

Board Agenda Item #	III C: Action Item
Date:	April 22, 2021
To:	Magnolia Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	Derya Hajmeirza, MPS Human Resources Director
RE:	Updated MPS Health and Safety Policy and Injury and Illness Prevention Program (“IIPP”) COVID-19 Addendum

Proposed Board Motion

I move that the board approve the updated MPS Health & Safety Policy alongside the IIPP COVID-19 addendum.

Introduction

- The policy has been updated based on the guidance provided by the Centers for Disease Control and Prevention (“CDC”), the California Department of Public Health (“CDPH”), and several county public health officials. The policy is intended for organization-wide implementation at each facility that will be operated by MPS.

Background

- The board had approved the IIPP COVID-19 addendum and the MPS health and safety policy during the August 2020, and September 2020, February, March, and April 2021 board meetings. In accordance with the most updated health orders, the Home Office COVID-19 Response Team updated the policy.

Analysis (If applicable)

- This policy is provided and updated by Young, Minney & Corr, LLP and conform to the standards and practices in the latest guidance (i.e., CDPH and Cal-OSHA).

MPS Health and Safety Policy for COVID-19 updates is in the following section:

- COVID-19 testing and reporting: Magnolia Science Academy-Santa Ana will follow the CDPH testing cadence guidance for students and employees.
- Youth sports and physical education: both participants and coaches in high-contact sports activities will require weekly testing. If competing, the test result will need to be presented to the school within the 24 hours of play.

Budget Implications

- To be determined at a later date.

Exhibits (attachments):

- 1.Updated MPS Health and Safety Policy
2. Injury and Illness Prevention Program (“IIPP”) COVID-19 Addendum

Updated on 04/21/2021

HEALTH AND SAFETY POLICY FOR COVID-19

It is the policy of Magnolia Public Schools (“Charter School”) to take all reasonable measures to prevent the spread of the novel coronavirus disease (“COVID-19”) among students and staff. In accordance with this policy, the Charter School is temporarily implementing health and safety measures to mitigate the spread of COVID-19, to be used when the Charter School is allowed to resume in-person instruction. This policy recognizes that these measures are each designed to provide some protection against COVID-19. While there may be times when one measure may not be feasible, implementing the other measures can make up for the absence of another. This Policy includes both mandatory measures (using terms “shall” or “will”) as well as recommended measures intended to guide decisions in light of practical limitations.

This Policy is based on guidance provided by the Centers for Disease Control (“CDC”), the California Department of Education (“CDE”), the California Department of Public Health (“CDPH”), and several county public health officials. The Governor and each county public health official is vested with the authority to impose health and safety standards, which may vary by locality in response to different local conditions. The Charter School will, as necessary, consult with their county health officer, or designated staff, who are best positioned to monitor and provide advice on local conditions to individually determine whether more or less stringent measures are necessary to align with the applicable public health order. The Charter School will fully cooperate with county public health officials regarding the screening, monitoring and documentation that will be required to permit careful scrutiny of health outcomes associated with any potential resumption or expansion of in-person instruction on the Charter School campus. Any reopening of Charter School campuses will use a thoughtful, phased return to in-person instruction.

This Policy constitutes the COVID-19 Infection Control Plan for each Charter School worksite. Prior to resuming in-person instruction, the Home Office COVID-19 Response Team shall perform a comprehensive risk assessment of all work areas and work tasks in accordance with guidance from CDPH and this Policy. The following staff member(s) is (are) responsible for implementing this Policy at each campus:

School Name	Staff Members	Phone Number
Magnolia Science Academy-1	Home Office COVID-19 Response Team	213-628-3634
	MSA-1 Compliance Task Force Team	818-609-0507
Magnolia Science Academy-2	Home Office COVID-19 Response Team	213-628-3634
	MSA-2 Compliance Task Force Team	818-758-0300
Magnolia Science Academy-3	Home Office COVID-19 Response Team	213-628-3634
	MSA-3 Compliance Task Force Team	310-637-3806
Magnolia Science Academy-4	Home Office COVID-19 Response Team	213-628-3634
	MSA-4 Compliance Task Force Team	310-473-2464
Magnolia Science Academy-5	Home Office COVID-19 Response Team	213-628-3634
	MSA-5 Compliance Task Force Team	818-705-5676
Magnolia Science Academy-6	Home Office COVID-19 Response Team	213-628-3634
	MSA-6 Compliance Task Force Team	310-842-8555
Magnolia Science Academy-7	Home Office COVID-19 Response Team	213-628-3634
	MSA-7 Compliance Task Force Team	818-886-0585
Magnolia Science Academy-8	Home Office COVID-19 Response Team	213-628-3634
	MSA-8 Compliance Task Force Team	323-826-3925
Magnolia Science Academy-Santa Ana	Home Office COVID-19 Response Team	213-628-3634

	MSA-SA Compliance Task Force Team	714-479-0115
Magnolia Science Academy-San Diego	Home Office COVID-19 Response Team	213-628-3634
	MSA-SD Compliance Task Force Team	619-644-1300
MPS Home Office	Home Office COVID-19 Response Team	213-628-3634

The Charter School offers distance learning as an alternative to in-person instruction. Distance learning will also remain available for students who would be put at risk by an in-person instructional model once in-person instruction resumes. For example, students with a health condition, students with family members with a health condition, students who cohabitate or regularly interact with high-risk individuals, or individuals, or are otherwise identified as “at-risk” by the parents or guardians are students whose circumstances otherwise merit distance learning.

1. Limited campus access:

- The Charter School will allow only necessary visitors and volunteers on the Charter School campus and limit the number of students and staff with whom they come into contact.
- Charter School parents are highly encouraged to conduct any necessary business with Charter School personnel virtually, whenever possible.
- The Charter School will exclude from the campus any employee, student, parent, caregiver or visitor who refuses to take or does not pass a Wellness and Temperature Screening.
- Students excluded from campus on the basis of an elevated temperature or other COVID-19 related symptoms shall be provided with distance learning opportunities to support their academic success to the greatest extent possible during exclusion.
- Students and employees who are well but who have a household member that has been diagnosed with COVID-19 are directed to notify their teacher or the principal, respectively, and the Charter School will work with them to ensure that CDC-recommended precautions are followed.
- Pursuant to local guidance, the Charter School will not currently allow use of Charter School facilities for non-school purposes.
- If allowed on campus, any community groups and other third-party users of campus facilities shall be subject to applicable health and safety plans and restrictions.
- Pursuant to current guidance, Campus tours for prospective students are permitted if the

tour is limited to one family or household unit only; the tour is held outside of regular school hours (evening or weekend) when enrolled students and staff are not present; and all social distancing strategies are observed including proper physical distancing, face coverings worn by all parties at all times, and other infection control measures as applicable.

- Health and safety standards and procedures shall be applied equally to all users of a public school campus that is subject to a co-location arrangement.
- The Charter School will minimize close contact between students, staff, families, and the broader community at arrival and departure through one or more of the following methods:
 - Designate routes for entry and exit, using as many entrances and exits as can be supervised appropriately to decrease crowding at entry and exit points.
 - Instruct drivers to remain in their vehicles, to the extent possible, when dropping off or picking up students. When in-person drop-off or pick-up is needed, only a single parent or caregiver should enter the facility to pick up or drop off the child.
 - Require adults entering campus for in-person pick-up or drop-off to wear a face covering.
 - Provide supervision to disperse student gatherings during school arrival and departure.
 - Maximize space between students and between students and the driver on school buses and open windows to the greatest extent practicable. The Charter School will ensure each bus is equipped with extra unused face coverings on school buses for students who may have inadvertently failed to bring one.
 - Minimize contact at school between students, staff, families and the community at the beginning and end of the school day. The Charter School will prioritize minimizing contact between adults at all times.
 - Stagger arrival and drop off-times and locations as consistently as practicable as to minimize scheduling challenges for families.
 - Designate routes for entry and exit, using as many entrances as feasible.
 - Implement health screenings of students and staff upon arrival at school (see Section 2).
- To the extent that non-parent visitors are required to enter the Charter School Campus, the School will take the following precautions:
 - Non-parental visitors will be allowed on campus via appointment only.
 - Non-parental visitors must pre-register in a visitor's log, which includes the visitor's name, email address, and phone number.
 - Non-parental visitors will only be allowed to enter specific areas to conduct their

business. Non-parental visitors will not be allowed to interact with any cohorts.

- In the event that any Charter School campuses do not offer in-person instruction, all employees will be allowed to work on-campus, where feasible, and where consistent with this policy, public health guidance, and applicable law.

2. Wellness Checks and Temperature Screenings:

- *COVID-19 Symptoms.* Currently, the CDC has identified the following as potential symptoms of COVID-19:
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting
 - Diarrhea
- In-person wellness checks administered under this Policy shall:
 - Confirm that the subject has not experienced COVID-19 symptoms in the prior 24 hours or potentially been exposed to COVID-19, by soliciting the following information:
 - Have you had any one or more of these symptoms today or within the past 24 hours? Are these symptoms new or not explained by another reason?
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting

- Diarrhea
 - Do you live in the same household with, or have you had close contact with, someone who in the past 14 days has been in isolation for COVID-19 or had a test confirming they have the virus? Close contact means being within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the person is isolated.¹
 - Be conducted safely and respectfully, and in a manner that maintains physical distancing within lines, by providing multiple screening entries into the campus if possible.
- *Home Screening (Students)*. Parents shall be instructed to screen their student before leaving the house for school. Before leaving the house, a parent should confirm that the student has a temperature below 100.4 degrees Fahrenheit and does not exhibit any other COVID-19 symptoms, including a new cough, diarrhea, or vomiting.
 - Any student who has a fever of 100.4 degrees Fahrenheit or greater, a new cough, ~~diarrhea, or vomiting~~ or other COVID-19 symptoms upon a home screening should remain home, isolate, and consult with a medical provider for further evaluation and possible COVID-19 testing. Should the student test negative for COVID-19, the student should stay home until fever free without fever reducing medication for 24 hours and improved symptoms. If the student tests positive, the student stays isolated at home until fever free for 24 hours, improved symptoms, and 10 days from symptom onset. If a student exhibits symptom consistent with COVID-19 upon home screening ~~and~~ does not test for COVID-19 or consult with a medical professional, the student must still isolate at home until fever free for 24 hours, improved symptoms, and 10 days from symptom onset.
- *Home Screening (Staff)*. All employees who report to work (in-person) are required to perform a self-administered wellness check for COVID-19 symptoms before leaving home for work.

¹ The CDC's updated definition of "close contacts" includes the following additional clarification: "Individual exposures added together over a 24-hour period (e.g., three 5-minute exposures for a total of 15 minutes) . . . 15 cumulative minutes of exposure at a distance of 6 feet or less can be used as an operational definition for contact investigation. Factors to consider when defining close contact include proximity (closer distance likely increases exposure risk), the duration of exposure (longer exposure time likely increases exposure risk), whether the infected individual has symptoms (the period around onset of symptoms is associated with the highest levels of viral shedding), if the infected person was likely to generate respiratory aerosols (e.g., was coughing, singing, shouting), and other environmental factors (crowding, adequacy of ventilation, whether exposure was indoors or outdoors)."

Active symptom screening shall be conducted at the worksite if required by local order.

- Any employee who has a fever of 100.4 degrees Fahrenheit or higher and/or any of the COVID symptoms is directed to remain home, notify his or her supervisor and await instructions.
- If symptoms are secondary to an underlying condition (i.e., allergies or asthma) and have not worsened, then the employee can report to work and follow hygiene practices.
- The Charter School may initiate temperature checks for all staff entering campus.
- *Campus Screening (Students)*. Staff shall actively monitor students for COVID-19 symptoms when the student enters the school site, which shall include a visual wellness check and a temperature check (confirming temperature below 100.4 degrees Fahrenheit) using a no-touch thermometer, to the extent feasible.
 - Complete an in-person wellness check for signs and symptoms of COVID-19.
 - If student answers “no” to all questions and appears well, student will be allowed to proceed onto campus.
 - If the student answers “yes” to any question or upon visual check, and the screener feels the student may be exhibiting signs and symptoms of illness, the student’s temperature should be taken, preferably using a touchless infrared thermometer.
 - If the student’s temperature is 100.4 or above or they have verbally confirmed symptoms, have them don a surgical facemask and go to the isolation area; have office staff contact the parent to pick up the student.
 - If a student has had close contact with an individual who has screened positive for COVID-19 symptoms, the student will be accompanied to a preselected quarantine space until they can safely return home. This quarantine space should be separate and apart from the space set aside for symptomatic students.
 - Screening for Charter School students of middle-school and high-school age should include a question about close contact with anyone at home, school, or elsewhere that the student has been told has tested positive for COVID-19.
- *Campus Screening (Staff and Visitors)*. Each employee and visitor to the school site shall be screened for COVID-19 symptoms before entering the school site.
 - Per San Diego Public Health Order: Ask employees about COVID-19 symptoms within the last 24 hours and whether anyone in their home has had they have had close contact with anyone who has COVID-19 symptoms or a positive test. Complete temperature check (confirming temperature below 100.4 degrees Fahrenheit) using a no-touch thermometer, to the extent feasible.
 - The staff member who greets the visitor at the entrance shall administer an in-person

