If the Charter School, the parent/guardian, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;

b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.

b. The parent/guardian has requested an evaluation of the child.

c. The child's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

Professional Boundaries, Abuse, & Neglect

Child Abuse and Neglect Reporting

Child Abuse and Neglect Reporting – PC 11164 et seq.

MPS is committed to protecting all students in its care. All employees of MPS are considered mandated reporters, required by law to report cases of child abuse and neglect whenever there is reasonable suspicion abuse or neglect has occurred to a child protective agency (i.e., Police or Sheriff's Department, County Probation Department, or County Welfare Department/County Child Protective Services) immediately, or as soon as practically possible, by telephone and to prepare and send a written report thereof within thirty-six (36) hours of receiving the information concerning the incident. MPS employees may not investigate to confirm a suspicion.

Both the name of the person filing the complaint and the report itself are confidential and cannot be disclosed except to authorized agencies.

Mandated reporters have been expanded in legislation to include all school employees; volunteers (a person who is over 18 years of age and who interacts with pupils outside of the immediate supervision and control of the pupil's parent or guardian or a school employee), contractors; and governing board members.

Parents and guardians of students also have a right to file a complaint against a school employee or other person that they suspect has engaged in abuse of a child at a school site. Complaints may be filed with a child protective agency; you may also notify the School of an incident by contacting the school office.

Child abuse does not include an injury caused by any force that is reasonable and necessary for a person employed by or engaged in a school:

1. To stop a disturbance threatening physical injury to people or damage to property;
2. For purposes of self-defense;
3. To obtain possession of weapons or other dangerous objects within control of a student;
4. To exercise the degree of control reasonably necessary to maintain order, protect property, protect the health and safety of pupils, and maintain proper and appropriate conditions conducive to learning.

Megan's Law

Megan's Law – PC 290 et seq.

Information about registered sex offenders in California can be found on the California Department of Justice's website, http://meganslaw.ca.gov/. The website also provides information on how to protect yourself and your family, facts about sex offenders, frequently asked questions, and sex offender registration requirements in California.

Professional Boundaries: Adult/Student Interaction Policy

MPS recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning-conducive environment possible.

This policy applies to all MPS ("School") employees, volunteers, contractors, and governing board ("Board") members (collectively referred to as "adults" herein). This policy does not apply to student board members under Education Code 47604.2, or otherwise.

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the individual, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of School employees, volunteers, contractors, and Board members:

Examples of PERMITTED actions (i.e., NOT corporal punishment):

- Stopping a student from fighting with another student;
- Preventing a pupil from committing an act of vandalism;
- Defending yourself from physical injury or assault by a student;
- Forcing a pupil to give up a weapon or dangerous object;
- Requiring a student on an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
- Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

Examples of PROHIBITED actions (i.e., corporal punishment):

- Hitting, shoving, pushing, or physically restraining a student as a means of control;
- Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
- Paddling, swatting slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

Acceptable and Unacceptable Adult/Student Behavior:

This policy is intended to guide adults in conducting themselves in a way that reflects the high standards of

behavior and professionalism required of them and to specify the boundaries between adults and students.

Although this policy gives specific, clear direction, it is each adult's obligation to avoid situations that could prompt suspicion by parents/guardians, students, colleagues, or School leaders. One viable standard that can be quickly applied, when you are unsure if certain conduct is acceptable, is to ask yourself, "Would I be engaged in this conduct if my family or colleagues were standing next to me?"

For the purposes of this policy, the term "boundaries" is defined as acceptable professional behavior by an adult while interacting with a student, whether during school hours or outside of school hours, including through social media platforms, text messaging, and other forms of communication that do not otherwise include a student's parent/guardian. Trespassing the boundaries of a student/adult relationship is deemed an abuse of power and a betrayal of public trust.

Professional boundaries apply not only between students and staff, volunteers, and contractors, and Board members, but also among and between students, and among and between adults employed, volunteering, or under contract with the School. All members of the School community are expected to maintain professional conduct that models appropriate behavior and fosters a safe and respectful learning environment. Additionally, all facilities/areas under School control shall be effectively supervised to promote a safe environment for students and individuals performing services on behalf of the School.

Some activities may seem innocent from an adult's perspective but can be perceived as flirtation or sexual insinuation from a student or parent/guardian point of view. The objective of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between adults and students, but to prevent relationships that could lead to, or may be perceived as, sexual misconduct.

Adults must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all adults learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities. Although sincere, competent interaction with students certainly fosters learning, student/adult interactions must have boundaries surrounding potential activities, locations, and intentions.

Duty to Report Suspected Misconduct

When any employee reasonably suspects or believes that another staff member may have crossed the boundaries specified in this policy, he or she must immediately report the matter to a school administrator. All reports shall be as confidential as possible under the circumstances. It is the duty of the administrator to investigate and thoroughly report the situation. Employees must also report to the administration any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for sexual abuse, child abuse, or neglect.

Examples of Specific Behaviors

The following examples are not an exhaustive list:

Unacceptable Adult/Student Behaviors (Violations of this Policy):

- Giving gifts to an individual student that are of a personal and intimate nature;
- Kissing of any kind;
- Any type of unnecessary physical contact with a student in a private situation;
- Intentionally being alone with a student away from the school;
- Making or participating in sexually inappropriate comments;
- Sexual jokes;
- Seeking emotional involvement with a student for your benefit;
- Listening to or telling stories that are sexually oriented;
- Discussing inappropriate personal troubles or intimate issues with a student;
- Becoming involved with a student so that a reasonable person may suspect inappropriate behavior;
- Communication with students via an employee's personal accounts, such as email and/or social media.

Unacceptable Adult/Student Behaviors without Parent and Supervisor Permission:

(These behaviors should only be exercised when a staff member has parent and supervisor permission.)

- Giving students a ride to/from school or school activities;
- Being alone in a room with a student at school with the door closed;
- Allowing students in your home.

Cautionary Adult/Student Behaviors:

(These behaviors should only be exercised when a reasonable and prudent person, acting as an educator, is prevented from using a better practice or behavior. Staff members should inform their supervisor of the circumstance and occurrence prior to or immediately after the occurrence.)

- Remarks about the physical attributes or development of anyone;
- Excessive attention toward a particular student;
- Sending emails, text messages or letters to students if the content is not about school activities.

Acceptable and Recommended Adult/Student Behaviors:

- Getting parents' written consent for any after-school activity;

- Obtaining formal approval to take students off school property for activities such as field trips or competitions;
- E-mails, text, phone and instant messages to students must be very professional and pertaining to school activities or classes (communication should be limited to school technology);
- Keeping the door open when alone with a student;
- Keeping reasonable space between you and your students;
- Stopping and correcting students if they cross your own personal boundaries;
- Keeping parents informed when a significant issue develops about a student;
- Keeping after-class discussions with a student professional and brief;
- Asking for advice from fellow staff or administrators if you find yourself in a difficult situation related to boundaries;
- Involving a supervisor if a conflict arises with a student;
- Informing the Superintendent about situations that have the potential to become more severe;
- Making detailed notes about an incident that could evolve into a more serious situation later;
- Recognizing the responsibility to stop unacceptable behavior of students or coworkers;
- Asking another staff member to be present if the employee will be alone with any type of special needs student;
- Asking another staff member to be present when you will be alone with a student after regular school hours;
- Giving students praise and recognition without touching them;
- fist bumps, high fives and handshakes are acceptable;
- Keeping professional conduct a high priority;
- Asking yourself if your actions are worth your job and career.

Sexual Abuse and Sex Trafficking Prevention

Sexual Abuse and Human Trafficking Prevention – EC 49380, 49381, 51950

At MPS, our highest priority is the safety and well-being of our students. MPS is committed to providing students and families with information and resources designed to prevent sexual abuse, exploitation, and human trafficking.

California has one of the highest rates of reported human trafficking in the nation, and all students may be vulnerable. MPS believes it is important to educate students about the prevalence and nature of human trafficking, including sex trafficking and labor trafficking, strategies to reduce the risk of victimization, techniques for establishing healthy boundaries, and how to safely seek assistance from trusted adults and community resources. MPS may also provide information regarding how social media platforms, mobile applications, and other technologies may be used to recruit, exploit, or traffic youth.

In accordance with California law, including the California Healthy Youth Act, MPS may provide age-appropriate instruction and information regarding the prevention of human trafficking, sexual abuse, sexual assault, harassment, exploitation, and other unsafe situations. Instruction may be provided through health education, safety instruction, counseling programs, assemblies, or other school-based activities.

Parents/guardians have the right to excuse their child from all or part of any instruction regarding the prevention of human trafficking, sexual abuse, sexual assault, and sex trafficking, to the extent permitted by law. Parent/guardian consent is not required for participation in this instruction. Unless MPS receives a written request to excuse a student, the student may participate in the instruction.

Students and families are encouraged to report concerns regarding human trafficking, exploitation, abuse, or other unsafe situations to school administrators, counselors, teachers, or other trusted adults.

Additional support is available through the National Human Trafficking Hotline by calling 1-888-373-7888, texting "HELP" or "INFO" to 233733, or visiting https://humantraffickinghotline.org. Assistance is available 24 hours a day, and reports may be made confidentially.

EDUCATIONAL PARTNER ENGAGEMENT, RIGHTS & COMPLAINT PROCEDURES

Educational Partner Engagement

Charter Schools: Pupil Admissions

Charter Schools: Pupil Admissions

Students have no right to admission in a particular school of a local educational agency as a consequence of enrollment in MPS, except to the extent that such a right is extended by the local educational agency. MPS encourages parent participation to promote increased family involvement, but it is not a requirement for acceptance to, or continued enrollment at, the Charter School.

Parent Participation in School Meetings and Conferences

Parent Participation in School Meetings and Conferences – LC 230.8

Parents may fear discrimination in hiring or discharge by an employer if they take time off work to attend school meetings. The following labor code indicates that parents have time allowed for these purposes.

If the parent's employer has 25 or more employees, the parent must be allowed to attend school meetings and events for their children, up to a maximum of 40 hours each year without discrimination or fear of job loss. Purposes to attend child-related activities include: enrollment in grades 1-12, to address child care or school emergency, behavior or discipline problem that requires immediate parent attention, sudden school closure, or natural disaster. ("Parent" means a parent, guardian, stepparent, foster parent, or grandparent of, or a person who stands in.) If an employer discharges, threatens to discharge, demotes, suspends or otherwise discriminates against the parent, the employee may be entitled to reinstatement and reimbursement for lost income or benefits. See California Labor Code section 230.8 for additional information regarding these rights.

Rights of Parents and Guardians to Information

Rights of Parents and Guardians to Information

The parents and guardians of pupils enrolled in public schools have the right and should have the opportunity, as mutually supportive and respectful partners in the education of their children within the public schools, to be informed by the school, and to participate in the education of their children, as follows:

(1) Within a reasonable period of time after making the request, to observe their child's classroom(s).

(2) Within a reasonable time of their request, to meet with their child's teacher(s) and the principal.

(3) To volunteer their time and resources for the improvement of school facilities and school programs under the supervision of district employees, including, but not limited to, providing assistance in the classroom with the approval, and under the direct supervision, of the teacher.

(4) To be notified on a timely basis if their child is absent from school without permission.

(5) To receive the results of their child's performance on standardized tests and statewide tests and information on the performance of their child's school on standardized statewide tests.

(6) To request a particular school for their child, and to receive a response from the school district.

(7) To have a school environment for their child that is safe and supportive of learning.

(8) To examine the curriculum materials of their child's class(es).

(9) To be informed of their child's progress in school and of the appropriate school personnel whom they should contact if problems arise with their child.

(10) To have access to the school records of their child.

(11) To receive information concerning the academic performance standards, proficiencies, or skills their child is expected to accomplish.

(12) To be informed in advance about school rules, including disciplinary rules and procedures, attendance policies, dress codes, and procedures for visiting the school.

(13) To receive information about any psychological testing the school does involving their child and to deny permission to give the test.

(14) To participate as a member of a parent advisory committee, schoolsite council, or site-based management leadership team.

(15) To question anything in their child's record that the parent feels is inaccurate or misleading or is an invasion of privacy and to receive a response from the school.

(16) To be notified, as early in the school year as practicable, if their child is identified as being at risk of retention and of their right to consult with school personnel responsible for a decision to promote or retain their child and to appeal a decision to retain or promote their child.

School Accountability Report Card (SARC)

School Accountability Report Cards (SARC) are posted on the school website as well as at: https://sarconline.org/. The physical copy of the most recent SARC document is available to review for all of our educational partners in the school office. MPS SARC is updated before February 1 of each year.

School Parent and Family Engagement Policy

I. Introduction

Research has shown that the attitudes, behavior and achievement of children are enhanced when parents* or other caregivers are involved in their children's education. To that end, the Magnolia Public Schools ("MPS," the "LEA" or "School") has adopted this parent and family engagement policy in order to promote learning and provide a more positive learning experience for our students. This policy has also been submitted to the California Department of Education with the School's Consolidated Application.

** Within this policy, the word "parent" is employed. This word is intended to reach any caregiver of students enrolled in the school, including but not limited to, parents, guardians, grandparents, aunts, uncles, foster parents, stepparents, etc.*

II. Engagement in Drafting the LEA/School Plans

Parents will be engaged in the development of all school plans, including, but not limited to, the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum, the Single Plan for Student Achievement (SPSA)*, and WASC Self-Study.

** State law provides that single school districts and charter schools may utilize the LCAP to serve as the SPSA, provided that the LCAP meets federal school planning requirements and relevant educational partners requirements for LCAPs under state law. Charter schools and single school districts may use the LCAP planning process to meet the planning requirements of the LCAP and the SPSA. In doing so, they may utilize the LCAP educational partners engagement requirements.* ***MPS chooses to utilize the LCAP to serve as the SPSA. MPS will utilize our Parent Advisory Committee (PAC) in developing the LCAP.***

On an annual basis, the LEA will submit California Department of Education ("CDE")–required plans to the PAC for review and suggested changes before appropriate plans are submitted to the authorizers and the CDE. In addition, all parents of participating children will annually be invited to review the LCAP, the LCAP Federal Addendum, and if applicable, the SPSA, and submit comments. If the plans are not satisfactory to the parents of participating children, the LEA will submit any comments from parents of participating children with the plans when it is submitted to the authorizers and the CDE.

III. Engagement in School Review and Improvement

All parents will be engaged, to the extent applicable, in the process of school review and improvement. This includes disseminating the results of the local annual review of each school served under Title I, Part A to parents.

In addition, the parents of participating children will be invited to annually review the effectiveness of the parent and family engagement policy and other Title I, Part A activities and provide comments to the School.

Identification of a school for improvement:

- A school that has been identified for CSI, TSI, ATSI, or an eligible school operating a SWP shall develop a comprehensive plan, to be consolidated into a single plan, known as the SPSA in California, pursuant to section 64001(a) of the California Education Code. **MPS chooses to utilize the LCAP to serve as the SPSA.**
- The LCAP, serving as SPSA, shall be developed with the engagement of parents and other members of the community to be served; individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, students (in secondary schools), and other individuals determined by the school.
- The LCAP, serving as SPSA, shall remain in effect for the duration of the school's participation under this part and shall be regularly monitored and revised as necessary based on student needs.
- The LCAP, serving as SPSA, shall be available to the LEA, parents, and the public, and the information contained in the plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand.
- The LCAP, serving as the SPSA, shall be based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to the challenging state academic standards, particularly the needs of those children who are failing, or are at risk of failing, to meet the challenging state academic standards and any other factors as determined by the LEA.
    - The comprehensive needs assessment shall include an analysis of verifiable data, consistent with all state priorities and informed by all indicators.
- The LCAP, serving as the SPSA, shall include a description of methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, help provide an enriched and accelerated curriculum, address the needs of all children in the school, particularly the needs of those at risk of not meeting the challenging state academic standards, and provide opportunities for all children to meet the challenging state academic standards.
- The LCAP, serving as the SPSA, shall include goals set to improve pupil outcomes, including addressing the needs of pupil groups as identified through the needs assessment.
- The LCAP, serving as the SPSA, shall include evidence-based strategies, actions, or services.

- The LCAP, serving as the SPSA, shall include proposed expenditures, based on the projected resource allocation from the governing board or body of the LEA, to address the findings of the needs assessment.

(If applicable) Comprehensive Support and Improvement (CSI):

- Upon receiving notification from the state of identification for CSI, the School shall, in partnership with educational partners (including the principal and other school leaders, teachers, and parents), locally develop and implement a CSI plan for the school to improve student outcomes.
- The plan shall be informed by all indicators described in subsection 1111(c)(4)(B) of the ESEA, as amended by the ESSA, including student performance against state-determined long-term goals.
- The plan shall include evidence-based interventions.
- The plan shall be based on a school-level needs assessment.
- The plan shall identify resource inequities, which may include a review of LEA/school-level budgeting, to be addressed through implementation of such plan.

(If applicable) Targeted Support and Improvement (TSI):

- Upon receiving notification from the state of identification for TSI, the School shall, in partnership with educational partners (including the principal and other school leaders, teachers, and parents), locally develop and implement a TSI plan for the school to improve student outcomes based on the indicators in the statewide accountability system established under subsection 1111(c)(4) of the ESEA, as amended by the ESSA, for each subgroup of students that was the subject of notification.
- The plan shall be informed by all indicators described in subsection 1111(c)(4)(B) of the ESEA, as amended by the ESSA, including student performance against long-term goals.
- The plan shall include evidence-based interventions.
- The plan shall be approved by the LEA prior to implementation of such plan.
- Upon submission and implementation, the plan shall be monitored by the LEA.
- The plan shall result in additional action following unsuccessful implementation of such plan after a number of years determined by the LEA.

(If applicable) Additional Targeted Support and Improvement (ATSI):

- Schools are eligible for ATSI if they are among schools eligible for TSI and if any student group at the school, on its own, meets the criteria for the lowest-performing five percent of Title I schools for CSI.
- A school identified for ATSI shall identify resource inequities, which may include a review of LEA/school-level budgeting, which will be addressed through implementation of its plan.

(If applicable) Targeted Assistance School Program (TAS):

- To assist targeted assistance schools (TAS) and LEAs to meet their responsibility to provide for all their students served under this part the opportunity to meet the challenging state academic standards, each targeted assistance program shall carry out the following requirements:
- The TAS program shall determine which students will be served according to the guidelines in section 1115(c) of the ESEA, as amended by the ESSA.
    - Eligible children from eligible populations are children identified by the school as failing, or most at risk of failing, to meet the challenging state academic standards.
    - Children who are economically disadvantaged, children with disabilities, migrant children, and English learners (ELs) are eligible for services under Title I, Part A on the same basis as other children selected to receive services.
- The TAS program shall use resources to help eligible children meet the challenging state academic standards.
- The TAS program shall serve participating students by using effective methods and instructional strategies that strengthen the academic program of the school.
- The TAS program shall coordinate with and support the regular education program of the school.
- The TAS program shall provide PD to teachers, the principal, other school leaders, paraprofessionals, and, if appropriate, specialized instructional support personnel, and other school personnel who work with eligible children in programs under this section or in the regular education program.
- The TAS program shall implement strategies to increase the involvement of parents of eligible children in accordance with section 1116 of the ESEA, as amended by the ESSA.

- The TAS program, if appropriate and applicable, shall coordinate and integrate federal, state, and local services and programs.

IV. Coordination, Technical Assistance, and Other Support

The MPS Home Office will provide the coordination, technical assistance, and other support necessary to assist all MPS schools in planning and implementing effective parent engagement activities to improve student academic achievement and school performance in the following ways:

- The MPS Home Office and school leaders will collaborate to devise a timeline for parental engagement activities throughout the school year and create a follow up tool to ensure that the activities occur.
- The MPS Home Office and school leaders will collaborate to develop the necessary technical assistance for planning and implementing effective parent engagement activities to improve student academic achievement and school performance.

V. Annual Meeting

Within 60 days of the first day of school, the School shall convene an annual meeting to which all parents of children participating in Title I, Part A programs are invited and encouraged to attend. The School will hold additional meetings to ensure the maximum parental participation, providing the same information, to be offered at flexible times, such as in the morning or evening.

The information provided at the meetings will inform parents of the School's receipt of Title I, Part A funds and the specific requirements of Title I, Part A. Additionally, parents shall be informed of their rights to be involved in Title I, Part A programs.

VI. Notice

Within **60** days of the beginning of school, the School will send **[e.g., via mail, sent home with students, and/or placed in orientation packets and/or registration packets]** a notice to **[if in a targeted assistance school]** [parents of participating children] **[or if in a school with a school wide program]** [all parents] containing, but not limited to, the following information:

- Information about Title I, Part A programs;
- An explanation of the requirements of Title I, Part A programs;
- A description of the rights parents have for participation in Title I, Part A programs;
- A description (including timing of meetings, location, etc.) of how parents can participate in the planning, review and/or improvement of the parent and family engagement policy, and if applicable, the schoolwide program.
- A description and explanation of the curriculum in use at the School, the forms of academic assessment used to measure student progress and the proficiency levels students are expected to meet;
- An invitation to attend the annual meeting and additional meetings, providing information about the purpose of the meetings and the dates and times.
- A copy of the most current Parent and Family Engagement Policy and a feedback form for parents to comment on its content.

With this notice, the School will include a survey for parents to complete identifying whether they will require transportation, child care or home visits in order to participate in the parental engagement program of the School. If there is sufficient need for transportation or child care at any of the parental engagement activities identified in this policy, the School may provide such services and notify the parents of such provided services.

In addition to mailing this notice to parents of participating children, the School will post the information on its website.

VII. Title I, Part A Program Engagement

In order to engage parents in an organized, ongoing and timely way in the planning, review and improvement of Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan, the School will engage parents of participating students as follows:

- The School will conduct at least one Family Learning Night each year where all parents of participating children will be invited to the School to learn about the different Title I, Part A programs, details of this policy, and if applicable, the schoolwide program plan. These meetings will be held at flexible times. Additionally, some may be located at community libraries or at parent volunteer homes for those who live far from the School.
- Parents not attending the Family Learning Nights will be contacted by a volunteer by telephone to encourage participation and inform them of future Family Learning Nights.
- The School will publish a regular Newsletter with notification of upcoming participation opportunities.
- Each year, the School will hold an End of School Night, at which parents of participating children will be invited to review Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan and recommend any changes.
- **At least one** of parents of participating children will be invited to accompany School staff on retreats to participate in discussions and sessions dealing with Title I, Part A programs.
- If requested by parents of participating children, the School will schedule regular meetings where

parents are able to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children. The School will respond to such suggestions within **48 hour**s.

- If the schoolwide program plan is not satisfactory to parents of participating children, the School will submit any parent comments on the plan when it submits the plan to the authorizers/CDE.

School Site Council (SSC):

- **If a SPSA is required**, the School will create a School Site Council (SSC) where it will plan, review, and improve Title I, Part A programs, the parent and family engagement policy, and if applicable, the schoolwide program plan. The SSC will meet at the School and will be composed of 10 members, selected by their peers, as follows:

  Category (a):

  - The school principal shall be an ex officio member of the SSC
  - 3 teacher representatives selected by teachers at the school
  - 1 other school personnel selected by peers at the school

  Category (b):

  - 5 Parents or community members and Students (Parents of students attending the school and community members selected by such parents and Students selected by students attending the school)

  The SSC shall be constituted to ensure parity between the principal, classroom teachers and other school personnel; (b) parents or other community members selected by parents and pupils. Classroom teachers shall comprise the majority of persons represented under category (a). (Education Code Section 65000)

  Additionally, the SSC will be involved in decisions regarding how funds reserved for parent engagement activities are allotted for those activities.

Parent Advisory Committee (PAC):

- **If a SPSA is not required**, and the LCAP can serve as the SPSA, MPS chooses to use the LCAP to serve as the SPSA. MPS will utilize our Parent Advisory Committee (PAC) in developing the LCAP. In this case, PAC will meet the educational partners engagement requirements.
- PAC will plan, review, and improve the LCAP as well as plan, review, and improve Title I, Part A programs and align them to the LCAP. PAC will also be the main committee reviewing the parent and family engagement policy, and if applicable, other school program plans. School leadership will work closely with PAC to ensure parents are engaged in the school improvement process.
- **Parent Advisory Committee** - as used in California Education Code (EC) sections 52063 and 52069, shall be composed of a majority of parents, as defined in subdivision (e), of pupils and include parents of pupils to whom one or more of the definitions in EC Section 42238.01 apply. A governing board of a school district or a county superintendent of schools shall not be required to establish a new parent advisory committee if a previously established committee meets these requirements, including any committee established to meet the requirements of the federal No Child Left Behind Act of 2001 (Public Law 107-110) pursuant to Section 1112 of Subpart 1 of Part A of Title I of that act.

English Learner Parent Advisory Committee (ELPAC):

- **English Learner Parent Advisory Committee -** as used in EC sections 52063 and 52069 for those school districts or schools and programs operated by county superintendents of schools whose enrollment includes at least 15 percent English learners and at least 50 pupils who are English learners, shall be composed of a majority of parents, as defined in subdivision (e), of pupils to whom the definition in EC Section 42238.01(c) applies. A governing board of a school district or a county superintendent of schools shall not be required to establish a new English learner parent advisory committee if a previously established committee meets these requirements.

Consulting with Pupils:

- **Consult with Pupils** - as used in EC sections 52060, 52066, and 47606.5, means a process to enable pupils, including unduplicated pupils and other numerically significant pupil subgroups, to review and comment on the development of the LCAP. This process may include surveys of pupils, forums with pupils, pupil advisory committees, or meetings with pupil government bodies or other groups representing pupils.
- The School annually conducts student, parent, and staff surveys to improve our educational partners' school experience and to consult with them. Conducting such educational partner surveys is an essential part of the School's LCAP development process.

VIII. Building Capacity for Engagement

A. Standards, Assessments, Title I Requirements, Monitoring Progress and Improving Student Achievement

In order to ensure effective parental engagement and support a partnership among the LEA, parents and the community to improve student academic achievement, the LEA will provide the following programs to assist

parents in understanding State academic content standards and State student academic achievement standards, State and local academic assessments, Title I requirements, and how to monitor their child's progress and work with educators to improve the academic achievement of their children (collectively referred to "Standards and Requirements"):

- The LEA will encourage parents to serve on its board of directors;
- The LEA will seek input from the PAC and the SSC on ways to assist parents to understand the Standards and Requirements.
- The LEA will encourage parents to serve on its board committees.
- The LEA will regularly publish in its newsletter, and/or on its website, descriptions and explanations of State academic content standards and State student academic achievement standards, State and local academic assessments, Title I requirements, and how to monitor their child's progress and work with educators to improve the academic achievement of their children.
- Regular meetings will be held by the school, at community libraries and/or parent volunteer homes, to discuss how parents can work with educators to improve their child's academic achievement.
- The LEA will hold Back to School nights to introduce parents to the School's curriculum and its correlation to the State's academic content standards and academic achievement standards.
- Parents will be invited to attend regular classes to learn about State and local academic assessments and to take sample tests.

B. Helping Parents to Work with their Children

In an effort to foster parental engagement, the LEA will provide materials and training to help parents to work with their children to improve their children's achievement through the following programs:

- **Student-Teacher Portal:** MPS uses an online web portal, Infinite Campus, to enable parents, students, and teachers to communicate more efficiently. Teachers have a webpage for every class in which they post course material, homework assignments, projects, course grade statistics and records of students' grades on quizzes, tests, class participation and homework assignments. Students and parents use confidential passwords to log on.
- Families without home computers will be encouraged to come to the school and use one of the available computer stations. Classes are held at the school on how to use Infinite Campus as well as how to access it via free Internet access at public libraries if that is more convenient than coming to the school.
- **ParentSquare:** MPS uses a unified school-to-home engagement platform called ParentSquare. This platform enables the school to send automated messages to parents with student-specific information. MPS uses ParentSquare to communicate attendance information, news and upcoming events, parent and family engagement opportunities, surveys, resources for parent education and more. With extensive student information system integration, translation to more than 100 languages and access via app, email, text, voice, and web portal, ParentSquare enables the school to engage all families, ensuring equitable communication.
- The LEA will provide parents with access to literacy programs that bond families around reading and using the public library.
- The LEA will provide annual seminars on parenting skills and parent-child communication.
- The school's psychologist will work with parents to better understand their children and the issues facing them.
- The LEA will train parents how to tutor their children in the school.
- Individualized student and parent advisory sessions: Each of LEA teachers and mentors will be assigned to a small group of students. They will arrange two to four meetings at school during the school year to discuss their students' academic achievements.
- One-on-one meetings with the parents of academically low-achieving students to support the parent in providing the student the study environment he/she needs.

C. Education on Parent Engagement

The LEA will annually educate teachers, pupil services personnel, principals and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs and build ties between parents and the School. The training shall take place each year in staff orientations, annual staff development materials and other in-service trainings held throughout the school year.

In order to better understand what works best for the current parents of participating children attending the LEA's schools, the education will take place after the following research is done (which shall be accomplished within the first 90 days of the commencement of the School year):

- **Home Visits:** Research has shown that one of the keys to successful teaching and schooling is

creating personal connections with students inside and outside of school. Knowing the students' outside interests, families, and home routines, and then using this information to connect in meaningful, individualized ways can have huge rewards in helping to create happier, healthier, and smarter kids. Recognizing these facts, the LEA will use home visits as one of the important features of its education program to not only improve student and school performance, but also to identify and intervene early with low-achieving students.

The LEA teachers will visit students at their homes to enhance student learning and engagement. Family visits offer invaluable insights about students. They can provide new understanding about students' learning styles. Visits might also reveal the emotional and social needs and behaviors of students. It is helpful to know if they react to problems with tears, anger, or withdrawal, and how they socialize with peers. Through family visits, teachers can identify students' latest interests or concerns, such as a new hobby, an upcoming trip, or a change in the family.

- A phone tree will be established where volunteers call all parents of participating students to solicit feedback and ideas for building ties between parents and the LEA, how to best communicate with parents and how to work with parents as equal partners.
- A survey will be sent home to parents of participating students that solicits information on what skills each parent has to offer the LEA and what types of parental engagement programs in which parents would most likely participate.

D. Other Optional Parent Participation

- The LEA will engage parents in the development of the training regarding the importance of parent engagement for teachers, principal, and other educators to improve the effectiveness of such training.
- In order to maximize parental engagement and participation, the LEA will arrange school meetings at various times or conduct in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend such conferences at the LEA.
- The LEA will adopt and implement model approaches to improving parental engagement.
- The LEA will develop appropriate roles for community-based organizations and businesses in parent engagement activities, such as sponsoring events, providing volunteers for school activities, and creating internships for students.

IX. Coordination with Other Programs

If applicable, the LEA shall, to the extent feasible and appropriate, coordinate and integrate parent engagement programs and activities with programs such as Head Start, Early Reading First, and public preschool and other programs and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.

The LEA will coordinate and integrate parent engagement programs and activities with these programs as follows: 1) requiring that the school conduct meetings involving parents, kindergarten or elementary school teachers, and Head Start teachers or, if appropriate, teachers from other early childhood development programs such as the Early Reading First program, to discuss the developmental and other needs of individual children; 2) developing and implementing a systematic procedure for receiving records regarding such children, transferred with parental consent from a Head Start program or, where applicable, another early childhood development program such as the Early Reading First program.

X. Annual Evaluation

The LEA, with the involvement of parents, shall conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy in improving the academic quality of the schools served under Title I, Part A, including identifying barriers to greater participation by parents in activities under ESSA. The LEA will pay particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background. The LEA will use the findings of such evaluation to design strategies for more effective parental engagement and to revise, if necessary, this family and parent engagement policy.

XI. School-Parent Compact

At the beginning of each school year, the School will enter into School-Parent Compacts with parents of participating children. The School-Parent Compact will outline how parents, the entire school staff and students will share the responsibility for improved student academic achievement and the means by which the School and parents will build and develop a partnership to help children achieve the State's high standards.

The PAC will annually evaluate the effectiveness of the School-Parent Compact and provide feedback and suggestions for revision.

XII. Engagement of Parents of Limited English Proficient Students, Disabled Parents and Parents of Migratory Children

The LEA shall implement an effective means of outreach to parents of limited English proficient students to inform them regarding how they can be engaged in the education of their children, and be active participants in assisting their children to attain English proficiency, achieve at high levels in core academic subjects and meet challenging State academic achievement standards and State academic content standards

expected of all student. To accomplish this goal, the LEA will do the following:

- The LEA will hold regular meetings, and send notice of these meetings, for the purpose of formulating and responding to recommendations from parents of participating children.
- The LEA will provide language translators at parent meetings to the extent practicable.
- The LEA will schedule meetings to enable families to share information about culture, background, children's talents and particular needs for the schools.
- The LEA will provide parents of limited English proficiency with access to English as a Second Language (ESL) classes to increase their English language proficiency to assist their children with homework. The school's principal will visit the classes to interact with the parents.
- **English Learner Advisory Committee:** The English Learner Advisory Committee (ELAC) is mainly a committee of parents or other community members who want to advocate for English Learners. The committee provides parents of English Learners opportunities to learn more about the programs offered to their students and advises the principal and the PAC/SSC on programs and services for English Learners.

  State law mandates each school site with 21 or more students of Limited English Proficiency (LEP) in attendance, regardless of language, to form a functioning ELAC. The ELAC will be formed at the LEA when the School has 21 or more students of LEP.

The LEA will provide full opportunities for participation of parents with disabilities and parents of migratory children. To accomplish this goal, the LEA will do the following:

- The LEA will schedule meetings to enable families to share information about culture, background, children's talents and particular needs for the schools.
- Teachers will be encouraged to make home visits to discuss student progress with the parents. Parents, students, and teachers meet throughout the year to monitor students' progress.
- Teachers will meet one-on-one with parents of such students on an as needed basis to ensure the proper supports are in place for the student.

XIII. Notices

In accordance with ESSA, the LEA will provide the following notices to parents of children attending Title I, Part A schools:

- Annual report card;
- A notice regarding the professional qualifications of the student's classroom teachers;
- The notice regarding language instruction programs;
- Any other notices required by law.

XIV. Miscellaneous

- The LEA shall ensure that all information related to LEA and parent programs, meetings and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand.
- The LEA will provide other reasonable support for parental engagement activities as requested by parents.

School-Parent-Student Compact

This School-Parent*-Student Compact is adopted by the Magnolia Public Schools (MPS) (hereinafter "School") and is intended to outline how parents, the entire School staff and students will share the responsibility for improved student academic achievement and the means by which the School and parents will build and develop a partnership to help children achieve the State's high standards. To this end, the School, the Parent, and the Student roles are outlined as follows:

** Within this compact, the word "parent" is employed. This word is intended to reach any caregiver of students enrolled in the School, including but not limited to, parents, guardians, grandparents, aunts, uncles, foster parents, stepparents, etc.*

School Responsibilities

- The School will provide high-quality curriculum and instruction in a supportive and effective learning environment that enables all students to meet the State Core Curriculum Content Standards in all content areas through aligned curriculum and rigorous assessment.
- The School will provide a variety of support programs to enhance instruction at all grade levels.
- The School will send frequent reports to parents on their child's progress.
- The School will hold parent-teacher conferences during which this Compact will be discussed as it relates to the individual student's achievement. Conference dates will be listed on the school calendar and additional dates will be sent through notification by the School.
- The School will grant parents reasonable access to staff by appointment through the office.
- The School will provide parents with the ability to observe classroom activities by appointment through the office.

Parent Responsibilities

I understand that my child's studies are very important and my participation in activities at MPS is a critical component of my child's educational success. Therefore, I agree to carry out the following responsibilities to the best of my ability:

- I will take a positive and active role in supporting my student's education.
- I will make certain my student attends school regularly and on time.
- I will notify school when child is absent and provide appropriate documentation.
- I will ensure that my student follows the school attendance policy and dress codes.
- I will ensure that my child come to school rested, clean, well-fed, and appropriately dressed (in student uniform).
- I will notify office immediately if there is a change of home address or phone number.
- I will set aside a specific time and place for my student to do homework.
- I will support my student in completing homework, including, if necessary, limiting time watching television, computer gaming, and recreational internet use.
- I will allow my student to attend remedial and other programs offered if requested by the school as is needed for individual improvement.
- I will set up a college bound environment at home and support my student through the college admission and scholarship finding process.
- I will emphasize my child adhere to the MPS Discipline Code at all times.
- I will enforce the School Code of Conduct with my child, including ensuring my child is wearing the uniform and promoting respect for teachers and all adults and students.
- I will follow through with any problem behaviors noted by the School.
- I will attend orientation meetings prior to the start of School.
- I will communicate regularly with my student's teachers to ensure his/her academic success (includes attending at least two conferences in a school year).
- I will review information and work sent home and/or posted on-line for parents and students via the school website and the online Student Information System and respond as necessary (computer access is available for parents at School if needed).
- I will review progress reports that are sent by the School and respond as necessary.
- I will encourage positive attitudes toward school.
- I will talk with my student about what he/she is learning.
- I will expect and encourage my student to be focused on learning.
- I will expect and support my student to strive consistently to give his/her best, and to make his/her best academic progress.
- I will assure that my child does not destroy materials (textbooks, equipment, etc.) and/or MPS property.
- I will pay for any damages to materials and/or property incurred by student.
- I will assure that students do not bring destructive materials to school (markers, paint, etc.)
- I will assure that all school materials loaned to students will be returned in the condition issued (textbooks, library books, etc.) I will pay for any lost or damaged books in CASH only.
- I understand that a student's bringing or possession of any weapon is grounds for expulsion from the Charter School.
- I will complete and return all necessary school forms and documents on time as requested by school officials.
- I will try to volunteer at School when requested. (Parents/guardians are not required to volunteer for MPS.)

Student Responsibilities

I am aware of my responsibilities and will do my best to satisfy my parents'/teachers' expectations at MPS because this will help me do better in the future. I agree to really try and do the following:

- I will come to school dressed in uniform every day and on time.
- I will be prepared for all my classes with all required materials.
- I will complete class work and homework on time.
- I will do all the homework assigned to me the best way I can and ask for help when needed.
- I will strive consistently to give my best, and to make my best academic progress.
- I will act responsibly and respectfully at all times and towards all members of the school community.
- I will follow all school rules.
- I will obey the School's Code of Conduct.
- I will respect my property, that of others, and that of the School.
- I will take good care of my books, and other materials the School allows me to use.
- I will serve my community.

Parent's Right to Know Notification for Title 1 Schools - Teacher Qualification Information

All parents or guardians may request information regarding the professional qualifications of classroom teachers and/or paraprofessionals, including at a minimum whether the student's teacher:

- Has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- Is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived; and
- Is teaching in the field of discipline of the certification of the teacher.

In addition, parents of students attending a Title 1 school can request the qualifications of paraprofessionals/TAs serving their child. The following are qualification requirements for Title I paraprofessionals:

- Completed two years of study at an institution of higher education; or
- Obtained an associate's (or higher) degree; or
- Met a rigorous standard of quality and be able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing, reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness).

Every Student Succeeds Acts (ESSA) also requires MPS to notify parents when their child has been taught for four or more consecutive weeks by a teacher who has not met State certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.

These requirements help us to ensure that all students receive the best education from teachers who are highly skilled and knowledgeable in their subject areas. If there is any MPS teacher who has not met all of the State certification or licensure requirements at the grade level and subject area in which he/she has been assigned, we will work closely with the teacher to ensure that he/she will meet all State certification and licensure requirements at the grade level and subject area in which he/she has been assigned in a timely manner.

Surveys

Surveys – EC 51513 and 51514

Anonymous, voluntary and confidential research and evaluation tools to measure student's health behaviors and risks, including tests, questionnaires, and surveys containing age-appropriate questions about the student's attitudes and practices relating to sex, family life, morality, and religion may be administered to students if the parent is notified in writing that 1) this test, questionnaire, or survey is to be administered, 2) the student's parent is given the opportunity to review the test, questionnaire, or survey, and 3) the parent consents in writing. Questions pertaining to the sexual orientation and gender identity of a student shall not be removed from a survey that already includes them.

Annual Educational Partner Surveys

Families, students, and staff are encouraged to participate in MPS's annual educational partner surveys to help inform school improvement efforts and the development of the Local Control and Accountability Plan (LCAP).

MPS conducts annual surveys of students, parents/guardians, and staff to better understand and improve the school experience of our educational partners. These surveys are an important part of MPS's LCAP development process and help inform planning and decision-making across our schools.

Under the Local Control Funding Formula (LCFF), State Priority 6 focuses on school climate, including measures such as student suspension rates, expulsion rates, and local indicators such as surveys of students, parents, and teachers regarding school safety and school connectedness.

To gather this feedback, MPS administers surveys using the Kelvin platform for students and parents/guardians and the Great Place to Work platform for staff. Surveys are typically conducted in the spring, and results are reviewed to help inform planning for the upcoming school year.

Survey questions use a rating scale and focus on several aspects of the school experience, including:

- Climate of Support for Academic Learning
- Knowledge and Fairness of Discipline, Rules, and Norms
- Safety
- Sense of Belonging (School Connectedness)

Surveys also include open-ended questions that allow respondents to share additional feedback about their school experience and suggestions for improvement.

School leadership teams review survey results and feedback to identify strengths, areas for growth, and opportunities for improvement. Survey findings help guide school improvement efforts and inform MPS's LCAP planning and budgeting process.

Families who would like additional information about survey results or the school's LCAP planning process may contact the school office.

Rights & Equal Opportunity

Nondiscrimination Statement & Equal Opportunity

The Charter School does not discriminate against any person on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, citizenship, immigration status, religion, religious affiliation, sexual orientation, pregnancy status, or any other characteristic that is contained in the definition of hate crimes in the California Penal Code.

Charter School does not discriminate against any person on the basis of sex or gender in the operation, conduct, or administration of community youth athletics programs, or in the allocation of parks and recreation facilities and resources or school and recreation facilities and resources that support or enable these programs.

The Charter School Board of Directors ("Board") shall not refuse to approve the use or prohibit the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction or any book or other resource in a school library on the basis that it includes a study of the role and contributions of Native Americans, African Americans, Latino Americans, Asian Americans, Pacific Islanders, European Americans, LGBTQ+ Americans, persons with disabilities, or members of other ethnic, cultural, religious, or socioeconomic status groups.

Instruction and instructional materials shall be factually accurate and align with the adopted curriculum and standards and be consistent with accepted standards of professional responsibility, rather than advocacy, personal opinion, bias, or partisanship. A teacher shall not give instruction and Charter School shall not sponsor any activity that promotes a discriminatory bias on the basis of race or ethnicity, gender, religion, disability, nationality, or sexual orientation, or pursuant to a characteristic listed in Section 220. Discriminatory bias in instruction and school-sponsored activities does not require a showing of direct harm to members of a protected group. Members of a protected group do not need to be present while the discriminatory bias is occurring for the act to be considered discriminatory bias. The Board shall take corrective action if it finds that instruction or school-sponsored activities are discriminatory.

Equal Access, Enrollment & Educational Protections

The Charter School adheres to all provisions of federal law related to students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 ("ADA"), and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA").

The Charter School does not discourage students from enrolling or seeking to enroll in the Charter School for any reason, including, but not limited to, academic performance, disability, neglect or delinquency, English proficiency, for being homeless or a foster/mobile youth, economic disadvantage, nationality, race, ethnicity, or sexual orientation. Charter School shall not encourage a student currently attending Charter School to disenroll or transfer to another school based on any of the aforementioned reasons except in cases of expulsion and suspension or involuntary removal in accordance with the Charter School's charter and relevant policies.

The Charter School does not request nor require student records prior to a student's enrollment.

The Charter School shall provide a copy of the California Department of Education Complaint Notice and Form to any parent, guardian, or student over the age of 18 at the following times: (1) when a parent, guardian, or student over of the age of 18 inquires about enrollment; (2) before conducting an enrollment lottery; and (3) before disenrollment of a student.

The Charter School is committed to providing an educational atmosphere that is free of unlawful harassment under Title IX of the Education Amendments of 1972 (sex); Titles IV, VI, and VII of the Civil Rights Act of 1964 (race, color, or national origin); The Age Discrimination Act of 1975; the IDEA; and Section 504 and Title II of the ADA (mental or physical disability). Charter School also prohibits sexual harassment, including cyber sexual bullying, and harassment based upon pregnancy, childbirth or related medical conditions, race or ethnicity, religion, religious affiliation, creed, color, citizenship, immigration status, gender, gender identity, gender expression, national origin or ancestry, physical or mental disability, medical condition, marital status, age, sexual orientation, or any other basis protected by federal, state, local law, ordinance or regulation.

Charter School does not condone or tolerate harassment of any type, including discrimination, intimidation, or bullying, including cyber sexual bullying, by any employee, independent contractor or other person with whom Charter School does business, or any other individual, student, or volunteer. This applies to all employees, students, or volunteers and relationships, regardless of position or gender. Charter School will promptly and thoroughly investigate any complaint of harassment and take appropriate corrective action, if warranted. Inquiries, complaints, or grievances regarding harassment as described in this section, above, should be directed to the Charter School Uniform Complaint Procedures ("UCP") Compliance Officer:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

The lack of English language skills will not be a barrier to admission or participation in Charter School's programs or activities.

Consistent with applicable law, students shall be permitted to participate in school programs and activities and access facilities in a manner consistent with their gender identity. MPS shall provide access to restroom facilities in accordance with applicable state and federal law.

Charter School prohibits retaliation against anyone who files a complaint or who participates or refuses to participate in a complaint investigation.

Notice Under the Americans With Disabilities Act (ADA)

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (ADA), MPS will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

Effective Communication: MPS will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally MPS' programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

Modifications to Policies and Procedures: MPS will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in MPS offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity of MPS, should contact the Principal or designee hosting the event as soon as possible but no later than 48 hours before the scheduled event. For non-localized events, please contact the CEO & Superintendent of MPS to inquire about accessibility modifications.

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

The ADA does not require MPS to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of MPS is not accessible to persons with disabilities should be directed to the CEO & Superintendent.

MPS will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

Notice of Policy Regarding Immigration Enforcement Activity

This notice summarizes our Policy Regarding Immigration Enforcement Activity. The complete policy is available in the main office and on the school website.

Our Commitment to All Students

We provide a safe, welcoming environment for all students regardless of immigration status or religious beliefs. We limit immigration enforcement activities at our facilities consistent with California law.

Your Rights and Protections

Non-Discrimination: We prohibit discrimination, harassment, intimidation, and bullying based on immigration status, nationality, race, ethnicity, citizenship status, religion, national origin, or ancestry. We promptly investigate all complaints and take appropriate action.

Enrollment: We do not request citizenship or immigration documentation for enrollment, other than documents we might review but not retain to establish a child's birthdate. We accept various documents to establish residence (utility bills, rental agreements, pay stubs, declarations of residency) and age (birth certificates, baptism certificates, passports, or affidavits). Students experiencing homelessness may enroll even without typical documentation if otherwise eligible.

Privacy of Information: We do not collect or maintain information about students' or families' citizenship or immigration status except when required by law for specific education programs. If we do, we collect such information separately from enrollment and do not use it to discriminate or prevent school attendance.

Social Security Numbers: We do not require Social Security numbers for enrollment. We may request the last four digits of an adult household member's number only to establish eligibility for free or reduced-price meals. Students can still qualify without providing this information if they meet income requirements.

Information Sharing Limits

We do not share student information that might indicate immigration or citizenship status unless authorized by the Family Educational Rights and Privacy Act (FERPA) or required by valid court orders, warrants, or subpoenas. We provide parents with notice before responding to such requests (except in child abuse cases or when prohibited).

Immigration Enforcement Officers: Without written parental consent, we do not provide student information to immigration enforcement officers unless they present a valid judicial warrant, judicial subpoena, or court order signed by a judge. ICE administrative warrants do not authorize access to nonpublic school areas or student information.

Campus Access Procedures

Immigration enforcement officers carrying out immigration enforcement activities may not enter nonpublic school areas without a valid judicial warrant or court order. In the event of an enforcement activity authorized by a judicial order, our staff will:

- Request credentials and documentation from any officer
- Contact the schoolsite administrator before granting access
- Request that officers not interrupt instruction
- Document all interactions and notify parents, staff, and students pursuant to the procedures outlined in our Comprehensive School Safety Plan
- Report attempts to access campus or students to the California Department of Justice and to the Charter School Board of Directors

Anti-Bullying and Hate Crimes

We educate students about respecting all peers and the harmful effects of bullying based on protected characteristics. We train staff to eliminate hostile environments and respond to harassment. Students who experience hate crimes have the right to report them. Review our complete Harassment, Discrimination, Intimidation, & Bullying Policy and Uniform Complaint Procedures in the main office.

Support for Families

Emergency Contacts: You may update your student's emergency contact information anytime. We encourage you to include a trusted adult or multiple adults who can care for your child if you become unavailable. We use this information only for emergencies.

Caregiver's Authorization Affidavit: We encourage families to support relative caregivers in completing a Caregiver's Authorization Affidavit. We will rely on a signed, completed Affidavit to allow an authorized caregiver to enroll a student in school and to consent to school-related medical care. A parent's signature is not required on the Caregiver's Authorization Affidavit. This form is available in the main office.

If Parents Are Detained: We release students to emergency contacts or anyone with a Caregiver's Authorization Affidavit. We contact child protective services only if we cannot arrange care through provided contacts.

Family Safety Plans: We encourage families to develop safety plans identifying trusted adults who can care for students and locations of important documents (birth certificates, passports, medical information).

Resources for Detained Family Members:

- **ICE Detainee Locator:** https://locator.ice.gov/odls#/search
- **Legal Assistance:** California organizations accredited by the Board of Immigration Appeals at https://www.justice.gov/eoir/recognition-accreditation-roster-reports; Self-Help Centers at http://www.courts.ca.gov/selfhelp-selfhelpcenters.htm
- **Consulates/Embassies:** Contact your country of origin's consulate for assistance.

Know Your Educational Rights

Pursuant to California law and the California Attorney General's guidance to K-12 schools in responding to immigration issues ("Guidance"), Charter School provides equal access to free public education, regardless of a student's or their parent's or guardian's immigration status or religious beliefs. The California Attorney General's Know Your Educational Rights resource for students and families can be reviewed at the following link: https://oag.ca.gov/system/files/media/appendix-g-know-your-educational-rights-english.pdf

Know Your Educational Rights

Your Child has the Right to a Free Public Education

- All children in the United States have a Constitutional right to equal access to free public education, regardless of immigration status and regardless of the immigration status of the students' parents or guardians.
- In California:
  - All children have the right to a free public education.
  - All children ages 6 to 18 years must be enrolled in school.
  - All students and staff have the right to attend safe, secure, and peaceful schools.
  - All students have a right to be in a public school learning environment free from discrimination, harassment, bullying, violence, and intimidation.
  - All students have equal opportunity to participate in any program or activity offered by the school, and cannot be discriminated against based on their race, nationality, gender, religion, or immigration status, among other characteristics.

Information Required for School Enrollment

- When enrolling a child, schools must accept a variety of documents from the student's parent or guardian to demonstrate proof of child's age or residency.
- You never have to provide information about citizenship/immigration status to have your child enrolled in school. Also, you never have to provide a Social Security number to have your child enrolled in school.

Confidentiality of Personal Information

- Federal and state laws protect student education records and personal information. These laws generally require that schools get written consent from parents or guardians before releasing student information, unless the release of information is for educational purposes, is already public, or is in response to a court order or subpoena.
- Some schools collect and provide publicly basic student "directory information." If they do, then each year, your child's school district must provide parents/guardians with written notice of the school's directory information policy, and let you know of your option to refuse release of your child's information in the directory.

Family Safety Plans if You Are Detained or Deported

- You have the option to provide your child's school with emergency contact information, including the information of secondary contacts, to identify a trusted adult guardian who can care for your child in the event you are detained or deported.
- You have the option to complete a Caregiver's Authorization Affidavit or a Petition for Appointment of Temporary Guardian of the Person, which may enable a trusted adult the authority to make educational and medical decisions for your child.

Right to File a Complaint

- Your child has the right to report a hate crime or file a complaint to the school district if he or she is discriminated against, harassed, intimidated, or bullied on the basis of his or her actual or perceived nationality, ethnicity, or immigration status.

Complaint Procedures

Title IX Policy Prohibiting Discrimination on the Basis of Sex

This Title IX Policy Prohibiting Discrimination on the Basis of Sex ("Policy") contains the policies and grievance procedures of Magnolia Public Schools ("MPS") to address sex discrimination, including but not limited to sexual harassment, occurring within MPS's education program or activity.

MPS does not discriminate on the basis of sex and prohibits any acts of sex discrimination in any education program or activity that it operates, as required by California law, Title IX (20 U.S.C. § 1681 *et seq*.) and the Title IX regulations (34 C.F.R. Part 106), including in admission and employment. *(MPS complies with all applicable state and federal laws and regulations and local ordinances in its investigation of and response to reports and complaints of misconduct prohibited by this Policy.)*

This Policy applies to conduct occurring in MPS's education programs or activities including but not limited to incidents occurring on the school campus, during school-sponsored events and activities regardless of the location, and through school-owned technology, whether perpetrated by a student, parent/guardian, employee, volunteer, independent contractor or other person with whom MPS does business.

Inquiries about the application of Title IX and 34 C.F.R. Part 106 (hereinafter collectively referred to as "Title IX") may be referred to the MPS Title IX Coordinator, the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both.

Definitions

Prohibited Sex Discrimination

Title IX and California law prohibit discrimination on the basis of sex, including sex-based harassment and differences in the treatment of similarly situated individuals on the basis of sex with regard to any aspect of services, benefits, or opportunities provided by MPS.

Prohibited Sexual Harassment

Under Title IX, "sexual harassment" means conduct on the basis of sex that satisfies one or more of the following:

- An employee of MPS conditioning the provision of an aid, benefit, or service of MPS on an individual's participation in unwelcome sexual conduct;
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to MPS's education program or activity; or
- "Sexual assault" as defined in 20 U.S.C. 1092(f)(6)(A)(v), "dating violence" as defined in 34 U.S.C. 12291(a)(10), "domestic violence" as defined in 34 U.S.C. 12291(a)(8), or "stalking" as defined in 34 U.S.C. 12291(a)(30).

Under California Education Code section 212.5, sexual harassment consists of conduct on the basis of sex, including but not limited to unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct on the basis of sex, regardless of whether or not the conduct is motivated by sexual desire, when: (a) submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, education, academic status, or progress; (b) submission to, or rejection of, the conduct by the individual is used as the basis of employment, educational or academic decisions affecting the individual; (c) the conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment; and/or (d) submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through MPS.

Examples of conduct that may fall within the Title IX or the Education Code definition of sexual harassment, or both:

- Physical assaults of a sexual or sex-based nature, such as:
    - Rape, sexual battery, molestation or attempts to commit these assaults.
    - Intentional physical conduct that is sex-based or sexual in nature, such as touching, pinching, patting, grabbing, brushing against another's body, poking another's body, violence, intentionally blocking normal movement or interfering with work or school because of sex.
- Unwanted sexual advances or propositions, derogatory sex-based comments, or other sex-based conduct, such as:
    - Sexually oriented or sex-based gestures, notices, epithets, slurs, remarks, jokes, or comments about a person's sexuality or sexual experience.
    - Preferential treatment or promises of preferential treatment to an individual for submitting to sexual conduct, including soliciting or attempting to solicit any individual to engage in sexual activity for compensation or reward or deferential treatment for rejecting sexual conduct.
    - Subjecting or threats of subjecting a student or employee to unwelcome sexual attention or conduct or intentionally making the student's or employee's performance more difficult because of the student's or the employee's sex.
    - Retaliation against an individual who has articulated a good faith concern about sex-based harassment.

- Sexual or discriminatory displays or publications anywhere in the work or educational environment, such as:
    - Displaying pictures, cartoons, posters, calendars, graffiti, objections, promotional materials, reading materials, or other materials that are sexually suggestive, sexually demeaning or pornographic or bringing or possessing any such material to read, display or view in the work or educational environment.
    - Reading publicly or otherwise publicizing in the work or educational environment materials that are in any way sexually revealing, sexually suggestive, sexually demeaning or pornographic.
    - Displaying signs or other materials purporting to segregate an individual by sex in an area of the work or educational environment (other than restrooms or similar rooms).

The illustrations above are not to be construed as an all-inclusive list of sex-based harassment acts prohibited under this Policy.

Complainant means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

Formal Complaint of Sexual Harassment means a written document filed and signed by a complainant who is participating in or attempting to participate in MPS's education program or activity or signed by the Coordinator alleging sexual harassment against a respondent and requesting that MPS investigate the allegation of sexual harassment. At the time of filing a formal complaint of sexual harassment, the complainant must be participating in or attempting to participate in MPS's education program or activity.

Party means a complainant or respondent.

Respondent means a person who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

Supportive Measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to a party before or after the filing of a formal complaint of sexual harassment or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to MPS's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or MPS's educational environment, or deter sexual harassment.

Title IX Coordinator

The Board of Directors of MPS ("Board") has designated the following employee as the Title IX Coordinator ("Coordinator"):

Meagan Wittek
Director of Student Services
250 E. 1st Street, Ste 1500
Los Angeles, CA 90012
Office: (213) 628-3634 | Fax: (714) 362-9588
mwittek@magnoliapublicschools.org

In the event the above-named individual becomes unavailable or unable to serve as the Coordinator, the Board has designated the following employee to serve as a temporary or interim Coordinator:

Gokhan Serce
Chief Academic Officer
250 E. 1st Street, Ste 1500
Los Angeles, CA 90012
Office: (213) 628-3634 | Fax: (714) 362-9588
gserce@magnoliapublicschools.org

The Coordinator is responsible for coordinating MPS's efforts to comply with the requirements of Title IX, receiving reports and complaints of sex discrimination, formal complaints of sexual harassment, and inquiries about the application of Title IX to MPS, coordinating the effective implementation of supportive measures, and taking other actions as required by this Policy. The Coordinator or designee may serve as the investigator for formal complaints of sexual harassment.

Reporting Sex Discrimination

All employees must promptly notify the Coordinator when the employee has knowledge of or notice of allegations of sex discrimination or sexual harassment occurring within MPS's education program or activity.

Students are expected to report all incidents of misconduct prohibited by this Policy. Any student who feels they are a target of such behavior should immediately contact a teacher, counselor, the Principal, Coordinator, a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. MPS will promptly and effectively investigate and respond to all oral and written complaints and reports of misconduct prohibited by this Policy. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Privacy

MPS acknowledges and respects every individual's right to privacy. All reports and complaints shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes but is not limited to keeping the identity of the reporter and other personally identifiable information

confidential, as appropriate, except to the extent necessary to comply with the law, carry out the investigation and/or to resolve the issue, as determined by the Coordinator or designee on a case-by-case basis.

Retaliation

MPS prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual.

Response to Sexual Harassment

MPS will respond promptly and in a manner that is not deliberately indifferent when it has actual knowledge, as defined in 34 C.F.R. § 106.30(a), of sexual harassment occurring in its education program or activity against a person in the United States.

MPS's response will treat complainants and respondents equitably by offering supportive measures to a complainant, and by following the grievance procedures for formal complaints of sexual harassment that are listed below before imposing any disciplinary sanctions or other actions that are not supportive measures on a respondent for sexual harassment under Title IX.

Supportive Measures

Once notified of sexual harassment or allegations of sexual harassment occurring in MPS's education program or activity against a person in the United States, the Coordinator will promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint of sexual harassment.

Supportive measures may include but are not limited to: counseling; extensions of deadlines or other course-related adjustments; modifications of work or class schedules; mutual restrictions on contact between the parties; changes in work or on-campus housing locations; leaves of absence; increased security and monitoring of certain areas of the campus; and other similar measures.

Supportive measures will not unreasonably burden either party or be imposed for punitive or disciplinary reasons. MPS will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair MPS's ability to provide the supportive measures. The Coordinator is responsible for coordinating the effective implementation of supportive measures.

Grievance Procedures

Scope and General Requirements

MPS has adopted and published grievance procedures that provide for the prompt and equitable resolution of student and employee complaints alleging any action that would be prohibited under Title IX and a grievance process that complies with 34 C.F.R. § 106.45 for formal complaints of sexual harassment.

Complaints of misconduct prohibited by this Policy that do not constitute a formal complaint of sexual harassment will be addressed in accordance with MPS's Uniform Complaint Procedures, its employment discrimination complaint procedures, or the grievance procedures set forth in its Harassment, Intimidation, Discrimination, and Bullying Policy, as applicable. The following grievance procedures will apply to formal complaints of sexual harassment.

Upon receipt of a formal complaint of sexual harassment, the Coordinator or designee will promptly initiate these grievance procedures, or the informal resolution process if available, appropriate, and requested by all parties.

MPS requires that any Title IX Coordinator, investigator, decisionmaker, and any person designated by MPS to facilitate an informal resolution process not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

MPS will treat complainants and respondents equitably. MPS presumes that the respondent is not responsible for the alleged sexual harassment until a determination is made at the conclusion of its grievance procedures.

MPS may consolidate formal complaints of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against another party, where the allegations of sexual harassment arise out of the same facts or circumstances.

MPS allows for the temporary delay of the grievance process or limited extension of timeframes on a case-by-case basis for good cause. Requests for extensions must be submitted to the Coordinator in writing at least one (1) business day before the expiration of the timeframe. If the grievance process is temporarily delayed or a timeframe is temporarily extended by MPS, the Coordinator or designee will notify the parties of the reason for the delay or extension in writing.

MPS will objectively evaluate all evidence that is relevant and not otherwise impermissible, including both inculpatory and exculpatory evidence. *(Inculpatory means tending to impute guilt or fault, and exculpatory means tending to absolve from guilt or fault.)* Credibility determinations will not be based on a person's status as a complainant, respondent, or witness.

Dismissal

MPS must dismiss a formal complaint of sexual harassment for purposes of sexual harassment under Title IX if the conduct alleged:

- Would not constitute sexual harassment under Title IX even if proved;
- Did not occur in MPS's education program or activity; or
- Did not occur against a person in the United States.

MPS may dismiss a formal complaint of sexual harassment or any of the allegations therein if:

- The respondent is no longer enrolled or employed by MPS;
- A complainant notifies the Coordinator in writing that the complainant would like to withdraw the complaint or any allegations therein; or
- Specific circumstances prevent MPS from gathering sufficient evidence to reach a determination as to the complaint or allegations therein.

Upon dismissal, the Coordinator or designee will promptly send written notice of the dismissal and reason(s) therefor simultaneously to the parties. Dismissal under Title IX does not preclude action under another applicable MPS policy.

Notice of the Allegations

Upon receipt of a formal complaint of sexual harassment, the Coordinator or designee will provide written notice of the allegations to the parties whose identities are known. The notice will include:

- MPS's grievance procedures and any informal resolution process;
- The allegations of sexual harassment including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details includes the identities of the parties involved in the incident(s), if known, the conduct allegedly constituting sexual harassment under Title IX, and the date(s) and location(s) of the alleged incident(s), if known;
- A statement that the respondent is presumed not responsible for the alleged conduct and a determination regarding responsibility is made at the conclusion of the grievance process;
- A statement that the parties may have an advisor of their choice, who may be, but is not required to be, an attorney, and may inspect and review evidence; and
- A statement that MPS prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

Emergency Removal

MPS may place a non-student employee respondent on administrative leave during the pendency of the grievance procedures in accordance with MPS's policies.

MPS may remove a respondent from MPS's education program or activity on an emergency basis, in accordance with MPS's policies, provided that MPS undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any person arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.

This provision must not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

Informal Resolution

At any time after a formal complaint of sexual harassment is filed and prior to determining whether sexual harassment occurred under MPS's Title IX grievance procedures, MPS may offer an informal resolution process to the parties. MPS will not offer or facilitate informal resolution to resolve allegations that an employee sexually harassed a student, or when such a process would conflict with Federal, State, or local law. Parties will not be required or pressured to agree to participate in the informal resolution process.

Before initiation of the informal resolution process, MPS will obtain the parties' voluntary, written consent to participate in the informal resolution and provide the parties with a written notice that explains:

- The allegations;
- The requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint of sexual harassment arising from the same allegations;
- The right to withdraw and initiate or resume the grievance procedures at any time prior to agreeing to a resolution; and
- Any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.

Investigation

In most cases, a thorough investigation will take no more than thirty (30) business days. MPS has the burden to conduct an investigation that gathers sufficient evidence to determine whether sexual harassment occurred. The investigator will review all evidence gathered through the investigation and determine what evidence is relevant and what evidence is impermissible regardless of relevance in accordance with Title IX.

The following types of evidence, and questions seeking that evidence, are impermissible (i.e., will not be used, accessed, considered, or disclosed), regardless of whether they are relevant:

- A party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless MPS obtains that party's voluntary, written consent to do so for these grievance procedures; and
- Evidence about the complainant's sexual predisposition or prior sexual behavior, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent

committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

The parties will be provided with an equal opportunity to present witnesses, to inspect and review any evidence obtained that is directly related to the allegations raised, and to have an advisor present during any investigative meeting or interview. The parties will not be prohibited from discussing the allegations under investigation or from gathering and presenting relevant evidence. A party whose participation is invited or expected at an investigative meeting or interview will receive written notice of the date, time, location, participants, and purpose of the meeting or interview with sufficient time for the party to prepare to participate.

Before the investigator completes the investigative report, MPS will send to each party and the party's advisor, if any, a copy of the evidence subject to inspection and review, and the parties will have at least ten (10) days to submit a written response for the investigator to consider prior to completing the investigation report.

The investigator will complete an investigation report that fairly summarizes relevant evidence and send a copy of the report to each party and the party's advisor, if any, at least ten (10) days prior to the determination of responsibility.

Determination of Responsibility

Before making a determination of responsibility, the decisionmaker must afford each party the opportunity to submit written, relevant questions that a party wants to ask of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. The decisionmaker must explain to the party proposing the questions any decision to exclude a question as not relevant.

Determinations will be based on an objective evaluation of all relevant and not otherwise impermissible evidence and credibility determinations will not be based on a person's status as a complainant, respondent, or witness. The standard of evidence used to determine responsibility is the preponderance of the evidence standard.

Within fifteen (15) business days after MPS sends the investigation report to the parties, the decisionmaker, who will not be the same person as the Coordinator or investigator, will simultaneously send the parties a written determination of whether sexual harassment occurred. The written determination will include:

- The allegations of sexual harassment;
- A description of the procedural steps taken including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
- The findings of facts supporting the determination;
- The conclusions regarding the application of MPS's code of conduct to the facts;
- The decision and rationale for each allegation;
- Any recommended disciplinary sanctions for the respondent, and whether remedies designed to restore or preserve equal access to the education program or activity will be provided to the complainant; and
- The procedures and permissible bases for appeals.

The determination regarding responsibility becomes final either on the date that MPS provides the parties with the written appeal decision, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

Appeals

Either party may, within five (5) business days of their receipt of MPS's written determination of responsibility or dismissal of a formal complaint of sexual harassment, submit a written appeal to the Chair of the MPS Board, who will serve as the decisionmaker for the appeal or designate a decisionmaker for the appeal.

The complainant and respondent may only appeal from a determination regarding responsibility or MPS's dismissal of a formal complaint of sexual harassment or any allegations therein, on one or more of the following bases:

- Procedural irregularity that affected the outcome of the matter;
- New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; or
- The Coordinator, investigator(s), or decisionmaker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

The decisionmaker for the appeal will not be the same person as the Coordinator, the investigator or the initial decisionmaker.

The decisionmaker for the appeal will: 1) notify the other party of the appeal in writing; 2) implement appeal procedures equally for the parties; 3) allow the parties to submit a written statement in support of, or challenging, the outcome within five (5) business days of notice of the appeal; and 4) within fifteen (15) business days of the appeal, provide a written decision simultaneously to the parties describing the result of the appeal and the rationale for the result.

Consequences

Students or employees who engage in misconduct prohibited by this Policy, knowingly make false statements or knowingly submit false information during the grievance process, may be subject to disciplinary action up to and including expulsion from MPS or termination of employment. If there is a determination that sexual harassment occurred, the Coordinator is responsible for effective implementation of any remedies ordered by MPS.

Training

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All Title IX Coordinators, investigators, decisionmakers, and any person who facilitates a Title IX informal resolution process will receive Title IX training and/or instruction concerning sexual harassment as required by law.

Recordkeeping

MPS will maintain the following records for at least seven (7) years:

- Records of each sexual harassment investigation, including any determination of responsibility; any audio or audiovisual recording or transcript; any disciplinary sanctions imposed on the respondent; and any remedies provided to the complainant;
- Records of any appeal of a formal complaint or sexual harassment and the results of that appeal;
- Records of any informal resolution of a formal complaint or sexual harassment and the results of that informal resolution;
- All materials used to train Title IX Coordinators, investigators, decisionmakers, and any person who facilitates an informal resolution process; and
- Records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment.

The above records will be maintained in a secure location until destroyed in accordance with applicable laws and regulations.

The **"Title IX Sex Discrimination and Harassment Complaint Form"** is included at the end of this handbook and copies are also available in the school office.

Harassment, Intimidation, Discrimination, and Bullying Policy

Discrimination, harassment, intimidation, and bullying are all disruptive behaviors, which interfere with students' ability to learn, negatively affect student engagement, diminish school safety, and contribute to a hostile school environment. As such, Magnolia Educational and Research Foundation, doing business as Magnolia Public Schools ("MPS") prohibits any acts of discrimination, harassment, intimidation, and bullying altogether.

As used in this policy, discrimination, harassment, intimidation, and bullying are described as the intentional conduct, including verbal, physical, written communication or cyber-bullying, including cyber sexual bullying, based on the actual or perceived characteristics of mental or physical disability, sex (including pregnancy and related conditions, and parental status), sexual orientation, gender, gender identity, gender expression, immigration status, nationality (including national origin, country of origin, and citizenship), race or ethnicity (including ancestry, color, ethnic group identification, ethnic background, and traits historically associated with race, including, but not limited to, hair texture and protective hairstyles such as braids, locs, and twists), religion (including agnosticism and atheism), religious affiliation, medical condition, genetic information, marital status, age or association with a person or group with one or more of these actual or perceived characteristics or based on any other characteristic protected under applicable state or federal law or local ordinance. Hereafter, such actions are referred to as "misconduct prohibited by this Policy."

To the extent possible, MPS will make reasonable efforts to prevent students from being discriminated against, harassed, intimidated, and/or bullied, and will take action to investigate, respond, address and report on such behaviors in a timely manner. MPS school staff who witness acts of misconduct prohibited by this Policy will take immediate steps to intervene when safe to do so.

This policy applies to incidents occurring on the school campus, at school-sponsored events and activities regardless of the location, through school-owned technology, and through other electronic means, whether perpetrated by a student, employee, parent/guardian, volunteer, independent contractor or other person with whom MPS does business, and all acts of MPS's Board of Directors ("Board") in enacting policies and procedures that govern MPS. *(This policy becomes effective on August 1, 2024. Conduct occurring before August 1, 2024 will be addressed in accordance with the former version of this policy, which was entitled "Title IX, Harassment, Intimidation, Discrimination and Bullying Policy.")*

Definitions

Harassment means conduct based upon one or more of the protected characteristics listed above that is severe or pervasive, which unreasonably disrupts an individual's educational or work environment or that creates a hostile educational or work environment. Harassment includes, but is not limited to:

- Verbal conduct such as epithets, derogatory jokes, comments or slurs.
- Physical conduct including assault, unwanted touching, intentionally blocking normal movement or interfering with work or school based on any of the protected characteristics listed above.
- Retaliation for reporting or threatening to report harassment.
- Deferential or preferential treatment based on any of the protected characteristics listed above.

Bullying is defined as any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act. Bullying includes one or more acts committed by a student or group of students that may constitute hate violence, or creates an intimidating and/or hostile educational environment, directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

- Placing a reasonable student or students in fear of harm to that student's or those students' person or property. *("Reasonable student" is defined as a student, including, but not limited to, a student with exceptional needs, who exercises average care, skill and judgment in conduct for a person of the student's age, or for a person of the student's age with the student's exceptional needs.)*
- Causing a reasonable student to experience a substantially detrimental effect on the student's physical or mental health.
- Causing a reasonable student to experience a substantial interference with the student's academic performance.
- Causing a reasonable student to experience a substantial interference with the student's ability to participate in or benefit from the services, activities, or privileges provided by MPS.

Cyberbullying is an electronic act that includes the transmission of harassing communication, direct threats, or other harmful texts, sounds, video or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Electronic act means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

- A message, text, sound, video, or image.
- A post on a social network Internet Web site including, but not limited to:
    - Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or

more of the effects as listed in the definition of "bullying," above.
    - Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in the definition of "bullying," above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.
    - Creating a false profile for the purpose of having one or more of the effects listed in the definition of "bullying," above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.
- An act of "Cyber sexual bullying" including, but not limited to:
    - The dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in definition of "bullying," above. A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
    - "Cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.
- Notwithstanding the definitions of "bullying" and "electronic act" above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

Bullying and Cyberbullying Prevention Procedures

MPS has adopted the following procedures for preventing acts of bullying, including cyberbullying.

Cyberbullying Prevention Procedures

MPS advises students:

- To never share passwords, personal data, or private photos online.
- To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
- That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
- To consider how it would feel receiving such comments before making comments about others online.

MPS informs its employees, students, and parents/guardians of MPS's policies regarding the use of technology in and out of the classroom. MPS encourages parents/guardians to discuss these policies with their children to ensure their children understand and comply with such policies.

Education

MPS employees cannot always be present when bullying incidents occur, so educating students about bullying is a key prevention technique to limit bullying from happening. MPS advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at MPS and encourages students to practice compassion and respect each other.

MPS educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived sexual orientation, gender identification, physical or cognitive disabilities, race, ethnicity, religion, and immigration status) and about the negative impact of bullying other students based on protected characteristics.

MPS's bullying prevention education also discusses the differences between appropriate and inappropriate behaviors and includes sample situations to help students learn and practice appropriate behavior and to develop techniques and strategies to respond in a non-aggressive way to bullying-type behaviors. Students will also develop confidence and learn how to advocate for themselves and others, and when to go to an adult for help.

MPS informs MPS employees, students, and parents/guardians of this Policy and encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

Professional Development

MPS annually makes available the online training module developed by the California Department of Education pursuant Education Code section 32283.5(a) to its certificated employees and all other MPS employees who have regular interaction with students.

MPS informs certificated employees about the common signs that a student is a target of bullying including:

- Physical cuts or injuries
- Lost or broken personal items

- Fear of going to school/practice/games
- Loss of interest in school, activities, or friends
- Trouble sleeping or eating
- Anxious/sick/nervous behavior or distracted appearance
- Self-destructiveness or displays of odd behavior
- Decreased self-esteem

MPS also informs certificated employees about the groups of students determined by MPS and available research to be at elevated risk for bullying and provides its certificated employees with information on existing school and community resources related to the support of these groups. These groups include but are not limited to:

- Students who are lesbian, gay, bisexual, transgender, or questioning youth ("LGBTQ") and those youth perceived as LGBTQ; and
- Students with physical or learning disabilities.

MPS encourages its employees to demonstrate effective problem-solving, anger management, and self-confidence skills for MPS's students.

Complaint Procedures

Scope of the Complaint Procedures

MPS will comply with its Uniform Complaint Procedures ("UCP") policy when investigating and responding to complaints alleging unlawful harassment, discrimination, intimidation or bullying against a protected group or on the basis of a person's association with a person or group with one or more of the protected characteristics set forth in the UCP that:

- Are written and signed;
- Filed by an individual who alleges that they have personally suffered unlawful discrimination, harassment, intimidation or bullying, or by one who believes any specific class of individuals has been subjected to discrimination, harassment, intimidation or bullying based on a protected characteristic, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying; and
- Submitted to the MPS UCP Compliance Officer not later than six (6) months from the date the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying.

MPS will comply with its Title IX Policy when investigating and responding to complaints alleging sex discrimination, including sex-based harassment, in its education program or activity, as applicable.

The following procedures shall be utilized for complaints of misconduct prohibited by this Policy that do not fall within the scope of MPS's Title IX Policy or comply with the writing, timeline, or other formal filing requirements of the UCP. A copy of MPS's Title IX Policy and UCP is available in the main office and on MPS websites.

Submitting a Report or Complaint

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene when safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this Policy for reporting alleged acts of misconduct prohibited by this Policy.

Reports and complaints of misconduct prohibited by this Policy shall be submitted to the Principal (or the Chief Executive Officer and Superintendent if the complaint is against the Principal) as soon as possible after the incidents giving rise to the report or complaint.

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, and MPS will investigate and respond to all oral and written reports of misconduct prohibited by this Policy, the reporting party is encouraged to submit a written report. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Students are expected to report all incidents of misconduct prohibited by this Policy and other verbal or physical abuses. Any student who feels they are a target of such behavior should immediately contact a teacher, counselor, the Principal, a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

MPS acknowledges and respects every individual's right to privacy. All reports and complaints shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes keeping the identity of the reporter and/or complainant confidential, as appropriate, except to the extent necessary to comply with applicable law, carry out the investigation and/or to resolve the issue, as determined by MPS on a case-by-case basis.

MPS prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual. Individuals alleging retaliation in violation of this Policy may file a grievance using the procedures set forth in this Policy.

Investigation and Response

Upon receipt of a report or complaint of misconduct prohibited by this Policy, the Principal or designee will promptly initiate an investigation. In most cases, a thorough

investigation will take no more than twenty-five (25) school days.

At the conclusion of the investigation, the Principal or designee will, to the extent possible with respect to confidentiality laws, provide the complainant with information about the investigation and resolution of the incident/situation. However, the Principal or designee will not reveal confidential information related to other students or employees.

If the complaint is against the Principal, the Chief Executive Officer and Superintendent or designee will conduct a fact-finding investigation and provide the complainant with information about the investigation and resolution of the incident/situation.

Consequences

Students or employees who engage in misconduct prohibited by this Policy may be subject to disciplinary action up to and including expulsion from MPS or termination of employment.

Right of Appeal

Should a complainant find MPS's resolution unsatisfactory, for complaints within the scope of this Policy, the complainant may, within five (5) business days of notice of MPS's decision or resolution, submit a written appeal to the Chair of the MPS Board, who will serve as the decisionmaker for the appeal or designate a decisionmaker for the appeal. The decisionmaker for the appeal will notify the complainant of the final decision.

The **"Harassment, Intimidation, Discrimination & Bullying Complaint Form"** is included at the end of this handbook and copies are also available in the school office.

Uniform Complaint Policy and Procedures

Uniform Complaint Procedures (UCP) Annual Notice

Charter School is the local agency primarily responsible for compliance with federal and state laws and regulations governing educational programs. Charter School shall investigate and seek to resolve complaints using policies and procedures known as the Uniform Complaint Procedure ("UCP") adopted by our Governing Board for the following types of complaints:

1. Complaints alleging unlawful discrimination, harassment, intimidation, or bullying against any protected group on the basis of the actual or perceived characteristics of age, ancestry, color, mental disability, physical disability, ethnic group identification, immigration status, citizenship, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, religion, medical condition, marital status, sex, or sexual orientation, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics in any Charter School program or activity. Unlawful discrimination includes, but is not limited to, noncompliance with Education Code section 243(a).

2. Complaints alleging a violation of state or federal law or regulation governing the following programs:
    - Accommodations for Pregnant, Lactating, and Parenting Pupils;
    - Adult Education;
    - After School Education and Safety;
    - Career Technical and Technical Education and Training;
    - Child Care and Development;
    - Consolidated Categorical Aid;
    - Course Periods without Educational Content;
    - Education of Pupils in Foster Care, Pupils who Are Homeless, Migratory Pupils, former Juvenile Court Pupils now Enrolled in a public school and Children of Military Families;
    - Every Student Succeeds Act;
    - Local Control & Accountability Plans (LCAP)/LCFF;
    - Migrant Education;
    - Physical Education Instructional Minutes;
    - Pupil Fees;
    - Regional Occupational Centers and Programs;
    - School Plans for School Achievement;
    - School Safety Plans;
    - Schoolsite Councils.

3. Complaints alleging noncompliance with laws relating to pupil fees. A student enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity. A pupil fee includes, but is not limited to, all of the following:
    - A fee charged to a pupil as a condition for registering for school or classes, or as a condition for participation in a class or an extracurricular activity, regardless of whether the class or activity is elective or compulsory or is for credit.
    - A security deposit, or other payment, that a pupil is required to make to obtain a lock, locker, book, class apparatus, musical instrument, clothes, or other materials or equipment.
    - A purchase that a pupil is required to make to obtain materials, supplies, equipment, or clothes associated with an educational activity.

    Complaints of noncompliance with laws relating to pupil fees may be filed with the CEO of Charter School or the Compliance Officer identified below.

4. Complaints alleging noncompliance with the requirements governing the Local Control Funding Formula ("LCFF") or Local Control and Accountability Plans ("LCAP") under Education Code sections 47606.5 and 47607.3, as applicable. If Charter School adopts a School Plan for Student Achievement ("SPSA") in addition to its LCAP, complaints of noncompliance with the requirements of the SPSA under Education Code sections 64000, 64001, 65000, and 65001 shall also fall under the UCP.

Complaints alleging noncompliance regarding child nutrition programs established pursuant to Education Code sections 49490-49590 are governed by Title 7, Code of Federal Regulations ("C.F.R.") sections 210.19(a)(4), 215.1(a), 220.13(c), 225.11(b), 226.6(n), and 250.15(d) and Title 5, California Code of Regulations ("C.C.R.") sections 15580 - 15584.

Complaints alleging noncompliance regarding special education programs established pursuant to Education Code sections 56000-56865 and 59000-59300 are governed by the procedures set forth in 5 C.C.R. sections 3200-3205 and 34 C.F.R. sections 300.151-300.153.

Complaints other than complaints relating to pupil fees must be filed in writing with the following Compliance Officer:

CEO and Superintendent
Magnolia Public Schools
250 E. 1st St STE 1500
Los Angeles, CA 90012
(213) 628-3634

Upon receipt of a complaint, the CEO will appropriately assign to the Principal of the MPS campus attended by the complainant. That Principal and/or designee shall investigate the complaint, with oversight by the CEO.

Only complaints regarding pupil fees, LCAP, or noncompliance with Education Code section 243 or 244 may

be filed anonymously and only if the anonymous complainant provides evidence or information leading to evidence to support an allegation of noncompliance with the respective applicable laws.

Complaints alleging unlawful discrimination, harassment, intimidation, or bullying, must be filed within six (6) months from the date the alleged discrimination, harassment, intimidation, or bullying, occurred or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation, or bullying. All other complaints under the UCP shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which Charter School's Board of Directors approved the LCAP or the annual update was adopted by Charter School.

The Compliance Officer responsible for investigating the complaint shall conduct and complete the investigation in accordance with California regulations and in accordance with Charter School's UCP Policy. The Compliance Officer shall provide the complainant with a final written investigation report ("Decision") within sixty (60) calendar days from Charter School's receipt of the complaint. This sixty (60) calendar day time period may be extended by written agreement of the complainant.

The complainant has a right to appeal Charter School's Decision to the California Department of Education ("CDE") by filing a written appeal within thirty (30) calendar days of the date of the Charter School's written Decision, except if Charter School has used its UCP to address a complaint that is not subject to the UCP requirements. The appeal must include a copy of the complaint filed with Charter School, a copy of Charter School's Decision, and the complainant must specify and explain the basis for the appeal of the Decision, including at least one of the following:

1. Charter School failed to follow its complaint procedures.
2. Relative to the allegations of the complaint, Charter School's Decision lacks material findings of fact necessary to reach a conclusion of law.
3. The material findings of fact in Charter School's Decision are not supported by substantial evidence.
4. The legal conclusion in Charter School's Decision is inconsistent with the law.
5. In a case in which Charter School's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

A complainant who appeals Charter School's Decision on a UCP complaint to the CDE shall receive a written appeal decision within sixty (60) calendar days of the CDE's receipt of the appeal, unless extended by written agreement with the complainant or the CDE documents exceptional circumstances and informs the complainant.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision.

If Charter School fails to issue an investigation report within the required sixty (60) calendar day timeline, a party to a written complaint of prohibited discrimination may appeal directly to the SSPI. The complaint must provide evidence supporting the basis for direct filing and explain why immediate action is necessary.

Complaints alleging noncompliance with Education Code section 243 or 244 may be filed with the SSPI directly, and the SSPI may directly intervene without waiting for an investigation by the Charter School. The complainant shall present the SSPI with evidence that supports the basis for the direct filing and why immediate action is necessary.

If a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.

If Charter School finds merit in a UCP complaint, or the CDE finds merit in an appeal, Charter School shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.

A complainant may pursue available civil law remedies outside of Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of the complainant's right to file a complaint in accordance with 5 CCR § 4622.

The UCP Annual Notice, the UCP, and the complaint form for the UCP are all included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the CEO.

Note: It is not required to use the complaint form for the UCP to file a UCP complaint. If the complainant is unable to put the complaint in writing, due to a disability or illiteracy, we shall assist the complainant in the filing of the complaint.

Uniform Complaint Procedures (UCP) Policies and Procedures

Magnolia Public Schools ("MPS" or "Charter School") complies with applicable federal and state laws and regulations. MPS is the local agency primarily responsible for compliance with federal and state laws and regulations governing educational programs. Pursuant to this policy, persons responsible for compliance and/or conducting investigations shall be knowledgeable about the laws and programs which they are assigned to investigate.

Scope

This complaint procedure is adopted to provide a uniform system of complaint processing ("UCP") for the following types of complaints:

1. Complaints alleging unlawful discrimination, harassment, intimidation or bullying against any protected group on the basis of the actual or perceived characteristics of age, ancestry, color, mental disability, physical disability, ethnic group identification, immigration status, citizenship, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, religion, medical condition, marital status, sex, sexual orientation, or any combination of those characteristics, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics or any combination of those characteristics in any MPS program or activity. Unlawful discrimination includes, but is not limited to, noncompliance with Education Code sections 243(a) or 244. (In accordance with 5 C.C.R. 4611, employment discrimination complaints are not subject to the UCP.)

2. Complaints alleging a violation of state or federal law or regulation governing the following programs, activities, and related services:
   - Accommodations for Pregnant, Lactating, and Parenting Pupils;
   - Adult Education;
   - After School Education and Safety;
   - Career Technical and Technical Education and Training;
   - Child Care and Development;
   - Consolidated Categorical Aid;
   - Course Periods without Educational Content;
   - Education of Pupils in Foster Care, Pupils who Are Homeless, Migratory Pupils, former Juvenile Court Pupils now Enrolled in a public school and Children of Military Families;
   - Every Student Succeeds Act;
   - Local Control & Accountability Plans (LCAP)/LCFF;

- Migrant Education;
- Physical Education Instructional Minutes;
- Pupil Fees;
- Regional Occupational Centers and Programs;
- School Plans for School Achievement;
- School Safety Plans;
- Schoolsite Councils.

3. Complaints alleging that a student enrolled in a public school was required to pay a pupil fee for participation in an educational activity as those terms are defined below.

    a. "Educational activity" means an activity offered by the charter school that constitutes an integral fundamental part of elementary and secondary education, including, but not limited to, curricular and extracurricular activities.

    b. "Pupil fee" means a fee, deposit or other charge imposed on students, or a student's parents/guardians, in violation of Education Code section 49011 and Section 5 of Article IX of the California Constitution, which require educational activities to be provided free of charge to all students without regard to their families' ability or willingness to pay fees or request special waivers. Pupil fees include:

        i. A fee charged to a student as a condition for registering for school or classes, or as a condition for participation in a class or an extracurricular activity, regardless of whether the class or activity is elective or compulsory or is for credit.

        ii. A security deposit, or other payment, that a student is required to make to obtain a lock, locker, book, class apparatus, musical instrument, uniform or other materials or equipment.

        iii. A purchase that a student is required to make to obtain materials, supplies, equipment or uniforms associated with an educational activity.

    c. Complaints regarding pupil fees, local control and accountability plans ("LCAP"), or noncompliance with Education Code sections 243 or 244 only, may be filed anonymously (without an identifying signature) if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with the respective applicable laws.

    d. If MPS finds merit in a pupil fees complaint, or the California Department of Education ("CDE") finds merit in an appeal, MPS shall provide a remedy to all affected students, parents/guardians that, where applicable, includes reasonable efforts by MPS to ensure full reimbursement to all affected students and parents/guardians, subject to procedures established through regulations adopted by the state board.

    e. Nothing in this Policy shall be interpreted to prohibit solicitation of voluntary donations of funds or property, voluntary participation in fundraising activities, or MPS and other entities from providing student prizes or other recognition for voluntarily participating in fundraising activities.

4. Complaints alleging noncompliance with the requirements governing the Local Control Funding Formula ("LCFF") or LCAP under Education Code sections 47606.5 and 47607.3, as applicable are subject to the UCP. If MPS adopts a School Plan for Student Achievement in addition to its LCAP, complaints of noncompliance with the requirements of the School Plan for Student Achievement under Education Code sections 64000, 64001, 65000, and 65001 shall also fall under this Policy.

    Complaints alleging noncompliance regarding child nutrition programs established pursuant to Education Code sections 49490-49590 no longer fall under the UCP. Instead, they are governed by Title 7, Code of Federal Regulations ("C.F.R.") sections 210.19(a)(4), 215.1(a), 220.13(c), 225.11(b), 226.6(n), and 250.15(d) and Title 5, California Code of Regulations ("C.C.R.") sections 15580 - 15584.

    Complaints alleging noncompliance regarding special education programs established pursuant to Education Code sections 56000-56865 and 59000-59300 no longer fall under the UCP. Instead, they are governed by the procedures set forth in 5 C.C.R. sections 3200-3205 and 34 C.F.R. sections 300.151-300.153.

    MPS acknowledges and respects every individual's right to privacy. Unlawful discrimination, harassment, intimidation or bullying complaints shall be investigated in a manner that protects (to the greatest extent practicable and as permitted by law) confidentiality of the parties, including but not limited to the identity of the complainant, and maintains the integrity of the process. MPS cannot

assure anonymity or confidentiality of the complainant's identity MPS may find it necessary to disclose information regarding the complaint/complainant to the extent required by law or necessary to carry out the investigation or proceedings, as determined by the CEO, MPS campus Principal, or designee on a case-by-case basis. MPS shall take reasonable steps to protect complainants from retaliation.

Compliance Officer

The Board of Directors designates the following compliance officer(s) to receive and investigate complaints and to ensure MPS' compliance with law:

CEO and Superintendent
Magnolia Public Schools
250 E. 1st St STE 1500
Los Angeles, CA 90012
(213) 628-3634
ceo@magnoliapublicschools.org

Upon receipt of a complaint, the CEO will appropriately assign to the Principal of the MPS campus attended by the complainant. That Principal and/or designee shall investigate the complaint, with oversight by the CEO.

The CEO or designee shall ensure that the compliance officer(s) designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. The compliance officer may have access to legal counsel as determined by the CEO or designee.

Should a complaint be filed against the CEO, the compliance officer for that case shall be the President of the MPS Board of Directors.

Notifications

The CEO or designee shall make available copies of this Policy free of charge. The annual notice of this Policy will be made available on MPS' website.

MPS shall annually provide written notification of MPS' UCP to employees, students, parents/guardians, advisory committees, private school officials or representatives, and other interested parties as applicable.

The annual notice shall be in English. When necessary under Education Code section 48985, if fifteen (15) percent or more of the students enrolled in MPS speak a single primary language other than English, this annual notice will also be provided to the parent/guardian of any such students in their primary language.

The annual notice shall include the following:

1. A list of the types of complaints that fall under the scope of the UCP and the state and federal provisions that govern complaints regarding child nutrition programs and special education programs.
2. A statement clearly identifying any California State preschool programs that MPS is operating as exempt from licensing pursuant to Health and Safety Code section 1596.792(o) and corresponding Title 5 health and safety regulations, and any California State preschool programs that MPS is operating pursuant to Title 22 licensing requirements.
3. A statement that MPS is primarily responsible for compliance with federal and state laws and regulations.
4. A statement that a student enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity.
5. A statement identifying the title of the compliance officer, and the identity(ies) of the person(s) currently occupying that position, if known.
6. A statement that if a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.
7. A statement that the complainant has a right to appeal MPS' decision to the CDE by filing a written appeal within thirty (30) calendar days of the date of MPS' decision, except if MPS has used its UCP to address a complaint that is not subject to the UCP requirements.
8. A statement that a complainant who appeals MPS' decision on a UCP complaint to the CDE shall receive a written appeal decision within sixty (60) calendar days of the CDE's receipt of the appeal, unless extended by written agreement with the complainant or the CDE documents exceptional circumstances and informs the complainant.
9. A statement that if MPS finds merit in a UCP complaint, or the CDE finds merit in an appeal, MPS shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.
10. A statement advising the complainant of any civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, if applicable, and of the appeal pursuant to Education Code section 262.3.
11. A statement that copies of MPS' UCP shall be available free of charge.

The UCP Annual Notice, the UCP, and the complaint form for the UCP are all included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the CEO.

Note: It is not required to use the complaint form for the UCP to file a UCP complaint. If the complainant is unable to put the complaint in writing, due to a disability or

illiteracy, we shall assist the complainant in the filing of the complaint.

Procedures

The following procedures shall be used to address all complaints which allege that MPS has violated federal or state laws or regulations enumerated in the section "Scope," above. The compliance officer shall maintain a record of each complaint and subsequent related actions for at least three (3) calendar years.

All parties named shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

- **Step 1: Filing of Complaint**

Any individual, including a person's duly authorized representative or an interested third party, public agency, or organization may file a written complaint of alleged noncompliance or unlawful discrimination, harassment, intimidation or bullying pursuant to this Policy.

A complaint of unlawful discrimination, harassment, intimidation or bullying may be filed by an individual who alleges that that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying or by one who believes any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint no later than six (6) months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the CEO, Principal, or designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the CEO, Principal, or designee shall be made in writing. The period for filing may be extended by the CEO, Principal, or designee for good cause for a period not to exceed ninety (90) calendar days following the expiration of the six-month time period. The CEO, Principal, or designee shall respond immediately upon a receipt of a request for extension.

All other complaints under this Policy shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the MPS Board of Directors approved the LCAP or the annual update was adopted by MPS.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Complaints filed pursuant to this Policy must be in writing and signed. A signature may be handwritten, typed (including in an email) or electronically generated. Only complaints regarding pupil fees or LCAP compliance may be filed anonymously as set forth in this Policy. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, MPS staff shall assist the complainant in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) business days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process. Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information. If the mediation process does not resolve the complaint to the satisfaction of the complainant, the compliance officer shall proceed with the investigation of the complaint. The use of mediation shall not extend MPS' timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) business days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or the complainant's representative to repeat the complaint orally.

The complainant and/or the complainant's representative shall have an opportunity to present evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide the compliance officer with documents or other evidence related to the allegations in the complaint, or a complainant's failure or refusal to cooperate in the investigation or the complainant's engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

MPS' refusal to provide the compliance officer with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- **Step 4: Final Written Decision**

MPS shall issue an investigation report (the "Decision") based on the evidence. MPS' Decision shall be in writing and sent to the complainant within sixty (60) calendar days of MPS' receipt unless the timeframe is extended with the written agreement of the complainant. MPS' Decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The Decision shall include:

1. The findings of fact based on evidence gathered.

2. The conclusion providing a clear determination for each allegation as to whether MPS is in compliance with the relevant law.
3. Corrective actions, if MPS finds merit in the complaint and any are warranted or required by law.
4. Notice of the complainant's right to appeal MPS' Decision within thirty (30) calendar days to the CDE, except when MPS has used its UCP to address a complaints that are not subject to the UCP requirements.
5. Procedures to be followed for initiating such an appeal.

If an employee is disciplined as a result of the complaint, the Decision shall simply state that effective action was taken and that the employee was informed of MPS' expectations. The Decision shall not give any further information as to the nature of the disciplinary action except as required by applicable law.

Appeals to the CDE

If dissatisfied with the Decision, the complainant may appeal in writing to the CDE within thirty (30) calendar days of receiving the Decision. The appeal shall be accompanied by a copy of the complaint filed with MPS and a copy of the Decision. When appealing to the CDE, the complainant must specify and explain the basis for the appeal, including at least one of the following:

1. MPS failed to follow its complaint procedures.
2. Relative to the allegations of the complaint, MPS's Decision lacks material findings of fact necessary to reach a conclusion of law.
3. The material findings of fact in MPS' Decision are not supported by substantial evidence.
4. The legal conclusion in MPS' Decision is inconsistent with the law.
5. In a case in which MPS' Decision found noncompliance, the corrective actions fail to provide a proper remedy.

Upon notification by the CDE that the complainant has appealed the Decision, the Principal or designee, under oversight by the CEO, shall forward the following documents to the CDE within ten (10) calendar days of the date of notification:

1. A copy of the original complaint.
2. A copy of the Decision.
3. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by the parties or gathered by the investigator.
4. A report of any action taken to resolve the complaint.
5. A copy of MPS' complaint procedures.
6. Other relevant information requested by the CDE.

If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to MPS for resolution as a new complaint. If the CDE notifies MPS that its Decision failed to address an allegation raised by the complaint and subject to the UCP process, MPS will investigate and address such allegation(s) in accordance with the UCP requirements and provide the CDE and the appellant with an amended Decision addressing such allegation(s) within twenty (20) calendar days of the CDE's notification. The amended Decision will inform the appellant of the right to separately appeal the amended Decision with respect to the complaint allegation(s) not addressed in the original Decision.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision. The SSPI will not consider any information not previously submitted to the CDE by a party during the appeal unless such information was unknown to the party at the time of the appeal and, with due diligence, could not have become known to the party. Pending the SSPI's response to a request for reconsideration, the CDE appeal Decision remains in effect and enforceable, unless stayed by a court. The CDE may directly intervene in the complaint without waiting for action by MPS when one of the conditions listed in 5 C.C.R. section 4650 exists, including but not limited to cases in which through no fault of the complainant, MPS has not taken action within sixty (60) calendar days of the date the complaint was filed with MPS.

If Charter School fails to issue an investigation report within the required sixty (60) calendar day timeline, a party to a written complaint of prohibited discrimination may appeal directly to the SSPI. The complaint must provide evidence supporting the basis for direct filing and explain why immediate action is necessary.

Complaints alleging noncompliance with Education Code section 243 or 244 may be filed with the SSPI directly, and the SSPI may directly intervene without waiting for an investigation by MPS. The complainant shall present the SSPI with evidence that supports the basis for the direct filing and why immediate action is necessary.

Civil Law Remedies

A complainant may pursue available civil law remedies outside of MPS' complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders.

Complainants alleging a violation of Education Code section 220, 243, 244, 51500, 51501, or 60044, may seek civil remedies after sixty (60) calendar days have elapsed from the filing of an appeal with the CDE. before pursuing civil law remedies. The waiting period does not apply to injunctive relief and is applicable only if MPS has appropriately, and in a timely manner, apprised the complainant of their right to file a complaint.

General Complaint Procedures

The ultimate purpose of this general complaint procedure is to encourage the growth and development of MPS as a healthy community. Conflict is often a part of any development or growth process and may arise in any community. An effective process for resolving conflict is therefore both consistent with the vision and mission of MPS, and an essential component of the communication model that our School has adopted.

MPS recognizes that effective communication is paramount in effective conflict resolution and therefore strongly encourages communication strategies that include: Taking personal responsibility for one's own feelings and needs; communication that mutually acknowledges the needs and concerns of one another; and demonstrating honesty and integrity in every interaction.

LEVEL 1: Direct Resolution

If reasonably possible, general complaints should be resolved at the lowest possible level, including attempts to discuss/resolve concerns with the person directly using conflict resolution skills without the intervention of a supervisor or other School administrator. It is the hope of MPS that most disputes can be resolved informally by direct and healthy communication between individuals. Such attempts at informal resolution should be documented in writing to assist the Principal (or CEO & Superintendent) and/or Board of Directors to participate effectively in the conflict's resolution.

Examples:

- Pedagogical issues pertaining to anything that occurs in the classroom, i.e., teaching, curriculum, classroom management, or teacher-student relationships, should be addressed directly with the class teacher. Teachers can be contacted by email, written note or via appointment.
- Complaints/concerns about employees or supervisors that do not involve complaints of discrimination or harassment or violations of law should be first addressed with the employee or supervisor directly.

  If the person(s) involved are unable to resolve the conflict or complaint, the complainant should contact the immediate/appropriate supervisor in an effort to resolve the issue.

LEVEL 2: School Level Resolution

At this step, the complainant should be prepared to give details about the complaint and steps taken to resolve it. The immediate/appropriate supervisor will acknowledge receipt of the complaint in **three (3)** working days, investigate the complaint, a process which normally involves a discussion with the complainant, gathering of relevant facts and evidence, and respond to the complainant within **ten (10)** working days.

Examples:

- Pedagogical, academic or teacher related issues should be addressed with the Dean of Academics/Assistant Principal.
- Student behavior and discipline issues should be addressed with the Dean of Students/Assistant Principal.
- All other issues should be addressed with the Principal.

If the complainant is not satisfied with the response from the immediate/appropriate supervisor, e.g., Dean of Academics/Students or Assistant Principal or the complaint should be directly addressed with the Principal, the complainant should contact the Principal, who will respond within the same timeline. If the complainant is still dissatisfied, and wishes to take it further, the complainant, in writing, should bring the matter to the attention of the CEO & Superintendent of MPS in an effort to resolve the issue.

LEVEL 3: MPS Home Office ("Home Office") Level Resolution

At this step, the complainant should fill out the attached **"General Complaint Procedures Form"** giving details about the complaint and steps taken to resolve it, and contact the CEO & Superintendent of MPS at:

CEO & Superintendent
Magnolia Public Schools
250 E. 1st St. Ste 1500
Los Angeles, CA 90012
(213) 628-3634

The CEO & Superintendent (designee) will acknowledge receipt of the written complaint in **five (5)** working days, attempt to identify a resolution that is acceptable to both parties, within **fifteen (15)** working days of the receipt of the written complaint.

If the complainant is not satisfied with the response from the CEO & Superintendent (designee), and wishes to take it further, the complainant, in writing, should bring the matter to the attention of the MPS Board of Directors ("the Board.")

LEVEL 4: Board Level Resolution*

At this step, the complainant can file a written complaint with the Board through the Administrative Assistant at the MPS Home Office. *(Same contact information as in Level 3)* The complainant should update the "General Complaint Procedures Form" that was used in Level 3. The Administrative Assistant will acknowledge receipt of the written complaint in **five (5)** working days. The Board may consider the matter at its next regular Board meeting or at a special board meeting convened in order to meet the internal 60-day target within which MPS strives to answer the complaint. The Board may decide not to hear the complaint, in which case the CEO & Superintendent's decision will be final. If the Board hears the complaint, the Administrative Assistant will send the Board's decision to the complainant within **sixty (60)** days of the School's initial receipt of the complaint or within the time period that has been specified in a written agreement with the complainant. The decision of the Board shall be final.

* For MSA-San Diego, MSA-San Diego Governance Committee will work with the Principal and the Home Office in following the General Complaint Procedures to resolve internal complaints and conflicts before they escalate to the MPS Board level.

The complainant has a right to appeal the Board's decision to the California Department of Education (CDE). In that case, the complainant needs to fill out a **"Uniform Complaint Procedure Form"** - provided in this handbook – and file it within **fifteen (15)** days of receiving the decision. The appeal must include a copy of the complaint filed with the School and a copy of the Board's decision. The appeal should be sent to:

California Department of Education
1430 N Street
Sacramento, CA 95814

Complaint form for the **"General Complaint Procedures"** and the **"Uniform Complaint Procedures"** are included in the Student/Parent Handbook. Copies are also available in the school office free of charge and on the school website.

INFORMATION SHEETS & NOTICES

MAGNOLIA PUBLIC SCHOOLS

2026-27 Directory Information Release Opt-Out Form

(Applicable Only for the Current School Year)

COMPLETE THIS FORM ONLY IF YOU ARE OPTING OUT.

Student Name: _____ Date of Birth: _____

Address: _____

City: _____ Zip Code: _____

Telephone No.: _____ Grade: _____

School: _____

The primary purpose of directory information is to allow MPS to include this type of information from your child's education records in certain school publications. Directory information includes names, addresses and telephone listings, information that is generally not considered harmful or an invasion of privacy if released.

The Family Educational Rights and Privacy Act (FERPA) permits MPS to disclose appropriately designated "directory information" without written consent, unless you have advised MPS that you do not want your student's directory information disclosed without your prior written consent.

Directory information regarding pupil identified as a homeless child or youth shall not be released unless a parent, or eligible pupil, has provided written consent that directory information may be released.

Student Directory Information

☐ I **do not** wish to have any directory information released to any individual or organization.

2026-27 Cal Grant Program Opt-Out Form

(For students in the 11th grade)

COMPLETE THIS FORM ONLY IF YOU ARE OPTING OUT.

Student Name: _____ Date of Birth: _____

Address: _____

City: _____ Zip Code: _____

Telephone No.: _____ Grade: _____

School: _____

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements. Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

In order to assist students in applying for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant. Unless the school is notified while the student is in the 11th grade that he/she does not want to be considered a Cal Grant applicant, the student's GPA will be submitted to the California Student Aid Commission (CASC) electronically by a school or school district official before October 1 of the student's 12th grade year.

Please indicate below if you would not like the school to electronically send CASC the student's GPA when he/she is in the 12th grade. Until a student turns 18 years of age, only the parent/guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself/herself out, and can opt in if the parent/guardian had previously decided to opt out the student.

☐ I **do not** want my/my student's GPA to be sent to CASC in the 12th grade.

2026-27 Annual Pesticide Notification Request

(Applicable Only for the Current School Year)

Parents/guardians can register with the school to receive notification of individual pesticide applications. Persons who register for this notification shall be notified at least seventy-two (72) hours prior to the application, except in emergencies, and will be provided the name and active ingredient(s) of the pesticide as well as the intended date of application.

Parents/guardians seeking access to information on pesticides and pesticide use reduction developed by the Department of Pesticide Regulation pursuant to California Food and Agricultural Code section 13184, can do so by accessing the Department's web-site at www.cdpr.ca.gov.

Student Name: _____ Date of Birth: _____

Address: _____

City: _____ Zip Code: _____

Telephone No.: _____ Grade: _____

School: _____

☐ I would like to be pre-notified every time a pesticide application is to take place at the school. I understand that the notification will be provided at least 72 hours before the application.

2026-27 Concussion Information Sheet

(Applicable Only for the Current School Year)

A concussion is a type of brain injury and all brain injuries are serious. A concussion can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. It can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a "ding" or a bump on the head can be serious.** You can't see a concussion and most sports concussions occur without loss of consciousness.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion may show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion listed below, or if you notice the symptoms or signs of concussion yourself, your child should be kept out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, determines that your child is symptom-free and able to return to play.

Signs observed by coaching staff…	***Symptoms reported by athletes……***
Appears dazed or stunned	Headache or "pressure" in head
Is confused about assignment or position	Nausea or vomiting
Forgets an instruction	Balance problems or dizziness
Is unsure of game, score, or opponent	Double or blurry vision
Moves clumsily	Sensitivity to light
Answers questions slowly	Sensitivity to noise
Loses consciousness (even briefly)	Feeling sluggish, hazy, foggy, or groggy
Shows mood, behavior, or personality changes	Concentration or memory problems
Can't recall events *prior* to hit or fall	Confusion
Can't recall events *after* hit or fall	Just not "feeling right" or "feeling down"

Concussions affect people differently. While most athletes with concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer. In rare cases, a dangerous blood clot may form on the brain and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body she/he exhibits any of the following danger signs:

One pupil is larger than the other	Convulsions or seizures
Is drowsy or cannot be awakened	Cannot recognize people or places
Weakness, numbness, or decreased coordination	Repeated vomiting or nausea
Slurred speech	Has unusual behavior
A headache that not only does not diminish, but gets worse	Becomes increasingly confused, restless, or agitated
Loses consciousness	

WHY MUST AN ATHLETE BE REMOVED FROM PLAY AFTER A CONCUSSION?

If an athlete has a concussion, his/her brain needs time to heal. Continuing to play while the brain is still healing leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that young athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete's safety.

IF YOU THINK YOUR CHILD HAS SUFFERED A CONCUSSION

If you suspect that your child has a concussion, remove him/her from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance. Do not try to judge the severity of the injury yourself. Close observation of the athlete should continue for several hours. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, or playing video games, may cause concussion symptoms to reappear or get worse.

California Education Code section 49475 and the California Interscholastic Federation (CIF) Bylaw 313 require implementation of long and well-established return to play concussion guidelines that help ensure and protect the health of student athletes:

Any athlete who is suspected of sustaining a concussion or head injury in an athletic activity shall be immediately removed from the athletic activity for the remainder of the day, and shall not be permitted to return to the athletic activity until he or she is evaluated by a licensed health care provider who is trained in the management of concussions and is acting within the scope of his or her practice. The athlete shall not be permitted to return to the athletic activity until he or she receives written clearance to return to the athletic activity from that licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider.

It's better to miss one game than miss the whole season.

For more information, visit: http://www.cdc.gov/headsup/youthsports/index.html (Centers for Disease Control and Prevention) or http://www.cifstate.org/sports-medicine/concussions/student_parents (CIF)

MAGNOLIA PUBLIC SCHOOLS

2026-27 Prescription Opioids Information Sheet

(Applicable Only for the Current School Year)

Prescription opioids may be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

WHAT ARE THE RISKS AND SIDE EFFECTS OF OPIOID USE?

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death.

The use of prescription opioids can have a number of **side effects** as well, even when taken as directed:

- Tolerance – meaning you might need to take more of a medication for the same pain relief.
- Physical dependence – meaning you have symptoms of withdrawal when a medication is stopped.
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

RISKS ARE GREATER WITH:

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Pregnancy

Avoid alcohol while taking prescription opioids. Also, unless specifically advised by your health care provider, medications to avoid include:

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids

KNOW YOUR OPTIONS

Talk to your health care provider about ways to manage your pain that don't involve prescription opioids. Some of these options **may actually work better** and have fewer risks and side effects. Options may include:

- Pain relievers such as acetaminophen, ibuprofen, and naproxen
- Some medications that are also used for depression or seizures
- Physical therapy and exercise
- Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN

- Never take opioids in greater amounts or more often than prescribed.
- Follow up with your primary health care provider
    - Work together to create a plan on how to manage your pain
    - Talk about ways to help manage your pain that don't involve prescription opioids
    - Talk about any and all concerns and side effects.
- Help prevent misuse and abuse.
    - Never sell or share prescription opioids
    - Never us another person's prescription opioids
- Store prescription opioids in a secure place and out of reach of others including visitors, children, friends, and family.
- Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration (www.fda.gov/Drugs/ResourcesForYou).
- Visit www.cdc.gov/drugoverdose to learn about the risks of opioid abuse and overdose.
- If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

Be Informed! Make sure you know the name of your medication, how much and how often to take it, and its potential risks and side effects.

For more information, visit: www.cdc.gov/drugoverdose/prescribing/guideline.html

MAGNOLIA PUBLIC SCHOOLS

2026-27 Sudden Cardiac Arrest Information Sheet

(Applicable Only for the Current School Year)

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is not a heart attack. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. It is fatal in 92 percent of cases if not properly treated within minutes.

WHAT ARE THE WARNING SIGNS AND RISK FACTORS OF SCA?

SCA often has no warning signs. In fact, the first symptom could be death. Athletes (and often their parents) don't want to jeopardize their playing time, so they may avoid telling parents or coaches in hopes that the symptoms will "just go away" on their own. Or, they may think they're just out of shape and need to train harder. Student athletes need to recognize and seek help if any of the conditions listed below are present.

Potential indicators that SCA is about to happen:

- Racing heart, palpitations or irregular heartbeat
- Dizziness or lightheadedness
- Fainting or seizure, especially during or right after exercise
- Fainting repeatedly or with excitement or startle
- Chest pain or discomfort with exercise
- Excessive, unexpected fatigue during or after exercise
- Excessive shortness of breath during exercise

Factors that increase the risk of SCA:

- Family history of known heart abnormalities or sudden death before age 50
- Specific family history of Long QT Syndrome, Brugada Syndrome, Hypertrophic Cardiomyopathy, or Arrhythmogenic Right Ventricular Dysplasia (ARVD)
- Family members with unexplained fainting, seizures, drowning or near drowning or car accidents
- Known structural heart abnormality, repaired or unrepaired
- Use of drugs, such as cocaine, inhalants, "recreational" drugs or excessive energy drinks

HOW CAN THE CONDITIONS OF SCA BE DETECTED?

Physical Exam and Medical History. Prior to participating in athletics, students are required to get a physical and complete a medical history. This form asks questions about family history and heart conditions. The physical exam should include listening to the heart.

Heart Screening. An electrocardiogram (ECG) is an effective diagnostic tool that detects irregularities. An abnormal ECG exam can lead to other tests like an echocardiogram, stress test, Holter monitor and more.

IF YOU THINK YOUR CHILD HAS EXPERIENCED ANY SCA SYMPTOMS

If your child has experienced any SCA-related symptoms, it is crucial to get follow-up care as soon as possible with a primary care physician. If the athlete has any of the SCA risk factors, these should also be discussed with a doctor to determine if further testing is needed. Wait for the doctor's feedback before returning your child to play, and alert his/her coach, trainer and school nurse about any diagnosed conditions.

California Education Code section 33479.5 and the California Interscholastic Federation (CIF) Bylaw 503 require implementation of a sudden cardiac arrest protocol that helps ensure and protect the health of student athletes:

> *A student who passes out or faints while participating in or immediately following an athletic activity, or who is known to have passed out or fainted while participating in or immediately following an athletic activity, must be removed from participation at that time by the athletic director, coach, athletic trainer, or authorized person. A student who is*

removed from play after displaying signs and symptoms associated with sudden cardiac arrest may not be permitted to return to participate in an athletic activity until the student is evaluated and cleared to return to participate in writing by a physician and surgeon.

For more information, visit: http://cifstate.org/sports-medicine/sca/index. (CIF)

Cut and RETURN bottom portion only. Please keep upper portion for your information.

MAGNOLIA PUBLIC SCHOOLS

Volunteer Commitment and Procedures

The administration, staff, and students of Magnolia Public Schools ("MPS") are appreciative of all persons who are willing to commit time and energy to helping students succeed and to provide an excellent place of learning for all students. Most of the MPS activities and events simply would not happen without the participation of our volunteers.

Ways a Volunteer can help

- Room Parent
- Clerical Help
- Tutoring students (e.g.: math, computer activities, reading with students, etc.)
- Morning, lunch, yard, and/or dismissal supervision
- Chaperone Field Trips
- Help with special class events (e.g.: career fairs, fundraisers, etc.)
- Athletic support

Below are ethics and **guidelines** that must be followed while you are volunteering at MPS. These guidelines are designed:

- to promote a productive and safe environment
- to set appropriate expectations
- to clarify roles & responsibilities

APPLICATION AND SCREENING

Certified Volunteers ("C-Volunteers")

a. Who are C-Volunteers: These are volunteers that would like to volunteer with MPS on an ongoing basis.

b. Application Process: C-Volunteers must provide MPS with the following documents:

    - Volunteer Application Form (signed)
    - Volunteer Commitment Form (signed)
    - Fingerprinting and Background Clearance***** (if volunteering outside of the direct supervision of a credentialed employee)
    - Tuberculosis risk assessment or examination*****
    - Valid photo I.D. (driver's license, passport, military ID, US or other government identification)

Single Event Volunteers ("SE-Volunteers")

a. Who are SE-Volunteers: These are volunteers that would like to volunteer at MPS for a one (1) day special event or activity.

b. Application Process: SE-Volunteers are not required to submit a volunteer application but must comply with the Volunteering Guidelines below and provide MPS with a valid photo I.D.

***** Volunteers will be reimbursed for eligible live scan fingerprinting and TB screening fees.

CONFIDENTIALITY: Volunteers should realize that they have a position of trust. Personal information pertaining to students or staff, as well as conversations between parents, teachers, staff members, and students MUST be kept confidential. Volunteers are NOT permitted to view any part of a student's records including test scores, report cards, attendance reports, or any other document to that would be included in student records. What you SEE or HEAR in a classroom, hallway, bathroom, on a field trip, or on the playground should be considered confidential and only discussed with a teacher, counselor or principal. For MPS to provide the best environment for learning, everyone's privacy must be respected. No gossiping will be permitted.

LIABILITY: MPS is proud to provide liability coverage and an accident policy for its volunteers, after any other valid and collectible insurance. In order to have this protection, all volunteers must sign in on MPS' volunteer / visitor sign in sheet (in every school office) every time they volunteer. Volunteers are not covered by Workers' Compensation.

CHILD NEGLECT AND ABUSE REPORTING: MPS volunteers are obligated under mandatory child reporting laws to report any suspected child neglect or abuse. Please refer to MPS mandatory reporting guidelines located in the MPS Employee Handbook.

SUPERVISION: Volunteers perform under the direction and supervision of MPS personnel. Any volunteers who are volunteering outside of the direct supervision of a credentialed employee must be fingerprinted and receive background clearance. Volunteers should know and follow MPS policies and rules. MPS, in its discretion and without a statement of reasons, may suspend any volunteer from further volunteer activities. No statement by the MPS establishes a property right to perform volunteer work.

COMMUNICATION: If you are unable to make it to school when you are expected, please call MPS and leave a message. Similarly, MPS staff will contact you if your time is cancelled or changed for any unforeseen reason. You may contact the School Office at _____, or email _____ with questions or for assistance. Please be dependable and on-time. Teachers and staff count on you!

STUDENT/VOLUNTEER RELATIONSHIP: Volunteers function in a position of trust and MPS does not extend that volunteer / student trust relationship outside of the supervised school environment. It is the responsibility of the volunteer to notify MPS immediately if he/she becomes involved with a student / family outside the school environment.

DISCIPLINE: A teacher or staff member is responsible for student discipline. If you see a child behaving in a way that endangers themselves or others, you need to stop the behavior and report it to a staff member. If a student continues to be noncompliant, disrespectful, or disruptive after a verbal warning, please notify a teacher or staff member. Student safety is the responsibility of all adults, but student discipline is the responsibility of MPS staff.

SIGN IN: Volunteers should always sign in at the front desk. A volunteer should always have a visitor's pass/sticker on while working on campus or while acting as a chaperone on a class field trip.

CELL PHONE/PHOTO/SOCIAL MEDIA: Cell phones may be used on campus however we ask that you use a "silent setting" so that the class is not disturbed. Phones should only be used for emergencies. Volunteers are not allowed to take photos or post on social media unless approved by MPS.

EMERGENCY PROCEDURES: Classroom procedures and escape routes are located in each room. Drills are performed throughout the year. During a fire drill, the entire building is evacuated and each classroom reports to a designated area outside on the MPS campus. Please take the time to familiarize yourself with these safety plans.

I have read the above information and agree to the guidelines and responsibilities.

MAGNOLIA PUBLIC SCHOOLS

Acceptable Use of Technology Agreement

As a user of Charter School technologies, I have read Student Use of Technology Policy and hereby agree to comply with it and the Acceptable Use Agreement.

I understand that use of school technology (including computers, email addresses, laptops, internet, and other technology resources) is a privilege and not a right. I understand that students who violate this policy in any way will be subject to discipline per school policies.

I understand that students will be provided a school email address and that teachers may communicate directly with students through this school email and applications including but not limited to StudentSquare, Infinite Campus, and Google Classroom. As a student, I understand and agree to utilize my school email address respectfully and professionally by 1) only using my school email address for school-related communications with my teachers, other staff, or other students as required, 2) not using my school email address to register for websites or applications unless directed by a teacher. I understand and agree that all regulations specified in the MPS Technology Policy and Acceptable Use Agreement, including the prohibition against cyberbullying, are applicable to any and all communications I send using my school-issued email address.

I understand that computer use is a privilege and not a right. I understand that students who violate this policy in any way will be subject to a referral and possible suspension or expulsion. I understand that if a student willfully damages MPS property, including but not limited to MPS's technology, equipment and networks, or fails to return MPS's property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct up to an amount not to exceed ten thousand dollars ($10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, MPS may withhold the student's grades, transcripts, and diploma until the damages have been paid or the property has been returned. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, MPS will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades, transcripts and diploma will be released. When the minor and parent are unable to pay for the damages, the Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. A student over the age of majority shall be liable for the same. (Ed. Code § 48904).

Receipt of and Agreement to the MPS Student/Parent Handbook

and the School-Parent-Student Compact

I have received a copy of the Magnolia Public Schools Student/Parent Handbook including the Student Use of Technology Policy-Acceptable Use of Technology Agreement, and the School-Parent-Student Compact, or I can access it at the school website. I understand that it is a source of information and a set of guidelines for implementation of school policies and procedures.

I have read, understood, and agreed to the Student/Parent Handbook and the policies within, including the Student Technology Use Policy-Acceptable Use Agreement and School-Parent-Student Compact.

I understand that Magnolia Public Schools can unilaterally rescind, modify, or make exceptions to any of these policies, or adopt new policies, at any time. I also understand that the provisions of the Handbook will control over any contrary statements, representations or assurances made by any supervisory personnel except those made in writing by the CEO & Superintendent or his or her designee.

Notes

- Please read and discuss the policies, procedures, and expectations with your child/children before signing and returning the receipt on this page.
- Each individual MPS school may include amendments into this handbook addressing local issues.
- Any changes or additions to this handbook will be given to the students and parents/guardians in writing.

Approval of 2026-27 Certification of Assurances, Protected Prayer Certification, and Application for Funding

Section: V. Consent Items
Item: B. Approval of 2026-27 Certification of Assurances, Protected Prayer Certification, and Application for Funding
Purpose: Vote
Submitted by:
Related Material: V.B - Approval of Certification of Assurances.pdf

Agenda Item:	V.B – Consent Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Cafer Turan, Interim Chief Financial Officer
RE:	2026-27 Certification of Assurances, Protected Prayer Certification, Application for Funding

Action Proposed

Staff recommend that the Board approve the 2026–27 Certification of Assurances, 2026–27 Protected Prayer Certification, and 2026–27 Application for Funding and General Assurances as presented.

Purpose:

The purpose of the Certification of Assurances, Protected Prayer Certification, and Application for Funding is to comply with federal requirements in order to continue receiving federal funds, including Entitlement Programs (Title I, II, III, and IV), Special Education IDEA, and other federal funding sources for the 2026–27 school year.

Background:

The Consolidated Application (ConApp) is used by the California Department of Education (CDE) to distribute categorical funds from various state and federal programs to county offices of education, school districts, and direct-funded charter schools throughout California.

Each year, local educational agencies (LEAs) submit the spring release of the application to document participation in these programs and to provide assurances of compliance with all applicable legal requirements. Program entitlements are determined by formulas established in the authorizing legislation.

The items requiring Board approval are attached. These documents must be approved within six weeks of the release of the Consolidated Application Reporting System (CARS). The 2026–27 CARS release date is anticipated in June 2026.

Analysis:

All projected federal funding has been incorporated into the 2026–27 Adopted Budget in accordance with California Education Code requirements.

Exhibits:

• 2026–27 Certification of Assurances
• 2026–27 Protected Prayer Certification
• 2026–27 Application for Funding

2026–27 Certification of Assurances

Submission of Certification of Assurances is required every fiscal year. A complete list of legal and program assurances for the fiscal year can be found at https://www.cde.ca.gov/fg/aa/co/ca26assurancestoc.asp.

CDE Program Contact:

Consolidated Application Support Desk, Education Data Office, ConAppSupport@cde.ca.gov, 916-319-0297

Consolidated Application Certification Statement

I hereby certify that all of the applicable state and federal rules and regulations will be observed by this applicant; that to the best of my knowledge the information contained in this application is correct and complete; and I agree to participate in the monitoring process regarding the use of these funds according to the standards and criteria set forth by the California Department of Education Federal Program Monitoring (FPM) Office. Legal assurances for all programs are accepted as the basic legal condition for the operation of selected projects and programs and copies of assurances are retained on site. I certify that we accept all assurances except for those for which a waiver has been obtained or requested. A copy of all waivers or requests is on file. I certify that actual ink signatures for this form are on file.

2026–27 LCAP Federal Addendum Certification

CDE Program Contact:
Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

County Office of Education (COE) or District For a COE, enter the original approval date as the day the CDE approved the current LCAP. For a district, enter the original approval date as the day the COE approved the current LCAP

2026–27 Substitute System for Time Accounting

This certification may be used by auditors and by California Department of Education (CDE) oversight personnel when conducting audits and sub-recipient monitoring of the substitute time-and-effort system. Approval is automatically granted when the local educational agency (LEA) submits and certifies this data collection.

CDE Program Contact:

Hilary Thomson, Fiscal Oversight and Support Office, HThomson@cde.ca.gov, 916-323-0765

The LEA certifies that only eligible employees will participate in the substitute system and that the system used to document employee work schedules includes sufficient controls to ensure that the schedules are accurate.

Detailed information on documenting salaries and wages, including both substitute systems of time accounting, are described in Procedure 905 of the California School Accounting Manual posted on the CDE web site at https://www.cde.ca.gov/fg/ac/sa/.

2026–27 Request for authorization	Yes
LEA certifies that the following is a full disclosure of any known deficiencies with the substitute system or known challenges with implementing the system (Maximum 500 characters)	No known deficiencies.

Warning
The data in this report may be protected by the Family Educational Rights and Privacy Act (FERPA) and other applicable data privacy laws. Unauthorized access or sharing of this data may constitute a violation of both state and federal law.

2026–27 Substitute System for Time Accounting

This certification may be used by auditors and by California Department of Education (CDE) oversight personnel when conducting audits and sub-recipient monitoring of the substitute time-and-effort system. Approval is automatically granted when the local educational agency (LEA) submits and certifies this data collection.

CDE Program Contact:

Hilary Thomson, Fiscal Oversight and Support Office, HThomson@cde.ca.gov, 916-323-0765

The LEA certifies that only eligible employees will participate in the substitute system and that the system used to document employee work schedules includes sufficient controls to ensure that the schedules are accurate.

Detailed information on documenting salaries and wages, including both substitute systems of time accounting, are described in Procedure 905 of the California School Accounting Manual posted on the CDE web site at https://www.cde.ca.gov/fg/ac/sa/.

2026–27 Request for authorization	Yes
LEA certifies that the following is a full disclosure of any known deficiencies with the substitute system or known challenges with implementing the system (Maximum 500 characters)	No known deficiencies.

Warning
The data in this report may be protected by the Family Educational Rights and Privacy Act (FERPA) and other applicable data privacy laws. Unauthorized access or sharing of this data may constitute a violation of both state and federal law.

2026–27 Certification of Assurances

Submission of Certification of Assurances is required every fiscal year. A complete list of legal and program assurances for the fiscal year can be found at https://www.cde.ca.gov/fg/aa/co/ca26assurancestoc.asp.

CDE Program Contact:

Consolidated Application Support Desk, Education Data Office, ConAppSupport@cde.ca.gov, 916-319-0297

Consolidated Application Certification Statement

I hereby certify that all of the applicable state and federal rules and regulations will be observed by this applicant; that to the best of my knowledge the information contained in this application is correct and complete; and I agree to participate in the monitoring process regarding the use of these funds according to the standards and criteria set forth by the California Department of Education Federal Program Monitoring (FPM) Office. Legal assurances for all programs are accepted as the basic legal condition for the operation of selected projects and programs and copies of assurances are retained on site. I certify that we accept all assurances except for those for which a waiver has been obtained or requested. A copy of all waivers or requests is on file. I certify that actual ink signatures for this form are on file.

2026–27 LCAP Federal Addendum Certification

CDE Program Contact:
Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

County Office of Education (COE) or District For a COE, enter the original approval date as the day the CDE approved the current LCAP. For a district, enter the original approval date as the day the COE approved the current LCAP	
Direct Funded Charter Enter the adoption date of the current LCAP	06/26/2025

2026–27 LCAP Federal Addendum Certification

CDE Program Contact:
Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

County Office of Education (COE) or District For a COE, enter the original approval date as the day the CDE approved the current LCAP. For a district, enter the original approval date as the day the COE approved the current LCAP	
Direct Funded Charter Enter the adoption date of the current LCAP	06/26/2025
Authorized Representative's Full Name	James Choe
Authorized Representative's Title	Principal

2026–27 Application for Funding

CDE Program Contact:
Consolidated Application Support Desk, Education Data Office, ConAppSupport@cde.ca.gov, 916-319-0297

Local Governing Board Approval

The local educational agency (LEA) is required to review and receive approval of their Application for Funding selections with their local governing board.

By checking this box the LEA certifies that the Local Board has approved the Application for Funding for the listed fiscal year	Yes

District English Learner Advisory Committee Review

Per Title 5 of the California Code of Regulations Section 11308, if your LEA has more than 50 English learners, then the LEA must establish a District English Learner Advisory Committee (DELAC) which shall review and advise on the development of the application for funding programs that serve English learners.

By checking this box the LEA certifies that parent input has been received from the District English Learner Committee (if applicable) regarding the spending of Title III funds for the listed fiscal year	No

Application for Categorical Programs

To receive specific categorical funds for a school year, the LEA must apply for the funds by selecting Yes below. Only the categorical funds that the LEA is eligible to receive are displayed.

Title I, Part A (Basic Grant) ESSA Sec. 1111 et seq. SACS 3010	Yes
Title II, Part A (Supporting Effective Instruction) ESEA Sec. 2104 SACS 4035	Yes
Title III English Learner ESEA Sec. 3102 SACS 4203	Yes
Title III Immigrant ESEA Sec. 3102 SACS 4201	Yes
Title IV, Part A (Student and School Support) ESSA Sec. 4101 SACS 4127	Yes

2026–27 LCAP Federal Addendum Certification

CDE Program Contact:
Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

County Office of Education (COE) or District For a COE, enter the original approval date as the day the CDE approved the current LCAP. For a district, enter the original approval date as the day the COE approved the current LCAP

Approval of 2026-27 Certification of Signatures Form and Resolution

Section:	V. Consent Items
Item:	C. Approval of 2026-27 Certification of Signatures Form and Resolution
Purpose:	Vote
Submitted by:	
Related Material:	V.D - Approval of 2026-27 Certification of Signatures_Final.pdf

Agenda Item:	V.D - Consent Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Cafer Turan, Interim Chief Financial Officer
RE:	Approval of 2026-27 Certification of Signatures Form

Recommendation

Staff moves that the Board approve the **2026–27 Certification of Signatures Form for Charter School Funds Distribution Authorization**. Signatures will be effective **July 1, 2026 through June 30, 2027**.

Authorized signatories will include the **CEO/Superintendent, Deputy Superintendent, Chief Financial Officer, Chief Operations Officer, and MPS Governing Board Members**.

Purpose
The purpose of this form is to update the **Los Angeles County Office of Education (LACOE)** on the list of authorized signers on behalf of Magnolia Public Schools (MPS) for the **2026–27 school year**.

Background
In accordance with **Education Codes 35143, 42632, and 42633**, the Certification of Signatures form is required to formalize the personnel authorized to sign orders for salary or commercial payments, notices of employment, and contracts.

The current form expires **June 30, 2026**. The new form will be effective **July 1, 2026 through June 30, 2027**.

Analysis
In compliance with the California Education Code, local education agencies are required to maintain an updated Certification of Signatures form to ensure proper authorization of financial and contractual documents.

No significant changes to authorized positions are proposed for the 2026–27 school year unless otherwise noted. Any updates to personnel or roles will be reflected in the final submitted form.

Exhibits

Approval of MPS Annual Master List of Contracts for 2026-27 Fiscal Year

Section: V. Consent Items
Item: D. Approval of MPS Annual Master List of Contracts for 2026-27 Fiscal Year
Purpose: Vote
Submitted by:
Related Material: V.E - MasterContracts_FY2627.pdf

Agenda Item:	V.E - Consent Items
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Cafer Turan, Interim Chief Financial Officer
RE:	Approval of FY 2026-27 Annual Vendor and Master Contracts List

Action Proposed

Staff moves that the Board approve the FY 2026-27 Annual Vendor and Master Contracts List for Magnolia Public Schools for the period of July 1, 2026 through June 30, 2027.

Purpose:

MPS annually presents a comprehensive vendor and master contracts list to the Board for approval prior to the start of each fiscal year. Board approval provides formal authorization for staff to execute agreements consistent with MPS's approved budget and procurement policies.
The FY 2026-27 contract list is intended to:

- Authorize all third-party vendor relationships across MPS's 11 sites for FY 2026-27
- Ensure compliance with California charter school procurement requirements, including RFP for contracts over $90,000
- Align vendor commitments with the Board-approved 2026-27 operating budget
- Support fiscal transparency and accountability in vendor contracting and renewal decisions

Background:

MPS contracts with a wide range of third-party vendors to deliver academic programs, special education services, facilities management, technology, operations, and administrative support across its schools and the CMO. Each year, staff reviews existing vendor relationships and identifies renewal or new contract needs aligned to the adopted budget.
The FY 2026-27 master contracts list encompasses 83 vendor contracts across all departments. Of these, 43 contracts have estimated values at or above $90,000 and are subject to RFP requirements per MPS procurement policy.

Analysis:

Staff has reviewed all vendor relationships, service delivery history, and pricing for FY 2026-27. Contract

values reflect current enrollment projections, organizational needs, and updated service agreements across all departments.
The contract list:

- Ensures continuity of critical academic, operational, and support services across all 11 MPS sites
- Reflects compliance with procurement requirements, including RFP for the 43 contracts at or above $90,000
- Is aligned to the Board-approved FY 2026-27 operating budget
- Supports ongoing fiscal monitoring and internal controls throughout the year
- Staff will continue monitoring contract performance, service delivery, and budget-to-actual results throughout FY 2026-27

Exhibits:

- FY 2026-27 Annual Vendor and Master Contracts List (Exhibit A)

Coversheet

MPS’ Progress on Meeting Local Performance Indicators on the CA School Dashboard

Section: VI. Information/Discussion Items
Item: A. MPS’ Progress on Meeting Local Performance Indicators on the CA School Dashboard
Purpose: Discuss
Submitted by:
Related Material: VI.B - 2026 MPS Progress on Local Performance Indicators.pdf

Agenda Item:	VI.B - Information/Discussion Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer
RE:	MPS Progress on Meeting Local Performance Indicators on the California School Dashboard

Action Proposed:

N/A

Purpose:

As part of the Local Control Funding Formula (LCFF), school districts, county offices of education (COES), and charter schools (also referred to as local educational agencies or LEAs) are required to self-reflect on local indicators and report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the LCAP is adopted.

