

Board Agenda Item #	III B
Date:	09.14.2017
To:	Magnolia Board of Directors- Special Meeting
From:	Caprice Young, Ed.D. CEO & Superintendent
Staff Lead:	Erdinc Acar, MPS Regional Director
Re:	Approval of Vendor and Purchase of Chromebooks, iPads and Carts for MSA Santa Ana

Proposed Board Recommendation

I move that the board awards the winning bid according to vendor evaluation matrix and adopt the purchase of Chromebooks and iPads with carts for Magnolia Science Academy-Santa Ana. Should there be a similar need for any other Magnolia Public Schools, the approved vendor, machine model, and pricing will be utilized between dates July 1, 2017 – June 30, 2018.

Background

Due to the enrollment increase at MSA Santa Ana, the additional mobile devices for students need to be purchased.

We released RFP on August 15, 2017 and received the attached quote. Evaluation was based on the following factors.

Factor	Weight
Cost of products and services (required, highest weight)	40%
Functionality/completeness/specifications of proposed solution	30%
Vendor: qualifications, credentials, certifications, experience, references	20%
Contract terms and conditions	10%
Total	100.00%

Budget Implications

The purchase of the following items for MSA Santa Ana Chromebooks and iPads with carts is included in the FY 2017-18 board approved budgets:

300 Chromebooks and 10 Carts

- Vendor – **CDWG**
- Total – **\$79,056.79**

60 iPads and 2 Carts

- Vendor – **Apple for Education**
- Total – **\$23,286.09**

To: Magnolia Public Schools:

Thank you for the opportunity to respond to your request for proposal for MSA Santa Ana Chromebooks.

Arey Jones Educational Solutions (Arey Jones) is a nationally recognized leader in providing technology products, integration and services to schools and school districts. Our mission is to create superior learning environments through the practical use of technology.

Arey Jones was founded over 100 years ago, as a humble stationary and typewriter business. Broadway Typewriter "DBA" Arey Jones Educational Solutions has been under the current ownership of the Scarpella family for over 45 years. Today, Arey Jones is one of the leading educational technology suppliers to K-12 school districts nationwide, with a heavy concentration in the Southeast and West regions. Over 95% of our business is in the K-12 market. Our dedication to the K-12 market and our goal of total customer satisfaction uniquely positions us as the premier service provider for the technology needs of the Magnolia Public Schools.

The Executive Team and Scarpella Family believe in holding true to the value that is created in having a strong workforce that focuses on putting the customer first. Our team's commitment is responsible for our success in meeting varying technology needs of hundreds of school districts across the country.

Our award-winning status with top-tier manufacturers and our capabilities allows us to receive, warehouse, configure and deliver products from multiple manufacturers in the same delivery visit. As a trusted leader in educational technology, Arey Jones is committed to helping create fantastic learning environments using customized solutions to empower students.

As an opportunity to demonstrate our award-winning services successfully used by District nationwide, we are offering Magnolia Public Schools Chrome OS Enrollment and Cart Provisioning services at no cost for this project RFP.

This serves as formal acknowledgement and acceptance of all terms and conditions in the RFP document.

Sincerely,

Madeline Scarpella

Arey Jones has been a premier technology and services provider focused on education customers for over 30 years. Every day our professional services teams deploy hundreds of systems to classrooms and offices around the country and provide unmatched customer service. That said, our field teams are only part of what makes Arey Jones' professional services portfolio second to none. In this document we'll take a look inside our fulfillment centers where custom configuration, laser engraving, asset tagging and other core services take place.

Inside Our Fulfillment Centers

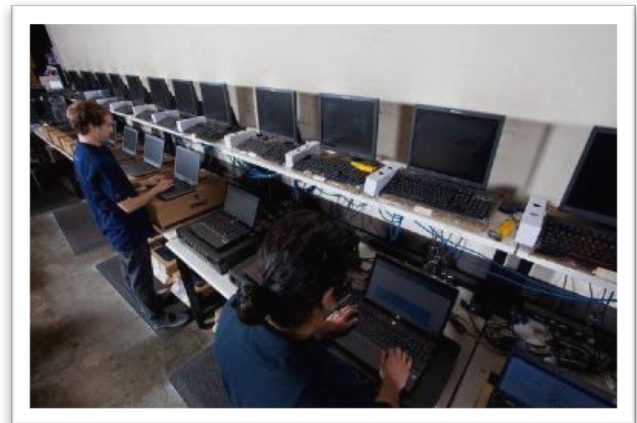

Arey Jones performs all imaging, asset tagging, consolidation and laser etching work in our state-of-the-art fulfillment centers. For many of our customers, we also perform other provisioning tasks such as domain join and configuration/provisioning tasks that would ordinarily be performed on-site via an optional site-to-site VPN connection.

