

Board Agenda Item #	III A: Information/Discussion Item
Date:	June 16, 2022
To:	Magnolia Public Schools - Board of Directors
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead:	David Yilmaz, Chief Accountability Officer
RE:	Public Hearing for the Local Control and Accountability Plans (LCAP) for All MPS

Proposed Board Recommendation

N/A

Background

As a critical component of the LCFF law, every charter school must engage parents and community to create a Local Control and Accountability Plan (LCAP). The LCAP is intended to be a comprehensive planning tool. Each plan must describe:

- School-wide goals, as well as specific actions to be taken to achieve the goals for all students, including specific subgroups of students, in each of the eight state priority areas, plus any locally identified priority areas.
- Expected progress toward meeting the goals—and as part of a schools required annual update of the plan, the school must describe actual progress made toward meeting the goals and describe any adjustments to be made.
- Expenditures required to implement each of the goals and actions, including a description of how additional funds provided for low-income students, English learners and foster youth will be used to increase or improve services for these students.
- The process used to involve parents, students, community members, school employees and other educational partners in developing, reviewing, and supporting implementation of the LCAP.

The MPS Home Office has collaborated with the school leadership teams in ensuring that all of the school LCAPs have school-wide goals, annual measurable outcomes and specific actions aligned to the eight state priorities and that the schools have meaningfully engaged their educational partners in the development of their LCAP.

As part of the LCAP development process our schools have conducted educational partners surveys to engage our

educational partners in the evaluation of their experience at MPS. School leadership teams have shared their reflection on the survey results and findings that identifies their greatest progress, greatest needs, and ways to improve so that we can maintain and improve educational quality of our schools on an ongoing basis. The teams have completed their reflections and presented it to their educational partners in various settings, including presentations at regular meetings of the Board.

School leadership teams have also presented their CA School Dashboard results and findings as well as other school performance data to their educational partners at their PAC/PTF, SSC, and ELAC meetings throughout the year. During the year, the MPS board and the Academic Committee have been presented SBAC, CA School Dashboard, NWEA, and other LCAP progress data as well as each MSA's glows, grows, and priorities with next action steps.

The school leadership teams have worked with the MPS finance department in writing annual updates for their LCAP estimated actual expenditures and next year's budgeted expenditures. As part of the budgeting process, all expenditures have been entered in the budgeting software, Adaptive Insights, and coded by LCAP goal and action. The reports produced from Adaptive Insights have been used by the principals to update the dollar amounts in the LCAP templates. Since MPS chooses to use the LCAP as SPSA, the expenditures funded by the federal Title funds have been specifically outlined in the LCAP action descriptions. Any substantive changes to Title fund expenditures during the year will be shared with the PAC, SSC and ELAC and their feedback will be sought.

The draft LCAPs have been uploaded to the school websites under Accountability for easy public access. The invitation to the public hearing has been shared with educational partners via our ParentSquare messaging system as well as how the public can share their feedback.

The processes described above are all part of our LCAP development and continuous improvement cycle.

Budget Implications

All LCAP expenditures are budgeted in each school's budget.

How Does This Action Relate/Affect/Benefit All MSAs?

The public hearing of LCAP is a requirement for LEAs as described in the Ed Code.

Name of Staff Originator:

David Yilmaz, Chief Accountability Officer

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-1	Brad Plonka Principal	bplonka@magnoliapublicschools.org (818) 609-0507

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy (MSA-1 or Charter School), is a classroom-based charter school serving grades 6–12 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2002, MSA-1’s mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-1 currently has 715 students in grades 6-12, and mainly draws enrollment from Reseda, CA and neighboring communities. The neighborhoods that MSA-1 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-1 serves face economic challenges. MSA-1 has a diverse enrollment, including 90% Hispanic/Latino, 5% White, 89% Socioeconomically Disadvantaged, 15% Special Education, and 20% English Learner population.

MSA-1 strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-1 is supplemented by tutoring, after-school programs, and school-to-university links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

I. Data Driven Curricular Choices Contribute to Student Growth. Last year, our overall SBAC student scores improved for Math and ELA by 2 points and 11 points respectively. We are confident that we will see the same if not better results for this year. The increase in student scores is due in part to our ELA and Math department's adoption of Common Core aligned digital curriculum. Our English teachers use Study Sync, which is Common Core aligned and allows students to engage with text and demonstrate understanding of their content through reading and writing. Content is academically rigorous, thematically unified, and engages students through digital content including videos, interactive texts, audio readings of class content, and a built in ELD component to help engage our ELL students. As a result, the percent of our EL students who made progress towards English Proficiency increased by 16% compared to last year. Similarly, in our Math classes we use McGraw Hill online curriculum, which is also Common Core aligned and engages students in a similar way with digital problems, math manipulatives, and demonstrations.

II. Staff PD/Resource Sharing Contributes to Growth. We have implemented universal standards of writing and reading across content areas. Our English Title 1 staff analyzes data, passes along resources, and leads PDs for our staff to make sure they are supporting our struggling students. Our Title I English teacher observes struggling students in three of their core classes (History, Science, and English), and provides resources and PD for our staff about implementing academic tools that might help. Our Dean of Academics looks at data from benchmark testing like MAP and SBAC, and helps to roster and monitor progress in our Saturday School program. Math teachers also use gradual release model in math intervention classes so that students who struggle in that content area receive explicit instruction, guided practice, and independent work.

III. College Readiness Contributes to Growth. We currently have 68 graduating seniors and we have a 100 percent graduation rate. Our Dean and College counselor create a 4 year plan for each student and keep track of their classes, grades, etc. We believe the individualized attention and the student's role in setting their own goals helped our graduation rate to stay strong. Our staff does much work to involve parents and students in setting goals that prepare students for graduation and college. We are proud of the parent information nights where students and parents get to learn about college, financial aid, and the application process, and we are equally proud that our Senior English teachers support all 68 of our seniors in writing a personal statement. In essence, every student who graduates from MSA attends a junior college, 4 year university, or vocational program.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The two subgroups who did not perform well on SBAC and need our close attention were Sped students in the area of Math and English Language Learners in the area of English; our data shows that compared to our general student population, these sub-groups are struggling. Currently, in our Power classes we support struggling students through digital intervention content. We use Flex Literacy (for English) and Khan Academy, NextGen Math and MobyMath (for math), where direct instruction takes place in small, concentrated amounts, and students

receive explicit direct instruction in that content area and have opportunities for guided practice. In our English classes, we use Study Sync (ELD component in conjunction with what is being learned in ELA). Conducting class in this way provides small group support outside of the classroom for those students. Additionally, our Title 1 English and Deans analyze scores and data (MAP, ELPAC, SBAC), review samples of student work, and follow up frequently with the student's ELA, ELD, and MATH teachers to discuss student progress. Interventions include offering additional tutoring, creating action plans for individual students that address areas of need, providing one-on-one instructional support, simplifying the work for EL and SPED students, and creating a roster of students who need Saturday school. Moreover, our Special Education Teachers meet with General Education Teachers weekly either during conference periods or during Staff Meetings to discuss student progress and to go over accommodations and support plans. Students are given in-class support by their Resource teacher, who helps them follow along with the curriculum, offers appropriate accommodation, makes modifications to assignments, and checks grades weekly to make sure students are progressing in the class/subject. Our Title I English Teacher offers PD to our staff on a critical thinking and writing strategy that works across grade levels and can be adapted in many content areas. She also provides Strategy Snapshots on a bi-weekly basis to teachers and staff so that their expectations about academic rigor are more unified (and connected to the CHATS framework for EL support). Our History and Science teachers, who don't normally teach writing in an explicit way, then use that resource for their students. Finally, twice a year, we provide MSA wide professional development to our teachers and include training in all areas of need. These symposiums are a way for our teachers to attend workshops that can help enhance their teaching. For instance, many of our teachers attended the EL training with a guest lecturer from CSUN to learn about promoting language acquisition in their classrooms (in every content area).

The student groups that are behind are SPED students who performed low in Math and our English Learners who performed low in English. We use the intervention classes and programs (as mentioned above) to help support these student population. We use benchmark data (MAP) to roster students into intervention classes. This way, if a student is struggling in both English and Math, they get service in the areas of their greatest need. Additionally, SPED teachers and Intervention staff meet to discuss shared students and academic intervention for those SPED and EL students. The action includes; teacher referral of students who need support, meetings between parents, students, and coordinators, placement of students in appropriate tier or intervention, teaching of skills, assessment of mastery, and support for kids as they exit intervention. We use the RTI model to track student progress. Title I Coordinator plays a larger role in supporting the EL students in the classroom, and sets schedule of pull-out sessions.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College and Tarzana Treatment Center Workshops
- Parents value the extra support we provide our students to ensure they are receiving the best education (i.e. after school tutoring, Saturday School, one-on-one support, etc.)

- The need to continue our improvements in designated/integrated English Learner services
- Providing counseling and positive behavior intervention support services to our students
- Continue using teacher evaluation system 'TeachBoost'
- 100% graduation rate; college bound high school students
- 95% teacher retention rate
- Ranked Among the Top 25 Charter Schools In LAUSD
- We offer a very strong Robotics program which helps prepare students to participate in VEX Robotics competitions. This year, our Robotics team, RoboWarriors, has expanded to 3 teams.
- Unified Writing Curriculum
- Unified Reading Curriculum
- Classes using blended learning effectively
- The full inclusion of Special Education Students
- Professional Development around Explicit Direct Instruction

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-1 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input and feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include 8 PTF meetings, 4 SSC meetings, 4 ELAC meetings, at least 6 parent activities/events including two Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made 180 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Students Survey Feedback: Our Student approval rate in the area of Sense of Belonging (School Connectedness), increased from 51% in 2019-2020 to 60% in 2020-2021. Students reported appreciation for teachers' willingness to provide extra support by offering extra credit and tutoring opportunities during distance learning. Additionally, Students expressed feeling grateful for the one-on-one support they received from their teachers. Comments ranged from "I like how most teachers go out of their way to help students at times when they need it" to "I like how most students care about each other" to "I like how the school has tutoring hours and that way everyone can go if they need help." Additionally, Students stated that they appreciate the mental health support and check in from teachers. We have supported students emotionally as well through the SEL curriculum in a Wednesday homeroom which, we think, has helped to foster a greater sense of belonging during distance learning. We were also very happy to see that Students rated high in the area of Climate of Support for Academic Learning. When asked, "My teachers work hard to help me with my schoolwork when I need it," 82% of our students responded favorably.

This proves that our school is setting high expectations for learning, while also providing support for students who are struggling. Finally, we increased in the area of Knowledge and Fairness of Discipline, Rules and Norms from 2019-2020 school year. When we asked students “Students know how they are expected to act,” 75% responded favorably (18 points jump from last year).

Staff Survey Feedback: Our overall satisfaction rates for staff increased from 2019-2020 to 2020-2021 school year. Staff reported gratefulness for the support they received during distance learning. They expressed appreciation for the family like environment, supportive admin and staff, and the collaboration between staff members. Staff shared, “School feels like a family. Students and staff are welcoming” to “I like that it’s a small campus” and “I like the collaboration between staff.” We will continue to build the relationship between staff and admin, and between staff members and their peers, through continued peer observation, fair feedback and evaluation, and time for departments to collaborate, which we feel fostered a strong professional environment where team members felt respected and valued.

Students and Staff Survey Suggestions: This year, a recurring trend in stakeholder responses focused on our outdoor facilities and P.E. area. Staff and Students contributed comments like “not having P.E. facilities” and “there is not an adequate campus for all school purposes such as lunch area, recreation area, and gym etc.” as areas to improve. Additionally, another concern that came up in our stakeholder survey was the “homeless in the neighborhood.” Because our campus shares parking space with other businesses, sometimes there is a presence of people who are homeless setting up encampments nearby. While we cannot account for all environmental factors that contribute to the issue of homelessness in the area, we take steps to ensure the safety of our students such as: outdoor supervision, a fenced area that ensures students can be outside safely, a plant manager that helps to clean and maintain areas of the school, outdoor supervision by staff when students move from the main building to the fenced areas before, during, and after school. We also employ two security guards and have a security system to attempt to mitigate any risk of unregistered visitors on school grounds.

Student and Staff Next Steps: To address the concern for student safety due to the homeless population in the area, our school is considering the hire of an additional security guard. We have also reached out to the City of Reseda and they are following up on the issue of nearby homeless encampments. In order to strengthen the curriculum, we are looking at offering Speech and Debate, and another world language class (i.e., French). We have started sending our middle school staff to trainings for Honors curriculum in the hopes that we can offer honors differentiation next year. We are receiving bids and plans to design a lunch area (assuming we are back in session full time next year). Finally, we have 6 teams for CIF; however, due to the pandemic, we were not able to start the program. We are hoping that in the next school year we will be able to offer CIF sports programs to our students if we are allowed by state and local health agencies.

Parent Advisory Committee (PAC)/Parents:

- We held Monthly Meetings with parents.
- We presented the Title I budget to parents.
- COVID: At first, parents were concerned about the school's safety and sanitation. After, they were appreciative of the protocols we implemented at the school site and during our weekly testing. Parents were very happy about having the option to continue hybrid learning.
- Failing students and mitigating learning loss. At the beginning stages of distance learning, parents were concerned about the number of failing students. Parents were appreciative of the options provided to mitigate learning loss including extra tutoring days for the core classes (3 total), small group instruction, summer school and Saturday school.

- Parent Education Workshops: Parents were very happy and appreciative of the workshops offered including developing and applying effective study habits, Discovering your child’s learning style, Study motivation for academic success, Effective listening skills, Coping with test anxiety, Tools to help students get organized, Habits of highly effective students and Stress management for parents.
- MAP Score Improvement: Parents were very happy to see the huge improvement students made on MAP.

School Site Council (SSC):

- Performance bonus for the staff
- IAB tests are monitored by the history department, they need more materials so they can provide the students.
- Parents suggested changing the reading program since there is a huge amount of money used for it. (Mr.Sahin shared reading level impact due to the program and parents agreed that it is best to keep it).
- Parents like having more paraprofessionals to keep students safe when in the lunch area. Suggested having an additional security guard.
- Parents liked the extension of the school year to mitigate learning loss.
- Parents were very happy with the addition of a Title I English and Math teachers.
- Can we have new programs to use in school (MyOn can be geared for MS)?

ELAC:

1.September 24, 2020

- EL student data
- Updates on testing
- Testing and reclassification guidance
- Support for students including advanced EL and Power classes

2.January 28, 2021

- Data
- Support for EL Students
- ELPAC 2021
- ELPAC Google Classroom
- ELPAC practice test

- Reclassification

Parent questions:

If my child reclassifies, will the help he receives stop? Does being an EL student affect students when they transfer to college? (This was answered and discussed)

3.April 30, 2021

- ELPAC and ELAC updates

4.May 28, 2021

- Updates

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Continue using TeachBoost for teacher evaluations
- Increasing college preparedness by offering a college planning, dual enrollment with local colleges, and career exploration program for students early on, continue using Naviance to maintain the effectiveness of the “Advisory” programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Continue investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Improving school facilities and the lunch program

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 91%	2021-22: (Spring 2021 to Fall 2021) 78%			2023-24: (Spring 2023 to Fall 2023) 90%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.3%	2021-22: (As of 5/12/22) 97.5%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$46,000.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$585,897.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Equipment: Resource: Title IV, Part A; Amount: \$2,891 		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,013,000.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$15,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$1,036,000.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	\$2,484,045.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost</p>	\$58,750.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Professional development expenses: Resource: Title II, Part A; Amount: \$13,836 • Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$20,000 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math,</p>	\$1,013,304.00	Yes

		<p>Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Title-I Coordinator salary and benefits: Resource: Title I, Part A; Amount: \$214,797 • Teacher stipends for Saturday school: Resource: Title I, Part A; Amount: \$25,000 • Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above): Resource: Title I, Part A; Amount: \$48,500 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress</p>	\$180,345.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • MPS EL Coordinator salary and benefits: Resource: Title III, Part A; Amount: \$88,400 		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED</p>	\$806,544.00	No

Action #	Title	Description	Total Funds	Contributing
		intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology. The following expenditures will be funded by federal Title funds: N/A		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	\$115,721.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies.</p> <p>Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Naviance and Albert program fees: Resource: Title 1, Part A; Amount: \$4,500 		
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth,</p>	\$3,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Supplemental program , Gizmos: Resource: Title I, Part A; Amount: \$3,000 		
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Supplemental program, Pixton: Resource: Title IV, Part A; Amount: \$3,000 	\$210,990.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Physical Education equipment expenses: Resource: Title IV, Part A; Amount: \$10,000 	\$216,943.00	Yes
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities,</p>	\$786,512.00	Yes

		<p>including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p>		Yes
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff</p>	\$395,265.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school’s EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • ParentSquare software fees: Resource: Title I, Part A; Amount: \$4,000 • Parent Education Bridge program fees: Resource: Title I, Part A; Amount: \$5,000 • Home visit Resource: Title I, Part A; Amount: \$25,000 		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be	\$382,860.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$5,000 		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p>	\$4,400.00	Yes
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p>		Yes

Action #	Title	Description	Total Funds	Contributing
		Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy 2	David Garner Principal	dgarner@magnoliapublicschools.org (818) 758-0300

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy-2 (MSA-2 Charter School), is a classroom-based charter school serving grades 6–12 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2008, MSA-2’s mission is to provide “a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.”

MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students. MSA-2 adopted the Gates Model of providing its students with a small school environment, staffed with high quality educators and dedicated professionals whose sole purpose is to educate and prepare each child for higher education. Classroom instruction at MSA-2 is supplemented by tutoring, after-school programs, Saturday school enrichment, morning school support, and school-to-university pathways.

MSA-2 currently has 468 students in grades 6-12, and mainly draws enrollment from Van Nuys, CA, and neighboring communities. The neighborhoods that MSA-2 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-2 serves face economic challenges. MSA-2 has a diverse enrollment, including 87% Hispanic / Latino, 6% Asian / Pacific Islander, 5% White, 2% Black / African American, 86% Socioeconomically Disadvantaged, 15% Special Education, and 14% English Learner population.

For additional information about the school, parents and community members should review the entire SARC or contact the school principal or the district office.

Magnolia Science Academy 2

Address: 17125 Victory Blvd., Lake Balboa, CA, 91406-5455

Phone: 818-758-0300

Email: dgarner@magnoliapublicschools.org

Our History

Magnolia Science Academy – 2 (MSA-2) opened its doors to serve the community of Reseda in the Fall of 2008 for the grades 6th through 12th grade. In 2010, the school site moved to Lake Balboa. The school provides an academically rigorous standards-based curriculum.

Our Mission

Magnolia Public Schools provides a college preparatory educational program emphasizing science, technology, engineering, and math (STEAM) in a safe environment that cultivates respect for self and others.

Our Vision

Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

INNOVATION

Students have the freedom to choose how and what they learn. Individualized scheduling, early identification of learning styles, personalities, interest, and career plans support students' college and career readiness. Students experience hands-on learning through robotics, computer science, and arts to promote imagination, creativity, and invention.

CONNECTION

School communities are integrated partnerships among the school site staff, families, students, and all other stakeholders. Connection creates a safe place for all learners and stakeholders to affirm individual strengths, celebrate character, provide academic support through mentorship and internships, promote unity and better decision making through the implementation of restorative justice practices.

EXCELLENCE

Academic Excellence is the desire to pursue knowledge and excellence and to contribute original and provocative ideas in a learning environment, in diverse settings, and as a catalyst to future academic knowledge. We foster academic excellence through project-based learning using a constructivist approach, student portfolios, assessments of and for learning and academic discourse and argumentative writing.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

MSA-2's graduation rate improved from the orange indicator color to the blue color on the California Dashboard from the 2017-18 to the 2018-19 academic years. In addition, MSA-2 has yielded a 95% graduation rate during the 2019-20 and the 2020-21 academic years. To maintain this high rate in future years, we will continue to track student diploma requirements throughout the four years. Students are able to recover any missing credit during summer or regular terms. Students are able to take college courses on MSA2 campus or at college campus to earn dual-enrollment credits and move ahead with their requirements.

MSA-2's college career indicator on the California Dashboard improved from yellow to green from the 2017-18 to the 2018-19 academic year. To support even further growth in this area, MSA-2 launched our first cohort of early college students during the summer of 2020 where incoming 9th grade students were given the opportunity to enroll in their first college course with Los Angeles Valley College. 100% of these students passed the Counseling 020 course for 3 units with a letter grade of an A or a B. Many of these students also enrolled in and passed other college courses during their regular 9th grade academic year school year.

Also, MSA-2's suspension rate has been very low over the past two years during the 2017-18 and 2018-19 academic years, as demonstrated by our blue color on the California Dashboard. In addition, MSA-2 had 0 suspensions or expulsions during the 2020-21 academic year, and had 0.2% suspension rate during the 2019-20 academic year. This outcome has been reached by means of a collaborative partnership with the Los Angeles County Office of Education (LACOE) Positive Behavior Interventions and Supports (PBIS) program over the past four academic years, where our school administration and PBIS coach have received professional development and guidance to promote alternatives to suspensions and expulsions. In addition, our high school ASB student government leaders have supported this effort by teaching Bully Prevention courses to our middle school students during their Life Skills classes. Further, our student leaders produce PBIS weekly videos which reinforce the school's behavioral expectations while simultaneously providing students with lessons on Social Emotional Learning (SEL) with the Zones of Regulation (ZOR) curriculum.

MSA-2's chronic absenteeism rate has maintained a blue color on the California Dashboard over the past two consecutive years during 2017-18 and 2018-19. This success has taken place in collaboration with the addition of a full-time attendance clerk who works in our office to reconcile students absences, as well as to communicate with families to support issues that need addressing. In addition, MSA2 also added a full-time school psychologist during this time to support students with social-emotional needs at school in order for students to improve students' focus and engagement in school.

The English Learner Progress has also been very high, including the most recent data in this area on the California Dashboard during the 2018-19 school year which was 71.4% for the English Learner Progress Indicator. We will continue to support our English Learners in designated classes as well as in core classes, as well as by providing addition interventions during after school and Saturday small group instruction.

During our most recent implementation of the NWEA MAP assessment during the 2020-21 academic year, MSA2 students showed overall progress of 67.5% in math and 65% in ELA met their target growth from Fall to Spring. This success took place during the pandemic of

Covid-19, where MSA2 offered an expanded amount of interventions for our students, including expanding the amount of weeks where Saturday School interventions were available to include the entire school year.

MSA-2 launched our first AP Computer Programming - Java course during the 2020-21 academic year where students also prepared to take the Oracle Certified Associate (OCA) exam. The success of this new pathway was elevated by having one of our students from the first year of this program be awarded the Amazon Future Engineer Scholarship of \$40,000 which was only awarded to 100 high school students in the country.

In addition, MSA2 participated in the National History Day competition during the 2020-21 academic year, and our high school students were awarded the first place prize for in the Los Angeles County Office of Education (LACOE) competition. Further, our high school students' team was selected to advance to the California State finals for their project.

During the 2019-20 academic year, MSA-2 started a REC Foundation Aerial Drones program. In February 2020, our high school students qualified for the REC Foundation Aerial Drones World Championship. The REC Foundation Aerial Drones World Championship was scheduled to be showcased at the VEX Robotics World Championships which was planned to take place from April 26-28, 2020, in Louisville, Kentucky.

The REC Foundation Aerial Drones Competition offers middle school and high school students an opportunity to get hands-on experience in STEM education in the form of an affordable, fast-paced game. Students in the program have the opportunity to learn how to safely operate a drone, work as a team, and research workforce applications of aerial robotic technology; all while having a blast. Due to the Covid-19 pandemic, the World Championship tournament was not able to take place.

During the 2018-19 academic year, MSA-2's VEX Robotics team qualified to compete in the U.S. Open Robotics Championship tournament for the second consecutive year and placed 17th in the nation out of thousands of teams. For multiple years, MSA2 has offered VEX Robotics as an elective class for high school students. Even though VEX Robotics middle school program was exclusively offered as an after school club during the previous academic year, the team still managed to achieve a tremendous success. During the 2018-19 academic year, we offered VEX Robotics as an elective class for middle school students for the first time. The impact of this change has been positive, as demonstrated by three times more school teams qualifying during the school year for the U.S. Open Robotics Championship tournament across VEX IQ and VEX EDR.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

MSA-2 improved from math color on the California Dashboard from orange to yellow from the 2017-18 to the 2018-19 academic years. Despite this growth, we are still setting goals and taking steps to improve this performance color in math for our school. In addition, the school did not achieve a "significant" increase and MSA-2's math scores on the most recent Dashboard measure still show an average

distance below the standard of 60.8 points. As such, MSA-2 is taking steps to decrease this gap, including by continuing to offer Power math classes, after school math support, Saturday School, online learning platforms to support math, and other interventions to support student growth in math across all student groups.

The math groups of socioeconomically disadvantaged, students with disabilities, and English learners are all orange for their performance indicators on the most recent Dashboard during the 2018-19 academic year for their performance in math. While English learners increased by 4.1 points in math during this same academic year, they were still 96.8 points below the standard. In addition, while students with disabilities increased by 10.5 points in math during this same academic year, they were still 119.6 points below the standard. Further, socioeconomically disadvantaged students maintained their score by 2.9 points in math during this same academic year, and remained 65.5 points below the standard. As such, all efforts to improve the academic performance of ELA at MSA-2 must continue to include targeted interventions for these student groups.

MSA-2 is yellow in our overall ELA indicator color on the California Dashboard during the 2017-18 and 2018-19 academic years. Our growth was a significant increase in ELA during the 2018-19 academic year, where our overall score improved by 20.8 points. Despite this improvement, MSA-2's ELA scores on the most recent Dashboard measure still show an average distance below the standard of 16.6 points. As such, MSA-2 is taking steps to decrease this gap, including by continuing to offer Power English classes, after school ELA support, Saturday School, online learning platforms to support ELA, and other interventions to support student growth in ELA across all student groups.

The ELA groups of students with disabilities is orange for their performance indicators on the most recent Dashboard during the 2018-19 academic year for their performance in ELA. While students with disabilities increased by 28.7 points in ELA during this same academic year, they were still 79.9 points below the standard. As such, all efforts to improve the academic performance of ELA at MSA-2 must continue to include targeted interventions for these student groups. To support teachers and students, we will use different resources to target student needs. We will use online resources like MobyMax, Vocabulary.com, Readworks, and NewsELA to differentiate and target intervention. We will also support teachers on implementing the Study Sync curriculum to maximize student learning. We will use the interim assessments (IAB and ICA) regularly to have students practice and use the data to tailor instruction.

