$20,000	

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

Due to the distance learning we needed more hot spots and Chromebooks for 20-21 school year. We did fundraising to pay for the additional Chromebook needs.

### Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

We offered a virtual Summer School during the month of July for all grades to mitigate the summer learning loss. Teachers started the beginning of August with Professional Development by admin, expert/lead teachers, and Home Office staff. During our weekly Staff Meetings and collaboration meetings with the different grade levels, Professional Development on Distance Learning strategies, attendance policies, PBIS strategies, and student engagement was continued. When school started, teachers enrolled all students in Google Classroom and school staff passed out Chromebooks and hotspots to all students who needed one. Before the school year started 100% of the students had access to a computer and internet. We provided digital versions of our curriculum through McGraw Hill. We monitored student attendance and engagement through our office clerk and SEAN (Student Engagement and Attendance Network) Team. SEAN team members made calls to families of students who were not attending and/or engaged in school activities.

Education Specialists and instructional aides continued supporting students with disabilities by entering Breakout Rooms and working with the students one on one. They continued annual IEP meetings on Zoom and included PowerPoint presentations so the parents had a visual representation of the IEP during the meeting. EL students were supported by all teachers and ELD standards were integrated in the lessons of all teachers. Teachers continued to hold tutoring and office hours for students. Saturday School was offered to mitigate learning loss.

## Pupil Learning Loss

### Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Summer Enrichment Program was provided virtually in July 2020 to provide additional educational opportunities in order to mitigate summer learning loss and prepare students for their transition to middle school.	\$24,750	17,500	Yes
Saturday school and additional office hours will be provided to all students during the 2020-21 school year to support student learning and mitigate learning loss. Great emphasis will be made to support students within the Tier 2 and 3 intervention groups with the extended learning opportunities to close the achievement gaps	\$8,000	7,500	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

Due to the distance learning, there was less interest in Summer School and Saturday School. Also, since the Summer School ended up being in Distance Learning, we had fewer expenses than planned

### Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

With additional training for teachers during summer in-service and an upgraded schedule with more support our Distance Learning 2.0 focused on offering live and total course time for all core classes and designated times for student support. Our teachers offered after-school tutoring on a daily basis. Our instructional aides provided 1-1 support sessions to our vulnerable students. Also our teachers held daily Office Hours where students were also able to talk to their teachers about assignments, projects, etc. Teachers also had a 40 minute asynchronous period after every live teaching session where they stayed and helped/retaught the students who needed the

support. Additional technology such as laptops, mics, additional monitors were purchased for the teachers and tech support is provided whenever they needed it. A targeted Saturday School program is created and offered to all high need students. Weekly 3 sessions of Math and ELA lessons offered to small groups of students to close the achievement gap.

## Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

For the entire school year our team created daily Zones of Regulations activities and presented to students during advisory class via YouTube and Facebook live streaming. The daily Donuts In the Morning presentation, hosted by 6 students and 3 staff members, helped all of our community members to connect during the distance learning. Also we provided weekly SEL lessons during SSR ,homeroom class ,that are aligned with our WIZARD WAY character education program. Our School counselor offered and counseling sessions to all students who needed extra SEL support.

During weekly staff meetings, all staff participated in mindfulness activities. We are also offering a referral service called CareSolace, which is open to all of our stakeholders. This program offers a referral service to parents, students, and students who need mental health services. We have also conducted two SEL-based surveys to our parents and staff, which have given us valuable information to plan SEL activities and professional development. We also encourage teachers to attend outside of school Professional Development on SEL strategies and then ask that they report back to the staff on what they learn.

## Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

We utilize staff, student and parent surveys with fidelity and reflect on them and make necessary changes as much as we can. 89% of our students indicated that “Overall, I am satisfied and would recommend this school to other students.” Given that we were in distance learning for nearly a year, the overall satisfaction rate is a testament to the dedication of our teachers who were determined to provide an engaging distance learning program for our student body. Moreover, it is a reflection of MSASD leadership’s guidance, coaching and efforts to adjust to the educational landscape that had many changes. The result was nearly a 10 point jump in overall satisfaction from the student population. (Connection piece- SSR, SEAN, Office hours) Our families recorded an overall satisfaction rate of 97%. We had a 2 point jump for our families. Finally our staff recorded an overall satisfaction rate of 100%.

We have increased our pupil and family engagement and outreach through our weekly newsletter Magnolia Times, Coffee with the Principal sessions every Friday, virtual assemblies, School Site Council and ELAC meetings, and multiple Town Hall meetings. It is through these avenues that our pupils and families can connect, participate, and engage with staff and home office members to voice any opinions and concerns. Over the course of this year we have been fully transparent in our learning modalities. We have presented dates and options for our pupils and families to feel comfortable in transitions back onto campus for Hybrid Learning.

## Analysis of School Nutrition

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

School meals are essential to student health and academic success, and they are critical as families may continue to struggle financially due to the coronavirus pandemic. We offered weekly meal kit pick up dates for all of our families that are in need.

## Additional Actions and Plan Requirements

### Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
			0	Yes
Mental Health and Social and Emotional Well-Being	KickBoard Positive Behavior System	\$5,000	3,179	Yes

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

We continued to use Kickboard Positive Behavior System to engage students during distance learning.

### Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

Our Distance learning experience helped us expand our ability to do more blended learning as part of our in-person instruction. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Hybrid Learning model started in April, 2021.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

To mitigate the learning loss of students, we have increased math and Ela focused tutoring .Also added more Saturday school sessions. We have increased the length of our hours during summer school and purchased an additional supplemental curriculum, IXL, supporting math, ELA, science, and social studies.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

In supporting our students' and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL curriculum and MTSS activities for all stakeholders. We have offered weekly coffee with principal meetings to address any parent concerns or to hear any suggestions from our stake holders.

## Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

Our Distance learning experience helped us expand our ability to do more blended learning as part of our in-person instruction. We have utilized our core content curriculum and integrated supplemental materials that differentiate and support all learners. Our Hybrid Learning model started in April, 2021. To mitigate the learning loss of students, we have increased math and ELA focused tutoring. Also added more Saturday school sessions. We have increased the length of our hours during summer school and purchased an additional supplemental curriculum, IXL, supporting math, ELA, science, and social studies. In supporting our students' and stakeholders' mental and social-emotional wellbeing, we have increased our surveys and partnered with Care Solace, a counseling program that supports our students, staff members, and families. We have also incorporated the SEL curriculum and MTSS activities for all stakeholders. We have offered weekly coffee with principal meetings to address any parent concerns or to hear any suggestions from our stakeholders.

## Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

*For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

### Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.

- If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

- Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

## **Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan**

### **Annual Update**

The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

### **Actions Related to In-Person Instructional Offerings**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

### **Actions Related to the Distance Learning Program**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
  - Continuity of Instruction,
  - Access to Devices and Connectivity,

- Pupil Participation and Progress,
- Distance Learning Professional Development,
- Staff Roles and Responsibilities, and
- Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

## **Actions Related to Pupil Learning Loss**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.

## **Analysis of Mental Health and Social and Emotional Well-Being**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

## **Analysis of Pupil and Family Engagement and Outreach**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

## **Analysis of School Nutrition**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

## **Analysis of Additional Actions to Implement the Learning Continuity Plan**

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

## **Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
  - As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.
- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).
- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

## **Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan**

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

California Department of Education  
January 2021

## Annual Update for the 2019–20 Local Control and Accountability Plan Year Expenditure Summary

Total Expenditures by Funding Source

# Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy San Diego	Gokhan Serce Principal	gserce@magnoliapublicschools.org (619) 644-1300

## Plan Summary [2021-22]

### General Information

A description of the LEA, its schools, and its students.

Magnolia Science Academy San Diego (MSA-San Diego) is an independent public charter school located in the Allied Gardens community. MSA- San Diego serves around 440 students in grades 6–8, with classes that average 30 or fewer students. The school was founded in the fall of 2005 by a group of scientists and engineers devoted to math, science, and technology education. Magnolia’s mission is to provide a high-quality college preparatory educational program emphasizing science, technology, engineering, arts and math (STEAM) in a safe environment that cultivates respect for self and others.

MSA-San Diego provides a challenging academic curriculum, a highly qualified staff, and a variety of learning opportunities such as enrichment classes, athletics programs, free tutoring, afterschool clubs, character education classes, field trips, community meetings, and much more. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-San Diego is supplemented by tutoring, after-school programs, and school-to-university links. Starting 2013–14 school year, MSA-San Diego transitioned to a 1:1 program with computers in every classroom. Since the 2013-14 School year MSA-San Diego Robotics, Future City (Engineering) and Archery teams and School Band won first place at multiple state and local competitions.

MSA-San Diego is a member of the Magnolia Public Schools family and collaborates with sister schools and other educational organizations to offer the best quality education to the students.

## Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

- CDE recognized our school as a California Distinguished School
- We are implementing Restorative Practices to improve school culture and provided many professional developments for our staff and teacher leaders.
- Trained all admin team and teacher leaders in MTSS through MTSS grant.
- MSA-San Diego's overall performance in State testing based on latest California School Dashboard is green in Math and Blue in ELA.
- MSA-San Diego showed significant growth in state test in both Math and English for English Learners
- Our school outperformed all of the charter middle schools in city of San Diego and all of the middle schools in Navajo community.
- MSA-San Diego established partnership with the local community college to host community events like San Diego STEAM Expo.
- MSA-San Diego provided opportunities for students to showcase their achievements in STEAM fields. Some of the opportunities are:

1-Seaperch underwater robotics team made it to international Finals

2-Our FLL Robotics team won the 1st place in LEGOLAND at SoCal competition 6 time in the last 7 years.

3-Our Archery team won San Diego, State and National 1st,2nd and 3rd place awards at the Olympic Archery in Middle Schools competitions.

4-MSA-San Diego cohosted 6 annual San Diego STEAM Expo with Grossmont College

5-Participated San Diego Festival of Science and Engineering with over 80 students. Over 7,000 visitors visited Magnolia booths.

- The level of parent participation for school events increased significantly.
- MSA-San Diego PTF established their bylaws and had their second election with the new bylaws.
- Although we are in Distance Learning , MSA-San Diego is close to meeting its home visit target.
- Prepared our site to in-person learning with all the required safety measures.
- MSA-San Diego hosted, organized or participated in over 15 virtual school and community events throughout the school year.
- Hosted daily Live Donuts in The Morning announcements via YouTube bring our community together.

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

- Increase academic achievement in the area of math for students with disabilities group in CAASPP.
- Recruiting and retaining highly qualified teachers
- Continual refinement of intervention programs to assist in closing the achievement gap for all student groups.
- Empowering students to be school wide student leaders in the establishment of school culture with a new school culture model.

- After a 13 month Distance learning and a new pandemic era students and staff need more academic, social emotional, and mental health resources and support.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent trainings via activities such as Coffee w/ Principal, PTF and LCAP meetings
- Although currently we are the highest performing charter middle school in the county and in the Navajo community based on Dashboard data we see that all of our stake holders are worried about learning loss due to pandemic limitations and Distance Learning. There is a need to provide more targeted instruction based on NWEA MAP Fall to Spring data.
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing positive behavior intervention support services to our students through well-established Restorative Practices system.
- Continue using teacher evaluation system "TeachBoost"
- Reduce chronic absenteeism to under 5%

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

## Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

# Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-San Diego has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, ELAC Meetings, Coffee with the Principal meetings, Townhall meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff and the Charter School staff make virtual and in-person home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include 4 PTF meetings, 2 SSC meetings, 3 ELAC meetings, at least 30 parent activities/events including Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 40 in person and virtual home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific stakeholder groups.

Parent Advisory Committee (PAC)/Parents:

- Transition to in person as soon as it is safe.
- Happy with the Uniform expectations.
- Continue to provide a variety of courses in Summer school
- Add more electives.
- Asked for weekly update meetings to continue

Students:

- Students shared that teachers are respectful, helpful, nice, they work hard, they spend extra time to support students.

- Friends/Classmates are kind.
- After school clubs and activities provide opportunities for students to connect with friends, learn and have fun.
- Students were not happy about the Distance Learning
- Students shared that they want less limitations on uniforms
- Students asked for more mental health support for themselves and their friends
- Students also asked for new Chromebook
- Students would like to see more elective opportunities.

#### Staff:

- Continue to build on our Multi-Tiered System of Support
- Continue to provide social-emotional learning (SEL) experiences
- Continue with our Zone of Regulation SEL lessons to increase awareness and ownership of The WIZARD Way.
- Continue to use on-line PBIS platform, Kickboard, to recognize our students who demonstrate The WIZARD Way
- Staff asked for a Chromebook and Teacher computer upgrade
- Bring more outside resources for our site professional development
- Staff would like to attend Magnolia wide PDs via Zoom.
- Staff shared that there is more need for mental health and SEL Support.

#### School Site Council (SSC):

- SSC members were concerned about the amount of live classes offered during Distance Learning
- DL 2.0 is more organized and effective.
- A hybrid model will help students to transition to normalcy in a faster way.

#### ELAC:

- Parents are happy about the additional EL support taking place in the mornings and in the afternoons.

#### SELPA:

- Create a plan to provide targeted support for Students with Disabilities in Math.

### A description of the aspects of the LCAP that were influenced by specific stakeholder input.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Expanding after school tutoring and summer school opportunities
- Adding Saturday school for academic support
- Providing counseling and mental health support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers

- Investing in new Chromebook and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Improving student restrooms
- Providing more staff PDs through outside professionals
- Other input includes improving school facilities such as the lunch area, roofs and A/C units.

# Goals and Actions

## Goal

Goal #	Description
1	<b>BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT:</b> All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0				2023-24: 0
Percentage of students without access to their own copies of standards-aligned instructional	2020-21: 0%				2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0				2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 85%				2023-24: (Spring 2023 to Fall 2023) 85%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.3%				2023-24: 97.0%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee	\$16,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Teacher credentialing expenses: Resource: Title II, Part A; Amount: \$9,578 (Included under action 2.2)</li> </ul>		
2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$348,180.11	No

		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Hot Spots and Zoom Expenses : Resource: 3210 ESSER Funds; Amount: \$17,000</li> </ul>		
3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p>	\$993,232.10	No

		The following expenditures will be funded by federal Title funds: N/A		
4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$12,000.00	Yes
5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.	\$257,389.79	No

		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&amp;C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Goals and Actions

### Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest (Source: Local	2020-21: 100%				2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%				2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%				2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 100%				2023-24: 100%
Percentage of students who have received a grade of “C” or better (or	2020-21: (First semester) 75%				2023-24: 80%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Broad course of study and standards-based curriculum	<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,207,109.87	No

Action #	Title	Description	Total Funds	Contributing
2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$9,578.00</li> </ul>	\$31,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL, Quizizz, BrainPOP, Membean, Nearpod, EdPuzzle)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• NWEA MAP testing fees: Resource: Title I, Part A; Amount: \$6,000</li> <li>• Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above): Resource: Title I, Part A; Amount: \$10,457</li> <li>• Instructional Aide Salaries and Benefits: Resource: Title I, Part A; Amount: \$15,710</li> </ul>	\$362,512.95	Yes

Action #	Title	Description	Total Funds	Contributing
4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p>		Yes

Action #	Title	Description	Total Funds	Contributing
5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$783,035.90	No

## Goals and Actions

### Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 27%				2023-24: 20%
Percentage of students in the current graduating class who have taken a	2020-21: (As of 4/16/21) 100%				2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%				2023-24: 100%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college related activities.</p> <p>Expenditures associated with this action include the following: college/career related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p>	\$4,300.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees and Sound Trap Music Software .</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Sound Trap : Title IV, Part A; Amount: \$800</li> </ul>		
4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Physical activity, fitness, and equipment expenses: Resource: Title IV, Part A; Amount: \$700</li> </ul>	\$175,743.44	Yes

Action #	Title	Description	Total Funds	Contributing
5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$234,697.92	Yes

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Goals and Actions

### Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 1				2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 2				2023-24: 4
Number of Parent Advisory Committee	2020-21: (As of 5/16/21)				2023-24: 4

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(PAC) meetings per year (Source: Local Indicator Priority 3)	28				
Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 19				2023-24: 5
Number of progress reports sent to parents per year (Source: Local Indicator Priority 3)	2020-21: 4				2023-24: 4
Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS)	2020-21: (As of 4/16/21) 5.1%				2023-24: 15%
Average Daily Attendance (ADA) Rate (Source: SIS)	2020-21: (P-2 ADA) 98.22%				2023-24: 97.00%

## Actions

Action #	Title	Description	Total Funds	Contributing
1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized</p>	\$288,273.35	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• Stipends for home visits: Resource: Title I, Part A; Amount: \$10,000</li> <li>• ParentSquare software fees: Resource: Title I, Part A; Amount: \$3,000</li> <li>• Parent Education Bridge program Staff Stipends: Resource: Title I, Part A; Amount: \$4,000</li> <li>• Parent activity/event expenses: Resource: Title I, Part A; Amount: \$XX,XXX</li> </ul>		
3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and</p>	\$44,508.20	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> <li>• PBIS program fees : Resource: Title IV, Part A; Amount: \$5,000</li> <li>• Additional services for homeless students: Resource: Title I, Part A; Amount: \$2,750.00</li> </ul>		
4	Annual stakeholder surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$20,000.00	Yes

## Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

**A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.**

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
7.76%	\$263,760

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other

support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of

them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and

improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home

visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English

learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students

and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provide valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budget, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in

increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for

improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

4	5	Community outreach and partnerships	LEA-wide	English Learners Foster Youth Low Income	All Schools	\$20,000.00	\$20,000.00

# Instructions

[Plan Summary](#)

[Stakeholder Engagement](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

# Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC 52064(b)(7)*).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# Stakeholder Engagement

## Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

### Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

**Prompt 2:** “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### ***Focus Goal(s)***

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### ***Broad Goal***

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### ***Maintenance of Progress Goal***

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### ***Measuring and Reporting Results:***

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations, Title 5 [5 CCR] Section 15496(b)* in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

### Goal Analysis:

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55%:** For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55%:** For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40% or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

## Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
  - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

# 2021-22 July Budget

## June 2021 Board Meeting

# 2021-22 July Budget: Executive Summary

- This July Budget is based on the latest available information regarding state funding, deferrals, approved one-time state and federal stimulus, and all other considerations. Included are both AB86 Grants as well as CARES Act funding. We will receive 50% of AB86 in the coming fiscal year as well as a partial amount of ESSER II and ESSER III.
- Based on the latest budget changes, including adjustments to expenditures reflecting additional costs for distance learning and other changes since the original budget was approved, here are the budget results:
  - **Average Daily Attendance of 3,643 which is an overall drop of 70 ADA from P-2 of 2020-21**
  - **Revenues of \$63.17 million, up \$2.26m from Prior Year**
  - **Expenditures of \$61.14 million, up \$2.64m from the Prior Year**
  - **Net operating surplus of \$2.02m, down \$0.38m from SIB projections in 2020-21**
- MPS overall cash position is very solid with a projected low point of \$21.1 million at the start of July, the only planned deferrals are currently scheduled for June of 2022 and will not cause issues for any sites.
- A difference to note as compared to prior reports is the inclusion of object 4464 which has been used previously to budget potential capital expenditures.

## MSA-1 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$1,151,289.

This is an increase of \$158,789 from the prior year projected surplus of \$992,500.

This will allow MSA-1 to end this fiscal year with a balance of \$7,445,903, which is 72.4% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$3,098,092, which represents 110 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$3,703,681, which represents 131 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$562,010, or 5.2% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are \$464,891 higher than in the prior year, with average daily attendance (ADA) increasing by 79.49.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$580,641) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$547,799 higher than in the prior year.

**Other Local Revenues:** This category is primarily fundraising revenue, but includes any non-LCFF local revenue sources.

Other Local Revenues are projected at \$129,961 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$403,221, or 4.1% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$581,075 higher than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$317,599) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$143,099 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at (\$3,354) lower than in the prior year, reflecting stable depreciation and capital outlay projections.

## MSA-2 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$287,435.

This is an increase of \$72,412 from the prior year projected surplus of \$215,023.

This will allow MSA-2 to end this fiscal year with a balance of \$2,079,431, which is 32.5% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$2,708,611, which represents 154 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$2,906,196, which represents 166 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$482,530, or 7.8% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are \$784,118 higher than in the prior year, with LCFF COLA adjustments.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$604,004) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$334,725 higher than in the prior year.

**Other Local Revenues:** This category is primarily fundraising revenue, but includes any non-LCFF local revenue sources.

Other Local Revenues are projected at (\$32,310) lower than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$410,117, or 6.8% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$328,704 higher than in the prior year, reflecting budget adjustments to address changes.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$224,876) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$276,231 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$30,059 higher than in the prior year, reflecting updated depreciation and capital outlay projections.

## MSA-3 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$31,679.

This is an decrease of (\$170,112) from the prior year projected surplus of \$202,996.

This will allow MSA-3 to end this fiscal year with a balance of \$1,035,390, which is 15.7% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,588,976, which represents 88 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,851,492, which represents 102 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$164,164, or 2.5% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$486,975) lower than in the prior year, with average daily attendance (ADA) decreasing by 68.78.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at \$432,487 higher than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$228,166 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$20,000 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$334,276, or 5.3% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$536,590 higher than in the Prior Budget, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$69,968) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be (\$149,297) lower than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$16,951 higher than in the prior year, reflecting updated depreciation and capital outlay projections.

## MSA-4 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$4,612.

This is an increase of \$8,142 from the prior year projected deficit of (\$2,326).

This will allow MSA-4 to end this fiscal year with a balance of \$910,575, which is 40.5% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$929,811, which represents 151 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,044,592, which represents 170 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$381,622, or 20.4% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$1,854) lower than in the prior year, with average daily attendance (ADA) decreasing by 11.31.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at \$315,522 higher than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$70,277 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$7,500 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$373,480, or 19.9% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$468,333 higher than in the Prior Budget, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$52,780) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be (\$37,071) lower than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at (\$5,002) lower than in the prior year, reflecting stable depreciation and capital outlay projections.

## MSA-5 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$200,740.

This is an decrease of (\$428,437) from the prior year projected surplus of \$629,177.

This will allow MSA-5 to end this fiscal year with a balance of \$2,937,302, which is 70.2% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,912,525, which represents 167 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$2,081,389, which represents 182 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = decrease of (\$16,857), or -0.4% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$335,482) lower than in the Prior 2019-20 Budget, due to average daily attendance (ADA) decreasing by 8.5219999

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$14,274) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$314,766 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$18,133 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$411,580, or 10.9% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$351,000 higher than in the prior year, reflecting budget adjustments to address changes.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$126,981) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$182,112 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$5,449 higher than in the prior year, reflecting updated depreciation and encroachment projections.

## MSA-6 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$48,916.

This is an decrease of (\$17,549) from the prior year projected surplus of \$66,466.

This will allow MSA-6 to end this fiscal year with a balance of \$1,966,926, which is 117.5% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,880,247, which represents 410 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,880,247, which represents 410 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = decrease of (\$407,598), or -19.1% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$742,488) lower than in the prior year, with average daily attendance (ADA) decreasing by 50.7.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at \$359,445 higher than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$228,166 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$4,358 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = decrease of (\$390,049), or -18.9% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are (\$191,243) lower than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$317,599) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$276,231 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$9,343 higher than in the prior year, reflecting updated depreciation and encroachment projections.

## MSA-7 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$95,549.

This is an increase of \$84,905 from the prior year projected surplus of \$10,644.

This will allow MSA-7 to end this fiscal year with a balance of \$1,985,085, which is 46.8% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,670,663, which represents 144 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,887,039, which represents 163 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$207,100, or 5.0% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are \$100,389 higher than in the prior year, with average daily attendance (ADA) increasing by 1.47.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$110,040) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$228,166 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$4,244 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$122,195, or 3.0% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$353,783 higher than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$317,599) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$276,231 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$6,839 higher than in the prior year, reflecting updated depreciation and capital outlay projections.

## MSA-8 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$18,311.

This is an increase of \$109,778 from the prior year projected deficit of (\$91,467).

This will allow MSA-8 to end this fiscal year with a balance of \$4,714,791, which is 76.9% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$3,950,467, which represents 235 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$4,134,671, which represents 246 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = decrease of (\$149,342), or -2.4% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$250,942) lower than in the prior year, with average daily attendance (ADA) decreasing by 46.52.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$185,184) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$228,166 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$14,500 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = decrease of (\$259,120), or -4.1% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$361,920 higher than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$317,599) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$276,231 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$4,877 higher than in the prior year, reflecting updated depreciation and capital outlay projections.

## MSA-SA 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$179,791.

This is an increase of \$130,238 from the prior year projected surplus of \$49,552.

This will allow MSA-SA to end this fiscal year with a balance of \$7,847,901, which is 90.0% of annual expenditures. However, the majority of this is fixed assets.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,478,906, which represents 62 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,944,475, which represents 81 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$8,901,990, or 105.9% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are \$6,194,583 higher than in the prior year, with average daily attendance (ADA) increasing by 528.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at \$1,394,270 higher than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$829,312 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at \$20,000 higher than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$8,722,199, or 104.4% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$6,019,804 higher than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at \$404,443 higher than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$1,761,248 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$1,224,424 higher than in the prior year, reflecting updated capital outlay projections.

## MSA-SD 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$3,616.

This is an decrease of (\$275,614) from the prior year projected surplus of \$279,230.

This will allow MSA-SD to end this fiscal year with a balance of \$574,244, which is 12.0% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$770,933, which represents 59 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$770,933, which represents 59 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total Change from Prior Year = increase of \$56,857, or 1.2% of Prior Year revenues)

**LCFF Entitlement:** These "Local Control Funding Formula" revenues are the primary funding source for the school.

LCFF Entitlement projected revenues are (\$106,167) lower than in the prior year, with average daily attendance (ADA) decreasing by 16.53.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

Federal Revenues are projected at (\$22,067) lower than in the prior year.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

Other State Revenues are projected at \$228,166 higher than in the prior year.

**Other Local Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and one-time block grants.

Other Local Revenues are projected at (\$29,557) lower than in the prior year..

### SIGNIFICANT CHANGES IN EXPENSES (Total Change from Prior Year = increase of \$332,471, or 7.5% of Prior Year expenses)

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$355,476 higher than in the prior year, reflecting budget adjustments to address changes in enrollment and other factors.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$317,599) lower than in the prior year.

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be \$276,231 higher than in the prior year.

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets and interest on long-term debt.

These costs are projected at \$4,208 higher than in the prior year, reflecting updated depreciation and encroachment projections.

## MERF 2021-22 July Budget - Summary Analysis

### SUMMARY OF RESULTS

This 2021-22 July Budget update projects a budget surplus of \$5,352.

This is an decrease of (\$52,143) from the prior year projected surplus of \$57,495.

This will allow MERF to end this fiscal year with a balance of \$2,017,552, which is 34.4% of annual expenditures.

### CASH FLOW

Operating cash flow is projected to remain positive throughout this fiscal year, as shown in the attached monthly cash flow schedule.

The lowest projected ending cash balance this fiscal year is \$1,097,935, which represents 68 days of operating costs on average.

The June 30, 2022 ending cash balance this fiscal year is projected to be \$1,097,935, which represents 68 days of average operating costs.

This cash flow takes into account all intercompany loans made to date, but does not assume additional loans until approved by the Board.

### SIGNIFICANT CHANGES IN REVENUE (Total change from July = increase of \$481,937, or 9.7% of First Interim revenues)

**Other Local Revenues:** This category includes all MERF revenues from the sites, as well as other schoolwide revenue sources.

CMO Fee and other projected revenues are \$481,937 higher than in the prior year.

**Federal Revenues:** This consists of Title I-IV "Every Student Succeeds Act" (ESSA) funding, federal special education, and federal CARES Act Funding.

**Salaries and Benefits:** This includes all employee pay, plus benefits such as retirement, healthcare, Medicare, Social Security, etc.

Salaries and Benefits costs are \$703,947 higher than in the prior year, reflecting budget adjustments.

**Other State Revenues:** These are the non-LCFF state revenues such as Lottery, Facility Grant, and AB86 ELO/IPI Grants.

**Books & Supplies:** This category includes textbooks, computers, supplies, and other instructional and non-instructional materials and equipment.

Books & Supplies costs are projected at (\$60,395) lower than in the prior year, due to targeted budget adjustments (see detail).

**Services & Operating Expenses:** These include all contracted services as well as travel, insurance, rent, legal costs, and other service-related expenses.

Services & Operating costs are projected to be (\$109,332) lower than in the prior year, due to targeted budget adjustments (see detail).

**Depreciation, Capital Outlay, and Other Outgo:** This category includes depreciation on fixed assets, interest, and other related costs.

These costs are projected at (\$141) lower than in the prior year, reflecting updated depreciation and encroachment projections.

# QUESTIONS & COMMENTS

Board Agenda Item #	IV E: Action Item
Date:	June 24, 2021
To:	Magnolia Board of Directors
From:	MPS Finance Committee
Staff Lead:	Serdar Orazov, Chief Financial Officer
RE:	2021-22 Magnolia Public Schools Budget Including Master List of Contracts over \$50,000

### Proposed Board Recommendation

- Adopt the FY 2021-22 Budget as reviewed and recommended for approval by the MPS Finance Committee
- Approve all vendors and ongoing contracts over \$50,000 for FY 2021-22 as listed on the attached document.
- Approve the Home Office Management Fee Structure for FY 2021-22

### Background

- The Adopted Budget is part of an ongoing series of state-required reports for the 2021- 22 fiscal year. The state requires that all local educational agencies adopt a budget by July 1 of each year. County superintendents are required to examine the adopted budget for each school district in the county and the State Superintendent of Public Instruction (SSPI) is required to examine the adopted budget for each county office of education. Budgets are examined for compliance with state-adopted criteria and standards, to identify technical corrections needed, and to determine whether the budget will allow the LEA to meet budget year and multiyear financial commitments.
- The board approves all vendors and ongoing contracts included in the attached list annually. MPS Financial Policy PUR107 requires all contracts over \$50,000 to go thru RFP process and be approved by the Board if not included in the board approved Master Vendor List.
- Home office management base fees are calculated based on a fee structure approved by the board in FY 2015-16. Those fees are calculated based on the projected ADA per school site for budgeting purposes. The final amount is recalculated at the end of each fiscal year using P2 report.

Budget Implications

N/A

How Does This Action Relate/Affect/Benefit/ All MSAs?

The public hearing of Budgets is a requirement for LEAs as described in the Ed Code.

Name of Staff Originator:

Serdar Orazov, Chief Financial Officer

Board Agenda Item #	IV F: Action Item
Date:	June 24, 2021
To:	MPS Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Serdar Orazov, Chief Financial Officer
RE:	Approval of 2021-22 EPA Spending Plans for all MPS

### **Proposed Board Recommendation**

I move that the MPS Board approve the 2021-22 EPA Spending Plans for MSA 1-8, MSA- Santa Ana and MSA- San Diego.

### **Background**

Proposition 30, *The Schools and Local Public Safety Protection Act of 2012*, approved by the voters on November 6, 2012, temporarily increases the state's sales tax rate for all taxpayers and the personal income tax rates for upper-income taxpayers.

The new revenues generated from Proposition 30 are deposited into a newly created state account called the Education Protection Account (EPA). School districts, county offices of education, and charter schools (LEAs) will receive funds from the EPA based on their proportionate share of the statewide revenue limit amount. A corresponding reduction is made to an LEA's revenue limit EPA entitlement. LEAs will receive EPA payments quarterly beginning with the 2013-2014 Fiscal Year.

Proposition 30 provides that all K-14 local agencies have the sole authority to determine how the funds from the EPA are spent but with these provisions:

- The spending plan must be approved by the governing board during a public meeting.
- EPA funds can not be used for the salaries of benefits of administrators or any other administrative costs. (Refer to the attached list of functions for which EPA funds may be used.)
- - Each year, the local agency must publish on its website an accounting of how much money was received from the EPA and how the funds were expended.

**Budget Implications**

Projected EPA funding is included in the 2021-22 proposed budget expenditures in accordance with the EPA guidelines provided by the state.

**How Does This Action Relate/Affect/Benefit All MSAs?**

All MPS sites budgets are in compliance with EPA guidelines.

**Name of Staff Originator:**

Serdar Orazov, Chief Financial Officer

EPA Summary of Spending Plans – All MPS School Sites (Pg. 6)

**RESOLUTION REGARDING THE EDUCATION PROTECTION ACCOUNT  
Magnolia Public Schools**

WHEREAS, the voters approved Proposition 30 on November 6, 2012;

WHEREAS, Proposition 30 added Article XIII, Section 36 to the California Constitution effective November 7, 2012;

WHEREAS, the provisions of Article XIII, Section 36(e) create in the state General Fund an Education Protection Account to receive and disburse the revenues derived from the incremental increases in taxes imposed by Article XIII, Section 36(f);

WHEREAS, before June 30<sup>th</sup> of each year, the Director of Finance shall estimate the total amount of additional revenues, less refunds that will be derived from the incremental increases in tax rates made pursuant to Article XIII, Section 36(f) that will be available for transfer into the Education Protection Account during the next fiscal year;

WHEREAS, if the sum determined by the State Controller is positive, the State Controller shall transfer the amount calculated into the Education Protection Account within ten days preceding the end of the fiscal year;

WHEREAS, all monies in the Education Protection Account are hereby continuously appropriated for the support of school districts, county offices of education, charter schools and community college districts;

WHEREAS, monies deposited in the Education Protection Account shall not be used to pay any costs incurred by the Legislature, the Governor or any agency of state government;

WHEREAS, a community college district, county office of education, school district, or charter school shall have the sole authority to determine how the monies

received from the Education Protection Account are spent in the school or schools within its jurisdiction;

WHEREAS, the governing board of the district shall make the spending determinations with respect to monies received from the Education Protection Account in open session of a public meeting of the governing board;

WHEREAS, the monies received from the Education Protection Account shall not be used for salaries or benefits for administrators or any other administrative cost;

WHEREAS, each community college district, county office of education, school district and charter school shall annually publish on its Internet website an accounting of how much money was received from the Education Protection Account and how that money was spent;

WHEREAS, the annual independent financial and compliance audit required of community college districts, county offices of education, school districts and charter schools shall ascertain and verify whether the funds provided from the Education Protection Account have been properly disbursed and expended as required by Article XIII, Section 36 of the California Constitution;

WHEREAS, expenses incurred by community college districts, county offices of education, school districts and charter schools to comply with the additional audit requirements of Article XIII, Section 36 may be paid with funding from the Education Protection Act and shall not be considered administrative costs for purposes of Article XIII, Section 36.

NOW, THEREFORE, IT IS HEREBY RESOLVED:

1. The monies received from the Education Protection Account shall be spent as required by Article XIII, Section 36 and the spending determinations on how the money will be spent shall be made in open session of a public meeting of the governing board of **Magnolia Public Schools**;

2. In compliance with Article XIII, Section 36(e), with the California Constitution, the governing board of the **Magnolia Public Schools** has determined to spend the monies received from the Education Protection Act as attached.

DATED:

---

Board Secretary

## Magnolia Public Schools

### 2018-2019 Education Protection Account (EPA) Spending Plan

Proposition 30, *The Schools and Local Public Safety Protection Act of 2012*, approved by the voters on November 6, 2012, temporarily increases the state's sales tax rate for all taxpayers and the personal income tax rates for upper-income taxpayers.

The new revenues generated from Proposition 30 are deposited into a newly created state account called the Education Protection Account (EPA). School districts, county offices of education, and charter schools (LEAs) will receive funds from the EPA based on their proportionate share of the statewide revenue limit amount. A corresponding reduction is made to an LEA's revenue limit EPA entitlement. LEAs will receive EPA payments quarterly beginning with the 2013-2014 Fiscal Year.

Proposition 30 provides that all K-14 local agencies have the sole authority to determine how the funds received from the EPA are spent, but with these provisions:

- The spending plan must be approved by the governing board during a public meeting.
- EPA funds cannot be used for the salaries or benefits of administrators or any other administrative costs. (Refer to the attached list of functions for which EPA funds may be used.)
- Each year, the local agency must publish on its website an accounting of how much money was received from the EPA and how the funds were expended.

## EDUCATION PROTECTION ACCOUNT - EXPENDITURE SUMMARY

State law requires that our charter school make a specific determination of how Education Protection Account monies are received and spent. These funds may not be expended on administrative costs. Our practice is to expend 100% of all Education Protection Account monies on teacher salaries, to ensure that 100% of spending is instructionally-related and is not spent for administrative uses.

The table on the following page shows the historical and projected revenues and expenditures of Education Protection Account dollars, from the most recent audited fiscal year through the upcoming budget year.

This document shall be approved by the School's Governing Board as part of the approval of the annual budget in June, and a copy of the approved document shall be posted on the School's website.

Below is the actual law relating to this requirement:

**Article XIII, Section 36, Subdivision (e), Paragraph (6) of the California Constitution:**

(6) A community college district, county office of education, school district, or charter school shall have sole authority to determine how the moneys received from the Education Protection Account are spent in the school or schools within its jurisdiction, provided, however, that the appropriate governing board or body shall make these spending determinations in open session of a public meeting of the governing board or body and shall not use any of the funds from the Education Protection Account for salaries or benefits of administrators or any other administrative costs. Each community college district, county office of education, school district, and charter school shall annually publish on its Internet Web site an accounting of how much money was received from the Education Protection Account and how that money was spent.

Our practice is to expend 100% of all Education Protection Account monies on teacher salaries, to ensure that 100% of spending is instructionally-related and is not spent for administrative uses.

The table on the following page shows the historical and projected revenues and expenditures of Education Protection Account dollars, from the most recent audited fiscal year through the upcoming budget year.

This document shall be approved by the School's Governing Board as part of the approval of the annual budget in June, and a copy of the approved document shall be posted on the School's website.

Below is the actual law relating to this requirement:

**Article XIII, Section 36, Subdivision (e), Paragraph (6) of the California Constitution:**

(6) A community college district, county office of education, school district, or charter school shall have sole authority to determine how the moneys received from the Education Protection Account are spent in the school or schools within its jurisdiction, provided, however, that the appropriate governing board or body shall make these spending determinations in open session of a public meeting of the governing board or body and shall not use any of the funds from the Education Protection Account for salaries or benefits of administrators or any other administrative costs. Each community college district, county office of education, school district, and charter school shall annually publish on its Internet Web site an accounting of how much money was received from the Education Protection Account and how that money was spent.

## Election of Board Members to Magnolia Properties Management, Inc.

<b>Section:</b>	IV. Action Items
<b>Item:</b>	G. Election of Board Members to Magnolia Properties Management, Inc.
<b>Purpose:</b>	Vote
<b>Submitted by:</b>	
<b>Related Material:</b>	MPM Inc. - Election.pdf

Board Agenda Item: IV G: Action Item

Date: June 24, 2021

To: Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")

From: Alfredo Rubalcava, Chief Executive Officer and Superintendent  
Patrick Ontiveros, General Counsel & Director of Facilities

RE: Removal of Magnolia Properties Management Inc. Board Member Haim Beliak and Appointment of his Replacement

---

## I. Proposed Motion/Recommendation(s)

Staff moves and recommends that the MPS Board approve and adopt the resolutions attached as Exhibit A.

## II. Background

Rabbi Haim Beliak resigned from the MPS Board effective as of June 8, 2021. Rabbi Beliak is a member of the Board of Directors of Magnolia Properties Management, Inc. Magnolia Properties Management, Inc., a California nonprofit public benefit corporation ("MPM"), was formed and is operated exclusively to support MPS. The MPS Board desires to remove Rabbi Beliak from the MPM Board of Directors and replace him with the person named in the resolutions attached as Exhibit A.

## III. Budget

The proposed action has no budget impact.

## Exhibit A

### June 24, 2021 Resolutions

**RESOLUTIONS OF THE BOARD OF DIRECTORS OF MAGNOLIA EDUCATIONAL & RESEARCH  
FOUNDATION DBA MAGNOLIA PUBLIC SCHOOLS**

**June 24, 2021**

**WHEREAS:** Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") is a California nonprofit public benefit corporation and an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986.

**WHEREAS:** Magnolia Properties Management, Inc., a California nonprofit public benefit corporation ("**MPM**"), was formed and is operated exclusively to support MPS.

**WHEREAS:** Section 2 of Article III of MPM's Bylaws provides as follows:

*The authorized number of Directors shall be not less than 3 nor more than 7, until changed by amendment to these Bylaws. The exact number of authorized Directors shall be fixed within these limits from time to time by Magnolia Educational & Research Foundation, a California nonprofit public benefit corporation (the "Sponsor").*

**WHEREAS:** Section 3 of Article III of MPM's Bylaws provides as follows:

*The Sponsor, acting through its Board of Directors, shall designate the Directors of the corporation. Each Director designated by the Sponsor shall serve for such term of office as is designated by the Sponsor.*

**WHEREAS:** Section 2 of Article III of MPM's Bylaws further provides as follows:

*No more than 49 percent of the persons serving on the Board may be interested persons. An interested person is (a) any person currently being compensated by the corporation for services rendered to it within the previous 12 months, whether as a full-time or part-time employee, independent contractor, or otherwise, excluding any reasonable compensation paid to a Director as Director, and (b) any brother, sister, ancestor, descendant, spouse, brother-in-law, sister-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law of such a person.*

**WHEREAS:** Government Code § 1091.5(a)(8) provides as follows:

*(a) An officer or employee shall not be deemed to be interested in a contract if his or her interest is any of the following:*

June 24, 2021

Page 2 of 5

*(8) That of a noncompensated officer of a nonprofit, tax-exempt corporation, which, as one of its primary purposes, supports the functions of the body or board or to which the body or board has a legal obligation to give particular consideration, and provided further that this interest is noted in its official records.*

*For purposes of this paragraph, an officer is “noncompensated” even though he or she receives reimbursement from the nonprofit, tax-exempt corporation for necessary travel and other actual expenses incurred in performing the duties of his or her office.*

**WHEREAS:** Director Haim Beliak’s resigned from the MPS Board of Directors as of June [ ], 2021, and in conjunction therewith the MPS Board desires to remove Director Beliak from the MPM Board of Directors effective as of [ ] and replace him with [ ].

**WHEREAS:** [ ] is a Board Member of MPS but is not a “interested person” as defined in MPM’s Bylaws.

**NOW, THEREFORE BE IT RESOLVED:** that the Board hereby approves, confirms, and ratifies the removal of Director Haim Beliak from the MPM Board of Directors and the designation of [ ] as a director of MPM to replace him and to serve until removed or replaced as provided in the Bylaws of MPM.

**RESOLVED, FURTHER:** that the appropriate officers of MPS are hereby authorized and directed to take such additional actions, to execute and deliver such additional instruments, and to make such further determinations as may be necessary or appropriate to carry into effect the foregoing resolutions.

**RESOLVED, FURTHER:** that MPS ratifies and confirms the acts of its officers, agents or employees taken on behalf of MPS and that all actions heretofore taken by the CEO & Superintendent, CFO, or any other officer of MPS, in connection with or otherwise in contemplation of the foregoing actions, and they hereby are, ratified, confirmed and approved as the acts and deeds of MPS.

**RESOLVED, FURTHER:** the Secretary or Assistant Secretary of MPS, acting singly or together, be and hereby is and are authorized and directed to execute, acknowledge and deliver a certified copy of these resolutions to any person or agency which may require copies of these resolutions and that the certification of the Secretary or Assistant Secretary as to the signatures of the officers, agents or employees will be binding on MPS.

\* \* \*

**CERTIFICATE OF SECRETARY**

I, \_\_\_\_\_, do hereby certify that I am the duly appointed and acting Secretary of Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**Magnolia**"), a California nonprofit public benefit corporation and an organization described in Section 501(c) (3) of the Internal Revenue Code of 1986, and do hereby further certify that attached hereto is a full, true and correct copy of certain resolutions of the Board of Directors, duly and regularly passed on June 24, 2021, by the majority vote of the Board of Directors then in office at a meeting duly held on such date in compliance with the bylaws of Magnolia and California law.

I further certify that said resolutions are still in force and effect and have not been amended or revoked.

**IN WITNESS WHEREOF**, I have hereunto set my hand as Secretary of Magnolia this 24th day of June 2021.

---

\_\_\_\_\_, MPS Board Secretary

# MAGNOLIA PUBLIC SCHOOLS

## Board Of Directors

Board Agenda Item #	IV H: Action Item
Date:	June 24, 2021
To:	MPS Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Suat Acar, Chief Operations Officer
RE:	Home Office Compensation, Salary Bands, & Job Titles Revision for Home Office Staff

### Proposed Board Motion

- I move for the MPS Board of Directors to approve the revised salary band and for the Home Office Positions to be effective as of July 1, 2021.

### Background

- The salary band is the range of pay that has been established to be paid to employees performing a particular job function. Salary ranges generally have a minimum pay rate, a maximum pay rate, and a series of mid-range opportunities for pay increases.
- Pay rates and salary ranges are also set up by employers and recognize the level of education, knowledge, skill, and experience needed to perform each job. The salary range demonstrates the interrelationships of the jobs utilized by an employer.

### Analysis

- 1- This proposed salary band does not propose any calculation method for salary increases or a method to identify how much to offer to new hires at the home office. This band rather defines the minimum and maximum ranges for each position.
- 2- This proposed revised salary band continues to use the Broadbanding methodology, which defines a wide range with a minimum, maximum and an average. (Appendix 1)
- 3- The previous salary band approved by the MPS Board on May of 2019 introduced a generalized grouping of job titles with respect to the seniority of the positions along with certain salary or hourly rate ranges. This revised home office salary band will keep the same methodology.
- 4- The proposed salary band will continue to focus on 6 main position types as in Chart 1. There are 6 position types (band groups) proposed in this salary band (Chart 1) and 5 tier ranges for each band (Chart 2).
- 5- Please note that the 2019 Board approved band had dollar limits, and this revised band keeps the limits but introduces bands for each column. Please see the last tier (tier 5) within Chart-2. This column reflects an increase to the highest amounts of the previously approved band.

<b>CHART 1</b>		
<b>Position type (2021-22)</b>	<b>Band group</b>	<b>Job Title Samples</b>
CEO	A	CEO, Superintendent
C-Level, Executive Positions	B	COO, CFO, CAO, CXO etc. (All Chief titles & General Counsel)
Director, Controller, Senior Level Positions	C	Director of HR, Director of State and Federal Programs, Controller, Senior Analyst
Administrators, Managers, Coordinators, Assistant Directors	D	Special Programs, Facility Project Manager, College & Career Readiness Program and Teacher on Specific Assignments [TOSA], Coaches
Clerks, Assistants	E	Accountants, Account Payable/Receivable, Assistants (exempt)
Hourly (Non-exempt)	F	Assistants

<b>CHART 2</b>		<b>Tier number (# of employees)</b>				
<b>% Change/band:13%</b>		<b>MIN</b>		<b>AVERAGE</b>		<b>MAX</b>
<b>Positions Type(2021-22)</b>	<b>Band group &amp; #of Employees</b>	<b>1 (6)</b>	<b>2 (12)</b>	<b>3 (5)</b>	<b>4 (0)</b>	<b>5 (0)</b>
CEO	<b>A (1)</b>	<b>MPS BOARD OF DIRECTORS' DISCRETION</b>				
C-Level, Executive Positions	<b>B (5)</b>	\$135,000-\$152,550	\$152,550-\$170,100	\$170,100-\$187,650	\$187,650-\$205,200	\$205,200-\$231,876
Director/Controller Senior Level Positions	<b>C (8)</b>	\$95,000-\$107,350	\$107,350-\$119,700	\$119,700-\$132,050	\$132,050-\$144,400	\$144,400-\$163,172
Administrators, Managers, Coordinators, Assistant Directors	<b>D (5)</b>	\$75,000-\$84,750	\$84,750-\$95,768	\$95,768-\$108,218	\$108,218-\$122,286	\$122,286-\$138,183
Clerks/ Assistants	<b>E (2)</b>	\$62,400-\$70,512	\$70,512-\$79,679	\$79,679-\$90,038	\$90,038-\$101,743	\$101,743-\$114,970
Hourly/Office (Appendix 2)	<b>F (3)</b>	Minimum Wage-\$25.00	\$25.00-\$30.00	\$30.00-\$35.00	\$35.00-\$40.00	\$40.00-\$45.00

- The MPS Home office currently employs 24 employees in the FY 2020-21 as shown in the Chart-2.
- Each band group has 5 tier ranges. The tier 1 for each band group is the minimum salary tier for that position group. The upper limit dollar amount of each tier is calculated by multiplying the lower tier by 1.13. The next tier's lower dollar limit is calculated multiplying the previous tier's upper limit by 1.13. Each of the following tier minimum and maximum limit dollar amounts are calculated by the same method. Please see the below Chart 2.
- The lower limit for band group E is the minimum wage as of January 1, 2022, which is \$62,400 for salaried employees
- Regarding hourly/Office tiers: Appendix 2 shows the minimum wage to be set to \$15 per hour by 2022. Please

note that all home office non-exempt employees are already paid equal to or more than the minimum hourly rate. The HR department closely monitors all minimum wage related announcements and makes necessary adjustments. This proposed band changes the tier dollar range calculations for hourly employees. The tier 1 starts with minimum wage of the FY up to \$25/hour and each tier starting with tier 2 increases with fixed \$5.00 per hour increments.

#### Budget Implications

- The proposed band does not propose a certain way to increase individual salaries of home office employees. No budget impact should come with this revision.

#### Exhibits (attachments):

- 1- **Appendix 1:** Advantages of Broadbanding: <https://www.payscale.com/compensation-today/2011/04/advantages-of-broadbanding>
- 2- **Appendix 2:** Link from CA Department of Industrial Relations. California set the minimum to increase gradually to \$15/hour by 2023 for companies of MPS's size. [https://www.dir.ca.gov/dlse/faq\\_minimumwage.htm](https://www.dir.ca.gov/dlse/faq_minimumwage.htm)
- 3- **Appendix 3:** The 2019 MPS Board approved Home Office Salary Band

#### **Revision History:**

<b>Revision</b>	<b>Date</b>	<b>Description of changes</b>	<b>Requested By</b>
0	<b>09/10/15</b>	Initial Release	Terri Boatman, HR Director
1	<b>05/07/19</b>	Revised the 2015 band by introducing bands and tiers with no job title limitations. Revised min and max salary bands.	Suat Acar,COO
2	<b>06/24/2021</b>	Converted dollar limits to ranges for each tier. Added director of state and federal programs to Band Group C & facility project manager to Band Group D. This proposed band changes the tier dollar range calculations for hourly employees. The tier 1 starts with minimum wage of the FY and increases with fixed \$5.00 per hour increments.	Suat Acar,COO

## ADVANTAGES AND DISADVANTAGES OF BROADBANDING

Topics: [Comp Strategy](#), [Modernizing Comp](#), [Pay Equity](#)

The Advantages and Disadvantages of Broadbanding Broadbanding is the term applied to having extremely wide salary bands, much more encompassing than with traditional salary structures. Whereas a typical

salary band has a 40 percent difference in pay between its minimum and maximum, broadbanding would typically have a 100 percent difference. Most of the time, creating enormously large bands is done as a measure to support a restructuring. It combines and consolidates the number of levels or job grades. This article will discuss the advantages of broadbanding in an overall compensation strategy, as well as the disadvantages.

## **THE ADVANTAGES OF BROADBANDING**

### **STREAMLINES HIERARCHY**

Sometimes an organization has become too hierarchical for the strategic direction of the company; finding it has become too slow to react, taking too much time to get information from the top down and even less

**How well do your employees understand your compensation plan and philosophy?** Simplify how you explain it to them.

Download

**"4 Tips for Communicating Your Compensation Plan to Your Employees."**

effective at getting messages from the lower rungs up to the ears of senior management. Broadbanding reduces the number of levels or layers within a company. This is the best face-saving way for an organization to collapse salary ranges and supporting de-layering. This flattens an organizational structure and reduces the hierarchy.

## **FACILITATES INTERNAL MOVEMENT**

Whether we like it or not, some great person-to-job matches just do not happen because of the way a job has been classified or positioned with an assigned salary band. If that new position is not a lateral or at a higher rung, most rational people will not seriously consider a transfer that results in a demotion. That is just not a positive step for their career development. With broadbanding, more internal movement is facilitated, because the probability increases that one's current job and alternate position are within the same enormous range of pay. This makes pay take a back seat and puts forward other attributes of a position, encouraging internal mobility and potentially more developmental assignments.

## **PUTS ADDED TRUST IN MANAGMENT**

With broadbanding, managers have great latitude to pay what they want to an employee. This absolutely can reduce the push-pull between the hiring manager and the human resources organization. Now the issue of pay shifts to the control of the hiring manager and the challenge of "Does one have enough money in the current budget?" or not. The perception of HR as a regulating gate keeper to preserve the salary structure diminishes. Managers are entrusted with greater autonomy.

### **THE DISADVANTAGES OF BROADBANDING**

#### **NO AWARENESS OF EXTERNAL MARKET RATES**

Traditional salary structures, when done right, give current information to your management team about what market rates are. With broadbanding, if a manager wants to pay at the market midpoint, they are left baffled and guessing. There is no midpoint in a broad band. That also means the compa-ratio tool can not be used.

#### **MAY LEAD TO INEQUITIES**

Broadbanding's flexibility and trust in management may or may not be warranted. In a broadbanding system, it is relatively easy to have two

people with the same responsibilities have earnings that are thousands and thousands of dollars apart. Broadbanding weakens the linkage between salary growth and skill development for the next higher-level, since it is so far off as to not be a motivator. Do you want supervisors and their direct reports in the same pay band? That can easily happen with broadbanding.

It only takes a few reckless managers rewarding a few individuals inappropriately to have an entire pay system called into question. Whether your pay system is fair or not fair is not quite as important as if it is perceived as fair. If your pay system is perceived as not fair, you could see an increase in EEOC complaints. Did you know the Department of Labor added 700 additional auditors after the passage of the Lilly Ledbetter Equal Pay Act in 2009? People don't call and ask for an audit when they believe their conditions are fair.

## **LACK OF COST CONTROLS**

It certainly may call into question why have salary bands at all if they are so wide. You need to evaluate if your other cost control training and measures are strong enough to hand over this much authority and autonomy to your managers. Moving to broadbanding may require thinking through other incentives that had previously been tied to salary grades, such as bonuses or stock.

## **PROMOTIONS**

In my opinion the absolute worst thing about broadbanding is the severe reduction in opportunities for promotions. Fewer salary bands lead to fewer opportunities to climb to the next band; meaning fewer promotions to celebrate with family and friends. Think seriously before you minimize

this great motivational tool. If you are committed to moving to broadbanding, yet this is of concern to you, keep an eye on your turnover rates and conduct exit interviews to monitor the pulse of why your talent is moving to your competitors.

## CONCLUSION

It is your call whether broadbanding is a tool for use in your organization or not. Broadbanding is a very effective tool to reduce salary grades or job classifications, but it definitely has its drawbacks.

Regards,

Beverly Dance, MBA, SPHR-CA, CCP, CEBS

[Labor Commissioner's Office](#) | [Minimum Wage](#)

## Minimum Wage

Although there are some exceptions, almost all employees in California must be paid the minimum wage as required by state law. Effective January 1, 2017, the minimum wage for all industries will be increased yearly. From January 1, 2017, to January 1, 2022, the minimum wage will increase for employers employing 26 or more employees. This increase will be delayed one year for employers employing 25 or fewer employees, from January 1, 2018, to January 1, 2023. The scheduled increases may be temporarily suspended by the Governor, based on certain determinations. (Please see the chart below for the complete schedule of rate increases).

For more information and guidance on how to count employees for the purpose of determining whether an employer qualifies as an employer with 25 employees or less please see [New Minimum Wage Phase- in Requirements 2017-2023, SB 3 Frequently Asked Questions page](#).

There are some employees who are exempt from the minimum wage law, such as outside salespersons, individuals who are the parent, spouse, or child of the employer, and apprentices regularly indentured under the State Division of Apprenticeship Standards.

### [Minimum Wage Order \(MW-2019\)](#)

There is an exception for [learners](#), regardless of age, who may be paid not less than 85 percent of the minimum wage rounded to the nearest nickel during their first 160 hours of employment in occupations in which they have no previous similar or related experience.

There are also exceptions for employees who are mentally or physically disabled, or both, and for nonprofit organizations such as sheltered workshops or rehabilitation facilities that employ disabled workers. Such individuals and organizations may be issued a special license by the Division of Labor Standards Enforcement authorizing employment at a wage less than the legal minimum wage. Labor Code Sections [1191](#) and [1191.5](#)

### **Schedule for California Minimum Wage rate 2017-2023.**

Date	Minimum Wage for Employers with 25 Employees or Less	Minimum Wage for Employers with 26 Employees or More
January 1, 2017	\$10.00/hour	\$10.50/hour
January 1, 2018	\$10.50/hour	\$11.00/hour
January 1, 2019	\$11.00/hour	\$12.00/hour
January 1, 2020	\$12.00/hour	\$13.00/hour
January 1, 2021	\$13.00/hour	\$14.00/hour
January 1, 2022	\$14.00/hour	\$15.00/hour
January 1, 2023	\$15.00/hour	

## Frequently Asked Questions

### 1. What is the minimum wage?

Effective January 1, 2021, the minimum wage increases to \$14 per hour for employers with 26 or more employees and \$13 per hour for employees with 25 or fewer employees. The minimum wage shall be adjusted on a yearly basis through 2023 according to the pre-set schedule shown above.

Effective January 1, 2021, the minimum monthly salary for [shepherders](#) increases to \$2,488.97 per month for employers with 26 or more employees and \$2,311.24 per month for employers with 25 or fewer employees. The minimum monthly salary for shepherders is specially set under IWC Wage Order 14-2001. Wages paid to shepherders may not be offset by meals or lodging provided by the employer. Instead, there are provisions in [IWC Order 14-2007, Sections 10\(F\), \(G\) and \(H\)](#) that apply to shepherders with respect to monthly meal and lodging benefits required to be provided by the employer.

### 2. What is the difference between the local, state and federal minimum wage?

Most employers in California are subject to both the federal and state minimum wage laws. Also, local entities (cities and counties) are allowed to enact minimum wage rates and [several cities](#) \* have recently adopted ordinances which establish a higher minimum wage rate for employees working within their local jurisdiction. The effect of this multiple coverage by different government sources is that when there are conflicting requirements in the laws, **the employer must follow the stricter standard; that is, the one that is the most beneficial to the employee.** Thus, since California's current law requires a higher minimum wage rate than does the federal law, all employers in California who are subject to both laws must pay the state minimum wage rate unless their employees are exempt under California law. Similarly, if a local entity (city or county) has adopted a higher minimum wage, employees must be paid the local wage where it is higher than the state or federal minimum wage rates.

### 3. May an employee agree to work for less than the minimum wage?

No. The minimum wage is an obligation of the employer and cannot be waived by any agreement, including collective bargaining agreements. Any remedial legislation written for the protection of employees may not be violated by agreement between the employer and employee. [Civil Code Sections 1668 and 3513](#)

### 4. Is the minimum wage the same for both adult and minor employees?

Yes. There is no distinction made between adults and minors when it comes to payment of the minimum wage.

**5. I work in a restaurant as a waitperson. Can my employer use my tips as a credit toward its obligation to pay me the minimum wage?**

No. An employer may not use an employee's tips as a credit toward its obligation to pay the minimum wage.

**6. What can I do if my employer doesn't pay me at least the minimum wage?**

You can either [file a wage claim](#) with the Division of Labor Standards Enforcement (the Labor Commissioner's Office), or file a lawsuit in court against your employer to recover the lost wages. Additionally, if you no longer work for this employer, you can make a claim for the waiting time penalty pursuant to [Labor Code Section 203](#).

**7. What is the procedure that is followed after I file a wage claim?**

After your claim is completed and filed with a local office of the Division of Labor Standards Enforcement (DLSE), it will be assigned to a Deputy Labor Commissioner who will determine, based upon the circumstances of the claim and information presented, how best to proceed. Initial action taken regarding the claim can be referral to a conference or hearing, or dismissal of the claim.

If the decision is to hold a conference, the parties will be notified by mail of the date, time and place of the conference. The purpose of the conference is to determine the validity of the claim, and to see if the claim can be resolved without a hearing. If the claim is not resolved at the conference, the next step usually is to refer the matter to a hearing or dismiss it for lack of evidence.

At the hearing the parties and witnesses testify under oath, and the proceeding is recorded. After the hearing, an Order, Decision, or Award (ODA) of the Labor Commissioner will be served on the parties.

Either party may appeal the ODA to a civil court of competent jurisdiction. The court will set the matter for trial, with each party having the opportunity to present evidence and witnesses. The evidence and testimony presented at the Labor Commissioner's hearing will not be the basis for the court's decision. In the case of an appeal by the employer, DLSE may represent an employee who is financially unable to afford counsel in the court proceeding.

See the [Policies and Procedures of Wage Claim Processing](#) pamphlet for more detail on the wage claim procedure.

**8. What can I do if I prevail at the hearing and the employer doesn't pay or appeal the Order, Decision, or Award?**

When the Order, Decision, or Award (ODA) is in the employee's favor and there is no appeal, and the employer does not pay the ODA, the Division of Labor Standards Enforcement (DLSE) will have the court enter the ODA as a judgment against the employer. This judgment has the same force and effect as any other money judgment entered by the court. Consequently, you may either try to collect the judgment yourself or you can assign it to DLSE.

**9. What can I do if my employer retaliates against me because I questioned him about not being paid the minimum wage?**

If your employer discriminates or retaliates against you in any manner whatsoever, for example, he discharges you because you asked him why you weren't being paid the minimum wage, or because you file a claim or threaten to file a claim with the Labor Commissioner, you can [file a discrimination/retaliation complaint](#) with the Labor Commissioner's Office. Alternatively, you can file a lawsuit in court against your employer.

