Magnolia Public Schools

Regular Board Meeting

Date and Time
Thursday June 23, 2022 at 6:00 PM PDT

Location
https://zoom.us/j/97856064990?pwd=MHhBZCtGT0xEMlZpNEZQZVJ3RDBPZz09

Meeting ID: 978 5606 4990   **Passcode:** 021250
One tap mobile: +16699009128,,97856064990# US (San Jose)

All members of the public can participate by calling in using the numbers provided above.

In compliance with the Americans with Disabilities Act (ADA) and upon request, Magnolia Public Schools may furnish reasonable auxiliary aids and services to qualified individuals with disabilities. Members of the public who need special accommodations or translation are strongly encouraged to contact Magnolia Public Schools at least 24 hours in advance of the Board meeting so assistance can be assured.

Any public records relating to an agenda item for an open session which are distributed to all, or a majority of all, of the Board Members shall be available for public inspection. Magnolia Public Schools values public comment during Board meetings. Pursuant to AB 361 members of the public may address the Board during the Public Comment period on the day of the board meeting without the need to complete a public speaker form. We limit individual speakers to three (3) minutes and speakers with interpreters to six (6) minutes. For any questions regarding this meeting email board@magnoliapublicschools.org or call 213-628-3634 Ext. 100.

Board Members:
Ms. Sandra Covarrubias, Chair
Dr. Umit Yapanel, Vice-Chair
Dr. Salih Dikbas
Ms. Diane Gonzalez
Mr. Mekan Muhammedov
Mr. Daniel Sheehan
Mrs. Esra Eldem Tunc

CEO & Superintendent:
Mr. Alfredo Rubalcava

Agenda

	Purpose	Presenter	Time
I. Opening Items			**6:00 PM**
Opening Items			
A. Call the Meeting to Order			1 m
B. Record Attendance and Guests			1 m
C. Approval of Agenda	Vote		1 m
D. Public Comments			5 m
E. Announcements from CEO & Superintendent and Board Members			5 m
II. Closed Session			**6:13 PM**
A. Public Announcement of Closed Session	FYI		1 m
B. Public Employee Performance Evaluation (§ 54957) - Title: CEO & Superintendent			60 m
C. Report Out of Closed Session	FYI		1 m
III. Consent Items			**7:15 PM**
A. 2022-23 Certification of Signatures Form	Vote	S.Budhraja	3 m
B. Approval of 2022-23 MPS Board Meeting Calendar & Committee Meeting Calendar	Vote	A.Rubalcava	3 m
C. Approval of MPS 2022-23 Student/Parent Handbook	Vote	D.Yilmaz	3 m
IV. Information/Discussion Items			**7:24 PM**
A. Community Schools Planning Update	Discuss	B.Lopez	10 m
B. Academic Updates	Discuss	E.Acar	10 m
C. Progress on Meeting Local Performance Indicators on the CA School Dashboard	Discuss	D.Yilmaz	15 m
V. Action Items			**7:59 PM**
A. Appointment of 2022-23 MPS Board Officers	Vote	A.Rubalcava	5 m
B. Approval of the Local Control and Accountability Plans (LCAP) for All MPS	Vote	D.Yilmaz	15 m
C. Approval of the 2022-23 Adopted Budgets for all MPS Sites & Home Office Management Fee Policy	Vote	Finance Committee	15 m
D. Approval of the 2023-23 MPS Master List of Contracts for the 2022-23 Fiscal Year	Vote	Finance Committee	10 m
E. Approval of the Education Protection Act (EPA) Resolution for the 2022-23 School Year	Vote	S.Budhraja	7 m
F. Approval of Expanded Learning Opportunities Program (ELO-P) Plans for MSA-1, 2, 3, 4, 5, 6, 7,8 ,Santa Ana and San Diego	Vote	E.Acar	7 m

	Purpose	Presenter	Time
G. Approval of Updated MPS Health and Safety Policy and Injury and Illness Prevention Program ("IIPP") COVID-19 Addendum	Vote	D.Hajmeirza	5 m
H. Approval of AdHoc Committee to Evaluate and Approve Discrete Facilities Projects for MSA-1, MSA-Santa Ana & MSA-San Diego	Vote	Audit/Facilities Committee	15 m
I. Approval of CLI Capital as a Lender to Magnolia Educational & Research Foundation (MERF)	Vote	Audit/Facilities Committee	10 m
J. Election of Board Members to Magnolia Properties Management, Inc	Vote	P.Ontiveros	7 m
K. Approval of CEO Comparable Compensation Data	Vote	M.Muhammedov	5 m
L. Approval of CEO Metrics, Evaluation Measures, and Contract Renewal	Vote	M.Muhammedov	10 m

VI. Closing Items   9:50 PM

	Purpose	Presenter	Time
A. Adjourn Meeting	Vote		1 m

Board Agenda Item#	III A: Consent Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Steve Budhraja Ed.D, Chief Financial Officer
RE:	2022-23 Certification of Signatures Form

Proposed Board Motion

I move that the board approve the 2022-23 Certification of Signatures Form for Charter School Funds Distribution Authorization. Signatures will be effective July 1, 2022 through June 30, 2023. Signatories will include the CEO & Superintendent, Chief Financial Officer, Chief Operations Officer and MPS Board Members.

Background

In accordance with Education Codes 35143, 42632, and 42633, the Certification of Signatures form is required to formalize the personnel authorized to sign orders for salary or commercial payments, notices of employment, and contracts. The current form expires June 30, 2022, the new form will be in place July 1, 2022 to June 30, 2023.

Budget Implications

There are no budget implications.

Board Agenda Item #	III B: Consent Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Alfredo Rubalcava, CEO & Superintendent
RE:	2022-23 MPS Board and Committee Meeting Calendars

Proposed Board Motion

I move that the board approve the calendar for 2022-23 Regular MPS Board Meetings and Regular MPS Board Committee Meetings.

Introduction

Per the MPS Board Bylaws, meetings are held the second Thursday of the month unless otherwise stated. For 2022-23 Regular Board Meetings, most meeting dates follow this practice except the meetings in November due to a holiday and January due to Winter Break. The month of June will have two Regular Board Meetings in correspondence to staff preparing for the next school year.

Magnolia Public Schools is granted the teleconference flexibilities afforded in AB 361. As COVID-19 cases have been in a slight increase, the Board on a monthly basis revisits this item and for now meeting in person in a congregation is deemed a risk to educational partners, staff and Board. Meetings for now will be held virtual and the Board will revisit if any changes should be made in regards to meeting locations. Though AB 361 grants certain flexibilities, the Board will follow all other regulations prescribed in the Brown Act and SB126.

SB126: All Regular Board Meetings will be held within the jurisdiction of Los Angeles County, where the majority of the MPS student population resides. All 9 in-person meetings will be held amongst MSA 1-8 and the MPS Home Office. Additionally, per SB 126, all school sites (MSA 1-8, MSA-Santa Ana and MSA- San Diego), will remain open as remote locations during the duration of all special, emergency and regular committee and board meetings.

Budget Implications

CEO & Superintendent & Chief Financial Officer will revisit based on the direction of the Board for future developments of in-person meetings to accommodate costs associated with meetings including school site budget for staff compensation for extra hours worked during board/committee meetings.

MAGNOLIA
PUBLIC SCHOOLS

Board Agenda Item #	III C: Consent Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	David Yilmaz, Chief Accountability Officer
RE:	Approval of the MPS 2022-23 Student/Parent Handbook

Proposed Board Recommendation

I move that the board approve the MPS 2022-23 Student/Parent Handbook.

Background

This is a routine annual item for the Board. MPS updates our Student/Parent handbook every year based on feedback from our stakeholders and legal counsel. It is a live document that is consistent with our charter petitions and practices at our school sites. The handbook includes most of our student policies in their entirety except those which are too long or specific to be fully included in a general student/parent handbook, such as independent study and forms or math placement policy. Each of those exceptions is included as a synopsis and the student/parent is referred to the full policy for details. All those policies are made available to the schools on our school websites and in the front office of our school sites for convenient access.

The handbook includes required annual notices and forms such as Title I meetings, parent-student-school compact, UCP, etc. It also includes agreements for students/parents to sign, such as the Student Technology Use Policy. Instead of mailing students/parents separate notices and forms to review and sign throughout the year, MPS has consolidated all required notifications and forms in a single handbook with an acknowledgement and signature page attached to the end. This approach has resulted in a handbook with a relatively larger size, but the benefits (compliance with notifications, convenient access to policies, etc.) seem to be worth it. Besides providing all necessary information in a single place to the stakeholders, our school administrators also find this approach very practical for accountability purposes.

The Student/Parent Handbook is purposefully designed into seven sections:

1) Academics: Educational Equity
2) Academics: High School & Beyond

3) Attendance & Records

4) Health & Wellness

5) Safety & Security

6) Engaging Educational Partners & Complaint Procedures

7) Information Sheets & Notices

Subtopics are grouped together so that a person interested in one topic, e.g., Health & Wellness related topics, can conveniently find all related information in that section of the Handbook. Most district handbooks list all their topics alphabetically, not by topic, making it hard to find information in one place and synthesize.

MPS also followed LACOE's "Annual Parent Notifications" manual to include all of the required notifications as well as most of the recommended notifications. Therefore, we ended up including more than 100 notifications in the Handbook. The best part is that all those notifications are grouped into the seven sections of the Handbook by topic along with the related Magnolia policies and procedures to make the Handbook coherent and easy to follow.

Traditionally, the Chief Accountability Officer (CAO) trains MPS school site administrators on changes made to the handbook during the summer training and at monthly academies throughout the year. The CAO, working with the Chief Academic Officer and the Director of Student Services, also facilitates discussion during those meetings and collects feedback on our policies in order to finalize the following year's handbook.

Following is a list of modifications made in the 2022-23 Student/Parent Handbook.

Page #	Modification
5-7	Updated the Vision and Mission. Added Core Values, Portrait of a Graduate Competencies, Schoolwide Learner Outcomes (SLO) and Goals.
8	Updated address and added a picture for MSA-6.
19	Added language about English Learners Identification Notice *(copied from LACOE's "Annual Parent Notifications" manual)*
20	Added language about Instruction for Pupils with Temporary Disabilities *(copied from LACOE's "Annual Parent Notifications" manual)*
25	Added language about Education of Homeless Youth: Right to Apply for Financial Aid *(copied from LACOE's "Annual Parent Notifications" manual)*
28	The following waiver which applied to the class of 2022 has been removed thereby restoring the requirements for the class of 2023. * The "Prepared" designation requirement and the service-learning hours requirement have been waived for the Class of 2022.
33	Added language about Retroactive Grant of High School Diplomas: Departed/Deported Pupils *(copied*

	from LACOE's "Annual Parent Notifications" manual)
37	Added language about the MPS College Application Fee Policy.
38	Added language about Chronic Absenteeism and Arrest of Truants *(copied from LACOE's "Annual Parent Notifications" manual)*
42	Added language about Truant Consequences *(copied from LACOE's "Annual Parent Notifications" manual)*
44	Updated language about Custody Issues *(copied from LACOE's "Annual Parent Notifications" manual)*
47	Added language about California Youth Football Act and Health Insurance Coverage for Athletes *(copied from LACOE's "Annual Parent Notifications" manual)*
48	Added language about Medical or Hospital Service *(copied from LACOE's "Annual Parent Notifications" manual)*
51	Updated language about Immunizations *(copied from LACOE's "Annual Parent Notifications" manual)*
52	Updated language about Free School Meals based on EC 49501.5.
54	Added an introductory blurb about suicide prevention *(copied from LACOE's "Annual Parent Notifications" manual)*
64	Added language about Walking or Riding a Bicycle to School *(copied from LACOE's "Annual Parent Notifications" manual)*
71	Updated language about Electronic Nicotine Delivery Systems (e-cigarettes) *(copied from LACOE's "Annual Parent Notifications" manual)*
83	Added language about Dangerous Objects *(copied from LACOE's "Annual Parent Notifications" manual)*
96	Added the following language: "The Board shall convene a hearing on the appeal within fifteen (15) working days of receipt of a timely written request for an appeal. (This timeline supersedes the timeline statement in the charter petition if different.)" Previously, it was 30 calendar days. Changed based on feedback from the Director of Student Services. Charter petitions will be updated during renewal.
130-137	Updated the year from 2021-22 to 2022-23 in the forms that are required on an annual basis.
Various	The word "stakeholder" has been replaced with "educational partner."

Budget Implications

N/A

How Does This Action Relate/Affect/Benefit All MSAs?

The Student/Parent Handbook includes updates to our student policies that will affect implementation of policies/procedures at the school sites.

Wishing You a Wonderful School Year!

Dear Parents/Guardians and Students:

Magnolia Public Schools ("MPS") staff believes that education is a shared responsibility between parents, teachers, school staff and students. The success of our students depends on the cooperation of everyone concerned. Each group is responsible for doing its part to make school a place where we can learn and play together in harmony. Everyone has the right to feel safe, secure, and accepted regardless of color, race, gender, popularity, ability, religion, or nationality. This handbook allows us to share our vision with the students and parents/guardians of our school community.

MPS is a reflection of us all. All of our policies are intended to provide a safe and orderly environment that will be conducive to learning. Our faculty and staff look forward to sharing their expertise in academics, special programs, and extracurricular activities. We encourage you to get to know the school, its programs, activities, and schedule. Become an active participant in your education. Get involved through classes, clubs, and activities.

MPS is aware of the fact that a school environment is viable only with clearly defined and implemented rules. MPS compiled this Student/Parent Handbook ("Handbook"), which addresses the school's regulations and policies to set a standard for our students. It is an essential reference book describing what we expect and how we do things. Read it carefully, discuss it with your parent/guardian or child/youth, and let it act as a guide for your effective involvement in all aspects of school. Keep this handbook so you can refer to it throughout the school year.

Wishing you a wonderful 2022-23 school year!

MPS Administration

About MPS

MPS are tuition-free, public charter schools with campuses throughout Southern California, that focus on Science, Technology, Engineering, Arts, and Math (STEAM) - based teaching to ensure its students are well-rounded and college-ready from day one. We offer smaller class sizes, more attention from teachers, as well as safe campuses that foster ideal learning conditions for our students.

VISION:

Graduates of Magnolia Public Schools commit to building a more peaceful and inclusive global society by transforming traditional ideas with creative thinking, effective communication, and the rigor of science.

MISSION:

Magnolia Public Schools provides a safe and nurturing community using a whole-child approach to provide a high-quality, college preparatory STEAM educational experience in an environment that cultivates respect for self and others.

CORE VALUES:

MPS has identified Excellence, Innovation, and Connection as its core anchor values, which are reinforced through the Life Skills curriculum, Schoolwide Learner Outcomes (SLOs), and all school activities.

Excellence

Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse, and argumentative writing. Scholars learn where and how to access the needed information to advance their academic pursuits and societal contributions. Students demonstrate their mastery and excellence in their learning outcomes based on MPS core competencies.

Innovation

Students will have the freedom to choose how and what they learn and demonstrate it as a public display of excellence. Individualized scheduling, early identification of learning styles, personalities, interests, and career plans will support students' matriculation and college and career readiness. This will include student participation in the planning of their educational experience, enrichment and acceleration programs, STEAM program choice options, individualized and blended learning programs, differentiated educational experience, and adaptive assessments.

Connection

School communities are integrated partnerships with the school site staff, families, students, and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, celebrate character, provide academic support through mentorship and internship, promote unity and better decision making through the implementation of restorative justice practices. Additionally, community cultivates identity and gives each member a sense of belonging and pride. MPS utilizes home visits, student surveys, field trips, life skills classes and coaching to support our overall community-based goals. We work with community partners to establish mentoring relationships and other social capital to support our students' development of personal and academic networks for long-term resilience and connection.

PORTRAIT OF A GRADUATE:

Our overarching objective at MPS is to create a vibrant and mutually beneficial partnership between school and community that supports our students' academic and personal success. With the focused conversation about knowledge, skills, mindsets, and literacies essential for 21st-century student success, and through a design process that intentionally engaged our MPS community, MPS has developed the Portrait of a Graduate. Our goal with the Portrait of a Graduate is a collective vision for MPS that articulates our organization and community's aspirations for our students.

Portrait of a Graduate Competencies

The following are SIX COMPETENCIES and descriptions in our community's Portrait of a Graduate.

SIX COMPETENCIES

- Literacy with a Learner's Mindset
- Critical Thinking
- Creativity
- Effective Communication
- Adaptability
- Global Citizenship

COMPETENCY #1 - LITERACY WITH A LEARNER'S MINDSET

Literacy with a learner's mindset for Magnolia students is to demonstrate a depth of knowledge and literacy in multiple subject areas with a learner's mindset to make informed decisions. Students will overcome challenges by developing a positive attitude and belief about learning, embracing curiosity to experience new ideas, and sustaining the desire to learn, unlearn, and relearn.

COMPETENCY #2 - CRITICAL THINKING

Students will utilize their critical thinking skills to problem solve by identifying, evaluating, and prioritizing solutions to difficult or complex situations, and implementing and reflecting critically on a solution.

COMPETENCY #3 - CREATIVITY

Creativity for Magnolia students is to demonstrate originality, imagination, and new ways of thinking critically and independently. Students will transcend traditional ideas, rules, patterns, and relationships to create and convey new or meaningful ideas, methods, or interpretations.

COMPETENCY #4 - EFFECTIVE COMMUNICATION

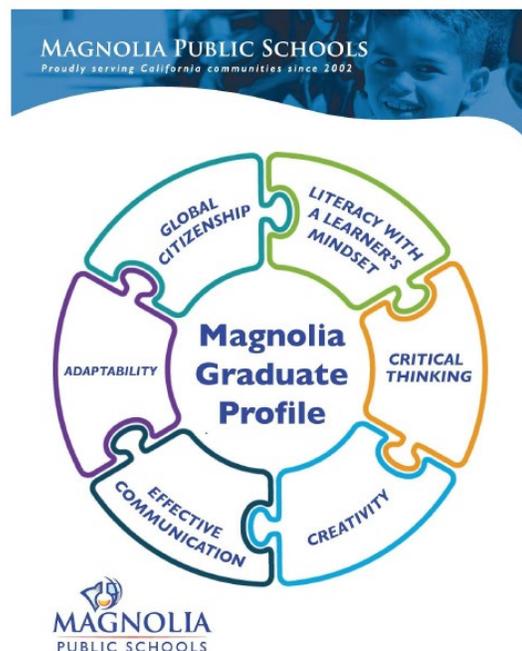
Effective Communication for Magnolia students is to articulate thoughts and ideas effectively using oral, written, and non-verbal communication skills in a variety of forms and contexts, for a range of purposes and audiences. Students will also demonstrate empathy through awareness, sensitivity, concern, and respect for others' feelings, opinions, experiences, and culture.

COMPETENCY #5 - ADAPTABILITY

Adaptability for Magnolia students is to demonstrate flexibility when acclimating to various roles and situations. Students will work effectively in a climate of ambiguity and changing priorities, demonstrating agility in thoughts and actions. They will understand, negotiate, and balance diverse views and beliefs to reach workable solutions, responding productively to feedback, praise, setbacks, and criticism.

COMPETENCY #6 - GLOBAL CITIZENSHIP

Global Citizenship for Magnolia students is to contribute to making the world a better place. Students will understand the world and its complexities, value and embrace diverse cultures and unique perspectives through mutual respect and open dialog, cultivate compassion, and take action in building more peaceful and inclusive environments.

Portrait Sketch and Graduate Profile


SCHOOLWIDE LEARNER OUTCOMES (SLO):

The SLOs are measurable schoolwide goals that every student is expected to achieve upon graduation from our school. Our SLOs are embedded in our curriculum, including Life Skills, our instructional practice, core values, and daily culture at the school.

LITERACY WITH A LEARNER'S MINDSET

1. Develop and implement literacy skills that impact all content areas so that they can be well-rounded individuals within society.
2. Meaningfully engage in learning activities by knowing their readiness levels, interests, backgrounds, and making informed decisions about their learning pathways.
3. Students take ownership of their learning by creating long and short-term academic goals and reflecting on them throughout the school year.

CRITICAL THINKING

1. Apply, analyze, identify, synthesize, and evaluate information and experiences and connect the skills and content learned across the curriculum.
2. Are inspired to be lifelong readers and critical thinkers.
3. Are able to take a variety of sources and viewpoints, evaluate them critically, and make judgments that reflect an understanding of the possible consequences of those decisions.

CREATIVITY

1. Apply innovative skills and practices which connect to their learning experiences.
2. Have opportunities for multiple methods of the expression of ideas in a project (ex. writing,

drawing, creating video, slide presentations, memes).
3. Incorporate new and meaningful ideas and methods through cross-curricular STEAM activities.

EFFECTIVE COMMUNICATION
1. Demonstrate effective oral and written communication skills, using the expected academic language for the purpose, audience, and setting.
2. Develop listening skills and exhibit empathy through awareness, sensitivity, concern, and respect for self and others' feelings, opinions, experiences, and cultures.
3. Use technology effectively and respectfully to access, organize, research, and present information to become proficient communicators.

ADAPTABILITY
1. Develop self-awareness and self-advocacy skills and maintain physical, mental, social, and emotional well-being to guide in their pursuit towards a college degree and career choices.
2. Collaborate, work effectively, and manage interpersonal relationships within diverse groups and settings. Respond productively to feedback, praise, setbacks, and criticism.
3. Demonstrate consideration of others' ideas by keeping an open mind, questioning ideas, and demonstrating flexible thinking.

GLOBAL CITIZENSHIP
1. Contribute to the improvement of life in their school and local community by demonstrating leadership skills and participating in community-based projects.
2. Understand and reflect on connections between their local community and the broader world, through both current events and historical context.
3. Are internationally minded individuals who recognize and value other perspectives and cultures.

GOALS:

By 2027, more than 2,600 Magnolia Public Schools graduates will be productive, innovative, and responsible individuals who through the pursuit of their passions and educational opportunities will be poised to be change agents within their communities.

We will achieve this goal by supporting the Magnolia Public Schools strategic and continuous improvement plans that are in alignment with our LCAP overarching goals:

- **Goal #1: BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT -** All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers,

standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.
- **Goal #2: EXCELLENCE -** All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college and career ready.
- **Goal #3: INNOVATION -** All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways and demonstrate high-quality learning outcomes.
- **Goal #4: CONNECTION -** All students, families, staff, and other educational partners will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.

WHY MPS?

Students throughout all MPS campuses use technology daily at school and at home as a tool to work collaboratively with each other and communicate with teachers. We challenge their minds, and foster an environment where students want to learn, whether that is through our science labs, or our robotics projects and competitions.

At MPS we place great emphasis on STEAM education, as it will give our students an advantage in their college and career plans. MPS students also participate in a variety of school activities and clubs including technology & engineering, language & culture, community service, and visual & performing arts.

We are looking for great minds who want to learn. With the help of our teachers, principals, staff, and of course parents, we aim to prepare our students to succeed in whatever educational and career paths they choose.

OUR TEACHERS:

All teachers at MPS go the extra mile for their students, even visiting the homes of our students through our Home Visit Program to do whatever is possible to ensure our students perform at their best. It is no wonder many of our parents, who themselves are quite involved in their children's academic careers, have given us top ratings among charter schools.

OUR CAMPUSES:

Our STEAM charter school campuses throughout Southern California are enrolling high school, middle school, and elementary students from the areas of Reseda, Van Nuys, Northridge, Granada Hills, Chatsworth, North Hills, Lake Balboa, North Hollywood, Sun Valley, Arleta, Mission Hills, Panorama City, Valley Glen, Carson, Bell, Santa Ana, San Diego, and Los Angeles.

Annual Notifications to Parents or Guardians

This Handbook covers required and recommended annual notifications to parents or guardians.

Key to Code and Regulation Section Abbreviations

EC	California Education Code
BPC	Business and Professions Code
CC	Civil Code
5 CCR	Title 5, California Code of Regulations
HSC	California Health and Safety Code
LEA	Local Educational Agency
PC	California Penal Code
VC	California Vehicle Code
WIC	California Welfare and Institutions Code
34 CFR	Title 34, Code of Federal Regulations
40 CFR	Title 40, Code of Federal Regulations
USC	United States Code

ACADEMICS: EDUCATIONAL EQUITY

Curriculum, Instruction, & Assessment

COVID-19, School Opening, & Distance Learning

The COVID-19 crisis has proven that schools are the heart of our community, not only for learning, but for nutrition, safety, and social-emotional well-being. MPS staff have shown they are flexible, skilled, and creative in meeting the rapidly changing needs of students and families.

As we look to the 2022-23 academic year, we know schools will need additional resources to become better equipped and skilled at remote learning, address learning loss, implement vital health and safety protocols, and support mental health and wellness. When schools open, it is vital to provide students with an environment that is friendly, supportive, and caring. We must identify students who need help or are having difficulty adjusting. We need to make sure all students return to class and reach out to those who do not. The trauma and stress we have experienced must be vocalized and addressed.

In a short time, MPS has developed a comprehensive planning tool. We have analyzed the frameworks and guidance documents released by the CDE, LACOE, OCDE, SDCOE, and other agencies in developing the best school opening plans for our diverse school communities in collaboration with staff, students, families, and other educational partners. These include, but are not limited to, instructional models, health and safety practices, social-emotional support systems, family and community engagement, and operations.

MPS remains committed to continuously evaluating our plans to ensure the health and safety of students. We will be in close communication with our educational partners as we develop, implement, and evaluate our plans.

For specific health and safety information, including protocol regarding re-opening of school facilities and related requirements for staff and students, please see the **"Health & Safety Plan"** located on the school website and contact the school office with any questions you may have.

Standards-Based Curriculum

All curricula at MPS are based on the California state standards, including but not limited to the Common Core State Standards, the Next Generation Science Standards, English Language Development Standards, History-Social Science Framework, and other applicable content standards.

Availability of Prospectus

Upon request, MPS will make available to any parent or legal guardian, a school prospectus, which shall include the curriculum, including titles, descriptions, and instructional aims of every course offered. Please note that, pursuant to law, MPS may charge for the prospectus in an amount not to exceed the cost of duplication.

A syllabus is a document about the course content, goals, and elements and a guide for students to the kind of teaching and learning they can expect in their class. Each teacher will hand out copies of the class syllabus on the first day of class and, if applicable, post a digital copy on the course website.

Calendar & Bell Schedule

The school will annually provide all parents and guardians with the school calendar and bell schedules. Notification shall be sent to parents and guardians of all students advising of the schedule of minimum days and pupil-free staff development days. If this schedule subsequently changes, MPS shall notify parents and guardians of the affected students as early as possible, but no later than one month before the scheduled minimum or pupil-free day.

Please check the school website or contact the school office for a copy of the school calendar and bell schedules.

California Assessment of Student Performance and Progress (CAASPP)

The California Assessment of Student Performance and Progress, or CAASPP, is the state academic testing program. CAASPP is a system intended to provide information that can be used to monitor student progress on an annual basis and ensure that all students leave high school ready for college and career. The CAASPP assessment system encompasses the following assessments:

- Smarter Balanced Summative Assessments for English Language Arts (ELA) and mathematics in grades 3 through 8 and 11;
- California Alternate Assessment (CAA) for ELA and mathematics for eligible students in grades 3 through 8 and 11;

10

- California Science Tests (CAST) for Science in grades 5, 8, and once in high school;
- California Alternate Assessment (CAA) for Science in grades 5, 8, and once in high school;
- California Spanish Assessment (CSA) for eligible students in grades 3-12.

Starting with spring 2019 CAASPP testing, the CDE will no longer print CAASPP Student Score Reports (SSR) for parents. Hence, parents may no longer receive their child's CAASPP SSR by mail. Parents will be able to access their student's electronic CAASPP SSR in the Infinite Campus Parent Portal. If you do not have an Infinite Campus Parent Portal account, we encourage you to create one soon. Please see section on Parent Portal for details on how to create an account and access test scores.

CAASPP SSRs will include an overall score and a description of the student's achievement level for ELA and mathematics. Score reports for students in grades 5, 8, and 11 will include Science test results. Early Assessment Program (EAP) results will be included on the score reports for students in grade-11, providing an early indication of readiness for college-level coursework. Students who take the CSA will get a separate report.

As the parent or guardian, you have the option of excusing your child from any part of the CAASPP program. If you would like to excuse your child from the test, you must submit your request in writing to the school. Please let the school know as soon as possible so the school can make alternative arrangements for your child.

Testing dates may be found on the school calendar. If you have additional questions about the testing program, please contact the School Principal. Additional information is posted on the internet at http://www.cde.ca.gov/ta/tg/ca/.

Class Change / Course Withdrawals

During the first five school days from the beginning of the course, students will attend the classes they are assigned and/or they signed up for; no changes will be allowed unless there is a scheduling error on the student's schedule. After the first five school days, if necessary academic changes arise, students will have 10 school days to complete changes. Students may withdraw from a course without penalty of an F grade within **15** school days from the beginning of the course. After 15 school days, students must remain in the course until its conclusion. Proof of extenuating circumstances must be provided for any late requests to be considered.

Scheduling errors will receive immediate attention by the Dean of Academics. The following are considered scheduling errors: missing a class period, double up of courses in the same period, missing a course needed for graduation, student has not met the prerequisite for a course, etc.

The school will not consider schedule changes for the following reasons: to be with friends, to change teachers, athletics, early/late arrival adjustments (unless required by state or federal law), etc. Class change is at the discretion of the school administration.

Formative & Summative Assessments

The primary purpose for assessment and grading is to provide feedback to students and parents on the achievement of learning goals. At MPS course report card grades are to be represented in letter-grade equivalent to the percentage earned in each course. Course report card grades are based on performance and practice assessments, as can be seen in the table below.

Aligned with the grading guidelines, each department will work with the Department Chair and the Dean of Academics to develop specific and consistent weights for each assessment/grading subcategory, to be shared with parents and students.

Teachers will create reasonable number of assignments for each subcategory in their assessment/grading system. Teachers will provide students with access to course material, homework assignments, projects, and students' grades through the school information system, and update SIS records daily/weekly.

Assessment Type	Subcategories
Performance Assessments SUMMATIVE ~70-80%	• Unit assessments *(no more than 50%)* • Benchmark assessments *(no more than 30%)* • Final assessment *(no more than 30%)* • Performance tasks (Projects, portfolios, essays, artwork, models, visual representations, multimedia, oral presentations, live or recorded performances, labs, etc.)
Practice Assessments FORMATIVE ~20-30%	• Independent practices • Daily assignments • Classwork • Homework *(no more than 15%)* • Warm-ups • Reviews • Quizzes

Extra Credit

With prior approval from the Dean of Academics, teachers may offer extra credit. A maximum of five (5) extra credit points (out of 100-point numerical grade) may be applied to a student's grade in each of their classes. Additionally, for both English and Math classes, a student may earn up to five (5) extra credit points by demonstrating growth in their

overall MAP RIT* scores, increasing the maximum allowable extra credit points to ten (10). Points may be earned in the testing cycle from Fall to Spring and would be applied to the student's second semester English/Math grades. If Winter MAP test is offered during the first semester, students may also earn points towards their first semester grades. For each point increase in their overall RIT score, students will earn one (1) point of extra credit towards their applicable grade, up to five (5) credit points maximum for each subject area. Regardless of their growth score, students will earn extra five (5) credit points if they meet or exceed the following "Standard Met" cut scores on their Fall or Winter MAP test in the first semester or Spring MAP test in the second semester:

* A RIT score measures a student's level of achievement in a particular subject. (Source: Linking Data Table: CA Smarter Balanced & MAP)

Grade	MAP RIT ELA* Fall-Winter-Spring	MAP RIT Math* Fall-Winter-Spring
2	175-184-188	175-184-189
3	189-196-199	188-196-201
4	198-204-206	202-209-213
5	204-209-211	214-220-224
6	211-214-216	218-223-226
7	213-216-217	224-228-231
8	218-221-222	232-235-237
9	221-222-223	237-239-240
10	222-223-224	241-243-244
11	223-224-225	245-246-247
12	224-225-226	248-249-250

Homework

Homework is essential to success at MPS. Doing homework will help students develop many valuable skills such as good study habits, time management, responsibility, and perseverance. Teachers will assign homework that will foster individual learning and growth that is appropriate for the subject area. Homework is part of all student evaluations. It is the student's responsibility to complete and turn in homework on time. If the student or parent has questions about homework, he or she should immediately contact the teacher who assigned it.

Generally, all homework assignments will be posted online, either on teacher/class web pages or on the school information system, which will be accessible to the parents/guardians by using an authenticated password. The password will protect confidentiality and allow parents/guardians to access their children's academic records. SIS is not intended to replace contacting parents for regular conferences to discuss student progress.

Final Assessments/Exams

All academic classes will have cumulative final assessments/exams at the end of each semester. These final assessments may be in different forms such as test, essay, project, book report, etc. depending on individual teachers' discretion upon approval by the MPS administration. All students are required to take these final assessments. Cumulative assessments are part of the college preparatory culture; these assessments will help students learn how to study more effectively, as well as improve their retention of the subject content.

Make-up Procedures - Incomplete Grades

Every effort should be made for a student to make-up work as soon as possible when returning to school from an absence or series of absences. If a student fails to complete a significant number of performance and/or homework tasks due to absence or other extraordinary circumstances, a grade of Incomplete (I) may be assigned with administrative approval. If the necessary performance and/or homework tasks are not complete by the end of the following marking period, the report card grade will revert to the earned numeric grade. In the final marking period, an Incomplete (I) will revert to the earned numeric grade if not complete by a date agreed upon by the teacher and administrator.

Grading System

Elementary School Grading Scale

MPS will follow the standard scale below to assign percentages/proficiency level for semester work. Individual teachers will establish grading policies and procedures for their classes, and their grades will correspond with this scale. Each teacher will give written policies to students the first week of school.

Percentage	Achievement Level
90% - 100%	Level 4: Standard Exceeded
80% - 89%	Level 3: Standard Met
70% - 79%	Level 2: Standard Nearly Met
Below 70%	*Level 1: Standard Not Met*

Secondary School Grading Scale

MPS will follow the standard scale below to assign letter grades for semester work. Grading is based on a 4.0 (unweighted) scale for regular courses and a 5.0 (weighted) scale for Honors, AP, and approved college courses.

Individual teachers will establish grading policies and procedures for their classes, and their grades will correspond with this scale. Each teacher will give written policies to students the first week of school.

Courses at MPS have passing grades that are outlined in the below grading scale, with a minimum passing score of 70%.

Percentage Grade	Letter Grd Equivalent	Grd-Pt Eqv Unweighted	Grd-Pt Eqv Weighted
98% – 100%	A+	4.0	5.0
93% – 97%	A	4.0	5.0
90% – 92%	A-	3.7	4.7
87% – 89%	B+	3.3	4.3
83% – 86%	B	3.0	4.0
80% – 82%	B-	2.7	3.7
75% – 79%	C+	2.3	3.3
70% – 74%	C	2.0	3.0
Below 70%	***F***	***0.0***	***0.0***

No "D" Policy

There will not be a "D" grade option in the grading scale. The primary concern of MPS is the educational success of our students. This policy will allow for MPS to maintain a high standard throughout its program and ensure that MPS students remain competitive, especially in the area of college and scholarship applications.

[For High School Only] The "No D Policy" applies to all students in grades 9-12 effective of 2012-13 school year. Students who have earned credits at MPS with a "D" grade prior to 2012-13 school year will keep their credits and do not have to make up credits for any previously passed course at MPS. Also, courses transferred from another accredited school will appear on student's transcript as they are, and "D" will be accepted as a passing grade for all transferred courses. Therefore, the "No D Policy" does not negatively impact graduation.

Assignment Grades

Teachers will create reasonable number of assignments for each subcategory in their grading system and assign a weight to each assignment. The weight of an assignment depends on its importance relative to the other assignments in the same subcategory. Students will receive percentage grades for each graded assignment and the student's final semester grade will be a weighted average of the assignment grades, scaled to a maximum of 100 percentage points. SIS will automatically convert student's final percentage grade to a final letter grade according to the scale in the table above.

- **Numerical Assignment Grades:** Teachers are typically accustomed to using numerical grades for student assignments. For example, on a math assignment with 10 questions, a score of 6 out of 10 would be equivalent to 60%, corresponding to a failing grade for that assignment.

- **Letter Assignment Grades:** Sometimes teachers directly use letter grades for assignments. For example, a teacher may choose to grade an assignment using letter grades A, B, C, F. In that case, SIS will convert those letter assignment

grades to percentage grades as shown in the table below.

Letter Grade	Converted to % Grade
A+	100%
A	97%
A-	92%
B+	89%
B	86%
B-	82%
C+	79%
C	74%
F	**55%**

As you may observe, the highest score available for each letter grade range is assigned to each letter assignment grade, keeping the best interest of our students in mind. Since the letter grade "F" has a wide range of 0%-69%, MPS has chosen to assign 50% to mitigate the harm to the student's final class grade.

- **"Check" Grades:** When possible, MPS encourages all teachers to use the check grades for assignments. This grading system is well suited for assignments with a 1-4 rubric. For example, on a writing assignment with a 1-4 rubric, the teacher can use the check system as follows: Check Plus for 4; Check for 3; Check Minus for 2; and Unsatisfactory for 1. In that case, SIS will convert those check grades as shown in the table below.

Check Grade	Converted to % Grade
Check Plus ("+")	100%
Check ("=")	85%
Check Minus ("-")	70%
Unsatisfactory ("/")	***55%***

- **Special Marks:**

Mark	Converted to % Grade
Missing ("M")	***50%***
Excused ("E")	N/A
Not Assessed ("NA")	N/A

- **Grade Floor of 50%:** Missing assignments will be marked as 50% rather than 0%. The lowest grade for a submitted assignment will be 55%.

Numerical Assignment Grades vs. Check Grades

It is important for teachers to understand the negative impact of numerical assignment grades on student's final grade. Numerical assignment grades distort the average percentage grade except when the assignments are graded out of 100 points. To mitigate the harm, MPS has developed the letter assignment grades and the check grades and strongly recommends the use of check grades for assignments.

Example 1: Assume a student received a 1 out of 4 on her first writing assignment based on a 1-4 rubric and a 4 out of 4 on her second assignment. Common sense tells us the student must pass. Following are the student's average percentage grades based on the two grading systems.

Numerical Assignment Grade System	Numerical Grade	% Grade
Assignment #1	1 out of 4	25%
Assignment #2	4 out of 4	100%
Average %		**63%**
Final Letter Grade		**F**

Student receives a failing average if numerical assignment grades *(1 and 4)* are used.

"Check" Grade System	Check Grade	% Grade
Assignment #1	Unsatisfactory	55%
Assignment #2	Check Plus	100%
Average %		**78%**
Final Letter Grade		**C+**

Student receives a passing average if check grades *(Unsatisfactory, Check Plus)* are used.

Example 2: Assume a student received the following scores on his science class demonstrations on a 1-4 scale: 2, 3, 3, 3. Common sense tells us the student must pass. Following are the student's average grades based on the two grading systems. While the student fails in the numerical grading system, the student receives a passing B- in the check grading system.

Numerical Assignment Grade System	Numerical Grade	% Grade
Assignment #1	2 out of 4	50%
Assignment #2	3 out of 4	75%
Assignment #3	3 out of 4	75%
Assignment #4	3 out of 4	75%
Average %		**69%**
Final Letter Grade		**F**

"Check" Grade System	Check Grade	% Grade
Assignment #1	Check Minus	70%
Assignment #2	Check	85%
Assignment #3	Check	85%
Assignment #4	Check	85%
Average %		**81%**
Final Letter Grade		**B-**

Example 3: Similar to the 1-4 scale, 1-10 scale distorts the grade as well. For example, a student with a score of 6 out of 10 (60%) on her first assignment will need to score a 7 out of 10 (70%) on 18!!! more assignments to be able to raise her average to a passing percentage of 70%.

It may seem a stretch to provide such details about different grading systems in a Student/Parent Handbook, but we wanted to show that points-based grading systems have an inherent problem. Because final letter grades are based on a 100-point system, individual assignment grades based on a numerical scale will always result in distortion and harm to student average grade unless assignments are actually graded out of 100. As a remedy, MPS teachers are asked to use the check system whenever possible and be diligent in their grading practices. We want our students and parents/guardians to focus on the learning process without the worry of grade. Therefore, we strive to implement a purposeful and thoughtful grading system. We are traditionally used to points-based grading in secondary school, but even the best points-based grading system still relies on averaging of assignment scores and a final grade on a report card will not truly show what topics the student has learned and the level of mastery. See Standards-Based Grading!

Standards-Based Grading (SBG)

Standards-based grading (SBG) measures student's mastery of the essential standards for a class, or how well the student understands the material in class. Standards based grading does not rely on the average score of an accumulation of scores. Rather, it relies upon a specific standards-based grading rubric per course, per unit, per project. Final/summative grades reflect the knowledge and skills learned rather than an average over time.

MPS would like to report grades that are accurate, consistent, meaningful, and supportive of learning. While most MPS teachers currently implement points-based grading and reporting, MPS encourages teachers to explore and implement standards-based grading and reporting. We will keep you updated of our progress.

14

[For Secondary Grades] **Determining Final Grades**

In middle and high school, course grades are semester based and credit is granted at the end of each semester. Students need to have an end-of-the-semester final grade of at least a "C" (=2.0) to earn credit for the course. MPS grade promotion policy is based on each semester grade and not on yearly average of two semester grades.

[For Secondary Grades] **Grading for Transfer Students Entering Mid-Semester to MPS from Another School**

When a transfer student enters mid-semester to MPS, the transfer grade from the previous school for the same class, if available, will be given the following weights to determine the final semester grade.

Week of the semester student enrolled in MPS	Weight of transfer grade	Weight of grade at MPS
1-6	0	1
7-9	1/3	2/3
10-12	1/2	1/2
13+	2/3	1/3

The teacher may assign make-up work to determine the grade if no transfer grade is available. Make-up work must be assigned within a reasonable time frame that allows the student to complete the work for credit.

The following guidelines apply when a transfer student wants or needs to enroll in a class that he or she was not taking at her/his previous school. The decision will be made on a case-by-case basis.

Week of the semester student enrolled in MPS	Credit
1-6	Full credit enrollment
7-9	Student may or may not be enrolled in new class. If enrolled, it may be either for full credit or for no-credit observation only. Decision will be made on a case-by-case basis. If a decision is made for full credit enrollment, the student is expected to commit to intense intervention which may include attending after-school tutoring and receiving out-of-school support.
10+	Student may or may not be enrolled in new class. If enrolled, it is for no-credit observation only. The decision will be based on the best interest of the student.

Report Cards

Student report cards create a succinct written record of student performance by compiling data from multiple assessments both formal and informal. Report cards are one of several ways to keep parents informed about student performance and to ensure that data collection is regular and consistent. Report cards reflect student achievement toward state standards, and summarize narratives, anecdotal records, attendance data, and information about student participation in class and school life. Results of standardized tests are mailed separately as well as included in the student grade report with explanations designed to help students and parents interpret their relationship to other assessments.

In elementary grades, students will receive a progress report mid-semester and a final report card at the end of each semester. In secondary grades, students will receive two progress reports in a semester and a final report card at the end of each semester.

Teachers will arrange a conference to discuss student progress with at least one parent/guardian each semester. End-of-the-year conferences are prioritized for parents/guardians of students not making progress, low-achieving students, and those identified for retention. Other parents/guardians are encouraged to attend teacher conferences at the end of the year as well.

Ongoing communication between teachers, parents, and students is an essential component of MPS. MPS' school information system provides an effective online communication tool for teachers, students and parents for course material, homework assignments, projects, course grade statistics and records of student grades. In addition to progress reports, report cards, and assessment reports, newsletters are distributed monthly. Parents can conference with teachers on an informal basis as needed, and on a formal basis at least twice (2) a year, to discuss students' progress reports and proficiency levels. Back to School Nights and Open Houses also take place each year to provide parents with information about the school programs.

Grade Change Request Process

Parents have a right to request a change of their student's grade on the following grounds:

- Mistake,
- Fraud,
- Bad faith, and/or
- Incompetency in assigning the grade.

When grades are earned for any course of instruction, the grade earned by each pupil shall be the grade determined by the teacher of the course. In the absence of any of the grounds listed above, the grade shall be final.

Any request for a grade change must start with the classroom teacher within twenty (20) working days of the date the grade report was mailed. The next step, if not resolved with the teacher within ten (10) working days, is a written request to the principal. If not resolved with the principal within ten (10) working days, the decision may be appealed to the Chief Academic Officer. At each step, the parent has the right to present information in support of the request.

15

Grade Promotion/Retention

[For Elementary Grades] **Identification of Students at Risk of Retention**

- **Grades K–2:** Any student who is not at benchmark based on reading benchmark assessments, math benchmark assessments or report card grades will be identified for retention. Retention will only occur if the teacher and parent agree that retention is the best intervention to ensure student success.

- **Grades 3–5:** Any student who does not meet the achievement standards and needs substantial improvement to demonstrate the knowledge and skills in ELA/Literacy or math needed or likely success in future coursework based on Smarter Balanced assessments *(Level 1 on Smarter Balanced assessments)* or any student who is more than one year behind grade level in mathematics or ELA/Literacy as determined by the MAP tests will be identified for retention.

- An identified student who is performing below the minimum standard for promotion shall be recommended by the student's teacher for retention in the current grade unless the student's teacher determines in writing that retention is not the appropriate intervention for the student's academic deficiencies. The teacher's recommendation to promote is contingent upon a detailed plan to correct deficiencies.

[For Middle School Grades] **Grade Promotion**

- To be promoted to the next grade, a middle school student must have a 2.0 grade point average (GPA) and passing grades in all core courses by the end of the school year or by the end of the summer before the start of the next school year. Core courses are Math, Science, English Language Arts, and History/Social Science.
- **Summer School:** Students who fail any core courses should attend summer school at MPS, if available, or at a public school to make up failed course courses during summer. Students who perform successfully at summer school will receive a passing grade as their final grade on their transcript for that course. Student transcripts will be updated to include summer grades and GPA will be recalculated. If a student earns passing grades during the summer for all the failed core courses and have a recalculated GPA of at least a 2.0, he or she may be promoted to the next grade.

[For Middle School Grades] **Identification of Students at Risk of Retention**

If the student has a failed core course or has a recalculated GPA less than 2.0 after the summer before the start of the next school year, student will be recommended for retention in the current grade unless the school administration determines that retention is not the appropriate intervention for the student's academic deficiencies. In that case,

promotion is contingent upon a detailed plan to correct deficiencies.

Retention Procedures

At MPS, the following steps will be taken prior to a student's being retained:

- A letter shall be sent to the student's parent(s) or guardian(s) informing them that their child is at risk of retention.
- The teacher's evaluation shall be provided to and discussed with the student's parent(s) or guardian(s) and the principal before any final determination of pupil retention. The parent(s)/guardian(s) are informed at that meeting that their child is recommended for retention. This meeting is documented with an academic support plan signed by both the teacher and parent/guardian.
- The principal shall make a decision regarding the recommended retention. Upon the acceptance or rejection of the above stated plan by the principal, a letter shall be sent within five (5) school days to formally inform the student's parent(s) or guardian(s) of the principal's decision regarding the retention.
- The parent(s) or guardian(s) shall have the right to appeal the decision to the Chief Academic Officer (CAO) of Magnolia Public Schools (MPS). If the decision of the CAO is not in agreement with the parent(s)/ guardian(s), the latter have the right to appeal directly to the MPS Board of Directors. This meeting will take place at the next regularly scheduled board meeting or by direction of the board president. Or the Board may form a committee to review the appeal and make a recommendation to the Board for approval at the next regularly scheduled meeting.

The program design of MPS is to ensure that all children succeed. Students who are in jeopardy of retention are individually counseled and given extra help in their specific areas of concern, both in class and through intervention offerings.

Grade requirement for school team participation

All students are required to maintain a "C" or better in all classes to play/participate on a school sports or other extracurricular activity team.

Honor Roll

At the end of each semester MPS publishes the honor rolls for students. Honors and High Honors are awarded to all students with a semester GPA of 3.00-3.49 (Honors) and 3.50+ (High Honors). Students must pass all classes to make the semester honor rolls.

Participation in Promotion Activities/ Ceremony

In order for students to participate in any promotion activities they must fulfill all the promotion requirements

and not be on suspension or recommended for expulsion at the time of the Promotion Ceremony.

Tardies/Absences: After 20 tardies or unexcused absences students may be referred to the Reflection Committee regarding their standing and opportunity to participate in the Promotion Ceremony.

High School Credit Earned in Middle School

Students who take high school courses in middle school have the option to have these courses counted toward graduation. These courses must have the same expectations, curriculum and final exams as the equivalent courses taught in high school. Students who choose to have their middle school courses counted toward graduation need to consult with the school administration since these courses need to be reflected on the student's high school transcript. Grades from such courses will not be included in high school cumulative GPA calculations.

The following middle school courses have been identified for high school credit: Mathematics (Algebra 1, Geometry, Integrated Mathematics I, and other high school level mathematics courses), Computers & Technology (approved high-school level courses), and Language Other Than English (LOTE). For middle school LOTE course(s), one year of high school credit will be given for each different language if students demonstrate proficiency by passing those courses or a LOTE proficiency test provided by the school. Again, middle school courses must be comparable in content to courses offered at the high school level. Magnolia Public Schools Home Office ("Home Office") has the final authority to decide which middle school courses will be counted toward graduation.

Field Trips

Field Trips offer exciting ways to learn. MPS students may have the opportunity to go on field trips at various times throughout the school year. MPS plans many field trips, weekend getaways, summer camp, and interstate and international field trips. Students must bring to school a Field Trip Permission Slip signed by a parent or guardian by the specified date in order to be eligible for participation. Phone calls by parents to the school will not be accepted as permission for students to attend.

Students will not be denied participation in educational trips because of race, color, national origin, sex, sexual orientation, disability or any other category protected by applicable law. Each student's parent/guardian must provide written permission for a field trip, authorization for medical care, and a personal health history for those students with health issues/medical conditions. Parents are responsible to provide all necessary medications, supplies, and equipment needed for the field trip at least five school days prior to departure. In order to administer medication (prescription and over-the-counter) on the field trip, parents/guardians must have submitted a complete "Request For Medication To Be Taken During School Hours" form, which includes a parent/guardian signature and the written California licensed health care provider's order with signature and date. If a student needs a Specialized Health Care Service (Protocols),

a current completed Parent Consent and Authorized Healthcare Provider Authorization covering the field trip date(s) MUST be in place.

A complete copy of the **"Field Trip Policy"** is available for review in the school office and on the school website.

Gifted and Talented Education (GATE)

MPS is committed to supporting gifted and highly capable students in a safe, caring environment which promotes a college preparatory, STEAM education. Instructional programs for Gifted and Talented students are based on the core principles that all students have the potential to excel and should have the opportunity to develop their individual abilities, interests and potential. The purpose of the MPS GATE program is not to simply identify the highest achieving students, but rather, identify students with exceptional abilities, those that go well beyond their peer group.

MPS' advanced academic programming serves students in grades K-12 and offers highly challenging learning opportunities that adhere to our Core Values of Excellence, Innovation, and Connection. Educational experiences and are designed to meet the needs of advanced learners with an emphasis on innovation, critical thinking, and logical reasoning.

MPS serves GATE students through a number of delivery models and settings so that students obtain an optimal level of learning, including, but not limited to, Advanced Placement (AP) classes, Honors classes, cluster groupings, acceleration, enrichment activities, and independent studies/group projects.

MPS' identification procedures are equitable, comprehensive, and on-going. Assessments and recommendations for the program reflect best practices and are research- based. MPS understands that examinations alone may not reflect the abilities of all students, as well as GATE students of diverse populations. Therefore, MPS includes teacher and/or administrator recommendations as well as work samples in its identification process.

In order to identify a student as gifted, evidence must be gathered relating to his/her ability to perform beyond chronological peers. Data should be broad enough to discover aptitudes across racial, ethnic, and economic groups. The final determination of eligibility for the GATE program rests with the administration of the individual school site in accordance with the procedures assumed by the MPS governing board. The school shall base decisions on evaluation of pertinent data by an expert in the gifted and talented field. Students referred to the GATE program will be assessed in grades 3, 6, and 9 or upon enrollment and parent request. In order to ensure equity and accurate identification of GATE students, there will be annualized random sample testing of at least 5% of students in grades 3, 6, and 9 across each MPS school. If a parent recognizes characteristics of giftedness in their child, they may request an assessment.

Please contact the school office for a copy of the **"MPS GATE Program Policy."**

Harm or Destruction of Animals

> **Harm or Destruction of Animals – EC 32255 et seq.**
>
> Any pupil with a moral objection to dissecting or otherwise harming or destroying an animal, or any part thereof, must inform his or her teacher of the objection. Objections must be substantiated by a note from the pupil's parent or guardian.
>
> A pupil who chooses to refrain from participation in an education project involving the harmful or destructive use of an animal may receive an alternative education project, if the teacher believes that an adequate alternative education project is possible. The teacher may work with the pupil to develop and agree upon an alternative education project so that the pupil may obtain the knowledge, information, or experience required by the course of study in question.

Math Placement

MPS has adopted a math placement policy to establish a fair, objective, and transparent protocol for placement in mathematics courses in order to ensure the success of every student.

Please contact the school office or visit the MPS website for a copy of the **"MPS Math Placement Policy."**

Physical Education (PE)

MPS will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Please refer to the "School Wellness Policy" posted on the MPS website for details.

CDE mandates districts to provide at least 200 minutes of PE for every 10 school days for students in grades 1-6 and at least 400 minutes for every 10 school days for students in grades 7-12. High school physical education course content must include instruction in each of the eight content areas: The effect of physical activity upon dynamic health, mechanics of body movement, aquatics, individual/dual sports, gymnastics/tumbling, team sports, rhythms/dance, and combatives. While charter schools are only required to provide PE consistent with their individual charters, MPS strives to offer a strong PE and health education program that promotes student physical fitness and health and that includes instruction, to the extent possible, in the eight areas over the span of the PE classes offered as part of the school's course of study.

MPS will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary. The Board of Directors of Magnolia Public Schools ("Board") recognizes a desire and a need for its students to have flexibility in meeting the PE graduation requirement. An Alternative PE policy meets this need by allowing students to receive credit for physical activities not normally offered as part of the regular on-site PE program. It is the goal of MPS to promote the health of its students by supporting regular physical activity as a vital component of the complete learning environment and providing its students with the opportunity to engage in an array of physical activities that are fun, culturally appropriate, and challenging. Please refer to the MPS Alternative PE Policy for details.

Please contact the school office for a copy of the **"MPS School Wellness Policy"** and the **"MPS Alternative PE Policy."**

Physical Fitness Test (PFT)

MPS administers the state-designated Physical Fitness Test (PFT) to all students in grades five, seven, and nine as required by EC Section 60800 and 5 CCR Section 1040, regardless of enrollment in a PE course. The test provides criterion-referenced standards to evaluate fitness. These standards represent minimum levels of fitness known to be associated with those health and physical characteristics that offer protection against diseases resulting from physical inactivity. Achievement of the fitness standards is based upon a score falling in the Healthy Fitness Zone (HFZ) for each of six fitness areas. The HFZ represents minimal levels of satisfactory achievement on the tasks. The goal is for students to achieve the HFZ for all six fitness areas of the physical fitness test.

Before and After School Programs

Academic Tutoring Program

- Tutoring will be available as part of the MPS after-school program.

- Students can receive tutoring from faculty and volunteers from local universities.

- The program will benefit all students.

- The sessions will generally occur after school; some may be scheduled on the weekends.

- Upon availability, Saturday tutoring is available to all students who wish to improve their academic skills. All students are welcome to join at specified times.

After School Activities

MPS offers a variety of after school tutoring, clubs, sports, and activities for all students free of charge. There is no better way for students to enrich their education than by taking part in clubs, after-school activities or working with a teacher (Tutoring). These opportunities allow students to explore more deeply things they already enjoy and to try other areas that sound interesting. Students who stay for an after-school activity must follow these rules:

- Be with a teacher or other staff member at all times.

- Arrange to have their transportation pick them up at the end of the activity.

- Abide by the MPS code of student conduct and all school rules and policies as outlined in the handbook while participating in the activity.

Students who are disruptive, disrespectful, or who do not follow the rules will be prohibited from participating in the after-school program.

Students not participating in after school activities may not stay after school to wait for another student.

A full list and description of after school clubs and activities will be communicated after school starts, as well as information regarding how to join. We strongly encourage our students to explore and take advantage of these after school opportunities.

MPS is not responsible for students on campus who are not participating in after school activities or who remain on campus after the completion of the after-school activity. Those students must leave the campus within ten minutes of school or after dismissal time. Following is the MPS policy regarding students left on campus after school hours.

A complete copy of the "Afterschool Program Policy" is available for review in the school office and on the school website.

Policy Regarding Students Left on Campus After School Hours

MPS is committed to providing a safe campus for all students. When students are left on school property after the close of business hours, MPS will follow certain steps to ensure students are safe until their parents/guardians come to pick them up. In the event students are left on campus after school hours, MPS staff will:

1. Notify the Principal or designee immediately.

2. Attempt to reach parents/guardians through the phone number provided to the school by parents/guardians at the beginning of the year. This may include contacting any emergency contact(s) listed for the student.

3. If a staff person becomes aware a child is on campus more than ten minutes after dismissal of the regular school day or after school activity, the staff person or another employee will remain on site until an adult, including but not limited to an emergency contact, police officer, or social worker, retrieves the student.

4. Notify the Principal or designee after the fifteen (15) minutes after dismissal has passed if there is a possibility that law enforcement may be called to assist the student.

5. As a last resort, contact law enforcement and/or child welfare services who may remove the student and may assume responsibility for the student until the parent/guardian retrieves the student.

6. In cases of repeated incidents where parents/guardians have been late in picking up their child, notify the

parents/guardians in writing of parental responsibilities and consequences for their child.

Students should not be dropped off more than **thirty (30)** minutes early for School. The school will open its doors at **7:30 a.m.** and starting at this time students will be supervised by School staff. All students that arrive before 7:30 a.m. will be unsupervised and the school will not be responsible for the safety and well-being of these students.

Each individual MPS school may include site-specific amendments into the drop-off, pick-up, and supervision times addressing local issues.

Education of English Learners

English Learners Identification Notice

English Learners Identification Notice - EC 313.2

State law requires that parents of English learners are to be notified annually if they are identified as one of the following: Long-term English Learner or English learner at risk of becoming a Long-term English Learner. The school coordinator for English Language Development will be sending these notices at the beginning of each school year.

The Charter School is committed to the success of its English Learners and support will be offered both within academic classes and in supplemental settings for students who need additional support for English language learning. The Charter School will meet all applicable legal requirements for English Learners as they pertain to annual notification to parents, student identification, placement, program options, English Learners and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding English Learners and the rights of students and parents.

English Language Proficiency Assessments for California (ELPAC)

MPS values your child's cultural and language assets and offers various instructional program options to best meet your child's educational needs. To better serve the instructional needs of students who are not yet fluent English speakers, school districts are required to identify students' English proficiency levels. Parents and school staff work together to determine the languages that families and students speak at home using the Home Language Survey. Based on responses on the Home Language Survey, state law requires school districts to assess the English language proficiency of new enrollees who speak a language other than English using the Initial English Language Proficiency Assessments for California (ELPAC).

The initial ELPAC must be administered within the first 30 calendar days of enrollment. The school will notify you of the results of this assessment and your student's instructional

program placement with a parent letter called the "Initial Parent Notification Letter for English Learners."

To measure student progress in learning English, all continuously enrolled English Learners will be administered the Summative ELPAC in the Spring until the reclassification criteria is met. Parents will receive annual notification of their student's progress toward reclassification and will be notified that their child is a "Long-term English Learner" or is an "English learner at-risk of becoming a Long-term English Learner."

To find more information about the ELPAC assessment or reclassification criteria, please contact the Principal or designee.

Placement of English Learners (EL) - Structured English Immersion Program

All MPS EL students participate in a Structured English Immersion (SEI) program. The U.S. Department of Education describes the goal of this program as "acquisition of English language skills so that the EL student can succeed in an English-only mainstream classroom. All instruction in an immersion strategy program is in English." Within this SEI program, ELs are provided with daily designated and integrated English Language Development. Integrated ELD is provided to all ELs across all disciplines utilizing the researched based frameworks and strategies to support language acquisition. Designated ELD is also provided to all ELs, however instructional placement and support vary according to the students' ELD level. All curricula used within the SEI program has ELD components/resources that facilitate language acquisition. Additionally, Newcomers and Long-Term English Learners receive supplemental services as needed.

For further information on language acquisition, please contact the school office for a copy of the **"MPS EL Master Plan."**

Education of Students with Disabilities

Child Find System

MPS is dedicated to the belief that all students can learn and must be guaranteed equal opportunity to become contributing members of the academic environment and society. MPS provides special education instruction and related services in accordance with the Individuals with Disabilities Education Act ("IDEA"), Education Code requirements, and applicable policies and procedures of the charter authorizer. These services are available for special education students enrolled in MPS. We offer high quality educational programs and services for all our students in accordance with the assessed needs of each student. MPS collaborates with parents, the student, teachers, and other agencies, as may be indicated, in order to appropriately serve the educational needs of each student.

Pursuant to the IDEA and relevant state law, MPS is responsible for identifying, locating, and evaluating children enrolled at MPS with known or suspected disabilities to determine whether a need for special education and related

services exists. This includes children with disabilities who are homeless or foster youth. The Charter School shall not deny nor discourage any student from enrollment solely due to a disability. If you believe your child may be eligible for special education services, please contact the school office.

A complete copy of MPS' **"Special Education Policy and Procedures"** is available for review in the school office and on the school website.

Instruction for Pupils with Temporary Disabilities

Instruction for Pupils with Temporary Disabilities – EC 48206.3, 48207, and 48208

A pupil with a temporary disability which makes attendance in the regular day classes or the alternative educational program in which the pupil is enrolled impossible or inadvisable may receive individualized instruction provided in the pupil's home for one hour a day. Please contact MPS for further information.

A pupil with a temporary disability, who is in a hospital or other residential health facility, excluding a state hospital, may be deemed to have complied with the residency requirements for school attendance in the school district in which the hospital is located.

It is the responsibility of the parent or guardian to notify the school district in which the hospital or other residential health facility is located of the presence of a pupil with a temporary disability. Upon receipt of the notification, the district will within five working days determine whether the pupil will be able to receive individualized instruction pursuant to EC 48206.3 and, if so, provide the instruction within five working days or less.

A pupil with a temporary disability may remain enrolled in the district of residence or charter school and may attend regular classes when not confined to the hospital setting, the total days of instruction may not exceed the maximum of five days with both school settings and attendance may not be duplicated. If necessary, the district of residence may provide instruction in the home for the days not receiving instruction in the hospital setting, depending upon the temporary doctor orders. The supervisor of attendance shall ensure that absences from the regular school program are excused until the pupil is able to return to the regular school program.

An honorary high school diploma which is clearly distinguishable from the regular diploma of graduation may be awarded to a pupil who is terminally ill, from the resident governing school board, a county office of education or a charter school.

Section 504 Policies and Procedures

Section 504 – 29 USC 794, 34 CFR 104.32

Section 504 of the Rehabilitation Act of 1973 is a federal law which prohibits discrimination against persons with

a disability. The school provides a free and appropriate public education to all pupils regardless of the nature or severity of their disability. The school has a responsibility to identify, evaluate, and if eligible, provide pupils with disabilities the same opportunity to benefit from education programs, services, or activities as provided to their non-disabled peers. To qualify for Section 504 protections, the pupil must have a mental or physical impairment which substantially limits one or more major life activity. For additional information about the rights of parents of eligible pupils, or questions regarding the identification, evaluation, and eligibility of Section 504 protections, please contact the Principal.

MPS recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise subjected to discrimination under any program of MPS. Any student who has an objectively identified disability which substantially limits a major life activity, including but not limited to learning, is eligible for accommodations by MPS. The parent of any student suspected of needing or qualifying for accommodations under Section 504 may make a referral for an evaluation to the Principal.

A copy of MPS' **"Section 504 Policies and Procedures"** is available upon request in the school office.

Special Education – Use of Assistive Technology

Use of Assistive Technology – EC 56040.3

MPS allows home and community use of assistive technology devices by students who have assistive technology devices as part of their IEP FAPE offer. Students may continue to use while at distributing school and for up to a maximum of two months or until a replacement or comparable device is obtained in new setting. Not every IEP will have an AT device as part of the IEP team offering, but if it is there, it must remain in possession so that the student does not have a lapse in educational access to such device.

Education of Foster and Mobile Youth

Definitions: For the purposes of this annual notice the terms are defined as follows:

1. *"Foster youth"* refers to any child who has been removed from their home pursuant Welfare and Institutions Code section 309 and/or is the subject of a petition filed under Welfare and Institutions Code section 300 or 602. This includes children who are the subject of cases in dependency court and juvenile justice court.

2. *"Former juvenile court school pupils"* refers to a student who, upon completion of the student's second year of high school, transfers from a juvenile court school to the Charter School.

3. *"Child of a military family"* refers to a student who resides in the household of an active-duty military member.

4. *"Currently Migratory Child"* refers to a child who, within the last 12-months, has moved with a parent, guardian, or other person having custody to the Charter School from another Local Educational Agency ("LEA"), either within California or from another state, in order that the child or a member of the child's immediate family might secure temporary or seasonal employment in an agricultural or fishing activity, and whose parents or guardians have been informed of the child's eligibility for migrant education services. "Currently Migratory Child" includes a child who, without the parent/guardian, has continued to migrate annually to secure temporary or seasonal employment in an agricultural or fishing activity.

5. *"Pupil participating in a newcomer program"* means a pupil who is participating in a program designed to meet the academic and transitional needs of newly arrived immigrant pupils that has as a primary objective the development of English language proficiency.

Within this notice, foster youth, former juvenile court school pupils, a child of a military family, a currently migratory child, and a pupil participating in the newcomer program will be collectively referred to as "Foster and Mobile Youth." Within this notice, a parent, guardian, or other person holding the educational rights for a Foster and Mobile Youth will be referred to as a "parent."

Foster and Mobile Youth Liaison

The MPS Board of Directors designates the following staff person as the Liaison for Foster and Mobile Youth:

> CEO & Superintendent
> Magnolia Public Schools
> 250 E. 1st St. Ste 1500
> Los Angeles, CA 90012
> (213) 628-3634

The Foster and Mobile Youth Liaison's responsibilities include but are not limited to the following:

1. Ensuring and facilitating the proper educational placement, enrollment in school, and checkout from school of foster children.

2. Assisting foster children when transferring from one school to another school in ensuring proper transfer of credits, records and grades.

School Stability

The Charter School will work with foster youth and their parent to ensure that each pupil is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all pupils, including, but not necessarily limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability, and the opportunity to be educated in the least

restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children and children of military families have the right to remain in their school of origin if it is their best interest. The Charter School will immediately enroll a foster youth, currently migratory child or child of a military family seeking reenrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). If a dispute arises regarding a foster youth's request to remain in the Charter School as the school of origin, the foster youth has the right to remain in the Charter School pending the resolution of the dispute. The Charter School will also immediately enroll any foster youth, currently migratory child or child of a military family seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g., producing medical records or academic records from a previous school).

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the child's status as a foster youth, currently migratory child, or child of a military family, as follows:

1. For students in kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.

2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

Graduation Requirements

Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and pupils participating in a newcomer program who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption. In the case of a pupil participating in a newcomer program, enrollment in grade 11 or 12 may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the parent, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's parent how any of the requirements that are waived will affect the pupil's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the court's jurisdiction terminates or the student no longer meets the definition of a child of military family, a currently migratory child or a pupil participating in a newcomer program.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.

2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the

student's ability to gain admission to a postsecondary educational institution.

3. Provide information to the student about transfer opportunities available through the California Community Colleges.

4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

Acceptance of Course Work

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a Foster and Mobile Youth.

The Charter School will provide Foster and Mobile Youth credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the pupil is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the Foster and Mobile Youth shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Student Records

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new local educational agency ("LEA"), the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the pupil, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization and other records, and, if applicable, a copy of the pupil's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record keeping needs of Foster and Mobile Youth.

The Charter School shall not lower a foster youth's grades as a result of the student's absence due to a verified court appearance, related court ordered activity, or a change the placement of the student made by a county or placing agency. If a foster youth is absent from school due to a decision to change the placement of the student made by a

county or placing agency, the grades and credits of the pupil will be calculated as of the date the student left the Charter School.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent.

Discipline Determinations

If the Charter School intends to extend the suspension of any foster/ youth pending a recommendation for expulsion, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the meeting at which the extension of the suspension will be discussed.

If the Charter School intends to suspend for more than ten (10) consecutive school days or expel a student with a disability who is also a foster youth due to an act for which the recommendation for expulsion is discretionary, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the Manifestation Determination Review meeting.

Complaints of Noncompliance

A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures.

A copy of MPS' **"Uniform Complaint Policy and Procedures"** is available in the school office and on the school website.

Education of Homeless Children and Youth

Definitions: The term "homeless children and youth" means individuals who lack a fixed, regular and adequate nighttime residence due to economic hardship and includes children and youth who (42 U.S.C. § 11434a):

1. Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;

2. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as regular sleeping accommodations for human beings;

3. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and/or

23

4. Migratory children and unaccompanied youth (youth not in the physical custody of a parent or guardian) may be considered homeless if they meet the above definition of "homeless."

Homeless status is determined in cooperation with the parent or guardian. In the case of unaccompanied youth, status is determined by the Homeless Liaison.

School Liaison

The MPS Board of Directors designates the principal of each school site as the School Liaison for homeless students (42 U.S.C. § 11432(g)(1)(J)(ii):

> CEO & Superintendent
> Magnolia Public Schools
> 250 E. 1st St. Ste 1500
> Los Angeles, CA 90012
> (213) 628-3634

The Charter School Liaison shall ensure that (42 U.S.C. § 11432(g)(6)):

1. Homeless students are identified by school personnel and through outreach and coordination activities with other entities and agencies.

2. Homeless students enroll in and have a full and equal opportunity to succeed at the Charter School.

3. Homeless students and families receive educational services for which they are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act, early intervention services under part C of the Individuals with Disabilities Education Act ("IDEA"), any other preschool programs administered by the Charter School, if any, and referrals to health care services, dental services, mental health services, substance abuse services, housing services, and other appropriate services.

4. Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.

5. Public notice of the educational rights of homeless children is disseminated at places frequented by parents or guardians of such youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, and in a manner and form understandable to the parents and guardians of homeless youth and unaccompanied youth.

6. Enrollment/admissions disputes are mediated in accordance with law, the Charter School's charter, and Board policy.

7. Parents/guardians and any unaccompanied youth are fully informed of all transportation services, as applicable.

8. Charter School personnel providing services receive professional development and other support.

9. The Charter School Liaison collaborates with State coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youths.

10. Unaccompanied youth are enrolled in school; have opportunities to meet the same challenging State academic standards as the State establishes for other children and youth; and are informed of their status as independent students and that the youths may obtain assistance from the Charter School Liaison to receive verification of such status for the purposes of the Free Application for Federal Student Aid.

The California Department of Education publishes a list of the contact information for the Homeless Education Liaisons in the state, which is available at: https://www.cde.ca.gov/sp/hs/.

High School Graduation Requirements

Homeless students who transfer to the MPS any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless MPS] makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder, and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's educational rights holder of how any of the requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's

additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.

2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.

3. Provide information to the student about transfer opportunities available through the California Community Colleges.

4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

Acceptance of Course Work

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by

a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

For any homeless student who enrolls at the Charter School, a copy of the Charter School's complete policy shall be provided at the time of enrollment.

A copy of the complete Policy is available upon request at the school office and on the school website.

> **Education of Homeless Youth: Right to Apply for Financial Aid - EC 69432.7, 69519, 69731, 69956, 70032, 78220, and 88931**
>
> Students experiencing homelessness have a right to apply for financial aid to seek education beyond high school. Every district and charter school must appoint a homeless liaison to assist students and families. Please contact the Charter School Liaison for more information of services and policies related to homeless education rights.

Pregnant and Parenting Pupils

The Charter School recognizes that pregnant and parenting students are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. A pregnant or parenting student is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the student's physician, which the student may take before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant. The Charter School will ensure that absences from the student's regular school program are excused until the student is able to return to the regular school program.

Upon return to school after taking parental leave, a pregnant or parenting student will be able to make up work missed during the pregnant or parenting student's leave, including, but not limited to, makeup work plans and reenrollment in courses. Notwithstanding any other law, a pregnant or

parenting student may remain enrolled for a fifth year of instruction in the Charter School if it is necessary in order for the student to be able to complete any graduation requirements, unless the Charter School determines that the student is reasonably able to complete the graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting students may be filed under the Uniform Complaint Procedures ("UCP") of the Charter School. The complaint may be filed in writing with the compliance officer:

> CEO & Superintendent
> Magnolia Public Schools
> 250 E. 1st St. Ste 1500
> Los Angeles, CA 90012
> (213) 628-3634
> ceo@magnoliapublicschools.org

A copy of the UCP is available upon request at the school office. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the complaint procedures, please contact the school office.

ACADEMICS: HIGH SCHOOL & BEYOND

High School Graduation Requirements

MPS has minimum requirements for a standard diploma that meet and exceed the state graduation requirements and the UC/CSU "a-g" requirements.

Credit Requirement for a Standard Diploma

Currently, every student must earn a total of 200 semester credits in grades 9 through 12 in order to receive a high school diploma. (See section **"High School Credit Earned in Middle School"** for middle school courses identified for high school credit.) Each high school course at MPS is semester based and worth 5 credits, with the exception of courses such as Sustained Silent Reading (SSR) or Advisory which last one-half of a typical class period or less and are worth 2.5 credits. Students need to have an end-of-the-semester final grade of at least a "C" (=2.0) to earn credit for the course. Credit is awarded on the basis of student participation, mastery of subject matter, and/or attainment of skills.

Specific Course Requirements

MPS meets and exceeds the admission requirements of all four-year universities including University of California ("UC"). MPS adopts all options approved for meeting UC's minimum "a-g" subject requirements, including approved "a-g" high school courses, ACT/SAT examination, AP or IB examination, and U.S. regionally accredited college/university courses (in person or online) as well as validation of coursework and grades as described by the UC. MPS will continue to adapt to any changes in UC subject requirements. The following table lists courses required in order to graduate from MPS.

Math Requirements: MPS math requirements are threefold:

- **Credit requirements:** MPS requires at least 30 semester credits of math for a standard diploma (and 40 semester credits of math for an advanced or honors diploma.) Some of these credits can be earned in middle school.
- **Year requirements:** MPS requires students to be enrolled in a math course for at least two years in grades nine through twelve for a standard diploma (state requirement) and at least three years in grades nine through twelve for an advanced or honors diploma. For example, a student may take Mathematics-I or Algebra I in seventh grade, Mathematics II or Geometry in eighth grade, and Mathematics III or Algebra II in ninth grade. The student still needs to take one more year of math for a standard diploma (and two more years of math for an advanced or honors diploma.)
- **Course requirements:** Students need to complete three years of math courses that include the topics covered in elementary and advanced algebra and two- and three-dimensional geometry before graduation. Integrated math courses fulfill this requirement.

Science Requirements: *UC requirement:* Two years of college-preparatory laboratory science, including or integrating topics that provide fundamental knowledge in two of these three subjects: biology, chemistry, or physics is required. One year of approved interdisciplinary or earth and space sciences coursework can meet one year of the requirement. Computer Science, Engineering, Applied Science courses can be used in area "d" as an additional laboratory science (i.e., third year and beyond). *CSU requirement:* Two years, including one year of biological and one year of physical science with lab.

Language Other Than English (LOTE) Courses: MPS will allow other options to satisfy the "e"-LOTE requirement for graduation. Completion of higher-level LOTE coursework with a grade of C or higher may validate D or F grades earned in lower-level courses or when a lower-level course is skipped. Please check UC Admissions website for details of course validation. UC-transferable college courses or satisfactory scores on SAT Subject, AP or IB exams can also be used to fulfill the LOTE subject requirement.

Generally, bilingual students are considered to have met the "e" subject requirement and may choose not to enroll in LOTE courses. Students who elect not to take courses in a LOTE may satisfy the "e" requirement *(for all diploma types)* by one of the following methods:

- **Formal schooling in a language other than English** – Students who have completed two years of formal schooling at the sixth-grade level or higher in a school where a LOTE was used as the medium of instruction have met the LOTE requirement. A school transcript or other official document is required.
- **Assessment by a recognized test or University** – Earning a satisfactory score on a SAT Subject, AP or IB exam, or a proficiency test administered by a UC campus or other university can demonstrate a student's proficiency in a LOTE. Most language departments at universities will conduct an assessment and issue a statement of competency on official letterhead serving as certification.
- **Certification by high school principal** – In cases where the options above are not available, certification by the high school principal is acceptable. Principals should develop and maintain clear standards for providing this certification. Certification should be based on the judgment of language teachers, advice of professional or cultural organizations with an interest in maintaining language proficiency, or other appropriate sources of expertise. The principal notes the certification of competency on the student's transcript with the language and level of proficiency.

PE Requirement: Two years of PE is required. One year of approved Dance, Sports or Marching Band can be used to meet one year of the requirement. Junior Reserve Officers' Training Corps (JROTC)/Cadet Corps and CIF Sports can be used to meet one or both years of the requirement.

MAGNOLIA PUBLIC SCHOOLS (MPS)

HIGH SCHOOL GRADUATION REQUIREMENTS

Subject Area	Requirements	Diploma Type		
		S	**A**	**H**
(a) History / Social Science	**Three years** of history/social studies, including **one year** of U.S. history and geography; **one year** of world history, culture, and geography; **one semester** of American government and civics, and **one semester** of economics.	30	30	30
(b) English	**Four years** of college-preparatory English that include frequent writing, from brainstorming to final paper, as well as reading of classic and modern literature. *(No more than one year of ESL-type courses can be used to meet this requirement.)*	40	40	40
(c) Mathematics	**Three years** of college-preparatory math, including or integrating the topics covered in elementary and advanced algebra and two- and three-dimensional geometry. *(Four years recommended)*	30	*40*	*40*
(d) Science	**Two years** of college-preparatory science, including or integrating topics that provide fundamental knowledge in two of these three subjects: biology, chemistry, or physics. Two years, including one year of biological and one year of physical science with lab required. *(Three years recommended)*	20	*30*	*30*
(e) Language Other Than English (LOTE)	**Two years,** or equivalent to the 2nd level of high school instruction, of the same language other than English. *(Three years recommended)*	20	20	20
(f) Visual & Performing Arts (VPA)	**One yearlong** course of visual and performing arts chosen from the following disciplines: dance, drama/theater, music, interdisciplinary arts or visual art — or **two one-semester** courses from the same discipline is also acceptable.	10	10	10
(g) Electives *Elective course offerings may change depending on student interest and resource availability.*	Additional courses in Social Science, English, Mathematics, Science, Language Other Than English (LOTE), Visual & Performing Arts (VPA), and Computers & Technology	20	20	20
Physical Education	**Two years**	20	20	20
Computers & Tech.	**One year**	10	10	10
Total Required Credits:		**200**	**220**	**220**
AP Course / College Credit Requirements	AP or college courses can be taken to meet minimum course requirements or as elective. *(Not required for a standard diploma.)*	N/A	10	20
College/Career Prepared Designation	Designation of "Prepared" on the College/Career Indicator (CCI). *(Not required for a standard diploma.)*	N/A	P	P
Other Requirements	Minimum Cumulative GPA:	2.00	3.25	3.50
	Required Service-Learning Hours:	N/A	40	40
	MPS encourages students to participate in Congressional Award programs and engage in more than 40 hours of community service to develop and demonstrate crucial life skills.			

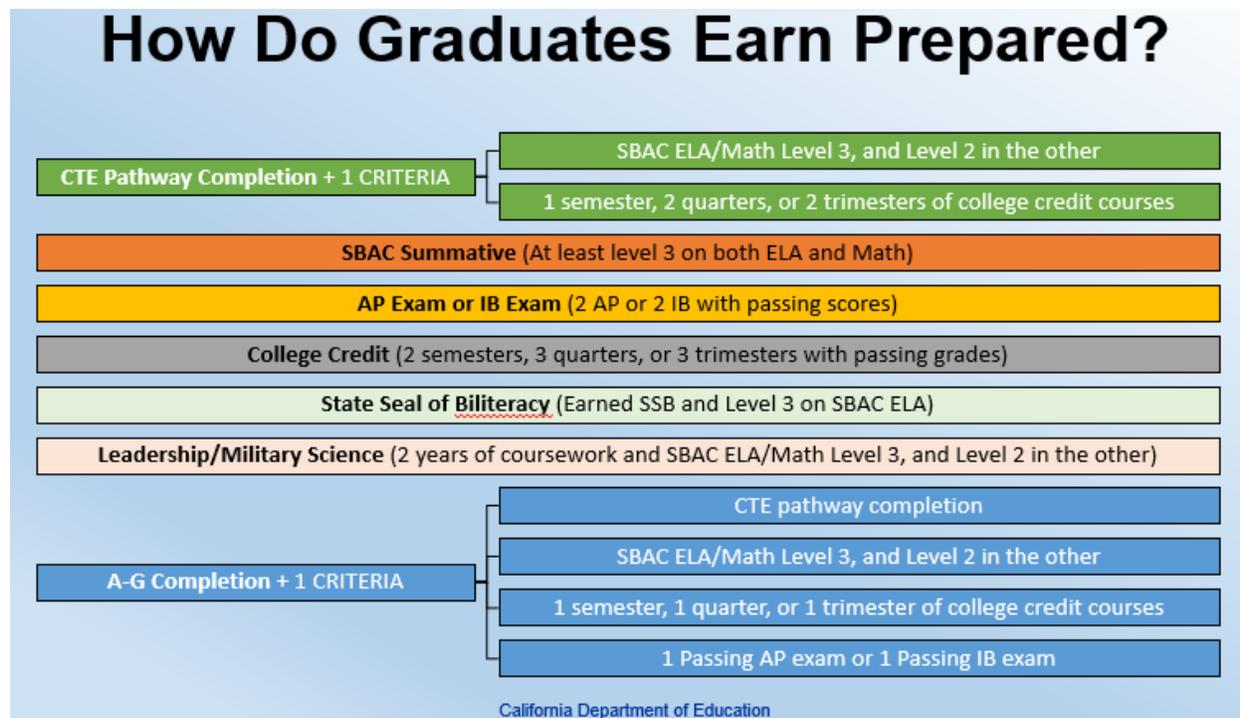
28

College/Career Indicator (CCI)

A high school diploma should represent the completion of a broad and rigorous course of study. The CCI was designed by the CDE to encourage high schools to provide all students with a rigorous broad course of study that will lead to likely success after high school. It recognizes that students pursue various options, whether completing: (a) a Career Technical Education (CTE) Pathway, (b) course requirements for a-g, or (c) a course of study specifically designed to meet the student's individual interests.

Each year the CDE measures graduating students' preparedness for college/career. This measure is based on completing rigorous coursework, passing challenging exams, or receiving a state seal. The following measures are approved by the CDE as indicators of college or career readiness:

- Career Technical Education Pathway Completion
- Grade 11 Smarter Balanced Summative Assessments in ELA and mathematics
- Advanced Placement Exams
- International Baccalaureate Exams
- College Credit Course
- a–g Completion
- State Seal of Biliteracy
- Military Science/Leadership

Please note that there is a variety of ways a student can be designated as "Prepared" for College/Career. Completing one of the 11 paths/options below is sufficient to earn the "Prepared" designation.


California State University Early Assessment Program (CSU-EAP)

The EAP is a joint program of the CDE, California State University (CSU) and California Community Colleges (CCC). The EAP provides students with an early indicator of their college readiness in English and mathematics prior to starting the senior year. In addition, EAP may earn students an exemption from CSU and participating CCC English and/or mathematics placement tests that are required for entering freshman. EAP is now embedded in the CAASPP Smarter Balanced grade eleven ELA and mathematics assessments. Students taking the grade eleven assessments will automatically be participating in the EAP. To provide information to students on their college readiness, students may voluntarily release their results to the CSU and CCCs. The results will not be used for admissions. To find more information about the CAASPP Program CSU/EAP, please contact your child's counselor or contact the school office. Additional information is posted on the internet at: http://www.cde.ca.gov/ci/gs/hs/eapindex.asp.

29

Comparison of Requirements for Graduation

Source: https://www.cde.ca.gov/ci/gs/hs/hsgrtable.asp *(Rows are re-ordered to match the a-g order.)*

High School Subject Area	State Mandated Requirements (EC 51225.3) for High School Graduation	UC Requirements for Freshman Admissions	CSU Requirements for Freshman Admissions
Social Studies/Science	Three years of history/social studies, including one year of U.S. history and geography; one year of world history, culture, and geography; one semester of American government and civics, and one semester of economics.	Two years of history/social science, including one year of U.S. history or one-half year of U.S. history and one-half year of civics or American government; and one year of world history, cultures, and geography.	Two years, including one year of U.S. history or U.S. history and government and one year of other approved social science.
English	Three Years	Four years of approved courses	Four years of approved courses
Mathematics	Two years, including Algebra I, beginning in 2003–04. (EC 51224.5)	Three years, including algebra, geometry, and intermediate algebra.	Three years, including algebra, geometry, and intermediate algebra.
Science	Two years, including biological and physical sciences.	Two years with lab required, chosen from biology, chemistry, and physics.	Two years with lab required, chosen from biology, chemistry, and physics.
Foreign Language	One year of either visual and performing arts, foreign language, or career technical education.	Two years in same language required.	Two years in same language required.
Visual and Performing Arts	One year of either visual and performing arts, foreign language, or career technical education.	One year of visual and performing arts chosen from the following: dance, drama/theater, music, or visual art.	One year of visual and performing arts chosen from the following: dance, drama/theater, music, or visual art.
Electives	Not Applicable	One year	One year
Physical Education	Two years	Not Applicable	Not Applicable
Total	13	15 (7 in the last two years of high school)	15

Course Credit Acceptance & Transferability

High School Grade Promotion Policy

Criteria: To be promoted to the next grade, a high school student must have a 2.0 grade point average (GPA) and the minimum required credits described below by the end of the school year or by the end of the summer before the start of the next school year.

Student transcripts will be updated to include summer grades and GPA will be recalculated. If students have the minimum required credits and at least a 2.0 recalculated GPA, they will be promoted to the next grade.

Core Courses: Core courses are Math, Science, English, and History/Social Science.

Minimum Required Credits:

- To be enrolled in grade 10, a student must have a minimum of 50 credits, including at least 20 credits in core courses.
- To be enrolled in grade 11, a student must have a minimum of 100 credits, including at least 50 credits in core courses.
- To be enrolled in grade 12, a student must have a minimum of 150 credits, including at least 90 credits in core courses.
- A student's grade level placement remains the same for an entire school year.

MPS has minimum requirements for a standard diploma that meet and exceed the state graduation requirements and the UC/CSU "a-g" requirements.

Credit Acceptance

Students transferring to MPS from another accredited school, private or public, a home school, or an alternative school, will receive credit toward graduation for courses successfully completed in the sending school.

These courses will appear on student's transcript as they are transferred and will be included in cumulative GPA calculations. Upon review and approval by the school administration, students transferring to MPS from a non-accredited school may receive credit toward graduation within the following guidelines:

Documentation must be provided to MPS by the sending school as to the course of study the student followed, materials used, course description, total number of contact hours per course, grading criteria, teacher name and qualifications, student work or projects, and scores of any standardized tests the student has taken. Grades from such courses will not be included in cumulative GPA calculations.

Normally, students may not retake courses that they have already passed and for which they have earned credit. Credit is not awarded for classes repeated to raise a grade unless the grade previously earned was a Fail (F) or Incomplete (I). However, the school administration reserves the right to final decision in case of any extenuating circumstances. Extenuating circumstances may include foreign transcripts, transcripts from non-accredited schools, college courses,

ESL/ELD courses, and other approved courses on a case-by-case basis. Please consult with the school administration. If the school administration allows repeat of a course for extenuating circumstances, MPS will use the new grade when calculating the student's GPA. However, the repeated grade will not be used in calculating the "a-g" GPA for UCs if a student repeats a course used to satisfy the "a-g" requirement in which the student originally earned a grade of C or higher.

Credit Recovery

A high school student who fails a course at MPS is expected to take full responsibility for their personal credit recovery process. Following are some recovery options:

Summer School: Students can take a summer school course at any public school to recover missing credits. MPS may offer summer school depending on student needs and availability of teachers and resources.

Online Courses: Students who are credit deficient may enroll in accredited online courses to recover missing credits. Some examples to accredited online course providers are Edgenuity, APEX Learning, BYU, etc. College counselor's approval is necessary in order for the grade of an online course to be included in cumulative GPA calculations.

College Dual and Concurrent Enrollment: Students may enroll in a post-secondary course creditable toward high school completion. College counselor's approval is necessary in order for the grade of a college course to be included in cumulative GPA calculations.

Exemption from MPS local graduation coursework requirements

Students in foster care, homeless students, former juvenile court students, children of military families, migratory students and newly arrived immigrant students, and students with disabilities, if written in the IEP of the student, may qualify to be exempted from local graduation coursework requirements that are beyond the California state requirements. Please make an appointment with the school counselor to review your child's options for graduation. All coursework that was completed at another school outside of MPS will be issued full or partial credit.