Our unique experience with school districts of all sizes helps us understand how critical your technology implementation is in support of educational objectives. Proven processes and extensive customization options allow us to provide maximum flexibility to support your technology objectives regardless of size and scope.

Upon arrival of your order at our Fulfillment Center, all products are carefully logged, inspected and double-checked for accuracy. Each of our Fulfillment Centers provides a full array of customized solutions including:

- ✓ Secured & Bonded Warehouse
- ✓ Imaging and Configuration
- ✓ Configuration
- ✓ Pre and Post-Image Scripting
- ✓ Laser Etching
- ✓ Asset Tagging
- ✓ Order Consolidation
- ✓ Custom Component Installation
- ✓ Site-to-Site VPN Connection enables Advanced Configuration Options
- ✓ Secure Disk Erasure and Destruction
- ✓ Just-in-time Delivery

Arey Jones' nationwide network of fulfillment centers provides a variety of configuration and implementation services across leading platforms as well as for a variety of devices, including desktops, laptops, tablets, printers, servers and network/wireless equipment.

A look at the configuration departments inside our national fulfillment centers.

Arey Jones Configuration Department Services for Magnolia Public Schools

To demonstrate Arey Jones service capabilities, we are offering a one-time offer to provide Chrome enrollment and cart provisioning services.

Chrome: Device Enrollment

For our Chromebook enrollment service, Arey Jones upgrades the device to the latest version of Chrome OS available at the time the order is processed. Each Chromebook is then enrolled into the District's G-Suite domain using district-supplied credentials. Optionally, we can move Chromebooks into the appropriate organizational unit (OU) in the management console and populate key information fields such as, location, notes and asset id using a toolchain we developed in-house in collaboration with District IT departments.

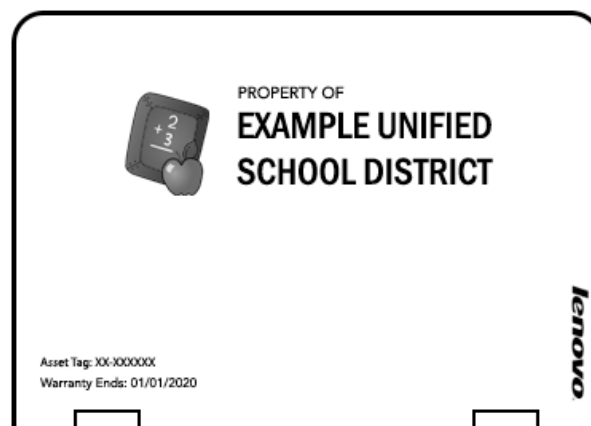

Standard Cart Provisioning

We pride ourselves on neatly cable managed carts, which are still easily reconfigurable. We have worked with a variety of cart manufacturers including Anywhere, Black Box, Bretford, JAR, Lock'N'Charge, Tripp-Lite and others in both charge-only and network managed cart configurations.

Arey Jones Configuration Department—Standard Services Catalog (pricing upon request for below services)

Laser Etching

Arey Jones will etch your District's logo according to the logo usage guidelines and specifications. Other text can also be added such as "PROPERTY OF" or the name of a project or funding source (E-Rate, Title 1, etc.). The final positioning, font families, and text/logo sizes will be at the direction of the school district. Additionally, Arey Jones has the ability to etch asset tag assigned to the device by the District as well as other variable information such as warranty expiration date.

Inventory Asset Tagging and Management

Arey Jones asset management service goes above and beyond simply applying a label to a fixed asset. We have developed a process that has worked with hundreds of districts in around the country. Arey Jones can create custom asset tags for your district (example below), or use District-supplied tags to perform our asset tagging service. Our asset management service provides reporting of key asset details including, but not limited to:

- **Serial Number**
- **Asset Tag**
- **District PO Number**
- **Installation Date**
- **Delivery Location (site)**
- **Location Number**
- **Room Number**
- **Manufacturer**
- **Model**

Optional fields include, but are not limited to:

- **MAC Address (wired or wireless)**
- **Warranty Expiration Date**
- **Assigned-to Person**
- **Project Description/Funding Source**

Asset reporting can be provided in a number of ways. We can produce MS Excel-based reports that are emailed to key stakeholders on a scheduled basis that cover all installed assets during the last reporting period (month, quarter, semester, year). Optionally, the district may add our online asset portal service, Asset Locker to the asset management service.