\* The UC Berkeley Labor Center keeps a detailed national list of local minimum wage ordinances. The Department of Industrial Relations does not monitor or verify this list but includes it here as a reference for the public: [UC Berkeley Labor Center Inventory of US City and County Minimum Wage Ordinances](#)

## Board Of Directors

Board Agenda Item #	
Date:	05.31.2019
To:	Board of Directors, Finance Committee
From:	Alfredo Rubalcava, CEO
Staff Lead:	Suat Acar, COO
RE:	Home Office Compensation, Salary Bands & Job Titles Revision

### Proposed Board Motion

I move that the board approve the revised salary band for Home Office Positions.

### Background

Salary range (or salary bands) is the range of pay that has been established to pay the employees performing a particular job or function. Salary range generally has a minimum pay rate, a maximum pay rate, and a series of mid-range opportunities for pay increases. Pay rates and salary ranges are also set up by employers and recognize the level of education, knowledge, skill, and experience needed to perform each job. The salary range demonstrates the interrelationships of the jobs utilized by an employer. The salary range arranges pay increases without promotion at each level.

The salary bands approved by the MPS Board 09.10.2015 was determined by market pay rates, established through market pay studies, for people doing similar work in similar industries in Los Angeles, CA (Please see appendix 5 for 2015 MPS Board approved Band). During the past 4 years this band has been used as basis for defining the ranges we could offer to specific positions, however this band is now mostly outdated. Here are the outdated portions of the current band:

- 1- The current 2019 home office org chart does not have certain C- Level positions and departments (such as development department) which were planned as part of growth plans back then.
- 2- Also home office departments now need now positions based on the emerging needs of school sites and the CMO (such as Math Coach and Assistant Director of Student Services positions which were approved within the past 2-3 years).
- 3- Also we now have an Accountability department which was built based on needs and was not existing in the previous band.
- 4- Some positions are now too close to their max levels. Therefore, the band will not be covering possible increases to the salaries of these employees.

### Analysis (If applicable)

- 1- This proposed salary band does not intend to change the method used in the previous band (See appendix 5). Therefore, we used the same broadband method (please see appendix 1 for advantages and disadvantages of “broadbanding”) methodology, which defines a wide range with a minimum,

maximum and an average.

- 2- The minimum (MIN in the chart 2) salaries are defined with respect to the federal minimum wage descriptions (\$7.25 effective as of July 24, 2009, Appendix 3) as well as the market rates (which were also used to define the existing salaries of current employees with the previous board approved salary band) & current 2018-19 salaries of the home office employees along with school leader salaries. (Please refer to the Appendix 2 for the board report prepared by the home office for 06.28.2016 board meeting to go over Charter Schools Benchmark Metrics)
- 3- This proposed salary band focuses on 6 main position types as in chart 1. This is the major change we propose to make in the salary bands: The proposed band will not limit the bands to the job titles but to the position types. The Home Office will be more flexible to adapt new job titles depending on emerging needs and be able to make an offer without conflicting with the salary band. Please see sample job titles in chart 1.
- 4- There are 6 position types (band groups) proposed in this salary band (chart 1), 5 range limits and 4 salary bands for each position type (chart 2 and chart 3).

<b>CHART 1</b>		
<b>Position types (Band Groups) (2019+)</b>	<b>Band group</b>	<b>Job title samples (Home Office can change/add titles as needed)</b>
CEO	A	CEO, Superintendent
C-Level, Executive Positions	B	COO, CFO, CAO (All Chief titles & Legal Counsel)
Director/Controller Level Positions, Senior Level Positions	C	Director, Controller, Data Manager (Assessment, Academics etc.), Senior Assistant Directors, Senior Financial Analyst
Administrators, Analysts, managers, coordinators, Assistant Directors	D	HR Administrator, HR Specialist, HR Manager, Finance Managers, Coordinator (HR, EL, Math etc.), Assistant Director (Student services, HR etc.), Coaches (Math, Science etc.), Financial Analyst
Clerks/ Assistants	E	Accounting Clerks, Accountant, Account Payable/Receivable, Compliance/payroll Manager, Administrative Assistant (HR-Academic-Accountability-Executive), Communications Outreach Clerks (Parental Engagement Staff, Event Coordinator, Renewal Manager)
Hourly/Office (Appendix 4)	F	Office Assistants, Assistants to departments

Each band group has 5 range limits (chart 2) and 4 bands (chart 3). The minimum limit for the range band number 1 (chart 1) is the minimum salary for that position group. The minimum limit for the next band is 13% more than minimum limit and each of the following band group minimum limits are calculated by the additional 13% increase rate on top of the previous band number. In summary the MAX limit is 52% more than the MIN limit. This helps home office to use this band for a longer time period. Please see this below analysis prepared to show what the salaries would look like in the next 9 years, starting with MIN salaries, with an estimated 5% increase every fiscal year. As seen the MAX limit is reached in 9 years for all bands.

	1	2	3	4	5	6	7	8	9
	1.05	1.05	1.05	1.05	1.05	1.05	1.05	1.05	1.05
135,000	141,750	148,838	156,279	164,093	172,298	180,913	189,959	199,456	209,429
90,000	94,500	99,225	104,186	109,396	114,865	120,609	126,639	132,971	139,620
65,000	68,250	71,663	75,246	79,008	82,958	87,106	91,462	96,035	100,836
50,000	52,500	55,125	57,881	60,775	63,814	67,005	70,355	73,873	77,566

CHART 2	25 Employees	Salary Band Range Limits				
		MIN LIMIT		AVERAGE		MAX LIMIT
% Change/band: 13%	Band group & # of Employees	1	2	3	4	5
Positions Type (2019-20)						
CEO	A (1)	MPS BOARD OF DIRECTORS' DISCRETION				
C-Level, Executive Positions	B (5)	\$135,000.00	\$152,550.00	\$170,100.00	\$187,650.00	\$205,200.00
Director/Controller Level Positions, Senior Level Positions	C (7)	\$90,000.00	\$101,700.00	\$113,400.00	\$125,100.00	\$136,800.00
Administrators, Analysts, managers, coordinators, Assistant Directors	D (6)	\$65,000.00	\$73,450.00	\$81,900.00	\$90,350.00	\$98,800.00
Clerks/ Assistants	E (6)	\$50,000.00	\$56,500	\$63,000.00	\$69,500.00	\$76,000.00
Hourly/Office	F (0)	\$18.00	\$20.34	\$22.68	\$25.02	\$27.36

The bands in chart 3 below are structured with respect to the 5 limit dollar amounts explained in chart 2. The home office has 24 employees plus the CEO. The Chart 3 below provides the distribution of salaries (except the CEO) across the bands (numbers in parenthesis). As seen below 13 of the 24 home office employees currently are in the Band 1 groups, 5 are in Band 2 groups, 6 are in Band 3 groups and there is no Band 4 employee with respect to the 2018-19 employment agreements' annual gross dollar amounts.

CHART 3	24	BAND GROUPS & CURRENT DISTRIBUTION OF SALARIES			
	Employees	1 (13)	2 (5)	3 (6)	4 (0)
Positions Type (2019-20)	Band group & # of Employees				
C-Level, Executive Positions	<b>B (5)</b>	\$135,000- \$152,550 (3)	\$152,550- \$170,100 (1)	\$170,100- \$187,650 (1)	\$187,650- \$205,200 (0)
Director/Controller Level Positions, Senior Level Positions	<b>C (7)</b>	\$90,000- \$101,700 (5)	\$101,700- \$113,400 (1)	\$113,400- \$125,100 (1)	\$125,100- \$136,800 (0)
Administrators, Analysts, managers, coordinators, Assistant Directors	<b>D (6)</b>	\$65,000- \$73,450 (2)	\$73,450- \$81,900 (2)	\$81,900- \$90,350 (2)	\$90,350- \$98,800 (0)
Clerks/ Assistants	<b>E (6)</b>	\$50,000- \$56,500 (3)	\$56,500- \$63,000 (1)	\$63,000- \$69,500 (2)	\$69,500- \$76,000 (0)
Hourly/Office	<b>F (0)</b>	\$18.00- \$20.34	\$20.34- \$22.68	\$22.68- \$25.02	\$25.02- \$27.36

This proposed salary band does not propose any rubric to calculate the salary increases, or a way for promotions. The salary calculations, salary increases and promotions will be processed by a team consisting related supervisor(s), HR and the CEO.

### Budget Implications

The proposed band does not propose a certain way to increase individual salaries of home office employees or decide at which band/range to start a newly hired employee. Therefore, there is no budget impact caused by this band.

# Cover Sheet

## Approval of 2021-22 Uniform RFP Winning Bid Selection

<b>Section:</b>	IV. Action Items
<b>Item:</b>	I. Approval of 2021-22 Uniform RFP Winning Bid Selection
<b>Purpose:</b>	Vote
<b>Submitted by:</b>	
<b>Related Material:</b>	Uniform RFP Winning Bid Selection 2021-22.pdf

Board Agenda Item #	IV I: Action Item
Date:	June 24, 2021
To:	Magnolia Public Schools Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Suat Acar, Chief Operations Officer
RE:	2021-22 Uniform RFP Winning Bid Selection

### Proposed Motion

I move that the board approve DM Graphics as the vendor to win the 2021-22 Uniform RFP in order to provide the free sets of uniforms for all MPS Students within the 2021-22 School Year.

### Introduction

MPS Home Office Accountability Team included the "free uniform set" language in our 2020-21 Student/Parent Handbook and the Board approved the Handbook on 7/23/20 with the required language. Later the team went back to the Board again to remove the "free uniform set" language due to the pandemic/Distance Learning/Budget Concerns/Uncertainty and asked the Board to approve the revised Handbook on 8/6/20. When the revised Handbook was approved, we included in the cover page the following statement:

*"It is our intent that we introduce the new system of making one uniform set of required MPS logo uniform pieces available to each student free of charge in the 2021-22 school year."*

The team explained it to the Board on 8/6/2020 verbally as well. [Appendix 4]

MPS Operations then took over the RFP Process and started collaborating with Students Services, Finance AP department and school leaders to prepare the below chart showing the needs of each site.

### Background

In order to find the best products, services and the most feasible prices, the home office operations department posted an RFP on March 31, 2021 on MPS Website under bidding opportunities 2020-21 whose deadline to respond was April 29, 2021. [Link Below in the Appendix]

We received the responses of two companies by the deadline. These companies are:

- 1- French Toast (FT)
- 2- DM Graphics (DM)

The operations department formed an Evaluation Committee to go over the responses. The Evaluation Committee had 3 school principals, 1 dean, 1 finance department representative and the Chief Operations Officer. The Evaluation Committee met several times and had email chains to discuss responses to additional questions we had for vendors to clarify. Evaluation Committee had several Zoom meetings as well as phone calls with vendors on top of the email communications before reaching a final decision.

We went over each RFP Response to check for the following:

- 1- If a response is given to each request on the RFP
- 2- Proper pricing and product information is provided or not
- 3- Supply management will be properly conducted or not
- 4- Company professional standing and references

### Analysis

#### Quality of Products Professional Standings:

The quality of the proposed uniforms of both companies were acceptable. DM Graphics is a local approved vendor of MPS and schools have used their products and services for several years. FT, on the other side, is a nationwide vendor whose products are available through online purchase as well as on Amazon. FT also serves several LA Charter School Networks.

DM sent physical samples along with the RFP response and the evaluation committee had the chance to see the samples, whereas FT has not made the samples available at the day of the evaluation committee meeting. Instead, the Evaluation Committee relied on the several thousands of positive customer reviews on Amazon.com for the uniform products they sell online.

#### Prices:

The prices DM Graphics proposed are almost half the prices of FT. This has been one of the significant differences between DM vs FT responses. Please see price charts attached to this board document. [Appendix 2 and 3]

#### Supply:

The DM already has the entire supply ready in its warehouse for all sets of uniforms. DM stated that since they have served MPS Schools for many years; therefore they are always well stocked for all MPS uniforms, including an acceptable MPS logo on the uniform sets. On the other hand FT stated in its supplemental letter that they may have product shortages and therefore they suggested a staggered supply timeline for several items starting on October 2021, instead of the back-to school nights. Because of the same reason, they could not provide prices for some of the items in the RFP. [Appendix 3]

### Budget Implications

- Amounts/ Funding Source

The below chart 1 has all the sites, their enrollment counts for this year to serve as an estimate for 2021-22 and all types of uniforms and the requested possible colors and designs each site plans to distribute for free to the students.

Free student uniforms can be funded by LCFF supplemental/concentration funds since it contributes to low-income students. It is already included in the LCAP templates of schools as part of the action language/expense description for Goal 4: Action 3.

Below Chart 3 shows the breakdown for each school as well as the total cost for MPS.

<b>2021-22 UNIFORM COST ANALYSIS BASED ON THE PRICES OF DM GRAPHICS</b>

RE:	Approval of the Amended MPS 2020-21 Student/Parent Handbook

#### Proposed Board Recommendation

I move that the board approve the amended MPS 2020-21 Student/Parent Handbook.

#### Background

The Board approved the MPS 2020-21 Student/Parent Handbook at its meeting on July 23, 2020. This item is asking the Board for approval of an amendment to the Handbook that the schools have recently requested (after the Board approval of the Handbook). The amendment is to remove the following section from the Handbook.

#### **A Free MPS Uniform Set**

MPS will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including a free uniform set.

MPS will make one uniform set of required MPS logo uniform pieces (an MPS logo top, an MPS logo outerwear piece, and MPS logo P.E. Uniform) available to each student free of charge for the student's use during the school year. If parents/guardians or students want to purchase additional MPS logo pieces, they may do so through the school's uniform vendors.

MPS was planning to provide one free MPS uniform set to each student free of charge for the 2020-21 school year. Our practice to date has been that we support students who inform us they are in need with available free uniforms. This new commitment in the Handbook had the purpose of introducing a system where *all* students -not just students in need- would be given access to a free set of uniforms (an MPS logo top, an MPS logo outerwear piece, and MPS logo P.E. Uniform). Our school sites have held budget meetings in the past few weeks to finalize their 2020-21 budgets. Those meetings resulted in the school administrators' decision to drop the uniform cost from their budget. They chose to shift the available budget to other areas of need, mostly to support and enhance their distance learning programs. Another rationale was that students do not need uniforms during distance learning and even if schools moved to hybrid learning during the year the current plans are based on each student's two-day per week in-person

attendance.

It is our intent that we introduce the new system of making one uniform set of required MPS logo uniform pieces available to each student free of charge in the 2021-22 school year.

Budget Implications

\$50 per student was originally budgeted for the purchase of uniforms, which will now be used for other expenses. It makes a total of \$200,000 for about 4,000 students.

How Does This Action Relate/Affect/Benefit All MSAs?

This action will help the schools with their 2020-21 budgets.

## Cover Sheet

### Approval of Shade Structure Project at MSA-1 High School Building

<b>Section:</b>	IV. Action Items
<b>Item:</b>	J. Approval of Shade Structure Project at MSA-1 High School Building
<b>Purpose:</b>	Vote
<b>Submitted by:</b>	
<b>Related Material:</b>	Shade Structure Project for MSA-1 High School (Board).pdf

Board Agenda Item: IV J: Action Item

Date: June 24, 2021

To: Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")

From: MPS Facilities Committee

Alfredo Rubalcava, Chief Executive Officer and Superintendent

Patrick Ontiveros, General Counsel & Director of Facilities

RE: Approval of Shade Structure Project for Magnolia Science Academy—1 ("**MSA-1**")  
High School Building

---

## I. Proposed Motion/Recommendation(s)

The MPS Board Facilities Committee recommends and moves that the Board approve the selection of Universal Awning to install a shade structure at the MSA-1 high school building and to spend up to \$75,000 on said project.

## II. Background

The new MSA-1 high school building located at 18220 Sherman Way, immediately adjacent to the existing MSA-1 middle school building at 18238 Sherman Way, was completed and occupied at the end of 2019. The principal entrance to the high school building is from the alley that is parallel to Sherman Way to the south. There is also a lunch area right outside the multipurpose room on the south side of the building that is fenced in but not shaded. See Exhibit A for the site layout, the proposed location of the shading. The use of the lunch area is limited because it is not shaded. See Exhibit A for pictures of the lunch area.

The COVID-19 pandemic has made it clear that, henceforth, MSA-1 and indeed all schools will need to make more and better use of their outdoor areas. During much of the year, Reseda and the rest of the San Fernando Valley endure high temperatures that sometimes hit 107 degrees. In order to better and more fully utilize the outdoor lunch area space, for example, as additional instructional space, shading must be provided to ensure the comfort of users.

June 24, 2021  
Page 2 of 8

### III. Procurement

Staff issued an RFP that was posted to the MPS and MSA-1 websites and sent to select vendors on or about August 13, 2020. Staff then reissued the RFP on or about February 13, 2021. See Exhibit B. Two vendors, USA Shade & Fabric Structures and Universal Awning, responded. Of the two only Universal Awning presented an economical solution that aligned with MSA-1 and Staff's vision. Universal Awning's proposal and renderings are attached as Exhibit C. Universal Awning's proposal for \$68,750 consists of suspending fabric sail from poles that will be installed in the lunch area. The proposal was evaluated by MPS's structural engineer who provided input. Accordingly, Staff decided that the proposal by Universal Awning presents the best value. USA Shade & Fabric Structures provided renderings but never provided pricing. Universal Awning also assured Staff that it could meet its deadline of June 30<sup>th</sup>.

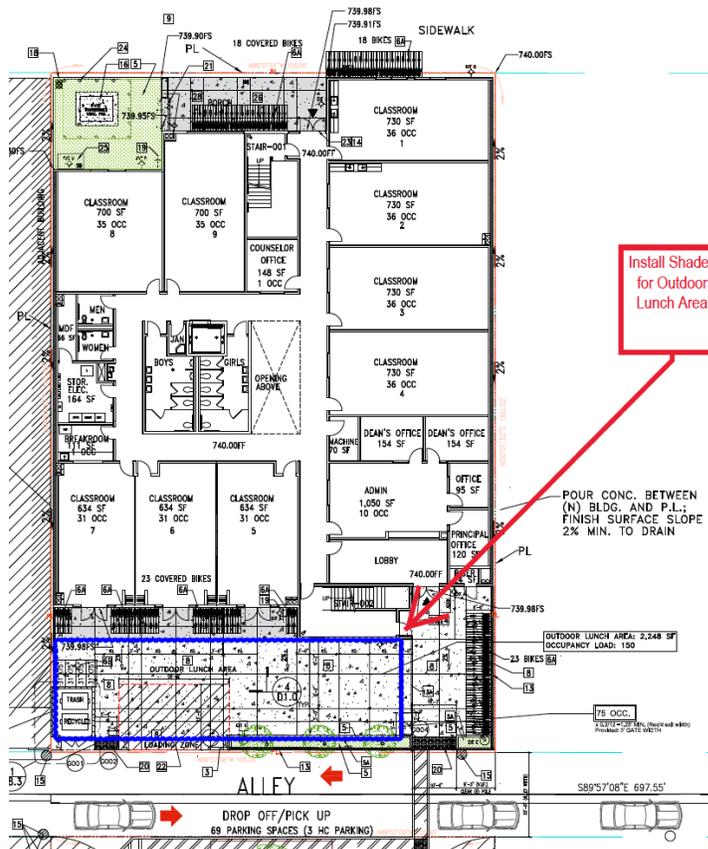

### IV. Budget & Conclusion

MSA-1 is the recipient of additional funding in the amount of \$64,841.63, through Schools in Action, which operates MSA-1's meal program. The funding must be spent by June 30, 2021 on products and services that benefit the meal program. A description of the additional funding is attached as Exhibit D. The shading project qualifies for the grant. The money will only be disbursed to MSA-1 upon receipt of an invoices evidencing the expenditure. If not completed, the grant expires and MSA-1 does not receive any money. To date, MSA-1 has used \$2,837.99 of the total for handwashing stations, leaving \$62,003.64 to be spent on this project. Any balance for the project (that is, any project costs over the grant amount) will be paid from MSA-1's operating budget. Staff is requesting a limit of \$75,000 to account for any unforeseen conditions that may increase the price of \$68,750. MPS's finance department has confirmed that any balance over \$62,003.64 can be paid from MSA-1's operating account with no negative effect.

### RFP

# MAGNOLIA PUBLIC SCHOOLS

Request for Proposals  
to Provide Shade Structure Installation | Reseda

Due Date:

~~August 28, 2020~~

February 18, 2021

## 1.0 INTRODUCTION

Magnolia Education & Research Foundation ("**MERF**") doing-business as Magnolia Public Schools ("**MPS**"), a charter school management organization, operates Magnolia Science Academy 1, a middle and high school ("**MSA-1**") in the Reseda neighborhood of Los Angeles. The high school is housed in a new facility constructed in 2019 at 18220 Sherman Way (the "**Project Site**").

The purpose of this RFP is to solicit bids to provide shade structures or fixtures ("**Shade Structures**") at the Project Site, specifically at the outdoor lunch area and on the rooftop play area. The areas sought to be covered with Shade Structures are shown on the drawings attached as Exhibit A. The purpose is to allow more use of outside areas in response to the COVID-19 pandemic.

### Site Tour

A site tour will be facilitated for interested vendors.

### Proposals Due

5:00 PM, Thursday, February 18, 2021

Responses to the RFP are due no later than ~~5:00 PM (PST), Tuesday, August 28, 2020~~, to the following individual:

Patrick Ontiveros  
Director of Facilities  
Magnolia Public Schools  
250 East 1<sup>st</sup> Street  
Suite 1500  
Los Angeles, CA 90012  
[pontiveros@magnoliapublicschools.org](mailto:pontiveros@magnoliapublicschools.org)  
(323) 490-0701

Questions regarding this RFP may be directed to the individual identified above via email.

### Proposal Format:

One (1) electronic PDF copy (by email) of your proposal must be delivered to the person indicated by the deadline stated above. Please endeavor to keep any emailed material to a single manageable file size so that it may be easily distributed to the Selection Committee.

Respondents are encouraged to only include information pertinent to the project and the Selection Committee's ability to select the vendor best suited to successfully complete this job.

### Interviews:

Interviews will be held at the discretion of MPS and MSA-1. Location, date and time are to be determined.

### Selection Committee:

The Selection Committee will be composed of representatives from MPS and MSA-1.

## 1.1 Timeline

~~RFP Distributed:~~ ~~August 19, 2020~~

~~Proposals Due:~~ ~~August 28, 2020~~

<del>Site Visits:</del>	<del>On an as-Needed Basis</del>
Selection Announced:	As Soon as Possible Following Receipt of Proposals
Installation of Shade Structures:	As Soon as Possible Following Selection

## 2.0 PROPOSAL FORMAT

The Respondent shall format its response as set forth below to facilitate timely review and selection. Please be specific to the RFP, and do not include materials not explicitly requested, such as generic marketing materials.

### Your response should include the following:

- Letter of interest
- Name of your company and the individual responsible for the account
- Restate all the requirements of Section 3.0 and provide responses to each

See Section 1.0 for additional proposal format clarifications.

## 3.0 PROPOSAL REQUIREMENTS

### 3.1 Cost

The Respondent's proposal should include an overall cost and should also be broken down in detail to provide a cost for the Shade Structures for the first floor outdoor lunch area and the rooftop play area. The proposal should also provide a break-down of any and all other costs and fees including, but not limited to, engineering and design fees, labor, delivery fees, installation fees, permitting fees, applicable taxes, etc. In order to meet its budget for the purchase of Shade Structures, MPS reserves the right to accept Respondent's proposal in whole or in part.

### 3.2 Proposed Design

The Respondent's proposal should include a sketch or drawing illustrating the proposed installation. Respondent may and is encouraged to propose alternative installations.

### 3.3 Product Information / Cut Sheets

The Respondent's proposal shall include a description of the Shade Structures proposed to be provided. Where a Respondent believes there are multiple types of Shade Structures that may satisfy the requirements stated herein, the Respondent may provide such alternatives explaining the difference in each alternative and describing the cost differences.

### 3.4 Warranty Information

Provide a description of the warranty provided for the Shade Structures to be delivered.

### **3.5 Financing Availability**

If Respondent provides financing for the purchase of the Shade Structures, Respondent should provide a description of such financing including but not limited to the terms and conditions of such financing (for example, additional fees, interest rate, amortization schedule).

### **3.6 Schedule**

Respondent shall provide an estimate of the time needed to perform the installation.

## **4.0 CONTACT**

Questions to Owner will be accepted via email by the Director of Facilities identified above. Answers to questions will be provided to all participants as available.

## **5.0 REQUEST FOR PROPOSAL EXHIBITS**

**Exhibit A:** Drawings

## **6.0 BID ACCEPTANCE/REJECTION**

The Owner reserves the right to reject any or all proposals, or cancel the solicitation process at its sole discretion.

## **7.0 PROPOSAL VALIDITY**

RFP responses shall be valid until execution of a contract, which is expected to occur on or about May 2019. No changes to information received within the Respondent's proposal shall be changed or altered without approval by the Owner.

Date 06/14/2021

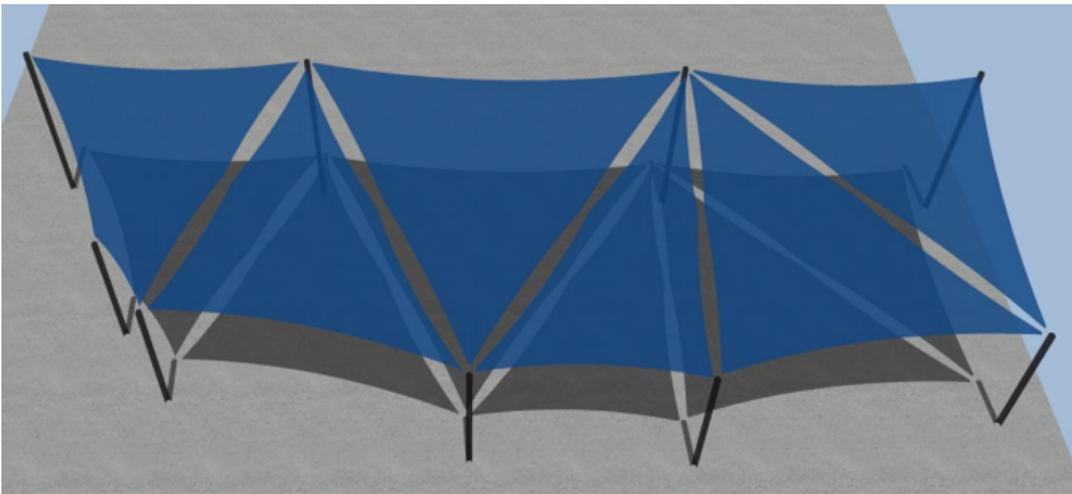

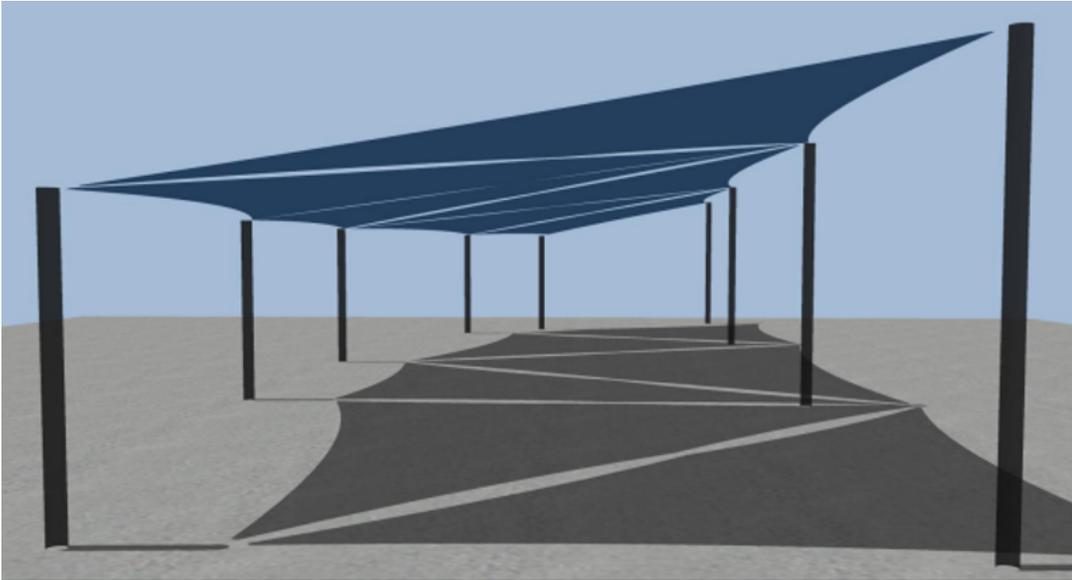

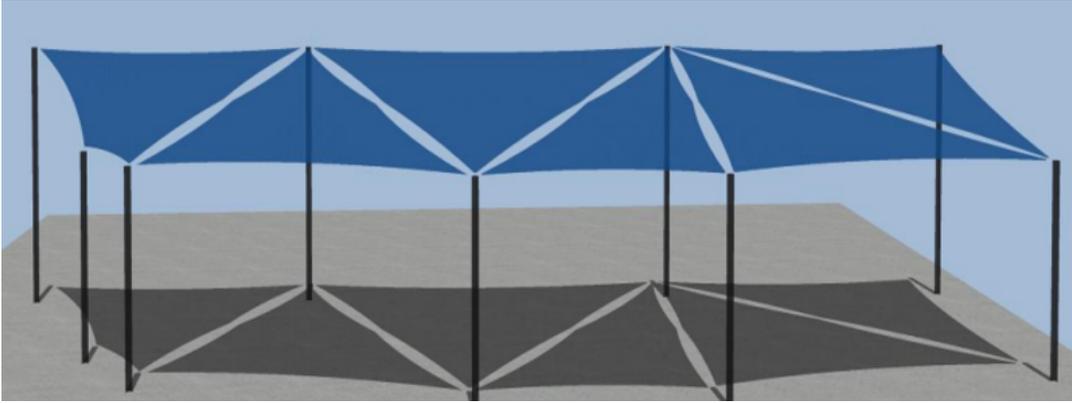

Description	Quantity	Rate	Total
Sail Shade Structures (6 sails)	1.0	\$68,750.00	\$68,750.00
Materials: Steel, Commercial Ninety-Five 340 FR Skyblue #495626			
Dimensions:			
Sail Shade Structure (Post to Post Measurement from Plan View)			
24'-9" x 24'-9" x 25'-8"			
23'-3" x 25'-9" x 29'-4"			
29'-4" x 33'-7" x 31'-0"			
30'-6" x 24'-10" x 18'-0"			
25'-0" x 33'-0" x 25'-11"			
32'-9" x 25'-4" x 21'-0"			
Elements: 6x6x1/2" steel tube (9 total posts), 6"x6" caps, 12x12x1/2" base plate, 3/8" galvanized cable, 5/8"-11 Galvanized threaded rod, 5/8"-11 Galvanized Hex Nuts, 5/8" x 1-5/16" OD x .09 thick galvanized flat washer, 3/8" Nicopress aluminum oval sleeve, 1/2" galvanized screw pin anchor shackle, 5/8"-11 galvanized eye nut, 5/8" x 6" galvanized jaw and jaw turnbuckle, Commercial Ninety-Five 340 FR Skyblue #495626 Fabric.			
Fabric: Commercial Ninety-Five 340 FR Skyblue #495626			
Templates & Measurements: Included.			
Shop Drawings: Included. 1 drawing, 2 revisions any additional \$110.00 per hour.			
Permits: Not included.			
Engineering: Not included. If elements change due to required engineering subject to additional charge.			
Graphics: Not Included.			
Finish: Roller primer on all metal.			
Delivery & Installation: Included.			
Prevailing Wages: This project was priced as a NON-prevailing wage			

job, if the project requires prevailing wages we will resubmit our proposal to reflect the additional cost.

Notes: Due to the volatile material prices this quotation is valid for 7 days. Advance bill of material is required to be paid to secure material pricing. Concrete footing by others, we will set our posts on pre-dug hole.

---

<b>Subtotal</b>	\$68,750.00
<b>Total</b>	<b>\$68,750.00</b>

All down payments are non-refundable three business days from the signing of this contract. With respect to the above, it is agreed that three quarters of the above mentioned sum is for the cost of materials, fabrication labor, sales tax and balance is for the cost of installation labor.

In the event of default of any installment, the unpaid balance shall become due and payable forthwith at the option of the Contractor without notice.

All expenses incurred in the collection of monies due per this agreement whether by arbitration or judicial process including attorney's fees and cost shall be paid by you the purchaser.

Note: This proposal may be withdrawn by Universal Awning & Shade, Inc. at any time prior to its acceptance, and shall expire by its own terms if not accepted within 7 days. Due to the volatile steel prices this quotation is valid for 7 days. Advance bill of material is required to be paid to secure material pricing.

An initial service charge of 5% of the outstanding balance will be charged on balances not paid within five days of payment due date. service charge of 1.5% will be added each month to the balance remaining unpaid.

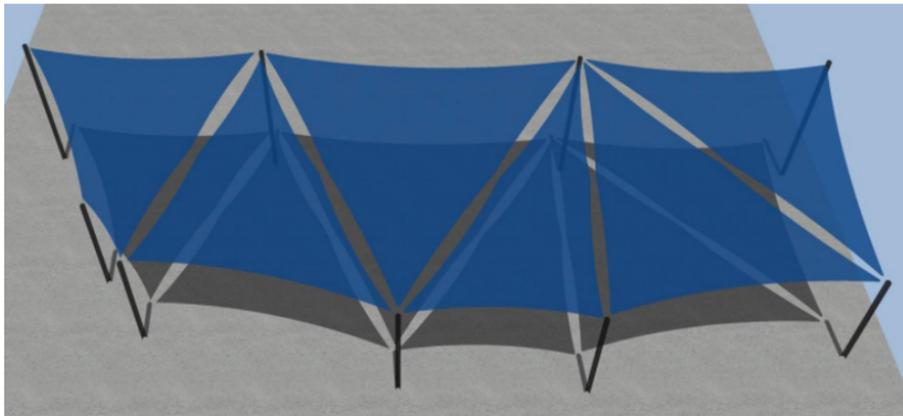

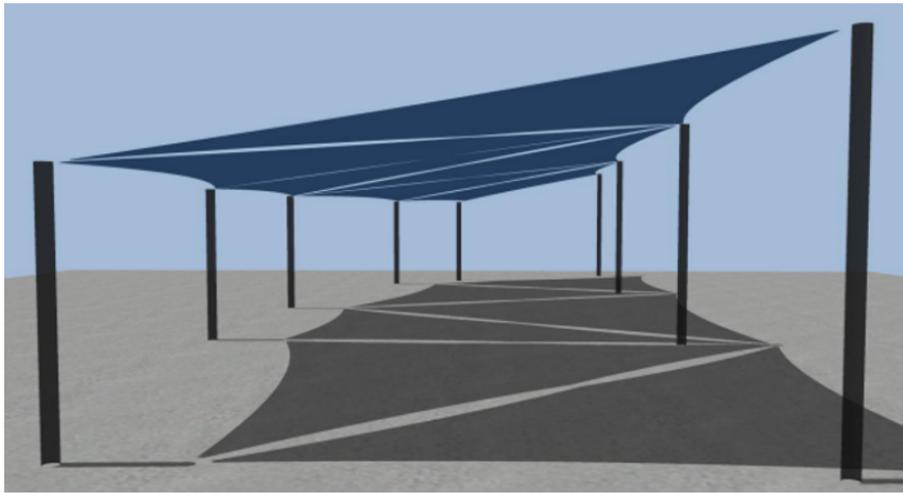

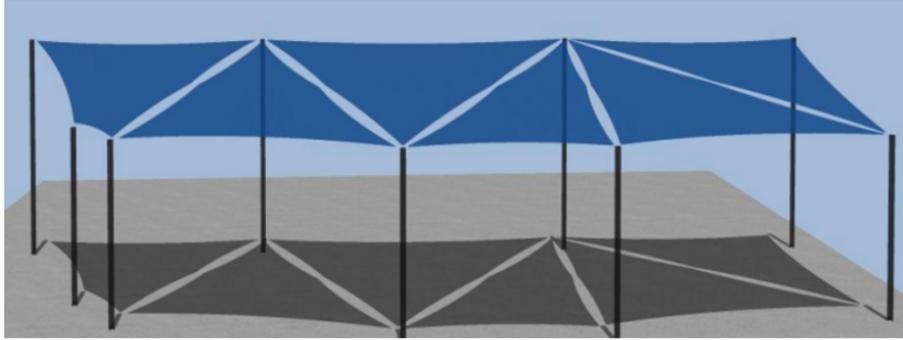

This quotation is not binding and does not become a contract unless signed below by UNIVERSAL AWNING & SHADE, INC. EXECUTIVE OFFICER.

### Schools in Action Additional Funding Description

# SCHOOLS IN ACTION

Due to the pandemic, Schools in Action was able to apply for additional funding for the meal program. We would like to pay for additional meal program costs for your schools.

The amount of money is based on the number of meals that your school site served during the pandemic, and differs from organization to organization.

**Deadline:** Expenses must be submitted no later than May 1st, 2021

- *This allows us enough time to review and send back for corrections if needed.*

Here is the amount that your schools have to spend:     **\$64,841.63**    

Uses of Money	Explanation	Necessary Materials/What needs to be provided	Considerations for the school:
Coding additional meal program services	There might be other people who worked for the meal program in some capacity during the pandemic. This might include: -Security -Administration -Office manager	Invoices with timecards/tracking: <ul style="list-style-type: none"> <li>• An invoice for the salary with the percentage of hours worked on the meal program (for example, annual salary \$60,000, 4 hours weekly for 22 weeks of meal services.</li> <li>• Dates/hours must be provided</li> <li>• The staff member should sign off on the invoice, as should the school administrator</li> </ul>	The money coded to the meal program should not be coded elsewhere on your books. For example, if an administrator is coded to another restricted fund source, they cannot be double coded.
Capital Expenditures	This is equipment for meal services and can include: lunch tables, serving tables, canopied tents, microwaves, fridges, etc.	Description of the item, cost, and how the item will support the school food service. <ul style="list-style-type: none"> <li>• Additional information includes estimated cost, source of bids, how old equipment will be disposed off, etc.</li> </ul>	The SIA team can help with the write up and explanation if you share what type of equipment you need/would like.
Additional meal program support	If additional support for meal service is needed.	Invoices with timecards (same as above)	Same coding restrictions

## Approval of Special Education Compliance Guide

<b>Section:</b>	IV. Action Items
<b>Item:</b>	K. Approval of Special Education Compliance Guide
<b>Purpose:</b>	Vote
<b>Submitted by:</b>	
<b>Related Material:</b>	Special Education Compliance Guide.pdf

Board Agenda Item #	IV K: Action Item
Date:	June 24, 2021
To:	Magnolia Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Erdinc Acar, Chief Academic Officer Artis M. Callaham, Director, Special Education and Support Services
RE:	Special Education Compliance Guide

### Proposed Board Motion

I move that the board approve the Special Education Uniform Compliance Guide for Magnolia Public Schools.

### Introduction

- What services are being provided?
- Why is this contract/service needed? The compliance guide supports the onboarding, training and professional development of all SPED faculty and staff.
- Is this a school or organization wide implementation? Schoolwide Implementation

### Background

#### History of the Project

- Although Magnolia has always had a strong SPED instructional program, we found the need to strengthen our processes and procedures to improve in our adherence to legal mandates, SELPA compliance and CDE requirements. We elected to work to implement systemic changes magnolia wide and put practices and tools in place to support each unique school in maintaining special education compliance and improving overall services and supports.
- Definition of Systemic Thinking / Systems thinking is a viewpoint that helps organizations view events and patterns in a new light—and respond to them in advanced ways. As a language, systems thinking has unique qualities that help organizations communicate about its many systems. Systems thinking emphasizes wholes rather than parts and stresses the role of interconnections—including the role we each play in the systems at work in our schools. It also emphasizes circular feedback rather than linear cause and effect (Pegasus Communications, 2009).
- Creating Systemic change in schools requires time and effort in order to see long term results. Our school programs at Magnolia are interdependent components forming a complex and unified whole, despite the uniqueness of each school.
- Systematic change is a long-term strategy that changes the organization's culture and the attitudes and values of all stakeholders with the ongoing goal of reducing costs and enhancing quality.

- In an effort to sustain the systems we are creating Magnolia-wide, we have developed a SPED Uniform Compliance Guide policies and procedures to help our schools continue to engage in positive practices.
- The SPED Uniform Compliance Guide was developed and compiled in order to serve as a handbook for all SPED professionals at any MPS school to find the support needed in the areas of SPED Laws, SPED Compliance, Writing Legal IEP's, Hiring Effective Non Public Agencies, and providing guidance and support for effective SPED, 504 and GATE program implementation.

Analysis (If applicable)

- Were RFPs done? N/A
- What negotiations were made? N/A
- What is the research/comparison data? N/A

Budget Implications

The approval of this item will require that MPS incur the cost of editing by YM and C as well as the expense of printing for each MPS school site.

## Uniform Compliance Guidelines for Special Education

### *A Step By Step Guide to Special Education Compliance for Charter Schools*

The information contained in this compliance guide is collected from the following sources for the purpose of assisting public charter schools in servicing students with special needs.

- Americans with Disabilities Act and related laws and statutes (as indicated throughout)
- American Speech Language and Hearing Association
- Los Angeles Unified School District
- Los Angeles County Office of Education
- The El Dorado Special Education Local Plan Area
- The Board of Behavioral Sciences
- The U.S. Department of Education
- The California Department of Education

## The First 5 Weeks of School...

(And the next 9 months following)

### Follow these steps for a Successful and Compliant School Year

#### August

##### Week 1-5

##### Week 1

- Search and find the scholars in your school who have exceptional needs.
- Search the SIS System and CAL PADS
- Search Welligent/ SEIS student information systems
- Cumulative Folder Review- Follow-up with requests for records as needed
- Gain SEIS and/or Welligent Access for your Principal, Sped Admin, Coord., Specialist and DIS providers (SEIS via L. Morley or A. Callaham/ Welligent via one access)
- Send Procedural Rights and Safeguards home to all Parents, inclusive of (Uniform Complaint Procedures, 504 Plan and SPED brochures, MPS ADR Policy and all SELPA required information bulletins).
- Attend monthly SPED team meeting
- Complete Individual Service Agreements with the assistance of the Office Tech

##### Week 2

- Review your incoming IEP's/ 504 plans
- Hold an Informational meeting with your new parents of "high-needs" scholars
- Complete the "Strategies for Inclusion" protocol for each meeting, sign and put them in the scholar's cumulative records.
- [Link for Strategies for inclusion Document](#) Form for Completing SIM  
[Link for Strategies for Inclusion Letter](#) Parent Letter for SIM
- Complete needs assessment document for PD's for the school year. [Link for "Magnolia Professional Development workshops"](#)
- Attend monthly SPED team meeting - Share best practices with the SPED team including Para's (Intervention Specialists)

##### Week 3

- Create a Master Calendar for Special Education (Includes: annuals, three years, accommodations, eligibilities and services)
- Complete Passports or SPED summaries for each student with an IEP or a 504 plan
  - Goals for each student
  - Eligibility
  - Accommodations for the classroom and for assessments
- Share best practices with the SPED team including Para's (Intervention Specialists)
- Sample [SPED Calendar](#)

##### Week 4

- Hold all 30 day IEP meetings (new to Magnolia or new to your SPED system, or sig. different program)

- Review and identify all 504 plans - Ensure that meetings are held at least once annually
- Complete assessments and meetings for any outstanding IEP's from the previous school year.
- COP Schools Complete your LAUSD Compliance Checklist/ All Schools review and Complete the Beginning of the year Compliance Checklist in Google Docs and submit to the Special Education Director updated with the accountability team by August 30th!
- Share best practices with the SPED team including Para's (Intervention Specialists)
- Review SEIS for testing accommodations for MAP's, IAB's and CAASP, Collaborate with testing coordinator.

#### Week 5

- Set up your display for parents to obtain SPED Rights, 504 Plan information, Title IX information including uniform complaint procedures. (Sent home in Week 1).
- Data collection of outcomes from prior school year, review to determine the most appropriate implementation plan.
- Implement and monitor faculty and student progress of inclusion programs.
- Share best practices with the SPED team including Paras (Intervention Specialists)
- Present SPED department information to all faculty/staff at your school sites during staff meetings or in-services
- Review graduation plans, transitional plans, complete Cal Pads documents for Juniors and Seniors

#### September

- Sped Coord. and Sped Specialists - Create your weekly schedule for student support and submit it to principals, deans as well as the Director of Sped
- Meet with each Gen Ed teacher to share passports and support plan
- Hold 30 day IEP's/ Schedule hold and complete IEP meetings for the month
- Send assessment plans for any 3 year due dates from Sept through Nov.
- Plan to participate in Weds morning "Go to Meetings" from 8:30 to 9am as need be.
- Review monthly compliance monitoring of DIS service logs, Sped Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting
- Adhere to any DINC errors if we have a compliance issue

#### October

- Complete IEP progress reports one week prior to the reporting period. All IEP goal sheets monitoring goal progression should accompany the school progress reports for each reporting period.
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Continue the "Child find" process. Monitor student progress and hold appropriate SSPT/ MTSS meetings for support.
- Continue to implement and monitor overall Specialized Academic Instructional program
- Attend monthly SPED team meeting
- Determine which students are slated for Gifted Assessment/ [Gate Documents](#)
- Disproportionality Self - Reviews Due if applicable

November

- Monthly reminder... Schedule, hold and complete all IEP meetings for the month.
- Send assessment plans home 75 days before any upcoming three year dates(i.e. any January due dates should be mailed).
- Review monthly compliance monitoring of DIS service logs, Sped Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting
- OLSAT Testing

December

- Complete IEP progress reports one week prior to the reporting period. All IEP goal sheets monitoring goal progression should accompany the school progress reports for each reporting period.
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Review monthly compliance monitoring of DIS service logs, SPED Calendars, Service Schedules and Psych Assessment logs.
- Complete Quarterly SPED Reports Due by December
- Quarterly SPED Personnel Reports Due [Sample of form](#)
- Attend monthly SPED team meeting - Share best practices with the SPED team including Paras (Intervention Specialists)
- Raven's Testing Completed by 15th
- Soft Deadline for CALPADS merger with SEIS and Welligent (COP 3 Schools checked in December by SELPA) (El Dorado Schools Checked Jan by SELPA and LACOE)

January

- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Review monthly compliance monitoring of DIS service logs, Sped Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting
- Review Action Plan for PIR indicators if applicable

February

- Prep for SBAC assessments - Ensure that all scholars have been receiving testing accommodations for the school year
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Review monthly compliance monitoring of DIS service logs, Sped Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting

March

- Prep for SBAC assessments - Ensure that all scholars have been receiving testing accommodations for the school year - Coordinate with proctors and testing coordinators
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Review monthly compliance monitoring of DIS service logs, Sped Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting
- Quarterly SPED reports due [Sample Quarterly Report](#)

April

- Prep for SBAC assessments - Ensure that all scholars have been receiving testing accommodations for the school year
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- 
- Review monthly compliance monitoring of DIS service logs, SPED Calendars, Service Schedules and Psych Assessment logs.
- Attend monthly SPED team meeting
- Submit PIR Action Plans and Updated plans if applicable

May

- CALPADS documentation of SPED seniors who are and are not graduating/ PWN's should also be sent home at this time to have clear communication with parents.
- Check graduates/alumni persistence data. Contact alumni to update documentation for CALPADS
- Transition IEPs must be held for all transitioning scholars
- Complete IEP progress reports one week prior to the reporting period. All IEP goal sheets monitoring goal progression should accompany the school progress reports for each reporting period.
- Send assessment plans home 75 days before any upcoming 3 year due dates.
- Complete all assessment related IEPs this month.
- Submit Tracking Data for 2019 Graduates

June

- Quarterly SPED Reports due
- Quarterly SPED Personnel Reports Due
- Assign SPED Funding for the next school year
- CALPADS Documentation Deadlines for all SPED data
- Complete any outstanding IEP's
- Submit Fiscal Documentation of all STEPS, Low Incidence and SELPA grants or reimbursement of Legal Costs by 6/30/2020.
- Program Evaluations Complete (All SPED Team)
- Submit Strategic plan for next school year (Sped Director)
- Update list of students with exceptional needs who are returning
- Coordinate ESY and sped summer plans

August

- Review incoming IEP's for the following school year to determine the need for the following:
  - Strategies for inclusion meetings to adjust services as needed for FAPE
  - Determine the number of 30 day meetings needed/ divide 30 day responsibilities among the team to ensure support for timely completion.
- Begin developing SPED Calendars for the next school year.

## Special Education Training 101

(All Principals, Teachers, SPED Teachers, School Psychologists and Administrators should review this section at least annually)

### Comprehensive Local Plan for Special Education

#### Definitions

Free appropriate public education (FAPE) means special education and related services that are available to an eligible child at no charge to the parent or guardian, meet educational standards, and conform to the child's IEP. (20 U.S.C § 1401(9); 34 C.F.R. § 300.17.) The right to FAPE extends to students who are suspended or expelled or placed by the charter LEA in a nonpublic, nonsectarian school or residential placement. (34 CFR 300.17, 300.101, 300.104)

Full educational opportunities means that students with disabilities have the right to full educational opportunities to meet their unique needs, including access to a variety of educational programs and services available to non-disabled students. The State must have in effect policies and procedures to demonstrate that the State has established a goal of providing full educational opportunity to all children with disabilities and a detailed timetable for accomplishing that goal. (34 CFR 300.109)

Least restrictive environment means that, to the maximum extent appropriate, students with disabilities, including individuals in public or private institutions or other care facilities, shall be educated (including nonacademic and extracurricular activities and services) with students who are not disabled., (20 U.S.C. § 1412(a)(5), 34 CFR 300.107, 300.114, 300.117; Ed. Code § 56342, subd. (b).) Special classes, separate schooling, or other removal of students with disabilities from the general educational environment, shall occur only when the nature or severity of the disability is such that education in the general classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Special education means instruction which is specially designed to meet the unique needs of students with disabilities whose educational needs cannot be met through modification of the regular instruction program and is provided at no cost to the parents. It also includes those related services that may be needed to assist students to benefit from specially designed instruction. Special education includes but is not limited to: regular education; resource specialist programs; designated instruction and services; special classes; nonpublic, nonsectarian schools; state special schools; specially designed instruction in settings other than classrooms; itinerant instruction in settings other than classrooms; and instruction using telecommunication, instruction in the home or instruction in hospitals or institutions. (Ed. Code, § 56361.)

Special education may include each of the following if the services otherwise meet the definition in the above paragraph: (Education Code 56031)

- Speech language pathology services, or any other designated instruction and service or related service, pursuant to Education Code 56363, if the service is considered special education rather than designated instruction and service or related service under state standards.
- Travel training
- Career technical education
- Transition services for students with disabilities in accordance with 34 CFR 300.43 if provided as specially designed instruction, or a related service, if required to assist a student with disabilities to benefit from special education

Specially designed instruction means adapting, as appropriate to the needs of an eligible student, the content, methodology, or delivery of instruction to address the unique needs of the student that result from the student's disability and ensure access of the student to the general curriculum, so that the student can meet the educational standards that apply to all students in the charter LEA. (34 CFR 300.39(b)(3))

Elements of the Local Plan - (Rationale, all LEA's Must Align with a SELPA for SPED Monitoring, support and Guidance) This section is for informational purposes.

Note: Education Code 56205 details the elements that must be included in the local plan developed by the special education local plan area (SELPA), including a requirement that the plan contain assurances of general compliance with Section 504 of the Rehabilitation Act of 1973 (29 USC 794), the IDEA (20 USC 1400–1482), and the Americans with Disabilities Act (42 USC 12101–12213).

The special education local plan (SELPA) shall include, but not be limited to, the following:

- Assurances that policies, procedures, and programs, consistent with state law, regulation, and policy, are in effect as specified in Education Code 56205(a)(1-22) and in conformity with 20 USC 1412(a), 20 USC 1413(a)(1), and 34 CFR 300.201.
- An annual budget plan and annual service plan adopted at a public hearing held by the SELPA. The local plan, annual budget plan, and annual service plan shall be written in language that is understandable to the general public.
- A description of the process being utilized to oversee and evaluate placements in nonpublic, nonsectarian schools and the method for ensuring that all requirements of each student's IEP are being met.
- A description of a dispute resolution process
- Verification that the plan has been reviewed by the community advisory committee in accordance with Education Code 56205.
- A description of the process being utilized to refer students for special education instruction pursuant to Education Code 56303.

(Ed. Code § 56205 (a).)

A description of how specialized equipment and services will be distributed within the local plan area in a manner that minimizes the necessity to serve students in isolated sites and maximizes the opportunities to serve students in the least restrictive environment. (Ed. Code § 56206)

The local plan, annual budget plan, and annual service plan shall be written in language that is understandable to the general public. (Ed. Code § 56206(d))

Each entity providing special education shall adopt policies for the programs and services it operates, consistent with agreements adopted pursuant to Education Code § 56195.1 and 56195.7. (Ed. Code § 56195.8)

### Identification and Evaluation of Individuals for Special Education

A student shall be referred for special educational instruction and services only after the resources of the regular education program have been considered and used where appropriate. (Education Code 56303)

The Charter LEAs shall not determine that a student is eligible for special education if the dominant factor for finding eligibility is lack of appropriate instruction in reading, lack of instruction in mathematics, or limited English Proficiency (20 U.S.C. § 1414(b)(5); Ed. Code, § 56329, subd. (a)(2).)

All referrals for special education and related services from school staff shall include a brief reason for the referral and description of the regular program resources that were considered and/or modified for use with the student, and their effect. (5 CCR § 3021.)

Within 15 days of a referral for initial assessment the LEA shall provide the student's parent/guardian with a notice of parental rights and a written proposed assessment plan. The 15-day period does not include days between the student's regular school session or term, or days of school vacation in excess of five school days from the date of receipt of the referral.

The proposed assessment plan shall meet all of the following requirements: (Education Code 56321(b))

- Be in a language easily understood by the general public
- Be provided in the native language of the parent/guardian or other mode of communication used by the parent/guardian unless it is clearly not feasible
- Explain the types of assessment to be conducted
- State that no individualized education program (IEP) will result from the assessment without parent/guardian consent

Upon receiving the proposed assessment plan, the parent/guardian shall have at least 15 days to decide whether or not to consent to the initial assessment. The assessment may begin as soon as informed parental consent is received by the respective Charter LEA. The Charter LEA shall not interpret parent/guardian consent for initial assessment as consent for initial placement or initial provision of special education services. (Education Code 56321; 34 CFR 300.505)

However, an individualized education program required as a result of an assessment of a pupil shall be developed within 30 days after the commencement of the subsequent regular school year as determined by each Charter LEA's school calendar for each pupil for whom a referral has been made 30 days or less prior to the end of the regular school year. In the case of pupil school vacations, the 60-day time shall recommence on the date that pupil schooldays reconvene. A meeting to develop an initial individualized education program for the pupil shall be conducted within 30 days of a determination that the pupil needs special education and related services pursuant Section 300.323(c)(1) of Title 34 of the Code of Federal Regulations. (Education Code 56344)

If a parent/guardian refuses to consent to the initial evaluation or failed to respond to the request to provide consent, the Charter LEAs may pursue an evaluation by utilizing the mediation and due process procedures found at 20 USC § 1415 and in accordance with Education Code, sections 56501, subd. (a) (3), and 56506, subd. (e). ) In the event that an authorized parent does not consent to an initial evaluation the Charter LEAs shall not be considered in violation of the requirement to provide FAPE. In addition, the Charter LEAs is not required to convene an IEP team meeting or to develop an IEP for that child. (20 USC § 1414(a)(1)(D)(ii)(I)&(II).

Informed parental consent means that the parent/guardian:

- Has been fully informed of all information relevant to the activity for which consent is sought, in his/her native language or other mode of communication
- Understands and agrees, in writing, to the assessment
- Understands that the granting of consent is voluntary on his/her part and may be revoked at any time
- (34 CFR § 300.500)

If the student is a ward of the state and is not residing with his/her parents/guardians, the Charter LEAs shall make reasonable efforts to obtain informed consent from the parent/guardian as defined in 20 USC, section 1401 for an initial evaluation to determine whether the student is a student with a disability. (20 USC § 1414(a)(1)(D)(iii)(I).

Note: Pursuant to Government Code 7579.5, when a student is a ward of the court, the charter LEA should appoint a surrogate parent only when the court has limited the rights of the parent/guardian to make educational decisions for his/her child and the student has no responsible adult, such as a foster parent, to represent him/her. Since Welfare and Institutions Code 361 and 726 require the juvenile court to appoint a responsible adult when the court limits parental rights, rarely will it be necessary for the Charter LEA to appoint a surrogate because that appointment would be superseded by the court's appointment of a responsible adult or foster parent.

Surrogate parent means an individual assigned to act as a surrogate for the parents/guardians when a parent cannot be identified or located with reasonable efforts. The surrogate parent may represent an individual with disabilities in matters relating to identification, assessment, instructional planning and development, educational placement, reviewing and revising the IEP, and in other matters relating to the provision of FAPE to the individual. (34 CFR 300.519; Education Code 56050)

The Charter LEAs shall not be required to obtain informed consent from the parent/guardian of a student for an initial evaluation to determine whether the student is a student with a disability if any of the following situations exists

- Despite reasonable efforts to do so, the Charter LEAs cannot discover the whereabouts of the parent/guardian of the student.
- The rights of the parent/guardian of the student have been terminated in accordance with California law.
- The rights of the parent/guardian to make educational decisions have been subrogated by a judge in accordance with California law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.
- (Education Code 56301; 20 USC 1414(a)(1)(D)(iii)(II)(aa)-(cc))

As part of the assessment plan, the parent/guardian shall receive written notice that:

- Upon completion of the administration of tests and other assessment materials, an IEP team meeting that includes the parent/guardian or his/her representative shall be scheduled pursuant to Education Code, section 56341. At this meeting, the team shall determine whether or not the student is a student with disabilities as defined in Education Code, section 56026 and shall discuss the assessment, the educational

recommendations, and the reasons for these recommendations. A copy of the assessment report and the documentation of determination of eligibility shall be given to the parent/guardian.

- In making a determination of eligibility, a pupil will not be determined to be an individual with exceptional needs if the determinant factor for the determination is:
  - A lack of appropriate instruction in reading
  - Lack of appropriate instruction in mathematics
  - Limited English proficiency OR
  - Otherwise does not meet eligibility criteria under 34 CFR 300.8
- If the parent/guardian disagrees with an assessment obtained by the Charter LEAs, the parent/guardian has the right to obtain, at public expense, an independent educational assessment of the student from qualified specialists, in accordance with 34 CFR §300.502.
- If the Charter LEAs observed the student in conducting its assessment, or if its assessment procedures make it permissible to have in-class observation of a student, an equivalent opportunity shall apply to the independent educational assessment. This equivalent opportunity shall apply to the student's current placement and setting as well as observation of the Charter LEA's proposed placement and setting, regardless of whether the independent educational assessment is initiated before or after the filing of a due process hearing proceeding.
- The Charter LEAs may initiate a due process hearing pursuant to Education Code 56500-56508 to show that its assessment is appropriate. If the final decision resulting from the due process hearing is that the assessment is appropriate, the parent/guardian maintains the right for an independent educational assessment but not at public expense. If the parent/guardian obtains an independent educational assessment at private expense, the results of the assessment shall be considered by the Charter LEAs with respect to the provision of a free appropriate public education to the student, and may be presented as evidence at a due process hearing regarding the student. If the Charter LEAs observed the student in conducting its assessment, or if its assessment procedures make it permissible to have in-class observation of a student, an equivalent opportunity shall apply to an independent educational assessment of the student in the student's current educational placement and setting, if any, proposed by the Charter LEAs, regardless of whether the independent educational assessment is initiated before or after the filing of a due process hearing.
- If a parent/guardian proposes a publicly financed placement of the student in a nonpublic school, the Charter LEAs shall have an opportunity to observe the proposed placement and, if the student has already been unilaterally placed in the nonpublic school by the parent/guardian, the student in the proposed placement. Any such observation shall only be of the student who is the subject of the observation and may not include the observation or assessment of any other student in the proposed placement unless that student's parent/guardian consents to the observation or assessment. The results of any observation or assessment of another student in violation of Education Code, section 56329(d) shall be inadmissible in any due process or judicial proceeding regarding the free appropriate public education of that other student.

(Education Code 56329; 34 CFR 300.502)

An IEP required as a result of an assessment shall be developed within a total time not to exceed 60 days from the date of the receipt of the parent/guardian's consent for assessment, unless the parent/guardian agrees to an extension in writing. The 60-day period does not include any days between the student's regular school sessions/terms, or days of school vacation in excess of five school days, (Ed Code § 56043(f)(1))

However, when a referral is made within 30 days of the end of the regular school year, an IEP required as a result of an assessment shall be developed within 30 days after the commencement of the subsequent regular school year as determined by each district's school calendar. In the case of school vacations, the 60-day time shall recommence on the date that school reconvenes. (Ed. Code § 56344 (a).)

A meeting to develop an initial IEP for the pupil shall be conducted within 30 days of a determination that the pupil needs special education and related services. (Ed. Code §§ 56043(f)(2); 56344 (a).)