Background:

What are Local Indicators?

California's accountability system is based on a multiple measures system that assesses how local educational agencies (LEAs) and schools are meeting the needs of their students. Performance on these measures is reported through the California School Dashboard (Dashboard).

The Dashboard includes a concise set of state indicators and local indicators that are founded on the Local Control Funding Formula (LCFF) priorities but are also aligned to the measures required under Every Student Succeeds Act (ESSA). Those LCFF priorities for which there is no state level data collected are referred to as local indicators. The seven local indicators are:

- Basic Services and Conditions (Priority 1)
- Implementation of State Academic Standards (Priority 2)
- Parent and Family Engagement (Priority 3)
- School Climate (Priority 6)

- Access to a Broad Course of Study (Priority 7)
- Coordination of Services for Expelled Students (Priority 9, for county offices of education [COEs] only)
- Coordination of Services for Foster Youth (Priority 10, for COEs only)

In addition to being a public record of progress on the Dashboard, the local indicator process serves to inform process and planning within the Local Control and Accountability Plan (LCAP). Further, progress in local indicators can inform technical assistance provided through the Differentiated Assistance process.

Performance Standards

For each local indicator, the State Board of Education (SBE) adopted performance standards require an LEA to:

1. Annually measure its progress in meeting the requirements of the specific LCFF priority; and
2. Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP; and
3. Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

An LEA uses the SBE-adopted self-reflection tools to report its progress through the Dashboard. The collection and reflection on locally available information relevant to progress regarding local priority areas will support LEAs in completing the self-reflection tools, reporting in the Dashboard, and in local planning and improvement efforts.

Provided an LEA satisfies the performance standards for each local indicator, the Dashboard will automatically assign a performance level of Met. If an LEA does not meet the performance standards, the Dashboard will automatically assign a performance level of Not Met or Not Met for Two or More Years, as applicable.

Earning a performance level of *Not Met for Two or More Years* may be a factor in being identified for differentiated assistance.

Local Indicator Self-Reflection Tools

The following are the prompts in the approved self-reflection tools.

- **Basic Services and Conditions (Priority 1)**

  LEAs will provide the information below:

  - Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
  - Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

  Note: The requested information is all data elements that are currently required as part of the School Accountability Report Card (SARC).

- **Implementation of State Academic Standards (Priority 2)**

  Recently Adopted Academic Standards and/or Curriculum Frameworks

  Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability

  1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.
  2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.
  3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

     Other Adopted Academic Standards

  4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

     Support for Teachers and Administrators

  5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior

school year).

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

- **Parent and Family Engagement (Priority 3)**

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

- **School Climate (Priority 6)**

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey, which is to be conducted at least every other year, that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.
2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

- **Access to a Broad Course of Study (Priority 7)**

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)
2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)
4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

For more information on local indicators please refer to:
https://www.cde.ca.gov/ta/ac/cm/localindicators.asp

Analysis:

Self-reflection on progress towards meeting local indicators is part of the LCAP development timeline at MPS. MPS has a robust timeline for completing the LCAP and the planning process that serves three distinct, but related functions: Comprehensive Strategic Planning, Meaningful Educational Partners Engagement, and Accountability and Compliance. The timeline has a calendar of activities, including LCAP metric progress updates, data analysis meetings, LCAP goal analysis sessions, PAC meetings, and many more activities that help our schools develop their LCAP. The accountability department collaborates with other departments in training our school leadership teams and ensuring the timeline of activities is implemented. The Director of State and Federal Programs (SFP) oversees the org-wide coordination of LCAP activities.

As part of the local indicators self-reflection and LCAP development process our schools have conducted educational partners surveys to engage our educational partners in the evaluation of their experience at MPS. School leadership teams have shared their reflection on the survey results and findings that identify their greatest progress, greatest needs, and ways to improve so that we can maintain and improve educational quality of our schools on an ongoing basis. The teams have completed their reflections and presented them to their educational partners in various settings, including presentations at regular meetings of the Board.

School leadership teams have also presented their CA School Dashboard results and findings as well as other school performance data to their educational partners at their PAC and ELAC meetings throughout the year. During the year, the MPS Board and the Academic Committee have been presented SBAC, CA School Dashboard, NWEA, and other LCAP progress data as well as each MSA's glows, grows, and priorities with next action steps.

The MPS Home Office has collaborated with the school leadership teams in ensuring that the self-reflection tools have been used in responding to the prompts for all five local indicators and that the schools have meaningfully engaged their educational partners in the reflection process. Accountability, academics, finance, HR, facilities, operations, outreach, and communications departments have all collaborated with the school leadership teams on measuring our progress towards meeting local indicators and reflecting on areas of strength and areas for growth.

The attached local indicator self-reflections have informed the development of our LCAP and are being presented to the Board for information and feedback purposes.

Impact:

The local indicators self-reflection and educational partners engagement processes described in the above sections are all part of our LCAP development and continuous improvement cycle. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. We have shared the local indicators with, and requested input from, schoolsite-level advisory groups. With thorough support from the Home Office, each MSA school leadership team has developed a successful, compliant local indicators self-reflection process to inform the LCAP document that serves as a comprehensive strategic planning tool for the school.

Annually, as required by the Ed Code, this item will be on the same board agenda as the LCAP adoption in alignment with the LCAP development process so that our schools can share their progress publicly and meet their local indicators. The reports are attached for the review of the board and the public before they are submitted to the CDE and made public via the CA School Dashboard. The deadline for submission to the CDE is July 31.

Budget Implications:

June 2026

2026 MPS Progress on Local Performance Indicators

Agenda

- What Are Local Performance Indicators?
    - Priority 1: Basic Services and Conditions
    - Priority 2: Implementation of State Academic Standards
    - Priority 3: Parent & Family Engagement
    - Priority 6: School Climate
    - Priority 7: Access to a Broad Course of Study
- Key Learnings & Next Steps

2026 Survey Results & Reflections

What Are Local Performance Indicators?

What Are Local Performance Indicators?

California's Local Indicators

Local Performance Indicators are part of California's accountability system and require annual measurement, public reporting, and completion of State Board of Education-approved self-reflection tools.

LCFF Priority	Local Indicator
Priority 1	Basic Services and Conditions
Priority 2	Implementation of State Academic Standards
Priority 3	Parent and Family Engagement
Priority 6	School Climate
Priority 7	Access to a Broad Course of Study

Reflection Process

Each year, MPS:

- **Completes self-reflection tools**
- **Reviews local data and program implementation**
- **Engages students, families, staff, and advisory groups**
- **Analyzes strengths, needs, and areas for improvement**
- **Uses findings to inform the Local Control and Accountability Plan (LCAP)**

2026 MPS Progress on Local Performance Indicators

Priority 1: Basic Services and Conditions

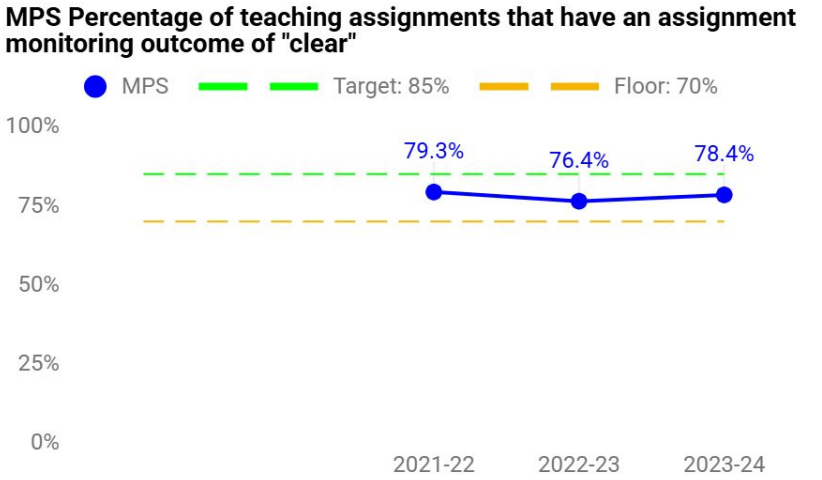
Priority 1: Basic Services and Conditions

State Requirements

The Local Indicator requires reporting:

- Teacher Assignment Monitoring Outcomes
- Student access to standards-aligned instructional materials
- Facility conditions

Key Metrics Scorecard (2025–26)	
1.1 Clear teaching assignment rate	**78.4%** (Target: ≥ 85%)
1.2 Missing instructional materials	**0%** (Target: 0%)
1.3 Facilities in no good repair	**0** (Target: 0)
1.4 Teacher retention rate (from 2024-25 to 2025-26)	**80%** (Target: ≥ 80%)
1.4 Teacher attendance rate	**95.5%** (Target: ≥ 95%)



In 2024, MPS achieved a 78.4% clear teaching assignment rate

↑2.0 pts from the prior year

Priority 1: Basic Services and Conditions

Key Learnings

Strengths

✅ Students have access to standards-aligned instructional materials.

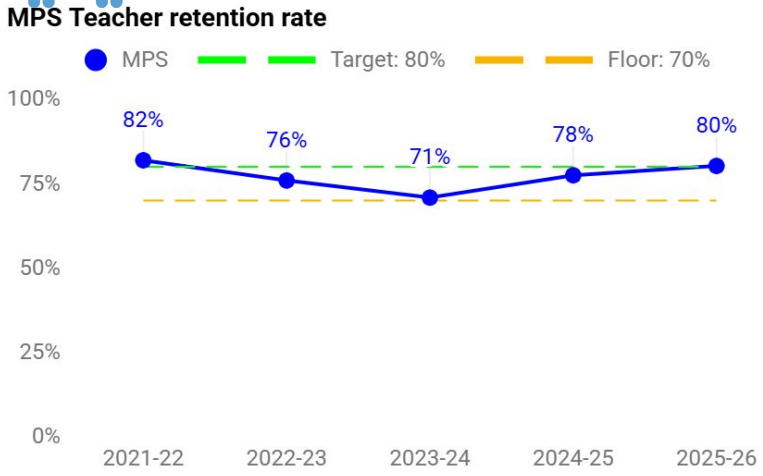
✅ Schools reported facilities meeting good repair standards.

✅ Teacher retention reached the organizational target.

Areas for Growth

➡ Continue increasing the percentage of teachers holding clear credentials toward the 85% target.

➡ Five schools remain on the Williams list and will continue annual LACOE reviews of facilities and instructional materials.



From 2024-25 to 2025-26, MPS achieved a 80% teacher retention rate

↑2 pts from the prior year

2026 MPS Progress on Local Performance Indicators

Priority 2: Implementation of State Academic Standards

Priority 2: Implementation of State Academic Standards

State Reflection Tool

Schools rated their implementation of:

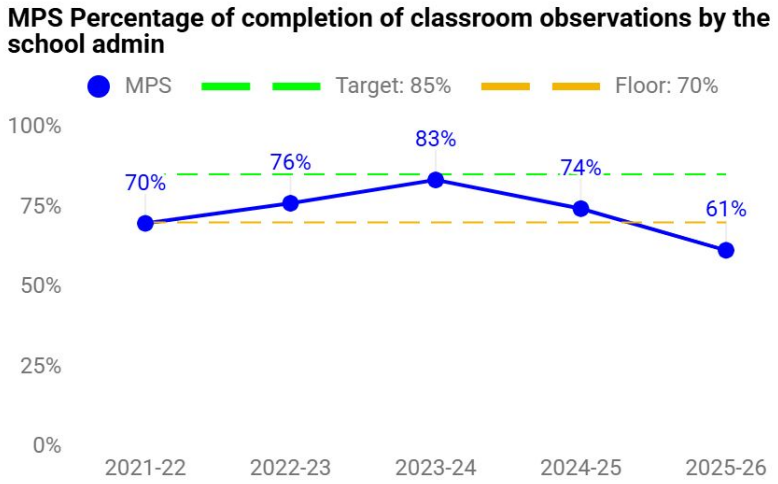
- Professional learning
- Instructional materials
- Teacher support systems
- State academic standards

using a five-point scale ranging from **Exploration and Research** to **Full Implementation and Sustainability.**

Key Metrics

- 2.2 Classroom observation completion rate

  Percentage of required classroom observations completed by school administrators



In 2026, MPS achieved a 61% classroom observation completion rate

↓13 pts from last year

Priority 2: Implementation of State Academic Standards

Key Learnings

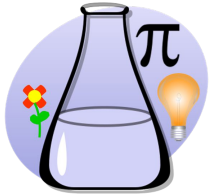
Strengths

✅ Common ELA and Math curriculum across MPS

✅ Strong implementation of English Language Development (ELD) standards

✅ Professional development aligned to state standards

✅ Coaching, PLCs, and instructional support structures



Areas for Growth

➡ Science (NGSS) implementation

➡ History-Social Science implementation

➡ Career Technical Education pathway development

➡ Consistency in Health Education implementation

2026 MPS Progress on Local Performance Indicators

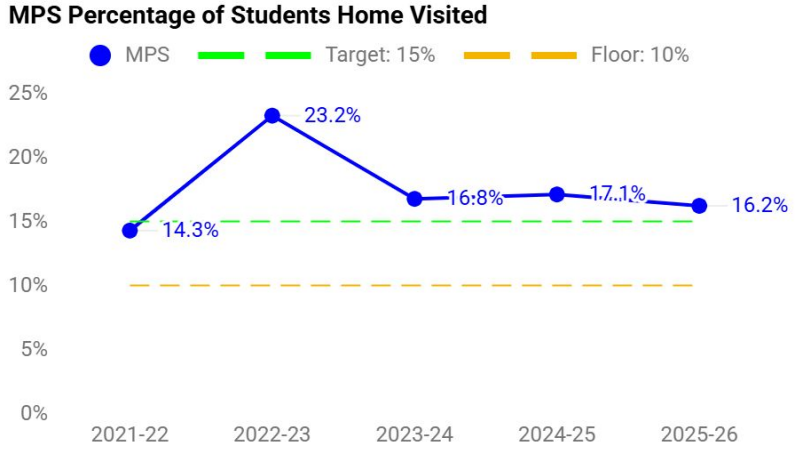
Priority 3: Parent & Family Engagement

Priority 3: Parent & Family Engagement

State Reflection Areas

The state reflection tool examines:

- Building relationships
- Building partnerships for student outcomes
- Seeking input for decision-making



Key Metrics

- 4.1 Number of PAC meetings
- 4.2 Number of ELAC meetings
- 4.3 Number of family engagement activities
- 4.4 Home visit rate
- 4.12 Survey participation rates by families
- 4.13 Average approval rate on surveys by families
- 4.14 Overall satisfaction rates on surveys by families

In 2026, MPS achieved a 16.2% home visit rate

↓0.9 pts from last year

Priority 3: Parent & Family Engagement

Key Learnings

Strengths

✅ Positive relationships between schools and families

✅ Welcoming school environments and strong two-way communication

✅ Home visits, PACs, ELACs, and other engagement opportunities support partnerships for student success

✅ Families report feeling connected, informed, and supported by school staff

Areas for Growth

➡ Increase family survey participation toward the 75% target

➡ Increase family approval and satisfaction rates toward the 95% targets

➡ Continue increasing participation in PAC and ELAC meetings

Family Engagement Scorecard (2025–26)	
PAC Meetings Conducted	**90** (Target: ≥ 83)
ELAC Meetings Conducted	**51** (Target: ≥ 40)
Family Engagement Activities	**517** (Target: ≥ 110)
Home Visit Rate	**16.2%** (Target: ≥ 15.0%)
Family Survey Participation	**72.1%** (Target: ≥ 75%)
Family Survey Approval	**91%** (Target: ≥ 95%)
Family Survey Satisfaction	**80%** (Target: ≥ 95%)

2026 MPS Progress on Local Performance Indicators

Priority 6: School Climate

Priority 6: School Climate

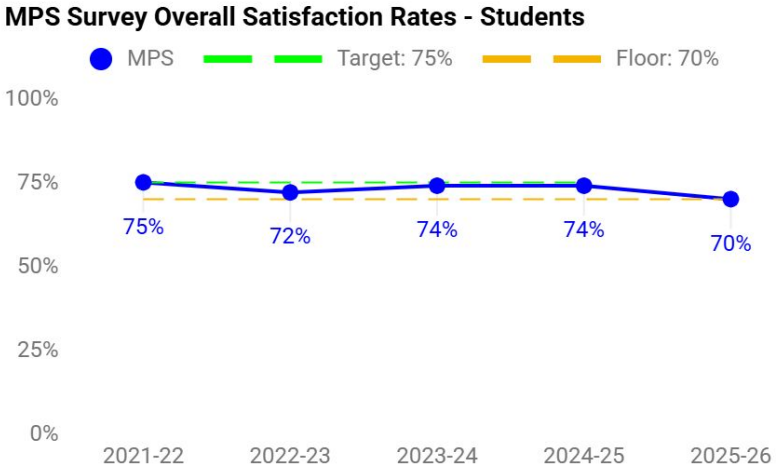
State Reflection Areas

The Local Indicator examines:

- Student perceptions of school safety and connectedness
- Key strengths and areas of need identified through survey data
- Actions schools will take for continuous improvement

Key Metrics

- 4.12 Survey participation rates by students
- 4.13 Average approval rate on surveys by students
- 4.14 Overall satisfaction rates on surveys by students
- 4.15 Student retention rate



In 2026, MPS achieved 70% overall satisfaction

↓4 pts from last year

Priority 6: School Climate

Key Learnings

Strengths

✅ Positive peer relationships and sense of belonging

✅ Supportive teachers and caring staff

✅ Activities, sports, clubs, and enrichment opportunities

✅ Play, recess, and physical activity opportunities

Areas for Growth

➡ Food quality, variety, and lunch experience

➡ School climate, fairness, and consistency in student interactions

➡ Additional clubs, activities, and enrichment opportunities

➡ Student schedule and break time concerns

School Climate Scorecard (2025–26)	
Student Survey Participation	**96.5%** (Target: ≥ 95%)
Student Survey Approval	**67%** (Target: ≥ 65%)
Student Survey Satisfaction	**70%** (Target: ≥ 75%)
Student Retention Rate (from 2024-25 to 2025-26)	**87%** (Target: ≥ 85%)

2026 MPS Progress on Local Performance Indicators

Priority 7: Access to a Broad Course of Study

Priority 7: Access to a Broad Course of Study

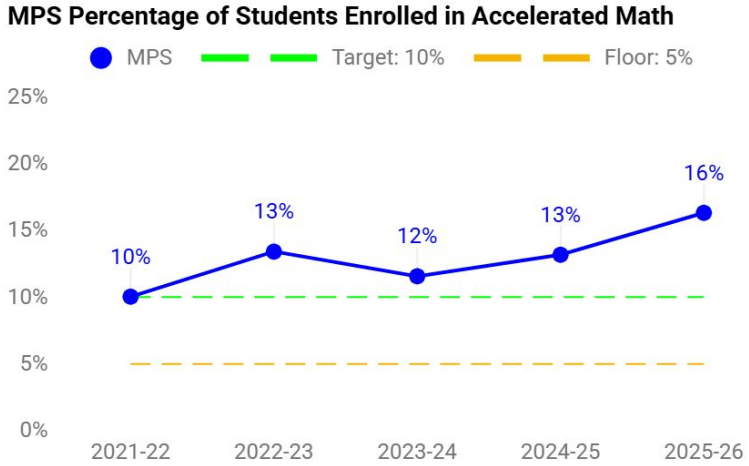
State Reflection Areas

The state reflection tool examines:

- Access to and enrollment in a broad course of study
- Differences across student groups and schools
- Barriers to access
- Planned improvements

Key Metrics

- 2.1 Student access to programs and services
- 3.1 Enrollment in accelerated/advanced math courses
- 3.2 Completion of Computer/Technology courses



In 2026, MPS achieved 16% accelerated math enrollment

↑3 pts from last year

Priority 7: Access to a Broad Course of Study

Key Learnings

Strengths

✅ All students had access to applicable programs and services

✅ Participation in accelerated and advanced mathematics opportunities exceeded the annual target

✅ Participation in computer and technology coursework exceeded the annual target

✅ Schools continue to expand dual enrollment opportunities that support college and career readiness

Areas for Growth

➡ Expand and strengthen STEAM-focused Career Technical Education (CTE) pathways

➡ Increase experiential learning opportunities, including internships, community partnerships, and career exploration

➡ Continue expanding ethnic studies and financial literacy offerings

Broad Course of Study Scorecard (2025–26)	
Student access to programs and services	**100%** (Target: 100%)
Enrollment in Accelerated/Advanced math courses	**16%** (Target: ≥ 10%)
Completion of Computer/Technology courses	**98%** (Target: ≥ 90%)

2026 MPS Progress on Local Performance Indicators

Key Learnings & Next Steps

Key Learnings	Next Steps
✅ MPS continues to provide students with access to high-quality learning environments, standards-aligned instructional materials, and comprehensive support services. ✅ Schools reported strong implementation of ELA, Mathematics, and English Language Development standards. ✅ Students and families highlighted positive relationships, supportive staff, and a strong sense of belonging as key strengths. ✅ Participation in accelerated mathematics, computer/technology coursework, and dual enrollment opportunities continues to expand.	➡ Increase the percentage of teachers holding clear credentials. ➡ Strengthen implementation of Science, History-Social Science, and Career Technical Education. ➡ Increase participation in family surveys and advisory groups. ➡ Address student-identified school climate concerns and expand enrichment opportunities. ➡ Continue expanding college and career readiness pathways, including CTE and experiential learning opportunities.

2026 MPS Progress on Local Performance Indicators

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-1	Brad Plonka Principal	bplonka@magnoliapublicschools.org (818) 609-0507

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	38.2	76.4	0	5.2	18.3	0.0%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education				4		
Health Education Content Standards				4		
Physical Education Model Content Standards				4		
Visual and Performing Arts				4		
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole			3		
Identifying the professional learning needs of individual teachers			3		
Providing support for teachers on the standards they have not yet mastered			3		

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-1 ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on implementing standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level, and ELD instruction is aligned with the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs focusing on ELD standards. Our teachers participate in at least 18 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, Math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with Common Core ELA/ELD and Math curricula. While the primary focus has been on the ELA/Literacy, Math, and ELD, MSA-1 has also provided PD and supported our teachers on NGSS, History-Social Science, Health Education, Physical Education, Visual and Performing Arts, and World Languages.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	4
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	3
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-1 builds trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, festivals, and parent/teacher conferences to promote parental participation in programs. We use ParentSquare to communicate with students and parents, which has supported our improved communication with all educational partners. Staff greet students and parents in the mornings during student drop-off and have an open-door policy welcoming all parents. Also, our team connects with families through in-person and virtual home visits. Home visits help us learn about students' outside interests, families, and home routines, and then use that information to connect in meaningful, individualized ways that can have considerable rewards in helping to create happier, healthier, and engaged students. The school uses home visits as an essential feature of its education program to improve student and school performance.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

The LEA's focus areas for improvement in building relationships between school staff and families are having more parent involvement on the campus, more social events (i.e., cultural), and more workshops for the families during school hours, after school, and on Saturdays.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

The LEA will improve the engagement of underrepresented families to build relationships between staff and families by providing more opportunities for both groups to connect. These opportunites will include in-person and virtual home visits and having events for families during the instructional day, after school, and on Saturdays.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-1 provides resources to support student learning at home through multiple workshops such as parent college and feedback given to parents during parent conferences. We have also helped equip parents with the knowledge and tools to advocate for their students and school.

MSA-1's communication system, ParentSquare, keeps parents and staff in constant communication through multiple mediums, such as texts, private messages, and voicemails. ParentSquare has also broken language barriers between staff and families through automatic translation.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

MSA-1's focus areas for improvement in building partnerships for student outcomes is to continue to build a bridge between the educational partner and school-site to collaboratively support the student's growth through multiple modalities (i.e., trainings, meetings, conferences).

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

MSA-1 will improve engagement of underrepresented families in relation to building partnerships for student outcomes by providing more opportunities for these families to engage with the school-site. These opportunities will include workshops and meetings and home visits and parent classes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-1 holds periodic meetings to gather input from our families. These meetings include PTF meetings, Coffee with Admin, PAC meetings, and ELAC meetings. During these meetings, parents can review the school's LCAP and SARC reports and provide input for our administration team. The school also conducts an educational partner survey (families, students, staff) with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-1's focus area(s) for improvement in Seeking Input for Decision-Making is to get more educational partner involvement in the mentioned meetings and provide more opportunities for them to be involved.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-1's will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making by providing more opportunities for these families to engage with the school-site.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

The Spring 2026 local climate survey provides a comprehensive overview of stakeholder perceptions regarding school conditions. While the data highlights positive growth in student engagement, it also reveals critical challenges, specifically regarding declining staff morale and a weakening of family-school partnerships.

1. Student Climate Data: Signs of Growth
Student approval rates rose to 64% (a 10-percentage-point increase from 54%).

Analysis: While this upward trend is encouraging, the score remains just below the school's 65% target.

Drivers: This progress likely stems from the successful implementation of the PBIS program, more responsive support systems, and expanded extracurricular opportunities in sports and academics.

2. Family Climate Data: Emerging Safety Concerns
Family approval saw a decline, dropping from 91% to 87%.

Key Findings: While overall satisfaction remains high, the 4-point drop suggests friction in home-school communication or dissatisfaction with recent policy changes.

Safety & Discipline: Of particular concern is the "Knowledge and Fairness of Discipline" category, which fell to 86%. This indicates a growing apprehension among families regarding both the physical and emotional safety of students on campus.

3. Staff Climate Data: Urgent Need for Intervention
Staff approval experienced a significant downturn, falling from 53% to 49%, well below the 80% benchmark.

Critical Indicators: Ratings for "Climate of Support for Academic Learning" plummeted by 12 points to 56%.

Root Causes: This shift points to a workforce struggling with excessive workloads, a lack of clear expectations, and diminished morale.

Conclusion: These results signal an urgent need for strategic leadership actions focused on staff engagement, professional support, and retention.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

The analysis of the Spring 2026 survey data reveals a significant variation between student growth and staff/safety perceptions. While student-facing initiatives are producing positive results, systemic issues regarding safety and staff support present critical areas for improvement.

Identified Strengths
Student Connection & Support: The most notable success is a 30% increase in Sense of Belonging. This, paired with gains in Climate of Support (+15%) and Fairness of Discipline (+14%), suggests that PBIS implementation and inclusive practices are effectively reaching the student body.

Positive Momentum: The overall 10% increase in student approval indicates that the current academic and extracurricular interventions (assemblies, spirit weeks, and field trips) are creating a more engaging campus culture.

Key Learnings & Areas of Need
The Safety Gap: Safety remains the lowest-rated category across all stakeholders. The 43% favorable rating from staff and the decline in student confidence (-3 points) indicate that current protocols are not providing a sufficient sense of security. A comprehensive review of campus culture and physical safety is required.

Staff Disempowerment: A critical "learning" is the disconnect between student and staff perceptions of discipline. While students feel rules are fairer, staff approval remains stagnant at 42%. This suggests that staff do not feel empowered or sufficiently trained to manage behavior, leading to a significant drop in their perceived Climate of Support for Academic Learning (-12 points).

Staff Morale Crisis: With an overall approval rating of 49%, staff morale is a primary concern. The data reflects a professional environment strained by high workloads and a perceived lack of leadership support.

Family Re-engagement: Although high at 91%, the slight decline in family approval and the failure to meet the 75% participation target (actual: 57.7%) suggest a need to move beyond passive support and toward active, trust-building partnerships.

Conclusion
While the school has successfully fostered a stronger sense of belonging for students, the data reveal an urgent need to stabilize the professional environment for staff and address safety concerns across the board. Future efforts must prioritize staff empowerment and a collaborative safety overhaul to sustain the gains made in the student experience.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the structure provided in the example, here is the SMART breakdown for our priority areas: Communication & Discipline and School Climate (Food & Facilities).
Grow Area 1: Communication & Discipline
Enhance communication with families and strengthen discipline practices and supervision to ensure fairness and consistency across the school.
SMART Goal Components (Internal facing)
Specific: Develop a standardized discipline communication protocol and provide regular community communication to policy updates.
Measurable: achieve 100% participation in staff training on new supervision protocols and a 10% increase in "Fairness of Discipline" favorability on the next survey.
Attainable: Utilize existing communication platforms (ParentSquare/Newsletter) and dedicate professional development time to discipline consistency.
Relevant: Clearer communication and consistent supervision directly address partner feedback regarding transparency and safety.
Time-bound: Implement the new communication cycle by August 2026 and monitor progress through May 2027.
Survey Reflection Statement-Next Steps. By May 2027, the school will improve perceptions of fairness and consistency by implementing regular community communication of policy updates and conducting quarterly staff audits of supervision practices, resulting in a 10% increase in positive survey responses regarding school rules.
Grow Area 2: School Climate (Food & Facilities)
Improve food quality and school facilities while creating device-balanced experiences to foster a stronger sense of belonging.
SMART Goal Components (Internal facing)
Specific: Form a food vendor committee to vet new meals, conduct a facility walk-through to identify two high-priority upgrades, and launch "Device-Free" social zones.
Measurable: Identify three meals that have positive feedback and three that do not to suggest replacing with new options, and complete two facility improvement projects (e.g., student lounge or cafeteria upgrades).
Attainable: Partner with the MPS facilities & finance teams for budgeting and use student leadership feedback to drive facility priorities.
Relevant: Upgrading the physical environment and food quality is a direct response to student requests for a more inviting campus.
Time-bound: Complete vendor transitions and facility upgrades by the end of the 2026-27 first semester.
Survey Reflection Statement-Next Steps By May 2027, the school will increase student satisfaction with campus life by transitioning to a higher-quality food vendor and completing at least two facility modernization projects, aiming for a 10% increase in the "Sense of Belonging" favorability score.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

Magnolia Science Academy-1 (MSA-1) utilizes several locally selected measures to monitor student access to and enrollment in a comprehensive course of study:

Master Schedule Reviews: Conducted to ensure all students have access to a full suite of courses—including ELA, Math, Science, Social Studies, Physical Education, Visual/Performing Arts, and Electives—that align with grade-level standards.

SIS Data Analysis: Student Information System reports are disaggregated by grade level and student groups (including English learners, low-income students, foster youth, and students with exceptional needs). This allows the school to identify and close any potential access gaps.

IEP Compliance Reviews: These ensure that students with disabilities are enrolled in appropriate, individualized courses that meet both their academic and specific learning requirements.

Enrollment Audits: Periodic audits are performed to verify equitable participation in enrichment courses, college-preparatory pathways, and Dual-Enrollment programs across all student demographics.

Through these tools, MSA-1 ensures that every student, regardless of background, is enrolled in a well-rounded curriculum designed to foster long-term academic success.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

Magnolia Science Academy-1 (MSA-1) ensures all students, across all grade spans, have access to a comprehensive course of study. This includes core academic subjects—English Language Arts, Mathematics, Science, and Social Studies—alongside physical education, visual and performing arts, technology, and various enrichment electives.

Findings by Student Group

Unduplicated Groups: Analysis of SIS data confirms that English learners, low-income students, and foster youth are enrolled in core and elective courses at rates comparable to their peers, with no disproportionate underrepresentation in college-preparatory or enrichment pathways.

Students with Exceptional Needs: These students are enrolled in the full range of grade-appropriate core content. IEP compliance reviews verify that they receive access to both general education and specialized academic instruction, with necessary supports in place to ensure full inclusion in elective and non-core courses.

Progress and Consistency
There are no significant disparities in course access at MSA-1. Over the last two years, the school has successfully expanded elective offerings based on student interest surveys—specifically increasing participation in coding, visual/performing arts, and specialized electives. This ongoing monitoring ensures that all students, regardless of background, engage in a rich and equitable educational experience.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-1 provides access to a college-preparatory, STEAM-focused broad course of study to all our students with no barriers to providing access to a broad course of study.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

Magnolia Science Academy-1 (MSA-1) is dedicated to providing a rigorous, STEAM-focused, college-preparatory curriculum that ensures all students graduate college and career-ready. To maintain and expand this access, the school has implemented the following actions:

Program Expansion: MSA-1 continuously evaluates and expands its "well-rounded education" offerings based on student interest and identified needs. This includes a growing selection of career-aligned electives, diverse visual and performing arts, and enhanced civics education.

Holistic Support: We have integrated robust Social-Emotional Learning (SEL) programs and physical education to support the whole child, ensuring they are mentally and physically prepared to engage with a demanding academic schedule.

Experiential Learning: To bridge the gap between classroom theory and real-world application, the school prioritizes instructional field trips, community service projects, and student-led clubs.

Resource Optimization: While expansion is subject to financial and human resource availability, MSA-1 is committed to maximizing its current budget and staffing to reflect the core academic and elective programs outlined in our charter petition.

Through these responsive actions, MSA-1 ensures that its educational model remains inclusive, equitable, and aligned with the evolving needs of our student population.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 2	Irene Gavrilof Principal	Igavi@magnoliapublicschools.org (818) 758-0300

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	21.6	63.9%	9.2%	4.6%	18.5%	2.0%	0.0%	0.6%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards			3		
History-Social Science				4	

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education			3			
Health Education Content Standards				4		
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-2 ensures comprehensive alignment of curriculum and assessments with educational standards, including CCSS and NGSS. We prioritize high-quality professional development for teachers, with a focus on standards implementation and ELD instruction aligned with California ELD standards. English Learners receive differentiated support based on proficiency levels, with access to both core and supplemental ELD materials. Ongoing professional development addresses Common Core ELA/Literacy, mathematics, ELD integration, and effective strategies for supporting ELs across content areas.

In addition to ELA/Literacy, mathematics, and ELD, MSA-2 provides support and professional development in NGSS, History-Social Science, Career Technical Education, Health Education, Physical Education, Visual and Performing Arts, and World Languages. Structured collaboration time is provided during Wednesday after-school sessions and early dismissal days, allowing teachers to share best practices across our network of 11 schools. MSA-2 also leverages Home Office support through regular meetings to monitor progress on academic standards, receive targeted training, and strengthen systems integration to improve instruction and student learning outcomes.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-2 has made meaningful progress in building strong, trusting relationships between school staff and families by fostering a welcoming and inclusive school environment. Family survey results reflect this strength, with particularly high levels of connectedness, including 89% favorable responses in sense of belonging and 80% in safety, demonstrating that families feel valued and supported. Students also report increased feelings of belonging and academic support, indicating continued growth in school climate and relationships. Through consistent communication, family engagement opportunities, and advisory structures, MSA-2 has established a strong foundation for sustained partnership with families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

While family perceptions of the school experience remain strong, including 89% favorable in sense of belonging, 80% in safety, and 76% in academic support, MSA-2 recognizes the importance of continuing to strengthen and sustain high levels of engagement and satisfaction. To support this, MSA-2 is committed to expanding opportunities for families to engage in meaningful dialogue around school practices, including discipline, rules, and norms, through continued participation in the ELAC, Community Advisory Committee (CAC), and Parent Task Force (PTF). These structures will ensure that families have consistent opportunities to provide input and remain active partners in decision-making processes.
MSA-2 will also build on its strong sense of belonging by increasing opportunities for student, staff, and family leadership in schoolwide events, assemblies, celebrations, and community-building activities. The school will

continue to enhance engagement through events, workshops, and resource fairs, prioritizing inclusive participation and strengthening connections across the school community. Additionally, MSA-2 will continue refining practices related to discipline, rules, and norms to ensure clarity, consistency, and shared understanding among all educational partners.
Through these ongoing efforts, MSA-2 remains committed to continuous improvement by strengthening communication, deepening engagement, and ensuring that all families feel supported, informed, and connected to the school community.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-2 is committed to improving engagement of underrepresented families by expanding inclusive, accessible, and relationship-centered practices, aligned with its community school approach. The school continues to build strong partnerships through consistent opportunities for engagement, includingCommunity Advisory Committee (CAC), ELAC, and Parent Task Force (PTF) meetings, as well as workshops, Coffee with the Admin sessions, and schoolwide events. These structures provide families with multiple avenues for meaningful two-way communication, input in decision-making, and active participation in the school community.
As a community school, MSA-2 leverages needs assessments and educational partner input to provide targeted supports and services that respond to family needs. The school will further strengthen outreach through multilingual communication, flexible meeting options (including virtual access), and expanded family-centered events such as cultural celebrations, assemblies, and community resource fairs. Relationship-building strategies, including home visits and partnerships with community organizations, will continue to be prioritized to deepen trust and connection. Through these efforts, MSA-2 aims to ensure that all families, especially those who have been historically underrepresented, feel welcomed, supported, and empowered to engage meaningfully in their child's education and the broader school community.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-2 continues to demonstrate strong progress in building meaningful partnerships with families to support student outcomes. The school has maintained high levels of academic success, including a 100% graduation rate for seniors, while serving a student population that is 76% socioeconomically disadvantaged, reflecting a strong commitment to equity and access. Additionally, MSA-2 earned Gold PBIS recognition, highlighting the effectiveness of its positive school climate and student support systems.

MSA-2 provides families with consistent access to information and resources that support student learning at home through workshops, parent conferences, and ongoing communication. Platforms such as ParentSquare and Infinite Campus continue to play a critical role in maintaining clear, accessible, and multilingual communication, allowing families to monitor student progress, attendance, and academic performance in real time. Daily communication practices and regular outreach further strengthen the connection between school and home.

The school also prioritizes family voice and leadership through active participation in governance and decision-making structures. MSA-2 families are encouraged to attend MPS Board meetings, and a parent representative continues to serve on the Board, contributing to decisions that impact the broader school community. In addition, the Family Success Coordinator (FSC) and Community School Coordinator (CSC) provide targeted support through workshops, community partnerships, and access to resources, ensuring families are equipped to advocate for their students and actively engage in their educational journey.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

MSA-2 will continue to strengthen partnerships with families and educational partners by expanding opportunities for collaboration, communication, and shared responsibility for student success. A key focus area is enhancing college and career readiness pathways, including continued development of CTE opportunities through partnerships with local community colleges, where students can access certification programs, as well as increasing access to dual enrollment and college coursework. The school also aims to further strengthen academic programming through the expansion of Honors opportunities and continued alignment of instructional supports to meet the needs of all learners.

MSA-2 remains committed to supporting the whole child through a comprehensive system of social-emotional and academic supports. The school will continue to build on its Gold PBIS recognition by strengthening implementation with the goal of achieving Platinum status, while also maintaining strong SEL supports through counseling services, a school psychologist, and life skills classes for middle school students. These efforts are designed to ensure students are supported academically, socially, and emotionally.

Additionally, MSA-2 will continue to focus on improving outcomes for all student groups, including English Learners, students with disabilities, socioeconomically disadvantaged students, and foster/homeless youth. By leveraging data, strengthening family partnerships, and expanding targeted supports, the school aims to ensure equitable access to high-quality educational opportunities and improved outcomes for all students.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

MSA-2 will continue to improve engagement of underrepresented families by expanding inclusive, relationship-centered practices aligned with its community school model. The school fosters strong partnerships through consistent opportunities such as Student/Parent Orientation, Back to School Night, parent conferences, CAC, ELAC, and PTF meetings, as well as weekly Coffee with the Admin sessions. These structures provide multiple avenues for families to engage in meaningful two-way communication, share input, and actively participate in supporting student outcomes.

MSA-2 will strengthen outreach efforts by offering a combination of in-person and virtual engagement opportunities, multilingual communication, and targeted family workshops based on needs assessment data. The school will also prioritize improving the implementation of home visits as a key strategy for building individualized relationships and better understanding family needs. In addition, events such as cultural celebrations, assemblies, PBIS activities, and community partnerships will continue to provide accessible entry points for family involvement.

Through the continued work of the Family Success Coordinator (FSC), Community School Coordinator (CSC), and Magnolia Engagement Team (MET), MSA-2 will expand access to resources, trainings, and community-based supports. By leveraging survey data and ongoing feedback, the school aims to ensure that all families, especially those historically underrepresented, are empowered to engage as active partners in their child's education and in improving student outcomes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-2 demonstrates strong progress in seeking input for decision-making by providing multiple, consistent opportunities for educational partners to engage and contribute. The school continues to host weekly Coffee with the Admin meetings, as well as regular CAC, PTF, ELAC, and Title I meetings, where families and staff provide meaningful input on school programs and policies. These structures ensure that diverse perspectives, including elected representatives from various stakeholder groups, are incorporated into decision-making processes.

MSA-2 further strengthens this work through the support of the Family Success Coordinator (FSC) and Community School Coordinator (CSC), who actively engage families and gather feedback to inform school improvement efforts. Students also play an active role through student government and PBIS leadership, contributing ideas and feedback that shape school culture and initiatives. Additionally, staff input is regularly collected through surveys and committee participation, ensuring collaboration across all educational partner groups.

Overall, these systems reflect MSA-2's commitment to inclusive, collaborative decision-making and provide a strong foundation for continued growth in educational partner engagement.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-2 will continue to strengthen its systems for seeking input by expanding the consistency and accessibility of engagement opportunities for all families. While the school provides multiple avenues for input through CAC, PTF, ELAC, Title I meetings, and surveys, a focus area moving forward is increasing participation and ensuring that all families, including underrepresented groups, are consistently engaged in decision-making processes. The school will enhance outreach efforts through multilingual communication, flexible meeting formats, and targeted invitations to encourage broader participation.

MSA-2 will also continue to refine how feedback is collected, analyzed, and used to inform decisions related to school programs, climate, and student outcomes. By leveraging educational partner surveys, needs assessments, and committee input, the school will strengthen the connection between stakeholder feedback and actionable improvements. These efforts will support a more inclusive and responsive decision-making process that reflects the voices of the entire school community.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-2 will continue to improve engagement of underrepresented families by strengthening inclusive, accessible opportunities for input aligned with its community school approach. The school will build upon existing structures such as CAC, PTF, ELAC, weekly Coffee with the Admin meetings, and family workshops to ensure all families have meaningful opportunities to share input on school programs and decisions. These opportunities will be supported through multilingual communication, hybrid meeting options, and targeted outreach to increase participation from families who have been historically underrepresented.

MSA-2 will also prioritize relationship-building strategies, including the consistent implementation of home visits and a renewed focus on maintaining a visible and welcoming school presence for families. Family engagement will continue to be integrated into school events, assemblies, PBIS activities, and cultural celebrations, creating multiple entry points for families to participate and contribute their perspectives. Additionally, families will continue to serve on committees and collaborate with staff and students in planning school activities and initiatives.

Through the continued efforts of the Family Success Coordinator (FSC), Community School Coordinator (CSC), and school leadership, MSA-2 will use survey data, needs assessments, and ongoing feedback to refine engagement strategies. These efforts aim to ensure that all families feel welcomed, represented, and empowered to actively participate in decision-making processes that impact student outcomes and the overall school community.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

MSA-2 administers the Kelvin Pulse survey for students and families and the Great Place to Work (GPTW) survey for staff to measure school climate across four domains: climate of support for academic learning, knowledge and fairness of discipline, safety, and sense of belonging. Survey participation rates for Spring 2026 were strong across all groups, including 99.8% for students, 78.9% for families, and 95.5% for staff, reflecting a significant increase in engagement, particularly among families (+48.5 percentage points) and staff (+25.1 percentage points) compared to the prior year.

Student survey results indicate moderate to strong perceptions of school climate, with 71% favorable in academic support (+5) and 65% in sense of belonging (+12), representing notable areas of growth. Student perceptions of discipline fairness (60%, +3) also improved, while safety was reported at 56%. Family survey results reflect strong perceptions of connectedness and safety, with 89% favorable in sense of belonging and 80% in safety, as well as 76% in academic support and 73% in fairness of discipline. Staff survey results indicate lower favorable ratings across domains, including in academic support and in discipline fairness.

Average approval rates further reflect these trends, with 60% for students, 81% for families, and 47% for staff in Spring 2026. While family perceptions remain relatively strong, student and staff responses indicate opportunities to strengthen consistency in school climate systems and overall experience. MSA-2 will continue to utilize multiple data sources and feedback mechanisms to monitor equity and ensure all student groups are supported in a positive and inclusive school environment.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Analysis of local climate survey data for the 2025–26 school year highlights both areas of continued strength and opportunities for growth at MSA-2. One of the school's key strengths remains the strong sense of connectedness among families, with 89% favorable responses in sense of belonging and 80% in safety, reflecting continued trust and confidence in the school environment. Student data also demonstrates meaningful progress, particularly in sense of belonging (+12 points to 65%) and climate of support for academic learning (+5 points to 71%), indicating that efforts to strengthen school culture and student support systems are positively impacting the student experience. High participation rates across all stakeholder groups further demonstrate increased engagement and willingness to provide feedback.

At the same time, the data identify important areas for continued improvement, particularly in ensuring consistency across schoolwide systems related to safety, discipline, and overall climate. While student and family responses remain generally positive, student perceptions of safety and discipline fairness indicate opportunities to strengthen clarity, communication, and consistent implementation of expectations. Staff data further reflects this need, with lower approval ratings across some domains, suggesting a need to improve alignment, support, and shared understanding of schoolwide practices.

Similar to prior years, these findings reinforce the importance of strengthening systems that support student voice, staff engagement, and consistent schoolwide expectations. While disaggregated data by specific student groups is limited, trends across stakeholder groups suggest a need to ensure equitable experiences for all students. MSA-2 will continue to build on its strengths in connectedness and family engagement while prioritizing efforts to enhance consistency, communication, and overall school climate for all educational partners.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

In response to the key learnings identified through the analysis of school climate data, MSA-2 will implement targeted improvements to strengthen consistency in schoolwide systems, enhance communication, and support a positive and inclusive environment for all educational partners. A primary focus will be refining schoolwide expectations, discipline practices, and PBIS implementation to ensure clarity, consistency, and alignment across all classrooms and campus settings. MSA-2 will build on its Gold PBIS recognition by strengthening staff training, increasing consistency in implementation, and expanding student-centered incentives and activities that promote positive behavior and engagement.

To further support areas of growth in safety and connectedness, MSA-2 will increase administrative visibility and presence throughout the school day and continue to strengthen communication systems through platforms such as ParentSquare and Infinite Campus. The school will also continue promoting school spirit and student engagement through collaboration with student council, which will play an active role in planning assemblies, events, and PBIS initiatives that reflect student voice and interests. These efforts will build on the positive gains in student sense of belonging and help foster a more connected school community.

MSA-2 will also strengthen staff support systems and professional development, with a focus on classroom management, consistent implementation of expectations, and culturally responsive practices. Ongoing professional learning, coaching, and collaboration will support staff in creating safe, inclusive, and engaging learning environments. Through these coordinated efforts, MSA-2 will continue to monitor progress using climate data and educational partner feedback to ensure continuous improvement and alignment with LCAP goals.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-2 utilizes multiple locally selected measures and tools to monitor student access to and enrollment in a broad course of study across grade spans and student groups. Key tools include the master schedule, student schedules, transcripts, course rosters, and elective selection forms, which ensure all students are enrolled in core content areas (ELA, mathematics, science, and social science) as well as elective and enrichment courses aligned to the charter and graduation requirements.

The school also uses 4-year plans, individual graduation plans, and credit recovery tracking systems to monitor student progress toward UC/CSU eligibility and timely graduation. Student performance data from CAASPP, NWEA MAP, Interim Assessment Blocks (IABs), and the California Dashboard are regularly reviewed to ensure equitable access and outcomes for unduplicated student groups and students with exceptional needs.

Additionally, MSA-2 monitors access for specialized populations through IEP progress monitoring, ELD placement and progress data, and MTSS structures, ensuring appropriate supports and course access. Ongoing review of AP participation, dual enrollment, and intervention program enrollment further supports equitable access to rigorous and comprehensive coursework for all students.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

MSA-2 ensures that all students have access to and are enrolled in a broad course of study, including core academic subjects and a range of electives aligned to graduation and charter requirements. Based on master schedule reviews, student schedules, and course enrollment data, 100% of students have access to required courses, with additional opportunities for advanced coursework such as AP classes and dual enrollment through partnerships with local community colleges.
MSA-2 has not identified differences across student groups in access to core academic programs, including unduplicated student groups and students with exceptional needs. Targeted supports, including ELD services, special education accommodations, intervention courses, and credit recovery, ensure that all students are able to fully participate in the school's academic program. Ongoing data reviews and progress monitoring systems further support equitable access and participation.
Over time, MSA-2 has expanded opportunities for rigorous and enriching coursework, including increased access to dual enrollment, college preparatory programs, and STEAM-focused pathways. The school continues to refine scheduling, course offerings, and support systems to ensure all students are prepared for college and career success.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-2 has not identified significant systemic barriers preventing students from accessing a broad course of study, as all students are provided access to core academic subjects and a range of elective and enrichment opportunities aligned with charter and graduation requirements. Master scheduling, course enrollment monitoring, and targeted support systems ensure equitable access for all student groups, including unduplicated students and students with exceptional needs.

However, the school recognizes potential challenges related to resource capacity, staffing, and scheduling constraints, which may impact the expansion of additional advanced coursework, electives, and specialized programs. Student interest and enrollment demand can also influence the availability of certain courses, particularly in advanced pathways such as AP, dual enrollment, and career technical education.

To mitigate these challenges, MSA-2 continues to leverage strategic scheduling, partnerships with local community colleges, and targeted academic supports to maximize access and participation. The school will continue to monitor course enrollment data, student needs, and program effectiveness to ensure all students have equitable access to a comprehensive and rigorous course of study.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

In response to the results of locally selected measures, MSA-2 will continue to refine and strengthen systems that ensure equitable access to a broad course of study for all students. The school will enhance master scheduling practices to expand access to advanced coursework, including Honors, AP, and dual enrollment opportunities through continued partnerships with local community colleges.

MSA-2 will also expand college and career readiness pathways, including experiential learning opportunities such as field trips, internships, and enrichment programs. Targeted supports, including intervention courses, ELD services, and special education supports, will continue to be strengthened to ensure all students, including unduplicated student groups and students with exceptional needs, can fully participate in rigorous coursework.

Additionally, the school will continue to use student performance data (CAASPP, MAP, IABs, and Dashboard indicators) to inform course placement, monitor equity in access, and guide instructional decisions. Ongoing collaboration between site leadership and the Home Office will support continuous improvement through regular data review, alignment of goals, and monitoring of student outcomes.
Through these actions, MSA-2 will continue to expand opportunities, address emerging needs, and ensure all students are prepared for college and career success.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Elizabeth Rizzuto Principal	erizzuto@magnoliapublicschools.org (310) 637-3806

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	21.5	77.4%	13.3%	0.0%	9.3%	0.0%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education		2				
Health Education Content Standards		2				
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-3 continues to make progress in implementing the academic standards adopted by the State Board of Education. Professional learning has focused on strengthening standards-aligned instruction in ELA, ELD, mathematics, science, and history-social science through teacher collaboration, data review, classroom observations, and targeted instructional support. Teachers use adopted curriculum, supplemental materials, benchmark data, student work, grades, CAASPP/CAST results, ELPAC data, and local assessments to monitor student progress and adjust instruction.

MSA-3 has instructional materials available in core academic areas and continues to refine the consistent use of standards-aligned resources across classrooms. Collaborative planning, walkthrough feedback, coaching conversations, PLC/data discussions, tutoring, and Saturday Academy support staff in identifying areas for instructional improvement and addressing student learning needs.

For other adopted standards, including CTE, health, physical education, visual and performing arts, and world language, MSA-3 monitors implementation through course offerings, student grades, completion data, and classroom instruction. Overall, MSA-3 is moving toward stronger implementation and sustainability, with continued areas of focus on English learner supports, intervention for students below grade level, consistent standards-based instruction, and targeted professional development.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.

- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA’s current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-3 continues to demonstrate strong progress in building relationships between school staff and families. The school provides multiple opportunities for families to connect with staff, receive information, and participate in the school community. These include Back-to-School Night, student orientation, parent-teacher conferences, honor roll assemblies, Open House, Coffee with Admin, parent workshops, family nights, and community resource events.

MSA-3 also uses ParentSquare, phone calls, in-person meetings, social media, and school events to maintain consistent two-way communication with families. These communication systems help families stay informed about academics, attendance, student supports, upcoming events, and schoolwide initiatives.

A major strength is the school's use of community partnerships and family engagement activities. The school documented a high number of family and community engagement opportunities, including workshops on mental health, drug prevention, financial literacy, healthy relationships, FAFSA, Department of Rehabilitation resources, and student wellness. These events help families feel welcomed, informed, and connected to the school.

MSA-3 also benefits from the support of a Family Success Coordinator, who helps strengthen communication with families, connects families to resources, and supports participation in school events and decision-making opportunities. Overall, MSA-3 has created a welcoming environment and continues to prioritize strong relationships with families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

MSA-3 will continue strengthening its efforts to ensure that all families feel connected, informed, and included in the school community. While the school has many communication systems and engagement opportunities in place, a continued focus area is increasing consistent participation from families who may not regularly attend meetings or events.

MSA-3 will continue to improve outreach by using ParentSquare, phone calls, translated communication when needed, social media, and personal invitations to encourage greater family participation. The school will also continue developing the Parent Task Force to provide families with a more structured way to support school events, fundraising, Fun Fridays, and schoolwide improvement efforts.

Another focus area is continuing to learn more about each family's strengths, cultures, languages, and goals for their children. MSA-3 serves a diverse school community, and staff will continue to build culturally responsive communication practices that help families feel respected and valued.

The Family Success Coordinator will continue to play an important role in supporting these efforts by connecting families to resources, assisting during school events, and helping families navigate school systems. Through these next steps, MSA-3 will continue building a more inclusive and supportive school community.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-3 will continue to improve engagement of underrepresented families by using targeted outreach, multilingual communication, and flexible opportunities for participation. The school serves a diverse student population, including a large number of Latino and African American students, as well as families of English Learners, foster youth, homeless youth, and students with disabilities.

To strengthen engagement, MSA-3 will continue using ParentSquare, translated materials when needed, phone calls, personal outreach, and in-person meetings to ensure families can access information in a way that is understandable and convenient. Coffee with Admin, parent workshops, PAC, ELAC, family nights, and community events will continue to provide opportunities for families to ask questions, share concerns, and provide input.

MSA-3 will also continue using the Family Success Coordinator and the Homeless and Foster Youth Liaison to connect families with academic, social-emotional, mental health, and community resources. These roles are especially important for families who may face barriers to participation.

The school will continue to increase awareness of volunteer opportunities, strengthen the Parent Task Force, and gather parent feedback through surveys and meetings. MSA-3 will also continue sharing academic, attendance, and behavioral data with families so that conversations are student-centered and focused on support. These efforts will help ensure that underrepresented families have a stronger voice in the school community.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-3 demonstrates strong progress in building partnerships with families to support student outcomes. The school provides families with information and resources related to academic progress, attendance, college readiness, intervention opportunities, social-emotional support, and student wellness.

MSA-3 has expanded family and community engagement through workshops and events focused on mental health, drug prevention, healthy relationships, FAFSA, financial literacy, Department of Rehabilitation resources, community resources, and college/career readiness. These activities help families better understand how to support their children academically, socially, and emotionally.

The school also supports student outcomes through parent-teacher conferences, progress monitoring, tutoring, Saturday Academy, college counseling, dual enrollment opportunities, and targeted student workshops. Local data shows strong engagement efforts, including PAC meetings, ELAC meetings, and a high number of family engagement activities/events during the year.

MSA-3's community partnerships also support student learning and development. Events such as the College Fair, Resource Fair, PIQ workshops, student wellness workshops, and community resource events provide students and families with access to important academic and social-emotional supports.

Overall, MSA-3 continues to build strong school-family partnerships that help families understand student progress and participate in supporting improved student outcomes.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

MSA-3 will continue strengthening family-school partnerships by improving communication, expanding family participation, and ensuring families have timely information about student progress and available supports.

Based on educational partner feedback and local data, MSA-3 will focus on the following areas:

Continue providing timely updates through ParentSquare, phone calls, meetings, and schoolwide communication. Increase family awareness of tutoring, Saturday Academy, intervention supports, and college/career readiness opportunities.

Strengthen participation in PAC, ELAC, parent workshops, and family engagement events.
Continue offering workshops that respond to family and student needs, including mental health, drug prevention, financial literacy, college readiness, and community resources.
Improve feedback loops so families understand how their input is used to guide school decisions.
Continue supporting a welcoming environment where families feel comfortable reaching out to staff and school leadership.

MSA-3 will also continue to promote positive relationships between teachers and families by encouraging regular communication about grades, attendance, missing assignments, intervention needs, and student progress.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

MSA-3 will improve engagement of underrepresented families by continuing to provide accessible, relevant, and culturally responsive opportunities for families to participate in their child's education. The school will continue prioritizing outreach to families of English Learners, foster youth, homeless youth, students with disabilities, and families who may not regularly attend school meetings or events.

MSA-3 will use ParentSquare, translated communication when needed, phone calls, individual outreach, and flexible meeting formats to reduce barriers to participation. The school will continue offering workshops and family events that address real family needs, including mental health resources, drug prevention, financial literacy, FAFSA, student safety, healthy relationships, and community resources.

The Family Success Coordinator will continue serving as a bridge between families and the school by connecting families to resources, encouraging participation, and supporting communication with staff. MSA-3 will also continue promoting PAC, ELAC, Coffee with Admin, and the developing Parent Task Force as opportunities for families to share input and collaborate with school leadership.

To strengthen equity, MSA-3 will continue reviewing participation data and parent feedback to identify which families are not being reached and adjust outreach strategies accordingly. These efforts will help ensure that underrepresented families have meaningful access to information, resources, and decision-making opportunities that support improved student outcomes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5

Practices	Rating Scale Number
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-3 demonstrates strong progress in seeking input from families, students, staff, and community partners to inform school decision-making. The school provides multiple opportunities for families to share feedback through PAC, ELAC, Coffee with Admin, parent-teacher conferences, surveys, parent workshops, and family/community engagement events.

Local data shows that MSA-3 has continued to provide formal and informal opportunities for stakeholder input. PAC meetings allow families to review school goals, actions, and data and provide feedback connected to the LCAP. ELAC meetings provide an additional space for families of English Learners to discuss student needs and provide input. Family engagement events and workshops also provide informal opportunities for families to ask questions, share concerns, and identify areas where additional support is needed.

MSA-3 also uses community partnerships and school events to gather feedback and respond to student and family needs. Events focused on mental health, safety, financial literacy, drug prevention, college readiness, and community resources show that the school is responsive to the needs of families and students.

The Family Success Coordinator supports this work by helping families stay connected, access resources, and participate in school activities. Overall, MSA-3 has built strong systems for gathering input and using that input to support school planning and improvement.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

MSA-3 will continue improving how family and educational partner input is collected, used, and communicated back to the school community. A major focus area is increasing participation from families who may not regularly attend meetings, complete surveys, or participate in advisory groups.

MSA-3 will focus on the following next steps:

Increase participation of underrepresented families in PAC, ELAC, surveys, workshops, and decision-making groups.
Strengthen communication about meeting dates, topics, and ways families can participate.
Continue developing the Parent Task Force as a structured way for families to support schoolwide initiatives and provide input.
Offer flexible participation options, including virtual meetings, small-group discussions, personal outreach, and informal opportunities such as Coffee with Admin.
Improve feedback loops by sharing how family input influenced school decisions, programs, and LCAP actions.
Continue building staff capacity around culturally responsive communication and family engagement.

These focus areas will help MSA-3 ensure that family input is not only collected, but also used meaningfully to guide decisions and improve outcomes for students.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-3 will improve engagement of underrepresented families in decision-making by providing more intentional, accessible, and consistent opportunities for input. The school will continue prioritizing outreach to families of English Learners, foster youth, homeless youth, students with disabilities, and families from historically underrepresented backgrounds.

To support this work, MSA-3 will continue using PAC, ELAC, Coffee with Admin, parent workshops, surveys, and the developing Parent Task Force as key structures for family voice. The school will also use ParentSquare, phone calls, translated materials when needed, and personal invitations to ensure families know about opportunities to participate.

MSA-3 will expand flexible engagement options such as virtual meetings, small-group conversations, home outreach when appropriate, and informal gatherings. These options will help reduce barriers related to work schedules, transportation, language, and comfort level with formal meetings.

The Family Success Coordinator will continue supporting underrepresented families by connecting them to resources, encouraging participation, and helping communicate family needs to school leadership. MSA-3 will also increase transparency by sharing updates on how family feedback is used in school planning, LCAP development, academic supports, safety efforts, and community engagement activities.

Through these actions, MSA-3 will continue building a more inclusive decision-making process where all families have meaningful opportunities to contribute.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

MSA-3 used the Kelvin Pulse survey for students and families and the Great Place to Work Trust Index Survey for staff to measure perceptions of school climate, safety, belonging, discipline, and support for academic learning. The survey included four major indicators: Climate of Support for Academic Learning, Knowledge and Fairness of Discipline, Safety, and Sense of Belonging.

Spring 2026 survey participation rates were 86.4% for students, 59.7% for families, and 83.8% for staff. Compared to Spring 2025, student participation decreased by 10.4 percentage points, while family participation increased by 19.2 percentage points and staff participation increased by 23.3 percentage points. These results show stronger family and staff outreach, while also identifying the need for more protected student survey completion time next year.

Overall satisfaction results show areas for growth. Student satisfaction was 56%, family satisfaction was 69%, and staff satisfaction was 53%. Compared to Spring 2025, student satisfaction decreased by 10 points and family satisfaction decreased by 29 points, while staff satisfaction increased by 17 points.

Average approval rates show mixed progress. Student average approval increased from 62% to 64%, staff average approval increased from 49% to 61%, and family average approval decreased from 97% to 86%. Student results showed growth in Climate of Support for Academic Learning at 78% and Sense of Belonging at 69%, while Safety was the lowest student-rated area at 57%. Family results remained generally positive, with ratings between 82% and 89%, but declined in all four areas. Staff ratings improved in Safety, Sense of Belonging, and Discipline Fairness, but Climate of Support for Academic Learning remained an area for continued support at 57%.

Although detailed subgroup data was limited, MSA-3 reviewed feedback with attention to student groups including English Learners, Students with Disabilities, socioeconomically disadvantaged students, foster youth, homeless youth, and historically underrepresented racial/ethnic groups. The data and free responses indicate a need to strengthen safety, belonging, behavior follow-through, communication, and consistent academic support for all student groups.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

The climate data shows that MSA-3 has several important strengths, especially in student academic support, student belonging, family connection, and staff culture growth. Student average approval increased from 62% to 64%, with strong gains in Climate of Support for Academic Learning, which increased to 78%, and Sense of Belonging, which increased to 69%. This suggests that students are increasingly recognizing the school's efforts to provide academic encouragement, supportive relationships, and a stronger sense of connection.

Staff results also show meaningful progress. Staff average approval increased from 49% to 61%, with gains in Sense of Belonging, Safety, and Knowledge and Fairness of Discipline. This indicates that schoolwide efforts related to communication, behavior systems, and staff culture are beginning to have a positive impact.

Family results remain a strength in several areas, despite declines from the prior year. Families rated Sense of Belonging at 89%, Safety at 86%, Knowledge and Fairness of Discipline at 84%, and Climate of Support for Academic Learning at 82%. Family feedback continues to highlight MSA-3's small-school environment, caring staff, individualized support, tutoring, Saturday school, and college course opportunities as valued strengths.

The greatest areas for improvement are student safety perception, family confidence, staffing consistency, behavior follow-through, and academic support during staff absences. Student Safety decreased to 57%, making it the lowest student topic area. This indicates a need to strengthen supervision, peer conflict prevention, bullying/rumor response, and consistent behavior follow-up.

Family approval declined across all four topic areas, including Safety, Climate of Support for Academic Learning, Discipline Fairness, and Sense of Belonging. These declines suggest that families need clearer communication and more consistent follow-through regarding long-term substitutes, grades, academic progress, discipline, safety incidents, and student behavior.

Free-response feedback reinforced these findings. Students, families, and staff identified supportive staff, relationships, activities, tutoring, Saturday school, and dual enrollment as strengths. Common suggestions for improvement included stronger behavior accountability, clearer family communication, fewer long-term substitutes, more sports/activities/field trips/clubs, cleaner facilities and restrooms, more supervision, and stronger attention to bullying, rumors, and respectful interactions.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the Spring 2026 climate survey data, MSA-3 will make targeted improvements in safety, behavior systems, communication, academic support, staff culture, and student engagement.

First, MSA-3 will strengthen schoolwide behavior and safety systems. By May 2027, the school will work to increase the student Safety approval rate from 57% to at least 70%. To support this, the administration team will review Tier 2 and Tier 3 MTSS behavior tracker data weekly, assign follow-up responsibilities, monitor supervision plans, and document interventions, outcomes, and next steps throughout the year.

Second, MSA-3 will improve family communication and confidence. By May 2027, the school will work to increase family approval rates in Safety, Climate of Support for Academic Learning, and Knowledge and Fairness of Discipline by at least 10 percentage points in each area. The school will support this goal by ensuring parent/guardian communication for serious incidents occurs within 48 hours, increasing communication regarding academic progress and substitute coverage, and gathering input through PAC, Parent Task Force, ELAC, and Educational Partners Committee meetings.

Third, MSA-3 will strengthen staff morale, communication, and instructional support. By May 2027, the school will work to increase staff Climate of Support for Academic Learning from 57% to at least 75%. Leadership will conduct monthly staff pulse checks, monitor substitute usage and classroom coverage systems, provide ongoing behavior support, and review staff feedback trends during leadership and operations meetings.

Fourth, MSA-3 will increase student engagement and belonging by expanding extracurricular participation, student leadership opportunities, incentives, enrichment activities, and student voice initiatives. Progress will be monitored through student feedback surveys, participation data, Kelvin pulse checks, and discipline trend reviews.

These actions will be used to guide continuous improvement and inform the LCAP, school climate planning, family engagement efforts, MTSS implementation, and schoolwide safety and communication systems.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-3 designs its master schedule strategically to meet the diverse academic needs of all students, ensuring equitable access to a comprehensive range of content areas. All student groups are provided access to core academic subjects—including English, mathematics, social sciences, and science—as well as a variety of electives aligned with our charter petition and graduation requirements.

Evidence of this commitment is reflected in our school's master schedule, elective request forms, class rosters, individual student schedules, and transcripts. These tools demonstrate MSA-3's dedication to delivering a well-rounded, rigorous education that supports both academic growth and student interests.

To promote on-time high school graduation, MSA-3 provides students with individualized four-year academic plans and targeted support programs. Students receive guidance in selecting courses that meet A-G requirements for UC/CSU admission. Additionally, we offer credit recovery options and personalized graduation plans to ensure students remain on track to meet their academic and postsecondary goals.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent

to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of MSA-3 students have access to a broad course of study, including core academic subjects—English, mathematics, social sciences, and science—as well as a range of electives, in alignment with our charter petition.

MSA-3 also offers all academic programs and services outlined in our charter, with certain offerings tailored to student needs and interests. For example:

ELA and Math Intervention: We provide Common Core-aligned intervention classes for students requiring additional academic support.

ELD Programs: English Learners (ELs) and immigrant students receive both designated and integrated ELD instruction, along with targeted support and intervention services.

Progress Monitoring: Student performance in ELA/Literacy, math, and ELD is closely tracked using interim assessments such as MAP and IAB, allowing for timely interventions and instructional adjustments.

We also offer dual enrollment opportunities, allowing students to earn college credit while still in high school. Participation in these courses has grown significantly, reflecting both student interest and academic success.

All students have access to Advisory classes, which focus on college planning, career exploration, and college readiness. In addition, MSA-3 provides credit recovery options and develops individualized graduation plans to ensure students complete the necessary coursework to meet UC/CSU A-G requirements.

As a result of these comprehensive supports and academic pathways, MSA-3 achieved a graduation rate of 94%, reflecting our commitment to preparing all students for postsecondary success.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-3 provides all students with access to a college-preparatory, STEAM-focused broad course of study that equips them with the knowledge, skills, and experiences necessary for success in both college and careers. Our academic program emphasizes Science, Technology, Engineering, Arts, and Mathematics (STEAM) integration, fostering creativity, critical thinking, and real-world problem-solving across disciplines.

In alignment with our charter petition, all students are enrolled in a rigorous curriculum that includes core academic subjects—English, mathematics, social sciences, and science—as well as a variety of electives and enrichment opportunities. These offerings are designed to be inclusive and responsive to diverse learning needs and student interests.

To support college readiness, MSA-3 incorporates:

Project-based learning that encourages innovation and collaboration.

Access to dual enrollment courses, allowing students to earn college credit while in high school.

Advisory classes focused on college planning, career exploration, and academic goal setting.

A-G aligned graduation plans to ensure students meet the eligibility requirements for UC/CSU admission.

Our STEAM approach, combined with a supportive learning environment, prepares students to thrive in postsecondary education and in a rapidly evolving global workforce.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-3 will continue to provide all students with access to a college-preparatory, STEAM-focused broad course of study, ensuring that every student graduates college- and career-ready. Our instructional program is designed to equip students with the academic foundation, critical thinking skills, and real-world experiences necessary for success in postsecondary education and beyond.

In our ongoing commitment to delivering a well-rounded education, MSA-3 will strive to expand offerings to include:

Additional elective courses aligned with career pathways,

Continued access to health and physical education,

A variety of visual and performing arts programs,

Strengthened instruction in civics and social-emotional learning (SEL),

And enhanced experiential learning opportunities, such as instructional field trips, internships, community service projects, and student-led clubs.

These expanded opportunities aim to foster student engagement, creativity, leadership, and a sense of civic responsibility.

While the implementation of these programs depends on the availability of financial and human resources, MSA-3 is committed to making the best possible use of its resources to provide all students with a rich, diverse, and engaging educational experience that supports their academic and personal growth.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Jacob Theis Principal	jtheis@magnoliapublicschools.org (310) 473-2464

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

OPTION 1: Narrative Summary (Limited to 3,000 characters)
In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA's progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for ELA

- English Language Development (ELD) (Aligned to Common CoreState Standards for ELA)
- Mathematics – Common Core State Standards forMathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5

Academic Standards	1	2	3	4	5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards					5	
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-4 is committed to ensuring that all curricula and assessments are meticulously aligned with educational standards, including CCSS and NGSS, to enhance educational outcomes. We engage teachers in comprehensive professional development/learning focused on the effective implementation of these standards. Specifically, we offer tailored services to English Learners (ELs) by proficiency level, ensuring that ELD instruction is consistent with the CA ELD standards and framework. ELs benefit from both core and supplemental ELD instructional materials, and our teachers enhance their skills through professional development sessions specifically targeting ELD standards.

Our faculty participates in a minimum of 40 hours of professional development annually, encompassing areas such as Common Core ELA/Literacy, Math, ELD Standards, and the integration of ELD standards into content areas. Training also includes strategies to support ELs within the Common Core ELA/ELD and Math curricula. While our primary focus has traditionally been on ELA/Literacy, Math, and ELD, MSA-4 has also expanded its professional development offerings to include NGSS, History-Social Science, Physical Education, Visual and Performing Arts, and World Languages. Training is also provided to ensure these standards are being met while also supporting student-specific goals and accommodations in their IEPS.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

At Magnolia Science Academy-4, family engagement is at the heart of our educational mission. We believe that a child's success is most fully realized when schools and families work hand-in-hand. Recently, we have expanded our outreach, support systems, and communication channels to ensure that all families feel seen, heard, and connected.

Cornerstones of this work are our Community School Coordinator and Family Success Coordinator, who have been instrumental in creating access for families to valuable experiences and services that might otherwise be out of reach. This includes connecting families—particularly those from underserved communities—with critical supports while also equipping them with the tools and knowledge to more confidently support their children's academic and social-emotional development.

To help foster transparency and real-time connection, MSA-4 has prioritized multi-channel communication. While ParentSquare remains a primary tool for announcements, we also maintain an active presence on Instagram and regularly share updates through school newsletters, ensuring families receive important information in the formats they prefer. These channels have enhanced our ability to keep families engaged with our programs, from classroom news to school-wide events.

In an effort to listen and respond to the needs of our community, we conduct annual family surveys and perform home visits. These personal touchpoints have provided our staff with authentic insights into the environments our students come from, helping to guide school decisions and support strategies in a way that reflects the lived realities of our families. In the 2025-26 school year, this form of engagement has been especially intentional and impactful.

Family participation in school activities remains a strong pillar of our approach. We host a variety of recurring engagement opportunities including Coffee with the Admin, Parent Advisory Committee (PAC) and Parent Task Force (PTF) meetings, ELAC meetings, Open Houses, Back to School Nights, and Parent/Teacher Conferences.

Additionally, we offer virtual parent information sessions for families who may prefer or require flexible access. These events are not only informative—they serve as essential forums for feedback, collaboration, and shared vision-building between families and school leaders.

Recognizing the importance of meeting families where they are, we also host annual resource fairs. These gatherings bring together a broad network of community partners and nonprofit organizations, providing families with access to a wide range of services—from mental health resources to educational workshops and social service referrals.

Altogether, these efforts reflect MSA-4's deep commitment to building a school environment where families are not just recipients of information, but active partners in shaping their children's education. By engaging with compassion, communicating with intention, and creating opportunities for genuine connection, we are working every day to ensure that our families feel valued, supported, and equipped to thrive alongside their students.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Based on a thoughtful review of educational partner feedback and school-level data, MSA-4 has identified key areas of focus to strengthen relationships between school staff and families. Our efforts are centered on deepening trust, communication, and collaboration with our parent community in ways that are both culturally responsive and logistically accessible.

One major area of focus is the increased involvement of families in school life. Input from families and staff emphasized the importance of creating more consistent and meaningful opportunities for parents to engage with educators. In response, MSA-4 is actively working to expand family participation in both instructional and governance-related settings, including classroom visits, committee involvement, and school-based leadership opportunities.

Additionally, we are broadening the scope of our social and cultural events to reflect and celebrate the diverse backgrounds represented in our school community. These events, which are designed to be inclusive and community-driven, serve as a bridge between staff and families, helping to build connection and shared understanding through positive, culturally relevant experiences.

A third targeted improvement area involves expanding access to parent education workshops. Many families expressed a need for flexible scheduling and more opportunities to learn about topics that impact student well-being and achievement. In response, MSA-4 is offering workshops during after-school hours and weekends, covering topics such as academic support strategies, mental health awareness, and family wellness. These sessions are designed to equip families with practical tools while opening new pathways for collaboration between home and school.

Through these coordinated initiatives, MSA-4 is committed to cultivating a school environment where families feel welcomed, informed, and empowered, and where staff-family relationships are grounded in mutual respect, open communication, and a shared investment in student success.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

In response to insights gathered during our self-reflection process and informed by local engagement data, MSA-4 has developed a focused plan to increase the engagement of underrepresented families by strengthening the relationships between school staff and those whose voices are less often heard. Our approach is rooted in empathy,

flexibility, and inclusivity, and is guided by the belief that all families—regardless of background—deserve equitable access to meaningful school connections.

A core element of this strategy involves the expansion of home visits, both in-person and virtual. These visits serve as a valuable tool for building trust and understanding, especially with families who may feel disconnected from traditional school outreach efforts. By meeting families where they are, we are able to better understand their unique circumstances and create stronger, more personalized relationships between staff and caregivers.

Additionally, MSA-4 is committed to offering flexible, culturally responsive family engagement opportunities. We recognize that many underrepresented families face scheduling barriers that prevent them from attending events held during standard school hours. To address this, we are designing a calendar of family-friendly activities offered at varied times—including during the school day, after school, and on Saturdays—so that all families have an opportunity to participate meaningfully in school life.

Our engagement efforts also include a renewed focus on inclusive programming that reflects the needs and interests of our diverse school community. These events and workshops are designed to be both relevant and welcoming, covering topics such as academic support, social-emotional wellness, cultural celebrations, and parenting resources. Special attention is given to creating spaces where families from historically marginalized backgrounds feel seen, respected, and empowered.

Through these intentional actions, MSA-4 is committed to eliminating barriers to participation and strengthening bonds of partnership between school staff and underrepresented families. This work not only enriches the educational experience of our students but also supports the creation of a school culture where all families are valued contributors to our collective success.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Through ongoing engagement with educational partners and analysis of school-level data, MSA-4 has identified several key strengths that reflect meaningful progress in building strong partnerships to support student outcomes. At the heart of this work is our commitment to empowering families with the knowledge, tools, and confidence to actively participate in their children's educational journey.

A central component of our efforts is the Parent College program, a cornerstone initiative designed to support families in navigating college and career readiness pathways. This program not only provides families with critical information about postsecondary opportunities, but also cultivates advocacy skills—ensuring that parents and guardians understand their rights and are equipped to advocate for their children's academic success.

Our school leadership consistently prioritizes parent voice and empowerment. MSA-4's administration engages families in discussions about school services, educational rights, and student supports through regularly scheduled Parent Advisory Committee (PAC) and Parent Task Force (PTF) meetings. These forums provide structured opportunities for families to learn, ask questions, and collaborate with school staff on shared goals.

Communication has also been a significant area of strength. We utilize ParentSquare as a dynamic tool to maintain regular, accessible communication with families. Through text messages, private messages, email, and voicemail, we ensure families stay informed and engaged. This multi-channel approach has proven effective in reaching families across various linguistic and technological backgrounds.

In response to input gathered during the 2025–26 school year, MSA-4 has committed to broadening parent engagement opportunities even further. Families expressed a desire for more tailored, interest-based events and workshops. As a result, we are actively planning new activities that align with family preferences, schedules, and cultural values, with the goal of fostering a more inclusive and connected school community.

Taken together, these efforts reflect MSA-4's ongoing progress in building meaningful partnerships with families—partnerships that not only support student achievement but also strengthen the entire school community.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Based on educational partner input and findings from local engagement data, MSA-4 has identified two key focus areas for improving partnerships that directly support student success: increasing meaningful parent participation and enhancing staff capacity to address students' social-emotional needs through collaborative family engagement.

First, MSA-4 recognizes that increasing parent engagement remains an essential step toward strengthening student outcomes. Through surveys, feedback sessions, and PAC/PTF meetings, families have expressed a desire for more relevant, interest-driven opportunities to connect with the school. In response, we are developing a broader range of parent-centered activities that are responsive to the lived experiences, cultural identities, and time constraints of our families. By aligning engagement strategies with what families value most, we aim to foster deeper and more consistent involvement in their children's academic journey.

Second, MSA-4 is expanding its implementation of the Multi-Tiered System of Supports (MTSS) to more effectively meet the social-emotional learning (SEL) needs of students. Local data highlights a growing demand for emotionally supportive learning environments—an area where strong school-home partnerships are especially critical. To address this, we will continue investing in ongoing professional development for teachers and support staff, equipping them with tools to better understand and respond to the SEL needs of students. These trainings also include strategies for engaging families as partners in supporting student well-being, ensuring that communication and collaboration extend beyond the classroom.

Together, these targeted efforts reflect MSA-4's commitment to cultivating a school culture where families are active contributors to student success and where school staff are empowered to work in tandem with families to support the academic, emotional, and social growth of every learner.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Guided by reflections from our self-assessment and feedback from educational partners, MSA-4 is committed to strengthening engagement with underrepresented families as a key lever in building partnerships that directly support student achievement. Our approach is rooted in equity, responsiveness, and relationship-building, with an emphasis on reaching those families who have historically faced barriers to consistent school involvement.

We recognize that strong partnerships with families—particularly those from marginalized or underserved groups—are essential to student success. To that end, MSA-4 is adopting a multifaceted strategy tailored to meet the unique needs of underrepresented communities. This includes students who are homeless or in foster care, English Learners, students with disabilities, socioeconomically disadvantaged youth, and families representing diverse racial and ethnic backgrounds. Our initiatives are designed to foster greater trust, access, and participation, ensuring that every family feels welcomed and empowered to contribute to their child's educational journey.

One critical area of focus will be the enhancement of our home visit program. By expanding the frequency and scope of these visits, we aim to deepen our understanding of students' home lives and create a more personal bridge between school staff and families. These visits are not simply informational—they are an opportunity to listen, connect, and collaborate with families in a setting that feels safe and familiar. This outreach helps inform how we tailor our support services and engagement strategies for each student.

In addition, we will continue to forge targeted partnerships and support systems that respond to the needs of underrepresented families. This includes leveraging community-based resources, designing culturally relevant parent workshops, and offering engagement opportunities that align with families' availability and interests. Our goal is to reduce barriers to participation—whether logistical, linguistic, or cultural—and create an environment where every family feels that their voice matters and their involvement makes a difference.

By embedding these practices into our everyday operations, MSA-4 affirms its commitment to inclusive, outcomes-driven family engagement, ensuring that all students—regardless of background—have the support they need to thrive academically, socially, and emotionally.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5

Practices	Rating Scale Number
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

At Magnolia Science Academy-4, seeking and valuing stakeholder input is foundational to our decision-making process. We recognize that meaningful family, student, and staff participation leads to better outcomes and a stronger, more inclusive school culture. To that end, MSA-4 has established a multi-tiered system that provides consistent, structured opportunities for stakeholders to contribute to the direction of our school.

Our English Learner Advisory Committee (ELAC), and Parent Advisory Committee (PAC)/Parent Task Force (PTF) serve as critical platforms for family engagement in policy and planning. These bodies are not symbolic—they are decision-making spaces where parent and community voices directly shape school initiatives, budget priorities, and academic program strategies. Meeting agendas are designed to be collaborative and transparent, and we actively encourage open dialogue, ensuring that our families—particularly those representing English Learners and other student groups—have a say in the issues that impact them most.

To ensure that decision-making is informed by a broad range of voices, MSA-4 also administers the ANA (Annual Needs Assessment) Survey annually. This comprehensive survey captures perspectives from students, families, and staff on a variety of factors, including school climate, engagement, and instructional quality. The data is analyzed closely by school leadership and then shared in stakeholder meetings, allowing the community to reflect on strengths, raise concerns, and co-create solutions.

Our school culture emphasizes responsiveness to stakeholder input. For example, feedback gathered from the ANA Survey and family forums has led to increased offerings of culturally relevant events, expansion of social-emotional support programs, and the implementation of more accessible communication tools such as ParentSquare and Instagram. In this way, feedback is not only collected—it is visibly and meaningfully acted upon.

Additionally, school leadership maintains an open-door policy and actively participates in informal and formal engagement opportunities, including “Coffee with the Admin” sessions and community resource events, where families can voice ideas and concerns in a welcoming environment.

Through these collective efforts, MSA-4 has cultivated a climate of shared responsibility and continuous reflection, ensuring that our policies and practices are grounded in the lived experiences of our school community. We are proud of the trust and collaboration we've built with our stakeholders and remain committed to sustaining and expanding these inclusive pathways for participation.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

As part of our continuous improvement process and in direct response to feedback from our educational partners, MSA-4 has identified a need to deepen stakeholder understanding of the systems that inform school accountability and performance. While we have established strong structures for gathering input, such as PAC and ELAC meetings, our next step is to ensure that these conversations are grounded in shared knowledge, particularly around the California School Accountability System.

To achieve this, we are focusing on empowering parents, staff, and community members through targeted educational opportunities. Many stakeholders have expressed a desire to be more informed about how school performance is measured, how data informs funding and planning, and how their feedback fits into that broader context. By offering clear, accessible training sessions—both in-person and virtual—we aim to demystify key elements such as the California School Dashboard, Local Control Funding Formula (LCFF), and Local Control and Accountability Plan (LCAP) metrics.

This focus on education and capacity-building is more than just informational—it is an equity-driven approach to engagement. When stakeholders understand the “why” and “how” behind decisions, they are better positioned to offer meaningful, data-informed feedback that helps drive school improvement efforts. This not only strengthens the quality of the input we receive but also reinforces a culture of shared leadership and trust.

Ultimately, this initiative reflects MSA-4’s commitment to building a community where all voices are not only heard but also informed, respected, and valued in the decision-making process. Through deeper collaboration and shared understanding, we are laying the foundation for more strategic, inclusive, and impactful decisions that benefit every student.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

Informed by our self-reflection process and stakeholder feedback, MSA-4 has identified a key area of improvement: increasing the meaningful participation of underrepresented families in decision-making processes. We understand that equitable engagement requires more than simply inviting families to meetings—it requires intentional support, education, and culturally responsive outreach that empowers families to participate with confidence and clarity.

To address this, MSA-4 will continue and expand our opportunities for parent engagement, which are designed to equip families with the knowledge and tools they need to navigate the educational system and become informed advocates for their children. Through Coffee with the Admin, Parent Advisory Committees, community events, open houses, home visits, and our open-door policy, MSA 4 aims to provide guidance on understanding academic standards, accessing school resources, and interpreting school performance data. By breaking down complex systems into clear, practical knowledge, we aim to make school governance and decision-making more accessible to all families, particularly those historically underrepresented in such spaces.

In addition to academic support, we recognize that student well-being and family engagement are deeply interconnected. To that end, MSA-4 is launching a series of mental health workshops for parents, facilitated by The Los Angeles Department of Mental Health These sessions will offer parents valuable insights into youth mental health, including how to recognize signs of distress and how to support their children through challenges. This initiative reflects our commitment to holistic student support and positions families as proactive partners in both academic and emotional development.

By providing these opportunities and supports, MSA-4 seeks to remove barriers to participation for families who have traditionally been underrepresented, including those from diverse linguistic, socioeconomic, or cultural backgrounds. We are building a culture where all parents—regardless of prior experience or familiarity with the school system—feel prepared, welcomed, and empowered to engage in meaningful dialogue and decision-making with school staff.

These efforts reinforce our belief that inclusive decision-making leads to stronger outcomes for all students. By investing in the capacity and confidence of our families, MSA-4 is fostering a more collaborative, informed, and equitable educational community.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

The local climate survey data indicates mixed perceptions of school conditions across students, families, and staff, with notable strengths in relationships and academic support, alongside areas of concern in safety and discipline. Overall average approval rates declined from Spring 2025 to Spring 2026, with students at 65%, families at 91%, and staff at 77%. While student results meet the minimum target, family and staff results fall below established goals.

Analysis of specific survey domains shows that Climate of Support for Academic Learning remains a relative strength across all groups (Students: 78%, Families: 93%, Staff: 85%). Sense of Belonging is also strong, particularly for students (70%, +11 increase), indicating progress in connectedness. However, Safety and Knowledge and Fairness of Discipline emerged as the lowest-rated areas, with significant declines—most notably among students (Safety: 55%, -14) and staff (Safety: 60%, -29; Discipline: 60%, -30). These results suggest ongoing concerns related to school climate, behavior systems, and perceptions of safety.

While detailed disaggregated data by specific student subgroups is not provided in the available reports, patterns within the data indicate variability in student experience. For example, the gap between higher ratings in belonging and lower ratings in safety suggests that some student groups may feel connected but not consistently safe or supported. Free-response data further supports this analysis, highlighting concerns related to facilities (e.g., restroom access), student behavior, and overall school environment, alongside positive feedback regarding staff support and relationships.

In summary, the survey data reflects a school environment with strong relational foundations and academic support, but with clear areas for improvement in safety, discipline, and consistency of student experience. Ongoing data collection and deeper disaggregation of student group responses will be critical to identifying and addressing specific gaps in experience across student populations.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Analysis of local climate survey data reveals several key strengths, particularly in relationships, academic support, and sense of belonging. Across all stakeholder groups, Climate of Support for Academic Learning remained high (Students: 78%, Families: 93%, Staff: 85%), and students reported increased Sense of Belonging (+11 percentage points), indicating progress in fostering a more connected and supportive school environment. Free-response data further reinforces these strengths, with students and families consistently highlighting caring staff, personalized support, and the benefits of a small school community.

At the same time, the data identifies critical areas of need, most notably in safety and discipline. These domains showed the lowest approval ratings and the largest declines, particularly among students (Safety: 55%) and staff (Safety: 60%, Discipline: 60%). These findings are supported by qualitative feedback referencing concerns about student behavior, consistency of discipline, and overall school climate. Additional needs emerged around facilities and student experience, including restroom access, food quality, and limited opportunities for engagement, all of which impact daily student conditions and perceptions of the school.

While disaggregated data by specific student subgroups is not available, patterns within the data suggest uneven experiences. The gap between relatively high belonging and lower safety ratings indicates that some student groups may feel connected but not consistently safe or supported. Moving forward, key learnings emphasize the need to strengthen safe and consistent school environments, improve systems and facilities, and maintain strong relationships and academic supports as foundational strengths.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the analysis of local climate survey data and identified key learnings, the LEA has determined several necessary changes to strengthen school climate, safety, and overall student experience. A primary area of focus will be revising and strengthening discipline policies and procedures to ensure greater consistency, clarity, and equity in implementation. This includes refining behavior expectations, standardizing responses to student behavior, and providing additional staff training to improve consistency and effectiveness across classrooms and campus settings.

To address concerns related to safety, the LEA will implement enhanced supervision structures and update site procedures to ensure clear protocols for preventing and responding to incidents. This includes increasing adult presence during key times, improving communication systems for reporting and responding to safety concerns, and reinforcing proactive behavior supports. In addition, facility-related procedures will be revised to improve access to and maintenance of restrooms, ensuring that basic student needs are consistently met throughout the school day.

The LEA will also update practices related to student engagement and school experience, including expanding opportunities for extracurricular activities, reviewing scheduling structures (e.g., break time), and incorporating student voice into decision-making processes. To address identified communication gaps, the LEA will strengthen family communication protocols, ensuring more timely, transparent, and proactive outreach. These changes will be monitored through ongoing data review, stakeholder feedback, and continuous improvement cycles to ensure that implemented actions lead to measurable improvements in school climate and student outcomes..

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-4 uses a variety of locally selected tools to ensure that all students—across grade spans and student groups—have equitable access to a broad course of study. These tools include our schoolwide master schedule, student transcripts, individualized graduation plans, and elective interest forms, which collectively allow us to track course enrollment patterns and identify access gaps. We also use class rosters and PowerSchool reports to monitor enrollment trends disaggregated by subgroup, including English Learners, socioeconomically disadvantaged students, foster/homeless youth, and students with disabilities.

To guide long-term planning, MSA-4 develops personalized 4-year academic plans beginning in 9th grade. These plans align with graduation and UC/CSU A-G requirements and are regularly reviewed during counseling sessions to ensure students remain on track. We also implement credit recovery and intervention support, ensuring that students facing academic challenges still maintain access to the full scope of the curriculum. Together, these tools help us ensure that all students are enrolled in a rigorous, diverse academic program that supports college and career readiness.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

At Magnolia Science Academy-4, all students—from grades 6 through 12—have full access to a broad and rigorous course of study. This is evidenced through our master schedule, transcripts, class rosters, and individualized

graduation plans. Every student is enrolled in the four core academic areas—English, Mathematics, Social Sciences, and Science—and has opportunities to participate in a range of electives that reflect student interest and academic alignment with college and career readiness goals.

In the middle school program (grades 6–8), all students receive daily instruction in core academic content, along with SSR (Sustained Silent Reading) periods and science-focused electives, such as STEM labs, engineering projects, or environmental science. These offerings are designed to foster early academic engagement and curiosity in the sciences while maintaining literacy development and critical thinking across subjects.

Advisory courses for grades 9–12 include college readiness content and SAT/ACT prep. Interventions, including CCSS-aligned support in ELA and Math, as well as designated and integrated ELD services, are provided based on need.

We use locally tracked tools, including Infinite Campus, Abre, and internal data reviews to monitor enrollment across all subgroups—ensuring equity for English Learners, students with disabilities, socioeconomically disadvantaged youth, and foster/homeless students. No disparities in access have been identified, and our 100% cohort graduation rate confirms all graduates meet UC/CSU A-G requirements. Course offerings and access have steadily expanded year over year.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

While MSA-4 is proud to offer a rigorous, college-preparatory curriculum with a strong STEAM focus, several barriers have been identified that limit full access to a broad course of study for all students. One key challenge is staffing limitations—particularly in hiring credentialed teachers for specialized elective and advanced coursework, such as Career Technical Education (CTE) or less common world languages. As a small school, our limited staff-to-course ratio makes it difficult to expand offerings without compromising class sizes or instructional quality.

Another barrier is scheduling constraints tied to balancing intervention courses (e.g., ELD, academic support) with elective availability. Students who require intensive support, including English Learners and those with IEPs, may have reduced flexibility to participate in enrichment or advanced classes due to required remediation.

Lastly, funding limitations impact our ability to scale extracurricular and lab-based electives, especially those requiring specialized equipment or off-site partnerships. Despite these barriers, MSA-4 continues to leverage creative scheduling, shared staffing, and student input to ensure equity in course access and sustained academic growth for all learners.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

In response to identified barriers, MSA-4 has implemented several strategic actions to expand and ensure equitable access to a broad course of study for all students. We remain deeply committed to offering a rigorous, college-preparatory curriculum grounded in STEAM, while intentionally broadening access to enrichment and career-aligned learning.

To address scheduling and intervention-related constraints, we are refining our master schedule to offer more flexible elective blocks, particularly for English Learners and students with IEPs, allowing them to receive necessary supports without sacrificing exposure to arts, civics, and career exploration courses. We are also enhancing our 4-year academic planning process to ensure early and consistent course alignment with UC/CSU eligibility and career pathways.

To expand access to college-level coursework, we've strengthened our dual enrollment partnership with West LA College, allowing students to earn transferable college credit while in high school. We are also launching a STEAM-focused Career Technical Education (CTE) track, which will provide hands-on, interdisciplinary learning in emerging fields.

Finally, MSA-4 continues to invest in field trips, community service, clubs, and SEL programming to ensure all students, including those from underserved groups, experience a rich and well-rounded education that supports their academic and personal growth.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 5	Ali Kaplan Principal	akaplan@magnoliapublicschools.org (818) 705-5676

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	14.4	61.8%	15.3%	0.0%	22.6%	0.0%	0.0%	0.3%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education			3			
Health Education Content Standards					5	
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-5 has demonstrated a strong commitment to implementing California's academic standards across all subject areas. The school's instructional programs are fully aligned with the California State Standards, including the Common Core State Standards (CCSS) for English Language Arts and Mathematics, the Next Generation Science Standards (NGSS), and the California English Language Development (ELD) Standards.

Key actions undertaken include:

Professional Development: Teachers participate in ongoing professional development focused on standards-based instruction, data-driven decision-making, and differentiated instruction to meet the diverse needs of students.

Curriculum Alignment: The school has adopted and implemented curriculum materials that are aligned with state standards and ensuring consistency. MSA-5 is determined to improve rigor across grade levels and subjects as identified on California School Dashboard in response to increase CAASPP Math and ELA scores.
Assessment Practices: MSA-5 utilizes formative and summative assessments aligned with state standards to monitor student progress and inform instruction.

Support for English Learners: The school provides designated and integrated ELD instruction, ensuring that English learners have access to the core curriculum and are supported in developing language proficiency.

STEAM Integration: As a STEAM-focused school, MSA-5 integrates science, technology, engineering, arts, and mathematics into the curriculum, promoting interdisciplinary learning and critical thinking skills.

These efforts reflect MSA-5's dedication to providing all students with access to a high-quality, standards-aligned education that prepares them for college and career success.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-5 continues to demonstrate strong progress in building trusting and respectful relationships with families. Spring 2026 educational partner survey results show that family satisfaction remains very strong at 94%, and family average approval is 96%, reflecting continued confidence in the school's communication, climate, and support for students. Families rated the school especially high in Climate of Support for Academic Learning and Sense of Belonging, both at 99%, indicating that families experience MSA-5 as a welcoming, supportive, and relationship-centered school community.

Qualitative feedback reinforces these results. Families consistently highlighted staff warmth, accessibility, personalized attention, strong leadership, academic quality, and the school's family-oriented culture. Students also identified caring teachers and staff, positive friendships, and the close-knit environment as major strengths. These results show that MSA-5 has maintained a culture where students are known, families feel connected, and staff members make consistent efforts to communicate responsively and respectfully.

The school's continued use of multilingual communication, family engagement events, parent meetings, home-school communication systems, and inclusive practices supports two-way communication between families and staff. As MSA-5 prepares for the transition to a new campus and an anticipated increase in enrollment, preserving this strong relational culture will remain a priority. The school will continue building on its strengths through consistent communication, relationship-centered practices, PBIS systems, student support structures, and opportunities for families to remain informed and connected.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Although family trust remains strong, survey results and free-response feedback identify several areas for continued improvement. Student safety was 65% favorable, and family safety decreased to 86%, indicating the need for continued attention to supervision, shared spaces, and students' daily experience on campus. Families and students also identified facility limitations, food quality, lunch procedures, bathroom access, and the need for more activities, athletics, field trips, electives, and enrichment opportunities as recurring themes.

A major focus area for the upcoming year will be maintaining strong relationships and school culture during the transition to a new campus and a larger student body. Because enrollment is expected to grow significantly, MSA-5 will need to intentionally reestablish schoolwide expectations, communication routines, supervision systems, and relationship-building structures so that both returning and new families feel welcomed, informed, and included.

Another area for improvement is ensuring that all student and family groups experience the school's culture consistently. While overall family feedback is highly positive, student responses show that the school should continue strengthening student voice, adult-student responsiveness, fairness, and consistency in behavior expectations. These areas will require ongoing staff calibration, communication with families, and feedback loops that allow concerns to be addressed early and collaboratively.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

MSA-5 will improve engagement of underrepresented families by strengthening communication, access, and relationship-building during the transition to the new campus. The school will continue using multilingual communication and translation supports so that families receive important information in language that is understandable and accessible. ParentSquare, direct outreach, paper notices when needed, parent meetings, and family events will be used to ensure that families who may not regularly attend school events still receive timely information and opportunities to participate.

The school will also prioritize family orientation and onboarding supports for the new campus. These efforts will include clear information about school expectations, safety procedures, academic supports, communication platforms, and ways families can participate in advisory groups and school activities. The Family Success Coordinator and school support staff will continue helping families navigate digital platforms, access school resources, and connect with staff when they need assistance.

To increase participation among families who have been historically less represented, MSA-5 will offer flexible opportunities for input, including surveys, parent meetings, conferences, informal check-ins, and community-building events. The school will continue building trust by listening to families' concerns about safety, facilities, student belonging, and enrichment, and by communicating how their feedback informs school planning. These steps are intended to reduce barriers, strengthen home-school partnerships, and ensure that all families feel respected, included, and empowered to contribute to student success.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-5 has made strong progress in partnering with families to support student outcomes. Survey results show that families continue to report high levels of confidence in the school, with 94% overall satisfaction and 96% average approval. Families rated Climate of Support for Academic Learning at 99%, demonstrating that families believe the school provides strong academic expectations, support, and preparation for students. Family feedback also highlighted strong instruction, academic quality, college preparation, staff accessibility, and personalized attention as key strengths.

The school's partnership efforts include parent conferences, regular communication about student progress, academic updates, family meetings, and opportunities for families to understand how to support learning at home. MSA-5's relationship-centered culture helps families feel comfortable communicating with staff and seeking support when concerns arise. Students also identified supportive teachers and staff, friendships, and a connected school environment as positive factors that contribute to their success.

MSA-5 will continue building partnerships through consistent communication, student support systems, academic interventions, PBIS structures, college and career readiness supports, and family engagement opportunities. As the school prepares for growth and relocation, maintaining strong family partnerships will be essential to ensuring that students continue to experience a safe, supportive, and academically focused environment.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

The primary focus area for improvement is strengthening the overall student experience while maintaining strong family partnerships. Survey data show that student safety, student experience, and consistency in school climate require continued attention. Students and families requested better food quality, improved facilities, stronger supervision in shared spaces, more sports and extracurricular activities, additional field trips, expanded electives, and broader academic opportunities. Families also asked for more parent connection opportunities and greater responsiveness to student voice.

The transition to a new campus creates both an opportunity and a responsibility. While the new facility may address concerns related to space and access, MSA-5 must intentionally establish strong systems for culture, safety, supervision, academic expectations, and student support from the beginning of the year. With enrollment expected to grow, the school will need clear onboarding systems for new students and families, consistent communication with returning families, and staff calibration around expectations and support.

MSA-5 will also focus on improving student voice and belonging. Although families continue to report strong trust in the school, student feedback indicates the need for more engaging activities, clearer expectations, and consistent adult-student interactions. These priorities will guide planning for student supports, enrichment, family communication, and LCAP-aligned actions for the coming year.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

To improve engagement of underrepresented families in support of student outcomes, MSA-5 will expand access to information, resources, and family learning opportunities. The school will continue providing academic updates, conferences, workshops, and communication in families' preferred languages so that all families can understand student progress and available supports. The Family Success Coordinator, Social Worker, teachers, and school leaders will help connect families to resources related to academic progress, attendance, behavior expectations, college readiness, and social-emotional support.

MSA-5 will also provide flexible opportunities for families to participate in conversations about student learning. These may include parent conferences, family workshops, phone calls, surveys, advisory group meetings, and informal check-ins. The school will use these opportunities to help families understand school systems, digital platforms, student expectations, and ways to support learning at home.

As the school transitions to a larger campus, particular attention will be given to families of new students, English learners, students with disabilities, socioeconomically disadvantaged students, and families who may face barriers to participation. Orientation sessions, multilingual materials, direct outreach, and ongoing feedback opportunities will help families feel prepared and connected. By strengthening access, communication, and trust, MSA-5 will ensure that underrepresented families are active partners in supporting improved student outcomes.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-5 has established multiple structures for families and educational partners to provide input into school planning and decision-making. The school uses surveys, parent advisory opportunities, ELAC/PAC-style meetings, staff input, student feedback, and family communication platforms to gather perspectives on school climate, student supports, facilities, programs, and LCAP priorities. The 2025-26 educational partner survey process included students, families, and staff, and the results were used to identify glows, grows, suggestions, and next steps for the school.

Survey participation shows that families remain engaged and willing to provide feedback. Spring 2026 family participation exceeded the target at 79.8% in the revised data, and family feedback continued to reflect strong trust in the school. Families identified clear strengths, including staff warmth, strong leadership, academic quality, and a family-oriented culture, while also providing actionable suggestions related to facilities, safety, enrichment, student voice, and parent connection.

These input structures have helped MSA-5 identify priorities for the upcoming year, including transition planning for the new campus, stronger supervision systems, improved student experience, expanded enrichment opportunities, and continued family engagement. The school will continue using educational partner feedback to inform planning, implementation, and evaluation of school programs.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

A key focus area is increasing the participation of families who may not regularly attend meetings or advisory groups. While survey participation and family satisfaction remain strong, the school recognizes the need to expand opportunities for input beyond traditional meeting formats. Some families may face barriers related to work schedules, transportation, language, technology access, or comfort participating in formal settings.

MSA-5 will also focus on strengthening feedback loops so families can clearly see how their input influences decisions. Survey feedback identified priorities such as facilities, food, safety, supervision, athletics, extracurricular activities, electives, and parent community-building. As the school moves to a new campus and prepares for growth, families will need ongoing updates about how these priorities are being addressed and how they can continue to participate in decision-making.

Another area for improvement is ensuring that student and family input remains central during the transition year. The school will need to gather feedback throughout the year, not only during annual survey windows, so that adjustments can be made in real time. This will help MSA-5 preserve its close-knit culture while growing into a larger setting.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-5 will improve engagement of underrepresented families in decision-making by using multiple outreach methods and reducing barriers to participation. The school will continue combining digital communication, paper notices, direct phone calls, translation support, and in-person outreach to ensure families receive information and invitations to participate. ParentSquare and other communication tools will be used alongside personal outreach so that families who may not consistently access digital platforms are still included.

The Family Success Coordinator will play an important role in helping families access parent portals, understand school updates, attend meetings, and share feedback. The school will also offer flexible input opportunities, including surveys, advisory meetings, family events, conferences, and informal listening opportunities. These structures will help gather input from families of English learners, students with disabilities, socioeconomically disadvantaged students, new families, and families who have historically been less represented in decision-making spaces.

MSA-5 will also strengthen communication about how family feedback informs school actions. For example, family and student input regarding facilities, safety, supervision, enrichment, and parent connection will be used to guide new-campus transition planning, student orientation, PBIS expectations, supervision routines, and family engagement activities. By making decision-making more accessible, transparent, and responsive, MSA-5 will ensure that underrepresented families have meaningful opportunities to shape school priorities.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

Magnolia Science Academy-5 administered the Spring 2026 educational partner climate surveys to students, families, and staff. MPS used the Kelvin Pulse survey for students and families and the Great Place to Work Trust Index Survey for staff. The surveys measured perceptions related to four key school climate indicators: Climate of Support for Academic Learning, Knowledge and Fairness of Discipline, Rules and Norms, Safety, and Sense of Belonging/School Connectedness.

Survey participation remained strong for students and families. Student participation was 96.4%, exceeding the next-year target of at least 95%. Family participation increased from 74.6% in Spring 2025 to 79.8% in Spring 2026, exceeding the target of at least 75%. Staff participation decreased from 93.8% to 75.0%, which is an area for follow-up and improvement.

Overall satisfaction results showed continued strength. Student satisfaction remained stable at 76%, meeting the target of at least 75%. Family satisfaction remained very high at 94%, reflecting continued family trust and confidence in the school. Staff satisfaction increased significantly from 53% in Spring 2025 to 82% in Spring 2026, a 29-point increase, showing strong progress in staff morale and professional climate.

Spring 2026 student survey results showed improvement in several climate areas. Climate of Support for Academic Learning was 82% favorable, an increase of 8 percentage points from the prior year. Knowledge and Fairness of Discipline, Rules, and Norms was 76% favorable, an increase of 14 points. Sense of Belonging increased to 78% favorable, a 25-point increase. Safety remained the lowest student-rated area at 65% favorable, a slight decrease of 1 point.

Family survey results remained exceptionally strong. Families rated Climate of Support for Academic Learning at 99%, Knowledge and Fairness of Discipline, Rules, and Norms at 96%, Safety at 86%, and Sense of Belonging at 99%. While family ratings remained high overall, Safety decreased by 4 points and continues to be an area of attention.

Staff survey results showed broad improvement. Staff rated Climate of Support for Academic Learning at 92%, Knowledge and Fairness of Discipline, Rules, and Norms at 87%, Safety at 77%, and Sense of Belonging at 79%. Staff Sense of Belonging increased by 28 points, and staff average approval increased from 61% to 78%.

Available survey results indicate that MSA-5 has made meaningful progress in belonging, academic support, discipline/fairness, and staff morale. Safety remains the most consistent area of need across student, family, and staff data.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

The Spring 2026 climate survey results show several important strengths for MSA-5. Students reported clear improvement in Climate of Support for Academic Learning, Knowledge and Fairness of Discipline, and Sense of Belonging. The 25-point increase in student Sense of Belonging is especially meaningful because belonging was previously one of the lowest-rated areas. This improvement suggests that relationship-building, student support systems, PBIS practices, school activities, and staff efforts to create a connected campus culture are having a positive impact.

Family feedback continues to be a major strength. Families rated Climate of Support and Sense of Belonging at 99%, and overall satisfaction remained very high at 94%. Free-response feedback shows that families value the school's warm and accessible staff, individualized attention, strong leadership, academic quality, and family-oriented environment. This confirms that MSA-5 continues to be viewed by families as a welcoming and supportive school community.

Staff data also shows significant progress. Staff overall satisfaction increased by 29 points, from 53% to 82%, and staff Sense of Belonging increased by 28 points. Staff also reported strong approval in academic support, fairness, and safety. These gains suggest that recent leadership actions, communication improvements, and efforts to strengthen the professional environment have positively impacted staff morale and school culture.

The most significant area of need is safety. Student safety was 65% favorable, the lowest student-rated climate topic, and family safety decreased to 86%. Staff safety, while improved, was 77%, also lower than other staff categories. Survey comments from students and families identified concerns related to supervision, shared spaces, facilities, lunch areas, food quality, and the need for more structured activities, sports, field trips, and electives.

Another key learning is that MSA-5 must preserve its close-knit, relationship-centered culture while preparing for a major transition to the new campus at 7111 Winnetka and a significantly larger student body. The move to a new facility provides an important opportunity to address concerns about facilities and shared spaces; however, it also requires careful planning to ensure that schoolwide expectations, supervision systems, student onboarding, family orientation, and PBIS routines are clearly established from the beginning of the year.

Overall, the data show that MSA-5 is making strong progress in academic support, belonging, family trust, and staff morale. The school's greatest needs are to strengthen student safety, improve the day-to-day student experience, maintain consistent behavior expectations, and intentionally protect school culture during campus relocation and enrollment growth.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

In response to the Spring 2026 climate survey findings, MSA-5 will implement a focused continuous improvement plan centered on campus transition, safety, school culture, student belonging, and stakeholder voice.

First, MSA-5 will develop and implement a comprehensive transition plan for the new campus at 7111 Winnetka. This plan will include staff training, student orientation, family communication, and clear onboarding systems for returning and new students. Because enrollment is expected to increase significantly, the school will intentionally teach and reinforce campus expectations, routines, and shared-space procedures at the start of the year. The school will also refresh PBIS expectations and ensure that behavior systems are consistently communicated to students, families, and staff.

Second, MSA-5 will strengthen safety and supervision systems. Supervision plans for common areas, arrival, dismissal, lunch, hallways, and open spaces will be reviewed and mapped for the new facility. School leaders will monitor common-area behavior data, staff feedback, and student input during the first semester to determine whether adjustments are needed. The school's goal is to create a safe, predictable, and welcoming environment, including a measurable decrease in common-area behavior incidents and strong completion of student orientation activities.

Third, MSA-5 will expand efforts to improve student belonging and the overall student experience. Survey feedback showed strong improvement in belonging, but students also requested more activities, sports, field trips, improved lunch options, better facilities, and more course and elective variety. Where feasible, the school will expand enrichment opportunities, community-building activities, student celebrations, and student voice structures. Student feedback will be gathered through surveys, advisory structures, and informal feedback opportunities.

Fourth, MSA-5 will continue strengthening family engagement and stakeholder voice. The school will create an annual calendar of community-building events and establish regular opportunities for families and students to provide input. These may include advisory committees, quarterly feedback forms, parent meetings, family events, and targeted outreach to families who may not regularly attend meetings. The school will track participation and review feedback quarterly.

Finally, staff culture will remain a priority. While staff satisfaction improved significantly, staff participation in the survey declined. MSA-5 will provide dedicated time and reminders for future survey completion, continue transparent communication, support collaboration through staff meetings and PLCs, and maintain recognition and wellness efforts. These actions will help sustain the gains in staff morale while ensuring staff voice continues to inform schoolwide improvement.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

Magnolia Science Academy-5 uses multiple local tools to monitor whether all students have access to and are enrolled in a broad course of study aligned to grade-level standards, charter goals, graduation requirements, and college/career readiness expectations. These tools include the master schedule, student schedules, class rosters, transcripts, report cards, graduation tracking tools, 4-year academic plans, course request/elective interest forms, counseling records, intervention placement data, English Learner progress data, IEP/504 accommodations, and student information system reports.

MSA-5 also reviews enrollment and course access by grade level and student group, including unduplicated pupils, English Learners, students with disabilities, and students needing academic intervention or credit recovery. Counselors and administrators monitor student placement in core courses, interventions, electives, AP opportunities,

dual enrollment, and college/career readiness supports. Educational partner feedback, including annual student, family, and staff surveys, is also used to identify course-access needs and student interest in expanded electives, sports, enrichment, field trips, and extracurricular opportunities.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

Using the locally selected measures, MSA-5 confirms that students are enrolled in a standards-based course of study that includes English language arts, mathematics, science, social science, physical education/health, English language development as applicable, intervention support, college/career readiness opportunities, and electives aligned to school goals and student interests. The school continues to provide access to a college-preparatory program, including A-G aligned coursework, AP offerings, dual enrollment opportunities with Los Angeles Pierce College, advisory/counseling supports, and academic interventions for students who need additional support.

Students also have access to instructional technology and supplemental platforms that support individualized learning and intervention. English Learners receive designated and integrated ELD, and students with IEPs or 504 plans receive supports and accommodations to participate in the general education program to the greatest extent appropriate.

Survey data and free-response feedback show that students and families value the school's academic quality and supportive staff, while also requesting broader enrichment options, including more electives, sports, field trips, extracurricular activities, and improved facilities. These findings indicate that MSA-5 provides all students with access to core academic requirements and college-preparatory pathways, while continuing to expand enrichment and elective opportunities as facility and staffing capacity increase.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-5 continues to provide all students with access to required core academic courses and college-preparatory pathways; however, several barriers limit the full expansion of a broad course of study. The most significant barrier has been facility constraints. Operating in a limited/shared campus environment has restricted access to specialized instructional spaces needed for expanded electives, lab-based science, visual and performing arts, athletics, CTE-style experiences, and larger extracurricular programming.

Survey feedback confirms that students and families want more course variety and enrichment opportunities. Students requested more activities, sports, field trips, better facilities, improved lunch options, and additional electives/classes. Families similarly requested expanded sports and extracurricular options, stronger supervision and safety in open areas, a larger/improved facility, and more opportunities for parent and student voice.

Additional barriers include scheduling constraints, staffing capacity for specialized courses, and the need to support students who enter below grade level, are newcomers, are English Learners, or require credit recovery/intervention. As enrollment is expected to grow with the transition to the new campus, MSA-5 must carefully balance required core courses, interventions, ELD, special education supports, electives, AP/dual enrollment, and enrichment while preserving access for all student groups.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-5 will continue strengthening access to a broad course of study by maintaining a college-preparatory academic program while expanding enrichment, elective, and real-world learning opportunities. The school will continue offering core academic courses, academic interventions, ELD support, AP coursework, dual enrollment opportunities, advisory/counseling supports, and college/career readiness activities.

In response to survey feedback, MSA-5 will prioritize expanded student opportunities in electives, athletics, extracurricular activities, field trips, clubs, and enrichment programming. The school will use student and family feedback, course request data, and master schedule review to identify high-interest offerings and determine what can be implemented based on staffing, facilities, and budget.

The planned transition to the new campus at 7111 Winnetka will support broader implementation of programs that were limited by the previous facility, including lab-based learning, arts, athletics, student activities, and career-aligned experiences. MSA-5 will also develop a transition plan that includes student onboarding, family orientation, refreshed PBIS expectations, supervision plans, and academic scheduling systems to support both returning students and new students as enrollment grows.

The school will continue monitoring course access by student group, including English Learners, students with disabilities, socioeconomically disadvantaged students, and students needing intervention or credit recovery, to ensure equitable participation in core courses, electives, enrichment, and college/career pathways.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 6	James Choe Principal	jchoe@magnoliapublicschools.org (310) 842-8555

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	7.6	89.5%	0.0%	0.0%	0.0%	10.5%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards					5	
Physical Education Model Content Standards					5	
Visual and Performing Arts	1					
World Language						N/A

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	3

Practices	Rating Scale Number
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Magnolia Science Academy 6 has been focused on building relationships between the school, it's staff, and their families. This year, we were able to conduct many meetings throughout the year in order to make sure that we have opportunities for our parents to be involved with our staff and our school.

On a monthly basis, the principal will host a PAC/Coffee with the Admin meeting with students and with parents in order to keep our families up to date with the latest news about our school. Most of our meetings are in person with the option to zoom. Through these options, we still have all of our parents zooming rather than being in-person. We believe that this is the convenient option for our parents and it has yielded high participation rates throughout the year. We had one in-person ptf/pac meeting, with no online option, and it was a success, with nearly a fourth of our parents coming for this meeting.

Lastly, we have had other opportunities for our families to be connected with our school through our ELAC meetings, which is held 4 times per year, and through our Parent College Program, which was held 5 times this year.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Although there are many ways to communicate with the school; including PAC meetings, ELAC meetings, and the Parent Task Force, we would still like to have other opportunities to build Relationships with our families. We are currently brainstorming other ways that we can get families to become a part of our Magnolia family by thinking of ideas like; Bingo night, Family movie night, and any other event that might interest our families to come to our school and to meet the school team. Like last year, this year we hosted one all in-person meeting with no zoom option and we were able to get about 1/3rd of our families to come in-person. We had a book that the parents were given in order to give to their students, the 7 Habits of Highly Successful Teens. The parents seemed to have a good time and it was a good time to connect with them.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Here at Magnolia Science Academy-6, we do our best to build positive relationships with staff members, the families, the students, and any other support members within our community.

Furthermore, we have opened up as many communication lines as possible for our parents and families to contact our school. Beyond our typical email and phone system we have also implemented other technological apps that build bridges between the school and its families. Some of the apps that we use are: Parent square, Class Dojo,

Instagram, and Infinite Campus (our SIS system). Also, our school website is always up to date to keep all stakeholders posted.

For face to face meetings, we have an open door policy where parents are able to join our /Parent Task Force (PTF), English Language Advisory Committee (ELAC), our Parent Advisory Committee (PAC) meetings, Title I meetings, and our Cafecito with the Admin. All of these face to face meetings occur multiple times (min 4 times for each meeting) throughout the year at various days of the week and at various times of the day in order to help maximize participation from all parent/culture groups. We always have one bilingual staff member who provides translation in these meetings. As an added way of building relationships with families, we have fun activities like; our, back to school night, and the Multicultural Food Festival to help bridge the gap between families and the school and orientation meetings in order to meet and greet parents and students before the year begins.

Magnolia Science Academy 6 will do it's best to help improve all families, including engagement from underrepresented families, by making sure that we do our Home Visit, which is a staple of all Magnolia Science Academy schools. This year, our target was to hit 15% of our students. We were able to hit that target by the end of the second semester. With that in mind, we want to be strategic about who we do Home Visits for. We would like to make sure that we are targeting students who are in need of a Home Visit or underrepresented families who may benefit from a Home Visit as well.

This year, we will have a new Community Schools Coordinator (CSC), who has gathered resources from all of our partners, to share with our parents during our Coffee with the Principal Meetings and PAC meetings. We will be continuing with this CSC position in order for us to find and provide more resources for our community. In addition, we will also have another teacher who will be the Family and Outreach coordinator in order to assist and take lead with meeting families in our community and outside our community.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-6 feels that building partnerships for student outcomes is an important aspect of achieving higher results. Our teachers are given opportunities to grow professionally with our tuition reimbursement policy. The teachers are encouraged to take advantage of the tuition reimbursement policy in order to help with their own development but also to help with student outcomes as well. Some of the professional development opportunities that our teachers have taken are the: LACOE Admin program, Conditioning and Strengthening for Physical Education, and teaching credentialing degrees. As a result of these professional development growth opportunities, teachers become more adept in their content knowledge and teaching pedagogy. This then helps students in class, during after-school tutoring clubs, and even during Saturday school.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Magnolia Science Academy 6 looks at its own data and does an analysis of its data to make sure that we are familiar with our overall data and our detailed data as well. Aside from the overall score, we look at the data from an ethnic standpoint, and from a special programs standpoint. One of the areas that we want to improve on will be to increase our scores for the special programs group; English language learners and our Students with Disabilities group. The students in these two groups have not shown significant improvement from last year's MAP results (Measures of Academic Progress) and we would like to make sure we have improvement and a focus on these two groups.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Last year, we will have a FSC and CSC coordinator, the Family Success Coordinator from the beginning of the school year, and the Family and Outreach Engagement coordinator. I am hoping that with these two positions filled at the beginning of the school year, we will be able to connect with families more than ever before. This will then help strengthen our partnership with the families and which we hope will help with our academics. The PACE coordinator and the Family and Community will help us be able to bring in more families to our afterschool programs, to our Saturday school programs, and to our online tutoring service, Tutorme. This year, we have also partnered with Think Together, who is an after-school program until 6 pm. We hope that with the added academic support we can see growth from all of our students who are involved.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4

Practices	Rating Scale Number
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

Last year, we had a Family Success Coordinator, and we have had a Community School Coordinator for the past three years. During this time, we have made significant progress in strengthening our connections with families. This has been especially helpful as our enrollment has continued to increase.

Our Family Success Coordinator has supported communication between the school and our families, helping ensure that families stay informed, connected, and engaged. At the same time, our Community School Coordinator has helped connect families with valuable resources, such as the weekly food pantry pickup, as well as student resources like partnerships with the local public library.

Together, these roles have helped us build stronger partnerships with our families and provide additional support for our students. We believe that continuing to strengthen family engagement will have a positive impact on student success, including academic growth.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Magnolia Science Academy 6's is always looking for further improving our decision making process by gathering as much data as possible, analyzing that data, and then making an informed decision with that data. One of the best ways to gather more data, is to use surveys/polls from our ed partner surveys. Lastly, our parentsquare app, has helped us make sure that we communicate with all of our families about the important decisions that we are making and to share the news with them. The parentsquare app also has features similar to Zoom and google forms, if needed.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

We currently have a Family Success Coordinator. We are hoping that with this position along with the Community schools coordinator, will be able to reach all families, especially underrepresented families, to help us with the decision making process. These two positions will help the school with Home Visits, phone calls, zoom calls,

emails...etc. to make contact with them to become more engaged and to be a part of our school. Through making these connections, we plan to have these underrepresented families come to important meetings where they can listen, learn, and make informed choices/comments/questions about any decision that the school would like to make.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

MSA-6 collected feedback from students, families, and staff to better understand school climate.

Survey tools used:

Students and families completed the Kelvin Pulse survey.
Staff completed the Great Place to Work Trust Index Survey.
The surveys focused on:
Academic support
Fairness of discipline, rules, and norms
Safety
Sense of belonging / school connectedness

Survey participation rates:

Student participation remained at 100%.
Family participation was 77.1%, which was lower than last year's 94.9%, but still met the school's target of at least 75%.
Staff participation increased from 68.8% to 88.2%, which shows improved staff participation.

Overall satisfaction rates:

Student satisfaction stayed the same at 82%.
Family satisfaction remained high at 95%.
Staff satisfaction decreased from 64% to 47%.

Average approval rates:

Students: 73%
Families: 96%
Staff: 69%

Student survey highlights:

Academic support increased to 87%.
Sense of belonging increased to 80%.
Discipline and fairness was rated at 74%.
Safety decreased to 63%, making it the lowest-rated student area.

Family survey highlights:

Academic support: 96%
Discipline and fairness: 93%
Safety: 97%
Sense of belonging: 97%
Families continue to report very positive experiences overall.

Staff survey highlights:

Academic support: 86%
Discipline and fairness: 74%
Safety: 75%
Sense of belonging: 63%
Staff results show that staff culture, safety, and belonging need more attenti

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

The survey results show several strengths, as well as areas where MSA-6 needs to improve.

Key strengths:

Family satisfaction continues to be very strong.
Families reported 95% overall satisfaction.
Families rated all major climate areas between 93% and 97%.
Students are feeling more connected to school.
Student sense of belonging increased to 80%.
This was an increase of 11 percentage points from last year.
Students feel supported academically.
Academic support increased to 87%.
This shows that students recognize the support they receive from teachers and staff.
Relationships continue to be a strength.
Students mentioned friendships, activities, and supportive teachers.
Families mentioned communication, safety, and staff dedication.
These responses show that MSA-6 continues to have a strong sense of community.

Identified needs:

Staff experience needs improvement.
Staff satisfaction decreased to 47%.
Staff sense of belonging was 63%.
Staff feedback shows a need to improve morale, communication, support, and workplace culture.
Student safety needs close attention.
Student safety decreased to 63%.
This was the lowest-rated student area.
The school needs to review supervision, reporting systems, and how students experience safety on campus.
Discipline and fairness need more consistency.
Students and staff both rated this area at 74%.
This shows a need for clearer expectations and more consistent consequences.
There is a gap between family perceptions and student/staff perceptions.
Families rated safety and belonging very highly.
Students and staff reported more concerns in these areas.
This means the school needs to better understand the day-to-day experiences of students and staff.

Overall meaning:

MSA-6 has strong family trust, positive student belonging growth, and strong academic support.
The school’s main areas for improvement are:
Student safety
Staff morale and belonging
Discipline consistency
Clear communication

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the survey results and feedback, MSA-6 will focus on improving safety, staff culture, discipline consistency, student engagement, and family communication.

To support staff, MSA-6 will:

Hold staff listening sessions.
Provide staff with more opportunities to share feedback.
Better understand concerns related to:
Morale
Workload
Safety
Communication
Sense of belonging
Use staff feedback to identify practical next steps.
Continue finding ways to help staff feel supported, valued, and connected.

To improve student safety, MSA-6 will:

Review campus supervision plans.
Strengthen supervision during:
Arrival
Dismissal
Lunch
Passing periods
Other high-traffic times
Review safety procedures and student support systems.
Make sure students know how to report concerns.
Make sure students know which adults they can go to for help.

To improve discipline and fairness, MSA-6 will:

Review schoolwide behavior expectations.
Review behavior tiers and consequences.
Communicate expectations more clearly to:
Students
Families
Staff
Continue strengthening PBIS practices.
Provide staff support and training around:
Classroom expectations
Schoolwide norms
Discipline consistency

To increase student engagement and belonging, MSA-6 will:

Expand opportunities for clubs.
Increase sports and enrichment activities.
Continue after-school programs.
Continue Saturday school opportunities.
Provide academic support programs for students who need additional help.
Use student and family feedback to identify activities that students are interested in.

To strengthen family communication and engagement, MSA-6 will:

Continue regular communication with families.
Keep families informed about school programs and expectations.
Continue connecting families with school and community resources.

Build on the strong family satisfaction results.
Provide more opportunities for families to be involved in the school community.

To monitor progress, MSA-6 will:

Continue reviewing survey results.
Review free-response feedback.
Use staff and student feedback throughout the year.
Monitor progress in safety, belonging, discipline, and academic support.
Make adjustments as needed to improve school climate and student success.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-6 designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition and graduation requirements. As evidenced by the school master schedule, class rosters, student schedules and transcripts, MSA-6 strives to offer a well-rounded education to our students through it's clubs and our partnership with an after-school service provider, Think Together.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

As evidenced by our master schedule, elective forms, class rosters, student schedules and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs and services being dependent on student need and interest. For example; we provide CCSS aligned ELA and math intervention classes to all students who are in need of additional support. We provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our interim assessments (MAP, IAB, etc.)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-6 provides access to a college-preparatory, STEAM focused broad course of study for all our students.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-6 will continue to provide access to a college-preparatory, STEAM focused broad course of study for all our students. We will ensure that all our students graduate college and career ready. In an effort to provide a more well-rounded education to our students, MSA-6 will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-6 will make the best use of its resources to provide a well-rounded education experience to our students.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy 7	Musa Avsar Principal	mavsar@magnoliapublicschools.org (818) 886-0585

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	12.0	91.7%	0.0%	0.0%	8.3%	0.0%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards					5	
Physical Education Model Content Standards					5	
Visual and Performing Arts				4		
World Language						N/A

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

At Magnolia Science Academy-7 (MSA-7), all instructional programs and assessments are intentionally designed to align with California state standards, including the Common Core State Standards (CCSS), Next Generation Science Standards (NGSS), and other applicable frameworks. Teachers participate in continuous professional learning opportunities to support strong implementation of these standards in the classroom.

Instruction for English Learners (ELs) is differentiated based on students' language proficiency levels, with English Language Development (ELD) instruction aligned to the California ELD Standards and Framework. EL students receive access to both core and supplemental ELD resources and instructional supports. Teachers also engage in specialized professional development focused on ELD instruction and strategies for integrating language development into academic content areas.

At MSA-7, every teacher completes at least 18 hours of annual professional development, along with two hours of weekly collaboration and training built into the 2025–26 academic calendar. These trainings emphasize Common Core ELA/Literacy and Mathematics, ELD standards, and instructional practices that effectively support English Learners within rigorous academic settings.

Although recent professional development efforts have primarily centered on ELA/Literacy, Mathematics, and ELD, MSA-7 also provides ongoing support in areas such as NGSS, History-Social Science, Health Education, Physical Education, and Visual and Performing Arts. In addition, staff receive training in Social Emotional Learning (SEL) and Positive Behavior Interventions and Supports (PBIS) to help maintain a positive, inclusive, and student-centered school environment.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA’s current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Based on the analysis of educational partner feedback and local data, MSA-7 has demonstrated strong progress in building positive relationships between school staff and families. Family survey results continue to reflect high levels of trust and connection, with 97% favorable ratings in both Climate of Support for Academic Learning and Sense of Belonging. Families consistently described the school environment as welcoming, supportive, and family-oriented.

A significant strength has been the collaborative work of staff in maintaining strong communication and personalized support for families. The school's small-school environment allows staff to build meaningful relationships and provide individualized attention to students and families. Additionally, family engagement increased throughout the year, supported by consistent outreach efforts, school events, and home visits, which helped strengthen partnerships between families and the school community.

The survey data also indicates that families value the school's supportive culture, responsiveness, and commitment to student success. These strong relationships continue to serve as a foundation for maintaining a positive and community-centered learning environment at MSA-7.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Based on the analysis of educational partner feedback and local data, MSA-7 identified several focus areas for continued improvement in strengthening relationships between school staff and families. Although family satisfaction and sense of belonging remain high, survey feedback highlighted the need for more timely, consistent, and transparent communication, particularly regarding student incidents and school updates. Families also expressed concerns related to student supervision and safety during recess and lunch periods.

In response, the school plans to strengthen communication systems by developing clearer communication protocols, increasing the consistency of outreach through ParentSquare and other platforms, and ensuring timely follow-up with families. MSA-7 will also continue improving supervision systems and campus safety practices to address family concerns and maintain trust within the school community. Additionally, the school will continue expanding family engagement opportunities and personalized outreach efforts to further strengthen collaboration and partnerships between families and staff.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Based on the analysis of educational partner feedback and local data, MSA-7 recognizes the importance of continuing to strengthen engagement with underrepresented families by increasing personalized outreach, improving communication accessibility, and expanding opportunities for meaningful participation in the school community. Survey reflections and participation data highlighted the need to ensure all families feel informed, connected, and represented in school decision-making processes.

To improve engagement, the school will continue utilizing multiple communication platforms and provide timely updates in family-friendly formats and home languages when needed. Staff will increase individualized outreach efforts through phone calls, meetings, home visits, and family support services to build stronger relationships with families who may face barriers to participation. MSA-7 will also continue creating welcoming school events, workshops, and engagement opportunities designed to increase family involvement and strengthen trust between families and school staff.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-7 has continued to strengthen strategic partnerships and family engagement efforts to support student success and build a strong school community. The school partnered with several community organizations to provide engaging after-school enrichment opportunities focused on STEAM, arts, creativity, and student engagement beyond the classroom. These programs served approximately 80 students during the school year and expanded access to meaningful extracurricular experiences.

MSA-7 also strengthened community partnerships through outreach events and support services for families. During the fall semester, the school hosted several community events, including backpack and school supply giveaways, hygiene product distributions, fresh produce and food giveaways, and a community resource fair featuring 23 local organizations. In addition, the school conducted home visits to strengthen relationships with families and provide individualized support for students.

To further build family engagement and school connectedness, MSA-7 organized family-centered events, including a Saturday Field Day where families came to campus to participate in fun activities and community-building experiences with their students. The school also continued facilitating SSPT meetings, Academic Support Meetings, ELD meetings, and IEP meetings to ensure families remained active partners in student learning and decision-making.

Through these efforts, MSA-7 continues to foster a supportive, inclusive, and community-centered environment that promotes strong relationships between students, families, staff, and community partners.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Based on the analysis of educational partner feedback and local data, MSA-7 identified several focus areas for continued improvement in building partnerships that support positive student outcomes. Educational partners expressed interest in expanding enrichment opportunities, including additional STEAM programs, clubs, sports, field trips, and culturally responsive activities that increase student engagement and connectedness. Families and students also identified the need for continued improvements to student supervision, campus safety, and school facilities to enhance the overall student experience.

In response, MSA-7 plans to strengthen and expand partnerships with community organizations to provide additional enrichment opportunities and student support services. The school will also continue improving communication and collaboration with families to ensure timely outreach and stronger participation in school programs and decision-making processes. Additionally, MSA-7 will focus on increasing family-centered events, expanding access to community resources, and strengthening systems that support student safety, wellness, and engagement.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Based on the analysis of educational partner feedback and local data, MSA-7 will continue strengthening engagement with underrepresented families by expanding access to community resources, increasing personalized outreach, and creating more inclusive opportunities for participation in school programs and partnerships. The school recognizes that strong family partnerships are essential to improving student outcomes and ensuring all families feel connected, informed, and supported.

To improve engagement, MSA-7 will continue conducting home visits, providing family-centered events, and connecting families with community organizations and support services through resource fairs, workshops, and outreach events. The school will also continue utilizing multiple communication platforms and providing timely information in accessible formats to reduce barriers to participation. Additionally, MSA-7 will expand enrichment opportunities and family engagement activities that reflect the diverse interests and needs of students and families, helping strengthen trust, collaboration, and shared responsibility for student success.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

One of MSA-7's key strengths in shared decision-making is its commitment to gathering meaningful input from all educational partners. The school regularly collects feedback from families, students, and staff through surveys, meetings, and collaborative engagement opportunities, including PAC, ELAC, Coffee with the Admin sessions, and staff meetings. During the current school year, MSA-7 also implemented a comprehensive Asset and Needs Assessment to strengthen data collection and better understand community needs.

MSA-7 is intentional about not only gathering feedback, but also communicating how input is used to guide decisions and improvements. The school shares updates and action steps through ParentSquare, the school website, social media, and community meetings to ensure transparency and accountability.

Another important strength is the accessibility and responsiveness of school staff and leadership. Families consistently describe staff as approachable, supportive, and welcoming. Through ongoing communication, personalized outreach, and timely support, MSA-7 continues to build strong relationships and foster an inclusive school culture grounded in collaboration and trust.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

While MSA-7 typically receives strong response rates to surveys, a key area for growth has been increasing attendance at in-person meetings, particularly for the Parent Advisory Council (PAC) and the English Learner Parent Advisory Council (EL-PAC). Despite consistent efforts to organize and promote these gatherings, participation has historically been lower than anticipated.

