She noted that the school is on-track to end the fiscal year with cash on hand at an industry-average and state-recommended level.

Meghan shared that the school is planning its budget for the upcoming year and the next several years and will be reviewing the FY23 proposed budget, as well as 5-year projections, with the Finance committee and the board. These budgets will include detail about which program areas are supported by ESSER funds.

B. Building Project

- Bill and Meghan presented the final building budget, reflecting that the project was approximately \$350k under budget, though the school and committee are still confirming there are no additional project costs.
- Jason described a known potential additional expense for a commissioning agent who will ensure the building was built according to specifications and functioning as intended, and who will recommend any improvements or fixes. He recommends hiring a commissioning agent based on his experience with new construction and given the value of the building. The school has received 2 proposals for this work

and has reviewed these with the Owner's Project Manager. The school is finalizing terms with its preferred agent and intends to proceed. School management seeks a vote to authorize contract approval so that it can move ahead once the terms are finalized.