- wellness check prior to escorting the visitor to his or her destination:
- If the visitor answers “no” to all questions, he or she may enter the school.
 - If the visitor answers “yes” to any of the questions, he or she may not enter the school.
- Screening for adult visitors and staff should include a question about close contact with anyone at home, school, or elsewhere that the student has been told has tested positive for COVID-19.
 - Adult visitors and staff who have had close contact with an individual who has screened positive shall return home to self-quarantine as per CDPH and local guidance.
 - *Campus Screening Logistics:* In-person wellness checks do not need to be performed by a nurse or other health professional.
 - ⊖ Temperature and wellness screenings will be performed by Certified Nursing Assistants, Registered Nurses (“RN”), and/or trained school employee at all Charter School Campuses.
 - *Bus Screening (Students).* The bus operator, a staff member or a volunteer shall conduct a wellness check of each student prior to entering the bus, which should include a temperature check using a no-touch thermometer, if possible. In the event that a temperature or wellness check confirms that a student is exhibiting symptoms of COVID-19, the student shall not be permitted to ride.
 - To prevent stigma and discrimination in the school setting, student and employee health screenings should be kept as private as possible to maintain the confidentiality of student and employee medical and student records. Race, nationality, country of origin and other protected characteristics should never be used as a basis for particularized health screening.
 - Consult the local county health order to determine whether temperature checks are required.
 - To the extent feasible and when required, a no-touch thermometer should be used for temperature checks if possible.
 - If a thermometer requiring a touch method (under the tongue or arm, forehead, etc.) is the only type available, it should only be used when a fever is suspected and caution is taken by temperature screeners such as gloves, eye protection, and mask.
 - Thermometers must be properly cleaned and disinfected after each use.
 - The Charter School will not penalize students and families for missing in-person instruction due to COVID-19.
 - Any student or staff member who develops any COVID-19 signs or symptoms shall stay home, unless and until all conditions have been met pursuant to CDPH and local guidance. These

may criteria include but are not limited to a negative PCR COVID-19 viral test.²

3. COVID-19 Compliance Task Force and Compliance Officer

- The Charter School will comply with and implement the “Protocol for COVID-19 Exposure Management Plan in K-12 Schools,” promulgated by the Los Angeles County Department of Public Health (“LAC DPH”)
- The Charter School will establish a Compliance Task Force (“CTF”). The CTF is responsible for establishing and enforcing all COVID-19 safety protocols, as well as ensuring all Charter School students and staff receive appropriate COVID-19 education. The names and contact information for all CTF members are referenced above on pages one and two of this policy.
- The Charter School will designate a “COVID-19 Compliance Officer,” to act as a liaison between the local county public health department and the Charter School, in the event of a COVID-19 cluster or outbreak³ at the Charter School. The name and contact information for the Charter School’s COVID-19 Compliance Officer is referenced above on pages one and two of this policy.

4. COVID-19 Testing and Reporting:

- Consistent with California’s “Safe Schools for All” Reopening Plan, Current CDPH Guidance, AB 86, local public health guidance, and applicable legal authority, the Charter School may

² For San Diego Charter School locations, please specifically refer to the San Diego County Public Health Services’ “COVID-19DecisionTree”:

https://www.sandiegocounty.gov/content/dam/sdc/hhsa/programs/phs/cahan/communications_documents/Decision%20Tree%20chart.pdf

³ The Charter School will apply the definition of outbreak as stated by the LAC DPH: “At least 3 laboratory-confirmed cases with symptomatic or asymptomatic COVID-19 within a 14- day period in a group with members who are epidemiologically linked, do not share a household, and are not a close contact of each other outside of the campus. School groups include persons that share a common membership at school (e.g., classroom, school event, school extracurricular activity, academic class, sport teams, clubs, transportation). Epidemiological links require the infected persons to have been present at some point in the same setting during the same time period while infectious.”

test both employees and students based entering campus for any period. When implemented, testing will be applied on symptomatic⁴, response⁵, and asymptomatic⁶ bases.

- Currently, testing will occur on the following cadences:
 - All students and employees must undergo symptomatic and response testing for COVID-19, as needed.
 - Pursuant to San Diego County Public Health Services (“SDCPHS”) guidance, the School will strongly recommend, but not require, Magnolia San Diego students be tested for COVID-19 on response and symptomatic bases. However, the School reserves the right to exclude students from campus who are either symptomatic for COVID-19 or who have been exposed to COVID-19, until all time and symptom criteria have been reached, consistent with public health guidance and as stated in this policy.
- Unless directed otherwise by local public health guidance or local authorizer’s testing cadences, the School will align and revise its testing cadences as recommended by the CDPH, which are as follows:
 - **If the Charter School’s County is in the Yellow or Orange Tiers:** Symptomatic and response testing.
 - **If the Charter School’s County is in the Red or Purple Tiers:** Symptomatic testing, response testing, and asymptomatic testing every two weeks.
 - **If the Charter School’s County’s case positivity rate is greater than 14 per 100 population per day:** Symptomatic testing, response testing, and asymptomatic testing every week if using PCR testing, or twice weekly if using Antigen testing.

⁴ Symptomatic testing “is used for individuals with symptoms of COVID-19, either at home or at school.”

⁵ Response testing “is used to identify positive individuals once a case has been identified in a given stable group. Response-based testing can be provided for symptomatic individuals or for asymptomatic individuals with known or suspected exposure to an individual infected with SARS-CoV-2.”

⁶ Asymptomatic testing is “used for surveillance, usually at a cadence of every 2 weeks or less frequently, to understand whether schools have higher or lower rates of COVID19 rates than the community, to guide decisions about safety for schools and school administrators, and to inform LHDs about district level in-school rates. Asymptomatic testing can also be used for screening, usually at a higher cadence (weekly or twice weekly) than surveillance testing, to identify asymptomatic or pre-symptomatic cases, in order to exclude cases that might otherwise contribute to in-school transmission.”

- Currently, testing will occur on the following cadences:
 - In the seven (7) days prior to the reopening of the Charter School, all students and employees who will be returning to campus must test for COVID-19 as a baseline test at Magnolia Science Academy (MSA) 1, 2, 3, 4, 5, 6, 7, and 8. ~~and Santa Ana.~~
 - Thereafter, all students and employees continuing to be present on campus or otherwise interacting with Charter School student and employees must undergo for COVID-19 testing every two weeks for school sites Magnolia Science Academy (MSA) 1, 6, ~~and 7, and Santa Ana;~~ and weekly testing for MSA 2, 3, 4, 5, and 8.
 - All students and employees must undergo symptomatic and response testing for COVID-19, as needed.
 - Pursuant to San Diego County Public Health Services (“SDCPHS”) guidance, the School will strongly recommend, but not require Magnolia Science Academy- San Diego (“MSA-SD”) students be tested for COVID-19 on response and symptomatic bases. However, the School reserves the right to exclude MSA-SD students from campus who are either symptomatic for COVID-19 or who have been exposed to COVID-19, until all time and symptom criteria have been reached, consistent with public health guidance and as stated in this Policy.
 - MSA-SD employees must continue to comply with symptomatic and response testing cadences, consistent with public health guidance and legal authority, and as stated in this Policy.
 - **MSA-SA will follow the CDPH testing cadence guidance for students and employees.**
- When testing students or employees for COVID-19, the Charter School will require PCR testing.
- Additional levels of employee and student COVID-19 testing may be implemented in response to local disease trends, an outbreak, as determined by the Home Office COVID-19 Response Team, where required by Cal/OSHA regulations, or where otherwise required by law or public health guidance.
 - For staff and student-wide testing, all staff and students shall be tested, other than any staff and students who have no contact with others and do not report to campus. However, the ability to test all staff and students may not be possible if laboratory capacity is limited (see below).
- The Charter School can cause tests to be provided at any one of its campuses, or have staff get tested at any local testing site or by their health insurance provider, which must cover the cost.

- If county-provided testing is not available, then private labs and health insurance providers may be used, and the cost of testing must be covered by the health insurance provider under an emergency state regulation.
- The Charter School’s liaison must be made aware of the student and staff test results and report those results to local public health officials.
- **Student consent for testing:**
 - **Students age 12 and under:** For Charter School Students age 12 and under, the Charter School will require parental consent for COVID-19 testing.
 - **Students age 13 to 17:** Pursuant to California Family Code Section §6926 and CDPH guidance, Charter School Students ages 13 to 17 may consent to COVID-19 testing on their own.
 - **Students age 18 and older:** Charter School students age 18 and older do not need parental consent for COVID-19 testing.
- Staff and students who refuse to take a test or to report the test results to the Charter School will not be allowed to return to in-person instruction or otherwise enter the Charter School Campus. Both the testing and the reporting are required under applicable public health guidance and legal authority.
 - Pursuant to applicable guidance from the SDCPHS, the Charter School will not exclude MSA-SD students who refuse (or via their parents or guardians) to test for COVID-19. However, the School reserves the right to exclude MSA-SD employees who refuse to comply with the COVID-19 testing cadences indicated in this policy.
- Consistent with applicable law, the Charter School will consider accommodations from mandatory testing for medical reasons and any other lawfully recognized reason. Employees or students and/or parents/guardians who wish to request an accommodation for themselves or their child can contact the Charter School. The Charter School cannot guarantee the availability of either remote work or in-person instruction as an accommodation and will process all requests for accommodation consistent with MPS policies and applicable law.
- The Charter School must maintain confidentiality of test results, other than reporting the results to local public health officials. All medical information about any employee must be stored separately from the employee’s personnel file in order to limit access to this confidential information. The Charter School should have a separate confidential medical file for each employee where the Charter School can store all of that employee’s medical information. Medical information includes COVID-19 test results, an employee's statement via any symptom screening that they have symptoms or COVID-19, medical certifications showing the employee needs time off due to COVID-19, etc. For students, the Charter School

will take similar precautions to safeguard the students' privacy and confidentiality, consistent with FERPA and all relevant legal requirements.

- The families of students and staff who will return to in-person instruction at the Charter School campus are highly encouraged to be tested for COVID-19 before their student or family member returns to campus, and regularly thereafter.
- Visitors to the Charter School campus are highly encouraged to undergo COVID-19 testing prior to entering the Charter School campus.
- In the event of a positive test result of a student or family member:
 - The Charter School requires that parents/guardians notify school administration immediately if the student tested positive for COVID-19 or if one of their household members or non-household close contacts tested positive for COVID-19.
 - Upon receiving notification that staff or a student has tested positive for COVID-19 or been in close contact with a COVID-19 case, the Charter School will take actions as required in Section 5 below.

~~• Follow the process set forth in Section 5 upon receipt of test results.~~

- **Vendors**

- All vendors' employees who regularly enter the Charter School Campus must comply with this entire Policy, including any and all COVID-19 testing and screening requirements.
- For the purposes of this Policy, vendors include but are not limited to the Charter School's contracted partners who provide limited and specialized services on Charter School campuses.

Consistent with this Policy, any vendor's employee who either refuses to test for COVID-19 or refuses to provide COVID-19 testing results will be excluded from the Charter School campus, to protect the health and safety of all Charter School students, employees, and the community. Similarly, any vendor's employee who screens or tests positive for COVID-19 prior to campus entry must follow all protocol in this Policy, including but not limited to temporary campus exclusion, COVID-19 testing, and any other protocol required by public health guidance. Vendor's employees who test negative must still follow all protocol in this Policy, and consistent with public health guidance.

5. Exposure Management Planning and Response to Suspected or Confirmed Cases and Close Contacts:

- The Charter School will comply with the “Protocol for COVID-19 Exposure Management Plan in K-12 Schools”, as promulgated by the LAC DPH, in response to suspected or confirmed cases and close contacts. In the event that local guidance provides more stringent directives in response to suspected or confirmed cases and close contacts, the Charter School will follow such local guidance. In addition, the Charter School will follow the following protocols, except to the extent they conflict with the EMP, in which case the EMP will prevail.
- Potential Exposure: In the event of notice of potential exposure,⁷ the Charter School will take the following actions within one (1) business day of the notice of potential exposure:
 - Provide a written notice to all employees who were on the premises in the same worksite⁸ as the qualifying individual⁹ within the infectious period¹⁰ that they may have been exposed to COVID-19.¹¹

⁷ Notice of potential exposure means any of the following: (a) notification from a public health official or licensed medical provider that an employee was exposed to a qualifying individual at the worksite; (b) notification from an employee, or their emergency contact, that the employee is a qualifying individual; (c) notification through the Charter School’s testing protocol that the employee is a qualifying individual; or (d) notification from a subcontracted employer that a qualifying individual was on the school site. (Labor Code § 6409.6, subd. (d)(3).)

⁸ The “worksite” does not include buildings, or floors within multistory buildings, that a qualifying individual did not enter. If the Charter School operates multiple worksites, the Charter School must only notify employees who worked at the same worksite as the qualified individual. (Labor Code § 6409.6, subd. (d)(5).)

⁹ A “qualifying individual” means (a) a laboratory-confirmed case of COVID-19, as defined by the State Department of Public Health; (b) a positive COVID-19 diagnosis from a licensed health care provider; (c) a COVID-19-related order to isolate provided by a public health official; (d) an individual who has died due to COVID-19, in the determination of a county public health department or per inclusion in the COVID-19 statistics of a county. (Labor Code § 6409.6, subd. (d)(4).)

¹⁰ The “infectious period” means the time a COVID-19-positive individual is infectious, as defined by the State Department of Public Health. (Labor Code § 6409.6, subd. (d)(2).)