Before entering kindergarten or first grade, children with disabilities who are in a preschool program shall be reassessed to determine if they still need special education and services. The IEP teams shall identify a means of monitoring the continued success of children who are determined to be eligible for less intensive special education programs to ensure that gains made are not lost by a rapid removal of individualized programs and support for these individuals. (Ed. Code § 56445)

## General Information

*Please adhere to the information within this manual and additional direction provided by the Director of Special Education and Support Services to avoid a violation of American Disabilities Act, Special Education and/or CDE Compliance Laws.*

SPED is based on Federal and State Laws. Electing not to follow the guidelines will be a direct violation of what is legal and compliant with regard to special education laws and program implementation.

The core beliefs of the Special Education and Scholars Support Unit

- The needs of scholars come first in all of our work.
- Families are critical partners to MPS school success and we respect and engage this dynamic.
- Supporting classrooms is an essential component to everyone's success.
- Data collection and analysis is a critical tool to effective program and accountability indicators for program improvement, progress monitoring and academic excellence.

Please feel free to review the following laws for additional information with regard to Special Education and exceptional learners:

- Section 504 of the Rehabilitation Act of 1973
- Individuals with Disabilities Education Act (IDEA)
- Family Educational Rights and Privacy Act (FERPA)
- Every Student Succeeds Act (ESSA)
- Americans with Disabilities Act (ADA)
- California Education Code (Ed Code) 5600 et seq.

### Special Education Legal Background

The Rehabilitation Act of 1973 (PL 93-112), amended in 1992, includes Section 504, which affirms the right of any student or adult who has a mental or physical impairment which inhibits a major life activity including learning; has a history of such an impairment; or is considered by a team of knowledgeable individuals to have such an impairment, from being discriminated against by any program or activity receiving federal financial assistance. This Act also requires that students be given a free appropriate public education in regular education classes, with necessary supplementary aids and services, if they are determined by a school team to be disabled under Section 504 or the Americans with Disabilities Act (ADA). Such eligibility may exist without concurrent eligibility for special education under the Individuals with Disabilities Education Act (IDEA).

The Rehabilitation Act was followed in 1975 by the passage of PL 94-142, the Education of Handicapped Act, which was changed in 1990 to the IDEA. This is the legislation that provides that all students who are eligible for special education must be provided with a free appropriate public education in the least restrictive environment.

The California Legislature implements the provisions of IDEA through the California Master Plan for Special Education. This plan was first implemented statewide in 1980 with the passage of Senate Bill 1870.

Some of the major areas covered by state and federal laws are the following:

- Child Find - Each public school system is responsible to find children with disabilities in its area
- Free Appropriate Public Education (FAPE) - Each public school system is responsible for ensuring that each child with disabilities is served appropriately, at no expense to the parent
- Least Restrictive Environment (LRE) - Each child is assured of his/her right of education with non-disabled peers to the maximum extent appropriate to the needs of both
- Due Process - The right of parent participation, and challenge, in all aspects of assessment, identification and placement is assured; involves mediation or administrative hearing procedures and complaint procedure in case of disputes
- Individualized Educational Planning (IEP) - The right of a child to an educational program designed to meet his/her individual needs and based on adequate assessment is assured. At age 14 to 16 this includes the development of an Individual Transition Plan (ITP) to provide for transition into the world of work.

These concepts have been reinforced and interpreted by a number of court cases since the passage of the law. The complexity of these rules and responsibilities has created the need for skilled and knowledgeable administrators who must understand the laws and apply them fairly. The SELPA Administrator is responsible for assuring that:

- All individuals with disabilities receive a free appropriate public education in the least restrictive environment.
- All regular education resources are considered and, where appropriate, utilized on a local or regional basis to meet the needs of students with disabilities.
- A system exists at the regional level for identification, assessment and placement of disabled students.
- A viable system for public education is functioning in the community, with broad participation and interaction involving parents and other agencies serving children and young adults.
- An annual compliance monitoring system implemented, that continues to assure non-compliant items that have been identified through Self Reviews, Verification Reviews, Focused Monitoring or Complaints have and continue to be rectified.

### Overview of Special Education and Governing Laws

Significant changes have occurred in services and programs provided for children with exceptional needs in the public schools of California. These changes have stemmed from new laws and regulations at both the state and national levels, as well as from the spirit of fairness, balance and equality that characterize the public school system in America. New interpretations of existing laws by the courts have further modified and expanded the services required for exceptional students.

Previously, children with disabilities were identified only if their educational needs were obvious. Then, they tended to be placed into programs designed to serve children with similar disabilities in special schools or located separately on comprehensive school sites. Such categorical programs were usually effective in providing specialized services for the populations they served; but in many cases, expectations for these groups were inappropriate in relation to the students' actual potential.

Gradually, the community and public agencies have become aware that children with disabilities can be educated with their non-disabled peers, guaranteeing equal opportunities for all children... including children with disabilities.

This required the sharing of program resources, including transportation, through regional cooperation among public and non-public schools and non-educational agencies.

In the early 1970s, a simultaneous movement across the country resulted in the passage of important federal and state laws. The federal laws were PL 93-112 and PL 94-142. In 1987, PL 99-457 was passed which expanded services to preschool children. In response to these laws, legislation was passed in California which provides the legal foundation for a comprehensive plan in special education and requires local districts and agencies to establish SELPAs to address the needs of all children with disabilities.

These laws and regulations promote changes and procedures leading to such things as the following:

- Accountability
- Annual Reviews of Progress
- California Special Education Management Information System (CASEMIS/CALPADS) Reporting
- Career Training
- Community Involvement and Support
- Compliance Reviews
- Coordination of Resources Among Districts by Regions
- Desired Results Developmental Profile (DRDP) Assessment and Data Reporting
- Due Process Rights
- Educational Benefit
- Full Service to All Students with Disabilities
- Guaranteed Equality of Access
- Improved Self-Esteem for Children with Disabilities
- Increased Parent Participation
- Individualized Educational Programs (IEP)
- Less Restrictive Placements (LRE)
- Local Governance Systems
- Program Evaluation
- Quality Program Reviews
- Social Acceptance of Children with Disabilities
- Staff Development Programs
- State Performance Plan Indicator Data Collection
- Transition from School to Post Secondary Education and Employment

Today, as never before, parents, students and staff work together to make certain that the appropriate services are provided on an individualized basis for every child with a disability. The services are provided through the SELPAs. The Local Plan developed and maintained in each community by the people who live there, is the basis of these improvements and the foundation of services.

The following suggested guidelines are from one of our authorizers. This outlines “best practices” for responding to a parent request for Special Education Services.

- *INITIAL REQUESTS:*
  - *Respond to the written requests for an initial evaluation within 15 days of receipt*
  - *Send an assessment plan with a copy of the “[A Parent’s Guide to Special Education Services](#) Or [Including Procedural Rights and Safeguards](#) Spanish / [Procedural Rights and Safeguards](#) English*
  - *Hold a SSPT meeting per parent’s agreement within 15 days of receipt of the written referral. It should be noted: 1) SSPT meetings should not extend the 15 day timeline and 2) at the conclusion of the SSPT, parent has the right to:*
    - *Forgo the SSPT process for an assessment plan*
    - *Attempt general education interventions which should be documented using attachment C or D of [Bulletin 4140.2](#) / (Non LAUSD schools also comply)*
- *RE-EVALUATION REQUESTS:*
  - *Respond to the written requests for a re-evaluation within 15 days of receipt*
  - *The Charter School must grant a parent request for re-evaluation and send an assessment plan with a copy of the “[A Parent’s Guide to Special Education Services](#) (Including Procedural Rights and Safeguards)” unless a re-evaluation has occurred in the past calendar year. 34 CFR 300.303*

## Developing the Individualized Education Program

IEP Checklist - What to do before an IEP Meeting:

[https://docs.google.com/document/d/1\\_\\_BB2uRBuotP7eLoIPlcO5hVpmhGmlhMVZjZ0LFYasc/edit?ts=5d5457e8#](https://docs.google.com/document/d/1__BB2uRBuotP7eLoIPlcO5hVpmhGmlhMVZjZ0LFYasc/edit?ts=5d5457e8#)

Script to be Read AT the Beginning of EVERY IEP Meeting:

- An IEP Meeting is a collaborative process, and all participants will be provided the opportunity to ask questions and provide recommendations and suggestions.
- The IEP team has the authority and responsibility to design a program in which the child can derive meaningful benefit.
- The Draft IEP, behavior intervention plan, or assessment plan might change as a result of the IEP team's deliberations.
- The decision on related services and placement will occur during the IEP meeting, unless the team agrees that there is not sufficient information to make a placement determination.
- The team considers the family equal partners in the educational decision - making process.
- Any team member may propose an objective or goal in the IEP, even if it is not included in the Welligent goal bank.
- If you are tape recording this meeting, please let us know at this time. Any recorded information obtained outside of our recording policy, (i.e. 24 hours prior notification to the school or divulged at this moment) can not be used as evidence of any kind in the event of any formal or informal hearing or resolution meeting.
- COP 3 schools only... "If your child is a student who has a moderate to severe disability and was relocated from a Special Education Center to a General Education campus, you should be aware that there remains a continuum of placements available for consideration by the IEP team with respect to placement of your child, including Special Education Centers."

IEP Follow-up Checklist - What to do Following an IEP Meeting:

<https://docs.google.com/document/d/14xAhBSl2PCuKITZcXDJe7EGZ6PprGjSmivoFVCSyHX8/edit?ts=5d5457df#>

## IEP MEETINGS AT MAGNOLIA PUBLIC SCHOOLS

The manner in which an IEP Meeting is conducted will have a significant impact on its effectiveness. The process should ensure that:

- The focus is on the student.
- All participants are viewed as having important contributions
- Communication is in a style and manner that is both understandable and respectful. (Use charts, graphs and PowerPoints when possible).
- The needs of the student guide the decisions made at the meeting.
- The decisions made can and will be implemented.
- Policy requirements are met and Sped LRE/ FAPE laws are followed.

The Meeting itself:

- Begin the meeting on time, or inform participants of any interference for not meeting on time.
- If the meeting is being recorded, advise everyone to speak loudly and take turns speaking.
- State the purpose of the meeting: Examples (Annual Review) “We are here to review the progress that (Student’s Name) has made since the last IEP meeting and to plan (his/her) Free and Appropriate Public education program for the next year.” Example (Initial IEP) “We are here to determine whether (student’s name) has a disability and requires special education and related services and if so, determine the appropriate services to meet (his/her) needs and support (him/her) in accessing the general education curriculum.”
- Introduce the participants and their roles.
- When an interpreter is used, clarify the roles and turn-taking procedures that are to be used (i.e., allow time for all communication to be completely interpreted; speak to the participants, not the interpreter; take turns talking; simultaneous interpretation will occur; or other specific interpreting procedures to be used).
- Distribute the proposed agenda and ask the participants if there are any additions or modifications.
- Changes should only be accepted if they are consistent with the purpose of the IEP meeting and supports FAPE.
- Offer parent(s) copies of Procedural Rights and Safeguards and document within the IEP that these have been provided. COP 3 Schools should also offer A Parent’s Guide To Special Education Services. All COP3 Schools, Provide the IEP and You, if a transition plan is being developed or reviewed, also provide the ITP and you. Review the content with the parents.
  - If the student has reached the age of 18, and we have informed the family at least 12 months prior; and the student has not been determined to be incompetent under State Law, all rights, roles, responsibilities and communication described in the Manual pertaining to the parent are conveyed to the student.
  - Ask if Parents/Guardians/adult-student understand their rights as described in the guide and or explained to them. If they have any questions, please summarize and check for understanding until the parents indicate they understand.
- Tell the team the proceedings and results are confidential and will be used for educational purposes only.
- If the student is in attendance, they may contribute to the meeting by discussing their educational strengths and concerns.

- Throughout the meeting invite parent/student comments and questions. Check for parent and student understanding. Make every effort to include parent suggestions and perspectives in the development of the support plan.
- Any Parent request and the IEP team's response should be documented. If the IEP team decides not to implement a Parent request, the IEP must document what information was relied on to make the decision and what alternatives were considered.
- It is always helpful to invite the parents and student (if present) an opportunity to share their expectations and vision for the student's future, including short and long-term plans.
- Beginning with the year that the student will turn 14 and each annual review thereafter, discuss Magnolia's, and the State's requirements for graduation. Discuss in an effort to determine whether the student will work toward a MPS Diploma, State Diploma or a Certificate of Completion.
  - Fully explain the following and solicit a clear understanding of the following:
    - The difference between a diploma and a certificate of completion.
    - The right of students to continue their education until age 22, unless they have earned a diploma.
    - The courses and credit requirements that must be satisfactorily completed for a diploma.
    - The criteria for receiving a certificate of completion.

### DETERMINING ELIGIBILITY

In order for a student to be eligible for special education services the student must have a disability and a unique learning need that cannot be met through the general education program with appropriate accommodations and modifications. As a result, the student requires special education services to meet his/her unique learning needs as determined through assessment. The student is determined to be an Individual with Exceptional Needs (IWEN).

A student ceases to be eligible for special education if he/she no longer has a disability or a unique need requiring special education. A student may continue to have a disability, but if the student is able to adequately access the general education curriculum- meaning at grade and age expectancy, they may be determined "No Longer Eligible" for special education service.

\*Note: An assessment of the student must be conducted before the IEP team can make this determination. A student may still require support in the form of a 504 plan in certain circumstances.

In determining eligibility, the IEP team should do the following:

- Discuss and consider assessment results.
- If the purpose of the IEP meeting is to determine initial or continuing eligibility or to consider terminating special education and related services, individuals knowledgeable about the assessment findings and who can interpret their instructional implications should give oral reports summarizing the findings from the assessment reports. This information should be communicated in clear, concrete language with minimal use of professional jargon. Encourage team members to ask for clarification if they do not understand what is being presented.
- Discuss the results from any independent educational evaluation(s) conducted by qualified examiners (See Initial Assessment, Reassessment and Independent Educational Evaluation). If the persons conducting the evaluations are present, ask them to summarize their findings. Note:

- Summarize the team's consideration of the independent educational evaluation(s) on the IEP document in FAPE 2 Part 4, Additional Discussion (WELLIGENT) or in the notes section (SEIS).
- Determine whether the student has or continues to have one or more disabilities. When making this determination the IEP team should:
    - Discuss characteristics of the student that support the identification of a disability.
    - Answer the questions on the relevant certification forms for students when determining whether a student has a specific learning disability, emotional disturbance or speech or language impairment eligibility or when re-evaluating a student with these eligibility areas and complete the form.
    - Document the areas of disability that were discussed.
  - Document the areas of disability considered by the IEP team for which the student did not meet eligibility requirements and the reasons why.
  - Determine whether the student has a unique learning need that requires special education services. When making this determination the IEP team should:
    - For an initial IEP, develop and document a profile of the student's functioning, including present levels of educational performance, and the accommodations and modifications that have been tried with the student and their level of success.
    - Discuss whether the student's disability has or continues to have an adverse effect on his/her educational performance.
    - Determine whether the unique educational needs of the student are not primarily due to:
      - Environmental, cultural or economic factors.
      - Lack of instruction in math.
      - Lack of instruction in reading.
      - Limited English proficiency.
      - Social maladjustment.
      - Temporary physical disability.

Note: If the IEP team determines that the student's unique educational needs are primarily due to one or more of the above factors, then the team must conclude that the student is not eligible for special education.

- If it is determined that the student does not have a disability or no longer has a disability and thus is not eligible for special education, the IEP team may discuss other general education accommodations and modifications that might be beneficial.
- If it is determined that the student has a disability, but does not require or no longer requires special education to access his educational program, the IEP team should discuss whether the student is eligible for a Section 504 Plan.

Note: If it is determined that the student may be eligible for a Section 504 Plan, refer the student for the 504 evaluation process.

- o Identify the disability or disabilities for which the student is found eligible and which is the primary disability impacting learning. Document this disability on the Eligibility page of the IEP document.
  - o For COP 3 Schools, additionally document if a Student has a Low Incidence disability.
  - o For SEIS schools, if a student meets eligibility criteria for two categories, including, but not limited to a low incidence disability, a second disability may be listed.
- If it is determined that the student is not or is no longer eligible for special education services, check the “Does not meet eligibility criteria for Special Education Services” or “No Longer Eligible for Special Education Services” box on the IEP.
  - If it is determined that a student no longer requires special education, follow Welligent/ SEIS IEP system procedures for conducting an Exit IEP under the category of “No longer eligible for special education services.”
  - Document the decisions made above on the Eligibility page of the IEP. If it was determined the student is not or is no longer eligible for special education, the IEP meeting can be adjourned. If the student is determined to be eligible, proceed with the meeting.

### DETERMINING THE APPROPRIATE CURRICULUM OF INSTRUCTION

Based on the assessment data, determine whether the student will participate in one or more of the following:

- The general education curriculum for his/her grade level.
- The general education curriculum using accommodations and/or modifications.
- A special education alternate curriculum.

Note: It is the responsibility of the IEP team to determine whether a student will participate in the general curriculum or alternate curriculum, which then determines which standards will be used to assist in developing appropriate goals. General education curriculum is the course of study for all students expected to meet diploma requirements. Alternate curriculum is the course of study for students who are working on alternate achievement standards and is designed for students with significant cognitive disabilities. Alternate achievement standards are aligned with and modified from general education grade level content standards.

The decision to recommend instruction using an alternate curriculum will impact a student’s educational outcomes from the point of the recommendation forward. As such, the decision to recommend a student be instructed using an alternate curriculum should only be made after appropriate information has been gathered and discussed by an IEP team. [COP3/See REF- 6275.0 Guidelines for Individualized Educational Program (IEP) Teams When Considering a Recommendation to Instruct a Student Using an Alternate Curriculum] or [SEIS/See El Dorado SELPA’s Guidelines for considering an Alternative Curriculum].

Note: \* Providing a student a **modification** as opposed to an accommodation in an IEP does not automatically restrict the student(s) to an alternative curriculum or earning a certificate of completion.

## PREVIOUS GOAL ACHIEVEMENT

If the student is receiving special education services, review all annual goals and objectives in the current IEP and determine whether the objectives under each goal have been met or not. All objectives have to be met in order for the goal to be met. For each goal that is not met, determine the reason(s) why and what might be done to better assist the student to meet the goal. Utilizing monitoring information, discuss the progress the student has or has not made. Discuss goal achievement or partial achievement as strengths; not achieved as areas of need.

Note: Prior to the IEP team, team members responsible for each goal should take needed measures to ensure they have current, detailed, and accurate information regarding the student's progress on the goal, as specifically described within the goal.

## DETERMINING PRESENT LEVELS OF PERFORMANCE (PLPs)

Identify performance areas in which the student requires support based on his/her assessed unique needs and the assessment or monitoring information used to make that determination. This data provides the IEP team with the information necessary to individualize a student's educational program.

Examples of performance *areas* include: **health/development**; vision (including low vision); hearing; social, emotional and behavioral status; **general ability**; self-help; academic performance (e.g. reading, written language, math); orientation and mobility; language functions; motor abilities; and career and transition abilities. Present Levels of Performance should be data-driven and include the following:

·Information about results from multiple measures of assessment – Determination should not be made based on one person's assessment. A multi-disciplinary team should evaluate students ensuring that there is no bias and that results are a valid measurement of the child's performance.

- o Student strengths;
- o Areas of need; and
- o Impact of disability statement that identifies the disability, including how the disability impacts the student's involvement and progress in the general education curriculum.
- o Optional fourth Section "Suggestions" – description of what works for the student and accommodations that may benefit academic/behavioral support.

The PLPs can be written prior to the meeting in a narrative form but subject to revision by the IEP team. (Make sure to add parent observations and feedback related to each performance area.)

STUDENT STRENGTHS, document what the student can do. Establish a baseline performance level and be sure to include results of curriculum-based measures. Think about what standards the student has mastered and how the student performs on classroom and homework assignments. Establish baseline performance level by:

- Reviewing multiple assessment measures
- Identifying standards mastered
- Describing classroom academic performance
- Identifying non-academic strengths, such as positive behaviors or social emotional responses.

When discussing STUDENT NEEDS, be specific. Document areas of difficulty for the student. Indicate which standards need to be mastered. Describe the student's classroom performance. This information will enable the IEP team to develop an appropriate goal or determine appropriate accommodations, modifications or services for the student.

- Document areas of difficulty
- Determine standards that need to be mastered
- Describe classroom performance
- Identify specific skills that will be addressed in the following year, and document the student's current, objectively measurable baseline. (E.g. "Student is currently able to read 3 words per minute" NOT "Student reads slowly")
- ***Must clearly link to goal(s) and objectives selected***

IMPACT OF DISABILITY statement **MUST contain these THREE elements:**

- Name the disability
- Describe how the disability is manifested in the specific performance area
- State that the disability impacts the student's involvement and progress in the general education curriculum State the area of disability and describe how the disability impacts the student's academic skills specifically in that performance area and, as such, "impacts the student's involvement and progress in the general education curriculum".

In the event there is no impact of the student's disability on the specific performance area, no corresponding goal would be established and the impact of the disability statement might include the following language, "The student's disability does not impact student's involvement and progress in the general education curriculum for this performance area."

If it is determined by the IEP team that the instruction for the student will be aligned to the alternate curriculum, the impact of disability statement will include the following, "impacts the student's involvement and progress in the general education curriculum to such a degree that his instruction is based on alternate achievement standards using the alternate curriculum."

### ANNUAL GOALS AND OBJECTIVES

For each performance area statement that identifies a student need, develop at least one annual goal. Annual goals represent the IEP team's estimate of what the student can reasonably be expected to achieve with specialized instruction or support during 12 months. Annual goals must be appropriately ambitious, measurable and include conditions that will enable the student to access the goal. The team should answer the question, "With specialized instruction or support what do we expect the student to know or do within a year". All academic goals must be aligned to the California Common Core State Standards.

Additionally:

- Goals developed for related service providers may also be aligned to the content standards.
- Stand-alone goals, goals that cannot be linked to content standards, may need to be developed in relevant performance, e.g. behavior, social emotional learning. Note: Most SEL goals are in the state standards.
- Develop specific, measurable, attainable, relevant, and time-bound goals with appropriate conditions and specific measurement terms to achieve the goal
  - o Goals for students who are far below grade level may reflect anticipated achievement of a prerequisite skills but should be paired with services for remediation of the achievement gap. Reading Foundational (RF) standards goals can be written below grade level to match the instructional needs of students; however, it is best practice to pair the out-of-grade level goal with a grade level goal that addresses reading comprehension.
  - o If a student has a moderate to severe disability and is not participating on the required course of study to attain a high school diploma, goals should be developed based upon alternate achievement standards aligned to the California State Content Standards.
  - o For students with visual impairments, goals should be developed that also address the critical skills they require to access the core curriculum, function independently, and participate meaningfully in educational activities as delineated in the Expanded Core Curriculum (ECC).

During the development of services, determine the type of general education, special education and related services providers who will be responsible for instructing the student in each of the goals. It is possible that more than one person may be responsible. For example, both the general and special education teachers may be providing instruction to ensure attainment of core curriculum IEP goals.

Explain how progress towards goal achievement will be reported to the parent.

Note: IEP goals must be aligned to state standards. Therefore, the use of results from multiple sources of data will allow the IEP team to identify the specific skills/achievement over time.

These MULTIPLE MEASURES or sources of data may include:

- Curriculum based measures (Teacher generated, criterion referenced)
- Diagnostic data (Standardized assessments, ELPAC)
- Curriculum based assessments (MAP Testing – following “scope and sequence”)
- Summative assessments (IAB’s, MAP Testing – MPS wide)
- Other student data sources (Student work-samples, portfolios)
- Parent and teacher/school personnel observation

Note: It is a legal requirement that parents of students with disabilities must be informed of progress and achievement toward IEP goals at least as often as report cards are issued for general education students. Personnel responsible for goals must document student progress towards IEP goals on the IEP Report of Progress and Achievement from Current IEP. Copies of the IEP Report(s) of Progress and Achievement must be provided to the parent or sent home with students when issuing report cards to all students.

- o If the student has been determined to be an English Learner (EL) identify appropriate English language development goals based upon the four domains: listening, speaking, reading, and writing to support the development of English proficiency. Appropriate goals must link to determined areas of need in the English Language Development (ELD) Present Level of Performance that is required for every EL student.
- o If the student is blind or visually impaired, the IEP team must determine if the student requires instruction in Braille and the use of Braille. The team must consider the findings from an assessment of the student's reading and writing skills, needs, appropriate reading and writing media, and the student's future need for instruction in Braille and the use of Braille. If the student requires instruction in Braille or the use of Braille, develop appropriate goals and objectives and document the need for Braille materials and equipment as appropriate.
- o If the student's behavior is impeding learning, a Behavior Intervention Plan should be developed. To do this, relevant data is utilized to identify antecedents to the behavior, a possible function of the behavior, and changes to the student's environment to support the development of more appropriate behaviors. This Behavior Intervention Plan should include the hypothesized function of the behavior and a Functionally Equivalent Replacement Behavior (FERB). The behavior goal should be developed based on the FERB.
- o If Tier I and II supports are in place and the behavior continues, the IEP team should consider a Functional Behavior Assessment (FBA). A Functional Behavior Assessment (FBA) is a systematic process of identifying and understanding behavior(s) that impede learning. Functional Behavior Assessment utilizes data collection (direct and indirect) to gather and analyze information about the student's behavior and accompanying environments in order to hypothesize the purpose or intent (function) of the target behavior and guide the development of function-based, positive antecedent-based, and consequence-based behavioral interventions.

Note: \*If the IEP team determines that a FBA is needed, an assessment plan will have to be developed after the meeting and an IEP team meeting scheduled to consider the findings of the FBA. Complete as much of the current IEP meeting as possible, with the understanding that an amendment IEP meeting will be held once the FBA is completed.

### SUGGESTED VERBIAGE FOR TRANSITIONAL IEPs AT ALL LEVELS

#### ***From Elementary to Middle School:***

A comprehensive program includes:

- Suggestions for helping students form a realistic expectation of what middle school will be like
- Providing a positive and successful first impression
- Ensuring a successful introduction to the middle school experience
- School visitations and having Middle Students share with Elementary Students in an Assembly
- A summer bridge program to provide a less impactful experience for students to become acclimated to Middle School

Parents, too, have concerns and questions about their children's transition from elementary to middle school, so any transition program must include the extensive participation of parents.

A well-planned, systematic transition program involves all the stakeholders: students, school personnel, and parents. Here are some things to consider:

Incoming middle school students should be involved in a variety of activities preparing them for middle school. They should have the opportunity to meet middle school students and teachers in their elementary school. They should have the opportunity to visit the middle school in the spring and meet the staff and students, particularly their homeroom teacher and classmates. Educators in both the elementary and the middle school should provide activities for students that lessen their concerns, build their confidence, and reduce their anxiety.

Current middle school students also should be prepared for and included in orientation presentations -- through a leadership/student government class, a "buddy" system, or other planned ways.

School leaders should plan and provide for several events that involve students, teachers, and parents. These events should focus on providing a positive message about middle school, that it is safe and fun. They should also focus on providing information about the changes that early adolescents will be experiencing.

Elementary teachers, counselors, and other licensed staff members should be aware of the concerns of their students and the anxieties of moving into middle schools. They should be upbeat and reassuring -- and they should not use middle schools as a "threat" or misplaced motivational tool. They should know about the developmental issues, indeed, some of their students in the elementary schools will already be experiencing some of these changes.

Middle school teachers should be well versed in the developmental issues of their students. They also should be aware that students will experience anxieties associated with the change and they should begin before school starts to work to neutralize these anxieties. Visiting elementary schools in the spring, so the students know the teachers, and addressing any questions or concerns on the first day of the school year are two ways to facilitate this easing into the year.

Parents should attend the spring incoming parent night to meet homeroom teachers and begin to establish a relationship with the teachers.

Parents should attend school meetings to learn about the concerns and questions their children have and will have. They should talk with their children about the upcoming school year and emphasize the positive aspects of attending middle school. Parents should watch for signs of depression and be ready to address them.

Parents need to learn about young adolescents and their developmental issues and stages so that they will understand better this new and wonderful person with whom they live, and be able to interact with them in positive ways that build relationships.

### ***From Middle School to High School:***

In an effort to build resilience in our students, we need to provide support in a different way. When writing a transition IEP from Middle to high school, use verbiage that holds the students and parents accountable so that the way the students are supported changes, but does not become non-existent.

Work with your parents to provide opportunities for students to visit their high schools prior to the beginning of the school year.

Connect with your principals, deans and counselors prior to the beginning of school.

Students may be encouraged to follow the plan below for self advocacy:

- Get to know the people and places on your high school campus.
- Read everything you can from the high school including school newsletters and handbooks.
- Organize your days with a planner and keep a calendar that schedules time for homework, extracurricular activities, and fun, too!
- Get involved in student government, sports, clubs, and/or community organizations.
- Check out bulletin boards in your classrooms, on campus, and in the guidance office.
- Really listen to school announcements, classroom and assembly presentations, and attend college and career workshops.
- Make a four-year high school plan for yourself with the assistance of a parent/guardian and your school counselor.
- Talk with your teachers, counselor, or other staff when you have questions or problems.

### DEVELOPING POST SECONDARY GOALS FOR STUDENTS 14 AND OLDER

o Postsecondary goals are required for all students with disabilities with an IEP, beginning at the first IEP that will be active when a student will turn 14 years of age.

o A measurable postsecondary goal is what the student wants and hopes for his or her future in terms of higher education or training, employment, and independent living. Although the student may have several postsecondary goals, the ITP is focused on what they can accomplish within two years after leaving after high school. The annual measurable goals in the IEP outline what schools will do to help the student during high school to achieve the long-term postsecondary goals (transition to adult living).

o Examples of post-secondary goals include:

- Education
  - Continuing or adult education
  - Attend community college
  - Attend a four-year college/university
  - Training/ Vocational training
  - · Apprenticeships
  - · Trade school
- Employment
  - · Competitive employment
  - · Self-employment
  - · Supported employment
  - · Volunteer work
  - · Work/activity program
- Independent Living Skills
  - · Independent living
  - · Semi-independent living
  - · Supported living

- · Living with family/relatives
- · Residential living
- · Mobility

Postsecondary goals must be developed in the following areas:

- Education or training / Employment / Independent living skills

Here are a few samples of free career inventories that can be used for your students 14 and up:

<https://careerwise.minnstate.edu/careers/clusterAssessment>

<https://www.careeronestop.org/ExploreCareers/Assessments/skills.aspx>

<https://www.yourfreecareertest.com/>

### **The following steps will assist the IEP team in documenting postsecondary goals.**

- Step 1 of ITP – Assessment: Identify the assessments and report results of the assessments used to determine interests, strengths, preferences, and soft skills in education/training, employment, and independent living skills.
- Step 2 of ITP – Postsecondary Goals and Transition Activities: Postsecondary goals and transition activities: Education/Training: Write or select post-secondary goals and transition activities that align to both the student’s present levels of performance and their identified interests, strengths and preferences. Select a date prior to the next annual IEP by which the activities should be completed and determine which people/agencies will be responsible for supporting the student in completing each activity. Note that at least one person listed as responsible should be from the school site. For more information, consult with the College/ Career Counselors on your campus
- Step 3 of ITP – Course of study: A multiyear description of coursework to achieve the student’s desired postsecondary goals from the student’s current to anticipated exit year.
  - STANDARDS, ACCOMMODATIONS AND MODIFICATIONS
  - Connect families to the Department of Rehabilitation and/or regional center as appropriate

### PARTICIPATION IN STATE AND MPS - WIDE ASSESSMENTS

Explain to parents, that students, in state identified grades, including students with disabilities, are required to participate in the Smarter Balanced Assessment Consortium. (SBAC). The SBAC system replaced the CA Assessment of Student Performance and Progress (CAASPP) and the Standardized Testing and Reporting (STAR) program. A small percentage of students with severe cognitive delays who are being educated in an alternate curriculum, may upon the determination by the IEP team, participate in the California Alternate Assessment (CAA). Students with disabilities must also participate in any MPS-wide student performance assessments or an

alternate assessment to assess the student's skills. Please educate all parents so that they understand that the academic progress of their youngsters may be evaluated using one of the two assessments. There should rarely if ever, be a need for a testing waiver. A disproportionate amount of waivers can result in a DINC error for the LEA.

Students may need accessibility tools or accommodations to access assessments. There are three different levels of support available on state and MPS assessments: universal tools, designated supports, and accommodations. For information on how to determine appropriate supports, reference SBAC Accessibility and Accommodations Guidelines for Smarter Balanced Assessments. Document the necessary accommodations in the IEP.

## SERVICES AND SUPPORTS

Discuss the services that the student will need to reasonably achieve the goals and objectives that were developed, the rationale per the research that supports the recommended services to the extent practicable, and the most appropriate service providers, including general education teachers, special education teachers, least restrictive environment (LRE) facilitators, related services providers, etc. In order for an IEP team to recommend a special education or related service, the goals and objectives agreed to must justify the need for the service and provide the direction necessary to guide the providers' work with the student. In addition, for a student to receive a related service, an assessment, conducted by a qualified assessor, must have indicated the student's need for the service and that the services cannot be provided by a general or special education educator.

Services must be specifically documented within the IEP such that the offer of FAPE is clear and understandable to the parent. The following items must be clearly specified for each service:

- Whether the service will be provided as push-in or pull-out services. Note for COP3 schools: if a student is participating in a special day class or special day school placement, this will not necessarily be reflected in time out of general education.
- Whether the service will be provided individually or in group.
- Whether the service will be provided directly or through consultation with IEP team members
- The location of the service (e.g. regular education classroom, special classroom, virtual)
- The service provider (e.g. Charter School staff, non-public agency. The specific name of an agency or person should *not* be included)

If the service will be provided through a combination of multiple delivery methods, the IEP must detail how many minutes will be provided through each method.

If the IEP team is considering counseling as a related service, refer to the Counseling Services document Tier one and two emotional supports and their impact on the student's ability to regulate emotions, manage self-behaviors and build self-efficacy.

Beginning with the year that the student will turn 14, discuss whether there are any agencies currently or prospectively providing or paying for transition services (e.g. Department of Rehabilitation or Regional Center). If so, document this in the IEP along with whether the parent/guardian or student, if over age 18, gives permission to the MPS to invite these agencies to the next IEP in which transition services will be reviewed.

Discuss the amount of time that the student will require special education and related services. For related services providers, review the amount of time specified under each goal. Calculate on a weekly basis, the percentage of time the student is in school that he/she will be receiving special education and related services.

If necessary, discuss any additional support services that may be needed to support the student's special education and related services. This might include interpreters for deaf students, etc.

Discuss the type of physical education the student should receive. This includes regular physical education (with or without accommodations), specially designed physical education, and adapted physical education.

- Specially designed and adapted physical education (APE) can only be agreed to if an assessment has been conducted, the IEP team has found the student in need of this related service in order to benefit from special education services, and goals and objectives have been developed.
- Discuss any accommodations or modifications the student may require such as: extra time to dress or assistance with a locker, dressing with privacy, etc.

Discuss and document any supports for school staff that may be needed, including professional development and training.

Discuss and document if the student requires assistive technology, using information previously discussed by the team.

- Focus first on specific present levels of performance. Consider any assessment information presented. In addressing the student's need for assistive technology begin with low/no tech (i.e. graphic organizers, color coding, picture boards) to mid-level technology (calculator, books on tape) to higher-level technology (word processor, computers).
- If equipment is recommended, use descriptive terms, not brand names (i.e. tablet not "iPad"). Be sure that the need for assistive technology is documented in the student's present levels of performance, and that goals and objectives incorporate the assistive technology selected. See Assistive Technology and Low Incidence Programs section in this e-PPM for further information.
- If the IEP team determines that assistive technology services are necessary to permit a student to access needed technology or devices, a goal must be developed to support this service (e.g. a goal for increased use.)
- Note: Assistive Technology excludes surgically implanted medical devices or replacement of such devices.

Determine whether the student qualifies for low incidence services. The MPS can receive State funding to support the special equipment needs and services of students with low incidence disabilities: students with a visual impairment, students who are deaf or hard of hearing and students with a severe orthopedic impairment. Please note: \* Autism is no longer considered a low-incidence eligibility.

The need for low incidence equipment and/or services is assessed by the classroom and/or special education teacher and appropriate related services professionals and determined by the IEP team.

The following are examples of the specialized equipment and/or services.

- Specialized communication instruction/equipment (i.e. Braille, American Sign Language, Fingerspelling, communication boards and/or communication devices)
- Specialized materials and equipment to access curriculum (i.e. Braille readers/writers, amplification devices, specialized computer hardware and/or software)
- Specialized transportation
- Specialized equipment/instruction to acquire daily living skills
- Assistance with personal needs
- Specialized career and vocational instruction

Document Additional Factors if the student qualifies for low incidence services.

Document the need for any low incidence specific instruction, accommodations, and /or equipment in the IEP as appropriate.

Note: Low Incidence services can only be agreed to if an assessment which should include a medical diagnosis related to the low incidence disability has been conducted, the IEP team has determined that low incidence service(s) are necessary for the student to benefit from special education services, and has developed appropriate low incidence goals and objectives. If the IEP team determines that a medical diagnosis is necessary, MPS must facilitate and fund a doctor's visit for this purpose.

### EXTENDED SCHOOL YEAR

Determine whether the student requires extended school year (ESY) services. ESY services are provided during the summer/intersession for a student who the IEP team determines will experience a loss of skills (regression) during the break from school that he/she will not recoup in a time frame comparable to typical students upon return to school. Most students regress during school breaks and recoup their lost skills within an expected period of time when school reconvenes. For a student to have a regression and recoupment problem, the IEP team must consider the student's past performance and determine that the student is at risk of not recouping skills within the normally expected period of time. A student with severe disabilities may also be eligible for ESY services if he/she requires such services in order to attain critical skills that are essential to the progress of the student and lead to independent functioning and integration with nondisabled individuals.

### PLACEMENT IN THE LEAST RESTRICTIVE ENVIRONMENT

Explain the following: That the IEP team has the responsibility to determine the appropriate educational setting for the delivery of the services.

- The legal principle of "least restrictive environment" requires that to the maximum extent appropriate, students with disabilities should be educated with students who are not disabled.
- That placement in a special class or separate schooling should only occur when the nature or severity of the student's disability is such that education in a general education class with appropriate accommodations, modifications, services and supports cannot be achieved satisfactorily.
- That the MPS provides a continuum of placement options that are listed from the least restrictive to the most restrictive.

- o Review the least restrictive to the most restrictive.
- o Explain that, consistent with the principle of serving the student in the “least restrictive environment”, consideration of the appropriate placement option for the student should begin with the general education classroom.
- o If the student will receive any special education services outside the general education classroom, the rationale must be considered and discussed by the IEP team and documented on the LRE Analysis page of the IEP.
- o Progressing through the continuum, discuss and document the placement options and whether the student’s goals and objectives, with the accommodations, modifications, services and supports previously agreed to can reasonably be met. If the team rejects a less restrictive option, it must consider and document why that option has been rejected.
- o Consider the communication needs of the student, and in the case of a student who is deaf or hard of hearing, consider the student’s language and communication needs, opportunities for direct communications (without an interpreter) with peers and professional personnel in the student’s language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the student’s language and communication mode.

If the behavior of the student is a factor in the placement decision the IEP team must address the following:

- o Ensure that school-wide and classroom behavioral expectations are defined, taught, reinforced, monitored and corrected by school site staff with fidelity.
- o What are the behavioral expectations in the student’s classroom(s)?
- o Has a collaborative team consisting of people with expertise and experience working with the student and his/her family been assembled to support the student by developing positive behavioral supports?
- o Do behavioral supports need to be developed for the student’s behaviors, which are not considered to be serious? If so, have the specific behavioral goals and objectives, consistent reinforcements and social skills to be taught, been written into the IEP? If not, add them.
- o Is the student demonstrating behaviors which interfere with daily learning? Has a Behavior Intervention Plan been developed that identifies the communicative intent of the behavior(s), the antecedent/environmental factors contributing to the behavior(s), social skills to be taught, goals and objectives and needed accommodations, modifications, services and supports?

If a Behavior Intervention Plan has not been developed, the IEP team should develop one.

- If the student demonstrates behavior that significantly interferes with the implementation of the student’s IEP goals and objectives, has a Functional Behavior Assessment (FBA) been conducted?
- If not, the IEP team should consider requesting a Functional Behavior Assessment before considering placement in a more restrictive environment.
- If the student has had a Functional Behavior Assessment, has a Behavioral Intervention Plan been developed by the IEP team? If not, the IEP team should consider developing one.

In considering the above be sure to identify and document on the IEP the following:

- o Previously effective means of addressing the behavior.
- o The team members involved in implementing the Behavior Intervention Plan.
- o The current classroom management practices that will be augmented.
- o The function-based, positive antecedent-based and consequence-based behavioral intervention and instructional strategies that will be employed.
- o The settings in which the Behavior Intervention Plan will be consistently used.
- o The acceptable interventions to ensure the safety of the student and others according to MPS standards.

Note: IEP teams should not agree to the placement of a student in a more restrictive environment, because of the student's behavior, until a Behavior Intervention Plan has been developed and implemented. When considering placement in the general education classroom the following must be addressed and documented on the IEP:

- What modifications or accommodations need to be provided by the general education teacher in order for the student to be involved in and progress in the general curriculum, be held to high achievement standards, appropriately interact with non-disabled peers in the classroom and activities outside of the classroom, including extracurricular activities?
- What specific services are necessary to support the general education teacher in providing the modifications or accommodations?
- What specific special education and related services need to be provided?

If the IEP team is considering placement outside of the general education classroom the following must be addressed and documented on the IEP:

**IEP discussions regarding placement outside of the general education classroom should include MSA Principal or Director of Special Education and Support Services. If needed, recess the IEP meeting and reconvene with required team members.**

**If placement outside the general education classroom may be discussed, the IEP team should include a representative who can speak to alternate placements. If a contracted placement, such as a District SDP or NPS placement is considered, a representative of the placement should be included in the team meeting if possible.**

- Identification of the general education courses and subjects to which the student will be assigned.
- How the general education teacher(s) and special education teacher(s) will collaborate to enable the student to maintain access to the general curriculum with any needed modifications and continue to develop meaningful relationships with peers.
- How the student will participate with non-disabled peers, socially and/or academically.
- How the collaborative team can use the student's strengths in providing instruction. A plan to support the student's movement to a less restrictive environment, including activities that will be conducted to

implement the plan. If the IEP team is considering a placement outside of the student's school of residence, the Least Restrictive Environment Analysis Checklist.

- Complete the LRE Analysis page as an IEP Team and refer to the LRE Flowchart on the analysis form for guidance.

### OFFER A FREE AND APPROPRIATE PUBLIC EDUCATION

Review the services, curriculum, accommodations, modifications, supports, assistive technology and instructional setting that have been determined during the course of the IEP meeting to ensure consensus.

Ensure that all applicable sections of the IEP pages have been completed and reviewed with parent. Encourage the parent to ask questions if the offer is not clear.

Ensure that the offer of FAPE is a true Free and appropriate public education offered in the student's least restrictive environment. Ensure that all supports necessary for the student to access the general education curriculum are included in the offer/ IEP.

### PROCEDURES FOR RECESSING IEP MEETINGS

In a situation where an IEP team meeting may not be concluded in one day and will be reconvened on another, parents have a right to receive a printed copy of the DRAFT or WORKSHEET of the IEP document. Explain that the official document outlining our offer of FAPE will be provided when the meeting continues and is completed.

When we recess a meeting, the reason for recessing the meeting must be documented and a projected reconvene date determined and documented.

Please review the Post IEP Checklist referenced above and complete all follow up actions following the IEP meeting.

### FACILITATE TIMELY (10 DAYS MAXIMUM) IMPLEMENTATION OF THE IEP AND COMPLIANT SPECIAL EDUCATION PROCEDURES.

The school site Director/Principal is accountable for the implementation of the IEP. Immediately subsequent to the IEP meeting, the following procedures need to be addressed by the school administrator or the administrative designee (SPED Coordinator) to ensure timely implementation of the IEP and compliant special education procedures:

1. Complete the post IEP checklist and place document in green folder
2. Ensure that the passport for each student is completed and provided to general education teachers
3. Ensure the ISA is completed if the student receives services from a Non Public Agency
4. Ensure the student is identified as an IWEN in Illuminate and CALPADS
5. Analyze and share relevant compliance data with staff as appropriate
6. Monitor and Evaluate school wide systems and practices

## GRADUATION OPTIONS

### **When should we consider offering a Certificate of Completion v.s. a State Diploma v.s. a coveted Magnolia Public Schools Diploma? This is the information adapted from El Dorado SELPA:**

#### PURPOSE

This section guides Individualized Education Program (IEP) teams that are considering whether a student identified as eligible for special education services is working toward earning a high school diploma or a Certificate of Completion (COC). Students with disabilities and their parents/guardians should be given adequate notice of the requirements for the various high school graduation options available, and IEP teams should evaluate several factors before determining the appropriate graduation option. The graduation options available to students are determined by the local educational agency (LEA) board policies. For MPS, these options include:

- A regular high school diploma based on the state-mandated requirements
- Magnolia Public Schools diploma
- A certificate of completion

#### HIGH SCHOOL DIPLOMA

The term “regular high school diploma” is defined as a diploma fully aligned to grade-level standards. Students typically complete mandated academic courses and must earn a minimum grade point average to receive standard high school diploma. California Education Code 51225.3 defines the mandated high school courses needed to earn a regular high school diploma. The U.S. Department of Education’s Office of Special Education and Rehabilitation notes that the vast majority of students with disabilities should have access to the same high-quality academic coursework as all other students in the state. The IEP team determines which graduation option is most appropriate for the student, given the LEA/ options as determined by the governing board.

MPS offers both a regular high school diploma based on the state-mandated requirements; and a diploma based on A-G requirements that provide greater access to college and exceed the state’s minimum requirements. It should be noted that although LEAs cannot deny a student a standard high school diploma based on their disability, the student does not automatically obtain one because of their disability. Separately, some LEAs/districts have also chosen to provide a differentiated diploma option. While functionally equivalent to a standard high school diploma, a school’s governing board must also approve a differentiated diploma. This alternative could allow LEAs/districts a wider interpretation of how students demonstrate mastery towards the prescribed set of courses within the differentiated diploma option.

In addition, certain student groups must have the option to earn a diploma through California minimum graduation requirements. Under Cal Ed Code 51225.1, a student identified as homeless, foster youth, juvenile justice youth including former juvenile court student, a child of a military family, or a currently migratory child who transfer high schools after their second year, may graduate and earn a standard high school diploma by completing the minimum state graduation requirements if, at the time of transfer, they cannot reasonably complete additional MPS requirements within four years of high school.

## HIGH SCHOOL DIPLOMA EQUIVALENCY ASSESSMENTS

The California Department of Education has approved the use of three high school equivalency tests: the General Education Development Test (GED); High School Equivalency Test (HiSET); and Test Assessing Secondary Completion (TASC) for students 18 years old, and some 17 years old, to receive a California High School Equivalency Certificate.

Postsecondary institutions, such as the University of California (UC) and California State University (CSU) systems, will accept a high school equivalency test in place of a diploma. However, students must still meet specific coursework, grade point average, and ACT or SAT examination requirements.

Students at LEAs who are 16 years old or have been enrolled in the tenth grade for one academic year have the additional option to complete the California High School Proficiency Exam (CHSPE). The CHSPE consists of two sections: an English-language arts section and a mathematics section. Students who pass both sections of the CHSPE are issued a Certificate of Proficiency by the California State Board of Education. The CHSPE is the legal equivalent of a high school diploma in California, and a student who receives it may leave high school early, with verified parental approval. If a student with an IEP passes a high school equivalency test, the student is still eligible to receive educational placement and services under their IEP at the LEA until they meet the requirements of one of the graduation options offered.

## CERTIFICATE OF COMPLETION

The COC option is available to students who cannot complete the requirements for a regular high school diploma that the LEA offers, even with supports and interventions. The COC option does not equal a regular high school diploma. The graduation option that the IEP team chooses shall be documented clearly as part of the Transition Plan, as well as marked on the IEP's offer of Free and Appropriate Public Education (FAPE)/Educational Settings page.

IEP teams can waive academic courses the student attempted prior to being identified as progressing towards a COC. Conversely, while a student is progressing towards a COC, IEP teams should convene to analyze factors preventing a student from successfully completing a required academic course. The IEP team should evaluate if the IEP goals, services, and supports are reasonably calculated, and if the student will receive further educational benefit through repeating a specific course. While students may have access to the general education curriculum, most students receiving a COC participate in California's Alternate Assessment testing system, which is documented on the IEP's Statewide Assessment page.

A student with a disability who has satisfied the following three requirements, but who has not satisfied the requirements for a diploma, may receive a COC:

- Satisfactory completion of a prescribed alternative course of study as identified on the student's IEP; or
- Satisfactory achievement of the student's IEP goals and objectives during high school as determined by the IEP team;
- Satisfactory high school attendance, participation in the instruction prescribed in the student's IEP, and achievement of the objectives stated in the transition plan.

Receipt of a certificate of completion does not impact a student's eligibility for special education services. A student may still continue to receive special education services until age 22 or until the student receives a regular high school diploma.

### GRADUATION REQUIREMENTS FOR STUDENTS ATTENDING NONPUBLIC SCHOOLS

Students with disabilities attending nonpublic schools (NPS) must meet the same criteria for graduation as peers attending the LEA.. Work with nonpublic schools to determine the graduation eligibility for students with disabilities placed at nonpublic schools. The LEA evaluates the student's transcript to verify the student's eligibility for completion of courses leading to either a high school diploma or a COC. For more specific information regarding NPS, refer to the Special Education Local Plan Area (SELPA) NPS/Residential Treatment

Centers Guidelines located on the SELPA website at <http://bit.ly/nps-rtc-handbook>.

## California Monitoring of Special Education

### California Department of Education Special Education Division Monitoring Activities Summary

The Individuals with Disabilities Education Act and implementing regulations in Title 34 Code of Federal Regulations (CFR) section 300.600 requires the CDE to place primary focus of its monitoring activities on improving educational and functional results and outcomes, as well as ensuring compliance with IDEA requirements with an emphasis on those most closely related to improved results for students.

34 CFR 300.600(b) requires: (b) The primary focus of the State's monitoring activities must be on— (1) Improving educational results and functional outcomes for all children with disabilities; and (2) Ensuring that public agencies meet the program requirements under Part B of the Act, with a particular emphasis on those requirements that are most closely related to improving educational results for children with disabilities.

The CDE routinely monitors compliance with the provisions of the IDEA for every district, every year, through a comprehensive system of oversight. Monitoring activities are completed as part of an Annual Submission Process (ASP), which includes the following components:

- Data Identified Noncompliance (DINC) reviews
- Performance Indicator Review (PIR) Yielding Special Education Plans (SEP)
- Annual disproportionality calculations
- Fiscal review
- Review of annual budget and service plans
- Significant Disproportionality

In addition, the CDE conducts on-site Comprehensive Reviews for a select number of districts every year to provide focused, targeted technical assistance, and conducts Critical Incident Reviews when a serious issue arises that warrants immediate intervention and attention. When the CDE identifies noncompliance, it ensures that the noncompliance is corrected as soon as possible, and in no case later than one year after the noncompliance is identified.

The CDE ensures compliance with IDEA requirements most closely related to improving results for students by ensuring compliance with all provisions of the IDEA through its comprehensive system of oversight. The CDE believes that compliance is the foundation of an effective service delivery program. However, certain aspects of the CDE's system of oversight are specifically designed to provide a primary focus on improving educational and functional results and outcomes for students with disabilities.

#### Data Identified Noncompliance

The Office of Special Education Programs (OSEP) of the U.S. Department of Education requires that a state must examine data it receives through its data collections to determine if the data demonstrates noncompliance with the requirements of the Individuals with Disabilities Education Act (IDEA). If noncompliance is identified, the state must make a finding of noncompliance and require the LEA to make corrections using federally specified procedures (OSEP Memorandum 09-02, October 17, 2008). In order to carry out these requirements the Special Education Division (SED) at the California Department of Education (CDE) reviews and analyzes student level data submitted to the California Special Education Management Information System (CASEMIS/ CALPADS) for compliance with state and federal requirements. Specifically, the data is analyzed in relationship to three compliance indicators from the California State Performance Plan (SPP):

Indicator 11: One hundred percent of children were evaluated within 60 days of receiving parental consent for initial evaluation.

Indicator 12: One hundred percent of children referred by Part C prior to age three, who are found eligible for Part B, have an Individual Education Plan (IEP) developed and implemented by their third birthday

Indicator 13: One hundred percent of youth aged 16 and above have an IEP that includes the eight required elements of transition.

In addition, the CASEMIS/ CALPADS data is analyzed for compliance to the state and federal timeframe requirements for: Annual IEP meeting (once a year)

Triennial re-evaluation to determine the student's continued eligibility (every three years)

### **Review of Annual Service and Budget Plans**

California Education Code (EC) Section 56205 requires the submission of Annual Budget and Service Plans that are adopted at public hearings held by the special education local plan area (SELPA). These plans must identify expected expenditures and include a description of services, the physical location of the services, and must demonstrate that all individuals with exceptional needs have access to services and instruction appropriate to meet their needs as specified in their individualized education program. Each SELPA Local Plan requires a budget plan component to be developed/updated annually. Each SELPA will adopt the Annual Budget Plan according to the governance and policy-making process established in their local plan. The completion of the process will be documented by evidence that a SELPA-level public hearing has been held to adopt the Annual Budget Plan. The Annual Budget Plan may be revised during any fiscal year according to the policymaking process established, pursuant to EC Section 56205 subparagraph (D) and (E) of paragraph (12) of subdivision (a) and consistent with subdivision (f) of EC Section 56001 and EC Section 56195.9. The Annual Budget Plan shall identify expected expenditures for all items required by this part, which shall include, but not be limited to, the following: (A) Funds received in accordance with Chapter 7.2 (commencing with EC Section 56836) (B) Administrative costs of the plan (C) Special education services to pupils with severe disabilities and low-incidence disabilities (D) Special education services to pupils with nonsevere disabilities (E) Supplemental aids and services to meet the individual needs of pupils placed in regular education classrooms and environments (F) Regionalized operations and services and direct instructional support by program specialists in accordance with Article 6 (commencing with EC Section 56836.23) of Chapter 7.2 (G) The use of property taxes allocated to the SELPA pursuant to EC Section 2572 Notice of the SELPA-level public hearing shall be posted in each school at least 15 days prior to the public hearing. A copy of the Public Hearing Notice must be submitted with the Annual Budget Plan. Each SELPA Local Plan requires a service plan component to be developed/updated annually. Each SELPA will develop and adopt the Annual Service Plan according to the governance and policy-making process established in their local plan and includes a description of the full continuum of service options to be provided within the SELPA assuring access to appropriate instruction and services for all students with disabilities from birth to twenty-two years of age, including children with low-incidence disabilities.. The completion of the process will be documented by evidence that a SELPA-level public hearing has been held to adopt the Annual Service Plan.

## Disproportionate representation

The following State Performance Plan Indicators are designed to collect data indicative of performance regarding the requirement to address disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification.

4 – Discipline Measures percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.

9 – Disproportionality Overall Measures percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. 10 – Disproportionality by Disability Measures percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.

Each year, the CDE completes calculations to identify disproportionate representation of students by race, ethnic group, and disability in district special education programs throughout California using data from the California Special Education Management Information System (CASEMIS). Evaluations of the rates of suspensions and expulsions of students with disabilities are also performed. These calculations relate to the State Performance Plan Indicators 4b, 9, and 10 (above).

As a result of these calculations and preliminary determinations, the CDE will review the LEA's special education policies and procedures and evaluate a sampling of student records when an LEA is deemed disproportionate. Items that are determined to be noncompliant during the student record reviews will be adopted by the CDE as findings of noncompliance and will require a second evaluation, referred to as a Prong Two record review, in which a second set of student records is evaluated subsequent to the first student record review. All findings of noncompliance will be corrected as soon as possible, and in no case later than one year after the noncompliance is identified. The results of the reviews provide further data utilized by the CDE to monitor performance regarding the requirement to address disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification.

### Significant Disproportionality

Pursuant to 34 C.F.R. § 300.646, CDE is responsible for collecting and examining data to determine if significant disproportionality is occurring in local educational agencies (LEAs) in the state. CDE must look at data related to the over representation of students by race and ethnicity with respect to:

1) Identification as children with disabilities 2) Identification in various disability categories 3) Placement in educational settings 4) Disciplinary actions including suspension and expulsion

Disproportionality is a result of the over representation of a specific race or ethnicity in relationship to the overall general education and special education populations of the district and state. CDE uses the Alternate Risk Ratio and the E-formula to calculate disproportionality. Significant disproportionality is determined if the district has been identified as disproportionate for the same race or ethnicity in the current year and in two of the three previous years.

**If an LEA is determined to be significantly disproportionate in any one of the four areas identified above, the CDE will:**

Review the LEA's policies, procedures, and practices to ensure compliance with the requirements of the IDEA  
 Require the LEA to publicly report on any required revision of policies, procedures, and practices  
 Require the LEA to reserve 15 percent of its IDEA grant funds to provide comprehensive coordinated early intervening services to children in the LEA (including, but not exclusively for, those children in the groups that were identified as significantly disproportionate)

LEAs that are identified as significantly disproportionate in one or more areas **may not take advantage of the opportunity to reduce its Maintenance of Effort by 50 percent** should there be an increase in federal funds. When LEAs are notified by the CDE of their designation as significantly disproportionate, they are provided information that includes instructions for submitting policies, procedures, timelines, and practices for CDE review and instructions for revising as necessary, developing action and budget plans, fiscal documentation; and reporting.

**Performance Indicator Review Process (Revised to Special Education Plans)**

Beginning in 2014-15, the CDE began to implement the PIR process, which evaluates a LEA's performance on the following performance measures and State Performance Plan Indicators (SPPI): SPPI 1: Graduation Rate  
 SPPI 2: Dropout Rate  
 SPPI 4a: Suspension and Expulsion  
 SPPI 5: Least Restrictive Environment  
 SPPI 8: Parent Involvement

In 2014-15, only LEAs that were scheduled for Special Education Self-reviews that year and had one or more performance indicator values that did not meet the targets established statewide for 2012-13 and did not demonstrate improvement from the prior year (2011-12) participated in the PIR process. In 2015-16, only LEAs that were scheduled for Special Education Self-reviews that year and had one or more performance indicator values that did not meet the targets established statewide for 2014-15 and did not demonstrate improvement from the prior year (2013-14) participated in the PIR process. Beginning in 2016-17, every LEA will participate in the PIR selection process annually. Participating LEAs did not meet the established targets. LEAs that participate are required to submit: 1) a Special Education Program Improvement Assurances Form and 2) a plan developed and adopted by the LEA that includes activities to improve performance in the target indicator areas. The purpose of the improvement plan is to engage both general education and special education LEA staff in an effort to build LEA capacity to improve the educational performance and functional outcomes for students with disabilities.

In addition, the CDE is evaluating additional performance measures as part of the PIR, including SSPI 3: Statewide Assessments and SSPI 14: Post-school Outcomes. As a method of ensuring compliance with those IDEA requirements most closely related to improving results for students, the CDE will institute a review of applicable policies and procedures, as well as student file reviews. The CDE will select the student files to be reviewed and will conduct the review of those files. The CDE will report findings of noncompliance to the LEA and will ensure that findings of noncompliance identified through these reviews are corrected by the LEA as soon as possible, and in no case later than one year after the noncompliance is identified. Reviews of student files and policies and procedures are completed for those LEAs that have not met the target for a particular indicator for the third consecutive year

**[Comprehensive Review Process](#)**

The purpose of the Comprehensive Review (CR) is: To ensure that LEAs are providing appropriate supervision and monitoring for special education programs and services To provide information to the CDE regarding key compliance questions To provide effective general supervision to LEAs in accordance with the obligations imposed on the CDE under the IDEA in accordance with the State Performance Plan (SPP) and as required by Title 34 Code of Federal Regulations Section 300.600 Each year, a select number of LEAs are selected for participation in the CR process, which consists of a record review and may include a thorough, on-site, CDE-led review of the LEAs' special education and related services delivery program. The CR is based on a monitoring plan that is developed by CDE staff from parent input, SPP indicator data, and compliance history information. The monitoring plan provides focus and direction, and acts as a strategic plan for the CR. The primary CR monitoring activities include student record reviews (focusing on procedural compliance, educational benefit, and IEP implementation), policy and procedure reviews, interviews, and a SELPA governance review. The CDE works in partnership with the LEA to complete the CR. Follow-up reviews are completed after the CR is conducted to ensure that the district has resolved non-compliance issues identified by the CR and is 100 percent compliant in subsequent records review.

The Educational Benefit process is employed as part of the student records review during the CR. The Educational Benefit process reviews student IEPs over multiple years in a way that exceeds simple verification of compliance with law, and evaluates whether IEP revisions are effectively designed to support each student's educational progress. During the Educational Benefit review, three years of IEP information is analyzed with the first year including an initial IEP or triennial assessment IEP. The relationship of assessments compared to identified goals and services is analyzed and compared from year to year. CDE staff participating in the Educational Benefit review make judgments about the adequacy of the effort to ensure that there was reasonable calculation that the IEP would result in educational benefit for the student.

The Educational Benefit review process ensures that the focus of student record reviews is not only compliance, but on the efforts documented to improve the educational and/or functional results of students with disabilities.

The CR process also includes conducting interviews with teachers and LEA staff to further ascertain the adequacy and effectiveness of the special education program. Interview questions are tailored to each LEA after the CDE conducts a comprehensive analysis of data that may inform potential areas for inquiry. Interview questions may be designed to address questions raised by an examination of the LEA's demographic data, assessment data, Least Restrictive Environment Data, discipline data, etc.