To address this challenge, MSA-7 implemented a hybrid meeting format during the spring semester, allowing families to join either in person or virtually. This flexible approach was designed to accommodate varying schedules, accessibility needs, and comfort levels. As a result, the school has observed a notable increase in engagement, with more families actively participating in discussions and contributing valuable input.

Looking ahead, MSA-7 remains committed to refining its stakeholder engagement strategies, with the goal of creating inclusive, responsive opportunities for all community members to share their voices and play a meaningful role in the school's decision-making processes.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSA-7 is committed to ensuring that all families—regardless of language background—have equitable access to communication and participation. One important step toward this goal has been the enhancement of translation services for languages beyond English and Spanish. The school has invested in a real-time translation device, designed to support families with diverse language needs during meetings and school interactions, removing barriers to meaningful engagement.

Recognizing the unique needs of Newcomer families, our English Language Development (ELD) Coordinator is working in close collaboration with the Family Success Coordinator (FSC) and the Community School Coordinator (CSC) to strengthen systems of support. These efforts include improving access to resources, information, and culturally sensitive programming to help Newcomer families navigate and thrive in the school community.

In addition, MSA-7 is focused on fostering a welcoming and inclusive environment where all families feel encouraged to participate in meetings, school committees, and events. By prioritizing the development of culturally responsive programs, the school aims to celebrate diversity and ensure that every family's voice is both heard and valued in the decision-making process.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

MSA-7 utilizes the Kelvin Pulse survey for students and families to measure perceptions related to school climate and conditions. The surveys assess four primary areas: Climate of Support for Academic Learning, Knowledge and Fairness of Discipline, Safety, and Sense of Belonging.

Survey participation rates remained strong during the 2025–26 school year, with 99.2% student participation and 79.4% family participation. Family participation increased significantly compared to the previous year, reflecting improved engagement efforts.

Student survey data showed overall improvement in school climate indicators, with an average approval rate increasing from 68% to 75%. Students reported strong gains in Climate of Support for Academic Learning (84%, +15) and Sense of Belonging (78%, +9). Student Safety (70%) and Knowledge and Fairness of Discipline (74%) remained areas identified for continued improvement.

Family survey data remained highly positive overall, with a 96% average approval rate. Families reported favorable ratings across all categories, including Climate of Support for Academic Learning (97%), Sense of Belonging (97%), Safety (94%), and Knowledge and Fairness of Discipline (94%). Family feedback reflected strong trust in the school community while also identifying opportunities to strengthen communication, supervision, and enrichment opportunities.

The survey results indicate that while student experience and family trust remain strong, MSA-7 will continue focusing on improving school climate systems related to safety, supervision, communication, and student engagement opportunities.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Analysis of the 2025–26 local climate survey data identified several key strengths and areas of need across students and families at MSA-7. One of the strongest findings was the continued positive growth in student experience and the consistently high level of family trust and connectedness within the school community. Student average approval rates increased from 68% to 75%, with notable gains in Climate of Support for Academic Learning (84%, +15) and Sense of Belonging (78%, +9), indicating that students feel increasingly supported academically and connected to the school environment.

Family survey data also reflected strong positive perceptions, with an overall average approval rate of 96%. Families reported high favorable ratings in Climate of Support for Academic Learning (97%) and Sense of Belonging (97%), demonstrating strong relationships between families and school staff as well as confidence in the school's supportive and welcoming environment.

The analysis also identified several important areas for improvement. Student and family feedback highlighted concerns related to safety, supervision, fairness, and communication, particularly during unstructured times such as recess and lunch. Student Safety (70%) and Knowledge and Fairness of Discipline (74%) remained the lowest-rated student survey categories, while families also identified safety and communication as key priorities for improvement.

Overall, the data demonstrates that MSA-7 maintains strong student-family-school relationships and a positive school culture, while also identifying opportunities to strengthen supervision systems, communication practices, and enrichment opportunities to further improve school climate and educational partner experiences.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the analysis of student and family survey data, MSA-7 identified areas for improvement related to safety, supervision, communication, enrichment opportunities, and overall student experience. Student and family feedback highlighted concerns regarding supervision during recess and lunch, timely communication, and access to additional student programs and activities.

In response, MSA-7 strengthened supervision procedures by increasing monitoring during unstructured times, reinforcing behavior expectations, and conducting regular walkthroughs to support campus safety. The school also plans to expand enrichment opportunities, including clubs, sports, field trips, STEAM activities, and culturally responsive programs aligned to student interests.

Additionally, MSA-7 will continue improving communication systems with families through clearer protocols, more consistent use of ParentSquare, and timely outreach regarding student needs and school events. The school will also prioritize facility improvements and student-centered supports to further strengthen school climate and student engagement.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-7 intentionally develops its master schedule to ensure all students, including historically underserved student groups, have equitable access to a comprehensive and well-rounded educational program. Students receive instruction in core academic subjects such as English Language Arts, Mathematics, Science, and Social Sciences, while also participating in non-core areas including Physical Education (PE), Health, and Art, consistent with the school's charter petition and graduation requirements.

MSA-7 is committed to providing inclusive access to the general education curriculum for students with disabilities. Students with Individualized Education Programs (IEPs) receive appropriate accommodations, supports, and Resource Specialist Program (RSP) services based on their identified needs, allowing them to meaningfully participate in general education classes and school programs.

The school's commitment to equity and access is reflected in its master schedule, student schedules, class rosters, and academic planning processes, all of which are designed to support the academic growth, engagement, and overall development of every student.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

MSA-7 provides all students with access to a broad and comprehensive course of study, as demonstrated through the school's master schedule, class rosters, student schedules, transcripts, and after-school program offerings. Students participate in core academic subjects such as English Language Arts, Mathematics, Science, and Social Sciences, along with specialized courses identified in the school's charter petition, including Computer Science, Physical Education/Health, and Life Skills focused on Social-Emotional Learning (SEL).

To support diverse student needs and interests, MSA-7 offers targeted academic programs and intervention services. Students needing additional support receive ELA and mathematics interventions aligned to the Common Core State Standards (CCSS). English Learners, including Newcomer students, participate in both designated and integrated English Language Development (ELD) instruction and interventions to strengthen language acquisition across all academic content areas.

Student achievement in ELA/Literacy, Mathematics, and ELD is regularly monitored using interim assessments such as MAP and IAB, allowing staff to make timely, data-informed instructional adjustments and provide appropriate supports. In addition, MSA-7 offers various enrichment opportunities based on student interests and needs, helping ensure a well-rounded educational experience that aligns with the school's mission and educational goals.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-7 provides all students with access to a comprehensive, STEAM-centered educational program designed to build college and career readiness while supporting long-term academic and professional success.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-7 continues to prioritize preparing students for future success by offering programs and experiences that promote college and career awareness. Through initiatives such as College and Career Week, students are introduced to a variety of postsecondary opportunities and encouraged to explore future academic and professional pathways. The school also remains focused on increasing access to non-core programs that enhance college and career readiness, including health and physical education, visual and performing arts, music, athletics, and social-emotional learning (SEL).
In addition to classroom instruction, MSA-7 provides students with meaningful experiential learning opportunities such as instructional field trips, community service activities, school events, clubs, and academic competitions. These opportunities support student engagement while helping students develop leadership, collaboration, and interpersonal skills.
Although the continued expansion of these programs depends on available funding and staffing, MSA-7 is committed to utilizing its resources strategically to ensure students receive a well-rounded, enriching educational experience that promotes both academic success and personal development.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy San Diego	Megan Craig Principal	mcraig@magnoliapublicschools.org (619) 644-1300

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	21.0	90.4%	8.8%	0.0%	0.0%	0.8%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards					5
History-Social Science					5

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education			3			
Health Education Content Standards			3			
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-San Diego ensures that all curricula and assessments meet the standards, with teachers engaging in professional development focused on implementing these standards (CCSS, NGSS, etc.). We support English Learners (ELs) based on their proficiency levels, aligning ELD instruction with the CA ELD standards and framework. ELs have access to both core and supplemental ELD instructional materials, and teachers attend professional development sessions centered on ELD standards. Our teachers complete at least 18 hours of professional development annually, covering areas such as Common Core ELA/Literacy, math, ELD standards, and integrating ELD standards into content areas, along with strategies to support ELs in these curricula. While the emphasis has primarily been on ELA/Literacy, math, and ELD in recent years, MSA-San Diego has also offered professional development and support in NGSS, History-Social Science, Physical Education, Visual and Performing Arts, MTSS, SEL, and personalized professional development. Additionally, a TOSA (Teacher on Special Assignment) leader is identified for all 11 Magnolia Public Schools to provide monthly professional development for each department.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	5
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

MSA-San Diego fosters trusting and respectful relationships with parents through various activities and events, such as the Summer Welcome Back Picnic, Student/Parent Orientation, Back to School Night, home visits and student-led conferences to encourage parental involvement in programs. Administrators greet all students and parents during morning drop-off and maintain an open-door policy for parents. Our staff connects with families through home visits, learning about students' interests, family dynamics, and home routines to build meaningful, individualized connections that contribute to creating happier, healthier, and more successful students. Home visits are a key component of our education program to enhance student and school performance. The school also holds regular meetings to gather input from families, including Parent Advisory Committee (PAC), Parent Task Force (PTF) meetings, Coffee with Principal meetings, and parent workshops.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

MSA-San Diego conducts a family and student experience survey, focusing on areas such as safety, school connectedness, culture, climate, and other aspects of school improvement. The survey feedback highlighted strong relationships between school staff and families. In response to the survey results and input from educational partners, the school has offered additional parent workshops to provide tools for supporting students both academically and social-emotionally. However, despite the numerous workshop opportunities, participation levels were lower than expected. This year we collected feedback to increase parent participation in these workshops and meetings, as well as surveyed families for best meeting times, provided food and childcare, and virtual options.

Based on the results of these surveys, we have adjusted our meetings/workshops and have seen an increase in participation. We will continue to collect this data annually to plan our family engagement opportunities.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

The school staff engages with families through home visits, discovering students' outside interests, family dynamics, and home routines. This information is then used to establish meaningful, personalized connections that significantly contribute to creating happier, healthier, and smarter students. Home visits are a key element of the school's educational program aimed at enhancing student and school performance. Additionally, the school holds regular meetings to gather feedback from families, including student-led conferences, Parent Advisory Committee (PAC), Parent Task Force (PTF) meetings, Coffee with Principal meetings, and parent workshops.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	5
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	5
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	5

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

MSA-San Diego staff receive training on MTSS expectations and the school culture model during summer inservice. As part of our program, MSA-San Diego enhances student learning through multi-tiered support systems, parent meetings, online tools shared by teachers weekly, newsletters, voice messages, and grade-specific communications. Additionally, student-specific feedback and resources are provided to parents during home visits, student-led conferences, and parent meetings.

MSA-San Diego's communication system, Parent Square, ensures continuous communication between parents and staff through various mediums, including texts, private messages, and voicemail. Parent Square also helps bridge language barriers with its automatic translation feature. Lastly, our teachers use the Kickboard positive behavior point system and Infinite Campus SIS to share students' academic and social-emotional progress and successes on a daily basis.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

The school conducts a family and student experience survey with specific questions on Climate of Academic Learning and Knowledge and Fairness of Discipline, Rules and Norms. Our highest two categories were in safety and climate of support for academic learning with both ratings at 97%. Based on the comments, families feel connected as part of a strong school community. They note that this is in part to the numerous after school clubs and school events that are offered, as well as the good communication that happens on a regular basis. Families also specifically noted that the teachers and staff are attentive, and genuinely invested in their child's learning. Many families praise the efforts the teachers and special education department make to help support our students with disabilities. Knowledge and Fairness of Discipline, Rules and Norms dropped by 2 percentage points, but still remains high favorability at 92%.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

MSA San Diego's communication system, Parent Square, maintains constant communication between parents and staff through various mediums, including texts, private messages, and voicemail. Parent Square also overcomes language barriers between staff and families with its automatic translation feature. To ensure active parental involvement in their students' education, teachers offer both in-person and virtual meetings for parent/teacher conferences. This year we collected feedback to increase parent participation in these workshops and meetings, as well as surveyed families for best meeting times, provided food and childcare, and virtual options. Based on the results of these surveys, we have adjusted our meetings/workshops and have seen an increase in participation. We will continue to collect this data annually to plan our family engagement opportunities.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	5
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5

Practices	Rating Scale Number
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	5
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	5

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA-San Diego regularly holds meetings to collect input from families, including Parent Advisory Committee (PAC), Parent Task Force (PTF) meetings, Coffee with Principal meetings, parent workshops, Wizard Student Council meetings, MTSS meetings, and community meetings. During these sessions, parents can review and provide feedback on the school's draft budget, MTSS plan, LCAP, WASC, Health and Wellness plan, and Safety plan. Additionally, the school conducts a family and student experience survey, focusing on aspects such as safety, school connectedness, culture, climate, and other areas for school improvement. These groups analyze survey data and determine priorities for growth.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Based on the survey results educational partners confirm that they are part of the decision making process through surveys and various meeting. 96% of the families stated that they feel welcome to participate at our school, 95% state that school staff welcomes their suggestions. and 95% of the families stated that school staff treats them with respect. To maintain this level of satisfaction, we will continue to encourage parent participation in our feedback opportunities such as surveys, Parent Advisory Committee (PAC), Parent Task Force (PTF) meetings, Coffee with Principal meetings, parent workshops.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

All the families are offered translation services and virtual/in person meeting accommodations to ensure that they are part of the decision making process. The school shares all the resources through the student/ parent handbook and weekly communications. This year we also collected feedback to increase parent participation in these workshops and meetings, as well as surveyed families for best meeting times, provided food and childcare, and virtual options. Based on the results of these surveys, we have adjusted our meetings/workshops and have seen an increase in participation. We will continue to collect this data annually to plan our family engagement opportunities. Lastly, our survey platform changed to add text notifications. These daily notifications, while persistant, encouraged parents to share their feedback on surveys which led to a 23% increase in participation.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

Student: For students, two notable data points stand out in the areas of Climate and Sense of Belonging (School Connectedness), with a 4-point increase in the former and a 10-point increase in the latter. These gains appear to reflect the intentional investment teachers make each Monday when facilitating a common restorative practice (RP) prompt. It is evident that there is a strong link between student connectedness, classroom climate, and academic achievement. As a result, our sustained focus on fostering a supportive and connected school environment has contributed to meaningful gains in both student experience and academic outcomes, culminating in our school being recognized for three consecutive cycles as a California Distinguished School and most recently as a National Blue Ribbon School.
At the same time, a closer look at the safety data reveals a picture of our students' low favorability perception. While the overall favorability rate for safety is relatively low at 56%, a sub-question within this category scored a 76% favorability when students were asked, "Does your school do things to help students feel safe?". This suggests that the school has proactive and preventative measures in place to support student safety.

Family: For families, our approval rating dropped significantly (-9 points) from 2024-25 to 2025-26 school year. However, the individual category percentages do not seem to support this overall experience change. The biggest change was in the 'Knowledge and Fairness of Discipline, Rules, and Norms" category. Based on the comments, it seems that many families are not sure if the rules are consistent. Some families felt that they didn't have the proper information to answer that question fairly. The change from Panorama to Kelvin Ed could have had some impact, but it's difficult to say with any certainty. Feedback during school meetings, and Student Led Conferences are typically positive. Without additional comments specifying the concerns of the parents, the reason for the sharp decline is unknown.

Staff: For staff, the average approval rate in Spring 2026 was 80%, a decrease of 2 percentage points from 82% in Spring 2025. Although MSA-San Diego's staff approval remains higher than many other MPS sites?, the continued downward trend is an area to analyze and get further staff feedback. Additionally, while strengths such as Climate of Support for Academic Learning, Intimacy, Commaraderie and Justice, areas such as equity, clear expectations, and perceptions of the caring/safe environment emerged as opportunities for improvement? again the second year in a row. This is also a trend across all MPS schools.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Success:

Student: Our school's highest overall favorability rating is 82% in the area of Climate. Notably, 87% of students responded favorably to the statement, "Teachers give students a chance to share their ideas and participate in class," highlighting strong opportunities for student voice and engagement. Belonging is another area of strength, with an overall favorability rating of 75%, including nearly 80% of students agreeing with the statement, "I feel connected to people at this school." Lastly, 84% of students responded favorably to the statement, "Adults at my school make sure students know and understand the rules," reflecting clear and consistent communication of expectations. We will maintain a favorability rate by continuing a common RP prompt every Monday and a common SEL lesson each Thursday to strengthen connectedness; sustaining the use of rigor strategies from The Center for Model Schools to shift more of the cognitive load onto students and promote meaningful academic discourse; and consistently reviewing expectations and "The WIZARD Way" during critical periods of the school year, as well as reinforcing them during SSR and through our daily broadcast, DONUTS in the Morning.

Family: Our highest two categories were in safety and climate of support for academic learning with both ratings at 97%. Based on the comments, families feel connected as part of a strong school community. They note that this is in part to the numerous after school clubs and school events that are offered, as well as the good communication that happens on a regular basis. Families also specifically noted that the teachers and staff are attentive, and genuinely invested in their child's learning. Many families praise the efforts the teachers and special education department make to help support our students with disabilities.

Staff: Despite a 2-point drop in staff approval from 82% to 80%, the results still reveal important successes, particularly when considering the transition to the new Great Place to Work (GPTW) survey tool, which introduced a longer, more rigorous, and differently structured format. Even with those changes, staff expressed strong levels of personal job satisfaction, trust in school leadership, and a sense of connectedness with colleagues. These areas, rated among the highest in the GPTW results, underscore our school's commitment to building a collaborative, mission-driven professional culture. Staff also noted our school's supportive leadership and clear vision as critical contributors to their positive experience. The lower scores in areas such as clarity of expectations and equity offer opportunities for growth, but the overall sentiment remains consistent from year to year. These pain points continue to be areas that are usually sensitive to our staff. One addition this year is Equity and could be related to staff pay and the current budget issues. To maintain and strengthen this foundation, we will prioritize ongoing communication with staff, develop action plans aligned with GPTW feedback, and co-create solutions that enhance clarity, fairness, and professional well-being.

Identified Need:

Student: Students shared concerns in the area of mean rumors or lies, making fun of others, personal property. We will address these student concerns by the integration of our Social-Emotional Learning (SEL) lessons that focus on empathy, conflict resolution, responsible decision-making, and digital citizenship. These lessons will explicitly address the impact of rumors, name-calling, and negative peer interactions, while providing students with the skills needed to build and maintain positive relationships. In addition, we will have structured circle prompts during our SSR classes on the impact of rumors and gossip, respecting differences and personal boundaries, accountability and repairing harm. These circles will provide students with opportunities to engage in meaningful discussions around the effects of gossip, the importance of respecting personal boundaries and property, and ways to take accountability and repair harm when conflicts occur. To reinforce expectations at key points throughout the year, the school will hold assemblies at the beginning of the school year, as well as following winter and spring breaks. These assemblies will serve as important reset moments to revisit schoolwide expectations, promote a culture of respect, and address any emerging trends in student behavior. Lastly, we will reinforce "The WIZARD Way", highlight positive behaviors, and provide timely reminders during our daily broadcast, "Donuts In The Morning."

Family: The area we saw the most significant drop in approval rates from our families was in the area of “Knowledge and Fairness of Discipline, Rules and Norms”. This is down 3 points from the previous year. When analyzing the specific comments for this section, some parents note that they are not sure whether or not the rules are enforced fairly. When looking at the overall comments, multiple families cited classroom specific situations where their child felt as though they were treated unfairly, and that the rules were not enforced strictly enough. One parent wrote “Better structure inside the classroom. Students should follow the rules of no talking while teachers are teaching. No sleeping should be allowed in classrooms. Cursing should not be tolerated.” As an administration, we should consider how we are supporting teachers with their classroom management, and applying appropriate consequences for disruptive behavior and poor language.

Staff: Among staff, the most notable areas for improvement were found in the domains of clarity of expectations, equity, and perceptions of caring. In the GPTW survey results, “Equity” was the lowest approval at 61% (10 point drop), followed by “Clear Expectations and Fair Enforcement” at 65% (4 point drop), and “Safe and Respectful" at 71% (4 point drop)?. These findings suggest that while staff feel positively about their roles and leadership, there may be inconsistencies in how expectations are communicated and how staff experience support across different roles or teams. The emergence of “Equity” as the lowest approval rate this year also highlights the impact of inflation and rising cost of living, while salaries remain low compared to our competitors. Additionally, although the overall staff approval rate of 80% remains above the network average, the 2-point drop from the previous year indicates a need to proactively address workplace climate and communication. While these are areas to investigate, our approval ratings are still high.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the analysis of local data and our Ed Partners surveys, we will focus on 4 main areas:

1. Strengthen student relationships, safety, and anti-bullying efforts: To to this we will strengthen our current Social-Emotional Learning (SEL) lessons focused on: Empathy, Conflict resolution, Responsible decision-making, Digital citizenship. We will also use structured circle discussions (SSR classes) on Gossip and rumors, Respect and boundaries, Accountability and repairing harm. Laslty, we will utilize our Wizard Student Council to prepare anti-bullying and relationship-building lessons.

2. Improve discipline consistency and fairness: To do this we will support teachers with stronger classroom management strategies by providing PD and reviewing our behavior flow charts, review and apply consistent consequences for behavior, and revisit and reinforce schoolwide rules and expectations regularly

3. Enhance communication with families: To do this we will adjust communication systems to reduce excessive messaging as well as improve clarity and timing of information.

4. Support staff needs (clarity, equity, and discipline systems): To support we will meet with our teacher leadership team to develop action plans based on staff survey feedback and work to improve clarity of staff expectations, fairness and consistency, communication across team and increase staff collaboration during our PLCs as well as more opportunities for input and feedback

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA-San Diego creates its master schedule to meet the diverse needs of its students, ensuring all academic content areas are accessible to every student, including various student groups. Core subjects like English, mathematics, social sciences, and science, along with electives, are offered in alignment with our charter petition. Evidence from the school master schedule, elective selection forms, class rosters, student schedules, and transcripts demonstrates MSA-San Diego's commitment to providing a well-rounded education for all students.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

Our master schedule, elective forms, class rosters, student schedules, and transcripts show that 100% of students have access to a comprehensive course of study, including core subjects (English, mathematics, social sciences, and science) and electives, as outlined in our charter petition. Additionally, we provide all other academic programs and services specified in our charter, tailoring certain programs to student needs and interests. For instance, we offer CCSS-aligned ELA and math intervention classes for students requiring additional support and honors math classes for each grade level.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA-San Diego provides access to a college-preparatory, STEAM focused broad course of study for all of our the students.There is no identified barriers that limit access to courses.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-San Diego will continue to offer a college-preparatory, STEAM-focused curriculum to all students, ensuring they are equipped with the necessary skills to graduate college and be career-ready. To enhance the education we provide, MSA-San Diego will aim to introduce additional programs such as more elective courses aligned with career pathways, ongoing health and physical education, diverse arts programs, study skills, and SEL programs. We will also offer experiential learning opportunities, including instructional field trips, community service programs, tutoring and clubs. These additional programs are dependent on the availability of financial and human resources, and MSA-San Diego is committed to utilizing its resources effectively to provide a well-rounded educational experience for all students.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Adrian Uribe Principal	auribe@magnoliapublicschools.org (323) 826-3925

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2022-23	22.6	70.3%	3.1%	8.9%	17.7%	0.0%	0.0%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards			3			
Physical Education Model Content Standards				4		
Visual and Performing Arts				4		
World Language				4		

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA Bell ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.). We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 36 hours of professional development per year in areas such as:

1. Common Core ELA/Literacy, math
2. Supports and Intervention for Students with Disabilities, especially Universal Design for Learning (UDL)
3. ELD Standards and integration of ELD standards into content areas
4. MTSS and PBIS
5. Increase learning loss interventions
6. Social emotional learning and teaching practices
7. Restorative practices

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	4
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	4

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

This year, the school has increased parent engagement by continuing our signature parent engagement activities such as Parent College (8 sessions), Parent workshops (Schools First, and other Partners), and Parent Advisory Committee (PAC). The events were offered both in person and virtually so that we could increase our participation.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Our goal is to increase parent participation, ownership and training our families to engage in advocacy work for their students. into motion the goal is to continue to increase the number of events and participants. Furthermore, since we are in the year 3 of the community school's implementation grant, we plan to increase parent engagement and ownership. We will continue Coffee with the admin meetings as well as Parent Advisory Committees.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Currently we have visited 156 families this year and we want to at least double that number next school year. We increased the percent of parent participation in our annual parent survey to over 60% this year. We strongly believe

that if we increase the feedback we receive from parents and we connect with families via our home visit model, we will strengthen our relationship and families will feel more comfortable engaging with our school, as partners.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

The following are strengths as identified by each educational partner group:

Students-
Friends and Social Connections: Students consistently mentioned "my friends," "being with friends," and socializing as their favorite part of school.
Programs, Activities, Electives: Students repeatedly highlighted enjoyment of school programs, clubs, extracurriculars, music and other elective classes.
Positive and Safe School Environment: Many students expressed that they value feeling safe and the school has a supportive atmosphere.
Schedule/Early Release Days: Multiple student responses referenced early and short days as what they like best about the school.
General Enjoyment and School Experience: Many student responses were more broad but reflected an overall satisfaction of their school experience and said things such as, "everything" and "the environment" as what they like best.

Families-

- Staff & teacher support for students: Families consistently staff being caring, helpful, and personally invested in each child's success, including students with IEPs.

- Communication with families: Many parents highlighted strong communication, live grade access, emails, ParentSquare, and responsive staff, as a top strength.

- Academic support & extra help: Parents valued office hours, Saturday school, and tutoring as meaningful opportunities for students to catch up and grow academically.

- Welcoming & community-oriented environment: Families described the school as warm, inclusive, and safe. A place where their children feel comfortable and want to attend.
- High expectations & academic growth: Several families noted visible academic improvement in their children and appreciated the school's commitment to high standards.

Staff-
Our staff identified that working with our students makes them feel satisfied and fulfilled. The teachers and staff identified our caring environment as a highlight and the supportive admin and staff too.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

The following are needs as identified by each educational partner group:

Students-
Food Quality and Lunch Options: The most common student response was asking for better tasting food, more variety in food choices, and larger portions.
School Facilities and Cleanliness: Frequent mentions of the need for cleaner bathrooms, improved campus maintenance, and better overall facilities.
Schedule and Instructional Time: Students suggested shorter school days, more breaks throughout the day, and adjustments to the length of class time.
Student Behavior and Discipline: Several students mentioned concerns of disruptive students, bullying or disrespect. There were requests for stronger or more consistent discipline.
More Activities, Clubs, and Events: Students want more extracurricular options, more fun events and school activities, and increased opportunities for engagement.

Family-
- Campus safety, supervision & bullying prevention: This was a recurring theme. Families raised concerns about fights, vaping in restrooms, unsafe crosswalk behavior, and a need for more adults monitoring students before, during, and after school.

- Traffic flow & arrival/dismissal safety

- Student enrichment/ clubs & extracurricular access: Families want more for their kids beyond the school day, afterschool programs, robotics, coding, sports equipment and sponsorships, and more clubs where students can discover and develop their talents.

Staff-
Our staff indicated that our school needs to build staff culture and also increase compensation.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Next Steps:

We are looking to expand and improve our extracurricular program offerings. We want to ensure these opportunities are both student-friendly and engaging, encouraging students to explore new interests and develop valuable skills outside the classroom.
Additionally, we are working to foster a positive and supportive staff culture that aligns with our school's mission. We believe that a strong, mission-driven staff community will directly benefit our students and enhance their overall school experience.

By end of August 2026, the school will expand student engagement by introducing at least three new extracurricular programs (Robotics, art, and music) informed by student interest survey data and increasing overall student participation in extracurricular activities by 20%, as measured by participation records and student feedback surveys.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

MSA Bell provides various opportunities for parent involvement and education. Involvement is facilitated through avenues such as PAC meetings, English Language Advisory Committee (ELAC) meetings, and family workshops/conferences with a focus on the whole child development. Furthermore, the administration and support staff are visible and approachable. This ensures safety is a priority and concerns are addressed in a timely manner.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

We are committed to continuously improving how we seek input from our families and community in our decision-making processes. Based on feedback from our educational partners and a review of local data, we have identified increasing family participation as a key area of focus this year.

While events like Coffee with Admin have helped us connect with some of you, we recognize the need to engage even more families. One successful approach we plan to build upon is hosting family theme nights. These events are designed to bring parents, students, and the community together in a welcoming and interactive environment, making it easier for everyone to share their ideas and feedback.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

The LEA continues to conduct home visits which give parents an opportunity to provide feedback more frequently.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

2026 SURVEY RESULTS AND COMPARISON WITH 2025 OUTCOMES

PARTICIPATION RATES:

2025-26:
Students: 100%
Families: 61.5%
Staff: 93%

2024-25:
Students: 96.3%
Families: 41.8%
Staff: 94.4%

AVERAGE APPROVAL RATES (Percent Favorable)

2025-26:
Students: 67.0%
Families: 91.0%
Staff: 67.0%

2024-25:
Students: 58%
Families: 94%
Staff: 61%

OVERALL SATISFACTION RATES

2025-26:
Students: 73%
Families: 87%
Staff: 68%

2024-25:
Students: 60%
Families: 90%
Staff: 58%

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Analysis of Goal Implementation for 2024–25
During the 2024–25 school year, the implementation of our parent engagement and school climate goals demonstrated both progress and challenges when compared to the previous year and the intended targets for 2026–27. The overall implementation included various initiatives aimed at increasing stakeholder participation, improving student attendance, and enhancing school climate.

Summary of Challenges and Successes

Successes:
We are proud to see that Climate of Support for Academic Learning was the highest topic in the student survey with an 80% average approval rate. This rate has also improved 14% compared to last year's rate. Sense of Belonging was the highest topic in the family survey with 92% average approval rate even though we saw 4% decrease on this topic compared to last year. Climate of Support for Academic Learning was also the highest topic in the staff survey with 79% average approval rate. This rate has also improved 5% compared to last year's rate. Having the highest rate for Climate of Support for Academic Learning in both student and staff surveys shows us that the right climate for teaching and learning has been an increasing trend and noticeable topic among students and staff. We would like to maintain this positive trend by continuing implementing our schoolwide initiatives with fidelity and make necessary adjustments for the upcoming school year.

Challenges:
It's great to see that our students' sense of belonging has shown significant improvement this year, increasing by 27 points. We believe this positive change is a result of the expanded student activities we have introduced on campus, and we are committed to continuing these efforts.

However, the survey also highlighted areas where we need to grow. Both our families and staff reported a slight decrease in their sense of belonging, each dropping by 3 points. We recognize the importance of fostering a welcoming environment for everyone, not just our students.

In response, we began adding more activities for parents during the second semester, and we will continue to offer and expand these opportunities in the coming year. We also plan to organize more staff bonding activities throughout the year to strengthen our team and ensure everyone feels connected.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

We are looking to expand and improve our extracurricular program offerings. We want to ensure these opportunities are both student-friendly and engaging, encouraging students to explore new interests and develop valuable skills outside the classroom.
Additionally, we are working to foster a positive and supportive staff culture that aligns with our school's mission. We believe that a strong, mission-driven staff community will directly benefit our students and enhance their overall school experience.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

MSA Bell designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered aligned with our charter petition. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Bell strives to offer a well-rounded education to our students.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition. We also provide all other academic programs and services outlined in our charter petition, certain programs, and services being dependent on student need and interest. For example, we provide designated and integrated ELD instruction, support and intervention to ELs and immigrant students. We closely monitor student progress in ELA/Literacy, math, and ELD as measured by our internal assessments (MAP, IAB, etc.) All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness and socio-emotional development. The Learning Management System provides teachers with resources to monitor academic progress and tips to connect with students. Mentorship is monitored through the LMS to ensure every child has an adult connection on campus. Furthermore, MSA Bell has provided students with information regarding A-G courses, as well as offered opportunities to take courses such as Algebra 1, Geometry, or world language courses (Spanish 1 and 2) that would earn credit towards their high school pathway.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

MSA Bell has executed extensive plans to ensure and provide ongoing connectivity. These plans include, but not limited to, home visits, conferences and follow-ups, creation of personalized scheduled, support to connect to the various platforms, etc.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

The following is a list of strategies and actions that are being reviewed for implementation/execution. Some of these plans are currently in action and will be adjusted to continually enhance positive student outcomes.

- Increase outreach to support in various areas such as educating with online tools: Infinite Campus and ParentSquare.
- Evaluate instructional practices to highlight promising instructional practices such as a focus on power standards, ensure assignments are relevant to finish product, emphasize learning skill sets and recognition of the process for learning, staff sharing, and highlighting instructional practices during meetings.
- Adjustment of schedule to ensure time is allocated for an appropriate break and lunchtimes, and shift advisory to assist with academic interventions
- Dedicated task force members to highlight and solicit information about the decision-making process.
- The instructional staff will focus on reviewing and adjusting the school-wide expectation matrix to continue to align with our PBIS goals.
- Explore communication inhibiting factors

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskinturk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2023-24	32.4	91.9%	6.2%	0.0%	0.0%	0.0%	1.9%	0.0%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)					5
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science					5

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education			3			
Health Education Content Standards				4		
Physical Education Model Content Standards					5	
Visual and Performing Arts					5	
World Language					5	

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					5
Identifying the professional learning needs of individual teachers					5
Providing support for teachers on the standards they have not yet mastered					5

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

MSA-Santa Ana ensures all curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) We provide services to ELs by proficiency level and ELD instruction is aligned to the CA ELD standards and framework. ELs have access to core and supplemental ELD instructional materials; teachers attend PDs whose focus is on ELD standards. Our teachers participate in at least 24 hours of professional development per year. PD includes the areas of Common Core ELA/Literacy, math, ELD Standards and integration of ELD standards into content areas, and training in strategies to support ELs with Common Core ELA/ELD and math curricula. While the primary focus has been on the ELA/Literacy, math, and ELD over the past few years, MSA-Santa Ana has also provided PD and supported our teachers on MTSS and SEL learning and integration.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	4
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

This year we we have a bilingual Parent and Community Engagement Liaison and a Community School Coordinator. These positions allows for our school and families to build relationships within our community. Based on our surveys given to our families, staff, and students we have added additional meetings with parents such as Coffee with Admin, Parent Check ins, Parent College; these are added to our regular PAC/PTF, and ELAC committee gatherings. In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. Social media (Facebook, Twitter, Instagram), our weekly bilingual newsletter the Hook, Leave a Message form (bilingual), and a suggestion box. These are all located in the main office. Magnolia wide we are using the MSA mobile application for our families. We have started to use the Parent Square software which allows us to communicate to our families without any language barriers. Our traditional gatherings with parents such as Parent Orientation, Back to School Night, Fall/ Spring Parent teacher conferences, Open House, Home visits, and grade level informational meetings. Fall/ Winter, Cinco de Mayo festivals and volunteer appreciation day.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

MSASA will be ensuring that all Educational Partners have a voice. By doing this, we aim to allow for an open door policy during our weekly Coffee with Principals and Educational Partner surveys. In addition to ensuring there is voice, we will continue to strengthen our community partnerships by continuing free breakfast and lunch to all students regardless of income status, school supply drives, and a referral network that provides mental health supports for all educational partners.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Based on our surveys given to our families, staff, and students, we have added additional meetings with parents such as Coffee with the Principal, Parent Check-ins, and Parent College; these are added to our regular PAC/PTF, and ELAC committee gatherings. In addition to these meetings, we have increased the quality and quantity of the communication tools with parents. Social media (Facebook, Twitter), Leave a Message form (bilingual), and a suggestion box. These are all located in the main office. Magnolia wide we are using the MSA mobile application for our families. We have started to use the Parent Square software, which allows us to communicate with our families without language barriers. Our traditional gatherings with parents such as Parent Orientation, Back to School Night, Fall/ Spring Parent-teacher conferences, Open House, Home visits, and grade-level informational meetings. Fall/ Winter, Cinco, and volunteer appreciation day.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Strengths are PAC/Coffee with Principal meetings. This is an opportunity to introduce MTSS support for SEL to the parents. Parent College and third party partnerships like parenting classes through Santa Ana College and AltaMed, PBS SoCal, CHOC, StartWell, OC Mix Academy, and OCDE. Grade level college counseling meetings with our parents and students for supporting and informing parents and students for a University-going culture. For example, 8th grade high school transition meetings, college signing day, FAFSA meetings. As we establish our parent outreach and provide meetings to involve all our families, building Parent attendance is a focus for us.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

At MSASA we will strive to improve our partnerships for student outcomes by making connections with our local city council, congressman, as well as local businesses to strengthen the collaboration among all our educational partners. A focus area will be our mental health/SEL supports as well as the quality of the food that is being served to our students breakfast and lunch.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

At MSASA we will continue to promote our home visits so that all families' voices are heard, ideas are met, and that everybody feels included. We will also offer Parent College classes like EL classes, computer skills, and child development classes. We will continue to offer weekly Coffee with Principal sessions in English and Spanish.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

At MSASA our current strengths include partnerships with the surrounding community to support families in ac academic, behavioral, and social emotional success for their children, letting the parents bring up all concerns in the weekly Coffee with Principal, and sending multiple surveys home throughout the course of the year.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

We value our educational partners and are using their feedback to strengthen the upcoming school year. Schoolwide instant surveys from staff provide input for a positive and supportive school climate. Parent check-in meetings allow for decision making to become ongoing. Surveys are designed to support all academics, behavioral, and social-emotional needs of the whole child.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

MSASA will improve engagement of underrepresented families by using Parent Square as an active two way tool of engagement. We will ensure that we have a Community Schools Coordinator and a Community Schools Liaison who are a reflection of our current school community.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

MSASA's 2025-2026 participation for the Family Survey (77.9%) is slightly higher than the 2024-2025 school year (71.5%)
MSASA's Staff Overall Satisfaction rate is similar to the 2024-2025 school year (82%) and the 2025-2026 school year (78%)
A clean campus and strong community environment were highlighted in the free responses by the families and students for the 2025-2026 school year
Supportive staff and small class sizes were highlighted in the free responses by the families and students for the 2025-2026 school year
School activities, clubs, and after-school opportunities are highlighted by Students, families, and staff

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

MSASA's Average Saff Approval rate dropped by 9% 2025-2026 school year (72%), versus the average approval rate from the 2024-2025 school year, which was 81%.
Students want the playground to be updated.
Fairness and equality in school policy enforcement.
More food options.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

At the beginning of the 2026-2027 school year, a new universal behavior tracker will be implemented across the entire school (Tk - 12th Grade), to track student behavior in order to provide a fair and restorative response to the behavior submissions. The PBIS Team will utilize the behavior tracker to generate data that can be reviewed bi-monthly to measure if discipline issues are being reduced with the use of the universal tracker. The universal tracker is predicted to reduce behavioral submissions by at least 10%, from the previous 2025-2026 school year. This will be determined with an annual review of the data.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

1) MSA-Santa Ana designs its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including all student groups. Core subjects (English, mathematics, social sciences, and science) and electives are offered and aligned with our charter petition and graduation requirements. As evidenced by the schoolmaster schedule, elective forms, class rosters, student schedules, and transcripts, MSA-Santa Ana strives to offer a well-rounded education to our students.
2) As evidenced by our master schedule, elective forms, class rosters, student schedules, and transcripts, 100% of students have access to a broad course of study, including core subjects (English, mathematics, social sciences, and science) and electives as outlined in our charter petition.
3) MSA-Santa Ana provides access to a college-preparatory, STEAM-focused broad course of study for all our students.
4) MSA-Santa Ana will continue to provide access to a college-preparatory, STEAM-focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

1) MSA-Santa Ana provides students with 4-year plans and support programs to ensure timely high school graduation, ensuring satisfaction with UC/CSU requirements.
2) We also provide all other academic programs and services outlined in our charter petition. For example, we provide CCSS-aligned ELA and math intervention classes to all students who need additional support.
3) We provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests.
4) All students have access to “Advisory” classes (college planning and career exploration program) and programs preparing students for college readiness in grades 9-12. MSA-Santa Ana offers credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years to ensure satisfaction with UC/CSU requirements.
5) In middle school, we offer Power English and Power Math to support our ELD students. In high school, we offer designated ELD classes to support students.
6) Our Sped teachers all push into the classes of the students on their caseloads, taking care of the SAI minutes daily. Teachers also have extra tutoring times and a place for the students to go when they need a quiet place to take a test or when they need a place to calm down.
7) We also partner with our local community college and offer Dual Enrollment.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

One of the barriers that prevents us from providing access to a broad course of study for all students is our communication with families.
We have Parent Square, which translates into all home languages, but parents are not using it with fidelity.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

MSA-Santa Ana will continue to provide access to a college-preparatory, STEAM-focused broad course of study for all our students. We will ensure that all our students graduate college and career ready.
In an effort to provide a more well-rounded education to our students, MSA-Santa Ana will strive to offer additional programs such as more elective courses aligned with career pathways, continued health and physical education, diverse arts programs, increased civics, Life Skills, and SEL programs, etc., as well as provide our students with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Such additional programs depend on the availability of financial and human resources. MSA-Santa Ana will make the best use of its resources to provide a well-rounded educational experience to our students.
1) We are now offering Dual Enrollment classes three afternoons a week on our campus. This is much easier for parents so they don't have to drive to the college campus.
2) We allow students to take classes at the college that we don't offer.
3) We offer online credit recovery courses for the students who have failed classes in the past.
4) We have all of our textbooks online so that students can access them anywhere.

2026-27 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Magnolia Science Academy - Orange County	Maria Czerner-Rowell Principal	mrowell@magnoliapublicschools.org (714) 452-2440

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
N/A (school opened in 2025-26)	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards			3		
History-Social Science				4	

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards			3		
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA			3		
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics			3		
Next Generation Science Standards			3		
History-Social Science			3		

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards			3			
Physical Education Model Content Standards				4		
Visual and Performing Arts		2				
World Language						N/A

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole			3		
Identifying the professional learning needs of individual teachers			3		
Providing support for teachers on the standards they have not yet mastered			3		

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4

Practices	Rating Scale Number
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Families report a high level of satisfaction with the school's ability to support both academic growth and a positive school culture. Parents consistently note increased student engagement and enthusiasm for learning, as well as a strong sense of belonging on campus. Students feel welcomed and are encouraged to participate in clubs and extracurricular activities, contributing to a well-rounded educational experience.

Staff are frequently recognized by families for their professionalism, kindness, and ongoing support, which strengthens trust and reinforces a positive school environment. The after-school program is also highly valued, providing additional academic and enrichment opportunities that support both students and families.

Families particularly appreciate the school's small class sizes and family-like atmosphere, which allow for more personalized attention and stronger relationships between students, staff, and families. Clear and consistent communication between staff and parents is identified as a key strength, ensuring that families remain informed and connected.

The school remains committed to maintaining small class sizes (25:1, and 10:1 for TK) and continuing to build meaningful relationships with families through engagement opportunities such as Coffee with Admin.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Areas for improvement center on strengthening alignment, capacity, and consistency to further enhance relationships between school staff and families.

Families expressed a desire for increased access to STEAM-focused clubs and extracurricular opportunities. While clubs are currently offered, there is an identified need to ensure they are more intentionally aligned to the organization's mission and STEAM priorities. In response, the school plans to implement a pre-approved list of STEAM-aligned clubs for teachers to lead, creating more consistency and ensuring offerings reflect both student interests and organizational goals. This will help strengthen family confidence in the academic and enrichment programming provided.

From a staff perspective, there are opportunities to improve overall capacity and sustainability, which directly impact family engagement and communication. Staff identified concerns related to competitive compensation and workload expectations, noting comparisons to neighboring districts. Additionally, there is a need for more site-specific roles, particularly a dedicated student recruitment and enrollment coordinator, to better support outreach and family connections.

To address these areas, the school plans to partner with People & Culture to develop and communicate a more transparent and competitive salary structure, supporting staff retention and morale. Furthermore, collaboration with

the Impact team will focus on strengthening enrollment systems and ensuring adequate staffing to meet site-specific needs.

By addressing these areas, the school aims to build stronger, more consistent relationships with families through improved programming, staffing stability, and enhanced communication systems.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Based on the analysis of educational partner input and local data, we will improve engagement of underrepresented families by ensuring our surveys are available in multiple languages, having an open door policy were our families can be hears in a more private, intimate setting. Weekly, during our Coffee with the Admin, we will have a translator available, and listen to all parents and their suggestions and ideas. We will also have a Zoom link available for all parents to be present.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Based on the analysis of educational partner input and local data, and it being our first year, we are striving to initiate partnerships throughout our community. Some partnerships that we have initiated and engage with are Anaheim Police Department, Anaheim Community Services, Cal Kids, VFW (Veterans of Foreign Wars of the United States), The Mission Continues, and Wings of Kindness.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Based on the analysis of educational partner input and local data, and being that it is our first year, we are looking for community events, as well as ways to host events for out families. For example, we had an internal Science Fair, as well as a Multicultural Night where we have invited community partners.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Based on the analysis of educational partner input and local data, as we host events, we will always have a translator, and in-person meetings will always have a virtual option.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	3
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	3
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	3
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

Based on the analysis of educational partner input and local data, the LEA demonstrates strong progress in seeking input for decision-making by actively engaging students, families, and staff and using that feedback to inform school practices.

Student input highlights high engagement in the STEAM program and strong relationships with teachers. Students expressed enjoyment of hands-on learning, structured supports like Power Hour, and positive daily experiences, indicating that student voice is reflected in instructional design and school climate. The continued focus on expanding STEAM opportunities shows responsiveness to student interests.

Family feedback reflects strong satisfaction with academic growth, communication, and school culture. Families consistently recognize staff professionalism and support, as well as the value of small class sizes and a family-like environment. Ongoing communication efforts, including regular updates and engagement opportunities such as Coffee with Admin, demonstrate the LEA's commitment to incorporating family input into decision-making and strengthening partnerships.

Staff input emphasizes a collaborative, mission-driven culture. Through Professional Learning Communities (PLCs), Wednesday professional development, and daily collaboration with instructional and support teams, staff are actively involved in shared decision-making processes that impact instruction, student support, and school-wide initiatives.

Overall, the LEA effectively gathers and uses input from all stakeholder groups to guide continuous improvement, strengthen relationships, and align programs with the needs of its community.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Based on the analysis of educational partner input and local data, the LEA has identified key focus areas for improvement in seeking input for decision-making, particularly in strengthening alignment, responsiveness, and capacity across stakeholder groups.

Student feedback identified a need for additional, age-appropriate playground equipment, especially for older students. This highlights an opportunity to more consistently incorporate student voice into decisions related to campus resources and student experience. The LEA will work with the home office to better align facility decisions with student input.

Family input revealed a desire for more STEAM-focused clubs and enrichment opportunities. A gap was identified in the consistency and alignment of club offerings, as they were previously teacher-created without a structured framework tied to the organization's mission. This indicates a need to more effectively use family feedback to guide program development. In response, the LEA will implement a more structured, STEAM-aligned club system to ensure offerings reflect both student interests and organizational priorities.

Staff feedback highlighted concerns related to competitive compensation, workload, and the need for site-specific roles, including a dedicated student recruitment and enrollment coordinator. These insights point to the need for stronger systems to gather and act on staff input in ways that support retention, morale, and operational effectiveness. The LEA will partner with People & Culture to develop a more transparent and competitive salary structure and collaborate with the Impact team to strengthen enrollment and staffing supports.

Overall, the LEA's focus for improvement is to ensure that input from students, families, and staff is more systematically translated into aligned actions, particularly in the areas of student experience, program development, and staffing structures.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

Based on the analysis of educational partner input and local data, the LEA will improve engagement of underrepresented families by strengthening inclusive, accessible, and responsive systems for gathering and acting on input.

To ensure all families—particularly those underrepresented—have meaningful opportunities to contribute, the LEA will expand structured engagement opportunities such as Coffee with Admin, surveys, and feedback sessions that are intentionally designed to be accessible and welcoming. Feedback from families indicating a desire for more STEAM-focused clubs will be used to guide the development of a pre-approved, STEAM-aligned club system, ensuring that family voice directly informs program offerings.

The LEA will also improve communication by ensuring information is shared consistently and clearly, creating multiple entry points for families to provide input. By aligning programs and decisions more closely with feedback, families will see a stronger connection between their input and school actions, increasing trust and participation.

Additionally, the LEA will strengthen outreach efforts by working with internal teams to improve enrollment, communication systems, and staffing capacity, including exploring roles that directly support family engagement. These efforts will help ensure that underrepresented families are more consistently reached and included in decision-making processes.

Through these targeted strategies, the LEA will create more equitable opportunities for underrepresented families to share input, feel heard, and actively participate in shaping school decisions.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

The LEA utilizes local climate survey data from the Kelvin Pulse (students and families) and Great Place to Work (staff) instruments to assess school conditions, safety, and overall climate. Survey participation rates were strong, with 100% student participation, 69% family participation, and 85% staff participation, ensuring broad representation of stakeholder perspectives.

Overall satisfaction rates indicate positive perceptions among students (80%) and families (85%), while staff satisfaction was lower at 47%, highlighting an area for continued attention. Disaggregated survey data across key climate indicators—academic support, fairness of discipline, safety, and sense of belonging—reveals important trends.

Student favorable ratings were 81% for academic support, 75% for sense of belonging, 71% for fairness of rules, and 64% for safety, indicating strengths in instructional support and connectedness, with comparatively lower perceptions of safety.

Family survey results were consistently high across all indicators, with 94% favorable ratings for academic support and sense of belonging, 93% for safety, and 91% for fairness of discipline, reflecting strong family confidence in school climate and communication.

Staff data showed more moderate ratings, with 64% for academic support, 65% for belonging, 66% for safety, and 55% for fairness of discipline, indicating opportunities to strengthen internal climate and staff experience.

The overall average approval rates further reflect these trends: 72% for students, 93% for families, and 56% for staff.

Additional analysis of specific survey items identified areas of concern, particularly around student perceptions of safety and fairness, with lower ratings on questions related to peer interactions and consistent consequences. Overall, the data indicates strong performance in family perception and student connectedness, with targeted areas for improvement in student safety perceptions and staff experience.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Analysis of the local climate survey data reveals several key strengths and areas of need across students, families, and staff.

A primary strength is the strong sense of academic support and belonging reported by students and families. Students reported favorable ratings in academic support (81%) and sense of belonging (75%), indicating that instructional practices and relationships are fostering a positive learning environment. Families reported even higher levels of satisfaction, with 94% favorable ratings in both academic support and belonging, reflecting strong trust in the school's ability to support student learning and create an inclusive, welcoming environment.

Another key strength is the high level of family satisfaction overall (85%) and strong average approval rate (93%), which suggests that communication, school culture, and engagement efforts are effective. Family feedback also reinforces that students feel supported, welcomed, and engaged in school programs.

However, the data also identifies important areas for improvement. For students, safety (64%) and fairness of discipline (71%) were lower-rated areas, with specific survey items indicating concerns about peer interactions and consistency in consequences. This highlights a need to strengthen school-wide systems that promote physical safety, positive behavior, and equitable discipline practices.

Staff data reveals the most significant area of need. With an overall satisfaction rate of 47% and an average approval rate of 56%, staff responses indicate challenges related to internal climate, including perceptions of fairness (55%) and overall support. These findings suggest a need to improve staff experience, including communication, support systems, and organizational practices that impact morale and retention.

Across stakeholder groups, the data shows a pattern of strong external perception (families and students) alongside internal challenges (staff experience). Additionally, while no major disparities across student groups were explicitly identified in the available data, specific student survey items signal the need to more closely monitor and address experiences related to safety and fairness for all students.

Overall, the key learning is that the LEA has built a strong, supportive, and engaging environment for students and families, while needing to strengthen systems that ensure consistency in student experience and improve staff satisfaction to sustain long-term success.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

Based on the analysis of local climate data and key learnings, the LEA has identified several adjustments to plans, policies, and procedures to address areas of need and support continuous improvement.

To address student concerns related to safety and fairness of discipline, the LEA will strengthen school-wide behavior systems by implementing monthly PBIS assemblies aligned to core values. These assemblies will reinforce expectations, model appropriate behaviors, and promote consistency in how rules and consequences are applied. Additionally, staff will receive continued guidance to ensure equitable and consistent discipline practices across classrooms.

In response to student feedback regarding playground equipment and student experience, the LEA will revise campus improvement plans to include the addition of age-appropriate play equipment, particularly for older students. This will be informed by student surveys and ongoing observation to ensure resources align with student needs and increase engagement during recess.

To address family input requesting more STEAM-aligned enrichment opportunities, the LEA will implement a more structured approach to extracurricular programming by developing a pre-approved list of STEAM-focused clubs. This ensures alignment with the organization's mission and provides equitable access to high-quality programs that reflect both student interests and academic priorities.

Staff feedback highlighted the need for improvements in compensation, workload, and staffing structures. In response, the LEA will partner with People & Culture to develop and communicate a more transparent and competitive salary structure. Additionally, the LEA will collaborate with the Impact team to strengthen enrollment systems and support the addition of site-specific roles, such as a student recruitment and enrollment coordinator, to improve operational efficiency and staff capacity.

Finally, to improve overall staff experience and organizational climate, the LEA will enhance internal communication and feedback structures, including regular check-ins and opportunities for staff voice to inform decision-making.

These targeted changes reflect the LEA's commitment to using data to drive continuous improvement, strengthen systems, and ensure a safe, supportive, and equitable environment for all stakeholders.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

Magnolia Science Academy Orange County – Anaheim utilizes multiple locally developed measures and tools to monitor student access to and enrollment in a broad course of study across grade spans, including unduplicated student groups and students with exceptional needs.

The LEA uses its master schedule and course offerings to ensure all students have access to core academic subjects, including English Language Arts, Mathematics, Science (with a strong STEAM focus), and Social Studies, as well as enrichment opportunities such as STEAM lab and after-school programs. Student participation in these courses is monitored through the school's Student Information System (SIS), which tracks enrollment and attendance across all grade levels (TK–6).

To ensure equitable access for unduplicated student groups (English learners, low-income students, and foster youth), the LEA reviews assessment data, program participation, and intervention records to confirm that students are receiving appropriate instructional supports and services. For students with exceptional needs, access is

monitored through Individualized Education Programs (IEPs) and service logs to ensure inclusion in general education settings and access to the full curriculum with necessary accommodations.

Additionally, the LEA collects feedback through student, family, and staff surveys, which provide insight into student engagement and access to both academic and enrichment programs. These combined tools allow the LEA to regularly review and ensure that all students have equitable access to a comprehensive and rigorous course of study.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

Using the identified measures, Magnolia Science Academy Orange County – Anaheim ensures that all students have access to and are enrolled in a broad course of study. The master schedule and SIS data indicate that 100% of students (TK–6) are enrolled in core content areas, including English Language Arts, Mathematics, Science (STEAM-focused), and Social Studies, with additional access to enrichment such as STEAM lab and after-school programming.

Data reviews show no significant differences across student groups, including English learners, low-income students, foster youth, and students with exceptional needs, in access to core instruction. Students with exceptional needs are included in general education settings with appropriate supports as outlined in their IEPs, ensuring equitable participation in the full curriculum.

While access to core courses is consistent, some variation exists in enrichment participation, particularly in after-school and club offerings, which has been influenced by program availability and alignment. The LEA has identified this as an area for improvement and is working to expand and standardize STEAM-aligned enrichment opportunities to ensure more equitable access for all student groups.

As a new school site, the LEA has established strong foundational systems to ensure universal access to a broad course of study and will continue to refine enrichment offerings to further strengthen equity and student engagement over time.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

Based on the results of local measures, the LEA has identified several barriers that impact full access to a broad course of study, particularly in enrichment and program consistency.

While all students have access to core academic subjects, a key barrier is the inconsistent availability and alignment of enrichment programs, particularly STEAM-focused clubs. Previously, clubs were teacher-created without a structured framework, leading to variability in offerings and limiting equitable access for all student groups.

Another barrier is limited resources for student experience enhancements, such as age-appropriate playground equipment. Student feedback indicates that current options do not fully meet the needs of older students, which can impact engagement and overall school experience.

Staffing challenges also present a barrier. Feedback indicates a need for competitive compensation, manageable workloads, and site-specific roles, including a dedicated recruitment and enrollment coordinator. These factors can

impact staff capacity to implement and sustain high-quality programs and provide additional opportunities beyond core instruction.

Additionally, as a new school site, the LEA is still developing systems to ensure consistent program implementation and equitable access across all areas, particularly in enrichment and extended learning opportunities.

Addressing these barriers will support the LEA in expanding access to a more comprehensive and equitable course of study for all students.

4. 4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

In response to local data and identified barriers, the LEA will implement several actions to ensure equitable access to a broad course of study for all students.

To address inconsistencies in enrichment, the LEA will implement a structured, pre-approved list of STEAM-aligned clubs, ensuring all students have access to high-quality, mission-aligned programs. This will increase consistency and expand equitable access to enrichment opportunities.

To improve student engagement and overall experience, the LEA will partner with the home office to expand age-appropriate playground equipment, particularly for older students, based on student input and ongoing feedback.

To strengthen program implementation and sustainability, the LEA will partner with People & Culture to support competitive compensation and staff retention, and with the Impact team to improve enrollment systems and support the addition of site-specific roles, including a recruitment and enrollment coordinator. These efforts will increase staff capacity to provide and sustain a comprehensive course of study.

Additionally, the LEA will continue to refine systems for monitoring access and participation using SIS data, surveys, and program feedback to ensure all student groups have equitable access to both core instruction and enrichment opportunities.

Coversheet

Approval of Board Resolution Regarding Certificate of Amendment to Articles of Incorporation

Section: VII. Action Items
Item: A. Approval of Board Resolution Regarding Certificate of Amendment to Articles of Incorporation
Purpose: Vote
Submitted by:
Related Material:
VII.A - Board Resolution Regarding Certificate of Amendment to Articles of Incorporation_FINAL.pdf

Agenda Item:	VII.A - Action Item
Date:	June 17th, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer Andrew Zarnich, Director of Charter Petitions and Reporting
RE:	Board Resolution Regarding Certificate of Amendment to Articles of Incorporation

Action Proposed:

Staff recommends and moves that the Board approve the Board Resolution Regarding Certificate of Amendment to Articles of Incorporation, which approves a Certificate of Amendment to Magnolia Educational & Research Foundation's Articles of Incorporation and authorizes the appropriate officers and staff to execute and file the Certificate of Amendment with the California Secretary of State.

Purpose:

The purpose of this item is to approve a targeted amendment to Magnolia Educational & Research Foundation's Articles of Incorporation to ensure that the organization's dissolution and asset-distribution provisions comply with the requirements of the CalSTRS Charter School/Nonprofit Public Benefit Corporation Certification Form 0765 and IRS Notice 2015-07.

The amendment is intended to support continued CalSTRS participation for eligible charter school employees by ensuring that, upon dissolution or final liquidation, the Corporation's net assets may be distributed only to a qualifying public school, the State of California, a political subdivision of the State, or another qualifying governmental agency or instrumentality.

Background:

CalSTRS has issued the Charter School/Nonprofit Public Benefit Corporation Certification Form 0765 for charter schools and nonprofit public benefit corporations whose eligible employees participate in CalSTRS. The Certification requires the nonprofit public benefit corporation to certify that its governing documents meet the applicable requirements of IRS Notice 2015-07 and future federal regulations under Internal Revenue Code section 414(d).

One of the required certifications is that the nonprofit public benefit corporation's governing documents provide that, upon dissolution or final liquidation, the organization's net assets will be distributed only to either:

- A public school that satisfies the requirements of IRS Notice 2015-07; or
- The State of California, a political subdivision of the State, or another governmental agency or instrumentality.

The Resolution presented to the Board states that Magnolia Educational & Research Foundation's current Articles of Incorporation do not presently conform to the CalSTRS dissolution and asset-distribution requirement. A Certificate of Amendment has therefore been prepared to amend the Articles of Incorporation so that the governing documents will align with the Certification requirements.

Analysis:
Approval of this Resolution would allow MPS to make a narrow, compliance-focused amendment to the Articles of Incorporation. The amendment does not change MPS's educational program, school operations, governance structure, or day-to-day management. Instead, it updates the dissolution and asset-distribution language to reflect the specific CalSTRS Certification requirements.

Impact:
Approval of this item supports continued CalSTRS access for eligible MPS charter school employees and helps align MPS's governing documents with the CalSTRS Certification requirements.

The proposed action is not expected to affect school programs, instructional services, staffing structures, student services, or day-to-day operations. The impact is primarily governance and compliance-related.

Budget Implications: N/A

Exhibits:

- Board Resolution Regarding Certificate of Amendment to Articles of Incorporation
- Certificate of Amendment to Articles of Incorporation

RESOLUTION OF THE
BOARD OF DIRECTORS OF
MAGNOLIA EDUCATIONAL & RESEARCH FOUNDATION

Approval of Certificate of Amendment of Articles of Incorporation
(CalSTRS Dissolution Compliance) and Authorization to File

WHEREAS, Magnolia Educational & Research Foundation (the "Corporation") operates one or more California charter schools whose eligible employees participate in the California State Teachers' Retirement System ("CalSTRS");

WHEREAS, to obtain CalSTRS certification on Form 0765, the Corporation's governing documents must provide that, upon dissolution or final liquidation, the Corporation's net assets be distributed only to a public school that meets the requirements of IRS Notice 2015-07 § III.A, or to the State of California or a political subdivision, agency, or instrumentality of the State, as required by Form 0765 subdivision (f);

WHEREAS, the Corporation's Articles of Incorporation do not presently conform to that requirement, and a Certificate of Amendment of Articles of Incorporation (the "Certificate of Amendment") has been prepared to amend the dissolution and asset-distribution provisions to conform; and

WHEREAS, the Board of Directors (the "Board") has reviewed the form of Certificate of Amendment, and the Corporation has no members so that the amendment may be adopted by the Board alone;

NOW, THEREFORE, BE IT RESOLVED, that the Certificate of Amendment of Articles of Incorporation, in the form presented to the Board, is approved and adopted, and the amendment of the Corporation's Articles of Incorporation set forth therein is approved;

RESOLVED FURTHER, that, the Corporation having no members, the amendment is adopted by the Board alone and no approval of members is required;

RESOLVED FURTHER, that the President and the Secretary of the Corporation are authorized and directed to execute and verify the Certificate of Amendment, by hand, on behalf of the Corporation; and

RESOLVED FURTHER, that the staff and officers of the Corporation are authorized and directed to file the executed Certificate of Amendment with the California Secretary of State, and to take any and all further steps and to execute and deliver any and all documents as they deem necessary or appropriate to effect the filing and to carry out the intent of this resolution.

Ayes: _____

Title: Secretary, Magnolia Educational & Research Foundation

CERTIFICATE OF AMENDMENT
OF ARTICLES OF INCORPORATION

The undersigned certify that:

1. They are the President and Secretary, respectively, of Magnolia Educational & Research Foundation, a California nonprofit public benefit corporation, with California Entity Number 2017318.

2. Article V of the Articles of Incorporation of this Corporation is amended to read as follows:

   The property of this corporation is irrevocably dedicated to charitable, educational and scientific purposes meeting the requirements of Section 214 of the California Revenue and Taxation Code and no part of the net income or assets of this corporation shall ever inure to the benefit of any director, officer, or member thereof or to the benefit of any other private person. Upon the dissolution or final liquidation of the corporation, its assets remaining after payment of, or provision for payment of, all debts and liabilities of the Corporation shall be distributed to another public school that meets the requirements of Section III.A of IRS Notice 2015-07 for participation in a governmental plan under Section 414(d) of the Internal Revenue Code, or shall be distributed to the State of California, a political subdivision of the State, or an agency or instrumentality of the State or of a political subdivision of the State.

3. The foregoing amendment of the Articles of Incorporation has been duly approved by the Board of Directors.

4. The Corporation has no members.

We further declare under penalty of perjury under the laws of the State of California that the matters set forth in this certificate are true and correct of our own knowledge.

Approval of 2026-27 MPS Board Officers

Section: VII. Action Items
Item: B. Approval of 2026-27 MPS Board Officers
Purpose: Vote
Submitted by:
Related Material: VII.B - Approval of Appointment of Board Officers - June 2026.pdf

Agenda Item:	VII.B - Action Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Dr. Umit Yapanel, MPS Nominating/Governance Committee Chair
RE:	Appointment of 2026-27 MPS Board Officers

Action Proposed:

The Board moves to appoint _____ to serve as the MPS Board Chair, _____ as the MPS Vice-Chair, _____ as the MPS Board Secretary, and _____ as the MPS Board Treasurer starting on June 18, 2026.

Background:

Every year in June, Magnolia Public Schools (MPS) Board of Directors conducts its annual review and appointment of Board Officers, including the Board Chair, Board Vice-Chair, Board Secretary, and Board Treasurer. Pursuant to the MPS Bylaws, the Chief Financial Officer serves as the designated Board Treasurer.

For the 2025-26 fiscal year, there have been some changes to the officers, specifically the Board Secretary and Board Treasurer. As of June 16, 2026, the following appointments were as followed:

- Mr. Mekan Muhammedov, Board Chair
- Ms. Sandra Covarrubias, Board Vice-Chair
- Mr. Erdinc Acar, Interim Board Secretary
- Mr. Cafer Turan, Interim Board Treasurer

The positions of Board Secretary and Board Treasurer are officer roles of the Board and do not constitute Board Director/Member positions. The Board Chair and Board Vice-Chair positions are held by individuals who serve on the Board of Directors.

Analysis:

The Board of Directors shall discuss their nominations and create the motion at this meeting to select board officer appointments for the 2026-27 year.

Approval of 2026-27 MPS Board Calendar & Committee Calendar

Section: VII. Action Items
Item: C. Approval of 2026-27 MPS Board Calendar & Committee Calendar
Purpose: Vote
Submitted by:
Related Material: VII.C - 2026-27 Board Meeting Calendars_Updated.pdf

Agenda Item:	VII.C - Action Item
Date:	June 17, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	Alfredo Rubalcava, CEO & Superintendent
RE:	Approval of 2026-27 MPS Board Meeting Calendar & Board Committee Calendar

Action Proposed:

Staff moves and recommends that the Board approve the 2026-27 MPS Regular Board Meeting Calendar and the MPS Board Committee Calendar.

Background:

Per the MPS Bylaws, Regular Board Meetings are held the second Thursday of the month unless otherwise stated. Meetings that are not on the second Thursday would be pursuant to quorum establishment, holidays and school wide breaks.

Magnolia Public Schools will hold all Board Meetings in person inclusive of Board Committee Meetings. The Board has and will continue to follow the provisions prescribed under the Brown Act and SB126. Additionally, all MPS school sites will be open for possible public participation for these meetings.

SB126: All Board Meetings will be held within the jurisdiction of Los Angeles County, where the majority of the MPS student population resides. All in-person meetings will be held amongst MSA 1-8 and the MPS Home Office. Additionally, per SB 126, all school sites (MSA 1-8, MSA-Santa Ana, MSA- San Diego, and MSA-Orange County), will remain open as remote locations during the duration of all special, emergency and regular committee and board meetings.

Regular Board Meeting Calendar

For the 2026-27 school year, Regular Board Meetings are mostly held on the second Thursday with the exception of January due to the Winter Break Holiday. Following prior year's practices, the month of June will have two Regular Board Meetings in correspondence to staff preparing for the next school year.

The Regular Board Meeting calendar shall also include Board Retreats prescribed by the Board. Further analysis or changes to the dates will be determined based on Board discussion and feedback at the June 17th Regular Board Meeting

Committee Meeting Calendar

The Committee Meeting Calendar shows all standing MPS Committee meetings scheduled for 2026-27. The Board will review and make final adjustments on the Committee calendar for considering the organization's focuses for the next school year.

Conclusion

The meeting calendars will be subject to change pending on the discussion from the Board. Changes and follow-ups will be captured and edits will be made prior to the final approval from the Board.

2026-27 Regular Board Meeting Calendar

Magnolia Educational & Research Foundation
Magnolia Public Schools

Meetings typically commence between the hours of 6:00pm - 7:00pm PST and are held on the dates stated below. Please refer to the website and meeting agendas for updates or changes to the scheduled meetings, as well as information on meeting location and how to attend.

Meeting dates, times, and locations are posted on the website in accordance with the notice requirements: Regular Board Meetings (72 hours notice), Special Board Meetings (24 hours notice), or Emergency Board Meetings (1-hour notice).

All Magnolia Public Schools campuses will provide teleconferencing access for members of the public to participate in Board meetings. For additional information or assistance, please visit magnoliapublicschools.org, or call (213) 628-2624.

Approval of Board Resolution Regarding Amendment to Bylaws

Section:	VII. Action Items
Item:	D. Approval of Board Resolution Regarding Amendment to Bylaws
Purpose:	Vote
Submitted by:	
Related Material:	VII.D - Board Resolution Regarding Amendment to Bylaws_Final.pdf

Agenda Item:	VII.D - Action Item
Date:	June 17th, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer Andrew Zarnich, Director of Charter Petitions and Reporting
RE:	Board Resolution Regarding Amendment to Bylaws

Action Proposed:

Staff recommends and moves that the Board approve the Board Resolution Regarding Amendment to Bylaws, which approves and adopts an amendment to Magnolia Educational & Research Foundation's bylaws to conform the Corporation's dissolution and asset-distribution provisions to the CalSTRS Charter School/Nonprofit Public Benefit Corporation Certification requirements.

Purpose:

The purpose of this item is to approve a targeted amendment to Magnolia Educational & Research Foundation's bylaws to ensure that the bylaws comply with the dissolution and asset-distribution requirements associated with CalSTRS Certification Form 0765 and IRS Notice 2015-07.

The amendment is intended to support continued CalSTRS participation for eligible charter school employees by ensuring that the Corporation's governing documents require net assets, upon dissolution or final liquidation, to be distributed only to a qualifying public school, the State of California, a political subdivision of the State, or another qualifying governmental agency or instrumentality.

Background:

CalSTRS Certification Form 0765 requires nonprofit public benefit corporations operating charter schools that participate in CalSTRS to certify that their governing documents satisfy specific requirements related to governmental plan eligibility under IRS Notice 2015-07.

The Resolution presented to the Board states that Magnolia Educational & Research Foundation's current bylaws do not presently conform to the CalSTRS dissolution and asset-distribution requirement. A Bylaws Amendment has therefore been prepared to amend the dissolution and asset-distribution provisions so that the bylaws align with Form 0765 subdivision (f).

Analysis:
Approval of this Resolution would adopt a narrow, compliance-focused amendment to the bylaws. The amendment is limited to the dissolution and asset-distribution provisions and is intended to ensure that the bylaws align with the CalSTRS Certification requirements.

This action complements the proposed amendment to the Articles of Incorporation and helps ensure that MPS's internal governing documents consistently reflect the required CalSTRS dissolution language.

Impact:
Approval of this item supports continued CalSTRS access for eligible MPS charter school employees and helps align MPS's bylaws with the CalSTRS Certification requirements.

The proposed action is not expected to affect educational programs, instructional services, student services, staffing, or day-to-day school operations. The impact is primarily governance and compliance-related.

Budget Implications: N/A

Exhibits:
- Board Resolution Regarding Amendment to Bylaws
- Proposed Bylaws Amendment

AMENDED AND RESTATED BY LAWS OF

MAGNOLIA EDUCATIONAL & RESEARCH FOUNDATION
(A California Nonprofit Public Benefit Corporation)

ARTICLE I
NAME

Section 1. NAME. The name of this corporation is Magnolia Educational & Research Foundation.

ARTICLE II
PRINCIPAL OFFICE OF THE CORPORATION

Section 1. PRINCIPAL OFFICE OF THE CORPORATION. The principal office for the transaction of the activities and affairs of this corporation is 250 East 1st Street, Suite 1500, Los Angeles, 90012 California. The Board of Directors may change the location of the principal office. Any such change of location must be noted by the Secretary on these bylaws opposite this Section; alternatively, this Section may be amended to state the new location.

Section 2. OTHER OFFICES OF THE CORPORATION. The Board of Directors may at any time establish branch or subordinate offices at any place or places where this corporation is qualified to conduct its activities.

ARTICLE III
GENERAL AND SPECIFIC PURPOSES; LIMITATIONS

Section 1. GENERAL AND SPECIFIC PURPOSES. The purposes of this corporation are to provide community support in educational and research areas, which include, but are not limited to the following: managing, operating, guiding, directing and promoting public charter schools; conducting scientific research at K-12 schools and colleges to identify and implement successful education practices; promoting and discovering the research modules in scientific areas with applied and practicable methods to promote prospective scientists; coordinating international conferences/competitions in various fields of academic study. Also in the context of these purposes, the Corporation shall not, except to an insubstantial degree, engage in any other activities or exercise of power that do not further the purposes of the Corporation.

The Corporation shall not carry on any other activities not permitted to be carried on by: (a) a corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code; or (b) a corporation, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code. No substantial part of the activities of the Corporation shall consist of the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distributing of statements) any political campaign on behalf of or in opposition to any candidate for public office.

Powered by BoardOnTrack

ARTICLE IV
CONSTRUCTION AND DEFINITIONS

Section 1. CONSTRUCTION AND DEFINITIONS. Unless the context indicates otherwise, the general provisions, rules of construction and definitions in the California Nonprofit Corporation Law shall govern the construction of these bylaws. Without limiting the generality of the preceding sentence, the masculine gender includes the feminine and neuter, the singular includes the plural, and the plural includes the singular, and the term "person" includes both a legal entity and a natural person.

ARTICLE V
DEDICATION OF ASSETS

Section 1. DEDICATION OF ASSETS. This corporation's assets are irrevocably dedicated to public benefit purposes. No part of the net earnings, properties, or assets of the corporation, on dissolution or otherwise, shall inure to the benefit of any private person or individual, or to any director or officer of the corporation. Upon the dissolution or final liquidation of the corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of the corporation shall be distributed to another public school that meets the requirements of Section III.A of IRS Notice 2015-07 for participation in a governmental plan under Section 414(d) of the Internal Revenue Code, or shall be distributed to the State of California, a political subdivision of the State, or an agency or instrumentality of the State or of a political subdivision of the State.

ARTICLE VI
CORPORATIONS WITHOUT MEMBERS

Section 1. CORPORATIONS WITHOUT MEMBERS. This corporation shall have no voting members within the meaning of the Nonprofit Corporation Law.

ARTICLE VII
BOARD OF DIRECTORS

Section 1. GENERAL POWERS. Subject to the provisions and limitations of the California Nonprofit Public Benefit Corporation Law and any other applicable laws, and subject to any limitations of the articles of incorporation or bylaws, the corporation's activities and affairs shall be managed, and all corporate powers shall be exercised, by or under the direction of the Board of Directors ("Board"). The Board may delegate the management of the corporation's activities to any person(s), management company or committees, however composed, provided that the activities and affairs of the corporation shall be managed and all corporate powers shall be exercised under the ultimate direction of the Board.

Section 2. SPECIFIC POWERS. Without prejudice to the general powers set forth in Section 1 of these bylaws, but subject to the same limitations, the Board of Directors shall have the power to:

Powered by BoardOnTrack

a. Appoint and remove, at the pleasure of the Board of Directors, all corporate officers, agents, and employees; prescribe powers and duties for them as are consistent with the law, the articles of incorporation, and these bylaws; fix their compensation; and require from them security for faithful service.

b. Change the principal office or the principal business office in California from one location to another; cause the corporation to be qualified to conduct its activities in any other state, territory, dependency, or country; conduct its activities in or outside California; and designate a place in California for holding any meeting of members.

c. Borrow money and incur indebtedness on the corporation's behalf and cause to be executed and delivered for the corporation's purposes, in the corporate name, promissory notes, bonds, debentures, deeds of trust, mortgages, pledges, hypothecations, and other evidences of debt and securities.

d. Adopt and use a corporate seal; prescribe the forms of membership certificates; and alter the forms of the seal and certificates.

Section 3. DESIGNATED DIRECTORS. The number of directors shall be no less than three (3) and no more than eleven (11), unless changed by amendments to these bylaws. The exact number of directors shall be fixed within these limits by a Resolution of the Board. All directors shall be designated by the existing Board of Directors. In addition to the number of directors otherwise prescribed by these Bylaws, pursuant to Education Code section 47604.2, the Board composition shall also include a seat reserved for a pupil member. All directors, except for the pupil member, shall have full voting rights, including any representative appointed by the chartering authority as consistent with Education Code Section 47604 (c). The pupil member shall have preferential voting rights. Preferential voting means a formal expression of opinion that is recorded in the minutes and cast before the official vote of the Board of Directors, but that shall not serve in determining the final numerical outcome of a vote.

The Board of Directors commits to designating at least one (1) director who resides in each county where this corporation operates a charter school. The Board of Directors shall strive to recruit directors representing parents and the charter school communities, from diverse professional and ethnic backgrounds and commits to designating at least one (1) director representing parents at all times.

Section 4. RESTRICTION ON EMPLOYEE DIRECTORS. No current employees of the Corporation may serve on the Board of Directors.

Section 5. DIRECTORS' TERMS. Each director , except for the pupil member, shall hold office for five (5) years and until a successor director has been designated and qualified. The terms of directors shall be staggered as determined by the Board. Staggering has been accomplished by the Board appointing directors on different dates. Staggering shall be maintained

Powered by BoardOnTrack

as directors shall be appointed to fill vacant seats at the expiration of each staggered term. The term of the pupil member shall be one (1) year commencing on July 1 each year.

Section 6. NOMINATIONS BY COMMITTEE. The Chairman of the Board of Directors or, if none, the President will appoint a committee to nominate qualified candidates for all non-pupil member Board seats for designation to the Board of Directors at least thirty (30) days before the date of any designation of directors. The nominating committee shall make its report at least seven (7) days before the date of the designation or at such other time as the Board of Directors may set and the Secretary shall forward to each Board member, with the notice of meeting required by these bylaws, a list of all candidates nominated by committee. Any member of the community may also refer a potential candidate to the Board for consideration.

Pupils enrolled in a charter school managed by the Corporation in ninth through twelfth grades are eligible for election to the Board of Directors as the pupil member. The pupil member shall be elected by a vote of the students enrolled in a charter school operated by the Corporation in ninth through twelfth grades. If it is determined that the pupil member is not fulfilling their duties, the Board of Directors may appoint an alternate pupil member and if appointed, the Board shall suspend the prior pupil member's rights and privileges related to service on the Board of Directors.

Section 7. USE OF CORPORATE FUNDS TO SUPPORT NOMINEE. If more people have been nominated for director than can be designated, no corporation funds may be expended to support a nominee.

Section 8. EVENTS CAUSING VACANCIES ON BOARD. A vacancy or vacancies on the Board of Directors shall occur in the event of (a) the death, resignation, or removal of any director; (b) the declaration by resolution of the Board of Directors of a vacancy in the office of a director who has been convicted of a felony, declared of unsound mind by a court order, or found by final order or judgment of any court to have breached a duty under California Nonprofit Public Benefit Corporation Law, Chapter 2, Article 3; (c) the increase of the authorized number of directors; and (d) the failure of the members, at any meeting of members at which any director or directors are to be elected, to elect the number of directors required to be elected at such meeting.

Section 9. RESIGNATION OF DIRECTORS. Except as provided below, any director may resign by giving written notice to the Chairman of the Board, if any, or to the President, or the Secretary, or to the Board. The resignation shall be effective when the notice is given unless the notice specifies a later time for the resignation to become effective. If a director's resignation is effective at a later time, the Board of Directors may elect a successor to take office as of the date when the resignation becomes effective.

Section 10. DIRECTOR MAY NOT RESIGN IF NO DIRECTOR REMAINS. Except on notice to the California Attorney General, no director may resign if the corporation would be left without a duly elected director or directors.

Section 11. REMOVAL OF DIRECTORS. Any director may be removed, with or without cause, by a simple majority of directors then in office at a special meeting called for that purpose, or at a regular meeting, provided that notice of that meeting and of the removal questions are given in compliance with the provisions of the Ralph M. Brown Act. (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code). Any vacancy caused by the removal of a director shall be filled as provided in Section 12.

Section 12. VACANCIES FILLED BY BOARD. Vacancies on the Board of Directors may be filled by approval of the Board of Directors or, if the number of directors then in office is less than a quorum, by (a) the unanimous consent of the directors then in office, (b) the affirmative vote of a majority of the directors then in office at a meeting held according to notice or waivers of notice complying with Corporations Code Section 5211, or (c) a sole remaining director.

Section 13. NO VACANCY ON REDUCTION OF NUMBER OF DIRECTORS. Any reduction of the authorized number of directors shall not result in any directors being removed before his or her term of office expires.

Section 14. QUORUM. A majority of the directors then in office shall constitute a quorum. The pupil member shall not be counted for purpose of establishing quorum. If a quorum is present, the affirmative vote of the majority of the directors at the meeting shall be a decision of the Board of Directors. Should there be fewer than a majority of the directors present at any meeting, the meeting shall be adjourned. A majority of the directors present, whether or not constituting a quorum, may adjourn any meeting to another time and place. Directors may not vote by proxy. The vote or abstention of each board member present for each action taken shall be publicly reported.

Section 15. COMPENSATION AND REIMBURSEMENT. Directors shall serve without compensation except that they shall be allowed reasonable advancement or reimbursement of actual reasonable expenses incurred in carrying out his or her duties. Directors shall not otherwise be compensated.

Section 16. CREATION AND POWERS OF COMMITTEES. The Board, by resolution adopted by a majority of the directors then in office, may create one or more committees, each consisting of two or more directors and no one who is not a director, to serve at the pleasure of the Board. Appointments to committees of the Board of Directors shall be by majority vote of the directors then in office. The Board of Directors may appoint one or more directors as alternate members of any such committee, who may replace any absent member at any meeting. Any such committee shall have all the authority of the Board, to the extent provided in the Board of Directors' resolution, except that no committee may:

a. Take any final action on any matter that, under the California Nonprofit Public Benefit Corporation Law, also requires approval of the members or approval of a majority of all members;

b. Fill vacancies on the Board of Directors or any committee of the Board;

c. Amend or repeal bylaws or adopt new bylaws;

d. Amend or repeal any resolution of the Board of Directors that by its express terms is not so amendable or subject to repeal;

e. Create any other committees of the Board of Directors or appoint the members of committees of the Board; or

f. Expend corporate funds to support a nominee for director if more people have been nominated for director than can be elected; or

The Board may also create one or more advisory committees composed of directors and non-directors. It is the intent of the Board to encourage the participation and involvement of faculty, staff, parents, students and administrators through attending and participating in open committee meetings. The Board may establish, by resolution adopted by a majority of the directors then in office, advisory committees to serve at the pleasure of the Board.

Section 17. MEETINGS AND ACTION OF COMMITTEES. Meetings and actions of committees of the Board of Directors shall be governed by, held, and taken under the provisions of these bylaws concerning meetings, other Board of Directors' actions, and the Brown Act, except that the time for general meetings of such committees and the calling of special meetings of such committees may be set either by Board of Directors' resolution or, if none, by resolution of the committee. Minutes of each meeting shall be kept and shall be filed with the corporate records. The Board of Directors may adopt rules for the governance of any committee as long as the rules are consistent with these bylaws. If the Board of Directors has not adopted rules, the committee may do so.

Section 18. NON-LIABILITY OF DIRECTORS. No director shall be personally liable for the debts, liabilities, or other obligations of this corporation.

Section 19. COMPLIANCE WITH LAWS GOVERNING STUDENT RECORDS. The Charter School and the Board of Directors shall comply with all applicable provisions of the Family Education Rights Privacy Act ("FERPA") as set forth in Title 20 of the United States Code Section 1232g and attendant regulations as they may be amended from time to time.

Section 20. COMPLIANCE WITH CONFLICTS OF INTEREST LAWS. The Corporation shall comply with applicable conflict of interest laws, including the Political Reform Act of 1974 (Chapter 1 (commencing with Section 81000) of Title 9 of the Government Code) and Govt. Code § 1090 et seq.

ARTICLES VIII
MEETINGS

Section 1. PLACE OF BOARD OF DIRECTORS MEETINGS. The Board of Directors will designate that a meetings be held in the county in which the greatest number of pupils enrolled in Magnolia Public Schools reside which is in compliance with the Ralph M.

Powered by BoardOnTrack

Brown Act and Education Code Section 47604.1((c)(4)(A). The Board of Directors will establish a two-way teleconference location at each of the corporation's charter school sites and each resource center in compliance with the Ralph M. Brown Act and Education Code Section 47604.1(c)(4)(B).

All meetings of the Board of Directors shall be called, held and conducted in accordance with the terms and provisions of the Ralph M. Brown Act, California Government Code Sections 54950, et seq., as said chapter may be modified by subsequent legislation.

Section 2. MEETINGS; ANNUAL MEETINGS. All meetings of the Board of Directors and its committees shall be called, noticed, and held in compliance with the provisions of the Ralph M. Brown Act. ("Brown Act") (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code).

The Board of Directors shall meet annually for the purpose of organization, appointment of officers, and the transaction of such other business as may properly be brought before the meeting. This meeting shall be held at a time, date, and place as may be specified and noticed by resolution of the Board of Directors.

Section 3. REGULAR MEETINGS. Regular meetings of the Board of Directors shall be held on the second Thursday of each month, unless the second Thursday of the month should fall on a legal holiday in which event the regular meeting shall be held at the same hour and place on the next business day following the legal holiday. At least 72 hours before a regular meeting, the Board of Directors, or its designee, shall post an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting.

Section 4. SPECIAL MEETINGS. Special meetings of the Board of Directors for any purpose may be called at any time by the Chairman of the Board of Directors, if there is such an officer or a majority of the Board of Directors. If a Chairman of the Board has not been elected, then the President is authorized to call a special meeting in place of the Chairman of the Board. The party calling a special meeting shall determine the place, date, and time thereof.

Section 5. NOTICE OF SPECIAL MEETINGS. In accordance with the Brown Act, special meetings of the Board of Directors may be held only after twenty-four (24) hours' notice is given to each director and to the public through the posting of an agenda. Pursuant to the Brown Act, the Board of Directors shall adhere to the following notice requirements for special meetings:

a. Any such notice shall be addressed or delivered to each director at the director's address as it is shown on the records of the Corporation, or as may have been given to the Corporation by the director for purposes of notice, or, if an address is not shown on the Corporation's records or is not readily ascertainable, at the place at which the meetings of the Board of Directors are regularly held.

b. Notice by mail shall be deemed received at the time a properly addressed written notice is deposited in the United States mail, postage prepaid. Any

other written notice shall be deemed received at the time it is personally delivered to the recipient or is delivered to a common carrier for transmission, or is actually transmitted by the person giving the notice by electronic means to the recipient. Oral notice shall be deemed received at the time it is communicated, in person or by telephone or wireless, to the recipient or to a person at the office of the recipient whom the person giving the notice has reason to believe will promptly communicate it to the receiver.

c. The notice of special meeting shall state the time of the meeting, and the place if the place is other than the principal office of the Corporation, and the general nature of the business proposed to be transacted at the meeting. No business, other than the business the general nature of which was set forth in the notice of the meeting, may be transacted at a special meeting.

Section 6. TELECONFERENCE MEETINGS. Members of the Board of Directors may participate in teleconference meetings so long as all of the following requirements in the Brown Act are complied with:

a. At a minimum, a quorum of the members of the Board of Directors shall participate in the teleconference meeting from locations within the boundaries of the county in which the greatest number of pupils enrolled in the charter schools managed by the corporation reside.;

b. All votes taken during a teleconference meeting shall be by roll call;

c. If the Board of Directors elects to use teleconferencing, it shall post agendas at all teleconference locations with each teleconference location being identified in the notice and agenda of the meeting;

d. All locations where a member of the Board of Directors participates in a meeting via teleconference must be fully accessible to members of the public and shall be listed on the agenda[1];

e. Members of the public must be able to hear what is said during the meeting and shall be provided with an opportunity to address the Board of Directors directly at each teleconference location; and

f. The agenda shall indicate that members of the public attending a meeting conducted via teleconference need not give their name when entering the conference call.[2]

[1] This means that members of the Board of Directors who choose to utilize their homes or offices as teleconference locations must open these locations to the public and accommodate any members of the public who wish to attend the meeting at that location.

[2] The Brown Act prohibits requiring members of the public to provide their names as a condition of attendance at the meeting.

Powered by BoardOnTrack

Section 7. ADJOURNMENT. A majority of the directors present, whether or not a quorum is present, may adjourn any Board of Directors meeting to another time or place. If a meeting is adjourned for more than twenty-four (24) hours, notice of such adjournment to another time or place shall be given, prior to the time schedule for the continuation of the meeting, to the directors who were not present at the time of the adjournment, and to the public in the manner prescribed by any applicable public open meeting law.

ARTICLE X
OFFICERS OF THE CORPORATION

Section 1. OFFICES HELD. The officers of this corporation shall be a President, a Secretary, and Chief Financial Officer, who shall be known as the "Treasurer." The corporation, at the Board's direction, may also have a Chairman of the Board, one or more Vice-Presidents, one or more assistant secretaries, one or more assistant treasurers, and such other officers as may be appointed under Article X Section 4, of these bylaws.

Section 2. DUPLICATION OF OFFICE HOLDERS. Any number of offices may be held by the same person, except that neither the Secretary nor the Treasurer may serve concurrently as either the President or the Chairman of the Board.

Section 3. ELECTION OF OFFICERS. The officers of this corporation shall be chosen annually by the Board of Directors and shall serve at the pleasure of the Board.

Section 4. APPOINTMENT OF OTHER OFFICERS. The Board of Directors may appoint and authorize the Chairman of the Board, the President, or another officer to appoint any other officers that the corporation may require. Each appointed officer shall have the title and authority, hold office for the period, and perform the duties specified in the bylaws or established by the Board.

Section 5. REMOVAL OF OFFICERS. Without prejudice to the rights of any officer under an employment contract, the Board of Directors may remove any officer with or without cause.

Section 6. RESIGNATION OF OFFICERS. Any officer may resign at any time by giving written notice to the Board. The resignation shall take effect on the date the notice is received or at any later time specified in the notice. Unless otherwise specified in the notice, the resignation need not be accepted to be effective. Any resignation shall be without prejudice to any rights of the corporation under any contract to which the officer is a party.

Section 7. VACANCIES IN OFFICE. A vacancy in any office because of death, resignation, removal, disqualification, or any other cause shall be filled in the manner prescribed in these bylaws for normal appointment to that office, provided, however, that vacancies need not be filled on an annual basis.

Powered by BoardOnTrack

Section 8. CHAIRMAN OF THE BOARD. If a Chairman of the Board of Directors is elected, he or she shall preside at the Board of Directors' meetings and shall exercise and perform such other powers and duties as the Board of Directors may assign from time to time. If there is no President, the Chairman of the Board of Directors shall also be the chief executive officer and shall have the powers and duties of the President of the corporation set forth in these bylaws. If a Chairman of the Board of Directors is elected, there shall also be a Vice-Chairman of the Board of Directors. In the absence of the Chairman, the Vice-Chairman shall preside at Board of Directors meetings and shall exercise and perform such other powers and duties as the Board of Directors may assign from time to time.

Section 9. PRESIDENT. Subject to such supervisory powers as the Board of Directors may give to the Chairman of the Board, if any, and subject to the control of the Board, the President shall be the general manager of the corporation and shall supervise, direct, and control the Corporation's activities, affairs, and officers as fully described in any applicable employment contract, agreement, or job specification. The President shall preside at all Board of Directors' meetings. The President shall have such other powers and duties as the Board of Directors or the bylaws may require.

Section 10. VICE-PRESIDENTS. If the President is absent or disabled, the Vice-Presidents, if any, in order of their rank as fixed by the Board, or, if not ranked, a Vice-President designated by the Board, shall perform all duties of the President. When so acting, a Vice-President shall have all powers of and be subject to all restrictions on the President. The Vice-Presidents shall have such other powers and perform such other duties as the Board of Directors or the bylaws may require.

Section 11. SECRETARY. The Secretary shall keep or cause to be kept, at the corporation's principal office or such other place as the Board of Directors may direct, a book of minutes of all meetings, proceedings, and actions of the Board and of committees of the Board. The minutes of meetings shall include the time and place that the meeting was held; whether the meeting was annual, regular, or special and, if special, how authorized; the notice given; and the names of the directors present at Board of Directors and committee meetings.
The Secretary shall keep or cause to be kept, at the principal California office, a copy of the articles of incorporation and bylaws, as amended to date.
The Secretary shall give, or cause to be given, notice of all meetings of the Board and of committees of the Board of Directors that these bylaws require to be given. The Secretary shall keep the corporate seal, if any, in safe custody and shall have such other powers and perform such other duties as the Board of Directors or the bylaws may require.

Section 12. TREASURER. The Treasurer shall keep and maintain, or cause to be kept and maintained, adequate and correct books and accounts of the corporation's properties and transactions. The Treasurer shall send or cause to be given to directors such financial statements and reports as are required to be given by law, by these bylaws, or by the Board. The books of account shall be open to inspection by any director at all reasonable times.

Powered by BoardOnTrack

The Treasurer shall (a) deposit, or cause to be deposited, all money and other valuables in the name and to the credit of the corporation with such depositories as the Board of Directors may designate; (b) disburse the corporation's funds as the Board of Directors may order; (c) render to the President, Chairman of the Board, if any, and the Board, when requested, an account of all transactions as Treasurer and of the financial condition of the corporation; and (d) have such other powers and perform such other duties as the Board or the bylaws may require.

If required by the Board, the Treasurer shall give the corporation a bond in the amount and with the surety or sureties specified by the Board of Directors for faithful performance of the duties of the office and for restoration to the corporation of all of its books, papers, vouchers, money, and other property of every kind in the possession or under the control of the Treasurer on his or her death, resignation, retirement, or removal from office.

Section 13. VICE-CHAIRMEN. One Vice-Chairman of the Board of Directors will be assigned to each county in which a charter school operated by the corporation is located.

ARTICLE XI
CONTRACTS WITH DIRECTORS

Section 1. CONTRACTS WITH DIRECTORS. In compliance with Government Code Section 1090, et seq., the corporation shall not enter into a contract or transaction in which a director directly or indirectly has a material financial interest (nor any other corporation, firm, association, or other entity in which one or more of the Corporation's directors are directors and have a material financial interest).

ARTICLE XII
CONTRACTS WITH NON-DIRECTOR DESIGNATED EMPLOYEES

Section 1. CONTRACTS WITH NON-DIRECTOR DESIGNATED EMPLOYEES. The Corporation shall not enter into a contract or transaction in which a non-director designated employee (e.g., officers and other key decision-making employees) directly or indirectly has a material financial interest unless all of the requirements in the Corporation's Conflict of Interest Code have been fulfilled.

Section 2. AGAINST NEPOTISM. If a member of an officer's or employee's immediate family is to be hired to work in a position directly subordinate or supervisory to the officer or employee, that fact should be disclosed in advance to the Board of Directors so that a determination can be made whether to permit an exception to the normal prohibition against nepotism.

ARTICLE XIII
LOANS TO DIRECTORS AND OFFICERS

Section 1. LOANS TO DIRECTORS AND OFFICERS. This corporation shall not lend any money or property to or guarantee the obligation of any director or officer without the

Powered by BoardOnTrack

approval of the California Attorney General; provided, however, that the corporation may advance money to a director or officer of the corporation for expenses reasonably anticipated to be incurred in the performance of his or her duties if that director or officer would be entitled to reimbursement for such expenses of the corporation.

ARTICLE XIV
INDEMNIFICATION

Section 1. INDEMNIFICATION. To the fullest extent permitted by law, this corporation shall indemnify its directors, officers, employees, and other persons described in Corporations Code Section 5238(a), including persons formerly occupying any such positions, against all expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred by them in connection with any "proceeding," as that term is used in that section, and including an action by or in the right of the corporation by reason of the fact that the person is or was a person described in that section. "Expenses," as used in this bylaw, shall have the same meaning as in that section of the Corporations Code.

On written request to the Board of Directors by any person seeking indemnification under Corporations Code Section 5238 (b) or Section 5238 (c) the Board of Directors shall promptly decide under Corporations Code Section 5238 (e) whether the applicable standard of conduct set forth in Corporations Code Section 5238 (b) or Section 5238 (c) has been met and, if so, the Board of Directors shall authorize indemnification.

ARTICLE XV
INSURANCE

Section 1. INSURANCE. This corporation shall have the right to purchase and maintain insurance to the full extent permitted by law on behalf of its directors, officers, employees, and other agents, to cover any liability asserted against or incurred by any director, officer, employee, or agent in such capacity or arising from the director's, officer's, employee's, or agent's status as such.

ARTICLE XVI
MAINTENANCE OF CORPORATE RECORDS

Section 1. MAINTENANCE OF CORPORATE RECORDS. This corporation shall keep:

a. Adequate and correct books and records of account;

b. Written minutes of the proceedings of the Board and committees of the Board; and

c. Such reports and records as required by law.

ARTICLE XVII

Powered by BoardOnTrack

INSPECTION RIGHTS

Section 1. DIRECTORS' RIGHT TO INSPECT. Every director shall have the right at any reasonable time to inspect the corporation's books, records, documents of every kind, physical properties, and the records of each subsidiary as permitted by California and federal law. The inspection may be made in person or by the director's agent or attorney. The right of inspection includes the right to copy and make extracts of documents as permitted by California and federal law. This right to inspect may be circumscribed in instances where the right to inspect conflicts with California or federal law (e.g., restrictions on the release of educational records under FERPA) pertaining to access to books, records, and documents.

Section 2. ACCOUNTING RECORDS AND MINUTES. On written demand on the corporation, any director may inspect, copy, and make extracts of the accounting books and records and the minutes of the proceedings of the Board of Directors and committees of the Board of Directors at any reasonable time for a purpose reasonably related to the director's interest as a director. Any such inspection and copying may be made in person or by the director's agent or attorney. This right of inspection extends to the records of any subsidiary of the corporation.

Section 3. MAINTENANCE AND INSPECTION OF ARTICLES AND BYLAWS. This corporation shall keep at its principal California office the original or a copy of the articles of incorporation and bylaws, as amended to the current date, which shall be open to inspection by the directors at all reasonable times during office hours. If the corporation has no business office in California, the Secretary shall, on the written request of any director, furnish to that director a copy of the articles of incorporation and bylaws, as amended to the current date.

ARTICLE XVIII
REQUIRED REPORTS

Section 1. ANNUAL REPORTS. The Board of Directors shall cause an annual report to be sent to itself (the members of the Board of Directors) within 120 days after the end of the corporation's fiscal year. That report shall contain the following information, in appropriate detail:

a. The assets and liabilities, including the trust funds, or the corporation as of the end of the fiscal year;

b. The principal changes in assets and liabilities, including trust funds;

c. The corporation's revenue or receipts, both unrestricted and restricted to particular purposes;

d. The corporation's expenses or disbursement for both general and restricted purposes;

e. Any information required under these bylaws; and

Powered by BoardOnTrack

f. An independent accountant's report or, if none, the certificate of an authorized officer of the corporation that such statements were prepared without audit from the corporation's books and records.

Section 2. ANNUAL STATEMENT OF CERTAIN TRANSACTIONS AND INDEMNIFICATIONS. The corporation shall comply with the reporting requirements of Corporations Code Section 6322.

ARTICLE XIX
BYLAW AMENDMENTS

Section 1. BYLAW AMENDMENTS. The Board of Directors may adopt, amend or repeal any of these Bylaws by a majority of the directors present at a meeting duly held at which a quorum is present, except that no amendment shall make any provisions of these Bylaws inconsistent with the corporation's Articles of Incorporation, or any laws. The Board of Directors may only amend these Bylaws provisions fixing the authorized number of directors or establishing procedures for the nomination or appointment of directors by unanimous vote of all directors then in office. This section may only be amended by the unanimous vote of the all the directors then in office.

ARTICLE XX
FISCAL YEAR

Section 1. FISCAL YEAR OF THE CORPORATION. The fiscal year of the Corporation shall begin on July 1st and end on June 30th of each year.

CERTIFICATE OF SECRETARY

I certify that I am the duly elected and acting Secretary of the Magnolia Educational & Research Foundation ("MERF"), a California nonprofit public benefit corporation; that these amended and restated bylaws, consisting of 14 pages, are the bylaws of this corporation as adopted by the Board of Directors on [DATE]; and that these amended and restated bylaws have not been amended or modified since that date.

RESOLUTION OF THE
BOARD OF DIRECTORS OF
MAGNOLIA EDUCATIONAL & RESEARCH FOUNDATION

Approval of Amendment to Bylaws
(CalSTRS Dissolution Compliance)

WHEREAS, Magnolia Educational & Research Foundation (the "Corporation") operates one or more California charter schools whose eligible employees participate in the California State Teachers' Retirement System ("CalSTRS");

WHEREAS, to obtain CalSTRS certification on Form 0765, the Corporation's governing documents must provide that, upon dissolution or final liquidation, the Corporation's net assets be distributed only to a public school that meets the requirements of IRS Notice 2015-07 § III.A, or to the State of California or a political subdivision, agency, or instrumentality of the State, as required by Form 0765 subdivision (f);

WHEREAS, the Corporation's bylaws do not presently conform to that requirement, and an amendment to the bylaws (the "Bylaws Amendment") has been prepared to amend the dissolution and asset-distribution provisions to conform; and

WHEREAS, the Board of Directors (the "Board") has reviewed the Bylaws Amendment, and the Corporation has no members so that the bylaws may be amended by the Board alone;

NOW, THEREFORE, BE IT RESOLVED, that the Bylaws Amendment, in substantially the form presented to the Board, is approved and adopted, and the Corporation's bylaws are amended as set forth therein, effective upon adoption;

RESOLVED FURTHER, that, the Corporation having no members, the Bylaws Amendment is adopted by the Board alone and no approval of members is required, and the amended bylaws are adopted by Board action and maintained with the Corporation's records rather than filed with the California Secretary of State; and

RESOLVED FURTHER, that the staff and officers of the Corporation are authorized and directed to take any and all further steps and to execute and deliver any and all documents as they deem necessary or appropriate to carry out the intent of this resolution.

Approval of Board Resolution Regarding Amendment to Magnolia Science Academy – San Diego Charter

Section: VII. Action Items
Item: E. Approval of Board Resolution Regarding Amendment to Magnolia Science Academy – San Diego Charter
Purpose: Vote
Submitted by:
Related Material:
VII.E - Board Resolution Regarding Amendment to Magnolia Science Academy – San Diego Charter_Final.pdf

Agenda Item:	VII.E - Action Item
Date:	June 17th, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer Andrew Zarnich, Director of Charter Petitions and Reporting
RE:	Board Resolution Regarding Amendment to Magnolia Science Academy – San Diego Charter

Action Proposed:

Staff recommends and moves that the Board approve the Board Resolution Regarding Amendment to Magnolia Science Academy – San Diego Charter, which approves revisions to the Magnolia Science Academy – San Diego charter petition to conform the charter's dissolution and asset-distribution provisions to the CalSTRS Certification requirements.

Purpose:

The purpose of this item is to approve targeted revisions to the Magnolia Science Academy – San Diego charter petition to ensure that the charter's dissolution and asset-distribution provisions comply with the requirements of CalSTRS Certification Form 0765 and IRS Notice 2015-07.

These revisions are intended to support continued CalSTRS participation for eligible employees of Magnolia Science Academy – San Diego by ensuring that the school's governing documents provide that, upon dissolution or final liquidation, net assets will be distributed only to a qualifying public school, the State of California, a political subdivision of the State, or another qualifying governmental agency or instrumentality.

Background:

Magnolia Educational & Research Foundation operates Magnolia Science Academy – San Diego, whose eligible employees participate in CalSTRS. CalSTRS Certification Form 0765 requires nonprofit public benefit corporations and charter schools offering CalSTRS to certify that applicable governing documents satisfy the dissolution and asset-distribution requirements of IRS Notice 2015-07.

The Resolution presented to the Board states that the Magnolia Science Academy – San Diego charter petition does not presently conform to the CalSTRS dissolution and asset-distribution requirement. Revisions to the relevant provisions of the charter petition have therefore been prepared to conform the petition to the Certification requirements.

Analysis:
Approval of this Resolution would approve revisions to the Magnolia Science Academy – San Diego charter petition that are limited to the dissolution and asset-distribution provisions. The revisions are compliance-focused and are intended to align the charter petition with the requirements of CalSTRS Certification Form 0765.

The Resolution authorizes staff and officers to submit the Charter Revisions to the school's chartering authority to the extent required and to take any further actions necessary or appropriate to carry out the intent of the Resolution.

These revisions are not intended to change the educational program, grade levels served, instructional model, student services, governance structure, or day-to-day operations of Magnolia Science Academy – San Diego. Rather, the revisions are intended to update the charter petition's dissolution language so that it is consistent with CalSTRS Certification requirements and related amendments to MPS's other governing documents.

Impact:
Approval of this item supports continued CalSTRS access for eligible Magnolia Science Academy – San Diego employees and helps align the school's charter petition with CalSTRS Certification requirements.

The proposed action is not expected to affect school programming, student services, staffing structures, or day-to-day operations. The impact is primarily governance and compliance-related.

Budget Implications: N/A

AFFIRMATIONS AND DECLARATION

As the authorized lead petitioner, I, Alfredo Rubalcava, hereby certify that the information in this renewal petition for a California public charter school named Magnolia Science Academy-San Diego ("MSA-San Diego" or the "Charter School"); operated by Magnolia Educational & Research Foundation ("MERF"), doing business as Magnolia Public Schools ("MPS"); and located within the boundaries of the San Diego Unified School District ("SDUSD" or the "District") is true to the best of my knowledge and belief; I also certify that this renewal petition does not constitute the conversion of a private school to the status of a public charter school; and further, the Charter School will follow any and all federal, state, and local laws and regulations that apply to the Charter School, including but not limited to:

- The Charter School shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools. [Ref. Education Code Section 47605(c)(1)]

- MPS declares that it shall be deemed the exclusive public school employer of the employees of MSA-San Diego for purposes of the Educational Employment Relations Act. [Ref. Education Code Section 47605(b)(6)]

- The Charter School shall be non-sectarian in its programs, admission policies, employment practices, and all other operations. [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall not charge tuition. [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall admit all students who wish to attend the Charter School; unless the Charter School receives a greater number of applications than there are spaces for students, in which case each application will be given equal chance of admission through a public random drawing process, subject to certain preferences, as described in Element 8 of this Renewal Petition. [Reference California Education Code § 47605(d)(2)(A)-(B)] Preference in the public random drawing shall be given to residents of SDUSD as required by Education Code Section 47605(d)(2)(B). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the Charter School in accordance with Education Code Section 47605(d)(2)(C). [Ref. Education Code Section 47605(d)(2)(A)-(C)]

- The Charter School shall not discriminate on the basis of the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, immigration status, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, including immigration status, or

association with an individual who has any of the aforementioned characteristics). [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 and the Individuals with Disabilities Education Improvement Act of 2004.

- The Charter School shall meet all requirements for employment set forth in applicable provisions of law, including, but not limited to credentials, as necessary. [Ref. Title 5 California Code of Regulations Section 11967.5.1(f)(5)(C)].

- The Charter School shall ensure that teachers in the Charter School hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools is required to hold. As allowed by statute, flexibility will be given to noncore, noncollege preparatory teachers. [Ref. Education Code Section 47605(l)]

- The Charter School shall at all items maintain all necessary and appropriate insurance coverage.

- The Charter School shall, for each fiscal year, offer at a minimum, the number of minutes of instruction per grade level as required by Education Code Section 47612.5(a)(1)(A)-(D).

- If a pupil is expelled or leaves the Charter School without graduating or completing the school year for any reason, the Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades, and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. [Ref. Education Code Section 47605(d)(3)]

- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]

- The Charter School shall maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and

inspection. [Ref. Education Code Section 47612.5(a)(2)]

- The Charter School shall comply with any applicable jurisdictional limitations to the locations of its facilities. [Ref. Education Code Sections 47605 and 47605.1]
- The Charter School shall comply with all laws establishing the minimum and maximum age for public school enrollment. [Ref. Education Code Sections 47612(b) and 47610]
- The Charter School shall, on a regular basis, consult with its parents and teachers regarding the Charter School's educational programs. [Ref. Education Code Section 47605(c)]
- The Charter School shall comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA"), as reauthorized and amended by the Every Student Succeeds Act ("ESSA").
- The Charter School shall comply with the Public Records Act.
- The Charter School shall comply with the Family Educational Rights and Privacy Act.
- The Charter School shall comply with the Ralph M. Brown Act.
- The Charter School shall meet or exceed the legally required minimum number of school days. [Ref. Title 5 California Code of Regulations Section 11960]

INTERPRETATION OF TERMS

Throughout this Charter and any attachments, exhibits, and/or appendices hereto, any and all references to the Magnolia Science Academy-San Diego and/or Magnolia Public Schools and/or MSA-San Diego and/or Magnolia Science Academy – SD and/or the Charter School and/or the School, by any name or designation, shall apply with full force and effect to the Charter School itself and the nonprofit corporation, and for all purposes related to this Charter or the operations of the Charter School, both the Charter School and the corporate entity shall be fully obligated to comply with the provisions of this Charter and any attachments, exhibits and/or appendices thereto, without regard to what entity or name is referenced or specifically listed or

identified therein and whether the Charter School and corporation are at any time or for any reason deemed or treated as separate entities.

Throughout this Charter and any attachments, exhibits, and/or appendices hereto, any time that MSA-San Diego indicates that it will follow the requirements of a particular Section of the Education Code or other law that does not explicitly apply to charter schools, it means that MSA-San Diego will comply with these laws in the same manner as required for California non-charter public schools, except where otherwise specified. MSA-San Diego will ensure that assurances are fully implemented by January 2020.

ELEMENT 1: THE EDUCATIONAL PROGRAM

"The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners." **(Ed. Code § 47605(b)(5)(A)(i).)**

"The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals." **(Ed. Code § 47605(b)(5)(A)(ii).)**

"If the proposed charter school will serve high school pupils, a description of the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A" to "G" admissions criteria may be considered to meet college entrance requirements." **(Ed. Code § 47605(b)(5)(A)(iii).)**

GENERAL INFORMATION

▪ The contact person for Charter School is:	CEO & Superintendent, Alfredo Rubalcava
▪ The contact address for Charter School is:	250 E. 1st Street Suite 1500 Los Angeles, CA 90012
▪ The contact phone number for Charter School is:	(619) 644-1300
▪ The proposed address, or target community by Zip Code, of Charter School is:	92120
▪ The grade configuration of Charter School is:	6-8
▪ The number of students in the first year will be:	465
▪ The grade level(s) of the students in the first year will be:	6-8
▪ Charter School's scheduled first day of instruction in 2020-2021 is:	August 18, 2020
▪ The enrollment capacity is:	480

(Enrollment capacity is defined as the total number of students who are enrolled in Charter School regardless of student residency.)	
▪ The type of instructional calendar will be:	Traditional
▪ The regular day bell schedule for Charter School will be:	8:15 am to 3:00 pm
▪ The term of this Charter shall be from:	July 1, 2020 to June 30, 2025

Magnolia Science Academy-San Diego ("MSA-San Diego," "MSA-SD" or "Charter School"), is a classroom-based charter school serving students in grades 6-8 with a curriculum emphasis on science, technology, engineering, arts and math ("STEAM"). MSA-San Diego's mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-San Diego is supplemented by tutoring, after-school programs, and school-to-university links.

MAGNOLIA PUBLIC SCHOOLS

MSA-San Diego is operated by Magnolia Educational & Research Foundation ("MERF"), *dba* Magnolia Public Schools ("MPS"),[1] a non-profit public charter school management organization dedicated to establishing and managing high-quality public charter schools in California. The vision of MPS is to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. MPS' educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula.[2] MPS addresses the shortage by inspiring and preparing students to choose career paths in science and technology.

MPS was first established in August 1997 to organize volunteer science, technology, engineering, and math ("STEM") based tutors for middle and high schools in Los Angeles, and later partnered with Culver City Unified School District to provide tutoring for students all

[1] For more information on Magnolia Public Schools visit www.magnoliapublicschools.org.
[2] Z. Zacharia and A. C. Barton, "Urban Middle-School Students' Attitudes Toward a Defined Science," *Science Education*, vol. 88, no. 2, pp. 197-222, Mar. 2004.

around Los Angeles District. MPS also started a free tutoring program in the Sherman Oaks/Van Nuys Area of Los Angeles. These successful programs led MPS to establish its first charter school, Magnolia Science Academy-1, and go on to successfully replicate our educational program and philosophy at nine other charter schools throughout California. Today we operate a total of four Charter Schools authorized by Los Angeles Unified School District (LAUSD), four authorized by Los Angeles County Office of Education ("LACOE"), one authorized by San Diego Unified School District ("SDUSD"), and one State Board of Education-authorized charter school in Santa Ana. Combined, MPS Charter Schools now serve more than 3,900 students annually in grades TK-12.

Since its founding, MSA-San Diego has had a clear STEM focus, with a shift starting in 2016-17 to STEAM (adding "Arts"). The most developed areas have been Math and Science, with the understanding that Engineering and Technology offered great growth potential. As the arts are more widely embraced, we believe that authentic connections and through lines between multiple disciplines will be made visible, and strategies will emerge to support authentic integration.

The MPS program aims to improve students' performance in reading, writing, and math, reduce dropout rates, achieve high student attendance rates, and increase the number of students who pursue careers in STEAM fields.

School Highlights

MSA-San Diego's recent achievements include the following highlights, detailed more extensively below:

- Highest Performing Charter Middle School in San Diego, based on results on the state Smarter Balanced Assessment Consortium ("SBAC")/California Assessment of Student Performance and Progress ("CAASPP")
- Seaperch Underwater Robotics Regional Competition:
  - April 2019, 1st Place
  - March 2016, 1st Place Obstacle Course, 3rd Place Deep Water Challenge
- Olympic Archery in Schools:
  - *Nationals:* May 2019, 5th Place; May 2018, 4th Place
  - *CA State Championships:* April 2019, 1st Place; April 2018, 3rd Place; April 2016 2nd Place
  - *San Diego Conference*: March 2019, 2nd Place; March 2018, 1st Place; March 2017, 2nd Place
- YMCA Basketball Middle School League, March 2019, 1st Place
- YMCA Soccer Middle School League, May 2019, 1st Place
- SoCal First Lego League Championship Tournament:
  - December 2018, Research Award 2nd Place, Robot Games 4th Place
  - December 2016, Core Values 1st Place, Robot Design 1st Place
  - December 2015, Inspiration Award 1st Place
- First Lego League Cup:

    - February 2018, Robot Games 1st Place & Runner Up Champion
    - January 2016, Robot Performance, 2 teams placed 1st
  - MSA-SD and Grossmont College co-host the Annual San Diego STEAM Expo on Grossmont College campus (2018-19 was the 6th year)
  - San Diego Science and Engineering Festival at PETCO Park annually (over 100 MSA-SD students presented their projects each year)
  - SoCal Future City Regional Competition:
    - January 2018, Most Sustainable Environmental Practices Award & 4th Place Overall
    - January 2017, Best Model Award & 2nd place Overall & Public's' Choice Award
    - January 2016 Best model Award & 3rd place overall
- MSA-SD's STEAM Ambassadors showcased their student project, the Air Vortex Cannon, featured on a local television news station
- Magnolia Public Schools STEAM Expo, April 2018, Robotics Challenge 1st Place
- AMC 8 Math Competition
  - November 2016, 2 Students Placed in Top 5% Nationwide
  - November 2015 ,2 students placed in top 5% nationwide
- Knott's Berry Farm Music in the Park Competition:
  - May 2017, 2nd Place
  - April 2016 1st Place & Superior Rating

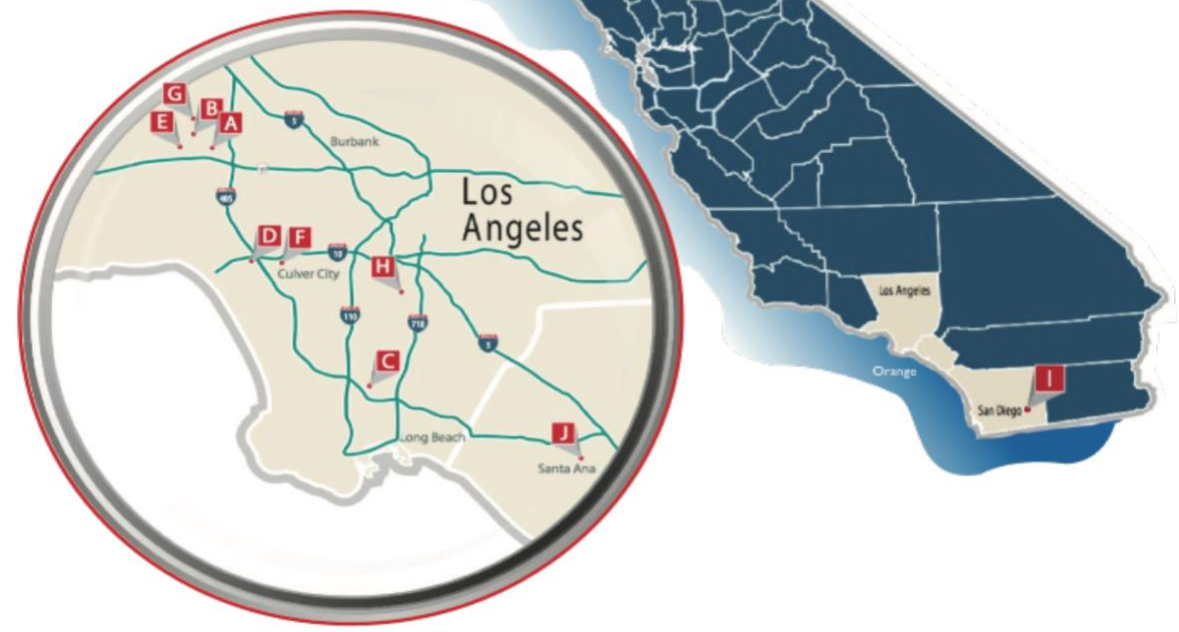
We are quite proud of these numerous accomplishments, and see first-hand the ways these experiences help inspire our students and build their confidence. We look forward to continuing to celebrate our students' success.

Current Locations and Grade Levels of MPS Sites

MPS currently operates 10 charter schools in California. The figure below shows the current locations and grade levels of these sites.

Grade Levels and Locations of Magnolia Science Academies

	NAME	GRADE LEVEL	LOCATION
	Magnolia Science Academy (Academy)		
A	Academy 1	6th-12th Grade	18238 Sherman Way, Reseda, CA
B	Academy 2	6th-12th Grade	17125 Victory Blvd., Van Nuys, CA
C	Academy 3	6th-12th Grade	1254 East Helmick St., Carson, CA
D	Academy 4	6th-12th Grade	11330 West Graham Place, Los Angeles, CA
E	Academy 5	6th-12th Grade	18230 Kittridge St., Reseda, CA
F	Academy 6	6th-8th Grade	3754 Dunn Dr., Los Angeles, CA
G	Academy 7	TK-5th Grade	18355 Roscoe Blvd., Northridge, CA
H	Academy 8 Bell	6th-8th Grade	6411 Orchard Ave., Bell, CA
I	Academy San Diego	6th-8th Grade	6525 Estrella Ave., San Diego, CA
J	Academy Santa Ana	TK-12th Grade	2840 West 1 St., Santa Ana, CA



MSA-SAN DIEGO'S PERFORMANCE DURING THE CURRENT CHARTER TERM MEETS RENEWAL CRITERIA

Based on its historical and current record of performance, MSA-San Diego has and will continue to meet the needs of the community it serves.

ACADEMIC PERFORMANCE DATA AND OTHER ABSOLUTE AND COMPARATIVE PERFORMANCE INDICATORS

Pursuant to Education Code Section 47607(b), MSA-San Diego must meet at least one criterion of academic success prior to receiving a charter renewal. As detailed below, MSA-San Diego has fulfilled this requirement by demonstrating that the Charter School's "academic performance is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is

located, taking into account the composition of the pupil population that is served at the charter school." (Education Code Section 47606(b)(4)(A)).

"The determination made pursuant to this paragraph shall be based upon all of the following: (i) Documented and clear and convincing data; (ii) Pupil achievement data from assessments, including, but not limited to, the Standardized Testing and Reporting Program established by Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 for demographically similar pupil populations in the comparison schools; (iii) Information submitted by the charter school." (Cal. Ed. Code § 47607(b)(4)(B).)

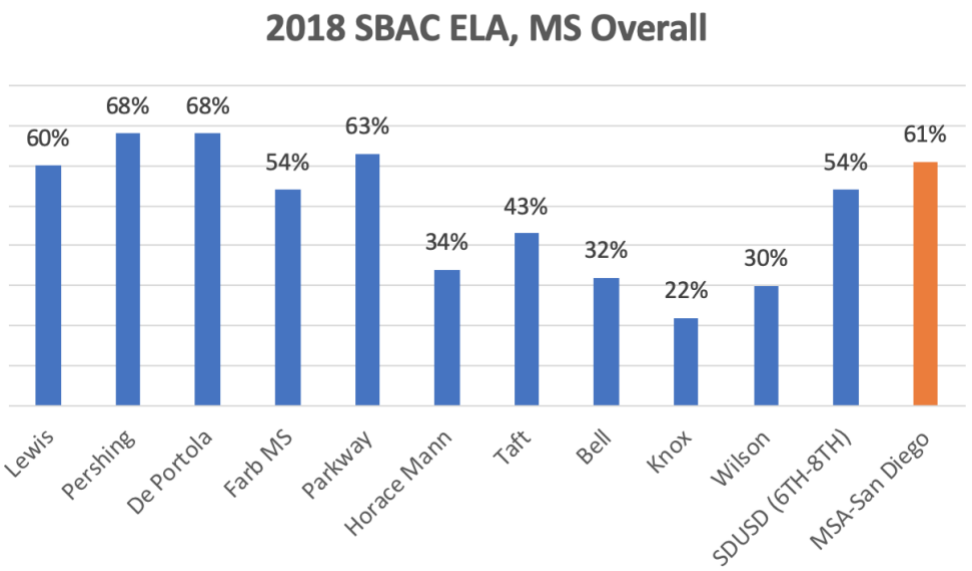
MSA-San Diego is located in close proximity to the intersection of the 8 and 15 freeways in San Diego. MSA-San Diego draws enrollment from across San Diego, with our 395 students residing in 42 different zip codes. Not surprisingly, the majority of students live in close proximity to our campus. Based on an analysis of the students' residence addresses, the following table lists the top district schools our students would otherwise be required to attend – ten middle schools:

School	Grade Level	# of Students	% FRL	% SPED	% ELs	% Hisp	% AA	% White	% Asian
Comparison Schools									
Lewis	6-8	1061	45	10.4	4.7	32.9	6	34.1	17.6
Pershing	6-8	688	33.1	12.1	3.2	27.6	8.6	48.1	5.8
De Portola	6-8	907	39.4	10	5.3	31.8	6.2	35.1	6.5
Farb MS	6-8	477	67.9	18	5.7	37.3	9.2	32.3	5.7
Parkway	6-8	823	43.7	10.7	8	36.5	7.9	39.7	3.2
Horace Mann	6-8	764	95.5	17.8	33.2	49.7	23.2	2	20.9
Taft	6-8	462	64.9	22.1	11.9	32.3	19.7	19.5	7.6
Bell	6-8	710	79.9	17.2	18.7	47.5	12.7	3.2	1.3
Knox	6-8	634	96.1	24.9	37.9	78.4	11.4	1.4	1.1
Wilson	6-8	713	96.1	21	34.6	79.4	7.4	1.3	8.3
MSA-San Diego	**6-8**	**404**	**26.7**	**14.6**	**4.5**	**31.4**	**5.2**	**43.1**	**3.2**

(http://dq.cde.ca.gov/dataquest/)

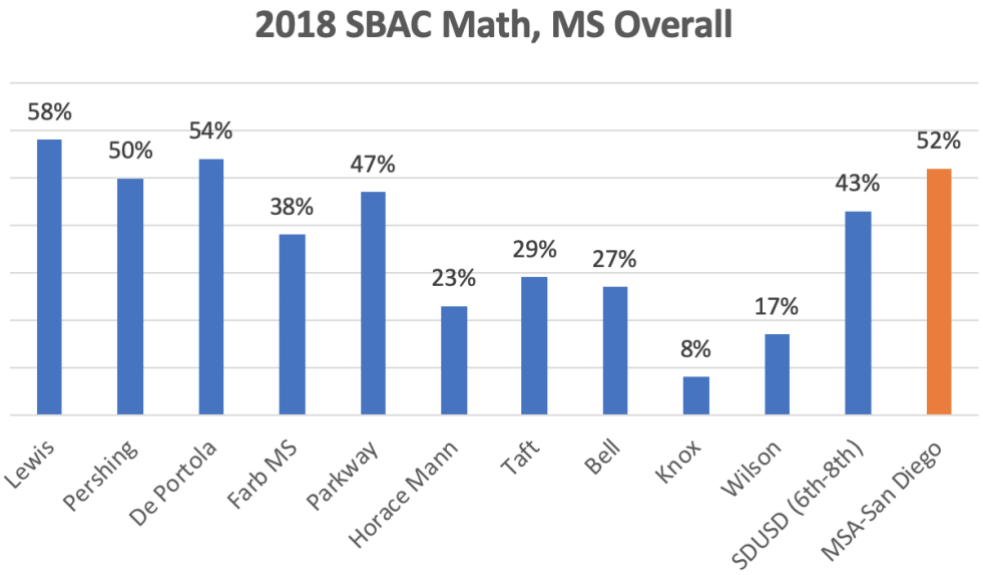
Smarter Balanced Assessment Consortium ("SBAC")/California Assessment of Student Performance and Progress ("CAASPP") Results

On the 2018 SBAC in English Language Arts ("ELA"), 61% of MSA-San Diego's students Met or Exceeded grade level standards, outperforming 7 out of the 10 Comparison Schools' proficiency rates and the SDUSD district-wide average for the same grades (54%), and more than double the rate of two of the Comparison Schools (22% and 30% respectively).



(https://caaspp.cde.ca.gov/sb2018/Search)

In Math, with 52% of our students Met/Exceeded standards, MSA-San Diego outperformed 8 out of 10 Similar Schools and the SDUSD average for the same grades (43%); MSA-SD was more than six times higher than the lowest performing school (8%).

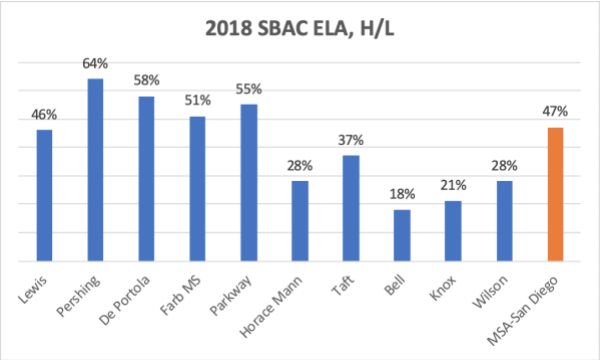


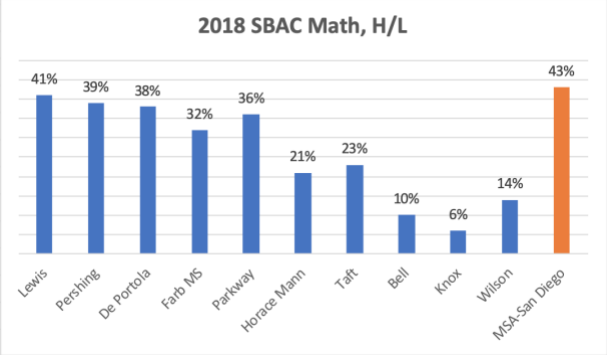
(https://caaspp.cde.ca.gov/sb2018/Search)

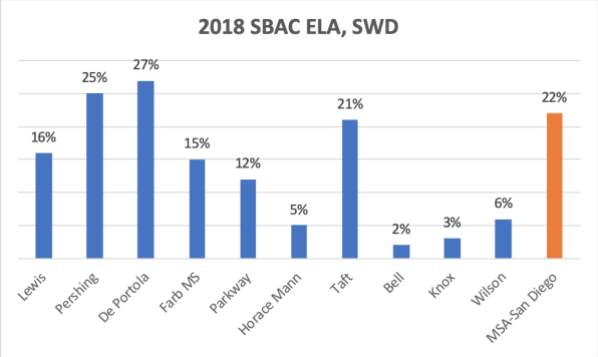
The performance of our statistically significant subgroups on the SBACs is consistent with these overall results:

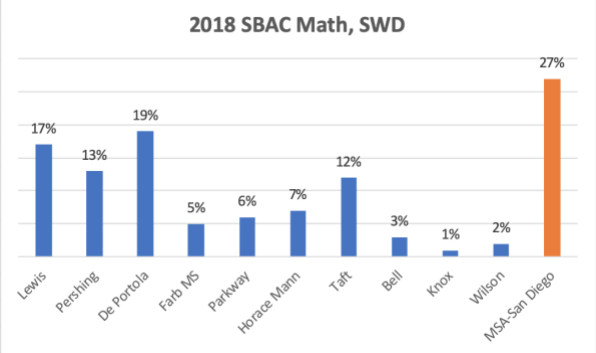
- our Hispanic/Latino students were 47% Met/Exceeded in ELA and 43% Met/Exceeded in Math, stronger than six of the 10 Comps in ELA and all 10 Comps in Math;

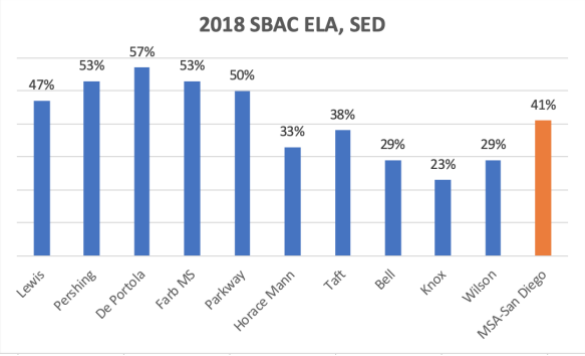
- MSA-SD's student with disabilities (SWD) were 22% Met/Exceeded in ELA, higher than their peers at 8 of the 10 Comps, and 27% Met/Exceeded in Math, higher than their peers at all 10 Comps;
- our Socio-Economically Disadvantaged (SED) students were 41% Met/Exceeded in ELA and 30% in Math, stronger than five Comps in ELA and five in Math; and finally,
- our English Learners (ELs) were 6% Met/Exceeded in ELA and 11% in Math, stronger than their peers at six Comps in ELA and the same or stronger than six Comps in Math.

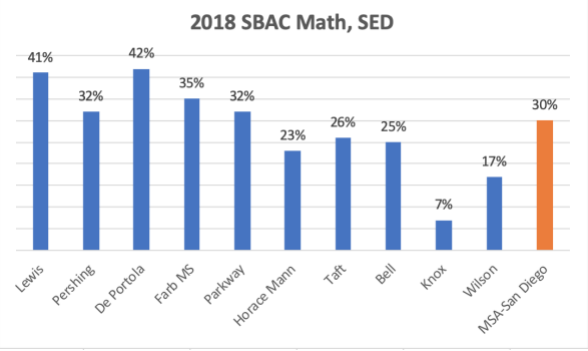


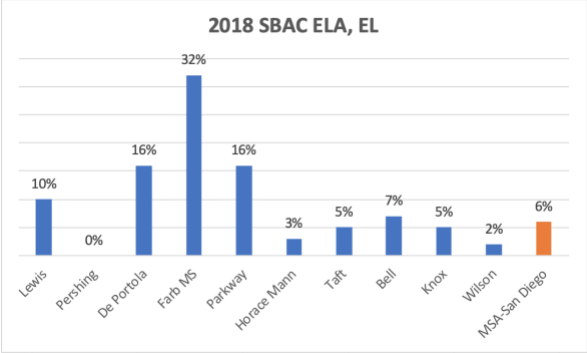


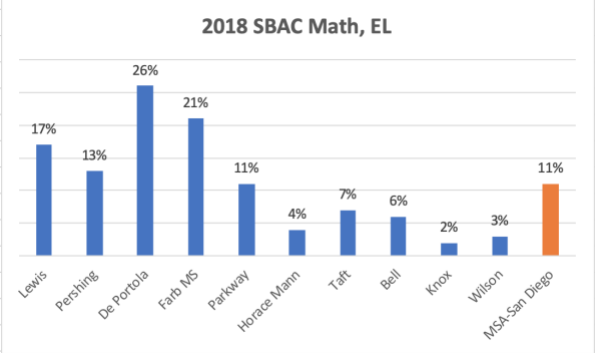










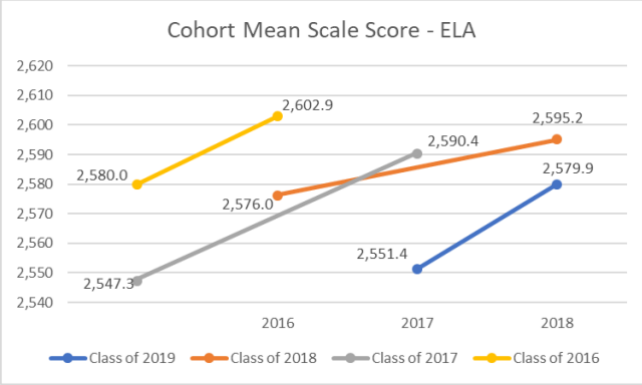


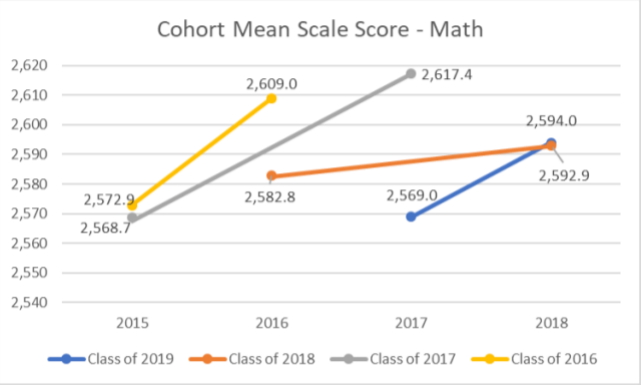
(https://caaspp.cde.ca.gov/sb2018/Search)

Growth Data

Since the CAASPP were implemented in 2015, MSA-San Diego has shown growth in both ELA and Math with each cohort of students progressing from 6th through 8th grades:

- The Class of 2016 (who matriculated from 8th grade in June 2016), grew 22.9 mean scale score points in ELA and 36.1 points in Math in just one year (2015 to 2016);
- The Class of 2017 grew 43.1 mean scale score points in ELA and 48.7 points in Math between spring 2015 and spring 2017;
- The Class of 2018 grew 19.2 mean scale score points in ELA and 11.2 points in Math between 2016 and 2018;
- The Class of 2019 (2019 test data is not yet published/official) grew 28.5 mean scale score points in ELA and 23.9 in Math in just one year (2017 to 2018).

