

Agenda Item:	III A: Information/Discussion Item
Date:	February 8, 2024
To:	Magnolia Educational & Research Foundation dba Magnolia Public Schools (“MPS”) Board of Directors (the “Board”)
From:	Alfredo Rubalcava, CEO & Superintendent
Staff Lead(s):	David Yilmaz, Chief Accountability Officer
RE:	Data Presentation: MPS’ Performance on the CA School Dashboard

1. Action Proposed:

N/A

2. Purpose:

To inform our educational partners about MPS’ performance on the 2023 CA School Dashboard. Review of data is essential to understand trends and to reflect and act for continuous improvement.

3. Background:

The California School Dashboard (Dashboard) is an online tool designed to help communities across the state access important information about kindergarten through grade twelve schools and districts. The Dashboard features easy-to-read reports on multiple measures of school success. The Dashboard represents one of many steps taken over the past decade that have raised the bar for student learning, increased the focus on equity, and expanded the review of performance data to a specific set of state and local measures. For more information, please visit the Dashboard website at <https://www.caschooldashboard.org/>.

The Dashboard provides a report for each school, but there is no aggregate report for a charter school organization with multiple schools. To display MPS’ performance on one page with each school’s data, we have created an internal accountability page which allows convenient comparison of an MSA with another MSA, with the local districts and the state. Having the data on one internal Dashboard page also allows us to see the larger organizational picture in terms of student groups, e.g., how Students with Disabilities performed at one MSA vs. at another MSA. The internal Dashboard page helps guide discussions, share best practices, and plan next steps during our monthly school leader meetings. Some of the charts and visuals from this page are included in the attached report as well.

We intend to present the academic committee and the Board our CA School Dashboard data on an annual basis around January/February.

4. Analysis:

Please see the attachment for an analysis of our data and let us know if you have any questions

about MPS' performance on the 2023 CA School Dashboard.

5. **Impact:**

MPS is a data-driven organization where the Home Office and the school leadership and office teams closely monitor our student achievement data. The data is regularly shared and reviewed with the school teams. The Home Office academic and accountability teams guide discussion with the school teams, sharing of best practices, and planning of next steps.

California also offers a system of support that includes three levels of support to LEAs and schools. Level 1 support is for all LEAs and schools. Level 2 support is differentiated assistance for LEAs, in the form of individually designed assistance, to address identified performance issues, including significant disparities in performance among student groups. Level 3 support is when the State Superintendent of Public Instruction requires more intensive interventions for LEAs with persistent performance issues and a lack of improvement over a specified time period. Based on the 2022 and 2023 Dashboard results, MSA-1 and MSA-Bell have been determined to be eligible for Level 2 support, i.e., Differentiated Assistance (DA).

6. **Budget Implications:**

N/A

7. **Exhibits:**

2023 CA School Dashboard

State Measures

State Measures

Six state measures allow for comparisons across schools and districts.

- Academic Performance
- English Learner Progress
- Chronic Absenteeism
- High School Graduation Rate
- College/Career Readiness
- Suspension Rate

Results are presented for all districts, schools, and defined student groups (e.g., racial/ethnic groups, low income, English learners, homeless, foster youth, and students with disabilities).

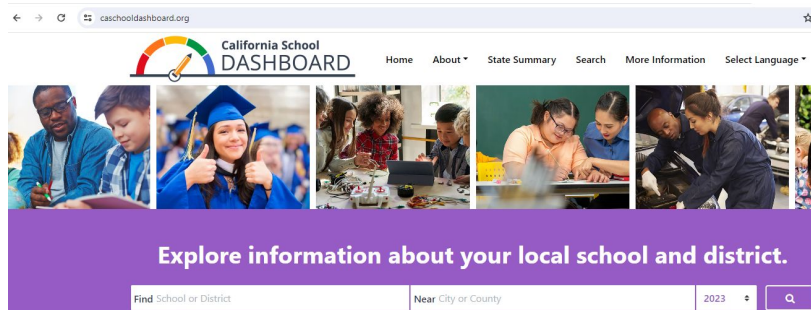

For the 2023 Dashboard, schools and districts receive one of five performance levels for each eligible state measure except for College/Career Readiness. The performance levels are determined using current year and prior year data and are represented by a color ranging from Red to Blue.

Schools and districts with high school graduates will receive a Status Level (as shown in the image below), ranging from Very Low to Very High, for College/Career Readiness, which is reflective of what students achieved in high school up until the 2022–23 school year and does not compare against prior year data.

caschooldashboard.org

The California School Dashboard provides parents and educators with meaningful information on school and district progress so they can participate in decisions to improve student learning.

LEAs, schools, and student groups must have at least **30 or more** students in both the current and prior year in the **denominator** of the state indicator to receive a Performance Level (color).