## PARENT RELATED INFORMATION

*Procedural safeguards are an integral part of IDEA's requirements.* They represent guarantees for parents and their child with disabilities, as well as offer both school and parents a variety of options for resolving any disagreements, these some of these safeguards include:

- parent access to student records,
- parent rights to ask that those records be amended,
- parent rights to participate in groups and meetings where decisions are made about their child's education,
- parent notification requirements (prior written notice and the procedural safeguards notice), and
- selected other safeguards (e.g., independent educational evaluation, surrogate parents, age of majority).
- The right of parents to receive a complete explanation of all the procedural safeguards available under IDEA and the procedures for presenting complaints
- Confidentiality and the right of parents to inspect and review the educational records of their child
- The right of parents to participate in meetings related to the identification, evaluation, and placement of their child, and the provision of FAPE (a free appropriate public education) to their child
- The right of parents to obtain an independent educational evaluation (IEE) of their child
- The right of parents to receive "prior written notice" on matters relating to the identification, evaluation, or placement of their child, and the provision of FAPE to their child
- The right of parents to give or deny their consent before the school may take certain action with respect to their child
- The right of parents to disagree with decisions made by the school system on those issues
- The right of parents and schools to use IDEA's mechanisms for resolving disputes, including the right to appeal determinations.

\*These are not the only procedural safeguards under IDEA, but they are the most relevant to the majority of parents.

## CHILD FIND/SEARCH AND SERVE

All schools are required to have procedures in place for identifying children who have or are suspected of having a disability and needing special education and related services. These procedures are commonly referred to as “search and serve” or “child find.”

### **Principal’s Child Find Compliance Checklist**

- \_\_\_ **Ensure CALPADS is reviewed to determine all scholars who have exceptional needs**
- \_\_\_ **Ensure Welligent and SEIS have all scholars with IEP’s uploaded in the systems**
- \_\_\_ **Provide the SPED informational packets to all general and sped families as determined appropriate**
- \_\_\_ **Ensure that any scholar needing a 30 day IEP has been identified and a Strategies for Inclusion of Services contract meeting has been held by the end of the first two weeks of school so we have evidence that the parents understand our programs are full inclusion.**

### SCHOOL RESPONSIBILITIES

The school’s responsibilities for search and serve apply to the families and scholars attending and enrolling in the school. The COP 3 Schools have access to the following brochures to provide to parents. Students under LAUSD and EL DORADO SELPA’s must provide the parents with their rights and the schools’ responsibilities as well. The documents are located on SEIS.

There are three search and serve responsibilities that each school must implement:

1. All COP 3 schools must distribute the “*Are You Puzzled by Your Child’s Special Needs?*” brochure to every scholar to take home at the beginning of each school year. SEIS Schools should down-load Procedural Rights and Safeguards from the SEIS system and send it home.
2. Students with disabilities, requiring special services, enrolling in the school are identified and promptly provided the appropriate services.
3. There is a process in place, understood by all staff members, for referring scholars who may require special services.

### PROCEDURES FOR DISTRIBUTING REQUIRED “CHILD FIND” INFORMATION TO PARENTS

Federal and State laws require the District to annually notify all scholars and their parents about the availability of and information on special education and related services.

All COP 3 schools are required to send home the “*Are You Puzzled by Your Child’s Special Needs?*” brochure annually at the beginning of the school year and available to parents and staff members upon request. The brochure is available in the following languages:

- Armenian
- English
- Russian
- Tagalog

- Chinese
- Korean
- Spanish
- Vietnamese

Also required to be sent home annually at the beginning of the school year is the *MPS Parent-Student Handbook*, the *MPS Alternative Dispute Resolution Policy* and the *Section 504 Brochure*.

In addition, the following publications and forms must be maintained in the school office and made available to parents and staff upon request:

- Student Enrollment Form
- Request for Special Education Assessment Form
- *A Parent's Guide to Special Education Services (Including Procedural Rights and Safeguards) SEIS and Welligent*
- *The IEP and You – Welligent/ COP 3*
- *The ITP and You – Welligent/ COP 3*
- *Uniform Complaint Procedures (UCP)*

Schools must also prominently display the Uniform Complaint Procedures (UCP) poster that provides parents information about where to call if they have complaints concerning special education.

School staff should be prepared to assist parents in completing forms and answering questions they may have. When appropriate, refer the parent to the Magnolia Public School's Complaint Response Team Director, Dr. Brenda Lopez.

Note: The term "parent", used throughout policies and procedures manual includes:

- Any person having legal custody of the child;
- A person acting in place of a parent such as a grandparent or stepparent with whom the child lives;
- A person designated by the parent to represent the interests of the scholar.
- Note: In such cases the school should attempt to obtain the designation from the parent in writing including the scope of the representation. If it cannot be obtained, in writing, document the reason why and the means by which the designation was obtained;
- A foster parent, if the natural parent's authority to make educational decisions has been limited by court order and the foster parent has an ongoing long-term relationship with the scholar, is willing to assume the role of parent in educational decision-making, and has no interest that would conflict with the interest of the scholar;
- A surrogate parent appointed for the scholar who is a ward of the State or for a scholar whose parents are unknown or unavailable;
- A scholar, who has reached the age of 18, for whom no guardian or conservator has been appointed.

### IDENTIFYING AND SERVING STUDENTS ENROLLING IN THE SCHOOL

All schools are responsible for having procedures in place to identify and promptly serve scholars, who require or may need special services, when they enroll in the school. The mechanism for implementing the procedures is the

LEA's Student Enrollment Form that must be completed by parents at the time they are enrolling their child. Special Services asks the following five questions:

- Did the scholar receive special education services at his/her previous school?
- Did the scholar have an Individualized Education Program (IEP) at his/her previous school?
- Did the scholar have a Section 504 Plan at his/her previous school?
- Does the scholar have difficulties that interfere with his/her ability to go to school or learn?
- Has this scholar been identified for Gifted and Talented Educational services (GATE)?

Office personnel have the responsibility to assist parents, if necessary, answer the questions and ensure that all questions are answered. If the scholar has an IEP please refer to the SPED Coordinator

It is important that office personnel and administrator/designees familiarize themselves with the Magnolia Public Schools [Strategies for Inclusion form](#) and their duties to ensure that scholars who require special services are identified and promptly provided appropriate school programs and services.

Please ensure the following procedures are followed as applicable:

- View the active IEP in the Welligent/SEIS IEP system when the scholar has an IEP from a previous school. Once a scholar has enrolled in the school, the IEP will transfer in the Welligent/SEIS system and will be viewable to the new school of enrollment. If you are new to either SEIS or Welligent, we may need to reach out to the SELPA's to ensure that the information has been transferred over.
- Provide the parent the Parent Request/Reasonable Accommodations form and maintain the completed form in the scholar's special education folder. This form can be found in the *Documents* section of the Welligent/SEIS IEP systems. On this form, the parent identifies if any accommodations are needed (by the parent) to access the IEP meeting, such as an oral interpreter, wheelchair access, etc.
- Review the IEP document and provide the scholar the programs and services specified.
- Note: If the IEP is out of date or no longer appropriate, still implement it but hold an IEP team meeting as soon as possible (within thirty calendar days of scholar's enrollment).
- Review the IEP document and provide the scholar the programs and services specified if the scholar enrolled with an IEP from another school district. Hold a review IEP team meeting within thirty calendar days of scholar's enrollment.
- Implement a scholar's existing 504 plan, if available, or hold a meeting to develop a 504 plan.
- Take the specified actions without delay when the parents have indicated that the scholar has difficulties that interfere with his/her ability to go to school or learn.
- Enter all appropriate information into the scholar information system for scholars who have an existing IEP.
- If the scholar is transferring from another school district, promptly obtain the IEP and any other records from the previous district.
- If the scholar is transferring from another MPS school site and there are no changes in the service provision, at the new site then a 30 day meeting is not necessary.

- If a scholar has begun the assessment process in another school district and then transfers to MPS, MPS and the other district are responsible for expeditiously coordinating and completing the evaluation within legal timelines.
- If a scholar is transferring from another MPS school level, there should have been a transitioning IEP meeting from the previous MPS school site.
- If a scholar transfers to MPS with an IEP from another LEA in California, MPS will provide comparable services in consultation with the parents pending an MPS review IEP team meeting. MPS will conduct a review IEP team meeting within 30 calendar days of the scholar's enrollment to determine recommendations for special education services.
- If a scholar transfers into MPS from another state within a school year, MPS will provide comparable services, in consultation with the parents, until a new evaluation is conducted, if necessary, and a new IEP is developed in an IEP team meeting.
- If a scholar transfers into MPS from another LEA or state between school years (over the summer), the IEP team must adopt or develop an IEP that offers the Student FAPE. Although these will often constitute comparable services, this is not legally required.

## REQUESTS FOR A SPECIAL EDUCATION ASSESSMENT

Any person who believes that a scholar has or may have a disability and requires special education and related services may make a formal request for a special education assessment. The request must (eventually) be in writing and entered on the *Request for a Special Education Assessment Form* which can be located in the *Documents* section of Welligent/SEIS.

If a parent submits a letter making the request, transfer the information on to a Request for Special Education Assessment Form. If the request is made verbally, the school shall assist the requestor in putting the request in writing. Once a written request for a special education assessment has been received, the administrator/ designee has 15 days to develop and provide the parents with a special education assessment plan.

Please consider the following, within 15 Calendar Days of a request for a special education assessment the school must:

1. Contact the parent and assemble a coordination of services/ SSPT/ or MTSS team.
  - a. This team **MUST** have a general education representative, a special education representative, the school psychologist, an administrator and the parent.
  - b. The team **MUST** document the concerns of the parent at this meeting. Prior to the meeting, the team should have reviewed the scholars' academic and behavioral records. Please document any interventions, accommodations (i.e. CELT, ELPAC scores, SBAC scores, natural work samples etc.)
  - c. At this meeting the team will determine whether or not a special education evaluation is necessary if the Student is suspected of having a disability which may require special education and related services.
    - i. If a Parent makes the initial referral for special education evaluation, MPS must initiate the assessment process and provide an assessment plan, unless Parent voluntarily withdraws their request in writing *and* the school does not have reason to suspect that the student may be a student with a disability. 5 CCR 3021
    - ii. If the Parent agrees to postpone the assessment, assist them in putting their decision in writing. Be sure it is signed and dated. Attach the document to the Request Form and note the decision and date on the Referral Details section on the Welligent/IEP system. Scan and upload all correspondences to the Welligent IEP system. If you are not on Welligent, please provide the documents to the Director, Student Services to upload the documents on Evalulogix.

Note: If appropriate, an internal request for a special education assessment may be denied. School staff referrals shall be written and include (a) a brief reason for the referral and (2) documentation of the resources of the regular education program that have been considered, modified, and where appropriate, the results of intervention. The administrator/designee may discuss with the requestor accommodations or modifications that can be made in the general education program to assist the scholar's progress in the general education curriculum. A meeting of the

Student Support and Progress Team (SSPT), involving the requestor, can be utilized to design the accommodations or modifications but may not delay the MPS's legal obligation to provide the requestor with a timely response. The SSPT may agree to postpone the special education assessment until the accommodations or modifications have been implemented and the results evaluated.

*Note: If the SSPT does not agree to postpone the assessment, the assessment plan must be generated and provided to the parents within 15 days from the date the initial request for assessment was received by the school.*

Administrator/designees should take the following actions to ensure that requests for a special education assessment are managed properly and within legal timelines:

- Copies of the Request for A Special Education Assessment Form are to be uploaded to the Welligent/Evalulogix Systems and responsible personnel notified. All school staff should be knowledgeable about the referral process and how to access the forms.
- Provide the appropriate forms to parents, staff and others upon request.
- On an individual basis, assist the person making the request to complete the form(s) by providing information or clarification as necessary.
- If a request for a special education assessment is made by a parent/guardian, the administrator/designee must do the following:
  - If the request is made through a letter, the information must be transferred to the Request Form. Also, provide the parent with a copy of the Parent Request/Reasonable Accommodation form and maintain the completed copy in the scholar's special education folder.
  - When the signed and dated Request Form is received, review Section B and fill in the remaining portion of Section E.
  - The date that a request letter or form is received must be entered in the Referral Details section on the Welligent/SEIS IEP system.
  - A Special Education Assessment Plan must be developed and provided to the parent within 15 calendar days of receipt of the written request.
  - When appropriate, discuss with the parent accommodations or modifications that can be made to the general education program and whether they want to delay the assessment until the modifications have been implemented and evaluated (see procedure above).
- If a request for a special education assessment is made by a staff member the administrator/designee must do the following:

When a staff member requests a copy of the request form, discuss with them information outlined above. They must list the prior accommodations or modifications that have been considered and, where appropriate,

implemented to help the scholar. However, failure to include this documentation shall not delay the time-lines for completing the assessment plan or assessment. The SSPT should consider accommodations or modifications that may be made to assist the Student either while the assessment is pending or instead of conducting the assessment at the present time. The SSPT must follow the procedure described above.

- Enter the date that the Request Form was received on the Referral Details section on the Welligent/SEIS IEP system.
- Inform the parent/guardian that a request for a special education assessment has been made and that they will receive a Special Education Assessment Plan for their review and possible approval.
- Ensure that the assessment plan is completed and provided to the parent/guardian within 15 calendar days of receipt of the written request.

## **Achieving Success: Exiting Special Education Support - and Transitioning from High School**

Beginning with the first IEP, the ultimate goal is to teach students to utilize tools and internalize methods of learning so they no longer require special education accommodations and services. To be independent lifelong learners.

Information to be considered prior to removing a child from an IEP:

When is a child not needing services? When they are significantly closing the education gap, developing self-advocacy and coping mechanisms to the point where the student doesn't need an IEP. This should be our goal. Eligibility criteria must be considered in determining this decision. A full-comprehensive assessment must take place prior to any determination to exit a student from special education. The decision is based on solid data and a track record of academic success for a determined period of time. Keep in mind that the school district "may not use any single measure or assessment as the sole criterion for determining whether a child is a child with a disability" {34 CFR § 300.304(b)(2)}

The type of intervention, accommodations and progress monitoring that has taken place while the IEP was still being implemented, should be fully documented and share with the entire IEP team prior to making a determination.

For those students who require special education services until they complete high school, the process of exiting high school is one of the biggest life transitions students will face. Planning for their exit begins formally at age 14 in the Individualized Transition Plan (ITP) portion of the IEP, which the team writes in conjunction with the student to determine their plans for the first two years out of high school. Prior to students exiting high school and entering the postsecondary world, they are provided with linkages to appropriate outside agencies which could include the Department of Rehabilitation, Regional Center, Independent Living Center, and/or the services for students with disabilities office at the college they attend. Throughout high school, the transition teacher meets regularly with all students with disabilities and provides lessons and runs grant-funded student work programs. Seniors in high school meet at least quarterly with the transition teacher, who checks in with students regarding their post-secondary plans and assists them with pre-employment skills, self-determination skills, applying for community college or other training programs, and other needed transition skills.

## SPECIAL EDUCATION AND RELATED LAWS OVERVIEW

*Please adhere to the information within this manual and additional direction provided by the Director of Special Education and Support Services to avoid a violation of American Disabilities Act, Special Education and/or CDE Compliance Laws.*

### Educational Rights Overview

- Assembly Bill 124 (Chapter 605, Statutes of 2011) Assembly Bill 124 (Chapter 605, Statutes of 2011) requires the State Board of Education approve standards for English language development for pupils whose primary language is a language other than English. These standards shall be comparable in rigor and specificity to the standards for English language arts adopted.
- Section 504 of the Rehabilitation Act of 1973 Section **504** of the Rehabilitation Act is a federal civil rights **law** that prohibits discrimination against individuals with disabilities. Compliance is not optional. When Schools Punish Sick Children Who Miss School. Public schools are required by **law** to accommodate the health needs of scholars.
- Individuals with Disabilities Education Act (IDEA) Following are the six major principles of the IDEA, focusing on scholars' rights and the responsibilities of public schools to children with disabilities.
  - Free Appropriate Public Education. ...
  - Appropriate Evaluation. ...
  - Individualized Education Plan. ...
  - Least Restrictive Environment. ...
  - Parent Participation. ...
  - Procedural Safeguards.
- Family Educational Rights and Privacy Act (FERPA) California privacy of school records laws adhere to the federal standards set forth by the Family Educational Records Protection Act (FERPA), which guarantees free parental access to scholar school records. California has not passed laws that go beyond FERPA protections, as some other states have.
- Americans with Disabilities Act (ADA) ADA prohibits discrimination almost everywhere and overlaps with other laws. The ADA is far-reaching. ... ADA works in tandem with other education laws affecting children with learning and attention issues, such as Section 504 of the Rehabilitation Act and the Individuals with Disabilities Education Act (IDEA).

The law is clear: Every child in this country who has a disability — no matter the nature of the disability — has the right to a public education at no cost to their families. Schools must try to meet the individual needs of each child with disabilities by providing special education and related services.

The federal law that gives children with disabilities from birth to age 22 (and sometimes beyond, depending on the student's birthday) the right to a free and appropriate education is called the Individuals with Disabilities Education

Act (IDEA). Free means at no cost to the families. Appropriate means that the educational services must be individually designed to meet each child's unique needs.

The unique and individually designed education plan that is written for a child with a disability is called an Individualized Education Program (IEP). (For children younger than age 3, the plan is called an Individualized Family Service Plan (IFSP).) These plans are developed by the team of professionals working with the child in partnership with the child's family.

If needed, children with disabilities can receive related services at no cost to their family. Related services are the supports, services, therapies or interventions that may be given to help children learn. Related services are written into a child's IEP or IFSP.

The law also says that a child with disabilities must be educated in the least restrictive environment (LRE). This means that, to the greatest extent appropriate, the child should be in classes with non-disabled children and go to schools in his neighborhood. The law also says that, whenever possible, children with disabilities should be in the same general education classes they would have attended if they had not been classified as having a disability.

The law continues to recognize the valuable role that parents play in their child's education. In the latest update of the law, the term parent is expanded to include an adoptive or foster parent, guardian, or individual legally responsible for the child. In addition, the revised law provides more opportunities for early and simple ways to resolve disagreements between home and school. The legislation clearly supports the idea that parents or other adults legally responsible for the child have to be kept informed and have meaningful opportunities to be involved in their child's educational process.

### Enrollment in Special Education Program

Whenever a pupil with an IEP (signed by parent/guardian/adult scholar) transfers into an LEA, the local educational agency shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved individualized education program, in consultation with the parents to the extent possible within existing resources, for a period not to exceed 30 days, by which time the local education agency shall adopt the previously approved individualized education program or shall develop, adopt, and implement a new individualized education program that is consistent with federal and state law (EC 56325(a)(1)).

The new LEA does have an obligation to implement the scholar's last IEP, but the new placement does not have to exactly replicate the prior placement (Mrs. S. ex rel G. v. Vashon Island Sch. Dist. 337 F.3d 1115 (9th Cir. 2003)). If the scholar's goals can be met in a less restrictive environment (i.e., LEA program versus nonpublic school), and the parent/guardian agrees, the LEA can convene an IEP meeting to offer this alternative.

Most scholars moving into the LEA live with their parents.

Parent means:

- A biological or adoptive parent unless the biological or adoptive parent does not have legal
- authority to make educational decisions for the child;

- A guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child;
- An individual acting in place of a biological or adoptive parent, including a grandparent, stepparent, or other relative with whom the child lives; or
- An individual who is legally responsible for the child's welfare if the authority of the biological or adoptive parent to make educational decisions on the child's behalf has been specifically limited by court order (i.e., a court appointed surrogate advocate [CASA], a surrogate parent or a foster parent).

## Special Education Timelines

### Special Education Timelines for California

Issue	Timeline	Citation
<b>Special Eligibility</b>	ages 3-5	EC 56026(c)(2)
	ages 5-18	EC 56026(c)(3)
	ages 19-21	EC 56026(c)(4)
<b>Termination of Special Services</b>	If scholar's 22nd birthday is between January and June may continue through remainder of fiscal year	EC 56026(c)(4)(A)
	If scholar's 22nd birthday is in July, August, or September of new fiscal year will not be allowed to begin a new fiscal year	EC 56026(c)(4)(B)
	If scholar's 22nd birthday is during October, November, or December, scholar shall be terminated from program on December 31 of current fiscal year, unless scholar would otherwise complete his or her IEP at the end of the current fiscal year.	EC 56026(c)(4)(C)
<b>Proposed assessment plan</b>	Student graduates from high school with regular high school diploma.	EC 56026.1(a)
	District must develop within 15 calendar days of referral for assessment*, unless parent or guardian agrees in writing to an extension	EC 56043(a)
	Parent or guardian shall have at least 15 calendar days from the receipt of the proposed assessment plan to arrive at a decision	EC 56043(b)

<b>Initial IEP meeting once parent consent for assessment received</b>	within 60 days	EC 56043(c)
<b>Review of IEP program</b>	not less frequently than annually	EC56043(d), 56343(d), 56380(a)(1)
<b>Parental notification of IEP meeting</b>	early enough to ensure an opportunity to attend 10 Days for California Schools	EC 56302.1(e), EC 56341.5(b)
<b>IEP required as a result of an assessment</b>	within total time not to exceed 60 calendar days from receipt of written consent for assessment*, unless parent or guardian agrees in writing to an extension	EC 56043(f)(1), EC 56344(a)
<b>Meeting to develop IEP once determined child needs additional special education and related services</b>	within 30 days	EC 56043(f)(2), EC 56344(a)
<b>Implementation of post secondary goals and transition</b>	no later than first IEP program to be in effect when the pupil is 16	EC 56043(g)(1)
<b>Notification of scholar's acquisition of education rights</b>	no later than one year before the pupil reaches the age of 18 years.	EC 56043(g)(3)
<b>Statement of transition services</b>	beginning at age 16 or younger	EC 56043(h), EC 56345(a)(8)
<b>Implementation of IEP</b>	as soon as possible following the IEP team meeting	EC 56043(i), 5 CCR 3040(a)
<b>Reassessment of pupil</b>	not more frequently than once a year and at least once every three years, unless parent and district/LEA agree in writing, that reassessment is unnecessary.	EC 56043(k), EC 56381(a)(2)

<b>When parent requests an “emergency” IEP meeting</b>	within 30 days from the date of the receipt of written request.	EC 56043(1), EC 56343.5
<b>Implementation of IEP after transfer to new district in same SELPA</b>	Without delay	EC 56043(m)(2), EC 56325(a)(2)
<b>Adoption of prior IEP or implement new IEP after a transfer within the state to a new district and new SELPA</b>	within 30 days of transfer	EC 56325(a)(1)
<b>Records request by parent – oral or written and before any meeting regarding IEP or any hearing or resolution session</b>	Within 5 working/business days	EC 56043(n), EC 56504
<b>Records request from district/LEA where scholar has enrolled</b>	within 5 working/business days after receipt of records	EC 56043(o), 5 CCR 3024(a)
<b>CDE investigation of complaint and issue written decision</b>	60 days after complaint is filed	EC 56043(p)
<b>Schedule pre-hearing mediation</b>	within 15 days of receipt by Superintendent of request for mediation	EC 56043(q), EC 56500.3(e)
<b>Pre-hearing mediation</b>	within 30 days after request	EC56043(q), EC 56500.3(e)
<b>Bringing of Due Process Claim</b>	within 2 years of date party knew or should have known of facts underlying basis for request	EC56043 (r), EC 56505(l)

<b>Raising issue of Due Process Request is insufficient</b>	within 15 days of receipt of DPH request	EC 56502(d)(1)	
<b>Hearing Officer determination of sufficiency of Due Process Request</b>	within 5 days of receipt of notice of insufficient Due Process Request	EC 56502(d)(1)	
<b>Hold and render decision on due process hearing</b>	within 45 calendar days after the expiration of the 30 days of receipt of due process hearing request	EC 56043(s), 56505(f)(3)	EC
<b>Notice of attorney representation in due process hearing</b>	at least 10 calendar days prior to hearing	EC 56043(t), 56507(a)	EC
<b>Notice of issues and proposed resolution in due process hearing</b>	at least 10 calendar days prior to hearing	EC56043(u), 56505(e)(6)	EC
<b>Copies of documents to be presented at hearing and list of witnesses and general areas of testimony</b>	at least 5 days prior to hearing	EC 56043 (v), 56505(e)(7), 56505.1(f)	EC EC
<b>File an appeal to a due process hearing decision</b>	within 90 days of receipt of hearing decision	EC 56043(w)	
<b>Review of IEP when there is a residential placement</b>	every 6 months	EC 56043(x), 7572(c)(2)	GC

EC = California Education Code

CCR = California Code of Regulations, Title 5

GC = California Government Code

CDE = California Department of Education Code

\*Does not include calendar days between the pupil's regular school session or terms or calendar days of school vacation in excess of five school days.

The following list covers the areas of disabilities that are options for writing an Individualized Educational Program (IEP).

The disability categories and enrollment breakdown in California for individuals (newborn through twenty-two years of age) who received special education services in 2017–18 are as follows:

- Autism: 112,318
- Deaf-blindness: 115
- Deafness: 3,242
- Emotional disturbance: 24,936
- Hard of hearing: 10,633
- Intellectual disabilities: 43,855
- Multiple disabilities: 7,161
- Orthopedic impairment: 10,453
- Other health impairment: 97,426
- Specific learning disability: 297,468
- Speech or language impairment: 161,485
- Traumatic brain injury: 1,618
- Visual impairment: 3,487

## Special Education Program Implementation

### What does SPED look like at Magnolia Public Schools

#### Continuum of Services

*This section was developed by our technical writing team to describe the programs being implemented at Magnolia Public Schools. Although a program is required of each LEA, the LEA's may utilize the specific interventions, strategies and programs as you choose. This includes any additional programs or electing not to use some of the strategies listed. However, we all need to ensure that we are meeting the needs of ALL scholars and following the continuum of services when doing so.*

#### MEETING THE NEEDS OF ALL STUDENTS

Magnolia Public Schools utilizes MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting scholars. The framework of MTSS utilizes high quality evidence-based instruction, intervention, and assessment practices to ensure that every scholar receives the appropriate level of support to be successful. A Multi-Tiered System of Supports to align academic standards and behavioral expectations, in order to accelerate the performance of every scholar to achieve and/or exceed proficiency.

Magnolia Public Schools quickly identifies low-achieving scholars through frequent benchmark assessment and review of individual scholar data. Students who are achieving substantially below grade level are identified through multiple measure assessments including MAP Tests, sample Smarter Balanced questions, Accelerated Reader & Accelerated Math tests and teacher-designed tests.

Magnolia Public Schools utilizes data and progress monitoring to determine best practices to support scholar achievement. Teachers and scholar stakeholders are invited to meet with teachers to discuss possible intervention methods and learn how they can participate in helping with their child's education. Parent-teacher meetings at the Charter School are followed by home visits as needed.

The Dedicated Time Intervention Model that is written into the schedule for the MPS program is a flexible intervention that can be used with a variety of curriculum and varying schedules. The Principal idea in Dedicated Time is that a school intentionally builds consistent math and ELA intervention time into the entire school schedule.

Various implementations are possible with the Dedicated Time Intervention Model. Implementation strategies may include:

- Intervention block every day or 2-3 times per week (a scholar may have reading intervention on one day and math on the next)
- Intervention/Enrichment computer tutorials where the teacher can tutor selected scholars
- Specialist, instructional assistant, and volunteer support during intervention time
- Divide scholars up by need and send to different teaching team members for support during intervention

blocks

During intervention teachers use educational materials that provide review, re-teach and enrichment programs. McGraw Hill's publisher resources, ALEKS, Curriculum Associates' Ready Common Core program, Kuta software, Khan Academy, Accelerated Reader and Accelerated Math program, Achieve3000, and Buckle Down allow teachers to monitor the progress of scholars who are achieving below grade level and provide software generated tests and personalized instructional materials based on CCSS and areas of growth.

Tiered intervention implementation is outlined below. Student progress is closely monitored through a well-integrated system of instruction and intervention guided by scholar assessment data.

### Intervention Cycle and Process

MPS uses the following to inform, monitor, and implement response to intervention strategies:

- Historical scholar data
- Data related to SBAC results and Spring NWEA MAP data from previous year
- Diagnostic data
- Fall NWEA MAP
- Progress monitoring
- Grades
- SBAC Interim Data
- SBAC Interim Block Assessment
- SBAC Interim Comprehensive Assessment
- Spring MAP
- Winter MAP (optional)

Tier 1: High- quality instruction, progress monitoring, differentiated learning, group interventions, classroom accommodations

The RTI process begins at Tier I with high quality instruction and universal screening of all children within the general education setting. Through the use of formative assessments such as the MAP test, schools establish a baseline to identify scholars who need additional support and struggling learners are provided classroom accommodations and differentiated instruction to meet their needs. Within Tier I, a scholar may receive the following supports:

- Adaptive programming in McGraw Hill's ALEKS and StudySync
- Khan Academy
- BrainPOP ESL
- Discovery Education
- MyOn
- National Geographic
- 1:1 laptops
- Advisory/SSR

The length of time in Tier I interventions may vary, but generally do not exceed 8 weeks. During that time, schools will continue to evaluate scholar progress based on interim data such as Smarter Balanced Interim Block Exams, Comprehensive exams, and classroom assessments. At the end of this period, scholars showing significant progress are exited from interventions, while those needing more intensive supports are moved to Tier 2. A scholar success team is gathered to determine intensive support.

#### Tier 2: Targeted Interventions

Students not making adequate progress with Tier 1 interventions are matched with more intensive academic and/or behavioral support based on their needs. These services are provided by general education teachers, math and literacy coaches, and special education teachers. In small groups and within the general classroom setting, scholars may access:

- Power Classes (Math and English)
- Co-taught classes
- Push-in support
- Before and after school tutoring
- SSR/Advisory (see Course Description above)

Students receiving Tier 2 interventions may require a longer period of monitoring, however, it does not typically exceed a semester. Students who do not demonstrate progress are moved into Tier 3. While scholars who have shown significant progress are placed into Tier 1.

#### Tier 3: Intensive Interventions and Evaluation

In Tier 3 of the MPS's RTI program, scholars receive individualized, intensive interventions that target specific skill deficiencies that include:

- All Tier 2 interventions
- Push-in and Pull-out support: Education Specialists, Intervention Teachers, and Literacy Coaches provide push- in and pull- out support in core classes to learners receiving Tier 3 interventions. Support providers assist teachers in creating accommodations and differentiated learning experiences so that all scholars may access class materials. If it is deemed that scholars would benefit from further individualized support, they are pulled out for more intensive instruction.
- Study Skills classes: Study Skills courses are taught by Education Specialists as an elective course for scholars in need of additional support in note taking, organization, exam preparation, assignment completion, and time management.
- Instructional aides in the classroom: Instructional Aides support teachers with instruction by working individually with scholars, assisting in stations, clarifying instructions, and reteaching. IA's also provide behavioral support and reinforce the school's Positive Behavior Interventions and Support ("PBIS").
- Saturday School: Students assigned to Saturday School work with teachers on foundational skills related to their coursework.
- Learning Center: The Learning Center or Resource Classroom is designated as a space for both Special Education and General Education scholars to receive academic support from Education Specialists and Instructional Coaches. Students can complete assignments, test in small settings, use computers, and work with

their peers on group assignments.

If the Student Success Team believes further intervention is necessary, then the scholar may be referred to special education or 504 services.

While Tier 3 scholars may access a variety of academic supports before and after school including tutoring, Saturday school, and teacher coaching, the majority of interventions are given throughout the school day to ensure that scholars receive the full benefits of their individualized instruction. Services in the learning center, push-in and pull-out assistance, instructional aides, and study skills classes are all provided to scholars during the school day.

#### Equitable Access to the Curriculum

MPS utilizes an instructional program that emphasizes equitable access to the curriculum for all learners, including scholars with disabilities. These include:

**Co-Teaching/Push-in/Pull-out Support-** MPS supports its exceptional populations by utilizing multiple methods of providing special education services. MPS fosters an inclusive model of education. As such, Professional Development in the area of co-teaching allows teachers to grow their ability to educate and service scholars of varying abilities. In order to effectively implement a co-teaching model, special education and general education teachers are given time to co-plan and develop lessons so that scholars are provided appropriate supports and accommodations. Students who require additional assistance, receive services in a push-in or pull-out model where they receive more individualized attention.

Additionally, the digital formatting of our McGraw Hill curriculum allows teachers to collaborate on unit and lesson plans to ensure that all scholars' accommodations and needs are being addressed. This system is setup such that all scholars attend every class. The Special Education teacher and various paraprofessionals provide instructional support within the general education setting. This allows for all scholar groups to be supported while participating in the least restrictive environment throughout the day.

**Embedded Supports-** In addition to the on-site staff coordinated by the Special Education and/or RTI Coordinator, MPS contracts with an outside service provider to support children's learning needs, such as intervention specialists, speech and language therapists, and occupational therapists who work with teachers to provide the least restrictive and most accessible learning environment. Special education aides work directly in the classroom, providing customized support to scholars throughout the day, and are valuable members of the team.

**Differentiated Instruction-** Teachers at MPS deliver a curriculum that is tailored to each scholar's interests and needs. This support includes accommodations, use of technology, and data-informed decisions, such as utilizing Lexile reading scores and bringing technology into the classroom.

MPS is utilizing a Specialized Academic Instructional program format to provide additional, more concentrated support to scholars with exceptional needs. The instruction is provided in core academic blocks for the scholars

with the most academic need. For the subsequent Students with special needs, the instruction will be delivered using co-teaching, pull out and push in models.

## Multi-Tiered Systems of Support for overall Student Wellness and Achievement

### **ALL MEANS ALL**

Since MTSS is a framework that brings together both RtI<sup>2</sup> and PBIS and aligns their supports to serve the whole child, it also relies on data gathering through universal screening, data-driven decision making, and problem solving teams, and focuses on content standards. MTSS aligns the entire system of initiatives, supports, and resources, and implements continuous improvement processes throughout the system. Magnolia Public Schools has subscribed to the support of the whole child using Universal Supports, targeted and intensive interventions to support academic, social emotional and behavioral functioning.

### **Social Emotional Learning**

The Five (5) competencies of Social Emotional Learning

1. Self Awareness - The ability to accurately recognize one's own emotions, thoughts, and values, and how they influence behavior. The ability to accurately assess one's strengths and limitations, with a well-grounded sense of confidence, optimism, and a 'growth mindset'.

Goal: to empower our scholars to be able to identify emotions, recognize their strengths and areas for growth, and develop a sense of self-confidence. Several standards for the arts exhibit self-awareness in their artistic thinking processes, as well as in evaluation of the artistic performance/presentation.

2. Self Management - The ability to successfully regulate one's emotions, thoughts, and behaviors in different situations. Effectively managing stress, controlling impulses, and motivating oneself. The ability to set and work toward personal and academic goals.

Goal: To empower students to work, either individually or collaboratively, towards a performance or presentation goal.

3. Social Awareness - The ability to take the perspective of and empathize with others, including those from diverse backgrounds and cultures. The ability to understand social and ethical norms for behavior and to recognize family, school and community resources and supports.

Goal: Anchor Standard 10, “Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.”

4. Relationship Skills - The ability to establish and maintain healthy and rewarding relationships with diverse individuals and groups. The ability to communicate clearly, listen well, cooperate with others, resist inappropriate social pressure, negotiate conflict constructively, and seek and offer help when needed.

Goal: To have students participate in various types of different art-forms are ensemble-based: performing in a band or choir, being part of a dance ensemble, putting on a play, developing a collaborative work of art.

5. Responsible Decision Making -The ability to make constructive choices about personal behavior and social interactions based on ethical standards, safety concerns, and social norms. The realistic evaluation of consequences of various actions, and a consideration of the well-being of oneself and others.

There is power in art and our scholars are being taught to take responsibility seriously.

## Universally Designed Instruction

### Universal Design for Learning Guidelines

Provide multiple means of [Engagement](#)

Affective Networks - The "WHY" of learning

#### **Access**

Provide options for [Recruiting Interest](#)

- [Optimize individual choice and autonomy](#)
- [Optimize relevance, value, and authenticity](#)
- [Minimize threats and distractions](#)

#### **Build**

Provide options for [Sustaining Effort & Persistence](#)

- [Heighten salience of goals and objectives](#)
- [Vary demands and resources to optimize challenge](#)
- [Foster collaboration and community](#)
- [Increase mastery-oriented feedback](#)

#### **Internalize**

Provide options for [Self Regulation](#)

- [Promote expectations and beliefs that optimize motivation \(checkpoint9.1\)](#)
- [Facilitate personal coping skills and strategies \(checkpoint9.2\)](#)
- [Develop self-assessment and reflection \(checkpoint9.3\)](#)

Provide multiple means of [Representation](#)

#### **Recognition Networks The "WHAT" of learning**

Provide options for [Perception](#)

- [Offer ways of customizing the display of information](#)
- [Offer alternatives for auditory information](#)
- [Offer alternatives for visual information](#)

Provide options for [Language & Symbols](#)

- [Clarify vocabulary and symbols](#)
- [Clarify syntax and structure](#)
- [Support decoding of text, mathematical notation, and symbols](#)
- [Promote understanding across languages](#)
- [Illustrate through multiple media](#)

Provide options for [Comprehension](#)

- [Activate or supply background knowledge](#)
- [Highlight patterns, critical features, big ideas, and relationships](#)
- [Guide information processing and visualization](#)
- [Maximize transfer and generalization](#)

Provide multiple means of [Action & Expression](#)

### **Strategic Networks The "HOW" of learning**

Provide options for [Physical Action](#)

- [Vary the methods for response and navigation](#)
- [Optimize access to tools and assistive technologies](#)

Provide options for **Expression & Communication**

- [Use multiple media for communication](#)
- [Use multiple tools for construction and composition](#)
- [Build fluencies with graduated levels of support for practice and performance](#)

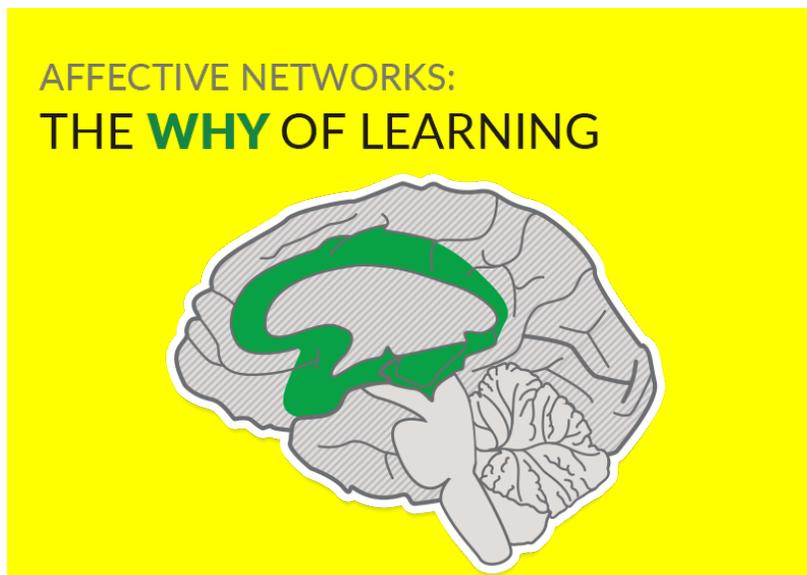

Provide options for [Executive Functions](#)

- [Guide appropriate goal-setting](#)
- [Support planning and strategy development](#)
- [Facilitate managing information and resources](#)
- [Enhance capacity for monitoring progress](#)

### **Ultimate Goal**

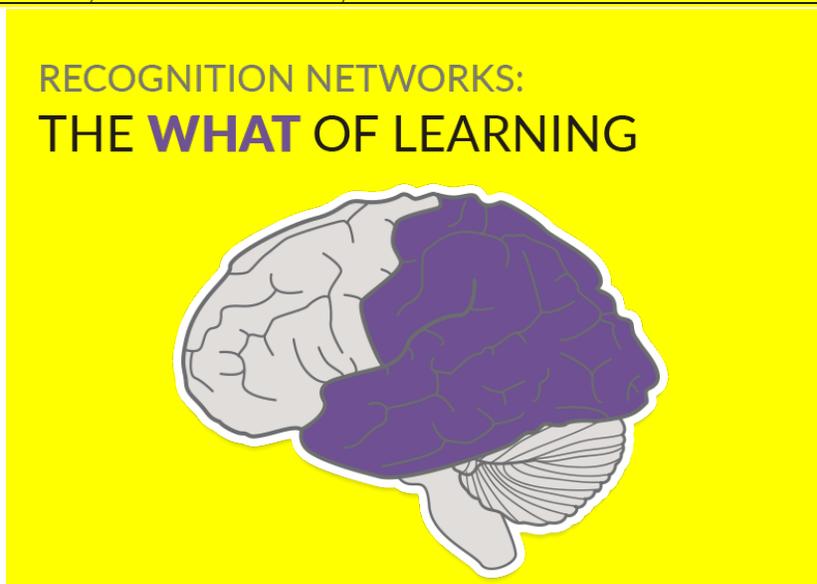

Support and Develop Expert Learners who are...

- Purposeful & Motivated
- Resourceful & Knowledgeable
- Strategic & Goal-Directed

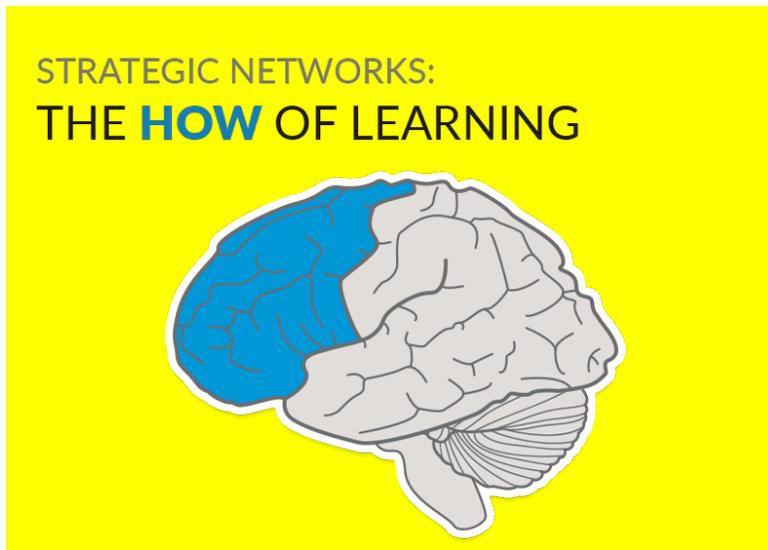

Engagement

For purposeful, motivated learners, stimulate interest and motivation for learning.

Representation

For resourceful, knowledgeable learners, present information and content in different ways.

Action & Expression

**For strategic, goal-directed learners, differentiate the ways that students can express what they know.**

### **What Do School Psych's Do Anyway?**

School Psychologists Work With Students To:

- Provide counseling, instruction, and mentoring for those struggling with academic, social, emotional, and behavioral problems
- Increase achievement by assessing barriers to learning and determining the best instructional strategies to improve learning
- Promote wellness and resilience by reinforcing communication and social skills, problem solving, anger management, self-regulation, self-determination, and optimism
- Enhance understanding and acceptance of diverse cultures and backgrounds

School Psychologists Work With Students and Their Families To:

- Identify and address learning and behavior problems that interfere with school success
- Evaluate eligibility for special education services (within a multidisciplinary team)
- Support students' social, emotional, and behavioral health
- Teach parenting skills and enhance home-school collaboration
- Make referrals and help coordinate community support services

School Psychologists Work With Teachers To:

- Identify and resolve academic barriers to learning
- Design and implement student progress monitoring systems

- Design and implement academic and behavioral interventions
- Support effective individualized instruction
- Create positive classroom environments
- Motivate all students to engage in learning

#### School Psychologists Work With Administrators To:

- Collect and analyze data related to school improvement, student outcomes, and accountability requirements
- Implement school-wide prevention programs that help maintain positive school climates conducive to learning
- Promote school policies and practices that ensure the safety of all students by reducing school violence, bullying, and harassment
- Respond to crises by providing leadership, direct services, and coordination with needed community services
- Design, implement, and garner support for comprehensive school mental health programming

#### School Psychologists Work With Community Providers To:

- Coordinate the delivery of services to students and their families in and outside of school
- Help students transition to and from school and community learning environments, such as residential treatment or juvenile justice programs

#### WHERE SCHOOL PSYCHOLOGISTS WORK

The majority of school psychologists work in schools. However, they can practice in a variety of settings including:

- Public and charter schools
- School-based health and mental health centers

#### HOW DO SCHOOL PSYCHOLOGISTS MAKE A DIFFERENCE IN SCHOOLS?

All children and adolescents face problems from time to time. They may:

- Feel afraid to go to school
- Have difficulty organizing their time efficiently
- Lack effective study skills
- Fall behind in their school work
- Lack self-discipline
- Worry about family matters such as divorce and death
- Feel depressed or anxious
- Experiment with drugs and alcohol
- Think about suicide
- Worry about their sexuality
- Face difficult situations, such as applying to college, getting a job, or quitting school

### · Question their aptitudes and abilities

School psychologists help children, parents, teachers, and members of the community understand and resolve these concerns. Following are examples of how school psychologists make a difference.

#### Helping Students With Learning Problems

Tommy's parents were concerned about his difficulty reading and writing. They feared that he would fall behind and lose confidence in himself. In school the teacher noticed that Tommy often struggled to understand what he was reading and often needed the help of his classmates to do related written work. After observing Tommy, consulting with his teacher, and gathering specific information about his skills, the school psychologist collaborated with his parents and teachers to develop a plan to improve his reading and writing. The plan worked, and Tommy's reading, writing, and confidence as a learner improved.

#### Helping Students Cope With Family and Life Stressors

The teacher noticed that Carla, an able student, had stopped participating in class discussions and had difficulty paying attention. The school psychologist was asked to explore why Carla's behavior had changed so much. After discovering that Carla's parents were divorcing, the school psychologist provided counseling for Carla and gave her parents suggestions for this difficult time. Carla's behavior and emotional wellbeing improved, and she felt more secure about her relationship with her parents.

#### Helping Students With Behavior Problems Learn New Ways to Respond

David was a high school student who often skipped class and got into fights with others. He acted out in class and had been suspended from school on various occasions. After establishing a relationship with David, the school psychologist taught him simple techniques to relax, recognize his needs, and to control his aggressive behavior. David's mother and his teacher worked together on a plan designed by the school psychologist to establish limits, recognize David's escalating tension, and improve communication. David's relationships with peers and adults improved and he began to make steady progress towards graduation.

## Educationally Related Mental Health Services (ERMHS)

## Educationally Related Intensive Counseling Services (ERICS)

### **Definition:**

Educationally Related Mental Health Services (ERMHS) (also known interchangeably as Educationally Related Intensive Counseling Services (ERICS)) describe a range of support services provided to and/or on behalf of a student with an Individualized Education Program (IEP). If deemed necessary following a targeted assessment, the purpose of these services is to allow a student with mental health needs to access and benefit from his or her education. While private counseling may address a wide variety of mental health needs, ERMHS/ ERICS are intended to specifically support skills required for the student to access the educational environment.

School psychologists have a crucial role in the ERMHS decision-making process due to expertise and experience in assessment, mental health, areas of disability and subsequent impact on learning. Despite expertise in these areas, successfully navigating the breadth and complexities of the ERMHS/ERICS process can prove challenging. Therefore, this Frequently Asked Questions (FAQ) document was developed with the goal of providing school psychologists, and other IEP team members, with the information needed to competently and confidently respond to the most frequently asked ERMHS related questions in order to make meaningful student-centered recommendations.

Topics explored include: general information, referral, assessment, report writing, service recommendations, goal writing, service provision, and discontinuing services. Guidance provided in this document is based on federal and state law, current case law and best practice recommendations. This FAQ is intended to supplement the ERMHS Program Guidelines, which include additional guidance on Response to Instruction and Intervention (RtI2)

Multi-Tiered System of Supports (MTSS)<sup>2</sup>, types of tiered supports, assessment, services and placement. For more information on these topics, refer to the ERMHS/ERICS Program Guidelines which can be located on the Charter SELPA website. For funding-related questions, please refer to the ERMHS/ERICS Funding Guidelines document found within the Business Services section of the Charter SELPA website ([www.charterselpa.org](http://www.charterselpa.org)).

### **GENERAL INFORMATION**

Q1. What are Educationally Related Mental Health Services (ERMHS)?

A1. ERMHS describes a range of related services provided to and/or on behalf of a student with an Individualized Education Program (IEP). Educationally Related Mental Health Services include individual counseling, counseling and guidance, psychological services, social work services and parent counseling/training. If deemed necessary following a targeted assessment, the purpose of ERMHS are to allow a student with ongoing mental health needs to access and benefit from his or her education. While private counseling may address a wide variety of mental health needs, ERMHS are intended to specifically support skills required for the student to access the educational environment. A complete list of ERMHS services and descriptions are listed below in the Services section of this FAQ.

Q2. When did schools become required to provide ERMHS?

A2. In 1984, Assembly Bill 3632 statutorily required a partnership between school districts and county mental health agencies to deliver mental health services to students with IEPs. In 2011, the California legislature passed Assembly Bill 114, which repealed the state mandate on special education and county mental health agencies. As a result of this legislation and in accordance with the Individuals with Disabilities Education Act (IDEA, 2004), Local Educational Agencies (LEAs) are solely responsible for ensuring that students with disabilities receive special education and ERMHS in order to meet their individualized needs.

Q3. What is the school psychologist's role in ERMHS?

A3. Mental health interventions and competencies are an integral part of school psychologists' extensive graduate training, equipping school psychologists with the preparation and expertise to provide educationally related mental health support within the school setting (CASP, 2012). The Pupil Personnel Services (PPS) credential with a specialization in School Psychology and California Education Code permit school psychologists to provide and coordinate related counseling services in schools. These services include direct assessment and services provided to the student, as well as indirect consultation (EC §49424). Due to a breadth and depth of knowledge related to development, learning, assessment, mental health and consultation, school psychologists are deemed highly qualified to provide and/or support in the provision of ERMHS. More information on additional personnel qualified to provide ERMHS services are listed in the Services section of this document.

Q4. I didn't receive training on ERMHS assessments and services in my graduate school program. What should I do?

A4. School psychologists trained prior to AB114 (2011) or in states other than California may not have obtained training specifically aligned with ERMHS terminology. However, fundamental aspects of school psychology training programs such as assessment, mental health, educational counseling, learning, consultation and intervention appropriately inform ERMHS-related practices. Additionally, components of an ERMHS assessment mirror the process of assessing social-emotional needs within a comprehensive psycho-educational assessment. For additional information on ERMHS assessment, services, or how to connect your professional training with ERMHS procedures, consider the following:

- Collaborate with school psychologist colleagues experienced in the area of ERMHS.
- Review and/or utilize the EDCOE Charter SELPA ERMHS Report Template found in the SEIS Document Library.
- Attend ERMHS training provided by the EDCOE Charter SELPA (available in the Online Professional Learning catalog located at <http://charterselpa.org/professional-learningcatalog/>).
- Review the EDCOE Charter SELPA ERMHS Program Guidelines document (located at <http://charterselpa.org/program-support/>). (These resources may also be used by LAUSD schools).
- Join state-specific school psychology organizations such as the California Association of School Psychologists (CASP) to access other professionals, archived resources and ongoing training opportunities.
- Connect with your graduate program for additional guidance or professional development opportunities.

## REFERRAL

Q5. When should a referral for ERMHS assessment be initiated?

A5. A referral for ERMHS assessment should be initiated any time it is suspected that social emotional and/or mental health need(s) may impact access to the educational environment and cannot be adequately supported through the general program. Although not an exhaustive list, an ERMHS assessment may be warranted when a student:

- Exhibits maladaptive or atypical behaviors, or displays a significant change in behavior that negatively impacts educational performance
- Exhibits social-emotional needs that cannot be addressed by the current educational program
- Is accessing general education counseling for a “short-term” need and has not made progress or ongoing counseling is required
- Displays ongoing school refusal
- Engages in self-harm, expresses suicidal ideation or attempts to end his or her life
- Has been diagnosed with a mental health disorder and parent/guardian provides documentation requesting a school-based assessment and service
- Is hospitalized for mental health related need
- A referral may also be initiated whenever additional services or a change of placement are being considered due to mental health or if a parent, legal guardian or adult student requests assessment for ERMHS.

It should be noted that a separate ERMHS assessment may not be required if a comprehensive evaluation was recently completed within an approximately six-month timeframe which include interviews, observations, and social emotional rating scales that can determine ERMHS eligibility and services. This is most often the case following comprehensive assessment for Emotional Disturbance (ED).

Q6. What is the difference between a referral for ERMHS and a referral to assess for Emotional Disturbance (ED)?

A6. The purpose of an ERMHS assessment is to determine need for ERMHS specifically and does not determine special education eligibility. Alternatively, a comprehensive psychoeducational assessment for ED can both determine ED eligibility and a recommendation for ERMHS, as long as the elements required for both ED eligibility and ERMHS recommendation are included. Therefore, depending on the level of student need, an IEP team may move forward with a referral for both a psycho-educational evaluation to assess ED as an area of suspected disability as well as determining need for ERMHS services. If this is the case, the case manager should ensure that both reasons for referral are indicated in the Prior Written Notice (PWN) section of the Assessment Plan (AP) in SEIS prior to obtaining parental consent.

Q7. Should a student be referred for ERMHS assessment to support short-term needs?

A7. A student with an IEP may access short-term counseling through the general education program to address a temporary need such as a natural disaster, death of a loved one, parental divorce or a break-up with a significant other. Although short-term trauma or grief may be addressed through general education supports without an ERMHS assessment, progress should be closely monitored during this time. If progress is not made and/or

continued counseling is required it is recommended that the IEP team refer for an ERMHS assessment to further investigate social-emotional needs and determine if ERMHS are warranted as a function of the IEP.

Q8. Should all pre-referral interventions be exhausted before recommending an ERMHS assessment?

A8. Although pre-referral interventions are encouraged, the use of pre-referral interventions as part of a Response to Instruction and Intervention (RtI2) 1 or Multi-Tiered System of Supports (MTSS)2 process does not diminish a LEA's obligation under the IDEA to obtain parental consent and evaluate a student in a timely manner. For that reason, it is generally not acceptable for a team to wait several months to conduct an evaluation or to seek parental consent for an evaluation if an additional area of need or eligibility is suspected. Therefore, when a student is referred for an ERMHS assessment it is recommended that the IEP team carefully consider the referral to avoid delaying assessment and potential services based solely on access and response to pre-referral interventions.

Q9. What if a parent/guardian provides an independent report as part of their referral?

A9. If a parent or guardian provides an independent report which indicates social-emotional and/or mental health needs, it is recommended that an IEP meeting be held to review parent concerns, results of the independent assessment, and determine whether ERMHS assessment is warranted. Although independent medical reports and records should be considered by the IEP team, they do not equate to immediate eligibility for ERMHS. For example, some students may experience mental health disorders that are managed independently and therefore do not manifest in the school setting. Therefore, despite the presence of a clinical mental health diagnosis, an ERMHS assessment must still be completed to examine if and/or how a student's documented mental health disorder impacts his or her ability to access the educational environment. This ensures that appropriate school-based services are provided.

It is also recommended that the school obtain a signed Exchange of Information to allow the assessor to discuss the student's medical and mental health needs as they relate to the educational setting. The ERMHS assessment report may include relevant information provided by the clinical and/or independent assessor in the "background" or "health" sections of the ERMHS report, as appropriate. Although independent medical reports may be provided by the parent/guardian as reviewed above, LEAs are not required to seek medical input prior to determining need for ERMHS services. Should a school request medical diagnosis, they incur financial responsibility for the medical evaluation. As a reminder, medication cannot be considered a mitigating factor when determining whether a student qualifies for IEP services. Assessments are also required to discontinue ERMHS services. Please see the "Discontinuing Services" section of this FAQ for additional information.

## **ASSESSMENT**

Q10. What is the purpose of an ERMHS assessment?

A10. The purpose of the ERMHS assessment is to examine areas of social-emotional need and determine whether educationally related mental health services are required in order for the student to access his or her education. If needed, ERMHS assessment data informs the implementation of meaningful effective and evidence-based interventions. Assessment data collected during the assessment is used to update present levels, determine eligibility for ERMHS services, write ERMHS goals and make an informed recommendation to the IEP regarding the appropriate frequency and duration of services. It should be noted that final recommendations regarding services will be made by the IEP team.

Q11. Is an assessment required to initiate ERMHS?

A11. Yes. Schools must assess and serve students' educationally related mental health needs through the same process as other identified educational needs. As is the case with any other related service (i.e. speech, OT, APE, etc.), an assessment must be completed to both initiate and discontinue ERMHS (Cal. Ed. Code §56320).

Q12. The IEP team is in agreement that a student requires counseling. Can we add the service to the IEP without assessment? Can it be added without assessment if the student is already receiving counseling through the general education program?

A12. Schools must assess and serve students' educationally related mental health needs through the same process as other identified educational needs, therefore assessment is required to initiate ERMHS services. However, information regarding progress while receiving short-term general education counseling services may be incorporated into the "Background Information" section of the ERMHS assessment and report. The IEP team may also document in IEP notes if a student is participating in counseling through the general education program while the assessment is being conducted.

Q13. Is an ERMHS assessment still required if a student has been hospitalized or is in crisis?

A13. Yes. Although the overall process remains the same, it is recommended that the team consider expediting assessment in a crisis situation. The team should also consider whether interim mental health support is required during this time. Reports and/or information provided as a result of a hospitalization should also be taken into account when discussing area(s) of need. It is also recommended that the school obtain a signed Exchange of Information to allow the assessor to discuss the student's medical and mental health needs as they relate to the educational setting.

For more information on incorporating independent reports into an ERMHS assessment, please refer to the Question 9 above. For more information on steps to follow if a student with an IEP is hospitalized to support mental health needs, please refer to Question 37 of this FAQ document. For more information on steps to follow if a student without an IEP is hospitalized due to mental health concerns, please refer to the Continuum of Placement: Psychiatric Hospitalizations for students with/without IEPs in the IEP Services, Goals and Continuum of Placement section of the ERMHS Program Guidelines. The ERMHS Program Guidelines can be located on the Charter SELPA website ([charterselpa.org](http://charterselpa.org)) in the Resources section of the Program Support page.

Q14. The student already has social-emotional goals but hasn't been receiving ERMHS. Do we need to complete an assessment before adding an ERMHS service?

A14. If an IEP is in agreement that a goal is being adequately met through an existing service (i.e. self-regulation goal being met through a Behavior Intervention Plan (BIP) and Behavior Intervention Service (BIS)), then additional assessment for ERMHS may not be required.

However, if an assessment was not completed in order to develop the current goal, the student is not making progress, and/or an initial referral for ERMHS has been made, then an assessment must be completed before adding an ERMHS service.

Q15. Who can conduct an ERMHS assessment?

A15. According to federal regulations, ERMHS assessments must be performed by "trained and knowledgeable personnel" capable of "obtaining, integrating, and interpreting information about child behavior and conditions

relating to learning”. Assessments must identify all needs “whether or not commonly linked to the disability category in which the child has been classified” (34 C.F.R. § 300.304).

Under AB 114 (2011), several sections of Chapter 26.5 of the California Government Code were amended or repealed including those allowing qualified mental health professionals other than school psychologists to conduct mental health assessments of students with disabilities for purposes of providing students with a free appropriate public education. California Education Code 56320(a)(3) further states that: “Before any action is taken with respect to the initial placement of an individual with exceptional needs in special education instruction, an individual assessment of the pupil’s educational needs shall be conducted, by qualified persons, in accordance with requirements including, but not limited to, all of the following... (3) Are administered by trained and knowledgeable personnel and are administered in accordance with any instructions provided by the producer of the assessments, except that individually administered tests of intellectual or emotional functioning shall be administered by a credentialed school psychologist.”

Therefore, ERMHS assessments must be completed by a school psychologist due to Cal Ed code guidance related to administering tests of emotional functioning as well as expertise and experience in assessment, mental health, areas of disability and impact on learning.

Q16. Does the ERMHS assessment need to be a separate, stand-alone assessment?

A16. No. Although an ERMHS assessment can stand alone if the referral occurs outside of the initial, triennial or other psycho-educational assessment process, the required components of an ERMHS assessment may also be included within an initial, triennial or other psychoeducational evaluation to assess additional areas of suspected disability. If the ERMHS assessment will be included within an initial, triennial or supplemental assessment, ensure that the social-emotional box is checked on the assessment plan and all reasons for referral, including ERMHS assessment, are included in the corresponding Prior Written Notice (PWN). Also specifically list “ERMHS” under “Other” to indicate that the assessment goes beyond typical social-emotional assessment even when not completed as a stand-alone assessment.

Q17. How should the Assessment Plan (AP) be written for an ERMHS assessment?

A17. If completing a stand-alone ERMHS assessment, select “Other” as the assessment type and manually enter “Educationally Related Mental Health Services Assessment”. Complete the Prior Written Notice (PWN) portion to reflect the reason for the referral, options considered and description of the evaluation procedures used in deciding to propose the assessment (what data informed this referral?). Then, check the Social Emotional/Behavior box and enter the examiner title (see below).

If completing as part of an initial, triennial or supplementary assessment, ensure that the Social-Emotional/Behavior box is checked, the examiner title is included, and all reasons for referral/assessment are included in the corresponding PWN. To ensure the parent is fully informed regarding all areas of assessment, the team may select “Other” in addition to the assessment type and manually enter “Educationally Related Mental Health Services Assessment”.