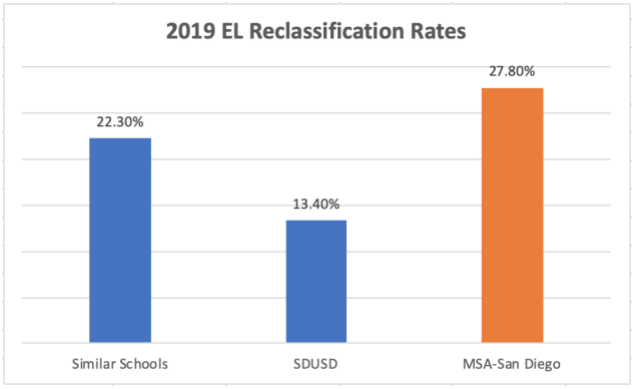




(https://caaspp.cde.ca.gov/sb2018/Search)

English Learner Re-Classification Rates

MSA-San Diego has a relatively small EL population (4.5%), yet we still focus heavily on re-classification of English Learners, including support for Long Term English Learners ("LTELs") (see below for a detailed discussion of the English Learner program). In 2018-2019, MSA-San Diego reclassified *27.8% of ELs*, a higher reclassification rate than the average of the Comparison Schools (22.3%) and SDUSD (13.4%).



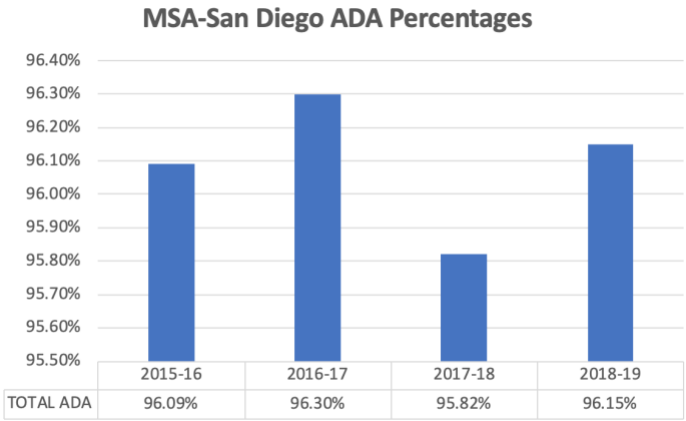
(http://dq.cde.ca.gov/dataquest/)

In 2017-2018, MSA-San Diego reclassified 28.10% of our ELs, again, well above typical reclassification rates at most of the Comps.

We attribute these significant reclassification rates to a renewed focus on ELs across all of our MPS schools that coincided with the enrollment expansion at MSA-SD. MPS now has a network-wide EL Coordinator that provides coaching and professional development for teachers that helps support their students' academic achievement and development of English proficiency. We have also assigned a site-level EL Coordinator at MSA-San Diego to help monitor the progress of our ELs, collaborate with faculty, and facilitate interventions and action plans for struggling EL students.

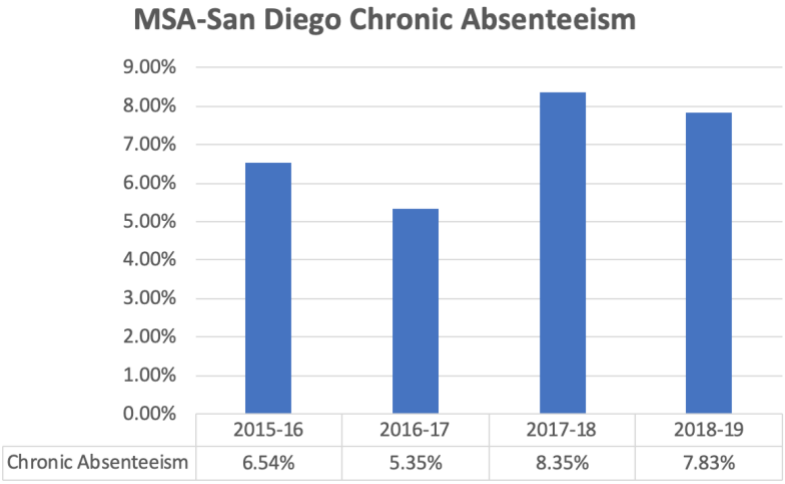
Additionally, we have introduced a new ELD/ELA curriculum (McGraw Hill's StudySync for secondary grades) with designated and integrated ELD components that are aligned with the CA ELD standards and framework. Lastly, for reclassification (as detailed further in the section below on English Learners), we use the four criteria required by law. For the basic skills assessment requirement however, students have multiple opportunities to demonstrate their proficiency through either the NWEA MAP assessment, or the SBAC. This has enabled more students to demonstrate English proficiency and for the school to reclassify more EL students.

Student Attendance Rate and Chronic Absenteeism



(Current Student Information System)

MSA-San Diego's student attendance rates have been consistent and strong over the charter term. The average daily attendance ("ADA") was 96.15% in 2018-19, which is above the targeted rate of 95%.



(Current Student Information System)

Chronic absenteeism has been higher than we would like, ranging from 6.54% (2015-16) to 5.35% (2016-17) to 8.35% (2017-18) and 7.83% (2018-19), though these rates have been lower than the District rates (12.4% in 2016-17 and 2017-18). In an effort to further reduce chronic absenteeism, MSA-San Diego offers incentives and awards for individuals and groups with outstanding attendance. Also, attendance is a topic covered in various courses such as Life Skills and Advisory where students discuss the importance of the positive and negative effects of absences, and how each person is a valuable member of the Magnolia community. Furthermore, if and when a student has a high number of absences, the parents/guardians are contacted by the Main Office, Teachers, and/or Administration through phone calls, letters, and/or Home Visits.

Suspension/Expulsion Rate

Thanks to our restorative justice program, MSA-San Diego's student suspension and expulsion rates have consistently been quite low: MSA-San Diego has had **zero suspensions in the past four years**, and suspension rates have ranged from 1.2% to 2.6%, each year lower than SDUSD rates.

Year	2015-16	2016-17	2017-18	2018-19
Suspension number	6	7	12	8
Suspension rate	1.4%	1.2%	2.6%	2.02%
Expulsion number	0	0	0	0
Expulsion rate	0	0	0	0

(http://dq.cde.ca.gov/dataquest/)

Parent Involvement

MSA-San Diego has a strong home-school connection. In 2018-19, MSA-San Diego administrators and teachers conducted 66 home visits (about 16.7% of the student population) to talk with students and their families about the Charter School, the student's goals and progress, and family concerns. Many of the students visited were students who were struggling. We are striving to increase this program moving forward. Often, home visits reveal new ways of teaching and learning or opportunities that the school can offer to a student in order for him/her to thrive more.

California Charter Schools Association Accountability Framework

Finally, our application for charter renewal is supported by the California Charter Schools Association (CCSA), which has developed an accountability framework based on publicly available academic indicators. Like the Dashboard Reports published by the California Department of Education (CDE), CCSA utilizes "Distance from Level 3" (DF3) as a status measure for academic progress, "which measures how far (or the distance) each student is from the Level 3 (i.e., Standard Met) Smarter Balanced performance level. Each students' score is compared to Level 3, and all distance results are then averaged to produce a school- and student-group-level average scale score. The results will show, on average, the needed improvement to bring the average student score to Level 3 or the extent to which the average student score meets or exceeds Level 3." [3] CCSA ranks the DF3 score given to every eligible public school in the state[4] from lowest to highest into percentiles (1-100) and 10 decile ranks. The 1st percentile is equivalent to the lowest 1% of schools statewide, while the 1st decile translates to the bottom 10% of schools (1-10), according to the schools' average results on the California Assessment of Student Performance and Progress (CAASPP). Conversely, the 10th decile rank is equivalent to a school having an average DF3 in the top 10% of schools statewide (91-100).

CCSA's accountability framework aligns with the old Academic Performance Index (API) decile rankings detailed in California Education Code §47607, and is consistent with the Education Code in prioritizing "pupil academic achievement for all groups of pupils served by the charter school *as the most important factor*" in the determination whether to renew a charter school. CCSA's accountability tool also relies on California Education Code §52066 (detailing Local Control Accountability Plans and the state's eight priorities) in determining what to classify as an indicator of academic achievement. Conversely, the CDE's Dashboard reports do not prioritize or weight academic achievement more heavily than non-academic indicators, thus the Dashboard's application to charter renewals is rather limited under the law.

---

[3] https://www.cde.ca.gov/ta/ac/cm/acadindcal.asp

[4] Dashboard Alternative School Status (DASS) schools – formerly referred to as Alternative Schools Accountability Model (ASAM) schools are not included, nor are schools that are less than four years old or schools with fewer than 30 CAASPP test-takers.

The CCSA accountability framework includes four basic measures:

- **Percentile:** DF3 must be above the 5th percentile in two of the last three years.
- **State Rank (Academic Status):** DF3 decile rank of four or higher in two of the past three years. Academic Status is the school's DF3 compared to all other eligible public schools in California, using decile rank.
- **Similar Schools Rank (SSR):** SSR of four or higher in two of the past three years. The Similar Schools Rank is a 1-10 decile ranking of average student test results, after taking into account the demographics of a school's tested students.

For Elementary and Middle Schools:

- **Academic Growth:** Above the 75th percentile in DF3 growth over the past three years (between 2015 and 2017, this was 18+ points). Academic Growth is the amount of change in a school's average DF3 over the past three years, and shows that the school is making some progress toward having all students meet ELA and Math proficiency standards.

OR, For High Schools:

- **Post-secondary readiness:** 75% of graduating seniors have completed the minimum A-G course requirements of the University of California/California State University system with a "C" or better in two of the past three years.

According to CCSA's Accountability Framework, MSA-San Diego not only meets criteria for renewal according to CCSA, but **has a State Rank of 8/10**.

Success of The Innovative Features of the Educational Program

MSA-San Diego distinguishes itself from other schools by cultivating a fearless pursuit of excellence through a rigorous, high quality STEAM education for all students. We incorporate an extraordinary support program that includes home visits, extended learning time, and parent and community engagement. At MSA-San Diego we believe that after-school hours are an extension of the day. MSA-San Diego recognizes that educational success is realized only when the essential underlying triad of student-teacher-parent/guardian is in harmony. We, therefore, work with staff, families, and the community to provide our youth with the support necessary to reach their highest potential, intellectually, socially, emotionally, and physically. We offer tutoring and clubs designed to support daytime instruction. Additionally, there is targeted intervention during school and after-school.

Success of the School's Educational Program in Meeting the Specific Needs of Its Student Population

As detailed throughout this charter petition, MSA-San Diego is providing a college preparatory educational program for grades 6-8, emphasizing STEAM in a safe environment that cultivates respect for self and others. Strong evidence via test scores, survey data and more demonstrate the success of MSA-San Diego's rigorous program and efforts to create the next generation of STEAM leaders. MSA-San Diego students are outperforming their peers at the neighborhood schools they would otherwise attend. MSA-San Diego's college going culture ensures students will graduate prepared to thrive in high school and college.

AREAS OF CHALLENGE THE SCHOOL HAS EXPERIENCED AND HOW THEY HAVE BEEN/WILL BE IMPROVED

Financial and Operational Challenges

After experiencing some disputes with LAUSD -- stemming from fiscal challenges that arose in 2014 – MPS has turned the tide both financially and in our relationship with LAUSD. Over the past three years, LAUSD has renewed three of our schools (MSA-4, MSA-6, MSA-7) with a fourth currently pending renewal (MSA-Bell), each for a five-year renewal term, indicating the District's renewed confidence in MPS. In 2014, Magnolia Public Schools had encountered some significant challenges, including a dispute with LAUSD over the non-renewal/revocation (later reversed) of two of our schools (MSA-6 and 7), leading to a Settlement Agreement between LAUSD and MPS ("Settlement Agreement"). ***MPS (MERF) has satisfied all of the Settlement Agreement criteria,*** and has earned LAUSD's confidence, as evidenced by the recent renewals.

In recent years, we have made several key changes to ensure organizational capacity and fiscal strength:

- MERF modified the governance structure to include staggered Board terms and addedfive new Board members for a total of nine members;
- Made significant leadership changes with the addition of:
    - **a new Chief Executive Officer/Superintendent ("CEO"):** Dr. Caprice Young joined MPS in 2014 to help navigate the organizational challenges. Dr. Young has an extensive history leading school systems, philanthropic, business, governmental and community-based organizations engaged in transformational work. From 1999-2003 she served on the Board of LAUSD. She earned her doctorate in education from UCLA, her M.P.A. from USC and her B.A. from Yale University. During her four years at MPS she strengthened our internal organizational procedures and external relationships. When she decided to step down as CEO and Superintendent of MPS at the end of the 2017-18 school year, the Board conducted a thorough search for a highly qualified new leader. Effective July 1, 2018, former Magnolia Chief External Officer Alfredo Rubalcava has returned to the organization as the new CEO/Superintendent. Mr. Rubalcava was one of Magnolia's founding teachers and has held various positions within the organization such as teacher, athletic director, dean of students, principal, Chief External Officer and now CEO.
    - a **new Chief Financial Officer ("CFO"):** Our CFO has more than 30 years of experience in accounting and finance, including 20 years in California public school systems and government fund accounting. She has significant experience and familiarity with the California school account structures, coding and system software and programs.
    - **a new Chief Operating Officer ("COO"):** Our COO started his career as a K-12 Math teacher. He taught math for 11 years, then he became a dean of students, and then founding principal of a new charter school in Phoenix, Arizona. He later joined Magnolia as Principal of Magnolia Science Academy #2, then moved to

the Regional Director Position for MPS within LA County. He is now the COO and the Regional Director for LA County Schools. Our COO holds a Bachelor Degree in Economics and Masters in Educational Leadership.

- **a new Chief Academic Officer ("CAO"):** Our CAO is an accomplished and forward-thinking educator with 18+ years of leadership in developing and implementing leading-edge programs and services that align with mission and vision of educational institutions. He has an outstanding record of improving processes by adapting and applying aspects of STEAM Education in school systems, through comprehensive research, strategic evaluation and effective presentations of best practices in curricula, programs, tools and technologies. Our CAO has pioneered establishment of state-of- the-art online learning programs and professional development portals for academic advancement, combined with directing formative assessment and performance-based programs. He has served in top school level administrative positions in Nevada and California for over a decade.
- **a new Chief Accountability Officer:** MPS elevated our focus on compliance and accountability organization-wide through the creation of a new executive level position. Our Chief Accountability Officer ensures MPS schools have high quality accountability plans, that the MPS schools implement the programs described in their charter petitions and comply with all applicable law and regulations. Our Chief Accountability Officer earned his M.S. in engineering from UCI and M.A. in school leadership from CSUDH. With teaching and administrative experience at MPS, our Chief Accountability Officer strives to ensure MPS implements best practices aligned with our vision, mission, and core values.

- MPS also has changed several outside contractors including terminating a contract with ACCORD, effective June 30, 2015 and changing auditing firms to Vavrinek, Trine, Day & Company, a highly respected and experienced firm on the state-approved list of charter school auditors.

In addition to the Settlement Agreement, the State Auditor conducted a comprehensive and detailed review of MPS operations and finances ("State Audit") in 2014, resulting in conditions for MPS: ***MPS has "fully implemented" <u>all</u> of the recommendations of the State Audit as required.*** Since the audit, MPS has also taken steps to strengthen financial controls and implemented <u>all</u> of the State Auditor's recommendations, including:

- The Board-approved budget is closely monitored on a daily basis by MPS Financial Analysts and adheres to all recommendations made by FCMAT.
  MPS has been using a variety of systems to handle financial transactions, all designed to ensure appropriate financial controls and transparency. Since July 1, 2018, MPS has contracted with back office provider, Delta Managed Solutions (DMS). DMS maintains the general ledger, including budget and actuals. Cash disbursements, check cutting and related approvals, are maintained in CoolSIS. NetSuite, Paycom and Escape all have been enhanced and customized for MPS since the implementation date to better serve our specific needs.

In addition, we are adding AssetWorks as a new automated system to monitor and track all our assets and technology equipment. MPS will continue to ensure all facets of our operations, governance and programs are both strong and compliant.

Increasing Academic Achievement

At Magnolia Science Academy - San Diego, we successfully ensure our students are prepared for college, career, and life. To accomplish this, each year, we set school-wide goals based on the collection of data surrounding these key focus areas. We dedicate ourselves to accomplishing these goals through ongoing programs and systems to close the achievement gap and provide students opportunities to thrive in a supportive environment encompassing the whole child.

These academic programs and Multi-Tiered Systems of Support include:

- Restorative Practices
- Social-Emotional Learning Opportunities
- PBIS
- After school clubs based on student interest and development of social skills
- Data-driven academic intervention for all students
- NWEA benchmark MAP testing in the fall and spring
- Differentiated instruction based on individual student needs
- Blended learning using our 1:1 Chromebooks
- Free after school tutoring by credentialed teachers
- Parental involvement programs including the parent task force and volunteer opportunities
- Daily physical education
- Daily elective classes including Band, Art, Study Skills, Spanish, and Robotics

Going forward, we are placing a priority on providing targeted professional development, implementing McGraw Hill's Study Sync curriculum and Integrated Math Program with fidelity and monitoring and supporting the growth of all student groups, with a particular focus on increased outcomes for Special Education and EL students. The MPS Director of Math Programs provides our math teachers with best practices for engaging students in sense making, critical thinking and mathematical modeling. Additionally, MPS supports teacher innovation and contribution through our Teacher Symposiums, which are held twice a year. We are confident these efforts will increase proficiency levels on state assessments.

STUDENT POPULATION TO BE SERVED

Target Population

MSA-San Diego serves students in grades 6-8, and mainly draws enrollment from San Diego, CA and neighboring communities. According to U.S. Census data, zip code 92120, where our new

facility is located, is with a demographic breakdown of 14.1% Hispanic, 6.1% Asian; 71.9% White, 3.6% African American and 3.5% Two or More Races.[5] The median yearly household income is $88,202.[6] Notably, only 48% have a Bachelor's degree. Finally, 19% of the local population speaks a language other than English at home (predominantly Spanish).[7]

Educational Interests, Backgrounds, and Challenges

Current research indicates that English Learners, students with disabilities, and socioeconomically disadvantaged students are the most rapidly growing student groups in California, specifically in charter schools, yet are among the lowest in educational attainment.[8] One in five children or adolescents in the U.S. are of Hispanic origin and are intensifying their impact on educational and work settings.[9] Minority students from low socioeconomic status ("SES") backgrounds and first-generation American students are the least likely to be prepared for, enroll, and persist past their first year in a university.[10]

While Title I federal legislation and increased monetary support has allowed significant student groups to improve their academic proficiency, ELs, students with disabilities, and low-income students continue to lag behind other major student groups, more specifically Caucasian and Asian Americans.[11]

The disconnect between these student groups' academic achievement, size of population, and disproportionate under-representation in higher education can be attributed to a variety of factors including lack of parental involvement, not understanding the educational system and its requirements, school barriers, and racial perceptions.[12]

The charter school movement evolved as an effort to counter consistently failing schools; to create a marketplace within the school system where parents could choose where their children could attend school.[13] In particular, charter schools developed to implement innovative teaching strategies in an environment free of some of the bureaucracy found in larger school districts (National Alliance for Public Charter Schools, n.d.). As lack of access to a

quality education and preparedness to college continues to be a pervasive issue, a growing number of educational leaders has begun to develop theme-based charter schools and alternative approaches to educating students.

For seventeen years, Magnolia Public Schools have provided a STEM, and now STEAM, focused education to address the needs of underrepresented communities. As of 2019, we have graduated over 800 students. At MPS, ALL STUDENTS have access to high quality and effective STEAM-based Common Core State Standards ("CCSS") and Next Generation Science Standards ("NGSS") aligned instruction, along with engaging elective and enrichment programs that support their learning and development.

Enrollment Plan

The following shows the anticipated enrollment per grade for the next charter term, with class sizes ranging from 20-30 students on average:

Projected Grade-level Enrollment at MSA-San Diego					
	2020-21	2021-22	2022-23	2023-24	2024-25

GOALS AND PHILOSOPHY

Mission and Vision

MPS provides a college preparatory educational program emphasizing science, technology, engineering, arts and math in a safe environment that cultivates respect for self and others.

MPS' vision is that graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

MPS has identified the following core values, which are reinforced through the Life Skills curriculum, student learning outcomes ("SLOs"), and all school activities:

Excellence
Academic excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing. Scholars learn where

and how to access the needed information to advance their academic pursuits and societal contributions.

Innovation
Students will have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest and career plans will support students' college and career readiness. This will include, after school enrichment programs, STEAM program choice options, adaptive assessments and blended learning strategies, differentiated instruction and differentiated and adaptive assessments.

Connection
School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support, promote unity and better decision making through the implementation of restorative justice practices. Additionally, community cultivates identity and gives each member a sense of belonging and pride. MPS utilizes home visits, student surveys, instructional field trips, life skills classes and coaching to support our overall community-based goals. We work with community partners to establish mentoring relationships and other social capital to support our students' development of personal and academic networks for long-term resilience and connection.

Student Learning Outcomes

The Student Learning Outcomes (SLOs) are measurable schoolwide goals that every student is expected to achieve upon graduation from MSA-San Diego. Our schoolwide SLOs are embedded in our curriculum, including Life Skills, our instructional practice, core values, Character Counts curriculum, as well as, our Home Visit policy and daily culture at the Charter School.

MSA-San Diego graduates will be:	
SCHOLARS who:	▪ Think critically. ▪ Develop academic plans and goals to guide in their pursuit towards a college degree and career choices (planning). ▪ Apply, analyze, identify, synthesize and evaluate information and experiences. ▪ Connect the skills and content learned across the curriculum and evaluate multiple points of view. ▪ Use the Inquiry Process to address a problem, hypothesize, analyze, and draw conclusions as they investigate an issue/problem. ▪ Utilize problem-solving techniques during conflict resolution and can compromise.
INDEPENDENT SCHOLARS who:	▪ Exhibit the ability to integrate technology as an effective tool in their daily lives.

MSA-San Diego graduates will be:	
	▪ Use technology effectively to access, organize, research and present information. ▪ Demonstrate effective oral and written communication skills through the use of academic language at school, with peers and in the community. ▪ Demonstrate content area and grade level achievement in Reading, Writing, Mathematics, History and Science. ▪ Are self-directed. ▪ Meaningfully engage in learning activities. ▪ Make informed decisions on their learning pathways. ▪ Know their readiness levels, interests, and backgrounds. ▪ Understand their own learning styles and intelligence preferences. ▪ Reflect on their learning. ▪ Accept and integrate feedback. ▪ Adapt to change.
COMMUNITY FOCUSED CITIZENS who:	▪ Embrace and respect cultural diversity through the understanding of our global world. ▪ Demonstrate knowledge and understanding of American and world history and the values of different cultures. ▪ Contribute to the improvement of life in their school and local community through leadership skills and participation in community projects. ▪ Demonstrate knowledge of proper nutrition, exercise and physical health and its impact on daily life. ▪ Collaborate, work effectively, and manage interpersonal relationships within diverse groups and settings. ▪ Develop their ability to affect change in the world. ▪ Understand and reflect on connections between their community and global connectedness and how it affects the broader world through global awareness. ▪ Understand that outreach is a responsibility. ▪ Realize that agitation is a mechanism to activism.

AN EDUCATED PERSON IN THE 21ST CENTURY

The world in which we live and learn has a unique set of advantages and challenges. The goal of MSA-San Diego is to prepare students to adeptly utilize those advantages and confront these challenges with tenacity and courage. We believe that all students have social capital and can re-imagine their futures by utilizing their highest potential. We believe that engaging underrepresented communities through STEAM education will transform our society and prepare our scholars to lead in the 21st century not only as career seekers but also as career creators.

President Obama's Council of Advisors on Science and Technology (2010) described the importance of middle and high school education in STEM/STEAM as follows:

> *The success of the United States in the 21st century – its wealth and welfare – will depend on the ideas and skills of its population. These have always been the Nation's most important assets. As the world becomes increasingly technological, the value of these national assets will be determined in no small measure by the effectiveness of science, technology, engineering, and mathematics (STEM) education in the United States. STEM education will determine whether the United States will remain a leader among nations and whether we will be able to solve immense challenges in such areas as energy, health, environmental protection, and national security. It will help produce the capable and flexible workforce needed to compete in a global marketplace. It will ensure our society continues to make fundamental discoveries and to advance our understanding of ourselves, our planet, and the universe. It will generate the scientists, technologists, engineers, and mathematicians who will create the new ideas, new products, and entirely new industries of the 21st century. It will provide the technical skills and quantitative literacy needed for individuals to earn livable wages and make better decisions for themselves, their families, and their communities. And it will strengthen our democracy by preparing all citizens to make informed choices in an increasingly technological world.*

Prepare and Inspire: K-12 Education in Science, Technology, Engineering, and Math (STEM) for America's Future. Executive Office of the President, Washington, D.C., 2010. (PCAST, 2010)

MSA-SD prepares 21st century scholars to adapt to new platforms and technology through personalized learning and exposure to real world task and interactions such as: national academic and STEAM competitions, mentoring, STEAM clubs, college and career instructional field trips. Building upon students' knowledge in math, science, history and literature through real world applications and experiences fosters a love of learning. Supporting life-long learning through collaboration, digital literacy, academic discourse, argumentative writing and individualized scheduling models prepares students for 21st century demands.

MSA-SD graduates also develop the social and emotional skills needed to succeed in rigorous high schools and ultimately compete in a global society. MSA-SD graduates have a growth mind-set, are resilient, reflective, and demonstrate grit, self-respect and good character. These skills are crucial to not only attending and completing high school and college but also for graduates being able to develop and contribute their original ideas in a workplace environment.

HOW LEARNING BEST OCCURS

MSA-San Diego firmly believes that ALL students are brilliant and are capable of growing academically and emotionally. It is our responsibility as educators to provide scholars with the tools and contexts they need to accomplish their goals. We also recognize that all students

bring a unique set of skills and talents to the school community. Our goals for our scholars are to ensure that they are academically achieving, technologically fearless, creatively empowered, and socially and civically engaged.

Research and experience show us that learning best occurs when students are engaged and actively involved in the learning experience, have multiple opportunities to make interpersonal connections with the world, and relate their experiences to what they are learning in school.[14,15] At MSA-San Diego, we strive to effectively facilitate student learning. Because individual needs are intrinsically motivating, we begin the process by allowing students to assess their unique learning needs and styles, and teach them how to articulate those needs through effective communication. This helps guide educators in developing their curriculum so that it is personalized and aligned to meet students at their affect level. Furthermore, MSA-SD carefully collects and disaggregates data in order to consistently monitor and measure student growth, as well as provide immediate feedback to improve learning. We use this data to further tailor our program to meet the individual needs of our scholars.

MSA-San Diego's rigorous standards-based educational program uses inquiry and project-based activities to help students acquire core academic knowledge, problem-solving skills, and critical thinking skills. We have designed our curriculum to be relevant to our student demographic, while allowing scholars to explore and connect to the world. Additionally, we believe that student output must have depth and value, in order to foster a sense of pride and accomplishment.

Inquiry based teaching is often seen as a way of engaging students in the learning process through group work and hands-on activities, and by challenging them to support conclusions with evidence and observations. Effective inquiry is more than just asking questions. A complex process is involved when individuals attempt to convert information and data into useful knowledge. These skills can be developed at any age. Bryn Mawr science professor, Wilfred Franklin, described it best, "Inquiry based approaches to science education focus on student constructed learning as opposed to teacher-transmitted information… Inquiry based curriculum has been shown to develop independent and critical thinking skills, positive attitudes and curiosity toward science and increased achievement in biological content (Hall & McCudy, 1990), (Kyle et al, 1988), (Kyle et al, 1982), and (Shymansky, 1984)."[16]

We also improve students' academic skills, especially of those who are performing below grade level, by providing comprehensive tutoring/ intervention programs. We empower students to become self-motivated, competent, and lifelong learners. We create a supportive and caring environment involving all stakeholders and through community partnerships, and strong student-parent-teacher communication.

---

[14] D. Fortus et al, "Design-based science and student learning," Journal of Research in Science Teaching, vol. 41, no. 10, pp. 1081-1110, 2004.

The educators on our team are the foundation of authentic and equitable learning. MSA-San Diego teachers understand that students learn best when they have multiple opportunities to work collaboratively in teams. To develop conceptual understanding in constructivist settings, MSA-San Diego teachers assume the role of facilitators of meaningful learning experiences rather than transmitters of knowledge. Students build on their existing knowledge as guided experiences to help them discover and develop the underlying ideas and concepts. This process not only deepens the students' knowledge, it also sparks and stimulates their curiosity and passion for learning.

In addition to our educators, as a foundational piece of our model, parents are recognized as integral participants in successful student learning. The involvement of all stakeholders helps to develop a school's culture, and its identity as a family and a community. Students whose parents are involved in their learning tend to experience higher academic achievement, better attendance, higher graduation rates, and a better chance of continuing with their education beyond high school.

The focus on study skills is an important element of the MSA-San Diego model that enhances our scholars' learning experience. Our study skills courses are supplemental and designed to empower students with critical study and organizational skills, as well as important social skills. These skills support self-motivation, improvement, and growth, with the goal that students will ultimately use these tools to evolve and contribute to their global community.

In order to cultivate responsible members of society, students need to be fully engaged with their community. MSA-San Diego students are continuously and actively involved in various community outreach endeavors. The MSA-San Diego model incorporates "real life" projects that are aligned with the curriculum, and provide students with opportunities to work within their home community. This will help students move from adolescence and school to adulthood and society.

In addition to the curricular design, MSA-San Diego also offers an exciting after-school program that offers academic assistance to students, as well as providing a safe place for academic and social and emotional enrichment beyond the school day. This program will promote a love of learning and accelerate a positive feeling about the school experience, as well as, nurture a sense of family in our scholars.

THE REQUIREMENTS OF CALIFORNIA EDUCATION CODE § 47605(B)(5)(A)(II)

Each year, MSA-San Diego engages stakeholders in an annual review and goal setting process as required by the California Education Code, detailed in our Local Control Accountability Plan (LCAP). These goals are described in detail in Element 2, below. A copy of MSA-SD's current LCAP is attached in the Appendices.

GOALS FOR ENABLING PUPILS TO BECOME AND REMAIN SELF-MOTIVATED, COMPETENT, AND LIFELONG LEARNERS

The MSA-San Diego program will prepare students for success through middle school and onto high school, post-secondary school and meaningful careers, by providing a rigorous CA standards-based program through integrated math, science and technology themes. The inquiry-based hands-on instructional approach will not only teach young students to "learn to learn" but also prepare them for success in the pursuit of future STEAM careers and interests.

In addition to the Student Learning Outcomes detailed above, MSA-San Diego expects that at least 80% of students who have been enrolled at the Charter School for at least one full academic-year will develop at least *four* of the following *six* lifelong learning and interpersonal skills prior to completing 8th grade:

Representative measurable outcomes and assessment tools for lifelong learning and interpersonal skills

Skills	Learning Objectives	Assessment Tools
Leadership, Collaboration and Cooperation	▪ Incorporate personal management skills on a daily basis. ▪ Effective participation in group decision-making processes. ▪ Work cooperatively with others and be a team player in achieving group goals. ▪ Be able to assume leadership in group tasks.	▪ End of semester teacher evaluations on student behaviors. ▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios of student work, reports and/or exhibits including group assignments.
Self-assessment and Reflection	▪ Describe, analyze and prioritize personal skills and interests that they want to develop. ▪ Describe and effectively use the personal qualities they possess that make them successful members of their school and community. ▪ Recognize their intelligence types and personal learning styles and employ those styles in their learning and personal development.	▪ End of semester teacher evaluations of student behaviors. ▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios of student work, reports and/or presentations scored by the teacher using rubrics.
Goal Setting	▪ Set positive academic and non-academic goals.	▪ End of semester teacher evaluations on student behaviors.

Skills	Learning Objectives	Assessment Tools
	▪ Apply goal-setting skills to promote academic success. ▪ Set post-secondary goals with action steps, timeframes, and evaluation criteria. ▪ Identify the skills and credentials required for a particular profession and prepare accordingly.	▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios of student work, reports and/or presentations scored using rubrics.
Critical Thinking and Problem Solving	▪ Implement stop, think, and act strategies in solving daily life problems. ▪ Generate alternative solutions to problems and predict possible outcomes. ▪ Apply the steps of systematic decision-making in school and life.	▪ End of semester teacher evaluations on student behaviors. ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios of student work, reports and/or presentations scored using rubrics.
Self-discipline	▪ Implement a plan to meet a need or address a challenge based on personal strengths and available support from others. ▪ Explore career opportunities based on their identified interests and strengths. ▪ Show self-esteem based on accurate assessment of self.	▪ End of semester teacher evaluations on student behaviors. ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios, presentations and/or exhibits of student work
Citizenship	▪ Personal honesty and integrity. ▪ Courage to express their views. ▪ Love, respect and loyalty to the United States of America. ▪ Understanding and tolerance towards other societies in the world. ▪ Participate in multicultural and cross-cultural activities.	▪ End of semester teacher evaluations on student behaviors. ▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, and other classes. ▪ Portfolios, presentations and/or exhibits of student work, peer competitions

INSTRUCTIONAL DESIGN

CURRICULAR AND INSTRUCTIONAL DESIGN OF THE EDUCATIONAL PROGRAM: KEY EDUCATIONAL THEORIES AND RESEARCH

As noted above, instructional design is based on three pillars: **Academic Excellence**, **Innovation**, and **Connection**.

We believe in the analysis of learning needs and the systematic development and personalization of learning experiences. STEAM is the platform by which we enhance instruction, increase intrinsic motivation, and make learning relevant through real life connections. MSA-San Diego aims to utilize the latest and most innovative tools to maximize personalization and customization for a superior academic program that is tailored for a student's individual needs by which a passion for learning is created that will be sustainable for life.

Academic Excellence (Scientific Thinkers)	Innovation (Intrinsically Driven and Self-Motivated)	Connection (Socially Responsible Global Citizens)
▪ STEAM Focus ▪ Learning Approaches (Experiential, Constructivist Social	▪ Data-driven Instruction to Ensure High School and College Readiness ▪ Periodic Benchmark Tests ▪ After-school Tutoring	▪ Community Service and Volunteerism, Trips, Speakers ▪ Home Visits ▪ Students achieve self-actualization

Learning, Inquiry and Project-Based Learning) ▪ Effectively Integrating Technology into Teaching and Learning ▪ Public Display of Excellence ▪ Life-long Learning	▪ Individualized scheduling	

INSTRUCTIONAL DESIGN COMPONENTS: EXCELLENCE (SCIENTIFIC THINKERS)

STEAM Focus

A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. **Science** courses immerse students in the scientific method and encourage them to use the applicable technology to plan and organize projects, hypothesize, analyze data, and draw conclusions from experiments they choose and create based on their interests. Science classes employ Technology in laboratory explorations and experimentation. **Technology** is a key component to our instructional delivery model. Each classroom is equipped with laptops (1:1 student to computer ratio) to enable effective blended learning strategies. Computer simulations assist in expanding the number of lab opportunities in all grade levels. A Computer Science Program fuels tech skills development, including programming and sequencing. All courses incorporate **Engineering** design process at all grades as part of the NGSS emphasis. With CA Science Framework and NGSS integration, MSA-San Diego all students learn about **Engineering Design**, technology, and applications of science as part of their core classes. Computer course are offered at all levels and skills are further developed in after school enrichments. Furthermore, **Engineering** is also embedded in electives offered such as robotics. **Arts** instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. Students are assessed for their current knowledge and skill level in **Math** and placed in the most appropriate class (see below).

Effectively Integrating Technology into Teaching and Learning

The Technology Program is a distinguished feature of MSA-San Diego, with highly trained faculty leading engaging instruction. The program enables students to personalize learning practice and integrate all subjects in project-based learning in a fun and meaningful way. This unique program includes:

- Technology courses and curriculum that provides technology tools necessary in the 21st century and develops critical skills that help students succeed in a rigorous high school, gain acceptance to and graduate from a 4-year university with a STEAM major.
- Core class integration projects that require higher order learning and improving critical thinking skills.

Public Displays of Excellence in STEAM

MSA-San Diego students and faculty organize and participate in numerous STEAM competitions. Through various activities, competition days become a targeted event to arouse student interest and celebrate their peers' success. MSA-San Diego offers a variety of after school clubs to students to stimulate interest in and extend knowledge of various subjects covered in the classroom including Computer Applications, Robotics, and Science clubs. Parents are involved in co-facilitating after-school programs and activities.

Life-Long Learning

Based on Delors' (1996) four 'pillars' of education for the future,[17] we believe lifelong learning may be broadly defined as: learning that is flexible, diverse and available at different times and in different places. Lifelong learning crosses sectors, promoting learning beyond traditional schooling and throughout adult life (i.e. post-compulsory education). At MSA-San Diego, we seek to develop diverse learning habits in our students:

Learning to know – mastering learning tools rather than acquisition of structured knowledge

Learning to do – equipping people for the types of work needed now and in the future including innovation and adaptation of learning to future work environments

Learning to live together, and with others – peacefully resolving conflict, discovering other people and their cultures, fostering community capability, individual competence and capacity, economic resilience, and social inclusion

Learning to be – education contributing to a person's complete development: mind and body, intelligence, sensitivity, aesthetic appreciation, and spirituality

MSA-San Diego aims to instill creativity, initiative and responsiveness in our students, thereby enabling them to show adaptability in post-industrial society through enhancing skills to manage uncertainty, communicate across and within cultures, sub-cultures, families and communities, and negotiate conflicts.

Instructional Design Components: Innovation (Intrinsically Driven and Self-Motivated)

Data-Driven Instruction

MSA-San Diego teachers and students use data to make informed decisions. Teachers receive regular professional development and coaching about positive academic intervention, teaching strategies for all learners, and differentiated instruction. Academic, informal and formal information is taken from the following areas: MAP diagnostic data, SBAC Interim formative and summative data, student surveys, and Grade Point Averages. Digital, mastery-based core academic content also permits data-driven intervention by local teachers, coaches, and EL and remediation specialists.

---

[17] Delors, J. (1996) Learning: The treasure within Report to UNESCO of the International Commission on Education for the Twenty-first Century, UNESCO

The online curriculum and real-time assessments allow continuous and individualized pacing as well as flexibility in the number of courses students are offered. Our system generates reports that show profiles of content and skills that students are learning and tracks their progress. This system is combined with diagnostic MAP assessments provide the data necessary to build personalized, realistic, and productive learning plans on a weekly basis for every Magnolia student. Up-to-date and actionable information is an essential part of the integrated academic and social foundation of the school's culture and is requisite to adequate support for students' learning (Blum, 2004). Research shows that low-performing students benefit from personalized learning plans that address their specific area(s) of deficiency.[18]

Periodic Benchmark Tests

MSA-San Diego uses NWEA's computer-adapted tests, called MAP, to evaluate student learning and to differentiate instruction to meet student needs. These campus-wide tests are used to measure individual levels of student performance reflected in CCSS. They also measure various skills, such as analytic ability, critical thinking, and synthesis. While the MAP testing is not used as a basis for student promotion, it does provide a valuable resource to identify students in need of remediation and intervention.

MAP is administered in the fall and spring of every academic year in Reading, Language Usage, Mathematics and Science. With a large norm reference group (more than 2 million), MAP reports provide highly accurate feedback as how students are performing. The assessments adapt to the student's ability, accurately measuring what a child knows and needs to learn. MAP measures academic growth over time, independent of grade level or age. MAP test results are also used to identify the skills and concepts individual students have learned, diagnose instructional needs, monitor academic growth over time, make data-driven decisions, and place new students into appropriate courses.

After-School Tutoring

MSA-San Diego offers free after-school tutoring to all students. Our tutoring program provides students with a safe, small-group environment in which they can receive personalized attention from their teachers, as well as access the resources needed for successfully completing their assignments. Individual and small group tutoring as well as homework clubs are available. Students identified as low achieving attend intensive obligatory after school programs tailored towards each student's needs. This specialized strategy provides the opportunity for struggling students to master the relevant subject's content standards. Low achieving students' progress is quantitatively measured through NWEA MAPs, myON Reader, and My Math tests with the goal of attaining at least one year's academic progress within the school year.

(2004). Working inside the black box: Assessment for learning in the classroom. *Phi Delta Kappan*, 86(1), 9–22; Legters, Balfanz & McPartland, *Solutions for Failing High Schools: Converging Visions and Promising Models*. Office of Vocational and Adult Education (ED), Washington, DC. 2002-03-01; Watson & Gemin, 2008, Using Online Learning for At-Risk Students and Credit Recovery. Promising Practices in Online Learning, North American Council for Online Learning (2008).

MSA-San Diego after school program structure

Students in need of English Language Development ("ELD") support	→	ELD tutoring:	Computer-aided grammar, vocabulary, reading, writing, listening and speaking
Students in need of core class support	→	Tutoring program for core classes:	Mathematics, Science, English-Language Arts and History-Social Science
All students	→	After-school clubs:	SCIFUN, Guitar, SeaPerch, Gaming, Cross Country, Math, Archery, Crochet and Knitting, etc.

Students demonstrating adequate improvement can advance to a satisfactory level where they are provided moderate tutoring sessions and various fun opportunities, such as recreational clubs, and community trips. For those under-achieving students who do not positively respond to this teaching method, the homeroom teachers may decide to include them in different recreational activities to promote students' interest in learning.

Instructional Design Components: Community (Socially Responsible Global Citizens)

MSA-San Diego believes that all change begins through partnerships between the home and school community. In our attempt to teach our students the values of community engagement, citizenship, and global awareness, we hope to engrain and cultivate a love for community, an understanding of the importance of our societal contributions, and a greater awareness of self, relative to the global community. In doing this, we affect change through our actions and interactions. We are a family and we are committed to the growth and development our students and the communities in which they live, in order to enrich the global society.

Life Skills Program

Life Skills is an enrichment program that provides students with valuable skills to support academic excellence and social skill development, and includes topics on social and emotional learning, study skills, environmental issues, conflict resolution, making responsible choices, self-discipline, college and career awareness and character education. Students participate in activities/projects to demonstrate their understanding of the values/lessons. Guest speakers and various forms of technology also engage students in the course content. Life Skills themes are integrated into broader school-wide activities including assemblies, instructional field trips, displays, announcements, and into the general curriculum. Parents are regularly informed about the Life Skills topics to support our effort to inspire positive principles of conduct in future leaders. The program also enables all students, including our most "at-risk" students, to have a vision and be more specific on their goals to be successful at school and during their life.

Instructional Field Trips and Guest Speakers for Motivation

Instructional field trips are intended to allow students to gain insight, information, or knowledge that cannot be adequately developed through regular classroom instruction. Instructional field trips, therefore, are an integral part of the curriculum and are as essential to the instructional process as textbooks, equipment, and other instructional devices and teaching/learning strategies. Since not all children learn in the same way, instructional field trips allow students the opportunity to expand their intelligence in ways different from those typically available inside the classroom.

Visiting the Museum of Tolerance and learning about history, or participating at High Tech Faire, or learning about ecosystems at the San Diego Zoo, and meeting with experts in different fields during these instructional field trips or through guest speakers on campus motivates our students. Especially when some of these guest speakers or people they meet during instructional field trips share the same culture with students, students find new role models. While most instructional field trips are directly related to specific, academic curricula, they also may address the need for intra- and inter- personal growth in children, and thus may be designed to promote social and emotional development and to provide for the development of the "whole" child.

Home Visits

Research has shown that one of the keys to successful teaching and schooling is creating personal connections with students inside and outside of school. Knowing the students' outside interests, families, and home routines, and then using this information to connect in meaningful, individualized ways can have huge rewards in helping to create happier, healthier, and smarter kids. Recognizing these facts, MSA-San Diego uses home visits as one of the important features of its education program to not only improve student and school performance, but also to identify and intervene early with low-achieving students.

MSA-San Diego teachers visit students at their homes to enhance student learning and involvement. Family visits offer invaluable insights about students. They can provide new understanding about students' learning styles. Visits might also reveal the emotional and social needs and behaviors of students. It is helpful to know if they react to problems with tears, anger, or withdrawal, and how they socialize with peers. Through family visits, teachers can identify students' latest interests or concerns, such as a new hobby, an upcoming trip, or a change in the family.

CURRICULUM AND INSTRUCTION

All curricula at MSA-San Diego is based on the California state standards, including but not limited to the Common Core State Standards, and the Next Generation Science Standards. Starting in 2019-20, MSA-San Diego will begin to implement the new 2019 *California Arts Standards for Public Schools, Prekindergarten Through Grade Twelve (Arts Standards)*, 2019 *California World Languages Standards for Public Schools, Prekindergarten Through Grade Twelve* (when

published) and *2019 Health Education Curriculum Framework for California Public Schools, Transitional Kindergarten Through Grade Twelve* (*Health Education Framework*), (when published). Teachers use the state-published Frameworks for Instructional Design in developing curriculum pacing and lesson plans.

Students in grades 6-8 are required to take core classes in Mathematics, Science, English-Language Arts and History-Social Science. Electives are offered in Math and ELA (for additional support or challenge), Languages Other than English, Visual and Performing Arts, Physical Education, Computers and Technology, Sustained Silent Reading ("SSR"), and other electives. MSA-San Diego offers all students one period of Life Skills per week.

All students who are English Learners receive both integrated and designated English Language Development through a state approved curriculum and the California English Language Development Standards. The program and curriculum for our school's English Learners is described in detail in the sections below.

MATHEMATICS

The math curriculum at Magnolia is based on the *California Common Core State Standards: Mathematics* and reflects the importance of focus, coherence, and rigor as the guiding principles for mathematics instruction and learning. These standards are fully implemented and assessed as a commitment to providing a world-class education for all students that supports college and career readiness and the knowledge and skills necessary to fully participate in the twenty-first-century global economy.

The CCSS call for learning mathematical content in the context of real-world situations, using mathematics to solve problems, and developing "habits of mind" that foster mastery of mathematics content as well as mathematical understanding. The CCSS in Math for grades 6-8 prepare students for higher mathematics at the high school level that are necessary to prepare students for college and careers and productive citizenship.

Math instruction at MSA-San Diego focuses deeply on the concepts that are emphasized in the standards so that students can gain strong foundational conceptual understanding, a high degree of procedural skill and fluency, and the ability to apply the mathematics they know to solve problems inside and outside the mathematics classroom. Coherence is provided through mathematical connections. Some of the connections in the standards knit topics together at a single grade level. Most connections are vertical, as the standards support a progression of increasing knowledge, skill, and sophistication across the grades. Teachers approach conceptual understanding, procedural skill and fluency, and application with equal intensity, providing instruction with rigor and relevance. In short, the math instruction at MPS meets the challenges of the 21st century through innovation.

MSA-San Diego offers an integrated math pathway of courses, aligned with new CCSS Math standards and "best practices" in math learning and instruction.[19] In determining the mathematics course placement, the Charter School systematically takes multiple objective academic measures of student performance into consideration, including:

- Statewide mathematics assessments, including interim and summative assessments through the CAASPP;
- Placement tests that are aligned to state-adopted content standards in mathematics;
- Recommendation, if available, of each student's prior year mathematics teacher based on classroom assignment and grades;
- Recommendation, if any, of each student's current grade mathematics teacher based on classroom assignments and grades provided at the beginning of the school year;
- Final grade in mathematics on the student's official, end of the year grade report card;
- Results from all placement checkpoints, including at least one (1) placement checkpoint within the first month of the school year.

In Accelerated Pathway 1, grades 6, 7, and 8 are compacted into grades 7 and 8 (a 3:2 compaction). In Accelerated Pathway 2, grades 6, 7, and 8 are compacted into grades 6 and 7 (a 4:2 compaction). Math 8 is bridged between grades 6 and 7 with the option of a summer math bridge course.

Pathway	Grade 6	Grade 7	Grade 8
Regular Pathway	Math 6	Math 7	Math 8
Accelerated Pathway 1	Math 6	Accelerated Math 6/7/8	Accelerated Math 6/7/8
Accelerated Pathway 2	Accelerated Math 6/7/8	Integrated Math I	Integrated Math I

In some cases, entering sixth graders may be capable of beginning high school Integrated Math I and MPS is eager to accommodate these gifted students.

MATHEMATICS	
MATH 6 (Core, College preparatory)	**MATH 7** (Core, College preparatory)
In Grade 6, instructional time will focus on four critical areas: (1) connecting ratio and rate to	In Grade 7, instructional time will focus on four critical areas: (1) developing understanding of and

[19] Depending on students' math backgrounds and surrounding schools' pathways, MPS may elect to follow the traditional mathematics pathway over the integrated mathematics pathway.

whole number multiplication and division and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking.	applying proportional relationships; (2) developing understanding of operations with rational numbers and working with expressions and linear equations; (3) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; and (4) drawing inferences about populations based on samples.
MATH 8 (Core, College preparatory)	**ACCELERATED (Honors) MATH 6/7/8** (Core, College preparatory)
In Grade 8, instructional time will focus on three critical areas: (1) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (2) grasping the concept of a function and using functions to describe quantitative relationships; (3) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.	This course compacts 6th and 7th grade standards and it contains content from 8th grade. While coherence is retained, in that it logically builds from the 6th grade, the additional content when compared to the non-accelerated course demands a faster pace for instruction and learning. Content is organized into four critical areas, or units. The Mathematical Practice Standards apply throughout each course and, together with the CCSS, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.
INTEGRATED MATHEMATICS I (Core, College preparatory)	
The fundamental purpose of Mathematics I is to formalize and extend students' understanding of linear functions and their applications. The critical topics of study deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. Students build on their prior experiences with data, developing more formal means of assessing how a model fits data. Students use regression techniques to describe approximately linear relationships between quantities. They use graphical representations and knowledge of the context to make judgments about the appropriateness of linear models. With linear models, they look at residuals to analyze the goodness of fit. Mathematics I uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades.	

SCIENCE

The Charter School's curriculum is based on the state framework and state standards following Next Generation Science Standards. Students at MSA-San Diego explore NGSS-aligned Disciplinary Core Ideas ("DCI") in Physical Sciences, Life Sciences, Earth and Space Sciences, and Engineering, Technology, and Applications of Science in the cross-curricular units and programs. Within each domain, the framework describes how a small set of disciplinary core ideas has been developed. Each core idea is then broken into three or four component ideas that provide more organizational development of the core idea.

The science program at MSA-San Diego uses hands-on science curriculum that is formulated using inquiry-based research topics. From the earliest grades, students experience science in a form that engages them in the active construction of ideas and explanations that enhance their opportunities to develop the abilities of doing science. The middle school curriculum will ensure that science is integrated into the lessons and activities.

Inquiry and exploration are the basis of each curriculum unit in science classes. Key questions are given to students and the emphasis is on the process and the questions to be asked, rather than focusing on a finite answer or "drill and kill" activities. Students build on their understanding of science concepts, learn to apply the scientific method, and use technology in laboratory explorations and experimentation. In the process, depth over breadth is emphasized and students become self-reliant, independent problem-solvers. We employ an integrated science curriculum, in accordance with the Next Generation Science Standards. Courses are designed to focus on development of a "scientific mind" through student use of scientific strategies. This process takes place within each unit of study via the students hypothesizing, researching, experimenting, observing and inferring.

<table>

</table>

Students at MSA-San Diego also have off-campus field trip experiences and meet with professionals in STEAM areas during these instructional field trips or through guest speakers on

campus. These experiences deepen and enhance classroom study and enhance students' vision of science.

English Language Arts

English Language Arts curriculum is literature-based and emphasizes skills and knowledge students need as readers, writers, speakers and listeners in the 21st century. Conventions of writing are emphasized in daily written homework and lab assignments. Students taking advanced world language will also be encouraged to study works written in that language, e.g., Spanish. The curriculum incorporates a period of Sustained Silent Reading as part of the daily curriculum. Accelerated Reader by Renaissance Learning is utilized to personalize reading practice to each student's current level, maximizing its effectiveness.

MSA-San Diego also is using the online/blended learning Study Sync program, an intentional, connected literacy program that integrates reading, writing, and review into a comprehensive, standards-aligned platform, designed to advance critical thinking, reading, writing, language, speaking and listening skills, and address critical language standards. Study Sync's curriculum ensures rigorous, focused core ELA/ELD instruction and standards-based assessment, which draws students into texts and informational content with dramatic, movie-like previews, award-winning Study Sync® TV episodes modeling appropriate student discussion and collaboration, SkillsTV videos exploring literacy concepts with relatable student narrators, and social media-like current events Blasts discussions. By integrating technology experiences that students crave, students gain knowledge and skills in ways that relate to their world. Learning supports are embedded throughout for all levels of learners, including reluctant and advanced readers, and EL students, with scaffolding based on students' reading abilities with customizable writing prompts, rubrics, and assessments.

The middle school reading curriculum is integrated into all content areas. Students progress through a literature-based and CCSS-based reading and curriculum emphasizing balanced literary practices. The curriculum begins with basic phonics skills, such as phonemic awareness, rhyming, blending and decoding words to sounding out unfamiliar words, discovering words and meaning from context, and recognition of irregularly spelled words for our EL students. The curriculum increases in levels to meet the needs of all students. Fluent reading and strong comprehension skills are the focus of the Charter School's curriculum. Teachers emphasize close reading and informational text.

Writing serves as an important vehicle for learning, and MSA-San Diego students are given writing assignments frequently to reinforce learning and enhancing understanding. We believe that students must be able to express themselves clearly through writing in every subject. As the common core writing standards phrase it, "For students, writing is a key means of asserting

and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt."[20]

The middle school writing curriculum is integrated into all content areas. This includes literature and science-based readings with emphasis on six traits of writing: voice, sentence fluency, organization, ideas, word choice, and conventions. Students practice various forms of writing, including personal narrative, exposition, letters, newspaper reporting, plays, poetry, short stories, biographies, directions, formal scientific reporting, scientific observation, realistic and fantasy stories. The principles and applications of correct grammar are incorporated into writing exercises.

ENGLISH LANGUAGE ARTS 6 (Core, College preparatory)	**ENGLISH LANGUAGE ARTS 7** (Core, College preparatory)
Students in sixth grade focus on active engagement with text. They are required to analyze, identify, define, explain, integrate, evaluate, compare, contrast, and cite supportive evidence—developing and building upon those skills that were required in fifth grade. Deeper analysis of literature and informational text continues to be the focus of sixth-grade instruction, although reading fluently and accurately remains a CCSS-based goal for all students. Students' understanding of the precise meaning of words, English instruction is critical language conventions, structural features of informational text and materials, and to developing fundamental elements of literature all support greater comprehension of what they read, students' literacy and see, and hear.	In seventh grade, the English language arts CCSS establish a higher level of communication skills and comprehension strategies. Students demonstrate a growing understanding by connecting ideas and information in two or more texts and analyzing and evaluating textual evidence more carefully. Their writing reflects both a deeper understanding of texts and the interrelationship between reading and writing as they draw evidence to support their claims and convey concepts and ideas. Seventh-grade students build on their communication and collaboration skills from earlier grades. As they engage in collaborative discussions, they are able to acknowledge and analyze new information and, when appropriate, modify their own view based on the new information. Students continue to acquire and use general academic language and domain-specific vocabulary. They also learn to use precise and concise language to express themselves in their speaking and writing.
ENGLISH LANGUAGE ARTS 8 (Core, College preparatory)	
In preparation for high school and beyond, students in eighth grade must have a firm grasp of skills to be a literate person in the twenty-first century. They read and respond to significant works of literature and examine how modern works of fiction draw on traditional themes and characters. Given informational text, students read critically the arguments and specific claims in a text, assessing whether the author's evidence is reasoned and sufficient in addressing conflicting evidence and viewpoints. Students, working on their own and with others, produce clear and coherent texts appropriate to the task, purpose, and audience. Students connect their reading to their writing by drawing evidence from literary and informational texts when writing analyses or short research projects. Eighth-grade students build on the communication and collaboration skills from earlier	

[20] http://www.corestandards.org/assets/CCSSI_ELA%20Standards.pdf

grades. As they engage in collaborative discussions, they probe and reflect on discussion topics and are able to justify their own views in light of evidence presented by others. Students continue to acquire and accurately use general academic language and domain-specific vocabulary. They recognize when it is important to know the precise meaning of a word in order to comprehend a text and call upon a range of strategies to determine word meanings.
ENGLISH LANGUAGE DEVELOPMENT (Non-core, Non-college preparatory)
The course focuses on reading, writing, speaking, and listening. Students participate in extensive listening and speaking exercises. The course covers basic structures of the English language. Students' progress from an elementary understanding of English words and verb tenses to a more comprehensive grasp of various formal and informal styles. The course may include an orientation to the customs/cultures of people in the U.S.

Sustained Silent Reading Program

All students participate in Sustained Silent Reading for 30 minutes a day, every day.

SUSTAINED SILENT READING (SSR) PROGRAM
This course focuses on restorative practice in a homeroom setting. Classroom community is built through RP circles, team building, and social emotional learning lessons. In addition, this multi-grade level course offers students the opportunity to become peer mentors as they work on Khan Academy MAPPERS for math and reading skill support via NewsELA and silent reading time.

History/Social Science

The History/Social Science curriculum is aligned with the state framework and offers students grounding in local, California, and United States history and an understanding of the development and operation of the three levels of government. The curriculum also introduces world history through literature, culture, arts and current events. The social science curriculum focuses on inquiry-based questions to explore topics using research and critical thinking skills. Students use and evaluate primary sources, historical documents, and the Internet to responsibly and critically access information.

History/Social Science courses at MSA-San Diego use inquiry-based research topics involving real-world problems, with a focus on local current events, history and culture. In accordance with the National Council for the Social Studies,[21] social studies courses aim to prepare students to identify, understand, and work to solve the challenges facing our diverse nation in an increasingly interdependent world. Education for citizenship should help students acquire and learn to use the skills, knowledge, and attitudes that will prepare them to be competent and responsible citizens throughout their lives. Competent and responsible citizens are informed and thoughtful, participate in their communities, are involved politically, and exhibit moral and civic virtues.

[21] Source: http://www.ncss.or/positions/powerful

HISTORY/SOCIAL SCIENCE 6 (Core, College preparatory)	**HISTORY/SOCIAL SCIENCE 7** (Core, College preparatory)
Students in sixth-grade world history and geography classrooms learn about the lives of the earliest humans, the development of tools, the gathering way of life, agriculture, and the emergence of civilizations in Mesopotamia, Egypt, the Indus River valley, China, and the Mediterranean basin. With the guidance of their teachers, students review the geography of the ancient and contemporary worlds and recognize that these civilizations were not static societies but continually experienced change. In addition to developing basic geography skills, students are introduced to patterns, systems, and processes of physical and human geography. In studying this earliest history of humankind, students will have the opportunity to explore different kinds of source documents, such as the Hebrew Bible, Mesopotamian laws, the Homeric epics, Greek drama, the Bhagavad Gita, the Analects of Confucianism, the New Testament, and a range of visual images.	The medieval period provides students with opportunities to study the rise and fall of empires, the diffusion of religions and languages, and significant movements of people, ideas, and products. Students trace the development of medieval civilizations and make connections with regional and present-day world maps. Students identify several major changes that took place during medieval and early modern times. Students explore change in every inhabited part of the world during this period using source documents and evidence from archaeology. Students can use the knowledge they gain in this course to create a school project that promotes understanding of diverse cultures.
HISTORY/SOCIAL SCIENCE 8 (Core, College preparatory)	
The eighth-grade course of study begins with an intensive review of the major ideas, issues, and events preceding the founding of the nation. Students concentrate on the critical events of the period—from the framing of the Constitution to the American Industrial Revolution. In their study of this era, students view American history through the lens of a people who were trying—and are still trying—to make the words of the Declaration of Independence true. Students will confront themes of equality and liberty and their changing definition over time. This course also explores the geography of place, movement, and region, starting with the thirteen colonies and then continuing with American westward expansion, and economic development, including the shift to an industrial economy.	

Language Other Than English

In grades 6 through 8, students are offered languages other than English as elective courses depending on student needs/demands and availability of teachers and resources.

LANGUAGE OTHER THAN ENGLISH	
BEGINNING SPANISH (Non-core, Non-College preparatory) 6/7	**SPANISH LEVEL 1** (Non-core, Non-College preparatory) 8th
This semester-long course is designed to teach students about the language and culture of the Spanish and Latin American people. Students learn to appreciate the Spanish and Latin	This year-long course enables students to further develop their fundamental reading, writing, listening, and speaking skills in the Spanish language. In addition, emphasis is placed on

American cultures by acquainting students with art, literature, customs, and history of the Spanish-speaking people.	communication, basic grammar and syntax, and simple vocabulary. Students learn to appreciate the Spanish and Latin American cultures by acquainting students with art, literature, customs, and history of the Spanish-speaking people. The instruction for this series of courses is guided by the National Standards for Learning Languages, which are aligned with the CCSS.

Visual & Performing Arts

In grades 6 through 8, students are offered Visual & Performing Arts courses as electives.

VISUAL & PERFORMING ARTS
INTRODUCTION TO FUNDAMENTALS OF ART (Non-core, Non-college preparatory) 6/7
This semester-long is a basic course in the fundamentals of art expression. In this course students perceive and respond to works of art, objects in nature, events, and the environment. They also use the vocabulary of the visual arts to express their observations. Students apply artistic processes and skills, using a variety of media to communicate meaning and intent in original works of art. Students analyze, assess, and derive meaning from works of art, including their own, according to the elements of art, the principles of design, and aesthetic qualities.
FUNDAMENTALS OF ART (Non-core, Non-college preparatory)
This is a basic course in the fundamentals of art expression. The California Visual and Performing Arts Standards guide the instruction for this course. In this course students perceive and respond to works of art, objects in nature, events, and the environment. They also use the vocabulary of the visual arts to express their observations. Students apply artistic processes and skills, using a variety of media to communicate meaning and intent in original works of art. They analyze the role and development of the visual arts in past and present cultures throughout the world, noting human diversity as it relates to the visual arts and artists. Students analyze, assess, and derive meaning from works of art, including their own, according to the elements of art, the principles of design, and aesthetic qualities. Students also apply what they learn in the visual arts across subject areas. They develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. They also learn about careers in and related to the visual arts.
BAND (Non-core, Non-college preparatory) 6/7/8
Band is a year-long course where students will explore music's functionality in order to gain a deeper understanding and appreciation for their chosen instruments. Students will learn to read notes and work as an ensemble to perform at events. Class activities emphasize the development of instrument technique, tone production, tuning, fundamentals of music theory, music reading, and listening skills.

Health and Physical Education

In grades 6 through 8, students are offered Physical Education courses as electives.

HEALTH AND PHYSICAL EDUCATION
PHYSICAL EDUCATION (Non-core, Non-college preparatory)

Courses offered in the Health and Physical Education department are designed to help the students develop psychomotor skills such as fundamental movement patterns, sports skills, and the five components of physical fitness. In addition, students' will develop a positive self-image and the ability to work with other classmates. The curriculum includes sports such as basketball, volleyball, football, soccer, track and field, softball, cooperative/teamwork games, mile run/mile and a half run, anaerobic activities, warm-up (Jogging or J.J.), stretching, push-ups, abdominal exercises, jump-rope, fun trust/games.

The Health and Physical Education program consists of students in grades six through eight. Students will participate in skill building activities, introduction to sports and activities, and physical activities that link to the exploration of culture and history. The goal is to develop a lifelong program of activity to develop and maintain healthy habits and wellness. These courses are based on the Health and Physical Education Model Content Standards for California Public Schools and will adopt the new 2019 Health Education Framework when it is published.

Computers & Technology

MSA-San Diego implements computer literacy and computer science programs. In grades 6 through 8, students are offered Computers & Technology courses as electives.

COMPUTERS & TECHNOLOGY
INTRODUCTION to ROBOTICS/ENGINEERING (Non-core, Non-college preparatory) 6/7
This semester-long course provides students with an introduction to foundational knowledge of robotics and engineering. Students will explore topics of human computer interaction, problem solving, web design, computer programming, data modeling, engineering and robotics. Throughout the course, students will understand the algorithmic underpinnings of computer applications and gain technical expertise using computational tools.
ROBOTICS/ENGINEERING (Non-core, Non-college preparatory) 8th
This year-long course provides students with a more intermediate knowledge of robotics and engineering. Students dive deeper into the topics of human computer interaction, problem solving, web design, computer programming, data modeling, engineering and robotics. Throughout the course, students will understand the algorithmic underpinnings of computer applications and gain technical expertise using computational tools.

Study Skills Program

MSA-San Diego implements a study skills program that which allows students to learn college and career skills.

STUDY SKILLS PROGRAM 6/7/8
PERSONALIZED LEARNING TIME/ SELF-DIRECTED LEARNING (Non-core, Non-college preparatory)

This course is dedicated for students to learn content by developing the skill sets necessary to be college- and career-ready. Students plan and prioritize their learning based on their individual goals. Students move at their own pace and receive support from their teachers/mentors and peers. This course focuses on the development of executive functioning skills as well as assistance in meeting school deadlines on classroom assignments.

CURRICULAR AND INSTRUCTIONAL MATERIALS

MSA-San Diego utilizes California State Board of Education adopted instructional materials aligned with CCSS/NGSS. The MPS Home Office works with teacher leaders to identify, evaluate, and select appropriate materials and to make modifications to core and additional instructional resources. Current curricula include:

Math: McGraw Hill; *Enrichment/Intervention:* McGraw Hill, ALEKS, Ironbox (6-8), Glencoe Math Accelerated, Curriculum Associates' Ready Common Core, EngageNY, Singapore Math; Renaissance Learning Accelerated Math Program, Khan Academy, MyOn
Science: McGraw Hill; Integrated iScience
English Language Arts/ELD: McGraw Hill; McGraw Hill Study Sync; MyOn; ELD Program-National Geographic Learning, Inside (6-8); *Enrichment/Intervention:* McGraw Hill, FLEX Literacy, Renaissance Learning Accelerated Reader Program, Rosetta Stone, BrainPOP ESL, Duolingo, No Red Ink
Social Science: McGraw Hill, Networks; *Enrichment/Intervention:* Teachers' Curriculum Institute's (TCI) History Alive! Middle School Program
Spanish: Asi Se Dice! Level 1

Teachers are invited to utilize a myriad of additional resources online and in print, in consultation with the Principal and leadership team.

COMPREHENSIVE COURSE LIST

The following courses are offered at MSA-San Diego; course offerings may be changed based on student interests and needs (e.g., alternative electives, additional remediation courses), as determined by the Principal and teacher leaders.

MSA-San Diego Middle School Course	
Name	Grade
Band	6th, 7th, 8th
English Language Arts 6	6th
English Language Arts 7	7th
English Language Arts 8	8th
English Language Development	6th, 7th, 8th
Introduction to Fundamentals of Art	6th, 7th
Fundamentals of Art	8th

Life Skills 6	6th
Life Skills 7	7th
Life Skills 8	8th
Math 6 - Common Core	6th
Math 7- Common Core	7th
Math 8- Common Core	8th
Accelerated (Honors) Math	6th, 7th, 8th
Math-Integrated Math I	8th
Physical Education	6th, 7th, 8th
Introduction to Robotics/Engineering	6th, 7th
Robotics/Engineering	8th
Integrated Science 6	6th
Integrated Science 7	7th
Integrated Science 8	8th
Beginning Spanish	6th, 7th
Spanish Level 1	8th
SSR	6th, 7th, 8th
Study Skills	6th, 7th, 8th

INSTRUCTIONAL METHODS AND STRATEGIES

As detailed in the preceding sections, our instructional methods and strategies are based on success with similar populations of students and our 18-year history. All MSA-San Diego faculty members use the *Understanding By Design* ("UBD") model to backwards plan instruction, including differentiation for students in need of specific supports. As noted in the section on Professional Development, below, we ask all faculty to read the following seminal works: Alan Blankstein, *Failure Is Not an Option: 6 Principles That Advance Student Achievement in Highly Effective Schools*; Dr. Robert Marzano's *Classroom Management That Works: Research-Based Strategies for Every Teacher*; Carol Ann Tomlinson's *How To Differentiate Instruction In Mixed-Ability Classrooms*, and Doug Lemov's *Teach Like A Champion*.

We emphasize integration of the curriculum with cross-disciplinary learning on a daily basis. Teachers strive to make learning relevant and engaging for all students by employing a constructivist, project-based approach. Methods include a frequent emphasis on real world,

practical applications of learning, and employ inquiry, research, reflection, problem-solving, and critical thinking. As they master content, students learn *how* to learn. Instruction is deeply rooted in thematic integrated instruction, including application-oriented activities such as projects that require students to utilize skills and knowledge from ELA, science, math, history, the arts, computer/technology and more. Often interactive and rooted in collaboration, the approach makes assignments meaningful and engaging and concepts authentic. Technology is integrated throughout the curriculum to ensure students develop the skills needed in college and career.

WESTERN ASSOCIATION OF SCHOOLS AND COLLEGES ("WASC")

MSA-San Diego is accredited by WASC through June 2025. MSA-San Diego will follow up and complete all necessary steps for accreditation beyond June 2025.

ACADEMIC CALENDAR AND SCHEDULES

Academic Calendar

MSA-San Diego announces its annual calendar before the beginning of each instructional year. The MSA-San Diego Instructional Calendar and bell schedules exceed the minimum number of minutes as set forth in Education Code section 47612.5, and the number of school days required by *California Code of Regulations,* title 5, section 11960.

MSA-San Diego's academic year includes 180 instructional days, with 125 regular days, 29 Wednesday "early release" days for teacher professional development and collaboration, and 26 Minimum Days for parent/teacher conferences. At a minimum, teachers attend four MPS-wide professional development days during the school year (two in summer and two during the year) and five additional professional development days held at their school site prior to the beginning of the school year for collaborative planning and training.

Following is a detailed calendar for 2019-20, followed by a more summary draft instructional calendar for the 2020-21 school year.

Magnolia Science Academy San Diego | 2019-2020 CALENDAR

Daily Schedules

Regular Day (Monday, Tuesday, Thursday, Friday) 8:15 am to 3:00 pm
Shortened Day (Wednesday) 8:15 am to 2:00 pm
Minimum Day 8:15 am to 12:45 pm

PROFESSIONAL DEVELOPMENT

TEACHER RECRUITMENT

The Principal establishes a hiring committee that may consist of the Principal, Dean of Academics, Dean of Students, Dean of Culture, and a teacher of the relevant grade or subject from MSA-San Diego. The Home Office staff joins the school-level hiring committee as needed. If applicable, the interview process includes, but is not limited to, a sample lesson through which prospective teachers' classroom management skills and subject competency are observed. In addition, teachers' technology and computer skills are tested and MSA-San Diego's years-of-success in hiring qualified teachers has proven this process to be very effective. The following schedule is used in the hiring process:

- In order to recruit new teachers, the Principal with the support of Human Resources starts advertising on frequently visited websites such as edjoin.org, teachers-teachers.com, MPS Careers website and in local newspapers by the beginning of February. Referrals from MSA-San Diego's staff and parents will also be taken into consideration.
- The hiring committee conducts interviews during the months of February through August to hire the teachers. The hiring committee considers the Charter School's mission and the target student population in selecting the most qualified teachers for the positions available. (Detailed job descriptions are included in Element 5.)

Professional Development

Professional development occurs at the MPS organizational level and within each school. In addition to ongoing professional development activities that support efforts to increase student academic performance, MSA-San Diego provides all staff with multiple opportunities to grow professionally. MSA-San Diego assesses staff professional development needs through formal and informal performance observation and surveys. Based on these data and combined with ongoing improvement planning (i.e., the annual LCAP update), MSA-San Diego determines common staff development days, and tailors staff development to individual staff needs.

Professional Learning Communities ("PLCs")

MSA-San Diego is organized into Professional Learning Communities by grade level and by department. PLCs seek to transform a school into a community that fosters mutual cooperation, emotional support, personal growth, and a synergy of effort. Combined with the school improvement plans in our Single Plan for student Achievement, the answers to the following questions are studied in PLCs:

- How do we ensure that students learn?
- How do we foster a culture of collaboration?
- How do we ensure results?

We use PLCs to:

- Clarify intended outcomes
- Develop common assessments
- Jointly analyze student achievement data
- Establish team improvement goals
- Share best practices and materials
- Engage in collective inquiry and action research regarding student learning
- Support system and sense of efficacy
- Promote more engaged, motivated, and successful students with reduced absenteeism
- Focus on students' needs academically and behaviorally

As an implementation of the PLC at MSA-San Diego, all staff read educational literature and make informed recommendations for school and system-wide improvement. The staff produce

an annual reading list recommended by the PLCs. The following literature are required on MSA-San Diego's staff reading list: Alan Blankstein, *Failure Is Not an Option: 6 Principles That Advance Student Achievement in Highly Effective Schools*; Dr. Robert Marzano's *Classroom Management That Works: Research-Based Strategies for Every Teacher*; Carol Ann Tomlinson's *How To Differentiate Instruction In Mixed-Ability Classrooms*, and Doug Lemov's *Teach Like A Champion*.

School-wide Meetings and Professional Development Activities

Department Level Staff Meetings

All teachers meet departmentally every month to:

- Share Time: Presentation by a member on an effective classroom strategy
- Vertically align curriculum
- Analyze student achievement data (NWEA MAP, CAASSP/CAA, CAST, ELPAC, online blended learning data, grades)
- Improve instructional strategies per data indicators
- Differentiate instruction
- Plan major departmental events
- Discuss other departmental issues and policies

Department Chairs are responsible for minutes and forwarding action items to the appropriate administrative leaders.

Grade Level Staff Meetings

Grade level teachers meet once a month and collaborate on the issues below:

- Classroom strategies
- Sharing promising practices
- Curricular and academic issues (grading uniformity, homework load, differentiation, and other academic issues)
- Support for students with academic challenges (IEP, 504, MTSS, SSR, Accelerated Reader, Accelerated Math, Tutoring)
- Discussion of student academic supports (peer tutoring, mentorships)
- Long-term projects (science fair projects, English & history & math projects)
- Integration/thematic units/horizontal alignment of the curriculum
- Instructional field trips
- Discussions and strategies for students with behavioral problems
- School/grade level wide incentive programs
- Other common grade level and school wide issues

Grade Chairs are responsible for minutes and forwarding action items to the appropriate administrative leaders.

Wrap Up Meetings

MSA-San Diego staff participates in end-of-the-year meetings to focus on evaluation of student achievement data, effectiveness of the programs such as testing, curriculum, and intervention

programs, counseling, after school, and other school matters. These meetings help staff prepare a professional learning plan for themselves and review what worked well during the school year. These plans and feedback are addressed in the summer in–service program.

Summer In-Service Programs
MSA-San Diego holds orientations and trainings for both new and veteran teachers to familiarize them with policies and procedures regarding the Charter School's operations, and the academic and education program goals for the year. A teacher workshop/summer in service program is held in August with two days of intensive training, after which teachers continue their training and collaboration at their school sites and communicate with each other via grade level and subject area email groups.

Peer Observations
MPS believes that every effective teacher is a reflective practitioner who continually evaluates the effects of his or her choices and actions on others (students, parents, and other professionals in the learning community) and who actively seeks out opportunities to grow professionally. Therefore, each teacher is required to make monthly class visits to other teachers' classrooms to observe effective strategies and reflect on his/her observations by using peer observation beneficiary forms. These forms are used to create a professional development plan for individual growth.

Formal Observations/Evaluations
All teachers are observed in the classroom by department chairs and the administrative team (Dean of Academics, Principal and Chief Academic Officer). A rubric guides observation and allows for the development of constructive feedback. MPS' formal teacher evaluation program is comprehensive and includes an evaluation of academic performance of their students. All teachers are evaluated annually. A pre-conference and post conference are scheduled for each of the evaluations.

Walkthroughs
MPS administration/Department Chairs make regular walkthroughs in each teacher's classroom. This quick and informal visit provides teachers immediate and constructive feedback in specific areas to improve instruction and student learning.

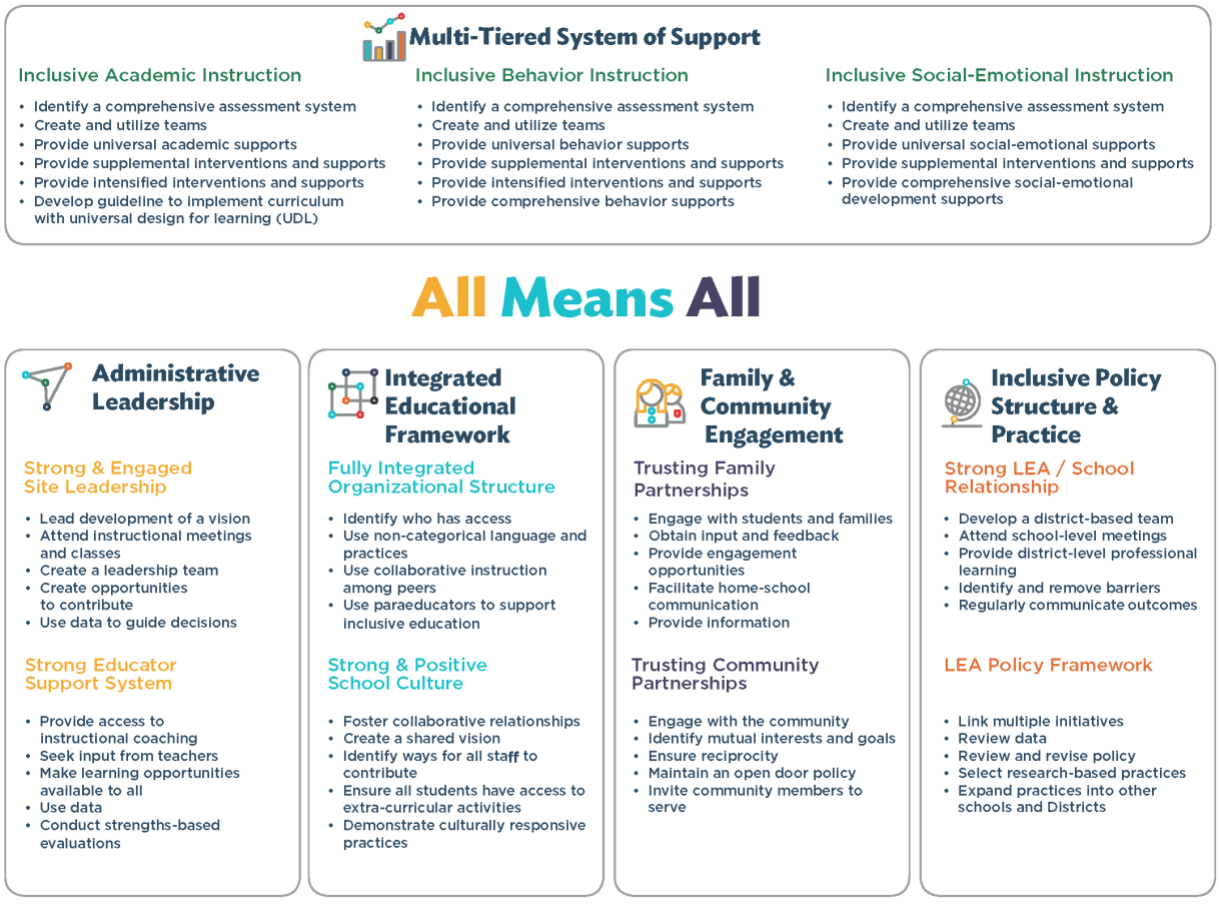
Beginning Teacher Support and Assessment Program ("BTSA")
MPS provides new teachers with BTSA, a two-year program that provides beginning teachers with collegial support, guidance, professional development, motivation to continue in the profession, and training. It links college level teacher preparation with classroom application.

Ongoing Professional Development Program for Special Education
MSA-San Diego conducts ongoing in-services for special education. During the August in-service training a specialist trains our entire staff about services and programs related to students with learning disabilities. MSA-San Diego's Education Specialists (SpEd Teachers) train the staff on the IEP documentation and how to implement accommodations and modifications in a general

education classroom. Our Education Specialists attend workshops and trainings provided by the District/County and attend a resource conference to hear from additional experts in the field of special education. In addition to the August sessions, MSA-San Diego conducts quarterly training sessions about special education. Education Specialists and paraprofessionals who are authorized to handle crisis situations and physically restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute ("CPI"), prior to placement in the classroom.

MEETING THE NEEDS OF ALL STUDENTS

With grants from CA SUMS MTSS Initiative, MSA-San Diego is moving forward with the Multi-Tiered System of Supports (MTSS) as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. The framework of MTSS utilizes high quality evidence-based instruction, intervention, and assessment practices to ensure that every student receives the appropriate level of support to be successful. A Multi-Tiered System of Supports align with the academic standards and behavioral expectations, in order to accelerate the performance of every student to meet and/or exceed proficiency.



Adapted with permission from: SWIFT Education Center. (2016). *MTSS Placemat*. Lawrence, KS. swiftschools.org

To support students academically, social-emotionally and behaviorally, and create a climate of academic success, MSA-SD recognizes that we must address the needs of the entire child. Often, we focus on punitive and remedial practices, therefore, we may unknowingly reinforce unwanted and antisocial behaviors. MSA-SD implements a positive behavior support program. Program expectations require students to be Safe, Responsible and Respectful. The school tracks behaviors using a point system, to reward students for demonstrating positive behavior. School site Deans and upper level academic coaches lay a foundation to engage students and enhance learning. With the support of this grant initiative, our school community works together to establish agreed upon norms, build relationships, learn pro-social behaviors, improve academics and demonstrate a culture where adults encourage motivation and knowledge is co-constructed through multi-tiered systems of support.

MSA-San Diego has ability to quickly identifying low-achieving students through frequent benchmark assessment and review of individual student data. Students who are achieving substantially below grade level are recognized through multiple measure assessments including in-class assessments, NWEA MAP assessments and other program data through ALEKS, Khan Academy, myON and StudySync.

MSA-San Diego utilizes data and progress monitoring to determine best practices to support student achievement. Teachers and student stakeholders are invited to meet with teachers to discuss possible intervention methods, and learn how they can participate in helping with their child's education. Parent-teacher meetings at the school are followed by home visits as needed.

The intervention model that is written into the schedule for the MSA-San Diego program is flexible intervention that can be used with a variety of curriculum and varying schedules. MSA-San Diego's principle approach is that the school intentionally builds consistent math and ELA intervention time into the entire school schedule.

Various implementations are used. Implementation strategies may include:

- Intervention block every day or 2-3 times per week (a student may have reading intervention on one day and math on the next)
- Intervention/Enrichment computer tutorials where the teacher can tutor selected students
- Specialist, instructional assistant, and volunteer support during intervention time Divide students up by need and send to different teaching team members for support during intervention blocks

During intervention teachers use educational materials that provide review, re-teach and enrichment programs. McGraw Hill's publisher resources, Curriculum Associates' Ready Common Core program, Khan Academy, Accelerated Reader and Accelerated Math program allow teachers to monitor the progress of students who are achieving below grade level and provide software generated tests and personalized instructional materials based on CCSS and areas of growth. MSA-San Diego has Teacher Assistants on all levels to support overall achievement.

Tiered intervention implementation is outlined below. Student progress is closely monitored through a well-integrated system of instruction and intervention guided by student assessment data.

Intervention Cycle and Process

As MSA-San Diego migrates from a Response to Intervention (RTI) to MTSS model, the intervention process will continue to use the following to inform, monitor, and implement support strategies:

- Historical student data
- Data related to SBAC results and Spring NWEA MAP data from previous year
- NWEA Diagnostic data
- Fall NWEA MAP
- Progress monitoring
- Classroom Assessment Data
- SBAC Interim Data
- SBAC Interim Block Assessment
- SBAC Interim Comprehensive Assessment
- Spring MAP
- Winter MAP (optional)

High- quality instruction, progress monitoring, differentiated learning, group interventions, classroom accommodations

Across MSA-San Diego, support and intervention begins with high quality instruction and universal screening of all children within the general education setting. Through the use of formative assessments such as the MAP test, schools establish a baseline to identify students who need additional support and struggling learners are provided classroom accommodations and differentiated instruction to meet their needs. Academic supports include technology-rich instruction, progress monitoring, differentiated learning, group interventions and classroom accommodations. Using strategies and tools such as adaptive programs, NWEA MAP universal screening, Integrated and Designated ELD, Explicit Direct Instruction, and Culturally Responsive Teaching. Behavioral and socio-emotional supports are centered around School-Wide PBIS, led by Deans of Student. With clear expectations taught through a Life Skills course and etiquette program students earn rewards for desired behaviors. Assemblies, student surveys and our SSPT process encourage student participation and voice.

As the first stage of intervention/support student may receive the following supports:

- Adaptive programming in McGraw Hill's StudySync
- Khan Academy
- BrainPOP ESL
- Discovery Education
- myON

- National Geographic
- 1:1 devices
- Advisory/SSR

The length of time with these interventions may vary, but generally do not exceed 8 weeks. During that time, the school will continue to evaluate student progress based on interim data such as Smarter Balanced Interim Block Exams, Comprehensive exams, and classroom assessments. At the end of this period, students showing significant progress are exited from interventions, while those needing more intensive supports are provided new, targeted interventions. A student success team is gathered to determine intensive support.

Targeted Interventions

Targeted interventions are utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. The school uses co-teaching strategies, and Study Skills classes for mathematics and ELA intervention. Additionally, students with targeted needs receive tutoring. When students are identified as needing additional support, restorative practices are utilized such as peer mediation, new-comer and behavior management support groups, community restoration assignments, goal setting and monitoring and Edge Coaching.

Students not making adequate progress are matched with more intensive academic and/or behavioral support based on their needs. These services are provided by general education teachers and Education Specialists. In small groups and within the general classroom setting, students may access:

- Study Skills (Math and English)
- Co-taught classes
- Push-in support
- Before and after school tutoring
- SSR (see Course Description above)

Pull out supports are utilized to support students who require additional academic support.

Students receiving targeted interventions may require a longer period of monitoring, however, it does not typically exceed a semester. Students who do not demonstrate progress are moved into a more intensive stage of intervention.

Intensive Interventions and Evaluation

Our schools have both push-in and pull-out services with specialists to ensure students with the most significant needs are properly supported. Using of our Special Academic Instruction program, and instructional aides we are able to help our most struggling learners close the achievement gap. Support for our exceptional learners include search and serve to meet their needs and an accelerated math pathway. Supports for behavior and socio-emotional are centered around restorative practices. Utilizing reflection committees, we determine the proper intervention for individual students. Using trauma-informed practices and socio-

emotional wellness, these strategies and programs address the needs of all scholars including the most vulnerable, academically and emotionally unresponsive students.
Students may receive individualized, intensive interventions that target specific skill deficiencies that include:

- All interventions listed above
- *Push-in and Pull-out support:* Education Specialists provide push- in and pull- out support in core classes. Support providers assist teachers in creating accommodations and differentiated learning experiences so that all students may access class materials. If it is deemed that students would benefit from further individualized support, they are pulled out for more intensive instruction.
- *Study Skills classes:* Study Skills courses are taught by Education Specialists as an elective course for students in need of additional support in note taking, organization, exam preparation, assignment completion, and time management.
- *Instructional aides in the classroom:* Instructional Aides support teachers with instruction by working individually with students, assisting in stations, clarifying instructions, and reteaching. IA's also provide behavioral support and reinforce the school's Positive Behavior Interventions and Support ("PBIS").
- *Saturday School:* Students assigned to Saturday School work with teachers on foundational skills related to their coursework.
- *Learning Center:* The Learning Center or Resource Classroom is designated as a space for both Special Education and General Education students to receive academic support from Education Specialists and other staff. Students can complete assignments, test in small settings, use computers, and work with their peers on group assignments.

If the Student Success Team believes further intervention is necessary, then the student may be referred to special education or 504 services.

While students may access a variety of academic supports before and after school including tutoring, Saturday school, and teacher coaching, the majority of interventions are given throughout the school day to ensure that students receive the full benefits of their individualized instruction. Services in the learning center, push-in and pull-out assistance, instructional aides, and study skills classes are all provided to students during the school day.

Equitable Access to the Curriculum

MSA-San Diego utilizes an instructional program that emphasizes equitable access to the curriculum for all learners, including students with disabilities. These include:

Co-Teaching/Push-in/Pull-out Support- MSA-San Diego supports its exceptional populations by utilizing multiple methods of providing special education services. MSA-San Diego fosters an inclusive model of education. As such, professional development in the area of co-teaching allows teachers to grow their ability to educate and service students of varying abilities. In order to effectively implement a co-teaching model, special education and general education

teachers are given time to co-plan and develop lessons so that students are provided appropriate supports and accommodations. Students who require additional assistance, receive services in a push-in or pull-out model where they receive more individualized attention.

Additionally, the digital formatting of our McGraw Hill curriculum allows teachers to collaborate on unit and lesson plans to ensure that all students' accommodations and needs are being addressed. This system is setup such that all students attend every class. The Education Specialists and various paraprofessionals provide instructional support within the general education setting. This allows for all student groups to be supported while participating in the least restrictive environment throughout the day.

Embedded Supports- In addition to the on-site staff coordinated by the Special Education and/or MTSS Coordinator, MSA-San Diego contracts with an outside service provider to support children's learning needs, such as intervention specialists, speech and language therapists, and occupational therapists who work with teachers to provide the least restrictive and most accessible learning environment. Special education aides work directly in the classroom, providing customized support to students throughout the day, and are valuable members of the team.

Differentiated Instruction- Teachers at MSA-San Diego deliver a curriculum that is tailored to each student's interests and needs. This support includes accommodations, use of technology, and data-informed decisions, such as utilizing Lexile reading scores and bringing technology into the classroom.

English Learners

MSA-San Diego will comply with all federal and state mandates regarding English Learner education and re-designation of EL students. MSA-San Diego will meet all requirements of federal and state law regarding equal access to the curriculum for EL students. MSA-San Diego will ensure English Learners (including those who are reclassified) have equal access to instructional materials and supports in order to achieve grade-level CCSS mastery and English-language proficiency.

MSA-San Diego endeavors to meet and exceed the needs of all learners, and is committed to closing the achievement gap that may affect those students who are not fully proficient in English. We hope to accomplish this by facilitating the acquisition and mastery of the English language as quickly as possible, while providing English Learners (ELs) with access to the core content through specialized and targeted instruction, a research-based and state-approved curriculum, and carefully differentiated instructional strategies. MSA-San Diego also promotes an equitable educational experience for our ELs and their families by providing supplemental counseling services, additional tutoring and literacy services, bilingual support, access to technology, and focused workshops where available and as needed.

MSA-San Diego provides students with a vigorous English Language Development (ELD) program that is based on recent language acquisition research (<10 years), as well as the six key principles for teaching ELs established by the *Understanding Language District Engagement Subcommittee* at Stanford University. These principles and research are the foundation of our program and guide our professional development. They are outlined as follows:

Source	Year	Summary
The Understanding Language District Engagement Subcommittee at Stanford University	*2012*	1. *Instruction focuses on providing ELs with opportunities to engage in discipline-specific practices, which are designed to build conceptual understanding and language competence in tandem.* 2. *Instruction leverages ELs' home language(s), cultural assets, and prior knowledge.* 3. *Standards-aligned instruction for ELs is rigorous, grade-level appropriate, and provides deliberate and appropriate scaffolds.* 4. *Instruction moves ELs forward by taking into account their English proficiency levels and prior schooling experiences.* 5. *Instruction fosters ELs' autonomy by equipping them with the strategies necessary to comprehend and use language in a variety of academic settings.* 6. *Diagnostic tools and formative assessment practices are employed to measure students' content knowledge, academic language competence, and participation in disciplinary practices.*
Research to Guide English Language Development Instruction by Saunders & Goldenberg	*2010*	1. *Providing ELD instruction is better than not providing it.* 2. *ELD instruction should include interactive activities, but they must be carefully planned and carried out.* 3. *A separate block of time should be devoted daily to ELD instruction.* 4. *ELD instruction should emphasize listening and speaking although it can incorporate reading and writing.*

		5. *ELD instruction should explicitly teach elements of English (for example, vocabulary, syntax, grammar, functions, and conventions).* 6. *ELD instruction should integrate meaning and communication to support explicit teaching of language.* 7. *ELD instruction should provide students with corrective feedback and form.* 8. *Use of English should be maximized during ELD instruction; the primary language should be used strategically.* 9. *Teachers should attend to communication and language learning strategies and incorporate them into ELD instruction.* 10. *ELD instruction should emphasize academic language as well as conversational language.* 11. *ELD instruction should continue until students reach Level 5.*
Reparable Harm: Fulfilling the Unkept Promise of Educational Opportunity for California's Long Term English Learners	*2010*	*Basic design principles for providing LTELs with equitable access to the core curriculum and improving proficiency outcomes:* • *An LTEL program must emphasize urgency, acceleration, and focus.* • *School must address the distinct needs of LTELs.* • *LTELs need both language development and literacy development.* • *Language development and academic gaps must be addressed across the curriculum.* • *An LTEL program should support home language development.* • *LTELs need a rigorous curriculum.* • *LTELs need invitation, support, and insistence that they become active participants in their own education.* • *An LTEL program should recognize the importance of positive relationships between the students and school staff.*

		• *An LTEL program should encourage full integration with other students and with the school.*

MSA-San Diego follows all federal and state laws in providing equal educational opportunities for ELs. MSA-San Diego implements the MPS-wide English Learner Master Plan that outlines the following components of a strong program:

A. Identification of English Learners
B. Assessment of English Learners
C. Parent Notification
D. Placement of English Learners
E. Newcomers and Long-Term English Learners
F. Monitoring English Learner Progress
G. Reclassification of English Learners
H. Staff Qualifications and Professional Development
I. Evaluating Program Effectiveness

Identification of English Learners

When a student enrolls at MSA-San Diego, the school will request information regarding the primary language spoken at home through a Home Language Survey (HLS), as mandated by state and federal law. The purpose of the HLS is to determine if a language other than English is used in the student's home. Before completing this survey, parents will receive an explanation of its purpose, and be informed of the possibility that their child may be given an assessment to measure their English Language Proficiency (ELP). The student's cumulative file and CALPADS records will also be checked by office staff to determine the student's ELP status.

The HLS is made up of the following four questions:

1. What language did your child learn when he or she first began to talk?
2. What language does your child most frequently use at home?
3. What language do you (parent/guardian) most frequently use when speaking with your child?
4. Which language is most often spoken by the adults in the home?

The State Board of Education's approved guidelines for the HLS responses are as follows:

- If the answer to all four questions is "English" then the child is classified as "English Only" (EO) and will not be assessed for language proficiency.
- If the answer to any of the first three questions is a language other than English, then the student will be given an English language proficiency exam.
- If the answer to the fourth question is a language other than English, the student may be tested for ELP at the school's discretion.

Parent rights regarding the HLS are as follows:

- The parent may amend the HLS anytime. If the amendment is made before the student has taken the initial English Language Proficiency Assessments for California (ELPAC), the student's classification will be adjusted to reflect the amendment. However, if the student has already taken the ELPAC, then the amendment will not affect the student's classification subsequently determined by the results of the ELPAC. An initial student who takes the ELPAC for ELP is classified as "To Be Determined" (TBD) until the official results are received.

The first HLS on file for a student supersedes all HLS forms completed at a later time. The answers on this initial HLS must be documented in the Student Information System (SIS). If the school has a reasonable doubt of a student's ELP, then that student may be tested to establish and provide evidence of proficiency. In these cases, a certificated staff member must document the reasons for ELPAC administration on the HLS. This annotation must be signed and dated by the Principal. Parents will then be informed by a certificated staff member of the student's assessment results and program placement.

Assessment of English Learners

***Initial Assessment ("IA")*:** Students whose ELP is "To Be Determined" according to their HLS (and with no other documentation of their English language designation available) will be tested in the Fall using the ELPAC.

The ELPAC IA is used to identify students as either an English Learner, or as fluent in English. The IA is administered only once during a student's time in the California public school system based upon the results of the home language survey. The locally scored IA will be the official score. The IA is given to students in grades K–12 whose primary language is not English to determine their English proficiency status.

Based on the initial student's performance on the ELPAC, he/she may be classified as an EL or an Initial Fluent English Proficient ("IFEP") student. If a student is classified as an IFEP student, he/she will not be eligible to receive EL services, and will receive instruction in a program designed for fluent English speakers. If a student is classified as an EL, he/she will receive both integrated and designated English Language Development. An EL student must also be assessed annually (with the ELPAC) until he/she meets the reclassification criteria established by MSA-San Diego according to state law.

Annual Assessment of Students: Students who are classified as ELs will be tested annually using the ELPAC Summative Assessment ("SA"). This ELP test will be administered during the Spring test administration window.

Assessment of Students with an IEP/504 Plan: EL students on an IEP or Section 504 plan will be assessed using the accommodations, modifications, or alternative assessments for the current ELP exam as specified in their plan.

Parent Notification

Parents of students who are administered the initial and annual ELPAC will receive notification of the following, within 30 calendar days of test administration:

- A description of initial or annual ELP levels, and how they are determined
- Current language classification
- Program placement
- Instructional Program Options
- Reclassification Criteria
- For ELs with an IEP: A description of how the program placement will contribute to meeting the objectives of the IEP
- Graduation Rate for ELs

All parent notification letters are certified by office staff and school leaders. This includes a list of notification recipients attached to each certification. Copies of notification letters are filed in each student's cumulative folder and the certification is filed in the Title III/EL Compliance folder maintained by the MSA-San Diego EL Coordinator (the Dean of Academics).

Prior to English proficiency testing, parents will also be informed of when their child will be tested, and how the test will be used to determine placement and reclassification.

Parents of ELs are always given the option to meet with a school administrator if they have questions regarding their child's assessment results, placement, or classification.

Placement of English Learners - Structured English Immersion Program

All MSA-San Diego EL students participate in a Structured English Immersion (SEI) program. The U.S. Department of Education describes the goal of this program as "acquisition of English language skills so that the EL student can succeed in an English-only mainstream classroom. All instruction in an immersion strategy program is in English." Within this SEI program, ELs are provided with daily designated and integrated English Language Development. Integrated ELD is provided to all ELs across all disciplines utilizing the frameworks and strategies outlined below. Designated ELD is also provided to all ELs, however instructional placement and support vary according to the students' ELD level. All curriculum used within the SEI program has ELD components/resources that facilitate language acquisition. Additionally, Newcomers and Long-Term English Learners receive supplemental services in the program as outlined below.

Designated English Language Development

Designated ELD is defined by the California ELD Framework as "a protected time during the regular school day when teachers use the CA ELD Standards as the focal standards in ways that build into and from content instruction in order to develop critical English language skills, knowledge, and abilities needed for content learning in English." Depending on the EL student's ELD level, he/she will be placed in either a designated ELD class, or will receive designated ELD in his/her core classes. The following program description is the minimum we provide at MSA-San Diego. Depending on the student's ELD level we provide additional support

to our English Learners, as long as it does not interfere with the student's overall academic enrichment, or require additional work and/or time (for example, a mandatory tutoring session outside of regular school hours).

Eligible Students	***Program Description***
ELD Levels 1-2 *ELs with "minimally" or "somewhat developed" proficiency in English*	• EL students who are ELD Levels 1-2 receive one period of designated ELD. • This setting is designed to ensure that ELs receive appropriate supports to build their proficiency and also meet grade level standards across all content areas. • Teacher differentiates language instruction based on ELD levels and proficiency descriptors. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as DuoLingo, No Red Ink, and Edge.
ELD Levels 3-4 *ELs with "moderately" or "well developed" proficiency in English*	• EL students who are ELD Levels 3-4 receive designated ELD in their core classes, designed to focus on specific domains. The amount of time provided will vary depending on the curriculum and unit being taught. • This setting is designed to ensure that ELs continue to progress towards proficiency, continue to meet grade level content standards, and reclassify in a timely manner. • Teacher differentiates language instruction based on ELD levels and proficiency descriptors. • Core teachers work with the site-level EL Coordinator/ Dean of Academics to determine which domains each student should focus on in order to reclassify. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as No Red Ink.

Integrated English Language Development

Integrated ELD is defined by the California ELD Framework as "ELD instruction provided throughout the day and across the disciplines. Teachers with English Learners use the ELD standards in addition to their focal English language arts/literacy and other content standards to support the linguistic and academic progress of English Learners."

At MSA-San Diego, teachers use SDAIE strategies (Specially Designed Academic Instruction in English), and the CHATS framework (see explanation of acronym below), to support integrated ELD across all content areas. Teachers are provided with professional development on how to provide integrated ELD to their students, how to apply the CA ELD standards, and how to use SDAIE strategies and the CHATS framework. This training is ongoing and provided by both MPS staff and third-party vendors. Additionally, MSA-San Diego EL Coordinator/Dean of Academics provides regular training to teachers of ELs, which includes showcasing specific strategies for differentiating and integrating ELD into the content area classroom.

About the CHATS Framework: Teachers will receive training on a research-based, field-tested framework for supporting EL growth in content and language. This framework was developed by Dr. Persida Himmele and Dr. William Himmele, two educators who have extensive and successful experience with ELs. Their framework is carefully broken down in the book *The Language Rich Classroom* and is "meant to empower teachers who haven't been formally trained in ESL with planning tools that make content comprehensible to their English language learners," while "providing ELs with opportunities to build up their academic language" in the content classroom. All MSA-San Diego teachers have access to this book and are consistently trained to use CHATS strategies. Although CHATS was developed for ELs, it is beneficial to all learners. The framework is made up of components that are broken up into five areas around the acronym:

- C – Content Reading Strategies
- H – Higher Order Thinking Skills
- A – Assessment
- T – Total Participation Techniques
- S – Scaffolding Strategies

This framework is designed to work in mixed, multilingual classrooms and the book provides resources and examples of how teachers can use each component in their planning.

Newcomers and Long-Term English Learners

Newcomers: A newcomer is defined as a child or youth (ages 3-21) who was not born in any state and has not attended school in any state for more than three full academic years. At MSA-San Diego, newcomers are identified upon enrollment in our Student Information System, and are carefully monitored by school leaders, coordinators, and teachers. Depending on the student's English language proficiency, he/she may be placed in a designated ELD class, where he/she will have an opportunity to build on foundational English language skills, as well as practice vocabulary and key concepts learned in his/her core classes. In addition to using the designated component of the McGraw Hill curriculum, a newcomer student will have access to language learning programs such as DuoLingo and Rosetta Stone, as well as BrainPOP ESL, No Red Ink, and NewsELA. When possible, MSA-San Diego will strive to obtain tutors that speak the student's native language to help build on prior knowledge, and provide additional clarification and support. Newcomers at MSA-San Diego will have access to additional academic support through optional morning and after-school tutoring, Saturday school, and summer school.

Newcomers are expected to make progress in their ELP of one level per year at MSA-San Diego. Newcomers are carefully monitored for growth by the MSA-San Diego EL Coordinator/Dean of Academics. Newcomers are assessed at the beginning of the school year for ELP and also for proficiency in their native language via a writing sample and through interview questions. If it is determined that additional academic or instructional support is needed, the site-level EL Coordinator/Dean of Academics will work with school leaders and the MPS Coordinator to determine which programs, curriculum, or supports may be needed.

Newcomer students also receive targeted social-emotional support at MSA-San Diego. Newcomer students and their parents are provided with a more personalized orientation (in their native language if possible) regarding school routines, school attendance, school schedule, the role of school personnel, uniform policy, using the library, emergency drills, and other topics determined by MSA-San Diego staff. Some other social-emotional supports that are provided to newcomers at MSA-San Diego are: class cohorts and linguistic partners (being paired up with a peer that speaks their language when possible) for in-class support and clarification, a safe space for the student to recess and eat lunch (for example, a classroom, the office, etc. if the student feels overwhelmed or stressed), frequent check-ins from teachers and school leaders to ensure that the student is adjusting and feels comfortable in his/her new environment, immediate response by school staff to bullying or discrimination, informal support activities that provide newcomer students with opportunities to speak informally in his/her native language, and encouraging newcomer students to participate in after-school clubs and sports. Newcomer families will also be invited to attend our Parent College Program, and will be provided with resources for helping their child improve literacy at home in their native language.

Long-Term English Learners: A Long-Term English Learner (LTEL) is defined as an EL student who has been enrolled in a U.S. school for more than six years yet has not been reclassified. MSA-San Diego is committed to providing these students with the support that they need to reclassify by thoroughly assessing their academic data and providing structured and targeted ELD instruction based on their needs and areas of growth.

All LTELs at MSA-San Diego are placed in rigorous courses designed to meet their college readiness requirements. They receive grade-level instruction that is taught using differentiated strategies and are placed with English proficient students in core and elective courses.

At the beginning of the school year, the MSA-San Deigo EL Coordinator/Dean of Academics and other school leaders will determine who the LTEL students are and mark them in the student information system. They will review redesignation data and determine what has prevented the student from reclassifying (MAP score, ELP exam score, ELA grade, etc.). Domains of growth will be noted in their ELD portfolios. This information is then shared with teachers and a plan of action is created to facilitate each student's growth and proficiency. If the student has an IEP, language goals and objectives will be carefully reviewed and incorporated into the plan.

LTELs (who are Levels 3 and 4; Levels 1 and 2 are enrolled in a separate designated ELD class) will be placed in a specialized Study Skills course for one semester (may be provided in a pull-out model). This class does not replace designated or integrated ELD. This class will provide an additional focus on oral and academic language development and English literacy. It will also provide students with an opportunity to practice skills in preparation for the ELPAC. At the end of the semester, each student's progress will be assessed (ELA grades, summative assessments, MAP scores, and writing samples) to see if adjustments or additional supports are needed.

Data will be reviewed and the student will work with the coordinator to create a plan of action and next steps, in order to facilitate and expedite their reclassification. If the student also has an IEP, the on-site special education professional will work with the coordinator to review language and ELD goals, and determine appropriate instructional modifications and supports.

In addition to the above-mentioned supports, MSA-San Diego will focus on the following universal strategies for improving academic outcomes for LTEL students:

- Ensure that students understand the reclassification process and are provided with counseling about their individual data.
- Provide additional tutoring to help students understand their assignments, clarify notes, review concepts taught in class, and prepare for tests.
- Emphasize a school-wide focus on study skills and academic vocabulary (for example, universal note-taking strategies, Word of the Week, etc.).
- Provide frequent "check-ins" with students to ensure that they do not have questions or concerns.
- Incorporate relevant texts that affirm and allow students to make connections to their diverse cultures.
- Encourage participation in school clubs, sports, and events.
- Ensure that students have a safe space to relax, study, and speak with caring adults.

Pathways for Newcomers and LTELs will be evaluated by the MSA-San Diego EL Coordinator/Dean of Academics every semester to determine whether or not adjustments need to be made and to ensure that both groups are making adequate progress.

Monitoring English Learner Progress

English Learners at MSA-San Diego are monitored through ELD portfolios, which are maintained by the classroom teacher and monitored monthly by the EL Coordinator/Dean of Academics. ELD portfolios will contain the following documents:

- Copy of the most recent ELP exam scores
- Copy of the most recent MAP & SBAC scores
- Record of the most recent semester grade in ELA, and any notes/observations from the teacher
- Interim assessment scores
- Progress Monitoring Chart
- Writing work samples (for example, copies of reports, essays, journals, etc.)

- "My Road to Reclassification" document (allows students to independently track their progress)
- Action plans and goals

Supplemental templates and monitoring documents are available to all Charter School coordinators in a shared secure, password protected, online folder. Additional monitoring forms and evidence may be added as needed to improve monitoring and outcomes.

Schedule for progress monitoring:

Weekly/Bi-weekly	***Monthly***	***Annually***
• Core teachers review current class grades and notify parents of ELs if their child is failing. • School staff reviews and discusses relevant student data (during staff meetings, department meetings, etc.)	• Portfolio maintenance: Relevant scores, assessments, and work samples are collected and updated in each EL student's ELD portfolio. • Teachers and EL coordinator notify parents of EL students who are not making adequate progress towards proficiency.	• January/February: Data for reclassified students is reviewed and updated in a spreadsheet maintained by the EL coordinator/ Dean of Academics.

Reclassification of English Learners

MSA-San Diego uses the four criteria in state law as guidelines in determining whether or not an English Learner should be reclassified as fluent English proficient: English language proficiency assessment, comparison of performance in basic skills, teacher evaluation, and input from parents. All reclassification criteria must be met and maintained within the current academic year. The established criteria for reclassification are as follows:

	Grades 6-8
English Language Proficiency Assessment	ELPAC: Overall score of 4 with a minimum score of 3 in each domain.

<table>
<tr><td rowspan="3">Basic Skills Assessment</td><td>NWEA Map: Performance level of Basic on the MAP reading test with a minimum Fall, Winter, or Spring score of:</td></tr>
<tr><td>
<table>
<tr><td></td><td>Fall</td><td>Winter</td><td>Spring</td></tr>
<tr><td>Gr. 6</td><td>200</td><td>204</td><td>206</td></tr>
<tr><td>Gr. 7</td><td>205</td><td>208</td><td>210</td></tr>
<tr><td>Gr. 8</td><td>208</td><td>211</td><td>212</td></tr>
</table>
</td></tr>
<tr><td>~OR~</td></tr>
<tr><td>Teacher Evaluation</td><td>C: ELA/Literacy score of 2 (Nearly Met) or above</td></tr>
<tr><td>Student achieves a grade of C (70%) or above in English Language Arts (ELA). Applicable ELA grades considered are the Semester 1 final grade and current semester grade at the time of reclassification.</td></tr>
<tr><td>Parent Consultation</td><td>Parent/Guardian agrees with the recommendation to reclassify. Each school will send home a notification informing parents of their child’s eligibility to reclassify. If a parent contests reclassification, they will have 14 days to respond to the school using a form provided by the school site.

The date of this letter will be the official date of reclassification used for the SELA report and CALPADS reporting.</td></tr>
</table>

Reclassified students are monitored for a period of four years by our EL Coordinator/Dean of Academics. This is done to ensure that they have not been re-designated too early, and that they are successfully participating in the academic program without incurring deficits. The EL Coordinator/Dean of Academics also monitors reclassified students’ academic progress annually by reviewing benchmark scores, MAP and CAASPP scores, and ELA grades. Follow-up services for students who do not demonstrate satisfactory progress include, but are not limited to: additional tutoring, counseling, and enrichment classes. The MPS EL Coordinator will follow up with MSA-San Diego to ensure that monitoring is taking place, and will assist the school with action planning for those students who are not making adequate progress.

Staff Qualifications and Professional Development Plan

The teachers and staff at MSA-San Diego understand that all stakeholders need to work collaboratively to help improve learning outcomes and academic achievement for ELs. They also understand that ELs need access to challenging academic content through appropriately differentiated and scaffolded instruction. In order to facilitate rigorous ELD instruction, the

following staff qualifications and plans for professional development are in place at MSA-San Diego:

Staff Qualifications: All MSA-San Diego teachers providing academic instruction to EL students will hold a CLAD/BCLAD credential or other approvable CCTC certification authorizing them to teach English Learners. Outlined below are the duties of teachers, MSA-San Diego EL Coordinator/Dean of Academics, and the MPS EL Coordinator.

MSA-San Diego teachers:

- Consistently implement with fidelity the ELD program and curriculum as outlined in the English Learner Master Plan.
- Provide daily integrated ELD instruction during core classes, aligned with the state ELD standards and using research-based strategies to ensure students are able to access grade level instruction and do not incur academic deficits.
- Provide daily designated ELD instruction during a protected block of time during the school day, aligned with the state ELD standards and using research-based strategies to ensure students are able to access grade level instruction and do not incur academic deficits.
- Attend all professional development and professional learning community sessions.
- Consistently monitor student progress on a weekly basis to ensure that EL students are making adequate progress towards proficiency and follow appropriate protocol if a student is falling behind.
- Maintain contact with the students' families and keep them updated on their child's progress.
- Work collaboratively with other staff members to encourage ELs and ensure that they have the tools and resources needed to be successful.

MSA-San Diego ELD Teachers (who also teach other classes) do all of the above and:

- Consistently implement with fidelity the ELD program and curriculum as outlined in the English Learner Master Plan.
- Provide a safe, enriching learning environment for ELs, with ample opportunities to practice language acquisition.
- Use the prescribed, standards-based, state-approved curriculum to instruct ELs.
- Differentiate instruction based on ELD level and grade level.
- Provide opportunities for ELs to practice all four domains in each class period.
- Utilize supplemental resources to provide additional support.
- Create structured and predictable classroom routines.
- Create weekly lesson plans aligned to the ELD standards.

MSA-San Diego EL Coordinator/Dean of Academic's responsibilities include:

- Conduct classroom observations on a weekly basis to ensure integrated and designated ELD is occurring in all classrooms with ELs.
- Present an ELD strategy to teachers during weekly staff meetings.

- Monitor the creation and maintenance of an ELD portfolio for each EL student to monitor and showcase progress.
- Regularly communicate with staff regarding the progress of ELs.
- Communicate on a regular basis with the MPS EL Coordinator and implement all updates and compliance requests in a timely manner.
- Participate in monthly meetings with school leadership regarding the needs of ELs (for example, plan strategies for professional development, provide insight from classroom observations, discuss data, and recommend resources).
- Attend professional development relevant to ELs and share strategies and resources with teachers.

The MPS EL Coordinator's responsibilities include:

- Maintain, evaluate, and improve the EL Master Plan and EL Program based on the observations, data, and feedback from each member school.
- Provide coaching, and professional development to all teachers of English learners (for example, provide integrated and designated ELD support, teacher training, coaching on effective ELD strategies, and model push-in support).
- Conduct lesson demonstrations and classroom observations/walk-throughs in order to help improve instruction delivered to ELs.
- Help teachers monitor the progress of ELs and reclassified students, and create appropriate interventions and action plans as needed.
- Assist site-level coordinators and staff with the development of action plans and appropriate supports for Long Term English Learners and Newcomers.
- Lead and train EL Coordinators at each school site, including facilitate team meetings as well as coordinate the EL program strategic planning process.
- Oversee the adoption and implementation of the ELD curriculum.
- Oversee the Title III improvement plan, and any other Title III requirements.
- Attend EL-related professional development and share resources with teachers and school leaders.

Professional Development Plan: Professional development for teachers of English Learners will be extensive and ongoing at MSA-San Diego. Professional development specific to ELs will endeavor to improve ELD instruction, facilitate the ability of teachers and school leaders to successfully implement the EL program, and help improve English language proficiency and subject matter knowledge of ELs. Effective professional development will include:

- ELD workshops for teachers at the MPS Summer In-Service.
- Overview of the EL Master Plan, including program placement, progress monitoring, and reclassification, presented to all MPS schools.
- Sessions dedicated to English Language Development (ELD) training for teachers at each MPS Teacher Symposium (Winter and Spring).
- ELD training and shared best practices at least once per month at the school-site level staff meetings.

- All core teachers will attend at least one third-party ELD training per year (this may be done off or on site...for example, attend a workshop offered by the county office, or hire a consultant to present to the staff on site).
- The MPS EL Coordinator will regularly attend high-quality professional development workshops and conferences, including a monthly Bilingual Directors' Meeting at the Los Angeles County Office of Education, and share resources and information with teachers and school leaders.
- When possible, site-level EL Coordinators will attend professional development sessions and meetings with the MPS EL Coordinator.
- The MPS EL Coordinator will host two (one per semester) trainings/meetings for the site-level EL Coordinators per year. These meetings will review ELD strategies, best practices, an assessment of EL data at each school site, and evaluate the effectiveness of the EL program.
- Regular updates regarding ELs and ELD will be provided to all MPS principals and deans during monthly meetings at the Home Office.
- The MPS EL Coordinator and MPS Math Coach will provide a workshop to math teachers that will support EL access across the curriculum.
- The MPS EL Coordinator and MPS Student Services director will provide resources to help teachers and school leaders support dually identified students.

Evaluating Program Effectiveness

The Charter School will use ELPAC results, along with scores on Smarter Balanced ELA/Literacy tests, MAP tests, teacher evaluations, and parent consultations to evaluate the success and effectiveness of the EL Programs and growth of ELs. School admin team will analyze the data at the school level. The Chief Academic Officer (CAO) at the Magnolia Public Schools Home Office (Home Office) will evaluate the assessment data for all MPS schools. MSA-San Diego admin team will be required to:

- Supervise classroom instruction for content and pedagogy to ensure the delivery of ELD and Access to the Core through CHATS/SIOP/SDAIE/GLAD and/or primary language instruction or support
- Provide leadership and support to teachers and staff to improve student achievement and accelerate the learning of ELs
- Conduct regular classroom walkthroughs to ensure that ELD and CHATS/SIOP/SDAIE/GLAD instruction or support are being delivered in the manner outlined in the master plan
- Identify, design, and implement appropriate interventions for ELs when they do not meet minimum progress benchmark achievement
- Utilize multiple sources of data to monitor EL program implementation
- Review placement of ELs in ELD instruction prior to the beginning of each semester and correct any inconsistencies with the Master Plan
- Ensure that teachers have professional development opportunities to continue to develop their skills and knowledge in ELD and CHATS/SIOP/SDAIE/GLAD and/or primary language instruction or support

- Ensure that interventions are designed and delivered consistent with the English Learners Master Plan
- Provide a welcoming environment for parents of EL students and ensure that they are regularly apprised of the EL assessment and reclassification process and results, instructional program options and placement, EL progress monitoring

Additionally, the MPS EL Coordinator will work with teachers and the leadership team to monitor program effectiveness. The MPS EL Coordinator will support implementation of the MPS EL Master Plan and program, as well as ensure that all appropriate EL services are being delivered at MSA-San Diego, maintain and update this master plan as needed, attend relevant trainings, and provide ELD resources to all MSA-San Diego teachers and staff.

Gifted and Talented Students and Students Achieving Above Grade Level

MSA-San Diego is committed to supporting gifted and highly capable students in a safe, caring environment that promotes a college preparatory, STEAM education. Within all classes, teachers differentiate curriculum by making adjustments of content through depth, complexity, and pacing as appropriate to the needs of each learner. Instructional programs for Gifted and Talented students are based on the core principles that all students have the potential to excel and should have the opportunity to develop their individual abilities, interests and potential. The purpose of the MPS GATE program is not to simply identify the highest achieving students, but rather, identify students with exceptional abilities, those that go well beyond their peer group. School site academic administrators monitor student progress through our SIS system.

MSA-San Diego's identification procedures are equitable, comprehensive, and on-going. Assessments and recommendations for the program reflect best practices and are research- based. MPS understands that examinations alone may not reflect the abilities of all students, as well as GATE students of diverse populations. Therefore, MSA-San Diego includes teacher and/or administrator recommendations as well as work samples in its identification process.

In order to identify a student as gifted, evidence must be gathered relating to his/her ability to perform beyond chronological peers. Data should be broad enough to discover aptitudes across racial, ethnic, and economic groups. Data may include the following:

- School, class, and individual pupil records
- State and benchmark examinations
- Student portfolios or work products
- Interviews and questionnaires (teacher, parent, and others related school personnel)

Teachers, parents, and school administrators may submit referrals. Additionally, students at the middle and high school levels may refer themselves.

To identify students who are gifted, MSA-San Diego administers the *Otis- Lennon School Ability Test (OLSAT)*. Students are assessed for GATE in 6th grade. The OLSAT is a multiple-choice test that is comprised of both verbal and nonverbal questions, used to measure a child's critical thinking and reasoning skills. Students will need to perform well in the following areas:

- Following directions
- Detect similarities and differences
- Recall of words and numbers
- Classification of items
- Establishing sequences
- Solving arithmetic problems
- Completing analogies

GATE teams, comprised of the GATE coordinator or Education Specialist, Academic Dean, and General Education teacher, review all pieces of data and then make a determination of eligibility. All students will be monitored by our school site academic administrators through our SIS system.

Educational experiences and are designed to meet the needs of advanced learners with an emphasis on innovation, critical thinking, and logical reasoning. In secondary grades, students who demonstrate high achievement, interest and/or ability are provided the opportunity to collaborate with a team of teachers and peers of similar ability within a rigorous, interdisciplinary learning environment. Curriculum and instruction are designed to extend and enrich student learning through best practices. Classes are intended to engage and challenge learners to investigate, use problem-based learning, and research.

In addition, enrichment activities supplement learning for our advanced students both within and outside the regular classroom and expose students to STEAM programs early on in their educational careers. Activities may include but are not limited to:

- Math: Mathematics Competitions and International Mathematics Olympiad
- Science: Science Fairs, Lego® Robot Design, Intel International Science and Engineering Fair
- Computer and Technology Related: Lego® Robot Design, FIRST Robotics Competition, VEX Robotics

Students Achieving Below Grade Level

MSA-San Diego identifies low-achieving students in the first days of the academic year, and implements early intervention where indicated, pursuant to the MTSS model of tiered interventions detailed above. As detailed throughout this petition, MSA-San Diego teachers meet regularly to work in departments and grade levels. The highlight of these meetings is evaluating student data to inform instruction. All available student data (MAP, CAASPP, School/teacher assessments) is disaggregated and subject teachers work on the data. The assessment results are interpreted; students' strengths and weaknesses in specific subjects are

identified and analyzed. Student progress is monitored by teachers who utilize the data and make appropriate changes in their curriculum maps, lesson plans and instructional strategies to address the needs of our students. Teachers differentiate instruction per their students' cognitive and social needs.

Targeted English and Math Study Skills intervention classes are offered during elective periods to students who are not achieving at grade level. On an as-needed basis, an Academic Success Plan (ASP) is prepared with the involvement of the recommending teacher, the Dean of Academics, and the student's parents. Such ASP's include subject-related readings, additional homework, and recommended after-school tutoring.

The subject teachers and the Dean of Academics monitor each student's academic progress. Parents remain informed of their student's academic progress during this process via parent-student-teacher meetings and parent access to student grades and progress reports through the online school information system.

Socio-Economically Disadvantaged/Low Income Students

The instructional design of MSA-San Diego addresses the needs of low-income and socio-economically disadvantaged students. Socio-economically disadvantaged students are identified through their participation in the Free and Reduced Lunch program. Counseling, intervention/remediation, individual tutoring and free eligibility to after school social, academic and athletic programs are some of the many programs that support our socio-economically disadvantaged students. Home visits, motivational guest speaker programs, parent meetings, university and college visits, and instructional field trips are planned to shape the educational vision of the student and the family. Socio-economically disadvantaged students have role models around them who will inspire motivation to focus on lessons and self-confidence with the discovery of their potential.

The Charter School administration ensures that these programs are available to all students, including socio-economically disadvantaged students, and works with the teachers and parents to encourage for student participation in these programs. The administration monitors the performance and progress of socio-economically disadvantaged students through the use of MSA-San Diego's data cycle.

Students with Disabilities

MSA-San Diego is committed to meeting the needs of all of our students with disabilities, and pledges to work in cooperation with the San Diego County Office of Education ("SDCOE") and the El Dorado County Charter Special Education Local Plan Area (SELPA) to ensure that a free and appropriate education is provided to all students with exceptional needs. MSA-San Diego will comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), Section 504 of the Rehabilitation Act of 1973 ("Section 504"), Title II of the

Americans with Disabilities Act ("ADA"), and any other civil rights law enforced by the U.S. Department of Education Office of Civil Rights (OCR). Furthermore, MSA-San Diego will comply with SDCOE and SELPA guidelines and all California laws pertaining to students with disabilities.

MSA-San Diego has the overarching goal of creating classrooms that reflect the natural diversity present in the surrounding community with respect to ability, socioeconomic status, language, and culture. No admission decision for MSA-San Diego will in any way be based upon a student's disability or special education status. Information about a student's disabilities, including special education or Section 504 status, will not be included on any enrollment applications, and will not be taken into account in determining whether a student will be admitted to MSA-San Diego. There are no quotas or admission spots reserved for students with or without disabilities; rather, MSA-San Diego supports all students attending the school according to their particular learning needs and in full accordance with the IDEA, Section 504, the ADA, and any other state or federal civil rights law.

The following description regarding how special education and related services are provided and funded is provided for the sole purpose of providing a reasonably comprehensive description of the special education program in the charter petition, in accordance with Education Code section 47605(b).

SELPA Affiliation

MSA-San Diego is an independent Local Education Agency (LEA) member in the El Dorado Charter SELPA for purposes of special education pursuant to Education Code Section 47641(a). A change in LEA status or SELPA membership shall require a material revision of this charter.

As an independent local educational agency (LEA) pursuant to Education Code Section 47641(a), MSA-San Diego will assume full responsibility for providing special education and related services to eligible charter school students, in accordance with state and federal law.

MSA-San Diego will follow policies and procedures of the SELPA in which it is a member and shall utilize SELPA forms and information systems necessary to identify and serve students who qualify for special education. MSA-San Diego agrees to collaborate with the SELPA to respond to inquiries and request and provide access to information and records, as needed, and shall be responsible for maintaining confidentiality of student records.

Child Find

MSA-San Diego understands its responsibility to ensure that all children with disabilities who need special education and related services are identified, located, and evaluated, regardless of the severity of the disability. No assessment or evaluation will be used for admission purposes.

As noted above, MSA-San Diego will implement an MTSS framework, prior to referring a child for an evaluation under IDEA. However, MSA-San Diego shall ensure that child find identification occurs in a timely manner and that no procedures or practices result in delaying or denying this identification. A parent/guardian or MSA-San Diego staff member may request

an initial evaluation at any time to determine if the child is a child with a disability, regardless of whether the child has participated in an RTI framework. Special education referrals shall be made only after general education supports and interventions have been considered and provided, as appropriate. If the Student Success Team finds that the pre-intervention plan is not sufficient to meet the student's needs, they will recommend that student for a formal special education assessment. MSA-San Diego may also choose to refer a student for services through the provisions of a Section 504 Plan, if appropriate.

MSA-San Diego shall be solely responsible for compliance with state and federal Child Find requirements. MSA-San Diego shall implement policies and procedures of the SELPA in which it is a member to ensure timely identification and referral of students suspected of having a disability.

Referral for Assessment

The term "assessments" shall have the same meaning as the term "evaluation" in the IDEA, as provided in Section 1414, Title 20 of the United States Code. MSA-San Diego's internal method for referral for assessment will be the Student Success Team (SST). Parents/guardians will be informed that special education and related services are provided at no cost to them.

In the event that MSA-San Diego receives a written request for evaluation, it will be solely responsible for working with the parent/guardian to address the request and shall follow SELPA policies, procedures, and timelines. MSA-San Diego shall respond to a written request for assessment within 15 days.

If MSA-San Diego concludes that an assessment is appropriate, the parent/guardian will receive a written Assessment Plan within 15 days. The parent will be given at least 15 days to provide written consent to the Assessment Plan. Assessments will be done only upon receipt of written parent/guardian permission. The assessment will be completed and an Individualized Education Program (IEP) meeting held within 60 days of receipt of the parent's/guardian's written consent for assessment.

Assessment

MSA-San Diego shall be solely responsible for conducting special education assessments deemed necessary and appropriate by MSA-San Diego and as agreed to by the parent in the Assessment Plan. The Principal will be responsible for gathering all pertinent information and arranging for assessments to be conducted in all areas of suspected disability.

Information gathered will be used as tools to determine the student's disability, eligibility for services, and determining the nature and extent of required services. The types of assessments that may be used for determining eligibility for specialized instruction and services will include, but not limited to:

- Individual testing;
- Teacher observations;
- Interviews;

- Review of school records, reports, and work samples; and
- Parent input.

MSA-San Diego will follow the following assessment guidelines. If a conflict with SELPA policies and procedures exists, then SELPA policies and procedures will govern.

- Parents or guardians of any student referred for assessment must give their written consent for the school to administer the assessment;
- The assessment will be completed and an Individualized Education Program (IEP) meeting held within 60 days of receipt of the parent's written consent for assessment;
- The student must be evaluated in all areas related to his/her suspected disability;
- Assessments must be conducted by a person with knowledge of the student's suspected disability, and administered by trained and knowledgeable personnel and in accordance with any instructions provided by the producer of the assessments. Individually administered tests of intellectual or emotional functioning must be administered by a credentialed school psychologist;
- Assessments will be selected and administered so as not to be racially, culturally, or sexually discriminatory;
- Assessments will be delivered in the student's primary language, and a qualified interpreter will be provided if needed;
- Assessment tools must be used for purposes for which the assessments or measures are valid and reliable; and
- Assessments will be adapted as necessary for students with impaired sensory, physical or speaking skills; and
- A multidisciplinary team will be assembled to assess the student, including a teacher knowledgeable in the disability.

Upon completion of the assessment, an IEP team will be assembled to review the results of the assessment and determine the student's eligibility for special education. MSA-San Diego will be responsible for scheduling, coordinating and facilitating the IEP meeting. Educators qualified to interpret test results will present the assessment data at the IEP meeting. Parents/guardians will be provided with written notice of the IEP meeting, and the meeting will be held at a mutually agreeable time and place.

Development and Implementation of IEP

Every student who is assessed for special education will have an IEP that documents assessment results and eligibility determination for special education services.

MSA-San Diego shall be solely responsible for ensuring that all aspects of the IEP are provided. MSA-San Diego will provide modifications and accommodations outlined within each individual's IEP and serve each student in the Least Restrictive Environment ("LRE").

Each student who has an IEP will have an IEP team that oversees the IEP Development, implementation and progress of the student. All decisions concerning the special education

programs and services to be provided to a student with a disability are to be made by the IEP team.
The IEP team will include all of the following members:

- The parent or guardian of the student for whom the IEP was developed;
- The Student, if appropriate
- The Principal;
- At least one Education Specialist (SpEd Teacher);
- A General Education teacher who is familiar with the curriculum appropriate to that student, if the student is, or may be, participating in the general education environment;
- A SELPA Representative, if appropriate;
- If the child was recently assessed, the individual who conducted the assessment or who is qualified to interpret the assessment results;
- Others familiar with the student may be invited as needed.

MSA-San Diego will provide an interpreter if necessary, to ensure that all parents and/or guardians understand and can participate in the IEP process. If a parent cannot attend the IEP meeting, the school will ensure his/her participation using other methods, such as conferencing by telephone or meeting at the parent's home.

A copy of the IEP will be given to the parent/guardian in accordance with state and federal laws. Upon the parent or guardian's written consent, the IEP will be implemented by MSA-San Diego. The IEP will include all required components and be written on SELPA forms.

The student's IEP will include the following:

- A statement of the student's present levels of academic achievement and functional performance;
- The rationale for placement decisions, including cogent and responsive explanations for the recommendations;
- The services the student will receive and the means for delivering those services;
- A description of when services will begin, how often the student will receive them, who will provide them, and where they will be delivered;
- Measurable annual goals and short-term objectives focusing on the student's current level of performance and appropriately ambitious for his/her circumstances. The goals and objectives will also be linguistically appropriate, as per Ed Code Section 56345(b).
- A description of how the student's progress toward meeting the annual goals will be measured and monitored and when reports will be provided;
- Accommodations necessary to measure the academic achievement and functional performance of the pupil on state assessments;
- For students 16 years of age and older, measurable postsecondary goals related to training, education, employment and independent living skills, along with transition services needed to assist the student in reaching those goals
- The IEP shall be reasonably calculated to enable the child to make progress appropriate in light of his/her circumstances.

IEP meetings will be held according to the following schedule:

- Yearly to review the student's progress and make any necessary changes;
- Every three years to review the results of a mandatory comprehensive reevaluation of the student's progress;
- After the student has received a formal assessment or reassessment;
- When a parent or teacher feels that the student has demonstrated significant educational growth or a lack of anticipated progress (consistent with state and federal law, IEP meetings will be held within 30 days of a parent's request);
- When an Individual Transition Plan (ITP) is required at the appropriate age;
- When MSA-San Diego seeks to suspend or remove the student for a period of 10 days or more for the same behavior, in order to determine if the student's misconduct was a manifestation of his/her disability.

IEP Review

The IEP team will formally review the student's IEP at least once a year to determine how the IEP is meeting his/her needs. In accordance with IDEA regulations, the IEP team will also conduct a formal review of the IEP once every three years, in which the student is reassessed and the IEP is reviewed as part of an overall comprehensive reevaluation of the student's progress.

MSA-San Diego shall be responsible for conducting IEP reviews and determining necessary supports, services, placements, in accordance with SELPA policies and all applicable laws.

Unless otherwise specified on the student's IEP, parents will be informed three times per year (which is the same frequency as progress is reported to all students and parents) of the student's progress toward meeting annual goals and whether the student is expected to meet his/her annual goals. The Goals and Objectives section of the IEP will be an attachment to the general progress report. This will serve to document the method by which the student's progress toward achieving the annual goal is measured, the student's progress during the relevant period, the extent to which it is anticipated the student will achieve the annual goal prior to the next annual review, and where needed, the reasons the student did not meet the goal.

If a parent/guardian or faculty member feels the student's educational needs are not being met, they may request a reassessment or a review of the IEP by the IEP team at any time during the year via written notice to the school. Once the request is received, MSA-San Diego will have thirty days, not including school vacations greater than five days, to hold the IEP meeting.

Special Education Strategies for Instruction and Services

MSA-San Diego will offer a comprehensive program that includes differentiated instruction for all learners, and the myriad other programmatic aspects detailed above that are designed to support diverse learners' needs, including the needs of students with disabilities. Each student's IEP requires different kinds of accommodations and modifications for instruction and services; therefore, the educational strategies of the IEP will be built around the student's

needs. If a student's IEP team determines that the student requires placement outside of a general education classroom, MSA-San Diego will to provide the necessary placement and/or services. The instruction outlined in each student's IEP will be delivered by personnel qualified to do so.