Under the English Language Arts indicator, the English Learner and students with disabilities subgroups have scored lower than the overall average. To support these students, the resource teachers will work with the general education teachers to identify and target the needs of any students who will benefit from accommodations. Students will be given proper settings on the SBAC test to meet their needs. Study skill programs will be given to all students to teach basic skills like test taking strategies. The English Language Development Coordinator will also work with teachers to provide strategies on how to make the curriculum accessible to these students.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent Bridge Education Program
- The overall satisfaction rates for students during the 2020-21 academic year increased by 5% (from 83% to 88%). Similarly, the overall satisfaction rates for families increased by 5% during the same period of time (from 93% to 99%). In addition, staff overall satisfaction rates maintained a high percent during this time of 98%. These three positive responses in stakeholder satisfaction over the past year are due to all stakeholders observing that despite the challenges faced during distance learning while Covid-19 was in place, MSA2 continues to offer improved access to high quality instructional programs via distance learning as well as provide support to staff and families.
- Over the 2020-21 academic year, students showed an improvement by 6% in the area of Climate of Support for Academic Learning (from 76% to 82%), by 10% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 66% to 76%), and by 5% in the area of Sense of Belonging (School Connectedness) (from 63% to 68%). The highest approval rating for the student stakeholder group was for Climate of Support for Academic Learning, which was 82%. We are most proud of the students' response to the topic of Sense of Belonging (School Connectedness) which was 68% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in training our staff to provide high quality instructional programs which support students' social-emotional and academic needs during distance learning. Also, we will continue to offer interventions and support including Saturday School, PBIS weekly house competitions, online counseling sessions, online support for college applications, after school tutoring and clubs, and support via online resources.
- Over the 2020-21 academic year, families showed an improvement by 4% in the area of Climate of Support for Academic Learning (from 95% to 99%), by 6% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 92% to 98%), by 4% in the area of Safety (from 93% to 97%), and by 5% in the area of Sense of Belonging (School Connectedness) (from 93% to 98%). The highest approval rating for the families stakeholder group was for Climate of Support for Academic Learning, which was 99%. We are most proud of the families response to the topic of Sense of Belonging (School Connectedness) which was 98% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in families observing that although MSA2 was operating in full distance learning during this time, our school continued to provide opportunities for families to receive support and training during our parent bridge program on Saturdays, as well as communicating our continued high quality instructional programs which support students' social-emotional and academic needs during distance learning. We also will continue maintaining a high percentage of parent meetings and conferences via Zoom, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.
- Over the 2020-21 academic year, staff showed an improvement by 2% in the area of Climate of Support for Academic Learning (from 97% to 99%), by 10% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 83% to 93%), and by 13%

in the area of Safety (from 81% to 94%), as well as decreased by 2% in the are of Sense of Belonging (School Connectedness) (from 93% to 91%). The highest approval rating for the staff stakeholder group was for Climate of Support for Academic Learning, which was 99%. We are most proud of the staff response to the topic of Sense of Belonging (School Connectedness) which was 91% overall, even with a decrease of 2%, we still received a comparison with others in the Core district percentile of 80-99%. We plan on maintaining and building upon this success by continuing investing time in providing professional development opportunities to staff each week to support distance learning, as well as provide social-emotional support to staff based on collecting feedback from surveys. In addition, we will continue to host social events via Zoom with the staff, including PBIS weekly house competitions, monthly open mic events, and online games such as BINGO to build a sense of belonging and connectedness with the staff despite the distance learning taking place.

- The need to continue our improvements in designated/integrated English Learner services
- Providing counseling and positive behavior intervention support services to our students
- Continue using teacher evaluation system "TeachBoost"
- Our overall proficiency on the SBAC in ELA significantly increased by 20.8 points during the last implementation in 2018-19.
- 95% graduation rate; college bound high school students.
- We were ranked as the #3 STEM Charter in Los Angeles County Office of Education (LACOE) and the #4 school in LACOE by the US News Best High Schools Rankings in 2020
- We offer a very strong Robotics program which helps prepare students to participate in VEX Robotics competitions. Our Robotics team represented California in the 2018 VEX National Robotics Competition in Iowa, as well as made it to the US National Championship tournament during two consecutive years during the Spring 2018 and Spring 2019 terms with both our VEX IQ and VEX EDR teams.
- We made it to the World Championships for our RAD Ariel Drone program during the Spring 2020 semester.
- Classes using blended learning effectively
- The full inclusion of special education students is impactful to support student learning
- Professional development around explicit direct instruction
- Our PBIS program is helping lead to low suspensions and expulsion rates

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-2 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include PTF meetings, quarterly SSC meetings, quarterly ELAC meetings, numerous parent activities/events including weekly Coffee with the Principal meetings on Fridays, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 100 home visits during each of the past three school years and sought feedback from the parents for school improvement.

During the distance learning and hybrid learning times which took place from March 2020 until June 2021, MSA2 took numerous steps to maintain engagement of stakeholders. In particular, MSA2 reassigned our office staff to serve in the positions of Grade Level Coordinators where they were responsible to oversee the students in each particular grade level. This support was provided to the school during distance learning as a manner to increase student engagement in learning, as these staff members made daily phone calls to families of students who are absent from classes. This communication provided the school with the connection with families who often share additional challenges which were taking place with students. In addition, we continued to hold weekly Coffee with the Principal meetings on Fridays to provide parents with an opportunity to share their feedback with the school related to their children, as well as to share important information with families. We also continued to hold ELAC, SSC, and PTF meetings during distance learning where priorities are discussed and voted upon for approval and support by members from various stakeholder groups. In addition, we created and distributed a monthly newsletter which held important information from our school administration, English Language Coordinator, Grade Level Coordinators, and also provided the community with

student journalist work.

MSA2 incorporates numerous manners to solicit feedback from our various stakeholder groups, including parents/guardians, staff, and students, in order to seek input related to the setting of priorities, including the allocation of funding to achieve these desired outcomes.

Amongst these means are the below:

- Weekly Full Staff PD meetings
- Weekly Grade Level meetings
- Weekly SPED meetings
- Weekly Admin meetings
- Weekly MTSS SEL Committee meetings
- Weekly PBIS Committee meetings
- Weekly ASB Student Government meetings
- Weekly MTSS Academic Committee meetings
- Weekly MPS Academic Task Force meetings with central office
- Weekly Leadership meetings with central office
- Weekly Title I Staff meetings with ELA and math interventionists
- Weekly Office Staff meetings
- Weekly Open House meetings
- Weekly Coffee with the Principal meetings
- Monthly Dean of Academics meetings with central office
- Monthly Dean of Students meetings with central office
- Monthly Principal meetings with central office
- Biweekly Department meetings
- Weekly College Cohort meetings
- Weekly AP Teacher meetings
- ELAC meetings
- PTF meetings
- SSC meetings
- Title I meetings
- Weekly Parent Bridge for Student Achievement Foundation (PBSAF) classes
- Weekly Saturday School meetings
- Daily After School Help Desk meetings

In addition, MSA2 utilizes the following tools to disseminate information to stakeholders:

ParentSquare

Monthly newsletter

School website

Email

Phone calls / voice message
Daily After School Help Desk meetings
Social media
Google Classroom
Illuminate
Google Forms
Panorama Education - survey
Home visits

A summary of the feedback provided by specific educational partners.

MSA2 regularly receives significant feedback from all stakeholder groups, including our Parent Advisory Committee (PAC) / Parents, our students, our staff, our School Site Council (SSC), our ELAC, and our SELPA. In particular the input from each of these stakeholder groups is systematically integrated into our school operations, programs, services, planned expenditures, and other important aspects of our educational systems.

Introduction:

Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement.

Annual stakeholder experience survey:

MPS uses the CORE DISTRICTS survey instrument developed by WestEd for the California Department of Education as our annual stakeholder experience survey. The survey includes questions for school climate indicators which include the following four topics for students, families, and staff:

- Climate of Support for Academic Learning;
- Knowledge and Fairness of Discipline, Rules and Norms;
- Safety;
- Sense of Belonging (School Connectedness).

Some sample questions on the survey include:

- “This school is a supportive and inviting place for students to learn.”

- “All students are treated fairly when they break school rules.”
- “How safe do you feel when you are at school?”
- “I feel like I am part of this school.”

Student SEL survey:

Separate from the annual stakeholder experience survey, our “students” also take the CORE DISTRICTS Social Emotional Learning (SEL) survey in the fall and spring. The SEL survey asks questions in additional four topics which include indicators for social-emotional competencies:

- Growth Mindset;
- Self-Efficacy;
- Self-Management;
- Social Awareness.

As part of our MTSS efforts school leadership, teachers, and support staff analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.

Specific data is collected each year from students, parents/families and staff from our annual stakeholder survey conducted through Panorama Education. The below information reflects the specific results from the 2020-21 survey from these stakeholder groups for MSA2:

Survey Participation Rates:

During the 2020-21 academic year, the participation rate of families increased by 6.0% over the last year (from 85.8% to 91.8%) and the staff participation rates maintained 100% over the past year. These two positive aspects of stakeholder participation took place despite the shift this year toward online surveys during distance learning. The improvement in family participation rates means that MSA2 will consider using electronic surveys in the future rather than paper surveys for all families, while using grade level coordinators to follow up with each family. While the student participation rate decreased by 4.2% over the past year during the 2020-21 academic year (from 99.3% to 95.1%), MSA2 still met our target student participation rate of 95%. The decrease in student participation rate this year took place due to the additional challenges faced during distance learning to complete student surveys.

Overall Satisfaction Rates:

The overall satisfaction rates for students during the 2020-21 academic year increased by 5% (from 83% to 88%). Similarly, the overall satisfaction rates for families increased by 5% during the same period of time (from 93% to 99%). In addition, staff overall satisfaction rates maintained a high percent during this time of 98%. These three positive responses in stakeholder satisfaction over the past year are due to all stakeholders observing that despite the challenges faced during distance learning while Covid-19 was in place, MSA2 continues to offer improved access to high quality instructional programs via distance learning as well as provide support to staff and families.

Survey Findings:

Over the 2020-21 academic year, students showed an improvement in average approval rating by 6% over the past year (from 70% to 76%). These improvements took place as a result of MSA2 investing time in training our staff to provide high quality instructional programs which support students' social-emotional and academic needs during distance learning. Students also observed that although we were in full distance learning over the past year, MSA2 continued to offer interventions and support including Saturday School, PBIS weekly house competitions, online counseling sessions, online support for college applications, after school tutoring and clubs, and support via online resources.

Over the 2020-21 academic year, families showed an improvement in average approval rating by 5% over the past year (from 93% to 98%). These improvements took place as a result of MSA2 investing time in families observing that although MSA2 was operating in full distance learning during this time, our school continued to provide opportunities for families to receive support and training during our parent bridge program on Saturdays, as well as communicating our continued high quality instructional programs which support students' social-emotional and academic needs during distance learning. We also maintained a high percentage of parent meetings and conferences via Zoom, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

Over the 2020-21 academic year, staff showed an improvement in average approval rating by 5% over the past year (from 89% to 94%). The improvements in the first three areas took place as a result of MSA2 investing time in providing professional development opportunities to staff each week to support distance learning, as well as provide social-emotional support to staff based on collecting feedback from surveys. In addition, social events still took place via Zoom with the staff, including PBIS weekly house competitions, monthly open mic events, and online games such as BINGO to build a sense of belonging and connectedness with the staff despite the distance learning taking place.

Successes:

Over the 2020-21 academic year, students showed an improvement by 6% in the area of Climate of Support for Academic Learning (from 76% to 82%), by 10% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 66% to 76%), and by 5% in the area of Sense of Belonging (School Connectedness) (from 63% to 68%). The highest approval rating for the student stakeholder group was for Climate of Support for Academic Learning, which was 82%. We are most proud of the students' response to the topic of Sense of Belonging (School Connectedness) which was 68% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in training our staff to provide high quality instructional programs which support students' social-emotional and academic needs during distance learning. Also, we will continue to offer interventions and support including Saturday School, PBIS weekly house competitions, online counseling sessions, online support for college applications, after school tutoring and clubs, and support via online resources.

Over the 2020-21 academic year, families showed an improvement by 4% in the area of Climate of Support for Academic Learning (from 95% to 99%), by 6% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 92% to 98%), by 4% in the area of Safety (from 93% to 97%), and by 5% in the area of Sense of Belonging (School Connectedness) (from 93% to 98%). The highest approval rating for

the families stakeholder group was for Climate of Support for Academic Learning, which was 99%. We are most proud of the families response to the topic of Sense of Belonging (School Connectedness) which was 98% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in families observing that although MSA2 was operating in full distance learning during this time, our school continued to provide opportunities for families to receive support and training during our parent bridge program on Saturdays, as well as communicating our continued high quality instructional programs which support students' social-emotional and academic needs during distance learning. We also will continue maintaining a high percentage of parent meetings and conferences via Zoom, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

Over the 2020-21 academic year, staff showed an improvement by 2% in the area of Climate of Support for Academic Learning (from 97% to 99%), by 10% in the area of Knowledge and Fairness of Discipline, Rules and Norms (from 83% to 93%), and by 13% in the area of Safety (from 81% to 94%), as well as decreased by 2% in the area of Sense of Belonging (School Connectedness) (from 93% to 91%). The highest approval rating for the staff stakeholder group was for Climate of Support for Academic Learning, which was 99%. We are most proud of the staff response to the topic of Sense of Belonging (School Connectedness) which was 91% overall, even with a decrease of 2%, we still received a comparison with others in the Core district percentile of 80-99%. We plan on maintaining and building upon this success by continuing investing time in providing professional development opportunities to staff each week to support distance learning, as well as provide social-emotional support to staff based on collecting feedback from surveys. In addition, we will continue to host social events via Zoom with the staff, including PBIS weekly house competitions, monthly open mic events, and online games such as BINGO to build a sense of belonging and connectedness with the staff despite the distance learning taking place.

Identified Needs:

MSA2 approval rates are already high across survey topics and questions amongst students, families, and staff. However, we will continue to strive to maintain our high rates across each stakeholder group as well as across all topics included in this survey by implementing and monitoring our contemporary programs and services, as discussed in a previous response above. In addition, we will continue to seek improvement in areas of student stakeholders, since they are the lowest scoring group typically at MSA2 historically. Even though this is the case, they continue to score high in their comparison to other schools in the core district. As such, we will continue to seek feedback from students by means of ASB Student Government, PBIS house Ambassadors, PBIS coaches, and parent feedback. Specifically, student sense of belonging is the lowest topic amongst all stakeholders, but it also improved by 5% this year, and is also ranking in the top 80-99% percent when compared with all schools in the core district. For staff stakeholders, the lowest response was for sense of belonging which also was at 91% and was the top 80-99 percent when compared with all schools in the core district.

Free Response - Strengths:

- Based upon the free responses to this question, the below strengths are visible in the student survey for MSA2 during the 2020-21 academic year:
- Sports program
- Safe, Small School

- Good Teachers that treat everyone fairly
- Teachers are hard-working
- Handle bullying and fix problems
- Students are treated with respect

Based upon the free responses to this question, the below strengths are visible in the family survey for MSA2 during the 2020-21 academic year:

- Staff
- Teachers
- Small class and school size
- Communication with families
- Discipline procedures

Based upon the free responses to this question, the below strengths are visible in the staff survey for MSA2 during the 2020-21 academic year:

- Small size classroom; small family environment
- Staff support each other; respecting another
- Friendly and welcoming environment for all stakeholders

Based upon the free responses to this question, the below strengths are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- Teachers support students academically and emotionally.
- Strong communication with families
- Staff support each other; respecting another
- Discipline procedures/Handle bullying and fix problems/PBIS
- Sports program/CIF
- Safe, Small School /Small size classroom; small family environment

We are most proud of the students' response to the topic of Sense of Belonging (School Connectedness) which was 68% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in training our staff to provide high quality instructional programs which support students' social-emotional and academic needs during distance learning. Also, we will continue to offer interventions and support including Saturday School, PBIS weekly house competitions, online counseling sessions, online support for college applications, after school tutoring and clubs, and support via online resources.

We are most proud of the families response to the topic of Sense of Belonging (School Connectedness) which was 98% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in families observing that although MSA2 was operating in full distance learning during this time, our school

continued to provide opportunities for families to receive support and training during our parent bridge program on Saturdays, as well as communicating our continued high quality instructional programs which support students' social-emotional and academic needs during distance learning. We also will continue maintaining a high percentage of parent meetings and conferences via Zoom, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

We are most proud of the staff response to the topic of Sense of Belonging (School Connectedness) which was 91% overall, even with a decrease of 2%, we still received a comparison with others in the Core district percentile of 80-99%. We plan on maintaining and building upon this success by continuing investing time in providing professional development opportunities to staff each week to support distance learning, as well as provide social-emotional support to staff based on collecting feedback from surveys. In addition, we will continue to host social events via Zoom with the staff, including PBIS weekly house competitions, monthly open mic events, and online games such as BINGO to build a sense of belonging and connectedness with the staff despite the distance learning taking place.

Free Response - Areas of Growth:

Based upon the free responses to this question, the below strengths are visible in the student survey for MSA2 during the 2020-21 academic year:

- Sports program
- Safe, Small School
- Good Teachers that treat everyone fairly
- Teachers are hard-working
- Handle bullying and fix problems
- Students are treated with respect

Based upon the free responses to this question, the below strengths are visible in the family survey for MSA2 during the 2020-21 academic year:

- Staff
- Teachers
- Small class and school size
- Communication with families
- Discipline procedures

Based upon the free responses to this question, the below strengths are visible in the staff survey for MSA2 during the 2020-21 academic year:

- Small size classroom; small family environment
- Staff support each other; respecting another
- Friendly and welcoming environment for all stakeholders

Based upon the free responses to this question, the below strengths are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- Teachers support students academically and emotionally.
- Strong communication with families
- Staff support each other; respecting another
- Discipline procedures/Handle bullying and fix problems/PBIS
- Sports program/CIF
- Safe, Small School /Small size classroom; small family environment

We are most proud of the students' response to the topic of Sense of Belonging (School Connectedness) which was 68% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in training our staff to provide high quality instructional programs which support students' social-emotional and academic needs during distance learning. Also, we will continue to offer interventions and support including Saturday School, PBIS weekly house competitions, online counseling sessions, online support for college applications, after school tutoring and clubs, and support via online resources.

We are most proud of the families response to the topic of Sense of Belonging (School Connectedness) which was 98% overall, with an improvement of 5% and compared with others in the Core district as 80-99%. We plan on maintaining and building upon this success by continuing to invest time in families observing that although MSA2 was operating in full distance learning during this time, our school continued to provide opportunities for families to receive support and training during our parent bridge program on Saturdays, as well as communicating our continued high quality instructional programs which support students' social-emotional and academic needs during distance learning. We also will continue maintaining a high percentage of parent meetings and conferences via Zoom, including our Friday Coffee with the Principal meetings, Parent Teacher Conferences, PTF meetings, SSC, Title I and ELAC meetings.

We are most proud of the staff response to the topic of Sense of Belonging (School Connectedness) which was 91% overall, even with a decrease of 2%, we still received a comparison with others in the Core district percentile of 80-99%. We plan on maintaining and building upon this success by continuing investing time in providing professional development opportunities to staff each week to support distance learning, as well as provide social-emotional support to staff based on collecting feedback from surveys. In addition, we will continue to host social events via Zoom with the staff, including PBIS weekly house competitions, monthly open mic events, and online games such as BINGO to build a sense of belonging and connectedness with the staff despite the distance learning taking place.

Free Response - Areas of Growth:

Based upon the free responses to this question, the below areas of growth are visible in the student survey for MSA2 during the 2020-21 academic year:

- Lack of certain facilities, water fountain issue
- No field

- No sports for girls
- Vending machine taking money

Based upon the free responses to this question, the below areas of growth are visible in the families survey for MSA2 during the 2020-21 academic year:

- Teacher vacancies filled by substitutes
- Entrance location
- Lunches
- * Many parents stated no dislikes

Based upon the free responses to this question, the below areas of growth are visible in the staff survey for MSA2 during the 2020-21 academic year:

- Lack of facilities such as library and sports facilities; restrooms are not enough
- Discipline problems; no consequences are given
- Cell phone usage among students and bad language

Based upon the free responses to this question, the below areas of growth are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- Expand sports programs to middle school students and CIF sports to girls
- Improve access to facilities (field, school entrance, staff lounge)
- Less substitutes
- Offer more student-centered clubs
- Offer better student meals
- Follow-up on having clear consequences for disruptive students (cell phone usage among students, bad language, etc)

The areas which need our close attention are improving access to sports programs and facilities, improving quality of meals, and supporting clear consequences for student discipline issues. There are no gaps in student groups revealed by the feedback, although there is a perceived gap in girls sports opportunities which is due to the need to increase promotion of existing girls sports opportunities so that all stakeholders are aware about these.

Suggestions from Stakeholders:

Based upon the free responses to this question, the below are suggestions which are visible in the student survey for MSA2 during the 2020-21 academic year:

- More choice in electives/clubs
- Sports option for girls
- Follow through with consequences
- Shade in lunch area

- More opportunity for engagement with school and others

Based upon the free responses to this question, the below are suggestions which are visible in the families survey for MSA2 during the 2020-21 academic year:

- Better food
- More sports (specifically for middle)
- Lockers for students
- Music class

Based upon the free responses to this question, the below are suggestions which are visible in the staff survey for MSA2 during the 2020-21 academic year:

- New facility; move to a different location; more space
- Clear consequences for disruptive students
- Less substitute teachers
- Hiring process takes too long when a teacher leaves

Based upon the free responses to this question, the below suggestions are visible as patterns across all stakeholder groups, including students, families and staff for MSA2 during the 2020-21 academic year:

- More sports
- Better food
- Facility improvement

Next Steps:

MSA2 will continue to build increased sports opportunities for middle and high school students by conducting a survey of the students to seek their interest in participating in various sports. In addition, MSA2 will continue to participate in CIF sports for high school, and will take steps to reserve facilities during the instructional day for PE coaches to use with their classes as an athletic conditioning time. This will increase the students' participation in sports as well as access to improved facilities to practice.

MSA2 will seek to improve the quality of menu options available to students on campus by utilizing feedback from staff, students and families. Our goal with this process is to ultimately increase the amount of students who consume food at school to gain important nutrients which are essential to remain focused in learning and maintaining physical, and social-emotional health.

MSA2 will form a facility committee with students, staff, and families as part of the committee with the goal of increasing our access to co-located facilities during the instructional day as part of PE, as well as during outside of school hours to support PBIS programs, assemblies, academic competitions, and other school culture building activities. MSA2 will meet with our co-located schools on a bi-weekly basis to plan for use of facilities.

SELPA Feedback:

Our SELPA recommended that we continue to use the LCAP to monitor the progress of our students with IEPs and 504s through our use of programs and services as well as through continuing to monitor the data involving these students and to make any adjustments to programs and services necessary to ensure the increased success of these students.

Parent Advisory Committee (PAC)/Parents, School Site Council (SSC) and ELAC:

MSA2 feedback from our parents through our PAC, as well as through multiple stakeholder groups involved with our SSC and ELAC supported the idea that we expand services offered during our Saturday School program, as well as expand our summer school, Spring Break, Thanksgiving Break, and Winter Break services to support student learning to support English Learners, students with IEPs and 504s, socioeconomically disadvantaged students, students in need of social-emotional and mental health support, as well as general education students from all demographic backgrounds.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Continue using TeachBoost for teacher evaluations
- Increasing college preparedness by offering a college planning, dual enrollment with local colleges, and career exploration program for students early on, continue using Naviance to maintain the effectiveness of the “Advisory” programs, offering special programs to prepare students for the standardized tests, and preparing students to take more AP and/or college courses
- Continue investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Improving school facilities and the lunch program
- Continuing to improve the expansion of sports and arts programs to support our students

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 96.0%	2021-22: (Spring 2021 to Fall 2021) 88%			2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.0%	2021-22: (As of 5/12/22) 94.2%			2023-24: 96.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$24,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$426,371.08	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Chromebooks: Resource: Title IV, Part A; Amount: \$8,985 		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$517,374.69	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$8,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$973,507.31	No

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	\$1,881,128.31	No

Action #	Title	Description	Total Funds	Contributing
		<p>supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Teacher salary and benefits: \$118,815.04 		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following:</p>	\$60,202.00	Yes

		<p>professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$23,202 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP,</p>	\$653,346.02	Yes

		<p>NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Intervention Teacher salary and benefits: Resource: Title I, Part A; Amount: \$108,240 • Teacher stipends for Saturday school: Resource: Title I, Part A; Amount: \$76,000 • Admin stipends for Saturday school: Resource: Title I, Part A; Amount: \$11,400 • Teacher stipends for summer school: Resource: Title I, Part A; Amount: \$40,000 • Instructional Aide stipends for summer school: Resource: Title I, Part A; Amount: \$6,600 • Admin stipends for summer school: Resource: Title I, Part A; Amount: \$5,000 • Educational software (Standard Plus, Quill, NWEA, myON, IXL, Padlet, Flocabulary): \$56,633 • Educational software (AP Computer Science A Java - Edhesive): Title IV, Part A; Amount: \$3,000 • Professional services (Turnitin): Title I; \$4,500 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-</p>	\$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Rosetta Stone program fees: Resource: Title I, Part A; Amount: \$1,000 		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general</p>	\$666,517.38	No

Action #	Title	Description	Total Funds	Contributing
		<p>education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	\$114,388.53	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies.</p> <p>Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Naviance program fees: Resource: Title I; Amount: \$4,000 		
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to</p>	\$4,490.00	Yes

3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$111,541.10	Yes
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering,</p>	\$230,923.75	Yes

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff</p>	\$392,599.71	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school’s EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends for home visits: Resource: Title I, Part A; Amount: \$12,000 • Parent Academy instructor salary: Resource: Title; Amount: \$10,000 • ParentSquare professional services system: Resource: Title I; Amount: \$2,500 • Parent Education Bridge program fees: Resource: Title I, Part A; Amount: \$10,000 		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well	\$206,098.99	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p>		

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Additional services for homeless students: Resource: Title I, Part A; Amount: \$3,000 		
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,200.00	Yes
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively</p>	\$20,000.00	Yes

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course material, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-3	Zekeriya Ocel Principal	zocel@magnoliapublicschools.org (310) 637-3806

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy -3 (MSA-3) was founded in the fall of 2008 as a public charter school in Gardena. Two years later, MSA-3 moved to the current space collocating with Curtis Middle in Carson, California, under proposition 39. Currently MSA-3 is serving 420 students from grades 6 through 12 and celebrates its nearly 100% high school graduation rates. Almost 70% of MSA-3 students qualify for a free and reduced lunch program.

Our students & parents come from a variety of locations: 45% are from the Carson, LA, Gardena area (LAUSD). This year 32% are from Compton area.

MSA-3 revolves around its STEAM and college-readiness environment built into our mission and vision statement. The school provides a college preparatory educational program that emphasizes science, technology, engineering, art, athletics and math. In addition to core subjects, MSA-3 offers a vast range of elective courses, including: science explorers, computer science, programming, digital arts, music, creative writing, athletic training and advanced math to name a few.

Each class integrates the use of chromebooks in the curriculum, through Google Classrooms as well as McGraw Hill online platforms such as Studysync. All curriculum is aligned to Common Core State Standards to ensure students are practicing skills in preparation for end-of-the-year Smarter Balanced Assessment Consortium (SBAC) exams. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

College/Career Readiness:

- 95% Graduation rate for the class of 2021, 98% of seniors filled out FAFSA for college financial aid, MSA-3 has College readiness course for seniors to plan career, college and future plans.
- Internal IAB (interim assessment blocks) and Spring MAP(NWEA) data shows growth compared to Fall NWEA MAP assessment.
- 82% of graduating class are meeting the A-G requirements. 38% of the seniors are graduating with Honors and 20% of seniors with an Advanced Diploma.

6% of all students are taking advanced Math classes.

MSA-3 partnered with LAVC (Los Angeles Valley College) for students to take college classes. 24 students are currently taking Psychology 101.

Academic Intervention:

- Power Math and Power English are offered, Saturday School, Virtual home visits are scheduled for lowest performing and mid-range students.

English curriculum includes StudySync and Illuminate standards based practice exams.

- In Math, Aleks is used to help allow students to build content skills.
- MyON to help students reading levels through dedicated SSR (Silent Sustained Reading).

All student Lexile improvement: 69 pts, Students w/IEP: 67 pts and EL students: 41 pts

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Orange in Academics: English SBAC is 36%, which is a 6% decrease from prior year. 17% met or exceeded the Math standards which is 3% lower compared to prior year. English and Math SBAC prep, Interim assessments happen regularly to check the progress.

We have 50% Hispanic and 47% African Americans. Culture sensitivity and relevance training is needed for all staff. Students must be supported emotionally in order to impact their efforts academically. Need to increase the amount of African American students enrolled in AP courses. Our female students are outperforming their male counterparts in English and Math. Students w/IEP, and African American and EL students have a performance gap in Math and EL learners in English based on the latest SBAC data available (2019)

Student approval rate went up 13 pts (54% to 67%) even amidst distance learning difficulties because high expectations were maintained and students were involved in brainstorming of online activities. Staff members checked in with students frequently regarding social-emotional needs and emphasized the importance of students' mental health especially during the pandemic.

For students, the lowest rated topic was for the question "I feel close to people at the school." It can be inferred that this may be due to Distance Learning and students' inability to interact in person with their peers and teachers. In order to raise this area of student connection, the PBIS team will hold a Welcome Back Assembly to establish a positive school culture from the beginning. The team is also working more closely with ASB to allow students to more actively lead school activities based on their peer requests & preferences. This percentage may also be due to the lack of clubs and sports being offered in Distance Learning. As a next step, clubs as well as sports teams will be a greater focus of school culture in order for students to participate and feel greater pride & identity in the extra-curricular activities they are involved in. 37% of students responded that they do see disrespectful situations at school. In order to address this, assemblies will be held that focus on different PBIS topics, including respect. With this topic, school-wide strategies of how to resolve conflicts positively can be provided to be emphasized across campus by all.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- The need to continue our improvements in designated/integrated English Learner services and focusing our effort on the lowest performing sub-groups.
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing counseling and positive behavior intervention support services to our students
- Keeping effective teachers and improving teacher observation and evaluation systems
- The Charter School has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close

performance gaps among student groups.