Q18. I discovered ERMHS-related concerns while completing an initial or triennial assessment. Do I need to send home another assessment plan and initiate a separate 60-day timeline to assess for ERMHS?

A18. If the social-emotional box was checked on the original Assessment Plan (AP), you may proceed with assessing social-emotional needs and make a subsequent recommendation for ERMHS services, as long as all components of an ERMHS assessment are present. As a best practice recommendation and to ensure full parental consent, you may send home an amended or new PWN/AP with the “Other” and “Educationally Related Mental Health Services Assessment” boxes completed under Assessment Type. Add any updated information to the PWN section and request parent initial or signature to acknowledge.

If the social-emotional box was not checked on the original AP, the preferred option would be to send home an amended AP with an updated PWN and social-emotional box checked for parent signature and complete within your existing timeline. If there is not enough time remaining in your existing timeline to comprehensively complete the social-emotional/ ERMHS portion of your assessment, you may send a separate AP which subsequently initiates a new 60-day timeline for the additional assessment. It is strongly recommended that the amended or new AP be sent immediately upon identifying an additional area of social-emotional need in order to begin ERMHS assessment as soon as possible. It is not recommended that teams wait until the original 60-day timeline is complete and the IEP is held to recommend additional assessment, as doing so may unnecessarily delay the assessment and subsequently delay access to ERMHS.

Q19. What should be included in an ERMHS assessment?

A19. Assessments must use a “variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the child” (34 C.F.R. §300.304(b)(1)). More specifically, a comprehensive ERMHS assessment must include but should not be limited to:

- • Relevant background information
- • Relevant health and educational history, including history of interventions and response
- • Review of previous psycho-educational assessment results
- • Student, teacher and parent/guardian interview
- • Student observation and data collection
- • Broadband assessments (i.e. Behavioral Assessment System for Children (BASC), Child Behavior Checklist, Clinical Assessment of Behavior (Bracken), Reynolds Adolescent Psychopathology Scale (APS))
- • Narrowband assessments in areas of suspected or identified need (i.e. Children’s Depression Inventory (CDI), Reynolds Depression Scale (RCDS), Revised Children’s Manifest Anxiety Scale (RCMAS), Reynolds Adolescent Depression Scale (RADS)).

When completing interviews and rating scales, it is recommended that information be gathered from multiple parties including the student, parent(s)/guardian(s), teacher(s), and other staff with knowledge of the student. Obtaining information from multiple sources provides a comprehensive sample of experiences, observations and interactions within both academic and social contexts. As stated above, information gathered directly from the student via interview and/or rating scale is incredibly valuable and should be completed to the extent possible as appropriate based on the student’s age and developmental level.

Observations across multiple days in various settings are also imperative to rule out responses or behaviors specifically related to non-preferred tasks, subjects, transitions, instructors, or peer groups. Finally, data collected

over time is essential to understanding whether social-emotional challenges are ongoing or short-term and situationally related, both of which should be supported, albeit differently.

For additional guidance on assessment and report writing, please refer to the EDCOE Charter SELPA ERMHS Report Template found in the SEIS Document Library and/or the ERMHS guidelines document on the EDCOE Charter SELPA website.

Q20. Do I have to rule out Emotional Disturbance (ED) when assessing for ERMHS?

A20. Ruling out ED is not required in all cases; however, it is recommended that the IEP team discuss whether assessment for ED is warranted based on the referral and mental health concerns. It is also recommended that discussion regarding consideration of additional areas of eligibility (such as ED) be included in IEP notes. If the IEP team is unsure whether assessment for ED is warranted, then it may be determined that ED is an area of suspected disability and therefore should be assessed. The assessment for both ED eligibility and ERMHS services can occur concurrently and be presented in the same report. This assessment and report would be considered a “psycho-educational and ERMHS assessment” and must be completed by a credentialed school psychologist. Additional psychoeducational assessment for ED may not be required in the following circumstances:

- •If the student has recently been assessed for ED and found ineligible,
- •If the referral for ERMHS is clearly related to the student’s current disability and ED is not suspected, and/or
- •The team can provide data as to why assessment for ED is inappropriate.

Regardless of final decisions regarding assessment, it is recommended that the IEP team discussion regarding additional areas of disability be clearly documented in IEP notes and/or on the Assessment Plan (AP)/Prior Written Notice (PWN).

## **REPORT AND RECOMMENDATIONS**

Q21. What is included in a defensible ERMHS report? Does the EDCOE Charter SELPA offer an ERMHS report template?

A22. In order to write a legally defensible and meaningful ERMHS report, ensure that all elements of a comprehensive ERMHS assessment are included (listed above in the Assessment section of this document) and presented in an accessible and student-centered manner. To support the development of defensible ERMHS assessments and reports, the EDCOE Charter SELPA has created a template located in the SEIS Document Library. Recommendations found within the template align with federal and state law which requires that language used in written reports be accessible to all IEP members, particularly parents and guardians, in order to support meaningful participation in the IEP process. With that in mind, the template is not intended to be used as a sample report but rather as a tool to assist in ensuring all key components are included.

The ERMHS report template, as well as other templates located in the SEIS Document Library, are intended to provide school psychologists with a legally defensible base from which to build a reader-friendly, student-centered assessment report. For this reason, bulleted guidelines are included in red in lieu of sample narrative language. These are included to prompt the school psychologist to add the data and/or narrative and should be removed prior to presenting the report to the team. Additionally, not all sections of the report are required; therefore, removal of sections may be necessary based on the reason for referral.

Q22. Under what circumstances are ERMHS recommended?

A22. It is the responsibility of the assessor to make an informed recommendation regarding the need for ERMHS services for IEP team consideration based on assessment results. ERMHS services may be recommended if assessment results indicate social-emotional/mental health needs which impede the student's ability to access his or her educational program to a degree requiring educationally related mental health services. Goals and services are then recommended based on areas of identified need. ERMHS assessment results may also indicate need for Functional Behavior Assessment (FBA) and a Behavior Intervention Plan (BIP), regardless of ERMHS eligibility.

As a reminder, per AB 114, eligibility for related services such as ERMHS is not contingent on a particular disabling condition and should be determined based on an assessment that reveals an individualized need for the service.

Q23. What factors should be considered when making a recommendation for Educationally Related Mental Health Services?

A23. It is recommended that answers to the following are clearly articulated within the summary and recommendations section of the ERMHS report and supported with data from the assessment:

- • What are the student's identified strengths?
- • How can these strengths be reinforced and utilized to support areas of need?
- • What are the student's identified areas of social-emotional need?
- • In which settings were social-emotional needs present and how did they manifest?
- • How do social-emotional needs impact access to the educational environment and/or create barriers to accessing FAPE?
- • What social-emotional skill(s) does the student require in order to access FAPE?
- • Can needs be supported through the general program, supplementary supports, accommodations for IEP services?

o If the answer is no and ERMHS services are required to support and/or obtain social emotional skills related to areas of need, qualification for ERMHS services are recommended.

- • Based on assessment results, are ERMHS services recommended?
- o If yes, in which areas of need are goals recommended?
- o If yes, what type of services are recommended?
- o It is important to have a recommendation of frequency and duration prepared for IEP team consideration based on assessment results; however frequency and duration will be determined by the student's level of need, rate of learning and number of goals will be the final determination of the IEP team.
- • Does the student require accommodations or supplementary behavioral planning in order to access FAPE?

Q24. Can the ERMHS assessment recommend general education counseling instead of a related service as part of the IEP?

A24. If assessment results determine that a student requires counseling in order to access FAPE, it is recommended that those services be offered as a function of the IEP and not solely as an intervention through the general education program.

## GOAL WRITING AND PROGRESS MONITORING

Q25. Can I write the goals if I am not the one providing the ERMHS service?

A25. Either the individual who has completed an assessment or the provider may write goals, however, it is recommended that both professionals collaborate to ensure that meaningful and attainable goals are developed, implemented and monitored by persons responsible as determined by the IEP team and indicated on the goal page. It is recommended that goals be written at the time which ERMHS services are recommended and based on identified areas of need.

Q26. A student is eligible for ERMHS, but already has a BIP and behavioral goal. Can the ERMHS provider focus on the existing goal only?

A26. Although an ERMHS provider may support a behavioral goal, it is not recommended that ERMHS services solely support a pre-existing behavioral goal. Rather, it is best practice to include a goal which focuses on the social-emotional skill required to both support student behavior and allow access to FAPE.

Q27. What are some tips for writing ERMHS goals?

A27. ERMHS goals must be written to address area(s) of need as indicated by assessment results and included in present levels of performance. Although use of benchmarks or short-term objectives is not required, it is recommended that they be used to address the strategy or process of implementation.

Tip: Be specific and action oriented when describing how a student will utilize a new skill. For example, consider the behavioral statement “Joe will stop calling out”. This statement describes only the absence of behavior and therefore is not action-oriented. What skill will Joe learn and utilize in order to stop calling out? What is Joe expected to do instead? This statement may be replaced with:

“Joe will utilize a learned strategy (i.e. raise his hand, stand, or write on a post-it) instead of calling out”.

Similarly, consider replacing: “Sue will stop leaving class when frustrated” with “When frustrated, Sue will utilize predetermined supports (e.g. help cards, break cards, timer and reinforcement system) in order to request help or take a break instead of leaving class”.

Due to the fluid and occasionally elusive nature of social-emotional skills, ERMHS goals can feel challenging to write in a specific, strategic and measurable manner. Although the previous examples are not complete goals, they are intended to illustrate how one may reformat the conditions and observable behavior components of a goal with an increasingly specific, action-oriented and skill based approach.

Below are additional tips and questions to consider in ERMHS goal development:

- • How does the student’s mental health needs and/or behavior manifest educationally?
- • How is the student’s learning and school performance impacted?
- • How are the student’s relationships and social involvement impacted?
- • What is the skill deficit?
- • What does the student need to learn to utilize the new skill and subsequent positive behavior?

Write specific and data-based baselines, which can be taken directly from present levels of performance. If ERMHS goals are based directly on assessment data and well-written present levels, they will be measurable and attainable.

Q28. Is it required that parents receive progress monitoring updates on ERMHS goals?

A28. Progress on ERMHS goals is monitored by the provider and/or case manager. Progress reports must be provided at intervals consistent with other non-ERMHS goals. Goals are reviewed by the provider at annual IEPs and updated accordingly. Reminder: Ensure goals are measurable and that valid and consistent measures are used when progress monitoring.

Q29. What if the student is not meeting his or her goals?

A29. If no or limited progress is made, do not continue an ineffective goal or intervention. Instead, adjust goals and/or services as needed to increase likelihood of goal attainment and allow educational benefit. Services may be adjusted based on goal progress yet assessment is required to discontinue services.

## SERVICES

Q30. Which services are considered Educationally Related Mental Health Services?

A30. The California Special Education Management Information System (CASEMIS) code service descriptions are used to delineate the specific type of service being provided to a student (500 codes). These include Individual Counseling (510), Counseling and Guidance (515), Parent Counseling (520), Social Work Services (525) and Psychological Services (530).

Although Behavior Intervention Services (BIS, 535) is not considered an ERMHS service in isolation, BIS may be considered an ERMHS related service only if paired with another ERMHS service (i.e. BIS and counseling and guidance). A comprehensive description of each service is listed below:

**Individual Counseling (510) refers to one-to-one counseling, provided by a qualified individual pursuant to an IEP:**

1. Counseling may focus on such student aspects as education, career, personal, or be with parents or staff members on learning problems or guidance programs for students.

2. These services are expected to supplement the regular guidance and counseling program. Counseling and Guidance (515) refers to counseling in a group setting, provided by a qualified individual pursuant to an IEP:

1. Group counseling is typically social skills development, but may focus on such student aspects as education, career, personal, or be with parents or staff members on learning problems or guidance programs for students.

2. IEP required group counseling is expected to supplement the regular guidance and counseling program.

3. Guidance services include interpersonal, intrapersonal, or family interventions, performed in an individual or group setting by a qualified individual pursuant to an IEP.

4. Specific programs include social skills development, self-esteem building, parent training, and assistance to special education students supervised by staff credentialed to serve special education students.

**These services are expected to supplement the regular guidance and counseling program. Parent Counseling and Training (520) may include:**

- Assisting parents in understanding their child’s special needs.
- Providing parents with information about child development.
- IEP required parent counseling is intended to supplement the regular guidance and counseling program.
- Social Work Services (525), provided by a qualified individual pursuant to an IEP, include, but are not limited to:
  - Preparing a social or developmental history of a child with a disability.
  - Group and individual counseling with the child and family.
  - Working with those problems in a child's living situation (home, school, and community) that affect the child's adjustment in school.
  - Mobilizing school and community resources to enable the child to learn as effectively as possible in his or her educational program. Social work services are expected to supplement the regular guidance and counseling program.

**Psychological services (530) may include:**

- Counseling provided to an individual with exceptional needs by a credentialed or licensed psychologist or other qualified personnel.
- Consultative services to parents, pupils, teachers, and other school personnel.
- Planning and implementing a program of psychological counseling for individuals with exceptional needs and parents.
- Assisting in developing positive behavioral intervention strategies. This term does not include assessment services or IEP development.

Q31. Which credentials are required to provide ERMHS?

A31. According to the California Association of School Psychologists (CASP): “Although school psychologists employed within their LEA are the preferable choice to provide counseling as a related service, there are other professionals who may be able to provide these services”.

Services may be provided by a qualified intern under the direct supervision of an individual who holds the appropriate credential authorization (5 CCR §3051 *et. seq.*).

The authorization of a school psychologist intern or school counselor intern to provide ERMHS services is not explicitly stated in educational code and therefore is not asterisked in the chart above. It is recommended that LEAs review the authorizations included within the California Commission on Teacher Credentialing (CTC) internship credential to ensure that the holder is approved to provide counseling services under the direct supervision of a similarly credentialed staff member. It is also recommended that LEAs consider the intern’s program requirements, course of study and level of training prior to initiating services with students who receive ERMHS. As a reminder, CTC requires that school psychologist interns are supervised by a credentialed school psychologist with the equivalent of at least two (2) years of full-time experience as a school psychologist. For more information on school psychologist intern or school counselor intern credentials, please refer to the Pupil Personnel Services

School Counseling, School Psychology, School Social Work, and Child Welfare and Attendance Program Standards found on the CTC website at: [www.ctc.ca.gov](http://www.ctc.ca.gov).

In the event that a school is contracting for assessment and services, it is important to note that a school does not have to use the same person or agency to both assess and provide services.

Q32. How are the type and frequency of services determined?

A32. The type and frequency of services are determined by calculating the frequency and duration of services required to allow the student to make meaningful progress on goals in the Least Restrictive Environment (LRE). In order to explore this further, CASP provided the following guidance in an ERMHS position paper:

“The needs of students in any arena are multi-faceted and often can be viewed along a continuum of intensity of need. This is true for the social emotional needs in particular. Not all students who have been identified as needing educationally related social emotional counseling support will require the same modality, frequency or duration of service.

Research has highlighted that “outcomes for children and adolescents with social emotional challenges can be greatly enhanced through interventions that (a) are sustained, flexible, positive, collaborative, culturally appropriate, and regularly evaluated: (b) are built on the strengths of the students and their families: and (c) address academic as well as social behavioral deficits (Bullock and Gable, 2006). As such, it is essential that the IEP team identify the specific needs, develop appropriate goals, and specify the services that may meet those goals. (<http://www.casonline.org/pdfs/position-papers/ERMHS-final.pdf>)

Q33. What if a student refuses to receive ERMHS?

A33. Student refusal does not absolve the LEA of the obligation to offer ERMHS services if needed for the student to access FAPE. If a student is refusing to access services, do not discontinue services based solely on student refusal to access. Instead, consider the following:

- • Discuss the refusal with the student and work to find a mutually agreeable resolution.
- • Increase rapport building opportunities to build trust and relationship prior to engaging in full counseling sessions.
- • Change the location, environment or manner in which services are provided.
- • Consider whether concurrent behavioral intervention is required.
- • Consider change in service provider if needed.
- • Convene an IEP meeting to discuss refusal, current areas of social-emotional needs and document next steps to allow access to services.

Q34. What if a parent/guardian refuses to consent to ERMHS?

A34. If a parent refuses to consent to ERMHS, the following steps should be considered in order to obtain parental consent:

- • Explore parent concerns and options for alleviating those concerns through considerations such as further explanation of ERMHS as it relates to the educational setting or increased collaboration with parents.

- • Review assessment results and areas of need to illustrate why ERMHS are recommended for the student to access his/her educational program.
- • Request a SELPA facilitated IEP to support resolution.
- • Contact your SELPA program specialist for further collaboration and guidance.
- • If the parent continues to refuse ERMHS and data indicates that refusal to consent will result in an inability to provide FAPE, Due Process procedures afforded to both schools and parents may be initiated. Please contact your administrator, SELPA program specialist and/or legal counsel for additional consultation if considering this option.

If a parent/guardian refuses to consent to ERMHS due to the student's participation in private counseling, it should be noted that participation in private therapy or counseling does not absolve a school of their responsibility to offer ERMHS assessment and services, if warranted to allow access to FAPE. Therefore, it is recommended that the IEP team maintain the offer of ERMHS and that the steps above be attempted in order to meet resolution.

Q35. Can ERMHS be provided outside of school hours?

A35. To allow students to access education and practice ERMHS goals in the educational setting, it is suggested that the ERMHS services be provided at school during the course of the school day. Although schools are not mandated to provide services outside of the school day, if an IEP Team determines that ERMHS services are required outside of the school day, the rationale should be clearly documented in the IEP. Additionally, teams must consider the following:

- Transportation: How will the student get to and from services? How will transportation costs be covered?
- Missed services: If a student misses a service due to lack of transportation or refusal, how will that missed session be documented and made-up?
- Documentation: If a school chooses to offer services outside of the school day, documentation should clearly illustrate how it was determined that services provided outside of the school day are necessary to allow the student to progress on his or her goals.

Q36. Can a student receive ERMHS if they're already receiving private counseling outside of school?

A36. Yes. Private therapy and educationally related mental health services serve different purposes and therefore can be provided concurrently. The focus of ERMHS services should be based solely on supporting the student to gain the skills required to access their educational environment. With that said, it may be beneficial for private and school based service providers to have an exchange of information signed to increase collaboration, alignment of interventions and supports, and subsequent generalization of new skills. As a reminder, a student's participation in private therapy or counseling does not absolve a school of their responsibility to offer ERMHS assessment and services if warranted to allow access to FAPE.

Q37. What if a student with an IEP is hospitalized to support mental health needs?

A37. If a student with an IEP is hospitalized due to mental health concerns including self-harm and suicidal ideation, follow the steps below:

1. Determine if reports or discharge paperwork are available from the hospitalization. If so, request access from the parent (or medical professional if exchange of information has been signed) in order to review reports.
2. Request that an exchange of information be signed between appropriate school and hospital personnel.
3. If the student does not currently receive ERMHS, offer an assessment plan for ERMHS
4. Determine whether the hospitalization indicates new area(s) of suspected disability that have not been assessed, specifically Emotional Disturbance. Propose an assessment plan if appropriate.
5. If the student currently receives ERMHS, consider whether additional assessment is needed and/or if services should be adjusted.
6. Convene an IEP to consider the following:
7. Update present levels, as appropriate.
8. Assist staff in better understanding the student's current levels of need
9. Determine if updated goals are required
10. Discuss whether adjustments are needed to current supports and services.
11. Discuss whether a Functional Behavior Assessment (FBA) and/or Behavior Intervention Plan (BIP) revision are needed. If there is currently no BIP in place, discuss whether an FBA is warranted to further assess behavior and guide development of a BIP.
12. Support in planning for the transition back to school and whether additional supports, staff communication and/or a safety plan for the student and staff may be required.

#### **DISCONTINUING SERVICES**

Q38. What if a student is chronically absent and is therefore not benefitting from ERMHS? Can services be discontinued under these circumstances?

A38. It is not recommended that ERMHS be discontinued due to chronic absenteeism. Alternatively, chronic absenteeism may indicate increased need for assessment and/or services, including ERMHS. Failure to address frequent absences of students who qualify for special education may result in a denial of FAPE. Therefore, if a student with an IEP is chronically absent or is suspected that absences are impacting the student's access to FAPE, it is recommended that an IEP team meeting be convened as soon as possible to accomplish the following:

- Collaborate with the parent(s)/guardian(s) to explore potential cause(s) of absences.
- Discuss whether absences are related to the area of disability.
- E.g. school avoidance related to anxiety, depression, academic challenges, etc.

It should be noted that for a student with an IEP whose truancy adversely affects learning, the duty to address the absences in the IEP may exist regardless of whether they stem from a disability. The IDEA regulations at 34 CFR 300.324 (a)(2)(i) require an LEA, in the case of a child whose behavior impedes the child's learning or that of others, to consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior.

- Review the current offer of FAPE and discuss whether additional services may be required to support attendance and subsequent access to education, including but not limited to Specialized Academic Instruction, Behavior Intervention Services, Transportation or ERMHS.
- If a new area of eligibility and/or need is suspected, it is recommended that an assessment plan be generated and an assessment initiated in order to evaluate the suspected area of need and determine whether additional area(s) of eligibility, goals, accommodations and services are appropriate.
- If assessment is required, discuss whether interim services may be provided to encourage school attendance while evaluations are completed.
- Discuss and consider whether support is required in the home setting in order for the student to transition to the school setting. If needed to access education, services may be provided in the home.
- Note: Frequent absences by students without an IEP may trigger child find responsibilities related to evaluation for special education services. For additional information on chronic absenteeism, please refer to the following resources:
- Every Student, Every Day: A Community Toolkit to Address and Eliminate Chronic Absenteeism (October 2015):

<https://www2.ed.gov/about/inits/ed/chronicabsenteeism/toolkit.pdf>

Attendance Works: <http://www.attendanceworks.org/resources/>

National Center on Educational Outcomes: Students with Disabilities & Chronic Absenteeism (April 2018).  
<https://nceo.umn.edu/docs/OnlinePubs/NCEOBrief15.pdf>

Q39. Is an assessment required to exit a student from ERMHS services/discontinue services?

A39. Although not clearly defined by statute, as with any other related service it is recommended that assessment be completed prior to discontinuing ERMHS. A team may consider requesting assessment to discontinue ERMHS when a student has met his or her ERMHS goals, and data/observations of behavior indicate that social-emotional need is no longer impacting access to education. Assessment may include:

- Review of previous assessment results
- Statement of reason for referral for discontinuation of services
- Updated rating scales in area of previous need
- Interview and observation
- Behavioral data
- Recommendation and summary statement
- Recommendation for ongoing accommodations, as needed, to support maintenance

Upon completion of the assessment, an IEP meeting must be convened. The assessor and service provider must be present at the IEP meeting to discuss the recommendation to discontinue services. Discussion and rationale for discontinuing ERMHS should also be clearly documented within the IEP notes. Following the meeting but prior to the termination of services, a parent must be provided with a Prior Written Notice (PWN) reviewing the rationale for discontinuing ERMHS.

For example, in the event that an IEP team agrees at an annual IEP that the student has met his or her ERMHS goals and services no longer appear to be required, an Assessment Plan (AP) must be provided to the

parent/guardian for an ERMHS assessment. Within the PWN portion of the AP, it should be indicated that the purpose of the assessment is to consider whether ERMHS continue to be required based on goal progress, data collection and observations of student behavior. Then, another IEP must be held within 60 days of signature to formally discontinue ERMHS, if supported by assessment results.

Q40. What if the parent/guardian won't agree to discontinue services?

A40. The last signed and implemented offer of FAPE, otherwise known as the "stay put" offer of services, would continue to apply until an agreement is reached. In order to reach an agreement, teams may attempt the following:

- Further explore parent/guardian concerns and discuss options for alleviating concerns through accommodations or through supports provided in the general program.
- Review assessment results and goal attainment to illustrate why ERMHS are no longer required for the student to access his/her educational program.
- If parent/guardian concern(s) exist in an area not been assessed nor addressed, consider completing an assessment in the requested area prior to making a final determination.
- Request a SELPA facilitated IEP meeting to support in resolution.
- Contact your SELPA program specialist for further collaboration and guidance.
- Due Process procedures afforded to schools and parents may be initiated if the IEP team is unable to meet resolution through all other means. Please contact your administrator, SELPA program specialist and/or legal counsel for additional consultation if considering this option.

## **CLOSING**

The information provided in this FAQ document is based on federal and state law, current case law and best practice recommendations. Due to the wide-ranging and individualized needs of students, specific case complexities often arise. Therefore, if your question was not answered within this document please feel free contact your assigned SELPA Program Specialist for additional consultation and support.

## Gifted and Talented Program Assessment

October is usually when we begin the GATE identification phase. In collaboration with teachers and department chairs, academic deans should start compiling lists of students to be tested in grades 3, 6, and 9. Students in other grades may be tested as well, however, it is not required. In order to ensure equity, we also want to include a randomly selected number 5% of the general student population in those grades in addition to the students identified by your academic team.

Please keep in mind the different types of intelligences when determining which students are going to be assessed:

- **Intellectual Ability** – A student demonstrates exceptional intellectual development.
- **Creative Ability** – A student is able to produce unique solutions to problems, think critically, and perceive unusual relationships among aspects in their environment.
- **Specific Academic Ability** – A student functions at a high level in a specific area.
- **Leadership Ability** – A student displays behaviors characteristic of strong leadership.
- **High Academic Achievement** – A student consistently produces advanced work products, carries on intellectual discourse, and/or attain exceptionally high scores on achievement tests.
- **Visual and Performing Arts Talent** – A student creates, performs, produces, or responds at exceptionally high levels in the arts.

### **Planning for GATE Testing Implementation:**

- We will test the students using the Otis Lennon School Ability Test (OLSAT).
- Please access the GATE flyer, parent permission slip, and included spreadsheet for ordering test access. These documents are on the Student Services Unit website.
- School teams will be selecting students for testing, though a parent can make a request by filling out the request form
- We will be testing 3rd graders at the elementary level unless a parent makes a request or the team decides that additional testing is necessary.
- The OLSAT8 exam is a computer-based exam so no need to schedule testing with other school sites. If a student misses their exam date, the school can reschedule for that individual student.
- Once the reports are run, we will refer the student to the next level for them to be evaluated by a Magnolia school psychologists on the Raven's Assessment. The school psychologists will proctor the Raven's assessment with the support of the deans. The students will be classified as either gifted or highly gifted based on their cut off scores.
- Each Identified student will be provided a psych report for the parents explaining the student's specific areas of strength that can be placed in their cumulative records in an orange folder.

## Non Public Agency

### Requirements/ Expectations and Reasons for Dismissal

*Please adhere to the information within this manual and additional direction provided by the Director of Special Education and Support Services to avoid a violation of American Disabilities Act, Special Education and/or CDE Compliance Laws.*

While relationships are important, they are only as healthy as the relationship itself. Therefore, we have extracted the basic requirements for a Non-Public Agency in the state of California. When I ask for service agreements, personnel certification documents etc. It is because if we are not using the appropriate personnel, we are out of compliance. Magnolia is responsible for ensuring any agency servicing our scholars is in compliance.

The following checklist and information are based on the CDE. **(California Education Code Section 56366)**

### Principal's NPA Compliance Checklist

\_\_\_\_\_ **Ensure that your consultants have the appropriate credentials for the services being provided. A Personnel Certification Sheet for all service providers should be provided to Magnolia Public schools and updated as consultants are added or deleted.**

\_\_\_\_\_ **Ensure that your consultants sign in and out daily and the sign in sheet is initialed by a MPS Coord**

\_\_\_\_\_ **Ensure that the providers are only billing for working with the scholars and an additional 30 minutes to 1 hour per week of notes**

\_\_\_\_\_ **Ensure that your school receives a case file with all assessments completed at each IEP meeting**

\_\_\_\_\_ **Ensure that your school receives service tracking logs that include the scholars' goals, activities and the progress toward the goal achievement**

\_\_\_\_\_ **Assist the NPA in developing Individual Service Agreements for each scholar as required by the CDE. These agreements should be on file with both the school and the agency for auditing purposes. The template is available on the Special Education and Support Services Website.**

### General Information

**These requirements are taken directly from the CDE website with regard to Non-Public agencies and their mandated responsibilities.**

1. The NPA shall meet those standards as prescribed in federal and state statutes and regulations pertaining to special education. An NPA shall also meet standards as prescribed by the State Superintendent of Public Instruction (SSPI) and the SBE.
2. It is the intent of the Legislature that the role of the NPA shall be maintained and continued to serve as an alternative special education service available to districts, special education local plan areas (SELPA's), county offices of education, and parent(s)/guardian(s).

3. An NPA shall not claim and is not entitled to receive reimbursement for attendance unless:
  1. It is under contract with a public education agency (i.e., school district, SELPA, or county office of education) pursuant to the provision of *EC* Section 56366(c); and
  2. The site location where the scholar is receiving special education or designated instruction and services has been certified by the California Department of Education (CDE).
4. Students supported by federal and state education funds shall have been previously identified as eligible to receive specially designed education and related services by the public education agency where the pupil resides (a school district or county office of education) and where the pupil has a current IEP. The IEP is a plan developed between the local public school district and the parent(s)/guardian(s), along with a participant from the NPA to decide the kinds of related services each scholar needs.
5. An NPA that is located outside of California is eligible for certification pursuant to *EC* Section 56366.1, only if a pupil is currently enrolled in a program operated by that agency pursuant to the recommendation of an IEP team in California and that pupil's parent(s) or guardian(s) reside in California.
6. "Nonsectarian" means a nonpublic school or agency that is not owned, operated, controlled by, or formally affiliated with a religious group or sect, whatever might be the actual character of the education program or the primary purpose of the facility.
7. Designated instruction and services (DIS) or related services, as specified in the IEP, shall be available when services are necessary for the pupil to benefit educationally from his or her instructional program. DIS shall be provided only by qualified personnel pursuant to the *EC* 56366.1(n) and Title 5 *CCR* 3051.

### **Certification Standards (California Education Code Section 56366 [d])**

No master contract for special education and related services provided by an NPA shall be authorized under this part unless an agency has been certified as meeting those standards relating to the required and specified related services, and facilities for individuals with exceptional needs. The certification shall result in the agency receiving approval to provide related services to special needs scholars enrolled in California's public school system.

### **Master Contract (California Education Code Section 56366)**

There shall be signed, current master contracts between the contracting local educational agency (LEA) and the NPA. The LEA and the NPA shall enter into a written agreement (master contract) to specify the general administrative and financial agreements in providing related services to special education scholars in accordance with the pupil's IEP.

### **Individual Services Agreement (California Education Code Section 56366 [a][2A])**

There shall be a signed individual services agreement (ISA) for each scholar served by the NPA. The contracting LEA and the NPA shall have an ISA in place for each scholar receiving related services. The ISA is similar to a prescription in that it specifies the type or duration of services to be provided by the NPA, as specified by the scholar's IEP.

### **Staff Qualifications/Requirements (20 United States Code Section 7807 [23], California Education Code Section 56366.1 [n][1]; 5 California Code of Regulations Section 3051)**

“Qualified” means: (a) that a person has met requirements for federal and state certification, licensing, registration, or other comparable requirements that apply to the area in which he or she is providing related services, or in the absence of such requirements, the state education agency approved or recognized requirements; and (b) that he or she adheres to the standards of professional practice established in federal and state law or regulation, including the standards contained in the *California Business and Professions Code*.

Notwithstanding any other provision of law, only those NPAs that provide related services utilizing staff members who hold a certificate, permit, or other document equivalent to that which staff members in a public school are required to hold in the service rendered are eligible to receive certification. For clarification, please refer to the [California Commission on Teacher Credentialing \(CTC\) Web site](#)  or for other licensure information, refer to the [California Department of Consumer Affairs Web site](#) .

Only those NPAs located outside California that employ staff members who hold a current valid credential or license to render special education and related services, as required by that state, shall be eligible to be certified.

### **Staff Fingerprint Clearance Requirements (California Education Code Section 44237)**

All persons who have contact with pupils must have completed a Department of Justice (DOJ) criminal history clearance before they can be employed by the NPA. As required by *EC 44237*, the DOJ criminal history clearance includes both state and federal criminal record checks. For the most current information on fees and fingerprint submissions, please see the [DOJ Web site](#) .

### **Tuberculosis Requirements (California Health and Safety Code sections 121525-121555)**

Agency staff must show proof of the absence of Tuberculosis (TB). TB examination clearance forms are to be retained at the agency’s site. TB clearances do not need to be included in the certification application unless they are specifically requested. TB clearances are valid for four years. Skin tests must be the Mantoux 5TU Co.1 cc P.P.D. injected intradermally; other skin tests are not acceptable. Only those persons with documented, positive skin tests may submit certificates to prove absence of active TB (this may or may not include a chest x-ray).

### **Certification at All Sites (California Education Code Section 56366.1[c])**

If an NPA operates a program at more than one site, each site shall be certified.

### **Causes for Suspension or Revocation of Certification (California Education Code Section 56366.4)**

The CDE may suspend or revoke the certification of an NPA for any of the following reasons:

1. Violation of any applicable state or federal rule or regulation, or aiding, abetting, or permitting the violation of any applicable state or federal rule or regulation.
2. Falsification or intentional misrepresentation of any element of the application, pupil records, or program presented for certification purposes.

3. Conduct in the operation or maintenance of the NPA that is harmful to the health, welfare, or safety of an individual with exceptional needs.
4. Failure to comply with any provision in the contract with the local education entity.
5. Failure to notify the CDE in writing of any of the following within 45 days of the occurrence: (a) changes in credentialed, licensed, or registered staff who render special education and related services; ownership, management, or control of the NPA; (b) major modification or relocation of facilities; and (c) significant modification of the NPA program.
6. Failure to implement recommendations and compliance requirements following an on-site review of the agency.
7. Failure to provide appropriate services, supplies, equipment, or facilities for a pupil as required in the pupil's IEP.
8. Failure to notify the CDE within 10 days of the revocation or suspension of any license or permit including, but not limited to, any residential care license, business license, or other required license or permit.
9. Failure to implement a pupil's IEP.
10. Failure to notify the CDE in writing within 10 days of the death of a pupil or any other individual of unnatural causes within the agency, including the circumstances surrounding the death and any appropriate preventative measures being taken or recommended.

The CDE is required to notify contracting LEAs and the SELPA in which the NPA is located of the determination to suspend or revoke state certification.

## Compliance Monitoring of all Special Education Files, Psych, DIS and Academic Reports and Additional NPA Assurances

### Master Contract (California Education Code Section 56366)

There shall be signed, current master contracts between the contracting local educational agency (LEA) and the NPA. The LEA and the NPA shall enter into a written agreement (master contract) to specify the general administrative and financial agreements in providing related services to special education students in accordance with the pupil's IEP.

### Individual Services Agreement (California Education Code Section 56366 [a][2A])

There shall be a signed individual services agreement (ISA) for *each student* served by the NPA. The contracting LEA and the NPA shall have an ISA in place for each student receiving related services. The ISA is similar to a prescription in that it specifies the type or duration of services to be provided by the NPA, as specified by the student's IEP.

### Staff Qualifications/Requirements (20 United States Code Section 7807 [23], California Education Code Section 56366.1 [n][1]; 5 California Code of Regulations Section 3051)

“Qualified” means: (a) that a person has met requirements for federal and state certification, licensing, registration, or other comparable requirements that apply to the area in which he or she is providing related services, or in the absence of such requirements, the state education agency approved or recognized requirements; and (b) that he or she adheres to the standards of professional practice established in federal and state law or regulation, including the standards contained in the California *Business and Professions Code*.

Notwithstanding any other provision of law, only those NPAs that provide related services utilizing staff members who hold a certificate, permit, or other document equivalent to that which staff members in a public school are required to hold in the service rendered are eligible to receive certification. For clarification, please refer to the [California Commission on Teacher Credentialing \(CTC\) Web site](#) or for other licensure information, refer to the [California Department of Consumer Affairs Web site](#) .

### Consultant and Staff Accountability

The Principals of MPS are requesting that all consultants of MPS sign in upon arrival and sign out upon departure in the main office of each campus or with the SPED coordinator as determined by each school site principal.

All services should be provided in either 30, 45, or 60 minute blocks as determined by the students' IEP and agreed upon by the SPED coordinator for each site. No service minutes should be reduced arbitrarily by the NPA consultants.

In addition to the requirements stated in the California Ed codes and MPS principals as outlined above, the Non Public Agency will adhere to the following to ensure Services are Rendered in an effort to support compliant status for the LEA. All reports will be *Legally Defensible*. An electronic copy will be submitted to the SPED coordinator

at least four (4) days prior to the IEP meetings. If changes are made to the report, a final, signed copy must be provided at the conclusion of the meeting.

I All Nurses Assessments will include the following:

- Developmental Milestones/ Developmental History
- Any health issues that may impact learning (I.e. head injuries, and trauma)
- Relevant medication information
- Vision and Hearing information (include numerical reading not simply “Pass or Fail” – i.e. 20/20 rt; 20/30 lft. Etc).
- Outside health reports summarized: private doctors, regional center
- Drug and Alcohol History
- Probation/ Juvenile Court or DCFS Involvement

II Psycho-Educational and Language and Speech Assessments will assess for ALL areas of suspected disability as required by IDEA and PL94142:

- A general battery evaluates the following: Since no single procedure is used as the sole criterion for determining an appropriate educational program, all evaluations must use a variety of assessment tools and strategies to obtain relevant, functional and developmental information. Pursuant to 20 U.S.C. Section 1414(b).
- Cognitive Functioning – Psychological processing skills in the areas of Auditory, Visual, Visual-Motor Integration, Attention, Processing Speed etc.
- A Wide range processing test of cognition (i.e. the CAS, WRML, or similar)
- All findings are cross validated with the TAPS, TVPS, VMI, Bender Gestalt, or an equivalent assessment.
- Social Emotional Functioning – A BASC, Achenbach, or equivalent if any “*low incidence*” eligibility is suspected the psych must complete a Vineland if I.D. is suspected. A GARS, CARS or equivalent if Autistic like behaviors are suspected. The CDI if anxiety or depression is elevated on the BASC etc.
- Primary Language Functioning must be taken into consideration when assessing for Speech Delays and Learning Disabilities.

The Following sections must be covered in a Psycho-Educational Assessment:

- Parent information and input
- Reason for Referral
- Health and Developmental History
- Family History
- Educational History
- Results of Previous Assessments
- Interviews – Student, Staff, Parent
- Observations – At least two settings
- Testing Observations
- Assessment Results/ Areas of Concern

o Eligibility/ Integrated Findings:

- Whether the student needs special education and DIS services
- The Basis for making the determination
- The relevant behavior noted during the observation and the role the behavior may play in the eligibility
- The relationship of the behavior to the impact of the student's academic and social functioning
- The educationally relevant health and development, and medical findings if any
- For pupils with a learning disability, whether there is such a discrepancy between ability and achievement that can not be corrected without special education and related services
- A determination concerning the effects of environmental, cultural, or economic disadvantage when appropriate; and
- The need for specialized services, materials, and equipment for pupils with low incidence disabilities

## English Learners and the Special Education Process

The English Learner (EL): An EL is a student whose native and/or dominant language is a language other than English and whose difficulties in speaking, reading, writing or understanding the English language may be sufficient to deny the individual the ability to meet the state's proficient level of achievement on state assessments, the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society. <https://www.cde.ca.gov/sp/se/ac/documents/ab2785guide.pdf>

When an EL struggles academically, it is critical that consistent language accommodations, instructional interventions, and strategies be implemented, closely monitored, documented, and analyzed. Response to Intervention (RtI) procedures should also be followed. If these measures are ineffective, the student may be referred for a special education evaluation. Delaying special education evaluations of ELs for a specified period of time based on their EL status is NOT permissible under the Individuals with Disabilities Education Act (IDEA) and Federal civil rights laws.

If an EL is referred, all rules and regulations of the IDEA and the policies, procedures, and timelines must be followed. Professionals with qualifications and/or expertise in second language acquisition (e.g., EL staff, special education staff) must be included in all meetings regarding an EL. All written communication and documentation, including notices of meetings, permissions, parent rights, surveys, Individualized Education Programs (IEPs), etc., must be provided in the parent's native language. Interpreters should be utilized as needed throughout the special education process in all meetings with the EL student and/or family.

### Environmental Language Survey, Interviews, and Observations

Children K-12 should have the Home Language Survey completed by their parent(s) as part of the registration process, which will provide information regarding language(s) spoken in the home. Additional surveys or questionnaires should include information on current primary language of communication, as well as a communication history.

Parent input is of vital importance in the completion of the survey. It is imperative to glean developmental information and current functional levels from the parent(s). For example, the IEP Team needs information about how the child performs in comparison to siblings or other children his age within the familial culture, the amount of time a child has attended school, the language of formal instruction in previous schools, and whether the child struggled in previous schools/settings. The LEA evaluator may select the instruments to be completed.

For Magnolia Public Schools, we use The English Language Proficiency Assessments for California (ELPAC). This initial assessment of the student's English proficiency confirms whether the student is an English learner or is English proficient. The student who scores below the English proficient performance standard established on the Initial ELPAC (that is, at the Novice English Learner or Intermediate English Learner level) is classified as English learner.

Parent/family interviews are critical in the assessment of ELs. Both structured and unstructured observations are also valuable to compare the EL with similar cultural and/or linguistic peers. Interviews should be conducted in the interviewee's native language.

Language of Assessment It takes most ELs two years to acquire Basic Interpersonal Communication Skills (BICS). BICS includes context-embedded conversational language. However, an EL requires five to seven years, even under ideal conditions, to acquire Cognitive Academic Language Proficiency (CALP). CALP is the language of academics, where context clues are reduced. Many ELs may appear to be fluent in English during conversation (BICS), when they have not fully developed CALP. Even if an EL is able to have a conversation in English, his academic English skills may not be developed enough to appropriately respond in English, as the language level of the questions on an assessment may be above his CALP level (Artiles & Ortiz, 2002). Lack of CALP development may cause an EL to score artificially low on cognitive and/or language tests that utilize academic language in test items.

Proficiency testing data should be no more than 6 months old (Ortiz et al., 1985). If the student scores in the proficient range, then evaluate in English if this is determined to be appropriate by the IEP Team during the referral process. If the student does NOT score in the proficient range, then testing must be completed in the dominant language.

Testing in both the native language and English is always an option, and may be valuable in providing additional data. Assessments should always be “provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally” (34 C.F.R. §300.304(c)(1)(ii))

For a preschool-age EL with a suspected disability, the home language survey and interviews will guide the IEP Team’s decision regarding which language(s) to assess. As above with school-age ELs, assessments should always be administered in the language most likely to result in the most accurate information about what the student knows and can do.

### Interpreters

Information that interpreters provide is vital in assessing an EL. Interpreters not only ensure that directions, questions, and answers are understood, but also help to convey respect for the EL’s culture and its impact on his academic performance (Blatchley, 2010).

The use of family and friends as interpreters is not encouraged, as their knowledge of the family may color their interpretation and may constitute a breach of confidentiality (Blatchley, 2010). When selecting an interpreter, the LEA should ensure that the interpreter’s language proficiency in both English and the EL’s dominant language is adequate to provide interpretation of complex questions and information (Artiles & Ortiz, 2002).

Work with the interpreter ahead of time to ensure that any vocabulary specific to special education that might be used is explained and understood. When using an interpreter during a meeting or interview, LEA personnel should always be present. English-speaking professionals should consider the following when using an interpreter (adapted from Roseberry-McKibbin, 2008):

- a. Speak in short units. Avoid the use of idioms, slang, and professional jargon.
- b. Define any terms and acronyms (i.e., IEP) with which families and interpreters may not be familiar.
- c. Encourage the interpreter to use direct translation rather than paraphrasing what the family says.
- d. When speaking, address and look at the family instead of the interpreter.

- e. Allow the family an opportunity to ask questions. Most interpreters are not trained in special education assessment. If an interpreter is to assist in the administration of an assessment, he or she should meet with the evaluator in advance to review testing procedures, restrictions, reinforcement schedule, specific test questions for clarification, as well as expectations for correct responses.

It is the LEA's responsibility to ensure that the assessment is administered appropriately. The interpreter's responsibility is to translate the wording of the assessment. The interpreter must not provide cues and should consult with the evaluator during testing if questions arise. Interpreters should be informed of Family Education Rights and Privacy Act (FERPA) and confidentiality considerations. When using an interpreter during assessment, the LEA evaluator should be present for all testing.

The evaluator should observe the interpreter to ensure that cues are not given, administration instructions are adhered to, and the interpreter and student are interacting appropriately (Langdon, et al., 2008). The evaluator should observe and record the EL's testing behaviors (perseveration, distractibility, etc.), use of nonverbal communication, and communication patterns (response delays, hesitations, use of gestures instead of words, word repetition, using very short answers, perseveration on an item/topic, confusion, articulation errors, etc.) (Langdon et al., 2008; Roseberry-McKibbin, 2008).

After the evaluation, the interpreter and evaluator should discuss the session, including student responses, language samples, and appropriateness of grammar, syntax, and phonology (Langdon et al., 2008).

#### Assessment Materials

"Materials and procedures used to assess a child with limited English proficiency must be selected and administered to ensure that they measure the extent to which the child has a disability and needs special education, rather than measuring the child's English language skills." 34 CFR 300.532 All assessments contain some level of cultural and/or linguistic loading, reflecting the culture of the test authors. To reduce bias and the possibility of over-identification of ELs, ALL correct responses in one or both languages should be accepted during assessment (other than proficiency assessment), but any deviation from standard responses should be documented on the test protocol (Paradis, 2005).

No single assessment should be used to determine eligibility of any student, including an EL. The evaluator should use a variety of sources to appropriately determine eligibility: standardized assessments, interviews and/or rating scales completed with family and teachers, structured and unstructured observations, criterion-referenced and curriculum-based formative assessments, baseline performance data, work samples, response to intervention data, progress monitoring, comparison to performance of peers with similar demographics, etc. LEAs and evaluators should expect evaluations for ELs to take longer and be more complex than those of students who are not considered ELs.

#### **Standardized Scores and Documentation of Assessments**

If an assessment is not conducted under standard conditions (for example, if an interpreter was used, responses were given in a language other than English, etc.), a description of the extent from which it varies from standard administration conditions must be included in the evaluation report. In the case of an EL, caution should be used in relying upon standard scores and/or grade level equivalencies as the sole basis for eligibility for special education services.

Consider that standardized assessments generally do not factor results from ELs or the use of interpreters into their standardization sample. Even assessments available in Spanish, for example, are developed for monolingual Spanish speakers with little or no English exposure. Further, some test items may not be readily translated into another language without changing the nature of the question and/or the target response. Consider that test formats and procedures also differ with cultures and may be unfamiliar and/or confusing to the EL.

### **Nonverbal Procedures and Assessments:**

The use of nonverbal measures of cognitive ability may yield less biased results for ELs, but nonverbal instruments still may contain culturally loaded tasks. The evaluator should be aware that, while nonverbal assessments reduce language demands, they still require the student to possess prerequisite receptive language and nonverbal communication skills. While they provide one piece of information regarding the abilities of an EL, nonverbal assessments present an incomplete picture of a student's learning skills when used in isolation.

For example, these measures “cannot predict how students will perform in classes where success depends on the ability to use language for both social and academic purposes” (Artiles & Ortiz, 2002). Social-Emotional and/or Behavior Acculturation is the extent to which an EL's family has modified/merged their native culture with the dominant culture. The IEP Team should consider acculturation level when the referral is for emotional/behavioral concerns. Students struggling to adjust to a new culture and environment may present symptoms that can imitate those of various disability categories, such as behavior problems, in the classroom (Blatchley, 2010).

Factors for the IEP Team to consider include parent/family data and any discrepancies in behaviors across settings, which might reflect cultural stressors at school that may not be present at home. Adaptive Functioning Evaluators should also be sensitive to cultural differences when examining adaptive skills. Some test items may not be culturally relevant or appropriate for an EL. For example, a young Asian male student may not button his clothing or tie his shoes because cultural norms may dictate that his mother is expected to do this (Blatchley, 2010).

Parent interview questions pertaining to any differences in a student's functioning when compared to peers of the same age and background is critical to ascertain the student's level of adaptive skills.

Determining eligibility, The IEP Team must determine whether the disability is not due to a “lack of appropriate instruction in reading, including the essential components of reading instruction (as defined in section 1208(3) of the ESEA);

- (ii) Lack of appropriate instruction in math; or
- (iii) Limited English proficiency” (34 C.F.R. §300.306 (b)(1)).

To accomplish this, someone knowledgeable about second language acquisition must be a part of the referral, eligibility, and IEP Team and/or eligibility committee for all ELs. The information gathered from various sources and assessments will aid the team in making the eligibility determination. If the student is determined to be proficient as determined by the ELPAC or comparable measure, and is assessed in English, then the disability should manifest in English. If the student is assessed in the native language due to a lack of proficiency in English as determined by the ELPAC or comparable measure, then the disability must be present in the native language.

If the student has been assessed in both English and the native language, assessment data should be compared. In order for a limited English proficient student to be deemed eligible, the eligibility team must determine that the

communication disorder exists in the child's native language and is not the result of learning English as a second language. One cannot have a disability in one language but not in another.

### Special Education v. EL Services

For ELs determined eligible for special education services, the IEP must include the following: “In the case of a child with limited English proficiency, consideration of the language needs of the child as those needs relate to the child’s IEP.” (AAC 290-8-9.05(6)(j), p.528) The IEP Team must consider the language needs of the student as those needs relate to the child’s IEP when developing, reviewing, and/or revising IEPs (34 C.F.R. §300.346 (a)(2)(ii)). “The teaching of English as a second language or general American dialect is not the responsibility of special education.” (AAC 290-8-9.04(1)(e), p.523) Students may receive both special education and English language services concurrently if the IEP Team determines that both services are appropriate and necessary for the student to access the general education curriculum. A continuum of placement and service options that support both exceptionality-related and language related needs should be considered. ALL ELs with IEPs must have an EL plan documented on the profile page of the IEP.

**Interference:** A process in which communicative behaviors from the first language learned (L1) is erroneously transferred into the second language learned (L2).

This may occur in all areas: syntax, morphology, semantics, phonology, and pragmatics. An example of this is the French “une boule rouge.” It translates directly to: “a ball red.” When ELs produce errors such as these in English, educators must consider the possibility of interference from the L1. As the EL students’ complexity of utterance increases, the number of errors may increase proportionately

**Silent Period:** A common second-language acquisition phenomenon, some ELs may go through a period when they are focusing on listening and comprehension, speaking very little. The silent period may last for as little as a few weeks to as long as a few months.

Generally, the younger the child, the longer the silent period may last. The silent period may be accompanied by increased distractibility and social isolation as the student struggles with understanding, and may be misdiagnosed as a language delay or disorder.

**Language Loss:** It is common for ELs to lose proficiency in L1 as proficiency in L2 increases. In the United States, ELs often experience gradual replacement of L1 with English. This can be detrimental to ELs, especially if their families speak only the L1, and may cause them to appear to be low-functioning in both languages.

**Code-switching:** This is a normal phenomenon for bilingual speakers in which they alternate between two or more languages within a single word, phrase, or sentence. For example, a German speaker might say “I’m hungry. I want zu essen.” (“I’m hungry. I want to eat.”). Code switching may occur frequently in situations in which an EL lacks proficiency in one language or is expected to speak solely in the weaker language.

**Basic Interpersonal Communication Skills (BICS):** BICS includes: language used for everyday functions, basic vocabulary, context-embedded language, conversational language, social routines, and functional language. Ideally, BICS are acquired in around two years.

**Cognitive Academic Language Proficiency (CALP):** CALP includes language for academic information: advanced vocabulary, abstract concepts, figurative language (e.g., idioms, metaphors, etc.), classroom questions/answers,

academic literacy skills, formal writing, and testing. In an ideal situation, an EL needs five to seven years to acquire CALP. CALP usually begins to emerge around 5th grade for monolingual students, but often not until high school for ELs.

#### Stages of Second Language Acquisition (Adapted from Carías, 2008)

- Stage 1: Silent/Receptive or Pre-production
- Stage 2: Early production
- Stage 3: Speech emergence
- Stage 4: Intermediate fluency
- Stage 5: Advanced Fluency

A silent period may occur during this stage. The EL is listening and trying to understand, but may not be comfortable speaking. Some students will repeat; not producing novel language, but imitating. They may be able to copy words, and respond to pictures and other visuals. They may understand, duplicate, and produce gestures and movements to show comprehension. Students may display increased distractibility and a degree of social isolation during this stage. The EL's receptive and expressive vocabulary is still limited, but is increasing.

Comprehension continues to be limited. During this stage, ELs can usually speak in one- to two-word phrases. They may use short language chunks and rote phrases (especially for familiar routines) that have been memorized, although these may not always be used correctly. Participation in activities, especially in one-on-one and small groups is emerging at this stage.

The EL now is able to communicate in simple phrases and sentences. He can ask simple questions (may not be grammatically correct), such as "Can I go to bathroom?" As sentence length increases, errors may increase proportionately. ELs may also begin to initiate short conversations with classmates. They may understand simple stories with the support of pictures. ELs are now beginning to use more complex sentences in speaking and writing; and are more willing to share opinions and thoughts. They may ask questions for clarification. At this stage, ELs will be able to comprehend more complex concepts. Now students will begin to use strategies from their native language to learn content in English. Some complex errors will still be apparent, especially in literacy skills, writing, and prosody.

It takes students 5-7 years to achieve cognitive academic language proficiency (CALP) in a second language. Students at this stage will have near-native fluency. Most ELs at this stage have been exited from ESL and other support programs. At the beginning of this stage, however, they may experience continued difficulty, especially in high level academic language and literacy. FAQs

1. Does an EL need to be in school for a certain amount of time before he can be referred/evaluated for special education services? No. Any student may be referred and evaluated at any time if there are concerns and it is determined to be appropriate. During the special education eligibility process, the IEP Team is directed to consider the amount of formal education the student has received in its decision regarding eligibility.

2. Does an EL need to reach a certain level of English proficiency on the ELPAC or comparable measure before he can be referred for special education evaluation? No. If concerns are present and the team determines that referral/evaluation are necessary, the student may be evaluated at any time. If the student is not proficient in English, evaluation should proceed in the dominant language.

3. Can ELs with little or no previous formal education in their home countries be referred for special education evaluation? Yes. The IEP team and/or eligibility committee must determine that the student's disability is not the result of a lack of appropriate education in order to determine him eligible for special education services. Consider that some countries offer no special education services, so a student with special needs may have been excluded from attending school.
4. Can an EL kindergartener or preschooler be referred for special education evaluation? Yes. If concerns are present, the kindergarten EL should proceed through RtI and/or special education processes just as any other student. If the child is in preschool, no RtI is required. If the child is too young for the ELPAC or comparable measure to be administered to determine English proficiency, the IEP Team or eligibility committee should rely upon thorough data from parents and the home language survey to determine the language in which assessment should be conducted to give the most accurate information on what the child knows and can do.
5. Should an EL's parents be discouraged from speaking their native language at home? No. Research suggests that children need exposure to rich language environments. Parents should be encouraged to speak in the language that is most comfortable for them to create a language rich environment in the home. If a parent does not speak English, then attempts to do so to communicate with the child would be very limited in scope and would possibly not provide a rich English language model. In addition, a child who does not speak his family's language will be isolated from them linguistically, socially, and culturally.
6. How can evaluators ensure that assessment results are a true reflection of the student's performance, not limited English language proficiency? There is no simple way to do this. Evaluators should use multiple measures to accurately determine an EL's level of functioning. To the degree possible, assessment data should be compared with level of functioning in the classroom and/or home environments, as well as the student's response to interventions that have been introduced. In all cases, evaluators should cautiously interpret test data and standard scores, reporting any nonstandard administration of assessments on the eligibility report.
7. Can a student receive both special education services and EL services at the same time? Yes. Once a child is determined eligible for special education services, the IEP Team must consider his specific functional, language, and academic needs and select the appropriate services to meet those needs.
8. What is the procedure to be used if the native language of the EL is one for which a translator is not readily available? The LEA must exhaust every possible resource for securing the services of a fluent translator, including, but not limited to, contact with universities, hospitals, military bases, community based groups, churches, or other LEAs. Attempts at obtaining a translator should be documented and maintained in LEA files. While LEAs are discouraged from using immediate family members or close family friends as a translator, community members who are fluent in the native language and English may be used. If no translator is available, commercial sources are available that provide services such as telephone translation or online video conferencing.

## The Provision of School Psychological Services to Bilingual Students

According to the National Center for Education Statistics (Aud, Hussar, Kena, Bianco, Frohlich, Kemp & Tahan, 2011), 21% of school-age children ages 5–17 speak a language other than English at home.

Although English learners (ELs), inclusive of those that are exposed to two or more languages, are the fastest growing subgroup of students within our nation’s public schools (NEA, 2007), typically they do not fare well in the U.S. educational system. Samson and Lesaux (2009) found that bilingual students were underrepresented in special education in the primary grades, but overrepresented beginning in third grade. Furthermore, ELs are underrepresented in gifted education (King, Artiles, & Kozleski, 2009). Inadequate or inappropriate psychoeducational assessment practices, restricted access to effective instruction, lack of understanding about language acquisition and prior academic experiences in one or more languages and associated impact on academic achievement and grade level expectations, inappropriate special education referral practices, and limited training all have been found to contribute to these phenomena (Sullivan, 2011).

Given the increasing diversity of the nation’s public schools, NASP recognizes the critical importance of establishing best practices in the provision of school psychology services when working with English language learners. This includes supporting students with diverse backgrounds by using culturally and linguistically appropriate methods, including delivery in the language that best meets the students’ needs. Schools are expected to provide effective and comprehensive supports and services to help these students succeed in all domains: academically, socially, behaviorally, and emotionally. School psychologists should ensure that prevention, assessment, consultation, intervention, advocacy, and family–school collaboration services for bilingual students are implemented effectively.

### THE ROLE OF THE SCHOOL PSYCHOLOGIST

NASP affirms the critical role that culturally and linguistically responsive school psychologists play in helping to close achievement gaps and decrease overrepresentation and underrepresentation of ELs in special and gifted education, respectively. Best practices require training that includes, but is not limited to, the developmental processes of language acquisition and acculturation, their effect on standardized test performance, and the effectiveness of instructional strategies and interventions. All school psychologists are responsible for providing equitable and culturally responsive services to students and families.

## **KEY COMPONENTS OF A LINGUISTICALLY APPROPRIATE IEP**

- I. Assess English Proficiency/Language Development
  - Follow MPS policies/procedures related to assessment of English proficiency
  
- II. Plan for Comprehensible Input in English
  - Total Physical Response
  - Natural Approach
  - English Language Development
  - Language Experience Approach
  - Special Designed Academic Instruction in English (SDAIE)
  - English Reading and Writing at Appropriate Level
  
- III. Provide Primary Language Support
  - Parent
  - Teacher
  - Instructional Assistant
  - Volunteer
  - Peer or Cross-age Coach
  - Primary Language Materials
  
- IV. Promote Self-concept /Cross-Cultural Learning
  - Special Class Activities
  - School-wide Activities
  - Curriculum Content
  - Community Activities
  
- V. Address California English Language Development Standards  
(Available for downloading at [www.cde.ca.gov/standards/eld.pdf](http://www.cde.ca.gov/standards/eld.pdf))
  - Kindergarten – grade 2
  - Grades 3 – 12, literate in their primary language
  - Grades 3 – 12, not literate in their primary language

### Why write linguistically and culturally appropriate IEPs?

#### **It's the law!**

EC 56345(b). *When appropriate the individualized education program shall also include, but not be limited to, all of the following: (2) For individuals whose primary language is other than English, linguistically appropriate goals, objectives, programs and services.*

For any scholar receiving special education services and designated as an English Learner, goals and objectives must reflect the individual's cognitive and linguistic development and his or her language of instruction in order to be appropriate.

NOTE: Students in Special Education who are designated as English Learners must continue to receive English language development instruction.

#### **Linguistic Considerations**

Linguistically appropriate goals and objectives have the following characteristics:

- They are appropriate for the cognitive level of the scholar
- They are appropriate for the linguistic level of the scholar
- They match the developmental level of the scholar's primary or secondary language
- They match the scholar's general education transition criteria and MPS re-designation policy

#### **Cultural Considerations**

Culturally appropriate goals and objectives have the following characteristics:

- They access the scholar's prior knowledge and experiences
- They incorporate culturally relevant materials and experiences
- They affirm the scholar's cultural heritage

### General Guidelines

The following guidelines need to be followed in order to ensure that any given goal or objective meets the definition of being linguistically appropriate as specified above

- It states specifically in what language (English, Spanish, Vietnamese, Tagalog, etc.) the particular goal and objective will be accomplished
- It is appropriate to the scholar's level of linguistic development and proficiency in that language

### **Addressing ruling out language acquisition as the primary factor impacting scholars' performance**

The Following Article addresses the law and the concerns straight on. I hope it helps in clarifying why following this mandate is essential to proper instruction of English Language Learners:

In its Blueprint for Reform (U.S. Department of Education, 2010), the Obama Administration stated that an important goal for the United States as a nation is to produce high school graduates who are fully bilingual, multicultural and ready to compete in the global economy.

If that is the case, then we should regard students who begin school already knowing another language besides English as having a head start over their peers. If we nurture their bilingualism and capitalize on their linguistic, cultural, and experiential strengths—helping them to feel “smart” rather than “at risk” —then we will enrich their school experiences as well as our own (Klingner, Vaughn, & Boardman, in press).