Arey Jones also has on board Asset Management Specialists who consolidate all collected serialized asset data and upload it into the optional Asset Locker web portal or produce scheduled reporting after asset data validation. Arey Jones can provide all data via: hard copy, CD-ROM, secure web site, and or e-mailed as needed by the district. We are also able to produce custom asset labels to meet District requirements.

Windows: Imaging and Configuration

When imaging is purchased, all imaging tasks for computers delivered school sites or the District's Warehouse/Distribution Center will be performed prior to shipping in our local fulfillment centers' configuration department. This ensures that systems delivered to the District are ready to go when delivered. Arey Jones will also maintain a catalog of images developed in cooperation with the District. Our technicians can assist in the creation and development of Windows system images. We are able to accept images in a variety of standard image formats including MS Windows Image (DISM/ImageX aka WIM), Symantec Ghost and Clonezilla. We will work with the Board's technology department to support other formats as required.

Optional Site to Site VPN

Should the District wish to implement a VPN connection, Arey Jones will also be able to perform provisioning tasks such as Active Directory Domain Join or SCCM-based installations on the configuration department workbench prior to delivery. Larger school districts have also collocated MDT and SCCM remote deployment point servers in our configuration centers that link back up via VPN tunnels. Co-located servers are kept in a secure, climate controlled environment with limited physical access. Arey Jones offers this deployment server collocation service for our customers at no additional charge.

Windows: Domain Join

It is the desire of Arey Jones to perform as many tasks as possible relating to the configuration of computing devices while at our warehouse. To this end, we will work with the District to establish a VPN

tunnel to perform computer naming and domain join functions. Arey Jones currently uses VPN tunnels to work with our largest customers to streamline the imaging and configuration process. If VPN setup is not possible, these functions will be shifted to the on-site installation teams.

About Arey Jones:

Headquartered in San Diego, California, Arey Jones was founded in 1897 to serve the stationary and administrative needs of the local educational market. In 1972, Arey Jones was purchased by Broadway Typewriter Company, owned by the Scarpella Family. Since that time, the Scarpella Family has operated and expanded the business as Arey Jones Educational Solutions. Today, Arey Jones Educational Solutions is the premier nationwide provider of technology solutions dedicated to working exclusively with K-12 educational market. Arey Jones Educational Solutions has been involved with this business from the very beginning in the early 1990’s providing hardware, software, integration, configuration, service and support. This dedication to working exclusively with the K-12 marketplace offers Arey Jones a unique qualification to meet the technology needs of Districts nationwide. Every employee within the Arey Jones company has experience working with the hundreds of School District customers around the county we have contracts with. Arey Jones has offices in California (San Diego, Los Angeles, San Francisco), Alabama (Mobile, Baldwin), Georgia (Atlanta), and Florida (Broward). The Scarpella family remains actively involved in day-to-day executive management and operations of the company, ensuring complete customer satisfaction.

The Executive Team and Scarpella Family believe in the value that is created in having a strong workforce that focuses on putting the customer first. Our team’s commitment to our customers is responsible for the success we have in meeting the differing needs of school districts nationwide.

Arey Jones strongly believes in the idea having qualified and well trained employees on all aspects of our business that can provide the best possibly customer service to the District at

every level. Arey Jones has a strict policy regard all background checks on employees and keeps current all necessary fingerprinting or registration for employees. We understand the importance of having trustworthy employees working with schools.

Our senior staff not only includes the executive team, but also all of our management team have been with us for over 10 years. The Scarpella family makes up the executive team, and Michael, Peter, David and Mattie Scarpella have all worked in the K-12 education technology market since the late 1980's. The other members of the senior staff have between 10-20 years in K-12, and work closely with the Scarpella family in all facets of the business.

Our teams will give a personal connection allowing Magnolia Public Schools to place a face with the name who is very familiar with the district environment. Unlike the average computer reseller teams, the dedicated teams work strictly with education clients allowing them to better understand the special requirements of working with school districts. Educators hold one of the most important missions in the world while balancing new opportunities and challenges in the classroom every day. Arey Jones knows that it is critical that the technology is being used every step of the way to increase the effectiveness of education and make it reliable, practical, and inspiring.

