23.529%	0.000%	$0.00	23.529%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.4	**Action:** Healthy and nutritious meals **Need:** Low-income students do not have sufficient or consistent access to nutritious meals and they develop poor eating habits. As a result, they experience poor health and academic outcomes, including, but not limited to, obesity, chronic absenteeism and lower grades. There	MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	is a need to provide all our students with healthy and nutritious meals. **Scope:** LEA-wide	consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We will provide two school meals free of charge during each schoolday to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	
2.2	**Action:** Professional development for high-quality instruction **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. **Scope:** LEA-wide	With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost/SchoolMint Grow software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2, TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.	standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP) • Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

			• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.3	**Action:** MTSS - Academic enrichment, intervention, and student support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials,	Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2,

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. **Scope:** LEA-wide	English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.	TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading

2.4	**Action:** Designated and integrated ELD programs and support for ELs **Need:**	Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers	Goal 2: For all students, but particularly for the EL and LTEL student groups: • Percentage of students who

Powered by BoardOnTrack

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	The majority of Charter School's student population consists of English Learners (EL), including long-term ELs (LTELs), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. **Scope:** LEA-wide	with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students.	have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect that this action will result in increased academic achievement of our student groups, particularly of our ELs and LTELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and EL reclassification rates as identified in our LCAP metrics in Goal 2.	• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP) • Percentage of students who have met or exceeded standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-Mathematics assessments (Source: CA School Dashboard) • Percentage of students who

			and current year (Source: CA School Dashboard) • Percentage of ELs reclassified to Fluent English Proficient (RFEP) annually (Source: CDE DataQuest)
3.1	**Action:** College/Career readiness programs and activities **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. **Scope:** LEA-wide	With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would

			recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.2	**Action:** STEM and GATE programs **Need:** Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of everchanging technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEM curricula. **Scope:** LEA-wide	Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum	Goal 3: • Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS) • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS) • Percentage of students who have created or demonstrated a

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.	STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)
3.3	**Action:** Digital literacy and citizenship programs **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way.	With the needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and	Goal 3: • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.	
3.4	**Action:** Physical education, activity, and fitness **Need:** Low-income students do not have sufficient or consistent access to physical activities/sports and fitness education. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. **Scope:** LEA-wide	MPS is committed to the optimal development of every student. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We expect that this action will result in increased attendance and grades as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.5	**Action:** Additional programs and activities that support well-rounded education **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "average approval rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. **Scope:** LEA-wide	Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students and families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students and families to the question, "Overall, I am satisfied and would recommend this school to other students/families.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			" (Source: Local Indicator Priority 6, Panorama Education)
4.1	**Action:** Seeking family input for decision-making **Need:** It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. **Scope:** LEA-wide	Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their	Goal 4: • Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3) • Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3) • School experience survey "average approval rates" based on the responses of our families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing Community School strategies to reach and seek input from any underrepresented groups in the school community. We also expect that this action will result in increased parent satisfaction as measured by the annual educational partner surveys in Goal 4: Action 4.	of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our families to the question, "Overall, I am satisfied and would recommend this school to other families." (Source: Local Indicator Priority 6, Panorama Education)
4.2	**Action:** Building relationships and partnerships with families for student outcomes **Need:** Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved	In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students'	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. **Scope:** LEA-wide	grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way	• Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3) • Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS) • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA

(Source: Local Indicator Priority 6, Panorama Education)
4.3	**Action:** MTSS - PBIS and SEL support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism	Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. **Scope:** LEA-wide	and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source: CDE DataQuest, CALPADS) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school

		basis. It was found effective in the current school year and will be continued in the coming school year. We expect that this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual educational partner surveys in Goal 4: Action 4.	connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and would recommend this school to other students/families/ educators." (Source: Local Indicator Priority 6, Panorama Education)
4.4	**Action:** Annual educational partner surveys **Need:** It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of	Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students,	Goal 4: • School experience survey "participation rates" by students, families, and staff (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Educational partner voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage educational partners in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage educational partners in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. **Scope:** LEA-wide	parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect that this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.	• School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and

			would recommend this school to other students/parents/ educators." (Source: Local Indicator Priority 6, Panorama Education)
4.5	**Action:** Community outreach and partnerships **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including	Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Similar to the current academic year, MSA-7 will utilize the concentration grant add-on funds ($79,063) in the following manner:

MSA-7 is using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

By adding these faculty/staff members, we aim to strengthen our ability to address the diverse needs of our student population and provide targeted support where it is most needed. This strategic allocation of funds will help create a more conducive learning environment and contribute to our student's overall growth and achievement.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

Powered by BoardOnTrack

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

Powered by BoardOnTrack

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

Powered by BoardOnTrack

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Powered by BoardOnTrack

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Powered by BoardOnTrack

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

Powered by BoardOnTrack

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Powered by BoardOnTrack

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

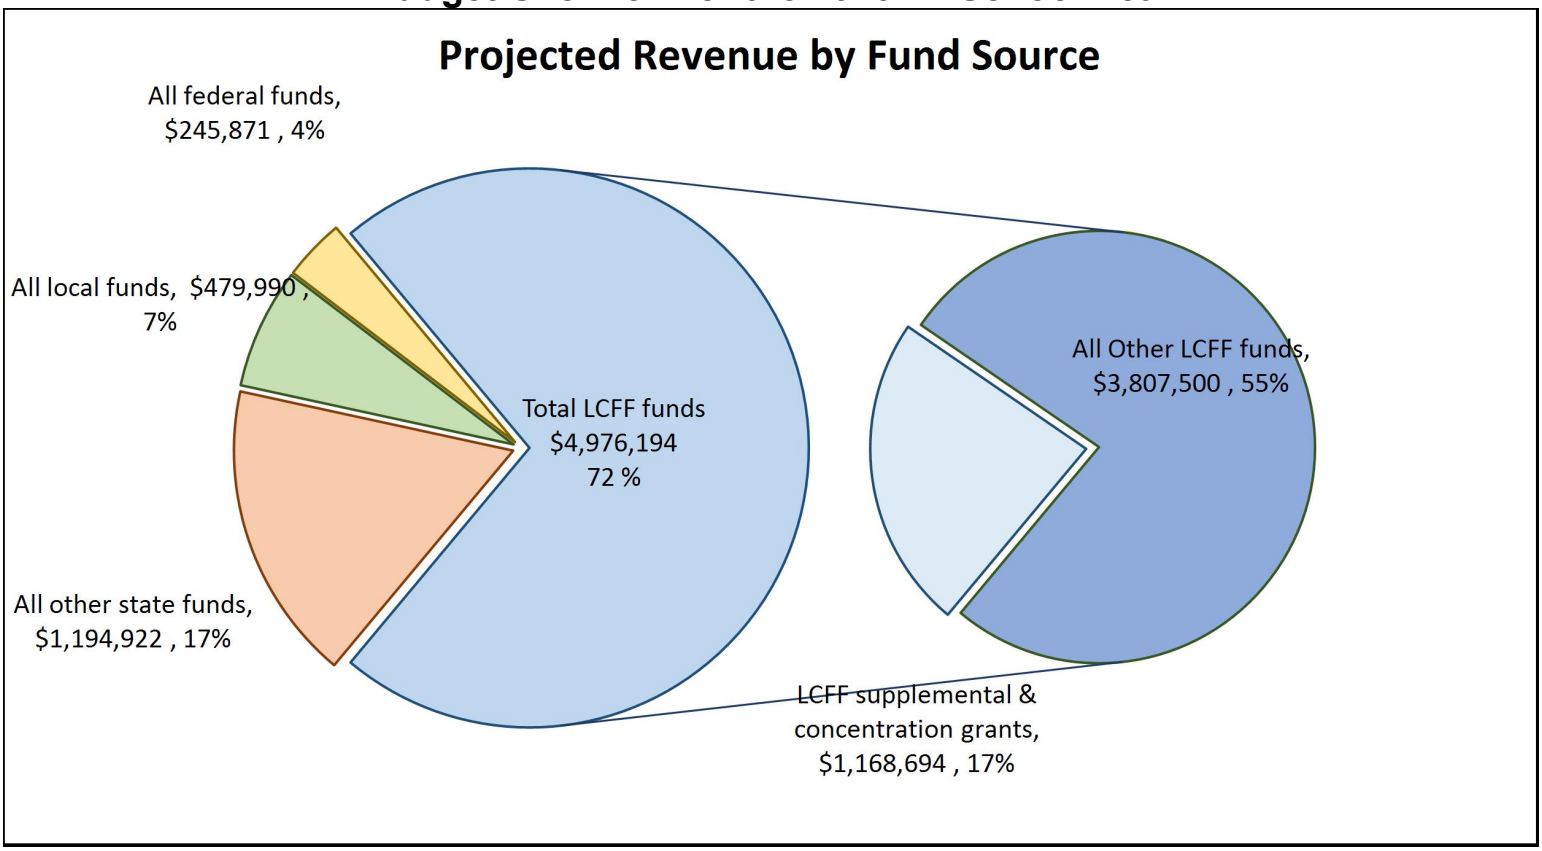
California Department of Education
November 2024

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy-8
CDS Code: 19-64733-0122747
School Year: 2026-27
LEA contact information:
Adrian Uribe
Principal
auribe@magnoliapublicschools.org
(323) 826-3925

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

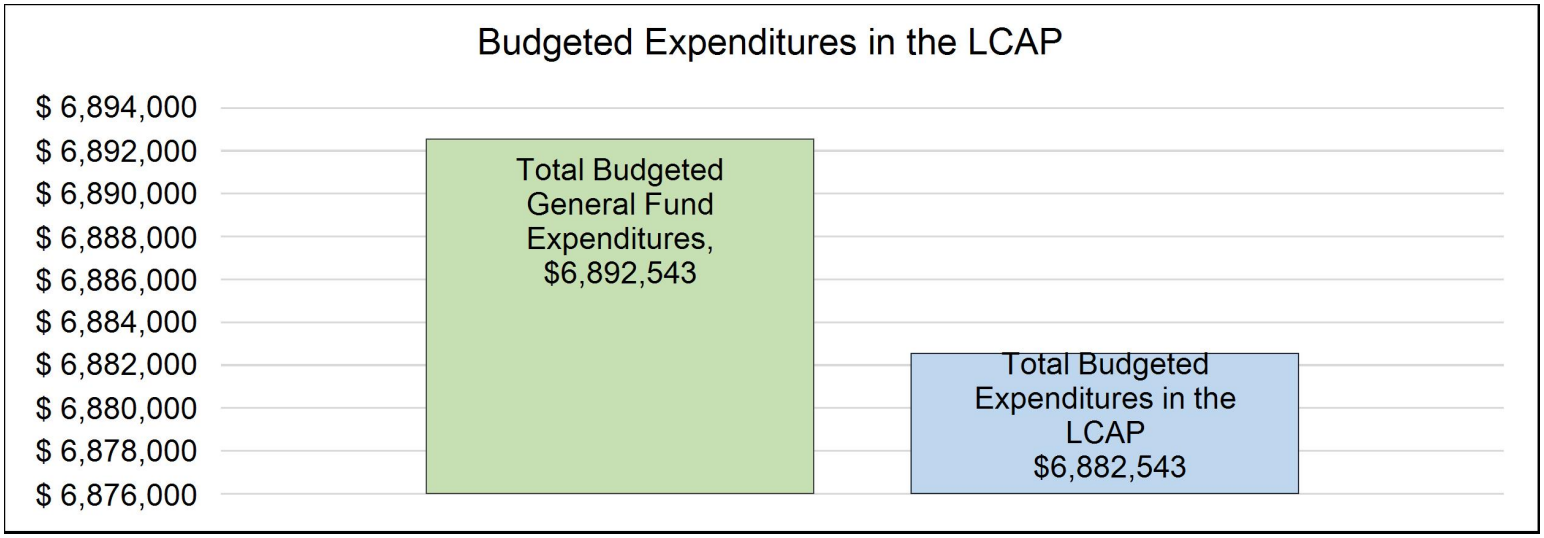


This chart shows the total general purpose revenue Magnolia Science Academy-8 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy-8 is $6,896,977, of which $4,976,194 is Local Control Funding Formula (LCFF), $1,194,922 is other state funds, $479,990 is local funds, and $245,871 is federal funds. Of the $4,976,194 in LCFF Funds, $1,168,694 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Magnolia Science Academy-8 plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Magnolia Science Academy-8 plans to spend $6,892,543 for the 2026-27 school year. Of that amount, $6,882,543 is tied to actions/services in the LCAP and $10,000 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

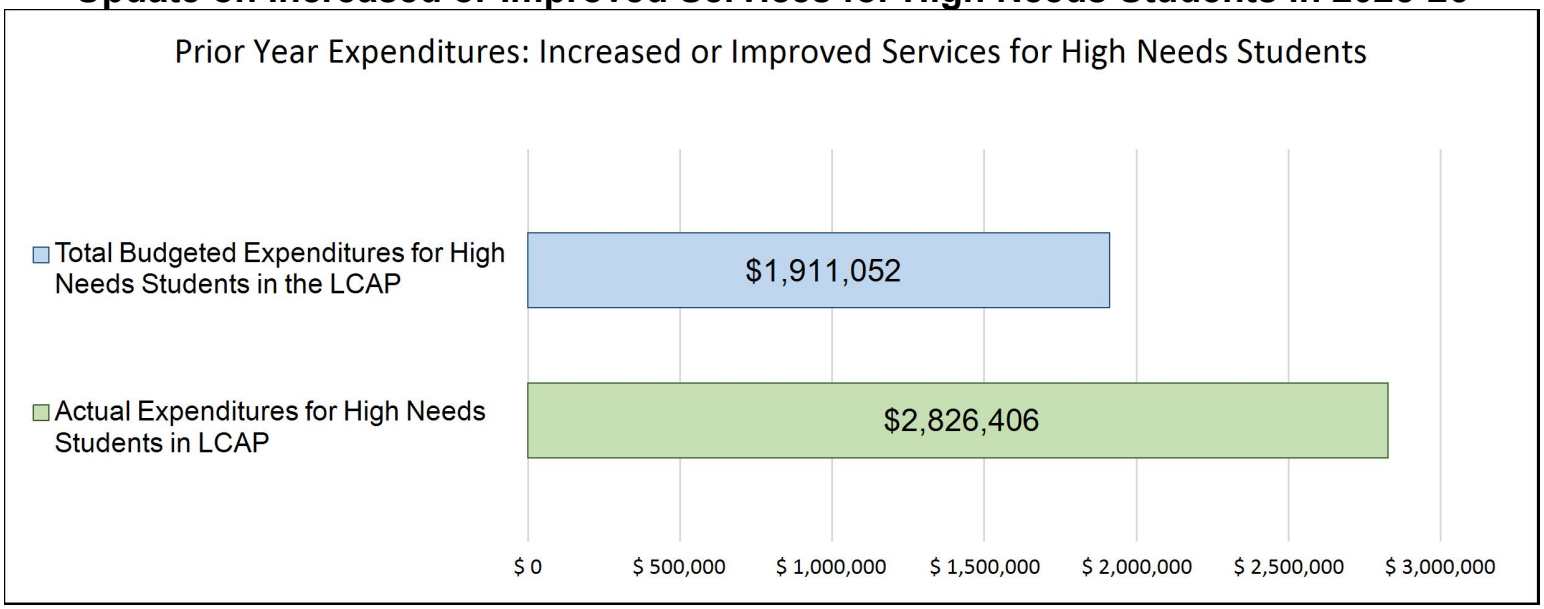
N/A

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Magnolia Science Academy-8 is projecting it will receive $1,168,694 based on the enrollment of Foster Youth, English learner, and low-income students. Magnolia Science Academy-8 must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy-8 plans to spend $1,988,655 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26



This chart compares what Magnolia Science Academy-8 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy-8 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Magnolia Science Academy-8's LCAP budgeted $1,911,052 for planned actions to increase or improve services for high needs students. Magnolia Science Academy-8 actually spent $$2,826,406 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Magnolia Science Academy-Bell (MSA-Bell) is a classroom-based charter school serving grades 6th-8th with a curriculum emphasis on science, technology, engineering, arts, and math (STEAM). MSA- Bell is located in the city of Bell (90201) and serves around 400 students in grades 6–8, with classes that average 30 or fewer students. Originally founded in 2010—and here requesting a third five-year charter term—MSA-Bell's mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-Bell is supplemented by tutoring, after-school programs, and school-to-university links.

Our mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

Magnolia Science Academy 8
Address: 6411 Orchard Ave., Bell, CA, 90201
Phone: 323-826-3925
Email: auribe@magnoliapublicschools.org

Our Mission

Magnolia Public Schools provides a college preparatory educational program emphasizing science, technology, engineering, and math (STEAM) in a safe environment that cultivates respect for self and others.

Our Vision
Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

INNOVATION
Students have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest, and career plans support students' college and career readiness. Students experience hands-on learning through robotics, computer science, and arts to promote imagination, creativity, and invention.

CONNECTION
School communities are integrated partnerships among the school site staff, families, students, and all other stakeholders. Connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internships, promote unity and better decision making through the implementation of restorative justice practices.

EXCELLENCE
Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

SUCCESSES
Our school demonstrated strong academic growth across multiple indicators this year. In English Language Arts (ELA), we increased our performance by 8.2 points, moving into the Yellow performance level. In Mathematics, we achieved an even larger gain of 12.8 points, also reaching the Yellow performance level.
Our most significant success was in English Learner Progress. We increased by 15 percentage points, with 60% of our English Learners making progress toward English language proficiency. As a result of these outstanding gains, our English Learner Progress indicator moved into the Blue performance level, our highest-performing area. These results reflect the hard work of our students, staff, and families, and demonstrate our continued commitment to improving outcomes for all learners.

CHALLENGES
While we celebrated important academic gains this year, we also identified areas that require focused attention and improvement. Our chronic absenteeism rate remained at 27%, which placed us in the Red performance level. This indicates that a significant number of

students are missing too much instructional time, impacting their learning and overall success. Additionally, our suspension rate increased to 6.4%, representing a 2.8 percentage point increase from the previous year. This resulted in an Orange performance level. These data highlight the need for continued work in strengthening student engagement, attendance, and positive school climate supports.

OPPORTUNITIES
During the 2025–26 school year, we introduced the Coordination of Services Team (COST) to streamline the process for identifying and providing interventions for students in need of additional support. This system created a more coordinated and proactive approach to addressing student needs by bringing together staff to review data, identify concerns, and connect students with appropriate services.

Through the implementation of COST, we were able to respond more quickly to students' behavioral and attendance challenges, ensuring timely interventions and support. This opportunity positions our school to strengthen student engagement, improve attendance outcomes, reduce disciplinary incidents, and provide a stronger network of support for students and families moving forward.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Due to significant gains in ELA, Mathematics, and English Learner Progress, Magnolia Science Academy-Bell is no longer identified for Differentiated Assistance (DA). These improvements reflect the effectiveness of our instructional efforts and targeted supports and demonstrate our continued progress toward higher levels of student achievement and school performance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parents	During Parent Advisory Committee (PAC) meetings, families participated in informational sessions focused on understanding the goals and priorities outlined in the Local Control and Accountability Plan (LCAP). School staff reviewed student performance data from multiple sources, including state and local dashboards, to provide parents with a clear picture of school progress and areas for growth. To support meaningful participation, the information was presented in parent-friendly formats that made the data easier to understand and discuss. These presentations helped families engage in informed conversations and provide valuable input on school goals and decision-making.
Students	During Parent Advisory Committee (PAC) meetings, students were provided opportunities to actively participate in discussions about the Local Control and Accountability Plan (LCAP) and school improvement efforts. School staff shared student achievement and school performance data, helping students understand current outcomes, identify areas for growth, and learn about the goals established for the future. Through these discussions, students asked questions, shared their perspectives, and contributed ideas that informed school planning. To ensure the information was accessible and meaningful, staff created clear and engaging presentations using data from school and state dashboards, enabling both students and families to participate in the decision-making process with a strong understanding of the school's priorities and progress.

Educational Partner(s)	Process for Engagement
Teachers	Throughout the school year, staff participated in regular meetings focused on the Local Control and Accountability Plan (LCAP) and the school's improvement goals. These sessions provided opportunities to review progress toward existing goals, analyze outcomes from the previous year, and celebrate areas of success. Staff also collaborated to identify areas for growth, refine strategies, and establish priorities for the upcoming year. By engaging in ongoing dialogue and data-driven planning, staff developed a shared understanding of the school's goals and their role in achieving them, fostering a culture of continuous improvement and collective responsibility for student success.
School administrators	Throughout the school year, staff engaged in ongoing discussions and presentations related to the Local Control and Accountability Plan (LCAP) and the school's strategic priorities. These meetings allowed staff to review progress toward established goals, reflect on key achievements, and analyze areas for continued growth. Staff also collaborated in planning for the upcoming year by examining projected outcomes, refining goals, and identifying effective strategies to support student success. This continuous engagement helped ensure alignment across the school community and reinforced a collective commitment to achieving the school's long-term vision and objectives.
Other school personnel	Throughout the year, staff participated in regular LCAP updates and planning sessions to stay informed about the school's priorities and progress. These meetings provided opportunities to review data, celebrate successes, and evaluate progress toward established goals. Staff also engaged in collaborative discussions to refine existing objectives, develop new goals when needed, and identify effective actions to support student achievement. By involving staff in both reflection and planning, the school fostered a shared sense of ownership and commitment to continuous improvement and long-term success.
SELPA	To ensure that the needs of students with disabilities are reflected in school planning and decision-making, SELPA representatives were included as key partners in the development of the Local Control and Accountability Plan (LCAP). Through ongoing collaboration, consultation, and feedback, these representatives provided valuable

Educational Partner(s)	Process for Engagement
	insight into the effectiveness of special education services and identified opportunities to strengthen support systems for students with disabilities. Their contributions helped guide the development of targeted actions and services designed to improve student outcomes and promote equitable access to educational opportunities. By actively engaging SELPA representatives throughout the LCAP process, MSA-8 ensures that the plan remains inclusive, responsive, and aligned with the diverse needs of all learners while fostering shared responsibility for student success.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The development of MSA-8's LCAP goals was guided by input gathered from a variety of educational partners, including families, students, staff, and community members. The administrative team reviewed stakeholder feedback to identify common themes, priorities, and areas of need, ensuring that multiple perspectives were reflected in the planning process. Through ongoing communication and collaboration, the school shared how stakeholder input informed decision-making and contributed to the development of proposed goals and actions. The resulting recommendations were then submitted to the home office for review and consideration as part of the development of the following year's LCAP, helping to ensure that the plan remained responsive to the needs and priorities of the school community.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers, standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	The percentage of teaching assignments that have an assignment monitoring outcome of "clear" (Source: Local Indicator Priority 1, CDE DataQuest TAMO by FTE Report)	2021-22: 75.2%	2022-23: 69.2%	2023-24: 70.3%	2024-25: > 85%	-4.9 percentage points
1.2	Percentage of students without access to their	2023-24: 0%	2024-25 (As of 6/5/25):	2025-26 (As of 5/22/26):	2026-27: 0%	0 percentage points

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
	own copies of standards-aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)		0%	0%		
1.3	Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2023-24: 0	2024-25 (As of 6/5/25): 0	2025-26 (As of 5/22/26): 0	2026-27: 0	0
1.4	Teacher retention rate (Source: HRIS)	2023-24: (Fall 2022 to Fall 2023) 54%	2024-25: (Fall 2023 to Fall 2024) 52%	2025-26 (Fall 2024 to Fall 2025): 76%	2026-27: (Fall 2025 to Fall 2026) >= 80%	+22 percentage points
1.5	Teacher attendance rate (Source: HRIS)	2023-24: (As of 5/15/24) 93.9%	2024-25: (As of 5/31/25) 93.4%	2025-26 (As of 5/15/26): 93.9%	2026-27: >= 95.0%	0 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

1.1:The percentage of teaching assignments with an assignment monitoring outcome of “Clear” was 70.3%, which is below the desired target of 85% or higher. This indicates that a portion of teaching assignments did not fully meet credentialing alignment expectations during the 2025–2026 school year. A key factor contributing to this outcome was that the school had one teacher serving on a permit rather than holding a full credential. While this allowed the school to maintain staffing continuity, it impacted the overall assignment monitoring percentage, as permit-based assignments do not meet the “Clear” designation.

1.2:The percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home was 0% as of May 22, 2026, indicating that all students had access to required instructional materials. This outcome demonstrates that the school successfully met its goal of ensuring equitable access to standards-aligned resources for all students both in the classroom and for use at home. Maintaining a 0% gap reflects effective planning, timely distribution of materials, and alignment with instructional expectations.

Recently, we underwent a Williams audit, which successfully verified that all our students have access to the necessary textbooks and technology. This audit confirms our commitment to providing quality education and resources to every student.

1.3: As we continue to be co-located on an LAUSD facility for the 2026-27 school year ,our classrooms and infrastructure are regularly inspected by the district to ensure they meet the "good repair" standard. Any necessary repairs that have been identified have been promptly addressed, ensuring that our learning environment remains safe and conducive to education. Additionally, our school successfully passed the Williams audit for the 2025-26 school year, a testament to our commitment to maintaining high standards in our facilities.

1.4: In recent years, we have seen some of our teachers leave to pursue opportunities closer to their homes or to embark on new career paths. However, we are working hard to maintain a high retention rate and provide stability for our students. Our goal is to ensure a seamless transition and continue delivering quality education to all students.

1.5:In the past two years, we have come very close to achieving our goal of a 95% teacher attendance rate.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1
Budgeted: $23,246.00
Actual: $27,316.00
Explanation: The variance between budgeted and actual expenditures is primarily due to slightly higher-than-anticipated program and service costs associated with implementation needs during the year, resulting in a modest increase over the original budget.

Goal 1 Action 2
Budgeted: $404,326.62
Actual: $430,598.77
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 1 Action 3
Budgeted: $640,195.00
Actual: $780,102.00
Explanation: The increase in actual expenditures is due to higher-than-expected costs related to facility repairs and maintenance needs that arose during the school year, which required additional resources beyond the original budget assumptions.

Goal 1 Action 4
Budgeted: $21,930.00
Actual: $80,000.00
Explanation: The variance is due to unanticipated costs and expanded implementation needs that arose during the school year, resulting in additional expenditures to fully support program and operational requirements.

Goal 1 Action 5
Budgeted: $880,525.00
Actual: $794,888.40
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, the implementation of the action items for this goal was effective.

Metric 1.1: Effective- As part of our commitment to providing the best educational experience for our students, we have been striving to meet an 85% goal in this area.

Metric 1.2: Effective- We have ensured that every student has access to their own copies of the necessary materials. This includes access to all curriculum , textbooks, and Chromebooks.

Metric 1.3: Effective- We have a sound building that is maintained by LAUSD per our co-located agreement.

Metric 1.4: Effective- Teacher turnover rate was low for this past year.

Metric 1.5: Somewhat Effective: Although we did not meet our metric of 95% teacher attendance rate, we came close the last two years.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Metric 1.1: A change for this metric is the monitoring and auditing of the teacher's credentials by the Assistant Principal's of instructions. Both will follow up with teachers to provide timely feedback and tracking of their credential pathways. We hope this will ensure that all teachers will be credentialed in their subject area by the end of the 2026-27 school year.

Metric 1.4:Based on the feedback from the staff surveys conducted during the 2025-26 academic year, we have developed a comprehensive action plan to address the key concerns raised.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: Payroll fees, teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, and retirement service fees. The following expenditures will be funded by federal Title funds: N/A	$26,316.00	No
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.	$428,361.57	No

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Depreciation, technology, TelecomInternet, textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: N/A		
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A	$723,102.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, and water. The following expenditures will be funded by federal Title funds: N/A	$60,000.00	Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal Title funds: N/A	$731,183.94	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	EXCELLENCE: Under our first core pillar of Excellence, all students will have equitable access to a high-quality core curricular and instructional program and make academic progress in alignment with California content standards (CCSS, NGSS, etc.) through our data-driven, differentiated and engaging learning program. Students will develop competencies aligned with our “Graduate Profile,” including Literacy with a Learner’s Mindset and Critical Thinking skills as they pursue academic excellence.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Percentage of students who have sufficient access to all programs and services, as applicable, including the programs and services	2023-24: 100%	2024-25: (As of 6/5/25) 100%	2025-26 (As of 5/22/26): 100%	2026-27: 100%	0 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 2-Metric 1:As of May 22, 2026, 100% of students had sufficient access to all educational programs and services, including those specifically designed to support unduplicated students (English Learners, Foster Youth, and Socioeconomically Disadvantaged students) and students with exceptional needs. This outcome demonstrates that the school successfully ensured equitable access to the resources, interventions, and supports necessary to promote student success.

Goal 2-Metric 2: During the 2025–26 school year, 61% of the required teacher observations were completed by school administration, falling short of the established target of 85%. The observation process was designed to include one formal and four informal classroom observations per teacher to support the implementation of state standards and promote continuous instructional improvement. The lower completion rate was largely attributable to the transition to a new teacher evaluation rubric and the implementation of a new online observation platform. As administrators adapted to the revised observation protocols, documentation requirements, and data-entry processes, a learning curve emerged that impacted the timely completion and recording of observations throughout the year. Despite not meeting the target, the school successfully established the new systems and built administrative capacity to conduct observations using the updated framework. Through this process, administrators gained familiarity with the rubric, improved calibration practices, and developed greater proficiency with the online platform.

Goal 2-Metric 3:During the Fall 2025–26 semester, 54% of students earned a grade of “C” or better in their core subjects and elective courses. While this reflects that more than half of our students are successfully meeting course expectations, the result fell below the school's established target of 80% or higher. Several factors may have contributed to this outcome, including learning gaps, inconsistent attendance, and academic challenges experienced by some student groups. Although the goal was not met, the data provide valuable insight into areas where additional academic support and intervention are needed. In response, the school will continue to implement targeted strategies to improve student achievement, including progress monitoring, academic interventions, tutoring opportunities, and increased communication with students and families regarding academic performance. Staff will also use data to identify students in need of support earlier and provide timely interventions to help improve course completion rates and overall academic success. Moving forward, the school remains committed to increasing the percentage of students earning grades of “C” or better and making progress toward meeting the 80% target.

Goal 2-Metric 4: During the 2025–26 school year, the percentage of students who met or exceeded standards on the CAASPP English Language Arts/Literacy (ELA) assessment varied across student groups. Overall, 32.98% of All Students met or exceeded the standard. Among student groups, 30.36% of Socioeconomically Disadvantaged students, 10.25% of Students with Disabilities, 32.77% of Hispanic students, and 31.58% of White students met or exceeded the standard. English Learners recorded 0.00% meeting or exceeding the standard, indicating a significant area of need. While the results demonstrate that approximately one-third of students are performing at or above grade-level expectations in ELA, the data also reveal persistent achievement gaps among student groups, particularly for English Learners and Students with Disabilities. These outcomes highlight the need for continued focus on literacy development, targeted intervention, and differentiated instruction to ensure all students have equitable access to grade-level content and opportunities for success. To address these needs, the school implemented evidence-based instructional strategies, data-driven intervention programs, and additional

supports for identified student groups throughout the year. Teachers utilized assessment data to monitor student progress and adjust instruction to meet individual learning needs. The school also provided targeted support for English Learners through designated and integrated English Language Development (ELD) instruction and continued to strengthen accommodations and specialized services for Students with Disabilities.

Goal 2-Metric 5: The 2025–26 CAASPP English Language Arts/Literacy (ELA) Distance from Standard (DFS) results indicate that students continue to perform below the state standard, although the degree of performance varied among student groups. Overall, All Students scored 41.9 points below standard, while Hispanic students scored 40.8 points below standard and Socioeconomically Disadvantaged students scored 45.3 points below standard, reflecting performance levels that were relatively similar to the schoolwide average. The data also reveal significant achievement gaps among certain student groups. English Learners scored 96.3 points below standard, and Students with Disabilities scored 92.6 points below standard, indicating that these groups continue to require intensive academic support and targeted interventions to accelerate literacy development and access grade-level content. Additionally, White students scored 67.5 points below standard, highlighting the need to continue monitoring performance across all student groups. While these results demonstrate that students remain below proficiency expectations in ELA, the school experienced positive growth on the California Dashboard, including an increase in overall ELA performance. This suggests that the instructional strategies and interventions implemented throughout the year are beginning to have a positive impact on student learning outcomes. To support continued improvement, the school provided standards-aligned instruction, targeted intervention programs, literacy support services, and ongoing data analysis to identify and address student learning needs. English Learners received designated and integrated English Language Development (ELD) instruction, while Students with Disabilities were provided specialized supports and accommodations to improve access to rigorous academic content.

Goal 2-Metric 6: he Measures of Academic Progress (MAP) Reading assessment data from Fall to Spring indicate that a majority of students met their individual growth targets during the 2025–26 school year. Overall, 56.4% of All Students met their projected growth targets in reading. Similar results were observed among Hispanic students (56.4%) and Socioeconomically Disadvantaged students (55.8%), demonstrating consistent growth across these student groups. While more than half of students achieved their expected growth, the data also identify opportunities for improvement among certain student populations. English Learners achieved a growth target attainment rate of 46.7%, Students with Disabilities achieved 48.9%, and White students achieved 47.4%, indicating that fewer than half of students in these groups met their projected reading growth goals. These results suggest that the school's instructional programs and reading interventions are supporting academic growth for many students; however, additional targeted supports are needed to ensure that all student groups make sufficient progress toward grade-level literacy expectations. The lower rates among English Learners and Students with Disabilities highlight the importance of continuing differentiated instruction, targeted intervention services, and specialized supports to address diverse learning needs.

Goal 2-Metric 7 : The Weighted-Averaged Conditional Growth Index (CGI) and Conditional Growth Percentile (CGP) results from the 2025–26 MAP Reading assessment provide insight into how student growth compared to national growth norms. Overall, All Students achieved a CGI of 0.33 and a CGP of the 63rd percentile, indicating that students, on average, demonstrated reading growth that exceeded the growth of 63% of similar students nationwide. This result reflects strong progress in reading achievement and suggests that the school's instructional programs are supporting student growth effectively. Several student groups also demonstrated growth above national norms. Hispanic students achieved a CGI of 0.34 and a CGP of the 63rd percentile, while Socioeconomically Disadvantaged students achieved a CGI of 0.27 and a CGP of the 61st percentile. These results indicate that these student groups experienced growth at rates higher than the national average for comparable students and reflect the positive impact of targeted instructional supports and interventions. While some student

groups demonstrated positive growth, the results also highlight areas for continued improvement. English Learners achieved a CGI of 0.10 and a CGP of the 25th percentile, indicating that although growth was positive, it occurred at a rate below that of most similar students nationwide. Additionally, Students with Disabilities achieved a CGI of -0.17 and a CGP of the 43rd percentile, while White students achieved a CGI of -0.04 and a CGP of the 48th percentile, suggesting that these groups experienced growth rates slightly below national expectations. These data demonstrate that the school is making meaningful progress in supporting reading growth for many students, particularly among All Students, Hispanic students, and Socioeconomically Disadvantaged students. However, the performance of English Learners and Students with Disabilities indicates a need for continued focus on differentiated instruction, targeted interventions, and specialized supports to accelerate growth and close achievement gaps.

Goal 2-Metric 8: The 2025–26 CAASPP Mathematics assessment results indicate that 17.51% of All Students met or exceeded the state standard in mathematics. Among student groups, 17.33% of Hispanic students, 16.12% of Socioeconomically Disadvantaged students, and 15.79% of White students met or exceeded the standard, demonstrating relatively similar levels of performance across these populations. Additionally, 7.50% of Students with Disabilities met or exceeded the standard, while 2.17% of English Learners met or exceeded the standard. Although the percentage of students meeting or exceeding standards remains below desired levels, the school experienced notable improvement in mathematics performance as reflected on the California Dashboard, where the Mathematics indicator increased by 12.8 points and moved into the Yellow performance level. This growth suggests that the instructional strategies and supports implemented during the year are contributing to positive academic progress. The results also highlight ongoing achievement gaps among student groups, particularly for English Learners and Students with Disabilities. These outcomes underscore the need for continued focus on strengthening foundational math skills, increasing access to rigorous grade-level content, and providing targeted interventions to support students who are performing below standard.

Goal 2-Metric 9: The 2025–26 California School Dashboard results indicate that students continue to perform below the state standard in mathematics, as reflected by the Distance from Standard (DFS) measure. Overall, All Students scored 90.6 points below standard, demonstrating that significant work remains to improve mathematics achievement and ensure students are meeting grade-level expectations. Among student groups, Hispanic students scored 91.0 points below standard, Socioeconomically Disadvantaged students scored 92.1 points below standard, and White students scored 97.2 points below standard, reflecting performance levels that were generally consistent with the schoolwide average. However, the greatest areas of need were evident among English Learners, who scored 125.8 points below standard, and Students with Disabilities, who scored 136.6 points below standard. These results highlight substantial achievement gaps and indicate that these student groups require additional academic support to accelerate learning and improve mathematics outcomes. Despite these challenges, the school demonstrated meaningful progress in mathematics during the year. The California Dashboard Mathematics Indicator increased by 12.8 points, resulting in the school moving into the Yellow performance level. This growth suggests that the instructional strategies, interventions, and supports implemented throughout the year are contributing to improved student outcomes, even though overall performance remains below the state standard. To support student achievement, the school provided standards-aligned mathematics instruction, utilized benchmark and formative assessment data to guide instructional decisions, and implemented targeted intervention programs for students requiring additional support. Teachers engaged in data analysis and differentiated instruction to address learning gaps and strengthen students' conceptual understanding and problem-solving skills.

Goal 2-Metric 10: The 2025–26 Measures of Academic Progress (MAP) Mathematics assessment results indicate that 49.0% of All Students met their projected growth targets from Fall to Spring. This suggests that nearly half of the student population achieved the expected level of academic growth in mathematics during the school year. Among student groups, 49.4% of Hispanic students met their growth targets, closely

aligning with the schoolwide rate. Socioeconomically Disadvantaged students achieved a growth target attainment rate of 42.2%, while English Learners achieved 39.1%, indicating that fewer than half of students in these groups met their projected growth goals. These results suggest a need for continued targeted support to accelerate mathematics growth for these student populations. A notable area of success was observed among Students with Disabilities, with 75.0% meeting their growth targets, significantly exceeding the performance of other student groups and demonstrating strong growth throughout the school year. Additionally, 42.1% of White students met their projected growth targets, indicating an opportunity for continued improvement within this subgroup. While the data show that many students made meaningful progress in mathematics, the results also highlight the need to increase the percentage of students meeting their expected growth targets, particularly among English Learners and Socioeconomically Disadvantaged students. The school's positive growth on the California Dashboard Mathematics Indicator suggests that instructional improvements and intervention efforts are having a positive impact, but additional work is needed to ensure more students achieve accelerated growth.

Goal 2-Metric 11:The Weighted-Averaged Conditional Growth Index (CGI) and Conditional Growth Percentile (CGP) results from the 2025–26 MAP Mathematics assessment provide insight into student growth relative to national norms. Overall, All Students achieved a CGI of -0.20 and a CGP of the 42nd percentile, indicating that students demonstrated growth at a rate slightly below that of comparable students nationwide. While students made progress in mathematics during the school year, the overall rate of growth did not meet national growth expectations. Among student groups, Hispanic students achieved a CGI of -0.18 and a CGP of the 43rd percentile, representing the strongest growth performance among the reported subgroups, although growth remained slightly below national norms. Socioeconomically Disadvantaged students achieved a CGI of -0.26 and a CGP of the 40th percentile, indicating growth below the national average for similar students. The results also identify significant opportunities for improvement among several student groups. English Learners achieved a CGI of -0.67 and a CGP of the 25th percentile, while White students achieved a CGI of -0.68 and a CGP of the 25th percentile. Additionally, Students with Disabilities achieved a CGI of -0.75 and a CGP of the 23rd percentile, indicating that these groups experienced growth rates substantially below those of comparable students nationwide. These results suggest that current supports have not yet accelerated learning at the level needed to close achievement gaps in mathematics. Although the MAP growth data indicate that mathematics growth remained below national expectations, the school demonstrated positive progress on the California Dashboard Mathematics Indicator, increasing by 12.8 points and moving into the Yellow performance level. This improvement suggests that schoolwide instructional efforts are contributing to higher levels of achievement, even as growth rates continue to be an area of focus.
throughout the year, the school implemented standards-aligned mathematics instruction, utilized benchmark and formative assessment data to guide instruction, and provided targeted interventions for students requiring additional support. Teachers engaged in data analysis and differentiated instruction to address unfinished learning and strengthen mathematical reasoning and problem-solving skills.

Goal 2-Metric 12: During the 2025–26 school year, 60.0% of English Learners increased by at least one English Learner Progress Indicator (ELPI) Performance Level or maintained Performance Level 4 (English Language Proficient). This result exceeded the school's target of 50.0%, demonstrating strong progress in supporting English Learners' language development and academic success. The outcome reflects the effectiveness of the school's English Learner program and the targeted supports implemented to accelerate English language acquisition. Through designated and integrated English Language Development (ELD) instruction, data-driven instructional practices, and ongoing monitoring of student progress, English Learners were provided with meaningful opportunities to develop their language skills and access grade-level content. This achievement aligns with the school's performance on the California Dashboard, where the English Learner Progress Indicator increased by 15 percentage points, resulting in a Blue performance level. The significant growth demonstrates that English Learners are making substantial progress toward English proficiency and that the school's efforts to support language development are producing positive results. Key factors contributing to this success included targeted interventions, differentiated instruction, regular

analysis of student performance data, and collaboration among teachers to ensure that English Learners received the academic and linguistic supports needed to succeed. These efforts helped create a learning environment where students could make measurable gains in English proficiency while engaging in rigorous academic instruction.

Goal 2-Metric 13: During the 2025–26 school year, 30.4% of English Learners were reclassified as Fluent English Proficient (RFEP) as of June 10, 2026. This represents an increase from 28.8% in 2024–25 and significantly exceeded the school's target outcome of 10% or higher. The increase in the reclassification rate demonstrates the effectiveness of the school's efforts to support English Learners in developing the language skills necessary to achieve English proficiency. By exceeding the target by more than 20 percentage points, the school has shown strong success in preparing English Learners to meet the criteria for reclassification and fully access rigorous academic content. Several factors contributed to this positive outcome, including high-quality designated and integrated English Language Development (ELD) instruction, ongoing progress monitoring, targeted interventions, and the use of data to identify and address students' language development needs. Teachers and support staff worked collaboratively to provide English Learners with both linguistic and academic supports, helping students make progress toward proficiency while achieving success in their core academic courses. The increase in the RFEP rate aligns with the school's overall success in supporting English Learners, as evidenced by the significant gains in the English Learner Progress Indicator (ELPI) and the school's Blue performance level on the California Dashboard. These outcomes indicate that English Learners are making meaningful progress toward English proficiency and achieving important academic milestones.

Goal 2-Metric 14: The 2024–25 CAASPP Science assessment results indicate that 15.03% of All Students met or exceeded the state standard in science. Among student groups, 14.96% of Hispanic students and 12.14% of Socioeconomically Disadvantaged students met or exceeded the standard, reflecting performance levels that were generally consistent with the schoolwide average. However, English Learners and Students with Disabilities recorded 0.00% meeting or exceeding the standard, highlighting significant achievement gaps and areas requiring focused attention. While the results demonstrate that a portion of students are achieving proficiency in science, the overall percentage remains below desired levels and indicates a need to strengthen science instruction and student achievement across all grade levels. The outcomes for English Learners and Students with Disabilities are of particular concern and suggest that additional supports are needed to ensure these student groups can successfully access and demonstrate mastery of the California Next Generation Science Standards (NGSS). Throughout the year, the school continued to implement standards-aligned science instruction and provide opportunities for students to engage in inquiry-based learning, critical thinking, and problem-solving activities. Teachers incorporated hands-on investigations and cross-curricular connections to help students build scientific knowledge and skills. Assessment data were also reviewed to identify areas of need and inform instructional planning. Despite these efforts, the results indicate that additional strategies are necessary to improve science achievement. Moving forward, the school will focus on strengthening NGSS-aligned instruction, increasing opportunities for hands-on and inquiry-based learning, and providing targeted academic support for English Learners and Students with Disabilities. Teachers will continue to utilize data to guide instruction and monitor student progress, while professional development opportunities will support the implementation of effective science instructional practices. The school remains committed to improving science achievement for all students and increasing the percentage of students who meet or exceed standards on the CAASPP Science assessment. Particular emphasis will be placed on addressing achievement gaps and ensuring equitable access to rigorous science learning experiences for all student groups.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1
Budgeted: $1,415,501.16
Actual: $1,465,123.65
Explanation: The variance between budgeted and actual expenditures is primarily due to updated staffing and benefit costs, including adjustments to salaries and associated benefits that were not fully captured in the original budget assumptions, resulting in slightly higher-than-projected expenditures.

Goal 2 Action 2
Budgeted: $46,642.00
Actual: $39,694.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 3
Budgeted: $661,500.06
Actual: $658,066.91
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 4
Budgeted: $139,056.30
Actual: $141,509.28
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 5
Budgeted: $802,094.17
Actual: $749,309.08
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Metric 1:
The actions were highly effective, resulting in 100% of students having access to all educational programs and services, including supports for unduplicated pupils and students with disabilities. This demonstrates successful implementation of systems that ensured equitable access to resources and interventions.

Metric 2:
The actions were partially effective. While only 61% of required observations were completed, the implementation of a new observation rubric and online platform established a stronger evaluation system and built administrative capacity for future years.

Metric 3:
The actions were partially effective, as 54% of students earned a grade of C or better. Although the target was not met, academic supports and progress monitoring helped more than half of students successfully meet course expectations.

Metric 4:
The actions were moderately effective in improving ELA achievement, with approximately one-third of students meeting or exceeding standards. However, significant achievement gaps remain for English Learners and Students with Disabilities.

Metric 5:
The actions demonstrated effectiveness as ELA performance improved on the California Dashboard. While students remain below standard, growth in DFS results suggests that literacy interventions and instructional supports are positively impacting student achievement.

Metric 6:
The actions were effective in supporting reading growth, with 56.4% of students meeting their MAP Reading growth targets. Continued attention is needed to improve outcomes for English Learners and Students with Disabilities.

Metric 7:
The actions were effective overall, as students exceeded national growth norms in reading, with a CGP at the 63rd percentile. However, additional supports are needed to accelerate growth among English Learners and Students with Disabilities.

Metric 8:
The actions were moderately effective, contributing to a 12.8-point increase in mathematics performance and movement to the Yellow Dashboard level. Despite this progress, overall proficiency rates remain low and achievement gaps persist.

Metric 9:
The actions were effective in improving mathematics outcomes, as reflected by positive growth on the Dashboard. However, DFS results indicate that students remain substantially below standard, particularly English Learners and Students with Disabilities.

Metric 10:
The actions were partially effective, with 49% of students meeting their MAP Mathematics growth targets. Strong growth among Students with Disabilities was a notable success, while additional support is needed for English Learners and Socioeconomically Disadvantaged students.

Metric 11:

The actions were somewhat effective, as mathematics growth remained below national norms but schoolwide achievement improved. Continued refinement of instructional practices and interventions is needed to accelerate student growth.

Metric 12:
The actions were highly effective, with 60% of English Learners increasing an ELPI level or maintaining proficiency, exceeding the 50% target. This result reflects the success of the school's ELD program and targeted supports.

Metric 13:
The actions were highly effective, resulting in a 30.4% RFEP rate, significantly exceeding the 10% target. This outcome demonstrates the effectiveness of instructional programs and interventions designed to support English Learners toward proficiency.

Metric 14:
The actions were partially effective in science, as a small percentage of students met or exceeded standards. While science instruction and NGSS implementation were in place, additional supports are needed to improve outcomes, particularly for English Learners and Students with Disabilities.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Magnolia Science Academy-Bell is no longer identified for Differentiated Assistance (DA). This change reflects the school's progress in key state indicators, including improvements in English Language Arts, Mathematics, and English Learner Progress. As a result of exiting DA status, the school will continue to implement and refine the successful strategies and interventions that contributed to these gains while maintaining a strong focus on continuous improvement. Goals, metrics, and actions will continue to emphasize academic achievement, English Learner success, and equitable access to supports, while additional attention will be directed toward areas of ongoing need, including chronic absenteeism, suspension rates, and subgroup performance. The school's experience exiting DA reinforces the effectiveness of its current improvement efforts and informs future planning aimed at sustaining and accelerating student success.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all	$1,573,863.30	No

Action #	Title	Description	Total Funds	Contributing
		academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal categorical funds: N/A		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost/SchoolMint Grow software fees.	$31,194.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: -Professional Development: Title II; Amount: $12,000.00 -Prof Dev-Other: Title II; Amount: $12,000.00		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I/ELD coordinator salary and benefits, instructional aide salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Paper, BrainPOP, Cityspan, Newsela, and myON.) The following expenditures will be funded by federal Title funds: -Educational Software: Title I; Amount: $19,713.13 -Teacher Salaries: Title I; Amount: $27,874.00 -STRS: Title I; Amount: $5,346.17 -OASDI/Medicare: Title I; Amount: $405.86 -Health & Wellness Benefits: Title I; Amount: $4,234.33 -Unemployment Insurance: Title I; Amount: $139.95	$641,230.33	Yes

Action #	Title	Description	Total Funds	Contributing
2.4	Designated and integrated ELD programs and support for ELs	Charter School will provide services to ELs, including newcomers and LTELs, by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits. The following expenditures will be funded by federal Title funds: -Teacher Salaries: Title I; Amount: $12,672.00 -STRS: Title I; Amount: $2,420.35 -OASDI/Medicare: Title I; Amount: $183.74 -Health & Wellness Benefits: Title I; Amount: $2,117.52 -Unemployment Insurance: Title I; Amount: $63.36	$134,210.71	Yes

Action #	Title	Description	Total Funds	Contributing
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: -SpEd Ctrct Inst: IDEA SPED; Amount: $77,693.00	$701,772.55	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	INNOVATION: All students will have access to a well-rounded, 21st century education that supports their readiness for college and the global world under our second core pillar of Innovation. Each student will become an independent, innovative scholar by practicing Creativity and Adaptability in their learning, using technology and data-driven online learning, and demonstrating high-quality learning outcomes in myriad ways.	Broad Goal

State Priorities addressed by this goal.

Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 16%	2024-25: (As of 6/5/25) 14.0%	2025-26 (As of 5/22/26): 23%	2026-27: >= 10%	+7 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall Implementation Summary:

During the 2025–26 school year, the school continued to prioritize increasing student access to a broad course of study, with specific attention to advanced math, computer/technology integration, and STEAM learning opportunities. The implementation of planned actions was mostly consistent with the original design, although some variances emerged in student participation in advanced math offerings.

3.1 – During the 2025–26 school year, 23% of students were enrolled in an Accelerated and/or Advanced Mathematics course and/or participated in an Advanced Math Club, exceeding the school's target outcome of 10% or higher. This result demonstrates the effectiveness of the school's efforts to expand access to advanced learning opportunities and promote student engagement in rigorous mathematics coursework. Exceeding the target by 13 percentage points indicates strong student interest and participation in advanced mathematics pathways. The availability of accelerated courses and enrichment opportunities provided students with additional challenges, opportunities to deepen their mathematical understanding, and pathways to prepare for higher-level coursework. This success reflects the school's commitment to fostering academic excellence and ensuring that students have access to programs that support advanced learning. Through

student recruitment efforts, academic counseling, and the promotion of enrichment opportunities, the school was able to increase participation beyond its established goal.

3.2 – During the 2025–26 school year, 100% of students in the graduating class completed a Computer/Technology course and/or participated in blended learning experiences as part of their program of study, exceeding the school's target outcome of 90% or higher. This result demonstrates the school's success in ensuring that all graduates had meaningful exposure to technology-based learning and opportunities to develop digital literacy skills. Achieving a 100% participation rate reflects the effectiveness of the school's efforts to integrate technology into instruction and provide students with access to technology-rich learning environments. Through computer and technology coursework, blended learning opportunities, and the use of digital tools across content areas, students developed skills that are essential for success in college, careers, and an increasingly technology-driven world. This outcome also demonstrates the school's commitment to preparing students for postsecondary opportunities by ensuring that technology and digital learning are embedded within the educational experience. The successful implementation of these programs provided students with opportunities to strengthen problem-solving, collaboration, research, and technology skills while engaging in rigorous academic content.

3.3 – During the 2025–26 school year, 100% of students created or demonstrated a STEAM-focused project, experiment, model, or presentation, exceeding the school's target outcome of 80%. This result demonstrates the successful implementation of instructional practices and learning opportunities that promote student engagement in Science, Technology, Engineering, Arts, and Mathematics (STEAM). Exceeding the target by 20 percentage points reflects the school's commitment to providing all students with hands-on, project-based learning experiences that encourage creativity, critical thinking, collaboration, and problem-solving. Through classroom projects, experiments, design challenges, and student presentations, students were able to apply academic concepts in meaningful and authentic ways. This outcome highlights the effectiveness of the school's efforts to integrate STEAM learning across the curriculum and ensure that every student had the opportunity to engage in inquiry-based and experiential learning activities. These experiences helped students develop essential 21st-century skills while increasing their exposure to STEAM-related fields and career pathways.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1
Budgeted: $0.00
Actual: $0.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 2
Budgeted: $2,241.00
Actual: $1,000.00
Explanation: The variance between budgeted and actual expenditures is due to lower-than-expected utilization of allocated funds for this action, resulting in reduced spending compared to the original budget.

Goal 3 Action 3
Budgeted: $8,720.35
Actual: $8,720.35
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 4
Budgeted: $297,485.03
Actual: $298,052.54
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 5
Budgeted: $719,369.15
Actual: $728,783.31
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Metric 3.1:
The actions were highly effective, resulting in 23% of students participating in Accelerated/Advanced Mathematics courses or Advanced Math Club, more than doubling the target of 10%. Expanded access to advanced coursework, student recruitment efforts, and academic counseling successfully increased participation in rigorous mathematics opportunities.

Metric 3.2:
The actions were highly effective, with 100% of graduating students completing a Computer/Technology course and/or participating in blended learning experiences, exceeding the 90% target. The integration of technology across instructional programs ensured that all students developed essential digital literacy and technology skills.

Metric 3.3:
The actions were highly effective, as 100% of students completed a STEAM-focused project, experiment, model, or presentation, surpassing the 80% target. The school's emphasis on project-based learning and STEAM integration provided all students with meaningful opportunities to apply critical thinking, creativity, collaboration, and problem-solving skills.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the successful outcomes achieved during the 2025–26 school year, no significant changes were made to Goal 3 or its associated actions. Students exceeded target outcomes in advanced mathematics participation, technology integration, and STEAM engagement,

indicating that the current strategies are effectively supporting college and career readiness. For the coming year, the school will continue to implement and refine these successful practices while exploring opportunities to further expand student access to advanced coursework, technology-based learning experiences, and STEAM-related activities. Target outcomes may be adjusted upward to promote continuous improvement and encourage even greater student participation and achievement. The school will also continue monitoring participation and performance data to ensure equitable access to these opportunities for all student groups.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will promote a college-going culture through college visits, college/career days, and other college/career related activities. Expenditures associated with this action include the following: college/career-related materials and activities. The following expenditures will be funded by federal Title funds: N/A	$0.00	Yes
3.2	STEM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.	$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: supplemental STEM program fees. The following expenditures will be funded by federal Title funds: N/A		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications, including Artificial Intelligence (AI); digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. As our students gain the ability to navigate computing systems, utilize networks and the internet responsibly, analyze and interpret data with an antibias lens, solve problems using algorithms and programming, and carefully consider the ethics of computing technologies, they will become informed digital citizens who can leverage AI and other technologies to promote social justice and equity. Expenditures associated with this action include the following: computer teacher salary and benefits, and internet security program fees. The following expenditures will be funded by federal Title funds: -Educational Software: Title I; Amount: $3,000.00	$8,720.35	Yes
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as	$213,279.41	Yes

Action #	Title	Description	Total Funds	Contributing
		well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: N/A		
3.5	Additional programs and activities that support well-rounded education	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded	$724,500.65	Yes

Action #	Title	Description	Total Funds	Contributing
		education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	CONNECTION: All students, families, staff, and other educational partners will experience our third core pillar, Connection, and have access to meaningful engagement opportunities that help cultivate Effective Communication and Global Citizenship in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3)	2023-24: 8	2024-25: (As of 6/5/25) 5	2025-26 (As of 5/15/26): 8	2026-27: >= 8	0

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

4.1: During the 2025–26 school year, the school held 8 Parent Advisory Committee (PAC) meetings, successfully meeting the target outcome of 8 meetings. This achievement demonstrates the school's commitment to engaging parents and families as active partners in the educational process and in the development, implementation, and evaluation of school programs and initiatives. The PAC meetings provided families with regular opportunities to receive information, review school data, learn about the Local Control and Accountability Plan (LCAP), and provide feedback on school goals, programs, and services. These meetings also served as an important forum for two-way communication between families and school leadership, helping to ensure that parent perspectives were considered in decision-making processes.

4.2: During the 2025–26 school year, the school held 4 English Learner Advisory Committee (ELAC) meetings, successfully meeting the target outcome of 4 meetings. This achievement demonstrates the school's commitment to engaging families of English Learners and ensuring that they have meaningful opportunities to participate in discussions related to programs, services, and supports for English Learner students. The ELAC meetings provided parents with information regarding English Learner programs, student achievement data, language development progress, reclassification requirements, and school initiatives designed to support English Learners. These meetings also allowed families to provide feedback and recommendations that informed school decision-making and program development.

4.3: During the 2025–26 school year, the school hosted 57 parent engagement activities and events, significantly exceeding the target outcome of 10 or more events. This result demonstrates the school's strong commitment to building meaningful partnerships with families and creating multiple opportunities for parent involvement throughout the year. The wide range of events included parent education workshops, family engagement activities, student showcases, informational meetings, advisory committee meetings, and school-community events designed to strengthen communication and collaboration between the school and families. These opportunities helped increase parent awareness of school programs, student learning, and ways to support student success at home. Exceeding the target by a substantial margin reflects the effectiveness of the school's family engagement efforts and its commitment to fostering an inclusive and collaborative school community. Moving forward, the school will continue to provide a variety of meaningful engagement opportunities that encourage family participation and strengthen partnerships that support positive student outcomes.

4.4: During the 2025–26 school year, 37.9% of students were home-visited by teachers, significantly exceeding the target outcome of 15% or more. This result demonstrates the school's strong commitment to building meaningful relationships with students and families through personalized outreach and engagement efforts. Home visits provided valuable opportunities for teachers to strengthen communication with families, gain a deeper understanding of students' needs, and foster positive partnerships that support student success. These interactions helped build trust between the school and families while promoting greater family involvement in the educational process. Exceeding the target by more than 22 percentage points reflects the effectiveness of the school's family engagement strategies and the dedication of staff to connecting with students and families beyond the classroom. These efforts contributed to a stronger sense of community and enhanced collaboration between home and school.

4.5: During the 2025–26 school year, the school achieved an Average Daily Attendance (ADA) rate of 94.14%, exceeding the target outcome of 92%. This result demonstrates the effectiveness of the school's efforts to promote consistent student attendance and ensure students remained engaged in their learning. Achieving an ADA rate above the established target indicates that the majority of students attended school regularly and had access to instructional opportunities throughout the year. Strong attendance is a key factor in supporting academic achievement, student engagement, and overall school success. Several factors contributed to this positive outcome, including ongoing attendance monitoring, communication with families, attendance incentives, and intervention strategies designed to address attendance concerns early. The school's Coordination of Services Team (COST) also played an important role in identifying and supporting students experiencing attendance challenges and connecting families with appropriate resources and interventions.

4.6: During the 2025–26 school year, the school's Chronic Absenteeism Rate decreased to 17.2% as of May 22, 2026, representing a significant improvement from 27.0% reported on the 2025 California Dashboard (based on 2024–25 data). This result exceeded the school's target outcome of 20% or lower, demonstrating substantial progress in reducing chronic absenteeism and improving student attendance. The decrease of 9.8 percentage points reflects the effectiveness of the school's attendance improvement efforts and targeted interventions. Throughout the year, the school closely monitored attendance data, communicated regularly with families, and implemented early intervention strategies to address attendance concerns before they became chronic. The establishment of the Coordination of Services Team (COST) further strengthened the school's ability to identify students in need of support and connect families with appropriate resources and services. This positive outcome indicates that the school's attendance initiatives successfully increased student engagement and promoted more consistent school attendance. Improved attendance supports greater access to instruction, strengthens academic achievement, and contributes to positive student outcomes across multiple measures.

4.7: During the 2025–26 school year, the school's Middle School Dropout Rate was 0%, exceeding the target outcome of 2% or lower. This result demonstrates the school's success in retaining students and ensuring that all middle school students remained enrolled and engaged in their educational program throughout the year. Achieving a 0% dropout rate reflects the effectiveness of the school's student support systems, academic interventions, attendance monitoring, counseling services, and family engagement efforts. School staff worked proactively to identify and address barriers that could negatively impact student engagement and persistence, helping students remain connected to their education. This outcome also indicates that students and families benefited from a supportive school environment that promoted academic success, positive relationships, and access to necessary resources and services. Ongoing communication with families and targeted support for students experiencing academic, behavioral, or attendance challenges contributed to this positive result.

4.8: During the 2025–26 school year, the school's Student Suspension Rate decreased to 1.0% as of May 22, 2026, a significant improvement from 6.4% reported on the 2025 California Dashboard (based on 2024–25 data). This result exceeded the school's target outcome of 2.5% or lower, demonstrating substantial progress in improving student behavior and reducing exclusionary disciplinary practices. The reduction of 5.4 percentage points reflects the effectiveness of the school's efforts to create a positive school climate and provide proactive behavioral supports for students. Throughout the year, staff focused on implementing behavior interventions, restorative practices, social-emotional supports, and early intervention strategies to address student needs before behaviors escalated to the level of suspension. The implementation of the Coordination of Services Team (COST) further strengthened the school's ability to identify students requiring behavioral support and connect them with appropriate interventions and resources. Increased collaboration among administrators, teachers, counselors, students, and families also contributed to improved student outcomes and a reduction in disciplinary incidents. Achieving a suspension rate well below the established target demonstrates the success of the school's efforts to foster a safe, supportive, and inclusive learning environment. Moving forward, the school will continue to implement positive behavior supports, restorative practices, and targeted interventions to maintain low suspension rates while promoting student engagement, well-being, and academic success.

4.9: During the 2025–26 school year, the school's Student Expulsion Rate was 0%, exceeding the target outcome of 0.50% or lower. This result demonstrates the school's success in maintaining a safe and supportive learning environment while effectively addressing student behavioral concerns through proactive interventions and support systems. Achieving a 0% expulsion rate indicates that student behaviors were successfully managed through preventative measures, restorative practices, counseling services, behavioral interventions, and ongoing collaboration with students and families. These efforts allowed the school to address challenges while keeping students engaged in their educational program whenever appropriate.

4.10: During the 2025–26 school year, the School Experience Survey achieved strong participation rates across stakeholder groups, with 100.0% of students, 61.5% of families, and 93.0% of staff completing the survey. These participation rates provided the school with valuable feedback regarding school climate, engagement, safety, communication, and overall educational experiences. The 100% student participation rate demonstrates exceptional student engagement and ensured that student perspectives were fully represented in the survey results. Similarly, the 93.0% staff participation rate reflects strong staff involvement and commitment to continuous school improvement. The 61.5% family participation rate provided meaningful input from families and reflects successful outreach efforts to encourage parent and guardian engagement in the feedback process. High participation rates across stakeholder groups strengthen the reliability and representativeness of the survey data, allowing the school to make informed decisions regarding programs, services, and improvement efforts. The feedback gathered through the survey helps identify strengths, areas for growth, and priorities for future planning, including the development and refinement of the Local Control and Accountability Plan (LCAP).

4.11: During the 2025–26 school year, the School Experience Survey measured stakeholder perceptions of the school's climate of support for academic learning, fairness of discipline and school norms, safety, and sense of belonging. The average approval rates were 67% among students, 91% among families, and 67% among staff.
The 91% family approval rate reflects a strong level of satisfaction among families and suggests that parents and guardians view the school as a safe, supportive, and welcoming environment that promotes student success. This positive feedback indicates that the school's communication efforts, family engagement activities, and support systems are effectively meeting family needs and expectations. The 67% approval rates from both students and staff indicate that a majority of respondents reported positive perceptions of the school environment. While these results demonstrate overall satisfaction with the school's climate and support systems, they also highlight opportunities for continued growth in strengthening students' and staff members' sense of belonging, perceptions of safety, and confidence in school systems

and practices. Throughout the year, the school implemented initiatives designed to foster a positive school culture, including social-emotional supports, student engagement activities, family outreach efforts, behavioral interventions, and staff collaboration opportunities. The implementation of the Coordination of Services Team (COST) further enhanced the school's ability to provide timely support to students and address barriers to success.

4.12: During the 2025–26 school year, the School Experience Survey measured overall stakeholder satisfaction through the statement: “Overall, I am satisfied and would recommend this school to other students, parents, or educators.” Results showed 73% satisfaction among students, 87% satisfaction among families, and 68% satisfaction among staff. The 87% family satisfaction rate indicates a high level of confidence in the school's programs, services, and overall educational environment. Families' willingness to recommend the school reflects positive perceptions of academic opportunities, communication, student support systems, and school culture. The 73% student satisfaction rate demonstrates that a strong majority of students reported positive experiences at the school and would recommend it to their peers. This suggests that students generally feel supported and engaged in their educational experience, while also identifying opportunities to further enhance school climate and student engagement. The 68% staff satisfaction rate indicates that most staff members view the school positively and would recommend it to other educators. At the same time, the results highlight opportunities to continue strengthening staff support, collaboration, professional growth opportunities, and overall workplace satisfaction. Overall, the survey results demonstrate positive perceptions of the school among all stakeholder groups, with particularly strong support from families. The feedback provides valuable insight into the effectiveness of the school's programs and services while identifying areas for continued growth.

4.13: During the 2025–26 school year, the school's student retention rate was 92%, exceeding the target outcome of 85% or higher. This result demonstrates the school's success in maintaining student enrollment and fostering a positive educational experience that encourages students and families to remain part of the school community.
Exceeding the target by 7 percentage points indicates that students and families value the academic programs, support services, school culture, and educational opportunities provided by the school. Strong retention rates are often reflective of positive relationships between the school, students, and families, as well as confidence in the school's ability to meet students' academic and social-emotional needs. Several factors contributed to this positive outcome, including ongoing family engagement efforts, academic support programs, student intervention services, and initiatives designed to promote a safe and supportive school environment. Regular communication with families and a focus on student success helped strengthen school-community partnerships and encourage continued enrollment. The retention rate of 92% demonstrates the effectiveness of the school's efforts to engage and support students and families. Moving forward, the school will continue implementing strategies that promote student achievement, family satisfaction, and school connectedness to maintain strong retention rates and support long-term student success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 1
Budgeted: $275.00
Actual: $275.00

Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 2
Budgeted: $215,908.04
Actual: $223,027.27
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 3
Budgeted: $379,445.96
Actual: $366,406.59
Explanation: The variance between budgeted and actual expenditures is primarily due to timing and allocation adjustments within community school initiatives, resulting in slightly lower expenditures than originally projected while still supporting increased family and community engagement efforts.

Goal 4 Action 4
Budgeted: $2,000.00
Actual: $2,000.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 5
Budgeted: $322,744.84
Actual: $278,870.73
Explanation: The variance between budgeted and actual expenditures is due to cost savings and lower-than-anticipated spending across program implementation areas, while still fully maintaining required services and supports.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Metric 4.1:
The actions were effective, as the school successfully held all 8 PAC meetings, providing families with consistent opportunities to engage in school planning and decision-making.

Metric 4.2:
The actions were effective, as the school met its goal of holding 4 ELAC meetings and actively engaged families of English Learners in discussions regarding programs and services.

Metric 4.3:

The actions were highly effective, with 57 parent engagement activities conducted, far exceeding the target of 10 and strengthening school-family partnerships.

Metric 4.4:
The actions were highly effective, resulting in 37.9% of students receiving teacher home visits, significantly exceeding the target and strengthening relationships between families and the school.

Metric 4.5:
The actions were effective, contributing to an ADA rate of 94.14%, which exceeded the target and reflected strong student attendance and engagement.

Metric 4.6:
The actions were highly effective, reducing chronic absenteeism from 27.0% to 17.2%, surpassing the target and demonstrating the success of attendance interventions and family outreach efforts.

Metric 4.7:
The actions were highly effective, resulting in a 0% middle school dropout rate and ensuring that all students remained enrolled and engaged in their education.

Metric 4.8:
The actions were highly effective, reducing the suspension rate to 1.0%, well below the target, through proactive behavior supports and restorative practices.

Metric 4.9:
The actions were highly effective, maintaining a 0% expulsion rate through preventative interventions, student supports, and positive behavior strategies.

Metric 4.10:
The actions were effective, resulting in strong survey participation rates among students, families, and staff, ensuring meaningful stakeholder input for school improvement efforts.

Metric 4.11:
The actions were effective, as survey results reflected strong family approval and generally positive perceptions among students and staff, while also identifying areas for continued growth in school climate and belonging.

Metric 4.12:
The actions were effective, with overall satisfaction rates indicating positive perceptions of the school among students, families, and staff, particularly among families.

Metric 4.13:

The actions were highly effective, resulting in a 92% student retention rate, exceeding the target and reflecting strong family satisfaction, student support systems, and school connectedness.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the positive outcomes achieved across Goal 4 metrics, no significant changes were made to the overall goal structure. The school will continue implementing the family engagement, attendance, student support, and school climate strategies that contributed to strong results in parent participation, attendance, student retention, and reductions in chronic absenteeism, suspensions, and expulsions. Reflections on stakeholder survey data identified opportunities to further strengthen student and staff perceptions of school climate, belonging, and overall satisfaction. As a result, the school will enhance efforts to increase student voice, strengthen staff collaboration and support systems, and expand initiatives that promote a positive and inclusive school culture. Additionally, the school will continue leveraging the Coordination of Services Team (COST), home visits, family engagement activities, and proactive attendance interventions to sustain gains in student attendance, behavior, and retention. Target outcomes may be adjusted upward in select areas where current performance significantly exceeded expectations in order to support continuous improvement and maintain high levels of engagement among students, families, and staff.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision-making	Charter School will build the capacity of and support administrators, teachers and staff in order to build the capacity of and support family members to effectively engage in advisory groups and decision-making. Charter School will provide all families with opportunities to provide input on policies and programs, and implement Community School strategies to reach and seek input from any underrepresented groups in the school community. Some periodic information/input sessions for families include, but are not limited to, Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation	$275.00	Yes

Action #	Title	Description	Total Funds	Contributing
		of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees and stipends for staff participation/service to SSC, ELAC, and Board Meetings. The following expenditures will be funded by federal Title funds: N/A		
4.2	Building relationships and partnerships with families for student outcomes	Charter School will develop the capacity of staff to build trusting and respectful relationships with families and create welcoming environments for all families in the community. Our staff will learn about each family's strengths, cultures, languages, and goals for their children. We will promote participation in activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. We will provide professional learning and support to staff to improve capacity to partner with families and to provide families with information and resources to support student learning and development in the home. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will also support families to understand and exercise their legal rights and advocate for their own students and all students. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to,	$212,023.46	Yes

Action #	Title	Description	Total Funds	Contributing
		the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title funds: -Teacher Salaries: Title I; Amount: $13,000.00 -STRS: Title I; Amount: $2,483.00 -OASDI/Medicare: Title I; Amount: $188.50 -Unemployment Insurance: Title I; Amount: $65.00		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental,	$366,524.69	Yes

Action #	Title	Description	Total Funds	Contributing
		restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform expenses, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students. The following expenditures will be funded by federal Title funds: -Instructional Materials and Supplies: Title I; Amount: $4,053.00 -Educational Software: Title I; Amount: $5,000.00		
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, families, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will		Yes

Action #	Title	Description	Total Funds	Contributing
		analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: N/A		
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. Expenditures associated with this action include the following: Community Schools Coordinator salary and benefits, membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses. The following expenditures will be funded by federal Title funds: N/A	$304,984.81	Yes

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.4	**Action:** Healthy and nutritious meals **Need:** Low-income students do not have sufficient or consistent access to nutritious meals and they develop poor eating habits. As a result, they experience poor health and academic outcomes, including, but not limited to, obesity, chronic absenteeism and lower grades. There	MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	is a need to provide all our students with healthy and nutritious meals. **Scope:** LEA-wide	consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We will provide two school meals free of charge during each schoolday to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	
2.2	**Action:** Professional development for high-quality instruction **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. **Scope:** LEA-wide	With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost/SchoolMint Grow software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2, TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded

			• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.3	**Action:** MTSS - Academic enrichment, intervention, and student support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials,	Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2,

	technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. **Scope:** LEA-wide	English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.	TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading

2.4	**Action:** Designated and integrated ELD programs and support for ELs **Need:**	Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers	Goal 2: For all students, but particularly for the EL and LTEL student groups: • Percentage of students who

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	The majority of Charter School's student population consists of English Learners (EL), including long-term ELs (LTELs), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. **Scope:** LEA-wide	with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students.	have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect that this action will result in increased academic achievement of our student groups, particularly of our ELs and LTELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and EL reclassification rates as identified in our LCAP metrics in Goal 2.	• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP) • Percentage of students who have met or exceeded standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-Mathematics assessments (Source: CA School Dashboard) • Percentage of students who

3.1	**Action:** College/Career readiness programs and activities **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. **Scope:** LEA-wide	With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.2	**Action:** STEM and GATE programs **Need:** Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of everchanging technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEM curricula. **Scope:** LEA-wide	Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum	Goal 3: • Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS) • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS) • Percentage of students who have created or demonstrated a

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.	STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)
3.3	**Action:** Digital literacy and citizenship programs **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way.	With the needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and	Goal 3: • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.	
3.4	**Action:** Physical education, activity, and fitness **Need:** Low-income students do not have sufficient or consistent access to physical activities/sports and fitness education. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. **Scope:** LEA-wide	MPS is committed to the optimal development of every student. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We expect that this action will result in increased attendance and grades as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.5	**Action:** Additional programs and activities that support well-rounded education **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "average approval rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. **Scope:** LEA-wide	Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students and families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students and families to the question, "Overall, I am satisfied and would recommend this school to other students/families.