2023 CA School Dashboard

How Color is Determined

Status

Level	Change				
	Declined Significantly from Prior Year	Declined from Prior Year	Maintained from Prior Year	*Increased from Prior Year	Increased Significantly from Prior Year
Very High in Current Year	Yellow	Green	Blue	*Blue	Blue
*High in Current Year	*Orange	*Yellow	*Green	*Green	Blue
Medium in Current Year	Orange	Orange	Yellow	Green	Green
Low in Current Year	Red	Orange	Orange	Yellow	Yellow
Very Low in Current Year	Red	Red	Red	Orange	Yellow

2022-23 ELA (3-8,11) - All Students Status

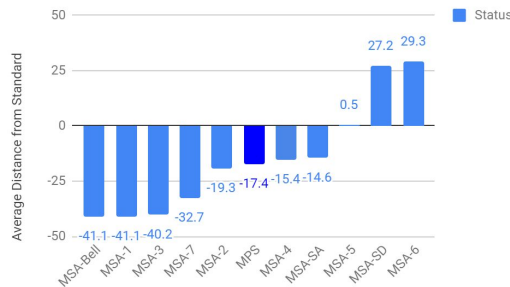

CEO Metric: All student groups across MPS will show growth on the CAASPP-ELA/Literacy assessments by a **3-point or more increase from the prior year** as measured by the CA School Dashboard.

Actual: Overall, MPS showed a **0.8-point increase**. **Five of 10 schools** showed a 3-point or more increase for schoolwide results. Detailed student group reports are attached.

2023 CA School Dashboard

CCSA Snapshots - State Rank

State Rank

CEO Metric: State Rank on the CCSA Snapshots report based on the averaging of ELA DFS* and Math DFS* on the CA School Dashboard

Target for 2024-25: **6**

Actual: 2022-23: **5**

2021-22: 5

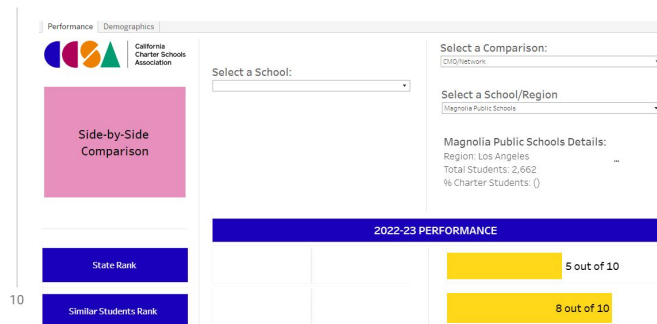

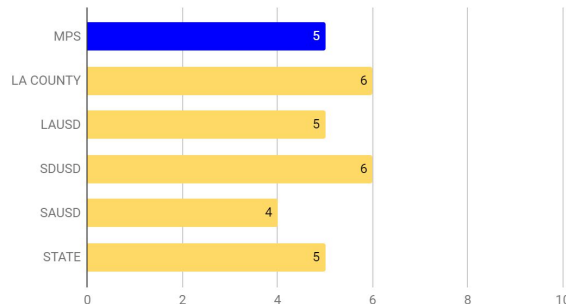

Overall, MPS has a state rank of **5**. **Six of nine schools** have a state rank of 5 or greater. **Four of nine schools** have a state rank of 6 or greater.

<https://www.ccsasnapshots.org/sidebyside>

State Rank

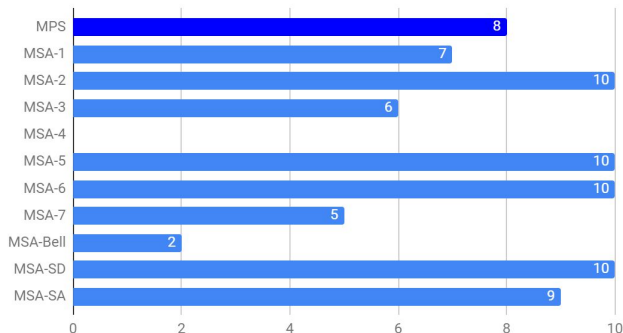

* DFS: Distance from Standard on the SBAC assessments, i.e., how far the average student is from meeting the grade-level standard.

2023 CA School Dashboard

CCSA Snapshots - Similar Students Rank

Similar Students Rank

CEO Metric: Similar Students Rank on the CCSA Snapshots report based on the averaging of ELA DFS* and Math DFS* on the CA School Dashboard in comparison to similar schools

Target for 2024-25: **8**

Actual: 2022-23: **8**

2021-22: 7

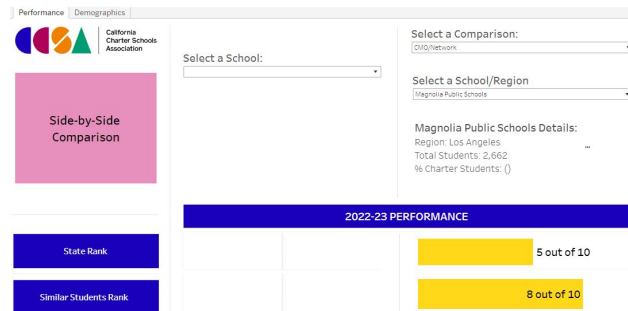

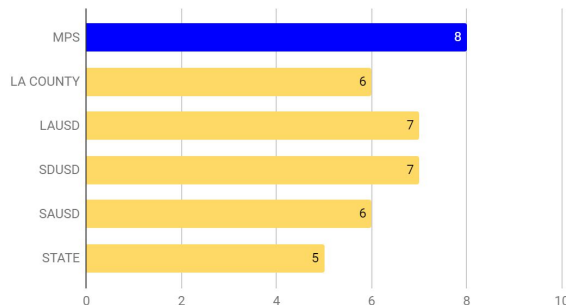

Overall, MPS has a similar students rank of **8**. **Five of nine schools** have a similar students rank of 8 or greater.