We can do this by making sure ELs have every opportunity to interact with peers and use academic language, engage in higher-level thinking, and contribute in their classrooms and schools in meaningful ways.

As delineated by the CEC and Division for Learning Disabilities (DLD) position statement on instruction for ELs with learning disabilities (LD), everyone who works with ELs should know how best to support their language acquisition as well as their academic and social development.

However, many teachers and support personnel are not adequately prepared to meet their ELLs’ literacy and language needs (Zehler et al., 2003). Teachers described feeling “challenged to help these children reach the level of proficiency required for learning sophisticated academic content through English” (Dixon et al., 2012, p. 6). Now that the Common Core State Standards have been adopted by many states, their emphasis on increasingly complex texts can make these challenges seem even more overwhelming.

### ELs With LD

About 7.6% of the ELs in the U.S. are believed to have a disability (National Center for Education Statistics, 2009; Peña, Bedore, & Gillam, 2011). However, percentages vary greatly by state, from highs of 28.36% in California, 20.50% in New Mexico, 16.70% in Nevada, and 15.45% in Texas to a low of 0.35% in Virginia. Identification rates also vary within and across districts (Artiles, Rueda, Salazar, & Higareda, 2005; Sullivan, 2011). The majority (about 55%) of those ELs identified with a disability are thought to have LD (Peña et al., 2011).

Yet determining whether an EL actually has LD can be quite difficult; the multidisciplinary team must be able to establish that the EL’s learning difficulties are not primarily the result of language acquisition (Individuals with Disabilities Education Improvement Act, IDEA, 2006).

To be able to distinguish language acquisition from LD, educators must understand the second language acquisition process, recognize characteristics associated with LD, and be able to assess the quality of instruction in students’ classrooms. Have these students truly received an adequate opportunity to learn?

Struggles with English language acquisition, on the surface, can seem to mirror characteristics of LD. Digging deeper and trying to understand the reasons for certain behaviors is essential to identifying the underlying causes.

We recommend using a hypothesis-driven approach to determining whether an EL has LD, including:

- Beginning the referral and evaluation process by exploring the hypothesis that the causes of the student’s learning difficulties are primarily external factors (rather than internal to the child).
- Conducting the assessment with the notion that there is nothing wrong with the individual and that systemic, ecological, or environmental factors are the primary reason for learning problems.
- Maintaining this hypothesis until data suggest otherwise and all plausible external factors have been ruled out. The point is not to look for whom or what to blame for a child’s struggles, but rather to understand the multiple complex factors that are affecting the child’s learning and performance.

The team also must determine that the student has received an adequate opportunity to learn through research-based instructional and intervention practices that have been validated with other ELs, although it can be difficult to make judgment calls such as these (Klingner, Artiles, & Méndez Barletta, 2006). One way is to look at class data sets to see how ELs in general are doing in comparison to “true” peers (i.e., same-language, same-age peers with similar background experiences).

There are many reasons why an EL may not respond to a particular instructional approach in the way we intend (Klingner & Edwards, 2006). It is possible that the instruction or intervention is not as effective for this child as for others, and a different method would yield better results. It could be that the student needs more language support, or that the level of instruction is not a good match for the child. Another possibility is that the environment is not conducive to learning. Before referring a student for an evaluation, consider the classroom environment, observe instruction, and recommend different approaches.

ELs with LD are usually taught by special educators who have received inadequate preparation in how to meet ELs’ language and literacy needs (Barker & Grassi, 2011). In fact, when they are placed into special education, many ELs lose access to specialized language instruction, such as through English Language Development (ELD), English as a Second Language (ESL), or Structured English Immersion (SEI) programs (Zehler et al., 2003).

There seems to be a mistaken belief that special education and ESL services should be thought of as “either/or”—that once ELs qualify for special education, they no longer qualify for language support services. An important principle to keep in mind is that ELs with LD are entitled to a full range of seamless services designed to meet their individual language and learning needs.

Classroom example: Michele teaches first grade at Garvey Elementary School. She has been teaching there for 14 years and has seen the community change from almost all White middle class families to mostly Latino working class families who work at the new plant nearby. More than half of Michele’s students speak Spanish in their homes, and about 36% are in the process of acquiring English—or, in other words, are ELs.

Michele has a Master's degree in Elementary Education and her principal considers her to be an effective teacher, although she personally feels that she has “the wrong master's” for the school's changing demographics. Because the school district selected Garvey Elementary to be a pilot response-to-intervention (RTI) school, Michele recently attended district-sponsored professional development workshops on progress monitoring and other components of RTI. Like many schools around the country, her district is pushing the use of evidence-based practices as “what works.”

Yet, Michele has not taken any coursework or received any professional development in teaching ELs how to read. She does not know about second language acquisition or understand much about LD. She supposes that the evidence-based reading practices touted on the What Works Clearinghouse web site are appropriate for all students. She ponders, “Isn't good teaching just good teaching?”

The problem with this thinking is that the answer to that question is a resounding “No!” If your belief is that you can teach your ELs in the same way, with the same materials, you have been using in the past with students from different demographics, then you are bound to experience some challenges.

It is common for teachers to misunderstand ELLs' lack of progress and blame it on the students (Orosco & Klingner, 2010). Being an effective teacher with one demographic group is not the same as being an effective teacher with all students. A typical scenario is that a principal or a language arts director in the school district advises using a specific instructional or intervention approach, stressing that it is research-based. The principal might even emphasize that the method has been “proven” to work.

When this happens, teachers assume that, because they are using an evidence-based practice, when their ELs do not progress, it must be because the students are somehow deficient. Yet students do not all learn in the same way. What works with some students is not the same as asking what works with whom, in what settings, under what conditions, with which outcomes, and when taught by whom.

The vast majority of referrals for an evaluation for possible special education placement are made by classroom teachers (Ysseldyke, 2005). If teachers can improve their understanding of the reasons for ELs' struggles, they will be less likely to judge them as lacking.

However, some ELs truly do have LD and would benefit from the extra support they would receive in special education. Teachers should not wait until ELs are fully proficient in English before deliberating whether they might have LD. The temptation is strong to delay concentrating on the possibility that ELs are struggling with reading due to language acquisition or learning disabilities (Francis et al., 2006). It is understandable that, because the characteristics common to language acquisition can appear to mirror those of LD, school personnel may have a habit of waiting, to avoid the possibility of incorrectly placing an ELL in special education. Wanting to wait could

actually be a sign that school personnel have some knowledge about the confusing aspects of language acquisition and LD.

Just as it is a predicament to identify ELs as having a disability when they do not, it is also a problem to delay providing interventions to ELs who really need them. Following the guidelines outlined in this book can help improve instruction for all ELs and result in fewer inappropriate referrals. The few ELs who are still experiencing difficulties at that point will benefit from explicit, intensive interventions in addition to the instruction they are receiving in their general education classrooms.

## Writing Goals and Objectives to address

### California English Language Development Standards

The ACSA and CARS+ Handbook on Goals and Objectives Related to Essential State of California Content Standards (available for downloading online at <http://www.carsplus.org/publications.html>) provides specific examples of using the California Standards as a basis for developing IEP goals and objectives and an ELD proficiency checklist. It is important that this commitment to exposing our Special Education scholars to the same standards as their general education peers is extended to our English Learners with IEPs. Even though a similar publication has not yet been produced for *English Language Development Standards*, the same approach can be used to ensure that the IEPs of Special Education English Learners align with the curriculum provided for their nondisabled peers.

NOTE: The ELD standards were designed for scholars in grades 3-12 who are literate in their primary language. For EL scholars who enter California schools in these grades not literate in their primary language, the ELD literacy standards for earlier grades including those related to phonemic awareness, concepts of print and decoding skills must be taught.

When developing IEP goals and objectives aligned with these standards, address the scholar's present levels of performance as well as the English proficiency level.

## SAMPLE LINGUISTICALLY APPROPRIATE

### IEP GOALS AND OBJECTIVES

The following are samples of goals that meet the criteria of being linguistically and culturally appropriate. Use these as models in developing IEP goals and objectives that address the unique needs of your scholar. Do not simply copy these without consideration of your scholar's present levels of performance, language proficiency, and learning style.

**NOTE:** Remember, you must develop a minimum of two (2) benchmark objectives for each goal.

*Indicate how mastery/progress will be measured for each goal; by checking all that are appropriate in this box.*

**GOAL:** By   (date)  ,   (scholar)   will demonstrate increased comprehension of the English Language by giving (English, Spanish, Tagalog, etc.) responses to questions or requests made in English with   \_\_\_  % accuracy as shown by

**OBJECTIVE:** By   (date)  ,   (scholar)   when shown visual stimuli, will respond with a one-word response to questions with comprehensible input with   \_\_\_  % accuracy as measure by

Examples of questions with comprehensible input:

- a) "Are you hot (teacher pantomimes wiping perspiration from forehead) or cold? (teacher pantomimes shivering and bundling up)
- b) "Is this a dog?" (teacher point to a cat in a picture)
- c) "How many flowers (teacher points) are in the vase?"

**GOAL:** By   (date)  ,   (scholar)   will demonstrate the ability to respond to questions in written English with writing quality comparable to level of written language skills in scholars primary language with   \_\_\_  % accuracy as shown by

**OBJECTIVE:** By   (date)  ,   (scholar)   after reading a story at his/her instructional level will respond to a writing task with   \_  % accuracy as measured by

Examples of basic scholar responses:

- a) answer comprehension questions after reading a story
- b) write a friendly letter
- c) write a creative story

**GOAL:** By  (date) , (scholar)  will be able to read English at a comparable level to his/her reading proficiency in his/her primary language with \_\_\_% accuracy as demonstrated by

**OBJECTIVE:** By  (date) , (scholar)  will be able to demonstrate comprehension of a reading selection at his/her readability level as measured by appropriate grade level curriculum assessment.

**GOAL:** By  (date) , (scholar)  will be able to provide a response in English, either orally or in writing to stimuli that prompt critical and creative thinking with a response that shows elaboration and complex sentence structures \_\_\_% of the time as shown by

**OBJECTIVE:** By  (date) , (scholar)  will be able to articulate responses to questions that require critical and creative thinking in the following four main areas: a) synthesis, b) evaluation, c) analysis, and d) application as measured by the following criteria: a) descriptive vocabulary, b) ability to elaborate and c) use of complex sentence structures within their response.

**GOAL:** By  (date) , (scholar)  will respond in English to literal questions with short phrases, which may or may not be grammatically correct \_\_\_ out of \_\_\_ trials, with \_\_\_% accuracy as demonstrated by

**OBJECTIVE:** By  (date) , (scholar)  when given comprehensible input, will respond to (who, what, where, when, how, and why) questions using short phrases with \_\_\_% accuracy as measured by

Examples of basic questions with comprehensible input:

- a) “Where is the dog?” (sample scholar response: “by the tree”)
- b) “Who is walking the dog?” (sample scholar response: “the man”)
- c) “Why is the cat scared?” (sample scholar response: “sees the dog”)

**OBJECTIVE:** By  (date) , (scholar)  in a natural environment, will be able to articulate and express on his/her own initiative, basic ideas and requests with \_\_\_% accuracy as measured by

Examples of advanced scholar ideas and requests:

- a) “I am cold.”
- b) “I go to the bathroom?”
- c) “I like it!”

### **Sample Culturally Appropriate IEP Goals and Objectives**

**GOAL:** By  (date) , (scholar)  will demonstrate increased reading comprehension in (English, Spanish, Tagalog, etc.) by responding correctly to \_\_\_ out of \_\_\_ questions about a story with \_\_\_% accuracy as shown by

**OBJECTIVE:** By  (date) , (scholar) \_\_\_\_\_ will identify two common themes/ main ideas and two differences in stories after reading  \_\_\_\_\_ (independently, with modifications, listening, etc.) to four folk tales from different countries with  ---%  accuracy as measured by

**GOAL:** By  (date) , (scholar) \_\_\_\_\_ will show improvement in writing fluency in (English, Spanish, Tagalog, etc.) by writing a (short story, paragraph, essay, sentence, etc.) using correct (punctuation, grammar, capitalization, spelling, etc.) with  \_\_\_\_\_%  accuracy as shown by

**OBJECTIVE:** By  (date) , (scholar) \_\_\_\_\_ will respond by (dictating, writing a sentence, writing a paragraph, etc.) and share his/her personal responses to an open-ended question that draws upon life experiences, culture, and perceptions, after (listening to/reading) a story from (core/supplemental) curriculum with  \_\_\_%  accuracy as measured by

**GOAL:** By  (date) , (scholar) \_\_\_\_\_ will show increased understanding of multiplication concepts taught in (English, Spanish, Tagalog, etc.) by achieving a score of  \_\_\_%  or higher on (teacher-made test, standardized test, work samples, etc.) in  \_\_  out of  \_\_  attempts as shown by

**OBJECTIVE:** By  (date) , (scholar) \_\_\_\_\_ will be able to use (graph paper, multi-link cubes, manipulatives, etc.) to demonstrate comprehension of the multiplication process after comparing and contrasting Mexican and Egyptian methods of multiplication as measured by

### **Overview of the Process**

The following outlines the potential academic trajectory of an EL determined eligible for special education. The steps in this process can be grouped into three areas where additional research and/or policy guidance is needed for educators to best support English language learners with disabilities: 1) initial identification, 2) instruction and services, and 3) exit from EL services and if and when appropriate from special education services.

### **Initial Identification of English Learners for Special Education Eligibility:**

1. Implement Multi Tiered Systems of Support.
2. Establish baselines, provide intervention and conduct progress monitoring to determine the Response to Instruction and Intervention.
3. Refer for SPED Evaluation if progress is not adequate.
4. Conduct Initial Comprehensive Psycho-Educational Evaluation (Rule out impact of language acquisition on possible eligibility)
  - a. If scholar does not qualify for special education proceed with EL Specialized Instructional Program
  - b. If a Scholar does qualify, Implement IEP as outlined above in this manual.

Instruction and Services for scholars who are ELs in Special Education:

1. Initial IEP Meeting
2. Determination of Special Education Services
3. Outline and include ELPAC information in reports and address EL needs in the IEP. Write goals in all four of the following areas: Listening, Reading, Speaking and Writing.

Exiting from EL and SPED services when appropriate:

1. EL scholar meets state determined requirements
  - a. ELP - ELPAC Assessment
  - b. Additional MPS Requirements
2. Reclassification of Student to RFEP.

- 
1. Student appears to no longer need SPED services
  2. Comprehensive Re-Evaluation
    - a. EL scholar is exited from Special Education
    - b. EL scholar remains in SPED as an IWEN without EL goals

All MPS schools should identify, monitor, and research promising practices related to ELs with disabilities, as well as develop guidance that can be included in MPS wide policies. Our policy should address at minimum, the following areas – initial identification, instruction and services, and exiting from ELL and special education services focusing specifically on English Language Learners with Disabilities.

## 504 Plan

<https://www.cde.ca.gov/sp/se/ac/documents/ab2785guide.pdf>

Section **504** of the Rehabilitation Act of 1973 is a federal **law** that prevents discrimination against students with disabilities. ... Since **504** plans were created by a federal **law**, **California** LEAs are bound by the same rules as all other states.

Students with a disability that significantly limits their ability to learn or complete another major life function may be eligible for a 504 plan. These plans provide related aids and services to help make the learning process smoother and more effective.

### 504 Plans Overview

Section 504 of the Rehabilitation Act of 1973 is a federal law that prevents discrimination against students with disabilities. Under this provision, any school that receives federal funding must make accommodations to ensure that all students with disabilities are guaranteed a free public education. A 504 plan refers to the methods and strategies designed by teachers, parents, and administrators to comply with this law.

Since 504 plans were created by a federal law, California LEAs are bound by the same rules as all other states. A plan designed in California is required to follow the same guidelines as a plan designed in Maine or any other state.

### Designing a 504 Plan

While all plans must adhere to the regulations explained in Section 504, no two plans are alike. Students with disabilities require highly individualized instruction; an ideal plan for one student may be disastrous for another, even if they have the same disability.

To make sure a plan adequately meets the needs of the student, the design process involves plenty of coordination and teamwork. Plans are developed following a comprehensive evaluation process and by a committee consisting of school administrators, teachers, and the student's parents. Students may also help design their plans if they are deemed to be of an appropriate age and maturity level.

### 504 Plan Eligibility

Whereas Individualized Education Programs (IEPs) have rigorous standards for special needs students seeking eligibility, Section 504 defines 'disability' in a much broader and more general sense. Instead of listing disabilities (as the IEP standards do), the section merely names the various traits of disorders. Eligible students include those who:

- Suffer from a disability that substantially limits their ability to carry out essential life activities such as seeing, walking, or reading.

- Have an officially documented physical or mental impairment.
- Have a 'non-temporary' disability. Students with an impairment that isn't permanent or long-lasting (illness, broken bone, etc.) will not be considered eligible.

Despite this broad definition, simply having a disability does not immediately qualify a student for a 504 plan. The school must perform an evaluation to determine how significantly a student's disability impacts his or her ability to carry out a major life activity, including learning.

### 504 Plan Content

504 plans are designed on a case-by-case basis and are specifically tailored to a student's individual needs. Most plans, however, include the following items:

- Identify the student's qualifying disability(ies) and describe the student's needs.
- A list of specific accommodations, modifications, and other academic support services designed to meet their individual needs as adequately as the needs of nondisabled students are met.
- Names of school staff who are responsible for providing these related aids and services.
- How the related aids and services will be implemented.
- The individual responsible for monitoring the 504 plan and ensuring its proper implementation.
- An annual (MPS) or bi-annual re-evaluation to determine student progress toward goal achievement.
- Outside of these requirements, schools are more or less free to design a plan as they see fit. Sample accommodations for 504 plans include:

A peer or professional tutor

Additional supervision during special events (assemblies, field trips, etc.)

Audiobooks for students who struggle with reading

Modified attendance policies

If you have a child who does not qualify for special education but has a mental or physical impairment which substantially limits one or more major life activities, including learning, that child may qualify for special help in a regular classroom setting under Section 504 of the Rehabilitation Act of 1973.

The following is a list of areas of concern and possible accommodations that can be used as a reference for parents and school personnel. This list is applicable both to 504 plans and IEPs.

### **Areas of concern:**

#### **Sustaining attention to task & effort**

Suggested Accommodations \*Note: these are examples only and will need to be tailored to the specific needs of the Student and the setting. Remember that all accommodations must be implemented with fidelity and the school

must be able to demonstrate implementation. Accommodations that are overly broad or vague may be open to misinterpretation and introduce liability.

Getting started

Impulsivity

Hyperactivity

Social skills

Sensitive to criticism, irritable, moody

Low self-esteem

Organization & planning

Study skills

Memory

Homework

Oppositional Defiance

Academic skills

**Areas of accommodation:**

Classroom environment and seating

Classroom has predictable daily routines

Schedule changes are discussed ahead of time

Consistent and clear limits are set for classroom behavior

Work alternates short concentrated periods with breaks

Visual distractions in classroom are minimal

Auditory distractions in classroom are minimal

Small group instruction

Team teaching

Identify teaching-style/student match (e.g. structured, nurturing, etc.)

Seat in front of classroom

Seat in quiet area

Seat near teacher

Seat near good role model

Seat near 'study buddy'

Increase distance between desks

Reduce distractions on or near desk

Seat away from distracting stimuli

Seat in study carrel or use partitions

Assignments/Homework

Extra time to complete assigned work

Shorten assignments/work periods

- Simplify complex directions
- Break long assignments into smaller parts
- Assist student in setting short term goals
- Pair written instructions with oral instructions
- Develop private signal from pupil to teacher to request repetition of oral directions
- Repeat oral instructions
- Check homework daily
- Reduce amount of homework
- Limit homework to \_\_\_\_\_ minutes per night
- Limit home SSR, simultaneous reading, or family reading to \_\_\_\_\_ minutes per night
- Permit assignments to be printed or typewritten without penalty
- Permit writing assignments to be turned in on audio-cassette
- Permit writing assignments to be given orally
- Permit extra credit assignments
- Permit re-submitted assignments
- Adapt assignment to minimize writing (e.g. circle, cross out, write above line, etc.)
- Do not grade handwriting unless handwriting is the standard being measured
- Do not grade spelling unless spelling is the standard being measured
- Test Taking and Grading
- Provide written outline of main points prior to test
- Allow open book exams
- Allow outline or notes during exams
- Give exam orally
- Give take-home tests
- Allow student to dictate answers on tape recorder
- Give frequent short quizzes rather than long exam
- Allow extra time for exam
- Allow test to be taken untimed with specified short breaks
- Read test item to student
  
- Provide student with following information:
- Avoid using child as negative example to others
- Avoid questioning child's motivation or effort
- Encourage child to accept own mistakes
- Identify whether test will assess abilities or disabilities
- Home/School/Community Communication
- Parent/teacher conference frequency \_\_\_\_\_
- Teacher/student conference frequency \_\_\_\_\_
- Parent/student/teacher conference frequency \_\_\_\_\_

Provide daily/weekly progress checklist

Call parent if \_\_\_\_\_

Provide case manager/school social worker to give lead in communicating within school, and between school, home and community. This includes assistance in selection of teachers; and teacher, aides, bus driver and administration orientation and awareness regarding the nature of disability and adaptation needs and monitoring effectiveness of this adaptation plan.

### **Monitor medication taking**

Assist physician in medication monitoring

Consult with other professionals: \_\_\_\_\_ once per \_\_\_\_\_

### **Transportation**

Select seating and seat buddy on bus

Provide adult supervision on bus

### **Mediation**

Provide discrete reminder to student to obtain medication

Take care not to draw attention to students with respect to medication (this is only addressed to situations where a student has had a previous bad experience).

### **Aides and Technology** (Assistive technology or low incidence equipment per assessment results)

Use Phonic Ear to maintain student attention and for cueing

Provide peer assistance/adult assistance in note-taking

Provide tape recorder and permit tape recording of class

Provide keyboarding skills training

Provide computer with appropriate software for written assignments (word processing software includes spelling-prompt software, etc.)

Provide computer for in-class note-taking

Provide instructional software in subject matter area: \_\_\_\_\_ (semi-independent, self-paced, repetition, variety, multi-sensory, non-judgmental feedback)

Provide textbooks on audio tape (i.e. through aural media catalogue)

Provide opportunity to complete written assignments on computer

Provide extra set of textbooks which may be marked

Provide enlarged copy of reading assignments/written assignments

Provide tutor for specified period of time and frequency

### **Learning style Differentiation**

Using or enhancing visual, auditory, and kinesthetic learning and memory

- Provide auditory directions
- Provide auditory cues and clues
- Develop auditory mnemonics skills (e.g. set memorization tasks to music)
- Do or do not use background music to enhance learning (headphones or ambient)
- Provide visual directions, demonstrations and representations
- Provide visual cues and clues
- Develop visual conceptualization skills
- Develop visual mnemonics skills
- Encourage (multi-colored) outlining/underlining when reading
- Maintain visual contact while talking
- Use tactile and manipulative aides in teaching
- Provide simultaneous visual, auditory, and kinesthetic experiences
- Provide lessons in sequential order
- Provide lessons with contextual clues
- Provide written outline of lesson or written notes of lecture material
- Write main points of lesson on board
- Refer for academic testing in particular area
- Accept alternatives to oral reports (written, display, etc.)
- Utilize areas of strength to encourage expression
- Involve child in movement several times a day

### **Attention**

- Provide cognitive behavioral feedback: positive feedback for attention to task (frequency based on what student can currently do) short-term reinforcers (e.g. happy face, check mark, star, in-class rewards) and long-term (e.g. accumulate points for rewards at home)
- Plan academic instruction for student's peak attention time (e.g., a.m.)
- Allow student to stand at times during seatwork (especially during end of task)
- Require active responses in instruction (talking, moving, organizing, working at board, interacting with computer)
- Provide opportunity for 'seat breaks' (structure with errands, physical activity, etc.)
- Provide short break between assignments
- Give child substitute verbal or motor responses to make while waiting
- Provide fidget objects for manual activity (e.g. koosh ball, clay, worry beads, etc.)
- Teacher to stand near student when giving directions or presenting lessons
- Reward short periods of waiting
- Increase novelty
- Alternate high and low interest tasks
- Do not reinforce passive/withdrawn behavior
- Increase choice of tasks
- Place student first in line, or avoid lines altogether

## **Reading**

Encourage sustained silent reading

Teach previewing strategies

Select key passages

Provide visual breaks after each line of the page

Fold paper or cover paper so that only part is visible

Read with window

Enlarge print of written material

Use highlighting system to limit amount of reading

Use highlighting system to focus reading and studying

Avoid oral reading

Encourage oral reading

Develop mnemonic strategies to address reversals

Teach reading for meaning

Teach phonetic decoding skills

Use echo reading or simultaneous reading approach to reading acquisition

Teach visual discrimination skills to reading acquisition

Teach auditory discrimination skills to reading acquisition

Teach underlining strategies

Writing/Handwriting (see also Aides & Technology)

Accept alternatives to written reports (oral, tape recorded, display, projects)

Provide instruction in brainstorming and outlining

Provide specialized software for word processing (e.g., enhanced spell checking, etc.)

Do not require copying from board or book (provide photocopied instructions or problems or refer to number)

Reduce amount of required copying from board

Adapt assignments to require less writing (e.g., provide photocopy, which may be enlarged, to circle, cross out write above/below line, etc.)

## **Spelling**

Use electronic spell checker (hand-held and/or computer)

Do not grade/test spelling

Limit spelling list words

Use simultaneous multisensory methods to encourage spelling memorization

Fill in missing letters in preprinted portion of spelling word with omissions

Circle correct version of word given several choices

Unscramble pre-printed words and cross out unnecessary letters in spelled word

## **Math**

Permit use of calculator

Provide graph paper to space numbers

Model correct computational procedure

Encourage self-talk

Provide enlarged print problems and work area

Encourage turning lined paper sideways to maintain column alignment

Organizational/Planning Skills

Remind student to check over work product

Give assignments one at a time

Provide student with assignment book

Check that homework assignments are written in full detail

Supervise student in writing full assignment in book or provide written instructions

Provide written checklist for getting organized

Provide notebook with dividers and folders for work

Check desk/notebook for neatness: reward it

Provide extra set of books to keep at home

Establish object placement routines

Use color and physical/spatial organizers

Teach organizational/study skills and allow for application and generalization (from Landmark Study Skills Guide)

organizational skills: organizing notebooks and materials, assignments, time, study space

recognizing and formulating main ideas: categorizing main ideas, main ideas in paragraphs, main ideas in multi-paragraph selections

note-taking: from written sources two-column method, from lectures selective, skeleton notes

summarizing: two-column notes, variety of materials, paraphrasing

textbook skills: identifying and using parts of a textbook, previewing before reading, organizing and learning information while reading, reviewing and expressing information after reading

master notebook system: organizing, studying, mastering

test-preparation and test-taking: class review, identifying topics to be studied, determining what kind of questions will be on the test, planning study time, forming study groups, how to approach a test, essay questions, test anxiety

research and report writing: applying study skills to research and report writing

### **Self-Esteem**

Structure of immediate and ongoing success

Provide reassurances and encouragement vs. correction and criticism at a rate of 4:1

Provide reassurances and encouragement vs. correction and criticism at a rate of 10:1

Focus on student strengths, talents and accomplishments

Mark students correct answers rather than mistakes

Catch 'em being good: compliment positive behavior and work

Speak softly in non-threatening manner if Student is agitated

- Tolerate inconsistent performance
- Provide opportunities for student to display responsibility and/or leadership role
- Provide opportunities for student to provide assistance to others
- Make time to talk alone with student
- Encourage social interactions with classmates if withdrawn
- Reinforce frequently or reduce workload when signs of frustration are noticed
- Send positive notes home
- Provide positive role models with similar disability as classroom or assembly speaker

### **Positive Behavioral Intervention**

- Begin day or period with relaxation and guided imagery exercise
- Provide behavioral feedback using written/symbol/quantitative feedback every \_\_\_\_\_ minutes
- Provide instruction in self-monitoring (e.g. hand-raising, using cueing)
- Cue students to stay on task (private signal)
- Ignore minor, inappropriate behavior
- Increase immediacy of rewards or consequences
- Give activity as a reward
- Use time-out procedure for misbehavior
- Permit time-in procedure for agitation and motor release
- Supervise closely during transition times
- Provide praise for positive behavior
- Acknowledge good behavior of other students
- Establish behavior contract with three goals
- Call on student only when hand is raised appropriately
- Ignore calling out without raising hand
- Praise student when hand is raised
- Implement behavior management system
- Implement home-school token system
- Prudent use of negative consequences
- Praise compliant behavior
- Post class rules in conspicuous place
- Provide immediate feedback with teacher attention
- Avoid lecturing or criticism
- \*Consider developing Behavior Intervention Plan when behavior impacts the learning of Student or peers

### **Socialization and Social Skills**

- Provide recess/lunch opportunities indoors with friends (w/structured games, etc.)
- Provide lunch buddies
- Establish social behavior goals and reward program

Prompt appropriate social behavior verbally or with private signal  
Avoid placing student in competitive activities  
Encourage cooperative learning tasks  
Praise student to increase self efficacy  
Assign special responsibilities to student in presence of peers

**Provide small group social skill training in the following areas:**

School-related skills/classroom survival skills (Pre-school: asking a question, following directions, trying when it's hard, interrupting. Elementary: listening, asking for help, saying thank you, bringing materials to class, following instructions, completing assignments, contributing to discussions, offering help to an adult, asking a question, ignoring distractions, making corrections, deciding on something to do, setting a goal.)

Beginning social & friendship-making skills (Pre-school: listening, using nice talk, using brave talk, saying thank you, rewarding yourself, asking for help, asking a favor, ignoring, greeting others, reading others, joining in, waiting your turn, sharing, offering help, asking someone to play, playing a game. Elementary: introducing yourself, beginning a conversation, ending a conversation, joining in, playing a game, asking a favor, offering help to a classmate, giving a compliment, accepting a compliment, suggesting an activity, sharing, apologizing. Adolescent: listening, starting a conversation, having a conversation, asking a question, saying thank you, introducing yourself, introducing other people, giving a compliment, asking for help, joining in, giving instructions, following instructions, apologizing, convincing others.)

**Dealing with feelings**

(Pre-school: knowing your feelings, feeling left out, asking to talk, dealing with fear, deciding how someone feels, showing affection. Elementary/Adolescent: knowing your feelings, expressing your feelings, recognizing another's feelings, showing understanding of another's feelings, expressing concern for another, dealing with your anger, dealing with another's anger, expressing affection, dealing with fear, rewarding yourself.)

Alternatives to aggression (Pre-school: dealing with teasing, dealing with feeling mad, deciding if it's fair, solving a problem, accepting consequences. Elementary: using self-control, asking permission, responding to teasing, avoiding trouble, staying out of fights, problem solving, accepting consequences, dealing with an accusation, negotiating.

**Adolescent:** asking permission, sharing something, helping others, negotiating, using self-control, standing up for your rights, responding to teasing, avoiding trouble with others, keeping out of fights.)

**Dealing with stress**

(Pre-school: relaxing, dealing with mistakes, being honest, knowing when to tell, dealing with losing, wanting to be first, saying no, accepting no, deciding what to do. Elementary: dealing with boredom, deciding what caused a problem, making a complaint, dealing with losing, showing sportsmanship, dealing with being left out, dealing with embarrassment, reacting to failure, accepting no, saying no, relaxing, dealing with group pressure, dealing with wanting something that isn't mine, making a decision, being honest. Adolescent: making a complaint,

answering a complaint, sportsmanship after the game, dealing with embarrassment, dealing with being left out, standing up for a friend, responding to persuasion, responding to failure, dealing with contradictory messages, dealing with an accusation, getting ready for a difficult conversation, dealing with group pressure.)

**Planning skills:** (Adolescents: deciding on something to do, deciding what caused a problem, setting a goal, deciding on your abilities, gathering information, arranging problems by importance, making a decision, concentrating on a task.

## Staying in Compliance

Maintaining compliance with state and federal statutes and regulations is one of the most important tasks of a special education director. The cost in staff time and morale as well as in fiscal resources can be considerable when faced with a compliance complaint. This section is designed to give you proactive strategies to help you stay in compliance.

It begins with a list of the items most often found non-compliant by the State Department of Education in LEA reviews. Following the list of non-compliant items are tips and advice from four legal sources on how to avoid noncompliance. Following the advice of these legal experts should increase substantially your chances of staying in compliance. Many legal questions hinge on the interpretation of law, and attorneys sometimes disagree due to a difference in interpretation. If faced with a legal challenge, it is always recommended to carefully consider the advice and direction of the attorney representing your school's position in the case.

See also Section 8, SELPA Support. Source: California Department of Education

Following is a list of frequently non-compliant items. The items have been identified statewide over the last several years as systemically non-compliant in most LEAs reviewed.

These items include:

- Missed timelines
  - Triennial re-evaluation
  - Annual IEP
- IEP within 60 days of parental consent of Assessment Plan
- Missing or inadequate IEP contents
- How parents will be informed of student progress
- Participation in Statewide Achievement Tests
- Program modifications and supports for school personnel
- Projected dates for initiating services
  - IEP Team
  - No general education teacher (preschool and K-12)
  - If members were excused by the IEP team, the excusal must be in writing with parent agreement.

- Failure to implement the IEP
- Willful and intentional violations of the IDEA can lead to the possibilities of personal liability.

Source: Lozano Smith (permission to use granted)

Lauri A. LaFoe, from Lozano Smith presented “Common Pitfalls and Snags in the IEP Process” at an ACSA Spring Conference, May, 2008. Adapted from her presentation follow.

### **Offer of more than one placement option**

If a district makes an offer of more than one placement option, it may be a denial of FAPE. OAH has interpreted the school’s responsibility to present one appropriate, clear and detailed offer of FAPE. Offering a variety of placements puts an undue burden on a parent to eliminate potentially inappropriate placements, and makes it more difficult for a parent to decide whether to accept or challenge the school district’s offer. Discussion of a range of possible placements during the IEP meeting is, of course, appropriate, but the LEA’s responsibility is to use its expertise to decide which program is best suited for the Student’s particular needs. *Glendale Unified Sch. Dist. v. Almasi*, 33 IDELR 221 (C.D. Cal. 2000)

### **Making no offer of placement**

Often an IEP team will hold off on making a placement offer so parents can go observe one or more possible placements. The problem in this situation is that 1) timelines may pass; 2) another IEP team meeting may not be scheduled in a timely manner. The parents file for due process and the LEA has no offer of FAPE to defend.

Tip: Don’t leave the IEP Team meeting without a clear offer on the table. However, a recess may be necessary when considering a placement outside of MPS such as a contracted special day class placement or a non-public school. In this circumstance, the IEP meeting should reconvene when a representative of the placement can attend. Alternatively, an MPS team member should visit and learn the details of the placement to answer Parent’s questions regarding the placement.

Tip: Parents’ unwillingness to accept a proposed offer is never a reason to fail to make a formal written offer. Send a detailed PWN after the IEP to clarify the offer.

Tip: Review the offer with the parent to make sure it is clear, readable and understandable and ask parents if they have any questions. If they don’t understand what the LEA is offering, be willing to adjust the language and fill in the blanks.

Give parents a contact phone number to call if they have questions.

### **Giving in to parent wishes**

Often IEP teams agree to parent demands in an IEP so as to avoid conflict. This may provide a short term solution but it can also result in additional requests for more services that may not be appropriate for the student or amount to FAPE. For example, don’t place a student in RSP if the team feels a SDC is FAPE for

the student.

Tip: Always ask if the placement is appropriate to address a student's needs.

Tip: Document discussion re: placement options discussed, noting parent participation.

### **Failing to assess in all areas of need and/or address all areas of need**

The assessment plan should address all areas of suspected disability and the assessment needs to cover these areas. Be sure to have a goal for every identified need. If a child is performing at state standards, a goal does not need to be written. If the assessment report indicates that the student has difficulty in handwriting, then the IEP needs to address this skill through a goal in that area or offer accommodations. If report indicates that if a student is having difficulty attending school, then the student may need an attendance goal. Each goal should also be linked to a service or other support.

Tip: Keep a running list of all areas of need identified and make sure that all areas of need have been addressed in the IEP.

Tip: Look at the signed assessment plan to see if parents added notes.

### **Offering related services as a “range”**

Avoid “as needed” or “up to 60 minutes”—the range should be zero. Similarly, the frequency should be as specific as possible. The offer must be clear, i.e. Speech and Language services, 2 times per week for 30 minutes each session, 1 session individually, 1 session group in the speech room at XYZ School. Do not use a number of sessions per year.

Tip: Be clear and concise.

### **Failure to properly identify the Placement/Services**

Placement should be clear and concise. If you list more than one school, you have more than one offer! Don't leave loose ends such as: “Speech therapist will decide...”, “IEP team will determine”, “Behavior consultant will develop”, “To be determined after ESY”.

Tip: Decisions regarding a student's placement and services are made by the IEP team. Don't leave the table without making those decisions and incorporating them into one clear and concise written offer of placement and services.

### **Not considering parent input**

The team must consider and document discussion of any private assessments at some point during the meeting. Always consider parent input and document response to requests or questions. Invite private school staff to attend the IEP meeting if the student attends private school.

Tip: Document that you have considered parent input in the IEP notes.

### **Failure to make a clear ESY offer**

ESY services, like all other placement and services offered to a student, must be written in clear language.

LEA is liable if there is not a clear offer for any programs that student receives during ESY.

Tip: Clearly spell out the ESY offer of placement and services and don't just check a box. Make sure offer is made early enough in the year to ensure adequate time for resolution to be sought and obtained, should parent disagree with offer, prior to commencement of ESY.

### **Rules to Live By:**

1. LISTEN - parents need to be and feel heard
2. RESPOND - answer phone calls and emails promptly, even if only to buy time.
3. FOLLOW THROUGH - Do what you say you'll do, and you will build trust.
4. FOCUS - remember the child; make him or her always the focus. Responses should always relate to the child's needs.
5. SELL YOUR PROGRAMS - Private programs have good marketing. Show your pride in the public programs and explain them to parents.
6. PLAN, PLAN AND THEN PLAN - Plan your meetings. Prepare draft goals and objectives and prepare reporting on goal progress. Prepare an agenda for your meetings. If assessment reports are completed, provide them to the parents so they have an opportunity to read them and think of questions. A district is not required to provide such a copy so many days before IEP Meeting. If completed, however, and parent requests a copy of report before IEP meeting, then their request falls under the 5 day rule.
7. DOCUMENT, DOCUMENT AND THEN DOCUMENT - Avoid misunderstandings. Create a clear record of what transpired because memories do fade. Keeps everyone on the same page. Tapes are student records. Emails may be student records if maintained by the school. Seek advice from your attorney if needed to determine which e-mails are considered records.

**Notices and prior written notice (PWN)** Offer procedural safeguards at the beginning of each IEP meeting. If not handing out Procedural Safeguards, note when they were last given to parent.

1. Required upon initial referrals or parental request for evaluation
2. Required upon filing of complaint
3. Required upon request by parent

If, at the end of the IEP team meeting, there is a disagreement between LEA and parent/s, parent/s should be provided with PWN. PWN is a description of the action proposed or refused by the district, an explanation of why the LEA proposes or refuses to take the action and a description of each evaluation procedure, assessment, record, or report the LEA used as a basis for the proposed or refused action, a statement that the parents have protection under the procedural safeguards, sources for parents to contact to obtain assistance in understanding the law, a description of the other options considered by the IEP team and the reason why those options were rejected and a description of the factors that are relevant to the agency's proposal or refusal. This PWN can be done in the IEP through notes; however, if one element is missing, a new PWN must be written. The PWN must be provided within a reasonable time following the IEP, request or proposal.

**Start with preparation.**

Make sure all staff members have data they need to make contributions.

Assessments and data should lead the way.

Regularly check with parents and parent representatives during IEP (meaningful parent participation).

Take care to make one clear and complete offer which includes clear goals and objectives.

Source: Julie Weatherly - LRP

### **Practical Tips for Staying Out of Due Process**

1. Don't engage in action that appears to be a predetermination of placement or action that appears to deny parental input into decision-making.
2. Don't make educational recommendations/decisions based upon the availability of services.
3. Don't make educational recommendations/decisions based upon cost.
4. Do notify parents of their right to challenge IEP recommendations.
5. Don't make recommendations/decisions based upon inadequate evaluations.
6. Don't respond inappropriately to requests for an Independent Educational Evaluation (IEE).
7. Don't make vague/generalized recommendations regarding least restrictive environment (LRE).
8. Don't be overly specific and include unnecessary details or "promises" in IEPs.
9. Do address extended school year (ESY) services.
10. Do have required school staff at meetings.
11. Don't fail to allow for participation of persons brought by parents.
12. Don't inappropriately refuse to allow tape recording or videotaping of IEP.
13. Don't set out/offer services or amount of services without clarity in IEP.
14. Do address transition activities and provide a summary of performance.
15. Do consider independent evaluative information brought in by parents.
16. Do address behavioral strategies/interventions as part of the IEP.

### **Action to Avoid Outside of the IEP Process**

1. Don't make unilateral changes in placement through the use of suspension or other removal from the current placement.
2. Don't diagnose medical conditions/suggest medication without the credentials for doing so.
3. Do follow time guidelines/requirements and don't create artificial barriers for timely completion of tasks.
4. Don't refuse to identify, evaluate or change the educational placement of a child without the required prior written notice.
5. Don't create unnecessary educational records, especially those that may contain inappropriate material.
6. Do implement the IEP - willful and intentional violations of the IDEA can lead to the possibilities of personal liability.

When preparing documentation of the meeting or the prior written notice of the decisions reached, use language that clearly reflects the efforts of the school district in this regard. Examples:

“The team discussed \_\_\_\_\_ possible placements and the pros and cons of each.”

“The chair asked the parents what alternatives they would like the team to consider.”

“The team agreed to \_\_\_\_\_ in response to parental input.”

“The parent said \_\_\_\_\_ and in response, the team decided \_\_\_\_\_.”

Only the IEP team can make decisions regarding the IEP. Using statements such as the “school decided to \_\_\_\_\_” can result in a finding of predetermination. Thus, avoid oral/written statements such as:

“The school has developed the IEP and is presenting it to the parents today.” Consider instead, “The purpose of the team meeting is to develop the student’s IEP.”

“This meeting is to change the student’s placement from \_\_\_\_\_ to \_\_\_\_\_.” Consider instead, “Today, the team will consider the student’s placement in the LRE, considering a continuum of placement alternatives.”

“The district rejects the report of the independent evaluator.” Consider instead, “The team has reviewed and considered the IEE report and determined no changes to the IEP are needed,” or “the team has adopted the following recommendations made by the outside evaluator....”

## **SPED Service Providers and Outlined Duties**

### **5 CCR §3051: Standards for Related Services and Staff Qualifications**

#### **(a) General Provisions.**

- (1) Related services may be provided to individuals or to small groups in a specialized area of educational need, and throughout the full continuum of educational settings.
- (2) Related services, when needed, are determined by the IEP.
- (3) All entities and individuals providing related services shall meet the qualifications found in 34 C.F.R. sections 300.156(b) and 3001(r) and the applicable portions of section 3051 et seq. and shall be either:
  - (A) Employees of the school district or county office, or
  - (B) Employed under contract pursuant to Education Code sections 56365-56366, or
  - (C) Employees, vendors or contractors of the State Departments of Health Care Services or State Hospitals, or any designated local public health or mental health agency.
- (4) To be eligible for certification to provide related services to individuals with exceptional needs, nonpublic schools and nonpublic agencies shall meet the requirements of this section.
- (5) An individual providing related services out of state, pursuant to sections 56365 and 56366 of the Education Code, as required in a pupil's IEP, must:
  - (A) Hold a current valid credential or license to render that related service as required by that state, and
  - (B) Be employed by a nonpublic, nonsectarian school or agency certified by the CDE.

### **5 CCR §3051.1 Language, Speech and Hearing Development and Remediation**

#### **(a) Language, Speech and Hearing Development and Remediation services include:**

- (1) Referral and assessment of individuals suspected of having a disorder of language, speech, or hearing. Such individuals are not considered as part of the caseload pursuant to Education Code section 56363.3 unless an IEP is developed and services are provided pursuant to sections 3051.1(a)(2) and (3).
  - (2) Specialized instruction and services for individuals with disorders of language, speech, and hearing, including monitoring of pupil progress on a regular basis, providing information for the review, and when necessary participating in the review and revision of IEPs of pupils.
  - (3) Consultative services to pupils, parents, teachers, or other school personnel.
  - (4) Coordination of speech and language services with an individual's regular and special education program.
- (b) Caseloads of full-time equivalent language, speech and hearing specialists providing instruction and services within the district, SELPA, or county office shall not exceed a district-wide, SELPA-wide, or county-wide average of 55 individuals unless prior written approval has been granted by the SSPI.**
- (c) Language and speech development and remediation shall be provided only by personnel who possess:**
- (1) a license in Speech-Language Pathology issued by a licensing agency within the Department of Consumer Affairs; or
  - (2) a credential authorizing language or speech services.

(d) Services may also be provided by speech-language pathology assistants working under the direct supervision of a qualified language, speech, and hearing specialist, as defined in Business and Professions Code section 2530.2(i), and if specified in the IEP. No more than two assistants may be supervised by one qualified language, speech, and hearing specialist. The caseloads of persons in subdivision (b) shall not be increased by the use of assistants.

### § 3051.2. Audiological Services

- (a) In addition to provisions of 34 C.F.R. Section 300.34, audiological instruction and services may include:
- (1) Aural rehabilitation (auditory training, speech reading, language habilitation, and speech conservation) and habilitation with individual pupils or groups and support for the hearing-impaired pupils in the regular classroom.
  - (2) Monitoring hearing levels, auditory behavior, and amplification for all pupils requiring personal or group amplification in the instructional setting.
  - (3) Planning, organizing, and implementing an audiology program for individuals with auditory dysfunctions, as specified in the IEP.
  - (4) Consultative services regarding test findings, amplification needs and equipment, otological referrals, home training programs, acoustic treatment of rooms, and coordination of educational services to hearing-impaired individuals.
- (b) Audiological services shall be provided only by personnel who possess:
- (1) a license in Audiology issued by a licensing agency within the Department of Consumer Affairs; or
  - (2) a credential authorizing audiology services.

### § 3051.3. Orientation and Mobility Instruction

- (a) Orientation and mobility instruction may include:
- (1) Specialized instruction for individuals in orientation and mobility techniques.
  - (2) Consultative services to other educators and parents regarding instructional planning and implementation of the IEP relative to the development of orientation and mobility skills and independent living skills.
- (b) Orientation and mobility instruction shall be provided only by personnel who possess a credential that authorizes services in orientation and mobility instruction.

### § 3051.4. Instruction in the Home or Hospital

(a) Special education and related services provided in the home or hospital for school age pupils is limited to those pupils who have been identified as individuals with exceptional needs in accordance with section 3030 and for whom the IEP team recommends such instructions or services. Note - Placement in the home can be provided

through the IEP process. However, if Student cannot attend school due to a temporary disability unrelated to the student's IEP eligibility, Home-Hospital Instruction ("HHI") cannot be provided by charter school

(b) Instructions may be delivered individually, in small groups or by teleclass.

(c) For those individuals with exceptional needs with a medical condition such as those related to surgery, accidents, short-term illness or medical treatment for a chronic illness, the IEP team shall review, and revise, if appropriate, the IEP whenever there is a significant change in the pupil's current medical condition.

(d) When recommending placement for home instruction, the IEP team shall have in the assessment information a medical report from the attending physician and surgeon or the report of the psychologist, as appropriate, stating the diagnosed condition and certifying that the severity of the condition prevents the pupil from attending a less restrictive placement. The report shall include a projected calendar date for the pupil's return to school. The IEP team shall meet to reconsider the IEP prior to the projected calendar date for the pupil's return to school.

(e) Instruction in the home or hospital shall be provided by a regular class teacher, the special class teacher or the resource specialist teacher, if the teacher or specialist is competent to provide such instruction and services and if the provision of such instruction and services by the teacher or specialist is feasible. If not, the appropriate related services specialist shall provide such instruction.

(f) The teacher providing the home instruction shall contact the pupil's previous school and teacher to determine:

(1) The course work to be covered;

(2) The books and materials to be used;

(3) Who is responsible for issuing grades and promoting the pupil when appropriate;

(4) For pupils in grades 7 to 12, the teacher shall confer with the school guidance counselor to determine:

(A) For the hours the pupil has earned toward semester course credit in each subject included in the IEP and the grade as of the last day of attendance;

(B) Who is responsible for issuing credits when the course work is completed:

(C) Who will issue the diploma if the pupil is to graduate.

#### § 3051.5. Adapted Physical Education for Individuals with Exceptional Needs

(a) Adapted physical education is for individuals with exceptional needs who require developmental or corrective instruction and who are precluded from participation in the activities of the general physical education program, modified general physical education program, or in a specially designed physical education program in a special class. Consultative services may be provided to pupils, parents, teachers, or other school personnel for the purpose of identifying supplementary aids and services or modifications necessary for successful participation in the regular "D" Physical education program or specially designed physical education programs.

(b) Adapted physical education shall be provided only by personnel who possess a credential issued by the California CTC that authorizes service in adapted physical education.

§ 3051.6. Physical and Occupational Therapy

(a) When the district, SELPA, or county office contracts for the services of a physical therapist or an occupational therapist, the following standards shall apply:

(1) Occupational or physical therapists shall provide services based upon recommendation of the IEP team. Physical therapy and occupational therapy services for infants are limited by Education Code section 56426.6. Physical therapy services may not exceed the services specified in the Business and Professions Code section 2620. Occupational therapy services may not exceed the services specified in the Business and Professions Code section 2570.2(k).

(2) The district, SELPA, or county office shall assure that the therapist has available safe and appropriate equipment.

(b) Individuals providing physical or occupational therapy shall be qualified.

(1) Physical therapy shall be provided only by personnel who possess a valid license in Physical Therapy issued by a licensing agency within the Department of Consumer Affairs.

(2) Occupational therapy shall be provided only by personnel who possess a license in occupational therapy issued by a licensing agency within the Department of Consumer Affairs. Services provided by a Certified Occupational Therapist Assistant shall be supervised by a registered occupational therapist in accordance with professional standards outlined by the American Occupational Therapy Association.

§ 3051.7. Vision Services

(a) Vision services may include:

(1) Adaptations in curriculum, media, and the environment, as well as instruction in special skills.

(2) Consultative services to pupils, parents, teachers, and other school personnel.

(b) An assessment of and provision for services to visually impaired pupils may be conducted by an eye specialist who has training and expertise in low vision disabilities and has available the appropriate low vision aids for the purpose of assessment. The eye specialist may provide consultation to the pupil, parents, teacher and other school personnel as may be requested by an IEP team.

(c) Procedures which may be utilized by qualified personnel are those procedures authorized by federal and state laws and regulations and performed in accordance with these laws and regulations and standards of the profession.

(d) For the purposes of this section, and eye specialist shall mean a licensed optometrist, ophthalmologist, or other licensed physician and surgeon who has training and expertise in low vision disabilities.

(e) Vision services shall be provided only by personnel who possess:

- (1) a license as an Optometrist, Ophthalmologist, Physician or Surgeon, issued by a licensing agency within the Department of Consumer Affairs and authorizing the licensee to provide the services rendered, or
- (2) a valid credential authorizing vision instruction or services.

#### § 3051.75. Vision Therapy

- (a) Vision therapy may include: Remedial and/or developmental instruction provided directly by or in consultation with the optometrist, ophthalmologist, or other qualified licensed physician and surgeon provided ongoing care to the individual.
- (b) Vision therapy shall be provided by an optometrist, ophthalmologist, or by appropriate qualified school personnel when prescribed by a licensed optometrist, ophthalmologist, or other qualified licensed physician and surgeon.
- (c) Procedures which may be utilized by qualified personnel are those procedures authorized by federal and state laws and regulations and performed in accordance with these laws and regulations and standards of the profession.

#### § 3051.8. Specialized Driver Training Instruction

- (a) Specialized driver training instruction may include instruction to an individual with exceptional needs to supplement the regular driver training program. The IEP team shall determine the need for supplementary specialized driver training instruction. The need to supplement the regular program shall be based on an assessment of the pupil's health, physical, and/or educational needs which require modifications which cannot be met through a regular driver training program.
- (b) Driver training for individuals herein described must be provided by qualified teachers, as defined by Education Code sections 41906 and 41907.

#### § 3051.9. Counseling and Guidance Services

- (a) Counseling and guidance services may be provided to an individual with exceptional needs who requires additional counseling and guidance services to supplement the regular guidance and counseling program. The IEP team shall determine the need for additional guidance and counseling services.
- (b) Counseling and guidance services necessary to implement the IEP may include:
  - (1) Educational counseling in which the pupil is assisted in planning and implementing his or her immediate and long-range educational program.
  - (2) Career counseling in which the pupil is assisted in assessing his or her aptitudes, abilities, and interests in order to make realistic career decisions.
  - (3) Personal counseling in which the pupil is helped to develop his or her ability to function with social and personal responsibility.

(4) Counseling and consultation with parents and staff members on learning problems and guidance programs for pupils.

(c) Counseling and guidance shall be provided only by personnel who possess a:

(1) license as a Marriage and Family Therapist, or Marriage and Family Therapist Registered Intern who is under the supervision of a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Professional Clinical Counselor, a Licensed Psychologist, or a Physician who is certified in psychiatry by the Medical Board of California, the Board of Behavioral Sciences, or the Board of Psychology, within the Department of Consumer Affairs.

(2) license as a Clinical Social Worker, or Associate Clinical Social Worker who is under the supervision of either a Licensed Clinical Social Worker or a licensed Mental Health Professional by the Board of Behavioral Sciences, within the Department of Consumer Affairs; or

(3) license as an Educational Psychologist issued by a licensing agency within the Department of Consumer Affairs; or

(4) license in psychology, or who are working under supervision of a licensed psychologist, both regulated by the Board of Psychology, within the Department of Consumer Affairs; or

(5) Pupil Personnel Services Credential, which authorizes school counseling or school psychology.

(6) license as a Licensed Professional Clinical Counselor, or a Professional Clinical Counselor Registered Intern who is under the supervision of a Licensed Professional Clinical Counselor, a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Clinical Psychologist, or a Physician who is certified in psychiatry by the American Board of Psychiatry and Neurology.

#### § 3051.10. Psychological Services Other Than Assessment and Development of the IEP

(a) Psychological services may include:

(1) Counseling provided to an individual with exceptional needs by a credentialed or licensed psychologist or other qualified personnel.

(2) Consultative services to parents, pupils, teachers, and other school personnel.

(3) Planning and implementing a program of psychological counseling for individuals with exceptional needs and parents.

(4) Assisting in developing positive behavioral intervention strategies.

(5) This term does not include assessment services and the development of an IEP.

(b) Psychological services required by a student's IEP may be rendered by any of the following professionals who possess the credential or license required by law for the performance of particular psychological services by members of that profession:

- (1) Licensed Educational Psychologist pursuant to Business and Professions Code section 4989.14;
- (2) Licensed Marriage and Family Therapist pursuant to Business and Professions Code section 4980.02;
- (3) Licensed Clinical Social Worker pursuant to Business and Professions Code section 4996.9; or
- (4) Licensed Psychologist pursuant to Business and Professions Code section 2903; or
- (5) Pupil Personnel Services Credential that authorizes school psychology.

#### § 3051.11. Parent Counseling and Training

(a) Parent counseling and training may include:

- (1) Assisting parents in understanding the special needs of their child, and
- (2) Providing parents with information about child development.

(b) Parent counseling and training shall be provided only by personnel who possess a:

- (1) credential that authorizes special education instruction; or
- (2) credential that authorizes health and nursing services; or
- (3) license as a Marriage and Family Therapist, or Marriage and Family Therapist Registered Intern who is under the supervision of a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Professional Clinical Counselor, a Licensed Psychologist, or a Physician who is certified in psychiatry by the Medical Board of California, the Board of Behavioral Sciences, or the Board of Psychology, within the Department of Consumer Affairs; or
- (4) license as a Clinical Social Worker, or Associate Clinical Social Worker who is under the supervision of either a Licensed Clinical Social Worker or a licensed Mental Health Professional by the Board of Behavioral Sciences, within the Department of Consumer Affairs; or
- (5) license as an Educational Psychologist, issued by a licensing agency within the Department of Consumer Affairs; or
- (6) license as a Psychologist, or who are working under the supervision of a licensed Psychologist, both regulated by the Board of Psychology, within the Department of Consumer Affairs; or
- (7) Pupil Personnel Services Credential that authorizes school counseling or school psychology or school social work.
- (8) license as a Licensed Professional Clinical Counselor, or a Professional Clinical Counselor Registered Intern who is under the supervision of a Licensed Professional Clinical Counselor, a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Clinical Psychologist, or a Physician who is certified in psychiatry by the American Board of Psychiatry and Neurology.

#### § 3051.12. Health and Nursing Services

(a) Health and nursing services may include:

- (1) Providing services by qualified personnel.
- (2) Managing the individual's health problems on the school site.
- (3) Consulting with pupils, parents, teachers, and other personnel.
- (4) Group and individual counseling with parents and pupils regarding health problems.
- (5) Maintaining communication with health agencies providing care to individuals with disabilities.

(b) Specialized physical health care may be provided as described in Education Code section 49423.5.

(1) Definitions.

(A) Specialized physical health care services means those health services prescribed by the child's licensed physician and surgeon requiring medically related training for the individual who performs the services and which are necessary during the school day to enable the child to attend school.

(B) Standardized procedures means protocols and procedures developed through collaboration among school or hospital administrators and health professionals, including licensed physicians and surgeons and nurses, to be utilized in the provision of the specialized physical health care services.

(C) Qualified means the ability to demonstrate competence in Cardio-Pulmonary Resuscitation, current knowledge of community emergency medical resources, and skill in the use of equipment and performance of techniques necessary to provide specialized physical health care services for individuals with exceptional needs. In addition:

1. "Qualified" for the professional school or public health nurse or licensed physician and surgeon shall mean trained in the procedures to a level of competence and safety which meets the objectives of the training.
2. "Qualified" for the designated school personnel shall mean trained in the procedures to a level of competence and safety which meets the objectives of the training as provided by the school nurse, public health nurse, licensed physician and surgeon, or other programs which provide the training.

(D) Supervision means review, observation, and/or instruction of a designated school person's performance and of physical health care services, but does not necessarily require the immediate presence of the supervisor at all times.

1. Immediate supervision means that the supervisor shall be physically present while a procedure is being administered.
2. Direct supervision means that the supervisor shall be present in the same building as the person being supervised and available for consultation and/or assistance.
3. Indirect supervision means that the supervisor shall be available to the qualified designated school person either in person or through electronic means to provide necessary instruction, consultation, and referral to appropriate care and services as needed. Supervision of designated school persons shall include review on-site by a qualified school nurse, qualified public health nurse, or qualified licensed physician and surgeon. Supervision shall also include review of the competence of that individual in performing the specialized health care service, maintenance of appropriate records, physical environment, and equipment.

(E) Training means preparation in the appropriate delivery and skillful performance of specialized physical health care services. In addition:

1. Medically related training of credentialed school nurses or public health nurses shall be that training in an approved program which may be necessary to update or make current the nurse's professional skills and knowledge related to meeting pupils' needs for specialized physical health care services.

2. Medically related training of employed designated school personnel is that training in an approved program in standardized procedures provided by a qualified school nurse, qualified public health nurse, qualified licensed physician and surgeon, or other approved programs to enable the person to provide the specialized physical health care services necessary to enable the child to attend school.

(F) Competence in Cardio-Pulmonary Resuscitation means possession of a current valid certificate from an approved program.

(2) Standards and Staffing.

(A) Allocation of qualified designated school personnel shall be determined by the amount and type of supervision necessary to this regulation, and also the type and frequency of services needed by students in special classes and centers, and regular instructional settings.

(B) Approved training for qualified personnel shall be provided in one or more of the following ways:

1. By a qualified school nurse, qualified public health nurse, or qualified licensed physician and surgeon, as defined in these regulations.
2. By career and continuing education programs, approved by the appropriate licensing board.
3. By training programs through public or private medical institutions, i.e., hospitals, public health agencies, Visiting Nurses Associations, and Red Cross.

(3) Organization and Administration.

(A) Specific continuing specialized physical health care services required in order for the individual to benefit from special education will be included in the individualized education program. If the parent elects to perform the service during the school day, a waiver shall be signed relieving the school of the responsibility.

(B) Appropriate accommodations for safety and necessary physical care services for the individual with exceptional needs in the school setting shall be provided by the school. Personal privacy and dignity of an individual with exceptional needs shall be assured.

(C) The school district shall not be required to purchase medical equipment for an individual pupil. However, the school district, SELPA, or county office is responsible for providing other specialized equipment for use at school that is needed to implement the IEP.

(D) In accordance with Education Code section 49423.5(a)(2), a qualified school nurse, qualified public health nurse, or qualified licensed physician and surgeon responsible for supervising the physical health care of an individual with exceptional needs in the school setting shall:

1. Coordinate the health care services to the individuals with exceptional needs on the school site.
2. Consult with appropriate personnel regarding management of health care services for individuals with exceptional needs.
3. Make appropriate referrals and maintain communication with health agencies providing care to individuals with exceptional needs.

4. Maintain or review licensed physician and surgeon and parent requests and daily documentation records.  
 (E) Written licensed physician and surgeon and parent requests, as well as the specific standardized procedures to be used if physical health care services are provided, shall be maintained for each individual with exceptional needs. Daily documentation of specific services which are provided shall be maintained on a district-approved form which shall include the signatures of the qualified designated school person(s) who performs the procedure.