			" (Source: Local Indicator Priority 6, Panorama Education)
4.1	**Action:** Seeking family input for decision-making **Need:** It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. **Scope:** LEA-wide	Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their	Goal 4: • Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3) • Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3) • School experience survey "average approval rates" based on the responses of our families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense

		families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing Community School strategies to reach and seek input from any underrepresented groups in the school community. We also expect that this action will result in increased parent satisfaction as measured by the annual educational partner surveys in Goal 4: Action 4.	of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our families to the question, "Overall, I am satisfied and would recommend this school to other families." (Source: Local Indicator Priority 6, Panorama Education)
4.2	**Action:** Building relationships and partnerships with families for student outcomes **Need:** Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved	In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students'	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. **Scope:** LEA-wide	grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way	• Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3) • Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS) • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA

4.3	**Action:** MTSS - PBIS and SEL support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism	Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. **Scope:** LEA-wide	and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source: CDE DataQuest, CALPADS) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules,

4.4	**Action:** Annual educational partner surveys **Need:** It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve	Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see	Goal 4: • School experience survey "participation rates" by students, families, and staff (Source: Local

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Educational partner voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage educational partners in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage educational partners in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. **Scope:** LEA-wide	their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect that this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4. 			• School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and would recommend this school to other students/families/ educators." (Source: Local Indicator Priority 6, Panorama Education)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Similar to the current academic year, MSA-8 will utilize the concentration grant add-on funds ($86,014) in the following manner:

MSA-8 is using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

By adding these faculty/staff members, we aim to strengthen our ability to address the diverse needs of our student population and provide targeted support where it is most needed. This strategic allocation of funds will help create a more conducive learning environment and contribute to our student's overall growth and achievement.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

Powered by BoardOnTrack

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

Powered by BoardOnTrack

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

Powered by BoardOnTrack

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Powered by BoardOnTrack

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

Powered by BoardOnTrack

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Powered by BoardOnTrack

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Powered by BoardOnTrack

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

Powered by BoardOnTrack

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

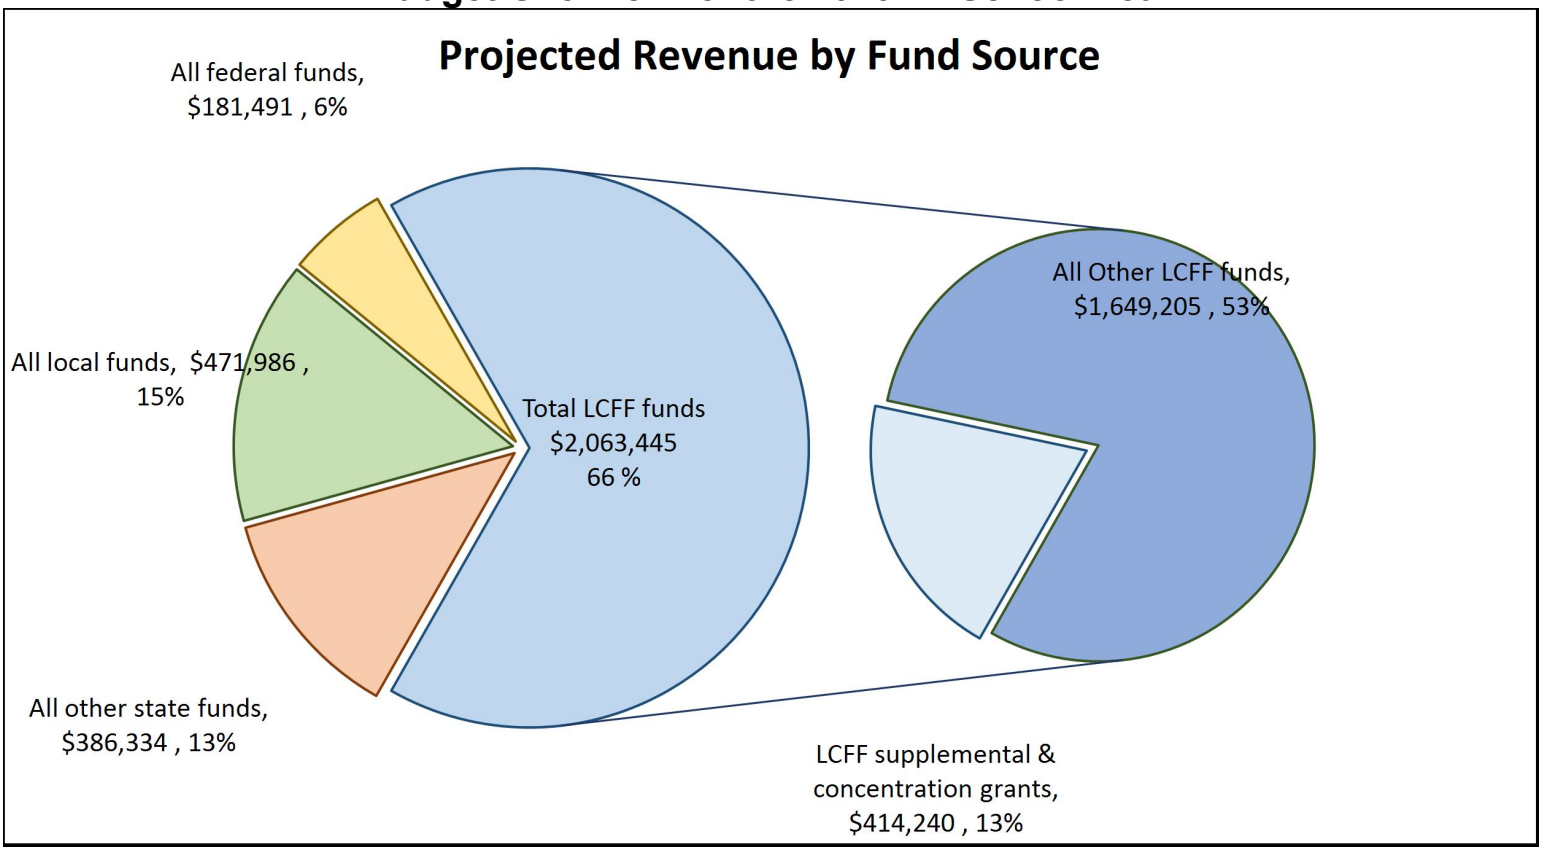
California Department of Education
November 2024

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy - Orange County
CDS Code: 30-10306-0165217
School Year: 2026-27
LEA contact information:
Maria Czerner-Rowell
Principal
mrowell@magnoliapublicschools.org
(714) 452-2440

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

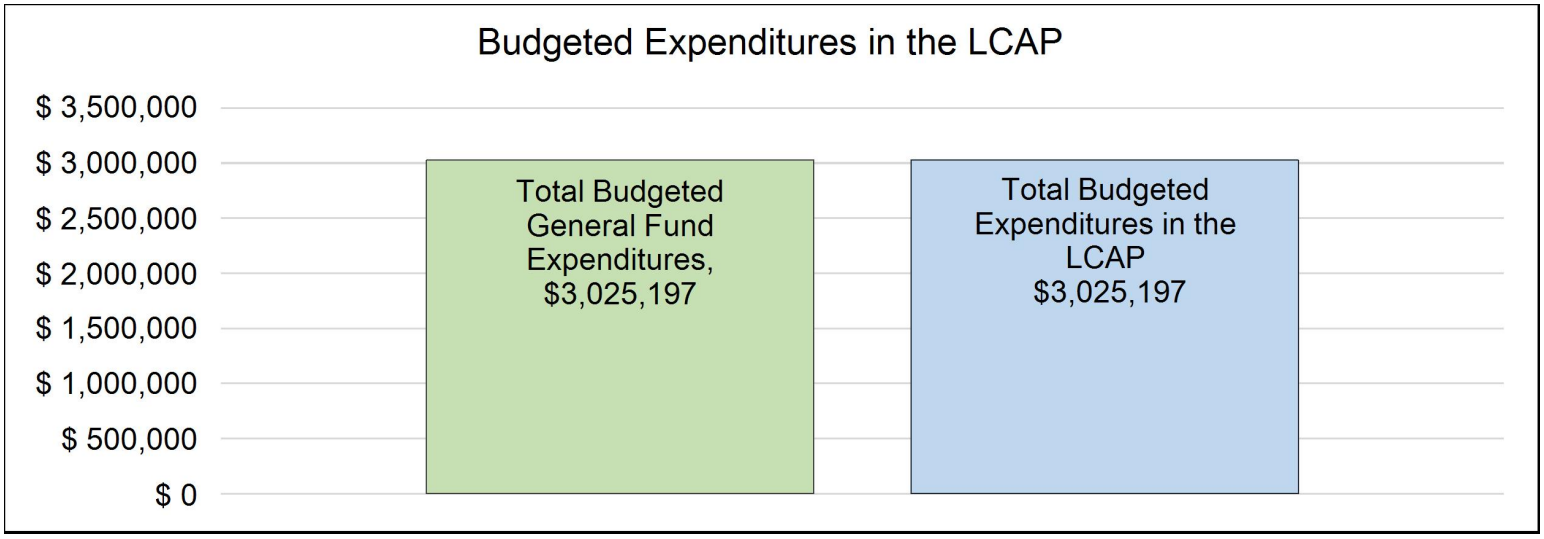


This chart shows the total general purpose revenue Magnolia Science Academy - Orange County expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy - Orange County is $3,103,256, of which $2,063,445 is Local Control Funding Formula (LCFF), $386,334 is other state funds, $471,986 is local funds, and $181,491 is federal funds. Of the $2,063,445 in LCFF Funds, $414,240 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Magnolia Science Academy - Orange County plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Magnolia Science Academy - Orange County plans to spend $3,025,197 for the 2026-27 school year. Of that amount, $$3,025,197 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

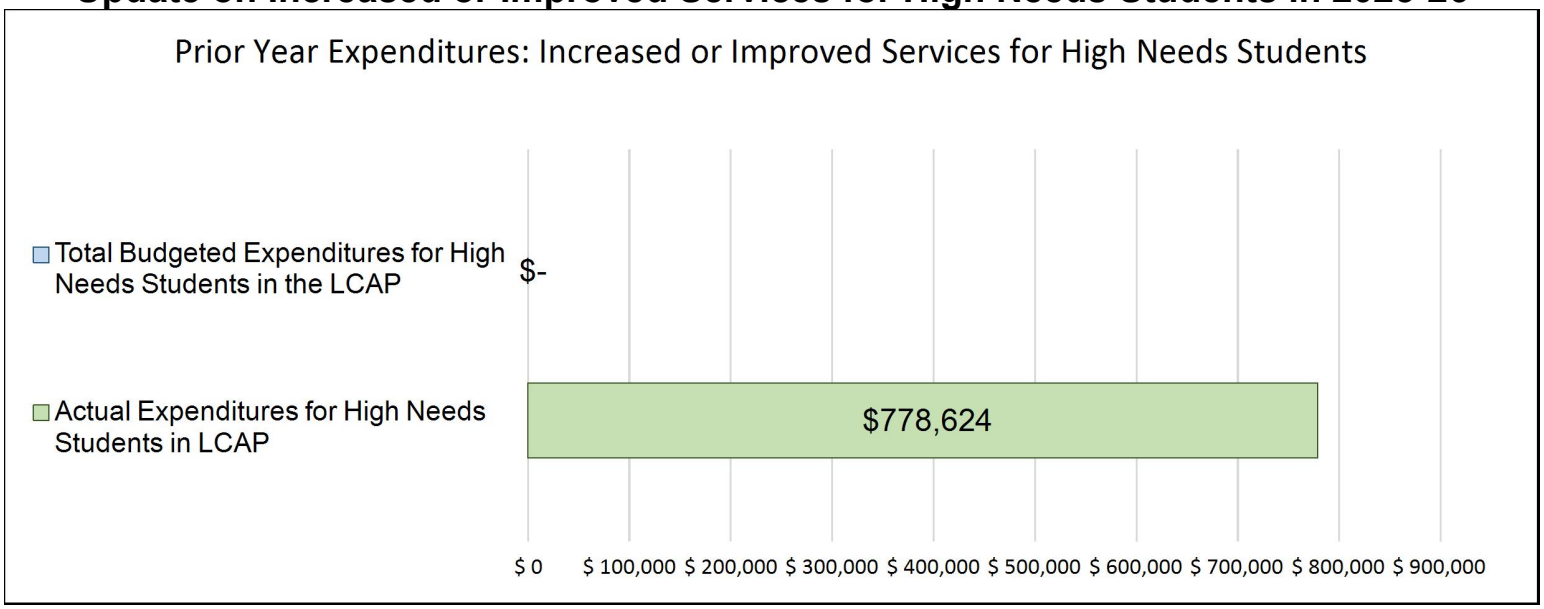
N/A

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Magnolia Science Academy - Orange County is projecting it will receive $414,240 based on the enrollment of Foster Youth, English learner, and low-income students. Magnolia Science Academy - Orange County must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy - Orange County plans to spend $589,717 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26



This chart compares what Magnolia Science Academy - Orange County budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy - Orange County estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Magnolia Science Academy - Orange County's LCAP budgeted $0.00 for planned actions to increase or improve services for high needs students. Magnolia Science Academy - Orange County actually spent $778,624 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Magnolia Science Academy – Orange County (MSA OC) is a classroom-based public charter school with two new campuses opening in Fall 2025. Both campuses will serve grades TK–6 with a strong emphasis on science, technology, engineering, arts, and mathematics (STEAM). MSA OC Anaheim will open on August 11, 2025, located at 412 W Carl Karcher Way, Anaheim, CA 92801. MSA OC Placentia-Yorba Linda will open on August 26, 2025, located at 1830 N Kellogg Dr, Anaheim, CA 92807.

As part of the Magnolia Public Schools (MPS) network, MSA OC is committed to graduating students from historically underserved communities as scientifically-minded, socially responsible, and globally aware citizens. The school will deliver a rich and engaging educational experience that meets the unique needs of its learners through high-quality, site-based instruction and hands-on learning opportunities. Core instruction will be reinforced with academic interventions such as tutoring, after-school programs, and strong connections to external learning resources.

We anticipate serving a linguistically and culturally diverse population, with many families speaking a language other than English at home and facing economic challenges. Based on community demographics, we project that 80% of our students will be socioeconomically disadvantaged, 30% will be English Learners, and 10% will receive special education services.

Opening Date: August 26, 2025

Our Mission

Magnolia Public Schools provides a safe and nurturing community using a whole-child approach to deliver a high-quality, college-preparatory STEAM education in an environment that cultivates respect for self and others.

Our Vision

Graduates of Magnolia Public Schools are committed to building a more peaceful and inclusive global society by transforming traditional ideas through creative thinking, effective communication, and the discipline of scientific inquiry.

Core Values:

INNOVATION
Students are empowered to direct their learning through personalized scheduling, early identification of learning styles, interests, and career goals. A variety of hands-on opportunities—ranging from robotics and computer science to the visual and performing arts—foster imagination, creativity, and innovation.

CONNECTION
MSA OC cultivates strong relationships among students, families, staff, and the wider community. Through integrated partnerships, students experience a supportive environment where individual strengths are recognized, character is celebrated, and academic support is bolstered through mentorships, internships, and restorative justice practices.

EXCELLENCE
Academic excellence is achieved through a rigorous, student-centered learning model that includes project-based learning, performance portfolios, formative and summative assessments, and academic discourse. Students are encouraged to pursue knowledge deeply and contribute original ideas across diverse academic settings.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

As a new school, we do not have historical data on student outcomes. During the 2025–26 school year, our focus will be on establishing effective instructional systems, a safe and inclusive culture, and strong stakeholder relationships to support student learning and well-being.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parents	Magnolia Science Academy – Orange County prioritized meaningful engagement with educational partners in the development of this LCAP. Prior to opening, outreach efforts included community information sessions, interest surveys, and town halls to gather input from prospective families, educators, and community members. A founding advisory group, including parent representatives and prospective staff, helped shape key elements of the school's mission, vision, and academic programming. Moving forward, the school will formally establish Parent Communities such as Parent Advisory Committee (PAC), English Learner Advisory Committee (ELAC -if applicable) to ensure continuous and structured engagement of stakeholders in decision-making.
Students	If applicable, All students in grades 3 through 5 participate annually in an educational partner survey, which provides a structured opportunity to share their perspectives on key aspects of their school experience, including school climate, safety, engagement, and academic support. In addition to the survey, the Student Council plays an active role in providing ongoing feedback to school leadership. Through regular meetings and discussions, Student Council members represent their 2025-26 Local Control and Accountability Plan for Magnolia Science Academy Orange County peers and offer valuable insights that help inform schoolwide decisions and improvement efforts. Together, these channels ensure that student voice remains an integral part of the school's planning and development process.

Educational Partner(s)	Process for Engagement
Teachers	Staff and teachers will receive regular updates on the LCAP during monthly staff meetings, ensuring they remain informed and engaged in the school's progress toward its goals. In addition, all staff members will be invited to participate in an annual educational partner survey, where they can provide feedback on key aspects of school operations, culture, and student support. The results of these surveys will be reviewed and shared with all educational partners to promote transparency and collective reflection. Staff and teachers will also serve as active members of both the English Learner Advisory Committee (ELAC -if applicable)) and the Parent Advisory Council (PAC), where their professional insights contribute meaningfully to discussions and planning related to student success and school improvement. This inclusive approach ensures that staff voice is consistently integrated into decision-making processes at all levels.
School Administrators	School administrators of each campus will receive regular updates on the LCAP during monthly staff meetings, ensuring they remain informed and engaged in the school's progress toward its goals. In addition, all staff members will be invited to participate in an annual educational partner survey, where they can provide feedback on key aspects of school operations, culture, and student support. The results of these surveys will be reviewed and shared with all educational partners to promote transparency and collective reflection. Staff and teachers will also serve as active members of both the English Learner Advisory Committee (ELAC -if applicable)) and the Parent Advisory Council (PAC), where their professional insights contribute meaningfully to discussions and planning related to student success and school improvement. This inclusive approach ensures that staff voice is consistently integrated into decision-making processes at all levels.
Other School Personnel	Other School Personnel will receive regular updates on the LCAP during monthly staff meetings, ensuring they remain informed and engaged in the school's progress toward its goals. In addition, all staff members will be invited to participate in an annual educational partner survey, where they can provide feedback on key aspects of school operations, culture, and student support. The results of these surveys will be reviewed and shared with all educational partners to promote transparency and collective reflection. Staff and teachers will also

Educational Partner(s)	Process for Engagement
	serve as active members of both the English Learner Advisory Committee (ELAC -if applicable)) and the Parent Advisory Council (PAC), where their professional insights contribute meaningfully to discussions and planning related to student success and school improvement. This inclusive approach ensures that staff voice is consistently integrated into decision-making processes at all levels.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The adopted LCAP was influenced by feedback gathered from students, families, teachers, school administrators, and other educational partners through surveys, PAC and ELAC meetings, staff meetings, community engagement events, and ongoing stakeholder discussions. Educational partners emphasized the importance of maintaining a safe and supportive learning environment, strengthening academic programs, increasing opportunities for family engagement, supporting student well-being, and expanding access to technology and innovative learning experiences. As a result, the LCAP continues to prioritize actions and services that support academic achievement, student engagement, family partnerships, staff development, and school connectedness. Feedback also informed the refinement of strategies related to attendance, communication, intervention supports, and continuous improvement efforts to better meet the needs of all students.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers, standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. MSAOC will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable MSAOC for compliance and meeting charter goals. MSAOC will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

This year, MSAOC implemented the actions associated with this goal to ensure students had access to qualified teachers, standards-aligned instructional materials, and a safe, well-maintained learning environment. Working closely with Magnolia Public Schools Home Office departments, the school established systems to support compliance, operations, facilities, and instructional programs. Key successes included providing instructional materials to all students, maintaining safe facilities with no identified deficiencies, and achieving a teacher attendance rate of 96.8%. As a newly established school, some baseline data were not yet available; however, strong foundational systems were successfully implemented to support future growth and continuous improvement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

MSA-OC's overall enrollment was lower than projected in its first year, and accordingly, adjustments to the budget were made. For the actions below where there is a Budgeted dollar amount and an Actual amount of $0.00, those costs were reallocated to support MSA-OC's fiscal stability.

Goal 1 Action 1
Budgeted: $11,558
Actual: $0.00

Goal 1 Action 2
Budgeted: $283,500
Actual: $0.00

Goal 1 Action 3
Budgeted: $560,629
Actual: $0.00

Goal 1 Action 4
Budgeted: $10,000
Actual: $0.00

Goal 1 Action 5
Budgeted: $72,251
Actual: $69,402
Explanation: Costs associated with this Action were within the Budgeted range, and associated activities proceeded as initially planned.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under this goal have been effective in establishing a high-quality learning environment. The school successfully provided students with access to standards-aligned instructional materials, maintained safe and well-maintained facilities with no identified deficiencies, and ensured appropriately assigned staff. Teacher attendance exceeded the target at 96.8%, demonstrating strong staff engagement and operational stability. While some baseline metrics were not yet available due to the school's recent opening, the actions taken have established a strong foundation for continued progress toward this goal.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from prior implementation, no significant changes were made to the goal, metrics, or target outcomes. The school will continue to focus on providing qualified teachers, standards-aligned instructional materials, and safe, well-maintained facilities to support

student success. Minor adjustments were made to strengthen implementation and monitoring processes as the school continues to grow and refine its systems. These adjustments are intended to support continuous improvement and ensure progress toward achieving the established outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay. The following expenditures will be funded by federal Title funds: N/A	$30,557.50	No
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and	$240,296.00	No

Action #	Title	Description	Total Funds	Contributing
		corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: N/A		
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.	$298,893.00	No

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A		
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, and refreshments. The following expenditures will be funded by federal Title funds: N/A	$14,000.00	Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and	$113,261.40	No

Action #	Title	Description	Total Funds	Contributing
		accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal funds: -Clerical & Tech: Federal CSP; Amount: $6,692.42 -STRS: Federal CSP; Amount: $1,278.94 -OASDI/Medicare: Federal CSP; Amount: $97.09 -Health & Welfare Benefits: Federal CSP; Amount: $1,224.38 -Unemployment Insurance: Federal CSP; Amount: $33,48		

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	EXCELLENCE: Under our first core pillar of Excellence, all students will have equitable access to a high-quality core curricular and instructional program and make academic progress in alignment with California content standards (CCSS, NGSS, etc.) through our data-driven, differentiated and engaging learning program. Students will develop competencies aligned with our “Graduate Profile,” including Literacy with a Learner’s Mindset and Critical Thinking skills as they pursue academic excellence.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

MSAOC implemented the actions associated with this goal by providing all students with access to standards-aligned curriculum, differentiated instruction, targeted interventions, and data-driven instructional practices. Teachers regularly analyzed student performance data, including classroom assessments and NWEA MAP results, to inform instruction and provide appropriate supports for English Learners, students with disabilities, and other student groups. Professional development focused on instructional effectiveness, differentiation, and student engagement to strengthen classroom practices.

As a newly established school, implementation efforts focused on building foundational academic systems, establishing assessment and progress-monitoring processes, and ensuring equitable access to high-quality instruction. Key successes included providing access to instructional programs and services for all students, achieving 100% access to programs and services, and establishing observation and coaching systems to support instructional quality. Challenges included the limited availability of historical state assessment data and the need to develop baseline measures for several academic indicators. Despite these challenges, the school successfully implemented the planned actions and established a strong foundation for continued academic growth and improvement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

MSA-OC's overall enrollment was lower than projected in its first year, and accordingly, adjustments to the budget were made. For the actions below where there is a Budgeted dollar amount and an Actual amount of $0.00, those costs were reallocated to support MSA-OC's fiscal stability.

Goal 2 Action 1
Budgeted: $1,051,521
Actual: $964,736

Explanation: The projected expenses are within the budgeted range. All actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 2
Budgeted: $24,000
Actual: $0.00

Goal 2 Action 3
Budgeted: $405,636
Actual: $439,854
Explanation: Intervention/enrichment material costs were slightly higher than initially projected, leading to the Actual amount exceeding the Budgeted amount by $34,218.

Goal 2 Action 4
Budgeted: $0.00
Actual: $0.00

Goal 2 Action 5
Budgeted: $342,646
Actual: $252,646
Explanation: Lower than anticipated enrollment for the first year meant that fewer expenses related to students with disabilities were required. Hence, spending for this Action was $90,000 lower than initially projected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under this goal have been effective in establishing a strong foundation for academic achievement and continuous improvement. Students had access to standards-aligned curriculum, differentiated instruction, intervention supports, and instructional programs designed to meet diverse learning needs. Professional development, instructional coaching, and classroom observations supported the implementation of high-quality instructional practices. The school achieved 100% access to programs and services for all students and successfully implemented systems for progress monitoring and data-driven decision-making. While state assessment data and historical trend data remain limited due to the school's recent establishment, current academic and instructional indicators demonstrate that the actions are contributing positively toward progress on this goal and positioning the school for continued growth in student achievement.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from prior implementation, no significant changes were made to the goal or overall focus on academic excellence. However, the school refined certain actions to strengthen data analysis, intervention systems, and instructional monitoring processes. As the school continues to establish baseline academic data, metrics and target outcomes will be reviewed annually to ensure they remain ambitious, measurable, and aligned with student needs. These refinements are intended to support continuous improvement and accelerate student achievement for all student groups.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal funds: -Cert Adminis: Federal CSP; Amount: $216,024.00 -STRS: Federal CSP; Amount: $41,260.58 -OASDI/Medicare: Federal CSP; Amount: $3,132.35 -Health & Welfare Benefits: Federal CSP; Amount: $12,243.75 -Unemployment Insurance: Federal CSP; Amount: $1,080.12	$1,173,174.54	No
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that	$19,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost/SchoolMint Grow software fees. The following expenditures will be funded by federal Title funds:		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other	$416,678.97	Yes

Action #	Title	Description	Total Funds	Contributing
		support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Standards Plus, Quizizz, BrainPOP, Spelling City, Cambium Learning, Learning A-Z, Alexandria Library, Mystery Science and myON.) The following expenditures will be funded by federal Title funds: -Educational Software: Title I; Amount: $20,000.00		
2.4	Designated and integrated ELD programs and support for ELs	Charter School will provide services to ELs, including newcomers and LTELs, by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.		Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits. The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A	$358,663.34	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	INNOVATION: All students will have access to a well-rounded, 21st century education that supports their readiness for college and the global world under our second core pillar of Innovation. Each student will become an independent, innovative scholar by practicing Creativity and Adaptability in their learning, using technology and data-driven online learning, and demonstrating high-quality learning outcomes in myriad ways.	Broad Goal

State Priorities addressed by this goal.

Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The LEA developed this goal to ensure that all students have access to a well-rounded, innovative education that prepares them for success in college, career, and an increasingly complex global society. Through rigorous academics, technology integration, STEAM learning experiences, and opportunities for creativity, critical thinking, and problem-solving, students develop the skills needed to thrive in the 21st century. This goal reflects the school's commitment to fostering innovation, adaptability, and independent learning while providing equitable access to programs and experiences that promote college and career readiness. By engaging students in meaningful, technology-rich learning opportunities, the school supports the development of lifelong learners who are prepared to contribute positively to their communities and future professions.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During this year, the school implemented the actions associated with this goal by providing students with access to technology-integrated instruction, STEAM learning opportunities, and engaging educational experiences designed to promote creativity, innovation, and college and career readiness. Students participated in project-based learning activities and utilized digital learning tools to support academic growth and develop critical thinking and problem-solving skills.

A significant success was that 100% of students participated in a STEAM-focused project, experiment, model, or demonstration, exceeding the established target. As a newly established school serving elementary grades, some metrics related to advanced coursework and graduation pathway readiness were not yet applicable and will become more relevant as the school expands grade levels. No substantive differences occurred between the planned and actual implementation of actions. The school successfully established foundational systems and instructional practices that support innovation, technology integration, and 21st-century learning, positioning students for continued success in future years.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

MSA-OC's overall enrollment was lower than projected in its first year, and accordingly, adjustments to the budget were made. For the actions below where there is a Budgeted dollar amount and an Actual amount of $0.00, those costs were reallocated to support MSA-OC's fiscal stability.

Goal 3 Action 1
Budgeted: $0.00
Actual: $0.00

Goal 3 Action 2
Budgeted: $0.00
Actual: $0.00

Goal 3 Action 3
Budgeted: $0.00
Actual: $0.00

Goal 3 Action 4
Budgeted: $3,000
Actual: $0.00

Goal 3 Action 5
Budgeted: $74,900
Actual: $0.00

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under this goal have been effective in promoting innovation, technology integration, and 21st-century learning opportunities for students. Students participated in STEAM-focused learning experiences, project-based activities, and technology-enhanced instruction designed to foster creativity, critical thinking, collaboration, and problem-solving skills. A key indicator of success was that 100% of students completed a STEAM-focused project, experiment, model, or demonstration during the school year. As a newly established elementary school, some metrics related to advanced coursework and college and career readiness pathways are not yet applicable; however, the foundational systems and instructional practices implemented to date have successfully advanced progress toward the goal and will support continued growth as the school expands.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from prior implementation, no significant changes were made to the goal or its focus on innovation, technology integration, and college and career readiness. The school will continue to expand opportunities for students to engage in STEAM learning, project-based learning, and technology-enhanced instruction. Minor refinements were made to strengthen implementation, monitoring, and documentation of student participation in innovative learning experiences. These adjustments will support continuous improvement and ensure students continue to develop the creativity, critical thinking, collaboration, and adaptability skills necessary for future success.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will promote a college-going culture through college visits, college/career days, and other college/career related activities. Expenditures associated with this action include the following: college/career-related materials and activities. The following expenditures will be funded by federal Title funds: N/A		Yes
3.2	STEM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation,		

Action #	Title	Description	Total Funds	Contributing
		critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research. Expenditures associated with this action include the following: supplemental STEM program fees. The following expenditures will be funded by federal Title funds: N/A		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications, including Artificial Intelligence (AI); digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. As our students gain the ability to navigate computing systems, utilize networks and the internet responsibly, analyze and interpret data with an antibias lens, solve problems using algorithms and programming, and carefully consider the ethics of computing technologies, they will become informed digital citizens who can leverage AI and other technologies to promote social justice and equity. Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds: N/A		Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: N/A	$2,000.00	
3.5	Additional programs and activities that support well-rounded education	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics,	$71,400.00	Yes

Action #	Title	Description	Total Funds	Contributing
		advanced math, academic competitions, journalism, college mentorship, and other areas. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	CONNECTION: All students, families, staff, and other educational partners will experience our third core pillar, Connection, and have access to meaningful engagement opportunities that help cultivate Effective Communication and Global Citizenship in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

This school implemented the actions associated with this goal by creating meaningful opportunities for family, student, staff, and community engagement. Regular Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings were held, and the school hosted numerous family engagement activities, celebrations, informational workshops, and community events to strengthen partnerships and foster a sense of belonging. Attendance monitoring, student support systems, positive school culture initiatives, and communication efforts were also implemented to promote student engagement and connectedness.

Key successes included holding eight PAC meetings, eight ELAC meetings, and approximately 50 family engagement events throughout the year. The school maintained a strong average daily attendance rate of 93.85%, a low suspension rate of 1.9%, and zero expulsions. Panorama survey results also indicated strong student participation and positive family satisfaction levels. As a newly established school, challenges included building awareness, increasing family participation in survey completion, and establishing baseline data for several metrics. No substantive differences occurred between the planned and actual implementation of actions, and the school successfully established a strong foundation for a connected, safe, and supportive school community.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

MSA-OC's overall enrollment was lower than projected in its first year, and accordingly, adjustments to the budget were made. For the actions below where there is a Budgeted dollar amount and an Actual amount of $0.00, those costs were reallocated to support MSA-OC's fiscal stability.

Goal 4 Action 1
Budgeted: $0.00
Actual: $0.00

Goal 4 Action 2
Budgeted: $208,211
Actual: $215,927
Explanation: Costs associated with this Action were within the Budgeted range, and associated activities proceeded as initially planned.

Goal 4 Action 3
Budgeted: $12,000
Actual: $224,127
Explanation: Clerical & technical costs associated with this Action were significantly higher than initially projected, leading to an Actual value $212,127 higher than initially budgeted.

Goal 4 Action 4
Budgeted: $0.00
Actual: $0.00

Goal 4 Action 5
Budgeted: $159,306
Actual: $114,642
Explanation: As a result of lower-than-expected initial enrollment, fewer staff were needed in MSA-OC's first year. As a result, expenditures for this Action were $44,664 lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under this goal have been effective in strengthening relationships among students, families, staff, and the broader school community. Regular PAC and ELAC meetings, family engagement events, consistent communication, attendance monitoring, and student support systems contributed to a strong sense of connectedness and community involvement. The school successfully exceeded its targets for family engagement opportunities, holding 50 events and eight PAC and ELAC meetings. Student attendance remained strong at 93.85%, the suspension rate remained low at 1.9%, and there were no expulsions. Survey results also reflected positive student and family experiences. While continued efforts are needed to increase survey participation and strengthen staff satisfaction measures, the actions implemented to date have been effective in advancing the goal of fostering a safe, supportive, and connected school community.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from prior implementation, no significant changes were made to the goal or its focus on strengthening connections among students, families, staff, and the community. However, the school will continue to refine family engagement strategies, expand opportunities for educational partner participation, and strengthen communication efforts to increase survey participation and overall stakeholder engagement. Minor adjustments to implementation and monitoring processes will support continuous improvement while maintaining a safe, welcoming, and connected school environment. The established metrics and target outcomes remain appropriate and will continue to guide progress toward this goal.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision-making	Charter School will build the capacity of and support administrators, teachers and staff in order to build the capacity of and support family members to effectively engage in advisory groups and decision-making. Charter School will provide all families with opportunities to provide input on policies and programs, and implement Community School strategies to reach and seek input from any underrepresented groups in the school community. Some periodic information/input sessions for families include, but are not limited to, Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees. The following expenditures will be funded by federal Title funds: N/A		Yes
4.2	Building relationships and partnerships with families for student outcomes	Charter School will develop the capacity of staff to build trusting and respectful relationships with families and create welcoming environments for all families in the community. Our staff will learn about each family's strengths, cultures, languages, and goals for their children. We will promote participation in activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences. Administrators will greet all students and parents in the mornings during student drop off	$115,989.50	

Action #	Title	Description	Total Funds	Contributing
		and have an open-door policy welcoming all parents. We will provide professional learning and support to staff to improve capacity to partner with families and to provide families with information and resources to support student learning and development in the home. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will also support families to understand and exercise their legal rights and advocate for their own students and all students. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title I funds: -Teacher Salaries: Title I; Amount: $2,000.00 -STRS: Title I; Amount: $382.00 -OASDI/Medicare: Title I; Amount: $29.00 -Unemployment Insurance: Title I; Amount: $10.00		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as	$10,714.00	Yes

Action #	Title	Description	Total Funds	Contributing
		instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform expenses, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students. The following expenditures will be funded by federal Title funds: -Instructional Materials & Supplies: Resource: Title I		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, families, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: N/A		Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. Expenditures associated with this action include the following: Community Schools Coordinator salary and benefits, membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses. The following expenditures will be funded by federal Title funds: N/A	$160,568.50	Yes

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.4	**Action:** Healthy and nutritious meals **Need:** Low-income students do not have sufficient or consistent access to nutritious meals and they develop poor eating habits. As a result, they experience poor health and academic outcomes, including, but not limited to, obesity, chronic absenteeism and lower grades. There	MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	is a need to provide all our students with healthy and nutritious meals. **Scope:** LEA-wide	consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We will provide two school meals free of charge during each schoolday to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	
2.2	**Action:** Professional development for high-quality instruction **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. **Scope:** LEA-wide	With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost/SchoolMint Grow software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2, TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

			• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.3	**Action:** MTSS - Academic enrichment, intervention, and student support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials,	Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2,

	technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. **Scope:** LEA-wide	English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.	TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading

2.4	**Action:** Designated and integrated ELD programs and support for ELs **Need:**	Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers	Goal 2: For all students, but particularly for the EL and LTEL student groups: • Percentage of students who

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	The majority of Charter School's student population consists of English Learners (EL), including long-term ELs (LTELs), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. **Scope:** LEA-wide	with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students.	have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect that this action will result in increased academic achievement of our student groups, particularly of our ELs and LTELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and EL reclassification rates as identified in our LCAP metrics in Goal 2.	• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP) • Percentage of students who have met or exceeded standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-Mathematics assessments (Source: CA School Dashboard) • Percentage of students who

			and current year (Source: CA School Dashboard) • Percentage of ELs reclassified to Fluent English Proficient (RFEP) annually (Source: CDE DataQuest)
3.1	**Action:** College/Career readiness programs and activities **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. **Scope:** LEA-wide	With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.2	**Action:** STEM and GATE programs **Need:** Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of everchanging technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEM curricula **Scope:**	Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum	Goal 3: • Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS) • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS) • Percentage of students who have created or demonstrated a

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.	STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)
3.3	**Action:** Digital literacy and citizenship programs **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way.	With the needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and	Goal 3: • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.	
3.4	**Action:** Physical education, activity, and fitness **Need:** Low-income students do not have sufficient or consistent access to physical activities/sports and fitness education. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. **Scope:**	MPS is committed to the optimal development of every student. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We expect that this action will result in increased attendance and grades as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.5	**Action:** Additional programs and activities that support well-rounded education **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "average approval rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. **Scope:** LEA-wide	Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4	based on the responses of our students and families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students and families to the question, "Overall, I am satisfied and would recommend this school to other students/families.

			" (Source: Local Indicator Priority 6, Panorama Education)
4.1	**Action:** Seeking family input for decision-making **Need:** It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. **Scope:** LEA-wide	Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their	Goal 4: • Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3) • Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3) • School experience survey "average approval rates" based on the responses of our families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing Community School strategies to reach and seek input from any underrepresented groups in the school community. We also expect that this action will result in increased parent satisfaction as measured by the annual educational partner surveys in Goal 4: Action 4.	of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our families to the question, "Overall, I am satisfied and would recommend this school to other families." (Source: Local Indicator Priority 6, Panorama Education)
4.2	**Action:** Building relationships and partnerships with families for student outcomes **Need:** Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved	In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students'	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. **Scope:**	grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way	• Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3) • Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS) • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA

(Source: Local Indicator Priority 6, Panorama Education)
4.3	**Action:** MTSS - PBIS and SEL support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism	Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. **Scope:** LEA-wide	and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source: CDE DataQuest, CALPADS) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school

4.4	**Action:** Annual educational partner surveys **Need:** It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of	Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students,	Goal 4: • School experience survey "participation rates" by students, families, and staff (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Educational partner voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage educational partners in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage educational partners in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. **Scope:** LEA-wide	parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect that this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.	• School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and

			would recommend this school to other students/parents/ educators." (Source: Local Indicator Priority 6, Panorama Education)
4.5	**Action:** Community outreach and partnerships **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including	Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

If applicable - For this upcoming academic year, MSA OC will utilize the concentration grant add-on funds ($28,666) in the following manner:

MSA OC will be using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.
By adding these faculty/staff members, we aim to strengthen our ability to address the diverse needs of our student population and provide targeted support where it is most needed. This strategic allocation of funds will help create a more conducive learning environment and contribute to our student's overall growth and achievement

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 2 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

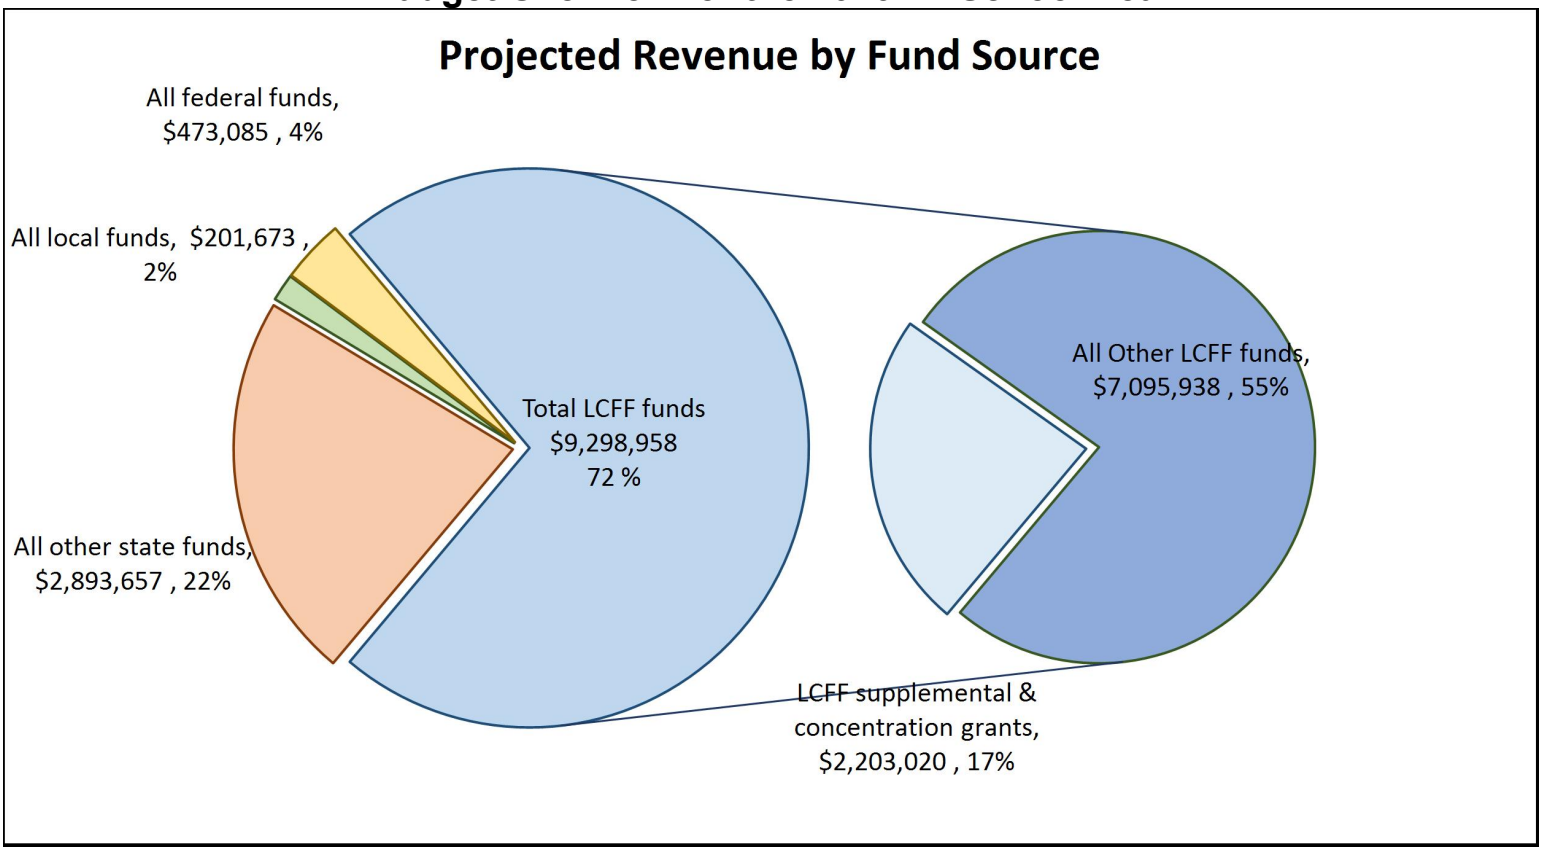
California Department of Education
November 2024

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy - Santa Ana
CDS Code: 30-76893-0130765
School Year: 2026-27
LEA contact information:
Steven Keskinturk
Principal
skeskinturk@magnoliapublicschools.org
(714) 479-0115

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

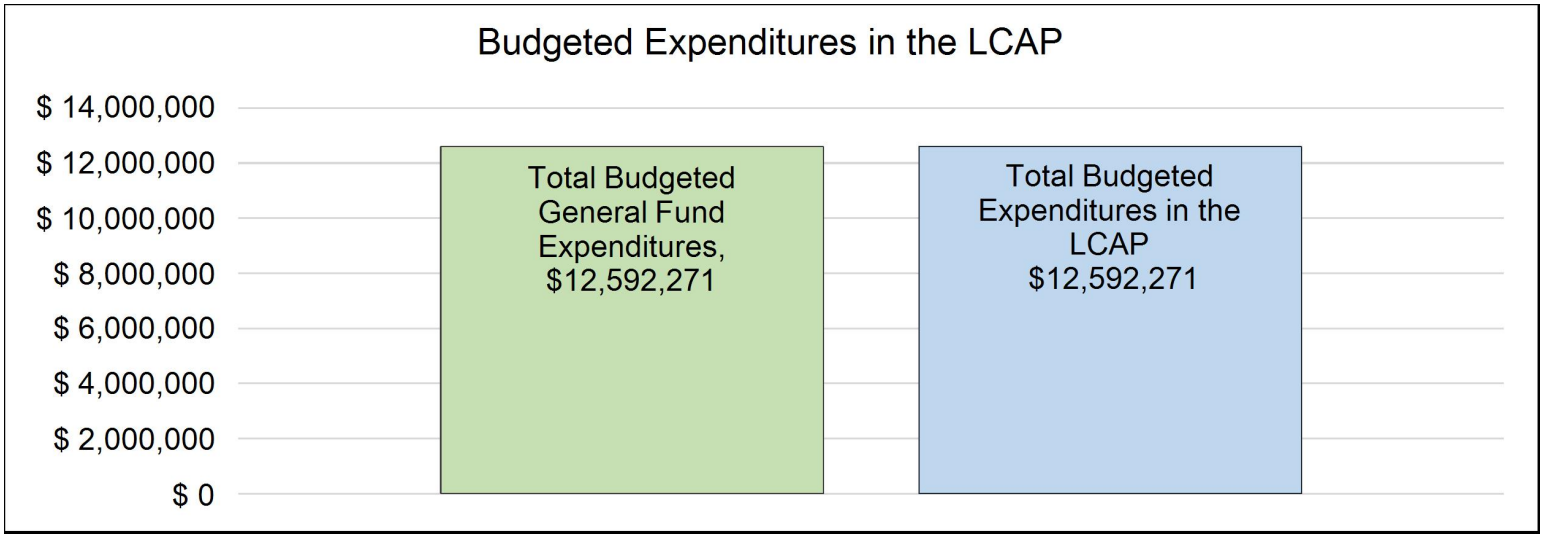


This chart shows the total general purpose revenue Magnolia Science Academy - Santa Ana expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy - Santa Ana is $12,867,373, of which $9,298,958 is Local Control Funding Formula (LCFF), $2,893,657 is other state funds, $201,673 is local funds, and $473,085 is federal funds. Of the $9,298,958 in LCFF Funds, $2,203,020 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Magnolia Science Academy - Santa Ana plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Magnolia Science Academy - Santa Ana plans to spend $12,592,271 for the 2026-27 school year. Of that amount, $12,592,271 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

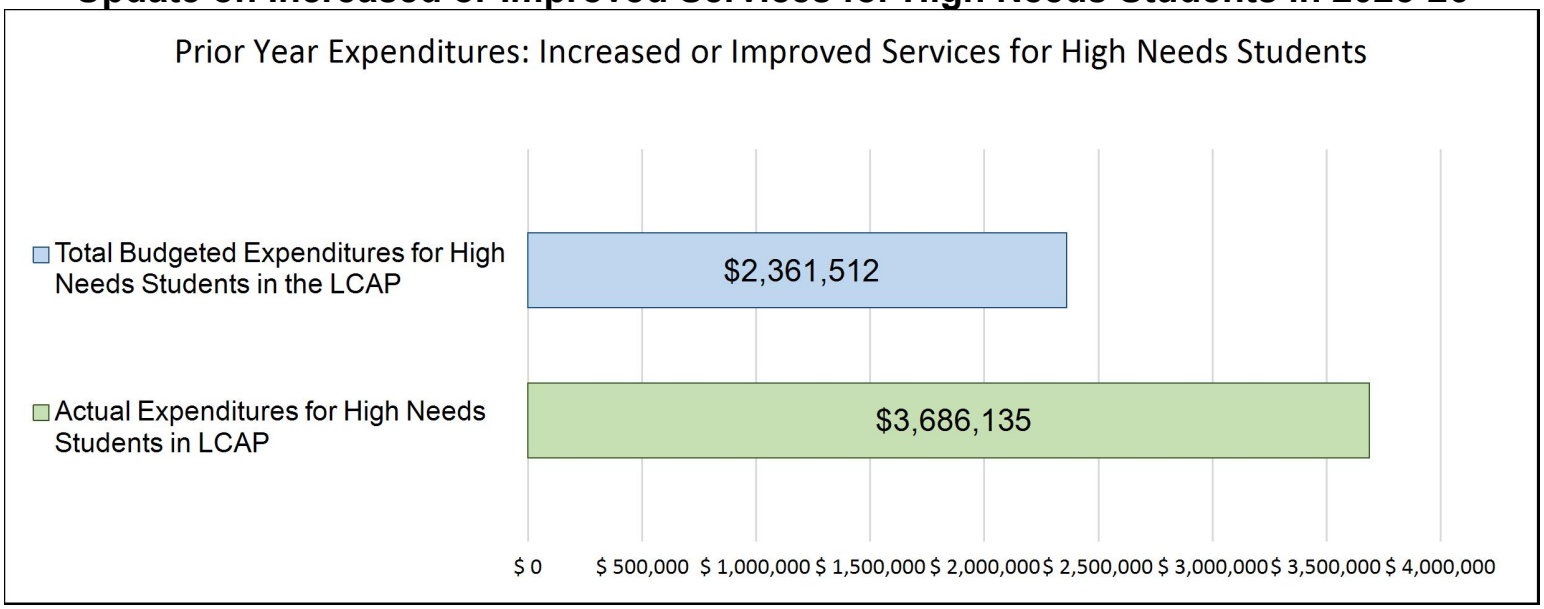
N/A

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Magnolia Science Academy - Santa Ana is projecting it will receive $2,203,020 based on the enrollment of Foster Youth, English learner, and low-income students. Magnolia Science Academy - Santa Ana must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy - Santa Ana plans to spend $2,247,309 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26



This chart compares what Magnolia Science Academy - Santa Ana budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy - Santa Ana estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Magnolia Science Academy - Santa Ana's LCAP budgeted $2,361,512 for planned actions to increase or improve services for high needs students. Magnolia Science Academy - Santa Ana actually spent $$3,686,135 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskinturk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS)
The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS) is a 501(c)(3) non-profit public charter school management organization dedicated to establishing and managing high-quality public charter schools in California. MPS' vision is to graduate students who are scientific thinkers that contribute to the global community as socially responsible and educated members of our society. MPS' educational approach is based on the conviction that science, technology, engineering, and math (STEM) education is essential in improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. MPS operates 10 charter school sites throughout California with an increasing trend of academic success, organizational, and financial stability.

Magnolia Science Academy Santa Ana (MSA-SA)
Magnolia Science Academy-Santa Ana (MSA-SA) is the home of the PIRATES! MSA-SA is authorized and monitored by the State Board of Education. MSA-SA is a public charter school for grades TK–12 with a mission to provide a college preparatory educational program emphasizing STEAM education in a safe environment that cultivates respect for self and others. MSA-SA offers a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and strong core knowledge presented in ways that are relevant and inspiring for our students. Tutoring, morning intervention, after-school program, Saturday Academy, and school-to-university partnerships (e.g. dual enrollment partnerships with local community colleges) supplement classroom instruction at MSA-SA. MSA-SA creates a supportive and caring environment with small class sizes and strong student-parent-teacher communication, and improves students' knowledge and skills in core subjects, thereby increasing their 21st century skills as well as their

chances of success in higher education and beyond. MSA SA provides students with a comprehensive education program that creates multiple opportunities for them to develop into successful contributing members of society, and therefore, fulfill the intent of the California Charter Schools Act.

In the 2024-25 academic year, Magnolia Science Academy-Santa Ana continued its eighth school year in our campus at 2840 West 1st Street, Santa Ana. The new facility was funded by the State of California Prop 1D funding. The new building has 34 classrooms with state of the art science and computer labs, library and learning centers. Phase II construction is completed and includes a gym, playgrounds and an outside cafeteria to serve several functions. MSA-SA has adopted McGraw-Hill digital and in print curriculum across all four core subjects (Math, History, Science, and English). We have a 1:1 technology to student ratio and all classrooms with state of the art technology.

In March 2019, The State Board of Education(SBE) renewed Magnolia Science Academy-Santa Ana for 5 years.

Magnolia Science Academy Santa Ana
Address: 2840 W 1st. Santa Ana, CA, 92307
Phone: 714-479-0115
Email: skeskinturk@magnoliapublicschools.org

Our Mission
Magnolia Public Schools provides a college preparatory educational program emphasizing science, technology, engineering, and math (STEAM) in a safe environment that cultivates respect for self and others.

Our Vision
Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

INNOVATION
Students have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest, and career plans support students' college and career readiness. Students experience hands-on learning through robotics, computer science, and arts to promote imagination, creativity, and invention.

CONNECTION
School communities are integrated partnerships among the school site staff, families, students, and all other stakeholders. Connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internships, promote unity and better decision making through the implementation of restorative justice practices.

EXCELLENCE
Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

SUCCESSES

During the 2025–26 school year, MSA Santa Ana demonstrated continued academic growth across multiple state and local indicators. One of the most significant accomplishments was the improvement in CAASPP performance in both English Language Arts and Mathematics. ELA proficiency increased from 47.53% to 49.82% of students meeting or exceeding standards, while Math proficiency increased from 39.78% to 42.11%. These gains were evident across several student groups, including English Learners, Hispanic students, and Socioeconomically Disadvantaged students. English Learners showed particularly strong improvement, increasing from 9.09% to 15.19% proficiency in ELA and from 16.89% to 22.22% proficiency in Math.

Distance from Standard (DFS) data also reflected meaningful progress. In ELA, the school improved from 8.3 points below standard to 3.1 points below standard, moving significantly closer to grade-level performance. Similar gains were observed in Mathematics, where DFS improved from 36.5 points below standard to 26.0 points below standard. Subgroup performance improved across nearly every category, including English Learners, Students with Disabilities, Hispanic students, and Socioeconomically Disadvantaged students, indicating that intervention systems and targeted instructional supports are helping close achievement gaps.

Local assessment data further confirmed the effectiveness of instructional programs. MAP Reading growth increased from 58.1% to 66.7% of students meeting growth targets, while MAP Math growth increased from 63.8% to 70.2%. Students continued to demonstrate growth above national norms, with MAP Conditional Growth Percentiles remaining above the 80th percentile in both ELA and Mathematics. These results suggest that small-group instruction, intervention programs, and data-driven instructional planning are positively impacting student learning outcomes.

MSA Santa Ana also maintained 100% access to programs and services for all student groups, ensuring that students continued to receive equitable access to instructional, intervention, and support services. This reflects the school's commitment to meeting the academic and social-emotional needs of all learners.

CHALLENGES
Despite these positive outcomes, several areas require continued attention and improvement.

English Learner outcomes remain an area of focus. While English Learners demonstrated substantial academic growth in both ELA and Mathematics, the percentage of English Learners making progress toward English proficiency increased from 34% to 43.3%. This improvement reflects positive momentum; however, continued emphasis on strengthening both Designated and Integrated ELD instruction, enhancing progress monitoring, and providing targeted language-development supports will be important to sustain and accelerate this growth.

Reclassification rates also remain below desired levels. Although the percentage of English Learners reclassified as Fluent English Proficient increased slightly from 13.9% to 15.3%, additional efforts are needed to identify and support students who are approaching reclassification criteria. Continued emphasis on ELPAC preparation, language development, and parent engagement will be important to accelerating reclassification outcomes.

Implementation of instructional monitoring systems was another challenge during the year. Completion of classroom observations declined from 66% to 40%, limiting opportunities for instructional feedback, coaching, and continuous improvement. Strengthening observation systems and coaching cycles will be a priority moving forward to ensure consistent implementation of high-quality instructional practices.

While student growth remained strong overall, Conditional Growth Index (CGI) scores declined slightly from the previous year in both Reading and Mathematics. Although students continued to perform well above national growth expectations, maintaining the exceptionally high growth levels achieved in prior years will require continued focus on differentiated instruction and targeted intervention.

Overall, the review of Dashboard and local data demonstrates that MSA Santa Ana is making meaningful progress toward improving student achievement and closing achievement gaps. Continued focus on English Learner outcomes, instructional monitoring, and targeted intervention supports will help sustain academic growth and advance equitable outcomes for all students.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parents	We invited our parents to the Data Walks, where they engaged in numerous, robust conversations about the LCAP. We also discussed, on a quarterly basis, our ELAC and school site-related items that relate to the LCAP. Every Friday during our Coffee with the Principals, our parents continue to collaborate in rich conversations around our LCAP.
Students	We invited our students to the Data Walks, where they engaged in numerous, robust conversations about the LCAP with parents and teachers. Our students are also part of the Community Advisory Committee, and they were also part of the LCAP goal conversations - the students know that every goal we have impacts their success.
Teachers	Teachers are involved in all aspects of our LCAP because we meet weekly during staff meetings. On a monthly basis, our teachers meet in grade-level and department meetings to deep-dive into the LCAP goals. The teachers are also part of the Data Walks and were very involved in that whole process.
School administrators	The school site administration team collaborates on a daily basis to ensure that all decisions are based on and aligned with our LCAP goals.
Other school personnel	We invite and ensure all educational partners, including our front office staff, custodial staff, and support, also have voice during our Data Walks as well as the CAC committee. They are also involved in our weekly staff meetings.

Educational Partner(s)	Process for Engagement
SELPA	We ensure that our SPED team has a voice and collaborates on our LCAP goals. We also inform our El Dorado SELPA with our decision making, as we are inclusive to all.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Annually, our LCAP is directly influenced by the feedback of our educational partners. This is done through our weekly Coffee With the Principal, in addition to our Data Walks, CAC, ELAC, and any town hall meetings that may arise based upon the direct feedback by all educational partners. At the end of every year, our educational partners participate in our Panorama survey, and it is the results of this survey that will directly drive and influence change, next steps, and directly impact our LCAP.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers, standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	The percentage of teaching assignments that have an assignment monitoring outcome of "clear" (Source: Local Indicator Priority 1, CDE DataQuest TAMO by FTE Report)	2021-22: 90.6%	2022-23: 88.8%	2023-24: 91.9%	2024-25: > 85%	+1.3 percentage points
1.2	Percentage of students without access to their	2023-24: 0%	2024-25 (As of 6/5/25):	2025-26 (As of 5/22/26):	2026-27: 0%	0 percentage points

1.3	Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2023-24: 0	2024-25 (As of 6/5/25): 0	2025-26 (As of 5/22/26): 0	2026-27: 0	0
1.4	Teacher retention rate (Source: HRIS)	2023-24: (Fall 2022 to Fall 2023) 75%	2024-25: (Fall 2023 to Fall 2024) 79%	2025-26 (Fall 2024 to Fall 2025): 91%	2026-27: (Fall 2025 to Fall 2026) >= 80%	+16 percentage points
1.5	Teacher attendance rate (Source: HRIS)	2023-24: (As of 5/15/24) 95.0%	2024-25: (As of 5/31/25) 95.3%	2025-26 (As of 5/15/26): 95.6%	2026-27: >= 95.0%	+0.6 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The overall implementation of Goal 1 during the 2025–26 school year was largely successful, with most planned metrics executed as intended and resulting in measurable progress toward maintaining a high-quality learning environment. However, one area—teacher retention—presented a notable challenge that marked a substantive difference between the plan and its implementation.

Planned Metrics Implemented Successfully
Several planned metrics were implemented with high fidelity:

Assignment Monitoring (Metric 1.1): The percentage of teaching assignments with a “Clear” monitoring outcome was high in 2025–26, reflecting strong compliance with assignment standards and improved staffing practices compared to prior years. This shows that the majority of teaching assignments were appropriately staffed and credentialed.

Instructional Materials (Metric 1.2): All students had access to their standards-aligned instructional materials for use at school and home, resulting in a 0% deficiency rate as of June 5, 2026. This fully met the expected target and maintained regulatory compliance.

Facilities Maintenance (Metric 1.3): The school reported 0 instances as of June 5, 2026, where facilities failed to meet the “good repair” standard, indicating effective preventative maintenance and timely responses to facility issues.

Teacher Attendance (Metric 1.5): Teachers maintained a strong attendance rate of 95.6% as of May 31, 2026, meeting the 95% target and supporting consistency in classroom instruction.

These successes reflect the school’s effective operational systems and its consistent commitment to ensuring a safe, well-resourced, and instructionally sound learning environment.

Substantive Difference in Implementation – Teacher Retention
A key success was seen in Metric 1.4, where the teacher retention rate for Fall 2025 to Fall 2026 increased from 79% to 91%, exceeding the 80% target and reflecting improved staff engagement and stronger long-term commitment; continued focus on sustaining supportive structures, recognition systems, professional growth opportunities, and clear communication will be important to maintain this positive trend.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1
Budgeted: $40,858.00
Actual: $52,072.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 1 Action 2
Budgeted: $855,764.57
Actual: $909,232.57
Explanation: The material difference was due to the number of teachers who continued their education practices.

Goal 1 Action 3
Budgeted: $581,984.38
Actual: $752,768.30
Explanation: The expenses in this action increased due to the increase in enrollment numbers.

Goal 1 Action 4
Budgeted: $54,756.20
Actual: $58,120.92

Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 1 Action 5
Budgeted: $1,464,737.00
Actual: $1,496,653.85
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, the implementation of Goal 1 metrics during the 2025–26 school year was largely effective, with four out of five metrics meeting or exceeding their respective targets. These results demonstrate the school's strong operational systems and its commitment to maintaining a high-quality learning environment. However, one area—teacher retention—did not fully achieve the expected outcome and presents an area for targeted improvement moving forward.

Ineffective or Partially Effective Metric
Metric 1.4 – Teacher Retention
The teacher retention rate for Fall 2025 to Fall 2026 increased significantly from 79% to 91%, exceeding the 80% target and indicating strong improvements in staff engagement and long-term commitment. This positive trend suggests that existing efforts to strengthen workplace support, professional growth pathways, and recognition systems are having a meaningful impact. Continued emphasis on mentorship, celebrating staff contributions, and maintaining clear and consistent internal communication will help sustain and further build on these gains in retention outcomes.

Effective Metrics
Metric 1.1 – Appropriately Assigned Teachers
91.9% of teaching assignments received a "Clear" outcome in assignment monitoring, indicating that most teachers were appropriately credentialed and placed. This reflects strong HR oversight and improvement over prior years in ensuring compliance with credentialing requirements and clarity of assignments.

Metric 1.2 – Access to Instructional Materials
0% of students lacked access to standards-aligned instructional materials for both school and home use, fully meeting the goal. This outcome reflects efficient materials management and consistent attention to curricular equity and compliance with state requirements.

Metric 1.3 – Facilities in Good Repair
The school reported 0 instances of facilities failing to meet the "good repair" standard. This demonstrates highly effective facilities management, timely maintenance procedures, and full compliance with state expectations for school environments.

Metric 1.5 – Teacher Attendance

The teacher attendance rate reached 95.6% as of May 31, 2026, meeting the 95% goal. This indicates reliable daily presence, strong staff commitment, and a stable instructional environment that supports student learning continuity.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a review of 2025-26 Year 1 outcomes and implementation practices, several targeted adjustments have been made to improve the effectiveness of Goal 1 in maintaining a high-quality learning environment for all students.

Changes to Implementation Supports – Teacher Retention (Metric 1.4)
The teacher retention rate at the 80% goal, highlighted the need to strengthen efforts to retain effective educators. In response, the school will:
Expand teacher recognition and appreciation programs to promote morale and retention.
Improve onboarding and mentorship systems for new and early-career teachers.
Develop leadership development opportunities for interested staff to promote internal growth and long-term investment.

Based on the strong improvement in teacher retention from 79% to 91%, no major changes were made to the planned goal or target outcome for the coming year, as the current 80% benchmark has been exceeded; however, refinements will be made to strengthen and sustain this progress by expanding mentorship and onboarding supports, enhancing staff recognition systems, and improving opportunities for professional growth and leadership development to ensure continued stability and long-term staff retention.

Metrics and Monitoring Enhancements
All existing metrics for Goal 1 will remain unchanged to support consistent year-over-year comparison. The school will continue its mid-year metric check-ins to monitor progress in real time and make mid-course corrections where needed—particularly for areas like credential monitoring and teacher support.

Sustained and Expanded Effective Practices
The following metrics met or exceeded their targets and will continue with the same benchmarks:

Assignment Monitoring (Metric 1.1): With 91.9% of teaching assignments evaluated as “Clear,” the school will maintain existing credential review processes while introducing minor improvements to pre-semester assignment audits for continued alignment.

Instructional Materials (Metric 1.2): With 0% of students lacking access to standards-aligned materials, current procurement, distribution, and digital access practices will continue with no changes needed.

Facilities Maintenance (Metric 1.3): Reporting 0 instances of facilities not meeting the “good repair” standard confirms that routine inspections and maintenance tracking are effective. These practices will be sustained and documented quarterly.

Teacher Attendance (Metric 1.5): The teacher attendance rate of 95.6% met the goal. Existing wellness supports, attendance monitoring systems, and accountability structures will remain in place.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters. Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay. The following expenditures will be funded by federal Title funds: N/A	$47,072.00	No
1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review	$1,061,982.57	No

Action #	Title	Description	Total Funds	Contributing
		budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: N/A		
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.	$801,407.24	No

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A		
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, and refreshments. The following expenditures will be funded by federal Title funds: N/A	$64,191.92	Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and	$1,819,287.54	No

Action #	Title	Description	Total Funds	Contributing
		accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal funds: -Clerical & Tech: Federal CSP; Amount: $25,431.21 -STRS: Federal CSP; Amount: $4,859.04 -OASDI/Medicare: Federal CSP; Amount: $368.88 -Health & Welfare Benefits: Federal CSP; Amount: $4,652.63 -Unemployment Insurance: Federal CSP; Amount: $127.20		

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	EXCELLENCE: Under our first core pillar of Excellence, all students will have equitable access to a high-quality core curricular and instructional program and make academic progress in alignment with California content standards (CCSS, NGSS, etc.) through our data-driven, differentiated and engaging learning program. Students will develop competencies aligned with our “Graduate Profile,” including Literacy with a Learner’s Mindset and Critical Thinking skills as they pursue academic excellence.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2025–26 school year, MSA Santa Ana made meaningful progress in implementing the planned actions under Goal 2, which emphasizes equitable access to high-quality instruction and academic growth for all students. While most actions were successfully implemented, a few areas—such as classroom observations and reclassification of English learners—require targeted attention moving forward.

Successful Implementation Areas
A majority of indicators demonstrated strong implementation and student progress:

Access to Programs and Services (Metric 2.1): MSA Santa Ana maintained 100% access for students to all required programs and services, matching the previous year's level and affirming compliance with Local Indicator Priority 7.

Academic Performance and Proficiency:

ELA (Metric 2.4): 49.82% of students met or exceeded the CAASPP ELA standard, an increase from 47.53% in 2023–24. Gains were observed across subgroups, including English Learners (from 9.09% to 15.19%) and Hispanic students (from 43.31% to 44.86%).

Math (Metric 2.8): 42.11% of students met or exceeded the CAASPP Math standard, improving from 39.78% in the prior year. Notably, English Learners increased their performance from 16.89% to 22.22%, and Hispanic students improved from 33.63% to 36.73%.

Science (Metric 2.14): 27.05% of students met or exceeded standard on the CAASPP Science assessment, reflecting a decline from 34.72%, and indicating a need to strengthen instructional alignment to science standards and enhance academic language and inquiry-based science practices.

Growth Measures:

MAP Reading (Metric 2.6): All Students meeting growth targets increased from 58.1% to 66.7%. English Learners increased from 57.6% to 66.3%.Socioeconomically Disadvantaged students increased from 54.9% to 64.7%. Students with Disabilities increased from 47.5% to 64.4%. Hispanic students increased from 55.9% to 64.9%.

MAP Math (Metric 2.10): All Students meeting growth targets increased from 63.8% to 70.2%. English Learners increased from 57.6% to 64.5%. Socioeconomically Disadvantaged students increased from 64.6% to 66.0% Students with Disabilities increased from 55.6% to 56.6%. Hispanic students increased from 62.1% to 68.0%. White students increased from 70.0% to 79.7%.

Conditional Growth Index (CGI):

ELA (Metric 2.7): ELA growth remained strong nationally, although slightly lower than the previous year. All Students maintained a CGI of 0.94, representing growth at the 83rd national percentile. English Learners achieved a CGI of 0.87 (81st percentile).White students achieved a CGI of 1.24 (89th percentile).

Math (Metric 2.11): Math growth remained above national norms. All Students earned a CGI of 0.93 (82nd percentile). English Learners earned a CGI of 0.89 (81st percentile). White students earned a CGI of 1.10 (86th percentile)

Distance from Standard (DFS):

ELA (Metric 2.5): ELA DFS improved for all students and most subgroups, indicating students are moving closer to grade-level proficiency. All Students improved from 8.3 points below standard to 3.1 points below standard. English Learners improved from 42.8 points below standard to 40.1 points below standard

Math (Metric 2.9): Math DFS improved across all major student groups. All Students improved from 36.5 points below standard to 26.0 points below standard. English Learners improved from 62.9 points below standard to 56.9 points below standard.

These trends affirm that MSA Santa Ana’s instructional framework and academic interventions are yielding positive outcomes in both proficiency and growth for the general student population and key subgroups.

Areas Requiring Improvement
Despite these strong results, a few implementation gaps were identified:

Classroom Observations (Metric 2.2):Completion of formal and informal classroom observations decreased from 66% in 2024–25 to 40% in 2025–26. This indicates a need to strengthen systems for observation scheduling, coaching cycles, and documentation to ensure consistent instructional monitoring and feedback.

English Learner Progress Indicator (ELPI) Growth (Metric 2.12): The percentage of English Learners making progress toward English proficiency increased from 34% to 43.4%. This improvement reflects positive momentum; however, continued emphasis on strengthening

both Designated and Integrated ELD instruction, enhancing progress monitoring, and providing targeted language-development supports will be important to sustain and accelerate this growth

Reclassification Rate (Metric 2.13): The percentage of English Learners reclassified as Fluent English Proficient increased slightly from 13.9% to 15.3%, but remains below the level needed to accelerate long-term EL success. Continued efforts to identify eligible students earlier and provide targeted support toward meeting reclassification criteria are needed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1
Budgeted: $3,175,181.93
Actual: $3,631,446.60
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 2
Budgeted: $42,017.06
Actual: $33,381.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 3
Budgeted: $640,991.32
Actual: $660,477.44
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 2 Action 4
Budgeted: $0.00
Actual: $0.00
Explanation:

Goal 2 Action 5
Budgeted: $1,025,553.86
Actual: $1,065,807.65
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, the implementation of Goal 2 metrics in 2025–26 demonstrated strong progress in academic achievement and student growth, while also highlighting key areas that require targeted improvement—particularly in instructional monitoring and English Learner progress.