- MSA 3 has seen an increase of overall satisfaction for Students, Families, & Staff. The goal is to allow opportunities for stakeholders to communicate with admin face to face, resolve issues as quickly as possible, and ensuring clear expectations/protocols.
- Overall satisfaction rates increased across all stakeholders; there are significant percentage increases averaging about 22%.
- Structured intervention programs were put in place with a new Title I Coach to identify targeted afternoon and Saturday interventions.
- PBIS team coordinates monthly assemblies to recognize students for academic and attendance successes. Rewards are teacher-nominated.
- Hiring process is based on a team decision to ensure high-quality, highly skilled, team focused educators.

- MSA-3 admin had consistent parent meetings (Coffee/ 'Zoom" with the Admin) to inform families about distance learning and academic expectation, student outcome and data points.
- Admin and teachers held frequent virtual home visits to not only inform parents about student grades, but to agree on action plan goals for improvement. Open communication is highly encouraged and parents do not have to wait until scheduled Parent-Teacher conference times.
- Daily attendance calls helped parents stay current on why a student has not attended the class. Problems resolved if it was a technical issue. Parents were contacted if the students needed chromebooks or hotspot devices. This helped all families to have access to instruction.
- Google form staff surveys were given quarterly to gauge internal staff satisfaction and to identify top teacher needs to address in staff meetings.
- Each week, teachers receive relevant professional development which helps them support their students better.
- Distributed Leadership increased the ownership and autonomy of our admin team.

The following areas need attention:

- Facility improvements (especially bathrooms)
- Addressing teacher and staff attitude concerns
- Tier 1, 2, 3 intervention strategies to make discipline procedures more clear to stakeholders
- Follow up and more support for Special Education students

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-3 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, virtual home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

MSA-3 experiences strong and consistent parent participation. All admin actively seek to respond to parent concerns and resolve issues directly at the site level.

MSA-3 held School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Board of Directors meetings, and staff meetings being held regularly. Parents on our SSC and ELAC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provides valuable input for the new LCAP.

In addition, the Charter School conducts regular surveys for parents, students, and staff to obtain critical feedback from stakeholders. These surveys are given regularly twice a year and contain in-depth categories of questioning to yield input on important school elements such as instruction, safety, climate, and more. Staff also conduct home visits as a way of deepening engagement, understanding, and support for families and students. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include four Zoom with Admin meetings, two SSC meetings, two ELAC meetings, , weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made 43 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Students: Adding more elective & club options (i.e., Business, Finance Literacy classes)

Families: Improving school communication with all parents

Both students and families mentioned increasing sports options.

Staff: Maintaining high academic and behavior standards for all students

SELPA feedback: Follow up and more support for Special Education students
Improved collaboration between gen ed teachers and special education team including co-teaching model.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- MSA-3 admin will follow up with maintenance for facility improvements (especially bathrooms) Addressing teacher and staff attitude concerns.
- The dean of students will work on Tier 1, 2, 3 intervention strategies to make discipline procedures more clear to stakeholders.
- The dean of Academics will work with Resource teachers to ensure the support and services are closely monitored for Special Education students.
- The dean of students will work on Adding more elective & club options (ie. Business, Finance Literacy classes).
- The principal will work on Improving school communication with all parents.
- MSA-3 admin team will check on options to increase sports opportunities.
- MSA-3 admin will work with students who are falling behind to keep maintaining high academic and behavior standards for all students.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 83.0%	2021-22: (Spring 2021 to Fall 2021) 82%			2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.5%	2021-22: (As of 5/12/22) 95.8%			2023-24: 96.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	MSA-3 and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$27,500.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$416,376.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: n/a</p>		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by LAUSD custodial staff under Prop-39. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, , maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$438,484.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$12,000.00	No Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$958,005.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 85%	2021-22: (As of 5/13/22) 90%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its	\$1,765,989.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p>	\$63,520.00	Yes

2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (</p>	\$665,799.00	Yes

		<p>IXL, MyON, BrainPOP, Flocabulary, Nearpod, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Title 1 Coordinator Salary and Benefits Resource: Title I, Part A; Amount: \$67,594 • Educational Software Resource: Title I, Part B; Amount: \$39,060. 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend,</p>	\$195,314.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$708,904.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	\$128,892.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies.</p> <p>Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Naviance Program Fee Resource: Title I, Part A; Amount: \$4,000 <p>AP Exam College Board Resource: Title IV Part A; Amount: \$11,935</p>		
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical</p>		Yes

		<p>thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$91,185.00	Yes
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state	\$96,055.00	Yes

		<p>standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p>	\$337,021.00	Yes

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to</p>	\$183,628.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends for home visits: Resource: Title I, Part A; Amount: \$5,000 • Stipends to lead parent academy/workshops: Resource: Title I, Part A; Amount: \$6,770 <p>Parent Square, Resouce: Title1 Part B: Amount: \$2,100</p>		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer	\$509,155.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$3,000 		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,600.00	Yes
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p>	\$15,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-4	Musa Avsar Principal	mavsar@magnoliapublicschools.org (310) 473-2464

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy 4, is a classroom-based charter school serving grades 6–12 with a curriculum emphasis on science, technology, engineering, arts, and math (STEAM). Originally founded in 2008, MSA-4’s mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-4 currently serves 101 students in grades 6-12. Our population consists of a variety of students, some of which have a language other than English spoken at home. A high concentration of our families experiences economic challenges. MSA-4 ‘s diverse enrollment is comprised of 85% Hispanic/Latino, 12% African American/Black, and 2% White, 87% Socioeconomically Disadvantaged, 28% Special Education, and 13% English Learner population.

MPS strives to graduate students who come from historically under-served neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-4 is supplemented by tutoring, after-school programs, Saturday school program, and school-to-university links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

MSA-4 celebrates our successes around our graduation, reclassification rates, and college acceptance rates.

Our graduation rate continues to be strong. We have maintained a rate of 90% or above for the last 3 years and are on track to maintain that rate for the upcoming year. This is an area of considerable pride for us in that we often enroll students with credit deficiencies and/or other challenges and manage to support them as they make strides toward academic and social success. We seek out opportunities for them to complete coursework in an expeditious manner by way of Odysseyware. This is an online platform that allows students to work at an accelerated rate to complete credit recovery courses. Our students know that we will support them in the manner that they need.

MSA-4 celebrates the fact that we have actively created a college-going culture. As a result, our college acceptance rate has been fairly strong over the last 3 years.

MSA-4 remains committed to ensuring that our students are supported and presented with the various programs available to them as a post-secondary option.

MSA-4 also offers our students SAT preparation and community service opportunities to bolster each student's application. We have come to know that while a great GPA used to be the "magic ticket" to gain acceptance to the college of choice, that is no longer the case. Students now need something to set them apart from the next student with an equally great GPA.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

This year MSA-4 continues to focus on our overall student data; however, more of an emphasis on math as that is the area where our students continue to struggle. Our focus is working to move the 30% toward proficiency.

MSA-4 will continue using IAB (Interim Assessment Block) data to track student progress and plan for more targeted instruction and interventions.

MSA-4 experienced an increase in the area of overall satisfaction for our students and staff. MSA 4 continues to employ PBIS (Positive behavior Interventions and Supports) and MTSS (Multi-Tiered Systems of Support) with our students. We will also continue with PD for all staff in these areas.

MSA-4 realizes that there is a continued need to reduce the number of students who are not meeting or exceeding standards in ELA and Math. A persistent school-wide goal is to reduce the percentage of students who are not attaining proficiency by 9% over the next 3 years. In an effort to support our students in these areas, students assigned to enrichment classes, after-school tutoring, and Saturday school. The expectation is that students are provided targeted interventions. Each student's progress is monitored, and students may transfer into another elective once they have made adequate gains toward proficiency.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School Parent Advisory Committee (PAC) has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing counseling and positive behavior intervention support services to our students by employing the following:
- PBIS – Positive Behavior Intervention and Supports
- MTSS – Multi-Tiered Systems of Supports
- Mentoring and leadership program
- Keeping effective teachers and improving teacher observation and evaluation systems

We have also worked on our expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups. This includes the consistent and targeted use of IAB (interim assessment blocks) and MAP (Measures of Academic Progress) data to inform and drive our day-to-day instruction. MSA-4 spends quality time analyzing our data. We then spend time collaborating and planning around how to best support our students in our efforts to close the performance gap.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-4 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. These committees provide representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress, a school plan with planned improvement in student performance in reading and mathematics and in programs for English Learners, and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include 8 PTF meetings, 7 SSC meetings, at least five parent activities/events including weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement.

A summary of the feedback provided by specific educational partners.

Here are some of the feedback from stakeholders through meetings and stakeholder surveys.

PTF/SSC/PAC Feedback:

Glows:

All stakeholders are happy to be part of a small and family-like environment. Many students and parents emphasized the support that students receive from teachers. Here are some of the comments our stakeholders made about MSA-4. The following are some glows that are being vocalized by all stakeholders.

- MSA-4 provides a family-like environment.
- All staff are caring, supportive.
- MSA-4 offers effective communication with parents.
- Teachers provide individualized attention and flexibility.

Grows:

MSA-4 stakeholders suggested growth in the following areas:

- Parent involvement.
- Facilities.
- Limited classes and activities (sports and music).
- Improvement in instructional strategies to check for understanding

SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations, Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The LCAP Committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Increasing college preparedness by offering a college planning and career exploration program for students early on, strengthening existing “Advisory” programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Other input includes improving school facilities and the lunch program.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	2020-21: 0	2021-22: 0			
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 85.0%	2021-22: (Spring 2021 to Fall 2021) 71%			2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 95.0%	2021-22: (As of 5/12/22) 96.2%			2023-24: 95.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	<p>Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers' credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus,</p>	\$10,300.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds:N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to the standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Chromebooks: Resource: Title IV, Part A; Amount: \$4,000.00 	\$81,503.00	No

Action #	Title	Description	Total Funds	Contributing
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with the stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$131,984.00	No
1.4	Healthy and nutritious meals	Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy	\$6,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$121,427.96	No

Action #	Title	Description	Total Funds	Contributing

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

MSA-4 has fully implemented all of the actions indicated in our action plans. All students and staff had access to a safe, secure, healthy, high-quality learning and working environment. Students received essential services fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities. There were some differences between the budgeted and actual expenditures as the school has received some one-time funds due to the COVID-19. MSA-4 has used these one-time funds to enhance its actions. For example, MSA-4 offered bonuses to our full-time staff to ensure they would return to the school for the next school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1:

MSA-4 budgeted \$10,300 and spent \$91,300.00 for this goal. We spent \$81,000.00 more than the budgeted amount. This is due to our full-time staff receiving bonuses that would help keep our retention numbers high for the next school year.

Goal 1 Action 2:

MSA-4 budgeted \$72,093.00 and spent \$90,627.26 for this goal. We spent \$18,534.26 more than the budgeted amount. We purchased new Chromebooks and hotspots to ensure students can access the curriculum.

Goal 1 Action 3:

MSA-4 budgeted \$116,984.00 and spent \$272,864.60 for this goal. We spent \$155,880.6 more than the budgeted amount. According to the California Code of Regulations, we paid the overallocation fee to LAUSD.

Goal 1 Action 4:

There is no substantial material between budgeted and estimated actual expenditures for this action.

Goal 1 Action 5:

MSA-4 budgeted \$121,427.96 and spent \$92,900.58 for this goal. We spent \$28,527.38 less than the budgeted amount. MSA-4 paid fewer management fees as compared with the previous school years.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 has implemented all the actions/services described above to achieve our basic services for a high-quality learning environment goal. We are compliant with our teacher assignments; we offer standards-based instruction, and our students have sufficient access to standards-aligned instructional materials; we do facility inspections periodically; we regularly assess our technology needs to ensure staying up-to-date. MSA-4 receives meal services from Better4You, and additionally, we had other basic services for our staff and students. MSA-4 has provided Chromebooks and hotspots to ensure students access the online curriculum at school and at their homes. MSA-4 has been strategic and specific in its 2021-22 school year goals. Coming back to in-person instruction was paramount to its continued success as a program. Keeping up with curricular changes, furnishing supplies and materials, updating technology, and providing services for identified students occurred daily. MSA-4 did not drift from this goal the entire year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 88%	2021-22: (As of 5/13/22) 113%			2023-24: 100%
Percentage of students who have	2020-21: (First semester)	2020-21: (Second semester)			2023-24: 80%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
received a grade of “C” or better (or performed “proficient” on the related state standardized tests) in core subjects and electives (Source: SIS)	79%	82%			
Average Lexile Growth (L) from fall to spring (Source: myON)	2020-21: (As of 5/7/21) 151.6	2021-22: (As of 5/13/22) 191.9			2023-24: 60.0

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that	\$713,303.34	No

Action #	Title	Description	Total Funds	Contributing
		<p>supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost</p>	\$28,000.00	Yes

		<p>software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$5,131 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP,</p>	\$204,908.70	Yes

		<p>NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Teacher stipends for after-school: Resource: Title I, Part A; Amount: \$5,600 • Teacher stipends for Saturday school: Resource: Title I, Part A; Amount: \$14,000 • NWEA MAP testing fees: Resource: Title I, Part A; Amount: \$1,300 • Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above): Resource: Title I, Part A; Amount: \$14,270 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual</p>		Yes

		<p>assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:N/A</p>		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional</p>	\$252,930.11	No

Action #	Title	Description	Total Funds	Contributing
		<p>salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

While the impacts of COVID-19 during 2021-22 have had significant impacts on programs and services, staff were able to effectively implement these specific actions consistent with the plan. No substantive changes to actions/services for this year. Overall, the actual implementation of the actions within Goal 2 closely matched the plan.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1:

MSA-4 budgeted \$713,303.34 and spent \$663,130.93 for this goal. We spent \$50,173.41 less than the budgeted amount. This difference is because the delay in filling some of the open positions caused my nationwide staffing shortage due to COVID-19.

Goal 2 Action 2:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 2 Action 3:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 2 Action 4:

There was no budgeted expenditures for this action as our ELA teacher carried the duties of the designated and integrated ELD programs.

Goal 2 Action 5:

MSA-4 budgeted \$252,930.11 and spent \$134,026.99 for this goal. We spent \$118,903.12 less than the budgeted amount. MSA-4 hired fewer SPED teachers than anticipated when the LCAP plan was created.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 ensured all students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Majority of MSA-4 pursue academic excellence and be college/career ready. MSA-4 students continue to show better than the projected growth target for both ELA and Math determined by the NWEA MAP assessment. We expanded summer and Saturday school options for students to mitigate the learning loss due to the COVID-19. MSA-4 staff provided:

- Additional learning resources and tools.
- Intervention sections.
- Small group support to all of our students.

Over 70% of MSA-4 students show significant growth from Fall 2021 to Spring 2022 as measured by the NWEA MAP growth assessment. With this growth, MSA-4 students have ranked in the 99th percentile in all grade groups. Additionally, all sub-groups have performed similarly to the general education population. 47% of our EL students have shown progress based on California's EL Progress Indicator. MSA-4 continue offering professional development to its teachers to ensure they are up-to-date with the educational developments. Three MSA-4 teachers enrolled in an induction program and received ongoing professional development throughout the year. Additionally, With State Assessments having resumed and results forthcoming, the overall progress of the MSA-4 in key content areas will be available in the near future. The overall performance in these areas as well as the disaggregated performance of student groups will enable more current analysis and inform next steps. Implementing the actions in this goal furthered the MSA-4's efforts to ensure that all students are provided a standards-aligned program with rigorous learning experiences. MSA-4 effectively implemented MTSS discussed in Goal 2 action 3, which contributed students to excel and close the achievement gap.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

		<p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds:N/A</p>		
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • PE/Health teacher salary and benefits: Resource: Title IV, Part A; Amount: \$XX,XXX • Athletic director salary and benefits: Resource: Title IV, Part A; Amount: \$XX,XXX 	\$82,723.70	Yes

3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$112,484.05	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

MSA-4 implemented all actions as planned. Although, we did not make speeding for Goal 3 Action 2, we were able to complete the actions as planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1:

MSA-4 budgeted \$192,398.90 and spent \$137,329.19 for this goal. We spent \$55,069.71 less than the budgeted amount.

Goal 3 Action 2:

MSA-4 budgeted \$6000 for this goal, but we did not spend the budgeted amount.

Goal 3 Action 3:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 3 Action 4:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 3 Action 5:

There is no substantive difference between budgeted and actual expenditures for this action plan.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 hired a new college counselor to support students and parents with college and career planning this school year. We offered summer school to provide opportunities for students to recover credits toward graduation and A-G completion. Our college counselor worked closely with the students and made four-year plans to keep students on track for graduation. Also, MSA-4 partnered with LA Valley college and offered courses that enable our students to be college and career ready based on California's college and career readiness indicator. As a result, 100% of our class of 2022 graduated, and 96% of the students completed the A-G requirements. 58% of our graduating class is ready based on current college-career readiness data. 81% of students got accepted to at least one four-year college, and 65% of the students took the offer they received from the four-year colleges. Also, MSA-4 continues offering sports during and after school to ensure all our students are involved in physical and fitness activities. We use Go Guardian to ensure our students are digitally safe while using school Chromebooks. We continue organizing college and educational field trips to open up our students' horizons and support the well-rounded education they receive at MSA-4.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends to serve on SSC, ELAC, and board meetings: Resource: Title I, Part A; Amount: \$XX,XXX • Parent input/decision making meeting expenses: Resource: Title I, Part A; Amount: \$XX,XXX • DTS program fees: Resource: Title I, Part A; Amount: \$XX,XXX 		Yes
4.2	Building partnerships with families for student outcomes	Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and	\$114,728.60	Yes

		<p>parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • ParentSquare software fees: Resource: Title I, Part A; Amount: \$600 		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-	\$104,750.97	Yes

		<p>emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p>

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

MSA-4 implemented all actions as planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 2:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 4 Action 3:

MSA-4 budgeted \$114,728.60 and spent \$256,859.38 for this goal. We spent \$142,131 more than the budgeted amount. We hired SEL Counselor, a PACE coordinator, and an additional paraprofessional by using the one-time funds during the 2021-22 school year.

Goal 4 Action 4:

There is no substantive difference between budgeted and actual expenditures for this action plan.

Goal 4 Action 5:

There is no substantive difference between budgeted and actual expenditures for this action plan.

An explanation of how effective the specific actions were in making progress toward the goal.

MSA-4 ensured that all students, families, staff, and other educational partners had access to meaningful engagement opportunities that helped cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Our annual survey proved that educational partners feel a sense of community and connectedness. MSA-4 has received a high approval rate in all educational partners survey categories.

MSA-4 held periodic meetings, including Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, and English Learner Advisory Committee (ELAC) meetings, to gather input from our families. Feedback from these meetings provides valuable information for the LCAP. MSA-4 also strengthened its trust and relationships with parents through activities, including Student/parent orientation, back-to-school night, and parent conferences to promote parental participation in programs. Our SEL counselor and school psychologist regularly met with the students and their parents and provided social-emotional support to address the unique needs of our students throughout the year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There is no changes to planned goals, metrics and desired outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout the campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-5	Ali Kaplan Principal	akaplan@magnoliapublicschools.org (818) 705-5676

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

MSA-5 currently has 290 students in grades 6-12 and mainly draws enrollment from Reseda, CA and neighboring communities. The neighborhoods that MSA-5 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-5 serves faces economic challenges. MSA-5 has a diverse enrollment, including 87% Hispanic/Latino, 5% White, 5% Asian, and 2% Black or African American. Of our 290 students, 88% Socioeconomically Disadvantaged, 19% Special Education, and 27% English Learner population.

MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring to our students. Classroom instruction at MSA-5 is supplemented by tutoring, after-school programs, and school-to-university links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Areas that we are most proud of are the following:

- Suspension Rate is Green for all students and sub groups.
- All Students, English Learners, Socioeconomically Disadvantaged, Students with Disabilities, and Hispanic in ELA and Math increased significantly on the CA School Dashboard.

- CAASPP test results increased 12% in ELA and 19% in Math.
- Approval rating grew 8% with students.
- Overall satisfaction increased 9% with students.
- Actions that we will maintain is our power classes for Math and ELA and our designated English Learner Classes. We will also continue to provide PD in areas that support our students' demographics (differentiated instruction).

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

In both Math and ELA our Special Education population was low at 94.1 points below standard in Math and very low at 79.3 points below standard in ELA. Also we were categorized as low in in ELA & Math as a whole. Special Education students need more attention and more PD for teaching students with disabilities are needed. More math tutoring provided through Title I funds, Saturday school, Power Math and after school tutoring for all struggling sub groups.

Though the majority of our student groups showed growth in Math and in ELA, still the majority were categorized low or very low. MSA-5 is planning to continue to provide students a variety of supports such as after school tutoring, Saturday School, Power classes, and 1 on 1 tutoring with staff at school. Also, MSA-5 will continue to provide staff with PD on differentiated instruction, Response to Intervention (RTI), and working with diverse learners.

Also, based upon our student survey results, topic 3 (safety), topic 5 (growth mindset) and topic 6 (self-efficacy) has shown the lowest percent favorable by students. We'll continue to have staff connect with their students and help students set goals beyond high school.

Chronic absenteeism rate still is over 10% and our ADA is meeting our 95% goal, but we would still like to improve on that as well.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College
- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs

- Providing counseling and positive behavior intervention support services to our students
- Improving the school’s communication system, ParentSquare, to get messages to families
- Keeping the school site safe
- The Charter School has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups. Those include, chronic absenteeism, in all subgroup have growth in English Language Arts and Math.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-5 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include four PTF meetings, four SSC meetings, four ELAC meetings, at least five parent activities/events including two Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey.

The Charter School staff has also made home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Parent Advisory Committee (PAC)/Parents: The PAC is still very vocal about finding a permanent site for the school site and increasing school site safety by adding a security guard. The PAC also provided feedback on adding more aides to the classrooms and a high school sports program.

Students: Students' feedback provided more after-school sports and more elective options in both middle and high school.

Staff: The staff's feedback is focused on finding a permanent site and continue to invest in technology and professional development to better support the students.

School Site Council (SSC): The SSC wants to continue to bring in more programs for students and parents to increase college preparedness.

ELAC: Continue to strengthen our designated ELD classes and train staff to support ELs in the classroom.

SELPA: The SELPA recommended that we include an action in our LCAP specific to students with disabilities to describe how academic and social-emotional supports would be provided.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Increasing college preparedness by offering a college planning and career exploration program for students early on, strengthening existing “Advisory” programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Based on feedback from the El Dorado SELPA, we included a new action in our LCAP specific to students with disabilities. See Goal 2: Action 5. This action summarizes support and services for students with disabilities.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 93.0%	2021-22: (Spring 2021 to Fall 2021) 93%			2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.0%	2021-22: (As of 5/12/22) 94.8%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$16,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$235,540.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Supplemental instructional materials and supplies: Resource: Title I, Part A; Amount: \$5,000 • Chromebooks: Resource: Title IV, Part A; Amount: \$5,000 		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p>	\$449,256.00	No

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$11,000.00	Yes
1.5	Well-orchestrated Home Office support services	The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability,	\$558,458.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards.	\$897,955.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p>	\$25,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$5,000 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan,</p>	\$469,645.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Intervention Teacher salary and benefits: Resource: Title I, Part A; Amount: \$50,000 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p>	\$99,405.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • EL Coordinator stipend: Resource: Title I, Part A; Amount: \$5,000 		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$537,608.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

3.1	College/Career readiness programs and activities	Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning	\$106,156.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies.</p> <p>Expenditures associated with this action include the following: college counselor salary and benefits, AP teacher stipends, Naviance program fees, AP exam fees, AP course materials, and other college-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p>		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • MyON Digital Library: Resource: Title I, Part A; Amount: \$13,000 	\$93,107.00	Yes
3.4	Physical education, activity, and fitness	Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state	\$110,115.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p>	\$64,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff</p>	\$193,837.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school’s EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends for home visits: Resource: Title I, Part A; Amount: \$15,000 • Stipends to lead parent academy/workshops: Resource: Title I, Part A; Amount: \$5,000 • Parent activity/event expenses: Resource: Title I, Part A; Amount: \$1,000 		
4.3	MTSS - PBIS and SEL support	Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be	\$292,544.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p>		

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Additional services for immigrant students: Resource: Title III, Part A - Immigrant; Amount: \$2,513 • Additional materials/services for homeless students: Resource: Title I, Part A - Amount: \$1,000 		
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Panorama Education survey fees: Resource: Title I, Part A; Amount: \$784 	\$1,164.00	Yes
4.5	Community outreach and partnerships	Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support	\$18,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy 6	James Choe Principal	jchoe@magnoliapublicschools.org (310) 842-8555

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy (MSA-6 or Charter School), is a classroom-based charter school serving grades 6-8 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2009, MSA-6’s mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-6 currently has 160 students in grades 6-8, and mainly draws enrollment from Palms, CA and neighboring communities. The neighborhoods that MSA-6 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-6 serves faces economic challenges. MSA-6 has a diverse enrollment, including 86% Hispanic/Latino, 9% African American, 5% White, 76% Socioeconomically Disadvantaged, 20% Special Education, and 20% English Learner population.

MSA-6 strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-6 is supplemented by tutoring, after-school programs, and school-to-university links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

SBAC scores of 2018-2019 shows a slight decline in ELA proficiency (2.5% decrease) and maintaining math proficiency (38%)

- Using and analyzing the scores with ICAs and IABs to recognize specific academic needs and addressing those needs; data-driven.
- Intervention programs were effective in providing academic supports to specific groups of students.
- Providing feedback to students on their areas of growth/need through data from MAP, ICAs and IABs.
- Providing additional academic support such as afterschool (tutoring) and Saturday school.
- Increased availabilities of counselors and therapists to support students.
- Teacher-led meetings to provide feedback and sharing best practices.
- Constant communication between the academic teachers and the special education teacher to address modifications and accommodations for students with IEPs.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Addressing students who are failing much earlier in the semester and find ways to engage these students.

- Lack of data on incoming students' prior knowledge.
- Lack of foundational skills from incoming students.
- Lack of attendance for homeless student population
- Alarming data – 35.9 points below standard in math, 16.3 points below standard in English according to SBAC 2019.
- Areas that need close attention:

a. Intervention programs: Create clear objectives on what needs to be accomplished in the programs, collect data by assessing the students with IABs in the beginning of the year to determine which specific students belong in intervention programs.

b. Programs and incentives: We will use our new Parent Square communication tool to engage homeless parents via text message, voicemail, email and certified letters. We will recognize students' high participation with some incentives like school supplies, metro passes etc.

- PD – More PDs on NGSS for science. More PDs on promoting positive behaviors, bullying prevention, and positive school environment that provide Do's and Don'ts in a step-by-step manner.
- Cross-curricular activities between all core subjects.
- Using graphic organizers or interactive activities to provide vocabulary support for ELL.

a. Examples: Quizlets, synonyms/antonyms games, practice vocabulary use in sentences, and sentence-starter posters.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College
- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing counseling and positive behavior intervention support services to our students
- Keeping effective teachers and improving teacher observation and evaluation systems

The Charter School has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups. Those include:

- Using and analyzing the scores with ICAs and IABs to recognize specific academic needs and addressing those needs; data-driven.
- Intervention programs were effective in providing academic supports to specific groups of students.
- Addressing students who are failing much earlier in the semester and find ways to engage these students.

Areas that need close attention:

a. Intervention programs: Create clear objectives on what needs to be accomplished in the programs, collect data by assessing the students with IABs in the beginning of the year to determine which specific students belong in intervention programs.