1. Any pupil who is required to have specialized physical health care services during the school day, prescribed for him or her by a licensed physician and surgeon, may be assisted by a qualified school nurse, qualified public health nurse, or other qualified school personnel, if the school district receives:

a. A written statement from the licensed physician and surgeon stating the procedure and time schedules by which such procedures are to be given; and

b. A written statement from the parent or guardian of the pupil, indicating the desire that the school district assist the pupil in the matters set forth in the licensed physician and surgeon's statement, and granting consent for the delivery of such services.

2. This written statement of a licensed physician and surgeon and parent requests and daily documentation shall be maintained in accordance with the requirements of confidentiality of pupil records, and are considered mandatory interim pupil records.

#### § 3051.13. Social Worker Services

(a) Social work services may include:

(1) Individual and group counseling with the individual and his or her immediate family.

(2) Consultation with pupils, parents, teachers, and other personnel regarding the effects of family and other social factors on the learning and developmental requirements of individual pupils with exceptional needs.

(3) Developing a network of community resources, making appropriate referral and maintaining liaison relationships among the school, the pupil with exceptional needs, the family, and the various agencies providing social, income maintenance, employment development, mental health, or other developmental services.

(b) Social worker services shall be provided only by personnel who possess a:

(1) license as a Clinical Social Worker, or Associate Clinical Social Worker who is under the supervision of either a Licensed Clinical Social Worker or a licensed Mental Health Professional by the Board of Behavioral Sciences, within the Department of Consumer Affairs; or

(2) license as a Marriage and Family Therapist, or Marriage and Family Therapist Registered Intern who is under the supervision of a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Professional Clinical Counselor, a Licensed Psychologist, or a Physician who is certified in psychiatry by the Medical Board of California, the Board of Behavioral Sciences, or the Board of Psychology, within the Department of Consumer Affairs; or

(3) credential authorizing school social work.

(4) license as a Licensed Professional Clinical Counselor, or a Professional Clinical Counselor Registered Intern who is under the supervision of a Licensed Professional Clinical Counselor, a Licensed Marriage and Family Therapist, a Licensed Clinical Social Worker, a Licensed Clinical Psychologist, or a Physician who is certified in psychiatry by the American Board of Psychiatry and Neurology

§ 3051.14. Specially Designed Vocational Education and Career Development

(a) Specially designed vocational education and career development for individuals with exceptional needs regardless of severity of disability may include:

- (1) Providing prevocational programs and assessing work-related skills, interests, aptitudes, and attitudes.
- (2) Coordinating and modifying the regular vocational education program.
- (3) Assisting individuals in developing attitudes, self-confidence, and vocational competencies to locate, secure, and retain employment in the community or sheltered environment, and to enable such individuals to become participating members of the community.
- (4) Establishing work training programs within the school and community.
- (5) Assisting in job placement.
- (6) Instructing job trainers and employers as to the unique needs of the individuals.
- (7) Maintaining regularly scheduled contact with all workstations and job-site trainers.
- (8) Coordinating services with the Department of Rehabilitation and other agencies as designated in the IEP.

(b) Specially designed vocational education and career development shall be provided only by personnel who possess:

- (1) an adult education credential with a career development authorization; or
- (2) a credential that authorizes instruction in special education or vocational education; or
- (3) a Pupil Personnel Services Credential that authorizes school counseling

§ 3051.15. Recreation Services

(a) Recreation services include but are not limited to:

- (1) Therapeutic recreation services which are those specialized instructional programs designed to assist pupils in becoming as independent as possible in leisure activities, and when possible and appropriate, facilitate the pupil's integration into regular recreation programs.
- (2) Recreation programs in schools and the community which are those programs that emphasize the use of leisure activity in the teaching of academic, social, and daily living skills; and, the provision of nonacademic and extracurricular leisure activities and the utilization of community recreation programs and facilities.
- (3) Leisure education programs which are those specific programs designed to prepare the pupil for optimum independent participation in appropriate leisure activities, including teaching social skills

necessary to engage in leisure activities, and developing awareness of personal and community leisure resources.

(b) Recreation services shall be provided only by personnel who possess:

- (1) a certificate issued by the California Board of Recreation and Park Certification; or
- (2) a certificate issued by the National Council for Therapeutic Recreation; or
- (3) the National Recreation and Park Association, authorizing services in recreation or therapeutic recreation.

#### § 3051.16. Specialized Services for Low-Incidence Disabilities

(a) Specialized services for low-incidence disabilities may include:

- (1) Specially designed instruction related to the unique needs of pupils with low-incidence disabilities provided by teachers credentialed pursuant to Education Code section 44265.
- (2) Specialized services related to the unique needs of pupils with low-incidence disabilities provided by qualified individuals such as interpreters, notetakers, readers, transcribers, and other individuals who provide specialized materials and equipment.

(b) An “educational interpreter” provides communication facilitation between students who are deaf or hard of hearing, and others, in the general education classroom and for other school-related activities, including extracurricular activities, as designated in a student's IEP.

(c) An educational interpreter shall be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of 4.0 or above on the Educational Interpreter Performance Assessment (EIPA), the Educational Sign Skills Evaluation-Interpreter and Receptive (ESSE-I/R), or the National Association of the Deaf/American Consortium of Certified Interpreters (NAD/ACCI) assessment. If providing Cued Language transliteration, a transliterator shall possess Testing/Evaluation and Certification Unit (TECUnit) certification, or have achieved a score of 4.0 or above on the EIPA - Cued Speech.

(d) Specialized services for pupils with low-incidence disabilities shall be provided only by personnel who possess a credential that authorizes services in special education or clinical rehabilitation services in the appropriate area of disability.

#### § 3051.17. Services for Pupils with Chronic Illnesses or Acute Health Problems

(a) Specialized services may be provided to pupils determined eligible pursuant to section 3030(f). Such services include but are not limited to:

- (1) Individual consultation;
- (2) Home or hospital instruction; and
- (3) Other instructional methods using advanced communication technology.

(b) For pupils whose medical condition is in remission or in a passive state, the IEP team shall specify the frequency for monitoring the pupil's educational progress to assure that the illness does not interfere with the pupil's educational progress.

(c) When a pupil identified pursuant to section 3030(f) experiences an acute health problem which results in his or her non-attendance at school for more than five consecutive days, upon notification of the classroom teacher or the parent, the school principal or designee shall assure that an IEP team is convened to determine the appropriate educational services.

(d) If there is a pattern of sporadic illness, the IEP team shall convene to consider alternative means for the pupil to demonstrate competencies in the required course of study so that the cumulative number of absences do not prevent educational progress.

#### § 3051.18. Related Services for the Deaf and Hard of Hearing

(a) Instruction and services for deaf and hard of hearing pupils shall be provided by an individual holding an appropriate credential, who has competencies to provide services to the hearing impaired and who has training, experience and proficient communication skills for educating pupils with hearing impairments. Such services may include but need not to be limited to:

- (1) Speech, speech reading and auditory training.
- (2) Instruction in oral, sign, and written language development.
- (3) Rehabilitative and educational services for hearing impaired individuals to include monitoring amplification, coordinating information for the annual review, and recommending additional services.
- (4) Adapting curricula, methods, media, and the environment to facilitate the learning process.
- (5) Consultation to pupils, parents, teachers, and other school personnel as necessary to maximize the pupil's experience in the regular education program.

(b) A specially trained instructional aide, working with and under the direct supervision of the credentialed teacher of the deaf and hard-of-hearing, may assist in the implementation of the pupil's educational program.

#### § 3051.19. Assistive Technology Service

(a) "Assistive technology service" means any service that directly assists an individual with exceptional needs in the selection or use of an assistive technology device that is educationally necessary. The term includes the evaluation of the needs of an individual with exceptional needs including a functional evaluation of the individual in the individual's customary environment; coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education programs and rehabilitation plans and programs; training or technical assistance for an individual with exceptional needs or, where appropriate, the family of an individual with exceptional needs or, if appropriate, that individual's family; and training or technical assistance for professionals (including individuals providing education and rehabilitation services), employers or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of individuals with exceptional needs.

(b) Assistive technology services shall be provided only by personnel who possess a:

- (1) license in Physical Therapy issued by a licensing agency within the Department of Consumer Affairs, where the utilization of assistive technology services falls within the scope of practice of physical therapy as defined in Business and Professions Code section 2620 and implementing regulations; or
- (2) license in Occupational Therapy issued by a licensing agency within the Department of Consumer Affairs; or
- (3) license in Speech-Language Pathology issued by a licensing agency within the Department of Consumer Affairs or a valid document, issued by the California CTC, where the function of the assistive technology service is augmentative communication; or
- (4) baccalaureate degree in engineering with emphasis in assistive technology; or
- (5) baccalaureate degree in a related field of engineering with a graduate certificate in rehabilitation technology or assistive technology; or
- (6) certification from the Rehabilitation Engineering and Assistive Technology Society of North America and Assistive Technology Provider (RESNA/ATP); or
- (7) certificate in assistive technology applications issued by a regionally accredited post-secondary institution; or
- (8) credential that authorizes special education of physically impaired, orthopedically impaired, or severely impaired pupils.

#### [§ 3051.20. Early Education Programs](#)

(a) “Early education” means the program and services specified by Education Code section 56425 et. seq.

(b) Early education programs for children with disabilities, as defined in Education Code section 56426, shall be provided only by personnel who meet the appropriate personnel qualifications set forth in this article and comply with Education Code section 56426.2.

#### [§ 3051.21. Music Therapy](#)

(a) According to the Certification Board for Music Therapists “Music therapy is the specialized use of music by a credentialed professional who develops individualized treatment and supportive interventions for people of all ages and ability levels to address their social, communication, emotional, physical, cognitive, sensory and spiritual needs.”

(b) Music therapy shall be provided only by personnel who hold a Music Therapist - Board Certified credential from the Certification Board for Music Therapists (CBMT) on the completion of all academic and clinical training requirements, and after successfully passing the CBMT National Board Certification Examination.

#### [§ 3051.22. Transcription Services](#)

Transcribers for visually impaired pupils shall have a certificate issued by the Library of Congress as a Braille Transcriber.

§ 3051.23. Behavioral Intervention

(a) Pursuant to Education Code section 56520, behavioral interventions shall be designed or planned only by personnel who have a:

- (1) Pupil Personnel Services Credential that authorizes school counseling or school psychology; or
- (2) credential authorizing the holder to deliver special education instruction; or
- (3) license as a Marriage and Family Therapist certified by the Board of Behavioral Sciences, within the Department of Consumer Affairs; or
- (4) license as a Clinical Social Worker by the Board of Behavioral Sciences, within the Department of Consumer Affairs; or
- (5) license as an Educational Psychologist issued by a licensing agency within the Department of Consumer Affairs; or
- (6) license in psychology regulated by the Board of Psychology, within the Department of Consumer Affairs; or
- (7) master's degree issued by a regionally accredited post-secondary institution in education, psychology, counseling, behavior analysis, behavior science, human development, social work, rehabilitation, or in a related field.

(b) To provide behavioral intervention, including implementation of behavior intervention plans, but not including development or modification of behavior intervention plans, an LEA shall deliver those services using personnel who:

- (1) possess the qualifications under subdivision (a); or
  - (2)(A) are under the supervision of personnel qualified under subdivision (a); and
- (B) possess a high school diploma or its equivalent; and
- (C) receive the specific level of supervision required in the pupil's IEP.

§ 3051.24. Other Related Services

Other related services not identified in sections 3051.1 through 3051.23 shall be provided only by staff who possess a:

- (a) license to perform the service issued by an entity within the Department of Consumer Affairs or another state licensing office; or
- (b) credential issued by the California CTC authorizing the service.

## INTERVENTION: Protocol for Responding to Students at Risk for Suicide

The following are general procedures for the administrator/designee to respond to reports of students at risk for suicide or exhibiting self-injurious behaviors.

The urgency of the situation will dictate the order and applicability in which the subsequent steps are followed

### A. Respond Immediately

1. Report concerns or incidents to the administrator/designee immediately or as soon as possible. Make direct contact with the administrator/designee. For example, do not wait until the end of the day or leave a note, send an e-mail, or leave a voicemail without ensuring that the message was received.
2. Supervise the student at all times. Ensure that any student sent to the office for assessment is accompanied by a staff member, not a student.

### B. Secure the Safety of the Student

1. For immediate, emergency life threatening situations call 911.
2. Supervise the student at all times.
3. If appropriate, conduct an administrative search of the student to ensure there is no access to means, such as razor blades or pills.
4. If a student is agitated, unable to be contained or there is a need for immediate assistance, contact the local law enforcement agency.
5. Magnolia employees should not transport students. This does not pertain to LASPD/ or LAPD officers.
6. If the school receives information that the student may pose a danger to self and/or others but is not in attendance, contact local law enforcement to conduct a welfare check to determine the safety and well-being of the student.

### C. Assess for Suicide Risk

1. The administrator/designee or designated school site crisis team member should gather essential background information that will help with assessing the student's risk for suicide (e.g., what the student said or did, information that prompted concern or suspicion, copies of any concerning writings, drawings, text messages, social media, or previous anecdotal behavioral history).
2. The administrator/designee or the designated school site crisis team member should meet with the student to complete a risk assessment.

Based on the information gathered and assessment of the student, the assessing party should collaborate with at least one other designated school site crisis team member to determine the level of risk.

3. If the assessing party makes phone calls for consultation, these should be made in a confidential setting and not in the presence of the student of concern. The student should be supervised at all times by another designated staff member.

The privacy of all students should be protected at ALL times. Disclose information only on right to know and need to know basis.

#### D. Communicate with Parent/Guardian

The administrator/designee or designated school site crisis team member should contact the parent/guardian or consult the emergency card for an appropriate third party. When communicating with parent/guardian:

1. Share concerns and provide recommendations for safety in the home (e.g., securing/removing firearms, medications, cleaning supplies, cutlery, razor blades).
2. If the student is transported to the hospital, communicate a plan for re-entry pursuant to Magnolia's Student Re-Entry Guidelines.

Complete and provide parent/guardian an invitation to a Safety plan meeting for Parent/Guardian which outlines steps to facilitate a positive transition back to school.

3. Provide school and/or local community mental health resources to parents.

Students with private health insurance should be referred to their health care provider.

4. Facilitate contact with community agencies and follow-up to ensure access to services.

5. Provide a copy of Suicide Prevention Awareness for parents (Attached to this memo)

for Parents/Caregivers.

6. Obtain parent/guardian permission to release and exchange information with community agency staff using Parent/Guardian Authorization for Release/Exchange of Information form.

#### E. Determine Appropriate Action Plan

The assessing party should collaborate with at least one other designated school site crisis team member to determine appropriate action(s) based on the level of risk. Refer to Attachment C - Suicide Risk Assessment Levels, Warning Signs & Action Plan Options. Action items should be based upon the severity and risk of suicide. There are circumstances that might increase a student's suicide risk.

Examples may include: bullying, suspension, expulsion, relationship problems, significant loss, interpersonal conflict, or sexual orientation/gender bias.

The action plan determined should be documented and managed by the school site administrator/designee.

Actions may include:

1. Develop a safety plan. A safety plan is a prioritized list of coping strategies and resources that a student may use before, during, or after a suicidal crisis.
  - a. Throughout the safety planning process, the likelihood of the student implementing the steps should be assessed and potential obstacles should be identified. A collaborative problem solving approach should be used to address any potential barriers to the student utilizing the safety plan.
  - b. If the student enrolls in a new school, the safety plan should be reviewed with the new school site crisis team to ensure continuum of care and revised as needed.
2. Follow student re-entry guidelines. See Student Reentry Guidelines for a checklist of action items to consider and Create a Sign-in Sheet for Meeting to document participation in any re-entry or safety planning meeting.
  - a. A student returning to school following psychiatric evaluation or hospitalization, including psychiatric and drug/alcohol inpatient treatment, must have written permission by a licensed California health care provider to attend school (see Attachment Medical Clearance for Return to School).
  - b. If the student has been out of school for any length of time, including mental health hospitalization, the school site administrator/designee may consider holding a re-entry meeting with key support staff, parents, and student to facilitate a successful transition.
  - c. As appropriate, consider an assessment for special education for a student whose behavioral and emotional needs affect their ability to benefit from their educational program
  - d. Counseling and Educationally Related Intensive Counseling
  - e. Services (ERICS) for Students with Disabilities shared with school psychologists.
3. Mobilize a support system and provide resources.
  - Resource Guide.
    - a. Connect student and family with social, school and community supports.
    - b. For mental/physical health services, refer the student to the nearest Wellness Center, a community resource provider, or their health care provider.
4. Monitor and manage.
  - a. The administrator/designee should monitor and manage the case as it develops and until it has been determined that the student no longer poses an immediate threat to self.
  - b. Maintain consistent communication with appropriate parties on a need to know basis.
  - c. If the parent/guardian is not following the safety recommendations, a suspected child abuse report may be filed.

## **Important Considerations**

The following are clarifications of some of the action plan options noted above:

1. When Certificated Staff Accompany a Student to the Hospital If PMRT or law enforcement determines that the student will be transported to an emergency hospital/medical facility, the school site administrator should designate a certificated staff member to accompany the student if:
  - a. The student requests the presence of a staff member.
  - b. The school is unable to make contact with the parent/guardian.
  - c. Parent/guardian is unavailable to meet the student at the hospital.
  - d. Deemed appropriate pursuant to circumstances, such as age, developmental level, or pertinent historical student information.
2. Providing Information for a Psychiatric Evaluation:
  - a. If the student will be transported, the assessing party should complete A Summary of Relevant Student Information, indicating summary of incident and pertinent historical information.
  - b. This document should be provided to PMRT or law enforcement prior to transporting to an emergency hospital.
  - c. Completion of the Summary of Relevant Student Information.

## G. Document All Actions

1. The administrator/designee shall maintain records and documentation of actions taken at the school for each case by completing an incident report and Risk Assessment Referral Document (All Psychologists have this document)

\* Your administrative designee can be your school psychologist, dean or sped coordinator. It must be a certificated personnel in order for our insurance to cover any incidents.

## Common Acronyms Used in California Special Education

<u>ACRONYM</u>	<u>MEANING</u>
<u>504</u>	<u>Section 504 of the Rehabilitation Act</u>
<u>ADA</u>	<u>Americans with Disabilities Act</u>
<u>ADR</u>	<u>Alternative Dispute Resolution</u>
<u>ALJ</u>	<u>Administrative Law Judge</u>
<u>AT</u>	<u>Assistive Technology</u>
<u>CAC</u>	<u>Community Advisory Committee on Special Education</u>
<u>CASE</u>	<u>Community Alliance for Special Education</u>
<u>CCS</u>	<u>California Children's Services</u>
<u>CDE</u>	<u>California Department of Education</u>
<u>CDC</u>	<u>California Diagnostic Centers</u>
<u>CAHSEE</u>	<u>California High School Exit Exam</u>
<u>DIS</u>	<u>Designated Instruction and Services</u>
<u>DOE</u>	<u>U.S. Department of Education</u>
<u>DOR</u>	<u>Department of Rehabilitation</u>

<b><u>DREDF</u></b>	<b><u>Disability Rights Education and Defense Fund</u></b>
<b><u>FAPE</u></b>	<b><u>Free and Appropriate Public Education</u></b>
<b><u>FERPA</u></b>	<b><u>Family Educational Rights and Privacy Act</u></b>
<b><u>IDEA</u></b>	<b><u>Individuals with Disabilities Education Act</u></b>
<b><u>IEE</u></b>	<b><u>Independent Educational Evaluation</u></b>
<b><u>IEP</u></b>	<b><u>Individualized Educational Program</u></b>
<b><u>IFSP</u></b>	<b><u>Individualized Family Service Plan</u></b>
<b><u>IPP</u></b>	<b><u>Individual Program Plan (Regional Center)</u></b>
<b><u>LEA</u></b>	<b><u>Local Education Agency</u></b>
<b><u>LRE</u></b>	<b><u>Least Restrictive Environment</u></b>
<b><u>NCLB</u></b>	<b><u>No Child Left Behind</u></b>
<b><u>OAH</u></b>	<b><u>Office of Administrative Hearings</u></b>
<b><u>OCR</u></b>	<b><u>U.S. Office for Civil Rights</u></b>
<b><u>OEO</u></b>	<b><u>Office of Equal Opportunity / CDE</u></b>

<b><u>SLP</u></b>	<b><u>Speech Language Pathologist</u></b>
<b><u>SPED</u></b>	<b><u>Special Education</u></b>

## Glossary of Terms

<u>TERM</u>	<u>MEANING</u>
<u>Accommodation</u>	<u>A change in curriculum or instruction that does not substantially modify the requirements of the class or alter the content standards or benchmarks.</u>
<u>Adapted Physical Education (APE)</u>	<u>A diversified program of developmental activities, games, sports, and rhythms suited to the interests, capabilities and needs of students with disabilities who may not successfully engage in a regular physical education program.</u>
<u>Administrative Law Judges (ALJs)</u>	<u>Judges provided by OAH to conduct Due Process Hearings in a manner similar to civil court trials. They are neutral fact-finders, fully independent of the agencies whose attorneys appear before them.</u>
<u>Alternative Dispute Resolution (ADR)</u>	<u>Alternative opportunities for parties to resolve disputes collaboratively and avoid litigation, typically through negotiation, mediation, or arbitration.</u>
<u>Assessment</u>	<u>Any systematic method of obtaining information from tests and other sources; used to draw inferences about characteristics of people, objects, or programs. An initial evaluation (or periodic re-evaluation) to determine whether a child is a child with a disability and to determine the educational needs of this child.</u>
<u>Assistive Technology (AT) Device</u>	<u>Any piece of equipment used to increase, maintain, or improve functional capabilities of individuals with disabilities.</u>

<u>Assistive Technology (AT) Service</u>	<u>Any service that directly assists an eligible individual in selecting, acquiring, or using an assistive technology device.</u>
<u>California Diagnostic Center (CDC)</u>	<u>California Diagnostic Centers in Fremont, Fresno and Los Angeles serve northern, central and southern CA to provide no cost assessment and educational planning services. Requests for services must be generated by referral from the school district.</u>
<u>Compliance Complaint</u>	<u>A formal assertion in writing that agreed upon services and supports in an IEP have not been delivered, or that the school district has violated IDEA mandates.</u>
<u>Curriculum</u>	<u>The subject matter that is to be learned, usually described in terms of scope and sequence.</u>
<u>Curriculum -based Assessment</u>	<u>A methodology in special education in which a child's progress in the curriculum is measured at frequent intervals.</u>
<u>Due Process</u>	<u>In general, a course of legal proceedings according to rules and principles established for enforcement and protection of private rights. Essential components of due process are "notice" and "a meaningful opportunity to be heard."</u>
<u>Due Process Hearing</u>	<u>The formal, legal procedure guaranteed by federal law to resolve disputes relating to the education of IDEA-eligible children with disabilities to ensure that each receives a free and appropriate public education (FAPE) tailored to his/her unique needs.</u>
<u>Extended School Day</u>	<u>A provision for a special education student to receive instruction for a period longer than the standard school day.</u>

<u>Extended School Year (ESY)</u>	<u>A provision for a special education student to receive Specialized Academic instruction and DIS services during ordinary school vacation periods.</u>
<u>Facilitated IEP</u>	<u>A group leadership process in which a trained individual helps keep the IEP discussion focused on your student and the education issues.</u>
<u>Family Educational Rights and Privacy Act (FERPA)</u>	<u>A federal law that regulates the management of student records and disclosure of information from those records, with its own administrative enforcement mechanism.</u>
<u>Free Appropriate Public Education (FAPE)</u>	<u>Special education and related services are provided to students with disabilities at public expense and under public supervision and direction at no cost to the student's parents.</u>
<u>Functional Analysis Assessment (FAA)</u>	<u>An evaluation process to understand the purpose, motivation, and correlates of challenging behavior(s) in order to develop a positive and appropriate Behavior Intervention Plan (BIP), instructional supports and services.</u>
<u>Functional Curriculum (Life Skills Curriculum)</u>	<u>A curriculum focused on practical life skills and usually taught in community-based settings with concrete materials that are a regular part of everyday life.</u>

<b><u>Goals and Objectives</u></b>	<b><u>A written component of an IEP: skills the student is expected to reasonably achieve in one year maximum (reviewed and re-evaluated by the IEP team at least annually).</u></b>
<b><u>Inclusion [or] Inclusive Education</u></b>	<b><u>A belief that every student is entitled to an instructional program that meets his or her individual needs and learning characteristics; a commitment to build and maintain an assured sense of belonging for all students, regardless of strengths or challenges.</u></b>
<b><u>Independent Educational Evaluation (IEE)</u></b>	<b><u>An independent evaluation of a student from a qualified person. Parents have the right to ask for and obtain an IEE if they disagree with the results of an assessment conducted by the school district. Any IEE must be considered at the IEP.</u></b>
<b><u>Individuals with Disabilities Education Act (IDEA)</u></b>	<b><u>Federal law that entitles students with disabilities to special education services.</u></b>
<b><u>Individualized Education Program (IEP)</u></b>	<b><u>The annually written record of an eligible individual's special education and related services, describing the unique educational needs of the student and the manner in which those educational needs will be met.</u></b>
<b><u>IEP Meeting</u></b>	<b><u>A gathering required at least annually under IDEA in which an IEP is developed for a student receiving special education.</u></b>

<b><u>IEP Team (Minimum Required Members)</u></b>	<b><u>Parent or legal Surrogate; Student, when necessary; one general education and one special education teacher both responsible for implementing the IEP; LEA representative qualified to provide/supervise provision of specialized instruction, knowledgeable about the general curriculum and the resources of the district. (CA law requires this be someone other than the child’s teacher); Person(s) who conducted assessment(s) or knowledgeable enough to explain/interpret the results; People with specific expertise or knowledge of the student. (Optional: Attorneys or advocates)</u></b>
<b><u>Individualized Family Service Plan (IFSP)</u></b>	<b><u>A written plan for providing early intervention services to an eligible child with a disability (from birth to 3rd birthday) and to the child’s family.</u></b>
<b><u>Insufficient</u></b>	<b><u>Not meeting the legal requirement of IDEA by failing to provide the necessary detailed information and evidence to support a Due Process Complaint.</u></b>
<b><u>Least Restrictive Environment (LRE)</u></b>	<b><u>A federal mandate stipulating that, to the maximum extent possible, students with disabilities be educated with their non-disabled peers.</u></b>
<b><u>Local Education Area (LEA)</u></b>	<b><u>A school district or Charter School responsible for providing special education.</u></b>
<b><u>Mainstreaming</u></b>	<b><u>This lay term doesn’t appear in law. It refers to IDEA’s preference for the education of every child in the least restrictive environment (LRE); most widely refers to participation of students with disabilities in general education, as opposed to segregated, classrooms.</u></b>

<u>Mediation (Mediation-Only)</u>	<u>A voluntary alternative dispute resolution (ADR) process that may be requested PRIOR to filing a Due Process Complaint. It is not a prerequisite to filing.</u>
<u>Mediation (Formal Due Process)</u>	<u>A voluntary alternative dispute resolution (ADR) process that may occur AFTER a Due Process Complaint is filed. Office of Administrative Hearing (OAH) provides mediators.</u>
<u>Modification</u>	<u>A change in curriculum or instruction that substantially alters the requirements of the class or its content standards or benchmarks.</u>
<u>Office for Civil Rights (OCR)</u>	<u>An agency of the federal government's executive branch within the Department of Education that is charged with enforcing a number of civil rights statutes including Section 504 of the Rehabilitation Act.</u>
<u>Office of Equal Opportunity (OEO)</u>	<u>An office within the CA Dept. of Education to advise the State Superintendent of Public Instruction, CDE staff, and the State Board of Education on legal matters to ensure equal, fair, and meaningful access to its employment and program services.</u>
<u>Office of Special Education Programs (OSEP)</u>	<u>An office within OSERS (see below) charged with assuring that the various states comply with IDEA.</u>

<p><u>Office of Special Education and Rehabilitati ve Services (OSERS)</u></p>	<p><u>An agency of the federal government’s executive branch within the Department of Education (DOE).</u></p>
<p><u>Parent Training and Information Center (PTI)</u></p>	<p><u>The designated agency that offers workshops and training on special education rights and responsibilities in a parent’s locale.</u></p>
<p><u>Placement</u></p>	<p><u>The unique combination of facilities, personnel, location or equipment necessary to provide instructional services to meet the goals as specified in the student’s IEP. placement is a set of services, not a location.</u></p>
<p><u>Prior Written Notice (PWN)</u></p>	<p><u>Prior written notice is a document sent at "a reasonable time" before the public agency proposes or refuses to initiate or change the identification, evaluation, educational placement, or the provision of FAPE..</u></p>
<p><u>Procedural Safeguards and Referral</u></p>	<p><u>An office of the CA Dept. of Education (CDE) that provides technical assistance and resources about procedural safeguards and educational rights of students with disabilities, from ages 3 up to 22nd birthday. Compliance Complaints are filed here.</u></p>

<p><u>Services</u> <u>(PSRS)</u></p>	
<p><u>Related</u> <u>Services</u> <u>[aka]</u> <u>Designated</u> <u>Instruction</u> <u>and</u> <u>Services</u> <u>(DIS) in CA</u></p>	<p><u>Services required to assist an individual with disabilities to benefit from special education, including but not limited to: transportation, occupational therapy, physical therapy, speech and language therapy, mental health services, and medical care.</u></p>
<p><u>Resolution</u> <u>Session</u></p>	<p><u>A meeting mandated in IDEA 2004 as part of the Due Process Complaint process where parties attempt to resolve a dispute prior to proceeding to a Due Process Hearing.</u></p>
<p><u>Special</u> <u>Education</u> <u>(SPED)</u></p>	<p><u>Specially designed instruction, at no cost to parents, to meet the unique needs of an eligible individual, including the specially designed instruction conducted in schools, in the home, in hospitals and institutions, and in other settings. Special education provides a continuum of services in order to provide for the education needs of each eligible individual regardless of the nature or severity of the educational needs.</u></p>
<p><u>Special</u> <u>Education</u> <u>Local Plan</u> <u>Area</u> <u>(SELPA)</u></p>	<p><u>A consortium of LEAs, within a geographical service area, responsible for ensuring that every child eligible for special education receives appropriate services. Each SELPA's Local Plan, based on Federal and California law and regulations, describes how special education services are provided.</u></p>

<p><b><u>Sufficiency</u></b></p>	<p><b><u>Meeting the legal requirement of IDEA in providing the necessary detailed information and evidence to support a due process complaint.</u></b></p>
<p><b><u>Stay Put</u></b></p>	<p><b><u>The ruling that permits a student to remain in their current placement during any dispute concerning special education services.</u></b></p>
<p><b><u>Transition Plan</u></b></p>	<p><b><u>A plan to coordinate a set of activities that promote movement from school to post-school education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. Transition goals are determined by the IEP team beginning at least by age 16 and are based on student and family vision, preferences, and interests.</u></b></p>

## Cover Sheet

### Progress on Meeting Local Performance Indicators on the CA School Dashboard

**Section:** V. Information/Discussion Items  
**Item:** A. Progress on Meeting Local Performance Indicators on the  
CA School Dashboard  
**Purpose:** Discuss  
**Submitted by:**  
**Related Material:** Progress on Meeting Local Performance Indicators.pdf

Board Agenda Item #	V A: Information/Discussion Item
Date:	June 24, 2021
To:	Magnolia Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	David Yilmaz, Chief Accountability Officer
RE:	MPS' Progress on Meeting Local Performance Indicators on the CA School Dashboard

### Proposed Board Recommendation

Information/Discussion Item. There is no requirement for the board to approve the schools' reports on meeting the local indicators.

### Background

State data is not available for some priority areas identified in the Local Control Funding Formula (LCFF) law. For these priority areas, the State Board of Education (SBE) approved the local indicators, which are based on information that local educational agencies collect locally. The local indicators that apply to charter schools are:

- Basic Services and Conditions (Priority 1)
- Implementation of State Academic Standards (Priority 2)
- Parent and Family Engagement (Priority 3)
- School Climate (Priority 6)
- Access to a Broad Course of Study (Priority 7)

Local educational agencies receive one of three ratings based on whether they have measured and reported their progress through the Dashboard using locally collected data. The ratings are: Met, Not Met, or Not Met for Two or More Years. For example, on the local indicator for Implementing State Academic Standards (Priority 2), the local educational agency would receive a Met rating if it:

- Measures its progress on the local indicator based on locally available information, and
- Reports the results to the LEA's local governing board at a regularly scheduled meeting of the local governing board, and
- Reports to stakeholders and the public through the Dashboard.

The following are the questions each LEA responds to in the CA School Dashboard to report their progress.

### ***Basic Services and Conditions (Priority 1)***

Use locally available information, including data from the CDE's School Accountability Report Card (SARC), to measure progress and respond to the three prompts in the self-reflection tool included in the Dashboard:

- Number/percentage of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

### ***Implementation of State Academic Standards (Priority 2)***

The local educational agency is asked to summarize its progress in implementing the academic standards adopted by the State Board of Education, based on the locally selected measures or tools.

### ***Parent and Family Engagement (Priority 3)***

Standard: The local educational agency (LEA) annually measures its progress in: (1) seeking input from parents in decision making; and (2) promoting parental participation in programs, and reports the results to its local governing board at a regularly scheduled meeting and to stakeholders and the public through the California School Dashboard (Dashboard).

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families

2. Building Partnerships for Student Outcomes

3. Seeking Input for Decision-making

*School Climate (Priority 6)*

Standard: Local educational agency administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the local educational agency serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the California School Dashboard.

The local educational agency is asked to provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K-5, 6-8, 9-12).

***Access to a Broad Course of Study (Priority 7)***

Standard: Local educational agencies (LEAs) annually measure their progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs, and report the results to their local governing board at regularly scheduled meetings of the local governing board and to stakeholders and the public through the Dashboard.

For more information on local indicators please refer to: <https://www.cde.ca.gov/ta/ac/cm/localindicators.asp>

*Conclusion*

Our school leaders have used the self-reflection tools provided by the CDE to report out their evaluation of the progress the school makes towards meeting the local indicators in the five state priorities. The reports are attached for review of the board and the public before they are submitted to the CDE and made public via the CA School Dashboard. Deadline for submission to the CDE is typically around November. Annually, as required by the Ed Code, this item will be on the same board agenda as the LCAP adoption in alignment with the LCAP development process so that our schools can share their progress publicly and meet their local indicators.

Budget Implications

N/A

How Does This Action Relate/Affect/Benefit All MSAs?

To have the local indicator report as a public information item at the same meeting as the LCAP adoption is an LCFE requirement. An additional benefit is that schools can share their progress on meeting the local indicators with the public before submitting it to the CDE via the CA School Dashboard.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy	Mustafa Sahin Principal	msahin@magnoliapublicschools.org (818) 609-0507

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks****1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards			3		
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards			3		
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-1 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-1 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-1 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. We use ParentSquare to communicate with students and parents. This has greatly improved our communication with all stakeholders. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connect with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance. The School holds periodic meetings to gather input from our families. These meetings include PTF

meetings, SSC and ELAC meetings and parent workshops including virtual parent staff meetings. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

### Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-1 provides resources to support student learning at home through multiple workshops such as parent college, Guiding Good Choices and through feedback given to parents during parent conferences. We have also partnered with CCSA to help equip parents with the knowledge and tools to become an advocate for their students and for their school. MSA 1's new communication system Parent Square keeps parents and staff in constant communications through multiple mediums such as texts, private messages and voicemail. ParentSquare has also broken language barriers between staff and families through its automatic language translation.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					5

Seeking Input	1	2	3	4	5
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-1 holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings and ELAC meetings. During these meetings parents have the opportunity to review the school's LCAP and SARC reports and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

- DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
- MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
- USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-1 annually conducts the CORE Districts survey instrument to students in grades 6-12, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-1 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions.

MSA-1 strives to improve our students' perceptions of school safety and connectedness.

In 2020-2021, 91.5% of our students participated in the survey and their responses provided an average approval rating of 84% on the eight topics of the survey, with a rating of 70% on Topic 3 (Safety) and a rating of 60% on Topic 4 (Sense of Belonging / School Connectedness).

Facility-Our new building allowed for more classroom space. Teachers had their own classrooms and they did not have to share space with other teachers.

Quality of Food- Students' feedback allowed us to improve our school food choices.

Sports- We are now part of California interscholastic Federation (CIF) Sports League. This provided more athletic opportunities for our students to participate in sports and apply for scholarships.

Safety-We hired an additional security guard to monitor the hallways and the outside of the school.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1- MSA-1 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-1 strives to offer a well-rounded education to our students.

MSA-1 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2-As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP English Lit, AP English Lang, AP Stats, AP Computer Science Principles, AP Biology, AP Spanish Lit, AP Spanish Lang, AP US Government, AP US History, AP World History, AP Studio Art 2D, AP Calculus A and B.

All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for SAT, in grades 9-12. MSA-1 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-1 had a one-year cohort graduation rate of 100% last year where 100% of our graduates completed courses that satisfy the UC/CSU requirements.

3- MSA-1 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4-MSA-1 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-1 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics and SEL programs, etc. as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-1 will make the best use of its resources to provide a well-rounded education experience to our students.

MSA-1 provides students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-2	David Garner Principal	dgarner@magnoliapublicschools.org (818) 758-0300

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks****1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-2 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction which is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in ongoing professional development each year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. In addition to a focus on ELA/Literacy, math, and EL, MSA-2 also provides PD and supports our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.					5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-2 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connects with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance.

The School holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, ELAC meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. In addition, the school holds Coffee with the Principal meetings each Friday where all parents are invited to join school administration and support staff to discuss areas of importance for the parents, ask questions, provide feedback and gather as a community. Further, parents frequently serve on committees which include staff members and students where all stakeholder groups collaborate in planning events, including school dances and award assemblies.

Parents are also invited to attend assemblies which celebrate student academic excellence, behavioral improvement, outstanding attendance, and other accomplishments, as well as build school spirit and help the school take a stand against bullying. Further, parents are invited to attend school events which are a part of the Positive Behavioral Interventions and Supports (PBIS) system in which students compete in academic, athletic and creative problem-solving events. Parent stakeholders also participate in the PBIS committee which includes attending trainings with the Los Angeles County Office of Education (LACOE).

MSA2 hosts events which promote a deeper understanding about cultures of families, including a Dia de los Muertos (Day of the Dead) event which included live music and art by students as well as traditional food which was prepared by families and staff members.

Parents also participate as chaperones for field trips where they support the supervision of students during off-campus educational experiences ranging from trips to the Los Angeles Zoo and the California Science Center to public and private universities. Furthermore, parents and families attend CIF sporting events where our students compete with local schools in after school competitive athletic events in sports including cross country, volleyball, soccer, and basketball. Beyond these opportunities, parents also enjoy attending other academic competitions which students participate in, including robotics tournaments and Academic Decathlon events.

During the Covid-19 physical closure of the schools, which took place during March 2020, MSA2 maintained all of the above methods virtually.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including stakeholder surveys, and we will make plans to expand upon the existing support and services provided in this area.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.					5
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5

<b>Building Partnerships</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.					5

**Dashboard Narrative Box (Limited to 3,000 characters)**

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-2 provides resources to support student learning at home through multiple workshops such as parent college and through feedback given to parents during parent conferences. We have also partnered with CCSA to help equip parents with the knowledge and tools to become an advocate for their students and for their school.

MSA 2's communication system ParentSquare keeps parents and staff in constant communications through multiple mediums such as texts, private messages and voicemail. Parent Square has also broken language barriers between staff and families through its automatic language translation and thus, facilitates communication across multiple linguistic and cultural backgrounds.

Parents also have the ability to check student grades in the school information system, Illuminate, as well as stay updated about student attendance in order to remain informed about their child's progress in a variety of areas. Moreover, parents receive daily phone calls from office staff members to verify student absences and gather useful information about areas of support which students may need when they return to school.

MPS Board meetings are open to MSA2 parents to attend, as the campus is open to the public during all Board and committee meetings. Additionally, parents are able to serve as MPS Board members where they vote on decisions which impact the budgets, operations, and decisions of all ten schools in the MPS charter management organization. Currently, an MSA2 parent serves as the only parent stakeholder on the MPS Board.

MSA2 has a Parent and Community Engagement (PACE) coordinator who facilitates parent training, including on topics related to social emotional learning and mental health support. Parents also are invited to attend workshops where English language courses are taught, and college readiness is presented. Parents also serve on the committee to review the School Safety Plan each year in addition to student and staff stakeholders prior to submitting the updated plan to the Magnolia Public School (MPS) Board for approval.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including stakeholder surveys, and we will make plans to expand upon the existing support and services provided in this area.

**Seeking Input for Decision Making**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Seeking Input</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					5
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5

Seeking Input	1	2	3	4	5
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-2 holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings and ELAC meetings. During these meetings parents have the opportunity to review school goals, priorities and decisions being made which are included in the LCAP and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including stakeholder surveys, and we will make plans to expand upon the existing support and services provided in this area.

### School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA2 annually conducts a Panorama survey for students, parents and staff. We analyze results and share findings with stakeholders during LCAP information and feedback meetings and regular board meetings. We disaggregate results by grade and student group and also use open-ended questions to further understand stakeholder perceptions.

To help address previous survey concerns about bullying, MSA-2 launched a PBIS (Positive Behavioral Interventions and Supports) program last year in partnership with LACOE where students compete for positive recognition and team points for meeting behavior expectations. At the end of last school year, the house with the highest points went to Universal Studios as an incentive. For the second year, a parent and MPS Board member are on the PBIS team to support program implementation. Expectations are reinforced with weekly videos made by the ASB student government and are shared with students.

This year, we continued to expand upon athletic facilities for our PE program to incorporate more days on co-location facilities. In addition, to support social-emotional needs, we continue with a full-time psychologist and counselor.

To support school safety, we placed additional large banners in front of the school to help block visibility. We continue to implement monthly K9 safety visits to help increase safety. We installed expanded school surveillance cameras inside classrooms in collaboration with LAUSD LACOE and the MPS Board.

Family satisfaction rates remained relatively constant at 93%. The highest favorable rating for families was Climate of Support for Academic Learning, which remained 95%. The lowest approval area by families is Knowledge and Fairness of Discipline, which is 92%. The largest decrease for families is Safety, which showed a decrease of 3% yet still remained 93%.

Student average approval rates increased by 8% with an average overall school experience rate of 83%. Knowledge and Fairness of Discipline, Rules and Norms showed the greatest increase for students of 8%. Student averages also increased for Climate of Support for Academic Learning and Safety. The 63% approval for Sense of Belonging is the lowest topic for students, yet one of the highest percentage changes for students.

Staff survey results showed the most significant increase of all of the stakeholder groups for overall average approval ratings, which increased by 21% with an approval rating of 98%. The greatest increases for staff were safety and Sense of Belonging which increased 19%. The 81% satisfaction for safety is the lowest percent for staff, yet was the highest percent change for staff.

Stakeholder voices (i.e., voices of our students, families, staff, and other school community members) play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff opinions about what we are doing great and should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. MSA-2 uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and students' own strengths and weaknesses.

MSA-2 uses the CORE survey instrument for school climate indicators which include the following four topics for students, families, and staff: Topic 1: Climate of Support for Academic Learning; Topic 2: Knowledge and Fairness of Discipline, Rules and Norms; Topic 3: Safety; Topic 4: Sense of Belonging (School Connectedness). In a separate survey students are also asked questions in additional four topics which include indicators for social-emotional competencies: Topic 5: Growth Mindset; Topic 6: Self-Efficacy; Topic 7: Self-Management; Topic 8: Social Awareness.

Annually, we analyze survey results and share the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings.

In addition to the survey process to gather stakeholder feedback which can be used to improve school climate, MSA2 also receives invaluable feedback from parents during regular Coffee with the Principal meetings, PTF, SSC, and ELAC meetings. Further, invaluable feedback is shared by students through the ASB Student Government which holds regular meetings to support school improvement across a variety of areas. Moreover, staff members provide insightful feedback through a variety of means, including during weekly staff meetings, as well as during grade level meetings, PBIS trainings, and MTSS meetings.

## **Access to a Broad Course of Study (LCFF Priority 7)**

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-2 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-2 strives to offer a well-rounded education to our students.

MSA-2 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

MSA-2 has meetings with the Special Education department on a regular basis in which academic, behavioral, and social-emotional progress of students with IEPs are reviewed. Interventions are implemented which are geared toward supporting students in making progress in their graduation plans, as well as toward their goals expressed in IEPs. Accommodations are provided to students which are determined by the IEP team members and which input from teachers, parents and students based on identified areas of need.

School administration holds meetings with home office support staff where data is reviewed from CAASPP, NWEA MAP, California Dashboard, Interim Assessment Blocks which focuses on performance levels of unduplicated student groups and students with exceptional needs and action plans are developed and monitored which hold MSA-2 accountable for the progress of all students in areas of academic standards, chronic absenteeism, college readiness, graduation rates, and other areas. This data is also shared with MSA2 staff members during staff PD meetings.

Midyear progress toward LCAP goals are reviewed and presented to MPS home office members as well as during MPS Board meetings. Further, teachers and school administrators align their professional goals in TeachBoost with these standards and goals, and end of year performance reviews hold teachers and administrators accountable for meeting or failing to meet goals related to MSA-2's success in this area. Monthly meetings take place in the home office with Principals, Dean of Academics, and Dean of Students where this priority and other priorities can be reviewed and supported.

As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP English Language & Composition, AP Calculus AB, AP Spanish Language and Culture, AP Studio Art: 2-D Design.

All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-2 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-2 had a one-year cohort graduation rate of 100% last year where 85% of our graduates completed courses that satisfy the UC/CSU requirements.

MSA-2 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-2 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-2 will make the best use of its resources to provide a well-rounded education experience to our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Zekeriya Ocel Principal	zocel@magnoliapublicschools.org (310) 637-3806

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-3 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-3 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-3 has homeless and foster youth liaison. This position allows our families to receive SEL (Social Emotional Learning) support. MSA-3 has CWA to get hear from our parents about the concerns they have, and this allows us to check our practices in regards to academics and school operation. MSA-3 has several engagement opportunities for feedback and growth via social media accounts and school events to ensure our school community is cohesive and collaborative.

We have a variety of events( Honor Roll Assembly, Back to School night, Orientation, Parent Teacher Conferences, Open Houses ) and utilize our website and ParentSquare to ensure to communicate important updates, successes and any plans for improvement and change.

Our demographic is almost equally split between African American and Latino populations. We try to ensure we are inclusive of all genders, races, ethnicities, and cultures. Being 100% inclusive takes time but MSA-3 is 100% invested in making a mark of cohesion at all parts of our school's staff, families and students!

One area of improvement is Climate of Support. MSA-3 admin and staff will increase support of families through;

- 1) various modes like getting feedback surveys.
- 2) informing parents more of volunteer opportunities.
- 3) including data points for Academic and Behavior during parent meetings to better drive the school operations.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

## Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-3 is investing more to improve students' test taking skills, along with professional development on classroom management. We also invest in more college counselors to ensure all of our students finish high school and get college acceptances. College Career Indicator turned to "green" with substantial A-G completion as well as SBAC proficiency.

We spend a lot of focus on home visits and getting our staff familiar with the student's families. Building a bond and a connection of trust is the most effective way to improve engagement.

One area of improvement is Climate of Support for our students. MSA-3 admin and staff will increase support of families through;

- 1) Student Led academic engagement meeting academic challenges using UDL support model.,
- 2) providing continued SEL support by using our MTSS Model.
- 3) acknowledging and celebrating student success each quarter.

## Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.			3		
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.			3		

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Monthly, we have a meeting called PAC/Coffee with the Admin so parents can stop in and have a meet and greet or voice concerns and recommend new items to make the school more efficient.  
MSA-3 will continue to focus on well planned SSC and ELAC meetings to involve underrepresented groups.  
MSA-3 has adjusted Coffee with the Admin on a monthly basis to provide comprehensive data points for academics and behavior.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

There was a positive increase with students, staff and families with approval rates. The students' rates increased 13 points. The staff approval rates increased 20 points and the families approval rates increased 9 points. Areas that were addressed and were strengths were positive programs, conducting staff surveys and addressing academic concerns such as grading policies and academic concerns. These programs contributed to the success because the decisions were based on school data, statewide data and social emotional data. 98% of families believe that staff treats them with respect. 97% of the staff believe that personnel are involved in school wide decisions. 88% of students believe that teachers give them a chance to participate in class discussions.

Routines and expectations are clear in how to meet parents' needs and concerns. All staff is knowledgeable on how to provide help in all areas.

MSA-3 will maintain the success by engaging with the community and outside organization to bring improved programs.

Admin will continue to work collaboratively with the stakeholders (students, teachers, MPS Home office and Board) and seek input from the stakeholders to make informed decisions.

For students, the lowest rated topic was for the question "I feel close to people at the school." It can be inferred that this may be due to Distance Learning and students' inability to interact in person with their peers and teachers. In order to raise this area of student connection, the PBIS team will hold a Welcome Back Assembly to establish a positive school culture from the beginning. The team is also working more closely with ASB to allow students to more actively lead school activities based on their peer requests & preferences. This percentage may also be due to the lack of clubs and sports being offered in Distance Learning. As a next step, clubs as well as sports teams will be a greater focus of school culture in order for students to participate and feel greater pride & identity in the extra-curricular activities they are involved in.

37% of students responded that they do see disrespectful situations at school. In order to address this, assemblies will be held that focus on different PBIS topics, including respect. With this topic, school-wide strategies of how to resolve conflicts positively can be provided to be emphasized across campus by all.

The 47% of teachers who responded favorably to having close professional relationships with one another may be lower than expected due to Distance Learning and teachers not feeling they were able to collaborate as much as they would usually be able to in person. With new teachers added this year, teachers may not feel as close to them because they have not yet had the chance to meet one another aside from zoom staff meetings. The team hopes to coordinate more team-building activities as well as consistently scheduled grade-level and department collaboration sessions.

Tier 1, 2, & 3 behaviors and staff-managed, office-managed steps will be refreshed school-wide. To increase transparency with discipline issues, clear communication will be provided to teachers outlining the steps taken for situations.

Parents gave a rating of 91% (lowest in all areas of approval rates) to staff responding to my needs. Admin will go over procedures with staff members to ensure emails are responded to within a timely manner (within 48 hrs). In order for teachers to be proactive and to establish communication with parents, teachers will be asked to reach out to parents of students who are at-risk of failing at least two weeks prior to progress report closing dates.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1.MSA-3 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-3 strives to offer a well-rounded education to our students.

MSA-3 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2.As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student needs and interests. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP US History, AP World, AP Computer Science, AP English Lit, AP Statistics, AP Spanish, AP Environmental Science.

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-3 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-3 had a one-year cohort graduation rate of 100% last year where 75% of our graduates completed courses that satisfy the UC/CSU requirements.

3.MSA-3 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4.MSA-3 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide a well-rounded education to our students, MSA-3 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc.,as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-3 will make the best use of its resources to provide a well-rounded education experience to our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Musa Avsar Principal	mavsar@magnoliapublicschools.org 310-473-2464

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards					5
Physical Education Model Content Standards					5
Visual and Performing Arts			3		
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-4 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-4 has also provided PD and supported our teachers on NGSS, History-Social Science, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.					5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-4 uses an annual survey to measure how we are meeting the needs of our families in this area. We also conduct home visits to reach out to our parents to receive real-time feedback from them. We have increased our home visit rate during the 2020-21 school year. Home visits have provided us with greater insight as to how to support our students and what might be shaping their perspectives around learning.

MSA-4 has a Parent College program coordinator. Our Parent College program coordinator has served as an informational resource to parents concerning school programs, services, attendance issues, and other matters. With the implementation of the Parent College program, we provided information concerning related activities as well as encouraging parent participation in various school and community programs and services.

The Parent College coordinator has organized Parent College to expose our families to experiences and information that is usually not easily accessible to underserved families.

Furthermore, we have improved our communication lines for our parents and families to keep in touch with our school. We effectively utilized ParentSquare and Remind application to inform our parents about our education programs.

Lastly, we have regularly held parent involvement activities such as Coffee with the Admin, Parent Advisory Committee (PAC)/Parent Task Force Meetings (PTF), ELAC meetings, School Site Council meetings, Open Houses, Back to School Night, Parent/Teacher Conferences, and virtual parent information meetings to keep the parents informed about our school programs and receive feedback from them.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.			3		
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.					5
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

## Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-4 offers Parent College to our families. This program is designed to support our families as they learn about pathways to college and career readiness. This program also addresses advocacy and informs them of their rights.

MSA-4's Admin works to engage our school community in advocacy and learning more about our rights. There is also access to information and resources by way of monthly SSC and PAC/PTF meetings. MSA 4's communication system Parent Square keeps parents and staff in constant communications through multiple mediums such as texts, private messages, and voicemail.

A focus area of improvement is to get more participation from parents. We will organize more parent activities according to the feedback that our parents provided during the 2020-2021 school year.

## Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-4 provides numerous opportunities for all stakeholders to be a part of the decision-making process. Parents have active decision-making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC), and in the PAC/Parent Task Force (PTF) meetings.

In addition, we utilize the annual CORE Districts survey. All of our stakeholders are able to provide feedback on our educational practices by completing the survey in the spring. We analyze the survey results and share them and findings with our stakeholders during the meeting for further discussion to determine strategies for improvement.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K-5, 6-8, 9-12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-4 annually conducts the CORE Districts survey instrument to students in grades 9-12, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-4 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-4 strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, MSA-4 has observed an increase in the area of our overall approval rating with all stakeholder groups.

In 2020-21, 96.9% of our students participated in the survey and their responses provided an average approval rating of 79.0%% on the four topics of the survey, with a rating of 88% on Topic 1 (The climate of Support for Academic Learning) and a rating of 82% on Topic 2 (Knowledge and Fairness of Discipline, Rules, and Norms), and a rating of 76% on Topic 3 (Safety) and a rating 63% Topic 4 (Sense of Belonging), and 91% answered positively to the question, "Overall, I am satisfied and would recommend this school to other students."

Sense of belonging is the category with the lowest approval rate. The sense of belonging to school can be described as the perception of students as individuals, respecting their existence, and supporting them in the social environment of the school.

A low sense of belonging to the school, unfortunately, translates as low attendance, low preparation for school, and low levels of obedience to school and classroom rules. From this viewpoint, the sense of belonging to school is the single most important topic that we will address as the greatest need for improvement for the next school year as it directly affects the other survey topic.

We are implementing the following strategies to improve the sense of belonging among our students:

1. Involving all stakeholders to create community norms.
2. Listening to students and teachers to share their experiences of feeling uncertain about their belonging to the school.
3. Emphasizing common purposes and ideals.
4. Organizing more professional development around culturally responsive teaching.
5. Organizing more community-building activities and involving students in the process.
6. Implementing more cooperative learning activities in which classrooms work together to achieve a common purpose.
7. Cultivating respectful, supportive relationships among students, teachers, and parents.

Stakeholder voices (i.e., voices of our students, families, staff, and other school community members) play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff opinions about what we are doing great and should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. MSA-4 uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and students' own strengths and weaknesses.

MSA-4 uses the CORE survey instrument for school climate indicators which include the following four topics for students, families, and staff: Topic 1: Climate of Support for Academic Learning; Topic 2: Knowledge and Fairness of Discipline, Rules, and Norms; Topic 3: Safety; Topic 4: Sense of Belonging (School Connectedness). In a separate survey, students are also asked questions in additional four topics which include indicators for social-emotional competencies: Topic 5: Growth Mindset; Topic 6: Self-Efficacy; Topic 7: Self-Management; Topic 8: Social Awareness.

Annually, we analyze survey results and share the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-4 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-4 strives to offer a well-rounded education to our students.

MSA-4 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include English Language and Composition, Spanish Language and Culture, Statistics, and World History (Modern).

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-4 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-4 had a one-year cohort graduation rate of 100% last year where 100% of our graduates completed courses that satisfy the UC/CSU requirements.

3. MSA-4 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. MSA-4 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-4 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-4 will make the best use of its resources to provide a well-rounded education experience to our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-5	Brad Plonka Principal	bplonka@magnoliapublicschools.org (818) 705-5676

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks****1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics				4	5
Next Generation Science Standards					5
History-Social Science					

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts				4	
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-5 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, Math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, Math, and ELD over the past few years, MSA-5 has also provided PD and supported our teachers on NGSS, History-Social Science, Career and Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-5 has continued to implement new strategies to improve building relationships with their stakeholders. They do this by creating many opportunities for stakeholders to be involved with the school. These opportunities are, Coffee with the Admin, PAC/Parent Task Force Meetings, Open House/Back to School, Parent/Teacher Conferences, Home Visits, Fundraising Activities, Assemblies to just name a few.

MSA-5 has implemented a partnership with the Tarzana Treatment Center which is serving as an informational resource to parents, students, staff and others concerning social issues that support the child. Also, MSA-5 utilizes a program that shares on school programs, services, attendance issues and other matters, programs and services.

MSA-5 is still focusing on getting more stakeholders, including underrepresented families, to participate in opportunities on and off campus. MSA-5 intends on offering events at different times of the day, continuing our Parent College program, and making virtual and in person home visits to those that have difficulty coming to the school in order to involve our community.

### Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Currently, MSA-5 has a Parent Awareness program, which is open to all Stakeholders to attend, that teaches stakeholders on how to have successful outcomes from school. Also MSA-5, has a in person and virtual home visit program where staff go after school to students' homes or virtually through zoom to meet with parents/guardians to discuss student progress, school updates, and listens to parents' questions and comments.

A focus area of improvement is to get more participation from parents and to offer more workshops for stakeholders to attend to be better informed of information pertaining to MSA-5.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-5 provides many opportunities for all stakeholders to be a part of the decision making process. MSA-5 has SSC, ELAC, PAC/Parent Task Force (PTF), Student Council, Coffee with Admin (Parents), Hot Chocolate with Admin (students) to discuss current and future programs with all stakeholders, review plans, and receive input on what stakeholders would like to see for the school.

A focus area for improvement would be to obtain consistent attendance on behalf of the parents and have more events outside the school grounds to better connect with the community.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

- DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
- MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
- USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-5 annually conducts the CORE Districts survey instrument to students in grades 6-12, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-5 disaggregates the results by grade and student group and also uses open-ended questions to

further understand students' perceptions. MSA-5 strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, 98% of our students participated in the survey and their responses provided an average approval rating of 76% on the four topics of the survey, with a high rating of 86% on Climate of Support for Academic Learning and our lowest rating of 67% on Sense of Belonging / School Connectedness, which was an 9% growth from the previous year.

We will continue to push to have a high level of participation while implementing the same strategies that helped our survey data improve amongst students and work with our students, families, and staff to improve the areas where the data was not as strong as the other topic areas.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-5 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, Mathematics, Social Sciences, and Science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-5 strives to offer a well-rounded education to our students.

MSA-5 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELLs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.). In addition, every student has access to a computer in class in order to utilize instructional softwares such as myON, StudySync, Khan Academy, Illuminate, etc.

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP Spanish Language and Culture, AP World History, and AP Computer Science Principles. Moreover, high school students are assisted to enroll dual enrollment classes through Los Angeles Mission and Pierce Colleges.

All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-5 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

3. MSA-5 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. MSA-5 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-5 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-5 will make the best use of its resources to provide a well-rounded education experience to our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-6	John Terzi Principal	jterzi@magnoliapublicschools.org (310) 842-8555

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks****1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards			3		
Physical Education Model Content Standards					5
Visual and Performing Arts			3		
World Language	1				

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-6 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-6 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Here at Magnolia Science Academy-6, we do our best to build positive relationships with staff members, the families, the students, and any other support members within our community. We have been sending staff member(s) to trainings to help increase positive relationships, particularly the PBIS training that has been offered by Los Angeles County of Education. This was the first year that we attended this training and are planning to continue to implement and develop our PBIS system. Furthermore, we have opened up as many communication lines as possible for our parents and families to contact our school. Beyond our typical email and phone system we have also implemented other technological apps that build bridges between the school and its families. Some of the apps that we use are: Parent square, Class Dojo, Twitter, Facebook and Illuminate (our SIS system). Also, our school website is always up to date to keep all stakeholders posted.

For face to face meetings, we have an open door policy where parents are able to join our School Site Council Meetings (SSC), English Language Advisory Committee (ELAC), our Parent Advisory Committee (PAC)/Parent Task Force (PTF) meetings, Title I meetings, and our Coffee with the Principal meetings. All of these face to face meetings occur multiple times (min 4 times for each meeting) throughout the year at various days of the week and at various times of the day in order to help maximize participation from all parent/culture groups. We always have one bilingual staff member who provides translation in these meetings. As an added way of building relationships with families, we have fun activities like Back to School BBQ, back to school night, and the Multicultural Food Festival to help bridge the gap between families and the school and orientation meetings in order to meet and greet parents and students before the year begins.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

## Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-6 feels that building partnerships for student outcomes is an important aspect of achieving higher results. Our teachers are given opportunities to grow professionally with our tuition reimbursement policy. The teachers are encouraged to take advantage of the tuition reimbursement policy in order to help with their own development but also to help with student outcomes as well. Some of the professional development opportunities that our teachers have taken are the: The LACOE induction program (beginning teacher program), CUE conference (for technology), CAHPERD (California Association for Health, Physical Education, Recreation and Dance) conference, administrative degrees, and master degrees in education. As a result from these professional development growth opportunities, teachers become more adept in their content knowledge and teaching pedagogy. This then helps students in class, during after-school tutoring clubs, and even during Saturday school.