Effective Metrics
Metric 2.1 – Access to Programs and Services
MSA Santa Ana maintained 100% access to required academic programs and services, fully meeting the goal and confirming strong compliance with Local Indicator Priority 7. This reflects a well-coordinated infrastructure ensuring equitable educational opportunities for all students.

Metric 2.4 – CAASPP ELA Proficiency
49.82% of students met or exceeded standards, surpassing the prior year's 47.53% performance. Subgroup gains among English Learners and Hispanic students indicate the impact of targeted ELA supports.

Metric 2.5 – ELA Distance from Standard (DFS)
DFS improved from 8.3 points below standard to 3.1 points below, demonstrating academic recovery and increasing proficiency across core groups.

Metric 2.6 – MAP Reading Growth
66.7% of students met or exceeded reading growth targets, surpassing the 50% benchmark and validating the effectiveness of differentiated literacy instruction and progress monitoring.

Metric 2.7 – MAP ELA Conditional Growth Index (CGI)
The school recorded a CGI of 0.94, slight decrease from 0.96 and indicating sustained strong growth, particularly among English Learners (CGI 0.87) and White students (CGI 1.24).

Metric 2.8 – CAASPP Math Proficiency
42.11% of students met or exceeded standards, up from 39.78%. The growth of English Learners and Hispanic students reflects well-targeted math supports.

Metric 2.9 – Math Distance from Standard (DFS)
DFS improved from 36.6 to 26.0 points below standard, indicating continued closing of learning gaps in mathematics.

Metric 2.10 – MAP Math Growth
70.2% of students met their growth targets, exceeding the benchmark of 50% and affirming the effectiveness of math intervention and instruction systems.

Metric 2.11 – MAP Math CGI

A CGI of 0.93 was achieved, representing strong national growth, particularly for Students with Disabilities (0.61) and Socioeconomically Disadvantaged students (0.75).

Metric 2.14 – CAASPP Science Proficiency
27.05% of students met or exceeded standard, down from 34%, indicating need for improvement instruction and assessment alignment in science education.

Ineffective or Partially Effective Metrics
Metric 2.2 – Classroom Observations
Completion of formal and informal classroom observations decreased from 66% in 2024–25 to 40% in 2025–26. This indicates a need to strengthen systems for observation scheduling, coaching cycles, and documentation to ensure consistent instructional monitoring and feedback

Metric 2.12 – English Learner Progress (ELPI)
Implementation of actions to support English Learner progress has shown emerging effectiveness in moving toward the intended goal. The increase in the percentage of English Learners making progress toward English proficiency from 34% to 43.4% indicates that current instructional and support strategies are beginning to have a positive impact. In particular, strengthened focus on Designated and Integrated ELD instruction, along with improved instructional routines that incorporate academic language development, appears to be contributing to this upward trend

Metric 2.13 – Reclassification Rate
The percentage of English Learners reclassified as Fluent English Proficient increased slightly from 13.9% to 15.3%, but remains below the level needed to accelerate long-term EL success. Continued efforts to identify eligible students earlier and provide targeted support toward meeting reclassification criteria are needed.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of reflective analysis of the 2025–26 implementation outcomes, targeted changes have been made to Goal 2: Academic Growth and Instructional Access to strengthen areas of underperformance and expand on existing academic gains.

Refinements to Metrics and Supports
Classroom Observations (Metric 2.2)
Completion of formal and informal classroom observations declined from 66% in 2024–25 to 40% in 2025–26, indicating a need for stronger systems to support instructional monitoring and coaching. To improve implementation during the 2026–27 school year:
Observation schedules will be embedded into leadership calendars and monitored monthly.
Administrative walkthroughs and coaching cycles will be streamlined to ensure timely feedback and follow-up support.

Instructional leadership team members will participate in targeted walkthroughs to increase the frequency of classroom feedback. Observation documentation and progress monitoring systems will be reviewed regularly to ensure accountability.

The target for observation completion will remain unchanged, with additional structures and supports implemented to improve completion rates.

Exploration of peer walkthroughs and informal observation models will be piloted to increase instructional feedback frequency.
The 85% target for observation completion will remain unchanged, with added structural and administrative supports.

English Learner Progress (Metric 2.12)
The percentage of English Learners making progress toward English proficiency increased from 34% to 43.4%. While performance demonstrates notable improvement, continued refinement of language development supports and progress monitoring is still needed. In response, 2026–27 implementation will include:
Strengthening Designated ELD instruction through common pacing, lesson planning support, and instructional walkthroughs.
Expanding professional development on Integrated ELD strategies across all content areas.
Implementing trimester EL progress reviews to identify students requiring additional interventions.
Increasing collaboration between ELD teachers, intervention staff, and content-area teachers to support language development goals.
Expanding family outreach efforts focused on English Learner achievement and language acquisition.

Reclassification Rate (Metric 2.13)
Although the reclassification rate increased slightly from 13.9% to 15.3%, the rate remains below desired levels and indicates that additional supports are needed to help eligible students meet reclassification criteria. To address this need:
Reclassification monitoring meetings will be conducted each trimester to identify students nearing eligibility.
ELPAC preparation and language support opportunities will be expanded for long-term English Learners and students approaching proficiency.
Parent communication regarding reclassification requirements and progress will be strengthened.
Intervention supports will be aligned to address specific language skill gaps identified through ELPAC and local assessment data.

Metrics Maintained or Expanded
Several metrics showed strong or improved performance and will be maintained with minor enhancements:

Access to Programs and Services (Metric 2.1): MSA Santa Ana maintained 100% access to required programs and services. No changes to this metric are planned. Continued collaboration among Special Education, English Learner, intervention, and student support teams will ensure equitable access for all students.

Academic Performance (Metrics 2.4, 2.8, 2.14): Schoolwide proficiency increased in both ELA and Mathematics, with notable gains among English Learners, Hispanic students, and Socioeconomically Disadvantaged students. To build on these results: Tiered academic intervention systems will continue. Data-driven instructional planning will be strengthened through PLC collaboration. Expanded opportunities for advanced coursework and enrichment will be provided to support academic growth for all students.

MAP Growth and Conditional Growth Index (Metrics 2.6, 2.7, 2.10, 2.11): MAP Reading and Math growth targets increased substantially, with students continuing to demonstrate growth above national norms. To sustain these outcomes: Small-group instruction and targeted intervention programs will continue. MAP data cycles will be utilized to identify student needs and monitor intervention effectiveness. Professional development will focus on differentiation and standards-based instruction.

Distance from Standard (Metrics 2.5, 2.9): Significant improvements in ELA and Math Distance from Standard measures indicate that students are moving closer to grade-level proficiency. Continued implementation of intervention programs, data analysis cycles, and targeted supports for English Learners, Students with Disabilities, and Socioeconomically Disadvantaged students will remain a priority.

Summary
Reflections from the 2025–26 implementation of Goal 2 confirmed the effectiveness of the school's academic programs, intervention systems, and instructional practices, as evidenced by gains in ELA and Mathematics achievement, MAP growth, and Distance from Standard measures. Areas identified for improvement include classroom observation completion, English Learner progress, and reclassification outcomes. Changes for 2026–27 focus on strengthening instructional monitoring systems, enhancing language development supports, and increasing opportunities for English Learners to successfully meet reclassification criteria while continuing to expand successful academic practices across all grade levels and student groups.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.	$3,921,904.01	No

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost/SchoolMint Grow software fees. The following expenditures will be funded by federal Title funds: -Professional Development: Title II; Amount: $10,000.00 -Prof Dev-Other: Title II; Amount: $10,000.00	$33,381.00	Yes
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other	$662,235.37	Yes

Action #	Title	Description	Total Funds	Contributing
		state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Infinite Campus fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Standards Plus, Quizizz, Padlet, BrainPOP, NextGenMath, Spelling City, Seesaw, and MyON.) The following expenditures will be funded by federal Title funds: -Educational Software: Title I; Amount: $43,912.38 -Teacher Salaries: Title I; Amount: $110,132.00 -STRS: Title I; Amount: $21,038.57 -OASDI/Medicare: Title I; Amount: $1,597.17 -Health & Welfare Benefits: Title I; Amount: $17,431.43 -Unemployment Insurance: Title I; Amount: $550.75 -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $3,353.84		
2.4	Designated and integrated ELD programs and support for ELs	Charter School will provide services to ELs, including newcomers and LTELs, by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our	$0.00	Yes

Action #	Title	Description	Total Funds	Contributing
		EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits. The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in	$1,167,407.82	No

Action #	Title	Description	Total Funds	Contributing
		collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A		

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	INNOVATION: All students will have access to a well-rounded, 21st century education that supports their readiness for college and the global world under our second core pillar of Innovation. Each student will become an independent, innovative scholar by practicing Creativity and Adaptability in their learning, using technology and data-driven online learning, and demonstrating high-quality learning outcomes in myriad ways.	Broad Goal

State Priorities addressed by this goal.

Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 10%	2024-25: (As of 6/5/25) 18%	2025-26 (As of 5/22/26): 9%	2026-27: >= 10%	-1 percentage point

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.2	Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 97%	2024-25: (As of 6/5/25) 100.0%	2025-26 (As of 5/22/26): 100%	2026-27: >= 90%	+3 percentage points
3.3	Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 94%	2024-25: (As of 6/5/25) 87%	2025-26 (As of 5/22/26): 99%	2026-27: >= 80%	+5 percentage points
3.4	Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard)	2022-23: (2023 Dashboard) 72.4%	2023-24 (2024 Dashboard): 77.1%	2024-25 (2025 Dashboard): 81.6% 2025-26 (As of 5/22/26): 81.6%	2025-26: (2026 Dashboard) >= 55.0%	+9.2 percentage points
3.5	Percentage of students who have demonstrated college preparedness pursuant to the Early Assessment Program (EAP), as measured by meeting or exceeding standard on the CAASPP-ELA/Literacy assessments in Grade 11 (Source: CDE DataQuest)	2022-23: 61.11%	2023-24: 78.95%	2024-25: 68.63% 2025-26 (As of 5/22/26): 23.33%	2025-26: >= 55.00%	+7.52 percentage points

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.6	Percentage of students who have demonstrated college preparedness pursuant to the Early Assessment Program (EAP), as measured by meeting or exceeding standard on the CAASPP-Mathematics assessments in Grade 11 (Source: CDE DataQuest)	2022-23: 33.33%	2023-24: 50.00%	2024-25: 43.14% 2025-26 (As of 5/22/26): 38.74%	2025-26: >= 35.00%	+9.81 percentage points
3.7	Percentage of all AP exam takers in the current year with a score of 3 or higher (Source: College Board)	2022-23: 56.0%	2023-24: 66.3%	2024-25: 80.3%	2025-26: >= 55.0%	+24.3 percentage points
3.8	Percentage of seniors who have passed an AP exam with a score of 3 or higher during their high school years (Source: College Board)	2022-23: 27.6%	2023-24: 47.2%	2024-25: 58.3%	2025-26: >= 55.0%	+30.7 percentage points
3.9	Percentage of seniors who have completed at least two semesters of college coursework with a grade of C minus or better in academic/CTE subjects where college credit is awarded (Source: CA School Dashboard, SIS)	2022-23: (2023 Dashboard) 27.6%	2023-24 (2024 Dashboard): 54.3%	2024-25 (2005 Dashboard): 83.9% 2025-26 (As of 5/22/26): 73.5%	2025-26: (2026 Dashboard) >= 35.0%	+56.3 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The implementation of Goal 3 during the 2024–25 school year was largely successful, with the vast majority of actions executed as planned and resulting in strong student outcomes. The school met or exceeded performance targets for most indicators related to college readiness, advanced coursework, and STEAM engagement. However, several substantive differences between planned and actual implementation emerged, particularly in areas involving ELA college readiness, full tracking of dual enrollment access, and integration of career technical education (CTE) pathways.

Implementation Successes
Many of the school's planned actions for Goal 3 were implemented effectively and led to measurable success:

Technology and STEAM Access (Metrics 3.2 & 3.3):
All graduating students (100%) took a Computer/Technology course or engaged in blended learning (Metric 3.2), and 99% of students created or demonstrated a STEAM-related project (Metric 3.3). These results reflect full implementation of innovation-focused learning strategies and continued commitment to project-based learning experiences.

College and Career Indicator (Metric 3.4):
Overall implementation was effective, with planned college and career readiness actions implemented largely as intended, contributing to an increase in the College/Career Indicator (CCI) Prepared rate from 77.1% to 81.6%. Exceeding the 72.4% baseline and surpassing the internal benchmark of 61.2%. This affirms the school's alignment with state-defined college and career readiness standards.

Advanced Math Enrollment (Metric 3.1):
Participation in accelerated or advanced math coursework or clubs decreased from 18% to 9%. While the metric declined, the school remains committed to expanding access to advanced coursework, strengthening the mathematics pipeline beginning in earlier grades, and providing targeted academic support to prepare more students for success in advanced mathematics courses.

Dual Enrollment Completion (Metric 3.9):
73.5% of students completed two college-level semesters with a C or better, decreased from 83.9%. indicating a decline in completion rates despite continued access to dual enrollment opportunities.This change suggests a need to further strengthen academic preparation, student supports, and monitoring systems to ensure students persist and succeed in college-level coursework, while continuing to build on established dual enrollment partnerships and advising structures.

Math Readiness and Achievement (Metrics 3.6, 3.7, 3.8):
EAP Math went from 43.14% in 2024-25 to 38.74% (internal data)
AP scores of 3 or higher in current year went from 66.3% in 2023-24 to 80.3% in 2024-25
AP scores of 3 or higher in HS years went from 47.2% in 2023-24 to 58.3% in 2024-25

AP scores of 3 or higher increased from 66.3% to 80.3% and from 47.2% to 58.3% across high school cohorts—indicating effective instructional supports and student preparation.EAP Math readiness declined from 43.14% to 38.74%, highlighting inconsistencies in college readiness alignment within math instruction.

Postsecondary Preparedness (Metrics 3.10, 3.14–3.17):
A-G completion:85.7%
Golden State Seal: 56.2%
Advanced/Honors Diplomas: 59.2%
College Acceptance: 100% overall, with63% to four-year institutions
These outcomes demonstrate sustained success in preparing students for postsecondary opportunities through coursework, recognitions, and counseling supports.

Areas of Continued Improvement
Several actions showed progress but did not yet reach the desired targets:

ELA Readiness on CAASPP (Metric 3.5):
23.3% of students demonstrated ELA readiness on the CAASPP EAP—down from 68.63%. Continued literacy interventions and cross-curricular writing support remain essential.

Seal of Biliteracy (Metric 3.13):
14.3% of graduates earned the Seal of Biliteracy, down from 15.8% the prior year. While the program is well-established, increased awareness and support for multilingual students may help reverse this decline.

CTE + A-G Integration (Metrics 3.11 & 3.12):
While the school has started building Career Technical Education (CTE) programs, no students have yet been tracked as completing state-aligned CTE sequences or integrated CTE + A-G pathways. Developing clear tracking systems and aligning student schedules with these options will be essential in the upcoming year.

College-Going Rate (Metric 3.18):
The most recent verified college-going rate (Class of 2023) was 83.9%, which shows a gap compared to the 100% acceptance rate. This underscores the need for improved post-graduation follow-up, financial aid support, and summer bridge programming to ensure students enroll after acceptance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1
Budgeted: $128,848.59
Actual: $170,996.79
Explanation: Due to increase of enrollment our expenses in this action increased.

Goal 3 Action 2
Budgeted: $636.00
Actual: $636.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 3
Budgeted: $292,622.44
Actual: $301,292.48
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 4
Budgeted: $327,069.63
Actual: $326,137.83
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 3 Action 5
Budgeted: $715,652.02
Actual: $697,610.77
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Implementation of Goal 3 during the 2025-26 school year demonstrated substantial effectiveness across most planned actions, with the majority of outcome targets met or exceeded. At the same time, several key metrics revealed specific areas for refinement, especially related to ELA readiness, pathway tracking, and postsecondary transition follow-through.

Effective Metrics (Met or Exceeded Goals)
Metric 3.1 – Accelerated Math Enrollment
9% of students participated in advanced or accelerated math opportunities, declined from previous year’s 18%. This shows the need for improved access and stronger academic counseling in advanced math pathways.

Metric 3.2 – Computer/Technology Access

100% of graduating students completed a Computer/Technology course or participated in blended learning, confirming full implementation of digital readiness expectations and equity in access to tech-integrated instruction.

Metric 3.3 – STEAM Projects
99% of students created or presented a STEAM-related project, demonstrating strong engagement with innovation-focused and hands-on learning across grade levels.

Metric 3.4 – College and Career Indicator (CCI)
81.6% of students achieved “Prepared” status on the CCI, exceeding both the baseline (72.4%) and internal benchmark (61.2%). This reflects broad success across multiple college- and career-readiness pathways.

Metric 3.5 - CAASPP ELA EAP Readiness
Only 23.33% of students demonstrated ELA readiness, which is down from 68.63% and falls short of the school’s aspirational target. Strong focus on academic writing, nonfiction reading, and performance task strategies in 10th and 11th grade will be prioritized.

Metrics 3.6–3.8 – Math Readiness and AP Performance

3.6 – CAASPP Math EAP Readiness: 38.74% of 11th graders demonstrated college readiness in math, down from 43.14%.

3.7 – AP Exam Scores: 80.3% of AP test-takers earned a 3 or higher, improving from 66.3%.

3.8 – Senior AP Pass Rate: 58.3% of seniors passed at least one AP exam with a score of 3+, up from 47.2%.
These increases reflect significant instructional improvements, test preparation, and student support structures in math and AP coursework.

Metrics 3.9 – Dual Enrollment Completion
73.5% of students completed two semesters of college coursework with a C or better. This marks a major success in expanding dual enrollment participation and improving student outcomes in college-level classes.

Metrics 3.10, 3.14–3.17 – Postsecondary Preparedness and Success

3.10 – A-G Completion: 85.7%

3.14 – Golden State Seal: 34.7%

3.15 – Advanced/Honors Diplomas: 59.2%

3.16 – College Acceptance (All): 100%

3.17 – College Acceptance (4-Year): 63%

These strong outcomes demonstrate consistent preparation and support for college-bound students through academic planning, recognition programs, and advising.

Ineffective or Partially Effective Metrics
Metric 3.5 – CAASPP ELA EAP Readiness
65.35% of students demonstrated ELA readiness, up from 61.11%, but still short of the school's aspirational target. Additional focus on academic writing, nonfiction reading, and performance task strategies in 10th and 11th grade will be prioritized.

Metric 3.13 – Seal of Biliteracy
14.3% of students earned the Seal of Bilateracy, a drop from 15.8% the prior year. Increased outreach, targeted preparation for the language assessment, and clearer guidance on eligibility criteria are needed to improve participation.

Metrics 3.11 & 3.12 – CTE and A-G + CTE Completion
No students were tracked as having completed CTE sequences or the integrated A-G + CTE pathway. While CTE programs have been launched, there is a need for clear tracking systems, formalized course sequences, and counseling structures that ensure students are placed on qualifying pathways and can complete them by graduation.

Metric 3.18 – College-Going Rate
The most recent verified college-going rate (Class of 2023) was 83.9%, showing a gap compared to the school's 100% acceptance rate. Strengthening financial aid education, post-graduation transition supports, and follow-up systems will be essential to ensure students enroll and persist in college after high school.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Accelerated Math Enrollment (Metric 3.1)

Participation in advanced and accelerated math opportunities declined from 18% to 9%, indicating a need to improve access to advanced coursework and strengthen student pathway planning. In response, the school will:

Increase academic counseling and pathway planning beginning in middle school.
Review placement criteria to ensure equitable access to advanced math opportunities.
Expand outreach to students and families regarding accelerated course options.
Monitor enrollment data annually to identify and address participation gaps among student groups.
CAASPP ELA EAP Readiness (Metric 3.5)

While ELA college readiness declined from 68.63% to 23.33%, results remained below the school's long-term goal. Additional supports will be implemented to strengthen literacy skills, increase access to rigorous coursework, and provide targeted interventions to better prepare students for college-level reading and writing expectations.

Additional emphasis will be placed on academic writing, evidence-based analysis, and nonfiction reading across content areas.
Junior-level ELA courses will incorporate more EAP-aligned performance tasks and college-readiness assessments.
Teachers will utilize interim assessment data to identify students requiring targeted intervention and support.
Seal of Biliteracy (Metric 3.13)

The percentage of students earning the Seal of Biliteracy declined from 20.7% to 16.7%. To increase participation and recognition of multilingual achievement:

Students will be identified earlier and monitored for Seal eligibility beginning in 9th grade.
Additional support and preparation opportunities will be provided for qualifying language proficiency assessments.
Families and students will receive clearer communication regarding eligibility requirements and application timelines.
Collaboration between ELD, World Language, and counseling staff will be strengthened to support candidate identification.
Career Technical Education Pathways (Metrics 3.11 and 3.12)

No students were reported as completing a CTE pathway or an integrated A-G plus CTE sequence. Reflection on implementation revealed that pathway tracking systems and course sequencing structures require further development. In response:

Formal CTE pathway maps and completion criteria will be developed and communicated to students and families.
Student information systems will be updated to improve pathway tracking and reporting.
Counselors will conduct annual pathway reviews with students to ensure course enrollment aligns with pathway completion requirements.
Partnerships with industry and postsecondary institutions will continue to expand career exploration opportunities.
College-Going Rate (Metric 3.18)

Although 100% of graduates were accepted to college, the verified college-going rate remained at 76.3%, highlighting a gap between acceptance and enrollment. To improve postsecondary matriculation:

Financial aid workshops and FAFSA/CADAA completion supports will be expanded.
Counselors will increase outreach to students and families during the spring and summer transition period.
Follow-up systems will be implemented to monitor enrollment and address barriers to matriculation.
Alumni outreach and college transition support efforts will be strengthened.
Metrics Maintained or Expanded

Several metrics demonstrated strong performance and will continue with minor enhancements to sustain success.

Computer and Technology Access (Metric 3.2)

The school maintained 100% participation in Computer Technology coursework or blended learning experiences. No changes to the metric are planned. The school will continue providing equitable access to technology-rich learning opportunities and digital literacy instruction.

STEAM Projects (Metric 3.3)

With 99% of students completing a STEAM-related project, implementation of project-based learning and innovation-focused experiences will continue. Additional opportunities for interdisciplinary projects and community partnerships will be explored.

College and Career Indicator (Metric 3.4)

The College and Career Indicator increased to 81.6%, exceeding established benchmarks. Current practices supporting dual enrollment, Advanced Placement coursework, college advising, and academic pathway development will be maintained and expanded where appropriate.

AP and Dual Enrollment Success (Metrics 3.7, 3.8, and 3.9)

Significant gains were observed in AP exam performance and dual enrollment completion rates. To sustain this progress:

AP preparation and academic support programs will continue.
Dual enrollment partnerships and course offerings will be maintained and expanded when feasible.
Student participation in rigorous coursework will continue to be promoted through counseling and academic planning.
Postsecondary Preparedness Metrics (Metrics 3.10, 3.14–3.17)

Strong outcomes in A-G completion, Golden State Seal attainment, Advanced/Honors Diploma completion, and college acceptance rates indicate that existing college readiness systems are effective. The school will continue investing in academic advising, pathway planning, college application support, and recognition programs that promote postsecondary success.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment,	$181,964.55	Yes

Action #	Title	Description	Total Funds	Contributing
		AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities. The following expenditures will be funded by federal Title funds: -Clerical & Tech: Federal CSP; Amount: $33,476.73 -STRS: Federal CSP; Amount: $6,394.68 -OASDI/Medicare: Federal CSP; Amount: $485.46 -Health & Welfare Benefits: Federal CSP; Amount: $2,713.58 -Unemployment Insurance: Federal CSP; Amount: $167.40		
3.2	STEM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.	$636.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: supplemental STEM program fees. The following expenditures will be funded by federal Title funds: -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $636.00		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications, including Artificial Intelligence (AI); digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. As our students gain the ability to navigate computing systems, utilize networks and the internet responsibly, analyze and interpret data with an antibias lens, solve problems using algorithms and programming, and carefully consider the ethics of computing technologies, they will become informed digital citizens who can leverage AI and other technologies to promote social justice and equity. Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds: -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $3,587.04	$301,016.68	Yes
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for	$319,970.12	Yes

Action #	Title	Description	Total Funds	Contributing
		PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $424.00		
3.5	Additional programs and activities that support well-rounded education	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas.	$824,773.40	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: -Certified Pupil Support Salaries: Title IV, Part A ESEA (ESSA); Amount: $8,030.00 -STRS: Title IV, Part A ESEA (ESSA); Amount: $1,548.87 -OASDI/Medicare: Title IV, Part A ESEA (ESSA); Amount: $117.58 -Health & Welfare Benefits: Title IV, Part A ESEA (ESSA); Amount: $1,628.86 -Unemployment Insurance: Title IV, Part A ESEA (ESSA); Amount: $40.55		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	CONNECTION: All students, families, staff, and other educational partners will experience our third core pillar, Connection, and have access to meaningful engagement opportunities that help cultivate Effective Communication and Global Citizenship in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3)	2023-24: 7	2024-25: (As of 6/5/25) 8	2025-26 (As of 5/15/26): 8	2026-27: >= 8	+1

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Implementation of Goal 4 during the 2025–26 school year demonstrated a blend of strong execution and key implementation challenges, particularly in the areas of stakeholder participation, absenteeism, and satisfaction. While many planned metrics were delivered as intended and yielded measurable success, others showed partial implementation or room for growth due to structural limitations or competing priorities.

Successful Implementation Areas
Several metrics were carried out as planned and met or exceeded their performance targets:

Family Engagement and Participation Events (Metrics 4.1 & 4.3):

The school hosted 89 parent engagement activities and conducted 8 PAC meetings, exceeding the prior year's numbers and meeting expectations for structured family involvement. These efforts reflect the school's organizational commitment to inclusive, community-based decision-making.

Teacher Home Visits (Metric 4.4):
21.5% of students received a home visit from a teacher, a slight decrease from the previous year. This steady growth demonstrates the school's continued commitment to personal outreach and building home-school connections.

Student Outcomes and Safety (Metrics 4.6, 4.8–4.11):
The graduation rate reached 100%. The student suspension rate dropped significantly to 1.6%, well below the prior year's 2.9%, indicating effective implementation of behavior supports and restorative practices.

Attendance and Retention (Metrics 4.5, 4.6, 4.15):
The P–2 ADA rate held steady at 94.94%, showing positive progress in attendance initiatives. The student retention rate also remained strong at 93%, reflecting successful engagement and support systems.

Stakeholder Satisfaction (Metric 4.14):
Overall satisfaction remained high or improved across groups:
Students: 78%
Families: 86% (down from 97%)
Staff: 77% (down from 91%)
These results reflect continued trust in the school's learning environment and staff dedication.

Areas of Continued Improvement
While many targets were met, several metrics still show areas for improvement:

ELAC Participation (Metric 4.2):
The number of ELAC meetings held remained at 4, meeting the baseline but showing no progress. Further efforts are needed to grow English Learner family involvement through more targeted outreach and flexible scheduling.

Survey Participation (Metric 4.12):
Students: 97.6%
Families: 77.9%
Staff: 89.1%
While student participation increased, both family and staff response rates declined from the previous year. This trend suggests potential barriers in communication, accessibility, or engagement and highlights the need to refine survey rollout processes.

Survey Approval (Metric 4.13):
Students: 71%

Families: 93%
Staff: 72%
Despite high family approval, modest student scores and a dip in staff approval indicate the need for deeper efforts to support morale, connectedness, and responsiveness to feedback.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 1
Budgeted: $275.00
Actual: $275.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 2
Budgeted: $340,571.13
Actual: $318,374.95
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 3
Budgeted: $519,095.63
Actual: $464,379.88
Explanation: Expenses in this action decreased due to the new staffing structure.

Goal 4 Action 4
Budgeted: $2,650.00
Actual: $0.00
Explanation: The staff was not able to participate to the training this year.

Goal 4 Action 5
Budgeted: $726,447.04
Actual: $654,452.10
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The implementation of Goal 4 in the 2025–26 school year produced a mix of strong execution and areas in need of further attention. While many targets were successfully met—particularly in family engagement, school safety, and retention—some key metrics related to stakeholder participation, satisfaction, and EL family engagement revealed opportunities for continued improvement.

Effective Metrics (Met or Exceeded Targets)
Metric 4.1 – Parent Advisory Committee (PAC):
The school conducted 8 PAC meetings, fully meeting the annual goal. These meetings supported inclusive parent engagement in school planning and helped elevate family voice in decision-making.

Metric 4.3 – Parent Engagement Activities:
With 89 family engagement events hosted, the school significantly surpassed its engagement benchmarks, demonstrating a strong organizational commitment to building connections between families and the school community.

Metric 4.4 – Teacher Home Visits:
21.5% of students received a home visit, slightly less than last year. This reflects an expanding culture of teacher outreach and relationship-building between school and home.

Metric 4.5 – Average Daily Attendance (P–2 ADA):
The ADA rate of 94.94% exceeded the baseline, supporting consistent student presence and reflecting successful attendance monitoring and parent communication efforts.

Metric 4.6 – Chronic Absenteeism:
The chronic absenteeism rate was 14.3%, showing effective use of tiered attendance supports, early follow-up systems, and incentives to encourage regular student attendance.

Metric 4.8 – High School Dropout Rate:
Maintained at 0%, this result affirms the effectiveness of credit monitoring systems, academic advising, and student support interventions in ensuring successful on-time graduation.

Metric 4.9 – Graduation Rate:
MSA Santa Ana reached a 100% graduation rate, exceeding state expectations and showcasing strong academic guidance, credit recovery systems, and student retention efforts.

Metric 4.10 – Suspension Rate:
The student suspension rate was 1.6%. This suggests that restorative practices and staff training in proactive behavior interventions are taking effect.

Metric 4.11 – Expulsion Rate:

The school reported 0 expulsions, consistent with its ongoing commitment to a restorative, inclusive discipline model.

Metric 4.15 – Student Retention:
The student retention rate held steady at 93%, maintaining alignment with internal targets and demonstrating the school's ability to keep students enrolled and engaged year-over-year.

Metric 4.14 – Stakeholder Satisfaction:
Satisfaction levels remained strong across key groups:
Students: 78%
Families: 86%
Staff: 777%
These outcomes indicate broad trust in school leadership and positive perceptions of the learning environment, particularly among students and families.

Ineffective or Partially Effective Metrics (Did Not Meet Targets)
Metric 4.2 – English Learner Advisory Committee (ELAC):
While the school held 4 ELAC meetings, matching the baseline, there was no growth compared to prior years. This indicates the need for more robust outreach, flexible scheduling, and engagement strategies to better include EL families in school governance and communication.

Metric 4.12 – Stakeholder Survey Participation:
Survey response rates revealed mixed results:
Students: 97.6%
Families: 77.9%
Staff: 89.1%
Although student participation improved, the drop in family and staff response rates suggests barriers in communication, timing, or engagement. Survey rollout systems may need to be revised for accessibility, timing, and incentives.

Metric 4.13 – Stakeholder Approval Ratings:
Approval levels were uneven across groups:
Students: 71%
Families: 93%
Staff: 72% (down from 81%)
The drop in staff approval suggests a need for closer listening, workload review, and improved communication around decision-making and campus culture. Student feedback, while improved, still highlights areas for deeper connection and support.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a review of 2025–26 outcomes for Goal 4—focused on enhancing school climate, stakeholder engagement, and student connectedness—several adjustments have been made for the 2026–27 school year. These changes reflect a continued commitment to equity and community engagement while responding to participation declines, feedback from staff and families, and identified needs in absenteeism and communication systems.

Changes to Actions and Supports
Strengthen ELAC Engagement and Visibility (Metric 4.2)
Although the school met the baseline of 4 ELAC meetings, there was no growth from the prior year. To deepen English Learner family participation:
The school will publish and follow a consistent bimonthly ELAC calendar aligned with PAC and SSC schedules.
Multilingual outreach will be expanded, and EL parent representatives will be involved in co-facilitating meetings.
Virtual attendance and child supervision options will be added to increase accessibility.

Enhance Survey Outreach and Response Strategies (Metric 4.12)
Family and staff participation in the annual stakeholder survey declined, signaling the need to rework engagement methods. As a result:
Survey windows will be extended and tied to campus events (e.g., Open House, parent-teacher conferences).
Reminders will be sent in multiple languages and formats, including text, and flyers.
Modest incentives and public celebration of participation milestones will be introduced to encourage response rates.

Improve Communication and Climate Listening Systems (Metric 4.13)
Declines in staff approval and only moderate student approval suggest the need for more responsive feedback loops. In 2026–27, MSA Santa Ana will:
Hold quarterly stakeholder listening circles with students and staff to gather input and report back on progress.
Conduct short mid-year “pulse” surveys to assess climate and allow for quicker interventions.
Integrate SEL and school culture questions into existing check-ins and advisory programming.

Metrics and Monitoring Adjustments
Core metrics and targets will remain consistent to preserve year-over-year comparability. However, mid-year data reviews will be formalized, particularly for Metrics 4.2, 4.12, and 4.13, to allow for timely adjustments.

For stakeholder satisfaction (Metric 4.14), interim indicators—such as participation in events, advisory engagement, and student leadership activities—will be added to contextualize progress beyond end-of-year survey data.

Chronic absenteeism and attendance efforts will continue, with monthly attendance recovery monitoring and expanded wellness referrals to support students facing barriers to consistent attendance.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision-making	Charter School will build the capacity of and support administrators, teachers and staff in order to build the capacity of and support family members to effectively engage in advisory groups and decision-making. Charter School will provide all families with opportunities to provide input on policies and programs, and implement Community School strategies to reach and seek input from any underrepresented groups in the school community. Some periodic information/input sessions for families include, but are not limited to, Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses. The following expenditures will be funded by federal Title funds: N/A	$275.00	Yes
4.2	Building relationships and partnerships with	Charter School will develop the capacity of staff to build trusting and respectful relationships with families and create welcoming environments	$320,148.44	Yes

Action #	Title	Description	Total Funds	Contributing
	families for student outcomes	for all families in the community. Our staff will learn about each family's strengths, cultures, languages, and goals for their children. We will promote participation in activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. We will provide professional learning and support to staff to improve capacity to partner with families and to provide families with information and resources to support student learning and development in the home. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will also support families to understand and exercise their legal rights and advocate for their own students and all students. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title funds: -Teacher Salaries: Title I; Amount: $10,000.00 -STRS: Title I; Amount: $1,910.00 -OASDI/Medicare: Title I; Amount: $145.00 -Unemployment Insurance: Title I; Amount: $50.00		

Action #	Title	Description	Total Funds	Contributing
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform expenses, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.	$496,327.97	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: -Instructional Materials & Supplies: Title I; Amount: $10,000.00 -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $3,000.00 -Non-Instructional Student Support: Title III - Immigrant Education; Amount: $1,599.54 -Non-Instructional Student Support: ARP HCY II; Amount: $8,755.00 -Teacher Salaries: Title II; Amount: $4,000.00		
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, families, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Panorama Education survey fees. The following expenditures will be funded by federal Title funds: N/A		Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify	$568,288.98	Yes

Action #	Title	Description	Total Funds	Contributing
		and address issues, trends, and potential changes that affect the context and conduct of education. Expenditures associated with this action include the following: Community Schools Coordinator salary and benefits, membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses. The following expenditures will be funded by federal funds: -Classified Support: Federal CSP; Amount: $76,259.76 -Clerical & Tech: Federal CSP; Amount: $21,755.28 -PERS: Federal CSP; Amount: $20,448.52 -OASDI/Medicare: Federal CSP; Amount: $7,500.06 -Health & Welfare Benefits: Federal CSP; Amount: $9,769.87 -Unemployment Insurance: Federal CSP; Amount: $381.36 -Other Benefits: Federal CSP; Amount: $2,176.80		

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.4	**Action:** Healthy and nutritious meals **Need:** Low-income students do not have sufficient or consistent access to nutritious meals and they develop poor eating habits. As a result, they experience poor health and academic outcomes, including, but not limited to, obesity, chronic absenteeism and lower grades. There	MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	is a need to provide all our students with healthy and nutritious meals. **Scope:** LEA-wide	consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We will provide two school meals free of charge during each schoolday to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	
2.2	**Action:** Professional development for high-quality instruction **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. **Scope:** LEA-wide	With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost/SchoolMint Grow software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2, TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.	standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP) • Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading

			• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.3	**Action:** MTSS - Academic enrichment, intervention, and student support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials,	Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2,

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. **Scope:** LEA-wide	English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.	TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading

			School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring (Source: NWEA MAP) • Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.4	**Action:** Designated and integrated ELD programs and support for ELs **Need:**	Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers	Goal 2: For all students, but particularly for the EL and LTEL student groups: • Percentage of students who

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	The majority of Charter School's student population consists of English Learners (EL), including long-term ELs (LTELs), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. **Scope:** LEA-wide	with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students.	have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect that this action will result in increased academic achievement of our student groups, particularly of our ELs and LTELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and EL reclassification rates as identified in our LCAP metrics in Goal 2.	• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP) • Percentage of students who have met or exceeded standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-Mathematics assessments (Source: CA School Dashboard) • Percentage of students who

			and current year (Source: CA School Dashboard) • Percentage of ELs reclassified to Fluent English Proficient (RFEP) annually (Source: CDE DataQuest)
3.1	**Action:** College/Career readiness programs and activities **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. **Scope:** LEA-wide	With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP	Goal 3: • Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard) • Percentage of all AP exam takers in the current year with a score of 3 or higher (Source: College Board) • Percentage of seniors who have passed an AP exam with a score of 3 or higher during their high school

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, college acceptance, and college-going rates as identified in our LCAP metrics in Goal 3.	years (Source: College Board) • Percentage of seniors who have completed at least two semesters of college coursework with a grade of C minus or better in academic/CTE subjects where college credit is awarded (Source: CA School Dashboard, SIS) • Percentage of cohort graduates who have successfully completed courses that satisfy the requirements for entrance to the UC/CSU (Source: CA School Dashboard, CDE DataQuest, CALPADS) • Percentage of cohort graduates who have successfully completed

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			courses that satisfy the requirements for CTE sequences or programs of study that align with state board-approved CTE standards and frameworks (Source: CA School Dashboard, CALPADS) • Percentage of cohort graduates who have successfully completed both types of courses: courses that satisfy the requirements for entrance to the UC/CSU and courses that satisfy the requirements for CTE sequences or programs of study that align with state board-approved CTE standards and frameworks (Source: CA

			• College-Going Rate (Source: CDE DataQuest)
3.2	**Action:** STEM and GATE programs **Need:** Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of everchanging technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEM curricula. **Scope:** LEA-wide	Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning.	Goal 3: • Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS) • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS) • Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.	the current year (Source: Local Indicator Priority 7, SIS)
3.3	**Action:** Digital literacy and citizenship programs **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. **Scope:**	With the needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications; digital footprint, privacy,	Goal 3: • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.	
3.4	**Action:** Physical education, activity, and fitness **Need:** Low-income students do not have sufficient or consistent access to physical activities/sports and fitness education. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. **Scope:** LEA-wide	MPS is committed to the optimal development of every student. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We expect that this action will result in increased attendance and grades as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.5	**Action:** Additional programs and activities that support well-rounded education **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math,	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 3: • Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	that do not have adequate resources and access to experiential learning opportunities. **Scope:** LEA-wide	academic competitions, journalism, college mentorship, and other areas. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, college acceptance, and college-going rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	• Percentage of all AP exam takers in the current year with a score of 3 or higher (Source: College Board) • Percentage of seniors who have passed an AP exam with a score of 3 or higher during their high school years (Source: College Board) • Percentage of seniors who have completed at least two semesters of college coursework with a grade of C minus or better in academic/CTE subjects where college credit is awarded (Source: CA School Dashboard, SIS) • Percentage of cohort graduates who have successfully completed

4.1	**Action:** Seeking family input for decision-making **Need:** It is important that parents are engaged in the development of all school plans, including, but	Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory	Goal 4: • Number of Parent Advisory Committee (PAC) meetings per year (Source:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. **Scope:** LEA-wide	Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision	Local Indicator Priority 3) • Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3) • School experience survey "average approval rates" based on the responses of our families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing Community School strategies to reach and seek input from any underrepresented groups in the school community. We also expect that this action will result in increased parent satisfaction as measured by the annual educational partner surveys in Goal 4: Action 4.	based on the responses of our families to the question, "Overall, I am satisfied and would recommend this school to other families." (Source: Local Indicator Priority 6, Panorama Education)
4.2	**Action:** Building relationships and partnerships with families for student outcomes **Need:** Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The	In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4: • Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3) • Percentage of students who have been home-visited by the

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. **Scope:** LEA-wide	include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout	teachers per year (Source: Local Indicator Priority 3, SIS) • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA School Dashboard) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source:

4.3	**Action:** MTSS - PBIS and SEL support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English	Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental,	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. **Scope:** LEA-wide	restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect that this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased	• High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA School Dashboard) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source: CDE DataQuest, CALPADS) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of

		chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual educational partner surveys in Goal 4: Action 4.	discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and would recommend this school to other students/families/ educators." (Source: Local Indicator Priority 6, Panorama Education)
4.4	**Action:** Annual educational partner surveys **Need:** It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP,	Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school	Goal 4: • School experience survey "participation rates" by students, families, and staff

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Educational partner voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage educational partners in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage educational partners in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. **Scope:** LEA-wide	leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect that this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.	(Source: Local Indicator Priority 6, Panorama Education) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students,

4.5	**Action:** Community outreach and partnerships **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA	Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 3: • Percentage of students in the current year College Career Indicator (CCI) who earned Prepared on the CCI (Source: CA School Dashboard) • Percentage of seniors who have

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Similar to the current academic year, MSA Santa Ana will utilize the concentration grant add-on funds ($164,532) in the following manner:

MSA Santa Ana is using the concentration grant add-on funds received in a manner which is consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

By adding these faculty/staff members, we aim to strengthen our ability to address the diverse needs of our student population and provide targeted support where it is most needed. This strategic allocation of funds will help create a more conducive learning environment and contribute to our student's overall growth and achievement.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

Powered by BoardOnTrack

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

Powered by BoardOnTrack

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Powered by BoardOnTrack

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

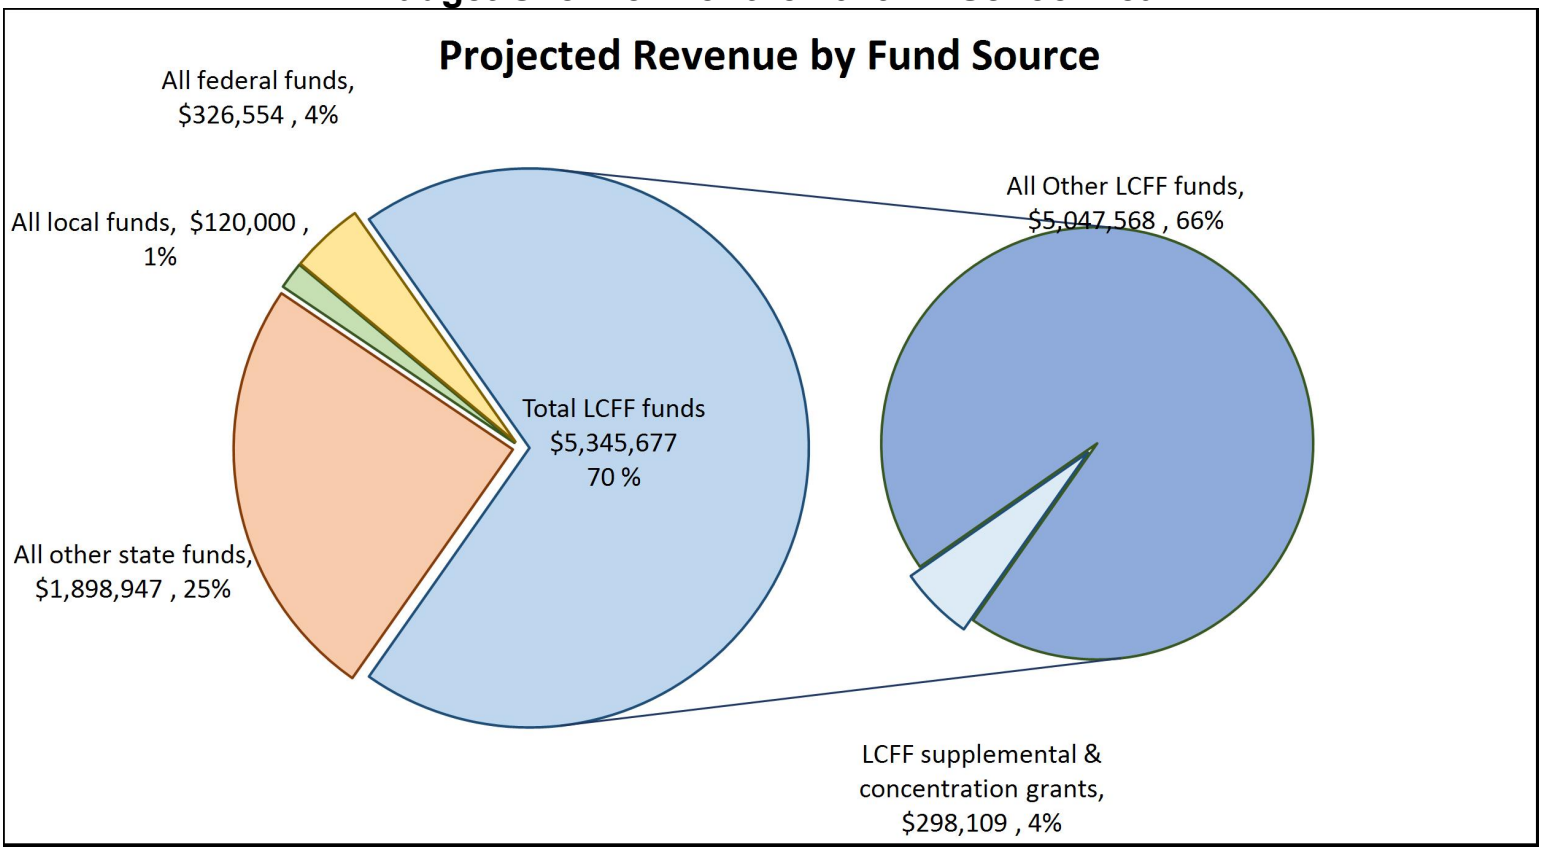
California Department of Education
November 2024

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Magnolia Science Academy San Diego
CDS Code: 37-68338-0109157
School Year: 2026-27
LEA contact information:
Megan Craig
Principal
gserce@magnoliapublicschools.org
(619) 644-1300

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

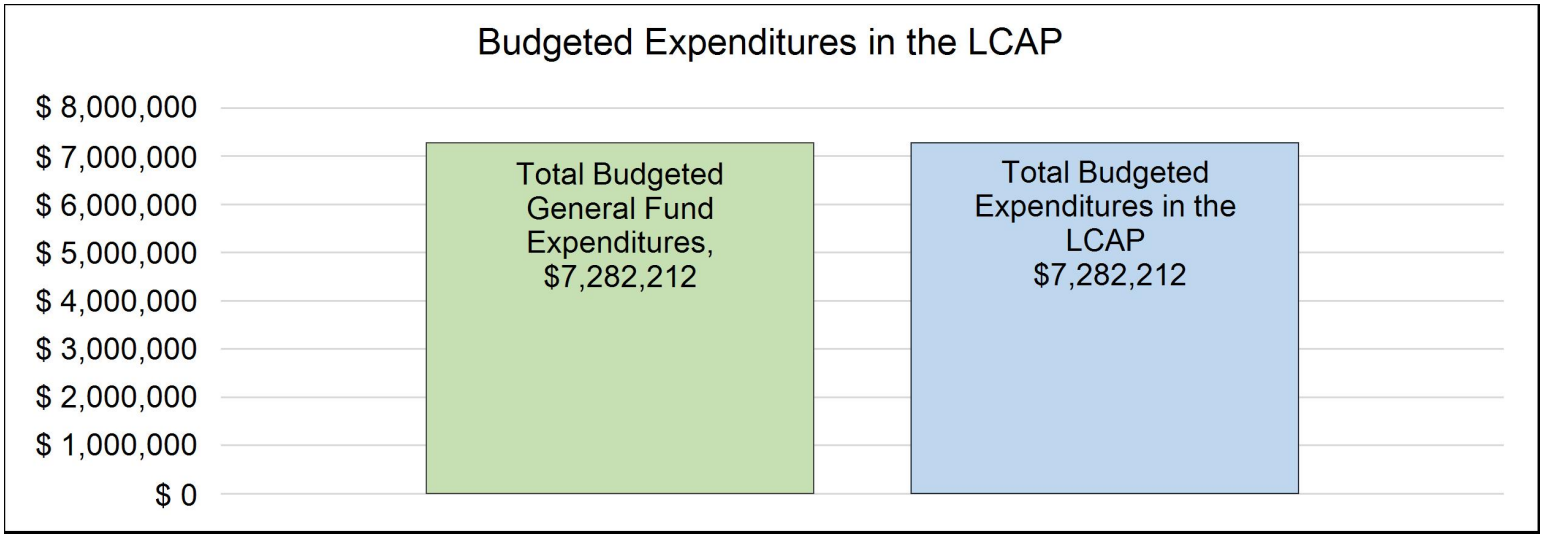


This chart shows the total general purpose revenue Magnolia Science Academy San Diego expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Magnolia Science Academy San Diego is $7,691,178, of which $5,345,677 is Local Control Funding Formula (LCFF), $1,898,947 is other state funds, $120,000 is local funds, and $326,554 is federal funds. Of the $5,345,677 in LCFF Funds, $298,109 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Magnolia Science Academy San Diego plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Magnolia Science Academy San Diego plans to spend $7,282,212 for the 2026-27 school year. Of that amount, $7,282,212 is tied to actions/services in the LCAP and $0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

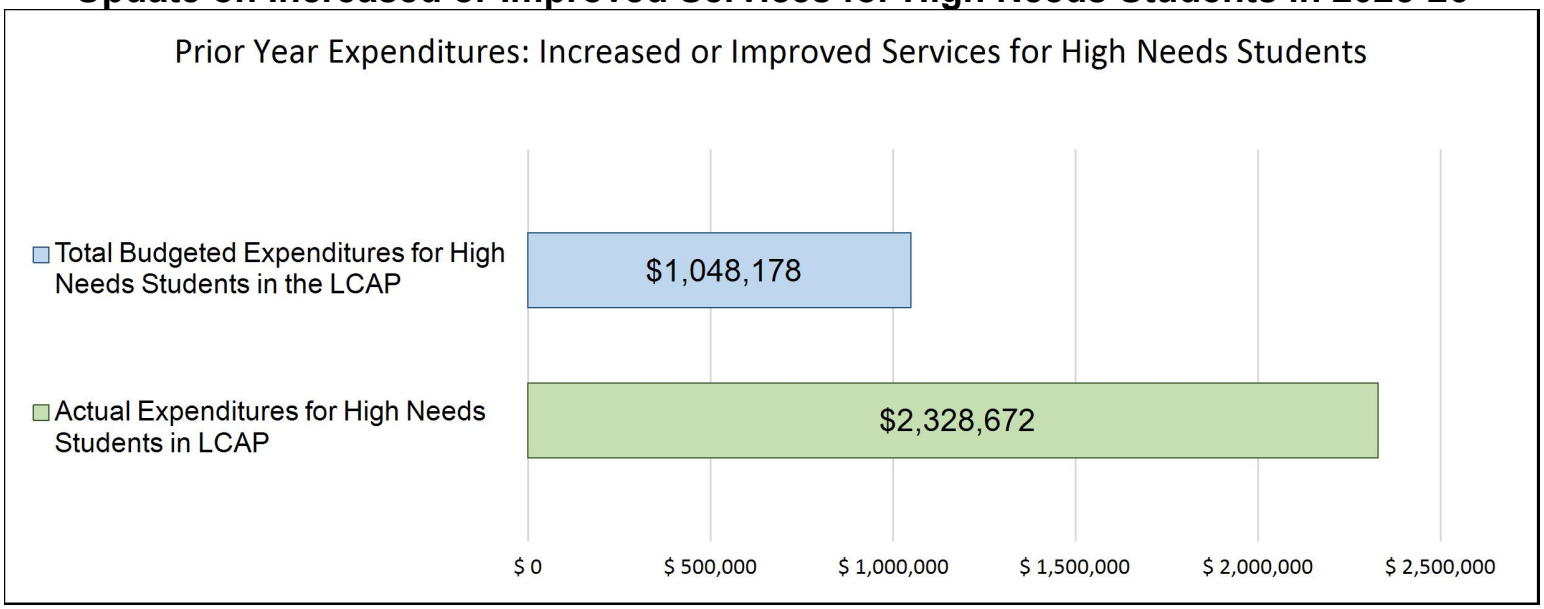
N/A

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Magnolia Science Academy San Diego is projecting it will receive $298,109 based on the enrollment of Foster Youth, English learner, and low-income students. Magnolia Science Academy San Diego must describe how it intends to increase or improve services for high needs students in the LCAP. Magnolia Science Academy San Diego plans to spend $1,064,409 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26



This chart compares what Magnolia Science Academy San Diego budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Magnolia Science Academy San Diego estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Magnolia Science Academy San Diego's LCAP budgeted $1,048,178 for planned actions to increase or improve services for high needs students. Magnolia Science Academy San Diego actually spent $$2,328,672 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Magnolia Science Academy San Diego (MSA-San Diego) is an independent public charter school located in the Allied Gardens community. MSA-San Diego serves around 480 students in grades 6–8, with class sizes averaging 32 or fewer students. The school was founded in the fall of 2005 by a group of scientists and engineers devoted to math, science, and technology education. Magnolia's mission is to provide a high-quality college preparatory educational program emphasizing science, technology, engineering, arts, and math (STEAM) in a safe environment that cultivates respect for self and others.

MSA-San Diego is recognized as a California Distinguished School in 2021, 2024, and 2026 reflecting its commitment to excellence in education. Additionally, the school has been awarded the California PBIS Platinum Award twice in the past two years, highlighting its effective implementation of Positive Behavioral Interventions and Supports. We also were named as a National Blue Ribbon School in 2025-26.

MSA-San Diego offers a challenging academic curriculum, a highly qualified staff, and a variety of learning opportunities such as enrichment classes, athletics programs, free tutoring, after-school clubs, character education classes, field trips, community meetings, and more. We provide a comprehensive learning experience designed to meet the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring.

Classroom instruction at MSA-San Diego is supplemented by tutoring and after-school programs. Starting in the 2013–14 school year, MSA-San Diego transitioned to a 1:1 program with computers in every classroom. Since then, MSA-San Diego's Robotics, SeaPerch, and Archery teams, as well as the School Band, have won first place in multiple state and local competitions.

MSA-San Diego is a member of the Magnolia Public Schools family and collaborates with sister schools and other educational organizations to offer the best quality education to our students.

Magnolia Science Academy San Diego
Address: 6525 Estrella Ave., San Diego, CA, 92120
Phone: 619-644-1300
Email: mcraig@magnoliapublicschools.org

MISSION
Magnolia Public Schools provides a safe and nurturing community using a whole-child approach to provide a high-quality, college preparatory STEAM educational experience in an environment that cultivates respect for self and others.

VISION
Graduates of Magnolia Public Schools commit to building a more peaceful and inclusive global society by transforming traditional ideas with creative thinking, effective communication, and the rigor of science.

INNOVATION
Students have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest, and career plans support students' college and career readiness. Students experience hands-on learning through robotics, computer science, and arts to promote imagination, creativity, and invention.

CONNECTION
School communities are integrated partnerships among the school site staff, families, students, and all other stakeholders. Connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internships, promote unity and better decision making through the implementation of restorative justice practices.

EXCELLENCE
Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

SUCCESSES

Recognition and Awards:

California Distinguished School: Recognized by the CDE in 2021, 2024, 2026
Platinum CA PBIS Status: Achieved the highest recognition
FIA Rating: Received the highest rating (3 out of 3) for Behavior/SE Support
State Testing Performance: MSA-San Diego's overall performance in the latest California School Dashboard is blue in Math and ELA
Named an ERP Honor Roll School
National Blue Ribbon School Award
Received $100,000 grant from the Girard Foundation
Visited by the Walton Family Foundation and Silicon Schools

Staff and Student Survey Results:

76% Student Overall Satisfaction Rate in Educational Partners Survey
88% Family Overall Satisfaction Rate in Educational Partners Survey
83% Staff Overall Satisfaction Rate in Great Place to Work Survey

Academic and Extracurricular Programs:

High participation in Ed Partners Survey with 97% parent favorable rate on providing a Climate of Support for Academic Learning
SBAC Continued Growth: Significant growth for Students with Disabilities (SWD) in Math & ELA
83% RFEP rate for English Learners (ELs)
AMC 8 Math Competition: Top 10 in nation
MSA-San Diego outperformed all charter middle schools in San Diego and all middle schools in the Navajo community
Started two new parent-led clubs for street hockey and fishing

Community and Parent Engagement:

High School parent workshop and 15 schools represented at theHigh School Fair
Monthly Parent Advisory Committee and Parent Task Force meetings
High participation in student-led parent-teacher conferences
Hosted 20+ presenters at the College and Career Day
Continued our student leadership committee, MSA Wizards Council
Participated in the Community Engagement Initiative (CEI)
Hosted over 20 community engagement events on campus (Bingo, Welcome Back picnic, Back to School night, etc..)

Professional Development:

Continuation of Restorative Practices and Multi Tierred Systems of Support (MTSS) to improve school culture.
Professional developments for staff and teacher leaders including a focus on Student Collaboration & Rigor with the Center for Model Schools
Universal Design for Learning (UDL) training from our SPED department
SELPA Training on Descalation Strategies and Non-Verbal Redirection

Student Opportunities and Achievements:

Field trips to the Zoo, Safari Park, Sea World, Washington DC, and the USS Midway
High participation in Khan Night with the Math Department
Girls Basketball runner up in the YMCA League Championships
Archery team won the San Diego Conference and State Girls championships in Olympic Archery in Schools (OAS) competitions
Participation in the San Diego Festival of Science and Engineering with over 40 students, attracting over 5,000 visitors to Magnolia booths
Hosted the SD STEAM Expo with over 400 visitors in attendance
Hosted, organized, or participated in over 20 school and community events throughout the school year
Hosted daily Live Donuts in The Morning announcements via YouTube to bring the community together during advisory class

CHALLENGES

Academic Achievement:

-Overall math is strong at Green on the CA Dashboard from 2024-25, with students 26.9 points above standard, but growth was essentially flat, maintaining only 0.4 points. Several subgroups are below standard: Hispanic students are Yellow at 8.2 below standard, students with disabilities are Yellow at 29.3 below standard, and socioeconomically disadvantaged students are slightly below standard at 0.4 below standard. Asian students and students of two or more races also declined in math, even though they remain above standard.

Suspension:

-The overall suspension rate is Green on the CA Dashboard from 2024-25 at 1.9%, which is below the state rate. But several groups are Orange: socioeconomically disadvantaged students at 4.4%, students with disabilities at 3.0%, students of two or more races at 3.0%, and White students at 2.3%. African American students and English Learners are Gray due to small counts, but their rates increased and appear high: 11.8% and 7.7%, respectively.

Intervention Programs:

-Continually refine intervention programs to close the achievement gap for all student groups

-Establish a stronger and more structured tier two system for interventions.

Student Voice and Feedback:

-Improve the meeting cycles between the Wizard Council and school leadership to gather student feedback more frequently

Chronic Absenteeism:

-Overall chronic absenteeism is Yellow on the CA Dashboard from 2024-25 at 13.8%, which is better than the state rate of 17.1% and improved by 6.1 points, but it remains elevated compared with pre-pandemic levels. The biggest subgroup concern is Two or More Races, which is Orange at 17.7% and increased by 2.6 points. Hispanic students, socioeconomically disadvantaged students, students with disabilities, and White students are all Yellow

Support for English Learners:

-The English Learner Progress Indicator shows No Performance Review/Gray on the CA Dashboard in 2024-25, with only 10 students, but the underlying data is concerning: in 2025, 0% of ELs progressed at least one ELPI level, while 100% maintained lower ELPI levels. This is a major signal even though the group is small.

Parent and Community Engagement:

-Boost participation in parent workshops

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parents	At MSA-San Diego, we understand that active parent engagement is crucial for student success and school improvement. Our approach to engaging parents is multi-faceted and inclusive, ensuring that their voices are heard and their feedback is valued. Here's how we engage parents in the development process of the Local Control and Accountability Plan (LCAP): Regular Meetings We hold monthly Parent Task Force (PTF) meetings annually to discuss various school matters, gather input, and involve parents in decision-making processes. Additionally, we conduct monthly Parent Advisory Council (PAC) meetings throughout the year, specifically focusing on the LCAP and school improvement plans. These meetings provide a platform for parents to share their insights and collaborate on school initiatives. Surveys To gather comprehensive feedback, we conduct parent surveys that include questions about their experiences and perceptions of the school. These surveys cover topics such as safety, school connectedness, culture, and climate. The high participation rate in these surveys provides valuable insights that inform our school improvement strategies and LCAP development. Home Visits

Educational Partner(s)	Process for Engagement
	Our staff has conducted over 45 in-person and virtual home visits to engage parents directly in their homes. These visits offer an opportunity to discuss their child's progress, gather feedback, and address any concerns they may have. This personalized approach ensures that we understand the unique needs of each family and incorporate their input into the LCAP. School Events and Activities We organize at least 25 parent activities and workshops throughout the year, covering a range of topics including social-emotional learning (SEL), character education, and academic support. Additionally, we host a STEAM Expo to connect parents with various community organizations and resources, further supporting their involvement and engagement. Communication Channels Regular newsletters and updates are sent to parents to keep them informed about school events, important dates, and ongoing initiatives. We also use various digital platforms, including email, social media, and our school website, to communicate with parents and gather their feedback. These channels ensure that parents are always up-to-date and can easily share their thoughts and concerns. Advisory Roles Parents on the PTF and PAC also serve as our parent advisory committee for the LCAP. This involvement ensures that parent feedback is directly integrated into the development and review of the LCAP. By having parents in these advisory roles, we ensure that their perspectives are considered in our planning process, leading to more effective and inclusive school policies. By engaging parents through these multiple channels, MSA-San Diego fosters a collaborative environment where parents feel valued and involved in their child's education. This comprehensive approach ensures that we receive diverse perspectives and maintain strong partnerships with our parent community, ultimately enhancing the educational experience for all students.

Educational Partner(s)	Process for Engagement
Students	At MSA-San Diego, student involvement in the development of the Local Control and Accountability Plan (LCAP) is a fundamental priority. We believe that incorporating student perspectives is essential for creating a supportive and effective learning environment. Our comprehensive approach ensures that students' voices are heard and their feedback is integrated into our planning process. Here's how we engage students in the LCAP development process: Student Leadership and Voice The MSA Wizard Council, our student leadership committee, is central to our LCAP development efforts. This council meets regularly with school leadership to discuss various aspects of the school's performance and gather input on LCAP priorities. We are committed to improving the frequency and structure of these meetings to ensure that student feedback is continuously gathered and addressed. Surveys We conduct comprehensive student experience surveys that include specific questions about safety, school connectedness, culture, and climate. The insights from these surveys are crucial for identifying areas of improvement and setting priorities for the LCAP. The high participation rate in these surveys ensures that we capture a wide range of student perspectives. Direct Communication Classroom discussions and advisory sessions provide regular platforms for students to express their thoughts and suggestions regarding school improvement. Teachers facilitate these sessions to ensure that all students have the opportunity to contribute their ideas. Additionally, our daily "Live Donuts in the Morning" YouTube announcements keep students informed about LCAP-related activities and gather their feedback on ongoing initiatives. Student-Led Events and Activities Student-led events, such as the "Celebrations of Math, Science, History, PE, etc.." and parent-teacher conferences, offer opportunities for students to showcase their achievements and provide feedback on school programs and initiatives. These events also serve as forums

Educational Partner(s)	Process for Engagement
	for students to discuss their needs and expectations directly with school staff and administrators. Recognition and Incentives Our Positive Behavioral Interventions and Supports (PBIS) platform, Kickboard, recognizes students for positive behavior and adherence to The WIZARD Way. This system encourages students to engage in discussions about school improvement and provides a framework for rewarding constructive feedback and suggestions. Integration of Feedback Feedback gathered from the Wizards Council, student surveys, and classroom discussions is systematically reviewed and integrated into the LCAP. This ensures that student perspectives are considered in our planning process, leading to a more inclusive and effective LCAP. By actively involving students in the LCAP development process, MSA-San Diego ensures that their voices are heard and their needs are met. This comprehensive approach not only enhances the learning experience but also fosters a sense of ownership and responsibility among students, contributing to a positive and inclusive school culture.
Teachers and staff	At MSA-San Diego, engaging teachers and staff in the development of the Local Control and Accountability Plan (LCAP) is essential for creating a supportive and effective learning environment. Our approach ensures that their expertise and insights are integral to our school improvement strategies. Here's how we engage teachers and staff in the LCAP development process: Regular Meetings and Professional Development We conduct weekly staff meetings to provide continuous opportunities for teachers and staff to discuss school matters, share their insights, and contribute to the decision-making process. These meetings serve as a platform for open dialogue, allowing staff to voice their opinions on school policies and practices.

Educational Partner(s)	Process for Engagement
	In addition, we provide extensive professional development sessions focused on key areas such as the Multi-Tiered System of Support (MTSS), social-emotional learning (SEL), and Restorative Practices. These sessions are not only aimed at enhancing staff skills but also at gathering feedback on the implementation and effectiveness of these programs, which is then integrated into the LCAP. Surveys Comprehensive surveys are conducted to gather feedback from teachers and staff on various aspects of the school environment, including safety, connectedness, culture, and climate. These surveys provide valuable data that informs our school improvement strategies and LCAP priorities. The high participation rate in these surveys ensures that a wide range of perspectives is considered. Direct Communication and Advisory Roles Teachers and staff have direct communication channels with school leadership through regular check-ins, staff meetings, and advisory roles. Key staff members are involved our Leadership group that contribute to the development and review of the LCAP. Their feedback is crucial for understanding the on-ground realities and for making informed decisions. Additionally, staff and teachers are represented in the Parent Advisory Council (PAC), ensuring that their perspectives are included in the LCAP discussions and development. Recognition and Incentives We use the Positive Behavioral Interventions and Supports (PBIS) platform, Kickboard, to recognize staff who demonstrate outstanding commitment to The WIZARD Way. This system encourages staff to engage in school improvement discussions and provides a framework for acknowledging their contributions to the LCAP development process. Collaborative Work Culture We have established a collaborative work culture where teachers and staff are encouraged to share their ideas and collaborate on school improvement initiatives. This culture is reinforced through team-building activities, professional learning communities, and

Educational Partner(s)	Process for Engagement
	collaborative planning sessions. The favorable staff survey results on collaboration reflect the effectiveness of this approach. Feedback Integration Feedback gathered from surveys, meetings, professional development sessions, and direct communication is systematically reviewed and integrated into the LCAP. This ensures that the insights and expertise of teachers and staff are central to our planning process, leading to more effective and comprehensive school policies. By engaging teachers and staff through these multiple channels, MSA-San Diego fosters a collaborative and inclusive environment where their voices are valued. This comprehensive approach not only enhances the learning experience for students but also ensures that our school improvement strategies are informed by those who are directly involved in the educational process.
School administrators	At MSA-San Diego, school administrators play a pivotal role in the development of the Local Control and Accountability Plan (LCAP). Their leadership, strategic insights, and direct involvement are crucial for the success of our school improvement initiatives. Here's how we engage school administrators in the LCAP development process: Strategic Leadership Meetings We hold regular weekly strategic leadership meetings that include all school administrators. These meetings are designed to review school performance data, discuss priorities, and develop actionable plans for school improvement. Administrators bring their unique perspectives and expertise to these discussions, ensuring that the LCAP is comprehensive and aligned with the school's goals. Data-Driven Decision Making School administrators are integral to the data collection and analysis process. They review performance metrics from the SBAC (Smarter Balanced Assessment Consortium), IAB (Interim Assessment Blocks), and NWEA (Northwest Evaluation Association) for Fall, Winter, and Spring. Additionally, they analyze feedback from the Kelvin pulse check SEL survey and comprehensive Panorama surveys, which

Educational Partner(s)	Process for Engagement
	include data on school climate, safety, connectedness, and overall satisfaction from students, parents, and staff. This data-driven approach allows administrators to identify key areas of need and develop targeted strategies for inclusion in the LCAP. Their role in interpreting this data ensures that the LCAP is grounded in evidence and focused on measurable outcomes. Professional Development and Training Administrators participate in professional development sessions that focus on key areas such as the Multi-Tiered System of Support (MTSS), social-emotional learning (SEL), Artificial Intelligence (AI) and Restorative Practices. These sessions not only enhance their skills but also provide a forum for discussing best practices and integrating new strategies into the LCAP. By staying informed about the latest educational trends and techniques, administrators can make well-informed contributions to the LCAP. Collaborative Planning Sessions We organize collaborative planning sessions where administrators work closely with teachers, staff, and other stakeholders to develop and refine the LCAP. These sessions foster a team-based approach, allowing administrators to facilitate discussions, mediate differing viewpoints, and ensure that the final plan reflects the collective vision of the school community. Direct Communication and Feedback Channels Administrators maintain open lines of communication with all members of the school community, including students, parents, teachers, and staff. Regular check-ins and feedback sessions allow them to gather insights and address concerns in real-time. This direct engagement ensures that the LCAP is responsive to the needs of all stakeholders and that administrators can promptly incorporate feedback into the planning process. Representation in Advisory Committees School administrators are actively involved in advisory committees, including the Parent Advisory Council (PAC). Administrators attend all PAC meetings as non-members to address questions, present

Educational Partner(s)	Process for Engagement
	updates, and gather feedback. This involvement ensures that the administrative perspective is represented in discussions about the LCAP and allows them to advocate for necessary resources, support structures, and policy changes that benefit the entire school community. Integration of Feedback and Continuous Improvement The feedback gathered from various stakeholders, including teachers, staff, parents, and students, is systematically reviewed and integrated into the LCAP. Administrators play a key role in this process, ensuring that the plan is continuously refined and improved based on real-world experiences and outcomes. Their commitment to continuous improvement ensures that the LCAP remains a dynamic and effective tool for school development. By engaging school administrators through these structured and collaborative processes, MSA-San Diego ensures that their leadership and insights are central to the development of the LCAP. This comprehensive approach not only enhances the effectiveness of the plan but also fosters a culture of shared responsibility and collective ownership among all members of the school community.
SELPA	At MSA-San Diego, engaging the Special Education Local Plan Area (SELPA) in the development of the Local Control and Accountability Plan (LCAP) is essential to ensure that the needs of students with disabilities are effectively addressed. Our collaborative approach ensures that SELPA's expertise and insights are integral to our school improvement strategies. Here's how we engage SELPA in the LCAP development process: Regular Consultative Meetings We hold regular consultative meetings with SELPA representatives. These meetings are designed to review and discuss the needs of students with disabilities, evaluate current support structures, and identify areas for improvement. SELPA's specialized knowledge and experience provide valuable insights that inform our LCAP priorities and strategies.

Educational Partner(s)	Process for Engagement
	Professional Development and Training We collaborate with SELPA to provide professional development sessions focused on best practices in special education, the Multi-Tiered System of Support (MTSS), and social-emotional learning (SEL). These sessions are aimed at enhancing the skills of our staff and ensuring that the needs of students with disabilities are met effectively. SELPA's involvement in these sessions ensures that our training programs are comprehensive and aligned with the latest educational standards and practices. Direct Communication and Feedback Channels SELPA maintains open lines of communication with school leadership and staff. Regular check-ins and feedback sessions allow SELPA representatives to gather insights and address concerns in real-time. This direct engagement ensures that the LCAP is responsive to the needs of students with disabilities and that SELPA can promptly incorporate feedback into the planning process. Integration of Feedback and Continuous Improvement The feedback gathered from various stakeholders, including SELPA representatives, is systematically reviewed and integrated into the LCAP. SELPA plays a key role in this process, ensuring that the plan is continuously refined and improved based on real-world experiences and outcomes. Their commitment to continuous improvement ensures that the LCAP remains a dynamic and effective tool for school development. By engaging SELPA through these structured and collaborative processes, MSA-San Diego ensures that the needs of students with disabilities are effectively addressed in the LCAP. This comprehensive approach not only enhances the effectiveness of the plan but also fosters a culture of shared responsibility and collective ownership among all members of the school community.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The adopted Local Control and Accountability Plan (LCAP) at MSA-San Diego was significantly influenced by the comprehensive feedback provided by our educational partners, including parents, students, teachers, staff, administrators, and SELPA representatives. Regular

meetings, surveys, home visits, and collaborative planning sessions ensured diverse perspectives were considered. Insights from parent and student surveys, feedback from Parent Advisory Council (PAC) meetings, and data analysis from assessments like SBAC, IAB, and NWEA were integral in identifying key areas of need. Professional development sessions and direct communications further informed our strategies, ensuring the plan addressed specific requirements such as enhanced support for students with disabilities and the implementation of effective intervention programs. This collaborative and data-driven approach led to a robust LCAP that reflects the collective vision and priorities of our school community, aiming to enhance student achievement and overall school improvement.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers, standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	The percentage of teaching assignments that have an assignment monitoring outcome of "clear" (Source: Local Indicator Priority 1, CDE DataQuest TAMO by FTE Report)	2021-22: 89.7%	2022-23: 88.9%	2023-24: 90.4%	2024-25: > 85%	+0.7 percentage points
1.2	Percentage of students without access to their	2023-24: 0%	2024-25 (As of 6/5/25):	2025-26 (As of 5/22/26):	2026-27: 0%	0 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 1: Action 1: Teacher assignments and credentials - Our School and the MPS Human Resources team conducted credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Our school supports our teachers’ credentialing needs such as induction, mentor support and professional development. We also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Our School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.