WASC Accreditation & Transferability of Courses

All MPS schools are WASC-accredited and all A-G courses of MPS are transferable to other public schools and meet the rigorous requirements for admission to both the UC and state university systems. Every transfer student will participate in an intake meeting which includes a review of his/her transcript and tracking towards graduation. Every exiting student will also receive a transcript to provide him/her with an official record of courses completed and credits earned. In addition, the school's master schedule will be informed by student needs to ensure sufficient intervention opportunities are available for the student population. Please contact the Dean of Academics & College Counselor for further information.

Diploma Types & Graduation

Diploma Types

MPS offers three different high school diploma types: Standard (S), Advanced (A), and Honors (H). Each diploma has minimum requirements that meet and exceed the state graduation requirements and the "a-g" subject requirements of California's four-year public universities. Students are always welcome, and often encouraged, to exceed these minimum requirements.

The "Golden State Seal Merit Diploma" & The "State Seal of Biliteracy"

As directed and described by the CDE, MPS will award eligible graduates the "Golden State Seal Merit Diploma" (GSSMD) and the "State Seal of Biliteracy" (SSB) by affixing the "Golden State Seal" and the "State Seal of Biliteracy" to their high school diplomas. GSSMD is a recognition of graduates who have demonstrated mastery of the high school curriculum in at least six subject areas, four of which are English language arts, mathematics, science, and U.S. history, with the remaining two subject areas selected by the student. SSB is recognition by the State Superintendent of Public Instruction for graduating high school students who have attained a high level of proficiency in speaking, reading, and writing in one or more languages in addition to English.

Service-Learning Requirement

Completing 40 hours of community service before graduation is no longer a high school requirement for a standard diploma beginning with the class of 2013. However, MPS encourages students to engage in community service to develop and demonstrate crucial life skills. This will help students gain "real life" experience and develop responsibility, caring and respect for the community. Therefore, students will be required to earn 40 hours of community service before graduation for an advanced or honors diploma. Students may begin to earn these hours once they complete their 8th grade year.

Cumulative GPA & Valedictorian Policy

A cumulative GPA (CGPA) is calculated for all high school level courses based on the number of credits received and their weighted grade point equivalencies. Cumulative GPAs are used to determine class rank and graduation honors, eligibility for National Honor Society, by colleges as part of the admission criteria, by many scholarship and grant providers, and occasionally, by employers. This information is reported to parents on the student's high school transcript. The high school transcript is a record of all final course grades received for high school courses.

MPS requires a minimum of **2.00** cumulative GPA for graduation, **3.25** for an advanced diploma, and **3.50** for an honors diploma.

All graduating students who are eligible to receive an Honors diploma with a cumulative GPA of **4.0** or above shall be designated as the Valedictorian. Cumulative GPA computation for Valedictorian shall be based upon student's

projected grades as of the first of June prior to the date of graduation.

The following table summarizes how courses are included in GPA calculations.

Course Type	Inclusion in MPS CGPA
Approved Honors and AP courses	Weighted
Approved college courses that meet the "a-g" requirements and/or that are identified in the ASSIST student transfer information system as UC/CSU transferable	Converted to high school credits and weighted
Other approved college courses	Converted to HS credits and unweighted
Courses transferred from another accredited school, private or public, a home school, or an alternative school	Included as they are transferred
Courses transferred from a non-accredited school	Not included
Repeated courses	Case-by-case; typically included unless the original grade is not a C or higher; replaces the prior D or F grade
High school courses taken in middle school	Not included

Note: UC/CSU systems do their own GPA calculations for a-g courses taken between the summer following 9th grade through the summer following 11th grade in calculating a student's GPA. Please see your high school college counselor for further details.

Participation in Senior Activities/Graduation Ceremony

In order for students to participate in any senior activities they must have a total of 150 credits at the beginning of the first semester and/or 180 credits at the beginning of the second semester of their senior year. In addition, students have to fulfill all the graduation requirements, described herein, and not be on suspension, or recommended for expulsion at the time of the Graduation Ceremony.

Tardies/Absences: After 20 tardies or unexcused absences students may be referred to the Reflection Committee regarding their standing and opportunity to participate in the Graduation Ceremony.

California High School Proficiency Exam – 5 CCR 11523

32

The California High School Proficiency Exam (CHSPE) is a voluntary test that assesses proficiency in basic reading, writing, and mathematics skills taught in public schools. Eligible pupils who pass the CHSPE are awarded a Certificate of Proficiency by the State Board of Education. A pupil who receives a Certificate of Proficiency may, with verified approval from the parent or legal guardian, leave high school early. The Certificate of Proficiency is equivalent to a high school diploma; however, it is not equivalent to completing all course work required for regular graduation from high school. Pupils planning to continue his or her studies in a college or university should contact the admissions office of the institution to find out if the Certificate of Proficiency will meet admission requirements.

A pupil is eligible to take the CHSPE only if he or she meets one of the following requirements on the test date: 1) is at least 16 years old; 2) has been enrolled in the tenth grade for one academic year or longer; or 3) will complete one academic year of enrollment in the tenth grade at the end of the semester during which the CHSPE regular administration will be conducted. A fee for each examination application shall not be charged to a homeless or foster youth under the age of 25. For more information, including administration dates and registration deadlines, visit the following website: http://www.chspe.net/.

Retroactive Grant of High School Diplomas: Departed/Deported Pupils

Retroactive Grant of High School Diplomas: Departed/Deported Pupils: EC 51430 (9-12)
MPS may award a diploma to any student who may have been deported outside the US, if in good standing after completing the second year of high school. Any transfer credits from outside the US will be considered as completion through online or foreign classes.

College Counseling & Readiness Programs

PSAT/NMSQT Tests &Applications

MPS is dedicated to providing a comprehensive college preparatory program that facilitates students' ambitions to pursue higher education at the nation's top universities and colleges. As part of this process, grades 9 through 11 are required to take the PSAT/NMSQT test in Fall.

PSAT/NMSQT stands for Preliminary SAT/National Merit Scholarship Qualifying Test. It is a standardized test that provides firsthand practice for the SAT Reasoning Test. ™ It also gives the students a chance to enter National Merit Scholarship Corporation (NMSC) scholarship programs.

The PSAT/NMSQT measures:

- critical reading skills;
- math problem-solving skills; and
- writing skills.

The most common reason for taking the PSAT/NMSQT is for the students to receive feedback on their strengths and weaknesses on skills necessary for college study. Students can then focus their preparation on those areas that could most benefit from additional study or practice.

Advanced Placement (AP) Courses

MPS will offer Advanced Placement (AP) classes depending on student needs/demands and availability of teachers and resources. AP courses are college-level courses, taught with college textbooks and exams that can give students college credit in the form of advanced standing when they enter their freshman year. Students have to pass the corresponding AP test in order to get college credit.

Advanced Placement Fees

AP Fees – EC 48980(j)

Eligible high school students may receive financial assistance to cover the costs of the advanced placement examination fees. Please contact the school office for information.

Counseling Programs

MPS offers a comprehensive counseling and guidance program addressing personal/social, career, and academic needs for all grades. Students may sign up to see the counselor at any time to discuss personal or academic concerns. Social skills, career, and college planning lessons will be provided by the counselor at various times throughout the school year depending on grade level, need etc. The counseling office provides the following resources:

- Academic advising
- College planning resources
- Scholarship information
- SAT/ACT test dates and materials
- Career planning resources
- Conflict resolution
- Family resources
- Counseling resources

Students who wish to see the counselor can make an appointment. Parents are always welcome to make an appointment to see the counselor. All information discussed by the student and/or parent will remain confidential to the fullest extent of the law.

ASCA National Standards for Students

MPS supports the following American School Counselor Association (ASCA) National Counseling Standards.

Academic Development

Standard A: Students will acquire the attitudes, knowledge, and skills that contribute to effective learning in school and across the life span.

Standard B: Students will complete school with the academic preparation essential to choose from a wide range of substantial post-secondary options, including college.

Standard C: Students will understand the relationship of academics to the world of work and home and community life.

Career Development

Standard A: Students will acquire the skills to investigate the world of work in relation to knowledge of self and to make informed career decisions.

Standard B: Students will employ strategies to achieve future career success and satisfaction.

Standard C: Students will understand the relationship between personal qualities, education and training, and the world of work.

Personal/Social Development

Standard A: Students will acquire the attitudes, knowledge, and interpersonal skills to help them understand and respect self and others.

Standard B: Students will make decisions, set goals, and take necessary action to achieve goals.

Standard C: Students will understand safety and survival skills.

Career Counseling & Course Selection

Career Counseling & Course Selection – EC 221.5(d)

Commencing grade 7, MPS school personnel shall assist pupils with course selection or career counseling, exploring the possibility of careers, or courses leading to careers based on the interest and ability of the pupil and not on the pupil's gender. Parents or legal guardians are notified so that they may participate in such counseling sessions and decisions.

MPS Student/Parent Handbook   2022-23

College & Career Technical Education

College & Career Technical Education – EC 51229

College Admission Requirements and Higher Education Information

The State of California offers community colleges, California State Universities (CSU), and Universities of California (UC) for students who wish to continue their education after high school.

To attend a community college, you need only a high school diploma or equivalent, or be over the age of 18. To attend a CSU, you have to take specific high school courses, have the appropriate grades and SAT/ACT test scores, and have graduated from high school. Test scores are not required if your GPA is 3.0 or above, and you applied to a campus or enrollment category that is not impacted. To attend a UC, you must meet requirements for coursework, GPA, and test scores. If you are a California student who has not been admitted to UC campus to which you have applied, you will be offered a spot at another campus if space is available and you rank in the top 9 percent of California high school students or of your graduating class at a participating high school. You may also transfer to a CSU or UC after attending a community college. For more information on college admission requirements, please refer to the following webpages:

www.californiacommunitycolleges.cccco.edu – This is the official website of the California Community College system. It offers links to all the California Community Colleges.

https://www2.calstate.edu/ – This extensive online site offers assistance to students and their families on the CSU system, including the ability to apply online, and links to all CSU campuses.

www.universityofcalifornia.edu – This massive website offers information regarding admissions, online application, and links to all UC campuses.

www.assist.org – This online student-transfer information system shows how course credits earned at one public California college or university can be applied when transferred to another.

Students may also explore career options through career technical education. These are programs and classes offered by a school that are specifically focused on career preparation and/or preparation for work. The programs and classes are integrated with academic courses and support academic achievement. Students can learn more about career technical education by referring to the following webpage: www.cde.ca.gov/ci/ct/gi/.

You may meet with a school counselor to choose courses at your school that will meet college admission requirements or enroll in career technical education courses, or both.

Dual and Concurrent Enrollment Policy

MPS provides a college preparatory educational program emphasizing science, technology, engineering, arts and math in a safe environment that cultivates respect for self and others. Through Honors courses, AP courses and dual enrollment courses, students who demonstrate high achievement, interest and/or ability are provided the opportunity for a rigorous learning environment. As we encourage our students to have an accredited college/university/post-secondary institution ("college") course-taking experience as early as possible, we also need to ensure it is a successful one and that it complements the rigorous course of studies offered at MPS. The following are guidelines for dual and concurrent enrollment.

Eligibility

- Maturity: High school students who have demonstrated academic, personal and social maturity are welcome to apply. The high school counselor ("counselor") will meet with the deans, the student's teachers and other related school staff to assess the student's maturity level necessary for dual and concurrent enrollment. During this holistic assessment, student's attendance records, classroom study habits, homework completion, problem-solving and task-management skills, ability to engage in cooperative learning and whole class discussion as well as student's behavior and social skills such as self-control, positive interactions and relationships with classmates and teachers, and other skills will be considered.

- GPA: Minimum Cumulative GPA of 3.0 (weighted) by the end of the semester prior to dual enrollment.

- Restrictions: The student and the parent are responsible for checking whether the college has admission/enrollment restrictions based on age, grade level, or demonstrated eligibility for instruction using assessment methods and procedures.

- Counselor Approval: The student is responsible for obtaining approval from the counselor for the specific courses student intends to take before enrolling in college courses.

Procedures

- Readiness: The student must demonstrate on track preparation in the discipline to be studied. With input from related school staff, the counselor will determine student readiness for the requested course. MPS expects that requested courses are part of the student's four-year plan with input from the student, parents, and school staff.

- Courses: The student has exhausted all opportunities to enroll in an equivalent course at his or her school of attendance.

- Credits/GPA:
  - To determine how a college course fulfills a high school requirement see your counselor. The counselor will indicate whether the

---

35

course will receive high school credit along with college credit or only college credit. Counselor's approval is necessary in order for the grade of a college course to be included in cumulative GPA calculations.

o Ultimately, it is the ultimate responsibility of the student/parent to determine college credit and the transferability of the course to other colleges. The following website can be used for that purpose: www.assist.org. ASSIST is an online student-transfer information system that shows how course credits earned at one public California college or university can be applied when transferred to another.

o Prior to enrollment, the student needs to make written application to the appropriate college/university office indicating that he or she is seeking high school credit in addition to college credit. Student/parent is responsible for following application deadlines and filling out forms such as "Supplemental Application for Admission of Students in Grades K-12" or other forms required by the college/university and completing the application process in a timely manner.

o It is the responsibility of the college/university to offer college credit. However, it is the responsibility of the student/parent to learn whether dropping or failing the course may impact admission to that college/university.

o It is important for students and parents to understand that students start building college credits as they take college courses. The grades earned may impact student's college GPA and any transfer requirements between colleges. Students and parents are encouraged to choose courses carefully by considering student's future college plans.

o Student/parent will provide an official transcript from the college/university to the counselor in a timely manner. Upon receipt of an official transcript from the college/university showing the course title, number of college units and the course grade, the high school equivalent course and the credits allowed will be recorded on the student's cumulative record.

o Academic college courses that meet the University of California "a-g" requirements will be given a weighted grade point on the high school transcript and included in cumulative GPA calculations.

o The following table will be used for conversion of college units to high-school credits:

College Units	High School Credits
Less than 2 semester college units or less than 3 quarter college units	2.5 high school credits
2 semester college units or 3 or more quarter college units	5.0 high school credits
3 or more semester college units	10.0 high school credits

- Attendance Requirements:

  o The student must provide a copy of college course schedule to the high school counselor for approval before enrolling in college courses.

  o The student must inform the counselor in case of any changes in course enrollment (dropping the course, changes in course dates and hours, etc.)

  o All students in grades 11 and 12 are required to be enrolled in at least five courses each semester (including the Advisory course). These courses can be classroom-based courses taken at MPS, online courses provided by MPS or approved online course-providers, CSU, UC or community college courses, and other courses and activities for which academic credit will be provided upon satisfactory completion.

  o MPS requires that the average number of minutes of attendance in any two consecutive schooldays is no less than 240 and minutes of attendance in any one school day is no less than 180.

  o Signed Early Release Form is required for leaving school earlier than regular dismissal.

  o All students in grades 9 and 10 must stay until regular school dismissal unless an alternative arrangement has been made with the counselor.

  o All students in grades 11 and 12 must stay for the Advisory period unless an alternative arrangement has been made with the counselor.

Signatures and Dates

I have read and I understand the terms of this policy and agree to all provisions set forth.

Student	Date

Parent/Guardian/Caregiver	Date

Dual and concurrent enrollment form is included in this Handbook and copies are also available in the school office.

36

MPS Student/Parent Handbook   2022-23

College Funding

College Application Fee Policy

All MPS high school seniors are eligible to receive up to $210 reimbursement for up to three (3) application fee instances to campuses within the California State University or University of California systems ("CSU", "UC"). Please refer to the MPS College Application Fee Policy for details.

Cal Grant Program

Cal Grant Program – EC 69432.9

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements.

Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

In order to assist students to apply for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant and each grade 12 student's GPA will be submitted by the October 1 deadline to the California Student Aid Commission (CASC) electronically by a school or school district official. A student, or the parent or guardian of a student under 18 years of age, may complete a form to indicate that he or she does not wish for the school to electronically send CASC the student's GPA. Until a student turns 18 years of age, only the parent or guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself or herself out, and can opt in if the parent or guardian had previously decided to opt out the student. Notification regarding CASC and the opportunity to opt out of being automatically deemed a Cal Grant applicant will be provided to all students and their parents or guardians by January 1 of the students' 11th grade year.

Cal Grant Program Opt-out form is included in this handbook and copies are also available in the school office.

Federal Student Aid

Federal Student Aid – EC 51225.8

MPS shall ensure that students prior to entering 12th grade are entitled to information on how to properly complete and submit the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application at least once. This information will be available in a timely manner as financial aid is awarded in order of submission according to deadlines, on a first-come, first served basis. All family and student personal information will be protected according to state and federal privacy laws and regulations.

Starting in 11th grade, MPS will disseminate information on how to properly complete and submit the FAFSA or the California Dream Act Application through in-class instruction, existing college readiness programs, family information sessions, and counseling sessions in groups or individually.

Work Permits for Students

It is within the discretion of MPS to determine whether a minor, who is still subject to the state's compulsory education laws, may obtain a work permit and, therefore, be employed to work.

Once a minor is no longer subject to the state's compulsory education laws, he/she is not considered a minor for purposes of the state's child labor laws and is not required to obtain a work permit (LC Section 1286[c]). California's compulsory school attendance law requires a person to attend school until he/she is eighteen years of age, or has graduated from high school, or has passed the High School Proficiency Examination. However, under federal law (29 CFR Section 570.121), Certificates of Age are required for all employed minors under the age of 18 which may be satisfied with the top portions of the work permit application (CDE Form B1-1) (5 CCR Section 10120.1). A work permit may be issued to only minors between the ages of 12 and 18 years of age (EC Section 49111).

Process: The minor/student, after obtaining a promise of employment, shall obtain the **"Statement of Intent to Employ a Minor and Request for a Work Permit - Certificate of Age"** (CDE Form B1-1) from the school. The minor must complete the "minor" section, request that the employer and parent complete their sections (making certain to obtain both required signatures), and then return the completed form to the Principal. The Principal or designee shall verify all information on the work permit to be issued. If all requirements are met, the school may issue the work permit (CDE Form B1-4).

The school has discretion to impose additional requirements for the issuance of a work permit. MPS requires that the minor maintain a 2.0 cumulative grade point average (GPA).

The school shall retain a copy of the work permit application (CDE Form B1-1) and the work permit (CDE Form B1-4) until the end of the fourth year after the work permit was issued.

Competitive Athletics

Competitive Athletics Information

Competitive Athletics – EC 221.9

Any MPS school that offers competitive athletics shall publicly make available at the end of the school year all of the following information on its website:
1. The total enrollment of the school, classified by gender.
2. The number of pupils enrolled at the school who participate in competitive athletics, classified by gender.
3. The number of boys' and girls' teams, classified by sport and by competition level.

"Competitive athletics" means sports where the activity has coaches, a governing organization, and practices, and competes during a defined season, and has competition as its primary goal.

37

ATTENDANCE & RECORDS

Attendance Policy

It is the intent of the Governing Board of the Magnolia Educational and Research Foundation, doing business as Magnolia Public Schools ("MPS") to ensure that students attend school every day on time. Consistent school attendance is critical to school success. Being present for classroom instructional time is essential for students to reach their goals and achieve their dreams. Chronic absenteeism has been linked to an increased likelihood of poor academic performance, disengagement from school and behavior problems.

Avoiding Absences, Written Excuses

Following an absence, a student is required to bring a written excuse from home when returning to school. Absences without a written excuse are recorded as unexcused.

Tardiness:

Children should be encouraged to be prompt as part of developing good habits. They are expected to be at school on time. If a child is late, the child should bring an excuse from home to the school office. A student will be classified as truant if they are tardy or absent for more than a 30-minute period during the school day without a valid excuse on three occasions in one school year.

Definitions:

- "*Tardy*": MPS starts at **8:00 a.m.*** Students shall be classified as tardy if the student arrives after that time.

  * Each individual MPS school start time may vary. Please check with your school office for the exact start time.

- "*Unexcused Absence*": Students shall have an unexcused absence if the student is absent or is tardy for more than thirty (30) minutes without a valid excuse.

- "*Truant*": Students shall be classified as truant if the student is absent from school without a valid excuse three (3) full days in one school year, or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on three (3) occasions in one school year, or any combination thereof. Any student who has once been reported as a truant and who is again absent from school without valid excuse one or more days, or tardy on one or more days, shall again be deemed a truant. Such students shall be reported to the Principal or designee.

- "*Habitual Truant*": Students shall be classified as a habitual truant if the student is reported for truancy three (3) or more times within the same school year. This generally occurs when the student is absent from school without a valid excuse for five (5) full days in one school year or if the student is tardy or absent for more than any

30-minute period during the school day without a valid excuse on five (5) occasions in one school year, or any combination thereof.

- "*Chronic Truant*": Students shall be classified as a chronic truant if the student is absent from school without a valid excuse for ten (10) percent or more of the school days in one school year, from the date of enrollment to the current date.

- "*School Attendance Review Team ("SART")*": is the MPS Attendance Review Team and will consist of the individuals listed below: School Administrators, School Psychologist, Counselor, Nurse, Psychiatric Social Worker, Attendance Clerk, Intervention Teacher(s), MPS Director of Student Services or designee, PSAC or designee. The team may be composed of any individual who is working with the family and has a viable interest in the student's school attendance.

Chronic Absenteeism – EC 60901

A student is considered a chronic absentee when he/she is absent on 10% or more of the school days in one school year, from the date of enrollment to the current date. Chronic absenteeism includes all absences – excused and unexcused – and is an important measure because excessive absences negatively impact academic achievement and student engagement.

Arrest of Truants/School Attendance Review Boards: EC 48263 and 48264:

The school attendance supervisor, administrator or designee, a peace officer, or probation officer may arrest or assume temporary custody during school hours, of any minor who is found away from their home and who is absent from MPS without valid excuse within the county, city, or school district. A student who is a habitual truant may be referred to a School Attendance and Review Team (SART).

Excused Absences/Tardies for Classroom Based Attendance

No student shall have his or her grade reduced or lose academic credit for any excused absence or absences, if missed assignments and tests that can reasonably be provided are satisfactorily completed within a reasonable period of time.

(a) A student shall be excused from school when the absence is:

(1) Due to his or her illness, including an absence for the benefit of the pupil's mental or behavioral health.

(2) Due to quarantine under the direction of a county or city health officer.

(3) For the purpose of having medical, dental, optometric, or chiropractic services rendered.

    a. Students in grades 7-12, inclusive, may be excused from school for the purpose of obtaining confidential medical services without the consent of the student's parent or guardian.

(4) For the purpose of attending the funeral services of a member of his or her immediate family, so long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California.

(5) For the purpose of jury duty in the manner provided for by law.

(6) Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent, including absences to care for a sick child (The school does not require a note from the doctor for this excusal).

(7) For the purpose of serving as a member of a precinct board for an election pursuant to Section 12302 of the Elections Code.

(8) For the purpose of spending time with a member of the pupil's immediate family, who is an active duty member of the uniformed services, as defined in EC 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment to a combat zone or combat support position. Absences granted pursuant to this paragraph shall be granted for a period of time to be determined at the discretion of the superintendent of the school district.

(9) For the purpose of attending the pupil's naturalization ceremony to become a United States Citizen.

(10) Authorized parental leave for a pregnant or parenting student for up to eight (8) weeks.

(11) Authorized at the discretion of a school administrator, based on the facts of the student's circumstances, are deemed to constitute a valid excuse.

(12) A student who holds a work permit to work for a period of not more than five (5) consecutive days in the entertainment or allied industries shall be excused from school during the period that the student is working in the entertainment or allied industry for a maximum of up to five (5) absences per school year subject to the requirements of Education Code section 48225.5.

(13) In order to participate with a not-for-profit performing arts organization in a performance for a public-school student audience for a maximum of up to five (5) days per school year provided the student's parent or guardian provides a written note to the school authorities explaining the reason for the student's absence.

(14) Appearance in court.

(15) Attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization upon written request by parent and approval by the Principal or designee pursuant to uniform standards established by the Board.

(16) For the purpose of participating in a cultural ceremony or event. "Cultural," as used in this section, means relating to the habits, practices, beliefs, and traditions of a certain group of people.

(17) Observance of a religious holiday.

(18) Participation in religious instruction or exercises as follows: The student shall be excused for this purpose on no more than four (4) school days per month.

(b) A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefore. The teacher of the class from which a pupil is absent shall determine which tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.

(c) For purposes of this section, attendance at religious retreats shall not exceed four hours per semester.

(d) Absences pursuant to this section are deemed to be absences in computing average daily attendance and shall not generate state apportionment payments.

(e) "Immediate family," as used in this section, means the parent or guardian, brother or sister, grandparent, or any other relative living in the household of the pupil.

Other reasons will be considered that are requested in writing and approved by MPS. If the excuse is not one of the valid excuses listed above, the MPS administrators are authorized to excuse school absences due to the pupil's circumstances on a case-by-case basis.

Unexcused Absences/Tardies for Classroom Based Attendance

Students will be marked unexcused if they:

1. Do not bring a written note within **two (2)** school days following an absence;

2. Leave school without signing out at the school office;

3. Are absent from class without teacher permission or a valid excuse, including walking out of class;

4. Get a pass to go to a certain place but do not report there; and/or

39

5. Are absent/tardy for reasons **not acceptable** to the administration including but not limited to:

- Not waking up on time
- Transportation problems (missing the bus, traffic, etc.)
- Running errands for family
- Work
- Babysitting
- Hair appointment
- Needed at home
- Vacations or trips
- Athletic workout
- Socializing/Lingering in the hallway.

Method of Verification

A parent/guardian must inform the school office via phone of their child's absence/tardy the morning of the absence/tardy. When students who have been absent return to school, they must present a satisfactory explanation verifying the reason for the absence/tardy within **two (2)** school days of the excused absence and/or upon the student's return. If a satisfactory explanation is not provided within **two (2)** school days of the absence/return, the absence will be marked as "unexcused." The following methods may be used to verify student absences/tardies:

1. Signed, written note from parent/guardian, parent representative;

2. Conversation, in person or by telephone, between the verifying employee and the student's parent/guardian or parent representative. The employee shall subsequently record the following:

   a. Name of student;

   b. Name of parent/guardian or parent representative;

   c. Name of verifying employee;

   d. Date or dates of absence; and

   e. Reason for absence.

3. Visit to the student's home by the verifying employee, or any other reasonable method, which establishes the fact that the student was absent for the reasons stated. A written recording shall be made, including information outlined above.

4. Healthcare provider verification

   a. When excusing students for confidential medical services or verifying such appointments, MPS staff shall not ask the purpose of such appointments but may contact a medical office to confirm the time of the appointment.

   b. A healthcare provider's note of illness will be accepted for any reported absence. When a student has **had twenty (20)** absences in the school year verified by methods listed in #1-#3 above without a healthcare provider's note, any further absences for illness must be verified by a healthcare provider.

Students should not be absent from school without their parents/guardians' knowledge or consent except in cases of medical emergency or for students in grades 7-12, inclusive, who may be excused from school for the purpose of obtaining confidential medical services without the consent of the student's parent or guardian. Student absence for religious instruction or participation in religious exercises away from school property may be considered excused subject to administrative regulations and law. Students who arrive to school late must report to the school office when the student arrives. If the student fails to do this, he or she will receive an unexcused tardy. If the student fails to present a satisfactory explanation verifying the reason for the tardy, the student will receive an unexcused tardy. The student will be given a "late slip" from office staff to be admitted to class.

Make up Work for Excused Absences

An absence from school, even for several days, does not excuse students from responsibilities in the classroom. On the day of return, it is the students' responsibility to find out what work is required and when the work needs to be completed. Students will be given the same number of days they were absent to make up missed work. For students with excused absences, make-up tests will be scheduled at a time designated by the teacher or as outlined in the teacher's syllabus. It is the students' responsibility to take the test at that time. If the student fails to do this, the teacher is not obligated to set another time for make-up. Please check teacher's syllabus and make sure for their individual policy.

Independent Study Policy

Students with a legitimate need for an extended absence of **five (5)** or more days can enroll in independent study.

Please see the school office and website for the **"MPS Independent Study Policy."**

Extracurricular Activities

When a student accrues **ten (10)** unexcused absences/tardies in a semester, the student may not be allowed to participate in any extracurricular activities for the remainder of that semester. (Field trips and academic opportunities do not count as extracurricular activities.) Special circumstances with documented explanations should be reviewed with the administration. After **twenty (20)** unexcused absences/tardies within the school year, the student may be referred to the Reflection Committee regarding their standing and opportunity to participate in any culminating activities, i.e., promotion/graduation, prom or graduation night.

Process for Upholding the Attendance Policy

First Day of School Process

When students are not in attendance on the **first five (5) consecutive days of school**, MPS will attempt to reach the parent/guardian on a daily basis for each of the first five days to determine whether the student has an excused absence, consistent with the process outlined in this policy. If the student has a basis for an excused absence, parents must notify MPS of the absence and provide documentation consistent with this policy. However, consistent with process below, students who are not in attendance due to an unexcused absence by the fifth day of school will be disenrolled from the Charter School roster after following the Involuntary Removal Process described below, as it will be assumed that the student has chosen another school option.

1. Students who are not in attendance on the first day of school will be contacted by phone to ensure their intent to enroll.

2. Students who have indicated their intent to enroll, but have not attended by the third day will receive a letter indicating the student will be disenrolled after the fifth day of school if the student has not attended school without valid excuse.

3. Students who have indicated their intent to enroll but have not attended by the fifth day of school will receive a phone call reiterating the content of the letter.

4. MPS will send the Involuntary Removal Notice to the parent/guardian and follow the Involuntary Removal Process described below for any students who have not attended by the sixth (6th) day, and do not have an excused absence.

5. The Involuntary Removal Process can be started immediately upon MPS receiving documentation of the student's enrollment and attendance at another public or private school (i.e. a CALPADS report).

6. MPS will use the contact information provided by the parent/guardian in the registration packet.

7. The last known District of Residence will be notified of the student's failure to attend MPS and the voluntary disenrollment within thirty (30) days of the disenrollment.

Truancy Process

1. Each of the first **two (2)** unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal or designee. The student's classroom teacher may also call home.

2. Each of the **third (3rd) and fourth (4th)** unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal or designee. In addition, the student's classroom teacher may also

call home and/or MPS may send the parent an e-mail notification. In addition, upon reaching **three (3)** unexcused absences or unexcused tardies over 30 minutes in a school year, the parent/guardian will receive **"Truancy Letter #1 – Truancy Classification Notice"** from the Charter School notifying the parent/guardian of the student's "Truant" status. This letter must be signed by the parent/guardian and returned to the Charter School. This letter shall also be accompanied by a copy of this Attendance Policy. This letter, and all subsequent letter(s) sent home, shall be sent by Certified Mail, return receipt requested, or some other form of mail that can be tracked. This letter shall be re-sent after a fourth (4th) unexcused absence or unexcused tardy over 30 minutes.

3. Upon reaching **seven (7)** unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive **"Truancy Letter #2 – Habitual Truant Classification Notice – Conference Request,"** notifying the parent/guardian of the student's "Habitual Truant" status and that a parent/guardian conference will be scheduled to review the student's records and develop an intervention plan/contract. In addition, MPS will consult with a school counselor regarding the appropriateness of a home visitation and/or case management.

4. Upon reaching **ten (10)** unexcused absences or unexcused tardies over 30 minutes, the student will be referred to a **Student Support and Progress Team (SSPT)** and the MPS **Attendance Review Team (SART)**. In addition, the parent/guardian will receive a **"Truancy Letter #3 – Referral to SART,"** and will be asked/invited to attend a presentation regarding chronic absenteeism.

5. The SART panel can include, but is not limited to, the following school members: School Administrators, School Psychologist, Counselor, Nurse, Psychiatric Social Worker, Attendance Clerk, Intervention Teacher(s), MPS Director of Student Services or designee, PSAC or designee. The panel may be composed of any individual who is working with the family and has a viable interest in the student's school attendance. The SART panel will discuss the absence problem with the Parent/Guardian to work on solutions, develop strategies, discuss appropriate support services for the student and his/her family, and establish a plan to resolve the attendance issue.

    a. The SART panel shall direct the parent/guardian that no further unexcused absences or tardies can be tolerated.

    b. The parent shall be required to sign a contract formalizing the agreement by the parents to improve the child's attendance or face additional

41

administrative action. The contract will identify the corrective actions required in the future, and indicate that the SART panel shall have the authority to order one or more of the following consequences for non-compliance with the terms of the contract:

    i. Parent/guardian to attend school with the child for one (1) day

    ii. Student retention

    iii. After school detention program

    iv. Required school counseling

    v. Loss of field trip privileges

    vi. Loss of school store privileges

    vii. Loss of school event privileges

    viii. Required remediation plan as set by the SART

    ix. Notification to the District Attorney

  c. The SART panel may discuss other school placement options.

  d. Notice of action recommended by the SART will be provided in writing to the parent/guardian.

6. If the conditions of the SART contract are not met, the student may incur additional administrative action up to and including disenrollment from MPS consistent with the Involuntary Removal Process described below. If the student is disenrolled after the Involuntary Removal Process has been followed, notification will be sent within thirty (30) days to the student's last known district of residence.

7. For all communications set forth in this process, MPS will use the contact information provided by the parent/guardian in the registration packet. It is the parent's or guardian's responsibility to update MPS with any new contact information.

8. If student is absent **ten (10)** or more consecutive school days without valid excuse and parent/guardian cannot be reached at the number or address provided in the registration packet and does not otherwise respond to MPS' communication attempts, as set forth above, the student will be in violation of the SART contract, and the SART panel will recommend that the student be disenrolled in compliance with the Involuntary Removal Process described below. The Involuntary Removal Process can be started immediately upon the Charter School receiving documentation of Student's enrollment and attendance at another public or private school (i.e., a CALPADS report).

Involuntary Removal Process

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five (5) schooldays before the effective date of the action ("Involuntary Removal Notice"). The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include the charges against the student and an explanation of the student's basic rights including the right to request a hearing before the effective date of the action. The hearing shall be consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the Charter School's suspension and expulsion policy.

Upon parent/guardian request for a hearing, the Charter School will provide notice of hearing consistent with its expulsion hearing process, through which the student has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the student has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder and shall include a copy of the Charter School's expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the Student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If parent/guardian requests a hearing and does not attend on the date scheduled for the hearing, the Student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known district of residence within thirty (30) days.

A hearing decision not to disenroll the student does not prevent the Charter School from making a similar recommendation in the future should student truancy continue or re-occur.

Truant Consequences – EC 48263, 48267, 48268, and 48269; WIC 236, 601, 601.3,653.5, 654, and 651.5
Any student who is identified as "Truant" may be assigned as a ward of the court, if the available community resources do not resolve the students'

continued problem of truancy, by a Probation Officer or Deputy District Attorney.

Referral to Appropriate Agencies or County District Attorney

It is MPS' intent to identify and remove all barriers to the student's success, and MPS will explore every possible option to address student attendance issues with the family. For any unexcused absence, MPS may refer the family to appropriate school-based and/or social service agencies.

If a child's attendance does not improve after a SART contract has been developed according to the procedures above, or if the parents fail to attend a required SART meeting, MPS shall notify the District's Attorney's office, which then may refer the matter for prosecution through the court system. Students 12 years of age and older may be referred to the juvenile court for adjudication.

These policies will be enforced fairly, uniformly, and consistently without regard to the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics).

Reports

The MPS Principal, or designee, shall gather and report to the Board the number of absences both excused and unexcused as well as students who are truant, and the steps taken to remedy the problem.

Pupil Records

Custody Issues

Custody Issues
Custody disputes must be handled by the courts. The school has no legal jurisdiction to refuse a biological parent access to his/her child and/or school records. The only exception is when signed restraining orders or proper divorce papers, specifically stating visitation limitations, are on file in the school office. Any student release situation which leaves the student's welfare in question will be handled at the discretion of the site administrator or designee. Should any such situation become a disruption to the school, law enforcement will be contacted, and an officer requested to intervene. Parents are asked to make every attempt not to involve school sites in custody matters. The school will make every attempt to reach the custodial parent when a parent or any other person not listed on the emergency card attempts to pick up a child.

Student Records, Including Challenges and Directory Information

The Family Educational Rights and Privacy Act ("FERPA") affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 5 business days after the day the Charter School receives a request for access. Parents or eligible students should submit to the Charter School CEO or designee a written request that identifies the records they wish to inspect. The Charter School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

   Parents or eligible students who wish to ask the Charter School to amend a record should write the Charter School's CEO or designee, clearly identify the part of the record they want changed and specify why it should be changed. If the Charter School decides not to amend the record as requested by the parent or eligible student, the Charter School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. If the Charter School decides to amend the record as requested by the parent or eligible

student, the CEO must order the correction or the removal and destruction of the information and inform the parent or eligible student of the amendment in writing.

3. The right to provide written consent before the Charter School discloses personally identifiable information ("PII") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception, which permits disclosure without consent, is disclosure to Charter School officials with legitimate educational interests. A Charter School official is a person employed by the Charter School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the Charter School's Board of Directors. A Charter School official also may include a volunteer or contractor outside of the Charter School who performs an institutional service of function for which the Charter School would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another Charter School official in performing their tasks. A Charter School official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

   Upon request, the Charter School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled, if the disclosure is for purposes of the student's enrollment or transfer.

   Note that Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Charter School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

   > Student Privacy Policy Office
   > U.S. Department of Education
   > 400 Maryland Avenue, SW
   > Washington, DC 20202

5. The right to request that the Charter School not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

FERPA permits the disclosure of PII from student's education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to Charter School officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the Charter School to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A Charter School may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student to the following parties:

1. Charter School officials who have a legitimate educational interest as defined by 34 C.F.R. Part 99;

2. Other schools to which a student seeks or intends to enroll so long as the disclosure is for purposes related to the student's enrollment or transfer. When a student transfers schools, the Charter School will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days following the date the request is received from the public school or private school where the student intends to enroll. Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at his/her last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for;

3. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;

4. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;

5. Organizations conducting certain studies for the Charter School in accordance with 20 U.S.C. § 1232g(b)(1)(F);

6. Accrediting organizations in order to carry out their accrediting functions;

7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986;

8. Individuals or entities, in compliance with a judicial order or lawfully issued subpoena. Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;

9. Persons who need to know in cases of health and safety emergencies;

10. State and local authorities, within a juvenile justice system, pursuant to specific State law;

11. A foster family agency with jurisdiction over a currently enrolled or former student, a short-term residential treatment program staff responsible for the education or case management of a student, and a caregiver (regardless of whether the caregiver has been appointed as the student's educational rights holder) who has direct responsibility for the care of the student, including a certified or licensed foster parent, an approved relative or nonrelated extended family member, or a resource family, may access the current or most recent records of grades, transcripts, attendance, discipline, and online communication on platforms established by Charter School for student and parents, and any individualized education program ("IEP") or Section 504 plan that may have been developed or maintained by Charter School; and/or

12. A victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense. The disclosure may only include the final results of the disciplinary proceedings conducted by Charter School with respect to that alleged crime or offense. Charter School discloses the final results of the disciplinary proceeding regardless of whether Charter School concluded a violation was committed.

"Directory Information" is information that is generally not considered harmful or an invasion of privacy if released. Charter School may disclose the personally identifiable information that it has designated as directory information without a parent's prior written consent. The Charter School has designated the following information as directory information:

1. Student's name

2. Student's address

3. Parent's/guardian's address

4. Telephone listing

5. Student's electronic mail address

6. Parent's/guardian's electronic mail address

7. Photograph

8. Date and place of birth

9. Dates of attendance

10. Grade level

11. Participation in officially recognized activities and sports

12. Weight and height of members of athletic teams

13. Degrees, honors, and awards received

45

14. The most recent educational agency or institution attended

15. Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's social security number, in whole or in part, cannot be used for this purpose.)

If you do not want the Charter School to disclose directory information from your child's education records without your prior written consent, you must notify the Charter School in writing at the time of enrollment or re-enrollment. Please notify the CEO at:

CEO and Superintendent
Magnolia Public Schools
250 E. 1st St STE 1500
Los Angeles, CA 90012
(213) 628-3634

A copy of the complete Policy is available upon request at the school office and on the school website.

A directory information release opt-out form is included at the end of this Handbook and copies are also available in the school office.

News Media Access and Social Media Policy

Occasionally, school staff or reporters and other members of the news media may write about, photograph or video school activities such as sporting events, school assemblies, special programs or newsworthy events.

Parents sign an authorization and release form during enrollment to grant MPS permission to create and use visual and/or audio images of their student, or the student's name or work product in internal and external publications for advertising or educational purposes, or share on its website, Facebook, Twitter, or other social media sites. Parents and guardians who do not want their child to be interviewed, videotaped or photographed should not sign or return that form/waiver. However, even with a signed form, students can turn down a request to be interviewed or photographed by telling their teacher.

The waiver only applies to a student who is on campus. Once they leave the school grounds and are on public property such as the sidewalk, reporters and photographers need no permission to ask questions or take pictures or videos.

For this reason, it is best to talk with your child so he or she knows your preference in advance, in case they find themselves in this situation.

Please contact the school office if you would like to request a copy of the waiver form.

A complete copy of the **"MPS Social Media Policy"** is available in the school office and on the school website.

Social Security Number

Social Security Number – EC 49076.7

Pupils and their parents or guardians should not be asked to provide their social security numbers or the last four digits of the social security numbers unless required by state or federal law. If a form is requesting that you provide a social security number or the last four digits of the social security number for you and/or your child and it does not specify the state or federal law that requires this information, ask the school administrator for more information before providing it.

Student Transfer

- Any student transferring out of MPS must complete the "Student Transfer Form" which can be obtained from the school office. The form must be completed prior to a student transferring. It is the parent/guardian's responsibility to complete the form. The school is not responsible for having it completed.

- It is the student's parent/guardian's responsibility to contact the school that student will be transferring to. It is the parent/guardian's responsibility to make all necessary arrangements for a successful transfer.

- If a student will be transferring to another school for the following school year, the parent/guardian is still responsible to inform the school office before the last day of school, or last day of attendance.

- All textbooks and any school property loaned to the student must be turned in before the last day of attendance in order to complete a successful transfer.

HEALTH & WELLNESS

Notifications for Student Athletes

Concussion and Head Injuries

Concussion and Head Injuries – EC 49475

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Because MPS has elected to offer an athletic program, we must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until the athlete is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than **seven (7)** days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

MPS shall distribute the concussion information sheet to athletes prior to the start of the athletic season. Information sheet for concussion is included at the end of this Handbook and copies are also available in the school office.

Controlled Substances: Opioids

Controlled Substances: Opioids – EC 49476

School authorities must provide facts regarding the risks and side effects of opioid use each school year to athletes. Parents and student athletes must sign acknowledgement of receipt of the document annually.

MPS shall distribute the opioid information sheet to athletes prior to the start of the athletic season. Information sheet for opioid is included at the end of this Handbook and copies are also available in the school office.

Sudden Cardiac Arrest Prevention and Automated External Defibrillators

Sudden Cardiac Arrest – EC 33479 et seq.

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs.

SCA is not a heart attack; it is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. SCA is more likely to occur during exercise or sports activity, so athletes are at greater risk. These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. If not properly treated within minutes, SCA is fatal in 92 percent of cases. MPS must remove from participation a pupil who passes out or faints, or who is known to have passed out or fainted, while participating in or immediately following an athletic activity. A pupil who exhibits any of the other symptoms of SCA during an athletic activity may be removed from participation if the athletic trainer or authorized person reasonably believes that the symptoms are cardiac related. A pupil who is removed from play may not return to that activity until the pupil is evaluated by, and receives written clearance from, a physician or surgeon. On a yearly basis, an acknowledgement of receipt and review of information regarding SCA must be signed and returned by the pupil and the pupil's parent or guardian before a pupil participates in specific types of athletic activities which generally does not apply to those conducted during the regular school day or as part of a physical education course.

MPS shall distribute the sudden cardiac arrest information sheet to athletes prior to the start of the athletic season. Information sheet for the sudden cardiac arrest is included at the end of this Handbook and copies are also available in the school office.

California Youth Football Act

California Youth Football Act – HSC 124241 (6-12)

Under state law, students who participate in football games in grades 6-12 must have a licensed medical professional present during the game, whether playing at a home game or away at another school. This does not include Physical Education classes or intramural football games outside of extra-curricular athletics offered at the middle or high school.

Health Insurance Coverage for Athletes

Health Insurance Coverage for Athletes – EC 32221.5 (9-12)

Under state law, school districts are required to ensure that all members of school athletic teams have accidental injury insurance that covers medical and hospital expenses. This insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses.

Some pupils may qualify to enroll in no-cost or low-cost local, state, or federally sponsored health insurance programs. Information about these programs may be obtained by calling Medi-Cal at 800-541-5555 or Healthy Families Program at 800-880-5305.

MPS Student/Parent Handbook   2022-23

Medical & Health

Confidential Medical Services

Confidential Medical Services – EC 46010.1

School authorities may excuse any pupil in grades 7-12 from the school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardians.

Medical or Hospital Service

Medical or Hospital Service – EC 49472

MPS does not provide or make available medical and hospital services for pupils who are injured in accidents related to school activity or attendance.

Emergency Treatment for Anaphylaxis

Emergency Treatment for Anaphylaxis

MPS shall provide epinephrine auto-injectors to school nurses and trained personnel and authorize them to use epinephrine auto-injectors for any student who may be experiencing anaphylaxis, regardless of known history. Anaphylaxis is a severe and potentially life-threatening allergic reaction that can occur after encountering an allergic trigger, such as food, medicine, an insect bite, latex or exercise. Symptoms include narrowing of the airways, rashes or hives, nausea or vomiting, a weak pulse and dizziness. It is estimated that approximately 25% of the anaphylactic reactions occur during school hours to students who had not previously been diagnosed with a food or other allergy. Without immediate administration of epinephrine followed by calling emergency medical services, death can occur. Being able to recognize and treat it quickly can save lives.

Trained MPS personnel who have volunteered may use epinephrine auto-injectors to provide emergency medical aid to persons suffering, or reasonably believed to be suffering from, an anaphylactic reaction. MPS will ensure it has the appropriate type of epinephrine auto-injector on site (i.e., regular or junior) to meet the needs of its pupils. MPS will ensure staff properly store, maintain, and restock the epinephrine auto-injectors as needed.

MPS will ensure any school personnel who volunteer are appropriately trained regarding the storage and emergency use of epinephrine auto-injectors based on the standards developed by the Superintendent of Public Instruction. MPS will distribute an annual notice to all staff describing the request for volunteers who will be trained to administer an epinephrine auto-injector to a person if that person is suffering, or reasonably believed to be suffering from, anaphylaxis. The annual notice shall also describe the training the volunteer will receive.

Entrance Health Screening

Entrance Health Screening – HSC 124085, 124100, 124105

State law requires that the parent or legal guardian of each pupil provide the school within 90 days after entrance to first grade documentary proof that the pupil has received a health screening examination by a doctor within the prior 18 months. Pupils may be excluded up to 5 days from school for failing to comply or not providing a waiver. This examination can be obtained from your family physician or possibly through the services provided by your County Health Department. Free health screening is available for eligible students through the Child Health Disabilities Prevention Program.

Information and forms are distributed to students enrolled in kindergarten. If your child's medical status changes, please provide the teacher with a physician's written verification of the medical issue, especially if it impacts in any way your child's ability to perform schoolwork.

Health Care Coverage

Health Care Coverage – EC 49452.9

Your child and family may be eligible for free or low-cost health coverage. For information about health care coverage options and enrollment assistance, go to www.CoveredCA.com. Information regarding the availability of insurance is provided with enrollment forms and is also available at:

http://hbex.coveredca.com/toolkit/PDFs/ALL_IN_Flyer_EnrollGetCareRenew_CC.pdf

Additionally, California law allows all low-income children under 19 years old, regardless of immigration status, to enroll in Medi-Cal at any time in the year. Families can apply in person at their local county human services office, over the phone, online, with a mail-in application, or at a local health center. For more information about Medi-Cal enrollment, visit www.health4allkids.org.

Health Information

A student returning to school following a serious or prolonged illness, injury, surgery, or other hospitalization (including psychiatric and drug or alcohol inpatient treatment), must have written permission by the licensed California health care provider to attend school, including any recommendations regarding physical activity. A health care provider is defined as a California-licensed physician [a Medical Doctor (MD) or a Doctor of Osteopathic Medicine (DO)], California-licensed dentist, California-licensed nurse practitioner (NP), or a California-licensed physician assistant (PA).

A student returning to school with sutures (stitches, staples), ace bandage (elastic bandage, slings), casts, splints, crutches, cane, walker, knee walker/knee scooter, or a wheelchair

must have a licensed California health care provider's written permission to attend school that includes any recommendations and/or restrictions related to physical activity, mobility and safety. All equipment must be supplied by the parent(s)/ guardian(s).

Excuse from PE

An excuse (less than 10 weeks) from a physical education class may be granted to a student who is unable to participate in regular or modified curriculum for a temporary period of time due to illness or injury. A parent's written request for an excuse will be accepted for up to five days; thereafter, a written request is needed from the student's health care provider.

Illness

- MPS does not have a nurse on staff. Consistent with doctor's orders, properly trained office staff can assist students with basic first aid treatment; however, office staff are not registered nurses. Students sent to the office or visiting the office claiming that they are ill will be quickly evaluated by the office staff. If a student needs treatment beyond basic first aid, Parent/Guardian will be contacted to pick him/her up.

- If a student becomes ill or injured during the school day, he or she must report to the school office. Do not leave the building without permission. Any absence or departure from class that is not first cleared through the office will be considered unexcused.

- If a student is not physically well prior to the beginning of the school day, the office should be informed, and the student should be kept at home.

Communicable Disease Prevention

- If there is good cause to believe that a student is suffering from a recognized contagious or infectious disease, the student will be excluded from school until the school authorities are satisfied that any contagious or infectious disease does not exist. Guidelines for exclusion and readmission follow policies set forth by MPS, county and state authorities including but not limited to the California Department of Health and the California Department of Education. Guidance in addressing communicable diseases also comes from the Center for Disease Control and Prevention and national organizations.

- Temporary exclusion of a student from school generally occurs for communicable diseases, including, but not limited to, the following conditions: COVID-19, conjunctivitis (pink eye), skin infections (impetigo), strep throat, chickenpox, scabies, head lice, and pertussis (whooping cough). Exclusion may occur immediately or at the end of the school day, depending on the disease, its communicability and the county and state policy. Readmission to school is based on condition and appropriate treatment.

- Any student excluded from school or experiencing flu-like symptoms and/or a fever of 100 degrees or greater while at home, must be free from symptoms and fever for at least 24 hours (or more if required by county or state authorities) without the use of fever-reducing medication before returning to school.

- Schools may notify parents/guardians about school exposure to chickenpox, head lice, or other communicable diseases that pose a risk to students. The parent/guardian of a student for whom chickenpox presents a particular hazard should contact the school office. Students at risk include those with conditions affecting the immune system and those receiving certain drugs for the treatment of cancers or organ transplants. Information on the treatment and prevention of head lice is available from the school office.

Diabetes Information Sheet

MPS will provide an information sheet regarding Type 2 Diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of Type 2 Diabetes.

2. A description of the risk factors and warning signs associated with Type 2 Diabetes.

3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with Type 2 Diabetes should be screened for Type 2 Diabetes.

4. A description of treatments and prevention of methods of Type 2 Diabetes.

5. A description of the different types of diabetes screening tests available.

Type 2 Diabetes Information
Description

Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.

- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in his or her lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body's cells.

49

- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.

- In type 2 diabetes, the body's cells resist the effects of insulin, and blood glucose levels rise.

- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.

- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- **Being overweight**. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.

- **Family history of diabetes**. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.

- **Inactivity**. Being inactive further reduces the body's ability to respond to insulin.

- **Specific racial/ethnic groups**. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.

- **Puberty**. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating

- Unexplained weight loss

- Increased thirst, dry mouth, and frequent urination

- Feeling very tired

- Blurred vision

- Slow healing of sores or cuts

- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms

- Irregular periods, no periods, and/or excess facial and body hair growth in girls

- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- **Eat healthy foods.** Make wise food choices. Eat foods low in fat and calories.

- **Get more physical activity.** Increase physical activity to at least 60 minutes every day.

- **Take medication.** If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or pre-diabetes (a condition which may lead to type 2 diabetes).

Types of Diabetes Screening Tests That Are Available

- **Glycated hemoglobin (A1C) test.** A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.

- **Random (non-fasting) blood sugar test.** A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes. This test must be confirmed with a fasting blood glucose test.

- **Fasting blood sugar test.** A blood sample is taken after an overnight fast. A fasting blood sugar level less than 100 mg/dL is normal. A level of 100 to 125 mg/dL is considered pre-diabetes. A level of 126 mg/dL or higher on two separate tests indicates diabetes.

- **Oral glucose tolerance test.** A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

Immunizations

Immunizations: EC 49403, 48216; HSC 120325, 120335, 120365, 120370, 120375

Students must be immunized against certain communicable diseases before they can attend school unless they provide a valid exemption. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The school may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

Beginning January 1, 2016, parents of students in any school, will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from MPS when that child has been exposed to a specified disease and whose documentary proof of

immunization status does not show proof of immunization against one of the communicable diseases described above.

State law requires the following immunizations before a child may attend MPS:

(a) All new students, in transitional kindergarten through grade 12, to MPS must provide documentary proof of receiving the legally required number of doses of polio, diphtheria, pertussis, tetanus, measles, and mumps, rubella, hepatitis B and varicella immunizations.

(b) All transitional kindergarten and kindergarten students must also provide proof of vaccination against hepatitis B.

(c) All seventh-grade students must also provide proof of a second measles-containing vaccine, and a pertussis booster vaccine.

Please contact the school office for information on availability of free- or low-cost immunizations in your neighborhood.

Information about a medical exemption or personal beliefs exemption from immunizations for your student is available at CAIR ME. For more information on medical exemptions, please visit the following website: https://cair.cdph.ca.gov/exemptions/home.

A complete copy of the **"MPS Immunization Policy"** is available for review at the main office.

Administration of Medications

Medication Regimen – EC 49423, 49480

The parent or legal guardian of any pupil taking medication on a regular basis must inform the school nurse or **office manager** of the medication being taken, the current dosage, and the name of the supervising physician. With the written consent of the parent or legal guardian, authorized school personnel may communicate with the physician/health care provider regarding the possible effects of the medication on the pupil.

Any pupil who is required to take, during the regular school day, medication prescribed by a physician may be assisted by designated school personnel if MPS receives both a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken requesting school personnel to assist the pupil with prescribed medication as set forth in the physician statement. Students may carry and self-administer auto-injectable epinephrine or inhaled asthma medication if the school district receives both a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken and confirming that the pupil is able to self-administer auto-injectable epinephrine or inhaled asthma medicine and a written statement from the parent or guardian consenting to the student self- administration, containing a release for the school nurse or other

51

designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing MPS and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication. A pupil may be subject to disciplinary action if that pupil uses auto-injectable epinephrine or inhaled asthma medicine in a manner other than as prescribed. All requests are to be approved by designated school personnel prior to use.

- A **"Request for Medication to be Taken During School Hours"** must accompany all medication, containing instructions for administration, including exact times and dosages. The "Request for Medication to be Taken During School Hours" will be filed in the student's folder. This form can be obtained from the school office. This form shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for the administration changes. For a copy of this form, please contact the school office.

- All medications are to be delivered to the school office in their original containers, with the name of the student, medication, dosage, and frequency of administration clearly marked. Extra medication should be picked up by the parent/guardian at the completion of the medication regimen or end of the school year, whichever is earlier. The school is not liable for any medication not picked up after the end of the school year.

- MPS staff shall keep records of medication administered at MPS.

- Medication will be kept in a secure and appropriate storage location at each MPS school and administered per physician's instructions by appropriately designated staff.

- Administration will consult with the parent/guardian and student's medical professionals to establish a written plan for Students with chronic health issues or conditions that require specific medication regimens or health plans, such as diabetes, asthma, etc.

- Any pupil requiring insulin shots must establish a plan for administration of insulin shots with the Principal in consultation with the parent or guardian and the pupil's medical professional.

A complete copy of the **"MPS Administration of Medications Policy"** is available for review at the main office and on the school website.

Oral Health Assessment – EC 49452.8

Oral Health Assessment – EC 49452.8

Record of a dental assessment done by a dental professional is required for all kindergarteners and first graders attending public school for the first time. Dental assessments must be completed in the 12 months prior to entry or by May 31st of the pupil's first school year. Please contact the school office if you have questions about this requirement.

Physical Examination and Right to Refuse

Physical Examination – EC 49451; 20 USC 1232h

MPS shall comply with all federal and state legal requirements, including but not limited to the requirements of SB 277 (2015), related to student immunization, health examination, and health screening, including but not limited to screening for vision, hearing, and scoliosis, to the same extent as would be required if the students were attending a non-charter public school. MPS shall maintain student immunization, health examination, and health screening records on file.

A parent or guardian may file annually with the school principal a written statement, signed by the parent or legal guardian, withholding consent to a physical examination of the pupil. However, whenever there is good reason to believe that the pupil is suffering from a recognized contagious or infectious disease, the pupil shall be sent home and shall not be permitted to return until school authorities are satisfied that the contagious or infectious disease no longer exists.

Student Wellness

Free School Meals

Free School Meals – EC 49501.5

MPS shall provide two school meals free of charge during each schoolday to any pupil who requests a meal without consideration of the pupil's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. The meals provided under this paragraph shall be nutritiously adequate meals that qualify for federal reimbursement.

Sexual Health Education

California Healthy Youth Act – EC 51930-51939

MPS offers comprehensive sexual health education to its students in grades 7-12. MPS provides pupils with integrated, comprehensive, accurate, and unbiased sexual health and HIV prevention education at least once in middle school and once in high school. It is intended to ensure that pupils in grades 7-12 are provided with the knowledge and skills necessary to: 1) protect their sexual and reproductive health from HIV, other sexually transmitted infections, and unintended pregnancy; 2) develop healthy attitudes concerning adolescent growth

and development, body image, gender, sexual orientation, relationships, marriage, and family; and 3) have healthy, positive, and safe relationships and behaviors. It also promotes understanding of sexuality as a normal part of human development.

Parents or legal guardians have the right to:

1. Inspect the written and audiovisual educational materials used in the comprehensive sexual health and HIV prevention education.

2. Request in writing that their child not receive comprehensive sexual health or HIV prevention education.

3. Request a copy of Education Codes 51930 through 51939, the California Healthy Youth Act.

4. Be informed whether the comprehensive sexual health or HIV prevention education will be taught by MPS personnel or outside consultants.

5. Receive notice by mail or another commonly used method of notification no fewer than 14 days before the instruction is delivered if arrangements for the instruction are made after the beginning of the school year.

6. When MPS chooses to use outside consultants or to hold an assembly with guest speakers to teach comprehensive sexual health or HIV prevention education, be informed of: a) The date of the instruction, and b) The name of the organization or affiliation of each guest speaker.

MPS may administer to pupils in grades 7 through 12 anonymous, voluntary, and confidential research and evaluation tools to measure pupils' health behavior and risks, including tests, questionnaires, and surveys, containing age-appropriate questions about their attitudes or practices relating to sex. Parents or legal guardians will be notified in writing about the administration of, the right to review, and the right to excuse their child from any test, questionnaire, or survey.

A student may not attend any class in comprehensive sexual health education or HIV prevention education, or participate in any anonymous, voluntary, and confidential test, questionnaire, or survey on student health behaviors and risks, if MPS has received a written request from the student's parent or guardian excusing the student from participation. An alternative educational activity shall be made available to students whose parents or guardians have requested that they not receive the instruction or participate in the test, questionnaire, or survey.

Mental Health Services

Mental Health - EC 49428

In order to initiate access to available pupil mental health services, you may contact the Principal or designee. Our school will notify parents at least twice per year. This is one time through our Student/Parent Handbook Annual Notifications. We will also notify you again a second

time each school year by the following means: ParentSquare message, newsletter, etc.

The following resources are available to your child:

Available on Campus:

- School-based counseling services – your child is encouraged to directly contact a Charter School counselor by coming into the counseling office during school hours and making an appointment to speak with a counselor. Our Charter School counselors support students by providing individual sessions, group or parent consultations whenever a student is having a difficult time due to academic stress, transition to changes in their environment, or social concerns, including isolation. Counseling services, whether provided by our Charter School or by an outside provider listed in this letter, are voluntary.

- Special education services – if you believe your child may have a disability, you are encouraged to directly contact the Principal or designee to request an evaluation.

- Prescription medication while on campus – if your child requires prescription medication during school hours and you would like assistance from School staff in providing this mediation to your child, please contact the school office.

Available in the Community:

- Will be communicated by each MPS school.

Available Nationally:

- National Suicide Prevention Hotline - This organization provides confidential support for adults and youth in distress, including prevention and crisis resources. Available 24 hours at 1-800-273-8255.

- The Trevor Project - This organization provides suicide prevention and crisis intervention for LGBTQ youth between the ages of 13 and 24. **Available at 1-866-488-7386 or visit** https://www.thetrevorproject.org/**.**

- Big Brothers/Big Sisters of America – This organization is a community- based mentorship program. Community-specific program information can be found online at https://www.bbbs.org or by calling (813) 720-8778.

Suicide Prevention Policy

Suicide Prevention Policies – EC 215

> Student suicide rates are of concern to all members of the school community. One child, ages 12 and older, dies by suicide every five days in California. Local Districts were required by California law to provide suicide prevention education, according to age-appropriate and sensitive local policies, for grades 7 to 12. Legislators have determined that training in mental health and coordination around improved services is extended to our elementary students. A shared goal by all staff educators is to keep a safe place to learn, free from harm to any of our students.

MPS recognizes that suicide is a major cause of death among youth and should be taken seriously. To attempt to reduce suicidal behavior and its impact on students and families, MPS has developed prevention strategies and intervention procedures.

"MPS Suicide Prevention Policy" is posted on the school website. You may also obtain a copy at the school office.

Sunscreen and Sun-protective Clothing

Sunscreen and Sun-protective Clothing – EC 35183.5
Pupils may wear sun-protective clothing while outdoors and may use sunscreen during the school day without a physician's note or prescription.

Wellness Policy

MPS is committed to the optimal development of every student. MPS believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables, and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education, and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

The School Wellness Policy outlines MPS' approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions.

You may obtain a copy of the **"MPS School Wellness Policy"** at the school office or on the school's website.

SAFETY & SECURITY

Technology Use

Acceptable Use of Technology

New technologies are modifying the way in which information may be accessed, communicated and transferred. Those changes also alter instruction and student learning. Magnolia Public Schools ("Charter School") offers students access to technologies that may include Internet access, electronic mail, and equipment, such as computers, tablets, or other multimedia hardware. The Charter School Governing Board intends that technological resources provided by the school be used in a safe, responsible, and proper manner in support of the instructional program and for the advancement of student learning.

Educational Purpose

Use of Charter School equipment and access to the Internet via Charter School equipment and resource networks is intended to serve and pursue educational goals and purposes. Student use of the Internet is therefore limited to only those activities that further or enhance the delivery of education. Students and staff have a duty to use Charter School resources only in a manner specified in the Policy.

"Educational purpose" means classroom activities, research in academic subjects, career or professional development activities, Charter School approved personal research activities, or other purposes as defined by the Charter School from time to time.

"Inappropriate use" means a use that is inconsistent with an educational purpose or that is in clear violation of this policy and the Acceptable Use Agreement.

Notice and Use

The Charter School shall notify students and parents/guardians about authorized uses of school computers, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities.

Before a student is authorized to use the Charter School's technological resources, the student and the student's parent/guardian shall sign and return the Acceptable Use Agreement specifying user obligations and responsibilities. In that agreement, the student and the student's parent/guardian shall agree not to hold the Charter School or any Charter School staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes or negligence. They shall also agree to indemnify and hold harmless the Charter School and Charter School personnel for any damages or costs incurred.

Safety

The Charter School shall ensure that all Charter School computers with Internet access have a technology protection measure that blocks or filters Internet access to websites that have no educational purpose and/or contain visual depictions that are obscene, constitute child pornography, or that are harmful to minors. While the Charter School is able exercise

reasonable control over content created and purchased by the Charter School, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither the Charter School nor its staff shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence.

To reinforce these measures, the Principal or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities. Staff shall monitor students while they are using MPS computers, laptops, or tablets to access the internet or online services on an MPS campus and may have teacher aides, student aides, and volunteers assist in this monitoring. Parents/guardians are required to supervise and monitor their child's use of MPS equipment including but not limited to their child's access to the internet and any online services through such equipment any and all times during which any Charter School equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy.

The Principal or designee also shall establish regulations to address the safety and security of students and student information when using email, chat rooms, and other forms of direct electronic communication.

The Principal or designees shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. Such instruction shall include, but not be limited to, maintaining the student's online reputation and ensuring their personal safety by keeping their personal information private, the dangers of posting personal information online, misrepresentation by online predators, how to report inappropriate or offensive content or threats, behaviors that constitute cyberbullying, and how to respond when subjected to cyberbullying. Students are expected to follow safe practices when using Charter School technology.

MPS advises students:

- To never share passwords, personal data, or private photos online.

- To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.

- That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.

- To consider how it would feel receiving such comments before making comments about others online.

Students shall not use the Internet to perform any illegal act or to help others perform illegal acts. Illegal acts include, but are not limited to, any activities in violation of local, state,

55

and federal law and/or accessing information designed to further criminal or dangerous activities. Such information includes, but is not limited to, information that if acted upon could cause damage, present a danger, or cause disruption to the Charter School, other students, or the community. Damaging, debilitating or disabling computers, computer networks or systems through the intentional or overuse of electronic distribution or the spreading of computer viruses or other harmful programs shall be prohibited. Any unauthorized online access to other computers by means of hacking into other computers, downloading hacker tools such as port scanners and password crackers designed to evade restrictions shall also be strictly prohibited.

Student use of Charter School computers to access social networking sites is not prohibited, but access is limited to educational purposes only. To the extent possible, the Principal or designee shall block access to such sites on Charter School computers with Internet access. The Principal or designee shall oversee the maintenance of the Charter School's technological resources and may establish guidelines and limits on their use.

All employees shall receive a copy of this policy and the accompanying Acceptable Use Agreement describing expectations for appropriate use of the system and shall also be provided with information about the role of staff in supervising student use of technological resources. All employees shall comply with this policy and the Acceptable Use Agreement, in addition to any separate policies governing employee use of technology.

Student use of school computers, networks, and Internet services is a privilege, not a right. Compliance with the Charter School's policies and rules concerning computer use is mandatory. Students who violate these policies and rules may have their computer privileges limited and may be subject to discipline, including but not limited to suspension or expulsion per school policy.

Acceptable Use Agreement

The Charter School believes that providing access to technology enhances the educational experience for students. However, student use of Charter School computers, networks, and Internet services is a privilege, not a right. To make that experience successful for everyone, students must abide by the following terms and conditions:

1. **Security.** Students shall not impair the security of Charter School technology resources. Students are expected to:

   a. Safeguard all personal passwords. Students should not share passwords with others and should change passwords frequently. Students are expected to notify an administrator immediately if they believe their student account has been compromised.

   b. Access technology only with their account or with a shared account as directed by their teacher and not to allow others to use their account or to use the accounts of others, with or without the account owner's authorization.

2. **Authorized Use.** Students may use Charter School technology resources when directed by a teacher, when technology has been designated for open student use (e.g., computers in the library), and for other educational purposes.

3. **Protection Measures.** While the Charter School is able exercise reasonable control over content created and purchased by the Charter School, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither the Charter School nor its staff, employees, officers, directors or volunteers shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence. The student and parent/guardian agree not to hold the Charter School or any Charter School staff, employees, officers, directors or volunteers responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence. They also agree to indemnify and hold harmless the Charter School, Charter School staff, employees, officers, directors and volunteers for any damages or costs incurred. Parents/guardians are required to supervise and monitor their child's use of MPS equipment including but not limited to their child's access to the internet and any online services through such equipment any and all times during which any MPS equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy.

4. **Inappropriate Use.** Charter School technology, hardware, software and bandwidth are shared and limited resources and all users have an obligation to use those resources responsibly. Students are provided access to the Charter School technology primarily for educational purposes. Students shall not use Charter School technology or equipment for personal activities or for activities that violate Charter School policy or local law. These include but are not limited to:

   a. Playing games or online gaming.

   b. Downloading software, music, movies or other content in violation of licensing requirements, copyright or other intellectual property rights.

   c. Installing software on Charter School equipment without the permission of a teacher or other authorized Charter School staff person.

   d. Downloading, viewing or sharing inappropriate content, including pornographic, defamatory or otherwise offensive material.

   e. Conducting any activity that is in violation of Charter School policy, the student code of conduct or local, state or federal law.

   f. Engaging in any activity that is harmful to other student(s), including the use of

technology to harass, intimidate, bully or otherwise disrupt the educational process.

g. Conducting for-profit business.

h. Using hacking tools on the network or intentionally introducing malicious code or viruses into the Charter School's network.

i. Using any software or proxy service to obscure either the student's IP address or the sites that the student visits.

j. Disabling, bypassing, or attempting to disable or bypass any system monitoring, filtering or other security measures.

k. Accessing or attempting to access material or systems on the network that the student is not authorized to access.

5. **No Expectation of Privacy.** Student acknowledges that computer equipment, Internet access networks, email accounts, and any other technology resources are owned by Charter School and provided to students for educational purposes. The Charter School may require staff to monitor and supervise all access to computer equipment, Internet access networks, and email accounts. To facilitate monitoring of activities, computer screens may be positioned so that they are visible to the staff member supervising the students. The Charter School reserves the right to access stored computer records and communications, files, and other data stored on Charter School equipment or sent over Charter School networks. Such communications, files, and data are not private and may be accessed during routine system maintenance; during inspection of Charter School equipment at the end of the school year/term or agree to use period; and review of individual files or monitoring of individual activity when there is a reasonable suspicion that the student is engaging in an inappropriate use.

6. **Disruptive Activity.** Students should not intentionally interfere with the performance of the Charter School's network or intentionally damage any Charter School technology resources.

7. **Unauthorized Networks.** Students may not create unauthorized wireless networks to access the Charter School's network. This includes establishing wireless access points, wireless routers and open networks on personal devices.

8. **Consequences of Inappropriate Use.** Students who violate this Agreement will be subject to discipline which may include loss of access to Charter School technology resources and/or other appropriate disciplinary or legal action in accordance with the MPS student discipline policy and applicable laws.

9. **Technology Systems/Equipment Care.** Students are not permitted to have food or drink near computers/other technology and must keep equipment and assigned areas free of vandalism.

MPS promotes the use of networked computer technology in its instructional program in order to facilitate learning and teaching. Towards this end, students may be provided with a "device" (computer, laptop / iPad / Chromebook, etc.) for educational activities at school and home. MPS will make every effort to ensure that the MPS technology services are used responsibly by students. Students are expected to act in a responsible, ethical and legal manner in accordance with this Agreement, accepted rules of network etiquette, and Federal and State law. Following are some safekeeping instructions for MPS-provided devices. As applicable, students shall:

- Bring their MPS device to school every day, fully charged;

- Never leave the MPS device unattended;

- Never loan the MPS device to other individuals;

- Know where the MPS device is at all times;

- Store the MPS device in the bag/case if provided by MPS; otherwise students are encouraged to purchase protective covers/cases for their devices;

- Store and use the device in a safe location and environment to avoid loss or damage to the device;

- Not remove the Asset Tag or other school property identifiers;

- Charge the MPS device's battery daily;

- Keep food and beverages away from the MPS device;

- Only use a soft cloth or approved screen cleaning solution to clean the screen of the device;

- Not disassemble any part of the MPS device or attempt any repairs;

- Not place decorations (such as stickers, markers, etc.) on the MPS device;

- Understand that the MPS device is subject to inspection at any time without notice and remains the property of MPS;

- Notify MPS by the next school day in the event of loss or damage to the device;

- File a police report in case of theft, vandalism, and other acts covered by MPS' insurance;

- Return the device to MPS when requested by the Technology Department for maintenance and upgrades;

- Return the MPS device and accessories upon demand, upon termination of enrollment and/or at the expiration of the school year in good working condition;

- Be aware that they may be held accountable for damage to a laptop resulting from "user abuse." Examples of "user abuse" include, but are not limited to, the following: leaving cables plugged

57

in when storing the device in the carrying case which can cause broken connectors or ports; using the carrying case/sleeve for carrying textbooks, etc.; eating or drinking while using the device, resulting in damage to the device; storing the device for prolonged periods while in "stand by" or "sleep" mode (overheating can occur).

Disclaimer

Electronic information available to students does not imply endorsement of the content by MPS, nor can MPS guarantee the accuracy of information obtained on the Internet.

MPS makes no warranties of any kind, whether expressed or implied, with respect to the information technology services it provides. MPS will not be responsible for damages resulting from the use of MPS device and MPS information technology services, including, but not limited to, loss of data resulting from delays, non-deliveries, missed deliveries, service interruptions.

MPS shall not be responsible for any charges or fees resulting from access to the internet or internet resources which are not authorized in writing by MPS.

Signatures

After reading the **"Acceptable Use of Technology"** policy and this Acceptable Use Agreement, please note that your signature on the form at the end of this Handbook indicates that you agree to the terms and conditions provided here. Please note, the signature of both the parent/guardian and student are mandatory before access may be granted to the technologies available at MPS. This document, which incorporates the Technology Policy and Acceptable Use Agreement, reflects the entire agreement and understanding of all parties. MPS encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

Camera Surveillance on School Property

Camera Surveillance on School Property – PC 647(j)

Surveillance cameras will generally be utilized only in public areas where there is no "reasonable expectation of privacy." Public areas may include school buses; building entrances; hallways; parking lots; front offices where students, employees, and parents come and go; gymnasiums during public activities; cafeterias; and supply rooms. However, it is not possible for surveillance cameras to cover all public areas of School buildings or all School activities. School surveillance cameras will not be installed in "private" areas such as restrooms, locker rooms, changing areas, private offices (unless consent by the office owner is given), or classrooms.

Use of Security Cameras at MPS

The Board of Directors ("Board") of Magnolia Public Schools ("MPS" or the "School") recognizes the value in protecting the health, safety, and welfare of students and staff, and in protecting the community's investment in School owned or leased property and facilities. Upon

carefully weighing the privacy rights of students and staff against MPS' duty to provide a safe, secure, and orderly learning and work environment, the Board has resolved to authorize the limited use of security cameras at MPS schools, in school buildings, and upon school grounds pursuant to the following restrictions:

Security Monitoring System

1. "Security Monitoring System" refers to the School's network of security cameras, equipment, and recorded footage.

2. Security cameras may be installed in any public area within a School building and/or upon School grounds where people have no reasonable expectation of privacy including, but not limited to, in classrooms, hallways, cafeterias, libraries, computer labs, parking lots, auditoriums, break rooms, weight rooms, and gymnasiums.

3. Security cameras may not be installed in any area in which individuals possess a reasonable expectation of privacy, such as in restrooms, locker rooms, or private offices.

4. The precise location of security cameras shall be determined by MPS or by the School-site principal with the approval of the Chief Executive Officer ("CEO"). Input from staff members may be sought to determine the most beneficial locations for security cameras. A diagram showing the wiring of the local server for the security monitoring system at the school site shall be shared with the Board prior to the installation of the security monitoring system.

5. Under no circumstances shall MPS' security cameras record, or be equipped to record, audio data. Further, MPS' security cameras are not intended, and shall not be used, for viewing of live footage. Instead, security camera footage shall be recorded to a digital file. Authorized personnel may view security camera footage by accessing the pre-recorded footage saved to a digital file.

6. Security camera footage may be used as evidence in a staff or student disciplinary matter and/or to provide evidence of any unlawful activity in and around School grounds.

7. Absent a reported incident, security camera footage will be erased after thirty (30) days.

8. Under no circumstances will employees make unauthorized copies or duplicates of security camera footage.

9. Any violation of this policy may result in student discipline in accordance with the Student/Parent Handbook, or employee discipline, up to and including termination, in accordance with the Employee Handbook.

10. MPS shall notify educational partners of the use of security cameras on campus in accordance with

the law and the requirements outlined in this policy.

Treatment of Recordings

Authorized Personnel

"Security Monitoring System" refers to the School's network of security cameras, equipment, and recorded footage.

Only authorized MPS employees may access or operate the security camera system. The footage will only be reviewed by authorized employees if a safety or security incident or suspected incident or situation arises and a review of the footage is appropriate. Absent a qualifying safety or security related incident or suspected incident, the security camera footage shall not be reviewed, unless express permission to review the footage is given by the CEO or the Board President. In cases of a malfunction to the security monitoring system, the footage may be accessed to determine functionality.

Security camera footage may only be viewed in the presence of two (2) authorized persons, which shall include the Principal of the School-site and a second person authorized by the CEO. Alternately, the two (2) authorized persons may be configured as the Board President and a second person authorized by the Board President. Both authorized persons must be physically present with two (2) different unique access keys to access the footage.

Any other parties wishing to view the security camera footage shall first obtain the written consent of the CEO, and must meet the requirements of this policy, unless otherwise required by the law, or a court of competent jurisdiction.

Data Storage

Security camera footage shall be stored in a secure location and shall only be accessed by authorized personnel. Security camera footage shall be password protected/encrypted under the direction and support of the MPS IT Director. Additionally, such footage will be stored on a local wired server which will not be connected to an outside server.

Footage of incidents captured by security cameras located on school property may constitute a part of a student's educational record, subject to relevant Board policies and administrative regulations, including applicable record retention policies. Upon the report of an incident or possible incident, only those persons with a legitimate educational purpose shall be permitted to view the recordings, and these requests must be made in writing and approved by the CEO prior to the footage being viewed by such parties. In most instances, the persons with a legitimate purpose will be the CEO, School-site principal, authorized administrative staff, and authorized MPS area education agency staff members.

Record Keeping

The Principal shall keep a written log of all persons who review the security camera footage at their School-site, including the date and time stamps of the footage under review, the name of the individuals viewing the footage, the date and time the footage was viewed, and the purpose for which the footage was viewed. If the content of the recording

becomes the subject of a student or employee disciplinary proceeding, it may be treated like other evidence in that proceeding.

Security camera footage will be stored for thirty (30) days, unless the Principal, CEO, Board President, or other state or federal agency requests that specific footage be preserved for a longer period, in which case the applicable footage will be saved and protected with the same degree of security that other security camera footage is protected. No unauthorized copies of footage or duplicates may be made.

Parents/Guardians may request to view recordings of their children only in the event the recordings are used in disciplinary proceedings involving their children, and such requests must be made in writing by the Parent/Guardian pursuant to the School's Family Educational Rights and Privacy Act ("FERPA") Policy. Any such request shall be processed pursuant to the School's FERPA Policy and in accordance with any other applicable law. If a Parent/Guardian's request is granted, the faces of other students shown in the recording, who are not children of the requesting parent, will be removed and/or blurred out in order to protect their identities.

In the event footage is used in an employee disciplinary matter, the employee may be given access to the relevant footage at or before the time of discipline. This does not create a right of employees to access or review any other security camera footage.

Under no circumstances will the MPS' security camera footage be duplicated and removed from MPS property except in accordance with this policy, a court order, and/or a valid subpoena.

Notification

MPS shall post security camera signage at all campus and facility entrances disclosing the use of security camera equipment on the premises. Additionally, MPS Home Office shall provide the following annual written notice to students and parents at the affected school-sites:

> Dear Students and Parents:
>
> This letter from Magnolia Public Schools ("MPS") is to inform you of the decision by the MPS Board of Directors to authorize the use of security cameras in public areas of your campus, including in and around School buildings and on School property, including inside School classrooms. The purpose of this program is to promote and maintain a safe, secure, and healthy environment for all students and staff. Private areas of campus, such as restrooms and locker rooms, will not be subject to security camera recording. Additionally, MPS will post signage indicating the areas of campus where security cameras are in use.
>
> This notice hereby notifies students and parents that the video recordings will only be retained if necessary for use in a student disciplinary proceeding or other matters, to the extent permitted by law and as determined necessary by

59

the MPS administration. Further, this notice hereby notifies Students and parents that the content of video recordings may be used in a student's disciplinary proceeding and may be referred to local law enforcement, as appropriate. The content of the video recordings may be a confidential student record and, if so, will be retained with other student records and will be subject to the Family Educational Rights and Privacy Act ("FERPA") requirements.

Parents/Guardians may request to view recordings of their children only in the event the recordings are used in disciplinary proceedings involving their children, and such requests must be made in writing by the Parent/Guardian pursuant to the School's FERPA Policy. Any such request shall be processed pursuant to the School's FERPA Policy and in accordance with any other applicable law. If a Parent/Guardian's request is granted, the faces of other students shown in the recording, who are not children of the requesting parent, will be removed and/or blurred out in order to protect their identities.

Security cameras will not be used to record audio, and footage will be kept private and destroyed after thirty (30) days, unless the preservation of the footage is otherwise needed as discussed above.

Tampering

Students and employees are prohibited from tampering with the MPS' security cameras, systems, and/or footage. "Tampering" includes any unauthorized use, access, or physical damage to the system caused by the student or employee. Students found in violation of this policy will be disciplined in accordance with MPS policies. Any employee found to have tampered with MPS security monitoring system may be disciplined, up to and including termination, and they may also be liable for any damage to the system.

Electronic Listening or Recording Device

Electronic Listening or Recording Device – EC 51512

The use by any person, including a pupil, of any electronic listening or recording device in any classroom without the prior consent of the teacher and the principal is prohibited as it disrupts and impairs the teaching process and discipline in the schools. Any person, other than the pupil, willfully in violation shall be guilty of a misdemeanor. Any pupil in violation shall be subject to appropriate disciplinary action.

Electronic Signaling Devices

Electronic Signaling Devices – EC 48901.5

The use by any person, including a pupil, of any electronic signaling device in any classroom without the prior consent of the teacher and the principal is prohibited as it disrupts and impairs the teaching process and

---

discipline in the schools. The only allowable use would be acceptable if it is determined by a licensed physician that the pupil must use for the health and safety of a pupil. Any pupil in violation shall be subject to appropriate disciplinary action.

Smartphone use may be prohibited by MPS while a student is at a school site and under supervision and control of staff. There are health and special education limits or usage that may differ from the general student population but must be in writing and kept on file in student records for confidential record keeping and reasons.

EC 48901.7

(a) The governing body of a school district, a county office of education, or a charter school may adopt a policy to limit or prohibit the use by its pupils of smartphones while the pupils are at a school site or while the pupils are under the supervision and control of an employee or employees of that school district, county office of education, or charter school.

(b) Notwithstanding subdivision (a), a pupil shall not be prohibited from possessing or using a smartphone under any of the following circumstances:

   (1) In the case of an emergency, or in response to a perceived threat of danger.

   (2) When a teacher or administrator of the school district, county office of education, or charter school grants permission to a pupil to possess or use a smartphone, subject to any reasonable limitation imposed by that teacher or administrator.

   (3) When a licensed physician and surgeon determines that the possession or use of a smartphone is necessary for the health or well-being of the pupil.

   (4) When the possession or use of a smartphone is required in a pupil's individualized education program.

Electronic Devices and Phone Use

MPS policy regarding possession of cellular phones, any personal electronic devices, IPods, MP3 players, cameras, video cameras, laptops, and recording devices is as follows:

- From the moment a student arrives on campus to the time that the student leaves the campus, the power of the electronic device must be turned off and all devices are to be out of sight, secure with the student's belongings in a backpack or purse. The duration of the non-permitted use includes before school on school grounds, instructional time, passing periods, lunch time, and tutoring. At no time, shall the educational program or school activity be interrupted.
- Students are allowed to use cellular phones only in the designated area after school. Phones should

not be used during after school programs, such as tutoring.

- Students should not use or have cellular phones turned on during school hours unless a teacher or administrator of the school grants permission.

- Remember that any personal electronic devices seen during class time will be confiscated and returned to the student's parents/guardians accompanied by the student at the end of the school day.

- The school is not liable if such devices are damaged, lost or stolen. The use of these devices or their ringing/vibrating during school time will be considered a disruption of school activities and subject to disciplinary action which will include confiscation and discipline entry.

- All confiscated devices will be returned to the parent/guardian accompanied by the student at the end of the school day.

- Remember that no personal electronic devices may be visible or used on the campus grounds. CD players, IPOD, MP3 players, phones, PDA, PSP, laptops, smart watches, electronic games, and/or similar devices are not allowed to be used at school. They disrupt classes and distract others from learning. If you choose to bring them for use outside of school, it is at your own discretion. MPS assumes no liability for any damaged, destroyed, lost, stolen, misplaced or otherwise compromised electronic device brought onto MPS property.

Contacting Your Child During School Hours

- Parents/Guardians should not contact their child's cellular phone during school hours absent emergency; students are required to turn off all electronic devices, including cellular phones, and put them away and out of sight.

- Parents/Guardians should only contact the school office if they must leave a message for their child in case of an emergency. Students will not be disrupted during school hours for non-emergency reasons. In case of an emergency, the message will be given to the student by office staff. In case of emergency, students may go to the office with a hall pass from a teacher. Please note: The office phone is for emergency calls only.

A complete copy of the **"Electronic Devices/Cell Phone Use Policy"** is available for review in the school office or on the school website.

Internet Safety

2021-22 Internet Safety Policy for Students

MPS prides itself on providing a safe learning environment for its students. An emerging national concern is the inappropriate use of the Internet by students. This problem has the potential to be harmful, and we ask your support in assisting us with this challenge.

Across the nation, schools have seen an increase in negative student behavior as a result of messages written using electronic technology, posted to popular social networking Web sites. Many sites contain instant messaging components that allow students to chat with other students and to post statements that ordinarily would not be said in a face-to-face conversation.

The popularity of these Web sites seems to be growing. FaceBook.com, for example, is said to have millions of members and has become one of the most popular "message exchange" sites among students nationwide.

Unfortunately, some of these Web sites are being used by child predators, "cyber bullies," and con artists. To our knowledge, there are no adults officially responsible for monitoring the content on such Web sites, and some students use the sites to participate in online bullying or to threaten harm to other students. The so-called "cyber bullies," mostly children between the ages of 9 and 14, use the anonymity of the Web to hurt others without witnessing the consequences. Students who are bullied online sometimes do not report these occurrences for fear that they will be barred from using the Internet.

Outside of our schools, there have been instances of adults posing as youths and gaining access to student chat rooms. In some cases, these contacts have led to tragedy. Some unsuspecting students post enough personal information that predators are able to locate students' home or school addresses, thereby becoming easy targets for predators.

MPS has blocked the use of these social networking Web sites from our school computers. We will continue to block objectionable material as we deem appropriate.

Parents should be aware of what their children are writing on the Internet and what others are posting in reply. These Web sites are public domain, and anything posted there can be seen by anyone who has Internet access. Although most of what is written is not immoral, offensive, or illegal, some of it is. If you choose to do so, you may investigate this site by personally logging on to the site. The services are free, and users may register using an e-mail address. Once you have registered, you can search by name and e-mail address to see if your child is registered. You can narrow the search results by entering the name of your city. You will be able to view the kinds of personal information, messages, diaries, and photographs that students post to this Web site.

Helpful Tips and Resources

We encourage you to talk with your son or daughter about the potential danger of the Internet. Ask if they have an account with Facebook, Instagram, Snapchat, or similar Web sites. If your child is using such a site with your permission, you may want to review his or her profile to ensure that no personal and identifiable information has been posted.

We also encourage you to establish rules and guidelines to ensure the safety of your child while on the Internet. Some Web sites offer parental or family guidance for

61

Internet safety; for example, SafeKids.com, located online at http://www.safekids.com, and Web Wise Kids, located online at http://www.webwisekids.org, by telephone at 866-WEB-WISE, or by e-mail at webwisekids2@aol.com.

MPS will continue to provide Internet security within our schools. It is important that parents also monitor Internet use at home.

Thank you for your support and cooperation in keeping our students safe. If you have questions or would like more information, please feel free to contact the school office.

A complete copy of the "**Internet Safety Policy**" is available for review in the front office and on the school website.

StudentSquare

StudentSquare is a communication and organization tool MPS uses to keep students informed and involved in their classes and extracurricular activities. It provides all school, classroom, and group communication in one place; notifications via app, text, and/or email; and the ability to send direct messages to teachers or staff. StudentSquare is a student communication companion to ParentSquare. Each middle school and high school student automatically have an account in StudentSquare based on their school email address. Students receive messages via email, but there are other ways to get StudentSquare messages: students can add their cell phone number to receive text messages, or they can download the StudentSquare app (iOS and Android) and receive notifications.

Students are provided access to StudentSquare primarily for educational purposes and shall not use it for personal activities or for activities that violate Charter School policy or local law. Students will follow the "Acceptable Use of Technology" policy and the Acceptable Use Agreement. The signature of both the parent/guardian and student are mandatory before access may be granted to the technologies available at MPS. Please note that your signature on the form at the end of this Handbook indicates that you agree to the terms and conditions provided here.

Safety & Emergency Preparedness

Asbestos Management Plan

Asbestos Management Plan – 40 CFR 763.93

MPS maintains and annually updates its management plan for asbestos-containing material in school buildings. For a copy of the asbestos management plan, please contact MPS.

Pesticide Products

Pesticide Products – EC 17612 and 48980.3

To obtain a copy of all pesticide products and expected use at the school facility during the year, and to receive notification of individual pesticide applications at the school at least 72 hours before the application, please contact the school office. The notice will identify the active ingredient(s) in each pesticide product, the intended date of application an Internet address on pesticide use and reduction, and the Internet address where the school site integrated pest management plan may be found if the school site has posted the plan.

A pesticide notification request letter is included at the end of this Handbook and copies are also available in the school office.