¹¹ Written notice will be provided in the same manner that the Charter School ordinarily uses to communicate employment-related information. Written notice may include, but is not limited to, personal service, email, or text

- Provide a written notice to the exclusive representative, if any, of the above employees.¹²
- Provide all employees who may have been exposed and the exclusive representative, if any, with information regarding COVID-19-related benefits to which employees may be entitled under applicable federal, state, or local laws.
 - Information regarding COVID-19-related benefits includes, but is not limited to, workers' compensation, and options for exposed employees, including California Supplemental Paid Sick Leave pursuant to SB 95, emergency paid sick leave and extended family and medical leave pursuant to the Families First Coronavirus Response Act ("FFCRA), Charter School sick leave, state-mandated leave, other supplemental sick leave, or negotiated leave provisions, as well as antiretaliation and antidiscrimination protections applicable to employees.
- Notify all employees, and the employers of subcontracted employees and the exclusive representative, if any, on the disinfection and safety plan that the Charter School plans to implement and complete per the guidelines of the CDC.
- Records of the above notices shall be retained for a minimum of three (3) years.
- If the event of a suspected COVID-19 case(s):
 - The Charter School will identify isolation rooms and/or outdoor areas to separate anyone who exhibits COVID-19 symptoms.
 - Any students or staff exhibiting symptoms should immediately be required to wear a face covering and wait in a separate isolation area until they can be transported home or to a healthcare facility, as soon as practicable. For serious illness, call 9-1-1 without delay.
- In the event of one or more confirmed COVID-19 case(s) the Charter School will follow the CDPH and local public health guidance, including implementation of the following practices:
 - The Charter School will provide notifications to the local public health department of any known case of COVID-19 among any student or employee who was present on a

message if it can reasonably be anticipated to be received by the employee within one (1) business day of sending and shall be in both English and the language understood by the majority of the employees.

¹² Written notice to the exclusive representative must contain the same information as required in an incident report in a Cal/OSHA Form 300 injury and illness log unless the information is inapplicable or unknown to the Charter School. This requirement does not apply if the Charter School's employees do not have an exclusive representative.

Charter School campus within the 14 days preceding COVID-19 symptoms, or 10 days before a positive test result.

- Notifications will be provided by the Home Office COVID-19 Response Team depending on the county where the school is located.
- The notification to the local public health department must include:
 - 1) The full name, address, telephone number, and date of birth of the individual who tested positive;
 - 2) The date the individual tested positive, the school(s) at which the individual was present on-site within the 10 days preceding the positive test, and the date the individual was last on-site at any relevant school(s); and
 - 3) The full name, address, and telephone number of the person making the report.
 - For San Diego Charter School locations, the public health department should be notified either via phone at (888) 950-9905, or online at www.coronavirus-sd.com. The notification should list the following information: 1) The name of the person reporting, 2) the Charter School name and district, 3) the Charter School address, 4) your position at the Charter School. For the individual diagnosed with COVID-19, the notification should list the individual's: 1) Name, 2) date of birth, 3) contact information (phone number and email), 4) the individual's last date on the Charter School campus, and 5) any additionally relevant comments.
 - For Los Angeles County Charter School locations: The Charter School will contact the LAC DPH as consistent with its "Protocol for COVID-19 Exposure Management Plan in K-12 Schools,"¹³ and either by:
 - 1) Using the LACDPH reporting portal, or:
 - <http://www.redcap.link/lacdph.educationsector.covidreport>
 - 2) Downloading and completing the COVID-19 Case and Contact Line List for the Education Sector and sending it to ACDC-Education@ph.lacounty.gov.
 - For Orange County Charter School locations: Contact the Orange County Public Health Department via phone at 714-834-8180, or via email at epi@ochca.com.

¹³ This document may be found at:
http://publichealth.lacounty.gov/media/Coronavirus/docs/protocols/ExposureManagementPlan_K12Schools.pdf

- Notify all staff and families in the school community of any positive COVID-19 case while maintaining confidentiality as required by state and federal laws.
- Close off areas used by any sick person and do not use before cleaning and disinfection. Follow cleaning and ventilation procedures in Section 7 and 8.
- Investigate the COVID-19 illness and exposures and determine if any work-related factors could have contributed to risk of infection.
- Update protocols as needed to prevent further cases in accordance with CDPH Guidelines (“Responding to COVID-19 in the Workplace”).
- Implement communication plans for exposure at school and potential school closures in the event of an outbreak or other necessary circumstances, to include outreach to students, parents, teachers, staff and the community.
- Include information for staff regarding labor laws, California Supplemental Paid Sick Leave, emergency paid sick leave and extended family and medical leave pursuant to the FFCRA, information regarding Disability Insurance, Paid Family Leave and Unemployment Insurance, as applicable to schools.
- Maintain regular communications with the local public health department.
- Recommend testing for all students and employees in close contact with the confirmed COVID-19 case, consistent with recommendations from the CDPH and local public health departments.
- For all settings: Provide information regarding close contacts to the county public health department via secure fax or email.
- If the school site must be closed for in-person instruction, develop a contingency plan for continuity of education using distance learning. Consistent with the Charter School’s adopted Distance Learning Policy and Procedures, distance learning shall include all of the following:
 - Confirmation or provision of access for all students to connectivity and devices adequate to participate in the educational program and complete assigned work;
 - Content aligned to grade level standards that is provided at a level of quality and intellectual challenge substantially equivalent to in-person instruction;
 - Academic and other supports designed to address the needs of students who are not performing at grade level, or need support in other areas, such as English learners, students with exceptional needs, students in foster care or experiencing homelessness, and students requiring mental health supports;
 - Special education, related services, and any other services required by a student’s individualized education program, with accommodations

- necessary to ensure that individualized education program can be executed in a distance learning environment;
- Designated and integrated instruction in English language development for English learners, including assessment of English language proficiency, support to access curriculum, the ability to reclassify as fully English proficient, and, as applicable, support for dual language learning;
 - Daily live interaction with certificated employees and peers for purposes of instruction, progress monitoring, and maintaining school connectedness in the form of internet or telephonic communication, or by other means permissible under public health orders; and
 - Continuing to provide school meals.
- Provide guidance to parents, teachers and staff reminding them of the importance of community physical distancing measures while a school is closed, including discouraging students or staff from gathering elsewhere.
 - The Charter School will review exposures in a cohort, stable group, or classroom to assess which persons need quarantine including the possibility of quarantining all individuals in the same cohort, stable group, or classroom as necessary.
 - If the COVID-19 case was present on the Charter School campus, the individual must be excluded from campus for at least 10 days from COVID-19 symptom onset, or if asymptomatic, 10 days from the date the specimen was collected for the positive COVID-19 test.
- In the event of a cluster (three or more cases within 14 days), the Charter School will contact local county public health officials, as necessary, and work closely with such officials to determine whether the cluster is an outbreak, requiring outbreak response.¹⁴
 - In the event of an outbreak or cluster at a Charter School:
 - The Charter School CTF and COVID-19 Compliance Officer will work closely with local county public health officials, timely provide all required information, and otherwise comply with all CDPH and local guidance regarding outbreaks.¹⁵

¹⁴ In the event of a “cluster,” Los Angeles County Charter Schools must specifically report such information to the LAC DPH at LADPH at ACDC-Education@ph.lacounty.gov or by calling (888) 397-3993.

¹⁵ In the event of an outbreak, all Charter School locations will comply with guidance titled “Management of Outbreaks of COVID-19,” issued by the LAC DPH. This protocol can be found at: http://publichealth.lacounty.gov/media/Coronavirus/docs/education/EMPSupplement_K12Schools.pdf. In the event that other state or local guidance provides more stringent outbreak protocol, the Charter School will comply with such protocol.

- The Charter School will notify students, families, employees, and stakeholders that the Charter School and local public health department are investigating a cluster and/or outbreak. The notice will encourage all stakeholders to follow public health recommendations.
- The Charter School will additionally notify all stakeholders if the school is to be closed for 14 days due to widespread and/or ongoing transmission of SARS-CoV2 at the school or in the general community.
- The Charter School will identify absenteeism among those in affected classes or stable groups and coordinate with the LHD to contact these absentees to screen for symptoms of COVID-19 if they were exposed to a case during the cases infectious period.
- Limit visitors to the affected Charter School campus, except for those that are essential to the Charter School's mission. Law Enforcement Personnel (Sheriff and Police), Fire, Medical, Emergency, or government employees who are responding to, working at, or inspecting the facility will be allowed to access the Charter School campus.
- Discontinue all non-essential in-person group activities at the Charter School Campus during the outbreak.
- Identify absenteeism among affected classes or stable groups and contact those absentees to screen for COVID-19 symptoms.
- Close contacts to laboratory confirmed COVID-19 case(s):
 - Close contacts (household or non-household) of confirmed COVID-19 cases should be sent home immediately and instructed to get COVID-19 testing five (5) to seven (7) days from the last exposure. Even if they test negative, they should remain in quarantine for a full 10 days after (1) date of last exposure to COVID-19 positive non-household contact or (2) date that COVID-19 positive household member completes their isolation.
 - No actions need to be taken for persons who have not had direct contact with a confirmed COVID-19 case, and instead have had close contact with persons who were in direct contact.
 - Those who test positive should not return until they have met county health department criteria to discontinue home isolation.
- Returning to school after home isolation/quarantine:
 - Symptomatic individuals who test negative for COVID-19 can return 24 hours after resolution of fever (if any) and improvement in symptoms.
 - Documentation of a negative test result should be provided to school administrators.

- In lieu of a negative test result, students and staff may return to work with a medical note by a physician that provides alternative explanation for symptoms and reason for not ordering COVID-19 testing.
 - Symptomatic individuals who test positive for COVID-19 can return 10 days after the symptom onset, are fever free for 24 hours without the use of fever reducing medication and have improved symptoms.
 - Symptomatic individuals who neither test for COVID-19 nor consult with a medical professional must isolate at home until fever free for 24 hours, improved symptoms, and 10 days from symptom onset.
 - Individuals who test positive for COVID-19 test but who remain asymptomatic must still follow all public health guidance before returning to campus, including a full 10-day quarantine following the date of the positive test result.
 - Asymptomatic individuals who test positive for COVID-19 and who later develop symptoms should follow all applicable quarantine and isolation guidelines, including quarantining for 10 days after the onset of symptoms, 24 hours with no fever without the use of fever-reducing symptoms, and when symptoms have improved.
 - Students with close contacts exposure to confirmed COVID-19 cases who test positive can return to school after isolating at home until fever free without fever reducing medication for 24 hours, improved symptoms, and 10 days from beginning of symptoms (or 10 days from test date if no symptoms).
 - Students with close contacts exposure to confirmed COVID-19 cases who test negative can return to school after quarantining for 10 days from the last exposure to the infectious person.
 - Pursuant to Cal/OSHA regulations, the School will exclude employees with close contacts exposure from campus for 14 days from their last exposure to the infectious person.
- **Subsequent School Closure Criteria:**
 - Charter School campuses that are open for in-person instruction may subsequently and temporarily close for in-person instruction based on the following criteria:
 - 1) An outbreak has occurred in 25% or more stable groups at the Charter School in 14-day period,
 - 2) 3 outbreaks have occurred in a 14-day period AND 5% of school population is infected, or
 - 3) As determined by the local health department

- After closure, the Charter School may reopen after 14 days, cleaning, disinfection, public health investigation, and local health department consultation.

6. Sanitizing/hygiene materials and practices:

- The Charter School will develop plans and routines to ensure that students and staff wash or sanitize hands frequently, including upon arrival to campus, after using the restroom, after playing outside and returning to the classroom, before and after eating, and after coughing or sneezing.
- The Charter School will schedule frequent, mandatory handwashing breaks for younger students at regular intervals, including but not limited to: Before and after eating, after toileting, after outdoor play, as well as before and after any group activity.
- Sanitation routines will enable students and staff to regularly wash their hands at staggered intervals to avoid congregating in restrooms.
- Staff will teach and reinforce proper handwashing technique, avoiding contact with one's eyes, nose, and mouth, using a tissue to wipe the nose, and covering coughs and sneezes.
- The Charter School shall make soap, tissues, no-touch trashcans, face coverings, water and paper towels or dryers for hand washing available. Students and staff should wash their hands for 20 seconds with soap, rubbing thoroughly after application. Soap products marketed as "antimicrobial" are not necessary or recommended.
- If handwashing stations near classrooms are not practicable, and to facilitate use by students and staff as needed, the Charter School shall make available fragrance-free alcohol-based hand sanitizer that is at least sixty percent (60%) ethyl alcohol. (Note: frequent handwashing is more effective than the use of hand sanitizers). This hand sanitizer will be made available to both students and staff at all strategic locations throughout the Charter School Campus.
- The Charter School will not use hand sanitizer with isopropyl alcohol as the main ingredient.
- Children under age 9 should only use hand sanitizer under adult supervision. Call Poison Control if consumed: 1-800-222-1222.
- Children under age 9 should only use hand sanitizer under adult supervision. Hand sanitizer will also not be left out in the open in classrooms for students under the age of 9.
- The Charter School shall place posters conspicuously that encourage hand hygiene to help stop the spread of COVID-19.
- Employees should visit the CDC's coughing and sneezing etiquette and clean hands webpage for more information.

7. **Routine cleaning and disinfecting:** The Charter School will incorporate the CDPH and CDC Guidance for Cleaning, Disinfection and Ventilation as appropriate to maintain a high level of cleanliness throughout the year and reduce the risk of exposure to and spread of COVID-19 at the school site.