Goal 1: Action 2: Instructional materials and technology - Our school manages the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Our school annually reviews alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Our school annually review budgets and plans to ensure adequate budget for instructional materials. We ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. We provided effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.We provided instructional materials and technology for our students and staff as planned. This year we were able to add a new Science Curriculum with lab materials and workbooks for students. We also added a new History curriculum. We additionally purchased new chromebooks for the following year.

Goal 1: Action 3: Clean and safe facilities that support learning - We strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. We continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. We were able to complete annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies are quickly remedied. Daily general cleaning from our custodial provider maintains campus cleanliness. We continued to provide two full time custodians to our campus due to our increased enrollment numbers. Maintenance and repairs are provided by custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Our school updates and continually monitors our comprehensive safety and security plan, conducts necessary safety training for all staff and continues to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. We have procured and maintain necessary safety/emergency supplies, equipment and items. We have established schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Due to a tragic accident at a neighborhood school, we added additional supervision to a road crossing near our campus.

Goal 1: Action 4: Healthy and nutritious meals - Our school maintains nutrition education resources and continues to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Our school promotes healthy food and beverage choices for all students throughout campus, as well as encourages participation in school meal programs. We continue to provide free breakfast and lunch with our full time meal server.

Goal 1: Action 5: Well-orchestrated Home Office support services - The MPS Home Office provides services to our school, supports and holds us accountable for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of our 12 schools, which reduces program and operations-related burdens of our school administration and enables us to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1
Budgeted: $37,883.00
Actual: $48,021.00
Explanation: The projected expenses are line with the planned initiatives, with a slight deviation. The difference in the projected expenses are due to additional professional development for our staff and Livescan/TB reimbursement to volunteers which is a new requirement this year.

Goal 1 Action 2
Budgeted: $481,601.27
Actual: $470,314.29
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 1 Action 3
Budgeted: $1,251,346.54
Actual: $1,008,967.83
Explanation: The projected expenses are line with the planned initiatives, with a slight deviation. The difference in the projected expenses are due to increase in lease interest expense.

Goal 1 Action 4
Budgeted: $71,587.20
Actual: $73,410.16
Explanation: The projected expenses are line with the planned initiatives, with a slight deviation. The difference in the projected expenses are due to increased enrollment and number of student meals.

Goal 1 Action 5
Budgeted: $562,524.97
Actual: $896,395.04
Explanation: The projected expenses are line with the planned initiatives, but due to increased costs, above budget. The main driver of this increase is the CMO fee, which rose from $449k to $765k per the updated schedule.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

During the 2025-26 academic year, Magnolia Science Academy – San Diego made consistent progress toward achieving the goals outlined in the Local Control and Accountability Plan (LCAP). The implementation of planned actions was broadly effective across all goal areas, as evidenced by both quantitative metrics and qualitative outcomes.

All actions under Goal 1 were implemented with fidelity and demonstrated clear effectiveness. Credential verification, support for intern teachers, and administrator tuition reimbursement helped maintain a teacher retention rate of 86%, exceeding the target benchmark. Instructional materials were expanded to include updated science and history curricula, and new Chromebooks were purchased, enhancing technology access. The school maintained its facilities in “good repair” and improved specific campus features, such as repainting and safety netting. The nutrition program continued uninterrupted, supporting student wellness, while the MPS Home Office provided ongoing compliance and operational support. All associated metrics—such as teacher attendance and availability of instructional materials—met or exceeded expectations, with no substantive barriers encountered.

Expenditures were consistent with planned budgets, with only minor adjustments (e.g., increased spending on facilities repairs and new curriculum).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes are recommended. All actions under Goal 1 will be continued without modification, as they are successfully supporting a high-quality learning environment.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. 1.2	Instructional materials and technology	Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs. Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation. The following expenditures will be funded by federal Title funds: N/A	$536,992.57	No
1.3	Clean and safe facilities that support learning	Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and	$1,010,403.83	No

Action #	Title	Description	Total Funds	Contributing
		safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school. Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.) The following expenditures will be funded by federal Title funds: N/A		
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Expenditures associated with this action include the following: student meals, water, refreshments and office supplies related to the Healthy and nutritious meals	$74,489.84	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4. Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.) The following expenditures will be funded by federal funds: -Clerical & Tech: Federal CSP; Amount: $25,431.21 -STRS: Federal CSP; Amount: $4,859.04 -OASDI/Medicare: Federal CSP; Amount: $368.88 -Health & Welfare Benefits: Federal CSP; Amount: $4,652.63 -Unemployment Insurance: Federal CSP; Amount: $127.20	$935,138.73	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	EXCELLENCE: Under our first core pillar of Excellence, all students will have equitable access to a high-quality core curricular and instructional program and make academic progress in alignment with California content standards (CCSS, NGSS, etc.) through our data-driven, differentiated and engaging learning program. Students will develop competencies aligned with our “Graduate Profile,” including Literacy with a Learner’s Mindset and Critical Thinking skills as they pursue academic excellence.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Percentage of students who have sufficient access to all programs and services, as applicable, including the programs and services	2023-24: 100%	2024-25: (As of 6/5/25) 100%	2025-26 (As of 5/22/26): 100%	2026-27: 100%	0 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 2:
Action 1: Broad course of study and standards-based curriculum - Our school provided students with a broad array of courses including core subjects (English, Mathematics, Social Sciences, and Science) and electives (Broadcasting, Spanish, Robotics, Band and Art). Our school also provided all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. Our school has designed the master schedule to meet the needs of our students to ensure all academic content areas are available to all students, including student groups. All students participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. Our school is appropriately staffed to implement the school master schedule.

Action 2: Professional development for high-quality instruction - Professional development occurs at the MPS organizational level and within our school. We ensure that curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff are provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough

protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at our school and at the Home Office assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders determine common staff development days and tailor staff development to individual staff needs.

Action 3: MTSS - Academic enrichment, intervention, and student support - Our school implements MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. We synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions are utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. We also provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, one on one executive funcioning support, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings are coordinated with our Guidance Counselor, teachers and other support roles (resource teachers, EL coordinator, department chairs, etc.)

Action 4: Designated and integrated ELD programs and support for ELs - Our school provides services to ELs, including newcomers and LTELs, by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. We provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator (Dean of Academics) monitors EL student progress in program implementation according to our EL Master Plan. All of our teachers provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. We provide culturally and linguistically relevant materials for students. ELs receive further in-class instructional support which includes one-on-one teacher support and small group instruction. We strive to provide bilingual instructional or peer assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. We ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Our school also provides regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. These notifications include, but are not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.

Action 5: Support for students with disabilities - Students with disabilities receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including performance on statewide assessments. Students with disabilities have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams work in collaboration, monitor our scholars’ progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs are reviewed and present levels are updated during annual and triennial reviews as required by the IDEA.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1
Budgeted: $1,583,848.60
Actual: $1,739,989.24
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with a slight deviation due to our increased enrollment this year.

Goal 2 Action 2
Budgeted: $52,494.06
Actual: $64,346.06
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with a slight deviation due to our increased professional development needs and increasing costs.

Goal 2 Action 3
Budgeted: $320,616.61
Actual: $361,536.51
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with a slight deviation due to our increased enrollment this year.

Goal 2 Action 4
Budgeted: $0.00
Actual: $0.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives.

Goal 2 Action 5
Budgeted: $984,855.10
Actual: $950,066.55
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Based on the 2025-26 data available so far, our actions to date appear to be effective in maintaining student access to programs and services, supporting strong instructional implementation, and sustaining high levels of student course achievement. The school maintained 100% student access to programs and services in 2025-26, meeting the target and continuing the baseline level of full access. Administrative classroom observations were completed at 98%, exceeding the Year 3 target of at least 85%, which indicates that professional development, instructional monitoring, and feedback systems continue to be implemented with fidelity. In addition, 94% of students earned a grade of “C” or

better in core subjects and electives during the first semester, which is well above the Year 3 target of at least 80% and reflects continued student success in the instructional program.

The most recent preliminary state assessment and dashboard data also show areas of continued strength, while identifying student groups that require ongoing monitoring and support. In ELA, all students met or exceeded the 2025-26 target, with 72.42% meeting or exceeding standard in 2024-25 compared with the target of at least 60%. Socioeconomically disadvantaged students, students with disabilities, Asian students, Hispanic students, White students, students identifying as Two or More Races, and African American students also met or exceeded the listed ELA targets where data were available. ELA Distance from Standard results from the 2025 Dashboard show that all students performed 50.8 points above standard, with several student groups also above standard, including English Learners, socioeconomically disadvantaged students, Asian students, Hispanic students, White students, students identifying as Two or More Races, and African American students. Students with disabilities improved compared with baseline but remained slightly below standard, indicating a continued need for targeted supports.

In Mathematics preliminary data, all students also exceeded the 2025-26 target, with 60.09% meeting or exceeding standard in 2024-25 compared with the target of at least 55%. Socioeconomically disadvantaged students, students with disabilities, Asian students, Hispanic students, White students, and African American students met or exceeded their listed Mathematics targets where data were available. Mathematics Distance from Standard remained positive for all students overall at 26.9 points above standard on the 2025 Dashboard. However, several student groups, including English Learners, socioeconomically disadvantaged students, students with disabilities, African American students, and Hispanic students, remained below standard in Mathematics DFS, which indicates that subgroup performance should continue to be closely monitored and addressed through MTSS, intervention, and differentiated instructional supports.

Additional indicators also suggest that the school's actions are supporting student outcomes. The reclassification rate for English Learners was 88.0% as of June 5, 2026, exceeding the 2025-26 target of at least 10.0%. Preliminary Science results also remained strong, with 64.93% of all students meeting or exceeding standard in 2024-25, exceeding the 2025-26 target of at least 50%. Student groups with available Science data, including socioeconomically disadvantaged students, students with disabilities, Asian students, Hispanic students, White students, and students identifying as Two or More Races, also met or exceeded their listed targets.

The preliminary 2025-26 MAP growth data are now available and show strong evidence that the school's instructional, MTSS, intervention, and enrichment actions are contributing to measurable academic growth. In MAP Reading, 70.8% of MSA-SD students met their fall-to-spring growth targets, exceeding the 50% target by 20.8 percentage points. English Learners and students with disabilities also exceeded the target in Reading, with 100.0% of English Learners and 70.3% of students with disabilities meeting their growth targets. The Reading CGI/CGP results further support this positive trend, with all students earning a CGI of 0.99, which corresponds to the 84th percentile. English Learners earned a CGI of 1.85, or the 97th percentile, and students with disabilities earned a CGI of 0.82, or the 79th percentile.

Preliminary MAP Mathematics results also show strong overall growth. MSA-SD exceeded the 50% target for all students, with approximately three-fourths of students meeting their fall-to-spring Mathematics growth targets. Students with disabilities also exceeded the target in Mathematics, while English Learner results should continue to be monitored closely because the percentage meeting growth was closer to the target and the Mathematics CGI/CGP for English Learners was below the expected growth benchmark. Overall, the preliminary MAP data strengthen the conclusion that current actions are producing measurable academic growth, particularly in Reading and for students with disabilities, while also identifying English Learner Mathematics growth as an area for continued monitoring and targeted support.

Overall, based on the 2025-26 data available to date, our actions appear to be effective in maintaining full access to programs, supporting strong instructional implementation, sustaining high course achievement, meeting or exceeding several state assessment targets, and producing measurable academic growth on preliminary MAP measures. The preliminary MAP data strengthen the conclusion that MTSS, intervention, enrichment, and differentiated instructional supports are contributing to student progress, particularly in Reading and for students with disabilities. At the same time, the school should continue to monitor future Dashboard outcomes and subgroup results to ensure that growth is sustained for all student groups, with particular attention to English Learners in Mathematics and to student groups that remain below standard on Distance from Standard measures, including socioeconomically disadvantaged students, students with disabilities, African American students, and Hispanic students.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on prior practice and the 2025–26 data available to date, no major changes are recommended to Goal 2, the planned actions, or the overall structure of supports for the coming year. The current actions will be continued because they are supporting broad student access, strong instructional implementation, and high levels of student course performance.

Our school maintained 100% student access to all programs and services, and classroom observation completion remained above the target, indicating that systems for standards-based instruction, professional development, instructional monitoring, and program access continue to be implemented effectively. Student course performance also remained strong, with 94% of students earning a grade of “C” or better in core subjects and electives, exceeding the target of 80%.

As a result, the school will continue the current Goal 2 actions, including the broad course of study and standards-based curriculum, professional development for high-quality instruction, MTSS academic enrichment and intervention supports, designated and integrated ELD services, and supports for students with disabilities.

While no substantive changes are being made to the planned goal, metrics, target outcomes, or actions, the school will refine implementation based on areas identified for continued monitoring. Because some 2025–26 growth data, including MAP Reading, MAP Mathematics, and related CGI/CGP measures, is not yet available, our school will continue to monitor academic growth outcomes closely once complete data becomes available.

Our school will also continue to strengthen targeted supports for English Learners, socioeconomically disadvantaged students, and students with disabilities. This includes increased attention to academic language development, differentiated instruction, progress monitoring, intervention alignment, and collaboration among general education, special education, and EL support staff. Continued emphasis will be placed on ensuring that EL support strategies are aligned with English language development standards, reclassification criteria, and students’ individual academic needs.

Overall, the planned actions for Goal 2 will continue without major modification, with refinements focused on strengthening implementation, improving data monitoring, and accelerating progress for student groups with persistent performance gaps.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule. Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses. The following expenditures will be funded by federal Title funds: -Teacher Salaries: Title I; Amount: $23,936.00 -STRS: Title I; Amount: $4,572.94 -OASDI/Medicare: Title I; Amount: $347.16 -Health & Wellness Benefits: Title I; Amount: $5,045.73 -Unemployment Insurance: Title I; Amount: $119.71	$1,719,936.45	No
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular	$54,783.00	Yes

Action #	Title	Description	Total Funds	Contributing
		support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost/SchoolMint Grow software fees. The following expenditures will be funded by federal Title funds: -Professional Development: Title II; Amount: $14,000.00		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)	$343,968.93	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Dean of Academics salary and benefits, instructional aide salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, IXL, Quizizz, Membean, Cityspan, Newsela, and myON.) The following expenditures will be funded by federal Title funds: -Educational Software: Title I; Amount: $32,342.51 -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $3,370.80		
2.4	Designated and integrated ELD programs and support for ELs	Charter School will provide services to ELs, including newcomers and LTELs, by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.	$0.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA. Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: -SpEd Ctrct Inst: IDEA SPED; Amount: $217,524.00 -Instructional Aides: Title I; Amount: $4,107.36 -PERS: Title I; Amount: $110.12 -OASDI/Medicare: Title I; Amount: $31.42 -Health & Welfare Benefits: Title I; Amount: $2,448.75 -Unemployment Insurance: Title I; Amount: $2.05	$985,067.65	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	INNOVATION: All students will have access to a well-rounded, 21st century education that supports their readiness for college and the global world under our second core pillar of Innovation. Each student will become an independent, innovative scholar by practicing Creativity and Adaptability in their learning, using technology and data-driven online learning, and demonstrating high-quality learning outcomes in myriad ways.	Broad Goal

State Priorities addressed by this goal.

Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 22%	2024-25: (As of 6/5/25) 29%	2025-26 (As of 5/22/26): 35%	2026-27: >= 10%	+13 percentage points

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.2	Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 97%	2024-25: (As of 6/5/25) 84%	2025-26 (As of 5/22/26): 99%	2026-27: >= 90%	+2 percentage points
3.3	Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2023-24: (As of 5/20/24) 98%	2024-25: (As of 6/5/25) 98%	2025-26 (As of 5/22/26): 100%	2026-27: >= 80%	+2 percentage points

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 3:
Action 1: College/Career readiness programs and activities - Our school promotes a college-going culture through college/career days, and other college/career related activities. We successfully hosted our College and Career Week event that extended into a month of extra activities with the addition of our Guidance Counselor who organized this event. Nearly 20 guest speakers participated, including representatives from colleges, the navy, various occupational and trade school programs, and businesses. Students also presented on different career pathways such as community colleges, trade schools, colleges/universities, and military branches. We were also able to add a High School Fair and workshops for parents and students.

Action 2: STEM and GATE programs - Our school offers STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students are provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We also provide information and access to quality out-of-school STEM activities and achievements. With the CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, our school designed and implemented computer science and engineering-related courses and activities, such as Scratch, Code.org activities, Robotics, etc. Gifted and talented students and students achieving above grade level are

engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing as well as during STEAM related after school clubs. Emphasis is on innovation, critical thinking, and logical reasoning. Learners are also challenged to investigate, use problem-based learning, and research. Our students engaged in numerous STEAM activities, including the San Diego STEAM Expo, MPS STEAM Expo, and the San Diego Festival of Science and Engineering. All of our students also participate in the Celebration of Science event and share projects with their peers.

Action 3: Digital Literacy and Citizenship Programs - Our school educates our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Our school offered Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers incorporate appropriate technology into lessons to support student learning and technology is kept up to date. Students are provided with opportunities to expand their literacy, computational, and communication skills with digital media; they write advanced essays, conduct internet research, and are engaged in data collection, presenting ideas and drawing conclusions. Our school staff teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications, including Artificial Intelligence (AI); digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. As our students gain the ability to navigate computing systems, utilize networks and the internet responsibly, analyze and interpret data with an antibias lens, solve problems using algorithms and programming, and carefully consider the ethics of computing technologies, they will become informed digital citizens who can leverage AI and other technologies to promote social justice and equity.

Action 4: Access to Physical Education and Fitness Resources - Our school provides students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. Our curriculum promotes the benefits of a physically active lifestyle and helps students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. We offer recess before school and after lunch and students are provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, we ensure that our campus and facilities are safe, and that equipment is available to students to be active. We offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. We adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.

Action 5: Additional Programs for a Well-Rounded Education - To provide a well-rounded education to our students, we strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, community service programs, clubs, etc. Our teachers and other staff offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, our school's Expanded Learning Opportunities Program (ELO-P) supports afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, and other areas.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1
Budgeted: $0.00
Actual: $0.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 3 Action 2
Budgeted: $1.06
Actual: $0.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 3 Action 3
Budgeted: $0.00
Actual: $0.00
Explanation: Due to the free resources, the projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 3 Action 4
Budgeted: $268,748.52
Actual: $530,747.85
Explanation:The main variance here is primarily due to an unbudgeted purchase of $227k for Chromebooks that was added after the initial budget was set. The current chromebooks are 5-6 years old and performance has been an issue. After tech/financial research, the most cost efficient and highest performance chromebooks were selected to replace current inventory.

Goal 3 Action 5
Budgeted: $437,489.24
Actual: $415,316.10
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Based on the 2025–26 data available to date, the specific actions under Goal 3 have been effective in making progress toward providing students with college, career, STEAM, digital literacy, physical education, and well-rounded learning opportunities. The school exceeded all

available Year 3 target outcomes for the Goal 3 metrics, indicating that the actions implemented to date are supporting progress toward the goal.

Action 1, College/Career Readiness Programs and Activities, was effective in strengthening students' exposure to college and career pathways. The school successfully implemented College and Career Week, which expanded into a month of activities with the support of the Guidance Counselor. Nearly 20 guest speakers participated, including representatives from colleges, the Navy, occupational and trade programs, and businesses. Students also presented on different career pathways, and the school added a High School Fair and workshops for parents and students. These activities supported a stronger college-going and career-readiness culture.

Action 2, STEM and GATE Programs, was effective in expanding access to advanced math, STEAM activities, and enrichment opportunities. In 2025–26, 35% of students were enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, exceeding the Year 3 target of at least 10%. Students also participated in STEAM activities such as the San Diego STEAM Expo, MPS STEAM Expo, the San Diego Festival of Science and Engineering, and the Celebration of Science. In addition, 100% of students created or demonstrated a STEAM-focused project, experiment, model, or demo, exceeding the target of at least 80%. These outcomes suggest that the school's STEAM and GATE opportunities are being implemented effectively and reaching students broadly.

Action 3, Digital Literacy and Citizenship Programs, was also effective. In 2025–26, 99% of students in the current graduating class had taken a computer/technology course and/or experienced blended learning, exceeding the Year 3 target of at least 90%. The school continued to provide computer and digital literacy classes, blended learning experiences, and instruction in responsible technology use, including topics such as digital footprint, privacy, security, digital etiquette, and appropriate use of artificial intelligence. These efforts indicate strong implementation of digital literacy and citizenship supports.

Action 4, Access to Physical Education and Fitness Resources, was implemented as planned and supported students' access to physical education, physical activity, and safe fitness resources. The school provided standards-aligned physical education, opportunities for recess and movement throughout the day, and access to physical activity through clubs, sports, and other programming. Actual expenditures exceeded the budgeted amount due to upgrades to old equipment and the soccer field, which reflects an increased investment in student fitness resources and campus facilities. While this action does not have a specific outcome metric listed in the available data, implementation appears effective based on the school's continued provision of PE, activity opportunities, and facility improvements.

Action 5, Additional Programs for a Well-Rounded Education, was effective in supporting enrichment and broader student engagement. The school continued to offer elective courses, arts, music, language, clubs, field trips, community service, and Expanded Learning Opportunities Program supports. These programs helped provide students, including unduplicated students, with access to experiential learning and enrichment opportunities beyond the core academic program.

Overall, the Goal 3 actions to date have been effective. The strongest evidence of effectiveness is that the school exceeded all available 2025–26 target outcomes: 35% of students participated in accelerated or advanced math opportunities, 99% of graduating students accessed computer/technology coursework or blended learning, and 100% of students completed or demonstrated a STEAM-focused project. No major areas of ineffectiveness are evident from the available data. Continued monitoring should ensure that these opportunities remain accessible to all student groups and that increased investments in physical education and enrichment continue to support student engagement and well-rounded development.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on prior practice and the 2025–26 data available to date, no major changes are recommended to Goal 3, the metrics, target outcomes, or planned actions for the coming year. The current actions will be continued because they are effectively supporting college and career readiness, STEAM access, digital literacy, physical education, and well-rounded educational opportunities for students.

While no substantive changes are being made, the school will continue to refine implementation based on prior practice. College and career readiness activities will continue to be expanded and strengthened through guest speakers, student presentations, parent and student workshops, and high school transition activities. STEAM and advanced math opportunities will continue to be monitored to ensure broad and equitable access. Digital literacy instruction will continue to include responsible technology use, digital citizenship, and appropriate use of artificial intelligence. The school will also continue to maintain and improve physical education resources and enrichment opportunities, including clubs, electives, arts, athletics, field trips, and Expanded Learning Opportunities Program supports.

Overall, reflections on prior practice indicate that the planned Goal 3 actions are effective and should be maintained. Any changes for the coming year will be refinements to strengthen access, quality, and consistency of implementation rather than changes to the goal, metrics, targets, or core actions.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will promote a college-going culture through college visits, college/career days, and other college/career related activities. Expenditures associated with this action include the following: college/career-related materials and activities. The following expenditures will be funded by federal Title funds: N/A	$0.00	Yes
3.2	STEM and GATE programs	Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM	$1.06	Yes

Action #	Title	Description	Total Funds	Contributing
		activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research. Expenditures associated with this action include the following: supplemental STEM program fees. The following expenditures will be funded by federal Title funds: N/A		
3.3	Digital literacy and citizenship programs	Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications, including Artificial Intelligence (AI); digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. As our students gain the ability to navigate computing systems, utilize networks and the internet responsibly, analyze and interpret data with an antibias lens, solve problems using algorithms and programming, and carefully consider the ethics of computing technologies, they will become informed digital citizens who can leverage AI and other technologies to promote social justice and equity.		Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees. The following expenditures will be funded by federal Title funds: N/A		
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses. The following expenditures will be funded by federal Title funds: -PE Supplies: Title IV, Part A ESEA (ESSA); Amount: $1,742.00	$305,751.50	Yes
3.5	Additional programs and activities that support well-rounded education	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential	$409,400.22	Yes

Action #	Title	Description	Total Funds	Contributing
		learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses. The following expenditures will be funded by federal Title funds: N/A		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	CONNECTION: All students, families, staff, and other educational partners will experience our third core pillar, Connection, and have access to meaningful engagement opportunities that help cultivate Effective Communication and Global Citizenship in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other educational partners. This sense of connection creates a safe place for all learners and educational partners to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and educational partner surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students' development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 4:
Action 1: Seeking family input for decision making - Our school builds the capacity of and support administrators, teachers and staff in order to build the capacity of and support family members to effectively engage in advisory groups and decision-making. We provide all families with opportunities to provide input on policies and programs, and implement Community School strategies to reach and seek input from any underrepresented groups in the school community. Some periodic information/input sessions for families include, but are not limited to, Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC is composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Our school chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, our school conducts annual family surveys to seek feedback on school improvement.

Action 2: Building relationships and partnerships with families for student outcomes - Our school has developed the capacity of staff to build trusting and respectful relationships with families and create welcoming environments for all families in the community. Our staff learns about each family's strengths, cultures, languages, and goals for their children. We promote participation in activities/events, including Student/Parent Orientation, Back to School Night, and Student-Led Parent/Teacher conferences. Administrators greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. We provide professional learning and support to staff to improve capacity to partner with families and to provide families with information and resources to support student learning and development in the home. We provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. We communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff visit students at their homes to discuss student progress and enhance student learning and involvement.

We also support families to understand and exercise their legal rights and advocate for their own students and all students. We schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, internet and social media safety, using SIS to check student progress, study habits, and family literacy. We use a variety of communication channels to connect with families in a language that is understandable and accessible to them. Our parent communication software is utilized for voice and text communications, email, and push notifications. We provide language translators at parent meetings to the extent practicable.

Action 3: MTSS - PBIS and SEL support - Our school provides a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support is provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. We offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Our school implements a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. We also celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. We inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. We also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.

Action 4: Annual educational partner surveys - Our school annually administers school experience surveys to students, families, and staff. We implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.

Action 5: Community outreach and partnerships - We ahve established several community, business, institutional and civic partnerships that invest in and support the vision and goals of our school. School staff participate in local activities that engage community members and staff in communicating school successes to the broader community. We secure community support to sustain existing resources and add new resources that address emerging student needs. Our school leadership actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 1
Budgeted: $2,172.00
Actual: $2,172.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 4 Action 2
Budgeted: $130,268.33
Actual: $135,991.24
Explanation: All actions taken were in line with the planned initiatives, but the projected expenses are around $5k more than the budgeted amount due to our increased enrollment.

Goal 4 Action 3
Budgeted: $337,815.82
Actual: $324,012.23
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

Goal 4 Action 4
Budgeted: $2,120.00
Actual: $2,120.00
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations.

Goal 4 Action 5
Budgeted: $456,885.31
Actual: $419,020.17
Explanation: The projected expenses are within the budgeted amount, and all actions taken were in line with the planned initiatives, with no significant deviations

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Based on the 2025–26 data available to date, the specific actions under Goal 4 have been generally effective in making progress toward increasing family engagement, strengthening school connectedness, supporting attendance, and maintaining a safe and welcoming school environment. Most Goal 4 outcomes met or exceeded their Year 3 targets, indicating that the school's actions are supporting progress toward the goal.

Action 1, Seeking Family Input for Decision Making, was effective. The school held 8 Parent Advisory Committee meetings in 2025–26, meeting the Year 3 target of at least 8 meetings. The school also held 8 English Learner Advisory Committee meetings, exceeding the Year 3 target of at least 4 meetings. This reflects strong implementation of systems for family input, representation, and shared decision-making. The increase in ELAC meetings is especially significant because it shows strengthened engagement with English Learner families and improved structures for gathering input from this important educational partner group. To do this, we combined the Parent Advisory Committee and ELAC meetings.

Action 2, Building Relationships and Partnerships with Families for Student Outcomes, was effective overall, though one area needs continued attention. The school offered 27 parent engagement activities and events in 2025–26, exceeding the Year 3 target of at least 10 events. Family survey participation also increased substantially to 88.3%, exceeding the target of 75%, which suggests that family outreach and communication efforts are reaching more families. However, home visits reached 7.0%, which is below the Year 3 target of 15.0%. While the school continues to build relationships through orientations, conferences, communication systems, workshops, and family events, home visits remain an area for improvement.

Action 3, MTSS, PBIS, and SEL Support, was effective in supporting student engagement, attendance, behavior, and school climate. The 2025–26 P-2 ADA rate was 95.53%, exceeding the target of at least 92.00%. Chronic absenteeism decreased to 10.8%, which is well below the target of 20.0% or lower. The middle school dropout rate was 0.0%, meeting the target of 2.0% or lower. The suspension rate decreased to 1.4%, meeting the target of 2.5% or lower, and the expulsion rate remained at 0.0%, meeting the target of 0.50% or lower. These outcomes indicate that our school's attendance supports, PBIS systems, SEL supports, restorative practices, and student engagement efforts are having a positive impact.

Action 4, Annual Educational Partner Surveys, was effective in gathering feedback from students, families, and staff, though survey results show some areas for continued monitoring. Survey participation was strong for families and staff, with family participation at 88.3% and staff participation at 100%, both exceeding targets. Student participation was 93.6%, slightly below the 95% target. Average approval rates met the targets for all groups, with students at 67%, families at 95%, and staff at 80%. Overall satisfaction met the student target, with students at 76%, but family satisfaction was 88%, below the 95% target, and staff satisfaction was 83%, below the 85% target. This suggests that while the school is successfully gathering feedback and maintaining generally positive school climate indicators, additional follow-up is needed to better understand and respond to the decline in family and staff overall satisfaction.

Action 5, Community Outreach and Partnerships, was implemented as planned and contributed to the school's broader efforts to support students and families through community, business, institutional, and civic partnerships. Although this action does not have a single standalone outcome metric in the data provided, the school's strong attendance, reduced chronic absenteeism, strong family engagement participation, and high student retention rate suggest that outreach and partnership efforts are contributing positively to school connectedness and student support. Student retention increased to 93%, exceeding the Year 3 target of at least 85%.

Overall, the Goal 4 actions to date have been effective in making progress toward the goal. The strongest evidence of effectiveness includes meeting or exceeding targets for PAC meetings, ELAC meetings, parent engagement events, ADA, chronic absenteeism, dropout rate, suspension rate, expulsion rate, family and staff survey participation, average approval rates, and student retention. Areas of relative ineffectiveness or continued need include increasing home visits, improving student survey participation, and addressing lower family and

staff overall satisfaction rates. Moving forward, the school should continue the current Goal 4 actions while refining implementation in these targeted areas.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on prior practice and the 2025–26 data available to date, no major changes are recommended to Goal 4, the metrics, target outcomes, or planned actions for the coming year. The current actions will be continued because they are generally effective in supporting family engagement, educational partner input, student attendance, school connectedness, positive behavior supports, and a welcoming school climate.

In 2025–26, Magnolia Science Academy – San Diego maintained strong implementation of Goal 4 actions. The school held 8 Parent Advisory Committee meetings, meeting the Year 3 target, and held 8 English Learner Advisory Committee meetings, exceeding the Year 3 target. This reflects strengthened structures for family voice and decision-making, including increased opportunities for English Learner families to provide input. The school also hosted 27 parent engagement activities and events, exceeding the target of at least 10, and family survey participation increased to 88.3%, exceeding the target of 75%.

The school also showed strong progress in student engagement and school climate indicators. The P-2 ADA rate increased to 95.53%, chronic absenteeism decreased to 10.8%, the middle school dropout rate was 0.0%, the suspension rate decreased to 1.4%, and the expulsion rate remained at 0.0%. Student retention also increased to 93%, exceeding the target of at least 85%. These results indicate that the school's MTSS, PBIS, SEL, attendance, family engagement, and community partnership actions are supporting progress toward the goal.

As a result, the planned Goal 4 actions will continue without major modification. These include seeking family input for decision-making, building relationships and partnerships with families, implementing MTSS/PBIS/SEL supports, administering annual educational partner surveys, and strengthening community outreach and partnerships.

While no substantive changes are being made to the goal, metrics, target outcomes, or core actions, the school will refine implementation in response to areas identified through reflection on prior practice. The school will continue working toward the 15% home visit target, as the 2025–26 home visit rate was 7.0%. The school will also continue to strengthen student survey participation, which was slightly below target, and will follow up on family and staff overall satisfaction results to better understand areas for improvement and respond to stakeholder feedback.

For the coming year, the school will maintain its current Goal 4 structure while increasing focus on targeted refinements, including strengthening home visit systems, sustaining ELAC and PAC engagement, increasing student participation in school experience surveys, and using survey feedback to improve family and staff satisfaction. These refinements are intended to strengthen implementation while preserving the actions that are already producing positive outcomes for students and families.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision-making	Charter School will build the capacity of and support administrators, teachers and staff in order to build the capacity of and support family members to effectively engage in advisory groups and decision-making. Charter School will provide all families with opportunities to provide input on policies and programs, and implement Community School strategies to reach and seek input from any underrepresented groups in the school community. Some periodic information/input sessions for families include, but are not limited to, Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. Expenditures associated with this action include the following: parent meeting expenses. The following expenditures will be funded by federal Title funds: N/A	$2,172.00	Yes
4.2	Building relationships and partnerships with	Charter School will develop the capacity of staff to build trusting and respectful relationships with families and create welcoming environments	$130,193.98	Yes

	families for student outcomes	for all families in the community. Our staff will learn about each family's strengths, cultures, languages, and goals for their children. We will promote participation in activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. We will provide professional learning and support to staff to improve capacity to partner with families and to provide families with information and resources to support student learning and development in the home. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will also support families to understand and exercise their legal rights and advocate for their own students and all students. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits. The following expenditures will be funded by federal Title funds: -Teacher Salaries: Title I; Amount: $5,000.00 -STRS: Title I; Amount: $955.00 -OASDI/Medicare: Title I; Amount: $72.50 -Unemployment Insurance: Title I; Amount: $25.00		

Action #	Title	Description	Total Funds	Contributing
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform expenses, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.	$323,529.84	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: -Instructional Materials & Supplies: Title I; Amount: $2,104.10 -Educational Software: Title IV, Part A ESEA (ESSA); Amount: $5,300.00		
4.4	Annual educational partner surveys	Charter School will annually administer school experience surveys to students, families, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. Expenditures associated with this action include the following: N/A The following expenditures will be funded by federal Title funds: N/A		Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of educational partners, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.	$408,615.01	Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: Community Schools Coordinator salary and benefits, membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses. The following expenditures will be funded by federal funds: -Certified Pupil Support Salaries: Federal CSP; Amount: $96,316.00 -Classified Support: Federal CSP; Amount: $72,177.36 -Clerical & Tech: Federal CSP; Amount: $21,755.28 -STRS: Federal CSP; Amount: $18,396.36 -PERS: Federal CSP; Amount: $19,354.68 -OASDI/Medicare: Federal CSP; Amount: $8,584.52 -Health & Welfare Benefits: Federal CSP; Amount: $27,915.81 -Other Benefits: Federal CSP; Amount: $2,176.80		

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.4	**Action:** Healthy and nutritious meals **Need:** Low-income students do not have sufficient or consistent access to nutritious meals and they develop poor eating habits. As a result, they experience poor health and academic outcomes, including, but not limited to, obesity, chronic absenteeism and lower grades. There	MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	is a need to provide all our students with healthy and nutritious meals. **Scope:** LEA-wide	consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. We will provide two school meals free of charge during each schoolday to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	
2.2	**Action:** Professional development for high-quality instruction **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. **Scope:** LEA-wide	With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost/SchoolMint Grow software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2, TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded

			• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Mathematics assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP)
2.3	**Action:** MTSS - Academic enrichment, intervention, and student support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials,	Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power	Goal 2: • Percentage of completion of observations by the school administration based on one formal and four informal classroom observations per teacher per year to ensure state standards implementation for all students (Source: Local Indicator Priority 2,

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. **Scope:** LEA-wide	English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.	TeachBoost/SchoolMint Grow) • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading

2.4	**Action:** Designated and integrated ELD programs and support for ELs **Need:**	Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers	Goal 2: For all students, but particularly for the EL and LTEL student groups: • Percentage of students who

Powered by BoardOnTrack

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	The majority of Charter School's student population consists of English Learners (EL), including long-term ELs (LTELs), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. **Scope:** LEA-wide	with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students, including newcomers and LTELs, regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students.	have received a grade of “C” or better in core subjects and electives (Source: SIS) • Percentage of students who have met or exceeded standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-ELA/Literacy assessments (Source: CA School Dashboard) • Percentage of students who have met their growth targets on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring (Source: NWEA MAP)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect that this action will result in increased academic achievement of our student groups, particularly of our ELs and LTELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and EL reclassification rates as identified in our LCAP metrics in Goal 2.	• Conditional Growth Index and Percentile (CGI and CGP) based on students' growth on the Measures of Academic Progress (MAP)-Reading assessment from fall to spring as compared to the national growth norms (Source: NWEA MAP) • Percentage of students who have met or exceeded standard on the CAASPP-Mathematics assessments (Source: CDE DataQuest) • Distance from Standard (DFS) on the CAASPP-Mathematics assessments (Source: CA School Dashboard) • Percentage of students who

			and current year (Source: CA School Dashboard) • Percentage of ELs reclassified to Fluent English Proficient (RFEP) annually (Source: CDE DataQuest)
3.1	**Action:** College/Career readiness programs and activities **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. **Scope:** LEA-wide	With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates" based on the responses of our students to the question, "Overall, I am satisfied and would

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.2	**Action:** STEM and GATE programs **Need:** Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of everchanging technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEM curricula. **Scope:** LEA-wide	Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement computer science and engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum	Goal 3: • Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS) • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS) • Percentage of students who have created or demonstrated a

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.	STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)
3.3	**Action:** Digital literacy and citizenship programs **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our slow-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way.	With the needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will incorporate appropriate technology into lessons to support student learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and	Goal 3: • Percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	model safe, savvy, and social digital citizenship; topics may include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.	
3.4	**Action:** Physical education, activity, and fitness **Need:** Low-income students do not have sufficient or consistent access to physical activities/sports and fitness education. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. **Scope:** LEA-wide	MPS is committed to the optimal development of every student. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "overall satisfaction rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We expect that this action will result in increased attendance and grades as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students to the question, "Overall, I am satisfied and would recommend this school to other students." (Source: Local Indicator Priority 6, Panorama Education)
3.5	**Action:** Additional programs and activities that support well-rounded education **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of	To provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English (LOTE), clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, STEM (science, technology, engineering, math), ELA, LOTE, culture, sports, visual and performing arts, community service, leadership, and others. In addition to these clubs, the Charter School's	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4: • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • School experience survey "average approval rates"

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. **Scope:** LEA-wide	Expanded Learning Opportunities Program (ELO-P) will support afterschool and summer enrichment programs in science, robotics, advanced math, academic competitions, journalism, college mentorship, and other areas. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect that this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.	based on the responses of our students and families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students and families to the question, "Overall, I am satisfied and would recommend this school to other students/families.

			" (Source: Local Indicator Priority 6, Panorama Education)
4.1	**Action:** Seeking family input for decision-making **Need:** It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. **Scope:** LEA-wide	Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Board of Directors meetings, Parent Advisory Committee (PAC) meetings, English Learner Advisory Committee (ELAC) meetings, Parent Task Force (PTF) meetings, and Coffee with the Principal meetings. The PAC will be composed of majority of parents of pupils and include parents/guardians of ELs, low-income, foster youth, and students with disabilities. Parents, teachers, staff, students, and community members are encouraged and empowered to join school committees, including the PAC and ELAC. Such committees provide for representation of students in need (low income, EL, foster youth, students with disabilities, etc.) Feedback from our educational partners provide valuable input for the LCAP and continuous school improvement. Charter School chooses to utilize the LCAP to serve as the SPSA and holds an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent and family engagement policy and school-student-parent compact. In addition, as explained in Goal 4: Action 4, Charter School will conduct family surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their	Goal 4: • Number of Parent Advisory Committee (PAC) meetings per year (Source: Local Indicator Priority 3) • Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3) • School experience survey "average approval rates" based on the responses of our families to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing Community School strategies to reach and seek input from any underrepresented groups in the school community. We also expect that this action will result in increased parent satisfaction as measured by the annual educational partner surveys in Goal 4: Action 4.	of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our families to the question, "Overall, I am satisfied and would recommend this school to other families." (Source: Local Indicator Priority 6, Panorama Education)
4.2	**Action:** Building relationships and partnerships with families for student outcomes **Need:** Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved	In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students'	Goal 2: • Percentage of students who have received a grade of "C" or better in core subjects and electives (Source: SIS) Goal 4:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. **Scope:** LEA-wide	grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way	• Number of activities/events for parent involvement per year (Source: Local Indicator Priority 3) • Percentage of students who have been home-visited by the teachers per year (Source: Local Indicator Priority 3, SIS) • Average Daily Attendance (ADA) Rate (Source: SIS) • Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • High School Dropout Rate (Source: CDE DataQuest, CALPADS) • Graduation Rate (Source: CALPADS, CA

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual educational partner surveys in Goal 4: Action 4. (Source: Local Indicator Priority 6, Panorama Education)
4.3	**Action:** MTSS - PBIS and SEL support **Need:** The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism	Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a SEL/Life Skills program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies	Goal 2: • Percentage of students who have received a grade of “C” or better in core subjects and electives (Source: SIS) Goal 4: • Average Daily Attendance (ADA) Rate (Source: SIS)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. **Scope:** LEA-wide	and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide	• Chronic Absenteeism Rate (Source: CA School Dashboard, SIS) • Middle School Dropout Rate (Source: CALPADS) • Student Suspension Rate (Source: CA School Dashboard, CALPADS) • Student Expulsion Rate (Source: CDE DataQuest, CALPADS) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules,

		basis. It was found effective in the current school year and will be continued in the coming school year. We expect that this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual educational partner surveys in Goal 4: Action 4.	and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff to the question, "Overall, I am satisfied and would recommend this school to other students/families/ educators." (Source: Local Indicator Priority 6, Panorama Education)
4.4	**Action:** Annual educational partner surveys **Need:** It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve	Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see	Goal 4: • School experience survey "participation rates" by students, families, and staff (Source: Local

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Educational partner voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage educational partners in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage educational partners in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. **Scope:** LEA-wide	their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our educational partners' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our educational partners open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect that this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.	Indicator Priority 6, Panorama Education) • School experience survey "average approval rates" based on the responses of our students, families, and staff to all questions on the survey in the following topics: climate of support for academic learning; knowledge and fairness of discipline, rules, and norms; safety; and sense of belonging (school connectedness) (Source: Local Indicator Priority 6, Panorama Education) • School experience survey "overall satisfaction rates" based on the responses of our students, families, and staff

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Magnolia Science Academy – San Diego does receive LCFF supplemental funds but does not qualify for concentration grants—meaning it gets money for each high-need student (low-income, EL, foster), but not the extra concentration add-on. The school does not qualify for the LCFF concentration grant, because its unduplicated pupil percentage (UPP) is well below the 55% threshold required for that additional funding. As a result, this section is not applicable for the school.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

Powered by BoardOnTrack

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

Powered by BoardOnTrack

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

Powered by BoardOnTrack

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

Coversheet

Public Hearing for 2026-27 Budgets for All MPS

Section:	IV. Public Hearing
Item:	B. Public Hearing for 2026-27 Budgets for All MPS
Purpose:	Discuss
Submitted by:	
Related Material:	IV.B - Public Hearing 2026-27 Adopted_Budgets_FINAL.pdf

Agenda Item:	IV. B – Public Hearing
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Cafer Turan, Interim Chief Financial Officer
RE:	Public Hearing of the 2026-27 Adopted Budgets for All MPS Sites and Home Office Management Fee Policy

Action Proposed

NA

Purpose:

The purpose of this item is to present the 2026–27 Annual Budget for Board adoption in accordance with applicable state and county requirements. The budget reflects updated revenue projections based on current LCFF planning factors, enrollment and ADA assumptions, staffing plans, and expenditure projections for the upcoming fiscal year beginning July 1, 2026.

Background:

California charter schools are required to adopt an annual budget for the upcoming fiscal year prior to July 1. The annual budget is submitted to the authorizing agency and the Los Angeles County Office of Education (LACOE) and serves as the organization's financial plan for the year. The Board is responsible for approving the budget, which establishes revenue and expenditure authority for all MPS sites and the central office (MERF).

- **Revenue Projections**Revenue projections based on 2026–27 LCFF rates, enrollment and ADA targets, and other state and federal funding sources
- **Expenditure Budget**Salary and benefit costs, operational expenses, CMO fees, and other expenditures by site and function, reflecting Board-approved budget reductions and staffing

plans

The 2026–27 budget was developed in alignment with the organization's fiscal stabilization priorities, including enrollment growth as the primary recovery lever, implementation of Board-approved budget reductions, and continued oversight of site-level spending.

Board adoption of the annual budget authorizes management to implement the financial plan for 2026–27 and provides the framework for ongoing budget-to-actual monitoring throughout the fiscal year.

Analysis:

The 2026–27 Annual Budget was developed using the 2026–27 LCFF rates published by the California Department of Education, enrollment and ADA projections by site, updated staffing plans, and expenditure assumptions informed by 2025–26 actuals and known cost changes. Budget reduction measures previously reviewed by the Board are incorporated into the preliminary budget presented for adoption.

In developing the 2026–27 budget, management evaluated:

- Enrollment trends and ADA projections
- One-time versus ongoing revenue sources
- Staffing levels, negotiated salary agreements, and benefit cost projections
- Facilities and debt service commitments
- Cash flow projections and reserve adequacy for the 2026–27 fiscal year and the two subsequent years

The multiyear projections reflect the organization's most current estimates for fiscal years 2026–27, 2027–28, and 2028–29. Where deficit spending is projected, management has identified corresponding budget adjustments and fiscal stabilization strategies—primarily enrollment growth at $14,912 per ADA—to maintain compliance with state reserve requirements and ensure long-term fiscal sustainability.

Cash flow projections indicate that the organization will maintain sufficient liquidity to meet its financial obligations throughout 2026–27.

Management Discussion

Revenue

The 2026–27 budget projects total revenues of approximately $60.7 million in LCFF across all sites, based on enrollment and ADA targets and the 2026–27 LCFF rate of approximately $14,912 per ADA. Total organization-wide revenues, including federal, state categorical, and local sources, are projected at approximately $92.5 million, or approximately $20,271 per ADA excluding fundraising and grant revenue. Enrollment growth remains the primary revenue recovery lever, with each ADA gained representing approximately $14,912 in additional LCFF entitlement.

Expenses

Total projected expenditures for 2026–27 reflect Board-approved budget reductions of approximately $797K (primarily in contingency and technology accounts), updated staffing plans, and renegotiated vendor contracts. CMO fees are budgeted at negotiated rates per site, with total CMO fee revenue to MERF of $6.45 million. Special education, substitute, and facilities costs continue to be monitored closely as the largest areas of variable spending.

Changes in Net Assets

The 2026–27 budget projects an overall net operating deficit of approximately ($126,063) across all MPS sites and MERF. MSA-2, MSA-3, MSA-7, and MERF carry projected net operating deficits, with enrollment shortfalls as the primary driver. Budget reduction measures already approved by the Board are reflected in these projections. Each site with a deficit has an accompanying enrollment action plan; achieving projected ADA targets is the critical path to structural balance. Sites currently projecting positive net income include MSA-1, MSA-4, MSA-5, MSA-6, MSA-8, MSA-SA, MSA-SD, MSA-Anaheim, and MSA-Irvine.

Enrollment and Other

The 2026–27 budget is built on enrollment and ADA targets that represent growth over 2025–26 actuals, particularly at MSA-2, MSA-3, MSA-7, and MSA-Anaheim where enrollment gaps are most pronounced. Management has developed site-level enrollment action plans and will provide monthly budget-to-actual reporting to the Board, covering ADA progress, substitute and special education spending trends, and adherence to the no-overspend directive. Continued focus on enrollment growth and discretionary expenditure management remains central to the organization’s path to long-term fiscal sustainability.

Exhibits:

- Board Budget Summary and 2026–27 CMO Fee Policy
- 2026–27 July Budget Detail by MPS Site and Home Office

2026-27 July Budget

Financial Overview

The June Estimated Actuals project a deficit of approximately $3.6 million, compared to $3.3 million projected at Second Interim. Operating expenditures exceeded the Second Interim Budget by approximately $1.6 million, substantially offset by additional revenue from the P-2 enrollment adjustment and related funding recalculations.

The remaining variance of approximately $300,000 unfavorable is primarily attributable to higher Special Education costs, substitute staffing expenses, technology investments, facilities repairs, insurance costs, and other operational expenditures across several school sites.

Key Site Drivers

MSA-1: Increased Special Education, substitutes, technology, and professional development costs, partially offset by facility and staffing savings.
MSA-5: Lower CCSPP/ELOP revenue recognition and increased loan interest expense.
MSA-SD: Technology purchases and reduced CSP revenue recognition.
MSA-8 & MSA-SA: Higher substitutes, operational costs, and student program expenditures.
MSA-OC & MERF: Higher organizational support costs partially offset by staffing vacancies and salary savings.

2026-27 July Budget – By Site

Debt Service Coverage Ratio & Days Cash on Hand

Board Summary • FY 2025-26 • June 17, 2026

Bond Covenant Compliance:
Although some school sites did not individually meet debt service coverage requirements, the covenant is tested on a consolidated basis. The Organization met the required debt service coverage ratio and remains in compliance with bond covenants.

CMO Fee Schedule – Fiscal Year 2026-27

Board Summary • June 17, 2026

School Name	2026-27 Projected LCFF	CMO Fee %	CMO Fee Per Site	Maximum Amount (15%)	Difference
Magnolia Science Academy	$10,662,447	15.00%	$1,599,367	$1,599,367	$—
Magnolia Science Academy 2	$6,300,454	13.00%	$819,059	$945,068	$126,009
Magnolia Science Academy 3	$4,506,938	13.00%	$585,902	$676,041	$90,139
Magnolia Science Academy 4	$1,809,478	5.82%	$105,232	$271,422	$166,190
Magnolia Science Academy 5[1]	$8,036,429	3.03%	$243,504	$973,879	$730,375
Magnolia Science Academy 6	$1,967,775	13.00%	$255,811	$295,166	$39,356
Magnolia Science Academy 7	$4,388,681	0.00%	$—	$658,302	$658,302
Magnolia Science Academy Bell	$4,976,194	13.00%	$646,905	$746,429	$99,524
MSA – Santa Ana	$9,298,958	15.00%	$1,394,844	$1,394,844	$—
MSA – San Diego	$5,345,677	15.00%	$801,852	$801,852	$—
MSA – OC	$1,470,735	0.00%	$—	$220,610	$220,610
TOTAL	**$58,763,766**		**$6,452,475**	**$8,582,979**	**$2,130,504**

CMO fee is capped at 15% of projected LCFF per site. Sites shown at 0.00% have fees waived for 2026-27. The "Difference" column reflects the gap between the charged fee and the 15% maximum.

[1] The CMO fee for Magnolia Science Academy 5 is calculated as 3.03% of total revenue, not LCFF.

Magnolia Public Schools
CMO Fee Policy

The Board of Directors ("Board") of Magnolia Public Schools ("MPS") adopts this policy for the MPS charter schools to support the Home Office's provision of administrative, operational, educational, compliance, and organizational services to the schools through a Charter Management Organization ("CMO") fee.

The Board authorizes and delegates to the MPS Chief Executive Officer, Executive Team, and their designees (collectively, the "Home Office Team") to recommend, calculate, administer, and collect the CMO fee in accordance with this policy.

CMO Fee

The Home Office provides centralized services and support to all MPS schools, including, but not limited to:

- Executive leadership and management;
- Human resources;
- Accounting and financial reporting;
- Payroll administration;
- Student and special education services;
- Technology support;
- Procurement support;
- Compliance and reporting;
- Operational oversight; and
- Other centralized organizational services.

The Home Office Team shall assess each school's CMO fee as follows:

- The annual CMO fee for each MPS school shall not exceed fifteen percent (15%) of the school's total Local Control Funding Formula (LCFF) revenue for the applicable fiscal year.
- The actual CMO fee assessed may be less than the maximum allowable amount and shall be determined through the annual budget process and approved by the Board.
- In determining the CMO fee, the Home Office Team may consider factors including the financial condition of the school, enrollment trends, cash-flow position, operational needs, fiscal stability, and organizational priorities.

School-Specific Costs

Certain costs are specific to an individual school or site, including but not limited to rent, debt service, utilities, facilities management, and other site-specific operational expenses ("School-Specific Costs").

School-Specific Costs shall be assigned to and paid by the applicable school based on actual costs incurred.

School-Specific Costs are separate from and in addition to the CMO fee and are not subject to the fifteen percent (15%) limitation described in this policy.

Fee Modifications

The Home Office Team may reduce, defer, waive, or restructure all or a portion of a school's CMO fee based on the financial condition, enrollment trends, cash-flow position, operational needs, or fiscal stability of the school.

Any such adjustment shall be made at the discretion of MPS and shall not create an entitlement to future reductions, waivers, or modifications.

Documentation and Oversight

The Finance Department shall maintain documentation supporting CMO fee assessments and School-Specific Cost allocations.

The CMO fee shall not be considered an automatic entitlement or guaranteed transfer and shall remain subject to annual Board review, budget approval, organizational financial capacity, applicable legal requirements, and financing covenants.

Periodic Review

This CMO Fee Policy shall be reviewed periodically by the Board and may be amended as necessary to ensure continued fiscal responsibility, transparency, and organizational effectiveness.

Approval of MPS 2026-27 Student/Parent Handbook

Section: V. Consent Items
Item: A. Approval of MPS 2026-27 Student/Parent Handbook
Purpose: Vote
Submitted by:
Related Material: V.A - Student-Parent Handbook 2026-27_FINAL.pdf

Agenda Item:	V.A - Consent Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer
RE:	Approval of the MPS 2026-27 Student/Parent Handbook

Action Proposed:

Staff recommends and moves that the Board approve the MPS 2026-27 Student/Parent Handbook.

Purpose:

MPS updates our Student/Parent handbook every year based on changes in law and MPS policies, considering feedback from legal counsel and our educational partners. It is a live document that is consistent with our charter petitions and practices at our school sites. Board approval of the Student/Parent Handbook ("Handbook") is a routine annual practice for MPS.

Background:

The Handbook includes most of our student policies in their entirety except those which are too long or specific to be fully included in a general Student/Parent Handbook, such as independent study and forms or math placement policy. Each of those exceptions is included as a synopsis and the student/parent is referred to the full MPS policy for details. All those policies are made available to the schools on our school websites and in the front office of our school sites for convenient access.

The Handbook includes the required annual notices and forms such as Title I meetings, parent-student-school compact, UCP, etc. It also includes agreements for students and parents/guardians to sign, such as the Student Technology Use Policy. Instead of mailing our students and parents/guardians separate notices and forms to review and sign throughout the year, MPS has consolidated all required notifications and forms in a single handbook with an acknowledgement and signature page attached to the end. This approach has resulted in a handbook of a relatively larger size, but the benefits (compliance with notifications, convenient access to policies, etc.)

outweigh the size of the Handbook. Besides providing all necessary information in a single Handbook to our educational partners, our school administrators also find this one-stop approach extremely practical for accountability purposes. The Handbook is purposefully designed into seven sections:

1) Academics: Educational Equity
2) Academics: High School & Beyond
3) Attendance & Records
4) Health & Wellness
5) Safety & Security
6) Engaging Educational Partners & Complaint Procedures
7) Information Sheets & Notices

The Handbook has subtopics grouped together so that a person interested in one topic, e.g., Health & Wellness related topics, can conveniently find all related information in that section of the Handbook. Most district handbooks list all their topics alphabetically, not by topic, making it hard to find information about related topics in one place and synthesize.

As part of the annual Handbook update process, MPS closely follows LACOE's "Annual Parent Notifications" manual, with its annual updates, to ensure we cover all required notifications as well as most of the recommended ones that will benefit our community. Consequently, we have ended up including more than 100 notifications in the Handbook. As explained above, all those notifications are grouped into the seven sections of the Handbook by topic along with the related Magnolia policies and procedures to make the Handbook coherent and easy to follow.

Analysis:

Following is a list of modifications made in the 2026-27 Student/Parent Handbook. The finalized Handbook is attached for the Board's approval.

Page #	Modification
ACADEMICS: EDUCATIONAL EQUITY	
14-15	Updated the **Homework Policy** to clarify the purpose of homework (practice, preparation, and extension), provide recommended grade-level time guidelines, and include expectations related to **academic integrity** and the appropriate use of **artificial intelligence (AI).**
18-19	Clarified the **Extra Credit Policy** and provided additional guidance regarding eligibility and implementation.

19	Added guidelines regarding **early withdrawal and credit eligibility** for students who withdraw before the end of a semester.
24	Added a section on **Expanded Learning Programs**, including priority enrollment considerations for certain groups of students as identified by applicable law and program requirements.
26	Expanded the **Child Find System** section.
35	Added a section on **Children of Military Families**.
35	Expanded the section regarding the rights of **pregnant and parenting pupils**.
ACADEMICS: HIGH SCHOOL & BEYOND	
36	Added clarification regarding **UC/CSU "a-g" validation policies** and the distinction between validation, graduation credits, and course enrollment requirements.
42	Added a provision regarding **exemptions from MPS local graduation coursework requirements** for students experiencing extraordinary circumstances.
45-46	Expanded notifications regarding **CaliforniaColleges.edu (CCGI)**, added a section on **Apprenticeship and Pre-Apprenticeship Opportunities**, and expanded the notification regarding **Dual Enrollment and International Baccalaureate (IB) Opportunities.**
48	Added a section regarding the **CalKIDS (California Kids Investment and Development Savings Program)**.
49	Added a section regarding **Workplace Readiness Week.**
ATTENDANCE & RECORDS	
58	Added a note regarding the protection of **directory information for homeless children and youth.**
HEALTH & WELLNESS	
59	Added the locations of **Automated External Defibrillators (AEDs)** at MPS school sites.
60	Expanded information regarding **Emergency Action Plans** for athletic venues and facilities.
67	Expanded the notification regarding the **dangers of synthetic drugs** to include social media platforms and other online services used to market, advertise, or sell illicit drugs.
68	Clarified that, although **school meals** are provided free of charge to all students, MPS may request completion of applicable forms as permitted by law.

69	Added a section regarding **menstrual products**.
69	Added a section regarding **body shaming**.
69	Expanded the **California Healthy Youth Act (CHYA)** notification.
70	Added information regarding **consent to outpatient mental health treatment and counseling services**, as permitted by applicable law.
70	Expanded the **Suicide Prevention Policy** section to include additional details from the comprehensive policy, including suicide prevention crisis teams, suicide prevention liaisons, and available resources.
SAFETY & SECURITY	
92	Added clarification regarding the **search of school lockers**.
95	Removed **lunch reflection** from the list of possible negative consequences.
101-108	Updated the **Student Suspension and Expulsion Policy and Procedures.**
111	Expanded **mandated reporter** provisions to include volunteers.
ED PARTNER ENGAGEMENT, RIGHTS, & COMPLAINT PROCEDURES	
123	Revised the **Annual Educational Partner Surveys** section to reflect the use of **Kelvin** and **Great Place to Work** as survey platforms.
126	Added a **Notice of Policy Regarding Immigration Enforcement Activity.**
138-144	Updated the **Uniform Complaint Procedures (UCP)** section to align with recent changes in state law, including expanded protections related to discrimination and educational equity, revised complaint filing and appeal procedures, updated civil remedies provisions, and clarification regarding complaints that are not subject to the UCP.
INFORMATION SHEETS & NOTICES	
147-167	Updated annual forms to reflect the **2026–27 school year**.

Impact:

Our Handbook is a reference document for our community. Beyond compliance, it is designed to share our vision, values, programs, aspirations, and expectations with our educational partners. We would like to create a partnership that supports our students' academic and personal success.

The Handbook is a live document that is consistent with our charter petitions and practices at our school sites. Our school leaders, teachers, and staff train students and parents/guardians on parts of the Handbook each school year.

Annually, the Chief Accountability Officer (CAO) trains MPS school site administrators on changes made to the Handbook during the summer training and at monthly academies throughout the year. The CAO, working with the Chief Academic Officer and the Director of Student Services, also facilitates discussion during those meetings and collects feedback on our policies in order to inform the following year's Handbook.

Wishing You a Wonderful School Year!

Dear Parents/Guardians and Students,

At Magnolia Public Schools ("MPS"), we believe that education is a shared responsibility among parents, teachers, school staff, and students. The success of our students depends on the cooperation and commitment of everyone involved. Each group plays an important role in making school a place where we learn and grow together in harmony. Everyone has the right to feel safe, supported, and accepted—regardless of race, color, gender, ability, religion, nationality, or social background.

This handbook allows us to share our vision with students and families in the MPS community. It reflects who we are and what we value. All MPS policies are designed to provide a safe, inclusive, and orderly environment that supports learning. Our faculty and staff look forward to sharing their knowledge and passion through academics, special programs, and extracurricular activities.

We encourage you to get to know your school—its programs, activities, and schedule—and to become an active participant in your educational journey. Take advantage of opportunities to get involved through classes, clubs, and events.

We also recognize that a strong school culture depends on clear expectations. This Student/Parent Handbook ("Handbook") outlines the key regulations and policies that guide our day-to-day operations and help ensure a consistent, supportive learning environment. Please read it carefully, discuss it as a family, and refer to it throughout the school year.

Wishing you a successful and inspiring school year!

– MPS Administration

About MPS

MPS are tuition-free, public charter schools with campuses throughout Southern California, that focus on Science, Technology, Engineering, Arts, and Math (STEAM) - based teaching to ensure its students are well-rounded and college-ready from day one. We offer smaller class sizes, more attention from teachers, as well as safe campuses that foster ideal learning conditions for our students.

MISSION:

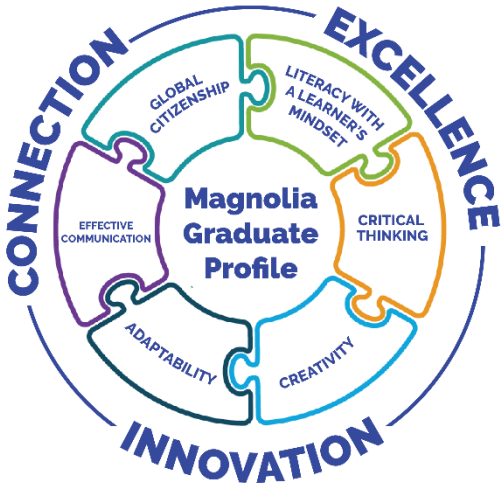
Magnolia Public Schools provides a safe and nurturing community using a whole-child approach to provide a high-quality, college preparatory STEAM educational experience in an environment that cultivates respect for self and others.

VISION:

Graduates of Magnolia Public Schools commit to building a more peaceful and inclusive global society by transforming traditional ideas with *creative thinking*, *effective communication*, and the *rigor of science*.

ANCHOR CORE VALUES AND COMPETENCIES:

Beyond our mission and vision, MPS has long identified Excellence, Innovation, and Connection as our anchor core values, which permeate all school activities. More recently, our Board of Directors adopted the Magnolia Graduate Profile, developed through a comprehensive design process that engaged a variety of different MPS educational partners in focused conversations about the knowledge, skills, mindsets, and literacies essential for success in college and 21st century careers, aligned to our anchor core values. The Profile defines six competencies: ● Literacy with a Learner's Mindset ● Critical Thinking ● Creativity ● Effective Communication ● Adaptability ● Global Citizenship, all defined below.



EXCELLENCE

Magnolia students will exhibit the desire to pursue knowledge and greatness and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based, "real-world" learning using a constructivist/project-based approach, Culturally and Linguistically Responsive Teaching, blended learning and tech-fluency development through integrated technology across subjects, student portfolio that are personalized to their path and interests, individualized scheduling models, assessments of and for learning and academic discourse, and opportunities for acceleration including dual enrollment college courses in middle and high school. All of this prepares students for 21st century demands. As they grow and develop, students learn where and how to access the needed information and supports to advance their academic pursuits and societal contributions. Students demonstrate their mastery and excellence in their learning goals based on the MPS core competencies, with a specific focus on:

COMPETENCY #1 - Literacy with a Learner's Mindset for Magnolia students is to demonstrate a depth of knowledge and literacy in multiple subject areas with a learner's mindset to make informed decisions. Students will overcome

challenges by developing a positive attitude and belief about learning, embracing curiosity to experience new ideas, and sustaining the desire to learn, unlearn, and relearn. Students will achieve Excellence in the classroom and society as a result of both their mastery of content knowledge and skills across academic subjects, and an ingrained perspective that there is no ceiling to what can be learned – and that knowledge itself can be mutable as people continue to iteratively research and discover how the world works.

COMPETENCY #2 - Critical Thinking is demonstrated by Magnolia students as they problem solve by identifying, evaluating, and prioritizing solutions to difficult or complex situations, and implementing and reflecting critically on a solution. Students will achieve Excellence as a result of distilling problems to their root causes using multiple sources and perspectives, designing solutions that align to said root causes and adequately address them, and while considering the cost-benefit impact of potential solutions based on community input. To develop excellence in research, project artifacts, and presentations, students will also learn to apply the essential skill of discernment for the reliability, validity, quality, and value of sources and content.

INNOVATION

Students will have the freedom to choose how and what they learn and demonstrate it as a public display of excellence. Individualized scheduling, including A-G planning done each year in high school grades, early identification of learning styles, personalities, interests, and college/career plans support students' matriculation and college and career readiness. This includes student participation in the planning of their educational experience, enrichment and acceleration programs, engaging STEAM program choice options, individualized and blended (tech-based) learning programs, differentiated educational experiences, extended learning options, electives, contests and competitions, clubs, teams, and adaptive assessments.

COMPETENCY #3 - Creativity for Magnolia students is to have the freedom within our innovative model to demonstrate originality, imagination, and new ways of thinking critically and independently. Students will transcend traditional ideas, rules, patterns, and relationships to create and convey new or meaningful ideas, methods, or interpretations. Through STEAM-themed interdisciplinary learning, local and national academic and STEAM competitions, mentoring, STEAM clubs, college and career instructional field trips, students will be motivated to pursue 21st century careers. Innovation will occur through student voice and choice in what they learn, adapted teaching based on student interests and personal assets, and freedom and variety in how mastery of content knowledge and skills is demonstrated.

COMPETENCY #4 - Adaptability for Magnolia students is to demonstrate flexibility when acclimating to various roles and situations. Students will work effectively in a local, national and global climate of ambiguity and changing priorities, demonstrating agility in thought and action. They will understand, negotiate, and balance diverse views and beliefs to reach workable solutions, responding productively to feedback, praise, setbacks, and criticism. MPS' educators continuously adapt to student data, differentiating learning. Magnolia students will understand that fluidity is necessary to be responsive to an unpredictable and dynamic world, as well as diverse sources of input and feedback.

CONNECTION

Magnolia school communities are integrated partnerships with the school site staff, families, students, and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internship, and promote unity and better decision-making through the implementation of restorative justice practices. Additionally, community cultivates identity and gives each member a sense of belonging and pride. MPS utilizes home visits, stakeholder surveys, field trips, life skills classes, and coaching to support our overall community-based goals. We implement a "community schools" approach and work with community partners to establish mentoring relationships and other social capital to support our students' development of personal and academic networks for long-term resilience and connection.

COMPETENCY #5 – Effective Communication for Magnolia students is to articulate thoughts and ideas effectively using oral, written, and non-verbal communication skills in a variety of forms and contexts, for a range of purposes and audiences. Students will also demonstrate empathy through awareness, sensitivity, concern, and respect for others' feelings, opinions, experiences, and culture. Students will create true, authentic Connection by listening fully to others' perspectives and experiences, accurately reflecting back input, and expressing themselves clearly and accurately.

COMPETENCY #6 – Global Citizenship for Magnolia students is to contribute to making the world a better place. Students will understand the world and its complexities, value and embrace diverse cultures and unique perspectives through mutual respect and open dialog, cultivate compassion, and take action in building more peaceful and inclusive environments. Students will develop the social and emotional skills needed to compete in a global society, including having a growth mindset, being resilient, reflective, and demonstrating grit, self-respect and good character. These traits are crucial to not only for enrolling in and completing college, but also for

developing and contributing their original ideas in a workplace environment. Underlying the effective exercise of the Global Citizenship competency is Connection – specifically, an orientation towards understanding the diverse cultures of the world, acknowledging the effort to understand others as an asset, and recognizing the interconnectedness of human beings – in particular, the global repercussions of our actions regardless of geographic boundaries.

These values and competencies overlap and are integrated across the school, in every grade level and every classroom, providing consistent messaging to our students and entire school community about what we value and what we are working towards. Together, these values and competencies shape Magnolia's definition of what it means to be an educated person in the 21st century and "orient actions" among all stakeholders, helping form a shared sense of purpose and connection across the school and organization. Studies have also revealed that children who maintain a solid sense of values and ethics are more likely to exhibit positive behaviors and attitudes. And at the educator level, research shows that clarifying and deliberately practicing core values is an essential way for teachers to build resilience.

MAGNOLIA GRADUATE PROFILE:

Our overarching objective at MPS is to create a vibrant and mutually beneficial partnership between school and community that supports our students' academic and personal success. With the focused conversation about knowledge, skills, mindsets, and literacies essential for 21st-century student success, and through a design process that intentionally engaged our MPS community, MPS has developed the Magnolia Graduate Profile. Our goal with the Magnolia Graduate Profile is a collective vision for MPS that articulates our organization and community's aspirations for our students.

Magnolia Graduate Profile Competencies

The following are SIX COMPETENCIES in our community's Graduate Profile.

1. Literacy with a Learner's Mindset
2. Critical Thinking
3. Creativity
4. Adaptability
5. Effective Communication
6. Global Citizenship

SCHOOLWIDE LEARNER GOALS (SLGs):

The SLGs are measurable schoolwide goals that every student is expected to achieve upon graduation from MPS. Our SLGs are embedded in our curriculum, instructional practice, core values, and daily culture at the school.

LITERACY WITH A LEARNER'S MINDSET

1. Develop and implement literacy skills that impact all content areas so that they can be well-rounded individuals within society.
2. Meaningfully engage in learning activities by knowing their readiness levels, interests, backgrounds, and making informed decisions about their learning pathways.
3. Students take ownership of their learning by creating long and short-term academic goals and reflecting on them throughout the school year.

CRITICAL THINKING

1. Apply, analyze, identify, synthesize, and evaluate information and experiences and connect the skills and content learned across the curriculum.
2. Are inspired to be lifelong readers and critical thinkers.
3. Are able to take a variety of sources and viewpoints, evaluate them critically, and make judgments that reflect an understanding of the possible consequences of those decisions.

CREATIVITY

1. Apply innovative skills and practices which connect to their learning experiences.
2. Have opportunities for multiple methods of the expression of ideas in a project (ex. writing, drawing, creating video, slide presentations, memes).
3. Incorporate new and meaningful ideas and methods through cross-curricular STEAM activities.

ADAPTABILITY

1. Develop self-awareness and self-advocacy skills and maintain physical, mental, social, and emotional well-being to guide in their pursuit towards a college degree and career choices.
2. Collaborate, work effectively, and manage interpersonal relationships within diverse groups and settings. Respond productively to feedback, praise, setbacks, and criticism.
3. Demonstrate consideration of others' ideas by keeping an open mind, questioning ideas, and demonstrating flexible thinking.