Civility on School Grounds

Civility on School Grounds – CC 1708.9; EC 32210

Any person who willfully disturbs any public school or any public school meeting is guilty of a misdemeanor, and shall be punished by a fine of not more than five hundred dollars ($500).

It is unlawful for any person, except a parent/guardian acting toward his/her minor child, to intentionally or to attempt to injure, intimidate, interfere by force, threat of force, physical obstruction, or nonviolent physical obstruction with any person attempting to enter or exit any public or private school grounds.

Disaster Preparedness Educational Materials

Disaster Preparedness Educational Materials – EC 32282.5

Natural and human-caused disasters affect everyone which is why it is important to be prepared at home, at school, at work, and in the community. Parents and guardians are encouraged to review the safety educational materials provided on the California Department of Education Web page at: http://www.cde.ca.gov/ls/ss/cp/pupilsafetyeducmat.asp.

The materials are available in multiple languages and can be used to help families prepare for different types of emergencies and crisis.

Gun-Free School Zone Act

Gun-Free School Zone Act – PC 626.9, 30310

California prohibits any person from possessing a firearm on, or within 1,000 feet from, the grounds of a public or private school, unless it is with the written permission of the principal. This does not apply to law enforcement officers, any active or honorably retired peace officers, members of the military forces of California or the United States, or armored vehicle guards engaged in the performance of, or acting in the scope of, their duties. A

person may also be in possession of a firearm on school grounds if the firearm is unloaded and in a locked container or within the locked trunk of a motor vehicle. A violation of this law is punishable by imprisonment in a county jail for up to six months, a fine of up to $1,000, or both imprisonment and fine.

Off-Campus Lunch Policy

Off-campus Lunch – EC 44808.5

MPS permits the high school students enrolled at MPS to leave the school grounds during the lunch period.

Neither MPS nor any officer or employee thereof shall be liable for the conduct nor the safety of any pupil during such time as the pupil has left the school grounds during the lunch period.

If a student reaches a total number of ten (10) unexcused absences or unexcused tardies over thirty (30) minutes within a school year or if a student has three (3) unexcused absences or unexcused tardies after leaving the school grounds for lunch and before reporting back to school, this privilege will be taken away from the student for the remainder of the school year.

Each individual MPS school may include site-specific amendments into the off-campus policy addressing local issues. This includes removing the off-campus lunch permission or limiting it to specific grade levels as well as implementing additional eligibility criteria as long as the principle of equity is observed.

School Safety Plan

School Safety Plan – EC 32280 et seq.

Each MPS school site has a Comprehensive School Safety Plan, which includes a disaster preparedness plan and emergency procedures.

A copy of the complete Safety Plan can be located at the school office and on the school website.

Emergency Preparedness

MPS works diligently to make sure that students and staff are prepared for emergencies. The school has an emergency plan that provides guidance for the school staff in an emergency. The school conducts regular emergency drills that accommodate persons with disabilities and meet or exceed the state mandated requirements, such as:

- **Fire Drill** – Every elementary and middle school practices this procedure once a month; high schools practice once each semester.

- **Earthquake Exercise** – Once a year, all schools conduct a full-scale earthquake exercise as part of the Great California Shake-Out. The drills are scheduled in the fall and all the elements of the school's disaster plan are practiced.

- **Drop, Cover, and Hold On (Earthquake) Drill** – Every month, schools use this drill to remind students how to protect themselves during an earthquake.

- **Lockdown Drill** – At least once per semester, schools practice how they will respond to a threat of violence on or near the campus.

- **Shelter-in-Place Drill** – At least once per semester, schools practice how they will respond to an environmental hazard on or near the campus.

- **Take Cover Drill** – At least once per semester, students practice how they would respond to gunfire or an explosion in the neighborhood.

Parents are asked to make sure that their students actively participate and take emergency drills seriously. These drills help make public schools the safest place for students during an emergency. Each school also stocks emergency supplies to sustain students and staff. These supplies include water, food, first aid supplies, search and rescue equipment, and sanitation items. These supplies are checked regularly by school staff.

In the event of a disaster, the school may need to care for your child for several days if you are unable to reach the school. It is important to have adequate emergency medical supplies on hand. School sites request that parents bring a 72-hour supply of any prescription medications for their child to the school health office. Medications should be in a container with the pharmacy label listing the child's name, the name and dosage of the medication, and instructions for administering the medication.

What Can Parents Do During an Emergency?

Parents should be familiar with the school's emergency procedures and update contact information whenever it changes. Parents should keep their cell phone with them to receive messages on the emergency. Knowing where to go to pick-up your child will save time and reduce anxiety. Parents should remember that schools have emergency procedures in place to protect all students and that schools will follow these procedures during an emergency.

Parents should also remember that children look to them for guidance and support during an emergency; parents who are calm and are prepared for emergencies can inspire children to do the same. This will go a long way to promote recovery and a return to normalcy. If you have questions about the school's emergency procedures, you are encouraged to contact the school office.

Emergency Response

In the event of an emergency, parents should remember that public schools are among the safest buildings in the community. By law, California public schools are built to a higher standard than other public buildings, as required by the Field Act; therefore, schools will generally have less damage from an earthquake than residential or commercial buildings. Schools also have extensive fire/life safety systems that include fire alarms and sprinkler systems that are designed to protect students and staff.

In general, schools will respond to emergencies by moving students to the safest possible location. During fires or earthquakes, students will be moved out of the classrooms to a safe assembly area away from buildings, usually the school field or play yard. During a lockdown or shelter-in-place, students will be moved indoors to use the buildings as protection.

During an emergency, parents who want to pick-up their children may be asked to go to the Request Gate located on the school's perimeter and show identification. This is a specific location that schools will use to release students. Please remember that students will only be released to a person whose name is listed on the student's Emergency Information Form. Parents must make sure that the student's Emergency Information Form is current and correct. Please notify your child's school any time the emergency contact information changes.

During a threat of violence, students will be sheltered in a locked classroom away from anything that can hurt them. During an emergency when the campus must be protected, parents will not be able to pick-up their children until the school campus is declared to be safe by law enforcement. Parents need to understand that the students are being sheltered in a secure location for their safety and will be released only when it is safe.

Schoolbus and Transportation Safety Policy

Schoolbus Safety – EC 39831.5

- All students who are transported in a schoolbus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety. A copy of the complete Policy is available upon request at the main office. Transportation is only provided to eligible students in authorized programs.

- It is recommended that parents and children become familiar with the route to school by walking it together. Obey marked crosswalks, stop signs, traffic signals and other traffic controls.

- Students who have a home pickup and delivery per their Individualized Education Program (IEP) must have a designated responsible adult present to receive them from the bus when returned from school.

- Prior to departure on a school activity trip, all pupils riding on a school bus or school activity bus shall receive safety instruction that includes, but is not limited to, location of emergency exits, and location and use of emergency equipment. Instruction also may include responsibilities of passengers seated next to an emergency exit.

- Students transported in a school bus or in a school pupil activity bus shall be under the authority of, and responsible directly to, the driver of the bus, and the driver shall be held responsible for the orderly conduct of the students while they are on the bus or

being escorted across a street, highway or road. Students who ride school buses are expected to adhere to the same rules of conduct and behavior on the school bus as in school. Any student who engages in misconduct, disrupts school bus travel, disrespects the school bus driver or jeopardizes the safety of school bus rides is subject to disciplinary action, including suspension or expulsion.

A complete copy of the **"MPS Transportation Safety Policy"** is available for review in the main office.

Walking or Riding a Bicycle to School – VC 21212

No person under 18 years of age may operate a bicycle, non-motorized scooter, skateboard or wear in-line or roller skates, nor ride as a passenger upon a bicycle, non-motorized scooter, or skateboard upon a street, bikeway, or any other public bicycle path or trail unless that person is wearing a properly fitted and fastened bicycle helmet that meets specified standards.

Volunteer, Visitation, Shadowing, and Removal Policy

While MPS encourages parents/guardians and interested members of the community to visit MPS and view the educational program, MPS also endeavors to create a safe environment for students and staff. Additionally, parents volunteering in the classroom can be extremely helpful to our teachers and valuable to our students. We thank all parents for their willingness to volunteer in this manner.

Nevertheless, to ensure the safety of students and staff as well as to minimize interruption of the instructional program, MPS has established the following procedures to facilitate volunteering and visitations during regular school days:

Definitions

- A "*visitor*" is defined as any person seeking to enter the school building who is not an employee of the Charter School or a student currently enrolled in that building. All visitors who are not parents or guardians of a student must have a specific and educationally relevant purpose for their visit.

- A "*volunteer*" is defined as any person who voluntarily offers and provides a service to the Charter School with Charter School approval without receiving compensation.

Volunteering Categories and Application Process

A. Certified Volunteers ("C-Volunteers")

a. Who are C-Volunteers: These are volunteers that would like to volunteer with MPS on an ongoing basis and may have unsupervised exposure or contact with students. Examples may include, but are not limited to, classroom

volunteers, tutors, field-trip volunteers, etc.

    b. Application Process: C-Volunteers must provide MPS with the following documents:

- Volunteer Application Form (signed)

- Volunteer Commitment Form (signed)

- Fingerprinting and Background Clearance (if volunteering outside of the direct supervision of a credentialed employee)

- Tuberculosis risk assessment or examination

- Valid photo I.D. (driver's license, passport, military ID, US or other government identification)

B. Single Event Volunteers ("SE-Volunteers")

    a. Who are SE-Volunteers: These are volunteers that would like to volunteer at MPS for a one (1) days special event or activity and have no unsupervised exposure or contact with students. Examples may include, but are not limited to, guest story reader, guest speaker, senior exhibition panel member, etc.

    b. Application Process: SE-Volunteers are not required to submit a volunteer application but must comply with the Volunteering Guidelines below and provide MPS with a valid photo I.D.

Volunteering Guidelines

Parents or guardians who are interested in volunteering must adhere to the following guidelines:

1. Volunteers must arrange volunteering schedule with the classroom teacher and/or MPS Principal or designee, at least forty-eight (48) hours in advance. Volunteering in class may be limited to certain hours or specific assignments as determined by the classroom teacher(s) or MPS administration.

2. For all prospective volunteers (both C-Volunteers and SE-Volunteers), the MPS Principal or designee will review California Megan's Law online database at http://www.meganslaw.ca.gov to ensure that prospective volunteers are not registered sex offenders.

   Prior to volunteering in the classroom or on campus, the volunteer should communicate with the teacher and/or MPS staff to discuss the expectations for volunteering needs. Classroom volunteers are there to benefit the entire class and are not in class solely for the benefit of their own child. Classroom volunteers must follow the instructions provided by the classroom teacher or aide. Classroom rules also apply to volunteers to ensure minimal distraction to the teacher. If a volunteer is uncomfortable following the direction of the teacher or aid the volunteer may leave their volunteer position for that day.

3. Information gained by volunteers regarding students (e.g., academic performance or behavior) is to be maintained in strict confidentiality and may not be shared with any individual except with the MPS Principal. Volunteers must sign in agreement that they have read and understand and agree to follow the Family Educational Rights and Privacy Act ("FERPA") Policy.

4. Volunteers shall follow and be governed by all other guidelines indicated elsewhere in this Policy. This includes, but is not limited to, the process of registering and signing out of the campus at the main office as indicated below.

5. Volunteerism by parents is encouraged but not mandatory. All parents are encouraged – but not required – to contribute a minimum of 10 hours per year to the school. No child will be excluded from MPS or school activities due to the failure of his or her parent or legal guardian to fulfill the encouraged volunteer hours.

6. This Policy does not authorize MPS to permit a parent/guardian to volunteer or visit the campus if doing so conflicts with a valid restraining order, protective order, or order for custody or visitation issued by a court of competent jurisdiction.

Visitation Guidelines

1. Visits during school hours should first be arranged with the teacher and MPS Principal or designee, at least three (3) school days in advance. If a conference is desired, an appointment should be set with the teacher during non-instructional time, at least three (3) school days in advance. Parents/guardians seeking to visit a classroom during school hours must first obtain the written approval of the classroom teacher and the MPS Principal or designee.

2. All visitors (including volunteers) shall register in the Visitor's Log Book and complete a Visitor's Permit in the main office immediately upon entering any school building or grounds when during regular school hours, including immigration enforcement officers. When registering, the visitor is required to provide his/her name, address, age (if under 21), his/her purpose for entering school grounds, and proof of identity. If the visitor is a government officer/official (including but not limited to local law enforcement officers, immigration

enforcement officers, social workers, district attorneys, or U.S. attorneys), the officer/official will also be asked to produce any documentation that authorizes school access. MPS shall make reasonable efforts to notify parents or guardians prior to permitting a student to be interviewed or searched, consistent with the law and/or any court order, warrant or instructions from the officer/official. A copy of the documentation provided by the officer and notes from the encounter may be maintained by MPS. The MPS Governing Board and Bureau of Children's Justice in the California Department of Justice, at BCJ@doj.ca.gov, will be timely informed regarding any attempt by a law-enforcement officer to access a school site or a student for immigration-enforcement purposes, as recommended by the Attorney General.

3. For purposes of school safety and security, the MPS Principal or designee have designated that each visitor wear a visitor's pass/sticker as a visible means of identification for visitors while on school premises.

4. All visitors are asked to comply with current mandated and recommended health and safety protocols. Visitors (including volunteers) who demonstrate signs of a contagious disease (e.g. fever, coughing) may be denied registration. When recommended or requested by the Department of Public Health, visitors will be required to wear personal protective equipment, such as masks, and practice social distancing. MPS reserves the right to implement additional measures for the protection of its school community, such as requiring forehead temperature checks before entry to the same extent being utilized for students and employees.

5. Except for unusual circumstances, approved in advance by the MPS Principal, MPS visits should not exceed approximately sixty (60) minutes in length and may not occur more than twice per semester.

6. While on campus, visitors are to enter and leave classrooms as quietly as possible, not converse with any student, teacher, or other instructional assistant unless permitted, and not interfere with any school activity. No electronic listening or recording device may be used in a classroom without the teacher's and MPS Principal's advance written permission.

7. Before leaving campus, the visitor shall return the Visitor's Permit and sign out of the Visitors Log Book in the main office.

8. The MPS Principal, or designee, may refuse to register a visitor or volunteer if it is believed that the presence of the visitor or volunteer would cause a threat of disruption or physical injury to teachers, other employees, or students.

9. The Principal may direct a visitor without lawful business on campus to leave campus when the visitor's presence or acts interfere with the peaceful conduct of the activities of the school or disrupt the school or its pupils or school activities. Any visitor who is directed to leave by the Principal or designee will not be permitted to return to the Charter School campus for at least seven (7) days.

10. The MPS Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reason to believe that the person has willfully disrupted or is likely to disrupt MPS' orderly operation. Consent will be reinstated whenever the MPS Principal has reason to believe that the person's presence will not constitute a disruption or substantial and material threat to MPS' orderly operation. Consent to be on campus can be withdrawn for up to fourteen (14) days.

11. The MPS Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or withdrawn, promptly leave school grounds. When a visitor is directed to leave, the MPS Principal or designee shall inform the visitor that if the visitor reenters the school without following the posted requirements, the visitor will be guilty of a misdemeanor.

12. Any visitor who is denied registration or has his/her registration revoked may request a conference with the MPS Principal. The request shall be in writing, shall state why the denial or revocation was improper, shall give the address to which notice of conference is to be sent, and shall be delivered to the MPS Principal with fourteen (14) days of the denial or revocation of consent. The MPS Principal shall promptly mail a written notice of the date, time, and place of the conference to the person who requested the conference. A conference with the MPS Principal shall be held within seven (7) days after the MPS Principal receives the request. If no resolution can be agreed upon, the MPS Principal shall forward notice of the complaint to the MPS Board of Directors. The MPS Board of Directors shall address the Complaint at the next regular board meeting and make a final determination.

13. At each entrance to the campus, signs shall be posted specifying the hours during which registration is required, stating where the office of the MPS Principal or designee is located, and what route to take to that office, and setting forth the penalties for violation of this policy.

14. The MPS Principal or designee may seek the assistance of the police in managing with or reporting any visitor in violation of this Policy.

"Certified Volunteer (C-Volunteer) Application Form" and **"Volunteer Commitment and Procedures"** are

included at the end of this handbook and copies are also available in the school office.

Shadowing Guidelines

Shadowing gives parents and students an opportunity to observe instruction during an ordinary school day and can help open dialog between parents and students about school. Parents are welcome to shadow their children, that is, to follow them through their school day. In order to maximize the benefits of shadowing, we request that parents adhere to the following guidelines:

- Follow the above procedure for providing three (3) school days advance notice of your visit, signing in at the main office when arriving at MPS, and obtaining a visitor's pass/sticker. Notice of your visit and intent to shadow should be provided by completing the Shadow Request Form, below, and submitting it to MPS at least three (3) school days in advance of your visit.

- Shadowing is not a time for parent/teacher conferences. If you desire a conference, please make prior arrangements with your child's teachers.

- To preserve the academic environment, please do not take part in the lesson unless invited to do so by the teacher. Do not visit with your child or other students during class time. At no time may visiting parents address other students directly. Visitors are not allowed to record audio or video or take photos. Should you have any concerns, report them to the MPS administrators.

- Meet with MPS administration to debrief your visit.

"Shadow Request Form" is included at the end of this handbook and copies are also available in the school office.

Penalties

1. Pursuant to the California Penal Code, if a visitor does not leave after being asked or if the visitor returns without following the posted requirements after being directed to leave, he/she will be guilty of a crime as specified which is punishable by a fine of up to $500.00 (five hundred dollars) or imprisonment in the County jail for a period of up to six (6) months or both.

2. Under California Education Code section 44811, disruption by a parent, guardian or other person whose conduct materially disrupts classwork or extracurricular activities or involves substantial disorder is guilty of a misdemeanor and is punishable, upon the first conviction by a fine of no less than $500.00 (five hundred dollars) and no more than $1,000.00 (one thousand dollars) or by imprisonment in a County jail for no more than one (1) year, or both the fine and imprisonment.

3. Disruptive conduct may lead to MPS' pursuit of a restraining order against a visitor, which would

prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of up to three (3) years.

Student Conduct & Discipline

Dress Code/Uniforms

MPS has a uniform policy to help create a safe, orderly environment, instill discipline, and eliminate the competition and distractions caused by varied dress styles. Students are expected to arrive in a clean and neat uniform every day. This uniform policy will be enforced from the very first day of school. Students shall cooperate, display modesty and neatness, and take pride in the MPS uniform. We rely on both student and parent/guardian support in helping to maintain this uniform policy and follow it daily.

In addition to wearing the school uniform, MPS requires that students follow these additional guidelines in terms of uniform appearance and personal appearance. **If any aspect of the uniform, including clothes, shoes, jewelry, cosmetics, or any type of body adornment, is not explicitly listed as acceptable in this handbook, then that item is not permitted to be worn when the student is at school or representing the school.** If you have any questions, please check with administration.

If a student is unable to wear the school uniform to school due to extenuating circumstances, please communicate with the school administration.

A Free MPS Uniform Set

MPS will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including a free uniform set.

MPS will make one uniform set of required MPS logo uniform pieces available to each student free of charge for the student's use during the school year. If parents/guardians or students want to purchase additional MPS logo pieces, they may do so through the school's uniform vendors.

Religious Head Coverings

Religious head coverings shall be permitted.

Free Dress & Theme Dress Days Code

Free Dress days are earned at the discretion of the administration. These days are granted at different times of the year for positive behavior and special occasions. Violation of this policy may result in loss of free dress privileges for the remainder of the school year.

- On free dress days, clothing must be in good taste and appropriate for school. Clothing should not be inappropriately tight, revealing, or transparent.

- The school's dress code is strictly enforced during free dress days as well. All students must follow the same guidelines with the exception of not wearing their uniform.

- T-shirts are acceptable; however, printing on clothing must be suitable for school - no suggestive, vulgar, or profane language or images are permitted, as well as clothing that promotes alcohol, drugs, tobacco, or other controlled substances.

- Mini-skirts, skirts, and shorts should be no shorter than your longest finger when standing with your hands by your sides. Jeans may be worn during free dress days but cannot be inappropriately tight or baggy; no tattered jeans are allowed.

- Visible undergarments (including boxer shorts, bras, etc.) are not allowed.

- Midriffs, backless or side less shirts or dresses, halter tops, or tank tops with straps less than 1-inch strap in width are NOT allowed.

- Hats for sun protection must only be worn outside of the school building(s) and classrooms. Hats must be a solid color that aligns with the school uniform and is free of any logos, with the exception of the school logo. Acceptable colors include solid white, gray, black, or navy-blue.

- Gloves, bandanas, or sunglasses are not permitted to be worn in school, except for medical reasons. Head coverings worn for purposes of religious observance are permitted.

- Neatness and good grooming are required.

MPS STUDENT UNIFORM POLICY

BOTTOM	- Pants, shorts, skirts, skorts, or capris are acceptable. - Skirts, pants, shorts, skorts, or capris must be either khaki color, black or navy blue. **Belts** *(required for all variations of dress uniform)* - Smooth, straight edge, all black, all blue or all brown belts no wider than 1½ inches with a plain, unadorned buckle (no mesh, rope, or all metal). - The buckle may only have one catch. - Belt must be of correct waist size, so that there is minimal excess length (less than five inches). - Any excess length of belt must be tucked through a belt loop and may not hang down.	**Pants/Skirts/Skorts/Shorts** - May not be baggy or inappropriately tight. May not be rolled at waist. Top of garment must be at or above hip bone. - Skorts/shorts should be no shorter than your longest finger when standing with your hands by your sides. - Skirts that are above the top of the kneecap should be worn with leggings/tights and must be no shorter than the longest fingertip. - Pants may not be made from legging or jegging material. - Pants must touch the top of the shoes when the student is standing, but not be long enough to bunch up around the ankle. Socks may not be worn over pants. - Rubber bands are not allowed on the bottom of pants or ankles. - No jean/denim style pants - No Cargo pants/shorts. - Must have a built-in pocket not a sewn-on pocket.
TOP	- White, gray, black or navy-blue polo or woven shirts must have the school logo. They may be either short or long sleeved. - Hoods may not be worn at school. - Top of garment must be at or above hipbone when student is standing up.	**Undergarments** All undergarments, including bras, boxer shorts, etc., should not be visible **Other Guidelines** - Woven shirt or polo shirt must be tucked in neatly at the waist at all times. These shirts may not be inappropriately tight or baggy. - Undershirts must be short-sleeved if worn. - The student may choose to button, or not button, the top button of the woven shirt. All other buttons of the woven shirt must be buttoned. - Under shirt may not hang out of sleeves.
FOOTWEAR	- For all footwear including "athletic" footwear, the majority of the shoe must be a solid color that aligns with the school's neutral dress code. Acceptable colors include black, brown, white, or gray. Small to no logos are preferred. (Shoes must be closed toe.) - Plain, unadorned socks must always be worn, tights are also acceptable. Color of the socks or tights: Solid black, dark brown, navy blue or white. - No sandals, boots, clogs, mules, slippers, flip flops, high heels, platform shoes or shoes with wheels.	**Shoes** - Acceptable athletic shoes must be low-profile with minimal design. They must be modest and not attract attention. Shoelaces must match shoes and be in solid color. **Jewelry and Accessories/Cosmetics** - Should be modest, appropriate for school, and not attract undue attention.

69

PE UNIFORM	• **Top:** Students will wear a solid gray t-shirt, preferably with the MPS logo. Solid white, gray, black, or navy blue sweatshirts with or without the MPS logo may also be worn during PE. • **Bottom:** Properly fitting navy shorts. Waist size of shorts must be appropriate to student's waist size (i.e. not inappropriately tight or baggy). Shorts should be no shorter than your longest finger when standing with your hands by your sides **Footwear:** Any athletic shoes suitable for basketball, tennis, and field sports. The majority of the shoe must be a solid color that aligns with the school's neutral dress code. Acceptable colors include black, brown, white, or gray. Small to no logos are preferred. (Shoes must be closed toe.)	• Necklaces: If worn must be underneath uniform. If visible through an open collar, it must be tasteful and formal (no leather or string). Pendants must not be large or attract attention. Must be tucked in collar of shirt. • No "glitter", decorations, or drawing of any kind should be visible on the skin, hair, body, or uniform, • Facial, tongue, and body piercing are not allowed. • Bracelets: Must be tasteful and not attract undo attention. • Visible tattoos are not acceptable. Permanent visible tattoos must be covered by a flesh-tone bandage while at school or representing the school.

OUTERWEAR	• Hats, hoods, caps, and other headgear may not be worn in school buildings, except for purposes of religious observance. No gloves or finger lacing of any sort are allowed. Hats must be a solid color that aligns with the school uniform and is free of any logos, with the exception of the school logo. Acceptable colors include solid white, gray, black, or navy-blue.
	
	For colder weather
	• Crew-neck and zip v-neck sweatshirt and jackets are permitted, with or without the MPS logo.
	
	• Sweatshirts and jackets must be solid white, gray, black, or navy-blue.
		• Cosmetics must be appropriate for school and not attract undue attention.
		
		    o No brightly colored or glitter eye shadow, or blush.
		    o Mascara and eyeliner should be minimal.
		    o Lipstick should be a natural color.
		    o Earrings must be studs or one (1) inch hoops and worn on earlobe.

Notes

- If a student is unable to wear the school uniform to school due to extenuating circumstances, you need to check with your school's administration.

- Each individual MPS school may include site-specific amendments into the uniform policy addressing local issues.

70

Duties of Pupils

Duties of Pupils – 5 CCR 300
Pupils shall conform to school regulations, obey all directions, be diligent in study and respectful to teachers and others in authority, and refrain from the use of profane and vulgar language.

Electronic Nicotine Delivery Systems (e-cigarettes)

Electronic Nicotine Delivery Systems (e-cigarettes) – PC 308
MPS prohibits the use of electronic nicotine delivery systems (ENDS) such as e-cigarettes, hookah pens, cigarillos, and other vapor-emitting devices, with or without nicotine content, that mimic the use of tobacco products on all MPS property and in MPS vehicles at all times. ENDS are often made to look like cigarettes, cigars and pipes, but can also be made to look like everyday items such as pens, asthma inhalers and beverage containers. These devices are not limited to vaporizing nicotine; they can be used to vaporize other drugs such as marijuana, cocaine, and heroin. Students using, in possession of, or offering, arranging or negotiating to sell ENDS can be subject to disciplinary action, particularly because ENDS are considered drug paraphernalia, as defined by 11014.5 of the Health and Safety Code. Section 308 of the Penal Code also states that every person under 18 years of age who purchases, receives, or possesses any tobacco, cigarette, or cigarette papers, or any other preparation of tobacco, or any other instrument or paraphernalia that is designed for the smoking of tobacco, tobacco products, or any controlled substance shall, upon conviction, be punished by a fine of seventy-five dollars ($75) or 30 hours of community service work.

Tobacco-free Campus

Tobacco-free Campus   BPC 22950.5; HSC 104420, 104495, 104559, PC 308
Ample research has demonstrated the health hazards associated with the use of tobacco products, including smoking and the breathing of secondhand smoke. Charter School provides instructional programs designed to discourage students from using tobacco products. The Charter School's Governing Board recognizes that smoking and other uses of tobacco and nicotine products constitute a serious public health hazard and are inconsistent with the goals of the Charter School to provide a healthy environment for students and staff. In the best interest of students, employees, and the general public, the Board therefore prohibits the use of tobacco products at all times on Charter School property and in Charter School vehicles. This prohibition applies to all employees, students, visitors, and other persons at

school or at a school-sponsored activity or athletic event. It applies to any meeting on any property owned, leased, or rented by or from Charter School.

Smoking or use of any tobacco-related product or disposal of any tobacco-related waste is prohibited within 25 feet of any playground, except on a public sidewalk located within 25 feet of the playground. Smoking or use of any tobacco-related product is also prohibited within 250 feet of the youth sports event in the same park or facility where a youth sports event is taking place. In addition, any form of intimidation, threat, or retaliation against a person for attempting to enforce this policy is prohibited.

The Principal or designee shall inform students, parents/guardians, employees, and the public about this policy. All individuals on Charter School premises share in the responsibility of adhering to this policy. Additionally, Charter School will post signs stating "Tobacco use is prohibited" prominently at all entrances to school property.

Student Freedom of Speech/Expression Policy

MPS respects students' rights to express ideas and opinions, take stands, and support causes, whether controversial or not, through their speech, their writing, their clothing, and the printed materials they choose to post or distribute including the right of expression in official publications, and/or the wearing of buttons, badges and other insignia.

Student freedom of expression shall be limited only as allowed by state and federal law in order to maintain an orderly school environment and to protect the rights, health, and safety of all members of the school community. Unprotected Expression includes the following: obscenity; defamation; discriminatory material; harassment (including sexual harassment), intimidation and/or bullying; fighting words; vulgarity and/or profanity; or violating privacy as defined below.

Definitions

1. "*Obscenity*": when the (1) average person applying current community standards finds the work as a whole appeals to the prurient interest, (2) the work is patently offensive, and (3) the work lacks serious literary, artistic, political, or scientific value. Examples include pornography or sexually explicit material.

2. "*Defamation*": Libel (written defamation) and Slander (oral defamation), which includes but is not limited to inaccurately attributing a statement to another, either on purpose for public officials (which includes Charter School staff) or by mistake for private officials, that mischaracterizes the statement.

3. "*Discriminatory Material*": material that demeans a person or group because of the person/group's disability, pregnancy, gender, gender identity, gender expression, nationality, ancestry, race or ethnicity, immigration status, religion, religious

affiliation, sexual orientation, childbirth or related medical conditions, marital status, age, or association with a person or group with one or more of these actual or perceived characteristics or any other basis protected by federal, state, local law, ordinance or regulation that has the purpose of humiliating, offending, or provoking a person/group.

4. *"Harassment (including sexual harassment), Intimidation and/or Bullying"*: severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act. Bullying includes one or more acts committed by a student or group of students that may constitute sexual harassment, hate violence, or creates an intimidating and/or hostile educational environment, directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following: (1) placing a reasonable student or students in fear of harm to that student's or those students' person or property, (2) causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health, (3) causing a reasonable student to experience a substantial interference with his or her academic performance, (4) causing a reasonable student to experience a substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

5. "*Fighting Words*": words likely to cause (1) the average person to fight or (2) the creation of a clear and present danger of violence, unlawful acts in violation of lawful school regulations, or the substantial disruption of school.

6. "*Vulgarity and/or Profanity*": the continual use of curse words by a student, even after warning.

7. "*Violating Privacy":* publicizing or distributing confidential or private material without permission.

Distribution of Circulars, Newspapers, and Other Printed Matter

Students shall be allowed to distribute circulars, leaflets, newspapers, and pictorial or other printed matter, and to circulate petitions, subject to the following specific limitations:

1. Leaflets, pictorial and other printed matter to be distributed shall be submitted to the MPS school site Principal or designee at least one school day prior to distribution.

2. Distribution, free or for a fee, may take place at any time except during instructional time and providing there is no substantial disruption in the school programs (as determined by the MPS school site Principal).

3. The manner of distribution shall be such that coercion is not used to induce students to accept the printed matter or to sign petitions.

4. The solicitation of signatures must not take place in instructional classes or school offices, nor be substantially disruptive to the school program (as determined by the MPS school site Principal).

5. Pupil editors of official school publications shall be responsible for assigning and editing the news, editorial, and feature content of their publications subject to the limitations of this section. However, it shall be the responsibility of the journalism staff adviser or advisers of pupil publications to supervise the production of the pupil staff, to maintain professional standards of English and journalism, and to maintain the provisions of this Policy. The journalism staff adviser(s) shall help the student editors judge the literary value, newsworthiness and propriety of materials submitted for publication. "Official school publications" refers to material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

6. There shall be no prior restraint of material prepared for official school publications except insofar as it violates this policy. MPS officials shall have the burden of showing justification without undue delay prior to a limitation of pupil expression under this policy. If the journalism staff adviser(s) consider material submitted for publication to violate this Policy, he or she will notify the student without undue delay and give specific reasons why the submitted material may not be published. The student should be given the opportunity to modify the material or appeal the decision of the journalism staff adviser to the Principal.

Buttons, Badges, and Other Insignia of Symbolic Expression

Students shall be permitted to wear buttons, badges, armbands, and other insignia as a form of expression, subject to the prohibitions enumerated in this Policy.

Use of Bulletin Boards

Students will be provided with bulletin boards, upon request and subject to availability, for use in posting student materials on campus locations convenient to student use. Where feasible, the location and quantity of such bulletin boards shall be by mutual agreement of student government representatives and MPS administration. Posted material must be in compliance with other sections of this Policy, particularly regarding the distribution of materials and prohibited speech. Students may not post or distribute materials regarding the meetings of non-curricular student-initiated groups.

Organized Demonstrations

72

Students have the right to lawful organized on-campus demonstrations, subject to the provisions of this Policy and applicable law. Demonstrations that incite pupils to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or demonstrations that substantially disrupt the orderly operation of the school are prohibited.

No organized demonstrations by school groups may take place during school hours off the school campus unless sanctioned by school authorities and supervised by a designated school authority. No individual student may demonstrate in the name of the school or as an official school group at any time unless authorized by the school to participate in the activity.

Student Speeches

If a student is selected to speak at an MPS sponsored event, including but not limited to graduation or school assemblies, MPS has the right to review the pre-prepared speech to ensure that unprotected speech is not included. If unprotected speech is included, the student will be given the opportunity to revise the speech or deliver a modified speech. If not revised or removed, the student will not be permitted to speak at the MPS sponsored event.

Enforcement

1. The MPS school site Principal or designee shall review material submitted in a reasonable amount of time and shall allow the approved material to be distributed according to the time and manner established by this Policy.

2. Any student may appeal the decision of the MPS school site Principal or designee to the Board who shall render a decision within a reasonable period of time after receipt of the appeal. The appeal by the student must be made within five school days from the time the unsatisfactory decision was rendered.

3. The MPS school site administrator shall work with student government representatives in the development of these procedures. Student responsibilities shall be emphasized.

4. Students who are considering actions in the areas covered by this Policy should be informed of the possible consequences of their action under each specific circumstance.

5. This Policy does not prohibit or prevent the MPS Governing Board from adopting otherwise valid rules and regulations relating to oral communications by pupils upon the premises of each MPS school.

6. No MPS employee shall be dismissed, suspended, disciplined, reassigned, transferred, or otherwise retaliated against solely for acting to protect a pupil engaged in the conduct authorized under this Policy, or refusing to infringe upon conduct that is authorized under this Policy, the First Amendment

to the United States Constitution, or Section 2 of Article I of the California Constitution.

7. MPS shall not make or enforce a rule subjecting a student to disciplinary sanctions solely on the basis of conduct that is speech or other communication that, when engaged in outside of the campus, is protected from governmental restriction by the First Amendment to the United States Constitution or Section 2 of Article I of the California Constitution.

Jurisdiction

Jurisdiction – EC 44807

A student may be disciplined for prohibited misconduct if the act is related to school activity or school attendance occurring at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

Lost and Found

There will be a lost and found box in the school. If you find books, clothing, or personal items on school grounds, please bring the items to the school office. Items not picked up will be donated monthly.

Property Damage

Lost or Damaged Property – EC 48904

Parents or guardians may be held financially liable if their child willfully damages school property or fails to return school property loaned to the child. The school may further withhold the grades, diploma, and transcript of the pupil until restitution is paid.

MPS shall notify the parent or guardian of the pupil in writing of the pupil's alleged misconduct and provide the student with due process before withholding the pupil's grades, diploma, or transcripts pursuant to this subdivision. When the minor and parent are unable to pay for the damages, or to return the property, MPS shall provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the grades, diploma, and transcripts of the pupil shall be released.

Requirement of Parent/Guardian School Attendance

Requirement of Parent/Guardian School Attendance – EC 48900.1

Teachers may require the parent or guardian of a student who has been suspended by a teacher to attend a portion of that school day in his or her student's classroom. The attendance of the parent or guardian will be limited to the class from which the student was suspended. A written notice will be sent to the parent or guardian regarding

implementation of this requirement. Employers are not allowed to apply sanctions against the parent or guardian for this requirement if the parent or guardian has given reasonable notice to his/her employer.

Search of School Lockers

Search of School Lockers

School lockers remain the property of MPS even when assigned to students. The lockers are subject to search whenever the School finds a need to do so. The use of the school locker for other than school-related purposes is prohibited. Improper use of school lockers will result in loss of locker privileges.

- The lockers are school property; anything placed in them or brought to campus is subject to inspection at the discretion of the administration.

- Students are responsible for all items in their locker.

- Students may be provided with a lock or allowed to bring a lock for their lockers. Please check with the school administration for specifics.

Student Searches

The 4th Amendment of the United States Constitution protects individuals from unlawful searches. However, the law allows school officials to conduct searches of students and students' personal effects in certain circumstances:

1. If a student has engaged in conduct that causes an administrator to have reasonable suspicion that the student has committed, is about to commit, a crime or has violated statutory laws or school rules, the administrator may conduct a search of that student and/or the student's personal effects. The administrator must:
   - Be able to articulate the reason for his or her suspicion and the facts and/or circumstances surrounding a specific incident;
   - Be able to reasonably connect the student to a specific incident, crime or rule or statute violation;
   - Have relied on recent, credible information from personal knowledge and/or other eyewitnesses;
   - Ensure that a search based on reasonable suspicion is not excessively intrusive in light of the student's age and gender and the nature of the offense.
2. When conducting a student search based on reasonable suspicion, school officials must adhere to the following practices:
   - Conduct the search only if there are clear and specific reasons for suspicion and there are facts that connect the student to a specific incident of misconduct;

- Jackets, purses, pockets, backpacks, bags, and containers in the student's possession may be searched to the extent reasonably necessary;
- Under no conditions may a body or strip search be conducted;
- No search will involve the removing or arranging any or all of the clothing of a student to permit visual inspection of the underclothing, breast, buttocks, or genitalia of the student;
- Only school officials of the same sex as the student being searched may conduct the search;
- Searches based on reasonable suspicion must be conducted in the presence of at least one (1) adult witness whenever possible and in a private area where the search will not be visible to other students or staff (except for a school administrator or designee witness, also of the same sex).

3. Random Metal Detector Searches and Searches of Other Areas of the School:
   California courts and the California Attorney General's Office have approved the use of random metal detector searches for weapons. Random use of metal detectors is appropriate only if:
   - The method of selection of students to be searched is genuinely random;
   - Students selected to participate in random metal detector searches are selected without regard to personally identifiable characteristics such as race, gender, surname, group affiliation, or past history of misconduct (i.e., selection is random);
   - The searches are minimally intrusive;
   - Searches for concealed weapons in lockers are also conducted;
   - Although parents are advised in this Student/Parent Handbook of the possibility that their child may be searched, schools must send written communication to parents at the opening of the school year. This communication is also to be provided for all students enrolling after the school year has begun.

If, as a result of a metal detector search, *reasonable suspicion* arises that a particular student may have a weapon, school officials may conduct a search of that student, in a private area, in accordance with the above guidelines for reasonable suspicion searches.

A complete copy of the **"MPS Search and Seizure Policy"** is available for review on the school website and in the front office.

Student Conduct

Student Conduct – EC 51100

> MPS provides parents and guardians of students the right and the opportunity, as mutually supportive and respectful partners in the education of their children, to be informed in advance about school rules, including disciplinary rules and procedures, attendance policies, dress codes, and procedures for visiting the school.

Magnolia Public Schools Student Code of Conduct

MPS is committed to excellence in academic instruction and in cooperating with parents/guardians to teach students the behaviors and skills that support social and emotional successes throughout life. To accomplish this goal, MPS is taking a proactive approach to teaching social skills as a significant component of the educational program. The curriculum includes teaching of the behaviors necessary for effective and satisfying social interaction in school, on field trips, in the community, and at home.

Uniform and Personal Appearance

The uniform policy at MPS helps create a safe and orderly environment, instill discipline, and eliminate the competition and distractions caused by varied dress styles. Students are required to arrive in uniform every day except for "free dress days".

All MPS students are required to wear the school uniform at all times including during the afterschool tutoring/activities. Refer to the "MPS Student Uniform Policy" in this Handbook.

Expected Student Behavior

Students should always remember that their behavior and actions at school and at school-sponsored activities are a reflection not only of themselves, but also of the school. The following is a guideline of what expected from an MPS student:

Breakfast/Lunch Time:

Students must:

- Proceed to the eating area as instructed by MPS staff.

- Eat and finish their breakfast/lunch in the assigned area. No food should be eaten outside the designated areas unless authorized by a school administrator.

- Wait patiently for their food and follow the direction of the adults on duty.

- Clean up after themselves and dispose of their trash in the appropriate area.

- Remember that they are not allowed inside the school building(s) without a pass.

- Be safe and carry a pass that is given to them by a school staff member and are not allowed to be in spaces that are not supervised by school personnel.

On Campus:

Students must:

- Stay in designated areas on-campus.

- Be courteous and respectful at all times to everyone.

- Not use profanity, lie, fight, gamble, possess inappropriate literature or material, or be involved in the abuse/harassment of others.

- Not use or have cellular phones turned on during school hours; students are allowed to use cellular phones **only** in the designated area after school. Phones should not be used during after school programs, such as tutoring and clubs, unless directly authorized and supervised by authorized personnel.

- Remember that any personal electronic devices seen during class time will be confiscated and returned to the student's parents/guardians at the discretion of administration.

- Remember that gum chewing is not allowed anywhere on campus.

- Never ride bicycles, use roller blades or skateboards on campus. Check with the school office regarding proper storage during the school day.

- Not leave campus without permission during school hours (except students in 7-12 grade who are being excused to receive confidential medical services without parental permission). (See Off-campus Lunch policy for high school students.)

- Not use matches, lighters, or any type of explosive incendiary device on campus.

- Remember that no personal electronic devices may be visible or used on the campus grounds.

- Be safe and are not allowed to loiter in hallways or be unsupervised by school staff.

Assemblies:

Students must:

- Be courteous and quiet during the entire assembly.

- Be respectful to the presenter/speaker.

- Be safe by following all the teacher/ staff directions upon entry, during and while exiting assembly or school wide event.

Field Trips:

Students must:

- Be on their best behavior.

- Pay attention to the directives given by the moderator and trip leader.

- Follow all school rules pertaining to behavior.

- Wear MPS uniform unless authorized by administration.

Public areas: Hallways, Lunchroom & Restrooms:

Hallways, Lunchroom and Restrooms are areas used by all members of School. Students must:

- Use the halls, lunchroom, or restrooms only as needed and then move on to class.

- Eat only in the cafeteria or other designated area.

- Leave gum at home; chewing gum is strictly prohibited anywhere on campus.

- Maintain orderly conduct always; walk in the halls, lunchroom, or restrooms.

- Keep in mind that profanity and vulgar language at any level is unacceptable and is strictly prohibited in all areas and at school functions at all times.

- Limit excessive noise such as yelling, screaming or banging lockers while in these areas.

- Help keep the school clean by picking up after yourself and putting your belongings in their proper place.

- Respect others personal space and keep your hands to yourself even in play.

- Have a pass to be in the above areas during class time and after school.

- Keep in mind that vandalism, littering, or graffiti in the school is prohibited and should be reported as this reflects poorly on everyone.

- Refrain from lewd or otherwise inappropriate displays of affection.

- Bring only plastic and paper containers to school; all glass containers are prohibited on campus and will be confiscated.

- Be responsible and report any leaks, spills, or other problems in the bathroom to a teacher or the office.

- Be responsible for cleaning up after yourself, including the disposing of or the recycling of garbage.

- Have a hall pass if you are outside of the classroom during class time.

- Not visit with friends or interrupt another classroom.

- Not misuse the hall pass as it will result in loss of the hall pass privilege.

- Get a referral from your teacher before you go to the office. Do not use the hall pass.

Emergency Drills:

Fire drills, lockdowns, and evacuation drills are conducted periodically for everyone's protection and are required by law. During these drills it is imperative that students remain silent, follow instructions given by the staff, and carry out all directions in an orderly fashion.

Classroom:
Students must: - Be seated and ready to begin their assignment when the bell rings. - Be courteous to all teachers and students. - Follow all school and classroom rules. - Bring all necessary materials/supplies ready to work daily. - Be Safe by respecting others' personal space and boundaries.
Classroom Procedures and Consequences:
Please check the teacher's syllabus for specific consequences which may include: 1. In-class warning 2. Student-Teacher Conference 3. Reflection/Parental Notification 4. Parent Conference 5. Office Referral & Administrative Disciplinary Procedures

SIS Behavior Records

Student behavior will be recorded on the SIS, Infinite Campus, and students will receive the following rewards or consequences based on their behavior entries.

Note: The following tables are for sample purposes only. Each individual MPS school may include amendments into the SIS behavior points, rewards, and consequences addressing local needs.

Positive Rewards:
- Contact parent/guardian - Lunch speed pass - Treat - One day free dress (pass will be given) - Extended lunch period

76

• Two-day free dress (pass will be given)
• VIP breakfast
• Entered in a raffle
• Free dress – every Friday for one   month (pass will be given)
• VIP lunch and "Race to the Top"
Negative Consequences:
• Contact parent/guardian
• Loss of privileges
• Parent/guardian conference
• Behavior plan and lunch reflection
• Shadowed by parent/guardian for a day and one hour after school reflection
• Student improvement team
• Pending Reflection Committee outcome
• Reflective hearing with Reflection Committee, parent/guardian and student

Multi-Tiered System of Response to Behavior

MPS maintains as a priority reinforcing positive behavior through intervention supports. Should students continue to make poor choices the administration team and school staff will create a plan with the parent/guardian to decrease unwanted behaviors and reinforce desired behaviors. Students and guardians have access to the school SIS as a means of staying informed on student progress. The student, family and school connection is part of the Positive Behavioral Interventions & Supports (PBIS) model for our learning community and it takes collaboration with all educational partners.

All students at MPS are entitled to the rights guaranteed by the United States Constitution, Bill of Rights, and applicable case law, and their rights will not be knowingly denied by the required code of conduct or by any disciplinary actions taken by the school. Accordingly, after an analysis of each case, any student who exhibits any of the unacceptable student behaviors listed in this handbook may incur consequences. These consequences range from notification of parents, reflection, to emergency removal from a school activity, suspension, expulsion, and referral to appropriate law enforcement agencies.

MPS reserves the right to notify the authorities and the Department of Education as required by law relating to disciplinary actions taken. It is to be noted that MPS reserves the right to discipline any act that has a nexus with MPS or the school community and causes a substantial disruption to the normal operation of the School. In other words, MPS may discipline behavior at school or at a school-related or school-sponsored function or any activity or any act that

causes a substantial disruption on the school environment or that is performed with/on/by/via school equipment or school property. MPS respects and observes the rights of student to lawful student expression, as outlined in the "MPS Student Freedom of Speech/Expression Policy" available in the office of each MPS school.

The following charts and tables delineate unacceptable types of behavior in three levels and possible interventions as part of MPS' system of response to behavior.

Examples of Classroom, Support, and Teacher-Led Responses

These interventions are designed to teach appropriate behavior so that students may contribute to the learning community within the classroom environment. Teachers are encouraged to try a variety of instructional and classroom management strategies to support all learners.

Level 1 Infractions	Interventions
• Invading personal space • Antagonizing others • Violation of school/class rules • Horseplaying • Violating off-limits/restricted area • Habitually tardy and/or not being in assigned location • Disrupting the learning environment/Off task • Littering • Not having proper materials, supplies, and/or equipment for class participation • Inappropriate use of electronic devices • Dress code violation • Inappropriate language/actions (hurtful, vulgar, gossip, etc.) • Passive participation in hurtful acts/words against others • Lewd or inappropriate displays of affection • Refusing to cooperate and comply with school rules/personnel	✓ School-wide PBIS ✓ Social-emotional learning program ✓ Proactive classroom management ✓ Regular, preemptive communication with families ✓ Classroom incentives ✓ Seating, assignment, behavioral accommodations ✓ Conferencing with student(s) and parents ✓ Verbal correction and redirection ✓ Reminders, role-play, daily progress sheet ✓ Loss of classroom privileges ✓ Written and/or verbal reflection

TIER 2 SUPPORTS (For SOME) TIER 1

- Selected -

Examples of Support, Removal and Administrative Responses

These responses engage the students' support system to ensure successful learning and to alter conditions that are inappropriate or disruptive.

Level 2 Infractions	Interventions
• Using/possessing tobacco and/or lighter	✓ Behavioral contract
• Violating traffic or safety regulations	✓ Self-monitoring
• Encouraging other students to violate school rules	✓ School-home communication
• Leaving school and/or school bus without permission	✓ Adult or peer mentorship
• Fighting and/or arranging altercations	✓ Utilize check-in and check-out system
• Using objects inappropriately (i.e., the use of an object to harm others or damage property)	✓ Intensive academic and/or social support
• Physical assault without serious bodily injury (i.e., pushing with intent, kicking, hitting, pinching, spitting)	✓ Reflection (lunch, after school, Saturday, etc.)
• Defacing and/or vandalism of school property	✓ Refer student to SSPT
• Plagiarism/academic dishonesty	✓ Loss of privileges
• Leaving school or classroom without permission (truancy)	✓ Counseling
• Improper use of computer (e.g., viewing unauthorized websites, cheating, overriding district filter, etc.)	✓ Temporary removal from class
• Stealing and/or possessing stolen property	✓ Extended school day
• Failure to attend to/complete assigned restorative action	✓ Suspension and/or expulsion
• Gambling or Extortion	
• Habitual violations of school/class rules	
• Forgery of signatures	
• Sexually explicit behavior	
• Planning and/or arranging actions with malicious intent	
• Writing or drawing obscene /profane language/pictures	
• Harassment (i.e., physical, verbal, and sexual)	
• Bullying/cyberbullying	
• Violation of personal boundaries	
• Refusing to cooperate and comply with school rules/personnel	

- Targeted/Intensive -

**Examples of Support, Removal and
School Site Administrators and Home Office Responses**

These responses address serious behavior and potential implications
for future harm. They promote safety of the school community and
should be used in a progressive fashion.

See Categorical Offenses

Level 3 Infractions	Interventions
• Physically assaulting with serious bodily injury • Conduct or habits injurious to others (peers/authority) • Using/possessing controlled and/or dangerous substances and/or paraphernalia • Bullying (harassing, intimidating, cyberbullying) • Fighting and/or arranging altercations • Using/possessing weapons and/or weapon paraphernalia including but not limited to those prohibited under federal law • Harassment (i.e., physical, verbal, and sexual) • Arson, attempting to commit arson and/or possession of explosives/fireworks (i.e., smoke bombs, sink bombs, etc.) • Causing a false fire alarm • Making a bomb/explosive threat • Encouraging other students to violate school rules • Student hazing • Using gang and/or secret society symbols/acts • Inappropriate use of electronic devices • Public displays of sexually explicit behavior • Defacing and/or vandalism of school property • Gambling • Habitual violations of school/class rules • Forgery of signatures • Stealing and/or possessing stolen property • Improper use of computer (e.g., viewing unauthorized websites, cheating, overriding school filter, etc.) • Sexual explicit behavior, Lewd Conduct, Writing or drawing obscene /profane language/pictures	✓ All Tier 1 and Tier 2 interventions ✓ FBA-based behavior intervention plans ✓ Teaching replacement behavior ✓ Home and community supports ✓ Self-management program ✓ Restricted access ✓ In-school reflection and/or suspension ✓ Short-term out-of-school suspension ✓ Extended out-of-school suspension ✓ Request for alternate educational setting ✓ Suspension and/or expulsion

Infractions Explained

See also the Enumerated Offenses and applicable procedures listed in **"Suspension and Expulsion Procedures"** below.

Assaulting, Fighting and/or Arranging Fights

School is not a place to arrange fights, whether those fights take place on or off school grounds. Any fight and/or attempting to fight will involve disciplining all students involved.

Bringing / Using Electronic Devices

CD players, IPOD, MP3 players, phones, PDA, PSP, laptops, smart watches, electronic games, and/or similar devices are not allowed to be used at school. They disrupt classes and distract others from learning. If you choose to bring them for use outside of school, it is at your own discretion. MPS assumes no liability for any damaged, destroyed, lost, stolen, misplaced or otherwise compromised electronic device brought onto MPS property.

Scholastic Dishonesty/Plagiarism

Scholastic dishonesty includes (but is not limited to) plagiarism, cheating on tests, and/or any other types of deception to obtain credit without effort. Scholastic dishonesty is unacceptable conduct. As a consequence, student will receive a failing grade on the assignment/test, and all other possible corrective strategies listed under the RTI table above will apply as well.

Texting/Sexting

Sexting can be defined as the act of sending sexually explicit messages or photographs electronically, primarily between mobile phones and/or any other communication devices.

Disrupting Learning

Disrupting learning includes any behavior that prevents other students from learning. It may include but is not limited to inappropriate language, eating or drinking during class against teachers' classroom rules, chewing gum, insubordination and/or selling or trading personal possessions to other students.

Horseplay

Rough or boisterous play including but not limited to shoving, play fighting, kicking, name calling, teasing, pushing/pulling on a student and shoulder bumps.

Violating Uniform Policy

A student's dress and appearance shall conform to the specific uniform and appearance limitations described in this handbook.

Possession or Use of Drugs and/or Alcohol and the Sale or Intention to Sell Drugs and/or Alcohol

Use of drugs or alcohol means a student knowingly possesses, consumes, uses, handles, gives, stores, conceals, offers to sell, sells, transmits, acquires, buys, represents, makes, applies, or is under the influence of any narcotic drug, hallucinogen, amphetamine, barbiturate, marijuana, tranquilizer, non-prescription or prescription drug (except when under the direction of a physician/parent and within school procedure), alcohol, intoxicant, solvent, gas, or any mood-altering chemical, drug of abuse or any counterfeit-controlled substance of any kind including butane lighters.

The sale, distribution, possession, or use of drugs, alcohol, fake drugs, steroids, inhalants, and look-alike drugs is prohibited everywhere on school grounds, at all school activities, and on all school transportation (drug free zone 1000 feet radius). Backpacks, gym bags, coats, and/or any other containers might be searched by Administration and/or Law Enforcement if they suspect the presence of such items.

False Fire Alarms

Issuing a false fire alarm is a violation of State law. Making false 911 calls is also violation of the State Law.

Forgery of Signatures

Any attempt by a student to sign a teacher's, administrator's, parent/guardian's, and/or another student's name to any school document will be considered forgery.

Vulgarity, Profanity and Obscenity

Any gesture or material of this nature is not permitted at school or school functions.

Bullying & Cyber Bullying

Bullying is not permitted at MPS. In addition, MPS will not tolerate unlawful intimidation and bullying due to actual or perceived characteristics such as age, ancestry, color, ethnic group identification, gender expression, gender identity, gender, disability, nationalist, race or

MPS Student/Parent Handbook   2022-23

ethnicity, religion, sex, sexual orientation, or a person's association with a person, or group, with or more of these actual or perceived characteristics. Each student deserves an equal opportunity to obtain an education without dealing with the negative pressures of peers. Bullying consists of any of the following: pushing, shoving, hitting, and spitting, name calling, picking on, making fun of, laughing at, and excluding someone physically or via social media or electronic communications.

Bullying causes pain and stress to those who are victims and is never justified or excusable as "kids being kids", "just teasing", "joking", "playing around" or any other rationalization. This includes the use of social media for wrongful purposes.

Each MPS student agrees to:

- Value student differences and treat others with respect.
- Not become involved in bullying incidents or be a bully.

Harassment of Students, Teachers, Administrators, Staff, or Volunteers

Harassment means making unwelcome advances or any form of improper physical contact or sexual remark and any speech or action that creates a hostile, intimidating or offensive learning environment. Harassment is a violation of Federal Law and is contrary to the School Board's commitment to provide a physically and psychologically safe environment in which to learn. See also the "Title IX, Harassment, Intimidation, Discrimination, and Bullying Policy."

Behaving Disrespectfully towards Teachers or Staff

Disrespect (i.e., arguing, talking back, etc.) and insubordination (failure to comply with directives) toward any member of the faculty or staff will not be tolerated. Profanity, either spoken or written is considered a form of disrespect.

Student Hazing

Hazing is defined as doing any act or coercing another person for initiation into any organization that causes or creates a substantial risk or causes mental or physical harm. Permission, consent or assumption of the risk by an individual subjected to hazing does not lessen the prohibition contained in this policy. Hazing may carry heavy legal consequences.

Smoking or Use of Other Tobacco Products

Possession of tobacco products in any part of the school (drug free zone 1000 feet radius) or on the student is prohibited under this policy. This includes cigarettes, e-cigarettes, vaporizers, cigars, herbs, and smokeless tobacco. Backpacks, gym bags, coats, and/or any other containers might be searched if the presence of such items is suspected.

Stealing and/or Vandalizing School/Private Property & Graffiti

This means to cause or attempt to cause damage to private property, stealing or attempting to steal private property either on school grounds or during school activities, functions or events. Students and their parents or guardians will be held responsible for any theft/vandalism/graffiti (including graffiti tools such as permanent markers) that the student commits. Theft or vandalism of school property carries heavy legal penalties.

No permanent markers or aerosol cans are allowed at school.

Displaying Threatening Behavior

Threatening behavior includes: verbal threats, both face to face and over electronic media (phone and/or computers), non-verbal threats ("hard" stares, gestures), willfully causing or attempting to cause physical injury to another person, causing or attempt to cause any student, teacher, administrator, or staff member to feel frightened or intimidated.

Dangerous Objects

Often, students like to bring objects, such as a collector's item, to school to show their friends. Examples of these objects include, but are not limited to, laser pointers, mini baseball bats, martial arts weapons (e.g., nunchaku, throwing stars), or any other sharp, pointy objects. Students should refrain from bringing objects that have the potential to inflict serious bodily injury to others.

Bringing Weapon to School

A weapon includes, but is not limited to, conventional objects like guns, pellet guns, knives, smoke bombs, fireworks, club of any type, mace, tear gas, or other chemicals. This may also include any toy that is presented as a real weapon. It also includes objects converted from their original use to threaten or injure another. The Administration reserves the right to all final decisions regarding the definition of a weapon. Backpacks, gym bags, coats, and/or any other containers might be

83

searched by administration or law enforcement if they suspect the presence of such items.

If you are aware of a weapon /drugs/alcohol on campus and do not inform school staff, you will be subject to disciplinary actions and serve consequences.

Possession or Use of Fireworks
Using or possessing any amusement device, smoke bomb, stink bomb, etc.

Gang and Secret Society Symbols
Disruption and/or intimidation caused by the wearing of any type of clothing, accessories, hair style, or by writing of any signs identified as or associated with gangs. No gang activity or gang association will be permitted at school or school sponsored activities. Gang symbols on notebooks, lockers, book bags, etc. are not permitted and will be documented. Students may not promise to become or be members of a gang, secret society, illegal club, sorority or fraternity.

Arson
Intentionally starting any fire or combustion on school property.

Public Display of Affection
Public displays of affection are not allowed.

Provoking/Intimidating Behavior Encouraging or Urging Other Students to Violate School Rules
Any student who, by means of provocation, intimidation, encouragement, request, or other means of promotion, induces or attempts to induce another student to violate a MPS school rule shall be subject to discipline.

Students with an IEP

If a student has an IEP, that IEP and any applicable behavior plan shall be followed, accordingly to state and federal law. If the behavior(s) worsens or the frequency increases, the student's IEP team may meet to review the plan and its implementation, and modify it, as necessary, to address the behavior(s). Special Education staff, general education staff, parents, and related service providers specified in the IEP must be informed and involved.

MPS follows state and federal laws regarding discipline, including suspension and expulsion, of students with disabilities. See also the **"Suspension and Expulsion Procedures,"** below, for more information.

Suspension and Expulsion Policy and Procedures

The Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and wellbeing of all students at Magnolia Public Schools ("MPS" or "Charter School"). In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.* which describe the offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions in order to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal. The language that follows is largely consistent with the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. This shall serve as the Charter School's policy and procedures for student suspension, expulsion, and involuntary removal, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary policies and procedures fairly and consistently among all students. This policy and its procedures will be printed and distributed annually as part of the Student Handbook which will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this policy and its procedures are available upon request at the Principal's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws

84

including but not limited to the applicable provisions of the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent/guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the action. The written notice shall be in the native language of the student or the student's parent/guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall inform the student, the student's parent/guardian, or educational rights holder of the basis for which the student is being involuntarily removed and the student's parent, guardian, or educational rights holder's right to request a hearing to challenge the involuntary removal. If a student's parent, guardian, or educational rights holder requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the action to involuntarily remove the student. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below. Students may be involuntarily removed for reasons including, but not limited to, failure to comply with the terms of the student's independent study Master Agreement pursuant to Education Code Section 51747(c)(4).

Procedures

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, reflection during and after school hours, use of alternative educational environments, suspension and expulsion.

Positive Behavioral Interventions & Supports (PBIS)

Positive Consequences:

MPS school staff has committed itself to encouraging and supporting the attainment of academic skills as well as social skills, such as listening, friendship-making, problem solving, and alternatives to aggression. To inspire and encourage students to develop their potential in all of these areas, the following reinforcements will be used for positive behavior:

- Individual awards/recognition
- Classroom awards/recognition
- Certificates
- Displays
- Positive contact with parent/guardian
- Special activities (field trips, movie nights, picnics, etc.)

- Publications
- Assemblies
- Positive SIS points

Positive student behavior and improvements will be acknowledged and encouraged by the MPS staff. Teachers will not only report discipline issues on the school information system, but also positive behaviors and accomplishments. Parents will also be informed of positive behavior and improvements via phone, email, and home visits. Students will receive certificates and/or rewards for outstanding performance and behaviors.

Alternatives to Suspension and/or Expulsion

To intervene in student behavior, MPS has a progressive discipline plan in place at each of its schools. This plan is published at the beginning of each school year in the Parent/Student handbook. The handbook also includes a school-parent-student compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will develop a partnership to help children achieve high academic and behavior standards. The discipline plan includes information about student expectations and progression of disciplinary procedures from day-to-day discipline to suspension and expulsion.

MPS believes that alternatives to suspension align with our schoolwide positive behavior support plan. Following are list of alternatives to be considered before suspending a student: warning, phone call home, parent conference, teacher/administrative reflection, written assignment/research/presentation, loss of privileges, behavior contract, parent shadowing, mentorship (peer/teacher), referral (counseling, SSPT, Dean /Principal), assigning volunteer work/community service, Saturday school, and in-school suspension.

Reflection:
Reflection will be held on assigned day either during the lunch period or after school for up to 60 minutes. Students will have at least one (1) day notice that they must serve a reflection that is longer than twenty (20) minutes in order to make arrangements to be picked up from school. Parents may request in person a delay of the reflection; no phone calls or notes will be accepted for this request.

In School Suspension (ISS):
Notice of In School Suspension (ISS) and the reasons for the ISS will be given to the student and the parent in writing. The student will remain on campus during school hours in a designated area not in their regular class setting. The student will have no or limited social distractions while serving an ISS. Student is expected to complete their classroom assignments and school community service during ISS.

85

A. Grounds for Suspension and Expulsion of Students

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; or d) during, going to, or coming from a school-sponsored activity.

B. Enumerated Offenses

1. **Discretionary Suspension Offenses:** Students may be suspended when it is determined the student:

    a) Caused, attempted to cause, or threatened to cause physical injury to another person.

    b) Willfully used force or violence upon the person of another, except self-defense.

    c) Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.

    d) Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

    e) Committed or attempted to commit robbery or extortion.

    f) Caused or attempted to cause damage to school property or private property, which includes but is not limited to, electronic files and databases.

    g) Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.

    h) Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of a student's own prescription products by a student.

    i) Committed an obscene act or engaged in habitual profanity or vulgarity.

    j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

    k) Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties. This section shall only apply to students in any of grades 4-12, inclusive.

    l) Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.

    m) Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

    n) Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

    o) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

    p) Engaged in, or attempted to engage in hazing. For the purposes of this policy, "hazing" means a method of initiation or preinitiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this policy, "hazing" does not include athletic events or school-sanctioned events.

    q) Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this policy, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the

specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for their own safety or for their immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or their immediate family.

r) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this policy, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

s) Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in Education Code Section 233(e). This provision shall apply to students in any of grades 4 to 12, inclusive.

t) Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

u) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of

students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

   i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of their age, or for a person of their age with exceptional needs) or students in fear of harm to that student's or those students' person or property.

   ii. Causing a reasonable student to experience a substantially detrimental effect on their physical or mental health.

   iii. Causing a reasonable student to experience substantial interference with their academic performance.

   iv. Causing a reasonable student to experience substantial interference with their ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

2) "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

   i. A message, text, sound, video, or image.

   ii. A post on a social network Internet Web site including, but not limited to:

     (a) Posting to or creating a burn page. A "burn

87

page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.

(b) Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

(c) Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.

iii. An act of cyber sexual bullying.

(a) For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another

student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

v) A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1)(a)-(b).

w) Possessed, sold, or otherwise furnished any knife or other dangerous object of no reasonable use to the student unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

2. **Non-Discretionary Suspension Offenses:** Students must be suspended and recommended for expulsion when it is determined the student:

   a) Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

   b) Brandishing a knife at another person.

   c) Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053, et seq.

   d) Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 of former Section 288a of the Penal Code or committed a sexual battery as defined in Penal Code Section 243.4.

3. **Discretionary Expellable Offenses:** Students may be recommended for expulsion when it is determined the student:

   a) Caused, attempted to cause, or threatened to cause physical injury to another person.

   b) Willfully used force or violence upon the person of another, except self-defense.

   c) Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.

   d) Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

e) Committed or attempted to commit robbery or extortion.

f) Caused or attempted to cause damage to school property or private property, which includes but is not limited to, electronic files and databases.

g) Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.

h) Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of a student's own prescription products by a student.

i) Committed an obscene act or engaged in habitual profanity or vulgarity.

j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

k) Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.

l) Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

m) Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

n) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

o) Engaged in, or attempted to engage in hazing. For the purposes of this policy, "hazing" means a method of initiation or preinitiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace

89

resulting in physical or mental harm to a former, current, or prospective student. For purposes of this policy, "hazing" does not include athletic events or school-sanctioned events.

p) Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this policy, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for their own safety or for their immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or their immediate family.

q) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this policy, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

r) Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This provision shall apply to students in any of grades 4 to 12, inclusive.

s) Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

t) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

   i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of their age, or for a person of their age with exceptional needs) or students in fear of harm to that student's or those students' person or property.

   ii. Causing a reasonable student to experience a substantially detrimental effect on their physical or mental health.

   iii. Causing a reasonable student to experience substantial interference with their academic performance.

   iv. Causing a reasonable student to experience substantial interference with their ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

90

2) "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

    i.   A message, text, sound, video, or image.

    ii.   A post on a social network Internet Web site including, but not limited to:

        (a)   Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.

        (b)   Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

        (c)   Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.

    iii.   An act of cyber sexual bullying.

        (a)   For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

        (b)   For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves

athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

u) A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (3)(a)-(b).

v) Possessed, sold, or otherwise furnished any knife or other dangerous object of no reasonable use to the student unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

4. **Non-Discretionary Expellable Offenses:** Students must be recommended for expulsion when it is determined pursuant to the procedures below that the student:

a) Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

b) Brandishing a knife at another person.

c) Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053, et seq.

d) Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 of former Section 288a of the Penal Code or committed a sexual battery as defined in Penal Code Section 243.4..

If it is determined by the Administrative Panel that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or destructive device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The Charter School will use the following definitions:

- The term "knife" means (A) any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing; (B) a weapon with a blade fitted primarily for stabbing; (C) a weapon with a blade longer than 3½ inches; (D) a folding knife with a blade that locks into place; or (E) a razor with an unguarded blade.

- The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

- The term "destructive device" means any explosive, incendiary, or poison gas, including but not limited to: (A) bomb; (B) grenade; (C) rocket having a propellant charge of more than four ounces; (D) missile having an explosive or incendiary charge of more than one-quarter ounce; (E) mine; or (F) device similar to any of the devices described in the preceding clauses.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. **Conference**

   Suspension shall be preceded, if possible, by a conference conducted by the Principal or designee with the student and the student's parent/guardian and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Principal or designee.

   The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

   At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against the student and shall be given the opportunity to present their version and evidence

92

in their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure of the student's parent/guardian to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student's parent/guardian at the conference.

2. **Notice to Parents/Guardians**

    At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student as well as the date the student may return to school following the suspension. In addition, the notice may also state the time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. **Suspension Time Limits/Recommendation for Expulsion**

    Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Principal or designee, the student and the student's parent/guardian or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student or the student's parent/guardian, unless the student and the student's parent/guardian fail to attend the conference.

    This determination will be made by the Principal or designee upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

4. **Homework Assignments During Suspension**

In accordance with Education Code Section 48913.5, upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 48913.5(b), if a homework assignment that is requested pursuant to Section 48913.5(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

5. **Suspension Appeals**

Students and parent/guardian may appeal a suspension within five (5) school days of the suspension. This appeal will be made in writing to the Principal and heard by a Reflection Committee. The Reflection Committee is an advisory committee to the Principal, trained quarterly in restorative practices and PBIS, and will comprise of at least one school administrator (serves as procedural advisor), and at least two teachers, and may also include a non-certificated employee. All Reflection Committee hearings on suspensions will be held within two (2) school days of the appeal being made. The decision of the Reflection Committee is final and will be delivered to the parent/guardian in a written response. Based on the information submitted or requested, the Reflection Committee may make one of the following decisions regarding the suspension:

*   Uphold the suspension
*   Determine that the suspension was not within school guidelines, overturn the suspension, and order that all records and documents regarding the disciplinary proceeding be destroyed. No information regarding the suspension will be placed in the student's permanent record or shared with anyone not directly involved in the proceedings.

D. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled by a neutral and impartial Administrative Panel to be assigned by the Board of Directors as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the Student nor a member of the Charter School Board of Directors. The Administrative Panel shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

It is preferable for the Administrative Panel members to have

experience in education law and student discipline. Typical Administrative Panel members include teachers, school administrators and Home Office Chiefs/Directors. The Home Office will coordinate all administrators and teachers who serve on the Reflection Committee at their school sites to be "on call" for a particular month should their presence be needed at an Administrative Panel hearing. The Administrative Panel may expel any student found to have committed an expellable offense.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal or designee determines that the student has committed an expellable offense and recommends the student for expulsion.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing.

2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.

3. A copy of MPS' disciplinary rules which relate to the alleged violation.

4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment.

5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.

6. The right to inspect and obtain copies of all documents to be used at the hearing.

7. The opportunity to confront and question all witnesses who testify at the hearing.

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

MPS may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the

witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five (5) calendar days notice of their scheduled testimony; (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include a parent/guardian or legal counsel; and (c) elect to have the hearing closed while testifying.

2. MPS must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.

4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany the complaining witness to the witness stand.

7. If one or both of the support persons is also a witness, MPS must present evidence that the witness' presence is both desired by the witness and will be helpful to MPS. The entity presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising their discretion to remove a person from the hearing whom they believe is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be

excluded from the courtroom during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have their testimony heard in a session closed to the public.

I. Expulsion Decision

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to their previous educational program.

The Administrative Panel may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Administrative Panel. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Administrative Panel may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Administrative Panel revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Administrative Panel shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Administrative Panel shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

J. Written Notice to Expel

The Principal or designee, following a decision of the Administrative Panel to expel, shall send written notice of the decision to expel, including the Administrative Panel's adopted findings of fact, to the student and student's parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student

2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with MPS

3. The reinstatement eligibility review date; a copy of the rehabilitation plan; the type of educational placement during the period of expulsion, and notice of appeal rights/procedures

The Principal or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following:

1. The student's name
2. The specific expellable offense committed by the student

K. Disciplinary Records

MPS shall maintain records of all student suspensions and expulsions at MPS. Such records shall be made available to the authorizer upon request.

95

L. Expulsion Appeals

In order to appeal an expulsion, the student/parent/guardian must submit a written appeal to the CEO of MPS outlining the reason for the appeal, attaching any supporting documentation, within ten (10) calendar days of being informed of the expulsion.

In response to the written request for an appeal, the CEO of MPS shall call a meeting of the Board of Directors. The Board shall convene a hearing on the appeal within fifteen (15) working days of receipt of a timely written request for an appeal. *(This timeline supersedes the timeline statement in the charter petition if different.)*

At the hearing on the appeal, the student shall have the right to present evidence. The Board will consider evidence and/or testimony as appropriate and will render a written decision that shall be in the best interest of the student and MPS. That decision shall be final.

M. Interim Placement

MPS shall be responsible for the appropriate interim placement of students during and pending the completion of the MPS's student expulsion process and shall facilitate the post-expulsion placement of expelled students.

MPS shall work with the District for an interim placement or other alternative program. Should MPS determine after the referral that the student will remain at MPS pending the expulsion hearing based on the best interest of the student, or if MPS secures another alternative interim placement at another charter school or school within its CMO, if appropriate and aligned with applicable charter petitions, MPS will notify the District of such determination.

N. Rehabilitation Plans

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Administrative Panel at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission.

O. Readmission or Admission of Previously Expelled Student

The decision to readmit a student after the end of the student's expulsion term or to admit a previously expelled student from another school district or charter school who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board of Directors following a meeting with the Principal or designee and the student and student's parent/guardian or representative to determine whether the student has successfully completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Principal or designee shall make a recommendation to the Board of Directors following the meeting regarding the Principal's or designee's determination. The Board shall then make a final decision

regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The student's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission or admission to the Charter School.

P. Notice to Teachers

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Q. Involuntary Removal for Truancy

As charter schools are schools of choice and as a charter school student who fails to attend school is potentially depriving another student of their opportunity to enroll, a student may be involuntarily removed as described within the Charter School's Board adopted Attendance Policy for truancy and only after the Charter School follows the requirements of the Attendance Policy and only in accordance with the policy described above which requires notice and an opportunity for a parent, guardian, educational rights holder to request a hearing prior to any involuntary removal. Students who are involuntarily removed for truancy will be given a rehabilitation plan and will be subject to the readmission procedures set forth herein.

R. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities

1. Notification of SELPA/District

The Charter School shall immediately notify the SELPA/District and coordinate the procedures in this policy with the SELPA/ District of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the

placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

    a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

    b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

    a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

    b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

    c. Return the child to the placement from which the child was removed, unless the parent/guardian and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent/guardian, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent/guardian and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

    a. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;

    b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a

controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.

b. The parent/guardian has requested an evaluation of the child.

c. The child's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

98

Professional Boundaries, Abuse, & Neglect

Child Abuse and Neglect Reporting

Child Abuse and Neglect Reporting – PC 11164 et seq.

MPS is committed to protecting all students in its care. All employees of MPS are considered mandated reporters, required by law to report cases of child abuse and neglect whenever there is reasonable suspicion abuse or neglect has occurred to a child protective agency (i.e., Police or Sheriff's Department, County Probation Department, or County Welfare Department/County Child Protective Services) immediately, or as soon as practically possible, by telephone and to prepare and send a written report thereof within thirty-six (36) hours of receiving the information concerning the incident. MPS employees may not investigate to confirm a suspicion.

Both the name of the person filing the complaint and the report itself are confidential and cannot be disclosed except to authorized agencies.

Parents and guardians of students also have a right to file a complaint against a school employee or other person that they suspect has engaged in abuse of a child at a school site. Complaints may be filed with a child protective agency; you may also notify the School of an incident by contacting the school office.

Child abuse does <u>not</u> include an injury caused by any force that is reasonable and necessary for a person employed by or engaged in a school:

1. To stop a disturbance threatening physical injury to people or damage to property;

2. For purposes of self-defense;

3. To obtain possession of weapons or other dangerous objects within control of a student;

4. To exercise the degree of control reasonably necessary to maintain order, protect property, protect the health and safety of pupils, and maintain proper and appropriate conditions conducive to learning.

Megan's Law

Megan's Law – PC 290 et seq.

Information about registered sex offenders in California can be found on the California Department of Justice's website, http://meganslaw.ca.gov/. The website also provides information on how to protect yourself and your family, facts about sex offenders, frequently asked questions, and sex offender registration requirements in California.

Professional Boundaries: Staff/Student Interaction Policy

MPS recognizes its responsibility to make and enforce all rules and regulations governing student and employee

behavior to bring about the safest and most learning-conducive environment possible.

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of School personnel:

Examples of PERMITTED actions (NOT corporal punishment):

- Stopping a student from fighting with another student;

- Preventing a pupil from committing an act of vandalism;

- Defending yourself from physical injury or assault by a student;

- Forcing a pupil to give up a weapon or dangerous object;

- Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;

- Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

Examples of PROHIBITED actions (corporal punishment):

- Hitting, shoving, pushing, or physically restraining a student as a means of control;

- Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;

- Paddling, swatting slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

Acceptable and Unacceptable Staff/Student Behavior:

This policy is intended to guide all School faculty and staff in conducting themselves in a way that reflects the high standards of behavior and professionalism required of school employees and to specify the boundaries between students and staff.

Although this policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders. One viable standard that can be quickly applied, when you are unsure if certain conduct is acceptable, is to ask yourself, "Would I be engaged in this conduct if my

99

family or colleagues, including someone from my HR Department, were standing next to me?"

For the purposes of this policy, the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing the boundaries of a student/teacher relationship is deemed an abuse of power and a betrayal of public trust.

Some activities may seem innocent from a staff member's perspective but can be perceived as flirtation or sexual insinuation from a student or parent point of view. The objective of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between staff and students, but to prevent relationships that could lead to, or may be perceived as, sexual misconduct.

Staff must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all employees learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities. Although sincere, competent interaction with students certainly fosters learning, student/staff interactions must have boundaries surrounding potential activities, locations and intentions.

Duty to Report Suspected Misconduct

When any employee reasonably suspects or believes that another staff member may have crossed the boundaries specified in this policy, he or she must immediately report the matter to a school administrator. All reports shall be as confidential as possible under the circumstances. It is the duty of the administrator to investigate and thoroughly report the situation. Employees must also report to the administration any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for sexual abuse.

Examples of Specific Behaviors

The following examples are not an exhaustive list:

Unacceptable Staff/Student Behaviors (Violations of this Policy):

- Giving gifts to an individual student that are of a personal and intimate nature;

- Kissing of any kind;

- Any type of unnecessary physical contact with a student in a private situation;

- Intentionally being alone with a student away from the school;

- Making or participating in sexually inappropriate comments;

- Sexual jokes;

- Seeking emotional involvement with a student for your benefit;

- Listening to or telling stories that are sexually oriented;

- Discussing inappropriate personal troubles or intimate issues with a student in an attempt to gain their support and understanding;

- Becoming involved with a student so that a reasonable person may suspect inappropriate behavior.

Unacceptable Staff/Student Behaviors without Parent and Supervisor Permission:

(These behaviors should only be exercised when a staff member has parent and supervisor permission.)

- Giving students a ride to/from school or school activities;

- Being alone in a room with a student at school with the door closed;

- Allowing students in your home.

Cautionary Staff/Student Behaviors:

(These behaviors should only be exercised when a reasonable and prudent person, acting as an educator, is prevented from using a better practice or behavior. Staff members should inform their supervisor of the circumstance and occurrence prior to or immediately after the occurrence.)

- Remarks about the physical attributes or development of anyone;

- Excessive attention toward a particular student;

- Sending emails, text messages or letters to students if the content is not about school activities.

Acceptable and Recommended Staff/Student Behaviors:

- Getting parents' written consent for any after-school activity;

- Obtaining formal approval to take students off school property for activities such as field trips or competitions;

- E-mails, text, phone and instant messages to students must be very professional and pertaining to school activities or classes (communication should be limited to school technology);

- Keeping the door open when alone with a student;

- Keeping reasonable space between the employee and the student;

- Stopping and correcting students if they cross the employees' personal boundaries;

- Keeping parents informed when a significant issue develops about a student;

- Keeping after-class discussions with a student professional and brief;

MPS Student/Parent Handbook   2022-23

- Asking for advice from fellow staff or administrators when in a difficult situation related to boundaries;

- Involving a supervisor if a conflict arises with a student;

- Informing the Superintendent about situations that have the potential to become more severe;

- Making detailed notes about an incident that could evolve into a more serious situation later;

- Recognizing the responsibility to stop unacceptable behavior of students or coworkers;

- Asking another staff member to be present if the employee will be alone with any type of special needs student;

- Asking another staff member to be present if the employee must be alone with a student after regular school hours;

- Giving students praise and recognition without touching them;

- Pats on the back, high fives and handshakes are acceptable;

- Keeping professional conduct a high priority.

Sexual Abuse and Sex Trafficking Prevention

Sexual Abuse and Sex Trafficking Prevention – EC 51950

At MPS, our number one priority is the safety of our students and we are committed to sharing the latest information and resources with our families. Below you will find information and resources around the topic of human trafficking as part of SB-1104 Pupil Safety: Human Trafficking Prevention Resources:

http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180SB1104

California has the highest number of incidents of human trafficking in the U.S., and all students may be vulnerable. Charter School believes it is a priority to inform our students about (1) prevalence, nature of and strategies to reduce the risk of human trafficking, techniques to set healthy boundaries, and how to safely seek assistance, and (2) how social medial and mobile device applications are used for human trafficking.

In accordance with the California Healthy Youth Act, Charter School will provide age-appropriate instruction on the prevention of human trafficking, including sexual abuse, assault, and harassment. You have the right to excuse your child from all or part of the instruction on the prevention of human trafficking. An opt-out form is available at the school office for your convenience. Your consent for this instruction is NOT required. If we do not

---

receive a written request to excuse your child, your child will be included in the instruction.

MPS Student/Parent Handbook   2022-23

ENGAGING EDUCATIONAL PARTNERS & COMPLAINT PROCEDURES

Engaging Educational Partners

Charter Schools: Pupil Admissions

Charter Schools: Pupil Admissions

MPS encourages the participation of parents for increased parental involvement, but it is not a requirement for acceptance to, or continued enrollment at, the Charter School.

Parent Participation in School Meetings and Conferences

Parent Participation in School Meetings and Conferences – LC 230.8

Parents may fear discrimination in hiring or discharge by an employer if they take time off work to attend school meetings. The following labor code indicates that parents have time allowed for these purposes.

If the parent's employer has 25 or more employees, the parent must be allowed to attend school meetings and events for your children, up to a maximum of 40 hours each year without discrimination or fear of job loss. Purposes to attend child-related activities include: enrollment in grades 1-12, to address child care or school emergency, behavior or discipline problem that requires immediate parent attention, sudden school closure, or natural disaster. ("Parent" means a parent, guardian, stepparent, foster parent, or grandparent of, or a person who stands in.) If an employer discharges, threatens to discharge, demotes, suspends or otherwise discriminates against the parent, the employee may be entitled to reinstatement and reimbursement for lost income or benefits. See Labor Code for more details.

Rights and Responsibilities

Rights of Parents and Guardians to Information

The parents and guardians of pupils enrolled in public schools have the right and should have the opportunity, as mutually supportive and respectful partners in the education of their children within the public schools, to be informed by the school, and to participate in the education of their children, as follows:

(1) Within a reasonable period of time after making the request, to observe their child's classroom(s).

(2) Within a reasonable time of their request, to meet with their child's teacher(s) and the principal.

(3) To volunteer their time and resources for the improvement of school facilities and school programs under the supervision of district employees, including, but not limited to, providing assistance in the classroom with the approval, and under the direct supervision, of the teacher.

(4) To be notified on a timely basis if their child is absent from school without permission.

(5) To receive the results of their child's performance on standardized tests and statewide tests and information on the performance of their child's school on standardized statewide tests.

(6) To request a particular school for their child, and to receive a response from the school district.

(7) To have a school environment for their child that is safe and supportive of learning.

(8) To examine the curriculum materials of their child's class(es).

(9) To be informed of their child's progress in school and of the appropriate school personnel whom they should contact if problems arise with their child.

(10) To have access to the school records of their child.

(11) To receive information concerning the academic performance standards, proficiencies, or skills their child is expected to accomplish.

(12) To be informed in advance about school rules, including disciplinary rules and procedures, attendance policies, dress codes, and procedures for visiting the school.

(13) To receive information about any psychological testing the school does involving their child and to deny permission to give the test.

(14) To participate as a member of a parent advisory committee, schoolsite council, or site-based management leadership team.

(15) To question anything in their child's record that the parent feels is inaccurate or misleading or is an invasion of privacy and to receive a response from the school.

(16) To be notified, as early in the school year as practicable, if their child is identified as being at risk of retention and of their right to consult with school personnel responsible for a decision to promote or retain their child and to appeal a decision to retain or promote their child.

School Accountability Report Card (SARC)

School Accountability Report Cards (SARC) are posted on the school website as well as at: https://sarconline.org/. The physical copy of the most recent SARC document is available to review for all of our educational partners in the school office. MPS SARC is updated before February 1 of each year.

102

School Parent and Family Engagement Policy

I. Introduction

Research has shown that the attitudes, behavior and achievement of children are enhanced when parents* or other caregivers are involved in their children's education. To that end, the Magnolia Public Schools ("MPS," the "LEA" or "School") has adopted this parent and family engagement policy in order to promote learning and provide a more positive learning experience for our students. This policy has also been submitted to the California Department of Education with the School's Consolidated Application.

Within this policy, the word "parent" is employed. This word is intended to reach any caregiver of students enrolled in the school, including but not limited to, parents, guardians, grandparents, aunts, uncles, foster parents, stepparents, etc.

II. Engagement in Drafting the LEA/School Plans

Parents will be engaged in the development of all school plans, including, but not limited to, the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum, the Single Plan for Student Achievement (SPSA)*, and WASC Self-Study.

State law provides that single school districts and charter schools may utilize the LCAP to serve as the SPSA, provided that the LCAP meets federal school planning requirements and relevant educational partners requirements for LCAPs under state law. Charter schools and single school districts may use the LCAP planning process to meet the planning requirements of the LCAP and the SPSA. In doing so, they may utilize the LCAP educational partners engagement requirements. MPS chooses to utilize the LCAP to serve as the SPSA. MPS will utilize our Parent Advisory Committee (PAC) in developing the LCAP.

On an annual basis, the LEA will submit California Department of Education ("CDE")–required plans to the PAC for review and suggested changes before appropriate plans are submitted to the authorizers and the CDE. In addition, all parents of participating children will annually be invited to review the LCAP, the LCAP Federal Addendum, and if applicable, the SPSA, and submit comments. If the plans are not satisfactory to the parents of participating children, the LEA will submit any comments from parents of participating children with the plans when it is submitted to the authorizers and the CDE.

III. Engagement in School Review and Improvement

All parents will be engaged, to the extent applicable, in the process of school review and improvement. This includes disseminating the results of the local annual review of each school served under Title I, Part A to parents.

In addition, the parents of participating children will be invited to annually review the effectiveness of the parent and family engagement policy and other Title I, Part A activities and provide comments to the School.

Identification of a school for improvement:

- A school that has been identified for CSI, TSI, ATSI, or an eligible school operating a SWP shall develop a comprehensive plan, to be consolidated into a single plan, known as the SPSA in California, pursuant to section 64001(a) of the California Education Code. **MPS chooses to utilize the LCAP to serve as the SPSA.**

- The LCAP, serving as SPSA, shall be developed with the engagement of parents and other members of the community to be served; individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, students (in secondary schools), and other individuals determined by the school.

- The LCAP, serving as SPSA, shall remain in effect for the duration of the school's participation under this part and shall be regularly monitored and revised as necessary based on student needs.

- The LCAP, serving as SPSA, shall be available to the LEA, parents, and the public, and the information contained in the plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand.

- The LCAP, serving as the SPSA, shall be based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to the challenging state academic standards, particularly the needs of those children who are failing, or are at risk of failing, to meet the challenging state academic standards and any other factors as determined by the LEA.

  o The comprehensive needs assessment shall include an analysis of verifiable data, consistent with all state priorities and informed by all indicators.

- The LCAP, serving as the SPSA, shall include a description of methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, help provide an enriched and accelerated curriculum, address the needs of all children in the school, particularly the needs of those at risk of not meeting the challenging state academic standards, and provide opportunities for all children to meet the challenging state academic standards.

- The LCAP, serving as the SPSA, shall include goals set to improve pupil outcomes, including addressing the needs of pupil groups as identified through the needs assessment.

- The LCAP, serving as the SPSA, shall include evidence-based strategies, actions, or services.

- The LCAP, serving as the SPSA, shall include proposed expenditures, based on the projected resource allocation from the governing board or body of the LEA, to address the findings of the needs assessment.

(If applicable) Comprehensive Support and Improvement (CSI):

- Upon receiving notification from the state of identification for CSI, the School shall, in partnership with ==educational partners== (including the principal and other school leaders, teachers, and parents), locally develop and implement a CSI plan for the school to improve student outcomes.

- The plan shall be informed by all indicators described in subsection 1111(c)(4)(B) of the ESEA, as amended by the ESSA, including student performance against state-determined long-term goals.

- The plan shall include evidence-based interventions.

- The plan shall be based on a school-level needs assessment.

- The plan shall identify resource inequities, which may include a review of LEA/school-level budgeting, to be addressed through implementation of such plan.

(If applicable) Targeted Support and Improvement (TSI):

- Upon receiving notification from the state of identification for TSI, the School shall, in partnership with ==educational partners== (including the principal and other school leaders, teachers, and parents), locally develop and implement a TSI plan for the school to improve student outcomes based on the indicators in the statewide accountability system established under subsection 1111(c)(4) of the ESEA, as amended by the ESSA, for each subgroup of students that was the subject of notification.

- The plan shall be informed by all indicators described in subsection 1111(c)(4)(B) of the ESEA, as amended by the ESSA, including student performance against long-term goals.

- The plan shall include evidence-based interventions.

- The plan shall be approved by the LEA prior to implementation of such plan.

- Upon submission and implementation, the plan shall be monitored by the LEA.