- Cross-curricular activities between all core subjects.
- Using graphic organizers or interactive activities to provide vocabulary support for English language learners.
- Charter School will provide resources for increased outreach efforts to low income families including Parent College, parent training, home visits and other parent involvement meetings
- EL students will receive in-class instructional support which includes one-on-one teacher support in co-teaching classrooms; small group instruction; ELD instructional strategies.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-6 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, MSA-6 conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

MSA-6 has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

MSA-6 has held its periodical meetings this year to gather input from our stakeholders. These include eight PTF meetings, four SSC meetings, four ELAC meetings, at least five parent activities/events including 5 Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders (89% parents, 99% students and 100% staff) participated in this survey. MSA-6 staff has also made 40 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Parent Advisory Committee (PAC)/Parents:

PAC suggests facility and cleaning improvement for next school year. The current site was old and a dated facility. The renovation would be very costly. MSA-6 is moving to Pio Pico MS for 2021-2022 school year and there will be newer classrooms and offices for students and staff. The school will work with LAUSD in order to provide clean facility and restrooms for health and safety. PAC also suggests offering more electives and more variety in afterschool program.

Students:

Based on the student survey, students would like to see more sport programs and extracurricular activities (Performing Arts - Music Drama). With the new school site, MSA-6 administration will collaborate with Pio Pico MS for some sport programs and put efforts to offer arts and music programs afterschool.

Staff:

Based on staff surveys, staff members would like MSA-6 administration to hire more teachers and teacher aides in order to provide more support for students with learning disabilities and English Learners. MSA-6 had 19% SPED and 23% EL students in 2020-21 school year. These two groups were most impacted groups during the pandemic and MSA-6 will continue to support them via Summer school and next year's high quality instruction program.

School Site Council (SSC):

SSC suggests providing more academic support for students who have curriculum gaps. Some students might have learning loss due to distance learning and teachers may need to re-teach some foundational skills in the beginning of the new school year. SSC also suggests providing counselors and therapists for all students for their social emotional needs. SSC recognizes that COVID-19 pandemic caused a big shift for many students and when returning back to in-person instruction, students will need more social emotional support.

ELAC:

ELAC suggests providing ELD classes for 2021-22 school year and additional intervention programs for ELs. ELAC recognizes that some English Learners had some obstacles with online learning and they need to be supported in some areas such as ELA and math for 2021-22 school year. Also, ELAC suggests MSA-6 to continue utilizing some online programs such as IXL.com and NextGen math in new school year.

SELPA:

Our SELPA recommended that we include an action in our LCAP specific to students with disabilities to describe how academic and social-emotional supports would be provided. They also recommended that we include the students with disabilities group in our LCAP metrics and provide specific data.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

MSA-6 LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers

- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Other input includes improving school facilities and the lunch program.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 86%	2021-22: (Spring 2021 to Fall 2021) 75%			2023-24: (Spring 2023 to Fall 2023) 85%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.1%	2021-22: (As of 5/12/22) 97.7%			2023-24: 97%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$10,300.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students, they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory training, and other HR-related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review the alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchase of materials. Charter School will annually review budgets and plans to ensure an adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards-aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$82,287.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security, and high-quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM-focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment, and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety-related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$255,000.00	

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$9,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages the business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$71,896.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office-related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

1.1 At the end of the 2020-2021 School year, we had two teachers who had left. The math and science teacher for 7th and 8th grade. These teachers left due to the commute.

We were able to hire a 7th and 8th-grade science and math teacher to replace the teachers who left.

We were able to hire a Special Education Coordinator that we had contracted last year through Stepping Stones. This staff member became a full time employee of MSA6.

On top of this, we spent \$49,500 more than our planned actions. This is due to our full-time staff receiving bonuses that would help keep our retention numbers high for the next school year.

1.2 Magnolia Science Academy 6's planned expenditure for this year was \$82,287. Our actual amount of spending was \$78,139.06. We spent around \$3,000 less than we had anticipated.

1.3 Magnolia Science Academy 6's planned expenditure for this year was \$255,000. Our actual amount of spending was \$344,516. We spent around \$89,000 more than we had anticipated.

1.4 Magnolia Science Academy 6's planned expenditure for this year was \$9,000. Our actual amount of spending was \$9,000. We spent exactly what we had anticipated.

1.5 Every year, we are striving to make sure that we have properly credentialed teachers in the classroom. With the support of the Home Office, and a dedicated budget for the miscellaneous things like fingerprints, TB tests,...etc. We may want to think of annual bonuses for retention in order to hold onto our teachers. Our teachers are talented and we would like to continue growing with each other.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

1.1 Budgeted Amount: \$10,300
Actual as of 6/3/2022: \$ 60,300.00

Difference: \$50,000

1.2 "Budgeted Amount: \$82,287
Actual as of 6/3/2022: \$ 78,139.00

Difference: -\$4148

1.3 Budgeted Amount: \$255,000
Actual as of 6/3/2022: \$344,516

Difference: \$89,516"

1.4 Budgeted Amount: \$9,000
Actual as of 6/3/2022: \$9,000

Difference: \$0

1.5 Budgeted Amount: \$71,896
Actual as of 6/3/2022: \$90,105

Difference: \$18,209

An explanation of how effective the specific actions were in making progress toward the goal.

1.1 "The planned expenses were to help with any making sure that we have properly credentialed teachers. This means that we needed our staff members to have live scans. In addition to this, we needed to make sure that we had fire permits and other additional funds to make sure that we could also contribute to the adjusted retirement fee.

As of early June, all of our staff members have turned in their agreements. We believe that the bonus of \$4,500 was partially the reason why we had all of our staff members return their agreements."

1.2 With distance learning in the past, we have learned that we need to make sure that we are up to date with our technology. Being back at school gave us an opportunity to apply what strategies we learned during our time away from a physical school site into the physical classroom. We were able to purchase some programs that we became familiar with during distance learning, and implement them in class this year. This helps our goal of having basic, high-quality instruction.

1.3 "Providing a means of transportation to our new site was very helpful in keeping our enrollment. Students were told that we were going to move late in the school year, last year, and it did not give them enough time for them to prepare transportation for the new site. Our new site, Pio Pico, was a well-kept/maintained site. This made the staff and students feel that they were in a clean and safe school.

1.4 In addition to our food services from Better4You, we had other basic services for our staff and students. These services were; water, refreshments, and miscellaneous items.

1.5 The support that is given from our Home Office Team, the Academic Team, the Operations Team, Human Resources, Accountability...etc. are an important part of our schools being able to run. The Home Office team helps us keep up-to-date with new laws and bills, keeps us informed about upcoming rules and regulations, and supports our school on a day-to-day level as well.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 Every year, we are striving to make sure that we have properly credentialed teachers in the classroom. With the support of the Home Office, and a dedicated budget for the miscellaneous things like fingerprints, TB tests,...etc. We may want to think of annual bonuses for retention in order to hold onto our teachers. Our teachers are talented and we would like to continue growing with each other.

1.2 We would like to continue with our current technology program in order to have basic high-quality learning. We would like to also have a line item for our budget to include a new set of Chromebooks for the incoming students, next year.

1.3 "Magnolia Science Academy 6 will need to have bus transportation for the next year and possibly for the following year as well. We will have a new rent and lease agreement which should be less than our current year's rent.

1.4 We will keep our budget the same for this action since we spent exactly the amount that we budgeted.

1.5 We need to increase our budget for the upcoming year to match how much we spent this year. The services that are currently provided are needed for our school to run. In addition to the current services, we believe that we would need to build a marketing department to showcase all the good work that our schools have done to the public. This in turn could help out with public relations and with enrollment.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 90%	2021-22: (As of 5/13/22) 75%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 74%	2021-22: (As of 5/13/22) 108%			2023-24: 100%
Percentage of students who have	2020-21: (First semester)	2020-21: (Second semester)			2023-24: 80%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
received a grade of “C” or better (or performed “proficient” on the related state standardized tests) in core subjects and electives (Source: SIS)	80%	94%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.	\$452,019.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: Intervention teachers' salaries and benefits: Resource: Title I, Part A; Amount: \$8,169</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high-quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high-quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p>	\$15,616.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$3,616 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p>	\$267,900.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above such as myON, Quizizz, BrainPOP): Resource: Title I, Part A; Amount: \$16,993 • Evidence-based supplemental intervention/enrichment program fees (IXL): Resource: Title IV, Part A; Amount: \$5,000 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and the CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL</p>	\$93,812.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • EL Coordinator salary and benefits: Resource: Title I, Part A; Amount: \$4,705 		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$163,176.00	No

Action #	Title	Description	Total Funds	Contributing

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2.1 There were no substantive differences between our estimated and actual spending. Magnolia Science Academy 6 continues to offer a standards-based curriculum throughout its regular school day. All core classes are being taught and in addition to the core classes, we also have Physical Education, Life Skills, Enrichment classes for math and ELA, and a homeroom/SSR/advisory class at the beginning of the school day. We also round out our student's education with after-school clubs. During this time, we have students join our STEAM team, our Art club, Journalism, and our Tutoring clubs. At least one or two of these clubs are offered throughout the week.

2.2 There were little substantive differences between our estimated and actual spending. Magnolia Science Academy 6 is doing the following actions to help develop high-quality instruction inside the classrooms:

Going to all the professional development opportunities that the Home Office provides: CRT training in the summer and in the fall. Have teachers do their self-assessment and go over their self-assessment throughout the year in order to see how much the teachers are progressing throughout the year. Teachers are encouraged to find their own PD's of their own choosing, something that they have a high interest in. Staff meetings are going to be redesigned so that staff will have more time for collaboration during these times. Some of the items we will continuously revisit are; classroom management, ELD strategies, UDL strategies, best practices...etc. The administration has created opportunities for co-teaching throughout the school year in order to support one another. A Magnolia veteran teacher is helping and coaching the newer Magnolia teachers.

Administration is requesting check-ins every few weeks to make sure that they are being supported on anything else.

2.3 Magnolia Science Academy 6 has several implementations that have been developed in order to support MTSS.

ACADEMICS

- Classes are now on a 90-minute block schedule in order to program more in-class practice and work time for the students with their teachers. Each teacher has programmed between 20 and 40 minutes of student work time within the 90-minute class period.
- Staff have been tasked to co-teach in classes to aid their cohort by lowering the student/teacher ratio, providing more support to students with disabilities and those needing more attention, supplementing behavior control and culture development, and providing informal, collaborative feedback to both the primary teacher and their students.
- Intervention groups are already developed and meet between once and twice per week in Math and ELA to further support students.
- After-school tutoring is now offered 5 days per week after school.
- Two paraprofessional aides also spend time in the classrooms that do not have a co-teacher in order to focus on students with disabilities, and students with greater need, and to offer assistance and tutoring as needed.

BEHAVIOR (CULTURE and DISCIPLINE)

- Daily student/staff 1-to-1 interaction at check-in and check out of school to promote presence and foster relationship building.
- Bi-Weekly PBIS raffles to highlight student achievement and reward positive behavior
- "Walk with the Dean" led by DoS to have elongated 1 to 1 check-in sessions wit students, especially those at risk. 10 minute walk with one designated student per day
- Additional forms of contact with parents and students through online resources like ParentSquare, social media, phone calls, and Infinite Campus
- Active Reflection: walking with students that are in reflection for behavior issues to discuss goal setting and behavior progress monitoring.

2.4 No substantive differences. At Magnolia Science Academy 6 the designated ELD classes are now being taught by two teachers to give students more support. Designated ELD program is during the first period of the day, 5 days a week. ELD coordinator is continuously updating our teachers on who the EL students. ELD coordinator will do ELAC meetings, although we have less than 21 EL students. ELD coordinator will continuously update the staff on what is going on in the designated ELD class in order to carry that over to the regular classes. Teachers are also incorporating ELD strategies in order to help students understand their classes. One of the two teachers who is teaching designated ELD is currently in a professional development setting with LACOE to further improve her knowledge on ELD strategies.

2.5 There were substantive differences due to the low amount of students with an IEP. Due to the low amount of students, the number of services that we had anticipated spending on was less. This year, we spent about \$40,000 less than what we had anticipated spending.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2.1 Estimated: \$452,019.00 Actual: \$ 435,257.81 Difference: -\$16,762

2.2 Estimated: \$15,616 Actual: \$13,500 Difference: -\$2,116

2.3 Estimated: \$267,900.00 Actual: \$252,272.40 Difference: -\$15,628

2.4 Estimated: \$93,812 Actual: \$93,519 Difference: -\$293

2.5 Estimated: \$163,176 Actual: \$123,211.66 Difference: -\$39,964.34

An explanation of how effective the specific actions were in making progress toward the goal.

2.1 Magnolia Science Academy 6 has been able to implement its core curriculum, which includes Math, ELA, History, and Science. In addition to our core classes, we were able to round out our curriculum with PE and Life Skills. Lastly, our after-school programs help with any other programs that students want and teachers can provide.

2.2 We will be using data from different sources. We will use the IAB data to analyze how well our programs are working. We will also use formative assessments to help inform our instruction. Lastly, we will use summative assessments, the SBAC, and our MAP tests, to see if we are making progress toward our goal. The only summative information that is available for us now is our map testing, which is located at this link: https://docs.google.com/spreadsheets/d/1wSdSo41hthY0005OW71j-k-xmV4O8az0sQPs5G4_MuA/edit#gid=1514245097

2.3 Most of our monies spent in Goal 2 action 3 were spent on personnel and in educational programs. For teachers and staff, we needed to make sure that we had enough staff members to help out with MTSS. With our current staff, we were able to have extra help in our classes with teacher aides. Every grade level had a teacher's aide that helped out with the core classes.

2.4 This year, to meet the needs of our ELD students, we were able to have two credentialed teachers in the designated ELD class. At the end of the school year, the ELPAC test is administered to these students. This year, we were able to see 5 students, out of 19 students score an overall 4 on the test (the highest score). This is nearly 26% of our students who are in the ELD class. We are in the process of reclassifying these students, pending parent approval.

2.5 For our SPED services, we were able to have annual meetings and tri-annual meetings with all of our students who had an IEP, on time. We were able to provide the necessary services that each IEP specified, which included accommodations like speech, extra time, APE, and more.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

2.1 Magnolia Science Academy will keep its after-school program the same for now. We would like to incorporate our parents to volunteer for after-school clubs in order to further enhance our after-school programs.

2.2 Next year, we are going to do the same types of PD's. However, we are also going to incorporate two major PD's throughout the year. The two PD's that we will have implement is MTSS (Multi tiered support system) for teachers who can help with motivating kids or doing intervention with students. We also will have another PD from Kagan Learning Strategies. This is a well-known company that helps give teachers tools to engage students in their studies.

2.3 Next year, we are going to do the same types of PD's. However, we are also going to incorporate two major PD's throughout the year. The two PD's that we will have implement is MTSS (Multi tiered support system) for teachers who can help with motivating kids or doing

intervention with students. We also will have another PD from Kagan Learning Strategies. This is a well-known company that helps give teachers tools to engage students in their studies. We will also have an intervention with our classes throughout the year as well, but we will modify it so that everyone has enrichment on Wednesdays, our short days.

2.4 We would like to continue doing what we are doing this year, for next year. Currently, the ELD class is structured in a way where the classes have a good teacher-to-student ratio, of 10:1.

2.5 Next year, we plan on keeping the same program that we have this year. However, our SPED teacher will drop from full-time to part-time. This is due to the low amount of students who have an IEP therefore we believe that we are able to start and finish the year with a part-time RSP teacher.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School’s vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 2%	2021-22: (As of 5/13/22) 1%			2023-24: 10%
Percentage of students in the current graduating class who	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 95%	2021-22: (As of 5/13/22) 96%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college-related activities.</p> <p>Expenditures associated with this action include the following: college/career-related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds:N/A</p>		Yes

Action #	Title	Description	Total Funds	Contributing
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math courses and clubs. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM-focused project, experiment, model, or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, using problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited</p>	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Digital literacy and citizenship program fees (Pear Deck): Resource: Title IV, Part A; Amount: \$2,000 		
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals, or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p>	\$120,105.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> Physical activity, fitness, and equipment expenses: Resource: Title IV, Part A; Amount: \$1,000 		
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide a well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline, and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after-school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support a well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Afterschool/Club (Arts and music) expenses: Resource: Title IV, Part A; Amount: \$2,000 	\$3,000.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

3.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.2 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.3 There was little substantive difference. In this action due to us only using the money for a service called PearDeck. This is similar to Google Slides but is more interactive. This program helps our students become more engaged with lessons that teachers give to their students.

3.4 There was no substantive difference between this goal and action.

3.5 There was a substantive change in the estimated and actual cost to this action. This is to help with the cost of materials for miscellaneous clubs, STEAM team, and art supplies throughout the year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

3.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.2 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.3 Estimated: \$2000

Actual: \$492

Difference: -\$1,508

3.4 Estimated: \$120,105

Actual: \$119,656

Difference: -\$449

3.5 Estimated: \$3,000

Actual: \$3,300

Difference: \$300

An explanation of how effective the specific actions were in making progress toward the goal.

3.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.2 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.3 Throughout the year, the PearDeck program has given students a way to answer questions anonymously. This helped our classes to have higher levels of engagement and learning.

3.4 Mr. Theis works closely with our PE teacher in order to make sure that our physical education department is promoting a healthy lifestyle to all our students. This year, we also included the SEL curriculum and the 3 R's curriculum into the PE curriculum to round out the program.

3.5 In order to have the materials for our miscellaneous clubs/STEAM team, and art, we needed to purchase supplies that go along with those clubs/teams.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

3.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.2 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

3.3 We plan to use PearDeck next year, and any other program that we find and vet, that will help with learning.

3.4 We plan to continue working on our curriculum as we did this year. However, we are also looking into another SEL program to supplement our current SEL program.

3.5 In order for us to have curriculum that is well-rounded, we needed to invest money in the different activities that have that is beyond our regular school curriculum. The after-school clubs, which includes STEAM team, Art, and any other club which may help round out our curriculum.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3	2021-22: (As of 5/13/22) 7			2023-24: 4

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities, and budgets, UCP, parent involvement policy, and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop-off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy.</p>	\$114,369.00	

Action #	Title	Description	Total Funds	Contributing
		<p>Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office Manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends for home visits: Resource: Title I, Part A; Amount: \$2,000 		
4.3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis, or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention, and prevention strategies and protocols that are clear,</p>	\$9,906.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify the greatest progress, and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$1,000 		
4.4	Annual stakeholder surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school	\$1,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Panorama Education survey fees: Resource: Title I, Part A; Amount: \$1,000 		
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,500.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

4.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

4.2 Magnolia Science Academy 6 had a small substantive change for these funds. We used up all of our budget through hiring personnel, home visits, and having a parent college. These actions are to help build relationships with our families and our students.

4.3 There was a substantive difference between the budget and the actual budget. We mainly used these funds for our uniforms and to support our students for our homeless students.

4.4 There was no substantive difference with our estimated and actual budget for this action plan.

4.5 There was a substantive difference for this action/goal. We spent around \$8,000 more than we had budgeted on marketing.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

4.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

4.2 Budgeted: \$114,369.00 Actual: \$ 125,710.14 Difference: \$11,341

4.3 Budgeted: \$9,906 Actual: \$5,196 Difference: -\$4,710

4.4 Budgeted: \$1,000 Actual: \$1,000 Difference: \$0

4.5 Budgeted: \$2,500 Actual: \$10,500 Difference: \$8,000

An explanation of how effective the specific actions were in making progress toward the goal.

4.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

4.2 This year, we were able to do a lot of home visits, more than any other year, in order to build relationships with our students/families. In addition to this, even though we were in a pandemic, we were still able to host a Parent Academy for our families. Lastly, we have one of our personnel members who is like the parent liaison. This person bridges the gaps with our school.

4.3 In order to help students have basic materials, we provided our students with uniforms free of cost. We also wanted to make sure that we support our students who are homeless, additionally, by providing other basic necessities. We were able to provide backpacks and hygiene bags for many of our students.

4.4 In order to gauge how we are doing throughout the school year, we use surveys. These surveys are provided by Panorama survey multiple times throughout the year to gauge how our educational partners feel about our school. The survey is taken by our parents, students, and our staff members. At the end of each survey window, the survey is analyzed by the Home Office team and the school leadership team to see what we can do to improve and to see what we are doing that is going well.

4.5 In order to hit our enrollment target, we needed to spend our money on marketing items. These items include things like postcards, banners, any promotional items, and subscriptions that were needed for marketing. We need to keep marketing in order to make an impact on the community and its' surrounding areas to be the middle school of choice.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

4.1 Magnolia Science Academy 6 did not budget/spend any money on this item as either item doesn't apply to our school (6-8), or the expenditures were coded differently.

4.2 We plan to utilize the money the same way that we did this year. We hope that we are continuously able to build relationships with our families and that we need to spend more money in this category to strengthen the bond between our families and the school.

4.3 Since we moved from last year to this year, our enrollment dropped. Due to a lower number of students, we did not need to buy as many uniforms. We hope that we can improve our enrollment so that we can spend all of the budgeted amounts for MTSS, PBIS, and SEL support. This includes things other than uniforms like prizes, raffles, and any other way to positively impact our culture at our school.

4.4 We plan on using the Panorama survey services for the upcoming year to continue our analyzation with how we are doing with school academics, behavior, culture and anything else related to school.

4.5 For the upcoming school year, we plan on investing a lot of money in marketing. Since we are moving, yet again, we need to focus on getting our name out in the community. We have been brainstorming about what we can do. Some of the things that we plan on doing are: getting postcards, tear away flyers, banners, sandwich boards, magnets, flags, community outreach events...etc. We hope that this can draw more attention to our school.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.
 A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will

challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds

and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have

parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered

include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS

SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school

improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these

actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL

students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with

valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy 7	Meagan Wittek Principal	mwittek@magnoliapublicschools.org (818) 886-0585

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy 7, is a classroom-based charter school serving grades TK-5 with a curriculum emphasis on science, technology, engineering, arts and math (STEAM). Originally founded in 2009, MSA-7’s mission is to provide a college motivating educational program emphasizing STEAM in a safe environment that cultivates respect for self and others.

MSA-7 currently has 292 students in grades TK-5, and mainly draws enrollment from Northridge, Reseda, CA and neighboring communities. The neighborhoods that MSA-7 serves are heavily immigrant with a language other than English spoken at home. A high concentration of the families MSA-7 serves face economic challenges. MSA-7 has a diverse enrollment, including 67.4% Hispanic/Latino, 16% White, 76.3% Socioeconomically Disadvantaged, 11.6% Special Education, and 32.5% English Learner population.

MPS strives to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-7 is supplemented by tutoring, after-school programs, and school-to-out of school resources links.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

MSA-7 data manager, administration team, survey results and annual site visit auditors from LAUSD provided data and information available.

Due to school closures and pauses on state testing enforced in response to the COVID-10 Pandemic, there is no updated California Dashboard data. The data below is from the most recent Dashboard data available and identified areas of strength:

- Suspension Indicator on the California Dashboard is at a blue or very low rate and continues to maintain this measure
- English Language Progress Indicator on the California Dashboard is at a blue or very high level and continues to maintain this measure
- English Language Arts indicator on the California Dashboard is orange and all students made improvement from the spring of 2018 to fall of 2018.
- Mathematics indicators on the California Dashboard is also orange, LAUSD Site Visitors (Charter School Department Auditors) shared the comparison table of similar schools and according to it MSA-7 is higher than all shared (neighborhood) similar schools in ELA and MATH according to the 2018 SBAC results.

In terms of organizational, management, and programs area, LAUSD Charter School Department Site visitors gave MSA-7 a score of 4 and a 3 for Student Achievement and Educational Performance.

Some additional successes our school accomplished this year include:

- 100% of our students had access to all curricular and technology items needed to access their academic program during distance learning and hybrid learning
- 100% of our students have created and/or demonstrated a STEAM focused project this year as well as completed a Computer/Technology class.
- Maintained an ADA rate above 95%, with it most recently as high as 97% and a chronic absenteeism rate of 7.8%
- Stakeholder approval rates of 81% for students, 99% for families, and 97% for staff

MSA-7 seeks to continually develop professional learning opportunities for all stakeholders in the areas of academic and socioemotional development. Potential trainings include development in growth mindset, culturally responsive teaching, trauma informed instruction, PBIS, addressing learning loss, and more. MSA-7 continues to be proud of their efforts to develop the capacity of special populations such as English Language Learners and SPED students. Continual support and compliance is provided to the staff in the form of professional learning opportunities, grade level meetings, webinars, and other trainings. In the classroom, students are introduced to all components of common core education model.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

MSA-7 data manager, administration team, survey results and annual site visit auditors from LAUSD provided data and information available.

Due to school closures and pauses on state testing enforced in response to the COVID-10 Pandemic, there is no updated California Dashboard data. The data below is from the most recent Dashboard data available and identified areas of need in order to close the achievement gap:

- Mathematics indicator on the California Dashboard is at orange or low for all student groups. Socioeconomically disadvantaged, Latino and EL students are on the color indicator of red.
- English Language Arts indicator on the California Dashboard is at orange or low for all students. Again, Socioeconomically disadvantaged, Latino and EL students are on the color indicator of red.

We know that all of our students are going to need additional support and interventions as we return to school next year to mitigate the learning loss caused by the school closures. However, looking at data including MAP assessments, benchmarks, reading levels, and classroom grades, we know that our students identified as English Language Learners, Socioeconomically disadvantaged students, SPED students and Latino students present a higher level of need. Some plans to address these needs include:

- Summer Learning Academy
- Saturday Learning Academy
- Hiring an intervention teacher to support students and teachers in ELA and Math
- Adopting the supplemental program, IXL for data monitoring and basic skills practice
- Adopting a benchmark program for TK-2nd
- Making a part-time ELD paraprofessional full time
- Making a part-time SPED teacher full time
- Extending the school year by 5 days
- Partnering with an outside tutoring agency to provide extra support to students and parents
- Providing parent workshops in SEL and academics

Some additional identified areas of need include:

- Per student and staff surveys, there is a need more enrichment programs such as sports and art
- Per staff and parent surveys, facility and playground upgrades are needed
- Providing students with the opportunity to participate in accelerated/advanced math programs
- More informal observations and coaching sessions for staff as conducted by administration

MSA-7 seeks to continually develop professional learning opportunities in both the areas of ELA and Mathematics and to further understand the needs of the teaching community and identify the factors that will empower teachers to develop their craft in the community of service. Strategies include providing home office orientation, site based orientation that addresses school and individual needs, mentorship program

with a seasoned staff members on site, and other factors that are currently being developed to support teachers as they transition themselves and students back to campus.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- An emphasis on adopting and implementing instructional, curricular, and technology items and programs that will continue to deliver a standards-based education to all students but with an emphasis on addressing learning loss and gaps in student learning. (Goal 1, Action 2)
- Continuing to provide clean and safe facilities that support learning, with an additional emphasis on health and safety as students return to campus, including the hiring of an additional custodian and CNA as well as prioritizing facility and playground upgrades and improvements. (Goal 1, Action 2)
- Prioritizing MTSS Academic support through enrichment, intervention, and student support by hiring an ELA & Math Intervention Teacher and expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs (Goal 2, Action 3)
- Increasing the level of support for students with IEPs and the school's SPED program including the hiring of another full time RSP teacher. (Goal 2, Action 5)
- The need to continue to improve our designated/integrated English Learner services by adding a full-time ELD paraprofessional to support EL students. (Goal 2, Action 4)
- Expanding STEAM and GATE programs for students to participate in. (Goal 3, Action 2)
- Expanding our PE & Health and sports activity programs for students based on stakeholder feedback. (Goal 3, Action 4)
- Creating additional programs and activities that support a comprehensive educational program for all students we serve. (Goal 3, Action 5)
- Hiring a PACE Coordinator to better assist us with building partnerships with families for student outcomes. (Goal 4, Action 2)
- Focusing on MTSS in relation to PBIS and SEL support for students by providing counseling and positive behavior intervention support services to our students. (Goal 4, Action 3)

Other highlights include:

- Improving internet infrastructure to support teacher and student technology needs
- Adopting a new TK-2nd benchmark program to collect accurate data
- Partnering with an outside tutoring service to provide extra support to students
- Extending the school year 5 additional days
- Providing staff with necessary professional development opportunities in the areas of academics, behavior, and SEL, including training in Culturally Responsive Teaching and Implicit Bias

- Playground and facility improvements and upgrades
- Increased opportunities for parent workshops in academics and mental health support

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-7 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provide valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include ten PTF/PAC meetings, four SSC meetings, three ELAC meetings, several parent activities/events, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 30 virtual home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

School Site Council & ELAC Feedback:

11/17/20

- Parents like to see Saturday school to support student learning and setbacks
- Parents are excited about the new MyOn reading resource to help students get access to free books online to encourage reading growth

2/24/21

- Parents are thankful and grateful for the options of how their students will learn and that they are not feeling forced in any way.