EFFECTIVE COMMUNICATION

1. Demonstrate effective oral and written communication skills, using the expected academic language for the purpose, audience, and setting.
2. Develop listening skills and exhibit empathy through awareness, sensitivity, concern, and respect for self and others' feelings, opinions, experiences, and cultures.
3. Use technology effectively and respectfully to access, organize, research, and present information to become proficient communicators.

GLOBAL CITIZENSHIP

1. Contribute to the improvement of life in their school and local community by demonstrating leadership skills and participating in community-based projects.
2. Understand and reflect on connections between their local community and the broader world, through both current events and historical context.

3. Are internationally minded individuals who recognize and value other perspectives and cultures.

GOALS:

By 2027, more than 2,600 Magnolia Public Schools graduates will be productive, innovative, and responsible individuals who through the pursuit of their passions and educational opportunities will be poised to be change agents within their communities.

We will achieve this goal by supporting the Magnolia Public Schools strategic and continuous improvement plans that are in alignment with our LCAP overarching goals:

- **Goal #1: BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT -** All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive high-quality services that are fundamental to academic success, including fully credentialed teachers, standards-aligned and high-quality instructional materials, and appropriately maintained school facilities.
- **Goal #2: EXCELLENCE -** Under our first core pillar of *Excellence*, all students will have equitable access to a high-quality core curricular and instructional program and make academic progress in alignment with California content standards (CCSS, NGSS, etc.) through our data-driven, differentiated and engaging learning program. Students will develop competencies aligned with our "Graduate Profile," including *Literacy with a Learner's Mindset* and *Critical Thinking* skills as they pursue academic excellence.
- **Goal #3: INNOVATION -** All students will have access to a well-rounded, 21st century education under our second core pillar of *Innovation*. Each student will become an independent, innovative scholar by practicing *Creativity* and *Adaptability* in their learning, using technology and data-driven online learning, and demonstrating high-quality learning outcomes in myriad ways.
- **Goal #4: CONNECTION -** All students, families, staff, and other educational partners will experience our third core pillar, *Connection*, and have access to meaningful engagement opportunities that help cultivate *Effective Communication* and *Global Citizenship* in a safe and nurturing environment. Educational partners will feel a sense of community and connectedness. Students will be college and career ready.

WHY MPS?

Students throughout all MPS campuses use technology daily at school and at home as a tool to work collaboratively with each other and communicate with teachers. We challenge their minds, and foster an environment where students want to learn, whether that is through our science labs, or our robotics projects and competitions.

At MPS we place great emphasis on STEAM education, as it will give our students an advantage in their college and career plans. MPS students also participate in a variety of school activities and clubs including technology & engineering, language & culture, community service, and visual & performing arts.

We are looking for great minds who want to learn. With the help of our teachers, principals, staff, and of course parents, we aim to prepare our students to succeed in whatever educational and career paths they choose.

OUR TEACHERS:

All teachers at MPS go the extra mile for their students, even visiting the homes of our students through our Home Visit Program to do whatever is possible to ensure our students perform at their best. It is no wonder many of our parents, who themselves are quite involved in their children's academic careers, have given us top ratings among charter schools.

OUR CAMPUSES:

Our STEAM charter school campuses throughout Southern California are enrolling high school, middle school, and elementary students from the areas of Reseda, Van Nuys, Northridge, Granada Hills, Chatsworth, North Hills, Lake Balboa, North Hollywood, Sun Valley, Arleta, Mission Hills, Panorama City, Valley Glen, Carson, Bell, Santa Ana, Anaheim, Placentia-Yorba Linda, Irvine, San Diego, and Los Angeles.

34 CFR	Title 34, Code of Federal Regulations
40 CFR	Title 40, Code of Federal Regulations
USC	United States Code

ACADEMICS: EDUCATIONAL EQUITY

Curriculum, Instruction, & Assessment

Instructional Continuity Plan (ICP)

Magnolia Public Schools (MPS) has a plan to ensure that students continue learning if in-person instruction is disrupted due to an emergency or natural disaster (such as a wildfire, earthquake, power outage, or pandemic). The Instructional Continuity Plan (ICP) outlines how MPS will maintain communication, instruction, and support during such events.

Communication: MPS will contact families within five (5) calendar days of an emergency closure using ParentSquare, along with other platforms as needed. Families will receive updates about the nature of the emergency, available resources, and how to stay connected. If internet or power is unavailable, flyers may be posted in public locations.

Instruction: Within ten (10) instructional days, MPS will resume instruction through remote learning (online or printed packets), alternative in-person instruction, or a hybrid model. Students will have access to grade-level content aligned to standards, including A–G coursework for high school students.

Technology: MPS surveys families to identify technology needs and will provide laptops, hotspots, and instructional materials to ensure students can access remote learning.

Student Support: All students—including English Learners, students with disabilities, foster and homeless youth—will receive appropriate supports. Teachers will hold virtual office hours, and students needing additional help may be referred to SST, 504, or IEP meetings.

Mental Health: MPS offers virtual counseling services and shares mental health resources, including access to CareSolace and the National Suicide Prevention Lifeline (988).

Meals and After-School Programs: Meal services and enrichment programs will continue through alternative, safe methods during closures.

Teacher Preparation: Staff receive regular training to support high-quality instruction during remote learning, including digital platforms, student engagement strategies, and online classroom management.

Returning to Campus: In-person learning will resume when conditions are safe—such as stable power, clean water, clear air quality, and operational facilities.

A complete copy of the **"MPS Instructional Continuity Plan"** is available for review in the main office and on the school website.

Standards-Based Curriculum

All curricula at MPS are based on the California state standards, including but not limited to the Common Core State Standards, the Next Generation Science Standards, English Language Development Standards, History-Social Science Framework, and other applicable content standards.

Availability of Prospectus

Upon request, MPS will make available to any parent or legal guardian, a school prospectus, which shall include the curriculum, including titles, descriptions, and instructional aims of every course offered. Please note that, pursuant to law, MPS may charge for the prospectus in an amount not to exceed the cost of duplication.

A syllabus is a document about the course content, goals, and elements and a guide for students to the kind of teaching and learning they can expect in their class. Each teacher will hand out copies of the class syllabus on the first day of class and, if applicable, post a digital copy on the course website.

Calendar & Bell Schedule

The school will annually provide all parents and guardians with the school calendar and bell schedules. Notification shall be sent to parents and guardians of all students advising of the schedule of minimum days and pupil-free staff development days. If this schedule subsequently changes, MPS shall notify parents and guardians of the affected students as early as possible, but no later than one month before the scheduled minimum or pupil-free day.

El calendario escolar y los horarios de clases se proporcionan anualmente y también están disponibles en el sitio web de la escuela y en la oficina escolar previa solicitud.

California Assessment of Student Performance and Progress (CAASPP)

The California Assessment of Student Performance and Progress, or CAASPP, is the state academic testing program. CAASPP is a system intended to provide information that can be used to monitor student progress on an annual basis and ensure that all students leave high school ready for college and career. The CAASPP assessment system encompasses the following assessments:

- Smarter Balanced Summative Assessments for English Language Arts (ELA) and mathematics in grades 3 through 8 and 11;
- California Alternate Assessment (CAA) for ELA and mathematics for eligible students in grades 3 through 8 and 11;
- California Science Tests (CAST) for Science in grades 5, 8, and once in high school;
- California Alternate Assessment (CAA) for Science in grades 5, 8, and once in high school;
- California Spanish Assessment (CSA) for eligible students in grades 3-12.

Starting with spring 2019 CAASPP testing, the CDE will no longer print CAASPP Student Score Reports (SSR) for parents. Hence, parents may no longer receive their child's CAASPP SSR by mail. Parents will be able to access their student's electronic CAASPP SSR in the Infinite Campus Parent Portal. If you do not have an Infinite Campus Parent Portal account, we encourage you to create one soon. Please see section on Parent Portal for details on how to create an account and access test scores.

CAASPP SSRs will include an overall score and a description of the student's achievement level for ELA and mathematics. Score reports for students in grades 5, 8, and 11 will include Science test results. Early Assessment Program (EAP) results will be included on the score reports for students in grade-11, providing an early indication of readiness for college-level coursework. Students who take the CSA will get a separate report.

As the parent or guardian, you have the option of excusing your child from any or all parts of the CAASPP. If you would like to excuse your child from the test, you must submit your request in writing to the school. Please let the school know as soon as possible so the school can make alternative arrangements for your child.

Testing dates may be found on the school calendar. If you have additional questions about the testing program, please contact the School Principal. Additional information is posted on the internet at http://www.cde.ca.gov/ta/tg/ca/.

Class Change / Course Withdrawals

During the first five school days from the beginning of the course, students will attend the classes they are assigned and/or they signed up for; no changes will be allowed unless there is a scheduling error on the student's schedule. After the first five school days, if necessary academic changes arise, students will have 10 school days to complete changes. Students may withdraw from a course without penalty of an F grade within **15** school days from the beginning of the course. After 15 school days, students must remain in the course until its conclusion. Proof of extenuating circumstances must be provided for any late requests to be considered.

Scheduling errors will receive immediate attention by the Dean of Academics. The following are considered scheduling errors: missing a class period, double up of courses in the same period, missing a course needed for graduation, student has not met the prerequisite for a course, etc.

The school will not consider schedule changes for the following reasons: to be with friends, to change teachers, athletics, early/late arrival adjustments (unless required by state or federal law), etc. Class change is at the discretion of the school administration.

Assessment and Grading

Purpose of Assessment & Grading

The primary purpose of assessment and grading at MPS is to provide meaningful feedback to students and parents about progress toward learning goals. Assessments help teachers measure student understanding, guide instruction, and support academic growth.

Course report card grades reflect a student's demonstrated mastery of course standards through both practice assessments and performance assessments. Grades are reported as letter grades corresponding to the percentage earned in each course.

Aligned with these grading guidelines, each department will work with the Department Chair and the Dean of Academics to establish consistent grading practices and weights for specific assessment types. These expectations will be communicated to students and parents.

Teachers will assign an appropriate number of assessments and assignments in each category and will update grades regularly in the school information system (SIS) so that students and parents can monitor academic progress.

What Grades Represent at MPS

Grades at MPS are intended to reflect a student's level of mastery of course standards and learning objectives.

Grades are based on demonstrated learning through assessments, assignments, and other academic work. Practice assignments help students develop and strengthen their understanding, while performance assessments measure a student's ability to apply what they have learned.

Grades are not intended to be punitive but to provide clear information about student learning and progress.

Assessment Structure

Assessments at MPS are generally organized into two categories: Performance Assessments (Summative) and Practice Assessments (Formative). The approximate weighting of these categories is shown below.

Assessment Type	Subcategories

Performance Assessments (Summative) **~70-80%**	• Unit assessments *(no more than 50%)* • Benchmark assessments *(no more than 30%)* • Final assessment *(no more than 30%)* • Performance tasks *(projects, portfolios, essays, artwork, models, visual representations, multimedia presentations, labs, oral presentations, live or recorded performances, etc.)*
Practice Assessments (Formative) **~20-30%**	• Independent practice • Daily assignments • Classwork • Homework *(may not exceed 15% of the overall course grade)* • Warm-ups • Reviews • Quizzes

Practice assessments help students build understanding and prepare for performance assessments that measure mastery.

Assessment Practices

Homework

Homework is an important part of the learning process at MPS. Homework provides students with opportunities to practice skills, reinforce concepts taught in class, prepare for upcoming lessons, and extend their learning beyond the classroom.

Thoughtful homework helps students develop important academic habits such as responsibility, organization, time management, and perseverance. Homework expectations at MPS are designed to support student learning while also recognizing the importance of students' mental well-being, physical health, family time, and participation in extracurricular activities.

Purpose of Homework

Homework is typically assigned for one or more of the following purposes:

Practice: Students reinforce skills or concepts that have already been taught in class.

Preparation: Students prepare for upcoming lessons by reading, reviewing materials, or completing activities that support future learning.

Extension: Students deepen their understanding of concepts through projects, research, writing, or other activities that extend learning.

Homework should be meaningful and aligned with learning goals and should avoid unnecessary or repetitive work.

Homework and Grading

Homework is considered a practice (formative) assessment and may be included in the Practice Assessments category. Homework assignments may not exceed 15% of a student's overall course grade.

Homework assignments may include:

- Practice problems
- Reading assignments
- Written responses
- Skill practice
- Preparation for class discussions
- Short projects or activities that reinforce learning

Teachers may provide feedback on homework assignments to help students improve their understanding.

Recommended Homework Time Guidelines

To support healthy study habits and maintain a balanced workload, MPS recommends the following approximate nightly homework time guidelines:

Grade Level	Suggested Homework Time
Grades TK-2	Up to 20 minutes
Grades 3-5	20-40 minutes
Grades 6-8	45-90 minutes
Grades 9-12	60-120 minutes

These timeframes are general guidelines. Homework expectations may vary depending on course requirements, major assignments, or upcoming assessments.

Teachers, particularly at the secondary level, should be mindful of the overall workload students may experience across multiple classes.

Equity and Access

Teachers will consider student access to resources—including technology, internet connectivity, and home learning environments—when assigning homework. When possible, assignments should be designed so that all students have a fair opportunity to complete them successfully.

Students who encounter barriers to completing homework should communicate with their teacher so appropriate support can be provided.

Student Responsibilities

Students are responsible for:

- Recording homework assignments
- Completing assignments on time
- Submitting work according to teacher instructions
- Seeking clarification or assistance when needed

Developing consistent homework habits helps prepare students for success in college and careers.

Parent Communication

Whenever possible, homework assignments will be posted through the SIS or other teacher-designated platforms so that students and parents/guardians can monitor assignments and academic progress.

Access to SIS is password-protected to protect student confidentiality.

Parents/guardians are encouraged to support students by providing a consistent homework environment and communicating with teachers when questions or concerns arise.

Final Assessments / Exams

All academic classes will have cumulative final assessments at the end of each semester. These assessments may take various forms such as tests, essays, projects, book reports, presentations, or other formats determined by the teacher and approved by school administration.

Final assessments support MPS's college preparatory program by helping students develop effective study habits and strengthen their retention of course content.

All students are expected to complete required final assessments.

Make-Up Work and Incomplete Grades

Students who are absent from school are responsible for making up missed assignments and assessments. Teachers will provide reasonable opportunities for students to complete missed work.

If a student is unable to complete a significant number of assignments or assessments due to absence or extraordinary circumstances, a grade of Incomplete (I) may be assigned with administrative approval.

If the required work is not completed by the end of the following marking period, the Incomplete grade will revert to the earned numeric grade.

During the final marking period, an Incomplete grade will revert to the earned numeric grade if the required work is not completed by a date agreed upon by the teacher and administrator.

Late Work

Students are expected to submit assignments by the deadlines established by the teacher. Meeting deadlines helps students develop responsibility, time management skills, and preparation for college and career expectations.

Teachers may establish reasonable guidelines for late work, including reduced credit for assignments submitted after the due date. These expectations will be communicated to students at the beginning of the course.

Students who experience extenuating circumstances that affect their ability to submit work on time should communicate with their teacher as soon as possible. Teachers and administrators may provide reasonable flexibility when warranted.

Academic Integrity

MPS is committed to maintaining high standards of academic honesty and integrity. Students are expected to complete their work honestly and demonstrate their own understanding of course material.

Academic dishonesty includes, but is not limited to:

- Cheating on quizzes, tests, or assignments
- Copying another student's work
- Allowing another student to copy one's work
- Plagiarism, including presenting another person's ideas or writing as one's own
- Unauthorized use of technology or artificial intelligence tools to complete assignments

Students who engage in academic dishonesty may receive academic consequences for the assignment and may also be subject to disciplinary action in accordance with school policies.

Use of Artificial Intelligence (AI)

Artificial intelligence (AI) tools, including generative AI systems that produce text, images, or other content, may be used in educational settings when permitted by the teacher and when used in ways that support student learning.

Students must follow teacher guidelines regarding the use of AI tools for assignments and assessments. Unless explicitly permitted by the teacher, submitting work generated in whole or in part by artificial intelligence as one's own work may be considered a violation of the Academic Integrity policy.

AI tools may be used to support learning, but they may not be used to replace a student's own thinking, analysis, or academic work.

Students are expected to use emerging technologies responsibly and ethically.

Grading System

Elementary School Grading Scale

MPS will follow the standard scale below to assign percentages/proficiency level for semester work. Individual teachers will establish grading policies and procedures for their classes, and their grades will correspond with this scale. Each teacher will give written policies to students in the first week of school.

Percentage	Achievement Level
90% - 100%	Level 4: Advanced
80% - 89%	Level 3: Proficient
70% - 79%	Level 2: Developing
Below 70%	***Level 1: Minimal***

Secondary School Grading Scale

MPS will follow the standard scale below to assign letter grades for semester work. Grading is based on a 4.0

(unweighted) scale for regular courses and a 5.0 (weighted) scale for Honors, AP, and approved college courses.

Individual teachers will establish grading policies and procedures for their classes, and their grades will correspond with this scale. Each teacher will give written policies to students the first week of school.

Courses at MPS have passing grades that are outlined in the below grading scale, with a minimum passing score of 70%.

Percentage Grade	Letter Grd Equivalent	Grd-Pt Eqv Unweighted	Grd-Pt Eqv Weighted
98% – 100%	A+	4.0	5.0
93% – 97%	A	4.0	5.0
90% – 92%	A-	3.7	4.7
87% – 89%	B+	3.3	4.3
83% – 86%	B	3.0	4.0
80% – 82%	B-	2.7	3.7
75% – 79%	C+	2.3	3.3
70% – 74%	C	2.0	3.0
Below 70%	***F***	***0.0***	***0.0***

No "D" Policy

MPS does not issue a grade of "D" as part of its standard grading scale, except when permitted by a student's Individualized Education Program (IEP). This policy reflects MPS's commitment to maintaining high academic standards and supporting student success, particularly in preparation for college admissions and scholarship opportunities.

The No D Policy applies to all students in secondary grades. However, courses transferred from another accredited school will be recorded on the student's transcript as received. In such cases, a "D" grade will be accepted as passing. Therefore, this policy does not negatively affect a student's ability to graduate.

Please note: a grade of "D" may not be applied toward Advanced or Honors diploma requirements.

Assignment Grades

Teachers will create a reasonable number of assignments for each subcategory in their grading system and assign a weight to each assignment. The weight of an assignment depends on its importance relative to the other assignments in the same subcategory. Students will receive percentage grades for each graded assignment and the student's final semester grade will be a weighted average of the assignment grades, scaled to a maximum of 100 percentage points. SIS will automatically convert a student's final percentage grade to a final letter grade according to the scale in the table above.

- **Numerical Assignment Grades:** Teachers are typically accustomed to using numerical grades for student assignments. For example, on a math assignment with 10 questions, a score of 6 out of 10 would be equivalent to 60%, corresponding to a failing grade for that assignment.
- **Letter Assignment Grades:** Sometimes teachers directly use letter grades for assignments. For example, a teacher may choose to grade an assignment using letter grades A, B, C, F. In that case, SIS will convert those letter assignment grades to percentage grades as shown in the table below.

Letter Grade	Converted to % Grade
A+	100%
A	97%
A-	92%
B+	89%
B	86%
B-	82%
C+	79%
C	74%
F	***55%***

As you may observe, the highest score available for each letter grade range is assigned to each letter assignment grade, keeping the best interest of our students in mind. Since the letter grade "F" has a wide range of 0%-69%, MPS has chosen to assign 55% to mitigate the harm to the student's final class grade.

- **"Check" Grades:** When possible, MPS encourages all teachers to use the check grades for assignments. This grading system is well suited for assignments with a 1-4 rubric. For example, on a writing assignment with a 1-4 rubric, the teacher can use the check system as follows: Check Plus for 4; Check for 3; Check Minus for 2; and Unsatisfactory for 1. In that case, SIS will convert those check grades as shown in the table below.

Check Grade	Converted to % Grade
Check Plus ("+")	100%
Check ("=")	85%
Check Minus ("-")	70%
Unsatisfactory ("/")	***55%***

- **Special Marks:**

Mark	Converted to % Grade
Missing ("M")	***0%***

Excused (“**E**”)	N/A
Not Assessed (“**NA**”)	N/A

- **Grade Floor of 55%:** Missing assignments will be marked as 0%. However, the lowest grade for a submitted assignment will be 55%.

Numerical Assignment Grades vs. Check Grades

It is important for teachers to understand the negative impact of numerical assignment grades on student’s final grade. Numerical assignment grades distort the average percentage grade except when the assignments are graded out of 100 points. To mitigate the harm, MPS has developed the letter assignment grades and the check grades and strongly recommends the use of check grades for assignments.

Example 1: Assume a student received a 1 out of 4 on her first writing assignment based on a 1-4 rubric and a 4 out of 4 on her second assignment. Common sense tells us the student must pass. Following are the student’s average percentage grades based on the two grading systems.

Numerical Assignment Grade System	**Numerical Grade**	**% Grade**
Assignment #1	1 out of 4	25%
Assignment #2	4 out of 4	100%
	Average %	***63%***
	Final Letter Grade	***F***

Student receives a failing average if numerical assignment grades *(1 and 4)* are used.

“Check” Grade System	**Check Grade**	**% Grade**
Assignment #1	Unsatisfactory	55%
Assignment #2	Check Plus	100%
	Average %	**78%**
	Final Letter Grade	**C+**

Student receives a passing average if check grades *(Unsatisfactory, Check Plus)* are used.

Example 2: Assume a student received the following scores on his science class demonstrations on a 1-4 scale: 2, 3, 3, 3. Common sense tells us the student must pass. The following are the student’s average grades based on the two grading systems. While the student fails in the numerical grading system, the student receives a passing B- in the check grading system.

Numerical Assignment Grade System	**Numerical Grade**	**% Grade**
Assignment #1	2 out of 4	50%
Assignment #2	3 out of 4	75%
Assignment #3	3 out of 4	75%
Assignment #4	3 out of 4	75%
	Average %	***69%***
	Final Letter Grade	***F***

“Check” Grade System	**Check Grade**	**% Grade**
Assignment #1	Check Minus	70%
Assignment #2	Check	85%
Assignment #3	Check	85%
Assignment #4	Check	85%
	Average %	**81%**
	Final Letter Grade	**B-**

Example 3: Similar to the 1-4 scale, 1-10 scale distorts the grade as well. For example, a student with a score of 6 out of 10 (60%) on her first assignment will need to score a 7 out of 10 (70%) on 18!!! more assignments to be able to raise her average to a passing percentage of 70%.

It may seem a stretch to provide such details about different grading systems in a Student/Parent Handbook, but we wanted to show that points-based grading systems have an inherent problem. Because final letter grades are based on a 100-point system, individual assignment grades based on a numerical scale will always result in distortion and harm to student average grade unless assignments are actually graded out of 100. As a remedy, MPS teachers are asked to use the check system whenever possible and be diligent in their grading practices. We want our students and parents/guardians to focus on the learning process without the worry of grades. Therefore, we strive to implement a purposeful and thoughtful grading system. We are traditionally used to points-based grading in secondary school, but even the best points-based grading system still relies on averaging of assignment scores and a final grade on a report card will not truly show what topics the student has learned and the level of mastery. See Standards-Based Grading!

Standards-Based Grading (SBG)

Standards-based grading (SBG) measures student’s mastery of the essential standards for a class, or how well the student understands the material in class. Standards based grading does not rely on the average score of an accumulation of scores. Rather, it relies upon a specific standards-based grading rubric per course, per unit, per project. Final/summative grades reflect the knowledge and skills learned rather than an average over time.

MPS would like to report grades that are accurate, consistent, meaningful, and supportive of learning. While most MPS teachers currently implement points-based grading and reporting, MPS encourages teachers to explore

and implement standards-based grading and reporting. We will keep you updated on our progress.

Extra Credit Policy

- Teachers may offer up to five percentage (5%) discretionary extra credit points in any course with prior approval from the Dean of Academics.
- Students enrolled in English Language Arts (ELA) and math may earn up to five percentage (5%) additional MAP-based extra credit points per semester based on their performance on the Measures of Academic Progress (MAP) assessment.
- MAP-based extra credit may be earned through proficiency ("Proficient") or growth in RIT scores.
- Students in ELA and math may earn up to ten percentage (10%) total extra credit points in a course (up to 5% discretionary + up to 5% MAP-based).

Discretionary Extra Credit

With prior approval from the Dean of Academics, teachers may offer discretionary extra credit opportunities. A maximum of five percentage (5%) discretionary extra credit points (out of 100%) may be applied to a student's overall grade in each class.

Discretionary extra credit may be offered in any subject area at the teacher's discretion.

Extra Credit Based on MAP Test Scores

Students enrolled in ELA and math may earn up to a maximum of five percentage (5%) MAP-based extra credit points per semester based on their performance on the MAP assessment.

MAP-based extra credit applies only to ELA and math classes and shall be applied when applicable. Students may earn a maximum of five (5) MAP-based extra credit points per semester.

When combined with discretionary extra credit, students in ELA and math may earn up to ten percentage (10%) total extra credit points in a course.

Determining MAP-Based Extra Credit

MAP-based extra credit may be earned through proficiency or growth.

Proficiency: Students shall earn five (5) MAP-based extra credit points if they meet or exceed the "Proficient" cut score on the applicable MAP assessment. Proficiency may be demonstrated on:

- the Fall MAP test (first semester),
- the Winter MAP test (first semester), or
- the Spring MAP test (second semester).

If a student meets the Proficient cut score during the applicable semester, the student shall receive the full five (5) MAP-based extra credit points, regardless of growth.

Growth: Students may also earn MAP-based extra credit by demonstrating growth in their RIT score.

Students earn one (1) extra credit point for each one-point increase in their RIT score, up to a maximum of five (5) extra credit points per semester.

Growth is calculated using the following comparisons:

- Fall MAP to Winter MAP growth may earn extra credit applied to the first semester grade.
- Fall MAP to Spring MAP growth may earn extra credit applied to the second semester grade.

Growth from Winter MAP to Spring MAP shall not be used to determine extra credit.

Applying MAP-Based Extra Credit

MAP-based extra credit shall be applied to ELA and math course grades as follows:

First Semester: Extra credit may be earned based on:

- meeting the Proficient cut score on the Fall MAP test,
- meeting the Proficient cut score on the Winter MAP test, or
- demonstrating growth from the Fall MAP test to the Winter MAP test.

Second Semester: Extra credit may be earned based on:

- meeting the Proficient cut score on the Spring MAP test, or
- demonstrating growth from the Fall MAP test to the Spring MAP test.

Example:

Overall Grade	Extra Credit *(Discretionary)*	MAP Growth	Extra Credit *(MAP)*	Final Grade
66% (F)	2%	4 RIT growth	4%	72% (C)
79% (C+)	1%	7 RIT growth	5%	85% (B)
88% (B+)	0%	Met "Proficient" cut score	5%	93% (A)

A RIT score measures a student's level of achievement in a particular subject.

MAP "Proficient" Benchmark Scores

The following table lists the MAP RIT score benchmarks associated with the "Proficient" proficiency level by grade level for ELA and math.

Grade	MAP RIT ELA Fall-Winter-Spring	MAP RIT Math Fall-Winter-Spring
2	*176-183-187*	*177-185-191*

3	191-196-199	188-197-203
4	200-204-206	205-213-218
5	207-209-211	217-223-227
6	213-215-216	219-225-229
7	215-216-217	226-230-233
8	220-221-222	234-239-241
9	*221-222-223*	*240-243-245*
10	*222-223-224*	*245-247-249*
11	223-224-225	250-252-253
12	*224-225-226*	*253-254-255*

Semester Grades, Credit, and Instructional Time

[For Secondary Grades] Determining Final Grades

In middle and high school, course grades are semester based and credit is granted at the end of each semester. Students need to have an end-of-the-semester final grade of at least a "C" (=2.0) to earn credit for the course. MPS grade promotion policy is based on each semester grade and not on yearly average of two semester grades.

[For Secondary Grades] Instructional Time, Grading, and Credit Determination

The following policies establish a consistent approach to grading and credit determination for students who enroll in courses after the semester has begun or withdraw before the semester ends. These guidelines are based on instructional time and are intended to ensure fairness, consistency, and alignment with graduation requirements. The grading policy below outlines how final grades are calculated for transfer students entering mid semester. The credit eligibility policies that follow outline when students may earn credit based on instructional time.

Grading for Transfer Students Entering Mid Semester

When a transfer student enters MPS mid semester and enrolls in the same course taken at the previous school, the transfer grade, if available, will be combined with the grade earned at MPS to determine the final semester grade using the following weights:

Week of the Semester Student Enrolls	Weight of Transfer Grade	Weight of Grade at MPS
1-6	0%	100%
7-9	20%	80%
10-12	40%	60%
13+	60%	40%

Weights increase progressively based on instructional time while ensuring that student performance at MPS maintains a meaningful impact on the final grade, as MPS is responsible for issuing the grade.

If no transfer grade is available, the teacher may assign make up work to determine the final grade. Make up work must be assigned within a reasonable time frame that allows the student to complete the work for credit.

Credit eligibility for late enrollment and early withdrawal is determined separately based on instructional time, as outlined below.

Late Enrollment in New Courses (Transfer Students)

The following guidelines apply when a transfer student enrolls in a course that he or she was not taking at the previous school. The decision will be made on a case by case basis.

Week of the Semester Student Enrolls	Credit Eligibility
1-6	Student will be enrolled for full credit.
7-12	Student may be enrolled for full credit or for no credit participation. The decision will be made on a case by case basis based on the student's ability to successfully complete the course. If enrolled for credit, the student is expected to commit to intensive intervention, which may include attending tutoring, completing additional assignments, and meeting accelerated deadlines.
13+	Student may be enrolled for no credit participation only. Credit will not be awarded due to insufficient instructional time. No credit participation means the student may attend and engage in the course for continuity of learning but will not receive academic credit or a final grade for the course. The decision will be based on the best interest of the student.

Early Withdrawal and Credit Eligibility

The following guidelines apply when a student withdraws from school before the end of a semester. The decision will be made on a case by case basis.

Week of the Semester Student Withdraws	Credit Eligibility
1-6	Student is not eligible to earn credit. Early final assessments will not be administered.
7-12	Student may or may not be eligible to earn full credit. If deemed appropriate, the student must complete essential

	coursework and take an early final or summative assessment. If a decision is made for credit eligibility, the student is expected to commit to intensive intervention, which may include completing additional assignments, attending tutoring, and meeting accelerated deadlines. If completion is not feasible, no credit will be awarded.
13+	Student is eligible to complete the course early. The school will provide the opportunity to complete final assessments. Full credit may be awarded if the student earns a final grade of C or higher.

Additional Notes

- Credit is awarded on a semester basis and will not be prorated.
- Partial credit may only be awarded in accordance with applicable laws and policies governing specific student populations such as foster and mobile youth, homeless children and youth, etc.
- Final determinations will be made by school administration in consultation with the teacher and counselor, based on the best interest of the student.

Report Cards

Student report cards create a succinct written record of student performance by compiling data from multiple assessments both formal and informal. Report cards are one of several ways to keep parents informed about student performance and to ensure that data collection is regular and consistent. Report cards reflect student achievement toward state standards, and summarize narratives, anecdotal records, attendance data, and information about student participation in class and school life. Results of standardized tests are mailed separately as well as included in the student grade report with explanations designed to help students and parents interpret their relationship to other assessments.

In elementary grades, students will receive a progress report mid-semester and a final report card at the end of each semester. In secondary grades, students will receive two progress reports in a semester and a final report card at the end of each semester.

Teachers will arrange a conference to discuss student progress with at least one parent/guardian each semester. End-of-the-year conferences are prioritized for parents/guardians of students not making progress, low-achieving students, and those identified for retention. Other parents/guardians are encouraged to attend teacher conferences at the end of the year as well.

Ongoing communication between teachers, parents, and students is an essential component of MPS. MPS' school information system provides an effective online communication tool for teachers, students and parents for course material, homework assignments, projects, course grade statistics and records of student grades. In addition to progress reports, report cards, and assessment reports, newsletters are distributed monthly. Parents can conference with teachers on an informal basis as needed, and on a formal basis at least twice (2) a year, to discuss students' progress reports and proficiency levels. Back to School Nights and Open Houses also take place each year to provide parents with information about the school programs.

Grade Change Request Process

Parents have a right to request a change of their student's grade on the following grounds:

- Mistake,
- Fraud,
- Bad faith, and/or
- Incompetency in assigning the grade.

When grades are earned for any course of instruction, the grade earned by each pupil shall be the grade determined by the teacher of the course. In the absence of any of the grounds listed above, the grade shall be final.

Any request for a grade change must start with the classroom teacher within twenty (20) working days of the date the grade report was mailed. The next step, if not resolved with the teacher within ten (10) working days, is a written request to the principal. If not resolved with the principal within ten (10) working days, the decision may be appealed to the Chief Academic Officer. At each step, the parent has the right to present information in support of the request.

Grade Promotion/Retention

[For Elementary Grades] **Identification of Students at Risk of Retention**

- **Grades K–2:** Any student who is not at benchmark based on reading benchmark assessments, math benchmark assessments or report card grades will be identified for retention. Retention will only occur if the teacher and parent agree that retention is the best intervention to ensure student success.
- **Grades 3–5:** Any student who does not meet the achievement standards and needs substantial improvement to demonstrate the knowledge and skills in ELA/Literacy or math needed or likely success in future coursework based on Smarter Balanced assessments *(Level 1 on Smarter Balanced assessments)* or any student who is more than one year behind grade level in mathematics or ELA/Literacy as determined by the MAP tests will be identified for retention.
- An identified student who is performing below the minimum standard for promotion shall be recommended by the student's teacher for retention in the current grade unless the student's teacher determines in writing that retention is not the appropriate intervention for the student's academic deficiencies. The teacher's recommendation to promote is contingent upon a detailed plan to correct deficiencies.

[For Middle School Grades] **Grade Promotion**

- To be promoted to the next grade, a middle school student must have a 2.0 grade point average (GPA) and passing grades in all core courses by the end of the school year or by the end of the summer before the start of the next school year. Core courses are Math, Science, English Language Arts, and History/Social Science.
- **Summer School:** Students who fail any core courses should attend summer school at MPS, if available, or at a public school to make up failed course courses during summer. Students who perform successfully at summer school will receive a passing grade as their final grade on their transcript for that course. Student transcripts will be updated to include summer grades and GPA will be recalculated. If a student earns passing grades during the summer for all the failed core courses and has a recalculated GPA of at least a 2.0, he or she may be promoted to the next grade.

[For Middle School Grades] **Identification of Students at Risk of Retention**

If the student has a failed core course or has a recalculated GPA less than 2.0 after the summer before the start of the next school year, student will be recommended for retention in the current grade unless the school administration determines that retention is not the appropriate intervention for the student's academic deficiencies. In that case, promotion is contingent upon a detailed plan to correct deficiencies.

Retention Procedures

At MPS, the following steps will be taken prior to a student's being retained:

- A letter shall be sent to the student's parent(s) or guardian(s) informing them that their child is at risk of retention.
- The teacher's evaluation shall be provided to and discussed with the student's parent(s) or guardian(s) and the principal before any final determination of pupil retention. The parent(s)/guardian(s) are informed at that meeting that their child is recommended for retention. This meeting is documented with an academic support plan signed by both the teacher and parent/guardian.
- The principal shall make a decision regarding the recommended retention. Upon the acceptance or rejection of the above stated plan by the principal, a letter shall be sent within five (5) school days to formally inform the student's parent(s) or guardian(s) of the principal's decision regarding the retention.
- The parent(s) or guardian(s) shall have the right to appeal the decision to the Chief Academic Officer (CAO) of Magnolia Public Schools (MPS). If the decision of the CAO is not in agreement with the parent(s)/ guardian(s), the latter have the right to appeal directly to the MPS Board of Directors. This meeting will take place at the next regularly scheduled board meeting or by direction of the board president. Or the Board may form a committee to review the appeal and make a recommendation to the Board for approval at the next regularly scheduled meeting.

The program design of MPS is to ensure that all children succeed. Students who are in jeopardy of retention are individually counseled and given extra help in their specific areas of concern, both in class and through intervention offerings.

Grade requirement for school team participation

All students are required to maintain a "C" or better in all classes to play/participate on a school sports or other extracurricular activity team.

Honor Roll

At the end of each semester MPS publishes the honor rolls for students. Honors and High Honors are awarded to all students with a semester GPA of 3.00-3.49 (Honors) and 3.50+ (High Honors). Students must pass all classes to make the semester honor rolls.

Participation in Promotion Activities and Ceremony

Participation in promotion activities and the promotion ceremony is a privilege and is based on a student's conduct, attendance, and adherence to school expectations.

Students are expected to be in good standing, which includes:

- Satisfactory attendance and punctuality
- Compliance with school rules and expectations
- Active participation in academic programs and assigned interventions

Participation in the promotion ceremony requires that students meet all promotion requirements as described in this Handbook.

Students who do not meet behavioral, attendance, or academic expectations may be deemed ineligible to participate in promotion activities or the promotion ceremony. Final determinations will be made by school administration.

Students and families will be notified in advance if eligibility for promotion activities or the promotion ceremony is at risk.

High School Credit Earned in Middle School

Students who take high school courses in middle school have the option to have these courses counted toward graduation. These courses must have the same expectations, curriculum and final exams as the equivalent courses taught in high school. Students who choose to have their middle school courses counted toward graduation need to consult with the school administration since these courses need to be reflected on the student's high school transcript. Grades from such courses will not be included in high school cumulative GPA calculations.

The following middle school courses have been identified for high school credit: Mathematics (Algebra 1, Geometry, Integrated Mathematics I, and other high school level mathematics courses), Computers & Technology (approved high-school level courses), and Language Other Than English (LOTE). For middle school LOTE course(s), one year of high school credit will be given for each different language if students demonstrate proficiency by passing those courses or a LOTE proficiency test provided by the school. Again, middle school courses must be comparable in content to courses offered at the high school level. Magnolia Public Schools Home Office ("Home Office") has the final authority to decide which middle school courses will be counted toward graduation.

Field Trips

Field Trips offer exciting ways to learn. MPS students may have the opportunity to go on field trips at various times throughout the school year. MPS plans many field trips, weekend getaways, summer camp, and interstate and international field trips. Students must bring to school a Field Trip Permission Slip signed by a parent or guardian by the specified date in order to be eligible for participation. Phone calls by parents to the school will not be accepted as permission for students to attend.

Students will not be denied participation in educational trips because of race, color, national origin, sex, sexual orientation, disability or any other category protected by applicable law. Each student's parent/guardian must provide written permission for a field trip, authorization for medical care, and a personal health history for those students with health issues/medical conditions. Parents are responsible to provide all necessary medications, supplies, and equipment needed for the field trip at least five school days prior to departure. In order to administer medication (prescription and over-the-counter) on the field trip, parents/guardians must have submitted a complete "Request For Medication To Be Taken During School Hours" form, which includes a parent/guardian signature and the written California licensed health care provider's order with signature and date. If a student needs a Specialized Health Care Service (Protocols), a current completed Parent Consent and Authorized Healthcare Provider Authorization covering the field trip date(s) MUST be in place.

A complete copy of the **"Field Trip Policy"** is available for review in the school office and on the school website.

Gifted and Talented Education (GATE)

MPS is committed to supporting gifted and highly capable students in a safe, caring environment which promotes a college preparatory, STEAM education. Instructional programs for Gifted and Talented students are based on the core principles that all students have the potential to excel and should have the opportunity to develop their individual abilities, interests and potential. The purpose of the MPS GATE program is not to simply identify the highest achieving students, but rather, identify students with exceptional abilities, those that go well beyond their peer group.

MPS' advanced academic programming serves students in grades K-12 and offers highly challenging learning opportunities that adhere to our Core Values of Excellence, Innovation, and Connection. Educational experiences and are designed to meet the needs of advanced learners with an emphasis on innovation, critical thinking, and logical reasoning.

MPS serves GATE students through a number of delivery models and settings so that students obtain an optimal level of learning, including, but not limited to, Advanced Placement (AP) classes, Honors classes, cluster groupings, acceleration, enrichment activities, and independent studies/group projects.

MPS' identification procedures are equitable, comprehensive, and on-going. Assessments and recommendations for the program reflect best practices and are research- based. MPS understands that examinations alone may not reflect the abilities of all students, as well as GATE students of diverse populations. Therefore, MPS includes teacher and/or administrator recommendations as well as work samples in its identification process.

In order to identify a student as gifted, evidence must be gathered relating to his/her ability to perform beyond chronological peers. Data should be broad enough to discover aptitudes across racial, ethnic, and economic groups. The final determination of eligibility for the GATE program rests with the administration of the individual school site in accordance with the procedures assumed by the MPS governing board. The school shall base decisions on evaluation of pertinent data by an expert in the gifted and talented field. Students referred to the GATE program will be assessed in grades 3, 6, and 9 or upon enrollment and parent request. In order to ensure equity and accurate identification of GATE students, there will be annualized random sample testing of at least 5% of students in grades 3, 6, and 9 across each MPS school. If a parent recognizes characteristics of giftedness in their child, they may request an assessment.

Please contact the school office for a copy of the **"MPS GATE Program Policy."**

Harm or Destruction of Animals

Harm or Destruction of Animals – EC 32255 et seq.

Any pupil with a moral objection to dissecting or otherwise harming or destroying an animal, or any part thereof, must inform his or her teacher of the objection. Objections must be substantiated by a note from the pupil's parent or guardian.

A pupil who chooses to refrain from participation in an education project involving the harmful or destructive use of an animal may receive an alternative education project, if the teacher believes that an adequate alternative education project is possible. The teacher may work with the pupil to develop and agree upon an alternative education project so that the pupil may obtain the

knowledge, information, or experience required by the course of study in question.

Math Placement

MPS has adopted a math placement policy to establish a fair, objective, and transparent protocol for placement in mathematics courses in order to ensure the success of every student.

Please contact the school office or visit the MPS website for a copy of the **"MPS Math Placement Policy."**

Physical Education (PE)

MPS will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Please refer to the "School Wellness Policy" posted on the MPS website for details.

CDE mandates districts to provide at least 200 minutes of PE for every 10 school days for students in grades 1-6 and at least 400 minutes for every 10 school days for students in grades 7-12. High school physical education course content must include instruction in each of the eight content areas: The effect of physical activity upon dynamic health, mechanics of body movement, aquatics, individual/dual sports, gymnastics/tumbling, team sports, rhythms/dance, and combatives. While charter schools are only required to provide PE consistent with their individual charters, MPS strives to offer a strong PE and health education program that promotes student physical fitness and health and that includes instruction, to the extent possible, in the eight areas over the span of the PE classes offered as part of the school's course of study.

MPS will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary. The Board of Directors of Magnolia Public Schools ("Board") recognizes a desire and a need for its students to have flexibility in meeting the PE graduation requirement. An Alternative PE policy meets this need by allowing students to receive credit for physical activities not normally offered as part of the regular on-site PE program. It is the goal of MPS to promote the health of its students by supporting regular physical activity as a vital component of the complete learning environment and providing its students with the opportunity to engage in an array of physical activities that are fun, culturally appropriate, and challenging. Please refer to the MPS Alternative PE Policy for details.

Please contact the school office for a copy of the **"MPS Wellness Policy"** and the **"MPS Alternative PE Policy."**

PE Excusals

Students may be excused from physical education under the following conditions:

- **Short-Term Illness or Injury (1–5 days):** Students may be excused from PE participation for up to five consecutive school days with a written note from a parent or guardian. Absences beyond five days require a note from a licensed medical provider.
- **Extended Medical Condition or Injury:** Students who are unable to participate in PE for an extended period due to a medical condition or injury must provide documentation from a licensed physician.
- **Fasting for Religious or Cultural Reasons:** Students who are fasting for religious or cultural reasons may request to be excused from physical activity during PE. MPS will provide reasonable accommodations upon request.
- **Disability-Related Accommodations:** Students with an Individualized Education Program (IEP) or Section 504 Plan may have physical education modified or waived as appropriate, in alignment with their documented needs.

Please contact the school office for questions about PE participation or to submit an excusal request.

Physical Fitness Test (PFT)

MPS administers the state-designated Physical Fitness Test (PFT) to all students in grades five, seven, and nine as required by EC Section 60800 and 5 CCR Section 1040, regardless of enrollment in a PE course. The test provides criterion-referenced standards to evaluate fitness. These standards represent minimum levels of fitness known to be associated with those health and physical characteristics that offer protection against diseases resulting from physical inactivity. Achievement of the fitness standards is based upon a score falling in the Healthy Fitness Zone (HFZ) for each of six fitness areas. The HFZ represents minimal levels of satisfactory achievement on the tasks. The goal is for students to achieve the HFZ for all six fitness areas of the physical fitness test.

Before and After School Programs

Academic Tutoring Program

- Tutoring will be available as part of the MPS after-school program.
- Students can receive tutoring from faculty and volunteers from local universities.
- The program will benefit all students.
- The sessions will generally occur after school; some may be scheduled on the weekends.
- Upon availability, Saturday tutoring is available to all students who wish to improve their academic skills. All students are welcome to join at specified times.

After School Activities

MPS offers a variety of after-school tutoring, clubs, sports, enrichment activities, and expanded learning opportunities for all students. There is no better way for students to enrich their education than by taking part in clubs, after-school activities, athletics, or working with a teacher through tutoring. These opportunities allow students to explore more deeply things they already enjoy and to try other areas that sound interesting. Students who stay for an after-school activity must follow these rules:

- Be with a teacher or other staff member at all times.
- Arrange to have their transportation pick them up at the end of the activity.
- Abide by the MPS Code of Student Conduct and all school rules and policies as outlined in this Handbook while participating in the activity.

Students who are disruptive, disrespectful, or who do not follow the rules may be prohibited from participating in after-school programs and activities.

Students not participating in after-school activities may not stay after school to wait for another student.

A full list and description of after-school clubs, sports, activities, tutoring opportunities, and expanded learning programs will be communicated after school starts, as well as information regarding how to join. We strongly encourage our students to explore and take advantage of these opportunities.

Expanded Learning Programs (Before School, After School, Summer, and Intersession Programs)

MPS may offer expanded learning opportunities through state and federally funded programs, including the After School Education and Safety Program (ASES), 21st Century Community Learning Centers (21st CCLC), 21st Century High School After School Safety and Enrichment for Teens (ASSETs), Expanded Learning Opportunities Program (ELO-P), and other available programs. Expanded learning opportunities may include before-school, after-school, summer, intersession, tutoring, enrichment, athletic, and student support programs.

Expanded learning programs may serve different grade levels depending on the program requirements, funding source, school site, and student needs. ELO-P primarily serves students in grades TK–6 and prioritizes unduplicated pupils as required by law. ASES and 21st CCLC programs may serve students in grades TK–9, and ASSETs programs may serve students in grades 9–12, subject to program requirements and local implementation.

Consistent with applicable law and program requirements, students experiencing homelessness, students in foster care, and students eligible for free or reduced-price meals shall receive priority enrollment consideration for eligible expanded learning programs. If a program reaches capacity, these students shall receive priority placement on the waiting list.

Programs that charge family fees shall waive applicable fees for students who are eligible for free or reduced-price meals, students experiencing homelessness, and students in foster care, as required by law and applicable program requirements.

Parents/guardians of students experiencing homelessness or students in foster care shall be informed of their right to priority enrollment in eligible expanded learning programs and of the process for requesting such priority enrollment. If a student experiencing homelessness or a student in foster care changes residence during an intersession period, attendance decisions for the intersession program shall be made by the student's parent, legal guardian, educational rights holder, Indian custodian (if applicable), or unaccompanied homeless youth, as permitted by applicable law.

Information regarding available expanded learning programs, eligibility requirements, enrollment procedures, operating schedules, and priority enrollment opportunities will be communicated by each school site. Parents/guardians seeking additional information regarding expanded learning opportunities or priority enrollment should contact the school office.

A complete copy of the **"Afterschool Program Policy"** is available for review in the school office and on the school website.

Policy Regarding Students Left on Campus After School Hours

MPS is committed to providing a safe campus for all students. MPS is not responsible for students who remain on campus without participating in a supervised after-school activity or who remain on campus after the completion of an after-school activity. Students who are not participating in a supervised school activity must leave campus within ten (10) minutes of the end of the regular school day or the conclusion of the activity.

When students are left on school property after the close of business hours, MPS will follow certain steps to ensure students are safe until their parents/guardians come to pick them up. In the event students are left on campus after school hours, MPS staff will:

1. Notify the Principal or designee immediately.
2. Attempt to reach parents/guardians through the phone number provided to the school by parents/guardians at the beginning of the year. This may include contacting any emergency contact(s) listed for the student.
3. If a staff person becomes aware a child is on campus more than ten (10) minutes after dismissal of the regular school day or after-school activity, the staff person or another employee will remain on site until an adult, including but not limited to an emergency contact, police officer, or social worker, retrieves the student.
4. Notify the Principal or designee after fifteen (15) minutes have passed following dismissal if there is a possibility that law enforcement may be called to assist the student.

5. As a last resort, contact law enforcement and/or child welfare services, who may remove the student and assume responsibility for the student until the parent/guardian retrieves the student.
6. In cases of repeated incidents where parents/guardians have been late in picking up their child, notify the parents/guardians in writing of parental responsibilities and consequences for their child.

Students should not be dropped off more than **thirty (30)** minutes before school begins. The school will open its doors at **7:30 a.m.** and beginning at that time students will be supervised by school staff. Students arriving before 7:30 a.m. may be unsupervised, and the school will not be responsible for the safety and well-being of those students.

Each individual MPS school may include site-specific amendments regarding student drop-off, pick-up, supervision times, and expanded learning programs to address local needs and circumstances.

Education of English Learners

English Learners Identification Notice

English Learners Identification Notice - EC 313.2

State law requires that parents of English learners are to be notified annually if they are identified as one of the following: Long-term English Learner or English learner at risk of becoming a Long-term English Learner. The school coordinator for English Language Development will be sending these notices at the beginning of each school year.

The Charter School is committed to the success of its English Learners and support will be offered both within academic classes and in supplemental settings for students who need additional support for English language learning. The Charter School will meet all applicable legal requirements for English Learners as they pertain to annual notification to parents, student identification, placement, program options, English Learners and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding English Learners and the rights of students and parents.

English Language Proficiency Assessments for California (ELPAC)

MPS values your child's cultural and language assets and offers various instructional program options to best meet your child's educational needs. To better serve the instructional needs of students who are not yet fluent English speakers, school districts are required to identify students' English proficiency levels. Parents and school staff work together to determine the languages that families and students speak at home using the Home Language Survey. Based on responses on the Home Language Survey, state law requires school districts to assess the English language proficiency of new enrollees who speak a language other than English using the Initial English Language Proficiency Assessments for California (ELPAC).

The initial ELPAC must be administered within the first 30 calendar days of enrollment. The school will notify you of the results of this assessment and your student's instructional program placement with a parent letter called the "Initial Parent Notification Letter for English Learners."

To measure student progress in learning English, all continuously enrolled English Learners will be administered the Summative ELPAC in the Spring until the reclassification criteria is met. Parents will receive annual notification of their student's progress toward reclassification and will be notified that their child is a "Long-term English Learner" or is an "English learner at-risk of becoming a Long-term English Learner."

To find more information about the ELPAC assessment or reclassification criteria, please contact the Principal or designee.

Placement of English Learners (EL) - Structured English Immersion Program

All MPS EL students participate in a Structured English Immersion (SEI) program. The U.S. Department of Education describes the goal of this program as "acquisition of English language skills so that the EL student can succeed in an English-only mainstream classroom. All instruction in an immersion strategy program is in English." Within this SEI program, ELs are provided with daily designated and integrated English Language Development. Integrated ELD is provided to all ELs across all disciplines utilizing the researched based frameworks and strategies to support language acquisition. Designated ELD is also provided to all ELs, however instructional placement and support vary according to the students' ELD level. All curricula used within the SEI program has ELD components/resources that facilitate language acquisition. Additionally, Newcomers and Long-Term English Learners receive supplemental services as needed.

For further information on language acquisition, please contact the school office for a copy of the **"MPS EL Master Plan."**

Education of Students with Disabilities

Child Find System

MPS is dedicated to the belief that all students can learn and must be guaranteed equal opportunity to become contributing members of the academic environment and society. MPS provides special education instruction and related services in accordance with the Individuals with Disabilities Education Act ("IDEA"), Education Code requirements, and applicable policies and procedures of the charter authorizer. These services are available for special education students enrolled in MPS. We offer high quality educational programs and services for all our students in accordance with the assessed needs of each student. MPS

collaborates with parents, the student, teachers, and other agencies, as may be indicated, in order to appropriately serve the educational needs of each student.

Pursuant to the IDEA and relevant state law, MPS is responsible for identifying, locating, and evaluating children enrolled at MPS with known or suspected disabilities to determine whether a need for special education and related services exists. This includes children with disabilities who are homeless or foster youth. The Charter School shall not deny nor discourage any student from enrollment solely due to a disability.

All students with disabilities are entitled to a Free Appropriate Public Education (FAPE) designed to meet their individual educational needs. Special education and related services are provided at no cost to parents/guardians and are based on an Individualized Education Program (IEP) developed by a team that includes the parent/guardian.

The school has an obligation to identify, locate, and evaluate students who may have disabilities and who may be in need of special education and related services. Parents/guardians may request an assessment at any time by submitting a written request to the school.

If a student is found eligible for special education, an IEP meeting will be held to develop an individualized plan. Parents/guardians are members of the IEP team and have the right to: participate in IEP meetings, receive notice of meetings, provide input regarding their child's educational needs and consent to or decline proposed services, as permitted by law.

Students with disabilities are educated in the least restrictive environment (LRE) appropriate to their needs and, to the maximum extent appropriate, with peers who do not have disabilities. Services and supports are determined by the IEP team and are based on the student's unique needs.

Parents/guardians of students with disabilities have rights known as procedural safeguards, which include the right to receive prior written notice of proposed actions, review educational records, independent educational evaluations (IEEs), when applicable, and the right to resolve disagreements through IEP meetings, mediation, due process hearings and state complaint procedures.

A copy of the Special Education Procedural Safeguards Notice is provided at required times and is available upon request.

Parental consent is required before an initial special education assessment is conducted or special education services are provided for the first time. Consent may be withdrawn in writing, consistent with applicable law.

When a student with an IEP reaches 18 years of age, educational decision making rights transfer to the student unless a legal exception applies. Parents/guardians will be notified prior to this transfer of rights.

If you believe your child may be eligible for special education services, please contact the school office.

A complete copy of MPS' **"Special Education Policy and Procedures"** is available for review in the school office and on the school website.

Section 504 Policies and Procedures

Section 504 – 29 USC 794, 34 CFR 104.32

Section 504 of the Rehabilitation Act of 1973 is a federal law which prohibits discrimination against persons with a disability. The school provides a free and appropriate public education to all pupils regardless of the nature or severity of their disability. The school has a responsibility to identify, evaluate, and if eligible, provide pupils with disabilities the same opportunity to benefit from education programs, services, or activities as provided to their non-disabled peers. To qualify for Section 504 protections, the pupil must have a mental or physical impairment which substantially limits one or more major life activity. For additional information about the rights of parents of eligible pupils, or questions regarding the identification, evaluation, and eligibility of Section 504 protections, please contact the Principal.

MPS recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise subjected to discrimination under any program of MPS. Any student who has an objectively identified disability which substantially limits a major life activity, including but not limited to learning, is eligible for accommodations by MPS. The parent of any student suspected of needing or qualifying for accommodations under Section 504 may make a referral for an evaluation to the Principal.

A copy of MPS' **"Section 504 Policies and Procedures"** is available upon request in the school office.

Extended School Year (ESY) Services

Extended School Year (ESY) Services

Extended School Year ("ESY") services are special education and related services that may be provided beyond the regular school year to eligible students with disabilities as determined by the student's Individualized Education Program ("IEP") team. ESY eligibility is determined on an individual basis in accordance with federal and state law and is based on the student's unique educational needs. Parents/guardians are members of the IEP team and have the right to participate in decisions regarding ESY services. Questions regarding ESY services may be directed to the school administration or special education team.

Special Education – Use of Assistive Technology

Use of Assistive Technology – EC 56040.3

MPS allows home and community use of assistive technology devices by students who have assistive technology devices as part of their IEP FAPE offer. Students may continue to use while at distributing school and for up to a maximum of two months or until a replacement or comparable device is obtained in new setting. Not every IEP will have an AT device as part of the IEP team offering, but if it is there, it must remain in possession so that the student does not have a lapse in educational access to such device.

Instruction for Pupils with Temporary Disabilities

Instruction for Pupils with Temporary Disabilities – EC 48206.3, 48207, and 48208

A pupil with a temporary disability which makes attendance in the regular day classes or the alternative educational program in which the pupil is enrolled impossible or inadvisable may receive individualized instruction provided in the pupil's home for one hour a day. Please contact MPS for further information.

A pupil with a temporary disability, who is in a hospital or other residential health facility, excluding a state hospital, may be deemed to have complied with the residency requirements for school attendance in the school district in which the hospital is located.

It is the responsibility of the parent or guardian to notify the school district in which the hospital or other residential health facility is located of the presence of a pupil with a temporary disability. Upon receipt of the notification, the district will within five working days determine whether the pupil will be able to receive individualized instruction pursuant to EC 48206.3 and, if so, provide the instruction within five working days or less.

A pupil with a temporary disability may remain enrolled in the district of residence or charter school and may attend regular classes when not confined to the hospital setting, the total days of instruction may not exceed the maximum of five days with both school settings and attendance may not be duplicated. If necessary, the district of residence may provide instruction in the home for the days not receiving instruction in the hospital setting, depending upon the temporary doctor orders. The supervisor of attendance shall ensure that absences from the regular school program are excused until the pupil is able to return to the regular school program.

An honorary high school diploma which is clearly distinguishable from the regular diploma of graduation may be awarded to a pupil who is terminally ill, from the resident governing school board, a county office of education or a charter school.

Education of Foster and Mobile Youth

Definitions: For the purposes of this annual notice the terms are defined as follows:

- *"Foster youth"* means any of the following:
    1. A child who has been removed from their home pursuant to Section 309 of the California Welfare and Institutions Code section 309 and/or ("WIC").
    2. A child who is the subject of a petition filed pursuant to WIC section 300 or 602 (whether or not the child has been removed from the child's home by juvenile court).
    3. A child who is the subject of a petition filed pursuant WIC section 602, has been removed from the child's home by the juvenile court, and is in foster care.
    4. A nonminor under the transition jurisdiction of the juvenile court, as described in WIC section 450, who satisfies all of the following criteria:
        - The nonminor has attained 18 years of age while under an order of foster care placement by the juvenile court.
        - The nonminor is in foster care under the placement and care responsibility of the county welfare department, county probation department, Indian tribe, consortium of tribes, or tribal organization.
        - The nonminor is participating in a transitional independent living case plan.
    5. A dependent child of the court of an Indian tribe, consortium of tribes, or tribal organization who is the subject of a petition filed in the tribal court. (Note: The Charter School shall not require an Indian tribe or tribal court representative to certify that any student is a dependent of an Indian tribe, consortium of tribes, or tribal organization.)
    6. A child who is the subject of a voluntary placement agreement, as defined in WIC section 11400.
- *"Former juvenile court school student"* means a student who, upon completion of the student's second year of high school, transfers from a juvenile court school to the Charter School, excluding a school district operated by the Division of Juvenile Justice of the Department of Corrections and Rehabilitation, from a juvenile court school.
- *"Child of a military family"* refers to a student who resides in the household of an active-duty military member.
- *"Currently Migratory Child"* refers to a child who, within the last 12-months, has moved with a parent, guardian, or other person having custody to the Charter School from another Local Educational Agency ("LEA"), either within California or from another state,

in order that the child or a member of the child's immediate family might secure temporary or seasonal employment in an agricultural or fishing activity, and whose parents or guardians have been informed of the child's eligibility for migrant education services. "Currently Migratory Child" includes a child who, without the parent/guardian, has continued to migrate annually to secure temporary or seasonal employment in an agricultural or fishing activity.

- *"Newcomer pupil"* is a person aged 3 to 21 years, who was not born in any of the 50 United States, the District of Columbia, or the Commonwealth of Puerto Rico, and has not been attending one or more schools in any one or more of the 50 United States, the District of Columbia, or the Commonwealth of Puerto Rico, for more than three (3) full academic years. This also includes a "pupil participating in a newcomer program," as defined in Education Code section 51225.2, as that section read on January 1, 2023, who was enrolled in the Charter School before January 1, 2024. The Charter School may, in its discretion, also extend the rights in Education Code sections 51225.1 and 51225.2 to a "pupil participating in a newcomer program," as defined in Education Code section 51225.2, as that section read on January 1, 2023.
- *"Educational Rights Holder" ("ERH")* means a parent, guardian, or responsible adult appointed by a court to make educational decisions for a minor pursuant to WIC sections 319, 361 or 726, or a person holding the right to make educational decisions for the student pursuant to Education Code section 56055.
- *"School of origin"* means the school that the foster youth attended when permanently housed or the school in which the foster youth was last enrolled. If the school the foster youth attended when permanently housed is different from the school in which the student was last enrolled, or if there is some other school that the foster youth attended within the immediately preceding 15 months, the Charter School liaison for foster youth, in consultation with and with the agreement of the foster youth and the ERH for the youth, shall determine, in the best interests of the foster youth, the school that shall be deemed the school of origin. For a foster youth who is an individual with exceptional needs as defined in Education Code section 56026, "school" as used in the definition of "school of origin" includes a placement in a nonpublic, nonsectarian school as defined in Education Code section 56034, subject to the requirements of Education Code section 56325.
- *"Best interests"* means that, in making educational and school placement decisions for a foster youth, consideration is given to, among other factors, the opportunity to be educated in the least restrictive educational program and the foster youth's access to academic resources, services, and extracurricular and enrichment activities that are available to all Charter School students.
- *"Partial coursework satisfactorily completed"* includes any portion of an individual course, even if the student did not complete the entire course.

Within this notice, foster youth, former juvenile court school pupils, a child of a military family, a currently migratory child, and a newcomer pupil will be collectively referred to as "Foster and Mobile Youth." Within this notice, a parent, guardian, or other person holding the educational rights for a Foster and Mobile Youth will be referred to as a "parent/guardian" or "ERH."

Foster and Mobile Youth Liaison

The MPS Board of Directors designates the following staff person as the Liaison for Foster and Mobile Youth:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634

The Foster and Mobile Youth Liaison's responsibilities include but are not limited to the following:

1. Ensuring and facilitating the proper educational placement, enrollment in school, and checkout from school of foster children.
2. Assisting foster children when transferring from one school to another school in ensuring proper transfer of credits, records and grades.

School Stability

The Charter School will work with foster youth and their parent to ensure that each pupil is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all pupils, including, but not necessarily limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability, and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children and children of military families have the right to remain in their school of origin if it is their best interest. The Charter School will immediately enroll a foster youth, currently migratory child or child of a military family seeking reenrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). If a dispute arises regarding a foster youth's request to remain in the Charter School as the school of origin, the foster youth has the right to remain in the Charter School pending the resolution of the dispute. The Charter School will also immediately enroll any foster youth, currently migratory child or child of a military family seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g., producing medical records or academic records from a previous school).

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the child's status as a foster youth, currently migratory child, or child of a military family, as follows:

1. For students in kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to foster youths. Notwithstanding any other law, if the foster youth will be moving during an intersession period, the pupil's educational rights holder, or Indian custodian in the case of an Indian child, shall determine which school the pupil attends for the intersession period, if applicable. "Intersession program" means an expanded learning program offered by the Charter School on nonschooldays, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code.

Graduation Requirements

Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and newcomer pupils who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or, for students with significant gaps in school attendance, the student's age as compared to the average age of students in the third or fourth year of high school may be used, whichever will qualify the student for the exemption. For a newcomer pupil, enrollment in grade 11 or 12, based on the average age of students in the third or fourth year of high school, may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the parent, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption.

If a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH and the student at one time qualified for the exemption, even if the student is no longer a Foster and Mobile Youth or the court's jurisdiction of the pupil has terminated.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the court's jurisdiction terminates or the student no longer meets the definition of Foster and Mobile Youth.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student, and the ERH for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH.
5. For a student identified as a foster youth, consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5th) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and their ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to an institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the pupil transfers between schools, or for a newcomer pupil, is not eligible for an exemption in the student's third year of high school, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the ***following*** academic year, Charter School shall reevaluate eligibility.
2. Provide written notice to the pupil, the pupil's ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption upon reevaluation, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall provide written notice to the pupil and the pupil's ERH of the pupil's options to:
    a. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, **or**
    b. Upon agreement with the pupil's ERH, stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The pupil (if not a minor) or the pupil's ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

Reporting Requirements

Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this notice, "pupil category" means the categories of pupils identified in the "Definitions" section of this Policy, above.

Acceptance of Course Work

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a Foster and Mobile Youth.

The Charter School will provide Foster and Mobile Youth credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the pupil is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the Foster and Mobile Youth shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Student Records

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new local educational agency ("LEA"), the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the pupil, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization and other records, and, if applicable, a copy of the pupil's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record-keeping needs of Foster and Mobile Youth.

The Charter School shall not lower a foster youth's grades as a result of the student's absence due to a verified court appearance, related court ordered activity, or a change the placement of the student made by a county or placing agency. If a foster youth is absent from school due to a decision to change the placement of the student made by a county or placing agency, the grades and credits of the pupil will be calculated as of the date the student left the Charter School.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent. Students who are 16 years of age or older or have finished 10th grade may access their own school records.

Discipline Determinations

If the Charter School intends to extend the suspension of any foster/ youth pending a recommendation for expulsion, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the meeting at which the extension of the suspension will be discussed.

If the Charter School intends to suspend for more than ten (10) consecutive school days or expel a student with a disability who is also a foster youth due to an act for which the recommendation for expulsion is discretionary, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the Manifestation Determination Review meeting.

Complaints of Noncompliance

A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures.

A copy of MPS' **"Uniform Complaint Policy and Procedures"** is available in the school office and on the school website.

Education of Homeless Children and Youth

Definitions: The term "homeless children and youth" means individuals who lack a fixed, regular and adequate nighttime residence. It includes children and youth who (42 U.S.C. § 11434a):

1. Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as regular sleeping accommodations for human beings;
3. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and/or
4. Migratory children and unaccompanied youth (youth not in the physical custody of a parent or guardian) may be considered homeless if they meet the above definition of "homeless."

Homeless status is determined in cooperation with the parent or guardian. In the case of unaccompanied youth, status is determined by the Homeless Liaison.

School Liaison

The MPS Board of Directors designates the principal of each school site as the School Liaison for homeless students (42 U.S.C. § 11432(g)(1)(J)(ii)):

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012

(213) 628-3634

The Charter School Liaison shall ensure that (42 U.S.C. § 11432(g)(6)):

1. Homeless students are identified by school personnel and through outreach and coordination activities with other entities and agencies, and through the annual housing questionnaire administered by the Charter School.
2. Homeless students enroll in and have a full and equal opportunity to succeed at the Charter School.
3. Homeless students and families receive educational services for which they are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act, early intervention services under part C of the Individuals with Disabilities Education Act ("IDEA"), any other preschool programs administered by the Charter School, if any, and referrals to health care services, dental services, mental health services, substance abuse services, housing services, and other appropriate services.
4. Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
5. Public notice of the educational rights of homeless children is disseminated at places frequented by parents or guardians of such youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, and in a manner and form understandable to the parents and guardians of homeless youth and unaccompanied youth.
6. Enrollment/admissions disputes are mediated in accordance with law, the Charter School's charter, and Board policy.
7. Parents/guardians and any unaccompanied youth are fully informed of all transportation services, as applicable.
8. Charter School personnel providing services receive professional development and other support.
9. The Charter School Liaison collaborates with State coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youths.
10. Unaccompanied youth are enrolled in school; have opportunities to meet the same challenging State academic standards as the State establishes for other children and youth; and are informed of their status as independent students under section 480 of the Higher Education Act of 1965 and that the youths may obtain assistance from the Charter School Liaison to receive verification of such status for the purposes of the Free Application for Federal Student Aid described in section 483 of the Act.

The California Department of Education publishes a list of the contact information for the Homeless Education Liaisons in the state, which is available at: https://www.cde.ca.gov/sp/hs/.

Housing Questionnaire

Charter School shall administer a housing questionnaire for the purpose of identifying homeless children and youth. Charter School shall ensure that the housing questionnaire is based on the best practices developed by the CDE. Charter School shall annually provide the housing questionnaire to all parents/guardians of students and to all unaccompanied youths at Charter School. The housing questionnaire shall include an explanation of the rights and protections a student has as a homeless child or youth or as an unaccompanied youth. The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in English, and if fifteen (15) percent or more of the students enrolled at Charter School speak a single primary language other than English, it shall also be written in the primary language. The questionnaire shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. Charter School shall collect the completed housing questionnaires and annually report to the CDE the number of homeless children and youths and unaccompanied youths enrolled. (Education Code Section 48851.)

School Stability

The Charter School will work with homeless students and their parent/guardian to ensure that each student is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not necessarily limited to, interscholastic sports. All decisions regarding a homeless student's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Homeless students have the right to remain in their school of origin if it is in their best interest. The Charter School will immediately enroll a homeless student seeking reenrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). The Charter School will also immediately enroll any homeless student seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g., producing medical records or academic records from a previous school).

Homeless students have the right to remain in their school of origin following the termination of the child's status as a homeless student as follows:

1. For students in kindergarten through eighth grade,

inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.

2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to homeless students. Notwithstanding any other law, if the homeless student will be moving during an intersession period, the pupil's parent, guardian, educational rights holder, Indian custodian in the case of an Indian child, or, if none of the preceding are applicable, an accompanied homeless student themselves shall determine which school the pupil attends for the intersession period, if applicable. "Intersession program" means an expanded learning program offered by the Charter School on nonschooldays, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code. (Note: "Indian custodian" means any Indian person who has legal custody of an Indian child under tribal law or custom or under State law or to whom temporary physical care, custody, and control has been transferred by the parent of such child. *Section 1903 of Title 25 of the United States Code.*)

High School Graduation Requirements

Homeless students who transfer to the MPS any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless MPS] makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or, for pupils with significant gaps in school attendance, the pupil's age as compared to the average age of pupils in the third or fourth year of high school may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder ("ERH"), and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption.

If a homeless student who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH and the student at one time qualified for the exemption, even if the student is no longer homeless.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous

enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student and the ERH for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH.
5. Consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a homeless student is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5th) year to complete the statewide coursework requirements. Charter School shall consult with the homeless student and the student's ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a homeless student is **not** eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the ***following*** academic year, Charter School shall reevaluate eligibility.
2. Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption upon reevaluation , based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall provide written notice to the pupil and the ERH of the pupil's options to:
    a. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, **or**
    b. Upon agreement with the ERH, stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

Reporting Requirements

Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data.

Acceptance of Course Work

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds

that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

For any homeless student who enrolls at the Charter School, a copy of the Charter School's complete policy shall be provided at the time of enrollment.

Complaints of Noncompliance

A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request in the main office.

A copy of the complete Policy is available upon request at the school office and on the school website.

Children of Military Families

Within 30 days of enrollment, MPS shall notify children of military families if they are qualified to be exempted from local graduation coursework requirements that go above and beyond state graduation requirements. MPS shall notify the pupil and the educational rights holder if the pupil is reasonably able to complete MPS's graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school and the ability to remain for a fifth year to graduate with state or MPS requirements. The coursework completed while attending another school is to be issued full or partial credit. "Pupil who is a child of a military family" means a pupil who meets the definition of "children of military families" under EC 49701. This includes the U.S. Army, Navy, Air Force, Marine Corps, Space Force, or Coast Guard, Commissioned Corps of the National Oceanic and Atmospheric Administration, U.S. Public Health Services, including members of the National Guard and Reserve on active-duty orders.

Pregnant and Parenting Pupils

The Charter School recognizes that pregnant and parenting students are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. Pregnant and parenting students shall be afforded the same educational opportunities and accommodations regardless of sex and shall not be excluded from any class, academic program, or extracurricular activity solely on the basis of pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery. Students shall not incur academic penalties as a result of exercising the rights and accommodations available to them under applicable law.

A pregnant or parenting student is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the student's physician, which the student may take before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant.

The Charter School will ensure that absences from the student's regular school program are excused until the student is able to return to the regular school program. Upon return to school after taking parental leave, a pregnant or parenting student will be able to make up work missed during the pregnant or parenting student's leave, including, but not limited to, makeup work plans and reenrollment in courses.

Notwithstanding any other law, a pregnant or parenting student may remain enrolled for a fifth year of instruction in the Charter School if it is necessary in order for the student to be able to complete any graduation requirements, unless the Charter School determines that the student is reasonably able to complete the graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting students may be filed under the Uniform Complaint Procedures ("UCP") of the Charter School. The complaint may be filed in writing with the compliance officer:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

A copy of the UCP is available upon request at the school office. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the complaint procedures, please contact the school office.