Part of Arey Jones extensive training for new candidates is included in our 90-day introduction organizational training all employees are required to take. This is an extensive training process that involves all departments of our organization. Experience has proven that investing in our employees training results in maintain a high level of customer satisfaction and employee retention. Additional training provided by our partner manufacturers Lenovo, HP, Dell, Apple and many more is part of an on-going training program. This ensures that all managers and team members have the same base knowledge and are able to work together well.

Many of the managers/supervisors have all been promoted from within, and some have even been with Arey Jones since the beginning of their K-12 journey. The managers all have at least five years of experience in working with customers and suppliers in educational technology, some even having upwards of 25 years of experience. Each of the manager's teams are trained broadly, as well as specifically to their area of work. Our technicians and engineers working service and repair all have the necessary manufacturer (HP, Dell, Lenovo, Apple, and so on) certifications required to perform work. Arey Jones also requires our technicians and engineers to have other technical certifications such as A+ Certified, N+ Certified, and Microsoft Office Certified.

[Arey Jones Assurances for Magnolia Public Schools:](#)

Our proven track record of providing high quality service and product can be seen with our references, many of our customers have been working with us for 10-25 years. We provide them with service and support and utilize top-tier manufactures. Our relationship with these top tier manufactures allow for us to provide the District with the best options in terms of cost,

and also allows for visibility into future models. Our custom deployment, integration, and warranty support are tailored to meet the needs of a District both large and small.

Arey Jones serves as a strategic partner in services and support to our Districts nationwide. We have years of experience understanding the various needs of different Districts. We understand that customer service is a priority and services needs to be performed at the top level.

Timely acquisition, deployment, and implementation are all requirements of a standard Arey Jones process. We understand that Districts need to limit the amount of classroom disturbance and that their staffs time is very valuable. We strive to make our turn key solutions as seamless as possible. Many of our project managers and integration managers have years of experience making sure that projects are planned and deployed in the timely manner.

Affordability is a top concern of many Districts, and at Arey Jones we make it a top priority to provide the best option for you district keeping cost in mind. Our close relationship with manufactures allow for us to have the latest technology and competitive pricing.

Customer References

Included below is a sampling of similarly sized district that Arey Jones has worked with around the county as well as some of our flag ship accounts.

San Diego Unified School District – San Diego, CA

Contact Information:

Greg Ottinger, Executive Director

4100 Normal Street, San Diego CA 92103

Phone: 619. 260. 5473

Fax: 858.503.1757

Email: gottinger@sandi.net

Arey Jones has worked with the San Diego Unified School District for over 35 years. The San Diego Unified School District (SDUSD) serves over 135,000 students, and has marked more than 150 years of service to San Diego's children. The student population is extremely diverse, representing more than 15 ethnic groups and over 60 languages and dialects. Arey Jones currently provides integration services (Acquisition, Warehousing, Delivery/Installation, Asset Tagging and Imaging) and maintenance support on all procured equipment.

One of the largest and fastest deployments for SDUSD performed by Arey Jones was 40,000 devices in less than 90 days.

SDUSD i21 Project Refresh 2014 - Present

As illustrated on San Diego Unified School District's Web site, "the i21 Interactive Classrooms Project creates an opportunity for new learning practices that will support the teaching and learning of 21st century skill outcomes. It allows all students to become expert learners in relevant, real world 21st century contexts. The i21 project began in 2009 as a five year initiative to transform teaching and learning in the San Diego Unified School District. It provides 21st century architectural and interior designs for group, team and individual learning as well as a universal design in quality learning tools and technology resources."

Project Summary:

- A Windows 8.1 deployment of 44,000 Convertible notebook PCs to teachers and students.
- Consolidation of services provided by warehousing laptops and carts and in a single location to facilitate the creation of an installation solution that has minimal impact on the school site. Arey Jones coordinates all outside vendor deliveries connected to this project.
- Pre-imaged computers from the warehouse provide "One Stop" delivery to schools.
- Weekly i21 meetings with Integrated Technology Support Services (ITSS) Project Committee to systematize the rollout.

Arey Jones Scope of Work:

- The delivery to school site includes: un-boxing, set-up, laptop labeling, premium custom cable management within the mobile carts, internet connectivity and trash removal from site.
- Asset Management data is collected for all computer systems including Asset Tag numbers, system/printer serial numbers, dates of installation, classroom assignment and school site information as required by SDUSD standards.

- Arey Jones provides experienced engineers in all Windows platforms on Enterprise Network environments.

Arey Jones assists the districts Educational Technology Department with the teacher tablet deployment training sessions at SDUSD.