5/14/21 - discussion on ELOG funds

- Parents would like the additional funding to go towards additional support and aides for the students.
- Parents are grateful for the hard work and support of the staff and teachers

- Parents would like if possible funds to be used for campus maintenance
- Parents would like to increase parent academy funding and resources

Stakeholder Survey Feedback Summary:

- Strengths/Successes

1. Students approval rating for Safety increased 12 points since last year
2. Family approval rating for Climate of Support for Academic Learning is 100%, up 2 points since last year
3. Staff approval rating for both Safety and Sense of Belonging (School Connectedness) increased by 7 points

- Highest Approval Rates

The topics with the highest approval rates were Climate of Support for Academic Learning and Knowledge and Fairness of Discipline, Rules and Norms by all three stakeholder groups. We were proud to see this since we worked hard through our LACOE PBIS program to improve our Discipline systems based on lower approval ratings in this area from last year's responses. We were also relieved to see that all stakeholders had high approval ratings for Climate of Support, knowing what a challenging year this was for all. We are glad to see that they felt supported throughout the school year.

- Most Proud

We are most proud that all our stakeholders approve positively of our Climate of Support for Academic Learning. We take great pride in the amount of academic and SEL support that is given to all of our students and have worked hard during this unprecedented year to transition our programs to an online setting. We were also very proud to see the large increase in approval ratings from students regarding Safety and from staff for School Connectedness.

- Maintain or Build Upon

We will continue to build upon this climate of support by having meaningful reflection conversations with staff in order to get a clear and true understanding of how we can best support our students with learning loss and their transition back to in person learning. We'd like to maintain the feeling of connectedness and belonging that all of our stakeholder groups feel.

- Identified Needs

1. Climate of Support for Academic Learning-

Although the student approval rating for this topic increased by 2 points, it was the lowest of the three stakeholder groups (80%). We were pleased to see an increase but feel the rating would have been higher if we had been in person this year and able to provide the full level of support our students are used to. We also feel they struggled with understanding what some of the questions were asking.

2. Knowledge and Fairness of Discipline, Rules and Norms-

Although this was an area of concern for the free responses comments, the approval ratings were still rather high for all stakeholder groups for this topic. There was even an increase for all stakeholder groups this year. There was a 4 point increase for students , a 1 point increase for families, and a 2 point increase for staff. We are also aware that this area looked very different this year in the Distance Learning setting.

3. Safety-

Last year, the low ratings for Safety by students and staff was alarming for us and something we wanted to prioritize this school year. With the school closures due to COVID-19, it became even more of a priority to ensure all health and safety guidelines were in place for all stakeholders. We were appreciative of the increase we saw in approval ratings for Safety by all except families, which decreased by 2 points. We do think that once they return and see the protocols that have been put into place, this will change. Students increased their approval rating for Safety by 12 points and staff by 7 points.

4. Sense of Belonging (School Connectedness)-

Although we saw a rather large increase in approval ratings for this topic this year, it was still our second lowest area with students, 77% and staff, 96%. We were very grateful to see a 7 point increase in this area from our staff as we were worried they may feel even more disconnected in this Distance Learning setting. Our team worked hard all year to engage and connect with one another, our students, families, and each other and I believe these rates attest to that. We're not surprised that the students were the lowest of the three groups since they have been apart from their school community for over a year.

SELPA Feedback:

Our SELPA recommended that we include an action in our LCAP specific to students with disabilities to describe how academic and social-emotional supports would be provided. They also recommended that we include the students with disabilities group in our LCAP metrics and provide specific data. Based on feedback from the LAUSD SELPA, we included a new action in our LCAP specific to students with disabilities. See Goal 2: Action 5. This action summarizes support and services for students with disabilities.

Next Steps Based on Survey Feedback:

Although it is important to acknowledge and take all suggestions into consideration, we have chosen five that we would like to put the most focus and attention into. These five were selected due to the number of times they were mentioned in the surveys, them being a concern for us as well, and our ability to actually implement change. For example, a student requested we make the playground floor into a large trampoline, we know this is not a possibility. Below are the five we have selected and the steps we will take to address them.

1. Bullying - work with PBIS team, LACOE, and Dr. Lopez to continue to develop systems and programs for reporting bullying and helping students identify acts of bullying vs. peer conflict
2. Playground and facility upgrades - a lot of progress has already been made in this area this school year such as painting and repairing the playground equipment and benches, painting the school cafeteria, and replacing the office and computer lab doors. Next is to gather quotes and start work for replacing classroom doors and windows as needed, working with parents to raise funds for playground shading and upgrade the internet system. In addition to facility improvement projects, we will continue to hold conversations with all required stakeholders on possible growth opportunities for our campus
3. Lack of resources for non-IEP students - we will look into the possibility of hiring more staff to focus on intervention and enrichment for general education students including plans for hiring an instructional coach
4. Drop-off procedures - we have revised our procedures for reopening and return to campus and will work with Valet Committee to revise long term plans based on feedback of these temporary changes
5. More enrichment programs needed (art, science, sports) - continue to build enrichment programs and create opportunities for students to participate in (math/science olympiads, spelling bees, etc.); we will work with the PE teacher to create sports focused clubs, and work with art coordinator to develop more VAPA clubs/activities

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- An emphasis on adopting and implementing instructional, curricular, and technology items and programs that will continue to deliver a standards-based education to all students but with an emphasis on addressing learning loss and gaps in student learning. (Goal 1, Action 2)
- Continuing to provide clean and safe facilities that support learning, with an additional emphasis on health and safety as students return to campus, including the hiring of an additional custodian and CNA as well as prioritizing facility and playground upgrades and improvements. (Goal 1, Action 2)
- Prioritizing MTSS Academic support through enrichment, intervention, and student support by hiring an ELA & Math Intervention Teacher and expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs (Goal 2, Action 3)
- The need to continue to improve our designated/integrated English Learner services by adding a full-time ELD paraprofessional to support EL students. (Goal 2, Action 4)
- Expanding STEAM and GATE programs for students to participate in. (Goal 3, Action 2)
- Expanding our PE & Health and sports activity programs for students based on stakeholder feedback. (Goal 3, Action 4)
- Creating additional programs and activities that support a comprehensive educational program for all students we serve. (Goal 3, Action 5)
- Focusing on MTSS in relation to PBIS and SEL support for students by providing counseling and positive behavior intervention support services to our students. (Goal 4, Action 3)

Other areas include:

- Improving internet infrastructure to support teacher and student technology needs
- Partnering with an outside tutoring service to provide extra support to students
- Extending the school year 5 additional days
- Playground and facility improvements and upgrades
- Increased opportunities for parent workshops in academics, attendance and mental health support

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 1			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$19,500.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$209,804.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$582,321.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$11,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$495,371.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 1 Action 1:

Planned Actions - teacher credentialing expenses, recruitment expenses (sign-in bonus, live scan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.

Actual Implementation of Actions - All planned actions were implemented except for performance pay. All students, TK-5th received quality instruction from fully credentialed teachers, with the exception of one who was working on an emergency CLAD. Ten new staff members were hired this school year resulting in a need to complete a live scan and be reimbursed for the fees. In addition to the planned actions, teacher retention bonuses were added to this goal and action causing the discrepancy in planned vs. actual expenditures

Goal 1 Action 2:

Planned Actions - textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.

Actual Implementation of Actions - All planned actions were implemented. 100% of all enrolled students had access to their own copies of standards-aligned instructional materials for use at school and at home. Our school has more than a one-to-one ratio for technology devices to students. We share an IT Manager with another school site so he works at each campus part-time.

Goal 1 Action 3:

Planned Actions - facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)

Actual Implementation of Actions - All planned actions were implemented. Our current facilities are considered to be in "good repair". Multiple upgrade and maintenance projects were done or are in the process of being done including, new doors installed, playground shading installed, upgraded HVAC filtration system, repaired fencing, etc. Custodial and health and safety needs were a priority this school year to

help try and limit the spread of the COVID-19 virus upon our return to in-person learning, therefore more supplies were purchased and an additional full time custodian was hired.

Goal 1 Action 4:

Planned Actions - student meals, water, and refreshments.

Actual Implementation of Actions - Under the COVID-19 health and safety guidance all water fountains had to be put out of use therefore we provided a water dispenser and cups with monthly service in all classrooms.

Goal 1 Action 5:

Planned Actions - Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)

Actual Implementation of Actions - All planned actions were implemented. Support was provided accordingly by Home Office staff, our authorizer, and legal council. Other systems and programs were used accordingly.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1 Action 1:

Planned Expenditures: \$19,500.00

Actual Expenditures: \$161,000.00

The large discrepancy between planned and actual expenditures for 1.1 is due to the fact that our CMO decided to prioritize staff retention by allocating a portion of the ESSER funds to give retention bonuses to all eligible staff members in June. ESSER funds were not included in the LCAP since they were provided to the school later as a one time stimulus fund.

Goal 1 Action 2:

Planned Expenditures: \$209,804.00

Actual Expenditures: \$201,788.81

For the most part, the planned expenditures and the actual expenditures are aligned for 1.2. The \$8,000 difference is attributed to the fact that we ended up hiring an IT manager with less experience than our previous one so his salary offer was less than what was originally budgeted.

Goal 1 Action 3:

Planned Expenditures: \$582,321.00

Actual Expenditures: \$612,824.75

The planned expenditures for 1.3 were about \$30,000 less than the actual expenditures. This discrepancy is attributed to two things. The first being that there was an increase in Workers Comp claims to Charter Safe this year due to a few incidents that occurred with a student who

was exhibiting unsafe behaviors. The second being more custodial supplies and deep cleaning services needed in order to maintain a healthy and safe campus during our return to in-person learning and to combat the spread of the COVID-19 virus.

Goal 1 Action 4:

Planned Expenditures: \$11,000.00

Actual Expenditures: \$11,000.00

There are no discrepancies for 1.4 between planned and actual expenditures. All planned actions were implemented and allocated funds were used. Funds were used to cover the expenses of student meals, water, and refreshments.

Goal 1 Action 5:

Planned Expenditures: \$495,371.00

Actual Expenditures: \$ 436,367.48

The planned expenditures for 1.5 were about \$59,000 more than the actual expenditures. This discrepancy is attributed to more money being budgeted for various fees and expenses (Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)) than what ended up actually being needed and used.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 1: This action was effective in making progress toward the goal. We were able to hire all necessary staff and teachers and support them with any hiring fees. Being able to provide retention bonuses to eligible staff members helped increase our staff retention rate for next year. Only two teachers are leaving due to moving out of state or country. One aide is not returning due to wanting to complete her credentialing program.

Action 2: This action was effective in making progress toward the goal. We were able to provide all students with the instructional materials and technology needed to access their curriculum and learning. Thanks to the additional funding provided to schools, more technology was purchased allowing for at least a one-to-one student to device ratio and chromebook carts in all classrooms TK-5th. We also hired our first IT manager, splitting the position with another school. It has been very helpful to have an IT Manager who can assist with the maintenance of all devices, internet reliability, testing support, etc.

Action 3: This action was effective in making progress toward the goal. We were able to put protocols in place and purchase all necessary items to ensure students and staff had access to a safe, secure, healthy, and high-quality learning and working environment. This funding allowed us to add an additional custodian as well as keep a school nurse through a third party vendor to help us better reach this goal.

Action 4: This action was effective in making progress toward the goal. Under the COVID-19 health and safety guidance all water fountains had to be put out of use therefore we provided a water dispenser and cups with monthly service in all classrooms. Having the funding to be able to do this allowed students and staff to attend school in a safe, healthy and comfortable school setting.

Action 5: This action was effective in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After taking the time to reflect upon goal #1 and its metrics, desired outcomes, and actions, we have determined that most practices will remain the same for the 2022-23 school year wherever applicable and possible. For example, if circumstances allow, we may offer the retention bonuses to staff again since it did help secure high quality educators for the upcoming year. We will continue to prioritize budgeting and decision making to provide our students with standards-aligned curriculum and access to all instructional materials and technology required for equitable learning. Maintaining our facility and ensuring the health and safety of our students and staff will also remain a priority as we ensure all necessary items are in stock and any needed repairs are complete. The biggest change to next year's planning for Goal #1 is the hiring of a full time security guard through a third party vendor.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 90%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards.	\$1,196,490.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p>	\$28,241.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Tuition reimbursement for professional development: Resource: Title II Amount: \$11,741 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Standards Plus, Quizizz, BrainPOP, NextGen Math, Spelling City, Seesaw, Cambium Learning, Learning A-Z, Alexandria Library, Mystery Science and myON.)</p>	\$506,704.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Certificated Admins: Resource: Title I; Amount: \$12,700 • Instructional Aide salary and benefits: Resource: Title I; Amount: \$30,732 • Benefits: Resource: Title I; Amount: \$17,798 • Educational Software: Resource: Title I; Amount: \$16,700 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits.</p>	\$103,411.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The following expenditures will be funded by federal Title funds: N/A		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$503,484.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2 Action 1:

Planned Actions - teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.

Actual Implementation of Actions - All planned actions were implemented. 100% of programs and services outlined in the charter petition were provided to students dependent on need and interest. State standards and adopted grade level curriculum was used to deliver high quality instruction.

Goal 2 Action 2:

Planned Actions - professional development, tuition reimbursement, and TeachBoost software fees.

Actual Implementation of Actions - All planned actions were implemented. A robust professional development program was delivered to teachers and staff on a variety of topics including PLCs, SEL, PBIS, trauma informed instruction, and more. Four staff members participated in the tuition reimbursement program to help further their professional growth. TeachBoost software program was used to document observation and coaching cycles as well as goal setting and summative assessments for all staff. 100% of our teachers received a formal observation coaching cycle but only 61% of our informal observation goal was achieved. We completed 17 Summative Assessments, 20 Formal Observations, 26 Informal Observations, and 24 Peer Observations.

Goal 2 Action 3:

Planned Actions - Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Standards Plus, Quizizz, BrainPOP, NextGen Math, Spelling City, Seesaw, Cambium Learning, Learning A-Z, Alexandria Library, Mystery Science and myON.)

Actual Implementation of Actions - All planned actions were implemented except for paying for and using Illuminate DnA; it was decided by the CMO and school sites not to continue with this service since other programs we use offer the same things. All students grade 1st-5th completed three rounds of NWEA MAP testing (Fall, Winter and Spring)

Goal 2 Action 4:

Planned Actions - EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits.

Actual Implementation of Actions - All planned actions were implemented. ELD instruction is delivered in two models, integrated in the classroom by the teacher and designated by the ELD coordinator and aides in small groups. 89 students enrolled for the 2021-22 were classified as EL students with a breakdown of-Level 4: 8.51%, Level 3: 43.61%, Level 3: 34.04%, Level 1: 13.82%. The students just finished taking the 2022 ELPAC so these levels may change. 12 students qualified for reclassification.

Goal 2 Action 5:

Planned Actions - SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, outsourced SPED services fees, and SPED instructional materials and technology.

Actual Implementation of Actions - All planned actions were implemented. Students with disabilities receive services and supports as described in their IEPs based on their needs. Services include Resource, Speech, Occupational Therapy, and counseling and are provided either by the SPED coordinator, RSP teachers, SPED aides, school psychologist or an outside service provide. 40 students enrolled for the 2021-22 school year have an IEP and receive services.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 Action 1:

Planned Expenditures: \$1,196,490.00

Actual Expenditures: \$1,275,504.32

The planned expenditures for 2.1 were about \$79,000 less than the actual expenditures. This discrepancy is attributed to an unusual increase in our need for substitute teachers this school year. This was due to not being able to fill two teacher positions, one until October 2021 and one until February 2022 resulting in the need of longterm substitutes. Additionally, there was a higher need for day to day substitutes to meet the needs of staff members calling out in compliance with COVID-19 health and safety protocols.

Goal 2 Action 2:

Planned Expenditures: \$28,241.00

Actual Expenditures: \$28,961.00

There are no significant discrepancies for 2.2 between planned and actual expenditures. All planned actions were implemented and allocated funds were used. Funds were used to cover the expenses of professional development, tuition reimbursement, and TeachBoost software fees.

Goal 2 Action 3:

Planned Expenditures: \$506,704.00

Actual Expenditures: \$512,783.19

The planned expenditures for 2.3 were about \$6,000 less than the actual expenditures. This discrepancy is attributed to two things. The first being that more teachers opted to provide a second after school club than was originally planned and budgeted for. The second being the addition of the program Quizziz which teachers piloted and then decided they wanted to use regularly in their classes so subscriptions were purchased.

Goal 2 Action 4:

Planned Expenditures: \$103,411.00

Actual Expenditures: \$102,974.06

There are no significant discrepancies for 2.4 between planned and actual expenditures. All planned actions were implemented and allocated funds were used. Funds were used to cover the expenses of our EL coordinator salary and benefits, EL coordinator stipend, and EL instructional aide salary and benefits.

Goal 2 Action 5:

Planned Expenditures: \$503,484.00

Actual Expenditures: \$507,517.34

The planned expenditures for 2.5 were about \$4,000 less than the actual expenditures. This discrepancy is attributed to more outsourced SPED services needed while we tried to fill our School Psychologist position vacancy.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 1: This action was effective in making progress toward the goal. Teachers and principal are paid a competitive rate to ensure a high-quality core curricular and instructional program is provided to the students. When a teaching position is not able to be filled by an effective teacher or our teachers call out, then we are required to call in a substitute to cover for that teacher which we did this year.

Action 2: This action was effective in making progress toward the goal. In order to ensure that we are doing our best as a school in providing students with access to a high-quality academic program and that they are making progress on the CCSS, then we need to continue to develop and grow as educators. This can be done by providing quality professional development to our staff which we did. Another way we supported this growth was by offering and providing tuition reimbursement to staff members who want to continue their education or need to complete their induction programs. Lastly, high-quality instruction and professional growth needs to be monitored and this can be done through observations and evaluations using the Teach Boost system.

Action 3: This action was effective in making progress toward the goal. Deans, coordinators, intervention staff and instructional aides are paid a competitive rate to ensure that high-quality support services and programs aligned to the core curricular and instructional program are provided to the students. Additional programs such as after school clubs and tutoring, Saturday school, and summer school, are provided to students to help them further access the CCSS and ensure they are pursuing academic excellence as well as working toward being college and career ready. In addition to the adults on campus working with the students and the provided extra curricular activities, we use funds to purchase several different supplemental digital programs to support student learning in a fun and engaging way as well as to assess student learning to help drive instruction.

Action 4: This action was effective in making progress toward the goal. The EL Coordinator and aides are paid a competitive rate to ensure that high-quality support services and programs aligned to the core curricular and instructional program are provided to the students. Being able to have these positions at our school allows for the 89 EL students we have enrolled to successfully access the high-quality core curriculum program we offer. By providing designated and integrated ELD, students can make more progress on the CCSS and pursue academic excellence.

Action 5: This action was effective in making progress toward the goal. The SPED Coordinator, RSP teachers, SPED aides, and school psychologist are paid a competitive rate to ensure that high-quality support services and programs aligned to the core curricular and instructional program are provided to the students. Being able to have these positions at our school allows for the 40 SPED students we have enrolled to successfully access the high-quality core curriculum program we offer. By providing push-in and pull-out support, students can make more progress on the CCSS and pursue academic excellence. This support is also provided by service providers from an outside agency.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After taking the time to reflect upon goal #2 and its metrics, desired outcomes, and actions, we have determined that most practices will remain the same for the 2022-23 school year wherever applicable and possible. For example, we have planned and budgeted for keeping all positions open so staff can continue to deliver the same high-quality level of instruction and support to students. We will continue to prioritize budgeting and decision making to provide our staff with quality professional development that will contribute to instruction and well-being of our students. For the 22-23 school year we will be participating in a Guided Math PD, Trauma and Crisis training, MTSS institute, PBIS year long training and more. We will also have 7 staff members participating in the tuition reimbursement program as they pursue higher education, teaching credentials and induction programs. We will continue to observe, coach and evaluate our staff but do need to increase the number of informal observations and peer observations conducted.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School’s vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 0%	2021-22: (As of 5/13/22) 3%			2023-24: 5%
Percentage of students in the current graduating class who	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 98%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 97%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college related activities.</p> <p>Expenditures associated with this action include the following: college/career related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes

Action #	Title	Description	Total Funds	Contributing
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software - Resource: Title I; Amount: \$1,200 	\$1,200.00	Yes
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited</p>	\$76,906.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$92,934.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$199,759.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 3 Action 1:

Planned Actions - college/career related materials and activities.

Actual Implementation of Actions - We are an elementary school so no funds were allocated to this action. We do promote a college and career readiness school culture but no financial resources were required or prioritized this year.

Goal 3 Action 2:

Planned Actions - supplemental science program fees.

Actual Implementation of Actions - All planned actions were implemented. 100% of our students TK-5th created or demonstrated a STEAM focused project this year and the supplemental program Mystery Science assisted with the instruction to help teachers and students accomplish this goal.

Goal 3 Action 3:

Planned Actions - computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.

Actual Implementation of Actions - All planned actions were implemented. 100% of our students TK-5th took a computer/technology class as part of their weekly schedule and instruction.

Goal 3 Action 4:

Planned Actions - PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.

Actual Implementation of Actions - All planned actions were implemented. 100% of our students TK-5th took a PE class as part of their weekly schedule and instruction.

Goal 3 Action 5:

Planned Actions - teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and after school/club expenses.

Actual Implementation of Actions - All planned actions were implemented. All students, TK-5th participated in a variety of programs to enrich and support their learning. This includes after school tutoring and clubs, GATE program, Intervention program, Independent Study program, math clubs, and a well-rounded instructional program integrating STEAM.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 Action 1:

Planned Expenditures: NONE

Actual Expenditures: NONE

Goal 3 Action 2:

Planned Expenditures: \$1,200.00

Actual Expenditures: \$1,200.00

There are no discrepancies for 3.2 between planned and actual expenditures. All planned actions were implemented and allocated funds were used. Funds were used to cover the cost of the Mystery Science supplemental science program for TK-5th.

Goal 3 Action 3:

Planned Expenditures: \$76,906.00

Actual Expenditures: \$85,997.27

The planned expenditures for 3.3 were about \$9,000 less than the actual expenditures. This discrepancy is attributed to higher salary offer for the computer teacher than what was originally planned and budgeted for due to the fact that the title and responsibilities of Testing Coordinator were added onto her agreement at a later time.

Goal 3 Action 4:

Planned Expenditures: \$92,934.00

Actual Expenditures: \$80,614.04

The planned expenditures for 3.5 were about \$12,000 more than the actual expenditures. This discrepancy is attributed to our PE teacher resigning in March 2022 and we used a long-term substitute to fill the position rather than replacing the teacher this school year. Therefore less funds were used than what was originally planned and budgeted for.

Goal 3 Action 5:

Planned Expenditures: \$199,759.00

Actual Expenditures: \$227,483.00

The planned expenditures for 3.5 were about \$27,000 less than the actual expenditures. This discrepancy is attributed to an additional 5 days being added to the 2021-22 school year and every Wednesday being made a minimum day, therefore resulting in a need for additional time covered by the arc after school program. This additional time had to be paid for which was not part of the original budget.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 1: This action was effective in making progress toward the goal. No funds were allocated to this action because we are an elementary school, TK-5th, but we do promote a college-going culture through college visits, college/career days, and other college related activities. We hold an annual College & Career Week which includes a STEAM focused Career Day. This year students took two college field trips, one to see a performance art CSUN and one to participate in a Science Fair at UCLA. These events and opportunities allow students to see what options and opportunities there are for them.

Action 2: This action was effective in making progress toward the goal. By purchasing this interactive and hands-on science supplemental program, students become more engaged in their science instruction and learning. Having this program assisted us in accomplishing our action of 100% of our students TK-5th creating or demonstrating a STEAM focused project this year. We also had a record 53 students participate in the MPS STEAM Expo this year helping to build that independent, innovative, and creative learning.

Action 3: This action was effective in making progress toward the goal. Part of the actions and metrics for goal #3 is for students to use technology in a transformative way. By having a full time computer teacher, students are able to participate in weekly computer classes that teaches them the technology skills they need to be successful. Students either participate in their computer and technology learning in the computer lab or in their classrooms with the one-to-one devices each room has. Students also have the opportunity to participate in technology based after school clubs such as coding and robotics.

Action 4: This action was effective in making progress toward the goal. All students were able to participate in weekly physical education and health lessons with our full time PE teacher. All lessons and activities are aligned to grade level state physical education standards. The lessons, grades TK-5th, promote the benefits of a physically active lifestyle and help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. All students also participate in daily recess and lunch play time and have sufficient equipment for these activities. 100% of 5th grade students successfully participated in the PFT assessment as well.

Action 5: This action was effective in making progress toward the goal. All students, TK-5th participated in a variety of programs to enrich and support their learning and gave them access to a well-rounded education that supports their readiness for college and the global world. This includes after school tutoring and clubs, GATE program, Intervention program, Independent Study program, math clubs, and a well-rounded instructional program integrating STEAM.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After taking the time to reflect upon goal #3 and its metrics, desired outcomes, and actions, we have determined that most practices will remain the same for the 2022-23 school year wherever applicable and possible. For example, we have planned and budgeted for keeping all positions open that fall under this goal (i.e. Computer Teacher, PE teacher, Intervention Teacher, etc.) so students can continue to have access to a well-rounded instructional program. We will also keep our annual subscription to Mystery Science since students and staff enjoy it and use it so much. This year alone 473 Mystery Science lessons were used and taught to our students. Two items under this goal will be adjusted for next year. One being that even though we are an elementary school, we will allocate some funds to 3.1 to add even more to what we already so for our college and career events and programs and possibly more college field trips. The other thing that will change is we will no longer have an Independent Studies teacher since we won't be offering that program on the same scale as we offered it this year. The teacher will move into a regular classroom position but will continue serving as our GATE Coordinator.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC,		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We</p>	\$139,391.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Professional Services: Resource: Title I, Part A; Amount: \$1,500 		
4.3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and</p>	\$72,992.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$3,000 • Certificated Pupil Support Salaries and Benefits; School Psychologist: Resource: Title IV, Part A ESEA; Amount: \$10,109 		
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how</p>	\$1,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$10,500.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 4 Action 1:

Planned Actions - parent meeting expenses and Document Tracking Services (DTS) fees.

Actual Implementation of Actions - DTS fees paid through Home Office budget

Goal 4 Action 2:

Planned Actions - Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Pitney Bowes expenses, and Office manager/Administrative assistant salaries and benefits.

Actual Implementation of Actions - All planned actions were implemented, however less Home Visits were conducted than our original goal of 20% of our student population. Only 8.3% of our students received a Home Visit this year. This is attributed to teachers not feeling comfortable with participating due to the COVID-19 virus. The virtual Home Visit policy was approved by our Board but our numbers remained low this year due to many other priorities. We also held less parent activities and events than originally planned. We had a goal of 10 but we only held 7.

Goal 4 Action 3:

Planned Actions - Office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.

Actual Implementation of Actions - All planned actions were implemented. Additional SEL PD for staff and SEL programs for students were added throughout the year to address the high level of needs exhibited by students upon their return to in-person learning. All students received one free set of school uniforms at the start of the school year.

Goal 4 Action 4:

Planned Actions - Panorama Education survey fees.

Actual Implementation of Actions - All planned actions were implemented. 52% of families, 97% of students, and 91% of staff members completed the Educational Partner survey in Spring 2022. Our school received an approval rating of 98% by families, 77% by students, and 93% by staff.

Goal 4 Action 5:

Planned Actions - membership fees (CCSA, WASC, etc.), .