ACADEMICS: HIGH SCHOOL & BEYOND

High School Graduation Requirements

MPS has minimum requirements for a standard diploma that meets and exceeds the state graduation requirements and the UC/CSU "a-g" requirements.

Credit Requirements for Graduation

All students must earn 200 high school semester credits in grades 9–12 to receive a standard high school diploma, and 220 credits for an Advanced or Honors diploma. (See the section **"High School Credit Earned in Middle School"** for middle school courses identified for high school credit.) Each high school course at MPS is semester-based and worth 5 credits, except for courses such as Sustained Silent Reading (SSR) or Advisory, which meet for half a period or less and are worth 2.5 credits. Students must earn a final semester grade of "C" or higher to receive credit for MPS courses, unless a lower grade is permitted through an Individualized Education Program (IEP). Additionally, courses transferred from another accredited school may receive credit with a passing grade of "D," in accordance with MPS's No D Policy. Credit is awarded based on student participation, mastery of subject matter, and/or attainment of skills.

Please note: a grade of "D" may only be applied toward a standard diploma; it may not be applied toward Advanced or Honors diploma requirements.

Specific Course Requirements

MPS meets and exceeds the admission requirements of all four-year universities including University of California ("UC"). MPS adopts all options approved for meeting UC's minimum "a-g" subject requirements, including approved "a-g" high school courses, ACT/SAT examination, AP or IB examination, and U.S. regionally accredited college/university courses (in person or online) as well as validation of coursework and grades as described by the UC. MPS will continue to adapt to any changes in UC subject requirements. The following table lists courses required to graduate from MPS.

Note: "Validation" refers to the granting of "a-g" credit when a student successfully completes advanced work (earning a grade of "C" or better) in an area of sequential knowledge. Validation does not meet numerical credit requirements, satisfy CDE requirements, or meet course enrollment requirements. For more information on "a-g" requirements and validation, please see the CSU-UC Comparison of Minimum Freshman Requirements.

(a) **History / Social Science:** Three years of history/social studies, including one year of U.S. history and geography; one year of world history, culture, and geography; one semester of American government and civics, and one semester of economics.

(b) **English:** Four years of college-preparatory English that include frequent writing, from brainstorming to final paper, as well as reading of classic and modern literature. *(No more than one year of ESL-type courses can be used to meet this requirement.)*

(c) **Mathematics:** Three years of college-preparatory math, including or integrating the topics covered in elementary and advanced algebra and two- and three-dimensional geometry. *(Four years recommended)*

Note: Integrated math courses fulfill this requirement. Math courses completed in the 7th and/or 8th grades may be used to meet part or all of this requirement. Math courses completed prior to 7th grade will not meet this requirement. Statistics and Additional Math disciplines will count as an additional year of math, but neither will fulfill or validate any of the three foundational course requirements. MPS requires students to be enrolled in a math course for at least two years in grades nine through twelve for a standard diploma (state requirement) and at least three years in grades nine through twelve for an advanced or honors diploma. For example, a student may take Mathematics-I or Algebra I in seventh grade, Mathematics II or Geometry in eighth grade, and Mathematics III or Algebra II in ninth grade. The student would still need to take one more year of math for a standard diploma (and two more years of math for an advanced or honors diploma.)

If a student takes an advanced-level course in math without completing the lower-level course, earning a C or better in the advanced course will validate the missing lower-level course and it will not be considered a subject omission. The second semester of every math course will validate the omission of and/or deficient grades in the first semester of the course, with the exception of computer science courses approve under Area C. Computer science coursework is not included in the validation rules.

(d) **Science:** *UC requirement:* Two years of college-preparatory laboratory science, including or integrating topics that provide fundamental knowledge in two of these three subjects: biology, chemistry, or physics is required. One year of approved interdisciplinary or earth and space sciences coursework can meet one year of the requirement. Computer Science, Engineering, Applied Science courses can be used in area "d" as an additional laboratory science (i.e., third year and beyond). *CSU requirement:* Two years, including one year of biological and one year of physical science with lab. *(Three years recommended)*

(e) **Language Other Than English (LOTE):** Two years, or equivalent to the second level of high school instruction, of the same language other than English. *(Three years recommended)*

Note: MPS will allow other options to satisfy the "e"-LOTE requirement for graduation. Completion of higher-level LOTE coursework with a grade of C or higher may validate D or F grades earned in lower-level courses or when a lower-level course is skipped. Please check UC Admissions website for details of course validation. UC-transferable college courses or satisfactory scores on SAT Subject, AP or IB exams can also be used to fulfill the LOTE subject requirement.

Generally, bilingual students are considered to have met the "e" subject requirement and may choose not to enroll in LOTE courses. Students who elect not to take courses in a LOTE may satisfy the "e" requirement (for all diploma types) by one of the following methods:

- **Formal schooling in a language other than English** – Students who have completed two years of formal schooling at the sixth-grade level or higher in a school where a LOTE was used as the medium of instruction have met the LOTE requirement. A school transcript or other official document is required.
- **Assessment by a recognized test or University** – Earning a satisfactory score on a SAT Subject, AP or IB exam, or a proficiency test administered by a UC campus or other university can demonstrate a student's proficiency in a LOTE. Most language departments at universities will conduct an assessment and issue a statement of competency on official letterhead serving as certification.
- **Certification by high school principal** – In cases where the options above are not available, certification by the high school principal is acceptable. Principals should develop and maintain clear standards for providing this certification. Certification should be based on the judgment of language teachers, advice of professional or cultural organizations with an interest in maintaining language proficiency, or other appropriate sources of expertise. The principal notes the certification of competency on the student's transcript with the language and level of proficiency.

(f) **Visual & Performing Arts (VPA):** One yearlong course of visual and performing arts chosen from the following disciplines: dance, drama/theater, music, interdisciplinary arts or visual art — or two one-semester courses from the same discipline is also acceptable.

(g) **Additional College-Preparatory Elective:** Additional courses in Social Science, English, Mathematics, Science, Language Other Than English (LOTE), Visual & Performing Arts (VPA), and Computers & Technology

Physical Education (PE): Two years of PE is required. Junior Reserve Officers' Training Corps (JROTC)/Cadet Corps and CIF Sports can be used to meet *one or both years* of the requirement. The following approved courses and programs can be used to meet *one year* of the requirement: Marching Band, Kinesiology, Health, and other specialized PE courses (weight training, aerobics, dance, yoga, fitness and conditioning, team sports, and individual sports.) Also, MPS Alternative PE policy allows students to receive credit for physical activities not normally offered as part of the regular on-site PE program.

Computers & Technology: One year of a Computers & Technology course is required. Approved high school–level courses completed in 7th and/or 8th grade may be used to satisfy part or all of this requirement.

Ethnic Studies / Personal Finance: One semester of ethnic studies and one semester of personal finance. (Required beginning with the Classes of 2030 and 2031, respectively.) If not used to meet the a) History/Social Science or c) Mathematics requirements, these courses may be applied toward the g) Elective requirement.

AP Course / College Credit Requirements: AP or college courses can be taken to meet minimum course requirements or as elective. *(Not required for a standard diploma.)*

Other Courses: Students will be offered Advisory courses where they create Four-Year Plans, explore academic and career goals, build relationships, engage in community service, and develop high school portfolios. Advisory also includes life skills instruction in areas such as decision-making, communication, wellness, and personal responsibility. MPS may offer additional courses based on student interest and available resources. These courses may count toward (a)-(g) graduation requirements only if they are a–g approved and meet the specific UC/CSU subject area criteria.

College/Career Indicator (CCI)

A high school diploma should represent the completion of a broad and rigorous course of study. The CCI was designed by the CDE to encourage high schools to provide all students with a rigorous broad course of study that will lead to likely success after high school. It recognizes that students pursue various options, whether completing: (a) a Career Technical Education (CTE) Pathway, (b) course requirements for a-g, or (c) a course of study specifically designed to meet the student's individual interests.

Each year the CDE measures graduating students' preparedness for college/career.

College Readiness: College readiness means completing rigorous coursework, passing challenging exams, or receiving a state seal. Several measures have been approved by the State Board of Education as indicating college readiness, as shown below. For each measure, specific criteria are used to determine whether a student is "Prepared" or "Approaching Prepared."

Prepared: Graduates classified as Prepared must meet at least one of the criteria:

- **Smarter Balanced Summative Assessments** Receive a score of Level 3 "Proficient" or higher on both English language arts/literacy (ELA) and mathematics
- **Advanced Placement (AP) Exams** Receive a score of 3 or higher on two AP exams
- **International Baccalaureate (IB) Exams** Receive a score of 4 or higher on two IB exams
- **College Credit Courses** Complete two semesters, three quarters, or three trimesters of college coursework with a grade of C- or better in academic/Career Technical Education (CTE) subjects where college credits are awarded
- **State Seal of Biliteracy (SSB)** Receive the SSB and a score of Level 3 or higher in ELA on the Smarter Balanced Summative Assessments
- **University of California (UC) and California State University (CSU) Requirements** Meet all a-g

requirements for admission to a UC or CSU school and meet one of the additional criteria below:

- Smarter Balanced Summative Assessments: Receive a score of Level 3 or higher in one subject area (ELA or mathematics) and a score of Level 2 in the other area
- Complete one semester/two quarters/two-trimesters of College Credit Courses with a grade of C- or better in academic/CTE subjects where college credits are awarded for each course
- Receive a score of 3 on one AP exam or score 4 on one IB exam
- Complete a CTE Pathway

Approaching Prepared: Graduates classified as Approaching Prepared must meet at least one of the criteria:

- **Smarter Balanced Summative Assessments** Receive a score of Level 2 "Standard Nearly Met" on both ELA and mathematics
- **College Credit Courses** Complete one semester, two quarters, or two trimesters of college coursework with a grade of C- or better in academic/CTE subjects where college credits are awarded
- **UC and CSU Requirements** Meet all a-g requirements for admission to a UC or CSU school

Career Readiness: Career readiness means completing rigorous coursework and engaging in learning experiences that are designed to prepare students for the workforce. Several measures have been approved by the State Board of Education as indicating career readiness, as shown below. For each measure, specific criteria are used to determine whether a student is "Prepared" or "Approaching Prepared."

Prepared: Graduates classified as Prepared must meet at least one of the criteria:

- **Leadership/Military Science** Complete two years of Leadership/Military Science and receive a score of Level 3 or higher in one subject area on both English language arts/literacy (ELA) and mathematics and a score of Level 2 "Standard Nearly Met" or higher in the other
- **Career Technical Education (CTE) Pathway** Complete a CTE Pathway with a grade of C- or better in the capstone course and meet one of the additional criteria below:
  - Smarter Balanced Summative Assessments: receive a score of Level 3 or higher in one subject area (ELA or mathematics) and a score of Level 2 or higher in the other
  - Complete one semester, two quarters, or two trimesters of College Credit Courses, outside of the completed CTE Pathway, with a grade of C- or better in academic/CTE subjects where college credits are awarded for each course
- **Registered Pre-Apprenticeship** Complete a registered pre-apprenticeship
- **State and Federal Job Programs** Complete one of the following programs and complete one semester, two quarters, or two trimesters of a CTE course with a C- or better: Workforce Innovation and Opportunity Act (WIOA), Job Corps, YouthBuild, California Conservation Corps (CCC), and Regional Occupational Centers and Programs (ROCP)
- **Transition Classroom and Work-Based Learning Experiences (available only to students with Individualized Education Programs [IEPs] who earn a Special Education Certicate of Completion)** Complete at least 100 hours of work experience **and** the equivalent of four semester courses of college and career exploration/preparation designed to prepare a student with an IEP for employment and independent living

Approaching Prepared: Graduates classified as Approaching Prepared must meet at least one of the criteria:

- **Leadership/Military Science** Complete two years of Leadership/Military Science
- **CTE Pathway** Complete a CTE Pathway with a grade of C- or better in the capstone course
- **Non-Registered Pre-Apprenticeship** Complete a non-registered pre-apprenticeship
- **State and Federal Job Programs** Complete one of the programs (i.e., WIOA, Job Corp, YouthBuild, CCC, or ROCP)
- **Transition Classroom or Work-Based Learning Experiences (available only to students with IEPs who earn a Special Education Certificate of Completion)** Complete at least 100 hours of work experience **or** the equivalent of four semester courses of college and career exploration/preparation designed to prepare a student with an IEP for employment and independent living

California State University Early Assessment Program (CSU-EAP)

The EAP is a joint program of the CDE, California State University (CSU) and California Community Colleges (CCC). The EAP provides students with an early indicator of their college readiness in English and mathematics prior to starting the senior year. In addition, EAP may earn students an exemption from CSU and participating CCC English and/or mathematics placement tests that are required for entering freshman. EAP is now embedded in the CAASPP Smarter Balanced grade eleven ELA and mathematics assessments. Students taking the grade eleven assessments will automatically be participating in the EAP. To provide information to students on their college readiness, students may voluntarily release their results to the CSU and CCCs. The results will not be used for admissions. To find more information about the CAASPP Program CSU/EAP, please contact your child's counselor or contact the school office. Additional information is posted on the internet at: http://www.cde.ca.gov/ci/gs/hs/eapindex.asp.

MPS HIGH SCHOOL GRADUATION REQUIREMENTS

Subject Area	Requirements	Diploma Type		
		S	A	H
(a) History / Social Science	**Three years** of history/social studies, including **one year** of U.S. history and geography; **one year** of world history, culture, and geography; **one semester** of American government and civics, and **one semester** of economics.	30	30	30
(b) English	**Four years** of college-preparatory English that include frequent writing, from brainstorming to final paper, as well as reading of classic and modern literature. *(No more than one year of ESL-type courses can be used to meet this requirement.)*	40	40	40
(c) Mathematics	**Three years** of college-preparatory math, including or integrating the topics covered in elementary and advanced algebra and two- and three-dimensional geometry. *(Four years recommended)*	30	***40***	***40***
(d) Science	**Two years** of college-preparatory science, including or integrating topics that provide fundamental knowledge in two of these three subjects: biology, chemistry, or physics. Two years, including one year of biological and one year of physical science with lab required. *(Three years recommended)*	20	***30***	***30***
(e) Language Other Than English (LOTE)	**Two years,** or equivalent to the 2nd level of high school instruction, of the same language other than English. *(Three years recommended)*	20	20	20
(f) Visual & Performing Arts (VPA)	**One yearlong** course of visual and performing arts chosen from the following disciplines: dance, drama/theater, music, interdisciplinary arts or visual art — or **two one-semester** courses from the same discipline is also acceptable.	10	10	10
(g) Electives	Additional courses in Social Science, English, Mathematics, Science, Language Other Than English (LOTE), Visual & Performing Arts (VPA), and Computers & Technology	20	20	20
Physical Education	**Two years**	20	20	20
Computers & Tech.	**One year**	10	10	10
	Total Required Credits:	**200**	**220**	**220**
Ethnic Studies / Personal Finance	One semester of ethnic studies and one semester of personal finance. *(Required beginning with the Classes of 2030 and 2031, respectively.)*	10	10	10
AP Course / College Credit Requirements	AP or college courses can be taken to meet minimum course requirements or as elective. *(Not required for a standard diploma.)*	N/A	10	20
College/Career Prepared Designation	Designation of "Prepared" on the College/Career Indicator (CCI). *(Not required for a standard diploma.)*	N/A	P	P
Other Requirements	Minimum Cumulative GPA:	2.00	3.25	3.50
	Required Service-Learning Hours:	N/A	40	40
	MPS encourages students to participate in Congressional Award programs and engage in more than 40 hours of community service to develop and demonstrate crucial life skills.			

Comparison of Requirements for Graduation

Source: https://www.cde.ca.gov/ci/gs/hs/hsgrtable.asp *(Rows are re-ordered to match the a-g order.)*

High School Subject Area	State Mandated Requirements (EC 51225.3) for High School Graduation	UC Requirements for Freshman Admissions	CSU Requirements for Freshman Admissions
History / Social Science	Three years of history/social studies, including one year of U.S. history and geography; one year of world history, culture, and geography; one semester of American government and civics, and one semester of economics.	Two years of history/social science, including one year of U.S. history or one-half year of U.S. history and one-half year of civics or American government; and one year of world history, cultures, and geography.	Two years, including one year of U.S. history or U.S. history and government and one year of other approved social science.
English	Three Years	Four years of approved courses	Four years of approved courses
Mathematics	Two years, including Algebra I, beginning in 2003–04. (EC 51224.5)	Three years, including algebra, geometry, and intermediate algebra. Four years recommended.	Three years, including algebra, geometry, and intermediate algebra.
Science	Two years, including biological and physical sciences.	Two years with lab required, chosen from biology, chemistry, and physics. Three years recommended.	Two years, including one year of biological and one year of physical science with lab.
Language Other Than English (LOTE)	One year of either visual and performing arts, foreign language, or career technical education.	Two years in same language required. Three years recommended.	Two years in same language required.
Visual and Performing Arts (VPA)	One year of either visual and performing arts, foreign language, or career technical education.	One year of visual and performing arts chosen from the following: dance, drama/theater, music, or visual art.	One year of visual and performing arts chosen from the following: dance, drama/theater, music, or visual art.
Electives	Not Applicable	One year	One year
Physical Education	Two years	Not Applicable	Not Applicable
Total	**13**	**15** (7 in the last two years of high school)	**15**

Course Credit Acceptance & Transferability

High School Grade Promotion and Grade Level Placement

Grade level placement in high school is guided by both cohort progression and credit accumulation to ensure students remain on track for graduation.

Students are generally promoted with their cohort each year. However, promotion and placement are based on a combination of cumulative grade point average (GPA), credit accumulation, and overall academic progress.

To be eligible for promotion, a student is expected to have a minimum 2.0 cumulative GPA and meet the credit benchmarks described below by the end of the school year or by the end of the summer prior to the start of the next school year.

Student transcripts will be updated to include summer grades, and cumulative GPA will be recalculated. Promotion and grade level placement decisions will be made based on updated academic records.

Credit Benchmarks for Grade Level Placement: MPS has established the following credit benchmarks to monitor student progress toward graduation and guide grade level placement. Students are also expected to be making appropriate progress in required graduation coursework, including UC and CSU a-g coursework.

- To be enrolled in grade 10, a student is expected to have earned at least 50 credits.
- To be enrolled in grade 11, a student is expected to have earned at least 100 credits.
- To be enrolled in grade 12, a student is expected to have earned at least 150 credits.

Students entering grade 12 below the recommended credit benchmark may still be promoted; however, they will require an individualized credit recovery plan to remain eligible for graduation.

A student's grade level placement generally remains the same for the duration of the school year to ensure consistency in scheduling and academic programming. In limited cases, adjustments may be made based on significant changes in a student's credit status and academic progress, as determined by school administration.

These credit benchmarks serve as guidance for monitoring progress. Placement decisions may also consider a student's overall credit status, academic needs, and graduation timeline.

Final grade level placement will be determined in consultation with the school counselor and administration to ensure the most appropriate academic placement.

Monitoring Academic Progress and Support: MPS monitors student progress toward graduation on an ongoing basis. Students who are not meeting academic expectations or falling behind in credits will be identified early and provided with structured support. Students may be identified as:

- On track for graduation
- At risk of credit deficiency
- Credit deficient

Tiered Academic Support System: MPS uses a Multi Tiered System of Supports to provide increasing levels of academic intervention based on student need:

- **Tier 1: Early Academic Concern**
  Students who are failing one or more courses receive early intervention, including teacher support, tutoring, and progress monitoring.
- **Tier 2: Moderate Credit Deficiency**
  Students who have failed multiple courses receive targeted intervention, including counselor meetings, family communication, and a structured academic support plan.
- **Tier 3: Significant Credit Deficiency**
  Students with significant credit gaps receive intensive intervention, including a formal academic recovery plan, frequent progress monitoring, and possible schedule adjustments or credit recovery pathways.

Students may move between tiers based on updated academic performance. Interventions are documented and reviewed regularly.

Credit Acceptance

Students transferring to MPS from another accredited school, private or public, a home school, or an alternative school, will receive credit toward graduation for courses successfully completed in the sending school.

These courses will appear on student's transcript as they are transferred and will be included in cumulative GPA calculations. Upon review and approval by the school administration, students transferring to MPS from a non-accredited school may receive credit toward graduation within the following guidelines:

Documentation must be provided to MPS by the sending school as to the course of study the student followed, materials used, course description, total number of contact hours per course, grading criteria, teacher name and qualifications, student work or projects, and scores of any standardized tests the student has taken. Grades from such courses will not be included in cumulative GPA calculations.

Normally, students may not retake courses that they have already passed and for which they have earned credit. Credit is not awarded for classes repeated to raise a grade unless the grade previously earned was a Fail (F) or Incomplete (I). However, the school administration reserves the right to final decision in case of any extenuating circumstances. Extenuating circumstances may include foreign transcripts, transcripts from non-accredited schools, college courses, ESL/ELD courses, and other approved courses on a case-by-case basis. Please consult with the school administration. If the school administration allows repeat of a course for extenuating circumstances, MPS will use the new grade when calculating the student's GPA. However, the repeated grade will not be used in calculating the "a-g" GPA for UCs if a student repeats a course used to satisfy the "a-g"

requirement in which the student originally earned a grade of C or higher.

Credit Recovery

A high school student who fails a course at MPS is expected to take responsibility for completing credit recovery in order to remain on track for graduation. MPS provides structured support and guidance to assist students in this process.

Students identified as credit deficient will work with their school counselor to develop an individualized credit recovery plan aligned with their academic goals and graduation timeline.

The following credit recovery options may be available:

Summer School: Students may enroll in summer school at MPS or another public school to recover missing credits. MPS may offer summer school based on student needs and availability of teachers and resources.

Online Courses: Students who are credit deficient may enroll in accredited online courses to recover missing credits. Examples of approved providers include Edgenuity, APEX Learning, and BYU. College counselor approval is required for the grade to be included in cumulative GPA calculations.

College Dual and Concurrent Enrollment: Students may enroll in postsecondary courses that may be applied toward high school graduation requirements. College counselor approval is required for the grade to be included in cumulative GPA calculations.

Students are expected to actively participate in assigned interventions, including tutoring, academic support programs, and scheduled check-ins, as part of their credit recovery plan.

Exemption From MPS Local Graduation Coursework Requirements

Students in foster care, homeless students, former juvenile court students, children of military families, migratory students and newly arrived immigrant students, and students with disabilities, if written in the IEP of the student, may qualify to be exempted from local graduation coursework requirements that are beyond the California state requirements. Please make an appointment with the school counselor to review your child's options for graduation. All coursework that was completed at another school outside of MPS will be issued full or partial credit.

In addition, students experiencing extraordinary circumstances that significantly disrupt their ability to complete local graduation requirements, such as prolonged hospitalization, serious medical conditions, or other documented circumstances beyond the student's control, may be considered for an exemption from specific MPS local graduation requirements. Requests shall be reviewed on an individualized basis by the Principal or designee in consultation with the student, parent/guardian, and appropriate school staff. Nothing in this provision shall exempt a student from state graduation requirements established by California law.

WASC Accreditation & Transferability of Courses

All MPS schools are WASC-accredited and all A-G courses of MPS are transferable to other public schools and meet the rigorous requirements for admission to both the UC and state university systems. Every transfer student will participate in an intake meeting which includes a review of his/her transcript and tracking towards graduation. Every exiting student will also receive a transcript to provide him/her with an official record of courses completed and credits earned. In addition, the school's master schedule will be informed by student needs to ensure sufficient intervention opportunities are available for the student population. Please contact the Dean of Academics & College Counselor for further information.

Diploma Types & Graduation

Diploma Types

MPS offers three different high school diploma types: Standard (S), Advanced (A), and Honors (H). Each diploma has minimum requirements that meet and exceed the state graduation requirements and the "a-g" subject requirements of California's four-year public universities. Students are always welcome, and often encouraged, to exceed these minimum requirements.

The "Golden State Seal Merit Diploma" & The "State Seal of Biliteracy"

As directed and described by the CDE, MPS will award eligible graduates the "Golden State Seal Merit Diploma" (GSSMD) and the "State Seal of Biliteracy" (SSB) by affixing the "Golden State Seal" and the "State Seal of Biliteracy" to their high school diplomas. GSSMD is a recognition of graduates who have demonstrated mastery of the high school curriculum in at least six subject areas, four of which are English language arts, mathematics, science, and U.S. history, with the remaining two subject areas selected by the student. SSB is recognition by the State Superintendent of Public Instruction for graduating high school students who have attained a high level of proficiency in speaking, reading, and writing in one or more languages in addition to English.

Service-Learning Requirement

Completing 40 hours of community service before graduation is no longer a high school requirement for a standard diploma beginning with the class of 2013. However, MPS encourages students to engage in community service to develop and demonstrate crucial life skills. This will help students gain "real life" experience and develop responsibility, caring and respect for the community. Therefore, students will be required to earn 40 hours of community service before graduation for an advanced or honors diploma. Students may begin to earn these hours once they complete their 8th grade year.

Cumulative GPA & Co-Valedictorian Policy

A cumulative GPA (CGPA) is calculated for all high school–level courses based on the number of credits earned and their weighted grade point values. The CGPA is used to determine

class rank, graduation honors, and eligibility for the National Honor Society. It is also reviewed by colleges during the admissions process, by many scholarship and grant providers, and occasionally by employers. This information is included on the student's high school transcript, which records all final course grades for high school courses.

MPS requires a minimum **2.00 CGPA** for graduation, **3.25** for an Advanced Diploma, and **3.50** for an Honors Diploma.

All graduating students who are eligible to receive an **Honors Diploma** and have a **cumulative GPA of 4.0 or higher** shall be designated as **Co-Valedictorians**. The cumulative GPA used to determine Co-Valedictorian status is based on projected final grades as of June 1 prior to graduation.

Why Co-Valedictorian? MPS values academic excellence, personal growth, and student well-being. While we continue to calculate class rank based on cumulative GPA, we recognize that intense competition over decimal points can create unnecessary stress. To promote a healthy academic culture and celebrate all students who achieve the highest level of academic success, MPS designates as **Co-Valedictorians** all graduating seniors who earn an **Honors Diploma** and maintain a **cumulative GPA of 4.0 or higher** as of June 1.

Ceremony Recognition: All Co-Valedictorians will be recognized by name and invited to the stage during the graduation ceremony. To ensure a meaningful and manageable program, one or more Co-Valedictorians may be selected to deliver a speech on behalf of the group. **Each MPS school site will determine its own process for selecting speaker(s),** which may include student input, staff recommendation, or another locally appropriate method.

Note: MPS does not designate a Salutatorian. The Co-Valedictorian policy is designed to recognize all students who meet the highest academic standard without ranking.

The following table summarizes how courses are included in GPA calculations.

Course Type	Inclusion in MPS CGPA
Approved Honors and AP courses	Weighted
Approved college courses that meet the "a-g" requirements and/or that are identified in the ASSIST student transfer information system as UC/CSU transferable	Converted to high school credits and weighted
Other approved college courses	Converted to HS credits and unweighted
Courses transferred from another accredited school, private or public, a home school, or an alternative school	Included as they are transferred
Courses transferred from a non-accredited school	Not included
Repeated courses	Case-by-case; typically included unless the original grade is not a C or higher; replaces the prior D or F grade
High school courses taken in middle school	Not included

Note: UC/CSU systems do their own GPA calculations for a-g courses taken between the summer following 9th grade through the summer following 11th grade in calculating a student's GPA. Please see your high school college counselor for further details.

Participation in Senior Activities and Graduation Ceremony

Participation in senior activities is a privilege and is based on a student's conduct, attendance, and adherence to school expectations, including meeting behavioral and academic responsibilities. Students are expected to be in good standing, which includes:

- Satisfactory attendance and punctuality
- Compliance with school rules and expectations
- Active participation in assigned academic programs and interventions

Participation in the graduation ceremony requires that students meet all graduation requirements as described in this Handbook.

Students who are significantly credit deficient or not making sufficient progress toward graduation may be deemed ineligible to participate in the graduation ceremony. Final determinations regarding participation in senior activities and the graduation ceremony will be made by school administration.

Students and families will be notified in advance if eligibility for senior activities or the graduation ceremony is at risk.

California Proficiency Program

California Proficiency Program – 5 CCR 11523

The California Proficiency Program ("CPP") is a voluntary test that assesses proficiency in basic reading, writing, and mathematics skills taught in public schools. Eligible pupils who pass the CPP are awarded a Certificate of Proficiency by the State Board of Education. A pupil who receives a Certificate of Proficiency may, with verified approval from the parent or legal guardian, leave high school early. The Certificate of Proficiency is equivalent to a high school diploma; however, it is not equivalent to completing all course work required for regular graduation from high school. Pupils planning to continue their studies in a college or university should contact the admissions office of the

institution to determine whether the Certificate of Proficiency will meet admission requirements.

A pupil is eligible to take the CPP only if he or she meets one of the following requirements on the test date: 1) is at least 16 years old; 2) has been enrolled in the tenth grade for one academic year or longer; or 3) will complete one academic year of enrollment in the tenth grade at the end of the semester during which the CPP regular administration will be conducted.

A fee for each examination application shall not be charged to a student experiencing homelessness or placed in foster care who is also under the age of 25.

For more information, including administration dates and registration deadlines, visit the following website:

https://www.cde.ca.gov/ta/tg/cp.asp.

Retroactive Grant of High School Diplomas: Departed/Deported Pupils

Retroactive Grant of High School Diplomas: Departed/Deported Pupils: EC 51430 (9-12)

MPS may award a diploma to any student who may have been deported outside the US, if in good standing after completing the second year of high school. Any transfer credits from outside the US will be considered as completion through online or foreign classes.

College Counseling & Readiness Programs

PSAT/NMSQT Tests &Applications

MPS is dedicated to providing a comprehensive college preparatory program that facilitates students' ambitions to pursue higher education at the nation's top universities and colleges. As part of this process, grades 9 through 11 are encouraged to take the PSAT/NMSQT test in Fall.

PSAT/NMSQT stands for Preliminary SAT/National Merit Scholarship Qualifying Test. It is a standardized test that provides firsthand practice for the SAT Reasoning Test. ™ It also gives the students a chance to enter National Merit Scholarship Corporation (NMSC) scholarship programs.

The PSAT/NMSQT measures:

- critical reading skills;
- math problem-solving skills; and
- writing skills.

The most common reason for taking the PSAT/NMSQT is for the students to receive feedback on their strengths and weaknesses on skills necessary for college study. Students can then focus their preparation on those areas that could most benefit from additional study or practice.

Advanced Placement (AP) Courses

MPS will offer Advanced Placement (AP) classes depending on student needs/demands and availability of teachers and resources. AP courses are college-level courses, taught with college textbooks and exams that can give students college credit in the form of advanced standing when they enter their freshman year. Students have to pass the corresponding AP test in order to get college credit.

Advanced Placement Fees

AP Fees – EC 48980(j)

Eligible high school students may receive financial assistance to cover the costs of the advanced placement examination fees. Please contact the school office for information.

Counseling Programs

MPS offers a comprehensive counseling and guidance program addressing personal/social, career, and academic needs for all grades. Students may sign up to see the counselor at any time to discuss personal or academic concerns. Social skills, career, and college planning lessons will be provided by the counselor at various times throughout the school year depending on grade level, need etc. The counseling office provides the following resources:

- Academic advising
- College planning resources
- Scholarship information
- SAT/ACT test dates and materials
- Career planning resources
- Conflict resolution
- Family resources
- Counseling resources

Students who wish to see the counselor can make an appointment. Parents are always welcome to make an appointment to see the counselor. All information discussed by the student and/or parent will remain confidential to the fullest extent of the law.

ASCA National Standards for Students

MPS supports the following American School Counselor Association (ASCA) National Counseling Standards.

Academic Development

Standard A: Students will acquire the attitudes, knowledge, and skills that contribute to effective learning in school and across the life span.

Standard B: Students will complete school with the academic preparation essential to choose from a wide range of substantial post-secondary options, including college.

Standard C: Students will understand the relationship of academics to the world of work and home and community life.

Career Development

Standard A: Students will acquire the skills to investigate the world of work in relation to knowledge of self and to make informed career decisions.

Standard B: Students will employ strategies to achieve future career success and satisfaction.

Standard C: Students will understand the relationship between personal qualities, education and training, and the world of work.

Personal/Social Development

Standard A: Students will acquire the attitudes, knowledge, and interpersonal skills to help them understand and respect self and others.

Standard B: Students will make decisions, set goals, and take necessary action to achieve goals.

Standard C: Students will understand safety and survival skills.

Career Counseling & Course Selection

Career Counseling & Course Selection – EC 221.5(d)

Commencing grade 7, MPS school personnel shall assist pupils with course selection or career counseling, exploring the possibility of careers, or courses leading to careers based on the interest and ability of the pupil and not on the pupil's gender. Parents or legal guardians are notified so that they may participate in such counseling sessions and decisions.

College & Career Technical Education

College & Career Technical Education – EC 51229

College Admission Requirements and Higher Education Information

The State of California offers community colleges, California State Universities (CSU), and Universities of California (UC) for students who wish to continue their education after high school.

To attend a community college, you need only a high school diploma or equivalent, or be over the age of 18. To attend a CSU, you have to take specific high school courses, have the appropriate grades and SAT/ACT test scores, and have graduated from high school. Test scores are not required if your GPA is 3.0 or above, and you applied to a campus or enrollment category that is not impacted. To attend a UC, you must meet requirements for coursework, GPA, and test scores. If you are a California student who has not been admitted to UC campus to which you have applied, you will be offered a spot at another campus if space is available and you rank in the top 9 percent of California high school students or of your graduating class at a participating high school. You may also transfer to a CSU or UC after attending a community college. For more information on college admission requirements, please refer to the following webpages:

www.californiacommunitycolleges.cccco.edu – This is the official website of the California Community College system. It offers links to all the California Community Colleges.

https://www2.calstate.edu/ – This extensive online site offers assistance to students and their families on the CSU system, including the ability to apply online, and links to all CSU campuses.

www.universityofcalifornia.edu – This massive website offers information regarding admissions, online application, and links to all UC campuses.

www.assist.org – This online student-transfer information system shows how course credits earned at one public California college or university can be applied when transferred to another.

College and Career Planning Resources (CaliforniaColleges.edu)

https://www.californiacolleges.edu – CaliforniaColleges.edu is the State of California's official college and career planning platform. The website provides tools to help students and families learn about college admissions requirements, financial aid, career pathways, and postsecondary planning.

Pursuant to California Education Code §§ 51229 and 60900, the California College Guidance Initiative (CCGI) receives enrollment data for public school students in grades 6 through 12 from the California Department of Education in order to support these college and career planning tools. Students and families may use CaliforniaColleges.edu to access resources and transmit information related to college and career planning.

Students and families may review additional information about data sharing and privacy protections on the CaliforniaColleges.edu website.

Students may also explore career options through career technical education. These are programs and classes offered by a school that are specifically focused on career preparation and/or preparation for work. The programs and classes are integrated with academic courses and support academic achievement. Students can learn more about career technical education by referring to the following webpage: www.cde.ca.gov/ci/ct/gi/.

You may meet with a school counselor to choose courses at your school that will meet college admission requirements or enroll in career technical education courses, or both.

Apprenticeship and Pre-Apprenticeship Opportunities

Pursuant to California Education Code § 48980.5, MPS provides information to students and families, particularly those in grades 11 and 12, regarding apprenticeship and pre-apprenticeship opportunities available in California.

Apprenticeship programs combine paid on-the-job training with classroom instruction and may provide pathways to skilled careers in industries such as construction, healthcare, technology, manufacturing, and transportation.

Information about registered apprenticeship and pre-apprenticeship programs is available through the California

Department of Industrial Relations Division of Apprenticeship Standards database:

https://www.dir.ca.gov/databases/das/aigstart.asp

Students interested in learning more about apprenticeship opportunities may also speak with their school counselor.

Dual Enrollment and International Baccalaureate Opportunities

Pursuant to California Education Code § 48980.6, MPS provides annual notice to parents and guardians of students in grades 7–12 regarding opportunities to participate in dual enrollment courses and, where applicable, International Baccalaureate (IB) programs.

Dual enrollment courses allow eligible students to enroll in college-level courses through partnerships with local community colleges or other postsecondary institutions and may earn both high school and college credit.

MPS does not currently offer an International Baccalaureate (IB) program. However, families will be notified if such programs become available in the future.

Additional information regarding eligibility and procedures for dual enrollment is provided below.

Dual and Concurrent Enrollment Policy

MPS provides a college preparatory educational program emphasizing science, technology, engineering, arts and math in a safe environment that cultivates respect for self and others. Through Honors courses, AP courses and dual enrollment courses, students who demonstrate high achievement, interest and/or ability are provided the opportunity for a rigorous learning environment. As we encourage our students to have an accredited college/university/post-secondary institution ("college") course-taking experience as early as possible, we also need to ensure it is a successful one and that it complements the rigorous course of studies offered at MPS. The following are guidelines for dual and concurrent enrollment.

Eligibility

- Maturity: Middle and high school students who have demonstrated academic, personal and social maturity are welcome to apply. The high school counselor ("counselor") will meet with the deans, the student's teachers and other related school staff to assess the student's maturity level necessary for dual and concurrent enrollment. During this holistic assessment, student's attendance records, classroom study habits, homework completion, problem-solving and task-management skills, ability to engage in cooperative learning and whole class discussion as well as student's behavior and social skills such as self-control, positive interactions and relationships with classmates and teachers, and other skills will be considered.
- GPA: Minimum Cumulative GPA of 2.0 (weighted) by the end of the semester prior to dual enrollment.
- Restrictions: The student and the parent are responsible for checking whether the college has admission/enrollment restrictions based on age, grade level, or demonstrated eligibility for instruction using assessment methods and procedures.
- Counselor Approval: The student is responsible for obtaining approval from the counselor for the specific courses the student intends to take before enrolling in college courses.

Procedures

- Readiness: The student must demonstrate on-track preparation in the discipline to be studied. With input from related school staff, the counselor will determine student readiness for the requested course. MPS expects that requested courses are part of the student's four-year plan with input from the student, parents, and school staff.
- Courses: The student has exhausted all opportunities to enroll in an equivalent course at his or her school of attendance.
- Credits/GPA:
    - To determine how a college course fulfills a high school requirement see your counselor. The counselor will indicate whether the course will receive high school credit along with college credit or only college credit. Counselor's approval is necessary in order for the grade of a college course to be included in cumulative GPA calculations.
    - Ultimately, it is the ultimate responsibility of the student/parent to determine college credit and the transferability of the course to other colleges. The following website can be used for that purpose: www.assist.org. ASSIST is an online student-transfer information system that shows how course credits earned at one public California college or university can be applied when transferred to another.
    - Prior to enrollment, the student needs to complete an online application to the appropriate college/university office indicating that he or she is seeking high school credit in addition to college credit. Student/parent is responsible for following application deadlines and filling out forms such as "Supplemental Application for Admission of Students in Grades K-12" or other forms required by the college/university and completing the application process in a timely manner.
    - It is the responsibility of the college/university to offer college credit. However, it is the responsibility of the student/parent to learn whether dropping or failing the course may impact admission to that college/university.
    - It is important for students and parents to understand that students start building college credits as they take college courses. The grades earned may impact student's college GPA and any transfer requirements between colleges. Students and parents are

encouraged to choose courses carefully by considering student's future college plans.
- Student/parent will provide an official transcript from the college/university to the counselor in a timely manner. Upon receipt of an official transcript from the college/university showing the course title, number of college units and the course grade, the high school equivalent course and the credits allowed will be recorded on the student's cumulative record.
- Academic college courses that meet the University of California "a-g" requirements will be given a weighted grade point on the high school transcript and included in cumulative GPA calculations.
- The following table will be used for conversion of college units to high-school credits:

College Units	High School Credits
Less than 2 semester college units or less than 3 quarter college units	2.5 high school credits
2 semester college units or 3 or more quarter college units	5.0 high school credits
3 or more semester college units	10.0 high school credits

- Policy on F Grades in Dual Enrollment Courses During School Hours *(Partnership Courses via CCAP Agreements and MOUs)*: Dual enrollment courses offered during the regular high school day through College and Career Access Pathways (CCAP) agreements and Memoranda of Understanding (MOUs) are official college-level courses. These courses are taught by college instructors and follow the college's academic standards and grading policies.
  - **F (Fail) and W (Withdrawal) Grades:** Both Both F and W grades received in these dual enrollment partnership courses will appear on the student's official college transcript. These grades become a permanent part of the student's college academic record and may impact future college admissions, financial aid eligibility, and academic standing at the college level.
  - **Impact on High School Transcript and Schedule:** Because these dual enrollment courses are scheduled during the regular high school day, they appear on students' daily high school schedules. As a result, the final course grade—whether A, B, C, D, F, or W—will also be recorded in MPS's student information system and reflected on the student's high school transcript. These grades may impact GPA, eligibility for certain school programs, and graduation requirements if the course is being used to meet high school credit.
  - **Academic Responsibility:** Students enrolled in dual enrollment courses are expected to meet all academic and attendance requirements. It is essential that students seek help early—such as utilizing tutoring services, communicating with instructors, or notifying the dual enrollment counselor—if they are struggling in the course.
  - **Parent/Guardian Acknowledgment:** By enrolling in these dual enrollment partnership courses, both students and parents/guardians acknowledge that they understand the consequences of receiving an F or W grade in a college-level course.

- Attendance Requirements:
  - The student must provide a copy of the college course schedule to the high school counselor for approval before enrolling in college courses.
  - The student must inform the counselor in case of any changes in course enrollment (dropping the course, changes in course dates and hours, etc.)
  - All students in grades 11 and 12 are required to be enrolled in at least five courses each semester (including the Advisory course). These courses can be classroom-based courses taken at MPS, online courses provided by MPS or approved online course-providers, CSU, UC or community college courses, and other courses and activities for which academic credit will be provided upon satisfactory completion.
  - MPS requires that the average number of minutes of attendance in any two consecutive schooldays is no less than 240 and minutes of attendance in any one school day is no less than 180.
  - Signed Early Release Form is required for leaving school earlier than regular dismissal.
  - All students in grades 9 and 10 must stay until regular school dismissal unless an alternative arrangement has been made with the counselor.
  - All students in grades 11 and 12 must stay for the Advisory period unless an alternative arrangement has been made with the counselor.

Signatures and Dates

I have read and I understand the terms of this policy and agree to all provisions set forth.

_____ _____
Student Date

_____ _____
Parent/Guardian/Caregiver Date

Dual and concurrent enrollment form is included in this Handbook and copies are also available in the school office.

College Funding and Financial Aid Opportunities

MPS is committed to supporting students and families in planning for the financial aspects of higher education. A variety of programs at the state and federal levels are available to help students pay for college, career training, and other postsecondary educational opportunities. These resources may include college savings programs, state grants, federal financial aid, and application fee assistance. The following sections provide information about several programs and resources that may help students and families prepare for and finance postsecondary education.

California Kids Investment and Development Savings Program (CalKIDS)

The California Kids Investment and Development Savings Program (CalKIDS) is a statewide children's savings account program administered by the ScholarShare Investment Board, an agency of the State of California. The program provides eligible students with state-funded scholarship accounts that can be used to help pay for future higher education or career training expenses.

Students may be eligible for CalKIDS scholarships through one of the following pathways:

- Children born in California on or after July 1, 2022 may receive an initial scholarship deposit of up to $175 in a CalKIDS account.
- Eligible public school students, including certain low-income students, foster youth, or students experiencing homelessness, may receive scholarship amounts of up to $1,500.

CalKIDS scholarship funds may be used for qualified higher education expenses at accredited institutions, including tuition, books, supplies, computer equipment, and certain living expenses.

Scholarship accounts are automatically created for eligible students but must be claimed by the student or family online in order to access the funds. Claiming an account requires the student's Statewide Student Identifier (SSID) and basic student information.

Additional information about eligibility and how to claim a scholarship account is available at: https://www.calkids.org

Students and families may also contact their school counselor for assistance in learning about CalKIDS and other financial aid opportunities.

Cal Grant Program

Cal Grant Program – EC 69432.9

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements.

Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

To assist students to apply for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant and each grade 12 student's GPA will be submitted by the October 1 deadline to the California Student Aid Commission (CASC) electronically by a school or school district official. A student, or the parent or guardian of a student under 18 years of age, may complete a form to indicate that he or she does not wish for the school to electronically send CASC the student's GPA. Until a student turns 18 years of age, only the parent or guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself or herself out, and can opt in if the parent or guardian had previously decided to opt out the student. Notification regarding CASC and the opportunity to opt out of being automatically deemed a Cal Grant applicant will be provided to all students and their parents or guardians by January 1 of the students' 11th grade year.

Cal Grant Program Opt-out form is included in this Handbook, and copies are also available in the school office.

Federal Student Aid

Federal Student Aid – EC 51225.8

MPS shall ensure that students prior to entering 12th grade are entitled to information on how to properly complete and submit the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application at least once. This information will be available in a timely manner as financial aid is awarded in order of submission according to deadlines, on a first-come, first-served basis. All family and student personal information will be protected according to state and federal privacy laws and regulations. Student lists will be matched to FAFSA applications for the purpose of ensuring that either the FAFSA is completed or an opt out form is completed to maintain the students' ability to graduate.

Starting in 11th grade, MPS will disseminate information on how to properly complete and submit the FAFSA or the California Dream Act Application through in-class instruction, existing college readiness programs, family information sessions, and counseling sessions in groups or individually.

College Application Fee Policy

All MPS high school seniors are eligible to receive up to five (5) application fee instances to university/college campuses. For eligible students applying to UCs, the NACAC waiver will be used prior to the MPS college application fee reimbursement. Please refer to the **MPS College Application Fee Policy** for details.

Student Employment and Work Permits

It is within the discretion of MPS to determine whether a minor, who is still subject to the state's compulsory education laws, may obtain a work permit and, therefore, be employed to work.

Once a minor is no longer subject to the state's compulsory education laws, he/she is not considered a minor for purposes of the state's child labor laws and is not required to obtain a work permit (LC Section 1286[c]). California's compulsory school attendance law requires a person to attend school until he/she is eighteen years of age, or has graduated from high school, or has passed the High School Proficiency Examination. However, under federal law (29 CFR Section 570.121), Certificates of Age are required for all employed minors under the age of 18 which may be satisfied with the top portions of the work permit application (CDE Form B1-1) (5 CCR Section 10120.1). A work permit may be issued to only minors between the ages of 12 and 18 years of age (EC Section 49111).

Process: The minor/student, after obtaining a promise of employment, shall obtain the **"Statement of Intent to Employ a Minor and Request for a Work Permit - Certificate of Age"** (CDE Form B1-1) from the school. The minor must complete the "minor" section, request that the employer and parent complete their sections (making certain to obtain both required signatures), and then return the completed form to the Principal. The Principal or designee shall verify all information on the work permit to be issued. If all requirements are met, the school may issue the work permit (CDE Form B1-4).

The school has discretion to impose additional requirements for the issuance of a work permit. MPS requires that the minor maintain a 2.0 cumulative grade point average (GPA). The school shall retain a copy of the work permit application (CDE Form B1-1) and the work permit (CDE Form B1-4) until the end of the fourth year after the work permit was issued.

Workplace Readiness Week – EC 49110.5

The week of each year that includes April 28 shall be known as "Workplace Readiness Week." All public high schools, including charter schools, shall annually observe that week by providing information to students on their rights as workers.

Competitive Athletics

Competitive Athletics Information

Competitive Athletics – EC 221.9

Any MPS school that offers competitive athletics shall publicly make available at the end of the school year all of the following information on its website:
1. The total enrollment of the school, classified by gender.
2. The number of pupils enrolled at the school who participate in competitive athletics, classified by gender.
3. The number of boys' and girls' teams, classified by sport and by competition level.

"Competitive athletics" means sports where the activity has coaches, a governing organization, and practices, and competes during a defined season, and has competition as its primary goal.

ATTENDANCE & RECORDS

Attendance Policy

It is the intent of the Governing Board of the Magnolia Educational and Research Foundation, doing business as Magnolia Public Schools ("MPS" or "Charter School") to ensure that students attend school every day on time. Consistent school attendance is critical to school success. Being present for classroom instructional time is essential for students to reach their goals and achieve their dreams. Chronic absenteeism has been linked to an increased likelihood of poor academic performance, disengagement from school and behavior problems.

Definitions

- "*Tardy*": MPS starts at **8:00 a.m.*** Students shall be classified as tardy if the student arrives after that time.

  * Each individual MPS school start time may vary. Please check with your school office for the exact start time.

- "*Unexcused Absence*": Students shall have an unexcused absence if the student is absent or is tardy for more than thirty (30) minutes without a valid excuse.
- "*Truant":* Students shall be classified as truant if the student is absent from school without a valid excuse three (3) full days in one school year, or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on three (3) occasions in one school year, or any combination thereof. Any student who has once been reported as a truant and who is again absent from school without valid excuse one or more days, or tardy on one or more days, shall again be deemed a truant. Such students shall be reported to the Principal or designee.
- "*Habitual Truant*": Students shall be classified as a habitual truant if the student is reported for truancy three (3) or more times within the same school year. This generally occurs when the student is absent from school without a valid excuse for five (5) full days in one school year or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on five (5) occasions in one school year, or any combination thereof.
- "*Chronic Truant*": Students shall be classified as a chronic truant if the student is absent from school without a valid excuse for ten (10) percent or more of the school days in one school year, from the date of enrollment to the current date.
- *"School Attendance Review Team ("SART"):* is the MPS Attendance Review Team and will consist of the individuals listed below: School

  Administrators, School Psychologist, Counselor, Nurse, Psychiatric Social Worker, Attendance Clerk, Intervention Teacher(s), MPS Director of Student Services or designee, PSAC or designee. The team may be composed of any individual who is working with the family and has a viable interest in the student's school attendance.

Chronic Absenteeism – EC 60901

A student is considered a chronic absentee when he/she is absent on 10% or more of the school days in one school year, from the date of enrollment to the current date. Chronic absenteeism includes all absences – excused and unexcused – and is an important measure because excessive absences negatively impact academic achievement and student engagement.

Arrest of Truants/School Attendance Review Boards – EC 48263 and 48264:

The school attendance supervisor, administrator or designee, a peace officer, or probation officer may arrest or assume temporary custody during school hours, of any minor who is found away from their home and who is absent from MPS without valid excuse within the county, city, or school district. A student who is a habitual truant may be referred to a School Attendance and Review Team (SART).

Excused Absences/Tardies for Classroom Based Attendance

No student shall have his or her grade reduced or lose academic credit for any excused absence or absences, if missed assignments and tests that can reasonably be provided are satisfactorily completed within a reasonable period of time. Absence from school shall be excused only for health reasons, family emergencies and justifiable personal reasons, as required by law or permitted under this Attendance Policy.

A student shall be excused from school when the absence is:

(1) Due to his or her illness, including an absence for the benefit of the pupil's mental or behavioral health.
(2) Due to quarantine under the direction of a county or city health officer.
(3) For the purposes of having medical, dental, optometric, or chiropractic services rendered.
    a. Students in grades 7-12, inclusive, may be excused from school for the purpose of obtaining confidential medical services without the consent of the student's parent or guardian.
(4) For the purposes of attending the funeral services or grieving the death of either a member of the pupil's immediate family, or of a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, so long as the absence is not more than five (5) days per

incident. "Immediate family" means the parent or guardian, brother or sister, grandparent, or any other relative living in the household of the pupil.

(5) For the purposes of jury duty in the manner provided for by law.

(6) Due to the illness or medical appointment during school hours of a child of whom the student is the custodial parent, including absences to care for a sick child (The school does not require a note from the doctor for this excusal).

(7) For the following justifiable personal reasons for a maximum of five (5) school days per school year (unless otherwise indicated), upon advance written request by the student's parent or guardian and approval by the Executive Director or designee pursuant to uniform standards:
   a. Appearance in court.
   b. Observance of a holiday or ceremony of the pupil's religion.
   c. Attendance at religious retreats (not to exceed one schoolday per semester).
   d. Attendance at an employment conference.
   e. Attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization.

(8) For the purposes of serving as a member of a precinct board for an election pursuant to Elections Code section 12302.

(9) For the purposes of spending time with a member of the student's immediate family, who is an active duty member of the uniformed services, as defined in EC 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment. Absences granted pursuant to this paragraph shall be granted for a period of time to be determined at the discretion of the superintendent of MPS.

(10) For the purposes of attending the student's naturalization ceremony to become a United States Citizen.

(11) For the purposes of participating in a cultural ceremony or event. "Cultural," as used in this section, means relating to the habits, practices, beliefs, and traditions of a certain group of people.

(12) (A) For the purposes of a middle school or high school student engaging in a civic or political event, as provided in subparagraph (B), provided that the student notifies the school ahead of the absence. (B) (i) A middle school or high school student who is absent pursuant to subparagraph (A) is required to be excused for only one school day-long absence per school year. (ii) A middle school or high school student who is absent pursuant to subparagraph (A) may be permitted additional excused absences in the discretion of a school administrator, as described in subdivision (c) of Section 48260.

(13) For any of the following reasons, if an immediate family member of the pupil, or a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, has died:
   a. To access services from a victim services organization or agency.
   b. To access grief support services.
   c. To participate in safety planning or to take other actions to increase the safety of the pupil or an immediate family member of the pupil, or a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, including, but not limited to, temporary or permanent relocation.

   Absences under this section shall not be excused for more than three (3) days per incident, unless extended on a case-by-case basis at the discretion of the school administrator. "Immediate family" means the parent or guardian, brother or sister, grandparent, or any other relative living in the household of the pupil.

(14) Due to his or her participation in military entrance processing.

(15) Authorized at the discretion of a school administrator or designee, based on the facts of the student's circumstances, are deemed to constitute a valid excuse.

(16) Participation in religious instruction or exercises as follows: The student shall be excused for this purpose on no more than four (4) school days per month.

(17) Authorized parental leave for a pregnant or parenting student for up to eight (8) weeks, which may be extended if deemed medically necessary by the student's physician.

(18) A student who holds a work permit to work for a period of not more than five (5) consecutive days in the entertainment or allied industries shall be excused from school during the period that the student is working in the entertainment or allied industry for a maximum of up to five (5) absences per school year subject to the requirements of Education Code section 48225.5.

(19) In order to participate with a not-for-profit performing arts organization in a performance for a public-school student audience for a maximum of up to five (5) days per school year provided the student's parent or guardian provides a written note to the school authorities explaining the reason for the student's absence.

A student absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefore. The teacher of the class from which a student is absent shall determine which tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.

Absences pursuant to this section are deemed to be absences in computing average daily attendance and shall not generate state apportionment payments.

Other reasons will be considered that are requested in writing and approved by MPS. If the excuse is not one of the valid excuses listed above, the MPS administrators are authorized to excuse school absences due to the student's circumstances on a case-by-case basis.

Unexcused Absences/Tardies for Classroom Based Attendance

Students will be marked unexcused if they:

1. Do not verify an absence within **two (2)** school days following an absence; (see verification methods below)
2. Leave school without signing out at the school office;
3. Are absent from class without teacher permission or a valid excuse, including walking out of class;
4. Get a pass to go to a certain place but do not report there; and/or
5. Are absent/tardy for reasons **not acceptable** to the administration including but not limited to:
   - Not waking up on time
   - Transportation problems (missing the bus, traffic, etc.)
   - Running errands for family
   - Work
   - Babysitting
   - Hair appointment
   - Needed at home
   - Vacations or trips
   - Athletic workout
   - Socializing/Lingering in the hallway.

Method of Verification

A parent/guardian must inform the school office via phone of their child's absence/tardy the morning of the absence/tardy. When students who have been absent return to school, they must present a satisfactory explanation verifying the reason for the absence/tardy within **two (2)** school days of the excused absence and/or upon the student's return. If a satisfactory explanation is not provided within **two (2)** school days of the absence/return, the absence will be marked as "unexcused." The following methods may be used to verify student absences/tardies:

1. Signed, written note from parent/guardian, or parent representative;
2. Conversation, in person or by telephone, between the verifying employee and the student's parent/guardian or parent representative. The employee shall subsequently record the following:
   a. Name of student;
   b. Name of parent/guardian or parent representative;
   c. Name of verifying employee;
   d. Date or dates of absence; and
   e. Reason for absence.
3. Visit to the student's home by the verifying employee, or any other reasonable method, which establishes the fact that the student was absent for the reasons stated. A written recording shall be made, including information outlined above.
4. Healthcare provider verification
   a. When excusing students for confidential medical services or verifying such appointments, MPS staff shall not ask the purpose of such appointments but may contact a medical office to confirm the time of the appointment.
   b. A healthcare provider's note of illness will be accepted for any reported absence. When a student has **had ten (10)** absences in the school year verified by methods listed in #1-#3 above without a healthcare provider's note, any further absences for illness must be verified by a healthcare provider.

Insofar as class participation is an integral part of students' learning experiences, parents/guardians and students shall be encouraged to schedule medical appointments during non-school hours.

Students should not be absent from school without their parents/guardians' knowledge or consent except in cases of medical emergency or for students in grades 7-12, inclusive, who may be excused from school for the purpose of obtaining confidential medical services without the consent of the student's parent or guardian. Student absence for religious instruction or participation in religious exercises away from school property may be considered excused subject to administrative regulations and law. Students who arrive to school late must report to the school office when the student arrives. If the student fails to do this, he or she will receive an unexcused tardy. If the student fails to present a satisfactory explanation verifying the reason for the tardy, the student will receive an unexcused tardy. The student will be given a "late slip" from office staff to be admitted to class.

Make up Work for Excused Absences

An absence from school, even for several days, does not excuse students from responsibilities in the classroom. On the day of return, it is the students' responsibility to find out what work is required and when the work needs to be completed. Students will be given the same number of days they were absent to make up for missed work. For students with excused absences, make-up tests will be scheduled at a time designated by the teacher or as outlined in the teacher's syllabus. It is the students' responsibility to take the test at that time. If the student fails to do this, the teacher is not obligated to set another time for make-up. Please check the teacher's syllabus and make sure for their individual policy.

Independent Study Policy

Students with a legitimate need for an extended absence of **five (5)** or more days can request independent study.

Please see the school office and website for the **"MPS Independent Study Policy."**

Extracurricular Activities

When a student accrues **ten (10)** unexcused absences/tardies in a semester, the student may not be allowed to participate in any extracurricular activities for the remainder of that semester. (Field trips and academic opportunities do not count as extracurricular activities.) Special circumstances with documented explanations should be reviewed with the administration. After **twenty (20)** unexcused absences/tardies within the school year, the student may be referred to the Reflection Committee regarding their standing and opportunity to participate in any culminating activities, i.e., promotion/graduation, prom or graduation night.

Process for Upholding the Attendance Policy

First Day of School Process

When students are not in attendance on the **first five (5) consecutive days of school**, MPS will attempt to reach the parent/guardian daily for each of the first five days to determine whether the student has an excused absence, consistent with the process outlined in this policy. If the student has a basis for an excused absence, parents must notify MPS of the absence and provide documentation consistent with this policy. However, consistent with process below, students who are not in attendance due to an unexcused absence by the sixth (6th) day of school will be disenrolled from the Charter School roster after following the Involuntary Removal Process described below, as it will be assumed that the student has chosen another school option.

1. Students who are not in attendance on the first (1st) day of school will be contacted by phone to ensure their intent to enroll.
2. Students who are not in attendance on the second (2nd) day of school will be contacted by phone to ensure their intent to enroll.
3. Students who have indicated their intent to enroll but have not attended by the third (3rd) day will receive a letter indicating the student will be disenrolled after the fifth day of school if the student has not attended school without valid excuse.
4. Students who are not in attendance on the fourth (4th) day of school will be contacted by phone to ensure their intent to enroll.
5. Students who have indicated their intent to enroll but have not attended by the fifth (5th) day of school and do not have an excused absence will receive a phone call reiterating the content of the letter.
6. MPS will send the Involuntary Removal Notice and the CDE Enrollment Complaint Notice and Form to the parent/guardian and follow the Involuntary Removal Process described below for any students who have not attended by the sixth (6th) day, and do not have an excused absence.
7. MPS will use the contact information provided by the parent/guardian in the registration packet.
8. The last known District of Residence will be notified of the student's failure to attend MPS and the voluntary disenrollment within thirty (30) days of the disenrollment.
9. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal Process.

Truancy Process

1. Each of the first **two (2)** unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal or designee. The student's classroom teacher may also call home.
2. Each of the **third (3rd) and fourth (4th)** unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal or designee. In addition, the student's classroom teacher may also call home and/or MPS may send the parent an e-mail notification. In addition, upon reaching **three (3)** unexcused absences or unexcused tardies over 30 minutes in a school year, the parent/guardian will receive **"Truancy Letter #1 – Truancy Classification Notice"** from the Charter School notifying the parent/guardian of the student's "Truant" status. This letter must be signed by the parent/guardian and returned to the Charter School. This letter shall also be accompanied by a copy of this Attendance Policy. This letter, and all subsequent letter(s) sent home, shall be sent by Certified Mail, return receipt requested, or some other form of mail that can be tracked. This letter shall be re-sent after a fourth (4th) unexcused absence or unexcused tardy over 30 minutes.
3. Upon reaching **seven (7)** unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive **"Truancy Letter #2 – Habitual Truant Classification Notice – Conference Request,"** notifying the parent/guardian of the student's "Habitual Truant" status and that a parent/guardian conference will be scheduled to review the student's records and develop an intervention plan/contract. In addition, MPS will consult with a school counselor regarding the appropriateness of a home visitation and/or case management.
4. Upon reaching **ten (10)** unexcused absences or unexcused tardies over 30 minutes, the student will be referred to a **Student Support and Progress Team (SSPT)** and the MPS **Attendance Review Team (SART)**. In addition, the parent/guardian will receive a **"Truancy Letter #3 – Referral to SART Meeting,"** and will be asked/invited to attend a presentation regarding chronic absenteeism.
5. The SART panel can include, but is not limited to, the following school members: School Administrators, School Psychologist, Counselor,

Nurse, Psychiatric Social Worker, Attendance Clerk, Intervention Teacher(s), MPS Director of Student Services or designee, PSAC or designee. The panel may be composed of any individual who is working with the family and has a viable interest in the student's school attendance. The SART panel will discuss the absence problem with the Parent/Guardian to work on solutions, develop strategies, discuss appropriate support services for the student and his/her family, and establish a plan to resolve the attendance issue.

a. The SART panel shall direct the parent/guardian that no further unexcused absences or tardies can be tolerated.
b. The parent/guardian shall be required to sign a contract formalizing the agreement by the parent/guardian to improve the child's attendance or face additional administrative action. The contract will identify the corrective actions required in the future, and indicate that the SART panel shall have the authority to order one or more of the following consequences for non-compliance with the terms of the contract:
    i. Parent/guardian to attend school with the child for one (1) day
    ii. Student retention
    iii. After school detention program
    iv. Required school counseling
    v. Loss of field trip privileges
    vi. Loss of school store privileges
    vii. Loss of school event privileges
    viii. Required remediation plan as set by the SART
    ix. Notification to the County District Attorney
c. The SART panel may discuss other school placement options.
d. Notice of action recommended by the SART will be provided in writing to the parent/guardian.

6. If the conditions of the SART contract are not met, the student may incur additional administrative action up to and including disenrollment from MPS consistent with the Involuntary Removal Process described below. If the student is disenrolled after the Involuntary Removal Process has been followed, notification will be sent within thirty (30) days to the student's last known district of residence.
7. For all communications set forth in this process, MPS will use the contact information provided by the parent/guardian in the registration packet. It is the parent's or guardian's responsibility to update MPS with any new contact information.
8. If student is absent **ten (10) or more consecutive school days** without valid excuse and parent/guardian cannot be reached at the number or address provided in the registration packet and does not otherwise respond to MPS' communication attempts, as set forth above, the student will be in violation of this Policy and the SART contract (if any) and may be subject to disenrollment, in compliance with the Involuntary Removal Process described below.
9. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal Process below.

Involuntary Removal Process

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five (5) schooldays before the effective date of the action ("Involuntary Removal Notice"). The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include the 1) charges against the student, 2) an explanation of the student's basic rights including the right to request a hearing before the effective date of the action, and 3) the CDE Enrollment Complaint Notice and Form. The hearing shall be consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the Charter School's suspension and expulsion policy.

Upon parent/guardian request for a hearing, the Charter School will provide notice of hearing consistent with its expulsion hearing process, through which the student has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the student has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder and shall include a copy of the Charter School's expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If parent/guardian requests a hearing and does not attend on the date scheduled for the hearing, the student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known district of residence within thirty (30) days.

A hearing decision not to disenroll the student does not prevent the Charter School from making a similar recommendation in the future should student truancy continue or re-occur.

Non-Discrimination

These policies will be enforced fairly, uniformly, and consistently without regard to the characteristics listed in Education Code section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Penal Code section 422.55, including immigration status, pregnancy, or association with an individual who has any of the aforementioned characteristics).

Reports

The MPS Principal, or designee, shall gather and report to the Board the number of absences both excused and unexcused as well as students who are truant, and the steps taken to remedy the problem.

Pupil Records

Custody Issues

Custody Issues

Custody disputes must be handled by the courts. The school has no legal jurisdiction to refuse a biological parent access to his/her child and/or school records. The only exception is when signed restraining orders or other signed, valid court order, specifically stating visitation limitations or restriction on access to records, are on file in the school office. Any student release situation which leaves the student's welfare in question will be handled at the discretion of the site administrator or designee. Should any such situation become a disruption to the school, law enforcement will be contacted, and an officer requested to intervene. Parents are asked to make every attempt not to involve school sites in custody matters. The school will make every attempt to reach the custodial parent when a parent or any other person not listed on the emergency card attempts to pick up a child.

Student Records, Including Challenges and Directory Information

The Family Educational Rights and Privacy Act ("FERPA") affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 5 business days after the day the Charter School receives a request for access. Parents or eligible students should submit to the Charter School CEO or designee a written request that identifies the records they wish to inspect. The Charter School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

   Parents or eligible students who wish to ask the Charter School to amend a record should write the Charter School's CEO or designee, clearly identify the part of the record they want changed and specify why it should be changed. If the Charter School decides not to amend the record as requested by the parent or eligible student, the Charter School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. If the Charter School decides to amend the record as requested by the parent or eligible student, the CEO must order the correction or the removal and destruction of the information and inform the parent or eligible student of the amendment in writing.

3. The right to provide written consent before the Charter School discloses personally identifiable information ("PII") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception, which permits disclosure without consent, is disclosure to Charter School officials with legitimate educational interests. A Charter School official is a person employed by the Charter School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the Charter School's Board of Directors. A Charter School official also may include a volunteer, consultant, vendor, or contractor outside of the Charter School who performs an institutional service of function for which the Charter School would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, therapist, or contracted provider of digital educational platforms and/or services; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another Charter School official in performing their tasks. A Charter School official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

   Upon request, the Charter School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled, if the disclosure is for purposes of the student's enrollment or transfer.

   Note that Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Charter School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

   Student Privacy Policy Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202

5. The right to request that the Charter School not release student names, addresses and telephone listings to military recruiters or institutions of

higher education without prior written parental consent.

FERPA permits the disclosure of PII from student's education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to Charter School officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the Charter School to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A Charter School may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student to the following parties:

1. Charter School officials who have a legitimate educational interest as defined by 34 C.F.R. Part 99;
2. Other schools to which a student seeks or intends to enroll so long as the disclosure is for purposes related to the student's enrollment or transfer. When a student transfers schools, the Charter School will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days following the date the request is received from the public school or private school where the student intends to enroll. Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at his/her last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for a hearing;
3. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;
4. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;
5. Organizations conducting certain studies for the Charter School in accordance with 20 U.S.C. § 1232g(b)(1)(F);
6. Accrediting organizations in order to carry out their accrediting functions;
7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986;
8. Individuals or entities, in compliance with a judicial order or lawfully issued subpoena. Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;
9. Persons who need to know in cases of health and safety emergencies;
10. State and local authorities, within a juvenile justice system, pursuant to specific State law;
11. A foster family agency with jurisdiction over a currently enrolled or former student, a short-term residential treatment program staff responsible for the education or case management of a student, and a caregiver (regardless of whether the caregiver has been appointed as the student's educational rights holder) who has direct responsibility for the care of the student, including a certified or licensed foster parent, an approved relative or nonrelated extended family member, or a resource family, may access the current or most recent records of grades, transcripts, attendance, discipline, and online communication on platforms established by Charter School for student and parents, and any individualized education program ("IEP") or Section 504 plan that may have been developed or maintained by Charter School; and/or
12. A victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense. The disclosure may only include the final results of the disciplinary proceedings conducted by Charter School with respect to that alleged crime or offense. Charter School discloses the final results of the disciplinary proceeding regardless of whether Charter School concluded a violation was committed.

"Directory Information" is information that is generally not considered harmful or an invasion of privacy if released. Charter School may disclose the personally identifiable information that it has designated as directory information without a parent's prior written consent. The Charter School has designated the following information as directory information:

1. Student's name
2. Student's address
3. Parent's/guardian's address
4. Telephone listing
5. Student's electronic mail address
6. Parent's/guardian's electronic mail address
7. Photograph/video
8. Date and place of birth
9. Dates of attendance
10. Grade level
11. Participation in officially recognized activities and sports
12. Weight and height of members of athletic teams
13. Degrees, honors, and awards received
14. The most recent educational agency or institution attended
15. Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's social security number, in whole or in part, cannot be used for this purpose.)

If you do not want the Charter School to disclose directory information from your child's education records without your prior written consent, you must notify the Charter

School in writing at the time of enrollment or re-enrollment. Please notify the CEO at:

CEO and Superintendent
Magnolia Public Schools
250 E. 1st St STE 1500
Los Angeles, CA 90012
(213) 628-3634

Note: Charter School shall not release directory information regarding a student identified as a homeless child or youth under the McKinney Vento Homeless Assistance Act in the absence of parent, guardian, or eligible student's written consent, except when the directory information is released for the purposes of facilitating the student's access to an oral assessment or eye examination required by Charter School, unless the parent/guardian opts out of the examination.

Note: Please note that data collected and reported by Charter School to the California Longitudinal Pupil Achievement Data System (CALPADS)* pursuant to state law, will be shared with the California College Guidance Initiative ("CCGI")** and will:

1. Be used to provide pupils and families with direct access to online tools and resources.
2. Enable a pupil to transmit information shared with the CCGI to both of the following:
    a. Postsecondary educational institutions for purposes of admissions and academic placement.
    b. The Student Aid Commission for purposes of determining eligibility for, and increasing uptake of, student financial aid.

* CALPADS is a database maintained by the CDE which consists of pupil data from elementary and secondary schools relating to, among other things, demographic, program participation, enrollment, and statewide assessments data.

** CCGI is an authorized provider of an institutional service to all California local educational agencies and as part of the state's efforts to make college-going a more streamlined experience for students. The CCGI currently receives enrollment data for all public-school students enrolled in grades six through twelve from the California Department of Education (CDE).

A copy of the complete Policy is available upon request at the school office and on the school website. A directory information release opt-out form is included at the end of this Handbook and copies are also available in the school office.

News Media Access and Social Media Policy

Occasionally, school staff or reporters and other members of the news media may write about, photograph or video school activities such as sporting events, school assemblies, special programs or newsworthy events.

Parents sign an authorization and release form during enrollment to grant MPS permission to create and use visual and/or audio images of their student, or the student's name or work product in internal and external publications for advertising or educational purposes, or share on its website, Facebook, Twitter, or other social media sites. Parents and guardians who do not want their child to be interviewed, videotaped or photographed should not sign or return that form/waiver. However, even with a signed form, students can turn down a request to be interviewed or photographed by telling their teacher.

The waiver only applies to a student who is on campus. Once they leave the school grounds and are on public property such as the sidewalk, reporters and photographers need no permission to ask questions or take pictures or videos.

For this reason, it is best to talk with your child so he or she knows your preference in advance, in case they find themselves in this situation.

Please contact the school office if you would like to request a copy of the waiver form.

A complete copy of the **"MPS Social Media Policy"** is available in the school office and on the school website.

Social Security Number

Social Security Number – EC 49076.7

Pupils and their parents or guardians should not be asked to provide their social security numbers or the last four digits of the social security numbers unless required by state or federal law. If a form is requesting that you provide a social security number or the last four digits of the social security number for you and/or your child and it does not specify the state or federal law that requires this information, ask the school administrator for more information before providing it.