We currently provide Dell, HP, Lenovo, Samsung, Microsoft Surface (desktops, laptops, servers, chromebooks, tablets) warranty service for the 750+ the schools and offices throughout the district as well as integration services for the above mentioned manufacturers and Apple.

Recently LAUSD embarked the ITI 1:1 Project, Phase 2. Within Phase 2, Arey Jones deployed both Chrome and Windows devices totaling approximately 17,000 devices.

One of Arey Jones largest and quickest deployments was 20,000 devices in less than 90 days.

Project Summary:

- Receive and warehouse
 - Receive and maintain and inventory systems within an insured and bonded warehouse
- Configuration and Engraving
 - Custom System imaging according to imaging specifications
 - Laser-engraving with “Property of LAUSD” Logo
 - Application of Asset Tag
- Consolidation of Systems into kits
- Delivery and Installation
 - Meet with LAUSD Project Manager to review school site listing, student ID’s as required and tentative completion dates
 - Work of LAUSD Project Manager to schedule pre-delivery site surveys
- Asset Management
 - Provide On-line asset management system, Asset Locker
 - Work with designated site and personnel to train them on the use of Asset Locker for student and device adds and moves and changes as well as producing reports
- Warranty Repair
 - Provide 24 hour repair/replace LAUSD warranty
- Support/Help Desk
 - Provide live operators available to answer services related calls during prime period of maintenance Monday through Friday
 - Provide additional access to status of actions and ability to initiate warranty support requests through provided web site access

San Francisco Unified School District – San Francisco, CA

Contact Information:

Melissa Dodd, Chief Technology Officer
555 Franklin Street, San Francisco, CA 94102
Phone: 415.615.8984
Fax: 415.202.0758
Email: doddm@sfusd.edu

Arey Jones has partnered with San Francisco School District for the last two years and provides a turn-key solution on all desktops, laptops and Chromebooks purchased throughout the District. Arey Jones also provides the integration services on the Apple devices as well. This year, San Francisco Unified has rolled out over 1,300 Chromebooks and over 300 Windows Laptops to over 100 school sites for the SBAC testing. Along with the Chromebooks, there were over 700 Windows Laptops as well as over 3,000 Apple MacBooks for the Laptops for Educators Project. All Chromebooks and Laptops are configured, asset tagged and tested prior to delivery.

Project Summary:

- A Chromebook deployment of 1,300 Chromebooks
- A Laptop deployment of 1,000 Windows Laptops and 3,000 Apple Laptops
- Arey Jones enrolls each laptop into the Chromebook Management Console and names it per the districts specifications.
- Each Chromebook was asset tagged and labeled.
- Consolidation of services provided by Arey Jones warehousing the Chromebooks, and wireless carts in a single location to facilitate the creation of an installation solution that has minimal impact on the school site. Arey Jones coordinates all outside vendor deliveries connected to this project.
- Pre-imaged computers and laptop carts that are setup prior to the delivery and install from the warehouse provide “One Stop” delivery to schools.
- Arey Jones coordinated delivery to school site includes: un-boxing, set-up, laptop labeling, premium custom cable management within the mobile carts, internet connectivity and trash removal from site.
- Asset Management data is collected for all computer systems including Asset Tag numbers, system serial numbers, dates of installation, classroom assignment and school site information as required by San Francisco USD.

Oakland Unified School District – Oakland, CA

Contact Information:

Colleen L. Calvano, M.Ed, CCTO, Executive Director, Technology Services
1000 Broadway, Oakland, CA 94607
Office Phone : 510-838-1525
Email: colleen.calvano@ousd.org

Arey Jones has partnered with Oakland Unified School District for the last two years and deploys all desktops, laptops and Chromebooks purchased throughout the District. Arey Jones also provides the

integration services on the Apple devices as well. Last year Oakland Unified has rolled out 11,000 Chromebooks to over 80 school sites for the SBAC testing. Along with the 11,000 Chromebooks, there were 253 laptop carts and 253 wireless access points installed across the district. Each cart is completely built with Chromebooks installed, Ethernet cables configured correctly and access points mounted on top of the cart. All Chromebooks are asset tagged, laser etched and tested prior to delivery. In addition to the 11,000 Chromebooks previously deployed, Arey Jones is also in the process of deploying 3,000 teacher Chromebooks.