- The plan shall result in additional action following unsuccessful implementation of such plan after a number of years determined by the LEA.

(If applicable) Additional Targeted Support and Improvement (ATSI):

- Schools are eligible for ATSI if they are among schools eligible for TSI and if any student group at the school, on its own, meets the criteria for the lowest-performing five percent of Title I schools for CSI.

- A school identified for ATSI shall identify resource inequities, which may include a review of LEA/school-level budgeting, which will be addressed through implementation of its plan.

(If applicable) Targeted Assistance School Program (TAS):

- To assist targeted assistance schools (TAS) and LEAs to meet their responsibility to provide for all their students served under this part the opportunity to meet the challenging state academic standards, each targeted assistance program shall carry out the following requirements:

- The TAS program shall determine which students will be served according to the guidelines in section 1115(c) of the ESEA, as amended by the ESSA.

  o Eligible children from eligible populations are children identified by the school as failing, or most at risk of failing, to meet the challenging state academic standards.

  o Children who are economically disadvantaged, children with disabilities, migrant children, and English learners (ELs) are eligible for services under Title I, Part A on the same basis as other children selected to receive services.

- The TAS program shall use resources to help eligible children meet the challenging state academic standards.

- The TAS program shall serve participating students by using effective methods and instructional strategies that strengthen the academic program of the school.

- The TAS program shall coordinate with and support the regular education program of the school.

- The TAS program shall provide PD to teachers, the principal, other school leaders, paraprofessionals, and, if appropriate, specialized instructional support personnel, and other school personnel who work with eligible children in programs under this section or in the regular education program.

- The TAS program shall implement strategies to increase the involvement of parents of eligible children in accordance with section 1116 of the ESEA, as amended by the ESSA.

104

- The TAS program, if appropriate and applicable, shall coordinate and integrate federal, state, and local services and programs.

IV. Coordination, Technical Assistance, and Other Support

The MPS Home Office will provide the coordination, technical assistance, and other support necessary to assist all MPS schools in planning and implementing effective parent engagement activities to improve student academic achievement and school performance in the following ways:

- The MPS Home Office and school leaders will collaborate to devise a timeline for parental engagement activities throughout the school year and create a follow up tool to ensure that the activities occur.
- The MPS Home Office and school leaders will collaborate to develop the necessary technical assistance for planning and implementing effective parent engagement activities to improve student academic achievement and school performance.

V. Annual Meeting

Within 60 days of the first day of school, the School shall convene an annual meeting to which all parents of children participating in Title I, Part A programs are invited and encouraged to attend. The School will hold additional meetings to ensure the maximum parental participation, providing the same information, to be offered at flexible times, such as in the morning or evening.

The information provided at the meetings will inform parents of the School's receipt of Title I, Part A funds and the specific requirements of Title I, Part A. Additionally, parents shall be informed of their rights to be involved in Title I, Part A programs.

VI. Notice

Within **60** days of the beginning of school, the School will send **[e.g., via mail, sent home with students, and/or placed in orientation packets and/or registration packets]** a notice to **[if in a targeted assistance school]** [parents of participating children] **[or if in a school with a school wide program]** [all parents] containing, but not limited to, the following information:

- Information about Title I, Part A programs;
- An explanation of the requirements of Title I, Part A programs;
- A description of the rights parents have for participation in Title I, Part A programs;
- A description (including timing of meetings, location, etc.) of how parents can participate in the planning, review and/or improvement of the parent and family engagement policy, and if applicable, the schoolwide program.
- A description and explanation of the curriculum in use at the School, the forms of academic

assessment used to measure student progress and the proficiency levels students are expected to meet;

- An invitation to attend the annual meeting and additional meetings, providing information about the purpose of the meetings and the dates and times.
- A copy of the most current Parent and Family Engagement Policy and a feedback form for parents to comment on its content.

With this notice, the School will include a survey for parents to complete identifying whether they will require transportation, child care or home visits in order to participate in the parental engagement program of the School. If there is sufficient need for transportation or child care at any of the parental engagement activities identified in this policy, the School may provide such services and notify the parents of such provided services.

In addition to mailing this notice to parents of participating children, the School will post the information on its website.

VII. Title I, Part A Program Engagement

In order to engage parents in an organized, ongoing and timely way in the planning, review and improvement of Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan, the School will engage parents of participating students as follows:

- The School will conduct at least one Family Learning Night each year where all parents of participating children will be invited to the School to learn about the different Title I, Part A programs, details of this policy, and if applicable, the schoolwide program plan. These meetings will be held at flexible times. Additionally, some may be located at community libraries or at parent volunteer homes for those who live far from the School.
- Parents not attending the Family Learning Nights will be contacted by a volunteer by telephone to encourage participation and inform them of future Family Learning Nights.
- The School will publish a regular Newsletter with notification of upcoming participation opportunities.
- Each year, the School will hold an End of School Night, at which parents of participating children will be invited to review Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan and recommend any changes.
- **At least one** of parents of participating children will be invited to accompany School staff on retreats to participate in discussions and sessions dealing with Title I, Part A programs.
- If requested by parents of participating children, the School will schedule regular meetings where

105

parents are able to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children. The School will respond to such suggestions within **48 hour**s.

- If the schoolwide program plan is not satisfactory to parents of participating children, the School will submit any parent comments on the plan when it submits the plan to the authorizers/CDE.

School Site Council (SSC):

- **If a SPSA is required**, the School will create a School Site Council (SSC) where it will plan, review, and improve Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan. The SSC will meet at the School and will be composed of 10 members, selected by their peers, as follows:

    Category (a):

    o The school principal shall be an ex officio member of the SSC

    o 3 teacher representatives selected by teachers at the school

    o 1 other school personnel selected by peers at the school

    Category (b):

    o 5 Parents or community members <u>and</u> Students (Parents of students attending the school and community members selected by such parents <u>and</u> Students selected by students attending the school)

The SSC shall be constituted to ensure parity between the principal, classroom teachers and other school personnel; (b) parents or other community members selected by parents and pupils. Classroom teachers shall comprise the majority of persons represented under category (a). (Education Code Section 65000)

Additionally, the SSC will be involved in decisions regarding how funds reserved for parent engagement activities are allotted for those activities.

Parent Advisory Committee (PAC):

- **If a SPSA is not required**, and the LCAP can serve as the SPSA, MPS chooses to use the LCAP to serve as the SPSA. MPS will utilize our Parent Advisory Committee (PAC) in developing the LCAP. In this case, PAC will meet the ==educational partners== engagement requirements.

- PAC will plan, review, and improve the LCAP as well as plan, review, and improve Title I, Part A programs and align them to the LCAP. PAC will also be the main committee reviewing the parent and family engagement policy, and if applicable,

other school program plans. School leadership will work closely with PAC to ensure parents are engaged in the school improvement process.

- **Parent Advisory Committee** - as used in California Education Code (EC) sections 52063 and 52069, shall be composed of a majority of parents, as defined in subdivision (e), of pupils and include parents of pupils to whom one or more of the definitions in EC Section 42238.01 apply. A governing board of a school district or a county superintendent of schools shall not be required to establish a new parent advisory committee if a previously established committee meets these requirements, including any committee established to meet the requirements of the federal No Child Left Behind Act of 2001 (Public Law 107-110) pursuant to Section 1112 of Subpart 1 of Part A of Title I of that act.

English Learner Parent Advisory Committee (ELPAC):

- **English Learner Parent Advisory Committee -** as used in EC sections 52063 and 52069 for those school districts or schools and programs operated by county superintendents of schools whose enrollment includes at least 15 percent English learners and at least 50 pupils who are English learners, shall be composed of a majority of parents, as defined in subdivision (e), of pupils to whom the definition in EC Section 42238.01(c) applies. A governing board of a school district or a county superintendent of schools shall not be required to establish a new English learner parent advisory committee if a previously established committee meets these requirements.

Consulting with Pupils:

- **Consult with Pupils** - as used in EC sections 52060, 52066, and 47606.5, means a process to enable pupils, including unduplicated pupils and other numerically significant pupil subgroups, to review and comment on the development of the LCAP. This process may include surveys of pupils, forums with pupils, pupil advisory committees, or meetings with pupil government bodies or other groups representing pupils.

- The School annually conducts student, parent, and staff surveys to improve our ==educational partners==' school experience and to consult with them. Conducting such ==educational partner== surveys is an essential part of the School's LCAP development process.

VIII. **Building Capacity for Engagement**
A. **Standards, Assessments, Title I Requirements, Monitoring Progress and Improving Student Achievement**

In order to ensure effective parental engagement and support a partnership among the LEA, parents and the community to improve student academic achievement, the LEA will provide the following programs to assist

parents in understanding State academic content standards and State student academic achievement standards, State and local academic assessments, Title I requirements, and how to monitor their child's progress and work with educators to improve the academic achievement of their children (collectively referred to "Standards and Requirements"):

- The LEA will encourage parents to serve on its board of directors;

- The LEA will seek input from the PAC and the SSC on ways to assist parents to understand the Standards and Requirements.

- The LEA will encourage parents to serve on its board committees.

- The LEA will regularly publish in its newsletter, and/or on its website, descriptions and explanations of State academic content standards and State student academic achievement standards, State and local academic assessments, Title I requirements, and how to monitor their child's progress and work with educators to improve the academic achievement of their children.

- Regular meetings will be held by the school, at community libraries and/or parent volunteer homes, to discuss how parents can work with educators to improve their child's academic achievement.

- The LEA will hold Back to School nights to introduce parents to the School's curriculum and its correlation to the State's academic content standards and academic achievement standards.

- Parents will be invited to attend regular classes to learn about State and local academic assessments and to take sample tests.

B.   Helping Parents to Work with their Children

In an effort to foster parental engagement, the LEA will provide materials and training to help parents to work with their children to improve their children's achievement through the following programs:

- **Student-Teacher Portal:** MPS uses an online web portal, Infinite Campus, to enable parents, students, and teachers to communicate more efficiently. Teachers have a webpage for every class in which they post course material, homework assignments, projects, course grade statistics and records of students' grades on quizzes, tests, class participation and homework assignments. Students and parents use confidential passwords to log on.

- Families without home computers will be encouraged to come to the school and use one of the available computer stations. Classes are held at the school on how to use Infinite Campus as well as how to access it via free Internet access at public

libraries if that is more convenient than coming to the school.

- **ParentSquare:** MPS uses a unified school-to-home engagement platform called ParentSquare. This platform enables the school to send automated messages to parents with student-specific information. MPS uses ParentSquare to communicate attendance information, news and upcoming events, parent and family engagement opportunities, surveys, resources for parent education and more. With extensive student information system integration, translation to more than 100 languages and access via app, email, text, voice, and web portal, ParentSquare enables the school to engage all families, ensuring equitable communication.

- The LEA will provide parents with access to literacy programs that bond families around reading and using the public library.

- The LEA will provide annual seminars on parenting skills and parent-child communication.

- The school's psychologist will work with parents to better understand their children and the issues facing them.

- The LEA will train parents how to tutor their children in the school.

- Individualized student and parent advisory sessions: Each of LEA teachers and mentors will be assigned to a small group of students. They will arrange two to four meetings at school during the school year to discuss their students' academic achievements.

- One-on-one meetings with the parents of academically low-achieving students to support the parent in providing the student the study environment he/she needs.

C.   Education on Parent Engagement

The LEA will annually educate teachers, pupil services personnel, principals and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs and build ties between parents and the School. The training shall take place each year in staff orientations, annual staff development materials and other in-service trainings held throughout the school year.

In order to better understand what works best for the current parents of participating children attending the LEA's schools, the education will take place after the following research is done (which shall be accomplished within the first 90 days of the commencement of the School year):

- **Home Visits:** Research has shown that one of the keys to successful teaching and schooling is

creating personal connections with students inside and outside of school. Knowing the students' outside interests, families, and home routines, and then using this information to connect in meaningful, individualized ways can have huge rewards in helping to create happier, healthier, and smarter kids. Recognizing these facts, the LEA will use home visits as one of the important features of its education program to not only improve student and school performance, but also to identify and intervene early with low-achieving students.

The LEA teachers will visit students at their homes to enhance student learning and engagement. Family visits offer invaluable insights about students. They can provide new understanding about students' learning styles. Visits might also reveal the emotional and social needs and behaviors of students. It is helpful to know if they react to problems with tears, anger, or withdrawal, and how they socialize with peers. Through family visits, teachers can identify students' latest interests or concerns, such as a new hobby, an upcoming trip, or a change in the family.

- A phone tree will be established where volunteers call all parents of participating students to solicit feedback and ideas for building ties between parents and the LEA, how to best communicate with parents and how to work with parents as equal partners.

- A survey will be sent home to parents of participating students that solicits information on what skills each parent has to offer the LEA and what types of parental engagement programs in which parents would most likely participate.

D. Other Optional Parent Participation

- The LEA will engage parents in the development of the training regarding the importance of parent engagement for teachers, principal, and other educators to improve the effectiveness of such training.

- In order to maximize parental engagement and participation, the LEA will arrange school meetings at various times or conduct in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend such conferences at the LEA.

- The LEA will adopt and implement model approaches to improving parental engagement.

- The LEA will develop appropriate roles for community-based organizations and businesses in parent engagement activities, such as sponsoring events, providing volunteers for school activities, and creating internships for students.

IX. Coordination with Other Programs

If applicable, the LEA shall, to the extent feasible and appropriate, coordinate and integrate parent engagement programs and activities with programs such as Head Start, Early Reading First, and public preschool and other programs and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.

The LEA will coordinate and integrate parent engagement programs and activities with these programs as follows: 1) requiring that the school conduct meetings involving parents, kindergarten or elementary school teachers, and Head Start teachers or, if appropriate, teachers from other early childhood development programs such as the Early Reading First program, to discuss the developmental and other needs of individual children; 2) developing and implementing a systematic procedure for receiving records regarding such children, transferred with parental consent from a Head Start program or, where applicable, another early childhood development program such as the Early Reading First program.

X. Annual Evaluation

The LEA, with the involvement of parents, shall conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy in improving the academic quality of the schools served under Title I, Part A, including identifying barriers to greater participation by parents in activities under ESSA. The LEA will pay particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background. The LEA will use the findings of such evaluation to design strategies for more effective parental engagement and to revise, if necessary, this family and parent engagement policy.

XI. School-Parent Compact

At the beginning of each school year, the School will enter into School-Parent Compacts with parents of participating children. The School-Parent Compact will outline how parents, the entire school staff and students will share the responsibility for improved student academic achievement and the means by which the School and parents will build and develop a partnership to help children achieve the State's high standards.

The PAC will annually evaluate the effectiveness of the School-Parent Compact and provide feedback and suggestions for revision.

XII. Engagement of Parents of Limited English Proficient Students, Disabled Parents and Parents of Migratory Children

The LEA shall implement an effective means of outreach to parents of limited English proficient students to inform them regarding how they can be engaged in the education of their children, and be active participants in assisting their children to attain English proficiency, achieve at high levels in core academic subjects and meet challenging State academic achievement standards and State academic content standards

MPS Student/Parent Handbook   2022-23

expected of all student. To accomplish this goal, the LEA will do the following:

- The LEA will hold regular meetings, and send notice of these meetings, for the purpose of formulating and responding to recommendations from parents of participating children.

- The LEA will provide language translators at parent meetings to the extent practicable.

- The LEA will schedule meetings to enable families to share information about culture, background, children's talents and particular needs for the schools.

- The LEA will provide parents of limited English proficiency with access to English as a Second Language (ESL) classes to increase their English language proficiency to assist their children with homework. The school's principal will visit the classes to interact with the parents.

- **English Learner Advisory Committee:** The English Learner Advisory Committee (ELAC) is mainly a committee of parents or other community members who want to advocate for English Learners. The committee provides parents of English Learners opportunities to learn more about the programs offered to their students and advises the principal and the PAC/SSC on programs and services for English Learners.

  State law mandates each school site with 21 or more students of Limited English Proficiency (LEP) in attendance, regardless of language, to form a functioning ELAC. The ELAC will be formed at the LEA when the School has 21 or more students of LEP.

The LEA will provide full opportunities for participation of parents with disabilities and parents of migratory children. To accomplish this goal, the LEA will do the following:

- The LEA will schedule meetings to enable families to share information about culture, background, children's talents and particular needs for the schools.

- Teachers will be encouraged to make home visits to discuss student progress with the parents. Parents, students, and teachers meet throughout the year to monitor students' progress.

- Teachers will meet one-on-one with parents of such students on an as needed basis to ensure the proper supports are in place for the student.

XIII. Notices

In accordance with ESSA, the LEA will provide the following notices to parents of children attending Title I, Part A schools:

- Annual report card;
- A notice regarding the professional qualifications of the student's classroom teachers;

- The notice regarding language instruction programs;
- Any other notices required by law.

XIV. Miscellaneous

- The LEA shall ensure that all information related to LEA and parent programs, meetings and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand.

- The LEA will provide other reasonable support for parental engagement activities as requested by parents.

School-Parent-Student Compact

This School-Parent*-Student Compact is adopted by the Magnolia Public Schools (MPS) (hereinafter "School") and is intended to outline how parents, the entire School staff and students will share the responsibility for improved student academic achievement and the means by which the School and parents will build and develop a partnership to help children achieve the State's high standards. To this end, the School, the Parent, and the Student roles are outlined as follows:

Within this compact, the word "parent" is employed. This word is intended to reach any caregiver of students enrolled in the School, including but not limited to, parents, guardians, grandparents, aunts, uncles, foster parents, stepparents, etc.

School Responsibilities

- The School will provide high-quality curriculum and instruction in a supportive and effective learning environment that enables all students to meet the State Core Curriculum Content Standards in all content areas through aligned curriculum and rigorous assessment.

- The School will provide a variety of support programs to enhance instruction at all grade levels.

- The School will send frequent reports to parents on their child's progress.

- The School will hold parent-teacher conferences during which this Compact will be discussed as it relates to the individual student's achievement. Conference dates will be listed on the school calendar and additional dates will be sent through notification by the School.

- The School will grant parents reasonable access to staff by appointment through the office.

- The School will provide parents with the ability to observe classroom activities by appointment through the office.

Parent Responsibilities

I understand that my child's studies are very important and my participation in activities at MPS is a critical component of my child's educational success. Therefore, I agree to carry out the following responsibilities to the best of my ability:

- I will take a positive and active role in supporting my student's education.

- I will make certain my student attends school regularly and on time.

- I will notify school when child is absent and provide appropriate documentation.

- I will ensure that my student follows the school attendance policy and dress codes.

- I will ensure that my child come to school rested, clean, well-fed, and appropriately dressed (in student uniform).

- I will notify office immediately if there is a change of home address or phone number.

- I will set aside a specific time and place for my student to do homework.

- I will support my student in completing homework, including, if necessary, limiting time watching television, computer gaming, and recreational internet use.

- I will allow my student to attend remedial and other programs offered if requested by the school as is needed for individual improvement.

- I will set up a college bound environment at home and support my student through the college admission and scholarship finding process.

- I will emphasize my child adhere to the MPS Discipline Code at all times.

- I will enforce the School Code of Conduct with my child, including ensuring my child is wearing the uniform and promoting respect for teachers and all adults and students.

- I will follow through with any problem behaviors noted by the School.

- I will attend orientation meetings prior to the start of School.

- I will communicate regularly with my student's teachers to ensure his/her academic success (includes attending at least two conferences in a school year).

- I will review information and work sent home and/or posted on-line for parents and students via the school website and the online Student Information System and respond as necessary (computer access is available for parents at School if needed).

- I will review progress reports that are sent by the School and respond as necessary.

- I will encourage positive attitudes toward school.

- I will talk with my student about what he/she is learning.

- I will expect and encourage my student to be focused on learning.

- I will expect and support my student to strive consistently to give his/her best, and to make his/her best academic progress.

- I will assure that my child does not destroy materials (textbooks, equipment, etc.) and/or MPS property.

- I will pay for any damages to materials and/or property incurred by student.

- I will assure that students do not bring destructive materials to school (markers, paint, etc.)

- I will assure that all school materials loaned to students will be returned in the condition issued (textbooks, library books, etc.) I will pay for any lost or damaged books in CASH only.

- I understand that a student's bringing or possession of any weapon is grounds for expulsion from the Charter School.

- I will complete and return all necessary school forms and documents on time as requested by school officials.

- I will try to volunteer at School when requested. (Parents/guardians are not required to volunteer for MPS.)

Student Responsibilities

I am aware of my responsibilities and will do my best to satisfy my parents'/teachers' expectations at MPS because this will help me do better in the future. I agree to really try and do the following:

- I will come to school dressed in uniform every day and on time.

- I will be prepared for all my classes with all required materials.

- I will complete class work and homework on time.

- I will do all the homework assigned to me the best way I can and ask for help when needed.

- I will strive consistently to give my best, and to make my best academic progress.

- I will act responsibly and respectfully at all times and towards all members of the school community.

- I will follow all school rules.

- I will obey the School's Code of Conduct.

- I will respect my property, that of others, and that of the School.

- I will take good care of my books, and other materials the School allows me to use.

- I will serve my community.

Parent's Right to Know Notification for Title 1 Schools - Teacher Qualification Information

All parents or guardians may request information regarding the professional qualifications of classroom teachers and/or paraprofessionals, including at a minimum whether the student's teacher:

- Has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- Is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived; and
- Is teaching in the field of discipline of the certification of the teacher.

In addition, parents of students attending a Title 1 school can request the qualifications of paraprofessionals/TAs serving their child. The following are qualification requirements for Title I paraprofessionals:

- Completed two years of study at an institution of higher education; or
- Obtained an associate's (or higher) degree; or
- Met a rigorous standard of quality and be able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing, reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness).

Every Student Succeeds Acts (ESSA) also requires MPS to notify parents when their child has been taught for four or more consecutive weeks by a teacher who has not met State certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.

These requirements help us to ensure that all students receive the best education from teachers who are highly skilled and knowledgeable in their subject areas. If there is any MPS teacher who has not met all of the State certification or licensure requirements at the grade level and subject area in which he/she has been assigned, we will work closely with the teacher to ensure that he/she will meet all State certification and licensure requirements at the grade level and subject area in which he/she has been assigned in a timely manner.

Surveys

Surveys – EC 51513 and 51514

Anonymous, voluntary and confidential research and evaluation tools to measure student's health behaviors and risks, including tests, questionnaires, and surveys containing age-appropriate questions about the student's attitudes and practices relating to sex, family life, morality, and religion may be administered to students if the parent is notified in writing that 1) this test, questionnaire, or survey is to be administered, 2) the student's parent is given the opportunity to review the test, questionnaire, or survey, and 3) the parent consents in writing. Questions pertaining to the sexual orientation and gender identity of a student shall not be removed from a survey that already includes them.

Annual Educational Partner Surveys

MPS annually conducts student, parent, and staff surveys to improve our educational partners' school experience. Conducting such educational partner surveys is an essential part of MPS' Local Control and Accountability Plan (LCAP) development process. State priority 6 under Local Control Funding Formula (LCFF) asks the schools to set annual measurable outcomes about school climate:

> School climate: pupil suspension rates, pupil expulsion rates, other local measures including surveys of pupils, parents, and teachers on the sense of safety and school connectedness. (Priority 6)

MPS uses the Panorama Education online platform to conduct educational partner surveys and analyze results. Our students and staff complete the survey online while parents have access to both online and paper surveys, in English and Spanish.

The survey questions were developed by WestEd for the California Department of Education and are used by the CORE Districts. The CORE Districts are situated in Fresno, Garden Grove, Long Beach, Los Angeles, Oakland, Sacramento, San Francisco, and Santa Ana. Using the same survey enables MPS to compare its results with the average results of the CORE Districts.

Our typical timeline for educational partner survey implementation is January through mid-February, with the intent to receive results by the end of February so that we can analyze the results in March to inform our LCAP and budget development. The survey questions use Likert-type scale to measure school experience in four topics for students, parents, and staff. Each topic has multiple questions that allow us to further analyze why a certain topic is rated relatively high or low. Following are the topics:

Topic 1	Climate of Support for Academic Learning
Topic 2	Knowledge and Fairness of Discipline, Rules and Norms
Topic 3	Safety
Topic 4	Sense of Belonging (School Connectedness)

To further engage our educational partners in the evaluation of their experience MPS also asks three open-ended free-response questions:

1. What Do You Like Best About Your School?
2. What Do You Like Least About Your School?
3. What Is One Suggestion You Would Like to Offer to Improve Your School?

School leadership teams and the MPS Home Office teams (academics, accountability, HR) read all free responses,

111

summarize major findings and recommendations by the educational partners, and consider all the feedback to create action steps for school improvement. The Home Office teams review the findings with each school leadership team. School leadership teams are then held accountable for sharing the survey results and findings with their educational partners at their site (teachers, parents, etc.) and developing an action plan for improvement.

Each school leadership team is also asked to write a reflection on the survey results and findings that identifies their greatest progress, greatest needs, and ways to improve so that we can maintain and improve educational quality of our schools on an ongoing basis. The teams are typically expected to complete their reflections in March and share it with the board and public in April. The feedback collection, reflection, and planning of next steps are all an integral part of our LCAP development process.

To obtain a copy of your school's survey reflections page that informs the LCAP, please contact the school office.

Complaint Procedures

Nondiscrimination Statement & Equal Opportunity

The Charter School does not discriminate against any person on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, citizenship, immigration status, religion, religious affiliation, sexual orientation, pregnancy status, or any other characteristic that is contained in the definition of hate crimes in the California Penal Code.

The Charter School adheres to all provisions of federal law related to students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 ("ADA"), and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA").

The Charter School does not discourage students from enrolling or seeking to enroll in the Charter School for any reason, including, but not limited to, academic performance, disability, neglect or delinquency, English proficiency, for being homeless or a foster/mobile youth, economic disadvantage, nationality, race, ethnicity, or sexual orientation. Charter School shall not encourage a student currently attending Charter School to disenroll or transfer to another school based on any of the aforementioned reasons except in cases of expulsion and suspension or involuntary removal in accordance with the Charter School's charter and relevant policies.

The Charter School does not request nor require student records prior to a student's enrollment.

The Charter School shall provide a copy of the California Department of Education Complaint Notice and Form to any parent, guardian, or student over the age of 18 at the following times: (1) when a parent, guardian, or student over of the age of 18 inquires about enrollment; (2) before conducting an enrollment lottery; and (3) before disenrollment of a student.

The Charter School is committed to providing an educational atmosphere that is free of unlawful harassment under Title IX of the Education Amendments of 1972 (sex); Titles IV, VI, and VII of the Civil Rights Act of 1964 (race, color, or national origin); The Age Discrimination Act of 1975; the IDEA; and Section 504 and Title II of the ADA (mental or physical disability). Charter School also prohibits sexual harassment, including cyber sexual bullying, and harassment based upon pregnancy, childbirth or related medical conditions, race or ethnicity, religion, religious affiliation, creed, color, citizenship, immigration status, gender, gender identity, gender expression, national origin or ancestry, physical or mental disability, medical condition, marital status, age, sexual orientation, or any other basis protected by federal, state, local law, ordinance or regulation.

Charter School does not condone or tolerate harassment of any type, including discrimination, intimidation, or bullying, including cyber sexual bullying, by any employee, independent contractor or other person with whom Charter School does business, or any other individual, student, or volunteer. This applies to all employees, students, or volunteers and relationships, regardless of position or gender. Charter School will promptly and thoroughly investigate any complaint of harassment and take appropriate corrective action, if warranted. Inquiries, complaints, or grievances regarding harassment as described in this section, above, should be directed to the Charter School Uniform Complaint Procedures ("UCP") Compliance Officer:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

The lack of English language skills will not be a barrier to admission or participation in Charter School's programs or activities. Charter School prohibits retaliation against anyone who files a complaint or who participates or refuses to participate in a complaint investigation.

Notice Under the Americans With Disabilities Act (ADA)

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (ADA), MPS will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

Effective Communication: MPS will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally MPS' programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

Modifications to Policies and Procedures: MPS will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal

112

opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in MPS offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity of MPS, should contact the Principal or designee hosting the event as soon as possible but no later than 48 hours before the scheduled event. For non-localized events, please contact the CEO & Superintendent of MPS to inquire about accessibility modifications.

> CEO & Superintendent

> 250 E. 1st St. Ste 1500
> Los Angeles, CA 90012
> (213) 628-3634
> ceo@magnoliapublicschools.org

The ADA does not require MPS to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of MPS is not accessible to persons with disabilities should be directed to the CEO & Superintendent.

MPS will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

Title IX

Title IX, Harassment, Intimidation, Discrimination, and Bullying Policy

Discrimination, sexual harassment, harassment, intimidation, and bullying are all disruptive behaviors, which interfere with students' ability to learn, negatively affect student engagement, diminish school safety, and contribute to a hostile school environment. As such, Magnolia Public School ("MPS" or the "Charter School") prohibits any acts of discrimination, sexual harassment, harassment, intimidation, and bullying altogether. This policy is inclusive of instances that occur on any area of the school campus, at school-sponsored events and activities, regardless of location, through school-owned technology, and through other electronic means.

As used in this policy, discrimination, sexual harassment, harassment, intimidation, and bullying are described as the intentional conduct, including verbal, physical, written communication or cyber-bullying, including cyber sexual bullying, based on the actual or perceived characteristics of mental or physical disability, sex (including pregnancy and related conditions, and parental status), sexual orientation, gender, gender identity, gender expression, immigration status, nationality (including national origin, country of origin, and citizenship), race or ethnicity (including ancestry, color, ethnic group identification, ethnic background, and traits historically associated with race, including, but not limited to, hair texture and protective hairstyles such as braids, locks, and twist), religion (including agnosticism and atheism), religious affiliation, medical condition, genetic information, marital status, age or association with a person or group with one or more of these actual or perceived characteristics or based on any other characteristic protected under applicable state or federal law or local ordinance. Hereafter, such actions are referred to as "misconduct prohibited by this Policy."

To the extent possible, the Charter School will make reasonable efforts to prevent students from being discriminated against, harassed, intimidated, and/or bullied, and will take action to investigate, respond, address and report on such behaviors in a timely manner. MPS school staff that witness acts of misconduct prohibited by this Policy will take immediate steps to intervene when safe to do so.

Moreover, the Charter School will not condone or tolerate misconduct prohibited by this Policy by any employee, independent contractor or other person with whom MPS does business, or any other individual, student, or volunteer. This Policy applies to all employees, students, or volunteer actions and relationships, regardless of position or gender. MPS will promptly and thoroughly investigate and respond to any complaint of misconduct prohibited by this Policy in a manner that is not deliberately indifferent and will take appropriate corrective action, if warranted. MPS complies with all applicable state and federal laws and regulations and local ordinances in its investigation of and response to reports of misconduct prohibited by this Policy.

Title IX, Harassment, Intimidation, Discrimination and Bullying Coordinator ("Coordinator"):

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

Definitions

Prohibited Unlawful Harassment

- Verbal conduct such as epithets, derogatory jokes or comments or slurs.

- Physical conduct including assault, unwanted touching, intentionally blocking normal movement or interfering with work or school because of sex, race or any other protected basis.

- Retaliation for reporting or threatening to report harassment.

- Deferential or preferential treatment based on any of the protected characteristics listed above.

Prohibited Unlawful Harassment under Title IX

Title IX (20 U.S.C. § 1681 *et seq.*; 34 C.F.R. § 106.1 *et seq.*) and California state law prohibit discrimination and harassment on the basis of sex. In accordance with these existing laws, discrimination and harassment on the basis of sex in education institutions, including in the education institution's admissions and employment practices, is prohibited. All persons, regardless of sex, are afforded equal rights and opportunities and freedom from unlawful discrimination and harassment in education programs or activities conducted by MPS.

MPS is committed to providing a work and educational environment free of sexual harassment and considers such harassment to be a major offense, which may result in disciplinary action. Inquiries about the application of Title IX and 34 C.F.R. Part 106 may be referred to the Coordinator, the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both.

Sexual harassment consists of conduct on the basis of sex, including but not limited to unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct on the basis of sex, regardless of whether or not the conduct is motivated by sexual desire, when: (a) Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, education, academic status, or progress; (b) submission to, or rejection of, the conduct by the individual is used as the basis of employment, educational or academic decisions affecting the individual; (c) the conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment; and/or (d) submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors,

programs, or activities available at or through the educational institution.

It is also unlawful to retaliate in any way against an individual who has articulated a good faith concern about sexual harassment against themselves or against another individual.

Sexual harassment may include, but is not limited to:

- Physical assaults of a sexual nature, such as:

  o Rape, sexual battery, molestation or attempts to commit these assaults.

  o Intentional physical conduct that is sexual in nature, such as touching, pinching, patting, grabbing, brushing against another's body, or poking another's body.

- Unwanted sexual advances, propositions or other sexual comments, such as:

  o Sexually oriented gestures, notices, remarks, jokes, or comments about a person's sexuality or sexual experience.

  o Preferential treatment or promises of preferential treatment to an individual for submitting to sexual conduct, including soliciting or attempting to solicit any individual to engage in sexual activity for compensation or reward or deferential treatment for rejecting sexual conduct.

  o Subjecting or threats of subjecting a student or employee to unwelcome sexual attention or conduct or intentionally making the student's or employee's performance more difficult because of the student's or the employee's sex.

- Sexual or discriminatory displays or publications anywhere in the work or educational environment, such as:

  o Displaying pictures, cartoons, posters, calendars, graffiti, objections, promotional materials, reading materials, or other materials that are sexually suggestive, sexually demeaning or pornographic or bringing or possessing any such material to read, display or view in the work or educational environment.

  o Reading publicly or otherwise publicizing in the work or educational environment materials that are in any way sexually revealing, sexually suggestive, sexually demeaning or pornographic.

  o Displaying signs or other materials purporting to segregate an individual by sex in an area of the work or educational environment (other than restrooms or similar rooms).

The illustrations of harassment and sexual harassment above are not to be construed as an all-inclusive list of prohibited acts under this Policy.

Prohibited Bullying

Bullying is defined as any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act. Bullying includes one or more acts committed by a student or group of students that may constitute sexual harassment, hate violence, or creates an intimidating and/or hostile educational environment, directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing a reasonable student* or students in fear of harm to that student's or those students' person or property.

2. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.

3. Causing a reasonable student to experience a substantial interference with his or her academic performance.

4. Causing a reasonable student to experience a substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by MPS.

* "Reasonable pupil" is defined as a pupil, including, but not limited to, an exceptional needs pupil, who exercises care, skill and judgment in conduct for a person of his or her age, or for a person of his or her age with his or her exceptional needs.

Cyberbullying is an electronic act that includes the transmission of harassing communication, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Electronic act means the creation and transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

1. A message, text, sound, video, or image.

2. A post on a social network Internet Web site including, but not limited to:

   a. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in the definition of "bullying," above.

   b. Creating a credible impersonation of another actual student for the purpose of

115

having one or more of the effects listed in the definition of "bullying," above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

   c. Creating a false profile for the purpose of having one or more of the effects listed in the definition of "bullying," above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.

3. An act of "Cyber sexual bullying" including, but not limited to:

   a. The dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in definition of "bullying," above. A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

   b. "Cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

4. Notwithstanding the definitions of "bullying" and "electronic act" above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

Formal Complaint of Sexual Harassment means a written document filed and signed by a complainant who is participating in or attempting to participate in MPS' education program or activity or signed by the Coordinator alleging sexual harassment against a respondent and requesting that MPS investigate the allegation of sexual harassment.

Respondent means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

Bullying and Cyberbullying Prevention Procedures

MPS has adopted the following procedures for preventing acts of bullying, including cyberbullying.

1. **Cyberbullying Prevention Procedures**

   MPS advises students:

      1. To never share passwords, personal data, or private photos online.
      2. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
      3. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
      4. To consider how it would feel receiving such comments before making comments about others online.

MPS informs Charter School employees, students, and parents/guardians of MPS' policies regarding the use of technology in and out of the classroom. MPS encourages parents/guardians to discuss these policies with their children to ensure their children understand and comply with such policies.

2. **Education**

   MPS employees cannot always be present when bullying incidents occur, so educating students about bullying is a key prevention technique to limit bullying from happening. MPS advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at MPS and encourages students to practice compassion and respect each other.

   Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived sexual orientation, gender identification, physical or cognitive disabilities, race, ethnicity, religion, and immigration status) and about the negative impact of bullying other students based on protected characteristics.

   MPS' bullying prevention education also discusses the differences between appropriate and inappropriate behaviors and includes sample situations to help students learn and practice appropriate behavior and to develop techniques and strategies to respond in a non-aggressive way

116

to bullying-type behaviors. Students will also develop confidence and learn how to advocate for themselves and others, and when to go to an adult for help.

MPS informs MPS employees, students, and parents/guardians of this Policy and encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

3. **Professional Development**

MPS annually makes available the online training module developed by the California Department of Education pursuant Education Code section 32283.5(a) to its certificated employees and all other MPS employees who have regular interaction with students.

MPS informs certificated employees about the common signs that a student is a target of bullying including:

- Physical cuts or injuries
- Lost or broken personal items
- Fear of going to school/practice/games
- Loss of interest in school, activities, or friends
- Trouble sleeping or eating
- Anxious/sick/nervous behavior or distracted appearance
- Self-destructiveness or displays of odd behavior
- Decreased self-esteem

Charter School also informs certificated employees about the groups of students determined by MPS, and available research, to be at elevated risk for bullying. These groups include but are not limited to:

- Students who are lesbian, gay, bisexual, transgender, or questioning youth ("LGBTQ") and those youth perceived as LGBTQ; and
- Students with physical or learning disabilities.

MPS encourages its employees to demonstrate effective problem-solving, anger management, and self-confidence skills for MPS students.

Grievance Procedures

1. Scope of Grievance Procedures

MPS will comply with its Uniform Complaint Procedures ("UCP") policy when investigating and responding to complaints alleging unlawful harassment, discrimination, intimidation or bullying against a protected group or on the basis of a person's association with a person or group with one or more of the protected characteristics set forth in the UCP that:

a. Are written and signed;

b. Filed by an individual who alleges that that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying, or by one who believes any specific class of individuals has been subjected to discrimination, harassment, intimidation or bullying prohibited by this part, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying; and

c. Submitted to the MPS UCP Compliance Officer not later than six (6) months from the date the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying.

The following grievance procedures shall be utilized for reports of misconduct prohibited by this Policy that do not comply with the writing, timeline, or other formal filing requirements of a uniform complaint. For formal complaints of sexual harassment, MPS will utilize the following grievance procedures in addition to its UCP when applicable.

2. Reporting

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene when safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this policy for reporting alleged acts of misconduct prohibited by this Policy.

Any student who believes they have been subject to misconduct prohibited by this Policy or has witnessed such prohibited misconduct is encouraged to immediately report such misconduct to the Coordinator:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. MPS will investigate and respond to all oral and written reports of misconduct prohibited by this Policy in a manner that is not deliberately indifferent. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Students are expected to report all incidents of misconduct prohibited by this Policy or other verbal, or physical abuses.

117

Any student who feels they are a target of such behavior should immediately contact a teacher, counselor, the Principal, Coordinator, a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

MPS acknowledges and respects every individual's right to privacy. All reports shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes keeping the identity of the reporter confidential, as appropriate, except to the extent necessary to comply with the law, carry out the investigation and/or to resolve the issue, as determined by the Coordinator or administrative designee on a case-by-case basis.

MPS prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual. Individuals alleging retaliation in violation of this Policy may file a grievance using the procedures set forth in this Policy. Knowingly making false statements or knowingly submitting false information during the grievance process is prohibited and may result in disciplinary action.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All staff, and any individual designated as a coordinator, investigator or decision-maker will receive sexual harassment training and/or instruction concerning sexual harassment as required by law.

3. Supportive Measures

Upon the receipt of an informal or formal complaint of sexual harassment, the Coordinator will promptly contact the complainant to discuss the availability of supportive measures. The Coordinator will consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint of sexual harassment, and explain the process for filing a formal complaint of sexual harassment.

Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint of sexual harassment or where no formal complaint of sexual harassment has been filed. Such measures are designed to restore or preserve equal access to MPS' education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or MPS' educational environment, or deter sexual harassment. Supportive measures available to complainants and respondents may include but are not limited to counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work

locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. MPS will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of MPS to provide the supportive measures.

4. Investigation and Response

Upon receipt of a report of misconduct prohibited by this Policy from a student, staff member, parent, volunteer, visitor or affiliate of MPS, the Coordinator (or administrative designee) will promptly initiate an investigation. In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the Coordinator (or administrative designee) determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the Coordinator (or administrative designee) will inform the complainant of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

At the conclusion of the investigation, the Coordinator (or administrative designee) will meet with the complainant and, to the extent possible with respect to confidentiality laws, to provide the complainant with information about the investigation, including any actions necessary to resolve the incident/situation. However, the Coordinator (or administrative designee) will not reveal confidential information related to other students or employees.

For investigations of and responses to formal complaints of sexual harassment, the following grievance procedures will apply:

- Notice of the Allegations
  - Upon receipt of a formal complaint of sexual harassment, the Coordinator will give all known parties written notice of its grievance process, including any voluntary informal resolution process. The notice will include:
    - A description of the allegations of sexual harassment at issue and to the extent known, the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident;
    - A statement that the respondent is presumed not responsible for the alleged conduct until a final decision is reached;
    - A statement that the parties may have an advisor of their choice, who may be an attorney, and may inspect and review evidence;
    - A statement that MPS prohibits an individual from knowingly making

118

MPS Student/Parent Handbook 2022-23

false statements or knowingly submitting false information during the grievance process.

- Emergency Removal
    - o MPS may place a non-student employee respondent on administrative leave during the pendency of a formal complaint of sexual harassment grievance process in accordance with MPS' policies.

    - o MPS may remove a respondent from MPS' education program or activity on an emergency basis, in accordance with MPS' policies, provided that MPS undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.

    - o This provision may not be construed to modify any rights under the IDEA, Section 504, or the ADA.

- Informal Resolution
    - o If a formal complaint of sexual harassment is filed, MPS may offer a voluntary informal resolution process, such as mediation, to the parties at any time prior to reaching a determination regarding responsibility. If MPS offers such a process, it will do the following:
        - ▪ Provide the parties with advance written notice of:
            - The allegations;
            - The requirements of the voluntary informal resolution process including the circumstances under which the parties are precluded from resuming a formal complaint of sexual harassment arising from the same allegations;
            - The parties' right to withdraw from the voluntary informal resolution process and resume the grievance process at any time prior to agreeing to a resolution; and
            - Any consequences resulting from participating in the voluntary informal

resolution process, including the records that will be maintained or could be shared; and

- ▪ Obtain the parties' advance voluntary, written consent to the informal resolution process.

    - o MPS will not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

- Investigation Process
    - o The decision-maker will not be the same person(s) as the Coordinator or the investigator. MPS shall ensure that all decision-makers and investigators do not have a conflict of interest or bias for or against complainants or respondents.

    - o In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the investigator determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the investigator will inform the complainant and any respondents in writing of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

    - o The parties will be provided with an equal opportunity to present witnesses, to inspect and review any evidence obtained that is directly related to the allegations raised, and to have an advisor present during any investigative meeting or interview.

    - o The parties will not be prohibited from discussing the allegations under investigation or to gather and present relevant evidence.

    - o A party whose participation is invited or expected at an investigative meeting or interview will receive written notice of the date, time, location, participants, and purpose of the meeting or interview with sufficient time for the party to prepare to participate.

    - o Prior to completion of the investigative report, MPS will send to each party and the party's advisor, if any, a copy of the evidence subject to inspection and review, and the parties will have at least ten (10) days to submit a written response for the investigator's consideration prior to the completion of the investigation report.

    - o The investigator will complete an investigation report that fairly summarizes relevant evidence and send a copy of the report to each party and the party's advisor, if

119

any, at least ten (10) days prior to the determination of responsibility.

- Dismissal of a Formal Complaint of Sexual Harassment

  o If the investigation reveals that the alleged harassment did not occur in MPS' educational program in the United States or would not constitute sexual harassment even if proved, the formal complaint with regard to that conduct must be dismissed. However, such a dismissal does not preclude action under another applicable MPS policy.

  o MPS may dismiss a formal complaint of sexual harassment if:
    ▪ The complainant provides a written withdrawal of the complaint to the Coordinator;
    ▪ The respondent is no longer employed or enrolled at MPS; or
    ▪ The specific circumstances prevent MPS from gathering evidence sufficient to reach a decision on the formal complaint or the allegations therein.

  o If a formal complaint of sexual harassment or any of the claims therein are dismissed, MPS will promptly send written notice of the dismissal and the reason(s) for the dismissal simultaneously to the parties.

- Determination of Responsibility

  o The standard of evidence used to determine responsibility is the preponderance of the evidence standard.

  o MPS will send a written decision on the formal complaint to the complainant and respondent simultaneously that describes:
    ▪ The allegations in the formal complaint of sexual harassment;
    ▪ All procedural steps taken including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
    ▪ The findings of facts supporting the determination;
    ▪ The conclusions about the application of MPS' code of conduct to the facts;
    ▪ The decision and rationale for each allegation;
    ▪ Any disciplinary sanctions the recipient imposes on the respondent, and whether remedies designed to restore or preserve equal access to the education program or activity will be provided to the complainant; and
    ▪ The procedures and permissible bases for appeals.

5. Consequences

Students or employees who engage in misconduct prohibited by this Policy, knowingly make false statements or knowingly submit false information during the grievance process may be subject to disciplinary action up to and including expulsion from MPS or termination of employment. The Coordinator is responsible for effective implementation of any remedies ordered by MPS in response to a formal complaint of sexual harassment.

6. Right of Appeal

Should the reporting individual find MPS' resolution unsatisfactory, the reporting individual may, within five (5) business days of notice of MPS' decision or resolution, submit a written appeal to the President of the MPS Board, who will review the investigation and render a final decision.

The following appeal rights and procedures will also apply to formal complaints of sexual harassment:

- The complainant and the respondent shall have the same appeal rights and MPS will implement appeal procedures equally for both parties.

- MPS will notify the other party in writing when an appeal is filed.

- The decision-maker for the appeal will give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome; issue a written decision describing the result of the appeal and the rationale for the result; and provide the written decision simultaneously to both parties.

7. Recordkeeping

All records related to any investigation of complaints under this Policy are maintained in a secure location. MPS will maintain the following records for at least seven (7) years:

- Records of each sexual harassment investigation, including any determination of responsibility; any audio or audiovisual recording or transcript; any disciplinary sanctions imposed on the respondent; and any remedies provided to the complainant.

- Records of any appeal of a formal sexual harassment complaint and the results of that appeal.

- Records of any informal resolution of a sexual harassment complaint and the results of that informal resolution.

- All materials used to train Title IX coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process.

- Records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment.

Complaint forms for **"Title IX, Harassment, Intimidation, Discrimination, and Bullying"** and **"Uniform Complaint Procedures"** are included at the end of this handbook and copies are also available in the school office.

120

Uniform Complaint Policy and Procedures

Uniform Complaint Procedures (UCP) Annual Notice

Charter School is the local agency primarily responsible for compliance with federal and state laws and regulations governing educational programs. Charter School shall investigate and seek to resolve complaints using policies and procedures known as the Uniform Complaint Procedure ("UCP") adopted by our Governing Board for the following types of complaints:

1. Complaints alleging unlawful discrimination, harassment, intimidation, or bullying against any protected group on the basis of the actual or perceived characteristics of age, ancestry, color, mental disability, physical disability, ethnic group identification, immigration status, citizenship, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, religion, medical condition, marital status, sex, or sexual orientation, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics in any Charter School program or activity.

2. Complaints alleging a violation of state or federal law or regulation governing the following programs:

   - Accommodations for Pregnant and Parenting Pupils;
   - Adult Education;
   - After School Education and Safety;
   - Career Technical Education;
   - Career Technical and Technical Training;
   - Child Care and Development;
   - Compensatory Education;
   - Consolidated Application;
   - Course Periods without Educational Content;
   - Education of Pupils in Foster Care, Pupils who Are Homeless, Migratory Pupils, former Juvenile Court Pupils now Enrolled in a public school and Children of Military Families;
   - Every Student Succeeds Act;
   - Local Control & Accountability Plans (LCAP)/LCFF;
   - Migrant Education;
   - Physical Education Instructional Minutes;
   - Pupil Fees;
   - Reasonable Accommodations to a Lactating Pupil;
   - Regional Occupational Centers and Programs;

   - School Plans for School Achievement;
   - School Safety Plans;
   - Schoolsite Councils.

3. Complaints alleging noncompliance with laws relating to pupil fees. A student enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity. A pupil fee includes, but is not limited to, all of the following:

   - A fee charged to a pupil as a condition for registering for school or classes, or as a condition for participation in a class or an extracurricular activity, regardless of whether the class or activity is elective or compulsory or is for credit.
   - A security deposit, or other payment, that a pupil is required to make to obtain a lock, locker, book, class apparatus, musical instrument, clothes, or other materials or equipment.
   - A purchase that a pupil is required to make to obtain materials, supplies, equipment, or clothes associated with an educational activity.

Complaints of noncompliance with laws relating to pupil fees may be filed with the CEO of Charter School or the Compliance Officer identified below.

4. Complaints alleging noncompliance with the requirements governing the Local Control Funding Formula ("LCFF") or Local Control and Accountability Plans ("LCAP") under Education Code sections 47606.5 and 47607.3, as applicable. If Charter School adopts a School Plan for Student Achievement ("SPSA") in addition to its LCAP, complaints of noncompliance with the requirements of the SPSA under Education Code sections 64000, 64001, 65000, and 65001 shall also fall under the UCP.

Complaints alleging noncompliance regarding child nutrition programs established pursuant to Education Code sections 49490-49590 are governed by Title 7, Code of Federal Regulations ("C.F.R.") sections 210.19(a)(4), 215.1(a), 220.13(c), 225.11(b), 226.6(n), and 250.15(d) and Title 5, California Code of Regulations ("C.C.R.") sections 15580 - 15584.

Complaints alleging noncompliance regarding special education programs established pursuant to Education Code sections 56000-56865 and 59000-59300 are governed by the procedures set forth in 5 C.C.R. sections 3200-3205 and 34 C.F.R. sections 300.151-300.153.

Complaints other than complaints relating to pupil fees must be filed in writing with the following Compliance Officer:

CEO and Superintendent
Magnolia Public Schools
250 E. 1st St STE 1500
Los Angeles, CA 90012
(213) 628-3634

121

Upon receipt of a complaint, the CEO will appropriately assign to the Principal of the MPS campus attended by the complainant. That Principal and/or designee shall investigate the complaint, with oversight by the CEO.

Only complaints regarding pupil fees or LCAP compliance may be filed anonymously and only if the anonymous complainant provides evidence or information leading to evidence to support an allegation of noncompliance with laws relating to pupil fees or LCAP.

Complaints alleging unlawful discrimination, harassment, intimidation, or bullying, must be filed within six (6) months from the date the alleged discrimination, harassment, intimidation, or bullying, occurred or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation, or bullying. All other complaints under the UCP shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which Charter School's Board of Directors approved the LCAP or the annual update was adopted by Charter School.

The Compliance Officer responsible for investigating the complaint shall conduct and complete the investigation in accordance with California regulations and in accordance with Charter School's UCP Policy. The Compliance Officer shall provide the complainant with a final written investigation report ("Decision") within sixty (60) calendar days from Charter School's receipt of the complaint. This sixty (60) calendar day time period may be extended by written agreement of the complainant.

The complainant has a right to appeal Charter School's Decision to the California Department of Education ("CDE") by filing a written appeal within thirty (30) calendar days of the date of the Charter School's written Decision, except if Charter School has used its UCP to address a complaint that is not subject to the UCP requirements. The appeal must include a copy of the complaint filed with Charter School, a copy of Charter School's Decision, and the complainant must specify and explain the basis for the appeal of the Decision, including at least one of the following:

1. Charter School failed to follow its complaint procedures.

2. Relative to the allegations of the complaint, Charter School's Decision lacks material findings of fact necessary to reach a conclusion of law.

3. The material findings of fact in Charter School's Decision are not supported by substantial evidence.

4. The legal conclusion in Charter School's Decision is inconsistent with the law.

5. In a case in which Charter School's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

A complainant who appeals Charter School's Decision on a UCP complaint to the CDE shall receive a written appeal

decision within sixty (60) calendar days of the CDE's receipt of the appeal, unless extended by written agreement with the complainant or the CDE documents exceptional circumstances and informs the complainant.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision.

If a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.

If Charter School finds merit in a UCP complaint, or the CDE finds merit in an appeal, Charter School shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.

A complainant may pursue available civil law remedies outside of Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of the complainant's right to file a complaint in accordance with 5 CCR § 4622.

The UCP Annual Notice, the UCP, and the complaint form for the UCP are all included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the CEO.

Note: It is not required to use the complaint form for the UCP to file a UCP complaint. If the complainant is unable to put the complaint in writing, due to a disability or illiteracy, we shall assist the complainant in the filing of the complaint.

Uniform Complaint Procedures (UCP) Policies and Procedures

Magnolia Public Schools ("MPS" or "Charter School") complies with applicable federal and state laws and regulations. MPS is the local agency primarily responsible for compliance with federal and state laws and regulations governing educational programs. Pursuant to this policy, persons responsible for compliance and/or conducting investigations shall be knowledgeable about the laws and programs, which they are assigned to investigate.

Scope

This complaint procedure is adopted to provide a uniform system of complaint processing ("UCP") for the following types of complaints:

1. Complaints alleging unlawful discrimination, harassment, intimidation or bullying against any protected group on the basis of the actual or perceived characteristics of age, ancestry, color, mental disability, physical disability, ethnic group identification, immigration status, citizenship, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, religion, medical condition, marital status, sex, or sexual orientation, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics in any MPS program or activity.

2. Complaints alleging a violation of state or federal law or regulation governing the following programs:

    - Accommodations for Pregnant and Parenting Pupils;
    - Adult Education;
    - After School Education and Safety;
    - Career Technical Education;
    - Career Technical and Technical Training;
    - Child Care and Development;
    - Compensatory Education;
    - Consolidated Application;
    - Course Periods without Educational Content;
    - Education of Pupils in Foster Care, Pupils who Are Homeless, Migratory Pupils, former Juvenile Court Pupils now Enrolled in a public school and Children of Military Families;
    - Every Student Succeeds Act;
    - Local Control & Accountability Plans (LCAP)/LCFF;
    - Migrant Education;
    - Physical Education Instructional Minutes;
    - Pupil Fees;

123

- Reasonable Accommodations to a Lactating Pupil;
- Regional Occupational Centers and Programs;
- School Plans for School Achievement;
- School Safety Plans;
- Schoolsite Councils.

3. Complaints alleging that a student enrolled in a public school was required to pay a pupil fee for participation in an educational activity as those terms are defined below.

    a. "Educational activity" means an activity offered by the charter school that constitutes an integral fundamental part of elementary and secondary education, including, but not limited to, curricular and extracurricular activities.

    b. "Pupil fee" means a fee, deposit or other charge imposed on students, or a student's parents/guardians, in violation of Education Code section 49011 and Section 5 of Article IX of the California Constitution, which require educational activities to be provided free of charge to all students without regard to their families' ability or willingness to pay fees or request special waivers, as provided for in *Hartzell v. Connell* (1984) 35 Cal.3d 899. A pupil fee includes, but is not limited to, all of the following:

        i. A fee charged to a student as a condition for registering for school or classes, or as a condition for participation in a class or an extracurricular activity, regardless of whether the class or activity is elective or compulsory or is for credit.

        ii. A security deposit, or other payment, that a student is required to make to obtain a lock, locker, book, class apparatus, musical instrument, uniform or other materials or equipment.

        iii. A purchase that a student is required to make to obtain materials, supplies, equipment or uniforms associated with an educational activity.

    c. A pupil fees complaint and complaints regarding local control and accountability plans ("LCAP") only, may be filed anonymously (without an identifying signature), if the complaint

provides evidence or information leading to evidence to support an allegation of noncompliance with Education Code sections 52060 - 52077, including an allegation of a violation of Education Code sections 47606.5 or 47607.3, as referenced in Education Code section 52075, regarding local control and accountability plans.

    d. If MPS finds merit in a pupil fees complaint, or the California Department of Education ("CDE") finds merit in an appeal, MPS shall provide a remedy to all affected students, parents/guardians that, where applicable, includes reasonable efforts by MPS to ensure full reimbursement to all affected students and parents/guardians, subject to procedures established through regulations adopted by the state board.

    e. Nothing in this Policy shall be interpreted to prohibit solicitation of voluntary donations of funds or property, voluntary participation in fundraising activities, or MPS and other entities from providing student prizes or other recognition for voluntarily participating in fundraising activities.

Complaints alleging noncompliance with the requirements governing the Local Control Funding Formula ("LCFF") or LCAP under Education Code sections 47606.5 and 47607.3, as applicable. If MPS adopts a School Plan for Student Achievement in addition to its LCAP, complaints of noncompliance with the requirements of the School Plan for Student Achievement under Education Code sections 64000, 64001, 65000, and 65001 shall also fall under this Policy.

Complaints alleging noncompliance regarding child nutrition programs established pursuant to Education Code sections 49490-49590 are governed by Title 7, Code of Federal Regulations ("C.F.R.") sections 210.19(a)(4), 215.1(a), 220.13(c), 225.11(b), 226.6(n), and 250.15(d) and Title 5, California Code of Regulations ("C.C.R.") sections 15580 - 15584.

Complaints alleging noncompliance regarding special education programs established pursuant to Education Code sections 56000-56865 and 59000-59300 are governed by the procedures set forth in 5 C.C.R. sections 3200-3205 and 34 C.F.R. sections 300.151-300.153.MPS acknowledges and respects every individual's rights to privacy. Unlawful discrimination, harassment, intimidation or bullying complaints shall be investigated in a manner that protects (to the greatest extent reasonably possible and as permitted by law) confidentiality of the parties, including but not limited to the identity of the complainant, and maintains the integrity of the process. MPS cannot guarantee anonymity of the complainant. This includes keeping the identity of the complainant confidential. However, MPS will attempt to do so as appropriate. MPS may find it necessary to disclose information regarding the complaint/complainant to the

extent required by law or necessary to carry out the investigation or proceedings, as determined by the CEO, MPS campus Principal, or designee on a case-by-case basis. MPS shall ensure that complainants are protected from retaliation.

Compliance Officer

The Board of Directors designates the following compliance officer(s) to receive and investigate complaints and to ensure MPS' compliance with law:

> CEO and Superintendent
> Magnolia Public Schools
> 250 E. 1st St STE 1500
> Los Angeles, CA 90012
> (213) 628-3634

Upon receipt of a complaint, the CEO will appropriately assign to the Principal of the MPS campus attended by the complainant. That Principal and/or designee shall investigate the complaint, with oversight by the CEO.

The CEO or designee shall ensure that the compliance officer(s) designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. The compliance officer may have access to legal counsel as determined by the CEO or designee.

Should a complaint be filed against the CEO, the compliance officer for that case shall be the President of the MPS Board of Directors.

Notifications

The CEO or designee shall make available copies of this Policy free of charge. The annual notice of this Policy will be made available on MPS' website.

MPS shall annually provide written notification of MPS' UCP to employees, students, parents/guardians, advisory committees, private school officials or representatives, and other interested parties as applicable.

The annual notice shall be in English. When necessary under Education Code section 48985, if fifteen (15) percent or more of the students enrolled in MPS speak a single primary language other than English, this annual notice will also be provided to the parent/guardian of any such students in their primary language.

The annual notice shall include the following:

1. A list of the types of complaints that fall under the scope of the UCP and the state and federal provisions that govern complaints regarding child nutrition programs and special education programs.

2. A statement clearly identifying any California State preschool programs that MPS is operating as exempt from licensing pursuant to Health and Safety Code section 1596.792(o) and corresponding Title 5 health and safety regulations, and any California State preschool programs that MPS is operating pursuant to Title 22 licensing requirements.

3. A statement that MPS is primarily responsible for compliance with federal and state laws and regulations.

4. A statement that a student enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity.

5. A statement identifying the title of the compliance officer, and the identity(ies) of the person(s) currently occupying that position, if known.

6. A statement that if a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.

7. A statement that the complainant has a right to appeal MPS' decision to the CDE by filing a written appeal within thirty (30) calendar days of the date of MPS' decision, except if MPS has used its UCP to address a complaint that is not subject to the UCP requirements.

8. A statement that a complainant who appeals MPS' decision on a UCP complaint to the CDE shall receive a written appeal decision within sixty (60) calendar days of the CDE's receipt of the appeal, unless extended by written agreement with the complainant or the CDE documents exceptional circumstances and informs the complainant.

9. A statement that if MPS finds merit in a UCP complaint, or the CDE finds merit in an appeal, MPS shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.

10. A statement advising the complainant of any civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, if applicable, and of the appeal pursuant to Education Code section 262.3.

11. A statement that copies of MPS' UCP shall be available free of charge.

The UCP Annual Notice, the UCP, and the complaint form for the UCP are all included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the CEO.

Note: It is not required to use the complaint form for the UCP to file a UCP complaint. If the complainant is unable to put the complaint in writing, due to a disability or illiteracy, we shall assist the complainant in the filing of the complaint.

Procedures

The following procedures shall be used to address all complaints which allege that MPS has violated federal or state laws or regulations enumerated in the section "Scope," above. The compliance officer shall maintain a record of each complaint and subsequent related actions for at least three (3) calendar years.

All parties named shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

- **Step 1: Filing of Complaint**

Any individual, including a person's duly authorized representative or an interested third party, public agency, or organization may file a written complaint of alleged noncompliance or unlawful discrimination, harassment, intimidation or bullying pursuant to this Policy.

A complaint of unlawful discrimination, harassment, intimidation or bullying may be filed by an individual who alleges that that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying or by one who believes any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint no later than six (6) months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the CEO, Principal, or designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the CEO, Principal, or designee shall be made in writing. The period for filing may be extended by the CEO, Principal, or designee for good cause for a period not to exceed ninety (90) calendar days following the expiration of the six-month time period. The CEO, Principal, or designee shall respond immediately upon a receipt of a request for extension.

All other complaints under this Policy shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the MPS Board of Directors approved the LCAP or the annual update was adopted by MPS.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Complaints filed pursuant to this Policy must be in writing and signed. A signature may be handwritten, typed (including in an email) or electronically generated. Only complaints regarding pupil fees or LCAP compliance may be filed anonymously as set forth in this Policy. If a complainant is unable to put a complaint in writing due to

conditions such as a disability or illiteracy, MPS staff shall assist the complainant in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) business days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process. Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information. If the mediation process does not resolve the complaint to the satisfaction of the complainant, the compliance officer shall proceed with the investigation of the complaint. The use of mediation shall not extend MPS' timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) business days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or the complainant's representative to repeat the complaint orally.

The complainant and/or the complainant's representative shall have an opportunity to present evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide the compliance officer with documents or other evidence related to the allegations in the complaint, or a complainant's failure or refusal to cooperate in the investigation or the complainant's engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

MPS' refusal to provide the compliance officer with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- **Step 4: Final Written Decision**

MPS shall issue an investigation report (the "Decision") based on the evidence. MPS' Decision shall be in writing and sent to the complainant within sixty (60) calendar days of MPS' receipt unless the timeframe is extended with the written agreement of the complainant. MPS' Decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The Decision shall include:

1. The findings of fact based on evidence gathered.

2. The conclusion providing a clear determination for each allegation as to whether MPS is in compliance with the relevant law.

3. Corrective actions, if MPS finds merit in the complaint and any are warranted or required by law.

4. Notice of the complainant's right to appeal MPS' Decision within thirty (30) calendar days to the CDE, except when MPS has used its UCP to address a complaints that are not subject to the UCP requirements.

5. Procedures to be followed for initiating such an appeal.

If an employee is disciplined as a result of the complaint, the Decision shall simply state that effective action was taken and that the employee was informed of MPS' expectations. The Decision shall not give any further information as to the nature of the disciplinary action except as required by applicable law.

Appeals to the CDE

If dissatisfied with the Decision, the complainant may appeal in writing to the CDE within thirty (30) calendar days of receiving the Decision. The appeal shall be accompanied by a copy of the complaint filed with MPS and a copy of the Decision. When appealing to the CDE, the complainant must specify and explain the basis for the appeal, including at least one of the following:

1. MPS failed to follow its complaint procedures.

2. Relative to the allegations of the complaint, MPS's Decision lacks material findings of fact necessary to reach a conclusion of law.

3. The material findings of fact in MPS' Decision are not supported by substantial evidence.

4. The legal conclusion in MPS' Decision is inconsistent with the law.

5. In a case in which MPS' Decision found noncompliance, the corrective actions fail to provide a proper remedy.

Upon notification by the CDE that the complainant has appealed the Decision, the Principal or designee, under oversight by the CEO, shall forward the following documents to the CDE within ten (10) calendar days of the date of notification:

1. A copy of the original complaint.

2. A copy of the Decision.

3. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by the parties or gathered by the investigator.

4. A report of any action taken to resolve the complaint.

5. A copy of MPS' complaint procedures.

6. Other relevant information requested by the CDE.

If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to MPS for resolution as a new complaint. If the CDE notifies MPS that its Decision failed to address an allegation raised by the complaint and subject to the UCP process, MPS will investigate and address such allegation(s) in accordance with the UCP requirements and provide the CDE and the appellant with an amended Decision addressing such allegation(s) within twenty (20) calendar days of the CDE's notification. The amended Decision will inform the appellant of the right to separately appeal the amended Decision with respect to the complaint allegation(s) not addressed in the original Decision.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision. The SSPI will not consider any information not previously submitted to the CDE by a party during the appeal unless such information was unknown to the party at the time of the appeal and, with due diligence, could not have become known to the party. Pending the SSPI's response to a request for reconsideration, the CDE appeal Decision remains in effect and enforceable, unless stayed by a court. The CDE may directly intervene in the complaint without waiting for action by MPS when one of the conditions listed in 5 C.C.R. section 4650 exists, including but not limited to cases in which through no fault of the complainant, MPS has not taken action within sixty (60) calendar days of the date the complaint was filed with MPS.

Civil Law Remedies

A complainant may pursue available civil law remedies outside of MPS' complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if MPS has appropriately, and in a timely manner, apprised the complainant of their right to file a complaint.

MPS Student/Parent Handbook   2022-23

General Complaint Procedures

The ultimate purpose of this general complaint procedure is to encourage the growth and development of MPS as a healthy community. Conflict is often a part of any development or growth process and may arise in any community. An effective process for resolving conflict is therefore both consistent with the vision and mission of MPS, and an essential component of the communication model that our School has adopted.

MPS recognizes that effective communication is paramount in effective conflict resolution and therefore strongly encourages communication strategies that include: Taking personal responsibility for one's own feelings and needs; communication that mutually acknowledges the needs and concerns of one another; and demonstrating honesty and integrity in every interaction.

LEVEL 1: Direct Resolution

If reasonably possible, general complaints should be resolved at the lowest possible level, including attempts to discuss/resolve concerns with the person directly using conflict resolution skills without the intervention of a supervisor or other School administrator. It is the hope of MPS that most disputes can be resolved informally by direct and healthy communication between individuals. Such attempts at informal resolution should be documented in writing to assist the Principal (or CEO & Superintendent) and/or Board of Directors to participate effectively in the conflict's resolution.

Examples:

- Pedagogical issues pertaining to anything that occurs in the classroom, i.e., teaching, curriculum, classroom management, or teacher-student relationships, should be addressed directly with the class teacher. Teachers can be contacted by email, written note or via appointment.

- Complaints/concerns about employees or supervisors that do not involve complaints of discrimination or harassment or violations of law should be first addressed with the employee or supervisor directly.

  If the person(s) involved are unable to resolve the conflict or complaint, the complainant should contact the immediate/appropriate supervisor in an effort to resolve the issue.

LEVEL 2: School Level Resolution

At this step, the complainant should be prepared to give details about the complaint and steps taken to resolve it. The immediate/appropriate supervisor will acknowledge receipt of the complaint in **three (3)** working days, investigate the complaint, a process which normally involves a discussion with the complainant, gathering of relevant facts and evidence, and respond to the complainant within **ten (10)** working days.

Examples:

- Pedagogical, academic or teacher related issues should be addressed with the Dean of Academics/Assistant Principal.

- Student behavior and discipline issues should be addressed with the Dean of Students/Assistant Principal.

- All other issues should be addressed with the Principal.

If the complainant is not satisfied with the response from the immediate/appropriate supervisor, e.g., Dean of Academics/Students or Assistant Principal or the complaint should be directly addressed with the Principal, the complainant should contact the Principal, who will respond within the same timeline. If the complainant is still dissatisfied, and wishes to take it further, the complainant, in writing, should bring the matter to the attention of the CEO & Superintendent of MPS in an effort to resolve the issue.

LEVEL 3: MPS Home Office ("Home Office") Level Resolution

At this step, the complainant should fill out the attached **"General Complaint Procedures Form"** giving details about the complaint and steps taken to resolve it, and contact the CEO & Superintendent of MPS at:

> CEO & Superintendent
> Magnolia Public Schools
> 250 E. 1st St. Ste 1500
> Los Angeles, CA 90012
> (213) 628-3634

The CEO & Superintendent (designee) will acknowledge receipt of the written complaint in **five (5)** working days, attempt to identify a resolution that is acceptable to both parties, within **fifteen (15)** working days of the receipt of the written complaint.

If the complainant is not satisfied with the response from the CEO & Superintendent (designee), and wishes to take it further, the complainant, in writing, should bring the matter to the attention of the MPS Board of Directors ("the Board.")

LEVEL 4: Board Level Resolution*

At this step, the complainant can file a written complaint with the Board through the Administrative Assistant at the MPS Home Office. *(Same contact information as in Level 3)* The complainant should update the "General Complaint Procedures Form" that was used in Level 3. The Administrative Assistant will acknowledge receipt of the written complaint in **five (5)** working days. The Board may consider the matter at its next regular Board meeting or at a special board meeting convened in order to meet the internal 60-day target within which MPS strives to answer the complaint. The Board may decide not to hear the complaint, in which case the CEO & Superintendent's decision will be final. If the Board hears the complaint, the Administrative Assistant will send the Board's decision to the complainant within **sixty (60)** days of the School's initial receipt of the complaint or within the time period that has been specified in a written agreement with the complainant. The decision of the Board shall be final.

MPS Student/Parent Handbook   2022-23

* For MSA-San Diego, MSA-San Diego Governance Committee will work with the Principal and the Home Office in following the General Complaint Procedures to resolve internal complaints and conflicts before they escalate to the MPS Board level.

The complainant has a right to appeal the Board's decision to the California Department of Education (CDE). In that case, the complainant needs to fill out a **"Uniform Complaint Procedure Form"** - provided in this handbook – and file it within **fifteen (15)** days of receiving the decision. The appeal must include a copy of the complaint filed with the School and a copy of the Board's decision. The appeal should be sent to:

> California Department of Education
> 1430 N Street
> Sacramento, CA 95814

Complaint form for the **"General Complaint Procedures"** and the **"Uniform Complaint Procedures"** are included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website.

INFORMATION SHEETS & NOTICES

MAGNOLIA PUBLIC SCHOOLS

2022-23 Directory Information Release Opt-Out Form

(Applicable Only for the Current School Year)

COMPLETE THIS FORM ONLY IF YOU ARE OPTING OUT.

Student Name: _____ Date of Birth: _____

Address: _____

City: _____ Zip Code: _____

Telephone No.: _____ Grade: _____

School: _____

The primary purpose of directory information is to allow MPS to include this type of information from your child's education records in certain school publications. Directory information includes names, addresses and telephone listings, information that is generally not considered harmful or an invasion of privacy if released.

The Family Educational Rights and Privacy Act (FERPA) permits MPS to disclose appropriately designated "directory information" without written consent, unless you have advised MPS that you do not want your student's directory information disclosed without your prior written consent.

Directory information regarding pupil identified as a homeless child or youth shall not be released unless a parent, or eligible pupil, has provided written consent that directory information may be released.

<u>Student Directory Information</u>

☐ I **do not** wish to have any directory information released to any individual or organization.

2022-23 Cal Grant Program Opt-Out Form

(For students in the 11th grade)

COMPLETE THIS FORM ONLY IF YOU ARE OPTING OUT.

Student Name: _____ Date of Birth: _____

Address: _____

City: _____ Zip Code: _____

Telephone No.: _____ Grade: _____

School: _____

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements. Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

In order to assist students in applying for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant. Unless the school is notified while the student is in the 11th grade that he/she does not want to be considered a Cal Grant applicant, the student's GPA will be submitted to the California Student Aid Commission (CASC) electronically by a school or school district official before October 1 of the student's 12th grade year.

Please indicate below if you would not like the school to electronically send CASC the student's GPA when he/she is in the 12th grade. Until a student turns 18 years of age, only the parent/guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself/herself out, and can opt in if the parent/guardian had previously decided to opt out the student.

☐ I **do not** want my/my student's GPA to be sent to CASC in the 12th grade.

2022-23 Annual Pesticide Notification Request

(Applicable Only for the Current School Year)

Parents/guardians can register with the school to receive notification of individual pesticide applications. Persons who register for this notification shall be notified at least seventy-two (72) hours prior to the application, except in emergencies, and will be provided the name and active ingredient(s) of the pesticide as well as the intended date of application.

Parents/guardians seeking access to information on pesticides and pesticide use reduction developed by the Department of Pesticide Regulation pursuant to California Food and Agricultural Code section 13184, can do so by accessing the Department's web-site at www.cdpr.ca.gov.

Student Name: _____   Date of Birth: _____

Address: _____

City: _____   Zip Code: _____

Telephone No.: _____   Grade: _____

School: _____

☐ I would like to be pre-notified every time a pesticide application is to take place at the school. I understand that the notification will be provided at least 72 hours before the application.

2022-23 Concussion Information Sheet

(Applicable Only for the Current School Year)

A concussion is a type of brain injury and all brain injuries are serious. A concussion can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. It can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a "ding" or a bump on the head can be serious.** You can't see a concussion and most sports concussions occur without loss of consciousness.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion may show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion listed below, or if you notice the symptoms or signs of concussion yourself, your child should be kept out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, determines that your child is symptom-free and able to return to play.

Signs observed by coaching staff…	*Symptoms reported by athletes……*
Appears dazed or stunned	Headache or "pressure" in head
Is confused about assignment or position	Nausea or vomiting
Forgets an instruction	Balance problems or dizziness
Is unsure of game, score, or opponent	Double or blurry vision
Moves clumsily	Sensitivity to light
Answers questions slowly	Sensitivity to noise
Loses consciousness (even briefly)	Feeling sluggish, hazy, foggy, or groggy
Shows mood, behavior, or personality changes	Concentration or memory problems
Can't recall events *prior* to hit or fall	Confusion
Can't recall events *after* hit or fall	Just not "feeling right" or "feeling down"

Concussions affect people differently. While most athletes with concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer. In rare cases, a dangerous blood clot may form on the brain and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body she/he exhibits any of the following danger signs:

One pupil is larger than the other	Convulsions or seizures
Is drowsy or cannot be awakened	Cannot recognize people or places
Weakness, numbness, or decreased coordination	Repeated vomiting or nausea
Slurred speech	Has unusual behavior
A headache that not only does not diminish, but gets worse	Becomes increasingly confused, restless, or agitated
Loses consciousness	

133

WHY MUST AN ATHLETE BE REMOVED FROM PLAY AFTER A CONCUSSION?

If an athlete has a concussion, his/her brain needs time to heal. Continuing to play while the brain is still healing leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that young athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete's safety.

IF YOU THINK YOUR CHILD HAS SUFFERED A CONCUSSION

If you suspect that your child has a concussion, remove him/her from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance. Do not try to judge the severity of the injury yourself. Close observation of the athlete should continue for several hours. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, or playing video games, may cause concussion symptoms to reappear or get worse.

California Education Code section 49475 and the California Interscholastic Federation (CIF) Bylaw 313 require implementation of long and well-established return to play concussion guidelines that help ensure and protect the health of student athletes:

Any athlete who is suspected of sustaining a concussion or head injury in an athletic activity shall be immediately removed from the athletic activity for the remainder of the day, and shall not be permitted to return to the athletic activity until he or she is evaluated by a licensed health care provider who is trained in the management of concussions and is acting within the scope of his or her practice. The athlete shall not be permitted to return to the athletic activity until he or she receives written clearance to return to the athletic activity from that licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider.

It's better to miss one game than miss the whole season.

For more information, visit: http://www.cdc.gov/headsup/youthsports/index.html (Centers for Disease

Control and Prevention) or http://www.cifstate.org/sports-medicine/concussions/student_parents (CIF)

MAGNOLIA PUBLIC SCHOOLS

2022-23 Prescription Opioids Information Sheet

(Applicable Only for the Current School Year)

Prescription opioids may be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

WHAT ARE THE RISKS AND SIDE EFFECTS OF OPIOID USE?

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death.

The use of prescription opioids can have a number of **side effects** as well, even when taken as directed:

- Tolerance – meaning you might need to take more of a medication for the same pain relief.
- Physical dependence – meaning you have symptoms of withdrawal when a medication is stopped.
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

RISKS ARE GREATER WITH:

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Pregnancy

Avoid alcohol while taking prescription opioids. Also, unless specifically advised by your health care provider, medications to avoid include:

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids

KNOW YOUR OPTIONS

Talk to your health care provider about ways to manage your pain that don't involve prescription opioids. Some of these options **may actually work better** and have fewer risks and side effects. Options may include:

- Pain relievers such as acetaminophen, ibuprofen, and naproxen
- Some medications that are also used for depression or seizures
- Physical therapy and exercise
- Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

135

IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN

- Never take opioids in greater amounts or more often than prescribed.

- Follow up with your primary health care provider

  - Work together to create a plan on how to manage your pain

  - Talk about ways to help manage your pain that don't involve prescription opioids

  - Talk about any and all concerns and side effects.

- Help prevent misuse and abuse.

  - Never sell or share prescription opioids

  - Never us another person's prescription opioids

- Store prescription opioids in a secure place and out of reach of others including visitors, children, friends, and family.

- Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration (www.fda.gov/Drugs/ResourcesForYou).

- Visit www.cdc.gov/drugoverdose to learn about the risks of opioid abuse and overdose.

- If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

Be Informed! Make sure you know the name of your medication, how much and how often to take it, and its potential risks and side effects.

For more information, visit: www.cdc.gov/drugoverdose/prescribing/guideline.html

Cut and RETURN bottom portion only. Please keep upper portion for your information.

MAGNOLIA PUBLIC SCHOOLS

2022-23 Sudden Cardiac Arrest Information Sheet

(Applicable Only for the Current School Year)

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is not a heart attack. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. It is fatal in 92 percent of cases if not properly treated within minutes.

WHAT ARE THE WARNING SIGNS AND RISK FACTORS OF SCA?

SCA often has no warning signs. In fact, the first symptom could be death. Athletes (and often their parents) don't want to jeopardize their playing time, so they may avoid telling parents or coaches in hopes that the symptoms will "just go away" on their own. Or, they may think they're just out of shape and need to train harder. Student athletes need to recognize and seek help if any of the conditions listed below are present.

Potential indicators that SCA is about to happen:

- Racing heart, palpitations or irregular heartbeat

- Dizziness or lightheadedness

- Fainting or seizure, especially during or right after exercise

- Fainting repeatedly or with excitement or startle

- Chest pain or discomfort with exercise

- Excessive, unexpected fatigue during or after exercise

- Excessive shortness of breath during exercise

Factors that increase the risk of SCA:

- Family history of known heart abnormalities or sudden death before age 50

- Specific family history of Long QT Syndrome, Brugada Syndrome, Hypertrophic Cardiomyopathy, or Arrhythmogenic Right Ventricular Dysplasia (ARVD)

- Family members with unexplained fainting, seizures, drowning or near drowning or car accidents

- Known structural heart abnormality, repaired or unrepaired

- Use of drugs, such as cocaine, inhalants, "recreational" drugs or excessive energy drinks

HOW CAN THE CONDITIONS OF SCA BE DETECTED?

Physical Exam and Medical History. Prior to participating in athletics, students are required to get a physical and complete a medical history. This form asks questions about family history and heart conditions. The physical exam should include listening to the heart.

Heart Screening. An electrocardiogram (ECG) is an effective diagnostic tool that detects irregularities. An abnormal ECG exam can lead to other tests like an echocardiogram, stress test, Holter monitor and more.

IF YOU THINK YOUR CHILD HAS EXPERIENCED ANY SCA SYMPTOMS

If your child has experienced any SCA-related symptoms, it is crucial to get follow-up care as soon as possible with a primary care physician. If the athlete has any of the SCA risk factors, these should also be discussed with a doctor to determine if further testing is needed. Wait for the doctor's feedback before returning your child to play, and alert his/her coach, trainer and school nurse about any diagnosed conditions.

California Education Code section 33479.5 and the California Interscholastic Federation (CIF) Bylaw 503 require implementation of a sudden cardiac arrest protocol that helps ensure and protect the health of student athletes:

> *A student who passes out or faints while participating in or immediately following an athletic activity, or who is known to have passed out or fainted while participating in or immediately following an athletic activity, must be removed from participation at that time by the athletic director, coach, athletic trainer, or authorized person. A student who is*

137

removed from play after displaying signs and symptoms associated with sudden cardiac arrest may not be permitted to return to participate in an athletic activity until the student is evaluated and cleared to return to participate in writing by a physician and surgeon.

For more information, visit: http://cifstate.org/sports-medicine/sca/index. (CIF)

MAGNOLIA PUBLIC SCHOOLS

Volunteer Commitment and Procedures

The administration, staff, and students of Magnolia Public Schools ("MPS") are appreciative of all persons who are willing to commit time and energy to helping students succeed and to provide an excellent place of learning for all students. Most of the MPS activities and events simply would not happen without the participation of our volunteers.

Ways a Volunteer can help

- Room Parent

- Clerical Help

- Tutoring students (e.g.: math, computer activities, reading with students, etc.)

- Morning, lunch, yard, and/or dismissal supervision

- Chaperone Field Trips

- Help with special class events (e.g.: career fairs, fundraisers, etc.)

- Athletic support

Below are ethics and **guidelines** that must be followed while you are volunteering at MPS. These guidelines are designed:

- to promote a productive and safe environment

- to set appropriate expectations

- to clarify roles & responsibilities

APPLICATION AND SCREENING

Certified Volunteers ("C-Volunteers")

a. Who are C-Volunteers: These are volunteers that would like to volunteer with MPS on an ongoing basis.

b. Application Process: C-Volunteers must provide MPS with the following documents:

- Volunteer Application Form (signed)

- Volunteer Commitment Form (signed)

- Fingerprinting and Background Clearance (if volunteering outside of the direct supervision of a credentialed employee)

- Tuberculosis risk assessment or examination

- Valid photo I.D. (driver's license, passport, military ID, US or other government identification)

Single Event Volunteers ("SE-Volunteers")

a. Who are SE-Volunteers: These are volunteers that would like to volunteer at MPS for a one (1) day special event or activity.

b. Application Process: SE-Volunteers are not required to submit a volunteer application but must comply with the Volunteering Guidelines below and provide MPS with a valid photo I.D.

CONFIDENTIALITY: Volunteers should realize that they have a position of trust. Personal information pertaining to students or staff, as well as conversations between parents, teachers, staff members, and students MUST be kept confidential. Volunteers are NOT permitted to view any part of a student's records including test scores, report cards, attendance reports, or any other document to that would be included in student records. What you SEE or HEAR in a classroom, hallway, bathroom, on a field trip, or on the playground should be considered confidential and only discussed with a teacher, counselor or principal. For MPS to provide the best environment for learning, everyone's privacy must be respected. No gossiping will be permitted.

LIABILITY: MPS is proud to provide liability coverage and an accident policy for its volunteers, after any other valid and collectible insurance. In order to have this protection, all volunteers must sign in on MPS' volunteer / visitor sign in sheet (in every school office) every time they volunteer. Volunteers are not covered by Workers' Compensation.

CHILD NEGLECT AND ABUSE REPORTING: MPS volunteers are obligated under mandatory child reporting laws to report any suspected child neglect or abuse. Please refer to MPS mandatory reporting guidelines located in the MPS Employee Handbook.

SUPERVISION: Volunteers perform under the direction and supervision of MPS personnel. Any volunteers who are volunteering outside of the direct supervision of a credentialed employee must be fingerprinted and receive background clearance. Volunteers should know and follow MPS policies and rules. MPS, in its discretion and without a statement of reasons, may suspend any volunteer from further volunteer activities. No statement by the MPS establishes a property right to perform volunteer work.

COMMUNICATION: If you are unable to make it to school when you are expected, please call MPS and leave a message. Similarly, MPS staff will contact you if your time is cancelled or changed for any unforeseen reason. You may contact the School Office at _____, or email _____ with questions or for assistance. Please be dependable and on-time. Teachers and staff count on you!

STUDENT/VOLUNTEER RELATIONSHIP: Volunteers function in a position of trust and MPS does not extend that volunteer / student trust relationship outside of the supervised school environment. It is the responsibility of the volunteer to notify MPS immediately if he/she becomes involved with a student / family outside the school environment.

DISCIPLINE: A teacher or staff member is responsible for student discipline. If you see a child behaving in a way that endangers themselves or others, you need to stop the behavior and report it to a staff member. If a student continues to be noncompliant, disrespectful, or disruptive after a verbal warning, please notify a teacher or staff member. Student safety is the responsibility of all adults, but student discipline is the responsibility of MPS staff.

SIGN IN: Volunteers should always sign in at the front desk. A volunteer should always have a visitor's pass/sticker on while working on campus or while acting as a chaperone on a class field trip.

CELL PHONE/PHOTO/SOCIAL MEDIA: Cell phones may be used on campus however we ask that you use a "silent setting" so that the class is not disturbed. Phones should only be used for emergencies. Volunteers are not allowed to take photos or post on social media unless approved by MPS.

EMERGENCY PROCEDURES: Classroom procedures and escape routes are located in each room. Drills are performed throughout the year. During a fire drill, the entire building is evacuated and each classroom reports to a designated area outside on the MPS campus. Please take the time to familiarize yourself with these safety plans.

I have read the above information and agree to the guidelines and responsibilities.

Acceptable Use of Technology Agreement

As a user of Charter School technologies, I have read Student Use of Technology Policy and hereby agree to comply with it and the Acceptable Use Agreement.

I understand that use of school technology (including computers, email addresses, laptops, internet, and other technology resources) is a privilege and not a right. I understand that students who violate this policy in any way will be subject to discipline per school policies.

I understand that students will be provided a school email address and that teachers may communicate directly with students through this school email and applications including but not limited to StudentSquare, Infinite Campus, and Google Classroom. As a student, I understand and agree to utilize my school email address respectfully and professionally by 1) only using my school email address for school-related communications with my teachers, other staff, or other students as required, 2) not using my school email address to register for websites or applications unless directed by a teacher. I understand and agree that all regulations specified in the MPS Technology Policy and Acceptable Use Agreement, including the prohibition against cyberbullying, are applicable to any and all communications I send using my school-issued email address.

I understand that computer use is a privilege and not a right. I understand that students who violate this policy in any way will be subject to a referral and possible suspension or expulsion. I understand that if a student willfully damages MPS property, including but not limited to MPS's technology, equipment and networks, or fails to return MPS's property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct up to an amount not to exceed ten thousand dollars ($10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, MPS may withhold the student's grades, transcripts, and diploma until the damages have been paid or the property has been returned. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, MPS will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades, transcripts and diploma will be released. When the minor and parent are unable to pay for the damages, the Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. A student over the age of majority shall be liable for the same. (Ed. Code § 48904).

MAGNOLIA PUBLIC SCHOOLS

Receipt of and Agreement to the MPS Student/Parent Handbook

and the School-Parent-Student Compact

I have received a copy of the Magnolia Public Schools Student/Parent Handbook including the Student Use of Technology Policy-Acceptable Use of Technology Agreement, and the School-Parent-Student Compact, or I can access it at the school website. I understand that it is a source of information and a set of guidelines for implementation of school policies and procedures.

I have read, understood, and agreed to the Student/Parent Handbook and the policies within, including the Student Technology Use Policy-Acceptable Use Agreement and School-Parent-Student Compact.

I understand that Magnolia Public Schools can unilaterally rescind, modify, or make exceptions to any of these policies, or adopt new policies, at any time. I also understand that the provisions of the Handbook will control over any contrary statements, representations or assurances made by any supervisory personnel except those made in writing by the CEO & Superintendent or his or her designee.

Notes

- Please read and discuss the policies, procedures, and expectations with your child/children before signing and returning the receipt on this page.

- Each individual MPS school may include amendments into this handbook addressing local issues.

- Any changes or additions to this handbook will be given to the students and parents/guardians in writing.

Community Schools Planning Update

Section: IV. Information/Discussion Items
Item: A. Community Schools Planning Update
Purpose: Discuss
Submitted by:
Related Material: Community Schools Planning Update.pdf

Board Agenda Item #	IV A: Information/Discussion Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Amanecer Consulting, Iris Zuniga and Karina Favela-Barreras
Staff Lead:	Dr. Brenda D. Lopez, Chief External Officer (CXO)
RE:	Community Schools Planning Update

Proposed Board Recommendation

No action is needed. This is an information item to report out on the work that started to build the framework for the implementation of the community school model

Introduction

Magnolia Charter Schools strives to create community schools across its network to improve school responsiveness to student and family needs, and to organize school and community resources to address barriers to learning. By partnering with Amanecer Consulting to convene community, cross-sector partners, and use data to transform practices and inform strategies.