Actual Implementation of Actions - All planned actions were implemented. Additional funding was allocated to marketing, branding, outreach, and partnership expenses to assist us with enrollment needs due to students moving out of state, expansion projects and participation in applying for the Community Schools Planning Grant which we received.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 Action 1:

Planned Expenditures:

Actual Expenditures:

Goal 4 Action 2:

Planned Expenditures: \$139,391.00

Actual Expenditures: \$142,946.28

The planned expenditures for 4.2 were about \$3,500 less than the actual expenditures. This discrepancy is attributed to additional funding needing to be allocated to postage expenses (Pitney Bowes). More items were mailed home since in-person meetings and events were limited this year due to COVID-19 health and safety protocols.

Goal 4 Action 3:

Planned Expenditures: \$72,992.00

Actual Expenditures: \$85,455.76

The planned expenditures for 4.3 were about \$12,000 less than the actual expenditures. This discrepancy is attributed to additional SEL PD for staff and SEL programs for students being added throughout the year to address the high level of needs exhibited by students upon their return to in-person learning.

Goal 4 Action 4:

Planned Expenditures: \$1,500.00

Actual Expenditures: \$1,500.00

There are no discrepancies for 4.4 between planned and actual expenditures. All planned actions were implemented and allocated funds were used. Funds were used to cover the expense of the Panorama Survey system to administer the annual educational partner surveys to families, staff and students.

Goal 4 Action 5:

Planned Expenditures: \$10,500.00

Actual Expenditures: \$14,500.00

The planned expenditures for 4.5 were about \$4,000 less than the actual expenditures. This discrepancy is attributed to additional funding being allocated to marketing, branding, outreach, and partnership expenses to assist us with enrollment needs due to students moving out of state, expansion projects and participation in applying for the Community Schools Planning Grant which we received.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 1: This action was effective in making progress toward the goal. Although we are a school that frequently seeks input and guidance for decision making from our families, we did not allocate any funds for this action. We did hold most of the projected parent meetings as explained in our LCAP and we do administered the annual Educational Partner surveys. For the 2021-22 school year we conducted 8 PAC/PTF meetings, 4 ELAC meetings, 2 SSC meetings and held 7 parent participation events and activities. During these meetings, feedback and input was sought for items such as LCAP development, budget development, safety plan development, etc.

Action 2: This action was effective in making progress toward the goal. The steps taken for action 2 helped our educational partners feel a sense of community and connectedness. This includes holding events such as the Community Resource Fair, Back to School Night, Steam Expo, parent/teacher conferences, regular meetings and more. Although many of these events and activities had to be held virtually this year to ensure health and safety, we worked hard to stay connected to our families and community. We even adopted a virtual home visit program to keep up with our unique home visit program. The work we put into this action contributed to the 98% approval rating we received from families on the educational partner survey.

Action 3: This action was effective in making progress toward the goal. Having an office/attendance clerk tremendously helps with our school and parents having meaningful engagement opportunities with each other. We were also able to provide every student with one free school uniform set this year which contributes to their sense of connectedness. Lastly, we were able to provide our staff with multiple PD sessions on the topics of PBIS and SEL, knowing how important it would be this year for us to have strong behavior and social emotional supports in place for our students upon their return to school. We did see an increase in behavior incidents this year but we were also able to provide more mental health and SEL services to our students than ever before. This included an SEL music program, 6 student support groups, one-on-one counseling for over 20 students and family therapy for 6 families.

Action 4: This action was effective in making progress toward the goal. This action is dedicated to giving our educational partners a platform to share their feedback on critical areas of our school functionality to allow us an opportunity to review data, reflect and refine as needed. Having families participate in these annual surveys truly allows for collaboration as we develop our school-wide action plans based on the input received. Parents are able to see their voices out into action. For example, families gave feedback on issues with the school playground so we prioritized upgrades to the playground.

Action 5: This action was effective in making progress toward the goal. This was an area where we as a school community feel there was a lot of growth and progress made. We increased the number of community partnerships this year (9 total partnerships), held multiple community events (5 events), increased our marketing and branding, participated in more enrollment events (4 events), and really used out parent champions/PTF Board members to advocate for our school. By taking all these steps, it helps us all feel more connected through coming together to collaborate and work toward creating a safe and nurturing environment for all of our students.

All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After taking the time to reflect upon goal #4 and its metrics, desired outcomes, and actions, we have determined that most practices will remain the same for the 2022-23 school year wherever applicable and possible. For example, we will continue holding parent meeting and family and community events next year. We will also continue to prioritize the staff positions that help us better connect with and serve our school and community. This includes our office staff, our PACE Coordinator and a new position for next year, a Community School

Coordinator. We will also continue to administer the annual educational partner survey knowing how critical that data and information is to our decision making and planning. Some changes to these actions for next year include prioritizing more SSC meetings, conducting more home visits, and holding more in person events now that it has been determined to be safer for these to occur.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will

challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds

and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have

parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered

include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS

SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school

improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these

actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL

students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with

valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy-Bell	Laura Schlottman Principal	lbschlottman@magnoliapublicschools.org (323) 826-3925

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy-Bell (MSA-Bell) is a classroom-based charter school serving grades 6th-8th with a curriculum emphasis on science, technology, engineering, arts, and math (STEAM).

Our mission is to provide a college preparatory educational program emphasizing STEAM in a safe environment that cultivates respect for self and others. Graduates of Magnolia Public Schools are scientific thinkers who contribute to the global community as socially responsible and educated members of society.

MSA Bell currently has 440 students in grades 6th-8th, and mainly draws enrollment from the neighboring communities of the southeast Los Angeles area. MSA Bell has a diverse student population of 90.45% Hispanic/Latino and 7.95% White (Arabic), 84.5% socioeconomically disadvantaged, 10.2% special education, and 12.5% English language learner population.

We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundational skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA Bell is supplemented by tutoring, after-school programs, and family training.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Due to the COVID-19 pandemic, California has suspended the reporting of state and local indicators in the 2020 Dashboard. However, the strengths and needs are listed below based on the 2019 Dashboard Data. MSA Bell has developed various monitoring points to ensure the 'whole child.' References to these data sets will be made available and shared with stakeholders to solicit feedback and conduct an assessment of strengths and opportunities.

Strengths

1. English Language Arts for all students increased by 14.7 points, 17.7 points below, and neediest student groups (EL & SPED) showed growth. In comparison with the state, all students increased by 3.7 points, 2.5 points below standard.
2. Mathematics for all students increased by 7 points, 74 points below, and neediest student groups (EL & SPED) showed growth. In comparison with the state, all students maintained by 2.9 points, 33.5 points below standard.
3. English Learner Progress shows 52.7% of all EL students making progress towards English language proficiency. In comparison with the state of 48.3% making progress towards English language proficiency.

Due to the pandemic, MSA Bell will seek opportunities to further build capacity at the school site to support the socio-emotional needs of students as they return to campus. This includes ongoing professional development and curriculum for faculty and exploring partnerships with local health & wellness agencies. In regards to academic progress in the areas of mathematics and English Language Arts, systems and procedures have been developed and refined to monitor and assess students for academic progress. For the 2021-22 school year, iXL will be utilized to provide intervention to address learning gaps. iXL integrates with NWEA MAP assessment, therefore providing necessary information to inform instruction and develop school-wide strategies to address the learning needs of all students, especially ELs and SWDs.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Due to the COVID-19 pandemic, California has suspended the reporting of state and local indicators in the 2020 Dashboard. However, the strengths and needs are listed below based on the 2019 Dashboard Data. MSA Bell has developed various monitoring points to ensure the 'whole child.' References to these data sets will be made available and shared with stakeholders to solicit feedback and conduct an assessment of strengths and opportunities.

Opportunities

1. Chronic Absences are at 5% and increased by 1.8%. In comparison with the state, all students increased by 1.1 points, 10.1% chronically absent.
2. Suspension rate 1.4% increased by 1.4%. The rate is lower than the state rate of 3.4%

Due to the pandemic, school conditions and climate will be an area of focus as students get re-acclimated to the school setting. This will include reinstating the PBIS program and conducting a needs assessment to ensure the program is effective for student positive development. Furthermore, leadership will review the LMS to ensure curriculum and instruction fidelity. Assessment plans will continue through NWEA MAP and IABs, these are added to the instructional curriculum calendar with an emphasis on instructional supports for ELs and SWDs. Additionally, iXL will be utilized as the interventional tool for student learning gaps and will be embedded into daily instruction.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The LCAP goals started through a collaborative effort of gathering input from all stakeholders and available data from surveys and student academic performance. Based on input and data, we have revised our existing actions/services, measurable outcomes, and planned for new ones. Some of the highlights include:

1. Stakeholder engagement in the shared decision making, especially in the area of blending learning and academic area of mathematics for all students and support of student groups (ELLs and SWD) in ELA and math.
2. Opportunities for professional learning for all stakeholders through workshops and supports, in socioemotional development and academic support in areas like mathematics and blending learning.
3. School community that provides programs to support the socioemotional development and academic learning of all students.

Our learning community has worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote a positive learning experience for our students, MSA Bell has established a culture of partnership with families, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include PAC/Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Public School Choice (PSC) review, Charter School Division (CSD) review, Coffee Chat meetings, Board of Directors meetings, Principal meetings, and staff meetings. Feedback from our committees and meetings provide valuable input for the new LCAP. In addition, the MSA Bell conducts surveys for families, students, and staff, and the school staff conducts home visits. These all serve as a way to inform, educate, and gather input and feedback from all critical stakeholders.

MSA Bell has an approved charter petition with measurable student outcomes and methods to assess student progress. WASC accreditation provides a reflective opportunity to gather stakeholder feedback and input with action plans for continuous school improvement. The collaborative process monitors performance data, student needs, identifies goals, implements appropriate interventions/preventions. The PSC process allows stakeholders the opportunity to review school data, understand elements of a high quality school and review the school proposals and offer their feedback. The various opportunities provide stakeholder engagement to address the needs of the student. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

MSA Bell has held its periodical meetings this year to gather input from our stakeholders. These include 10 PAC/PTF meetings, 6 SSC meetings, 4 ELAC meetings, several parent activities/events including Coffee Chat meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. Majority of our stakeholders participated in this survey. The staff has completed 25% of its home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

MSA Bell throughout the school year held various meetings through PAC, SSC, ELAC, and informational sessions, as well as stakeholder surveys, to gather input to support the direction and funding essential to meet the needs of the learning community. Below are a few trends that have influenced the development of the goals and expense:

1. Safety for students, staff, and families in the form of environmental climate and socio-emotional support. This includes hiring and training of staff members and supplemental support from organizations and cloud-based platforms.

2. Academic Growth outcomes for ELs and SWD. This includes the hiring and ongoing support of staff members to support student's academic endeavor, usage of programs to identify and intervene in academic areas of need and provide additional resources in the form of programs or additional support through Summer School, Winter Session, Additional Tutoring Sessions, and Home Visits.
3. Stakeholders recognize the mission, vision, and core values of the organization. Stakeholders are pleased and continue to support the learning community to provide a program centered around Excellence, Innovation, and Connection. MSA Bell will continue to offer a project-based learning experience that provides students with the tools and skills necessary to advance their academic pursuits and societal contributions. MSA Bell will continue to provide students with individualized support and a program that identifies their learning styles, personalities, interest, and career plans to make every learner college- and career-ready. MSA Bell will continue to create and expand a climate that provides a sense of connection and belonging to support students' development of personal and academic networks for long-term resilience and connection.

SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

These elements continue to be vital for our stakeholders and the learning community is committed to adapt and equip all stakeholders to meet their fullest potential and endeavors. Based on surveys and organized meetings with stakeholders, many are pleased with the program and direction. MSA Bell will continue to strive for excellence to provide students with opportunities for growth and social mobility.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Stakeholders have reviewed input in order to adjust all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

1. Implement instructional practices and strategies as identified through the Performance Indicator Review (PIR), especially for our dually identified students (SWD & ELs)
2. Instructional practices that focus on sustaining promising practices of Tier 1 MTSS support (This includes schoolwide expectation matrix, grade level team classroom expectation matrix, practices of restorative circles, solidifying mentorships in advisory courses)
3. An 'advance pathway' course selection (Honors) will be programmed to provide opportunities for higher-level classes that proceed at a faster pace and cover more materials than regular mainstream courses.
4. Professional Development sessions to support families with various aspects relating to the development of the 'whole child.'

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in the provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 92.0%	2021-22: (Spring 2021 to Fall 2021) 84%			2023-24: (Spring 2023 to Fall 2023) 90.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 98.0%	2021-22: (As of 5/12/22) 95.8%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$20,500.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$363,310.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$544,848.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, and water.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$124,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$877,325.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

- 1.1 No substantive difference, teacher assignments and hiring process was similar to baseline year.
- 1.2 No substantive difference in planned actions for books, technology, resources and curriculum. All were in compliance for the current academic year.
- 1.3 No substantive difference. Cleaning
- 1.4 No substantive difference. Food
- 1.5 No substantive difference. HO

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- 1.1 There was a material's difference of over \$198K because our MPS board and school leadership approved discretionary bonuses to all staff who worked on 21-22 for at least 80% of the time.
- 1.2 No substantive difference between Budgeted Expenditures and Estimated Actual Expenditures in books, resources, technology or curriculum
- 1.3 No substantive difference. Cleaning
- 1.4 No substantive difference. Food LAUSD
- 1.5 No substantive difference. HO

An explanation of how effective the specific actions were in making progress toward the goal.

- 1.1 No substantive difference, teacher assignments and hiring process was similar to baseline year.

1.2 MSA Bell saw progress in 6th / 7th grade MATH, in addition to progress in sub groups for 6th/7th grade Latino, White, FRL, and 8th Grade SPED in Mathematics

1.3 No substantive difference. Cleaning

1.4 No substantive difference. The meal program aimed to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Our Charter School promotes healthy food and beverage choices per our wellness plan, as well as encourage participation in school meal programs (LAUSD LA Café)

1.5 No substantive difference. HO

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 No substantive difference, teacher assignments and hiring process was similar to baseline year.

1.2 No substantive differences were made for planned goals or desired outcomes for books, technology, resources and curriculum

1.3 No substantive difference. Cleaning

1.4 No substantive difference. We will continue to follow our current goals and desired outcomes. In addition goals on our wellness plan will be purposely created to support this section of our LCAP goals.

1.5 No substantive difference. HO

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all	\$1,334,083.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p>	\$61,768.00	Yes

		<p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Services & Other Operating Expenses - Professional Development: Resource: Title II, Part A; Amount: \$18,382 		
2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I/ELD coordinator salary and benefits, instructional aide salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL, Accelerated Reader, Paper, BrainPOP, Cityspan, Newsela, and myON.)</p>	\$558,498.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software: Resource: Title IV; Amount: \$11,788 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: MPS ELD Coordinator salary and benefits, EL instructional aide salary and benefits</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes

Action #	Title	Description	Total Funds	Contributing
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,044,081.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2.1 No substantive differences in teacher assignments or curriculum. The hiring process was similar to baseline year.

2.2 No substantive difference in planned action and actual implementation of actions as it relates to professional development.

2.3 No substantive difference in planned action and actual implementation of actions as it relates to MTSS implementation and data informed instruction.

2.4 No substantive difference in planned action and actual implementation of actions as it relates to ELD instruction and implementation.

2.5 No substantive difference in planned action and actual implementation of actions as it relates to services provided for students with disabilities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2.1 No substantive material differences between Budgeted Expenditures and Estimated Actual Expenditures in teacher assignments or curriculum.

2.2 No substantive material difference between Budgeted Expenditures and Estimated Actual Expenditures as it relates to professional development.

2.3 No substantive material difference between Budgeted Expenditures and Estimated Actual Expenditures as it relates to MTSS implementation and data informed instruction.

2.4 No substantive material difference between Budgeted Expenditures and Estimated Actual Expenditures as it relates to ELD instruction and implementation.

2.5 No substantive material difference between Budgeted Expenditures and Estimated Actual Expenditures as it relates to services provided for students with disabilities.

An explanation of how effective the specific actions were in making progress toward the goal.

2.1 MSA Bell saw progress in 6th / 7th grade MATH, in addition to progress in sub groups for 6th/7th grade Latino, White, FRL, and 8th Grade SPED in Mathematics. Progress was also made in MyOn Lexile growth and iXL data for all groups and sub-groups.

2.2 MSA Bell saw progress in 6th / 7th grade MATH, in addition to progress in sub groups for 6th/7th grade Latino, White, FRL, and 8th Grade SPED in Mathematics. Progress was also made in MyOn Lexile growth and iXL data for all groups and sub-groups.

2.3 MSA Bell saw progress in 6th / 7th grade MATH, in addition to progress in sub groups for 6th/7th grade Latino, White, FRL, and 8th Grade SPED in Mathematics. Progress was also made in MyOn Lexile growth and iXL data for all groups and sub-groups.

2.4 MSA Bell saw progress in sub groups for 6th Math as it relates to ELD instruction.

2.5 MSA Bell saw progress in 8th Grade SPED in Mathematics.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- 2.1 No substantive changes made to the planned goal, metrics, desired outcomes, or actions as it relates to teacher assignments or curriculum.
- 2.2 No substantive changes made to the planned goal, metrics, desired outcomes, or actions as it relates to professional development.
- 2.3 No substantive changes made to the planned goal, metrics, desired outcomes, or actions as it relates to MTSS implementation and data informed instruction.
- 2.4 No substantive changes made to the planned goal, metrics, desired outcomes, or actions as it relates to ELD instruction and implementation.
- 2.5 No substantive changes made to the planned goal, metrics, desired outcomes, or actions as it relates to services provided for students with disabilities.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School’s vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 19%	2021-22: (As of 5/13/22) 21%			2023-24: 20%
Percentage of students in the current graduating class who	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college related activities.</p> <p>Expenditures associated with this action include the following: college/career related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes

Action #	Title	Description	Total Funds	Contributing
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science and math competition/program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,000.00	Yes
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and</p>	\$10,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, and internet security program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software: Resource: Title IV, Part A, Amount: \$3,000 		
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$226,159.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$377,946.00	Yes

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 7	2021-22: (As of 5/13/22) 4			2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 4	2021-22: (As of 5/13/22) 4			2023-24: 4

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees and stipends for staff participation/service to SSC, ELAC, and Board Meetings.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan,</p>	\$184,042.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Director of Outreach & Community Engagement salary and benefits, and Office Manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • 1100 Teacher Salaries - Home Visits: Resource: Title I, Part A; Amount: \$11,010 • 5800 Professional Services: Resource: Title 1, Part 1: \$2,500 		
4.3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and</p>	\$248,810.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$5,000 		
4.4	Annual stakeholder surveys	Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$152,580.00	Yes

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will

challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds

and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have

parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered

include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS

SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school

improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these

actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL

students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with

valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students		

2022-23 Total Expenditures Table

Totals	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds	Total Personnel	Total Non-personnel
Totals	\$4,308,390.00	\$1,040,641.00	\$113,850.00	\$668,569.00	\$6,131,450.00	\$4,025,703.00	\$2,105,747.00

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy - Santa Ana	Steven Keskindurk Principal	skeskinturk@magnoliapublicschools.org (714) 479-0115

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS)
 The Magnolia Educational & Research Foundation dba Magnolia Public Schools (MPS) is a 501(c)(3) non-profit public charter school management organization dedicated to establishing and managing high-quality public charter schools in California. MPS’ vision is to graduate students who are scientific thinkers that contribute to the global community as socially responsible and educated members of our society. MPS’ educational approach is based on the conviction that science, technology, engineering, and math (STEM) education is essential in improving our modern society’s knowledge base and adaptability to the fast pace of ever-changing technological advancements. MPS operates 10 charter school sites throughout California with an increasing trend of academic success, organizational, and financial stability.

Magnolia Science Academy Santa Ana (MSA-SA)
 Magnolia Science Academy-Santa Ana (MSA-SA) is the home of the PIRATES! MSA-SA is authorized and monitored by the State Board of Education. MSA-SA is a public charter school for grades TK–12 with a mission to provide a college preparatory educational program emphasizing STEAM education in a safe environment that cultivates respect for self and others. MSA-SA offers a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and strong core knowledge presented in ways that are relevant and inspiring for our students. Tutoring, morning intervention, after-school program, Saturday Academy, and school-to-university partnerships (e.g. dual enrollment partnerships with local community colleges) supplement classroom instruction at MSA-SA. MSA-SA creates a supportive and caring environment with small class sizes and strong student-parent-teacher communication, and improves students’ knowledge and skills in core subjects, thereby increasing their 21st century skills as well as their chances of success in higher education and beyond. MSA SA provides students with a comprehensive education program that creates multiple opportunities for them to develop into successful contributing members of society, and therefore, fulfill the intent of the California Charter Schools Act.

In 2018-19 academic year, Magnolia Science Academy-Santa Ana continued its third school year in our new campus at 2840 West 1st Street, Santa Ana. The new facility was funded by the State of California Prop 1D funding. The new building has 34 classrooms with state of the art science and computer labs, library and learning centers. Phase II construction is completed and includes a gym, playgrounds and an outside cafeteria to serve several functions. MSA-SA has adopted McGraw-Hill digital and in print curriculum across all four core subjects (Math, History, Science, and English). We have a 1:1 technology to student ratio and all classrooms with state of the art technology.

In March 2019, The State Board of Education(SBE) renewed Magnolia Science Academy-Santa Ana for 5 years.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

According to the Fall 2018 California accountability dashboard data, we continue to have a very low suspension rate and 92% graduation rate as part of our Positive Behavior Interventions and Supports (PBIS). Additionally, we have many embedded Positive Behavior Interventions and Supports (PBIS) in our school system to ensure that our Tier I interventions are effective and create a positive, safe and enriching school environment. We attribute our high graduation rate to high parental involvement through Parent College, our School Site Council, Parent Task Force, and English Learner Advisory Committee (ELAC) and after-school workshops. During the Parent College events, parents and students receive education pertaining to the A-G requirements, which are aligned to our graduation requirements and for 4-year colleges. All students have a four-year plan and meet once a year with our college counselor. MSA-SA continues to have a high acceptance rate to four-year universities. Our seniors gain admission to a variety of colleges across the nation (e.g. UC Berkeley, UCI, Cornell, USC, CSUF, etc.). This year was a year in which we developed targeted intervention groups both academically and behaviorally appropriate to address the specific needs of our students.

We continued to use internal data to measure growth throughout the year (NWEA MAPs and SBAC IABs). The effectiveness of intervention programs during school and after school has increased this year. Our Deans of Academics work diligently to update and analyze student performance with MAP, IAB, and SBAC prep. Staff utilizes our student data/ growth to drive the instruction as well as formulate intervention grouping. Lastly, reviewing our staff, parent, and student surveys through Panorama allows for an open dialog among all stakeholders so that our action plans continue to allow us to reach our greatest potential and foster a community of lifelong learners.

According to the state CAASSP data that reflects our student growth in the change over time data distribution of students meeting and exceeding standards in English Language Arts Literacy from 2016 through the 2019 academic school years in grades third through eighth as shown in the table below:

- Reading Lexile Increased in all grade levels (except for 4th grade). We are in our second year reading program this year, MyOn that is used in elementary classrooms, during Sustained Silent Reading (SSR) in Middle School, and during Advisory for grades 9-10th.
- Our school continues to stay true to our mission to prepare our students for higher education, as such, we are proud to report that we will have another year with a goal of 100% graduation rate and 100% college pathway with our students.

- According to our 2019-20 Dashboard data, our College/Career Indicator (CCI) 77.8% prepared and 18.5% approaching prepared, in a total of 96.3% college readiness.

Here is a summary of what our stakeholders “like the most about our school
“WHAT DO YOU LIKE BEST ABOUT YOUR SCHOOL?”

Students: Students in Elementary like their teachers and all the STEAM-related activities that take place in their school. Students in Secondary also like their teachers and their college culture services. The student enjoys their AP. Additionally, students in secondary like having a small class size, and the friends that they’ve made!

Family: Similar to our students, our families like the teachers and the college readiness program that we offer to students. The parents also like the “family feel” environment, the student information system that facilitates communication. Additionally, the parents like having a K-12 school model in order to drop off all of their school-aged students in one location.

Staff: The staff enjoys working with each other and really enjoys their colleagues. Staff feels that their colleagues are professional, supportive; collaborative and that everyone genuinely wants to improve the school.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Our socioeconomically disadvantaged and Hispanic populations are our greatest need. This has become our focus area, specifically for third through eighth-grade students. Intervention groups were formed at the beginning of the year using the SBAC Spring 2018 results and our internal MAP data. Our students took our internal MAP assessment (NWEA) in the fall. Our Spring MAP assessment was administered at the end of May to measure growth.

Such targeted intervention groups include Study Skills for our SPED students (Tier III), our Power English/Math course for Tier II students, our SSR Math/Writing group for Tier II students, and our Designated and Integrated ELD courses additional supports for English Learner student population. Our elementary intervention grouping is based on the Spring SBAC and Fall. We grouped our ELA and Math interventions in the afternoon. After school, focusing on our Tier II students, students at the CAASPP standards nearly met and not met, and our Tier III students. They are struggling in English Language Arts and Mathematics. These interventions are revisited quarterly, and changes are made depending on student progress. Students are identified for the SSPT process based on intervention and classroom assessment, and progress.

Our students are coming from different curriculum backgrounds. Our goal is to close this performance gap to ensure their ready and successful for the next grade level.

We continue to provide social-emotional support for our students. This year we received an MTSS grant which allowed us to partner with Western Youth Services so that our families can have access to free/affordable counseling and Help Me Grow for elementary students. Our goal is for these partnerships.

We conducted our annual panorama surveys and reflected on our stakeholders' greatest areas of need.

WHAT DO YOU LIKE LEAST ABOUT YOUR SCHOOL?

Students: The Elementary students like least the food and not having enough area to play or a permanent playground. The students also reported that there are mean comments/name-calling/bad words happening in school. The Secondary students strongly dislike the school food, the crowded hallways, and the restrictions to bathroom usage.

Families: Our parents have concerns about our limited parking space and the drop-off/pick-up system in place.

Staff: Our staff indicated that student discipline isn't consistently being enforced and that the number of student behavior issues hasn't decreased.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

MSA-SA has also worked on its expected annual measurable outcomes to set targets in areas of greatest need and to close performance gaps among student groups. Our Pillars: Excellence, Innovation and Connection (EIC) guide our action plan. MSA-SA wants to continue to work towards promoting and developing academic excellence for all of our students. This year we focused on ten school goals in which incorporated academic, MTSS, and college going culture, such as all student groups will show a three-point growth on the CAASPP ELA and Math assessments. We will develop, align, and improve academic and behavioral resources, programs, supports, and services and address the needs of the whole child by utilizing a coherent MTSS framework. An additional goal is a 100% four year graduation rate and a 100% UC/CSU A-G course completion rate.

MSA-SA Parent Advisory Committee (PAC) committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones.

Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent training via activities such as Parent College
- The need to continue our improvements in designated/integrated English Learner services
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs

- Providing counseling and positive behavior intervention support services to our students
- Keeping affective teachers and improving teacher observation and evaluation systems
- School Site Council (SSC) involvement and engagement in the LCAP and school decisions

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-1 has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee and ELAC provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff, and the Charter School staff make home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include four PAC/PTF meetings, four SSC meetings, four ELAC meetings, at least five parent activities/events including two Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made 45 home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

MSASA throughout the school year held various meetings through PAC, SSC, ELAC, and informational sessions, as well as stakeholder surveys, to gather input to support the direction and funding essential to meet the needs of the learning community. Below are a few trends that have influenced the development of the goals and expense:

1. Safety for students, staff, and families in the form of environmental climate and socio-emotional support. This includes hiring and training of staff members and supplemental support from organizations and cloud-based platforms.
2. Academic Growth outcomes for ELs and SWD. This includes the hiring and ongoing support of staff members to support student's academic endeavor, usage of programs to identify and intervene in academic areas of need and provide additional resources in the form of programs or additional support through Summer School, Winter Session, Additional Tutoring Sessions, and Home Visits.

3. Stakeholders recognize the mission, vision, and core values of the organization. Stakeholders are pleased and continue to support the learning community to provide a program centered around Excellence, Innovation, and Connection. MSASA will continue to provide students with individualized support and a program that identifies their learning styles, personalities, interests, and career plans to make every learner college- and career-ready. MSASA will continue to create and expand a climate that provides a sense of connection and belonging to support students' development of personal and academic networks for long-term resilience and connection.

