A. Big picture facilities strategy discussion

J. Hummel - wanted to speak to the board as a whole about thoughts on the future strategy of facilities. Based budget on 620 versus 720.

Shared concerns about the implementation of Phase 2 and what the demands will be for Phase 2.

Charter renewal - wrapping this up into the resources required with facilities construction plan.

G. Jackson - # of students, what are implications of moving the #s to what it was to what we will be using now. Ability to grow and expand with the facilities.

D. Jackson - upkeep and maintenance

Dr. Williams - grading of the school, how to attract or grow/advance to get students to the school. Would like someone to come in and give us background on "environment of the future." Suggestion: Guest presenter on school environments and makeup

T. Lewis - Due to the great school culture, facilities does not hold back enrollment, however, it can help. Academics - do we have enough space, special needs (SPED), pull-out spaces. Also, the budget. Making sure we can make the payments and keep the building up. We need long-term facilities plans (life safety, stay within 15% of the budget, and adequate capacity, enrollment, and sports).

R. Harris - grading of the school. Work to get this grade up. Facilities and Academic rating - what is their mutual dependency?

D. Jackson - board needs more background on academic ratings/grades to understand how we get our school performance score.

T. Mackey - have funds to keep building in good shape, maintain and grow to the # of students we want to get. Provide that high school experience.

K. Sullivan - the connecting piece is that facilities go towards family/parent/student/staff/admin and donor satisfaction. What is the effect of the facilities? Enrollment, Sports?