Amanecer Consulting works with public sector, philanthropic, and nonprofit clients in exploring and identifying new approaches to their work and its impact through organizational development, strategic planning, capacity building and coaching, program development and systems for successful implementation, and preparing for funding opportunities. The team is skilled in responding to information needs at program, collaborative, and systems levels. The team approaches the work in partnership and collaborative decisions with the client and key educational partners, uplifting the expertise and knowledge of those community members who are most impacted by the work.

Background

In March 2022, the CDE announced the release of RFA for the California Community Schools Partnership Program - Planning Grant (CCSPP-PG) to which Magnolia Charter Schools submitted applications for 9 school sites. The CCSPP-PG is an initiative which supports the planning of a community school framework. A community school is a "whole-child" school improvement strategy where the school(s) work closely with teachers, students, and families. Community schools partner with community agencies and local governments to align community resources to improve student outcomes. These partnerships "provide an integrated focus on academics, health and social services, youth and community development, and community engagement." Many community schools operate year-round, morning to evening, and serve children and adults. Community schools often serve neighborhoods where economic and social barriers to learning are prevalent.

Analysis

Prior to the announcement in March and already understanding that this opportunity would be open to our community, Magnolia partnered with Amanecer Consulting to support the application process as a thought partner and already started to identify areas of strengths and needs that would align Magnolia closer to the community schools model. We started the work by identifying three schools to work directly with Amanecer over the course of the application process and until the end of the 2021-22 school year. The three schools identified were Magnolia Science Academy 1, 3, and 7. MSA 1 serves as our flagship school and has the highest enrollment across all our schools, MSA 3 has diverse demographic needs and has established connections with the community including from local elected officials and MSA 7 is our stand alone elementary school offering grades TK-5.

Budget Implications

$200, 000 was awarded to each school for the planning grant period. A significant portion of the funds will pay for the cost of a Community Schools Coordinator for each school site. We are currently in the candidate search phase.

How Does This Action Relate/Affect/Benefit All MSAs?

The CCSPP-PG is a one-year initiative to support planning activities to further develop and integrate strong strategies to address the four evidence-informed programmatic features, which are aligned and integrated into high-quality, rigorous teaching and learning practices and environments. The work coordinated during the planning grant year will support development of structures and systems to increase high-action / high-alignment across strategies and support for students and family members. By developing and implementing strong systems which can be outlined in the implementation application to CDE during the next round of funding.

▪   Slide Deck

Magnolia Public Schools Community School Model

With Amanecer Consulting

Introductions

Over the past **20 years**, Co-founding Partners, **Iris and Karina** have served as **results-driven leaders** in the education and human service sectors. **Committed to increasing support** and access for families in communities of opportunities with an emphasis on community improvement.

Possess extensive experience in **place-based and collective impact strategies**; ability to scale impact and leverage resources to increase investments.

Background

Preparation for Planning Grant

- Meet w/ Executive Leadership
- Focus Group Protocol
- Review and support with State Grant Application
- Inventory of existing services

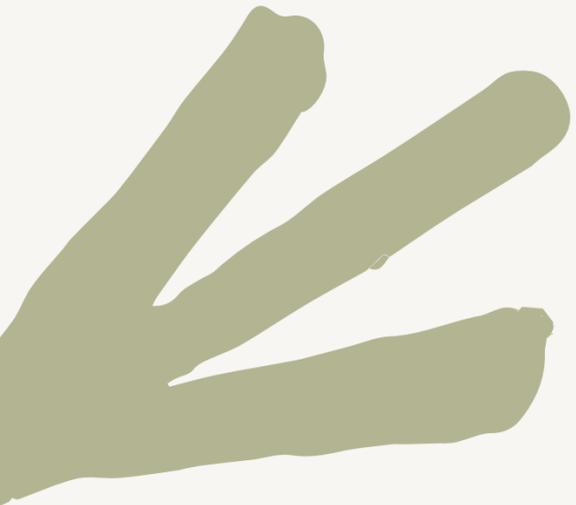
Research + Focus Groups

- Conduct Focus Group
- Compile notes and recommendations
- Draft Logic Model
- Program Inventory

Planning Grant Awarded ($1.8Million)

- Finalize logic model
- Tools to hire CS Coordinators
- Professional Development Roadmap
- Planning Grant Implementation Timeline

TBD Implementation Grants-Summer 2023

Scope of Work


Timeline

Discovery & Diagnostics

- Strategy & Next Steps Meetings
- CCSPP RFA –planning & review Meetings.
- Support with Grant Abstract & Budget - Finalize and submit

Model Development

- School Site Meetings: School Administrators & PACE Coordinators
- Facilitate Focus Groups
- Attend Anchor Meetings
- Tools: Logic Model, Job Description, Community Engagement Plan

Model Refinement + Implementation

- Expanding Across Magnolias Network
- Coaching & Development
- Grant Management
- Implementation Guidance
- Support with Funding Opportunities

Today's Discussion

We will provide an overview of the focus group findings and recommended logic model influenced by the Profile of a Graduate + Community School four Pillars + Community Input

Focus Groups

Students

- Students feel engaged, respected and welcomed
- Enjoy small school site
- Feel part of the school community
- Would like: Additional Academic Programs & Supports

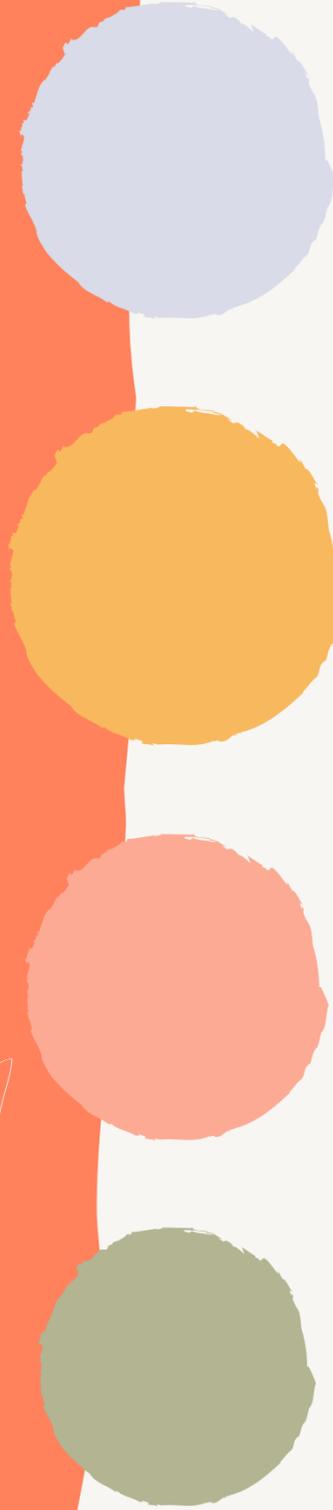
Parents

- Feel welcomed & supported
- School is accessible and engaging with parents
- Would like: Strategies to support students at home,

Portrait of a Graduate

Six Competencies

- Literacy with a Learner's Mindset
- Critical Thinking
- Creativity
- Effective Communication
- Adaptability
- Global Citizenship

Community School Model
Four-Pillars


Integrated Support Services

Family and Community Engagement

Collaborative leadership and shared decision making

Extended/expanded learning time and opportunities.

Logic Model

Community Schools Logic Model

Goal: All Students are ready for success: College, career, and life; and are healthy and secure in their identity

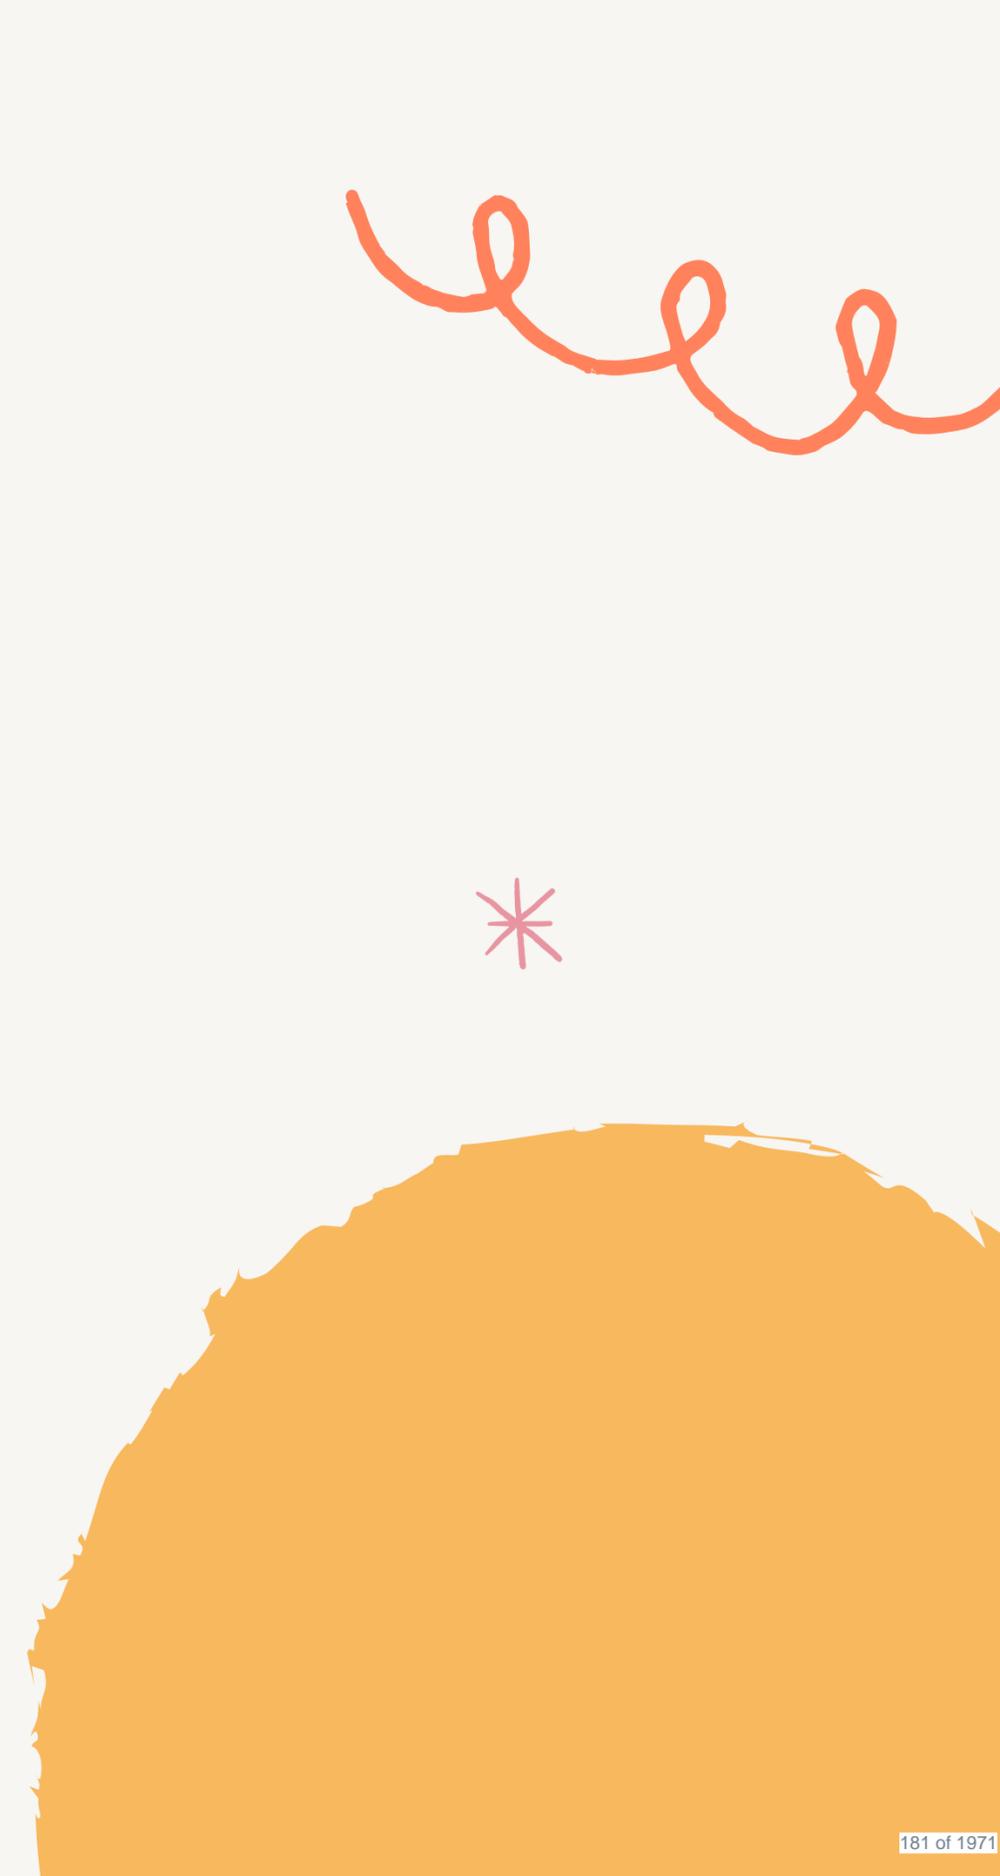
Theory of Action: If school/community partners meet the needs of the whole child, then transformational changes will occur that result in healthy, secure students ready for college, career and life.

Resources / Inputs	Activities	Outputs	Short-term Outcomes	Intermediate Outcomes	Long-term Impact
• Community School Coordinator W/ Site-based and Community based leadership teams • The Four Pillars of CS • Sufficient Staff (expertise + availability) – School Leaders, District/Home Office Leaders, Additional CS Staff • Sufficient resources (e.g., funding, facilities, leverage other funds) • Available/relevant partners – community supports • Leadership & Initiative level infrastructure • Resources & Evidence-based practices	• Family and Community engagement (e.g. adult education) • Extended Learning Opportunities/Youth Development • Health, mental health, and social services; family support • Social and Emotional Learning • Early Childhood Development • Professional development (school staff and community) • Linkages between schools and partners	• Supported Families • Communication Strategies (e.g., newsletters, web-based information, parent/community meetings, open houses, school/district documents) • Comprehensive learning supports • Integrated and improved academic enrichment and social services to support children's intellectual, social, emotional, and physical development • High-quality, engaging, instructional programs • Partner integration into the school day (partnership agreements) • Number and quality of supportive services programs • Data dashboards – reports of progress and outcomes	• Children are ready to enter school • Students attend school consistently • Students are actively involved in learning and their community • Families are increasingly involved in their children's education • Schools are partnering with families, communities, organizations, and businesses	• Students succeed academically • Students are healthy: physically, socially, and emotionally • Students live & learn in a safe, supportive, and stable environment • Communities are desirable places to live	**Students graduate ready for college, careers, and citizenship**

Let's Discuss Next Steps

Finalize Logic Model, Community Engagement Plan
Advisory Board Structures
Launch Official Planning Process July 1st for 9 sites

Build the Community School's Coordinator Team
Map out training track for new and existing team
Coaching and Development
Communications strategy for all parties involved

Q and A


Thank You

NEXT STEPS

COLLEGE & CAREER PROGRAM NEXT STEPS

- Increase the percentage of students that qualify for UC and CSU admission via A-G course passage
- Increase the percentage of seniors accepted to four-year universities, particularly for STEM programs
- Implement the comprehensive College & Career Readiness Program in 2022-23
- Provide training to counselors on career guidance for students. Implement TK-12 college and career readiness curriculum.
- Support school sites with post-secondary outcomes data and analysis

QUESTIONS?

Positive Behavioral Interventions and Supports (PBIS)
Submission for State Recognition & Process

Background

- PBIS is a framework for enhancing the adoption and implementation of a continuum of evidence-based interventions to achieve positive academic and behavioral outcomes for all students
- 2015 a statewide initiative was implemented to recognize and acknowledge schools for implementation
- 2020-21, MSA 2 embarked in the process and was awarded the Bronze Recognition
- 2021-22, All MPS embarked in the process and submitted application prior to May 13, 2022.

Outcomes

- Awaiting state to process application
- Schools assessed program and developed goals to refine schoolwide practices

Positive Behavioral Interventions and Supports (PBIS) Submission for State Recognition & Process cont…

Elements of PBIS

- Develop a continuum of scientifically based behavior, social emotional and academic interventions and supports
- Use data to make informed decisions and solve problems
- Arrange the environment to prevent the development and occurrence of problem behavior
- Teach and encourage pro-social skills and behaviors
- Implement evidence-based behavioral practices with fidelity and accountability
- Monitor student performance & progress continuously

TIER 3: Individualized interventions for students with intensive/chronic behavior challenges
- Individual Therapy
- Functional Behavior Assessments (FBA)
- Behavior Intervention Plan (BIP)
- Wraparound Support
- Crisis Response

TIER 2: Specialized interventions for learners who are at-risk for academic or social failure due to behavior challenges
- Check-in Check-out
- Social Skills Groups
- Small Group Counseling
- Restorative Justice Circles & Conflict Resolution

TIER 1: School-wide interventions for all learners to prevent behavior challenges
- Behavior Expectations
- Acknowledgement System
- Social Skills Instruction
- Active Supervision & Engagement

IXL Data (1st year of implementation)

Academic Department Service Improvements and Priorities

2022/2023 School Year

NOTE

These slides are to be used to identify MPS Academic Department's **revision of services and support for the upcoming school year** after hearing from all school sites through the surveys and in-person feedback. The AT will **run another survey to capture agreement** and/or additional feedback/asks from school teams.

Areas of Need
(Based on Survey Feedback)

1

School Site Visits, in-person, and virtual support

2

New Teacher Trainings and Support

3

Curriculum guidance and support

4

Professional Development Services

5

Support for Elementary Programs

Need 1:
School Site Visits and In Person Support

Instructional Rounds

Day-Long visits comprising Instructional Rounds to be conducted by the Academic Team **four times a year**. Each teacher will be visited for approximately **10 minutes**.

Purpose & Scope

- **September**: Baseline observations used to gather data around instructional practices for the year.

- **November/December**: Check-in #1 to observe, provide feedback around instructional practices goals, and support schools with initial preparation for authorizer visits.

- **January/February**: Check-in #2 to observe, provide feedback around instructional practices goals, and support schools with preparation for authorizer visits. (replaces mock visits for LAUSD schools & adds an additional visit for other schools)

- **April**: Summative observations for the year regarding instructional practices goals. Final feedback loop for the school with recommendations to consider when planning for next school year.

Structure

- At least 3 members of the Academic Team will be present for each visit (as many team members as available will attend)
- Teamed walkthroughs with pre-brief and debrief meetings.
- Also time for document review to prepare for authorizer/accreditation visits

Need 1: Special Education and Student Services Specific

The Student Services/ SPED/ Support Services academic team members will provide additional onsite support by visiting two schools per week. There will be 2-3 members of the SPED/Student Support - academic team per school per week. Our team members will participate as follows:

Special Education and Support Services

- **Monthly SPED Professional Development Meetings**
- **Weekly SPED / Director Office Hours**
- **Attendance at Weekly SPED meetings upon request**
- **7:30 "All things SPED" - Weekly Support and Training**
- **Attend IEP, SART, 504, or Due Process Meetings (formal and informal) as agreed upon by the school administrative team**
- **Hold student support classes – SEL or parent workshops**
- **Assist with challenging parent meetings**
- **Support with PBIS, suspensions, and expulsion hearings**
- **Assist and guide, Alternative Dispute Resolution hearings**
- **Assist with mobilizing Crisis Intervention Teams as deemed appropriate**

Student Services

- **Monthly Dean of Students Meetings**
- **Conduct CPI Training for staff members**
- **Quarterly meetings with Athletic Directors**
- **Technical support with discipline procedures**
- **Monthly SART meetings**
- **Technical support and guidance with PBIS & MTSS implementation**
- **Collaboration with SPED and Crisis Intervention Teams**
- **Support with Parent Complaints**
- **Organize task forces to review policies and procedures**

Need 1:
Dean/VP/AP In-Person and Virtual Support

Assigned Academic Team Liaison for Deans of Academics

- One-on-one talks and collaboration
- Biweekly check-ins (on off weeks from DoA meetings)
- Individualized support based on needs
- DOA/DOS/Coordinator Meetings
  - Area of focus for each meeting
  - Presentation and discussion of promising practices
  - Problem solving time

Need 2:
New Teacher Trainings and Support

New Teacher Orientation(s) - In Person

- Tuesday, August 2, 2022 (for all staff hired January 2022-August 2022)
- Thursday, October 27*, 2022 (for all staff hired Aug - Oct.)
- Friday, January 13*, 2022 (for all staff hired since Oct. 27)

tentative dates as of June 2022

New Teacher Academy

- Google Classroom
- Webinars & Training Materials with focus on;
    - PBIS and Classroom Management
    - Effective Lesson Planning (student-centered instruction)
    - Data-Driven Instruction
    - UDL and SPED Support
    - ELD Support (Integrated ELD)

Need 3:
Curriculum Guidance and Support

- TOSAs for each subject area
  - Two elementary TOSAs
- Pacing guides and common assessments
  - Already in place for ELA & Math, outcome for 2022/2023 Dept. PLCs for other subjects
- Math curriculum adoption
- StudySync and Wonders webinars provided by curriculum experts
  - In-person demo lessons/instructional takeover for StudySync available
- Investigation and pilots of potential ELD curricula and supplemental materials
- Investigation into Power Class (current structures, needs assessment)
- Resource exploration for Science (re-vetting of the science instructional materials, expanding to HS courses)

Need 4:
Professional Development Services

Teachers:

- Monthly Department Professional Learning Communities led by TOSAs
- Three Org-Wide Symposia
- Annual ELD Training
- Annual SPED Training
- MTSS Pathways Certification
- PBIS Programs
- Ad Hoc Consultation available

Admin:

- Admin Summer In-Service
- Three Org-Wide Symposia
- Monthly Admin Meetings
- MTSS Pathways Certification
- PBIS Programs
- Academic Team Liaison
- Scheduled check-ins with the CAO

Need 5:
Support for Elementary Programs

- Increased Site and in-person visits with aforementioned site instructional rounds
- New teacher trainings and support
- TOSA program revision
  - Hiring an additional TOSA to split the Elementary PLC meetings into 2 levels: TK-2 and 3-5
- Assigned Academic Team Liaison
  - Allows for multiple collaboration meetings specific to elementary needs
- Ad Hoc Consultation available

Academic Department Priorities

Academic Department in General

- MTSS Pathway Certification Programs- Staff development - New Teacher/Staff Support
- Improved student achievement and enrichment of STEAM Programs (PLTW)
- Expanded learning opportunities program offerings (before and after school, summer, intersessession and enrichment)
- Continue improving teacher collaboration and communication (TOSA, Org wide PLCs)
- Implementation of Instructional Rounds to ensure a systematized approach to site visits and to provide further support to school sites

Student Services

- Continuously collaborate with staff in the implementation of the Student Recognition and Incentive Policy
- Plan and provide oversight of Tier 1 PBIS implementation to ensure calibration across MPS, alongside with implementation of other MTSS practices
- Provides job-embedded professional development opportunities to make sustainable changes and improve instructional practices within the learning community
- Investigate opportunities to support the mental health and well-being of all community members through evidence based practices

Special Education and Support Services

- Gifted and Talented curriculum and program development
- 504 Plan strategies for improving monitoring of implementation and compliance
- Design and implement inhoused Speech and Language Services for Students with Exceptional Needs
- Design and implement an EL Intervention Pilot Program for MSA 1 and MSA 5 (Partnering with EL/ELA Director and CCEIS team)

College & Career Readiness

- Provide training to counselors on career guidance for students. Implement TK-12 college and career readiness curriculum.
- Support school sites with post-secondary outcomes data and analysis
- Implement Magnolia Alumni Support Team to support TK-14 student achievement

Math Programs

- Field test materials and finalize recommendation for new math materials
- Create a systematized and ongoing approach to supporting new math teachers
- Professional learning in implementation of MTSS practices to increase student learning outcomes

EL and ELA Programs

- Review and Re-develop our systems for providing designated ELD courses to EL Students, including piloting a stand-alone ELD curriculum
- Build capacity in site level EL Coordinators, especially new coordinators
- Create a systematized and ongoing approach to supporting new ELA teachers

Coversheet

Progress on Meeting Local Performance Indicators on the CA School Dashboard

Section: IV. Information/Discussion Items
Item: C. Progress on Meeting Local Performance Indicators on the
CA School Dashboard
Purpose: Discuss
Submitted by:

MPS' Progress on Meeting Local Performance Indicators on the CA School
Dashboard.pdf

MAGNOLIA
PUBLIC SCHOOLS

Board Agenda Item #	IV C: Information/Discussion Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	David Yilmaz, Chief Accountability Officer
RE:	MPS' Progress on Meeting Local Performance Indicators on the CA School Dashboard

Proposed Board Recommendation

      Information/Discussion Item. There is no requirement for the board to approve the schools' reports on meeting the local indicators.

Background

      State data is not available for some priority areas identified in the Local Control Funding Formula (LCFF) law. For these priority areas, the State Board of Education (SBE) approved the local indicators, which are based on information that local educational agencies collect locally. The local indicators that apply to charter schools are:

- Basic Services and Conditions (Priority 1)

- Implementation of State Academic Standards (Priority 2)

- Parent and Family Engagement (Priority 3)

- School Climate (Priority 6)

- Access to a Broad Course of Study (Priority 7)

      Local educational agencies receive one of three ratings based on whether they have measured and reported their progress through the Dashboard using locally collected data. The ratings are: Met, Not Met, or Not Met for Two or More Years. For example, on the local indicator for Implementing State Academic Standards (Priority 2), the local educational agency would receive a Met rating if it:

250 E. 1st Street Suite 1500, Los Angeles, CA 90012 | www.magnoliapublicschools.org

- Measures its progress on the local indicator based on locally available information, and

- Reports the results to the LEA's local governing board at a regularly scheduled meeting of the local governing board, and

- Reports to stakeholders and the public through the Dashboard.

The following are the questions each LEA responds to in the CA School Dashboard to report their progress.

Basic Services and Conditions (Priority 1)

Use locally available information, including data from the CDE's School Accountability Report Card (SARC), to measure progress and respond to the three prompts in the self-reflection tool included in the Dashboard:

- Number/percentage of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (Priority 2)

The local educational agency is asked to summarize its progress in implementing the academic standards adopted by the State Board of Education, based on the locally selected measures or tools.

Parent and Family Engagement (Priority 3)

Standard: The local educational agency (LEA) annually measures its progress in: (1) seeking input from parents in decision making; and (2) promoting parental participation in programs, and reports the results to its local governing board at a regularly scheduled meeting and to stakeholders and the public through the California School Dashboard (Dashboard).

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families

2. Building Partnerships for Student Outcomes

3. Seeking Input for Decision-making

School Climate (Priority 6)

Standard: Local educational agency administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the local educational agency serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and he public through the California School Dashboard.

The local educational agency is asked to provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K-5, 6-8, 9-12).

Access to a Broad Course of Study (Priority 7)

Standard: Local educational agencies (LEAs) annually measure their progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code for Grades 1-6 and Grades 7-12 , as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs, and report the results to their local governing board at regularly scheduled meetings of the local governing board and to stakeholders and the public through the Dashboard.

For more information on local indicators please refer to: https://www.cde.ca.gov/ta/ac/cm/localindicators.asp

Conclusion

Our school leaders have used the self-reflection tools provided by the CDE to report out their evaluation of the progress the school makes towards meeting the local indicators in the five state priorities. The reports are attached for review of the board and the public before they are submitted to the CDE and made public via the CA School Dashboard. Deadline for submission to the CDE is typically around October/November. Annually, as required by the Ed Code, this item will be on the same board agenda as the LCAP adoption in alignment with the LCAP development process so that our schools can share their progress publicly and meet their local indicators.

Budget Implications

N/A

How Does This Action Relate/Affect/Benefit All MSAs?

To have the local indicator report as a public information item at the same meeting as the LCAP adoption is an LCFF requirement. An additional benefit is that schools can share their progress on meeting the local indicators with the public before submitting it to the CDE via the CA School Dashboard.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-1	Brad Plonka Principal	bplonka@magnoliapublicschools.org (818) 609-0507

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards			3		
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards			3		
History-Social Science				4	

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards		2			
Physical Education Model Content Standards				4	
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-1 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on implementing standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level, and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has been on the ELA/Literacy, Math, and ELD, MSA-1 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
  1 - Exploration and Research Phase
  2 - Beginning Development
  3 - Initial Implementation
  4 - Full Implementation
  5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-1 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent/teacher conferences to promote parental participation in programs. We use ParentSquare to communicate with students and parents, which has supported our improved communication with all educational partners. Staff greet students and parents in the mornings during student drop-off and have an open door policy welcoming all parents. Also, our team connects with families through home visits. Home visits help our learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have considerable rewards in helping to create happier, healthier, and engaged students. The school uses home visits as an essential feature of its education program to improve student and school performance.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

The LEA's focus areas for improvement in building relationships between school staff and families are having more parent involvement on the campus, more social events (i.e., cultural), and more workshops for the families after school and on Saturdays.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

> The LEA will improve the engagement of underrepresented families to build relationships between staff and families by providing more opportunities for both groups to connect. These opportunites will include in-person and virtual home visits and having events for families during the instructional day, after school, and on Saturdays.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

> MSA-1 provides resources to support student learning at home through multiple workshops such as parent college, Guiding Good Choices, and feedback given to parents during parent conferences. We have also partnered with CCSA to help equip parents with the knowledge and tools to advocate for their students and school.
>
> MSA 1's communication system, ParentSquare, keeps parents and staff in constant communication through multiple mediums such as texts, private messages, and voicemail. ParentSquare has also broken language barriers between staff and families through automatic language translation.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

> MSA-1's focus areas for improvement in building partnerships for student outcomes is to continue to build a bridge between the educational partner and school-site to collaboratively support the student's growth.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

MSA-1 will improve engagement of underrepresented families in relation to building partnerships for student outcomes by providing more opportunities for these families to engage with the school-site. These opportunities will include workshops and meetings and home visits.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-1 holds periodic meetings to gather input from our families. These meetings include PTF meetings, PTF Board meetings, SSC meetings, and ELAC meetings. During these meetings, parents have the opportunity to review the school's LCAP and SARC reports and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-1's focus area(s) for improvement in Seeking Input for Decision-Making is to get more educational partner involvement in the mentioned meetings.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

> MSA-1's will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making by providing more opportunities for these families to engage with the school-site.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

> MSA-1 annually conducts the CORE Districts survey instrument for students in grades 6-12. After the survey, the MSA-1 staff analyzes the survey results, such as participation rates and average approval rates for each topic and question on the survey. It documents our findings (e.g., greatest progress and needs, comparisons with the prior year, and CORE district results). Then the findings are shared with our educational partners during LCAP information and feedback meetings and regular board meetings. MSA-1 disaggregates the results by grade and student group and uses open-ended questions to understand students' perceptions further. MSA-1 strives to improve our students' perceptions of school safety and connectedness.
> For the 2021-2022 school year, 80.8% of the students took the survey. There was an average approval rating of 58% and an overall satisfaction rate of 66%.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1 - MSA-1 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, Mathematics, Social Sciences, and Science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school's master schedule, elective forms, class rosters, student schedules, and transcripts, MSA-1 strives to offer a well-rounded education to our students.

MSA-1 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure the satisfaction of UC/CSU requirements.

2 - As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, all students have access to a comprehensive course of study as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, specific programs and services dependent on student needs and interests. We provide CCSS-aligned ELA and Math intervention classes to all students who need additional support and designated and integrated ELD instruction to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, Math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

MSA-1 provides students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. We offer AP courses AP English Lit, AP English Lang, AP Computer Science Principles, AP Biology, AP Spanish Lit, AP Spanish Lang, AP US Government, AP US History, AP World History, AP Studio Art 2D, AP Calculus A, and B. Additionally, MSA-1 provides students with chances to take Dual Enrollment Courses throughout the academic year. This year, MSA-1 offered Cinema 107, English 101 during the fall, Political Science 101, and Communications 101 during the spring semester.

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for SAT, in grades 9-12. MSA-1 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure the satisfaction of UC/CSU requirements.

3 - MSA-1 provides access to a college-preparatory, STEAM-focused broad course of study to all our students.

4 - MSA-1 will continue to provide access to a college-preparatory, STEAM-focused comprehensive course of study for all our students. We will ensure that all our students graduate college and career ready.

To provide more well-rounded education to our students, MSA-1 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, and SEL programs, as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-1 will make the best use of its resources to provide a well-rounded educational experience to our students.

Criteria: MSA-1 provides students with a broad array of courses, including core subjects and electives outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, specific programs and services dependent on student needs and interests.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 2	David Garner Principal	dgarner@magnoliapublicschools.org (818) 758-0300

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0
Total Teacher Misassignments	0	0
Vacant Teacher Positions	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-2 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction which is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in ongoing professional development each year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. In addition to a focus on ELA/Literacy, math, and EL, MSA-2 also provides PD and supports our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

MSA2 also provided collaboration time during our Wednesday early dismissal days which align across the Magnolia Public School organization where Teachers on Special Assignment (TOSAs) are able to share best practices across all 10 schools in the organization. Further, MSA2 utilizes the support of the home office to support the achievement of progress implementing the academic standards by means of attending monthly principal meetings, as well as monthly dean of academic meetings where additional systems and training is provided across the organization which are integrated into the school site to support instruction and learning.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.

- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.					5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Based upon the analysis of educational partner input and local data, MSA2 has experienced a significant amount of strengths and progress in building relationships between school staff and families during the 2021-22 academic year. This school year was particularly unique in that it involved reintegrating students, staff and families into the in-person school system following the distance learning and hybrid learning systems which took place during the previous school year due to the Covid-19 pandemic. In particular, despite the fact that all of MSA2's categories for parent percentages in the below survey categories experienced a decrease over the current academic year, the overall percentages were still incredibly high for each of the categories, and the decreases since the previous year is incredibly small. Given the challenges of this school year, all of the below data are considered to be successes for MSA2 which we will continue to build upon and consider priorities.

Despite the fact that during the 2021-22 academic year, the participation rate of families completing the annual Educational Partner Survey on the Panorama platform decreased by 5.5% over the last year and MSA2 did not meet our LCAP target parents participation rate of 90%, MSA2's participation rate for the current academic year is still considered a successful outcome at a rate of 86.3%.

Despite the fact that the overall satisfaction rates for families during the 2021-22 academic year decreased by 2% (from (99% to 97%), the rate of 97% during the current academic year is still considered a successful outcome. Also, despite the fact that the approval rating for families experienced a slight decrease of 1% from the previous year (from 98% to 97%), the rate of 97% during the current academic year is still considered a successful outcome.

MSA2 will continue to work on this area to improve the building of relationships between school staff and families by continuing to hold parent meetings and conferences via Zoom as well as in-person, in person events, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

Despite the fact that the topic of Climate of Support for Academic Learning for MSA2's families during the 2021-22 academic year showed a decrease of 1 percent, the rate of 98% favorable rating during the current academic year is still considered a successful outcome. In addition, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to experience success in this topic.

Despite the fact that the topic of Knowledge and Fairness of Discipline, Rules and Norms for MSA2's families during the 2021-22 academic year showed a decrease of 1 percent, the rate of 97% favorable rating during the current academic year is still considered a successful outcome. In addition, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to experience success in this topic.

Despite the fact that the topic of Safety for MSA2's families during the 2021-22 academic year showed a decrease of 1 percent, the rate of 96% favorable rating during the current academic year is still considered a successful outcome. In addition, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to experience success in this topic. MSA2 will continue to support the area of safety by continuing to staff the new positions which were created this year to provide additional supervision and support.

Despite the fact that the topic of Sense of Belonging (School Connectedness) for MSA2's families during the 2021-22 academic year showed a decrease of 1 percent, the rate of 97% favorable rating during the current academic year is still considered a successful outcome. We are also incredibly motivated to continue to work on addressing all of the areas of concern during the upcoming school year and continue to make MSA2 a better school for all educational partners across all categories through our ongoing collaborative approach.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

During the 2021-22 academic year, the participation rate of families completing the annual Educational Partner Survey on the Panorama platform decreased by 5.5% over the last year (from 91.8% to 86.3%). MSA2 did not meet our LCAP target parents participation rate of 90%. MSA2 will consider using both electronic and paper surveys in the future rather than exclusively electronic surveys for all families to help families who have challenges with technology to still have the paper option, while using PACE Coordinator to follow up with each family.

The overall satisfaction rates for families during the 2021-22 academic year decreased by 2% (from (99% to 97%). Despite the high rate of overall satisfaction for families of 97% during the current academic year, MSA2 will focus on improving this area even more during the upcoming school year. Additionally, despite the fact that families approval rates were nearly maintained over the past year, this rate still experienced a slight decrease of 1% from the previous year (from 98% to 97%). Despite the high approval rate for families of 97% during the current academic year, MSA2 will focus on improving this area even more during the upcoming school year. We will continue to work on this area to improve the building of relationships between school staff and families by continuing to hold parent meetings and conferences via Zoom as well as in-person, in person events, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

For the topic of Climate of Support for Academic Learning, MSA2's families favorable rating during the 2021-22 academic year showed a 98% favorable rating, which was down by 1 percent from the previous year. Despite the decrease across families for this topic this year year, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to experience success in this topic. The slight decrease for parents in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.

For the topic of Knowledge and Fairness of Discipline, Rules and Norms, MSA2's families favorable rating is 97% which was down by 1 percent from the previous year. Despite the decrease across families for this topic this year year, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to

experience success in this topic. The slight decrease for parents in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.

For the topic of Safety, MSA2's families favorable rating is 96% during the current year, which was down by 1 percent from the previous year. Despite the decrease across families for this topic this year year, these results are higher than the MPS average for parents and demonstrate that MSA2 continues to experience success in this topic. The decrease across the families educational partners survey in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic. In particular, during distance learning, families did not have to deal with issues of school safety as much during the distance learning while students were all isolated from each other. In addition, students were not able to interact with other students during the distance learning from the isolation in their homes, so the adjustment which students needed to experience when returning to in-person led to increased behavioral issues at school during the transition period. However, MSA2 has responded to this challenge during the 2021-22 academic year by hiring 1 additional SPED teacher, 3 additional SPED paraprofessionals, 3 additional administrative assistants in the students services department, 1 additional administrative assistant to support the academic department, and 1 additional full time security guard to provide additional supervision and support.

For the topic of Sense of Belonging (School Connectedness), MSA2's families favorable rating is 97% during the current school year, which was down by 1 percent from the previous year. We are also incredibly motivated to continue to work on addressing all of the areas of concern during the upcoming school year and continue to make MSA2 a better school for all educational partners across all categories through our ongoing collaborative approach.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-2 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connects with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance.

The School holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, ELAC meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. In addition, the school holds Coffee with the Principal meetings each Friday where all parents are invited to join school administration and support staff to discuss areas of importance for the parents, ask questions, provide feedback and gather as a community. Further, parents frequently serve on committees which include staff members and students where all educational partner groups collaborate in planning events, including school dances and award assemblies.

Parents are also invited to attend assemblies which celebrate student academic excellence, behavioral improvement, outstanding attendance, and other accomplishments, as well as build school spirit and help the school take a stand against bullying. Further, parents are invited to attend school events which are a part of the Positive Behavioral Interventions and Supports (PBIS) system in which students compete in academic, athletic and creative problem-solving events. Parents also participate in the PBIS committee which includes attending trainings with the Los Angeles County Office of Education (LACOE).

MSA2 hosts events which promote a deeper understanding about cultures of families, including a Dia de los Muertos (Day of the Dead) event which included live music and art by students as well as traditional food which was prepared by families and staff members.

Parents also participate as chaperones for field trips where they support the supervision of students during off-campus educational experiences ranging from trips to the Los Angeles Zoo and the California Science Center to public and private universities. Furthermore, parents and families attend CIF sporting events where our students compete with local schools in after school competitive athletic events in sports including cross country, volleyball, soccer, and basketball. Beyond these opportunities, parents also enjoy attending other academic competitions which students participate in, including robotics tournaments and Academic Decathlon events.

Since the Covid-19 physical closure of the schools, which took place during March 2020, MSA2 began maintaining all of the above methods virtually. During the 2021-22 academic year, MSA2 hosted a combination of virtual and in-person events, meetings and workshops related to the above categories.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including educational partner surveys, and we will make plans to expand upon the existing support and services provided in this area.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.					5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.					5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-2 provides resources to support student learning at home through multiple workshops such as parent college and through feedback given to parents during parent conferences. We have also partnered with CCSA to help equip parents with the knowledge and tools to become an advocate for their students and for their school.

MSA 2's communication system ParentSquare keeps parents and staff in constant communications through multiple mediums such as texts, private messages and voicemail. ParentSquare has also broken language barriers between staff and families through its automatic language translation and thus, facilitates communication across multiple linguistic and cultural backgrounds. Parents also have the ability to check student grades in the school information system, Infinite Campus, as well as stay updated about student attendance in order to remain informed about their child's progress in a variety of areas. Moreover, parents receive daily phone calls from office staff members to verify student absences and gather useful information about areas of support which students may need when they return to school.

MPS Board meetings are open to MSA2 parents to attend, as the campus is open to the public during all Board and committee meetings. Additionally, parents are able to serve as MPS Board members where they vote on decisions which impact the budgets, operations, and decisions of all ten schools in the MPS charter management organization. Currently, an MSA2 parent serves as the only parent educational partner on the MPS Board.

MSA2 has a Parent and Community Engagement (PACE) coordinator who facilitates parent training, including on topics related to social emotional learning and mental health support. Parents are also invited to attend workshops where English language courses are taught, and college readiness is presented. Parents also serve on the committee to review the School Safety Plan each year in addition to student and staff educational partners prior to submitting the updated plan to the Magnolia Public School (MPS) Board for approval.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including educational partners surveys, and we will make plans to expand upon the existing support and services provided in this area.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

MSA2 will continue to focus on maintaining the current priorities of providing ongoing opportunities to participate, collaborate and reflect amongst all educational partners within the school community, including between students, families, and the school. In particular, the focus areas which will be priorities in the upcoming school year relate to continuing to improve upon the CTE pathways opportunities provided to students in middle school and high school, as well as to provide increase college courses to the high school community through community partnerships at LA Valley College, Pierce College and Mission College.

In addition, MSA2 will provide opportunities to begin taking advanced English pathways in middle school to support students in developing more technical skills for the students which can lead to increased success in college and advanced courses in high school. Further, MSA2 will continue to analyze data gathered from online resources including the NWEA MAP, myON, ALEKS, iXL, and other sources to support student growth in math, reading and writing.

Moreover, MSA2 will continue to utilize the MTSS systems to improve SEL supports for students, including by expanding educational programs provided to students through Zones of Regulation curriculum which continue to produce weekly videos which permit students to develop better SEL skills which can help them better access their academic program. Finally, MSA2 will continue with the PBIS partnership with LACOE and will continue to build the program in hopes of achieving a Gold metal status for the program in the upcoming year.

MSA2 also aims to improve outcomes academically for all student groups and across all demographics of students, including homeless / foster youth, EL students, students with disabilities, socioeconomically disadvantaged youth, and all racial / ethnic demographics of students.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

As was stated previously, MSA2 will continue to improve engagement of underrepresented families identified during the self-reflection process in relation to building partnerships for student outcomes through a variety of methods, opportunities, and partnerships.

MSA-2 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connects with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance.

The School holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, ELAC meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. In addition, the school holds Coffee with the Principal meetings each Friday where all parents are invited to join school administration and support staff to discuss areas of importance for the parents, ask questions, provide feedback and gather as a community. Further, parents frequently serve on committees which include staff members and students where all educational partner groups collaborate in planning events, including school dances and award assemblies.

Parents are also invited to attend assemblies which celebrate student academic excellence, behavioral improvement, outstanding attendance, and other accomplishments, as well as build school spirit and help the school take a stand against bullying. Further, parents are invited to attend school events which are a part of the Positive Behavioral Interventions and Supports (PBIS) system in which students compete in academic, athletic and creative problem-solving events. Parents also participate in the PBIS committee which includes attending trainings with the Los Angeles County Office of Education (LACOE).

MSA2 hosts events which promote a deeper understanding about cultures of families, including a Dia de los Muertos (Day of the Dead) event which included live music and art by students as well as traditional food which was prepared by families and staff members.

Parents also participate as chaperones for field trips where they support the supervision of students during off-campus educational experiences ranging from trips to the Los Angeles Zoo and the California Science Center to public and private universities. Furthermore, parents and families attend CIF sporting events where our students compete with local schools in after school competitive athletic events in sports including cross country, volleyball, soccer, and basketball. Beyond these opportunities, parents also enjoy attending other academic competitions which students participate in, including robotics tournaments and Academic Decathlon events.

Since the Covid-19 physical closure of the schools, which took place during March 2020, MSA2 began maintaining all of the above methods virtually. During the 2021-22 academic year, MSA2 hosted a combination of virtual and in-person events, meetings and workshops related to the above categories.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including educational partners surveys, and we will make plans to expand upon the existing support and services provided in this area.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

> MSA2 has a tremendous amount of strengths related to the school's methods for seeking input for decision-making. In particular, MSA2 has continued to hold Friday Coffee with the Principal weekly meetings with educational partners in which a tremendous amount of input is regularly collected. Further, MSA2 holds quarterly SSC, ELAC, and Title I meetings in which additional input is provided by committee members, including elected representative feedback across multiple educational partnership groups. Additionally, MSA2 continues to have a Parent and Community Engagement coordinator who works with the families and community to gather feedback and improve opportunities to seek input for decision-making. MSA2 also continues to hold elections for student government representatives which include grade level representatives from middle school and high school, as well as executive officers for the full school and 12th grade. These student government members provide feedback related to the content which will be taught to students each week during the weekly PBIS videos which are created by the student government members and which integrate the Zones of Regulation curriculum. The staff also continue to vote for PBIS Ambassadors who serve as the leaders of each of the 4 houses in the school and lead activities as well as attend trainings and provide input about PBIS programs which the school will implement. Beyond this, staff continue to fill out surveys related to the additional committees and duties which they would like to be involved in during the upcoming school year which included providing feedback to the school operations. There are numerous strengths related to the opportunities to seek input for decision-making beyond the ones highlighted here, but these are some of the most significant ones currently at MSA2.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-2 holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings and ELAC meetings. During these meetings parents have the opportunity to review school goals, priorities and decisions being made which are included in the LCAP and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including educational partners surveys, and we will make plans to expand upon the existing support and services provided in this area.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

As was stated previously, MSA2 will continue to improve engagement of underrepresented families identified during the self-reflection process in relation to seeking input for decision-making through a variety of methods, opportunities, and partnerships. In particular, MSA2 will build upon the below existing systems, structures, programs and services related to this matter.

MSA-2 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connects with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance.

The School holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, ELAC meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. In addition, the school holds Coffee with the Principal meetings each Friday where all parents are invited to join school administration and support staff to discuss areas of importance for the parents, ask questions, provide feedback and gather as a community. Further, parents frequently serve on committees which include staff members and students where all educational partner groups collaborate in planning events, including school dances and award assemblies.

Parents are also invited to attend assemblies which celebrate student academic excellence, behavioral improvement, outstanding attendance, and other accomplishments, as well as build school spirit and help the school take a stand against bullying. Further, parents are invited to attend school events which are a part of the Positive Behavioral Interventions and Supports (PBIS) system in which students compete in academic, athletic and creative problem-solving events. Parents also participate in the PBIS committee which includes attending trainings with the Los Angeles County Office of Education (LACOE).

MSA2 hosts events which promote a deeper understanding about cultures of families, including a Dia de los Muertos (Day of the Dead) event which included live music and art by students as well as traditional food prepared by families and staff members.

Parents also participate as chaperones for field trips where they support the supervision of students during off-campus educational experiences ranging from trips to the Los Angeles Zoo and the California Science Center to public and private universities. Furthermore, parents and families attend CIF sporting events where our students compete with local schools in after school competitive athletic events in sports including cross country, volleyball, soccer, and basketball. Beyond these opportunities, parents also enjoy attending other academic competitions which students participate in, including robotics tournaments and Academic Decathlon events.

Since the Covid-19 physical closure of the schools, which took place during March 2020, MSA2 began maintaining all of the above methods virtually. During the 2021-22 academic year, MSA2 hosted a combination of virtual and in-person events, meetings and workshops related to the above categories.

To improve in this area, MSA2 will continue to utilize the existing data from a variety of sources, including educational partner surveys, and we will make plans to expand upon the existing support and services provided in this area.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA2 annually conducts a Panorama survey for students, parents and staff. We analyze results and share findings with educational partners during LCAP information and feedback meetings and regular board meetings. We disaggregate results by grade and student group and also use open-ended questions to further understand educational partners' perceptions.

To help address previous survey concerns about bullying, MSA-2 launched a PBIS (Positive Behavioral Interventions and Supports) program last year in partnership with LACOE where students compete for positive recognition and team points for meeting behavior expectations. At the end of the first year implementing the PBIS house system, the house with the highest points went to Universal Studios as an incentive. For the second year, a parent and MPS Board member were brought on the PBIS team to support program implementation. Expectations are reinforced with weekly videos made by the student government and are shared with students.

This year, we continued to expand upon athletic facilities for our PE program to incorporate more days on co-location facilities. In addition, to support social-emotional needs, we continue with a full-time psychologist and counselor.

To support school safety, we continued to maintain large banners in front of the school to help block visibility. We continue to utilized the expanded school surveillance cameras inside classrooms which was installed in collaboration with LAUSD LACOE and the MPS Board.

Family satisfaction rates remained relatively constant at 97%, with a slight decrease of 2 percent over the past year. The highest favorable rating for families was Climate of Support for Academic Learning, which remained relatively constant at 98%, with a slight decrease of 1 percent over the past year. The lowest approval area by families is Safety which is 96%. The largest decrease for families was tied in all four categories between Climate of Support for Academic Learning; Safety; Knowledge and Fairness of Discipline, Rules and Norms; and Sense of Belonging which each showed a decrease of 1% and all still remained high at rates ranging from 96% to 98%.

Student average overall satisfaction rates during the 2021-22 school year stayed constant at a rate of 88%. Sense of Belonging (School Connectedness) showed the greatest increase for students of 3%. Student averages also increased for Safety which increased by 2% over the last year. The 65% approval for Sense of Belonging (School Connectedness) is the lowest topic for students, yet the highest percentage change for students.

Over the past school year, staff survey results tied with student results in having the smallest decrease for overall average satisfaction ratings, which showed a decrease by 0% with an satisfaction rating of 98%. The greatest increase for staff was Sense of Belonging (School Connectedness) which increased by 1% over the past year. The 76% satisfaction for safety is the lowest percent for staff, and was the largest percent decrease change for staff of 18% over the past year. This change took place as a result of the increase in students being around other students during this academic year in larger percentages than they did last year while hybrid and distance learning took place, which led to increased conflict which impacted staff sense of safety.

Educational partners' voices (i.e., voices of our students, families, staff, and other school community members) play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff opinions about what we are doing great and should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. MSA-2 uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and students' own strengths and weaknesses.

MSA-2 uses the CORE survey instrument for school climate indicators which include the following four topics for students, families, and staff: Topic 1: Climate of Support for Academic Learning; Topic 2: Knowledge and Fairness of Discipline, Rules and Norms; Topic 3: Safety; Topic 4: Sense of Belonging (School Connectedness). In a separate survey students are also asked questions in additional four topics which include indicators for social-emotional competencies: Topic 5: Growth Mindset; Topic 6: Self-Efficacy; Topic 7: Self-Management; Topic 8: Social Awareness.

Annually, we analyze survey results and share the results and findings with our educational partners during LCAP information and feedback meetings and regular board meetings.

In addition to the survey process to gather educational partners' feedback which can be used to improve school climate, MSA2 also receives invaluable feedback from parents during regular Coffee with the Principal meetings, PTF, SSC, and ELAC meetings. Further, invaluable feedback is shared by students through the ASB Student Government which holds regular meetings to support school improvement across a variety of areas. Moreover, staff members provide insightful feedback through a variety of means, including during weekly staff meetings, as well as during grade level meetings, PBIS trainings, and MTSS meetings.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-2 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-2 strives to offer a well-rounded education to our students.

MSA-2 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

MSA-2 has meetings with the Special Education department on a regular basis in which academic, behavioral, and social-emotional progress of students with IEPs are reviewed. Interventions are implemented which are geared toward supporting students in making progress in their graduation plans, as well as toward their goals expressed in IEPs. Accommodations are provided to students which are determined by the IEP team members and which input from teachers, parents and students based on identified areas of need.

School administration holds meetings with home office support staff where data is reviewed from CAASPP, NWEA MAP, California Dashboard, Interim Assessment Blocks which focuses on performance levels of unduplicated student groups and students with exceptional needs and action plans are developed and monitored which hold MSA-2 accountable for the progress of all students in areas of academic standards, chronic absenteeism, college readiness, graduation rates, and other areas. This data is also shared with MSA2 staff members during staff PD meetings.

Midyear progress toward LCAP goals are reviewed and presented to MPS home office members as well as during MPS Board meetings. Further, teachers and school administrators align their professional goals in TeachBoost with these standards and goals, and end of year performance reviews hold teachers and administrators accountable for meeting or failing to meet goals related to MSA-2's success in this area. Monthly meetings take place in the home office with Principals, Dean of Academics, and Dean of Students where this priority and other priorities can be reviewed and supported.

As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP Spanish Language and Culture, and AP Computers.

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-2 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-2 had a one-year cohort graduation rate of 100% last year where 97.6% of our graduates completed courses that satisfy the UC/CSU requirements.

MSA-2 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-2 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs,

clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-2 will make the best use of its resources to provide a well-rounded education experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Zekeriya Ocel Principal	zocel@magnoliapublicschools.org (310) 637-3806

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	1

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

    Rating Scale (lowest to highest) -
        1 - Exploration and Research Phase
        2 - Beginning Development
        3 - Initial Implementation
        4 - Full Implementation
        5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

    Rating Scale (lowest to highest) -
        1 - Exploration and Research Phase
        2 - Beginning Development
        3 - Initial Implementation
        4 - Full Implementation
        5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
  1 - Exploration and Research Phase
  2 - Beginning Development
  3 - Initial Implementation
  4 - Full Implementation
  5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
  1 - Exploration and Research Phase
  2 - Beginning Development
  3 - Initial Implementation
  4 - Full Implementation
  5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)
6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-3 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-3 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction
Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

We have a variety of events(Honor Roll Assembly, Back to School night, Orientation, Parent Teacher Conferences, Open Houses) and utilize our website and ParentSquare to ensure to communicate important updates, successes and any plans for improvement and change.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

MSA-3 has hired a PACE coordinator to better in touch with our families. Our focus areas of improvement is to establish a parent teacher club. Parents will have more engagement via this club.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-3 has homeless and foster youth liaison. This position allows our families to receive SEL (Social Emotional Learning) support. MSA-3 has CWA to get hear from our parents about the concerns they have, and this allows us to check our practices in regards to academics and school operation.
MSA-3 has several engagement opportunities for feedback and growth via social media accounts and school events to ensure our school community is cohesive and collaborative.

> Our demographic is almost equally split between African American and Latino populations. We try to ensure we are inclusive of all genders, races, ethnicities, and cultures. Being 100% inclusive takes time but MSA-3 is 100% invested in making a mark of cohesion at all parts of our school's staff, families and students!
> One area of improvement is Climate of Support. MSA-3 admin and staff will increase support of families through;
> 1) various modes like getting feedback surveys.
> 2) informing parents more of volunteer opportunities.
> 3) including data points for Academic and Behavior during parent meetings to better drive the school operations.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

> MSA-3 is investing more to improve students' test taking skills, along with professional development on classroom management. We also invest in more college counselors to ensure all of our students finish high school and get college acceptances. College Career Indicator turned to "green" with substantial A-G completion as well as SBAC proficiency.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

> We spend a lot of focus on home visits and getting our staff familiar with the student's families. Building a bond and a connection of trust is the most effective way to improve engagement.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

> One area of improvement is Climate of Support for our students. MSA-3 admin and staff will increase support of families through;
> 1) Student Led academic engagement meeting academic challenges using UDL support model.,
> 2) providing continued SEL support by using our MTSS Model.
> 3) acknowledging and celebrating student success each quarter.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.			3		
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.			3		

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

> We engage with our staff via anonymous survey where we collect data and open ended questions in regards to academics, discipline, school culture.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

> Monthly, we have a meeting called PAC/Coffee with the Admin so parents can stop in and have a meet and greet or voice concerns and recommend new items to make the school more efficient.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

> MSA-3 will continue to focus on well planned SSC and ELAC meetings to involve underrepresented groups.
> MSA-3 has adjusted Coffee with the Admin on a monthly basis to provide comprehensive data points for academics and behavior.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

> MSA-3's approval rates slightly went down for students and staff around 3% and 5% respectively. We attributed the decline due to challenges of in-person education compared to distance learning rating last year. However, historically, MSA-3 got the highest rating for all groups. Our in-person learning data for the last three years and this year's data is below.
>
> Three years in-person data for students: 56%   This year's data: 64
> Three years in-person data for families: 89%   This year's data: 96
> Three years in-person data for staff: 69%   This year's data: 80
>
> MSA-3 takes pride in improving in all these areas. We attribute the success to having more student oriented learning environments. Our intervention is geared towards students' needs in Math and English.
> For decline in staff, we attribute the issue with the challenges of in-person learning during the pandemic. Teaching with masks, weekly Covid testing impacted our staff's tasks. In addition, challenges around Prop-39 added more responsibility on our traveling teachers as well as receiving teachers. This year, we have had five teachers rotate classrooms. This is an issue to have set classroom procedures, prepare materials and equipment for the traveling teachers.
> Student approval rate increase is due to student center activities like assemblies, student leadership events, spirit week activities, field trips.
>
> We have found the following items as identified needs:
> Add sports teams (football, soccer, baseball)- A middle school flag football team has been added. For the 2022-2023 year assistant coaches will be added to each team.

Student bathrooms (dirty, vandalism)- A restroom schedule will be created and student expectations for the restrooms will be added.
Facilities; not having enough rooms for every teacher
More activities/electives for students
Limited staff that speak Spanish (we hired 2 bilingual employees after this survey has been taken: one front office staff and one PACE coordinator)
Student discipline, student consequences need to improve- More discipline training has been added to the PD's. A data system has been added to track infractions.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1.MSA-3 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-3 strives to offer a well-rounded education to our students.
MSA-3 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2.As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.
We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student needs and interests. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP US History, AP World, AP Computer Science, AP English Lit, AP Statistics, AP Spanish, AP Environmental Science.

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-3 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-3 had a one-year cohort graduation rate of 100% last year where 75% of our graduates completed courses that satisfy the UC/CSU requirements.

3.MSA-3 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4.MSA-3 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.
In an effort to provide a well-rounded education to our students, MSA-3 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc.,as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-3 will make the best use of its resources to provide a well-rounded education experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Musa Avsar Principal	mavsar@magnoliapublicschools.org (310) 473-2464

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education				4	
Health Education Content Standards					5
Physical Education Model Content Standards					5
Visual and Performing Arts			3		
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)
6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

> MSA-4 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-4 has also provided PD and supported our teachers on NGSS, History-Social Science, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions
This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.					5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-4 uses an annual survey to measure how we are meeting the needs of our families in this area. We also conduct home visits to reach out to our parents to receive real-time feedback from them. We have increased our home visit rate during the 2020-21 school year. Home visits have provided us with greater insight as to how to support our students and what might be shaping their perspectives around learning.

MSA-4 has a Parent College program coordinator. Our Parent College program coordinator has served as an informational resource to parents concerning school programs, services, attendance issues, and other matters. With the implementation of the Parent College program, we provided information concerning related activities as well as encouraging parent participation in various school and community programs and services.

The Parent College coordinator has organized Parent College to expose our families to experiences and information that is usually not easily accessible to underserved families.

Furthermore, we have improved our communication lines for our parents and families to keep in touch with our school. We effectively utilized ParentSquare and Remind application to inform our parents about our education programs.

Lastly, we have regularly held parent involvement activities such as Coffee with the Admin, Parent Advisory Committee (PAC)/Parent Task Force Meetings (PTF), ELAC meetings, School Site Council meetings, Open Houses, Back to School Night, Parent/Teacher Conferences, and virtual parent information meetings to keep the parents informed about our school programs and receive feedback from them.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.					5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-4 offers Parent College to our families. This program is designed to support our families as they learn about pathways to college and career readiness. This program also addresses advocacy and informs them of their rights.

MSA-4's Admin works to engage our school community in advocacy and learning more about our rights. There is also access to information and resources by way of monthly SSC and PAC/PTF meetings. MSA 4's communication system Parent Square keeps parents and staff in constant communications through multiple mediums such as texts, private messages, and voicemail.

A focus area of improvement is to get more participation from parents. We will organize more parent activities according to the feedback that our parents provided during the 2020-2021 school year.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-4 provides numerous opportunities for all stakeholders to be a part of the decision-making process. Parents have active decision-making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC), and in the PAC/Parent Task Force (PTF) meetings.

In addition, we utilize the annual CORE Districts survey. All of our stakeholders are able to provide feedback on our educational practices by completing the survey in the spring. We analyze the survey results and share them and findings with our stakeholders during the meeting for further discussion to determine strategies for improvement.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-4 annually conducts the CORE Districts survey instrument to students in grades 9-12, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-4 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-4 strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, MSA-4 has observed an increase in the area of our overall approval rating with all stakeholder groups.

In 2020-21, 96.9% of our students participated in the survey and their responses provided an average approval rating of 79.0%% on the four topics of the survey, with a rating of 88% on Topic 1 (The climate of Support for Academic Learning) and a rating of 82% on Topic 2 (Knowledge and Fairness of Discipline, Rules, and Norms), and a rating of 76% on Topic 3 (Safety) and a rating 63% Topic 4 (Sense of Belonging), and 91% answered positively to the question, "Overall, I am satisfied and would recommend this school to other students."

Sense of belonging is the category with the lowest approval rate. The sense of belonging to school can be described as the perception of students as individuals, respecting their existence, and supporting them in the social environment of the school.
A low sense of belonging to the school, unfortunately, translates as low attendance, low preparation for school, and low levels of obedience to school and classroom rules. From this viewpoint, the sense of belonging to school is the single most important topic that we will address as the greatest need for improvement for the next school year as it directly affects the other survey topic.

We are implementing the following strategies to improve the sense of belonging among our students:
1.Involving all stakeholders to create community norms.
2.Listening to students and teachers to share their experiences of feeling uncertain about their belonging to the school.
3.Emphasizing common purposes and ideals.
4.Organizing more professional development around culturally responsive teaching.
5.Organizing more community-building activities and involving students in the process.
6.Implementing more cooperative learning activities in which classrooms work together to achieve a common purpose.
7.Cultivating respectful, supportive relationships among students, teachers, and parents.

Stakeholder voices (i.e., voices of our students, families, staff, and other school community members) play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff opinions about what we are doing great and should keep doing, and what are areas for improvement so we can continue to provide our students with the best quality education. MSA-4 uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and students' own strengths and weaknesses.

MSA-4 uses the CORE survey instrument for school climate indicators which include the following four topics for students, families, and staff: Topic 1: Climate of Support for Academic Learning; Topic 2: Knowledge and Fairness of Discipline, Rules, and Norms; Topic 3: Safety; Topic 4: Sense of Belonging (School Connectedness). In a separate survey, students are also asked questions in additional four topics which include indicators for social-emotional competencies: Topic 5: Growth Mindset; Topic 6: Self-Efficacy; Topic 7: Self-Management; Topic 8: Social Awareness.

Annually, we analyze survey results and share the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-4 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the

school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-4 strives to offer a well-rounded education to our students.

MSA-4 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include English Language and Composition, Spanish Language and Culture, Statistics, and World History (Modern).

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-4 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction of UC/CSU requirements. MSA-4 had a one-year cohort graduation rate of 100% last year where 100% of our graduates completed courses that satisfy the UC/CSU requirements.

3.MSA-4 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. MSA-4 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

In an effort to provide more well-rounded education to our students, MSA-4 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-4 will make the best use of its resources to provide a well-rounded education experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-5	Ali Kaplan Principal	akaplan@magnoliapublicschools.org (818) 705-5676

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education		2			
Health Education Content Standards					5
Physical Education Model Content Standards				4	
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-5 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to English Learners (EL) s by proficiency level and ELD instruction is aligned to the CA ELD standards and MPS framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, Math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, Math, and ELD over the past few years, MSA-5 has also provided PD and supported our teachers on NGSS, History-Social Science, Career and Technical Education, Health/Sex Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Our observations regarding students dealing with a new location, integrating back from online to in-person learning, and adapting to protocol changes allowed us to re-evaluate our academic programs, and extracurricular activities and implement Social-emotional learning in order to aim to foster social and emotional skills within the school curricula. We also have new teachers so students are adapting to new classrooms and new staff at a new location. Parents and Staff showed their satisfaction through the survey averaging +95% in most of the categories, that's why MSA-5 thrives on word of mouth type of student enrollment more. Parents and staff feel that adults at MSA-5 treat each other with respect and that MSA-5 promotes inclusion. We increased greatly in the section that states that the school allows for participation in decision-making. 100% of the staff feel that the school is a supportive and inviting place for them to work. 100% of the staff also feel that staff help students academically when needed. In regards to discipline, bullying has decreased, and fighting is an insignificant problem. Treatment of peers such as racial disparities is not a significant problem. Staff also feel that the school rules are fair and that the school handles disciplinary problems fairly. 100% of the staff feel that students know the school rules and expectations. Students appreciate that the school hosts fun/enjoyable activities such as games during lunch, hot chocolate day, and plenty of field trips, so students see that teachers are helpful and caring to students. In addition school rules, health and safety guidelines and expectations are enforced fairly and equitably, for which parents feel that the school communicates effectively. T

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Regarding family surveys, the two major areas of concern safety and parking lot issues are MSA-5 has continued to implement new strategies to improve building relationships with its educational partners. Families have often

commented on the area not being desirable, the lunch and nutrition areas have recently been moved to a covered tent area east of where they previously were located. The tentative plan for MSA5 is to secure our new location in August 2024. Implementing this plan into action will alleviate a lot of these concerns and create a more open platform for troubleshooting any new challenges. When folks feel safe and are already invested in the MSA community, our enrollment numbers will most likely increase.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-5 Los Lobos offers many opportunities to engage the community in the decision-making process and to evaluate our programs and initiatives. Some are Coffee with the Admin, PAC/Parent Task Force Meetings, Open House/Back to School, Parent/Teacher Conferences, Home Visits, Fundraising Activities, and Assemblies to just name a few. Due to the pandemic, MSA-5 offered those meetings and events in-person and virtual sitting to provide more equity. We will be looking at creating a safety committee. MSA-5 has hired an outreach and parent liaison "PACE Coordinator" in an effort to involve more partners, including underrepresented families, to participate in opportunities on and off-campus. We implemented a partnership with the Tarzana Treatment Center which is serving as an informational resource to parents, students, staff, and others concerning social issues that support the child. Also, MSA-5 utilizes a communication portal "Parentsquare" that informs of school programs, services, attendance issues, and other matters, and services. With adequate translation services for parents, MSA-5 intends on offering events at different times of the day, will continue our Parent College program next year, and make virtual and in-person home visits

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.					5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

> The faculty believes that the admin team supports the staff for various projects and personal matters. Therefore, our focus is to support teachers to develop a stronger collaborative culture among colleagues and students, that's why we adopted the "train the trainer" model and sharing the "promising practices" for the "Adaptive School" PD series and other instructional programs such as GIMKIT, myON, NWEA, etc, which really establish a small family environment. Lastly, staff outing activities (Thanksgiving potluck at Balboa park, End-of-year luncheon at a local restaurant, and staff bowling) are appreciated
> Also, MSA-5 has an in-person and virtual home visit program where staff go after school to students' homes or virtually through zoom to meet with parents/guardians to discuss student progress, and school updates, and listen to parents' questions and comments.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

> Students, parents, and staff showed their request to secure a permanent location, which is under the way. Sharing a campus with uncertain future affected the survey results and is a struggle to build a strong school culture.Nonetheless, facility limitation is a challenge to achieve our mission and fulfill the school mission as a true science academy. There seems to be a pattern in students not being happy with dress code/uniform. We can improve by having more variety for uniforms and explaining the reason why the uniform policy is conducive.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

> A focus area of improvement is to get more participation from parents and to offer more workshops for educational partners to attend to be better informed of information pertaining to MSA-5 after 3pm taking the work hours of parents into consideration.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

  Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	

Seeking Input	1	2	3	4	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

There are several platform where educational partners have provided input and be a part of the decision making process. School site changes and updates, school budget, restricted funds such as Title and ESSER, student recruitment, the length of instructional year, school climate and culture related events are discussed and reviewed at the weekly faculty meetings, SSC, ELAC, PAC , Restorative Justice Committee and Student Council

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

A focus area for improvement would be to obtain consistent attendance of the parents at the gatherings and have more events outside the school grounds to better connect with the community.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-5 simultaneously utilizes printed notification and electronic communication means to reach out to underrepresented families, and offer PBIS incentives to the students of those families in order to relay the notifications and announcements to their parents. The PACE coordinator supports parents to set up the parent portal account to receive information on school related news and notification based on preferred language.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-5 annually conducts the CORE Districts survey instrument to students in grades 6-12, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, and documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our educational partners during LCAP information and feedback meetings and regular board meetings. MSA-5 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-5 strives to improve our students' perceptions of school safety and connectedness.

In 2021-22, 98% of our students participated in the survey and their responses provided an average approval rating of 81% on the four topics of the survey, with a high rating of 79% on Climate of Support for Academic Learning and our lowest rating of 56% on Sense of Belonging / School Connectedness, which was an 11 points drop due to the pandemic/distance learning setting to in-person from the previous year. There has been a decrease in approval rates in each of our categories. Sense of Belonging was the biggest drop at 56%, which will be caused by the location change as we establish our presence on the new campus. Knowledge and Fairness of Discipline, Rules, and Norms is an area where we need to work on average at 70% compared to the past, there is a decline. For this category, there needs to be a collaborative effort to communicate the rules and policies school-wide. here are a few statements that went from strongly agreeing to agreeing which also dropped our score. There are a few reasons that could be affecting this change, one being that we move sites from Reseda HS to MSA-1, another being that we changed our grading policy due to the pandemic to close the achievement gap. Lastly, our staff are curious about our school's future location and whether getting our own site is a fact or a dream.
We will continue to push to have a high level of participation while implementing the same strategies that helped our survey data improve amongst students and work with our students, families, and staff to improve the areas where the data was not as strong as the other topic areas.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-5 designs its master schedule in order to meet the needs of its students ensuring all academic content areas are available to all students, including subgroups. Core subjects (English, Mathematics, Social Sciences, and Science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules, and transcripts, MSA-5 strives to offer a well-rounded education to our students.

MSA-5 provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure the satisfaction of UC/CSU requirements.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.

We also provide all other academic programs and services outlined in our charter petition, certain programs and services is dependent on student need and interest. For example; we provide CCSS-aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELLs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.). In addition, every student has access to a computer in class in order to utilize instructional software such as myON, StudySync, Khan Academy, Illuminate, etc.

We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP Spanish Language and Culture, AP World History, and AP Computer Science Principles. Moreover, high school students are assisted to enroll in dual enrollment classes through Los Angeles Mission and Pierce Colleges.

All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-5 offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure the satisfaction of UC/CSU requirements.

3. Some of our newcomers are behind expected coursework, MSA-5 admin team designs their schedule accordingly in an effort to keep them on track to culminate or graduate. Due to the facility constraints, offering more elective courses is a challenge.

4. MSA-5 will continue to provide access to a college-preparatory, STEAM-focused broad course of study for all our students. We will ensure that all our students graduate college and are career-ready.

In an effort to provide more well-rounded education to our students, MSA-5 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, digital citizenships, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-5 will make the best use of its resources to provide a well-rounded educational experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 6	James Choe Principal	jchoe@magnoliapublicschools.org (310) 842-8555

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	1	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards					5
Physical Education Model Content Standards					5
Visual and Performing Arts			3		
World Language	1				

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-6 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-6 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Magnolia Science Academy 6 has been focused on Building Relationships Between School Staff and Families. This year, we were able to conduct many meetings throughout the year in order to make sure that we have opportunities for our parents to be involved with our staff and our school.

On a monthly basis, the principal will host a SSC/Coffee with the Principal meeting with students and with parents in order to keep our families up to date with the latest news about our school. Due to the pandemic, most of our meetings have been shifted from in-person to zoom. However, the shift from in-person to online has been a positive change where more parents have been able to attend. Throughout the school year, the attendance from parents has increased about 10% (rough estimate) and the participation that can happen, via chat, has also increased. Students have also been included in these meetings to make sure that all of our educational stakeholders are aware of what is going on with the school.

Furthermore, the PTF meeting, which is hosted by the principal and the PTF president, is done on a monthly basis as well. The increased participation in these meetings has also shown that the parents are more interested in their children's education than in the previous year, thanks again to the fact that we are able to use Zoom as our online platform.

Lastly, we have had other opportunities for our families to be connected with our school through our ELAC meetings, which is held 4 times per year, and through our Parent College Program, which was held 5 times this year.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Although there are many ways to communicate with the school; including Coffee with the Principal, SSC meetings, ELAC meetings, and the Parent College Program, we would still like to have other opportunities to Build Relationships with our Families. We are currently brainstorming other ways that we can get families to become a part of our Magnolia family by thinking of ideas like; Bingo night, Family movie night, and any other event that might interest our families to come to our school and to meet the school team.

In addition to this, we would like to improve our relationship with our families by having access to our school in a more normal way. Currently, whenever parents come to our school, even prospective parents must go through the site school, Pio Pico Middle School's, office in order to reach us. This is a bit of a hassle for our staff and our families as well.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Here at Magnolia Science Academy-6, we do our best to build positive relationships with staff members, the families, the students, and any other support members within our community. We have been sending staff member(s) to training to help increase positive relationships, particularly the PBIS training that has been offered by Los Angeles County of Education. This was the first year that we attended this training and are planning to continue to implement and develop our PBIS system. Furthermore, we have opened up as many communication lines as possible for our parents and families to contact our school. Beyond our typical email and phone system we have also implemented other technological apps that build bridges between the school and its families. Some of the apps that we use are: Parent square, Class Dojo, Twitter, Facebook and Illuminate (our SIS system). Also, our school website is always up to date to keep all stakeholders posted.

For face to face meetings, we have an open door policy where parents are able to join our School Site Council Meetings (SSC), English Language Advisory Committee (ELAC), our Parent Advisory Committee (PAC)/Parent Task Force (PTF) meetings, Title I meetings, and our Coffee with the Principal meetings. All of these face to face meetings occur multiple times (min 4 times for each meeting) throughout the year at various days of the week and at various times of the day in order to help maximize participation from all parent/culture groups. We always have one bilingual staff member who provides translation in these meetings. As an added way of building relationships with families, we have fun activities like Back to School BBQ, back to school night, and the Multicultural Food Festival to help bridge the gap between families and the school and orientation meetings in order to meet and greet parents and students before the year begins.

Magnolia Science Academy 6 will do it's best to help improve all families, including engagement from underrepresented families, by making sure that we do our Home Visit, which is a staple of all Magnolia Science Academy schools. This year, our target was to hit 25% of our students. We were able to hit that target by the end of the first semester. With that in mind, we want to be strategic about who we do Home Visits for. We would like to make sure that we are targeting students who are in need of a Home Visit or underrepresented families who may benefit from a Home Visit as well.

Next year, we will have a PACE coordinator, a Parent and Community Engagement Coordinator from the beginning of the school year. I am hoping that with this position filled at the beginning of the school year, we will be able to visit more families than ever before. In addition, we will also have another teacher who will be the Family and Outreach coordinator in order to assist and take lead with meeting families in our community and outside our community.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-6 feels that building partnerships for student outcomes is an important aspect of achieving higher results. Our teachers are given opportunities to grow professionally with our tuition reimbursement policy. The teachers are encouraged to take advantage of the tuition reimbursement policy in order to help with their own development but also to help with student outcomes as well. Some of the professional development opportunities that our teachers have taken are the: LACOE induction program (beginning teacher program), CAHPERD (California Association for Health, Physical Education, Recreation and Dance) conference, Administrative degrees, and Master degrees in education. As a result of these professional development growth opportunities, teachers become more adept in their content knowledge and teaching pedagogy. This then helps students in class, during after-school tutoring clubs, and even during Saturday school.

Teachers also have the opportunity to build relationships with parents and their child(ren) by enrolling in a course, "Parent College," and going through a curriculum that helps parents become more familiar with the education sector. The topics that are included in this program are; Common Core State standards, high school readiness, college applications, grants, enrollment, statistics, testing, extra-curricular activities...etc. At the end of the curriculum, the parents who attend every session graduate from the Parent College course, where we have a ceremony just like how we do for our culminating 8th graders. Lastly, per our charter petition, we do "Home Visits" throughout the school year. Every year we try to hit our target of meeting the home visit goal. The goal is visiting min. 25% of our school's population, which is usually around 40 families. This is where we are able to go over to families' homes, chat with them, and bond with them to help increase the sense of belonging at our school.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Magnolia Science Academy 6 looks at its own data and does an analysis of its data to make sure that we are familiar with our overall data and our detailed data as well. Aside from the overall score, we look at the data from an ethnic standpoint, and from a special programs standpoint. One of the areas that we want to improve on will be to increase our scores for the special programs group; English language learners and our Students with Disabilities group. The students in these two groups have not shown significant improvement from last year's MAP results (Measures of Academic Progress) and we would like to make sure we have improvement and a focus on these two groups.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Next year, we will have a PACE coordinator, the Parent and Community Engagement Coordinator from the beginning of the school year, and the Family and Outreach Engagement coordinator. I am hoping that with these two positions filled at the beginning of the school year, we will be able to connect with families more than ever before. This will then help strengthen our partnership with the families and which we hope will help with our academics. The PACE coordinator and the Family and Community will help us be able to bring in more families to our afterschool programs, to our Saturday school programs, and to our online tutoring service, Tutorme. We hope that with the added academic support we can see growth from all of our students who are involved.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.			3		
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.			3		
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.			3		
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.			3		

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

Through Magnolia Science Academy 6's meetings; (PTF, Coffee with the Principal, SSC, ELAC...etc.) with our educational partners, any important information that will affect their lives will be presented in a way so that our families can be informed, make comments, and/or ask questions about the decision making process. We encourage all of our parents to make sure that they are in attendance so that we can make a collaborative/joint decision on things that will affect our school. Some of the examples, of decisions that we have made, include our bus transportation pick up locations and times, our Title I fund expenditures, our ESSER 3 funding expenditures, and our 8th-grade fundraiser/graduation decisions.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Magnolia Science Academy 6's is always looking for further improving our decision making process by gathering as much data as possible, analyzing that data, and then making an informed decision with that data. One of the newest ways that we are utilizing, to gather more data is to use surveys/polls from our Zoom meetings that is featured on our zoom call. In addition to the poll function, the private chat, that is also on zoom is another great way to have input from our parents. Google forms has been a helpful tool as well when looking for family suggestions/comments/questions. It gives families the time and place to do the google forms at their own convenience, which increases the participation from our families. Lastly, our parentsquare app, has helped us make sure that we communicate with all of our families about the important decisions that we are making and to share the news with them. The parentsquare app also has features similar to Zoom and google forms, if needed.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

Next year, we will have a PACE coordinator, the Parent and Community Engagement Coordinator from the beginning of the school year, and the Family and Outreach Engagement coordinator. We are hoping that with these two positions, we will be able to reach all families, especially underrepresented families, to help us with the decision making process. We are hoping that these two positions will help us with Home Visits, phone calls, zoom calls, emails...etc. to make contact with them to become more engaged and to be a part of our school. Through making these connections, we plan to have these underrepresented families come to important meetings where they can listen, learn, and make informed choices/comments/questions about any decision that the school would like to make.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-6 annually conducts the CORE Districts survey instrument to students in grades 6-8, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our

findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information and feedback meetings and regular board meetings. MSA-6 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-6 strives to improve our students' perceptions of school safety and connectedness.

In 2021-22, 100% of our students participated in the survey.

Next Steps
MSA 6 will first and foremost continue to seek enrollment for school growth, because an increase in student population will open up more funding and opportunities for extracurricular activities. We have a very small staff that is quite heavily occupied with their standard duties, coordinator roles, professional development, and school operations. As we develop a stronger presence in the Mid City community, we will begin to have parent volunteers that can lead extracurricular activities. We will need more space for these things as well, so we will rely on the Home office to find an open door to more.
Next, we will continue to work alongside our SPED coordinator through the rest of the year as they transition to a full residency at MSA 6. The ability to collaborate with staff and faculty can be improved as the SPED coordinator is more present throughout each day, especially in the classroom. We will facilitate more meetings between the SPED department and the staff to encourage a more cohesive environment for both. Beginning of next school year, we would like to also sit down with our SPED department and make sure that we have a list of items that we would like for our SPED team to work on throughout the school year.
For next year, the uniform issue will be addressed by giving away crew neck sweaters, instead of the usual sweaters with hoodies. This should cut down on the amount of hoodies that are worn on campus, which should lead to less issues with hoodies being on in classes and out of classes. Crew neck sweaters are being placed as of April 2022 for the following year, along with other uniform clothes such as the PE shorts, and PE shirt.
Regarding the math teacher suggestion, we will continuously look for a candidate through all of our hiring channels, LinkedIn, Edjoin, Paycom...etc. We will also monitor the classes by having check-ins with the covering teacher to assist in any way possible. Lastly, although there were lots of thoughts and suggestions about the math teacher, we are confident that the teacher is teaching the standards/content to the kids and getting them ready for their next grade level and for the state test.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-6 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-6 strives to offer a well-rounded education to our students.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

3. MSA-6 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. MSA-6 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready. In an effort to provide a more well-rounded education to our students, MSA-6 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-6 will make the best use of its resources to provide a well-rounded education experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 7	Meagan Wittek Principal	mwittek@magnoliapublicschools.org (818) 886-0585

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	1	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education				4	
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts				4	
World Language	1				

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-7 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to EL students by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. EL students have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year in addition to the weekly two hours of staff collaboration and PD time built into the 2021-22 school year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-7 has also provided PD and supported our teachers on NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, and Visual and Performing Arts. Staff members also trained on Social Emotional Learning (SEL) supports and Positive Behavior Interventions and Supports (PBIS) for students. This year we added a year long training program in the area of Equity and Implicit Bias.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
　　1 - Exploration and Research Phase
　　2 - Beginning Development
　　3 - Initial Implementation
　　4 - Full Implementation
　　5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

> One strength that MSA-7 has in the area of building relationships between school staff and families is the fact that we hired a full-time bilingual Parent and Community Engagement (PACE) Coordinator for the first time. Having this additional position has allowed us to strengthen our community relationships and partnerships as well as our communication with families. Despite the challenges of this year and feeling disconnected in many ways, we were able to bridge gaps between families and staff due to the efforts of the PACE Coordinator and the number of meetings and opportunities we created for school to home connections. Another strength in this area and one we hope to continue to progress in is the number and quality of community partnerships and resources we have established over the past few years to help support our families during this difficult time.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

> The past couple of years have presented it's challenges when it comes to building relationships and school culture due to the COVID-19 restrictions and protocols. We were unable to host as many staff and family events as we have in the past and most meetings were held virtually. Our Home Visit rate has dropped as well from an average of 25% of our families participating to only 8% this school year. We have felt disconnected from each other and from our families. Although things are starting to return to normal and we were able to host our first in person event in April, we are looking forward to the 2022-23 school year when we can get back to building and sustaining relationships with our school staff and families more consistently. On the 2021-22 Educational Partner Surveys, our families maintained a 98% approval rating in the area of Sense of Belongingness, however, our staff dropped 13% in this area as a result of a historically challenging year and limited opportunities to build relationships and school culture with each other.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-7 hired a full-time bilingual Parent and Community Engagement (PACE) Coordinator this school year to increase our effectiveness in this area even more. This position allows for our school and families to build relationships within our community as well as assist with parent meetings, school events, newsletters, community partnerships and resources, and the home visit program. MSA-7 has SSC meetings (4 times per year), PAC/PTF meetings (8 times per year), ELAC meetings (4 times per year) and Coffee with the Admin (4 times per year). In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. We have social media accounts on Facebook and Twitter, a monthly bilingual school newsletter and Parent Square as a school-wide means of communication to our families which is set up in their preferred language. Our annual gatherings with parents such as Parent Orientation, Back to School Night, Fall/Spring Parent teacher conferences, Open House/STEAM Expo, Fall Festival, Literacy Night and PTF organized Family Social nights help increase the school to home communication. Although we were not able to hold all of these this year due to the COVID-19 health and safety protocols, we still held many of them virtually and were even able to host our Spring Open House and STEAM Expo in person. We have also strengthened our community partnerships during the past couple of years in an attempt to provide as many resources to our families as possible during this challenging time. This has included meals, baby supplies, school supplies, grocery and gas gift cards, mental health supports and more.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.					5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

To better support our parents, in addition to the meetings shared above, we have Student Success Planning Team Meetings (SSPT), Academic Support Meetings, ELD Coordinator Meetings and IEP meetings with the students and their parents. During these meetings, the students' individualized needs are discussed and improvement plans are

prepared collaboratively. We have also strengthened our community partnerships during the past couple of years in an attempt to provide as many resources to our families as possible during this challenging time. This has included meals, baby supplies, school supplies, grocery and gas gift cards, mental health supports and more. We also prioritized funding this school year for staff PD in the areas of Culturally Responsive Teaching and Implicit Bias to help further close any existing equity gaps and strengthen relationships. Another prioritized area to strengthen partnerships for student outcomes was prioritizing the addition of more Social Emotional Learning and Mental Health supports by increasing partnerships, adding an SEL music program and hiring a full time school psychologist.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

One area of improvement for building partnerships for student outcomes is a need to bring back the Parent Workshop programs we used to have pre-pandemic and even virtually during the 2020-21 school year. With so many other priorities this year, we did not offer any parent workshops for our families so that is a definite need and priority for the upcoming school year. Although we still held all parent meetings virtually including parent/teacher conferences, it was difficult to connect with families to speak with them about their children's learning, behavior and social emotional progress as effectively as when done so in person. We have also identified a need to build systems and programs to better connect with and support our Newcomer families. Our ELD Coordinator is working with our PACE Coordinator to develop these supports for next year.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

One area of improvement for building partnerships for student outcomes with underrepresented families is a need to bring back the Parent Workshop programs focused on topics that are relevant to these groups. Another way is to increase the translation supports we have for families who speak languages other than English and Spanish. We have also identified a need to build systems and programs to better connect with and support our Newcomer families. Our ELD Coordinator is working with our PACE Coordinator to develop these supports for next year.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	

Seeking Input	1	2	3	4	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

One strength that MSA-7 has in seeking input for decision-making is the number of opportunities and platforms in which we offer to our educational partners to give us feedback. These include committee meetings, Town Hall meetings, surveys, and more. We also provide follow up to these surveys and meetings to let partners know that we heard them and we acted. It's important that our families, staff and students feel represented so anytime we are able to act on a suggestion of theirs, we like to highlight it. Another strength is that our staff and administrative team is available and accessible to our families. They know we are here for them and their child and welcome the chance to speak with them. That was a comment we received repeatedly on this year's educational partner surveys, that the families appreciated how quickly staff responds to their needs, questions and suggestions and is aware of what is happening in the school.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-7 provides many opportunities for all educational partners to be a part of the decision making process. Parents have active decision making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC) and in the PAC/Parent Task Force (PTF) meetings. During these meetings, current and future programs are discussed with all partners, school-wide plans are reviewed, and we receive input on what our educational partners would like to see for the school. We value our partners and their feedback to strengthen our programs for the upcoming school year. In addition to the annual Panorama Educational Partner Surveys administered in the Spring, we also administer LCAP planning needs assessment surveys to the parents, staff members and to the students. Parents have active decision making roles in the School Site Committee (SSC), in the English Learners Advisory Committee (ELAC) and in the PAC/Parent Task Force (PTF) meetings. To increase the efficiency and engagement of being part of these committees we implemented training sessions during the first of these committee meetings this school year. We do still struggle with attendance at many of these meetings and have tried several different day and time options to try and find which works best for our families.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

One area of improvement for seeking input for decision-making with underrepresented families is a need to increase the translation supports we have for families who speak languages other than English and Spanish. We have also identified a need to build systems and programs to better connect with and support our Newcomer families. Our ELD Coordinator is working with our PACE Coordinator to develop these supports for next year. We would also like to build our culturally responsive programs so that all families feel represented in our school and more encouraged to participate in meetings, committees and events.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-7 annually conducts the CORE Districts survey instrument to students in grades 3-5, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our educational partners during LCAP information and feedback meetings and regular board meetings. MSA-7 disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-7 strives to improve our students' perceptions of school safety and school connectedness.

In 2021-22, 97.2% of our 3rd to 5th grade students participated in the survey and their responses provided an average approval rating of 77% on the four topics of the survey, with a rating of 80% on Topic 1 (Climate of Academic support) and a rating of 78% on Topic 2 (Knowledge and Fairness of Discipline), a rating of 71% on Topic 3 (Safety) and a rating of 79% on Topic 4 (Sense of Belonging), whereas 88% answered positively to the question, "Overall, I am satisfied and would recommend this school to other students."

The changes in average approval rates from Spring 2021 to Spring 2022 were slightly down for all three educational partner categories with an decrease of 4 points for students (81% to 77%), 1 point for families (99% to 98%), and 4 points for staff (97% to 93%).