- Custodial staff will perform thorough cleaning when students are not present. When cleaning, the space will be aired out before children arrive.
- Staff should wait twenty-four (24) hours before cleaning and disinfecting any area that was used by a person who was experiencing COVID-19 symptoms. If it is not possible to wait twenty-four (24) hours, then staff should wait as long as possible.
- The Charter School will ensure proper ventilation during cleaning and disinfecting. Staff are encouraged to introduce fresh outdoor air as much as possible, by opening windows where practicable.
- The Charter School will ensure the HVAC system is in good, working order.
- All frequently touched surfaces in the workplace, such as chairs, desks, tables, keyboards, telephones, handrails, light switches, sink handles, restroom surfaces and door handles, will be routinely cleaned.
- Students and employees are discouraged from sharing desks, computers, books, phones, pens, art supplies, or other work tools and equipment, including playground equipment, when possible. When shared use is allowed, the items and equipment will be cleaned between uses.
- Staff will be trained as appropriate in the chemical hazards, manufacturer's directions, and Cal/OSHA requirements for safe and correct application of cleaning and disinfectant agents in accordance with the Healthy Schools Act guidance from the California Department of Pesticide Regulation and Cal/OSHA.
- When choosing disinfecting products, the Charter School will use those approved for use against COVID-19 on the Environmental Protection Agency (EPA)- approved list "N" and require staff to follow product instructions.
 - To reduce the risk of asthma and other health effects related to disinfecting, the Charter School will select disinfectant products on list N with asthma-safer ingredients (hydrogen peroxide, citric acid or lactic acid) as recommended by the US EPA Design for Environment program.
 - The Charter School will avoid products that contain peroxyacetic (peracetic) acid, sodium hypochlorite (bleach) or quaternary ammonium compounds, which can cause asthma.

- Staff shall follow label directions for appropriate dilution rates and contact times.
- The Charter School will establish a cleaning and disinfecting schedule in order to avoid both under- and over-use of cleaning products.
- Subject to available resources, disposable disinfecting wipes shall be made available so that employees can wipe down commonly used surfaces (e.g., doorknobs, keyboards, remote controls, desks, other work tools and equipment) before each use. Disinfectant wipes and sprays will be kept away from students.
- Drinking fountains will not be used and replacement items (e.g., reusable water bottles) will be used instead.
- Each student's belongings will be kept in an individually labeled storage container, cubby, or locker. Students are encouraged to take belongings home each day to be cleaned.

8. Facility measures: The Charter School will incorporate CDE guidance for maintaining a healthy facility, to include some or all of the following:

- While providing specialized services, the total on-site student population at Charter School will not exceed 25% of the School's total student enrollment number total student capacity. Upon re-opening for in-person instruction, the Charter School will comply with all state and local guidance regarding capacity of the site.
- Maintenance staff will ensure that ventilation systems and fans operate properly and increase circulation of outdoor air as much as possible by opening windows and doors and other methods.
- Windows and doors should not be opened if doing so poses a safety or health risk by exacerbating seasonal allergies or asthma symptoms.
 - The Charter School will consider alternatives, such as increased central air filtration (targeted filter rating of at least MERV 13) if opening windows poses a safety or health risk to persons using the facility.
- Maintenance staff will ensure that all water systems and features (e.g., drinking fountains) are safe to use after a prolonged facility shutdown to minimize the risk of Legionnaires' disease and other diseases associated with water.
- If possible, suspend or modify use of site resources that necessitate sharing or touching items. For example, consider suspending use of drinking fountains and installing hydration stations; encourage the use of reusable water bottles.
- Consider installing additional temporary handwashing stations at all school entrances and near classrooms to minimize movement and congregation in bathrooms.

- Consider installing privacy boards or clear screens to increase and enforce separation between staff and students.

9. Cohorts and Stable Groups

- The Charter School will implement the use of cohorts¹⁶ and stable groups¹⁷ for in-person education services. Cohorts will be utilized where providing specialized services. The Charter School will utilize stable groups for in-person instruction for all elementary grade levels, and to the maximum extent possible in all middle and high school grade levels.
- **Stable Groups:**
 - Elementary Schools:
 - Stable groups in elementary schools will stay together all day with their core teacher. Any electives of counseling should be conducted virtually to the maximum extent practicable.
 - Stable groups should complete daily activities together, including lunch and recess, and should be staggered from other groups.
 - The Charter School will consider rotating groups which are present on campus at any one time, including staggering attendance on certain days, or during different parts of the day.
 - The Charter School will allow teachers in elementary settings to be assigned to no more than three (3) different stable groups during the course of a single school day or school week.
 - Middle and High Schools:
 - To the maximum extent possible, the Charter School will place students in groups that remain together all day for in-person instruction.
 - The Charter School will consider implementing the following strategies to separate stable groups:
 - Rotating teachers between stable groups,

¹⁶ Cohorts are defined by the CDPH as “a cohort is a stable group of no more than 14 children or youth and no more than two supervising adults (or a configuration of no more than 16 individuals total in the cohort) in a supervised environment in which supervising adults and children stay together for all activities (e.g., meals, recreation, etc.), and avoid contact with people outside of their group in the setting.”

¹⁷ A “stable group” is defined as “a group with fixed membership that stays together without mixing with any other groups for any activities.”

- Implementing block schedules to reduce the number of courses students take in any one day,
 - Offering electives virtually,
 - Dividing the school year into smaller time units, such as four (4) to eight (8) week periods, where students intensively student one or two subjects during that period.
- The Charter School will limit cohorts to 14 students.
- To enforce and promote physical distancing, no child may be part of more than one (1) cohort or stable group. However, a student may leave a cohort or stable group temporary and as needed basis to receive individualized, one-on-one services, provided that the one-on-one services are provided in a secure space, apart from other staff and students.
- Pursuant to CDPH guidance, students, and supervising adults in any one cohort must not interact with students and supervising adults in any other cohort at the Charter School. However, supervising adults may be assigned to no more than two (2) cohorts, if the supervising adult is serving children five years of age or younger or if the adult offers specialized services or support that cannot be offered by another supervising adult.
- Substitute supervising adults are permitted. However, any substitute may serve no more than one (1) cohort per day.
- To the extent possible, the Charter School will strive to provide outdoor space for 50% of cohort activities and instruction.
- The Charter School will take special precautions related to meals for cohorts, as referenced below in Section 12.
- Visitors to the Charter School will not be allowed to interact with cohorts.
- Each cohort will be assigned a designated restroom. In the event that more than one cohort is required to use the same restroom, the Charter School will implement a color-coding system to minimize student and cohort interactions in restrooms.
- During extracurricular activities such as art, music, and exercise, cohorts will be kept separate.
- During recess and playground time, cohorts and stable groups will not be allowed in the same place at the same time. The Charter School may implement a schedule to ensure physical distancing during recess and playground times.
- In assigning and arranging cohorts and stable groups, and to limit physical interactions between cohorts and stable groups, the Charter School will use the following best practices:
 - To the extent feasible, assign children and youth who live together or carpool together, in the same cohort or stable group;

- Avoid moving children and youth between cohorts and stable groups, absent a concern for the child's overall safety and wellness.
- Staff Meetings: Meetings among staff from different cohorts and stable groups must be conducted remotely, outdoors, or in a large room in which all providers wear cloth face coverings and maintain at least 6 feet distance from other providers. Outdoor meetings and meetings in large rooms with the windows open are preferred over meetings in small rooms with windows closed.

10. Physical distancing (staff): The Charter School will incorporate CDPH and CDE guidance with respect to physical distancing between employees, to include some or all of the following:

- The Charter School will consider arranging work schedules and providing telework options to limit the total number of staff on campus each day.
- The Charter School will additionally consider implementing staggered shift schedules, where practicable, to encourage physical distancing. This includes potential staggering of break times, where practicable, to ensure physical distancing in break rooms and staff lounges.
- The Charter School will arrange desks and workspaces to create a minimum of six (6) feet between individuals, including those employed in administrative positions.
- Break rooms, staff rooms and conference rooms will have posted occupancy limits. Staff should minimize use of staff rooms, break rooms and other indoor settings. Staff are encouraged to eat meals outdoors or in large, well ventilated spaces. In such locations, the Charter School will ensure staff can maintain six (6) feet of physical distancing.
- Where possible, trainings and other meetings will be conducted virtually or in a manner that accommodates physical distancing.
- For Charter School staff employed in food service and preparation operations, the Charter School will implement, where practicable, physical distancing requirements, such as floor markings.

11. Physical Distancing (Elevator(s)):

- The Charter School will implement and enforce physical distancing in all elevators, to ensure a maximum of four (4) riders at any one time, if consistent with six (6) feet of physical distancing within that elevator. If the elevators cannot accommodate four (4) riders consistent with six (6) feet of physical distancing, the Charter School will limit the maximum number of riders to conform to six (6) feet of physical distancing.

12. Physical distancing (students): The Charter School will incorporate CDPH and CDE guidance with respect to physical distancing between students on campus, to include some or all of the following:

- The Charter School will consider different options for instructional scheduling models, including using a blended learning model to limit the total number of students on campus each day.
- The Charter School will establish a maximum occupancy of each classroom. Desks will be arranged to minimize face-to-face contact and maintain a minimum of six (6) feet between students and teacher.
- The Charter School will implement measures to maintain physical distancing of six (6) feet between students in the following settings, as practicable. Where six (6) feet of physical distancing cannot be maintained, the Charter School may allow no less than three (3) feet of physical distancing between student chairs. The Charter School will focus on high mask adherence; enhancing other mitigation layers; and maintaining 6 feet of distancing as much as possible during times when students or staff are not masked (e.g., due to eating or drinking). If the Charter School determines in good faith that six (6) feet cannot practicably be maintained, The Charter School will document the reasons physical distancing is not practicable for each setting and describe the measures that will be used to maximize the space between students:
 - School bus stops
 - School buses
 - During daily symptom and temperature screening of students
 - While students are entering campus and waiting for their first class to begin
 - During meal periods
 - During recess
 - During passing periods
 - Classrooms and other instructional spaces
 - Restrooms
 - Locker rooms
 - While students are exiting the campus
 - School buses
 - Before- and after-school programs
 - Extracurricular and co-curricular programs
- To reduce possibilities for infection, students must remain in the same space and in cohorts or stable groups as small and consistent as practicable, including for recess and lunch.

- Ensure students and staff remain in stable classroom cohorts by keeping the same students and teacher or staff together for the entire school day. Students should not mix with other stable classroom cohorts.
- Prioritize the use and maximization of outdoor space for activities where practicable.
- Minimize movement of students and teachers or staff as much as practicable. For example, consider ways to keep teachers with one group of students for the whole day.
- In secondary schools or in situations where students have individualized schedules, plan for ways to reduce mixing among cohorts and to minimize contact.
- Maximize space between seating and desks. Distance teacher desks at least six feet away from students. Consider ways to establish separation of students through other means if practicable, such as, **three to** six feet between desks, where practicable, ~~partitions between desks~~, markings on classroom floors to promote distancing or arranging desks in a way that minimizes face-to-face contact.
- Consider redesigning activities for smaller groups and rearranging furniture and play spaces to maintain separation.
- A supervising adult may be assigned to a maximum of two (2) cohorts, if the adult is serving children five years-of-age and younger, or if the adult offers specialized services or support that cannot be offered by another supervising adult.
- The Charter School will implement measures to maintain physical distancing while students move between classrooms that are easy for students to understand and are developmentally appropriate, including potentially one or more of the following recommendations. In common areas, the school will adjust schedules to ensure that only one cohort moves through common areas such as hallways and restrooms at one time. Other measures to maximize physical distancing between cohorts in common areas includes but are not limited to:
 - Hallways: The Charter School will ensure only one cohort moves through a hallway at any given time. For example, the Charter School may establish more ways to enter and exit a campus, and stagger passing times when necessary.
 - Lockers: Minimize use of lockers to avoid unnecessary mixing and congregation of students in hallways.
 - Restrooms: Stagger restroom use by groups of students to the extent practicable, and/or assign certain groups of students to use certain restrooms. Individual cohorts will be assigned a designated restroom. If more than one cohort is required to use

the same restroom, the Charter School will implement a color-coding system to minimize interactions in restrooms.

- Libraries: Stagger group use of libraries.
- Outdoors: Consider holding recess activities in separated areas designated by class.
- The Charter School will implement physical barriers between food service workers and students, where necessary and appropriate.
- Outdoor and large format spaces (e.g., auditoriums) may be used for instructional activities where physical distancing cannot be maintained in classrooms.
- Activities where there is increased likelihood for transmission from contaminated exhaled droplets such as band (i.e., wind instruments) and choir practice and performances are not permitted, or under circumstances as allowed by state or county guidance.
- The Charter School will implement procedures for turning in assignments to minimize contact.
- The Charter School will implement a plan to maintain physical distancing during meals, included but not limited to the following:
 - Food will be distributed in single-service meals instead of buffet, salad bar or family-style formats.
 - The Charter School will tape or measure six-foot intervals for food lines to ensure physical distancing between students while picking up meals.
 - If meals take place in the cafeteria, only one cohort will be allowed to eat in the cafeteria at any one time. Table and/or chairs will also be spaced at six-foot intervals to ensure physical distancing between students.
- The Charter School will implement appropriate physical distancing measures during physical activities.
 - Sporting Events and Gatherings: Outdoor and indoor sporting events and competitions, assemblies, dances, rallies, field trips, and other activities that require close contact or that would promote congregating are not permitted except as allowed by state and county guidance.
 - Playgrounds and Recess: The Charter School will consider holding recess activities in separated areas designated by class and/or staggered throughout the day and limiting use of shared playground equipment in favor of physical activities that require less contact with surfaces and allow for greater physical distancing.
 - Youth Sports and Physical Education: The Charter School will conduct sports and physical education classes only when the following can be maintained (1) physical distancing of at least six (6) feet, and (2) a stable group or cohort, such as a class, that limits the risk of transmission. All sports will take place in compliance with

then-current state and county guidance for youth sports. Activities should take place outside to the maximum extent practicable.