Project Summary:

- A Chromebook deployment of 11,000 Chromebooks, 253 wireless access points and
- 253 wireless carts to 90 locations in OUSD.
- Using a phased deployment methodology, Chromebooks, access points and wireless carts were implemented over a two and half week period.
- In addition to deploying 11,000 Chromebooks, Arey Jones also updated the software to the latest OS on all 11,000 devices.
- Arey Jones enrolls each laptop into the Chromebook Management Console and names it per the districts specifications.
- Each Chromebook was laser etched with the custom OUSD logo on it along with being asset tagged and labeled.
- Consolidation of services provided by Arey Jones warehousing the Chromebooks, access points and wireless carts in a single location to facilitate the creation of an installation solution that has minimal impact on the school site. Arey Jones coordinates all outside vendor deliveries connected to this project.
- Pre-imaged computers and laptop carts that are setup prior to the delivery and install from the warehouse provide “One Stop” delivery to schools.
- Bi-Weekly conference calls with OUSD Technology management team to systematize the rollout.
- Arey Jones coordinated delivery to school site includes: un-boxing, set-up, laptop labeling, premium custom cable management within the mobile carts, internet connectivity and trash removal from site.
- Asset Management data is collected for all computer systems including Asset Tag numbers, system serial numbers, dates of installation, classroom assignment and school site information as required by OUSD

East Side Union High School District – San Jose, CA

Contact Information:

Randy Phelps, Director of Information Technology Service

830 N Capitol Avenue

San Jose, CA 95133

Phone: 408.347.5150

Email: phelpsr@esuhsd.org

Arey Jones has deployed over 9,000 Chromebooks to East Side Union High School students with a complete turn-key solution to ensure that the end user have access to the device and content immediately. Arey Jones is also in the process of deploying an additional 11,000 Chromebooks prior to school opening

- Deployed 9,000 Chromebooks within 250+ carts throughout the District and is current deploying 11,000 additional Chromebooks and 300 carts.

- Arey Jones updates the software to the latest OS on all Chromebooks.
- Arey Jones enrolls each laptop into the Chromebook Management Console and moves the device into the correct root within the organization unit.
- Each Chromebook is labeled with a “property of” tag and the carts are labeled with an asset tag.
- Pre-imaged computers and laptop carts that are setup prior to the delivery and install from the warehouse provide “One Stop” delivery to schools.
- Arey Jones coordinated delivery to school site includes: un-boxing, set-up, laptop labeling, premium custom cable management within the mobile carts, internet connectivity and trash removal from site.
- Asset Management data is collected for all computer systems including Asset Tag numbers, system serial numbers, dates of installation, classroom assignment and school site information as required by ESUHSD.

Santa Ana Unified School District – Santa Ana, CA

Contact Information:

Bob Chavez, Information Technology Manager

1601 East Chestnut Avenue

Santa Ana, CA 92701-6322

Phone: 714-480-4706

Email: Bob.Chavez@sausd.us

Arey Jones has partnered with Santa Ana Unified School District for the last two years and deploys all desktops, laptops and Chromebooks purchased throughout the District. Santa Ana Unified has rolled out 20,000 Chromebooks and intends to deploy an additional 20,000 over the course of the next two years to ensure that all 6-12th grade students have access to a device. All Chromebooks are asset tagged, laser etched and tested prior to delivery.

- Deployed 20,000 Chromebooks with a portion of the devices being populated in carts.
- Arey Jones updates the software to the latest OS on all Chromebooks.
- Arey Jones enrolls each laptop into the Chromebook Management Console and moves the device into the correct organization unit.
- Each Chromebook is labeled with a “property of” tag and the carts are labeled with an asset tag.
- Pre-imaged computers and laptop carts that are setup prior to the delivery and install from the warehouse provide “One Stop” delivery to schools.
- Arey Jones coordinated delivery to school site includes: un-boxing, set-up, laptop labeling, premium custom cable management within the mobile carts, internet connectivity and trash removal from site.
- Asset Management data is collected for all computer systems including Asset Tag numbers, system serial numbers, dates of installation, classroom assignment and school site information as required by SAUSD.

Arey Jones was awarded the contract for computer deployment services for the Broward County Public School system in Broward county Florida. For BCPS Arey Jones receives product from manufacturers, consolidates orders, provide imaging and configuration including VPN-based Active Directory domain join from our warehouse. We also provide warehousing and storage capabilities until the district's schools are ready to receive product for large deployments. Delivery for BCPS includes full white glove installation and trash removal services on our trucks.