Interim and Initial Placements of New Charter School Students

MSA-San Diego shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year.

MSA-San Diego shall provide transferring students with free and appropriate public education, including services comparable to those listed in the existing IEP.

For students transferring to the MSA-San Diego from another school within the same SELPA, MSA-San Diego, pursuant to Education Code Section 56325(a)(2), shall continue to provide services comparable to those described in the existing approved IEP, unless parents/guardians and MSA-San Diego agree to develop and implement a new IEP.

For students transferring to the MSA-San Diego from another school within a different SELPA, MSA-San Diego, pursuant to Education Code Section 56325(a)(1), shall continue to provide services comparable to those described in the existing approved IEP for a period of up to 30 days, by which time MSA-San Diego shall adopt the previous IEP or, in consultation with parents/guardians, develop and implement a new IEP that is consistent with federal and state law.

For students transferring to MSA-San Diego from a school outside of California, MSA-San Diego shall provide the student with a free appropriate public education, including services comparable to those described in their existing IEP, until MSA-San Diego conducts an assessment pursuant to Section 1414 of Title 20 of the United States Code, if determined to be necessary by MSA-San Diego, and develops a new IEP, if appropriate, in accordance with federal and state law.

Staffing

MSA-San Diego will assume responsibility for special education staffing and service delivery. MSA-San Diego will be responsible for hiring, training, and/or contracting with the staff necessary to provide special education services to its students. MSA-San Diego shall ensure that all special education staff hired or contracted by MSA-San Diego is qualified to provide services in accordance with all applicable laws, regulations, and SELPA policies.

MSA-San Diego currently employs three Education Specialists (SpEd Teachers) with specialization in mild/moderate disabilities and also specialization in moderate/severe disabilities. In partnership with the Principal, these teachers will ensure the implementation of IEPs and compliance with all special education policy, monitoring, and compliance procedures. MSA-San Diego will continue to employ an appropriate mix of mild/moderate and

moderate/severe ss as appropriate for the student population it serves as dictated by the needs indicated on student IEPs.

It will be the duty of the Principal to oversee and ensure the following:

- Ensure that all aspects of the IEP are followed;
- Arrange for the teacher of the student to attend the team meetings;
- Communicate with parents about progress made toward attaining the goals stated on the student's IEP, and inform them of due process procedures and rights;
- Consult quarterly with the Principal to ensure that the objectives and goals of students with IEP's are being met;
- Complete the requisite paperwork, updating and filing of necessary information for initial referrals, triennial evaluations, ongoing monitoring of student progress, and appropriate provision of any/all test modifications as stipulated in the IEP;
- Maintain a central file with all special education evaluation material and IEP's in accordance with FERPA and IDEA guidelines; and
- Provide a report of student progress on the same schedule as students in general education)

All teaching staff at MSA-San Diego will also be involved in assuring that all IEPs and 504 plans are properly implemented.

Professional Development for Charter School Staff

MSA-San Diego administrators, general and special education teaching staff, as well as other appropriate faculty and staff members will attend professional development and/or training meetings necessary to comply with state and federal special education laws, including training sponsored by the SELPA.

MSA-San Diego shall seek professional development opportunities for its staff through potential trainings facilitated by the District, SELPA, colleges and universities, and private companies or agencies to ensure compliance with state and federal special education laws as well as implementation of best practices for students with disabilities.

Reporting

MSA-San Diego, in collaboration with the District or SELPA where appropriate, will collect and maintain the following information on disabled students as required by IDEA:

- A calculation of all school-age students with disabilities being provided special education services by age, grade, category of disability and the number of students with disabilities who are English Learners;
- The number of students provided with test modifications and the types and the number of students exempted from Statewide assessments;
- The settings in which students with disabilities receive their services, specifically including the portion of the school day they receive services with non-disabled peers and time away from the regular classroom;

- The number of students with disabilities suspended "in-school" and out of school, organized by disability and length of suspensions; and
- The basis of exit from MSA-San Diego of students with disabilities (i.e., attainment of diploma and type, declassified, moved, etc.).

All necessary procedures and practices to ensure confidentiality and accurate/timely reporting will be the responsibility of the Principal. The Principal will ensure that a central file with all special education evaluation material and IEP's is maintained and that this file is locked and confidential, in accordance with IDEA guidelines. The Principal will oversee access to these records and will be responsible for ensuring that all providers responsible for the implementation of a student's IEP will have access to a copy of the IEP and will be informed of their specific responsibilities in implementing the IEP.

Procedural Safeguards

Parents or guardians of students with IEP's at MSA-San Diego must give written consent for the evaluation and placement of their child, be included in the decision-making process when change in placement is under consideration, and be invited, along with teachers, to conferences and meetings to develop their child's IEP.

The school will provide the parent with a written Notice of Procedural Safeguards, which will include information on the procedure to initiate both formal and informal dispute resolutions, at least once per year. MSA-San Diego will utilize the Notice of Procedural Safeguards used by the SDUSD or SELPA in which it is a member.

Concerns or disagreements raised by parents/guardians will be acknowledged by the school within five days. MSA-San Diego work to arrange a meeting with the parents/guardians to seek resolution of the disagreement. If a disagreement or concern persists, parents or guardians have the right to initiate a due process hearing to challenge a decision regarding the identification, evaluation, or educational placement of their child.

Dispute Resolution

MSA-San Diego acknowledges its responsibility to resolve disputes or defend due process complaints arising as a result of MSA-San Diego's alleged failure to provide FAPE to students enrolled in the charter school. MSA-San Diego may also initiate a due process hearing or request for mediation with respect to a student enrolled in MSA-San Diego if it determines such action is legally necessary or advisable.

Complaint Procedures

Parents or guardians also have the right to file a complaint with SDUSD and/or California State Department of Education if they believe that the school has violated federal or state laws or regulations governing special education.

Section 504 of the Rehabilitation Act

MSA-San Diego recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of MSA-San Diego. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

MSA-San Diego shall be solely responsible for its compliance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act. All facilities of the MSA-San Diego shall be accessible for all students with disabilities in accordance with the ADA.

MSA-San Diego will designate one employee to coordinate the school's compliance with its responsibilities under Section 504. A 504 team will be assembled by the Principal or Principal-designated 504 Coordinator and shall include the parent/guardian, the student, a qualified staff member, and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student's existing records; including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team who will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials include those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligent quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills.

The final determination of whether the student is eligible for services under Section 504 must be made by the 504 team. Written notice of the eligibility determination will be provided to the parent or guardian of the student in their primary language, along with notice of the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the 504 team.

If the student is found by the 504 team to qualify for services and supports under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives the free and appropriate public education ("FAPE"). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the School's professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student's education, including substitutes and tutors, must have a copy of each student's 504 Plan. The Principal will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student's file. Each student's 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

Students in Other Subgroups

Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs are all cared for in our supportive school community. These students are identified through teacher/family/staff referral. Our Student Success Team process ensures these students receive any additional supports or interventions they may need, including referrals to outside agencies that may assist them or their families. We track the progress of these students carefully through the use of MSA-San Diego's data cycle and ensure our school supports them in achieving success and realizing better futures for themselves and their families.

Education for Foster Youth

MSA-San Diego recognizes that foster youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program, and their emotional, social, and other health needs. To enable such students to achieve state and charter school academic standards, MSA-San Diego shall provide them with full access to our educational program and implement strategies identified as necessary for the improvement of the academic achievement of foster youth in our LCAP.

As detailed in our "Education for Foster Youth Policy," in order to help facilitate the enrollment, placement, and transfer of foster youth to MSA-San Diego, we have designated the Principal as the Foster Youth Liaison. The Foster Youth Liaison, in consultation and agreement with the foster youth and the individual assigned educational rights, shall make educational and placement decisions in the "best interests" of the foster youth.

Best interests mean that consideration is given to, among other factors, the opportunity to be educated in the least restrictive educational program and that the foster youth has equitable access to the academic resources, student services related to counseling and health, supplemental instruction, and extracurricular and enrichment activities that are available to all MSA-San Diego students. MPS will make appropriate referrals to ensure that eligible students in foster care receive necessary special education services and services under Section 504 of the Federal Rehabilitation Act of 1973. Additionally, it will collaborate with the county placing agency, social services, probation officers, juvenile court officers, and other appropriate agencies. MPS will develop protocols and procedures for creating awareness for its staff, including but not limited to, the Principal, teachers, attendance clerks, and office staff, of the requirements for proper enrollment, placement, transfer and support of foster youth.

Education for Homeless Youth

MSA-San Diego refers to "homeless youth" as individuals who lack a fixed, regular and adequate night-time residence due to economic hardship. It includes children and youth who (42 USC 11434 (a)):

- Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- Have a primary night-time residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings;
- Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- Runaway children or children who are abandoned; and
- Migratory children and unaccompanied youth may be considered homeless if they meet the above definition of "homeless."

The Principal of MSA-San Diego serves as the Homeless Liaison for homeless students ((42 USC 22432 (g)(1)(J) & (e)(3)(c).)

The Principal who serves as the Homeless Liaison shall ensure that:

- Homeless students are identified by Charter School personnel and through coordination activities with other entities and agencies
- Homeless students enroll in, and have full and equal opportunity to succeed at MSA-San Diego
- Homeless students and families receive educational services for which they are eligible
- Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
- Homeless children and youth shall be provided services comparable to those received by other students in the Charter School, including transportation services, educational programs, services provided under Title 1, programs for students with disabilities, programs for students with Limited English Proficiency ("LEP"), vocational and technical programs, gifted and talented programs, and school nutrition programs.
- The Principal or designee will monitor Homeless students' progress.

"A TYPICAL DAY"

If prospective sixth grade students spent a day visiting MSA-San Diego, they would notice students on campus before school began, from about 7:30 a.m. to 8:10 a.m., some having breakfast (as part of the federal meals program) and visiting with friends, others having breakfast and working on an assignment, perhaps with the help of an older student or an adult tutor. As it nears time for class to begin (8:15 a.m.), they would see students heading toward their classrooms.

These prospective students would observe enthusiasm in both the teachers and students. Visitors would see students in a math lesson (or any other class) where the teacher is working with half the students while the rest are working online utilizing the Summit Learning Platform. In a science class, the teacher leads a class discussion to develop theories based on a specific inquiry for the upcoming lab. In the Advanced Math class, students are tackling math brain teasers in groups. Another class is conducting an electrolysis experiment and observing the production of hydrogen gas from water. Students are using STEAM and writing skills in hands-on projects that reinforce their learning. They would see sixth graders singing about the life cycle of a frog, and other sixth graders describing the ecosystem of the desert to their peers, some in Spanish. Visitors would see students were having fun and were engaged as they learned.

The prospective sixth graders would be intrigued by how the teachers used fun technology to explain things. One teacher would be seen introducing a poem about a pond through a PowerPoint with pictures of the pond, pond creatures and even a picture of the author when he was a kid and playing in a pond. Then she would use a smart board to show her students information on the web about the author, with the class continuing to research links on the web and read more about the author and his other poems. The student might even hear a rhythm coming from the hallways and leading to a class where the band class is taking place. The prospective student would walk in and see the students learning how to play certain instruments from guitar to piano as well as see students learning the history of musical compositions.

What the prospective student visitors might see but not been able to put into words is that teachers were using the inquiry-based method:

- Open-ended question or demonstration (as opposed to beginning a lesson with definitions and explanations)
- Student responses and questions
- Student collaboration designing experiments or methods of inquiry
- Team experiments "data" gathering
- Student presentations of findings (oral presentation, a poster presentation or an evaluative write-up.)

At lunch, they would observe all students practicing proper manners and good dining skills, and conversations taking place at an appropriate volume. A balanced lunch is provided, through the federal meals program, and students are encouraged to drink plenty of water. Visitors might see one of our frequent guest presenters during the lunch hour.

The after-school program is similarly appealing to visitors. The prospective new students would see students staying after school from 3:00 p.m. and 4:00 p.m. to participate in clubs, prepare for local, national and/or international competitions, and access free tutoring by teachers, volunteers and advanced students. By the time the visiting students leave for home, teachers would be engaged in discussion with parents/guardians regarding the progress of their children and cooperative strategies and action plans.

ELEMENT 2: MEASURABLE PUPIL OUTCOMES

"The measurable pupil outcomes identified for use by the charter school. 'Pupil outcomes,' for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school." Ed. Code § 47605(b)(5)(B).

MSA-San Diego will meet all statewide content and performance standards and targets. Ed. Code §§ 47605(c)(1), 60605. MSA-San Diego will comply with all applicable laws and regulations related to AB 97 (Local Control Funding Formula) and AB 484, as they may be amended from time to time, including all requirements pertaining to pupil outcomes.

THE REQUIREMENTS OF CALIFORNIA EDUCATION CODE § 47605(B)(5)(A)(II)

As a California charter school, MSA-San Diego assumes an increased level of accountability for all aspects of its programs and for achieving the goals described within the vision and mission of the school. MSA-SD will pursue the following school-wide and student group outcome goals, based on the state priorities detailed in California Education Code § 52060(d)(2)-(8). Student performance and achievement of school-wide, student group and individual student progress is measured by multiple and varied summative and formative assessments that are aligned to state and federal standards (including the CCSS) and reflect proficiency measures required by the new CAASPP, as well as state priorities detailed in California Education Code § 52060(d).

The following chart details the school's goals as of this petition submission, for all pupils (including statistically significant subgroups) pursuant to California Education Code Section 47605(b)(5)(A)(ii), 52052, for each of the state priorities identified in California Education Code § 52060(d)(2)-(8), including specific annual actions the school will take to achieve each of the identified annual goals. We note that as required under the California Education Code, MSA-SD's stakeholders will engage in a collaborative process each year to update and prepare an annual Local Control and Accountability Plan ("LCAP") as a basis for prioritizing allocation of funds. The following is intended to be illustrative of the goals and actions MSA-SD anticipates at this point in time.

LCFF STATE PRIORITIES
GOAL #1

All students will pursue academic excellence and be college/career ready.	Related State Priorities: ☒ 1 ☒ 4 ☐ 7 ☒ 2 ☐ 5 ☒ 8 ☐ 3 ☐ 6 Local Priorities: ☐: ☐:

Specific Annual Actions to Achieve Goal

- Charter School will conduct credential review as part of teacher hiring process and support our teachers' credentialing needs. Charter School will also annually review master schedule/teacher assignments to ensure compliance. We will support our teachers for their credentialing needs.
- Charter School will annually review alignment of instructional materials to standards and keep an inventory of instructional materials and corresponding purchase of materials. Charter School will annually review budget and plan to ensure adequate budget for instructional materials.
- Charter School will do annual and monthly facility inspections to screen for safety hazards. Daily general cleaning by custodial staff will maintain campus cleanliness.
- Charter School will ensure curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.). Teachers will be provided with instructional guidance and feedback through classroom visits.
- Charter School will provide services to ELs by proficiency level and provide integrated and designated ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan.
- Charter School teachers will provide instruction using integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and designated small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework.
- During the day, Charter School will provide additional supports and interventions to all students, including ELs.
- Charter School will provide additional supports and interventions to all students, including ELs, during after school hours and on Saturday.
- Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets.

Expected Annual Measurable Outcomes

Outcome #1: Charter School's teachers will be appropriately assigned and fully credentialed as required by law and the charter.

Metric/Method for Measuring: Percentage of teachers who will be appropriately assigned and fully credentialed as required by law and the charter

Applicable Student Groups	Baseline	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #2: Students will have sufficient access to standards-aligned instructional materials.

Metric/Method for Measuring: Percentage of students who will have sufficient access to standards-aligned instructional materials

Applicable Student Groups	Baseline	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #3: Items on facility inspection checklists will be in compliance/good standing.

Metric/Method for Measuring: Percentage of items on facility inspection checklists in compliance/good standing

Applicable Student Groups	Baseline	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide)	90%	≥90%	≥90%	≥90%	≥90%	≥90%

Outcome #4: Charter School will provide implementation of state standards for all students.

Metric/Method for Measuring: Percentage of state standards implementation for all students

Applicable Student Groups	Baseline	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide)	100%	100%	100%	100%	100%	100%

Outcome #5: All student groups will meet or exceed their proficiency targets on the CAASPP-ELA/Literacy assessments.

Metric/Method for Measuring: Percentage of students performing proficient on the CAASPP-ELA/Literacy assessments (Grades 6-8)

Applicable Student Groups	Baseline (2018)	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide)	61.08%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
English Learners	5.56%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Socioecon. Disadv./Low Income Students	40.91%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Students with Disabilities	21.95%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year

Homeless Students	*	*	*	*	*	*
Latino Students	46.61%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
White Students	67.55%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Two or More Races	69.23%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year

Outcome #6: All student groups will show growth on the CAASPP-ELA/Literacy assessments.

Metric/Method for Measuring: Change in Average Distance from Standard on CASSPP-ELA/Literacy assessments (Grades 6-8)

Applicable Student Groups	Baseline	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide)	22.4 points above standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
English Learners	12.7 points below standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
Socioecon. Disadv./Low Income Students	10.7 points below standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
Students with Disabilities	52.8 points below standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
Homeless Students	*	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
Latino Students	0.7 points below standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year
White Students	32.2 points above standard	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year

Two or More Races	39.7 points above standard	3 points up from prior year	3 points up from prior year	3 points up from prior year	3 points up from prior year	3 points up from prior year

Outcome #7: All student groups will meet their growth targets on the Reading section of our internal, common-core aligned Measures of Academic Progress (MAP) assessment.

Metric/Method for Measuring: Percentage of students meeting their growth targets on the MAP-Reading assessment

Applicable Student Groups	Baseline (2018)	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide)	60%	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year
English Learners	33%	5 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year
Socioecon. Disadv./Low Income Students	54%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year
Students with Disabilities	50%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year
Latino Students	58%	2 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year
White Students	56%	2 percentage points up from the prior year	2 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year	1 percentage points up from the prior year

Outcome #8: All student groups will meet or exceed their proficiency targets on the CAASPP-Mathematics assessments.

Metric/Method for Measuring: Percentage of students performing proficient on the CAASPP-Mathematics assessments

Applicable Student Groups	Baseline (2018)	2020-2021	2021-2022	2022-2023	2023-2024	2024-25

All Students (Schoolwide)	51.55%	3 points up from prior year	3 points up from prior year	3 points up from prior year	3 points up from prior year	3 points up from prior year

Specific Annual Actions to Achieve Goal

- Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives as outlined in its charter petition. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.
- Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups.
- Charter School will offer Accelerated and/or Advanced Math class and/or Advanced Math club to students in grades 6-8.
- Charter School will offer Computer/Technology classes and/or blended learning experience for our students. Charter School will also keep its technology up to date. Charter School teachers will participate in PD on Blended Learning.
- Charter School will provide opportunities for students during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. Charter School will also provide information and access to quality out-of-school STEAM activities and achievements.

Expected Annual Measurable Outcomes

Outcome #1: Charter School will provide the programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.

Metric/Method for Measuring: Percentage of the programs and services outlined in the charter petition that will be provided as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters

Applicable Student Groups	Baseline (2018)	2020-2021	2021-2022	2022-2023	2023-2024	2024-25

Specific Annual Actions to Achieve Goal

- Charter School will seek parent input in making decisions for the school through quarterly SSC, ELAC, and PTF meetings.
- Charter School will host parent activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs.
- Charter School will provide parents with access to course material, homework assignments, projects, and records of students' grades through SIS, an online web portal. Charter School will communicate further with the parents of students who are performing below grade level.
- Charter School teachers will visit students at their homes to discuss student progress and enhance student learning and involvement.
- Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs.
- Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance.
- Charter School will annually assess its suspension/expulsion policies and procedures and document and implement alternatives to suspension/expulsion, including restorative practices.
- Charter School staff will acknowledge and encourage positive student behavior and improvements. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations.
- Charter School will annually administer school experience surveys to students, parents, and staff.

Expected Annual Measurable Outcomes

Outcome #1: Charter School will hold quarterly SSC meetings.

Metric/Method for Measuring: Number of SSC meetings per year

Applicable Student Groups	Baseline (2018)	2020-2021	2021-2022	2022-2023	2023-2024	2024-25
All Students (Schoolwide and all subgroups)	4	≥4	≥4	≥4	≥4	≥4

Outcome #2: Charter School will hold quarterly English Learner Advisory Committee (ELAC) meetings.

Metric/Method for Measuring: Number of ELAC meetings per year

Full implementation of the educational program and frequent monitoring of student and school outcomes ensures that MSA-San Diego is an academic success and is achieving all of its overarching goals.

The CEO, Chief Academic Officer and other central office management staff, along with the Principal and school-site faculty are accountable for meeting MSA-San Diego's defined goals and objectives and achieving the school's mission and vision. The Principal is responsible for meeting target goals, and held accountable by the Chief Academic Officer, who in turn is held accountable by the CEO. The CEO reports directly to the MPS Board of Directors, which monitors student academic achievement and other stated goals included in the LCAP and individual position performance goals. The Principal is accountable for meeting applicable state accountability measures under the California State Dashboard, and any applicable federal accountability measures as may be developed.

In addition to the specific academic achievement goals detailed above, additional goals over the charter term include:

- MSA-San Diego will realize a high teacher retention rate and high teacher satisfaction rate (>80%) as measured on annual surveys.
- The Board of Directors will carry out its responsibilities with the utmost degree of good faith, honesty, integrity, loyalty and undivided service to the school as demonstrated by the actions of the Board and adherence to legal requirements.
- Financial planning and annual budgets will reflect the appropriate allocation of resources to ensure achievement of the school's vision and mission as demonstrated by balanced budgets that address the school's priorities and successful external audits.

These goals and our progress toward goals communicated regularly with our entire school community via our website, meetings and newsletters sent home.

ELEMENT 3: METHOD BY WHICH PUPIL PROGRESS TOWARD OUTCOMES WILL BE MEASURED

"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." **(Ed. Code § 47605(b)(5)(C).)**

MEASURING PUPIL PROGRESS TOWARD OUTCOMES: FORMATIVE AND SUMMATIVE ASSESSMENTS

As detailed in the LCFF tables presented in Element 2, MSA-San Diego implements numerous formative and summative assessment tools to measure pupil outcomes aligned with the state priorities; the information gathered and reported to stakeholders (see below) is consistent with the way information is reported in the Charter School's annual School Accountability Report Card (SARC). Measurable outcomes and assessment tools in each of the academic areas of the curriculum are important to tracking performance progress and provide key data about the efficacy of MSA-San Diego's academic program. This data is used to drive decisions about overall program development, as well as informing ongoing curriculum modifications and allocation of resources. The Principal, staff, and teachers of MSA-San Diego are held accountable by the MPS Board of Directors for meeting student outcome goals.

The measures that are used to assess student progress include all state-mandated standardized tests such as the CAASPP/CAA and CAST. MSA-San Diego also uses the Smarter Balanced Interim Benchmark Assessments and Block Assessments approximately five times a year that are designed to support teaching and learning throughout the year; and the Digital Library, designed to support classroom-based formative assessment processes. The Smarter Balanced Interim Assessments[22] are specifically designed to provide the following:

- Meaningful information for gauging student progress throughout the year toward mastery of the skills measured by the Summative Assessments
- Assessments of the CCSS, which can be used at strategic points during the school year.

MSA-San Diego administers both the Interim Comprehensive Assessments ("ICAs") and Interim Assessment Blocks ("IABs") to assess student learning and inform instruction.

Computer adapted NWEA MAP testing is utilized to measure student progress three times a year. As explained above in Element 1, students who are achieving substantially below grade level are identified through multiple measure assessments including MAP Tests, sample Smarter Balanced questions (as provided by the CDE's website), curriculum based assessments, and teacher-designed tests. For students achieving substantially below grade level, we use

[22] http://www.cde.ca.gov/ta/tg/sa/sbacinterimassess.asp

educational materials that provide review and re-teach programs. McGraw Hill's publisher's resources, Curriculum Associates' Ready Common Core program[23] programs allow teachers to monitor the progress of students who are achieving below grade level and provides software generated tests and personalized instructional materials based on CCSS/frameworks which have not been achieved. All formative assessments are given through McGraw-Hill publishers teachers can access them online as well as their Teacher Manuals. Teachers also, with the help of published materials, create standards-aligned formative assignments and tests that are evaluated using rubrics. Individual and team projects are evaluated using rubrics, and students are required to demonstrate research and critical thinking skills.

Assessment	Purpose/Performance Expectations	Grade	Timeline
Internally-Created Tests and Performance Tasks (presentations, papers, experiments, etc.)	Measure standards mastery across all courses/subjects.	6-8	Daily and/or weekly
Publisher-Designed Assessments	Assess mastery of unit/lesson content.	6-8	End of unit/end of semester or year.
CAASPP/California Alternate Assessments (CAA)	State Criterion-Based Assessment in ELA and Math	6-8	In May
California Science Test (CAST)	State Criterion-Based Assessment in Science	8	In May
NWEA MAPs	National Normed-Referenced assessments in ELA and Math	6-8	September, December (optional), and June
ELPAC	Measure language acquisition	6-8	Initial: within 30 days of enrollment Annual: February to May
SBAC /Interim Assessment Blocks	To support teaching and learning throughout the year	6-8	Throughout the year
SBAC Interim Comprehensive Assessment Block	Designed to provide meaningful information for	6-8	February

[23] The Charter School reserves the right to utilize alternate [resources/curriculum/vendors/providers/etc.] as long as consistent with applicable law and the needs of the Charter School, and as adopted by the Charter School administration and/or MSA Board of Directors, as applicable.

	gauging student progress		
PFT/FITNESSGRAM	To assist students in establishing lifetime habits of regular physical activity	7	February to May

DATA ANALYSIS AND REPORTING

As discussed extensively in Element 1, teachers use standards-aligned formative assessments to continually monitor student progress and to make adjustments on the curriculum and instructions when such is necessary and appropriate. MSA-San Diego utilizes diverse assessments that are aligned with the curriculum and instructional program, compliant with state priorities. Assessments are aligned to the Charter School's mission, exit outcomes and the curriculum. Results of these assessments are used to facilitate continuous improvement of the programs offered at the school site, direction of executive leadership, and short and long-range planning of the Board of Directors.

The Charter School's staff, led by the Dean of Academics, department chairs, and intervention/enrichment coordinator, collects, analyzes and reviews the results of school-wide assessments and recommend modifications, if they are needed, to the Charter School's curriculum and other programs at the end of every semester. Stakeholders are engaged in reviewing this data as part of the annual strategic planning and reporting processes, including annual LCAP updates, goal setting and resource allocations.

All parents are apprised of their students' progress through quarterly report cards issued for all grade levels. The Charter School records grades, attendance, homework, and student progress reports online and provide regular access to parents. For those parents without access to a computer, MSA-San Diego has computers on campus available for parent use.

ILLUMINATE: MSA-SAN DIEGO'S SCHOOL INFORMATION SYSTEM

MSA-San Diego uses Illuminate or equivalent for its internal school information system. Aside from providing a very effective online communication tool for teachers, students and parents (for course material, homework assignments, projects, course grade statistics and records of student grades), the system enables MSA-San Diego administrators to create and print any reports within seconds. The system can produce more than 100 pre-designed reports including CA State Average Daily Attendance and CalPADS reports as well as empowering administrators to easily design reports customized to their needs. Illuminate or equivalent is a great asset to MPS such that:

- Illuminate or equivalent empowers Home Office staff to supervise schools easily from anywhere. Home Office staff can take a snapshot of MSA-San Diego at any time in any aspect, including past data.

- This custom-made system is highly adjustable according to the charter schools' needs and is continuously being developed to meet specific demands as they arise.
- Longitudinal studies can be performed using Illuminate or equivalent.

Illuminate Education is built for educators, by educators. Illuminate's mission is to create tools to promote educator and student success. They focus on student achievement and provide the teacher a tool to do it all. Assessments, report cards, gradebooks, data analysis and parent communication will no longer be in multiple places but be entered in one system. District and site-level educators can analyze trends, instructional leaders can shape curriculum, and teachers can make improvements and provide differentiated instruction.

Illuminate helps free our data. No matter where the data lives you can now see it all in one place. Therefore, we can make real-time, data-informed decisions. We can get a holistic view of the students. From groups to individuals, we can visualize the data based on academics, demographics, attendance, social-emotional, and quantitative ways.

Once we have the students' data, we can analyze it through 23 pre-built assessment reports or custom reports based on what we need. We can start intervention sooner to use it as an early warning system that helps identify at-risk students based on factors you determine. Students can feel empowered to take ownership of their learning by viewing assessment results and teacher feedback to see opportunities for growth.

GRADING, PROGRESS REPORTING, AND PROMOTION/RETENTION

The primary purpose for grading is to provide feedback to students and parents on the achievement of learning goals. At least two progress reports and two report cards are mailed home per year. Progress reports are not final and indicate a student's performance to-date in the semester. Report cards are issued at the conclusion of each semester. Report cards are mailed home and include final grades that are reflected on a student's transcript.

At MSA-San Diego course report card grades are represented in letter-grade equivalent to the percentage earned in each course. Course report card grades are based on in-class performance tasks (assessments, projects, assignments, and classroom participation), homework, responsibility, and in some instances, additional discretionary components. Each department works with the Department Chair in conjunction with the Charter School's Dean of Academics to develop specific and consistent weights for each component, to be shared with parents and students.

MSA-San Diego follows a standard scale to assign letter grades for semester work. Grading is based on a 4.0 (unweighted) scale for regular courses. A

Middle School Grade Promotion

In middle school, course grades are semester-based and credit is granted at the end of each semester. Students need to have an end-of-the-semester final grade of at least a “C” (=2.0) to earn credit for the course.

To be promoted to the next grade, a middle school student must have a 2.0 GPA and passing grades in all core courses by the end of the school year or by the end of the summer before the start of the next school year. Core courses are Math, Science, English Language Arts, and History/Social Science.

If the student has a failed core course or has a recalculated GPA less than 2.0 after the summer before the start of the next school year, the student will be recommended for retention in the current grade unless the Charter School administration determines that retention is not the appropriate intervention for the student’s academic deficiencies. In that case, promotion is contingent upon a detailed plan to correct deficiencies.

ELEMENT 4: GOVERNANCE

"The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement." **(Ed. Code § 47605(b)(5)(D).)**

MSA-San Diego is a direct-funded independent charter school operated by MPS as a California non-profit public benefit corporation with 501(c)(3) designation by the IRS. MSA-San Diego is governed by the MPS Board of Directors ("Board") in accordance with the Charter Schools Act, California law, the MPS Bylaws, and the terms of this charter. MPS shall comply with the Brown Act and the Public Records Act. Copies of the MPS Articles of Incorporation, Bylaws and Conflict of Interest Code are in Appendices.

MSA-San Diego shall operate autonomously from the District, with the exception of supervisory oversight as required by statute and other contracted services as may be negotiated between the District and MSA-San Diego. Pursuant to Education Code Section 47604(c), the District shall not be liable for the debts and obligations of MSA-San Diego, nor will the District be liable for claims arising from the performance of acts, errors, or omissions by MSA-San Diego as long as the District has complied with all oversight responsibilities required by law.

All of the MPS corporate officers shall serve in a volunteer capacity and shall not be compensated for their services as an officer. The MPS CEO shall serve as the President of the corporation, but no other MPS employees shall serve as corporate officers. All of the other officer positions may be filled either by members of the Board or other volunteers, with a preference for non-Board members in order to ensure that the Board has oversight over the officers. The roles and duties of the officers are as established in the Bylaws and in any resolutions adopted by the Board of Directors.

MPS and its Board of Directors shall comply with the Charter, the Articles of Incorporation, Bylaws and the California Corporations Code, and all laws controlling charter schools. MPS, its Board of Directors, administrators, managers and employees, and any other committees of the Board, shall comply with all applicable federal and state laws and nonprofit integrity standards regarding ethics and conflicts of interest, including the Public Records Act (Government Code section 6250 *et seq*.), the Political Reform Act of 1974 (Gov. Code Section 81000 *et seq*.), the Brown Act (Government Code sections 54950 *et seq*.), and the requirements described at Government Code Section 1090 *et seq*. , along with the Charter Schools Act (Education Code Section 47604.1, effective January 1, 2020), and any attendant regulations as they may be amended from time to time, and any other applicable conflict of interest prohibitions. MPS shall not have any employees on its Board of Directors.

MPS has adopted a Conflict of Interest Code, pursuant to California Code of Regulations, title 2, Section 18730, including the formal designation of reporters and reporting categories and the forms to be filed thereunder. MPS shall review, revise and maintain that Code as current throughout the term of the Charter, and shall require all affected MPS officers, employees, representatives, consultants, and governing board members to comply therewith.

MSA-San Diego shall comply with the provisions of Education Code Section 52176(b) for the establishment and operation of an English Language Advisory Committee (ELAC), as applicable to the Charter School.

In the case of a conflict between the requirements of this Charter and provisions of the Articles of Incorporation and/or Bylaws, action taken in accordance with such Articles or Bylaws which conflicts with or is inconsistent with the requirements of the Charter shall be deemed a violation of this Charter. Should the provisions of the Charter conflict with the policies, practices, or terms of any collective bargaining agreement or other agreement of MPS, the provisions of the Charter shall prevail.

GOVERNANCE STRUCTURE

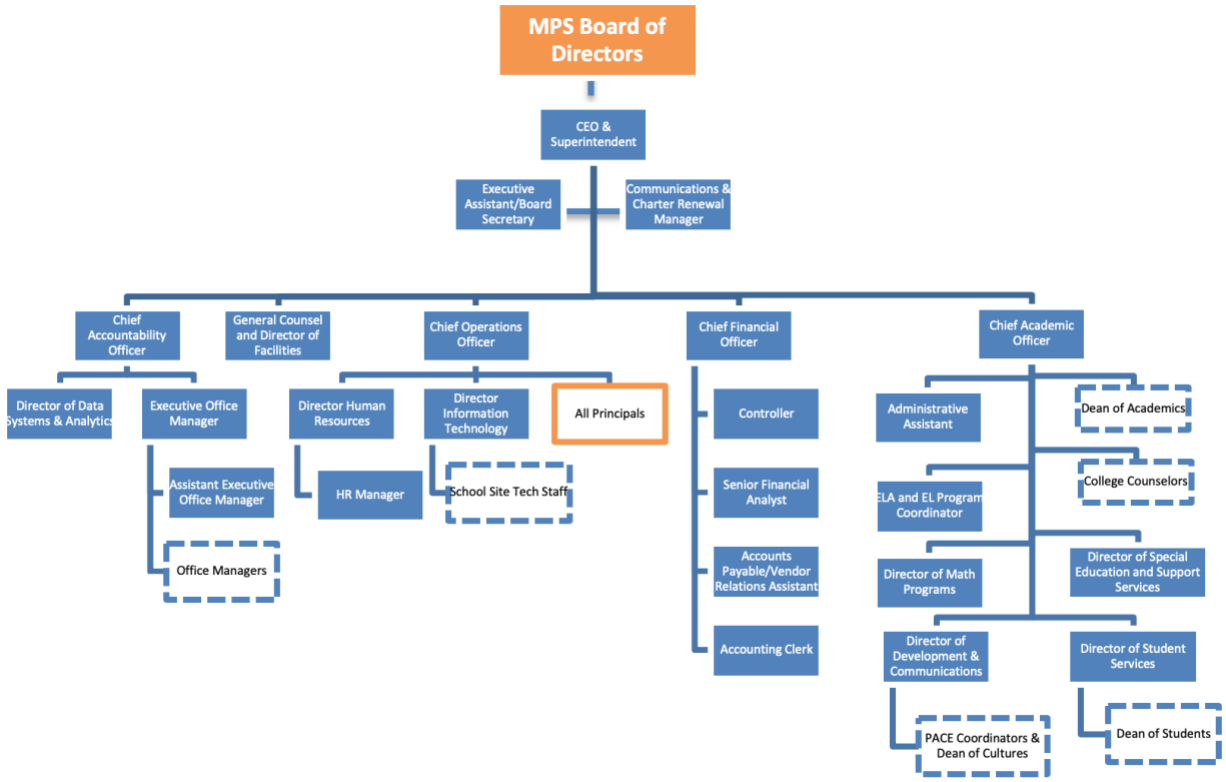
NONPROFIT PUBLIC BENEFIT CORPORATION

MSA-San Diego is a direct funded independent charter school operated by the Magnolia Education and Research Foundation, doing business as Magnolia Public Schools, a California Nonprofit Public Benefit Corporation, pursuant to California law. The MPS Board of Directors is responsible for the oversight of MSA-San Diego. The Board delegates all school management decisions, such as hiring teachers and school staff, day-to-day school management and adherence to Charter School policy, to the Chief Executive Officer/Superintendent of MPS and lead school site staff.

ORGANIZATIONAL CHARTS

The following briefly details the roles of the Home Office lead staff, followed by an Organizational Chart for the school site.

MPS Organizational Chart:



(A school site organizational chart is included below.)

MPS is structured as a single 501(c)(3) nonprofit organization which includes both the Home Office and the ten Charter Schools. Charter School personnel report to the Charter School Principal who, in turn, reports to the Home Office Chief Operations Officer. The Chief Operations Officer ensures that the Charter School receives effective operational, academic, and financial support from the Home Office staff on a shared basis with the rest of the Magnolia charter schools. The leadership and Board receive financial reports broken out by each Charter school and the Home Office, and annual independent Charter School audits, as well as a consolidated audit, conducted by outside auditors (in addition to all required reviews).

Board of Directors

The MPS Board of Directors ("Board") is responsible for overseeing MSA-San Diego's operation and governance. The Board is responsible for hiring and supervising the CEO. (See below for further details about the Board's role and operation.)

Magnolia Public Schools Home Office ("Home Office")

The MPS Home Office executes the decisions and policies set by the Board. Through the Home Office, MPS establishes its educational mission in all MPS schools. The Home Office provides

services to the charter schools, supports and holds accountable the charter schools for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the charter schools to receive services at a lower cost. The services of the Home Office include, but are not limited to:

- Academics
    - Academic standards, assessment, compliance and evaluation
    - Curriculum
    - Professional development and coaching
    - Special Education support
    - English Learner support
    - Gifted and Talented and special programs support
    - Science and blended learning advisory
- Operations
    - Governance support
    - Finance and accounting
    - Purchasing and contract compliance
    - Policies and procedures management
    - Legal
    - Facilities
    - Risk management
    - Information technology and data management
    - Auditing and compliance
    - Regional school site operational support
- Talent
    - Human resources operations
    - Recruitment and hiring
    - Credentials and qualifications oversight
    - Leadership development and career path support
- External Relations
    - Family and community engagement
    - Facilitation of school site governance councils and LCAP management
    - Development
    - Communications

Chief Executive Officer/Superintendent (“CEO”)

The CEO embodies, advocates, and puts into operation the vision, mission, and strategic direction of MPS, and oversees all aspects of the organization, including financial, operational, educational operations, and strategic planning. The CEO is not a member of the Board, but will fulfill the role of the corporation’s general manager and will have general supervision, direction, and control over the corporation’s business and officers, subject to the control of the Board. The CEO hires, supervises, disciplines, and as needed, dismisses the Charter School’s Principal,

who, in collaboration with the CEO and the HR department at the MPS Home Office, hires, promotes, disciplines, and as needed, dismisses staff and teachers at the Charter School. The CEO also oversees hiring, supervision, professional development, evaluation and dismissal of all C-level positions at the Home Office. All the C-level positions report to the CEO.

The Board ensures that the CEO is evaluated formally at least once annually, and the CEO, in turn, evaluates the Home Office staff.

Chief Academic Officer ("CAO")

Reporting to the CEO, the CAO is responsible for both sustaining and improving the culture of high academic excellence in all Magnolia Public Schools. The school administrators at each charter school as well as the curriculum and instructional support staff report directly to the CAO, who has primary authority and accountability for the academic performance of all schools. The CAO provides leadership, vision, and strategic direction for MPS' curriculum, instruction, assessment and school improvement initiatives overseeing professional development for all school leaders and supervising academic management of the charter schools.

Chief Operations Officer ("COO")

The COO leads all internal operations and, working in partnership with the Magnolia's Home Office Executive Team, Board and other leaders, creates the strategic five-year plan and implement new processes and approaches to achieve it. The COO serves as the internal leader of MPS, coordinating the annual operations plan and leading the performance management process that measures and evaluates progress against goals for the MPS. The COO provides for all staff a strong day-to-day leadership presence; bridges all functions and supports an open-door policy among all staff; provides Board support; and leads the organization's Regional Directors and Principals. Additionally, the COO directs and manages the various core business, financial, process, and systems functions of the MPS centralized HR Department. Provides strategic and operational direction to assigned organizational components, and provides leadership to the institution in strategic human resources planning and policy, process, and systems development. Directs organizational structuring and staffing, and oversees the supervision of all managerial, professional, paraprofessional, and support staff in each organizational component. Facilities and Technology Departments report to the COO as well.

Chief Financial Officer ("CFO")

The CFO is responsible for the financial performance of MPS and each of its schools. The CFO provides effective leadership to ensure sustainability, growth, and expansion and advises the CEO and Board on strategic financial plan, financial analysis and business modeling. The CFO ensures ethical and responsible decision-making, and appropriate financial management and governance practices.

Chief Accountability Officer

The Chief Accountability Officer is responsible for overseeing all non-financial reporting and compliance functions, preparing and implementing the annual surveys, and ensuring that the

organization and staff use consistent, rigorous evaluation tools to maintain the efficacy of Magnolia programs.

General Counsel and Director of Facilities

The General Counsel and Director of Facilities is responsible for working with architects, developers and consultants on the acquisition, design and construction of new facilities; planning, budgeting and project managing capital and tenant improvements; negotiating and managing leases; and managing relationships with landlords. The General Counsel and Director of Facilities also reviews vendor contracts.

Director of Student Services

The Director of Student Services is responsible for the effective coordination, delivery, evaluation and refinement of student services throughout MPS schools, and for ensuring that all programs are aligned with the outcomes for student success. Student services programs include student health services, psychological services, social work services, guidance services, and other student services. The Director of Student Services coordinates the administration, implementation, and evaluation of the MTSS, Positive Behavioral Support Program, Restorative Justice Implementation and support Charter School Deans to create a positive school climate. The Director of Student Services work collaboratively with all stakeholders to plan and support the implementation of MSA-Bell's Discipline Policy to create a culture shift that utilizes a restorative framework.

Director of Informational Technology

The Director of Informational Technology develops instructional material, coordinates educational content, and incorporates current technology in specialized fields that provide guidelines to educators.

Director of Development and Communications

The Director of Development and Communications oversees initiatives to raise funds and strengthen the organization's relationships with its supporters. Working closely with the CAO and CEO, the Director of Development and Communications directs all areas of development and communications for MPS. This position is primarily responsible for developing and rolling out effective and efficient programs that identify, cultivate, track and solicit prospective government, and private and family foundation sources for gifts to fund the organization's identified priorities. Additionally, the Director of Development and Communications ensures that Magnolia's communication efforts complement strategic goals and priorities, particularly regarding development, and marketing and closely support the MPS mission of providing a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

Director of Human Resources

The Director of Human Resources is responsible for executing the direction of human resources operations and support across all employee types including faculty and non-faculty employees.

This includes interpretation of MPS HR policies, providing consultation and advice on HR issues and concerns, and implementing HR strategies and plans within the MERF.

Director of Special Education and Support Services

This position plans, organizes, directs, and manages the Special Education Division within MPS; formulates programs and policies; coordinates and oversees services provided by the Home Office to all MPS schools; directs the development and implementation of in-service training programs; provides interpretation and guidance of compliance to laws; coordinates special programs/services; and manages and coordinates related services. This position also makes decisions of critical consequence, impacting recommendations and development of new or revised policies, procedures, and program services; has responsibility for providing services and support to all MPS schools; most frequently meets with the CAO along with other administrators and internal staff for the purpose of planning and directing activities, implementing decisions, justifying and defending decisions, and negotiating or settling significant and/or controversial issues. Responsibilities include direct and indirect supervision of professional, technical, and clerical personnel and related service providers.

Director of Math Programs

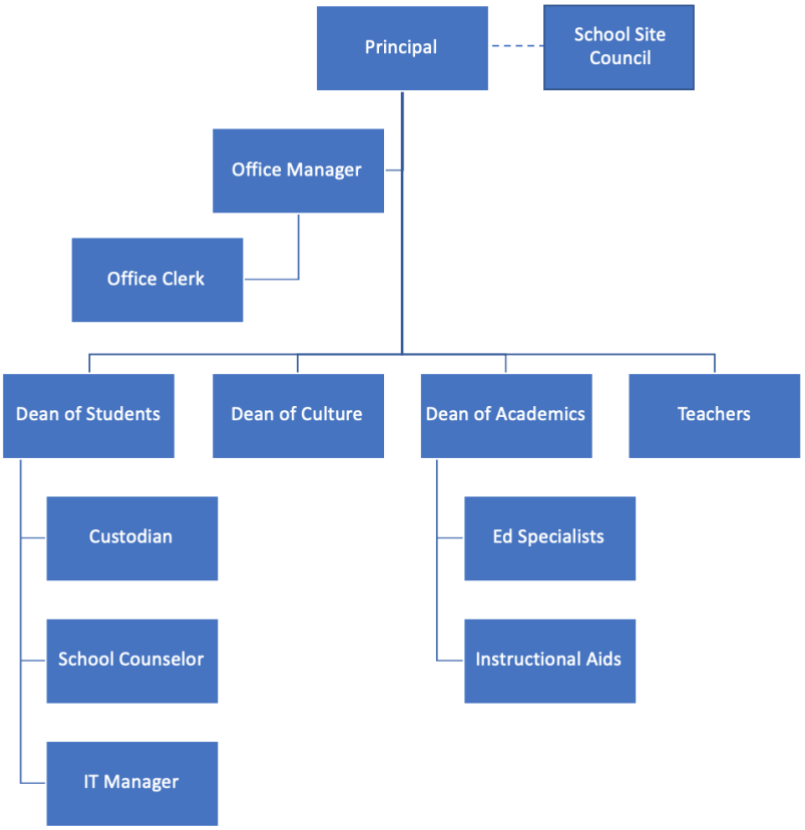
Reporting to the CAO, the Director of Math Programs supports all staff in the implementation of the MPS' math programs and curriculum at all school sites. The Director of Math Programs works directly with school administrators and teachers in Magnolia Public Schools providing classroom-based demonstrations, collaborative and one-on-one support, and facilitating teacher inquiry and related professional development. The director focuses on enhancing teachers' ability to provide instruction that builds students' sense of engagement in the ownership of learning. The Director of Math Programs will also work with administrators, instructional coaches, and teachers to collect and analyze data, interpret, and use it to guide instructional decisions.

Director of Data Systems & Analytics

The Director of Data Systems & Analytics oversees all academic and demographic data management at MPS; creates systems for data collection, storage, and analysis; oversees academic assessment systems; maintains and utilizes SIS and other academic software; assists with educational technology implementation and training. The Director of Data Systems & Analytics reports to the Chief Accountability Officer.

Current Organizational Chart of MSA-San Diego

School site personnel report to Principal who, in turn, reports to the Home Office COO. The COO ensures that the Charter School receives effective operational, academic, and financial support from the Home Office staff on a shared basis with the rest of the MPS Charter Schools.



While full job descriptions are provided as required in Element 5, the following briefly summarizes the leadership team roles at MSA-San Diego:

Principal

The Principal is the senior authority at the Charter School and is responsible for the day-to-day operation of the Charter School. The Principal is the educational and instructional leader of the Charter School, and collaborates with the Chief Academic Officer on school operations and management. The Principal also reports to the District as required.

Dean of Academics

The Dean of Academics coordinates all academic activities, leads professional development, and oversees curriculum, instruction, and assessment at the Charter School.

Dean of Students

The Dean of Students provides for enforcement of school rules, oversees appropriate and reasonable student discipline, and helps students develop positive behavior through a student discipline management system.

Dean of Culture

The Dean of Culture fosters a school climate that supports the Charter School's vision and mission and builds effective relationships among teachers, parents, and the community to improve the school culture.

GOVERNING BOARD COMPOSITION AND MEMBER SELECTION

The current Board consists of eight dedicated individuals. Each member of the Board has been carefully chosen for his/her passion and commitment to the MPS vision and mission, dedication to education, area of professional expertise, service to the community, and ability to support the vision and mission of MPS. No current employees may serve on the Board of Directors.

Each director shall hold office for five (5) years and until a successor director has been designated and qualified. Board terms are renewable upon mutual consent between the Board and the member. MPS's governance structure provides for staggered terms; this is accomplished through our Bylaws by appointing members of the Board at different times and for staggered terms.

In accordance with the Bylaws, all directors are designated by a vote of the existing Board of Directors. Any vacancy occurring on the Board of Directors shall be filled in accordance with the Bylaws. Any member of the community may refer a potential candidate to the Board. The Chairman of the Board of Directors will appoint a committee to designate qualified candidates for election to the Board of Directors. This Nominating Committee shall make its report and forward it to each board member with a list of all candidates nominated by the committee. The Board shall strive to include directors who have expertise in education, law, finance, non-profit management, community engagement and more. The Board is committed to maintaining community representation on the Board (e.g., persons who live within the communities where our schools reside), as well as a parent representative. Although not required, the Board will strive to create an odd number of Directors for voting purposes. The Board will strive to seat new Directors as promptly as possible upon any vacancy or change in the Board's designated number of directors.

Pursuant to California Education Code § 47604(b), the District reserves the right to appoint a representative to MPS' Board. If the District chooses to do so, MPS may choose to appoint an additional member to ensure that the Board is maintained with an odd number of directors.

GOVERNANCE PROCEDURES AND OPERATIONS

Board Meetings and Duties

All meetings of the Board and its committees shall be called, noticed, and held in compliance with the provisions of the Brown Act. The Board shall meet annually for the purpose of

organization, appointment of officers, and the transaction of such other business as may properly be brought before the meeting. This annual meeting shall be held at a time, date, and place as may be specified and noticed by resolution of the Board.

Regular meetings of the Board of Directors shall be held monthly at a date and time set by the Board (the second Thursday of the month, unless otherwise stated). Meetings will be held within the physical boundaries of the county in which the greatest number of pupils enrolled in those charter schools managed by MPS reside, and a two-way teleconference location shall be established at each schoolsite, in accordance with Education Code Section 47604.1(c)(4)(A)-(B). The schedule for regular Board meetings will be included in the Charter School's monthly calendar that will be distributed to all parents at the Charter School. Meeting notices and agendas will be made available and posted to the public prior to board meetings (both online posting as well as physical posting at the school site for public viewing on the school's bulletin board, front gate, and/or school entrance). For all regular meetings, an agenda will be posted 72 hours in advance. A book of minutes of all meetings, proceedings, and actions is kept at the MPS Home Office or such other place as the Board may direct according to its Bylaws. All of our approved minutes are accessible online through our Board on Track platform, which is linked on our website giving easy access to parents and stakeholders. In accordance with the Brown Act, special meetings of the Board may be held only after twenty-four (24) hours' notice is given to each director and to the public through the posting of an agenda.

To ensure public participation for all MPS stakeholders, MPS shall provide two-way teleconferencing access at each of its school site. This allows members of the public to watch and participate in Board meetings via two-way teleconferencing capabilities from each schoolsite, in addition to attending in person. Information about the participation procedure is included on the agenda and information web pages for the meetings. All participants/speakers have access to language translation services if requested in advance.

Members of the Board may participate in teleconference meetings so long as all of the following requirements in the Brown Act are complied with:

- At a minimum, a quorum consisting of a majority of the members of the Board shall participate in the teleconference meeting from locations within the boundaries of a school district in which at least one of the charter schools operated by MPS operates;
- All votes taken during a teleconference meeting shall be by roll call and in compliance with Brown Act;
- If the Board elects to use teleconferencing, it shall post agendas at all teleconference locations with each teleconference location being identified in the notice and agenda of the meeting;
- All locations where a member of the Board participates in a meeting via teleconference must be fully accessible to members of the public and shall be listed on the agenda;
- Members of the public must be able to hear what is said during the meeting and shall be provided with an opportunity to address the Board of Directors directly at each teleconference location; and

- The agenda shall indicate that members of the public attending a meeting conducted via teleconference need not give their name when entering the conference call.

MPS has adopted a Conflict of Interest Code and Policy that complies with Government Code Section 1090, the Political Reform Act, and Corporations Code. The Board of Directors attends an annual in-service for the purposes of training individual Board members on their responsibilities with topics including at minimum, Conflicts of Interest and the Brown Act.

The Board's responsibilities include, but are not limited to, the following:

- Exercises fiduciary role to ensure that the Charter School is properly managed;
- Maintains legal status; ensures the proper paperwork is submitted to governmental agencies;
- Reviews financial and business dealings and exercises proper judgment in avoiding conflicts of interest;
- Approves and monitors the annual budget and budget revisions;
- Reviews and approves periodic financial reports (balance sheet, income statement, changes in financial position);
- Determine the methods of raising revenue and approving all debts;
- Ensures that proper internal controls are in place and maintained;
- Establishes mission and strategic direction for the organization and approves goals and objectives designed to achieve those ends;
- Reviews strategic plan and progress;
- Assesses program evaluation plan;
- Assesses compliance/progress in achieving educational and other outcomes agreed to in the charter petition;
- Develop, adopt and periodically review written policies;
- Hires CEO and evaluates the CEO's performance;
- Assures long-range commitments of resources; establishes a fund development plan and participates in its implementation;
- Establishes and communicates clear expectations of Board membership;
- Assures effective participation of all directors;
- Defines, communicates and assures the role of the Board, committees, and CEO in making decisions;
- Promotes the organization to parents and the general public, including serving as an emissary of the organization to the broader community;
- Promotes cooperative action with other charter and traditional public schools, including activities and occasions when the Charter School should take part in coalitions, shared programs, and joint action;
- Approves awarding of contracts in excess of the delegated authority adopted. Our purchasing software has a control feature that limits approval authority per position as stated in the Fiscal Policy PUR101: up to $5,000 for Principals, up to $10,000 for Executive Team, up to $25,000 for CEO/Superintendent, over $25,000 for MPS Board of Directors. The Board reserves the right to update its fiscal policies, including approval authorities, from time to time in public meetings.

- Approves charter resolutions as necessary and submit requests for material revisions as necessary to the authorizer for consideration;
- Appoints an administrative panel or act as an appellate hearing body and take action on recommended student expulsions;
- Recruits and appoints new Board members and provide for orientation training;
- Maintains Board operations; and,
- Assesses its own performance.

The Board may initiate and carry on any program or activity or may otherwise act in a manner which is not in conflict with or inconsistent with or preempted by any law and which is not in conflict with this charter or the purposes for which MPS and its schools are established.

The Board may execute any powers delegated by law to it and shall discharge any duty imposed by law upon it and may delegate to an employee of MPS any of those duties such as, but not limited to budget approval or revision, contract approval, approval of the fiscal audit and performance reports, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Such delegation will:

- Be in writing;
- Specify the MPS Site designated;
- Describe in specific terms the authority of the Board of Directors being delegated, any conditions on the delegated authority or its exercise and the beginning and ending dates of the delegation; and
- Require an affirmative vote of a majority of Board members.

BOARD COMMITTEES

The Board, by resolution adopted by a majority of the directors then in office, may create one or more committees, each consisting of two or more directors and no one who is not a director, to serve at the pleasure of the Board. Appointments to committees of the Board shall be by majority vote of the authorized number of directors. The Board may appoint one or more directors as alternate members of any such committee, who may replace any absent member at any meeting. Any such committee shall have all the authority of the Board, to the extent provided in the Board's resolution, except that no committee may:

- Take any final action on any matter that, under the California Corporations Code, also requires approval of the members or approval of a majority of all members;
- Fill vacancies on the Board or any committee of the Board;
- Amend or repeal bylaws or adopt new bylaws;
- Amend or repeal any resolution of the Board that by its express terms is not so amendable or subject to repeal;
- Create any other committees of the Board or appoint the members of committees of the Board;

- Expend corporate funds to support a nominee for director if more people have been nominated for director than can be elected; or
- Approve any contract or transaction to which the corporation is a party unless delegated such authority by the full board.

Meetings and actions of committees of the Board shall be governed by the Brown Act. Minutes of each meeting shall be kept and shall be filed with the corporate records.

STAKEHOLDER INVOLVEMENT

All stakeholder groups within the school community play a vital role in advancing the vision and mission of MSA-San Diego and its programs. MPS is committed to ensuring that all stakeholder groups – staff, families, students and community members – have a voice in matters critical to the Charter School's success. MSA-San Diego strongly encourages parents to participate in and share the responsibility for the educational process and educational results of MSA-San Diego. In addition to a parent representative on the Board of Directors, parents are active participants in developing local school policies and leading efforts to engage the support of the community, making recommendations about issues related to the Charter School, and reviewing parental and community concerns. The following are the primary mechanisms through which stakeholders as the school site impact decision-making:

SCHOOL SITE COUNCIL ("SSC")

The School Site Council is a body that works with the Principal to develop, review, and evaluate school programs. The SSC consists of:

- The Principal
- 4 teacher representatives selected by teachers at the Charter School
- 1 other school personnel selected by peers at the Charter School
- 3 parents of students attending the Charter School selected by such parents
- 3 students selected by students attending the Charter School

The SSC meets at least four times a year and makes recommendations and participates in a shared decision-making process regarding matters of interest to families and teachers, including the annual LCAP process, budget priorities, approval of Title I budget, resource allocation, school events/activities and fundraising at the local school level. The SSC also develops and approves Single Plan for Student Achievement (as applicable), recommends it to the Board for implementation, and evaluates its effectiveness annually.

The Charter School will use its website to update parents and stakeholders with the school calendar, meeting dates, accountability plans, upcoming events, and more.

The Principal is responsible for communicating the SSC's recommendations to the CEO and/or Board (though all parents/teachers are invited to attend any Board meeting per the Brown Act).

English Learner Advisory Committee ("ELAC")

State law mandates each school site with 21 or more students of Limited English Proficiency in attendance, regardless of language, to form a functioning English Learner Advisory Committee. The ELAC will be formed at MSA-San Diego when the site has 21 or more students of LEP. The ELAC membership will include: Parents of ELs (at least the same percentage of the ELAC membership as ELs constitute of the Charter School's total student population), Charter School staff, and /or community members as long as the minimum percentage requirement for EL parents is maintained. The ELAC will advise the Principal and staff on programs and services for English Learners, and participate in annual goal setting and evaluation of EL achievement and needs (including the LCAP).

Parent Task Force ("PTF")

The PTF is the Parent/Guardian Club at MSA-San Diego, with a mission to contribute in building a rich supportive environment for students. The PTF works in partnership with the administration, teachers and parents of MSA-San Diego. All parents or guardians of students currently enrolled in MSA-San Diego are general members of the PTF, who elect leaders annually including a President, Vice President, Secretary, and Treasurer. The PTF holds monthly members' meetings during the school year.

The PTF facilitates students' success in the 21st century classroom and workforce by promoting and supporting high levels of academic performance, while fostering positive growth in social/emotional behaviors and attitudes. This will include, but is not limited to:

- Supporting the Charter School in its mission;
- Promoting communication and mutual respect among parents, faculty and administration;
- Supporting the educational and social objectives of the Charter School through PTF-sponsored programs;
- Providing direct financial support to the Charter School through organized fundraising events;
- Providing financial assistance to programs that directly impact teachers and students;
- Organizing community-building and civic engagement events.

There are various opportunities for parents to volunteer at MSA-San Diego. For example, they may help in classrooms, lead extra-curricular activities, assist in event planning, tutor, assist with lunch distribution, and attend instructional field trips. All parents/guardians are encouraged – but not required – to contribute 10 hours per year to the Charter School. Parents are encouraged to volunteer at Back to School Nights, PTF meetings, newsletter and various other opportunities. Parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School.

Student-Teacher-Parent Portal

As noted above, MSA-San Diego uses Illuminate or equivalent, an online web portal, to enable parents, students, and teachers to communicate more efficiently. Teachers have a webpage for every class in which they post course material, homework assignments, projects, course grade statistics and records of students' grades on quizzes, tests, class participation and homework assignments. Students and parents use confidential passwords to log on.

Families without home computers are encouraged to come to the Charter School and use one of the available computer stations. Classes are held at the Charter School on how to use the portal as well as how to access it via computers, smartphones and free Internet access at public libraries.

The charter school will use its website to support stakeholder involvement by actively updating the school calendar with meetings and opportunities for parents in both English and Spanish. Feedback from parents is collected through our PTF meetings and our yearly stakeholder surveys. We also give parents the opportunity to be a part of the LCAP process during the School Site Council meetings.

ELEMENT 5: EMPLOYEE QUALIFICATIONS

"The qualifications to be met by individuals to be employed by the charter school." **(Ed. Code § 47605(b)(5)(E).)**

Teachers and all paraprofessionals will meet the requirements for employment of California Education Code section 47605(l) and the applicable provisions of federal law. All teachers at MSA-San Diego will be required to have credentials equivalent to those required by the District as applicable and required by law (as may be amended from time to time) for core and college-preparatory courses. MSA-San Diego's core and college preparatory classes are English Language Arts, math, science and history/social science.

MPS prohibits discrimination and harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation.

SCHOOL SITE EMPLOYEE POSITIONS AND QUALIFICATIONS

All personnel commit to the MPS mission and vision and abide by the MPS Employee Handbook. All employees' job descriptions and work schedules are reviewed and modified as needed to meet the needs of the Charter School and its students. The job descriptions are based on the job duties for each employee and determined as part of the individual employment agreement.

PRINCIPAL

The Principal will orchestrate program and service delivery to students through teaching and auxiliary staff. Deans will assist the Principal in instructional program administration and student activities and services.

Skills and Qualifications for the Principal:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative credential or related Master's Degree preferred
- Experience in teaching STEAM related subjects and administrative duties preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools

- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Principal's Responsibilities and Duties:

- Monitor instructional and administrative processes to ensure that program activities are related to program outcomes and use findings to take corrective actions
- Report to and consult with the Home Office
- In collaboration with the CEO and Human Resources Department, hire, supervise, and evaluate the faculty and Charter School staff
- Hire, supervise, and evaluate the faculty and charter school site staff
- Comply with local, state and federal laws and regulations affecting the Charter School
- Compile, maintain, and file all physical and computerized reports, records, and other documents required by law and MPS policy, including accurate and timely reports of maximum attendance to requisition textbook
- Manage use of school facilities and supervise maintenance of facilities to ensure a clean, orderly and safe campus
- Direct and manage instructional extracurricular and intramural programs
- Oversee the Special Education program as described in Element 1
- Work with faculty and students to implement a student discipline management system that encourages positive student behavior and enhances the school climate
- Ensure that school rules are uniformly observed and that student discipline is appropriate and equitable in accordance with the Student/Parent Handbook
- Conduct conferences about student and school issues with parents, students, and teachers
- Demonstrate awareness of school and community needs and initiate activities to meet those needs
- Use appropriate and effective techniques to encourage community and parent involvement
- Communicate with the chartering agency and attend necessary meetings
- Communicate with the District when required

Dean of Academics

The Dean of Academics coordinates all academic activities, leads professional development, serves as the school site EL Coordinator and oversees curriculum, instruction, and assessment at the Charter School.

Skills and Qualifications:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative credential or related Master's Degree preferred
- Experience in teaching STEAM related subjects and administrative duties preferred

- Bilingual (Spanish) preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

Academic Program

- Assist with curriculum development and improvement
- Supervise textbook review and textbook ordering
- Oversee the development of curriculum, lesson plans and instruction in the classroom
- Update course descriptions and offerings to school manual and school website
- Coordinate teacher and student involvement of after school program
- Responsible for developing and changing of daily class schedule
- Coordinate all academic activities with the Department Chairs
- Oversee all instructional fieldtrip planning
- Coordinate failing letters and summer school/preparation
- Bring academic and event calendar to weekly administrative meetings
- Serve as school's EL Coordinator and:
    - Conduct classroom observations on a weekly basis to ensure integrated and designated ELD is occurring in all classrooms with ELs
    - Present an ELD strategy to teachers during weekly staff meetings
    - Monitor the creation and maintenance of an ELD portfolio for each EL student to monitor and showcase progress.
    - Regularly communicate with staff regarding the progress of ELs
    - Communicate on a regular basis with the MPS EL Coordinator and implement all updates and compliance requests in a timely manner
    - Participate in monthly meetings with school leadership regarding the needs of ELs (for example, plan strategies for professional development, provide insight from classroom observations, discuss data, and recommend resources)
    - Attend professional development relevant to ELs and share strategies and resources with teachers

Student Performance

- Conference with students/parents on academic issues
- Responsible for scheduling and coordination of the tutorial program and instructional after school/Saturday school activities
- Assess grade reports and mid-quarter reports before they go home to families

- Prepare standardized testing schedules, and inventory for standardized testing in a combined effort with the administrative assistant
- Oversee homework, class work, projects, tests, for teachers in Illuminate or equivalent
- Report weekly at administration meeting any teachers who are not using Illuminate or equivalent properly
- Review student progress at the end of each quarter and notify parents of students on academic probation
- Maintain list of high honor/honor students

School Improvement

- Assist in organization of school improvement plan (if applicable), LCAP and other plans with staff, parents and community members

Personnel Management

- Hold teacher evaluation conferences based on records of performance evaluation
- Administration and Fiscal/Facilities Management
- Oversee school operations in Principal's absence
- Assist in scheduling student activities by participating in the development of class schedules, teacher assignments and extracurricular activity schedules
- Oversee student attendance records and assist the office manager on truancy issues
- Aid in safety drill practices and inspections.

Staff Development

- Hold teacher orientation and in-service training throughout the year
- Regularly prepare items for staff development for weekly faculty meetings and attend weekly administrative meetings
- Conference with teachers on academic issues in the classroom
- Conduct formal and informal teacher observations

Dean of Students

The Dean of Students provides for enforcement of school rules, oversees appropriate and reasonable student discipline, and helps students develop positive behavior through a student discipline management system.

Skills and Qualifications for the Dean of Students:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative and/or teaching credential preferred
- Experience in teaching and administrative duties preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills
- Must pass Live Scan (criminal background check via fingerprinting)

- Tuberculosis risk assessment

Dean of Students' Responsibilities and Duties:

Student Management

- Provide for supervision of students during non-instructional hours
- Help students develop positive behavior through a student discipline management system
- Provide for uniform enforcement of school rules and oversee appropriate and reasonable student discipline
- Hold parent/teacher/student conferences regarding student and school issues
- Demonstrate use of productive and efficient skills to raise community and parent involvement

Supervision

- Supervise teachers with their before/after school and lunch duties
- Supervise at transition periods, lunch, before and after school

Discipline

- Oversee discipline issues for teachers in Illuminate or equivalent
- Coordinate and chair the Charter School's Restorative Justice Committee

Support Services

- Supervise safety and welfare of students
- Manage support services including transportation (as needed), custodial and cafeteria

Dean of Culture

The Dean of Culture fosters a school climate that supports the Charter School's vision and mission and builds effective relationships among teachers, parents, and the community to improve the school culture.

Skills and Qualifications for the Dean of Students:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative and/or teaching credential preferred
- Experience in teaching and administrative duties preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Dean of Culture's Responsibilities and Duties:

- Establish and maintain a positive, safe, and college-going school culture;

- Supervise the consistent and fair administration of school policies regarding student conduct and discipline during instructional time;
- Support teachers to create and sustain classroom management systems that ensure a focus on learning and student success;
- Oversee the development and implementation of student supports and interventions;
- Maintain systems for collecting and tracking data on school culture metrics, including discipline and attendance;
- Serve as a liaison to parents and facilitate parent education and involvement in support of school culture policies;
- In working with the Family and Community Liaison, play an active role in coordinating school partnerships;
- Create and present formal reports on school culture and safety;
- Facilitate faculty and staff professional development related to school culture and consistent enforcement of student discipline; and
- Organize school events that encourage community connection to and investment in the school culture and student success.
- Other job related duties and schedules assigned by supervisor

TEACHERS

The primary role and purpose of a teacher is to provide students with appropriate educational activities and experiences that will enable them to fulfill their potential for intellectual, emotional, physical and social growth. Teachers will help students develop the skills necessary to be productive members of society.

Skills and Qualifications:

- B.A. or B.S. (as appropriate) degree
- CLAD/BCLAD credential or other certificate, permit or other documentation required by laws and regulations as they apply to charter schools
- Understanding of subjects assigned
- Knowledge of curriculum and instruction
- Capability of instructing students and managing their behavior
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication and interpersonal skills
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Teacher's Responsibilities and Duties:

Instructional Strategies

- Design, write and use lesson plans that conform to the charter's curriculum; ensure written plans are available for review by the Dean of Academics
- Ensure lesson plans show modifications for differences in student learning styles

- Teach instructional subjects according to guidelines established by California Department of Education, charter polices and administrative regulations
- Implement appropriate instructional and learning strategies, activities, materials and equipment to ensure comprehension of learning styles and student needs
- Design instructional activities by using data from student learning style assessments
- Collaborate with Education Specialist (SpEd Teacher)s on student Individualized Education Programs to ensure all modifications are met
- Collaborate with staff to determine charter requirements for the instructional goals, objective and methods
- Produce and oversee teacher aide and volunteer assignments
- Employ technology practices to strengthen the instructional process

Growth and Development

- Help students assess and enhance their study methods and habits
- Produce formal and informal testing to evaluate student success
- Coordinate and manage extracurricular duties as assigned
- Sponsor outside activities approved by the Principal
- Serve as an example for students, support mission of the charter

Classroom Management and Organization

- Prepare classroom to enhance learning and to aid in physical, social and emotional development of students
- Manage student behavior in agreement with the Student/Parent Handbook
- Ensure necessary and reasonable measures are taken to protect students, equipment, materials and facilities
- Provide input on book, equipment and material selection

Communication

- Establish communication rapport with parents, students, Principal, Deans and teachers through conferences.
- Create and maintain a professional relationship with colleagues, students, parents and community members.
- Present information accurately through clear communication skills

Other

- Enrich job skills through professional development activities
- Keep up to date on and abide by state and charter regulations and policies for classroom teachers
- Gather, manage and file all reports, records and other documents required
- Be active in faculty meetings and assist in staff committees as necessary

EDUCATION SPECIALISTS (SPED TEACHER)

The primary role and responsibility of an Education Specialist is to provide services to special education students with appropriate learning activities and experiences that will enable them to fulfill their potential for intellectual, emotional, physical and social growth. The Education Specialist develops student ability level instructional materials through modified curriculum and prepared lesson plans. The Education Specialist conducts work in self-contained, team,

departmental or itinerant capacity as necessary. Education Specialists and paraprofessionals who are authorized to handle crisis situations and physically restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute, prior to placement in the classroom.

Skills and Qualifications:

- B.A. or B.S. degree
- Master's degree preferred
- California Commission on Teacher Credentialing certificate, permit or other documentation equivalent to what a special education teacher in other public schools would be required to hold
- Knowledge of special needs of students in assigned area
- Knowledge of IEP goal setting process and implementation
- Knowledge of curriculum and instruction
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Education Specialist's Responsibilities and Duties:

- Work in conjunction with students, parents and other members of staff to develop IEPs
- Design, write and use instructional, therapeutic or skill development programs for assigned students and ensure written plan is available for review
- Ensure student needs and learning styles are met through creation and implementation of appropriate instructional and learning strategies, activities, materials and equipment
- Collaborate with classroom teacher on student IEP to ensure all modifications are met and help special education students in regular class when appropriate
- Design instructional activities by using data from student learning style assessments
- Ensure IEP guidelines are met when presenting subject matter
- Use an assortment of media and techniques to meet the needs and capabilities of each student assigned
- Produce and oversee teacher aide and volunteer assignments
- Employ technology practices to strengthen the instructional process
- Produce formal and informal testing to evaluate student success
- Oversee or ensure personal care, medical care and feeding of students as stated in IEP
- Coordinate and manage extracurricular duties as assigned
- Sponsor outside activities approved by the charter principal
- Serve as an example for students, support mission of the charter
- Prepare classroom to enhance learning and to aid in physical, social and emotional development of students
- Control student behavior and implement discipline plan. This includes handling crisis situations and physically restraining students as necessary according to IEPs.
- Collaborate with the classroom teachers regarding student behavior management programs according to IEPs
- Collaborate with Charter School staff and outside resources regarding education, social, medical and personal needs of students

- Ensure necessary and reasonable measures are taken to protect students, equipment, materials and facilities
- Provide input on book, equipment and material selection
- Ensure good communication rapport with parents, students, principals and teachers through conferences
- Create and maintain a professional relationship with colleagues, students, parents and community members
- Present information accurately through clear communication skills
- Enrich job skills through professional development activities
- Keep up to date on and abide by state and charter regulations and policies for classroom teachers
- Gather, manage and file all reports, records and other documents required
- Be active in faculty meetings and assist in staff committees as necessary
- Provide scalable instructional program leadership to all school leaders with specific responsibility for planning, development, implementation, assessment and improvement across all schools.

Special Education Aide

The primary role and purpose of a Special Education Aide is to provide assistance to the Education Specialist for the physical and instructional needs of the charter students with disabilities in the special education program. The Special Education Aide helps implement educational programs, including self-help, behavior management and instructional programs for students. The Special Education Aide works under direct supervision of a certified teacher and indirect supervision of the Principal. Special education aides who are authorized to handle crisis situations and physically restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute, prior to placement in the classroom.

Skills and Qualifications:

- Capable of working with children with disabilities
- Capable of following verbal and written instructions
- Capable of communicating effectively
- Able to use general office equipment
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- High School Diploma
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Special Education Aide's Responsibilities and Duties:
Instructional Support

- Prepare educational materials and displays for the classroom with the assistance of the classroom teacher

- Assist in keeping class neat and orderly
- Assist teacher in handling administrative records and reports
- Help substitute teachers with classroom layout, or other pertinent classroom management
- Assist with inventory, care and maintenance of equipment

Student Management

- Help physically disabled students according to their needs, including but not limited to transferring to and from wheelchairs, lifting, or positioning
- Help students with physical needs and personal care, including but not limited to feeding, bathroom needs, and personal hygiene
- Assist in student behavior management; this includes handling crisis situations and restraining disruptive or dangerous students as needed
- Take responsibility for learning and conforming to each student's special medical, physical, communicative and emotional needs
- Coordinate educational activities assigned by the teacher; help individual students or small groups
- Assist in overseeing students throughout school day, inside and outside classroom; this includes lunchroom, bus and playground duty
- Advise teacher on special needs or problems of individual students

Other

- Ensure confidentiality
- Enhance job skills by participating in staff development programs
- Be active in faculty meetings and special events as assigned

SCHOOL COUNSELOR

Skills and Qualifications:

- B.A. or B.S. degree
- Master's degree preferred
- California Commission on Teacher Credentialing certificate, permit or other documentation equivalent to what a special education teacher in other public schools would be required to hold
- Knowledge of special needs of students in assigned area
- Knowledge of IEP goal setting process and implementation
- Knowledge of curriculum and instruction
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

- One-on-one and group counseling
- Work with teachers and staff members to ensure that the needs of each special needs student are being met.

- Collaborate with teachers to develop more effective support services for the child working with teachers and staff members to develop a better understanding of the interventions in place to help the child succeed.
- Special education counselor works extensively with families.
- Understand school policies and procedures.

Substitute Teachers and Tutors

A pool of daily substitute teachers and tutors will be established for tutoring activities during weekdays and weekends under the flexible education program. All tutoring activities at MSA-San Diego are free of charge for all students.

IT Manager

The IT Manager is responsible for providing assistance to the school site in the area of Information Technology.

Skills and Qualifications:

- Proven experience as IT manager or similar role
- Experience in network management and help desk support is appreciated
- Solid knowledge of IT systems and applications
- Understanding of TCP/IP protocols and LAN/WAN configuration
- Ability to troubleshoot and repair issues
- Strong communication and interpersonal skills
- Great attention to detail
- Excellent organizational and coordination abilities
- BSc/BA in information technology or computer science is preferred
- Certification (CompTIA Network+, CompTIA Security+ etc.) is a plus
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

- Institute protocols for the use of IT across departments and projects
- Provide advice on the most suitable IT choices
- Provide technical support or training for systems and networks
- Act as link between end users and higher level support
- Install and configure software and hardware (printers, network cards etc.)
- Monitor system and network performance
- Perform troubleshooting, repairs and data restoration
- Performance maintenance activities (e.g. backups)
- Maintain licenses and upgrade schedules
- Collaborate with other professionals to maintain standards and functionality

Office Personnel/Manager

Clerical staff will be selected by the Principal on an applicant and interview basis. Selection will be based on experience and the ability to perform the job duties for that position.
Skills and Qualifications:

- Capable of working with students
- Capable of following verbal and written instructions
- Capable of communicating effectively
- Knowledge of office management
- Able to use general office equipment
- Up-to-date computer and technology knowledge
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills.
- Three years of experience in increasingly responsible role similar to office management
- HS Diploma supplemented by additional training in office
- Bilingual English/Spanish preferred but not required
- Excellent written and verbal communication skills
- Comfort with fast-paces environment
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

- Answering phones
- Filing reports
- Enrolling students
- Managing and monitoring office operations in collaboration with the Charter School administration
- Ordering and purchasing supplies and vendor management
- Developing and implementing clerical and administrative procedures for daily school operations
- Preparing correspondence, reports, bulletins, files, forms, memorandums, and performing other duties as assigned
- Bilingual translation and communication with parents

Custodian

Skills and Qualifications:

- Capable of working with students
- Capable of communicating effectively
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Bilingual English/Spanish preferred but not required
- Comfort with fast-paced environment

- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

- Clean building floors by sweeping, mopping, scrubbing, or vacuuming.
- Service, clean, or supply restrooms.
- Clean windows, glass partitions, or mirrors, using soapy water or other cleaners, sponges, or squeegees.
- Gather and empty trash.
- Notify Principal concerning the need for major repairs or additions to building operating systems.
- Follow procedures for the use of chemical cleaners and power equipment to prevent damage to floors and fixtures.
- Dust furniture, walls, machines, or equipment.
- Clean and polish furniture and fixtures.
- Requisition supplies or equipment needed for cleaning and maintenance duties.
- Mix water and detergents or acids in containers to prepare cleaning solutions, according to specifications.
- Move heavy furniture, equipment, or supplies, either manually or by using hand trucks.
- Set up, arrange, or remove decorations, tables, chairs, ladders, or scaffolding to prepare facilities for events, such as banquets or meetings.
- Drive vans, industrial trucks, or other vehicles required to travel to or to perform cleaning work.
- Clean laboratory equipment, such as glassware or metal instruments, using solvents, brushes, rags, or power cleaning equipment.
- Other job related duties and schedules assigned by supervisor

PARAPROFESSIONALS

Charter School shall comply with the Title I paraprofessional requirements[24] as defined by the ESEA:

Title I paraprofessionals whose duties include instructional support must have:

1. High school diploma or the equivalent, and
2. Two years of college (48 units), or
3. A. A. degree (or higher), or
4. Pass a local assessment of knowledge and skills in assisting in instruction. *(This is a locally approved assessment. Local education agencies may develop their own assessment or use an existing assessment so long as it measures the knowledge and skills in assisting in instruction. Many districts, and MPS, use the California Basic Educational Skills Test ["CBEST"] for this purpose).*

[24] http://www.cde.ca.gov/nclb/sr/tq/paraprofessionals.asp

Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance, and similar positions do not have to meet these requirements; however, all must demonstrate a proven commitment to the values, mission and vision of Magnolia Public Schools, as well as a belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education.

Appropriate records of credentials held by MSA-San Diego teachers and supporting documentation will be monitored and maintained by the Principal at the Charter School site and Human Resources at the MPS Home Office. Credentials will be monitored annually in compliance with state and federal law.

ELEMENT 6: HEALTH AND SAFETY PROCEDURES

"The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following:

(i) That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

(ii) The development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (H), inclusive, of paragraph (2) of subdivision (a) of Section 32282 and procedures for conducting tactical responses to criminal incidents.

(iii) That the school safety plan be reviewed and updated by March 1 of every year by the charter school." **Ed. Code § 47605(b)(5)(F).**

The health and safety of MSA-San Diego staff and students is the highest priority for the school. As such, MSA-San Diego has adopted and will continue to implement full health and safety policies and procedures and risk management policies at its school site in consultation with its insurance carriers and risk management experts.

SCHOOL SAFETY PLAN

The Charter School shall adopt a School Safety Plan, to be reviewed and updated by March 1 of every year, which shall include identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the Charter School's procedures for complying with applicable laws related to school safety, including the development of all of the following pursuant to Education Code Section 32282(a)(2)(A)-(H):

- child abuse reporting procedures
- routine and emergency disaster procedures
- policies for students who committed an act under Section 48915 and other Charter School-designated serious acts leading to suspension, expulsion, or mandatory expulsion recommendations
- procedures to notify teachers of dangerous students pursuant to Education Code Section 49079
- a discrimination and harassment policy consistent with Education Code Section 200
- provisions of any schoolwide dress code that prohibits students from wearing "gang-related apparel," if applicable
- procedures for safe ingress and egress of pupils, parents, and employees to and from the Charter School
- a safe and orderly environment conductive to learning
- procedures for conducting tactical responses to criminal incidents.

HEALTH AND SAFETY POLICIES

The following is a summary of the Health and Safety Policies of MSA-San Diego:

Medication in School

The Charter School will adhere to Education Code Section 49423 regarding administration of medication in school. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members.

Diabetes

The Charter School will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.
4. A description of treatments and prevention methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

Prevention of Human Trafficking

By January 1, 2020, the Charter School shall identify and implement the most appropriate methods of informing parents and guardians of students in grades 6 through 12 of human trafficking prevention resources.

Feminine Hygiene Products

The Charter School will stock at least 50% of its restrooms with feminine hygiene products, and shall not charge students for these products, pursuant to Education Code Section 35292.6.

Nutritionally Adequate Free or Reduced Price Meal

The Charter School shall provide each needy student, as defined in Education Code Section 49552, with one nutritionally adequate free or reduced-price meal, as defined in Education Code Section 49553(a), during each school day.

California Healthy Youth Act

The Charter School shall teach sexual health education and human immunodeficiency virus ("HIV") prevention education to students in grades 7-8, at least once, pursuant to the California Healthy Youth Act (Education Code Section 51930, *et seq.*).

Bullying Prevention

By December 31, 2019, the Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children. (See also, Element 10.)

Procedures for Background Checks

All employees of MPS, all volunteers who will be performing services that are not under the direct supervision of a credentialed Charter School employee, and any onsite independent contractors or vendors having unsupervised contact with students, will be required to submit to criminal background checks and fingerprinting in accordance with Education Code Sections 44237 and 45125.1. All applicants for employment must submit two sets of fingerprints to the California Department of Justice for the purpose of obtaining a criminal record summary. The Charter School shall not hire any person, in either a certificated or non-certificated/classified position, who has been convicted of a violent or serious felony except as otherwise provided by law, pursuant to Education Code Sections 44830.1 and 45122.1. Volunteers who will be outside the direct supervision of a credentialed employee shall be fingerprinted and receive background clearance prior to volunteering on campus. The Principal of MSA-San Diego shall monitor compliance with this policy (the Home Office Director of Human Resources shall monitor fingerprinting and background clearance of the Principal and MPS staff) and make quarterly reports to the Board. Charter School will maintain on file and available for inspection evidence that the school has performed criminal background checks for all employees and documentation that vendors have conducted required criminal background checks for their employees prior to any unsupervised contact with students. MSA-San Diego shall also ensure that the Principal receives subsequent arrest notifications of all individuals subject to background checks from the Department of Justice to ensure the ongoing safety of its students.

Role of Staff as Mandated Child Abuse Reporters

In accordance with state law, all MPS employees will be mandated to report any suspected child abuse and will follow all applicable reporting laws. All mandated reporters shall receive training on child abuse detection and reporting within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year, and sign a document verifying notification and understanding regarding this responsibility.

Blood-borne Pathogens

Charter School shall meet state and federal standards for dealing with blood-borne pathogens and other potentially infectious materials in the workplace. Charter School will continue to maintain a written "Exposure Control Plan" designed to protect employees from possible infection due to contact with blood-borne viruses, including human immunodeficiency virus (HIV) and hepatitis B virus (HBV). Whenever exposed to blood or other body fluids through injury or accident, students, and staff should follow the latest medical protocol for disinfecting procedures.

Tuberculosis Risk Assessment and Examination

Employees, and volunteers who have frequent or prolonged contact with students, will be assessed and examined (if necessary) for tuberculosis prior to commencing employment and working with students, and for employees at least once each four years thereafter, as required by Education Code Section 49406.

Immunizations

Charter School will adhere to all laws related to legally required immunizations for entering students as is required of non-charter public schools pursuant to Health and Safety Code §120325-120375, and Title 17, California Code of Regulations §6000-6075. This includes immunizations for polio, diphtheria, tetanus, pertussis, measles mumps, rubella, and hepatitis B as described in the Department of Health Services Document IMM-231. All rising 7th grade students must be immunized with a pertussis (whooping cough) vaccine booster.

Vision/Hearing/Scoliosis Screenings

MSA-San Diego shall adhere to Education Code §49450, *et seq.*, to provide screening of students' vision, hearing, and scoliosis to the same extent required of non-charter public schools.

Suicide Prevention Policy

The MPS Board of Directors recognizes that suicide is a major cause of death among youth and should be taken seriously. To attempt to reduce suicidal behavior and its impact on students and families, the Board of Directors has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this Suicide Prevention Policy has been developed in consultation with MPS and community stakeholders, MPS-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, law enforcement, and community organizations. MPS must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School shall appoint an individual (or team) to serve as the suicide prevention point of contact for Charter School. This policy shall be reviewed and revised at least annually in conjunction with the previously mentioned community stakeholders.

Emergency Preparedness

Charter School shall adhere to an Emergency Preparedness Handbook containing procedures for safety, drafted specifically to the needs of the school facility. This handbook shall include but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. All staff members will receive detailed training on emergency procedures. The handbook shall be kept on file for review.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

Health Education

Health education will include discussion about drug and alcohol abuse, sexual health and suicide prevention at appropriate grade levels pursuant to the California Healthy Youth Act (Education Code Section 51930, *et seq.*).

Drug Free/Alcohol Free/Smoke Free Environment

Charter School shall function as a drug, alcohol and smoke-free environment.

Facility Safety

Charter School shall comply with Education Code Section 47610 by utilizing facilities that are either compliant with the Field Act or facilities that are compliant with the California Building Standards Code. The facilities are fully permitted and have legal occupancy for educational use. MSA-San Diego entered into a Ground License by and Between San Diego Unified School District and Magnolia Educational and Research Foundation on July 1, 2017 to occupy the facilities. The facilities comply with state building codes; federal American Disabilities Act (ADA) access requirements; and other applicable fire, health, structural safety requirements, and local building codes. The Charter School maintains records documenting such compliance. The Charter School agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times. The Charter School shall conduct fire drills as required under Education Code Section 32001.

COMPREHENSIVE ANTI-DISCRIMINATION AND HARASSMENT POLICIES AND PROCEDURES

Charter School is committed to providing a school that is free from discrimination and sexual harassment, as well as any harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, immigration status, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. MSA-San Diego shall develop a comprehensive policy regarding discrimination or harassment (including employee to employee, employee to student, and student to employee misconduct). Misconduct of this nature is very serious and will be promptly addressed in accordance with MSA-San Diego's policies.

FERPA

MPS, its employees and officers, will comply with the Family Educational Rights and Privacy Act (FERPA) at all times.

STUDENT RECORDS

Charter School will continue to adhere to procedures related to confidentially and privacy of student records. Charter School will keep student records in a locked file cabinet to which only designated staff will have keys, in accordance with MPS policies. Student special education files will be kept in separate locked cabinets to which only staff designated to have access shall have keys. Electronic student information systems will use password protected accounts to ensure the same limits on access to student files. In the event that a student enters the school upon transfer from an existing district school, the student's records will be requested from the respective district.

CUSTODIAN OF RECORDS

In accordance with California Department of Justice requirements, the CEO shall serve as MSA-San Diego's Custodian of Records.

ELEMENT 7: MEANS TO ACHIEVE RACIAL AND ETHNIC BALANCE

"The means by which the charter school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." **Ed. Code § 47605(b)(5)(G*).***

MSA-San Diego will continue to actively recruit a diverse student population who value the school's mission, are committed to the school's instructional and operational philosophy, and who benefit from the school's design.

RECRUITMENT PLAN

MSA-San Diego pursues a wide variety of venues for the distribution of information about the Charter School, such as local events, community centers, parks and recreation activities, social service agencies, shopping centers, apartment complexes and other dwellings. The following recruitment plan lists sample activities that MSA-San Diego will undertake to ensure full enrollment of the school with a diverse student population.

Outreach efforts use English, Spanish, and any other language needed, based on the needs of the community. The MPS and MSA-San Diego website includes comprehensive information about our educational program under our Academics tab on the website. While open to all students, MSA-San Diego focuses outreach efforts within a 10-mile radius of the Charter School's location.

MSA-San Diego uses a variety of strategies to recruit a diverse population including:

- Direct mailing of postcards to the parents/guardians who have 5th and 6th grade children;
- Distributing flyers at key locations to reach socioeconomically disadvantaged members of the community. Key locations include community meeting points: libraries, religious gathering places, family centers, local grocery stores, playgrounds, recreation centers and/or sports clubs, and coffee establishments;
- Holding presentations at community meetings at the key locations listed above;
- Hosting Open Houses and providing tours of the Charter School on a regular basis; A Spanish-speaking representative will assist non-English speaking parents of prospective students. Should the need arise, other non-English languages will be similarly accommodated.
- Hosting individual/family meetings;
- Doing neighborhood walks in the community.

As needed, school staff and volunteers may go door-to-door, talk to families, and hand out applications, and use press and advertising campaigns in local Spanish and English media.

MSA-San Diego uses a variety of strategies to recruit a diverse population. With our current partnerships in the City of San Diego we are able to participate in community events. In addition to our outreach strategies in the community we also use media outlets such as Facebook, Twitter, and website as well as local ads on magazines/newspapers.

Anticipated Year-Round Recruitment Events

Ongoing 2019-2020	• Presentations in local churches • Flyers (Spanish on the back) to mail distribution centers • Referral Program (T-shirt and free dress passes) • 12,000 postcards to new families • Pop up on website – now enrolling, new site, limited space • Website update on new site • Social media updates on new site • *Mission Times Courier* – Ad and Editorial	Online and local media outlets

Following the conclusion of the open enrollment/lottery application period each year (see Element 8), the CEO and Board will review data regarding the efficacy of our outreach efforts and any necessary changes to ensure an appropriate racial/ethnic balance of students.

ELEMENT 8: ADMISSION POLICIES AND PROCEDURES

"Admission policies and procedures consistent with [Education Code Section 47605] subdivision (d)."
Ed. Code § 47605(d)

In accordance with AB 699 enacted on October 4, 2017, the Charter School's non-discrimination provision shall include immigration status as a protected class.

ADMISSION REQUIREMENTS

The Charter School shall admit all pupils who wish to attend the Charter School. No test or assessment shall be administered to students prior to acceptance and enrollment into the Charter School. The Charter School will comply with all laws establishing minimum and maximum age for public school attendance in charter schools. Admission, except in the case of a public random drawing, shall not be determined by the place of residence of the pupil or his or her parent or legal guardian within the state.

MSA-San Diego strives to reflect the ethnic and racial balance of the general population residing within the territorial jurisdiction of SDUSD. In accordance with Education Code Section 47605(d)(4)(A), the Charter School shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(d)(2)(B)(iii), including pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, immigration status or sexual orientation. Similarly, in accordance with Section 47605(d)(4)(C), the Charter School shall not encourage a pupil currently attending the Charter School to disenroll from the Charter School or transfer to another school for any reason, including, but not limited to the academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(d)(2)(B)(iii), as listed above.

Pursuant to Education Code Section 47605(d)(4)(D), the Charter School shall post a notice developed by the CDE on the Charter School website, outlining the requirements of Section 47605(d)(4), and make this notice available to parents.

An Application Form is required for each student. No other requirements (test scores, transcripts, behavior records, etc.) are required. If the number of students who wish to attend the Charter School exceeds the openings available, entrance shall be determined by a random public drawing (lottery) in accordance with Education Code Section 47605(d)(2) and as set forth below.

LOTTERY PREFERENCES AND PROCEDURES

An open application period will be publicly announced each year and communicated during outreach/recruiting efforts detailed in Element 7. The Charter School will include specific information in its outreach materials, on the Charter School website, at community meetings and open forums notifying parents of the Charter School's open application period and lottery dates. MSA-San Diego will ensure that all application materials will reference the application deadline and proposed lottery dates as well as provide complete information regarding application procedures, key dates, and enrollment preferences (in the case of a lottery) and requirements consistent with the approved charter.

In accordance with Education Code Sections 49011 and 47605(d)(2)(B)(iv), admission preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment.

Pursuant to Education Code Section 47605(d)(2)(B), if the number of pupils who wish to attend the Charter School exceeds the Charter School's capacity, enrollment, except for existing pupils of the Charter School, shall be determined by a public random drawing (lottery). In the event of a lottery, with the exception of existing students who are guaranteed enrollment in the following school year, enrollment preferences will be given. In accordance with Education Code, priority will be given in the following order (reasons for each preference included below):

- Siblings of students admitted to or attending the Charter School
- Children of Board members or employees of Magnolia Public Schools, not to exceed 10%,
- Students transferring from other Magnolia Public Schools charter schools
- Foster youth or homeless students[25]
- Students residing with the attendance boundaries of SDUSD, as determined by the parent/guardian's home address
- All other applicants.

The Charter School and the District agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(d)(2)(B)(i)-(iv).

We provide preference for siblings of admitted students for the convenience of families. Children of Board members and employees are provided preference in deference to the work and commitment of these individuals to Magnolia and the instructional model. No more than 10% of students admitted through the lottery process annually will be drawn from this category. Students matriculating from other MPS schools are given preference to continue their education in a consistent model. Finally, we recognize that foster and homeless youth need a

[25] Disclosure of foster youth or homeless student status is not required at the time of application. However, families that would like their students to be granted a preference on that basis may apply using the preference, and MSA-San Diego will verify eligibility at the time of enrollment.

strong school to attend. As a school, we make sure that they can be accepted at our campus and receive a preference in the lottery.

Lottery Procedure

The public random drawing ("lottery") will take place within 30 days of the closing of the open application period. The Charter School will choose a date and time (preferably on the weekend or on a weekday evening) so that most interested parties will be able to attend. (Typically, the open application period starts on the first day of school and ends by mid-January, and if applicable, a lottery is held at least two weeks after the open application period ends.)

MSA-San Diego's office manager will inform parents of all applicants and all interested parties of the rules to be followed during the lottery process, location, date and time of the lottery through mail, e-mail, Charter School website, phone, and other available outlets prior to the lottery date. The lottery will be held at the Charter School site if the Charter School facility can accommodate all interested parties. Otherwise, the Charter School will secure a meeting room that is large enough to accommodate all parties and to allow them to observe the lottery. Notice will include an explanation that parents/guardians do not need to be present at the lottery, but may attend if they choose to do so.

In the lottery, all names in the first preference group are drawn by the notary public and listed in order for each grade level. Names from the second and third preferences are drawn in the same way according to preference order if space is available. Once the grade level capacity is met, the remaining students' names will continue to be drawn randomly and placed in the order they are drawn on the waiting list. The students who apply after the open enrollment period will have their applications held in abeyance for a subsequent lottery, if needed.

MSA-San Diego will invite a SDUSD representative to serve as an official observer of the lottery to verify the lottery procedures are fairly executed. Application forms, the manual record of all lottery participants and their assigned lottery numbers, and other lottery-related documents will be physically filed on campus, and lottery results and waiting lists will be readily available in the Charter School's main office for inspection upon request. Each application form will be kept on file for the academic year with the applicant's assigned lottery number in the Charter School database and on his or her enrollment application.

Notifications of Admission Status

Notifications of admission status will be mailed to all applicants within two weeks of the lottery. Enrollment packets will be sent to admitted students; students not admitted will be informed by the office manager of their waiting list priority number as determined by the admissions lottery or application order. If the enrollment packets are not returned to the Charter School, in person or by mail, complete within 10 business days from the date of postage, then admission for that student is forfeited, and an admission notice will be mailed to the next student on the

waiting list. The Charter School's office manager and/or office staff will be available to assist families in completing this paperwork if needed.

Enrollment packets for students who are admitted will submit the following:

- Completed student enrollment form
- Proof of immunization
- Home language survey
- Completed Emergency Medical Information Form
- Proof of minimum age requirements
- Release of records[26]

Vacancies that occur during the school year will be filled according to the wait list order determined during the lottery drawing except that homeless and foster care students will be moved to the top of the waiting list to provide priority placement.

Foster youth and homeless students will be allowed to apply for enrollment in accordance with current MPS enrollment policies even if the parent/guardian is unable to provide the school with the records normally required for enrollment such as proof of minimum age requirements, proof of residency, or other documentation. The Charter School main office shall immediately contact the school last attended by the student to obtain the relevant records. If the student needs to obtain immunizations or does not possess immunization or other medical records, the office shall assist the parent/guardian in obtaining the necessary immunizations or records for the student. In the case of an unaccompanied youth, the Charter School main office shall assist in the enrollment process. Unaccompanied youth shall be immediately enrolled if space is available even if unable to provide the Charter School with the records normally required for enrollment, and despite lack of parent or legal guardian's supervision or permissions, or "power of attorney" by supervising adult.

When a space is open during the school year that is not filled by a homeless or foster care student, families will be contacted by the school site office manager and/or office staff through a call and email in the order of the wait list and will be given 48 hours to decide whether or not to accept a space at the Charter School. Families can respond via phone, in writing or by accepting the seat through the online enrollment system. In the event that there is no such wait list, enrollment will be made available on a first come, first served basis to the next interested family at the appropriate grade level.

The waitlist for the current school year remains active until the end of the school year and does not "roll over"; applicants must reapply for the lottery annually if the Charter School is unable to offer them admission for the current year.

---

[26] The Charter School shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to the Charter School before enrollment.

ELEMENT 9: ANNUAL FINANCIAL AUDITS

"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." Ed. Code § 47605(b)(5)(I).

An annual independent financial audit of the books and records of MSA-San Diego shall be conducted as required by Education Code Sections 47605(b)(5)(I) and 47605(m). The books and records of MSA-San Diego shall be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. The audit shall be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller's K-12 Audit Guide.

MPS's Board of Directors shall select an independent auditor through a request for proposal format. The auditor shall have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required under applicable federal law, the audit scope will be expanded to include items and processes specified in applicable Office of Management and Budget Circulars.

ANNUAL AUDIT PROCEDURES

Each fiscal year an independent auditor will conduct an audit of the financial affairs of MSA-San Diego to verify the accuracy of the Charter School's financial statements, attendance and enrollment accounting practices, and internal controls. The auditor shall be hired by the Board of Directors of the Charter School. The books and records of the Charter School will be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. The audit shall be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of Charter Schools as published in the State Controller's K-12 Audit Guide. MPS's Board of Directors shall select an independent auditor through a request for proposal format. The auditor shall have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required under applicable federal law, the audit scope will be expanded to include items and processes specified in applicable Office of Management and Budget Circulars.

Procedures:

- The Board of Directors will appoint an Audit Committee that includes two or more directors by January 1 of each year.

- The Audit Committee may not include any the staff of the Charter School, including the CEO. In addition, any person with expenditure authorization or recording responsibilities within the organization may not serve on the committee.
- The Audit Committee will be responsible for identifying an audit firm from the State Controller's list of approved educational audit providers by March 1 of each year, unless the existing contract is a multi-year contract. The Board of Directors hires the audit firm after the Audit Committee performs a rigid search and interview process.
- The Audit Committee will be responsible for reviewing the results of the annual audit and developing a corrective action plan to address all relevant weaknesses noted by the auditor, describing how the exceptions and deficiencies have been or will be resolved to the satisfaction of the District along with an anticipated timeline for the same. MPS works with the oversight entity to establish action items for correction if needed. Implementation recommendations of procedures is monitored closely by executive staff.
- The Board of Directors will review and approve the audit no later than December 15.
- The CFO will be responsible for submitting the audit to all reporting agencies including the District, the San Diego County Superintendent of Schools, the State Controller, and to the CDE no later than December 15 of each year.
- Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel ("EAAP") in accordance with applicable law.
- The independent financial audit of the Charter School is a public record to be provided to the public upon request.

ELEMENT 10: SUSPENSION AND EXPULSION PROCEDURES

"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

"(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present his or her side of the story.

"(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

"(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

"(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

***"(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii)."* Ed. Code § 47605(b)(5)(J).**

DISCIPLINE FOUNDATION POLICY

The following Student Suspension and Expulsion Policy (Policy) has been established in order to promote learning and protect the safety and well-being of all students at MSA-San Diego. Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. In creating the Student Suspension and Expulsion Policy, the Charter School has reviewed Education Code Section 48900 et seq. which describes the non-Charter Schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq.

The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This Policy shall serve as MSA-San Diego's policy and procedures for student suspension and expulsion, and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements and are not material revisions. Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

This Policy and its Procedures will clearly describe discipline expectations, and it will be printed, distributed and discussed with students and families as part of the Student/Parent Handbook which is sent to each student at the beginning of the school year and signed by their guardian.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension and expulsion.

Positive Discipline

MSA-San Diego staff has committed itself to encouraging and supporting the attainment of academic skills as well as social skills, such as listening, friendship-making, problem solving, and alternatives to aggression. To inspire and encourage students to develop their potential in all of these areas, the following reinforcements will be used for positive behavior:

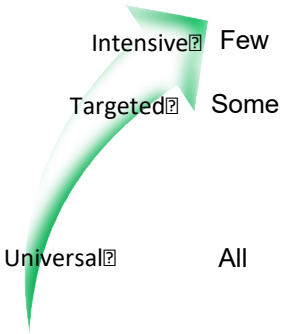
- Individual awards/recognition
- Classroom awards/recognition
- Certificates
- Displays
- Positive/Encouraging contact with parent/guardian (certificate, post card, phone message)
- Special activities (instructional field trips, movie nights, picnics, etc.)
- Publications
- Assemblies
- Positive points

Positive student behavior and improvements will be acknowledged and encouraged by the MSA-San Diego staff. Teachers will not only report discipline issues on the school information

system, Illuminate or equivalent, but also positive behaviors and accomplishments. Parents will also be informed of positive behavior and improvements via phone, email, and home visits. Students will receive certificates and/or rewards for outstanding performance and behaviors.

Alternatives to Suspension

To intervene in student behavior, MPS has a progressive discipline plan in place at MSA-San Diego. This plan is published at the beginning of each school year in the Student/Parent Handbook. The Student/Parent Handbook also includes a school-parent-student compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the Charter School and parents will develop a partnership to help students achieve high academic and behavioral standards. The discipline plan includes information about student expectations and progression of disciplinary procedures from day-to-day discipline to suspension and expulsion. MSA-San Diego provides its staff with Professional Development in the area of restorative practices, alternatives to suspension, and positive behavior supports.



As part of its MTSS framework and RTI Programs, MSA-San Diego implements PBIS to address student discipline issues including suspension. This tiered approach lists intervention strategies and programs based on the level of fractions.

MSA-San Diego implements prevention strategies for each tier as presented below:

Tier	Prevention Description
I. Primary (Universal)	Preventing the development of new cases (incidence) of problem behaviors by implementing high quality learning environments for all students and staff and across all settings (i.e., school-wide, classroom, and non- classroom).
II. Secondary (Targeted)	Reducing the number of existing cases (prevalence) of problem behaviors that are presenting high risk behaviors and/or not responsive to primary intervention practices by providing more focused, intensive, and frequent small group-oriented responses in situations where problem behavior is likely.
III. Tertiary (Intensive)	Reducing the intensity and/or complexity of existing cases (prevalence) of problem behavior that are resistant to and/or unlikely to be addressed by primary and secondary prevention efforts by providing most individualized responses to situations where problem behavior is likely.

MSA-San Diego believes that alternatives to suspension align with our schoolwide positive behavior support plan. Following is a list of alternatives to be considered before suspending a student: warning, phone call home, parent conference, teacher/administrative detention, written assignment/research/presentation, loss of privileges, behavior contract, parent shadowing, mentorship (peer/teacher), referral (counseling, SST, Principal/Dean of Academics), assigning volunteer work/community service, Saturday school, and in-school suspension.

INVOLUNTARY REMOVAL

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall inform him or her of the basis for which the pupil is being involuntarily removed and his or her right to request a hearing to challenge the involuntary removal. If a parent, guardian, or educational rights holder requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the action to involuntarily remove the student. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below.

GROUNDS FOR SUSPENSION

JURISDICTION

A student may be suspended for prohibited misconduct if the act is (1) related to school activity; (2) school attendance occurring at MSA-San Diego; or (3) an MSA-San Diego sponsored event. A student may be suspended for acts that are enumerated below and related to school activity or attendance that occur at any time, including, but not limited to, and of the following:

a) while on school grounds;
b) while going to or coming from school;
c) during the lunch period, whether on or off the school campus; or
d) during, going to, or coming from a school-sponsored activity.

ENUMERATED OFFENSES

Discretionary Suspension Offenses

Students may be suspended for any of the following acts when it is determined the student:

1. Caused, attempted to cause, or threatened to cause physical injury to another person resulting in minor harm.

2. Willfully used force or violence upon the person of another, except self-defense resulting in minor injury.

3. Unlawfully possessed, used, or otherwise furnished nominal amounts of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

4. Unlawfully was under the influence of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

5. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

6. Committed or attempted to commit robbery or extortion.

7. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases, resulting in negligible loss.

8. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases.

9. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.

10. Committed an obscene act or engaged in habitual profanity or vulgarity.

11. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

12. Knowingly received stolen school property or private property, which includes, but is not limited to, electronic files and databases.

13. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

14. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that

student from being a witness and/or retaliating against that student for being a witness.

15. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

16. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, "hazing" means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.

17. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes, but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

18. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently offensive as to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

19. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.

20. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or

student(s) by creating an intimidating or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

21. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

    1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
        ii. Causing a reasonable student to experience a detrimental effect on his or her physical or mental health.
        iii. Causing a reasonable student to experience interference with his or her academic performance.
        iv. Causing a reasonable student to experience interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

    2) "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
        i. A message, text, sound, video, or image.
        ii. A post on a social network Internet Web site including, but not limited to:
            (a) Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
            (b) Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
            (c) Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a

profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.

iii. An act of cyber sexual bullying.

(a) For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

22. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to paragraphs 1 and 2 of this section.

23. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Executive Director or designee's concurrence.

Mandatory Suspension Offenses

Students shall be suspended when the following occur on school campus or at a school activity off campus, for any of the following reasons:

1. Possessing, selling, or furnishing a firearm, as defined in Section 921 of Title 18 of the United States Code.
2. Brandishing a knife at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053, *et seq*.
4. Committing or attempting to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committing a sexual battery, as defined in Penal Code Section 243.4.

5. Possession of an explosive, as defined in Education Code Section 48915(h).

SUSPENSION PROCEDURES

Suspensions shall be initiated according to the following procedures:

CONFERENCE

Suspension shall be preceded, if possible, by a conference conducted by the Principal or the Principal's designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Principal. The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended, by Principal or designee, without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(b)(5)(J)(i). This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure of the student's parent or guardian to attend a conference with Charter School Principal or designee. Reinstatement of the suspended student shall not be contingent upon attendance by the student's parent or guardian at the conference.

MSA-San Diego assures that the process for investigating incidents and collecting evidence will be fair and thorough.

IN-SCHOOL SUSPENSION

As an alternative to out of school suspension, MSA-San Diego utilizes in-school suspension as a way to redirect student choices and provide an opportunity to reflect in a space that ensures students will also be responsible for completing assigned academic work. The in-school suspension for students will be held in a designated working area in the main office with access to a supervising administrator who holds a teaching credential. During in-school suspension, access to instructional materials will be coordinated by the Dean of Students. The Dean of Students will reach out to the students' teachers prior to the in-school suspension and the teachers will share the materials and assignments students will be working on while they are serving their in-school suspension. Since students have access to online platforms, students will be provided with a one to one device just like their peers to complete assignments. If the in-school suspension is related to a technology infraction, a hard copy of the assignments will be

provided as an alternative for having access to work and submitting assignments. Office staff will work alongside administrators to determine any accommodations students may need during their in-school suspension, such as scheduled breaks, as well as providing breakfast and lunch for the student. A restorative justice team consisting of teachers and the Dean of Students will meet to develop a positive behavioral plan to support the student during and after the in-school suspension. This plan is shared with the student's parent/guardian when informing them of the in-school suspension and parent/guardian feedback is also welcomed regarding follow up support for their child. In addition to the meeting, a form will be provided to families regarding the in-school suspension and the parent/guardian can sign giving their acknowledgment of the in-school suspension guidelines. A student may be suspended in-school for a maximum of five (5) school days per incident and a maximum of 20 school days per academic year.

During the in-school suspension, the Dean of Students will work directly with the student and together they will create a plan for how to re-enter the school environment following an incident. There will also be additional support added during this reflection time which may include speaking to a counselor. Every incident is unique and should there be an opportunity to restore the relationship and redirect the student's actions during the in-school suspension, this connection and established trust will be leveraged. In an effort to ensure the safety of all stakeholders, including all Charter School students, staff, and visitors, the following offenses may or may not result in in-school suspension:

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence,
- Engaged in harassment, threats, or intimidation against a pupil or group of pupils or school district personnel,
- Made terrorist threats against school officials or school property, or both.

The above-mentioned offenses are addressed in a serious manner and depending on the details may not be able to be rectified with an in-school suspension. The Charter School administrator will report the incident to the appropriate authorities under the direction of the local authorities who will assess the level of risk and will act in accordance with the recommendations. The authorities will determine whether or not the situation should be handled "administratively" or by the police. The administrative team will then move forward with the appropriate support. In order to comply with Ed Code Section 48900, the Charter School administrator will notify all stakeholders by the end of the school day.

NOTICE TO PARENTS/GUARDIANS

At the time of the suspension, the Principal or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing, by the Principal or Designee, of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice will also state the date and time when the student may

return to school and will provide information about the appeal right and process. If Charter School administrators wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice will request that the parent/guardian respond to such requests without delay.

Suspension Time Limits

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. A student may be suspended from school for not more than 20 school days in any school year for general education students and not more than 10 school days in any school year for special education students unless, for purposes of adjustment, the student enrolls in or is transferred another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code Sections 48903, 48911, and 48912) The expulsion process shall not take longer than 30 days from the first day of the initial suspension.

Suspension Appeals

Students and parent/guardian may appeal a suspension within five (5) school days of the suspension notice. This appeal will be made, verbally or in writing, to the Principal and heard by a Reflection Committee. The Reflection Committee is an advisory committee to the Principal, trained quarterly in restorative practices and PBIS, and will be comprised of at least one school administrator, and at least two teachers, and may also include a non-certificated employee. Current teachers of the student are not eligible to participate as a member of the Reflection Committee. All Reflection Committee hearings on suspensions will be held within two (2) school days of the appeal being made. The decision of the Reflection Committee is final. Based on the information submitted or requested, the Reflection Committee may make one of the following decisions regarding the suspension:

- Uphold the suspension
- Determine that the suspension was not within school guidelines, overturn the suspension, and order that all records and documents regarding the disciplinary proceeding be destroyed. No information regarding the suspension will be placed in the student's permanent record, or shared with anyone not directly involved in the proceedings. The Charter School administrators shall make arrangements to provide the student with classroom materials and assignments for the duration of student’s absence. Student will be provided the opportunity to make academic progress, make up assignments, and earn credit missed.

Notwithstanding the foregoing, the Charter School will maintain student records in accordance with Education Code Sections 35253 and 49076 and 5 CCR 16024.

Recommendation for Placement/Expulsion

Upon a recommendation of Placement/Expulsion by the Principal, the student and the student's parent/guardian or representative will be invited to a conference with Charter School administrators to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Principal or designee has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student or the student's parent/guardian or representative, unless the student and the student's parent/guardian or representative fail to attend the conference, at which time the Charter School shall proceed with the extension.

This determination will be made by the Principal or designee upon either of the following findings: (1) the student's presence will be disruptive to the education process; or (2) the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

Access to Education

For suspensions that are not pending an expulsion hearing, the Charter School shall make arrangements to provide the student with classroom material and current assignments to be completed at home during the length of the suspension. For suspensions pending an expulsion hearing, the Charter School shall be responsible for the appropriate interim placement of students. Please see "Interim Placement" below for details.

GROUNDS FOR EXPULSION

Jurisdiction

A student may be expelled for prohibited misconduct, that are described below under the heading, "Discretionary Expellable Offences and Mandatory Expulsion Offenses," if the act is (1) related to school activity; (2) school attendance occurring at MSA-San Diego or at any other school; or (3) a MSA-San Diego sponsored event. A student may be expelled for offenses that are described below and related to school activity or attendance that occur at any time, including, but not limited to, and of the following:

a) while on school grounds;
b) while going to or coming from school;
c) during the lunch period, whether on or off the school campus; or
d) during, going to, or coming from a school-sponsored activity.

The length of an expulsion is addressed above, under "Rehabilitation Plans."

Discretionary Expellable Offenses

Students may be recommended for expulsion for any of the following acts when it is determined the pupil:

1. Caused, attempted to cause, or threatened to cause physical injury to another person resulting in serious bodily harm.

2. Willfully used force or violence upon the person of another, except self-defense resulting in serious bodily injury.

3. Unlawfully possessed, used, or otherwise furnished significant amounts of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

4. Unlawfully under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.

5. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

6. Committed or attempted to commit robbery or extortion in excess of $1,000.

7. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases, in excess of $1,000.

8. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases, in excess of $1,000.

9. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

10. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

11. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

12. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or preinitiation into a pupil organization or body,

whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.

13. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes, but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

14. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

15. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.

16. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) rights by creating an intimidating or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

17. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

    i. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student

or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

ii. "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
    i. A message, text, sound, video, or image.
    ii. A post on a social network Internet Web site including, but not limited to:
        i. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
        ii. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
        iii. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
iii. An act of cyber sexual bullying.

i. For purposes of this clause, “cyber sexual bullying” means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

ii. For purposes of this clause, “cyber sexual bullying” does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

2. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

18. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to paragraphs 1 and 2 of this section.

19. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Executive Director or designee’s concurrence.

Mandatory Expulsion Offenses

1. Possessing, selling, or furnishing a firearm, as defined in Section 921 of Title 18 of the United States Code.
2. Brandishing a knife at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053, *et seq*.
4. Committing or attempting to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committing a sexual battery, as defined in Penal Code Section 243.4.
5. Possession of an explosive, as defined in Education Code 48915(h).

EXPULSION PROCEDURES

AUTHORITY TO EXPEL

As required by Education Code Section 47605(b)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

If determined necessary upon the referral by the discipline committee; a student may be expelled by a neutral and impartial Administrative Panel following a hearing before it. The Administrative Panel will include three or more certificated persons, none of whom are members of the Board nor on the staff of the Charter School in which the student is enrolled. The Administrative Panel shall be presided over by a designated neutral hearing chairperson. It is important for the Administrative Panel members to have experience in education law and student discipline. Typical Administrative Panel members include teachers, school administrators and Home Office Chiefs/Directors. The Home Office will coordinate all administrators and teachers who serve on the Reflection Committee at their school sites to be "on call" for a particular month should their presence be needed at an Administrative Panel hearing. A member who served on the Reflection Committee may not serve on the Administrative Panel for the same student. The Administrative Panel may expel any student found to have committed an expellable offense.

A decision to expel a pupil for an expellable offense shall be based on a finding of one or both of the following:

(1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
(2) Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

The process for investigating incidents and collecting evidence will be fair and thorough.

EXPULSION HEARING

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal determines that the student has committed an expellable offense.

After an Administrative Panel hears the case, it will make a determination whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian by the Principal or Designee, at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing;
2. Information about obtaining reasonable accommodations and/or language support;
3. A statement of specific facts, charges and offenses upon which the proposed expulsion is based;
4. A copy of MSA-San Diego's disciplinary rules which relate to the alleged violation;
5. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
6. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
7. The right to inspect and obtain copies of all documents to be used at the hearing;
8. The opportunity to confront and question all witnesses who testify at the hearing;
9. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Special procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

MSA-San Diego may, upon finding a good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the complaining witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations which shall be examined only by the Administrative Panel. Copies of these sworn declarations, edited to delete the name and identity of the complaining witness, shall be made available to the Panel.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five (5) days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. MSA-San Diego administrators must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3. At the discretion of the Administrative Panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The Administrative Panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The Administrative Panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding Administrative Panel finds is disrupting the hearing. The Administrative Panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, MSA-San Diego administrators must present evidence that the witness' presence is both desired by the witness and will be helpful to MSA-San Diego. The Administrative Panel presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the Administrative Panel shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding entity from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the hearing during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the student under investigation, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the Administrative Panel conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and

an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Expulsion Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A determination by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the accused student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to expel, the student shall immediately be returned to his/her educational program.

Written Notice to Expel

The Principal or designee following a decision of the Administrative Panel to expel shall send written notice within 30 days of the decision to expel, including the Administrative Panel's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense(s) committed by the student
2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with MSA-San Diego

3. The reinstatement eligibility review date; a copy of the rehabilitation plan; the type of educational placement during the period of expulsion, and notice of appeal rights/procedures
4. Information regarding rights to, how, timelines, and to whom a student/parent may appeal an expulsion decision, including information about obtaining reasonable accommodations and/or language support

The Principal or designee shall send a copy of the written notice of the decision to expel to the student's district of residence. This notice shall include the following:

1. The student's name
2. The specific expellable offense committed by the student

Disciplinary Records

MSA-San Diego shall maintain records of all student suspensions and expulsions at MSA-San Diego. Such records shall be made available to the District upon request.

Expulsion Appeals

In order to appeal an expulsion, the student/parent/guardian must submit a written appeal to the CEO of MPS outlining the reason for the appeal, attaching any supporting documentation, within ten (10) calendar days of receiving the written notice of the expulsion.

In response to the written request for an appeal, the CEO of MPS shall call a meeting of the Board of Directors. The Board shall convene a hearing on the appeal within ten (10) calendar days of receipt of a timely written request for an appeal.

At the hearing on the appeal, the student or his/her representative shall have the right to present evidence. The Board will consider the evidence and/or testimony presented to the Administrative Panel as appropriate and will render a contemporaneous written decision, which shall be immediately communicated to the appellant at the conclusion of the hearing, in the best interest of the student and the Charter School. That decision shall be final.

Interim Placement

The Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of the Charter School's student expulsion process and shall facilitate the post-expulsion placement of expelled students, including, but not limited to, programs within the County or their school district of residence.

The Charter School shall work with the students' district of residence for an interim placement at a community day school or other alternative program. Should the Charter School determine after the referral that the student will remain at the Charter School pending the expulsion hearing based on the best interest of the student, or if the Charter School secures another

alternative interim placement at another Charter School or school within its CMO, if appropriate and aligned with applicable charter petitions, the Charter School will notify the District of such determination.

Rehabilitation Plan

Pupils who are expelled from MSA-San Diego shall be given a rehabilitation plan upon expulsion as developed by the Administrative Panel at the time of the expulsion order. The rehabilitation plan includes improved behavior, attendance, and academic performance and shall include a date no later than one (1) year from the date of expulsion when the pupil may apply to MSA-San Diego for readmission.

Readmission/Reinstatement

MSA-San Diego shall mail written notification to parent/guardian within thirty (30) days prior to the end of the expulsion term. This notice will request the parent or guardian to submit written documentation to the Charter School showing that the student has met the conditions of the rehabilitation plan.

The decision to readmit a pupil previously expelled from MSA-San Diego shall be at the discretion of the Governing Board following a meeting with the Principal or designee, the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil continues to pose a threat to others or will be disruptive to the school environment. The Principal or Designee will make a recommendation to the Board following the meeting regarding his/her recommendation. The Board shall then make a final decision regarding reinstatement during closed session of a public meeting, reporting out any actions taken during closed session as required of the Brown Act. The pupil's readmission is also contingent upon MSA-San Diego's capacity at the time the student seeks readmission. These procedures will be made available to the pupil and his/her parent or guardian at the time the expulsion order is issued. If the student does not meet the requirements of the rehabilitation plan as determined by the Board, the Board will revisit at a later date not to exceed one (1) year.

Notice to Teachers

The Charter School shall notify teachers of each pupil who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

SPECIAL PROCEDURES FOR THE CONSIDERATION OF SUSPENSION AND EXPULSION OF STUDENTS WITH DISABILITIES

Notification of SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alterative educational setting.

Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability for discipline reasons, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

1. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
2. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

1. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

2. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as

necessary, to address the behavior; and

3. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates the Charter School's disciplinary procedures.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

1. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;

2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

3. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

PROCEDURES FOR STUDENTS NOT YET ELIGIBLE FOR SPECIAL EDUCATION SERVICES

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

1. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.

2. The parent has requested an evaluation of the child.

3. The child's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

ADDITIONAL PROVISIONS

BULLYING

Bullying is listed as an offense for which a student may be suspended or expelled. The Charter School shall comply with all applicable requirements of the Safe Place to Learn Act, Education Code Section 234 *et seq*. MPS' policy on bullying prohibits discrimination, harassment, intimidation, and bullying based on actual or perceived characteristics, as specified in the definition of hate crimes. MPS' process for receiving and investigating complaints includes complaints of discrimination, harassment, intimidation, and bullying based on actual or perceived characteristics, as specified, and a requirement that Charter School personnel who witness such acts take immediate steps to intervene when safe to do so, a timeline to investigate and resolve complaints, and an appeal process. As discussed above in Element 6, the Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying, and shall annually make training available to Charter School employees.

ELEMENT 11: EMPLOYEE RETIREMENT SYSTEMS

"The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security." Ed. Code § 47605(b)(5)(K).

CERTIFICATED STAFF MEMBERS

All certificated staff members who are eligible, including, but not limited to, administrators, counselors, school psychologists, special education program administrators, and teaching employees will participate in, the California State Teachers' Retirement System ("STRS"). MERF acknowledges that the Charter School must continue such participation for the duration of the Charter School's existence under the same County-District-School ("CDS") code.

NON-CERTIFICATED STAFF MEMBERS

All full-time non-certificated staff members, including, but not limited to, office staff and instructional aides are eligible to participate in the Public Employees Retirement System ("PERS").

All part-time non-certificated employees hired to work six months or more become eligible to participate in PERS on the date of hire. Part-time employees become PERS members the first day of the next pay period after completion of 1,000 hours or 125 days in a fiscal year. MERF acknowledges that the Charter School must continue such participation for the duration of the Charter School's existence under the same CDS code.

All non-credentialed employees also contribute to Social Security.

OTHER STAFF MEMBERS

Home Office staff members may be eligible to participate in PERS, STRS or 401(k) Retirement Plan.

Charter School staff members who leave the Charter School to work for the MPS Home Office have the option of retaining their PERS or STRS status, if eligible.

OVERSIGHT OF BENEFITS

The Human Resources and Finance Departments at the MPS Home Office are responsible for monitoring the appropriate administration of benefits and ensuring appropriate arrangements for retirement coverage are made for all employees. The Charter School will make any contribution that is legally required of the employer, including STRS, PERS, Social Security, Workers Compensation, and other payroll obligations. All withholdings from employees and the Charter School will be forwarded to the STRS and PERS funds as required. Employees will

accumulate service credit years in the same manner as all other members of STRS and PERS. MERF will submit all retirement data and will comply with all policies and procedures for payroll reporting. The Charter School assures that it will provide retirement information in a format required by the District.

ELEMENT 12: PUBLIC SCHOOL ATTENDANCE ALTERNATIVES

"The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools." Ed. Code § 47605(b)(5)(L).

MSA-San Diego is a school of choice and no students shall be required to attend. Students who reside within the District who choose not to attend MSA-San Diego may attend school within the District according to District policy or at another school district or school within the District through the District's intra- and inter-district transfer policies.

Parents and guardians of each student enrolled in the charter school will be informed on admissions forms that the students have no right to admission in a particular school of a local education agency as a consequence of enrollment in MSA-San Diego, except to the extent that such a right is extended by the local education agency.

ELEMENT 13: RIGHTS OF DISTRICT EMPLOYEES

"The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school." Ed. Code § 47605(b)(5)(M).

No public school district employee shall be required to work at MSA-San Diego. Employees of the District who choose to leave the employment of the District to work at MSA-San Diego will have no automatic rights of return to the District after employment by MSA-San Diego unless specifically granted by the District through a leave of absence or other agreement. MSA-San Diego employees shall have any right upon leaving the District to work in MSA-San Diego that the District may specify, any rights of return to employment in a school district after employment in MSA-San Diego that the school district may specify, and any other rights upon leaving employment to work in MSA-San Diego that the District determines to be reasonable and not in conflict with any law.

Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to MSA-San Diego. Employment by MSA-San Diego provides no rights of employment at any other entity, including any rights in the case of closure of MSA-San Diego.

ELEMENT 14: DISPUTE RESOLUTION

"The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter." Ed. Code § 47605(b)(5)(N).

The intent of this dispute resolution process is to (1) resolve disputes within the school pursuant to the school's policies, (2) minimize the oversight burden on the District, and (3) ensure a fair and timely resolution to disputes.

In absence of district policies or protocols for charter school dispute resolution, this plan is being presented based on common charter school best practice. Should any section of this element pertaining to resolving disputes, be in conflict with San Diego Unified School District policies or desired protocols, then MSA-San Diego is amenable to altering said areas through an addendum, to be mutually agreed upon, and considered in addition to the original petition. Any such areas of conflict can also be resolved in the Memorandum of Understanding that will be drafted and agreed upon by SDUSD and MSA-San Diego.

PUBLIC COMMENTS

The staff and governing board members of MSA-San Diego and the District, agree to attempt to resolve all disputes regarding this charter pursuant to the terms of this section. Both shall refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.

DISPUTES ARISING FROM WITHIN THE SCHOOL

Disputes arising from within MSA-San Diego, including all disputes among and between parents, scholars, staff, volunteers, advisors, partner organizations, and governing board members of the school, shall be resolved pursuant to policies and processes developed by MSA-San Diego and in accordance with the law.

DISPUTES BETWEEN THE CHARTER SCHOOL AND THE DISTRICT

In the event of a dispute between MSA-San Diego and the District regarding the terms of this charter, both parties agree to apprise the other, in writing, of the specific disputed issue(s). In the event the District believes the dispute relates to an issue that could potentially lead to revocation of the charter, MSA-San Diego requests that this shall be specifically noted in the written dispute statement, although it recognizes that it cannot legally bind the District to do so. At the earliest mutually convenient date, an MSA-San Diego representative and a District representative shall informally meet and confer to attempt to resolve the dispute. If this meeting fails to resolve the dispute, two representatives from each organization shall meet again at the earliest mutually convenient date to attempt to resolve the dispute. If this meeting fails to resolve the dispute, a District representative and an MSA-San Diego representative shall

meet to identify a neutral third-party mediator to assist in dispute resolution. The format of the third-party mediation process shall be developed jointly by the representatives. The mediation shall be held at the earliest mutually convenient date.

The cost of the mediation and all other costs associated with dispute resolution shall be shared equally by MSA-San Diego and the District. Each party shall be solely responsible for its own attorneys' fees.

In the event that the third-party mediation process does not result in the resolution of the dispute, both parties agree to continue good faith negotiations. If the matter cannot be mutually resolved, MSA-San Diego shall be given a reasonable amount of time to correct the violation, unless the District indicates in writing the violation constitutes a severe and imminent threat to the health and safety of the MSA-San Diego's students. The District reserves the right to take any action it deems appropriate, and MSA-San Diego reserves the right to seek legal redress for any such actions under the law. In addition, the dispute is not required to be referred to mediation in those cases where the District determines the violation constitutes a severe and imminent threat to the health and safety of the MSA-San Diego students.

ELEMENT 15: CHARTER SCHOOL CLOSURE PROCEDURES

"The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records." Ed. Code § 47605(b)(5)(O).

The following procedures shall constitute the "Closure Protocol" and shall apply in the event MSA-San Diego ceases to be a charter school or otherwise closes for any reason.

Any decision to close MSA-San Diego as a charter school operating pursuant to this Charter shall be documented by official action of the MPS Board ("Closure Action"), and will identify the person or entity responsible for all closure-related activities and actions. Each notice required as part of the closure procedure shall include information on the responsible person or entity and contact information for the person(s) to whom reasonable inquiries regarding the closure may be made. The action will identify the reason for closure (e.g., decision not to renew as a charter school). The Closure Action shall be deemed to have been automatically made if any of the following occur: the charter is revoked or non-renewed and MSA-San Diego has exhausted all appeal procedures to County and State Boards of Education, the MPS Board of Directors votes to close MSA-San Diego, or the charter lapses. In the event of a Closure Action, the following steps shall be implemented, which follow the procedures and requirements set forth in Education Code section 47605(b)(5)(O) and Title 5 California Code of Regulations sections 11962 and 11962.1.

MSA-San Diego governing body will notify the authorizer in writing of the determination of the Closure Action and of the effective date of the closure as a charter school within 72 hours of the Closure Action.

MSA-San Diego will provide written notification to the districts of residence of the list of enrolled students within 72 hours of the determination of the Closure Action.

MSA-San Diego will notify within 120 hours parents and students of MSA-San Diego, the San Diego Office of Education, MSA-San Diego's SELPA, the retirement systems in which MSA-San Diego's employees participate (e.g., STRS, PERS, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the pupils' school districts of residence; and the manner in which parents/guardians may obtain copies of pupil records, including specific information on completed courses and credits that meet graduation requirements, grade reports, discipline records, and immunization records.

MSA-San Diego will ensure that the notification to the parents and students of the Charter School of the closure provides information to assist parents and students in locating suitable

alternative programs. This notice will be provided promptly following the Board's decision to close MSA-San Diego.

MSA-San Diego will also develop a list of pupils in each grade level and the classes they have completed, together with information on the pupils' districts of residence, which they will provide to the entity responsible for closure-related activities.

As applicable, MSA-San Diego will provide parents, students, the receiving school districts and the County with copies of all appropriate student records within seven calendar days from the determination of the Closure Action or within seven calendar days of the last student attendance day at MSA-San Diego if MSA-San Diego is to remain open as a charter school beyond the date a Closure Action is determined, and will otherwise assist students in transferring to other schools. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA"), 20 USC §1232g. MSA-San Diego will ask the District to store as necessary original records of Charter School students. All student records of MSA-San Diego shall be transferred to the District upon school closure. If the District will not or cannot store the records, MSA-San Diego shall work with the San Diego Department of Education to determine a suitable alternative location for storage.

As soon as is reasonably practical, but no later than 60 days after the latter of the Closure Action or the effective date of the closure, MSA-San Diego will prepare final financial records. MSA-San Diego will also have an independent audit (which may also serve as the annual audit) completed by an independent auditor who meets the qualifications to perform MSA-San Diego's annual audits as soon as is reasonably practical, but in no case later than six months after closure and provide the audit report to the District within seven days of its completion. The audit shall comply with all of the requirements for Charter School's annual audit and must include at least the following (i) All information required in an annual audit; (ii) An accounting of all assets, including cash and accounts receivable and an inventory of property, equipment and supplies; (iii) An accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans and unpaid staff compensation; (iv) An assessment of the disposition of any restricted funds received by or due to MSA-San Diego, and (v) A delineation of the disposition of all assets and liabilities. In the case that MSA-San Diego either does not pay for or have an independent audit completed within the six-month timeline, the District may, at its option, pay for an audit to be completed and subtract such payment from any funds due to MSA-San Diego. Any costs for the audit incurred by the MSA-San Diego shall remain a liability of MSA-San Diego until repaid in full. Any liability or debt incurred by MSA-San Diego shall be the responsibility of MSA-San Diego and not the District. Any unused monies at the time of the audit will be returned to the appropriate funding source. The Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. MSA-San Diego understands and acknowledges that MSA-San Diego will cover the outstanding debts or liabilities of MSA-San Diego. Any unused special education related funds will be returned to the District or SELPA, as appropriate, and other categorical funds will be returned to the source of funds as required by applicable law.

Notwithstanding any rule, regulation, Charter provision, corporate Bylaw or document to the contrary, on closure of MSA-San Diego, all assets of MSA-San Diego – including but not limited to all leaseholds, personal property, intellectual property , and all ADA apportionments and other revenues generated by students attending the Charter School – which have been determined to have been generated exclusively through state and federal apportionment funds for Charter School students, after payment of all debts and liabilities and refunds to applicable agencies, shall be distributed to a California public school or school district. Any assets acquired from the District or District property will be promptly returned to the District upon MSA-San Diego's closure. The distribution shall include the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted. All remaining assets of MSA-San Diego will be liquidated and all creditors will be paid first.

On closure of MSA-San Diego, any remaining assets of MSA-San Diego not addressed in the preceding paragraph, including but not limited to all leaseholds, personal property, intellectual property, remain the sole property of the nonprofit public benefit corporation. Upon either closure of the Charter School or the winding up and dissolution of the corporation if the corporation is to be dissolved as a result of the closure of the Charter School, after paying or adequately providing for the debts and obligations of the corporation (including any obligations requiring the return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted), any capital assets, including facilities or property, purchased in whole or part with public funds will be distributed to the District or another California public school, school district, or county office of education. Upon the winding up and dissolution of the corporation, any remaining assets of the corporation shall be distributed to another public school that meets the requirements of Section III.A of IRS Notice 2015-07 for participation in a governmental plan under Section 414(d) of the Internal Revenue Code, or shall be distributed to the State of California, a political subdivision of the State, or an agency or instrumentality of the State or of a political subdivision of the State.