- If any students participate in a Charter School-sanctioned outdoor high-contact or moderate contact sport, participants (via their parent/guardian) and coaches must sign the School's Youth Sports Informed Consent Form, prior to participation,
- If any students participate in a Charter School-sanctioned outdoor high-contact sport, the Charter School will strongly recommend COVID-19 testing.
 - Both participants and coaches in high-contact sports ~~football, rugby, and water polo~~ activities are required to undergo weekly COVID-19 testing. If competing, testing will be performed with test results made available within 24 hours of play.
- When equipment is shared during an activity, participants perform hand hygiene (wash hands with soap and water or use an alcohol-based hand sanitizer) before play, during breaks, at half time, and after the conclusion of the activity.
 - Balls or other objects or equipment can be touched by multiple players during practice and play if the above hand hygiene practices are followed.
- Face coverings should be worn by participants during practice, conditioning, and competition, even during heavy exertion as tolerated,
- Participants should maintain at least six (6) feet of distance from other participants to the maximum extent possible,
- Coaches and participants should maintain six (6) feet of distance to the maximum extent possible
- Face coverings must be worn when not participating in the activity,
- Coaches, support staff, and observers must wear a face covering,
- The Charter School will not allow the sharing of drink bottles nor other personal items and equipment,
- Any indoor sports activities will comply with capacity limits indicated in CDPH guidance for gyms and fitness facilities,
- Physical conditioning, practice, skill-building, and training that can be conducted outdoors, with 6 feet of physical distancing, and within stable cohorts are authorized regardless of case rate or sport. Such activities may be conducted indoors consistent with LAC DPH and CDPH restrictions.

- Locker Rooms: The Charter School will enforce physical distancing in locker rooms by offering locker room access only when staff supervision is available so as to stagger locker room access, as well as by creating alternative storage solutions for students' clothing, books, and other necessary items. All Charter School students must maintain six (6) feet of social distancing while using locker rooms.
- College Admissions Testing on Charter School campuses:
 - Charter Schools may administer college admissions testing (i.e., SAT, PSAT, ACT).
 - If a Charter School administers college admissions testing, the Charter School will ensure that students are appropriately cohorted for the entire duration of the testing.
 - College admissions testing cohorts will consist of no more than 14 students in each classroom, with a distance of at least six (6) feet between students and between students and teachers/test proctors.
 - The Charter School will also ensure proper physical distancing and infection control throughout the duration of any college admissions testing, including:
 - All students and staff involved in college admission testing shall wear face coverings during the entire time they are present on the Charter School campus.
 - Gatherings at arrival times, dismissal times, and break times are prohibited.
- The Charter School will consider and implement where practicable any teaching methods designed to encourage and promote physical distancing.

13. Physical distancing (buses): The Charter School will incorporate CDE guidance with respect to physical distancing between students on buses (if bus transportation is provided).

- The Charter School will limit the total number of students on each bus. Younger students and students with disabilities will be given highest priority.
- Seats on buses will be marked to require students to provide physical distancing on buses. Seating will be staggered in accordance with CDE guidance.
- The Charter School will allow a maximum of one child per bus seat. When feasible, the Charter School will also use alternating rows on such busses.
- All persons on Charter School busses, including students, are required to wear face masks at all times.
- If feasible, consist with air quality and ride safety, Charter School busses will attempt to keep bus windows open.

14. Use of face coverings: The Charter School will follow CDPH, CDE and CDC guidance and state and local health orders on the use of face coverings. All staff are encouraged to review the CDPH and CDC guidance on cloth face coverings; face coverings must be used in accordance with CDPH Guidelines and this Policy unless a person is exempt as explained in this Policy, particularly in indoor environments, on school buses, and areas where physical distancing alone is not sufficient to prevent disease transmission.

- Until such time as the statewide order is lifted, all individuals two years of age and older must wear a cloth face covering at all times while on campus, except while actively eating or drinking, or as exempted under state guidance.
 - Staff excluded from this requirement are those that require respiratory protection according to Cal/OSHA standards.
- Employees should wear a clean face mask to work every day.
- Employees should avoid touching the mask and should wash their hands frequently, including after removing the mask.
- Employees are expected to teach and reinforce proper use of face coverings, and in limited circumstances, face shields.
- Teachers may use clear plastic face shields with an appropriate seal (cloth covering extending from the bottom edge of the shield and tucked into the shirt collar) in certain limited situations in the classroom to enable students to see their faces and avoid potential barriers to phonological instruction as long as the wearer maintains physical distance from others to the extent practicable. Staff must return to wearing a face covering outside of the classroom.
- The Charter School will post signs regarding the proper use, removal, and washing of face coverings.
- The Charter School will post signs to remind employees that CDC recommends maintaining social distancing of at least three (3) to six (6) feet, and that the State of California currently requires face masks to be worn in public settings with certain limited exceptions.
- All student age two and older who are not prevented from doing so by a breathing problem or disability shall wear a clean cloth face covering at all times, including:
 - While waiting to enter the school campus.
 - In any area outside of the classroom (except when eating or drinking).
 - While leaving school.
 - While waiting for or riding on a school bus.

- Proper use of cloth face coverings will be strictly enforced. The Charter School will exclude from campus anyone who refuses to wear a face mask, and who is not prevented from doing so due to a documented disability or legally recognized accommodation, consistent with this Policy.
- The Charter School shall educate students, particularly younger elementary school students, on the rationale and proper use of face coverings.
- A cloth face covering or face shield may be removed for meals, snacks, naptime, or outdoor recreation, or when it needs to be replaced. When a cloth face covering is temporarily removed, it should be placed in a clean paper bag (marked with the student's name and date) until it needs to be put on again.
- The Charter School will provide face coverings for students and staff who lose their face coverings or forget to bring them to school.
- For Charter School staff working with sick children or with children who are precluded from wearing a cloth face covering due to a medical condition, the Charter School will provide a medical grade face mask to that employee.
- Employees working in a cubicle must wear a face covering.
- A face shield may be an acceptable alternative for children who cannot wear a face mask due to a documented disability or who cannot wear a face mask properly.
- The Charter School will evaluate any employee's request for accommodation from the Charter School's facial covering policy/requirement pursuant to the MPS Employee Handbook and applicable law for all lawfully recognized accommodations. Employees requesting an accommodation from the facial covering policy/requirement must provide appropriate documentation and contact human resources.
- **Accommodations for Students:**
 - Any student who cannot wear a facial covering and/or face shield due to a documented disability must provide a doctor's note which justifies the need for an accommodation from the facial covering requirement.
 - Parents/guardians who believe their student may need an accommodation from the Charter School's facial covering policy and requirement should contact the Charter School principal.
 - Upon receipt of appropriate documentation, the Charter School will evaluate requests for accommodation and determine what, if any accommodations the Charter School can provide.
 - For special education/504 students:
 - Appropriate determinations will be made during IEP team meetings.

- When considering potential accommodations, SPED/504 teams will use the following criteria:
 - 1) Does the student have a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance and
 - 2) When deciding if students with certain disabilities should wear a mask, determine if they can:
 - Use a mask correctly,
 - Avoid frequent touching of the mask and their face,
 - Limit sucking, drooling, or having excess saliva on the mask,
 - Remove the mask without assistance.
 - Pursuant to applicable legal guidance, and for students who cannot wear a mask, the Charter School will not place them with a cohort or group of students in the classroom. A student who cannot wear a mask can receive necessary services in a one-to-one setting with staff wearing appropriate PPE. The Charter School may also accommodate such students via distance learning.

15. Use of gloves and PPE: The Charter School requires employees to wear gloves and other Personal Protective Equipment (“PPE”) in accordance with the following standards.

- The Charter School will provide surgical masks, face shields, and disposable gloves for employees engaging in Wellness and Temperature Screenings.
- Workers or other persons handling or serving food must use gloves in addition to cloth face coverings.
- The Charter School will provide a clear plastic barrier or face covering and disposable gloves for front office and food service employees.
- The Charter School will provide equipment and PPE to custodial staff for cleaning and disinfecting, including:
 - For regular surface cleaning, gloves appropriate for all cleaning and disinfecting.
 - For classified staff engaged in deep cleaning and disinfecting, proper PPE for COVID-19 disinfection (disposable gown, gloves, eye protection, and mask or respirator) in addition to PPE as required by product instructions.

- All cleaning and disinfecting products must be kept out of children’s reach and stored in a space with restricted access.
- As required by Cal/OSHA, the Charter School will provide training on the proper use of PPE to protect employees from the hazards of the cleaning products used.
- Employees must wash hands after removing gloves.

16. Support for Students at Increased Risk of Becoming Infected or Unrecognized Illness:

- The Home Office COVID-19 Response Team or designee will review student health plans, including 504 Plans, to identify students who may need additional accommodations to minimize potential exposure.
- The Home Office COVID-19 Response Team or designee will develop a process for engaging families for potentially unknown concerns that may need to be accommodated.
- The Charter School will identify additional preparations for classroom and non-classroom environments as needed to ensure the safety of students at increased risk of becoming infected or having unrecognized illness. Persons who might be at increased risk of becoming infected or having unrecognized illness include the following:
 - Individuals who have limited mobility or require prolonged and close contact with others, such as direct support providers and family members;
 - Individuals who have trouble understanding information or practicing preventive measures, such as hand washing and physical distancing; and
 - Individuals who may not be able to communicate symptoms of illness.
- The Charter School is prepared for opening to provide Free Access to Public Education (“FAPE”) in the least restrictive environment (“LRE”) for each student. All students with disabilities will receive services according to their IEP. In accordance with IDEA, it is critical to reinforce the understanding that students receiving special education services, or 504 accommodations are general education students first. Balancing the educational needs with the health and well-being of students and staff is our top priority.
- Every child and adolescent with a disability is entitled to FAPE and is entitled to special education services based on their individualized education program (IEP). The Charter School continuously review and problem solve to balance safety and service needs. In order to provide the required level of safety, systems, processes and service delivery models have been reviewed. Adherence to social distancing guidelines will be followed as feasible except for instances when the services outlined in a specific IEP call for closer proximity. This will be evaluated on a case-by-case basis. For example, additional provision of PPE

supplies to staff (gloves, gowns, face shields and Plexiglas dividers) who are required to deliver hand-over-hand instruction or hygiene service needs for students.

- Evaluations and Timelines:
 - All IDEA/ADA compliance timelines will be followed on schedule and in accordance with IDEA/ADA regulations. IEP Team meetings and 504 meetings that were missed due to the March school facility closures will be rescheduled and conducted as soon as possible, if not already conducted. All IEP team meetings and 504 meetings will be conducted virtually until the use of school facilities return to normal operations.
- Services:
 - Students attending in-person instruction will receive services as outlined in their IEP.
 - Where possible, each student will be included into the LER. Special education teachers supporting students in the general education setting will provide services either remotely, or in person within the student's established cohort or on a one to one in-person basis.
 - Related service providers will provide services to students remotely via distance learning, or on a one to one in-person basis as appropriate.
 - Students from different cohorts will not be grouped together for pull-out services.
 - The IDEA allows for flexibility in determining how to meet the individualized needs of students receiving special education services. State guidelines for the delivery of special education and related services will be implemented while protecting the health and safety of students as well as the individuals providing the services.
 - If a student is unable to access their education in person due to medical or other circumstances, including the inability to wear a face covering, alternative means of delivering these services will be provided.
 - The Charter School will provide appropriate protective equipment relative to the responsibilities of all Support Service Staff and disability needs.
 - Staff will be supplied with protective equipment as appropriate, including masks, shields, gloves and gowns.
 - All Staff and students will receive training on the appropriate use of PPE and healthy hygiene practices that are proven to mitigate the spread of COVID-19.
- The Charter School will identify additional preparations for classroom and non-classroom environments as needed to ensure the safety of students at increased risk of becoming infected or having unrecognized illness. Persons who might be at increased risk of

becoming infected or having unrecognized illness include the following:

- Individuals who have limited mobility or require prolonged and close contact with others, such as direct support providers and family members;
- Individuals who have trouble understanding information or practicing preventive measures, such as hand washing and physical distancing; and
- Individuals who may not be able to communicate symptoms of illness.

17. Maintaining Healthy Operations: The Charter School will follow all Orange, Los Angeles, and San Diego County Public Health Orders and CDPH Guidance for maintaining healthy operations, including the following practices.

- Monitor on a weekly basis, COVID-19 guidance from CDPH, and County Offices of Education.
- Monitor staff absenteeism and have a roster of trained back-up staff where available.
- Monitor the types of illnesses and symptoms among your students and staff to help isolate them promptly as needed.
- Designate a staff liaison or liaisons to be responsible for responding to COVID-19 concerns. Workers should know who they are and how to contact them. The liaison should be trained to coordinate the documentation and tracking of possible exposure, in order to notify local health officials, staff and families in a prompt and responsible manner.
- Maintain communication systems that allow staff and families to self-report symptoms and receive prompt notifications of exposures and closures, while maintaining confidentiality, as required by FERPA and state law related to privacy of educational records.
- Implement routine COVID-19 testing of staff and students as directed by local county health officers and pursuant to CDPH guidance. Encourage students and families to receive testing from community testing sites before returning to school for in-person instruction and regularly while attending school in person.
- Support students who are at higher risk for severe illness or who cannot safely distance from household contacts at higher risk, by providing options such as virtual learning or independent study.

18. Protection of higher risk employees:

- The Charter School recognizes that older adults and people of any age who have serious underlying medical conditions are at higher risk for severe illness from COVID-19.¹⁸
- Consistent with operational needs, the Charter School shall support options to telework, if available and reasonable.
- The Charter School shall attempt to limit vulnerable employees' duties to minimize their contact with visitors and other employees.