The School District of Palm Beach County

Contact Information:

Chris Persaud , Director of Technical Operations

Palm Beach County School District

3300 Forest Hill Blvd. Suite # B-332

West Palm Beach, FL 33406

Office: 561-434-8910

Email: chris.persaud@palmbeachschools.org

To enable standardized testing and 1:1 computing, Arey Jones Deployed 16,500 Dell Chromebooks within 30 days to every elementary school. Arey Jones also provides in-warranty and post-warranty service and support.

Fulton County Schools

Contact Information:

Mia M. Thacker, Senior IT Project Manager

6201 Powers Ferry Road Atlanta, GA 30339

Office: 470-254-5718

Email: thackerm@fultonschools.org

Arey Jones provides Fulton County Schools with a variety of Dell systems including Desktops, Laptops, Tablets and All-In-One systems as well as their associated accessories. Custom Services for Fulton County Schools include: Imaging with custom district-provided Windows image, asset tagging and management (for large rollouts), domain join, delivery, installation and onsite warranty service.

Lowndes County Schools – Valdosta, GA

1592 Norman Drive, Valdosta, GA 31601
Office: 229-316-1864
Email: alrowell@lowndes.k12.ga.us

Arey Jones provides Lowndes County Schools with a portfolio of Chromebook devices and related accessories. Custom services for Lowndes include delivery to school site location and asset data reporting.

Fannin County Schools

Contact Information:

Michael Gwatney, Director of Technology
FCSD Technology Center- 130 Rebel Circle, Blue Ridge, GA 30513
Office: 760-258-2791 x22
Email: mgwatney@fannin.k12.ga.us

Arey Jones provides Fannin County Schools with a variety of HP systems including Desktops, Laptops and All-In-One systems as well as their associated accessories. Custom Services for Fannin County Schools include: Imaging with custom district-provided Windows image, delivery, installation and onsite warranty service.

Mobile County Public School Systems – Mobile, AL

Contact Information:

David Akridge, Executive Manager of Information Technology
1 Magnum Pass, Mobile, AL 36618
Phone: 251-221-5142 ext. 6204
Fax: 251-221-6260
Email: dakridge@mcps.com

Arey Jones has worked with Mobile County Public School System over 20 years. We currently provide HP Servers, IBM/Lenovo Product (desktops, laptops, tablets and servers) warranty service for the 97 schools and offices throughout the district as well as integration services for IBM/Lenovo and HP for these same sites. We have provided custom services for Mobile County Public Schools as well as imaging and installing large special project roll outs.

Windows 7 Migration Project

Arey Jones' team of technicians was deployed to several school campuses to collect the serial numbers of existing machines with Windows 98 Operating System. Once the data was collected, we created and provided an electronic database of the machines types, serial numbers and room numbers for Mobile County's IT Department. Mobile County was then able to decide how many machines to refresh. Arey Jones delivered pre-imaged and asset tagged Windows 7 machines to the campuses and completed the data migration and installation of the new systems. Arey Jones moved the existing Windows 98 machines to a designated location on each campus for recycling. We provided Mobile County's IT department with a complete electronic asset database for each school site.

1:1 Student Laptop Initiative for Middle and High Schools featuring the Lenovo X130e

Arey Jones provided custom imaging, etching and asset tagging of the Lenovo Student laptops. Our installation teams worked with Mobile County's IT department and the school sites on the deployment of the student laptops. Upon completion of the installation, Arey Jones provided the district office with a complete electronic asset database including additional information Mobile County's IT department requested.

Baldwin County Board Education – Loxley, AL

Contact Information:

Homer Coffman, Chief Technology Officer,

1071 B Avenue, Loxley, AL 36551

Phone: 251.972.6850

Fax: 251.972.6851

Email: hcoffman@bcbe.org

Arey Jones has worked with the Baldwin County Board of Education for 13 years. We have provided Lenovo and HP computers and servers to schools throughout their district with Pre-configured, Pre-imaged computers. We provide the un-boxing and set-up of the computers for desktops and laptops. To date, we have delivered and installed in excess of 12,000 computers with installation and 3-5 year on-site warranty, including hard drive replacement per request.

1:1 Chromebook Deployment

Arey Jones has recently begun the phased deployment of 23,000 Lenovo N22 Chromebook systems into the Baldwin County Public Schools. Each student in the Baldwin schools will receive a Chromebook as their personal device to use throughout the school year. These Chromebooks include full Accidental Damage Protection and are replacing an aging fleet of MacBook Air systems that are no longer under warranty or are coming off-lease. Baldwin County Public Schools expects significant multi-year cost savings from switching to the Chromebook platform.