One highlight from the surveys was the parent approval rating of Safety was 99%. Although this was a 1 point decline from last year, it is still very high. Considering how much had to be done and focused on in regard to health and safety this year and the fact that only six families chose to keep their students in Independent Study, we are relieved to see that our families felt safe sending their children to school with us during this stressful and unsure year.

After analyzing all partner surveys we identified the biggest areas of concern and will put an action plan in place to address these concerns. These areas include: implementing a before-school program for our students, collaborate with Schools in Action to identify a new vendor or course of action to increase the food quality for the students, review and adjust recess and lunch procedures to implement post-pandemic protocols, collaborate with the PBIS team to reflect glows and grows for this school year, continue working on expansion plans for more space and increase parent involvement by working with the PACE Coordinator to create an action plan to re-engage families to acceptable levels per educational partner survey.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-7 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and non-core subject areas such PE, Health, and Art are offered aligned with our charter petition and graduation requirements. Our students with disabilities have access to all general education curriculum and programs with RSP support as indicated in their IEPs. As evidenced by the school master schedule, class rosters, student schedules and transcripts, MSA-7 strives to offer a well-rounded education to our students.

2. As evidenced by our master schedule, after school club forms, class rosters, student schedules and transcripts, 100% of our students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and specials as outlined in our charter petition such as Computer, PE/Health, and Life Skills (Character Education). We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.) We provide students with opportunities to participate in Enrichment Programs based on student needs and interests.

3. MSA-7 provides access to a college and career awareness, STEAM focused broad course of study for all our students.

4. MSA-7 will continue to provide access to a college and career week to develop and motivate students to be college and career ready. In an effort to provide more well-rounded education to our students, MSA-7 will strive to offer additional non core subject programs to bring awareness to college and career readiness, health and physical education, diverse arts programs, sports programs, character education, and SEL programs, etc. In addition, we will continue to provide our students with experiential learning opportunities, including but not limited to, instructional field trips, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-7 will make the best use of its resources to provide a well-rounded educational experience for our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Laura Schlottman Principal	lbschlottman@magnoliapublicschools.org (323) 826-3925

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	2	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards			3		
Physical Education Model Content Standards				4	
Visual and Performing Arts				4	
World Language				4	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)
6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA Bell ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.). We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 36 hours of professional development per year in areas such as:

1. Common Core ELA/Literacy, math
2. Supports and Intervention for Students with Disabilities, especially Universal Design for Learning (UDL)
3. ELD Standards and integration of ELD standards into content areas
4. MTSS and PBIS
5. Increase learning loss interventions

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction
Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.				4	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.				4	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

> This year, the school has increased parent engagement by returning our signature parent engagement activities. We brought back: Parent College, Parent workshops, School Site Council meetings and Parent Task Force. The events were offered both in person and virtually so that we could increase our participation.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

> Now that the signature events are back into motion the goal is not increase the number of events and participants.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

> The pandemic has created many positive opportunities to enhance learning, but it has also created barriers such as connectivity, academic program uncertainty, etc. MSA Bell's leadership and learning community are very resilient and ready to adapt to the challenges of tomorrow through an Agile Decision-making Approach.
>
> Upon review of the stakeholder survey, the ability to connect virtual versus full in-person instruction has been changed for all. MSA Bell will continue to provide counseling and training to support the SEL component through the usage of resources such as school personnel and Zones of Regulations. For the start of the 2021-22 school year, a more extensive plan will be developed to support the return of students to campus.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

The following are strengths as identified by each stakeholder group:

1. Students: Supportive staff with many resources available; Fair and Respectful treatment of everyone; School facilities
2. Families: Staff is supportive of family needs; Rigorous instruction; Communication through Parent Square
3. Staff: Welcoming environment and supportive; Collaborative spirit among staff; Availability of resources to support learning

Connection is a hallmark of MSA Bell, across all stakeholders the value and importance of connecting and building relationships are essential. MSA Bell team will continue to adapt to the needs of the community to ensure this continues, especially as students transition to a hybrid. MSA Bell has an array of resources that are available to enhance learning. Leadership will continue to create messaging and training for all stakeholders to fully utilize the resources available.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

The following are needs as identified by each stakeholder group:

> 1. Students: Remote learning and the pace of instruction; Amount of student work; Pre-pandemic issues related to middle school such as uniform, bullying, etc.
> 2. Families: Accessibility and availability of office hours and staff; Pre-pandemic issues such as traffic, outside environment
> 3. Staff: Additional workload due to Distance Learning; Lack of physical interaction with students that diminishes accountability; Need for culture building across all stakeholders

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

> There are a couple of pre-pandemic issues that resonate with middle school experience, although it has been more than a year since students and teachers have set foot on campus. Some of these issues include traffic and bullying (social media and COVID), these will need to be monitored closely, especially as the school returns to a hybrid format. The remote environment has increased the urgency to educate families with the tools and available resources to fully take advantage of the available opportunities.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

> MSA Bell provides various opportunities for parent involvement and education. Involvement is facilitated through avenues such as PAC meetings, School Site Council (SSC) meetings, English Language Advisory Committee (ELAC) meetings, and family workshops/conferences with a focus on the whole child development. Furthermore, the

administration and support staff are visible and approachable. This ensures safety is a priority and concerns are addressed in a timely manner.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Although various opportunities are provided to engage in the learning community, the pandemic has made it a challenge for families to take on additional responsibilities/availability. Leadership is working to build student and family capacity to fully comprehend and utilize the resources that are available to enhance learning. Such resources include ParentSquare, Paper, Surveys, etc. An additional area of focus is to build technology partnerships with the community to provide families with resources such as technology education, low-cost internet, and computers to assist with the changing educational landscape.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

The LEA wants to increase home visits and give parents an opportunity to provide feedback more frequently.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

Traditionally, MSA Bell conducts a school climate survey every year during the early spring through Panorama. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feels, and how to facilitate improvement. Throughout the document, many references have been made to the various components of the survey. This portion will be dedicated to the free responses from our stakeholders.

The following are strengths as identified by each stakeholder group:

- Students: Supportive staff with many resources available; Fair and Respectful treatment of everyone; School facilities
- Families: Staff is supportive of family needs; Rigorous instruction; Communication through ParentSquare
- Staff: Welcoming environment and supportive; Collaborative spirit among staff; Availability of resources to support learning

Connection is a hallmark of MSA Bell, across all stakeholders the value and importance of connecting and building

relationships are essential. MSA Bell team will continue to adapt to the needs of the community to ensure this continues, especially as students transition to a hybrid.
MSA Bell has an array of resources that are available to enhance learning. Leadership will continue to create messaging and training for all stakeholders to fully utilize the resources available.

The following are needs as identified by each stakeholder group:

- Students: Remote learning and the pace of instruction; Amount of student work; Pre-pandemic issues related to middle school such as uniform, bullying, etc.
- Families: Accessibility and availability of office hours and staff; Pre-pandemic issues such as traffic, outside environment
- Staff: Additional workload due to Distance Learning; Lack of physical interaction with students that diminishes accountability; Need for culture building across all stakeholders

There are a couple of pre-pandemic issues that resonate with middle school experience, although it has been more than a year since students and teachers have set foot on campus. Some of these issues include traffic and bullying (social media and COVID), these will need to be monitored closely, especially as the school returns to a hybrid format. The ability to access staff through office hours or hours of operation has been a challenge. The pandemic has shifted the office of operation to ensure COVID mitigating factors are in place such as schedule through appointments, health screening, and limiting operation hours. As Los Angeles county transitions to less restrictive tiers, so do the operating hours and support for families.

Here are some other factors that are being explored and implemented to ensure a rigorous academic program that adapts to the needs of the community:

- Increase tele-outreach to support in various areas such as the transition to hybrid, and educate with online tools such as Illuminate and ParentSquare.
- Evaluate instructional practices to highlight promising instructional practices such as a focus on power standards, ensure assignments are relevant to finish product, emphasize learning skill sets and recognition of the process for learning, staff sharing, and highlighting instructional practices during meetings.
- Adjustment of schedule to ensure time is allocated for an appropriate break and lunchtimes, and shift advisory to assist with academic interventions
- Dedicated task force members to highlight and solicit information about reopening, to be part of the decision-making process.
- As students return, opportunities to increase student-to-student interactions will be explored further through professional development.
- As students return to campus, the instructional staff will focus on reviewing and adjusting the school-wide expectation matrix to continue to align with our PBIS goals.
- Explore communication inhibiting factors

Findings have been shared with various stakeholders through various meetings/informational sessions.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent

to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA Bell designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Bell strives to offer a well-rounded education to our students. Furthermore, MSA Bell support staff responsibilities shifted due to the pandemic to ensure connectivity to school. This included phone outreach to determine student needs such as Hot Spots for Internet, Chromebook, or providing technical support to ensure connectivity to classes and the available platforms. All technology is managed and monitored to ensure appropriate usage and inventory.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs, and services being dependent on student need and interest. For example, we provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our internal assessments (MAP, IAB, etc.) All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness and socio-emotional development. The Learning Management System provides teachers with resources to monitor academic progress and tips to connect with students. Mentorship is monitored through the LMS to ensure every child has an adult connection on campus. Furthermore, MSA Bell has provided students with information regarding A-G courses, as well as offered opportunities to take courses such as Algebra 1, Geometry, or world language courses (Spanish 1 and 2) that would earn credit towards their high school pathway.

3. MSA Bell has executed extensive plans to ensure and provide ongoing connectivity. The major hindrance impacting student connection is the inability to form a personal connection in the virtual environment versus in-person. The pandemic has lead to the monitoring of various data points that identifies our neediest students and extensive plans have been generated to connect or reconnect students and families. These plans include, but not limited to, home visits, conferences and follow-ups, creation of personalized scheduled, support to connect to the various platforms, etc.

4. The following is a list of strategies and actions that are being reviewed for implementation/execution. Some of these plans are currently in action and will be adjusted to continually enhance positive student outcomes.
- Increase tele-outreach to support in various areas such as the transition to hybrid, and educate with online tools such as Illuminate and ParentSquare.
- Evaluate instructional practices to highlight promising instructional practices such as a focus on power standards, ensure assignments are relevant to finish product, emphasize learning skill sets and recognition of the process for learning, staff sharing, and highlighting instructional practices during meetings.
- Adjustment of schedule to ensure time is allocated for an appropriate break and lunchtimes, and shift advisory to assist with academic interventions
- Dedicated task force members to highlight and solicit information about reopening, to be part of the decision-making process.
- As students return, opportunities to increase student-to-student interactions will be explored further through professional development.
- As students return to campus, the instructional staff will focus on reviewing and adjusting the school-wide expectation matrix to continue to align with our PBIS goals.
- Explore communication inhibiting factors

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskinturk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0%
Total Teacher Misassignments	0	0%
Vacant Teacher Positions	2	7%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0%

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0%

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

    Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

    Rating Scale (lowest to highest) -
    1 - Exploration and Research Phase
    2 - Beginning Development
    3 - Initial Implementation
    4 - Full Implementation
    5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education	1				
Health Education Content Standards				4	
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

    Rating Scale (lowest to highest) -
        1 - Exploration and Research Phase
        2 - Beginning Development
        3 - Initial Implementation
        4 - Full Implementation
        5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)
6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

MSA-Santa Ana ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 25 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-Santa Ana has also provided PD and supported our teachers on NGSS, History-Social Science, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction
Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.				4	
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1.   Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

This year we we have a bilingual Parent and Community Engagement Coordinator. This position allows for our school and families to build relationships within our community. Based on our surveys given to our families, staff, and students we have added additional meetings with parents such as Coffee with Admin, Parent Check ins, Parent College; these are added to our regular SSC, PAC/PTF, and ELAC committee gatherings. In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. Social media (Facebook, Twitter, Instagram), our weekly bilingual newsletter the Hook, Leave a Message form (bilingual), and a suggestion box. These are all located in the main office.   Magnolia wide we are using the MSA mobile application for our families. We have started to use the Parent Square software which allows us to communicate to our families without any language barriers.   Our traditional gatherings with parents such as Parent Orientation, Back to School Night, Fall/ Spring Parent teacher conferences, Open House, Home visits, and grade level informational meetings. Fall/ Winter, Cinco de Mayo festivals and volunteer appreciation day.

2.   Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

MSASA will be ensuring that all Educational Partners have a voice. By doing this, we aim to allow for an open door policy during our weekly Coffee with Principals, Educational Partner surveys, and any Town Hall meetings that may arise. In addition to ensuring there is voice, we will continue to strengthen out community partnerships by continuing with food distributions, school supply drives, and a referral network that provides mental health supports for all educational partners.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Based on our surveys given to our families, staff, and students, we have added additional meetings with parents such as Second Cup of Coffee with the Principal, Parent Check-ins, Parent College; these are added to our regular SSC, PAC/PTF, and ELAC committee gatherings. In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. Social media (Facebook, Twitter), Leave a Message form (bilingual), and a suggestion box. These are all located in the main office. Magnolia wide we are using the MSA mobile application for our families. We have started to use the Parent Square software, which allows us to communicate with our families without language barriers. Our traditional gatherings with parents such as Parent Orientation, Back to School Night, Fall/ Spring Parent-teacher conferences, Open House, Home visits, and grade-level informational meetings. Fall/ Winter, Cinco de Mayo festivals, and volunteer appreciation day.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
　　1 - Exploration and Research Phase
　　2 - Beginning Development
　　3 - Initial Implementation
　　4 - Full Implementation
　　5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Strengths are PAC/Coffee with Admin meetings. This is an opportunity to introduce MTSS support for SEL to the parents. Parent College and third party partnerships like Parent Union, Milan Teen Project, and Olive Crest parenting classes. Grade level college counseling meetings with our parents and students for supporting and informing parents and students for University going culture. For example, 8th grade high school transition meeting, college signing day, FAFSA meetings. As we establish our parent outreach and provide meetings to involve all our families, building Parent attendance is a focus for us.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

> At MSASA we will strive to improve our partnerships for student outcomes by making connections with out local city council, congressman, as well as local businesses to strengthen the collaboration among all our partners. A focus area will be our mental health/SEL supports as well as the quality of the food that is being served to our students - breakfast and lunch.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

> At MSASA we will continue to promote our home visits so that all families' voices are heard, ideas are met, and that everybody feels included. We will also offer Parent College classes like EL classes, computer skills, and child development classes. We will continue to offer weekly Coffee with Principal sessions in English and Spanish.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

> At MSASA our current strengths include inviting our food vendor in a meeting with parents so their voices can be heard, letting the parents bring up all concerns in the weekly Coffee with Principal, and sending multiple surveys home throughout the course of the year.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

> We value our stakeholders and are using their feedback to strengthen the upcoming school year. Schoolwide instant surveys from staff provide input for a positive and supportive school climate. Parent check-in meetings allow for decision making to become ongoing. Surveys are designed to support all academics, behavioral, and social-emotional needs of the whole child.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

> MSASA will improve engagement of underrepresented families by using Parent Square as an active two way tool of engagement. We will ensure that we have a PACE (Parent and Family Engagement) coordinator who is a reflection of our current school community.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

> GLOWS
> We are very proud of the fact that we went up in stakeholder happiness. The one thing that was repeated over and over is the satisfaction with and love of the teachers by both the students and the families. Another success is the communication this year between all stakeholders. It is very important to us to keep building the relationships between school and home - being transparent and supportive to our teachers who in turn, are supportive of the students. We would like to build on the positive environment that we have nurtured this year by collaborating with the teachers more and showing them that they are being heard and focusing on PBIS structures.
>
> GROWS
> The Elementary students like least the food and not having enough area to play or a permanent playground. The Secondary students strongly dislike the school food, the crowded hallways, the restrictions to bathroom usage. In addition, all students dislike not maintaining teacher retainment.
>
> SUGGESTIONS
> The Elementary students suggested that we offer better food and more sports. The Secondary students suggested better food, grass field (soccer), water fountain outside, and having more sports because of our brand new gym. Additionally, the students suggested that we revisit our teacher contracts because they would not like to see any teacher leaving in the middle of the year.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1) MSA-Santa Ana designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Santa Ana strives to offer a well-rounded education to our students.
MSA-Santa Ana provides students with 4-year plans and support programs to ensure timely high school graduation. We offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction with UC/CSU requirements.

2) As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.
We also provide all other academic programs and services outlined in our charter petition, certain programs, and services are dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support, and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)
We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. The AP courses we have offered this year include AP US History, AP World History, AP Language & Composition, AP Stats, AP Computer principles
All students have access to "Advisory" classes (college planning and career exploration program) and programs preparing students for college readiness, including test prep for ACT/SAT, in grades 9-12. MSA-Santa Ana offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction with UC/CSU requirements. MSA-Santa Ana had a one-year cohort graduation rate of 100% last year where 100% of our graduates completed courses that satisfy the UC/CSU requirements.

3) MSA-Santa Ana provides access to a college-preparatory, STEAM-focused broad course of study for all our students.

4) MSA-Santa Ana will continue to provide access to a college-preparatory, STEAM-focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.
In an effort to provide more well-rounded education to our students, MSA-Santa Ana will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with

experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-Santa Ana will make the best use of its resources to provide a well-rounded educational experience to our students.

Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy San Diego	Gokhan Serce Regional Director and Principal	gserce@magnoliapublicschools.org (619) 644-1300

Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	
Total Teacher Misassignments	0	
Vacant Teacher Positions	0	

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home		0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The "Good Repair" Standard (Including Deficiencies and Extreme Deficiencies)	0

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. **Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.**

   Rating Scale (lowest to highest) -
   - 1 - Exploration and Research Phase
   - 2 - Beginning Development
   - 3 - Initial Implementation
   - 4 - Full Implementation
   - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education			3		
Health Education Content Standards			3		
Physical Education Model Content Standards					5
Visual and Performing Arts					5
World Language					5

Support for Teachers and Administrators

5. **Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

    Rating Scale (lowest to highest) -
    - 1 - Exploration and Research Phase
    - 2 - Beginning Development
    - 3 - Initial Implementation
    - 4 - Full Implementation
    - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

> MSA-San Diego ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with common core ELA/ELD and math curricula. While the primary focus has mostly been on the ELA/Literacy, math, and ELD over the past few years, MSA-San Diego has also provided PD and supported our teachers on NGSS, History-Social Science, Physical Education, Visual and Performing Arts, MTSS and Personalized PD. Due to Covid-19 school closures we have also provided additional PD to provide a successful distance Learning.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Building Relationships	1	2	3	4	5
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.					5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				4	
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-San Diego builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, home visits, parent dinner nights and student led conferences to promote parental participation in programs. Administrators greet all students and parents in the mornings during student drop off and have an open door policy welcoming all parents. Our staff connect with families through home visits, learning about students' outside interests, families, and home routines, and then using that information to connect in meaningful, individualized ways that can have huge rewards in helping to create happier, healthier, and smarter kids. The school uses home visits as one of the important features of its education program to improve student and school performance. The School holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, ELAC Meetings, coffee with the principal meetings and parent workshops. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.				4	
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				4	
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.				4	
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.				4	

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-San Diego staff is trained on MTSS expectations and school culture model during summer inservice. As part of our program, MSA-San Diego supports student learning through multi tiered support systems , parent meetings, online tools shared by teachers on a weekly basis, weekly newsletters and voice messages and grade level specific communications. Also student specific feedback and resources given to parents during home visits, student-led conferences and parent meetings.
MSA San Diego's new communication system Parent Square keeps parents and staff in constant communications through multiple mediums such as texts, private messages and voicemail. Parent Square has also broken language barriers between staff and families through its automatic language translation. Finally our teachers use Kickboard positive behavior point system and Illuminate SIS to share student success and progress both academically and socially-emotionally on a daily basis. We continued to utilize the same resources during the Distance Learning.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.				4	
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.				4	
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.				4	
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.				4	

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-San Diego holds periodic meetings to gather input from our families. These meetings include PAC/PTF meetings, SSC meetings, MTSS meetings, coffee with principal meetings and Local Governance Community meetings. During these meetings parents have the opportunity to review the school's draft budget, MTSS plan, LCAP, WASC, Health and Wellness plan, Safety plan and provide input for our administration team. The school also conducts a family and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

MSA-San Diego annually conducts the CORE Districts survey instruments to students in grades 6-8, analyzes survey results such as participation rates and average approval rates for each topic and question on the survey, documents our findings (e.g., greatest progress and needs, comparisons with the prior year and CORE district results) and shares the results and findings with our stakeholders during LCAP information , feedback meetings and regular board meetings. MSA-San Diego disaggregates the results by grade and student group and also uses open-ended questions to further understand students' perceptions. MSA-San Diego strives to improve our students' perceptions of school safety and connectedness.

In 2020-21, 94.7 % of our students participated in the survey and their responses provided an average approval rating of 76% on the eight topics of the survey., with a rating of 75% on Topic 3 (Safety) and a rating of 65% on Topic 4 (Sense of Belonging / School Connectedness). Our approval rating,Safety rating, and sense of belonging rate for students increased significantly   compared to last year. Our student approval rates increased 14% from the past school year. There has been a concerted effort in supporting our students' social-emotional wellbeing through weekly SSR lessons,daily advisory ZOR lessons, as well as explicitly teaching students the values we share in our character education initiative we call the WIZARD way. One of our goals for our students is to provide a learning environment where students learn skills to become independent learners. Based on student survey results the highest approval rates are "overall school experience " 89% favorable and "Climate of Support for Academic Learning" 82% favorable. These results attest that we are on the right path focusing the whole child.

89% of our students indicated that "Overall, I am satisfied and would recommend this school to other students." Given that we were in distance learning for nearly a year, the overall satisfaction rate is a testament to the dedication of our teachers who were determined to provide an engaging distance learning program for our student body. Moreover, it is a reflection of MSA San Diego leadership's guidance, coaching and efforts to adjust to the educational landscape that had many changes.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

1. MSA-San Diego designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition. As evidenced by the school master schedule, elective forms, class rosters, student schedules and transcripts, MSA-San Diego strives to offer a well-rounded education to all of our students.

2. As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.
We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We also offer honors math classes in each grade.

3. MSA-San Diego provides access to a college-preparatory, STEAM focused broad course of study for all of our the students.

4. MSA-San Diego will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students are equipped with necessary tools to graduate college and become career ready.
In an effort to provide more well-rounded education to our students, MSA-San Diego will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, study Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips,, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-San Diego will make the best use of its resources to provide a well-rounded education experience to all of our students.

Appointment of 2022-23 MPS Board Officers

Section: V. Action Items
Item: A. Appointment of 2022-23 MPS Board Officers
Purpose: Vote
Submitted by:
Related Material: 2022-23 MPS Board Officers.pdf

![Magnolia Public Schools logo]

Board Agenda Item #	V A: Action Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Alfredo Rubalcava, CEO & Superintendent
RE:	Appointment of 2022-23 MPS Board Officers

Proposed Board Motion

I move that the board appoint _____ to serve as the MPS Board Chair, _____ as the MPS Vice-Chair and _____ as MPS Board Secretary beginning June 24, 2022.

Introduction and Background

Every year in June, MPS approves the annual appointment of the Board Chair, Board Vice-Chair and Board Secretary. For 2021-22 Board appointments were as followed: Sandra Covarrubias, Board Chiar; Dr. Umit Yapanel, Board Vice-Chair; Jennifer Lara, Board Secretary.

Given that this item did not go to the Nominating/Governance Committee for review and recommendation, the board shall discuss their nominations and create the motion at this meeting.

Budget Implications

This action has no budget implications.

Approval of the Local Control and Accountability Plans (LCAP) for All MPS

Section: V. Action Items
Item: B. Approval of the Local Control and Accountability Plans
(LCAP) for All MPS
Purpose: Vote
Submitted by:
Related Material: Local Control and Accountability Plans (LCAP) for All MPS.pdf

Board Agenda Item #	V B: Action Item
Date:	June 23, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	David Yilmaz, Chief Accountability Officer
RE:	Approval of the Local Control and Accountability Plans (LCAP) for All MPS

Proposed Board Recommendation

I move that the board approve the local control accountability plans (LCAPs) for all MPS.

Background

As a critical component of the LCFF law, every charter school must engage parents and community to create a Local Control and Accountability Plan (LCAP). The LCAP is intended to be a comprehensive planning tool. Each plan must describe:

- School-wide goals, as well as specific actions to be taken to achieve the goals for all students, including specific subgroups of students, in each of the eight state priority areas, plus any locally identified priority areas.
- Expected progress toward meeting the goals—and as part of a schools required annual update of the plan, the school must describe actual progress made toward meeting the goals and describe any adjustments to be made.
- Expenditures required to implement each of the goals and actions, including a description of how additional funds provided for low-income students, English learners and foster youth will be used to increase or improve services for these students.
- The process used to involve parents, students, community members, school employees and other educational partners in developing, reviewing, and supporting implementation of the LCAP.

The MPS Home Office has collaborated with the school leadership teams in ensuring that all of the school LCAPs have school-wide goals, annual measurable outcomes and specific actions aligned to the eight state priorities and that the schools have meaningfully engaged their educational partners in the development of their LCAP.

As part of the LCAP development process our schools have conducted educational partners surveys to engage our

250 E. 1ˢᵗ Street Suite 1500, Los Angeles, CA 90012 | www.magnoliapublicschools.org

educational partners in the evaluation of their experience at MPS. School leadership teams have shared their reflection on the survey results and findings that identifies their greatest progress, greatest needs, and ways to improve so that we can maintain and improve educational quality of our schools on an ongoing basis. The teams have completed their reflections and presented it to their educational partners in various settings, including presentations at regular meetings of the Board.

School leadership teams have also presented their CA School Dashboard results and findings as well as other school performance data to their educational partners at their PAC/PTF, SSC, and ELAC meetings throughout the year. During the year, the MPS board and the Academic Committee have been presented SBAC, CA School Dashboard, NWEA, and other LCAP progress data as well as each MSA's glows, grows, and priorities with next action steps.

The school leadership teams have worked with the MPS finance department in writing annual updates for their LCAP estimated actual expenditures and next year's budgeted expenditures. As part of the budgeting process, all expenditures have been entered in the budgeting software, Adaptive Insights, and coded by LCAP goal and action. The reports produced from Adaptive Insights have been used by the principals to update the dollar amounts in the LCAP templates. Since MPS chooses to use the LCAP as SPSA, the expenditures funded by the federal Title funds have been specifically outlined in the LCAP action descriptions. Any substantive changes to Title fund expenditures during the year will be shared with the PAC, SSC and ELAC and their feedback will be sought.

The Ed Code requires a public hearing before LCAP adoption. MPS held a public hearing for our LCAPs and budgets on June 16, 2022. The draft LCAPs were uploaded to the school websites under Accountability for easy public access. The invitation to the public hearing was shared with stakeholders via ParentSquare as well as how they could share their feedback with the school principals and the board. The draft budgets were also presented at the same public hearing by the finance team. Besides the public hearing requirement, the LCAP adoption process requires adoption of the LCAP at the same meeting as the budget adoption, LCAP before the budget, as well as sharing of the local indicators with the board and the public at the same meeting. Therefore, the June 23, 2022 agenda includes two approval items, i.e., the LCAP and the budget, and one information item, i.e., the local indicators.

The processes described above are all part of our LCAP development and continuous improvement cycle.

Budget Implications

All LCAP expenditures are budgeted in each school's budget.

How Does This Action Relate/Affect/Benefit All MSAs?

The public hearing of LCAP is a requirement for LEAs as described in the Ed Code.

LCAP for each Magnolia Science Academy

LCFF Budget Overview for Parents

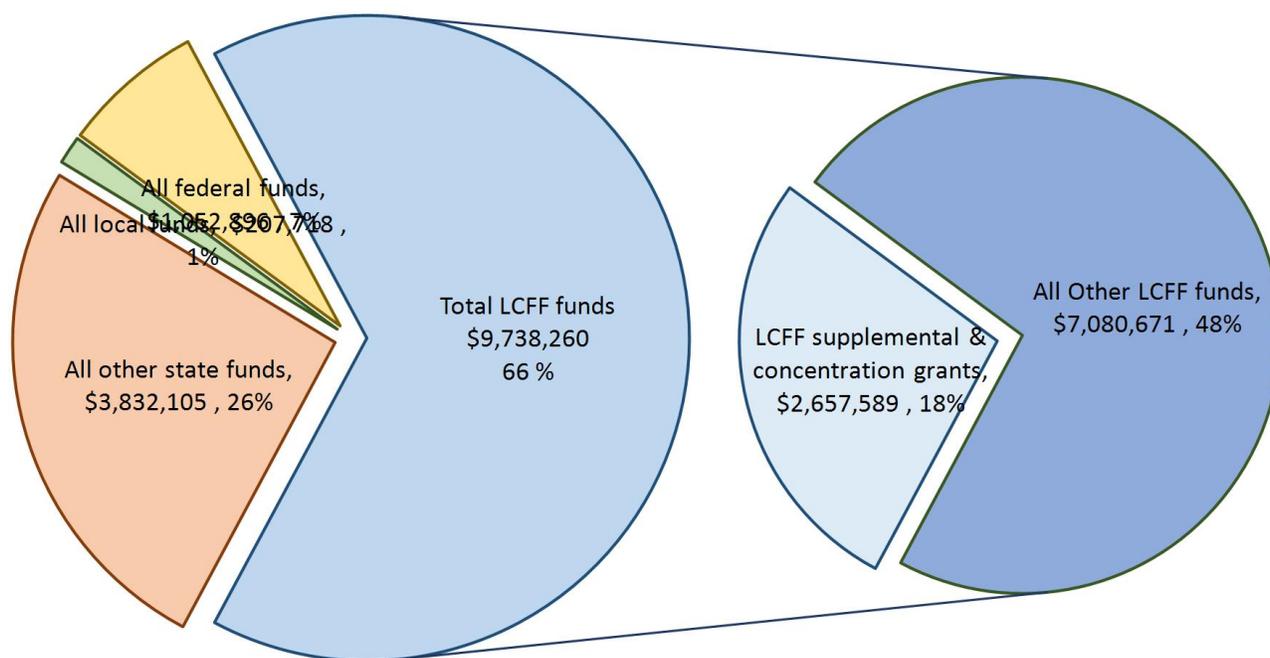
Local Educational Agency (LEA) Name: Magnolia Science Academy-1
CDS Code: 19-10199-6119945
School Year: 2022-23
LEA contact information:
Brad Plonka
Principal
bplonka@magnoliapublicschools.org
(818) 609-0507

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

Projected Revenue by Fund Source

All federal funds, $1,052,307, 7% , 1%
All local funds, $207,768
All other state funds, $3,832,105 , 26%
Total LCFF funds $9,738,260 66 %

LCFF supplemental & concentration grants, $2,657,589 , 18%
All Other LCFF funds, $7,080,671 , 48%


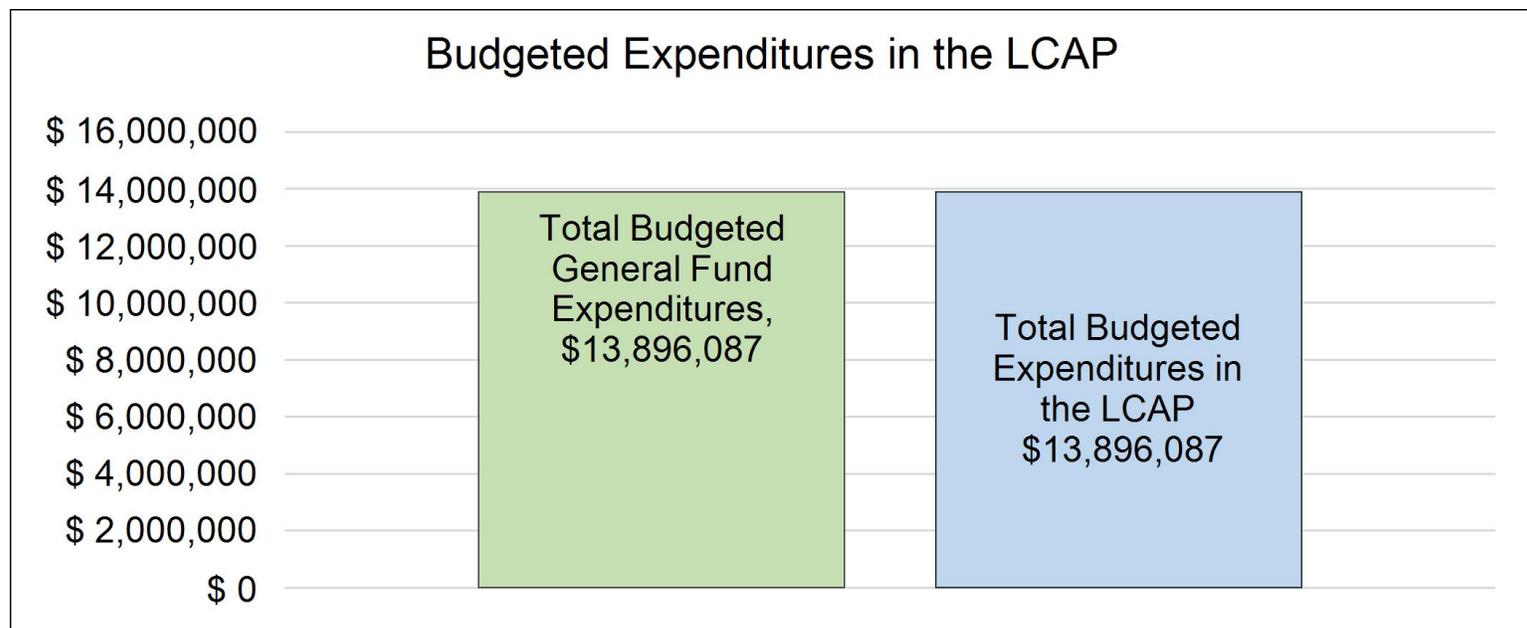
This chart shows the total general purpose revenue Magnolia Science Academy-1 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy-1 is $14,830,979, of which $9738260 is Local Control Funding Formula (LCFF), $3832105 is other

state funds, $207718 is local funds, and $1052896 is federal funds. Of the $9738260 in LCFF Funds, $2657589 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP


This chart provides a quick summary of how much Magnolia Science Academy-1 plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

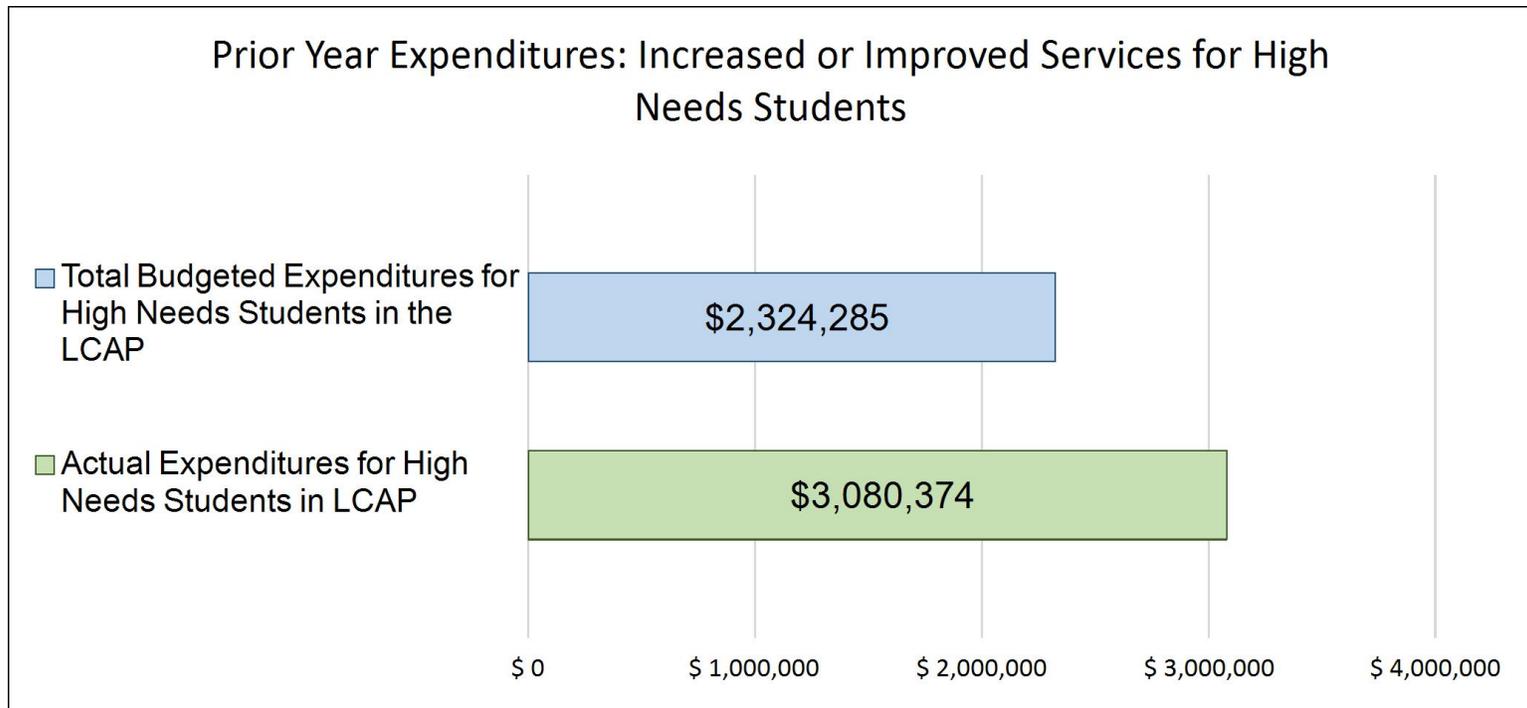
The text description of the above chart is as follows: Magnolia Science Academy-1 plans to spend $13,896,087 for the 2022-23 school year. Of that amount, $13,896,087 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, Magnolia Science Academy-1 is projecting it will receive $2657589 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy-1 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-1 plans to spend $2,963,197.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

Prior Year Expenditures: Increased or Improved Services for High Needs Students


This chart compares what Magnolia Science Academy-1 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-1 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Magnolia Science Academy-1's LCAP budgeted $$2,324,285.00 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-1 actually spent $$3,080,374.26 for actions to increase or improve services for high needs students in 2021-22.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-1	Brad Plonka	bplonka@magnoliapublicschools.org 8186090507

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

The LEA engaged with our educational partners on the use of funds provided by having sessions including Parent Task Force (PTF), School Site Council (SSC), which include student representatives, English Learner Advisory Committee (ELAC), Coffee with the Admin, and staff meetings (admin, teachers, resource specialists, school psychologist, paraprofessionals) for review and feedback. Parents on our PTF and SSC also serve as our parent advisory committee members, along with ELAC. Such committees represent students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC is valuable input for the funds provided. Also, at the home office level, the input from the Director of Special Education and Support Services, Director of Student Services, and all other department heads who work closely with students at the MSA-1 campus were welcomed and honored.

Additionally, we invite feedback from the public at large in our MPS Board meetings that are open to the public. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders. We received feedback from parents, students, and community members during the School Site Council meeting to hear from our educational partners.

Additionally, the families that speak languages other than English also attended all of our meetings. For those parents, we provided translation services. Also, we have had meetings held for English-speaking and Spanish-speaking parents so that the information related to school issues was provided to those parents in their language. All administrators: principals, deans of academics, dean of students, and college counselor met regularly to ensure that the funds for this plan were well utilized, sourced, and spent.
Additionally, the paraprofessionals, teacher aides, outside duty supervisors, custodial staff, after-school supervisors, and all other educators were involved in ensuring it would address students' needs.

We will do the same engagement activities for our A-G Completion Improvement Plan and Expanded Learning Opportunities Program

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

The LEA plans on using the funds by adding staff who provide direct services to students on the school campus. The positions will include one Resource Specialist, English Learner Coordinator, and Intervention Teacher. Additionally, the remaining funds will be utilized to provide a retention bonus to all MSA-1 staff.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

The LEA engaged its educational partners to use one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils by hosting virtual and in-person meetings. Parent Task Force (PTF), School Site Council (SSC), which include student representatives, English Learner Advisory Committee (ELAC), Coffee with the Admin, and staff meetings (admin, teachers, resource specialists, school psychologist, paraprofessionals) were are the platforms used to discuss the ESSER III plan for review and feedback. Parents on our PTF and SSC also serve as our parent advisory committee members, along with ELAC. Such committees represent students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC is valuable input for the ESSER III. Also, at the home office level, the input from the Director of Special Education and Support Services, Director of Student Services, and all other department heads who work closely with students at the MSA1 campus were welcomed and honored.

Additionally, we invite feedback from the public at large in our MPS Board meetings that are open to the public. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders. We received feedback from parents, students, and community members during the School Site Council meeting to hear from our educational partners.

Additionally, the families that speak languages other than English also attended all of our meetings. For those parents, we provided translation services. Also, we have had meetings held for English-speaking and Spanish-speaking parents so that the information related to school issues was provided to those parents in their language. All administrators: principals, deans of academics, dean of students, and college counselor met regularly to ensure that the funds for this plan were well utilized, sourced, and spent.

Additionally, the paraprofessionals, teacher aides, outside duty supervisors, custodial staff, afterschool supervisors, and all other educators were involved in preparing this plan to make sure it would address the needs of students. The tribes and civil rights organizations are not represented in MSA1's community. Finally, the school held School Site Council (SSC) and English Learner Advisory Committee (ELAC) meetings where individuals or advocates representing the interests of children with disabilities, English learners, homeless students, foster youth (N/A), migratory students(N/A), children who are incarcerated (N/A), and other underserved students. We have had our ESSER III plan presented during a regular MPS Governing board meeting for public comment and feedback from the public at large.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

MSA-1 implements the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan to support the students better. This is being achieved by addressing social/emotional needs by adding a behavior counselor and providing more academic opportunities for students to keep them from the learning loss due to the pandemic with more instructional days and summer school. Additionally, the implementation of creating a safer and cleaner campus by bringing in more supervising staff, furniture, and cleaning team members helps achieve the goal.

Some of the success has been finding a counselor available to start working with students individually and in groups in December. Also, MSA-1 could re-establish our partnership with Mitchell Family Counseling Clinic. This provides another layer of emotional support for students. Additionally, the funds allotted more people for cleaning and HVAC maintenance to provide a clean atmosphere for the community and expand the lunch area by procuring more lunch tables for the students to have adequate spacing.
Some difficulties have been finding staffing for other positions and getting the staff to have appropriate credentials and or permits.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

MSA-1 is using its fiscal resources received for the 2021-22 school year by providing more staffing to the school site to work with higher-tiered students who need more social-emotional support coming back to school during the pandemic. Also, more staff has been added to support and maintain COVID 19 mandates and ensure student safety on the campus. Additionally, capital improvements, maintenance, and upgrades are being made to help reduce the risk of virus transmission and exposure to environmental health hazards and to support student health needs. Finally, more academics support providing more instructional days and summer school to help with learning loss due to the pandemic.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA's educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA's 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: "*A description of how and when the LEA engaged, or plans to engage, its* educational partners *on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).*"

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: "*A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.*"

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: "*A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.*"

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support

recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA's implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update."

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA's 2021–22 LCAP. For purposes of responding to this prompt, "applicable plans" include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-1	Brad Plonka Principal	bplonka@magnoliapublicschools.org (818) 609-0507

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy (MSA-1 or Charter School) is a classroom-based charter school serving grades 6–12 with a curriculum emphasizing science, technology, engineering, arts, and math (STEAM). Originally founded in 2002, MSA-1's mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-1 currently has 742 students in grades 6-12 and mainly draws enrollment from Reseda, CA, and neighboring communities. The neighborhoods that MSA-1 serves are heavily immigrants, with languages other than English spoken at home. A high concentration of the families MSA-1 serves face economic challenges. MSA-1 has a diverse enrollment, including 91% Hispanic/Latino, 3% White, 3% Asian, 86% Socioeconomically Disadvantaged, 16% Special Education, and 22% English Learner population.

MSA-1 strives to graduate students from historically underserved neighborhoods as scientific thinkers who contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-1 is supplemented by tutoring, after-school programs, and school-to-university links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

I. Data-Driven Curricular Choices Contribute to Student Growth. Last year, our overall SBAC student scores improved for Math and ELA by 2 points and 11 points, respectively. We are confident that we will see the same, if not better, results from this year. The increase in student

scores is partly due to our ELA and Math department's adoption of the Common Core-aligned digital curriculum. Our English teachers use Study Sync, which is Common Core aligned and allows students to engage with the text and demonstrate understanding of their content through reading and writing. Content is academically rigorous, thematically unified, and engages students through digital content, including videos, interactive texts, audio readings of class content, and a built-in ELD component to help engage our ELL students. As a result, the percentage of our EL students who progressed toward English Proficiency increased by 16% compared to last year. Similarly, in our Math classes, we use the McGraw Hill online curriculum, which is also Common Core aligned and engages students with digital problems, math manipulatives, and demonstrations.

II. Staff PD/Resource Sharing Contributes to Growth. We have implemented universal standards of writing and reading across content areas. Our English Title 1 staff analyzes data, passes along resources, and leads PDs for our staff to ensure they support our struggling students. Our Title I English teacher observes struggling students in three core classes (History, Science, and English) and provides resources and PD for our staff about implementing academic tools that might help. Our Dean of Academics looks at data from benchmark testing like MAP and SBAC and helps to roster and monitor progress in our Saturday School program. Math teachers also use the gradual release model in math intervention classes so that students who struggle in that content area receive explicit instruction, guided practice, and independent work.

III. College Readiness Contributes to Growth. We currently have 72 graduating seniors and a 100 percent graduation rate. Our Dean of Academics and College counselors create a 4-year plan for each student and keep track of their classes, grades, etc. We believe the individualized attention and the student's role in setting their own goals helped our graduation rate to stay strong. Our staff does much work to involve parents and students in setting goals that prepare students for graduation and college. We are proud of the parent information nights where students and parents get to learn about college, financial aid, and the application process, and we are equally proud that our Senior English teachers support all 72 of our seniors in writing a personal statement. Most students who graduate from MSA attend a junior college, 4-year university, or vocational program.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The two subgroups who did not perform well on SBAC and need our close attention were Sped students in the area of Math and English Language Learners in the area of English; our data shows that compared to our general student population, these sub-groups are struggling. Currently, our Power classes support struggling students through digital intervention content. We use Flex Literacy (for English), Khan Academy, NextGen Math, and MobyMath (for math), where direct instruction takes place in small, concentrated amounts, and students receive explicit direct instruction in that content area for guided practice. In our English classes, we use Study Sync (ELD component in conjunction with what is being learned in ELA). Conducting class this way provides small group support outside the classroom for those students. Additionally, our Title 1 English and Deans analyze scores and data (MAP, ELPAC, SBAC), review student work samples, and frequently follow up with the student's ELA, ELD, and MATH teachers to discuss student progress. Interventions include offering additional tutoring, creating action plans for individual students that address areas of need, providing one-on-one instructional support, simplifying the work for EL and SPED students, and creating a roster of students who need Saturday school. Moreover, our Special Education Teachers

meet with General Education Teachers weekly, either during conference periods or during Staff Meetings, to discuss student progress and to discuss accommodations and support plans. Students are given in-class support by their Resource teacher, who helps them follow along with the curriculum, offers appropriate accommodation, makes modifications to assignments, and checks grades weekly to ensure students are progressing in the class/subject. Our Title I English Teacher provides PD for our staff on a critical thinking and writing strategy that works across grade levels and can be adapted in many content areas. She also provides Strategy Snapshots bi-weekly to teachers and staff so that their expectations about academic rigor are more unified (and connected to the CHATS framework for EL support). Our History and Science teachers, who don't normally teach writing in a straightforward way, then use that resource for their students. Finally, twice a year, we provide MSA-wide professional development to our teachers and include training in all areas of need. These symposiums are a way for our teachers to attend workshops that can help enhance their teaching. For instance, many of our teachers attended the EL training with a guest lecturer from CSUN to learn about promoting language acquisition in their classrooms (in every content area).

The student groups behind are SPED students who performed low in Math and our English Learners who performed low in English. We use the intervention classes and programs (as mentioned above) to help support these student populations. We use benchmark data (MAP) to roster students into intervention classes. This way, if a student is struggling in both English and Math, they get service in the areas of their greatest need. Additionally, SPED teachers and Intervention staff meet to discuss shared students and academic intervention for those SPED and EL students. The action includes; teacher referral of students who need support, meetings between parents, students, and coordinators, placement of students in appropriate tier or intervention, teaching of skills, assessment of mastery, and support for kids as they exit intervention. We use the RTI model to track student progress. Title I Coordinator plays a more significant role in supporting the EL students in the classroom and sets the schedule of pull-out sessions.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The MSA-1 LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:
- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College and Tarzana Treatment Center Workshops, communication, the small school, and class sizes.
- Parents value the extra support we provide our students to ensure they are receiving the best education (i.e. after school tutoring, Saturday School, one-on-one support, etc.)
- The need to continue our improvements in designated/integrated English Learner services
- Providing counseling and positive behavior intervention support services to our students
- Continue using the teacher evaluation system 'TeachBoost'
- 100% graduation rate; college-bound high school students
- Unified Writing Curriculum
- Unified Reading Curriculum
- Classes using blended learning effectively

- The full inclusion of Special Education Students
- Professional Development around Explicit Direct Instruction

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

To promote learning and provide a more positive learning experience for our students, MSA-1 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels, including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the school review and improvement process, including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Admin meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC give valuable input to the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input and feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include PTF meetings, 4 SSC meetings, 4 ELAC meetings, and at least six parent activities/events, including Coffee with the Admin meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made 180 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Students Survey Feedback: Our Student approval rate in the area of Sense of Belonging (School Connectedness), decreased from 60% in 2021-2022 to 47% in 2021-2022. Students had difficulty adjusting to coming back from virtual learning and the boundaries set in place to come back to in-person learning (i.e., masking, weekly testing, etc.). However, students reported appreciation for teachers' willingness to provide extra support by offering extra credit and tutoring opportunities during distance learning. Additionally, students expressed feeling grateful for the one-on-one support they received from their teachers. Further, students stated that they appreciate the mental health support and check-in from teachers, admin, the school psych and counselor. We have supported students emotionally as well through the SEL curriculum in a Wednesday homeroom We were also very happy to see that students rated highest in the area of Climate of Support for Academic Learning. This proves that our school is setting high expectations for learning, while also providing support for students who are struggling.

Staff Survey Feedback: Our overall satisfaction and approval rates for staff decreased from 2020-2021 to the 2021-2022 school year. Staff reported difficulty with coming back in person with all of the guidelines put in place. Plus, having to share a campus with our sister school made an already difficult situation with COVID guidelines harder due to the limited space. We will continue to work to build the relationship between staff and admin, and between staff members and their peers, through continued peer observation, fair feedback and evaluation, and time for departments to collaborate, which we feel fostered a strong professional environment where team members felt respected and valued.

Student and Staff Next Steps: To address the concern for student safety due to the homeless population in the area, our school is considering the hire of an additional security guard. We have also reached out to the City of Reseda and they are following up on the issue of nearby homeless encampments. In order to strengthen the curriculum, we are looking at offering Speech and Debate, and another world language class (i.e., French). We have started sending our middle school staff to training for the Honors curriculum in the hopes that we can offer honors differentiation next year. We are receiving bids and plans to design a lunch area (assuming we are back in session full-time next year). Finally, we have 6 teams for CIF; however, due to the pandemic, we were not able to start the program. We are hoping that in the next school year we will be able to offer CIF sports programs to our students if we are allowed by state and local health agencies.

Parent Advisory Committee (PAC)/Parents:
- We held Monthly Meetings with parents in person and virtually.
- We presented the Title I budget to parents.
- COVID: At first, parents were concerned about the school's safety and sanitation. After they were appreciative of the protocols we implemented at the school site and during our weekly testing.
- Failing students and mitigating learning loss. At the beginning stages of distance learning, parents were concerned about the number of failing students. Parents were appreciative of the options provided to mitigate learning loss, small group instruction, summer school, and Saturday school.
- MAP Score Improvement: Parents were very happy to see the improvement students made on MAP.

School Site Council (SSC):
- Performance bonus for the staff
- Parents suggested changing the reading program since there is a huge amount of money used for it.
- Parents like having more paraprofessionals and campus aides to keep students safe when in the lunch area.
- Parents liked the extension of the school year to mitigate learning loss.
- More security to deal with the homelessness near the campus

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The MSA-1 LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Continue using TeachBoost for teacher evaluations
- Increasing college preparedness by offering college planning, dual enrollment with local colleges, and career exploration program for students early on, and offering more dual enrollment courses.
- Continue investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Improving school facilities and the lunch program
- Bring back more parent workshop programs (i.e., Parent College)

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 91%	2021-22: (Spring 2021 to Fall 2021) 78%			2023-24: (Spring 2023 to Fall 2023) 90%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.3%	2021-22: (As of 5/12/22) 97.5%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also review master schedules and teacher assignments annually to ensure teachers are appropriately assigned and fully credentialed in the subject area. For	$46,500.00	No

Action #	Title	Description	Total Funds	Contributing
		the students, they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators regarding teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR-related matters. Expenditures associated with this action include the following: Service Fees and Payroll Fees The following expenditures will be funded by federal Title funds: None		
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet student's academic, linguistic, cultural, social-emotional, and physical requirements. Charter School will annually review the alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter school will review budgets and plans annually to ensure an adequate instructional materials budget. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, ensuring meaningful access to CA Content Standards-aligned instructional programs. Expenditures associated with this action include the following: Technology and NonCapital Equipment. The following expenditures will be funded by federal Title funds: • Technology: Resource: Title II; Amount: $909 • NonCapEquip: Resource: Title IV, Part A; Amount: $2,891	$1,062,818.00	No

Action #	Title	Description	Total Funds	Contributing
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security, and high-quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM-focused school, we aim to operate sustainably and environmentally responsible. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment, and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: Classified Support, Staff Benefits, Professional Services, Custodial Supplies, Rent & Leases, and building utilities and maintenance. The following expenditures will be funded by federal Title funds: None	$2,700,298.00	No
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program	$20,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus and encourage participation in school meal programs. Expenditures associated with this action include the following: Food and Office Supplies. The following expenditures will be funded by federal Title funds: None		
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development and sets up systems and processes that support academic achievement, growth, and operational effectiveness, and financial sustainability. The Home Office manages schools' business operations, reducing program and operations-related burdens of the Charter School administration and enabling the Charter School to receive services at a lower cost. The services of the Home Office include but are not limited to academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: CMO Fees, Professional Services, Legal, Audit & CPA, Oversight fees, and Interest Expenses. The following expenditures will be funded by federal Title funds: None	$1,372,227.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 1 Action 1: There was a substantive difference in this planned action and implementation due to a Discretionary Bonus and payment for the extended school year provided to every staff member that qualified at Magnolia Science Academy-1

Goal 1 Action 2 - Goal 1 Action 5: There is not any substantive or material difference.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1: There was an approximate $300,000 difference in the Budgeted Expenditures and the Estimated Actual Expenditures due to the discretionary bonus and payment for the extended school year.

Goal 1 Action 2 - Goal 1 Action 5: There is not any substantive or material difference.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 1 Action 1: This action was effective due to supporting staff working through the pandemic and adding more instructional days to the academic calendar to help learn loss.

Goal 1 Action 2: This action was effective due to providing students with the appropriate amount of instructional materials and technology in the classroom.

Goal 1 Action 3: This action was effective due to providing more staff to help maintain the campus' cleanliness and repairs, have appropriate supplies for cleaning and cover the cost of the campus lease.

Goal 1 Action 4: This action was effective due to being able to provide healthy food and beverages for all students at MSA-1

Goal 1 Action 5: This action was effective due to providing MSA-1 with adequate support from the Home Office and legal services when needed.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 1 Action 1: Changes that were made to this action were to add five instructional days, support teachers with credentialing, and ultimately do the same for the upcoming school year.

Goal 1 Action 2: No changes were made to this action, but MSA-1 will continue to provide appropriate supplies for students and technology so that students can access a Chromebook at school and home.

Goal 1 Action 3: The changes were that MSA-1 utilized a third-party vendor to provide several deep cleans throughout and custodial support when one team member was on leave. Changes made for the next academic year will be to hire two additional part-time custodial team members to work an after-school shift to clean the campus after school to have it ready for the next day.

Goal 1 Action 4: No changes were made to this action, and MSA-1 will continue to provide healthy food and beverages for all students.

Goal 1 Action 5: No changes were made to this action, and MSA-1 will continue to utilize their support from the Home office and legal services.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.
Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs, and services being dependent on student needs and interests. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based	$3,202,339.00	No

Action #	Title	Description	Total Funds	Contributing
		curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal Title funds: • Unemployment Insurance: Resource: Title I, Part A; Amount: $89,452 • Health & Welfare Benefits: Resource: Title I, Part A: Amount: $3,695.40 • OASDI/Medicare: Resource: Title I, Part A: Amount: $648,527 • STRS: Resource: Title I, Part A; Amount $8,542.67 • Teacher Salaries: Resource: Title I, Part A; Amount: $ 44,726		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter school will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as support for high-quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and	$78,222.00	Yes

Action #	Title	Description	Total Funds	Contributing
		the MPS Home Office's high-quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and Teacher Salaries. The following expenditures will be funded by federal Title funds: • Professional development expenses: Resource: Title II, Part A; Amount: $15,000 • Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: $18,062 • Teacher Salaries: Resource: Title II, Part A; Amount: $1,200		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)	$759,810.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Educational Software, Staff benefits, Administrator and Teacher salaries. The following expenditures will be funded by federal Title funds: • Educational Software: Resource: Title I, Part A; Amount: $67,637 • Unemployment Insurance: Resource: Title I, Part A; Amount: $216,568 • Health & Welfare Benefits: Resource: Title I, Part A; Amount: $6,159 • OASDI/Medicare: Resource: Title I, Part A; Amount: $1,570.12 • STRS: Resource: Title I, Part A; Amount: $20,682.25 • Certificated Admin: Resource: Title I, Part A; Amount: $4,000 • Teacher Salaries: Resource: Title I, Part A; Amount: $104,264 • Educational Software: Resource: Title IV: Amount $67,637		
2.4	Designated and integrated ELD programs	Charter School will provide ELs by proficiency level services and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support, including one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure teachers participate in PD on ELD instructional strategies and	$199,947.00	Yes

Action #	Title	Description	Total Funds	Contributing
		the CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include but is not limited to annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: Professional Services. The following expenditures will be funded by federal Title funds: • Professional Services: Resource: Title III - LEP; Amount: $88,739		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth, and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs and goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will collaborate, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed, and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional	$1,332,141.00	No

Action #	Title	Description	Total Funds	Contributing
		salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A.		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2 Action 1 - Goal 2 Action 5: There is not any substantive or material difference.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1 - Goal 2 Action 5: There is not any substantive or material difference.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 2 Action 1: This action was effective due to providing all our students with a broad array of courses, including course subjects and electives.

Goal 2 Action 2: This action effectively allowed MSA-1 to provide appropriate PD to all staff, supporting their ability to work with students and allowing several teachers to continue their education.

Goal 2 Action 3: This action effectively allowed MSA-1 to implement MTSS to support students. It also allowed MSA-1 to provide interventions to students needing academic growth in both English Language Arts and Mathematics. Also, this action permitted MSA-1 to have staff support students with IEPs who are English Learners.

Goal 2 Action 4: This action effectively allowed MSA-1 to provide ELD instruction to all ELs with instructional materials, PD to staff, and bilingual assistants.

Goal 2 Action 5: This action effectively allowed MSA-1 to provide students with IEPs with needed support from SPED personnel and SPED service fees.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 2 Action 1: No changes were made to this goal, but MSA-1 will be updating the Science curriculum for grades 6-8 for the academic year.

Goal 2 Action 2: MSA-1 provided student engagement PD to all staff during the academic year and plans to provide Universal Design for Learning professional development to staff for the upcoming school year.

Goal 2 Action 3: MSA-1 continued to provide MTSS support and continues to utilize these supports for the next school year.

Goal 2 Action 4: No changes were made to this goal, and the same actions are planned for the coming year.

Goal 2 Action 5: No changes were made to this goal, and the same actions are planned for the coming year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.
It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	$236,790.00	Yes

Action #	Title	Description	Total Funds	Contributing
		and career exploration, test prep for ACT/SAT, college application, and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college-related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Expenditures associated with this action include the following: Educational Software. The following expenditures will be funded by federal Title funds: • Educational Software: Resource: Title IV, Part A; Amount: $500		
3.2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and clubs. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM-focused project, experiment, model, or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, using problem-based learning, and research.	$13,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Educational Software The following expenditures will be funded by federal Title funds: • Educational Software: Resource: Title IV, Part A; Amount: $3,000		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas, and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly, and digital etiquette. Expenditures associated with this action include the following: Educational Software The following expenditures will be funded by federal Title funds: • Educational Software: Resource: Title I, Part A; Amount: $7,492	$348,945.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe and that equipment is available for students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals, or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE supplies expenses. The following expenditures will be funded by federal Title funds: • PE Supplies: Resource: Title IV, Part A; Amount: $15,000	$392,106.00	Yes
3.5	Additional programs and activities that support well-rounded education	In an effort to provide a well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline, and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after-school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering,	$822,432.00	Yes

Action #	Title	Description	Total Funds	Contributing
		ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support a well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 3 Action 1: MSA-1 had planned only to have one college counselor for the whole high school to support students in completing their high school diploma requirements and guide them in their plans after high school. Due to the higher numbers of high school students, MSA-1 added a half-time college counselor to support the caseload of students.

Goal 3 Action 2 - Goal 3 Action 5: There is no substantive or material difference.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1: MSA-1 had budgeted approximately $114,000 and spent roughly $65,000 more for the additional half-time College Counselor.

Goal 3 Action 2 - Goal 3 Action 5: There is no substantive or material difference.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 3 Action 1: This was effective as it provided more individual support to our high school students by reducing the caseload from one counselor to 1.5 counselors. This helped students meet graduation deadlines and their continuing education plans.

Goal 3 Action 2: This action was effective as it provided MSA-1 students with opportunities to take courses that are STEAM related and a GATE program.

Goal 3 Action 3: This action was effective as it provided MSA-1 students with opportunities to take technology courses and provide programs that taught digital citizenship.

Goal 3 Action 4: This action was effective as it provided MSA-1 students with opportunities to take a physical education course in grades six through 10th. Additionally, give the students the appropriate PE equipment and programs offered as extracurricular sports.

Goal 3 Action 5: This action was effective as it provided MSA-1 students with opportunities to take additional elective classes.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 3 Action 1: The changes that will be made for the academic year will be having two full-time college counselors as well as providing them with a College and Career Center on campus for students to receive the necessary support needed to graduate high school on time with all the essential requirements and guidance and support for their next steps after high school.

Goal 3 Action 2: The changes that will be made are that MSA-1 will provide more STEAM-related classes for students as an elective.

Goal 3 Action 3: There were no planned changes for the next academic year.

Goal 3 Action 4: The changes that were made were that MSA-1 made upgrades to the PE facilities and supplies. The planned changes will continue to provide more equipment and improved facilities.

Goal 3 Action 5: No changes were made to this action, but MSA-1 will continue providing more options for students to take outside their core classes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other educational partners will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3	2021-22: (As of 5/13/22) 3			2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 2	2021-22: (As of 5/13/22) 3			2023-24: 4

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 20	2021-22: (As of 5/13/22) 5			2023-24: 4

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. Expenditures associated with this action include the following: N/A.		Yes
4.2	Building partnerships with families for student outcomes	Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop-off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents and additional workshops for parents of EL and	$322,140.00	Yes

Action #	Title	Description	Total Funds	Contributing
		immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Professional Services, Unemployment Insurance, OASDI/Medicare, STRS, and Teacher Salaries. The following expenditures will be funded by federal Title funds: • Professional Services: Resource: Title I, Part A; Amount: $9,001 • Unemployment Insurance: Resource: Title I, Part A; Amount: $16 • OASDI/Medicare: Resource: Title I, Part A; Amount: $116 • STRS: Resource: Title I, Part A; Amount: $1,528 • Teacher Salaries: Resource: Title I, Part A; Amount: $8,000		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs and instructional materials, including free uniforms. Students who are homeless, experiencing housing instability, in foster care, experiencing personal/family crises, or having other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will assess our suspension/expulsion policies and procedures annually and implement alternatives to suspension/expulsion, including restorative practices. Teachers will	$680,713.00	Yes

Action #	Title	Description	Total Funds	Contributing
		establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with clear, fair, incremental, restorative, and culturally responsive teaching, intervention, and prevention strategies and protocols. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify the greatest progress and needs to inform our next steps. Expenditures associated with this action include the following: Instructional Materials & Supplies. The following expenditures will be funded by federal Title funds: • Instructional Materials & Supplies: Resource: Title I, Part A; Amount: $4,770		
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-	$3,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: • Panorama Education survey fees: Resource: Title I, Part A; Amount: $3,500		
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with various educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. Expenditures associated with this action include the following: N/A.	$302,159.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 4 Action 1 - Goal Action 5: There is no substantive or material difference.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 1 - Goal Action 5: There is no substantive or material difference.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 4 Action 1: This was an effective action as MSA-1 was able to hold all necessary meetings with their families.

Goal 4 Action 2: This was an effective action as MSA-1 was able to provide programs that keep the families in the loop with everything that is happening in their child's education. Additionally, it permitted MSA-1 the opportunity to have a dedicated staff member to support this action.

Goal 4 Action 3: This was an effective action as MSA-1 was able to provide students with a safe, nurturing, and engaging learning environment for all.

Goal 4 Action 4: This was an effective action as MSA-1 was able to provide surveys throughout the year to check in with all community partners.

Goal 4 Action 5: This was an effective action as MSA-1 was able to continue to establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 4 Action 1: Changes made to this action were that some meetings with families were held virtually. The planned changes for the coming year will have all in-person meetings with families.

Goal 4 Action 2: There were no changes made to this action and MSA-1 plans to add an additional staff member to assist with this action next school year.

Goal 4 Action 3: There were no changes made to this action and MSA-1 will continue to provide a safe, nurturing, and engaging learning environment.

Goal 4 Action 4: There were no changes made to this action and MSA-1 will continue to provide surveys to all community partners throughout the academic year to gauge what changes need to be made.

Goal 4 Action 5: There were no changes made to this action and MSA-1 will continue to establish partnerships that invest in and support the vision and goals of the school. Additionally, MSA-1 will add a Community Schools Coordinator to support this action.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
$2,657,589	$288,074.54

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
38.05%	0.00%	$0.00	38.05%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during, and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods, including fruits, vegetables, and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school, and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was effective in the current school year and will continue in the coming year. Charter School will promote healthy food and beverage choices for all students throughout campus and encourage participation in school meal programs. Charter School will adhere to the MPS Wellness

Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application, and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college-related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals
Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction
Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support
Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college-related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be

kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to

identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The LEA plans on using the funds by adding staff who provide direct services to students on the school campus. The positions will include one Resource Specialist, English Learner Coordinator, and Intervention Teacher.
Similar to last year, MSA-1 is planning on utilizing funds to add more support positions.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students		

2022-23 Total Expenditures Table

Totals	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds	Total Personnel	Total Non-personnel
Totals	$9,893,766.00	$2,836,899.00	$58,790.00	$1,106,632.00	$13,896,087.00	$8,014,284.00	$5,881,803.00

Goal	Action #	Action Title	Student Group(s)	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds
1	1.1	Teacher assignments and credentials	All	$46,500.00				$46,500.00
1	1.2	Instructional materials and technology	All	$969,018.00	$88,000.00		$5,800.00	$1,062,818.00
1	1.3	Clean and safe facilities that support learning	All	$1,693,461.00	$831,919.00		$174,918.00	$2,700,298.00
1	1.4	Healthy and nutritious meals	Low Income	$20,000.00				$20,000.00
1	1.5	Well-orchestrated Home Office support services	All	$1,319,958.00	$25,497.00		$26,772.00	$1,372,227.00
2	2.1	Broad course of study and standards-based curriculum	All	$2,901,632.00	$243,005.00		$57,702.00	$3,202,339.00
2	2.2	Professional development for high-quality instruction	English Learners Foster Youth Low Income	$15,189.00	$28,772.00		$34,261.00	$78,222.00

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  o Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

  o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

  o Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

2022-23 Local Control Accountability Plan for Magnolia Science Academy-1

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: "A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP."

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

Prompt 2: "A summary of the feedback provided by specific educational partners."

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: "A description of the aspects of the LCAP that were influenced by specific input from educational partners."

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, "aspects" of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

2022-23 Local Control Accountability Plan for Magnolia Science Academy-1

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)
Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal
Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal
Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals
In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.

- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.

- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2022–23**. Leave blank until then.	Enter information in this box when completing the LCAP for **2023–24**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25**. Leave blank until then.	Enter information in this box when completing the LCAP for **2021–22** or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and

- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

> After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

> In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

> These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

2022-23 Local Control Accountability Plan for Magnolia Science Academy-1

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 *CCR* Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)

  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services

  - This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- 6. Estimated Actual LCFF Supplemental and Concentration Grants

  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)

  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions

  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)

  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

- 5. Total Planned Percentage of Improved Services (%)

  - This amount is the total of the Planned Percentage of Improved Services column

- 8. Total Estimated Actual Percentage of Improved Services (%)

  - This amount is the total of the Estimated Actual Percentage of Improved Services column

- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)

  o   This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy 2

CDS Code: CA

School Year: 2022-23

LEA contact information:

David Garner

Principal

dgarner@magnoliapublicschools.org

(818) 758-0300

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

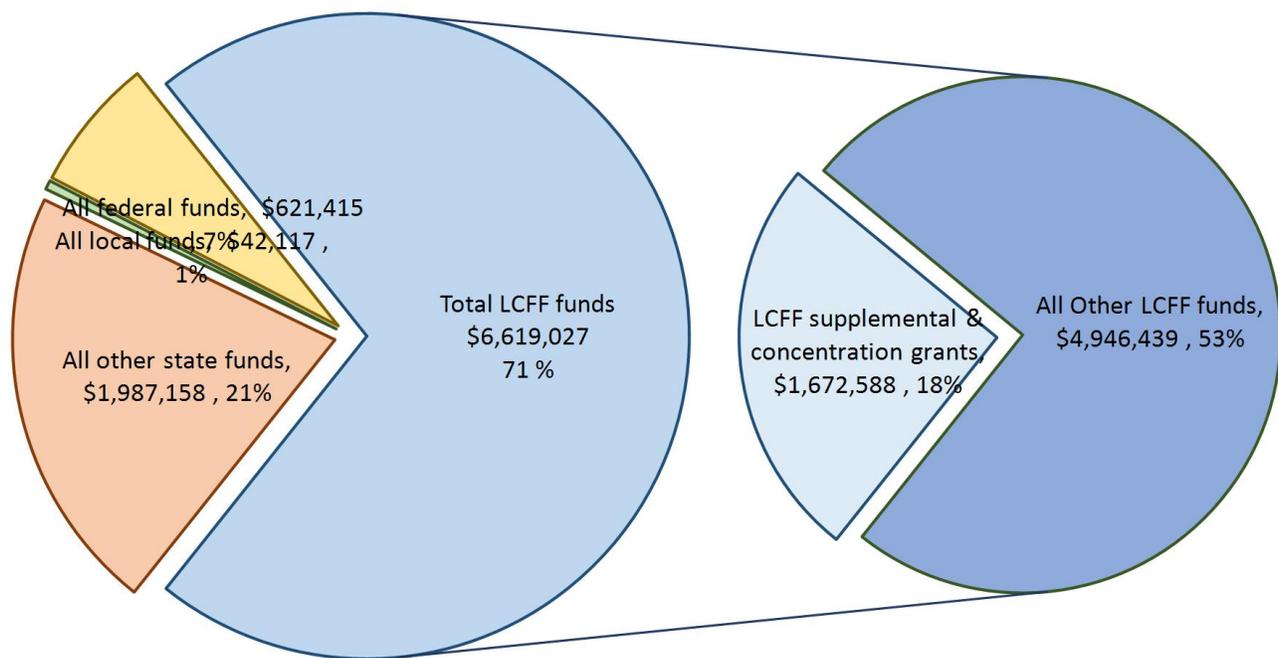
Projected Revenue by Fund Source

All federal funds, $621,415
All local funds 7% $42,117, 1%

All other state funds, $1,987,158, 21%

Total LCFF funds $6,619,027 71 %

LCFF supplemental & concentration grants, $1,672,588, 18%

All Other LCFF funds, $4,946,439, 53%


This chart shows the total general purpose revenue Magnolia Science Academy 2 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy 2 is $9,269,717, of which $6619027 is Local Control Funding Formula (LCFF), $1987158 is other state funds,

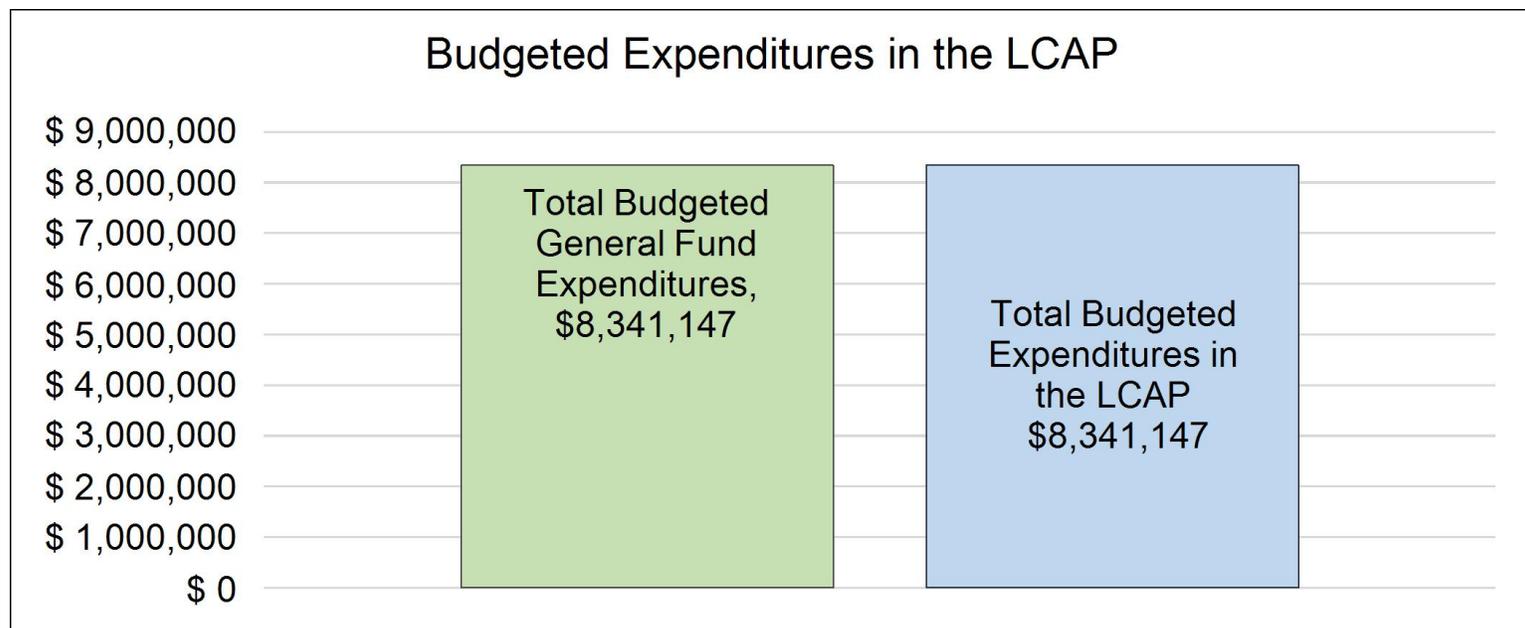
$42117 is local funds, and $621415 is federal funds. Of the $6619027 in LCFF Funds, $1672588 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP

Total Budgeted General Fund Expenditures, $8,341,147

Total Budgeted Expenditures in the LCAP $8,341,147


This chart provides a quick summary of how much Magnolia Science Academy 2 plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

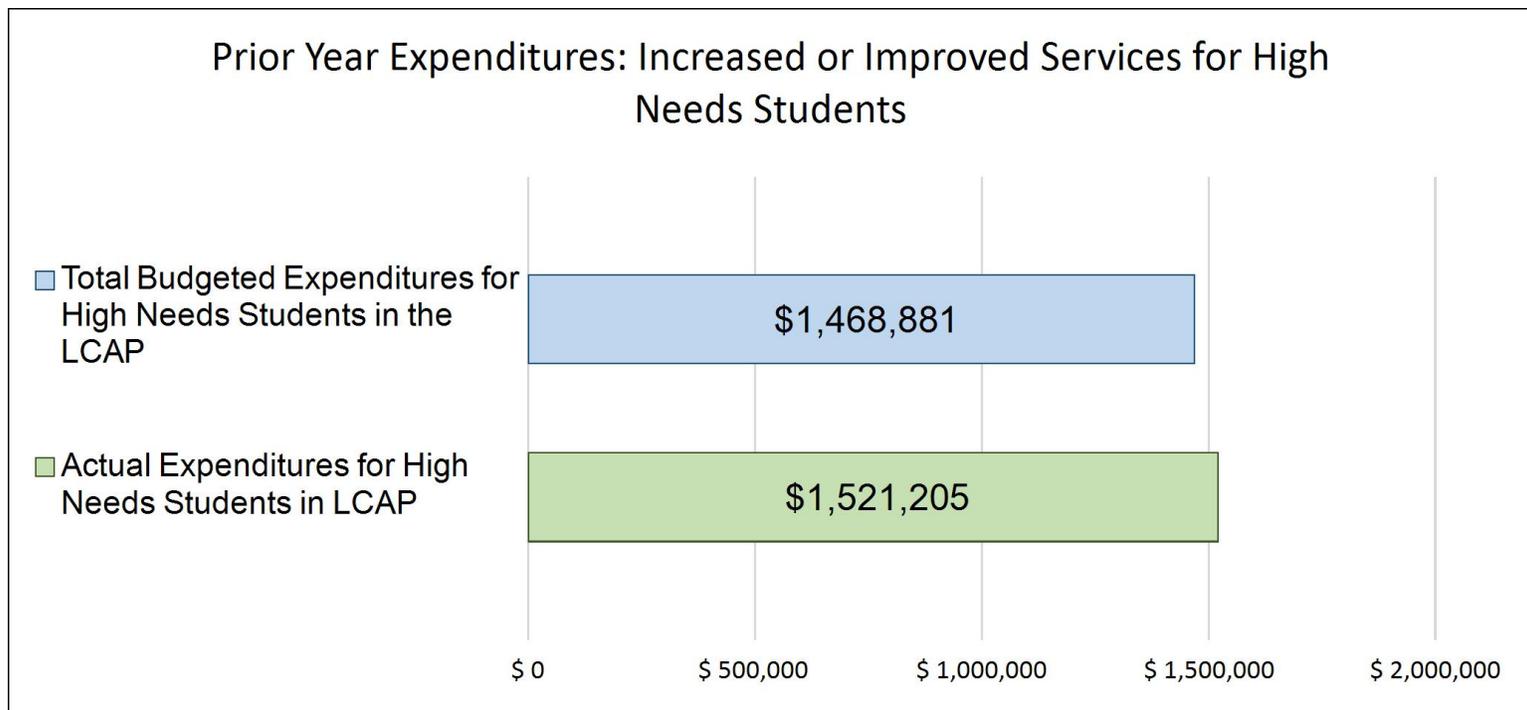
The text description of the above chart is as follows: Magnolia Science Academy 2 plans to spend $8,341,147 for the 2022-23 school year. Of that amount, $8,341,147 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, Magnolia Science Academy 2 is projecting it will receive $1672588 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy 2 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy 2 plans to spend $1,779,311.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

Prior Year Expenditures: Increased or Improved Services for High Needs Students


This chart compares what Magnolia Science Academy 2 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy 2 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Magnolia Science Academy 2's LCAP budgeted $$1,468,881.35 for planned actions to increase or improve services for high needs students. Magnolia Science Academy 2 actually spent $$1,521,204.75 for actions to increase or improve services for high needs students in 2021-22.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy 2	David Garner Principal	dgarner@magnoliapublicschools.org 818-758-0300

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

MSA-2 has a tremendous amount of opportunities to engage our educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2021-22 LCAP. In particular, MSA-2 has continued to utilize our expansive programs, systems and structures of engagement to seek feedback from educational partners which have permitted the school to receive ample input during the process of making decisions about the chosen action plan for the funds.

MSA2 incorporates numerous manners to solicit feedback from our various stakeholder groups, including parents/guardians, staff, and students, in order to seek input related to the possible different options which are available for the utilization of the fiscal resources attached to Budget Act of 2021 that were not included in the 2021-22 LCAP. Amongst these means are the below:

- Weekly Full Staff PD meetings
- Weekly Grade Level meetings
- Weekly SPED meetings
- Weekly Admin meetings
- Weekly MTSS SEL Committee meetings
- Weekly PBIS Committee meetings
- Weekly Student Government meetings
- Weekly MTSS Academic Committee meetings
- Weekly MPS Academic Task Force meetings with central office
- Weekly Leadership meetings with central office
- Weekly Title I Staff meetings with ELA and math interventionists
- Weekly Office Staff meetings

- Weekly Open House meetings
- Weekly Coffee with the Principal meetings
- Monthly Dean of Academics meetings with central office
- Monthly Dean of Students meetings with central office
- Monthly Principal meetings with central office
- Biweekly Department meetings
- Weekly College Cohort meetings
- Weekly AP Teacher meetings
- ELAC meetings
- PTF meetings
- SSC meetings
- Title I meetings
- Weekly Parent Bridge for Student Achievement Foundation (PBSAF) classes
- Weekly Saturday School meetings

In addition, MSA2 utilizes the following tools to disseminate information to stakeholders:
- ParentSquare
- School website
- Email
- Phone calls / voice message
- Social media
- Google Classroom
- Infinite Campus
- Google Forms
- Panorama Education - survey
- Home visits

Significant feedback related to the use of funds provided through the Budget Act of 2021 that were not included in the 2021-22 LCAP was the result of community input from various educational partners. One such example of these recommendations is the decision to add additional security personnel on campus, which was shared during a School Site Council meeting by one of the parent members during October 2021. In addition, the decision to add an additional school custodian was shared by an MSA2 staff member during our weekly professional development time in October 2021 during the Covid-19 pandemic, since additional duties are required to keep the school clean which require more hours than our current staff were previously taking. All feedback from stakeholders helped make the process of soliciting feedback related to the use of funds provided through the Budget Act of 2021 that were not included in the 2021-22 LCAP more impactful for our community. As of this date, the aforementioned engagement efforts took place for the Educator Effectiveness Block Grant. Similar efforts will take place for A-g Completion Improvement Grant and Expanded Learning Opportunities Program grants.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

MSA-2 is using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In particular, MSA-2 received $194,213 during the 2021-22 academic year from the concentration grant add-on funds.

The first form of MSA-2 utilizing these funds was in MSA-2 hiring an additional administrative assistant with these funds in the amount of approximately $60,000 per year including salary and benefits to support the provision of academic interventions. Since this staff member started during the Spring 2022 semester, the estimated expenses for salary and benefits for this position is $30,000 for the 2021-22 academic year.

The next form of MSA-2 utilizing these funds was in MSA-2 hiring an additional SPED paraprofessional with these funds in the amount of approximately $55,000 per year including salary and benefits to support the provision of academic interventions. Since this staff member started during the Spring 2022 semester, the estimated expenses for salary and benefits for this position is $22,500 for the 2021-22 academic year.

MSA-2 is also in the process of seeking to hire a new SPED teacher position during this academic year in with an estimated expense of $120,000 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $60,000 on this position for the current academic.

MSA-2 is also in the process of seeking to hire a new EL paraprofessional during this academic year in with an estimated expense of $60,000 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $30,000 on this position for the current academic.

MSA-2 is also in the process of seeking to hire a social worker during this academic year in with an estimated expense of $103,426 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $51,713 on this position for the current academic.

MSA-2's plan is to expend the full $194,213 budgeted amount during the 2021-22 academic year from the concentration grant add-on funds. However, there is a possibility that not all positions will be able to be filled candidates who end up being hired during this time due to the conditions in the labor market within each respective position.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

As was stated in the earlier section of this report, MSA-2 has a tremendous amount of opportunities to engage our educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils. In particular, MSA-2 has continued to utilize our expansive programs, systems and structures of engagement to seek feedback from educational partners which have permitted the school to receive ample input during the process of making decisions about the chosen action plan for the funds.

MSA2 incorporates numerous manners to solicit feedback from our various stakeholder groups, including parents/guardians, staff, and students, in order to seek input related to the possible different options which are available for the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils. Amongst these means are the below:

- Weekly Full Staff PD meetings
- Weekly Grade Level meetings
- Weekly SPED meetings
- Weekly Admin meetings
- Weekly MTSS SEL Committee meetings
- Weekly PBIS Committee meetings
- Weekly Student Government meetings
- Weekly MTSS Academic Committee meetings
- Weekly MPS Academic Task Force meetings with central office
- Weekly Leadership meetings with central office
- Weekly Title I Staff meetings with ELA and math interventionists
- Weekly Office Staff meetings
- Weekly Open House meetings
- Weekly Coffee with the Principal meetings
- Monthly Dean of Academics meetings with central office
- Monthly Dean of Students meetings with central office
- Monthly Principal meetings with central office

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

- Biweekly Department meetings
- Weekly College Cohort meetings
- Weekly AP Teacher meetings
- ELAC meetings
- PTF meetings
- SSC meetings
- Title I meetings
- Weekly Parent Bridge for Student Achievement Foundation (PBSAF) classes
- Weekly Saturday School meetings

In addition, MSA2 utilizes the following tools to disseminate information to stakeholders:
- ParentSquare
- School website
- Email
- Phone calls / voice message
- Social media
- Google Classroom
- Infinite Campus
- Google Forms
- Panorama Education - survey
- Home visits

Significant feedback related to the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils was the result of community input from various stakeholder groups. One such example of these recommendations is the decision to add additional security personnel on campus, which was shared during a School Site Council meeting by one of the parent members during October 2021. In addition, the decision to add an additional school custodian was shared by an MSA2 staff member during our weekly professional development time in October 2021 during the Covid-19 pandemic, since additional duties are required to keep the school clean which require more hours than our current staff were previously taking. All feedback from stakeholders helped make the process of soliciting feedback related to the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils more impactful for our community.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

MSA-2 is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure

plan, and is experiencing both successes and challenges experienced during implementation. The below section contains a breakdown of the budgeted amounts which were allocated for each action within each category of the ESSER III plan as well as the plans which each respective action aligns with. In addition, below each action, a description about the current status describes the successes and/or challenges associated with each action.

- --------

CATEGORY 1
Total ESSER III funds being used to implement strategies for continuous and safe in-person learning: $930,000

Action Title: Additional Security Staff
Action Description: Salary for one additional security staff during 2021-22, 2022-23, and 2023-24 school years
Planned ESSER III Funded Expenditures: $150,000
Plan Alignment: LCAP 2021-22 Goal 1, Action 3
Current Success and/or Challenges: This action is currently a success area since MSA-2 was able to subcontract out an additional security staff member at MSA-2 since the Fall 2021 semester through World Private Security Inc. In addition, MSA-2 plans on keeping this additional security staff member throughout the duration of the 2022-23 and 2023-24 school years and is on track to spend the budgeted amount of ESSER III funds for this action item by the end of the three budgeted fiscal years.

Action Title: Full-Time Long-Term Substitute Teacher
Action Description: Salary and benefits for one long-term full-time substitute teacher during 2021-22, 2022-23, and 2023-24 school years
Planned ESSER III Funded Expenditures: $150,000
Plan Alignment: LCAP 2021-22 Goal 2, Action 1
Current Success and/or Challenges: This action is currently a success area since MSA-2 was able to hire a long-term substitute teacher at MSA-2 since the Fall 2021 semester. In addition, MSA-2 plans on keeping this full-time long-term substitute teacher throughout the duration of the 2022-23 and 2023-24 school years and is on track to spend the budgeted amount of ESSER III funds for this action item by the end of the three budgeted fiscal years.

Action Title: Continuation of SPED Paraprofessional
Action Description: Continuation of salary and benefits for one current SPED paraprofessional into 2022-23 and 2023-24 school years
Planned ESSER III Funded Expenditures: $150,000
Plan Alignment: LCAP 2021-22 Goal 2, Action 5
Current Success and/or Challenges: This action is currently a success area since MSA-2 hired a SPED paraprofessional at MSA-2 since the Fall 2021 semester. The expense for the 2021-22 academic year were not budgeted under ESSER III funds, nor were they purchased with ESSER III funds, but instead were made with another one-time funding source. However, MSA-2 plans to utilize ESSER III funds to retain this full-time SPED paraprofessional throughout the duration of the 2022-23 and 2023-24 school years, at which point, MSA-2 will be on track to spend the budgeted amount of ESSER III funds for this action item during the two upcoming fiscal years.

Action Title: Additional Custodian
Action Description: Salary and benefits for one additional custodian during 2021-22, 2022-23, and 2023-24 school years
Planned ESSER III Funded Expenditures: $150,000
Plan Alignment: LCAP 2021-22 Goal 1, Action 3
Current Success and/or Challenges: This action is currently a success area since MSA-2 was able to hire an additional full-time custodian at MSA-2 during the Spring 2022 semester. In addition, MSA-2 plans on keeping this full-time additional custodian throughout the duration of the 2022-23 and 2023-24 school years and is on track to spend the budgeted amount of ESSER III funds for this action item by the end of the three budgeted fiscal years.