On closure, MSA-San Diego shall remain solely responsible for all liabilities arising from the operation of MSA-San Diego.

As MSA-San Diego is operated as a non-profit public benefit corporation, the Board will follow the procedures set forth in the California Corporations Code for the dissolution of a non-profit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

For a minimum of six calendar months from the date of the Closure Action or effective date of the closure, whichever comes first, sufficient staff will maintain employment to take care of all

necessary tasks and procedures required for smooth closing of MSA-San Diego and student transfers.

In addition to the final audit, MSA-San Diego shall also submit any required year-end financial reports to the California Department of Education and the San Diego County Superintendent of Schools, in the form and timeframe required, including, but not limited to, those required by Education Code Section 47604.33.

This Closure Protocol shall survive the revocation, expiration, termination, or cancellation of this Charter or any other agreement between the District and MSA-San Diego or any other act or event that would end MSA-San Diego's right to operate as a charter school pursuant to the Charter or cause MSA-San Diego to cease operation. MSA-San Diego and the District agree that, due to the nature of the property and activities that are the subject of this petition, the District and public shall suffer irreparable harm should MSA-San Diego breach any obligation under its Closure Protocol. The District, therefore, shall have the right to seek equitable relief to enforce any right arising under the Closure Protocol or any provision of the Closure Protocol or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court. MSA-San Diego's Ground Use License by and Between San Diego Unified School District and Magnolia Educational and Research Foundation, current use of district-owned facilities will be null and void in the event of closure.

MSA-San Diego shall use budget reserves normally maintained for contingencies and emergencies to fund closure proceedings.

In the event that the Charter School closes, the CEO will serve as the Charter School's closure agent.

ADDITIONAL PROVISIONS

FACILITIES

The facilities to be utilized by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate." Education Code Section 47605(g).

After 10 years at 6365 Lake Atlin Avenue, owned by SDUSD, MSA-San Diego was required to vacate the premises after SDUSD sold the site to a private developer.

SDUSD initially offered MSA-San Diego a site 11 miles away from the Cleveland Elementary site. A search was then conducted for private facilities but we were unable to locate a suitable facility in time for the 2017-18 school year. Eventually, SDUSD and MSA-San Diego entered into a multi-year lease agreement for space at 6525 Estrella Avenue, which is 5.4 miles away from the original campus.

During the time of the transition, MSA-San Diego had to lease space from a church while its campus was being constructed as extensive site improvements were needed. Modular buildings were purchased for the administration offices, multipurpose room and classrooms. As a result of the construction, MSA-San Diego did not occupy the site until October 2017. The completed facility occupies 18 buildings filled with classrooms.

MSA-San Diego's new facility was made possible through the Ground Use License by and Between San Diego Unified School District and Magnolia Educational and Research Foundation.

The term of this License ("Term") shall commence on July 1, 2017 provided that Magnolia has paid for and obtained Division of State Architect ("DSA") certification of its improvements prior to its occupancy of the Premises ("Commencement Date"), and will end on June 30, 2020, which runs concurrently with Magnolia's charter, contingent upon Magnolia's "in good standing" status with the District and Magnolia's operation of a public charter school in the District's geographical boundaries, consistent with its charter approved by the District; otherwise, this License is null and void. The foregoing notwithstanding, upon any extension or renewal of Magnolia's charter to run co-terminus, this License, if requested by Magnolia and if approved by the District Board of Education, will be extended for the period of time for which the charter was extended or renewed, subject to the terms of this License. The District Board of Education agrees to favorably consider extending this License provided the MSA San Diego charter petition is extended or renewed, as aforesaid, and that Magnolia has faithfully and diligently complied with its obligations and duties under this License.

The fully executed agreement is included under Appendix 2J.

Administrative Services

"The manner in which administrative services of the charter school are to be provided." Education Code Section 47605(g).

The details of the relationship between the District and MSA-San Diego are delineated in a Memorandum of Understanding ("MOU"). MSA-San Diego shall retain the right to separately purchase administrative or other services from the District or any other agency. The specific terms and costs for these services shall be the subject of a mutually agreed upon Memorandum of Understanding. MSA-San Diego understands that current law mandates that the District provide oversight as required by California Education Code section 47604.32.

Civil Liability Impact

"Potential civil liability effects, if any, upon the charter school and upon the school district." Education Code Section 47605(g).

MSA-San Diego is and shall be operated as a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(c), an entity that grants a charter to a charter school operated by or as a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. MSA-San Diego shall work diligently to assist the District in meeting any and all oversight obligations under the law, including meetings, reporting, or other District-requested protocol to ensure the District shall not be liable for the operation of MSA-San Diego.

Further, MSA-San Diego intends to enter into a memorandum of understanding with the District, wherein MSA-San Diego shall indemnify the District for the actions of MSA-San Diego under this Charter and MSA-San Diego shall comply with the indemnification, defense and hold harmless provisions set forth in this Charter.

The corporate bylaws of MSA-San Diego shall provide for indemnification of the MSA-San Diego Board, officers, agents, and employees, and MSA-San Diego purchases general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

MSA-San Diego retains general liability insurance, auto liability, errors and omissions, sexual misconduct, workers compensation, Board Members and Officers insurance, and fidelity bonding to secure against financial risks. Insurance amounts will be in compliance with District

requirements as stated in the annual Operations Agreement. The District shall be named an additional insured on the general liability insurance.

The MSA-San Diego Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Financial Planning, Reporting And Accountability

Attached in the appendices, please find the five-year projected budget with monthly cash flow projections.

MSA-San Diego shall provide reports to the District and the County Superintendent of Schools as follows in accordance with Education Code Section 47604.33, and shall provide additional fiscal reports as requested by the County:

- By July 1, a preliminary budget for the current fiscal year. For a charter school in its first year of operation, financial statements submitted with the charter petition pursuant to Education Code 47605(g) will satisfy this requirement.
- By July 1, a local control and accountability plan and an annual update to the local control and accountability plan required pursuant to Education Code Section 47606.5.
- By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of the Charter School's annual, independent financial audit report for the preceding fiscal year shall be delivered to the District, the County Superintendent of Schools, State Controller, and California Department of Education.
- By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
- By September 15, a final unaudited report for the full prior year. The report submitted to the District shall include an annual statement of all the Charter School's receipts and expenditures for the preceding fiscal year.

MSA-San Diego shall provide reporting to the District as required by law and as requested by the District including, but not limited to, the following: California Basic Educational Data System ("CBEDS"), actual Average Daily Attendance reports, all financial reports required by Education Code Sections 47604.33 and 47605(m), the School Accountability Report Card ("SARC"), and the LCAP.

MSA-San Diego agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Pursuant to Education Code Section 47604.3, MSA-San Diego shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records from

the District. MSA-San Diego agrees to permit the District to inspect and receive copies of all records relating to the operation of MSA-San Diego. MSA-San Diego is subject to the California Public Records Act, however, the District's right to inspect and receive records is not based on the Public Records Act, but rather on the District's oversight role.

RESOLUTION OF THE
BOARD OF DIRECTORS OF
MAGNOLIA EDUCATIONAL & RESEARCH FOUNDATION

Approval of Revisions to Charter Petition (San Diego)
(CalSTRS Dissolution Compliance)

WHEREAS, Magnolia Educational & Research Foundation (the "Corporation") operates Magnolia Science Academy – San Diego (the "Charter School"), whose eligible employees participate in the California State Teachers' Retirement System ("CalSTRS");

WHEREAS, to obtain CalSTRS certification on Form 0765, the Corporation's governing documents, including the charter petitions, must provide that, upon dissolution or final liquidation, net assets be distributed only to a public school that meets the requirements of IRS Notice 2015-07 § III.A, or to the State of California or a political subdivision, agency, or instrumentality of the State, as required by Form 0765 subdivision (f);

WHEREAS, the charter petition for Magnolia Science Academy – San Diego does not presently conform to that requirement, and revisions to the dissolution and asset-distribution provisions of the petition (the "Charter Revisions") have been prepared to conform; and

WHEREAS, the Board of Directors (the "Board") has reviewed the Charter Revisions, which are limited to the dissolution and asset-distribution provisions of the petition and are made to comply with the CalSTRS certification requirements;

NOW, THEREFORE, BE IT RESOLVED, that the Charter Revisions to the Magnolia Science Academy – San Diego charter petition, in the form presented to the Board, are approved and adopted to conform the dissolution and asset-distribution provisions of the petition to the CalSTRS certification requirements; and

RESOLVED FURTHER, that the staff and officers of the Corporation are authorized and directed to submit the Charter Revisions to the Charter School's chartering authority to the extent required, and to take any and all further steps and to execute and deliver any and all documents as they deem necessary or appropriate to carry out the intent of this resolution.

Approval of Board Resolution Regarding Amendment to Magnolia Science Academy – Santa Ana Charter

Section: VII. Action Items
Item: F. Approval of Board Resolution Regarding Amendment to Magnolia Science Academy – Santa Ana Charter
Purpose: Vote
Submitted by:
Related Material:
VII.F - Board Resolution Regarding Amendment to Magnolia Science Academy – Santa Ana Charter_FInal.pdf

Agenda Item:	VII.F - Action Item
Date:	June 17th, 2026
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools ("**MPS**") Board of Directors (the "**Board**")
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer Andrew Zarnich, Director of Charter Petitions and Reporting
RE:	Board Resolution Regarding Amendment to Magnolia Science Academy – Santa Ana Charter

Action Proposed:

Staff recommends and moves that the Board approve the Board Resolution Regarding Amendment to Magnolia Science Academy – Santa Ana Charter, which approves revisions to the Magnolia Science Academy – Santa Ana charter petition to conform the charter's dissolution and asset-distribution provisions to the CalSTRS Certification requirements.

Purpose:

The purpose of this item is to approve targeted revisions to the Magnolia Science Academy – Santa Ana charter petition to ensure that the charter's dissolution and asset-distribution provisions comply with the requirements of CalSTRS Certification Form 0765 and IRS Notice 2015-07.

These revisions are intended to support continued CalSTRS participation for eligible employees of Magnolia Science Academy – Santa Ana by ensuring that the school's governing documents provide that, upon dissolution or final liquidation, net assets will be distributed only to a qualifying public school, the State of California, a political subdivision of the State, or another qualifying governmental agency or instrumentality.

Background:

Magnolia Educational & Research Foundation operates Magnolia Science Academy – Santa Ana, whose eligible employees participate in CalSTRS. CalSTRS Certification Form 0765 requires nonprofit public benefit corporations and charter schools offering CalSTRS to certify that applicable governing documents satisfy the dissolution and asset-distribution requirements of IRS Notice 2015-07.

The Resolution presented to the Board states that the Magnolia Science Academy – Santa Ana charter petition does not presently conform to the CalSTRS dissolution and asset-distribution requirement. Revisions to the relevant provisions of the charter petition have therefore been prepared to conform the petition to the Certification requirements.

Analysis:
Approval of this Resolution would approve revisions to the Magnolia Science Academy – Santa Ana charter petition that are limited to the dissolution and asset-distribution provisions. The revisions are compliance-focused and are intended to align the charter petition with the requirements of CalSTRS Certification Form 0765.

The Resolution authorizes staff and officers to submit the Charter Revisions to the school's chartering authority to the extent required and to take any further actions necessary or appropriate to carry out the intent of the Resolution.

These revisions are not intended to change the educational program, grade levels served, instructional model, student services, governance structure, or day-to-day operations of Magnolia Science Academy – Santa Ana. Rather, the revisions are intended to update the charter petition's dissolution language so that it is consistent with CalSTRS Certification requirements and related amendments to MPS's other governing documents.

Impact:
Approval of this item supports continued CalSTRS access for eligible Magnolia Science Academy – Santa Ana employees and helps align the school's charter petition with CalSTRS Certification requirements.

The proposed action is not expected to affect school programming, student services, staffing structures, or day-to-day operations. The impact is primarily governance and compliance-related.

Budget Implications: N/A

AFFIRMATIONS AND DECLARATION

As the authorized lead petitioner, I, Alfredo Rubalcava, hereby certify that the information in this renewal petition for a California public charter school named Magnolia Science Academy-Santa Ana ("MSA-Santa Ana" or the "Charter School"); operated by Magnolia Educational & Research Foundation ("MERF"), doing business as Magnolia Public Schools ("MPS"); and located within the boundaries of the Santa Ana Unified School District ("SAUSD") is true to the best of my knowledge and belief; I also certify that this renewal petition does not constitute the conversion of a private school to the status of a public charter school; and further, the Charter School will follow any and all federal, state, and local laws and regulations that apply to the Charter School, including but not limited to:

- The Charter School shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools. [Ref. Education Code Section 47605(c)(1)]

- MPS declares that it shall be deemed the exclusive public school employer of the employees of Magnolia Science Academy-Santa Ana for purposes of the Educational Employment Relations Act. [Ref. Education Code Section 47605(b)(6)]

- The Charter School shall be non-sectarian in its programs, admission policies, employment practices, and all other operations. [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall not charge tuition. [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall admit all students who wish to attend the Charter School; unless the Charter School receives a greater number of applications than there are spaces for students, in which case it will hold a public random drawing. Except as required by Education Code section 47605(d)(2), admission to the Charter School shall not be determined according to the place of residence of the student or his or her parents within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(d)(2)(B)(i)-(iv). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the Charter School in accordance with Education Code Section 47605(d)(2)(C). [Ref. Education Code Section 47605(d)(2)(A)-(C)]

- The Charter School shall not discriminate on the basis of the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics). [Ref. Education Code Section 47605(d)(1)]

- The Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 and the Individuals with Disabilities Education Improvement Act of 2004.

- The Charter School shall meet all requirements for employment set forth in applicable provisions of law, including, but not limited to credentials, as necessary. [Ref. Title 5 California Code of Regulations Section 11967.5.1(f)(5)(C)].

- The Charter School shall ensure that teachers in the Charter School hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools is required to hold. As allowed by statute, flexibility will be given to noncore, noncollege preparatory teachers. [Ref. Education Code Section 47605(l)]

- The Charter School shall at all items maintain all necessary and appropriate insurance coverage.

- The Charter School shall, for each fiscal year, offer at a minimum, the number of minutes of instruction per grade level as required by Education Code Section 47612.5(a)(1)(A)-(D).

- If a pupil is expelled or leaves the Charter School without graduating or completing the school year for any reason, the Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades, and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. [Ref. Education Code Section 47605(d)(3)]

- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]

- The Charter School shall maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. [Ref. Education Code Section 47612.5(a)(2)]

- The Charter School shall comply with any applicable jurisdictional limitations to the locations of its facilities. [Ref. Education Code Sections 47605 and 47605.1]

- The Charter School shall comply with all laws establishing the minimum and maximum age for public school enrollment. [Ref. Education Code Sections 47612(b) and 47610]

- The Charter School shall, on a regular basis, consult with its parents and teachers regarding the Charter School's educational programs. [Ref. Education Code Section 47605(c)]

- The Charter School shall comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA"), as reauthorized and amended by the Every Student Succeeds Act ("ESSA").

- The Charter School shall comply with the Public Records Act.

- The Charter School shall comply with the Family Educational Rights and Privacy Act.
- The Charter School shall comply with the Ralph M. Brown Act.
- The Charter School shall meet or exceed the legally required minimum number of school days. [Ref. Title 5 California Code of Regulations Section 11960]

INTERPRETATION OF TERMS

Throughout this Charter and any attachments, exhibits, and/or appendices hereto, any and all references to the Magnolia Science Academy-Santa Ana and/or Magnolia Public Schools and/or MSA-Santa Ana and/or the Charter School and/or the School, by any name or designation, shall apply with full force and effect to the Charter School itself and the nonprofit corporation, and for all purposes related to this Charter or the operations of the Charter School, both the Charter School and the corporate entity shall be fully obligated to comply with the provisions of this Charter and any attachments, exhibits and/or appendices thereto, without regard to what entity or name is referenced or specifically listed or identified therein and whether the Charter School and corporation are at any time or for any reason deemed or treated as separate entities. MSA-Santa Ana complies with AB 406 and understands that it prohibits a petitioner that submits an establishment or renewal charter petition or material revision application from operating as or by a for-profit corporation, for-profit educational management organization, or for-profit charter management organization.

Throughout this Charter and any attachments, exhibits, and/or appendices hereto, any time that MSA-Santa Ana indicates that it will follow the requirements of a particular Section of the Education Code or other law that does not explicitly apply to charter schools, it means that MSA-Santa Ana will comply with these laws in the same manner as required for California non-charter public schools, except where otherwise specified.

ELEMENT 1: THE EDUCATIONAL PROGRAM

"The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners." **(Ed. Code § 47605(b)(5)(A)(i).)**

"The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals." **(Ed. Code § 47605(b)(5)(A)(ii).)**

"If the proposed charter school will serve high school pupils, a description of the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A" to "G" admissions criteria may be considered to meet college entrance requirements." **(Ed. Code § 47605(b)(5)(A)(iii).)**

▪ The contact person for Charter School is:	CEO & Superintendent, Alfredo Rubalcava
▪ The contact address for Charter School is:	250 E. 1st Street Suite 1500 Los Angeles, CA 90012
▪ The contact phone number for Charter School is:	(714) 479-0115
▪ The proposed address, or target community by Zip Code, of Charter School is:	2840 W 1st St., Santa Ana, CA 92703
▪ The grade configuration of Charter School is:	TK-12
▪ The number of students in the first year will be:	796
▪ The grade level(s) of the students in the first year will be:	TK-12
▪ Charter School's scheduled first day of instruction in 2019-2020 is:	August 20, 2019
▪ The enrollment capacity is: (Enrollment capacity is defined as the total number of students who are enrolled in Charter School regardless of student residency.)	895
▪ The type of instructional calendar will be:	Traditional

▪ The regular day bell schedule for Charter School will be:	8:30 am to 1:15 pm for TK-K 8:20 am to 2:35 pm for 1-5 8:00 am to 3:01 pm for 6-12
▪ The term of this Charter shall be from:	July 1, 2019 to June 30, 2024

Magnolia Science Academy-Santa Ana ("MSA-Santa Ana" or "MSA-SA"), is a classroom-based charter school serving students in grades TK–12 with a curriculum emphasis on science, technology, engineering, arts and math ("STEAM"). MSA-Santa Ana's mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-Santa Ana is supplemented by tutoring, after-school programs, and school-to-university links.

MAGNOLIA PUBLIC SCHOOLS

MSA-Santa Ana is operated by Magnolia Educational & Research Foundation ("MERF"), *dba* Magnolia Public Schools ("MPS"),[1] a non-profit public charter school management organization dedicated to establishing and managing high-quality public charter schools in California. The vision of MPS is to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. MPS' educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula.[2] MPS addresses the shortage by inspiring and preparing students to choose career paths in science and technology.

MPS was first established in August 1997 to organize volunteer science, technology, engineering, and math ("STEM") based tutors for middle and high schools in Los Angeles, and later partnered with Culver City Unified School District to provide tutoring for students all around Los Angeles District. MPS also started a free tutoring program in the Sherman Oaks/Van Nuys Area of Los Angeles. These successful programs led MPS to establish its first charter school, Magnolia Science Academy-1, and go on to successfully replicate our educational program and philosophy at nine other charter schools throughout California. Today we have a total of five charter schools authorized by the Los Angeles Unified School District ("LAUSD"), three authorized by the Los Angeles County Office of Education ("LACOE"), one authorized by the San Diego Unified School District ("SDUSD"), and MSA-Santa Ana, which originally was authorized by the State Board of Education ("SBE"). Combined, MPS charter schools now serve almost 4,000 students in grades TK-12.

---

[2] Z. Zacharia and A. C. Barton, "Urban Middle-School Students' Attitudes Toward a Defined Science," *Science Education*, vol. 88, no. 2, pp. 197-222, Mar. 2004.

For the past four years, MSA-Santa Ana has had a clear STEM focus. MPS Leadership and its Board of Directors ("Board") are now committed to expanding on this success and during the 2016-17 school year, began to make the shift towards a strong STEAM focused organization. The most developed areas have been Math and Science, with the understanding that Engineering and Technology offered great growth potential. As the arts are more widely embraced, we believe that authentic connections and through lines between multiple disciplines will be made visible, and strategies will emerge to support authentic integration.

The MPS program aims to improve students' performance in reading, writing, and math, reduce dropout rates, achieve high student attendance rates, and increase the number of students who pursue careers in STEAM fields.

SCHOOL HIGHLIGHTS

Relocation to New Campus and Significant Expansion
MSA-Santa Ana originally opened in 2009 in Orange County, serving grades 6-12. As of 2015-16, MSA-SA had 144 students in grades 6-12, located at a temporary facility in Costa Mesa. To fulfill our charter and promises to the students, families and community, for the 2016-17 school year the school moved to a brand-new campus at 2840 West 1st Street, Santa Ana. Funded by the Charter School Facilities Program, the new campus includes a two-story facility totaling 48,353 square feet with 34 classrooms with state-of-the-art science and computer labs, library and learning centers on a lot of 2.68 acres. Current Phase II construction (with an expected completion prior to school starting in 2018-19) covers a-6,509 square feet gym with cafeteria, shade structures and a playground. In 2017 and 2018 we purchased 310 new additional Chromebooks to ensure a 1:1 ratio and greater efficiency and technology access across the school to provide greater access to the academic program.

With the expanded facilities, MSA-SA added grades TK-5 and grew to 635 students in 2016-2017, and 736 students in TK-12 in 2017-18.

Change in the Demographics of Students Served
As a result of the relocation and expansion, MSA-SA's student demographics considerably changed as we added more than 500 new students. In 2015-16, the Charter School's 144 students were 13% English Learners (ELs) and 60% Socioeconomically Disadvantaged (SED), with 7.6% Homeless. In 2016-17 the expanded and younger student population included almost three times as many ELs (35%), 80% SED and a jump to 18% Homeless/Foster Youth. As of 2017-18, our enrollment of 736 students was:

- 86% SED
- 20% Homeless/Foster Youth (predominantly Homeless)
- 24% ELs
- 16% Students with Disabilities (SpEd; many of these students have moderate/severe disabilities)
- 87% Hispanic/Latino, 8% White, 3% Asian/Filipino/Pacific Islander and 1% African American.

The shift in demographics necessitated more support and wrap around services. For the past two years, MSA-SA and MPS have been implementing programs and providing assistance including Multi-Tiered System and Support (MTSS) to address the challenges that came with the rapid growth and expansion and specific needs of our students and their families, as detailed more fully below.

MSA-Santa Ana's recent achievements include the following highlights, detailed more extensively below:

- 100% graduation rate from 2015-17 and a 92.86% graduation rate in 2018 (13 out of 14 students) with 100% of our graduates in two of the last four years (including 2018) meeting A-G requirements for admission to the University of California/California State University (UC/CSU) system. This compares to SAUSD's district-wide graduation rate of 89% and A-G completion rate of 47% in 2017 (the most recent year with publicly available data).[3] Our graduates have garnered admission to "top tier" highly selective schools including UCI, UC Berkeley, UCLA and others. One of our 2018 graduating seniors received $40,000 Edison Scholarship. This scholarship was awarded to only 30 students in the country.[4]
- MSA-Santa Ana received full WASC accreditation renewal for the next six years until 2024 without any conditions.[5]
- In 2016, MSA-Santa Ana received the California Honor Roll School award.
- Our CyberPatriots team qualified for the State competition in Cyber Security. Even though this was all the team members' first time in such a competition, they qualified to be in Gold division.[6]
- 2016-2018 Our students placed with medals and plaques in the Academic Pentathlon sponsored by the Orange County Department of Education (OCDE).
- Students from various grades participated in the Academic Decathlon and placed in the competition sponsored by the Orange County Department of Education ("OCDE") in 2018.
- Throughout 2016-2018, an MSA-Santa Ana student had the opportunity to participate in the Nationals for History Bee in Atlanta, Georgia.
- Our Lego Robotics team received Team Spirit award in their 2017 competition.
- One of the programs at MSA-Santa Ana is the Congressional Award Program; students who participate and complete this program receive a medal and certificate. On a special occasion, one of our 2017 seniors was awarded the Congressional Medal Leadership Program Gold Certificate, Bronze Medal, and Silver Medal by Congressman Ed Royce; two of our seniors in 2018 were awarded Congressional Medal Leadership Program medal by Congressman Ed Royce.
- MSA-Santa Ana was awarded the California Scale-Up Multi-Tiered System of Supports Cohort 3 Grant Award.
- 2017-2018 our Community Partnership with "Official No One Left Behind" was featured on local news station, KTLA.[7]
- In recognition of the commitment to student learning in the arts the LA County Arts Commission has awarded Magnolia Public Schools a matching grant of $16,400 through the Advancement Grant program. This grant offers financial support to help school districts advance the quality, quantity and equitable distribution of arts instruction in schools. MSA-Santa Ana art teacher Sunny Jung, co-led the effort in developing the MPS arts strategic plan which was the bases for the grant request.

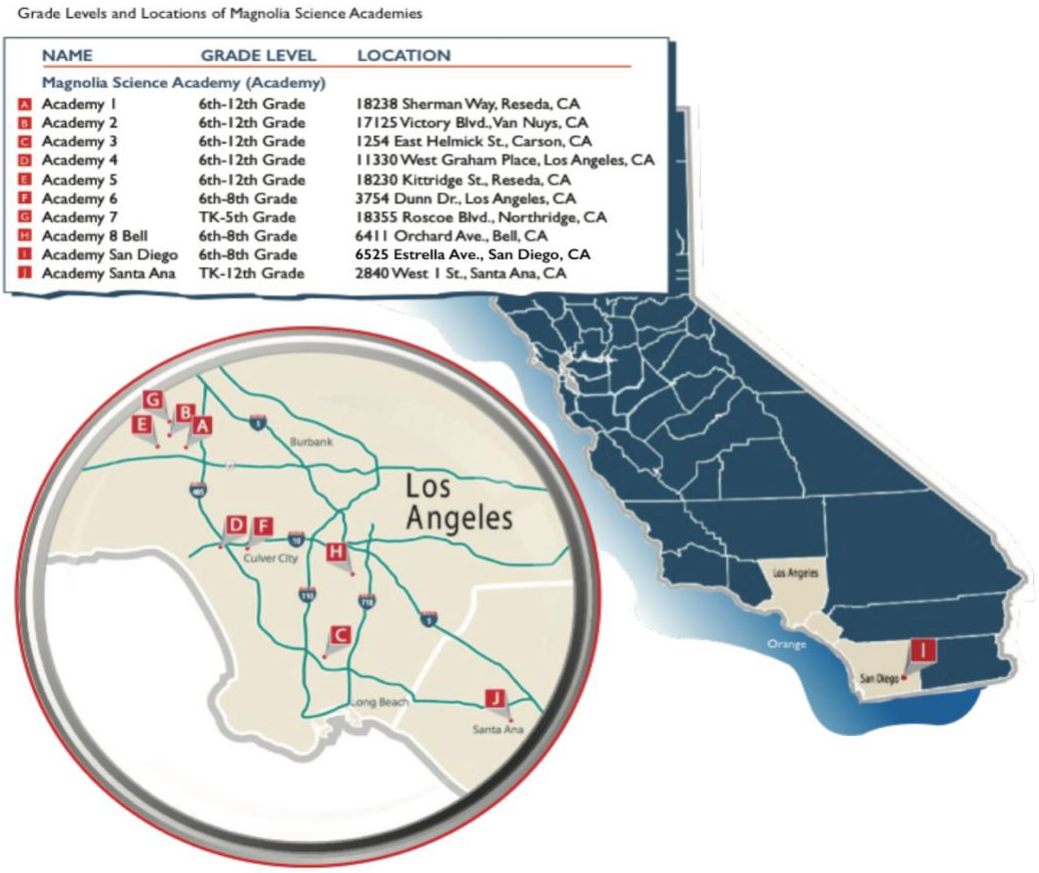
We are quite proud of these numerous accomplishments and look forward to continuing to celebrate our students' success.

Current Locations and Grade Levels of MPS Sites

MPS currently operates 10 charter schools in California. The figure below shows the current locations and grade levels of these sites.



MSA-SANTA ANA'S PERFORMANCE DURING THE CURRENT CHARTER TERM MEETS RENEWAL CRITERIA

Based on its historical and current record of performance, MSA-Santa Ana has and will continue to meet the needs of the community it serves.

Academic Performance Data and Other Absolute and Comparative Performance Indicators

Pursuant to Education Code Section 47607(b), MSA-Santa Ana must meet at least one criterion of academic success prior to receiving a charter renewal. As detailed below, MSA-Santa Ana has fulfilled this requirement by demonstrating that the Charter School's "academic performance is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have

been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school." (Education Code Section 47606(b)(4)(A)).

"The determination made pursuant to this paragraph shall be based upon all of the following: (i) Documented and clear and convincing data; (ii) Pupil achievement data from assessments, including, but not limited to, the Standardized Testing and Reporting Program established by Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 for demographically similar pupil populations in the comparison schools; (iii) Information submitted by the charter school." (Cal. Ed. Code § 47607(b)(4)(B).)

MSA-Santa Ana is located in close proximity to the intersection of the 405 and 5 freeways in Santa Ana. MSA-Santa Ana draws enrollment from across Santa Ana, with our 736 students residing in 47 different zip codes. Not surprisingly, the majority of students live in close proximity to our campus. Based on an analysis of the students' residence addresses, the following table lists the top district schools our students would otherwise be required to attend – twenty elementary schools, nine middle schools and seven high schools:

School	Grade Level	# of Student	% FRL	% SPED	% EL s	% Hisp	% AA	% White	% Asian

MSA SA - High									

(http://dq.cde.ca.gov/dataquest/)

It is important to note that some of these schools include, or are entirely, selective schools or schools of choice within SBE. For example, Orange County School of the Arts (grades 7-12) has a selective admissions process that includes both academic minimums as well as an audition/portfolio review for its highly recognized arts programs. Middle College HS (9-12) similarly selects students based on academic minimum criteria. (http://echoices.SBE.net/).

The demographics of the schools MSA-Santa Ana students would otherwise attend (collectively, "Comps" or "Comp Schools") are similar to the MSA-SA's demographics, yet, as detailed below, MSA-Santa Ana is achieving better academic outcomes for our students than most of these schools. As a

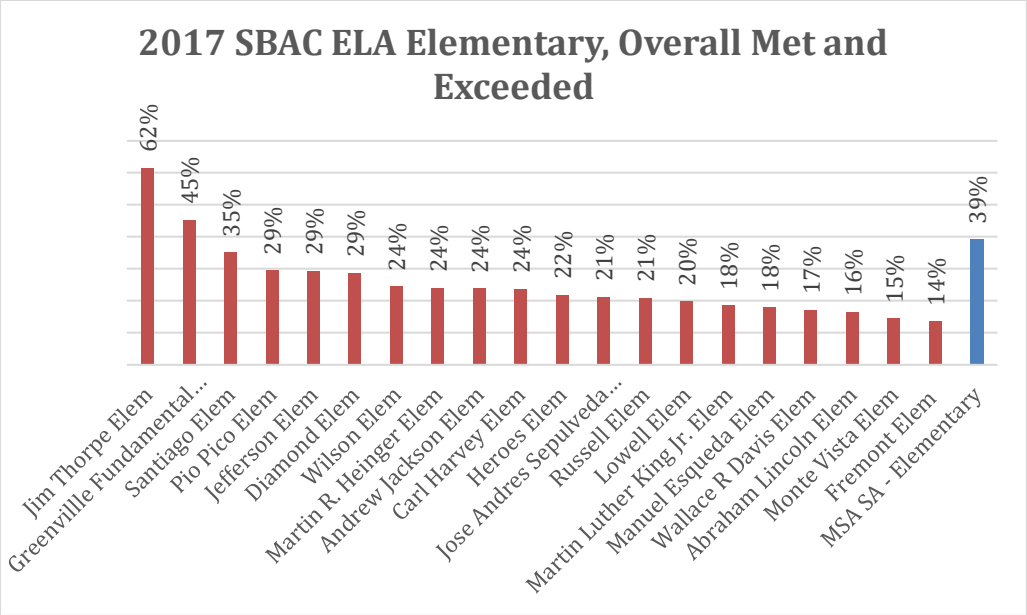
quick snapshot, here is where MSA-Santa Ana compares to the demographics of schools our students would otherwise attend:

	FRL	SPED	ELs	Hisp	AA	White	Asian
MSA Santa Ana	86.10%	15.50%	33.60%	86.70%	1.10%	7.60%	2.20%
Comp Average	83%	11%	40%	90%	2%	3%	3%
SAUSD	86.50%	12.70%	38.70%	92.90%	0.30%	2.60%	2.70%

(http://dq.cde.ca.gov/dataquest/)

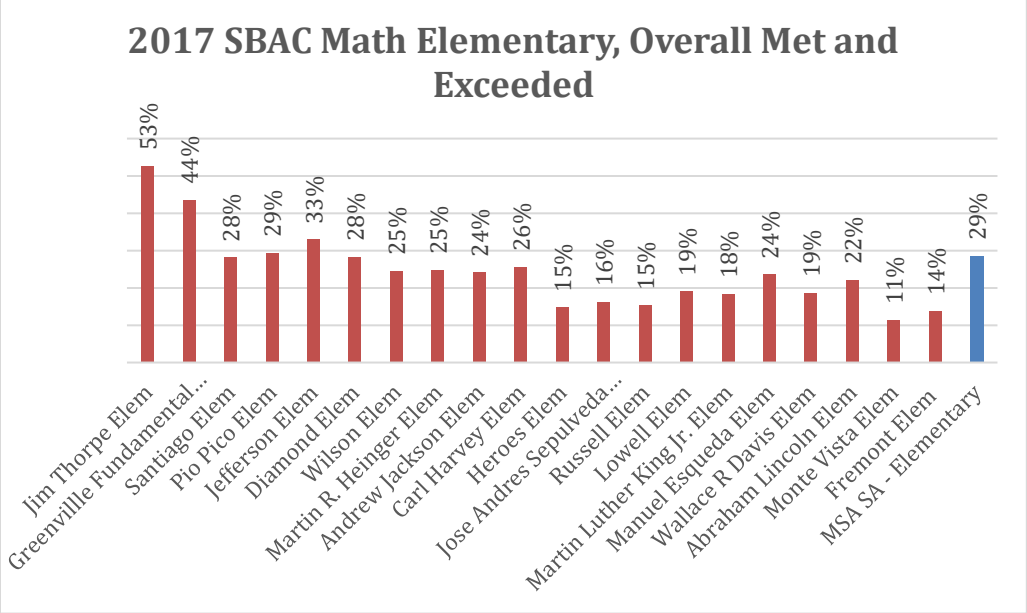
SMARTER BALANCED ASSESSMENT CONSORTIUM ("SBAC")/CALIFORNIA ASSESSMENT OF STUDENT PERFORMANCE AND PROGRESS ("CAASPP") RESULTS

On the 2017 SBAC in English Language Arts ("ELA"), MSA-Santa Ana's elementary school grade students outperformed 18 out of the 20 Comp Schools' proficiency rates, and more than doubled the rate of five of the Comps with 39% Met/Exceeded standards.



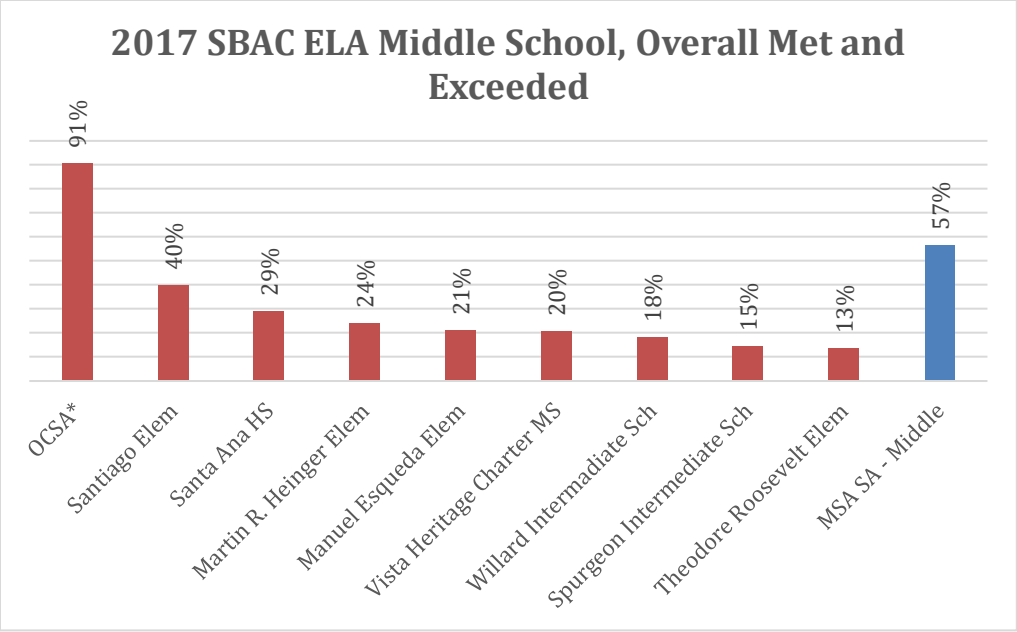
(http://dq.cde.ca.gov/dataquest/)

In Math, with 29% of our elementary students Met/Exceeded standards, MSA-Santa Ana outperformed 16 out of 20 Comp Schools, in some cases by a large margin.

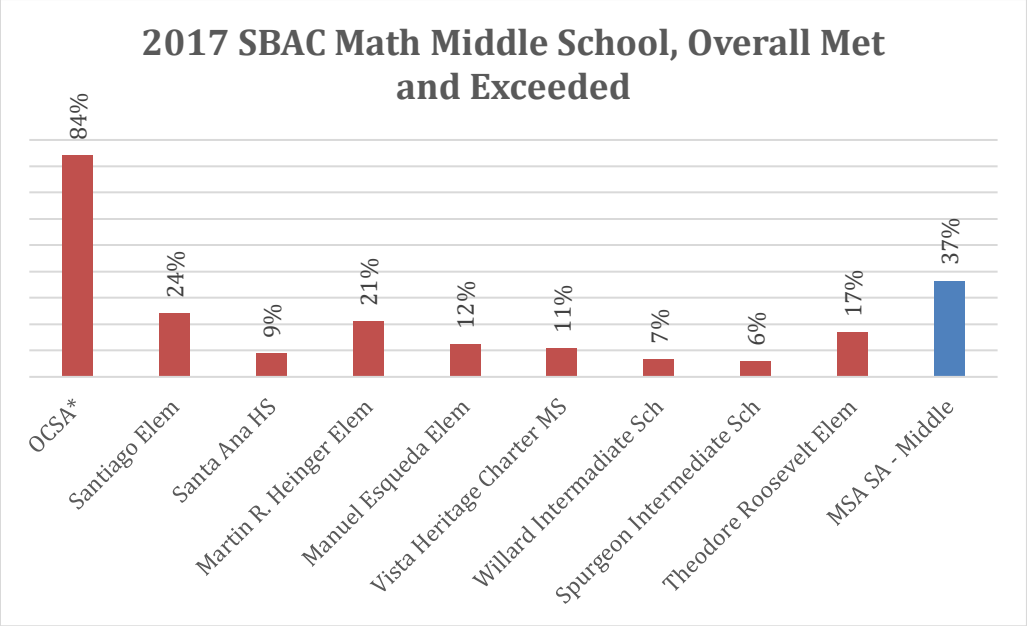


(http://dq.cde.ca.gov/dataquest/)

At the middle grade levels, our students' performance is even higher, with 57% of MSA-SA's grades 6-8 students Met/Exceeded in ELA and 37% in Math; these rates are both higher than eight out of nine Comp middle schools.

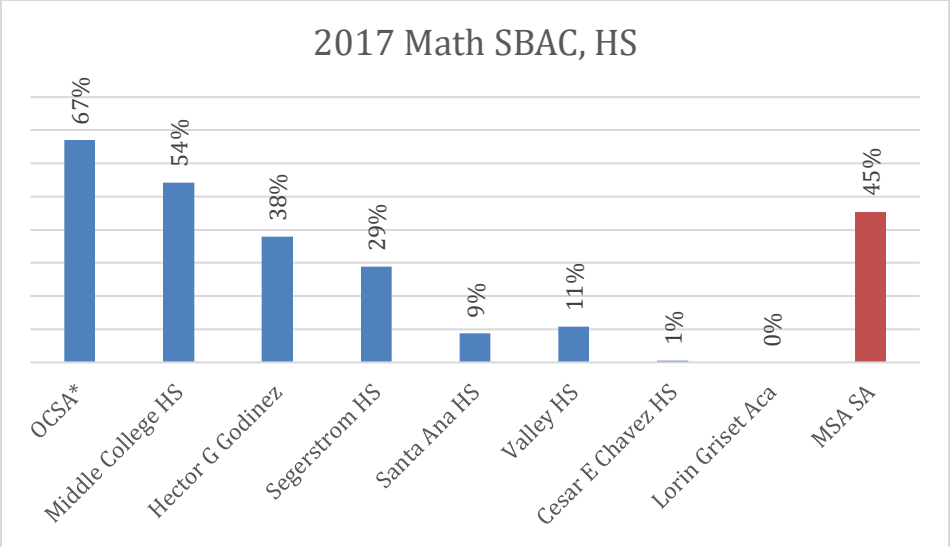


(http://dq.cde.ca.gov/dataquest/)



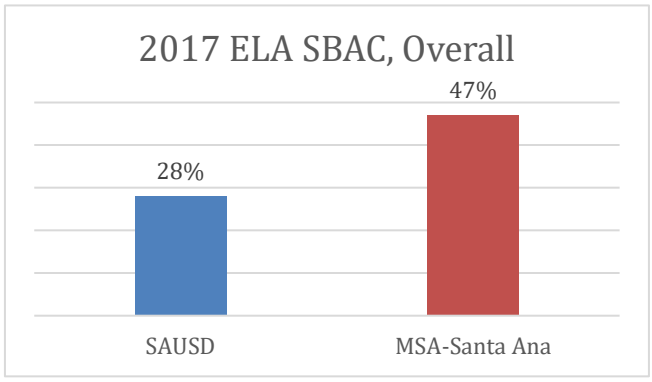
(http://dq.cde.ca.gov/dataquest/)

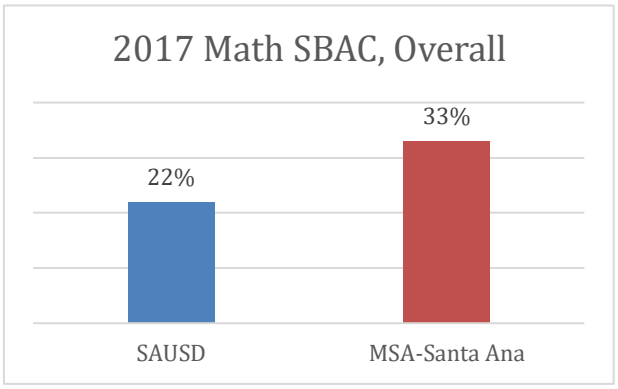
With a very small class of 11th graders in 2017 – just 11 students – we do not have published SBAC data in ELA for 2017 as only 10 students had complete test results and thus the data is not published. But in Math, our 11th graders were 45% Met/Exceeded – above all of the Comp Schools except the two with academically selective admissions.



(http://dq.cde.ca.gov/dataquest/)

Schoolwide, across students tested in grades 3-8 and 11, MSA-Santa Ana students dramatically outperformed SBE averages, with 47% Met/Exceeded in ELA (compared to 28% for SBE) and 33% Met/Exceeded in Math (compared to 22% for SBE).

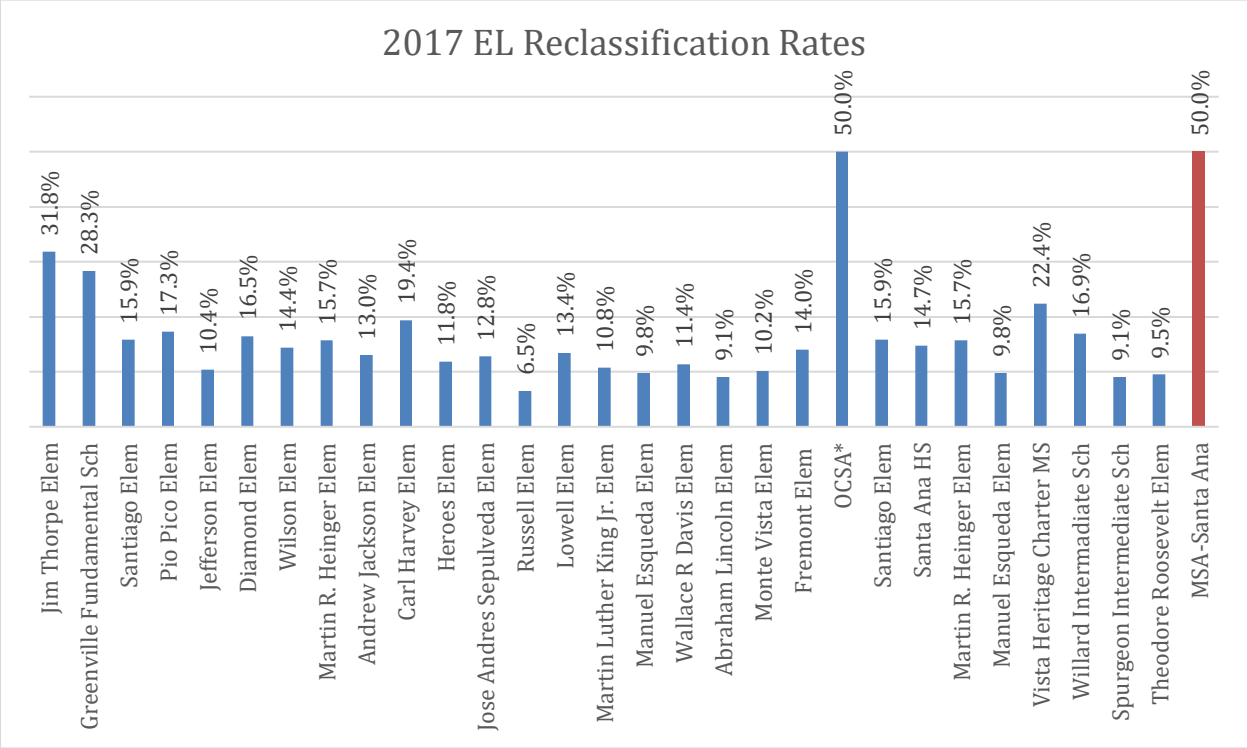




(http://dq.cde.ca.gov/dataquest/)

English Learner Re-Classification Rates

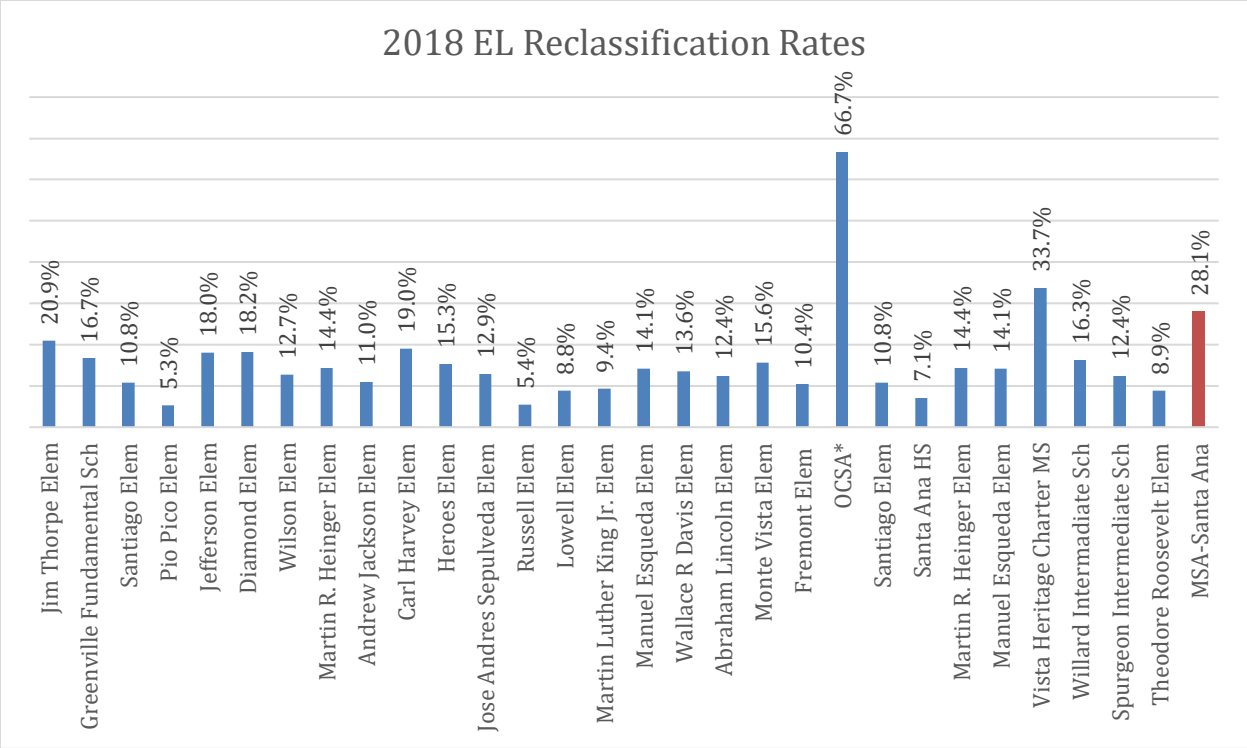
While MSA-Santa Ana has a particularly large EL population (33.6%), the Charter School focuses heavily on re-classification of English Learners, including support for Long Term English Learners ("LTELs") (see below for a detailed discussion of the English Learner program). In 2016-2017, even though most of our ELs were in their first year at our school, MSA-Santa Ana reclassified *50% of ELs*, higher or equivalent to all of the comparison schools.



(http://dq.cde.ca.gov/dataquest/)

*OCSA is a selective-admission school that includes academic minimums for entry, along with audition/portfolio review.

In 2017-2018, MSA-Santa Ana reclassified 28.10% of our ELs, again, well above typical reclassification rates at most of the Comps.



(http://dq.cde.ca.gov/dataquest/)

*OCSA is a selective-admission school that includes academic minimums for entry, along with audition/portfolio review.

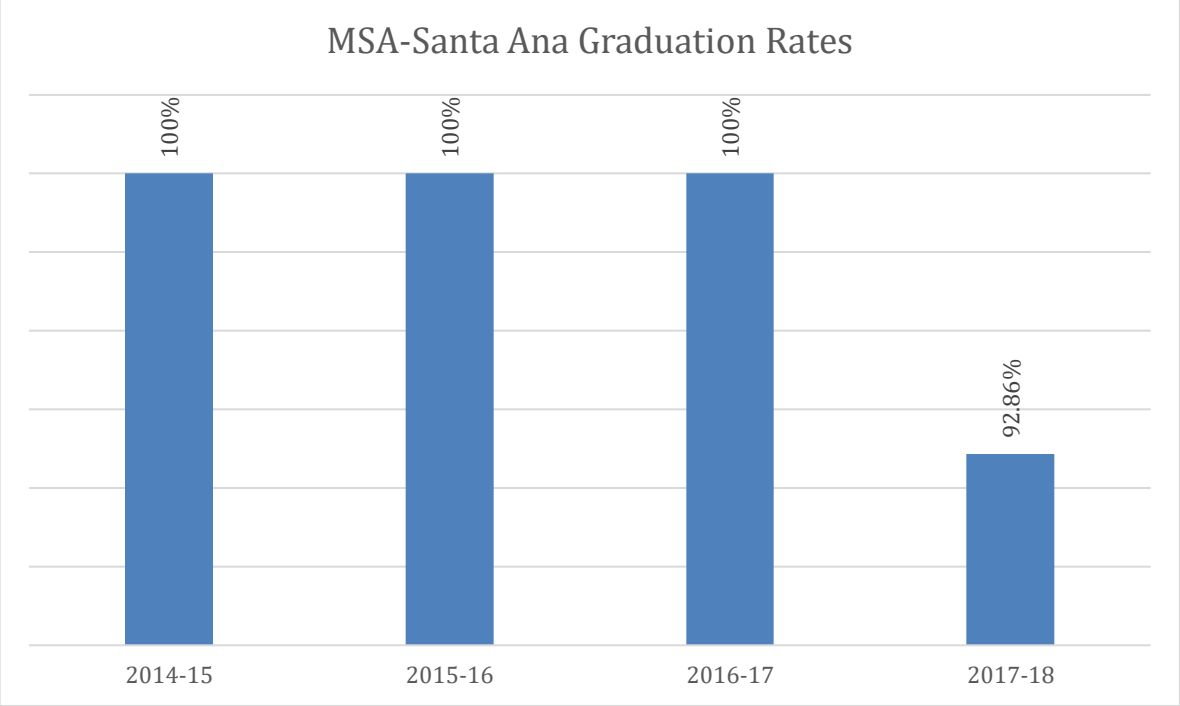
We attribute these significant reclassification rates to a renewed focus on ELs across all of our MPS schools that coincided with the enrollment expansion at MSA-SA. MPS now has a network-wide EL Coordinator that provides coaching and professional development for teachers that helps support their students' academic achievement and development of English proficiency. We have also assigned a site-level EL Coordinator at MSA-Santa Ana to help monitor the progress of our ELs, collaborate with faculty, and facilitate interventions and action plans for struggling EL students.

Additionally, we have introduced a new ELD/ELA curriculum (McGraw Hill's StudySync for secondary grades and Wonders for elementary grades) with designated and integrated ELD components that are aligned with the CA ELD standards and framework. Lastly, for reclassification (as detailed further in the section below on English Learners), we use the four criteria required by law. For the basic skills assessment requirement however, students have multiple opportunities to demonstrate their proficiency through either the NWEA MAP assessment, or the SBAC. This has enabled more students to demonstrate English proficiency and for the school to reclassify more EL students.

Graduation and A-G Completion Rates

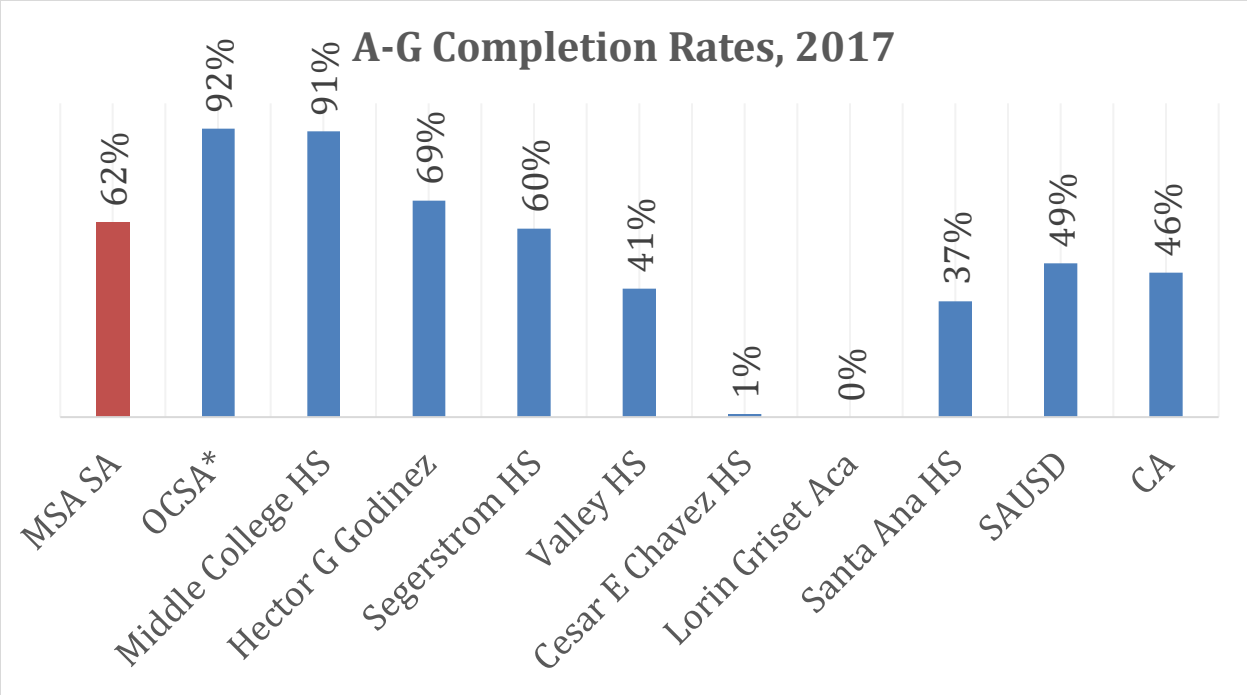
To date, MSA-Santa Ana has had very small graduating classes, yet a strong track record of graduating students who meet UC/CSU A-G requirements:

- 2014-15: 4 students (100% graduation, 100% A-G)
- 2015-16: 12 students (100% graduation, 11/12 -- 92% A-G)
- 2016-17: 13 students (100% graduation, 8/13 – 62% A-G)
- 2017-18: 13 out of 14 students (92.86% graduation, 13/13 – 100% of graduates A-G)



(Internal Student Information System)

While SBE's graduation rates district-wide have been impressive (94.2% in 2017, the most recent year with publicly available data), even though MSA-Santa Ana's A-G completion rates dipped to 62% -- eight of our 13 graduating students – that rate still outpaced the District and State averages and most of the Comp Schools, in some cases rather significantly. Notably, with the Class of 2018, A-G completion rates were back up to 100% with all 13 of our graduates meeting A-G requirements:

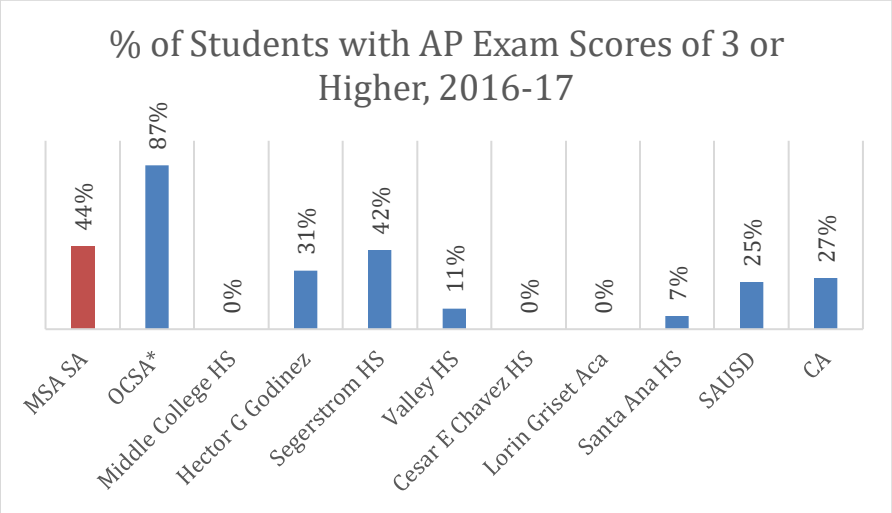


(http://dq.cde.ca.gov/dataquest/)

*OCSA is a selective-admission school that includes academic minimums for entry, along with audition/portfolio review; Middle College HS similarly has minimum academic criteria for admission.

Notably, this translates directly into college admissions: 43% of MSA-Santa Ana's 2018 graduates were admitted to four-year colleges and universities, and another 50% were admitted to two-year programs. Our graduates have received acceptances to "top tier" schools ranked in the top 50 in the nation, including Chapman University, UC Davis, UC Berkeley and UC Irvine.

AP Participation and Passing Rates



(http://dq.cde.ca.gov/dataquest/)

Of further note, 26% of our 10th-12th graders in 2017 (the most recent year with publicly available data), took at least one AP exam, with 44% of these exams earning a "3" or better score, outpacing all but one of the Comp Schools (and that school, OCSA, has academically selective admissions). While a higher percentage of students across SBE (36.5%) took an AP exam in 2017, districtwide only 25% of students scored a passing "3" or higher on an AP exam.

Student Attendance Rate and Chronic Absenteeism

MSA-Santa Ana's student attendance rates have been consistent and strong over the charter term. The average daily attendance ("ADA") was 95.94% in 2017-18, which is above the targeted rate of 95%.

	TK-K	1st-2nd Grade	3rd-5th Grade	6th Grade	7th-8th Grade	9th-12th Grade	Total ADA
2015-2016	0	0	0	97.10%	96.78%	96.05%	96.13%
2016-2017	94.39%	96.84%	97.04%	96.84%	97.00%	96.02%	96.50%
2017-2018	92.05%	96.13%	96.74%	97.23%	96.15%	95.45%	95.94%

(Current Student Information System)

Unfortunately, especially with the significant growth in enrollment, chronic absenteeism has been higher than we'd like, growing from 6.10% (2015-16) to 5.81% (2016-17) and 8.26% (2017-18). In an effort to further reduce chronic absenteeism, MSA-Santa Ana offers incentives and awards for individuals and groups with outstanding attendance. Also, attendance is a topic covered in various courses such as Life Skills and Advisory where students discuss the importance of the positive and negative effects of absences, and how each person is a valuable member of the Magnolia community. Furthermore, if and when a student has a high number of absences, the parents/guardians are contacted by the Main Office, Teachers, and/or Administration through phone calls, letters, and/or Home Visits.

Suspension/Expulsion Rate

Thanks to our restorative justice program, MSA-Santa Ana's student suspension and expulsion rates have consistently been quite low: MSA-Santa Ana has had **zero suspensions in two of the last three years and just one expulsion in the past three years**.

Year	2014-15	2015-16	2016-17
Suspension number	0	0	6
Suspension rate	0.0%	0.0%	0.90%
Expulsion number	0	0	1
Expulsion rate	0%	0%	0.14%

(http://dq.cde.ca.gov/dataquest/)

This is well below SBE and state rates:

Rate	Santa Ana Unified School District			State		
	2014-15	2015-16	2016-17	2014-15	2015-16	2016-17
Suspensions	3.50%	3.00%	3.10%	3.80%	3.70%	3.60%
Expulsions	0.06%	0.05%	0.05%	0.09%	0.09%	0.09%

(http://dq.cde.ca.gov/dataquest/)

Parent Involvement

MSA-Santa Ana has a strong home-school connection. In 2017-18, MSA-Santa Ana administrators and teachers conducted 99 home visits (about 15% of the student population) to talk with students and their families about the Charter School, the student's goals and progress, and family concerns. Many of the students visited were seniors or students who were struggling. We are striving to increase this program moving forward. Often, home visits reveal new ways of teaching and learning or opportunities that the school can offer to a student in order for him/her to thrive more.

California Department of Education Charter School Division Annual Oversight Report

Our most recent annual Site Visit Report from the CDE Charter Schools Division (CSD), our current authorizer, issued March 27, 2018, is positive. The report noted that "Based on interviews conducted with school leadership and staff, and through classroom observations, the CDE reviewed the information gathered and has determined that MSA−SA is in compliance with the MSA−SA charter petition, and the Memorandum of Understanding between the California SBE and MSA−SA."[8]

As detailed below, MPS has made significant steps in the past four years to address concerns that were raised by the state and another of our authorizers (the Los Angeles Unified School District (LAUSD)) regarding our operations and finances, fully implementing all recommendations made by the State Auditor satisfactorily. Notably, MSA-SA has financially weathered a period of rapid expansion from 144 to 736 students over two years, from seven grades served to 13 grades served. The MPS Board-adopted budget for the Charter School shows a net income of $188,700 for fiscal year 2018-19 and positive financial growth in the years to come. (See _ for detailed budgets and financials.)

California Charter Schools Association Accountability Framework

Finally, our application for charter renewal is supported by the California Charter Schools Association (CCSA), which has developed an accountability framework based on publicly available academic indicators. Like the Dashboard Reports published by the California Department of Education (CDE),

[8] CDE CSD Annual Oversite Visit Report, March 27, 2018.

CCSA utilizes "Distance from Level 3" (DF3) as a status measure for academic progress, "which measures how far (or the distance) each student is from the Level 3 (i.e., Standard Met) Smarter Balanced performance level. Each students' score is compared to Level 3, and all distance results are then averaged to produce a school- and student-group-level average scale score. The results will show, on average, the needed improvement to bring the average student score to Level 3 or the extent to which the average student score meets or exceeds Level 3."[9] CCSA ranks the DF3 score given to every eligible public school in the state[10] from lowest to highest into percentiles (1-100) and 10 decile ranks. The 1st percentile is equivalent to the lowest 1% of schools statewide, while the 1st decile translates to the bottom 10% of schools (1-10), according to the schools' average results on the California Assessment of Student Performance and Progress (CAASPP). Conversely, the 10th decile rank is equivalent to a school having an average DF3 in the top 10% of schools statewide (91-100).

CCSA's accountability framework aligns with the old Academic Performance Index (API) decile rankings detailed in California Education Code §47607, and is consistent with the Education Code in prioritizing "pupil academic achievement for all groups of pupils served by the charter school *as the most important factor*" in the determination whether to renew a charter school. CCSA's accountability tool also relies on California Education Code §52066 (detailing Local Control Accountability Plans and the state's eight priorities) in determining what to classify as an indicator of academic achievement. Conversely, the CDE's Dashboard reports do not prioritize or weight academic achievement more heavily than non-academic indicators, thus the Dashboard's application to charter renewals is rather limited under the law.

The CCSA accountability framework includes four basic measures:

- **Percentile:** DF3 must be above the 5th percentile in two of the last three years.
- **State Rank (Academic Status):** DF3 decile rank of four or higher in two of the past three years. Academic Status is the school's DF3 compared to all other eligible public schools in California, using decile rank.
- **Similar Schools Rank (SSR):** SSR of four or higher in two of the past three years. The Similar Schools Rank is a 1-10 decile ranking of average student test results, after taking into account the demographics of a school's tested students.

For Elementary and Middle Schools:

- **Academic Growth:** Above the 75th percentile in DF3 growth over the past three years (between 2015 and 2017, this was 18+ points). Academic Growth is the amount of change in a school's average DF3 over the past three years, and shows that the school is making some progress toward having all students meet ELA and Math proficiency standards.

OR, For High Schools:

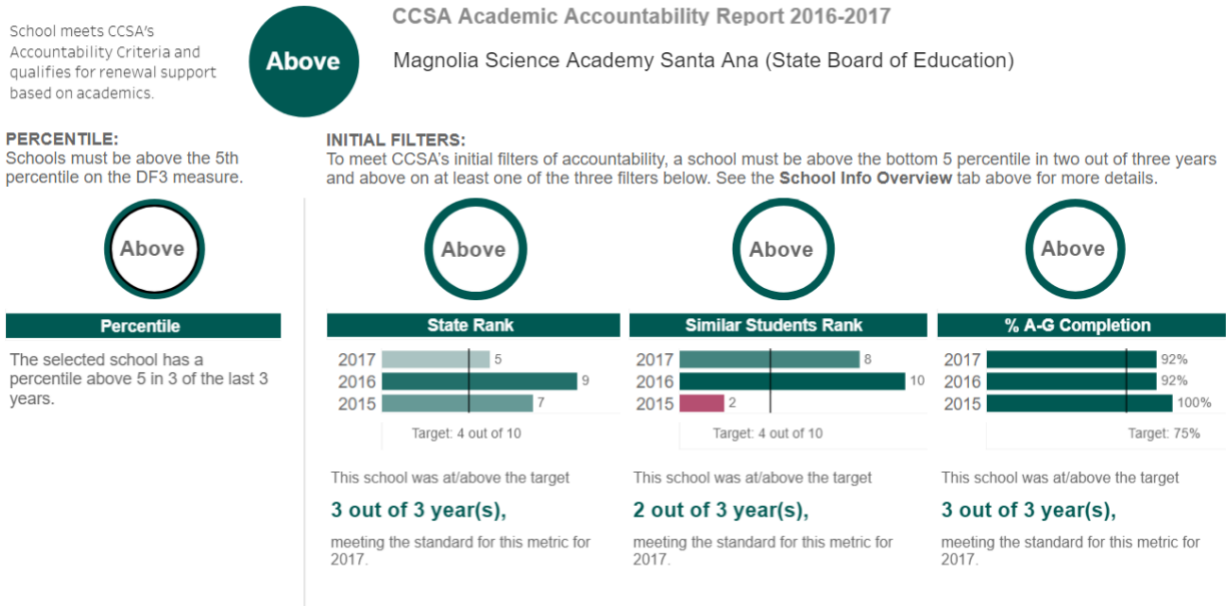
- **Post-secondary readiness:** 75% of graduating seniors have completed the minimum A-G course requirements of the University of California/California State University system with a "C" or better in two of the past three years.

According to CCSA's Accountability Framework, MSA-Santa Ana not only meets all criteria for renewal according to CCSA, but **has a Similar Schools Rank of 8/10**:

---

[9] https://www.cde.ca.gov/ta/ac/cm/acadindcal.asp

[10] Dashboard Alternative School Status (DASS) schools – formerly referred to as Alternative Schools Accountability Model (ASAM) schools are not included, nor are schools that are less than four years old or schools with fewer than 30 CAASPP test-takers.



Success of The Innovative Features of the Educational Program

MSA-Santa Ana distinguishes itself from other schools by cultivating a fearless pursuit of excellence through a rigorous, high quality STEAM education for all students. We incorporate an extraordinary support program that includes home visits, extended learning time, and parent and community engagement. At MSA-Santa Ana we believe that after-school hours are an extension of the day. MSA-Santa Ana recognizes that educational success is realized only when the essential underlying triad of student-teacher-parent/guardian is in harmony. We, therefore, work with staff, families, and the community to provide our youth with the support necessary to reach their highest potential, intellectually, socially, emotionally, and physically. We offer tutoring and clubs designed to support daytime instruction. Additionally, there is targeted intervention during and after-school. Beyond the Monday through Friday programming, starting in 2016-17 we now offer Saturday programs that include academic tutoring, enrichment and parent workshops. We also provide summer school opportunities around enrichment, AP Prep, remediation and recovery. A referral network for TK-2 grade students called Help ME Grow, provides classes for students and families dealing with behavioral issues, parenting strategies, and conflict resolution. MSA-Santa Ana partners with Western Youth Services where students and families can access social emotional support at little to no cost.

MSA-Santa Ana has partnered with Imagine Etiquette and Image Consulting, an organization that offers empowerment courses for male and female students. This partnership also serves to provide our students with the opportunity for students to learn the fundamentals of politeness, civility, communication, and leadership.

MSA-Santa Ana also partners with Official No One Left Behind, a non-profit organization that serves the families in Orange County by offering food and other essentials necessary. With this program, we have students that participate at multiple weekend food drives that are all hosted at the school site.

Success of the School's Educational Program in Meeting the Specific Needs of Its Student Population

As detailed throughout this charter petition, MSA-Santa Ana is providing a college preparatory educational program across grades TK-12, emphasizing STEAM in a safe environment that cultivates respect for self and others. Strong evidence via test scores, graduation and A-G completion rates, survey data and more demonstrate the success of MSA-Santa Ana's rigorous program and efforts to create the next generation of STEAM leaders. MSA-Santa Ana students are outperforming their peers at the neighborhood schools they would otherwise attend. MSA-Santa Ana's college going culture ensures students will graduate prepared to thrive in college.

Areas of Challenge the School Has Experienced and How They Have Been/Will be Improved

Financial and Operational Challenges

After experiencing some disputes with LAUSD -- stemming from fiscal challenges that arose in 2014 – MPS has turned the tide both financially and in our relationship with LAUSD. In the fall of 2017, LAUSD re-authorized Magnolia Science Academy-4 (MSA-4) for a five-year term, indicating the District's renewed confidence in MPS. In 2014, Magnolia Public Schools had encountered some significant challenges, including a dispute with LAUSD over the non-renewal/revocation (later reversed) of two of our schools (Magnolia Science Academies 6 and 7), leading to a Settlement Agreement between LAUSD and MPS ("Settlement Agreement"). As described by the State's Auditor:

> In recent years the academies and the Foundation have been the subject of scrutiny by the Los Angeles Unified School District (LAUSD)—the authorizing entity for eight of the 11 academies. In June 2014 LAUSD rescinded its conditional approval of two academies' charter petitions. We found that LAUSD may have acted prematurely as its decision was based on a summary of draft findings that did not provide key context about the financial situations of those academies and it did not provide sufficient time for the Foundation to respond to its criticisms. To ensure its academies remained open, the Foundation took legal action against LAUSD. In March 2015 a settlement agreement between the two parties resolved this litigation and resulted in the renewal of the academies' charters.

Elaine M. Howle, CPA, California State Auditor, *Magnolia Science Academies, Report 2014-135R,* May 2015 (www.auditor.ca.gov).

The Settlement Agreement with LAUSD imposed specific criteria for MPS to meet over a defined timeline relating to governance and operations matters. ***MPS (MERF) has satisfied all of these criteria,*** including, among other things:

- MERF modified the governance structure to include staggered Board terms and the addition of five new Board members (two more than required); the Board now has nine members instead of four;
- Made significant leadership changes with the addition of:
    - **a new Chief Executive Officer/Superintendent ("CEO"):** Dr. Caprice Young joined MPS in 2014 to help navigate the organizational challenges. Dr. Young has an extensive history leading school systems, philanthropic, business, governmental and community-based organizations engaged in transformational work. From 1999-2003 she served on the Board of LAUSD. She earned her doctorate in education from UCLA, her M.P.A. from

USC and her B.A. from Yale University. During her four years at MPS she strengthened our internal organizational procedures and external relationships. Her leadership also generated our partnerships with the Wallis Performing Arts Center, the Los Angeles County Arts Collective, Mount Wilson Observatory Foundation and The Carnegie Institution for Science: The Observatories. When she decided to step down as CEO and Superintendent of Magnolia Public Schools at the end of the 2017-18 school year, the Board conducted a thorough search for a highly qualified new leader. Effective July 1, 2018, former Magnolia Chief External Officer Alfredo Rubalcava has returned to the organization as the new CEO/Superintendent. Mr. Rubalcava was one of Magnolia's founding teachers and has held various positions within the organization such as teacher, athletic director, dean of students, principal, Chief External Officer and now CEO.

- a **new Chief Financial Officer ("CFO"):** Our CFO has more than 30 years of experience in accounting and finance, including 20 years in California public school systems and government fund accounting. She has significant experience and familiarity with the California school account structures, coding and system software and programs.
- **a new Chief Operating Officer ("COO"):** Our COO started his career as a K-12 Math teacher. He taught math for 11 years, then he became a dean of students, and then founding principal of a new charter school in Phoenix, Arizona. He later joined Magnolia as Principal of Magnolia Science Academy #2, then moved to the Regional Director Position for MPS within LA County. He is now the COO and the Regional Director for LA County Schools. Our COO holds a Bachelor Degree in Economics and Masters in Educational Leadership.

- Ceased hiring new employees utilizing H1B visas;
- Changed several outside contractors including terminating a contract with ACCORD, effective June 30, 2015 and changing auditing firms to Vavrinek, Trine, Day & Company, a highly respected and experienced firm on the state-approved list of charter school auditors;

Additional changes, above and beyond those required by the Settlement Agreement with LAUSD include:

- **a new Chief Academic Officer ("CAO"):** Our CAO is an accomplished and forward-thinking educator with 18+ years of leadership in developing and implementing leading-edge programs and services that align with mission and vision of educational institutions. He has an outstanding record of improving processes by adapting and applying aspects of STEAM Education in school systems, through comprehensive research, strategic evaluation and effective presentations of best practices in curricula, programs, tools and technologies. Our CAO has pioneered establishment of state-of-the-art online learning programs and professional development portals for academic advancement, combined with directing formative assessment and performance-based programs. He has served in top school level administrative positions in Nevada and California for over a decade.
- **a new Chief Accountability Officer:** MPS elevated our focus on compliance and accountability organization-wide through the creation of a new executive level position. Our Chief Accountability Officer ensures MPS schools have high quality accountability plans, that the MPS schools implement the programs described in their charter petitions and comply with all applicable law and regulations. Our Chief Accountability Officer earned his M.S. in engineering from UCI and M.A. in school leadership from CSUDH. With teaching and administrative experience at MPS, our Chief Accountability Officer strives to ensure MPS implements best practices aligned with our vision, mission, and core values.

CA State Audit Requirements

In addition to the Settlement Agreement, the State Auditor conducted a comprehensive and detailed review of MPS operations and finances ("State Audit") in 2014. The State Audit resulted in 12 specific conditions for MPS to meet, issued May 2015, largely related to internal controls and management of fiscal operations. As detailed below, ***MPS has "fully implemented" all of the recommendations of the State Audit as required:***

Report 2014-135R Recommendations

When an audit is completed and a report is issued, auditees must provide the State Auditor with information regarding their progress in implementing recommendations from our reports at three intervals from the release of the report: 60 days, six months, and one year. Additionally, Senate Bill 1452 (Chapter 452, Statutes of 2006), requires auditees who have not implemented recommendations after one year, to report to us and to the Legislature why they have not implemented them or to state when they intend to implement them. Below, is a listing of each recommendation the State Auditor made in the report referenced and a link to the most recent response from the auditee addressing their progress in implementing the recommendation and the State Auditor's assessment of auditee's response based on our review of the supporting documentation.

Recommendations in Report 2014-135R: Magnolia Science Academies: Although the Financial Condition of These Charter Schools Has Improved, Their Financial Controls Still Need to Be Strengthened (Release Date: May 2015)

Filter Recommendations to Status: Fully Implemented | Filter Recommendations

Recommendations to Santa Ana Unified School District		
Number	**Recommendation**	**Status**
1	Consistent with their charter petition terms, the Foundation should ensure that each academy maintains the minimum required cash reserve.	Fully Implemented
2	To ensure the CMO fees it charges to its academies are accurate, the Foundation should develop procedures to ensure that CMO fees are accurately calculated and recorded, including performing regular reconciliations of the CMO fees recorded in the Foundation's and academies' general ledgers.	Fully Implemented
3	To ensure that the academies' spending aligns with their budgets, the Foundation should create and retain standardized reports with a sufficient level of detail to allow its staff and the academy principals to compare the academies' spending to their budgets.	Fully Implemented
4	To reduce the risk of misappropriation, the Foundation should ensure that it appropriately authorizes all of its expenditures and the academies' expenditures. It should also ensure that it includes sufficient supporting documentation for each expense, including documenting the purpose of each transaction.	Fully Implemented
5	To strengthen its controls over purchases that principals make at the academies, the Foundation should update its accounting manual to require academy principals to obtain written authorization before processing purchases on their debit cards that are higher than established thresholds. The Foundation should also revise its accounting manual to prohibit the use of debit cards for travel except in the case of a documented emergency.	Fully Implemented

Recommendations to Santa Ana Unified School District		
Number	**Recommendation**	**Status**
6	To ensure that it can locate documentation supporting its expenditures and the academies' expenditures, the Foundation should develop a stronger document filing system that links all supporting documentation for expenditures to its authorization and justification included in the CoolSIS or equivalent system by using a unique identifier such as a purchase order number.	Fully Implemented
7	To strengthen its contracting process, the Foundation should define who has authority to sign vendor agreements.	Fully Implemented
8	To increase transparency and reduce the risk of misuse of funds, the Foundation should update its policies and procedures regarding vendor selection to require that it maintain independence in its relationships with vendors.	Fully Implemented
9	To ensure that it provides proper oversight over its process for hiring employees who are not citizens of the United States and that it meets all legal requirements for the employees it sponsors, the Foundation should enhance its human resources policies and procedures and implement a centralized system to track and maintain sponsored employees' files and publicly available documentation. Moreover, the Foundation should use the centralized system to ensure that proper notification is sent to Homeland Security for any material changes to sponsored employees' employment. The Foundation should also review all of its past and present noncitizen employees' files and notify Homeland Security of any material changes that it has not previously reported.	Fully Implemented
10	To hold its management accountable for meeting their responsibilities related to the payroll process, the Foundation should continue to implement its new desk procedures of requiring review and documentation of that review at each stage in the payroll process.	Fully Implemented
11	To safeguard the funds that the academies raise, the Foundation should ensure that academy staff follow the fundraising procedures in its accounting manual, especially with regards to timeliness of bank deposits and sign-offs on cash-count forms. The Foundation should also annually train its staff to ensure compliance with fundraising procedures.	Fully Implemented
12	To ensure their compliance with state and federal laws, the Foundation should continue to develop procedures for the academies to follow when they report truancy data to Education. The Foundation's procedures should include a process for the academies to document their calculations.	Fully Implemented
13	To improve communication between the inspector general and the division, SBE should develop procedures for discussing relevant findings in draft form and for determining how those findings should affect the decisions that the division or the board makes.	Fully Implemented
14	To improve its process for considering whether to rescind a charter school's conditionally renewed petition, SBE should develop procedures to provide charter schools with a reasonable amount of time for an appropriate response or to potentially remedy concerns.	Fully Implemented

Source: https://www.auditor.ca.gov/reports/recommendations/2014-135R

Since the audit, MPS has also taken steps to strengthen financial controls and implemented all of the State Auditor's recommendations, including:

- The Board-approved budget is closely monitored on a daily basis by MPS Financial Analysts and adheres to all recommendations made by FCMAT.
- MPS has been using a variety of systems to handle financial transactions, all designed to ensure appropriate financial controls and transparency. In July 2015, MPS contracted with EdTec, a preeminent back-office services provider to more than 300 charter schools, to provide primary financial support and reporting requirements. They maintained the general ledger through NetSuite software, including budget and actuals and also prepared interim financial reporting and compiles bank reconciliations. Payroll records were submitted to EdTec every pay period and loaded into NetSuite. Cash disbursements, and the related approvals, were maintained in CoolSIS, a third-party software that is independent from both PayCom and NetSuite. Checks were cut by EdTec using downloads from CoolSIS, MPS' previous purchasing software.
- As of July 1, 2018, MPS migrated to a new back office provider, Delta Managed Solutions (DMS). DMS was selected after a rigorous proposal and review process by a committee composed of the CEO, CFO, COO and two Senior Financial Analysts, based on the following criteria: (1) Cost; (2) Accounting/Procurement System Software; (3) Staff Training; (4) Ability to Self-Serve; (5) Check and Balance; (6) Audit Compliance/Zero Audit Findings; and (7) Need for Coolsis. As a result, DMS proved to be the best back office provider moving forward. Now all of the previous tasks noted in the bullet point above will be handled by our new provider, DMS and new tracking system, Escape.
- NetSuite, Paycom and Escape all have been enhanced and customized for MPS since the implementation date to better serve our specific needs.
- In addition, we are adding AssetWorks as a new automated system to monitor and track all our assets and technology equipment.

MPS will continue to ensure all facets of our operations, governance and programs are both strong and compliant.

Increasing Academic Achievement

We, like every school in the State, are focused on improving student outcomes in all academic areas. In order to raise achievement of students across all grades, we have taken several significant steps, including:

- Increasing student access to digital curriculum with one-on-one devices in classrooms
- Implementing the Illuminate Data and Assessment system for formative and summative assessments
- Implementing three-times per year Northwest Evaluation Association ("NWEA") Measures of Academic Progress ("MAP") benchmark assessments
- Investing in a new math coach to further support our teachers and students
- Focusing on needs based and LCAP focused professional development programs
- Offering Saturday School as a targeted intervention program
- Expanding after-school tutoring opportunities
- Doubling time on task with Power Math/English classes

Going forward, we are placing a priority on providing targeted professional development, implementing McGraw Hill's Study Sync curriculum and Integrated Math Program with fidelity and monitoring and supporting the growth of all student groups, with a particular focus on increased outcomes for Special Education and EL students. MPS has partnered with the UCLA's Curtis Center to provide our math teachers with best practices for engaging students in sense making, critical thinking and mathematical

modeling. Teachers also will receive tools from the Center's work writing performance tasks for the SBAC/CAASPP. Additionally, MPS supports teacher innovation and contribution through our Teacher Symposiums, which are held twice a year.

For our elementary teachers, we have weekly grade level sessions with the Dean of Academics to address the growth and areas of need for third through fifth grade. In addition to support in ELA and Math interventions, we use the Count Down to SBAC as well as the Strategic Intervention curriculum through McGraw-Hill to further support the needs of our targeted intervention grouping. In teaching math, we introduce standards with a Hook, Activity Before Concept (tapping into prior knowledge), I Do, We Do, You Do model introducing the key concept, followed with Active Practice Activity, and ending with an exit ticket to show understand and or mastery of the standard. We are confident these efforts will increase proficiency levels on state assessments as well as AP exams.

Facilities

Our new facility has resolved an ongoing challenge that many charter schools across the state face in securing appropriate, cost-effective long-term facilities solutions to meet their school and community needs. Our new state-of-the art facility has enabled us to expand significantly and provides an appealing, welcoming learning environment for our diverse students across the full TK-12 grade span. With the addition of the gymnasium this fall, the school will have an appropriate open space for multiple functionalities including another multi-purpose room. With this new space, we look forward to continuing to create an innovative and creative space for our scholars to continue learning.

STUDENT POPULATION TO BE SERVED

TARGET POPULATION

MSA-Santa Ana serves students in grades TK-12, and mainly draws enrollment from Santa Ana, CA and neighboring communities. According to 2010 U.S. Census data, zip code 92703, where our new facility is located, is with a demographic breakdown of 79% Hispanic, 14% Asian; 5% White and 1% African American.[11] The median yearly household income is $50,692, with 29% of families living below the federal poverty line in the past 12 months.[12] **In 2018, the federal poverty line for a family of four is just $25,100.[13]** Notably, according to Living Wage Calculator, a project of Dr. Amy K. Glasmeier, Professor of Economic Geography at MIT, a family of four in Orange County with two working adults needs to earn $82,510 annually to be self-sustaining (not needing public assistance).[14] This equates to $19.83/hour per adult; the federal poverty line rate equates to just $5.00/hour. In other words, as many as 71% of families in this zip code are living in poverty based on the economic realities of the area. Notably, 51.5% of local adult residents did not complete high school and only 7% have a Bachelor's degree. Finally, 87% of the local population speaks a language other than English at home (predominantly Spanish).[15]

Educational Interests, Backgrounds, and Challenges

Current research indicates that English Learners, students with disabilities, and socioeconomically disadvantaged students are the most rapidly growing student groups in California, specifically in charter schools, yet are among the lowest in educational attainment (Gandara, 2013). One in five children or adolescents in the U.S. are of Hispanic origin and are intensifying their impact on educational and work settings (Pino, Martinez-Ramos, & Smith, 2012). Minority students from low socioeconomic status ("SES") backgrounds and first-generation American students are the least likely to be prepared for, enroll, and persist past their first year in a university (Garcia, 2010).

While Title I federal legislation and increased monetary support has allowed significant student groups to improve their academic proficiency, ELs, students with disabilities, and low-income students continue to lag behind other major student groups, more specifically Caucasian and Asian Americans (Romo & Salas, 2003).

The disconnect between these student groups' academic achievement, size of population, and disproportionate under-representation in higher education can be attributed to a variety of factors including lack of parental involvement, not understanding the educational system and its requirements, school barriers, and racial perceptions (Conchas, 2001, 2006; Conchas & Goyette, 2001; Fry, 2002; MacDonald, 2004).

The charter school movement evolved as an effort to counter consistently failing schools; to create a marketplace within the school system where parents could choose where their children could attend school (Knaak& Knaak, 2013). In particular, charter schools developed to implement innovative teaching strategies in an environment free of some of the bureaucracy found in larger school districts (National Alliance for Public Charter Schools, n.d.). As lack of access to a quality education and preparedness to college continues to be a pervasive issue, a growing number of educational leaders has begun to develop theme-based charter schools and alternative approaches to educating students.

For seventeen years, Magnolia Public Schools have provided a STEM, and now STEAM, focused education to address the needs of underrepresented communities. As of 2018, we have graduated over 700 students. At MPS, ALL STUDENTS have access to high quality and effective STEAM-based Common Core State Standards ("CCSS") and Next Generation Science Standards ("NGSS") aligned instruction, along with engaging elective and enrichment programs that support their learning and development.

Enrollment Plan

The following shows the anticipated enrollment per grade for the next charter term, with class sizes ranging from 20-30 students on average:

	Projected Grade-level Enrollment at MSA-Santa Ana					
	Baseline 2018-19	2019-20	2020-21	2021-22	2022-23	2023-24
TK	25	25	25	25	25	25
K	60	60	60	60	60	60
1	75	78	78	78	78	60
2	60	78	78	78	78	78
3	60	60	78	78	78	78
4	60	60	60	78	78	78
5	60	60	60	60	78	78
6	60	60	60	60	60	78
7	62	60	60	60	60	60
8	74	60	60	60	60	60
9	60	60	60	60	60	60
10	38	60	60	60	60	60
11	37	38	60	60	60	60
12	40	37	38	60	60	60
Total	771	796	837	877	895	895

GOALS AND PHILOSOPHY

Mission and Vision

MPS provides a college preparatory educational program emphasizing science, technology, engineering, arts and math in a safe environment that cultivates respect for self and others.

MPS' vision is that graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

MPS has identified the following core values, which are reinforced through the Life Skills curriculum, student learning outcomes ("SLOs"), and all school activities:

Excellence
Academic excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project- based learning using a constructivist approach, student portfolios, assessments of and for learning and academic

discourse and argumentative writing. Scholars learn where and how to access the needed information to advance their academic pursuits and societal contributions.

Innovation
Students will have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest and career plans will support students' college and career readiness. This will include student participation in their four-year plans, after school enrichment programs, STEAM program choice options, adaptive assessments and blended learning strategies, differentiated instruction and differentiated and adaptive assessments.

Connection
School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internship, promote unity and better decision making through the implementation of restorative justice practices. Additionally, community cultivates identity and gives each member a sense of belonging and pride. MPS utilizes home visits, student surveys, instructional field trips, life skills classes and coaching to support our overall community-based goals. We work with community partners to establish mentoring relationships and other social capital to support our students' development of personal and academic networks for long-term resilience and connection.

STUDENT LEARNING OUTCOMES

The Student Learning Outcomes (SLOs) are measurable schoolwide goals that every student is expected to achieve upon graduation from MSA-Santa Ana. Our schoolwide SLOs are embedded in our curriculum, including Life Skills, our instructional practice, core values, Character Counts curriculum, as well as, our Home Visit policy and daily culture at the Charter School.

MSA-Santa Ana graduates will be:	
SCHOLARS who:	▪ Think critically. ▪ Develop academic plans and goals to guide in their pursuit towards a college degree and career choices (planning). ▪ Apply, analyze, identify, synthesize and evaluate information and experiences. ▪ Connect the skills and content learned across the curriculum and evaluate multiple points of view. ▪ Use the Inquiry Process to address a problem, hypothesize, analyze, and draw conclusions as they investigate an issue/problem. ▪ Utilize problem-solving techniques during conflict resolution and can compromise.
INDEPENDENT SCHOLARS who:	▪ Exhibit the ability to integrate technology as an effective tool in their daily lives. ▪ Use technology effectively to access, organize, research and present information.

MSA-Santa Ana graduates will be:	
	▪ Demonstrate effective oral and written communication skills through the use of academic language at school, with peers and in the community. ▪ Demonstrate content area and grade level achievement in Reading, Writing, Mathematics, History and Science. ▪ Are self-directed. ▪ Meaningfully engage in learning activities. ▪ Make informed decisions on their learning pathways. ▪ Know their readiness levels, interests, and backgrounds. ▪ Understand their own learning styles and intelligence preferences. ▪ Reflect on their learning. ▪ Accept and integrate feedback. ▪ Adapt to change.
COMMUNITY FOCUSED CITIZENS who:	▪ Embrace and respect cultural diversity through the understanding of our global world. ▪ Demonstrate knowledge and understanding of American and world history and the values of different cultures. ▪ Contribute to the improvement of life in their school and local community through leadership skills and participation in community projects. ▪ Demonstrate knowledge of proper nutrition, exercise and physical health and its impact on daily life. ▪ Collaborate, work effectively, and manage interpersonal relationships within diverse groups and settings. ▪ Develop their ability to affect change in the world. ▪ Understand and reflect on connections between their community and global connectedness and how it affects the broader world through global awareness. ▪ Understand that outreach is a responsibility. ▪ Realize that agitation is a mechanism to activism.

AN EDUCATED PERSON IN THE 21ST CENTURY

The world in which we live and learn has a unique set of advantages and challenges. The goal of MSA-Santa Ana is to prepare students to adeptly utilize those advantages and confront these challenges with tenacity and courage. We believe that all students have social capital and can re-imagine their futures by utilizing their highest potential. We believe that engaging underrepresented communities through STEAM education will transform our society and prepare our scholars to lead in the 21st century not only as career seekers but also as career creators.

President Obama's Council of Advisors on Science and Technology (2010) describes the importance of middle and high school education in STEM/STEAM as follows:

> *The success of the United States in the 21st century – its wealth and welfare – will depend on the ideas and skills of its population. These have always been the Nation's most important assets. As the world becomes increasingly technological, the value of these national assets will be determined in no small measure by the effectiveness of science, technology, engineering, and mathematics (STEM) education in the United States. STEM education will determine*

> *whether the United States will remain a leader among nations and whether we will be able to solve immense challenges in such areas as energy, health, environmental protection, and national security. It will help produce the capable and flexible workforce needed to compete in a global marketplace. It will ensure our society continues to make fundamental discoveries and to advance our understanding of ourselves, our planet, and the universe. It will generate the scientists, technologists, engineers, and mathematicians who will create the new ideas, new products, and entirely new industries of the 21st century. It will provide the technical skills and quantitative literacy needed for individuals to earn livable wages and make better decisions for themselves, their families, and their communities. And it will strengthen our democracy by preparing all citizens to make informed choices in an increasingly technological world.*

Prepare and Inspire: K-12 Education in Science, Technology, Engineering, and Math (STEM) for America's Future. Executive Office of the President, Washington, D.C., 2010. (PCAST, 2010)

All MPS schools prepare 21st century scholars to adapt to new platforms and technology through personalized learning and exposure to real world task and interactions across all grade levels such as: project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing, local and national academic and STEAM competitions, internships, mentoring, STEAM clubs, college and career instructional field trips. Building upon students' knowledge in math, science, history and literature through real world applications and experiences fosters a love of learning. Supporting life-long learning through collaboration, digital literacy, academic discourse, argumentative writing and individualized scheduling models prepares students for 21st century demands.

MSA-Santa Ana graduates also develop the social and emotional skills needed to compete in a global society. MSA-Santa Ana graduates have a growth mind-set, are resilient, reflective, and demonstrate grit, self-respect and good character. These skills are crucial to not only attending and completing college but also for graduates being able to develop and contribute their original ideas in a work place environment.

HOW LEARNING BEST OCCURS

MSA-Santa Ana firmly believes that ALL students are brilliant and are capable of growing academically and emotionally. It is our responsibility as educators to provide scholars with the tools and contexts they need to accomplish their goals. We also recognize that all students bring a unique set of skills and talents to the school community. Our goals for our scholars are to ensure that they are academically achieving, technologically fearless, creatively empowered, and socially and civically engaged.

Research and experience show us that learning best occurs when students are engaged and actively involved in the learning experience, have multiple opportunities to make interpersonal connections with the world, and relate their experiences to what they are learning in school. At MSA-Santa Ana, we strive to effectively facilitate student learning. Because individual needs are intrinsically motivating, we begin the process by allowing students to assess their unique learning needs and styles, and teach them how to articulate those needs through effective communication. This helps guide educators in developing their curriculum so that it is personalized and aligned to meet students at their affect level. Furthermore, MPS carefully collects and disaggregates data in order to consistently monitor and measure student growth, as well as provide immediate feedback to improve learning. We use this data to further tailor our program to meet the individual needs of our scholars.

MSA-Santa Ana's rigorous standards-based educational program uses inquiry and project-based activities to help students acquire core academic knowledge, problem-solving skills, and critical thinking skills. We have designed our curriculum to be relevant to our student demographic, while allowing scholars to explore and connect to the world. Additionally, we believe that student output must have depth and value, in order to foster a sense of pride and accomplishment.

We start at the primary level with engaging our younger students in project-based learning, centers, and other active practice activities. For our youngest students, the MSA-Santa Ana elementary program prepares students for success in middle and high school by providing an inquiry based hands-on instructional approach to not only teach young students to "learn to learn" but also prepares them for success in the pursuit of future STEAM careers and interests in upper grades. Inquiry-based learning in lower grades includes a cross-curricular math, science and technology focus to emphasize the development of inquiry skills and the nurturing of inquiring attitudes or habits of mind that will enable our students to continue the quest for knowledge throughout life.

Many elementary schools, especially those who serve low socioeconomic students and a high proportion of minority students, erroneously assume that in order to bring students up to grade level proficiency in ELA and Math, science and technology can be forgone for a more intensive focus on math and language arts basic skills. Since the inception of the MPS schools throughout California, our educators have seen the consequences of these decisions. Even when a unique program like MSA-Santa Ana is provided to students starting in the middle school years, many students have already "given up" on science. They lack the preparation and confidence in the learning process and therefore find it difficult to change their mindset around learning.

We see that elementary school students value science – and learning across different subjects -- best when:

- A variety of presentation modes are used to accommodate different learning styles.
- Students are given opportunities to interact and share ideas with their peers.
- The scientific contributions of individuals from all ethnic origins are recognized and valued.
- Other subject areas are infused into science.
- Inquiry skills and positive attitudes are modeled by the teacher and others involved in the education process.

Inquiry based teaching is often seen as a way of engaging students in the learning process through group work and hands-on activities, and by challenging them to support conclusions with evidence and observations. Effective inquiry is more than just asking questions. A complex process is involved when individuals attempt to convert information and data into useful knowledge. These skills can be developed at any age. As Bryn Mawr science professor, Wilfred Franklin, describes it best, "Inquiry based approaches to science education focus on student constructed learning as opposed to teacher-transmitted information…Inquiry based curriculum has been shown to develop independent and critical thinking skills, positive attitudes and curiosity toward science and increased achievement in biological content (Hall & McCudy, 1990), (Kyle et al, 1988), (Kyle et al, 1982), and (Shymansky, 1984)."

At all grade levels, we improve students' academic skills, especially of those who are performing below grade level, by providing comprehensive tutoring/ intervention programs. We empower students to become self-motivated, competent, and lifelong learners. We create a supportive and caring

environment involving all stakeholders and through community partnerships, and strong student-parent-teacher communication.

The educators on our team are the foundation of authentic and equitable learning. MSA-Santa Ana teachers understand that students learn best when they have multiple opportunities to work collaboratively in teams. To develop conceptual understanding in constructivist settings, MSA-Santa Ana teachers assume the role of facilitators of meaningful learning experiences rather than transmitters of knowledge. Students build on their existing knowledge as guided experiences to help them discover and develop the underlying ideas and concepts. This process not only deepens the students' knowledge, it also sparks and stimulates their curiosity and passion for learning.

In addition to our educators, as a foundational piece of our model, parents are recognized as integral participants in successful student learning. The involvement of all stakeholders helps to develop a school's culture, and its identity as a family and a community. Students whose parents are involved in their learning tend to experience higher academic achievement, better attendance, higher graduation rates, and a better chance of continuing with their education beyond high school.

The focus on life skills is an important element of the MSA-Santa Ana model that enhances our scholars' learning experience. Our life skills courses are supplemental and designed to empower students with critical study and organizational skills, as well as important social skills. These skills support self-motivation, improvement, and growth, with the goal that students will ultimately use these tools to evolve and contribute to their global community.

In order to cultivate responsible members of society, students need to be fully engaged with their community. MSA-Santa Ana students are continuously and actively involved in various community outreach endeavors. The MSA-Santa Ana model incorporates "real life" projects that are aligned with the curriculum, and provide students with opportunities to work within their home community. This will help students move from adolescence and school to adulthood and society.

In addition to the curricular design, MSA-Santa Ana also offers an exciting after-school program that offers academic assistance to students, as well as providing a safe place for academic and social and emotional enrichment beyond the school day. This program will promote a love of learning and accelerate a positive feeling about the school experience, as well as, nurture a sense of family in our scholars.

THE REQUIREMENTS OF CALIFORNIA EDUCATION CODE § 47605(B)(5)(A)(II)

MSA-Santa Ana will pursue the following school-wide and student group outcome goals, based on the state priorities detailed in California Education Code § 52060(d). Student performance and achievement of school-wide, student group and individual student progress is measured by multiple and varied summative and formative assessments that are aligned to state and federal standards (including the CCSS) and reflect proficiency measures required by the new CAASPP, as well as state priorities detailed in California Education Code § 52060(d).

The following chart details the school's goals as of this petition submission, for all pupils (including statistically significant subgroups) pursuant to California Education Code Section 47605(b)(5)(A)(ii), 52052, for each of the eight (8) state priorities identified in California Education Code § 52060(d),

including specific annual actions the school will take to achieve each of the identified annual goals. We note that as required under the California Education Code, MSA-Santa Ana's stakeholders will engage in a collaborative process each year to update and prepare an annual Local Control and Accountability Plan (LCAP) as a basis for prioritizing allocation of funds. The following is intended to be illustrative of the goals and actions MSA-Santa Ana anticipates at this point in time.

LCFF STATE PRIORITIES	
GOAL #1	
All students will pursue academic excellence and be college/career ready.	Related State Priorities: ☒ 1 ☒ 4 ☐ 7 ☒ 2 ☐ 5 ☒ 8 ☐ 3 ☐ 6 Local Priorities: ☐: ☐:

Specific Annual Actions to Achieve Goal

- Charter School will conduct credential review as part of teacher hiring process and support our teachers' credentialing needs. Charter School will also annually review master schedule/teacher assignments to ensure compliance. We will support our teachers for their credentialing needs.
- Charter School will annually review alignment of instructional materials to standards and keep an inventory of instructional materials and corresponding purchase of materials. Charter School will annually review budget and plan to ensure adequate budget for instructional materials.
- Charter School will do annual and monthly facility inspections to screen for safety hazards. Daily general cleaning by custodial staff will maintain campus cleanliness.
- Charter School will ensure curricula and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.). Teachers will be provided with instructional guidance and feedback through classroom visits.
- Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with professional development ("PD") focused on ELD standards. Our EL coordinator will monitor EL students' progress in program implementation according to our EL Master Plan.
- Charter School teachers will provide instruction using integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE for designated and integrated ELD) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework.
- During the day, Charter School will provide additional supports and interventions to all students, including ELs.
- Charter School will provide additional supports and interventions to all students, including ELs, during after school hours and on Saturday.
- Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress toward targets.
- Charter School will offer individual graduation plans, outlining the classes students will take during their high school years.
- Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests.
- Charter School will offer "Advisory" classes (college planning and career exploration program) and "College Readiness" classes and programs preparing students for college readiness, including test prep for ACT/SAT.

Expected Annual Measurable Outcomes

Outcome #1: Charter School's teachers will be appropriately assigned and fully credentialed as required by law and the charter.

Metric/Method for Measuring: Percentage of teachers who will be appropriately assigned and fully credentialed as required by law and the charter

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #2: Students will have sufficient access to standards-aligned instructional materials.

Metric/Method for Measuring: Percentage of students who will have sufficient access to standards-aligned instructional materials

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #3: Items on facility inspection checklists will be in compliance/good standing.

Metric/Method for Measuring: Percentage of items on facility inspection checklists in compliance/good standing

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	90%	≥90%	≥90%	≥90%	≥90%	≥90%

Outcome #4: Charter School will provide implementation of state standards for all students.

Metric/Method for Measuring: Percentage of state standards implementation for all students

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #5: All student groups will meet or exceed their proficiency targets on the CAASPP-ELA/Literacy assessments.

Metric/Method for Measuring: Percentage of students performing proficient on the CAASPP-ELA/Literacy assessments (Grades 3-8)

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	47%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
English Learners	3%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year

Socioecon. Disadv./Low Income Students	44%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Students with Disabilities	7%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Homeless Students	50%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
Latino Students	43%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year
White Students	74%	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year	3 percentage points up from prior year

Outcome #6: All student groups will show growth on the CASSPP-ELA/Literacy assessments.

Metric/Method for Measuring: Change in Average Distance from Level 3 on the CASSPP-ELA/Literacy assessments (Grades 3-8)

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	20 points below level 3	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year	3 points up from the prior year

		points up from the prior year	points up from the prior year	points up from the prior year	e points up from the prior year	points up from the prior year
White Students	55%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #11: EL students will make annual progress in learning English as measured by the ELPAC.

Metric/Method for Measuring: Percentage of EL students making annual progress in learning English as measured by the ELPAC

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
English Learners	73.5%	1 percentage point up from the prior year	1 percentage point up from the prior year	1 percentage point up from the prior year	1 percentage point up from the prior year	1 percentage point up from the prior year

Outcome #12: EL students will be reclassified annually.

Metric/Method for Measuring: Percentage of ELs reclassified to Fluent English Proficient (RFEP) annually

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
English Learners	22%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #13: Students will receive a grade of "C" or better (or perform "proficient" on the related state standardized tests) in core subjects and electives.

Metric/Method for Measuring: Percentage of students who have received a grade of "C" or better (or perform "proficient" on the related state standardized tests) in core subjects and electives

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	45%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #14: Graduating seniors will have met or exceeded standard on both ELA and Mathematics on Smarter Balanced Summative Assessments

Metric/Method for Measuring: Percentage of graduating seniors who have met or exceeded standard on both ELA and Mathematics on Smarter Balanced Summative Assessments

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	60%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #15: Graduating seniors will have passed an AP exam with a score of 3 or higher.

Metric/Method for Measuring: Percentage of graduating seniors who have passed an AP exam with a score of 3 or higher

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
Graduating Seniors	20.5%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #16: Graduating seniors will have successfully completed courses that satisfy the UC/CSU or career technical education program requirements.

Metric/Method for Measuring: Percentage of graduating seniors who will have successfully completed courses that satisfy the UC/CSU or career technical education program requirements

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
Graduating Seniors	90%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

Outcome #17: Students in grades 9-11 will participate in the PSAT test.

Metric/Method for Measuring: Percentage of students in grades 9-11 who will participate in the PSAT test

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Grades 9-11)	100%	100%	100%	100%	100%	100%

Outcome #18: Students who participate in the PSAT test will meet or exceed college readiness benchmarks for their grade level.

Metric/Method for Measuring: Percentage of students who will meet or exceed college readiness benchmarks for their grade level out of all students who participate in the PSAT test

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Grades 9-11)	50%	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year	2 percentage points up from the prior year

GOAL #2

All students will become independent, innovative scholars.

Related State Priorities:
☐ 1 ☐ 4 ☒ 7
☐ 2 ☐ 5 ☒ 8
☐ 3 ☐ 6

Local Priorities:
☐:
☐:

Specific Annual Actions to Achieve Goal

- Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives as outlined in its charter petition. Charter School will also provide all other academic programs and services outlines in its charter petition, certain programs and services being dependent on student need and interest.
- Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups.
- Charter School will offer Accelerated and/or Advanced Math class and/or Advanced Math club to students in grades 6-8.
- Charter School will offer Computer/Technology classes and/or blended learning experience for our students. Charter School will also keep its technology up to date. Charter School teachers will participate in PD on Blended Learning.
- Charter School will provide opportunities for students during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. Charter School will also provide information and access to quality out-of-school STEAM activities and achievements.

Expected Annual Measurable Outcomes

Outcome #1: Charter School will provide the programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.

Metric/Method for Measuring: Percentage of the programs and services outlined in the charter petition that will be provided as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #2: Students will have sufficient access to all academic and educational programs provided by the Charter School.

Metric/Method for Measuring: Percentage of students who will have sufficient access to all academic and educational programs provided by the Charter School as measured by student interest surveys for elective courses and programs, master school schedule, and class rosters

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #3: Students enrolled in the Charter School's grades 6-8 will be taking the "Advanced Math" class or club.

Metric/Method for Measuring: Percentage of students enrolled in the Charter School's grades 6-8 who take the Accelerated and/or Advanced Math class and/or Advanced Math club

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	10%	10%	10%	10%	10%	10%

Outcome #4: Our graduates will have taken a Computer/Technology class and/or experienced blended learning in their program of study.

Metric/Method for Measuring: Percentage of our graduates who will have taken a Computer/Technology class and/or experienced blended learning in their program of study.

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	100%	100%	100%	100%	100%	100%

Outcome #5: Students will create or demonstrate a STEAM focused project, experiment, model, or demo.

Metric/Method for Measuring: Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	90%	>90%	>90%	>90%	>90%	>90%

GOAL #3

All students, families, staff, and other stakeholders will feel a sense of community and connectedness.

Related State Priorities:
☐ 1 ☐ 4 ☐ 7
☐ 2 ☒ 5 ☐ 8
☒ 3 ☒ 6

Local Priorities:

Specific Annual Actions to Achieve Goal

- Charter School will seek parent input in making decisions for the school through quarterly School Site Council ("SSC"), English Language Advisory Committee ("ELAC"), and Parent Task Force ("PTF") meetings.
- Charter School will host parent activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs.
- Charter School will provide parents with access to course material, homework assignments, projects, and records of students' grades through SIS, an online web portal. Charter School will communicate further with the parents of students who are performing below grade level.
- Charter School teachers will visit students at their homes to discuss student progress and enhance student learning and involvement.

- Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs.
- Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance.
- Charter School will offer credit recovery classes and individual graduation plans, outlining the classes students will take during their high school years, and provide support to ensure timely high school graduation.
- Charter School will annually assess its suspension/expulsion policies and procedures and document and implement alternatives to suspension/expulsion, including restorative practices.
- Charter School staff will acknowledge and encourage positive student behavior and improvements. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations.
- Charter School will annually administer school experience surveys to students, parents, and staff.

Expected Annual Measurable Outcomes

Outcome #1: Charter School will hold quarterly SSC meetings.

Metric/Method for Measuring: Number of SSC meetings per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	6	≥4	≥4	≥4	≥4	≥4

Outcome #2: Charter School will hold quarterly English Learner Advisory Committee (ELAC) meetings.

Metric/Method for Measuring: Number of ELAC meetings per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
English Learners	4	≥4	≥4	≥4	≥4	≥4

Outcome #3: Charter School will hold quarterly Parent Task Force (PTF) meetings.

Metric/Method for Measuring: Number of PTF meetings per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	8	≥4	≥4	≥4	≥4	≥4

Outcome #4: Charter School will hold a minimum of 5 parent activities/events per year.

Metric/Method for Measuring: Number of activities/events for parent involvement per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide and all subgroups)	8	≥5	≥5	≥5	≥5	≥5

Outcome #5: Teachers will update SIS records daily/weekly.

Metric/Method for Measuring: Frequency of SIS record updates

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	Daily/Weekly	Daily/Weekly	Daily/Weekly	Daily/Weekly	Daily/Weekly	Daily/Weekly

Outcome #6: Charter School will send a minimum of 4 progress reports to parents.

Metric/Method for Measuring: Number of progress reports sent to parents per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	4	4	4	4	4	4

Outcome #7: Charter School's students will be home-visited by the teachers.

Metric/Method for Measuring: Percentage of students who have been home-visited by the teachers per year

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	15%	≥20%	≥20%	≥20%	≥20%	≥20%

Outcome #8: Charter School will maintain a high ADA.

Metric/Method for Measuring: ADA rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	96%	≥97%	≥97%	≥97%	≥97%	≥97%

Outcome #9: Charter School will maintain a low chronic absenteeism rate.

Metric/Method for Measuring: Chronic Absenteeism Rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	7.3%	≤6%	≤6%	≤6%	≤6%	≤6%

Outcome #10: Charter School will maintain a low middle school dropout rate.

Metric/Method for Measuring: Middle school dropout rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	0%	0%	0%	0%	0%	0%

Outcome #11: Charter School will maintain a low high school dropout rate.

Metric/Method for Measuring: High school dropout rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	0%	0%	0%	0%	0%	0%

Outcome #12: Charter School will maintain a high four-year cohort graduation rate.

Metric/Method for Measuring: Four-year cohort graduation rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	100%	100%	100%	100%	100%	100%

Outcome #13: Charter School will maintain a low student suspension rate.

Metric/Method for Measuring: Student suspension rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	2.3%	≤1%	≤1%	≤1%	≤1%	≤1%

Outcome #14: Charter School will maintain a low student expulsion rate.

Metric/Method for Measuring: Student expulsion rate

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	0%	0%	0%	0%	0%	0%

Outcome #15: Charter School will maintain high participation rates in the school experience surveys of students, parents, and staff.

Metric/Method for Measuring: School experience survey participation rates

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	Students: 88.5%	≥90%	≥90%	≥90%	≥90%	≥90%
	Parents: 70.5%	≥80%	≥80%	≥80%	≥80%	≥80%
	Staff: 91.4%	≥90%	≥90%	≥90%	≥90%	≥90%

Outcome #15: Charter School will maintain high approval rates in the school experience surveys of students, parents, and staff.

Metric/Method for Measuring: School experience survey average approval rates

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-24
All Students (Schoolwide)	Students: 61%	≥70%	≥70%	≥70%	≥70%	≥70%
	Parents: 88%	≥80%	≥80%	≥80%	≥80%	≥80%
	Staff: 64%	≥80%	≥80%	≥80%	≥80%	≥80%

In addition to the above goals and metrics, MSA-Santa Ana will also include the following:

1. The school will demonstrate at least one performance level growth per academic year, as reported on the California School Dashboard, for numerically significant subgroups in ELA as

measured by the CAASPP (SBAC) Assessment at a rate equal to or greater than the Resident and Similar Schools Median, with the goal of achieving and maintaining the "Green" performance level or higher.

2. The school will demonstrate at least one performance level growth per academic year, as reported on the California School Dashboard, for numerically significant subgroups in Math as measured by the CAASPP (SBAC) Assessment at a rate equal to or greater than the Resident and Similar Schools Median, with the goal of achieving and maintaining the "Green" performance level or higher.

GOALS FOR ENABLING PUPILS TO BECOME AND REMAIN SELF-MOTIVATED, COMPETENT, AND LIFELONG LEARNERS

The MSA-Santa Ana program will prepare students for success through elementary, middle and high school, as well as post-secondary school and meaningful careers, by providing a rigorous CA standards-based program through integrated math, science and technology themes. The inquiry-based hands-on instructional approach will not only teach young students to “learn to learn” but also prepare them for success in the pursuit of future STEAM careers and interests in upper grades.

In addition to the Student Learning Outcomes detailed above, MSA-Santa Ana expects that at least 80% of students who have been enrolled at the Charter School for at least one full academic-year will develop at least *four* of the following *six* lifelong learning and interpersonal skills prior to graduation:

Representative measurable outcomes and assessment tools for lifelong learning and interpersonal skills

Skills	Learning Objectives	Assessment Tools
Leadership, Collaboration and Cooperation	▪ Incorporate personal management skills on a daily basis. ▪ Effective participation in group decision-making processes. ▪ Work cooperatively with others and be a team player in achieving group goals. ▪ Be able to assume leadership in group tasks.	▪ End of semester teacher evaluations on student behaviors. ▪ Teachers’ comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios of student work, reports and/or exhibits including group assignments.
Self-assessment and Reflection	▪ Describe, analyze and prioritize personal skills and interests that they want to develop. ▪ Describe and effectively use the personal qualities they possess that make them successful members of their school and community. ▪ Recognize their intelligence types and personal learning styles and employ those styles in their learning and personal development.	▪ End of semester teacher evaluations of student behaviors. ▪ Teachers’ comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios of student work, reports and/or presentations scored by the teacher using rubrics.

Skills	Learning Objectives	Assessment Tools
Goal Setting	▪ Set positive academic and non-academic goals. ▪ Apply goal-setting skills to promote academic success. ▪ Set post-secondary goals with action steps, timeframes, and evaluation criteria. ▪ Identify the skills and credentials required for a particular profession and prepare accordingly.	▪ End of semester teacher evaluations on student behaviors. ▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios of student work, reports and/or presentations scored using rubrics.
Critical Thinking and Problem Solving	▪ Implement stop, think, and act strategies in solving daily life problems. ▪ Generate alternative solutions to problems and predict possible outcomes. ▪ Apply the steps of systematic decision-making in school and life.	▪ End of semester teacher evaluations on student behaviors. ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios of student work, reports and/or presentations scored using rubrics.
Self-discipline	▪ Implement a plan to meet a need or address a challenge based on personal strengths and available support from others. ▪ Explore career opportunities based on their identified interests and strengths. ▪ Show self-esteem based on accurate assessment of self.	▪ End of semester teacher evaluations on student behaviors. ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios, presentations and/or exhibits of student work
Citizenship	▪ Personal honesty and integrity. ▪ Courage to express their views. ▪ Love, respect and loyalty to the United States of America. ▪ Understanding and tolerance towards other societies in the world. ▪ Participate in multicultural and cross-cultural activities.	▪ End of semester teacher evaluations on student behaviors. ▪ Teachers' comments entered into the Student Information System, Illuminate or equivalent ▪ Assignments, tests and activities in Character Education, Life Skills, College Prep and other classes. ▪ Portfolios, presentations and/or exhibits of student work, peer competitions

INSTRUCTIONAL DESIGN

CURRICULAR AND INSTRUCTIONAL DESIGN OF THE EDUCATIONAL PROGRAM: KEY EDUCATIONAL THEORIES AND RESEARCH

As noted above, instructional design is based on three pillars: **Academic Excellence**, **Innovation**, and **Connection**.

We believe in the analysis of learning needs and the systematic development and personalization of learning experiences. STEAM is the platform by which we enhance instruction, increase intrinsic motivation, and make learning relevant through real life connections. MSA-Santa Ana aims to utilize the latest and most innovative tools to maximize personalization and customization for a superior academic program that is tailored for a student's individual needs by which a passion for learning is created that will be sustainable for life.

Academic Excellence (Scientific Thinkers)	Innovation (Intrinsically Driven and Self-Motivated)	Connection (Socially Responsible Global Citizens)
▪ STEAM Focus ▪ Learning Approaches (Experiential, Constructivist Social Learning, Inquiry and Project-Based Learning)	▪ Data-driven Instruction to Ensure College Readiness ▪ Periodic Benchmark Tests ▪ After-school Tutoring ▪ After-school Interventions TK-5th ▪ College Mentorship Program ▪ College Tracking Program	▪ Community Service and Volunteerism ▪ World Languages ▪ International Visits, Trips, Speakers ▪ Home Visits ▪ Field Trips STEAM focused for TK-12 ▪ Students achieve self-actualization

▪ Effectively Integrating Technology into Teaching and Learning ▪ Public Display of Excellence ▪ Life-long Learning	▪ Portfolio Module with Learning Targets ▪ AP Courses ▪ Honors ▪ Individualized scheduling ▪ GATE Testing in grades 3, 6, and 9th grades.	▪ Business and Industry Partnerships ▪ Higher Education Collaboration ▪ Internships/externships ▪ Dual enrollment with local colleges for our 10, 11, and 12th graders

Instructional Design Components: Excellence (Scientific Thinkers)

STEAM Focus

A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. **Science** learning across all grades immerse students in the scientific method and encourage them to use the applicable technology to plan and organize projects, hypothesize, analyze data, and draw conclusions from experiments they choose and create based on their interests. Science instruction employs technology in laboratory explorations and experimentation. **Technology** is a key component to our instructional delivery model. Each classroom is equipped with laptops (1:1 student to computer ratio) to enable effective blended learning strategies. Computer simulations assist in expanding the number of lab opportunities in all grade levels. A Computer Science Program fuels tech skills development, including programming and sequencing. At the elementary level digital citizenship is introduced and embedded in our curriculum. Students can access class work, homework, and projects for all subjects through our McGraw-Hill curriculum. All courses incorporate **Engineering** design process at all grades as part of the NGSS emphasis. With CA Science Framework and NGSS integration, MSA-Santa Ana all students learn about **Engineering Design**, technology, and applications of science as part of their core learning.

Science is introduced as early as TK. Teachers use Inspire Science through McGraw-Hill as well as Mystery Science to further enrich our inquisitive and investigative thinkers. Computer courses are offered at all levels and skills are further developed in after school enrichments. Students take AP Computer courses at the High School level starting with all ninth graders taking AP Computer Science. At the elementary level for technology students use BrainPOP, Prodigy, myON, Mystery Science, Kids YouTube, Khan Academy, Xtra math, as additional supplements. Furthermore, **Engineering** is also embedded in electives offered such as robotics, architecture and design as well as after school clubs at the elementary level. Other enrichments are myON, Prodigy, Khan Academy, xtra math, Mystery Science, Project Lead the Way, BrainPOP, Coding/Gaming, Raspberry Pi, Read, Write, and Type, and McGraw-Hill which has extensions for students on level, below level, and above level extension activities. All of these are used with fidelity during school and after school. **Arts** instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts, music, drama and improvisation, and dance. Elementary teachers incorporate the arts across the curriculum so that our students again exposure to all mediums of creativity, self-expression, and disciplines. Students are assessed for their current knowledge and skill level in **Math** and placed in the most appropriate class (see below). Our elementary students have four blocks with Math and ELA in lower grades and are chunked for 90 minutes daily each in the mornings and 30-60 minutes of Science, ELD, and Social studies in the afternoons.

Effectively Integrating Technology into Teaching and Learning

At MSA-Santa Ana, every teacher has access to dedicated computers in their own classrooms along with wireless network access to prepare teaching activities such as class documentary movies, presentations,

and more, as well facilitating student use of technology in their learning. Students across all grades at MSA-Santa Ana develop their ability to use technology as a tool for learning, research, observation, and communication. The school has a one-to-one ratio and uses digital curriculum and assessments as an integral part of learning. "Blended"/online learning includes such as Fuel Education/Odysseyware, Discovery Education, BrainPOP, Renaissance Learning, Khan Academy. In addition to our McGraw-Hill curriculum the following are additional online programs that supplement our curriculum for the elementary grades: myON, BrainPOP, BrainPOP Jr., Khan Academy, Prodigy, Mystery Science, PLTW, Xtra math, online typing programs, and Liberty Kids. During intervention, teachers use online curricula with embedded assessments that provide review, re-teach and enrichment programs. McGraw Hill Publisher's resources such as: My Math, Inspire Science, California Wonders, Elementary Networks, California Wonders My Language. Other resources include Curriculum Associates' Ready Common Core program, Kuta software, Khan Academy, Accelerated Reader and Accelerated Math program, English 3D allow teachers to monitor the progress of students who are achieving below grade level and provide software-generated tests and personalized instructional materials.

MSA-Santa Ana also encourages parents' active use of the school's technology resources by offering free tutorial sessions on how to track student's performance using our student information system, Illuminate and providing computer access to all parents who have either limited or no access to a computer outside of school. Students requiring extra time with a computer have the opportunity to visit the computer lab after school, all tutoring/interventions, and clubs are done in the afternoon and after school.

To ensure all students develop critical 21st century technology fluency, highly trained faculty lead engaging, grade-level appropriate instruction in technology skills development. The program enables students to personalize learning practice and integrate all subjects in project-based learning in a fun and meaningful way. This unique program includes:

- Technology curriculum and in upper grades, dedicated tech-based courses that provide technology tools necessary in the 21st century (keyboarding, document processing and storage, internet research, etc.) and develops critical skills that help students gain acceptance to and graduate from a 4-year university with a STEAM major.
- Students in TK-3rd grade have designed time for typing and computer familiarity. Technology is embedded as a center and students can access typing, basic coding online reading and math enrichments.
- Core class integration projects that require higher order learning and improving critical thinking skills.
- At the Elementary level, in addition to our McGraw-Hill curriculum, Project Lead the Way (PLTW) is used 3rd-5th grade and incorporates engineering and science-based inquiry projects. Mystery Science is used TK- 5th grade as well as incorporates across the curriculum. myON in an online reading and comprehension program used 1st through 12th. This program allows students to take interest surveys that unlock genres, appropriate reading level, and tailors to individual student's needs. Teacher can assign novels and projects to their classes as well.

Public Displays of Excellence in STEAM

MSA-Santa Ana students and faculty organize and participate in numerous STEAM competitions and is available for all grades to participate. Through various activities, competition days become a targeted event to arouse student interest and celebrate their peers' success. MSA-Santa Ana offers a variety of after school clubs to students to stimulate interest in and extend knowledge of various subjects covered in the classroom including Computer Applications, MathCounts, Robotics, and Science Olympiad clubs.

Additionally, we are exploring implementing programs such as Project Lead the Way (PLTW) to sustain our ongoing efforts to integrate STEAM instruction. This is our third year of implementation with PLTW, this program is offered starting at 3rd grade through high school. Parents are involved in co-facilitating after-school programs and activities.

Life-Long Learning

Based on Delors' (1996) four 'pillars' of education for the future,[16] we believe lifelong learning may be broadly defined as: learning that is flexible, diverse and available at different times and in different places. Lifelong learning crosses sectors, promoting learning beyond traditional schooling and throughout adult life (i.e. post-compulsory education). At MSA-Santa Ana, we seek to develop diverse learning habits in our students:

Learning to know – mastering learning tools rather than acquisition of structured knowledge
Learning to do – equipping people for the types of work needed now and in the future including innovation and adaptation of learning to future work environments
Learning to live together, and with others – peacefully resolving conflict, discovering other people and their cultures, fostering community capability, individual competence and capacity, economic resilience, and social inclusion
Learning to be – education contributing to a person's complete development: mind and body, intelligence, sensitivity, aesthetic appreciation, and spirituality

MSA-Santa Ana aims to instill creativity, initiative and responsiveness in our students, thereby enabling them to show adaptability in post-industrial society through enhancing skills to manage uncertainty, communicate across and within cultures, sub-cultures, families and communities, and negotiate conflicts.

Instructional Design Components: Innovation (Intrinsically Driven and Self-Motivated)

Data-Driven Instruction

MSA-Santa Ana teachers and students use data to make informed decisions. Teachers receive regular professional development and coaching about positive academic intervention, teaching strategies for all learners, and differentiated instruction. Academic, informal and formal information is taken from the following areas: NWEA MAP diagnostic data, SBAC Interim Comprehensive Assessments (ICA) and Interim Assessment Blocks (IAB) (given as early as 2nd grade), annual Panorama Education student survey, and Grade Point Averages. Digital, mastery-based core academic content also permits data-driven intervention by local teachers, coaches, and EL and remediation specialists.

The online curriculum and real-time assessments allow continuous and individualized pacing as well as flexibility in upper grades in the number of courses students are offered. Our system generates reports that show profiles of content and skills that students are learning and tracks their progress. This system is combined with diagnostic NWEA MAP assessments to provide the data necessary to build personalized, realistic, and productive learning plans on a weekly basis for every Magnolia student. Up-to-date and actionable information is an essential part of the integrated academic and social foundation of the school's culture and is requisite to adequate support for students' learning (Blum, 2004).

---

[16] Delors, J. (1996) Learning: The treasure within Report to UNESCO of the International Commission on Education for the Twenty-first Century, UNESCO

Research shows that low-performing students benefit from personalized learning plans that address their specific area(s) of deficiency (Archambault, Diamond, Brown, Cavanaugh, & Coffey, 2010; Black, Harrison, Marshall, & William, 2004; Blum, 2004; Clarke, 2003; Legters, Balfanz, & McPartland, 2002; Watson & Gemin, 2008).

Periodic Benchmark Tests

MSA-Santa Ana uses NWEA's computer-adapted tests, called MAP, to evaluate student learning and to differentiate instruction to meet student needs. These campus-wide tests are used to measure individual levels of student performance reflected in CCSS. They also measure various skills, such as analytic ability, critical thinking, and synthesis. While the MAP testing is not used as a basis for student promotion, it does provide a valuable resource to identify students in need of remediation and intervention.

MAP is administered in the fall and spring of every academic year from grades 2 through 12 in Reading, Language Usage, Mathematics and Science. MSA-Santa Ana also administers the ICA every February and IABs on a monthly basis. With a large norm reference group (more than 2 million), MAP reports provide highly accurate feedback as how students are performing. The assessments adapt to the student's ability, accurately measuring what a child knows and needs to learn. MAP measures academic growth over time, independent of grade level or age. MAP test results are also used to identify the skills and concepts individual students have learned, diagnose instructional needs, monitor academic growth over time, make data-driven decisions, and place new students into appropriate courses.

After-School Tutoring

MSA-Santa Ana offers free after-school tutoring to all students. Our tutoring program provides students with a safe, small-group environment in which they can receive personalized attention from their teachers, as well as access the resources needed for successfully completing their assignments. Individual and small group tutoring as well as homework clubs are available. Students identified as low achieving attend intensive obligatory after school programs tailored towards each student's needs. This specialized strategy provides the opportunity for struggling students to master the relevant subject's content standards. Low achieving students' progress is quantitatively measured through NWEA MAPs, myON, Accelerated Reader, and Accelerated Math tests with the goal of attaining at least one year's academic progress within the school year. MAP Benchmarks are done from 2nd through 5th grade at the elementary level. Programs such as myON and Prodigy for math are used daily for grades K- 12.

MSA-Santa Ana after school program structure

Students in need of English Language Development ("ELD") support	→	ELD tutoring:	Computer-aided grammar, vocabulary, reading, writing, listening and speaking
Students in need of core class support	→	Tutoring program for core learning/classes:	Mathematics, Science, English-Language Arts and History-Social Science
All students	→	After-school clubs:	Academic Decathlon, Science Olympiad, Lego Robotics, VEX Robotics, Coding and Gaming,

	History Bee and College Leadership Mentorship Program, Sports, Art, Arts and Crafts, Homework, etc.

Students demonstrating adequate improvement can advance to a satisfactory level where they are provided moderate tutoring sessions and various fun opportunities, such as recreational clubs, and community trips. For those under-achieving students who do not positively respond to this teaching method, teachers may decide to include them in different recreational activities to promote students' interest in learning (in upper grades, this is led by the homeroom teacher).

College Pathways Program

MSA-Santa Ana upholds the belief that college is attainable through academic success and persistence. The MSA-Santa Ana College Pathways program provides high school students with the emotional and instrumental preparation and support students need to graduate college and career ready. By providing timely information and guiding students through the college application process, College Advisors in grades 9-12 play an integral role in nurturing students' college aspirations, supporting college preparation activities, finding best-fit colleges, universities and career programs, and advising students on how to make successful transitions from high school to their colleges of choice. At the elementary level we host a college and career week and each class picks a college to learn about. In addition, students write a letter to their college and find out what the average GPA is, SAT score, and other requirements.

A distinguishing feature of the College Pathways program is the active participation of our students in the development and design of their future academic pathways. Our advisors work individually with parents and students on a Four-Year Plan that outlines graduation requirements, tracks extracurricular and volunteer activities, and builds students' resumes in order to support them in the college application process. Special programming is offered to students to develop interests and build on skills needed for credentialing and certification for specific trades.

To enrich college-going activities, College Advisors and students regularly visit college campuses, research requirements, and explore financial aid and scholarship options. College advising teams work together to track UC/CSU A-G requirement completion, credits completed towards graduation, scholarship eligibility, scholarship applications, Personal Statements, progress towards college application submission, and more.

Additionally, MSA-Santa Ana is invested in monitoring the postsecondary pathways of its graduates including the transfer, persistence, and completion trends across the spectrum of institutions including 4-year universities, 2-year colleges, trade/technical schools, and the military. Our alumni network is strong with students returning as tutors, mentors and contributors to our rich learning environment. By serving students as a tangible resource, the college mentorship program is able to greatly increase positive outcomes for its students.

Community (Socially Responsible Global Citizens)

MSA-Santa Ana believes that all change begins through partnerships between the home and school community. In our attempt to teach our students the values of community engagement, citizenship, and global awareness, we hope to engrain and cultivate a love for community, an understanding of the

importance of our societal contributions, and a greater awareness of self, relative to the global community. In doing this, we affect change through our actions and interactions. We are a family and we are committed to the growth and development our students and the communities in which they live, in order to enrich the global society.

Community Service

MSA-Santa Ana students engage in community service to develop and demonstrate crucial life skills. This helps students gain “real life” experience and develop responsibility, caring and respect for others. Students are required to earn 40 hours (or the equivalent of 10 hours per each year of enrollment) of community service for an advanced or honors diploma. Students may begin to earn these hours once they complete their 8th grade year. Students in all grade levels have the opportunity to volunteer with the local food bank in partnership with No One Left Behind, a local non-profit organization.

Life Skills Program

Life Skills is an enrichment program that provides our older students with valuable skills to support academic excellence and social skill development, and includes topics on social and emotional learning, study skills, environmental issues, conflict resolution, making responsible choices, self-discipline, college and career awareness and character education. Students participate in activities/projects to demonstrate their understanding of the values/lessons. Guest speakers and various forms of technology also engage students in the course content. Life Skills themes are integrated into broader school-wide activities including assemblies, instructional field trips, displays, announcements, and into the general curriculum. Starting in TK, elementary students use Character Counts education program. Parents are regularly informed about the Life Skills topics to support our effort to inspire positive principles of conduct in future leaders. The program also enables all students, including our most “at-risk” students, to have a vision and be more specific on their goals to be successful at school and during their life.

Instructional Field Trips and Guest Speakers for Motivation

Instructional field trips are intended to allow students to gain insight, information, or knowledge that cannot be adequately developed through regular classroom instruction. Instructional field trips, therefore, are an integral part of the curriculum and are as essential to the instructional process as textbooks, equipment, and other instructional devices and teaching/learning strategies. Since not all children learn in the same way, instructional field trips allow students the opportunity to expand their intelligence in ways different from those typically available inside the classroom.

Students in all grade have the opportunity to visit a research laboratory (e.g., Jet Propulsion Lab), a university campus (e.g., UCLA, USC, Caltech, UCI, and CSU-Long Beach), and meeting with scientists during these instructional field trips or through guest speakers on campus motivates our students. Especially when some of these guest speakers or people they meet during instructional field trips share the same culture with students, students find new role models. While most instructional field trips are directly related to specific, academic curricula, they also may address the need for intra- and inter-personal growth in children, and thus may be designed to promote social and emotional development and to provide for the development of the "whole" child.

Home Visits

Research has shown that one of the keys to successful teaching and schooling is creating personal connections with students inside and outside of school. Knowing the students' outside interests, families, and home routines, and then using this information to connect in meaningful, individualized ways can have huge rewards in helping to create happier, healthier, and smarter kids. Recognizing these

facts, MSA-Santa Ana uses home visits as one of the important features of its education program to not only improve student and school performance, but also to identify and intervene early with low-achieving students.