Student Transfer

- Any student transferring out of MPS must complete the "Student Transfer Form" which can be obtained from the school office. The form must be completed prior to a student transferring. It is the parent/guardian's responsibility to complete the form. The school is not responsible for having it completed.
- It is the student's parent/guardian's responsibility to contact the school that student will be transferring to. It is the parent/guardian's responsibility to make all necessary arrangements for a successful transfer.
- If a student will be transferring to another school for the following school year, the parent/guardian is still responsible to inform the school office before the last day of school, or last day of attendance.
- All textbooks and any school property loaned to the student must be turned in before the last day of attendance in order to complete a successful transfer.

HEALTH & WELLNESS

Notifications for Student Athletes

Concussion and Head Injuries

Concussion and Head Injuries – EC 49475

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Because MPS has elected to offer an athletic program, we must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until the athlete is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than **seven (7)** days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

MPS shall distribute the concussion information sheet to athletes prior to the start of the athletic season. Information sheet for concussion is included at the end of this Handbook and copies are also available in the school office.

Controlled Substances: Opioids

Controlled Substances: Opioids – EC 49476

School authorities must provide facts regarding the risks and side effects of opioid use each school year to athletes. Parents and student athletes must sign acknowledgement of receipt of the document annually.

MPS shall distribute the opioid information sheet to athletes prior to the start of the athletic season. Information sheet for opioid is included at the end of this Handbook and copies are also available in the school office.

Sudden Cardiac Arrest Prevention and Automated External Defibrillators

Sudden Cardiac Arrest – EC 33479 et seq.

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is not a heart attack; it is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. SCA is more likely to occur during exercise or sports activity, so athletes are at greater risk. These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. If not properly treated within minutes, SCA is fatal in 92 percent of cases. MPS must remove from participation a pupil who passes out or faints, or who is known to have passed out or fainted, while participating in or immediately following an athletic activity. A pupil who exhibits any of the other symptoms of SCA during an athletic activity may be removed from participation if the athletic trainer or authorized person reasonably believes that the symptoms are cardiac related. A pupil who is removed from play may not return to that activity until the pupil is evaluated by, and receives written clearance from, a physician or surgeon. On a yearly basis, an acknowledgement of receipt and review of information regarding SCA must be signed and returned by the pupil and the pupil's parent or guardian before a pupil participates in specific types of athletic activities which generally does not apply to those conducted during the regular school day or as part of a physical education course.

Locations of Automated External Defibrillators (AEDs): MPS maintains AEDs on its campuses. AEDs are located in the following areas:

- MSA-1: Gym (1 AED)
- MSA-2: Main Office (2 AEDs)
- MSA-3: Main office and Gym (2 AEDs)
- MSA-4: Main Office (1 AED)
- MSA-5: Gym (1 AED)
- MSA-6: Main Office (1 AED)
- MSA-7: Main Office (1 AED)
- MSA-8: Main Office, Second Floor, and Girls' Locker Room (3 AEDs)
- MSA-SD: Main Office (1 AED)
- MSA-SA: Main Office and Gym (2 AEDs)

MPS shall distribute the sudden cardiac arrest information sheet to athletes prior to the start of the athletic season. Information sheet for the sudden cardiac arrest is included at the end of this Handbook and copies are also available in the school office.

California Youth Football Act

California Youth Football Act – HSC 124241 (6-12)

Under state law, students who participate in football games in grades 6-12 must have a licensed medical professional present during the game, whether playing at a home game or away at another school. This does not include Physical Education classes or intramural football games outside of extra-curricular athletics offered at the middle or high school.

Health Insurance Coverage for Athletes

Health Insurance Coverage for Athletes – EC 32221.5 (9-12)

Under state law, school districts are required to ensure that all members of school athletic teams have accidental injury insurance that covers medical and hospital expenses. This insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses.

Some pupils may qualify to enroll in no-cost or low-cost local, state, or federally sponsored health insurance programs. Information about these programs may be obtained by calling Medi-Cal at 800-541-5555 or Healthy Families Program at 800-880-5305.

Athletics, Safety, and Civil Rights

Athletics, Safety, and Civil Rights – CIF Bylaw 210C, EC 221.8, 230, 32050, 32051, 35179.4, HSC 124238.5, 20 U.S.C. § 1681, PC 245.6

MPS is committed to providing a safe, inclusive, and respectful environment for all student-athletes, coaches, families, officials, and spectators participating in interscholastic athletics and school-sponsored athletic activities.

Equal Access and Non-Discrimination in Athletics

Participation in athletic programs and activities shall be provided without regard to actual or perceived race, color, ancestry, national origin, nationality, immigration status, ethnicity, ethnic group identification, religion, disability, sex, sexual orientation, gender, gender identity, gender expression, or any other protected characteristic.

MPS prohibits discrimination, harassment, intimidation, bullying, and hate-motivated behavior at athletic events and activities. Per California law, incidents of racial discrimination, harassment, intimidation, or hate-motivated behavior occurring during or in connection with athletic events must be reported to school administration.

MPS maintains a Sporting Event/Game Incident Report form for reporting incidents occurring at athletic events. The form is available on the school website and may also be obtained through the school office.

Complaints alleging discrimination, harassment, intimidation, or bullying in athletics may also be filed through the MPS Uniform Complaint Procedures ("UCP").

Anti-Hazing Policy

Hazing of any kind is strictly prohibited. Hazing includes any method of initiation or pre-initiation into a student organization, team, or activity that causes, or is likely to cause, bodily danger, physical harm, mental harm, personal degradation, or humiliation, regardless of whether the student voluntarily participates.

Students who engage in hazing may face disciplinary action up to and including suspension, expulsion, removal from athletic participation, and referral to law enforcement when appropriate. Students who witness hazing or are aware of hazing activities are encouraged to immediately report the conduct to school staff or administration.

Emergency Action Plans (EAPs) and Automated External Defibrillators (AEDs)

To support student safety during athletic practices, competitions, and school-sponsored athletic activities, MPS maintains written Emergency Action Plans ("EAPs") for athletic venues and facilities, including gyms, athletic fields, and courts, as applicable.

Emergency Action Plans may include:

- Emergency response procedures;
- Emergency contact procedures;
- Emergency exit information;
- Procedures for responding to medical emergencies; and
- Locations of Automated External Defibrillators ("AEDs").

EAPs may be reviewed, practiced, or rehearsed periodically in accordance with applicable law, training requirements, and athletic program needs.

Student-Athlete Health and Safety Information

Prior to participation in athletics, student-athletes and parents/guardians may be required to review and acknowledge information regarding:

- Concussions and head injuries;
- Sudden Cardiac Arrest ("SCA");
- Exertional heat illness prevention;
- Opioid and controlled substance awareness;
- Athletic participation safety protocols; and
- Other CIF- and state-required health and safety information.

Sportsmanship and Spectator Expectations

MPS supports the California Interscholastic Federation ("CIF") principles of "Pursuing Victory with Honor" and expects all participants and spectators to demonstrate appropriate sportsmanship, respect, and civility at athletic events.

Taunting, harassment, intimidation, profanity, discriminatory conduct, or unsportsmanlike behavior directed toward student-athletes, coaches, officials, employees, or spectators may result in removal from the event and/or additional consequences.

In accordance with California law and CIF rules, any spectator who physically assaults or attempts to physically assault a game official, referee, umpire, or sports official before, during, or after an athletic event may be permanently prohibited from attending CIF-sanctioned athletic contests.

Steroids and Banned Substances

By participating in interscholastic athletics, student-athletes and parents/guardians acknowledge that the student-athlete shall not use androgenic/anabolic steroids

or prohibited performance-enhancing substances without a valid written prescription from a licensed health care provider for the treatment of a legitimate medical condition.

Student-athletes are also advised to use caution regarding dietary supplements, as some supplements may contain substances prohibited by athletic governing organizations or may otherwise pose health and safety risks.

MPS shall distribute the Athletic Safety Packet to student-athletes prior to the start of the athletic season. The Athletic Safety Packet may include required notices, acknowledgements, safety protocols, emergency procedures, and additional CIF- and state-required athletic participation information.

Health Services & Medical Information

Confidential Medical Services

Confidential Medical Services – EC 46010.1

School authorities may excuse any pupil in grades 7-12 from the school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardians. When excusing students for confidential medical services or verifying such appointments, staff will not ask the purpose of such appointments but may contact a medical office to confirm the time of the appointment. Staff will not notify a parent when a student leaves school to obtain confidential medical services.

Confidentiality of Medical Information Act

Confidentiality of Medical Information Act – CC 56.10

School linked service coordinators will have access to health care information which complies with federal health insurance requirements. The coordinator must be credentialed and serve with confidentiality requirements per licensed school nurses, marriage and family therapists, educational psychologists, and clinical counselors.

Health Care Coverage

Health Care Coverage – EC 49452.9

Your child and family may be eligible for free or low-cost health coverage. For information about health care coverage options and enrollment assistance, go to www.CoveredCA.com. Information regarding the availability of insurance is provided with enrollment forms and is also available at:

http://hbex.coveredca.com/toolkit/PDFs/ALL_IN_Flyer_EnrollGetCareRenew_CC.pdf

Additionally, California law allows all low-income children under 19 years old, regardless of immigration status, to enroll in Medi-Cal at any time in the year. Families can apply in person at their local county human services office, over the phone, online, with a mail-in application, or at a local health center. For more information about Medi-Cal enrollment, visit www.health4allkids.org.

Medical or Hospital Service

Medical or Hospital Service – EC 49472

MPS does not provide or make available medical and hospital services for pupils who are injured in routine accidents related to school activity or attendance.

Student Health Conditions & Emergency Care

Emergency Treatment for Anaphylaxis

Emergency Treatment for Anaphylaxis

MPS shall provide epinephrine delivery systems to school nurses and trained personnel and authorize them to use epinephrine delivery systems for any student who may be experiencing anaphylaxis, regardless of known history. Anaphylaxis is a severe and potentially life-threatening allergic reaction that can occur after encountering an allergic trigger, such as food, medicine, an insect bite, latex or exercise. Symptoms include narrowing of the airways, rashes or hives, nausea or vomiting, a weak pulse and dizziness. It is estimated that approximately 25% of the anaphylactic reactions occur during school hours to students who had not previously been diagnosed with a food or other allergy. Without immediate administration of epinephrine followed by calling emergency medical services, death can occur. Being able to recognize and treat it quickly can save lives.

Trained MPS personnel who have volunteered may use epinephrine delivery systems to provide emergency medical aid to persons suffering, or reasonably believed to be suffering from, an anaphylactic reaction. MPS will ensure it has the appropriate type of epinephrine delivery system on site (i.e., regular or junior) to meet the needs of its pupils. MPS will ensure staff properly store, maintain, and restock the epinephrine delivery systems as needed.

MPS will ensure any school personnel who volunteer are appropriately trained regarding the storage and emergency use of epinephrine delivery systems based on the standards developed by the Superintendent of Public Instruction. MPS will distribute an annual notice to all staff describing the request for volunteers who will be trained to administer an epinephrine delivery system to a person if that person is suffering, or reasonably believed

to be suffering from, anaphylaxis. The annual notice shall also describe the training the volunteer will receive.

Information regarding the location of emergency epinephrine delivery systems and applicable training materials shall be maintained and made available at each school site in accordance with applicable law.

Health Information

A student returning to school following a serious or prolonged illness, injury, surgery, or other hospitalization (including psychiatric and drug or alcohol inpatient treatment), must have written permission by the licensed California health care provider to attend school, including any recommendations regarding physical activity. A health care provider is defined as a California-licensed physician [a Medical Doctor (MD) or a Doctor of Osteopathic Medicine (DO)], California-licensed dentist, California-licensed nurse practitioner (NP), or a California-licensed physician assistant (PA).

A student returning to school with sutures (stitches, staples), ace bandage (elastic bandage, slings), casts, splints, crutches, cane, walker, knee walker/knee scooter, or a wheelchair must have a licensed California health care provider's written permission to attend school that includes any recommendations and/or restrictions related to physical activity, mobility and safety. All equipment must be supplied by the parent(s)/ guardian(s).

Illness

- MPS does not have a nurse on staff. Consistent with doctor's orders, properly trained office staff can assist students with basic first aid treatment; however, office staff are not registered nurses. Students sent to the office or visiting the office claiming that they are ill will be quickly evaluated by the office staff. If a student needs treatment beyond basic first aid, Parent/Guardian will be contacted to pick him/her up.
- If a student becomes ill or injured during the school day, he or she must report to the school office. Do not leave the building without permission. Any absence or departure from class that is not first cleared through the office will be considered unexcused.
- If a student is not physically well prior to the beginning of the school day, the office should be informed, and the student should be kept at home.

Communicable Disease Prevention

- If there is good cause to believe that a student is suffering from a recognized contagious or infectious disease, the student will be excluded from school until the school authorities are satisfied that any contagious or infectious disease does not exist. Guidelines for exclusion and readmission follow policies set forth by MPS, county and state authorities including but not limited to the California Department of Health and the California Department of Education. Guidance in addressing communicable diseases also comes from the Center for Disease Control and Prevention and national organizations.
- Temporary exclusion of a student from school generally occurs for communicable diseases, including, but not limited to, the following conditions: COVID-19, conjunctivitis (pink eye), skin infections (impetigo), strep throat, chickenpox, scabies, head lice, and pertussis (whooping cough). Exclusion may occur immediately or at the end of the school day, depending on the disease, its communicability and the county and state policy. Readmission to school is based on condition and appropriate treatment.
- Any student excluded from school or experiencing flu-like symptoms and/or a fever of 100 degrees or greater while at home, must be free from symptoms and fever for at least 24 hours (or more if required by county or state authorities) without the use of fever-reducing medication before returning to school.
- Schools may notify parents/guardians about school exposure to chickenpox, head lice, or other communicable diseases that pose a risk to students. The parent/guardian of a student for whom chickenpox presents a particular hazard should contact the school office. Students at risk include those with conditions affecting the immune system and those receiving certain drugs for the treatment of cancers or organ transplants. Information on the treatment and prevention of head lice is available from the school office.

Administration of Medications

Medication Regimen – EC 49423, 49480

The parent or legal guardian of any pupil required to take medication during the school day must inform the school nurse or office manager of the medication being taken, the current dosage, and the name of the supervising health care provider. With parent or guardian consent, designated school personnel may communicate with the student's health care provider and may consult with appropriate school personnel regarding the possible effects of the medication on the student.

Any pupil who is required to take, during the regular school day, medication prescribed by a physician may be assisted by designated school personnel if MPS receives both 1) a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken, and 2) written parent consent requesting school personnel to assist the pupil with prescribed medication as set forth in the physician statement. Students may carry and self-administer auto-injectable epinephrine or inhaled asthma medication if the school district receives both a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken and confirming that the pupil is able to self-administer auto-injectable epinephrine or

inhaled asthma medicine and a written statement from the parent or guardian consenting to the student self-administration, containing a release for the school nurse or other designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing MPS and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication. A pupil may be subject to disciplinary action if that pupil uses auto-injectable epinephrine or inhaled asthma medicine in a manner other than as prescribed. All requests are to be approved by designated school personnel prior to use.

- A **"Request for Medication to be Taken During School Hours"** must accompany all medication, containing instructions for administration, including exact times and dosages. The "Request for Medication to be Taken During School Hours" will be filed in the student's folder. This form can be obtained from the school office. This form shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for the administration changes. For a copy of this form, please contact the school office.
- All medications are to be delivered to the school office by a parent/guardian or other responsible adult, except for medications that a student is authorized to carry and self-administer pursuant to applicable law and school authorization. Medications must be in their original containers, with the name of the student, medication, dosage, and frequency of administration clearly marked. Extra medication should be picked up by the parent/guardian at the completion of the medication regimen or end of the school year, whichever is earlier. The school is not liable for any medication not picked up after the end of the school year.
- MPS staff shall keep records of medication administered at MPS.
- Medication will be kept in a secure and appropriate storage location at each MPS school and administered per physician's instructions by appropriately designated staff.
- Administration will consult with the parent/guardian and student's medical professionals to establish a written plan for Students with chronic health issues or conditions that require specific medication regimens or health plans, such as diabetes, asthma, etc.
- Any pupil requiring insulin shots must establish a plan for administration of insulin shots with the Principal in consultation with the parent or guardian and the pupil's medical professional.

A complete copy of the **"MPS Administration of Medications Policy"** is available for review in the main office and on the school website.

Sunscreen and Sun-protective Clothing

Sunscreen and Sun-protective Clothing – EC 35183.5

Pupils may wear sun-protective clothing while outdoors and may use sunscreen during the school day without a physician's note or prescription.

Required Health Screenings & Immunizations

Oral Health Assessment – EC 49452.8

Oral Health Assessment – EC 49452.8

Record of a dental assessment done by a dental professional is required for all kindergarteners and first graders attending public school for the first time. Dental assessments must be completed in the 12 months prior to entry or by May 31st of the pupil's first school year. Please contact the school office if you have questions about this requirement.

Physical Examination and Right to Refuse

Physical Examination – EC 49451; 20 USC 1232h

MPS shall comply with all federal and state legal requirements, including but not limited to the requirements of SB 277 (2015), related to student immunization, health examination, and health screening, including but not limited to screening for vision, hearing, and scoliosis, to the same extent as would be required if the students were attending a non-charter public school. MPS shall maintain student immunization, health examination, and health screening records on file.

A parent or guardian may file annually with the school principal a written statement, signed by the parent or legal guardian, withholding consent to a physical examination of the pupil. However, whenever there is good reason to believe that the pupil is suffering from a recognized contagious or infectious disease, the pupil shall be sent home and shall not be permitted to return until school authorities are satisfied that the contagious or infectious disease no longer exists.

Immunizations

Immunizations: EC 49403, 48216; HSC 120325, 120335, 120365, 120370, 120375

Students must be immunized against certain communicable diseases before they can attend school unless they provide a valid exemption. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school shall cooperate with local health officials in measures necessary for the prevention and control of

communicable diseases in school age children. The school may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

MPS shall apply immunization requirements in accordance with applicable state and federal laws regarding the immediate enrollment of students experiencing homelessness and students in foster care.

Beginning January 1, 2016, parents of students in any school, will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from MPS when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunization against one of the communicable diseases described above.

State law requires the following immunizations before a child may attend MPS:

(a) All new students, in transitional kindergarten through grade 12, to MPS must provide documentary proof of receiving the legally required number of doses of polio, diphtheria, pertussis, tetanus, measles, mumps, and rubella, hepatitis B and varicella immunizations.

(b) All students entering seventh grade must also provide proof of an additional dose of tetanus, reduced diphtheria, and acellular pertussis.

Please contact the school office for information on the availability of free- or low-cost immunizations in your neighborhood.

Information about a medical exemption from immunizations for your student is available at CAIR ME. For more information on medical exemptions, please visit the following website: https://cair.cdph.ca.gov/exemptions/home.

A complete copy of the **"MPS Immunization Policy"** is available for review in the main office.

Health Information & Prevention Notices

Type 1 Diabetes Information Sheet

MPS will provide an information sheet regarding Type 1 Diabetes to the parent or guardian of incoming elementary grade students, pursuant to Education Code Section 49452.6. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of Type 1 Diabetes.
2. A description of the risk factors and warning signs associated with Type 1 Diabetes.
3. A recommendation regarding those students displaying warning signs associated with Type 1 Diabetes that the parents or guardians of those students should immediately consult with the student's primary care provider to determine if immediate screening for Type 1 Diabetes is appropriate.
4. A description of the screening process for type 1 diabetes and the implications of test results.
5. A recommendation that, following a Type 1 diagnosis, parents or guardians should consult with the student's primary care provider to develop an appropriate treatment plan, which may include consultation with and examination by a specialty care provider, including, but not limited to, a properly qualified endocrinologist.

Type 1 Diabetes Information

Description

Type 1 diabetes usually develops in children and young adults but can occur at any age.

- According to the U.S. Centers for Disease Control and Prevention (CDC), cases of type 1 diabetes in youth increased nationally from 187,000 in 2018 to 244,000 in 2019, representing an increase of 25 per 10,000 youths to 35 per 10,000 youths, respectively.
- The peak age of diagnosis of type 1 diabetes is 13-14 years, but diagnosis can also occur much earlier or later in life.

Type 1 diabetes affects insulin production.

- As a normal function, the body turns the carbohydrates in food into glucose (blood sugar), the basic fuel for the body's cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood into the cells.
- In Type 1 diabetes, the body's pancreas stops making insulin, and blood glucose levels rise.
- Over time, glucose can reach dangerously high levels in the blood, which is called hyperglycemia.
- Untreated hyperglycemia can result in diabetic ketoacidosis (DKA), which is a life-threatening complication of diabetes.

Risk Factors Associated with Type 1 Diabetes

It is recommended that students displaying warning signs associated with Type 1 diabetes, which are described below, should be screened (tested) for the disease by their health care provider.

Risk Factors

Researchers do not completely understand why some people develop Type 1 diabetes and others do not; however, having a family history of Type 1 diabetes can increase the likelihood of developing Type 1 diabetes. Other factors may play a role in developing Type 1 diabetes, including environmental triggers such as viruses. Type 1 diabetes is not caused by diet or lifestyle choices.

Warning Signs and Symptoms Associated with Type 1 Diabetes and Diabetic Ketoacidosis

Warning signs and symptoms of Type 1 diabetes in children develop quickly, in a few weeks or months, and can be severe. If your child displays the warning signs below, contact your child's primary health care provider or pediatrician for a consultation to determine if screening your child for Type 1 diabetes is appropriate:

- Increased thirst
- Increased urination, including bed-wetting after toilet training
- Increased hunger, even after eating
- Unexplained weight loss
- Feeling very tired
- Blurred vision
- Very dry skin
- Slow healing of sores or cuts
- Moodiness, restlessness, irritability, or behavior changes

DKA is a complication of untreated Type 1 diabetes. DKA is a medical emergency. Symptoms include:

- Fruity breath
- Dry/flushed skin
- Nausea
- Vomiting
- Stomach pains
- Trouble breathing
- Confusion

Types of Diabetes Screening Tests That Are Available

- **Glycated hemoglobin (A1C) test.** A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.
- **Random (non-fasting) blood sugar test.** A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes.
- **Fasting blood sugar test.** A blood sample is taken after an overnight fast. A level of 126 mg/dL or higher on two separate tests indicates diabetes.
- **Oral glucose tolerance test.** A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 1 Diabetes Treatments

There are no known ways to prevent type 1 diabetes. Once Type 1 diabetes develops, medication is the only treatment. If your child is diagnosed with type 1 diabetes, their health care provider will be able to help develop a treatment plan. Your child's health care provider may refer your child to an endocrinologist, a doctor specializing in the endocrine system and its disorders, such as diabetes.

Contact your student's school nurse, school administrator, or health care provider if you have questions.

Type 2 Diabetes Information Sheet

MPS will provide an information sheet regarding Type 2 Diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of Type 2 Diabetes.
2. A description of the risk factors and warning signs associated with Type 2 Diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with Type 2 Diabetes should be screened for Type 2 Diabetes.
4. A description of treatments and prevention of methods of Type 2 Diabetes.
5. A description of the different types of diabetes screening tests available.

Type 2 Diabetes Information

Description

Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.

- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in his or her lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body's cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
- In type 2 diabetes, the body's cells resist the effects of insulin, and blood glucose levels rise.
- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- **Being overweight**. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
- **Family history of diabetes**. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
- **Inactivity**. Being inactive further reduces the body's ability to respond to insulin.
- **Specific racial/ethnic groups**. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.
- **Puberty**. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating
- Unexplained weight loss
- Increased thirst, dry mouth, and frequent urination
- Feeling very tired
- Blurred vision
- Slow healing of sores or cuts
- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
- Irregular periods, no periods, and/or excess facial and body hair growth in girls
- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- **Eat healthy foods.** Make wise food choices. Eat foods low in fat and calories.
- **Get more physical activity.** Increase physical activity to at least 60 minutes every day.
- **Take medication.** If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or pre-diabetes (a condition which may lead to type 2 diabetes).

Types of Diabetes Screening Tests That Are Available

- **Glycated hemoglobin (A1C) test.** A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.
- **Random (non-fasting) blood sugar test.** A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes. This test must be confirmed with a fasting blood glucose test.
- **Fasting blood sugar test.** A blood sample is taken after an overnight fast. A fasting blood sugar level less than 100 mg/dL is normal. A level of 100 to 125 mg/dL is considered pre-diabetes. A level of 126 mg/dL or higher on two separate tests indicates diabetes.
- **Oral glucose tolerance test.** A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

Cancer Prevention Act

Students in the state are advised to adhere to current immunization guidelines, as recommended by the Advisory Committee on Immunization Practices (ACIP) of the federal Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics, and the American Academy of Family Physicians, regarding full human papillomavirus (HPV) immunization before admission or advancement to the eighth-grade level of any private or public elementary or secondary school.

Because the vaccine is more effective when given at younger ages, two doses of HPV vaccine are recommended for all kids between the ages of 9 to 12 years, and the second dose should be given before the start of 8th grade. Kids who wait until later to get their first dose of HPV vaccine may need three doses.

HPV vaccination can prevent over 90 percent of cancers caused by HPV. HPV vaccines are very safe, and scientific research shows that the benefits of HPV vaccination far outweigh the potential risks.

Substance Use & Medication Safety

Dangers of Synthetic Drugs

Dangers of Synthetic Drugs – EC 48985.5

The illicit use and abuse of synthetic drugs represents an ongoing public health threat in California. The fentanyl crisis has significantly impacted communities across the state, leading to a sharp increase in fentanyl poisonings and overdose deaths in recent years. This notice is intended to help students and families understand the dangers associated with synthetic drugs and the potentially deadly consequences of recreational drug use.

A synthetic drug is a substance with properties and effects similar to those of a known hallucinogen or narcotic but with a modified chemical structure, often designed to evade restrictions on illegal substances. Synthetic drugs include, but are not limited to, synthetic cannabinoids ("synthetic marijuana," "Spice," and "K2"), methamphetamines, bath salts, and fentanyl.

The California Department of Public Health ("CDPH") has identified the extreme danger posed by drugs laced with fentanyl. Illicit fentanyl may be added to other substances to make them cheaper, more powerful, and more addictive. Fentanyl has been found in heroin, methamphetamine, counterfeit pills, cocaine, and other illegal drugs. Because fentanyl cannot be seen, smelled, or tasted, it is often impossible to determine whether a drug contains fentanyl without specialized testing. Even a small amount of fentanyl can cause a fatal overdose.

Students and families should also be aware that social media platforms and other online services may be used to market, advertise, and sell illicit drugs, including fentanyl and counterfeit pills containing fentanyl. Students are encouraged to avoid purchasing or consuming any medication or substance that has not been prescribed by a licensed health care provider or obtained from a lawful and reputable source.

Additional information regarding fentanyl and overdose prevention is available from the CDPH Substance and Addiction Prevention Branch at:

https://www.cdph.ca.gov/Programs/OPA/Pages/Communications-Toolkits/Fentanyl-Overdose-Prevention.aspx

Emergency Medication for Opioid Overdose – EC 49414.3, 49414.4

Notwithstanding any other law or regulation, MPS shall not prohibit students, while on a schoolsite or participating in school activities, from carrying fentanyl test strips or a federally approved opioid antagonist for over-the-counter use for the emergency treatment of persons suffering, or reasonably believed to be suffering, from an opioid overdose.

MPS may maintain naloxone hydrochloride or another opioid antagonist at school sites and may authorize trained personnel to administer such medication to any person who is suffering, or reasonably believed to be suffering, from an opioid overdose in accordance with applicable law.

Information regarding the location of emergency opioid overdose medication and applicable training materials shall be maintained and made available at each school site in accordance with applicable law.

Student Wellness

Wellness Policy

MPS is committed to the optimal development of every student. MPS believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables, and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education, and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

The School Wellness Policy outlines MPS' approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions.

You may obtain a copy of the **"MPS School Wellness Policy"** at the school office or on the school's website.

Free School Meals

Free School Meals – EC 49501.5

MPS shall provide two school meals free of charge during each schoolday to any pupil who requests a meal without consideration of the pupil's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period (breakfast and lunch) and with adequate time to eat. The meals provided under this paragraph shall be nutritiously adequate meals that qualify for federal reimbursement.

Although meals are provided free of charge to all students, MPS may request that families complete meal applications, alternative income forms, or other household income documentation as permitted by law. Information collected through these forms may be used for funding, accountability, program eligibility, and other educational purposes authorized by state and federal law.

Earned Income Tax Credit

Based on a parent/guardian's annual earnings, a parent/guardian may be eligible to receive the Earned Income Tax Credit from the Federal Government (Federal EITC). The Federal EITC is a refundable federal income tax credit for low-income working individuals and families. The Federal EITC has no effect on certain welfare benefits. In most cases, Federal EITC payments will not be used to determine eligibility for Medicaid, Supplemental Security Income, food stamps, low-income housing, or most Temporary Assistance for Needy Families payments. Even if a parent/guardian does not owe federal taxes, they must file a federal tax return to receive the Federal EITC. Be sure to fill out the Federal EITC form in the Federal Income Tax Return Booklet. For information regarding your eligibility to receive the Federal EITC, including information on how to obtain the Internal Revenue Service (IRS) Notice 797 or any other necessary forms and instructions, contact the IRS by calling 1-800-829-3676 or through its website at www.irs.gov.

A parent/guardian may also be eligible to receive the California Earned Income Tax Credit (California EITC) starting with the calendar year 2015 tax year. The California EITC is a refundable state income tax credit for low-income working individuals and families. The California EITC is treated in the same manner as the Federal EITC and generally will not be used to determine eligibility for welfare benefits under California law. To claim the California EITC, even if you do not owe California taxes, you must file a California income tax return and complete and attach the California EITC Form (FTB 3514). For information on the availability of the credit eligibility requirements and how to obtain the necessary California forms and get help filing, contact the Franchise Tax Board at 1-800-852-5711 or through its website at www.ftb.ca.gov.

Non-Discrimination Statement

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, Charter School is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: https://www.usda.gov/sites/default/files/documents/ad-3027.pdf, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

Mail:

U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights

Program.Intake@usda.gov

Charter School is an equal opportunity provider.

Water Bottles and Water Filling Stations

Charter School shall allow students, teachers, and staff to bring and carry water bottles. Water bottles may be excluded from libraries, computer labs, science labs, and other places where it is deemed dangerous to have drinking water. Charter School may develop additional policies regarding the types of water bottles that may be carried.

Charter School adheres to all applicable requirements regarding placement and maintenance of water bottle refilling stations on campus.

Charter school shall encourage water consumption through promotional and educational activities and signage that focus on the benefits of drinking water and highlight any water bottle filling stations that are located on campus.

Menstrual Products

Menstrual Products – EC 35292.6

MPS supports menstrual equity and provides free and accessible menstrual products at schools serving grades 3 through 12. In accordance with California law, menstrual products shall be available in all women's restrooms and all-gender restrooms and in at least one men's restroom at applicable school sites.

Notice regarding the availability of menstrual products shall be posted in a prominent and conspicuous location in each restroom where menstrual products are required to be stocked. The posted notice shall include the name, email address, and telephone number of the individual responsible for maintaining the supply of menstrual products at the school site.

Body Shaming

Body Shaming Model Policy and Resources – EC 232.7

MPS believes students should have the knowledge and skills necessary to develop healthy attitudes regarding body image, self-esteem, nutrition, physical activity, and overall wellness. "Body shaming" means the action or practice of mocking or stigmatizing a person by making critical comments or observations about the shape, size, or appearance of the person's body. As resources and support become available, MPS may share information related to positive body image and the prevention of body shaming with students and families.

Sexual Health Education

California Healthy Youth Act – EC 51930-51939

MPS offers comprehensive sexual health education to its students in grades 7-12. MPS provides pupils with integrated, comprehensive, accurate, and unbiased sexual health and HIV prevention education at least once in middle school and once in high school. It is intended to ensure that pupils in grades 7-12 are provided with the knowledge and skills necessary to: 1) protect their sexual and reproductive health from HIV, other sexually transmitted infections, unintended pregnancy and menstrual health; 2) develop healthy attitudes concerning adolescent growth and development, body image, gender, sexual orientation, relationships, marriage, and family; 3) promote understanding of sexuality as a normal part of human development; 4) ensure students receive integrated, comprehensive, accurate, and unbiased sexual health and HIV prevention instruction and provide educators with clear tools and guidance; 5) provide students with the knowledge and skills necessary to have healthy, positive, and safe relationships and behaviors.

Parents or legal guardians have the right to:

1. Inspect the written and audiovisual educational materials used in comprehensive sexual health and HIV prevention education.

2. Request in writing that their child not receive comprehensive sexual health or HIV prevention education.
3. Request a copy of Education Codes 51930 through 51939, the California Healthy Youth Act.
4. Be informed whether the comprehensive sexual health or HIV prevention education will be taught by MPS personnel or outside consultants.
5. Receive notice by mail or another commonly used method of notification no fewer than 14 days before the instruction is delivered if arrangements for the instruction are made after the beginning of the school year.
6. When MPS chooses to use outside consultants or to hold an assembly with guest speakers to teach comprehensive sexual health or HIV prevention education, be informed of: a) The date of the instruction, and b) The name of the organization or affiliation of each guest speaker.

MPS may administer to pupils in grades 7 through 12 anonymous, voluntary, and confidential research and evaluation tools to measure pupils' health behavior and risks, including tests, questionnaires, and surveys, containing age-appropriate questions about their attitudes or practices relating to sex. Parents or legal guardians will be notified in writing about the administration of, the right to review, and the right to excuse their child from any test, questionnaire, or survey.

A student may not attend any class in comprehensive sexual health education or HIV prevention education, or participate in any anonymous, voluntary, and confidential test, questionnaire, or survey on student health behaviors and risks, if MPS has received a written request from the

student's parent or guardian excusing the student from participation. An alternative educational activity shall be made available to students whose parents or guardians have requested that they not receive the instruction or participate in the test, questionnaire, or survey.

Mental Health Services

Mental Health - EC 49428

In order to initiate access to available pupil mental health services, you may contact the Principal or designee. Our school will notify parents at least twice per year. This is one time through our Student/Parent Handbook Annual Notifications. We will also notify you again a second time each school year by the following means: ParentSquare message, newsletter, etc.

A minor who is 12 years of age or older may consent to outpatient mental health treatment or counseling services, as permitted by applicable law, if the attending professional determines that the minor is sufficiently mature to participate intelligently in the services. The mental health professional providing services is required to consult with the minor before determining whether involvement of the parent or guardian would be inappropriate.

The following resources are available to your child:

Available on Campus:

- School-based counseling services – your child is encouraged to directly contact a Charter School counselor by coming into the counseling office during school hours and making an appointment to speak with a counselor. Our Charter School counselors support students by providing individual sessions, group or parent consultations whenever a student is having a difficult time due to academic stress, transition to changes in their environment, or social concerns, including isolation. Counseling services, whether provided by our Charter School or by an outside provider listed in this letter, are voluntary.
- Special education services – if you believe your child may have a disability, you are encouraged to directly contact the Principal or designee to request an evaluation.
- Prescription medication while on campus – if your child requires prescription medication during school hours and you would like assistance from School staff in providing this mediation to your child, please contact the school office.

Available in the Community:

- Will be communicated by each MPS school.

Available Nationally:

- National Suicide Prevention Hotline - This organization provides confidential support for adults and youth in distress, including prevention and crisis resources. Available 24 hours at 1-800-273-8255.
- The Trevor Project - This organization provides suicide prevention and crisis intervention for LGBTQ youth between the ages of 13 and 24. **Available at 1-866-488-7386 or visit** https://www.thetrevorproject.org/**.**
- Big Brothers/Big Sisters of America – This organization is a community- based mentorship program. Community-specific program information can be found online at https://www.bbbs.org or by calling (813) 720-8778.

Suicide Prevention Policy

Suicide Prevention Policies – EC 215

MPS is committed to promoting the health, safety, and well-being of all students. MPS recognizes that suicide is a serious public health concern and that early identification, intervention, and support can help reduce the risk of suicidal behavior and its impact on students, families, and the school community.

To support student safety, MPS has adopted a comprehensive Suicide Prevention Policy that includes age-appropriate prevention, intervention, referral, and postvention procedures; staff training; student and family education; and coordination with school-based and community mental health resources. MPS is committed to fostering a safe and supportive school environment where students are encouraged to seek help for themselves or others when concerns arise.

Suicide Prevention Crisis Team (SPCT)

MPS maintains a Suicide Prevention Crisis Team ("SPCT") consisting of administrators, mental health professionals, relevant staff, parents, and student representatives. The SPCT supports the implementation, review, and ongoing improvement of MPS's suicide prevention efforts.

Suicide Prevention Liaisons

Primary Liaison:

Jasmine Gomez, School Psychologist
jasminegomez@magnoliapublicschools.org
(310) 473-2464

Secondary Liaison:

Michael Craig, School Principal

Suicide Prevention Resources

- 988 Suicide & Crisis Lifeline: Call or Text 988
- National Suicide Prevention Lifeline: 1-800-273-8255
- National Domestic Violence Hotline: 1-800-799-7233
- Crisis Text Line: Text "HOME" to 741741
- Teen Line: Text "TEEN" to 839863
- The Trevor Project: Text "START" to 678678
- Trans Lifeline: 1-877-565-8860

If you or someone you know is struggling emotionally or having trouble coping, help is available. Students in distress, or students who simply want to talk about their concerns, may call or text the resources listed above for free and confidential support.

The complete **"MPS Suicide Prevention Policy"** is available on the school website and may also be obtained from the school office upon request.

SAFETY & SECURITY

Technology Use

Acceptable Use of Technology

New technologies are modifying the way in which information may be accessed, communicated and transferred. Those changes also alter instruction and student learning. Magnolia Public Schools ("Charter School") offers students access to technologies that may include Internet access, electronic mail, and equipment, such as computers, tablets, or other multimedia hardware. The Charter School Governing Board intends that technological resources provided by the school be used in a safe, responsible, and proper manner in support of the instructional program and for the advancement of student learning.

Educational Purpose

Use of Charter School equipment and access to the Internet via Charter School equipment and resource networks is intended to serve and pursue educational goals and purposes. Student use of the Internet is therefore limited to only those activities that further or enhance the delivery of education. Students and staff have a duty to use Charter School resources only in a manner specified in the Policy.

"Educational purpose" means classroom activities, research in academic subjects, career or professional development activities, Charter School approved personal research activities, or other purposes as defined by the Charter School from time to time.

"Inappropriate use" means a use that is inconsistent with an educational purpose or that is in clear violation of this policy and the Acceptable Use Agreement.

Notice and Use

The Charter School shall notify students and parents/guardians about authorized uses of school computers, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities.

Before a student is authorized to use the Charter School's technological resources, the student and the student's parent/guardian shall sign and return the Acceptable Use Agreement specifying user obligations and responsibilities. In that agreement, the student and the student's parent/guardian shall agree not to hold the Charter School or any Charter School staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes or negligence. They shall also agree to indemnify and hold harmless the Charter School and Charter School personnel for any damages or costs incurred.

Safety

The Charter School shall ensure that all Charter School computers with Internet access have a technology protection measure that blocks or filters Internet access to websites that have no educational purpose and/or contain visual depictions that are obscene, constitute child pornography, or that are harmful to minors. While the Charter School is able exercise reasonable control over content created and purchased by the Charter School, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither the Charter School nor its staff shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence.

To reinforce these measures, the Principal or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities. Staff shall monitor students while they are using MPS computers, laptops, or tablets to access the internet or online services on an MPS campus and may have teacher aides, student aides, and volunteers assist in this monitoring. Parents/guardians are required to supervise and monitor their child's use of MPS equipment including but not limited to their child's access to the internet and any online services through such equipment any and all times during which any Charter School equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy.

The Principal or designee also shall establish regulations to address the safety and security of students and student information when using email, chat rooms, and other forms of direct electronic communication.

The Principal or designees shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. Such instruction shall include, but not be limited to, maintaining the student's online reputation and ensuring their personal safety by keeping their personal information private, the dangers of posting personal information online, misrepresentation by online predators, how to report inappropriate or offensive content or threats, behaviors that constitute cyberbullying, and how to respond when subjected to cyberbullying. Students are expected to follow safe practices when using Charter School technology.

MPS advises students:

- To never share passwords, personal data, or private photos online.
- To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
- That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
- To consider how it would feel receiving such comments before making comments about others online.

Students shall not use the Internet to perform any illegal act or to help others perform illegal acts. Illegal acts include, but are not limited to, any activities in violation of local, state, and federal law and/or accessing information designed to

further criminal or dangerous activities. Such information includes, but is not limited to, information that if acted upon could cause damage, present a danger, or cause disruption to the Charter School, other students, or the community. Damaging, debilitating or disabling computers, computer networks or systems through the intentional or overuse of electronic distribution or the spreading of computer viruses or other harmful programs shall be prohibited. Any unauthorized online access to other computers by means of hacking into other computers, downloading hacker tools such as port scanners and password crackers designed to evade restrictions shall also be strictly prohibited.

Student use of Charter School computers to access social networking sites is not prohibited, but access is limited to educational purposes only. To the extent possible, the Principal or designee shall block access to such sites on Charter School computers with Internet access. The Principal or designee shall oversee the maintenance of the Charter School's technological resources and may establish guidelines and limits on their use.

All employees shall receive a copy of this policy and the accompanying Acceptable Use Agreement describing expectations for appropriate use of the system and shall also be provided with information about the role of staff in supervising student use of technological resources. All employees shall comply with this policy and the Acceptable Use Agreement, in addition to any separate policies governing employee use of technology.

Student use of school computers, networks, and Internet services is a privilege, not a right. Compliance with the Charter School's policies and rules concerning computer use is mandatory. Students who violate these policies and rules may have their computer privileges limited and may be subject to discipline, including but not limited to suspension or expulsion per school policy.

Acceptable Use Agreement

The Charter School believes that providing access to technology enhances the educational experience for students. However, student use of Charter School computers, networks, and Internet services is a privilege, not a right. To make that experience successful for everyone, students must abide by the following terms and conditions:

1. **Security.** Students shall not impair the security of Charter School technology resources. Students are expected to:
    a. Safeguard all personal passwords. Students should not share passwords with others and should change passwords frequently. Students are expected to notify an administrator immediately if they believe their student account has been compromised.
    b. Access technology only with their account or with a shared account as directed by their teacher and not to allow others to use their account or to use the accounts of others, with or without the account owner's authorization.
2. **Authorized Use.** Students may use Charter School technology resources when directed by a teacher, when technology has been designated for open student use (e.g., computers in the library), and for other educational purposes.
3. **Protection Measures.** While the Charter School is able exercise reasonable control over content created and purchased by the Charter School, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither the Charter School nor its staff, employees, officers, directors or volunteers shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence. The student and parent/guardian agree not to hold the Charter School or any Charter School staff, employees, officers, directors or volunteers responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse, or negligence. They also agree to indemnify and hold harmless the Charter School, Charter School staff, employees, officers, directors and volunteers for any damages or costs incurred. Parents/guardians are required to supervise and monitor their child's use of MPS equipment including but not limited to their child's access to the internet and any online services through such equipment any and all times during which any MPS equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy.
4. **Inappropriate Use.** Charter School technology, hardware, software and bandwidth are shared and limited resources and all users have an obligation to use those resources responsibly. Students are provided access to the Charter School technology primarily for educational purposes. Students shall not use Charter School technology or equipment for personal activities or for activities that violate Charter School policy or local law. These include but are not limited to:
    a. Playing games or online gaming.
    b. Downloading software, music, movies or other content in violation of licensing requirements, copyright or other intellectual property rights.
    c. Installing software on Charter School equipment without the permission of a teacher or other authorized Charter School staff person.
    d. Downloading, viewing or sharing inappropriate content, including pornographic, defamatory or otherwise offensive material.
    e. Conducting any activity that is in violation of Charter School policy, the student code of conduct or local, state or federal law.
    f. Engaging in any activity that is harmful to other student(s), including the use of technology to harass, intimidate, bully or otherwise disrupt the educational process.
    g. Conducting for-profit business.

h. Using hacking tools on the network or intentionally introducing malicious code or viruses into the Charter School's network.
i. Using any software or proxy service to obscure either the student's IP address or the sites that the student visits.
j. Disabling, bypassing, or attempting to disable or bypass any system monitoring, filtering or other security measures.
k. Accessing or attempting to access material or systems on the network that the student is not authorized to access.

5. **No Expectation of Privacy.** Student acknowledges that computer equipment, Internet access networks, email accounts, and any other technology resources are owned by Charter School and provided to students for educational purposes. The Charter School may require staff to monitor and supervise all access to computer equipment, Internet access networks, and email accounts. To facilitate monitoring of activities, computer screens may be positioned so that they are visible to the staff member supervising the students. The Charter School reserves the right to access stored computer records and communications, files, and other data stored on Charter School equipment or sent over Charter School networks. Such communications, files, and data are not private and may be accessed during routine system maintenance; during inspection of Charter School equipment at the end of the school year/term or agree to use period; and review of individual files or monitoring of individual activity when there is a reasonable suspicion that the student is engaging in an inappropriate use.

6. **Disruptive Activity.** Students should not intentionally interfere with the performance of the Charter School's network or intentionally damage any Charter School technology resources.

7. **Unauthorized Networks.** Students may not create unauthorized wireless networks to access the Charter School's network. This includes establishing wireless access points, wireless routers and open networks on personal devices.

8. **Consequences of Inappropriate Use.** Students who violate this Agreement will be subject to discipline which may include loss of access to Charter School technology resources and/or other appropriate disciplinary or legal action in accordance with the MPS student discipline policy and applicable laws.

9. **Technology Systems/Equipment Care.** Students are not permitted to have food or drink near computers/other technology and must keep equipment and assigned areas free of vandalism.

MPS promotes the use of networked computer technology in its instructional program in order to facilitate learning and teaching. Towards this end, students may be provided with a "device" (computer, laptop / iPad / Chromebook, etc.) for educational activities at school and home. MPS will make every effort to ensure that the MPS technology services are used responsibly by students. Students are expected to act in a responsible, ethical and legal manner in accordance with this Agreement, accepted rules of network etiquette, and Federal and State law. Following are some safekeeping instructions for MPS-provided devices. As applicable, students shall:

- Bring their MPS device to school every day, fully charged;
- Never leave the MPS device unattended;
- Never loan the MPS device to other individuals;
- Know where the MPS device is at all times;
- Store the MPS device in the bag/case if provided by MPS; otherwise students are encouraged to purchase protective covers/cases for their devices;
- Store and use the device in a safe location and environment to avoid loss or damage to the device;
- Not remove the Asset Tag or other school property identifiers;
- Charge the MPS device's battery daily;
- Keep food and beverages away from the MPS device;
- Only use a soft cloth or approved screen cleaning solution to clean the screen of the device;
- Not disassemble any part of the MPS device or attempt any repairs;
- Not place decorations (such as stickers, markers, etc.) on the MPS device;
- Understand that the MPS device is subject to inspection at any time without notice and remains the property of MPS;
- Notify MPS by the next school day in the event of loss or damage to the device;
- File a police report in case of theft, vandalism, and other acts covered by MPS' insurance;
- Return the device to MPS when requested by the Technology Department for maintenance and upgrades;
- Return the MPS device and accessories upon demand, upon termination of enrollment and/or at the expiration of the school year in good working condition;
- Be aware that they may be held accountable for damage to a laptop resulting from "user abuse." Examples of "user abuse" include, but are not limited to, the following: leaving cables plugged in when storing the device in the carrying case which can cause broken connectors or ports; using the carrying case/sleeve for carrying textbooks, etc.; eating or drinking while using the device, resulting in damage to the device; storing the device for prolonged periods while in "stand by" or "sleep" mode (overheating can occur).

Disclaimer

Electronic information available to students does not imply endorsement of the content by MPS, nor can MPS guarantee the accuracy of information obtained on the Internet.

MPS makes no warranties of any kind, whether expressed or implied, with respect to the information technology services it provides. MPS will not be responsible for damages resulting from the use of MPS device and MPS information

technology services, including, but not limited to, loss of data resulting from delays, non-deliveries, missed deliveries, service interruptions.

MPS shall not be responsible for any charges or fees resulting from access to the internet or internet resources which are not authorized in writing by MPS.

Signatures

After reading the **"Acceptable Use of Technology"** policy and this Acceptable Use Agreement, please note that your signature on the form at the end of this Handbook indicates that you agree to the terms and conditions provided here. Please note, the signature of both the parent/guardian and student are mandatory before access may be granted to the technologies available at MPS. This document, which incorporates the Technology Policy and Acceptable Use Agreement, reflects the entire agreement and understanding of all parties. MPS encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

Camera Surveillance on School Property

Camera Surveillance on School Property – PC 647(j)

Surveillance cameras will be utilized only in public areas where there is no "reasonable expectation of privacy." Public areas may include school buses; building entrances; hallways; parking lots; front offices where students, employees, and parents come and go; gymnasiums during public activities; cafeterias; and supply rooms. However, it is not possible for surveillance cameras to cover all public areas of School buildings or all School activities. School surveillance cameras will not be installed in "private" areas such as restrooms, locker rooms, changing areas, private offices (unless consent by the office owner is given), or classrooms.

Use of Security Cameras at MPS

The Board of Directors ("Board") of Magnolia Public Schools ("MPS" or the "School") recognizes the value in protecting the health, safety, and welfare of students and staff, and in protecting the community's investment in School owned or leased property and facilities. Upon carefully weighing the privacy rights of students and staff against MPS' duty to provide a safe, secure, and orderly learning and work environment, the Board has resolved to authorize the limited use of security cameras at MPS schools, in school buildings, and upon school grounds pursuant to the following restrictions:

Security Monitoring System

1. "Security Monitoring System" refers to the School's network of security cameras, equipment, and recorded footage.
2. Security cameras may be installed in any public area within a School building and/or upon School grounds where people have no reasonable expectation of privacy including, but not limited to, in classrooms, hallways, cafeterias, libraries, computer labs, parking lots, auditoriums, break rooms, weight rooms, and gymnasiums.
3. Security cameras may not be installed in any area in which individuals possess a reasonable expectation of privacy, such as in restrooms, locker rooms, or private offices.
4. The precise location of security cameras shall be determined by MPS or by the School-site principal with the approval of the Chief Executive Officer ("CEO"). Input from staff members may be sought to determine the most beneficial locations for security cameras. A diagram showing the wiring of the local server for the security monitoring system at the school site shall be shared with the Board prior to the installation of the security monitoring system.
5. Under no circumstances shall MPS' security cameras record, or be equipped to record, audio data. Further, MPS' security cameras are not intended, and shall not be used, for viewing of live footage. Instead, security camera footage shall be recorded to a digital file. Authorized personnel may view security camera footage by accessing the pre-recorded footage saved to a digital file.
6. Security camera footage may be used as evidence in a staff or student disciplinary matter and/or to provide evidence of any unlawful activity in and around School grounds.
7. Absent a reported incident, security camera footage will be erased after thirty (30) days.
8. Under no circumstances will employees make unauthorized copies or duplicates of security camera footage.
9. Any violation of this policy may result in student discipline in accordance with the Student/Parent Handbook, or employee discipline, up to and including termination, in accordance with the Employee Handbook.
10. MPS shall notify educational partners of the use of security cameras on campus in accordance with the law and the requirements outlined in this policy.

Treatment of Recordings

Authorized Personnel

"Security Monitoring System" refers to the School's network of security cameras, equipment, and recorded footage.

Only authorized MPS employees may access or operate the security camera system. The footage will only be reviewed by authorized employees if a safety or security incident or suspected incident or situation arises and a review of the footage is appropriate. Absent a qualifying safety or security related incident or suspected incident, the security camera footage shall not be reviewed, unless express permission to review the footage is given by the CEO or the Board President. In cases of a malfunction to the security monitoring system, the footage may be accessed to determine functionality.

Security camera footage may only be viewed in the presence of two (2) authorized persons, which shall include the Principal of the School-site and a second person authorized by the CEO. Alternately, the two (2) authorized persons may be configured as the Board President and a second person authorized by the Board President. Both authorized persons must be physically present with two (2) different unique access keys to access the footage.

Any other parties wishing to view the security camera footage shall first obtain the written consent of the CEO, and must meet the requirements of this policy, unless otherwise required by the law, or a court of competent jurisdiction.

Data Storage

Security camera footage shall be stored in a secure location and shall only be accessed by authorized personnel. Security camera footage shall be password protected/encrypted under the direction and support of the MPS IT Director. Additionally, such footage will be stored on a local wired server which will not be connected to an outside server.

Footage of incidents captured by security cameras located on school property may constitute a part of a student's educational record, subject to relevant Board policies and administrative regulations, including applicable record retention policies. Upon the report of an incident or possible incident, only those persons with a legitimate educational purpose shall be permitted to view the recordings, and these requests must be made in writing and approved by the CEO prior to the footage being viewed by such parties. In most instances, the persons with a legitimate purpose will be the CEO, School-site principal, authorized administrative staff, and authorized MPS area education agency staff members.

Record Keeping

The Principal shall keep a written log of all persons who review the security camera footage at their School-site, including the date and time stamps of the footage under review, the name of the individuals viewing the footage, the date and time the footage was viewed, and the purpose for which the footage was viewed. If the content of the recording becomes the subject of a student or employee disciplinary proceeding, it may be treated like other evidence in that proceeding.

Security camera footage will be stored for thirty (30) days, unless the Principal, CEO, Board President, or other state or federal agency requests that specific footage be preserved for a longer period, in which case the applicable footage will be saved and protected with the same degree of security that other security camera footage is protected. No unauthorized copies of footage or duplicates may be made.

Parents/Guardians may request to view recordings of their children only in the event the recordings are used in disciplinary proceedings involving their children, and such requests must be made in writing by the Parent/Guardian pursuant to the School's Family Educational Rights and Privacy Act ("FERPA") Policy. Any such request shall be processed pursuant to the School's FERPA Policy and in accordance with any other applicable law. If a Parent/Guardian's request is granted, the faces of other students shown in the recording, who are not children of the requesting parent, will be removed and/or blurred out in order to protect their identities.

In the event footage is used in an employee disciplinary matter, the employee may be given access to the relevant footage at or before the time of discipline. This does not create a right of employees to access or review any other security camera footage.

Under no circumstances will the MPS' security camera footage be duplicated and removed from MPS property except in accordance with this policy, a court order, and/or a valid subpoena.

Notification

MPS shall post security camera signage at all campus and facility entrances disclosing the use of security camera equipment on the premises. Additionally, MPS Home Office shall provide the following annual written notice to students and parents at the affected school-sites:

> Dear Students and Parents:
>
> This letter from Magnolia Public Schools ("MPS") is to inform you of the decision by the MPS Board of Directors to authorize the use of security cameras in public areas of your campus, including in and around School buildings and on School property, including inside School classrooms. The purpose of this program is to promote and maintain a safe, secure, and healthy environment for all students and staff. Private areas of campus, such as restrooms and locker rooms, will not be subject to security camera recording. Additionally, MPS will post signage indicating the areas of campus where security cameras are in use.
>
> This notice hereby notifies students and parents that the video recordings will only be retained if necessary for use in a student disciplinary proceeding or other matters, to the extent permitted by law and as determined necessary by the MPS administration. Further, this notice hereby notifies Students and parents that the content of video recordings may be used in a student's disciplinary proceeding and may be referred to local law enforcement, as appropriate. The content of the video recordings may be a confidential student record and, if so, will be retained with other student records and will be subject to the Family Educational Rights and Privacy Act ("FERPA") requirements.
>
> Parents/Guardians may request to view recordings of their children only in the event the recordings are used in disciplinary proceedings involving their children, and such requests must be made in writing by the Parent/Guardian pursuant to the School's FERPA Policy. Any such request shall be processed pursuant to the School's FERPA Policy and in accordance with any other applicable law. If a Parent/Guardian's request is granted, the

faces of other students shown in the recording, who are not children of the requesting parent, will be removed and/or blurred out in order to protect their identities.

Security cameras will not be used to record audio, and footage will be kept private and destroyed after thirty (30) days, unless the preservation of the footage is otherwise needed as discussed above.

Tampering

Students and employees are prohibited from tampering with the MPS' security cameras, systems, and/or footage. "Tampering" includes any unauthorized use, access, or physical damage to the system caused by the student or employee. Students found in violation of this policy will be disciplined in accordance with MPS policies. Any employee found to have tampered with MPS security monitoring system may be disciplined, up to and including termination, and they may also be liable for any damage to the system.

Electronic Listening or Recording Device

Electronic Listening or Recording Device – EC 51512

The use by any person, including a pupil, of any electronic listening or recording device in any classroom without the prior consent of the teacher and the principal is prohibited as it disrupts and impairs the teaching process and discipline in the schools. Any person, other than the pupil, willfully in violation shall be guilty of a misdemeanor. Any pupil in violation shall be subject to appropriate disciplinary action.

Electronic Signaling Devices

Electronic Signaling Devices – EC 48901.5

The use by any person, including a pupil, of any electronic signaling device in any classroom without the prior consent of the teacher and the principal is prohibited as it disrupts and impairs the teaching process and discipline in the schools. The only allowable use would be acceptable if it is determined by a licensed physician that the pupil must use for the health and safety of a pupil. Any pupil in violation shall be subject to appropriate disciplinary action.

Smartphone use may be prohibited by MPS while a student is at a school site and under supervision and control of staff. There are health and special education limits or usage that may differ from the general student population but must be in writing and kept on file in student records for confidential record keeping and reasons.

EC 48901.7

(a) The governing body of a school district, a county office of education, or a charter school may adopt a policy to limit or prohibit the use by its pupils of smartphones while the pupils are at a school site or while the pupils are under the supervision and control of an employee or employees of that school district, county office of education, or charter school.

(b) Notwithstanding subdivision (a), a pupil shall not be prohibited from possessing or using a smartphone under any of the following circumstances:

(1) In the case of an emergency, or in response to a perceived threat of danger.

(2) When a teacher or administrator of the school district, county office of education, or charter school grants permission to a pupil to possess or use a smartphone, subject to any reasonable limitation imposed by that teacher or administrator.

(3) When a licensed physician and surgeon determines that the possession or use of a smartphone is necessary for the health or well-being of the pupil.

(4) When the possession or use of a smartphone is required in a pupil's individualized education program.

MPS Electronic Devices and Cell Phone Policy

The Magnolia Public Schools ("MPS" or the "Charter School") Board of Directors recognizes the potential for cell phones, smartphones, smartwatches, earbuds, and electronic signaling devices (hereinafter collectively referred to as "private devices") to disrupt the learning environment of the Charter School, and adopts this Policy to permit students to possess, but not use private devices while on school grounds, at school-sponsored activities, or under the supervision of Charter School employees, except as otherwise provided in this Policy. This policy is designed to minimize classroom distractions and enhance student focus. It also addresses growing concerns regarding the impact of cell phone use and social media on youth mental health, including issues such as anxiety and cyberbullying. Students who possess any private devices must always keep them turned off and out of view while on school grounds or at school-sponsored activities and functions. Charter School teachers, administrators, and staff will collect and hold any private devices used by a student in violation of this Policy.

All students are required to adhere to the following guidelines regarding private devices:

Private devices may be used:

- In the case of an emergency, or in response to a perceived threat of danger.
- When a teacher, staff, or administrator of the Charter School grants permission to a student to possess or use a private device, subject to any reasonable limitation imposed by that teacher, staff, or administrator.
- When a licensed physician and surgeon determines that the possession or use of a private device is necessary for the health or well-being of the student.
- When the possession or use of a private device is required in a student's individualized education program ("IEP").

Private devices shall be turned off and shall not be used:

- During instructional classroom time, including assemblies, and any other school activity, which takes place during the regularly scheduled school day on or off campus.
- During break periods, between class periods, or during lunch.
- During events sponsored by the Charter School held before or after regular school hours.
- During expanded learning programs sponsored by the Charter School — including, but not limited to, before- and after-school programs, clubs, tutoring, athletics, Saturday School, and intersession programming.
- On field trips or excursions sponsored by the Charter School.

Possession of private devices is a privilege, which may be forfeited by any student who fails to abide by the terms of this Policy. Charter School teachers, administrators, and staff will collect and hold any private devices used by a student in violation of this Policy. If a private device is heard ringing, beeping, or buzzing from inside a jacket, purse, backpack, or other similar item—whether or not it is in the immediate possession of the student—a Charter School employee may collect the device and retain it in accordance with school policy.

A student's collected personal cell phone, smartphone, or other private device shall not be ***searched*** by Charter School officials without the student's or their parent/guardian's consent or a legitimate emergency, unless the device is lost or abandoned. An emergency is any situation involving danger of death or serious physical injury to any person, that requires access to the information located or reasonably believed to be located on the electronic device. If the Charter School has a good faith belief that the device is lost, stolen, or abandoned, the Charter School may only access electronic device information in order to attempt to identify, verify, or contact the owner of the device.

Progressive Disciplinary Actions for Policy Non-Compliance:

Infraction	Disciplinary Action
1st Infraction	Verbal Warning
2nd Infraction	Device will be collected and returned at the end of the school day.
3rd Infraction	Device will be collected and released only to a parent/guardian. A parent conference is required, and a behavior contract may be implemented including loss of device privileges.
4th Infraction	Device will be collected. Student may face extended loss of device privileges (e.g., prohibited from bringing device to campus or required to check it in daily). Additional school privileges may also be revoked (e.g., participation in activities).

If a student refuses to surrender a device when requested, the matter will be referred to the office and handled by school administration in accordance with the school's discipline policy.

In addition to this Policy, all other applicable Charter School student discipline policies and rules shall apply to any student who fails to comply with the requirements of this Policy.

Students who possess any private device(s) shall assume sole responsibility for the maintenance and care of any such private device(s) in accordance with this Policy. At no time shall the Charter School be responsible for preventing theft, loss or damage to any private devices brought onto campus or at Charter School sponsored activities.

Internet Safety

Internet Safety Policy for Students

MPS prides itself on providing a safe learning environment for its students. An emerging national concern is the inappropriate use of the Internet by students. This problem has the potential to be harmful, and we ask your support in assisting us with this challenge.

Across the nation, schools have seen an increase in negative student behavior as a result of messages written using electronic technology, posted to popular social networking Web sites. Many sites contain instant messaging components that allow students to chat with other students and to post statements that ordinarily would not be said in a face-to-face conversation.

The popularity of these Web sites seems to be growing. FaceBook.com, for example, is said to have millions of members and has become one of the most popular "message exchange" sites among students nationwide.

Unfortunately, some of these Web sites are being used by child predators, "cyber bullies," and con artists. To our knowledge, there are no adults officially responsible for monitoring the content on such Web sites, and some students use the sites to participate in online bullying or to threaten harm to other students. The so-called "cyber bullies," mostly children between the ages of 9 and 14, use the anonymity of the Web to hurt others without witnessing the consequences. Students who are bullied online sometimes do not report these occurrences for fear that they will be barred from using the Internet.

Outside of our schools, there have been instances of adults posing as youths and gaining access to student chat rooms. In some cases, these contacts have led to tragedy. Some unsuspecting students post enough personal information that predators are able to locate students' home or school addresses, thereby becoming easy targets for predators.

MPS has blocked the use of these social networking Web sites from our school computers. We will continue to block objectionable material as we deem appropriate.

Parents should be aware of what their children are writing on the Internet and what others are posting in reply. These Web sites are public domain, and anything posted there can be seen by anyone who has Internet access. Although most of what is written is not immoral, offensive, or illegal, some of it is. If you choose to do so, you may investigate this site by personally logging on to the site. The services are free, and users may register using an e-mail address. Once you have registered, you can search by name and e-mail address to see if your child is registered. You can narrow the search results by entering the name of your city. You will be able to view the kinds of personal information, messages, diaries, and photographs that students post to this Web site.

Helpful Tips and Resources

We encourage you to talk with your son or daughter about the potential danger of the Internet. Ask if they have an account with Facebook, Instagram, Snapchat, or similar Web sites. If your child is using such a site with your permission, you may want to review his or her profile to ensure that no personal and identifiable information has been posted.

We also encourage you to establish rules and guidelines to ensure the safety of your child while on the Internet. Some Web sites offer parental or family guidance for Internet safety; for example, SafeKids.com, located online at http://www.safekids.com, and Web Wise Kids, located online at http://www.webwisekids.org, by telephone at 866-WEB-WISE, or by e-mail at webwisekids2@aol.com.

MPS will continue to provide Internet security within our schools. It is important that parents also monitor Internet use at home.

Thank you for your support and cooperation in keeping our students safe. If you have questions or would like more information, please feel free to contact the school office.

A complete copy of the "**Internet Safety Policy"** is available for review in the front office and on the school website.

StudentSquare

StudentSquare is a communication and organization tool MPS uses to keep students informed and involved in their classes and extracurricular activities. It provides all school, classroom, and group communication in one place; notifications via app, text, and/or email; and the ability to send direct messages to teachers or staff. StudentSquare is a student communication companion to ParentSquare. Each middle school and high school student automatically have an account in StudentSquare based on their school email address. Students receive messages via email, but there are other ways to get StudentSquare messages: students can add their cell phone number to receive text messages, or they can download the StudentSquare app (iOS and Android) and receive notifications.

Students are provided access to StudentSquare primarily for educational purposes and shall not use it for personal activities or for activities that violate Charter School policy or local law. Students will follow the "Acceptable Use of Technology" policy and the Acceptable Use Agreement. The signature of both the parent/guardian and student are mandatory before access may be granted to the technologies available at MPS. Please note that your signature on the form at the end of this Handbook indicates that you agree to the terms and conditions provided here.

Safety & Emergency Preparedness

Asbestos Management Plan

Asbestos Management Plan – 40 CFR 763.93

MPS maintains and annually updates its management plan for asbestos-containing material in school buildings. For a copy of the asbestos management plan, please contact MPS.

Pesticide Products

Pesticide Products – EC 17612 and 48980.3

To obtain a copy of all pesticide products and expected use at the school facility during the year, and to receive notification of individual pesticide applications at the school at least 72 hours before the application, please contact the school office. The notice will identify the active ingredient(s) in each pesticide product, the intended date of application an Internet address on pesticide use and reduction, and the Internet address where the school site integrated pest management plan may be found if the school site has posted the plan.

A pesticide notification request letter is included at the end of this Handbook and copies are also available in the school office.

Civility on School Grounds

Civility on School Grounds – CC 1708.9; EC 32210

Any person who willfully disturbs any public school or any public school meeting is guilty of a misdemeanor, and shall be punished by a fine of not more than five hundred dollars ($500).

It is unlawful for any person, except a parent/guardian acting toward his/her minor child, to intentionally or to attempt to injure, intimidate, interfere by force, threat of force, physical obstruction, or nonviolent physical obstruction with any person attempting to enter or exit any public or private school grounds.

Disaster Preparedness Educational Materials

Disaster Preparedness Educational Materials – EC 32282.5

Natural and human-caused disasters affect everyone which is why it is important to be prepared at home, at school, at work, and in the community. Parents and guardians are encouraged to review the safety educational materials provided on the California Department of Education Web page at: http://www.cde.ca.gov/ls/ss/cp/pupilsafetyeducmat.asp.

The materials are available in multiple languages and can be used to help families prepare for different types of emergencies and crises.

Gun-Free School Zone Act

Gun-Free School Zone Act – PC 626.9, 30310

California prohibits any person from possessing a firearm on, or within 1,000 feet from, the grounds of a public or private school, unless it is with the written permission of the principal. This does not apply to law enforcement officers, any active or honorably retired peace officers, members of the military forces of California or the United States, or armored vehicle guards engaged in the performance of, or acting in the scope of, their duties. A person may also be in possession of a firearm on school grounds if the firearm is unloaded and in a locked container or within the locked trunk of a motor vehicle. A violation of this law is punishable by imprisonment in a county jail for up to six months, a fine of up to $1,000, or both imprisonment and fine.

Firearms Safety

Firearms Safety – EC 49392

The purpose of this memorandum is to inform and to remind parents and legal guardians of all students at MPS of their responsibilities for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from his or her home. **These incidents can be easily prevented by storing firearms in a safe and secure manner, including keeping them locked up when not in use and storing them separately from ammunition.**

To help everyone understand their legal responsibilities, this memorandum spells out California law regarding the storage of firearms. Please take some time to review this memorandum and evaluate your own personal practices to assure that you and your family are in compliance with California law.

- With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm to others. (See California Penal Code sections 25100 through 25125 and 25200 through 25220.)
    - **Note:** The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.
- With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor **never** actually accesses the firearm. (See California Penal Code section 25100(c).)
- In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years. (See California Civil Code Section 29805.)
- Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward. (See California Civil Code Section 1714.3.)

Note: Your county or city may have additional restrictions regarding the safe storage of firearms.

Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

MPS takes all threats and perceived threats to school safety seriously and may cooperate with local law enforcement and other appropriate agencies in conducting threat assessments and responding to potential safety concerns.

Off-Campus Lunch Policy

Off-campus Lunch – EC 44808.5

MPS permits the high school students enrolled at MPS to leave the school grounds during the lunch period.

Neither MPS nor any officer or employee thereof shall be liable for the conduct nor the safety of any pupil during such time as the pupil has left the school grounds during the lunch period.

If a student reaches a total number of ten (10) unexcused absences or unexcused tardies over thirty (30) minutes within a school year or if a student has three (3) unexcused absences or unexcused tardies after leaving the school grounds for lunch and before reporting back to school, this privilege will be taken away from the student for the remainder of the school year.

Each individual MPS school may include site-specific amendments into the off-campus policy addressing local issues. This includes removing the off-campus lunch permission or limiting it to specific grade levels as well as implementing additional eligibility criteria as long as the principle of equity is observed.

School Safety Plan

School Safety Plan – EC 32280 et seq.

Each MPS school site has a Comprehensive School Safety Plan, which includes a disaster preparedness plan and emergency procedures.

A copy of the complete Safety Plan can be located at the school office and on the school website.

Emergency Preparedness

MPS works diligently to make sure that students and staff are prepared for emergencies. The school has an emergency plan that provides guidance for the school staff in an emergency. The school conducts regular emergency drills that accommodate persons with disabilities and meet or exceed the state mandated requirements, such as:

- **Fire Drill** – Every elementary and middle school practices this procedure once a month; high schools practice once each semester.
- **Earthquake Exercise** – Once a year, all schools conduct a full-scale earthquake exercise as part of the Great California Shake-Out. The drills are scheduled in the fall and all the elements of the school's disaster plan are practiced.
- **Drop, Cover, and Hold On (Earthquake) Drill** – Every month, schools use this drill to remind students how to protect themselves during an earthquake.
- **Lockdown Drill** – At least once per semester, schools practice how they will respond to a threat of violence on or near the campus.
- **Shelter-in-Place Drill** – At least once per semester, schools practice how they will respond to an environmental hazard on or near the campus.
- **Take Cover Drill** – At least once per semester, students practice how they would respond to gunfire or an explosion in the neighborhood.

Parents are asked to make sure that their students actively participate and take emergency drills seriously. These drills help make public schools the safest place for students during an emergency. Each school also stocks emergency supplies to sustain students and staff. These supplies include water, food, first aid supplies, search and rescue equipment, and sanitation items. These supplies are checked regularly by school staff.

In the event of a disaster, the school may need to care for your child for several days if you are unable to reach the school. It is important to have adequate emergency medical supplies on hand. School sites request that parents bring a 72-hour supply of any prescription medications for their child to the school health office. Medications should be in a container with the pharmacy label listing the child's name, the name and dosage of the medication, and instructions for administering the medication.

What Can Parents Do During an Emergency?

Parents should be familiar with the school's emergency procedures and update contact information whenever it changes. Parents should keep their cell phone with them to receive messages on the emergency. Knowing where to go to pick-up your child will save time and reduce anxiety. Parents should remember that schools have emergency procedures in place to protect all students and that schools will follow these procedures during an emergency.

Parents should also remember that children look to them for guidance and support during an emergency; parents who are calm and are prepared for emergencies can inspire children to do the same. This will go a long way to promote recovery and a return to normalcy. If you have questions about the school's emergency procedures, you are encouraged to contact the school office.

Emergency Response

In the event of an emergency, parents should remember that public schools are among the safest buildings in the community. By law, California public schools are built to a higher standard than other public buildings, as required by the Field Act; therefore, schools will generally have less damage from an earthquake than residential or commercial buildings. Schools also have extensive fire/life safety systems that include fire alarms and sprinkler systems that are designed to protect students and staff.

In general, schools will respond to emergencies by moving students to the safest possible location. During fires or earthquakes, students will be moved out of the classrooms to a safe assembly area away from buildings, usually the school field or play yard. During a lockdown or shelter-in-place, students will be moved indoors to use the buildings as protection.

During an emergency, parents who want to pick-up their children may be asked to go to the Request Gate located on the school's perimeter and show identification. This is a specific location that schools will use to release students.

Please remember that students will only be released to a person whose name is listed on the student's Emergency Information Form. Parents must make sure that the student's Emergency Information Form is current and correct. Please notify your child's school any time the emergency contact information changes.