Action Title: Additional Psychologist
Action Description: Salary and benefits for one additional full-time school psychologist for 2021-22, 2022-23 and 2023-24 school years
Planned ESSER III Funded Expenditures: $330,000
Plan Alignment: LCAP 2021-22 Goal 4, Action 3
Current Success and/or Challenges: This action is currently a challenge as well as a success area at MSA-2. In particular, this is a challenge area since MSA-2 has yet to be able to hire an additional full-time school psychologist at MSA-2 as of Feb. 4 2022. However, MSA-2 will continue to seek finding a qualified candidate to hire for this position during the upcoming school years. Nonetheless, with the surplus of unused funds in this action, MSA-2 was able to have success in hiring a new administrative assistant to serve with the Student Services department to provide support to students in need with a portion of the unused ESSER III funding allocated for an additional school psychologist from the 2021-22 academic year.

- ------

CATEGORY 2
Total ESSER III funds being used to implement additional actions: $0

- ------

CATEGORY 3
Total ESSER III funds being used to address the academic impact of lost instructional time: $417,159

Action Title: Longer Summer Schools
Action Description: Longer summer schools (days/hours): during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $40,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the summer term for the 2022-23 and 2023-24 academic years have yet to take place. However, MSA-2 still continues to plan an extension in the hours for summer school with the ESSER III funds budgeted in this action item.

Action Title: Winter Intersession
Action Description: Winter intersession (one week): during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $20,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the winter intersession term for the 2022-23 and 2023-24 academic years have yet to take place. However, MSA-2 still continues to plan an extension in the provision of programs and services with the ESSER III funds budgeted in this action item.

Action Title: Small Group Sessions
Action Description: Small group sessions (after school): during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $20,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the small group sessions budgeted timeline for this action is during the 2022-23 and 2023-24 academic years which have yet to take place. However, MSA-2 still continues to plan an extension in the provision of programs and services with the ESSER III funds budgeted in this action item.

Action Title: Increase Frequency of Saturday Schools
Action Description: Increase frequency of Saturday schools: during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $60,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the increased frequency of Saturday Schools budgeted timeline for this action is during the 2022-23 and 2023-24 academic years which have yet to take place. However, MSA-2 still continues to plan an extension in the provision of programs and services with the ESSER III funds budgeted in this action item.

Action Title: Summer Intersession
Action Description: Summer intersession in June (in addition to summer schools): during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $40,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the summer term for the 2022-23 and 2023-24 academic years have yet to take place. However, MSA-2 still continues to plan an extension of the programs and services provided to MSA-2 students during summer intersession with the ESSER III funds budgeted in this action item.

Action Title: Bridge Programs
Action Description: Bridge programs: during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $20,000

Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the summer term for the 2022-23 and 2023-24 academic years have yet to take place. However, MSA-2 still continues to plan an extension of the services provided to students during summer bridge programs with the ESSER III funds budgeted in this action item.

Action Title: Extended School Year
Action Description: Extended School Year (to 185 days): during 2022-23 and 2023-24 academic years
Planned ESSER III Funded Expenditures: $198,728.56
Plans Alignment: LCAP 2021-22 Goal 2, Action 1, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Current Success and/or Challenges: This action is currently a success area since MSA-2 was able to extend our school year to 185 days during the 2021-22 academic year. In addition, MSA-2 plans on keeping this extended school year schedule of 185 days during the 2022-23 and 2023-24 school years and is on track to spend the budgeted amount of ESSER III funds for this action item by the end of the three budgeted fiscal years.

Action Title: Expansion of CTE
Action Description: Expansion of CTE curriculum and resources
Planned ESSER III Funded Expenditures: $18,430.44
Plan Alignment: LCAP 2021-22 Goal 3, Action 1
Current Success and/or Challenges: This action is currently neither a success nor a challenge area at MSA-2 since the timeline for this expense to take place is during the STEAM Expo which is taking place in the Spring 2022. However, MSA-2 still continues to plan to use these funds to support these projects with the ESSER III funds budgeted in this action item.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

MSA-2 is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan and is aligned with MSA-2's 2021–22 LCAP and Annual Update. In particular, MSA-2 is using its fiscal resources from the ESSER III plan in a manner consistent with the categories below, and in alignment with the associated MSA2 2021-22 LCAP Goal and Action:

- --------

CATEGORY 1

Total ESSER III funds being used to implement strategies for continuous and safe in-person learning

Action Title: Additional Security Staff
Action Description: Salary for one additional security staff during 2021-22
Planned ESSER III Funded Expenditures: $50,000
Plan Alignment: LCAP 2021-22 Goal 1, Action 3
Consistent with ESSER III: This action is consistent with the ESSER III under the category of implementing strategies for continuous and safe in-person learning.

Action Title: Full-Time Long-Term Substitute Teacher
Action Description: Salary and benefits for one long-term full-time substitute teacher during 2021-22
Planned ESSER III Funded Expenditures: $50,000
Plan Alignment: LCAP 2021-22 Goal 2, Action 1
Consistent with ESSER III: This action is consistent with the ESSER III under the category of implementing strategies for continuous and safe in-person learning.

Action Title: Additional Custodian
Action Description: Salary and benefits for one additional custodian during 2021-22
Planned ESSER III Funded Expenditures: $50,000
Plan Alignment: LCAP 2021-22 Goal 1, Action 3
Consistent with ESSER III: This action is consistent with the ESSER III under the category of implementing strategies for continuous and safe in-person learning.

Action Title: Additional Psychologist
Action Description: Salary and benefits for one additional full-time school psychologist for 2021-22
Planned ESSER III Funded Expenditures: $110,000
Plan Alignment: LCAP 2021-22 Goal 4, Action 3
Consistent with ESSER III: This action is consistent with the ESSER III under the category of implementing strategies for continuous and safe in-person learning.

- ------

CATEGORY 2
Total ESSER III funds being used to implement additional actions

- ------

CATEGORY 3

Total ESSER III funds being used to address the academic impact of lost instructional time

Action Title: Longer Summer Schools
Action Description: Longer summer schools (days/hours): during 2022-23 (taking place during June 2022, which is during 2021-22 fiscal year)
Planned ESSER III Funded Expenditures: $20,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Consistent with ESSER III: This action is consistent with the ESSER III under the category of addressing the academic impact of lost instructional time.

Action Title: Summer Intersession
Action Description: Summer intersession (taking place during June 2022, which is during 2021-22 fiscal year), 2022-23
Planned ESSER III Funded Expenditures: $20,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Consistent with ESSER III: This action is consistent with the ESSER III under the category of addressing the academic impact of lost instructional time.

Action Title: Bridge Programs
Action Description: Bridge programs: during 2022-23 (taking place during June 2022, which is during 2021-22 fiscal year)
Planned ESSER III Funded Expenditures: $105,000
Plans Alignment: LCAP 2021-22 Goal 2, Action 3, Also aligned with 2021 ELOG Plan, Supplemental Instruction and Support Strategies
Consistent with ESSER III: This action is consistent with the ESSER III under the category of addressing the academic impact of lost instructional time.

Action Title: Expansion of CTE
Action Description: Expansion of CTE curriculum and resources
Planned ESSER III Funded Expenditures: $18,430.44
Plan Alignment: LCAP 2021-22 Goal 3, Action 1
Consistent with ESSER III: This action is consistent with the ESSER III under the category of addressing the academic impact of lost instructional time.

In terms of the usage of In-Person-Instruction Grants, MSA2 used those funds with certificated salaries, their benefits, and one time discretionary bonuses.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA's educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA's 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and

must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: "*A description of how and when the LEA engaged, or plans to engage, its* educational partners *on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).*"

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: "*A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.*"

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: "*A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.*"

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page

(https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA's implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update."

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA's 2021–22 LCAP. For purposes of responding to this prompt, "applicable plans" include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy 2	David Garner Principal	dgarner@magnoliapublicschools.org (818) 758-0300

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy-2 (MSA-2 Charter School), is a classroom-based charter school serving grades 6–12 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2008, MSA-2's mission is to provide "a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others."

MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students. MSA-2 adopted the Gates Model of providing its students with a small school environment, staffed with high quality educators and dedicated professionals whose sole purpose is to educate and prepare each child for higher education. Classroom instruction at MSA-2 is supplemented by tutoring, after-school programs, Saturday school enrichment, morning school support, and school-to-university pathways.

MSA-2 currently has 505 students in grades 6-12, and mainly draws enrollment from Van Nuys, CA, and neighboring communities. The neighborhoods that MSA-2 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-2 serves face economic challenges. MSA-2 has a diverse enrollment, including 89.4% Hispanic / Latino, 4% Asian / Pacific Islander, 4% White, 2% Black / African American, 82.8% Socioeconomically Disadvantaged, 17.5% Special Education, and 15% English Learner population, GATE 8% population.

For additional information about the school, parents and community members should review the entire SARC or contact the school principal or the district office.

Magnolia Science Academy 2

Address: 17125 Victory Blvd., Lake Balboa, CA, 91406-5455
Phone: 818-758-0300
Email: dgarner@magnoliapublicschools.org

Our History
Magnolia Science Academy – 2 (MSA-2) opened its doors to serve the community of Reseda in the Fall of 2008 for the grades 6th through 12th grade. In 2010, the school site moved to Lake Balboa. The school provides an academically rigorous standards-based curriculum.

Our Mission
Magnolia Public Schools provides a college preparatory educational program emphasizing science, technology, engineering, and math (STEAM) in a safe environment that cultivates respect for self and others.

Our Vision
Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

INNOVATION
Students have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest, and career plans support students' college and career readiness. Students experience hands-on learning through robotics, computer science, and arts to promote imagination, creativity, and invention.

CONNECTION
School communities are integrated partnerships among the school site staff, families, students, and all other stakeholders. Connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internships, promote unity and better decision making through the implementation of restorative justice practices.

EXCELLENCE
Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

68.4% of MSA2 students met their growth target on the NWEA MAP for math during the 2021-22 academic year. Further, MSA2 had a conditional growth percentile of 93% for math and a Conditional Growth Index (CGI) of 1.48 in math. 66% of MSA2's English Learner students met their target growth on the MAP math assessment during the 2021-22 academic year. 69% of MSA2's free and reduced price eligible students met their target growth on the MAP math assessment during the 2021-22 academic year. 68.1% of MSA2's SPED students met their target growth on the MAP math assessment during the 2021-22 academic year. 67.4% of MSA2's Hispanic students met their target growth on the MAP math assessment during the 2021-22 academic year.

67.3% of MSA2 students met their growth target on the NWEA MAP for reading during the 2021-22 academic year. Further, MSA2 had a conditional growth percentile of 98% for reading and a Conditional Growth Index (CGI) of 2.15 in reading. 69.6% of MSA2's English Learner students met their target growth on the MAP reading assessment during the 2021-22 academic year. 67.5% of MSA2's free and reduced price eligible students met their target growth on the MAP reading assessment during the 2021-22 academic year. 67.8% of MSA2's SPED students met their target growth on the MAP reading assessment during the 2021-22 academic year. 66.1% of MSA2's Hispanic students met their target growth on the MAP reading assessment during the 2021-22 academic year.

MSA2 showed 92.4 points growth for Lexile this year for students in reading as measured by the myON data utilized during the 2021-22 academic year.

MSA-2 has experienced success in its SBAC Growth Data which was released for the 2021-22 school year and which compares the school's academic growth over the most recent 3 academic school years (from 2017 - 2019). In particular, this growth data displays that MSA-2's overall 3 year growth measurement for ELA over this time was a decilerank of 8 out of 10. Further, MSA-2 displayed a 3 year growth measurement for math over this time as a decilerank of 9 out of 10. This measure shows that all student subgroups (including Students with Disabilities (SWD), English Learners (EL), Socioeconomically Disadvantaged (SED), and Reclassified Fluent English Proficient (RFEP) reached a decilerank of at least 6 out of 10 across ELA and math over the 3 year period, with the expectation of Students with Disabilities (SWD) which showed a decilerank of 4 out of 10 for ELA.

MSA-2 has a historical stability rate which has been increasing over the past 3 academic years where this data has been published by CDE. In particular, the most recent school year's data from 2019-20 was 94.8% which is higher than the State average during this same period of time, which was between 91 and 92 percent. That being said, this displays a trend of increased student retention at MSA-2 over the last 3 school years which is a testament to the increased feeling within students and families that MSA-2 is a safe and supporting learning environment.

The Spring 2021 end of year administration of the NWEA MAP assessment shows tremendous growth across all student groups in math and reading. In particular, 63.6% of English Language Learner (ELL) students met their subgroup growth projection in math and 66% met their subgroup growth project in reading. In addition, 68.3% of Free and Reduced-price Lunch eligible (FRL) students met their subgroup growth projection in math and 66.3% met their subgroup growth project in reading. Further, 57.9% of Special Education (SPED) students met their

subgroup growth projection in math and 66% met their subgroup growth project in reading. Moreover, 70.8% of Asian students met their subgroup growth projection in math and 62.5% met their subgroup growth project in reading. Moreover, 66.7% of Hispanic students met their subgroup growth projection in math and 65.5% met their subgroup growth project in reading. Finally, 87.5% of white students met their subgroup growth projection in math and 66.7% met their subgroup growth project in reading.

When analyzing MSA-2's performance on the California Dashboard, we can see tremendous growth and progress across the majority of indicators. In particular, in the suspension and expulsion category, MSA-2 has maintained the highest rating of the blue color indicator for each year from 2017 - 2019. Due to the pandemic, there is no color indicator for this category on the dashboard for the 2020 and 2021 school years. MSA2 had one suspension and one expulsion during the 2021-22 academic year.

In addition, MSA-2's graduation rate improved over the last 2 school years from the orange indicator 2nd to lowest rating of the orange indicator during 2018 to the highest rating of the blue color indicator during 2019. Specifically, MSA-2's graduation rate in 2019 increased by 7.9% to an overall rate of 97.6%. Due to the pandemic, there is no color indicator for this category on the dashboard for the 2020 and 2021 school years. MSA2 had a 100% graduation rate during the 2021-22 school year.

In terms of the chronic absenteeism measurement on the dashboard, MSA-2 has reached the 2nd highest rating of the green color indicator over the past 2 academic years (2018 and 2019). Further, the school's most recent rate showed a decrease of 0.6% in 2019. Due to the pandemic, there is no color indicator for this category on the dashboard for the 2020 and 2021 school years. MSA-2's College Readiness indicator improved by 2.6% from the 2018 to the 2019 academic year, including an improvement from the 2nd to lowest rating of the orange indicator during 2018 to the 2nd to highest rating of the green color indicator during 2019.

MSA-2's ELA performance on the dashboard increased significantly by 20.8 points over the most recent two years from 2018 to 2019. In addition, the ELA measurement improved from the 2nd to lowest performance indicator color of orange in 2017 to the middle performance color of yellow in 2018, and retained the performance color of yellow in 2019. Due to the pandemic, there is no color indicator for this category on the dashboard for the 2020 and 2021 school years.

MSA-2's math performance performance on the dashboard increased by 6 points over the most recent academic year from 2018 to 2019. In addition, the math measurement improved from the 2nd to lowest performance indicator color of orange in 2018 to the middle performance color of yellow in 2019. Due to the pandemic, there is no color indicator for this category on the dashboard for the 2020 and 2021 school years.

As we administer the SBAC, we see that MSA-2's overall ELA scores have increased each year over the past 3 years starting from 33.01% (in 2017) and ending up at 41.11% (in 2019). In addition, our school's math scores increased over the same past 3 years from 23.87% (in 2017) and ending up at 27.87% (in 2019). Due to the Covid-19 pandemic, MSA-2 does not have SBAC ELA or math data from 2020 for any grade levels, and only has such data for 11th graders from 2021.

MSA-2's showed improvement across all student groups in the most recent ELA performance categories on the dashboard during the 2018-19 academic year. Specifically, in ELA, EL students showed a growth of 12.8 points and reached the middle performance indicator of yellow

during the 2018-19 academic year. In addition, in ELA, Hispanic students showed a growth of 19.6 points and reached the middle performance indicator of yellow during the 2018-19 academic year. Moreover, in ELA, Socioeconomically disadvantaged (SED) students showed a growth of 17.2 points and reached the middle performance indicator of yellow during the 2018-19 academic year. Despite students with disabilities (SWD) being in the 2nd to lowest performance indicator of orange during the 2018-19 academic year, they showed a significant growth of 28.7 points. Due to the Covid-19 pandemic, MSA-2 does not have this data from the 2020 and 2021 academic years.

MSA-2's showed improvement across all student groups in the most recent math performance categories on the dashboard during the 2018-19 academic year. Despite EL students being in the 2nd to lowest performance indicator of orange for math during the 2018-19 academic year, they showed a growth of 4.1 points. In addition, in math, Hispanic students showed a growth of 3.4 points and reached the middle performance indicator of yellow during the 2018-19 academic year. Moreover, despite socioeconomically disadvantaged students being in the 2nd to lowest performance indicator of orange for math during the 2018-19 academic year, they showed a growth of 2.9 points. Also, despite students with disabilities (SWD) being in the 2nd to lowest performance indicator of orange during the 2018-19 academic year, they showed a growth of 10.5 points. Due to the Covid-19 pandemic, MSA-2 does not have this data from the 2020 and 2021 academic years.

MSA2's reclassification rate during the 2021-22 academic year is 20%. MSA-2's progress for reclassification of English Learners during the most recent academic year included on the dashboard is very high at 71.4% during the 2018-2019 academic year. This success came as the result of a tremendous amount of collaboration, support, programs and interventions. In particular, the school utilizes myON to track data and support English Learners in measuring their Lexile growth in reading, as well as Flocabulary to improve their academic vocabulary as well as their development of critical thinking skills across all of Bloom's Taxonomy levels. Moreover, MSA-2 utilizes the Quill online platform to support these students during their ELD courses which they take during each semester when they are considered an EL level 1, 2 or 3. Beyond these structures, the school has an EL Coordinator who provides training to all teachers in order to best understand the process to integrate EL standards into all classroom lesson plans. The EL Coordinator also receives support from the Director of EL programs at the home office in order to best follow the EL Master Plan within Magnolia Public Schools. Finally, EL students are invited to attend additional after school tutoring sessions, Saturday School, and learning camps during the winter, spring and summer breaks.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

MSA2 students have demonstrated success in meeting their target growth in math and reading. To reiterate, 68.4% of MSA2 students met their growth target on the NWEA MAP for math during the 2021-22 academic year. Further, MSA2 had a conditional growth percentile of 93% for math and a Conditional Growth Index (CGI) of 1.48 in math. 66% of MSA2's English Learner students met their target growth on the MAP math assessment during the 2021-22 academic year. 69% of MSA2's free and reduced price eligible students met their target growth on the MAP math assessment during the 2021-22 academic year. 68.1% of MSA2's SPED students met their target growth on the MAP

math assessment during the 2021-22 academic year. 67.4% of MSA2's Hispanic students met their target growth on the MAP math assessment during the 2021-22 academic year.

To reiterate, 67.3% of MSA2 students met their growth target on the NWEA MAP for reading during the 2021-22 academic year. Further, MSA2 had a conditional growth percentile of 98% for reading and a Conditional Growth Index (CGI) of 2.15 in reading. 69.6% of MSA2's English Learner students met their target growth on the MAP reading assessment during the 2021-22 academic year. 67.5% of MSA2's free and reduced price eligible students met their target growth on the MAP reading assessment during the 2021-22 academic year. 67.8% of MSA2's SPED students met their target growth on the MAP reading assessment during the 2021-22 academic year. 66.1% of MSA2's Hispanic students met their target growth on the MAP reading assessment during the 2021-22 academic year.

Despite the success in meeting the growth targets in math and reading on the NWEA MAP assessment across many student populations described above, the overall proficiency and advanced percentile of students in math at MSA2 is 16.62%. This rate is an area of need which MSA2 needs to continue to improve upon as a school with targeted interventions and additional supports. Further the overall proficiency and advanced percentile of students in reading at MSA2 is 40.48%. This rate is also an area of need which MSA2 needs to continue to improve upon as a school with targeted interventions and additional supports.

Another area of need relates to the 2.13% of EL students who are proficient or advanced in math as measured by the 2021-22 NWEA MAP assessment. Further, 4.26% of EL students who are proficient or advanced in reading as measured by the 2021-22 NWEA MAP assessment. These rates also show areas of need which MSA2 needs to continue to improve upon as a school with targeted interventions and additional supports to improve the math and reading proficiency rate of EL students.

Another area of need relates to the 7.27% of SPED students who are proficient or advanced in math as measured by the 2021-22 NWEA MAP assessment. Further, 21.82% of SPED students who are proficient or advanced in reading as measured by the 2021-22 NWEA MAP assessment. These rates also show areas of need which MSA2 needs to continue to improve upon as a school with targeted interventions and additional supports to improve the math and reading proficiency rate of SPED students.

Another area of need relates to the 14.52% of Hispanic students who are proficient or advanced in math as measured by the 2021-22 NWEA MAP assessment. Further, 38.83% of Hispanic students who are proficient or advanced in reading as measured by the 2021-22 NWEA MAP assessment. These rates also show areas of need which MSA2 needs to continue to improve upon as a school with targeted interventions and additional supports to improve the math and reading proficiency rate of Hispanic students.

While the Dashboard data shows several areas of need, since the Covid-19 pandemic impacted the incorporation of academic assessment data including the SBAC and as such, this section focuses on the NWEA MAP data during the present time which enables a more recent incorporation of math and reading data from the 2021-22 school year, which is more relevant to the academic intervention plans than data which is several years old from the prior Dashboard when all grades were required to take the SBAC prior to the Covid-19 pandemic.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- Parents continue to show appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent Bridge Education Program
- The overall satisfaction rates for students during the 2021-22 academic year was maintained at 88%. Overall satisfaction rates for families decreased by 2% during the same period of time (from (99% to 97%). In addition, staff overall satisfaction rates maintained a high percent during this time of 98%. These three positive responses in educational partner satisfaction over the past year are due to all educational partners observing that despite the challenges faced after the return to in-person learning following the previous year of distance learning, MSA2 continues to offer improved access to high quality instructional programs as well as provide support to staff and families.
- For the topic of Climate of Support for Academic Learning, MSA2's students favorable rating is 80% during the 2021-22 academic year. This was a 2 percent decrease since the last academic year. The same topic for families during the current school year showed a 98% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 95% for the same topic, which is down by 4 percent since the last academic year.
- Despite the decreases across each educational partner for the topic of Climate of Support for Academic Learning in the 2021-22 academic year, these results are actually higher than the MPS average for each educational partner group and demonstrates that MSA2 continues to experience success in this topic. The slight decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.
- For the topic of Knowledge and Fairness of Discipline, Rules and Norms, MSA2's students favorable rating is 67% during the 2021-22 academic year. This was a 9 percent decrease since the last academic year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 77% for the same topic, which is down by 16 percent since the last academic year.
- Despite the decreases across each educational partner for the topic of Knowledge and Fairness of Discipline, Rules and Norms in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic..
- In particular, some of the reasons behind this decrease in the staff category for Knowledge and Fairness of Discipline, Rules and Norms may be that during the previous school year, staff were able to work remotely for nearly the entire year, and the school day was shorter due to distance learning. Also, the need to focus on areas including classroom management last year was lower while

students were on Zoom, since many negative behavioral issues which typically occurred in-person were not as easy to do for students. That being said, this year required teachers to return to a fully in-person school year as well as to return to a longer school day each day. These changes also require teachers to focus more on behavioral management techniques which last year they may not have needed to place as great of an emphasis on. These may be some of the reasons for the decrease in staff satisfaction rates this year, in addition to the other areas shared by staff members in their survey responses.

- Also, this decrease in student rates this year for Knowledge and Fairness of Discipline, Rules and Norms may be impacted by the fact that during the last school year, students were able to spend the majority of their time at home on Zoom, and did not need to go to the school site, as well has did not need to stay in school for as long each school day. This increase in hours of the day which students are now required to be at school and in class may have impacted the decrease in student satisfaction rates during the current school year. During the current school year, MSA2 also continued to offer interventions and support including Saturday School, PBIS weekly house competitions, in-person counseling sessions, in-person support for college applications, after school tutoring and clubs, and support via online resources.

- For the topic of Safety, MSA2's students favorable rating is 76% during the 2021-22 academic year. This was a 2 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel safer having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. The same topic for families during the current school year showed a 96% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 76% for the same topic, which is down by 18 percent since the last academic year.

- Despite the decreases across two out of three of the educational partners for the topic of Safety in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The larger decrease across the staff educational partners survey in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic. In particular, during distance learning, staff did not have to deal with issues of school safety during the distance learning while students were all isolated from each other. In addition, students were not able to interact with other students during the distance learning from the isolation in their homes, so the adjustment which students needed to experience when returning to in-person led to increased behavioral issues at school during the transition period. However, MSA2 has responded to this challenge during the 2021-22 academic year by hiring 1 additional SPED teacher, 3 additional SPED paraprofessionals, 3 additional administrative assistants in the students services department, 1 additional administrative assistant to support the academic department, and 1 additional full time security guard to provide additional supervision and support.

- For the topic of Sense of Belonging (School Connectedness), MSA2's students favorable rating is 65% during the 2021-22 academic year. This was a 3 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. This area is the greatest area of growth for the students for the topics when compared to the last school year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 92% for the same topic, which is an increase by 1 percent since the last academic year. This is a tremendous success for MSA2 to see that staff actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did working remotely during distance learning via Zoom last school year at their homes.

- We are incredibly proud of all of our areas of growth and plan on continuing to focus on taking proactive steps to repeat and build upon these successes. We are also incredibly motivated to continue to work on addressing all of the areas of concern during the upcoming school year and continue to make MSA2 a better school for all educational partners across all categories through our ongoing collaborative approach.
- The need to continue our improvements in designated/integrated English Learner services
- Continue to provide counseling and positive behavior intervention support services to our students
- Continue using teacher evaluation system "TeachBoost"
- 100% graduation rate; college bound high school students.
- Classes continue using blended learning effectively
- The full inclusion of special education students continues to be impactful to support student learning
- Professional development around explicit direct instruction
- Our PBIS program continues to lead to low suspensions and expulsion rates

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-2 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include PTF meetings, quarterly SSC meetings, quarterly ELAC meetings, numerous parent activities/events including weekly Coffee with the Principal meetings on Fridays, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 100 home visits during each of the past four school years and sought feedback from the parents for school improvement.

During the return from distance learning to in-person learning which took place from August 2021 through June 2022, MSA2 took numerous steps to maintain support the engagement and reintegration of students and all educational partners. In particular, MSA2 added numerous full-time staff positions to the school, including hiring: 1 additional SPED teacher; 2 additional SPED paraprofessionals; 1 additional security staff; 1 additional custodian; 2 additional discipline administrative assistants / discipline coordinators; 1 full time substitute teacher; and 1 additional academic administrative assistant. These support resources were provided to the school as the students returned to in-person instruction as a manner to increase student engagement in learning, reduce learning loss, support school safety, and facilitate the administration of intervention programs, as these staff members provided ongoing support to students and families. In addition, we continued to hold weekly Coffee with the Principal meetings on Fridays to provide parents with an opportunity to share their feedback with the school related to their children, as well as to share important information with families. We also continued to hold ELAC, SSC, and PTF meetings during this school year where priorities are discussed and voted upon for approval and support by members from various stakeholder groups. In addition, we created and distributed a monthly newsletter which held important information and also provided the community with student

journalist work.

MSA2 incorporates numerous manners to solicit feedback from our various stakeholder groups, including parents/guardians, staff, and students, in order to seek input related to the setting of priorities, including the allocation of funding to achieve these desired outcomes. Amongst these means are the below:

- Weekly Full Staff PD meetings
- Monthly Grade Level meetings
- Weekly SPED meetings
- Weekly Admin meetings
- Monthly MTSS SEL Committee meetings
- Weekly PBIS Committee meetings
- Weekly ASB Student Government meetings
- Monthly MTSS Academic Committee meetings
- Weekly Leadership meetings with central office
- Monthly Title I Staff meetings with ELA and math interventionists
- Weekly Office Staff meetings
- Weekly Coffee with the Principal meetings
- Monthly Dean of Academics meetings with central office
- Monthly Dean of Students meetings with central office
- Monthly Principal meetings with central office
- Monthly Department meetings
- Monthly Dual Enrollment / College Programs meetings
- ELAC meetings
- PTF meetings
- SSC meetings
- Title I meetings
- Weekly Saturday School meetings
- Daily After School Help Desk meetings

In addition, MSA2 utilizes the following tools to disseminate information to stakeholders:
ParentSquare
Monthly newsletter
School website
Email
Phone calls / voice message
Social media
Google Classroom
Illuminate

Google Forms
Panorama Education - survey
Home visits

A summary of the feedback provided by specific educational partners.

MSA2 regularly receives significant feedback from all stakeholder groups, including our Parent Advisory Committee (PAC) / Parents, our students, our staff, our School Site Council (SSC), our ELAC, and our SELPA. In particular the input from each of these stakeholder groups is systematically integrated into our school operations, programs, services, planned expenditures, and other important aspects of our educational systems.

Introduction:
Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement.

Annual stakeholder experience survey:

MPS uses the CORE DISTRICTS survey instrument developed by WestEd for the California Department of Education as our annual stakeholder experience survey. The survey includes questions for school climate indicators which include the following four topics for students, families, and staff:
- Climate of Support for Academic Learning;
- Knowledge and Fairness of Discipline, Rules and Norms;
- Safety;
- Sense of Belonging (School Connectedness).

Some sample questions on the survey include:
- "This school is a supportive and inviting place for students to learn."
- "All students are treated fairly when they break school rules."
- "How safe do you feel when you are at school?"
- "I feel like I am part of this school."

Student SEL survey:

Separate from the annual stakeholder experience survey, our "students" also take the CORE DISTRICTS Social Emotional Learning (SEL) survey in the fall and spring. The SEL survey asks questions in additional four topics which include indicators for social-emotional competencies:

- Growth Mindset;
- Self-Efficacy;
- Self-Management;
- Social Awareness.

As part of our MTSS efforts school leadership, teachers, and support staff analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.

Specific data is collected each year from students, parents/families and staff from our annual stakeholder survey conducted through Panorama Education. The below information reflects the specific results from the 2020-21 survey from these stakeholder groups for MSA2:

Survey Participation Rates:

During the 2021-22 academic year, the participation rate of families decreased by 5.5% over the last year (from 91.8% to 86.3%) and the staff participation rates maintained 100% over the past year. MSA2 did not meet our LCAP target parents participation rate of 90%. MSA2 will consider using both electronic and paper surveys in the future rather than exclusively electronic surveys for all families to help families who have challenges with technology to still have the paper option, while using PACE Coordinator to follow up with each family. While the student participation rate increased by 2.9% over the past year during the 2021-22 academic year (from 95.1% to 98.0 %).

Overall Satisfaction Rates:

The overall satisfaction rates for students during the 2021-22 academic year was maintained at 88%. Overall satisfaction rates for families decreased by 2% during the same period of time (from (99% to 97%). In addition, staff overall satisfaction rates maintained a high percent during this time of 98%. These three positive responses in educational partner satisfaction over the past year are due to all educational partners observing that despite the challenges faced after the return to in-person learning following the previous year of distance learning, MSA2 continues to offer improved access to high quality instructional programs as well as provide support to staff and families.

Survey Findings:

Over the 2021-22 academic year, students showed a decrease in average approval rating by 3% over the past year (from 76% to 73%). This decrease in student satisfaction rates this year may be impacted by the fact that during the last school year, students were able to spend the majority of their time at home on Zoom, and did not need to go to the school site, as well has did not need to stay in school for as long each school day. This increase in hours of the day which students are now required to be at school and in class may have impacted the decrease

in student satisfaction rates during the current school year. During the current school year, MSA2 also continued to offer interventions and support including Saturday School, PBIS weekly house competitions, in-person counseling sessions, in-person support for college applications, after school tutoring and clubs, and support via online resources.

Over the 2021-22 academic year, families approval rates were nearly maintained over the past year with a decrease of 1% from the previous year (from 98% to 97%). We maintained a high percentage of parent meetings and conferences via Zoom, in person events, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

Over the 2021-22 academic year, staff showed some decrease in average approval rating by 9% over the past year (from 94% to 85%). Some of the reasons behind this change may be that during the previous school year, staff were able to work remotely for nearly the entire year, and the school day was shorter due to distance learning. Also, the need to focus on areas including classroom management last year was lower while students were on Zoom, since many negative behavioral issues which typically occurred in-person were not as easy to do for students. That being said, this year required teachers to return to a fully in-person school year as well as to return to a longer school day each day. These changes also require teachers to focus more on behavioral management techniques which last year they may not have needed to place as great of an emphasis on. These may be some of the reasons for the decrease in staff satisfaction rates this year, in addition to the other areas shared by staff members in their survey responses.

Successes:

For the topic of Climate of Support for Academic Learning, MSA2's students favorable rating is 80% during the 2021-22 academic year. This was a 2 percent decrease since the last academic year. The same topic for families during the current school year showed a 98% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 95% for the same topic, which is down by 4 percent since the last academic year.

Despite the decreases across each educational partner for the topic of Climate of Support for Academic Learning in the 2021-22 academic year, these results are actually higher than the MPS average for each educational partner group and demonstrates that MSA2 continues to experience success in this topic. The slight decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.

For the topic of Knowledge and Fairness of Discipline, Rules and Norms, MSA2's students favorable rating is 67% during the 2021-22 academic year. This was a 9 percent decrease since the last academic year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 77% for the same topic, which is down by 16 percent since the last academic year.

Despite the decreases across each educational partner for the topic of Knowledge and Fairness of Discipline, Rules and Norms in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates

that MSA2 continues to experience success in this topic. The decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic.

In particular, some of the reasons behind this decrease in the staff category for Knowledge and Fairness of Discipline, Rules and Norms may be that during the previous school year, staff were able to work remotely for nearly the entire year, and the school day was shorter due to distance learning. Also, the need to focus on areas including classroom management last year was lower while students were on Zoom, since many negative behavioral issues which typically occurred in-person were not as easy to do for students. That being said, this year required teachers to return to a fully in-person school year as well as to return to a longer school day each day. These changes also require teachers to focus more on behavioral management techniques which last year they may not have needed to place as great of an emphasis on. These may be some of the reasons for the decrease in staff satisfaction rates this year, in addition to the other areas shared by staff members in their survey responses.

Also, this decrease in student rates this year for Knowledge and Fairness of Discipline, Rules and Norms may be impacted by the fact that during the last school year, students were able to spend the majority of their time at home on Zoom, and did not need to go to the school site, as well has did not need to stay in school for as long each school day. This increase in hours of the day which students are now required to be at school and in class may have impacted the decrease in student satisfaction rates during the current school year. During the current school year, MSA2 also continued to offer interventions and support including Saturday School, PBIS weekly house competitions, in-person counseling sessions, in-person support for college applications, after school tutoring and clubs, and support via online resources.

For the topic of Safety, MSA2's students favorable rating is 76% during the 2021-22 academic year. This was a 2 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel safer having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. The same topic for families during the current school year showed a 96% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 76% for the same topic, which is down by 18 percent since the last academic year.

Despite the decreases across two out of three of the educational partners for the topic of Safety in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The larger decrease across the staff educational partners survey in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic. In particular, during distance learning, staff did not have to deal with issues of school safety during the distance learning while students were all isolated from each other. In addition, students were not able to interact with other students during the distance learning from the isolation in their homes, so the adjustment which students needed to experience when returning to in-person led to increased behavioral issues at school during the transition period. However, MSA2 has responded to this challenge during the 2021-22 academic year by hiring 1 additional SPED teacher, 3 additional SPED paraprofessionals, 3 additional administrative assistants in the students services department, 1 additional administrative assistant to support the academic department, and 1 additional full time security guard to provide additional supervision and support.

For the topic of Sense of Belonging (School Connectedness), MSA2's students favorable rating is 65% during the 2021-22 academic year. This was a 3 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. This area is the greatest area of growth for the students for the topics when compared to the last school year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 92% for the same topic, which is an increase by 1 percent since the last academic year. This is a tremendous success for MSA2 to see that staff actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did working remotely during distance learning via Zoom last school year at their homes.

We are incredibly proud of all of our areas of growth and plan on continuing to focus on taking proactive steps to repeat and build upon these successes. We are also incredibly motivated to continue to work on addressing all of the areas of concern during the upcoming school year and continue to make MSA2 a better school for all educational partners across all categories through our ongoing collaborative approach.

Identified Needs:

Despite the decreases across each educational partner for the topic of Climate of Support for Academic Learning in the 2021-22 academic year, these results are actually higher than the MPS average for each educational partner group and demonstrates that MSA2 continues to experience success in this topic. The slight decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.

Despite the decreases across each educational partner for the topic of Knowledge and Fairness of Discipline, Rules and Norms in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic.

In particular, some of the reasons behind this decrease in the staff category for Knowledge and Fairness of Discipline, Rules and Norms may be that during the previous school year, staff were able to work remotely for nearly the entire year, and the school day was shorter due to distance learning. Also, the need to focus on areas including classroom management last year was lower while students were on Zoom, since many negative behavioral issues which typically occurred in-person were not as easy to do for students. However, MSA2 has responded to this challenge during the 2021-22 academic year by hiring 1 additional SPED teacher, 3 additional SPED paraprofessionals, 3 additional administrative assistants in the students services department, 1 additional administrative assistant to support the academic department, and 1 additional full time security guard to provide additional supervision and support.

Free Response - Strengths:

Based upon the free responses to this question, the below strengths are visible in the student survey for MSA2 during the 2021-22 academic year:

- Friends/peer relationships
- Teachers and staff (nice/kind/supportive) (several teachers mentioned by name)
- Small school environment (safe/chill)
- Activities/celebrations/festivals (pizza/ice cream)
- Can go to many staff members for help

Based upon the free responses to this question, the below strengths are visible in the family survey for MSA2 during the 2021-21 academic year:

- Hard work and dedication from all the employees
- Security is always on duty even after school
- The communication tools between school and families
- Friendly staff

- The Unity and expectations of the school
- Life skills class

Based upon the free responses to this question, the below strengths are visible in the staff survey for MSA2 during the 2021-22- academic year:

- Welcoming for all Educational Partner
- Teachers are hard-working and collaborating
- Supportive staff and Admin
- Activities
- School Culture

Based upon the free responses to this question, the below strengths are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- Staff are friendly, dedicated, approachable, and supportive
- Effective structures to enhance ongoing communication between school and home
- Positive school culture and union with clear expectations
- School leadership team is encouraging and provides comprehensible expectations
- Robust after school program which integrates increased opportunities for competitive CIF sports

Free Response - Areas of Growth:

Based upon the free responses to this question, the below areas of growth are visible in the student survey for MSA2 during the 2021-22 academic year:

- Lack of certain facilities, bathrooms
- Food
- Assignments
- Student's Behavior
- Uniform Policy

Based upon the free responses to this question, the below areas of growth are visible in the families survey for MSA2 during the 2021-22 academic year:

- Minor tweaking, drop off and pick up
- More proactive to reach out to parents from teachers

- No Robotics
- Student grouping
- Teacher turn over

Based upon the free responses to this question, the below areas of growth are visible in the staff survey for MSA2 during the 2021-22 academic year:

- Students behavior
- Pay
- Facility issues; not enough space for storage/classes
- Lack of discipline; lack of student consequences

Based upon the free responses to this question, the below areas of growth are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- Improve access to facilities (field, school entrance,)
- Strong After school programs- Robotics
- Offer better student meals
- Follow-up on having clear consequences for disruptive students (cell phone usage among students, bad language, etc

Suggestions from Stakeholders:

Based upon the free responses to this question, the below are suggestions which are visible in the student survey for MSA2 during the 2021-21 academic year:

- Gymnasium and Soccer Field
- Strong After School programs
- Better food and lunch area
- Dual Enrolment Class
- No uniform Policy
- Improve Internet
- Restrooms (soap, remodeling, cleanliness

Based upon the free responses to this question, the below are suggestions which are visible in the families survey for MSA2 during the 2020-21 academic year:

- Add Electives

- Facilities /Plant a huge tree in the middle of the entrance
- Robotics is needed
- Better communication between teachers and parents

Based upon the free responses to this question, the below are suggestions which are visible in the staff survey for MSA2 during the 2020-21 academic year:

- New facility; move to a different location; more space
- Clear consequences for disruptive students
- STEAM Focus
- Sports, more advanced programs

Based upon the free responses to this question, the below suggestions are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2021-22 academic year:

- Clear consequences for disruptive students
- STEAM Focus- Strong After School
- Better food
- Facility improvement
- Sports, more advanced programs

Next Steps:

- By July 2024, MSA 2 will acquire a new facility. This will be accomplished through weekly meetings with facility team will continue to take place in order to search for a new location to purchase for MSA2
- Additional school spirit opportunities will be provided to students to continue improving school culture and climate (maybe student taskforce to create a monthly calendar?)
- Monthly stakeholder survey to rate the past month's activities -
- Maintain or increase student satisfaction for 80 % of the months
- Continue to increase collaboration between teachers within science and math departments to increased kinesthetic and tactile experiments supporting student learning
- Survey students regarding the number of activities they have done in their math and science classes - experiment based and kinesthetic.
- Improved or at least maintained activity rates - monthly
- School Wellness Committee to provide PD to staff at least once per month to increase kinesthetic activities in the classroom
- Teachers share their kinesthetic activities done in the classroom - report once per month

- Continue to build a nurturing environment with friendly, dedicated approachable and supportive staff by having ongoing professional development related to SEL support of students
- Monthly PD to build capacity of staff - trauma sensitive practices, classroom management strategies, and SEL
- Survey students monthly related to how the students perceive teachers interactive with them in terms of positive affirmations and support, kindness, and patience. Increase or maintain rates (Panorama has check-in feature - check with Jason regarding this feature)
- Increase school-wide fun activities to build better relationships among students and keep them motivated by holding at least 1 school-wide fun activity per month.

SELPA Feedback:

Our SELPA recommended that we continue to use the LCAP to monitor the progress of our students with IEPs and 504s through our use of programs and services as well as through continuing to monitor the data involving these students and to make any adjustments to programs and services necessary to ensure the increased success of these students.

Parent Advisory Committee (PAC)/Parents, School Site Council (SSC) and ELAC:

MSA2 feedback from our parents through our PAC, as well as through multiple stakeholder groups involved with our SSC and ELAC supported the idea that we expand services offered during our Saturday School program, as well as expand our summer school, Spring Break, Thanksgiving Break, and Winter Break services to support student learning to support English Learners, students with IEPs and 504s, socioeconomically disadvantaged students, students in need of social-emotional and mental health support, as well as general education students from all demographic backgrounds.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:
- Continuing to employee additional security staff member
- Continuing to employee additional SPED teacher
- Continuing to employee additional SPED and EL paraprofessionals
- Continuing to employee additional custodial worker
- Continuing to employee additional discipline coordinators / administrative assistants
- Continuing to employee additional academic administrative assistant
- Hire social worker shared position
- Continued improvements in designated/integrated English Learner services
- Expanding the type of after school, Saturday school, and summer school opportunities
- Expanding the provision of counseling and behavior support services to our students

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

- Continue using TeachBoost for teacher evaluations
- Expanding support to improve college preparedness by offering a college planning, dual enrollment with local colleges, and career exploration program for students early on, continue using Naviance to maintain the effectiveness of the "Advisory" programs, offering special programs to prepare students for the standardized tests, and preparing students to take more AP and/or college courses
- Continue investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Continue to improve school facilities and the lunch program
- Continuing to improve the expansion of sports and arts programs to support our students

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 96.0%	2021-22: (Spring 2021 to Fall 2021) 88%			2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.0%	2021-22: (As of 5/12/22) 94.2%			2023-24: 96.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	$25,878.00	No

Action #	Title	Description	Total Funds	Contributing
		for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay. The following expenditures will be funded by federal Title funds: N/A The following was spent on staff retention bonuses which were not initially in the budgeted amount for this goal / action: • Other Certificate Salaries: Resource: ESSER III; Amount: $184,500		
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure	$456,919.00	No

Action #	Title	Description	Total Funds	Contributing
		meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: • Equipment (Pre-Cap): Resource: Title IV, Part A ESEA (ESSA); Amount: $8,985 • Technology: Resource: Title IV, Part A ESEA (ESSA); Amount: $909		
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter	$742,440.00	No

Action #	Title	Description	Total Funds	Contributing
		School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A		
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, and refreshments. The following expenditures will be funded by federal Title funds: N/A	$19,000.00	Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and	$1,198,785.00	No

Action #	Title	Description	Total Funds	Contributing
		professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Action 1: Teacher assignments and credentials

MSA2 commenced the current academic year with the resignation of one full time teacher in the English department. Further, MSA2 had several other vacancies open up, including a history teacher resignation during the fall semester, an EL Coordinator / Title I English position vacancy due to the promotion of the previous individual with this role to the Dean of Students position, a math interventionist position at the end of November 2021 and another English teacher position in February 2022. All of these matters have led the necessary practice of recruiting teachers by means of our Paycom system, as well as through Indeed and Edjoin platforms. MSA2 was able to fill the history teacher position in October 2021 as well as the English teacher position in January 2022. MSA2 was able to fill the second English teacher position vacancy which opened up in February 2022 in April 2022. However, MSA2 was not able to fill the EL Coordinator / English intervention position as well as the math intervention position vacancies by the end of the school year. Subsequently, a portion of the fiscal resources that MSA2 allocated with the purpose of hiring had not been utilized by the end of the school year. Further, MSA2 is committed to collaboration between our HR department and credential specialist to enable the efficient progress and timely development of our employees

related to their respective programs and certifications as well as providing them with the required supports needed to earn their credentials.

- ---

Action 2: Instructional materials and technology

The entirety of MSA2's mandatory as well as essential textbooks during the 2021-22 academic year have been purchased through the vendor McGraw Hill. Amongst these expenses is the inclusion of online educational textbooks for all grade levels across English, math, history and science. Beyond these centralized curriculum provisions, instructors have also been provided with the opportunity to purchase additional needed academic resources, including novels to enhance ELA academic instruction as well as any other instructional products which can support student learning during the school year. Further, all staff members are invited to send ongoing purchase requests to be considered for approval pertaining to office as well as classroom supplies and materials.

- ----

Action 3: Clean and safe facilities that support learning

The fiscal resources budgeted in this category have been utilized to provide the programs and services which aligned with the expenses initially in MSA2's plan. MSA2 also has subcontracted out the services of providing weekly Covid testing to all students and staff on campus to health care workers through LAUSD as well as PMH. MSA2's head custodial worker meets regularly with our office manager and administration to review the current inventory of cleaning supplies on campus in order to create new purchase requests necessary to maintain a safe and clean environment during the pandemic in partnership with our health and safety committee. Beyond the aforementioned expenses, the funds included in this line item are utilized to sustain projects involved in the upkeep and repair of the facility on campus, including ongoing servicing of the school's HVAC systems, restrooms, exterior walls, floors, and more.

- ----

Action 4: Healthy and nutritious meals

MSA2 has utilized fiscal resources related to this action and goal in order to provide essential drinking water to students and staff on campus during the Covid-19 pandemic via an outside distribution company. In particular, these funds have supported the expansion of 5-gallon water dispenser devices being provided in each classroom as well as office on campus in order to create a safe system at MSA2's for access to water since the drinking fountains and vending machines have been closed since March 2020 at the beginning of the pandemic. Beyond these provisions, remaining fiscal resources in this category have been utilized to provide students with access to meals during expanded portions of the school day, including after school during dual enrollment college courses taken in-person at MSA2 by high school students, as well as other events where the regular school meal program does not distribute food.

- ----

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

Action 5: Well-orchestrated Home Office support services

MSA2 utilizes fiscal resources within this area to cover fees associated with our Home Office related to the provision of services and resources to the school site. Further, these fiscal resources are utilized from MSA2 to cover additional necessary support services by means of the fees paid to LACOE in conjunction with MSA2's authorization, fees to cover the performance of financial audits, fees to cover expenses from MSA2's legal firm partner and other expenses. Moreover, MSA2 utilizes this fiscal resource to purchase necessary software which is necessary to run the school system, including Adaptive Insights which provides budgetary tools for the school. In exchange for the fees paid by MSA2 to our home office, MSA2 receives services in the form of monthly professional development sessions for all school administration, as well as office management, in addition, to support with compliance related to special education, student services, academic programs, facilities, operations, human resources, and finance. Beyond these services, MSA2 receives support from the home office in the form of organizing training programs across the Magnolia organization for teachers, office staff, paraprofessionals, and administration to attend to collaborate. Finally, funds from this expense also provide support related to Covid-19 health and safety protocols.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 1: Teacher assignments and credentials

This fiscal resource additionally aligns with the function of providing fees related to retirement services. Despite the budgeted amount of $24,750 for the current academic year in this area, MSA2 has estimated actual expenditures of $ 210,378.00 in this area by the end of the Spring 2022 semester due to the expansion of programs and services provided to MSA2 during the Covid-19 pandemic which have increased the school funding and which were not previously included in the initial budget calculations. Specifically, MSA2 had $105,189 to spend in this area including the additional pandemic funding sources. Further, a significant portion of the fiscal resources from this category were utilized to provide appreciation by means of retention bonuses to eligible current employees of MSA2 at the end of the current academic year with the purpose of retaining these individuals within MSA2's school community.

- ----

Action 2: Instructional materials and technology

Moreover, MSA2 allocated 50% of the salary and benefits for our IT Manager in partnership with MSA7 who budgeted the additional 50% for this shared staff member who worked at MSA2 for the entire of the fall 2021 semester but who subsequently resigned at the start of the spring 2022 semester. MSA2 was able to hire a replacement individual for this position in April 2022. MSA2 recently received a grant to purchase 550 new Chromebooks during this school year which MSA2 contributed approximately 10% of the funds required to make this purchase. Additionally, MSA2 continued to pay for the acquisition of hotspots for each student in need of internet connection at home. All classrooms have internet access and each student has their own Chromebook for school use. Further, MSA2 purchased additional

Viewsonics for our school classrooms this year to provide greater support. MSA2 spent $406,898.59 of our school's budgeted amount $426,371.08 duration of the 2021-22 school year.

- ---

Action 3: Clean and safe facilities that support learning

MSA2 hired a 2nd full-time security guard through an outside subcontracted vendor to provide a safe environment during the current year. Due to the Covid-19 pandemic, MSA2 has augmented our provision of custodian workers servicing the school site as well as the necessary supplies required to maintain a safe and clean campus. Beyond MSA2's 2 regular staff members who work as full-time custodial workers, the school added an additional full-time employee to support the nighttime routine of disinfecting the campus. Additional cleaning and PPE supplies have been purchased to help keep the students and staff safe and the campus maintained. MSA2 has utilized approximately $ 648,944.04 which is more than the $517,374.69 budgeted funds allocated for this category this academic year.

- ---

Action 4: Healthy and nutritious meals

By the end of the school year, MSA2 has utilized approximately $ 19,000.00 of the $8,000 budgeted amount which have been allocated to this category. Additional fiscal resources have been utilized in this category to provide students with access to meals during expanded portions of the school day, including after school during dual enrollment college courses taken in-person at MSA2 by high school students, as well as other events where the regular school meal program does not distribute food.

- ---

Action 5: Well-orchestrated Home Office support services

MSA2 has exhausted $ 1,108,895.19 which is more than the $973,507.31 funds which were budgeted under this category during the current school year. This has resulted from MSA2 growing in enrollment which has led to the school paying a higher rate for services and fees from home office. Further, since these fees also relate to supports related to Covid, this category has needed additional fees here.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 1: Teacher assignments and credentials

At the time of this report, MSA2 anticipates retaining all employees with the exception of 2 for the upcoming school year. This is considered a success with regard to this goal, and the additional retention bonuses can be considered effective in helping meet this goal.

Action 2: Instructional materials and technology

MSA2 has utilized more fiscal resources in this category than the amount initially budgeted, which has supported student learning during the Covid-19 pandemic. In particular, due to increased crowded spaces in student homes during the pandemic with the increased cost of living and more families sharing living quarters, increased wear and tear as well as damage to electronic devices took place during the current school year, which has led to the need to spend more funds in this area than initially planned. Nonetheless, these technological resources have helped support students access to online educational resources and textbooks at their homes which have supported Lexile growth, increases in math and reading as measured on the Spring 2022 NWEA MAP end of year assessments which justifies the increased expenditures related to technology for MSA2.

Action 3: Clean and safe facilities that support learning

MSA2 has utilized more fiscal resources in this category than the amount initially budgeted by means of hiring a 3rd full-time custodial worker, purchasing additional PPE, and hiring a 2nd full-time security guard at MSA2. This has been effective in reducing the prevalence of Covid cases during the pandemic and avoiding an outbreak which could have led to increased cases and the need to close the school down to manage such an outcome. In addition, the additional security staff has helped lead to increased safety on campus, as demonstrated in the annual Panorama Educational Survey, as well as the retention of students at MSA2 with a growth of enrollment each year over the past 3 years.

Action 4: Healthy and nutritious meals

Increased fiscal resources in this category have been effective at providing healthy meals to students during after school activities including the college courses which help lead to increased student participation and success in such academic programs.

Action 5: Well-orchestrated Home Office support services

The increased fiscal resources paid to home office this year for support beyond the budgeted amount has been effective in receiving increased support for our SPED department, Academic programs, PACE community outreach, legal services, facilities department, accountability and human resources during the pandemic which has needed additional support to manage during the 2021-22 academic year. With MSA2's growing enrollment over the past 3 years, we are able to have a larger budget to support the increased services and fees associated with home office services which have helped lead to increased services and outcomes for students as evidence by the student growth on the end of year NWEA MAP assessments in math and English during the Spring 2022 semester.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

MSA2 will continue to collaborate with our credential specialist in our HR department along with our Dean of Academics to ensure that teacher credential issues are addressed and progress is made in this area related to new challenges that may arise during the upcoming school year. MSA2 will continue to meet with our IT Manager and home office IT Director to ensure that the most effective technological resources are provided to students to support their learning throughout the school year. Further, MSA2 will continue to collaborate with the Director of Student Services, School Site Council, and Student Leadership to seek for ways to improve the safety and cleanliness of MSA2 during the upcoming school year. Moreover, MSA2 will continue to collaborate with our school educational partners to ensure that healthy meals and snacks continue to be provided to students who take advantage of educational programs and opportunities which meet outside of regular school time so they can continue to receive the benefit from these opportunities, including enrolling in college courses. Finally, MSA2 will continue to partner with our home office and allocate necessary fiscal quantities needed to seek resources, professional development opportunities and support which can enhance the quality of educational programs and services provided to students at MSA2.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.
Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	$2,092,884.00	No

Action #	Title	Description	Total Funds	Contributing
		supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal Title funds: • Teacher salary and benefits: Resource: Title I; Amount: $143,956.39		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff	$67,000.00	Yes

		needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees. The following expenditures will be funded by federal Title funds: • Professional development - other expenses: Resource: Title II; Amount: $23,000		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and	$746,852.00	Yes

Action #	Title	Description	Total Funds	Contributing
		summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.) The following expenditures will be funded by federal Title funds: • Intervention Teacher salary and benefits: Resource: Title I, Part A; Amount: $64,098.55 • Instructional Aide salary and benefits: Resource: Title I, Part A; Amount: $2,100 • Clerical and Tech: Resource: Title I; Amount: $3,000 • Educational Software: Resource: Title IV, Part A ESEA (ESSA); Amount: $3,000 • Educational Software: Resource: Title I; Amount: $17,530 • Professional Services: Resource: Title I; Amount: $4,500		
2.4	Designated and integrated ELD programs	Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will	$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees. The following expenditures will be funded by federal Title funds: • Professional Services: Resource: Title I, ; Amount: $1,000		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.	$956,318.00	No

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2.1: Broad course of study and standards-based curriculum

During the 2021-22 academic year, MSA2 has faced a tremendous degree of obstacles related to the Covid-19 pandemic and its impact on the programs, services and resources available to the school. In particular, this year has been impacted by teacher turnover in several classes which have required the utilization of increased quantities of substitute teachers to cover. This process has had an impact on the fiscal resources required to pay substitute company vendors, although the funding which was initially allocated for teacher salaries and benefits led to savings during the months where vacancies took place. Further, as a result of the health and safety protocols which have been mandated to MSA2 during the pandemic, a significantly higher percentage of MSA2 teachers have been required to stay home this year with with any symptoms, close contacts, Covid positive cases, or other exposures which has led to a significant budgetary impact increasing the fiscal resources needed in the area of substitute teachers related to this matter.

MSA2 utilizes numerous systems, programs, and services to effectively achieve the objective in Goal 2, Action 1 of providing a broad course of study and standards-based curriculum.

In particular, MSA2 creates a master schedule each semester which it uses to align the courses being offered to students within each semester with the instructors responsible for teaching the students subdivided by separate class periods. This master schedule ensures that students are each enrolled in courses of study which enable them to meet culmination and graduation requirements.

In addition, MSA2 provides textbooks to all students through online accessible curriculum which are aligned to the content standards as well as through physical textbooks via McGraw Hill, which provides access to core academic classes including English (StudySync), math (ALEKS), history, and science. Beyond these resources, MSA2 incorporates a plethora of online supplemental resources to support instructional and student learning, including: myON, which provides support to build lexile reading levels and is utilized in ELA, ELD as well

as through cross-curricular support; iXL to address learning loss in math and ELA; Flocabulary to provide differentiated support in all subject areas; Gizmo and Generation Genius to support students in science; Quill which provides writing skills structured support in ELD courses; and BoardWorks which provides teachers with content-standards embedded presentation platform access.

MSA2 also takes proactive steps to support students in their college and career readiness. Specifically, students at MSA2 are invited to take advanced pathways in math beginning in 7th grade, as well as advanced college level courses through Pierce College, LA Valley College and Mission College, including in Sociology, Anthropology, Cinema, Art, History, and English. Moreover, MSA2 offers AP courses to students in Spanish, Calculus. Further, MSA2 provides additional support to students who are ready for higher level academic pursuits through Stanford University's Precollegiate Academy. MSA2 students participate in additional elective courses, including computer, graphic design, journalism, theatre and art as well as have opportunities to participate in STEAM-based extra-curricular program including VEX EDR Robotics, VEX IQ Robotics, RAD Drones and AMP.

Goal 2.2: Professional development for high-quality instruction

MSA2 utilizes fiscal resources from this category to provide opportunities for professional development to the school teachers, administrators and staff as well as the associated payment required to retain the TeachBoost system as a means to evaluating teachers and staff within the school setting. MSA2 also continues to employ teachers, administrators, and other staff who receiving tuition reimbursement support whice they are able to connect with their credentialing programs as well as higher education pathways.

Amongst the needs of MSA2 employees, some individuals are receiving support to obtain their induction programs while others are receiving their EdD in Educational Leadership as well as Masters Degrees in the areas related to their professional growth goals. Since current spring programs are still underway, the reimbursement process is not yet complete for these individuals and the funds in this category will continue to be spent until the end of the semester.

MSA2 furnishes pupils with a broad array of courses which also encompass the traditional core classes of mathematics, social sciences, science and English, in addition to elective offerings. Moreover, MSA2 furnishes the additional selection of services as well as academic programs which are included within our school's charter petition, particular provisions and interventions that align with the individual needs and areas of curiosity encompassed by our school's student population. Beyond these steps, MSA2 also designs our specific master schedule to meet the demands and requirements related to our students' future academic and professional goals.

Further, MSA2 takes proactive steps to ensure that every student has access to courses across each of the school's academic areas which is equitably distributed across pupil groups. Each student at MSA2 participates in a rigorous, relevant, and coherent curriculum which is aligned to the common core state standards which simultaneously augments the achievement as measured by the schoolwide learner outcomes, content standards, as well as the measures associated with students' preparation to be successful in future professional and collegiate outcomes. Furthermore, MSA2 continues to provide the sufficient quantity and quality of professional staff members required to effectively implement the organization's master schedule. In order to meet this goal, MSA2 continues to develop additional responsibilities and duties which are appropriately delegated to teachers and administrators alike which enable the school to provide competitive salaries and benefits necessary to retain such talented educators.

As we have historically provided financial support to our new teachers to clear their credentials through BTSA programs, we will proceed in fulfilling these supports this year as well. MSA2 is vigilant in providing support to our teachers and staff by means of providing opportunities to participate in professional development programs in partnership with LACOE as it pertains to PBIS, STEAM, SEL, MTSS, EL support, and other areas related to effective classroom instruction. Our college counselor and teachers of college level Advanced Placement courses will also continue to receive annual professional development training which are provided by the school in order to prepare them to be successful in delivering quality instruction to our advanced students at MSA2. Another time which is sacred for MSA2 to hold professional development takes place during our weekly full staff collaboration time each Wednesday during our minimum dismissal schedule. Finally, we are supportive of our paraprofessional and administrative assistant staff members in their pursuit of higher educational goals by means of offering tuition reimbursement to these individuals.

Goal 2.3: MTSS - Academic enrichment, intervention, and student support

MSA2 has implemented MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. MSA2 has synthesized CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions have been utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. MSA2 has provided additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, SDAIE strategies and CHATS framework integration and utilization, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Learning Lab classes, designated ELD courses, Study Skills, additional support during home room, before and after school tutoring, Saturday classes, small group instruction and interventions, and summer programs. SSPT, 504, and other support meetings have been coordinated among teachers and support roles (resource teachers, EL coordinator, Title-1 Team, MTSS Academic Committee chairs, etc.). MSA2 has also provided support of bilingual paraprofessionals to ensure that EL students have sufficient support necessary to access the instructional program.

MSA2 has included online educational supplemental resources which include BrainPOP, myON, Flocabulary, Aleks, Gizmo. MSA2 has also provided the additional supports:
- MSA2 has an advanced math class for all eligible students to take where they are 1 grade level ahead of the content standards, which 114 of our students are currently enrolled in (which is 23% of our overall student population)
- EL and SPED support takes place after school with the SPED teachers during their office hours and tutoring time, as well as with instructional assistants
- AP support time takes place after school during office hours with the instructors
- Early College Magnet has the support of MSA2 co-teachers who serve as additional academic support for the students to provide increased passing rates of the courses taken with LA Valley College
- Weekly meetings include: SPED, MTSS DL Academic Committee, Grade Level Coordinators, grade level teachers, departments, admin, PBIS Committee, ASB Student Government leadership, College Readiness Committee, Technology Committee, AP teachers, Title I math / EL
- 11th grade homeroom IXL preparation integration

- Winter academic intervention plans as well as after school support during January to increase student passing rate from Fall 2021"

Goal 2.4: Designated and integrated ELD programs

- MSA2 has held quarterly ELAC (English Language Advisory Committee) meetings throughout the current academic year.
Lesson plans include documentation of ELD standards which are aligned with core curriculum and which will be integrated into each particular activities within the instructional program each day so that all courses provide additional supports toward acquisition of English Language Development

Collaboration with the central office to provide best-practice integration of the ELD Master Plan, in partnership with the MPS ELD Coordinator
- MSA2 has implemented MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. MSA2 has synthesized CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions have been utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. MSA2 has provided additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, SDAIE strategies and CHATS framework integration and utilization, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, learning lab classes, designated ELD courses, Study Skills, additional support during Homeroom / Advisory, before and after school tutoring, Saturday classes, small group instruction and interventions, and summer programs. SSPT, 504, and other support meetings have been coordinated among teachers and support roles (resource teachers, EL coordinator, MTSS Academic Committee chairs, etc.)
- Support of bilingual paraprofessionals to ensure that EL students have sufficient support necessary to access the instructional program.
- MSA2 has included online educational supplemental resources which include Quill, myON, Flocabulary, IXL, and StudySync ELD component, as well as StoryBoard That.
- MSA2 utilizes paraprofessionals to support EL students during learning lab as well as homeroom courses to provide additional guidance and feedback to students

Goal 2.5: Support for students with disabilities

MSA2 utilizes the fiscal resources aligned with this action step in order to provide funding which pays for the salary and benefits of MSA2's 3 full-time SPED paraprofessionals, 1 part-time SPED paraprofessional, 4 full-time Education specialist / SPED teachers, 1 full-time school psychologist. This year, MSA2 added an additional 1 SPED teacher / education specialist, 1 additional SPED full-time paraprofessional, and 1 additional part-time SPED paraprofessional.

Further, MSA2 utilizes this action to include for the purchase of resources needed to support SPED students and teachers such as technological resources which help provide accommodations to SPED students, as well as to provide services to SPED students by means of subcontracting out this process to an outside vendor, including EdLogical. SPED students receive services which include occupational

therapy, adaptive PE, speech therapy, and more. Moreover, MSA2 utilizes funds in this category to provide relevant assessments which are utilized and incorporated in the annual and triannual IEP process for SPED students, including any required technical tools which are essential to this process.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2.1: Broad course of study and standards-based curriculum

MSA2's initial budget which included categories to support the programs, services, personnel, and resources related to this action step was impacted by several additional sources of revenue due to the Covid-19 pandemic. Amongst these resources, the additional Concentration Add-On Grant provided extra fiscal resources which have created opportunities to provide additional support to students during this time and which included expenses which were not initially budgeted by MSA2.

MSA2 budgeted $1,881,128.31 for this category, but ended up utilizing $1,960,747.80 of fiscal resources by the end of the school year in this category. The reason for MSA2 spending more than the budgeted amount in this category is due to the need to support learning loss during the pandemic by incorporating additional resources related to providing a broad course of study and standards-based curriculum which also incorporated some additional funding from the Covid-19 pandemic fiscal supplemental resources.

Goal 2.2: Professional development for high-quality instruction

MSA2 budgeted $60,202.00 for this goal, but by the end of the school year utilized $65,000.00 to accomplish this goal.

Goal 2.3: MTSS - Academic enrichment, intervention, and student support

- MSA2 hired a new paraprofessional to support the dually identified students who are both SPED and EL during this academic year (additional concentration add-on grant funds)
- MSA2 hired a new administrative assistant in the Student Services department to support behavior interventions (ESSER III funds)
- MSA2 hired a new administrative assistant in the Academic Department to support the administration of assessments as well as to support academic achievement (additional concentration add-on grant funds)
- MSA2 allocated additional funds to support Saturday School to provide additional learning loss recovery

MSA2 budgeted $653,346.02 for this goal but by the end of the school year, MSA2 had spent $564,698.09 for this goal. Although MSA2 did not spend all of the budgeted amount in this category, the process of hiring numerous additional support paraprofessional and administrative assistant staff to support the SPED, EL and general student population this year enabled MSA2 to be effective with this goal without utilizing

all of the budgeted fiscal resources in this goal.

Goal 2.4: Designated and integrated ELD programs

- MSA2 hired an additional administrative assistant in the Academic department to support the administration of assessments in partnership with the Dean of Academics and Assistant Principal, including in the support of the EL students being assessed

MSA2 has spent $1,000 of the $1,000 which were budgeted in this category by the end of the school year.

Goal 2.5: Support for students with disabilities

MSA2 has experienced some adaptations to the original budgeted amount in this category due to the incorporation of additional Covid-19 funding sources which were able to expand resources to SPED students during the pandemic. Due to the increase number of SPED students this year enrolled in MSA2 as well as increased number of new assessments which took place leading to new IEPs for students, a 4th SPED teacher / education specialist was hired this year. MSA2 budgeted $666,517.38 this year but by the end of the year ended up utilizing $724,134.19.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 2.1: Broad course of study and standards-based curriculum

MSA2 has a tremendous amount of data over the past several school years which relates to this goal and action step.

The most recent Spring 2021 end of year administration of the NWEA MAP assessment shows tremendous growth across all student groups in math and reading. In particular, 63.6% of English Language Learner (ELL) students met their subgroup growth projection in math and 66% met their subgroup growth project in reading. In addition, 68.3% of Free and Reduced-price Lunch eligible (FRL) students met their subgroup growth projection in math and 66.3% met their subgroup growth project in reading. Further, 57.9% of Special Education (SPED) students met their subgroup growth projection in math and 66% met their subgroup growth project in reading. Moreover, 70.8% of Asian students met their subgroup growth projection in math and 62.5% met their subgroup growth project in reading. Moreover, 66.7% of Hispanic students met their subgroup growth projection in math and 65.5% met their subgroup growth project in reading. Finally, 87.5% of white students met their subgroup growth projection in math and 66.7% met their subgroup growth project in reading.

MSA2 also incorporates relevant contemporary data sources by means of our variety of online supplemental resources which provide data related to student math, ELA, and Lexile levels across all grade levels from IXL, ALEKS, myON, Flocabulary platforms, and which is monitored by teachers and the MTSS Academic Committee to provide targeted interventions and support which include after school tutoring, Saturday School, learning lab courses, and other interventions.

In particular, when MSA-2 analyzes our school's AP passing rate over the past 5 years, MSA-2's rate decreased during the most recent academic year of 2020-21 to 45.83%. However, this rate is relatively consistent with the passing rate from 4 out of the past 5 school years (including 46.7% in 2017, 44.2% in 2018, 44.4% in 2019, and 45.83% in 2021).

Specifically, MSA-2's most recent published data on the California Dashboard for the 2019-20 cohort graduation rate of 95.0% was higher than LAUSD's rate of 82.9%, and LACOE's rate of 82.2%, as well as the State rate of 84.3%. In addition, MSA-2's most recent published data on the California Dashboard for the 2019-20 rates of graduates meeting UC / CSU requirements of 92.1% was higher than LAUSD's rate of 55.8%, and LACOE's rate of 53.6%, as well as the State rate of 50.9%. Moreover, MSA-2's most recent published data on the California Dashboard for the 2019-20 rate of graduates earning a seal of biliteracy of 34.2% was higher than LAUSD's rate of 25.3%, and LACOE's rate of 26.5%, as well as the State rate of 26.6%.

As we administer the SBAC, we see that MSA-2's overall ELA scores have increased each year over the past 3 years starting from 33.01% (in 2017) and ending up at 41.11% (in 2019). In addition, our school's math scores increased over the same past 3 years from 23.87% (in 2017) and ending up at 27.87% (in 2019). Due to the Covid-19 pandemic, MSA-2 does not have SBAC ELA or math data from 2020 for any grade levels, and only has such data for 11th graders from 2021.

MSA-2 has experienced success in its SBAC Growth Data which was released for the 2021-22 school year and which compares the school's academic growth over the most recent 3 academic school years (from 2017 - 2019). In particular, this growth data displays that MSA-2's overall 3 year growth measurement for ELA over this time was a decilerank of 8 out of 10. Further, MSA-2 displayed a 3 year growth measurement for math over this time as a decilerank of 9 out of 10.

Goal 2.2: Professional development for high-quality instruction

We have expanded our MPSwide collaboration time this school year which connects teachers and staff across the organization to support areas including math instruction, EL support, departmental collaboration, ELA instruction, SPED collaboration, technology support, and more. MSA2 was recently awarded the Bronze Medal for our PBIS Program in partnership with LACOE. In order to receive this recognition, MSA2 compiled data related to our SEL implementation as well as related to a variety of measures being assessed by LACOE in their observation of our school over the course of the application period. MSA2 also reviews assessment data during weekly school staff PD meetings, department meetings, MTSS meetings, School Site Council meetings, Title I / ELAC meetings with other educational partners. Further, MSA2 administration attend and review data monthly with home office support during Principal meetings, Dean of Academic meetings, Dean of Student meetings, and Office Manager meetings. This data relates to student performance on academic assessments, behavioral referrals, attendance and truancy, social emotional measures, and enrollment. In addition, MSA2 administration utilizes TeachBoost platform to perform formal and informal observations of instructional staff and administrative assistants which align to professional standards and track each individual's effectiveness over the course of each school year.

Goal 2.3: MTSS - Academic enrichment, intervention, and student support

- MSA2's academic performance data during the pre-Covid-19 pandemic as well as since the pandemic began have shown continuous growth and improvement across nearly all student groups in ELA and math. In particular, MAP growth data during the last school year demonstrates target growth levels being met in ELA and math at significant rates. Further, online program usage demonstrates improvements over time in terms of the topics showing proficiency and mastery across IXL, ALEKS, myON, Flocabulary, and more. In addition, MSA2 continues to meet and exceed the recommended benchmarks for a majority of IXL goals for student usage, teacher usage, and content mastery.

Goal 2.4: Designated and integrated ELD programs

- MSA2's data related to EL students shows tremendous growth for EL students with regard to their RFEP rates as well as their ELP progress indicator on the dashboard. These rates demonstrate that MSA2's EL students are reaching academic achievement goals related to language acquisition at substantially high rates. Also, MSA2 has 76 EL students, including 29 students who are dually identified as SPED students. That being said, we have added substantial academic support to our dually identified students by means of providing students with 2 additional paraprofessionals that were not originally in the budget and were hired based on additional funds related to the Covid-19 pandemic

Goal 2.5: Support for students with disabilities

By MSA2 utilizing more fiscal resources than initially budgeted to support our SPED students in the form of hiring several new SPED paraprofessionals as well as one additional SPED teacher, MSA2's SPED students were able to receive additional small group support to reduce learning loss experienced during the Covid-19 pandemic. The end of year results on the NWEA MAP in math and English as well as the Lexile growth as demonstrated through myON this year for SPED students demonstrates that these additional resources were effective in supporting our SPED student population.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 2.1: Broad course of study and standards-based curriculum

MSA2 plans on continuing to provide our broad variety of current online curriculum and supplemental resources for the coming school year, including ALEKS, IXL, myON, Flocabulary, McGraw Hill, Edhesive for AP Computer, and StudySync. In addition, we plan to acquire a new science curriculum which incorporates NGSS-aligned standards.

Goal 2.2: Professional development for high-quality instruction

MSA2 will also utilize funds from our Educator Effectiveness Block Grant over the next five instructional years to provide coaching and mentorship support to our instructors each year, as well as additional professional development programmatic support.

Goal 2.3: MTSS - Academic enrichment, intervention, and student support

- MSA2 plans to renew the Standard Plus online platform for the upcoming school year as a means to provide content-aligned assessments to MSA2 students in ELA and ELD courses.
- MSA2 will also incorporate an expansion of AP preparation programs to support student learning, including by renewing the ALBERT platform

Goal 2.4: Designated and integrated ELD programs

MSA2 plans on continuing to provide fiscal resources as a means of support for our designated and integrated ELD programs resources for the coming school year in alignment with our EL Master Plan, our Director of EL Programs from our home office and our ELAC committee to ensure that our EL students have the best opportunity to reclassify as fluent English proficient.

Goal 2.5: Support for students with disabilities

MSA2 plans to continue to employee during the upcoming school year the several new SPED paraprofessionals as well as new SPED teacher who were all added to the school's employee population during the current school year to help support our SPED student population and to reduce learning loss which took place during the Covid-19 pandemic.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard)	2018-19: 55.0%	2021 Dashboard CCI data is not available. 2021-22: (Projected as of 5/13/22) 53.7%			2021-22: 70.0%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	$124,939.00	Yes

Action #	Title	Description	Total Funds	Contributing
		and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities. The following expenditures will be funded by federal Title funds: N/A		
3.2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.	$4,491.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: supplemental science program fees. The following expenditures will be funded by federal Title funds: • Educational Software: Resource: Title I; Amount: $2,000 • Educational Software: Resource: Title IV, Part A ESEA (ESSA); Amount: $2,490		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds: N/A	$117,094.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: N/A	$232,054.00	Yes
3.5	Additional programs and activities that support well-rounded education	In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering,	$342,331.00	Yes

Action #	Title	Description	Total Funds	Contributing
		ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 3.1: College/Career readiness programs and activities

MSA2's College Counselor is incredibly involved in creating events related to financial aid preparedness as well as college and career readiness for all educational partners. In particular, each semester, MSA2's College Counselor plans events which entail bringing representatives from respective colleges and universities to speak with our students during the school day as well as during assemblies. Further, MSA2's College Counselor creates multiple college and career planning workshops as well as financial aid information night events for the full community in which parents and families of students are invited to attend to receive guidance and support related to this process. Moreover, MSA2's College Counselor schedules office hours in person each week in which she makes herself available to support students who are currently in the process of applying to colleges, universities, and trade schools to guide them through the detailed steps related to this important next step in our students' lives and educational journeys. During the Spring semester each year, MSA2's College Counselor organizes a college signing event which promotes all 12th grade students' plans for the upcoming school year in which the entire community is invited to celebrate students' futures. Beyond these incredible demonstrations of support to the entire community, MSA2's College Counselor also leads the process of creating and presenting information during high school student advisory courses related to the process to be college and career ready through the Naviance platform. Additionally, MSA2's College Counselor leads the process to promote and enroll students in the dual enrollment program at our school in which students as early as incoming 9th graders are invited to enroll in college courses with LA Valley College, Pierce College and Mission College. Furthermore, MSA2's College Counselor has also been a tremendous resource to the other counselors in the Magnolia Public Schools organization.

At Magnolia Science Academy-2, as of last school year, we had 86.6% free and reduced lunch eligible students, 85.8% Hispanic / Latinx, 15.1% students with disabilities, 13.1% English Learners.

As was stated in the previous response, MSA2's College Counselor is incredibly involved in creating events related to financial aid preparedness as well as college and career readiness for all educational partners. In particular, each semester, MSA2's College Counselor plans events which entail bringing representatives from respective colleges and universities to speak with our students during the school day as well as during assemblies. Further, MSA2's College Counselor creates multiple college and career planning workshops as well as financial aid information night events for the full community in which parents and families of students are invited to attend to receive guidance and support related to this process. Moreover, MSA2's College Counselor schedules office hours in person each week in which she makes herself available to support students who are currently in the process of applying to colleges, universities, and trade schools to guide them through the detailed steps related to this important next step in our students' lives and educational journeys. During the Spring semester each year, MSA2's College Counselor organizes a college signing event which promotes all 12th grade students' plans for the upcoming school year in which the entire community is invited to celebrate students' futures. Beyond these incredible demonstrations of support to the entire community, MSA2's College Counselor also leads the process of creating and presenting information during high school student advisory courses related to the process to be college and career ready through the Naviance platform. Additionally, MSA2's College Counselor leads the process to promote and enroll students in the dual enrollment program at our school in which students as early as incoming 9th graders are invited to enroll in college courses with LA Valley College, Pierce College and Mission College. Furthermore, MSA2's College Counselor has also been a tremendous resource to the other counselors in the Magnolia Public Schools organization. MSA2's College Counselor serves as the school's Advanced Placement Coordinator and meets regularly with high school students in partnership with the Dean of Academics and Assistant Principal to support students in ensuring they meet their A-G high school graduation requirements.

MSA2's College Counselor meets with each 12th grade student individually along with their parents to support them in applying for university, college and/or trade school admissions. In addition, MSA2's College Counselor ensures that each student is able to complete their FAFSA applications as well as their CADAA applications for eligible graduating students in order to have the best financial support resources for students of all demographic and socioeconomic backgrounds.

MSA2's College Counselor has been instrumental in increasing all of MSA2's high school guidance point indicators. MSA2's college preparedness data across a variety of measures has been historically competitive when compared with the rates across LAUSD, LACOE, and the State. In particular, MSA2 has outperformed the LAUSD, LACOE, and State data across nearly every category throughout the past three most recent academic years in terms of 4 year cohort graduation rates, rates of graduates meeting UC / CSU requirements, rate of graduates earning a seal of biliteracy, and percentage of graduates earning a Golden State Seal Merit Diploma.

Specifically, MSA2's most recent published data on the California Dashboard for the 2019-20 cohort graduation rate of 95.0% was higher than LAUSD's rate of 82.9%, and LACOE's rate of 82.2%, as well as the State rate of 84.3%. In addition, MSA2's most recent published data on the California Dashboard for the 2019-20 rates of graduates meeting UC / CSU requirements of 92.1% was higher than LAUSD's rate of 55.8%, and LACOE's rate of 53.6%, as well as the State rate of 50.9%. Moreover, MSA2's most recent published data on the California Dashboard for the 2019-20 rate of graduates earning a seal of biliteracy of 34.2% was higher than LAUSD's rate of 25.3%, and LACOE's rate of 26.5%, as well as the State rate of 26.6%.

Goal 3.2: STEAM and GATE programs

MSA2 has utilized funds related to this action in order to support the school's STEAM, GATE and advanced / honors student pathway. Subsequently, MSA2 has spent funds on providing additional resources in science classrooms, supplies which will be utilized during the STEAM Expo, supplies for student science experiments, after school STEAM club support, Saturday School STEAM activities.

Goal 3.3: Digital literacy and citizenship programs

This fiscal resource at MSA2 is utilized to provide the school's salary and benefit for the school's computer teacher who also serves as the assistant to the IT Manager. Further, upon the resignation of the IT Manager MSA2's computer teacher has been serving as the school's interim IT Manager in order to help the school resolve issues related to technology on the school site during the spring 2022 semester. Moreover, MSA2's computer teacher provides Robotics and Drone clubs after school as well where he works with students on VEX IQ and VEX EDR robotics as well as the RAD Drones program where students learn essential engineering and programming skills. The computer teacher holds both computer courses for middle school and high school students and assists our dean of academics with the administration of standardized assessments. Finally, our computer teacher supports the reparation and renovation of MSA2's Chromebook devices, including the process of ensuring the devices are able to function properly to support school testing programs. Beyond these expenses, this fiscal resource also provides for the purchase of select online educational software to support student learning.

Goal 3.4: Physical education, activity, and fitness

MSA2 utilizes this fiscal resources to provide the salary and benefits for the school's PE teacher who serves students in grades 6-8 in classes which meet a minimum of 3 days per week. Further, the PE teacher serves high school students in grades 9 and 10 in classes which meet 5 days per week who are not enrolled in other high school CIF sports elective PE classes with their coaches. In addition, our PE teacher serves on the school's PBIS committee as an Ambassador and works in collaboration with LACOE to receive additional training related to providing positive interventions and supports to MSA2's school community. Moreover, MSA2's PE teacher serves on the school's Reflection Committee and as a Discipline Coordinator who works with the school's student services department to provide intervention plans to students related to behavior incidents on campus to build student capacity for improved behavioral outcomes. Finally, this category provides fiscal resources to support our school's PE program in terms of purchasing additional classroom supplies needed for our school PE classes as well as to support our high school CIF sports classes which take place during the instructional school day as well as after school to provide additional resources to the students.

Goal 3.5: Additional programs and activities that support well-rounded education

MSA2 utilizes this area to provide additional programs and services to the students and school community which can support pupils in aspects which are not included under other action areas. In particular, this action serves in collaboration with MSA2's after school programs and services, which serves in conjunction with Think Together, which provides programming, supervision and services to MSA2 students after school each week day until 6:00pm as well as before school from 6:30am until the start of the school day. Another provision related to this goal is the offering by all MSA2 teachers to provide after school tutoring and clubs each week. Some of the clubs offered by MSA2

teachers after school to students include the STEAM club and the guitar club. The goal of these clubs is to provide engaging activities at MSA2 which extend beyond the regular school day to motivate students to attend school and create a positive school culture for students and families to interact with. Further, MSA2 MSA2 offers the Congressional Award Program for high school students where students are provided with opportunities to attend outdoor educational programs, complete volunteer service, set academic goals, and earn congressional awards with mentor teachers who work with the same group of students each year until high school graduation. Moreover, Think Together provides opportunities to students which includes drivers education program for high school students, mentoring programs for our middle school and high school students to work together in support of increased student outcomes. Moreover, MSA2 has utilized one-time funding during the Covid-19 pandemic to expand the provision of such programs and services, including expending Saturday School program offerings for learning loss mitigation, small group interventions outside of regular tutoring sessions, additional learning loss mitigation camps during winter break, Thanksgiving break, and more with the ELOG funds during the current 2021-22 academic year. Since MSA2's Think Together program is funded based upon enrollment and attendance numbers, there is no maximum capacity for student participation in these events and clubs as the program coordinators have the flexibility to hire new staff to support increased demand. Recently, MSA2's high school program received a grant to provide music recording equipment to students as well as to provide additional after hours activities to our students to create a Teen Center on campus. Further, our programs will be providing field trips to students during the spring 2022 semester as the first opportunity since the Covid-19 pandemic began to bring students off site for additional opportunities to engage them.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3.1: College/Career readiness programs and activities

MSA2 budgeted $114,388.53 to support college/career readiness programs and activities during the 2021-22 academic year, but by the end of the school year, MSA2 had spent nearly 100% of these fiscal resources at $112,679.43.

Goal 3.2: STEAM and GATE programs

MSA2 budgeted $4,490.00 to support STEAM and GATE programs during the 2021-22 academic year, and by the end of the school year, MSA2 spent 100% of these fiscal resources at $4,490.00.

Goal 3.3: Digital literacy and citizenship programs

MSA2 budgeted $108,642.15 to support digital literacy and citizenship programs during the 2021-22 academic year, and by the end of the school year, MSA2 spent nearly 100% of these fiscal resources at $108,191.14.

Goal 3.4: Physical education, activity, and fitness

MSA2 budgeted $111,541.10 to support physical education, activity, and fitness during the 2021-22 academic year, but by the end of the school year, MSA2 spent more than these allocated fiscal resources at $114,213.84.

Goal 3.5: Additional programs and activities that support well-rounded education

MSA2 budgeted $230,923.75 to support additional programs and activities that support well-rounded education during the 2021-22 academic year, but by the end of the school year, MSA2 spent more than these allocated fiscal resources at $264,789.66.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 3.1: College/Career readiness programs and activities

MSA2's data with regard to the school's college/career readiness programs and activities, including having historically competitive rates when compared with the rates across LAUSD, LACOE, and the State indicates that the specific actions have been effective in making progress toward this goal. In particular, MSA2 has outperformed the LAUSD, LACOE, and State data across nearly every category throughout the past three most recent academic years in terms of 4 year cohort graduation rates, rates of graduates meeting UC / CSU requirements, rate of graduates earning a seal of biliteracy, and percentage of graduates earning a Golden State Seal Merit Diploma.

Goal 3.2: STEAM and GATE programs

MSA2's success with regard to the school's STEAM and GATE programs, including having historically competitive programs over multiple consecutive years in VEX EDR and VEX IQ Robotics as well as in RAD Drones by qualifying for the US National Championship multiple years in a row and qualifying for the World Championships for the RAD Drones in Spring 2020, although the Covid-19 pandemic led to the World Championship tournament being cancelled. Despite these previous successes, MSA2 plans to bring back these programs during the upcoming school year after the Covid-19 pandemic has been less of a barrier to holding these tournaments and participating in such events.

Goal 3.3: Digital literacy and citizenship programs

MSA2's computer teacher was able to serve as the interim IT Manager while MSA2 was in the process of hiring a new IT Manager. MSA2 was able to hire a new IT Manager after our previous one resigned at end of the first semester. This position is shared with MSA7 50% in terms of time on campus and budget. The addition of the new IT Manager at MSA2 has enabled the computer teacher to refrain from needing to support IT Manager duties and has been therefore able to return to focusing exclusively on serving students in the computer classes, including AP Java Computer. MSA2 received an award during the past year from College Board related to having a successful rate of female students passing the AP Computer exam.

Goal 3.4: Physical education, activity, and fitness

MSA2's physical education and fitness programs have improved this year due to adding more opportunities for competitive sports after school. In particular, MSA2 rented One Generation on 78 dates this school year to support middle school and high school soccer for boys and girls as well as for flag football. Further, we rented the Hansen Dam for high school boys and girls cross country competitions and increased our budget to support these additional activities which support wellness outside of the general academic coursework.

Goal 3.5: Additional programs and activities that support well-rounded education

MSA2's additional programs and activities that support well-rounded education which have been supported with supplemental Covid funding from various sources have been effective in supporting student learning, as demonstrated by the MAP growth across math and English during the school year for general education, SPED and EL students through the additional support of such programs.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 3.1: College/Career readiness programs and activities

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's college/career readiness programs and activities.

Goal 3.2: STEAM and GATE programs

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's STEAM and GATE programs. Further, MSA2 plans to spend more funds during the upcoming school year to participate in the VEX IQ and VEX EDR robotics programs as well as in the RAD Drones program which we had done during previous school years prior to the Covid-19 pandemic and which will provide additional STEAM activities to

Goal 3.3: Digital literacy and citizenship programs

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's digital literacy and citizenship programs.

Goal 3.4: Physical education, activity, and fitness

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's Physical education, activity, and fitness. MSA2 has been accepted into the California Interscholastic Federation (CIF) high school sports league as a probationary member during the upcoming school year so we plan to provide increased fiscal resources to support this growing program to help students meet their physical education and fitness goals.

Goal 3.5: Additional programs and activities that support well-rounded education

MSA2 will utilize additional fiscal resources during the upcoming year to expand our before school program since MSA2 will be moving the start time for the school day to 9:00am Monday through Friday. This will provide an additional opportunity to collaborate with Think Together to provide expanded services and programs during the morning time.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other educational partners will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 4	2021-22: (As of 5/13/22) 4			2023-24: 4

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses. The following expenditures will be funded by federal Title funds: N/A		Yes
4.2	Building partnerships with families for student outcomes	Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff	$516,562.00	Yes

Action #	Title	Description	Total Funds	Contributing
		will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title funds: • Professional Services: Resource: Title I; Amount: $17,500 • Teacher Salary and Benefits: Resource: Title I; Amount: $9,485.60		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with	$448,242.00	Yes

Action #	Title	Description	Total Funds	Contributing
		valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students. The following expenditures will be funded by federal Title funds: • Instructional Materials and Supplies: Resource: Title I; Amount: $3,738 • Admin salary and benefits: Resource: Title I, Part A; Amount: $28,715.99		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: N/A	$2,200.00	Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.	$246,159.00	Yes

		Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 4.1: Seeking family input for decision making

MSA2 continues to hold periodic meetings to gather input from our families, including, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Along with ELAC, MSA2's committees provide for representation of at promise students (low income, English learners, foster youth, etc.). MSA2's feedback during SSC, ELAC and other meetings provide valuable input for the LCAP. MSA2 also holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, MSA2 continues to conduct parent surveys to seek feedback on school improvement.

