**IV. Information/Discussion Items**

**A. Review of MPS' LCAP process: 4 goals, 20 actions, and lots of metrics**

D. Yilmaz, MPS Chief Accountability Officer, went over the LCAP and the related goals and action steps. The Financial Planning & Analysis (FP&A) Software tool that was approved by the Board will help code every expense into the LCAP goals and actions. Throughout the year they create charts that show the standing so that MPS schools are able to see where they currently are and to show their progress in regards to reaching their goals. This will be helpful in monitoring the 50+ metrics. The Accountability Department will report out data, measure out schools progress and how they monitor the progress. No vote was required.

**B. Data presentation: 2020-21 MPS Demographics**

L. Woods, MPS Executive Office Manager for the Accountability Department, oversees all CALPADS and data submissions for the state and local authorizers which is reported yearly. In regards to student enrollment MPS is close to where they were last school year. L. Woods went over individual schools enrollment counts as well as a comparison from last years census day. The most significant difference is in the free and reduced numbers which tracks the number of students eligible for free or reduced meals. However what is available now is an Alternative Household Income Form which they are collecting from families so they can get MPS schools back to those free and reduced percentages that is usually seen annually. That is expected to change once they collect more of the Alternative Household Income forms from families. No vote was required.

**C. Update on LAUSD Oversight Report on Fiscal Benchmarks**

S. Orazov, MPS Chief Financial Officer, presented the Fiscal Benchmarks for MSA-4, 6 & 7. This presentation included the MPS action plan and proof of ongoing implementation. Part of the renewals for MSA-4,6 & 7 came with certain benchmarks put forth by those schools that they must meet during their charter term. Areas that were presented in the

oversight reports for growth and improvement were highlighted to the Board as well as the Board approved plans of action for each area. Recommendations that were previously made were also presented with discussions to supplement those areas as well as a Board approved action plan for the areas of recommendation. This was previously discussed with the Board September 2020.
