II. Academic Achievement

A. Academic Dashboard

- Bill and Jess discussed the Academic Dashboard as presented. The committee discussed the attendance metrics. Bill shared about discipline this year and shared an update about the after-school tutoring program. Jess shared that the after-school program is going well and that the majority of students who were invited to attend are participating.
- Bill and Jess discussed the academic assessment results. Jess discussed that some of the foundational skills taught in Kindergarten and 1st grade were challenging to teach over Zoom but are being reinforced now. She shared that many of the students in 3rd grade are new this year, more than in previous years. The committee discussed the school's goals and targets for assessments and how to include both growth and results in those goals.
- Bill and Pam discussed the DESE report regarding the identification of Special Ed students, the discipline of students, and any racial or ethnic group disparities in these processes. They noted that no issues were identified.

B. MCAS Results Review

- Bill discussed the MCAS results report. He discussed the overall results across the state as well as for Springfield Prep and charters in similar environments. Jess and the committee discussed the trend of results over the past few years and the sub-group scores.
- Jess discussed the acceleration strategies that the academic team is using to help students during the pandemic, including Professional Development.
- Pam discussed that the Special Education team is collaborating with classroom teachers on data analysis, progress monitoring, and scaffolds to ensure they are reinforcing skills that will help Special Education students succeed alongside their peers.
- The committee discussed these approaches and agreed that it is the right path (vs. remediation) based on what was shared and the effectiveness of these methods prior to the pandemic.