SELPA Feedback:

Our SELPA recommendation included a series of guiding questions to facilitate the process and ensure specific metrics related to academic and socioemotional supports are provided to all students, especially students with disabilities. Based on these recommendations Goal 2, Action 5 summarizes supports and services for students with disabilities. Further work will continue in this area to ensure the embedment of SEP goals/plans in order to have a centralized plan that is accessible to all stakeholders.

These elements continue to be vital for our stakeholders and the learning community is committed to adapt and equip all stakeholders to meet their fullest potential and endeavors. Based on surveys and organized meetings with stakeholders, many are pleased with the program and direction. MSASA will continue to strive for excellence to provide students with opportunities for growth and social mobility.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

MSA-SA's LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Improvements in designated/integrated English Learner services
- Expanding after school, Morning Interventions, Tutoring Saturday school, and summer school opportunities
- Providing counseling and behavior support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Increasing college preparedness by offering a college planning and career exploration program for students early on, strengthening existing "Advisory" programs, offering special programs to prepare students for the SAT/ACT tests, and preparing students to take more AP courses
- Investing in effective technology and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Other input includes improving school facilities and the lunch program.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 94.0%	2021-22: (Spring 2021 to Fall 2021) 64%			2023-24: (Spring 2023 to Fall 2023) 85.0%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.1%	2021-22: (As of 5/12/22) 97.1%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$33,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p> <p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and</p>	\$1,035,721.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$563,491.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p>	\$1,538,903.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

MSASA desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 45%	2021-22: (As of 5/13/22) 51%			2023-24: 100%
Percentage of students who have	2020-21: (First semester)	2020-21: (Second semester)			2023-24: 80%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
received a grade of “C” or better (or performed “proficient” on the related state standardized tests) in core subjects and electives (Source: SIS)	69%	85%			
Average Lexile Growth (L) from fall to spring (Source: myON)	2020-21: (As of 5/7/21) 126.5	2021-22: (As of 5/13/22) 39.9			2023-24: 130
Percentage of students meeting or exceeding standard on the CAASPP-ELA/Literacy assessments (Source: CDE DataQuest)	2018-19: <ul style="list-style-type: none"> All Students: 34.23% English Learners: 9.28% Socioeconomically Disadvantaged: 32.47% Students with Disabilities: 12.07% Homeless: 32.43% Hispanic: 31.18% White: 73.33% 	CAASPP-ELA/Literacy assessments were waived during the 2019-20 and 2020-21 school years. Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest.	\$2,477,676.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.2	Professional development for high-quality instruction	<p>Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff</p>	\$57,200.00	Yes

2.3	MTSS - Academic enrichment, intervention, and student support	<p>Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and</p>	\$630,296.00	Yes

		<p>evidence-based supplemental intervention/enrichment program fees (Edgenuity, ALEKS, IXL, Accelerated Reader, Lexercise, ST Math, Standards Plus, Quizizz, Padlet, Grade Slam, Sumdog, BrainPOP, NextGenMath, Membean, Spelling City, Turnitin, Seesaw, Listenwise, Grammarly, Cambium Learning, ABC Mouse, Learning A-Z, Cityspan, Flocabulary, Alexandria Library, Nearpod, Newsela, and myON.)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software: Resource: Title I, Part A; Amount: \$30,234 • Educational Software: Resource: Title IV, Part A; Amount: \$14,000 		
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited</p>		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
2.5	Support for students with disabilities	<p>Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p>	\$1,147,597.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • 2100 Instructional Aide Salaries: Resource: Title I, Part A; Amount: \$155,796 • 3100 STRS: Resource: Title I, Part A; Amount: \$6,449 • 3200 PERS: Resource: Title I, Part A; Amount: \$26,959 • 3300 OASDI/Medicare: Resource: Title I, Part A; Amount: \$9,555 • 3400 Health & Welfare Benefits: Resource: Title I, Part A; Amount: \$15,541 • 3500 Unemployment Insurance: Resource: Title I, Part A; Amount: \$588 		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School's vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

		<p>thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software: Resource: Title IV, Part A; Amount: \$500 		
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$105,765.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Educational Software: Resource: Title IV, Part A; Amount: \$400 	\$185,694.00	Yes
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of,</p>	\$538,529.00	Yes

		<p>including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 3	2021-22: (As of 5/13/22) 4			2023-24: 4

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	<p>Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff</p>	\$224,715.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school’s EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Teacher Salaries: Resource: Title I, Part A; Amount: \$12,000 • Professional Services: Resource: Title I, Part A; Amount: \$25,000 		
4.3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill</p>	\$269,521.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Additional services for homeless students: Resource: Title I, Part A; Amount: \$2,000 		

Action #	Title	Description	Total Funds	Contributing
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,500.00	Yes
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p>	\$10,000.00	Yes

	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to

quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity

before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2, increases in CCI prepared rate, AP passing rate, A-G rate, diploma seals, and college acceptance rates as identified in our LCAP metrics in Goal 3, as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically

disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate, ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to

address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and

safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We

also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will offer individual graduation plans, outlining the classes students will take during their high school years. Students will be provided credit recovery opportunities and individualized support to ensure timely high school graduation. Charter School will offer Advisory and College Readiness classes and activities to support our students in the areas, including, but not limited to, college planning and career exploration, test prep for ACT/SAT, college application and financial aid submission. Charter School will provide students with opportunities to take Advanced Placement (AP) courses based on student needs and interests. Charter School will promote a college-going culture through dual and concurrent enrollment, AP courses, college visits, college/career days, and other college related activities. Charter School will also explore CTE options to provide students with opportunities to explore a career theme of interest while learning a set of technical and employability skills that integrate into or complement their academic studies. Unduplicated students will receive improved services through our Naviance program and increased support with AP exam fees, AP course materials, and other college-related materials and activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as AP Computer Science Principles, Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy

classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes,

how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Magnolia Science Academy San Diego	Gokhan Serce Regional Director and Principal	gserce@magnoliapublicschools.org (619) 644-1300

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Magnolia Science Academy San Diego (MSA-San Diego) is an independent public charter school located in the Allied Gardens community. MSA- San Diego serves around 420 students in grades 6–8, with classes that average 30 or fewer students. The school was founded in the fall of 2005 by a group of scientists and engineers devoted to math, science, and technology education. Magnolia’s mission is to provide a high-quality college preparatory educational program emphasizing science, technology, engineering, arts and math (STEAM) in a safe environment that cultivates respect for self and others.

MSA-San Diego provides a challenging academic curriculum, a highly qualified staff, and a variety of learning opportunities such as enrichment classes, athletics programs, free tutoring, afterschool clubs, character education classes, field trips, community meetings, and much more. We offer a comprehensive learning experience designed to serve the needs of our students through effective site-based instruction, rich hands-on learning, and foundation skills presented in ways that are relevant and inspiring for our students. Classroom instruction at MSA-San Diego is supplemented by tutoring, after-school programs, and school-to-university links. Starting 2013–14 school year, MSA-San Diego transitioned to a 1:1 program with computers in every classroom. Since the 2013-14 School year MSA-San Diego Robotics, Future City (Engineering) and Archery teams and School Band won first place at multiple state and local competitions.

MSA-San Diego is a member of the Magnolia Public Schools family and collaborates with sister schools and other educational organizations to offer the best quality education to the students.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

- CDE recognized our school as a California Distinguished School
- We are implementing Restorative Practices to improve school culture and provided many professional developments for our staff and teacher leaders.
- Trained all admin team and teacher leaders in MTSS through MTSS grant.
- MSA-San Diego's overall performance in State testing based on latest California School Dashboard is green in Math and Blue in ELA.
- MSA-San Diego showed significant growth in state test in both Math and English for English Learners
- Our school outperformed all of the charter middle schools in city of San Diego and all of the middle schools in Navajo community.
- MSA-San Diego established partnership with the local community college to host community events like San Diego STEAM Expo.
- MSA-San Diego provided opportunities for students to showcase their achievements in STEAM fields. Some of the opportunities are:
 - 1-Seaperch underwater robotics team made it to international Finals
 - 2-Our FLL Robotics team won the 1st place in LEGOLAND at SoCal competition 6 time in the last 7 years.
 - 3-Our Archery team won San Diego, State and National 1st,2nd and 3rd place awards at the Olympic Archery in Middle Schools competitions.
 - 4-MSA-San Diego cohosted 6 annual San Diego STEAM Expo with Grossmont College
 - 5-Participated San Diego Festival of Science and Engineering with over 80 students. Over 7,000 visitors visited Magnolia booths.
 - The level of parent participation for school events increased significantly.
 - MSA-San Diego PTF established their bylaws and had their second election with the new bylaws.
 - Since we started in person learning MSA-San Diego is close to meeting its home visit target.
 - Prepared our site to in-person learning with all the required safety measures.
 - MSA-San Diego hosted, organized or participated in over 15 school and community events throughout the school year.
 - Hosted daily Live Donuts in The Morning announcements via YouTube bring our community together.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

- Increase academic achievement in the area of math for students with disabilities group in CAASPP.
- Recruiting and retaining highly qualified teachers
- Continual refinement of intervention programs to assist in closing the achievement gap for all student groups.
- Empowering students to be school wide student leaders in the establishment of school culture with a new school culture model.

- After a 2 year Distance learning and in-person learning with limitations in the pandemic era, students and staff need more academic, social emotional, and mental health resources and support.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The Charter School LCAP committee has reviewed input from all stakeholders and available data through surveys and student performance data. Based on input and data, we have revised our existing actions/services and measurable outcomes and also planned for new ones. Some of the highlights include:

- Parents' appreciation of being involved in the decision-making process and the need for continuous parent trainings via activities such as Coffee w/ Principal, PTF and LCAP meetings
- Although currently we are the highest performing charter middle school in the county and in the Navajo community based on Dashboard data we see that all of our stake holders are worried about learning loss due to pandemic limitations and Distance Learning. There is a need to provide more targeted instruction based on NWEA MAP Fall to Spring data.
- Expanding after school, Saturday school, and summer school opportunities; refining targeted intervention and tutoring programs
- Providing positive behavior intervention support services to our students through well-established Restorative Practices system.
- Continue using teacher evaluation system "TeachBoost"
- Reduce chronic absenteeism.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

In order to promote learning and provide a more positive learning experience for our students, MSA-San Diego has established a culture of gathering input from parents, students, staff, community members, and other stakeholders through multiple channels including meetings, school events, surveys, home visits, newsletters, and other means of communication. To the extent possible, all stakeholders are invited to be involved in the process of school review and improvement including the development of our annual LCAP.

Information/input sessions include Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, ELAC Meetings, Coffee with the Principal meetings, Townhall meetings, Board of Directors meetings, Principal meetings, and staff meetings. Parents on our PTF and SSC also serve as our parent advisory committee for LCAP. Such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our parent advisory committee provides valuable input for the new LCAP. In addition, the Charter School conducts surveys for parents, students, and staff and the Charter School staff make virtual and in-person home visits. These all serve as a way to inform, educate, and gather input & feedback from all critical stakeholders.

The Charter School has an approved charter petition with measurable student outcomes and methods to assess student progress and a WASC action plan for continuous school improvement. Therefore, LCAP is received by our community as a comprehensive planning tool that draws from all other school plans and addresses the state priorities and locally identified priorities.

The Charter School has held its periodical meetings this year to gather input from our stakeholders. These include 4 PTF meetings, 4 SSC meetings, 3 ELAC meetings, at least 50 parent activities/events including Coffee with the Principal meetings, weekly staff meetings, and other stakeholder meetings. The school conducted a family, staff, and student experience survey with specific questions on the sense of safety and school connectedness, school culture and climate, and other areas of school improvement. A majority of our stakeholders participated in this survey. The Charter School staff has also made over 30 in person and virtual home visits during this school year and sought feedback from the parents for school improvement.

A summary of the feedback provided by specific educational partners.

Parent Advisory Committee (PAC)/Parents:

- Happy with the Uniform expectations.
- Continue to provide a variety of courses in Summer school
- Asked for bi-weekly update meetings to continue

Students:

- Students shared that teachers are respectful, helpful, nice, they work hard, they spend extra time to support students.
- Friends/Classmates are kind.

- After school clubs and activities provide opportunities for students to connect with friends, learn and have fun.
- Students were not happy about the Distance Learning
- Students shared that they want less limitations on uniforms
- Students asked for more mental health support for themselves and their friends
- Students also asked for new Chromebook
- Students would like to see more elective opportunities.

Staff:

- Continue to build on our Multi-Tiered System of Support
- Continue to provide social-emotional learning (SEL) experiences
- Continue with our Zone of Regulation SEL lessons to increase awareness and ownership of The WIZARD Way.
- Continue to use on-line PBIS platform, Kickboard, to recognize our students who demonstrate The WIZARD Way
- Bring more outside resources for our site professional development
- Staff shared that there is more need for mental health and SEL Support.

ELAC:

- Parents are happy about the additional EL support taking place in the mornings and in the afternoons.

SELPA:

- Create a plan to provide targeted support for Students with Disabilities in Math.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The Charter School LCAP committee has reviewed input from all stakeholders and synthesized input to revise existing actions/services and measurable outcomes and also plan for new ones in the LCAP for the upcoming year. Some of the updates include:

- Expanding after school tutoring and summer school opportunities
- Adding Saturday school for academic support
- Providing counseling and mental health support services to our students
- Improving teacher observation and evaluation systems and keeping effective teachers
- Investing in new Chromebook and teacher professional development in blended learning and differentiated instruction to enhance instruction in the classroom
- Expanding STEAM-based programs and activities
- Improving student restrooms
- Providing more staff PDs through outside professionals
- Other input includes improving school facilities such as the lunch area, water bottle filling stations and A/C units.

Goals and Actions

Goal

Goal #	Description
1	BASIC SERVICES FOR A HIGH-QUALITY LEARNING ENVIRONMENT: All students and staff will have access to a safe, secure, healthy, and high-quality learning and working environment. Students will receive basic services that are fundamental to academic success, including fully credentialed teachers, standards-aligned instructional materials, and appropriately maintained school facilities.

An explanation of why the LEA has developed this goal.

Providing basic services means ensuring all students have access to teachers who are fully credentialed in their subject areas, instructional materials aligned with state standards, and safe, properly maintained school facilities. Charter School will also adhere to the MPS Wellness Policy and encourage participation in school meal programs. Research shows when students are provided with these basic services, student learning outcomes increase. The MPS Home Office will provide services such as academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations to support and hold accountable the Charter School for compliance and meeting charter goals. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of basic services to maintain a high-quality learning environment.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of misassignments of teachers of English learners, total teacher misassignments, and vacant teacher positions (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2023-24: 0
Percentage of students without access to their own copies of standards-	2020-21: 0%	2021-22: 0%			2023-24: 0%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
aligned instructional materials for use at school and at home (Source: Local Indicator Priority 1)					
Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies) (Source: Local Indicator Priority 1)	2020-21: 0	2021-22: 0			2022-23: 0
Teacher retention rate (Source: HRIS)	2020-21: (Spring 2020 to Fall 2020) 85%	2021-22: (Spring 2021 to Fall 2021) 94%			2023-24: (Spring 2023 to Fall 2023) 85%
Teacher attendance rate (Source: HRIS)	2020-21: (As of 3/25/21) 99.3%	2021-22: (As of 5/12/22) 95%			2023-24: 97.0%

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher assignments and credentials	Charter School and the MPS Human Resources team will conduct credential, background, and TB clearance reviews as part of the hiring process and at least once throughout the year to ensure all credentials are properly maintained. Charter School will support our teachers’ credentialing needs. Charter School will also annually review master schedules and teacher assignments to ensure teachers are appropriately assigned and fully credentialed in the subject area and	\$16,750.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>for the students they are teaching. Charter School uses a Human Resources Information System (HRIS) to automate employee documents. MPS Home Office HR team acts as a liaison between employees and provides administrative support as needed (e.g., correspondence generation, record keeping, file maintenance, HRIS entry, etc.) The HR team also provides reports to the Board and school administrators in regards to teacher retention, performance, pay scale, vacancies, recruitment efforts, credentials, mandatory trainings, and other HR related matters.</p> <p>Expenditures associated with this action include the following: teacher credentialing expenses, recruitment expenses (sign-in bonus, livescan/fingerprinting fees, etc.), Paycom/payroll fees, retirement service fees, and performance pay.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Teacher credentialing expenses: Resource: Title II, Part A; Amount: \$9,578 (Included under action 2.2) 		
1.2	Instructional materials and technology	<p>Charter School will manage the acquisition, distribution, and maintenance of equipment, materials, and technology needed to meet the academic, linguistic, cultural, social-emotional, and physical requirements of students. Charter School will annually review alignment of instructional materials to standards and maintain an inventory of instructional materials and corresponding purchases of materials. Charter School will annually review budgets and plans to ensure adequate budget for instructional materials. Charter School will ensure that students have sufficient access to standards-aligned instructional materials, including technology-based resources. Charter School will provide effective access and integration of technology resources, including software and mobile devices, that ensure meaningful access to CA Content Standards aligned instructional programs.</p>	\$348,180.11	No

Action #	Title	Description	Total Funds	Contributing
		<p>Expenditures associated with this action include the following: textbooks, instructional materials and supplies, teacher/classroom supplies and office materials, computers, Chromebooks, hotspots, and other technology equipment, IT manager salary and benefits, E-Rate consultancy, and basic software (Zendesk, AssetWorks, firewall, Datto, CloudReady, Zoom, GoGuardian, etc.), phone/internet, and depreciation.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Hot Spots and Zoom Expenses : Resource: 3210 ESSER Funds; Amount: \$17,000 		
1.3	Clean and safe facilities that support learning	<p>Charter School will strive to maintain a clean, safe, environmentally friendly, and inviting school that is worthy of our students, families, and staff and encourages successful teaching and learning. Charter School will continually improve and maintain facilities to ensure school safety, security and high quality learning and working environments. Charter School will do annual and monthly facility inspections to screen for ADA compliance and safety hazards; identified deficiencies will be quickly remedied. Daily general cleaning will maintain campus cleanliness. Maintenance and repairs will be provided by Charter School custodial staff and/or outsourced. As a STEAM focused school, we aim to operate in a sustainable and environmentally responsible manner. Charter School will develop and monitor comprehensive safety and security plans, conduct necessary safety training for all staff and continue to work with stakeholders and experts to implement emergency and risk management procedures for individuals and the site. Charter School will procure and maintain necessary safety/emergency supplies, equipment and items. Charter School will establish schedules and procedures for the supervision of students in non-classroom areas, including before and after school.</p> <p>Expenditures associated with this action include the following: facilities rent/acquisition cost, custodial staff salaries and benefits, custodial</p>	\$993,232.10	No

Action #	Title	Description	Total Funds	Contributing
		<p>supplies, maintenance and repair services, gas/electric, security services, health and safety related expenses (PPE, nursing services, etc.), and insurance costs (workers compensation, CharterSAFE, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
1.4	Healthy and nutritious meals	<p>Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Charter School will adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. The meal program aims to improve the diet and health of our students, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs.</p> <p>Expenditures associated with this action include the following: student meals, water, and refreshments.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$12,000.00	Yes
1.5	Well-orchestrated Home Office support services	<p>The MPS Home Office provides services to the Charter School, supports and holds accountable the Charter School for compliance and meeting charter goals, provides best practices in curriculum and professional development, and sets up systems and processes that support academic achievement and growth, operational effectiveness, and financial sustainability. The Home Office manages business operations of schools, which reduces program and operations-related burdens of the Charter School administration and enables the Charter</p>	\$257,389.79	No

		<p>School to receive services at a lower cost. The services of the Home Office include, but are not limited to, academics, accountability, operations, IT, facilities, finance and accounting, human resources, and external relations. Instructional services are reflected in Goals 2-4.</p> <p>Expenditures associated with this action include the following: Home Office management fees, authorizer oversight fees, audit fees, bank fees, legal fees (YM&C, etc.), and other back-office related expenses (Adaptive Insights, DataWorks, etc.)</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 1: Action 1: In addition to the BTSA ,Mentor and EL Authorization plans, this year we offered a discretionary bonus to retain our teachers.

Goal 1: Action 2: There is no substantive difference in planned actions. Only the amount of materials were less due to lower enrollment.

Goal 1: Action 3: Planned: The only difference in the planned actions were the additional PPE /testing and also increase in use of A/C or Heater to increase air circulation regardless of a need of the A/C which impacted energy cost.

Goal 1: Action 4: Planned: Due to covid-9 we continued to offer bottled/dispensed water.

Goal 1: Action 5: Planned: There is no significant change in the plans.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 1: Action 1: Planned: \$16,750 Actual: \$176,250. In addition to the BTSA and Mentor costs this year we offered a discretionary bonus to retain our teachers. Due to the bonus there is a discrepancy in our projected vs actual amounts for this action.

Goal 1: Action 2: Planned: \$348,180.11 Actual: \$301,665.38 The difference is due to not meeting the expected enrollment increase. As a result we didn't purchase extra books and supplies.

Goal 1: Action 3: Planned: \$993,232.10 Actual: \$1,034,745.18. The difference is due to the purchase of additional PPE and also increase in energy cost.

Goal 1: Action 4: Planned: \$12,000 Actual: \$15,000 The difference in the actual vs planned is due to the use of more bottled/dispensed water due to Covid-19.

Goal 1: Action 5: Planned: \$257,389.79 Actual: \$261,224.60 There is no significant difference in the planned vs actual expenditures for action 5.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 1: Action 1: The increase in inflation and cost of living some of our teachers either moved to other fields or changed to online jobs. To increase retention we offered a bonus and also increased our base salary for next school year.

Goal 1: Action 2: Planned: All steps of action 2 were effective.

Goal 1: Action 3: Planned: All steps of action 3 were effective but due to covid-19 needs cost was more than expected.

Goal 1: Action 4: Planned: All steps of action 4 were effective but due to covid-19 needs cost was more than expected.

Goal 1: Action 5: Planned: All steps of action 5 were effective to meet our goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We would like to keep the goals and actions the same for the future year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	EXCELLENCE: All students will have equitable access to a high-quality core curricular and instructional program and make academic progress on the California Content Standards. Students will pursue academic excellence and be college/career ready.

An explanation of why the LEA has developed this goal.

Charter School desires that all our students pursue academic excellence and be college/career ready. Effective core curriculum and instruction are central to academic success. Therefore, Charter School will ensure that all students, including but not limited to, ELs, students with disabilities, socioeconomically disadvantaged/low-income students, and students achieving below grade level, have access to a high-quality core curricular and instructional program with appropriate services and support. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will also provide professional development to staff to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Charter School will implement the actions listed under this goal and use the indicated metrics, such as CAASPP assessment results, to measure progress in achievement of academic excellence and college/career readiness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of programs and services outlined in the charter petition, including a broad course of study, that are developed and provided to students, certain programs and services being dependent on student need and interest	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(Source: Local Indicator Priority 7, SIS)					
Percentage of students who have sufficient access to all programs and services developed and provided to unduplicated students and to individuals with exceptional needs (Source: Local Indicator Priority 7, SIS)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of state standards implementation for all students (Source: Local Indicator Priority 2)	2020-21: 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of completion of the formal and informal classroom observations by the school administration based on one formal and four informal observations per teacher per year (Source: TeachBoost)	2020-21: (As of 5/7/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%
Percentage of students who have	2020-21: (First semester)	2020-21: (Second semester)			2023-24: 80%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
received a grade of “C” or better (or performed “proficient” on the related state standardized tests) in core subjects and electives (Source: SIS)	75%	90%

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Broad course of study and standards-based curriculum	<p>Charter School will provide students with a broad array of courses including core subjects (English, mathematics, social sciences, and science) and electives. Charter School will also provide all other academic programs and services outlined in its charter petition, certain programs and services being dependent on student need and interest. Charter School will design its master schedule to meet the needs of its students to ensure all academic content areas are available to all students, including student groups. All students will participate in a rigorous, relevant, and coherent standards-based curriculum that supports the achievement of the schoolwide learner outcomes, academic standards, and college- and career-readiness standards. The school will be appropriately staffed to implement the school master schedule.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits, principal salary and benefits, and substitute teacher expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$1,207,109.87	No
2.2	Professional development for high-quality instruction	Professional development will occur at the MPS organizational level and within the school. Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers	\$31,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observation, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs.</p> <p>Expenditures associated with this action include the following: professional development, tuition reimbursement, and TeachBoost software fees.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Tuition reimbursement for professional development: Resource: Title II, Part A; Amount: \$9,578.00 		
2.3	MTSS - Academic enrichment, intervention, and student support	Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into	\$362,512.95	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.)</p> <p>Expenditures associated with this action include the following: Dean of Academics salary and benefits, Title-I coordinator salary and benefits, instructional aide salaries and benefits, intervention teacher salaries and benefits, teacher stipends for after school, Saturday school, and summer school, NWEA MAP testing fees, Illuminate DnA fees, and evidence-based supplemental intervention/enrichment program fees (IXL, Quizizz, BrainPOP, Membean, Nearpod, EdPuzzle)</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • NWEA MAP testing fees: Resource: Title I, Part A; Amount: \$6,000 • Evidence-based supplemental intervention/enrichment program fees (for the programs listed in the expenditures description above): Resource: Title I, Part A; Amount: \$10,457 • Instructional Aide Salaries and Benefits: Resource: Title I, Part A; Amount: \$15,710 		

Action #	Title	Description	Total Funds	Contributing
2.4	Designated and integrated ELD programs	<p>Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences.</p> <p>Expenditures associated with this action include the following: EL coordinator salary and benefits, EL coordinator stipend, EL instructional aide salary and benefits, and Rosetta Stone program fees.</p> <p>The following expenditures will be funded by federal Title funds:</p>		Yes
2.5	Support for students with disabilities	Students with disabilities will receive services and supports as listed in their Individualized Education Programs (IEPs) (in addition to services they receive pertinent to low income, foster youth and English learner	\$783,035.90	No

Action #	Title	Description	Total Funds	Contributing
		<p>designations) in order to improve outcomes and close the achievement gap, including graduation rate and performance on statewide assessments. Students with disabilities will have access to all additional intervention and student support systems as outlined in Goal 2: Actions 3 and 4, as well as access to push-in and pull-out services, instructional aides, learning center services, and contracted services to provide each scholar with a Free and Appropriate Public Education in their least restrictive and most accessible learning environment. Students with disabilities dually identified as EL will have ELD goals in their IEPs in addition to goals addressing their specific areas of need based on their eligibility. Our SPED, EL, and general education teams will work in collaboration, monitor our scholars' progress toward IEP goal mastery, and provide progress reports to parents. In addition, all IEPs will be reviewed and present levels will be updated during annual and triennial reviews as required by the IDEA.</p> <p>Expenditures associated with this action include the following: SPED coordinator and teacher salaries and benefits, paraprofessional salaries and benefits, school psychologist salary and benefits, SPED intern salaries and benefits, outsourced SPED services fees, and SPED instructional materials and technology.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2: Action 1: Planned:\$1,207,109.87 Actual: \$1,245,468.61. There is no substantive differences in planned action and actual implementation of the action except for the additional use of substitute teachers as a result of absences due to Covid-19.

Goal 2: Action 2: There is no substantive differences in planned action and actual implementation of the action.

Goal 2: Action 3: There is no substantive differences in planned action and actual implementation of the action.

Goal 2: Action 4: The expenses for this action are covered under action 1.

Goal 2: Action 5: There is no substantive differences in planned action and actual implementation of the action

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2: Action 1: Planned:\$1,207,109.87 Actual: \$1,245,468.61. There is no significant difference in the planned vs actual expenditures for action 1.

Goal 2: Action 2: Planned: \$31,000.00 Actual: \$28,464.00 There is no significant difference in the planned vs actual expenditures for action 2.

Goal 2: Action 3: Planned: \$362,512.95 Actual: \$350,240.99. There is no significant difference in the planned vs actual expenditures for action 3.

Goal 2: Action 4: The expenses for this action are covered under action 1.

Goal 2: Action 5: Planned: \$783,035.90 Actual: \$812,396.99 There is no significant difference in the planned vs actual expenditures for action 5.

