He explained that since the last approval of Hertz contract, the vendor had notified MPS that there was an incorrect number on the bid and the bid was actually \$9,000 higher than what was previously approved, however, the bid was still the lowest that was received. P. Ontiveros provided the information that was given by the vendor regarding the mistake and stated that the vendor could not accept the contract without the additional cost since the bid was already low. Committee Members, stated their concern regarding the furniture items being of the same quality as stated in the original contract, P. Ontiveros stated that the items in the

contract shall remain the same as originally stated. Committee Members directed staff to ensure the products purchased as part of this contract are of high quality and they want a letter from the vendor that states the explanation regarding the changes on the original bid and a commitment to high quality items.

The school is not paying for these projects, the funds are being taken from the CSFIG granted amounts. In addition, although MSA-7 is located at a private site not owned by MPS, the school does plan on staying for at least a few more years as reflected on the lease contract. P. Ontiveros mentioned that the final cost would be known once the projects went through the proper approvals. This item requires a full board approval, before it goes to the board, committee members asked for additional information to be incorporated in the report.