19. COVID-19 Vaccinations:

- **Purpose:**
 - Consistent with the Charter School's legal duty to maintain a safe and healthy workplace and to limit the spread of COVID-19, the Charter School has adopted the following COVID-19 employee vaccination policy ("Vaccination Policy"). The purpose of this Vaccination Policy is to protect the health, safety, and well-being of all Charter School employees, students, families, and stakeholders to the maximum extent possible, and to facilitate a safe and meaningful return to in-person instruction. The Charter School drafted this policy in compliance with all applicable federal and state laws, including guidance from the Equal Employment Opportunity Commission ("EEOC"), Centers for Disease Control and Prevention ("CDC"), the California Department of Public Health ("CDPH"), and local health authorities.
- **Policy:**
 - Pursuant to this Vaccination Policy, the Charter School strongly encourages all employees to receive a COVID-19 vaccination at the first available opportunity. The Charter School will notify all employees upon learning of any vaccination opportunities and will regularly provide a list of local facilities offering the vaccine. Upon request, the Charter School will promptly provide any Charter School employee with an employment verification letter, as well as any other documentation required to secure vaccination pursuant to federal, state, or local law.

¹⁸ This includes employees with any one or more of the following high-risk factors: age 65 years and older, chronic lung disease, moderate to severe asthma, serious heart conditions, immune deficiency, severe obesity (body mass index of 40 or higher), diabetes, chronic kidney disease undergoing dialysis, or liver disease.

- Employees who choose to get vaccinated should do so outside of working hours. Employees who demonstrate they are unable to get vaccinated during working hours may use either COVID-19 Supplemental Paid Sick Leave or accrued sick leave to for time spent attending a COVID-19 vaccination appointment. In such cases, employees must consult with their supervisors regarding the best time to be excused to receive the vaccine and are responsible for arranging coverage during their absence to get vaccinated, if applicable.
- Employees who voluntarily vaccinate for COVID-19 are not to provide any proof of vaccination information to the Charter School. However, such employees must retain proof of vaccination should the Charter School elect to mandate vaccinations and request proof of COVID-19 vaccination status at a later date.
- Employees who experience symptoms related to a COVID-19 vaccine that prevent the employee from being able to work or telework may be entitled to COVID-19 Supplemental Paid Sick Leave.
- **Non-Discrimination:**
 - The Charter School will not discriminate, harass, or retaliate against any employee for receiving the COVID-19 vaccine or for electing not to receive the COVID-19 vaccine.
- **Disclaimer:**
 - As public health and legal guidance regarding COVID-19 vaccinations evolves, the Charter School reserves the right to revise this Vaccination Policy. Such a revision may include but is not limited to mandating all employees vaccinate for COVID-19, absent a legally-recognized accommodation. Upon any revision to this Vaccination Policy, the Charter School will provide immediate notice in writing to all employees.

Employee with any questions regarding the Charter School’s Vaccination Policy may contact Human Resources Department at hr@magnoliapublicschools.org.

20. Communications to the Charter School community:

- The Charter School will engage with families and staff to develop strategies to prepare and respond to the COVID-19 emergency, including guidelines for families about when to keep students home from school and other topics.
- Communications will include a process for engaging families for potentially unknown concerns that may need to be accommodated.
- Beginning March 15, 2021, every Charter School campus shall report identifying

information about its operations to the CDPH. Every Charter School campus shall thereafter report such information to the CDPH on the second and fourth Monday of each month.

- Prior to the start of the school year, the Charter School will communicate to staff, students, and parents about new, COVID-19-related protocols, including:
 - Enhanced sanitation practices
 - Physical distancing requirements and recommendations
 - Proper use, removal and washing of face coverings.
 - Screening practice.
 - How COVID-19 is spread.
 - COVID-19 specific symptom identification.
 - Preventing the spread of COVID-19 if you are sick, including the importance of not coming to work if staff members have symptoms, or if they or someone they live with has been diagnosed with COVID- 19, including pertinent isolation and quarantine policies.
 - Local community testing sites and options for obtaining COVID-19 testing from private medical providers, including any testing arranged by the Charter School.
 - Guidelines for employees regarding COVID-19 specific symptom identification and when to seek medical attention.
 - Guidelines for families about when to keep students home from school.
 - Systems for self-reporting symptoms.
 - Criteria and plan to close schools again for physical attendance of students.
 - Changes in Charter School extracurricular, academic, and meal programs to help prevent the spread of COVID-19.
 - Charter School policies regarding parental visits to Charter School campuses, reiterating options for contacting the school remotely.
 - Contact information at the Charter School for students who may have been exposed to COVID-19.
 - Charter School contact information if a student has COVID-19 symptoms or may have been exposed to COVID-19.
- The Charter School will train staff and students on protocols for physical distancing for both indoor and outdoor spaces.
- The Charter School will provide information to parents and guardians regarding this Policy and related guidance, along with the safety measures that will be in place in indoor and outdoor settings with which parents and guardians must comply.
- COVID-19 protocol will be posted at all public entrances to the Charter School campus.

- Communications will be targeted to the most vulnerable members of the Charter School community.
- The Charter School will develop a communications plan for implementation if the school has a positive COVID-19 case in accordance with CDPH and CDE guidelines.

The MPS CEO/Superintendent is authorized to implement changes or additions to this policy in order to ensure compliance or consistency with new or revised orders or guidance from local, county, state or federal authorities (“Agencies”), to take any and all actions consistent with orders and guidance from the Agencies that is not specifically addressed by this policy, and to ensure compliance with the Charter School’s charter petition. The MPS CEO/Superintendent shall provide the Board with regular updates as to actions taken pursuant to this section.

Appendix

Site Specific Planning Form

This document has been included to align with the Los Angeles Unified School District’s (“LAUSD”)’s COVID-19 Containment, Response and Control Plan (“Containment Plan”). Pursuant to the LAUSD’s Containment Plan, the LAUSD is requiring all Los Angeles Unified schools complete this form, along with the pre-filled versions of the Los Angeles County Department of Public Health COVID-19 Reopening Protocols for K-12 Schools: Appendices T1 and T2 documents.

School Name: _____

Date Last Revised: _____

School Address: _____

Location Code: _____

School Phone Number: _____

Campus Density

- Approximate Square Footage open: _____
- Maximum Student Capacity: _____
- Maximum Number of Staff with physical distancing: _____
- Total Number of Students Enrolled: _____
- 25% of Total Number of Students Enrolled: _____
- In-person class size is limited to: _____
- The **maximum** number of students & staff permitted on campus at any one time to ensure no more than 25% of total student body and to maximize physical distancing is:

Specialized Services for defined subgroups of children (T1)			
Enter the estimated total number of students that will return per grade (if none, enter 0)

INJURY AND ILLNESS PREVENTION PROGRAM (“IIPP”) COVID-19 ADDENDUM

California employers are required to establish and implement an Injury and Illness Prevention Program (IIPP) to protect employees from all worksite hazards, including infectious diseases.

Charter School has adopted this addendum to accommodate reopening school for in-person instruction in accordance with the COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year from the California Department of Public Health (CDPH). This document additionally complies with the temporary Cal/OSHA regulations issued November 30, 2020 which require a “written COVID-19 prevention plan.” Resumption of in-person instruction presumes that the Charter School has complied with all applicable requirements pursuant to California’s Blueprint for a Safer Economy Program, as well as the “Safe Schools for All Plan.” Charter School and worksite administrators should coordinate with state and local health officials to obtain timely and accurate information about the level of disease transmission in the local community before resuming any on-site work practices. Local conditions will influence the decisions that public health officials make regarding community-level strategies.

This addendum contains three parts. Part one contains background information regarding COVID-19, including known symptoms, emergency warning signs and high-risk factors. Part two provides guidelines for implementation of a COVID-19 Infection Control Plan, which includes short-term measures to implement while COVID-19 remains endemic in states and communities. Part three contains measures to maintain a healthy workforce until herd immunity in the population is achieved or the global incidence of COVID-19 comes under control.

Background

In November 2019, a novel coronavirus (SARS-CoV-2) was discovered in Wuhan, China, which was found to cause a viral respiratory illness (coronavirus disease 2019, or “COVID-19”) leading to severe injury and death in certain populations, particularly elderly persons and persons with underlying health conditions.

250 E. 1st Street Suite 1500, Los Angeles, CA 90012 | www.magnoliapublicschools.org

COVID-19 was declared a pandemic by the World Health Organization on March 11, 2020. In response to the COVID-19 Pandemic, public health officers in many states and counties ordered all individuals to stay home or at their place of residence (i.e., “Shelter in Place”), except as needed to maintain continuity of operations of certain critical infrastructure sectors. Across the nation, public schools and most other government offices and private businesses were closed in order to slow the spread of the coronavirus in the community. Many states and localities have now commenced phased reopening.

In 2020, the CDC identified the following symptoms of COVID-19, which typically appear within 2-14 days after exposure to the virus:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

The CDC also recommends that, if a person shows any of the following emergency warning signs, * he or she should seek emergency medical care immediately:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

*Please note that this is not a complete list of all possible symptoms. Anyone experiencing any other symptoms that are severe or concerning should contact a medical provider.

Certain people are at higher risk for severe illness from COVID-19, including:

- People 65 years and older
- People who live in a nursing home or long-term care facility
- People of all ages with underlying medical conditions, particularly if not well controlled, including:
 - People with chronic lung disease or moderate to severe asthma
 - People who have serious heart conditions
 - People who are immunocompromised
 - Many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune

deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications

- People with severe obesity (body mass index [BMI] of 40 or higher)
- People with diabetes
- People with chronic kidney disease undergoing dialysis
- People with liver disease

Decisions to resume operations should be based on both the level of disease transmission in the community and the capacity to protect the safety and health of staff and students at each school site. By providing guidelines for the design of a control plan for COVID-19, part two of this addendum is intended to allow for the resumption of school by implementing measures to prevent and slow the spread of COVID-19 within the workplace.

COVID-19 Infection Control Plan

Before resuming normal or phased school activities after a Shelter in Place order is lifted, prepare and implement a COVID-19 preparedness, response, control and prevention plan (i.e., COVID-19 Infection Control Plan). Federal, state, and local public health communications must be monitored to keep up with information available about COVID-19 regulations, guidance, and recommendations, to ensure that workers have access to the timeliest information.

1. Design, implement, update and maintain a COVID-19 Infection Control Plan:

The overall goal of the COVID-19 Infection Control Plan is to decrease the spread of COVID-19 and lower the impact of the disease in the workplace. This includes the following objectives:

- Prevent and reduce transmission among employees;
- Maintain healthy school operations; and
- Maintain a healthy work environment.

All site administrators should implement and update as necessary a control plan that:

- Is specific to your workplace;
- Identifies all areas and job tasks with potential exposures to COVID-19; and
- Includes control measures in this policy to eliminate or reduce such exposures

COVID-19 Infection Control Plans should consider that employees may be able to spread COVID-19 even if they do not show symptoms, which is a source of anxiety in the workforce, particularly among higher-risk individuals. Therefore, it is important to have discussions with workers about planned changes and seek their input. Additionally, collaboration with workers to effectively communicate important COVID-19 information.

2. Adjust operations to slow the spread:

- Employees who have COVID-19 symptoms should notify their supervisor and stay home as directed.
- Sick employees should follow CDC-recommended steps for self-quarantine. Employees should not return to work until the criteria to discontinue home isolation are met, in consultation with their supervisor, local health departments and healthcare providers.
- Employees who appear to have symptoms upon arrival at work or who become sick during the day should immediately be separated from other employees, students, and visitors, and sent home.
- Adopt a procedure for the safe transport of an employee who becomes sick while at work. The employee may need to be transported home or to a healthcare provider.
- Employees who are well but who have a sick family member at home with COVID-19 should notify their supervisor and follow CDC-recommended precautions.
- If implementing in-person health checks, conduct them safely and respectfully. Protect the screener using social distancing, barrier or partition controls, or personal protective equipment (“PPE”). However, reliance on PPE alone is a less effective control and is more difficult to implement, given PPE shortages and training requirements.
- Complete the health checks in a way that helps maintain social distancing guidelines, such as providing multiple screening entries into the building.
- Follow guidance from the Equal Employment Opportunity Commission regarding confidentiality of medical records from health checks.
- To prevent stigma and discrimination in the workplace, make employee health screenings as private as possible. Do not make determinations of risk based on race or country of origin or any other protected characteristics, and be sure to maintain confidentiality of each individual’s medical status and history.

3. Conduct a Workplace Hazard Assessment:

The purpose of a hazard assessment of the workplace is to identify where and how workers might be exposed to COVID-19 at work. Combinations of controls from the hierarchy of controls are used to limit the spread of COVID-19 (see Controls Table in Appendix A). These include engineering controls, workplace administrative policies, and personal protective equipment (PPE) to protect workers from the identified hazards.

- Conduct a thorough hazard assessment to determine if workplace hazards are present, or are likely to be present, and determine what type of controls are needed for specific job duties, including:
 - Evaluating potential workplace exposures which employees or other persons at the Charter School campus may encounter.
 - Evaluating places where Charter School employees or others may congregate on campus, such as hallways, bathrooms, and break rooms.
 - Reviewing and incorporating all applicable federal, state, and local public health guidance related to COVID-19, as well as any other industry-specific guidance.
 - From time to time, evaluate existing COVID-19 health and safety measures to determine whether additional or different measures are necessary.

