C. Approval of Contract with EdTheory to Provide Additional Special Education Services

A.Callaham, Director of SPED and Special Services, discussed that after the pandemic they were faced with issues in personnel who provided special education services at the school sites and how the utilization of agencies was crucial to ensure these services were available since staffing was spread thin. The void continued to exist which prompted looking into other agencies and issuing an RFP process. EdTheory, though being in Northern California, provided services to the Los Angeles and surrounding areas. They contract with consultants in Southern California and are able to send consultants to the school site along with assigning as supervisor. Staff looked at cost and logistical requirements such as: providing local services, credentialed, California Department of Education approved and being able to provide on-site personnel which EdTheory met. This would assist in aiding the need for additional support needed from the school sites. Z.Ocel, Principal at MSA-3, provided insight to the struggles his school has faced and how this can help with providing these essential services to the students. Board members questions were addressed by staff.

S. Covarrubias made a motion to approve the contract not to exceed \$100,000 with EdTheory for additional Special Education services as needed by our ten (10) MPS schools for special education compliance.