MSA-Santa Ana teachers visit students at their homes to enhance student learning and involvement. Family visits offer invaluable insights about students. They can provide new understanding about students' learning styles. Visits might also reveal the emotional and social needs and behaviors of students. It is helpful to know if they react to problems with tears, anger, or withdrawal, and how they socialize with peers. Through family visits, teachers can identify students' latest interests or concerns, such as a new hobby, an upcoming trip, or a change in the family.

CURRICULUM AND INSTRUCTION

All curricula at MSA-Santa Ana is based on the California state standards, including but not limited to the Common Core State Standards, and the Next Generation Science Standards. Teachers use the state-published Frameworks for Instructional Design in developing curriculum pacing and lesson plans.

In all elementary grades (TK-5), students engage in core learning in Mathematics, Science, English Language Arts and History/Social Science, along with enrichments daily in Visual and Performing Arts, Physical Education, Computers and Technology and Sustained Silent Reading (“SSR”) and myON an online version for reading and comprehension.

In middle grades (6-8), students are required to take core classes in Mathematics, Science, English-Language Arts and History-Social Science. Electives are offered in Math and ELA (for additional support or challenge), Languages Other than English, Visual and Performing Arts, Physical Education, Computers and Technology, Sustained Silent Reading (“SSR”), and other electives. MSA-Santa Ana offers all students one period of Life Skills per week.

Finally, in high school (9-12), students select from a variety of courses in each of the core subject areas – with graduation requirements aligned to UC/CSU “A-G” requirements – along with engaging electives in Languages Other than English, Visual and Performing Arts, Physical Education, Computers and Technology.

All students who are English Learners receive both integrated and designated English Language Development through a state approved curriculum and the California English Language Development Standards. The program and curriculum for our school’s English Learners is described in detail in the sections below.

The following includes detailed descriptions of each subject area, first for elementary and middle grades, followed by a section that includes detailed high school course descriptions for each subject.

TK-8 CURRICULUM

MATHEMATICS

The math curriculum at Magnolia is based on the *California Common Core State Standards: Mathematics* and reflects the importance of focus, coherence, and rigor as the guiding principles for mathematics instruction and learning. These standards will be fully implemented and assessed as a commitment to

providing a world-class education for all students that supports college and career readiness and the knowledge and skills necessary to fully participate in the twenty-first-century global economy.

The CCSS call for learning mathematical content in the context of real-world situations, using mathematics to solve problems, and developing "habits of mind" that foster mastery of mathematics content as well as mathematical understanding. The CCSS in Math for kindergarten through grade 8 prepare students for higher mathematics. The standards for higher mathematics reflect the knowledge and skills that are necessary to prepare students for college and careers and productive citizenship.

Math instruction at MSA-Santa Ana focuses deeply on the concepts that are emphasized in the standards so that students can gain strong foundational conceptual understanding, a high degree of procedural skill and fluency, and the ability to apply the mathematics they know to solve problems inside and outside the mathematics classroom. Coherence is provided through mathematical connections. Some of the connections in the standards knit topics together at a single grade level. Most connections are vertical, as the standards support a progression of increasing knowledge, skill, and sophistication across the grades. Teachers approach conceptual understanding, procedural skill and fluency, and application with equal intensity, providing instruction with rigor and relevance. In short, the math instruction at MPS meets the challenges of the twenty-first century through innovation.

Elementary Grades Mathematics

The TK-5 program provides students with a solid foundation in whole numbers, addition, subtraction, multiplication, division, fractions and decimals—which help young students build the foundation to successfully apply more demanding math concepts and procedures and move into applications. The math program stresses not only procedural skill but also conceptual understanding, to make sure students are learning and absorbing the critical information they need to succeed at higher levels.
All students at all grade levels are engaged in challenging, hands-on math activities that include manipulatives, simulation, real world problems, model manipulation and creation, and 3-D puzzles. The activities are integrated throughout the curriculum. Most math activities are multi-leveled and provide students with a variety of skill levels for mathematical thinking and problem-solving. Our math curriculum incorporates ELD, GATE, and expands on level, below level, and beyond. All math lessons follow CMAST strategies in which include a Hook, Activity Before Concept ABC, I Do, We DO You Do format, Active Practice activities, and an Exit ticket.

Middle Grades Mathematics

Starting in middle grades, MSA-Santa Ana offers an integrated math pathway of courses, aligned with new CCSS Math standards and "best practices" in math learning and instruction.[17] In determining the mathematics course placement for middle grade students (whether these students have been enrolled in our elementary program or are new to MSA-Santa Ana), the Charter School systematically takes multiple objective academic measures of student performance into consideration, including:

- Statewide mathematics assessments, including interim and summative assessments through the CAASPP;
- Placement tests that are aligned to state-adopted content standards in mathematics;

[17] Depending on students' math backgrounds and surrounding schools' pathways, MPS may elect to follow the traditional mathematics pathway over the integrated mathematics pathway where Algebra I, Geometry, Algebra II, and Pre-calculus courses replace Integrated Math I, II, III, and IV courses.

- Recommendation, if available, of each student's prior year mathematics teacher based on classroom assignment and grades;
- Recommendation, if any, of each student's current grade mathematics teacher based on classroom assignments and grades provided at the beginning of the school year;
- Final grade in mathematics on the student's official, end of the year grade report card;
- Results from all placement checkpoints, including at least one (1) placement checkpoint within the first month of the school year.

In Accelerated Pathway 1, grades 7, 8, and 9 are compacted into grades 7 and 8 (a 3:2 compaction). In Accelerated Pathway 2, grades 6, 7, 8, and 9 are compacted into grades 6 and 7 (a 4:2 compaction). Math 8 is bridged between grades 6 and 7 with the option of a summer math bridge course.

Pathway	Grade 6	Grade 7	Grade 8
Regular Pathway	Math 6	Math 7	Math 8
Accelerated Pathway 1	Math 6	Accelerated Math 7/8	Integrated Math I
Accelerated Pathway 2	Accelerated Math 6/7	Integrated Math I	Integrated Math II

In some cases, entering sixth graders may be capable of beginning high school Integrated Math I (or Algebra I) and MPS is eager to accommodate these gifted students.

MATH 6 (Core, College preparatory)	**MATH 7** (Core, College preparatory)
In Grade 6, instructional time will focus on four critical areas: (1) connecting ratio and rate to whole number multiplication and division and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking.	In Grade 7, instructional time will focus on four critical areas: (1) developing understanding of and applying proportional relationships; (2) developing understanding of operations with rational numbers and working with expressions and linear equations; (3) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; and (4) drawing inferences about populations based on samples.
MATH 8 (Core, College preparatory)	**ACCELERATED MATH 6/7** (Core, College preparatory)
In Grade 8, instructional time will focus on three critical areas: (1) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (2) grasping the	This course compacts 6th and 7th grade standards and it contains content from 8th grade. While coherence is retained, in that it logically builds from the 6th grade, the additional content when compared to the non-accelerated course demands a faster pace for instruction and learning. Content

concept of a function and using functions to describe quantitative relationships; (3) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.	is organized into four critical areas, or units. The Mathematical Practice Standards apply throughout each course and, together with the CCSS, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.
ACCELERATED MATH 7/8 (Core, College preparatory)	**INTEGRATED MATHEMATICS I** (Core, College preparatory)
This course differs from the non-accelerated 7th grade course in that it contains content from 8th grade. While coherence is retained, in that it logically builds from the 6th grade, the additional content when compared to the non-accelerated course demands a faster pace for instruction and learning. Content is organized into four critical areas, or units. The Mathematical Practice Standards apply throughout each course and, together with the CCSS, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.	The fundamental purpose of Mathematics I is to formalize and extend the mathematics that students learned in the middle school grades. The critical areas, organized into units, deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. Mathematics I uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades. The final unit in the course ties together the algebraic and geometric ideas studied. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into six units are as follows: 1) Relationships Between Quantities; 2) Linear and Exponential Relationships; 3) Reasoning with Equations; 4) Descriptive Statistics; 5) Congruence, Proof, and Constructions; 6) Connecting Algebra and Geometry through Coordinates.
INTEGRATED MATHEMATICS II (Core, College preparatory)	
The focus of Mathematics II is on quadratic expressions, equations, and functions; comparing their characteristics and behavior to those of linear and exponential relationships from Mathematics I as organized into 6 critical areas, or units. The need for extending the set of rational numbers arises and real and complex numbers are introduced so that all quadratic equations can be solved. The link between probability and data is explored through conditional probability and counting methods, including their use in making and evaluating decisions. The study of similarity leads to an understanding of right triangle trigonometry and connects to quadratics through Pythagorean relationships. Circles, with their quadratic algebraic representations, round out the course. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into six units are as follows: 1) Extending the Number System; 2) Quadratic Functions and Modeling; 3) Expressions and Equations; 4)	

Applications of Probability; 5) Similarity, Right Triangle Trigonometry, and Proof; 6) Circles With and Without Coordinates.

See additional course descriptions in the section below on High School Mathematics.

SCIENCE

The Charter School's curriculum is based on the state framework and California Next Generation Science Standards. Students at MSA-Santa Ana explore NGSS-aligned Disciplinary Core Ideas ("DCI") in Physical Sciences, Life Sciences, Earth and Space Sciences, and Engineering, Technology, and Applications of Science in the cross-curricular units and programs. Within each domain, the framework describes how a small set of disciplinary core ideas has been developed. Each core idea is then broken into three or four component ideas that provide more organizational development of the core idea.

The science program at MSA-Santa Ana uses hands-on science curriculum that is formulated using inquiry-based research topics. From the earliest grades, students experience science in a form that engages them in the active construction of ideas and explanations that enhance their opportunities to develop the abilities of doing science. Inquiry and exploration are the basis of each curriculum unit in science. Key questions are given to students and the emphasis is on the process and the questions to be asked, rather than focusing on a finite answer or "drill and kill" activities. Students build on their understanding of science concepts, learn to apply the scientific method, and use technology in laboratory explorations and experimentation. In the process, depth over breadth is emphasized and students become self-reliant, independent problem-solvers.

We employ an integrated science curriculum, in accordance with the California science framework. Students across all grades develop a "scientific mind" through the use of scientific strategies. This process takes place within each unit of study via the students hypothesizing, researching, experimenting, observing and inferring. Students at MSA-Santa Ana also have off-campus field trip experiences and meet with professionals in STEAM areas during these field trips or through guest speakers on campus. These experiences deepen and enhance classroom study and enhance students' vision of science.

ELEMENTARY GRADES SCIENCE

From the earliest grades, students experience science in a form that engages them in the active construction of ideas and explanations that enhance their opportunities to develop the abilities of doing science. Students explore topics of Astronomy, Geology, Meteorology, Biology, Physics, and Chemistry in the cross-curricular units and programs such as, Inspire Science and Mystery Science for TK-5th grades.

MIDDLE GRADES SCIENCE

The middle school curriculum is based on the state framework and state standards and integrates essential learning in all areas of earth, physical, and life sciences.

INTEGRATED SCIENCE 6 (Core, College preparatory)	**INTEGRATED SCIENCE 7** (Core, College preparatory)
The major units of study for all grade six middle school students are: ▪ Unit 1: Exploring Earth ▪ Unit 2: Exploring Life	The major units of study for all grade seven middle school students are: ▪ Unit 1: Motion and Energy ▪ Unit 2: Interactions of Matter

▪ Unit 3: Understanding Matter ▪ Unit 4: Understanding Energy This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.	▪ Unit 3: Understanding the Universe ▪ Unit 4: Earth and Geological Changes ▪ Unit 5: Exploring Ecology ▪ Unit 6: Heredity and Human Body Systems This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.
INTEGRATED SCIENCE 8 (Core, Non-college preparatory)	
The major units of study for all grade eight middle school students are: ▪ Unit 1: Biodiversity and Human Impacts ▪ Unit 2: History of the Earth ▪ Unit 3: Ecosystems, Molecules to Organisms ▪ Unit 4: Ecosystems continued, Biological Evolution: Unity and Diversity This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.	

Students at MSA-Santa Ana also have off-campus field trip experiences and meet with professionals in STEAM areas during these instructional field trips or through guest speakers on campus. These experiences deepen and enhance classroom study and enhance students' vision of science.

English Language Arts

English Language Arts curriculum is literature-based and emphasizes skills and knowledge students need as readers, writers, speakers and listeners in the 21st century. Conventions of writing are emphasized in daily written homework and lab assignments. Students taking advanced world language will also be encouraged to study works written in that language, e.g., Spanish. The curriculum incorporates a period of Sustained Silent Reading as part of the daily curriculum. Fluent reading and strong comprehension skills are the focus of the Charter School's curriculum. Teachers emphasize close reading and informational text. Accelerated Reader by Renaissance Learning is utilized to personalize reading practice to each student's current level, maximizing its effectiveness.

MSA-Santa Ana also uses the online/blended learning Study Sync program, an intentional, connected literacy program that integrates reading, writing, and review into a comprehensive, standards-aligned platform, designed to advance critical thinking, reading, writing, language, speaking and listening skills, and address critical language standards. myON is the online reading and comprehension program used in all grades, TK-12. This program allows students to read books and take a comprehension quiz for mastery allowing students to improve upon grade level targeted readings.

Study Sync's curriculum ensures rigorous, focused core ELA/ELD instruction and standards-based assessment, which draws students into texts and informational content with dramatic, movie-like previews, award-winning Study Sync® TV episodes modeling appropriate student discussion and collaboration, SkillsTV videos exploring literacy concepts with relatable student narrators, and social media-like current events Blasts discussions. By integrating technology experiences that students crave, students gain knowledge and skills in ways that relate to their world. Learning supports are embedded throughout for all levels of learners, including reluctant and advanced readers, and EL students, with

scaffolding based on students' reading abilities with customizable writing prompts, rubrics, and assessments. Through our Wonders ELA curriculum for TK-5th grade, students are assessed weekly in reading fluency, words read per minute, and comprehension.

Elementary Grades ELA

The elementary reading curriculum is integrated into all content areas. Students' progress through a literature-based and CCSS-based reading curriculum emphasizing balanced literary practices. The curriculum begins with basic phonics skills, such as phonemic awareness, rhyming, blending and decoding words to sounding out unfamiliar words, discovering words and meaning from context, and recognition of irregularly spelled words. Fluent reading and strong comprehension skills are the focus of the school curriculum.

Writing serves as an important vehicle for learning, and MSA-Santa Ana students are given writing assignments frequently to reinforce learning and enhance understanding. We believe that every student must be able to express themselves clearly through writing in every subject. As the common core writing standards phrase it, "For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt." 18

The elementary writing curriculum is integrated into all content areas and includes literature and science-based readings with the emphasis on six traits of writing: voice, sentence fluency, organization, ideas, word choice, and conventions. Students will practice various forms of writing, including personal narrative, exposition, letters, newspaper reporting, plays, poetry, short stories, biographies, directions, formal scientific reporting, scientific observation, realistic and fantasy stories. The principles and applications of correct grammar will be incorporated into writing exercises.

Middle Grades ELA

The middle school reading curriculum is integrated into all content areas. Students progress through a literature-based and CCSS-based reading and curriculum emphasizing balanced literary practices. The curriculum increases in levels to meet the needs of all students.

ENGLISH LANGUAGE ARTS 6 (Core, College preparatory)	**ENGLISH LANGUAGE ARTS 7** (Core, College preparatory)
Students in sixth grade focus on active engagement with text. They are required to analyze, identify, define, explain, integrate, evaluate, compare, contrast, and cite supportive evidence—developing and building upon those skills that were required in fifth grade. Deeper analysis of literature and informational text continues to be the focus of sixth-grade instruction, although reading fluently and accurately remains a CCSS-based goal for all students. Students' understanding of the precise meaning of words, English instruction is critical language conventions, structural features of	In seventh grade, the English language arts CCSS establish a higher level of communication skills and comprehension strategies. Students demonstrate a growing understanding by connecting ideas and information in two or more texts and analyzing and evaluating textual evidence more carefully. Their writing reflects both a deeper understanding of texts and the interrelationship between reading and writing as they draw evidence to support their claims and convey concepts and ideas. Seventh-grade students build on their communication and collaboration skills from earlier grades. As they

18 Source: http://www.corestandards.org/assets/CCSSI_ELA%20Standards.pdf

informational text and materials, and to developing fundamental elements of literature all support greater comprehension of what they read, students' literacy and see, and hear.	engage in collaborative discussions, they are able to acknowledge and analyze new information and, when appropriate, modify their own view based on the new information. Students continue to acquire and use general academic language and domain-specific vocabulary. They also learn to use precise and concise language to express themselves in their speaking and writing.

ENGLISH LANGUAGE ARTS 8 (Core, College preparatory)
In preparation for high school and beyond, students in eighth grade must have a firm grasp of skills to be a literate person in the twenty-first century. They read and respond to significant works of literature and examine how modern works of fiction draw on traditional themes and characters. Given informational text, students read critically the arguments and specific claims in a text, assessing whether the author's evidence is reasoned and sufficient in addressing conflicting evidence and viewpoints. Students, working on their own and with others, produce clear and coherent texts appropriate to the task, purpose, and audience. Students connect their reading to their writing by drawing evidence from literary and informational texts when writing analyses or short research projects. Eighth-grade students build on the communication and collaboration skills from earlier grades. As they engage in collaborative discussions, they probe and reflect on discussion topics and are able to justify their own views in light of evidence presented by others. Students continue to acquire and accurately use general academic language and domain-specific vocabulary. They recognize when it is important to know the precise meaning of a word in order to comprehend a text and call upon a range of strategies to determine word meanings.

Sustained Silent Reading Program

In grades 6 through 8, all students participate in Sustained Silent Reading for 25 minutes a day, every day.

SUSTAINED SILENT READING (SSR) PROGRAM
MSA-Santa Ana utilizes **myON** reader, a personalized, online literacy program that helps teachers manage and monitor a student's independent reading practice. myON is used as a reading intervention, as it generates book recommendations within each learners' target Lexile ranges. Accommodations such as audio narration to model reading fluency, highlighting text, and the use of embedded dictionaries, allow learners to develop academic vocabulary and reading fluency. Teachers have access to data related to Lexile levels which informs their teaching and supports differentiation. Once completed, the student is administered an online assessment which informs the teachers of the student's progress. If a student continues to struggle while reading at his or her level, additional interventions are implemented. All teachers use assessment results to inform intervention strategies.

HISTORY/SOCIAL SCIENCE

The History/Social Science curriculum is aligned with the state standards and new Framework for Instructional Design and offers students grounding in local, California, and United States history and an understanding of the development and operation of the three levels of government. The curriculum also introduces world history through literature, culture, arts and current events. The social science curriculum focuses on inquiry-based questions to explore topics using research and critical thinking skills. Students use and evaluate primary sources, historical documents, and the Internet to responsibly and critically access information.

History/Social Science lessons at MSA-Santa Ana use inquiry-based research topics involving real-world problems, with a focus on local current events, history and culture. In accordance with the National Council for the Social Studies,[19] social studies courses aim to prepare students to identify, understand, and work to solve the challenges facing our diverse nation in an increasingly interdependent world. Education for citizenship should help students acquire and learn to use the skills, knowledge, and attitudes that will prepare them to be competent and responsible citizens throughout their lives. Competent and responsible citizens are informed and thoughtful, participate in their communities, are involved politically, and exhibit moral and civic virtues.

Elementary Grades History/Social Science

Our social studies curriculum follows the comprehensive and challenging state content standards and new Frameworks for History/Social Science learning. well. Teachers use McGraw-Hill's Elementary Networks curriculum to engage students in grade level content in an active way, with hands-on projects that incorporate reading, writing, research, visual and performing arts, presentation skills as students learn about local, state and national history. Teachers expect students to master the key concepts and vocabulary, and they also teach them to analyze primary sources, debate different points of view, and make cause-and-effect connections, all while developing critical thinking skills.

Middle Grades History/Social Science

In middle grades, in alignment with the state standards, students study world history and geography, medieval history, and American history.

HISTORY/SOCIAL SCIENCE 6 (Core, College preparatory)	**HISTORY/SOCIAL SCIENCE 7** (Core, College preparatory)
Students in sixth-grade world history and geography classrooms learn about the lives of the earliest humans, the development of tools, the gathering way of life, agriculture, and the emergence of civilizations in Mesopotamia, Egypt, the Indus River valley, China, and the Mediterranean basin. With the guidance of their teachers, students review the geography of the ancient and contemporary worlds and recognize that these civilizations were not static societies but continually experienced change. In addition to developing basic geography skills, students are introduced to patterns, systems, and processes of physical and human geography. In studying this earliest history of humankind, students will have the opportunity to explore different kinds of source documents, such as the Hebrew Bible, Mesopotamian laws, the Homeric epics, Greek drama, the Bhagavad Gita, the Analects of	The medieval period provides students with opportunities to study the rise and fall of empires, the diffusion of religions and languages, and significant movements of people, ideas, and products. Students trace the development of medieval civilizations and make connections with regional and present-day world maps. Students identify several major changes that took place during medieval and early modern times. Students explore change in every inhabited part of the world during this period using source documents and evidence from archaeology. Students can use the knowledge they gain in this course to create a school project that promotes understanding of diverse cultures.

[19] Source: http://www.ncss.or/positions/powerful

Confucianism, the New Testament, and a range of visual images.	
HISTORY/SOCIAL SCIENCE 8 (Core, College preparatory)	
The eighth-grade course of study begins with an intensive review of the major ideas, issues, and events preceding the founding of the nation. Students concentrate on the critical events of the period—from the framing of the Constitution to the American Industrial Revolution. In their study of this era, students view American history through the lens of a people who were trying—and are still trying—to make the words of the Declaration of Independence true. Students will confront themes of equality and liberty and their changing definition over time. This course also explores the geography of place, movement, and region, starting with the thirteen colonies and then continuing with American westward expansion, and economic development, including the shift to an industrial economy.	

Intervention Courses

As further detailed in the section below, Serving Students with Special Needs, MPS provides comprehensive and intensive support and intervention for students in need of extra support. In elementary grades, first through fifth grades students partake in two to three times weekly after school interventions. Teachers work in small groups of no more than ten students for strategic targeted support. Students can be exited per their performance on our unit assessments, MAP, and interim assessments. Interventions are teacher led using the subject's strategic intervention curriculum through McGraw-Hill, myON, Prodigy, and Countdown to SBAC. Grade level Chair teachers meet weekly with our Dean of Academics and Principal to progress monitor and make any necessary changes to out intervention structures.

In middle grades, students in need of extra support may be assigned Power English and/or Power Math courses for extra assistance.

POWER ENGLISH (Non-core, Non-college preparatory)	**POWER MATH** (Non-core, Non-college preparatory)
This ELA course is designed to enhance the student's knowledge of prerequisite skills that are needed to access the grade level ELA course. Power English is an intervention course, which provides an individualized curriculum for each student, to close the identified skill gaps. Once skill gaps are almost closed, these students will receive targeted practice on essential academic content.	This math course is designed to enhance the student's knowledge of prerequisite skills that are needed to access the grade level mathematics course. Power Math is an intervention course, which provides an individualized curriculum for each student, to close the identified skill gaps. Once skill gaps are almost closed, these students will receive targeted practice on essential academic content.

Language Other Than English

In grades 6 through 8, students are offered languages other than English as elective courses depending on student needs/demands and availability of teachers and resources.

SPANISH (Non-core, College preparatory)	**WORLD LANGUAGE** (Non-core, College preparatory)
This series of courses is designed to teach students about the language and culture of the Spanish and Latin American people. Beginning	This series of courses is designed to teach students about the world language and culture of the people where the world language is spoken. The

Spanish (6th grade) emphasizes communication, basic grammar and syntax, and simple vocabulary so that students can read, write, speak, and comprehend on a basic level. Intermediate Spanish (7th grade) enables students to expand upon what they have learned, increasing their skills and depth of knowledge. Advanced Spanish (8th grades) enables students to grow their skills and depth of knowledge further. All three levels of Spanish teach students to appreciate the Spanish and Latin American cultures by acquainting students with art, literature, customs, and history of the Spanish-speaking people. The Spanish classes use the Realidades series of textbooks. The instruction for this series of courses is guided by the National Standards for Learning Languages, which are aligned with the CCSS.	World Language courses can include: Korean or Turkish. Beginning World Language (6th grade) course emphasizes communication, basic grammar and syntax, and simple vocabulary so that students can read, write, speak, and comprehend on a basic level. Intermediate World Language (7th grade) enables students to expand upon what they have learned, increasing their skills and depth of knowledge. Advanced World Language (8th grades) enables students to grow their skills and depth of knowledge further. All three levels of the world language teach students to appreciate the world culture by acquainting students with art, literature, customs, and history of the people who speak the world language. The instruction for this series of courses is guided by the National Standards for Learning Languages, which are aligned with the CCSS.

VISUAL & PERFORMING ARTS

For our younger students in grades TK-5, Visual and Performing Arts are both integrated into other subjects and taught as distinct disciplines; students also are exposed to an artist monthly and learn the history of the artist, time period, artist style, and greatest contributions. After school clubs like Art and Mixed Media, Drama, and Poetry Slam are offered in grades first through fifth.

Teachers also enhance arts learning by integration into other subjects, such as: The Physics of Sound and Music, The Art of Fractals and Snowflakes, Design Elements in Art (analysis of Marc Chagall's work in Technology courses), Design on the Frontier (simulated quilt construction in the eighth grade American History course), Japanese Papermaking and Kite Design (World History and Cultures), and streamline and deco design, as used in automobile styling, and film robots described in science fiction literature (as part of the technology and robotics lab). Students are not "cultural tourists," but instead are immersed in culture and diversity through daily discussion, projects and guest speaker presentation.

In grades 6 through 8, students are able to select "Fundamentals of Art" as an elective.

FUNDAMENTALS OF ART (Non-core, Non-college preparatory)
This is a basic course in the fundamentals of art expression. The California Visual and Performing Arts Standards guide the instruction for this course. In this course students perceive and respond to works of art, objects in nature, events, and the environment. They also use the vocabulary of the visual arts to express their observations. Students apply artistic processes and skills, using a variety of media to communicate meaning and intent in original works of art. They analyze the role and development of the visual arts in past and present cultures throughout the world, noting human diversity as it relates to the visual arts and artists. Students analyze, assess, and derive meaning from works of art, including their own, according to the elements of art, the principles of design, and aesthetic qualities. Students also apply what they learn in the visual arts across subject areas. They develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. They also learn about careers in and related to the visual arts.

Health and Physical Education

In grades TK-5, Health and Physical Education are incorporated in the weekly schedule with 120 minutes of instruction weekly. Students are engaging in physical fitness that is aligned with state standards per grade level. Students are pulled out by our PE teacher twice weekly for 60 minutes sessions and engage in a variety of structured activities to expose them to different physical activities and sports to help them develop lifelong healthy habits.

In grades 6 through 8, students are required to take Health and Physical Education each year.

HEALTH EDUCATION
This course provides students with knowledge and skills related to one or more of the nine content areas of health education, as defined in the Health Framework: (1) nutrition; (2) prevention of alcohol, tobacco, and other drugs; (3) personal health; (4) injury prevention and safety; (5) individual growth and development; (6) consumer and community health; (7) environmental health; (8) communicable and chronic diseases; and (9) family life. Family life education promotes the development of positive family interactions and may include human sexuality, dating, relationships, and prevention of sexually transmitted diseases, including HIV. This course provides students with content and skills that enable them to apply specific knowledge in their own personal behaviors and environments. This course builds the skills students need to recognize and resist negative influences. It includes decision-making, goal setting, communication, and interpersonal skills.

HEALTH AND PHYSICAL EDUCATION (Non-core, Non-college preparatory)
Courses offered in the Health and Physical Education department are designed to help the students develop psychomotor skills such as fundamental movement patterns, sports skills, and the five components of physical fitness. In addition, students' will develop a positive self-image and the ability to work with other classmates. The curriculum includes sports such as basketball, volleyball, football, soccer, track and field, softball, cooperative/teamwork games, mile run/mile and a half run, anaerobic activities, warm-up (Jogging or J.J.), stretching, push-ups, abdominal exercises, jump-rope, fun trust/games. The Health and Physical Education program consists of students in grades six through eight. Students will participate in skill building activities, introduction to sports and activities, and physical activities that link to the exploration of culture and history. The goal is to develop a lifelong program of activity to develop and maintain healthy habits and wellness. These courses are based on the Health and Physical Education Model Content Standards for California Public Schools.

Life Skills Program

In grades 6 through 8, students are offered Life Skills courses for one hour a week. Additionally, TK-12 students also use the Character Counts education curriculum.

LIFE SKILLS (Non-core, Non-college preparatory)
MSA-Santa Ana uses the "Character Counts" program in middle school grades. Character Counts is a classroom-based social skills program developed by the Committee for Children for students in preschool through junior high (ages 4–14 years), with a distinct curriculum for each grade. It is designed to reduce impulsive, high-risk, and aggressive behaviors and increase children's social competence and other protective factors.

This program contains units on Life Skills, Study Skills, Test Taking Skills, Drug Prevention, Environmental Issues, Career Awareness, and Character Development. Each middle school grade students attends Life Skills one period per week. Life Skills themes are integrated into broader school wide activities including assemblies, field trips, displays, announcements, and the general curriculum. Parents are informed about the topic of the week to cultivate their involvement and support at home.

COMPUTERS & TECHNOLOGY

In conjunction with the Computer Technology instruction, MSA-Santa Ana implements a Computer Science curriculum, which complies with Computer Science Teachers Association's ("CSTA") 'Standards for K-12 Computer Science Education.' These standards constitute a framework with three levels:

Recommended Grade	Level
TK-5	Level 1 - Computer Science and Basic Typing
6-8	Level 2 - Computer Science and Community
9-12	Level 3 - Computer Science in the Modern World Concepts and Practices Topics in Computer Science

Level 1 (Grades TK-5) Computer Science and Basic Typing: Students in grades TK-5th are given daily time for basic typing and Word, Power Point, and Excel. Students are taught digital citizenship as well as computer care.

Level 2 (Grades 6–9) Computer Science and Community: Middle school students begin using computational thinking as a problem-solving tool. They begin to appreciate the ubiquity of computing and the ways in which computer science facilitates communication and collaboration. Students begin to experience computational thinking as a means of addressing issues relevant, not just to them, but to the world around them. The learning experiences created from these standards are relevant to the students and should promote their perceptions of themselves as proactive and empowered problem solvers. They are designed with a focus on active learning and exploration and can be taught within explicit computer science courses or embedded in other curricular areas such as social science, language arts, mathematics, and science.

Level 3 (Grades 8–12) Applying concepts and creating real world solutions: Level 3 is divided into three discrete courses, each of which focuses on different facets of computer science as a discipline. Throughout these courses, students can master more advanced computer science concepts and apply those concepts to develop virtual and real-world artifacts. The learning experiences created from these standards will focus on the exploration of real-world problems and the application of computational thinking to the development of solutions. They are designed with a focus on collaborative learning, project management, and effective communication.

MSA-Santa Ana will offer accelerated tracks on Computer Science curriculum. For students who are ready for an accelerated program, MSA will offer the Advanced curriculum in middle school where topics in Level 3 are covered.

In elementary school, students will obtain fluency in computers and learn introductory level computer literacy. This instruction will be supported with problem solving and creative thinking skills. At the elementary level students are using computers for Project Based Learning, daily typing practicing Read, Write, and Type as early as TK, and intervention for ELA and Math. Students are taught how to access

information properly via tutorials by our teachers as necessary. Students type essays into Word and/or Google docs as early as second grade. Students prepare for SBAC as early as second grade in working with performance tasks and problem solving.

In middle grades, students gain autonomy in choosing and advancing in the right tools for their projects. The 8th grade curriculum briefly introduces the topics that are taught at high school level through entry-level projects. Progression is individualized to address all students needs based on ability.

The following summarizes the Computer Science curriculum:

- Middle school curriculum aims to provide strong skills in computer literacy and fundamentals of computational thinking. Programming and Discrete Math topics are infused into the curriculum. Programming topics are more intense in the 6th and 7th grades.
- 8th grade curriculum serves a transition between middle school and high school, topics focus on the conceptual understanding of high school electives.

In grades 6 through 8, students are offered Computers & Technology courses as an elective, including, based on student interest, potential electives in advanced topics such as Robotics, Web Design, Digital Art and more.

HIGH SCHOOL CURRICULUM

High school curriculum offers courses in core subjects of Mathematics, Science, English, and History/Social Science. In addition to the core subjects, and in accordance with UC/CSU A-G requirements, students are required to take two years of Physical Education, at least two years of Languages Other Than English (three years recommended), one year of Visual & Performing Arts, one year of Computers & Technology courses, and six semesters of electives for a standard diploma (see Graduation Requirements, below). All courses described below are one full year unless otherwise noted.

MATHEMATICS

High school students are required to take at least three years of approved courses in Mathematics; four years are recommended. Students need to complete three years of math courses that include the topics covered in elementary and advanced algebra and two-and three-dimensional geometry before graduation. As described in the section above regarding Middle School Mathematics, in determining the mathematics course placement for entering students, the Charter School systematically takes multiple objective academic measures of student performance into consideration, including:

- Statewide mathematics assessments, including interim and summative assessments through the CAASPP;
- Placement tests that are aligned to state-adopted content standards in mathematics;
- Recommendation, if available, of each student's prior year mathematics teacher based on classroom assignment and grades;
- Recommendation, if any, of each student's current grade mathematics teacher based on classroom assignments and grades provided at the beginning of the school year;
- Final grade in mathematics on the student's official, end of the year grade report card;
- Results from all placement checkpoints, including at least one (1) placement checkpoint within the first month of the school year.

Pathway	Grade 9	Grade 10	Grade 11	Grade 12
Regular Pathway	Integrated Math I	Integrated Math II	Integrated Math III	Electives *
Accelerated Pathway 1	Integrated Math II	Integrated Math III	Electives *	Electives *
Accelerated Pathway 2	Integrated Math III	Electives *	Electives *	Electives *

* Electives in Mathematics include Integrated Math IV/Precalculus, AP Calculus AB, AP Calculus BC, and other math courses depending on student levels, needs/demands and availability of teachers and resources.

INTEGRATED MATHEMATICS I (Core, College preparatory)
The fundamental purpose of Mathematics I is to formalize and extend the mathematics that students learned in the middle school grades. The critical areas, organized into units, deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. Mathematics I uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades. The final unit in the course ties together the algebraic and geometric ideas studied. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into six units are as follows: 1) Relationships Between Quantities; 2) Linear and Exponential Relationships; 3) Reasoning with Equations; 4) Descriptive Statistics; 5) Congruence, Proof, and Constructions; 6) Connecting Algebra and Geometry through Coordinates.
INTEGRATED MATHEMATICS II (Core, College preparatory)
The focus of Mathematics II is on quadratic expressions, equations, and functions; comparing their characteristics and behavior to those of linear and exponential relationships from Mathematics I as organized into 6 critical areas, or units. The need for extending the set of rational numbers arises and real and complex numbers are introduced so that all quadratic equations can be solved. The link between probability and data is explored through conditional probability and counting methods, including their use in making and evaluating decisions. The study of similarity leads to an understanding of right triangle trigonometry and connects to quadratics through Pythagorean relationships. Circles, with their quadratic algebraic representations, round out the course. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into six units are as follows: 1) Extending the Number System; 2) Quadratic Functions and Modeling; 3) Expressions and Equations; 4) Applications of Probability; 5) Similarity, Right Triangle Trigonometry, and Proof; 6) Circles With and Without Coordinates.
INTEGRATED MATHEMATICS III (Core, College preparatory)
It is in Mathematics III that students pull together and apply the accumulation of learning that they have from their previous courses, with content grouped into four critical areas, organized into units. They apply methods from probability and statistics to draw inferences and conclusions from data.

Students expand their repertoire of functions to include polynomial, rational, and radical functions.3 They expand their study of right triangle trigonometry to include general triangles. And, finally, students bring together all of their experience with functions and geometry to create models and solve contextual problems. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into four units are as follows: 1) Inferences and Conclusions from Data; 2) Polynomial, Rational, and Radical Relationships; 3) Trigonometry of General Triangles and Trigonometric Functions; 4) Mathematical Modeling.
INTEGRATED MATHEMATICS IV (Core, College preparatory)
This course prepares students for work in calculus. Topics include: coordinate geometry with analytical methods and proofs; equations and graphs of conic sections; rectangular and polar coordinates; parametric equations; vectors; the study of polynomial, logarithmic, exponential, and rational functions and their graphs; induction; limits and rate change; continuity; and problem analysis. The course unifies and emphasizes the structure of mathematics.
PRE-CALCULUS (Core, College preparatory)
In Precalculus, students extend their work with complex numbers begun in Mathematics III or Algebra II to see that the complex numbers can be represented in the Cartesian plane and that operations with complex numbers have a geometric interpretation. They connect their understanding of trigonometry and the geometry of the plane to express complex numbers in polar form. Students begin working with vectors. Students also work with matrices, their operations, and find inverse matrices. They see the connection between matrices and transformations of the plane. Students use matrices to represent and solve linear systems. Students extend their work with trigonometric functions, investigating the reciprocal functions secant, cosecant, and cotangent and their graphs and properties. They find inverse trigonometric functions by appropriately restricting the domains of the standard trigonometric functions and use them to solve problems that arise in modeling contexts. Students add ellipses and hyperbolas to their work. They also work with polar coordinates and curves defined parametrically and connect these to their other work with trigonometry and complex numbers. Finally, students work with more complicated rational functions, graphing them and determining zeros, y-intercepts, symmetry, asymptotes, intervals for which the function is increasing or decreasing, and maximum or minimum points.
AP STATISTICS (Core, College preparatory)
The AP Statistics course is equivalent to a one-semester, introductory, non-calculus-based college course in statistics. The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding.

AP CALCULUS AB (Core, College preparatory)	**AP CALCULUS BC** (Core, College preparatory)
AP Calculus AB is roughly equivalent to a first semester college calculus course devoted to topics in differential and integral calculus. The AP course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically,	AP Calculus BC is roughly equivalent to both first and second semester college calculus courses and extends the content learned in AB to different types of equations and introduces the topic of sequences and series. The AP course covers topics in differential and integral calculus, including concepts and skills of limits, derivatives, definite integrals, the Fundamental Theorem of Calculus, and series. The course teaches students to

and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.	approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.

Laboratory Science

Students are required to take at least two years of Science, two of which are laboratory courses chosen from Biology, Chemistry, and Physics; three years are recommended.

LABORATORY SCIENCE CORE COURSES	
PHYSICS A/B (Core, College preparatory)	**BIOLOGY A/B** (Core, College preparatory)
The first course in physics with mathematical reasoning not exceeding the level of trigonometry. The course uses the concept of vectors. Physics concepts usually include conservation laws, motion, gravity, optics, energy, kinetic theory, fields and interactions, and atomic structure. This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.	Biology is the study of all living things. Living things are characterized as having the ability to reproduce, grow, adjust and adapt. This includes plants, animals and microorganisms. This course is designed to enhance student's awareness on the essentials of biology and the underline disciplines that it covers: Cell Biology, Genetics, Evolution, Physiology, Investigation and Experimentation. Students will be able to understand the relationship between living and nonliving things and their effects on each other. Students will be able to actively carry out investigations and experiments through a series of lab experiments. This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.
CHEMISTRY A/B (Core, College preparatory)	
This introductory course covers the basic topics of chemical bonds, periodicity, kinetic molecular theory, kinetics, energies, dynamic equilibrium, conservation laws, atomic and molecular theory, and chemical systems. The course usually includes applications of chemical principles. This course integrates curriculum which encompasses engineering design and engineering principles in alliance with the national science framework. This course also helps students learn about engineering design, technology, and applications of science as part of the curriculum.	

LABORATORY SCIENCE ELECTIVES	
AP ENVIRONMENTAL SCIENCE A/B (Core, College preparatory)	**MARINE BIOLOGY A/B** (Core, College preparatory)

This course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them.	Marine Biology builds upon and extends biological concepts developed during earlier science courses. Students take an in-depth look at the physical, chemical, and geological characteristics of the world's oceans. They then investigate the structure, functions, behaviors, adaptations, and classification of a variety of plant and animals that live in the marine environment. Students learn how energy flows and matter cycles through the Earth's ocean system and they investigate the impact of humans on that system.
AP PHYSICS B A/B (Core, College preparatory)	**AP BIOLOGY A/B** (Core, College preparatory)
This course parallels a non-calculus college-level physics. The course is described in the AP Physics B syllabus. The instructor is expected to follow and complete the syllabus.	This course is typically taken after a year of high school biology and chemistry. The course parallels a college-level introductory biology course. The course is described in the AP Biology syllabus. The instructor is expected to follow and complete the syllabus.
AP CHEMISTRY A/B (Core, College preparatory)	
This course parallels a college-level chemistry course. AP Chemistry usually follows high school chemistry and second year algebra. The course is described in the AP Chemistry syllabus. The instructor is expected to follow and complete the syllabus.	

English Language Arts

Students are required to take four years of approved courses in English.

ENGLISH	
ENGLISH 9 A/B (Core, College preparatory)	**ENGLISH 10 A/B** (Core, College preparatory)
English 9 builds upon the students' prior knowledge of grammar, vocabulary, word usage, and mechanics of writing, and usually includes the four aspects of language use: reading, writing, speaking, and listening. Various genres of literature, including expository and informational materials, are introduced, with written compositions in a variety of genres, often linked to the reading selections.	English 10 offers students a balanced focus on composition and literature. Students learn to write persuasive, critical, and creative multi-paragraph thematic essays and compositions. The study of literature and other written material encompasses various genres as students improve their reading comprehension and develop the skills to determine the purposes and themes of authors and to recognize the techniques employed by authors to achieve their goals.
ENGLISH HONORS 9 A/B (Core, College Preparatory)	
The Honors English 9 course is designed for students who show a high level of proficiency in reading, writing, and literary analysis and is preparation for AP level coursework. Honors English students will improve their written and oral communication skills while strengthening their ability to understand and examine literature in a variety of genres including: essays, novels, short stories, speeches, and poetry. Students are challenged to read complex texts, craft multifaceted arguments that are supported by the literature, and apply the knowledge that they have learned in their writing.	

<table>
<tr><td colspan="2">Students will strengthen their composition skills by examining model essays in different genres by student and professional publishers. Through in-depth essay planning, organizing, drafting, and revising, students will hone their writing skills. Additionally, they will build on proper writing conventions with in-depth study of sentence analysis and structure, agreement, and punctuation.</td></tr>
<tr><td>ENGLISH 11 A/B (Core, College preparatory)</td><td>ENGLISH 12 A/B (Core, College preparatory)</td></tr>
<tr><td>English 11 courses continue to develop students' writing skills, emphasizing clear, logical writing patterns, word choice, and usage, as students write essays and learn the techniques of writing research papers. Students continue to read works of literature and other written materials that often form the backbone of the writing assignments.</td><td>English 12 courses blend composition and literature as students write critical and comparative analyses of classic and contemporary literature and other written genres. Typically, multi-paragraph essays in a variety of genres predominate as the form of student composition, but one or more major research papers may also be required.</td></tr>
<tr><td>AP ENGLISH LANGUAGE AND COMPOSITION A/B (Core, College preparatory)</td><td>AP ENGLISH LITERATURE AND COMPOSITION A/B (Core, College preparatory)</td></tr>
<tr><td>This course is designed to parallel college-level English courses. It exposes students to prose written in a variety of periods, disciplines, and rhetorical contexts. The course emphasizes the interaction of authorial purpose, intended audience, and the subject at hand. Students learn to develop stylistic flexibility as they write compositions covering a variety of topics.</td><td>This course is designed to parallel college-level English courses. It enables students to develop critical standards for evaluating literature. Students study the language, character, actions, and theme in works of recognized literary merit; enrich their understanding of connotation, metaphor, irony, syntax, and tone; and write compositions of their own (including literary analysis, exposition, argument, narrative, and creative writing).</td></tr>
<tr><td colspan="2">ENGLISH LANGUAGE DEVELOPMENT A/B (Non-Core, Non-College preparatory)</td></tr>
<tr><td colspan="2">The course focuses on reading, writing, speaking, and listening. Students participate in extensive listening and speaking exercises. The course covers basic structures of the English language. Students progress from an elementary understanding of English words and verb tenses to a more comprehensive grasp of various formal and informal styles. The course may include an orientation to the customs/cultures of people in the U.S.</td></tr>
</table>

<table>
<tr><th colspan="2">ENGLISH LANGUAGE ARTS ELECTIVES</th></tr>
<tr><td>JOURNALISM A/B (Non-core, Non-College preparatory)</td><td>SPEECH A/B (Non-Core, Non-College preparatory)</td></tr>
<tr><td>Journalism prepares students for work on school newspapers by fostering habits of clear, concise, written expression and by developing the ability to write interestingly. The course improves students' use of grammar, spelling, punctuation, sentence and paragraph form, style, and structure and offers basic training in techniques of interviewing and news writing. It fosters a critical attitude toward news and develops the ability to evaluate the worth of publications</td><td>Speech develops fundamentals of effective oral delivery such as voice, diction, poise, and ease. The course develops effective organization through selection and arrangement of material, transitions, and rhetorical effect. Activities include preparation and practice in making short speeches to inform, convince, stimulate, actuate, and/or entertain. The course may include instruction in parliamentary procedure, discussion, debate, and oral interpretation.</td></tr>
</table>

through wide and intelligent readings of newspapers and periodicals.	

History/Social Science

Students are required to take at least three years of History/Social Science, including World History, U.S. History, and American Government/Economics.

HISTORY/SOCIAL SCIENCE COURSES	
WORLD HISTORY A/B (Core, College preparatory)	**U.S. HISTORY A/B** (Core, College preparatory)
This course provides an overview of the history of human society from early civilization to the contemporary period, examining political, economic, social, religious, military, scientific, and cultural developments. Students study cultures of the western and nonwestern world. The course integrates geography with history and cultural studies.	This course focuses on the examination of major turning points in American history in the twentieth century. The course emphasizes specific themes, such as the expanding role of the federal government and federal courts; the continuing tension between the individual and the state and between minority rights and majority power; the emergence of a modern corporate economy; the impact of technology on American society and culture; change in the ethnic composition of American society; the movements toward equal rights for racial minorities and women; and the role of the United States as a major world power.
AMERICAN GOVERNMENT (Core, College preparatory)	
Students apply knowledge gained in previous years of study to pursue a deeper understanding of the institutions of American government. They draw on their studies of American history and of other societies in the world today. This course prepares students to vote, to reflect on the responsibilities of citizenship, and to participate in community activities. Topics include the Constitution and the Bill of Rights; the Courts and the Governmental Process; Our Government Today; the Legislative and Executive Branches; Federalism; and State and Local Government. Contemporary issues, including key passages from the Federalist Papers and similar primary sources are studied in light of democratic principles.	

HISTORY/SOCIAL SCIENCE ELECTIVES	
AP GOVERNMENT AND POLITICS: UNITED STATES A/B (Core, College preparatory)	**AP WORLD HISTORY A/B** (Core, College preparatory)
This course provides students with an analytical perspective on government and politics in the United States, involving both the study of general concepts used to interpret U.S. politics and the analysis of specific case studies. Topics include constitutional underpinnings of U.S. government, political beliefs and behaviors, political parties and interest groups, the institutions and policy	AP World History course is designed for students to develop a greater understanding of the evolution of global processes and contacts, in interaction with different types of human societies. This understanding is advanced through a combination of selective factual knowledge and appropriate analytical skills. The course highlights the nature of changes in international

process of national government, and civil rights and liberties.	frameworks and their causes and consequences, as well as comparisons among major societies.
AP U.S. HISTORY A/B (Core, College preparatory)	**AP GOVERNMENT AND POLITICS: COMPARATIVE A/B** (Core, College preparatory)
This course provides students with the analytical skills and factual knowledge necessary to understand the course of United States history. Students learn to assess historical materials and to weigh the evidence and interpretations presented in historical scholarship. The course examines time periods from discovery and settlement of the New World through the recent past.	This course provides students with an analytical perspective on government and politics in the United States, involving both the study of general concepts used to interpret U.S. politics and the analysis of specific case studies. Topics include constitutional underpinnings of U.S. government, political beliefs and behaviors, political parties and interest groups, the institutions and policy process of national government, and civil rights and liberties.

ECONOMICS (Core, College preparatory)	**PSYCHOLOGY A/B** (Core, College preparatory)
In this course students deepen their understanding of the basic economic problems and institutions of the nation and world in which they live. They learn to make reasoned decisions on economic issues as citizens, workers, consumers, business owners and managers, and members of civic groups. This course enriches students' understanding of the operation and institutions of economic systems. Topics include Fundamental Economic Concepts, Comparative Economic Systems, Microeconomics, Macroeconomics, and International Economic Concepts.	This course focuses on the scientific study of human development, learning, motivation, and personality. Students explore implications for everyday life with a scientific perspective on human behavior.
ANTHROPOLOGY A/B (Core, College preparatory)	**WORLD CULTURES A/B** (Non-Core, College preparatory)
Students learn about human beings and their cultures by studying the two major divisions of anthropology: physical and cultural. In physical anthropology students consider the biological characteristics of human beings, their adaptation to their environment, and development in the context of various forms of animal life. In cultural anthropology students learn about the culture of specific peoples, past and present, as well as those components of culture found universally among human societies.	This course focuses on an investigation of one or more cultures in a geographic region of the world today; for example, cultural studies of Africa, the Middle East, Latin America, Asia, or Southeast Asia. The course covers geographic settings; the population, the stature and roles of women and minority groups; and processes of cultural change and exchange. Students learn about the cultures historical, economic, and political developments, including nation building across time. The course may include an in-depth study of one or more different cultures to expand the students understanding of cultural diversity and provide balance in the representation of ethnic groups and societies around the world.

AP HUMAN GEOGRAPHY A/B (Non-core, College preparatory)	**AP PSYCHOLOGY A/B** (Core, College preparatory)
The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. The curriculum reflects the goals of the National Geography Standards (2012)	The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas.

Language Other Than English

Students are required to take at least two years of a Language other than English in the same language; three years are recommended.

LANGUAGE OTHER THAN ENGLISH	
SPANISH 1-2-3 A/B (Non-Core, College preparatory)	**AP SPANISH LANGUAGE AND CULTURE A/B** (Non-Core, College preparatory)
This course is designed to teach students about the language and culture of the Spanish and Latin American people. The first-year course emphasizes communication, basic grammar and syntax, and simple vocabulary so that students can read, write, speak, and comprehend on a basic level. The second-year course enables students to expand upon what they have learned, increasing their skills and depth of knowledge. The course teaches students to appreciate the Spanish and Latin American cultures by acquainting students with art, literature, customs, and history of the Spanish-speaking people.	The course is designed to parallel third-year college-level courses in Spanish composition and conversation. Building upon students' prior knowledge of Spanish, the course develops the students' ability to understand and express themselves accurately, coherently, and fluently in Spanish. In the course, students develop a large enough vocabulary to understand literary texts, magazine/ newspaper articles, films, and television productions.
AP SPANISH LITERATURE AND CULTURE A/B (Non-Core, College preparatory)	**WORLD LANGUAGE 1-2-3 A/B** (1 and 2 Core, College preparatory, 3 Non-Core, College preparatory)
The AP Spanish Literature and Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, and essays) from Peninsular Spanish,	This course is designed to teach students about the language and culture of the people where the world language is spoken. The first-year course emphasizes communication, basic grammar and syntax, and simple

Latin American, and United States Hispanic literature. Students continue to develop proficiencies across the full range of the modes of communication (interpersonal, presentational, and interpretive), honing their critical reading and analytical writing skills. Literature is examined within the context of its time and place, as students reflect on the many voices and cultures present in the required readings. The course also includes a strong focus on cultural connections and comparisons, including exploration of various media (e.g., art, film, articles, and literary criticism).	vocabulary so that students can read, write, speak, and comprehend on a basic level. The second-year course enables students to expand upon what they have learned, increasing their skills and depth of knowledge. The course teaches students to appreciate the culture by acquainting students with art, literature, customs, and history of the people where the world language is spoken.

COMPUTERS & TECHNOLOGY

Students are required to take at least one year of Computers & Technology. Technology is a key component to our instructional delivery model each room is equipped with laptops (1:1 student to computer ratio) and a blended learning model being utilized in many classrooms. At the high school level, we offer two different AP Computer courses starting with all ninth graders taking AP Computer Science.

COMPUTERS & TECHNOLOGY	
COMPUTER LITERACY 1 A/B – Computer Science in the Modern World (Non-core, Non-college preparatory)	**COMPUTER LITERACY 2 A/B – Computer Science in the Modern World** (Non-core, Non-college preparatory)
In this course, students learn to use computational thinking to develop algorithmic solutions to real-world problems. They will begin to understand the different levels of complexity in problem solving and to determine when team projects might generate more effective problem solutions than individual efforts. Students will learn and use a programming language(s) and related tools, as well as appropriate collaboration tools, computing devices, and network environments. Finally, they will demonstrate an understanding of the social and ethical implications of their work and exhibit appropriate communication behavior when working as a team member.	Computer Science Concepts and Practices is a follow-up course to Computer Science in the Modern World. It is designed to harness the interests of those students wishing to further enhance their studies in the computing fields. In this course, students will begin to develop higher-level computing skills and apply them to a variety of subjects and disciplines. Students will learn how computer science impacts society and promotes change. Through the analysis of global issues, students will explore how computer science can help solve real-world problems using innovation, collaboration, and creativity. This course will also provide students with an opportunity to explore Computer Science as a potential career interest at the collegiate level.
WEB DESIGN A/B (Non-core, Non-college preparatory)	**COMPUTER PROGRAMMING A/B** (Non-core, Non-college preparatory)
This course introduces students to the Internet and World Wide Web. Students will study the history of the Internet, search engines, Web design process, navigation strategies, creation and editing of graphics, Web hosting services, and Web publishing. Webpage development will	This course covers the principles and programming styles used in the design and implementation of contemporary programming languages. Students are introduced to the history of programming languages, language syntax and formal grammars, language processors such as compilers and interpreters, and

include coding HTML and CSS using a text editor and utilizing simple scripts to enhance webpages.	generalized parsing strategies. The course focuses on particular language constructs and their realization in a variety of programming languages. A particular language such as Java Script, Java, C++ and C# are used to provide students with practical illustrations of various programming principles.
ROBOTICS A/B (Non-core, Non-college preparatory)	**AP COMPUTER SCIENCE A A/B** (Non-core, College preparatory)
This instructional program prepares individuals to design, develop, program, and maintain robotic devices. It includes instruction in the history and development of robotic devices; the types of robotic devices used in industry and their component makeup; computer control systems and robot computer language programming; troubleshooting techniques, especially for servomechanisms, microprocessors, and computer operation; and the integration of these devices and factors into a total manufacturing system. The NGSS engineering standards addressed by this course fit within the Engineering, Technology and Applications of Science Disciplinary Core Idea. Specifically, the following NGSS standards are explored: MS-ETS1-2. Evaluate competing design solutions using a systematic process to determine how well they meet the criteria and constraints of the problem. MS-ETS1-4. Develop a model to generate data for iterative testing and modification of a proposed object, tool, or process such that an optimal design can be achieved. HS-ETS1-2. Design a solution to a complex real-world problem by breaking it down into smaller, more manageable problems that can be solved through engineering. HS-ETS1-3. Evaluate a solution to a complex real-world problem based on prioritized criteria and trade-offs that account for a range of constraints, including cost, safety, reliability, and aesthetics as well as possible social, cultural, and environmental impacts.	The AP Computer Science A course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems.
AP COMPUTER SCIENCE PRINCIPLES A/B (Non-core, College preparatory)	

AP Computer Science Principles introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles give students the opportunity to use technology to address real-world problems and build relevant solutions.

AP Computer Science A *(Course Overview from UC's A-G Management Portal)*

Students will learn to design and implement computer programs that solve problems relevant to today's society, including art, media, and engineering. AP Computer Science A teaches object- oriented programming using the Java language and is meant to be the equivalent of a first semester, college-level course in computer science. It will emphasize problem solving and algorithm development, and use hands-on experiences and examples so that students can apply programming tools and solve complex problems. This course will prepare students for the end- of-course AP Exam.

AP Computer Science Principles *(Course Overview from UC's A-G Management Portal)*

This course is designed to provide knowledge about architecture and design in school and for a career. Students will have an understanding of using research to learn about architecture design. Students also learn about floor-plans, elevations, building models, and using the program Google Sketch-up to create their own architecture. The course will use art and technology to provide the students an opportunity to create all different types of projects in architecture. Students will design drawings by hand and apply their knowledge so that they can create images using computer-based programs. We will work on new skill enhancing design problems, individually designed projects, and work on a project that incorporates knowledge of sustainability in architecture. The class will switch between computer generated architecture and hand drawn architecture. The key rationale for the elective course is to give the students overall information about architecture and design so that they can experience the importance of the career from a personal standpoint.

VISUAL & PERFORMING ARTS

Students are required to take at least one year of Visual and Performing Arts and chosen from the following categories: dance, drama/theater, music, or visual art.

<table>
<tr><th colspan="2">VISUAL & PERFORMING ARTS ELECTIVES</th></tr>
<tr><td colspan="2">AP ART A/B (Non-Core, College preparatory)</td></tr>
<tr><td colspan="2">This course covers the organization of art elements and principles and provides study of their application in two- and three-dimensional problems. Students analyze and use design principles in works of art from art history and many world cultures. Students learn to critique their work and the work of others and become more aware of design in their environment.</td></tr>
<tr><td>MUSIC APPRECIATION A/B (Non-Core, Non-College preparatory)</td><td>DIGITAL ART A/B (Non-Core, Non-College preparatory)</td></tr>
<tr><td>This class emphasizes listening activities related to the structure or design of the music from perceptual, creative, historical, and critical viewpoints using a variety of musical forms and styles.</td><td>This course helps students develop aesthetic criteria in order to create graphic art imagery using a microcomputer. The course emphasizes the knowledge and application of the art elements and principles of design as used in visual communication. Students use the computer and digital tools to apply or formulate programs to communicate creative visual ideas, including animation, game production, and</td></tr>
</table>

	artistic aspects of Web site design. This course may also include aspects of the Cinematography/Artistic Videos course. Students study artists who practice these art forms and learn and practice critiques of these art forms.
PHOTOGRAPHY A/B (Non-Core, Non-College preparatory)	**THEATRE/PLAY PRODUCTION A/B** (Non-Core, Non-College preparatory)
This course presents photography as a fine art in which students explore the use of the art elements and principles of design to communicate their ideas, feelings, or values through photographic work. Students learn photographic techniques that may incorporate both traditional and contemporary (digital and multimedia technologies) traditions. They also participate in critiques and study the history of photography as a fine art, as well as the artists who use the medium of photography.	This course provides a balanced theater arts program that emphasizes dramatic literature and/or musical theater activities that lead to the formal presentation of a scripted play. The class emphasizes awareness and practice in theater production, performance, direction, stage technique, voice, stage design, costuming, properties, and theater history. Students develop language skills and appreciation through reading dramatic literature from a worldwide perspective and writing critiques, character analyses, and play reports.
HISTORY/APPRECIATION OF THEATER ARTS/FILM A/B (Non-Core, Non-College preparatory)	
This course is for students who desire knowledge in the history of drama, plays, theater, and writers. The course may include the study of outstanding examples in the fields of motion pictures, radio, and television. The course includes instruction in reading, writing, critique processes, and research.	

Health and Physical Education

Students are required to take two years of Health and P.E.

HEALTH AND PHYSICAL EDUCATION I A/B (Non-core, Non-college preparatory)	**HEALTH AND PHYSICAL EDUCATION II A/B** (Non-core, Non-college preparatory)
This course is the first year of the high school health and physical education sequence. It includes the required content areas; aquatics, rhythms/dance, individual and dual activities, mechanics of body movement, and the effects of physical activity on dynamic health.	This course is the second year of the high school foundation courses, it expands the content of course I and includes the remainder of the required content areas; gymnastics/tumbling, combatives, team sports, mechanics of body movement, and the effects of physical activity on dynamic health.

Advisory

In grades 9 through 12, students participate in an Advisory program for 25 minutes a day, every day. Students in 11th and 12th grades also can elect take a year-long College Readiness class.

ADVISORY PROGRAM
ADVISORY 9-10-11-12 A/B (Non-core, Non-college preparatory)
Students take Advisory all four years of high school. Each student works closely with their Advisory teacher to develop their Four-Year Plans, exploring and setting academic and career goals. Students

take part in team building activities, community service opportunities and work on their high school portfolio. Advisory also provides curriculum to increase student knowledge and ability in skills necessary for everyday living. The course emphasizes defining personal values, goal-setting and planning, making decisions and solving problems, evaluating information and dealing with media and peer pressure, communication and relationships, decision-making, wellness and personal safety, and contributing to the community.

COLLEGE READINESS 11 A/B (Non-core, Non-college preparatory)	**COLLEGE READINESS 12 A/B** (Non-core, Non-college preparatory)
The course focuses on preparing students to complete college applications by creating a portfolio that includes CSU Mentor High School Planner, UC/ Private School Personal Statement, EOP application, SAT/ACT registration and preparation, and FAFSA Forecaster.	The course focuses on preparing students to complete college applications by creating a portfolio that includes CSU Mentor High School Planner, UC/ Private School Personal Statement, EOP application, SAT/ACT registration and preparation, and FAFSA Forecaster.

ENGINEERING

NGSS and the new CA Science Framework includes Engineering as a Disciplinary Core Idea in teaching science. For the past two years, MPS science teachers have been using McGraw Hill Integrated Science (iScience) curriculum which encompasses engineering design and engineering principals in alignment with the national science framework. Therefore, in MSA-Santa Ana all students learn about engineering design, technology, and applications of science as part of their core science classes.

MSA-Santa Ana offers a curriculum and educational plan that addresses all areas of STEAM. Our high school students take three years of science, while two are required, with a fourth year available as an elective. Students who qualify based on math performance and interests are offered AP Physics, which extends to eighth graders. Additional science electives are offered to middle students such as Science Olympiads and computers.

In addition to AP Computer Science Principles and AP Computer Science Course A (described above), at the high school level we also offer Robotics to promote Engineering:

Robotics *(Non-Core; College Prep) Course Overview from UC's A-G Management Portal)*

Robotics is an intro course that will explore, via VEX robotics equipment, relationships between the field of mathematics, science, especially physics, and technology. The goal of this course is to get students interested in pursuing a field of study in STEAM upon graduating from high school. The class is designed to introduce students to basic concepts, or advanced, depending upon their levels of expertise, in robotics. The class will give students the opportunity to work in groups of maximum three students in lab experiments. In these experiments, students will work together in building and testing a basic (or complex) VEX-based mobile robot.

Students will have the opportunity to learn about the historical development of robotics as a field. In addition, students will learn about programming using Robot C, and the importance of integrating different robotics sensors, and how these affect the control and mobility of their robots. The basic study of physics laws, via mathematics, and basic computer programming in Robot C, will be presented, and how these can be used to predict the basic mobile behavior of their robots, such as speed, acceleration, torque, and other key components that will affect their mobile robots.

Students will work in small teams of three students to do research, design, program, and construct a mobile robot using VEX equipment. The goal is to have in class competitions amongst each team, and other schools at the high school or collegiate level. Provided there is enough interested among the students during their competitions, the goal is to have the most competitive teams represent the Charter School at competitions held at other schools, or colleges, who have VEX competitions at the state level. Lastly, the course will assist the students in preparing formal resumes and portfolios for the projects they develop that will include basic academic skills, communication skills, people skills, problem solving skills, and using safety whenever they are using the VEX equipment, and the usage of technology.

Robotics will introduce students to the working principles and foundational knowledge of robotics, using mathematics and basic physics principles. Students learn to control mobile robots using VEX equipment programs. The students will write robotics programs using Robot C and Easy Robot C computer programming language to perform various tasks based on the sensory information of the robot. Students will also learn the mathematics involved and basic science principles from physics associated with the various movements of their robotics.

Through hands-on problem-based projects, students will develop critical thinking, problem solving, effective communication, and cooperative skills. VEX Robotics robots are an excellent platform to engage students on collaborative learning environments where science, technology, engineering, and mathematics come together. Besides using computers so that students can learn to design their own robots, they will also have the opportunity to build their robots themselves, and will also have the opportunity to write their own algorithms. The computer algorithms written by the students will enable the robots to become autonomous. At the same time, these algorithms will give the students the opportunity to solve potential problems with their designs using mathematics and science. Students will have access to our computer labs, and they will also be able to use their own personal computers to design, and to write their presentations about their robots.

The following general concepts will be covered in robotics:

- Students will gain competence as communicators both in written and oral form, via formal resumes, power point presentations, and presenting their robot designs to their classmates or audience in attendance at various VEX competitions.
- They will engage in critical thinking, problem solving, and cooperative team work.
- Students will have a basic understanding of the core concepts in computer science and robotics:
- Computer programming in Robot C and Easy Robot C.
- Software and algorithm development for applied problem solving.
- Motion control of VEX robotics robots
- Sensor fusion and sensory data processing.
- Students will learn to ask why and how, and will develop the confidence and motivation to explore technology and science on their own.
- The following computing and robotics concepts will be covered:
- Structured programming using Robot C and Easy Robot C (which is very similar to C++).
- Motion control of robotics
- Robotics sensor fusion and sensory data processing

- Using robotics to solve applied problems and/or word problems in mathematics and science with hands-on activities.

VEX Robotics Competitions (http://www.vexrobotics.com/vex/competition):
This program is specifically designed to make students of robotics compete inside the classroom using VEX equipment. These competitions are an easy way to engage students to integrate all facets of STEM education into the classroom. Students also have the opportunity to not only compete against other teams in class, but they also have the ability to go to VEX competitions held during the fall and spring semesters with students from middle, high, and college level. This is an excellent opportunity to network with other students whom have robotics at their schools, and they get to see how other students design robots with the available VEX equipment. These competitions do capture the students' attention, not only in their designs, but also to their programming skills, and to find possible solutions to any flaws that their robot designs might have. During the building and competitions, the students will have with their robots, they will be learning STEM concepts. VEX robotics also has a complete curriculum that can be used with all of their VEX equipment.

CURRICULAR AND INSTRUCTIONAL MATERIALS

MSA-Santa Ana utilizes California SBE adopted instructional materials aligned with CCSS/NGSS. The MPS Home Office works with teacher leaders to identify, evaluate, and select appropriate materials and to make modifications to core and additional instructional resources. Current curricula include:

ELEMENTARY
Math: McGraw Hill: My Math; *Enrichment/Intervention:* McGraw Hill; Ironbox; Math Olympiads (MOEMS); Sumdog; Prodigy; Xtra Math
Science: McGraw Hill: Inspire Science, Mystery Science, English Language Arts; McGraw Hill: California Wonders; Grade Level Novels; Great Leaps – intervention; Just Words – intervention; Ticket to Read – online reading intervention and/or enrichment program; Accelerated Reader (AR) – online reading comprehension program;
Social Studies: McGraw Hill: Elementary Networks;
ELD: McGraw Hill: California Wonders My Language; Kate Kinsella Sentence and Speaking Frames.

MIDDLE AND HIGH SCHOOL
Math: McGraw Hill; *Enrichment/Intervention:* McGraw Hill, ALEKS, Ironbox (6-8), Glencoe Math Accelerated, Curriculum Associates' Ready Common Core, EngageNY, Singapore Math; Renaissance Learning Accelerated Math Program
Science: McGraw Hill; Integrated iScience (6-8); McGraw Hill Biology, Physics, Chemistry (9-12);
English Language Arts/ELD: McGraw Hill; McGraw Hill Study Sync (K-12); ELD Program-National Geographic Learning, Inside (6-8), Edge (9-12); *Enrichment/Intervention:* McGraw Hill, FLEX Literacy (K-12), Renaissance Learning Accelerated Reader Program, Rosetta Stone, BrainPOP ESL
Social Science: McGraw Hill, Networks (K-12); *Enrichment/Intervention:* Teachers' Curriculum Institute's (TCI) History Alive! Middle School Program

Teachers are invited to utilize a myriad of additional resources online and in print, in consultation with the Principal and leadership team.

COMPREHENSIVE COURSE LIST

The following courses are offered at MSA-Santa Ana for elementary, middle, and high school; course offerings may be changed based on student interests and needs (e.g., alternative electives, additional remediation courses), as determined by the Principal and teacher leaders.

MSA SA Elementary School Courses

Name	Grade Groups
Social Studies	TK-5th
Math	TK-5th
Science	TK-5th
Reading	TK-5th
Physical Education	1st-5th

MSA SA Middle School Courses

Name	Grade Groups
Science 8	8th
Grade 8 Math - Common Core	8th
English Language Arts 8	8th
Academic Pentathlon	8th
Integrated Math I - Common Core	8th
Computer Literacy I	7th,8th
Science 7	7th
Math 7 (Accelerated) (Honors)	7th
Grade 7 Math - Common Core	7th
English Language Arts 7	7th
Advanced Math	6th,7th
Sustained Silent Reading	6th-8th
Study Skills	6th-8th
Science 6	6th
Power Math	6th-8th
Power English	6th-8th
Physical Education	6th-8th
History-Social Sciences	6th-8th
Fundamentals of Art	6th-8th
ELD-English Language Development	6th-8th
Grade 6 Math - Common Core	6th
English Language Arts 6	6th

MSA SA High School Courses

Name	Grade Groups	A-G
Advisory	9th,10th, 12th	
Physical Education I - HS	9th,10th	A-G
Physical Education II - HS	9th, 10th	A-G
Online Course	9th-12th	
Computer Technology	9th-12th	
Advanced English Language Development	9th-12th	A-G
Spanish 1	9th	A-G
Integrated Math I - Common Core	9th	A-G
English 9 (Honors)	9th	A-G
English 9	9th	A-G
Biology (Honors)	9th	A-G
Biology	9th	A-G
Personal Finance	12th	
Economics	12th	A-G
Integrated Math IV - Common Core	11th,12th	A-G
United States History	11th	A-G
Spanish 3	11th	A-G
Physics	11th	A-G
Integrated Math III - Common Core	11th	A-G
English 11	11th	A-G
College Readiness	11th	
AP World History	10th-12th	A-G
AP United States History	10th-12th	A-G
AP Studio Art: 2-D Design	10th-12th	A-G
AP English Literature & Composition	10th-12th	A-G
AP Computer Science Principles	10th-12th	A-G
AP Statistics	10th-11th	A-G
World History	10th	A-G
Spanish 2	10th	A-G
Integrated Math II - Common Core	10th	A-G
English 10 (Honors)	10th	A-G
English 10	10th	A-G
Chemistry	10th	A-G

INSTRUCTIONAL METHODS AND STRATEGIES

As detailed in the preceding sections, our instructional methods and strategies are based on success with similar populations of students and our 17-year history. All MSA-Santa Ana faculty members use the *Understanding By Design* ("UBD") model to backwards plan instruction, including differentiation for students in need of specific supports. As noted in the section on Professional Development, below, we ask all faculty to read the following seminal works: Alan Blankstein, *Failure Is Not an Option: 6 Principles That Advance Student Achievement in Highly Effective Schools*; Dr. Robert Marzano's *Classroom Management That Works: Research-Based Strategies for Every Teacher*; Carol Ann Tomlinson's *How To Differentiate Instruction In Mixed-Ability Classrooms*, and Doug Lemov's *Teach Like A Champion*.

We emphasize integration of the curriculum with cross-disciplinary learning on a daily basis. Teachers strive to make learning relevant and engaging for all students by employing a constructivist, project-based approach. Methods include a frequent emphasis on real world, practical applications of learning, and employ inquiry, research, reflection, problem-solving, and critical thinking. As they master content,

students learn *how* to learn. Instruction is deeply rooted in thematic integrated instruction, including application-oriented activities such as projects that require students to utilize skills and knowledge from ELA, science, math, history, the arts, computer/technology and more. Often interactive and rooted in collaboration, the approach makes assignments meaningful and engaging and concepts authentic. Technology is integrated throughout the curriculum to ensure students develop the skills needed in college and career.

GRADUATION REQUIREMENTS

Our mission is that 100% of middle school students will complete courses in grades 6-8 in 3 years passing with a grade of "C" or better and that all high school students will pass all required courses and electives with a grade of "C" or better to graduate in 4 years with a minimum of 210 credits. Credits are earned on a semester basis in high school with each course worth 5 credits per semester (i.e., a year-long course is worth 10 credits). All of our high school courses are submitted to UC Doorways and are A-G approved.

MSA-Santa Ana offers three different high school diploma types: standard, advanced, and honors. Each diploma has minimum requirements that meet and exceed the state graduation requirements and the UC/CSU A-G requirements. Specific requirements include:

- at least 30 semester credits of math for a standard diploma and 40 semester credits of math for an advanced or honors diploma. These credits can be earned in middle school, but year requirements still apply. See below.
- enrollment in a math course for at least two years in grades 9-12 for a standard diploma (state requirement) and at least three years in grades 9-12 for an advanced or honors diploma. For example; a student may take Algebra-I in seventh grade, Geometry in eighth grade, and Algebra II in ninth grade. The student still needs to take one more year of math for a standard diploma and two more years of math for an advanced or honors diploma.
- earn 40 hours of community service before graduation for an advanced or honors diploma. Students may begin to earn these hours once they complete their 8th grade year.
- in order to participate in any senior activities (prom, grad night, senior picnic, and graduation), students must have a total of 150 credits at the beginning of the first semester and/or 180 credits at the beginning of the second semester of senior year.
- students have to fulfill all of the graduation requirements to participate in the Graduation Ceremony.

MSA-Santa Ana Graduation Requirements

Subject Area	Minimum Course Requirements	STANDARD Diploma	ADVANCED Diploma	HONORS Diploma
(a) History/Social Science	Three years	30	30	30
(b) English	Four years	40	40	40
(c) Mathematics	Three years (Four years recommended)	30	40	40
(d) Science	Two years with lab required; (Three years recommended)	20	30	40

(e) Language Other Than English	Two years in same language required. (Three years recommended)	20	20	30
(f) Visual & Performing Arts	One year	10	10	10
(g) Electives*	20-30 credits depending on diploma type.	30	30	20
Health & Physical Education	Two years required.	20	20	20
Computers & Technology	One year required.	10	10	10
TOTAL REQUIRED CREDITS		210	230	240
AP Course / College Credit Requirements	AP courses can be taken to meet minimum requirements or as elective.	N/A	20	40
Other Requirements	Minimum Cumulative GPA Required Service Learning Hours	2.00 N/A	3.25 40 hrs.	3.50 40 hrs.

*Elective / AP course offerings may change depending on student needs/demands and availability of teachers and resources.

Credit Recovery Opportunities

When students need extra help, the following supports are provided, including all student groups and students transferring in:

- Summer Session Credit Recovery
- Online Credit Recovery
- Academic Support classes in English and/or Math
- Tutoring After School or Saturdays

Ensuring Transfer Students Can Meet Graduation and College Entrance Requirements

Upon enrollment in high school, counselors work with individual students to create a Four-Year Plan to meet the requirements for graduation. This plan is monitored and updated once per semester during the school year. Counselors help ensure that each student is enrolled in appropriate courses, and that each student has the support he or she needs to successfully complete graduation requirements. Every transfer student participates in an intake meeting which includes a review of his/her transcript and tracking towards graduation, with creation of a Four-Year Plan for their remaining high school years. Every exiting student will also receive a transcript to provide him/her with an official record of courses completed and credits earned. Minimum requirements for a standard diploma align with UC/CSU A-G requirements.

Western Association of Schools and Colleges ("WASC")

MSA-Santa Ana is accredited by WASC through June 2024. Currently, the Charter School contributes members to participate on visiting committees. MSA-Santa Ana will follow up and complete all necessary steps for accreditation beyond June 2024.

Informing Parents, Including Parents with Limited English, About Course Transferability and College Entrance Requirements

All A-G courses at MSA-Santa Ana are transferable to other public schools and meet the rigorous requirements for admission to the UC/CSU system. Parents are notified about the transferability of courses and the eligibility of courses to meet college entrance requirements through the Student/Parent Handbook, which is available in both English and Spanish, and through meetings with the Dean of Academics & College Advisor. As noted above, every transfer student participates in an intake meeting which includes a review of his/her transcript and tracking towards graduation. Every exiting student will also receive a transcript to provide him/her with an official record of courses completed and credits earned. In addition, the Charter School's master schedule will be informed by student needs to ensure sufficient intervention opportunities are available for the student population.

TRANSITIONAL KINDERGARTEN

MSA-Santa Ana offers a transitional kindergarten (TK) program for any student whose fifth birthday falls between September 1st and December 1st, with curriculum aligned to the California Preschool Learning Foundations (Foundations) developed by the California Department of Education, (Senate Bill (SB) 858 (Chapter 32, Statutes of 2014)). Students in TK are integrated in Kindergarten classrooms. The TK program thus uses the same curriculum as the kindergarten program, but pacing and instructional delivery will be monitored through data-driven differentiation based on student needs, including slower pacing than the Kindergarten students and incorporation of Foundations curriculum goals. Teachers are trained to employ strong practices in early childhood development like language development, fine and gross motor development, and a foundational background in mathematics, science and social studies.

MSA-Santa Ana will comply with teacher credential requirements for TK classrooms, specifically, teachers assigned to a TK classroom after July 1, 2015, must have been issued at least one credential by the Commission on Teacher Credentialing (CTC), and shall, by August 1, 2020, have one of the following:

- At least 24 units in early childhood education, or childhood development, or both; or
- As determined by the LEA [Charter School] employing the teacher, professional experience in a classroom setting with preschool age children that is comparable to the 24 units of education described above
- A child development permit issued by the CTC.

ACADEMIC CALENDAR AND SCHEDULES

Academic Calendar

MSA-Santa Ana announces its annual calendar before the beginning of each instructional year. MSA-Santa Ana's academic year includes 181 instructional days, with 135 regular days, 34 Monday "early release" days for teacher professional development and collaboration, and 12 Minimum Days for parent/teacher conferences. At a minimum, teachers attend four MPS-wide professional development days during the school year (two in summer and two during the year) and five additional professional development days held at their school site prior to the beginning of the school year for collaborative planning and training.

Following is a detailed calendar for 2018-19, followed by a more summary draft instructional calendar for the 2019-20 school year.

Clubs/Tutoring	3:05 PM	4:00 PM				

INSTRUCTIONAL DAYS AND MINUTES

Based on the sample school calendar and bell schedules above, the following table shows calculation of the instructional minutes that will be offered at the Charter School for the 2018-19 school year. MSA-Santa Ana exceeds required instructional minutes for each grade span (36,000 minimum for Transitional Kindergarten and Kindergarten; 50,400 for grades 1-3; 54,000 for grades 5-8 and 64,800 for grades 9-12).

Grades	Grades Offered	Number of Regular Days	Number of Instr. Minutes Per Regular Day	Number of Early Dismissal Days	Number of Instr. Minutes Per Early Dismissal Day	Number of Minimum Days	Number of Instr. Minutes Per Minimum Day	Number of Alt. Days	Number of Instr. Minutes Per Alt. Day	Total Number of Instr. Days	Minutes Req'd Per State Law	Total Number of Instr. Minutes	Number of Instr. Minutes Above / Below State Req't.

PROFESSIONAL DEVELOPMENT

TEACHER RECRUITMENT

The Principal establishes a hiring committee that may consist of the Principal, Dean of Academics, Dean of Students, Dean of Culture, and a teacher of the relevant grade or subject from MSA-Santa Ana. The Home Office staff joins the school-level hiring committee as needed. If applicable, the interview process includes, but is not limited to, a sample lesson through which prospective teachers' classroom management skills and subject competency are observed. In addition, teachers' technology and computer skills are tested and MSA-Santa Ana's years-of-success in hiring qualified teachers has proven this process to be very effective. The following schedule is used in the hiring process:

- In order to recruit new teachers, the Principal with the support of Human Resources starts advertising on frequently visited websites such as edjoin.org, teachers-teachers.com, MPS Careers website and in local newspapers by the beginning of February. Referrals from MSA-Santa Ana's staff and parents will also be taken into consideration.
- The hiring committee conducts interviews during the months of February through August to hire the teachers. The hiring committee considers the Charter School's mission and the target student population in selecting the most qualified teachers for the positions available. (Detailed job descriptions are included in Element 5.)

PROFESSIONAL DEVELOPMENT

Professional development occurs at the MPS organizational level and within each school. In addition to ongoing professional development activities that support efforts to increase student academic performance, MSA-Santa Ana provides all staff with multiple opportunities to grow professionally. MSA-Santa Ana assesses staff professional development needs through formal and informal performance observation and surveys. Based on these data and combined with the school improvement plan in our Single Plan for Student Achievement, MSA-Santa Ana determines common staff development days, and tailors staff development to individual staff needs.

PROFESSIONAL LEARNING COMMUNITIES ("PLCS")

MSA-Santa Ana is organized into Professional Learning Communities by grade level and by department. PLCs seek to transform a school into a community that fosters mutual cooperation, emotional support, personal growth, and a synergy of effort. Combined with the school improvement plans in our Single Plan for student Achievement, the answers to the following questions are studied in PLCs:

- How do we ensure that students learn?
- How do we foster a culture of collaboration?
- How do we ensure results?

We use PLCs to:

- Clarify intended outcomes
- Develop common assessments
- Jointly analyze student achievement data
- Establish team improvement goals
- Share best practices and materials

- Engage in collective inquiry and action research regarding student learning
- Support system and sense of efficacy
- Promote more engaged, motivated, and successful students with reduced absenteeism
- Focus on students' needs academically and behaviorally

As an implementation of the PLC at MSA-Santa Ana, all staff will read educational literature and make informed recommendations for school and system-wide improvement. The staff will produce an annual reading list recommended by the PLCs. The following literature are required on MSA-Santa Ana's staff reading list: Alan Blankstein, *Failure Is Not an Option: 6 Principles That Advance Student Achievement in Highly Effective Schools*; Dr. Robert Marzano's *Classroom Management That Works: Research-Based Strategies for Every Teacher*; Carol Ann Tomlinson's *How To Differentiate Instruction In Mixed-Ability Classrooms*, and Doug Lemov's *Teach Like A Champion*.

School-wide Meetings and Professional Development Activities

Department Level Staff Meetings

All teachers meet departmentally every month to:

- Share Time: Presentation by a member on an effective classroom strategy
- Vertically align curriculum
- Analyze student achievement data (NWEA MAP, CAASSP/CAA, CAST, ELPAC, online blended learning data, grades)
- Improve instructional strategies per data indicators
- Differentiate instruction
- Plan major departmental events
- Discuss other departmental issues and policies

Department Chairs are responsible for minutes and forwarding action items to the appropriate administrative leaders.

Grade Level Staff Meetings

Grade level teachers meet once a month and collaborate on the issues below:

- Classroom strategies
- Sharing promising practices
- Curricular and academic issues (grading uniformity, homework load, differentiation, and other academic issues)
- Support for students with academic challenges (IEP, 504, RTI, SSR, Accelerated Reader, Accelerated Math, Tutoring)
- Discussion of student academic supports (peer tutoring, mentorships)
- Long-term projects (science fair projects, English & history & math projects)
- Integration/thematic units/horizontal alignment of the curriculum
- Instructional field trips
- Discussions and strategies for students with behavioral problems
- School/grade level wide incentive programs
- Other common grade level and school wide issues

Grade Chairs are responsible for minutes and forwarding action items to the appropriate administrative leaders.

Wrap Up Meetings

MSA-Santa Ana staff participates in end-of-the-year meetings to focus on evaluation of student achievement data, effectiveness of the programs such as testing, curriculum, and intervention programs, counseling, after school, and other school matters. These meetings help staff prepare a professional learning plan for themselves and review what worked well during the school year. These plans and feedback are addressed in the summer in–service program.

Summer In-Service Programs

MSA-Santa Ana holds orientations and trainings for both new and veteran teachers to familiarize them with policies and procedures regarding the Charter School's operations, and the academic and education program goals for the year. A teacher workshop/summer in service program is held in August with two days of intensive training, after which teachers continue their training and collaboration at their school sites and communicate with each other via grade level and subject area email groups.

Peer Observations

MPS believes that every effective teacher is a reflective practitioner who continually evaluates the effects of his or her choices and actions on others (students, parents, and other professionals in the learning community) and who actively seeks out opportunities to grow professionally. Therefore, each teacher is required to make monthly class visits to other teachers' classrooms to observe effective strategies and reflect on his/her observations by using peer observation beneficiary forms. These forms are used to create a professional development plan for individual growth.

Formal Observations/Evaluations

All teachers are observed in the classroom by department chairs and the administrative team (Dean of Academics, Principal and Chief Academic Officer). A rubric guides observation and allows for the development of constructive feedback. MPS' formal teacher evaluation program is comprehensive and includes an evaluation of academic performance of their students. All teachers are evaluated annually. A pre-conference and post conference are scheduled for each of the evaluation.

Walkthroughs

MPS administration/Department Chairs make regular walkthroughs in each teacher's classroom. This quick and informal visit provides teachers immediate and constructive feedback in specific areas to improve instruction and student learning.

Beginning Teacher Support and Assessment Program ("BTSA")

MPS provides new teachers with BTSA, a two-year program that provides beginning teachers with collegial support, guidance, professional development, motivation to continue in the profession, and training. It links college level teacher preparation with classroom application.

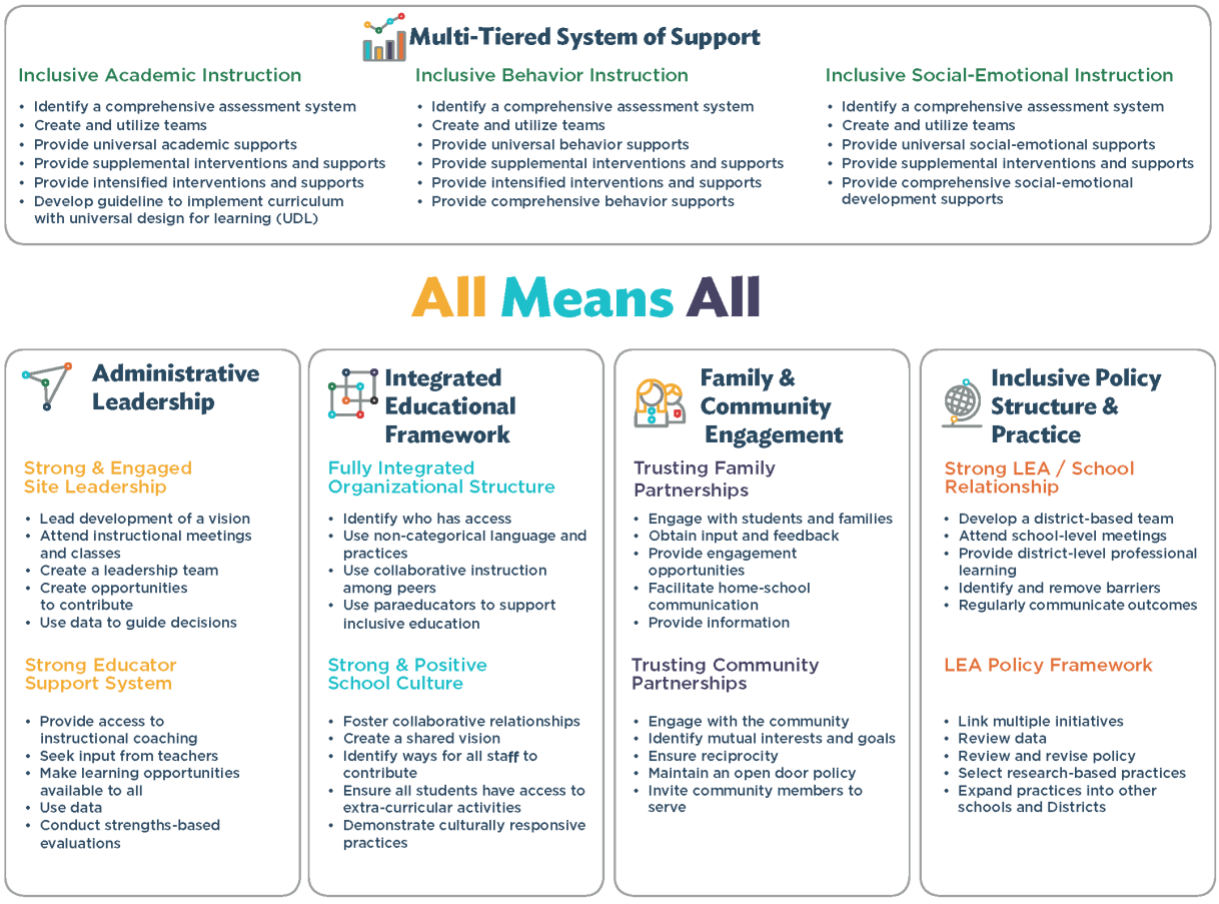
Ongoing Professional Development Program for Special Education

MSA-Santa Ana conducts ongoing in-services for special education. During the August in-service training a specialist trains our entire staff about services and programs related to students with learning disabilities. MSA-Santa Ana's special education teachers train the staff on the IEP documentation and how to implement accommodations and modifications in a general education classroom. Our special education teachers attend workshops and trainings provided by the District/County and attend a resource conference to hear from additional experts in the field of special education. In addition to the August sessions, MSA-Santa Ana conducts quarterly training sessions about special education. Special education teachers and paraprofessionals who are authorized to handle crisis situations and physically

restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute ("CPI"), prior to placement in the classroom.

MEETING THE NEEDS OF ALL STUDENTS

With grants from CA SUMS MTSS Initative, MSA-Santa Ana is moving forward with the Multi-Tiered System of Supports (MTSS) as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. The framework of MTSS utilizes high quality evidence-based instruction, intervention, and assessment practices to ensure that every student receives the appropriate level of support to be successful. A Multi-Tiered System of Supports align with the academic standards and behavioral expectations, in order to accelerate the performance of every student to meet and/or exceed proficiency.



Adapted with permission from: SWIFT Education Center. (2016). *MTSS Placemat*. Lawrence, KS. swiftschools.org

To support students academically, social-emotionally and behaviorally, and create a climate of academic success, MSA-SA recognizes that we must address the needs of the entire child. Often, we focus on punitive and remedial practices, therefore, we may unknowingly reinforce unwanted and antisocial behaviors. MSA-SA implements a positive behavior support program. Program expectations require students to be Safe, Responsible and Respectful. The school tracks behaviors using a point system, to

reward students for demonstrating positive behavior. School site Deans and upper level academic coaches lay a foundation to engage students and enhance learning. With the support of this grant initiative, our school community works together to establish agreed upon norms, build relationships, learn pro-social behaviors, improve academics and demonstrate a culture where adults encourage motivation and knowledge is co-constructed through multi-tiered systems of support.

MSA-Santa Ana has ability to quickly identifying low-achieving students through frequent benchmark assessment and review of individual student data. Students who are achieving substantially below grade level are recognized through multiple measure assessments including in-class assessments, NWEA MAP assessments and other program data through ALEKS, Khan Academy, myON and StudySync.

MSA-Santa Ana utilizes data and progress monitoring to determine best practices to support student achievement. Teachers and student stakeholders are invited to meet with teachers to discuss possible intervention methods, and learn how they can participate in helping with their child's education. Parent-teacher meetings at the school are followed by home visits as needed.

The intervention model that is written into the schedule for the MSA-Santa Ana program is flexible intervention that can be used with a variety of curriculum and varying schedules. MSA-SA's principal approach that a school intentionally builds consistent math and ELA intervention time into the entire school schedule.

Various implementations are used. Implementation strategies may include:

- Intervention block every day or 2-3 times per week (a student may have reading intervention on one day and math on the next)
- Intervention/Enrichment computer tutorials where the teacher can tutor selected students
- Specialist, instructional assistant, and volunteer support during intervention time
- Divide students up by need and send to different teaching team members for support during intervention blocks

During intervention teachers use educational materials that provide review, re-teach and enrichment programs. McGraw Hill's publisher resources, ALEKS, Curriculum Associates' Ready Common Core program, Kuta software, Khan Academy, Accelerated Reader and Accelerated Math program, Achieve3000, and Buckle Down allow teachers to monitor the progress of students who are achieving below grade level and provide software generated tests and personalized instructional materials based on CCSS and areas of growth. MSA-Santa Ana has Teacher Assistants on all levels to support overall achievement.

Tiered intervention implementation is outlined below. Student progress is closely monitored through a well-integrated system of instruction and intervention guided by student assessment data.

Intervention Cycle and Process

As MSA-Santa Ana migrates from a Response to Intervention (RTI) to MTSS model, the intervention process will continue to use the following to inform, monitor, and implement support strategies:

- Historical student data
- Data related to SBAC results and Spring NWEA MAP data from previous year

- NWEA Diagnostic data
- Fall NWEA MAP
- Progress monitoring
- Classroom Assessment Data
- SBAC Interim Data
- SBAC Interim Block Assessment
- SBAC Interim Comprehensive Assessment
- Spring MAP
- Winter MAP (optional)

High- quality instruction, progress monitoring, differentiated learning, group interventions, classroom accommodations

Across MSA-Santa Ana, support and intervention begins with high quality instruction and universal screening of all children within the general education setting. Through the use of formative assessments such as the MAP test, schools establish a baseline to identify students who need additional support and struggling learners are provided classroom accommodations and differentiated instruction to meet their needs. Academic supports include technology-rich instruction, progress monitoring, differentiated learning, group interventions and classroom accommodations. Using strategies and tools such as adaptive programs, NWEA MAP universal screening, Integrated and Designated ELD, Explicit Direct Instruction, and Culturally Responsive Teaching. Behavioral and socio-emotional supports are centered around School-Wide PBIS, led by Deans of Student. With clear expectations taught through a Life Skills course and etiquette program students earn rewards for desired behaviors. Assemblies, student surveys and our SSPT process encourage student participation and voice.

As the first stage of intervention/support student may receive the following supports:

- Adaptive programming in McGraw Hill's ALEKS and StudySync
- Khan Academy
- BrainPOP ESL
- Discovery Education
- myON
- National Geographic
- 1:1 devices
- Advisory/SSR

The length of time with these interventions may vary, but generally do not exceed 8 weeks. During that time, the school will continue to evaluate student progress based on interim data such as Smarter Balanced Interim Block Exams, Comprehensive exams, and classroom assessments. At the end of this period, students showing significant progress are exited from interventions, while those needing more intensive supports are provided new, targeted interventions. A student success team is gathered to determine intensive support.

Targeted Interventions

Targeted interventions are utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. The school uses co-teaching strategies, and "Power" classes for mathematics and ELA intervention. Additionally, students with targeted needs receive

tutoring, Saturday and Summer school instruction is available universally. When students are identified as needing additional support, restorative practices are utilized such as peer mediation, new-comer and behavior management support groups, community restoration assignments, goal setting and monitoring and Edge Coaching.

Students not making adequate progress are matched with more intensive academic and/or behavioral support based on their needs. These services are provided by general education teachers, math and literacy coaches, and special education teachers. In small groups and within the general classroom setting, students may access:

- Power Classes (Math and English)
- Co-taught classes
- Push-in support
- Before and after school tutoring
- SSR/Advisory (see Course Description above)

Pull out supports are utilized to support students who require additional academic support. The learning lab will be used with the commencement of the 2018-19 school year.

Students receiving targeted interventions may require a longer period of monitoring, however, it does not typically exceed a semester. Students who do not demonstrate progress are moved into a more intensive stage of intervention.

Intensive Interventions and Evaluation

Our schools have both push-in and pull-out services with specialists to ensure students with the most significant needs are properly supported. Using of our Special Academic Instruction program, instructional aides, learning centers, and Saturday school we are able to help our most struggling learners close the achievement gap. Support for our exceptional learners include search and serve to meet their needs and an accelerated math pathway. Supports for behavior and socio-emotional are centered around restorative practices. Utilizing reflection committees, we determine the proper intervention for individual students. Using trauma-informed practices and socio-emotional wellness, these strategies and programs address the needs of all scholars including the most vulnerable, academically and emotionally unresponsive students.

Students may receive individualized, intensive interventions that target specific skill deficiencies that include:

- All interventions listed above
- Push-in and Pull-out support: Education Specialists, Intervention Teachers, and Literacy Coaches provide push- in and pull- out support in core classes. Support providers assist teachers in creating accommodations and differentiated learning experiences so that all students may access class materials. If it is deemed that students would benefit from further individualized support, they are pulled out for more intensive instruction.
- Study Skills classes: Study Skills courses are taught by Education Specialists as an elective course for students in need of additional support in note taking, organization, exam preparation, assignment completion, and time management.
- Instructional aides in the classroom: Instructional Aides support teachers with instruction by

working individually with students, assisting in stations, clarifying instructions, and reteaching. IA's also provide behavioral support and reinforce the school's Positive Behavior Interventions and Support ("PBIS").

- Saturday School: Students assigned to Saturday School work with teachers on foundational skills related to their coursework.
- Learning Center: The Learning Center or Resource Classroom is designated as a space for both Special Education and General Education students to receive academic support from Education Specialists and Instructional Coaches. Students can complete assignments, test in small settings, use computers, and work with their peers on group assignments.

If the Student Success Team believes further intervention is necessary, then the student may be referred to special education or 504 services.

While students may access a variety of academic supports before and after school including tutoring, Saturday school, and teacher coaching, the majority of interventions are given throughout the school day to ensure that students receive the full benefits of their individualized instruction. Services in the learning center, push-in and pull-out assistance, instructional aides, and study skills classes are all provided to students during the school day.

Equitable Access to the Curriculum
MSA-Santa Ana utilizes an instructional program that emphasizes equitable access to the curriculum for all learners, including students with disabilities. These include:

Co-Teaching/Push-in/Pull-out Support- MSA-Santa Ana supports its exceptional populations by utilizing multiple methods of providing special education services. MSA-Santa Ana fosters an inclusive model of education. As such, professional development in the area of co-teaching allows teachers to grow their ability to educate and service students of varying abilities. In order to effectively implement a co-teaching model, special education and general education teachers are given time to co-plan and develop lessons so that students are provided appropriate supports and accommodations. Students who require additional assistance, receive services in a push-in or pull-out model where they receive more individualized attention.

Additionally, the digital formatting of our McGraw Hill curriculum allows teachers to collaborate on unit and lesson plans to ensure that all students' accommodations and needs are being addressed. This system is setup such that all students attend every class. The Special Education teacher and various paraprofessionals provide instructional support within the general education setting. This allows for all student groups to be supported while participating in the least restrictive environment throughout the day.

Embedded Supports- In addition to the on-site staff coordinated by the Special Education and/or RTI Coordinator, MSA-Santa Ana contracts with an outside service provider to support children's learning needs, such as intervention specialists, speech and language therapists, and occupational therapists who work with teachers to provide the least restrictive and most accessible learning environment. Special education aides work directly in the classroom, providing customized support to students throughout the day, and are valuable members of the team.

Differentiated Instruction- Teachers at MSA-Santa Ana deliver a curriculum that is tailored to each student's interests and needs. This support includes accommodations, use of technology, and data-informed decisions, such as utilizing Lexile reading scores and bringing technology into the classroom.

ENGLISH LEARNERS

MSA-Santa Ana will comply with all federal and state mandates regarding English Learner education and re-designation of EL students. MSA-Santa Ana will meet all requirements of federal and state law regarding equal access to the curriculum for EL students. MSA-Santa Ana will ensure English Learners (including those who are reclassified) have equal access to instructional materials and supports in order to achieve grade-level CCSS mastery and English-language proficiency.

MSA-Santa Ana endeavors to meet and exceed the needs of all learners, and is committed to closing the achievement gap that may affect those students who are not fully proficient in English. We hope to accomplish this by facilitating the acquisition and mastery of the English language as quickly as possible, while providing English Learners (ELs) with access to the core content through specialized and targeted instruction, a research-based and state-approved curriculum, and carefully differentiated instructional strategies. MSA-Santa Ana also promotes an equitable educational experience for our ELs and their families by providing supplemental counseling services, additional tutoring and literacy services, bilingual support, access to technology, and focused workshops where available and as needed.

MSA-Santa Ana provides students with a vigorous English Language Development (ELD) program that is based on recent language acquisition research (<10 years), as well as the six key principles for teaching ELs established by the *Understanding Language District Engagement Subcommittee* at Stanford University. These principles and research are the foundation of our program and guide our professional development. They are outlined as follows:

Source	Year	Summary
The Understanding Language District Engagement Subcommittee at Stanford University	*2012*	1. *Instruction focuses on providing ELs with opportunities to engage in discipline-specific practices, which are designed to build conceptual understanding and language competence in tandem.* 2. *Instruction leverages ELs' home language(s), cultural assets, and prior knowledge.* 3. *Standards-aligned instruction for ELs is rigorous, grade-level appropriate, and provides deliberate and appropriate scaffolds.* 4. *Instruction moves ELs forward by taking into account their English proficiency levels and prior schooling experiences.* 5. *Instruction fosters ELs' autonomy by equipping them with the strategies necessary to comprehend and use language in a variety of academic settings.*

		6. *Diagnostic tools and formative assessment practices are employed to measure students' content knowledge, academic language competence, and participation in disciplinary practices.*
Research to Guide English Language Development Instruction by Saunders & Goldenberg	*2010*	1. *Providing ELD instruction is better than not providing it.* 2. *ELD instruction should include interactive activities, but they must be carefully planned and carried out.* 3. *A separate block of time should be devoted daily to ELD instruction.* 4. *ELD instruction should emphasize listening and speaking although it can incorporate reading and writing.* 5. *ELD instruction should explicitly teach elements of English (for example, vocabulary, syntax, grammar, functions, and conventions).* 6. *ELD instruction should integrate meaning and communication to support explicit teaching of language.* 7. *ELD instruction should provide students with corrective feedback and form.* 8. *Use of English should be maximized during ELD instruction; the primary language should be used strategically.* 9. *Teachers should attend to communication and language learning strategies and incorporate them into ELD instruction.* 10. *ELD instruction should emphasize academic language as well as conversational language.* 11. *ELD instruction should continue until students reach Level 5.*
Reparable Harm: Fulfilling the Unkept Promise of Educational Opportunity for California's Long Term English Learners	*2010*	*Basic design principles for providing LTELs with equitable access to the core curriculum and improving proficiency outcomes:* • *An LTEL program must emphasize urgency, acceleration, and focus.* • *School must address the distinct needs of LTELs.* • *LTELs need both language development and literacy development.* • *Language development and academic gaps must be addressed across the curriculum.* • *An LTEL program should support home language development.*

		• *LTELs need a rigorous curriculum.* • *LTELs need invitation, support, and insistence that they become active participants in their own education.* • *An LTEL program should recognize the importance of positive relationships between the students and school staff.* • *An LTEL program should encourage full integration with other students and with the school.*

MSA-Santa Ana follows all federal and state laws in providing equal educational opportunities for ELs. MSA-Santa Ana implements the MPS-wide English Learner Master Plan that outlines the following components of a strong program:

A. Identification of English Learners
B. Assessment of English Learners
C. Parent Notification
D. Placement of English Learners
E. Newcomers and Long-Term English Learners
F. Monitoring English Learner Progress
G. Reclassification of English Learners
H. Staff Qualifications and Professional Development
I. Evaluating Program Effectiveness

A. Identification of English Learners

When a student enrolls at MSA-Santa Ana, the school will request information regarding the primary language spoken at home through a Home Language Survey (HLS), as mandated by state and federal law. The purpose of the HLS is to determine if a language other than English is used in the student's home. Before completing this survey, parents will receive an explanation of its purpose, and be informed of the possibility that their child may be given an assessment to measure their English Language Proficiency (ELP). The student's cumulative file and CALPADS records will also be checked by office staff to determine the student's ELP status.

The HLS is made up of the following four questions:

1. What language did your child learn when he or she first began to talk?
2. What language does your child most frequently use at home?
3. What language do you (parent/guardian) most frequently use when speaking with your child?
4. Which language is most often spoken by the adults in the home?

The SBE's approved guidelines for the HLS responses are as follows:

- If the answer to all four questions is "English" then the child is classified as "English Only" (EO) and will not be assessed for language proficiency.
- If the answer to any of the first three questions is a language other than English, then the student will be given an English language proficiency exam.

- If the answer to the fourth question is a language other than English, the student may be tested for ELP at the school's discretion.

Parent rights regarding the HLS are as follows:

- The parent may amend the HLS anytime. If the amendment is made before the student has taken the initial English Language Proficiency Assessments for California (ELPAC), the student's classification will be adjusted to reflect the amendment. However, if the student has already taken the ELPAC, then the amendment will not affect the student's classification subsequently determined by the results of the ELPAC. An initial student who takes the ELPAC for ELP is classified as "To Be Determined" (TBD) until the official results are received.

The first HLS on file for a student supersedes all HLS forms completed at a later time. The answers on this initial HLS must be documented in the Student Information System (SIS). If the school has a reasonable doubt of a student's ELP, then that student may be tested to establish and provide evidence of proficiency. In these cases, a certificated staff member must document the reasons for ELPAC administration on the HLS. This annotation must be signed and dated by the school principal. Parents will then be informed by a certificated staff member of the student's assessment results and program placement.

B. Assessment of English Learners

Initial Assessment ("IA"): Students whose ELP is "To Be Determined" according to their HLS (and with no other documentation of their English language designation available) will be tested in the Fall using the ELPAC.

The ELPAC IA is used to identify students as either an English Learner, or as fluent in English. The IA is administered only once during a student's time in the California public school system based upon the results of the home language survey. The locally scored IA will be the official score. The IA is given to students in grades K–12 whose primary language is not English to determine their English proficiency status.

Based on the initial student's performance on the ELPAC, he/she may be classified as an EL or an Initial Fluent English Proficient ("IFEP") student. If a student is classified as an IFEP student, he/she will not be eligible to receive EL services, and will receive instruction in a program designed for fluent English speakers. If a student is classified as an EL, he/she will receive both integrated and designated English Language Development. An EL student must also be assessed annually (with the ELPAC) until he/she meets the reclassification criteria established by MSA-Santa Ana according to state law.

Assessment of Annual Students: Students who are classified as ELs will be tested annually using the ELPAC Summative Assessment ("SA"). This ELP test will be administered during the Spring test administration window. At this time, MSA-Santa Ana is waiting for a recommendation from the CDE regarding reclassification threshold scores. In the interim, these scores are locally determined and outlined in Section G.

Assessment of Students with an IEP/504 Plan: EL students on an IEP or Section 504 plan will be assessed using the accommodations, modifications, or alternative assessments for the current ELP exam as specified in their plan.

C. Parent Notification

Parents of students who are administered the initial and annual ELPAC will receive notification of the following, within 30 calendar days of test administration:

- A description of initial or annual ELP levels, and how they are determined
- Current language classification
- Program placement
- Instructional Program Options
- Reclassification Criteria
- For ELs with an IEP: A description of how the program placement will contribute to meeting the objectives of the IEP
- Graduation Rate for ELs

All parent notification letters are certified by office staff and school leaders. This includes a list of notification recipients attached to each certification. Copies of notification letters are filed in each student's cumulative folder and the certification is filed in the Title III/EL Compliance folder maintained by the MSA-Santa Ana EL Coordinator.

Prior to English proficiency testing, parents will also be informed of when their child will be tested, and how the test will be used to determine placement and reclassification.

Parents of ELs are always given the option to meet with a school administrator if they have questions regarding their child's assessment results, placement, or classification.

D. Placement of English Learners - Structured English Immersion Program

All MSA-Santa Ana EL students participate in a Structured English Immersion (SEI) program. The U.S. Department of Education describes the goal of this program as "acquisition of English language skills so that the EL student can succeed in an English-only mainstream classroom. All instruction in an immersion strategy program is in English." Within this SEI program, ELs are provided with daily designated and integrated English Language Development. Integrated ELD is provided to all ELs across all disciplines utilizing the frameworks and strategies outlined below. Designated ELD is also provided to all ELs, however instructional placement and support vary according to the students' ELD level. All curriculum used within the SEI program has ELD components/resources that facilitate language acquisition. Additionally, Newcomers and Long-Term English Learners receive supplemental services in the program as outlined below.

Designated English Language Development: Designated ELD is defined by the California ELD Framework as "a protected time during the regular school day when teachers use the CA ELD Standards as the focal standards in ways that build into and from content instruction in order to develop critical English language skills, knowledge, and abilities needed for content learning in English." The following tables outline how designated ELD is delivered to EL students depending on their grade and ELD level.

Elementary Designated ELD: MSA-Santa Ana provides EL students in elementary grades with a minimum 30-minute block of designated English Language Development. Additionally, EL students are placed in in a supplemental class during the Sustained Silent Reading (SSR) period to provide additional, targeted support.

Eligible Students	***Program Description***
All ELD Levels (1-4)	• Elementary EL students receive a minimum of 30 minutes of designated ELD instruction in a protected block of time during the school day. • This setting is designed to ensure that ELs receive appropriate supports to build their proficiency and also meet grade level standards across all content areas. • Teacher differentiates language instruction based on ELD levels. • Schools may provide this type of ELD through push-in or pull-out support, rotation stations, or coordinated groupings managed by the teacher and supported by a teacher's aide. • Primary curriculum used is the designated component of McGraw Hill's Wonders, used in conjunction with supplemental programs such as DuoLingo and BrainPOP ESL.

Secondary Designated ELD: Depending on the EL student's ELD level, he/she will be placed in either a designated ELD class, or will receive designated ELD in his/her core classes. The following program description is the minimum we provide at MSA-Santa Ana. Depending on the student's ELD level we provide additional support to our English Learners, as long as it does not interfere with the student's overall academic enrichment, or require additional work and/or time (for example, a mandatory tutoring session outside of regular school hours).

Middle School - Grades 6-8	
Eligible Students	***Program Description***
ELD Levels 1-2 *ELs with "minimally" or "somewhat developed" proficiency in English*	• EL students who are ELD Levels 1-2 receive one period of designated ELD. • This setting is designed to ensure that ELs receive appropriate supports to build their proficiency and also meet grade level standards across all content areas. • Teacher differentiates language instruction based on ELD levels and proficiency descriptors. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as DuoLingo, No Red Ink, and Edge.
ELD Levels 3-4 *ELs with "moderately" or "well developed" proficiency in English*	• EL students who are ELD Levels 3-4 receive designated ELD in their core classes, designed to focus on specific domains. The amount of time provided will vary depending on the curriculum and unit being taught.

	• This setting is designed to ensure that ELs continue to progress towards proficiency, continue to meet grade level content standards, and reclassify in a timely manner. • Teacher differentiates language instruction based on ELD levels and proficiency descriptors. • Core teachers work with the site-level EL coordinator and Dean of Academics to determine which domains each student should focus on in order to reclassify. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as No Red Ink, and Kate Kinsella's Academic Vocabulary Toolkit.

High School - Grades 9-12	
Eligible Students	***Program Description***
ELD Levels 1-2 *ELs with "minimally" or "somewhat developed" proficiency in English*	• EL students who are ELD Levels 1-2 receive one period of designated ELD during the school's Advisory or Study Skills class. This ELD class will not interfere with a student's A-G requirements. • This setting is designed to ensure that ELs receive appropriate supports to build their proficiency and also meet grade level standards across all content areas. • Teacher differentiates language instruction based on ELD levels. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as DuoLingo, No Red Ink, and Edge.
ELD Levels 3-4 *ELs with "moderately" or "well developed" proficiency in English*	• EL students who are ELD Levels 3-4 receive designated ELD in their core classes, designed to focus on specific domains. The amount of time provided will vary depending on the curriculum and unit being taught. • This setting is designed to ensure that ELs continue to progress towards proficiency, continue to meet grade level content standards, and reclassify in a timely manner. • Teacher differentiates language instruction based on ELD levels. • Core teachers work with the site-level EL coordinator and dean of academics to determine which domains each student should focus on in order to reclassify. • Primary curriculum used is the designated component of McGraw Hill's ELA and Math curriculum, used in conjunction with supplemental programs such as DuoLingo, No Red Ink, and Edge.

Integrated English Language Development:
Integrated ELD is defined by the California ELD Framework as "ELD instruction provided throughout the day and across the disciplines. Teachers with English Learners use the ELD standards in addition to their focal English language arts/literacy and other content standards to support the linguistic and academic progress of English Learners."

At MSA-Santa Ana, teachers use SDAIE strategies (Specially Designed Academic Instruction in English), and the CHATS framework (see explanation of acronym below), to support integrated ELD across all content areas. Teachers are provided with professional development on how to provide integrated ELD to their students, how to apply the CA ELD standards, and how to use SDAIE strategies and the CHATS framework. This training is ongoing and provided by both MPS staff and third-party vendors. Additionally, MSA-Santa Ana EL Coordinator provides regular training to teachers of ELs, which includes showcasing specific strategies for differentiating and integrating ELD into the content area classroom.

About the CHATS Framework: Teachers will receive training on a research-based, field-tested framework for supporting EL growth in content and language. This framework was developed by Dr. Persida Himmele and Dr. William Himmele, two educators who have extensive and successful experience with ELs. Their framework is carefully broken down in the book *The Language Rich Classroom* and is "meant to empower teachers who haven't been formally trained in ESL with planning tools that make content comprehensible to their English language learners," while "providing ELs with opportunities to build up their academic language" in the content classroom. All MSA-Santa Ana teachers have access to this book and are consistently trained to use CHATS strategies. Although CHATS was developed for ELs, it is beneficial to all learners. The framework is made up of components that are broken up into five areas around the acronym:

- C – Content Reading Strategies
- H – Higher Order Thinking Skills
- A – Assessment
- T – Total Participation Techniques
- S – Scaffolding Strategies

This framework is designed to work in mixed, multilingual classrooms and the book provides resources and examples of how teachers can use each component in their planning.

E. Newcomers and Long-Term English Learners

Newcomers: A newcomer is defined as a child or youth (ages 3-21) who was not born in any state and has not attended school in any state for more than three full academic years. At MSA-Santa Ana, newcomers are identified upon enrollment in our Student Information System, and are carefully monitored by school leaders, coordinators, and teachers. Depending on the student's English language proficiency, he/she may be placed in a designated ELD class, where he/she will have an opportunity to build on foundational English language skills, as well as practice vocabulary and key concepts learned in his/her core classes. In addition to using the designated component of the McGraw Hill curriculum, a newcomer student will have access to language learning programs such as DuoLingo and Rosetta Stone, as well as BrainPOP ESL, No Red Ink, and NewsELA. When possible, MSA-Santa Ana will strive to obtain tutors that speak the student's native language to help build on prior knowledge, and provide additional clarification and support. Newcomers at MSA-Santa Ana will have access to additional academic support through optional morning and after-school tutoring, Saturday school, and summer school.

Newcomers are expected to make progress in their ELP of one level per year at MSA-Santa Ana. Newcomers are carefully monitored for growth by the MSA-Santa Ana EL Coordinator. Newcomers are assessed at the beginning of the school year for ELP and also for proficiency in their native language via a writing sample and through interview questions. If it is determined that additional academic or instructional support is needed, the site-level EL Coordinator will work with school leaders and the MPS Coordinator to determine which programs, curriculum, or supports may be needed.

Newcomer students also receive targeted social-emotional support at MSA-Santa Ana. Newcomer students and their parents are provided with a more personalized orientation (in their native language if possible) regarding school routines, school attendance, school schedule, the role of school personnel, uniform policy, using the library, emergency drills, and other topics determined by MSA-Santa Ana staff. Some other social-emotional supports that are provided to newcomers at MSA-Santa Ana are: class cohorts and linguistic partners(being paired up with a peer that speaks their language when possible) for in-class support and clarification, a safe space for the student to recess and eat lunch (for example, a classroom, the office, etc. if the student feels overwhelmed or stressed), frequent check-ins from teachers and school leaders to ensure that the student is adjusting and feels comfortable in his/her new environment, immediate response by school staff to bullying or discrimination, informal support activities that provide newcomer students with opportunities to speak informally in his/her native language, and encouraging newcomer students to participate in after-school clubs and sports. Newcomer families will also be invited to attend our Parent College Program, and will be provided with resources for helping their child improve literacy at home in their native language.

Long-Term English Learners: A Long-Term English Learner (LTEL) is defined as an EL student who has been enrolled in a U.S. school for more than six years yet has not been reclassified. MSA-Santa Ana is committed to providing these students with the support that they need to reclassify by thoroughly assessing their academic data and providing structured and targeted ELD instruction based on their needs and areas of growth.

All LTELs at MSA-Santa Ana are placed in rigorous courses designed to meet their college readiness requirements. They receive grade-level instruction that is taught using differentiated strategies and are placed with English proficient students in core and elective courses.

At the beginning of the school year, MSA-Santa Ana school leaders and EL coordinator will determine who their LTEL students are and mark them in the student information system. They will review redesignation data and determine what has prevented the student from reclassifying (MAP score, ELP exam score, ELA grade, etc.). Domains of growth will be noted in their ELD portfolios. This information is then shared with teachers and a plan of action is created to facilitate each student's growth and proficiency. If the student has an IEP, language goals and objectives will be carefully reviewed and incorporated into the plan.

LTELs (who are Levels 3 and 4; Levels 1 and 2 are enrolled in a separate designated ELD class) enrolled in middle school will be placed in a specialized "Power English" course for one semester (may be provided in a pull-out model). This class does not replace designated or integrated ELD. This class will provide an additional focus on oral and academic language development and English literacy. It will also provide students with an opportunity to practice skills in preparation for the ELPAC. At the end of the semester, each student's progress will be assessed (ELA grades, summative assessments, MAP scores, and writing samples) to see if adjustments or additional supports are needed.

LTELs enrolled in high school will receive ongoing, individualized support from the site-level EL Coordinator. Data will be reviewed and the student will work with the coordinator to create a plan of action and next steps, in order to facilitate and expedite their reclassification. If the student also has an IEP, the on-site special education professional will work with the coordinator to review language and ELD goals, and determine appropriate instructional modifications and supports.

In addition to the above-mentioned supports, MSA-Santa Ana will focus on the following universal strategies for improving academic outcomes for LTEL students:

- Ensure that students understand the reclassification process and are provided with counseling about their individual data.
- Provide additional tutoring to help students understand their assignments, clarify notes, review concepts taught in class, and prepare for tests.
- Emphasize a school-wide focus on study skills and academic vocabulary (for example, universal note-taking strategies, Word of the Week, etc.).
- Provide frequent "check-ins" with students to ensure that they do not have questions or concerns.
- Incorporate relevant texts that affirm and allow students to make connections to their diverse cultures.
- Encourage participation in school clubs, sports, and events.
- Ensure that students have a safe space to relax, study, and speak with caring adults.

Pathways for Newcomers and LTELs will be evaluated by the MSA-Santa Ana EL Coordinator every semester to determine whether or not adjustments need to be made and to ensure that both groups are making adequate progress.

F. Monitoring English Learner Progress

English Learners at MSA-Santa Ana are monitored through ELD portfolios, which are maintained by the classroom teacher and monitored monthly by the EL Coordinator. ELD portfolios will contain the following documents:

- Copy of the most recent ELP exam scores
- Copy of the most recent MAP & SBAC scores
- Record of the most recent semester grade in ELA, and any notes/observations from the teacher
- Interim assessment scores
- Progress Monitoring Chart
- Writing work samples (for example, copies of reports, essays, journals, etc.)
- “My Road to Reclassification” document (allows students to independently track their progress)
- Action plans and goals

Supplemental templates and monitoring documents are available to all Charter School coordinators in a shared secure, password protected, online folder. Additional monitoring forms and evidence may be added as needed to improve monitoring and outcomes.

Schedule for progress monitoring:

Weekly/Bi-weekly	***Monthly***	***Annually***
• Core teachers review current class grades and notify parents of ELs if their child is failing. • School staff reviews and discusses relevant student data (during staff meetings, department meetings, etc.)	• Portfolio maintenance: Relevant scores, assessments, and work samples are collected and updated in each EL student's ELD portfolio. • Teachers and EL coordinator notify parents of EL students who are not making adequate progress towards proficiency.	• January/February: Data for reclassified students is reviewed and updated in a spreadsheet maintained by the dean of academics and EL coordinator.

G. Reclassification of English Learners

MSA-Santa Ana uses the four criteria in state law as guidelines in determining whether or not an English Learner should be reclassified as fluent English proficient: English language proficiency assessment, comparison of performance in basic skills, teacher evaluation, and input from parents. All reclassification criteria must be met and maintained within the current academic year. The established criteria for reclassification are as follows:

<table>
<tr><th></th><th>Grades K-5</th><th>Grades 6-12</th></tr>
<tr><td>English Language Proficiency Assessment</td><td colspan="2">ELPAC: Overall score of 4 with a minimum score of 3 in each domain.

**Official threshold scores are forthcoming from the CDE. The MPS EL Master Plan will reflect the new recommendations as soon as they are available.</td></tr>
<tr><td>Basic Skills Assessment</td><td colspan="2">NWEA Map: Performance level of Basic on the MAP reading test with a minimum Fall, Winter, or Spring score of:</td></tr>
<tr><td></td><td>
<table>
<tr><th></th><th>Fall</th><th>Winter</th><th>Spring</th></tr>
<tr><td>Gr. 1</td><td>167</td><td>170</td><td>173</td></tr>
<tr><td>Gr. 2</td><td>173</td><td>176</td><td>179</td></tr>
<tr><td>Gr. 3</td><td>179</td><td>187</td><td>191</td></tr>
<tr><td>Gr. 4</td><td>191</td><td>197</td><td>200</td></tr>
<tr><td>Gr. 5</td><td>197</td><td>202</td><td>204</td></tr>
</table>
</td><td>
<table>
<tr><th></th><th>Fall</th><th>Winter</th><th>Spring</th></tr>
<tr><td>Gr. 6</td><td>200</td><td>204</td><td>206</td></tr>
<tr><td>Gr. 7</td><td>205</td><td>208</td><td>210</td></tr>
<tr><td>Gr. 8</td><td>208</td><td>211</td><td>212</td></tr>
<tr><td>Gr. 9</td><td>211</td><td>213</td><td>215</td></tr>
<tr><td>Gr. 10</td><td>214</td><td>216</td><td>218</td></tr>
</table>
</td></tr>
</table>

<table>
<tr><td rowspan="3"></td><td><table>
<tr><td>Gr. 11</td><td>217</td><td>219</td><td>221</td></tr>
<tr><td>Gr. 12</td><td>220</td><td>222</td><td>224</td></tr>
</table></td></tr>
<tr><td>~OR~</td></tr>
<tr><td>C: ELA/Literacy score of 2 (Nearly Met) or above</td></tr>
<tr><td>Teacher Evaluation</td><td>Student achieves a grade of C (70%) or above in English Language Arts (ELA). Applicable ELA grades considered are the Semester 1 final grade and current semester grade at the time of reclassification.</td></tr>
<tr><td>Parent Consultation</td><td>Parent/Guardian agrees with the recommendation to reclassify. Each school will send home a notification informing parents of their child’s eligibility to reclassify. If a parent contests reclassification, they will have 14 days to respond to the school using a form provided by the school site.

The date of this letter will be the official date of reclassification used for the SELA report and CALPADS reporting.</td></tr>
</table>

Reclassified students are monitored for a period of four years by our EL Coordinator. This is done to ensure that they have not been re-designated too early, and that they are successfully participating in the academic program without incurring deficits. Deans and EL coordinator monitor reclassified students’ academic progress annually by reviewing benchmark scores, MAP and SBAC scores, and ELA grades. Follow-up services for students who do not demonstrate satisfactory progress include, but are not limited to: additional tutoring, counseling, and enrichment classes. The MPS EL Coordinator will follow up with MSA-Santa Ana to ensure that monitoring is taking place, and will assist the school with action planning for those students who are not making adequate progress.

H. Staff Qualifications and Professional Development Plan

The teachers and staff at MSA-Santa Ana understand that all stakeholders need to work collaboratively to help improve learning outcomes and academic achievement for ELs. They also understand that ELs need access to challenging academic content through appropriately differentiated and scaffolded instruction. In order to facilitate rigorous ELD instruction, the following staff qualifications and plans for professional development are in place at MSA-Santa Ana:

Staff Qualifications: All MSA-Santa Ana teachers providing academic instruction to EL students will hold a CLAD/BCLAD credential or other approvable CCTC certification authorizing them to teach English Language Learners. Outlined below are the duties of teachers, MSA-Santa Ana EL Coordinator, and the MPS EL Coordinator.

MSA-Santa Ana teachers:

- Consistently implement with fidelity the ELD program and curriculum as outlined in the English Learner Master Plan.

- Provide daily integrated ELD instruction during core classes, aligned with the state ELD standards and using research-based strategies to ensure students are able to access grade level instruction and do not incur academic deficits.
- Provide daily designated ELD instruction during a protected block of time during the school day, aligned with the state ELD standards and using research-based strategies to ensure students are able to access grade level instruction and do not incur academic deficits.
- Attend all professional development and professional learning community sessions.
- Consistently monitor student progress on a weekly basis to ensure that EL students are making adequate progress towards proficiency and follow appropriate protocol if a student is falling behind.
- Maintain contact with the students' families and keep them updated on their child's progress.
- Work collaboratively with other staff members to encourage ELs and ensure that they have the tools and resources needed to be successful.

MSA-Santa Ana ELD Teachers do all of the above and:

- Consistently implement with fidelity the ELD program and curriculum as outlined in the English Learner Master Plan.
- Provide a safe, enriching learning environment for ELs, with ample opportunities to practice language acquisition.
- Use the prescribed, standards-based, state-approved curriculum to instruct ELs.
- Differentiate instruction based on ELD level and grade level.
- Provide opportunities for ELs to practice all four domains in each class period.
- Utilize supplemental resources to provide additional support.
- Create structured and predictable classroom routines.
- Create weekly lesson plans aligned to the ELD standards.

MSA-Santa Ana EL Coordinator's responsibilities include:

- Conduct classroom observations on a weekly basis to ensure integrated and designated ELD is occurring in all classrooms with ELs.
- Present an ELD strategy to teachers during weekly staff meetings.
- Monitor the creation and maintenance of an ELD portfolio for each EL student to monitor and showcase progress.
- Regularly communicate with staff regarding the progress of ELs.
- Communicate on a regular basis with the MPS EL Coordinator and implement all updates and compliance requests in a timely manner.
- Participate in monthly meetings with school leadership regarding the needs of ELs (for example, plan strategies for professional development, provide insight from classroom observations, discuss data, and recommend resources).
- Attend professional development relevant to ELs and share strategies and resources with teachers.

The MPS EL Coordinator's responsibilities include:

- Maintain, evaluate, and improve the EL Master Plan and EL Program based on the observations, data, and feedback from each member school.
- Provide coaching, and professional development to all teachers of English learners (for example, provide integrated and designated ELD support, teacher training, coaching on effective ELD strategies, and model push-in support).

- Conduct lesson demonstrations and classroom observations/walk-throughs in order to help improve instruction delivered to ELs.
- Help teachers monitor the progress of ELs and reclassified students, and create appropriate interventions and action plans as needed.
- Assist site-level coordinators and staff with the development of action plans and appropriate supports for Long Term English Learners and Newcomers.
- Lead and train EL Coordinators at each school site, including facilitate team meetings as well as coordinate the EL program strategic planning process.
- Oversee the adoption and implementation of the ELD curriculum.
- Oversee the Title III improvement plan, and any other Title III requirements.
- Attend EL-related professional development and share resources with teachers and school leaders.

Although the EL Coordinator's primary duty will be to provide the supplemental services outlined above, the EL Coordinator will also work with the Chief Academic Officer, on-site EL Coordinators, and Office Managers to support schools with accountability. Some examples of how the MPS consortium will hold MSA-Santa Ana accountable are:

- Create Title III folders for MSA-Santa Ana with a calendar of notifications, procedures for notifying parents of ELs, certifications for notices mailed, attendance sheets for PD and parent meetings/workshops, etc. The MPS EL Coordinator will work with MSA-Santa Ana school leadership and the EL Coordinator to ensure that folders are maintained and updated.
- The MPS executive office manager will ensure and certify the timely submission of all CALPADS data pertaining to ELs.
- MSA-Santa Ana school leadership will certify the timely submission of all Title III notifications mailed to parents of ELs.
- MPS EL Coordinator will conduct regular classroom walk-throughs to ensure program fidelity.
- MPS EL Coordinator will support teachers with progress monitoring of ELs and provide a framework for progress monitoring.

Professional Development Plan: Professional development for teachers of English Learners will be extensive and ongoing at MSA-Santa Ana. Professional development specific to ELs will endeavor to improve ELD instruction, facilitate the ability of teachers and school leaders to successfully implement the EL program, and help improve English language proficiency and subject matter knowledge of ELs. Effective professional development will include:

- ELD workshops for teachers at the MPS Summer In-Service.
- Overview of the EL Master Plan, including program placement, progress monitoring, and reclassification, presented to all MPS schools.
- Sessions dedicated to English Language Development (ELD) training for teachers at each MPS Teacher Symposium (Winter and Spring).
- ELD training and shared best practices at least once per month at the school-site level staff meetings.
- All core teachers will attend at least one third-party ELD training per year (this may be done off or on site...for example, attend a workshop offered by the county office, or hire a consultant to present to the staff on site).
- The MPS EL Coordinator will regularly attend high-quality professional development workshops and conferences, including a monthly Bilingual Directors' Meeting at the Los Angeles County Office of Education, and share resources and information with teachers and school leaders.

- When possible, site-level EL Coordinators will attend professional development sessions and meetings with the MPS EL Coordinator.
- The MPS EL Coordinator will host two (one per semester) trainings/meetings for the site-level EL Coordinators per year. These meetings will review ELD strategies, best practices, an assessment of EL data at each school site, and evaluate the effectiveness of the EL program.
- Regular updates regarding ELs and ELD will be provided to all MPS principals and deans during monthly meetings at the Home Office.
- The MPS EL Coordinator and MPS Math Coach will provide a workshop to math teachers that will support EL access across the curriculum.
- The MPS EL Coordinator and MPS Student Services director will provide resources to help teachers and school leaders support dually identified students.

I*. Evaluating Program Effectiveness*

The Charter School will use ELPAC results, along with scores on Smarter Balanced ELA/Literacy tests, MAP tests, teacher evaluations, and parent consultations to evaluate the success and effectiveness of the EL Programs and growth of ELs. School admin team will analyze the data at the school level. The Chief Academic Officer (CAO) at the Magnolia Public Schools Home Office (Home Office) will evaluate the assessment data for all MPS schools. MSA-Santa Ana admin team will be required to:

- Supervise classroom instruction for content and pedagogy to ensure the delivery of ELD and Access to the Core through CHATS/SIOP/SDAIE/GLAD and/or primary language instruction or support
- Provide leadership and support to teachers and staff to improve student achievement and accelerate the learning of ELs
- Conduct regular classroom walkthroughs to ensure that ELD and CHATS/SIOP/SDAIE/GLAD instruction or support are being delivered in the manner outlined in the master plan
- Identify, design, and implement appropriate interventions for ELs when they do not meet minimum progress benchmark achievement
- Utilize multiple sources of data to monitor EL program implementation
- Review placement of ELs in ELD instruction prior to the beginning of each semester and correct any inconsistencies with the Master Plan
- Ensure that teachers have professional development opportunities to continue to develop their skills and knowledge in ELD and CHATS/SIOP/SDAIE/GLAD and/or primary language instruction or support
- Ensure that interventions are designed and delivered consistent with the English Learners Master Plan
- Provide a welcoming environment for parents of EL students and ensure that they are regularly apprised of the EL assessment and reclassification process and results, instructional program options and placement, EL progress monitoring

Additionally, the MPS EL Coordinator will work with teachers and the leadership team to monitor program effectiveness. The MPS EL Coordinator will support implementation of the MPS EL Master Plan and program, as well as ensure that all appropriate EL services are being delivered at MSA-Santa Ana, maintain and update this master plan as needed, attend relevant trainings, and provide ELD resources to all MSA-Santa Ana teachers and staff.

GIFTED AND TALENTED STUDENTS AND STUDENTS ACHIEVING ABOVE GRADE LEVEL

MSA-Santa Ana is committed to supporting gifted and highly capable students in a safe, caring environment that promotes a college preparatory, STEAM education. Within all classes, teachers differentiate curriculum by making adjustments of content through depth, complexity, and pacing as appropriate to the needs of each learner. Instructional programs for Gifted and Talented students are based on the core principles that all students have the potential to excel and should have the opportunity to develop their individual abilities, interests and potential. The purpose of the MPS GATE program is not to simply identify the highest achieving students, but rather, identify students with exceptional abilities, those that go well beyond their peer group. School site academic administrators monitor student progress through our SIS system.

MSA-Santa Ana's identification procedures are equitable, comprehensive, and on-going. Assessments and recommendations for the program reflect best practices and are research-based. MPS understands that examinations alone may not reflect the abilities of all students, as well as GATE students of diverse populations. Therefore, MSA-Santa Ana includes teacher and/or administrator recommendations as well as work samples in its identification process.

In order to identify a student as gifted, evidence must be gathered relating to his/her ability to perform beyond chronological peers. Data should be broad enough to discover aptitudes across racial, ethnic, and economic groups. Data may include the following:

- School, class, and individual pupil records
- State and benchmark examinations
- Student portfolios or work products
- Interviews and questionnaires (teacher, parent, and others related school personnel)

Teachers, parents, and school administrators may submit referrals. Additionally, students at the middle and high school levels may refer themselves.

To identify students who are gifted, MSA-Santa Ana administers the *Otis- Lennon School Ability Test (OLSAT)*. Students are assessed for GATE in 3rd, 6th, and 9th grades. The OLSAT is a multiple-choice test that is comprised of both verbal and nonverbal questions, used to measure a child's critical thinking and reasoning skills. Students will need to perform well in the following areas:

- Following directions
- Detect similarities and differences
- Recall of words and numbers
- Classification of items
- Establishing sequences
- Solving arithmetic problems
- Completing analogies

GATE teams, comprised of the GATE coordinator or Special Education Teacher, Academic Dean, and General Education teacher, review all pieces of data and then make a determination of eligibility. All students will be monitored by our school site academic administrators through our SIS system.