- Periodically conduct inspections to identify any potential COVID-19 unhealthy conditions, work practices, procedures, and to ensure compliance with all COVID-19 health and safety measures.
- Encouraging employees and their exclusive representative, if any, to participate and assist the Charter School in identifying and evaluating potential COVID-19 workplace hazards. The School will do so by:
 - Before implementing this plan, the School will consult with employees' exclusive representatives and coordinate a virtual safety meeting in February 2021. At the safety meeting, the School will discuss the components of the COVID-19 Prevention Plan with employees and exclusive representatives. The School will additionally seek input from employees and exclusive representatives regarding potential COVID-19 hazards. In advance of the virtual safety meeting, employees and exclusive representatives are encouraged to consider areas on campus which they believe pose a high-risk of COVID-19 transmission, as well as activities on campus that are difficult to complete while complying with all health and safety guidance.
 - In consultation with employees' exclusive representatives, the School will create a rotating team of employees to participate in hazard assessments on campus. These assessments will occur virtually to the greatest extent practicable. These assessments will occur weekly. All employees are encouraged to volunteer for participation in hazard assessments, and the School will rotate teams of employees, ensuring all groups of School personnel are equally represented to the greatest extent possible.
 - If employees and/or exclusive representatives have specific COVID-19 hazard concerns, they may contact the school site principals (Chief Compliance Officer) to discuss such concerns, who may be reached at:

School Name	School Site Principal	Phone Number
Magnolia Science Academy-1	Mustafa Sahin	818-609-0507
Magnolia Science Academy-2	David Garner	818-758-0300
Magnolia Science Academy-3	Zekeriya Ocel	310-637-3806
Magnolia Science Academy-4	Musa Avsar	310-473-2464
Magnolia Science Academy-5	Brad Plonka	818-705-5676
Magnolia Science Academy-6	John Terzi	310-842-8555
Magnolia Science Academy-7	Meagan Wittek	818-886-0585
Magnolia Science Academy-8	Jason Hernandez	323-826-3925
Magnolia Science Academy-Santa Ana	Steven Keskindurk	714-479-0115
Magnolia Science Academy-San Diego	Gokhan Serce	619-644-1300
MPS Home Office	Suat Acar	213-628-3634

- If a hazard assessment reveals any potential COVID-19 hazards, the Charter School will immediately act to correct the hazard. The school site principal (Chief Compliance Officer) will be responsible for responding to and correcting any potential COVID-19 hazards.
- When engineering and administrative controls cannot be implemented or are not fully protective:
 - Determine what PPE is needed for each workers' specific job duties,
 - Select and provide appropriate PPE to the workers at no cost, and
 - Train their workers on its correct use.

4. Take action if an employee is suspected or confirmed to have COVID-19 infection:

Current Cal/OSHA Regulations

- Effective immediately, upon one (1) “COVID-19 case”¹ in the workplace, the Charter School will:
 - Investigate the COVID-19 case, determine the day and time the COVID-19 case was last present on the Charter School campus, the date of the positive test and/or diagnosis, and the date the case has one (1) or more COVID-19 symptoms, if any.
 - Investigate whether other Charter School employees or any other third parties may have had a COVID-19 exposure by evaluating the activities of the COVID-19 case at the Charter School campus during the “high-risk exposure period”².
 - Give notice of potential exposure, within one (1) business day, and without revealing any personal identifying information³ of the COVID-19 case, to:
 - 1) All employees and their authorized representatives, if any, who may have had COVID-19 exposure, and
 - 2) Independent contractors and other employers present at the workplace during the high-risk exposure period.
 - Offer testing for COVID-19 to all employees with potential COVID-19 exposure in the workplace, at no charge and during working hours, as well as:
 - Information regarding COVID-19-related benefits under all applicable federal, state, and local laws, as well as potential salary continuation rights during any period of exclusion due to the COVID-19 exposure.
 - Investigate the potential that workplace conditions contributed to the risk of COVID-19 exposure, as well as remedial steps that could have been taken to reduce the risk of COVID-19 exposure.

- Effective immediately, and pursuant to current Cal/OSHA regulations:
 - All employees with COVID-19 exposure shall be excluded from the Charter School campus for fourteen (14) days from the last known exposure to a COVID-19 case.
 - Charter School employees with confirmed COVID-19 must not return to the Charter School campus as follows⁴:
 - For Employees who test positive and have symptoms consistent with COVID-19:
 - 1) At least twenty-four (24) hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications,
 - 2) COVID-19 symptoms have improved, and
 - 3) At least ten (10) days have passed since COVID-19 symptoms first appeared.
 - Employees who test positive but remain asymptomatic shall not return to the Charter School campus until at least ten (10) days have passed since the date

¹ Cal/OSHA regulations define a “COVID-19 case” as a person who: 1) Has a positive COVID-19 test, 2) is subject to a COVID-19 related order to isolate issued by a local health department or state health official, or 3) has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

² “High-risk exposure period” is defined by Cal/OSHA as: 1) For individuals with COVID-19 symptoms, from two (2) days before the symptoms first develop until ten (10) days after symptoms first appeared, and 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved; or 2) for asymptomatic individuals who test positive for COVID-19, from two (2) days before until ten (10) days after the first positive COVID-19 test specimen was collected.

³ All personally identifying information related to COVID-19 cases or those with COVID-19 symptoms shall be kept confidential. However certain information may be provided to public health authorities, as required by law.

⁴ The Charter School will not require a negative test prior to an employee returning to work. 8 CCR 3505(c)(11)(D).

- of specimen collection of their first positive COVID-19 test.
- Employees excluded from work due to COVID-19 exposure may be entitled to salary continuation during the fourteen (14) day exclusion period. The Charter School will provide employees with California COVID-19 Supplemental Paid Sick Leave or emergency paid sick leave pursuant to the Families First Coronavirus Response Act (“FFCRA”), if available, during this period. If an employee is not eligible for California COVID-19 Supplemental Paid Sick Leave or otherwise has no such leave available, the Charter School may elect to provide paid sick leave during this period. Any salary continuation benefits will account for funds received from public sources during this period, as well as any indemnity benefits as part of any workers’ compensation claim related to the employee’s COVID-19 exposure.
 - If a COVID-19 case is not work-related pursuant to all applicable workers’ compensation laws, Charter School employees are not entitled to salary continuation during the fourteen (14) day exclusion period. However, the employee may still be eligible for California COVID-19 Supplemental Paid Sick Leave during this period.
 - If a Charter School employee is unable to work for reasons other than protecting other employees or students at the Charter School campus from possible COVID-19 transmission, the employee is not entitled to salary continuation during the fourteen (14) day exclusion period. However, the employee may still be eligible for California COVID-19 Supplemental Paid Sick Leave during this period.
 - Effective immediately, and in the event of a confirmed COVID-19 case at the Charter School campus, the Charter School will notify the local public health department, as required by law.
 - Effective immediately, upon notice any COVID-19-related serious illnesses or death⁵ of an employee occurring in a place of employment or in connection with any employment, the Charter School will immediately report such information to Cal/OSHA.

AB 685

Effective January 1, 2021, employers are required to provide certain notices in response to a “notice of potential exposure to COVID-19,” in accordance with Labor Code section 6409.6. A “notice of potential exposure” means any of the following:

- (a) Notification from a public health official or licensed medical provider that an employee was exposed to a qualifying individual at the worksite;
- (b) Notification from an employee, or their emergency contact, that the employee is a qualifying individual;
- (c) Notification through the school’s testing protocol that the employee is a qualifying individual; or
- (d) Notification from a subcontracted employer that a qualifying individual was on the schoolsite.

⁵ Pursuant to 8 CCR §330(h), “Serious injury or illness means any injury or illness occurring in a place of employment or in connection with any employment that requires inpatient hospitalization for other than medical observation or diagnostic testing, or in which an employee suffers an amputation, the loss of an eye, or any serious degree of permanent disfigurement.”

Upon receipt of a “notice of potential exposure,” the Charter School must take the following actions within one (1) business day of the notice:

- (a) Provide a written notice to all employees who were on the premises in the same worksite⁶ as the qualifying individual⁷ within the infectious period⁸ that they may have been exposed to COVID-19.⁹
- (b) Provide a written notice to the exclusive representative, if any, of the above employees.¹⁰
- (c) Provide all employees who may have been exposed and the exclusive representative, if any, with information regarding COVID-19-related benefits to which employees may be entitled under applicable federal, state, or local laws.
 - Information regarding COVID-19-related benefits includes, but is not limited to, workers’ compensation, and options for exposed employees, including California COVID-19 Supplemental Paid Sick Leave-related leave, emergency paid sick leave pursuant to the FFCRA, Charter School sick leave, state-mandated leave, or negotiated leave provisions, as well as antiretaliation and antidiscrimination protections applicable to employees.
- (d) Notify all employees, and the employers of subcontracted employees and the exclusive representative, if any, on the disinfection and safety plan that the employer plans to implement and complete per the guidelines of the federal Centers for Disease Control.

Records of the above notices must be retained for a minimum of three (3) years.

Effective January 1, 2021 the school must also take the following responses in the event of a COVID-19 “outbreak,” as defined by CDPH:

- Within forty-eight (48) hours, the Chief Executive Officer or designee shall notify the county public health department of the names, number, occupation, and worksite of employees who meet the definition of a qualifying individual.¹¹

⁶ The “worksite” does not include buildings, or floors within multistory buildings, that a qualifying individual did not enter. If the Charter School operates multiple worksites, the school must only notify employees who worked at the same worksite as the qualified individual. (Labor Code § 6409.6, subd. (d)(5).)

⁷ A “qualifying individual” means (a) a laboratory-confirmed case of COVID-19, as defined by the State Department of Public Health; (b) a positive COVID-19 diagnosis from a licensed health care provider; (c) a COVID-19-related order to isolate provided by a public health official; (d) died due to COVID-19, in the determination of a county public health department or per inclusion in the COVID-19 statistics of a county. (Labor Code § 6409.6, subd. (d)(4).)

⁸ The “infectious period” means the time a COVID-19-positive individual is infectious, as defined by the State Department of Public Health. (Labor Code § 6409.6, subd. (d)(2).)

⁹ Written notice must be provided in the same manner that the Charter School ordinarily uses to communicate employment-related information. Written notice may include, but is not limited to, personal service, email, or text message if it can reasonably be anticipated to be received by the employee within one business day of sending and shall be in both English and the language understood by the majority of the employees.

¹⁰ Written notice to the exclusive representative must contain the same information as required in an incident report in a Cal/OSHA Form 300 injury and illness log unless the information is inapplicable or unknown to the school. This requirement does not apply if the school’s employees do not have an exclusive representative.

¹¹ A “qualifying individual” means (a) a laboratory-confirmed case of COVID-19, as defined by the State Department of Public Health; (b) a positive COVID-19 diagnosis from a licensed health care provider; (c) a COVID-19-related order to isolate provided by a public health official; (d) died due to COVID-19, in the determination of a county public health department or per inclusion in the COVID-19 statistics of a county. (Labor Code § 6409.6, subd. (d)(4).)

- The Chief Executive Officer of designee shall also report the address and NAICS code of the worksite where the qualifying individuals work.
- Additional notice will be provided of any subsequent laboratory-confirmed cases of COVID-19 at the worksite.

Other Relevant Public Health Guidance

Specific guidelines for responding to suspected and confirmed cases of COVID-19 in schools are also found in the COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year, issued January 14, 2021. In most cases, you do not need to shut down the facility. If it has been less than seven (7) days since the sick employee has been in the facility, close off any areas used for prolonged periods of time by the sick person:

- Wait twenty-four (24) hours before cleaning and disinfecting to minimize potential for other employees being exposed to respiratory droplets. If waiting twenty-four (24) hours is not feasible, wait as long as possible.
- During this waiting period, open outside doors and windows to increase air circulation in these areas.

If it has been seven (7) days or more since the sick employee used the facility, additional cleaning and disinfection is not necessary. Continue routinely cleaning and disinfecting all high-touch surfaces in the facility.

Follow the CDPH and CDC cleaning and disinfection recommendations:

- Clean dirty surfaces with soap and water before disinfecting them.
- To disinfect surfaces, use products that meet EPA criteria for use against SARS-Cov-2, the virus that causes COVID-19, and are appropriate for the surface.
- Always wear gloves and other PPE appropriate for the chemicals being used when you are cleaning and disinfecting.
- You may need to wear additional PPE depending on the setting and disinfectant product you are using. For each product you use, consult and follow the manufacturer's instructions for use.

Determine which employees may have been exposed to the virus and may need to take additional precautions:

- Inform employees of their possible exposure to COVID-19 in the workplace but maintain confidentiality as required by the Americans with Disabilities Act (ADA).
- Follow the public health recommendations for community-related exposure and instruct potentially exposed employees to stay home for fourteen (14) days, or such period as established by local health order, telework if possible, and self-monitor for symptoms.

Measures to Maintain Healthy Ongoing School Operations

- 1. Identify a workplace coordinator.** The School Compliance Task Force Team will be responsible for COVID-19 issues and their impact at the workplace.

- 2. Protect employees at higher risk for severe illness through supportive policies and practices.** Older adults and people of any age who have serious underlying medical conditions are at higher risk for severe illness from COVID-19.
 - Provide options to telework, if available and reasonable.
 - Offer vulnerable workers duties that minimize their contact with students and other employees, if the worker agrees to this.
 - Offer flexible options such as telework to employees where available and reasonable to eliminate the need for employees living in higher transmission areas to travel to workplaces in lower transmission areas and vice versa.

- 3. Communicate supportive workplace policies clearly, frequently, and via multiple methods.** Employers may need to communicate with non-English speakers in their preferred languages.
 - Train workers on how implementing any new policies to reduce the spread of COVID-19 may affect existing health and safety practices.
 - Communicate to any contractors or on-site visitors about changes that have been made to help control the spread of COVID-19. Ensure that they have the information and capability to comply with those policies.
 - Create and test communication systems that employees can use to self-report if they are sick and that you can use to notify employees of exposures and closures.
 - Use a hotline or another method for employees to voice concerns anonymously. They may call the Home Office hotline line 213-293-7068. Consistent with the Employee Handbook and all applicable policies, the Charter School will not tolerate discrimination, harassment, or retaliation against any employee who reports COVID-19 symptoms or hazards.