Computer Refresh Program

An Arey Jones representative and a Baldwin County employee surveyed a selected number of Baldwin County's school sites in search of out of warranty computers and collected the data off the machines. Arey Jones provided Baldwin County IT department with an electronic database of the machines. Once the data was collected, Baldwin was able to determine the amount of machines to be replaced. Arey Jones provided the Pre-imaged and asset tagged computers to the school sites and worked with Baldwin County IT department on the installation and setup of the new computers. At the time of Installation, Arey Jones' technicians moved the older computers to a designated location on the school campus for disposal.

System Relocation, Recycling and Disposal

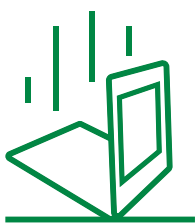

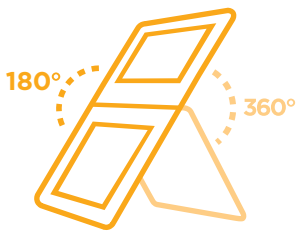

Baldwin County has provided Arey Jones with a list of locations containing out of warranty equipment that needed to be picked up and delivered to storage for recycling/disposal. Arey Jones technicians have picked up a variety of items under Baldwin County IT's direction: desktops, laptops, monitors, scanners, VCRs, televisions, printers, servers, ETC. Our technicians' record the asset tag number, serial number, model type, and the location from where we removed the equipment and provide Baldwin County an electronic copy of the equipment

we've picked up. Arey Jones also provides computer moves within the district from one school site to another.

PENCILS DOWN. THESE BOOKS MAKE THE GRADE.

THE N23 FAMILY CHROMEBOOKS ARE A PERFECT FIT FOR ANY STUDENT.

Designed for a multi-class learning experience, the N23 and N23 Yoga provide the amazing benefits of Chromebook's secure network, at a cost effective price. Versatile and rugged, both devices provide a flexible solution built for the modern classroom. The N23 Yoga features a built in touch-screen, while the N23 gives you an optional touchscreen. When paired with the powerful Chrome Management Console, the N23 family delivers any size school district seamless, secure management of each student's device. Plus, with features like a rotatable webcam on the N23 and a 360-degree hinge on the N23 Yoga, they truly are built to take on the demands of any classroom.

THE N23 & N23 YOGA'S NOTEWORTHY FEATURES

The 360-degree hinge on the N23 Yoga takes learning to the next level thanks to its multi-touch, anti-glare display. With its four unique modes—laptop, tablet, tent, and stand—students now have the freedom to bend, flip or turn while they learn. Class projects can truly come alive with the N23. Its 180-degree rotatable webcam makes collaborating with classmates a breeze, while the anti-glare display ensures minimal eyestrain and maximum focus. The N23 family is optimized to run the Chrome Web Store apps that enhance the collaborative learning environment. It also comes equipped with G Suite for Education, which includes apps like Classroom, Docs, Hangouts, Gmail, and more. Other available apps like My Study Life and Codeanywhere ensure the N23 family is built to be equal parts resilient and brilliant.

PORTABLE POWER THAT WON'T WEIGH YOU DOWN

At less than 3 pounds, the N23 is lighter than most textbooks. And with up to 10 hours* of battery life, it can make it through an 8-hour day of classes, plus help with a bit of homework. So don't worry about weighing yourself down with unwanted school supplies or a power cord, the N23 has the battery life and processing power to replace your pens and paper.

SMART AND STRONG—NOW THAT'S A NO BRAINER

When it comes to wear and tear, the N23 was designed to keep up with the demands of a hectic classroom. Built to withstand a fall from up to 70cm, its durable, drop-resistant design is a match for any students' slippery grip. And thanks to a non-slip texture, scratches and wear are easily hidden. Plus, its water-resistant keyboard and mechanically anchored keys are made with the busiest bunch of students in mind. When it comes to the N23 Chromebook, nothing slows down its shareability and productivity.

*All battery life claims are approximate and based on test results using the MobileMark® 2014 ver 1.5 battery life benchmark test. Actual results will vary, and depend on numerous factors including product configuration and usage, software, operating conditions, wireless functionality, power management settings, screen brightness and other factors. The maximum capacity of the battery will naturally decrease with time and usage. See <https://bapco.com/products/mobilemark-2014/> for additional details.

LENOVO™ SERVICE

WARRANTY UPGRADES – ON-SITE / IN-HOME SERVICE

Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

ACCIDENTAL DAMAGE PROTECTION

Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.