During a threat of violence, students will be sheltered in a locked classroom away from anything that can hurt them. During an emergency when the campus must be protected, parents will not be able to pick-up their children until the school campus is declared to be safe by law enforcement. Parents need to understand that the students are being sheltered in a secure location for their safety and will be released only when it is safe.

Schoolbus and Transportation Safety Policy

Schoolbus Safety – EC 39831.5

- All students who are transported in a schoolbus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety. A copy of the complete Policy is available upon request in the main office. Transportation is only provided to eligible students in authorized programs.
- It is recommended that parents and children become familiar with the route to school by walking it together. Obey marked crosswalks, stop signs, traffic signals and other traffic controls.
- Students who have a home pickup and delivery per their Individualized Education Program (IEP) must have a designated responsible adult present to receive them from the bus when returned from school.
- Prior to departure on a school activity trip, all pupils riding on a school bus or school activity bus shall receive safety instruction that includes, but is not limited to, location of emergency exits, and location and use of emergency equipment. Instruction also may include responsibilities of passengers seated next to an emergency exit.
- Students transported in a school bus or in a school pupil activity bus shall be under the authority of, and responsible directly to, the driver of the bus, and the driver shall be held responsible for the orderly conduct of the students while they are on the bus or being escorted across a street, highway or road. Students who ride school buses are expected to adhere to the same rules of conduct and behavior on the school bus as in school. Any student who engages in misconduct, disrupts school bus travel, disrespects the school bus driver or jeopardizes the safety of school bus rides is subject to disciplinary action, including suspension or expulsion.

A complete copy of the **"MPS Transportation Safety Policy"** is available for review in the main office.

Walking or Riding a Bicycle to School – VC 21212

No person under 18 years of age may operate a bicycle, non-motorized scooter, skateboard or wear in-line or roller skates, nor ride as a passenger upon a bicycle, non-motorized scooter, or skateboard upon a street, bikeway, or any other public bicycle path or trail unless that person is wearing a properly fitted and fastened bicycle helmet that meets specified standards.

Volunteer, Visitation, Shadowing, and Removal Policy

While MPS encourages parents/guardians and interested members of the community to visit MPS and view the educational program, MPS also endeavors to create a safe environment for students and staff. Additionally, parents volunteering in the classroom can be extremely helpful to our teachers and valuable to our students. We thank all parents for their willingness to volunteer in this manner.

Nevertheless, to ensure the safety of students and staff as well as to minimize interruption of the instructional program, MPS has established the following procedures to facilitate volunteering and visitations during regular school days:

Definitions

- A "*visitor*" is defined as any person seeking to enter the school building who is not an employee of the Charter School or a student currently enrolled in that building. All visitors who are not parents or guardians of a student must have a specific and educationally relevant purpose for their visit.
- A "*volunteer*" is defined as any person who voluntarily offers and provides a service to the Charter School with Charter School approval without receiving compensation.

Volunteering Categories and Application Process

A. Certified Volunteers ("C-Volunteers")

a. Who are C-Volunteers: These are volunteers that would like to volunteer with MPS on an ongoing basis and may have unsupervised exposure or contact with students. Examples may include, but are not limited to, classroom volunteers, tutors, field-trip volunteers, etc.

b. Application Process: C-Volunteers must provide MPS with the following documents:
   - Volunteer Application Form (signed)
   - Volunteer Commitment Form (signed)
   - Fingerprinting and Background Clearance* (if volunteering outside of the direct supervision of a credentialed employee)
   - Tuberculosis risk assessment or examination*

- Valid photo I.D. (driver's license, passport, military ID, US or other government identification)

B. Single Event Volunteers ("SE-Volunteers")

a. Who are SE-Volunteers: These are volunteers that would like to volunteer at MPS for a one (1) days special event or activity and have no unsupervised exposure or contact with students. Examples may include, but are not limited to, guest story reader, guest speaker, senior exhibition panel member, etc.

b. Application Process: SE-Volunteers are not required to submit a volunteer application but must comply with the Volunteering Guidelines below and provide MPS with a valid photo I.D.

* Volunteers will be reimbursed for eligible live scan fingerprinting and TB screening fees.

Volunteering Guidelines

Parents or guardians who are interested in volunteering must adhere to the following guidelines:

1. Volunteers must arrange volunteering schedule with the classroom teacher and/or MPS Principal or designee, at least forty-eight (48) hours in advance. Volunteering in class may be limited to certain hours or specific assignments as determined by the classroom teacher(s) or MPS administration.
2. For all prospective volunteers (both C-Volunteers and SE-Volunteers), the MPS Principal or designee will review California Megan's Law online database at http://www.meganslaw.ca.gov to ensure that prospective volunteers are not registered sex offenders.
   Prior to volunteering in the classroom or on campus, the volunteer should communicate with the teacher and/or MPS staff to discuss the expectations for volunteering needs. Classroom volunteers are there to benefit the entire class and are not in class solely for the benefit of their own child. Classroom volunteers must follow the instructions provided by the classroom teacher or aide. Classroom rules also apply to volunteers to ensure minimal distraction to the teacher. If a volunteer is uncomfortable following the direction of the teacher or aid the volunteer may leave their volunteer position for that day.
3. Information gained by volunteers regarding students (e.g., academic performance or behavior) is to be maintained in strict confidentiality and may not be shared with any individual except with the MPS Principal. Volunteers must sign in agreement that they have read and understand and agree to follow the Family Educational Rights and Privacy Act ("FERPA") Policy.
4. Volunteers shall follow and be governed by all other guidelines indicated elsewhere in this Policy. This includes, but is not limited to, the process of registering and signing out of the campus in the main office as indicated below.
5. Volunteerism by parents is encouraged but not mandatory. All parents are encouraged – but not required – to contribute a minimum of 10 hours per year to the school. No child will be excluded from MPS or school activities due to the failure of his or her parent or legal guardian to fulfill the encouraged volunteer hours.
6. This Policy does not authorize MPS to permit a parent/guardian to volunteer or visit the campus if doing so conflicts with a valid restraining order, protective order, or order for custody or visitation issued by a court of competent jurisdiction.

Visitation Guidelines

1. Visits during school hours should first be arranged with the teacher and MPS Principal or designee, at least three (3) school days in advance. If a conference is desired, an appointment should be set with the teacher during non-instructional time, at least three (3) school days in advance. Parents/guardians seeking to visit a classroom during school hours must first obtain the written approval of the classroom teacher and the MPS Principal or designee.
2. All visitors (including volunteers) shall register in the Visitor's Log Book and complete a Visitor's Permit in the main office immediately upon entering any school building or grounds when during regular school hours, including immigration enforcement officers. When registering, the visitor is required to provide his/her name, address, age (if under 21), his/her purpose for entering school grounds, and proof of identity. If the visitor is a government officer/official (including but not limited to local law enforcement officers, immigration enforcement officers, social workers, district attorneys, or U.S. attorneys), the officer/official will also be asked to produce any documentation that authorizes school access. MPS shall make reasonable efforts to notify parents or guardians prior to permitting a student to be interviewed or searched, consistent with the law and/or any court order, warrant or instructions from the officer/official. A copy of the documentation provided by the officer and notes from the encounter may be maintained by MPS. The MPS Governing Board and Bureau of Children's Justice in the California Department of Justice, at BCJ@doj.ca.gov, will be timely informed regarding any attempt by a law-enforcement officer to access a school site or a student for immigration-enforcement purposes, as recommended by the Attorney General.
3. For purposes of school safety and security, the MPS Principal or designee have designated that each visitor wear a visitor's pass/sticker as a

visible means of identification for visitors while on school premises.

4. All visitors are asked to comply with current mandated and recommended health and safety protocols. Visitors (including volunteers) who demonstrate signs of a contagious disease (e.g. fever, coughing) may be denied registration. When recommended or requested by the Department of Public Health, visitors will be required to wear personal protective equipment, such as masks, and practice social distancing. MPS reserves the right to implement additional measures for the protection of its school community, such as requiring forehead temperature checks before entry to the same extent being utilized for students and employees.
5. Except for unusual circumstances, approved in advance by the MPS Principal, MPS visits should not exceed approximately sixty (60) minutes in length and may not occur more than twice per semester.
6. While on campus, visitors are to enter and leave classrooms as quietly as possible, not converse with any student, teacher, or other instructional assistant unless permitted, and not interfere with any school activity. No electronic listening or recording device may be used in a classroom without the teacher's and MPS Principal's advance written permission.
7. Before leaving campus, the visitor shall return the Visitor's Permit and sign out of the Visitors Log Book in the main office.
8. The MPS Principal, or designee, may refuse to register a visitor or volunteer if it is believed that the presence of the visitor or volunteer would cause a threat of disruption or physical injury to teachers, other employees, or students.
9. The Principal may direct a visitor without lawful business on campus to leave campus when the visitor's presence or acts interfere with the peaceful conduct of the activities of the school or disrupt the school or its pupils or school activities. Any visitor who is directed to leave by the Principal or designee will not be permitted to return to the Charter School campus for at least seven (7) days.
10. The MPS Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reason to believe that the person has willfully disrupted or is likely to disrupt MPS' orderly operation. Consent will be reinstated whenever the MPS Principal has reason to believe that the person's presence will not constitute a disruption or substantial and material threat to MPS' orderly operation. Consent to be on campus can be withdrawn for up to fourteen (14) days.
11. The MPS Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or withdrawn, promptly leave school grounds. When a visitor is directed to leave, the MPS Principal or designee shall inform the visitor that if the visitor reenters the school without following the posted requirements, the visitor will be guilty of a misdemeanor.
12. Any visitor who is denied registration or has his/her registration revoked may request a conference with the MPS Principal. The request shall be in writing, shall state why the denial or revocation was improper, shall give the address to which notice of conference is to be sent, and shall be delivered to the MPS Principal with fourteen (14) days of the denial or revocation of consent. The MPS Principal shall promptly mail a written notice of the date, time, and place of the conference to the person who requested the conference. A conference with the MPS Principal shall be held within seven (7) days after the MPS Principal receives the request. If no resolution can be agreed upon, the MPS Principal shall forward notice of the complaint to the MPS Board of Directors. The MPS Board of Directors shall address the Complaint at the next regular board meeting and make a final determination.
13. At each entrance to the campus, signs shall be posted specifying the hours during which registration is required, stating where the office of the MPS Principal or designee is located, and what route to take to that office, and setting forth the penalties for violation of this policy.
14. The MPS Principal or designee may seek the assistance of the police in managing with or reporting any visitor in violation of this Policy.

"Certified Volunteer (C-Volunteer) Application Form" and **"Volunteer Commitment and Procedures"** are included at the end of this handbook and copies are also available in the school office.

Shadowing Guidelines

Shadowing gives parents and students an opportunity to observe instruction during an ordinary school day and can help open dialog between parents and students about school. Parents are welcome to shadow their children, that is, to follow them through their school day. In order to maximize the benefits of shadowing, we request that parents adhere to the following guidelines:

- Follow the above procedure for providing three (3) school days advance notice of your visit, signing in in the main office when arriving at MPS, and obtaining a visitor's pass/sticker. Notice of your visit and intent to shadow should be provided by completing the Shadow Request Form, below, and submitting it to MPS at least three (3) school days in advance of your visit.
- Shadowing is not a time for parent/teacher conferences. If you desire a conference, please make prior arrangements with your child's teachers.
- To preserve the academic environment, please do not take part in the lesson unless invited to do so by the teacher. Do not visit with your child or other

students during class time. At no time may visiting parents address other students directly. Visitors are not allowed to record audio or video or take photos. Should you have any concerns, report them to the MPS administrators.

- Meet with MPS administration to debrief your visit.

"Shadow Request Form" is included at the end of this handbook and copies are also available in the school office.

Penalties

1. Pursuant to the California Penal Code, if a visitor does not leave after being asked or if the visitor returns without following the posted requirements after being directed to leave, he/she will be guilty of a crime as specified which is punishable by a fine of up to $500.00 (five hundred dollars) or imprisonment in the County jail for a period of up to six (6) months or both.
2. Under California Education Code section 44811, disruption by a parent, guardian or other person whose conduct materially disrupts classwork or extracurricular activities or involves substantial disorder is guilty of a misdemeanor and is punishable, upon the first conviction by a fine of no less than $500.00 (five hundred dollars) and no more than $1,000.00 (one thousand dollars) or by imprisonment in a County jail for no more than one (1) year, or both the fine and imprisonment.
3. Disruptive conduct may lead to MPS' pursuit of a restraining order against a visitor, which would prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of up to three (3) years.

Student Conduct & Discipline

Dress Code/Uniforms

MPS has a uniform policy to help create a safe, orderly environment, instill discipline, and eliminate the competition and distractions caused by varied dress styles. Students are expected to arrive in a clean and neat uniform every day. This uniform policy will be enforced from the very first day of school. Students shall cooperate, display modesty and neatness, and take pride in the MPS uniform. We rely on both student and parent/guardian support in helping to maintain this uniform policy and follow it daily.

In addition to wearing the school uniform, MPS requires that students follow these additional guidelines in terms of uniform appearance and personal appearance. **If any aspect of the uniform, including clothes, shoes, jewelry, cosmetics, or any type of body adornment, is not explicitly listed as acceptable in this handbook, then that item is not permitted to be worn when the student is at school or representing the school.** If you have any questions, please check with administration.

If a student is unable to wear the school uniform to school due to extenuating circumstances, please communicate with the school administration.

A Free MPS Uniform Set

MPS will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including a free uniform set.

MPS will make one uniform set of required MPS logo uniform pieces available to each student free of charge for the student's use during the school year. If parents/guardians or students want to purchase additional MPS logo pieces, they may do so through the school's uniform vendors.

Religious Head Coverings

Religious head coverings shall be permitted.

Free Dress & Theme Dress Days Code

Free Dress days are earned at the discretion of the administration. These days are granted at different times of the year for positive behavior and special occasions. Violation of this policy may result in loss of free dress privileges for the remainder of the school year.

- On free dress days, clothing must be in good taste and appropriate for school. Clothing should not be inappropriately tight, revealing, or transparent.
- The school's dress code is strictly enforced during free dress days as well. All students must follow the same guidelines with the exception of not wearing their uniform.
- T-shirts are acceptable; however, printing on clothing must be suitable for school - no suggestive, vulgar, or profane language or images are permitted, as well as clothing that promotes alcohol, drugs, tobacco, or other controlled substances.
- Mini-skirts, skirts, and shorts should be no shorter than your longest finger when standing with your hands by your sides. Jeans may be worn during free dress days but cannot be inappropriately tight or baggy; no tattered jeans are allowed.
- Visible undergarments (including boxer shorts, bras, etc.) are not allowed.
- Midriffs, backless or side less shirts or dresses, halter tops, or tank tops with straps less than 1-inch strap in width are NOT allowed.
- Hats for sun protection must only be worn outside of the school building(s) and classrooms. Hats must be a solid color that aligns with the school uniform and is free of any logos, with the exception of the school logo. Acceptable colors include solid white, gray, black, or navy-blue.
- Gloves, bandanas, or sunglasses are not permitted to be worn in school, except for medical reasons. Head coverings worn for purposes of religious observance are permitted.
- Neatness and good grooming are required.

MPS STUDENT UNIFORM POLICY

<table>
<tr>
<td>BOTTOM</td>
<td>

Pants, shorts, skirts, skorts, or capris are acceptable.
Skirts, pants, shorts, skorts, or capris must be either khaki color, black or navy blue.

<u>Belts</u> (required for all variations of dress uniform)

Smooth, straight edge, all black, all blue or all brown belts no wider than 1½ inches with a plain, unadorned buckle (no mesh, rope, or all metal).
The buckle may only have one catch.
Belt must be of correct waist size, so that there is minimal excess length (less than five inches).
Any excess length of belt must be tucked through a belt loop and may not hang down.

</td>
<td rowspan="2">
<u>Pants/Skirts/Skorts/Shorts</u>

May not be baggy or inappropriately tight. May not be rolled at waist. Top of garment must be at or above hip bone.
Skorts/shorts should be no shorter than your longest finger when standing with your hands by your sides.
Skirts that are above the top of the kneecap should be worn with leggings/tights and must be no shorter than the longest fingertip.
Pants may not be made from legging or jegging material.
Pants must touch the top of the shoes when the student is standing, but not be long enough to bunch up around the ankle. Socks may not be worn over pants.
Rubber bands are not allowed on the bottom of pants or ankles.
No jean/denim style pants
No Cargo pants/shorts.
Must have a built-in pocket not a sewn-on pocket.

<u>Undergarments</u>
All undergarments, including bras, boxer shorts, etc., should not be visible
<u>Other Guidelines</u>

Woven shirt or polo shirt must be tucked in neatly at the waist at all times. These shirts may not be inappropriately tight or baggy.
Undershirts must be short-sleeved if worn.
The student may choose to button, or not button, the top button of the woven shirt. All other buttons of the woven shirt must be buttoned.
Under shirt may not hang out of sleeves.

</td>
</tr>
<tr>
<td>TOP</td>
<td>

White, gray, black or navy-blue polo or woven shirts must have the school logo. They may be either short or long sleeved.
Hoods may not be worn at school.
Top of garment must be at or above hipbone when student is standing up.

</td>
</tr>
<tr>
<td>FOOTWEAR</td>
<td>

For all footwear including “athletic” footwear, the majority of the shoe must be a solid color that aligns with the school's neutral dress code. Acceptable colors include black, brown, white, or gray. Small to no logos are preferred. (Shoes must be closed toe.)
Plain, unadorned socks must always be worn, tights are also acceptable. Color of the socks or tights: Solid black, dark brown, navy blue or white.
No sandals, boots, clogs, mules, slippers, flip flops, high heels, platform shoes or shoes with wheels.

</td>
<td>
<u>Shoes</u>

Acceptable athletic shoes must be low-profile with minimal design. They must be modest and not attract attention. Shoelaces must match shoes and be in solid color.

<u>Jewelry and Accessories/Cosmetics</u>

Should be modest, appropriate for school, and not attract undue attention.

</td>
</tr>
</table>

<table>
<tr>
<td>PE UNIFORM</td>
<td>

<u>Top:</u> Students will wear a solid gray t-shirt, preferably with the MPS logo. Solid white, gray, black, or navy blue sweatshirts with or without the MPS logo may also be worn during PE.
<u>Bottom:</u> Properly fitting navy shorts. Waist size of shorts must be appropriate to student’s waist size (i.e. not inappropriately tight or baggy). Shorts should be no shorter than your longest finger when standing with your hands by your sides <u>Footwear:</u> Any athletic shoes suitable for basketball, tennis, and field sports. The majority of the shoe must be a solid color that aligns with the school's neutral dress code. Acceptable colors include black, brown, white, or gray. Small to no logos are preferred. (Shoes must be closed toe.)

</td>
<td rowspan="2">

Necklaces: If worn must be underneath uniform. If visible through an open collar, it must be tasteful and formal (no leather or string). Pendants must not be large or attract attention. Must be tucked in collar of shirt.
No “glitter”, decorations, or drawing of any kind should be visible on the skin, hair, body, or uniform,
Facial, tongue, and body piercing are not allowed.
Bracelets: Must be tasteful and not attract undo attention.
Visible tattoos are not acceptable. Permanent visible tattoos must be covered by a flesh-tone bandage while at school or representing the school.
Cosmetics must be appropriate for school and not attract undue attention.

No brightly colored or glitter eye shadow, or blush.
Mascara and eyeliner should be minimal.
Lipstick should be a natural color.
Earrings must be studs or one (1) inch hoops and worn on earlobe.

</td>
</tr>
<tr>
<td>OUTERWEAR</td>
<td>

Hats, hoods, caps, and other headgear may not be worn in school buildings, except for purposes of religious observance. No gloves or finger lacing of any sort are allowed. Hats must be a solid color that aligns with the school uniform and is free of any logos, with the exception of the school logo. Acceptable colors include solid white, gray, black, or navy-blue.

<u>For colder weather</u>

Crew-neck and zip v-neck sweatshirt and jackets are permitted, with or without the MPS logo.
Sweatshirts and jackets must be solid white, gray, black, or navy-blue.

</td>
</tr>
</table>

<u>Notes</u>

- If a student is unable to wear the school uniform to school due to extenuating circumstances, you need to check with your school’s administration.
- Each individual MPS school may include site-specific amendments into the uniform policy addressing local issues.

Duties of Pupils

Duties of Pupils – 5 CCR 300

Pupils shall conform to school regulations, obey all directions, be diligent in study and respectful to teachers and others in authority, and refrain from the use of profane and vulgar language.

Electronic Nicotine Delivery Systems (e-cigarettes)

Electronic Nicotine Delivery Systems (e-cigarettes) – PC 308

MPS prohibits the use of electronic nicotine delivery systems (ENDS) such as e-cigarettes, hookah pens, cigarillos, and other vapor-emitting devices, with or without nicotine content, that mimic the use of tobacco products on all MPS property and in MPS vehicles at all times. ENDS are often made to look like cigarettes, cigars and pipes, but can also be made to look like everyday items such as pens, asthma inhalers and beverage containers. These devices are not limited to vaporizing nicotine; they can be used to vaporize other drugs such as marijuana, cocaine, and heroin.

Students using, in possession of, or offering, arranging or negotiating to sell ENDS can be subject to disciplinary action, particularly because ENDS are considered drug paraphernalia, as defined by 11014.5 of the Health and Safety Code. Section 308 of the Penal Code also states that every person under 18 years of age who purchases, receives, or possesses any tobacco, cigarette, or cigarette papers, or any other preparation of tobacco, or any other instrument or paraphernalia that is designed for the smoking of tobacco, tobacco products, or any controlled substance shall, upon conviction, be punished by a fine of seventy-five dollars ($75) or 30 hours of community service work.

Tobacco-free Campus

Tobacco-free Campus BPC 22950.5; HSC 104420, 104495, 104559, PC 308

Ample research has demonstrated the health hazards associated with the use of tobacco products, including smoking and the breathing of secondhand smoke. Charter School provides instructional programs designed to discourage students from using tobacco products. The Charter School's Governing Board recognizes that smoking and other uses of tobacco and nicotine products constitute a serious public health hazard and are inconsistent with the goals of the Charter School to provide a healthy environment for students and staff.

In the best interest of students, employees, and the general public, the Board therefore prohibits the use of tobacco products at all times on Charter School property and in Charter School vehicles. This prohibition applies to all employees, students, visitors, and other persons at school or at a school-sponsored activity or athletic event. It applies to any meeting on any property owned, leased, or rented by or from Charter School.

Smoking or use of any tobacco-related product or disposal of any tobacco-related waste is prohibited within 25 feet of any playground, except on a public sidewalk located within 25 feet of the playground. Smoking or use of any tobacco-related product is also prohibited within 250 feet of the youth sports event in the same park or facility where a youth sports event is taking place. In addition, any form of intimidation, threat, or retaliation against a person for attempting to enforce this policy is prohibited.

The Principal or designee shall inform students, parents/guardians, employees, and the public about this policy. All individuals on Charter School premises share in the responsibility of adhering to this policy. Additionally, Charter School will post signs stating "Tobacco use is prohibited" prominently at all entrances to school property.

Student Freedom of Speech/Expression Policy

MPS respects students' rights to express ideas and opinions, take stands, and support causes, whether controversial or not, through their speech, their writing, their clothing, and the printed materials they choose to post or distribute including the right of expression in official publications, and/or the wearing of buttons, badges and other insignia.

Student freedom of expression shall be limited only as allowed by state and federal law in order to maintain an orderly school environment and to protect the rights, health, and safety of all members of the school community. Unprotected Expression includes the following: obscenity; defamation; discriminatory material; harassment (including sexual harassment), intimidation and/or bullying; fighting words; vulgarity and/or profanity; or violating privacy as defined below.

Definitions

1. "*Obscenity*": when the (1) average person applying current community standards finds the work as a whole appeals to the prurient interest, (2) the work is patently offensive, and (3) the work lacks serious literary, artistic, political, or scientific value. Examples include pornography or sexually explicit material.
2. "*Defamation*": Libel (written defamation) and Slander (oral defamation), which includes but is not limited to inaccurately attributing a statement to another, either on purpose for public officials (which includes Charter School staff) or by mistake for private officials, that mischaracterizes the statement.
3. "*Discriminatory Material*": material that demeans a person or group because of the person/group's disability, pregnancy, gender, gender identity, gender expression, nationality, ancestry, race or ethnicity, immigration status, religion, religious affiliation, sexual orientation, childbirth or related

medical conditions, marital status, age, or association with a person or group with one or more of these actual or perceived characteristics or any other basis protected by federal, state, local law, ordinance or regulation that has the purpose of humiliating, offending, or provoking a person/group.

4. *"Harassment (including sexual harassment), Intimidation and/or Bullying"*: severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act. Bullying includes one or more acts committed by a student or group of students that may constitute sexual harassment, hate violence, or creates an intimidating and/or hostile educational environment, directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following: (1) placing a reasonable student or students in fear of harm to that student's or those students' person or property, (2) causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health, (3) causing a reasonable student to experience a substantial interference with his or her academic performance, (4) causing a reasonable student to experience a substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
5. "*Fighting Words*": words likely to cause (1) the average person to fight or (2) the creation of a clear and present danger of violence, unlawful acts in violation of lawful school regulations, or the substantial disruption of school.
6. "*Vulgarity and/or Profanity*": the continual use of curse words by a student, even after warning.
7. "*Violating Privacy":* publicizing or distributing confidential or private material without permission.

On-Campus Expression

Student free speech rights include, but are not limited to, the use of bulletin boards, the distribution of printed materials or petitions, the wearing of buttons, badges, and other insignia, and the right of expression in official publications, whether or not the publications or other means of expression are supported financially by the school or by use of school facilities. Student expression on the Charter School website and online media shall generally be afforded the same protections as print media within the Policy.

Unprotected Expression includes the following: obscenity; defamation; discriminatory material; harassment (including sexual harassment), intimidation and/or bullying; fighting words; vulgarity and/or profanity; or violating privacy as defined above. Also prohibited shall be material that incites a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations or the substantial disruption of the orderly operation of the Charter School.

Distribution of Circulars, Newspapers, and Other Printed Matter

Students shall be allowed to distribute circulars, leaflets, newspapers, and pictorial or other printed matter, and to circulate petitions, subject to the following specific limitations:

1. Leaflets, pictorial and other printed matter to be distributed shall be submitted to the MPS school site Principal or designee at least one school day prior to distribution. The Charter School site principal or designee shall review material submitted in a reasonable amount of time and shall allow the approved material to be distributed according to the time and manner established by this Policy. The Charter School Executive Director or designee shall notify student(s) if distribution will be granted or denied (and if denied, why distribution is not in compliance with this Policy).
2. Distribution, free or for a fee, may take place at any time before school, after school, or during lunch providing there is no substantial disruption in the school programs (as determined by the MPS school site Principal). Distribution may not occur during instructional time and should not occur in locations that disrupt the normal flow of traffic within the school or at school entrances.
3. The manner of distribution shall be such that coercion is not used to induce students to accept the printed matter or to sign petitions.
4. The solicitation of signatures must not take place in instructional classes or school offices, nor be substantially disruptive to the school program (as determined by the MPS school site Principal).

Official School Publications

Pupil editors of official school publications shall be responsible for assigning and editing the news, editorial, and feature content of their publications subject to the limitations of this section. However, it shall be the responsibility of the journalism staff adviser or advisers of pupil publications to supervise the production of the pupil staff, to maintain professional standards of English and journalism, and to maintain the provisions of this Policy. The journalism staff adviser(s) shall help the student editors judge the literary value, newsworthiness and propriety of materials submitted for publication. "Official school publications" refers to material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

There shall be no prior restraint of material prepared for official school publications except insofar as it violates this policy. MPS officials shall have the burden of showing justification without undue delay prior to a limitation of pupil expression under this policy. If the journalism staff adviser(s) consider material submitted for publication to violate this Policy, he or she will notify the student without undue delay and give specific reasons why the submitted material may not be published. The student should be given

the opportunity to modify the material or appeal the decision of the journalism staff adviser to the Principal.

Buttons, Badges, and Other Insignia of Symbolic Expression

Students shall be permitted to wear buttons, badges, armbands, and other insignia as a form of expression, subject to the prohibitions enumerated in this Policy.

Use of Bulletin Boards

Students will be provided with bulletin boards, upon request and subject to availability, for use in posting student materials on campus locations convenient to student use. Where feasible, the location and quantity of such bulletin boards shall be by mutual agreement of student government representatives and MPS administration. Posted material must be in compliance with other sections of this Policy, particularly regarding the distribution of materials and prohibited speech. Students may not post or distribute materials regarding the meetings of non-curricular student-initiated groups.

Organized Demonstrations

Students have the right to lawful organized on-campus demonstrations, subject to the provisions of this Policy and applicable law. Demonstrations that incite pupils to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or demonstrations that substantially disrupt the orderly operation of the school are prohibited.

No individual student may demonstrate in the name of the school or as an official school group at any time unless authorized by the school to participate in the activity.

No student may participate in an organized demonstration that occurs during the hours of mandatory school attendance unless sanctioned by the Charter School and supervised by a designated Charter School employee. Missing school to attend an organized demonstration is not an excused absence. The Charter School will follow its Attendance Policy when determining consequences for students which may include but are not limited to detention, a low grade for a missed test, or receiving a truancy letter. The Charter School will follow its Suspension and Expulsion Policy when determining consequences for students if Charter School policy is violated.

Student Speeches

If a student is selected to speak at an MPS sponsored event, including but not limited to graduation or school assemblies, MPS has the right to review the pre-prepared speech to ensure that unprotected speech is not included. If unprotected speech is included, the student will be given the opportunity to revise the speech or deliver a modified speech. If not revised or removed, the student will not be permitted to speak at the MPS sponsored event.

Off-Campus Expression

Off-campus student expression, including but not limited to student expression on off-campus internet web sites, is generally constitutionally protected but shall be subject to discipline when there is a sufficient nexus between the speech and the school.

Relevant considerations include:

1. The degree and likelihood of harm to the Charter School (staff, students, volunteers, and/or property) caused or augured by the expression,
2. Whether it is reasonably foreseeable that the expression would reach and impact the Charter School, and
3. The relation between the content and/or context of the expression and the Charter School. There is always a sufficient nexus between the expression and the Charter School when the Charter School reasonably concludes that it faces a credible, identifiable threat of school violence.

The Charter School Executive Director or designee shall document the impact the expression had or could be expected to have on the educational program. Off-campus expression that results in the material disruption of classwork or involves substantial disorder or invasion of the rights of others may be subject to discipline.

Off-campus expression may result in discipline if the expression involves but is not limited to:

- Serious or severe bullying or harassment targeting particular individuals;
- Threats aimed at teachers or other students;
- The failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities; or
- Breaches of school security devices.

Enforcement

1. The MPS school site Principal or designee shall review material submitted in a reasonable amount of time and shall allow the approved material to be distributed according to the time and manner established by this Policy.
2. Any student may appeal the decision of the MPS school site Principal or designee to the Board who shall render a decision within a reasonable period of time after receipt of the appeal. The appeal by the student must be made within five school days from the time the unsatisfactory decision was rendered.
3. The MPS school site administrator shall work with student government representatives in the development of these procedures. Student responsibilities shall be emphasized.
4. Students who are considering actions in the areas covered by this Policy should be informed of the possible consequences of their action under each specific circumstance.
5. This Policy does not prohibit or prevent the MPS Governing Board from adopting otherwise valid rules and regulations relating to oral communications by pupils upon the premises of each MPS school.
6. No MPS employee shall be dismissed, suspended, disciplined, reassigned, transferred, or otherwise

retaliated against solely for acting to protect a pupil engaged in the conduct authorized under this Policy, or refusing to infringe upon conduct that is authorized under this Policy, the First Amendment to the United States Constitution, or Section 2 of Article I of the California Constitution.

7. MPS shall not make or enforce a rule subjecting a student to disciplinary sanctions solely on the basis of conduct that is speech or other communication that, when engaged in outside of the campus, is protected from governmental restriction by the First Amendment to the United States Constitution or Section 2 of Article I of the California Constitution.

Jurisdiction

Jurisdiction – EC 44807

A student may be disciplined for prohibited misconduct if the act is related to school activity or school attendance occurring at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

Lost and Found

There will be a lost and found box in the school. If you find books, clothing, or personal items on school grounds, please bring the items to the school office. Items not picked up will be donated monthly.

Property Damage

Lost or Damaged Property – EC 48904

Parents or guardians may be held financially liable if their child willfully damages school property or fails to return school property loaned to the child. The school may further withhold the grades, diploma, and transcript of the pupil until restitution is paid.

MPS shall notify the parent or guardian of the pupil in writing of the pupil's alleged misconduct and provide the student with due process before withholding the pupil's grades, diploma, or transcripts pursuant to this subdivision. When the minor and parent are unable to pay for the damages, or to return the property, MPS shall provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the grades, diploma, and transcripts of the pupil shall be released.

Requirement of Parent/Guardian School Attendance

Requirement of Parent/Guardian School Attendance – EC 48900.1

Teachers may require the parent or guardian of a student who has been suspended by a teacher to attend a portion of that school day in his or her student's classroom. The attendance of the parent or guardian will be limited to the class from which the student was suspended. A written notice will be sent to the parent or guardian regarding implementation of this requirement. Employers are not allowed to apply sanctions against the parent or guardian for this requirement if the parent or guardian has given reasonable notice to his/her employer.

Search of School Lockers

Search of School Lockers

School lockers remain the property of MPS even when assigned to students. The lockers are subject to search whenever the School finds a need to do so. The use of the school locker for other than school-related purposes is prohibited. Improper use of school lockers will result in loss of locker privileges.

- The lockers are school property and may be routinely searched absent reasonable suspicion; private items placed in them or brought to campus may be subject to search upon reasonable suspicion.
- Students are responsible for all items in their locker.
- Students may be provided with a lock or allowed to bring a lock for their lockers. Please check with the school administration for specifics.

Student Searches

The 4th Amendment of the United States Constitution protects individuals from unlawful searches. However, the law allows school officials to conduct searches of students and students' personal effects in certain circumstances:

1. If a student has engaged in conduct that causes an administrator to have reasonable suspicion that the student has committed, is about to commit, a crime or has violated statutory laws or school rules, the administrator may conduct a search of that student and/or the student's personal effects. The administrator must:
   - Be able to articulate the reason for his or her suspicion and the facts and/or circumstances surrounding a specific incident;
   - Be able to reasonably connect the student to a specific incident, crime or rule or statute violation;
   - Have relied on recent, credible information from personal knowledge and/or other eyewitnesses;
   - Ensure that a search based on reasonable suspicion is not excessively intrusive in light of the student's age and gender and the nature of the offense.
2. When conducting a student search based on reasonable suspicion, school officials must adhere to the following practices:

- Conduct the search only if there are clear and specific reasons for suspicion and there are facts that connect the student to a specific incident of misconduct;
- Jackets, purses, pockets, backpacks, bags, and containers in the student's possession may be searched to the extent reasonably necessary;
- Under no conditions may a body or strip search be conducted;
- No search will involve the removing or arranging any or all of the clothing of a student to permit visual inspection of the underclothing, breast, buttocks, or genitalia of the student;
- Only school officials of the same sex as the student being searched may conduct the search;
- Searches based on reasonable suspicion must be conducted in the presence of at least one (1) adult witness whenever possible and in a private area where the search will not be visible to other students or staff (except for a school administrator or designee witness, also of the same sex).

3. Random Metal Detector Searches and Searches of Other Areas of the School:
   California courts and the California Attorney General's Office have approved the use of random metal detector searches for weapons. Random use of metal detectors is appropriate only if:
   - The method of selection of students to be searched is genuinely random;
   - Students selected to participate in random metal detector searches are selected without regard to personally identifiable characteristics such as race, gender, surname, group affiliation, or past history of misconduct (i.e., selection is random);
   - The searches are minimally intrusive;
   - Searches for concealed weapons in lockers are also conducted;
   - Although parents are advised in this Student/Parent Handbook of the possibility that their child may be searched, schools must send written communication to parents at the opening of the school year. This communication is also to be provided for all students enrolling after the school year has begun.

If, as a result of a metal detector search, ***reasonable suspicion*** arises that a particular student may be in possession of contraband in violation of school policy, school officials may conduct a search of that student, in a private area, in accordance with the above guidelines for reasonable suspicion searches.

A complete copy of the **"MPS Search and Seizure Policy"** is available for review on the school website and in the front office.

Student Conduct

Student Conduct – EC 51100

MPS provides parents and guardians of students the right and the opportunity, as mutually supportive and respectful partners in the education of their children, to be informed in advance about school rules, including disciplinary rules and procedures, attendance policies, dress codes, and procedures for visiting the school.

Magnolia Public Schools Student Code of Conduct

MPS is committed to excellence in academic instruction and in cooperating with parents/guardians to teach students the behaviors and skills that support social and emotional successes throughout life. To accomplish this goal, MPS is taking a proactive approach to teaching social skills as a significant component of the educational program. The curriculum includes teaching of the behaviors necessary for effective and satisfying social interaction in school, on field trips, in the community, and at home.

Uniform and Personal Appearance

The uniform policy at MPS helps create a safe and orderly environment, instill discipline, and eliminate the competition and distractions caused by varied dress styles. Students are required to arrive in uniform every day except for "free dress days".

All MPS students are required to wear the school uniform at all times including during the afterschool tutoring/activities. Refer to the "MPS Student Uniform Policy" in this Handbook.

Expected Student Behavior

Students should always remember that their behavior and actions at school and at school-sponsored activities are a reflection not only of themselves, but also of the school. The following is a guideline of what expected from an MPS student:

Breakfast/Lunch Time:

Students must:

- Proceed to the eating area as instructed by MPS staff.
- Eat and finish their breakfast/lunch in the assigned area. No food should be eaten outside the designated areas unless authorized by a school administrator.
- Wait patiently for their food and follow the direction of the adults on duty.
- Clean up after themselves and dispose of their trash in the appropriate area.
- Remember that they are not allowed inside the school building(s) without a pass.
- Be safe and carry a pass that is given to them by a school staff member and are not allowed to be in spaces that are not supervised by school personnel.

On Campus:

Students must:

- Stay in designated areas on-campus.
- Be courteous and respectful at all times to everyone.
- Not use profanity, lie, fight, gamble, possess inappropriate literature or material, or be involved in the abuse/harassment of others.
- Not use or have cellular phones turned on during school hours; students are allowed to use cellular phones **only** in the designated area after school. Phones should not be used during after school programs, such as tutoring and clubs, unless directly authorized and supervised by authorized personnel.
- Remember that any personal electronic devices seen during class time will be confiscated and returned to the student's parents/guardians at the discretion of administration.
- Remember that gum chewing is not allowed anywhere on campus.
- Never ride bicycles, use roller blades or skateboards on campus. Check with the school office regarding proper storage during the school day.
- Not leave campus without permission during school hours (except students in 7-12 grade who are being excused to receive confidential medical services without parental permission). (See Off-campus Lunch policy for high school students.)
- Not use matches, lighters, or any type of explosive incendiary device on campus.
- Remember that no personal electronic devices may be visible or used on the campus grounds.
- Be safe and are not allowed to loiter in hallways or be unsupervised by school staff.

Assemblies:

Students must:

- Be courteous and quiet during the entire assembly.
- Be respectful to the presenter/speaker.
- Be safe by following all the teacher/ staff directions upon entry, during and while exiting assembly or school wide event.

Field Trips:

Students must:

- Be on their best behavior.
- Pay attention to the directives given by the moderator and trip leader.
- Follow all school rules pertaining to behavior.
- Wear MPS uniform unless authorized by administration.

Public areas: Hallways, Lunchroom & Restrooms:

Hallways, Lunchroom and Restrooms are areas used by all members of School. Students must:

- Use the halls, lunchroom, or restrooms only as needed and then move on to class.
- Eat only in the cafeteria or other designated area.
- Leave gum at home; chewing gum is strictly prohibited anywhere on campus.
- Maintain orderly conduct always; walk in the halls, lunchroom, or restrooms.
- Keep in mind that profanity and vulgar language at any level is unacceptable and is strictly prohibited in all areas and at school functions at all times.
- Limit excessive noise such as yelling, screaming or banging lockers while in these areas.
- Help keep the school clean by picking up after yourself and putting your belongings in their proper place.
- Respect others personal space and keep your hands to yourself even in play.
- Have a pass to be in the above areas during class time and after school.
- Keep in mind that vandalism, littering, or graffiti in the school is prohibited and should be reported as this reflects poorly on everyone.
- Refrain from lewd or otherwise inappropriate displays of affection.
- Bring only plastic and paper containers to school; all glass containers are prohibited on campus and will be confiscated.
- Be responsible and report any leaks, spills, or other problems in the bathroom to a teacher or the office.
- Be responsible for cleaning up after yourself, including the disposing of or the recycling of garbage.
- Have a hall pass if you are outside of the classroom during class time.
- Not visit with friends or interrupt another classroom.
- Not misuse the hall pass as it will result in loss of the hall pass privilege.
- Get a referral from your teacher before you go to the office. Do not use the hall pass.

Emergency Drills:

Fire drills, lockdowns, and evacuation drills are conducted periodically for everyone's protection and are required by law. During these drills it is imperative that students remain silent, follow instructions given by the staff, and carry out all directions in an orderly fashion.

Classroom:
Students must: • Be seated and ready to begin their assignment when the bell rings. • Be courteous to all teachers and students. • Follow all school and classroom rules. • Bring all necessary materials/supplies ready to work daily. • Be Safe by respecting others' personal space and boundaries.
Classroom Procedures and Consequences:

Please check the teacher's syllabus for specific consequences which may include:

1. In-class warning
2. Student-Teacher Conference
3. Reflection/Parental Notification
4. Parent Conference
5. Office Referral & Administrative Disciplinary Procedures

SIS Behavior Records

Student behavior will be recorded on the SIS, Infinite Campus, and students will receive the following rewards or consequences based on their behavior entries.

Note: The following tables are for sample purposes only. Each individual MPS school may include amendments into the SIS behavior points, rewards, and consequences addressing local needs.

Positive Rewards:
• Contact parent/guardian • Lunch speed pass • Treat • One day free dress (pass will be given) • Extended lunch period • Two-day free dress (pass will be given) • VIP breakfast • Entered in a raffle • Free dress – every Friday for one month (pass will be given) • VIP lunch and "Race to the Top"
Negative Consequences:
• Contact parent/guardian • Loss of privileges • Parent/guardian conference • Behavior plan and reflection • Shadowed by parent/guardian for a day and one hour after school reflection • Student improvement team • Pending Reflection Committee outcome • Reflective hearing with Reflection Committee, parent/guardian and student

Multi-Tiered System of Response to Behavior

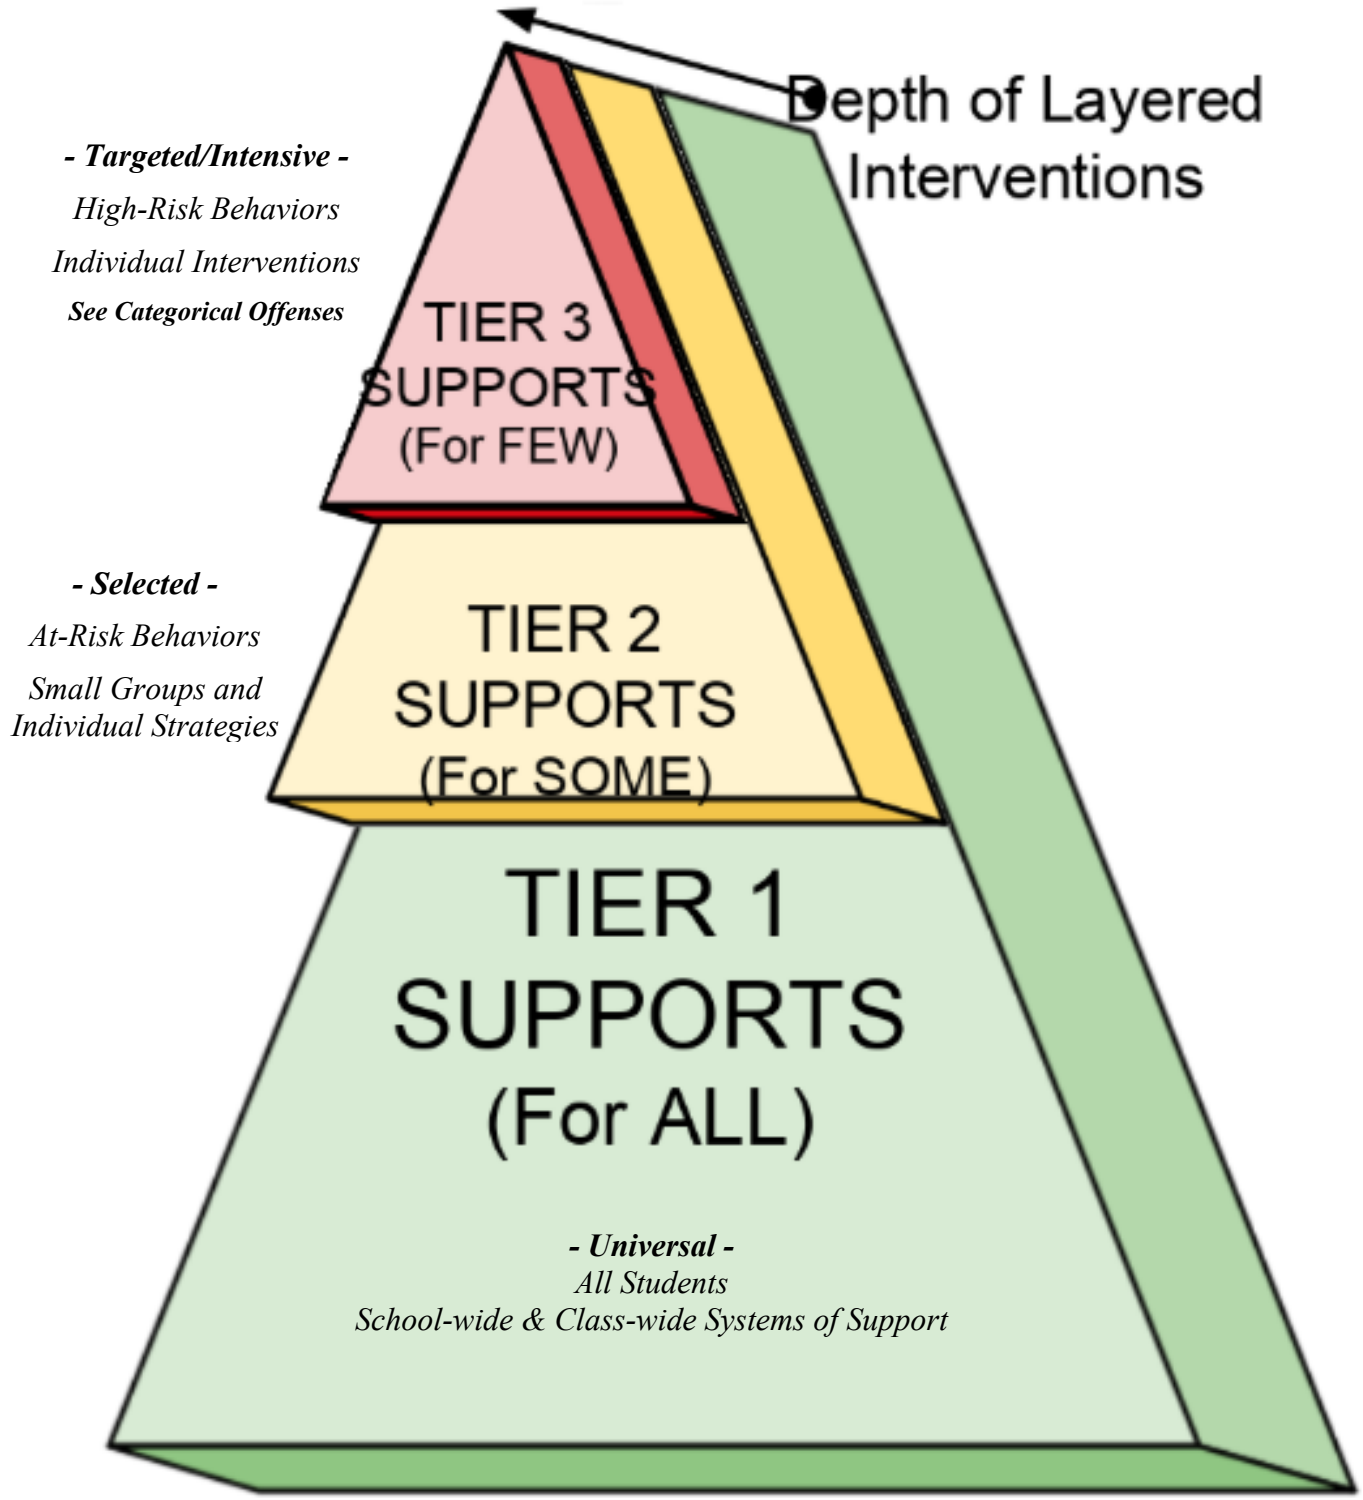
MPS maintains as a priority reinforcing positive behavior through intervention supports. Should students continue to make poor choices the administration team and school staff will create a plan with the parent/guardian to decrease unwanted behaviors and reinforce desired behaviors. Students and guardians have access to the school SIS as a means of staying informed on student progress. The student, family and school connection is part of the Positive Behavioral Interventions & Supports (PBIS) model for our learning community and it takes collaboration with all educational partners.

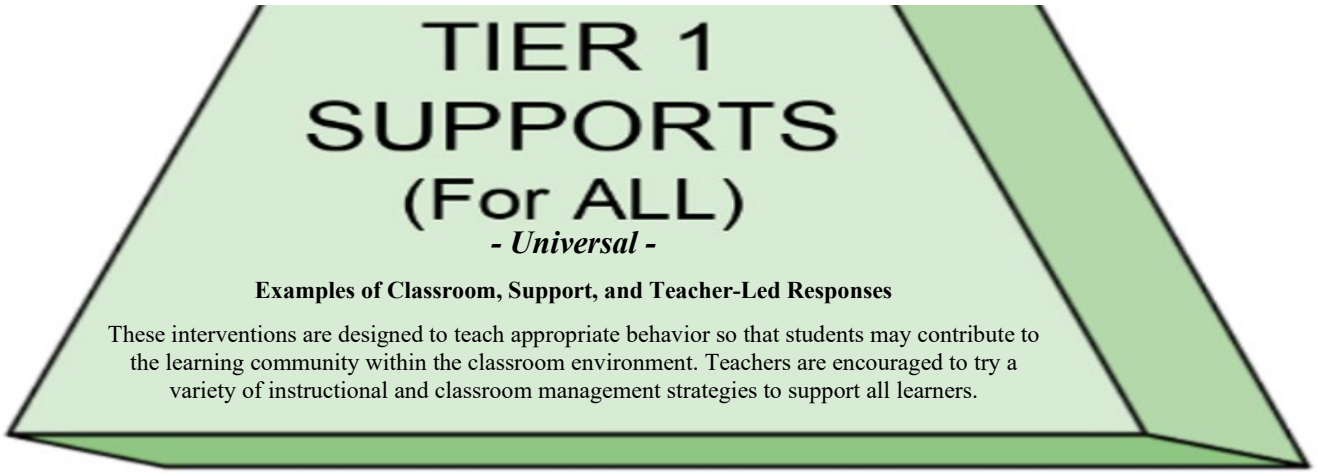
All students at MPS are entitled to the rights guaranteed by the United States Constitution, Bill of Rights, and applicable case law, and their rights will not be knowingly denied by the required code of conduct or by any disciplinary actions taken by the school. Accordingly, after an analysis of each case, any student who exhibits any of the unacceptable student behaviors listed in this handbook may incur consequences. These consequences range from notification of parents, reflection, to emergency removal from a school activity, suspension, expulsion, and referral to appropriate law enforcement agencies.

MPS reserves the right to notify the authorities and the Department of Education as required by law relating to disciplinary actions taken. It is to be noted that MPS reserves the right to discipline any act that has a nexus with MPS or the school community and causes a substantial disruption to the normal operation of the School. In other words, MPS may discipline behavior at school or at a school-related or school-sponsored function or any activity or any act that causes a substantial disruption on the school environment or that is performed with/on/by/via school equipment or school property. MPS respects and observes the rights of student to lawful student expression, as outlined in the "MPS Student Freedom of Speech/Expression Policy" available in the office of each MPS school.

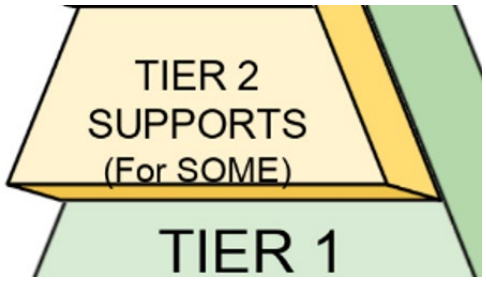
The following charts and tables delineate unacceptable types of behavior in three levels and possible interventions as part of MPS' system of response to behavior.

Multi-Tiered System of Response to Behavior





Level 1 Infractions	Interventions
• Invading personal space • Antagonizing others • Violation of school/class rules • Horseplaying • Violating off-limits/restricted area • Habitually tardy and/or not being in assigned location • Disrupting the learning environment/Off task • Littering • Not having proper materials, supplies, and/or equipment for class participation • Inappropriate use of electronic devices • Dress code violation • Inappropriate language/actions (hurtful, vulgar, gossip, etc.) • Passive participation in hurtful acts/words against others • Lewd or inappropriate displays of affection • Refusing to cooperate and comply with school rules/personnel	✓ School-wide PBIS ✓ Social-emotional learning program ✓ Proactive classroom management ✓ Regular, preemptive communication with families ✓ Classroom incentives ✓ Seating, assignment, behavioral accommodations ✓ Conferencing with student(s) and parents ✓ Verbal correction and redirection ✓ Reminders, role-play, daily progress sheet ✓ Loss of classroom privileges ✓ Written and/or verbal reflection

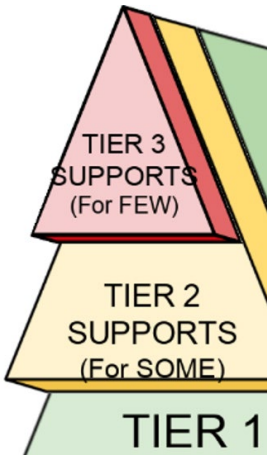


- Selected -

Examples of Support, Removal and Administrative Responses

These responses engage the students' support system to ensure successful learning and to alter conditions that are inappropriate or disruptive.

Level 2 Infractions	Interventions
• Using/possessing tobacco and/or lighter • Violating traffic or safety regulations • Encouraging other students to violate school rules • Leaving school and/or school bus without permission • Fighting and/or arranging altercations • Using objects inappropriately (i.e., the use of an object to harm others or damage property) • Physical assault without serious bodily injury (i.e., pushing with intent, kicking, hitting, pinching, spitting) • Defacing and/or vandalism of school property • Plagiarism/academic dishonesty • Leaving school or classroom without permission (truancy) • Improper use of computer (e.g., viewing unauthorized websites, cheating, overriding district filter, etc.) • Stealing and/or possessing stolen property • Failure to attend to/complete assigned restorative action • Gambling or Extortion • Habitual violations of school/class rules • Forgery of signatures • Sexually explicit behavior • Planning and/or arranging actions with malicious intent • Writing or drawing obscene /profane language/pictures • Harassment (i.e., physical, verbal, and sexual) • Bullying/cyberbullying • Violation of personal boundaries • Refusing to cooperate and comply with school rules/personnel	✓ Behavioral contract ✓ Self-monitoring ✓ School-home communication ✓ Adult or peer mentorship ✓ Utilize check-in and check-out system ✓ Intensive academic and/or social support ✓ Reflection (lunch, after school, Saturday, etc.) ✓ Refer student to SSPT ✓ Loss of privileges ✓ Counseling ✓ Temporary removal from class ✓ Extended school day ✓ Suspension and/or expulsion



- Targeted/Intensive -

Examples of Support, Removal and School Site Administrators and Home Office Responses

These responses address serious behavior and potential implications for future harm. They promote safety of the school community and should be used in a progressive fashion.

See Categorical Offenses

Level 3 Infractions	Interventions
• Physically assaulting with serious bodily injury • Conduct or habits injurious to others (peers/authority) • Using/possessing controlled and/or dangerous substances and/or paraphernalia • Bullying (harassing, intimidating, cyberbullying) • Fighting and/or arranging altercations • Using/possessing weapons and/or weapon paraphernalia including but not limited to those prohibited under federal law, such as pepper spray • Harassment (i.e., physical, verbal, and sexual) • Arson, attempting to commit arson and/or possession of explosives/fireworks (i.e., smoke bombs, sink bombs, etc.) • Causing a false fire alarm • Making a bomb/explosive threat • Encouraging other students to violate school rules • Student hazing • Using gang and/or secret society symbols/acts • Inappropriate use of electronic devices • Public displays of sexually explicit behavior • Defacing and/or vandalism of school property • Gambling • Habitual violations of school/class rules • Forgery of signatures • Stealing and/or possessing stolen property • Improper use of computer (e.g., viewing unauthorized websites, cheating, overriding school filter, etc.) • Sexual explicit behavior, Lewd Conduct, Writing or drawing obscene /profane language/pictures	✓ All Tier 1 and Tier 2 interventions ✓ FBA-based behavior intervention plans ✓ Teaching replacement behavior ✓ Home and community supports ✓ Self-management program ✓ Restricted access ✓ In-school reflection and/or suspension ✓ Short-term out-of-school suspension ✓ Extended out-of-school suspension ✓ Request for alternate educational setting ✓ Suspension and/or expulsion

Students with an IEP

If a student has an IEP, that IEP and any applicable behavior plan shall be followed, according to state and federal law. If the behavior(s) worsens or the frequency increases, the student's IEP team may meet to review the plan and its implementation, and modify it, as necessary, to address the behavior(s). Special Education staff, general education staff, parents, and related service providers specified in the IEP must be informed and involved.

MPS follows state and federal laws regarding discipline, including suspension and expulsion, of students with disabilities. See also the **"Suspension and Expulsion Procedures,"** below, for more information.

Suspension and Expulsion Policy and Procedures

The Suspension and Expulsion Policy and Procedures have been established to promote learning and protect the safety and wellbeing of all students at Magnolia Public Schools ("MPS" or "Charter School"). In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.* which describe the offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal. The language that follows is largely consistent with the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension, expulsion or involuntary removal.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. This shall serve as the Charter School's policy and procedures for student suspension, expulsion, and involuntary removal, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary policies and procedures fairly and consistently among all students. This policy and its procedures will be printed and distributed annually as part of the Student Handbook which will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians* are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this policy and its procedures are available upon request at the Principal's office. (* The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.)

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the applicable provisions of the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according to due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent/guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the action. The written notice shall be in the native language of the student or the student's parent/guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall inform the student, the student's parent/guardian, or educational rights holder of the basis for which the student is being involuntarily removed and the student's parent, guardian, or educational rights holder's right to request a hearing to challenge the involuntary removal. If a student's parent, guardian, or educational rights holder requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the action to involuntarily remove the student. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below. Students may be involuntarily removed for reasons including, but not limited to, failure to comply with the terms of the student's independent study written agreement pursuant to Education Code Section 51747(g).

Procedures

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, reflection during and after school hours, use of alternative educational environments, suspension and expulsion.

Positive Behavioral Interventions & Supports (PBIS)

Positive Consequences:

MPS school staff has committed itself to encouraging and supporting the attainment of academic skills as well as social skills, such as listening, friendship-making, problem solving, and alternatives to aggression. To inspire and encourage students to develop their potential in all of these areas, the following reinforcements will be used for positive behavior:

- Individual awards/recognition
- Classroom awards/recognition
- Certificates
- Displays
- Positive contact with parent/guardian
- Special activities (field trips, movie nights, picnics, etc.)
- Publications
- Assemblies
- Positive SIS points

Positive student behavior and improvements will be acknowledged and encouraged by the MPS staff. Teachers will not only report discipline issues on the school information system, but also positive behaviors and accomplishments. Parents will also be informed of positive behavior and improvements via phone, email, and home visits. Students will receive certificates and/or rewards for outstanding performance and behaviors.

Alternatives to Suspension and/or Expulsion

To intervene in student behavior, MPS has a progressive discipline plan in place at each of its schools. This plan is published at the beginning of each school year in the Parent/Student handbook. The handbook also includes a school-parent-student compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will develop a partnership to help children achieve high academic and behavior standards. The discipline plan includes information about student expectations and progression of disciplinary procedures from day-to-day discipline to suspension and expulsion.

MPS believes that alternatives to suspension align with our schoolwide positive behavior support plan. Following are list of alternatives that may be considered whenever possible and practicable before suspending a student: warning, phone call home, parent conference, teacher/administrative reflection, written assignment/research/presentation, loss of privileges, behavior contract, parent shadowing, mentorship (peer/teacher), referral (counseling, SSPT, Dean /Principal), assigning volunteer work/community service, Saturday school, and in-school suspension.

Reflection:

Reflection will be held on assigned day either during the lunch period or after school for up to 60 minutes. Students will have at least one (1) day notice that they must serve a reflection that is longer than twenty (20) minutes in order to make arrangements to be picked up from school. Parents may request in person a delay of the reflection; no phone calls or notes will be accepted for this request.

In School Suspension (ISS):

Notice of In School Suspension (ISS) and the reasons for the ISS will be given to the student and the parent in writing. The student will remain on campus during school hours in a designated area not in their regular class setting. The student will have no or limited social distractions while serving an ISS. Student is expected to complete their classroom assignments and school community service during ISS.

A. Grounds for Suspension and Expulsion of Students

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; or d) during, going to, or coming from a school-sponsored activity.

B. Enumerated Offenses

1. **Discretionary Suspension and Expulsion Offenses:** Students may be suspended and/or recommended for expulsion when it is determined the student:

    a) Caused, attempted to cause, or threatened to cause physical injury to another person.

    b) Willfully used force or violence upon the person of another, except self-defense.

    c) Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind. Pupils who voluntarily disclose their use of a controlled substance, alcohol, or an intoxicant of any kind in order to seek help through services or supports shall not be suspended solely for that disclosure.

    d) Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058,

alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

e) Committed or attempted to commit robbery or extortion.

f) Caused or attempted to cause damage to school property or private property, which includes but is not limited to, electronic files and databases.

g) Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.

h) Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of a student's own prescription products by a student. Pupils who voluntarily disclose their use of a tobacco product in order to seek help through services or supports shall not be suspended solely for that disclosure.

i) Committed an obscene act or engaged in habitual profanity or vulgarity.

j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

k) Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.

l) Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

m) Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

n) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

o) Engaged in, or attempted to engage in hazing. For the purposes of this policy, "hazing" means a method of initiation or preinitiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this policy, "hazing" does not include athletic events or school-sanctioned events.

p) Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this policy, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for their own safety or for their immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or their immediate family.

q) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this policy, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

r) Caused, attempted to cause, threatened to cause or participated in an act of hate

violence, as defined in Education Code Section 233(e). This provision shall apply to students in any of grades 4 to 12, inclusive.

s) Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment. This provision shall apply to students in any of grades 4 to 12, inclusive.

t) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of their age, or for a person of their age with exceptional needs) or students in fear of harm to that student's or those students' person or property.

ii. Causing a reasonable student to experience a substantially detrimental effect on their physical or mental health.

iii. Causing a reasonable student to experience substantial interference with their academic performance.

iv. Causing a reasonable student to experience substantial interference with their ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

2) "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

i. A message, text, sound, video, or image.

ii. A post on a social network Internet Web site including, but not limited to:

(a) Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.

(b) Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

(c) Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.

iii. An act of cyber sexual bullying.

(a) For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

u) A student who aids or abets, as defined in Penal Code Section 31, the infliction or attempted infliction of physical injury on another person may be subject to suspension, but not expulsion. However, if a juvenile court finds that the student committed a crime of physical violence as an aider or abettor, and the victim suffered great bodily injury or serious bodily injury, the student may be subject to suspension and/or expulsion for causing, attempting to cause, or threatening to cause physical injury to another person, and/or willfully using force or violence upon the person of another, except self-defense.

v) Possessed, sold, or otherwise furnished any knife or other dangerous object of no reasonable use to the student unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

2. **Non-Discretionary Suspension and Expulsion Offenses:** Students must be suspended and recommended for expulsion when it is determined the student:

a) Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

b) Brandishing a knife at another person.

c) Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053, et seq.

d) Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 of former Section 288a of the Penal Code or committed a sexual battery as defined in Penal Code Section 243.4.

If it is determined by the Hearing Officer or Administrative Panel that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or destructive device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The Charter School will use the following definitions:

- The term "knife" means (A) any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing; (B) a weapon with a blade fitted primarily for stabbing; (C) a weapon with a blade longer than 3½ inches; (D) a folding knife with a blade that locks into place; or (E) a razor with an unguarded blade.
- The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.
- The term "destructive device" means any explosive, incendiary, or poison gas, including but not limited to: (A) bomb; (B) grenade; (C) rocket having a propellant charge of more than four ounces; (D) missile having an explosive or incendiary charge of more than one-quarter ounce; (E) mine; or (F) device similar to any of the devices described in the preceding clauses.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the Principal or designee with the student and the student's parent/guardian and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Principal or designee.

The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against the student and shall be given the opportunity to present their version and evidence in their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure of the student's parent/guardian to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student's parent/guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall include:

a. the specific offense(s) committed by the student,

b. duration and dates of the suspension,

c. the date the student may return to school following the suspension, and

d. an explanation of the evidence that supports the charges.

If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Principal or designee, the student and the student's parent/guardian or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only

after a conference is held with the student or the student's parent/guardian, unless the student and the student's parent/guardian fail to attend the conference.

This determination will be made by the Principal or designee upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

4. Homework Assignments During Suspension

In accordance with Education Code Section 48913.5, upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 48913.5(b), if a homework assignment that is requested pursuant to Section 48913.5(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

5. Suspension Appeals

Students and parent/guardian may appeal a suspension within one (1) school day of the suspension. This appeal will be made in writing to the CEO of MPS or designee, who will make a final decision within two (2) school days of the appeal being made. The decision of the CEO or designee is final and will be delivered to the parent/guardian in a written response. Based on the information submitted or requested, the CEO or designee may make one of the following decisions regarding the suspension:

- Uphold the suspension
- Determine that the suspension was not within school guidelines, overturn the suspension, and order that all records and documents regarding the disciplinary proceeding be destroyed. No information regarding the suspension will be placed in the student's permanent record or shared with anyone not directly involved in the proceedings.

D. Authority to Expel

The Charter School may expel a student following a hearing adjudicated by a neutral Hearing Officer or Administrative Panel ("Panel") selected by the Principal to determine whether the student shall be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

If a Panel conducts the hearing, it shall consist of at least three (3) members who do not have an instructional or supervisory relationship with the student and are not a member of the Charter School Board of Directors. The Panel shall be presided over by a designated neutral hearing chairperson.

The Hearing Officer or Panel may expel any student found to have committed an expellable offense.

It is preferable for the Administrative Panel members to have experience in education law and student discipline. Typical Administrative Panel members include teachers, school administrators and Home Office Chiefs/Directors. The Home Office will coordinate all administrators and teachers who serve on the Reflection Committee at their school sites to be "on call" for a particular month should their presence be needed at an Administrative Panel hearing.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal or designee determines that the student has committed an expellable offense and recommends the student for expulsion.

The hearing shall be held in a confidential setting (complying with all student confidentiality rules under the Family Educational Rights and Privacy Act, "FERPA").

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of MPS' disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment.
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

G. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Hearing Officer or Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Signed and dated written declarations may be admitted as testimony from witnesses.

H. Expulsion Decision

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to their previous educational program.

The Administrative Panel may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Administrative Panel. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Administrative Panel may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Administrative Panel revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Administrative Panel shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Administrative Panel shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

I. Notice of Expulsion Decision

The Principal or designee shall send written notice of the decision to expel, including the Hearing Officer or Panel's expulsion decision to the student and student's parent/guardian within five (5) school days of the expulsion hearing. This notice shall include the following:

1. The findings of fact, including the student's name, the specific offense(s) committed by the student, as well as the duration and term of the student's expulsion;
2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with MPS;
3. The reinstatement eligibility review date; a copy of the rehabilitation plan; and notice of appeal rights/procedures.

The Principal or designee shall send a copy of the written notice of the decision to expel to the authorizer (if required). This notice shall include the following:

1. The student's name
2. The specific expellable offense committed by the student

In accordance with Education Code Section 47605(e)(3), the Charter School shall send notice of the expulsion to the student's district of residence within 30 calendar days.

J. Disciplinary Records

MPS shall maintain records of all student suspensions and expulsions at MPS. Such records shall be made available to the authorizer upon request.

K. Expulsion Appeals

A student or parent/guardian may appeal the Hearing Officer or Panel's expulsion decision by submitting a written appeal request to the CEO of MPS within five (5) calendar days of the date Charter School issues the written notice of expulsion.

If no appeal is requested, the expulsion becomes final on the sixth (6th) calendar day after the notice of expulsion is issued to the student and student's parent/guardian.

If an appeal is requested, the MPS Board of Directors ("Board") or a committee thereof, will review the appeal as soon as practicable, but no later than its next regularly scheduled meeting.

The Board will not hold a new hearing or reconsider the case facts. Instead, the Board will limit its review to the following questions:

- Did the hearing entity act without authority or exceed its jurisdiction?
- Was the hearing fair and conducted in accordance with the Charter School's Suspension and Expulsion policy and procedures?
- Did the hearing entity abuse its discretion in a way that caused harm?

The Board will hold the appeal review in a closed session to comply with FERPA and all applicable provisions of the Brown Act. The student and/or parent/guardian may address the Board prior to any closed session.

The Board may overturn or uphold the decision of the Hearing Officer or Panel. The Board will issue its written decision on appeal to the student and student's parent/guardian within five (5) school days of the appeal review, or as soon as practicable. If the Board overturns the expulsion decision, the student will immediately return to

their educational placement at the Charter School. The Board's decision regarding the expulsion appeal is final; there is no further appeal.

L. Expelled Students/Alternative Education

Students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. MPS shall work cooperatively with student and/or student's parent/guardian as requested, or by the school district of residence to assist with locating alternative placements during expulsion.

M. Rehabilitation Plans

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Hearing Officer or Panel at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission.

N. Readmission or Admission of Previously Expelled Student

The decision to readmit a student after the end of the student's expulsion term or to admit a previously expelled student from another school district or charter school who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board of Directors following a meeting with the Principal or designee and the student and student's parent/guardian or representative to determine whether the student has successfully completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Principal or designee shall make a recommendation to the Board of Directors following the meeting regarding the Principal's or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The student's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission or admission to the Charter School.

O. Notice to Teachers

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

P. Involuntary Removal for Truancy

As charter schools are schools of choice and as a charter school student who fails to attend school is potentially depriving another student of their opportunity to enroll, a student may be involuntarily removed as described within the Charter School's Board adopted Attendance Policy for truancy and only after the Charter School follows the requirements of the Attendance Policy and only in accordance with the policy described above which requires notice and an opportunity for a parent, guardian, educational rights holder to request a hearing prior to any involuntary removal. Students who are involuntarily removed for truancy will be given a rehabilitation plan and will be subject to the readmission procedures set forth herein.

Q. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

MPS may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of signed and dated written declarations that shall be examined only by the Charter School or the hearing officer or panel. Copies of these signed and dated declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five (5) calendar days notice of their scheduled testimony; (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include a parent/guardian or legal counsel; and (c) elect to have the hearing closed while testifying.
2. MPS must also provide the complaint witness a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the Hearing Officer or Panel, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.
4. The Hearing Officer or Panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The Hearing Officer or Panel may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the Hearing Officer or Panel from removing a support person whom the Hearing Officer or Panel finds is disrupting the hearing. The Hearing Officer or Panel may permit any one of the support persons for the complaining witness

to accompany the complaining witness to the witness stand.

7. If one or both of the support persons is also a witness, MPS must present evidence that the witness' presence is both desired by the witness and will be helpful to MPS. The Hearing Officer or Panel shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the Hearing Officer or Panel shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the Hearing Officer or Panel from exercising their discretion to remove a person from the hearing whom they believe is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the hearing room during that testimony.

9. A complaining witness may have their testimony heard via alternative means that may include but are not limited to, videotaped testimony or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the Hearing Officer or Panel that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

R. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities

1. Notification of SELPA/District

The Charter School shall immediately notify the SELPA/District and coordinate the procedures in this policy with the SELPA/ District of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alterative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

c. Return the child to the placement from which the child was removed, unless the parent/guardian and the Charter School

agree to a change of placement as part of the modification of the behavioral intervention plan.