- 4. Establish policies and practices for social distancing.** Where possible and reasonable, alter your workspace to help workers and students maintain social distancing and physically separate employees from each other and from students, such as:
 - Implement flexible worksites (e.g., telework).
 - Implement flexible work hours (e.g., rotate or stagger shifts to limit the number of employees in the workplace at the same time).
 - Increase physical space between employees at the worksite by modifying the workspace.
 - Increase physical space between employees and students (e.g., physical barriers such as partitions).
 - Use signs, tape marks, or other visual cues such as decals or colored tape on the floor, placed 6 feet apart, to indicate where to stand when physical barriers are not possible.
 - Implement flexible meeting and travel options (e.g., postpone non-essential meetings or events in accordance with state and local regulations and guidance).
 - Close or limit access to common areas where employees are likely to congregate and interact.
 - Prohibit handshaking.
 - Deliver services remotely (e.g., phone, video, or web).
 - Adjust school practices to reduce close contact with and among students — for example, by using larger formal spaces (e.g., auditoriums) or outdoor areas for instruction.

- When it is not possible to maintain a distance of at least six (6) feet, individuals shall be as far apart as possible.
 - In this situation, the Charter School will evaluate the need for additional eye protection and respiratory protection, consistent with CCR Title 8, section 5144.

5. Facial Coverings

- Until lifted, the CDPH has ordered that all persons must wear a cloth face covering at work if the hazard assessment has determined that they do not require PPE (such as a respirator or medical facemask) for protection.
 - A cloth face covering contains the wearer's respiratory droplets to help protect their co-workers and others.
 - Cloth face coverings are not considered PPE. They help prevent those who do not know they have the virus from spreading it to others, but do not offer the same level of protection for wearers from exposure to the virus that causes COVID-19 as PPE.
- Remind employees that CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain, especially in areas of significant community-based transmission. Wearing a cloth face covering, however, does not replace the need to practice social distancing.
- As necessary, the Charter School will provide clean and undamaged face coverings.
- All face coverings must be worn, cleaned, and replaced as needed, and unless an applicable exception to wearing a facial covering applies, consistent with the Charter School's COVID-19 Health and Safety Policy.
- If an employee cannot wear a face covering, face shield with a drape, respiratory protection, or another effective alternative to a facial covering, the employee shall be kept at least six (6) feet apart from all other employees, students, and persons, unless the unmasked employee is tested at least twice per week for COVID-19. However, testing an employee twice per week is not an alternative to wearing a facial covering where otherwise required.

6. Engineering Controls

- To the maximum extent feasible, the Charter School will implement all appropriate actions to protect employees where six (6) feet of physical distancing cannot be maintained, consistent with the COVID-19 Health and Safety Policy, as well as this Plan.
- To the maximum extent feasible, the Charter School will ensure maximize the quantity of outside air in buildings or by natural ventilation systems, except when the United States EPA Air Quality Index is greater than one hundred (100) for any pollutant, or if opening windows or doors would cause additional hazards to employees.
- Conducting bimonthly inspections of the HVAC system.
- To the extent feasible, the Charter School will increase the filtration efficiency of its existing ventilations systems to the highest level that is safely allowable.

7. Give employees and students what they need to clean their hands and cover their coughs and sneezes:

- Provide tissues and no-touch trash cans.
- Provide soap and water in the workplace. If soap and water are not readily available, use

alcohol-based hand sanitizer that is at least 60% alcohol. Ensure that adequate supplies are maintained. All employees are encouraged to wash their hands frequently and will be provided ample time to do so. Employees should wash their hands for at least twenty (20) seconds each time.

- To the extent feasible, dependent on a hazard assessment, and consistent with the Charter School's COVID-19 Health and Safety Plan, the Charter School will consider providing additional handwashing facilities.
- Ideally, place touchless hand sanitizer stations in multiple locations to encourage hand hygiene.
- Place posters that encourage hand hygiene to help stop the spread at the entrance to your workplace and in other workplace areas where they are likely to be seen. This should include signs for non-English speakers, as needed.
- Direct employees to visit CDC's coughing and sneezing etiquette and clean hands webpage for more information.

8. Limit Sharing of Tools, Equipment, and PPE

- The Charter School will not allow any employees, students, or any other persons to share any form of PPE, including but not limited to: Gloves, facial coverings, masks, and goggles.
- To the maximum extent feasible, the Charter School will prohibit the sharing of tools and equipment, including: Phones, headsets, desks, keyboards, and writing materials. Where sharing is required, the School will follow all cleaning and disinfection procedures, consistent with this Plan.
- On any Charter Schools busses or other vehicles which are otherwise shared, the high touch points such as steering wheels, seatbelt buckles, armrests, and seats will be disinfected between uses, consistent with this Plan.

9. Perform routine cleaning:

- Incorporate the Guidance for Cleaning and Disinfecting to develop, implement, and maintain a plan to perform regular cleanings to reduce the risk of exposure to COVID-19.
- Routinely clean and disinfect all frequently touched surfaces in the workplace, such as workstations, keyboards, telephones, handrails, and doorknobs.
 - If surfaces are dirty, clean them using a detergent or soap and water before you disinfect them in accordance with Healthy Schools Act protocols.
 - For disinfection, most common, EPA-registered, household disinfectants should be effective. A list of products that are EPA-approved for use against the virus that causes COVID-19 is available on the EPA website. Follow the manufacturer's instructions for all cleaning and disinfection products (e.g., concentration, application method, and contact time).
- Discourage workers from using each other's phones, desks, offices, or other work tools and equipment, when possible.
- Provide disposable disinfecting wipes so that employees can wipe down commonly used surfaces (e.g., doorknobs, keyboards, remote controls, desks, other work tools and equipment) before each use.
- Store and use disinfectants in a responsible and appropriate manner according to the label.
- Do not mix bleach or other cleaning and disinfection products together. This can cause

fumes that could be very dangerous to breathe in.

- Advise employees to always wear gloves appropriate for the chemicals being used when they are cleaning and disinfecting and that they may need additional PPE based on the setting and product.

10. Perform enhanced cleaning and disinfection after persons suspected/confirmed to have COVID-19 have been in the facility:

- In the event of a suspected or confirmed COVID-19 case at the Charter School, the Charter School will determine all areas, materials, and equipment used by the case during the high-risk exposure period.
- Once identified, the Charter School will follow all CDC cleaning and disinfection recommendations of all pertinent areas.
- The Charter School custodian and a third-party custodial services vendor will work in conjunction to complete post-exposure cleaning and disinfection in accordance with CDC protocol and public health guidance.

11. Minimize risk to employees when planning meetings and gatherings:

- Use videoconferencing or teleconferencing when possible for work-related meetings and gatherings.
- Cancel, adjust, or postpone large work-related meetings or gatherings that can only occur in-person in accordance with state and local regulations and guidance.
- When videoconferencing or teleconferencing is not possible, hold meetings in open, well-ventilated spaces continuing to maintain a distance of six (6) feet apart and wear cloth face coverings.

12. COVID-19 Testing:

- Consistent with Cal/OSHA regulations, in the event of one (1) COVID-19 case, an outbreak¹², or a major outbreak at the Charter School campus, the Charter School will offer COVID-19 testing to employees with exposure at no charge, and during working hours.
- In the event of one (1) COVID-19 case in the workplace, COVID-19 testing will be offered to all employees who have had potential COVID-19 exposure.
- In the event of a COVID-19 outbreak pursuant to Cal/OSHA regulations:
 - The Charter School must provide testing to all employees who were present in the exposed workplace.
 - Pursuant to Cal/OSHA regulations, “employees in the exposed workplace shall be tested and then tested again one week later.”¹³
 - After the first two (2) COVID-19 tests, the Charter School must provide continuous COVID-19 testing of employees remaining at the workplace at least once per week, until outbreak criteria are no longer met.
- In the event of a “major COVID-19 outbreak,”¹⁴ the Charter School will provide COVID-19

¹² An outbreak is defined by Cal/OSHA as one that is declared by the local public health department, or where there are three or more cases on campus within a 14-day period. 8 CCR §3205.1(a)(1).

¹³ 8 CCR §3205.1(b)(2)A).

¹⁴ Cal/OSHA defines a major outbreak as “20 or more COVID-19 cases in an exposed workplace within a 30-day period.”

testing at least twice per week to all employees present at the exposed workplace during the thirty (30) day period, and who remain at the workplace. This testing regimen will continue until there are no new COVID-19 cases in the workplace for a fourteen (14) day period.

- Consistent with current Cal/OSHA regulations, the School will require certain frequencies of COVID-19 testing before allowing employees with COVID-19 exposure to return to campus.
- In the event that COVID-19 testing is mandated by Cal/OSHA regulations, all Charter School employees should be able to secure testing through their local county, free of charge and during working hours. The Charter School is currently working on arranging additional COVID-19 testing for all employees with a contracted testing vendor. As soon as more information is available, the Charter School will notify all employees as to further details.
- If COVID-19 is not mandated by Cal/OSHA regulations, but testing is otherwise needed, employees may procure testing, likely free of charge, through their local county or from their health provider.
- Any employees who have questions regarding COVID-19 testing may contact the MPS Human Resources Department at hr@magnoliapublicschools.org.

Record Keeping and Availability of Plan

- The Charter School will maintain records of the steps taking to implement this Plan for at least one (1) year, consistent with 8 CCR §3202(b).
- This Plan shall be made available at the workplace to all Charter School employees, authorized representatives, and Cal/OSHA representatives immediately upon request.
- The Charter School will track all COVID-19 cases, by keeping a record of the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test. Medical information shall be kept confidential. The information shall be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

The CEO/Superintendent is authorized to implement changes or additions to this addendum in order to ensure compliance with new or revised orders or guidance from local, county, state or federal authorities (“Agencies”) and/or the facts of a specific circumstance, and to take any and all actions consistent with orders and guidance from the Agencies that is not specifically addressed by this policy. The CEO/Superintendent shall provide the Board with regular updates as to actions taken pursuant to this section.

Appendix A

Controls Table

The following table presents examples of controls to implement in the workplace. The most effective controls are those that rely on engineering solutions, followed by administrative controls, then PPE. PPE is the least effective control method and the most difficult to implement. Worksites may have to implement multiple complementary controls from these columns to effectively control the hazard.

Engineering (Facilities and Equipment) <ul style="list-style-type: none">• Assess job hazards for feasibility of engineering controls• Ensure ventilation and water systems operate properly• Alter office workspaces to maintain social distancing. Examples include:<ul style="list-style-type: none">○ Configure partitions as a barrier shield○ Move electronic payment reader away from cashier in cafeteria○ Use verbal announcements, signage, and visual cues to promote social distancing○ Remove/rearrange furniture
Administrative
Management and Communications <ul style="list-style-type: none">• Monitor state and local public health communications about COVID-19• Require students who are ill to stay home• Encourage sick workers to report symptoms, stay home, and follow CDC guidance• Develop strategies to:<ul style="list-style-type: none">○ communicate with staff○ manage staff concerns• Remind staff of available support services• Communicate to partners, suppliers, other contractors on policies and practices• Encourage social distancing and the use of cloth face coverings (if appropriate) in the workplace• Use technology to promote social distancing (e.g., telework and virtual meetings)• Cancel group events• Close/limit use of shared spaces• Consider policies that encourage flexible sick leave and alternative work schedules.• Schedule stocking during off-peak hours
Cleaning and Disinfection <ul style="list-style-type: none">• Clean and disinfect frequently touched surfaces, (e.g., counters, shelving, displays)• Provide employees with disposable disinfectant wipes, cleaner, or sprays that are effective against the virus that causes COVID-19
Training <p>Provide employees with training on:</p> <ul style="list-style-type: none">• Symptoms, emergency warning signs and high-factors for COVID-19• Policies to reduce the spread of COVID-19

- Information regarding COVID-19 transmission, including that COVID-19 “is an infectious disease that can be spread through the air when an infectious person talks, vocalizes, sneezes, coughs, or exhales; as well as that COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth; as well as that infectious people may have no symptoms.”
- COVID-19 related benefits under federal, state, and local law, including any potential benefits under current workers’ compensation laws, California COVID-19 Supplemental Paid Sick leave, the FFCRA, the Families First Coronavirus Response Act (“FFCRA”), the Charter School’s leave policies, and any other rights by contract or collective bargaining agreement.
- Information regarding the fact that particles containing the virus can travel more than six (6) feet, especially indoors; and thus, why social distancing, proper hygiene, and PPE are so important.
 - General hygiene
 - Cleaning and disinfection
 - Cloth face covers
 - Social distancing
 - Use of PPE
 - Safe work practices
 - Stress management

Personal Protective Equipment (PPE)

- Conduct workplace hazard assessment
- Determine what PPE is needed for their workers’ specific job duties based on hazards and other controls present
- Select and provide appropriate PPE to the workers at no cost, and train employees in the use of the PPE.

APPENDIX B: IDENTIFICATION AND INSPECTION OF COVID-19 HAZARDS

All persons, regardless of symptoms or negative COVID-19 test results, will be considered potentially infectious. Particular attention will be paid to areas where people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not. For example: meetings, entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

Evaluation of potential workplace exposure will be to all persons at the workplace or who may enter the workplace, including coworkers, students, visitors, employees of other entities, members of the public, customers or clients, and independent contractors. The School will consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

Person(s) conducting the evaluation:

Face shields/goggles			
Respiratory protection			

Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by the School will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (“NIOSH”), or as otherwise required by law.

All employees’ medical records will also be kept confidential and not disclosed or reported without the employee’s express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.