Educational experiences and are designed to meet the needs of advanced learners with an emphasis on innovation, critical thinking, and logical reasoning. In secondary grades, through Honors classes, AP

classes and dual enrollment classes, students who demonstrate high achievement, interest and/or ability are provided the opportunity to collaborate with a team of teachers and peers of similar ability within a rigorous, interdisciplinary learning environment. Curriculum and instruction are designed to extend and enrich student learning through best practices. Classes are intended to engage and challenge learners to investigate, use problem-based learning, and research.

In addition, enrichment activities supplement learning for our advanced students both within and outside the regular classroom and expose students to STEAM programs early on in their educational careers. Activities may include but are not limited to:

- Math: American Mathematics Competitions, International Mathematics Olympiad, MathCounts
- Science: Science Fairs, Lego® Robot Design, Intel International Science and Engineering Fair, Science Olympiad, National Science Bowl
- Academic Decathlon and Academic Pentathlon
- Computer and Technology Related: USA Computing Olympiad, Lego® Robot Design, FIRST Robotics Competition, VEX Robotics

Congressional Award Program ("CAP")
This voluntary mentorship program is designed to help qualified students improve their skills in academics, athletics, character education, leadership, and voluntary public service. CAP is based on a committed long-term mentor-mentee relationship that encourages and equips students for life-long learning and prepares for admission into top world and U.S. colleges. Students in the CAP program commit to program goals and requirements that include weekly, monthly, and annual benchmarks. Parents are involved and community resources are used to implement a successful program. Through this program, students are eligible to receive a bronze, silver, or gold Congressional Award.

Accelerated Pathways
Students may participate in the following advanced educational opportunities:

- AP
- Honors
- Accelerated Math
- Clubs
- GATE Identification
- Online Course Options
- Dual enrollment at Community College

Students Achieving Below Grade Level

MSA-Santa Ana identifies low-achieving students in the first days of the academic year, and implements early intervention where indicated, pursuant to the MTSS model detailed above. As detailed throughout this petition, MSA-Santa Ana teachers meet regularly to work in departments and grade levels. The highlight of these meetings is evaluating student data to inform instruction. All available student data (MAP, CAASPP, School/teacher assessments) is disaggregated and subject teachers work on the data. The assessment results are interpreted; students' strengths and weaknesses in specific subjects are identified and analyzed. Student progress is monitored by teachers who utilize the data and make appropriate changes in their curriculum maps, lesson plans and instructional strategies to address the needs of our students. Goals are set with the students for specific subject areas based on the assessment data that are aligned to students Four-year Plan. Teachers differentiate instruction per their students' cognitive and social needs.

Targeted English and Math intervention classes are offered during elective periods to students who are not achieving at grade level. On an as-needed basis, an Academic Success Plan (ASP) is prepared with the involvement of the recommending teacher, the Dean of Academics, and the student's parents. Such ASP's include subject-related readings, additional homework, and mandatory after-school tutoring.

The subject teachers and the Dean of Academics monitor each student's academic progress. Parents remain informed of their student's academic progress during this process via parent-student-teacher meetings and parent access to student grades and progress reports through the online school information system.

Socio-Economically Disadvantaged/Low Income Students

The instructional design of MSA-Santa Ana addresses the needs of low-income and socio-economically disadvantaged students, who make up the overwhelming majority of our enrollment. Socio-economically disadvantaged students are identified through their participation in the Free and Reduced Lunch program. Counseling, intervention/remediation, individual tutoring and after school social, academic and athletic programs are some of the many programs that support our socio-economically disadvantaged students. Home visits, motivational guest speaker programs, parent meetings, university and college visits, and instructional field trips are planned to shape the educational vision of the student and the family. Socio-economically disadvantaged students have role models around them who will inspire motivation to focus on lessons and self-confidence with the discovery of their potential.

The Charter School administration ensures that these programs are available to all students, including socio-economically disadvantaged students, and works with the teachers and parents to encourage for student participation in these programs. The administration monitors the performance and progress of socio-economically disadvantaged students through the use of MSA-Santa Ana's data cycle.

Students with Disabilities

MSA-Santa Ana is committed to meeting the needs of all of our students with disabilities, and pledges to work in cooperation with the OCBE and the El Dorado County Charter Special Education Local Plan Area (SELPA) to ensure that a free and appropriate education is provided to all students with exceptional needs. MSA-Santa Ana will comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), Section 504 of the Rehabilitation Act of 1973 ("Section 504"), Title II of the Americans with Disabilities Act ("ADA"), and any other civil rights law enforced by the U.S. Department of Education Office of Civil Rights (OCR). Furthermore, MSA-Santa Ana will comply with OCBE and SELPA guidelines and all California laws pertaining to students with disabilities.

MSA-Santa Ana has the overarching goal of creating classrooms that reflect the natural diversity present in the surrounding community with respect to ability, socioeconomic status, language, and culture. No admission decision for MSA-Santa Ana will in any way be based upon a student's disability or special education status. Information about a student's disabilities, including special education or Section 504 status, will not be included on any enrollment applications, and will not be taken into account in determining whether a student will be admitted to MSA-Santa Ana. There are no quotas or admission spots reserved for students with or without disabilities; rather, MSA-Santa Ana supports all students

attending the school according to their particular learning needs and in full accordance with the IDEA, Section 504, the ADA, and any other state or federal civil rights law.

The following description regarding how special education and related services are provided and funded is provided for the sole purpose of providing a reasonably comprehensive description of the special education program in the charter petition, in accordance with Education Code section 47605(b).

SELPA Affiliation

MSA-Santa Ana is an independent Local Education Agency (LEA) member in the El Dorado Charter SELPA for purposes of special education pursuant to Education Code Section 47641(a). A change in LEA status or SELPA membership shall not require a material revision of this charter.

As an independent local educational agency (LEA) pursuant to Education Code Section 47641(a), MSA-Santa Ana will assume full responsibility for providing special education and related services to eligible charter school students, in accordance with state and federal law.

MSA-Santa Ana will follow policies and procedures of the SELPA in which it is a member and shall utilize SELPA forms and information systems necessary to identify and serve students who qualify for special education. MSA-Santa Ana agrees to collaborate with the SELPA to respond to inquiries and request and provide access to information and records, as needed, and shall be responsible for maintaining confidentiality of student records.

Child Find

MSA-Santa Ana understands its responsibility to ensure that all children with disabilities who need special education and related services are identified, located, and evaluated, regardless of the severity of the disability. No assessment or evaluation will be used for admission purposes.

As noted above, MSA-Santa Ana will implement a Response to Intervention (RTI) framework, prior to referring a child for an evaluation under IDEA. However, MSA-Santa Ana shall ensure that child find identification occurs in a timely manner and that no procedures or practices result in delaying or denying this identification. A parent/guardian or MSA-Santa Ana staff member may request an initial evaluation at any time to determine if the child is a child with a disability, regardless of whether the child has participated in an RTI framework. Special education referrals shall be made only after general education supports and interventions have been considered and provided, as appropriate. If the Student Success Team finds that the pre-intervention plan is not sufficient to meet the student's needs, they will recommend that student for a formal special education assessment. MSA-Santa Ana may also choose to refer a student for services through the provisions of a Section 504 Plan, if appropriate.

MSA-Santa Ana shall be solely responsible for compliance with state and federal Child Find requirements. MSA-Santa Ana shall implement policies and procedures of the SELPA in which it is a member to ensure timely identification and referral of students suspected of having a disability.

Referral for Assessment

The term "assessments" shall have the same meaning as the term "evaluation" in the IDEA, as provided in Section 1414, Title 20 of the United States Code. MSA-Santa Ana's internal method for referral for assessment will be the Student Success Team (SST). Parents/guardians will be informed that special education and related services are provided at no cost to them.

In the event that MSA-Santa Ana receives a written request for evaluation, it will be solely responsible for working with the parent/guardian to address the request and shall follow SELPA policies, procedures, and timelines. MSA-Santa Ana shall respond to a written request for assessment within 15 days.

If MSA-Santa Ana concludes that an assessment is appropriate, the parent/guardian will receive a written Assessment Plan within 15 days. The parent will be given at least 15 days to provide written consent to the Assessment Plan. Assessments will be done only upon receipt of written parent/guardian permission. The assessment will be completed and an Individualized Education Program (IEP) meeting held within 60 days of receipt of the parent's/guardian's written consent for assessment.

ASSESSMENT

MSA-Santa Ana shall be solely responsible for conducting special education assessments deemed necessary and appropriate by MSA-Santa Ana and as agreed to by the parent in the Assessment Plan. The Principal will be responsible for gathering all pertinent information and arranging for assessments to be conducted in all areas of suspected disability.

Information gathered will be used as tools to determine the student's disability, eligibility for services, and determining the nature and extent of required services. The types of assessments that may be used for determining eligibility for specialized instruction and services will include, but not limited to:

- Individual testing;
- Teacher observations;
- Interviews;
- Review of school records, reports, and work samples; and
- Parent input.

MSA-Santa Ana will follow the following assessment guidelines. If a conflict with SELPA policies and procedures exists, then SELPA policies and procedures will govern.

- Parents or guardians of any student referred for assessment must give their written consent for the school to administer the assessment;
- The assessment will be completed and an Individualized Education Program (IEP) meeting held within 60 days of receipt of the parent's written consent for assessment;
- The student must be evaluated in all areas related to his/her suspected disability;
- Assessments must be conducted by a person with knowledge of the student's suspected disability, and administered by trained and knowledgeable personnel and in accordance with any instructions provided by the producer of the assessments. Individually administered tests of intellectual or emotional functioning must be administered by a credentialed school psychologist;
- Assessments will be selected and administered so as not to be racially, culturally, or sexually discriminatory;
- Assessments will be delivered in the student's primary language, and a qualified interpreter will be provided if needed;
- Assessment tools must be used for purposes for which the assessments or measures are valid and reliable; and
- Assessments will be adapted as necessary for students with impaired sensory, physical or speaking skills; and
- A multidisciplinary team will be assembled to assess the student, including a teacher knowledgeable in the disability.

Upon completion of the assessment, an IEP team will be assembled to review the results of the assessment and determine the student's eligibility for special education. MSA-Santa Ana will be responsible for scheduling, coordinating and facilitating the IEP meeting. Educators qualified to interpret test results will present the assessment data at the IEP meeting. Parents/guardians will be provided with written notice of the IEP meeting, and the meeting will be held at a mutually agreeable time and place.

Development and Implementation of IEP

Every student who is assessed for special education will have an IEP that documents assessment results and eligibility determination for special education services.

MSA-Santa Ana shall be solely responsible for ensuring that all aspects of the IEP are provided. MSA-Santa Ana will provide modifications and accommodations outlined within each individual's IEP and serve each student in the Least Restrictive Environment ("LRE").

Each student who has an IEP will have an IEP team that oversees the IEP Development, implementation and progress of the student. All decisions concerning the special education programs and services to be provided to a student with a disability are to be made by the IEP team.
The IEP team will include all of the following members:

- The parent or guardian of the student for whom the IEP was developed;
- The Student, if appropriate
- The Principal;
- At least one special education teacher;
- A General Education teacher who is familiar with the curriculum appropriate to that student, if the student is, or may be, participating in the general education environment;
- A SELPA Representative, if appropriate;
- If the child was recently assessed, the individual who conducted the assessment or who is qualified to interpret the assessment results;
- Others familiar with the student may be invited as needed.

MSA-Santa Ana will provide an interpreter if necessary to ensure that all parents and/or guardians understand and can participate in the IEP process. If a parent cannot attend the IEP meeting, the school will ensure his/her participation using other methods, such as conferencing by telephone or meeting at the parent's home.

A copy of the IEP will be given to the parent/guardian in accordance with state and federal laws. Upon the parent or guardian's written consent, the IEP will be implemented by MSA-Santa Ana. The IEP will include all required components and be written on SELPA forms.

The student's IEP will include the following:

- A statement of the student's present levels of academic achievement and functional performance;
- The rationale for placement decisions, including cogent and responsive explanations for the recommendations;
- The services the student will receive and the means for delivering those services;

- A description of when services will begin, how often the student will receive them, who will provide them, and where they will be delivered;
- Measurable annual goals and short-term objectives focusing on the student's current level of performance and appropriately ambitious for his/her circumstances. The goals and objectives will also be linguistically appropriate, as per Ed Code Section 56345(b).
- A description of how the student's progress toward meeting the annual goals will be measured and monitored and when reports will be provided;
- Accommodations necessary to measure the academic achievement and functional performance of the pupil on state assessments;
- For students 16 years of age and older, measurable postsecondary goals related to training, education, employment and independent living skills, along with transition services needed to assist the student in reaching those goals
- The IEP shall be reasonably calculated to enable the child to make progress appropriate in light of his/her circumstances.

IEP meetings will be held according to the following schedule:

- Yearly to review the student's progress and make any necessary changes;
- Every three years to review the results of a mandatory comprehensive reevaluation of the student's progress;
- After the student has received a formal assessment or reassessment;
- When a parent or teacher feels that the student has demonstrated significant educational growth or a lack of anticipated progress (consistent with state and federal law, IEP meetings will be held within 30 days of a parent's request);
- When an Individual Transition Plan (ITP) is required at the appropriate age;
- When MSA-Santa Ana seeks to suspend or remove the student for a period of 10 days or more for the same behavior, in order to determine if the student's misconduct was a manifestation of his/her disability.

IEP Review

The IEP team will formally review the student's IEP at least once a year to determine how the IEP is meeting his/her needs. In accordance with IDEA regulations, the IEP team will also conduct a formal review of the IEP once every three years, in which the student is reassessed and the IEP is reviewed as part of an overall comprehensive reevaluation of the student's progress.

MSA-Santa Ana shall be responsible for conducting IEP reviews and determining necessary supports, services, placements, in accordance with SELPA policies and all applicable laws.

Unless otherwise specified on the student's IEP, parents will be informed three times per year (which is the same frequency as progress is reported to all students and parents) of the student's progress toward meeting annual goals and whether the student is expected to meet his/her annual goals. The Goals and Objectives section of the IEP will be an attachment to the general progress report. This will serve to document the method by which the student's progress toward achieving the annual goal is measured, the student's progress during the relevant period, the extent to which it is anticipated the student will achieve the annual goal prior to the next annual review, and where needed, the reasons the student did not meet the goal.

If a parent/guardian or faculty member feels the student's educational needs are not being met, they may request a reassessment or a review of the IEP by the IEP team at any time during the year via written notice to the school. Once the request is received, MSA-Santa Ana will have thirty days, not including school vacations greater than five days, to hold the IEP meeting.

Special Education Strategies for Instruction and Services

MSA-Santa Ana will offer a comprehensive program that includes differentiated instruction for all learners, and the myriad other programmatic aspects detailed above that are designed to support diverse learners' needs, including the needs of students with disabilities. Each student's IEP requires different kinds of accommodations and modifications for instruction and services; therefore, the educational strategies of the IEP will be built around the student's needs. If a student's IEP team determines that the student requires placement outside of a general education classroom, MSA-Santa Ana will to provide the necessary placement and/or services. The instruction outlined in each student's IEP will be delivered by personnel qualified to do so.

Interim and Initial Placements of New Charter School Students

MSA-Santa Ana shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year.

MSA-Santa Ana shall provide transferring students with free and appropriate public education, including services comparable to those listed in the existing IEP.

For students transferring to the MSA-Santa Ana from another school within the same SELPA, MSA-Santa Ana, pursuant to Education Code Section 56325(a)(2), shall continue to provide services comparable to those described in the existing approved IEP, unless parents/guardians and MSA-Santa Ana agree to develop and implement a new IEP.

For students transferring to the MSA-Santa Ana from another school within a different SELPA, MSA-Santa Ana, pursuant to Education Code Section 56325(a)(1), shall continue to provide services comparable to those described in the existing approved IEP for a period of up to 30 days, by which time MSA-Santa Ana shall adopt the previous IEP or, in consultation with parents/guardians, develop and implement a new IEP that is consistent with federal and state law.

For students transferring to MSA-Santa Ana from a school outside of California, MSA-Santa Ana shall provide the student with a free appropriate public education, including services comparable to those described in their existing IEP, until MSA-Santa Ana conducts an assessment pursuant to Section 1414 of Title 20 of the United States Code, if determined to be necessary by MSA-Santa Ana, and develops a new IEP, if appropriate, in accordance with federal and state law.

Staffing

MSA-Santa Ana will assume responsibility for special education staffing and service delivery. MSA-Santa Ana will be responsible for hiring, training, and/or contracting with the staff necessary to provide special education services to its students. MSA-Santa Ana shall ensure that all special education staff hired or contracted by MSA-Santa Ana is qualified to provide services in accordance with all applicable laws, regulations, and SELPA policies.

MSA-Santa Ana currently employs five special education teacher with specialization in mild/moderate disabilities and also specialization in moderate/severe disabilities. In partnership with the Principal, these teachers will ensure the implementation of IEPs and compliance with all special education policy, monitoring, and compliance procedures. MSA-Santa Ana will continue to employ an appropriate mix of mild/moderate and moderate/severe special education teachers as appropriate for the student population it serves as dictated by the needs indicated on student IEPs.

It will be the duty of the Principal to oversee and ensure the following:

- Ensure that all aspects of the IEP are followed;
- Arrange for the teacher of the student to attend the team meetings;
- Communicate with parents about progress made toward attaining the goals stated on the student's IEP, and inform them of due process procedures and rights;
- Consult quarterly with the Principal to ensure that the objectives and goals of students with IEP's are being met;
- Complete the requisite paperwork, updating and filing of necessary information for initial referrals, triennial evaluations, ongoing monitoring of student progress, and appropriate provision of any/all test modifications as stipulated in the IEP;
- Maintain a central file with all special education evaluation material and IEP's in accordance with FERPA and IDEA guidelines; and
- Provide a report of student progress on the same schedule as students in general education)

All teaching staff at MSA-Santa Ana will also be involved in assuring that all IEPs and 504 plans are properly implemented.

Professional Development for Charter School Staff

MSA-Santa Ana administrators, general and special education teaching staff, as well as other appropriate faculty and staff members will attend professional development and/or training meetings necessary to comply with state and federal special education laws, including training sponsored by the SELPA.

MSA-Santa Ana shall seek professional development opportunities for its staff through potential trainings facilitated by the District, SELPA, colleges and universities, and private companies or agencies to ensure compliance with state and federal special education laws as well as implementation of best practices for students with disabilities.

Reporting

MSA-Santa Ana, in collaboration with the District or SELPA where appropriate, will collect and maintain the following information on disabled students as required by IDEA:

- A calculation of all school-age students with disabilities being provided special education services by age, grade, category of disability and the number of students with disabilities who are English Learners;
- The number of students provided with test modifications and the types and the number of students exempted from Statewide assessments;

- The settings in which students with disabilities receive their services, specifically including the portion of the school day they receive services with non-disabled peers and time away from the regular classroom;
- The number of students with disabilities suspended "in-school" and out of school, organized by disability and length of suspensions; and
- The basis of exit from MSA-Santa Ana of students with disabilities (i.e., attainment of diploma and type, declassified, moved, etc.).

All necessary procedures and practices to ensure confidentiality and accurate/timely reporting will be the responsibility of the Principal. The Principal will ensure that a central file with all special education evaluation material and IEP's is maintained and that this file is locked and confidential, in accordance with IDEA guidelines. The Principal will oversee access to these records and will be responsible for ensuring that all providers responsible for the implementation of a student's IEP will have access to a copy of the IEP and will be informed of their specific responsibilities in implementing the IEP.

Procedural Safeguards

Parents or guardians of students with IEP's at MSA-Santa Ana must give written consent for the evaluation and placement of their child, be included in the decision-making process when change in placement is under consideration, and be invited, along with teachers, to conferences and meetings to develop their child's IEP.

The school will provide the parent with a written Notice of Procedural Safeguards, which will include information on the procedure to initiate both formal and informal dispute resolutions, at least once per year. MSA-Santa Ana will utilize the Notice of Procedural Safeguards used by the SBE or SELPA in which it is a member.

Concerns or disagreements raised by parents/guardians will be acknowledged by the school within five days. MSA-Santa Ana work to arrange a meeting with the parents/guardians to seek resolution of the disagreement. If a disagreement or concern persists, parents or guardians have the right to initiate a due process hearing to challenge a decision regarding the identification, evaluation, or educational placement of their child.

Dispute Resolution

MSA-Santa Ana acknowledges its responsibility to resolve disputes or defend due process complaints arising as a result of MSA-Santa Ana's alleged failure to provide FAPE to students enrolled in the charter school. MSA-Santa Ana may also initiate a due process hearing or request for mediation with respect to a student enrolled in MSA-Santa Ana if it determines such action is legally necessary or advisable.

Complaint Procedures

Parents or guardians also have the right to file a complaint with SBE and/or California State Department of Education if they believe that the school has violated federal or state laws or regulations governing special education.

Section 504 of the Rehabilitation Act

MSA-Santa Ana recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of MSA-Santa Ana. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

MSA-Santa Ana shall be solely responsible for its compliance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act. All facilities of the MSA-Santa Ana shall be accessible for all students with disabilities in accordance with the ADA.

MSA-Santa Ana will designate one employee to coordinate the school's compliance with its responsibilities under Section 504. A 504 team will be assembled by the Principal or Principal-designated 504 Coordinator and shall include the parent/guardian, the student, a qualified staff member, and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student's existing records; including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team who will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials include those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligent quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills.

The final determination of whether the student is eligible for services under Section 504 must be made by the 504 team. Written notice of the eligibility determination will be provided to the parent or guardian of the student in their primary language, along with notice of the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the 504 team.

If the student is found by the 504 team to qualify for services and supports under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives the free and appropriate public education ("FAPE"). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the School's professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student's education, including substitutes and tutors, must have a copy of each student's 504 Plan. The Principal will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student's file. Each student's 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

STUDENTS IN OTHER SUBGROUPS

Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs comprise a significant percentage of our student population (19.4% Homeless in 2017-18) and are all cared for in our supportive school community. These students are identified through teacher/family/staff referral. Our Student Success Team process ensures these students receive any additional supports or interventions they may need, including referrals to outside agencies that may assist them or their families. We track the progress of these students carefully through the use of MSA-Santa Ana's data cycle and ensure our school supports them in achieving success and realizing better futures for themselves and their families.

Education for Foster Youth
MSA-Santa Ana recognizes that foster youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program, and their emotional, social, and other health needs. To enable such students to achieve state and charter school academic standards, MSA-Santa Ana shall provide them with full access to our educational program and implement strategies identified as necessary for the improvement of the academic achievement of foster youth in our LCAP.

As detailed in our "Education for Foster Youth Policy," in order to help facilitate the enrollment, placement, and transfer of foster youth to MSA-Santa Ana, we have designated the CEO/Superintendent as the Foster Youth Liaison. The Foster Youth Liaison, in consultation and agreement with the foster youth and the individual assigned educational rights, shall make educational and placement decisions in the "best interests" of the foster youth.

Best interests mean that consideration is given to, among other factors, the opportunity to be educated in the least restrictive educational program and that the foster youth has equitable access to the academic resources, student services related to counseling and health, supplemental instruction, and extracurricular and enrichment activities that are available to all MSA-Santa Ana students. MPS will make appropriate referrals to ensure that eligible students in foster care receive necessary special education services and services under Section 504 of the Federal Rehabilitation Act of 1973. Additionally, it will collaborate with the county placing agency, social services, probation officers, juvenile court officers, and other appropriate agencies. MPS will develop protocols and procedures for creating awareness for its staff, including but not limited to, the Principal, teachers, attendance clerks, and office staff, of the requirements for proper enrollment, placement, transfer and support of foster youth.

Education for Homeless Youth

MSA-Santa Ana has an unusually large homeless enrollment – 19.4% in 2017-18. The school refers to "homeless youth" as individuals who lack a fixed, regular and adequate night-time residence due to economic hardship. It includes children and youth who (42 USC 11434 (a)):

- Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- Have a primary night-time residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings;
- Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- Runaway children or children who are abandoned; and
- Migratory children and unaccompanied youth may be considered homeless if they meet the above definition of "homeless."

The Principal of MSA-Santa Ana serves as the Homeless Liaison for homeless students ((42 USC 22432 (g)(1)(J) & (e)(3)(c).)

The Principal who serves as the Homeless Liaison shall ensure that:

- Homeless students are identified by Charter School personnel and through coordination activities with other entities and agencies
- Homeless students enroll in, and have full and equal opportunity to succeed at MSA-Santa Ana
- Homeless students and families receive educational services for which they are eligible
- Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
- Homeless children and youth shall be provided services comparable to those received by other students in the Charter School, including transportation services, educational programs, services provided under Title 1, programs for students with disabilities, programs for students with Limited English Proficiency ("LEP"), vocational and technical programs, gifted and talented programs, and school nutrition programs.
- The Principal or designee will monitor Homeless students' progress.

"A TYPICAL DAY"

If prospective students spent a day visiting MSA-Santa Ana, they would notice students on campus before school began, from about 7:30 a.m. to 7:55 a.m., some having breakfast (as part of the federal meals program) and visiting with friends, others having breakfast and working on an assignment, perhaps with the help of an older student or an adult tutor. As it nears time for class to begin, they would see students heading toward their classrooms. Across different grade levels as a full TK-12th grade school, visitors see a diverse array of engaging instructional activities taking place in different classrooms throughout the day.

A prospective third grader, for example, would see the morning start off with homework return and then oral language/math SBAC prep following the morning routines on the daily agenda of activities. Using the MyMath curriculum objective posted standards, the visitor would see students engage in a series of activities: Hook, ABC, I Do, We Do, You Do, Active Practice, and finally an Exit Ticket to head to nutrition/recess. Going back to class after the break students would then head over to ELA using Wonders Curriculum Objectives and Standards posted to introduce key instructional routines with

Listening Comprehension, students participate in class discussions, take turns talking, listen carefully and add new ideas. For vocabulary reinforcement, students will define/have examples, word walls and a Close Reading of Literature. This session would end to administer placement and diagnostic assessment. Students would then head out to lunch and enjoy a meal from our lunch provider.

Once class is back in session, third graders would focus on science with objectives and standards referenced and written on board configuration. An intro topic example is when forces can change motion. Students would be engage in hands-on experiments to develop understanding about how forces can push and pull objects and make observations and measurements to determine how forces can push and pull objects. The hands-on activity would have the students investigate balanced forces. With literacy and math connections, students would be speaking and listening as well as to reason abstractly and quantitatively.

In social studies, a visitor might see students engage in animated social discussions about how rules help us get along with one another. The teacher might pose an "essential question" such as: Why is government important? The teacher might then discuss words relating to governance and their meaning, relating the new words to other concepts students already know. Then the teacher would explain to students that laws are a lot like classroom rules; laws help to keep our community safe. The teacher would then ask students: Where do laws come from? Why does our government create laws? Students would then pair/share and discuss the meaning of words and share/write the definitions. Finally, as a formative assessment the students are asked to summarize why laws and government services are important.

These prospective students would observe enthusiasm in both the teachers and students. Visitors would see periods of the day where the teacher is working with half the students while the rest are working online. In the computer lab, students are seen working on a core content course during their technology integration class, focusing on applying technology skills to the current unit of study.

Prospective sixth graders might be intrigued by how the teachers used fun technology to explain things. One teacher would be seen introducing a poem about a pond through a PowerPoint with pictures of the pond, pond creatures and even a picture of the author when he was a kid and playing in a pond. Then she would use a smart board to show her students information on the web about the author, with the class continuing to research links on the web and read more about the author and his other poems.
In an Advanced Math class, students are seen tackling math brain teasers in groups. They would see sixth graders singing about the life cycle of a frog, and describing the ecosystem of the desert to their peers, some in Spanish.

Throughout middle and high school, students are seen collaboratively working on experiments and projects, independently working online, meeting with their teachers in small groups and listening to their teachers review information learned and prompting students to reflect on what they have learned. Students are using STEAM and writing skills in hands-on projects that reinforce their learning. Visitors would see students were having fun and were engaged as they learned.

What the prospective student visitors might see but not been able to put into words is that teachers were using the inquiry-based method:

- Open-ended question or demonstration (as opposed to beginning a lesson with definitions and explanations)

- Student responses and questions
- Student collaboration designing experiments or methods of inquiry
- Team experiments “data” gathering
- Student presentations of findings (oral presentation, a poster presentation or an evaluative write-up.)

At lunch, visitors would observe all students practicing proper manners and good dining skills, and conversations taking place at an appropriate volume. A balanced lunch is provided, through the federal meals program, and students are encouraged to drink plenty of water. Visitors might see one of our frequent guest presenters during the lunch hour, such as a local college rhetoric instructor hosting an informal chat on the history of public speaking.

The after-school program is similarly appealing to visitors. The prospective new students would see students staying after school to participate in clubs, service learning projects, preparation for local, national and/or international competitions, and access to free tutoring by teachers, volunteers and advanced students. By the time the visiting students went home teachers were engaged in discussion with parents regarding the progress of their children and discussing cooperative strategies and action plans.

ELEMENT 2: MEASURABLE PUPIL OUTCOMES

"The measurable pupil outcomes identified for use by the charter school. 'Pupil outcomes,' for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school." Ed. Code § 47605(b)(5)(B).

MSA-Santa Ana will meet all statewide content and performance standards and targets. Ed. Code §§ 47605(c)(1), 60605. MSA-Santa Ana will comply with all applicable laws and regulations related to AB 97 (Local Control Funding Formula) and AB 484, and will continue to as they may be amended from time to time, including all requirements pertaining to pupil outcomes.

As a California charter school, MSA-Santa Ana assumes an increased level of accountability for all aspects of its programs and for achieving the goals described within the vision and mission of the school. The Charter School will adopt a comprehensive set of benchmarks for student and school outcomes that support the achievement of the school's vision and mission, based on the state and common core standards, state priorities, and our definition of an educated person in the 21st Century and the school's goals. On an annual basis, the school will engage stakeholders to prepare the Local Control Accountability Plan Annual Update that details specific goals aligned with each of the state's priorities, along with specific actions to realize each goal and fiscal allocations to support those efforts.

Our LCAP goals, actions, measurable outcomes, and measurements – aligned with the eight state priorities -- are included in Element 1, above.

Full implementation of the educational program and frequent monitoring of student and school outcomes ensures that MSA-Santa Ana is an academic success and is achieving all of its overarching goals.

The CEO, Chief Academic Officer and other central office management staff, along with the Principal and school-site faculty are accountable for meeting MSA-Santa Ana's defined goals and objectives and achieving the school's mission and vision. The Principal is responsible for meeting target goals, and held accountable by the Chief Academic Officer, who in turn is held accountable by the CEO. The CEO reports directly to the MPS Board of Directors, which monitors student academic achievement and other stated goals included in the LCAP and individual position performance goals. The Principal is accountable for meeting applicable state accountability measures under the California State Dashboard, and any applicable federal accountability measures as may be developed.

MSA-Santa Ana will pursue the following student outcome goals, as measured by multiple and varied benchmark assessments that are aligned to state and federal standards (including CA CCSS) and reflect proficiency measures required by the CAASPP, California Science Test (CAST) and California Alternative Assessment (CAA), as well as state priorities detailed in California Education Code § 52060(d).

Specifically:

- MSA-Santa Ana schoolwide results on state assessments will meet or exceed the established growth target(s).
- CAASPP ELA and Math “Met/Exceeded” rates and annual growth rates will meet or exceed surrounding comparison schools, with a goal of 100% proficiency.
- Statistically significant subgroups will meet or exceed established growth targets and demonstrate a closing of the achievement gap.

In addition:

- English Learners will progress at least one level on the ELPAC each year.
- English Learner reclassification rates will meet or exceed the District’s reclassification rate.
- Special education students will demonstrate appropriate progress toward stated goals in their IEPs each year.
- MSA-Santa Ana will maintain at least 95% Average Daily Attendance.
- Suspension and expulsion rates will be lower than comparable surrounding schools in the District.
- Students will demonstrate a mastery of grade-level standards and designated outcome goals in the areas of English Language Arts, Mathematics, Science, Social Science/History.

These student outcomes are directly tied to the goal of providing students with a rigorous standards-based program while preparing them for a rigorous, college-preparatory high school.

In addition to the specific academic achievement goals detailed above, additional goals over the charter term include:

- MSA-Santa Ana will realize a high teacher retention rate and high teacher satisfaction rate (>80%) as measure on annual surveys.
- MSA-Santa Ana will demonstrate a high level of parent satisfaction (>85%) based on annual surveys.
- The Board of Directors will carry out its responsibilities with the utmost degree of good faith, honesty, integrity, loyalty and undivided service to the school as demonstrated by the actions of the Board and adherence to legal requirements.
- Financial planning and annual budgets will reflect the appropriate allocation of resources to ensure achievement of the school’s vision and mission as demonstrated by balanced budgets that address the school’s priorities and successful external audits.

These goals and our progress toward goals communicated regularly with our entire school community via our website, meetings and newsletters sent home.

ELEMENT 3: METHOD BY WHICH PUPIL PROGRESS TOWARD OUTCOMES WILL BE MEASURED

"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." **(Ed. Code § 47605(b)(5)(C).)**

MEASURING PUPIL PROGRESS TOWARD OUTCOMES: FORMATIVE ASSESSMENTS

Measurable outcomes and assessment tools in each of the academic areas of the curriculum are important to tracking performance progress and provide key data about the efficacy of MSA-Santa Ana's academic program. This data is used to drive decisions about overall program development, as well as informing ongoing curriculum modifications and allocation of resources. The Principal, staff, and teachers of MSA-Santa Ana are held accountable by the MPS Board of Directors for meeting student outcome goals.

The measures that are used to assess student progress include all state-mandated standardized tests such as the Smarter Balanced Summative Assessments. MSA-Santa Ana also uses the Smarter Balanced Interim Benchmark Assessments and Block Assessments approximately five times a year that are designed to support teaching and learning throughout the year; and the Digital Library, designed to support classroom-based formative assessment processes. The Smarter Balanced Interim Assessments[20] are specifically designed to provide the following:

- Meaningful information for gauging student progress throughout the year toward mastery of the skills measured by the Summative Assessments
- Assessments of the CCSS, which can be used at strategic points during the school year.

MSA-Santa Ana administers both the Interim Comprehensive Assessments ("ICAs") and Interim Assessment Blocks ("IABs") to assess student learning and inform instruction which are started in 3rd grade.

Computer adapted NWEA MAP testing is utilized to measure student progress three times a year and are started as early as 2nd grade. As explained above in Element 1, students who are achieving substantially below grade level are identified through multiple measure assessments including MAP Tests, sample Smarter Balanced questions (as provided by the CDE's website), curriculum based assessments, and teacher-designed tests. For students achieving substantially below grade level, we use educational materials that provide review and re-teach programs. McGraw Hill's publisher's resources, Curriculum Associates' Ready Common Core program, and ALEKS Math[21] programs allow teachers to monitor the progress of students who are achieving below grade level and provides software generated tests and personalized instructional materials based on CCSS/frameworks which have not been achieved. All formative assessments for elementary are given through McGraw-Hill publishers teachers can access them online as well as their Teacher Manuals. Teachers also, with the help of published

[20] http://www.cde.ca.gov/ta/tg/sa/sbacinterimassess.asp

[21] The Charter School reserves the right to utilize alternate [resources/curriculum/vendors/providers/etc.] as long as consistent with applicable law and the needs of the Charter School, and as adopted by the Charter School administration and/or MSA Board of Directors, as applicable.

materials, create standards-aligned formative assignments and tests that are evaluated using rubrics. Individual and team projects are evaluated using rubrics, and students are required to demonstrate research and critical thinking skills.

Assessment	Purpose/Performance Expectations	Grade	Timeline
Internally-Created Tests and Performance Tasks (presentations, papers, experiments, etc.)	Measure standards mastery across all courses/subjects.	TK-12	Daily and/or weekly
Publisher-Designed Assessments	Assess mastery of unit/lesson content.	TK-12	End of unit/end of semester or year.
AP Exams	College readiness	8-12	In May
CAASPP/California Alternate Assessments (CAA)	State Criterion-Based Assessment in ELA and Math	3-8, 11	In May
California Science Test (CAST)	State Criterion-Based Assessment in Science	5, 8, 11	In May
NWEA MAPs	National Normed-Referenced assessments in ELA and Math	TK-11	September, December (optional), and June
PSAT/SAT/ACT	College readiness	7-12	October, November, or December
ELPAC	Measure language acquisition	TK-12	Initial: within 30 days of enrollment Annual: February to May
SBAC /Interim Assessment Blocks	To support teaching and learning throughout the year	3-8, 11	Throughout the year
SBAC Interim Comprehensive Assessment Block	Designed to provide meaningful information for gauging student progress	6-8, 11	February
PFT	To assist students in establishing lifetime habits of regular physical activity	5, 7, 9	February to May

DATA ANALYSIS AND REPORTING

As discussed extensively in Element 1, teachers use standards-aligned formative assessments to continually monitor student progress and to make adjustments on the curriculum and instructions when such is necessary and appropriate. MSA-Santa Ana utilizes diverse assessments that are aligned with the curriculum and instructional program, compliant with state expectations. Assessments are aligned to the Charter School's mission, exit outcomes and the curriculum. Results of these assessments are used to facilitate continuous improvement of the programs offered at the school site, direction of executive leadership, and short and long-range planning of the Board of Directors.

The Charter School's staff, led by the Deans of Academics, department chairs, and intervention/enrichment coordinator, collects, analyzes and reviews the results of school-wide assessments and recommend modifications, if they are needed, to the Charter School's curriculum and other programs at the end of every semester.

All parents are apprised of their students' progress through quarterly report cards issued for all grade levels. The Charter School records grades, attendance, homework, and student progress reports online and provide regular access to parents. For those parents without access to a computer, MSA-Santa Ana has computers on campus available for parent use.

ILLUMINATE: MSA-SANTA ANA'S SCHOOL INFORMATION SYSTEM

MSA-Santa Ana uses Illuminate or equivalent for its internal school information system. Aside from providing a very effective online communication tool for teachers, students and parents (for course material, homework assignments, projects, course grade statistics and records of student grades), the system enables MSA-Santa Ana administrators to create and print any reports within seconds. The system can produce more than 100 pre-designed reports including CA State Average Daily Attendance and CalPads reports as well as empowering administrators to easily design reports customized to their needs. Illuminate or equivalent is a great asset to MPS such that:

- Illuminate or equivalent empowers Home Office staff to supervise schools easily from anywhere. Home Office staff can take a snapshot of MSA-Santa Ana at any time in any aspect, including past data.
- This custom-made system is highly adjustable according to the charter schools' needs and is continuously being developed to meet specific demands as they arise.
- Longitudinal studies can be performed using Illuminate or equivalent.

Illuminate Education is built for educators, by educators. Illuminate's mission is to create tools to promote educator and student success. They focus on student achievement and provide the teacher a tool to do it all. Assessments, report cards, gradebooks, data analysis and parent communication will no longer be in multiple places but be entered in one system. District and site-level educators can analyze trends, instructional leaders can shape curriculum, and teachers can make improvements and provide differentiated instruction.

Illuminate helps free our data. No matter where the data lives you can now see it all in one place. Therefore, we can make real-time, data-informed decisions. We can get a holistic view of the students. From groups to individuals, we can visualize the data based on academics, demographics, attendance, social-emotional, and quantitative ways.

Once we have the students' data, we can analyze it through 23 pre-built assessment reports or custom reports based on what we need. We can start intervention sooner to use it as an early warning system that helps identify at-risk students based on factors you determine. Students can feel empowered to take ownership of their learning by viewing assessment results and teacher feedback to see opportunities for growth.

GRADING, PROGRESS REPORTING, AND PROMOTION/RETENTION

The primary purpose for grading is to provide feedback to students and parents on the achievement of learning goals. At least two progress reports and two report cards are mailed home per year. Progress reports are not final and indicate a student's performance to-date in the semester. Report cards are issued at the conclusion of each semester. Report cards are mailed home and include final grades that are reflected on a student's transcript.

At MSA-Santa Ana course report card grades in secondary school are to be represented in letter-grade equivalent to the percentage earned in each course. Course report card grades are based on in-class performance tasks (assessments, projects, assignments, and classroom participation), homework, responsibility, and in some instances, additional discretionary components. Each department works with the Department Chair in conjunction with the Charter School's Dean of Academics to develop specific and consistent weights for each component, to be shared with parents and students.

MSA-Santa Ana follows a standard scale to assign letter grades for semester work. Grading is based on a 4.0 (unweighted) scale for regular courses and 5.0 (Honors weighted) scale for Advanced Placement and honors courses.

Elementary School Grade Promotion

In grades K through 5, students receive one of the following marks for their grade level performance on each component or standard in Language Arts, Math, Science, and Social Science.
Academic Grades:
1 = Standard Not Met, 2 = Standard Nearly Met, 3 = Standard Met, 4 = Standard Exceeded

Arts, Citizenship & Work/Study Skills Key:
S = Satisfactory, does consistently
N= Needs time, help and practice to improve
U= Unsatisfactory, more effort needed
ELD Grades:
1 = Minimally Developed, 2 = Somewhat Developed, 3 = Moderately Developed, 4 = Well Developed

The following is MSA-Santa Ana's policy regarding the retention of pupils in grades TK–5:

- Grades TK–2: Any student who is not at benchmark based on reading benchmark assessments or math benchmark assessments or report card grades will be identified for retention. Retention will only occur if the teacher and parent are in agreement that retention is the best intervention to ensure student success.
- Grades 3–5: Any student who does not meet the achievement standards and needs substantial improvement to demonstrate the knowledge and skills in ELA/Literacy or math needed or likely success in future coursework based on Smarter Balanced assessments (Level 1 on Smarter Balanced assessments) or any student who is more than one year behind grade level in mathematics or ELA/Literacy as determined by the MAP tests will be identified for retention.

An identified student who is performing below the minimum standard for promotion shall be recommended by the student's teacher for retention in the current grade unless the student's teacher determines in writing that retention is not the appropriate intervention for the student's academic

deficiencies. The teacher's recommendation to promote is contingent upon a detailed plan to correct deficiencies. At MSA-Santa Ana, the following steps will be taken prior to a student's being retained:

- A letter shall be sent to the student's parent(s) or guardian(s) informing them that their child is at risk of retention.
- The teacher's evaluation shall be provided to and discussed with the student's parent(s) or guardian(s) and the principal before any final determination of pupil retention. The parent(s)/guardian(s) are informed at that meeting that their child is recommended for retention. This meeting is documented with an academic support plan signed by both the teacher and parent/guardian.
- The principal shall make a decision regarding the recommended retention. Upon the acceptance or rejection of the above stated reports by the principal, a letter shall be sent within five school days to formally inform the student's parent(s) or guardian(s) of the principal's decision regarding the retention.
- The parent(s) or guardian(s) shall have the right to appeal the decision to the Chief Academic Officer of Magnolia Public Schools (MPS). If the decision of the Chief Academic Officer is not in agreement with the parent(s)/guardian(s), the latter have the right to appeal directly to the MPS Board of Directors. This meeting will take place at the next regularly scheduled board meeting or by direction of the board president. Or the Board may form a committee to review the appeal and make a recommendation to the Board for approval at the next regularly scheduled meeting.

The program design of MSA-Santa Ana is to ensure that all children succeed. Students who are in jeopardy of retention are individually counseled and given extra help in their specific areas of concern, both in class and through intervention offerings.

Middle School Grade Promotion

In middle school, course grades are semester-based and credit is granted at the end of each semester. Students need to have an end-of-the-semester final grade of at least a "C" (=2.0) to earn credit for the course.

To be promoted to the next grade, a middle school student must have a 2.0 GPA and passing grades in all core courses by the end of the school year or by the end of the summer before the start of the next school year. Core courses are Math, Science, English Language Arts, and History/Social Science.

If the student has a failed core course or has a recalculated GPA less than 2.0 after the summer before the start of the next school year, the student will be recommended for retention in the current grade unless the Charter School administration determines that retention is not the appropriate intervention for the student's academic deficiencies. In that case, promotion is contingent upon a detailed plan to correct deficiencies.

High School Grade Promotion

In high school, course grades are semester-based and credit is granted at the end of each semester. Students need to have an end-of-the-semester final grade of at least a "C" (=2.0) to earn credit for the course.

To be promoted to the next grade, a high school student must have a 2.0 GPA and the minimum required credits described below before the start of the next school year. (Core courses are Math, Science, English Language Arts, and History/Social Science.) A detailed description of our student appeals can be found in our Student/Parent Handbook.

- To be enrolled in grade 10, a student must have a minimum of 50 credits, including at least 20 credits in core courses.
- To be enrolled in grade 11, a student must have a minimum of 100 credits, including at least 50 credits in core courses.
- To be enrolled in grade 12, a student must have a minimum of 150 credits, including at least 90 credits in core courses.

ELEMENT 4: GOVERNANCE

"The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement." **(Ed. Code § 47605(b)(5)(D).)**

MSA-Santa Ana is a direct-funded independent charter school operated by MPS as a California non-profit public benefit corporation with 501(c)(3) designation by the IRS. MSA-Santa Ana will be governed by the MPS Board of Directors ("Board") in accordance with the Charter Schools Act, California law, the MPS Bylaws, and the terms of this charter. MPS shall comply with the Brown Act and the Public Records Act. Copies of the MPS Articles of Incorporation, Bylaws and Conflict of Interest Code are in Appendix B.

MSA-Santa Ana shall operate autonomously from the SBE, with the exception of supervisory oversight as required by statute and other contracted services as may be negotiated between the SBE and MSA-Santa Ana. Pursuant to Education Code Section 47604(c), the SBE shall not be liable for the debts and obligations of MSA-Santa Ana, nor will the SBE be liable for claims arising from the performance of acts, errors, or omissions by MSA-Santa Ana as long as the SBE has complied with all oversight responsibilities required by law.

All of the MPS Board of Director members shall serve in a volunteer capacity and shall not be compensated for their services. The MPS CEO shall serve as the President of the corporation. All officer positions shall be filled by members of the Board. The roles and duties of the officers are as established in the Bylaws and in any resolutions adopted by the Board of Directors.

MPS and its Board of Directors shall comply with the Charter, the Articles of Incorporation, Bylaws and the California Corporations Code, and all laws controlling charter schools. MPS, its Board of Directors, administrators, managers and employees, and any other committees of the Board, shall comply with all applicable federal and state laws and nonprofit integrity standards regarding ethics and conflicts of interest, including the Public Records Act (Government Code section 6250 *et seq*.), the Political Reform Act of 1974 (Gov. Code Section 81000 *et seq*.), the Brown Act (Government Code sections 54950 *et seq*.), and the requirements described at Government Code Section 1090 *et seq*. and any attendant regulations as they may be amended from time to time, and any other applicable conflict of interest prohibitions. MPS shall not have any employees on its Board of Directors. By the terms of its Charter, MSA-Santa Ana is obligated to comply with the requirements of the Public Records Act, the Brown Act, Government Code Section 1090 *et seq*. and the Political Reform Act to the same extent as if MSA-Santa Ana were a non-charter California public school district, regardless of any arguments regarding the applicability of those laws to California charter schools. However, should a law, regulation, or applicable court decision clarify which conflicts of interest laws apply to charter schools, the SBE and Charter School agree to comply with the updated law or decision.

MPS has adopted a Conflict of Interest Code, pursuant to California Code of Regulations, title 2, Section 18730, including the formal designation of reporters and reporting categories and the forms to be filed thereunder. MPS shall review, revise and maintain that Code as current throughout the term of the Charter, and shall require all affected MPS officers, employees, representatives, consultants, and governing board members to comply therewith.

MSA-Santa Ana shall comply with the provisions of Education Code Section 52176(b) for the establishment and operation of an English Language Advisory Committee (ELAC), as applicable to the Charter School.

In the case of a conflict between the requirements of this Charter and provisions of the Articles of Incorporation and/or Bylaws, action taken in accordance with such Articles or Bylaws which conflicts with or is inconsistent with the requirements of the Charter shall be deemed a violation of this Charter. Should the provisions of the Charter conflict with the policies, practices, or terms of any collective bargaining agreement or other agreement of MPS, the provisions of the Charter shall prevail.

GOVERNANCE STRUCTURE

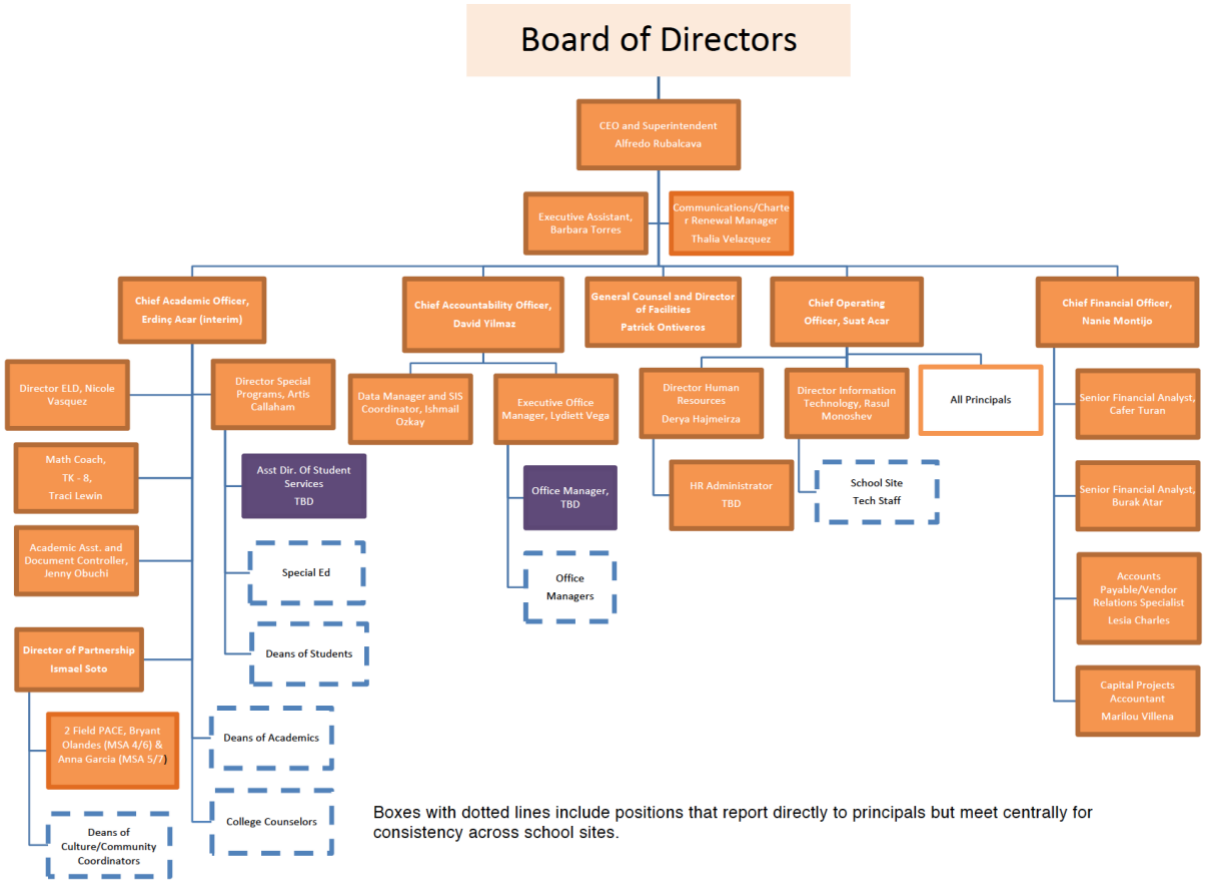
NONPROFIT PUBLIC BENEFIT CORPORATION

MSA-Santa Ana is a direct funded independent charter school operated by the Magnolia Education and Research Foundation, doing business as Magnolia Public Schools, a California Nonprofit Public Benefit Corporation, pursuant to California law. The MPS Board of Directors is responsible for the oversight of MSA-Santa Ana. The Board delegates all school management decisions, such as hiring teachers and school staff, day-to-day school management and adherence to Charter School policy, to the Chief Executive Officer/Superintendent of MPS and lead school site staff.

ORGANIZATIONAL CHARTS

The following briefly details the roles of the Home Office lead staff, followed by an Organizational Chart for the school site.

MPS Organizational Chart:



(A school site organizational chart is included below.)

MPS is structured as a single 501(c)(3) nonprofit organization which includes both the Home Office and the ten Charter Schools. Charter School personnel report to the Charter School Principal who, in turn, reports to the Home Office Chief Operations Officer. The Chief Operations Officer ensures that the Charter School receives effective operational, academic, and financial support from the Home Office staff on a shared basis with the rest of the Magnolia charter schools. The leadership and Board receive financial reports broken out by each Charter school and the Home Office, and annual independent Charter School audits, as well as a consolidated audit, conducted by outside auditors (in addition to all required reviews).

BOARD OF DIRECTORS

The MPS Board of Directors ("Board") is responsible for overseeing Magnolia Science Academy-Santa Ana's operation and governance. The Board is responsible for hiring and supervising the CEO. (See below for further details about the Board's role and operation.)

MAGNOLIA PUBLIC SCHOOLS HOME OFFICE ("HOME OFFICE")

The MPS Home Office executes the decisions and policies set by the Board. Through the Home Office, MPS establishes its educational mission in all MPS schools. The Home Office provides services to the charter schools, supports and holds accountable the charter schools for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the charter schools to receive services at a lower cost. The services of the Home Office include, but are not limited to:

- Academics
    - Academic standards, assessment, compliance and evaluation
    - Curriculum
    - Professional development and coaching
    - Special Education support
    - English Learner support
    - Gifted and Talented and special programs support
    - Science and blended learning advisory
- Operations
    - Governance support
    - Finance and accounting
    - Purchasing and contract compliance
    - Policies and procedures management
    - Legal
    - Facilities
    - Risk management
    - Information technology and data management
    - Auditing and compliance
    - Regional school site operational support
- Talent
    - Human resources operations
    - Recruitment and hiring
    - Credentials and qualifications oversight
    - Leadership development and career path support
- External Relations
    - Family and community engagement
    - Facilitation of school site governance councils and LCAP management
    - Development
    - Communications

Chief Executive Officer/Superintendent (“CEO”)

The CEO embodies, advocates, and puts into operation the vision, mission, and strategic direction of MPS, and oversees all aspects of the organization, including financial, operational, educational operations, and strategic planning. The CEO is not a member of the Board, but will fulfill the role of the corporation’s general manager and will have general supervision, direction, and control over the corporation’s business and officers, subject to the control of the Board. The CEO hires, supervises, disciplines, and as needed, dismisses the Charter School’s Principal, who, in collaboration with the CEO and the HR department at the MPS Home Office, hires, promotes, disciplines, and as needed, dismisses staff and teachers at the Charter School. The CEO also oversees hiring, supervision, professional

development, evaluation and dismissal of all C-level positions at the Home Office. All the C-level positions report to the CEO.

The Board ensures that the CEO is evaluated formally at least once annually, and the CEO, in turn, evaluates the Home Office staff.

Chief Academic Officer ("CAO")
Reporting to the CEO, the CAO is responsible for both sustaining and improving the culture of high academic excellence in all Magnolia Public Schools. The school administrators at each charter school as well as the curriculum and instructional support staff report directly to the CAO, who has primary authority and accountability for the academic performance of all schools. The CAO provides leadership, vision, and strategic direction for MPS' curriculum, instruction, assessment and school improvement initiatives overseeing professional development for all school leaders and supervising academic management of the charter schools.

Chief Operations Officer ("COO")
The COO leads all internal operations and, working in partnership with the Magnolia's Home Office Executive Team, Board and other leaders, creates the strategic five-year plan and implement new processes and approaches to achieve it. The COO serves as the internal leader of MPS, coordinating the annual operations plan and leading the performance management process that measures and evaluates progress against goals for the MPS. The COO provides for all staff a strong day-to-day leadership presence; bridges all functions and supports an open-door policy among all staff; provides Board support; and leads the organization's Regional Directors and Principals. Additionally, the COO directs and manages the various core business, financial, process, and systems functions of the MPS centralized HR Department. Provides strategic and operational direction to assigned organizational components, and provides leadership to the institution in strategic human resources planning and policy, process, and systems development. Directs organizational structuring and staffing, and oversees the supervision of all managerial, professional, paraprofessional, and support staff in each organizational component. Facilities and Technology Departments report to the COO as well.

Chief Financial Officer ("CFO")
The CFO is responsible for the financial performance of MPS and each of its schools. The CFO provides effective leadership to ensure sustainability, growth, and expansion and advises the CEO and Board on strategic financial plan, financial analysis and business modeling. The CFO ensures ethical and responsible decision-making, and appropriate financial management and governance practices.

Chief Accountability Officer
The Chief Accountability Officer is responsible for overseeing all non-financial reporting and compliance functions, preparing and implementing the annual surveys, and ensuring that the organization and staff use consistent, rigorous evaluation tools to maintain the efficacy of Magnolia programs.

Director of Student Services
The Director of Student Services is responsible for the effective coordination, delivery, evaluation and refinement of student services throughout MPS schools, and for ensuring that all programs are aligned with the outcomes for student success. Student services programs include student health services, psychological services, social work services, guidance services, and other student services.

Assistant Director of Student Services

The Assistant Director of Student Services coordinates the administration, implementation, and evaluation of the MTSS, Positive Behavioral Support Program, Restorative Justice Implementation and support Charter School Deans to create a positive school climate. The Assistant Director of Student Services work collaboratively with all stakeholders to plan and support the implementation of MSA Santa Ana's Discipline Policy to create a culture shift that utilizes a restorative framework.

Director of Informational Technology
The Director of Informational Technology develops instructional material, coordinates educational content, and incorporates current technology in specialized fields that provide guidelines to educators.

Director of Partnerships
The Director of Partnerships works under the supervision of CEO, is involved with all aspects of developing and maintaining external program partnerships, corporate partnership and volunteer programs. This position requires an individual who is a strategic thinker, can anticipate and troubleshoot possible issues that may arise in volunteer and external partnership development.

CMO EL Coordinator
The CMO EL Coordinator reports to the CAO. The Coordinator provides direct supplemental services to English Learners and teachers of EL at all consortium member schools. The EL Coordinator supports implementation of the LEA's EL Master Plan and Program and ensures that all appropriate EL services are being delivered at each member school.

Academic Assistant and Document Controller
The Academic Assistant and Document Controller provides assistance to the administrative team. Duties include, but are not limited to: answering phones, producing reports for district and government agencies, and performing diverse managerial responsibilities within the areas and limits of authority as delegated by the school principal.

Data Manager and SIS Coordinator
The Data Manager and SIS Coordinator leads the implementation and subsequent operations of both the Student Information System and the Library Automation System within the MPS Site.

Senior Financial Analyst ("SFA")
The Senior Financial Analyst monitors and oversees accounting, budgeting, accounts payable, payroll, cash management, financial reports, audits, and fiscal compliance and reporting. The SFA ensures that Magnolia has the accounting and compliance systems and procedures in place to support effective school operations and will work closely with the school principals, program and operations leaders, and the accounting staff.

Capital Projects and Facilities Manager
The Capital Projects and Facilities Manager is responsible for managing the design, planning, construction and maintenance of equipment, machinery, buildings and other facilities. The Facilities Manager plans, budgets and schedules facility modifications, including estimates on equipment, labor materials and other related costs.

Director of Human Resources
The Director of Human Resources is responsible for executing the direction of human resources operations and support across all employee types including faculty and non-faculty employees. This

includes interpretation of MPS HR policies, providing consultation and advice on HR issues and concerns, and implementing HR strategies and plans within the MERF.

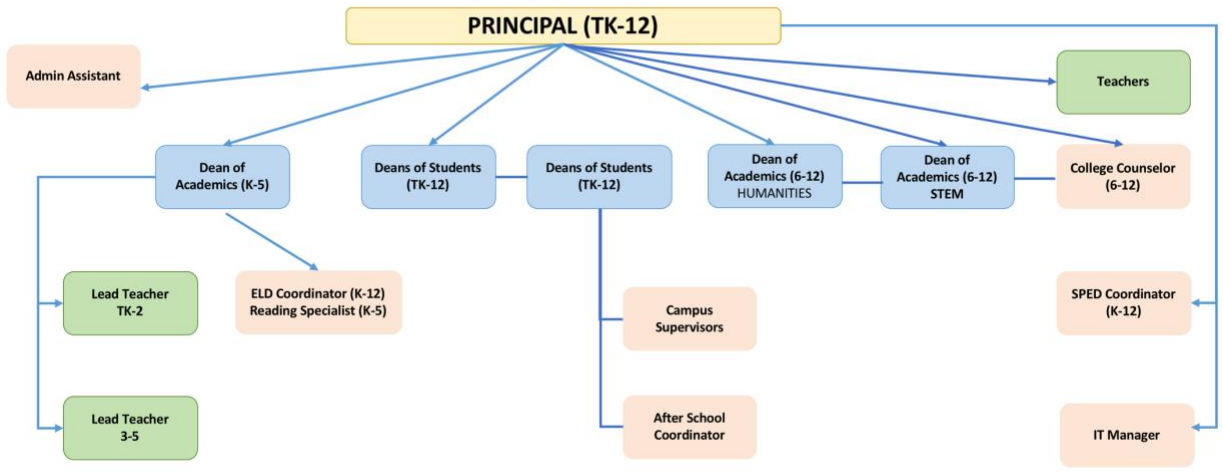
HR Administrator
This position acts as a liaison between employees and provides administrative support to the HR function as needed (e.g., correspondence generation, record keeping, file maintenance, Human Resource Information System ("HRIS") entry). The HR Administrator also ensures plans are administered in accordance with federal and state regulations and plan provisions are followed.

Math Coach
The Math Coach is a certified teacher who works with classroom teachers in assisting with the full implementation and monitoring of the District's adopted math program in response to intervention needed for student achievement. The Math Coach conducts demonstration lessons to ensure that all teachers have been trained to an advanced level of delivery and are using the instructional materials as designed.

Current Organizational Chart of MSA-Santa Ana

MSA-Santa Ana is not independent from the rest of the MPS Charter Schools and Home Office. The Charter School personnel report to their Charter School principal who, in turn, reports to the Home Office Chief Operation Officer. The Chief Operations Officer ensures that the Charter School receives effective operational, academic, and financial support from the Home Office staff on a shared basis with the rest of the MPS Charter Schools.

MSA-SA ORG CHART



While full job descriptions are provided as required in Element 5, the following briefly summarizes the leadership team roles at MSA-Santa Ana:

Principal
The Principal is the senior authority at the Charter School and is responsible for the day-to-day operation of the Charter School. The Principal is the educational and instructional leader of the Charter

School, and collaborates with the Chief Academic Officer on school operations and management. The Principal serves as the primary contact with the SBE as required.

Deans of Academics
The Deans of Academics coordinate all academic activities, leads professional development, and oversees curriculum, instruction, and assessment at the Charter School.

Deans of Students
The Deans of Students provides for enforcement of school rules, oversees appropriate and reasonable student discipline, and helps students develop positive behavior through a student discipline management system.

GOVERNING BOARD COMPOSITION AND MEMBER SELECTION

The current Board consists of nine dedicated individuals. Each member of the Board has been carefully chosen for his/her passion and commitment to the MPS vision and mission, dedication to education, area of professional expertise, service to the community, and ability to support the vision and mission of MPS. No current employees may serve on the Board of Directors.

Each director shall hold office for five (5) years and until a successor director has been designated and qualified. Board terms are renewable upon mutual consent between the Board and the member. MPS's governance structure provides for staggered terms; this is accomplished through our Bylaws by appointing members of the Board at different times and for staggered terms.

In accordance with the Bylaws, all directors are designated by a vote of the existing Board of Directors. Any vacancy occurring on the Board of Directors shall be filled in accordance with the Bylaws. Any member of the community may refer a potential candidate to the Board. The Chairman of the Board of Directors will appoint a committee to designate qualified candidates for election to the Board of Directors. This Nominating Committee shall make its report and forward it to each board member with a list of all candidates nominated by the committee. The Board shall strive to include directors who have expertise in education, law, finance, non-profit management, community engagement and more. The Board is committed to maintaining community representation on the Board (e.g., persons who live within the communities where our schools reside). Although not required, the Board will strive to create an odd number of Directors for voting purposes. The Board will strive to seat new Directors as promptly as possible upon any vacancy or change in the Board's designated number of directors.

Pursuant to California Education Code § 47604(b), the SBE reserves the right to appoint a representative to MPS' Board. If the SBE chooses to do so, MPS may choose to appoint an additional member to ensure that the Board is maintained with an odd number of directors.

GOVERNANCE PROCEDURES AND OPERATIONS

BOARD MEETINGS AND DUTIES

All meetings of the Board and its committees shall be called, noticed, and held in compliance with the provisions of the Brown Act. The Board shall meet annually for the purpose of organization,

appointment of officers, and the transaction of such other business as may properly be brought before the meeting. This meeting shall be held at a time, date, and place as may be specified and noticed by resolution of the Board.

Regular meetings of the Board of Directors shall be held monthly at a date and time set by the Board (the second Thursday of the month, unless otherwise stated). Meetings will be held in person in a location within the Board's jurisdiction. The schedule for regular Board meetings will be included in the Charter School's monthly calendar that will be distributed to all parents at the Charter School. Meeting notices and agendas will be made available and posted to the public prior to board meetings (both online posting as well as physical posting at the school site for public viewing on the school's bulletin board, front gate, and/or school entrance). For all regular meetings, an agenda will be posted 72 hours in advance. A book of minutes of all meetings, proceedings, and actions is kept at the MPS Home Office or such other place as the Board may direct according to its Bylaws. All of our approved minutes are accessible online through our Board on Track platform, which is linked on our website giving easy access to parents and stakeholders. In accordance with the Brown Act, special meetings of the Board may be held only after twenty-four (24) hours' notice is given to each director and to the public through the posting of an agenda.

As a multi-jurisdictional entity and per filings with the Fair Political Practices Commission ("FPPC"), the Brown Act authorizes MPS to hold its meetings in one of several counties across the state. (Government Code Section 54954(b).) To ensure public participation for Orange County stakeholders, MPS provides video and/or phone conferencing access at its school site within the District's boundaries. This allows members of the public to watch and participate in Board meetings via live video and/or phone conferencing capabilities from the Charter School, homes, or the location of their choice. Information about the participation procedure is included on the agenda and information web pages for the meetings. All participants/speakers have access to language translation services if requested in advance.

Members of the Board may participate in teleconference meetings so long as all of the following requirements in the Brown Act are complied with:

- At a minimum, a quorum consisting of a majority of the members of the Board shall participate in the teleconference meeting from locations within the boundaries of a school district in which at least one of the charter schools operated by MPS operates;
- All votes taken during a teleconference meeting shall be by roll call and in compliance with Brown Act;
- If the Board elects to use teleconferencing, it shall post agendas at all teleconference locations with each teleconference location being identified in the notice and agenda of the meeting;
- All locations where a member of the Board participates in a meeting via teleconference must be fully accessible to members of the public and shall be listed on the agenda;
- Members of the public must be able to hear what is said during the meeting and shall be provided with an opportunity to address the Board of Directors directly at each teleconference location; and
- The agenda shall indicate that members of the public attending a meeting conducted via teleconference need not give their name when entering the conference call.

MPS has adopted a Conflicts of Interest Policy that complies with the Political Reform Act, Corporations Code, and SBE policy. The Board of Directors attends an annual in-service for the purposes of training

individual Board members on their responsibilities with topics including at minimum, Conflicts of Interest and the Brown Act.

The Board's responsibilities include, but are not limited to, the following:

- Exercises fiduciary role to ensure that the Charter School is properly managed;
- Maintains legal status; ensures the proper paperwork is submitted to governmental agencies;
- Reviews financial and business dealings and exercises proper judgment in avoiding conflicts of interest;
- Approves and monitors the annual budget and budget revisions;
- Reviews and approves periodic financial reports (balance sheet, income statement, changes in financial position);
- Determine the methods of raising revenue and approving all debts;
- Ensures that proper internal controls are in place and maintained;
- Establishes mission and strategic direction for the organization and approves goals and objectives designed to achieve those ends;
- Reviews strategic plan and progress;
- Assesses program evaluation plan;
- Assesses compliance/progress in achieving educational and other outcomes agreed to in the charter petition;
- Develop, adopt and periodically review written policies;
- Hires CEO and evaluates the CEO's performance;
- Assures long-range commitments of resources; establishes a fund development plan and participates in its implementation;
- Establishes and communicates clear expectations of Board membership;
- Assures effective participation of all directors;
- Defines, communicates and assures the role of the Board, committees, and CEO in making decisions;
- Promotes the organization to parents and the general public, including serving as an emissary of the organization to the broader community;
- Promotes cooperative action with other charter and traditional public schools, including activities and occasions when the Charter School should take part in coalitions, shared programs, and joint action;
- Approves awarding of contracts in excess of the delegated authority adopted. Our purchasing software has a control feature that limits approval authority per position as stated in the Fiscal Policy PUR101: up to $5,000 for Principals, up to $10,000 for Executive Team, up to $25,000 for CEO/Superintendent, over $25,000 for MPS Board of Directors. The Board reserves the right to update its fiscal policies, including approval authorities, from time to time in public meetings.
- Approves charter resolutions as necessary and submit requests for material revisions as necessary to the authorizer for consideration;
- Appoints an administrative panel or act as an appellate hearing body and take action on recommended student expulsions;
- Recruits and appoints new Board members and provide for orientation training;
- Maintains Board operations; and,
- Assesses its own performance.

The Board may initiate and carry on any program or activity or may otherwise act in a manner which is not in conflict with or inconsistent with or preempted by any law and which is not in conflict with this charter or the purposes for which MPS and its schools are established.

The Board may execute any powers delegated by law to it and shall discharge any duty imposed by law upon it and may delegate to an employee of MPS any of those duties such as, but not limited to budget approval or revision, contract approval, approval of the fiscal audit and performance reports, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Such delegation will:

- Be in writing;
- Specify the MPS Site designated;
- Describe in specific terms the authority of the Board of Directors being delegated, any conditions on the delegated authority or its exercise and the beginning and ending dates of the delegation; and
- Require an affirmative vote of a majority of Board members.

BOARD COMMITTEES

The Board, by resolution adopted by a majority of the directors then in office, may create one or more committees, each consisting of two or more directors and no one who is not a director, to serve at the pleasure of the Board. Appointments to committees of the Board shall be by majority vote of the authorized number of directors. The Board may appoint one or more directors as alternate members of any such committee, who may replace any absent member at any meeting. Any such committee shall have all the authority of the Board, to the extent provided in the Board's resolution, except that no committee may:

- Take any final action on any matter that, under the California Corporations Code, also requires approval of the members or approval of a majority of all members;
- Fill vacancies on the Board or any committee of the Board;
- Amend or repeal bylaws or adopt new bylaws;
- Amend or repeal any resolution of the Board that by its express terms is not so amendable or subject to repeal;
- Create any other committees of the Board or appoint the members of committees of the Board;
- Expend corporate funds to support a nominee for director if more people have been nominated for director than can be elected; or
- Approve any contract or transaction to which the corporation is a party unless delegated such authority by the full board.

Meetings and actions of committees of the Board shall be governed by the Brown Act. Minutes of each meeting shall be kept and shall be filed with the corporate records.

STAKEHOLDER INVOLVEMENT

All stakeholder groups within the school community play a vital role in advancing the vision and mission of MSA-Santa Ana and its programs. MPS is committed to ensuring that all stakeholder groups – staff, families, students and community members – have a voice in matters critical to the Charter School's success. MPS strongly encourages parents to participate in and share the responsibility for the educational process and educational results of MSA-Santa Ana. In addition to parent representatives on the Board of Directors, parents are active participants in developing local school policies and leading efforts to engage the support of the community, making recommendations about issues related to the Charter School, and reviewing parental and community concerns. The following are the primary mechanisms through which stakeholders as the school site impact decision-making:

SCHOOL SITE COUNCIL ("SSC")

The School Site Council is a body that works with the Principal to develop, review, and evaluate school programs. The SSC consists of:

- The Principal
- 4 teacher representatives selected by teachers at the Charter School
- 1 other school personnel selected by peers at the Charter School
- 3 parents of students attending the Charter School selected by such parents
- 3 students selected by students attending the Charter School

The SSC meets at least four times a year and makes recommendations and participates in a shared decision-making process regarding matters of interest to families and teachers, including budget priorities, approval of Title I budget, resource allocation, school events/activities and fundraising at the local school level. The SSC also develops and approves Single Plan for Student Achievement, recommends it to the Board for implementation, and evaluates its effectiveness annually.

The Charter School will use their website to update parents and stakeholders with their school calendar, meeting dates, accountability plans, upcoming events, and more.

The Principal is responsible for communicating the SSC's recommendations to the CEO and/or Board (though all parents/teachers are invited to attend any Board meeting per the Brown Act.)

ENGLISH LEARNER ADVISORY COMMITTEE ("ELAC")

State law mandates each school site with 21 or more students of Limited English Proficiency in attendance, regardless of language, to form a functioning English Learner Advisory Committee. The ELAC will be formed at MSA-Santa Ana when the site has 21 or more students of LEP. The ELAC membership will include: Parents of ELs (at least the same percentage of the ELAC membership as ELs constitute of the Charter School's total student population), Charter School staff, and /or community members as long as the minimum percentage requirement for EL parents is maintained. The ELAC will advise the Principal and staff on programs and services for English Learners, and participate in annual goal setting and evaluation of EL achievement and needs (including the LCAP).

PARENT TASK FORCE ("PTF")

The PTF is the Parent/Guardian Club at MSA-Santa Ana, with a mission to contribute in building a rich supportive environment for students. The PTF works in partnership with the administration, teachers and parents of MSA-Santa Ana. All parents or guardians of students currently enrolled in MSA-Santa Ana are general members of the PTF, who elect leaders annually including a President, Vice President, Secretary, and Treasurer. The PTF holds monthly members' meetings during the school year.

The PTF facilitates students' success in the 21st century classroom and workforce by promoting and supporting high levels of academic performance, while fostering positive growth in social/emotional behaviors and attitudes. This will include, but is not limited to:

- Supporting the Charter School in its mission;
- Promoting communication and mutual respect among parents, faculty and administration;

- Supporting the educational and social objectives of the Charter School through PTF-sponsored programs;
- Providing direct financial support to the Charter School through organized fundraising events;
- Providing financial assistance to programs that directly impact teachers and students;
- Organizing community-building and civic engagement events.

There are various opportunities for parents to volunteer at MSA-Santa Ana. For example, they may help in classrooms, lead extra-curricular activities, assist in event planning, tutor, assist with lunch distribution, and attend instructional field trips. All parents are encouraged – but not required – to contribute 10 hours per year to the Charter School. Parents are encouraged to volunteer at Back to School Nights, PTF meetings, newsletter and various other opportunities. Parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School.

STUDENT-TEACHER-PARENT PORTAL

As noted above, MSA-Santa Ana uses Illuminate or equivalent, an online web portal, to enable parents, students, and teachers to communicate more efficiently. Teachers have a webpage for every class in which they post course material, homework assignments, projects, course grade statistics and records of students' grades on quizzes, tests, class participation and homework assignments. Students and parents use confidential passwords to log on.

Families without home computers are encouraged to come to the Charter School and use one of the available computer stations. Classes are held at the Charter School on how to use the portal as well as how to access it via computers, smartphones and free Internet access at public libraries.

The charter school will use its website to support stakeholder involvement by actively updating the school calendar with meetings and opportunities for parents in both English and Spanish. Feedback from parents is collected through our PTF meetings and our yearly stakeholder surveys. We also give parents the opportunity to be a part of the LCAP process during the School Site Council meetings.

ELEMENT 5: EMPLOYEE QUALIFICATIONS

"The qualifications to be met by individuals to be employed by the charter school." **(Ed. Code § 47605(b)(5)(E).)**

Teachers and all paraprofessionals will meet the requirements for employment of California Education Code section 47605(l) and the applicable provisions of federal law. All teachers at MSA-Santa Ana will be required to have credentials equivalent to those required by the SBE as applicable and required by law for Core and College-preparatory courses. MSA-Santa Ana's core and college preparatory classes are English Language Arts, math, science and history/social science.

MPS prohibits discrimination and harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation.

SCHOOL SITE EMPLOYEE POSITIONS AND QUALIFICATIONS

All personnel commit to the MPS mission and vision and abide by the MPS Employee Handbook. All employees' job descriptions and work schedules are reviewed and modified as needed to meet the needs of the Charter School and its students. The job descriptions are based on the job duties for each employee and determined as part of the individual employment agreement.

PRINCIPAL

The Principal will orchestrate program and service delivery to students through teaching and auxiliary staff. Deans will assist the Principal in instructional program administration and student activities and services.

Skills and Qualifications for the Principal:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative credential or related Master's Degree preferred
- Experience in teaching STEAM related subjects and administrative duties preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills

Principal's Responsibilities and Duties:

- Monitor instructional and administrative processes to ensure that program activities are related to program outcomes and use findings to take corrective actions

- Report to and consult with the Home Office
- In collaboration with the CEO and Human Resources Department, hire, supervise, and evaluate the faculty and Charter School staff
- Hire, supervise, and evaluate the faculty and charter school site staff
- Comply with local, state and federal laws and regulations affecting the Charter School
- Compile, maintain, and file all physical and computerized reports, records, and other documents required by law and MPS policy, including accurate and timely reports of maximum attendance to requisition textbook
- Manage use of school facilities and supervise maintenance of facilities to ensure a clean, orderly and safe campus
- Direct and manage instructional extracurricular and intramural programs
- Oversee the Special Education program as described in Element 1
- Work with faculty and students to implement a student discipline management system that encourages positive student behavior and enhances the school climate
- Ensure that school rules are uniformly observed and that student discipline is appropriate and equitable in accordance with the Student/Parent Handbook
- Conduct conferences about student and school issues with parents, students, and teachers
- Demonstrate awareness of school and community needs and initiate activities to meet those needs
- Use appropriate and effective techniques to encourage community and parent involvement
- Communicate with the chartering agency and attend necessary meetings
- Communicate with the District when required

DEAN OF ACADEMICS

Skills and Qualifications for the Dean of Academics:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative and/or teaching credential preferred
- Experience in teaching science and/or technology and administrative duties
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills

Dean of Academics' Responsibilities and Duties:

Academic Program

- Assist with curriculum developments and improvement
- Supervise textbook review and textbook ordering
- Oversee the development of curriculum, lesson plans and instruction in the classroom
- Update course descriptions and offerings to UC Doorways, school manual and school website
- Coordinate teacher and student involvement of after school program
- Evaluate course credits for all incoming high school students
- Responsible for developing and changing of daily class schedule
- Coordinate all academic activities with the department chairs
- Oversee all instructional fieldtrip planning

- Coordinate failing letters and summer school/preparation
- Bring academic and event calendar to weekly administrative meetings

Student Performance

- Help students prepare a Four-Year Plan
- Conference with students/parents on academic issues
- Responsible for scheduling and coordination of the tutorial program and instructional after school/Saturday school activities
- Assess grade reports and mid-quarter reports before they go home to families
- Prepare standardized testing schedules, and inventory for standardized testing in a combined effort with the administrative assistant
- Oversee homework, class work, projects, tests, for teachers in Illuminate or equivalent
- Report weekly at administration meeting any teachers who are not using Illuminate or equivalent properly
- Review student progress at the end of each quarter and notify parents of students on academic probation
- Maintain list of high honor/honor students

School Improvement

- Assist in organization of school improvement plan with staff, parents and community members

Personnel Management

- Hold teacher evaluation conferences based on records of performance evaluation
- Administration and Fiscal/Facilities Management
- Oversee school operations in Principal's absence
- Assist in scheduling student activities by participating in the development of class schedules, teacher assignments and extracurricular activity schedules
- Oversee student attendance records and assist the office manager on truancy issues
- Aid in safety drill practices and inspections

Staff Development

- Hold teacher orientation and in-service training throughout the year
- Regularly prepare items for staff development for weekly faculty meetings and attend weekly administrative meetings
- Conference with teachers on academic issues in the classroom
- Conduct formal and informal teacher observations

DEAN OF STUDENTS

Skills and Qualifications for the Dean of Students:

- Bachelor's degree required (preferably in Education, or a STEAM related field)
- Administrative and/or teaching credential preferred
- Experience in teaching and administrative duties preferred
- Up-to-date computer and technology knowledge
- Knowledge of school law, finance, and curriculum
- Ability to manage personnel
- Ability to interpret policy, procedures, and data
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills

Dean of Students' Responsibilities and Duties:
Student Management

- Provide for supervision of students during non-instructional hours
- Help students develop positive behavior through a student discipline management system
- Provide for uniform enforcement of school rules and oversee appropriate and reasonable student discipline
- Hold parent/teacher/student conferences regarding student and school issues
- Demonstrate use of productive and efficient skills to raise community and parent involvement

Supervision

- Supervise teachers with their before/after school and lunch duties
- Supervise at transition periods, lunch, before and after school

Discipline

- Oversee discipline issues for teachers in Illuminate or equivalent
- Coordinate and chair the Charter School's Restorative Justice Committee

Support Services

- Supervise safety and welfare of students
- Manage support services including transportation, custodial and cafeteria

TEACHERS

The primary role and purpose of a teacher is to provide students with appropriate educational activities and experiences that will enable them to fulfill their potential for intellectual, emotional, physical and social growth. Teachers will help students develop the skills necessary to be productive members of society.

Skills and Qualifications:

- B.A. or B.S. (as appropriate) degree
- Teaching credential, certificate, permit or other documentation required by laws and regulations as they apply to charter schools
- Understanding of subjects assigned
- Knowledge of curriculum and instruction
- Capability of instructing students and managing their behavior
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication and interpersonal skills

Teacher's Responsibilities and Duties:
Instructional Strategies

- Design, write and use lesson plans that conform to the charter's curriculum; ensure written plans are available for review by the Dean of Academics
- Ensure lesson plans show modifications for differences in student learning styles
- Teach instructional subjects according to guidelines established by California Department of Education, charter polices and administrative regulations
- Implement appropriate instructional and learning strategies, activities, materials and equipment to ensure comprehension of learning styles and student needs
- Design instructional activities by using data from student learning style assessments

- Collaborate with special education teachers on student Individualized Education Programs to ensure all modifications are met
- Collaborate with staff to determine charter requirements for the instructional goals, objective and methods
- Produce and oversee teacher aide and volunteer assignments
- Employ technology practices to strengthen the instructional process

Growth and Development

- Help students assess and enhance their study methods and habits
- Produce formal and informal testing to evaluate student success
- Coordinate and manage extracurricular duties as assigned
- Sponsor outside activities approved by the Principal
- Serve as an example for students, support mission of the charter

Classroom Management and Organization

- Prepare classroom to enhance learning and to aid in physical, social and emotional development of students
- Manage student behavior in agreement with the Student/Parent Handbook
- Ensure necessary and reasonable measures are taken to protect students, equipment, materials and facilities
- Provide input on book, equipment and material selection

Communication

- Establish communication rapport with parents, students, Principals, deans and teachers through conferences.
- Create and maintain a professional relationship with colleagues, students, parents and community members.
- Present information accurately through clear communication skills

Other

- Enrich job skills through professional development activities
- Keep up to date on and abide by state and charter regulations and policies for classroom teachers
- Gather, manage and file all reports, records and other documents required
- Be active in faculty meetings and assist in staff committees as necessary

Special Education Teacher

The primary role and responsibility of a Special Education Teacher is to provide services to special education students with appropriate learning activities and experiences that will enable them to fulfill their potential for intellectual, emotional, physical and social growth. The Special Education teacher will develop student ability level instructional materials through modified curriculum and prepared lesson plans. The Special Education teacher will conduct work in self-contained, team, departmental or itinerant capacity as necessary. Special education teachers and paraprofessionals who are authorized to handle crisis situations and physically restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute, prior to placement in the classroom.

Skills and Qualifications:

- B.A. or B.S. degree
- Master's degree preferred
- California Commission on Teacher Credentialing certificate, permit or other documentation equivalent to what a special education teacher in other public schools would be required to hold

- Knowledge of special needs of students in assigned area
- Knowledge of IEP goal setting process and implementation
- Knowledge of curriculum and instruction

Special Education Teacher's Responsibilities and Duties:

- Work in conjunction with students, parents and other members of staff to develop IEPs
- Design, write and use instructional, therapeutic or skill development programs for assigned students and ensure written plan is available for review
- Ensure student needs and learning styles are met through creation and implementation of appropriate instructional and learning strategies, activities, materials and equipment
- Collaborate with classroom teacher on student IEP to ensure all modifications are met and help special education students in regular class when appropriate
- Design instructional activities by using data from student learning style assessments
- Ensure IEP guidelines are met when presenting subject matter
- Use an assortment of media and techniques to meet the needs and capabilities of each student assigned
- Produce and oversee teacher aide and volunteer assignments
- Employ technology practices to strengthen the instructional process
- Produce formal and informal testing to evaluate student success
- Oversee or ensure personal care, medical care and feeding of students as stated in IEP
- Coordinate and manage extracurricular duties as assigned
- Sponsor outside activities approved by the charter principal
- Serve as an example for students, support mission of the charter
- Prepare classroom to enhance learning and to aid in physical, social and emotional development of students
- Control student behavior and implement discipline plan. This includes handling crisis situations and physically restraining students as necessary according to IEPs.
- Collaborate with the classroom teachers regarding student behavior management programs according to IEPs
- Collaborate with Charter School staff and outside resources regarding education, social, medical and personal needs of students
- Ensure necessary and reasonable measures are taken to protect students, equipment, materials and facilities
- Provide input on book, equipment and material selection
- Ensure good communication rapport with parents, students, principals and teachers through conferences
- Create and maintain a professional relationship with colleagues, students, parents and community members
- Present information accurately through clear communication skills
- Enrich job skills through professional development activities
- Keep up to date on and abide by state and charter regulations and policies for classroom teachers
- Gather, manage and file all reports, records and other documents required
- Be active in faculty meetings and assist in staff committees as necessary
- Provide scalable instructional program leadership to all school leaders with specific responsibility for planning, development, implementation, assessment and improvement across all schools.

College Counselor

The College Counselor reports to the Principal and is responsible for administering all aspects of the college search and admissions process.
Skills and Qualifications:

- B.A. or B.S. degree
- Excellent written and verbal communication skills, strong organizational ability and the ability to meet deadlines.
- Experience in college admissions or high school college counseling, teaching experience, and computer skills are plusses.
- Strong interpersonal, communication, and organizational skills; familiarity with the goals, objectives, and mission of an independent college preparatory school
- Ability to respond effectively to the needs of a diverse and demanding student and parent population; knowledge of colleges, their academic programs, admission policies, and financial policies and procedures.

Responsibilities and Duties:

- Educate students and parents about colleges, the college admissions process, trends, procedures, and testing; advising and supporting classes of 30-50 seniors and families as they go through the process; and helping students and families aspire realistically and choose wisely
- Meet with juniors and seniors, individually and in groups, to talk about process and individual college choices
- Advise 9th and 10th graders on curricular choices, as needed, and work with international students to understand U.S. college admissions, especially aspects unique to them
- Meet with all college admissions representatives who visit the school campus and facilitating meetings between college representatives and students
- Serve as a liaison with college admissions offices throughout the year
- Compile an annual Profile of the Charter School, as well as information on grade distributions in junior and senior courses and courses offered at the school
- Work with Office Staff to maintain records on seniors, including GPAs and transcripts
- Write an official school recommendation for each senior
- Create and update an annual College Search Handbook, a resource mailed to junior and senior parents each summer, with an extensive assembly of information about the college search process
- Keep parents informed through a monthly column, a newsletter for parents, and in letters about test dates, local college events, and financial aid
- Act as lead advisor to the senior class as a whole and advising several individual seniors each year, providing academic and personal counseling
- Work with the senior class on class events, class meetings provide an opportunity to disseminate information about the college application process
- Keep track of admission decisions, statistics, and make a report to the Board
- Make informational presentations to parents, such as the annual presentations to parents of 8th graders, parents of juniors, new parents, and the Parents' Association
- Maintain and disseminate information about standardized tests such as SAT and ACT
- Other duties as needed

AFTER SCHOOL COORDINATOR

The After School Coordinator is responsible for serving as a role model for students, providing homework support, and maintaining student safety.

Skills and Qualifications:

- High School Diploma or G.E.D. Required;
- Ability to speak and write Standard English appropriate in a public school setting
- Must pass Live Scan (criminal background check via fingerprinting)
- Tuberculosis risk assessment

Responsibilities and Duties:

- Serve as a positive adult role model for children in the program through appropriate dress, speech, and attitude
- Provide homework assistance, academic enrichment and physical activity, using curriculum and materials provided by the program
- Create an engaging environment that fosters a sense of belonging that the students want to be in
- Support students in making positive behavior choices and take disciplinary measures when appropriate
- Engage children and youth by following, implementing, and assisting in creating lesson plans
- Ensure student safety by assisting in set up, break down, and ongoing maintenance in an effort to keep the school or community site clean and orderly
- Promote positive interactions between volunteers and students in accordance with child safety guidelines
- Maintain student safety by taking roll and reviewing sign-in/sign-outs for students and volunteers
- Identify student needs and communicate to the Site Coordinator, teachers, school administration, parents, and volunteers as appropriate
- Participate in staff development activities
- Other duties as needed

IT MANAGER

The IT Manager is responsible for providing assistance to the school site in the area of Information Technology.

Skills and Qualifications:

- Proven experience as IT manager or similar role
- Experience in network management and help desk support is appreciated
- Solid knowledge of IT systems and applications
- Understanding of TCP/IP protocols and LAN/WAN configuration
- Ability to troubleshoot and repair issues
- Strong communication and interpersonal skills
- Great attention to detail
- Excellent organizational and coordination abilities

- BSc/BA in information technology or computer science is preferred
- Certification (CompTIA Network+, CompTIA Security+ etc.) is a plus

Responsibilities and Duties:

- Institute protocols for the use of IT across departments and projects
- Provide advice on the most suitable IT choices
- Provide technical support or training for systems and networks
- Act as link between end users and higher level support
- Install and configure software and hardware (printers, network cards etc.)
- Monitor system and network performance
- Perform troubleshooting, repairs and data restoration
- Performance maintenance activities (e.g. backups)
- Maintain licenses and upgrade schedules
- Collaborate with other professionals to maintain standards and functionality

Language & Literacy Coach

The Literacy Coach will lead building efforts to increase literacy achievement for all student populations.

Skills and Qualifications:

- Multi-Subject Teacher Certification
- Five years recent experience teaching reading/aiding
- Teaching experience at more than one grade-level
- A deep level of understanding of the State Standards for English Language Arts
- Participation in comprehensive literacy training
- Evidence of success in working with adult learners
- Evidence of strong interpersonal skills
- Evidence of strong written communication and presentation skills
- Evidence of strong planning and organizational skills
- Evidence of successful leadership in reading and writing content at a grade level, building level or district level
- Experience in conducting reading and writing staff development
- Experience in mentoring/coaching teachers

Responsibilities and Duties:

- Assist teachers with the implementation of State Standards for English Language Arts
- Assist teachers with the continued implementation of the District's Literacy Plan
- Demonstrate exemplary literacy instruction for MPS teachers through the following researched-based practices: observation, coaching, model lessons, collaborative lesson planning, and small and large group professional development
- Plan and conduct Literacy team meetings
- Assist teachers in diagnosing individual student reading and writing weaknesses and match these areas of need with appropriate strategies and resources based on the State Standards for English Language Arts
- Monitor and report the effectiveness and progress of improved reading instruction and student performance
- Help make recommendations regarding instructional

EL Intervention Teacher

The English Language Intervention Teacher (Title III) develops and implements differentiated plans to support MPS's English Learners.
Skills and Qualifications:

- B.A. or B.S. (as appropriate) degree in subject matter.
- California Commission on Teacher Credentialing credential, certificate, permit or other documentation equivalent to what a teacher in other public schools would be required to hold
- Capability of instructing students and managing their behavior

Responsibilities and Duties:

- Utilize, refine, and implement existing ELD Plan across the Charter School
- Play a lead role in annual examinations and reclassification of ELs
- Develop and implement a plan for the fidelity and progress monitoring of the ELD Plan as well as the use of agreed upon instructional classroom practices
- Support and train (or arrange for training) teachers on the use of MPS ELD process and procedure.
- Produce, analyze, and publish quarterly reports on the progress of ELs at MPS

School Psychologist

The job of the School Psychologist was established for the purpose/s of developing strategies and interventions to assist students in succeeding; measuring and interpreting the intellectual, adaptive, academic, social and emotional development of children; interpreting results of psychological studies; and interpreting and applying state and federal codes.
Skills and Qualifications:

- Must possess a Master's degree and be eligible for a California License as a school psychologist.
- Must possess the ability to synthesize and interpret diagnostic and assessment data. Must possess a comprehensive knowledge of school psychology theory, child development, substance abuse education, tests and measurements, and crisis management.
- Must possess the ability to practically apply assessment, counseling, interviewing, and crisis intervention skills.
- Must possess the ability to work cooperatively as an interdisciplinary team member.
- Must possess excellent communication and time management skills.
- Must possess the ability to establish and maintain effective working relationships with community agencies, students, families, team members, and others.

Responsibilities and Duties:

- Identify and assess the learning, development, and adjustment characteristics and needs of individuals and groups, as well as, the environmental factors that affect learning and adjustment
- Use assessment data about the student and his/her environment(s) in developing appropriate interventions and programs
- Perform casework services with students and families to help resolve student's behavioral and social problems
- Select and administer age appropriate assessment methods and materials in order to determine then needs of the student

- Consult with teachers and other school personnel to obtain information regarding the reason for referral
- Gather background information on the student's psychological history by conducting behavioral observations, making home visits, conducting interviews, and reviewing school records
- Interpret assessment results and compile comprehensive psychological assessment reports that address the reason for referral and include appropriate recommendations
- Serve as a member of the interdisciplinary assessment team assigned to each school and work as a team member in making placement decisions, developing intervention plans, and planning programs to meet the special needs of children
- Communicate case findings and recommendations to teachers and other school personnel as needed
- Participate in eligibility committee meetings and contributes to the development of the Individualized Education Plan
- Serve as a resource to teachers and staff regarding psychological services and the academic/psychological needs of students
- Conference with and provide information, support, and counseling to parents/guardians of students
- Provide in-service training and workshops for teachers and staff regarding mental health issues and proper procedures for the identification and referral of students
- Organize and conduct specialized programs to include parent training classes and student support activities
- Conduct specialized individual and group counseling sessions to address specific emotional, social, and behavioral needs of students
- Serve as a liaison between the student, home, school, private counseling facilities and community resources such as social services, court services, and family service agencies
- Provide follow-up support and periodic re-evaluation services as necessary
- Act as a member of the school crisis team to provide intervention to students as necessary
- Make court appearances to present data and performs court-requested evaluations
- Compile monthly reports and maintains accurate case records
- Model nondiscriminatory practices in all activities
- Maintain adequate and current testing materials required by school psychologists

Special Education Aide

The primary role and purpose of a Special Education Aide is to provide assistance to the Special Education teacher for the physical and instructional needs of the charter students with disabilities in the special education program. The Special Education Aide will help implement educational programs, including self-help, behavior management and instructional programs for students. The Special Education Aide will work under direct supervision of a certified teacher and indirect supervision of the Principal. Special education aides who are authorized to handle crisis situations and physically restrain students will complete specialized training in behavioral interventions, such as Crisis Prevention Institute, prior to placement in the classroom.

Skills and Qualifications:

- Capable of working with children with disabilities
- Capable of following verbal and written instructions
- Capable of communicating effectively
- Able to use general office equipment

- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- High School Diploma

Special Education Aide's Responsibilities and Duties:
Instructional Support

- Prepare educational materials and displays for the classroom with the assistance of the classroom teacher
- Assist in keeping class neat and orderly
- Assist teacher in handling administrative records and reports
- Help substitute teachers with classroom layout, or other pertinent classroom management
- Assist with inventory, care and maintenance of equipment

Student Management

- Help physically disabled students according to their needs, including but not limited to transferring to and from wheelchairs, lifting, or positioning
- Help students with physical needs and personal care, including but not limited to feeding, bathroom needs, and personal hygiene
- Assist in student behavior management; this includes handling crisis situations and restraining disruptive or dangerous students as needed
- Take responsibility for learning and conforming to each student's special medical, physical, communicative and emotional needs
- Coordinate educational activities assigned by the teacher; help individual students or small groups
- Assist in overseeing students throughout school day, inside and outside classroom; this includes lunchroom, bus and playground duty
- Advise teacher on special needs or problems of individual students

Other

- Ensure confidentiality
- Enhance job skills by participating in staff development programs
- Be active in faculty meetings and special events as assigned

Substitute Teachers and Tutors

A pool of daily substitute teachers and tutors will be established for tutoring activities during weekdays and weekends under the flexible education program. All tutoring activities at MSA-Santa Ana are free of charge for all students.

Office Personnel/Manager

Clerical staff will be selected by the Principal on an applicant and interview basis. Selection will be based on experience and the ability to perform the job duties for that position.
Skills and Qualifications:

- Capable of working with students
- Capable of following verbal and written instructions
- Capable of communicating effectively
- Knowledge of office management
- Able to use general office equipment

- Up-to-date computer and technology knowledge
- Proven commitment to the values, mission and vision of Magnolia Public Schools
- Demonstrated belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education
- Exceptional organizational, communication, public relations, and interpersonal skills.
- Three years of experience in increasingly responsible role similar to office management
- HS Diploma supplemented by additional training in office
- Bilingual English/Spanish preferred but not required
- Excellent written and verbal communication skills
- Comfort with fast-paces environment

Responsibilities and Duties:

- Answering phones
- Filing reports
- Enrolling students
- Managing and monitoring office operations in collaboration with the Charter School administration
- Ordering and purchasing supplies and vendor management
- Developing and implementing clerical and administrative procedures for daily school operations
- Preparing correspondence, reports, bulletins, files, forms, memorandums, and performing other duties as assigned
- Bilingual translation and communication with parents

PARAPROFESSIONALS

Charter School shall comply with the Title I paraprofessional requirements[22] as defined by the ESEA:

Title I paraprofessionals whose duties include instructional support must have:

1. High school diploma or the equivalent, and
2. Two years of college (48 units), or
3. A. A. degree (or higher), or
4. Pass a local assessment of knowledge and skills in assisting in instruction.
   (This is a locally approved assessment. Local education agencies may develop their own assessment or use an existing assessment so long as it measures the knowledge and skills in assisting in instruction. Many districts, and MPS, use the California Basic Educational Skills Test ["CBEST"] for this purpose).

Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance, and similar positions do not have to meet these requirements; however, all must demonstrate a proven commitment to the values, mission and vision of Magnolia Public Schools, as well as a belief in the inherent worth and dignity of all students and their families, and their right to a supportive learning environment and high quality public education.

Appropriate records of credentials held by MSA-Santa Ana teachers and supporting documentation will be monitored and maintained by the Principal at the charter school site and Human Resources at the MPS Home Office. Credentials will be monitored annually in compliance with state and federal law.

[22] http://www.cde.ca.gov/nclb/sr/tq/paraprofessionals.asp

ELEMENT 6: HEALTH AND SAFETY PROCEDURES

"The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237." **Ed. Code § 47605(b)(5)(F).**

The health and safety of MSA-Santa Ana staff and students is the highest priority for the school. As such, MSA-Santa Ana has adopted and will continue to implement full health and safety policies and procedures and risk management policies at its school site in consultation with its insurance carriers and risk management experts.

Charter School will continue to train all staff at least annually in these Policies and Procedures. Emergency response drills will continue to be held regularly for all students and staff. Charter School will periodically review, and modify as necessary, its Health and Safety Policies and Emergency Policies and Procedures, and keep these documents readily available for use and review upon request.

The Health and Safety Policies and Procedures will continue address, at a minimum, the following:

- Child Abuse Reporting
- Child predators (gates, walls, child pick-up and drop-off, etc.)
- Sexual/Other Harassment Reporting
- Asbestos management
- ADA adherence
- Food service safety
- Blood borne pathogens
- Pest management
- FERPA
- Immunizations
- Tuberculosis Risk Assessment and Examination
- Medication in school
- Vision, hearing, and scoliosis screening
- Student Illness & Injury Policies

Emergency Policies and Procedures will address, at a minimum, the following:

- Earthquake
- Fire
- Flood
- Terrorist threats
- Hostage situations
- School lock-down procedures
- Evacuation plans
- Safety drills
- Annual testing of sprinkler systems, fire extinguishers, and fire alarms

The following is a summary of the Health and Safety Policies and Procedures of MSA-Santa Ana:

PROCEDURES FOR BACKGROUND CHECKS

All employees of MPS, all volunteers who will be performing services that are not under the direct supervision of a credentialed Charter School employee, and any onsite independent contractors or vendors having unsupervised contact with students, will be required to submit to criminal background checks and fingerprinting in accordance with Education Code Sections 44237 and 45125.1. All applicants for employment must submit two sets of fingerprints to the California Department of Justice for the purpose of obtaining a criminal record summary. The Charter School shall not hire any person, in either a certificated or non-certificated/classified position, who has been convicted of a violent or serious felony except as otherwise provided by law, pursuant to Education Code Sections 44830.1 and 45122.1. Volunteers who will be outside the direct supervision of a credentialed employee shall be fingerprinted and receive background clearance prior to volunteering on campus. The Principal of MSA-Santa Ana shall monitor compliance with this policy (the Board President shall monitor fingerprinting and background clearance of the Principal and MPS staff) and make quarterly reports to the Board. Charter School will maintain on file and available for inspection evidence that the school has performed criminal background checks for all employees and documentation that vendors have conducted required criminal background checks for their employees prior to any unsupervised contact with students. MSA-Santa Ana shall also ensure that the Principal receives subsequent arrest notifications of all individuals subject to background checks from the Department of Justice to ensure the ongoing safety of its students.

ROLE OF STAFF AS MANDATED CHILD ABUSE REPORTERS

In accordance with state law, all MPS employees will be mandated to report any suspected child abuse and will follow all applicable reporting laws. Staff members will receive in-service training in accordance with Education Code Section 44691 and sign a document verifying notification and understanding regarding this responsibility.

BLOOD-BORNE PATHOGENS

Charter School shall meet state and federal standards for dealing with blood-borne pathogens and other potentially infectious materials in the workplace. Charter School will continue to maintain a written "Exposure Control Plan" designed to protect employees from possible infection due to contact with blood-borne viruses, including human immunodeficiency virus (HIV) and hepatitis B virus (HBV). Whenever exposed to blood or other body fluids through injury or accident, students, and staff should follow the latest medical protocol for disinfecting procedures.

TUBERCULOSIS RISK ASSESSMENT AND EXAMINATION

Employees, and volunteers who have frequent or prolonged contact with students, will be assessed and examined (if necessary) for tuberculosis prior to commencing employment and working with students, and for employees at least once each four years thereafter, as required by Education Code Section 49406.

IMMUNIZATIONS

Charter School will adhere to all laws related to legally required immunizations for entering students as is required of non-charter public schools pursuant to Health and Safety Code §120325-120375, and Title 17, California Code of Regulations §6000-6075. All rising 7th grade students must be immunized with a pertussis (whooping cough) vaccine booster.

MEDICATION IN SCHOOL

Charter School will adhere to Education Code Section 49423 regarding administration of medication in school. Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members.

VISION/HEARING/SCOLIOSIS SCREENINGS

MSA-Santa Ana shall adhere to Education Code §49450, *et seq.*, to provide screening of students' vision, hearing, and scoliosis to the same extent required of non-charter public schools.

DIABETES

MSA-Santa Ana will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.
4. A description of treatments and prevention methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

SUICIDE PREVENTION POLICY

The MPS Board of Directors recognizes that suicide is a major cause of death among youth and should be taken seriously. To attempt to reduce suicidal behavior and its impact on students and families, the Board of Directors has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this Suicide Prevention Policy has been developed in consultation with MPS and community stakeholders, MPS-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, law enforcement, and community organizations. MPS must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School shall appoint an individual (or team) to serve as the suicide prevention point of contact for Charter School. This policy shall be reviewed and revised at least annually in conjunction with the previously mentioned community stakeholders.

EMERGENCY PREPAREDNESS

Charter School shall adhere to an Emergency Preparedness Handbook containing procedures for safety, drafted specifically to the needs of the school facility. This handbook shall include but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. All staff members will receive detailed training on emergency procedures. The handbook shall be kept on file for review.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

FEMININE HYGIENE PRODUCTS
The Charter School will stock at least 50% of its restrooms with feminine hygiene products, and shall not charge students for these products, pursuant to Education Code Section 35292.6.

NUTRITIONALLY ADEQUATE FREE OR REDUCED PRICE MEAL
The Charter School shall provide each needy student, as defined in Education Code Section 49552, with one nutritionally adequate free or reduced-price meal, as defined in Education Code Section 49553(a), during each school day.

CALIFORNIA HEALTHY YOUTH ACT
The Charter School shall teach sexual health education and human immunodeficiency virus ("HIV") prevention education to students in grades 7-8, at least once, pursuant to the California Healthy Youth Act (Education Code Section 51930, *et seq.*).

SAFETY PLAN
Charter School shall adopt and annually update a comprehensive school safety plan.

DRUG FREE/ALCOHOL FREE/SMOKE FREE ENVIRONMENT
Charter School shall function as a drug, alcohol and smoke-free environment.

FACILITY SAFETY
Charter School shall comply with Education Code Section 47610 by utilizing facilities that are either compliant with the Field Act or facilities that are compliant with the California Building Standards Code. The Charter School agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times. The Charter School shall conduct fire drills as required under Education Code Section 32001.

COMPREHENSIVE ANTI-DISCRIMINATION AND HARASSMENT POLICIES AND PROCEDURES
Charter School is committed to providing a school that is free from discrimination and sexual harassment, as well as any harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. MSA-Santa Ana shall develop a comprehensive policy regarding discrimination or harassment (including employee to employee, employee to student, and student to employee misconduct). Misconduct of this nature is very serious and will be promptly addressed in accordance with MSA-Santa Ana's policies.

FERPA
MPS, its employees and officers, will comply with the Family Educational Rights and Privacy Act (FERPA) at all times.

STUDENT RECORDS
Charter School will continue to adhere to procedures related to confidentially and privacy of student records. Charter School will keep student records in a locked file cabinet to which only designated staff will have keys, in accordance with MPS policies. Student special education files will be kept in separate

locked cabinets to which only staff designated to have access shall have keys. Electronic student information systems will use password protected accounts to ensure the same limits on access to student files. In the event that a student enters the school upon transfer from an existing district school, the student's records will be requested from the respective district.

CUSTODIAN OF RECORDS

In accordance with California Department of Justice requirements, the CEO shall serve as MSA-Santa Ana's Custodian of Records.

ELEMENT 7: MEANS TO ACHIEVE RACIAL AND ETHNIC BALANCE

"The means by which the charter school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." **Ed. Code § 47605(b)(5)(G*).***

MSA-Santa Ana will continue to actively recruit a diverse student population who value the school's mission, are committed to the school's instructional and operational philosophy, and who benefit from the school's design.

District Demographics
As the seventh largest school district in California, the SBE enrolls more than 50,000 students in transitional kindergarten through 12th grade, at over 50 schools, including six public charter schools. The boundaries spread over 24 square miles.[23]

The following data shows MSA-Santa Ana vs. District enrollment in 2017-18 by ethnicity:

	# of students	% Hisp	% AA	% White	% Asian
SBE	53,131	92.9%	0.3%	2.6%	2.7%
MSA-Santa Ana	736	86.7%	1.1%	7.6%	2.2%

To be reflective of the general population residing within SBE, MSA-Santa Ana will pursue strategies to increase the percentage of enrollment for student racial and ethnic groups that do not have the same percentage of enrollment as in the District. Based on the comparative data, MSA-Santa Ana will strive to increase the percentage of enrollment by the end of the charter term. See the Recruitment Plan below.

Recruitment Plan
MSA-Santa Ana pursues a wide variety of venues for the distribution of information about the Charter School, such as local events, community centers, parks and recreation activities, social service agencies, shopping centers, apartment complexes and other dwellings. The following recruitment plan lists sample activities that MSA-Santa Ana will undertake in order to achieve its Racial and Ethnic Balance goal.

Outreach efforts use English, Spanish, and any other language needed, based on the needs of the community. The MPS and MSA-Santa Ana website includes comprehensive information about our educational program under our Academics tab on the website. While open to all students, MSA-Santa Ana focuses outreach efforts within a 10-mile radius of the Charter School's location.

MSA-Santa Ana uses a variety of strategies to recruit a diverse population including:

- Direct mailing of 10,000 postcards to the parents/guardians who have TK through and 12th grade children; (October)

[23] http://achieve.SAUSD.net/about

- Distributing flyers at key locations to reach socioeconomically disadvantaged members of the community. Key locations include community meeting points: libraries, religious gathering places, family centers, local grocery stores, playgrounds, recreation centers and/or sports clubs, and coffee establishments; (October-May)
- Holding presentations at community meetings at the key locations listed above; (October-May)
- Hosting Open Houses and providing tours of the Charter School on a regular basis; (October-May)
  A Spanish-speaking representative will assist non-English speaking parents of prospective students. Should the need arise, other non-English languages will be similarly accommodated.
- Hosting individual/family meetings;
- Doing neighborhood walks in the community; (October-May)

As needed, school staff and volunteers may go door-to-door, talk to families, and hand out applications, and use press and advertising campaigns in local Spanish and English media.

MSA-Santa Ana uses a variety of strategies to recruit a diverse population. With our current partnerships in the City of Santa Ana we are able to participate in community events with Supervisor Andrew Do. In addition to our outreach strategies in the community we also use media outlets such as Facebook, Twitter, and website as well as local ads on magazines/newspapers.

Anticipated Recruitment Events

Date & Time	Event	Location
Weekly Tuesdays, 10:00 am RSVP recommended.	School Tours	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
Saturday, January 10 AM - 12 PM	Open House Presentation and School Tour	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
3rd week of January	School Choice Week Events – Open House and School Tours; Chipotle Night	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
Saturday, February	Santa Ana Charter School Fair; Distribute Enrollment Flyers	TBD
Saturday, February 10 AM - 4 PM	Black History Parade & Cultural Fair; Distribute Enrollment Flyers	Downtown Anaheim Anaheim Center Street Promenade
February	Lottery, Open House, and School Tour	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
February	Open House and School Tour	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
Saturday, March	Parenting OC Jamboree at the Cube	Discovery Cube of Orange County 2500 N Main St. Santa Ana, CA 92705

Saturday, March 10am-12pm	STEAM Competition, Open House, and School Tours Grades: 2nd-5th and 6th grade	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
April	Open Streets – Re-Imagine Garden Grove	Downtown Garden Grove
April	Santa Ana Dia de Los Ninos/Dia de Los Libros	Santa Ana Public Library
First week of May	Charter School Week Events – Open House and School Tours	MSA-SA 2840 W. 1st Street Santa Ana, CA 92703
First week of May	Santa Ana Cinco de Mayo Festival	Downtown Santa Ana
May	Garden Grove Strawberry Festival	Village Green of Garden Grove

Following the conclusion of the open enrollment/lottery application period each year (see Element 8), the CEO and Board will review data regarding the efficacy of our outreach efforts and any necessary changes to ensure an appropriate racial/ethnic balance of students.

ELEMENT 8: ADMISSION POLICIES AND PROCEDURES

"Admission policies and procedures consistent with [Education Code Section 47605] subdivision (d)."
Ed. Code § 47605(d)

ADMISSION REQUIREMENTS

The Charter School will be nonsectarian in its programs, admission policies, and all other operations, and will not charge tuition or discriminate against any student based upon any of the characteristics listed in Education Code Section 220.

The Charter School shall admit all pupils who wish to attend the Charter School. An Application Form is required for each student. No other requirements (test scores, transcripts, behavior records, etc.) are required. The Charter School will comply with all laws establishing minimum and maximum age for public school attendance in charter schools. Admission, except in the case of a public random drawing, shall not be determined by the place of residence of the pupil or his or her parent or legal guardian within the state.

If the number of students who wish to attend the Charter School exceeds the openings available, entrance shall be determined by a single random public drawing ("lottery") in accordance with Education Code §47605(d)(2) and as set forth below.

LOTTERY PREFERENCES AND PROCEDURES

An open application period will be publicly announced each year and communicated during outreach/recruiting efforts detailed in Element 7. The Charter School will include specific information in its outreach materials, on the Charter School website, at community meetings and open forums notifying parents of the Charter School's open application period and lottery dates. MSA-Santa Ana will ensure that all application materials will reference the application deadline and proposed lottery dates as well as provide complete information regarding application procedures, key dates, and enrollment preferences (in the case of a lottery) and requirements consistent with the approved charter.

In accordance with Education Code Sections 49011 and 47605(d)(2)(B)(iv), admission preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment.

ENROLLMENT PREFERENCE

Pursuant to Education Code § 47605(d)(2)(B), if the number of pupils who wish to attend the Charter School exceeds the school's capacity, attendance, except for existing pupils of the Charter School, shall be determined by a public random drawing (lottery). In the event of a lottery for any impacted grade level(s), with the exception of existing students who are guaranteed enrollment in the following school year, enrollment preferences will be given. In accordance with Education Code, priority will be given first to students who reside within the attendance boundaries of SBE, as determined by their guardian's home address, with additional preferences given in the following order:

- Siblings of students admitted to or attending the Charter School
- Children of Board members or employees of Magnolia Public Schools, not to exceed 10% of students admitted through the lottery process.

- Students matriculating from other Magnolia Public Schools
- Foster youth or homeless students[24]

The Charter School and the SBE agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(d)(2)(B)(i)-(iv).

We provide preference for siblings of admitted students for the convenience of families. Children of Board members and employees are provided preference in deference to the work and commitment of these individuals to Magnolia and the instructional model. No more than 10% of students admitted through the lottery process annually will be drawn from this category. Finally, we know that Foster and homeless youth need a strong school to attend. As a school, we make sure that they can be accepted at our campus and go ahead of others in the waitlist as part of the lottery.

LOTTERY PROCEDURE

The public random drawing ("lottery") will take place within 30 days of the closing of the open application period. The Charter School will choose a date and time (preferably on the weekend or on a weekday evening) so that most interested parties will be able to attend. (Typically, the open application period starts on the first day of school and ends by mid-January, and if applicable, a lottery is held at least two weeks after the open application period ends.)

MSA-Santa Ana's office manager will inform parents of all applicants and all interested parties of the rules to be followed during the lottery process, location, date and time of the lottery through mail, e-mail, charter school website, phone, and other available outlets prior to the lottery date. The lottery will be held at the charter school site if the charter school facility can accommodate all interested parties. Otherwise, the Charter School will secure a meeting room that is large enough to accommodate all parties and to allow them to observe the lottery. Notice will include an explanation that parents/guardians do not need to be present at the lottery, but may attend if they choose to do so.

In the lottery, all names in the first preference group are drawn by the notary public and listed in order for each grade level. Names from the second and third preferences are drawn in the same way according to preference order if space is available. Once the grade level capacity is met, the remaining students' names will continue to be drawn randomly and placed in the order they are drawn on the waiting list. The students who do not apply in the open enrollment period are added to the end of the waiting list in the order they applied.

MSA-Santa Ana will invite a SBE representative to serve as an official observer of the lottery to verify the lottery procedures are fairly executed. Application forms, the manual record of all lottery participants and their assigned lottery numbers, and other lottery-related documents will be physically filed on campus, and lottery results and waiting lists will be readily available in the Charter School's main office for inspection upon request. Each application form will be kept on file for the academic year with the applicant's assigned lottery number in the Charter School database and on his or her enrollment application.

---

[24] Disclosure of foster youth or homeless student status is not required at the time of application. However, families that would like their students to be granted a preference on that basis may apply using the preference, and MSA-Santa Ana will verify eligibility at the time of enrollment.

NOTIFICATIONS OF ADMISSION STATUS

Notifications of admission status will be mailed to all applicants within two weeks of the lottery. Enrollment packets will be sent to admitted students; students not admitted will be informed by the office manager of their waiting list priority number as determined by the admissions lottery or application order. If the enrollment packets are not returned to the school, in person or by mail, complete within 10 business days from the date of postage, then admission for that student is forfeited, and an admission notice will be mailed to the next student on the waiting list. The school's office manager and/or office staff will be available to assist families in completing this paperwork if needed.

Vacancies that occur during the school year will be filled according to the wait list order determined during the lottery drawing except that homeless and foster care students will be moved to the top of the waiting list to provide priority placement. When an offer occurs during the school year that is not filled by a homeless or foster care student, families will be contacted by the school site office manager and/or office staff through a call and email in the order of the wait list and will be given 48 hours to decide whether or not to accept a space at the Charter School. In the event that no such wait list is required enrollment will be made available on a first come, first served basis to the next interested family at the appropriate grade level.

The waitlist for the current school year remains active until the end of the school year and does not "roll over"; applicants must reapply for the lottery annually if the Charter School is unable to offer them admission for the current year.

ELEMENT 9: ANNUAL FINANCIAL AUDITS

"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." Ed. Code § 47605(b)(5)(I).

An annual independent financial audit of the books and records of MSA-Santa Ana shall be conducted as required by Education Code Sections 47605(b)(5)(I) and 47605(m). The books and records of MSA-Santa Ana shall be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. The audit shall be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller's K-12 Audit Guide.

MPS's Board of Directors shall select an independent auditor through a request for proposal format. The auditor shall have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required under applicable federal law, the audit scope will be expanded to include items and processes specified in applicable Office of Management and Budget Circulars.

ANNUAL AUDIT PROCEDURES

Procedures:

- The Board of Directors will appoint an Audit Committee by January 1 of each year.
- The Audit Committee may include persons who are members of the Board, but may not include any the staff of the charter school, including the CEO. In addition, any person with expenditure authorization or recording responsibilities within the organization may not serve on the committee.
- The Audit Committee will be responsible for identifying an audit firm from the State Controller's list of approved education audit providers by March 1 of each year, unless the existing contract is a multi-year contract. The Board of Directors hires the audit firm after the Audit Committee performs a rigorous search and interview process.
- The Audit Committee will be responsible for reviewing the results of the annual audit and developing a corrective action plan to address all relevant weaknesses noted by the auditor, describing how the exceptions and deficiencies have been or will be resolved to the satisfaction of the SBE along with an anticipated timeline for the same. MPS works with the SBE to establish action items for correction if needed. Implementation recommendations of procedures is monitored closely by executive staff.
- The Board of Directors will review and approve the audit no later than December 15.
- The CFO will be responsible for submitting the audit to all reporting agencies including the SBE, the Orange County Superintendent of Schools, the State Controller, and to the CDE no later than December 15 of each year.
- Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel ("EAAP") in accordance with applicable law.
- The independent financial audit of the Charter School is a public record to be provided to the public upon request.

In the case that MSA-Santa Ana either does not pay for or have an independent audit completed within one month of the applicable timelines, the authorizer, may, at its option, pay for an audit to be completed and invoice MSA-Santa Ana for the expense, which shall be immediately due and payable, or subtract such payment from any funds due to MSA-Santa Ana.

ELEMENT 10: SUSPENSION AND EXPULSION PROCEDURES

"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

"(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present his or her side of the story.

"(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

"(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

"(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

"(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii)." **Ed. Code § 47605(b)(5)(J).**

DISCIPLINE FOUNDATION POLICY

The following Student Suspension and Expulsion Policy (Policy) has been established in order to promote learning and protect the safety and well-being of all students at MSA-Santa Ana. Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. In creating the Student Suspension and Expulsion Policy, the Charter School has reviewed Education Code Section 48900 et seq. which describes the non-charter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This Policy shall serve as MSA-Santa Ana's policy and procedures for student suspension and expulsion, and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Changes to this Policy to comport to changes in

law shall not be considered material revisions to the charter. Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

This Policy and its Procedures clearly describes discipline expectations, and will be printed, distributed and discussed with students and families as part of the Student/Parent Handbook which is sent to each student at the beginning of the school year and signed by their guardian.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension and expulsion.

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five school days before the effective date of the action. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below. The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student's parent, guardian, or educational rights holder initiates the procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision.

POSITIVE DISCIPLINE

MSA-Santa Ana staff has committed itself to encouraging and supporting the attainment of academic skills as well as social skills, such as listening, friendship-making, problem solving, and alternatives to aggression. To inspire and encourage students to develop their potential in all of these areas, the following reinforcements will be used for positive behavior:

- Individual awards/recognition
- Classroom awards/recognition
- Certificates
- Displays
- Positive/Encouraging contact with parent/guardian (certificate, post card, phone message)
- Special activities (instructional field trips, movie nights, picnics, etc.)
- Publications
- Assemblies
- Positive Illuminate or equivalent points

Positive student behavior and improvements will be acknowledged and encouraged by the MSA-Santa Ana staff. Teachers will not only report discipline issues in the school information system, Illuminate or

equivalent, but will also report positive behaviors and accomplishments. Parents will also be informed of positive behavior and improvements via phone, email, and home visits. Students will receive certificates and/or rewards for outstanding performance and behaviors.

Alternatives to Suspension

To intervene in student behavior, MPS has a progressive discipline plan in place at MSA-Santa Ana. This plan is published at the beginning of each school year in the Student/Parent handbook. The Student/Parent Handbook also includes a school-parent-student compact that outlines how parents, the entire Charter School staff, and students will share the responsibility for improved student academic achievement and the means by which the Charter School and parents will develop a partnership to help students achieve high academic and behavioral standards. The discipline plan includes information about student expectations and progression of disciplinary procedures from day-to-day discipline to suspension and expulsion. MSA-Santa Ana provides its staff with professional development in the area of restorative practices alternatives to suspension, and positive behavior supports.

MSA-Santa Ana believes that alternatives to suspension align with our schoolwide positive behavior support plan. Following is a list of alternatives to be considered before suspending a student: warning, phone call home, parent conference, teacher/administrative detention, written assignment/research/presentation, loss of privileges, behavior contract, parent shadowing, mentorship (peer/teacher), referral (counseling, SST, Dean of Students/Principal), assigning volunteer work/community service, Saturday school, and in-school suspension.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 (“IDEA”) or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

GROUNDS FOR SUSPENSION

Jurisdiction

A student may be suspended for prohibited misconduct if the act is (1) related to school activity; (2) school attendance occurring at MSA-Santa Ana; or (3) an MSA-Santa Ana sponsored event. A student may be suspended for acts that are enumerated below and related to school activity or attendance that occur at any time, including, but not limited to, and of the following:

a) while on school grounds;
b) while going to or coming from school;
c) during the lunch period, whether on or off the school campus; or
d) during, going to, or coming from a school-sponsored activity.

Enumerated Offenses

Discretionary Suspension Offenses

Students may be suspended for any of the following acts when it is determined the student:

1. Caused, attempted to cause, or threatened to cause physical injury to another person resulting in minor harm.

2. Willfully used force or violence upon the person of another, except self-defense resulting in minor injury.

3. Unlawfully possessed, used, sold or otherwise furnished nominal amounts of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

   Was unlawfully under the influence of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

4. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

5. Committed or attempted to commit robbery or extortion.

6. Caused or attempted to cause damage to school property or private property, which includes but is not limited to, electronic files and databases, resulting in negligible loss.

7. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.

8. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.

9. Committed an obscene act or engaged in habitual profanity or vulgarity.

10. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

11. Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.

12. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

13. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.

14. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

15. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

16. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, "hazing" means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.

17. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

18. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently offensive as to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

19. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.

20. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating

or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

21. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

    1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
        ii. Causing a reasonable student to experience a detrimental effect on his or her physical or mental health.
        iii. Causing a reasonable student to experience interference with his or her academic performance.
        iv. Causing a reasonable student to experience interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

    2) "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
        i. A message, text, sound, video, or image.
        ii. A post on a social network Internet Web site including, but not limited to:
            (a) Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
            (b) Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
            (c) Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
        iii. An act of cyber sexual bullying.
            (a) For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means

of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

22. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to paragraphs 1 and 2 of this section.

23. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

MANDATORY SUSPENSION OFFENSES

Students shall be suspended and recommended for expulsion for any of the following acts:

1. Possessing, selling, or furnishing a firearm, as defined in Section 921 of Title 18 of the United States Code.
2. Brandishing a knife at another person.
3. Unlawfully selling a controlled substance.
4. Committing or attempting to commit a sexual assault or committing a sexual battery.
5. Possession of an explosive, as defined in Education Code Section 48915(h). E.C. 48915(c)(5)

SUSPENSION PROCEDURES

Suspensions shall be initiated according to the following procedures:

CONFERENCE

Suspension shall be preceded, if possible, by a conference conducted by the Principal or the Principal's designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Principal. The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended, by Principal or Designee, without this conference, both the

parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure of the student's parent or guardian to attend a conference with Charter School administrators. Reinstatement of the suspended student shall not be contingent upon attendance by the student's parent or guardian at the conference.

Notice to Parents/Guardians

At the time of the suspension, the Principal or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing, by the Principal or Designee, of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice will also state the date and time when the student may return to school. If Charter School administrators wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice will request that the parent/guardian respond to such requests without delay.

Suspension Time Limits

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. A student may be suspended from the Charter School for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred another public school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code Sections 48903, 48911, and 48912) The expulsion process shall not take longer than 30 days from the first day of the initial suspension. Suspension and expulsion policies and procedures for students with disabilities is outlined in the section below.

Suspension Appeals

Students and/or a parent/guardian may appeal a suspension within five (5) school days of the suspension. This appeal will be made, verbally or in writing, to the Principal and heard by a Reflection Committee. The Reflection Committee is an advisory committee to the Principal, trained quarterly in restorative practices and PBIS, and will be comprised of at least one school administrator, and at least two teachers, and may also include a non-certificated employee. Current teachers of the student are not eligible to participate as a member of the Reflection Committee. All Reflection Committee hearings on suspensions will be held within two (2) school days of the appeal being made. The decision of the Reflection Committee is final. Based on the information submitted or requested, the Reflection Committee may make one of the following decisions regarding the suspension:

- Uphold the suspension

- Determine that the suspension was not within school guidelines, overturn the suspension, and order that all records and documents regarding the disciplinary proceeding be destroyed. No information regarding the suspension will be placed in the student's permanent record, or shared with anyone not directly involved in the proceedings. The Charter School administrators shall make arrangements to provide the student with classroom materials and assignments for the duration of student's absence. Student will be provided the opportunity to make academic progress, make up assignments, and earn credit missed.

Notwithstanding the foregoing, the Charter School will maintain student records in accordance with Education Code Sections 35253 and 49076 and 5 CCR 16024.

Recommendation for Expulsion

Upon a recommendation of Expulsion by the Principal, the student and the student's parent/guardian or representative will be invited to a conference with school site administrators to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Principal or Designee has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student or the student's parent/guardian or representative, unless the student and the student's parent/guardian or representative fail to attend the conference, at which time the school shall proceed with the extension.

This determination will be made by the Principal or designee upon either of the following findings: (1) the student's presence will be disruptive to the education process; or (2) the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

Access to Education

For suspensions that are not pending an expulsion hearing, the Charter School shall make arrangements to provide the student with classroom material and current assignments to be completed at home during the length of the suspension. For suspensions pending an expulsion hearing, the Charter School shall be responsible for the appropriate interim placement of students. Please see "Interim Placement" below for details.

GROUNDS FOR EXPULSION

Jurisdiction

A student may be expelled for prohibited misconduct, that are described below if the act is (1) related to school activity; (2) school attendance occurring at MSA-Santa Ana or at any other school; or (3) an MSA-Santa Ana sponsored event. A student may be expelled for offenses that are described below and related to school activity or attendance that occur at any time, including, but not limited to, and of the following:

a) while on school grounds;
b) while going to or coming from school;
c) during the lunch period, whether on or off the school campus; or
d) during, going to, or coming from a school-sponsored activity.

The length of an expulsion shall not exceed one year.

Discretionary Expellable Offenses

Students may be recommended for expulsion for any of the following acts when it is determined the pupil:

1. Caused, attempted to cause, or threatened to cause physical injury to another person resulting in serious bodily harm.

2. Willfully used force or violence upon the person of another, except self-defense resulting in serious bodily injury.

3. Unlawfully possessed, used, sold or otherwise furnished significant amounts of any controlled substance, alcoholic beverage, or intoxicant of any kind as defined in Health and Safety Code Sections 11053-11058.

4. Was nlawfully under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.

5. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.

6. Committed or attempted to commit robbery or extortion in excess of $1,000.

7. Caused or attempted to cause damage to school property or private property in excess of $1,000.

8. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases, in excess of $1,000.

9. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

10. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.

11. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

12. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.

13. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or preinitiation into a pupil organization or body, whether or not

the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.

14. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

15. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

16. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.

17. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

18. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

    i. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.

ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.

ii. "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
i. A message, text, sound, video, or image.
ii. A post on a social network Internet Web site including, but not limited to:
i. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
ii. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
iii. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
iii. An act of cyber sexual bullying.
i. For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
ii. For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

2. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

19. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to paragraphs 1 and 2 of this section.

20. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

MANDATORY EXPULSION OFFENSES

Students shall be suspended and recommended for expulsion when the following occur on school campus or at a school activity off campus, for any of the following acts:

1. Possessing, selling, or furnishing a firearm, as defined in Section 921 of Title 18 of the United States Code.
2. Brandishing a knife at another person.
3. Unlawfully selling a controlled substance.
4. Committing or attempting to commit a sexual assault or committing a sexual battery
5. Possession of an explosive, as defined in Education Code Section 48915(h).

EXPULSION PROCEDURES

AUTHORITY TO EXPEL

As required by Education Code Section 47605(b)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled by a neutral and impartial Administrative Panel, presided over by a designated neutral hearing chairperson, following a hearing before it. The Administrative Panel will include three or more certificated persons, none of whom have been members of the Board or on the staff of the Charter School in which the student is enrolled. The Administrative Panel members shall have experience in education law and student discipline. Typical Administrative Panel members include teachers, school administrators and Home Office Chiefs/Directors. The Home Office will coordinate all administrators and teachers who serve on the Reflection Committee at their school sites to be "on call" for a particular month should their presence be needed at an Administrative Panel hearing. The Administrative Panel may expel any student found to have committed an expellable offense. The pupil will be notified on the same day of the Administrative Panel's decision and will later be followed up with a written letter acknowledging the Administrative Panel's decision.

A decision to expel a pupil for an expellable offense shall be based on a finding of one or both of the following:

(1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
(2) Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

Expulsion Hearing

Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal determines that the student has committed an expellable offense.

After an Administrative Panel hears the case, it will make a determination whether to expel the student. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian by the Principal or Designee, at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of MSA-Santa Ana's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Special procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

MSA-Santa Ana may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Administrative Panel. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the Panel.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five (5) days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. MSA-Santa Ana administrators must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the Administrative Panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The Administrative Panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The Administrative Panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the Administrative Panel from removing a support person whom the presiding Administrative Panel finds is disrupting the hearing. The Administrative Panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, MSA-Santa Ana administrators must present evidence that the witness' presence is both desired by the witness and will be helpful to MSA-Santa Ana. The Administrative Panel presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the hearing chairperson shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding entity from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the hearing during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student recommended for expulsion, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the Administrative Panel conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made,

the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Expulsion Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A determination by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the student recommended for expulsion, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to expel, the student shall immediately be returned to his/her educational program.

Written Notice to Expel

The Principal or designee following a decision of the Administrative Panel to expel shall send written notice within 30 days of the initial suspension of the decision to expel, including the Administrative Panel's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense(s) committed by the student
2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with MSA-Santa Ana
3. The reinstatement eligibility review date; a copy of the rehabilitation plan; the type of educational placement during the period of expulsion, and notice of appeal rights/procedures

The Principal or designee shall send a copy of the written notice of the decision to expel to the student's district of residence and the SBE. This notice shall include the following:

1. The student's name
2. The specific expellable offense committed by the student

Disciplinary Records

MSA-Santa Ana shall maintain records of all student suspensions and expulsions at MSA-Santa Ana. Such records shall be made available to the SBE upon request.

Expulsion Appeals

In order to appeal an expulsion, the student/parent/guardian must submit a written appeal to the CEO of MPS outlining the reason for the appeal, attaching any supporting documentation, within ten (10) calendar days of receiving the written notice of the expulsion.

In response to the written request for an appeal, the CEO of MPS shall call a special meeting of the Board of Directors. The Board shall convene a hearing on the appeal within ten (10) calendar days of receipt of a timely written request for an appeal. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

At the hearing on the appeal, the student or his/her representative shall have the right to present evidence. The Board will consider evidence and/or testimony as appropriate and will render a contemporaneous written decision, which shall be immediately communicated to the appellant at the conclusion of the hearing, in the best interest of the student and the Charter School. That decision shall be final.

Interim Placement

The Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of the Charter School's student expulsion process and shall facilitate the post-expulsion placement of expelled students.

The Charter School shall work with parents/guardians of expelled students and the SBE for an interim placement at a community day school or other alternative program. Should the Charter School determine after the recommendation for expulsion that the student will remain enrolled at the Charter School pending the expulsion hearing based on the best interest of the student, or if the Charter School secures another alternative interim placement at another charter school or school within MPS, if appropriate and aligned with applicable charter petitions, the Charter School will notify the SBE of such determination.

Rehabilitation Plan

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Administrative Panel at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the Charter School for readmission.

READMISSION

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Board of Directors following a meeting with the Principal or designee and the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The Principal or designee shall make a recommendation to the Board of Directors following the meeting regarding his or her determination. The Board shall then make a final decision regarding readmission during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission.

SPECIAL PROCEDURES FOR THE CONSIDERATION OF SUSPENSION AND EXPULSION OF STUDENTS WITH DISABILITIES

NOTIFICATION OF SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

SERVICES DURING SUSPENSION

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alterative educational setting.

PROCEDURAL SAFEGUARDS/MANIFESTATION DETERMINATION

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability for discipline reasons, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

1. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
2. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

1. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

2. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

3. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

DUE PROCESS APPEALS

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

SPECIAL CIRCUMSTANCES

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates the Charter School's disciplinary procedures.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

1. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;

2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