An explanation of how effective the specific actions were in making progress toward the goal.

Goal 2: Action 1: We were able to provide all the courses we planned to offer.

Goal 2: Action 2: We created a professional development calendar and we were able to follow it with minor changes. The changes were due to Covid restrictions.

Goal 2: Action 3: Data shows that most of our students showed growth regardless of all the covid limitations. We will continue to offer additional support in academics, SEL and mental health areas.

Goal 2: Action 4: 8 of our 31 students are eligible to be reclassified. This data shows that we are on track.

Goal 2: Action 5: This year we added more support for our students with disabilities due to academic data and the behavior data.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will not have any significant changes to our actions as this year was a transition year. We will analyze and reflect/reshape our goals and actions next year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	INNOVATION: All students will have access to a well-rounded education that supports their readiness for college and the global world. Each student will become an independent, innovative scholar by practicing creativity in learning and using technology in transformative ways.

An explanation of why the LEA has developed this goal.

It is the Charter School’s vision that our graduates are well-rounded critical thinkers and problem solvers who contribute to the global community. A significant step toward helping our students achieve their maximum potential involves providing a rigorous, relevant and college preparatory curriculum with a STEAM emphasis. Therefore, we will design educational experiences to meet the needs of our scholars with an emphasis on innovation and critical thinking. Charter School will also promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts to our physical education program. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in provision of an innovative, well-rounded education that supports student readiness for college and the global world.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 27%	2021-22: (As of 5/13/22) 23%			2023-24: 20%
Percentage of students in the current graduating class who	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

have taken a Computer/Technology course and/or experienced blended learning in their program of study (Source: Local Indicator Priority 7, SIS)					
Percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year (Source: Local Indicator Priority 7, SIS)	2020-21: (As of 4/16/21) 100%	2021-22: (As of 5/13/22) 100%			2023-24: 100%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	College/Career readiness programs and activities	<p>Charter School will promote a college-going culture through college visits, college/career days, and other college related activities.</p> <p>Expenditures associated with this action include the following: college/career related materials and activities.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes

Action #	Title	Description	Total Funds	Contributing
3.2	STEAM and GATE programs	<p>Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. Learners will be challenged to investigate, use problem-based learning, and research.</p> <p>Expenditures associated with this action include the following: supplemental science program fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		Yes
3.3	Digital literacy and citizenship programs	<p>Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited</p>	\$4,300.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette.</p> <p>Expenditures associated with this action include the following: computer teacher salary and benefits, internet security program fees, and digital literacy and citizenship program fees and Sound Trap Music Software .</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Sound Trap : Title IV, Part A; Amount: \$800 		
3.4	Physical education, activity, and fitness	<p>Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness.</p> <p>Expenditures associated with this action include the following: PE/Health teacher salary and benefits and physical activity, fitness, and equipment expenses.</p>	\$175,743.44	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> Physical activity, fitness, and equipment expenses: Resource: Title IV, Part A; Amount: \$700 		
3.5	Additional programs and activities that support well-rounded education	<p>In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others.</p> <p>Expenditures associated with this action include the following: teacher salaries and benefits for additional programs that support well-rounded education, supplemental materials, field trip expenses, and afterschool/club expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$234,697.92	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	CONNECTION: All students, families, staff, and other stakeholders will have access to meaningful engagement opportunities that help cultivate leadership, advocacy, and collaboration in a safe and nurturing environment. Stakeholders will feel a sense of community and connectedness.

An explanation of why the LEA has developed this goal.

School communities are integrated partnerships with the school site staff, families, students and all other stakeholders. This sense of connection creates a safe place for all learners and stakeholders to affirm individual strengths, develop capacity, celebrate character, build trusting and respectful relationships, promote unity and better decision making. Additionally, community cultivates identity and gives each member a sense of belonging and pride. Charter School will seek family input for decision making, utilize home visits and stakeholder surveys, and provide academic and social-emotional support through MTSS/PBIS. We will work with community partners to support the vision and goals of the school, including our students’ development of personal and academic networks for long-term resilience and connection. Charter School will implement the actions listed under this goal and use the indicated metrics to measure progress in sustaining a sense of community and connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Number of School Site Council (SSC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 1	2021-22: (As of 5/13/22) 3			2023-24: 4
Number of English Learner Advisory Committee (ELAC) meetings per year (Source: Local Indicator Priority 3)	2020-21: (As of 5/16/21) 2	2021-22: (As of 5/13/22) 2			2023-24: 4

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Seeking family input for decision making	Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and		Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessment, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement.</p> <p>Expenditures associated with this action include the following: parent meeting expenses and Document Tracking Services (DTS) fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>		
4.2	Building partnerships with families for student outcomes	<p>Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using</p>	\$288,273.35	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable.</p> <p>Expenditures associated with this action include the following: Infinite Campus SIS fees, ParentSquare software fees, SchoolMint software fees, home-visit compensation, parent activity/event expenses, Parent Education Bridge program fees, Pitney Bowes expenses, Dean of Culture salary and benefits, and Office manager/Administrative assistant salaries and benefits.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • Stipends for home visits: Resource: Title I, Part A; Amount: \$10,000 • ParentSquare software fees: Resource: Title I, Part A; Amount: \$3,000 • Parent Education Bridge program Staff Stipends: Resource: Title I, Part A; Amount: \$4,000 • Parent activity/event expenses: Resource: Title I, Part A; Amount: \$XX,XXX 		
4.3	MTSS - PBIS and SEL support	<p>Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill</p>	\$44,508.20	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Dean of Students salary and benefits, discipline coordinator salary and benefits, office/attendance clerk salaries and benefits, school uniform fees, PD on classroom management, PBIS, and SEL support, SEL program fees, outsourced SEL services fees, and additional services for homeless students.</p> <p>The following expenditures will be funded by federal Title funds:</p> <ul style="list-style-type: none"> • PBIS program fees : Resource: Title IV, Part A; Amount: \$5,000 		

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> Additional services for homeless students: Resource: Title I, Part A; Amount: \$2,750.00 		
4.4	Annual stakeholder surveys	<p>Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps.</p> <p>Expenditures associated with this action include the following: Panorama Education survey fees.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p>	\$2,000.00	Yes
4.5	Community outreach and partnerships	<p>Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and</p>	\$20,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education.</p> <p>Expenditures associated with this action include the following: membership fees (CCSA, WASC, etc.), marketing, branding, outreach, and partnership expenses.</p> <p>The following expenditures will be funded by federal Title funds: N/A</p> <ul style="list-style-type: none"> • Partnership expenses: Resource: Title IV, Part A; Amount: \$XX,XXX 		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
	0.00%	\$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1: Action 4: Healthy and nutritious meals

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. Finally, there is evidence that adequate hydration is associated with better cognitive performance. With consideration of the importance of good nutrition, Charter School will maintain nutrition education resources and continue to focus on innovative ways to increase access to freshly prepared, nutritious foods to ensure students are well-nourished and ready to learn. Low-income students are eligible to receive reduced-price or free meals at school and this action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. Charter School will promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. Charter School will

adhere to the MPS Wellness Policy guidelines on nutritious foods for all food sales and celebrations. We expect the meal program will help improve the diet and health of our students and mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 2: Action 2: Professional development for high-quality instruction

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Addressing the unique needs of students from diverse backgrounds is a major challenge because our teachers need to be prepared with the relevant content knowledge, experience, and training, with a focus on cultural and linguistic characteristics of our diverse learners. With the needs of our diverse student body in mind, Charter School will ensure curricula, instruction, and assessments are aligned to the standards and that teachers participate in professional development on the implementation of standards (CCSS, NGSS, etc.) In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs. Instructional leaders at the school and at the Home Office will assess staff professional development needs through formal and informal performance observations, surveys, and student performance data. Based on the data, combined with LCAP goals and the MPS Home Office high quality instruction guidelines, the instructional leaders will determine common staff development days and tailor staff development to individual staff needs. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increased academic achievement of our student groups on the CA School Dashboard, CAASPP assessments, MAP assessments, and student grades as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention, and student support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. Most of our low-income students have parents working multiple jobs and need academic support. Foster youth and English learners may experience feelings of anxiety and confusion. Students struggle with access to materials, technology, and a quiet, private place to study. There are gaps in their learning that need individualized attention. Considering the needs of our vulnerable student groups in mind, Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is

practiced across all levels of the educational system for supporting students. Charter School will synthesize CAASPP and MAP student achievement and growth data, as well as course grades, and other state and internal assessment scores, into reports and regularly review progress towards targets. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) We expect that these student supports and interventions will provide increased and improved services for all our unduplicated students who need extra support and attention. This action was found effective in the current school year and will be continued in the coming school year. It will be provided on a schoolwide basis and we expect all student groups to show academic growth as measured by the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, and other metrics as identified in our LCAP metrics in Goal 2.

- Goal 2: Action 4: Designated and integrated ELD programs

The majority of Charter School's student population consists of English Learners (EL), Reclassified Fluent English Proficient (RFEP) students, and students with disabilities, many of whom are dually identified as EL. ELs need designated English language development instruction. Emerging ELs lack English speaking experience and struggle to communicate. Both ELs and RFEPs have a strong need for meaningful connections among fundamental concepts in the curriculum to their prior knowledge and experiences. They need additional literacy instruction, support, and interventions. Teachers of ELs need to have knowledge of EL strategies and culturally responsive instruction. Considering the needs of our ELs, Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners. This action was found effective in the current school year and will be continued in the coming school year. While some of the actions described here, including the designated ELD instruction, will be targeted only to ELs, the rest of the actions, including integrated ELD instruction, will be provided for all students. RFEP students, students with disabilities, and all other student groups will benefit from this schoolwide action. We expect this action will result in increased academic achievement of our student groups, particularly of our ELs, on the CA School Dashboard, CAASPP assessments, MAP assessments, student grades, Lexile growth, and EL reclassification rates as identified in our LCAP

metrics in Goal 2.

- Goal 3: Action 1: College/Career readiness programs and activities

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. A college-going, supportive culture at the school is necessary for our students' college/career readiness. With the needs of our unduplicated students in mind, Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These activities are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will result in increases in student grades, attendance rates, and percentage of students enrolled in accelerated programs and involved in STEAM activities, eventually leading to students taking rigorous courses in high school to better prepare for college and career.

- Goal 3: Action 2: STEAM and GATE programs

Charter School has a vision to help reverse the tide of U.S. students falling behind their peers in other nations in critical subjects like math and science. We strive to graduate students who come from historically underserved neighborhoods as scientific thinkers that contribute to the global community as socially responsible and educated members of society. Charter School's educational approach is based on the conviction that STEAM education is essential to improving our modern society's knowledge base and adaptability to the fast pace of ever-changing technological advancements. Historically, the number of African American and Latino students pursuing careers in STEAM fields has been very low. Research suggests that a significant cause of these low numbers is that students have inadequate exposure to intensive STEAM curricula. Charter School strives to address the shortage by inspiring and preparing students to choose career paths in science and technology. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students of color, English learners, and students with disabilities. With the needs of our community in mind, Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. With CA Science Framework and NGSS integration, all our students will learn about engineering design, technology, and applications of science as part of their core classes. Furthermore, Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities. Gifted and talented students and students achieving above grade level will be engaged in all classes as teachers differentiate curriculum through adjustments of content through depth, complexity, and pacing. Emphasis will be on innovation, critical thinking, and logical reasoning. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will

challenge our learners to investigate, use problem-based learning, research, and help become independent and innovative scholars. Goal 3 includes metrics for the percentage of students enrolled in an Accelerated and/or Advanced Math course and/or Advanced Math club, percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study, and percentage of students who have created or demonstrated a STEAM focused project, experiment, model or demo in the current year.

- Goal 3: Action 3: Digital literacy and citizenship programs

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities, many of whom are dually identified as EL. These student groups have social and emotional conditions that influence academic learning and effective literacy, communication, and presentation skills. Most of our low-income students struggle with access to technology as well. Our students have a great need to learn ways to utilize technology in an effective and responsible way. With such needs of our students in mind, Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students. This action was found effective in the current school year and will be continued in the coming school year. We expect this schoolwide action will help our students expand their knowledge and skills in an ever-evolving digital world. Goal 3 includes a metric for the percentage of students in the current graduating class who have taken a Computer/Technology course and/or experienced blended learning in their program of study.

- Goal 3: Action 4: Physical education, activity, and fitness

MPS is committed to the optimal development of every student. Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities do better academically. With consideration of the importance of physical fitness, Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds

and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. With the needs of low-income students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help improve the health of our students and model physical fitness to support the development of lifelong healthy living patterns. We also expect this action will result in increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Traditionally, schools focus on ELA and math interventions to address the learning gap between vulnerable student groups and their peers. Other important well-rounded programs such as arts, music, civics, and languages other than English may not get the same attention. On the other hand, well-rounded programs help students develop competencies and creative skills in problem solving, communication, and management of time and resources that contribute to lifelong learning and career skills. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. Arts instruction focuses on developing students' creativity, imagination, discipline and self-expression through drawing and fine arts. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, language other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students. With the needs of our unduplicated students in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help our scholars become independent and innovative scholars. We also expect this action will result in increased academic achievement as measured by the LCAP metrics in Goal 2 as well as increased student belonging as measured by the annual student surveys in Goal 4: Action 4.

- Goal 4: Action 1: Seeking family input for decision making

It is important that parents are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. This includes reviewing the school's goals, actions, programs, data, and funds, including evaluation of actions and programs and effective use of funds. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have

parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to engage parents in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage parents in decision making. Considering the needs of our unduplicated students and their families, Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provides valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budgets, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in decision making. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision making as well as progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community. We also expect this action will result in increased parent satisfaction as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than thirty years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.) To engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in our school community. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Most of our low-income students have parents working multiple jobs. Parents of our ELs need capacity building to support the needs of our ELs. In order to build partnerships with our families for student outcomes, Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered

include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help further engage our families in building partnerships with the school for student outcomes. Charter School utilizes the self-reflection tool for Local Priority 3, i.e., Parent and Family Engagement, to measure progress in creating welcoming environments and building trusting and respectful relationships with families, developing multiple opportunities for 2-way communication between families and educators using language that is understandable and accessible to families, and providing families with information and resources to support student learning and development in the home. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased home visit rate and ADA rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 3: MTSS - PBIS and SEL support

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. These student groups also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with valuable skills to support academic excellence and social skill development. We will annually assess our suspension/expulsion policies and procedures and implement alternatives to suspension/expulsion, including restorative practices. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS

SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students. With the needs of our vulnerable students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide a foundation for safe and positive learning, and enhance students' mental health and abilities to succeed in school, careers, and life. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured by the annual stakeholder surveys in Goal 4: Action 4.

- Goal 4: Action 4: Annual stakeholder surveys

It is important that parents, students, and staff are engaged in the development of all school plans, including, but not limited to, the LCAP, SPSA (Charter School uses the LCAP to serve as the SPSA), and WASC Self-Study. Charter School wishes to engage all parents, to the extent applicable, in the process of school review and improvement. The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. To engage all students and families equitably, it is necessary to understand the cultures, languages, needs and interests of students and families in our school community. Stakeholder voices, i.e., voices of our students, families, staff, and other school community members, play a powerful role in helping us learn how to improve our teaching, leadership, and other school practices. In order to engage stakeholders in an organized, ongoing and timely manner in the planning, review and improvement of our programs, Charter School needs to provide multiple channels to engage stakeholders in decision making. Surveys have been the primary means of collecting student, family, and staff voices about what we are doing great and should keep doing, and what areas for improvement are so we can continue to provide our students with the best quality education. Considering the needs of our unduplicated students and their families, MPS uses an online platform to provide students, families, and staff with groups of questions that measure their perceptions of teaching and learning, as well as their perceptions of school climate and safety. This feedback instrument provides teachers and school leaders with valuable data about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will help provide valuable feedback for school

improvement. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

- Goal 4: Action 5: Community outreach and partnerships

The majority of Charter School's student population consists of low-income and socioeconomically disadvantaged students, English learners, and students with disabilities. Our low-income students come from underserved communities that do not have adequate resources and access to experiential learning opportunities. Many of our students are also the first generation in their families who will attend college. Most of them lack parental support and experience financial difficulties. Our students have a great need for guidance about college/career choices and support for preparation. These student groups have social and emotional conditions that influence academic learning, as evidenced by the performance gaps on the CA School Dashboard, CAASPP results, and other available data. They also have lower ADA rates while they have higher chronic absenteeism and office referral rates. Children living in poverty are more likely to incur more adverse childhood experiences including abuse, neglect, exposure to neighborhood violence, or an incarcerated parent. Foster youth and English learners may experience feelings of anxiety and confusion. Charter School needs to take action to address the unique academic, social and emotional needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. Considering the needs of our vulnerable student groups in mind, Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities will result in increased and improved resources for our unduplicated students and will be particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints. With the needs of our unduplicated students and their families in mind, this action will be provided on a schoolwide basis. It was found effective in the current school year and will be continued in the coming school year. We expect this action will provide students and families with information and resources to support student learning and development. We also expect this action will result in increased academic achievement and lifelong learning as measured by the LCAP metrics in Goals 2 and 3, increased ADA rate, and graduation rate, and decreased chronic absenteeism rate, dropout rate, and student suspension/expulsion rates as measured in Goal 4. We also expect this action will result in increased student, parent, and staff satisfaction rates as measured in Goal 4.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Charter School will increase or improve services provided for unduplicated students by at least the percentage calculated as compared to the services provided for all students in the LCAP year. Services are increased (in quantity) or improved (in quality) by those actions in our LCAP that are included in the Goals and Actions section as "contributing" to the increased or improved services requirement. We expect that these

actions will result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services we provide to all students. Charter School will increase or improve services for our unduplicated students through the following actions:

- Goal 1: Action 4: Healthy and nutritious meals

Low-income students are eligible to receive reduced-price or free meals at school. Charter School will maintain nutrition education resources and promote healthy food and beverage choices for all students throughout campus, as well as encourage participation in school meal programs. This action will result in increased and improved services, particularly for our low-income students, who may not have access to nutritious meals and are experiencing poor health outcomes.

- Goal 2: Action 2: Professional development for high-quality instruction

Professional development will occur at the MPS organizational level and within the school. In addition to ongoing professional development activities that support efforts to increase student academic performance, all staff will be provided with multiple opportunities to grow professionally through induction processes, regular collaboration with colleagues, and curricular support. This involves instructional leadership, common walkthrough protocols using the TeachBoost software, and professional feedback to promote a cycle of continuous improvement, as well as supports for high quality delivery of the program that enables differentiation, particularly for unduplicated students and students with exceptional needs.

- Goal 2: Action 3: MTSS - Academic enrichment, intervention and student support

Charter School will implement MTSS as a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. Targeted interventions will be utilized to create a high-quality differentiated environment where students are supported to engage at their optimal levels. Charter School will provide additional supports and interventions to all students, including but not limited to, 1-1 or small group interventions, targeted support via evidence-based supplemental intervention/enrichment materials and technology (reading, math, etc.), co-taught classes, Power English/Power Math classes, Study Skills, additional support during SSR/Advisory, before and after school tutoring, Saturday classes, and summer programs. SSPT, 504, and other support meetings will be coordinated among teachers and support roles (resource teachers, EL coordinator, department chairs, etc.) These student supports and interventions will provide increased and improved services for all our unduplicated students who would need the extra support and attention.

- Goal 2: Action 4: Designated and integrated ELD programs

Charter School will provide services to ELs by proficiency level and provide ELD instruction aligned to the CA ELD standards and framework. Charter School will provide our ELs with core and supplemental ELD instructional materials and provide our teachers with PD focused on ELD standards. Our EL coordinator will monitor EL student progress in program implementation according to our EL Master Plan. Charter School teachers will provide instruction using designated and integrated ELD instructional strategies as outlined in the CHATS framework (and other research-based strategies such as SDAIE) to all students, including ELs. Charter School will provide culturally and linguistically relevant materials for students. ELs will receive further in-class instructional support which includes one-on-one teacher support and small group instruction. Charter School will strive to provide bilingual instructional assistants to provide primary language support to enable students to access content area instruction while gaining language proficiency. Charter School will ensure that teachers participate in PD on ELD instructional strategies and CHATS framework. Charter School will provide regular and timely communication with families of EL

students regarding annual assessments, program supports and services, and students' progress toward reclassification. This notification will include, but is not limited to, annual parent notification letters, quarterly ELAC meetings, and parent-teacher conferences. These supports and services will provide increased and improved services for our English learners.

- Goal 3: Action 1: College/Career readiness programs and activities

Charter School will promote a college-going culture through college visits, college/career days, and other college related activities. These services are particularly helpful for first-generation college-bound students who lack parental support strategies and experience financial constraints.

- Goal 3: Action 2: STEAM and GATE programs

Charter School will offer STEAM and GATE programs and activities, including Accelerated/Advanced Math course and club. Students will be provided opportunities during the day and after school to create or demonstrate a STEAM focused project, experiment, model or demo. We will also provide information and access to quality out-of-school STEAM activities and achievements. Charter School will design and implement engineering-related courses and activities, such as Code.org activities, Project Lead the Way (PLTW) programs, Robotics, etc. Unduplicated students will receive increased and improved support through access to supplemental STEAM programs and activities.

- Goal 3: Action 3: Digital literacy and citizenship programs

Charter School will educate our students and staff in digital literacy so that they adapt, create, consume, and connect in productive, responsible ways to utilize technology in academic, social, and professional settings. Charter School will offer Computer/Digital Literacy classes and/or blended learning experiences for our students. Teachers will participate in PD on Blended Learning and technology will be kept up to date. Students will be provided with opportunities to expand their literacy, computational, and communication skills with digital media; they will be writing advanced essays, conducting internet research, engaging in data collection, presenting ideas and drawing conclusions. Charter School staff will teach and model safe, savvy, and social digital citizenship; topics include, but are not limited to, using technology applications; digital footprint, privacy, and security; digital rights and responsibilities; using social media responsibly and digital etiquette. These activities will result in increased and improved services for our unduplicated students by expanding their knowledge and skills in an ever-evolving digital world.

- Goal 3: Action 4: Physical education, activity, and fitness

Charter School will provide students with physical education, using an age-appropriate, sequential PE curriculum consistent with state standards for PE. The curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. Charter School will offer recess before lunch and students will be provided with periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. To the extent practicable, Charter School will ensure that its grounds and facilities are safe, and that equipment is available to students to be active. Charter School will offer opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods such as physical activity/sports clubs, intramurals or interscholastic sports, etc. Charter School will adhere to the MPS Wellness Policy guidelines on physical education, activity, and fitness. These activities will result in increased and improved services, particularly for our low-income students who may not have a physically active and healthy lifestyle.

- Goal 3: Action 5: Additional programs and activities that support well-rounded education

In an effort to provide well-rounded education to our students, Charter School will strive to offer additional programs such as elective courses, arts, music, civics, languages other than English, clubs, etc. It is important that all our students, particularly unduplicated students, are provided with experiential learning opportunities, including but not limited to, instructional field trips, internships, community service programs, clubs, etc. Charter School teachers and other staff will offer after school clubs for enrichment in the areas of, including, but not limited to, math, science, technology, engineering, ELA, languages other than English and culture, sports, visual and performing arts, community service, and others. These well-rounded programs and activities will result in increased and improved services for our unduplicated students.

- Goal 4: Action 1: Seeking family input for decision making

Charter School will hold periodic meetings to gather input from our families. Information/input sessions include Parent Advisory Committee (PAC) meetings, Parent Task Force (PTF) meetings, School Site Council (SSC) meetings, English Learner Advisory Committee (ELAC) meetings, Coffee with the Principal meetings, and Board of Directors meetings. Parents on our PTF and SSC also serve as our Parent Advisory Committee (PAC) for LCAP. Along with ELAC, such committees provide for representation of students in need (low income, English learners, foster youth, etc.) Feedback from our PAC, SSC, and ELAC provide valuable input for the LCAP. Charter School chooses to utilize the LCAP to serve as the SPSA. Charter School will also hold an annual meeting to inform parents and collect feedback about LCAP goals and actions, data and needs assessments, Title-funded activities and budget, UCP, parent involvement policy and school-student-parent compact. In addition, Charter School will conduct parent surveys to seek feedback on school improvement. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 2: Building partnerships with families for student outcomes

Charter School will build trusting and respectful relationships with parents through activities/events, including Student/Parent Orientation, Back to School Night, and parent conferences to promote parental participation in programs. Administrators will greet all students and parents in the mornings during student drop off and have an open-door policy welcoming all parents. Charter School will provide parents with access to course materials, homework assignments, projects, and records of students' grades through our SIS. Charter School will communicate further with the parents of students who are performing below grade level. Our teachers, administrators, and classified staff will visit students at their homes to discuss student progress and enhance student learning and involvement. Charter School will schedule annual workshops for parents as well as additional workshops for parents of EL and immigrant students. Topics to be covered include, but are not limited to, the school's EL Master Plan, stages of language acquisition, state testing, college application, using SIS to check student progress, study habits, and family literacy. Charter School will use a variety of communication channels to connect with families in a language that is understandable and accessible to them. A parent communication software will be utilized for voice and text communications, email, and push notifications. We will provide language translators at parent meetings to the extent practicable. These activities will result in increased and improved services for our unduplicated students and their families.

- Goal 4: Action 3: MTSS - PBIS and SEL support

Charter School will provide a safe, nurturing, and engaging learning environment for all our students and families. Academic and social-emotional support will be provided to address student needs as well as instructional materials including free uniforms. Students who are homeless, experiencing housing instability, are in foster care or experiencing personal/family crisis or have other special needs will be cared for in our supportive school community. Charter School will offer a Life Skills/Character Education program that provides students with

valuable skills to support academic excellence and social skill development. Teachers will establish classroom management procedures, foster positive relationships, and help create an atmosphere of trust, respect, and high expectations. Charter School will implement a positive and equitable student responsibility and behavior system with teaching, intervention and prevention strategies and protocols that are clear, fair, incremental, restorative, and culturally responsive. Charter School will celebrate student and school achievements and organize recognition assemblies and other schoolwide culture-building activities. Charter School will inform parents and students of attendance policies specified in the Student/Parent Handbook and encourage and support student attendance. Charter School will also implement the CORE DISTRICTS SEL Survey instrument in the fall and spring annually to assess the following social-emotional competencies: growth mindset, self-efficacy, self-management, and social awareness. As part of our MTSS efforts, school leadership, teachers, and support staff will analyze student SEL survey results in the fall to provide our students with targeted social-emotional support and then measure student responses again in the spring to measure growth, identify greatest progress and needs in order to inform our next steps. These activities will result in increased and improved PBIS and SEL support for our unduplicated students, as well as additional supports for homeless and immigrant students.

- Goal 4: Action 4: Annual stakeholder surveys

Charter School will annually administer school experience surveys to students, parents, and staff. Charter School will implement the CORE DISTRICTS Survey instrument to assess our stakeholders' perceptions of the following school climate indicators: climate of support for academic learning; knowledge and fairness of discipline, rules and norms; safety; and sense of belonging (school connectedness). In addition, we ask our stakeholders open-ended questions about what they like the best and the least about the school and suggestions for improvement. This feedback instrument provides all staff and school leaders with valuable information about how students see their classes, how much parents are involved, how supported staff feel and how to facilitate improvement. Our staff will analyze the survey results to identify the greatest progress and needs in order to inform our next steps. The surveys help identify and plan for increased and improved services for our unduplicated students and their families.

- Goal 4: Action 5: Community outreach and partnerships

Charter School will establish community, business, institutional and civic partnerships that invest in and support the vision and goals of the school. School staff will participate in local activities that engage community members and staff in communicating school successes to the broader community. Charter School will secure community support to sustain existing resources and add new resources that address emerging student needs. Charter School leadership will actively develop relationships with a range of stakeholders, policymakers, and researchers to identify and address issues, trends, and potential changes that affect the context and conduct of education. These activities result in increased and improved resources for our unduplicated students.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students		

2022-23 Total Expenditures Table

Totals	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds	Total Personnel	Total Non-personnel
Totals	\$3,623,824.10	\$841,239.63	\$30,000.00	\$285,669.90	\$4,780,733.63	\$3,075,712.84	\$1,705,020.79

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