Goal 4.2: Building partnerships with families for student outcomes

MSA-2 holds a variety of events, meetings and committees which provide significant opportunities for parent and family involvement in our school community decision-making process. In particular, this process is supported by our school's PACE Coordinator who hosts weekly Coffee with the Principal meetings on Fridays where topics of interest which are relevant to families are shared, including health and wellness, academic achievement, UC / CSU graduation requirements, and more. Further, MSA-2 hosts PTF, School Site Council (SSC), Title I meetings, ELAC meetings with parents as members of each committee who have the ability to vote upon important plans including the School Safety Plan, SPSA, and more. The families and parents are equal partners in the decision-making process where they are invited to share their feedback related to school budgetary and programmatic decisions which impact the quality of the education which their children receive at MSA-2.

Moreover, MSA-2 hosts events for parents and families, including Parent Bridge educational programs which provide support related and training to parents and families in areas including technology literacy and English language development. Beyond this, parents and family

members are invited to attend Parent College programs at MSA-2 where they receive information and support related to the necessary steps which they should take to best prepare their children to be successful in college and universities. MSA-2 administration and staff provide home visits to MSA-2 families each year where families are visited to provide their perspectives and feedback related to school programs which can best support their children. Also, our PTF program includes parent members who serve as volunteers to plan events, such as school dances, and cultural festivals including the Day of the Dead event.

MSA-2 is committed to continually growing and improving as an organization in order to best support the needs of all of our students. Because we are committed to the idea that we are most effective at growing in our ability to support our students when we make decisions based on all available data, including the observations of all educational partners, we have a variety of systems in place to ensure that staff, students and families have ample opportunities to participate in school planning processes through brainstorming and revision sessions in staff meetings, committee meetings, and a variety of student leadership groups and other forums. Home office leaders, including the CEO, CAO, COO,CXO, the Director of HR, and other chiefs, directors, and coordinators have made an effort to visit our campus and discuss MPS' broader vision with the staff. Teachers report that one of the major benefits of teaching at MSA-2 is the substantial professional autonomy that teachers are afforded to plan curriculum and instruction in ways that they, as professionals, know best meet the needs of their students.

MSA-2 implements numerous strategies and processes for the regular involvement of all educational partners in the learning and teaching of all students. As effective collaboration starts with effective communication, our school community chose an effective and dependable program called ParentSquare in order to reach our whole community for our major and minor communications. The program allows our school to send out mass communications to our communities through their preferred devices and their preferred languages. In addition to sending mass messages, teachers also are able to use this platform to communicate with students and parents easily.

MSA2 utilizes funds in this area to provide ParentSquare access to all stakeholders, provide Parent Education Bridge programs, pay for the salary as well as benefits of our Parent and Community Engagement (PACE) Coordinator, and other important resources. MSA2's additional expenditures included in this action include Infinite Campus SIS fees, SchoolMint software fees, home-visit compensation for MSA2 staff who visit students' homes, parent activity/event expenses, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits.

Goal 4.3: MTSS - PBIS and SEL support

MSA2 has continued to conduct our annually administered school experience surveys to students, parents, and staff during the Spring 2021 semester. Further, MSA2 utilized responses from last year's survey to guide our implementation of programs and services at the school site. MSA2 implements the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff analyzes survey results to identify greatest progress and needs in order to inform our next steps. MSA2 also implemented a Mental Health and Wellness (MHW) survey on Panorama which assessed students, parents/caregivers, and staff which was conducted in the Fall 2021. We

share the data of concerned students across stakeholder groups which include teachers, school administration, school psychologist, grade level coordinators, and parents in order to best support students who have demonstrated an SEL area of concern. In addition, students will take another SEL survey in the Spring 2022.

100% of MSA2 students continue to receive SEL instruction from the Zones of Regulation curriculum, which is taught by our Dean of Students / PBIS coach, other leadership members, and our ASB student government members, and is filmed to be viewed during homeroom and Advisory each week. This process supports all students, families, staff, and other stakeholders in having access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. In addition, this process supports stakeholders in feeling a sense of community and connectedness. Additionally, MSA2 continues to partner with LACOE to provide training for our school's PBIS program which was selected to receive a Bronze metal from the State of CA in 2021 for our school's PBIS program.

MSA2 uses fiscal resources from this category to receive professional development for the full school from LACOE's PBIS program. In addition, MSA2 has a full-time psychologist who provides mental health support to MSA2 students in need as well as ongoing support to students who have IEP's. Moreover, MSA2 refers students and families to Care Solace for outside mental health support as a partner organization. MSA2 also receives support from the MPS Director of SPED Services who also provides consultation as a clinical psychologist related to mental health and SEL matters impacting students and the school community.

MSA2 continues to hold meetings with the Academic MTSS Committee along with our Assistant Principal and Dean of Academics in order to discuss strategies and interventions which are necessary to support students. Further, MSA2 provides additional academic interventions based on the MTSS Academic Committee referrals including Saturday School programs, additional small group interventions, Learning Lab course placement, ongoing monitoring of student academic achievement via online resources including IXL for math and English, ALEKS for math, myON for reading and Lexile growth, Flocabulary across multiple subject areas to build capacity to answer higher order thinking skills. All such online programs are purchased with MSA2's budget to provide additional academic support resources to students, families and teachers. In addition, MSA2 monitors performance data from NWEA MAP assessment, IAB, and SBAC in order to provide targeted interventions and supports related to academic performance with the MTSS Academic Committee.

Goal 4.4: Annual stakeholder surveys

Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement.

Annual educational partner experience survey:

MPS uses the CORE DISTRICTS survey instrument developed by WestEd for the California Department of Education as our annual educational partner experience survey. The survey includes questions for school climate indicators which include the following four topics for students, families, and staff: Climate of Support for Academic Learning; Knowledge and Fairness of Discipline, Rules and Norms; Safety; Sense of Belonging (School Connectedness). As part of our MTSS efforts, school leadership, teachers, and support staff analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.

MSA2's expenditures associated with this action include Panorama Education survey fees.

Goal 4.5: Community outreach and partnerships

MSA2 provides various opportunities to our educational partners in the form of providing community outreach support and partnerships. Due to the Covid-19 pandemic, the need to provide additional outreach and partnership resources to our school community was necessary.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4.1: Seeking family input for decision making

MSA2 did not budget any funds to support seeking family input for decision making during the 2021-22 academic year.

Goal 4.2: Building partnerships with families for student outcomes

MSA2 budgeted $392,599.71 funds to support seeking family input for decision making during the 2021-22 academic year, but by the end of the school year, MSA2 had spent $351,492.28 of these fiscal resources. Despite not spending all of the budgeted resources related to this category, MSA2 received additional support from Think Together in providing support for building partnerships with families for student outcomes which did not have a fiscal impact on MSA2 since Think Together operates their own budget.

Goal 4.3: MTSS - PBIS and SEL support

MSA2 budgeted $206,098.99 funds to support MTSS - PBIS and SEL support during the 2021-22 academic year, but by the end of the school year, MSA2 had spent $297,836.99 of these fiscal resources. Due to the pandemic, MSA2 decided it was necessary to spend more than the budgeted amount of fiscal resourced in this category to support students overcome additional deficiencies and challenges.

Goal 4.4: Annual stakeholder surveys

MSA2 budgeted $2,200.00 funds to support annual stakeholder surveys during the 2021-22 academic year, and by the end of the school year, MSA2 had spent 100% of the $2,200.00 of budgeted fiscal resources.

Goal 4.5: Community outreach and partnerships

MSA2 provides various opportunities to our educational partners in the form of providing community outreach support and partnerships. Due to the Covid-19 pandemic, the need to provide additional outreach and partnership resources to our school community was necessary.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 4.1: Seeking family input for decision making

MSA2 utilized a variety of different opportunities to seek family input for decision making during the 2021-22 academic year. This effectiveness is evidenced in the the annual stakeholder survey results which demonstrate a high level of overall satisfaction from the family respondents related to the frequent incorporation of family members as decision makers at MSA2.

Goal 4.2: Building partnerships with families for student outcomes

MSA2 utilized a variety of different opportunities to build partnerships with families for student outcomes during the 2021-22 academic year. This effectiveness is evidenced in the the annual stakeholder survey results which demonstrate a high level of overall satisfaction from the family respondents related to the frequent incorporation of family members as decision makers at MSA2. In addition, this is evidenced by the NWEA MAP student growth in math and English for the general education population as well as for SPED and EL students during the current academic year as well as the significant Lexile growth in reading demonstrated through myON this year.

Goal 4.3: MTSS - PBIS and SEL support

MSA2 continued to partner with LACOE with the school's PBIS program for the 5th consecutive year to provide training and support to the school related to this important practice. Further, MSA2 was recommended to apply for the PBIS silver medal from the state of California in partnership with LACOE this year. In addition, MSA2 continued to provide weekly SEL lessons through video which were created by our Student Leadership and Dean of Students which integrate the Zones of Regulation curriculum this year.

Goal 4.4: Annual stakeholder surveys

MSA2 utilized the annual stakeholder survey which was effective in providing data during the 2021-22 school year from various educational partners related to various topics. In particular, for the topic of Climate of Support for Academic Learning, MSA2's students favorable rating is 80% during the 2021-22 academic year. This was a 2 percent decrease since the last academic year. The same topic for families during

the current school year showed a 98% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 95% for the same topic, which is down by 4 percent since the last academic year.

Despite the decreases across each educational partner for the topic of Climate of Support for Academic Learning in the 2021-22 academic year, these results are actually higher than the MPS average for each educational partner group and demonstrates that MSA2 continues to experience success in this topic. The slight decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic, including increased teacher absences during the 2021-22 academic year which were not preventable due to exposure to Covid-19, close contacts and symptoms during the Covid-19 pandemic.

For the topic of Knowledge and Fairness of Discipline, Rules and Norms, MSA2's students favorable rating is 67% during the 2021-22 academic year. This was a 9 percent decrease since the last academic year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 77% for the same topic, which is down by 16 percent since the last academic year.

Despite the decreases across each educational partner for the topic of Knowledge and Fairness of Discipline, Rules and Norms in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The decrease across each of the educational partners in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic.

In particular, some of the reasons behind this decrease in the staff category for Knowledge and Fairness of Discipline, Rules and Norms may be that during the previous school year, staff were able to work remotely for nearly the entire year, and the school day was shorter due to distance learning. Also, the need to focus on areas including classroom management last year was lower while students were on Zoom, since many negative behavioral issues which typically occurred in-person were not as easy to do for students. That being said, this year required teachers to return to a fully in-person school year as well as to return to a longer school day each day. These changes also require teachers to focus more on behavioral management techniques which last year they may not have needed to place as great of an emphasis on. These may be some of the reasons for the decrease in staff satisfaction rates this year, in addition to the other areas shared by staff members in their survey responses.

Also, this decrease in student rates this year for Knowledge and Fairness of Discipline, Rules and Norms may be impacted by the fact that during the last school year, students were able to spend the majority of their time at home on Zoom, and did not need to go to the school site, as well has did not need to stay in school for as long each school day. This increase in hours of the day which students are now required to be at school and in class may have impacted the decrease in student satisfaction rates during the current school year. During the current school year, MSA2 also continued to offer interventions and support including Saturday School, PBIS weekly house competitions, in-person counseling sessions, in-person support for college applications, after school tutoring and clubs, and support via online resources.

For the topic of Safety, MSA2's students favorable rating is 76% during the 2021-22 academic year. This was a 2 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel safer having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. The same topic for families during the current school year showed a 96% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 76% for the same topic, which is down by 18 percent since the last academic year.

Despite the decreases across two out of three of the educational partners for the topic of Safety in the 2021-22 academic year, these results are actually higher than the MPS average for nearly all of the educational partner groups and demonstrates that MSA2 continues to experience success in this topic. The larger decrease across the staff educational partners survey in this topic during the current academic year is attributed to the increased challenges that MSA2 faced in returning to in-person learning following during the Covid-19 pandemic. In particular, during distance learning, staff did not have to deal with issues of school safety during the distance learning while students were all isolated from each other. In addition, students were not able to interact with other students during the distance learning from the isolation in their homes, so the adjustment which students needed to experience when returning to in-person led to increased behavioral issues at school during the transition period. However, MSA2 has responded to this challenge during the 2021-22 academic year by hiring 1 additional SPED teacher, 3 additional SPED paraprofessionals, 3 additional administrative assistants in the students services department, 1 additional administrative assistant to support the academic department, and 1 additional full time security guard to provide additional supervision and support.

For the topic of Sense of Belonging (School Connectedness), MSA2's students favorable rating is 65% during the 2021-22 academic year. This was a 3 percent increase since the last academic year, which is a tremendous success for MSA2 to see that students actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did during distance learning last via Zoom last school year at their homes. This area is the greatest area of growth for the students for the topics when compared to the last school year. The same topic for families during the current school year showed a 97% favorable rating, which was down by 1 percent from the previous year. Finally, during the current academic year, MSA2's staff favorable rating is 92% for the same topic, which is an increase by 1 percent since the last academic year. This is a tremendous success for MSA2 to see that staff actually feel a greater sense of belonging and school connectedness having returned to MSA2 during the current academic year than they did working remotely during distance learning via Zoom last school year at their homes.

We are incredibly proud of all of our areas of growth and plan on continuing to focus on taking proactive steps to repeat and build upon these successes. We are also incredibly motivated to continue to work on addressing all of the areas of concern during the upcoming school year and continue to make MSA2 a better school for all educational partners across all categories through our ongoing collaborative approach.

Goal 4.5: Community outreach and partnerships

MSA2 continued to grow in its community partnerships with Think Together, which offered extended services during the school year to students with increased funding related to the Covid-19 pandemic. Further, MSA2 continued to provide college course enrollment opportunities to our high school students in partnership with LA Valley College, Pierce College and Mission College during the 2021-22 academic year. Further, MSA2 continues to partner with LACOE with the school's PBIS program.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 4.1: Seeking family input for decision making

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's process to seek family input for decision making.

Goal 4.2: Building partnerships with families for student outcomes

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's process to build partnerships with families for student outcomes.

Goal 4.3: MTSS - PBIS and SEL support

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward MTSS - PBIS and SEL support.

Goal 4.4: Annual stakeholder surveys

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward the annual stakeholder surveys.

Goal 4.5: Community outreach and partnerships

MSA2 plans to continue prioritizing the similar fiscal resources in the upcoming school year toward supporting the school's process to provide community outreach and partnerships.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
$1,672,588	$199,143.46

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
34.25%	0.00%	$0.00	34.25%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course material, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Similar to the current academic year, MSA2 will utilize the concentration grant add-on funds ($199,143.46) in the following manner:

MSA-2 is using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In particular, MSA-2 received $194,213 during the 2021-22 academic year from the concentration grant add-on funds.

The first form of MSA-2 utilizing these funds was in MSA-2 hiring an additional administrative assistant with these funds in the amount of approximately $60,000 per year including salary and benefits to support the provision of academic interventions. Since this staff member started during the Spring 2022 semester, the estimated expenses for salary and benefits for this position is $30,000 for the 2021-22 academic year.

The next form of MSA-2 utilizing these funds was in MSA-2 hiring an additional SPED paraprofessional with these funds in the amount of approximately $55,000 per year including salary and benefits to support the provision of academic interventions. Since this staff member started during the Spring 2022 semester, the estimated expenses for salary and benefits for this position is $22,500 for the 2021-22 academic year.

MSA-2 is also in the process of seeking to hire a new SPED teacher position during this academic year in with an estimated expense of $120,000 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $60,000 on this position for the current academic.

MSA-2 is also in the process of seeking to hire a new EL paraprofessional during this academic year in with an estimated expense of $60,000 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $30,000 on this position for the current academic.

MSA-2 is also in the process of seeking to hire a social worker during this academic year in with an estimated expense of $103,426 per year including salary and benefits. If this position is able to be hired during the Spring 2022 semester, MSA-2 anticipates that the school will spend an estimated amount of $51,713 on this position for the current academic.

MSA-2's plan is to expend the full $194,213 budgeted amount during the 2021-22 academic year from the concentration grant add-on funds. However, there is a possibility that not all positions will be able to be filled candidates who end up being hired during this time due to the conditions in the labor market within each respective position.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

  - Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

    c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

    d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

    e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: "A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP."

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

Prompt 2: "A summary of the feedback provided by specific educational partners."

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: "A description of the aspects of the LCAP that were influenced by specific input from educational partners."

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, "aspects" of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

2022-23 Local Control Accountability Plan for Magnolia Science Academy 2

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.

- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.

- **Desired Outcome for 2023**–**24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2022–23**. Leave blank until then.	Enter information in this box when completing the LCAP for **2023–24**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25**. Leave blank until then.	Enter information in this box when completing the LCAP for **2021–22** or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and

- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

> After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

> In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

> These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 *CCR* Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

    For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)

    o   This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services

    o   This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

    o   This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- 6. Estimated Actual LCFF Supplemental and Concentration Grants

    o   This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)

    o   This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions

  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)

  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

- 5. Total Planned Percentage of Improved Services (%)

  - This amount is the total of the Planned Percentage of Improved Services column

- 8. Total Estimated Actual Percentage of Improved Services (%)

  - This amount is the total of the Estimated Actual Percentage of Improved Services column

- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table
- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

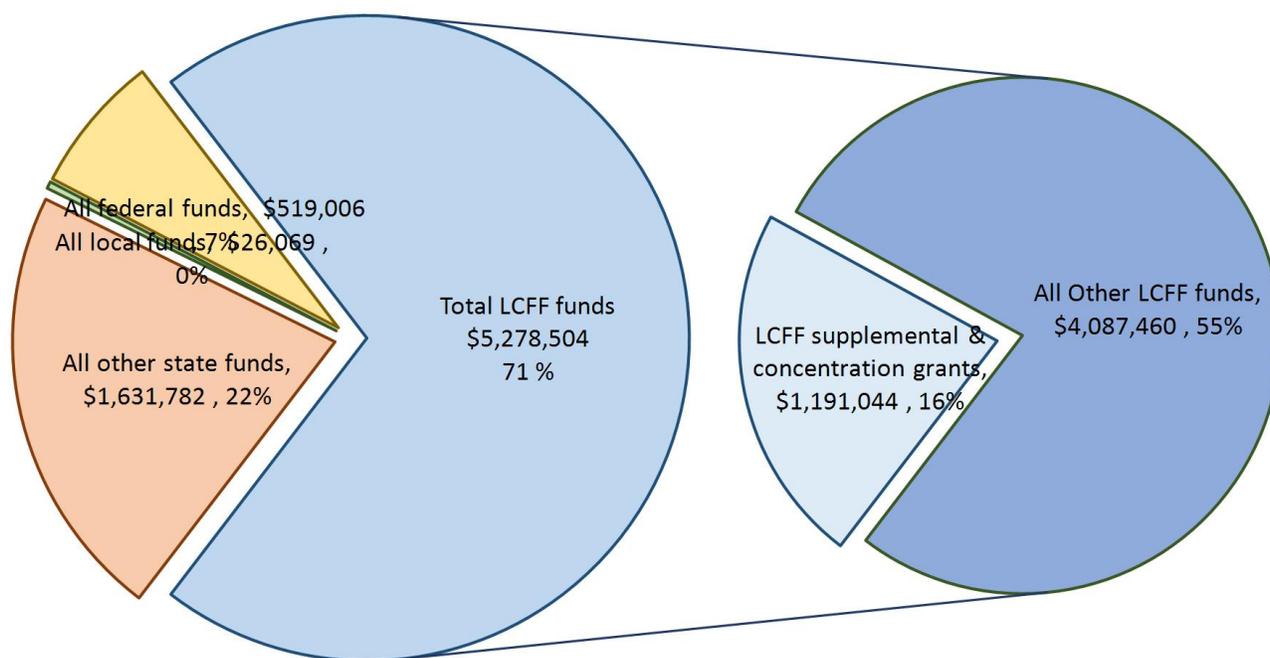
LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy-3
CDS Code: 19-10199-0115030
School Year: 2022-23
LEA contact information:
Zekeriya Ocel
Principal
zocel@magnoliapublicschools.org
(310) 637-3806

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

Projected Revenue by Fund Source

All federal funds, $519,006
All local funds 7% $26,069 , 0%
All other state funds, $1,631,782 , 22%
Total LCFF funds $5,278,504 71 %
LCFF supplemental & concentration grants, $1,191,044 , 16%
All Other LCFF funds, $4,087,460 , 55%


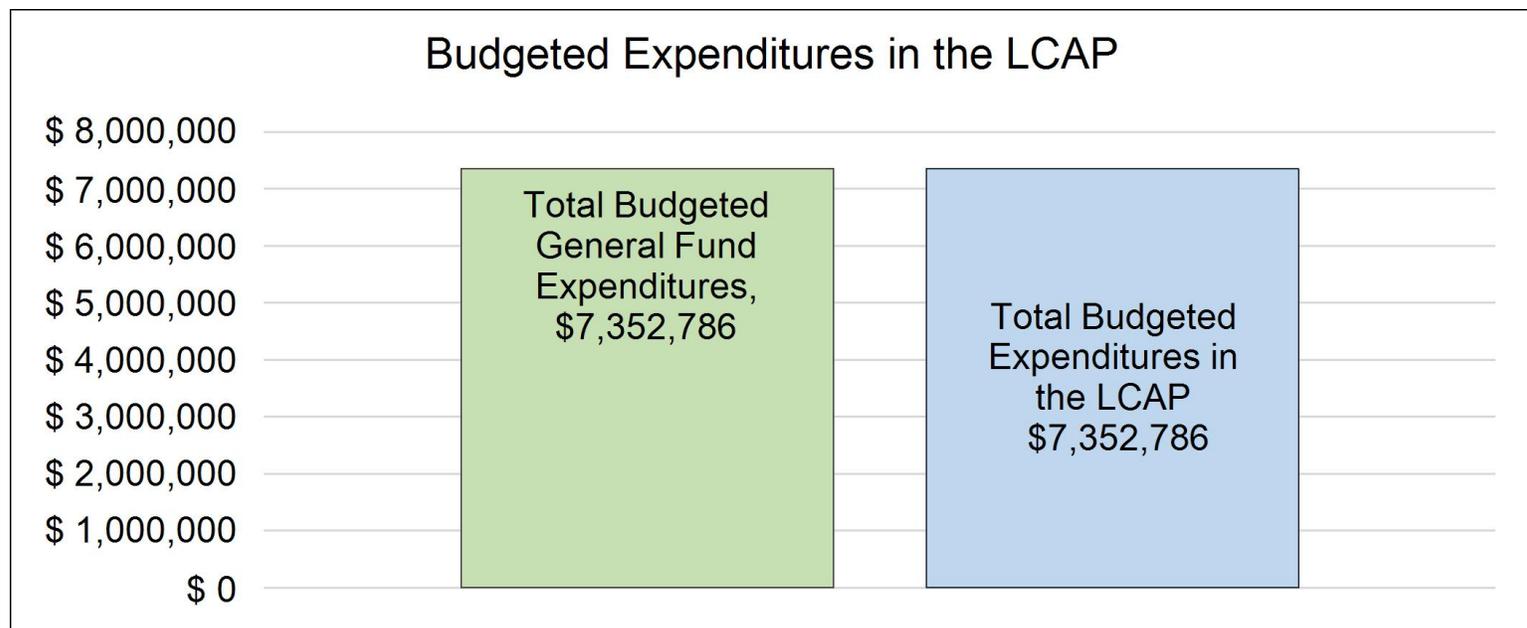
This chart shows the total general purpose revenue Magnolia Science Academy-3 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy-3 is $7,455,361, of which $5278504 is Local Control Funding Formula (LCFF), $1631782 is other state

funds, $26069 is local funds, and $519006 is federal funds. Of the $5278504 in LCFF Funds, $1191044 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP


This chart provides a quick summary of how much Magnolia Science Academy-3 plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

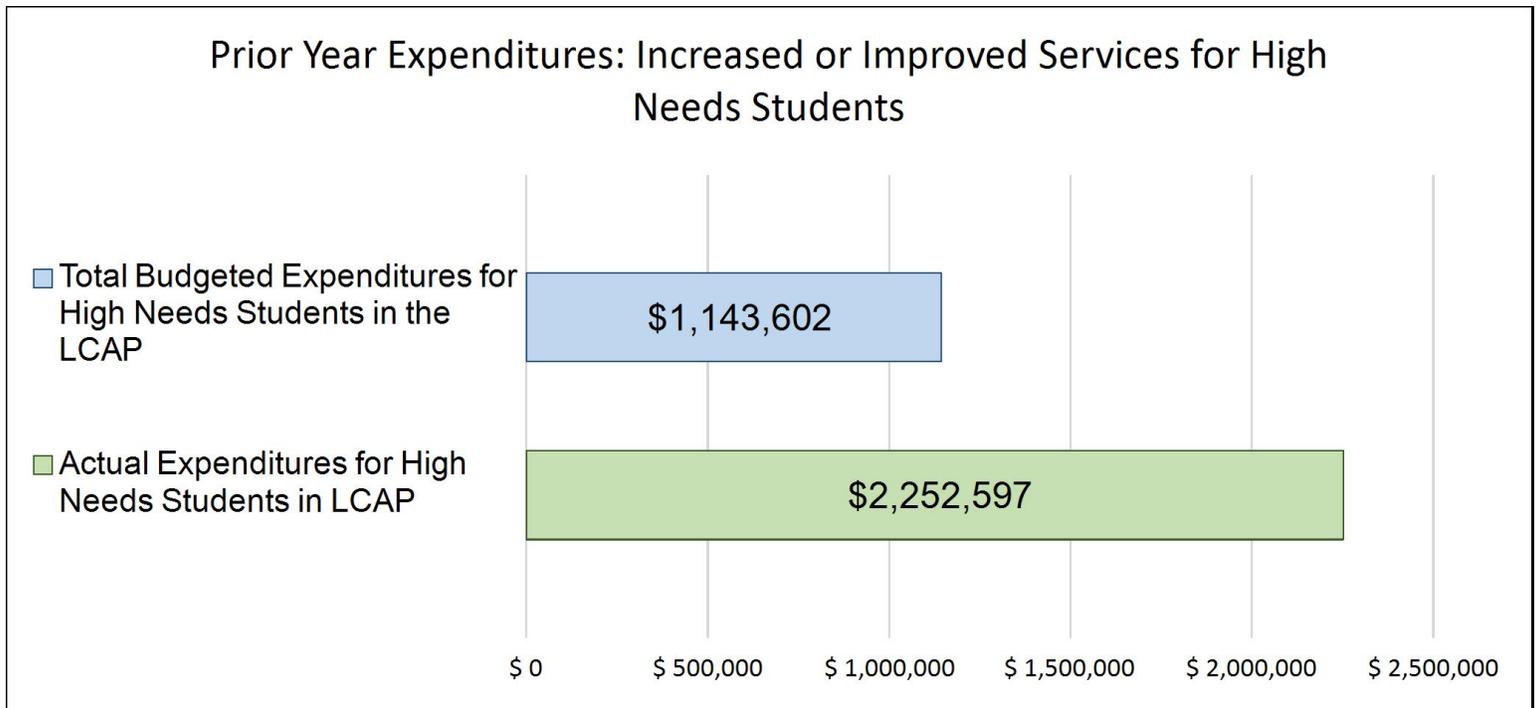
The text description of the above chart is as follows: Magnolia Science Academy-3 plans to spend $7,352,786 for the 2022-23 school year. Of that amount, $7,352,786 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, Magnolia Science Academy-3 is projecting it will receive $1191044 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy-3 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-3 plans to spend $1,168,280 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

Prior Year Expenditures: Increased or Improved Services for High Needs Students


This chart compares what Magnolia Science Academy-3 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-3 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Magnolia Science Academy-3's LCAP budgeted $$1,143,602.00 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-3 actually spent $$2,252,596.87 for actions to increase or improve services for high needs students in 2021-22.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Zekeriya Ocel Principal	zocel@magnoliapublicschools.org 310-637-3806

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

In terms of the engagement of the educational partners in the use of the funds from Educator Effectiveness Block Grant, MSA-3 has engaged with getting feedback from our staff via weekly staff meetings. In addition, MSA-3 administration engaged with MPS home office to get feedback on the trends in regards to retaining staff. In addition, MSA-3 administration has Coffee with Admin (Zoom with Admin) to get feedback from parents. Similar efforts will be taking place for the engagement purposes of the educational partners in the use of funds from A-G Completion Improvement Grant and Expanded Learning Opportunities Program in the upcoming weeks.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

Retention- We will use the grant to retain our staff. It has been extremely challenging to retain our staff due to the challenging conditions of teaching. Our school, MSA-3 have four open positions, and it has been a challenge to fill those positions up. In addition, our current staff are signaling the challenges current teaching conditions in terms of compensation, cost of living. Losing additional staff members will put us in a much more challenging situation to operate effectively. Retaining current staff is a priority to get the MSA-3 culture continue.

Some portion of additional fund will be used to cover the salary and benefits of Assistant Principal. Due to Covid, MSA-3 administration faced a challenge to handle the operational tasks. Thus, leadership org chart and responsibilities have been adjusted to re-delegate the tasks. One of the Deans will take the Assistant Principal role to have better relations with our parents and reach out to prospective parents.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

MSA-3 holds PAC (Parent Advisory Committee) and Staff meetings to inform the the school community. We present our data points in regards to student achievement and parents provide feedback in regards to progress we make or point areas of improvement. These meetings take place over the Zoom platform. In addition, MSA-3 seeks input from the parents/staff and students via school site council, surveys etc. Sessions including Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, which include student representatives, English Learner Advisory Committee (ELAC) meetings, Coffee with the Admin meetings, and staff meetings (admin, teachers, resource specialists, school psychologist, paraprofessionals) are the platforms to discuss the ESSER III plan for review and feedback. Parents on our PTF and SSC also serve as our parent advisory committee members, along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC is valuable input for the ESSER III.

Also, at the home office level, the feedback from Director of Special Education and Support Services, Director of Student Services, and all other department heads who work closely with students at MSA3 campus were welcomed and honored. Additionally, we invite feedback from public at large in our MPS Board meetings that are open to the public. We received feedback from MSA3 staff during our regular staff meeting, and we received feedback from parents, students, and community members during School Site Council meeting. Additionally, the families that speak languages other than English also attended all of our meetings. For those parents, we provided translation services. Also, we have had meetings held for English speaking and Spanish only speaking parents so that the information related to school issues were provided to those parents in their language.

All administrators: principals, deans of academics, deans of students, and college counselor met regularly to ensure that the funds for this plan are well utilized, sourced, and spent. Additionally, the paraprofessionals, teacher aides, outside duty supervisors, custodial staff, afterschool supervisors, and all other educators were involved in the preparation of this plan to make sure it will address the needs our our students. The tribes and civil right organizations are not represented in MSA3's community. Finally, the school held School Site Council (SSC) and English Learner Advisory Committee (ELAC) meetings where Individuals or advocates representing the interests of children with disabilities, English learners, homeless students,
foster youth (N/A), migratory students(N/A), children who are incarcerated (N/A), and other underserved students. We have had our ESSER III plan presented during a regular MPS Governing board meeting for public comment, as well as feedback from public at large. These all serve as a way to inform, educate, and gather input & feedback from all critical educational partners.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

Success: With the implementation of this plan, we were able to continue with the employment of our staff. This position is helping us maintain Covid-19 safety procedures like mask mandate, physical distancing where feasible.

In order to keep MSA-3 operating, ESSER III funds will be used to keep the core Science teacher employed. This action is supplementing the broad course of study and standards based curriculum action within LCAP.

Extended school year is helping our students to get additional learning time lost during the pandemic. Summer school and High Dosage tutoring are helping our students to get more time to focus on academics.

Challenges: Even if we have added some positions, teacher and staffing shortage is hitting us hard. For some of the positions like PACE coordinator, we are having a hard time finding a qualified candidate. Some candidates are seeking only online work environment or the salary offered is not satisfactory.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

ESSER III funds are aligned with our LCAP goals. For example hiring a campus supervisor supplements the Clean and Safe Facilities that support learning action within the LCAP. Hiring a new Science teacher and retaining our Multiple Subject teacher supplements the Broad course of study and standards based curriculum action within LCAP. Here is the list of actions that are aligned with our LCAP as well as our ELO grant plan.

Extended School Year
Summer School
High Dosage Tutoring
Hiring a campus Supervisor
Continuation of the employment of the office clerk
Hiring a PACE coordinator
Continuation of the employment of the Science Teacher
Continuation of the employment of the Multiple Subject Teacher

In terms of the usage of In-Person-Instruction Grants, MSA3 used those funds with certificated salaries, their benefits, and one time discretionary bonuses.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA's educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP

- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA's 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: "*A description of how and when the LEA engaged, or plans to engage, its* educational partners *on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).*"

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: "*A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.*"

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: "*A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are*

intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils."

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA's implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update."

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA's 2021–22 LCAP. For purposes of responding to this prompt, "applicable plans" include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Zekeriya Ocel Principal	zocel@magnoliapublicschools.org (310) 637-3806

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy -3 (MSA-3) was founded in the fall of 2008 as a public charter school in Gardena. Two years later, MSA-3 moved to the current space collocating with Curtis Middle in Carson, California, under proposition 39. Currently MSA-3 is serving 400 students from grades 6 through 12 and celebrates its nearly 100% high school graduation rates. Almost 70% of MSA-3 students qualify for a free and reduced lunch program.

Our students & parents come from a variety of locations: 45% are from the Carson, LA, Gardena area (LAUSD). This year 32% are from Compton area.

MSA-3 revolves around its STEAM and college-readiness environment built into our mission and vision statement. The school provides a college preparatory educational program that emphasizes science, technology, engineering, art, athletics and math. In addition to core subjects, MSA-3 offers a vast range of elective courses, including: science explorers, computer science, programming, digital arts, music, creative writing, athletic training and advanced math to name a few.

Each class integrates the use of chromebooks in the curriculum, through Google Classrooms as well as McGraw Hill online platforms such as Studysync. All curriculum is aligned to Common Core State Standards to ensure students are practicing skills in preparation for end-of-the-year Smarter Balanced Assessment Consortium (SBAC) exams. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

College/Career Readiness:
- 95% Cohort Graduation rate for the class of 2021, 98% of seniors filled out FAFSA for college financial aid, MSA-3 has College readiness course for seniors to plan career, college and future plans.
- Internal IAB (interim assessment blocks) and Spring MAP(NWEA) data shows growth compared to Fall NWEA MAP assessment.
- 98% of graduating class are meeting the A-G requirements. 44% of the seniors are graduating with Honors and 8% of seniors with an Advanced Diploma.

6% of all students are taking advanced Math classes.
MSA-3 partnered with LAVC (Los Angeles Valley College) for students to take college classes.

Academic Intervention:
- Power Math and Power English are offered, Saturday School, Virtual home visits are scheduled for lowest performing and mid-range students.

English curriculum includes StudySync and Illuminate standards based practice exams.
- In Math, Aleks is used to help allow students to build content skills.

- MyON to help students reading levels through dedicated SSR (Silent Sustained Reading).

All student Lexile improvement: 69 pts, Students w/IEP: 67 pts and EL students: 41 pts

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Orange in Academics: English SBAC is 36%, which is a 6% decrease from prior year. 17% met or exceeded the Math standards which is 3% lower compared to prior year. English and Math SBAC prep, Interim assessments happen regularly to check the progress.

We have 60% Hispanic and 40% African American students. Culture sensitivity and relevance trainings are needed for all staff. Students must be supported emotionally in order to impact their efforts academically. Need to increase the amount of African American students enrolled in AP courses. Our female students are outperforming their male counterparts in English and Math. Students w/IEP, and African American and EL students have a performance gap in Math and EL learners in English based on the latest SBAC data available (2019)

37% of students responded that they do see disrespectful situations at school. In order to address this, assemblies will be held that focus on different PBIS topics, including respect. With this topic, school-wide strategies of how to resolve conflicts positively can be provided to be emphasized across campus by all.

Based on Panaroma Educational Partner Survey, the following items are identified as needs:

Add sports teams (football, soccer, baseball)- A middle school flag football team has been added. For the 2022-2023 year assistant coaches will be added to each team.
Student bathrooms need more monitoring (servicing and vandalism)
Facility problem: not having enough rooms for every teacher
More activities/electives for students
Limited staff that speak Spanish
Student discipline, student consequences need to improve- More discipline training has been added to the PD's.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- The need to continue our improvements in designated/integrated English Learner services and focusing our effort on the lowest performing sub-groups.
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing counseling and positive behavior intervention support services to our students
- Keeping effective teachers and improving teacher observation and evaluation systems
- The Charter School has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close

performance gaps among student groups.

MSA-3 satisfaction rates remained similar to 2021 survey data in student and parent groups.
- 8% decline in saff satisfaction rates is related to facility issues and the challenges of teaching after in-person school post pandemic.

Facility is a constant issue for MSA-3. Being on Prop-39 facility limits the school's ability to assign a classroom to all teachers. Due to decline of MSA'3's enrollment at LAUSD vicinity, the number of classrooms/offices/special ed rooms MSA-3 received decreased from 20 to 17. This created a challenge for five teachers to travel from class to class. It was also a challenge to the host teacher. Host teacher had to welcome another class/teacher during his/her prep time.

In-person school during the pandemic created additional challenges to teaching. Teachers and support staff had to teach with masks and enforce mask mandates in the classroom. Weekly Covid testing and morning health check were additional tasks that staff had to carry on. However, MSA-3 received the highest rating in all areas excluding the 2021-22 Pandemic era distance learning ratings. Before the pandemic, satisfaction rates for students were around 60%. Family satisfaction survey was around 85% and the staff satisfaction rate was around 75%.

Three years average for in-person data for student satisfaction: 62% This year's data: 76

Three years average for in-person data for families: 84% This year's data: 96

Three years average for in-person data for staff: 77% This year's data: 87

When compared with similar in-person teaching settings, MSA-3 is well improved in all these three areas.

- Structured intervention programs were put in place with a new Title I Coach to identify targeted afternoon and saturday interventions.
- PBIS team coordinates monthly assemblies to recognize students for academic and attendance successes. Rewards are teacher-nominated.
- Hiring process is based on a team decision to ensure high-quality, highly skilled, team focused educators.
- MSA-3 admin had consistent parent meetings (Coffee/ 'Zoom" with the Admin) to inform families about distance learning and academic expectation, student outcome and data points.
- Admin and teachers held frequent virtual home visits(virtual) to not only inform parents about student grades, but to agree on action plan goals for improvement. Open communication is highly encouraged and parents do not have to wait until scheduled Parent-Teacher conference times.
- Daily attendance calls helped parents stay current on why a student has not attended the class. Problems resolved if it was a technical issue. Parents were contacted if the students needed chromebooks or hotspot devices. This helped all families to have access to instruction.
- Google form staff surveys were given quarterly to gauge internal staff satisfaction and to identify top teacher needs to address in staff meetings.
- Each week, teachers receive relevant professional development which helps them support their students in an efficient way.
- Distributed Leadership increased the ownership and autonomy of our admin team.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-3 has established a culture of gathering input from parents, students, staff, community members, and other educational partners through multiple channels including meetings, school events, surveys, virtual home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

MSA-3 experiences strong and consistent parent participation. All admin actively seek to respond to parent concerns and resolve issues directly at the site level.

MSA-3 held School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Board of Directors meetings, and staff meetings being held regularly. Parents on our SSC and ELAC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provides valuable input for the new LCAP.

In addition, the Charter School conducts regular surveys for parents, students, and staff to obtain critical feedback from stakeholders. These surveys are given regularly twice a year and contain in-depth categories of questioning to yield input on important school elements such as instruction, safety, climate, and more. Staff also conduct home visits as a way of deepening engagement, understanding, and support for families and students. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our educational partners. These include four Zoom with Admin meetings, two SSC meetings, two ELAC meetings, , weekly staff meetings, and other educational partner meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our educational partners participated in this survey. The Charter School staff has also made 60 virtual home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Educational partners mention that we need to add sports teams (football, soccer, baseball), more activities/electives for students
Our parents and students point out to the conditions of student bathrooms (dirty, vandalism)
Our staff has concern about the facilities; not having enough rooms for every teacher
Our parents and staff had a concern on limited staff that speak Spanish

Staff pointed out that student discipline, student consequences need to improve.

SELPA feedback: Follow up and more support for Special Education students
Improved collaboration between gen ed teachers and special education team including co-teaching model.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:
- MSA-3 admin will follow up with maintenance for facility improvements (especially bathrooms) Addressing teacher and staff attitude concerns.
- The dean of students will work on Tier 1, 2, 3 intervention strategies to make discipline procedures more clear to stakeholders.
- The dean of Academics will work with Resource teachers to ensure the support and services are closely monitored for Special Education students.
- The dean of students will work on Adding more elective & club options (ie. Business, Finance Literacy classes).
- The principal will work on Improving school communication with all parents.
- MSA-3 admin team will check on options to increase sports opportunities.
- MSA-3 admin will work with students who are falling behind to keep maintaining high academic and behavior standards for all students.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 83.0%	2021-22: (Spring 2021 to Fall 2021) 82%			2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.5%	2021-22: (As of 5/12/22) 95.8%			2023-24: 96.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	MSA-3 and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	$24,500.00	No

Action #	Title	Description	Total Funds	Contributing
		for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees. The following expenditures will be funded by federal Title funds: N/A		
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and	$420,530.00	No

Action #	Title	Description	Total Funds	Contributing
		other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: Technology Software Title IV: $909		
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by LAUSD custodial staff under Prop-39. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: facilities rent/acquisition cost, , maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A	$532,642.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, and refreshments. The following expenditures will be funded by federal Title funds: N/A	$12,000.00	No Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.	$918,951.00	No

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

1.1 Teacher assignment and credentials has a substantive difference compared to last year's planned expenditure. The reason behind this difference is to use some funds for staff retention. Due to Covid related measures, education industry is having difficulty retaining high quality teachers. MSA-3 used retention bonus to keep the staff.
1.3 Clean and safe facilities that support learning - This additional charge occurred due to over allocation fee for 20-21 and 21-22.
4.5 Community Outreach and Partnership- MSA-3 increased its outreach efforts with participating in enrollment events at the local level.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

1.1 Teacher assignment and credentials has a substantive difference compared to last year's planned expenditure. The reason behind this difference is to use some funds for staff retention. Due to Covid related measures, education industry is having difficulty retaining high quality teachers. MSA-3 used retention bonus to keep the staff.
1.3 Clean and safe facilities that support learning - This additional charge occurred due to over allocation fee for 20-21 and 21-22.
4.5 Community Outreach and Partnership- MSA-3 increased its outreach efforts with participating in enrollment events at the local level.

An explanation of how effective the specific actions were in making progress toward the goal.

1.1 Teacher assignment and credentials has a substantive difference compared to last year's planned expenditure. MSA-3 was able to see the positive impact of this move. We have a retention goal of 80% and this bonus helped keep the staff morale high.
1.3 Clean and safe facilities that support learning - In order for MSA-3 to maintain its Prop-39 status, we have to pay our dues to have access to classrooms and facilities. By paying our dues, we are not in conflict with LAUSD.

4.5 Community Outreach and Partnership- Compared to last year, we are having more parents are interested in our school. We have had 75 new applications. 42 of them completed all the processes and ready to start next school year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 Teacher assignment and credentials : MSA-3 improved its base salary, so we did not add any discretionary bonus for next school year.
1.3 Clean and safe facilities that support learning - Since MSA-3 paid in advance of overallocation fee for this year, we don't anticipate new charges.
4.5 Community Outreach and Partnership-   MSA-3 admin increased the budget for Community Outreach and Partnership as this item stands out to be important to attract new students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 85%	2021-22: (As of 5/13/22) 90%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	$1,809,626.00	No

Action #	Title	Description	Total Funds	Contributing
		supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal Title funds: $41.207		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following:	$41,021.00	Yes

Action #	Title	Description	Total Funds	Contributing
		professional development, tuition reimbursement, and TeachBoost software fees. The following expenditures will be funded by federal Title funds: • Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: $17,755		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL,MyON, BrainPOP, Flocabulary, Nearpod, and myON.)	$659,508.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: • Title 1 Coordinator Salary and Benefits Resource: Title I, Part A; Amount: $102,040 • Educational Software Resource: Title IV, part A: $2.817 • Educational Software Resource: Title I: $26,383		
2.4	Designated and integrated ELD programs	Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend,	$196,501.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A	$829,677.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2.2 Professional Development for high-quality instruction- we could not spend around 30% of what has been planned
2.3 MTSS - Academic enrichment, intervention, and student support- this worked well to identify the students, direct them to the services and follow up.
2.4 Designated and integrated ELD programs- Our ELD coordinator follow up closely with our students to master English. Initial test results show that four of our students made the cut score to be designated as RFEP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2.2 Professional Development for high-quality instruction- We had partnered with a vendor to deliver PD on Writing across the curriculum, however due to Covid limitations, we had to cancel most of the PDs.

An explanation of how effective the specific actions were in making progress toward the goal.

2.2 Professional Development for high-quality instruction- Covid restrictions were coming from LAUSD and it was making it hard to deliver the content via Zoom or with mask.
2.5 Support for students with disabilities. Our special ed department was able to follow up IEPs effectively on time and provided services in our push-in model.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

2.2- Professional development for high-quality instruction MSA-3 will not work with the same vendor due to not getting the service the prior year. Instead, we will reach out to vendors that are more readily available.
2.2 Professional development for high-quality instruction - We will allocate a little more into this as we have more new teachers and these new teachers require induction program coverage.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.
It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard)	2018-19: 38.2%	2021 Dashboard CCI data is not available. 2021-22: (Projected as of 5/13/22) 58%			2021-22: 60.0%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	$129,840.00	Yes

Action #	Title	Description	Total Funds	Contributing
		and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, AP exam fees, AP course materials, and other college-related materials and activities. The following expenditures will be funded by federal Title funds: Educational Software: Title I : Amount: $2,946 AP Exam College Board Resource: Title IV Part A; Amount: $3,000		
3.2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.		Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: supplemental science program fees. The following expenditures will be funded by federal Title funds: N/A		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds: N/A	$98,787.00	Yes
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to	$179,188.00	Yes

Action #	Title	Description	Total Funds	Contributing
		engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: Title IV, Part A: PE teacher salary benefits: Amount: $9056		
3.5	Additional programs and activities that support well-rounded education	In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.	$403,565.00	Yes

2022-23 Local Control Accountability Plan for Magnolia Science Academy-3

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

3.1- College/Career readiness programs and activities. MSA-3 is proud with its college and career services. We have had two part time college counselors to provide support to our students during their preparation for the college application and financial aid.
3.4- Physical education, activity, and fitness - Having a PE teacher at school helps our students to relax and be physically active. This helped in return in their other subjects by keeping their focus well.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In all areas in these goals, MSA-3 did not have any substantive difference between budgeted expenditure and estimated actual expenditure.

An explanation of how effective the specific actions were in making progress toward the goal.

College and career services were transition our students from secondary education to higher education.
Our elective offerings give students an option to show their skills in an area they want to excel their skills.
Field trips played a huge role this year for students to connect with the outside world. We have taken each grade level to a STEAM related field trips. Discovery Cube, Knots Physics Day, California Science Center to name a few.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will increase our funding for field trips as we have more extracurricular clubs and CIF teams.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees. The following expenditures will be funded by federal Title funds: N/A		Yes
4.2	Building partnerships with families for student outcomes	Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to	$212,460.00	Yes

Action #	Title	Description	Total Funds	Contributing
		discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title funds: • Stipends for home visits: Resource: Title I, Part A; Amount: $13,886 Parent Square, Resouce: Title1 Part B: Amount: $2,100		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill	$742,305.00	Yes

Action #	Title	Description	Total Funds	Contributing
		development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students. The following expenditures will be funded by federal Title funds: • Additional services for homeless students: Resource: Title I, Part A; Amount: $3,896		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual stakeholder surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: N/A	$1,600.00	Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.	$140,085.00	Yes

2022-23 Local Control Accountability Plan for Magnolia Science Academy-3

		The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

4.5 Community Outreach and Partnership- MSA-3 increased its outreach efforts with participating in enrollment events at the local level.
WASC visit allows our school to be checked in many areas like Curriculum, Assessment, Instruction, Culture. This allows us to get valuable feedback from the knowledgeable staff from other schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

4.5 Community Outreach and Partnership- MSA-3 increased its outreach efforts with participating in enrollment events at the local level.
Due to enrollment decline, we increased our efforts to advertise more .

An explanation of how effective the specific actions were in making progress toward the goal.

4.5 Community Outreach and Partnership- Compared to last year, we are having more parents are interested in our school. We have had 75 new applications. 42 of them completed all the processes and ready to start next school year.
Annual stakeholder (educational partner) survey provides us valuable insights about how parents, students and staff perceive the school and opportunities we offer.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

4.5 Community Outreach and Partnership-   MSA-3 admin increased the budget for Community Outreach and Partnership as this item stands out to be important to attract new students.
Next year, we will allocate a little more funding to homevisits, Saturday schools to reach out the students who need support for academic and SEL.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
$1,191,044	$130,839.46

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
29.62%	0.00%	$0.00	29.62%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Similar to the 2021-22 Academic year, MSA-3 will be spending the concentration add-on grants funds for the following two items.

Retention- We will use the grant to retain our staff. It has been extremely challenging to retain our staff due to the challenging conditions of teaching. Our school, MSA-3 have four open positions, and it has been a challenge to fill those positions up. In addition, our current staff are signaling the challenges current teaching conditions in terms of compensation, cost of living. Losing additional staff members will put us in a much more challenging situation to operate effectively. Retaining current staff is a priority to get the MSA-3 culture continue.

Some portion of additional fund will be used to cover the salary and benefits of Assistant Principal. Due to Covid, MSA-3 administration faced a challenge to handle the operational tasks. Thus, leadership org chart and responsibilities have been adjusted to re-delegate the tasks. One of the Deans will take the Assistant Principal role to have better relations with our parents and reach out to prospective parents.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of certificated staff providing direct services to students

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary
Purpose

2022-23 Local Control Accountability Plan for Magnolia Science Academy-3

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: "A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP."

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

Prompt 2: "A summary of the feedback provided by specific educational partners."

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: "A description of the aspects of the LCAP that were influenced by specific input from educational partners."

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, "aspects" of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)
Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal
Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal
Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals
In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.

- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.

- **Desired Outcome for 2023**–**24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2022–23**. Leave blank until then.	Enter information in this box when completing the LCAP for **2023–24**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25**. Leave blank until then.	Enter information in this box when completing the LCAP for **2021–22** or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

> *Actions for English Learners:* School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

> *Actions for Foster Youth*: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

2022-23 Local Control Accountability Plan for Magnolia Science Academy-3

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and

- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

> After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

> In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

> These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 *CCR* Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)

  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services

  - This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- 6. Estimated Actual LCFF Supplemental and Concentration Grants

  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)

  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions

  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)

  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

- 5. Total Planned Percentage of Improved Services (%)

  - This amount is the total of the Planned Percentage of Improved Services column

- 8. Total Estimated Actual Percentage of Improved Services (%)

  - This amount is the total of the Estimated Actual Percentage of Improved Services column

- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)

    - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

LCFF Budget Overview for Parents

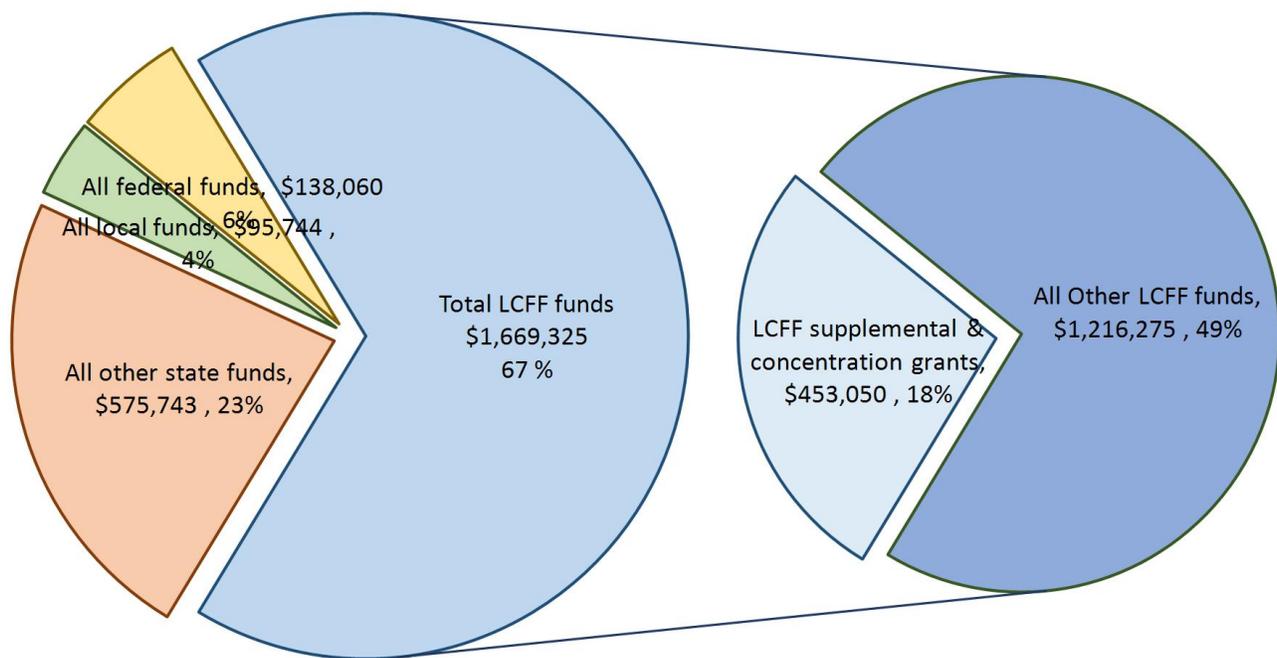
Local Educational Agency (LEA) Name: Magnolia Science Academy-4
CDS Code: 19-64733-0117622
School Year: 2022-23
LEA contact information:
Musa Avsar
Principal
mavsar@magnoliapublicschools.org
(310) 473-2464

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

Projected Revenue by Fund Source

All federal funds, $138,060 6%
All local funds, $95,744 , 4%
All other state funds, $575,743 , 23%
Total LCFF funds $1,669,325 67 %

LCFF supplemental & concentration grants, $453,050 , 18%
All Other LCFF funds, $1,216,275 , 49%


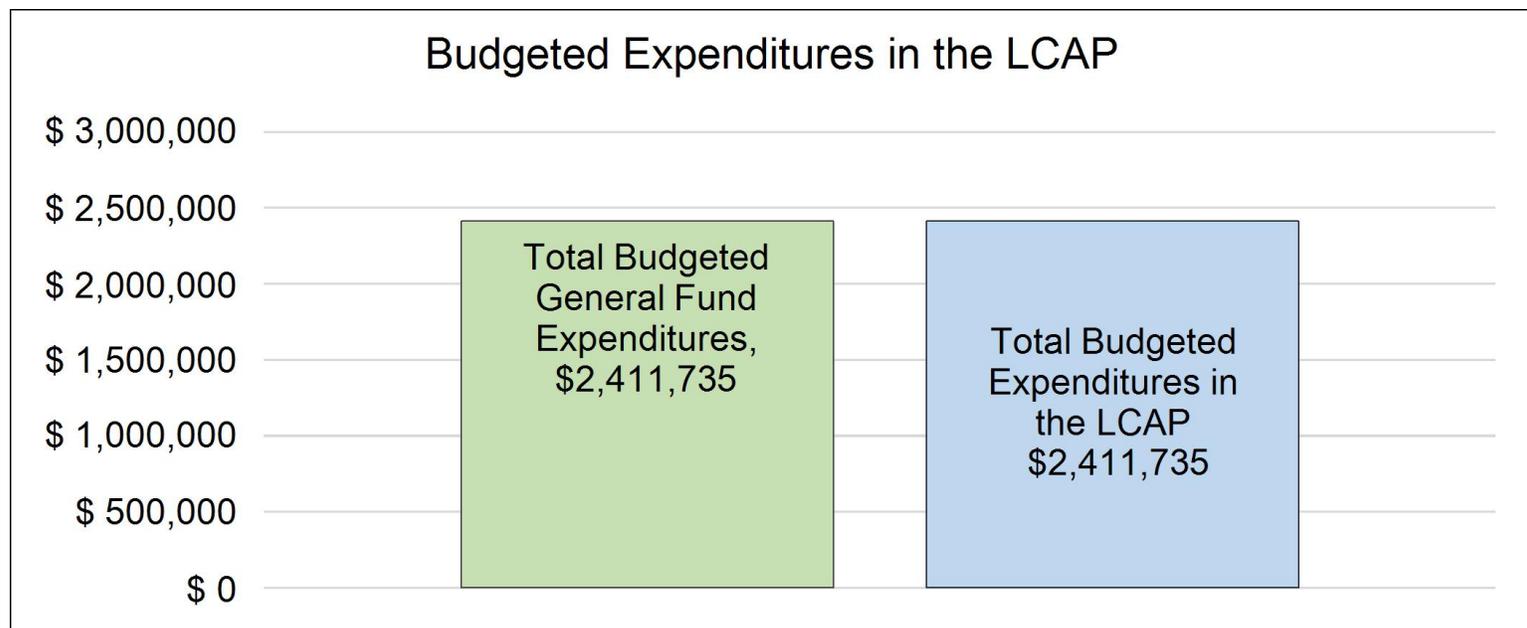
This chart shows the total general purpose revenue Magnolia Science Academy-4 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy-4 is $2,478,872, of which $1669325 is Local Control Funding Formula (LCFF), $575743 is other state

funds, $95744 is local funds, and $138060 is federal funds. Of the $1669325 in LCFF Funds, $453050 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP


This chart provides a quick summary of how much Magnolia Science Academy-4 plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Magnolia Science Academy-4 plans to spend $2,411,735 for the 2022-23 school year. Of that amount, $2,411,735 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

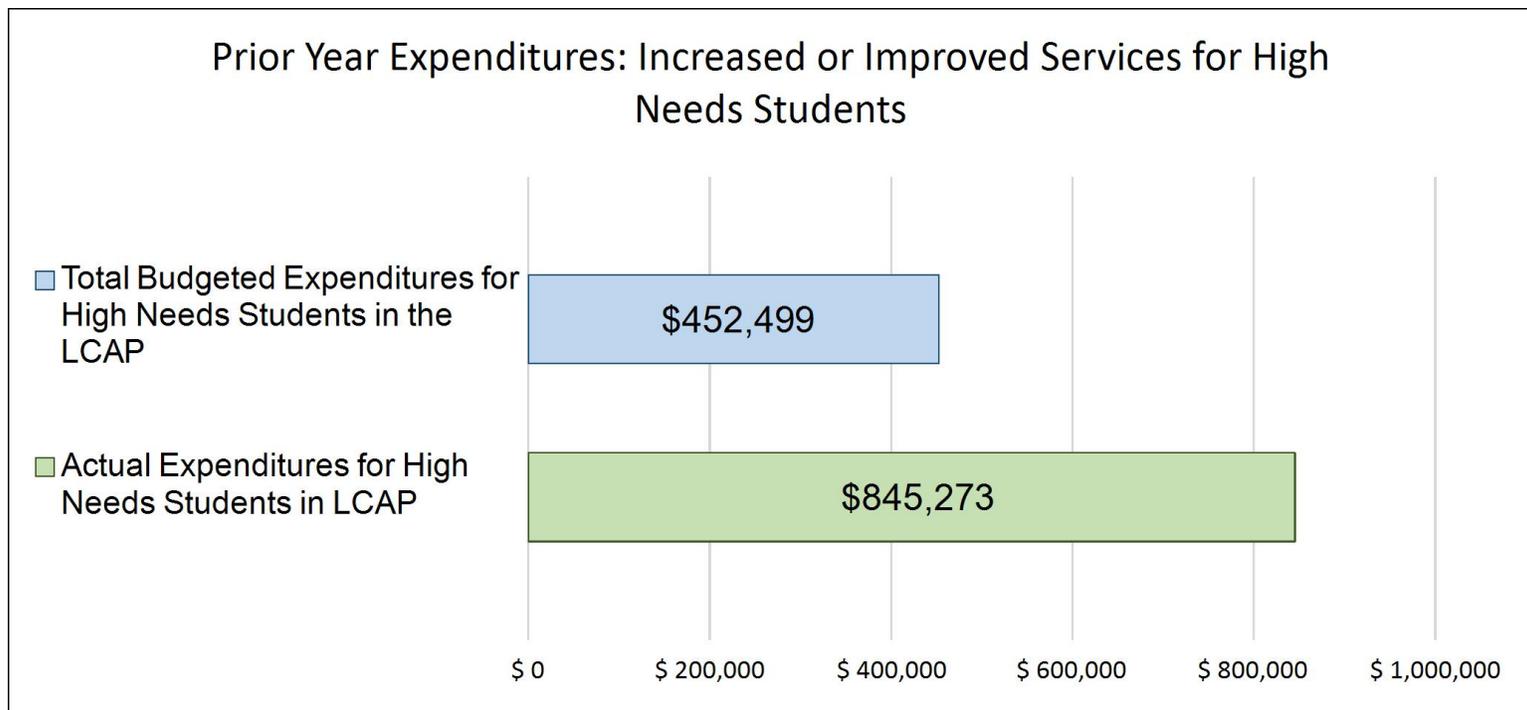
In 2022-23, Magnolia Science Academy-4 is projecting it will receive $453050 based on the enrollment of foster youth, English learner, and low-income students. Magnolia Science Academy-4 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-4 plans to spend $405,063 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

Prior Year Expenditures: Increased or Improved Services for High Needs Students

☐ Total Budgeted Expenditures for High Needs Students in the LCAP	$452,499
☐ Actual Expenditures for High Needs Students in LCAP	$845,273

$ 0 $ 200,000 $ 400,000 $ 600,000 $ 800,000 $ 1,000,000


This chart compares what Magnolia Science Academy-4 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-4 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Magnolia Science Academy-4's LCAP budgeted $$452,498.92 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-4 actually spent $$845,273.21 for actions to increase or improve services for high needs students in 2021-22.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Musa Avsar Principal	mavsar@magnoliapublicschools.org 310-473-6424

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

MSA-4 has noted the engagement of all educational partners in the 2021-2022 LCAP, which took place throughout the 2020-21 school year. Additionally, we had the opportunity to expand our community engagement efforts in several ways during the 2021-2022 school year. MSA-4 has received feedback from the faculty and other educational partners for the ESSER III, ELOG, Educator Effectiveness Block Grant, A-G Completion Improvement Grant (in the upcoming weeks), and Expanded Learning Opportunities Program (in the upcoming weeks) during the 2021-22 school year. MSA-4 regularly meets and receives feedback from the educational partners during the following meetings:

- School Site Council (SSC) Meetings (SSC)
- Parent Task Force (PTF) Meetings
- English Learner Advisory Committee (ELAC) Meetings
- Admin Meetings
- Weekly Faculty Meetings
- Leadership Meetings

MSA-4 will continue to communicate with all educational partners and seek feedback regarding additional funds related to MSA-4's LCAP goals.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

To keep high-quality education at Magnolia Science Academy 4, we plan on using our concentration grant add-on to help with retention bonuses at the end of the school year. This year and the past year, there has been a shortage of teachers, and we would like our teachers to stay with our school for as long as possible. They have been doing an excellent job ensuring that our students are well taken care of and getting them ready for the upcoming school year's curriculum.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

Stakeholder collaboration has been a top priority for Magnolia Science Academy-4. We host regular meetings with educational partners to ensure voices are heard and incorporated in the development of our schoolwide action plan/LCAP. In an effort to engage all educational partners in the review of the student data and the development of the school-wide action plan, collaborative meetings have taken place regularly to involve stakeholders in the development of the schoolwide action plan/LCAP, and those meetings include but are not limited to Town Hall meetings, Parent Task Force meetings, School Site Council meetings, Department meetings, Grade Level Meetings, and Coffee with the Principal meetings.

MSA-4 has provided many community engagement opportunities during the 2020-2021 school year to gather feedback to inform the development of the Expanded Learning Opportunities Grant Plan (ELOG) and the Local Control Accountability Plan (LCAP). The feedback that we received for the ELOG and LCAP is used in the development of this ESSER III expenditure plan. In addition, we received feedback from MSA-4 staff (which includes administrators, teachers, resource specialists, office personnel, and paraprofessionals) during our regular weekly staff meeting (on 10/13/2021) and we received feedback from staff, parents, and community members during our School Site Council and Annual Title 1 meeting (on October 20). The draft of the plan was presented to our parents in the monthly Parent Task Force (PTF) meeting and parents were asked to provide feedback pertaining to the use of ESSER III funds. We also received feedback from our students via annual surveys that show the challenges, needs, and successes of the school from the lens of our students. Additionally, the families that speak languages other than English also attended all of our meetings. For those parents, we provided translation services. Also, we have had meetings held for English-speaking and Spanish only speaking parents so that the information related to school issues was provided to those parents in their language.

All administrators: principals, deans of academics, deans of students, and college counselors met regularly in the home office to ensure that the funds for this plan are well utilized, sourced, and spent. Additionally, the paraprofessionals, teacher aides, outside duty supervisors, custodial staff, afterschool supervisors, and all other educators were involved in the preparation of this plan to make sure it will address the needs of our students. In terms of special education administrators, The Director of Special Education and Support Services for the MPS has

been involved in the planning phase of MSA-4's ESSER III plan. The tribes and civil rights organizations including disability rights organizations are not represented in MSA-4's community. Finally, the school held School Site Council (SSC) and English Learner Advisory Committee (ELAC) meetings where Individuals or advocates representing the interests of children with disabilities, English learners, homeless students, foster youth (N/A), migratory students(N/A), children who are incarcerated (N/A), and other underserved students. Also, at the home office level, the feedback from the Director of Special Education and Support Services, Director of Student Services, and all other department heads who work closely with the students at the MSA-4 campus were welcomed and honored. In order to address the public at large, we have had our ESSER III plan presented during a regular MPS Governing board meeting for public comment, as well.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

Esser III funds:

Successes:
1. We offer summer school in July 2021 to mitigate the learning loss. MSA-4 teachers provided academic enrichment and credit recovery courses.
2. MSA-4 extended the school year
3. MSA-4 extended the school year by five days and used the funds to cover the additional salary and benefits of the faculty.
4. We used the funds to expand staffing to meet the needs of our students. We used the funds to cover the salaries of two certificated staff and one classified staff.

Challenges
1. Not many students attended the entire summer school sessions.
2. Starting the school year earlier caused MSA-4 to have shorter summer in-service time for professional development.
3. It took longer to fill some of the vacant positions.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

MSA-4's current year-to-date funding (2/2/2022) for In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan:

In-Person Instruction and Continuity of Services Plan

1.Certificated Salaries: $2,819
2.Employee Benefits: $517

Total Expense: $3,336

ESSER III

1. Certificated Salaries: $54,900
2. Classified Salaries: $35,246
3. Employee Benefits: $20,572

Total Expense: $110,718

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs

to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA's educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA's 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: "*A description of how and when the LEA engaged, or plans to engage, its* educational partners *on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).*"

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: "*A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff*

who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent."

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: "*A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.*"

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA's implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update."

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA's 2021–22 LCAP. For purposes of responding to this prompt, "applicable plans" include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Musa Avsar Principal	mavsar@magnoliapublicschools.org (310) 473-2464

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy 4 (MSA-4) is a STEAM-focused state-authorized charter school in Los Angeles, CA, serving students in grades 9-12. MPS opened Magnolia Science Academy 4 (MSA-4) in the fall of 2008. MSA-4 operates as a site based school that is designed to meet the needs of the students within the boundaries of Los Angeles Unified School District (LAUSD), the school has achieved an increasing trend of academic success and demonstrated organizational and financial stability. The Board of MPS consistently strives to ensure that MSA-4 offers a successful educational model with fidelity.

Magnolia Public Schools (MPS) formerly known as the Magnolia Educational & Research Foundation, is a non-profit organization established in 1997. The founders, a group of active community members and educators in Southern California, aspired to improve educational opportunities in underserved communities. The vision of the Foundation was to inspire students to pursue career paths in science, mathematics, and technology.

In 1998, MPS began organizing volunteer tutors for middle and high schools in math, science, and technology through their partnerships with local universities in Southern California. In 1999, it organized and implemented a joint program with the Culver City Unified School District to provide tutoring for students throughout the city and later expanded the program to include the San Fernando Valley. These programs resulted in a collaborative effort with school districts to develop partnerships to support educational initiatives. In the fall of 2002, MPS established its first charter school, Magnolia Science Academy -1 Reseda (MSA 1) in the San Fernando Valley. Since then, MPS has established or acquired eleven successful charter schools throughout California that provide innovative and high-quality STEAM education, predominately serving low-income neighborhoods.

MSA-4 strives to provide its students with a rigorous, Common Core Standards-based educational program within a culture that embraces diversity and innovation. Classroom instruction at MSA-4 is supplemented by tutoring, peer mentoring, after-school programs, and school-to-university connections. Most recently, our school joined the California Interscholastic Federation (CIF), providing students the opportunity to

be involved with sports to maintain a healthy balance between academics and physical health. MSA-4 has created a supportive and caring environment with small classes with a strong student, parent, and teacher communication, improving students' knowledge and skills in core subjects. This approach aims at increasing students' objective and critical thinking skills and their chances of success in higher education settings and beyond. The school provides students with a comprehensive educational program that cultivates multiple opportunities for students to develop into successful contributing members of society and, therefore, fulfills the intent of the California Charter Schools Act.

Our Mission
Magnolia Public Schools provides a safe and nurturing community using a whole-child approach to provide a high-quality, college preparatory STEAM educational experience in an environment that cultivates respect for self and others.

Our Vision
Graduates of Magnolia Public Schools commit to building a more peaceful and inclusive global society by transforming traditional ideas with creative thinking, effective communication, and the rigor of science.

Our Goals
Our objective through 2027 is to increase student's opportunities and potential for success. It is directly tied to MSA-4's academic, and professional development with teachers and strives to empower our students with choice and voice.

By 2027 Magnolia Science Academy-4's graduates will be productive, innovative, and responsible individuals who pursue their passions and educational opportunities and are poised to be change agents within their communities.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

MSA-4 celebrates our successes around our graduation, reclassification rates, and college acceptance rates.

Our graduation rate continues to be strong. We have maintained a 90% or above rate for the last four years and are on track to maintain that rate for the upcoming year. This is an area of considerable pride for us in that we often enroll students with credit deficiencies and/or other challenges and manage to support them as they make strides toward academic and social success. We seek out opportunities for them to complete coursework in an expeditious manner by way of Edgenuity. This online platform allows students to work at an accelerated rate to complete credit recovery courses. Our students know that we will support them in what they need. For the last three years, a high rate of each graduating class from Magnolia Science Academy - 4 has met the UC/CSU A-G requirements. Our UC/CSU completion rate has been higher than both LAUSD and state average in the past three years. MSA-4 has made it its mission that every graduate be prepared for and

able to go to their college of choice. Because of this mission, our high school graduation requirements are all aligned with the UC/CSU A-G courses, so each student has the opportunity to attend a four-year university.

MSA-4 celebrates the fact that we have actively created a college-going culture. As a result, our college acceptance rate has been fairly strong over the last three years.

MSA-4 has maintained a high college acceptance rate when compared to State and District average. Our college acceptance rate fluctuates, but at least 50% of our students get accepted to 4-year colleges. Our college acceptance rate for 2-year or 4-year colleges has been over 80% each year in the past three years, and 81% of our students got accepted to 4-year colleges at the end of the 2022 school year.

Our faculty and staff have been working diligently over the past three years to increase student achievement and prepare students for the Smarter Balanced end-of-year assessments. One of our goals is to attend to the needs of our numerically significant subgroups: our Hispanic or Latino population, English Learners, and our socioeconomically disadvantaged students. In working towards these goals under the demands of the Every Student Successes Act and our global pandemic, we only have SBAC results that reflect the 2019 and 2021 data.

During the 2020-2021 school year, only 11th-grade students took the CAASPP test. Based on 2021 CAASPP Math data, 12% of MSA-4 students in 11th grade met or exceeded standards. In ELA, 44% of our students either met or exceeded state standards.

Based on our dashboard and CAASPP test result data in English Language Arts and Math, we see great improvement in ELA results. The proficiency rate improved from 27% to 46%. This demonstrates that the system in place is working, and we will continue implementing these strategies moving forward and make adjustments as needed to address any changes. Although the Math score improved from 2019, all student groups struggled with Math, reaching a 12% proficiency rate. We have identified some strategies and will continue to improve our current instructional strategies to ensure student success. We address these specific needs during Study Hour, daily class instruction, after-school tutoring, and Saturday school.

Over the past three years, our faculty and staff have worked to implement a benchmark assessment system that formatively monitors student achievement throughout a given school year through the use of the MAP Benchmark Assessments (NWEA) in mathematics and reading. Students in grades 9 through 11 are assessed twice per year: Fall (for baseline data), and Spring, with particular attention being focused on Fall to Spring growth. Teachers, aides, and support providers use the formative data from these assessments to monitor student growth and inform instruction in reading and mathematics.
According to MAP data over the past three years, all tested grade levels showed growth from Fall to Spring in reading and mathematics, according to average RIT scores. This increase in average RIT scores indicates that our students are showing growth; however, we would like to see them show higher levels of growth in both subject areas from Fall to Spring. We continue to work toward preparing our students with the strategies, skills, and tools necessary to be successful at taking these types of computer-based assessments so that the student's true abilities and areas of need are reflected in the test results.

Over the past three years, our ELD Coordinator and teachers have administered the Initial and Annual ELPAC assessments to determine a student's English Language Status or Proficiency level. We improved English Learner progress from 28% (2018) to 47% (2022). This shows that we are on track to close the achievement gap for our EL students.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

This year MSA-4 continues to focus on our overall student data; however, more of an emphasis on math is the area where our students continue to struggle. Our focus is working to move the 30% toward proficiency.

MSA-4 will continue using IAB (Interim Assessment Block) data to track student progress and plan for more targeted instruction and interventions.

MSA-4 experienced an increase in overall satisfaction for our students and staff. MSA 4 continues to employ PBIS (Positive behavior Interventions and Supports) and MTSS (Multi-Tiered Systems of Support) with our students. We will also continue with PD for all staff in these areas.

MSA-4 realizes a continued need to reduce the number of students who are not meeting or exceeding standards in ELA and Math. A persistent school-wide goal is to reduce the percentage of students who are not attaining proficiency by 9% over the next three years. Students are assigned to enrichment classes, after-school tutoring, and Saturday school to support students in these areas. The expectation is that students are provided targeted interventions. Each student's progress is monitored, and students may transfer to another elective once they have made adequate gains toward proficiency.

Based on our dashboard data in English Language Arts and Math, our socioeconomically disadvantaged, students with disabilities, and Hispanic populations are our greatest need. This has become our targeted intervention specifically for students in all grade levels. Intervention groups were formed at the beginning of the year using our internal MAP Growth data. These groups receive support during study hour classes, after school, and Saturday school in small instructional groups based on their needs. These intervention groups are revisited quarterly, and changes are made depending on student progress.

The passing rate for these ELLs depends on a couple of factors. Our ELL students come from varied backgrounds and often encounter multiple challenges in the classroom. While some are new to the country, others have not had effective second language literacy instruction;

therefore, they have not had the opportunity to master content in English. Many of our ELL students are also Students with Specific Learning Disabilities. With all the factors that play a role in the reclassification process for these ELLs, we do our best to provide all the necessary support to all of our students to help them effectively progress in mastering the English language. Although it is not required, we offer a daily designated EL class for our high school students.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School Parent Advisory Committee (PAC) has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and planned for new ones. Some of the highlights include:

- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing counseling and positive behavior intervention support services to our students by employing the following:
- PBIS – Positive Behavior Intervention and Supports
- MTSS – Multi-Tiered Systems of Supports
- Mentoring and leadership program
- Keeping effective teachers and improving teacher observation and evaluation systems

We have also worked on our expected annual measurable outcomes to set targets in areas of greatest need and close performance gaps among student groups. This includes the consistent and targeted use of IAB (interim assessment blocks) and MAP (Measures of Academic Progress) data to inform and drive our day-to-day instruction. MSA-4 spends quality time analyzing our data. We then spend time collaborating and planning how best to support our students in our efforts to close the performance gap.

We will continue utilizing NWEA MAP testing to assess for learning loss and recovery regularly. MSA-4 will utilize MAP testing at least twice per year (Fall and Spring), in addition to Winter assessment, to have multiple data points to monitor students' learning loss and recovery. Furthermore, we will continue to administer the Math and ELA Smarter Balanced Interim Assessment Blocks (IAB) according to the testing schedule organized by the Home Office Academic Team. Per the needs in various grade levels, MSA-4 may also administer an Interim Comprehensive Assessment (ICA) during the year.

Progress In MAP:

Math MAP Fall 2021 to Spring 2022: results show 76% of students met their growth target.
ELA MAP MAP Fall 2021 to Spring 2022: results show that 67% of students met their growth target.

EL Student Progress: 100% of students met their growth target in MAP Math results, and 100% met their growth target in MAP ELA (reading) results.

Socioeconomically Disadvantaged Student Progress: 74% of students met their growth target in MAP Math results, and 65% met their growth target in MAP ELA (reading) results.

Students with Disabilities: 84% met their growth target in MAP Math results, and 64% met their growth target in MAP ELA (reading) results.

Hispanic Student Progress: 76% of students met their growth target in MAP Math results, and 66% met their growth target in MAP ELA (reading) results.

MSA-4 continues using NWEA Measures of Academic Progress (MAP) as one of its internal assessment tools. MSA-4 gives MAP Growth assessments to students in Fall and Spring in both Mathematics and Reading. All students in grades 10th through 11th grade take the MAP growth test.
MAP data shows insight into the growth of all students, both low and high achievers. We use the NWEA norms study tools to measure students' learning progress in a given school year. NWEA MAP norms study is representative of our school across the nation. NWEA norms enable us to compare student achievement in a single term and across terms. The data compare our students' achievements in the past three years. Our goal is to demonstrate high-performance levels of student achievement and growth in student achievement as measured by the NWEA assessment. By examining achievement and growth, we gain the most complete picture of how well our students learn. Analyzing the anchor data of these state tests help us understand areas of relative strength and weakness in our curriculum and instruction. The MAP data provide information for educators to consider when making improvements in curriculum and instruction to increase student learning. Although our students show some growth in Math in MAP results, we need to continue with our strategies to increase our student's growth to reach desired progress. We will revisit our action plan to ensure we reach our growth target.

Reading Comprehension has been the main focus for MSA-4 in the past three years. We have been utilizing our Advisory classes for students to read and improve their reading comprehension. We have begun to see results. Our average Lexile growth has been more than 150 Lexile points in the past two years, which directly correlates with standardized test results.

MSA-4 provides a college preparatory educational program emphasizing science, technology, engineering, arts, and math in a safe environment that cultivates respect for self and others. Through Honors courses, AP courses, and dual enrollment courses, students who demonstrate high achievement, interest, and/or ability are provided the opportunity for a rigorous learning environment. As we encourage our students to have an accredited college/university/post-secondary institution ("college") course-taking experience as early as possible, we also need to ensure it is a successful one and that it complements the rigorous course of studies offered at MSA-4.

We are aligning all Social Emotional Learning (SEL) instruction and launching our focus on teaching students about emotional control and

self-regulation through The Zones of Regulation (ZoR) curriculum. MSA-4 designed an implementation plan including who will facilitate lessons/activities with students, during what time of day, and what frequency of lessons. MSA-4 chose to lead lessons daily during Advisory. All families were informed of our new curriculum implementation using Parent Square's parent/stakeholder notification system. The initial reception has been positive as families agree that helping to build students' self-awareness skills is critical for academic and social success. MSA-4's ZoR implementation team, led by our Assistant Principal, continues to monitor the progress of the implementation plan and the support needed for success. During the 2021-2022 school year, MSA-4 hired a Counselor that focuses on Socioemotional Learning to support students as they transition to in-person learning. The Counselor provides one-on-one counseling sessions to students identified by teachers and staff to ensure our students' well-being.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-4 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. These committees provide representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress, a school plan with planned improvement in student performance in reading and mathematics and in programs for English Learners, and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include 5 PTF meetings, 5 SSC meetings, at least five parent activities/events including weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

A summary of the feedback provided by specific educational partners.

Here are some of the feedback from stakeholders through meetings and stakeholder surveys.

PTF/SSC/PAC Feedback:

Glows:

All stakeholders are happy to be part of a small and family-like environment. Many students and parents emphasized the support that students receive from teachers. Here are some of the comments our stakeholders made about MSA-4. The following are some glows that are being vocalized by all stakeholders.

- MSA-4 provides a family-like environment.
- All staff are caring, supportive.
- MSA-4 offers effective communication with parents.
- Teachers provide individualized attention and flexibility.

Grows:

MSA-4 stakeholders suggested growth in the following areas:

- Parent involvement.
- Facilities.
- Limited classes and activities (sports and music).
- Improvement in instructional strategies to check for understanding

SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations, Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The LCAP Committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Increasing college preparedness by offering a college planning and career exploration program for students early on, strengthening existing "Advisory" programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Other input includes improving school facilities and the lunch program.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	2020-21: 0	2021-22: 0			
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 85.0%	2021-22: (Spring 2021 to Fall 2021) 71%			2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 95.0%	2021-22: (As of 5/12/22) 96.2%			2023-24: 95.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus,	$10,300.00	No

Action #	Title	Description	Total Funds	Contributing
		livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay. The following expenditures will be funded by federal Title funds: N/A		
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to the standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: N/A	$84,627.00	No

Action #	Title	Description	Total Funds	Contributing
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with the stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A	$176,413.00	No
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the	$8,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, and refreshments. The following expenditures will be funded by federal Title funds: N/A		
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal Title funds: N/A	$96,634.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

MSA-4 has fully implemented all of the actions indicated in our action plans. All students and staff had access to a safe, secure, healthy, high-quality learning and working environment. Students received essential services fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities. There were some differences between the budgeted and actual expenditures as the school has received some one-time funds due to the COVID-19. MSA-4 has used these one-time funds to enhance its actions. For example, MSA-4 offered bonuses to our full-time staff to ensure they would return to the school for the next school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action1:
MSA-4 budgeted $10,300 and spent $91,300.00 for this goal. We spent $81,000.00 more than the budgeted amount. This is due to our full-time staff receiving retention bonuses that would help keep our retention numbers high for the next school year.

Goal 1 Action 2:
MSA-4 budgeted $72,093.00 and spent $90,627.26 for this goal. We spent $18,534.26 more than the budgeted amount. We purchased new Chromebooks and hotspots to ensure students can access the curriculum.

Goal 1 Action 3:
MSA-4 budgeted $116,984.00 and spent $272,864.60 for this goal. We spent $155,880.6 more than the budgeted amount. According to the California Code of Regulations, we paid the overallocation fee to LAUSD.

Goal 1 Action 4:
There is no substantial material between budgeted and estimated actual expenditures for this action.

Goal 1 Action 5:
MSA-4 budgeted $121,427.96 and spent $92,900.58 for this goal. We spent $28,527.38 less than the budgeted amount. MSA-4 paid fewer management fees as compared with the previous school years.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 has implemented all the actions/services described above to achieve our basic services for a high-quality learning environment goal. We are compliant with our teacher assignments; we offer standards-based instruction, and our students have sufficient access to standards-aligned instructional materials; we do facility inspections periodically; we regularly assess our technology needs to ensure staying up-to-date.

MSA-4 receives meal services from Better4You, and additionally, we had other basic services for our staff and students. MSA-4 has provided Chromebooks and hotspots to ensure students access the online curriculum at school and at their homes. MSA-4 has been strategic and specific in its 2021-22 school year goals. Coming back to in-person instruction was paramount to its continued success as a program. Keeping up with curricular changes, furnishing supplies and materials, updating technology, and providing services for identified students occurred daily. MSA-4 did not drift from this goal the entire year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.
Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	$711,887.00	No

Action #	Title	Description	Total Funds	Contributing
		supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal Title funds: • Teacher stipends for after-school and Saturday School: Resource: Title I, Part A; Amount: $34,819		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.	$27,131.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees. The following expenditures will be funded by federal Title funds: • Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: $5,131		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Assistant Principal salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, IXL, and myON.)	$220,902.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: • Teacher stipends for Study Hour: Resource: Title I, Part A; Amount: $7,075 • Admin stipends for Saturday school: Resource: Title I, Part A; Amount: $5,000 • NWEA MAP testing fees: Resource: Title I, Part A; Amount: $1,300 • Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above): Resource: Title I, Part A; Amount: $12,930		
2.4	Designated and integrated ELD programs	Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited		Yes

Action #	Title	Description	Total Funds	Contributing
		to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator stipend The following expenditures will be funded by federal Title funds:N/A		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.	$123,250.00	No

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

While the impacts of COVID-19 during 2021-22 have had significant impacts on programs and services, staff were able to effectively implement these specific actions consistent with the plan. No substantive changes to actions/services for this year. Overall, the actual implementation of the actions within Goal 2 closely matched the plan.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1:
MSA-4 budgeted $713,303.34 and spent $663,130.93 for this goal. We spent $50,173.41 less than the budgeted amount. This difference is because the delay in filling some of the open positions caused my nationwide staffing shortage due to COVID-19.

Goal 2 Action 2:
There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 2 Action 3:
There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 2 Action 4:
There was no budgeted expenditures for this action as our ELA teacher carried the duties of the designated and integrated ELD programs.

Goal 2 Action 5:
MSA-4 budgeted $252,930.11 and spent $134,026.99 for this goal. We spent $118,903.12 less than the budgeted amount. MSA-4 hired fewer SPED teachers than anticipated when the LCAP plan was created.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 ensured all students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Majority of MSA-4 pursue academic excellence and be college/career ready. MSA-4 students continue to show better than the projected growth target for both ELA and Math determined by the NWEA MAP assessment. We expanded summer and Saturday school options for students to mitigate the learning loss due to the COVID-19. MSA-4 staff provided:

- Additional learning resources and tools.
- Intervention sections.
- Small group support to all of our students.

Over 70% of MSA-4 students show significant growth from Fall 2021 to Spring 2022 as measured by the NWEA MAP growth assessment. With this growth, MSA-4 students have ranked in the 99th percentile in all grade groups. Additionally, all sub-groups have performed similarly to the general education population. 47% of our EL students have shown progress based on California's EL Progress Indicator. MSA-4 continue offering professional development to its teachers to ensure they are up-to-date with the educational developments. Three MSA-4 teachers enrolled in an induction program and received ongoing professional development throughout the year. Additionally, With State Assessments having resumed and results forthcoming, the overall progress of the MSA-4 in key content areas will be available in the near future. The overall performance in these areas as well as the disaggregated performance of student groups will enable more current analysis and inform next steps. Implementing the actions in this goal furthered the MSA-4's efforts to ensure that all students are provided a standards-aligned program with rigorous learning experiences. MSA-4 effectively implemented MTSS discussed in Goal 2 action 3, which contributed students to excel and close the achievement gap.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.
It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	$123,126.00	Yes

Action #	Title	Description	Total Funds	Contributing
		and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities. The following expenditures will be funded by federal Title funds: • College Counselor salary and benefits (partial): Resource: Title IV, Part A; Amount: $9,553		
3.2	STEAM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth,	$1.00	Yes

Action #	Title	Description	Total Funds	Contributing
		complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research. Expenditures associated with this action include the following: supplemental science program fees. The following expenditures will be funded by federal Title funds: • Supplemental science program fees: Resource: Title IV, Part A; Amount: $4,000 • Science Teacher Salary and Benefits (Partial): Title IV, Part A; Amount: $2,000		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds:N/A	$10,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds:N/A	$93,280.00	Yes
3.5	Additional programs and activities that support well-rounded education	In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities,	$121,144.00	Yes

		including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

MSA-4 implemented all actions as planned. Although, we did not make speeding for Goal 3 Action 2, we were able to complete the actions as planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1:
MSA-4 budgeted $192,398.90 and spent $137,329.19 for this goal. We spent $55,069.71 less than the budgeted amount.

Goal 3 Action 2:
MSA-4 budgeted $6000 for this goal, but we did not spend the budgeted amount.

Goal 3 Action 3:
There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 3 Action 4:
There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 3 Action 5:
There is no substantive difference between budgeted and actual expenditures for this action plan.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 hired a new college counselor to support students and parents with college and career planning this school year. We offered summer school to provide opportunities for students to recover credits toward graduation and A-G completion. Our college counselor worked closely with the students and made four-year plans to keep students on track for graduation. Also, MSA-4 partnered with LA Valley college and offered courses that enable our students to be college and career ready based on California's college and career readiness indicator. As a result, 100% of our class of 2022 graduated, and 96% of the students completed the A-G requirements. 58% of our graduating class is ready based on current college-career readiness data. 81% of students got accepted to at least one four-year college, and 65% of the students took the offer they received from the four-year colleges. Also, MSA-4 continues offering sports during and after school to ensure all our students are involved in physical and fitness activities. We use Go Guardian to ensure our students are digitally safe while using school Chromebooks. We continue organizing college and educational field trips to open up our students' horizons and support the well-rounded education they receive at MSA-4.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.
School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 4/16/21) 4	2021-22: (As of 5/13/22) 5			2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 4/16/21) 1	2021-22: (As of 5/13/22) 4			2023-24: 4

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