Teachers also have the opportunity to build relationships with parents and their child(ren) by enrolling in a course, "Parent College," and going through a curriculum that helps parents become more familiar with the education sector. The topics that are included in this program are; Common Core State standards, high school readiness, college applications, grants, enrollment, statistics, testing, extra-curricular activities...etc. At the end of the curriculum, the parents who attend every session graduate from the Parent College course, where we have a ceremony just like how

we do for our culminating 8th graders. Lastly, per our charter petition, we do “Home Visits” throughout the school year. Every year we try to hit our target of meeting the home visit goal. The goal is visiting min. 25% of our school’s population, which is usually around 40 families. This is where we are able to go over to families’ homes, chat with them, and bond with them to help increase the sense of belonging at our school.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA’s progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.			3		
2. Rate the LEA’s progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.			3		
3. Rate the LEA’s progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.			3		
4. Rate the LEA’s progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.			3		

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA’s current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-6 encourages all families to be a part of the decision making process. Some of the meetings that we have are the SSC meetings, ELAC meetings, PTF meetings, and Coffee with the Principal meetings. Throughout the year, we have at least four of these meetings in order to help create a bond between our families and the school. During these meetings, an agenda is created to hear the opinions of our stakeholders. Beyond the meetings and since we have an open-door policy, we have parents coming to our school to speak and share their concerns, or praise, about our school. For each meeting, we have a bilingual staff member to provide translation. Lastly, we have a stakeholder survey that we provide twice a year. This is an extensive survey that gives students, parents, and staff members a voice on how the school is doing. The survey looks at many aspects of the school such as, sense of belonging, academics, safety, etc. After the survey has been completed, an analysis of the answers are given to the school administration in order to help improve on things we need to improve on and to recognize and identify some of the successes that we have had as a school. We share the survey results with all stakeholders during staff and parent meetings.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-6 annually conducts the CORE Districts survey instrument to students in grades 6-8, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-6 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-6 strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, 98.8% of our students participated in the survey.

80th - 99th

+8

Cleanliness of the restroom (facilities) - this is from the previous years and we have already taken action about this and have contracted with a professional cleaning company. Two custodians will be regularly cleaning the campus, daily.

Facility improvement - We have budgeted some funds and have already started the improvements. We will have to negotiate with the landlord, the church administration, for bigger projects like the HVAC systems/filters.

SPED/EL support - We were able to hire a full-time SpED teacher and two teacher aides. These aides will specifically focus on these two subgroups and we are looking to renew them for next year to strengthen our team and support for our students.

Electives - Based on our enrollment and budget, we will look into some electives such as computer, foreign language, etc.

More variety in our clubs - We will do our best to have our teachers run clubs that satisfy the needs of the students. We will try to do a survey and meet the needs of the students. We are considering having partnerships with organizations to bring art and music to our school.

Equity and inclusion classes - This year we had PDs regarding culturally responsive teaching. This PD helps with our teachers to empathize with our students who are going through difficult times, who are from different cultures, who need coaching rather than disciplining, etc.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-6 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-6 strives to offer a well-rounded education to our students.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

3. MSA-6 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. MSA-6 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready. In an effort to provide a more well-

rounded education to our students, MSA-6 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-6 will make the best use of its resources to provide a well-rounded education experience to our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-7	Meagan Wittek Principal	mwwittek@magnoliapublicschools.org (818) 886-0585

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	1

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education				4	
Health Education Content Standards					5
Physical Education Model Content Standards					5
Visual and Performing Arts				4	
World Language	1				

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-7 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to EL students by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. EL students have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-7 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, and Visual and Performing Arts. Staff members also trained on Social Emotional Learning (SEL) supports and Positive Behavior Interventions and Supports (PBIS) for students.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-7 has a bilingual School Culture Coordinator. This position allows for our school and families to build relationships within our community as she assists with parent meetings, school events, newsletters and the home visit program. We are looking to add a part-time Parent and Community Engagement (PACE) Coordinator for the upcoming school year to increase our effectiveness in this area even more. MSA-7 has SSC meetings (4 times per year), PAC/PTF meetings (8 times per year), ELAC meetings (4 times per year) and Coffee with the Admin (4 times per year). In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. We have social media accounts on Facebook and Twitter, a monthly bilingual school newsletter and multiple classroom mobile apps for our families. We also use Parent Square as a school-wide means of communication to

our families which is set up in their preferred language. Our annual gatherings with parents such as Parent Orientation, Back to School Night, Fall/Spring Parent teacher conferences, Open House/STEAM Expo, Fall Festival, Literacy Night and PTF organized Family Social nights help increase the school to home communication. Although we were not able to conduct as many of these events this year as usual due to the school closures caused by COVID-19, we still held many of them virtually. We have also prioritized funding for the upcoming school year for staff PD in the areas of Culturally Responsive Teaching and Implicit Bias.

### Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.					5
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

To better support our parents, in addition to the meetings shared above, we have Student Success Planning Team Meetings (SSPT), Academic Support Meetings, ELD Coordinator Meetings and IEP meetings with the students and their parents. During these meetings, the students' individualized needs are discussed and improvement plans are prepared collaboratively. In addition to these supports, MSA-7 held multiple parent workshops during the 2020-21 school year. We were able to partner with community organizations in order to provide parents with training on parenting strategies, academic support, self-care and how to advocate for their students' needs effectively. We have also prioritized funding for the upcoming school year for staff PD in the areas of Culturally Responsive Teaching and Implicit Bias.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-7 provides many opportunities for all stakeholders to be a part of the decision making process. Parents have active decision making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC) and in the PAC/Parent Task Force (PTF) meetings. During these meetings, current and future programs are discussed with all stakeholders, school-wide plans are reviewed, and we receive input on what stakeholders would like to see for the school. We value our stakeholders and are using their feedback to strengthen our programs in the upcoming school year. In addition to the annual Panorama Stakeholder Surveys, we ask LCAP planning needs assessment surveys to the parents, staff members and to the students. Parents have active decision making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC) and in the PAC/Parent Task Force (PTF) meetings. To increase the efficiency and engagement of being part of these committees we implemented training sessions during the first of these committee meetings this school year. We do still struggle with attendance at many of these meetings and have tried several different day and time options to try and find which works best for our families.

### School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

- DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
- MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
- USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-7 annually conducts the CORE Districts survey instrument to students in grades 3-5, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our

findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-7 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-7 strives to improve our students' perceptions of school safety and school connectedness.

In 2020-21, 92.3% of our 3rd to 5th grade students participated in the survey and their responses provided an average approval rating of 79% on the four topics of the survey, with a rating of 80% on Topic 1 (Climate of Academic support) and a rating of 84% on Topic 2 (Knowledge and fairness of Discipline), and a rating of 74% on Topic 3 (Safety) and a rating 77% Topic 4 (Sense of Belonging), whereas 87% answered positively to the question, "Overall, I am satisfied and would recommend this school to other students."

The changes in average approval rates from Spring 2020 to Spring 2021 were up for all three stakeholder categories with an increase of 7 points for students (74% to 81%), 1 point for families (98% to 99%), and 4 points for staff (93% to 97%).

One highlight from the student surveys is the approval rating for Safety increased 12 points since last year. The topics with the highest approval rates were Climate of Support for Academic Learning (80%) and Knowledge and Fairness of Discipline, Rules and Norms (84%); and the lowest approval ratings were for Safety (74%) and Sense of Belonging: School Connectedness (77%).

We are most proud that all our stakeholders approve positively of our Climate of Support for Academic Learning. We take great pride in the amount of academic and SEL support that is given to all of our students and have worked hard during this unprecedented year to transition our programs to an online setting. We were also very proud to see the large increase in approval ratings from students regarding Safety and from staff for School Connectedness.

After analyzing all stakeholder surveys we identified the biggest areas of concern and will put an action plan in place to address these concerns. The areas include, playground and facility improvements, lack of resources for non-IEP students, drop-off procedures, bullying, and more enrichment programs needed such as art, science, and sports.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-7 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and

science) and non-core subject areas such PE, Health, and Art are offered aligned with our charter petition and graduation requirements. Our students with disabilities have access to all general education curriculum and programs with RSP support as indicated in their IEPs. As evidenced by the school master schedule, class rosters, student schedules and transcripts, MSA-7 strives to offer a well-rounded education to our students.

2. As evidenced by our master schedule, after school club forms, class rosters, student schedules and transcripts, 100% of our students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and specials as outlined in our charter petition such as Computer, PE/Health, and Life Skills (Character Education). We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.) We provide students with opportunities to participate in Enrichment Programs based on student needs and interests.

3. MSA-7 provides access to a college and career awareness, STEAM focused broad course of study for all our students.

4. MSA-7 will continue to provide access to a college and career week to develop and motivate students to be college and career ready. In an effort to provide more well-rounded education to our students, MSA-7 will strive to offer additional non core subject programs to bring awareness to college and career readiness, health and physical education, diverse arts programs, sports programs, character education, and SEL programs, etc. In addition, we will continue to provide our students with experiential learning opportunities, including but not limited to, instructional field trips, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-7 will make the best use of its resources to provide a well-rounded educational experience for our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Jason Hernandez Principal	jhernandez@magnoliapublicschools.org 323-826-3925

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards			3		
Physical Education Model Content Standards				4	
Visual and Performing Arts				4	
World Language				4	

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA Bell ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.). We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 36 hours of professional development per year in areas such as:

1. Common Core ELA/Literacy, math
2. Supports and Intervention for Students with Disabilities, especially Universal Design for Learning (UDL)
3. ELD Standards and integration of ELD standards into content areas
4. Training for the CHYA health science curriculum
5. MTSS and PBIS

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

The pandemic has created many positive opportunities to enhance learning, but it has also created barriers such as connectivity, academic program uncertainty, etc. MSA Bell's leadership and learning community are very resilient and ready to adapt to the challenges of tomorrow through an Agile Decision-making Approach.

Upon review of the stakeholder survey, the ability to connect virtual versus full in-person instruction has been changed for all. MSA Bell will continue to provide counseling and training to support the SEL component through the usage of resources such as school personnel and Zones of Regulations. For the start of the 2021-22 school year, a more extensive plan will be developed to support the return of students to campus.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

The following are strengths as identified by each stakeholder group:

1. Students: Supportive staff with many resources available; Fair and Respectful treatment of everyone; School facilities
2. Families: Staff is supportive of family needs; Rigorous instruction; Communication through ParentSquare
3. Staff: Welcoming environment and supportive; Collaborative spirit among staff; Availability of resources to support learning

Connection is a hallmark of MSA Bell, across all stakeholders the value and importance of connecting and building relationships are essential. MSA Bell team will continue to adapt to the needs of the community to ensure this continues, especially as students transition to a hybrid. MSA Bell has an array of resources that are available to enhance learning. Leadership will continue to create messaging and training for all stakeholders to fully utilize the resources available.

The following are needs as identified by each stakeholder group:

1. Students: Remote learning and the pace of instruction; Amount of student work; Pre-pandemic issues related to middle school such as uniform, bullying, etc.
2. Families: Accessibility and availability of office hours and staff; Pre-pandemic issues such as traffic, outside environment

3. Staff: Additional workload due to Distance Learning; Lack of physical interaction with students that diminishes accountability; Need for culture building across all stakeholders

There are a couple of pre-pandemic issues that resonate with middle school experience, although it has been more than a year since students and teachers have set foot on campus. Some of these issues include traffic and bullying (social media and COVID), these will need to be monitored closely, especially as the school returns to a hybrid format. The remote environment has increased the urgency to educate families with the tools and available resources to fully take advantage of the available opportunities.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA Bell provides various opportunities for parent involvement and education. Involvement is facilitated through avenues such as PAC meetings, School Site Council (SSC) meetings, English Language Advisory Committee (ELAC) meetings, and family workshops/conferences with a focus on the whole child development. Furthermore, the administration and support staff are visible and approachable. This ensures safety is a priority and concerns are addressed in a timely manner.

Although various opportunities are provided to engage in the learning community, the pandemic has made it a challenge for families to take on additional responsibilities/availability. Leadership is working to build student and family capacity to fully comprehend and utilize the resources that are available to enhance learning. Such resources include ParentSquare, Paper, Surveys, etc. An additional area of focus is to build technology partnerships with the community to provide families with resources such as technology education, low-cost internet, and computers to assist with the changing educational landscape.

## School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

Traditionally, MSA Bell conducts a school climate survey every year during the early spring through Panorama. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feels, and how to facilitate improvement. Throughout the document, many references have been made to the various components of the survey. This portion will be dedicated to the free responses from our stakeholders.

The following are strengths as identified by each stakeholder group:

- Students: Supportive staff with many resources available; Fair and Respectful treatment of everyone; School facilities
- Families: Staff is supportive of family needs; Rigorous instruction; Communication through ParentSquare
- Staff: Welcoming environment and supportive; Collaborative spirit among staff; Availability of resources to support learning

Connection is a hallmark of MSA Bell, across all stakeholders the value and importance of connecting and building relationships are essential. MSA Bell team will continue to adapt to the needs of the community to ensure this continues, especially as students transition to a hybrid.

MSA Bell has an array of resources that are available to enhance learning. Leadership will continue to create messaging and training for all stakeholders to fully utilize the resources available.

The following are needs as identified by each stakeholder group:

- Students: Remote learning and the pace of instruction; Amount of student work; Pre-pandemic issues related to middle school such as uniform, bullying, etc.
- Families: Accessibility and availability of office hours and staff; Pre-pandemic issues such as traffic, outside environment
- Staff: Additional workload due to Distance Learning; Lack of physical interaction with students that diminishes accountability; Need for culture building across all stakeholders

There are a couple of pre-pandemic issues that resonate with middle school experience, although it has been more than a year since students and teachers have set foot on campus. Some of these issues include traffic and bullying (social media and COVID), these will need to be monitored closely, especially as the school returns to a hybrid format. The ability to access staff through office hours or hours of operation has been a challenge. The pandemic has shifted the office of operation to ensure COVID mitigating factors are in place such as schedule through appointments, health screening, and limiting operation hours. As Los Angeles county transitions to less restrictive

tiers, so do the operating hours and support for families.

Here are some other factors that are being explored and implemented to ensure a rigorous academic program that adapts to the needs of the community:

- Increase tele-outreach to support in various areas such as the transition to hybrid, and educate with online tools such as Illuminate and ParentSquare.
- Evaluate instructional practices to highlight promising instructional practices such as a focus on power standards, ensure assignments are relevant to finish product, emphasize learning skill sets and recognition of the process for learning, staff sharing, and highlighting instructional practices during meetings.
- Adjustment of schedule to ensure time is allocated for an appropriate break and lunchtimes, and shift advisory to assist with academic interventions
- Dedicated task force members to highlight and solicit information about reopening, to be part of the decision-making process.
- As students return, opportunities to increase student-to-student interactions will be explored further through professional development.
- As students return to campus, the instructional staff will focus on reviewing and adjusting the school-wide expectation matrix to continue to align with our PBIS goals.
- Explore communication inhibiting factors

Findings have been shared with various stakeholders through various meetings/informational sessions.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA Bell designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Bell strives to offer a well-rounded education to our students. Furthermore, MSA Bell support staff responsibilities shifted due to the pandemic to ensure connectivity to school. This included phone outreach to determine student needs such as Hot Spots for Internet, Chromebook, or providing technical support to ensure connectivity to classes and the available platforms. All technology is managed and monitored to ensure appropriate usage and inventory.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and

science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs, and services being dependent on student need and interest. For example, we provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our internal assessments (MAP, IAB, etc.) All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness and socio-emotional development. The Learning Management System provides teachers with resources to monitor academic progress and tips to connect with students. Mentorship is monitored through the LMS to ensure every child has an adult connection on campus. Furthermore, MSA Bell has provided students with information regarding A-G courses, as well as offered opportunities to take courses such as Algebra 1, Geometry, or world language courses (Spanish 1 and 2) that would earn credit towards their high school pathway.

3. MSA Bell has executed extensive plans to ensure and provide ongoing connectivity. The major hindrance impacting student connection is the inability to form a personal connection in the virtual environment versus in-person. The pandemic has led to the monitoring of various data points that identifies our neediest students and extensive plans have been generated to connect or reconnect students and families. These plans include, but not limited to, home visits, conferences and follow-ups, creation of personalized scheduled, support to connect to the various platforms, etc.

4. The following is a list of strategies and actions that are being reviewed for implementation/execution. Some of these plans are currently in action and will be adjusted to continually enhance positive student outcomes.

- Increase tele-outreach to support in various areas such as the transition to hybrid, and educate with online tools such as Illuminate and ParentSquare.
- Evaluate instructional practices to highlight promising instructional practices such as a focus on power standards, ensure assignments are relevant to finish product, emphasize learning skill sets and recognition of the process for learning, staff sharing, and highlighting instructional practices during meetings.
- Adjustment of schedule to ensure time is allocated for an appropriate break and lunchtimes, and shift advisory to assist with academic interventions
- Dedicated task force members to highlight and solicit information about reopening, to be part of the decision-making process.
- As students return, opportunities to increase student-to-student interactions will be explored further through professional development.
- As students return to campus, the instructional staff will focus on reviewing and adjusting the school-wide expectation matrix to continue to align with our PBIS goals.
- Explore communication inhibiting factors

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-San Diego	Gokhan Serce Principal	gserce@magnoliapublicschools.org (619) 644-1300

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks****1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards			3		
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-San Diego ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-San Diego has also provided PD and supported our teachers on NGSS, History-Social Science, Physical Education, Visual and Performing Arts, MTSS and Personalized PD. Due to Covid-19 school closures we have also provided additional PD to provide a successful distance Learning.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-San Diego builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, home visits, parent dinner nights and student led conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connect with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance. The School holds periodic meetings to gather input from our families. These

meetings include PAC/PTF meetings, SSC meetings, ELAC Meetings, coffee with the principal meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

### Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-San Diego staff is trained on MTSS expectations and school culture model during summer inservice. As part of our program, MSA-San Diego supports student learning through multi tiered support systems , parent meetings, online tools shared by teachers on a weekly basis, weekly newsletters and voice messages and grade level specific communications. Also student specific feedback and resources given to parents during home visits, student-led conferences and parent meetings.

MSA San Diego's new communication system Parent Square keeps parents and staff in constant communications through multiple mediums such as texts, private messages and voicemail. Parent Square has also broken language barriers between staff and families through its automatic language translation. Finally our teachers use Kickboard positive behavior point system and Illuminate SIS to share student success and progress both academically and socially-emotionally on a daily basis. We continued to utilize the same resources during the Distance Learning.

### Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

MSA-San Diego holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, MTSS meetings, coffee with principal meetings and Local Governance Community meetings. During these meetings parents have the opportunity to review the school's draft budget, MTSS plan, LCAP, WASC, Health and Wellness plan, Safety plan and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

### School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-San Diego annually conducts the CORE Districts survey instruments to students in grades 6-8, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information, feedback meetings and regular board meetings. MSA-San Diego disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-San Diego strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, 94.7 % of our students participated in the survey and their responses provided an average approval rating of 76% on the eight topics of the survey., with a rating of 75% on Topic 3 (Safety) and a rating of 65% on Topic 4 (Sense of Belonging / School Connectedness). Our approval rating, Safety rating, and sense of belonging rate for students increased significantly compared to last year. Our student approval rates increased 14% from the past school year. There has been a concerted effort in supporting our students' social-emotional wellbeing through weekly SSR lessons, daily advisory ZOR lessons, as well as explicitly teaching students the values we share in our character education initiative we call the WIZARD way. One of our goals for our students is to provide a learning environment where students learn skills to become independent learners. Based on student survey results the highest approval rates are "overall school experience" 89% favorable and "Climate of Support for Academic Learning" 82% favorable. These results attest that we are on the right path focusing the whole child. 89% of our students indicated that "Overall, I am satisfied and would recommend this school to other students." Given that we were in distance learning for nearly a year, the overall satisfaction rate is a testament to the dedication of our teachers who were determined to provide an engaging distance learning program for our student body. Moreover, it is a reflection of MSA San Diego leadership's guidance, coaching and efforts to adjust to the educational landscape that had many changes.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-San Diego designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-San Diego strives to offer a well-rounded education to all of our students.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We also offer honors math classes in each grade.

3. MSA-San Diego provides access to a college-preparatory, STEAM focused broad course of study for all of our the students.

4. MSA-San Diego will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students are equipped with necessary tools to graduate college and become career ready.

In an effort to provide more well-rounded education to our students, MSA-San Diego will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, study Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips,, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-San Diego will make the best use of its resources to provide a well-rounded education experience to all of our students.

# Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskindurk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

## Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Performance Standards

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

### **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)**

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

## Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

### Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

**OPTION 2: Reflection Tool****Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<b>Academic Standards</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

### Optional Narrative (Limited to 1,500 characters)

#### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-Santa Ana ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 25 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-Santa Ana has also provided PD and supported our teachers on NGSS, History-Social Science, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

## Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability
4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

### Building Relationships

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Based on our surveys given to our families, staff, and students, we have added additional meetings with parents such as Second Cup of Coffee with the Principal, Parent Check-ins, Parent College; these are added to our regular SSC, PAC/PTF, and ELAC committee gatherings. In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. Social media (Facebook, Twitter), Leave a Message form (bilingual), and a suggestion box. These are all located in the main office. Magnolia wide we are using the MSA mobile application for our families. We have started to use the Parent Square software, which allows us to communicate with our families without language barriers. Our traditional gatherings with parents such as Parent Orientation, Back to School Night, Fall/ Spring Parent-teacher conferences, Open House, Home visits, and grade-level informational meetings. Fall/ Winter, Cinco de Mayo festivals, and volunteer appreciation day.

## Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
1. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
2. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
3. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
4. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Strengths are PAC/Coffee with Admin meetings. This is an opportunity to introduce MTSS support for SEL to the parents. Parent College and third party partnerships like Parent Union, Milan Teen Project, and Olive Crest parenting classes. Grade level college counseling meetings with our parents and students for supporting and informing parents and students for University going culture. For example, 8th grade high school transition meeting, college signing day, FAFSA meetings. As we establish our parent outreach and provide meetings to involve all our families, building Parent attendance is a focus for us.

## Seeking Input for Decision Making

Rating Scale (lowest to highest) -

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5

Seeking Input	1	2	3	4	5
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

**Dashboard Narrative Box (Limited to 3,000 characters)**

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

We value our stakeholders and are using their feedback to strengthen the upcoming school year. Schoolwide instant surveys from staff provide input for a positive and supportive school climate. Parent check-in meetings allow for decision making to become ongoing. Surveys are designed to support all academics, behavioral, and social-emotional needs of the whole child.

**School Climate (LCFF Priority 6)**

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

- DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
- MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
- USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

**GLOWS**

We are very proud of the fact that we went up in stakeholder happiness. The one thing that was repeated over and over is the satisfaction with and love of the teachers by both the students and the families. Another success is the communication this year between all stakeholders. It is very important to us to keep building the relationships between school and home - being transparent and supportive to our teachers who in turn, are supportive of the students. We would like to build on the positive environment that we have nurtured this year by collaborating with the teachers more and showing them that they are being heard and focusing on PBIS structures.

**GROWS**

The Elementary students like least the food and not having enough area to play or a permanent playground. The Secondary students strongly dislike the school food, the crowded hallways, the restrictions to bathroom usage. In addition, all students dislike not maintaining teacher retainment.

**SUGGESTIONS**

The Elementary students suggested that we offer better food and more sports. The Secondary students suggested better food, grass field (soccer), water fountain outside, and having more sports because of our brand new gym.

Additionally, the students suggested that we revisit our teacher contracts because they would not like to see any teacher leaving in the middle of the year.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1) MSA-Santa Ana designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Santa Ana strives to offer a well-rounded education to our students.

MSA-Santa Ana provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction with UC/CSU requirements.

2) As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs, and services are dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support, and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP US History, AP World History, AP Language & Composition, AP Stats, AP Computer principles

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-Santa Ana offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction with UC/CSU requirements. MSA-Santa Ana had a one-year cohort graduation rate of 100% last year where 100% of our graduates completed courses that satisfy the UC/CSU requirements.

3) MSA-Santa Ana provides access to a college-preparatory, STEAM-focused broad course of study for all our students.

4) MSA-Santa Ana will continue to provide access to a college-preparatory, STEAM-focused broad course of study for all our students. We will ensure that all our students graduate college and career ready. In an effort to provide more well-rounded education to our students, MSA-Santa Ana will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-Santa Ana will make the best use of its resources to provide a well-rounded educational experience to our students.

## Academic Update

**Section:** V. Information/Discussion Items  
**Item:** B. Academic Update  
**Purpose:** Discuss  
**Submitted by:**  
**Related Material:** Academic Department Updates June 2020.pdf

Board Agenda Item #	V B: Information/Discussion Item
Date:	June 24, 2021
To:	MPS Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Erdinc Acar, Chief Academic Officer
RE:	Academic Department Updates

### **Proposed Board Recommendation**

N/A - This is an informational Item

### **Background**

MPS Academics departments will update board members on the following programs, activities and events.

- Graduation and Promotion Events
- College Acceptances
- Summer School
- NWEA MAP Assessment Results - Fall 2020 to Spring 2021 growth

### **Attachments**

1. Slide deck for Academic Updates

# ACADEMIC DEPARTMENT UPDATES

MPS Board Meeting - June 24, 2021

# Updates

- ❏ Graduation and Promotion Events
- ❏ College Acceptances
- ❏ Summer School
- ❏ NWEA MAP Assessment Results - Fall 2020 to Spring 2021 growth

CONGRATULATIONS CLASS OF

2021

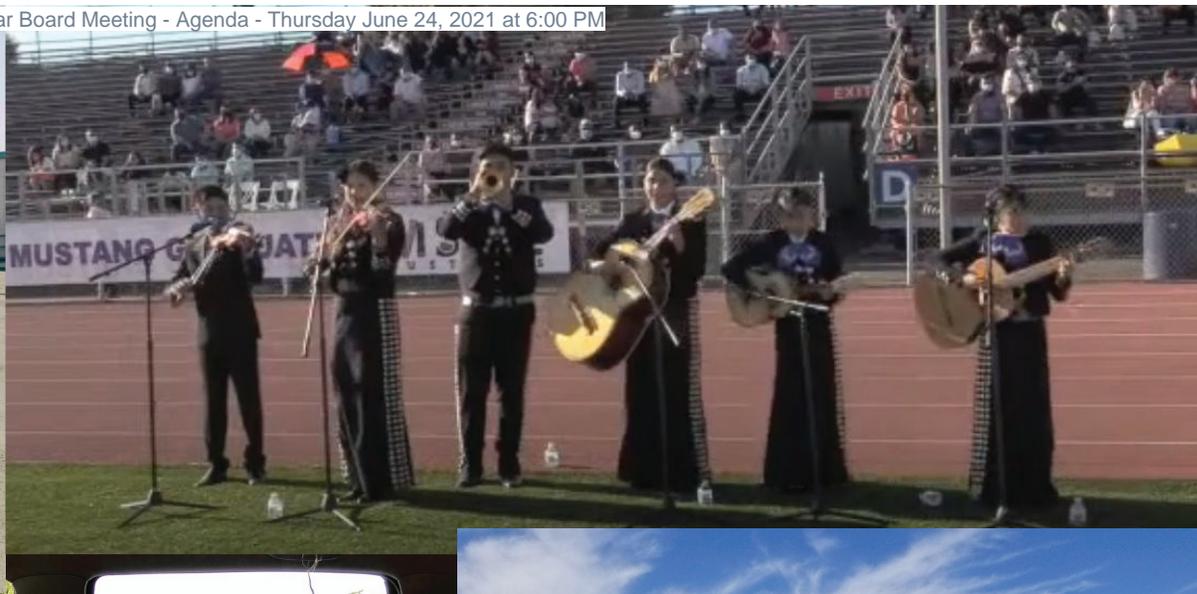

Graduations &  
Promotions

#MPSGrad

*Special thanks to MPS Board Members taking the time, energy and funds to be make our moments even more memorable.*

- ❑ 227 High School Students
- ❑ 735 Middle School Students
- ❑ 114 Elementary School Students

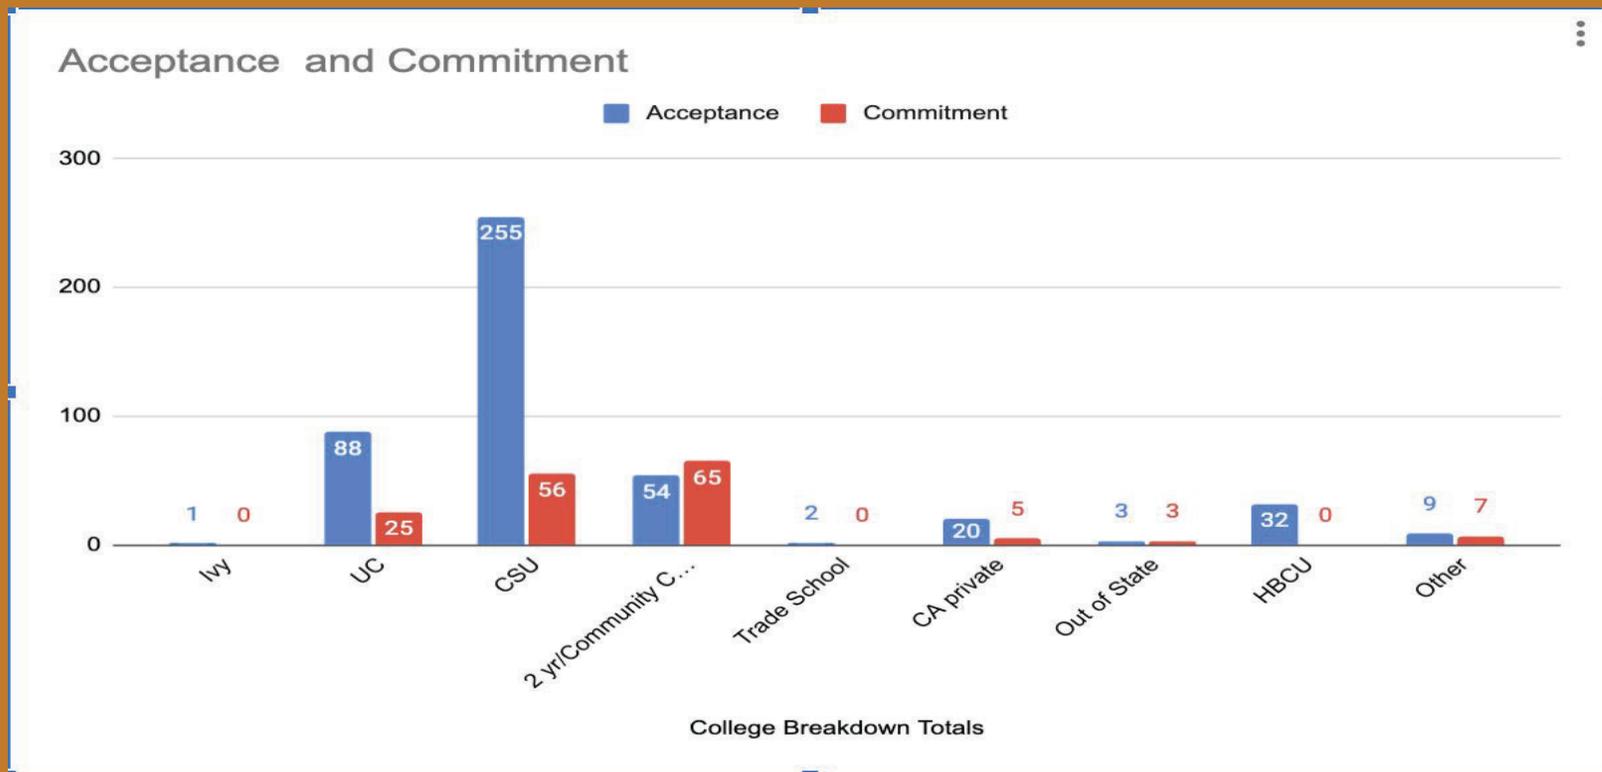

# College Data

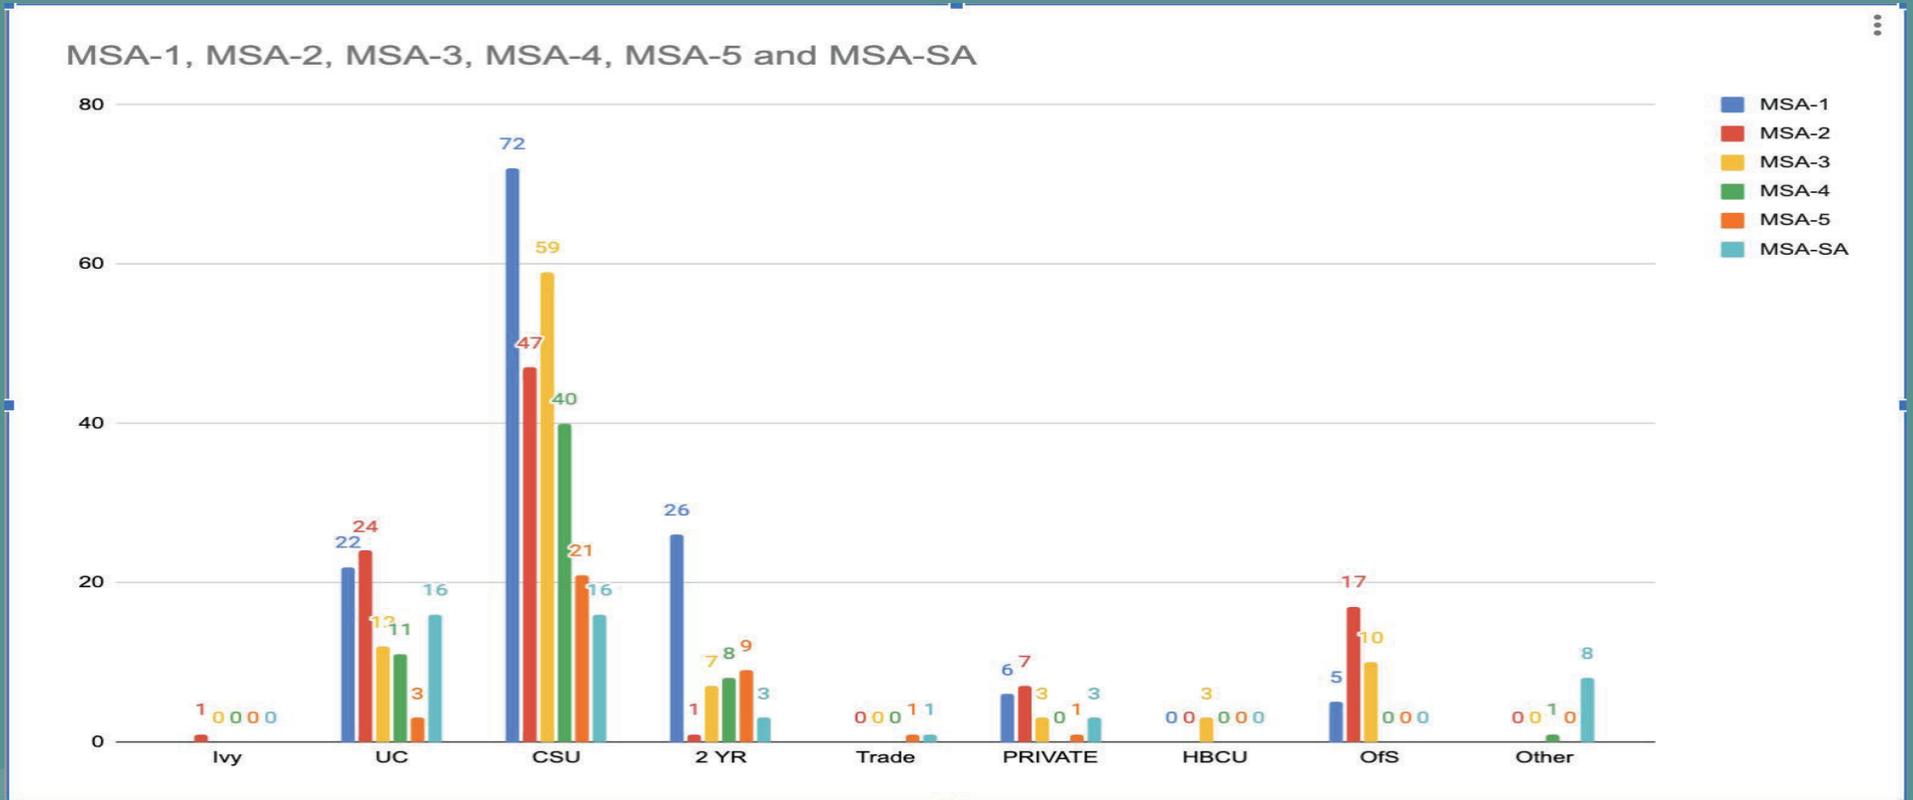

## Class of 2021

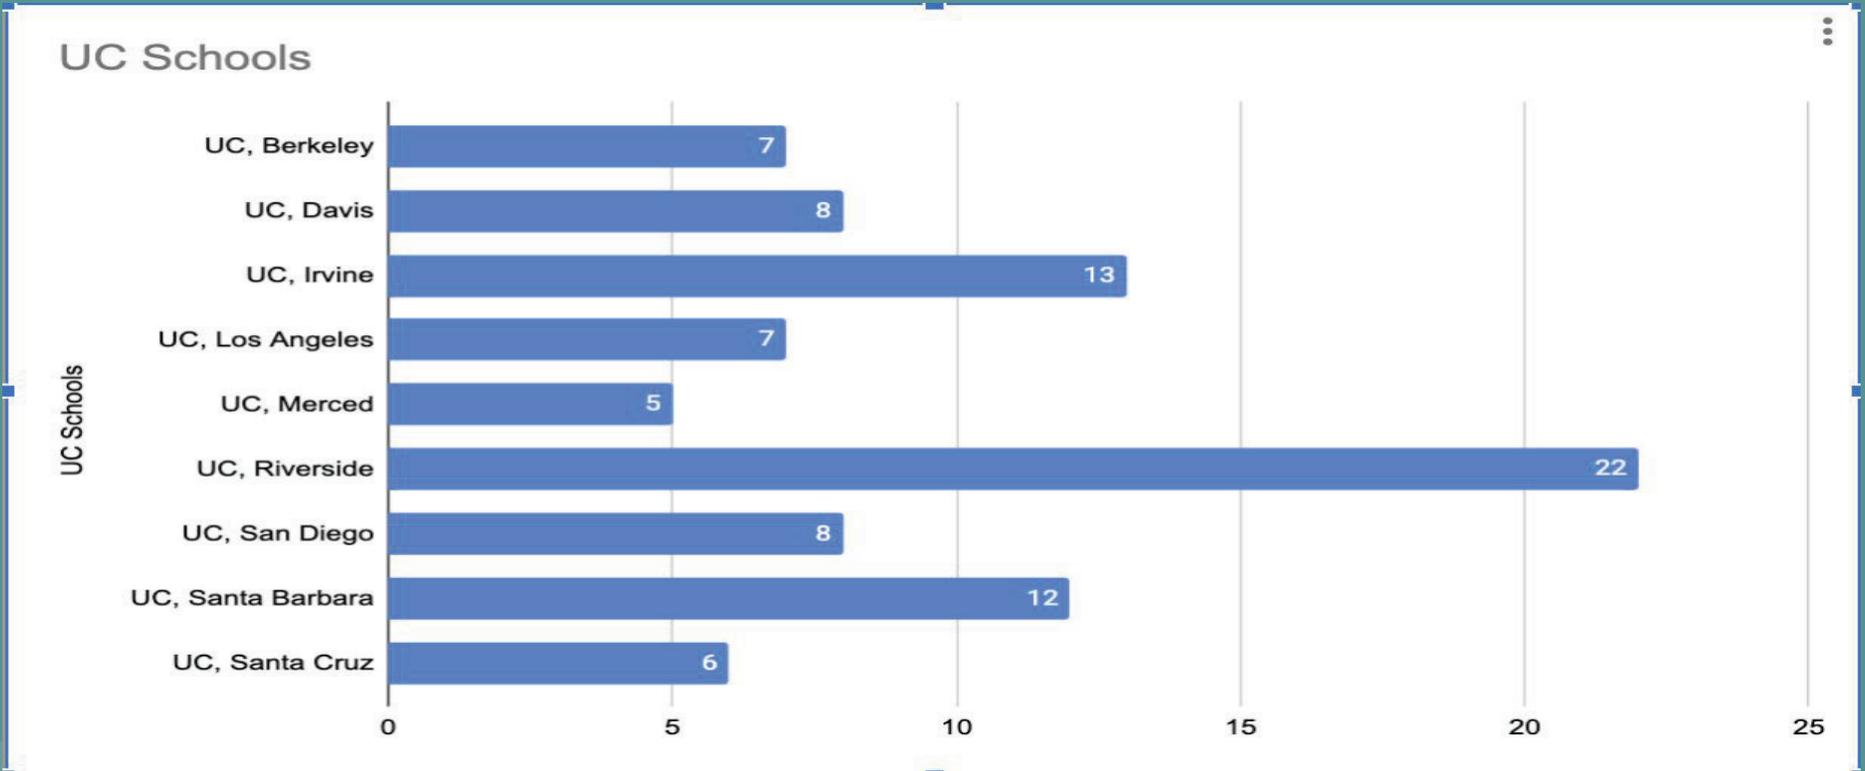

# Acceptances and Commitments

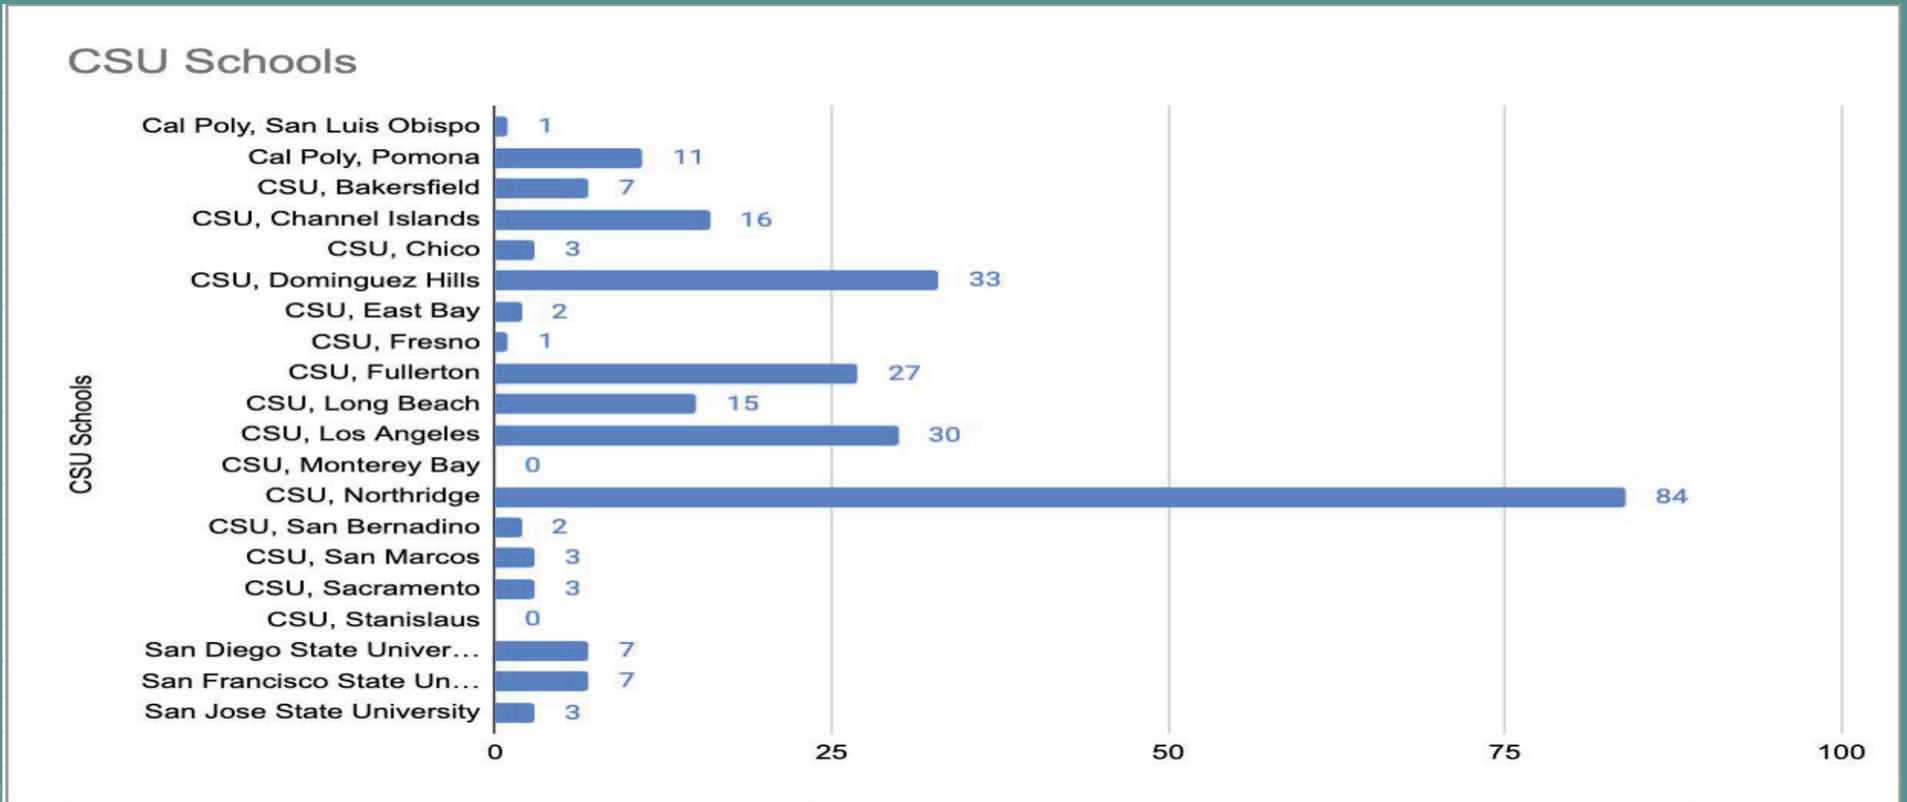

# Acceptances (School by School Comparison)

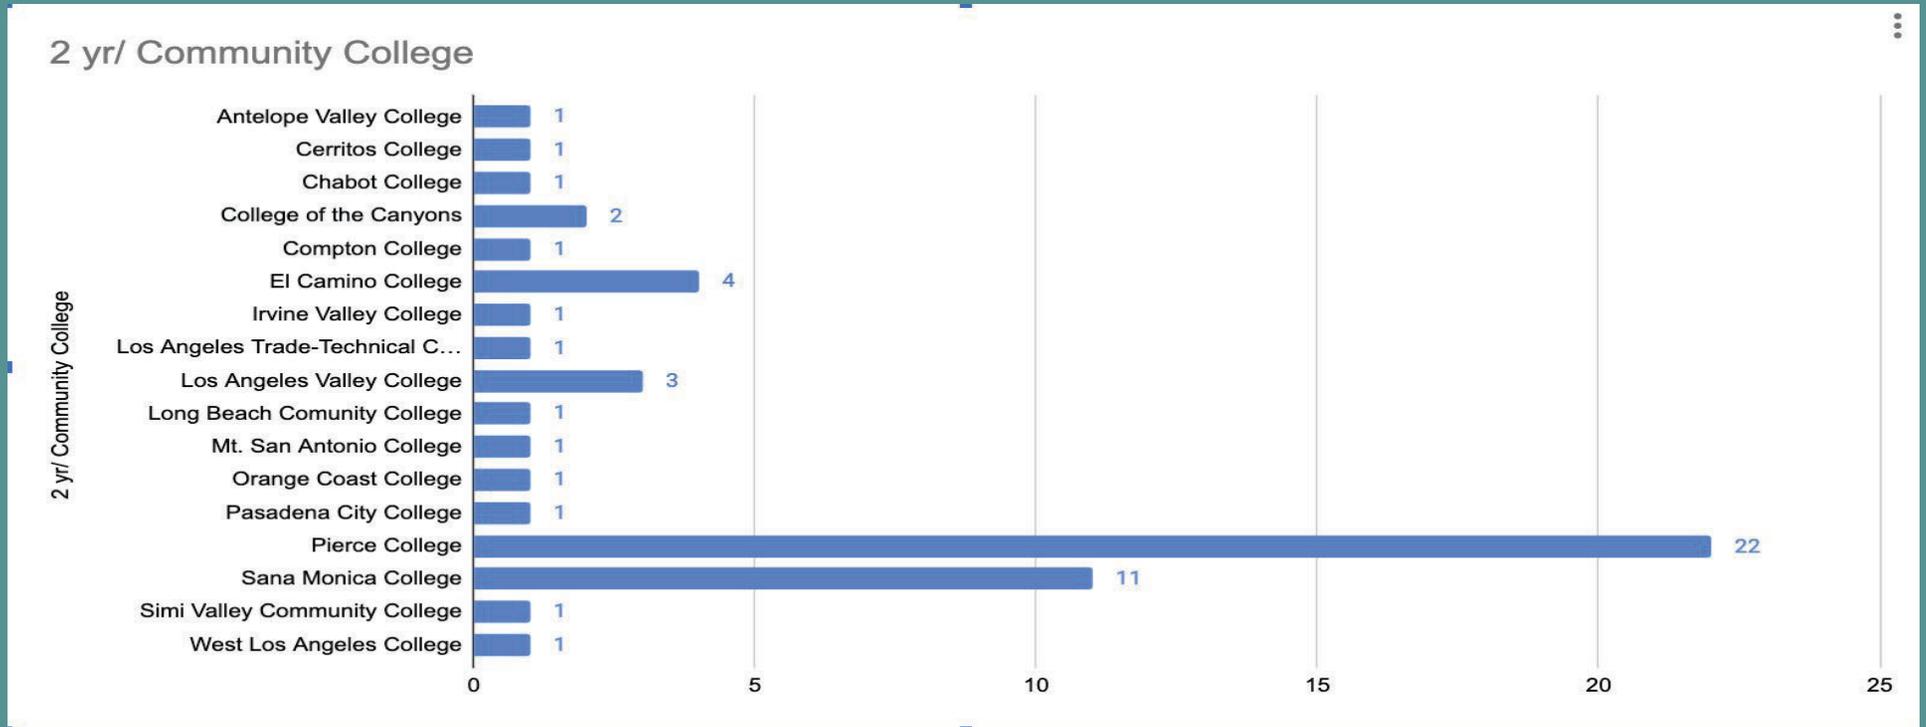

# UC Schools (Acceptances)

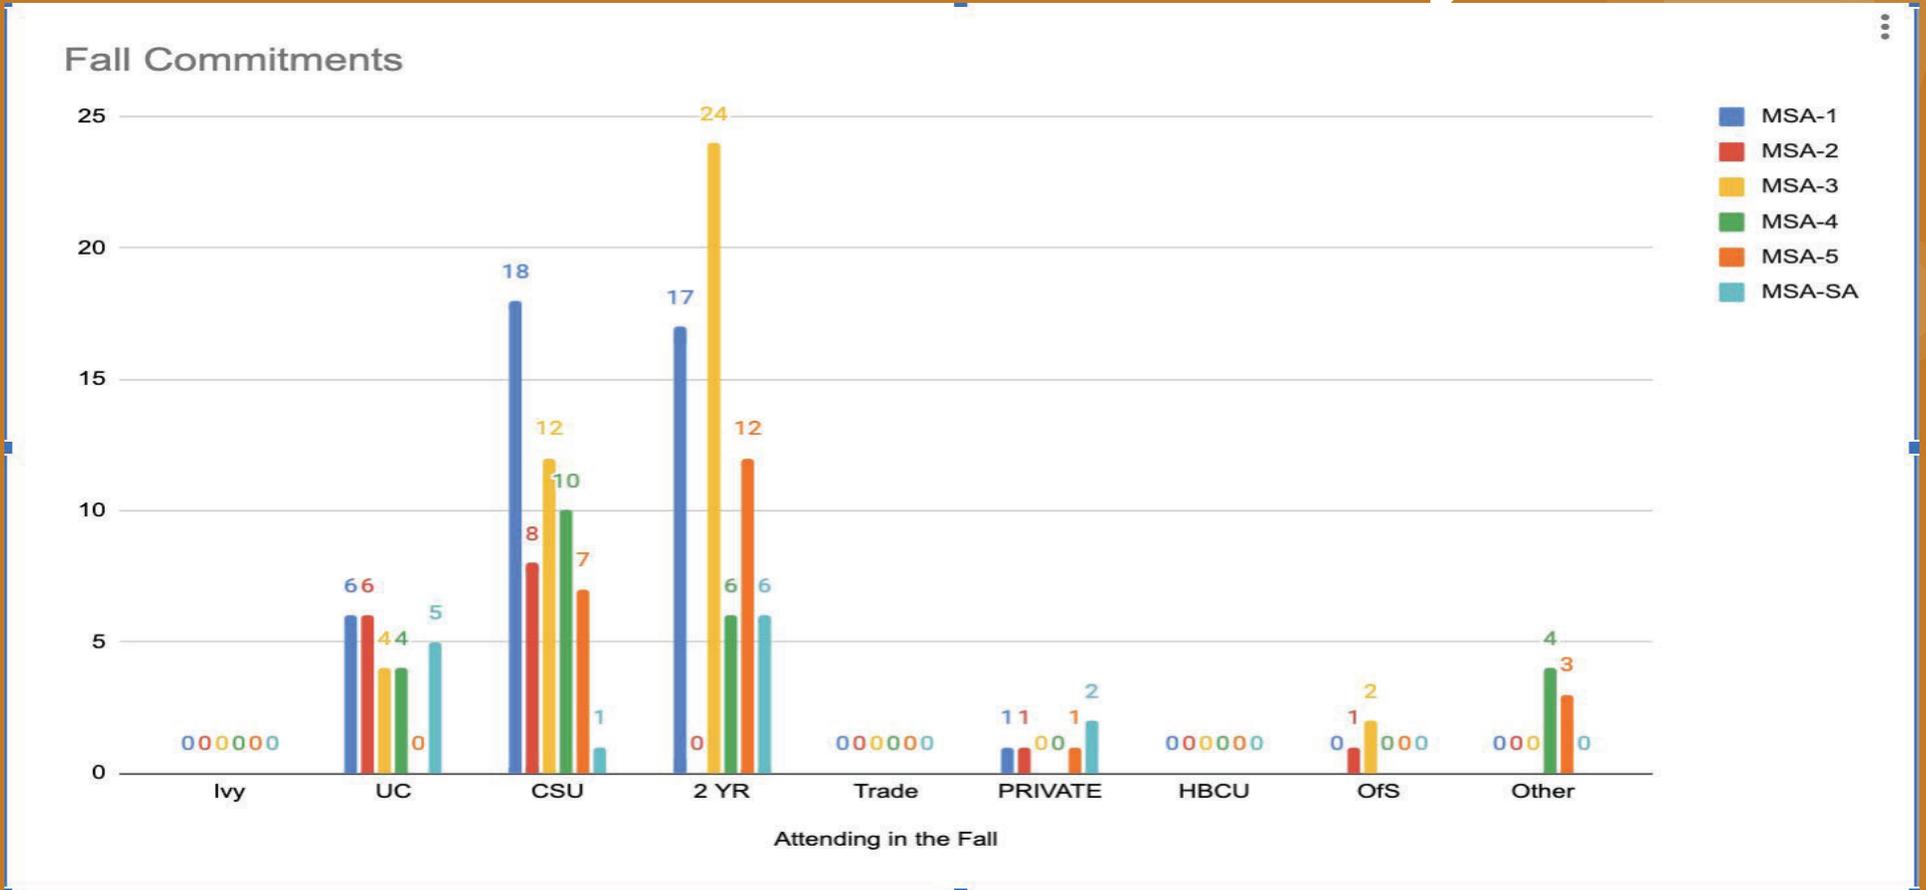

# CSU Schools (Acceptances)

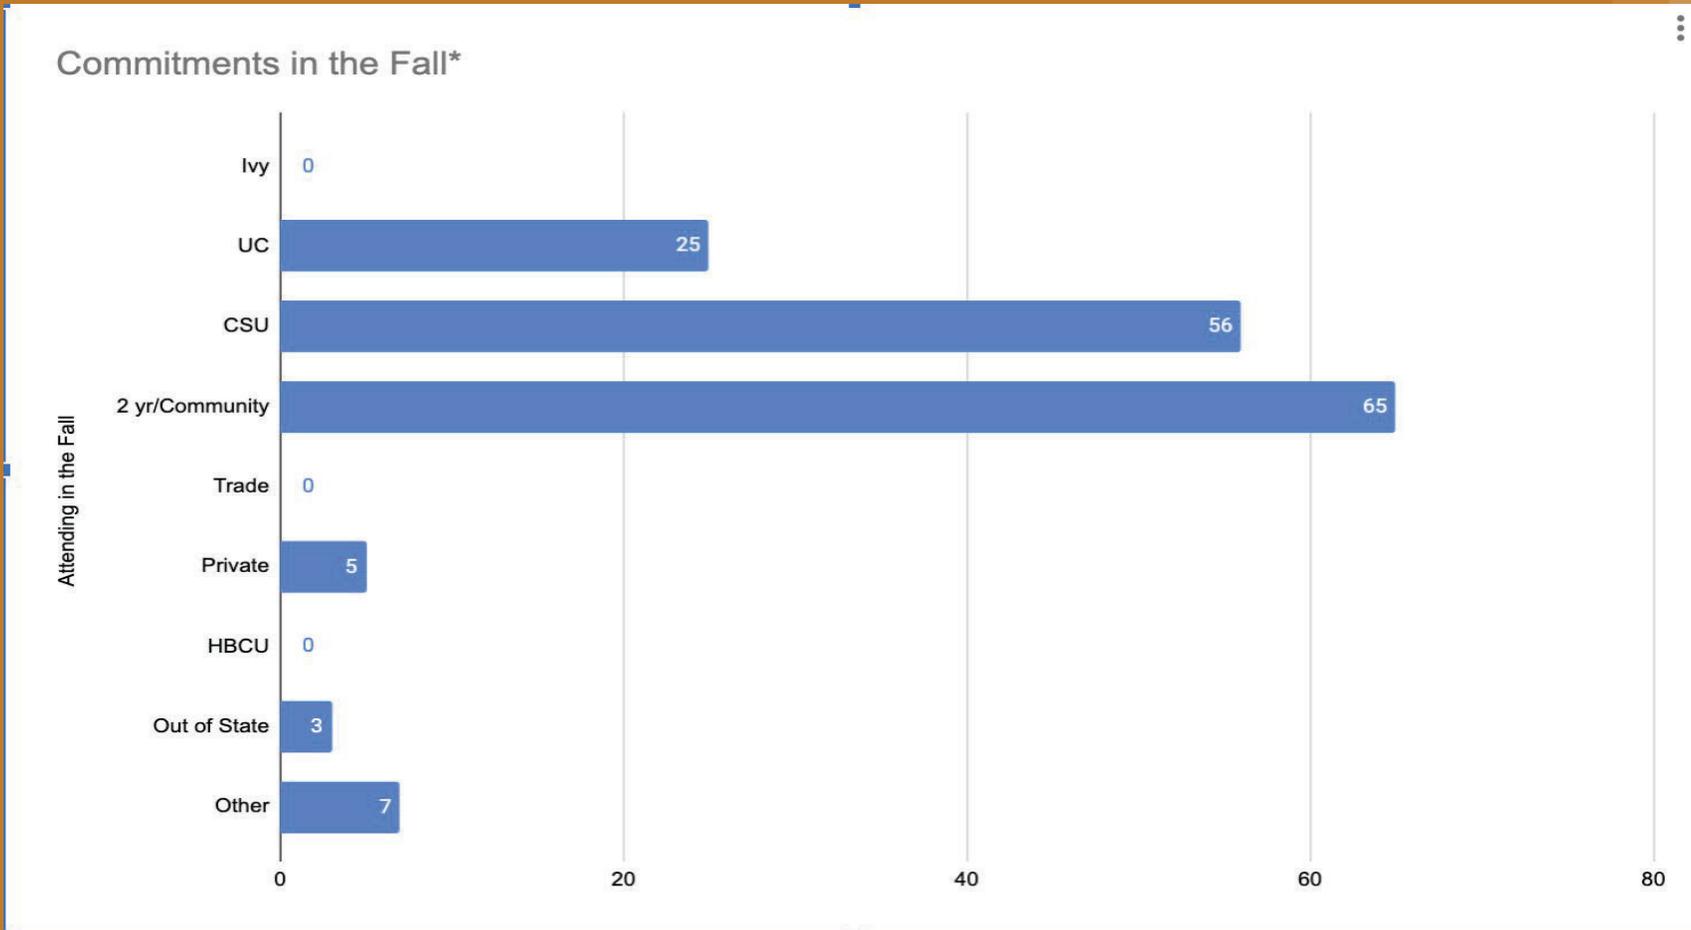

# 2 Year/ Community College (Acceptances)

# Fall Commitments (School by School)

# Commitments (Type of College)

# MPS Summer Schools

- ❑ July 6 - July 23
- ❑ About 1,100 students and 100 staff from 10 schools
- ❑ \$350K from various funds including ELOG and TITLE I
- ❑ Both in-person and distance
- ❑ Focus
  - ❑ Credit Recovery and Makeup
  - ❑ Bridge Programs (Intro to STEAM)
  - ❑ Learning Enrichment and Acceleration (Learning Fun/ STEAM)
  - ❑ Social-Emotional and Mental Health
  - ❑ Prioritized Groups- Homeless, Foster Youth, SPED EYS
